As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 132, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 132, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Chang).

SCRep. 640 Commerce and Consumer Protection on S.B. No. 57

The purpose and intent of this measure is to:

- (1) Codify certain certification, renewal, and violation processes of vehicle inspectors who conduct vehicle safety inspections under the Department of Transportation;
- (2) Repeal the requirement for reconstructed vehicles to obtain a special inspection and certification; and
- (3) Require the Director of Transportation to adopt administrative rules regarding exhaust noise checks as part of the motor vehicle safety inspection process to be no louder than ninety-five decibels to pass the inspection.

Your Committee received testimony in support of this measure from the Department of Transportation, Oahu Motorsports Association, 4Runnation Hawaii, 808 Street Rods, Muscle Cars Hawaii, Okami Works LLC, and seventy-four individuals. Your Committee received testimony in opposition to this measure from six individuals. Your Committee received comments on this measure from five individuals.

Your Committee finds that vehicle inspectors serve the important function of ensuring the safety of vehicles on Hawaii's roads. This measure codifies the process by which vehicle inspectors obtain and renew their certification and the penalties for improper inspections. Your Committee also finds that the reconstructed vehicle inspection program unique to Oahu is not necessary. Available crash data does not indicate that reconstructed vehicles are more dangerous than other vehicles. As this program is restricted to Oahu and there is no data to support the conclusion that it is effective, this measure repeals the requirement that reconstructed vehicles be inspected and receive a permit before operating on a public highway.

Your Committee notes the concerns raised in testimony that noise testing is not a road safety concern and may be better regulated and enforced by county noise ordinances or law enforcement. Accordingly, amendments to this measure are necessary to address this concern. Furthermore, your Committee notes this measure is not intended to impact or modify the safety check inspection process for special interest vehicles or street rod vehicles.

Your Committee has amended this measure by:

- Deleting language that would have required the Director of Transportation to adopt rules concerning exhaust noise tests as part
 of the vehicle safety inspection process that would have required exhaust noise to be no louder than ninety-five decibels at
 max revolutions per minute to pass inspection;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 57, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 57, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 641 Commerce and Consumer Protection on S.B. No. 768

The purpose and intent of this measure is to establish the Rental Car Modernization Task Force.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, Imua Alliance, Climate Protectors Hawaii, Ulupono Initiative, Hawaii Electric Vehicle Association, and nine individuals. Your Committee received comments on this measure from 350 Hawaii, Enterprise Holdings, and nine individuals.

Your Committee finds that, for Hawaii to meet its clean energy goals, programs that support the implementation of cleaner transportation options are necessary. The adoption and widespread deployment of electric vehicles is essential to reduce Hawaii's dependence on fossil fuels. Electric rental vehicles, however, require appropriate electric charging infrastructure and capacity at airports, hotels, and other destinations to be successful. It is therefore necessary to first assess these locations to understand their ability to install and operate charging stations to support a fully electric rental vehicle fleet and to ensure an effective transition plan. Accordingly, this measure establishes the Rental Car Modernization Task Force to develop a plan to ensure that electric vehicle charging infrastructure is installed at a rate and volume necessary to support a one hundred percent zero-emission rental motor vehicle fleet by the year 2035.

Your Committee has amended this measure by:

- Clarifying that the Chief Energy Officer, rather than the administrator, of the Hawaii State Energy Office shall serve as a member on the Rental Car Modernization Task Force;
- (2) Requiring the Task Force's plan to include an analysis of how airport parking structures may be able to accommodate charging station infrastructure and the financial requirements to do so; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 768, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 768, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 642 Commerce and Consumer Protection on S.B. No. 251

The purpose and intent of this measure is to:

- (1) Establish requirements and permitting procedures for transportation network companies operating in the State; and
- (2) Make permanent the insurance requirements for transportation network companies and transportation network drivers.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council; Uber Technologies, Inc.; American Property Casualty Insurance Association; Lyft; TechNet; and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association; Charley's Taxi and AllWays Charley's, a TNC; Polynesian Adventure Tours, LLC; Robert's Hawaii, Inc.; and Hawaii Passenger and Property Carrier Association.

Your Committee finds that transportation network companies provide alternative transportation options to increase mobility for locals and tourists alike. As of this year, forty-six states across the country have passed comprehensive rideshare legislation. In Hawaii, transportation network company driver screening and operating requirements are currently only mandated for the City and County of Honolulu. This measure incorporates interested stakeholder consensus language to establish a comprehensive framework that ensures transportation network company driver screening and other operating requirements are mandated for all islands throughout Hawaii, not just Oahu. This measure further makes permanent the insurance requirements for transportation network companies and their drivers.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "transportation network company vehicle" to mean a vehicle that is:
 - (A) Manufactured with seating accommodations for eight or fewer passengers; and
 - (B) Not a truck, truck-tractor, tractor-semitrailer, or semitrailer, as those terms are defined in section 286-2, Hawaii Revised Statutes:
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 251, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 251, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 643 Commerce and Consumer Protection on S.B. No. 244

The purpose and intent of this measure is to:

- Expand liability protection for donors to include donations of food and similar donations made to needy persons by organizations; and
- (2) Authorize the donation of expired food when the donor reasonably believes in good faith that the food remains fit for human consumption.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association, Hawai'i Farm Bureau, Hawai'i Public Health Institute, Hawai'i Pacific Health, and four individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has severely threatened the health and welfare of Hawaii residents. With high unemployment rates, entire families are struggling to put food on the table on a consistent basis. The COVID-19 pandemic has further increased the need to expand and clarify existing law to support food donation programs, while reducing the excessive amounts of food waste in the State, which can overload landfills and create harmful greenhouse gases. This measure helps to remove unnecessary barriers and reduce food insecurity, which has only been exacerbated by the COVID-19 pandemic.

Your Committee notes the concerns raised in the testimony of the Department of Health that the education and promotion of food donation to food establishment owners, managers, or appropriate agents of potential donors is not necessary, as a memorandum concerning donations is already distributed to permitted food establishments as part of the Department's routine inspections. Accordingly, amendments to this measure are necessary to address this concern. Your Committee further notes that it is not a violation of the Department of Health's rules if food establishments choose to donate or distribute wholesome food products beyond their expiration date, as these dates are voluntarily provided by manufacturers to guarantee food quality, and should not be used to determine product safety for purposes of donations.

Your Committee has amended this measure by:

- Removing language that would have required the inspection of food establishments to include education of food establishment
 owners, managers, or appropriate agents of potential donors on reasonable and safe food donation protocols; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 244, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 244, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 644 Commerce and Consumer Protection on S.B. No. 1021

The purpose and intent of this measure is to:

- Prohibit selling, transferring, conveying, or otherwise disposing of or offering for sale any plots, crypts, or niches having an
 authorized capacity limit of fewer than ten sets of cremated human remains or burials prepared consistent with traditional
 Hawaiian cultural customs and practices;
- (2) Include the use of alkaline hydrolysis, water cremation, and natural organic reduction as methods for the disposal of human remains; and
- (3) Amend the procedures for the resolution of disputes regarding the right of disposition, the right to rely and act upon written instructions in a funeral service agreement or similar document, and provisions for the disposition of a decedent's remains and recovery of reasonable expenses to include hydrolysis facilities and natural organic reduction facilities.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and two individuals. Your Committee received testimony in opposition to this measure from Dodo Mortuary, Inc.; Hawaiian Memorial Life Plan; Mililani Group, Inc., dba Mililani Memorial Park & Mortuary; and Hawaii Funeral & Cemetery Association, Inc. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that traditional Hawaiian burial practices are deeply integral to Hawaiian culture and identity. Existing state law, Department of Health administrative rules, as well as cemetery and mortuary practices, have prevented families from carrying on these practices in culturally appropriate, family-style burials. This measure addresses these barriers to facilitate the restoration and revival of traditional Hawaiian burial practices and values by allowing for multiple family members to be interred in family burial plots, and enables the Department of Health to recognize and accommodate the use of other methods for the preparation of human remains for burial.

Your Committee has amended this measure by:

- (1) Clarifying that no plot, crypt, or niche shall be sold, transferred, conveyed, or otherwise disposed of, offered for sale, transfer, conveyance, or other disposition unless the property allows the interment of up to ten sets of human remains that are cremated or prepared consistent with traditional Hawaiian burial in a single plot, crypt, or niche; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1021, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1021, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 645 Commerce and Consumer Protection on S.B. No. 1212

The purpose and intent of this measure is to:

- Require resolution of any outstanding federal out-of-service orders prior to registration renewals and initial registrations of motor carrier vehicles; and
- (2) Define "out-of-service order".

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation's Motor Carrier Safety Assistance Program (MCSAP) is funded through a grant from the Federal Motor Carrier Safety Administration. The federal grant covers eighty-five percent of the MCSAP eligible activities, which include compliance reviews and commercial motor vehicle inspections, to ensure motor carrier vehicles are safe to operate on Hawaii's highways. The Performance Registration Information Systems Management (PRISM) is a federal program that identifies motor carriers that are under a federal out-of-service order because those motor carriers have not corrected safety deficiencies found in compliance review inspections. This measure will allow the State to be compliant with and qualify under PRISM, and thus continue to receive MCSAP funding.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1212, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 646 Judiciary on S.B. No. 36

The purpose and intent of this measure is to:

(1) Prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program, or requirements related to participation in housing assistance programs, in rental transactions and requirements;

- (2) Establish the landlord incentive program special fund to reimburse land owners who participate in the Section 8 Housing Choice Voucher Program for repair costs of tenant-caused property damage when the repair costs exceed the tenant's security deposit; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Hawai'i Civil Rights Commission; Office of the Mayor of the City and County of Honolulu; Catholic Charities Hawai'i; Family Promise of Hawaii; Partners In Care; The Institute for Human Services, Inc; Imua Alliance; League of Women Voters of Hawaii; American Civil Liberties Union of Hawai'i; and three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Budget and Finance and Office of Hawaiian Affairs.

Your Committee finds that low-income individuals experience extreme difficulty in finding affordable housing rentals in Hawaii. Many housing vacancy advertisements proclaim "no Section 8 accepted" or "Section 8 need not apply" in an effort to prevent low-income individuals with housing vouchers from consideration for tenancy. Your Committee further finds that many states, the District of Columbia, and many cities and counties already prohibit discrimination based on source of income. In those areas where this discrimination is already prohibited, renters with housing vouchers are twelve percent more likely to find housing than in areas that allow for this type of discrimination. Your Committee finds that this measure will prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program.

Your Committee notes that, although the landlord incentive program requires a source of funding, the current referral of this measure does not include your Committee on Ways and Means, and thus this measure should not establish a special fund or make an appropriation at this time. Your Committee further finds that this consideration may merit further discussion as this measure proceeds in the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Removing sections that would have established the landlord incentive program special fund and made appropriations;
- (2) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 36, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 647 Judiciary on S.B. No. 178

The purpose and intent of this measure is to:

- (1) Establish a two-year beach protection pilot program under which no vehicles are authorized to drive on a beach in Polihale State Park without a permit; and
- (2) Require an annual report regarding the pilot program be submitted to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii Shore and Beach Preservation Association. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Polihale State Park is a remote, multi-mile stretch of beach with one unimproved dirt road for access. Your Committee notes that Polihale State Park contains sensitive cultural and natural resources, as well as a recent history of illicit and destructive uses, including that of reckless driving through the dunes and other areas of the park that contain Hawaiian burial sites or critically endangered plants. Your Committee further notes that it was necessary to close the park for several months in 2020 after inappropriate uses involving vehicle access on the beach had reached a crescendo, triggering the need for prompt action for public health and safety due to protocols relating to coronavirus disease 2019.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 178, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 178, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 648 Judiciary on S.B. No. 238

The purpose and intent of this measure is to require the names of the candidates for the Office of Hawaiian Affairs Board of Trustees to be placed on the ballot grouped by residency and non-residency requirements and to randomize the order of candidate names within those groupings.

Your Committee received comments on this measure from the Office of Hawaiian Affairs, Office of Elections, and Common Cause

Your Committee finds that under existing law, names of candidates for the Board of Trustees of the Office of Hawaiian Affairs are placed on the ballot in alphabetical order to ensure that all candidates are properly listed, which corresponds to the voting position for the vote counting system. Your Committee further finds that the ordering of candidate names on a ballot has been shown to affect election outcomes because the first name on the ballot generally has an advantage over names listed further down the ballot. A candidate listed first on a ballot increases their chances of winning by almost five percentage points and going from last to first on the ballot raises a candidate's vote share by ten percentage points. To mitigate any advantage that may arise from the order of candidate names on the ballot, this measure requires that the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs be randomized on individualized ballots.

Your Committee has amended this measure by applying the procedures established by the Chief Elections Officer to the election cycle beginning on January 1, 2022, instead of 2021.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 238, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 649 Judiciary on S.B. No. 866

The purpose and intent of this measure is to temporarily exempt certain affordable housing projects from specific state and county fees and exactions related to discretionary approval or ministerial permitting, except application fees.

Your Committee received testimony in support of this measure from Michaels Development – Hawai'i Region; Mutual Housing Association of Hawai'i, Inc.; Hunt Companies – Hawaii; NAIOP Hawaii; Hawaii Habitat for Humanity Association; Ahe Group; Castle & Cooke Homes Hawai'i, Inc.; Building Industry Association of Hawaii; Hawai'i Appleseed Center for Law and Economic Justice; and one individual.

Your Committee finds that the shortage of affordable housing in the State, exacerbated by the effects of the coronavirus disease 2019 pandemic, is a serious and persistent problem in Hawai'i. Your Committee further finds that easing regulatory burdens on developers for certain housing projects that meet certain criteria will encourage the development of affordable housing and help to address the affordable housing shortage.

Your Committee notes a concern that exempting certain affordable housing projects from regulations and safeguards under chapter 6E, Hawaii Revised Statutes, could lead to the disruption of burial sites or other historically and culturally important places, and that such concern may merit further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 866, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 650 Judiciary on S.B. No. 1333

The purpose and intent of this measure is to remove cannabidiol drugs that have been approved by the United States Food and Drug Administration from the list of Schedule V substances for consistency with federal laws.

Your Committee received testimony in support of this measure from Akamai Cannabis Clinic.

Your Committee finds that section 329—11, Hawaii Revised Statutes, requires that the State's list of controlled substances comport with the list of controlled substances under federal law. Your Committee further finds that the Food and Drug Administration recently approved the prescription drug Epidiolex, and generic versions of that drug which is a plant-derived prescription cannabinoid product used to treat seizures associated with certain types of epilepsy, including rare and difficult to treat forms of childhood-onset epilepsy. This measure brings state law in conformity with federal law by removing approved cannabidiol drugs from the State's schedule V list of controlled substances.

Your Committee has amended this measure by:

- (1) Making conforming amendments to other sections of the Hawaii Revised Statutes to prevent approved cannabidiol drugs from becoming Schedule I substances by default; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1333, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1333, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 651 Judiciary on S.B. No. 582

The purpose and intent of this measure is to amend the definition of "water pollutant" as used in chapter 342D, Hawaii Revised Statutes, relating to water pollution, to include plastic.

Your Committee received testimony in support of this measure from the Surfrider Foundation, Center for Biological Diversity, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Health and American Chemistry Council.

Your Committee finds that the Environmental Protection Agency recognizes that most of the trash that pollutes the nation's waters is plastic trash. Additionally, the Environmental Protection Agency held that seventeen water bodies around the Hawaiian islands are impaired by plastic pollution. Your Committee further finds that on March 30, 2020, the Environmental Protection Agency issued a final ruling, rescinding its approval of the 2018 Hawai'i List of Impaired Waters under Clean Water Act, Section 303(d), citing specifically that "the State's submission does not demonstrate that it has satisfied its statutory and regulatory obligation to assemble and evaluate all existing and readily available water-quality data and information, specifically for plastic trash related to plastics." This measure will enable state and federal regulators to more effectively protect Hawai'i's waters, communities, and wildlife from plastic pollutants.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 582, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 652 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 970

The purpose and intent of this measure is to authorize the establishment of a physician-patient relationship via a telehealth interaction if the physician is licensed to practice medicine in the State.

Your Committees received testimony in support of this measure from the Hawaii Medical Board, University of Hawai'i System, Office of Hawaiian Affairs, Hawai'i Pacific Health, Healthcare Association of Hawaii, Kaiser Permanente Hawai'i, AARP Hawai'i, Hawaii Substance Abuse Coalition, The Queen's Health Systems, Aloha Independent Living Hawaii, Hawai'i Public Health Institute, American Telemedicine Association, and two individuals.

Your Committees find that the coronavirus disease 2019 (COVID-19) pandemic has resulted in the increased use of telehealth services. However, existing state law relating to the practice of telehealth is ambiguous regarding whether a patient can use telehealth to establish a relationship with a physician. Certain emergency proclamations and temporary waivers issued by the Governor during the COVID-19 pandemic clarified that a physician-patient relationship could be established by telehealth, and this measure codifies this change permanently to recognize this widely utilized practice in the United States and to significantly aid in expanding access to health care services, especially for the elderly and patients living in rural areas.

Your Committees have amended this measure by:

- (1) Clarifying that, once a physician-patient relationship is established, a patient or physician licensed in this State may use telehealth for any authorized purpose, including consultation with a medical provider licensed in another state; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 970, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 970, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Misalucha).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 653 Commerce and Consumer Protection on S.B. No. 255

The purpose and intent of this measure is to:

- (1) Authorize the Department of Land and Natural Resources to establish rules and fees for the issuance of a commercial marine vessel license;
- (2) Provide that a single valid commercial marine vessel license satisfies the commercial marine licensure requirement for all persons aboard the licensed vessel;
- (3) Allow marine charter fishing vessels to obtain commercial marine vessel licenses; and
- (4) Require any person who provides fishing charter services to obtain a commercial marine license.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hilo Fish Co.; Tropic Fish Hawaii; Tropic Fish Maui; Tropic Fish Kauai; Kona Fish Co.; United Fishing Agency a.k.a. Honolulu Fish Auction; Ice Partners, LLC; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; Lokahi Fishing, LLC; Hawaii Longline Association; POP Fishing & Marine; Vessel Management Associates, Inc.; and one individual.

Your Committee finds that under existing law, each individual on a fishing vessel must have their own commercial marine license (CML) to participate in a commercial fishing trip, which by definition means any fishing trip where any portion of the catch may be sold. This places logistical and financial burdens on vessel captains when part-time crew members are needed for a commercial fishing trip, or when unscheduled or infrequent visitors are invited aboard. This can also lead to confusion regarding who is responsible for submitting commercial catch reports for fishing activities onboard the vessel. This measure will simplify licensing requirements and improve catch reporting, and will further clarify CML requirements for fishing charter services to allow the Department of Land and Natural Resources to better manage fishing activities in the State.

Your Committee notes the intent of the Department of Land and Natural Resources to amend its CML rules to establish a new commercial marine vessel license (CMVL) category, which would cover everyone onboard under one license and would be more cost-effective for Hawaii boat-based fishers. CMVL rules would also clarify who is responsible for submitting catch reports for the vessel.

Your Committee has amended this measure by:

- (1) Inserting language requiring the Department of Land and Natural Resources to submit a report to the Legislature no later than thirty days prior to the convening of the Regular Session of 2022 concerning the status of its administrative rules establishing a new commercial marine vessel license category; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 255, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 255, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 654 Commerce and Consumer Protection on S.B. No. 1008

The purpose and intent of this measure is to establish the permanent Autonomous Transportation Task Force, to be placed in the Department of Transportation.

Your Committee received testimony in support of this measure from the Alliance for Automotive Innovation, 350 Hawaii, and U.S. Powersports Industry.

Your Committee finds that the automotive industry continues to evolve vehicle technologies toward a future when cars will be fully self-driving. Because there are many industry approaches to automation, solving the equation of how to integrate autonomous vehicles in Hawaii will require input from a broad base of stakeholders. Your Committee notes that the Legislature adopted a concurrent resolution in 2019 that requested the Attorney General to convene the Autonomous Vehicle Legal Preparation Task Force, which recently submitted its last report to the Legislature. Accordingly, this measure makes permanent an Autonomous Transportation Task Force (Task Force) to further prepare the State for the inevitable transition to a future in which all vehicles are autonomous.

Your Committee notes that the Task Force would benefit from consultation with additional stakeholders related to autonomous vehicle implementation, such as those who recently participated in the Autonomous Vehicle Legal Preparation Task Force established in 2019, as they remain available to assist with the continued efforts facilitated by this measure.

Additionally, your Committee notes that this measure, as currently drafted, does not include a member who represents environmental interests. Your Committee finds that the Task Force would benefit from a member representing an entity, such as the Ulupono Initiative that is knowledgeable in environmental issues and policy concerning electric autonomous vehicles. Therefore, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by:

- Amending the composition of the Task Force to include a member who represents an entity that is knowledgeable in
 environmental issues and policy relating to electric autonomous vehicles, and a representative from the powersports industry;
 and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1008, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1008, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 655 Commerce and Consumer Protection on S.B. No. 602

The purpose and intent of this measure is to:

Prohibit certain contracts for managed care entered into after June 30, 2021, from containing a provision that authorizes a
pharmacy benefit manager to reimburse a contracting pharmacy on a maximum allowable cost basis, and void any such
provisions in existing managed care contracts;

- (2) Prohibit pharmacy benefit managers from engaging in unfair methods of competition or unfair practices;
- (3) Prohibit a pharmacy benefit manager from reimbursing a 340B pharmacy differently than any other network pharmacy;
- (4) Prohibit a pharmacy benefit manager from reimbursing an independent or rural pharmacy an amount less than the rural rate for each drug under certain circumstances;
- (5) Prohibit a pharmacy benefit manager from preventing a pharmacist from providing certain information to insureds;
- (6) Increase pharmacy benefit managers' annual reporting requirements;
- (7) Require the Insurance Commissioner to file annual reports with the Legislature;
- (8) Increase pharmacy benefit manager registration and renewal fees by an unspecified amount; and
- (9) Make certain violations of pharmacy benefit managers subject to the penalties provided in chapters 480 and 481, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Hawai'i Primary Care Association and The Queen's Health Systems. Your Committee received testimony in opposition to this measure from Hawaii Medical Service Association, CVS Health, and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, and Pharmaceutical Care Management Association.

Your Committee finds that the federal 340B Drug Pricing Program (340B Program) provides eligible health care providers, such as Federally-Qualified Health Centers (FQHCs) in underserved areas, the ability to purchase outpatient drugs at significantly reduced costs, the savings for which can then be passed on to their patients. The discounts provided in the 340B Program are financed by drug manufacturers, not the government. In recent years, however, a growing number of outside organizations called pharmacy benefit managers (PBMs) have determined how to access the 340B Program savings intended to accrue to FQHCs and other program providers by structuring their contracts to retain all or part of the savings. There is no existing law that restricts PBMs from accessing the savings intended for the 340B Program, which can also have significant impacts on limited state resources. This measure increases fairness and transparency by prohibiting pharmacy benefit managers to, among other things, reimburse a 340B pharmacy differently than any other network pharmacy.

Your Committee has heard the concerns raised in testimony that this measure, as currently drafted, should be clarified to follow the language from the National Association of Insurance Commissioners' Draft PBM Model Law regarding certain prohibited practices. Furthermore, the purpose of this measure is to regulate third-party PBMs, not pharmacies internally owned and managed by health maintenance organizations. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- Clarifying a pharmacy benefit manager shall not reimburse a 340B pharmacy differently than any other network pharmacy or mail service pharmacy based on its status as a 340B pharmacy;
- (2) Authorizing the Insurance Commissioner to determine the form and manner by which pharmacy benefit managers shall file a list of the rural rates for each prescription drug;
- (3) Inserting language prohibiting a contract between a pharmacy benefit manager and pharmacy or pharmacist from restricting or limiting the disclosure of information to the Insurance Commissioner, law enforcement, or governmental agencies, under certain circumstances:
- (4) Inserting language prohibiting a pharmacy benefit manager from terminating a contract or penalizing a pharmacy or pharmacist due to the disclosure of certain information or sharing any portion of a contract with the Insurance Commissioner;
- (5) Prohibiting pharmacy benefit managers from preventing pharmacies or pharmacists from disclosing information to covered persons regarding the nature of treatment, risks, alternative therapies, decisions of similar persons to authorize or deny services, processes used to authorize or deny services or benefits, and information on financial incentives;
- (6) Restoring existing statutory language that clarifies the term "covered entity" does not include a health maintenance organization regulated under chapter 432D, Hawaii Revised Statutes, that owns or manages its own pharmacies; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 602, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 656 Commerce and Consumer Protection on S.B. No. 32

The purpose and intent of this measure is to require public water or sewer utilities to consider the disruption to transportation as a criterion in planning future maintenance.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and the Public Utilities Commission.

Your Committee finds it is important to prioritize the maintenance of utility infrastructure, but also recognizes such maintenance can cause significant traffic congestion. This measure would help limit the disruptions to traffic and transportation that arise from planned utility maintenance.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, fails to recognize that public water and sewer utilities are not the only utilities with underground infrastructure and this measure would only affect primarily rural water and sewer utility companies regulated by the Public Utilities Commission. Because installation, maintenance, and retirement of underground infrastructure, whether the utility is regulated by the Public Utilities Commission or is a municipal entity, can affect traffic transportation, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- Deleting language that would have required public water and sewer utilities regulated under chapter 269, Hawaii Revised Statutes, to consider the disruption to traffic and transportation as a criterion in planning future maintenance;
- Inserting language into chapter 264, Hawaii Revised Statutes, to clarify that any public utility seeking a permit to disturb a state highway shall consider the disruption to traffic and transportation as a criterion in planning future maintenance;
- Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 32, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

Commerce and Consumer Protection on S.B. No. 805 SCRep. 657

The purpose and intent of this measure is to:

- (1) Make the exemption from the behavior analyst licensing requirements permanent for certain teachers working in collaboration with a licensed behavior analyst or licensed psychologist; and
- Clarify exemptions from licensure as a behavioral analyst for general education teachers, direct support workers, special education teachers, and teacher trainees working in collaboration with or under the supervision of licensed professionals.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawai'i Psychological Association, Special Education Advisory Council, Together for Our Keiki, Hawaii Disability Rights Center, and twenty-four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that special education teachers sometimes need assistance with assessing their students' learning, which may include consultation with outside experts such as licensed behavior analysts or psychologists. This measure will help the Department of Education to collect Medicaid reimbursements for all applied behavior analysis services rendered during the school day and ensure vulnerable keiki are given access to the care and education they deserve.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 805, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 805, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 658 Commerce and Consumer Protection on S.B. No. 186

The purpose and intent of this measure is to prohibit the enforcement of a re-recorded homeowners' association restriction if the restriction prohibits bona fide agricultural uses and activities on agricultural land.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Planning, Hawai'i Farm Bureau, and Wootens Produce of Kauai.

Your Committee finds that subdivisions of agricultural lands have significantly increased over the past few decades, and homeowners' associations, which govern those subdivisions, have imposed restrictions that limit bona fide agricultural uses on agricultural lands. Restrictive covenants that limit agricultural uses on agricultural lands undermine the State's interest in protecting and preserving agricultural resources and promoting self-sufficiency. Thus, this measure is needed to prevent the restriction of agricultural uses and activities on lots within state agricultural districts. This measure also clarifies that renewed contracts restricting agricultural uses and activities within agricultural lands are considered new contracts and are therefore voidable, under certain circumstances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 186 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 659 Judiciary on S.B. No. 754

The purpose and intent of this measure is to lower the blood alcohol concentration (BAC) threshold from .08 to .05 for the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawai'i Police Department, Maui County Council, Maui Police Department, National Safety Council, Mothers Against Drunk Driving HAWAII, Hawai'i Alcohol Policy Alliance, and eight individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Beverage Institute, Hawaiian Craft Brewers Guild, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that alcohol-impaired driving has been a factor in approximately twenty percent of all traffic fatalities and critical collisions on Oahu roadways and thirty-one percent of all traffic fatalities and critical collisions on Hawaii County roadways. According to the National Transportation Safety Board, the risk of being in a fatal collision is at least seven times higher for drivers with a BAC between .05 and .79 than for drivers with no alcohol in their system. Additionally, twenty years of international studies have shown that when a country lowers BAC limits from .08 to .05, alcohol-related fatal and injury crashes decrease between five and ten percent. To date, approximately one hundred other countries, including most of Europe and Australia, have adopted laws prohibiting operation of a motor vehicle with a BAC of .05 or higher. This measure will align Hawai'i with the growing number of jurisdictions worldwide that recognize that driving with a BAC of .05 is a significant danger to the community.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 660 Judiciary on S.B. No. 792

The purpose and intent of this measure is to increase the minimum and maximum fines for violating certain provisions relating to the installation of a noisy muffler.

Your Committee received testimony in support of this measure from Waikiki Neighborhood Board No. 9 and twelve individuals.

Your Committee finds that many residents throughout the State have submitted complaints regarding the growing noise pollution and disturbance from loud mufflers on motor vehicles, primarily motorcycles. Complainants claim that the noise level adversely affects their sleep, particularly in the early morning hour or late at night. The noise level impacts public health and safety, as well as peaceful enjoyment and quality of life.

Your Committee further finds that while existing law prohibits vehicle owners from installing mufflers that increase the noise of their vehicle, the penalties are minimal and do little to deter violators of the existing muffler laws, and in fact, violators are known to add the enhanced noise mufflers after they have passed the county vehicle safety check. This measure will provide a disincentive for vehicle owners to install noisy mufflers by increasing penalties.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 661 Judiciary on S.B. No. 973

The purpose and intent of this measure is to amend the Hawaii Money Transmitters Act by:

- (1) Incorporating definitions of key terms provided in the Model Money Services Business Law published by the Conference of State Bank Supervisors;
- (2) Adding supporting documentation to be submitted by a license applicant;
- (3) Extending the period of a license applicant's litigation and criminal conviction history review from five to ten years from the date of the application;
- (4) Requiring a license applicant to submit information concerning any bankruptcy or receivership proceedings; and
- (5) Clarifying the authority of the Commissioner of Financial Institutions relating to examinations and investigations of licensees and to participate in nationwide protocols for licensing cooperation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Division of Financial Institutions.

Your Committee finds that existing law does not provide sufficient flexibility for Hawai'i to share supervisory information with other states to swiftly protect consumers who use money transmission companies. Furthermore, instantaneous global money transmission activity necessitates additional oversight of money transmitters to provide appropriate consumer protection, establish barriers to the entry of bad actors, and facilitate coordination among state agencies. The Division of Financial Institutions needs more flexibility to share supervisory information with other states to swiftly protect consumers who use money transmission companies Therefore, this measure adopts certain model act provisions to allow Hawai'i to retain its state sovereignty while working alongside a network of states to license, supervise, and examine transglobal money transmission companies as a multi-state system to provide financial stability and economic growth while better protecting consumers.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 662 Judiciary on S.B. No. 35

The purpose and intent of this measure is to:

- Prohibit landlords from recovering possession of a dwelling unit from tenants if habitability of the premises is significantly impaired;
- (2) Set a tenant's liability for rent if habitability of the premises is significantly impaired; and
- (3) Provide remedies for retaliatory evictions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Imua Alliance, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS.

Your Committee finds that the most common complaint received by the Department of Commerce and Consumer Affairs' Office of Consumer Protection's Landlord-Tenant Information Center concerns landlords failing to make repairs in a timely manner. Under existing state law, a tenant has the legal right to request necessary repairs without being evicted, and if the landlord does not respond in a certain number of days, the tenant may deduct up to \$500 from the following month's rent for the cost of repairs. However, the cost to repair conditions that materially affect health and safety can exceed \$500, leaving a tenant with limited recourse. This measure will help incentivize landlords to keep their rental units safe and sanitary, establishes a clear standard of damages for tenants who fall victim to retaliatory evictions, and will deter unscrupulous landlords from engaging in unlawful conduct.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Gabbard, Kim). Noes, none. Excused, none.

SCRep. 663 Judiciary on S.B. No. 151

The purpose and intent of this measure is to replace the term "accident" with "collision" for the purposes of certain provisions of the statewide traffic code.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Hawaii Bicycling League, Mothers Against Drunk Driving, and Blue Zones Project.

Your Committee finds that the use of the term "accident" when referring to a traffic collision or incident is outdated. The Honolulu Police Department (HPD) replaced the term "accident" with "collision" in their policies, procedures, and report writing more than a decade ago. Additionally, the National Highway Traffic Safety Administration (NHTSA) has encouraged everyone to use the term "collision" instead of "accident" when referring to incidents of vehicular collision. This measure amends the statewide traffic code to replace "accident" with "collision" to bring Hawaii statutes in line with the NHTSA and HPD policies and provide consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 151 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 664 (Majority) Judiciary on S.B. No. 232

The purpose and intent of this measure is to:

- (1) Increase the maximum civil penalty for littering from \$500 to \$1,000; and
- (2) Increase the maximum fine for the offense of criminal littering from \$1,000 to \$5,000.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association.

Your Committee finds that littering is costly, portrays a negative picture of an area, and is damaging to the environment. Litter can cause physical harm and injury, especially needles, broken glass, highway debris, and improperly disposed of cigarette butts that may spark fires. Littering can also contribute to the spread of disease and pollute the environment as toxic chemicals leach into waterways and soils. Furthermore, when litter drifts out to sea, animals may ingest the plastic which creates health problems, including depletion of nutrients and causing animals to die. Additionally, toxins ingested by animals may cause blood clotting, seizures, or other serious issues. Toxic waterways may also kill off surrounding plant life in riverbanks, soil, and the air, compromising the health of the ecosystems and the animals and humans that rely on the health of the ecosystem. Your Committee finds that littering fines must be increased to reflect the seriousness of the offense, be sufficient to deter individuals from littering, and demonstrate the State's commitment to protecting the natural environment.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 232 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 665 Judiciary on S.B. No. 387

The purpose and intent of this measure is to protect children and minors who are being confined at detention and shelter facilities by outlining specific conditions and time limits under which they may be confined.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Office of Youth Services, Hawaii Disability Rights Center, Hawaii Psychological Association, ACLU Hawaii, and one individual. Your Committee received comments on this measure from the Department of the Attorney General and the Office of the Public Defender.

Your Committee finds that room confinement of children and minors at detention facilities is not an effective deterrent for misbehavior, nor does it give youth the skills needed to behave differently in the future. Long periods of isolation have negative emotional consequences for youths and room confinement poses a safety risk, including the likelihood of self-harm, suicide, and retraumatizing youth who were already victimized. Both the United States Congress and the United States Department of Justice, along with numerous professional organizations, have taken strong positions against the isolation of youths. This measure will bring Hawai'i in line with this growing body of politicians, courts, and psychological professionals to ensure the basic safety and protection of children and minors by establishing statutory limits on the use of room confinement at detention and shelter facilities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 387, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 666 Judiciary on S.B. No. 329

The purpose and intent of this measure is to remove the publication requirement and permit the board of directors of a condominium association to proceed directly to the sale, storage, donation, or disposal of personalty that has been abandoned in or on the common elements of a condominium when the identity or address of the owner is unknown.

Your Committee received testimony in support of this measure from the Honolulu Tower AOAO, Palehua Townhouse Association, Waikiki Neighborhood Board No. 9, Hawaii Council for Associations of Apartment Owners, and nine individuals.

Your Committee finds that abandoned bicycles, surfboards, appliances, furniture, and other personal items left on common elements of condominium property is a frequent problem. Abandoned personal property is often an eyesore and can create safety hazards for other residents, especially when space is limited. The current process for condominiums to dispose of abandoned items is burdensome, costly, and lengthy. This measure simplifies the process for boards of directors to more easily dispose of abandoned property and eliminates the requirement of publishing expensive notices in the newspaper.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 329, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 667 Judiciary on S.B. No. 347

The purpose and intent of this measure is to prohibit the intentional release of balloons inflated with a gas that is lighter than air.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, The Humane Society of the United States, Beach Environmental Awareness Campaign Hawai'i, and four individuals.

Your Committee finds that the release of balloons inflated with lighter-than-air gases poses a danger and nuisance to the environment, particularly to wildlife and marine animals. Many animals are attracted to the bright colors of balloons and mistake them for food, which can cause an animal severe injury or death. Animals are often found entangled in balloon strings and as a result are injured or strangled to death.

Your Committee notes that there are other ecologically friendly options besides balloon releases, to celebrate or commemorate events. Therefore, your Committee finds that to promote the safety of wildlife and marine animals and protect the environment, the intentional release of balloons filled with lighter-than-air gas should be prohibited, except under certain circumstances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 347, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 668 Judiciary on S.B. No. 376

The purpose and intent of this measure is to prohibit the use, sale, alteration, or installation of motor vehicle mufflers that emit more than ninety-five decibels of sound.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that motor vehicles with modified exhaust systems that emit or amplify loud noises are a major source of noise pollution. Currently, all vehicles from the manufacturer are equipped with mufflers that emit noise at reasonable levels. Therefore, if a person modifies the exhaust system of a motor vehicle in a manner that amplifies or increases the noise emitted by the motor of the vehicle, this measure requires the individual to replace their muffler with an option that would not emit more than ninety-five decibels of sound so as not to contribute to excess noise pollution.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 376 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 669 (Majority) Judiciary on S.B. No. 428

The purpose and intent of this measure is to specify that interference with an automated public transit operation is unlawful and is a class C felony.

Your Committee received testimony in support of this measure from the Honolulu Police Department.

Your Committee finds that existing statutes governing interference with the operator of a public transit vehicle were enacted prior to the use of automated transit systems. In adapting to the changing landscape and different modes of transportation, this measure seeks to modernize the Penal Code to make it a class C felony to interfere with the automated operation of a public transit vehicle.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 670 Judiciary on S.B. No. 562

The purpose and intent of this measure is to establish that charging shipping and delivery charges that exceed the actual cost to ship or deliver a commodity to a consumer in Hawaii constitutes an unfair and deceptive practice.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and two individuals.

Your Committee finds that many companies offer free or reduced rate shipping to consumers in the United States, but for many consumers in Hawaii, these companies will refuse to honor these offers once a Hawaii zip code is entered. Your Committee further finds that, since it is likely that shipping goods to Hawaii costs more than shipping to other states, it may be unreasonable to require mainland companies to apply the same free or reduced rates that it offers to mainland consumers, and it would require a merchant to absorb an additional cost to ship to Hawaii consumers. However, your Committee finds that the assessment of any arbitrary fees or costs, in addition to the actual costs to ship goods to Hawaii consumers, is unreasonable and should be regulated.

Your Committee notes that, in practice, shipping prices to Hawaii are often artificially elevated. Your Committee considers this practice to be a deceptive and unfair practice.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 562, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 671 Judiciary on S.B. No. 565

The purpose and intent of this measure is to expand the definition of "beer" to specify an alcohol by volume of no less than 0.5 percent and to include alcoholic seltzer beverages.

Your Committee received testimony in support of this measure from Maui Brewing Co., Kauai Beer Co., Hawaiian Craft Brewers Guild, Lanikai Brewing Company, Kaua'i Island Brewing Co., Honolulu Beerworks, Waikiki Brewing Company, Big Island Brewhaus, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the existing statutory definition of "beer" is limited and does not reflect the public's perception of beer in the current marketplace, or adequately represent the unique aspects of craft beer ingredients that brewers use to develop new products and new offerings, such as gluten-free beer or beer with alternative grain ingredients, which are becoming more popular across the United States. Furthermore, the State's definition is not the same as the federal definition, which includes a broader range of substitutes or additions to malted barley and fermentable sugars. This measure will help foster the creation of new and unique styles of beer that are well-suited for the inclusion of Hawaii-grown products and will have a significant benefit for local, small, independent craft breweries across the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 565, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 672 Judiciary on S.B. No. 703

The purpose and intent of this measure is to require two hours of annual in-service training in suicide prevention for all teachers, principals, and school counselors.

Your Committee received testimony in support of this measure from the Department of Education, Office of Hawaiia Affairs, Hawaii Association of School Psychologists, Parents And Children Together, Sutter Health Kāhi Mōhala, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that suicide is the fourth leading cause of death for children between the ages of ten and fourteen, and is the leading cause of death for young people between the ages of fifteen and twenty-four. The percentage of teenagers in Hawaii who plan

to commit suicide and the percentage of teenagers who attempt suicide are among the highest in the nation. Your Committee therefore recognizes that there is a need to increase the number of individuals in educational institutions, such as teachers, principals, and school counselors, who are trained to identify youth at risk of suicide and refer those children to appropriate services, counseling, and intervention. The Jason Flatt Act, first passed in Tennessee in 2007, requires all educators to complete youth suicide awareness and prevention training every year as part of their state licensure to teach. Your Committee finds that it is the appropriate time for Hawaii to enact similar legislation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 703 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 673 Judiciary on S.B. No. 811

The purpose and intent of this measure is to require the Department of Education to publish a weekly report on schools that have reported positive cases of coronavirus disease 2019 (COVID-19).

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii State Teachers Association, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health and Department of Education.

Your Committee finds that although the Department of Education has stated that it has communication policies and set procedures in place to address COVID-19 cases, it generally has not provided information about positive COVID-19 test result cases on all school campuses and the limited information that it has shared has been inconsistent and incomplete. Your Committee further finds, in particular, that the Department of Education does not publicize positive COVID-19 cases listed by school. This measure will require that the Department of Education reports positive COVID-19 cases, which will allow students, teachers, and communities to make informed decisions on how to proceed.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 811 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 674 Judiciary on S.B. No. 1004

The purpose and intent of this measure is to require the Department of Education to include the teaching of financial literacy in the personal transition plan requirement for each student beginning with the 2021-2022 school year.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Credit Union League, and two individuals.

Your Committee finds that financial education is a lifelong learning process that empowers individuals to plan for their futures. In the past, the educational system has assumed that students will learn important financial skills from their families. However, it is clear that not all students are learning the financial skills they will need to be successful later in life. This measure will ensure that Hawaii's students receive an education to help them achieve financial success.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1004 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 675 Judiciary on S.B. No. 1042

The purpose and intent of this measure is to:

- (1) Repeal the existing provision that allows persons designated as covered offenders in another state or jurisdiction to petition the Attorney General for termination of sex offender registration requirements upon demonstrating that the out of state convictions are not covered offenses in the State of Hawai'i;
- (2) Require certain long-term visitors to Hawai'i with out-of-state convictions to register; and
- (3) Clarify how persons required to register can petition to terminate registration.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Public Safety.

Your Committee finds that existing sex offender registration laws allow out-of-state persons who intend to reside or maintain a residence in Hawai'i, visit Hawai'i for ten or more days, or visit Hawai'i for thirty or more days a year, and who have been or are required to be registered in another state as a sex offender, to avoid registration by establishing that they do not meet the criteria for registration as a covered offender in Hawai'i because the out-of-state conviction in their state is not for a covered offense under Hawai'i law. Your Committee further finds that allowing out-of-state covered offenders to avoid registering as a sex offender in Hawai'i's law is different from the law of the state that required the person to register as a sex offender is an unintended loophole in the registration law. This measure closes the loophole by requiring those persons who have been designated as a sexual offender in another state, who is or would be required to be on a sex offender registry in that state, to be subject to registration requirements in the State of Hawai'i.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 676 Judiciary on S.B. No. 1287

The purpose and intent of this measure is to require the Department of Education food services branch to coordinate with the principals and vice principals of department schools to determine which school meal program offered by the USDA is the best fit for the student body and campus of each school.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that during the early stages of the coronavirus disease 2019 (COVID-19) pandemic, there was an immediate closure of schools operated by the Department of Education. For many students, this closure had the unfortunate effect of not only missing in-person learning, but also missing the meals provided at school. The United States Department of Agriculture provided Grab N' Go meals as a supplement for students, but students living in rural areas were often not able to participate in this program due to the far commute or lack of available transportation. For this reason, many administrators, students, and parents have requested to be part of the Emergency Meals-To-You Program that sends food to students, but the Department of Education Food Services Branch has not allowed participation in this program to certain schools that have already been designated as a Department of Education feeding site. This measure will mandate coordination between the Food Services Branch and principals and vice principals to provide students at a school with a meal program that works best for their needs.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 677 Judiciary on S.B. No. 1291

The purpose and intent of this measure is to:

- (1) Include autocycles equipped with handlebars in the definition of motorcycle in the Hawaii Safety Act; and
- (2) Exempt motorcycles and motor scooters with a roll bar, roll cage, or fully enclosed cab from the safety helmet requirement.

Your Committee received testimony in support of this measure from the Department of Transportation; Arcimoto, Inc.; StrataG Consulting, LLC; and one individual.

Your Committee finds that electric three-wheeled vehicles that are similar to motorcycles are becoming more and more popular in Hawaii. Your Committee further finds that electric three—wheeled vehicles are a promising source of affordable emissions—free vehicles for Hawaii residents. Currently, there is some confusion as to whether these vehicles are classified as motorcycles or autocycles and which types of license is required to drive them. This measure will amend the definition of "motorcycle," which includes the definition of an "autocycle," so that vehicles with handlebars and three wheels can meet the definition and be operated with a general class 3 driver's license.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 678 Judiciary on S.B. No. 1384

The purpose and intent of this measure is to provide that the prohibition against serving two consecutive terms not to exceed eight consecutive years pursuant to section 26-34(a), Hawaii Revised Statutes, shall not apply to the representative of Hawaiian medium early learning providers' term limit from July 1, 2021, to June 30, 2025.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo and Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Early Learning Board provides crucial input, direction, and oversight necessary for the Executive Office on Early Learning to achieve its statutory responsibilities. Representatives on the Early Learning Board are reflective of the diversity of the early care and education field in Hawaii, providing unique and important input on how to best serve Hawaii's families and young children. The State has long recognized the value of its host culture and has taken such actions as designating the Hawaiian language as one of its two official state languages and creating Hawaiian language immersion charter schools. This measure will allow for better, continued representation for Hawaiian early learning providers on the Early Learning Board.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1384 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 679 Judiciary on S.B. No. 1225

The purpose and intent of this measure is to:

- (1) Allow the chairperson of the Independent Audit Committee (IAC) of the University of Hawaii Board of Regents to be selected in a manner consistent with its bylaws;
- (2) Clarify that the responsibility of the IAC as to the University of Hawaii's enterprise risk management is to oversee, rather than engage in pertinent operations;
- (3) Exempt from chapter 91 and part I of chapter 92, Hawaii Revised Statutes, discussions between the IAC and internal or external auditors on matters that should remain confidential in accordance with nationally recognized best practices for independent audit committees; and
- (4) Allow the IAC chairperson to determine whether IAC discussions that are exempt from chapter 91 and part I of chapter 92, Hawaii Revised Statutes, may be held without the presence of the President or Chief Financial Officer of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System Office of the Board of Regents.

Your Committee finds that the IAC within the Board of Regents was created in 2013 and established under section 304A-321, Hawaii Revised Statutes, as well as the Board's bylaws, in response to concerns about the Board of Regents' role in the oversight, accountability, and transparency of the University of Hawaii's fiscal and operational administration, including enterprise risk management, finance, and accounting. While the Board of Regents' Chairperson appoints the chairperson and voting members of each of the standing committees in compliance with the Board of Regents' bylaws, section 304A-321, Hawaii Revised Statues, requires that the chair of the committee be selected by and from members of the committee.

Your Committee finds that this unique selection process for the IAC chairperson has presented challenges to the administration of IAC meetings when the IAC chairperson's term on the Board, and consequently the chairperson's term on the IAC, ends on June 30, and the IAC membership is pending election by the Board Chairperson. For other Board standing committees, the Board Chairperson may appoint the voting members and chairpersons at the first Board meeting after June 30, and the appointed chairpersons may plan and set the agenda for the committees' first meeting thereafter. Since existing law does not allow the Board Chairperson to appoint the IAC chairperson, there will be no chairperson to plan and set the agenda for the first IAC meeting. This measure prevents such problems from occurring by allowing the Board Chairperson to appoint an IAC chairperson in a manner consistent with the appointment process of other committee chairpersons.

Additionally, this measure explicitly exempts the IAC from part I of chapter 92, Hawaii Revised Statutes, when the IAC is engaging in discussions with internal or external auditors on matters that should remain confidential in accordance with nationally recognized best practices for independent audit committees and provides discretion to the chair of the committee to determine if these discussions may take place in the absence of the President or Chief Financial Officer of the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1225, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 680 Judiciary on S.B. No. 1220

The purpose and intent of this measure is to allow the University of Hawaii to conduct criminal history record checks on current or prospective employees and contractors whose positions or duties are related to security of the campus facilities and persons.

Your Committee received testimony in support of this measure from the Department of Human Resources Development and University of Hawai'i System.

Your Committee finds that University of Hawaii campuses have departments of public safety with responsibilities that include protecting persons and property, receiving reports of crime such as sexual assaults, and providing walking escorts and vehicle transportation from dusk to dawn for persons alone on campus at night. There are approximately one hundred sixty University Security Officer positions throughout the ten campuses, and the University anticipates processing approximately fifteen recruitments a year.

Your Committee finds that as of September 2019, the University of Hawaii entered into a delegation agreement with the Department of Human Resources Development for the University of Hawaii to perform all tasks associated with recruiting, selecting, and hiring university security officers, except for the task of completing criminal history record checks. This limitation on the University of Hawaii's authority has negatively affected an efficient hiring of University Security Officers, which will impact the University of Hawaii's ability to ensure the safety of its campuses.

This measure will ensure a strong presence of University Security Officers on the University of Hawaii campuses by enabling the Department of Human Resources Development to delegate the background checks of University Security Officers to the University of Hawaii, thereby allowing the University to perform all aspects of the University Security Officer recruitment process more efficiently. According to the University of Hawaii, background checks will be conducted in a manner like the current process of the Department of Human Resources Development, which includes submittal of fingerprints to the Hawaii Criminal Justice Data Center and the Federal Bureau of Investigation. Should outside vendors be used to conduct the criminal background checks, the estimated cost would be between \$40.00 and \$90.00 per background check.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1220, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 681 Judiciary on S.B. No. 814

The purpose and intent of this measure is to:

- (1) Clarify the process for applicants to apply to open and operate a charter school; and
- (2) Provide for penalties for authorizers who fail to timely comply with board decisions.

Your Committee received testimony in support of this measure from Kulia Academy and one individual. Your Committee received comments on this measure from the State Public Charter School Commission and Maui Hui Malama.

Your Committee finds that charter school processes for new school applicants, contract renewals, and contract negotiation are inconsistent, difficult to navigate, and lack transparency. This measure will allow applicants to cure any deficiencies with their application rather than be automatically denied for nonsubstantive reasons and streamlines the charter school application process so that approval will be easier to obtain.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 682 Judiciary on S.B. No. 934

The purpose and intent of this measure is to exempt hydrogen fuels from petroleum product measurement requirements.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Food Industry Association, Hawaii Hydrogen Alliance, Servco, Blue Planet Foundation, Ulupono Initiative, Alliance for Automotive Innovation, and Western States Hydrogen Alliance.

Your Committee finds that hydrogen has an important role to play in Hawai'i's energy portfolio, as a carbon-free energy storage mechanism, potential means of providing grid support, and provider of pollution-free fuel for both electricity and transportation. However, the current definition of fuel is so broad that it does not exclude hydrogen. Therefore, hydrogen must be sold on the basis of measure. There is currently no means for the State to measure and certify a hydrogen dispenser. The supporting infrastructure, technical expertise, and imported equipment are needed. This measure is intended to remove the requirements that hinder the sale and commercial use of hydrogen in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 934 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 683 Judiciary on S.B. No. 764

The purpose and intent of this measure is to create a permanent commercial driver's license disqualification for a commercial driver's license or learner's permit holder who is convicted of a felony involving a severe form of human trafficking.

Your Committee received testimony in support of this measure from St. Michael the Archangel Parish.

Your Committee finds that federal law permanently disqualifies an individual who has been convicted of a felony involving severe forms of human trafficking, such as sex trafficking or trafficking for the purposes of slavery, from driving a commercial motor vehicle. This measure will bring Hawaii into substantial compliance with federal regulations and combat human trafficking.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 684 Judiciary on S.B. No. 675

The purpose and intent of this measure is to amend the definition of "employee-beneficiary" of the Hawaii Employer-Union Benefits Trust Fund to include the surviving unmarried adult child of a deceased retired member, provided that the child is incapable of self-support due to a mental or physical incapacity, which existed prior to the unmarried child's reaching the age of majority.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Director of Budget and Finance and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that there is no survivor benefit coverage in the health benefits plan or long-term care for the disabled adult child of an employee who has dedicated their life to public service. Therefore, under current law, disabled adult children lose their health benefits upon the death of the retired member. Your Committee further finds that currently there are four hundred twelve such dependents on the Hawaii Employer-Union Health Benefits Trust Fund health plans incapable of self-support because of a mental or physical incapacity. The average age of these currently enrolled dependents is forty and the average age of the subscriber is seventy-

three, and the estimated annual premiums for one such dependent are \$6,364. Therefore, your Committee finds that this measure is necessary to provide continued health benefit coverage to surviving children with mental or physical incapacity when the retiree and the retiree's spouse are no longer living or eligible.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 685 Judiciary on S.B. No. 601

The purpose and intent of this measure is to:

- (1) Prohibit roofing contractors from offering to pay, in any monetary form, an insured's insurance deductible as an incentive to hire the contractor;
- (2) Allow insureds to rescind contracts with roofing contractors within five business days of receiving notification from an insurer that all or any part of a claim or contract is not a covered loss under the insured's policy; and
- (3 Allow the Contractors License Board to revoke, suspend, or refuse to renew a contractor's license if the contractor performs as a public adjuster without a public adjuster license.

Your Committee received testimony in support of this measure from the National Insurance Crime Bureau. Your Committee received testimony in opposition to this measure from the Contractors License Board and Roofing Contractors Association of Hawaii. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that after major storms, occasionally unscrupulous roofing contractors descend upon those affected by the storm trying to drum up business and take advantage of consumers. This often involves the contractor making promises to the consumer that they can get a new roof "at no cost to them" and promising to "cover" the consumer's insurance deductible costs when in reality the contractor is just including that cost in the total price. The consumer is then pressured into signing a binding contract for the full replacement cost of the roof. After the consumer files an insurance claim, the insurance adjuster often finds that there is little to no damage and either denies the claim altogether, or else approves the claim for only the actual repair costs, which are far less than the contract price for an entirely new roof. This leaves consumers contractually obligated to pay the full cost for a new roof that they don't need and often cannot afford. This measure is similar to legislation that has been adopted in twenty-two other states and protects consumers from being taken advantage of by unscrupulous roofing contractors.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 601, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 686 Judiciary on S.B. No. 134

The purpose and intent of this measure is to prohibit the Governor or mayors from suspending requests for public or vital statistics records during a declared state of emergency.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Civil Beat Law Center for the Public Interest, All Hawaii News, and three individuals. Your Committee received comments on this measure from the Office of Information Practices, Common Cause Hawaii, and Grassroot Institute of Hawaii.

Your Committee finds that access to information is critical for enabling citizens to exercise their voice, to effectively monitor and hold government to account, and stands as a pillar of a functioning democracy. Existing law allows the Governor or a mayor to suspend requests for public or vital statistics records during a declared state of emergency. And while it is important for the government to have flexibility and broad emergency power, there needs to be guardrails in place to prevent the overreach of those powers. This measure will act as a guardrail against governmental overreach by prohibiting the Governor or a mayor from suspending requests for public or vital statistics records during a declared state of emergency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 687 Judiciary on S.B. No. 510

The purpose and intent of this measure is to:

- (1) Allow the State Historic Preservation Division of the Department of Land and Natural Resources (Department), in consultation with the Office of Hawaiian Affairs, to delegate the responsibility for historic preservation project reviews to the impacted counties; and
- (2) Allow the Department to establish a program to certify third-party individuals and organizations to review documents for completeness and compliance prior to submission of those documents to the Department.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees

Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that every year the State Historic Preservation Division (SHPD) receives thousands of permits, supporting reports, and documents for review. In every other state in the union, many of these reviews would be subject to review at the county or municipal level; only Hawai'i requires reviews and evaluations at the state level. Authorizing the counties to assume responsibility for these reviews would bring Hawai'i in line with the other forty-nine states. Your Committee additionally finds that far too many submittals received by SHPD are incomplete or do not meet the minimum requirements set by rule. These defective submittals must be rejected and returned to the submitting party for corrections and resubmitted for a re-review by SHPD. Often this process happens multiple times for the same submittal. Such re-reviews comprise a significant portion of the work SHPD does and contributes to the backlog in permit reviews. This measure will make SHPD more efficient by allocating portions of the review process to the counties and ensuring that submittals are technically correct before they are sent to SHPD.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 510, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 688 Judiciary on S.B. No. 280

The purpose and intent of this measure is to:

- (1) Codify the administrative rule definition of "assistance animal";
- (2) Clarify the type of verification an individual may provide to substantiate a reasonable accommodation request for a specific
- (3) Specify that possession of items or registration documents commonly purchased online to identify an animal as a service animal does not constitute valid verification of a disability-related need for an assistance animal.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawaii Disability Rights Center, Associa Hawaii, Hawai'i Association of REALTORS, and two individuals. Your Committee received comments on this measure from the Disability and Communication Access Board and Community Associations Institute Legislative Action Committee.

Your Committee finds that under the federal and state fair housing laws, landlords may allow "assistance animals" in rental properties that otherwise do not allow pets. For landlords seeking to follow the fair housing laws, this can create problems discerning between a legitimate request from a person with a disability and those from persons who simply wish to keep a pet in their rental unit. This measure provides clarification on what information a landlord might reasonably request from an individual to verify the need for an assistance animal.

Your Committee also finds that there is no national registry or certification for assistance animals. In the absence of such a system, some pet owners use items or registration documents that are commonly purchased online purporting to identify an animal as a service or assistance animal. This measure clarifies that such items and documents, by themselves, do not establish an animal as a service or assistance animal.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 280 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 689 Judiciary on S.B. No. 193

The purpose and intent of this measure is to require publicly held domestic corporations to include individuals of all genders among the directors of their corporate boards.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Domestic Violence Action Center, Planned Parenthood Votes Northwest and Hawaii, American Association of University Women of Hawaii, Hawaii Women's Coalition, Hawaii'i Women Lawyers, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Business Registration Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the inclusion of individuals of all genders on boards of directors of publicly held corporations will boost the State's economy, improve opportunities for all individuals in the workplace, protect Hawaii taxpayers, and lead to other societal benefits. Numerous studies have concluded that United States' companies with three or more female directors reported earnings per share higher than earnings for companies with no female directors. Additionally, corporations may benefit from higher profits, better employee job satisfaction, productivity rates, and better corporate reputations. If proactive measures are not taken, studies predict that it will take forty to fifty years to achieve gender parity. Although women represent the majority in the nation's college-educated work force, women and non-binary individuals hold only twenty percent of corporate board positions due to gender discrimination and negative stereotypes. Therefore, this measure provides opportunities for women and non-gender binary individuals to affirmatively pursue opportunities to promote gender balance in leadership positions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 193, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 690 Judiciary on S.B. No. 157

The purpose and intent of this measure is to authorize the issuance of a civil license to solemnize marriage and allow solemnization by any individual at least eighteen years of age.

Your Committee received testimony in support of this measure from the Department of Health, LGBT Caucus of the Democratic Party of Hawai'i, and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that, although marriage in the United States is a civil institution and the right to marry belongs to citizens without regard to their moral beliefs or religious creed, officiants ordained by a religious denomination or society are the only ones besides justices, judges, and magistrates who are authorized to officiate a wedding. Your Committee further finds that while those with a religious affiliation may have a trusted pastor or minister officiate their wedding, those without religious affiliation are legally unable to have a trusted friend or mentor as an officiant. This measure will increase fairness and parity by authorizing those not affiliated with a religion to solemnize marriages.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 157 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 691 Judiciary on S.B. No. 412

The purpose and intent of this measure is to exclude the offense of habitually operating a vehicle under the influence of an intoxicant from qualifying for deferred acceptance of guilty plea or nolo contendere plea.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, and Maui Police Department.

Your Committee finds that a deferred plea allows a person to delay entering an official plea to a charged offense for a specific length of time, during which the person must meet terms and conditions established by the court, and after which the case will be dismissed if the person has met the required conditions. Your Committee further finds that each person is typically allowed only one deferred plea in their lifetime, and that it is an opportunity for the person to show the court that they have learned their lesson and are unlikely to reoffend in the future. Your Committee additionally finds that persons charged with habitually operating a vehicle under the influence of alcohol have already been convicted of operating a vehicle under the influence on two separate occasions in the preceding ten years and now face a third charge. Given the nature of the offense and the intent underpinning deferred pleas, it is appropriate to exclude the offense of habitually operating a vehicle under the influence of an intoxicant from qualifying for deferred acceptance of a guilty plea or nolo contendere plea.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 412 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 692 (Majority) Judiciary on S.B. No. 726

The purpose and intent of this measure is to:

- Prohibit the issuance of warrants that permit entry by an officer to a house, store, or other building without first audibly declaring the officer's office and business, including no-knock warrants;
- (2) Require law enforcement officers serving an arrest warrant at a house or a search warrant at a house, store, or other building to audibly declare the officer's office and business and wait at least thirty seconds for compliance before entry; and
- (3) Require officers serving a warrant to do so in uniform.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Americans for Democratic Action, Hawai'i Health & Harm Reduction Center, Community Alliance on Prisons, ACLU Hawai'i, Young Progressives Demanding Action, Planned Parenthood Votes Northwest and Hawaii, League of Women Voters, The Drug Policy Forum of Hawai'i, and thirty-five individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Honolulu Police Department, and Maui Police Department. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the Fourth Amendment to the United States Constitution prohibits the police from entering a person's home without a warrant. Under section 803-37, Hawaii Revised Statutes, when an officer charged with the execution of a search warrant finds that the doors of the place to be searched are shut, before the officer may physically break into the place to be searched, the officer must state their office, state their business, and demand entrance. Article I, section 7, of the Hawaii State Constitution further provides for officers to wait a reasonable period of time prior to forcing entry. This knock-and-announce rule is one mechanism that protects individuals' constitutional rights to be secure against unreasonable searches and seizures. See State v. Naeole, 148 Hawaii 243, 470 P.3d 1120, 1124 (2020). Although the knock-and-announce rule still exists, if the police believe in advance of executing a search warrant that the threat of physical violence or the destruction of evidence exists, the police may obtain a "no-knock warrant" to allow the police to enter with force into the building without knocking. These raids have led to injury, death, and substantial collateral

damage, and feed into the growing sense of community distrust of police. This measure prohibits no-knock warrants to safeguard individuals' constitutional rights under the Fourth Amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 726 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Fevella). Excused, none.

SCRep. 693 Judiciary on S.B. No. 828

The purpose and intent of this measure is to:

- (1) Grant exclusive original jurisdiction in matters of annulment, divorce, and separation and other certain cases to the Family Court of the circuit in which an applicant is domiciled at the time the application is filed, rather than require the applicant to have been domiciled or physically present in the State for a continuous period of at least three months before filing for such matters; and
- (2) Repeal the requirement that a person be domiciled or physically present in the State for a continuous period of at least six months before completing a divorce.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women of Hawaii; Farrell & Perrault, LLLC; Hawai'i State Coalition Against Domestic Violence; and Hawai'i Women's Coalition. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that existing law often places unnecessary burdens on persons seeking divorce. In some instances, the Family Court may have jurisdiction to initiate a divorce but then lose jurisdiction prior to the completion of the divorce. Your Committee further finds that in cases of domestic violence, waiting three months to file for divorce may be particularly burdensome. During the waiting period, victims of domestic violence are forced to endure the psychological distress of knowing that their abuser is legally recognized as their spouse. Possible abuse victims may fear for their safety when the State requires prolonging a legal relationship. Additionally, sustained legal recognition of the marriage carries certain financial and other obligations and requirements, such has health insurance coverage payments, that abuse victims should not have to maintain.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 828 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 694 (Majority) Judiciary on S.B. No. 635

The purpose and intent of this measure is to:

- Allow the Campaign Spending Commission to refer a complaint to the Attorney General or county prosecutor in addition to
 any administrative determination and without the requirement that the Commission believes the respondent has recklessly,
 knowingly, or intentionally committed a violation;
- (2) Disqualify a person convicted of violating elections criminal prosecution laws from holding elective public office for ten years rather than four; and
- (3) Repeal language stipulating that elections criminal prosecution law does not apply to any persons who has paid or agrees to pay fines related to report filing violations and advertisement violations prior to the commencement of the proceedings.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that under current law, the Campaign Spending Commission is required to refer a violation complaint for prosecution and wait to commence civil adjudication of the matter until the prosecutor has declined prosecution. Your Committee further finds that this process can be extremely time consuming, resulting in violation complaints being unresolved for much longer than necessary. This measure will increase the efficiency and the effectiveness of the administrative complaint process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 635 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 695 Judiciary on S.B. No. 189

The purpose and intent of this measure is to remove the requirement to prove that the dog has bitten on two separate occasions for dog bite victims to bring legal action against a dog's owner.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that dog bites are among the top reasons for emergency room visits, ranking higher than injuries occurring on motorcycles, to pedestrians, and from gunshots. Your Committee further finds that the current state law only allows a dog bite victim standing in district court if it can be proven to the court that the dog has bitten and injured on a prior separate occasion. However, your Committee notes that there is no systematic tracking system for dog bites in Hawai'i and many of the incidences go unreported. This measure therefore allows for a legal right to action for dog bite victims without proof of a prior bite on a separate occasion.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 189, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 696 Judiciary on S.B. No. 421

The purpose and intent of this measure is to amend the manner and certain time frames specifying how a vacancy in the membership of the State Senate is filled.

Your Committee received testimony in support of this measure from the Office of Elections. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that although election laws in the State have generally been updated to comply with the requirements of federal law, the timeline and process for filling a vacancy in the State Senate has remained constant. Your Committee further finds that this discrepancy could potentially cause a conflict in the case of an unexpected vacancy in the Senate that occurs shortly before an election. This measure will ensure consistency between federal and state ballot transmission requirements and candidate filing deadlines.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 421, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 697 Judiciary on S.B. No. 163

The purpose and intent of this measure is to:

- (1) Amend statutory limitations on the time period in which a survivor of childhood sexual abuse may file a civil suit;
- (2) Allow punitive damages in a civil suit for child sexual abuse; and
- (3) Permit the court to order restorative justice measures at its discretion, if requested by the victim.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii, Hawaii Association for Justice, Sex Abuse Treatment Center, Domestic Violence Action Center, American Association of University Women of Hawaii, Imua Alliance, Parents And Children Together, Hawaiii State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaiii, and twelve individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that survivors of childhood sexual abuse often do not divulge their experiences until they reach adulthood. The delay may stem from fear, disbelief, anger, helplessness, anxiety, embarrassment, or other feelings that are no fault of the survivor. Your Committee further finds that Hawaii law currently requires that a lawsuit alleging childhood sexual abuse be filed within eight years of a survivor of childhood sexual abuse turning eighteen, or three years after discovering that an injury or illness during adulthood was caused by childhood sexual abuse. Under these limitations, many survivors of childhood sexual abuse may be barred from seeking civil redress in the courts.

Your Committee has amended this measure by clarifying statutory language relating to filing certificates of merit in civil actions to reflect new electronic filing rules.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 163, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 698 Judiciary on S.B. No. 385

The purpose and intent of this measure is to:

- (1) Enact the 2018 Uniform Trust Code; and
- (2) Repeal the Uniform Trustees' Powers Act, Uniform Prudent Investors Act, and article VII of the Uniform Probate Code.

Your Committee received testimony in support of this measure from the Judiciary and Commission to Promote Uniform Legislation.

Your Committee finds that to date, the Uniform Trust Code has been enacted by thirty-four states and the District of Columbia. Your Committee further finds that this piece of uniform legislation standardizes the law of trusts so that parties across a diverse range of jurisdictions can rely on the same governing principles. Your Committee additionally finds that as trusts become more common as a tool of estate planning, it is important to update Hawai'i's laws governing trusts to provide confidence that they will continue to be valid and enforceable.

Your Committee notes the testimony of the State Judiciary's Committee on the Uniform Probate Code and Probate Court Practices that this measure is a product of the Committee's work to present a proposed Uniform Trust Code with modifications to comply with or otherwise improve current Hawai'i law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 385, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 699 (Majority) Judiciary on S.B. No. 307

The purpose and intent of this measure is to include any firearm or rifle with the capacity to fire ammunition of fifty caliber or higher in the list of prohibited weapons.

Your Committee received testimony in support of this measure from Americans for Democratic Action. Your Committee received testimony in opposition to this measure from the National Rifle Association; Hawaii Rifle Association; Hawaii Federation of Republican Women; Pacific Arms Co., LLC; Young Guns; Hawaii Firearms Coalition; Valley Island Sport Shooters; and several hundred individuals.

Your Committee finds that the State has some of the strongest gun safety laws in the nation, as well as the third lowest number of gun deaths per capita among the states in 2019. Your Committee further finds that prohibiting firearms or rifles that fire ammunition of fifty caliber or higher is consistent with the State's commitment to protecting the safety and well-being of its citizens.

In addition, your Committee notes that section 134-11, Hawaii Revised Statutes, provides exemptions to firearm prohibitions for law enforcement officers, members of the military, persons employed by the State, and certain other persons who use firearms in the course of duty. Your Committee's interpretation is that this section applies to privately owned firearms, provided that they are used in the scope of official duties.

Your Committee has amended this measure by:

- (1) Exempting shotguns and muzzle-loading firearms;
- (2) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 307, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, 2 (Gabbard, Fevella). Excused, none.

SCRep. 700 (Majority) Judiciary on S.B. No. 459

The purpose and intent of this measure is to authorize the Department of the Attorney General to develop and implement a state program to allow active and retired law enforcement officers to carry a concealed firearm in the State pursuant to the federal Law Enforcement Officers Safety Act of 2004.

Your Committee received testimony in support of this measure from the Department of the Attorney General and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the federal Law Enforcement Officers Safety Act of 2004 (LEOSA), Public Law 108-277, was intended to afford active and retired law enforcement officers the privilege of carrying a concealed firearm across state lines. Your Committee further finds that currently, Hawaii has not established firearm qualification standards for qualified retired law enforcement officers residing in the State or a statutory framework to uniformly permit active and qualified retired law enforcement officers to carry a concealed weapon in Hawaii pursuant to the LEOSA. This measure will authorize the Department of the Attorney General to develop and implement a state program to issue firearm qualification certifications to qualified retired law enforcement officers to carry a concealed firearm in Hawaii pursuant to the LEOSA.

Your Committee has amended this measure by:

(1) Limiting the Department of the Attorney General's role in implementing the LEOSA to issuing firearm qualification certifications for qualified retired law enforcement officers;

- (2) Clarifying that state law relating to licenses to carry firearms does not apply to qualified active or retired law enforcement officers carrying concealed firearms in compliance with the LEOSA; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 459, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kim, Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 701 Judiciary on S.B. No. 639

The purpose and intent of this measure is to prohibit courts of appeal from affirming, modifying, reversing, or vacating a matter on grounds other than those raised by the parties to the proceeding unless the parties are provided the opportunity to brief the court and present oral argument on the matter.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Judiciary. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that when a court decides a case on grounds not raised by the parties, it departs from the principle of party presentation and risks abusing its discretion. Your Committee further finds that on multiple occasions, the Hawaii Supreme Court has reiterated a party's right to discuss and explore its rights, claims, and defenses through a colloquy. Your Committee additionally finds that although remedies exist for *sua sponte* decisions that do constitute an abuse of discretion, a better course of action is to prohibit an appellate court from rendering *sua sponte* decisions unless the parties have been heard.

Your Committee has amended this measure by allowing courts of appeal to affirm, modify, reverse, or vacate a matter based on an issue not raised by a party, if the parties have been provided the opportunity to brief the court on the matter.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 639, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 639, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 702 Judiciary on S.B. No. 873

The purpose and intent of this measure is to authorize the use of interactive conference technology for contested case hearings held by state agencies.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Land Use Commission, Hawaii Civil Rights Commission, and Maunakea Observatories. Your Committee received testimony in opposition to this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii. Your Committee received comments on this measure from one individual.

Your Committee finds that more efficient, yet still effective, contested case hearings can be conducted by interactive conference technology, which is already being utilized for public meetings in accordance with section 92-3.5, Hawaii Revised Statutes. Your Committee further finds that allowing contested case hearings to be held via interactive conference technology could allow for hearings to be held on a more timely basis allowing for greater efficiency. Your Committee additionally finds that interactive conference technology is especially useful when agency members and parties to the hearing are on separate islands or rural locations.

Your Committee has amended this measure by:

- (1) Specifying that the notice for a hearing held by interactive conference technology is required to identify electronic contact information for the agency, party, and counsel instead of the location where they are physically present;
- (2) Broadening the method of evidence submission to include by electronic means; and
- (3) Inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 873, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 703 Judiciary on S.B. No. 551

The purpose and intent of this measure is to propose a constitutional amendment to allow individuals who are seventeen years of age but will be eighteen years of age on or before the next state or local general election to vote at the state or local primary election immediately preceding the state or local general election by which the citizen will attain the age of eighteen.

Your Committee received testimony in support of this measure from the League of Women Voters, Young Progressives Demanding Action, Pono Hawai'i Initiative, and seven individuals. Your Committee received testimony in opposition to this measure from two

individuals. Your Committee received comments on this measure from the Department of the Attorney General, Vote16HI, and Common Cause Hawaii.

Your Committee finds that the earlier a person begins civic participation, such as voting, the more likely that person is to remain a lifelong active citizen and participant in democracy. Your Committee further finds that primary elections are a crucial phase of the election cycle, and that full participation as a voter in a general election involves the opportunity to vote in the corresponding primary election.

Your Committee has amended this measure by:

- (1) Allowing individuals who are seventeen years of age but will be eighteen years of age on or before the next general election to vote in all co-occurring or intervening special elections;
- (2) Changing the residency requirement from one year to thirty days before the next primary election; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 551, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 704 Judiciary on S.B. No. 550

The purpose and intent of this measure is to allow an individual who is seventeen years of age but will be eighteen years of age on or before the next state or local general election to register and vote at the state or local primary election immediately preceding that state or local general election.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Young Progressives Demanding Action, Pono Hawai'i Initiative, and twelve individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General, Vote16HI, and Common Cause Hawaii.

Your Committee finds that the earlier a person begins civic participation, such as voting, the more likely that person is to remain a lifelong active citizen and participant in democracy. Your Committee further finds that primary elections are a crucial phase of the election cycle, and that full participation as a voter in a general election involves the opportunity to vote in the corresponding primary election.

Your Committee has amended this measure by:

- (1) Allowing individuals who are seventeen years of age but will be eighteen years of age on or before the next general election to vote in all co-occurring or intervening special elections; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 550, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 550, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 705 Ways and Means on S.B. No. 795

The purpose and intent of this measure is to change the criteria for calculating the state small boat harbor fees to be collected by the Division of Boating and Ocean Recreation of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from Redline Rafting; Wailoa River and Reeds Bay Boating and Users Association, Inc.; and numerous individuals.

Your Committee finds that authorizing the Division of Boating and Ocean Recreation to assess small boat moorage fees that are set at fair market value and have flexibility in assessing moorage fees for commercial small vessels will allow the Division to maximize its revenue generating potential and perform much-needed repairs and maintenance on small boat harbors and other boating facilities statewide.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 795, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 706 Ways and Means on S.B. No. 1024

The purpose and intent of this measure is to establish a cannabinoid medicine program within the University of Hawaii, to be administered by the John A. Burns School of Medicine.

Your Committee received written comments in support of this measure from one individual.

Written comments in opposition were received from the University of Hawaii.

Your Committee finds that the State's unmet need for expertise in the field of cannabinoid medicine to facilitate the exchange of educational and research information related to the state-authorized use of cannabis for medical purposes would be appropriately addressed by a cannabinoid medicine program administered by the University of Hawaii John A. Burns School of Medicine.

Your Committee has amended this measure by:

- (1) Clarifying that the associate professor position within the program shall be filled by a doctor who is appointed by the Dean of the John A. Burns School of Medicine; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1024, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 707 Ways and Means on S.B. No. 1053

The purpose and intent of this measure is to expand the eligibility of organizations that may receive community-based economic development technical and financial assistance beyond community-based nonprofit organizations to also include for-profit businesses.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that expanding the eligibility for community-based economic development technical and financial assistance to include for-profit businesses will allow the Department of Business, Economic Development, and Tourism to assist in the success and viability of a larger number of organizations throughout the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1053, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

CRep. 708 Ways and Means on S.B. No. 1165

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to issue new ocean recreation commercial permits at public auction.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from Alii Nui Charters; Aqualani; Lahaina Divers, Inc.; Malolo Charters; Maui Classic Charters; Maui-Molokai Sea Cruises; Ocean Tourism Coalition; PacWhale EcoAdventures; Sail Maui; Trilogy Excursions; and one individual.

Your Committee finds that the issuance of new ocean recreation commercial permits at public auction is an appropriate method for the Department of Land and Natural Resources to use for awarding these permits to the increasing number of commercial ocean recreation providers in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2021; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1165, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1165, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 709 Ways and Means on S.B. No. 1248

The purpose and intent of this measure is to support the proliferation of viable agricultural enterprises in the State.

Specifically, the measure:

- (1) Supports and promotes agriculture by authorizing the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under the department's jurisdiction;
- (2) Establishes the Agricultural Enterprise Program to manage transferred agricultural enterprise land and agricultural enterprises;
- (3) Establishes the agricultural enterprise special fund; and
- (4) Requires the Board of Agriculture to provide an annual report to the Legislature on non-agricultural park lessees.

Your Committee received written comments in support of this measure from the Department of Agriculture; University of Hawaii; Happy Heart Kona, LLC; East Oahu County Farm Bureau; Hawaii Agriculture Research Center; Hawaii Aquaculture and Aquaponics Association; Hawaii Cattlemen's Council; Hawaii Farm Bureau; Hydroponics Alternatives, LLC; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; Local Food Coalition; MetroGrow Hawaii; Ponoholo Ranch Limited; Ulupono Initiative; and six individuals.

Your Committee finds that this measure will help support diversified agriculture, provide needed assistance to agriculture-related operations, and expand the State's agricultural industry.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1248, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1248, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 710 Ways and Means on S.B. No. 798

The purpose and intent of this measure is to help fulfill the State's commitment to clean energy and sustainable transportation.

More specifically, the measure requires that, beginning January 1, 2022, no new vehicles purchased for the Department of Accounting and General Services' motor pool program shall be powered by internal combustion engines.

Your Committee received written comments in support of this measure from Ulupono Initiative, Americans for Democratic Action, Environmental Caucus of the Democratic Party of Hawaii, Hawaiian Electric, Climate Protectors Hawaii, and Hawaii Electric Vehicle Association

The Department of Accounting and General Services, Hawaii State Energy Office, Department of Education, and 350 Hawaii submitted written comments on the measure.

Your Committee finds that transitioning the State's motor pool vehicles to zero-emission vehicles will significantly reduce carbon emissions; increase the number of zero-emission vehicles entering the secondary market, making them more affordable to more Hawaii residents; and demonstrate Hawaii's leadership in clean energy and sustainable transportation.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 798, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 711 (Joint) Judiciary and Ways and Means on S.B. No. 513

The purpose and intent of this measure is to:

- (1) Increase the fireworks display permit fee from \$110 to \$150 and the fine for certain fireworks violations from \$2,000 per violation to \$5,000 per violation;
- (2) Clarify that each aerial device, display firework, or article pyrotechnic having a total weight of twenty-five pounds or less that is illegally imported, transferred, or sold constitutes a separate violation;
- (3) Increase the penalty for removing or extracting the pyrotechnic contents;
- (4) Require the Attorney General to establish an explosion detection technology working group;
- (5) Require the Department of Public Safety to develop and implement a web-based fireworks reporting tool;
- (6) Authorize the Sheriff Division to enforce the fireworks control law; and
- (7) Make an appropriation.

Your Committees received testimony in support of this measure from the State Fire Council and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Act 170, Session Laws of Hawaii 2010, established an Illegal Fireworks Task Force to develop strategies and make recommendations to the Legislature to address the illegal importation and use of fireworks in the State. Among other

matters, the Illegal Fireworks Task Force recommended that the Legislature consider increasing fireworks permit fees and violation fines to deter the use of illegal fireworks, decrease the supply of illegal fireworks in the State, and increase funding for prevention and enforcement efforts

Your Committees further find that Act 184, Session Laws of Hawaii 2019, directed the Legislative Reference Bureau to update the Illegal Fireworks Task Force's findings and recommendations. In its report, the Bureau noted that although the Legislature had introduced numerous measures to increase fireworks permit fees and violation fines since 2011, none of the measures were enacted. This measure adopts the recommendations of the Illegal Fireworks Task Force by increasing penalties and fines to deter the illegal use of fireworks.

Your Committees have amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 513, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 513, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 712 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1368

The purpose and intent of this measure is to:

- (1) Create the Kawaihapai Airfield Revitalization Task Force to address the issues necessary to keep the airfield open and operating safely; and
- (2) Require the task force to report to the Legislature.

Your Committees received testimony in support of this measure from the Department of Transportation – Airports Division, United States Parachute Association, Soaring Society of America, Aircraft Owners and Pilots Association, Save Dillingham Airfield, and nine individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that Kawaihapai Airfield, also known as Dillingham Airfield, is a vital economic and tourism contributor to the economy of Oahu's north shore. Small business tenants at the airfield generate over \$12,000,000 in yearly revenues and employ over one hundred and thirty people.

Your Committees find that the Department of Transportation (DOT) currently leases the airfield from the United States Department of the Army. Although the lease runs until July 5, 2024, the DOT announced its plan to terminate the lease through an early termination procedure, and subsequently agreed to extend the early termination period to June 30, 2021, to accommodate tenant requests. This measure will establish a task force to address the DOT's outstanding concerns with the Dillingham Airfield with the intent to allow it to continue operating safely.

Your Committees have amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1368, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1368, S.D. 2.

Signed by the Chairs on behalf of the Committees. Judiciary: Ayes, 7. Noes, none. Excused, none. Ways and Means: Ayes, 9. Noes, 1 (Inouye). Excused, 1 (Wakai).

SCRep. 713 (Joint) Judiciary and Ways and Means on S.B. No. 1401

The purpose and intent of this measure is to:

- Require the Department of Transportation to submit an annual report to the Legislature detailing compliance with complete streets policy and principles;
- (2) Require the Department of Transportation to establish and publish performance standards with measurable benchmarks reflecting the capacity for all users to travel safely and conveniently along state roadways;
- (3) Require that the complete street policies of the State apply to new construction, reconstruction, repaving, operations, and maintenance activities:
- (4) Require the Department of Transportation to create a complete streets policy checklist for each project and post the checklist on its website; and
- (5) Require the counties to consider complete street policies when adopting or amending land use ordinances.

Your Committees received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Waikiki Neighborhood Board No. 9, Ewa Neighborhood Board No. 23, Ulupono Initiative, Blue Zones Project, AARP Hawai'i, Hawai'i Public Health Institute, American Heart Association, Hawaii Bicycling League, and three individuals.

Your Committees find that the complete streets policy is a collection of laws that seek to reasonably accommodate convenient access and mobility to all users of the public highways, including pedestrians, bicyclists, transit users, motorists, and persons of all ages and abilities. Your Committees further find that the complete streets policy requires further legislative action to assure its proper implementation and further development.

Your Committees have amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1401, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1401, S.D. 2.

Signed by the Chairs on behalf of the Committees. Judiciary: Ayes, 7. Noes, none. Excused, none. Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 714 Commerce and Consumer Protection on S.B. No. 827

The purpose and intent of this measure is to:

- (1) Increase the categories of women required to be covered for mammogram screenings;
- Require the existing health insurance mandate for coverage of low-dose mammography to include digital mammography and breast tomosynthesis;
- (3) Define "digital breast tomosynthesis"; and
- (4) Require health care providers to be reimbursed at rates accurately reflecting the resource costs specific to each service, including any increased resource cost after January 1, 2021.

Your Committee received testimony in support of this measure from the Hawaii Radiological Society, Hawaii Society of Clinical Oncology, Hawaii Primary Care Association, Hawaii Medical Association, Hawaii'i Pacific Health, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, and Hawaii Medical Service Association.

Your Committee finds that Hawaii has one of the highest incidences of breast cancer among the United States due to its diverse population. Research has confirmed an earlier peak age of diagnosis of breast cancer in Asian, Hispanic, African American, and native Hawaiian women before age fifty. Therefore, risk assessment for breast cancer as early as age thirty is clinically important to determine which women are of higher risk so they can be informed of their options for increased surveillance. Screening may also reduce cancer morbidity, since treatment for earlier-stage cancers is often less aggressive than that for more advanced-stage cancers. This measure will help ensure women identified by Surveillance, Epidemiology, and End Result Program (SEER) data, especially minority women with high risks of breast cancer, have access to early breast cancer screening.

Your Committee notes the concerns raised in testimony that this measure is not consistent with guidelines established by the United States Preventative Services Task Force (USPSTF). Your Committee finds, however, that if USPSTF guidelines were followed, insurance companies would no longer be required to pay for screening mammography in women ages forty to forty-nine, a critical age group in early breast cancer detection. Additionally, minority women would be disproportionately and adversely impacted by implementation of the USPSTF guidelines and this measure is specifically intended to address important health care disparities that exist for young Asian and native Hawaiian women in the State. Your Committee finds that it is more important and ethical to screen for breast cancer early, as multiple studies have shown that early screening and detection can result in treatment cost savings between thirty to one hundred percent, in addition to reducing cancer morbidity.

Your Committee further notes that coverage for low-dose mammography is not a new benefit that would be subject to an impact assessment report. Breast tomosynthesis is simply an advancing technology within the existing mammography mandate that should also be covered under the same benefit. Moreover, this technology has been shown to be more effective for women with dense breast tissue and those that are at higher risk of breast cancer. Attempts to delay action pose risks to the health of patients who would benefit from advancing technologies and methodologies.

Your Committee has amended this measure by:

- Clarifying the insurance coverage contemplated by this measure shall apply to health maintenance organizations subject to chapter 432D, Hawaii Revised Statutes;
- (2) Clarifying health insurance coverage shall include annual screening by a low-dose mammogram for women age thirty to fifty, deemed by a licensed physician or clinician to have an above-average risk for breast cancer; provided that a formal risk factor screening assessment is first made and informed by any readily available risk factor modeling tool; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 827, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 827, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 715 Commerce and Consumer Protection on S.B. No. 1340

The purpose and intent of this measure is to enable the Hawaii Medical Board to certify emergency medical responders other than emergency ambulance service personnel.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Public Safety, HDOT Airport Firefighters, and two individuals. Your Committee received testimony in opposition to this measure from American Medical Response and one individual. Your Committee received comments on this measure from the Hawaii Medical Board and one individual.

Your Committee finds that emergency medical responders are a vital part of a comprehensive emergency medical services system response. However, under existing law, there is no certification or licensure category for emergency medical responders, only emergency ambulance service personnel. This measure, as currently drafted, aligns the certification for emergency medical technicians in Hawaii with the National Registry of Emergency Medical Technicians.

Your Committee notes, however, that there has been a national trend toward licensure of emergency medical responders and other emergency ambulance personnel. Additionally, certain fire and ocean safety first responders have expressed an interest in licensure, rather than certification, to recognize the importance of the services they provide to the emergency medical services system. Not all emergency medical technicians are trained equally and due to the unintended consequences associated with the deregulation of Hawaii's emergency medical services system, staffing shortages, and the risks of opening the industry to unlicensed providers, a more comprehensive licensing structure is needed. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Updating section 1 of the measure to reflect its amended purpose;
- (2) Inserting language authorizing the Hawaii Medical Board to issue licenses, upon proper proof of certain credentials, consistent with the following levels of practice:
 - (A) Emergency medical responder;
 - (B) Emergency medical technician;
 - (C) Advanced emergency medical technician; or
 - (D) Mobile intensive care technician or paramedic;
- (3) Authorizing the Hawaii Medical Board to approve provisional licensure in certain circumstances;
- (4) Authorizing the Hawaii Medical Board to approve limited provisional licensure, in certain circumstances; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1340, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 716 Ways and Means on S.B. No. 142

The purpose and intent of this measure is to exempt certain housing developments from the school impact fee.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that thousands of Hawaii residents are on the wait list for public housing, and there are not enough affordable housing projects to meet the demand. Your Committee also finds that an increase in the supply of affordable housing is necessary to meet this demand. Your Committee believes that exempting certain housing development projects from the school impact fee will make the development of those projects more financially viable, and thus increase the housing supply.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 142, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 142, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 717 Ways and Means on S.B. No. 1231

The purpose and intent of this measure is to establish a more coordinated and cost-effective statewide health planning and resource development program.

Specifically, the measure:

- (1) Makes the Department of Health alternatively responsible for the State Health Planning and Development Agency's duties;
- (2) Transfers administrative responsibility of the state health planning and development special fund from the State Health Planning and Development Agency to an unspecified entity; and

(3) Requires that any moneys in excess of \$2,000,000 remaining in the state health planning and development special fund at the close of each fiscal year shall lapse to the credit of the general fund.

Your Committee received written comments in opposition to this measure from the State Health Planning and Development Agency and three individuals.

Your Committee received written comments on this measure from Hawaii Pacific Health and Healthcare Association of Hawaii.

Your Committee notes that the Governor has proposed reducing the scope of the State Health Planning and Development Agency and transferring the administration of the certificate of need program to the Department of Health. Your Committee finds that making the Department of Health alternatively responsible for the duties of the Agency will help to meet the Governor's budgetary goals. Your Committee also finds that excess moneys from the state health planning and development special fund should lapse to the credit of the general fund.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1231, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1231, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 718 Ways and Means on S.B. No. 946

The purpose and intent of this measure is to establish a commercial rent relief grant program for certain qualifying owners of commercial, hotel and resort, and industrial properties.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii; Hawaii Farm Bureau; Island Business Management, LLC; Eggs 'n Things Hawaii, Inc.; Hawaii Association of REALTORS; NAIOP Hawaii; Maui Chamber of Commerce; Building Owners and Managers Association of Hawaii; Hawaii Food Industry Association; Morning Brew Cafe; Retail Merchants of Hawaii; Hawaii Restaurant Association; Round Table Pizza; CJ's New York Style Delicatessen/Restaurant; Hawaii Lodging and Tourism Association; Kaimuki Business Professional Association; and one individual.

Your Committee received written comments on this measure from the Department of Taxation.

Your Committee finds that, due to the coronavirus disease 2019 (COVID-19) pandemic and the downturn in the tourism industry, at least one thousand four hundred local businesses have permanently closed, and another two thousand businesses have suspended their operations temporarily. Your Committee recognizes that rental costs are among the largest expenses for businesses. Your Committee notes that as a number of businesses are not able to assume more debt and are not receiving sufficient governmental support, both lessors and lessees are absorbing rental costs. Your Committee believes that, if this situation continues, the State will see additional business closures, which will cause further damage throughout the tourism industry and in the state economy overall. Accordingly, businesses and landlords need appropriate relief, possibly through federal funds.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 946, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 719 Judiciary on S.B. No. 744

The purpose and intent of this measure is to:

- (1) Repeal the authorization for the Governor to negotiate with any person for the development or expansion of private correctional facilities; and
- (2) Prohibit the establishment of private correctional facilities in the State.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Americans for Democratic Action; Community Alliance on Prisons; Ohana Hoʻopakele; United Public Workers, AFSCME Local 646, AFL-CIO; American Civil Liberties Union of Hawaiʻi; Imua Alliance; and ten individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that private correctional facilities are for-profit entities that lack transparency and accountability for incarcerated individuals. Public correctional facilities ensure that consistent policies, protocols, and standards are maintained for incarcerated individuals; employees are properly trained; and medical programs and treatment are readily available. Your Committee further finds that private correctional facilities are not directly subject to the same requirements of a public correctional facility, such as Hawaii's Uniform Information Practices Act, although the Department of Public Safety may collect data from private facilities. This reduces transparency and public accountability in the State's criminal justice system.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 744, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 720 Judiciary on S.B. No. 1388

The purpose and intent of this measure is to:

- (1) Extend the period for a notice of summary possession from five days to fifteen;
- (2) Require landlords to provide notice with specified terms and enter into mediation;
- (3) Delay when a landlord may seek possession of a dwelling unit if the tenant schedules or attempts to schedule mediation;
- (3) Require landlords to provide the notice to mediation centers that offer free mediation for residential landlord-tenant disputes; and
- (4) Restrict when a landlord may exercise certain remedies depending on the amount of rent due.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawai'i Housing Finance and Development Corporation, Hawai'i Association of REALTORS, Catholic Charities Hawai'i, Hawaii Appleseed Center for Law and Economic Justice, Legal Aid Society of Hawai'i, and one individual. Your Committee received comments on this measure from the Medical-Legal Partnership Hawai'i.

Your Committee finds that, since the start of the coronavirus disease 2019 pandemic, the caseload of the courts concerning landlord-tenant disputes has doubled with nearly nine hundred cases being filed. The current environment for evictions due to non-payment has been, and will continue to be, very fluid as state and federal moratoriums for evictions due to non-payment of rent continue to be extended. Your Committee further finds that at some point, the moratoriums will expire and the large number of eviction cases will need to be addressed by the courts. This measure is intended to provide a balanced approach to allow landlords and tenants to resolve these outstanding claims in a manner that is flexible and equitable, as well as orderly.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1388, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1388, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 721 Judiciary on S.B. No. 410

The purpose and intent of this measure is to add abuse of a family or household member to those felonies that qualify for repeat offender sentencing.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Domestic Violence Action Center, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that abuse of family or household member offenses are among the most repeated offenses. The seriousness of this violent crime warrants mandatory minimum sentencing to hold repeat offenders accountable. Your Committee further finds that amendments to the mandatory minimum sentencing law, section 709-606.5, Hawaii Revised Statutes, have not been comprehensive, and abuse of family or household member offenses were not added to the list of offenses that qualify for repeat offender sentencing.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 410, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 722 (Majority) Judiciary on S.B. No. 607

The purpose and intent of this measure is to:

- (1) Remove the construction completion deadline for the Leialii affordable housing project and Keawe Street apartments; and
- (2) Exempt the Leialii affordable housing project from the application of the historic preservation provisions of chapter 6E, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there is a severe shortage of affordable rental housing in the county of Maui, particularly in the western part of the island. To remedy this problem, the Legislature appropriated funds to expedite and complete the Leialii affordable housing and the Keawe Street apartments housing projects, with the mandate that the projects be completed by 2022. However, in 2020 the State Historic Preservation Division of the Department of Land and Natural Resources notified the Hawaii Housing Finance and Development Corporation that it would require a new archaeological inventory survey for the entire Leialii and Keawe Street projects. Despite discussions between the Hawaii Housing Finance and Development Corporation, the State Historical Preservation Division, and Office of the Governor, no agreement could be reached and a new archaeological survey must be performed. In light of this new requirement, your Committee finds that the 2022 completion deadline imposed by the Legislature cannot be met.

Although the intent of the Legislature is to extend the deadline for completion of the Leialii affordable housing project, your Committee further finds that a broad exemption to the historic preservation protections of chapter 6E, Hawaii Revised Statutes (HRS), could cause significant negative impacts to burials and historic sites within and adjacent to the project. Your Committee additionally finds that any exemption to chapter 6E, HRS, should be as narrow as possible to minimize the risk of negative impact.

Your Committee has amended this measure by:

- (1) Narrowing the exemption from the requirements of chapter 6E, HRS, to apply only to the Keawe Street apartments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 607, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 607, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 723 Judiciary on S.B. No. 4

The purpose and intent of this measure is to:

- (1) Prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are residents of the State, are owner-occupants, and do not own any other real property; and
- Require each county to submit a report on inclusionary zoning requirements to the Legislature every year until the Regular Session of 2026.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the State is experiencing a severe shortage of affordable housing. However, there has been a lack of measurable progress at the county level to enact policies that will stimulate housing production to meet the housing demand. Your Committee believes that this measure incentivizes the production of housing units at all price points and encourages more developers to build affordable housing in the State for residents.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 4, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Kim, Fevella). Noes, none. Excused, none.

SCRep. 724 Judiciary on S.B. No. 279

The purpose and intent of this measure is to require that in the event that one of the respective parties to a marriage contract is a minor and the other party is more than five years older than the minor, the Child Protective Services Unit of the Department of Human Services shall investigate and report to the family court of the circuit in which the minor resides before the marriage is approved.

Your Committee received testimony in support of this measure from Unchained at Last and three individuals. Your Committee received testimony in opposition to this measure from Tahirih Justice Center. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawai'i's marriage laws currently permit minors to marry with parental or parental and judicial consent and is one of the remaining twenty-five states that has not passed any marriage age reforms. Between 2000 and 2010, over six hundred children were married in the State. This measure's preservation of Hawai'i's current minimum age of fifteen years old keeps the State as one of five nationwide that sets a statuory age floor below sixteen. Additionally, your Committee finds that child marriage can severely limit opportunities and poses risks to health, education, and economic freedom as minors often lack the rights and resources of adults, making them more vulnerable to coercion, predation, and risk of experiencing violence. Minors may be forced to stay in marriage because they cannot easily leave home, enter a domestic violence shelter, retain an attorney, or bring legal action, including seeking a legal protection order.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 279, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 279, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

SCRep. 725 (Majority) Judiciary on S.B. No. 664

The purpose and intent of this measure is to require the Department of Public Safety to develop the new Oahu Community Correctional Center (OCCC).

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Public Safety, and one individual. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union Hawai'i, Young Progressives Demanding Action, Community Alliance on Prisons, 'Ekolu Mea Nui, and forty-six individuals.

Your Committee finds that a new correctional facility is needed for the Department of Public Safety to fulfill its mandate of providing safe and secure services to incarcerated individuals. The current facility is over one hundred years old and its aging buildings face escalating maintenance costs and contribute to the lack of a safe and efficient work environment. Additionally, the facility is unable to address detainees with special needs or mental health issues although at any given time between 9.5 and twelve percent of OCCC's population is deemed to fall into this category. Currently, OCCC is operating at one hundred twenty-seven percent of its capacity. The Department of Public Safety has estimated that a new 1,380-bed jail to replace OCCC would cost \$525,000,000 or \$380,000 per bed. Additionally, the State seeks to spend an additional \$45,000,000 to expand the Women's Community Correctional Center to accommodate the women previously held at OCCC.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 664, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 726 Judiciary on S.B. No. 756

The purpose and intent of this measure is to:

- (1) Authorize each county to adopt ordinances to enforce section 291-71, Hawaii Revised Statutes, including the establishment of penalties for failure to comply with its requirements or make reasonable efforts to maintain electric vehicle (EV) charging stations in working order;
- (2) Clarify that certain enforcement officers may enter private property to enforce EV parking space violations;
- (3) Require new EV charging systems installed pursuant to the EV charging system requirement to be at least Level 2 and internet-capable; and
- (4) Change EV charging equipped parking requirements per one hundred stalls from one stall by 2012 to five stalls by 2025 and ten stalls by 2030.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, one member of the Maui County Council, Hawaiian Electric Company, Kauai Climate Action Coalition, Climate Reality Project – Hawaii Chapter, Ulupono Initiative, Hawaii Electric Vehicle Association, Our Revolution Hawaii, Climate Protectors Hawaii, 350Hawaii, Environmental Caucus of the Democratic Party of Hawai'i, Blue Planet Foundation, Tesla, and thirty individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Building Owners and Managers Association of Hawaii.

Your Committee finds that emissions from ground transportation account for the largest share of energy sector emissions in the State. Despite Hawai'i's statutory target to sequester more greenhouse gases than emitted no later than 2045, less than thirty percent of qualifying parking lots are in compliance with the requirements to designate and maintain a certain number of charging systems for EVs. This measure clarifies the authority to enforce and promote much needed compliance for EV charging infrastructure to help Hawai'i meet its clean energy goals.

Your Committee has amended this measure by:

- (1) Clarifying that new EV charging systems installed pursuant to the EV charging system requirement be at least Level 2 and network capable; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 756, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 727 Judiciary on S.B. No. 758

The purpose and intent of this measure is to increase from three grams to one ounce:

- (1) The minimum amount of marijuana that a defendant must possess to be charged with a petty misdemeanor; and
- (2) The maximum amount of marijuana that a defendant convicted of possessing marijuana could have possessed without being disqualified from the subsequent expungement of the record of that conviction.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Drug Policy Forum of Hawaii; Pono Hawaii Initiative; Young Progressives Demanding Action; Rainbow Family 808; We Are One, Inc.; Patients Without Time; Imua Alliance; Americans for Democratic Action; and fifty-seven individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney for the City and County of Honolulu, Maui Police Department, Hawaii Police Department, Honolulu Police Department, and one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that, over the past forty years, the "War on Drugs" in the United States has resulted in a series of often racist policies that have cost the taxpayers more than \$1,000,000,000,000, produced over forty million arrests, consumed law enforcement resources, contributed to alarming incarceration rates, and had a disproportionately devastating impact on communities of color. The native Hawaiian community has been particularly impacted, as they make up nearly thirty-seven percent of the State's prison population today. Additionally, a misdemeanor conviction can seriously impact a person's ability to obtain housing, education, and employment. The country is moving toward legalized and regulated adult use of recreational marijuana and decriminalizing small amounts can help eliminate race- and community-targeted enforcement, reduce over-incarceration, and allow law enforcement to focus on serious crime. Accordingly, this measure will assist in curbing ongoing systemic inequities related to drug enforcement.

Your Committee has amended this measure by decriminalizing the possession of thirty grams or less of marijuana, rather than one ounce

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 758, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 728 Judiciary on S.B. No. 241

The purpose and intent of this measure is to authorize qualifying patients and qualifying out-of-state patients to transport cannabis between islands of the State for personal medical use.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i, Community Alliance on Prisons, Hawai'i Cannabis Industry Association, Big Island Grown Dispensaries, Hawai'i Patients Union, Akamai Cannabis Clinic, and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that currently licensed medical cannabis dispensaries are located only on Oahu, Hawai'i island, Maui, and Kaua'i. Because there are no dispensaries on Moloka'i, Lāna'i, and Ni'ihau, qualifying patients living on those islands have less access to legal medical cannabis than qualifying patients residing on other islands. Your Committee further finds that restricting the interisland transportation of cannabis by patients for their personal medical use is contrary to the intent of State laws authorizing qualifying patients to use medical cannabis. This measure will protect the rights of qualifying patients to use medical cannabis by specifically authorizing the interisland transportation of cannabis for personal medical use.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 241, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 241, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 729 Judiciary on S.B. No. 597

The purpose and intent of this measure is to allow candidates seeking election to use campaign funds for child and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from Common Cause Hawaii, AAUW of Hawaii, and five individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that parenthood and care for a candidate's dependents can be an unnecessary and unjust barrier to political office. A potential solution to this problem is to allow candidates for elected office to use campaign funds to defray the expensive costs of a candidate's child care or dependent family care. Your Committee further finds that a growing number of candidates and good governance organizations are pushing state legislatures and elections commissions to adopt similar proposals because it would encourage more women and low-income candidates to run for public office by clearing a restrictive financial barrier for parents and caregivers.

Your Committee has amended this measure by:

- (1) Specifying that a child for which care costs may be paid with campaign funds be under the age of twelve; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 597, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 730 Judiciary on S.B. No. 821

The purpose and intent of this measure is to:

- (1) Allow a minor who has reached the age of sixteen to petition the family court for emancipation, and direct the court regarding investigation of the petition, appointment of legal counsel and a guardian ad litem for the petitioner, and the findings necessary to grant the petition; and
- (2) Specify the rights gained by the minor upon emancipation and authorize the court to require the minor's parents or legal guardians to pay for any services ordered by the court.

Your Committee received testimony in support of this measure from the Hawai'i Youth Services Network, Harm Reduction Hawai'i, and one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that when a minor who has reached the age of sixteen petitions the family court for emancipation, the court must act to protect the best interests of the petitioning minor. Your Committee further finds that due to levels of physical and emotional maturity, comparatively low access to resources, and various legal requirements relating to age, safeguards must be established to ensure the minor is not inequitably disadvantaged.

Your Committee notes that other measures have been introduced in the current legislative session that regulate or restrict the ability of minors to marry, and that the potential for conflict between those measures and this measure should they all be enacted may merit further discussion as this measure proceeds through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 821, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 731 (Majority) Judiciary on S.B. No. 219

The purpose and intent of this measure is to impose extended terms of imprisonment for certain offenses against property rights committed on agricultural lands.

Your Committee received testimony in support of this measure from the Department of Agriculture and Ulupono Initiative. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Community Alliance on Prisons, and two individuals.

Your Committee finds that agricultural crime is a persistent problem in the State despite efforts to install cameras, form community watch groups, and patrol farms. Agricultural theft, vandalism, trespassing, and recently murder have occurred on state agricultural lands. This measure imposes extended terms of imprisonment for certain crimes committed on state agricultural lands to protect the agricultural industry, agricultural lands, and public at-large, and acts as a deterrent to potential offenders.

Your Committee notes, however, that strict liability, the legal standard in which the state of mind of the offender is irrelevant, is generally reserved for the most egregious of crimes and circumstances, and that a requirement that the offender's presence on agricultural land is due at least to negligence is more appropriate.

Your Committee has amended this measure by:

- (1) Requiring an offense committed on agricultural lands to meet the legal standard of negligence or higher for an extended term of imprisonment to apply; and
- (2) Inserting an effective date of 5/6/2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 219, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 219, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 732 Judiciary on S.B. No. 1123

The purpose and intent of this measure is to:

- (1) Give counties jurisdiction over the infrastructure of the Department of Hawaiian Home Lands housing developments located within their boundaries under specific conditions; and
- (2) Require counties, under specific conditions, to commence maintenance on that infrastructure within sixty days, subject to tolling to comply with certain other laws.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received testimony in opposition to this measure from the Department of Water of the County of Kaua'i. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that, although Act 227, Session Laws of Hawaii 2014, clarified and confirmed that operating and maintaining sewer systems is a county function, the Department of Hawaiian Home Lands continues to maintain sewer systems on Hawaiian home lands until such time that Act 227 can be fully implemented in subdivisions completed after the mid-1990s. Your Committee further finds that the resources of the Department of Hawaiian Home Lands are more properly allocated to the development of housing rather than maintenance of infrastructure, such as waterlines and appurtenances, sewer lines, waste treatment systems, roadways, and street lighting that connects to county infrastructure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1123, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1123, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 733 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1313

The purpose and intent of this measure is to require the:

- List of conditionally approved animals for permitted importation into the State to include northern largemouth bass and butterfly peacock bass;
- (2) Department of Agriculture to only issue permits to the Department of Land and Natural Resources for importation of northern largemouth bass and butterfly peacock bass into Hawai'i for breeding and releasing; and
- (3) Department of Land and Natural Resources' Division of Aquatic Resources to establish a pilot project to restock the Wahiawa public fishing area with northern largemouth bass, butterfly peacock bass, or both.

Your Committees received testimony in support of this measure from the Hawaii Freshwater Fishing Association, Wahiawa Community Based Development Organization, and eight individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Agriculture.

Your Committees find that although freshwater bass have existed in the State's artificial reservoirs since 1896, attempts to import largemouth bass into the State to improve the fishing stock have faced regulatory restrictions. Your Committees further find that adding certain types of bass to the list of conditionally approved animals will allow the enhancement of pre-existing populations of bass for continued recreational fishing.

Your Committees considered testimony from the Department of Agriculture describing the process by which the Department places species onto the list of conditionally approved animals. Your Committees further find that adding types of bass to the list by statutory fiat unduly bypasses the procedures established by the Department.

Accordingly, your Committees have amended this measure by:

- (1) Removing the statutory requirement that northern largemouth bass and butterfly peacock bass be considered on the list of conditionally approved animals that require a permit for importation into the State;
- (2) Requiring the Department of Agriculture to engage in a review by January 1, 2022, of whether northern largemouth bass should be placed on the list of conditionally approved animals;
- (3) Requiring the Division of Aquatic Resources to establish the restocking pilot program and apply for a permit from the Department of Agriculture to import northern largemouth bass and butterfly peacock bass after they are placed on the list of conditionally approved animals;
- (4) Requiring the Division of Aquatic Resources, Department of Agriculture, and all other relevant boards and divisions, to work together until the restocking pilot program is successfully completed;
- (5) Changing the effective date to July 1, 2021; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1313, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1313, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.

Ways and Means: Ayes, 9. Noes, 1 (Fevella). Excused, 1 (Wakai).

SCRep. 734 (Joint) Ways and Means and Judiciary on S.B. No. 1132

The purpose and intent of this measure is to ensure the economic viability of the State's Medicaid program.

Specifically, the measure ensures access to health care for Medicaid recipients by:

- (1) Establishing a Medicaid sustainability fee to be assessed on health insurers;
- (2) Establishing a Medicaid sustainability program special fund to receive money from the Medicaid sustainability fee and federal Medicaid matching funds; and
- (3) Using moneys from the Medicaid sustainability program special fund to pay for healthcare services covered under Medicaid.

Your Committees received written comments in support of this measure from the Department of Human Services and Hawaii Primary Care Association.

Your Committees received written comments in opposition to this measure from Ohana Health Plan.

Your Committees received written comments on this measure from Hawaii Medical Service Association.

Your Committees find that provider fees such as the Medicaid sustainability fee established by this measure are used in forty-nine other states and the District of Columbia as a means to draw down federal funds to sustain state Medicaid programs. Your Committees further find that the program established by this measure will help to guarantee access to critical Medicaid benefits, such as supportive housing, behavioral health, vaccinations, preventive health, primary care, and home- and community-based services, for the State's most vulnerable populations at a time when state budget constraints due to the coronavirus disease 2019 (COVID-19) pandemic may force reductions in payments.

Your Committees have amended this measure by:

- (1) Removing provisions providing for the reenactment of sections 36-27(a) and 36-30(a), Hawaii Revised Statutes, in the form in which they read on the day before the effective date of the measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1132, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1132, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 735 (Joint) Ways and Means and Judiciary on S.B. No. 1243

The purpose and intent of this measure is to phase out the use of privately-operated mainland correctional facilities to incarcerate Hawaii inmates and require the approval of the Hawaii Correctional System Oversight Commission to construct any new, or expand any existing, correctional facilities in the State.

Your Committees received written comments in support of this measure from the Office of the Public Defender; Office of Hawaiian Affairs; Common Cause Hawaii; Community Alliance on Prisons; Americans for Democratic Action; Imua Alliance; League of Women Voters of Hawaii; United Public Workers, AFSCME Local 646, AFL-CIO; American Civil Liberties Union of Hawaii; Hawaii Government Employees Association; Kokua Kalihi Valley Comprehensive Family Services; and numerous individuals.

Your Committees received written comments in opposition to this measure from the Department of Public Safety and one individual.

Your Committees received written comments on this measure from one individual.

Your Committees find that incarcerating Hawaii inmates in mainland facilities can have detrimental and destructive effects on the inmates, who are separated from their homes, cultures, families, job prospects, and community support systems. Your Committees further find that the Hawaii Correctional System Oversight Commission has the expertise needed to make decisions about any future correctional facility expansion or construction in the State.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050 to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1243, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1243, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 736 Judiciary on S.B. No. 40

The purpose and intent of this measure is to allow owner-occupant projects to qualify, without income restrictions, as a housing project that may be exempt from certain statutes pursuant to the provisions of section 201H-38, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that a critical need exists for housing for low-income residents in the State. Your Committee further finds that state and county regulations increase the required time and financial investment for property development and that this increase, while necessary in many instances, has the potential to inflate the cost to produce new housing projects and homeownership opportunities. By providing Hawaii residents with more opportunities to purchase a home, the State would be moving toward fulfilling the housing objectives and policies for socio-cultural advancement outlined in the Hawaii State Planning Act, as codified in section 226-19, Hawaii Revised Statutes.

Your Committee notes a concern raised at hearing that exempting certain housing projects from regulations and safeguards under chapter 6E, Hawaii Revised Statutes, could lead to the disruption of burial sites or other historically and culturally important places, and that such concern may merit further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 40, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 737 Commerce and Consumer Protection on S.B. No. 611

The purpose and intent of this measure is to make permanent the regulation of behavior analysts.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Education, Department of Health, Hawaii Disability Rights Center, Hawaii State Teachers Association, Hawaiii Association for Behavior Analysis, Together For Our Keiki, and eighteen individuals.

Your Committee finds that, in 2015, Hawaii established the behavior analyst program within the Department of Commerce and Consumer Affairs and created licensing requirements for behavior analysts. The licensing program was implemented concurrently with mandated insurance coverage for diagnosis and treatment relating to autism disorders. Since then, almost five hundred behavior analysts have been licensed and over one thousand five hundred registered behavior technicians have been credentialed in Hawaii, allowing thousands of children and other individuals to receive access to applied behavior analysis services. In December 2020, the Auditor's sunrise analysis and final report supported the continued regulation of the applied behavior analysis profession, specifically finding that licensing requirements governing the practice of applied behavior analysis are reasonably necessary to protect the health, safety, and welfare of those receiving services and will ensure continued treatment for those with autism. This measure will maintain the regulation of behavior analysts to protect consumers and vulnerable keiki from unqualified practitioners and unprofessional conduct, and promote high quality services for those who need them.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 611, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 738 Commerce and Consumer Protection on S.B. No. 1258

The purpose and intent of this measure is to allow for standard telephone contacts for telehealth purposes.

Your Committee received testimony in support of this measure from Hawaii Medical Association; University of Hawaii System; AARP Hawaii; Hawaii Substance Abuse Coalition; Advanced Reproductive Medicine & Gynecology of Hawaii, Inc. dba Fertility Institute of Hawaii; Ka'u Wellness, Primary Care Clinic; Hawaii Primary Care Association; Waianae Coast Comprehensive Health Center; Hawaii Psychological Association; American College of Obstetricians and Gynecologists; Hawaii Psychiatric Medical Association; and twenty-five individuals. Your Committee received testimony in opposition to this measure from Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Human Services, Kaiser Permanente Hawaii, and Hawaii Medical Service Association.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has resulted in an increased use of telehealth services and has further exposed the challenges that remain with internet connectivity, bandwidth, devices, and digital literacy. During the onset of the COVID-19 pandemic, it was found that existing law concerning telehealth services needed to be clarified to allow for the use of telephone visits (i.e., audio-only) for telehealth purposes, as telephone-only visits have proven to be absolutely critical for maintaining connection and care for those who do not have access to smart phones, devices, or computers with webcams. The elderly and high-risk patients who reside in medically-underserved areas often face barriers that can impede seeking care or following up after a doctor's appointment or hospitalization. Therefore, this measure will help improve access to care by allowing standard telephone contacts for the purpose of providing telehealth services.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 739 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 474

The purpose and intent of this measure is to ensure that buyers of coastal property understand the hazards and risks they are assuming in purchasing oceanfront property. Specifically, this measure requires that sellers of residential real property disclose whether a residential real property lies within a sea level rise exposure area, as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Climate Change Mitigation and Adaptation Commission, Hawaiii Association of REALTORS, Surfrider Foundation Hawaii Region, Sierra Club of Hawaii, Hawaii Shore & Beach Preservation Association, Imua Alliance, Hawaii Reef Ocean Coalition, and six individuals.

Your Committees find that coastal properties are vulnerable to erosion due to shoreline recession and land loss. A historical lack of understanding of these risks has resulted in a legacy of encroaching development built without sufficient setbacks on eroding shorelines. Therefore, permitted and unpermitted construction of sea walls and other shoreline hardening structures, such as seawalls and rock revetments, is generally prohibited for private properties fronting beaches pursuant to chapter 205A, Hawaii Revised Statutes. Additionally, recent science points to a likelihood of three feet or more of sea level rise in the second half of the century, within the expected lifespan of most existing and new development. Your Committees further find that it is important for buyers to understand the hazards and risks they are assuming in purchasing oceanfront property since the value of property lying within the boundaries of a sea level rise exposure area will likely be affected over time, and this risk is a material fact that should be disclosed by the seller in a real property transaction in accordance with chapter 508D, Hawaii Revised Statutes, to allow for informed decision-making by buyers.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 474, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 740 (Joint) Judiciary and Ways and Means on S.B. No. 912

The purpose and intent of this measure is to:

- (1) Authorize a court to order the forfeiture of one-half of the Employees' Retirement System (ERS) benefits of an ERS member, former member, or retirant upon conviction of the individual for a felony related to the state or county employment of the individual;
- (2) Authorize designated beneficiaries to receive the reduced ERS benefits to which the member, former member, or retirant would be entitled upon the death of the member, former member, or retirant; and
- (3) Prohibit designated beneficiaries convicted of a felony under the same set of circumstances as the member, former member, or retirant who was subject to forfeiture of ERS benefits from receiving benefits.

Your Committees received testimony in support of this measure from the Hawai'i State Ethics Commission, Common Cause Hawaii, and seven individuals.

Your Committees find that while existing law requires an employee of the State or county who is convicted of a felony to have their employment terminated, the employee is still entitled to receive benefits from the ERS. Public employees who have been convicted of a felony that is directly related to the employee's position or duties ultimately lose the trust of the public by misusing their position and therefore should no longer be eligible to receive benefits accrued during their employment with the State or county. Your Committees further find that beneficiaries who were convicted of a felony based on the same set of circumstances as the member, former member, or retirant who was subject to forfeiture of their retirement benefits, should also not be allowed to receive ERS benefits. This measure will prohibit public employees and their beneficiaries from reaping ERS benefits should they be convicted of a felony relating to their employment, thereby restoring confidence in Hawai'i's government.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 912, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 741 Judiciary on S.B. No. 382

The purpose and intent of this measure is to include tips or gratuities that are paid directly to an employee by a customer of the employer and reported or declared to the employer, for the purposes of an employer withholding income from an employer for payment of the employee's child or spousal support under an assignment or income withholding order.

Your Committee did not receive any testimony on this measure.

Your Committee finds that cash wages paid directly by the employer and the amount of any tip credit claimed by the employer under federal or state law are earnings for the purposes of the wage garnishment law. However, tips received more than the tip credit amount are not considered earnings for purposes of the Consumer Credit Protection Act, Title III. Thus, this measure seeks to include all received tips and gratuities in the definition of "income" withheld by employers for payments of child or spousal support and allow employers to garnish the appropriate child or spousal support payments to help alleviate the financial stress and worry that many families experience.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 742 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 676

The purpose and intent of this measure is to increase the minimum wage from \$10.10 per hour to \$12.00 per hour beginning on July 1, 2022.

Your Committees received written comments in support of this measure from the Department of Labor and Industrial Relations; Americans for Democratic Action; Community Alliance on Prisons; Community Alliance Partners; Danielle Beaver, Attorney at Law; Faith Action for Community Equity; Foresight/Policy Analysis; Hawaii Alliance for Community-Based Economic Development; Hawaii Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Democratic Women's Caucus; Hawaii Health and Harm Reduction Center; Hawaii Public Health Institute; Hawaii State Teachers Association; Hawaii Workers Center; ILWU Local 142; Kokolulu Farm and Cancer Retreats Inc.; League of Women Voters Hawaii; LGBT Caucus of the Democratic Party of Hawaii; Living Wage Hawaii; Paradise Production Studios, Inc.; Pono Hawaii Initiative; Pride at Work - Hawaii; Save Medicaid Hawaii; Sierra Club of Hawaii; St Elizabeth's Church; United Public Workers, AFSCME Local 646; Young Progressives Demanding Action; and numerous individuals.

Your Committees received written comments in opposition to this measure from Chamber of Commerce Hawaii; Envisions Entertainment; Gyotaku Restaurants; Hawaii Food Industry Association; Hawaii Lodging and Tourism Association; Hawaii Restaurant Association; Hawaii Transportation Association; Hawaiian Chip Company, LLC; Highway Inn; Honolulu County Republican Party; IL Gelato Hawaii; Island Plastic Bags, Inc.; Jade Food Products, Inc.; Kona-Kohala Chamber of Commerce; Maui Chamber of Commerce; Molokai Sea Farms; National Federation of Independent Business; Pacific Mirror and Glass; Retail Merchants of Hawaii; Tiki's Grill and Bar; and six individuals.

Your Committees received written comments on this measure from Common Cause Hawaii, Democratic Party of Hawaii Education Caucus, Imua Alliance, The Heartland Institute, and two individuals.

Your Committees find that increasing the minimum wage to \$12.00 per hour is an appropriate way to address inflation and the increased cost of living in the State.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 676, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9; Ayes with Reservations (Fevella). Noes, 2 (Inouye, Wakai). Excused, none.

Judiciary: Ayes, 5; Ayes with Reservations (Acasio, Gabbard, Fevella). Noes, none. Excused, 2 (Keohokalole, Kim).

SCRep. 743 Human Services on Gov. Msg. Nos. 557 and 558

Recommending that the Senate advise and consent to the nominations of the following:

STATE REHABILITATION COUNCIL

G.M. No. 557 CATHERINE TAYLOR, for a term to expire 06-30-2022; and

G.M. No. 558 VICTORIA KENNEDY, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by Catherine Taylor and Victoria Kennedy for service on the State Rehabilitation Council.

CATHERINE TAYLOR

Your Committee received testimony in support of the nomination of Dr. Catherine Taylor from the Department of Human Services, Division of Vocational Rehabilitation.

Upon review of the testimony, your Committee finds that Dr. Taylor's experience, commitment to public service, and proven leadership qualify her for appointment to the State Rehabilitation Council.

Your Committee finds that Dr. Taylor's background in education and disability advocacy, desire to contribute to the community, and interest in serving the public qualify her for appointment to the State Rehabilitation Council, where she will be a representative for the disability groups representing a cross section of individuals with physical, cognitive, sensory, and mental disabilities and also satisfy the requirement of having a member from Maui. Your Committee finds that Dr. Taylor has been a licensed mental health counselor and behavioral specialist since 2008. Your Committee also notes that Dr. Taylor's education credentials include a Doctorate in Education, specializing in exceptionalities, and a Master of Science degree in rehabilitation counseling. For more than fifteen years, Dr. Taylor has dedicated her career to advancing the needs of individuals with disabilities or special needs.

Your Committee further finds that Dr. Taylor's commitment to championing those with disabilities or other special needs is laudable. From her work as a behavioral health specialist, focusing on children with autism and traumatic brain injuries, to her leadership as a counselor for disability services at the University of Hawaii, Maui College, to her current position as a special education and science teacher at the Iao School and Maui High School, Dr. Taylor continues to demonstrate her commitment to service in this area. Importantly, your Committee notes that Dr. Taylor has extensive knowledge and understanding of working with individuals with disabilities and supporting their educational needs as they transition to employment and post-secondary education. Dr. Taylor has worked closely with the Division of Vocational Rehabilitation counselors in facilitating the transition of individuals with disabilities into the workforce and into vocational and college programs, a need that has been underscored during the coronavirus disease 2019 pandemic.

VICTORIA KENNEDY

Your Committee received testimony in support of Ms. Kennedy's nomination from the Department of Human Services, Division of Vocational Rehabilitation; City and County of Honolulu Department of Parks and Recreation; University of Hawai'i at Manoa; and Hawaii Fi-Do Service Dogs.

Your Committee finds that Ms. Kennedy's background in education and disability advocacy, desire to contribute to the community, and interest in serving the public qualify her for appointment to the State Rehabilitation Council. Ms. Kennedy has dedicated more than thirty years to advocacy for individuals who are blind or visually impaired. Specifically, Ms. Kennedy has spent a significant portion of her career to developing programs that focus on guide dogs for the blind. She continues to give presentations about guide dogs to service organizations and schools. Ms. Kennedy also trains blind individuals on assistive aides such as iPhones and the Victor Reader Stream, a handheld digital media player that provides an opportunity for blind and visually impaired persons to listen to books, newspapers, music, and internet radio stations.

Your Committee further finds that serving on the Council will provide another hands-on opportunity for Ms. Kennedy to continue to advocate for people who need more-accessible media to participate in everyday government activities, which sighted people take for granted. Your Committee also finds Ms. Kennedy's first-hand experiences with blindness, educating the public on individuals who are blind or visually impaired, and her work for the legitimacy of service animals, equips her with the type of knowledge and leadership that will make her an asset as a member of the State Rehabilitation Council. Finally, your Committee notes that Ms. Kennedy's visual impairment disability, satisfies the requirement of section 348-8(a), Hawaii Revise Statutes, that "a majority of the council members shall be persons who have disabilities and are not employed by the vocational rehabilitation division of the department."

As affirmed by the records of votes of the members of your Committee on Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 744 (Joint) Government Operations and Ways and Means on S.B. No. 83

The purpose and intent of this measure is to designate November 28 of each year as La Kuʻokoʻa, Hawaiian Recognition Day, which shall not constitute a state holiday.

Your Committees received testimony in support of this measure from two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that Hawaii's special heritage and the various holidays currently celebrated distinguishes Hawaii from other states. La Kuʻokoʻa, Hawaiian Recognition Day, commemorates that during the reign of Kamehameha III, Great Britain and France recognized the independence of the Hawaiian Kingdom by joint proclamation on November 28, 1843. The United States followed on July 6, 1844. The first official celebration of La Kuʻokoʻa occurred in 1847. Acknowledging La Kuʻokoʻa, or Hawaiian Recognition Day, is an appropriate and meaningful way to recognize and celebrate the culture and history of Hawaii.

As affirmed by the records of votes of the members of your Committees on Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 83, S.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 5. Noes, none. Excused, none. Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 745 (Joint) Government Operations and Ways and Means on S.B. No. 939

The purpose and intent of this measure is to establish June 19 of each year as Juneteenth Day in recognition of the history and legacy of slavery in the United States and in honor of the significant roles and contributions of African Americans in the history of the United States.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, two members of the Honolulu City Council, one member of the Hawai'i County Council, one member of the Kaua'i County Council, Common Cause Hawaii, Young Progressives Demanding Action, Punahou Black Student Union, Community Alliance on Prisons, Hawaii for Juneteenth Coalition, and nineteen individuals.

Your Committees find that Hawaii is one of only three states that have not recognized Juneteenth as a state holiday or special day of observance. Juneteenth, also known as Freedom Day, was the day in 1865 that Union soldiers rode into Galveston, Texas, declaring the end of the Civil War and that all slaves were free. The holiday is a celebration of African American freedom and achievement, encouraging continuous self-development and respect for all cultures. Your Committees further find that as a state that prides itself on diversity and inclusivity, it is long overdue for the State to fully live out the Aloha spirit and stand with the forty-six states that have chosen to make Juneteenth an annual day of remembrance and celebration.

As affirmed by the records of votes of the members of your Committees on Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 939 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 5. Noes, none. Excused, none. Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 746 Judiciary on S.B. No. 404

The purpose and intent of this measure is to:

- (1) Increase the monetary threshold that requires disclosure of electioneering communications;
- Require that disclosures of electioneering communications occur on the date the electioneering communications are publicly distributed; and
- (3) Classify election advertisements sent by mail at any postal rate, and election advertisements that are expenditures of an organization, as electioneering communications.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that the contracts for campaign advertisements can occur weeks or months before the advertisements are publicly distributed. Your Committee further finds that changing the disclosure date to the date on which the advertisement runs and triggering the requirement to file a statement of information at that time will increase public transparency and accountability in campaign advertising. Your Committee additionally finds that increasing the threshold amount for filing a statement of information from \$2,000 to \$5,000 will reduce the burden on smaller candidate committees that generally engage in less advertising.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 747 (Joint) Government Operations and Ways and Means on S.B. No. 82

The purpose and intent of this measure is to:

- (1) Require each new member of a board or commission to participate in a formal educational and orientation session with the head of the department with jurisdiction of that member's board or commission to receive voting rights; and
- (2) Require each department and agency to train their members at least once per calendar year.

Your Committees received testimony in support of this measure from the Hawai's State Ethics Commission, Hawaii Paroling Authority, and three individuals. Your Committees received testimony in opposition of this measure from the Department of Agriculture and four individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Land and Natural Resources, Department of Human Services, Department of Accounting and General Services, Land Use Commission, Hawaii Employer-Union Health Benefits Trust Fund, Executive Office on Early Learning, and one individual.

Your Committees find that reports from the Office of the Auditor have indicated that various state board members and staff are unfamiliar with the applicable laws and statutes that are relevant to the work of the board or commission on which they sit. Your Committees also find that although some departments train the members of their boards and commissions, this is not a consistent practice throughout the State. This measure would ensure that board and commission members have appropriate training to effectively fulfill their responsibilities.

Your Committees heard testimony regarding concerns that the requirement for newly appointed board members to complete training before receiving voting rights will limit the board or commission's ability to meet quorum requirements and take action on pending board matters that require a vote.

Accordingly, your Committees have amended this measure by:

(1) Moving the proposed language from section 26-35.5, Hawaii Revised Statutes, relating to liability matters of members of boards and commissions, to section 26-34, Hawaii Revised Statutes, relating to the selection and terms of members of boards and commissions;

- (2) Clarifying each new board and commission member shall participate in an orientation and training session;
- (3) Allowing the designee of the head of the department or agency to conduct the training;
- (4) Removing the requirement for members to complete training before receiving voting rights;
- (5) Specifying that the initial training include the mission, roles, and responsibilities under applicable federal, state, and local laws; programs; processes and procedures; and statutes relevant to the work of the board or commission on which the member sits:
- (6) Requiring the annual training to supplement the initial training; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 82, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 82, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 11; Ayes with Reservations (Taniguchi, Fevella). Noes, none. Excused, none.

SCRep. 748 (Majority) Judiciary on S.B. No. 301

The purpose and intent of this measure is to:

- (1) Define "assault rifle" and "assault shotgun";
- (2) Expand the ban on pistols with a detachable magazine with over ten round capacity to any firearm with a detachable magazine with over ten round capacity;
- (3) Prohibit anyone from bringing or causing to be brought into the State an assault rifle or assault shotgun; and
- (4) Prohibit the sale or transfer of any assault rifle or assault shotgun in the State, unless sold or transferred to an authorized person.

Your Committee received testimony in support of this measure from Americans for Democratic Action, Church of the Crossroads, and eleven individuals. Your Committee received testimony in opposition to this measure from the Maui Police Department, National Rifle Association; Hawaii Firearms Coalition; Pu'uloa Rifle and Pistol Club; Bushido Arms and Ammunition, LLC; Hawaii Rifle Association; Aloha Freedom Coalition; Young Guns; Berean Beacon Ministry; Valley Isle Sport Shooters; National Shooting Sports Foundation; and over one thousand one hundred individuals.

Your Committee finds that Hawai'i has some of the strongest gun safety laws in the nation and, in 2016, the State received an Aminus rating from the Giffords Law Center to Prevent Gun Violence. Your Committee further finds that Hawai'i had the lowest number of gun deaths per capita among the states in 2017, according to the Centers for Disease Control and Prevention. Your Committee additionally finds that a ban on pistols with a detachable magazine with over ten round capacity has existed in the State since 1992. Although your Committee also finds that the State is committed to protecting the safety and well-being of its citizens, your Committee notes that ambiguity exists in the terminology used to describe firearms such as assault rifles and assault shotguns. Your Committee believes that further discussion on such ambiguities warrants continued discussion.

Accordingly, your Committee has amended this measure by:

- (1) Removing language defining "assault rifle" and "assault shotgun";
- (2) Removing language prohibiting anyone from bringing or causing to be brought into the State an assault rifle or assault shotgun:
- (4) Removing language prohibiting the sale or transfer of any assault rifle or assault shotgun in the State, unless sold or transferred to an authorized person; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kim). Noes, 3 (Acasio, Gabbard, Fevella). Excused, none.

SCRep. 749 Judiciary on S.B. No. 405

The purpose and intent of this measure is to provide that excess contributions by nonresident contributors shall escheat to the Hawaii Election Campaign Fund if not returned to the contributor within thirty days of the date the contribution was received.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and five individuals.

Your Committee finds that the Hawaii Election Campaign Fund was established to be used for partial public financing of campaigns of the State and its political subdivisions. Your Committee further finds that demand for financing from this fund often outstrips the

available resources. Providing that excess contributions by nonresident contributors shall escheat to the fund if not returned to the contributor within thirty days compliments existing law and will help ensure adequate funding for the partial public financing program. However, your Committee additionally finds that it is often not possible to determine whether the amount of a nonresident contribution is excessive until after thirty days have passed since the contribution was made.

Accordingly, your Committee has amended this measure by:

- (1) Providing that excess contributions by nonresidents shall escheat to the Hawaii Election Campaign Fund if not returned to the contributor within thirty days of the end of the election period;
- Allowing the candidate, candidate committee, or noncandidate committee to choose which excess contributions by nonresident contributors to return; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 405, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 750 Judiciary on S.B. No. 528

The purpose and intent of this measure is to:

- (1) Require printed and electronic political advertising to prominently display candidate-approval language on each page; and
- (2) Increase the fine for violations.

Your Committee received testimony in support of this measure from Common Cause Hawaii and twelve individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that pieces of advertising are frequently presented in such a way that their nature as advertisements is not obvious, and that this can be done with political advertising as well. Your Committee further finds that political advertising with multiple pages may contain the required candidate-approval language in a place or manner that is not immediately apparent to the viewer. Requiring candidate-approval language more frequently throughout a multi-page advertisement will make its nature more apparent and increase transparency in political advertising.

Your Committee notes that political candidates occasionally release longer pieces of literature not directly related to politics, such as cookbooks, as part of their campaign, and that it is unlikely that candidate-approval language would be beneficial or necessary throughout such a piece of literature.

Your Committee has amended this measure by:

- (1) Requiring political advertising to prominently display candidate-approval language only on each odd-numbered page;
- (2) Retaining existing fines for violations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 528, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 751 Judiciary on S.B. No. 1050

The purpose and intent of this measure is to authorize the Department of the Attorney General to search criminal histories and fingerprint records of current and prospective employees and contractors who receive access to federal tax information.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of the Attorney General, and Department of Human Resources Development.

Your Committee finds that the Internal Revenue Service requires that background checks be performed on all current and prospective employees and contractors who receive access to federal tax information. The background checks must be comprehensive and must include a state and Federal Bureau of Investigation fingerprint-based background check. Your Committee further finds that the Department of the Attorney General does not currently have the authority to perform criminal history and fingerprint record searches to fulfill this requirement from the Internal Revenue Service. This measure will authorize the Department of the Attorney General to conduct the investigations necessary to meet that requirement.

Your Committee has amended this measure by:

- (1) Removing the exemption from chapter 91, Hawaii Revised Statutes, for criminal history record check investigations performed by the Department of the Attorney General; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1050, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 752 Judiciary on S.B. No. 159

The purpose and intent of this measure is to:

- (1) Require any person who is eligible to vote and applies for a motor vehicle driver's license or identification card to be automatically registered to vote unless the applicant affirmatively declines;
- (2) Allow an applicant to affirmatively decline to have any of the applicant's information electronically transmitted; and
- (3) Authorize access to and electronic transmission of databases maintained or operated by the counties or the Department of Transportation that contains driver's license or identification card information to election officials and the online voter registration system.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of Elections; Hawai'i State Commission on the Status of Women; Office of the Kauai County Clerk; League of Women Voters; LGBT Caucus of the Democratic Party of Hawai'i; Common Cause Hawaii; Automatic Voter Registration Hawai'i Coalition; Hawai'i Women's Coalition; Hawai'i Health & Harm Reduction Center; AARP Hawai'i; American Civil Liberties Union of Hawai'i; Hawai'i Democratic Party Women's Caucus; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women of Hawai'i Health Institute; Earth Medicine Institute; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Community Alliance on Prisons; Hawaii State Teachers Association; Hawaii Friends of Civil Rights; Save Medicaid Hawaii; and thirty-two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that increased voter engagement and participation is beneficial to the civic health of the State, and that increased voter registration is a vital step in this process. Your Committee further finds that automatic voter registration will make voter rolls more accurate and secure by helping to keep them updated and current. This measure will provide more access to voter registration and ensure the accuracy of voter registration rolls by transmitting voter registration data between the driver licensing and identification card database and the statewide voter registration system.

Your Committee has amended this measure by:

- (1) Requiring information about the residence address confidentiality program to be provided to applicants;
- (2) Removing redundant language prohibiting the Examiner of Drivers from transmitting information that the applicant affirmatively declines to be transmitted;
- (3) Prohibiting the Examiner of Drivers from transmitting information if the applicant presents a document demonstrating a lack of United States citizenship;
- (4) Clarifying that information to be transmitted includes changes to an applicant's voter registration information;
- (5) Clarifying that databases containing driver's license or identification card information shall be "accessible" instead of "directly accessible" to election officials and the online voter registration system; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 159, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 753 Judiciary on S.B. No. 1034

The purpose and intent of this measure is to:

- (1) Allow boards to use interactive conference technology to remotely conduct public meetings under the Sunshine Law;
- (2) Authorize boards to exclude the public from nonpublic locations, such as homes, where board members are physically present when remote board meetings are held by interactive conference technology;
- (3) Establish requirements for notice, procedures, and the conduct of remote meetings;
- (4) Amend existing option to hold in-person meetings at multiple public meeting sites connected by interactive conference technology to require termination of meeting only if audio communication is lost and cannot be reestablished within an hour and the board had not provided reasonable notice of how the meeting would be continued;
- (5) Allow for additional courtesy sites open to the public for both remote and in-person meetings held by interactive conference technology; and
- (6) Allow for contact tracing and social distancing in a pandemic.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Public Safety, Hawai'i Civil Rights Commission, Hawaii State Council on Developmental Disabilities, Office of Information Practices, Hawaii Public Housing Authority, Disability and Communication Access Board, University of Hawai'i System, Civil Beat Law Center for the Public Interest, Common Cause Hawaii, National Federation of the Blind of Hawaii, Hawaii Community Development Authority, Big Island Press Club, Society of Professional Journalists Hawaii Chapter, All Hawaii News, League of Women Voters of Hawaii, and twelve individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, and one individual.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic forced the implementation of emergency measures suspending certain requirements of the State's Sunshine Law in order to allow boards to continue meeting and conducting necessary business, while protecting participants' health and safety and expanding public access to meetings throughout the State. Your Committee further finds that, during the COVID-19 pandemic, remote meetings help to prevent the spread of disease and that, even when there is not an ongoing pandemic, remote meetings can be a way to protect the health and safety of participants. Your Committee additionally finds that remote meetings can enable members of a board or the public to participate in meetings even if they live far from the physical location of a meeting or on another island.

Your Committee has amended this measure by:

- (1) Deleting language from the purpose section;
- (2) Requiring that the mandatory public meeting location for a remote meeting be connected by audio-visual connection;
- (3) Requiring the notice of a remote meeting to include information on how to access captioning services;
- (4) Requiring that, if the connection to an additional public location is interrupted in a way that interferes with an Americans with Disabilities Act (ADA) accommodation, the meeting shall be recessed until the connection is restored and, if the connection is not restored in a timely fashion, the meeting shall be terminated;
- (5) Requiring all remotely conducted meetings to utilize captioning services through the streaming provider or an outside service;
- (6) Requiring that all votes conducted during a remote meeting be taken by roll call;
- (7) Requiring additional public locations to include accommodations for persons with disabilities pursuant to the ADA upon request from a member of the public;
- (8) Reducing the time a meeting may be recessed to correct a technical or connection problem from one hour to twenty minutes;
- (9) Deleting language that would have allowed for contact tracing during a pandemic;
- (10) Specifying that "interactive conference technology" is accessible to and usable by individuals with disabilities;
- (11) Requiring notice of a meeting to include instructions on how to request accommodations due to disabilities for all locations specified in the notice:
- (12) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1034, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 754 Judiciary on S.B. No. 829

The purpose and intent of this measure is to add coercive control between family or household members to the offense of abuse of family or household members as a petty misdemeanor.

Your Committee received testimony in support of this measure from the Hawai'i State Coalition Against Domestic Violence, Domestic Violence Action Center, Rainbow Family 808, Hawai'i's Early Childhood Action Strategy, AAUW of Hawai'i, Ho'ola Na Pua, and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Honolulu Police Department.

Your Committee finds that abuse between family or household members takes many forms and coercive control is often part of the cycle of domestic violence. Your Committee further finds that coercive control is defined under section 586-1, Hawaii Revised Statutes, in part as "a pattern of threatening, humiliating, or intimidating actions, which may include assaults, or other abuse that is used to harm, punish, or frighten an individual." Your Committee additionally finds that coercive behaviors often carry a threat of violence or are direct precursors to violence.

Your Committee also finds that Act 19, Regular Session of 2020, established a five-year pilot program to strengthen state and county responses to domestic violence and increase offender accountability. Part of this pilot program was the establishment of a petty misdemeanor offense within abuse of a family or household member. Your Committee further finds that the addition of coercive control as a petty misdemeanor offense should be placed within the pilot program established by Act 19, Regular Session of 2020.

Accordingly, your Committee has amended this measure by:

- (1) Including coercive control as part of the petty misdemeanor offense of abuse of a family or household member to the pilot program established by Act 19, Regular Session of 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 829, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 829, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 755 Transportation on S.B. No. 112

The purpose and intent of this measure is to make it a misdemeanor to engage or facilitate flying without a valid pilot license.

Your Committee received comments on this measure from one individual.

Your Committee finds that flying without a license is a threat to public safety. This measure makes flying without a license a misdemeanor. Your Committee notes that it did not receive any testimony on this measure from the Department of Transportation, representatives of the airlines or airports, or experts in aviation, which limited the ability of your Committee to make amendments or receive answers to questions. It is the desire of your Committee that, should this measure advance, the various stakeholders and experts take the opportunity to testify and ensure that some of the questions that have been raised may be answered.

Your Committee has amended this measure by:

- (1) Adding the definition of "pilot license";
- (2) Including an exemption to ensure that student pilots who are in training but are not yet licensed will not be penalized for flying; provided they have a student certificate; and
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 112, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 756 Health on S.B. No. 89

The purpose and intent of this measure is to amend the law relating to health.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to amend the date after which qualifying patients must obtain medical cannabis or manufactured cannabis products only from a licensed dispensary or by cultivating cannabis as permitted by law from December 31, 2023, to December 31, 2021.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 89, as amended herein, and recommends that it be recommitted to your Committee on Health, in the form attached hereto as S.B. No. 89, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 757 Judiciary on S.B. No. 697

The purpose and intent of this measure is to establish January of each year as "Kalaupapa Month".

Your Committee received testimony in support of this measure from the Department of Health, Ka 'Ohana O Kalaupapa, and three individuals.

Your Committee finds that in 1865, the Kingdom of Hawai'i passed "An Act to Prevent the Spread of Leprosy", which required the Board of Health to "cause to be isolated and confined . . . all leprous patients who shall be deemed capable of spreading the disease of leprosy." Leprosy, also known as Hansen's disease, is an infection caused by *mycobacterium leprae*, a slow-growing bacteria, that can affect the nerves, skin, eyes, and lining of the nose, and if left untreated can result in the crippling of hands and feet, paralysis, and blindness. Though it is now known that leprosy does not spread easily and there is effective treatment, for many years it was feared as a highly contagious and devastating disease. Accordingly, to prevent the spread of leprosy, the Kingdom bought eight hundred acres of land on the remote Kalaupapa peninsula of Moloka'i in order to forcibly remove from the general population individuals believed to have leprosy.

Your Committee further finds that on January 6, 1866, twelve citizens of Hawai'i arrived at Kalaupapa, the first of an estimated eight thousand people who were taken from their families and forced into isolation. Your Committee additionally finds that on January 3, 1840, Jozef De Veuster was born in Belgium. Later ordained in Honolulu and known as Father Damien, he arrived at Kalaupapa in 1873 and spent sixteen years of his life caring for the people of Kalaupapa, ministering to them, building houses, churches, and tending to their medical needs, until his death at age 49 in 1889. Your Committee also finds that on January 23, 1838, Barbara Koob was born in Germany. She later became a member of the Sisters of St. Francis of Syracuse, New York, and eventually

became known as Mother Marianne Cope. She spent thirty years at Kalaupapa, supervising the Bishop Home for Single Women and Girls and serving as a leader in the community. Your Committee further finds that, given the significance of the month of January on Kalaupapa peninsula, it is appropriate to designate that month as Kalaupapa month.

Your Committee has amended this measure by:

- Adding an explanation to the statutory language regarding the significance of selecting January to designate as Kalaupapa month;
- (2) Revising the preamble to better explain the significance of Kalaupapa peninsula and why January has been selected as Kalaupapa month;
- (3) Removing references to a specific organization in the preamble; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 697, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 758 Judiciary on S.B. No. 826

The purpose and intent of this measure is to:

- (1) Prohibit a sex offender from residing within two thousand feet of the sex offender's former victim or the victim's immediate family members; and
- (2) Require the sex offender to receive approval from the Attorney General prior to a change in address.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Rainbow Family 808, Early Childhood Action Strategy, Sex Abuse Treatment Center, and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of Public Safety, Office of the Public Defender, and one individual. Your Committee received comments on this measure from the Hawaii Paroling Authority.

Your Committee finds that the trauma of sexual assault can be multifaceted and long-lasting. Survivors of sexual assault frequently report experiencing an ongoing sense of fear and torment if their assailant lives near to them. Additionally, survivors who do not know where their assailant is often experience a state of hypervigilance and chronic stress. This measure will prohibit sex offenders from residing within two thousand feet of the offender's victim or immediate family members and require sex offenders to receive approval from the Attorney General prior to a change in address.

Your Committee notes a concern raised in testimony that enforcing a prohibited radius within which an offender may not reside could have the unintended effect of informing the offender of the location of the victim, and that a potential solution would be for victims to inform the Department of the Attorney General where they live and have the Department compare the victim's address of residence to the offender's address of residence to ensure there is no violation. Your Committee finds that this consideration may merit further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by applying the residential restriction to sex offenders only, rather than covered offenders, to bring the measure within the purview of its title.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 826, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 759 Judiciary on S.B. No. 1260

The purpose and intent of this measure is to:

- Eliminate the use of monetary bail and require defendants to be released on their own recognizance for traffic offenses, violations, and nonviolent petty misdemeanor and misdemeanor offenses, with certain exceptions; and
- (2) Create rebuttable presumptions regarding release and detention for certain offenses and specify circumstances in which these presumptions apply.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Office of Hawaiian Affairs; Hawai'i Correctional System Oversight Commission; Office of the Prosecuting Attorney of the County of Kaua'i; Maui Office of the Public Defender; Hawai'i Health & Harm Reduction Center; Common Cause Hawaii; We Are One, Inc.; Pono Hawai'i Initiative; Young Progressives Demanding Action; Imua Alliance; Community Alliance on Prisons; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Association of Criminal Defense Attorneys; League of Women Voters; one member of the Kaua'i County Council; and ninety individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, and Retail Merchants of Hawai'i. Your Committee received comments on this measure from the American Civil Liberties Union of Hawai'i Disability Rights Center.

Your Committee finds that there is a need to address the substantial and continued overcrowding of facilities used to house pretrial defendants through the adoption of certain recommendations made by the criminal pretrial task force regarding pretrial detention and release. Your Committee further finds that although several recommendations of the Judiciary's Criminal Pretrial Task Force established pursuant to House Concurrent Resolution No. 134, H.D. 1 (2017) were enacted by Act 179, Session Laws of Hawaii 2019 (Act 179), two critical recommendations were not included. These recommendations would substantially change the process for pretrial determinations and would offer the greatest potential to maximize pretrial release. This measure implements certain recommendations of the criminal pretrial task force that were accompanied by proposed legislation authored by the task force but not adopted in Act 179.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1260, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 760 Judiciary on S.B. No. 1342

The purpose and intent of this measure is to:

- Include under the offense of promoting gambling in the first degree the act of hosting activities that advance gambling activity on real property; and
- (2) Require the forfeiture of real property to the State if the real property was used to promote gambling in the first degree by a person in at least three separate incidents and the person was convicted for at least three of those incidents.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that illegal gambling presents a serious risk to public safety and welfare. This is especially true of establishments that chronically house illegal gambling activities. Although your Committee finds that real property owners, managers, or others who knowingly host gambling activity on real property under their authority or control should be subject to heightened penalties, your Committee notes that under section 712A-5(2)(a), Hawaii Revised Statutes, real property may be subject to forfeiture if the covered offense is chargeable as a felony offense under state law, therefore, this measure makes it more difficult for the State to pursue forfeiture against real property used to host illegal gambling activities because of the requirement of three criminal convictions.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required the forfeiture of real property to the State if the real property was used to promote gambling in the first degree by a person in at least three separate incidents and the person was convicted for at least three of those incidents;
- (2) Expanding the scope of "hosting activities" to include organizing or promoting gambling activities, receiving or entertaining others engaging in gambling, or providing services and resources to others who engage in gambling; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1342, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1342, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 761 Judiciary on S.B. No. 1289

The purpose and intent of this measure is to:

- Expand access of election watchers during elections to include all instances in which ballots are handled, prepared, tabulated, or reviewed;
- (2) Allow for more than one election watcher to be appointed by a political party; and
- (3) Allow for election watchers to be appointed by media organizations.

Your Committee received testimony in support of this measure from the Office of Elections, Common Cause Hawaii, League of Women Voters of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General, Elections Division of the City and County of Honolulu, Elections Division of the County of Kaua'i, and Maui County Clerk.

Your Committee finds that transparency in elections is vital to a healthy democracy. Greater access by watchers and observers to the polls is critical to catching mistakes in time to correct them and eliminating any appearance of misconduct. This measure will significantly increase access by watchers to the election, but your Committee notes concerns raised in testimony that official observers,

appointed by political parties and the media and then vetted and selected by the Chief Election Officer or the clerk of a county, are different from watchers, who are directly appointed by political parties and subject to less regulation. Your Committee finds that, if increased access by watchers or observers to the election process is to be established, the capability of the election watcher and election observer programs must be assessed.

Your Committee has amended this measure by deleting its contents and requiring the Elections Commission, in consultation with the clerk of each county, to:

- (1) Perform an assessment of whether the election watcher and election observer programs are adequate and, if not, what adjustments are necessary to improve the programs; and
- (2) Submit a report of the assessment to the Legislature.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1289, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 762 (Joint) Government Operations and Ways and Means and Judiciary on S.B. No. 1350

The purpose and intent of this measure is to:

- (1) Establish the Office of Public Accountability to assume oversight and administrative responsibility for the Office of the Auditor, Office of the Ombudsman, Office of Information Practices, Hawaii State Ethics Commission, and Campaign Spending Commission; and
- (2) Appropriate an unspecified amount of funds for the operating expenses of the Office of Public Accountability.

Your Committees received comments on this measure from the Office of Information Practices.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to:

- (1) Define "permanent resident" for reapportionment purposes;
- (2) Permit public notice in a short form for reapportionment plans, maps, and relevant documents, subject to specific requirements; and
- (3) Appropriate funds for the Reapportionment Commission to allow it to retain outside legal counsel.

Your Committees received testimony in support of the proposed S.D. 1 from one individual. Your Committees received testimony in opposition to the proposed S.D. 1 from one individual. Your Committees received comments on the proposed S.D. 1 from the Office of Elections, Common Cause Hawaii, and one individual.

Your Committees find that the Reapportionment Commission, in determining reapportionment, must first determine the total number of members to which the State is entitled then apportion those members among districts so that the average number of persons in the total population counted in the last preceding United States Census per member in each district shall be nearly equal as practicable. In February 2011, the U.S. Census Bureau announced it will likely delay delivery of the 2020 census results to the fifty states by as much as six months or more. This will significantly delay the reapportionment of federal, state, and county districts. Your Committees further find that after experiencing delays in preparing the reapportionment plan following the 2010 census, the State of Hawaii 2011 Reapportionment Commission Final Report and Reapportionment Plan made recommendations to improve the reapportionment process for the future. The Hawaii Revised Statutes requires the Reapportionment Commission to act by majority vote of its membership and establish its own procedures except as provided by law. This measure therefore implements a recommendation of the 2011 Reapportionment Commission Final Report and Reapportionment Plan by clarifying that the definition of a "permanent resident", for purposes to legislative reapportionment, is the same as defined by the U.S. Census Bureau, thereby assisting the Reapportionment Commission to determine an accurate count of the permanent resident population of the State.

Your Committees also find that the streamlined form of notice required for reapportionment plans as proposed by this measure is projected to result in significant cost savings, while also providing adequate notice to the public of the Reapportionment Commission's actions and the availability of the Reapportionment Plan, related maps, and other documents.

Your Committees further recognize that reapportionment should occur before a candidate for the 2022 election is issued a nomination paper to ensure that the candidate not only meets the residency requirements, but also collects signatures from voters in the correct district. Your Committees note that any timing issues regarding the constitution of the reapportionment commission, the certification of its members, and the filing of any reapportionment plan under article VI, section 2, of the Hawaii State Constitution may be addressed through a court order.

Your Committees further note that existing law is unclear as to whether a state Senate election held to fill a vacancy created upon the resignation of an incumbent is considered a regular election for the purposes of computing Senate staggered terms. Your Committees find that amendments to the Hawaii State Constitution would be needed to clarify this issue and that such amendments merit further discussion as this measure proceeds.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

(1) Allowing public notice in a short form for proposed, revised, and final versions of the reapportionment plan and reapportionment maps;

- (2) Clarifying that reapportionment maps shall be available for viewing at certain public offices;
- (3) Clarifying the definition of permanent resident for purposes of legislative apportionment to be consistent with the U.S. Census Bureau's definition of permanent resident;
- (4) Specifying that nomination papers for the 2022 primary election shall be made available from the first working day of an unspecified month;
- (5) Specifying that the Reapportionment Commission may retain outside legal counsel under section 28-8.3, Hawaii Revised Statutes, relating to the state's employment of attorneys;
- (6) Clarifying that the appropriation is intended for the expenditures of the Reapportionment Commission, including the retention of private counsel; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations, Ways and Means, and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1350, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1350, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (English).

Judiciary: Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Kim).

SCRep. 763 (Majority) Ways and Means on S.B. No. 176

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to sell Sand Island Industrial Park parcels to a current lessee under a master lease who has expressed a strong interest in purchasing the fee interest in their leasehold lots.

Your Committee received written comments in support of this measure from the Sand Island Business Association.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Kona Kai Ea chapter of the Surfrider Foundation, Kupuna for the Moopuna, and five individuals.

Your Committee finds that this measure will allow small businesses to reinvest in and improve the Sand Island Industrial Park through fee ownership and controlled rent escalation.

Your Committee has amended this measure by:

- (1) Adding a part I to the measure that amends section 171-136, Hawaii Revised Statutes, to require each industrial park lease to include a specific rent escalation clause;
- (2) Creating a part II that adds a new section to Chapter 171, Hawaii Revised Statutes, relating to the sale of public lands within the industrial park to existing lessees;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 176, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 176, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (English, Kanuha, Taniguchi, Wakai). Noes, 2 (Moriwaki, Fevella). Excused, none.

SCRep. 764 Ways and Means on S.B. No. 56

The purpose and intent of this measure is to preserve essential government services and prevent employment reductions, by generating revenue for the State.

More specifically, the measure:

- Increases the personal income tax rate and implements a rate recapture mechanism that phases out lower tax brackets for high earners;
- (2) Increases the tax on capital gains;
- (3) Increases the corporate income tax and establishes a single corporate income tax rate;
- (4) Suspends the application of certain general excise tax and use tax exemptions; and
- (5) Increases conveyance taxes for the sale of properties valued at \$1,000,000 or greater.

Your Committee received testimony in support of this measure from Hawaii Budget & Policy Center, Hawaii Health & Harm Reduction Center, Americans for Democratic Action, Hawaii State Teachers Association, Our Revolution Hawaii, Democratic Party of Hawaii Education Caucus, Imua Alliance, Hawaii Children's Action Network Speaks!, PHOCUSED, Partners In Care, Puakalehua Early Learning Consortium, HOPE, Domestic Violence Action Center, St. Elizabeth's Episcopal Church, Planned Parenthood Votes Northwest and Hawaii, League of Women Voters Hawaii, Hawaii Workers Center, and numerous individuals.

Your Committee received testimony in opposition to this measure from PAMCA, Hawaii Association of REALTORS, General Contractors Association of Hawaii, Hawaii Food Industry Association, Subcontractors Association of Hawaii, Chamber of Commerce Hawaii, NAIOP, Hawaiian Airlines, and seven individuals.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, Electrical Contractors Association, Grassroot Institute of Hawaii, and one individual.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic disrupted the local economy, resulting in a budget shortfall that was estimated to exceed two billion dollars as of December 2020. Your Committee further finds that it is necessary to generate revenue to allow the State to meet its strategic goals, avoid furloughs and layoffs for state workers, and prevent disruptions to essential government services.

Your Committee has amended this measure by:

- (1) Replacing the income tax rates in the measure with the income tax rates proposed by Senate Bill 276;
- (2) Deleting the suspension of certain excise tax exemptions relating to contractors and aircraft;
- (3) Deleting the suspension of certain use tax exemptions relating to aircraft and transportation;
- (4) Maintaining the existing statutory conveyance tax rates for any real property with a value of less than \$4,000,000;
- (5) Increasing the conveyance tax rates for real properties with a value of at least \$6,000,000, but less than \$10,000,000 by a factor of three; and
- (6) Increasing the conveyance tax rates for real properties with a value of at least \$10,000,000 by a factor of four.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 56, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 56, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 765 Ways and Means on S.B. No. 1091

The purpose and intent of this measure is to help address the state budget shortfall caused by the coronavirus disease 2019 (COVID-19) pandemic by transferring or authorizing the transfer of moneys in various non-general funds for deposit into the general fund and the dwelling unit revolving fund.

Your Committee received written comments in support of this measure from Hawaii Housing Finance and Development Corporation, Department of Taxation, and Department of Budget and Finance.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Public Safety; Department of Land and Natural Resources; Tax Foundation of Hawaii; and one individual.

Your Committee finds that repealing, abolishing, transferring, or authorizing the transfer of moneys from various non-general funds is a prudent approach to address the budget shortfall caused by the COVID-19 pandemic. Your Committee further finds that these transfers will help to minimize any necessary tax increases or reductions in government services.

Your Committee has amended this measure by:

- (1) Transferring into the general fund moneys from various additional non-general fund accounts, which have been identified in consultation with the various executive-branch departments;
- (2) Abolishing or repealing certain non-general funds, which have been identified in consultation with the various executive-branch departments as being defunct funds or accounts that are no longer being utilized, and transferring any unencumbered balances to the credit of the general fund;
- (3) Appropriating \$2,000,000 from the general fund to be used for the Na Wai Eha land acquisition;
- (4) Deleting provisions that:
 - (A) Authorize the issuance of taxable general obligation bonds; and
 - (B) Deposit the bond proceeds into the land conservation fund; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1091, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 766 (Joint) Judiciary and Commerce and Consumer Protection on S.B. No. 345

The purpose and intent of this measure is to prohibit the import for profit, sale, and offer for sale of any cosmetic in the State if the final product or any component of the final product was developed or manufactured using animal testing performed on or after January 1, 2022.

Your Committees received testimony in support of this measure from the Humane Society of the United States, Cruelty Free International, Personal Care Products Council, The Body Shop, Ao Organics Hawai'i, O'o Hawaii, Pure Mana Hawaii, and three individuals. Your Committees received comments on this measure from the Department of Health and Office of Information Practices.

Your Committees find that animals have been used to test cosmetic products for over fifty years. Your Committees further find that this practice has been widely condemned as cruel and unnecessary, and that it is now banned in numerous jurisdictions, including California, Nevada, Illinois, Israel, Norway, India, Switzerland, and the European Union. This measure establishes a prohibition on the sale of cosmetic products in the State that have been tested on animals.

Your Committees have amended this measure by:

- (1) Requiring a manufacturer to disclose testing data for the prosecuting attorney's review upon the determination of a reasonable likelihood that a violation has been committed;
- Clarifying that any information disclosed by a manufacturer shall be treated as confidential and is only disclosed for enforcement purposes;
- (3) Consolidating language providing exemptions to the animal testing prohibition into a single statutory subsection;
- (4) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 345, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 345, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 767 Judiciary on S.B. No. 765

The purpose and intent of this measure is to:

- (1) Define "highly intoxicated driver";
- (2) Provide the evidentiary standard for establishing that a person was a highly intoxicated driver;
- (3) Require that ignition interlock devices be installed and maintained on one or more vehicles registered to, and all vehicles operated by, anyone convicted of operating a vehicle under the influence of an intoxicant, during the applicable period of license revocation:
- (3) Increase the license revocation period ordered by the Administrative Driver's License Revocation Office and extend the applicable lookback periods from five to ten years;
- (4) Establish higher penalties for a highly intoxicated driver operating a vehicle; and
- (5) Establish higher penalties for offenses of operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Hawai'i Police Department, Mothers Against Drunk Driving Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Administrative Driver's License Revocation Office.

Your Committee finds that the habitual "highly intoxicated driver," or someone who has been arrested and convicted many times over, poses a substantial risk to others on the road. Your Committee further finds that, in 2020, the annual average blood alcohol content of all drivers arrested for driving under the influence was nearly twice the legal limit, and forty percent of those arrested had blood alcohol content levels in excess of .150 percent. Your Committee additionally finds that the National Highway Traffic Safety Administration has stated that a blood alcohol content of .150 percent or greater increases the likelihood of being involved in a fatal car crash by almost twenty times. This measure aims to strengthen the current law regarding operating a vehicle under the influence of an intoxicant.

Your Committee has amended this measure by:

- Requiring ignition interlock devices be installed and maintained on all vehicles operated by anyone convicted of operating a
 vehicle under the influence of an intoxicant, during the applicable period of license revocation, but not on all vehicles
 registered to the convicted individual;
- (2) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 765, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 765, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 768 Ways and Means on S.B. No. 246

The purpose and intent of this measure is to establish a state government realignment commission to periodically review the executive branch departments, divisions, and agencies, including functions and services, and to submit its findings and recommendations to the Legislature.

Your Committee received written comments in support of this measure from Transform Hawaii Government.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Accounting and General Services.

Your Committee finds that this measure will help the State improve government efficiency, reduce duplicated efforts, eliminate outdated procedures, update technology and business processes, and allow state employees to better serve the public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 246, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 769 Ways and Means on S.B. No. 369

The purpose and intent of this measure is to minimize polluted runoff originating from failing wastewater systems in the State.

More specifically, this measure:

- (1) Establishes the time of transfer wastewater system inspection program in the Department of Health to oversee the inspection and repair of individual wastewater systems at the time of sale or transfer of ownership of certain residential real properties attached to the wastewater systems;
- (2) Requires individual wastewater systems that fail inspection to be repaired or replaced within one year by the current or prospective property owner; and
- (3) Requires that, prior to January 1, 2050, every cesspool in the State, with exceptions, be connected to a sewerage system or upgraded or converted to a wastewater system approved by the Department of Health, instead of a septic system or aerobic treatment unit system.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, Surfrider Foundation, Wastewater Alternatives & Innovations, and two individuals.

Your Committee received written comments in opposition to this measure from Hawaii Association of REALTORS.

Your Committee finds that the establishment of a time of transfer wastewater system inspection program will help to improve water quality in the State by decreasing the number of failing wastewater treatment systems.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 770 Ways and Means on S.B. No. 663

The purpose and intent of this measure is to enact an interstate compact to award prizes for the curing of diseases.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that enacting the compact will allow Hawaii to join other states in incentivizing medical breakthroughs and supporting innovative research.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 771 Ways and Means on S.B. No. 863

The purpose and intent of this measure is to promote healthy working and learning environments for teachers and students.

More specifically, this measure requires the Department of Education to:

- (1) Conduct an electrical assessment on all public and conversion charter schools in the State to determine whether the school's electrical capacity will allow for the installation of air conditioning units and other air purifying devices; and
- (2) Report its findings and recommendations to the Legislature no later than December 31, 2021.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that the proper use of air purifying devices can help to reduce the amount of airborne contaminants, including the virus that causes coronavirus disease 2019, that are present in indoor settings. Your Committee also finds that research by the United States Department of Education has shown that the use of cooling systems leads to students having better attitudes toward learning, fewer disciplinary problems, and sustained achievement.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 863, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 863, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 772 Ways and Means on S.B. No. 900

The purpose and intent of this measure is to improve maternal health.

More specifically, the measure requires the Department of Human Services to:

- (1) Collect and report data on severe maternal morbidity incidents, disaggregated by county, race, and ethnicity; and
- (2) Develop, and the Hawaii State Commission on the Status of Women to Administer, an implicit bias training program for health care professionals in the State's perinatal facilities.

Your Committee received written comments in support of this measure from the Hawaii State Commission on the Status of Women, Office of Hawaiian Affairs, Hawaii Women's Coalition, Hawaii State Coalition Against Domestic Violence, Hawaii Children's Action Network Speaks!, Healthy Mothers Healthy Babies Coalition of Hawaii, Planned Parenthood Votes Northwest and Hawaii, and numerous individuals.

Your Committee received written comments on this measure from the Department of Health; Hawaii Pacific Health; American College of Obstetricians and Gynecologists, Hawaii Section; Healthcare Association of Hawaii; and Queen's Health Systems.

Your Committee finds that this measure will help address the overrepresentation of Native Hawaiians in negative maternal health outcomes and ensure that mothers are safe from medical racism and implicit bias that may compromise their health care.

Your Committee has amended this measure by:

- (1) Clarifying the reference to the Health Insurance Portability and Accountability Act by including a reference to the appropriate public law; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 900, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 773 Ways and Means on S.B. No. 947

The purpose and intent of this measure is to establish the Hawaii Broadband and Digital Equity Office within the Department of Business, Economic Development, and Tourism.

More specifically, this measure establishes the Hawaii Broadband and Digital Equity Office and requires it to, among other things:

- (1) Develop and implement specific strategies and plans to aggressively increase broadband affordability, penetration, and competitive availability in the State;
- (2) Work closely with and assist the counties to promote coordinated state and county broadband planning; and
- (3) Promote, advocate, and facilitate the implementation of the findings and recommendations of the Hawaii Broadband Task Force established by Act 2, First Special Session Laws of Hawaii 2007.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Human Services; AARP Hawaii; Hawaii Primary Care Association; Hawaii Broadband Hui; Transform Hawaii Government; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; and two individuals.

The Department of Commerce and Consumer Affairs submitted written comments on the measure.

Your Committee finds that the establishment of a Hawaii Broadband and Digital Equity Office will help the State work toward ensuring that all individuals and communities have the necessary information technology capacity to fully participate in society, democracy, and the economy.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 947, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 774 Ways and Means on S.B. No. 962

The purpose and intent of this measure is to transfer the Makai Research Pier to the Natural Energy Laboratory of Hawaii Authority.

More specifically, this measure:

- (1) Transfers the Makai Research Pier, including any current leases of the Makai Research Pier, from the University of Hawaii to the Natural Energy Laboratory of Hawaii Authority;
- (2) Prohibits any disturbing of, or interference with, any existing leases of the Makai Research Pier; and
- (3) Authorizes the Director of Finance to issue general obligation bonds for the Natural Energy Research Laboratory of Hawaii Authority to repair and upgrade the Makai Research Pier.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, University of Hawaii, and Makai Ocean Engineering.

Your Committee received written comments in opposition to this measure from the Natural Energy Laboratory of Hawaii Authority.

Your Committee finds that transferring to the Natural Energy Laboratory of Hawaii Authority operational authority over the Makai Research Pier and authorizing the issuance of general obligation bonds for the repair of the pier will allow the pier to remain operational and be revitalized for valuable research activity.

Your Committee has amended this measure by:

- (1) Deleting the provision transferring to the Natural Energy Laboratory of Hawaii Authority current leases of the Makai Research Pier and prohibiting any disturbing of, or interference with, the leases;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 962, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 962, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 775 Ways and Means on S.B. No. 987

The purpose and intent of this measure is to establish the Sustainable Aviation Fuel Task Force within the Hawaii Natural Energy Institute.

More specifically, this measure:

- (1) Establishes the Sustainable Aviation Fuel Task Force within the Hawaii Natural Energy Institute to develop a work plan and regulatory scheme to reduce greenhouse gas emissions from certain transportation sources;
- (2) Requires the Sustainable Aviation Fuel Task Force to submit interim and final reports to the Legislature prior to the Regular Sessions of 2022 and 2023, respectively;
- (3) Establishes a termination date for the Sustainable Aviation Fuel Task Force and authorizes the Hawaii Natural Energy Institute to continue the work of the task force after this date; and
- (4) Requires the Hawaii Natural Energy Institute to submit annual reports to the Legislature.

Your Committee received written comments in support of this measure from 350Hawaii, Airlines for America, Biotechnology Innovation Organization, Climate Protectors Hawaii, and Environmental Caucus of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Hawaii State Energy Office and University of Hawaii.

Your Committee finds that the burning of aviation fuel is a major contributor of greenhouse gas emissions. Your Committee believes that establishing a task force to facilitate the development of sustainable aviation fuel will benefit the environment and potentially create a new, valuable industry in the State.

Your Committee has amended this measure by:

- (1) Specifying the appointing authority for certain listed task force members;
- (2) Inviting, rather than requiring, specific private entities to serve on the task force;
- (3) Codifying in statute, rather than session law, the Hawaii Natural Energy Institute's annual reporting requirements regarding the Sustainable Aviation Fuel Task Force and data on clean transportation related to aviation transportation;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 987, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 776 Ways and Means on S.B. No. 1015

The purpose and intent of this measure is to require the Comptroller to perform additional office space management duties for state agencies occupying facilities that are managed by the Department of Accounting and General Services.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the increase in telework by state employees resulting from the coronavirus disease 2019 pandemic requires a re-assessment of the State's future office space needs. Your Committee believes that the Comptroller is the appropriate entity to make these office space management decisions.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1015, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1015, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 777 Ways and Means on S.B. No. 1023

The purpose and intent of this measure is to allocate fixed amounts of revenue collected through the transient accommodations tax to provide funding for the Bernice Pauahi Bishop Museum and Iolani Palace.

Your Committee received written comments in support of this measure from the Oahu Economic Development Board, Friends of Iolani Palace, Bishop Museum, Council for Native Hawaiian Advancement, Kamehameha Schools Bishop Estate, Institute for Native Pacific Education and Culture, Hawaii Appleseed Center for Law and Economic Justice, Aha Punana Leo, Hawaii Museums Association, Hui Hawaii o Utah Hawaiian Civic Club, and five individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and Tax Foundation of Hawaii.

Your Committee finds that the Bishop Museum holds millions of objects and artifacts of Native Hawaiian, Pacific Island, and Hawaii immigrant life; offers scientific, cultural, educational programs to thousands of schoolchildren each year; and supports economic development and tourism. Your Committee also finds that Iolani Palace serves a poignant role representing the Hawaiian monarchy, is the only royal palace in the United States, and is important both as a historic building and as a tourism venue. Your Committee also recognizes that the coronavirus disease 2019 (COVID-19) pandemic has resulted in a lack of visitors and events at both the Bishop Museum and Iolani Palace, which has led to both sites losing substantial revenue. Accordingly, your Committee believes that allocating a portion of transient accommodations tax revenues to the Bishop Museum and Iolani Palace would help support their continued operations and preserve their roles in Hawaii's culture.

Your Committee has amended this measure by:

- (1) Deleting references to specific paragraphs in cross references to section 237D-6.5(b), Hawaii Revised Statutes;
- (2) Correcting a typographical error in a cross reference to section 237D-6.5(b), Hawaii Revised Statutes; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1023, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 778 Ways and Means on S.B. No. 1026

The purpose and intent of this measure is to add new sources of revenue generated by the State Veterinary Laboratory and Animal Disease Control Branch that shall be deposited into the animal industry special fund.

Your Committee received written comments in support of this measure from the Department of Agriculture.

Your Committee finds that the additional revenue stream for the animal industry special fund provided by this measure will support the work of the State Veterinary Laboratory, which includes laboratory services, disease surveillance, and testing services.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2021; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1026, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1026, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 779 Ways and Means on S.B. No. 1035

The purpose and intent of this measure is to improve procurement processes in the State.

Specifically, the measure:

- Authorizes the administrator of the State Procurement Office to assess and collect an administrative fee to cover procurement automation system costs;
- (2) Establishes a procurement automation system special fund; and
- (3) Authorizes the Administrator of the State Procurement Office to establish procedures for issuing the final decision regarding any procurement practice, procurement policy and procedure, and compliance investigation conducted pursuant to section 103D-206, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Transportation and State Procurement Office.

Your Committee finds that a growing number of state-level purchasing offices in other states operate using a self-funded model whereby funds are derived from small percentage administrative fees included as part of statewide contracts. Your Committee further finds that establishing a similar fee in Hawaii may help pay for the management of the State's procurement automation system.

Your Committee has amended this measure by:

- (1) Appropriating unspecified sums in fiscal years 2021-2022 and 2022-2023 from the procurement automation system special fund;
- (2) Changing the effective date from upon its approval to July 1, 2021; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1035, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1035, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 780 Ways and Means on S.B. No. 361

The purpose and intent of this measure is to establish a general excise tax exemption for the gross proceeds or income arising from the sale of Supplemental Nutrition Assistance Program eligible items.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau; Hawaii Food Industry Association; Hawaii Iron Workers Stabilization Fund; IATSE, Local 665; International Longshore and Warehouse Union, Local 142; Maui Chamber of Commerce; United Food and Commercial Workers, Local 480; and Waikiki Neighborhood Board.

Your Committee received written comments in opposition to this measure from the Hawaii Government Employees Association.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that Hawaii has the highest cost of living in the nation. Your Committee also finds that the coronavirus disease 2019 (COVID-19) pandemic has made it harder for many residents to afford necessities such as groceries. Your Committee further finds that Hawaii is one of the few states that fully taxes the sale of groceries. Your Committee believes that exempting groceries from the general excise tax will help many families that have been impacted negatively by the COVID-19 pandemic.

Your Committee has amended this measure by:

- Clarifying that the general excise tax exemption applies to the sale of eligible groceries under the Supplemental Nutrition
 Assistance Program;
- (2) Clarifying that soft drinks are not included in the definition of "food" or "food product";
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 361, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 361, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 781 Ways and Means on S.B. No. 809

The purpose and intent of this measure is to appropriate moneys for public school positions and the Hawaii Teacher Standards Board.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, Hawaii Teacher Standards Board, and two individuals.

Your Committee finds that this measure will help support public education and allow the Hawaii Teachers Standards Board to continue offering vital training and licensure options for the State's teachers.

Your Committee has amended this measure by:

- (1) Changing the appropriation and allocation amounts to unspecified sums; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 809, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 782 Ways and Means on S.B. No. 787

The purpose and intent of this measure is to promote transparency and accuracy in state budgeting.

Specifically, the measure:

- (1) Requires any revenue estimate provided by the Department of Taxation to the Legislature or to any executive or administrative office of the State to be accompanied by a description of the methodology and assumptions made in providing the estimate; and
- (2) Provides that the revenue estimate and description are subject to public disclosure, inspection, and copying.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the information required by this measure will increase transparency and accuracy in state budgeting. Your Committee further finds that this information will help the Legislature make informed decisions relating to budgeting and appropriations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 787, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 787, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 783 Ways and Means on S.B. No. 749

The purpose and intent of this measure is to allow the Hawaii Public Housing Authority to develop non-subsidized housing.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs.

Your Committee finds that this measure will facilitate the construction of new housing in the State for residents having various income levels.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 749, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 784 Ways and Means on S.B. No. 694

The purpose and intent of this measure is to codify the State's commitment to conservation, sustainability, and economic development by including the seventeen United Nations Sustainable Development Goals and Indicators, with references to existing state sustainability programs, in the Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Education, Department of Land and Natural Resources, Office of Hawaiian Affairs, Chamber of Commerce Hawaii, Hawaii Immunization Coalition, Environmental Caucus of the Democratic Party of Hawaii, and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the LGBT Caucus of the Democratic Party of Hawaii.

Your Committee finds that Hawaii has been a leader in conservation efforts for decades through its commitment to the environment and sustainability. Your Committee further finds that this measure reiterates the State's leadership in this area by recommitting Hawaii's dedication to its existing environmental and sustainability policies and connecting those policies to the United Nations Sustainable Development Goals and Indicators.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 694, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 785 Ways and Means on S.B. No. 589

The purpose and intent of this measure is to statutorily establish the University of Hawaii Cancer Center as an organized research unit of the University of Hawaii.

In addition, this measure:

- (1) Establishes appointment procedures and reporting structures for the Director of the University of Hawaii Cancer Center;
- (2) Requires the University of Hawaii Cancer Center to be affiliated with the John A. Burns School of Medicine;
- (3) Requires that moneys expended or originating from the tuition and fees special fund for the John A. Burns School of Medicine or the University of Hawaii Cancer Center be used only for educational purposes; and
- (4) Requires that moneys expended or originating from the research and training revolving fund for the John A. Burns School of Medicine or the University of Hawaii Cancer Center be used only for research and research-related purposes.

Your Committee received written comments in opposition to this measure from the University of Hawaii, Friends of UH Cancer Center, Hawaii Society of Clinical Oncology, University of Hawaii Professional Assembly, Alana Dung Research Foundation, and numerous individuals.

Your Committee received written comments on this measure from the American Cancer Society Cancer Action Network.

Your Committee finds that the work of the University of Hawaii Cancer Center helps address cancer through research, patient care, and community outreach. Your Committee also finds that the University of Hawaii Cancer Center is the only National Cancer Institute-designated cancer center in Hawaii and the broader Pacific region.

Your Committee has amended this measure by:

- (1) Referencing the University of Hawaii Cancer Center as the "cancer research center of Hawaii", for consistency with the way in which the unit is referenced in other sections of the Hawaii Revised Statutes;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 589, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 589, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 786 Ways and Means on S.B. No. 1054

The purpose and intent of this measure is to authorize the use of moneys in the Brownfields Cleanup Revolving Fund for the issuance of grants to eligible entities for brownfields site assessments and related site cleanup and monitoring activities.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that, due to the increased demand for moneys for brownfields site assessments, cleanup, and monitoring activities, expanding the eligible uses of moneys in the Brownfields Cleanup Revolving Fund to include these activities will result in more effective and timely use of those moneys.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1054, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 787 Ways and Means on S.B. No. 509

The purpose and intent of this measure is to incentivize public high schools in the State to strategically prepare students for the workforce by encouraging industry certification in "high value" occupations.

More specifically, the measure:

- Incentivizes public high schools to encourage students to obtain industry certification in high value occupations by requiring
 the Department of Education to establish high value employment criteria for industry certification awards to public high
 schools; and
- (2) Appropriates moneys to the Department of Education to carry out this purpose.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

The Department of Education submitted written comments on the measure.

Your Committee finds that the State's critical shortages of qualified local workers in sectors such as health, education, air travel, and technology will be addressed by having public high schools encourage their students to pursue industry certification in high value occupations.

Your Committee has amended this measure by:

- Replacing specific references to private cross-sector partner organizations with a non-specific description of an organizational mission;
- (2) Deleting the appropriation to the Department of Education and any appropriation-related language; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 509, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 788 Ways and Means on S.B. No. 493

The purpose and intent of this measure is to establish a Hawaii agriculture and forest carbon positive incentive program within the Hawaii Green Infrastructure Authority.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Green Infrastructure Authority, Climate Protectors Hawaii, and two individuals.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, Department of Agriculture, Office of Planning, and Tax Foundation of Hawaii.

Your Committee finds that the State's commitment to reach zero emissions by 2045 requires the reduction of emissions, mitigation of greenhouse gases, and investment in carbon-positive actions. Your Committee also finds that the management of smaller parcels of land plays an important role in managing natural and agricultural resources. Your Committee further finds that incentives are necessary to reduce carbon emissions and increase carbon sequestration so that the State can meet its food security and carbon emission goals. Accordingly, your Committee believes that appropriate steps must be taken to streamline and overcome the limits of existing programs that are designed to help the State meet its carbon emission goals.

Your Committee has amended this measure by:

- Clarifying that the Chairperson of the Hawaii Green Infrastructure Authority, or the Chairperson's designee, shall serve as the Chairperson of the reviewing committee, and that the Chairpersons of the Boards of Agriculture and Land and Natural Resources, or their respective designees, shall serve as members of the committee;
- (2) Changing the effective date to July 1, 2050, and the effective date of the appropriations to July 1, 2051, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 493, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Inouye). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 789 Ways and Means on S.B. No. 414

The purpose and intent of this measure is to appropriate funding to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the Department's career criminal prosecution unit.

Your Committee received written comments in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the funds appropriated by this measure will allow the Department of the Prosecuting Attorney's career criminal prosecution unit to continue operating at its current capacity.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 414, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 414, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 790 Ways and Means on S.B. No. 815

The purpose and intent of this measure is to establish statutory provisions that ensure that the State's public education system has a stable base of annual funding.

More specifically, this measure:

- (1) Establishes maintenance of effort provisions for the Department of Education;
- (2) Establishes a public education stabilization trust fund, into which an amount of general excise tax revenues equal to the difference between the level of state appropriations to the Department of Education from the preceding fiscal year and the current fiscal year shall be deposited, if the appropriation in the current fiscal year is less than the appropriation in the preceding fiscal year;
- (3) Authorizes the Governor to temporarily suspend the maintenance of effort provisions under certain circumstances;
- (4) Establishes reporting requirements; and
- (5) Appropriates moneys into and out of the public education stabilization trust fund.

Your Committee received written comments in support of this measure from the Board of Education, Department of Education, Hawaii State Teachers Association, Kamehameha Schools, Democratic Party of Hawaii Education Caucus, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii and He'e Coalition.

Your Committee finds that a vibrant public education system enables the fulfillment of educational goals and aspirations of the State's students. Your Committee further finds that ensuring stability and predictability in the Department of Education's level of funding is critical for maintaining the Department's capacity to meet constantly evolving learning needs.

Your Committee has amended this measure by:

- (1) Removing a provision that conflicted with other provisions in the measure by prohibiting appropriations to the Department of Education for a current fiscal year to be less than appropriations for the preceding fiscal year;
- (2) Removing a provision requiring the aggregate proportion of the Department of Education's annual appropriations from general funds over the preceding ten years to be maintained as the appropriation to the Department if state appropriations to the Department decreased from a preceding fiscal year;
- (3) Adding a provision requesting the Revisor of Statutes to substitute appropriate section numbers for letters used in designating the new sections established by section 3 of the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 815, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 791 Ways and Means on S.B. No. 358

The purpose and intent of this measure is to provide an incentive for Hawaii taxpayers to participate in the Hawaii college savings program.

More specifically, this measure establishes a state income tax deduction for Hawaii residents who make contributions into the Hawaii college savings program.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities, Securities Industry and Financial Markets Association, Securities Industry Association of Hawaii, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the State established a college savings program in 2002, pursuant to Chapter 256, Hawaii Revised Statutes, and section 529 of the Internal Revenue Code. Currently referred to as "HI529-Hawaii's College Savings Program", the program assists and encourages families to save and invest funds for future higher education expenses. The investment income earned under the program is exempt from federal and state income taxes; provided that the funds are used for qualified higher education expenses. Your Committee further finds that most other states offer a state tax deduction or credit for contributions to state college savings programs as an incentive for their residents to participate.

Your Committee has amended this measure by:

- (1) Clarifying that the income tax deduction is only available for contributions to the Hawaii college savings program, rather than the college savings programs of other states;
- (2) Clarifying that penalties for nonqualified withdrawals shall be as provided under section 256-4, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 358, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 358, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 792 Ways and Means on S.B. No. 332

The purpose and intent of this measure is to amend the powers and duties of the Comptroller.

Specifically, the measure increases the minimum dollar amount of proposed payments required to be preaudited from \$10,000 to \$100,000 and allows, rather than requires, the Comptroller to preaudit proposed payments of expenditures below \$100,000.

Your Committee received written comments on this measure from the Department of Accounting and General Services.

Your Committee finds that updating the preaudit process for proposed payments will allow the State to provide services more efficiently and effectively and will help prevent delays in timely processing.

Your Committee has amended this measure by:

- (1) Clarifying that the Comptroller may preaudit proposed payments up to \$100,000; and
- (2) Making a technical, nonsubstantive change for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 332, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 793 Ways and Means on S.B. No. 302

The purpose and intent of this measure is to address the high cost of housing in the State by adjusting the eligibility requirements for the income tax credit for low-income household renters.

More specifically, this measure:

(1) Creates tax brackets that more sharply target the tax credit toward lower-income taxpayers and phase out the credit as a taxpayer's income rises; and

(2) Adjusts the amounts of the credit and income eligibility every three years using a percentage based on the United States Consumer Price Index.

Your Committee received written comments in support of this measure from Americans for Democratic Action, Hawaii Children's Action Network Speaks!, League of Women Voters of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the income eligibility threshold for the income tax credit for low-income household renters was last adjusted in 1989, and the credit amount allowed was last adjusted in 1981. Since 1989, the cost of housing has increased by three hundred ninety per cent. Accordingly, your Committee believes it is appropriate to adjust the eligibility requirements and allowable credit amounts for the tax credit and to provide for future adjustments based on the United States Consumer Price Index.

Your Committee has amended this measure by:

- (1) Changing the amounts of the tax credit per exemption to unspecified amounts;
- (2) Making corrections to the text of section 235-55.7, Hawaii Revised Statutes, to accurately reflect the printed version of the Hawaii Revised Statutes:
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 302, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 302, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 794 Ways and Means on S.B. No. 270

The purpose and intent of this measure is to appropriate moneys from the Elementary and Secondary School Emergency Relief Fund, and moneys received through the Coronavirus Aid, Relief, and Economic Security Act and Coronavirus Response and Relief Supplemental Appropriations Act, to offset potential budget reductions that would decrease the number of school-level personnel who are subject to a collective bargaining agreement.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, He'e Coalition, Democratic Party of Hawaii Education Caucus, and two individuals.

Your Committee received written comments on this measure from the Department of Education, Board of Education, and Department of Budget and Finance.

Your Committee finds that the appropriated moneys will help Hawaii to retain qualified teachers and staff and maintain quality instruction in public school classrooms throughout the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 270, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 270, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 795 Ways and Means on S.B. No. 245

The purpose and intent of this measure is to increase the number of high school students who complete the Free Application for Federal Student Aid (FAFSA).

More specifically, this measure requires the Department of Education's existing working group dedicated to increasing FAFSA awareness and completion to:

- Create a state plan to make FAFSA completion, or an opt-out waiver for FAFSA completion, a statewide graduation requirement by the 2023-2024 school year; and
- (2) Submit a report to the 2022 Legislature.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii, Maui Chamber of Commerce, HawaiiKidsCAN, and five individuals.

Written comments in opposition were received from four individuals.

The Department of Education and Office of Information Practices submitted written comments on the measure.

Your Committee finds that facilitating FAFSA completion will allow more high school graduates to make use of federal financial aid for higher education and thus reduce the need for private student loans that often have higher interest rates and lack consumer protections.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 245, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 245, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 796 Ways and Means on S.B. No. 226

The purpose and intent of this measure is to authorize the Governor to negotiate land exchanges to acquire lands suitable for long-term diversified agricultural production in return for state lands to be developed for affordable, workforce, and other housing.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation, Hawaii Farm Bureau, and Ulupono Initiative.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources and Kupuna for the Moopuna.

Your Committee received written comments on this measure from the Office of Planning, Office of Hawaiian Affairs, Conservation Council for Hawaii, and Hawaiian Affairs Caucus of the Democratic Party of Hawaii.

Your Committee finds that the measure will help support local food production, while also addressing the critical shortage of affordable, workforce, and other housing.

Your Committee has amended this measure by:

- (1) Codifying the language of section 2 of the measure as a new section in Chapter 171, part II, subpart C, Hawaii Revised Statutes;
- (2) Making the measure's reporting requirement annual;
- (3) Correcting a statutory cross-reference; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 226, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 797 Ways and Means on S.B. No. 141

The purpose and intent of this measure is to administratively relocate the State Building Code Council from the Department of Accounting and General Services to the Hawaii State Energy Office.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations; Department of Accounting and General Services; Hawaii State Energy Office; State Fire Council; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; and Climate Protectors Coalition.

Your Committee received written comments in opposition to this measure from the Plumbers and Fitters United Association, Local 675.

Your Committee finds that the State Building Code Council is administratively attached to the Department of Accounting and General Services. However, your Committee notes that the Department is only responsible for state facilities. Your Committee believes that, as the Council has a role that is beyond the scope of the Department of Accounting and General Services, it would be more appropriate to attach the Council to the Hawaii State Energy Office within the Department of Business, Economic Development, and Tourism.

Your Committee has amended this measure by:

- (1) Inserting language to address the transfer from the Department of Accounting and General Services to the Hawaii State Energy Office of the officers, employees, functions, records, and other matters relating to the State Building Code Council;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 141, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 798 Ways and Means on S.B. No. 140

The purpose and intent of this measure is to consolidate the planning and development of certain state lands within transit-oriented development zones under the Hawaii Community Development Authority.

More specifically, this measure:

- (1) Requires the Hawaii Community Development Authority to develop a transit-oriented development zone improvement program; and
- (2) Authorizes the Hawaii Community Development Authority to establish transit-oriented development zones for certain state lands within a one-half mile radius around fixed transit stations.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Hawaii Community Development Authority.

Your Committee received written comments on this measure from the Office of Planning.

Your Committee finds that no single entity currently has the authority to redevelop state lands along a transit corridor. Your Committee further finds that this measure will help to resolve ambiguities relating to these types of redevelopments by providing long-term master planning and zoning authority to the Hawaii Community Development Authority for state-owned lands within transit-oriented development zones.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 140, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 140, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 799 Ways and Means on S.B. No. 1222

The purpose and intent of this measure is to expand the scope of expenditures from the Conference Center Revolving Fund.

More specifically, this measure:

- (1) Expands the scope of programs that the Conference Center Revolving Fund may support to include any conference center programs conducted by the University of Hawaii at Hilo;
- (2) Authorizes the Chancellor of the University of Hawaii at Hilo, or the Chancellor's designee, instead of the Dean of the College of Continuing Education and Community Service, to expend moneys from the Conference Center Revolving Fund; and
- (3) Requires the Chancellor of the University of Hawaii at Hilo to submit to the Legislature an annual report accounting for all income and expenditures of the Conference Center Revolving Fund.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee finds that the College of Continuing Education and Community Service no longer exists, making the University of Hawaii at Hilo unable to expend the moneys in the Conference Center Revolving Fund. Your Committee further finds that the amendments made by this measure will allow the University of Hawaii at Hilo to once again expend the moneys in the Conference Center Revolving Fund.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1222, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1222, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 800 Ways and Means on S.B. No. 1230

The purpose and intent of this measure is to require the Department of Health, or the Executive Director of the Department of Health's Office of Language Access, to perform the duties of the Office of Language Access.

Written comments in opposition were received from the Inter-Agency Council, Medical-Legal Partnership for Children in Hawaii, Hawaii Friends of Civil Rights, Hawaii State Coalition Against Domestic Violence, Ethnic Education Hawaii, Hawaii Coalition for Immigrant Rights, The Legal Clinic/Justice for Our Neighbors Hawaii, and nine individuals.

The Office of Language Access, Language Access Advisory Council, Department of Health, and Department of Human Services submitted written comments on the measure.

Your Committee finds that this measure will promote the establishment of a more coordinated and cost-effective statewide language access program.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1230, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 801 Ways and Means on S.B. No. 1286

The purpose and intent of this measure is to appropriate funds to the Office of the Prosecuting Attorney for Hawaii County for the Career Criminal Prosecution Unit.

Your Committee received written comments in support of this measure from the Office of the Prosecuting Attorney for Hawaii County and the Department of the Prosecuting Attorney for the City and County of Honolulu.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that this measure will help support the prosecution of repeat-felony offenders, who commit a disproportionate number of serious crimes against the public.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1286, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1286, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 802 Ways and Means on S.B. No. 1305

The purpose and intent of this measure is to require the Department of Accounting and General Services to establish and manage automotive support for work-related employee travel, including a program in which state employees are permitted to drive personal vehicles to conduct official business and be compensated for costs based on mileage.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee finds that allowing state employees to use the employees' personal vehicles to conduct official business will help to improve efficiency and minimize the size of the State's motor pool.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1305, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1305, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 803 Ways and Means on S.B. No. 1307

The purpose and intent of this measure is to improve the implementation of major information technology projects in the State by establishing the Information Technology Modernization Program Management Office within the Office of Enterprise Technology Services.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Office of Enterprise Technology Services, and Transform Hawaii Government.

Your Committee finds that there are currently multiple information technology modernization projects in progress, including projects to replace information technology systems for unemployment insurance, disability compensation, financial management, child and family welfare, behavioral health, and state employee benefits. Your Committee further finds that the creation of a dedicated office

with specialized staff to support these information technology modernization projects will help to ensure those projects are completed without cost over-runs and delays.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes to clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1307, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 804 Ways and Means on S.B. No. 1323

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to develop a long-term strategic plan to eliminate the waiting list for a home land lease based on a comprehensive assessment of needs and resources of beneficiaries who are on the list.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that thousands of native Hawaiian beneficiaries have died while on the Department of Hawaiian Home Lands waiting list for a home land lease, and thousands of other beneficiaries are currently on the list, half of whom are more than sixty years old. Your Committee further finds that the State has a duty to make sufficient moneys available to fund leases for beneficiaries. Accordingly, your Committee believes that the Department of Hawaiian Home Lands needs to strive to meet this goal, which, once achieved, will result in the eventual elimination of the waiting list.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1323, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1323, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 805 Ways and Means on S.B. No. 1337

The purpose and intent of this measure is to authorize the counties to establish block-level upzoning programs to allow homeowners within a block located in an urban district to vote to increase the housing density for their respective block.

Your Committee received written comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that this measure will help empower homeowners and allow creative solutions to the State's housing crisis.

Your Committee has amended this measure by:

- (1) Clarifying that the counties are authorized to adopt ordinances that increase housing density;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1337, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1337, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Moriwaki).

SCRep. 806 Ways and Means on S.B. No. 1421

The purpose and intent of this measure is to create a task force within the Department of Business, Economic Development, and Tourism to explore how dual use technology can be used to promote economic recovery and diversify the State's economy.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation and The Chamber of Commerce Hawaii.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that this measure will help the State develop innovative concepts, new approaches to technology, and working relationships with existing military research facilities and funding sources.

Your Committee has amended this measure by:

(1) Clarifying that representatives from the Economic Development Alliance of Hawaii, Inc., and The Chamber of Commerce Hawaii shall be invited to participate on the Dual Use Technology Task Force;

- (2) Providing that the task force shall be dissolved on an unspecified date; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1421, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1421, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 807 (Majority) Ways and Means on S.B. No. 2

The purpose and intent of this measure is to exempt from the definition of "public lands" those lands that are set aside to the Hawaii Housing Finance and Development Corporation by the Governor or leased to the Corporation by other state departments and agencies.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation.

Written comments in opposition were received from the Office of Hawaiian Affairs and Kupuna for the Moopuna.

Your Committee finds that this measure's expansion of the statutory exemption for lands held by the Hawaii Housing Finance and Development Corporation will help to streamline the development of affordable housing on state lands.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Fevella). Excused, 1 (Shimabukuro).

SCRep. 808 Ways and Means on S.B. No. 1

The purpose and intent of this measure is to facilitate the development and sale of low-cost homes for Hawaii residents.

Specifically, the measure:

- (1) Establishes the ALOHA homes program to develop low-cost homes on state-owned and county-owned land in urban redevelopment sites to be sold in leasehold by the Hawaii Housing Finance and Development Corporation to qualified residents;
- (2) Exempts certain land from the definition of public lands;
- (3) Requires the Hawaii Housing Finance and Development Corporation to obtain legislative approval before disposing of certain land; and
- (4) Authorizes the Hawaii Housing Finance and Development Corporation to sell the leasehold interest in residential condominium units located on state land for lease terms of ninety-nine years.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawaii, Hawaii Bicycling League, Hawaii Health and Harm Reduction Center, Hawaiian Humane Society, Trinity United Methodist Church, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs and Kupuna for the Moopuna.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Budget and Finance, Department of Education, Department of Land and Natural Resources, Disability and Communication Access Board, and Grassroot Institute of Hawaii.

Your Committee finds that this measure will help ameliorate Hawaii's housing crisis by streamlining the development of affordable housing on state and county land.

Your Committee has amended this measure by:

- (1) Deleting the definition of the term "small and medium vendor" since it is not used in the substantive provisions of the measure:
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Kidani, Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 809 Ways and Means on S.B. No. 1112

The purpose and intent of this measure is to amend the minimum appointment eligibility requirements for the position of Adjutant General.

Your Committee received no written comments on this measure.

Your Committee finds that Hawaii's Adjutant General oversees more than six thousand citizen soldiers and other personnel and plays a critical role in the State's defense. This measure clarifies and enhances the eligibility requirements for this important position.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1112, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1112, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 810 Ways and Means on S.B. No. 1127

The purpose and intent of this measure is to make an emergency appropriation of \$5,400,000 to the Department of Human Services to fund general assistance payments in the current fiscal year.

Your Committee received written comments in support of this measure from the Department of Human Services, Governor's Coordinator on Homelessness, Hawaii Primary Care Association, Catholic Charities Hawaii, Partners in Care, Akamai Recovery Maui, and one individual.

Your Committee finds that due to the coronavirus disease 2019 pandemic, the number of individuals receiving certain general assistance payments increased thirty-four percent compared to the previous year. The additional funding provided by this measure will help to maintain the \$388 per month level of general assistance to each of the approximately six thousand eight hundred recipients through the end of the 2020-2021 fiscal year.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1127, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 811 Ways and Means on S.B. No. 1069

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (1) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System; Hawaii Health Systems Corporation; Department of Budget and Finance; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (1) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1069, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 812 Ways and Means on S.B. No. 1070

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System, Department of Budget and Finance, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (2) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1070, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 813 Ways and Means on S.B. No. 1071

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System, Department of Budget and Finance, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (3) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1071, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 814 Ways and Means on S.B. No. 1072

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (4) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System, Department of Budget and Finance, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (4) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1072, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 815 Ways and Means on S.B. No. 1073

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (5) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1073, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 816 Ways and Means on S.B. No. 1074

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (6) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (6) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1074, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 817 Ways and Means on S.B. No. 1075

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (7) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System and Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (7) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1075, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1075, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 818 Ways and Means on S.B. No. 1076

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (8) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System, Department of Budget and Finance, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (8) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1076, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 819 Ways and Means on S.B. No. 1077

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (9) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System, Department of Budget and Finance, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (9) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1077, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1077, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 820 Ways and Means on S.B. No. 1078

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (10) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii System; Department of Budget and Finance; Hawaii Health Systems Corporation; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (10) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1078, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 821 Ways and Means on S.B. No. 1079

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (11) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1079, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 822 Ways and Means on S.B. No. 1080

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (13) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (13) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1080, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1080, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 823 Ways and Means on S.B. No. 1081

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2021-2023 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (14) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1081, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1081, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 824 Ways and Means on S.B. No. 1139

The purpose and intent of this measure is to ensure patient access to and regulatory oversight of licensed medical cannabis dispensaries.

Specifically, this measure:

- (1) Appropriates moneys from the medical cannabis registry and regulation special fund for positions and operations within the Office of Medical Cannabis Control and Regulation;
- (2) Establishes three new permanent full-time equivalent positions (3.0 FTE) within the Office of Medical Cannabis Control and Regulation; and
- (3) Authorizes the Department of Health to adopt administrative rules to establish patient registration fees.

Your Committee received written comments in support of this measure from the Hawaii Cannabis Industry Association.

Your Committee received written comments on this measure from Akamai Cannabis Clinic.

Your Committee notes that due to budgetary shortfalls related to the coronavirus disease 2019 (COVID-19) pandemic, the Office of Medical Cannabis Control needed to eliminate six full-time positions. However, your Committee finds that the Office's operations can be supported by moneys from the medical cannabis registry and regulation fund. Your Committee also finds that authorizing the Department of Health to set patient registration fees through the adoption of administrative rules would allow the Department the flexibility it needs to periodically amend the registration fees in the future.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, and the effective date of the appropriations in the measure to July 1, 2051, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1139, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 825 Ways and Means on S.B. No. 1166

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to approve rental payment reductions or waivers for leases when the lessee must incur substantial demolition costs or infrastructure improvement costs in order to utilize the leased premises.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Written comments in opposition were received from Kupuna for the Moopuna.

The Office of Hawaiian Affairs submitted written comments on the measure.

Your Committee finds that the reduction or waiver of lease rental payments authorized by this measure will provide a greater incentive for developers to invest in the redevelopment of public land or provide the necessary infrastructure to facilitate further development of unimproved public land.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1166, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 826 Ways and Means on S.B. No. 1173

The purpose and intent of this measure is to facilitate stewardship of the State's ocean resources.

Specifically, the measure:

- (1) Establishes the ocean stewardship special fund for the conservation, restoration, and enhancement of the State's marine resources; and
- (2) Authorizes the Department of Land and Natural Resources to adopt rules pursuant to Chapter 91, Hawaii Revised Statutes, to establish non-resident user fees for the use and enjoyment of the State's ocean resources, to be deposited into the ocean stewardship special fund.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Kuaaina Ulu Auamo, Hawaii Reef and Ocean Coalition, Hui o Hoohonua, The Nature Conservancy, Kauhako Ohana Association, and one individual.

Your Committee received written comments in opposition of this measure from the Ocean Tourism Coalition.

Your Committee finds that this measure will facilitate a sustainable source of funding to assist the Department of Land and Natural Resources in advancing the management, research, restoration, and enhancement of the State's marine resources.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1173, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 827 Ways and Means on S.B. No. 1156

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health to provide funds to implement the State's coronavirus disease 2019 (COVID-19) vaccination plan.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association.

Your Committee finds that although the federal government is paying for COVID-19 vaccine doses, it is not paying for the costs of delivering and administering the vaccine. These administrative costs include the purchase of needles, syringes, personal protective equipment, and the time required for health care professionals to perform this vital responsibility away from their normal duties. Your

Committee further finds that the moneys appropriated by this measure will help to ensure that the Department of Health can pay for these administrative costs and efficiently and effectively implement the State's COVID-19 vaccination plan.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1156, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 828 Ways and Means on S.B. No. 1149

The purpose and intent of this measure is to remove the statutory spending ceiling for the Dietitian Licensure Special Fund and leave the ceiling to be established instead through the state budgeting process.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that providing the flexibility to adjust the spending ceiling for the Dietitian Licensure Special Fund through the state budgeting process will allow the State to meet the needs of the licensure program while reducing reliance on general funds during a time of economic stress.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1149, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 829 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 969

The purpose and intent of this measure is to prohibit the manufacture for sale, offer for sale, display for sale, sale, trade, or distribution of certain animal fur products in the State.

Your Committees received testimony in support of this measure from Fur Free Alliance; Animal Defenders International; InStyle; Inditex S.A.; Humane Society Veterinary Medical Association; In Defense of Animals; Project Coyote; Humane Society of the United States; Humane Society Veterinary Medical Association; Stella McCartney, Ltd.; Animal Legal Defense Fund; People for the Ethical Treatment of Animals; Advanced Pacific; Leilani Farm Sanctuary; Neighborhood Cats; H&M; and twenty-nine individuals. Your Committees received testimony in opposition to this measure from Retail Merchants of Hawaii and two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and one individual.

Your Committees find that the fur industry can be cruel, and studies have shown that it presents high climate and environmental costs, with significant emissions and land use requirements, and air and water pollutants emanating from animal waste and chemical processes. The coronavirus disease 2019 further exposed the fur industry as a serious contagion risk and has underscored the need for transformational change in the way humans trade in, consume, impact, and too often abuse nature. Due to technological advances in fabrications, designers are now able to create a luxe aesthetic using non-animal fur. Therefore, this measure allows Hawaii to be among the leaders in ending fur sales.

Your Committees further find the prohibition on the manufacturing and sale of fur products would benefit from a more phased-in approach, similar to how the State has handled the ban on the sale of certain sunscreens. By first prohibiting the manufacture and importation of certain animal fur products in the State, then later banning the sale of those items, retailers and suppliers can have a window of time to sell current inventories, thereby preventing any unnecessary waste. Amendments to this measure are therefore necessary to address these issues. Your Committees further note that this measure exempts leather and certain fur products from livestock animals that have been a part of Hawaii's landscape for a very long time.

Your Committees have amended this measure by:

- (1) Clarifying the definition of "fur" to mean any animal skin with hair, fleece, or fur fibers attached, either in its raw or processed state, including mink and other non-native species;
- (2) Clarifying the definition of "director" to mean the Director of Agriculture, rather than the Director of Commerce and Consumer Affairs:
- (3) Specifying that, beginning July 1, 2021, it shall be unlawful to manufacture fur products in the State, or import fur products into the State, for the purposes of sale;
- (4) Specifying that, beginning December 1, 2021, it shall be unlawful to sell, offer for sale, display for sale, trade, or otherwise distribute for monetary or nonmonetary consideration, a fur product in the State;
- (5) Inserting language requiring the Department of Agriculture, Department of Commerce and Consumer Affairs, and Department of the Attorney General to collaborate and to develop and disseminate informational documents to educate and inform retail merchants and suppliers of the provisions of this measure;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and

(7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 969, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 969, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (Riviere). Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 830 Judiciary on S.B. No. 560

The purpose and intent of this measure is to establish ranked choice voting for special federal elections and special elections of vacant county council seats.

Your Committee received testimony in support of this measure from the Americans for Democratic Action, Common Cause Hawaii, FairVote Action, The Libertarian Party of Hawaii, and nine individuals. Your Committee received comments on this measure from the League of Women Voters of Hawaii and one individual.

Your Committee finds that numerous candidates often run in special elections for federal or county council offices, which often results in the election of a candidate by a mere plurality of votes. Your Committee recognizes that conducting these elections by ranked choice voting would result in the election of candidates who receive a clear majority of votes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 831 Judiciary on S.B. No. 670

The purpose and intent of this measure is to set specific requirements that must be satisfied for a minor to be allowed to work in theatrical employment. Specifically, this measure:

- (1) Allows for minors under the age of sixteen to work in theatrical employment provided that the employer procures a valid certificate of employment and the minor is accompanied by a parent, guardian, or responsible adult designated by the parent or guardian to supervise and advocate on behalf of the minor;
- (2) Requires the employer to hire a nurse certified in basic life support to accompany, supervise, and advocate on behalf of an infant under the age of one who is on set; and
- (3) Requires a studio teacher to accompany, teach, and attend to the health, safety, and well-being of a minor who attained the age of five years who is working during periods when the minor is legally required to attend school.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State Teachers Association; I.A.T.S.E. Local 665; International Brotherhood of Electrical Workers Local 1260; United Food & Commercial Workers Union, Local 480; SAG-AFTRA Hawaii Local; Iron Workers Stabilization Fund; Hawaii State AFL-CIO; and seven individuals.

Your Committee finds that existing laws do not require a registered nurse, advanced practice registered nurse, or studio teacher to be present on set when minors are employed in theatrical employment. Section 390-2, Hawaii Revised Statutes, provides for employment of minors under eighteen years of age and contains hours and time provisions for minors between fourteen and seventeen years of age. Additionally, the Department of Labor and Industrial Relations issues theatrical employment certificates for television or motion picture productions contingent on proof that the minor is performing satisfactorily in school. This measure recognizes the importance of ensuring safe working conditions for children, as well as ensuring that their health and educational opportunities are protected while working on theatrical productions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 670, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 832 Judiciary on S.B. No. 153

The purpose and intent of this measure is to:

- (1) Establish penalties for violations of the ignition interlock device law; and
- (2) Require proof of compliance with the ignition interlock device law to be eligible to apply for a driver's license.

Your Committee received testimony in support of this measure from the Department of Transportation; AAA Hawai'i; Traffic Injury Research Foundation; Smart Start, LLC; Foundation for Advancing Alcohol Responsibility; Mothers Against Drunk Driving Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that ignition interlock devices prevent an intoxicated driver from operating a motor vehicle if their breath alcohol concentration exceeds a set point. Since its inception in 2011, the ignition interlock program has prevented over one million impaired driving attempts. Your Committee further finds that assessing the compliance of individuals who are required to install an

ignition interlock device but do not own vehicles is challenging, and a longer period of revocation in such situations may be appropriate. In addition, your Committee acknowledges that the cost associated with the ignition interlock program unjustly disadvantages some individuals.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Transportation to provide ignition interlock device installation and services at no cost to qualifying individuals;
- (2) Clarifying that the disqualification from eligibility for a driver's license for persons failing to provide proof of compliance with certain conditions applies to persons who have an ignition interlock device installed in all vehicles the person owns or drives:
- (3) Doubling the revocation period for those required to install an ignition interlock device but do not own a vehicle in which to install one;
- Removing unnecessary and redundant language; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 153, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 833 (Majority) Judiciary on S.B. No. 742

The purpose and intent of this measure is to require each county police department to collect certain data regarding police stops, uses of force, and arrests, and submit annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Civil Beat Law Center for the Public Interest, Common Cause Hawaii, Community Alliance on Prisons, Young Progressives Demanding Action, Drug Policy Forum of Hawai'i, American Civil Liberties Union of Hawai'i, Hawaii Appleseed Center for Law and Economic Justice, and ten individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Police Department, Kaua'i Police Department, Maui Police Department, and Police Chiefs of Hawaii Association. Your Committee received comments on this measure from one individual.

Your Committee finds that transparency in the criminal justice system contributes to the equitable application of the law and allows law enforcement to better serve the public. Good data, particularly data from law enforcement, is critical to the development of well-informed policy that can promote safer communities while reducing the human and financial costs of the criminal justice system. This measure requires each county police department to collect certain data regarding police stops, uses of force, and arrests, to, among other things, better consider situations of interest, such as trends in the use of force; safeguarding of law enforcement officers from injury; and thereby allow for greater overall academic analysis of policing in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 742, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 742, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Fevella). Excused, none.

SCRep. 834 Judiciary on S.B. No. 199

The purpose and intent of this measure is to:

- (1) Mandate appointment of a guardian ad litem to represent the best interest of a mentally ill individual in assistant community treatment proceedings and regarding an application for emergency examination and hospitalization, also known as an MH-1 application; and
- (2) Eliminate the need for the Office of the Public Defender to participate in the proceedings.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Partners in Care; The Institute for Human Services, Inc.; St. Elizabeth's Church; Ohana Health Plan; and four individuals. Your Committee received comments on this measure from the Judiciary, Department of the Attorney General, Department of Health, Office of the Public Defender, Governor's Coordinator on Homelessness, and Hawaii Disability Rights Center.

Your Committee finds that the Assisted Community Treatment program (ACT) established in 2013 provides individuals with severe mental illness who are unlikely to live safely in the community without available supervision with necessary medical treatment and medication when it is in the individual's best interest. Although ACT presents these individuals with an opportunity to receive on-going treatment in the least restrictive setting and serves as a vital alternative to repeat emergency interventions as their primary course of treatment, many mentally ill individuals fail to participate in the program. Existing law does not require a guardian ad litem

to be appointed to represent the individual with severe mental illness participating in ACT. Your Committee further finds that the mandatory appointment of a guardian ad litem will improve the ACT process by providing an advocate for the concerned individual's needs and interest.

Your Committee has amended this measure by:

- (1) Removing MH-1 applications from the proceedings requiring the appointment of a guardian ad litem; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 199, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 199, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 835 (Majority) Judiciary on S.B. No. 839

The purpose and intent of this measure is to:

- Authorize advanced practice registered nurses, in addition to physicians, to practice medical aid in dying in accordance with their scope of practice and prescribing authority;
- (2) Authorize psychiatric mental health nurse practitioners and clinical nurse specialists, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient;
- (3) Reduce the mandatory waiting period between oral requests from twenty days to fifteen days; and
- (4) Waive the mandatory waiting period for those terminally ill individuals not expected to survive the mandatory waiting period.

Your Committee received testimony in support of this measure from the Hawai'i Association of Professional Nurses, Hawai'i Psychological Association, Compassion & Choices, Hawaii Society of Clinical Oncology, Hawai'i – American Nurses Association, and fifty-four individuals. Your Committee received testimony in opposition to this measure from Hawai'i Family Forum, Patients Rights Action Fund, and five individuals. Your Committee received comments on this measure from the Board of Nursing and Hawai'i State Center for Nursing.

Your Committee finds that the Our Care, Our Choice Act (OCOCA) allows terminally ill individuals to request and receive prescription medication that allows them to pass away in a peaceful, humane, and dignified manner. Your Committee further finds that since the OCOCA was enacted, the Department of Health solicited input from the medical community on the law's implementation. This process has revealed that a shortage of physicians on the neighbor islands unintentionally created barriers and burdens in care. Your Committee further finds that implementing the amendments to the OCOCA suggested by the medical community and collated by the Department of Health will equitably increase access to end-of-life care intended to limit needless suffering.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 839, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 3 (Gabbard, Kim, Fevella). Excused, none.

SCRep. 836 (Majority) Judiciary on S.B. No. 25

The purpose and intent of this measure is to:

- (1) Permit minors to consent to medical care related to the diagnosis or treatment of the human immunodeficiency virus (HIV) or the prevention of HIV;
- (2) Provide that a minor, under certain circumstances, shall not be liable for payment for treatment or prevention of HIV; and
- (3) Authorize physician assistants, in addition to physicians and advanced practice registered nurses, to render medical care and services to minors.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i, Maui AIDS Foundation, Hawaii Youth Services Network, Kaiser Permanente Hawai'i, Trevor Project, and six individuals.

Your Committee finds that persons between the ages of thirteen and twenty-four accounted for twenty-one percent of new HIV diagnoses in 2017. Of those, forty-four percent were unaware of their HIV status. This age group is consistently the least likely to test for HIV, receive HIV treatment or be virally suppressed, or be offered HIV prevention treatment. Your Committee further finds that the ability to obtain HIV related medical care without the involvement of a parent or guardian will benefit minors who have been diagnosed with HIV or are at risk of exposure to HIV.

Your Committee additionally notes that the questions of who is ultimately responsible for payment for a minor's medical care if the minor independently consents to care, and whether a healthcare provider may refuse treatment for failure to pay are not resolved by this measure, and that these questions may merit further discussion as this measure proceeds through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 25, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 25, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Gabbard). Excused, none.

SCRep. 837 Judiciary on S.B. No. 1343

The purpose and intent of this measure is to

- (1) Remove acreage restrictions on leases of Hawaiian home lands for agricultural purposes;
- (2) Provide that the availability of leases shall be subject to the availability of suitable tracts of land; and
- (3) Specify that leases may be for for-profit or non-profit purposes.

Your Committee received testimony in support of this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your committee finds that, as originally enacted by the United States Congress, the Hawaiian Homes Commission Act authorized the Hawaiian Homes Commission to lease twenty to eighty acres of agricultural land. In the present day, the Hawaiian Homes Commission Act authorizes the Department of Hawaiian Home Lands to lease no more than forty acres of agricultural land with at least twenty-six of those acres under continuous cultivation. Your Committee further finds that, while this measure could potentially allow for expanded opportunities in certain areas for farming, removing acreage restrictions on leases could inequitably disadvantage the large number of applicants on the waitlist for agricultural leases.

Accordingly, your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1343, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 838 Judiciary on S.B. No. 700

The purpose and intent of this measure is to require government entities to seek reimbursement for all or a portion of search and rescue expenses for persons who require rescue after leaving a hiking trail to enter a prohibited area or hiking on a trail closed to the public.

Your Committee received testimony in support of this measure from eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources, State Fire Council, and three individuals.

Your Committee finds that with the numerous hiking trails available to the public throughout the State, there are certain areas that are home to vulnerable natural resources or pose safety concerns and consequently have been closed to the public. Despite this, your Committee finds that there are cases in which individuals and groups unlawfully enter trails that have been closed off to the public due to safety concerns, ultimately putting those individuals and groups at risk of significant injury and risking the damage of native habitats and other natural resources. Your Committee further finds that those defying the law by entering into prohibited areas not only put themselves at risk, but create potentially difficult, dangerous, and expensive rescue operations. Your Committee additionally finds that, while those willfully disregarding the law and creating avoidable risks for themselves and others should be held accountable, this measure could have the unintended effect of disincentivizing individuals in distress from calling for assistance in situations in which it is necessary.

Accordingly, your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 700, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 839 Judiciary on S.B. No. 287

The purpose and intent of this measure is to:

Require the Department of Transportation and the counties to implement a Vision Zero program in Hawai'i by July 1, 2022;
 and

(2) Establish a goal of no traffic fatalities or serious injuries by 2045.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Mothers Against Drunk Driving Hawai'i, Hawaii Bicycling League, and Hawai'i Public Health Institute.

Your Committee finds that traffic fatalities and serious injuries continue to be an area of concern for the Legislature. Sweden adopted a national Vision Zero policy in 1997 and by 2013 had achieved the lowest number of road accidents on record. Existing law in Hawai'i directs the Department of Transportation and county transportation departments to adopt a Vision Zero policy, but no implementation date is specified. This measure sets forth a clear and definite timeline for the adoption of a Vision Zero policy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 287, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 840 Judiciary on S.B. No. 386

The purpose and intent of this measure is to protect youth from certain harmful conditions in the justice system by ensuring compliance with the federal Juvenile Justice Reform Act of 2018, codified under 34 U.S.C.A §11133, which requires the family court to make findings before a minor can be transferred to an adult facility.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, Office of Hawaiian Affairs, Office of Youth Services, and Hawaii Disability Rights Center. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that when a youth is transferred to the adult criminal justice system, the lifelong consequences of placement in the criminal justice system has a profoundly negative effect on both the youth and our community. Your Committee further finds that full brain development and maturity is proven to extend beyond teen years, and studies have shown that young adults reach full maturity past the age of twenty-five years. In light of these developmental facts, your Committee additionally finds that adult facilities do not provide the developmentally appropriate rehabilitative services youth require.

Your Committee has amended this measure by:

- (1) Requiring the court to hold a hearing no less frequently than once every thirty days if a minor is held in a jail or lockup for adults, to review whether the detention of a child in a jail or lockup for adults remains in the interest of justice; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 386, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 386, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 841 Judiciary on S.B. No. 1134

The purpose and intent of this measure is to broaden the Department of Human Services employees' right of entry into a vulnerable adult's premises without a warrant for an investigation of any type of abuse regardless of physical injury.

Your Committee received testimony in support of this measure from the Department of Human Services and Executive Office on Aging.

Your Committee finds that reports of abuse against vulnerable adults continue to rise as Hawai'i's population ages. Your Committee also finds that although the Department of Human Services is authorized to enter premises without a warrant for purposes of investigating the abuse of vulnerable adults, existing law limits that right of warrantless entry only to situations in which there is probable cause to believe that a vulnerable adult will be physically injured. Your Committee further finds that as defined in section 346-222, Hawaii Revised Statutes, "abuse" includes not only physical abuse, but also psychological abuse, sexual abuse, financial exploitation, caregiver neglect, or self-neglect, and that all of these forms of abuse can result in damaging losses to the vulnerable adult's mental health, welfare, and financial stability.

Although extending the Department's right of entry into a vulnerable adult's premises without a warrant for an investigation of abuse regardless of physical injury will better serve vulnerable adults who may be the victims of abuse, your Committee considered concerns about the breadth of the circumstances under which this measure would allow warrantless entry by the Department of Human Services, and that these concerns may merit further discussion as this measure continues through the legislative process.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1134, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 842 (Majority) Judiciary on S.B. No. 191

The purpose and intent of this measure is to:

- (1) Provide a process for associations to incorporate power of sale language into governing documents; and
- (2) Clarify the legislative intent that the explicit grant of power of sale to associations is not required for the purposes of enforcing association liens under the statutory power of sale foreclosure process.

Your Committee received testimony in support of this measure from the Community Associations Institute, Palehua Townhouse Association, Associa, and one individual. Your Committee received testimony in opposition to this measure from eight individuals.

Your Committee finds that Act 282, Session Laws of Hawaii 2019, expressed the legislative intent that condominium associations have authority to use a nonjudicial foreclosure process when owners default on their financial obligations to their fellow owners. Courts have nonetheless cast doubt on previous legislative action and have insisted that "power of sale" language must be contained within the governing documents of a condominium association before a nonjudicial foreclosure process may be used. Your Committee further finds that this measure clarifies that the explicit grant of power of sale to associations is not required for the purposes of enforcing association liens through the nonjudicial foreclosure process in any part of chapter 667, Hawaii Revised Statutes. This measure further establishes a process by which Association documents may be amended to include a power of sale provision.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 191, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 191, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 843 Judiciary on S.B. No. 346

The purpose and intent of this measure is to prohibit the confinement of egg-laying hens in a cruel manner and prohibit business owners and operators from selling certain eggs or egg products from hens confined in a cruel manner beginning on December 31, 2025.

Your Committee received testimony in support of this measure from The McClellan Group; The Humane Society of the United States; Natural Resources Defense Council; Friends of the Earth; Animal Outlook; Center for Biological Diversity; Animal Legal Defense Fund; Compassion in World Farming USA; Hawaiian Humane Society; Animal Equality; American Society for the Prevention of Cruelty to Animals; The Humane League; Farm Sanctuary; Mercy for Animals; Humane Society Veterinary Medical Association; Hawaiian Egg Company, Inc.; OK Poultry, LLC; and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the University of Hawai'i College of Tropical Agriculture and Human Resources.

Your Committee finds that certain methods of farm animal containment are cruel to animals and threaten human health and safety by increasing the risk of foodborne illness. Additionally, battery cage facilities have been linked to high levels of air contamination from ammonia and hydrogen sulfide as well as organic compounds, large amounts of pesticide, and pharmaceutical residues that can be transported into nearby soil, causing groundwater pollution and contaminating surface waters. Your Committee further finds that there are no existing laws or regulations in the State establishing confinement standards for egg-laying hens. This measure phases out certain types of extreme, outdated, and cruel methods of farm animal confinement and the sale of products produced using those methods of confinement.

Your Committee has amended this measure by:

- (1) Delaying implementation of the prohibition until June 30, 2027; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 346, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 844 (Majority) Judiciary on S.B. No. 619

The purpose and intent of this measure is to amend provisions concerning fitness to proceed examinations in criminal proceedings to specify circumstances in which qualified advanced practice registered nurses or advanced practice registered nurses with prescriptive authority who hold an accredited national certification in an advanced practice registered nurse psychiatric specialization may conduct the examination.

Your Committee received testimony in support of this measure from the Hawai'i Association of Professional Nurses, The Queen's Health Systems, Hawai'i State Center for Nursing, Hawai'i – American Nurses Association, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of Health, Hawai'i Psychological Association, and five individuals. Your Committee received comments on this measure from the Board of Nursing.

Your Committee finds that advanced practice registered nurses provide a wide variety of health care services to people across the State. Existing law requires each hospital within the State to allow advanced practice registered nurses to practice at the hospital

within the full scope of their authorized practice, including practice as primary care providers. This measure provides courts with greater flexibility by allowing qualified advanced practice registered nurses or advanced practice registered nurses with prescriptive authority who hold an accredited national certification in an advanced practice registered nurse psychiatric specialization to conduct fitness to proceed evaluations in criminal proceedings.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 619, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 845 Judiciary on S.B. No. 925

The purpose and intent of this measure is to clarify that the secondhand dealers law applies to a secondhand dealer's operation of an automated recycling kiosk that purchases previously owned consumer hand-held electronic devices.

Your Committee received testimony in support of this measure from the Maui Police Department, Retail Merchants of Hawaii, TechNet, and ecoATM. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Hawaii Pawnbrokers Association.

Your Committee finds that electronic waste kiosks, or automated recycling kiosks, provide a resource for consumers to sell their old cell phones, which are then collected and recycled or refurbished. Automated recycling kiosks have modernized electronic waste recycling and have diverted more than seven million pounds of electronic waste from local landfills across the country. Your Committee further finds that existing law requires secondhand dealers to store property in the county for a certain holding period, which creates a barrier for the operators of the automatic recycling kiosks, due to the limited space within the kiosk, the safety risks of long storage time requirements, and other related logistical issues. Your Committee additionally finds that, although it may not be practicable for operators of automated recycling kiosks to store cellular phones in the county in which the phones were received or purchased for the full retention period, a complete exemption from the in-county storage requirement for cellular phones received or purchased by automated recycling kiosks could present an undue obstacle to law enforcement in cases of theft.

Your Committee has amended this measure by:

- Clarifying that the previously owned consumer hand-held electronic devices purchased by automated recycling kiosks are limited to cellular phones;
- Clarifying that articles required to be retained by operators of automated recycling kiosks are previously owned consumer hand-held electronic cellular phone devices;
- (3) Requiring cellular phones received or purchased by an automated recycling kiosk to be retained in the county in which they were received or purchased for no less than the initial five business days of the retention period and at an alternate business location outside the county for a total period of thirty days; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 925, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 846 Judiciary on S.B. No. 936

The purpose and intent of this measure is to add a new section to the Hawaii Occupational Safety and Health Law to require:

- (1) The Department of Labor and Industrial Relations to disseminate information regarding seizure first aid to employers, employees, and the general public;
- (2) Employers to post materials provided by the Department of Labor and Industrial Relations; and
- (3) The Department of Labor and Industrial Relations to adopt rules to implement the new requirements.

Your Committee received testimony in support of this measure from the Epilepsy Foundation of Hawai'i and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that seizure disorders like epilepsy are evidenced by sudden surges of electrical activity in the brain that affect a variety of mental and physical functions. Your Committee finds that as of 2019, over fifteen thousand people in the State of Hawaii and over three million in the United States are living with epilepsy, and an additional ten percent of the population may experience a non-epileptic seizure in their lifetime. The prevalence of epilepsy and other seizure disorders in our community evidence a need to provide workplace education regarding seizure first aid. This measure would ensure that information is available to members of the community regarding how to render first aid in the event of a seizure. Your Committee notes concerns raised in testimony that the placement of the requirements established by this measure into the Hawaii Occupational Safety and Health Law creates a statutory conflict, and that the requirements are more appropriately placed into the chapter of the Hawaii Revised Statutes that directly governs the Department of Labor and Industrial Relations.

Accordingly, your Committee has amended this measure by:

- (1) Placing the new statutory section into chapter 371, Hawaii Revised Statutes, relating to labor and industrial relations, instead of chapter 396, Hawaii Revised Statutes, relating to occupational safety and health; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 936, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 847 Judiciary on S.B. No. 905

The purpose and intent of this measure is to require the State Council on Mental Health to include an unspecified number of members with demonstrated knowledge of or work experience involving native Hawaiian health practices.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, The Queen's Health Systems, Hawai'i Psychology Association, and one individual.

Your Committee finds that native Hawaiians experience mental health disparities that require culturally responsive solutions. Native Hawaiian keiki are over-represented as victims of abuse and neglect, and native Hawaiian youth experience higher rates of depression and drug use. Native Hawaiians are also less likely than other populations to seek help from the State's mental health services. Culturally sensitive treatment programs that are grounded in native Hawaiian healing and health practices have proven to be more successful when congruent with the client's values and beliefs. Requiring the State Council on Mental Health to include members having educational, professional, or practical backgrounds in native Hawaiian and indigenous health, transgenerational trauma, and traditional healing practices will help the State advance and develop culturally responsive policies and programs.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 905, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 905, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 848 (Joint) Judiciary and Ways and Means on S.B. No. 320

The purpose and intent of this measure is to:

- (1) Require each tax return preparer to have a valid preparer tax identification number issued by the Internal Revenue Service and to furnish the preparer's tax identification number on any return or claim for refund if required by the Department of Taxation;
- (2) Establish penalties for non-compliance; and
- (3) Provide that tax return preparers shall not be liable for penalties prior to January 1, 2022.

Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that many tax preparers in the State operate with little oversight or accountability. Requiring all tax return preparers to have a Preparer Tax Identification Number issued by the Internal Revenue Service to prepare any return or claim for refund for compensation will help taxpayers and the Department of Taxation ensure that tax return preparers are held accountable for returns they prepare. For many local families, the annual tax refund is often the most significant financial transaction of the year. As a result of this measure, taxpayers will have greater assurance that they can rely on the services of their preparers and the Department of Taxation will be able to better monitor tax return preparers and detect problems. This measure's provisions relating to penalties and injunctive relief will provide increased consumer protection resources to protect taxpayers from harm, ensure fair and accurate tax administration, prevent malfeasance by bad actors, and reduce unintended losses in revenue.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 320 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 849 (Joint) Judiciary and Ways and Means on S.B. No. 1036

The purpose and intent of this measure is to:

- (1) Repeal the establishment of the Community Council on Purchase of Health and Human Services; and
- (2) Establish a State Payor Committee.

Your Committees received testimony in support of this measure from the State Procurement Office. Your Committees received testimony in opposition to this measure from the Domestic Violence Action Center; Protecting Hawaii's Ohana, Children, Under Served, Elderly, and Disabled; and three individuals. Your Committees received comments on this measure from the Hawaii Substance Abuse Coalition and Catholic Charities Hawaii.

Your Committees find that the Community Council on Purchase of Health and Human Services was established in 1997 as an advisory body to provide input to the State Procurement Office to develop the rules, infrastructure, and procedures for procuring health and human services. Since its initiation, the focus of health and human services procurements has changed as the rules are well-established and providers and purchasing agencies are acclimated to the rules and associated procurement process. The most recent meeting of the Community Council on Purchase of Health and Human Services was held on April 22, 2010. A lack of quorum and Governor-appointed members have prevented further meetings. Additionally, your Committees find that state agencies and private providers can communicate and work together to refine and update procedures for planning, procuring, and contracting health and human services to meet today's needs without the statutory provisions relating to the purchase of health and human services. Therefore, abolishing the Council would have no impact on the public or any state and county agencies.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1036, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1036, S.D. 2.

Signed by the Chairs on behalf of the Committees. Judiciary: Ayes, 7. Noes, none. Excused, none. Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 850 (Joint) Judiciary and Ways and Means on S.B. No. 1128

The purpose and intent of this measure is to establish:

- (1) Self-funded commercial enterprises vocational programs within the Office of Youth Services for disenfranchised young adults;
- (2) A revolving fund within the Office of Youth Services, for the receipt of income and payment of expenses generated from the commercial enterprise vocational programs.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Human Services; Office of Hawaiian Affairs; Office of Youth Services; Hale Kipa; Community Alliance on Prisons; Kanaeokana; Hawaii Cattlemen's Council, Inc.; Residential Youth Services & Empowerment; Kinai 'Eha; Kūpuna for the Mo'opuna; Papa Ola Lōkahi; Kamehameha Schools; Institute for Native Pacific Education and Culture; Iolani Palace; Council for Native Hawaiian Advancement; Partners in Development Foundation; The Queen's Health Systems; Boys & Girl Club of Hawaii; Bishop Museum; Native Hawaiian Education Council; 'Ekolu Mea Nui; and fifteen individuals.

Your Committees find that Act 201, Session Laws of Hawaii 2014, initiated juvenile justice reform in Hawaii to improve and enhance Hawaii's juvenile justice system. Since the Act's enactment, there has been a twenty-six percent reduction in admissions to the Hawaii Youth Correctional Facility. Additionally, Act 208, Session Laws of Hawaii 2018, established the Kawaiioa Youth and Family Wellness Center at the Hawaii Youth Correctional Facility to provide much needed services for underserved youth and young adults. Innovative non-competitive commercial programs have commenced that have provided skills building, vocational training, and economic programming to prepare young adults for entry into the workforce, especially in fields such as farming and ranching. This initiative also allows for the Office of Youth Services to continue its Connect 2 Careers partnership which is formed to build, measure, and scale high-quality, rigorous work-based immersive learning experiences that align with local, county, and state economic and labor market needs.

Further, your Committees find that allowing the Office of Youth Services to maintain a revolving fund will ensure that the Kawailoa Youth and Family Wellness Center's commercial enterprise program will provide values- and strengths-based economic opportunities and job training that is critical to the ongoing rehabilitation and long-term success of its participants. These vocational programs are gearing up to improve the employment and productive citizenship status of young adults by braking cycles of incarceration and guiding young adults toward learning valuable job skills, earning a living wage, and becoming financially secure leaders who contribute to their communities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1128, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1128, S.D. 2.

Signed by the Chairs on behalf of the Committees. Judiciary: Ayes, 7. Noes, none. Excused, none. Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 851 (Joint) Judiciary and Ways and Means on S.B. No. 1329

The purpose and intent of this measure is to create time limits to resolve protests to the awards of competitive sealed proposal contracts and procurements of professional services.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; State Procurement Office; and Associated Builders and Contractors, Hawaii Chapter.

Your Committees find that under the State's procurement code, an aggrieved unsuccessful bidder for a project may protest the bid award. The procurement protest review can be lengthy, cause project delays, and thereby increase project costs that are borne by

taxpayers. Additionally, your Committees find that the failure to timely review and resolve bid protests increases the costs of state-awards projects and some agencies have taken six months or longer to respond to bid protests that involve complex issues.

Your Committees have amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1329, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1329, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 852 Ways and Means on S.B. No. 222

The purpose and intent of this measure is to require the Comptroller's annual report to the Governor and Legislature to include a list of all accounts closed by the Comptroller during the immediately preceding fiscal year, and a list of accounts that remain open but that are serving a lapsed program or initiative.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the additional information required to be included in the Comptroller's annual report will help to improve state oversight of public moneys.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 853 Ways and Means on S.B. No. 262

The purpose and intent of this measure is to appropriate an unspecified amount of funds for purposes relating to vaccines.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the moneys appropriated by this measure will help address the coronavirus disease 2019 (COVID-19) pandemic and meet the State's COVID-19 vaccination goals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 262, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 854 Ways and Means on S.B. No. 508

The purpose and intent of this measure is to require the Department of Education to establish and administer an ocean safety and stewardship education program at each public elementary school for students in the fourth grade.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that ocean safety and stewardship education will help prevent drowning accidents and instill in students a sense of responsibility and respect for the ocean and coastal environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 855 Ways and Means on S.B. No. 579

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist House of Aloha Enterprises, LLC, a Hawaii limited liability company, with planning, designing, constructing, and equipping facilities in Hawaii to manufacture and process certain products.

Your Committee received written comments in support of this measure from Mason Industries LLC.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proposed facilities established using the bond proceeds will help generate revenues for the State through job creation, taxes, fees, and the support of other nearby businesses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 856 (Majority) Ways and Means on S.B. No. 7

The purpose and intent of this measure is to increase opportunities for the development of affordable housing in the State.

Specifically, this measure gives the Hawaii Housing Finance and Development Corporation the right of first refusal on any transfer of a property interest on state lands within a one-half mile radius of a rail transit station, excluding any lands owned or controlled by the Hawaii Public Housing Authority or Department of Hawaiian Home Lands.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority.

Your Committee finds that there is a severe shortage of affordable housing in the State. Your Committee further finds that providing the Hawaii Housing Finance and Development Corporation with the opportunity to obtain control of and develop affordable housing on state lands near rail transit stations will help to increase the State's inventory of affordable housing.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 7, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 7, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 857 Ways and Means on S.B. No. 12

The purpose and intent of this measure is to require the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation to accomplish certain housing objectives.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority.

Your Committee finds that this measure will help further the development of critically needed mixed-income communities and affordable housing units throughout the State.

Your Committee has amended this measure by:

- (1) Changing section 1 of the measure to amend only subsection (b) of section 226-19, Hawaii Revised Statutes, to conform with recommended drafting conventions;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 12, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Kidani). Noes, none. Excused, none.

SCRep. 858 Ways and Means on S.B. No. 135

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to conduct a study to identify appropriate state office buildings that can provide equitable telecommunication access to allow residents of the Counties of Hawaii, Kauai, and Maui, and rural areas of the City and County of Honolulu, including residents with disabilities, to participate remotely in legislative hearings.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services, Disability and Communication Access Board, and one individual.

Your Committee finds that this measure will help make legislative hearings more accessible to residents on all islands of the State, including residents in rural areas and residents with disabilities.

Your Committee has amended this measure by:

- (1) Requiring the Office of Enterprise Technology Services to establish a working group to study this issue and make recommendations, as suggested in the Office's written comments;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 135, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 135, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 859 Ways and Means on S.B. No. 136

The purpose and intent of this measure is to facilitate the implementation of Act 72, Session Laws of Hawaii 2020.

Specifically, this measure requires the:

- (1) Department of Education School Facilities Agency, by July 1, 2021, to adopt and publish administrative rules necessary to implement Act 72, Session Laws of Hawaii 2020; and
- (2) Office of the Governor to report to the Legislature regarding the process by which the Department of Education purchases land and executes capital improvement project contracts through the School Facilities Agency.

Your Committee did not receive written comments on this measure.

Your Committee finds that Act 72, Session Laws of Hawaii 2020, established the School Facilities Agency but did not require the Agency to adopt or publish administrative rules. Your Committee further finds that administrative rules are necessary for the effective implementation of Act 72, and this measure would require that such administrative rules be adopted and published by July 1, 2021.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 136, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 136, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 860 Ways and Means on S.B. No. 137

The purpose and intent of this measure is to encourage the development of affordable housing by allowing the counties to make certain district boundary amendments.

Specifically, this measure:

- (1) Allows county land use decision-making authorities to amend district boundaries of:
 - (A) Certain lands greater than fifteen acres but not more than twenty-five acres for reclassification to the urban district if a minimum portion of the land is dedicated to affordable housing; and
 - (B) Lands less than fifteen acres in the agricultural district with soil classified other than overall (master) productivity rating class A or B; and
- (2) Prohibits parceling of lands for the purpose of development.

Your Committee received written comments in support of this measure from the Maui County Mayor's Office and Building Industry Association of Hawaii.

Your Committee received written comments in opposition to this measure from the Sierra Club of Hawaii and Hawaii Farm Bureau.

Your Committee received comments on this measure from the Department of Agriculture, Office of Hawaiian Affairs, Land Use Commission, Office of Planning, Hawaii Association of REALTORS, and one individual.

Your Committee finds that expanding the authority of the counties to amend district boundaries will encourage the construction of affordable housing by making more land available to potential developers.

Your Committee has amended this measure by:

- Clarifying that if lands that have been parceled are proposed for reclassification, the petition for reclassification shall be
 processed as lands greater than fifteen but not more than twenty-five acres; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 137, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 861 Ways and Means on S.B. No. 167

The purpose and intent of this measure is to add the integration of green infrastructure and the promotion of green spaces to the State Planning Act.

Specifically, this measure establishes:

- (1) Objectives and policies regarding green infrastructure for facility systems;
- (2) Policies for scenic, natural beauty, and historic resources to promote green spaces; and
- (3) Priority guidelines to promote the use of green infrastructure in state facility systems, infrastructure, and transit projects.

Your Committee received written comments in support of this measure from the Department of Health, Department of Land and Natural Resources, Office of Hawaiian Affairs, Office of Planning, 350Hawaii, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Interfaith Power and Light, Our Revolution Hawaii, and Trees for Honolulu's Future.

Your Committee finds that increasing green infrastructure and green spaces throughout the State will help to protect the environment, improve the quality of life for Hawaii residents, and enhance the enjoyment of visitors to Hawaii.

Your Committee has amended this measure by:

- (1) Prioritizing the use of Hawaiian plants in state facility systems, infrastructure, and transit projects and for scenic, natural beauty, and historic resources;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 167, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 167, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 862 Ways and Means on S.B. No. 192

The purpose and intent of this measure is to authorize the Department of Human Services to administer and provide public assistance during Governor-declared states of emergency.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association and one individual.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has caused significant economic hardship to numerous residents of the State, many of whom do not qualify for public assistance. Your Committee acknowledges that the COVID-19 pandemic is still ongoing and that similar emergency-caused economic hardships may occur in the future. Accordingly, your Committee believes that it is appropriate for the Department of Human Services to provide public assistance during Governor-declared states of emergency to those residents who meet the eligibility criteria enumerated in this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 192, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 863 Ways and Means on S.B. No. 304

The purpose and intent of this measure is to require the Department of Transportation to facilitate the voluntary purchase of verified carbon offsets by air travelers.

Your Committee received written comments in support of this measure from Blue Planet Foundation.

Your Committee received written comments in opposition to this measure from 350Hawaii.

Your Committee received written comments on this measure from the Office of Planning and Climate Protectors Hawaii.

Your Committee finds that air travel is a major contributor to greenhouse gas emissions. Your Committee believes that establishing a system for air travelers to voluntarily purchase verified carbon offsets for air travel to and from the State will help to reduce the impact of air travel on the environment.

Your Committee has amended this measure by:

- (1) Clarifying that the term "qualified air travel" includes air travel between an airport in the State and any other airport in the State or in another state or United States territory; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 304, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 304, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 864 Ways and Means on S.B. No. 864

The purpose and intent of this measure is to require that a minimum of two of the three independent auditors selected by the State Public Charter School Commission, which is the authorizer for public charter schools in the State, have offices on the neighbor islands.

The State Public Charter School Commission submitted written comments on the measure.

Your Committee finds that this measure's requirement that a minimum number of the independent auditors have offices on an island other than Oahu will facilitate the timely completion of public charter school audits for the consolidated annual audit report.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 864 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 865 Ways and Means on S.B. No. 757

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Le Jardin Academy, Inc., a Hawaii nonprofit corporation, with reconstructing, renovating, acquiring, equipping, and improving educational and education-related facilities.

Your Committee received written comments in support of this measure from Le Jardin Academy, members of the Le Jardin Board of Trustees, Ceeds of Peace, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the special purpose revenue bonds authorized by this measure will help Le Jardin Academy increase its capacity and serve more Windward Oahu families by expanding its educational facilities.

Your Committee has amended this measure by:

- (1) Inserting language authorizing bond pooling to make it more efficient for the Department of Budget and Finance to issue the special purpose revenue bonds;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 757, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 866 Ways and Means on S.B. No. 775

The purpose and intent of this measure is to adjust the transient accommodations tax rate based on the number of tourists visiting the State within a calendar year.

Your Committee received written comments in opposition to this measure from the Department of Taxation, one member of the Maui County Council, Kohala Coast Resort Association, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; and Tax Foundation of Hawaii.

Your Committee recognizes that the tourism industry is a vital component of the State's economy. Your Committee anticipates that the number of tourists visiting the State is expected to increase as Hawaii recovers from the coronavirus disease 2019 (COVID-19) pandemic. Accordingly, your Committee believes that collecting additional transient accommodations tax revenues would help to meet the State's budgetary needs for public services, infrastructure, and other matters.

Your Committee has amended this measure by:

- (1) Specifying that the Hawaii Tourism Authority and Department of Business, Economic Development, and Tourism shall determine the number of visitor arrivals in the State for each calendar year, and that the Department shall publish that number in the State of Hawaii Data Book no later than June 30 of the following calendar year;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 775, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 867 Ways and Means on S.B. No. 788

The purpose and intent of this measure is to increase the efficiency and cost-effectiveness in public procurement.

Specifically, this measure:

- (1) Allows selection committees for the procurement of professional services to weigh the selection criteria listed in section 103D-304(e), Hawaii Revised Statutes, in the order of importance relevant to their agency and project;
- (2) Requires the State Procurement Office to develop a vendor performance information system;
- (3) Authorizes the head of a procurement agency to negotiate an adjustment of an otherwise successful bid for construction procurement to ensure that the bid amount is reasonable and realistic for the scope of the construction project;
- (4) Allows a bidder of a public works construction project to clarify and correct non-material or technical issues with subcontractor listings for up to twenty-four hours after the bid submission deadline; and
- (5) Requires bids for construction to be opened no earlier than twenty-four hours after the bid submission deadline.

Your Committee received written comments in support of this measure from the Subcontractors Association of Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu; Department of Design and Construction of the City and County of Honolulu; Painters Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund; Hawaii Iron Workers Stabilization Fund; and Ironworkers Local 625.

Your Committee received written comments on this measure from the Department of Accounting and General Services, State Procurement Office, Plumbing and Mechanical Contractors Association of Hawaii, Electrical Contractors Association, Plumbers and Fitters United Association Local 675, and General Contractors Association of Hawaii.

Your Committee finds that this measure implements certain recommendations of the procurement policy review conducted pursuant to House Resolution No. 142, Regular Session of 2016. Your Committee further finds that the recommendations made pursuant to the procurement policy review are meant to increase economy, efficiency, effectiveness, and impartiality in public procurement by aligning the state procurement process with the federal procurement process.

Your Committee has amended this measure by:

- Adding language prohibiting a bidder from adding or substituting listed joint subcontractors when clarifying or correcting nonmaterial or technical issues with subcontractor listings; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 788, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 868 Ways and Means on S.B. No. 804

The purpose and intent of this measure is to facilitate the provision of affordable housing for public school teachers.

Specifically, the measure:

- (1) Authorizes and appropriates moneys to the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation to provide affordable rental housing for public school teachers;
- (2) Authorizes the Hawaii Housing Finance and Development Corporation to contract or sponsor with any state or county agency for public school teachers' affordable housing; and
- (3) Requires the Department of Education to lease land and contract with private entities for the development, management, maintenance, or revitalization of teacher housing.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Public Housing Authority, Hawaii State Teachers Association, and Hawaii Association of REALTORS.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Government Employees Association.

Your Committee recognizes that Hawaii has a severe shortage of qualified teachers, due in significant part to the lack of affordable housing in the State, which has resulted in many teachers leaving to seek less expensive housing elsewhere. Accordingly, your

Committee believes that facilitating the development of affordable housing for teachers is an appropriate way to help recruit and retain teachers for public schools.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 804, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 869 Ways and Means on S.B. No. 850

The purpose and intent of this measure is to require the Department of Transportation and Department of Business, Economic Development, and Tourism to jointly convene a Broadband Access Equity Task Force to expand digital inclusion and adoption to achieve digital equity for residents of rural communities.

Your Committee received written comments in support of this measure from the Department of Education, Office of Hawaiian Affairs, Hawaii Primary Care Association, and two individuals.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; and Office of Information Practices.

Your Committee recognizes that the coronavirus 2019 disease (COVID-19) pandemic, which has prompted stay-at-home and social-distancing orders, has demonstrated the importance of universal broadband access. Your Committee finds that widespread broadband access is necessary for distance learning, telework, job training, telehealth, social services, and personal communication. Your Committee further finds that the expansion of broadband access to rural areas of the State may be advanced by creating a forum for the Department of Transportation and Department of Business, Economic Development, and Tourism to meet with various stakeholders to develop recommendations for expanding broadband access.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 850, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 870 Ways and Means on S.B. No. 867

The purpose and intent of this measure is to extend the temporary low-income housing tax credit program through December 31,

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Community Services of the City and County of Honolulu; EAH Housing; Stanford Carr Development, LLC; League of Women Voters of Hawaii; Hunt Companies, Inc. - Hawaii Division; and Hunt Capital Partners, LLC.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee recognizes that, due to the economic crisis that has resulted from the coronavirus disease 2019 (COVID-19) pandemic, more than eleven thousand Hawaii renters have failed to timely pay their rent in full, and forty percent of rental tenants have lost their jobs. Accordingly, your Committee finds that extending the low-income housing tax credit program will assist in the provision of affordable housing to those who need it.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 867, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 871 Ways and Means on S.B. No. 921

The purpose and intent of this measure is to amend the motion picture, digital media, and film production income tax credit.

More specifically, this measure:

(1) Lowers the cap amount of the tax credit per qualified production from \$15,000,000 to \$12,000,000; and

(2) Requires the Department of Business, Economic Development, and Tourism to make a public disclosure identifying the names of the taxpayers who receive the tax credit and the total amount of tax credits received.

Your Committee received written comments in opposition to this measure from the Honolulu Film Office; Musicians' Association of Hawaii, Local 677, American Federation of Musicians; and one individual.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Motion Picture Association; and Tax Foundation of Hawaii.

Your Committee finds that the motion picture, digital media, and film production income tax credit, codified as section 235-17, Hawaii Revised Statutes, is a competitive production credit program that has attracted significant annual investment in the State's economy. Your Committee also notes the serious economic challenges faced by the State, due to the ongoing coronavirus disease 2019 pandemic.

Your Committee has amended this measure by:

- Requiring the Department of Taxation, rather than the Department of Business, Economic Development, and Tourism, to make
 the public disclosure identifying the names of the taxpayers who receive the tax credit and the total amount of tax credits
 received;
- (2) Repealing a statutory requirement that the information provided by the Department of Business, Economic Development, and Tourism in its report to the Legislature regarding the tax credit be reported in a redacted form to preserve the confidentiality of taxpayers;
- (3) Establishing an exception to the general prohibition against the Department of Taxation disclosing tax returns or return information;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 921, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 872 Ways and Means on S.B. No. 938

The purpose and intent of this measure is to specify that moneys in the tourism emergency special fund shall be used exclusively for emergency measures that are directly related to safety and security initiatives necessary to respond to any tourism emergency.

The Hawaii Tourism Authority submitted written comments on the measure.

Your Committee finds that the clarification provided by this measure will help to improve the State's oversight and stewardship of public moneys.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 938, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 873 Ways and Means on S.B. No. 950

The purpose and intent of this measure is to require that the 3.5 percent cap on spending from the tourism special fund include all governance and employment expenses and organization-wide costs as administrative expenses.

The Hawaii Tourism Authority submitted written comments on the measure.

Your Committee finds that requiring the cap on spending from the tourism special fund to include all governance and employment expenses and organization-wide costs will help to conserve valuable public funds during this time of economic uncertainty.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 950, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 950, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 874 Ways and Means on S.B. No. 337

The purpose and intent of this measure is to enhance the productivity and sustainability of Hawaii's agricultural lands.

More specifically, this measure:

- Requires the Department of Agriculture to establish a three-year cover crop reimbursement pilot program for the acquisition of cover crop seeds, green manure, and compost;
- (2) Establishes a cover crop reimbursement pilot program manager position within the Department of Agriculture; and
- (3) Requires the Department of Agriculture to submit interim and final reports to the Legislature.

Your Committee received written comments in support of this measure from the Hawaii Department of Agriculture, University of Hawaii, Hawaii Alliance for Progressive Action, Kauai Climate Action Coalition, Ka Ohana O Na Pua, Kauai Food Hub, Our Revolution HawaiiAlo, Hawaii SEED, Climate Protectors Hawaii, Hawaii Farm Bureau, Aina Momona, Environmental Caucus of the Democratic Party of Hawaii, Supersistence, and numerous individuals.

Your Committee finds that the pilot program established by this measure will offer incentives for farming operations in the State to use management practices that enhance the quality and sustainability of agricultural lands.

Your Committee has amended this measure by:

- Adding compost as an item eligible for reimbursement under the pilot program and adding definitions of "compost", "compostable materials", and "composting process";
- (2) Deleting the specific amounts appropriated or monetary caps specified and leaving them unspecified;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 337, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 875 Ways and Means on S.B. No. 338

The purpose and intent of this measure is to enhance the State's food security.

More specifically, this measure:

- (1) Requires the Department of Agriculture to establish a five-year food hub pilot program to increase access to local food;
- (2) Provides for the award of grant funding to qualified applicants wishing to establish or expand a food hub;
- (3) Authorizes the issuance of general obligation bonds to finance critical infrastructure upgrades for the Honalo Marshalling Yard; and
- (4) Requires the Department of Agriculture to submit interim reports and a final report on the pilot program to the Legislature.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Health, Office of Planning, University of Hawaii, Office of Climate Change Sustainability and Resiliency of the City and County of Honolulu, 350Hawaii, Aina Momona, Blue Zones Project, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Food+Policy Internship, Hawaii Alliance for Progressive Action, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Hawaii Primary Care Association, Hawaii SEED, Hawaii Ulu Producers Cooperative, Ka Ohana O Na Pua, Kamehameha Schools, Kauai Climate Action Coalition, Kauai Food Hub, Malama Kauai, North Shore Economic Vitality Partnership, Our Revolution Hawaii, Supersistence, Ulupono Initiative, and numerous individuals.

Your Committee received written comments on the measure from the Maui Chamber of Commerce.

Your Committee finds that this measure will help to establish and grow the number of food hubs in the State, which will ultimately widen access to institutional and retail markets for small to mid-sized producers and increase consumers' access to fresh and healthy food.

Your Committee has amended this measure by:

- (1) Deleting the specific amounts appropriated and leaving them unspecified;
- $(2) \quad \text{Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and} \\$
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 338, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 338, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 876 Ways and Means on S.B. No. 350

The purpose and intent of this measure is to facilitate environmental management.

Specifically, the measure:

- (1) Requires the Department of Health to:
 - (A) Fill the vacant staff position of Environmental Management Division Chief by October 1, 2021;
 - (B) Require that the Clean Water Branch of the Environmental Management Division continue to take certain steps regarding testing water quality;
 - (C) Issue certain health advisories during brown water advisories;
 - (D) Take into consideration certain environmental justice issues in relation to Hawaii's beach monitoring program; and
 - (E) Establish an Environmental Management Division Oversight Advisory Board; and
- (2) Requires the Legislative Reference Bureau to conduct a comprehensive review of the Environmental Management Division.

Your Committee received written comments in support of this measure from the Kihei Community Association, Surfrider Foundation, Surfrider Foundation's Kona Kai Ea Chapter, Pono Hawaii Initiative, Hawaii Youth Climate Coalition, Malama Maunalua, Polanui Hiu, Hui o He'e Nalu, Wastewater Alternatives and Innovations, Waiwai Ola Waterkeepers Hawaiian Islands, Kaiola Canoe Club, Hui O Mana Ka Puuwai Outrigger Canoe Club, Friends of Hanauma Bay, Earthjustice, Center for Biological Diversity, WMPA, Windward Coalition for Community Concerns, The Makalii Group, Friends of Mahaulepu, Kiai Wai o Waialeale, HAMER, YPDA Hawaii Environmental Justice, Hawaii Wildlife Fund, Hawaii Strikes Back, Hookipa Network - Kauai, Maui OFR, and numerous individuals.

Your Committee received written comments on this measure from the Department of Health, Legislative Reference Bureau, and two individuals.

Your Committee finds that the Environmental Management Division of the Department of Health provides leadership, policy, oversight, and coordination for its branches relating to clean air, clean water, solid and hazardous water, wastewater, and safe drinking water. Your Committee recognizes that water quality issues are of great concern to both residents and visitors. Your Committee believes it is appropriate to improve oversight, increase water testing, and facilitate communications on the safety of entering coastal waters.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 350, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 877 Ways and Means on S.B. No. 375

The purpose and intent of this measure is to require the Department of Transportation to conduct a study to determine the feasibility of repairing or renovating the Kalaeloa Airport air traffic control tower.

Your Committee received written comments in support of this measure from the Department of Transportation, Makakilo Kapolei Neighborhood Board Transportation Committee, and Palehua Townhouse Association.

Your Committee finds that the study required by this measure will provide stakeholders and the public with valuable information about the current status of the Kalaeloa Airport air traffic control tower.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 375, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 375, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 878 Ways and Means on S.B. No. 496

The purpose and intent of this measure is to reduce the State's reliance on imported produce.

More specifically, this measure:

- (1) Establishes within the Department of Agriculture a task force to identify the top ten imported fruits and vegetables that may be commercially grown in the State; and
- (2) Creates an agricultural import replacement tax credit to incentivize local production of these fruits and vegetables.

Your Committee received written comments in support of this measure from the Hawaii Food Industry Association, Ulupono Initiative, Hawaii Farm Bureau, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, and four individuals.

The Department of Agriculture, Department of Taxation, and Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that the agricultural import replacement tax credit established by this measure will help to incentivize local food production and increase the State's food self-sufficiency.

Your Committee has amended this measure by:

- (1) Inviting, rather than mandating, representatives from private organizations to serve on the task force;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 496, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 496, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 879 Ways and Means on S.B. No. 702

The purpose and intent of this measure is to require the Committee on Weights to submit a report to the Legislature detailing any changes to the weighted student funding formula within thirty days of the Committee's final report indicating the approval of its recommended change to the formula.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that the report required by this measure will notify the Legislature of Board-approved changes to the weighted student funding formula and help inform any related legislative actions.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 702, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 702, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 880 Ways and Means on S.B. No. 717

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to create a digital database of its applicant, beneficiary, and lessee records.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands waiting list for leases awarded pursuant to the Hawaiian Homes Commission Act has more than twenty thousand applicants. Your Committee believes that digitizing the Department's applicant, beneficiary, and lessee records will increase departmental efficiency, reduce abuse of lease awards by lessees, and facilitate the efficiency and transparency of the lease award process.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 717, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 881 Ways and Means on S.B. No. 732

The purpose and intent of this measure is to require the Legislative Reference Bureau to study the efficacy of the Hawaii CARES program offered by the Department of Health's Behavioral Health Administration Adult Mental Health Division and submit a report to the 2022 Legislature.

Your Committee received written comments in support of this measure from one individual.

Written comments in opposition were received from the Department of Health.

The Attorney General, Legislative Reference Bureau, and The Queen's Health Systems submitted written comments on the measure.

Your Committee finds that the study required by this measure will provide the Legislature with information on the efficacy of the behavioral health services, including crisis services, offered by the Hawaii CARES program.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 732, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 882 Ways and Means on S.B. No. 1153

The purpose and intent of this measure is to make an emergency appropriation to provide funds for the Department of Health to address collective bargaining and other current expenses related to the statewide comprehensive emergency medical system.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that the funds appropriated by this measure will address the Department of Health's current fiscal year operational budget shortfall of approximately \$6,400,000 and help to prevent reductions in emergency medical services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 883 Ways and Means on S.B. No. 1157

The purpose and intent of this measure is to make emergency appropriations to the Department of Health to address the coronavirus disease 2019 (COVID-19) pandemic.

More specifically, this measure appropriates unspecified sums for fiscal year 2020-2021 for:

- (1) Statewide medical surge staffing; and
- (2) The implementation and administration of vaccine and immunization plans and logistics.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association.

Your Committee finds that the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, provided federal funds to support state-level COVID-19 relief efforts. With the expiration of these federal moneys, your Committee finds that this measure provides additional funds needed to continue funding critical COVID-19 response programs for the remainder of fiscal year 2020-2021.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 884 Ways and Means on S.B. No. 1234

The purpose and intent of this measure is to address the demand for essential supplies to confront the coronavirus disease 2019 (COVID-19) pandemic.

Specifically, this measure amends Act 9, Session Laws of Hawaii 2020, to authorize the use of federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) moneys to purchase and distribute personal protective equipment, industrial hygiene products, and COVID-19 tests to state departments and attached agencies.

Your Committee received written comments in support of this measure from the Department of Defense, State Procurement Office, Hawaii Health Systems Corporation, and Hawaii Primary Care Association.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that as the COVID-19 pandemic continues, there remains a high demand for personal protective equipment, industrial hygiene supplies, and COVID-19 tests. Accordingly, your Committee finds that this measure allows the State to maximize its use of federal CARES Act moneys by authorizing the purchase of these critical supplies.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 885 Ways and Means on S.B. No. 1142

The purpose and intent of this measure is to establish Kupuna Caregiver-Directed services as a method for delivery of the Kupuna Caregivers program.

More specifically, this measure:

- (1) Clarifies the definitions of "coach," "person-centered support plant," and "support plan," as those terms relate to Kupuna Care and caregiver support services;
- (2) Allows an otherwise eligible caregiver working reduced hours during a declared state of emergency to be considered a qualified caregiver for purposes of Kupuna Care and caregiver support services;
- (3) Defines "financial management service provider," as the term relates to Kupuna Care and caregiver support services;
- (4) Establishes the following Kupuna Caregivers program delivery options, including the requirements for each: traditional service delivery and Kupuna Caregiver-Directed services; and
- (5) Allows for the issuance of Kupuna Caregivers program moneys directly to financial management service providers upon request and receipt of an invoice for services rendered.

Your Committee received written comments in support of this measure from the Department of Human Services, Executive Office on Aging, AARP Hawaii, Aloha Chapter of the Alzheimer's Association, Hale Hauoli Hawaii, Hawaii Family Caregiver Coalition, Policy Advisory Board for Elder Affairs, and numerous individuals.

Your Committee received written comments on this measure from Hawaii Alliance for Retired Americans.

Your Committee finds that allowing for the Kupuna Caregivers program to be delivered through Kupuna Caregiver-Directed services will allow program participants to direct their own services and address their own needs instead of receiving services only through specific contracted service providers. Your Committee also finds that allowing for the issuance of Kupuna Caregivers program moneys directly to financial management service providers will help to prevent the financial exploitation of the State's vulnerable kupuna population.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1142, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 886 Ways and Means on S.B. No. 1162

The purpose and intent of this measure is to clarify conditions that must be met by applicants in order to receive funds under the forest stewardship program administered by the Board of Land and Natural Resources.

More specifically, this measure modifies program qualification requirements to:

- (1) Increase program eligibility for private forest managers;
- (2) Increase the funds available for management of private forests; and
- (3) Provide protections for native vegetation.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure authorizes increased support for writing forest management plans that will increase program participation among smaller or underserved landowners and ultimately help to improve forest management in the State.

Your Committee has amended this measure by:

- (1) Adding language that provides additional flexibility to the Department of Land and Natural Resources to enter into program implementation agreements for all or selected portions of approved forest management plans; and
- (2) Making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1162, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 887 Ways and Means on S.B. No. 1194

The purpose and intent of this measure is to make emergency appropriations to the Department of Public Safety to continue funding for certain programs and activities related to coronavirus disease 2019 (COVID-19) response efforts.

Your Committee received written comments in support of this measure from the Department of Public Safety.

Your Committee finds that the emergency appropriations provided by this measure will allow the Department of Public Safety to continue to take necessary precautions against COVID-19 outbreaks in the State's correctional facilities and to maintain the Safe Travels Hawaii program.

Your Committee has amended this measure by:

- (1) Moving the lapse provision into a separate section of the measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1194, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 888 Ways and Means on S.B. No. 1196

The purpose and intent of this measure is to facilitate employer compliance with income tax withholding requirements.

Specifically, the measure:

- (1) Changes from the last day of February to January 31 following the close of a calendar year the deadline for an employer to file a duplicate of an employee's wage and tax statement with the Department of Taxation; and
- (2) Subjects an employer to monetary penalties if the employer fails to timely furnish the wage and tax statement to an employee; fails to timely file the statement; or fails to file the statement electronically, if so required by law.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that existing state tax law imposes no penalty upon an employer for failing to furnish an employee with the employee's wage and tax statement or failing to file a duplicate of that statement with the Department of Taxation. Your Committee believes that appropriate penalties would encourage compliance with applicable income tax law. Your Committee additionally finds that aligning the state filing deadline with the deadline established by the Internal Revenue Service will facilitate filing of duplicate statements by employers.

Your Committee has amended this measure by:

- (1) Specifying that an employer shall be subject to a monetary penalty if the employer wilfully fails to furnish a wage and tax statement to an employee by the due date; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1196, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 889 Ways and Means on S.B. No. 1242

The purpose and intent of this measure is to improve trauma-informed care in the State.

Specifically, this measure establishes a trauma-informed care task force to:

- (1) Create, develop, and adopt a statewide framework for trauma-informed and responsive practices;
- (2) Establish best practices for trauma-informed care;
- (3) Provide a trauma-informed care inventory and assessment of public and private agencies and departments;
- (4) Identify cultural practices that build wellness and resilience in communities; and

(5) Submit a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Hawaiian Affairs, Hawaii State Department of Health, Executive Office on Early Learning, Hawaii Youth Services Network, Kinai Eha, HawaiiKidsCAN, Hale Kipa, Hawaii Primary Care Association, Kamehameha Schools, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, Hawaii Pacific Health, Hawaii Community Foundation, Papa Ola Lokahi, and five individuals.

Your Committee finds that the deadline for the trauma-informed care task force to submit its report to the Legislature prior to the 2023 Regular Session will not provide enough time to gather the stakeholders, develop a consensus, and draft a substantive report. Extending the report submission deadline by one year will help to provide the time necessary to develop a sustainable interagency plan to implement trauma-informed practices throughout the State.

Your Committee has amended this measure by:

- (1) Providing the task force with an additional year to submit its report;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1242, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 890 Ways and Means on S.B. No. 1250

The purpose and intent of this measure is to establish the Hawaii emergency food assistance program and Hawaii emergency food assistance program special fund.

More specifically, this measure:

- (1) Establishes the Hawaii emergency food assistance program to be administered by the Department of Agriculture and to relieve food shortages during declared states of emergency;
- (2) Establishes the Hawaii emergency food assistance program special fund;
- (3) Requires the Department of Agriculture to administer and authorize expenditures from the Hawaii emergency food assistance program special fund; and
- (4) Appropriates moneys into and out of the Hawaii emergency food assistance program special fund.

Your Committee received written comments in support of this measure from the City and County of Honolulu's Office of Climate Change, Sustainability, and Resiliency; AlohaCare; Chef Point of View Consulting; Feeding Hawaii Together; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Community Foundation; Hawaii Farm Bureau; Hawaii Food Industry Association; Hawaii Foodbank; Hawaii Primary Care Association; Hawaii Public Health Institute; IBEW 1260; Ka Ohana O Na Pua; The Pantry by Feeding Hawaii Together; Ulupono Initiative; and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that this measure will increase the State's preparation for, and resilience to, declared states of emergency and help to stabilize the State's entire food supply chain during these emergencies.

Your Committee has amended this measure by:

- Clarifying that the Department of Agriculture shall make moneys available to residents of the State through the Hawaii emergency food assistance program by using the Hawaii emergency food assistance program special fund;
- Clarifying that certain requirements related to the Hawaii emergency food assistance program are only imposed on food banks that receive moneys from the program;
- (3) Deleting this measure's definition of "general fund";
- (4) Making conforming amendments to sections 36-27 and 36-30, Hawaii Revised Statutes, to reflect the exemption of the Hawaii emergency food assistance program special fund from paying for the costs associated with administering the special fund that would otherwise be imposed pursuant to sections 36-27(a) and 36-30(a), Hawaii Revised Statutes;
- (5) Changing the appropriations to unspecified amounts;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1250, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 891 Ways and Means on S.B. No. 1251

The purpose and intent of this measure is to establish the farm to school meals goals for the State's public school system.

More specifically, this measure:

- (1) Establishes the farm to school program within the Department of Education to require the Department of Education to work with the Department of Agriculture to ensure that:
 - (A) By 2025, fifteen percent of the food served in public schools is locally sourced with fresh local agricultural products, in accordance with the Department of Agriculture's farm to school program; and
 - (B) By 2030, thirty percent of the food served in public schools is locally sourced with fresh local agricultural products, in accordance with the Department of Agriculture's farm to school program;
- (2) Expanding the farm to school program established within the Department of Agriculture to require the Department of Agriculture to work with the Department of Education to ensure that:
 - (A) By 2025, locally sourced products comprise fifteen percent of all food served in public schools; and
 - (B) By 2030, locally sourced products comprise thirty percent of all food served in public schools; and
- (3) Requiring the Department of Education to submit to the Legislature an annual report containing information relevant to the Department of Education's farm to school program.

Your Committee received written comments in support of this measure from the Department of Education, 350Hawaii, Aina Momona, Americans for Democratic Action, Blue Zones Project, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Food+ Policy Internship, Hawaii SEED, Hawaii Alliance for Progressive Action, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Hawaii Public Health Institute's Hawaii Farm to School Hui and Obesity Prevention Task Force, Hawaii Food Industry Association, Hawaii Primary Care Association, Ka Ohana O Na Pua, Kauai Climate Action Coalition, Local Food Coalition, Malama Kauai, Our Revolution Hawaii, PlanIt Environmental Vision and Branding, Ulupono Initiative, and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that increasing the amount of locally sourced fresh agricultural products consumed in the State's public schools will ensure that the State's public school students have access to fresh and nutritious foods while also supporting the State's agriculture industry.

Your Committee has amended this measure by:

- (1) Clarifying the metrics for measuring the Department of Education and Department of Agriculture's farm to school meal goals;
- (2) Codifying in statute, rather than session law, the Department of Education's annual reporting requirements regarding the Department of Education's farm-to-school program; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1251, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1251, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 892 Ways and Means on S.B. No. 1271

The purpose and intent of this measure is to encourage individuals to pursue careers in early childhood education.

Specifically, this measure establishes:

- (1) A program to provide stipends to students enrolled in a University of Hawaii early education program;
- (2) Requirements for stipend recipients to work in the field of early education after completion of coursework; and
- (3) Repayment terms for individuals who do not fulfill the work requirements.

Your Committee received written comments in support of this measure from the Hawaii State Public Charter School Commission, Executive Office on Early Learning, Early Childhood Action Strategy, Kaulanakilohana, Hawaii Children's Action Network Speaks!, Early Learning Board, and two individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that providing an incentive for individuals to pursue careers in early childhood education will help to address a workforce shortfall, which has become a barrier to creating an effective statewide early childhood education system.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1271, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 893 Ways and Means on S.B. No. 1344

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the Office of Planning, to update the State Agricultural Functional Plan.

More specifically, this measure requires the Department of Agriculture and Office of Planning to prepare a plan that:

- (1) Includes updates on seafood sustainability;
- (2) Includes other agricultural economic updates; and
- (3) Expands the State's priorities on food sustainability by including wild seafood as a viable food source.

Your Committee received written comments in support of this measure from the Office of Planning; University of Hawaii West-Oahu Food+ Policy Internship; Waialua Boat Club; Lokahi Fishing, LLC; United Fishing Agency; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Aina Momona; Fishing Tales with Mike Sakamoto; Hawaii Fishermen's Alliance for Conservation and Tradition; and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that the updated State Agricultural Functional Plan required by this measure will strengthen Hawaii's food security and provide a strategy for the State's sustainable agricultural development.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1344, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 894 Ways and Means on S.B. No. 1391

The purpose and intent of this measure is to require the Procurement Policy Board to adopt, by December 31, 2021, specific rules that require the consideration of life-cycle costs in all state procurements.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office.

The State Procurement Office and Department of Accounting and General Services submitted written comments on the measure.

Your Committee finds that this measure promotes full and effective accounting and consideration of life-cycle costs in the procurement of goods, services, and construction, and is thus critical to the prudent management of the State's financial resources.

Your Committee has amended this measure by:

- (1) Conforming the measure's definition of "life-cycle costs" to the definition found in section 196-11, Hawaii Revised Statutes;
- (2) Authorizing, rather than requiring, the Procurement Policy Board to adopt, by December 31, 2021, specific rules relating to life-cycle cost analysis; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1391, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1391, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 895 Ways and Means on S.B. No. 1104

The purpose and intent of this measure is to increase the monetary amount that an injured homeowner may recover from the Contractors Recovery Fund and the maximum liability of the fund for any licensed contractor.

Your Committee received written comments in support of this measure from the Contractors License Board.

Your Committee received written comments in opposition to this measure from the Building Industry Association Hawaii and Subcontractors Association of Hawaii.

Your Committee finds that an increase in construction costs throughout the State has resulted in homeowners being unable to recoup certain financial losses. Your Committee believes that increasing the monetary amount that an injured homeowner may recover from the Contractors Recovery Fund will help to ensure that injured homeowners are better able to recoup these financial losses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

SCRep. 896 Ways and Means on S.B. No. 1027

The purpose and intent of this measure is to redesignate the industrial hemp special fund as the hemp special fund and authorize use of the moneys in the fund for the Department of Agriculture's duties regarding hemp as established by Act 14, Session Laws of Hawaii 2020.

Your Committee received written comments in support of this measure from the Department of Agriculture.

Your Committee recognizes that hemp cultivation can be a significant asset and contribute to the State's economy. Your Committee notes that Act 14, Session Laws of Hawaii 2020, assigned the Department of Agriculture certain duties relating to the cultivation of hemp within the State. However, your Committee also notes that the Act did not establish a special fund to assist the Department in its efforts to fulfill these duties. Accordingly, your Committee believes that redesignating the industrial hemp special fund as the hemp special fund and amending its provisions will facilitate the Department of Agriculture's performance of its new regulatory duties relating to hemp.

Your Committee has amended this measure by:

- (1) Appropriating moneys out of the hemp special fund for two fiscal years instead of one fiscal year;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1027, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 897 Ways and Means on S.B. No. 1033

The purpose and intent of this measure is to make an emergency appropriation to the Stadium Authority.

More specifically, this measure appropriates moneys for fiscal year 2020-2021 to cover payroll and other current expenses to allow Aloha Stadium to continue to operate and be maintained in a safe condition for the public.

Your Committee received written comments in support of this measure from the Stadium Authority.

Your Committee finds that all public gathering places, including Aloha Stadium and the Aloha Stadium Swap Meet and Marketplace, were closed to the public beginning in March 2020 to slow the spread of the coronavirus disease 2019. Due to this shutdown, Aloha Stadium was no longer able to generate revenue. Consequently, your Committee finds that the Stadium Authority projects that it will exhaust its cash reserves before the end of the current fiscal year.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1033, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 898 (Majority) Ways and Means on S.B. No. 1097

The purpose and intent of this measure is to regulate nondepository trust companies.

Your Committee received written comments in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure will allow qualified nondepository trust companies to serve as fiduciaries in the administration and management of assets for the growing number of Hawaii consumers who may need assistance with asset management but do not qualify for services by banks or large investment firms.

Your Committee has amended this measure by:

- (1) Correcting a typographical error in a reference to the upper income limit for assessment of yearly fees on nondepository trusts having total assets under management of at least \$1,000,000,000,000 but less than \$2,000,000,000,000;
- (2) Making an appropriation to the Department of Commerce and Consumer Affairs from the compliance resolution fund to administer nondepository trusts, at the Department's request;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1097, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1097, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 899 Ways and Means on S.B. No. 1101

The purpose and intent of this measure is to lessen the severity of property loss in the State from strong winds.

More specifically, this measure:

- (1) Requires the Insurance Commissioner to establish a safe home program to encourage the installation of wind resistive devices;
- (2) Creates a safe home program trust fund and authorizes the award of grant moneys from the fund to owners of single-family, owner-occupied, residential properties in certain circumstances;
- (3) Creates one temporary position within the Insurance Division of the Department of Commerce and Consumer Affairs to implement and administer the program; and
- (4) Requires an annual report of statistical information on the use of the program.

Your Committee received written comments in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs; Hawaii Green Infrastructure Authority; Hawaii State Energy Office; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Hawaii Insurers Council; University of Hawaii Sea Grant College Program; and one individual.

The State Procurement Office and one individual submitted written comments on the measure.

Your Committee finds that the safe home program will benefit Hawaii residents by encouraging the installation of wind resistive devices designed to reduce the incidence and severity of personal injury and property damage in the event of a hurricane. Your Committee also finds that the program will stimulate economic growth and activity in the State by creating opportunities for the sale and installation of wind resistive devices.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1101, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 900 Ways and Means on S.B. No. 1107

The purpose and intent of this measure is to improve the mitigation of hazardous situations.

Specifically, this measure:

- (1) Establishes the hazard mitigation special fund to accept revenues from the recovery and reimbursement of mitigating hazards and funds appropriated by the Legislature; and
- (2) Specifies that moneys in the hazard mitigation special fund shall be used for personnel costs and operating and administrative costs deemed necessary by the agency to mitigate hazardous situations.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, AARP Hawaii, and two individuals.

Your Committee finds that having an established funding mechanism will help to reduce the time between the identification of a hazardous condition and the implementation of mitigation efforts.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1107, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1107, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 901 Ways and Means on S.B. No. 1116

The purpose and intent of this measure is to make emergency appropriations to address the coronavirus disease 2019 (COVID-19) pandemic.

More specifically, this measure appropriates funds for fiscal year 2020-2021 to the Department of Defense for the:

- (1) Safe Travels Hawaii airport screening program;
- (2) Operation of a call center for the Safe Travels Hawaii airport screening program; and
- (3) Procurement, storage, and distribution of personal protective equipment to schools and other state agencies.

Your Committee received written comments in support of this measure from the Department of Defense and Hawaii Primary Care Association.

Your Committee finds that the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, provided federal funds to support state-level COVID-19 relief efforts. With the expiration of these federal moneys, your Committee finds that this measure provides additional funds needed to continue funding critical COVID-19 response programs for the remainder of fiscal year 2020-2021.

Your Committee has amended this measure by:

- Deleting a provision authorizing the Governor to transfer funds appropriated by the measure among all executive agencies and
 to transfer funds in excess of what is needed for the Department of Defense to the Governor's contingency fund;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1116, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 902 Ways and Means on S.B. No. 1117

The purpose and intent of this measure is to make an emergency appropriation to the Office of the Governor to address the coronavirus disease 2019 (COVID-19) pandemic.

More specifically, this measure:

- (1) Appropriates an unspecified sum for fiscal year 2020-2021 to supplement the continuation of COVID-19 response programs and activities; and
- (2) Authorizes the Governor to transfer those funds to other executive agencies or the Governor's contingency fund.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Primary Care Association.

Your Committee finds that the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, provided federal funds to support state-level COVID-19 relief efforts. With the expiration of these federal moneys, your Committee finds that this measure provides additional funds needed to continue funding critical COVID-19 response programs for the remainder of fiscal year 2020-2021.

Your Committee has amended this measure by:

- (1) Providing that moneys appropriated to the Office of the Governor pursuant to the measure shall not be expended unless the Governor first:
 - (A) Establishes a task force to develop recommendations on the roles and responsibilities of the Department of the Attorney General and county police departments in the enforcement of emergency rules or orders issued by the Governor and the counties to address the COVID-19 pandemic, and requires the task force to submit a report of its findings and recommendations to the Legislature by an unspecified date; and
 - (B) Issues, by emergency order, a statewide multi-tier system to address the COVID-19 pandemic; provided that the system shall be deployed at the county level and shall include clear metrics for each tier that address types of businesses that are authorized to be open, types of activities that are allowable, any in-person gathering restrictions, and any other pandemic-related policies and rules;
- (2) Appropriating an unspecified sum for fiscal year 2021-2022 to the Department of the Attorney General for enforcement of COVID-19-related emergency orders and rules; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1117, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 903 Ways and Means on S.B. No. 1137

The purpose and intent of this measure is to increase from \$3,000,000 to \$5,000,000 the maximum amount of unencumbered and unexpended moneys that may be retained in the spouse and child abuse special fund.

Your Committee received written comments in support of this measure from the Department of Human Services.

Your Committee recognizes the need to finance efforts for intervention in, and the prevention of, spouse and child abuse cases. Your Committee notes that the Department of Human Services anticipates that it will be able to begin drawing down certain federal reimbursement moneys for prevention services under the Family First Hawaii program. Accordingly, your Committee believes it is appropriate to ensure that the moneys that will be received will not lapse to the general fund, but will remain in the spouse and child special fund until the moneys may be used for their intended purpose.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1137, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 904 Ways and Means on S.B. No. 1138

The purpose and intent of this measure is to increase the annual expenditure ceiling of the Office of Healthcare Assurance special fund.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that this measure will help decrease reliance on general funds during a period of budget uncertainty.

Your Committee has amended this measure by:

- (1) Providing that the annual expenditure ceiling of the Office of Healthcare Assurance special fund shall be established through the state budget process and authorizing emergency spending beyond the established budget ceiling, as suggested in written comments from the Department of Health; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1138, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 905 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 755

The purpose and intent of this measure is to require lessors of rental motor vehicles to include, in the rental agreement, an option for the lessee of the vehicle to contribute money to the Department of Land and Natural Resources to be utilized for the preservation of the environment.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committees received testimony in opposition to this measure from Avis Budget Group and Enterprise Holdings.

Your Committees find that the protection of natural resources is critical to the future of the State's tourism industry, and many visitors choose to vacation in the State to experience its unique natural resources. However, due to the effects of climate change, Hawaii's natural resources are at risk. Recognizing their own impacts on the environment, certain individuals may be more willing to pay fees to contribute to conservation initiatives if they know their contributions will be used directly to manage natural resources. Your Committees note that other states have successfully utilized voluntary contributions to raise monies for the protection of their natural resources, and that a similar program in Hawaii would raise funds for the State's environmental management efforts.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 755, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 906 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 23

The purpose and intent of this measure is to repeal vehicle license recovery fees.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committees received testimony in opposition to this measure from Avis Budget Group and Enterprise Holdings.

Your Committees find that, prior to Act 137, Session Laws of Hawaii 2017 (Act 137), the car rental industry was not allowed to pass on one-time fees, such as use taxes on vehicle importation and license plate fees. Instead, they were only allowed to visibly pass on recurring costs, such as general excise taxes, license and registration fees, surcharge taxes, and rents and fees payable to the Department of Transportation. Act 137, however, added first-time fees to the litany of other fees that car rental companies were authorized to visibly pass on to customers and changed the method of calculating the pass-on costs, resulting in some customers being charged more than their fair share of the taxes and fees. This measure repeals the authority of car rental companies to pass on vehicle license recovery fees to customers and adjusts the calculation methods of fees passed on to customers to be more fairly and directly attributable to their use of the vehicle on a particular day.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 23, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees. Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none. Ways and Means: Ayes, 10. Noes, 1 (Inouye). Excused, none.

SCRep. 907 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 931

The purpose and intent of this measure is to:

- (1) Prohibit, after December 31, 2035, any new extension, improvements, overhauling, or refurbishing of any fossil fuel electricity generation or fossil-fuel powered electricity use for grid-tied battery energy storage, except for routine maintenance or minor repairs up to \$2,500,000 per existing facility in order to maintain reliability; and
- (2) Prohibit, after December 31, 2045, the use of fossil fuels for electricity generation or grid-tied battery energy storage.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of Design and Construction, League of Women Voters of Hawaii, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, 350 Hawaii, Hawaii Clean Power Alliance, Environmental Justice Task Force of Faith Action for Community Equity, and four individuals. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company; Kaua'i Island Utility Cooperative; and Royal Contracting Co., Ltd. Your Committees received comments on this measure from the Hawaii State Energy Office, Department of Commerce and Consumer Affairs, Public Utilities Commission, and General Contractors Association of Hawaii.

Your Committees find that climate change is a serious threat facing our State and promoting renewable energy resources is necessary to reduce the State's dependence on fossil fuels and accomplish its goal of a one hundred percent renewable portfolio standard by the year 2045. This measure phases out the use of fossil fuels for energy generation and storage to assist the State in reaching this goal.

Your Committees note that Hawaiian Electric Company has exceeded its goal of thirty percent renewable energy as of this year, and its most recent power supply improvement plan update forecasts the one hundred percent renewable portfolio standard will be reached in 2040. Your Committees further note that the Public Utilities Commission is currently overseeing the creation and implementation of an Integrated Grid Planning Report, which proposes to merge three historically separate planning processes (generation, transmission, and distribution), while integrating competitive procurement into a comprehensive grid planning approach to attain a more holistic understanding of each island's grid.

Your Committees have heard the concerns raised in testimony that this measure, as currently drafted, may have certain unintended consequences relating to reliability and resiliency issues, and fails to extend similar exemptions under existing law for electric utility companies that are unable to meet certain standards due to emergencies or events and circumstances outside of their reasonable control. Therefore, amendments to this measure are necessary to address these concerns.

Your Committees have amended this measure by:

- Clarifying that, beginning after December 31, 2045, the Public Utilities Commission shall not approve or extend any
 electricity generation facility that applies or proposes to use fossil fuels to generate electricity or to store electricity into a
 public utility grid-tied energy storage system resource;
- (2) Deleting language that, beginning after December 31, 2035, would have prohibited the Public Utilities Commission from approving or extending any material improvements to any existing electricity generation facilities that extend the life of fossil fuel-powered electricity generation or storage facilities, except for routine maintenance or minor repairs up to \$2,500,000 to maintain reliability;
- (3) Inserting language authorizing the Public Utilities Commission to waive, in whole or in part, any applicable penalties if the Commission determines that an electricity generation or storage facility is unable to meet the requirements contemplated under this measure due to certain events or circumstances beyond foreseeable control of the facility;
- (4) Deleting "battery" from the terms "renewable energy-powered energy storage" and "fossil fuel-powered energy storage" to ensure that other forms of storage technology are also subject to the requirements imposed by this measure;
- (5) Inserting an effective date of July 1, 2055, to encourage further discussion; and

(6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 931, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 931, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 908 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1216

The purpose and intent of this measure is to:

- Add a requirement for certain commercial driver's license applicants to complete an entry-level driver training course before taking a skills test for licensure; and
- Exempt applicants holding a valid commercial learner's permit or commercial driver's license obtained prior to February 7, 2022.

Your Committees received testimony in support of this measure from the Department of Transportation.

Your Committees find that the Federal Motor Carrier Safety Administration can withhold funds from states that fail to implement the newly mandated federal requirements for additional entry-level training for certain commercial driver's license applicants. Your Committees further note that approximately two-thirds of all states have already implemented this requirement. Considering the exceptional penalties that would be assessed against the State for failure to comply, this measure is important to keep the State in compliance and to continue to receive the full apportioned amounts from the federal Highway Trust Fund.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1216, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1216, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 909 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 628

The purpose and intent of this measure is to:

- (1) Commence the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health, beginning with the transfer of the Oahu Regional Health Care System's budget into the Department of Health;
- (2) Enable the Oahu Regional Health Care System, Department of Health, Hawaii Health Systems Corporation, and other state agencies to manage and implement the processes required to effectuate the completion of the transition;
- (3) Provide certain protections and exemptions for the Oahu Regional Health Care System and the Inpatient Services Division of the Department of Health; and
- (4) Prohibit the substantial reduction or elimination of direct patient care at any Oahu Regional Health Care System facility unless certain conditions are met.

Your Committees received testimony in support of this measure from the Department of Health, Oahu Region Hawaii Health Systems Corporation, University of Hawaii'i System, and The Queen's Health Systems. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Department of the Attorney General and the Hawaii Government Employees Association.

Your Committees find that the Oahu Region of the Hawaii Health System Corporation (Oahu Region) almost exclusively provides services for those who are unable to obtain much needed care in private facilities and rely on Medicaid to fund their care. The Oahu Region also provides care for incarcerated inmates released for compassionate care, psychiatric patients from the Hawaii State Hospital who have significant long-term care needs, and operates more as a necessary social service rather than a health care business. Oahu alone is projected to need an additional one thousand one hundred long-term care beds in the next five to ten years, and because revenues cannot be easily generated to provide these vital services, the Oahu Region should be transitioned from the Hawaii Health System Corporation into the Department of Health. This measure will help alleviate pressure on hospital emergency departments and acute care hospital facilities and expand access to beds and services for patients suffering from mental health and substance abuse disorders.

Your Committees have amended this measure by:

- (1) Clarifying that an employee, except in the instance of discipline, shall be entitled to remain employed in the employee's current position for a period of no less than one year after the transition of the Oahu Region Health Care System into the Department of Health is complete; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 628, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 628, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 910 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1144

The purpose and intent of this measure is to amend the marriage license statute to support the Hawaii Birth Defects Program, modernization of the vital statistics system, and operating costs of marriage license agents.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that portions of marriage license fees are deposited into the general fund and various special funds, including the Birth Defects Special Fund, which supports the Birth Defects Program (Program). The purpose of the Program is to collect surveillance information on birth defects and other adverse reproductive outcomes, report trends and information for the development of prevention strategies to reduce incidents of birth defects, and improve access to health and early intervention services for children with birth defects. Because the Program's salary and fringe expenses have doubled since the last increase in 2002, increasing the marriage license fee will allow the Program to maintain its mandated responsibilities and ensure sufficient funding for operating expenses. Additionally, the current vital statistics computer system that includes the marriage license issuance and registration system is over twenty years old and needs to be modernized. Your Committees also find that marriage license agents have not had a fee increase since 1998. An increase to the marriage license fee is therefore necessary to provide funding to support these programs and services.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1144, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1144, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Kidani, Wakai).

SCRep. 911 (Joint) Ways and Means and Judiciary on S.B. No. 791

The purpose and intent of this measure is to clarify various processes and responsibilities relating to unauthorized and abandoned vessels.

More specifically, this measure:

- (1) Clarifies the processes for the removal of unauthorized vessels;
- (2) Clarifies the criteria for determining whether a vessel has been abandoned;
- (3) Reduces the time frame for claiming an unauthorized or abandoned vessel that has been impounded by the Department of Land and Natural Resources;
- (4) Establishes penalties for the abandonment of a vessel in the waters of the State or on public property;
- (5) Clarifies auction requirements regarding abandoned vehicles; and
- (6) Authorizes the Department of Land and Natural Resources to charge impound storage fees for abandoned vessels.

Your Committees received written comments in support of this measure from the Department of Land and Natural Resources, the Department of Customer Services of the City and County of Honolulu, one member of the Honolulu City Council, and the Hawaii Reef and Ocean Coalition.

Your Committees find that this measure will allow the Department of Land and Natural Resources to more quickly and efficiently respond to unauthorized, abandoned, grounded, and derelict vessels.

Your Committees have amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 791, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 791, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 912 Ways and Means on S.B. No. 920

The purpose and intent of this measure is to establish a state clean ground transportation goal for all state fleet light-duty vehicles to be one hundred per cent zero-emission vehicles by December 31, 2030.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, 350Hawaii, Blue Planet Foundation, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Automobile Dealers Association, Hawaii Electric Vehicle Association, Hawaiian Electric Company, Kauai Climate Action Coalition, Our Revolution Hawaii, Ulupono Initiative, Western States Hydrogen Alliance, and numerous individuals.

Your Committee received written comments on this measure from the State Procurement Office and SanHi Government Strategies.

Your Committee finds that the goals established by this measure are attainable and will help to reduce the State's carbon emissions.

Your Committee has amended this measure by:

- Codifying the State's clean ground transportation goal in Chapter 105, Hawaii Revised Statutes, instead of Chapter 264, Hawaii Revised Statutes;
- (2) Deleting language requiring that the procurement policy for each agency purchasing or leasing light-duty motor vehicles to, among other things, meet the State's clean ground transportation goal established by this measure;
- (3) Deleting the provision requiring that vehicles acquired from another state agency and excluded vehicles be included in the calculation of the State's clean ground transportation goals;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 920, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 913 (Joint) Ways and Means and Judiciary on S.B. No. 974

The purpose and intent of this measure is to create a licensing process for, and consumer protection measures governing, small dollar installment loans.

Your Committees received written comments in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committees received written comments in opposition to this measure from Maui Loan Inc. and one individual.

Your Committees find that this measure will provide a beneficial alternative to Hawaii's check cashing industry, with greater oversight and additional protections for consumers.

Your Committees have amended this measure by:

- (1) Defining "elder" for the purposes of section 412:9-X, Hawaii Revised Statutes;
- (2) Deleting sections 6 and 10 of the measure and renumbering the remaining sections accordingly;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 974, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 974, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 914 Ways and Means on S.B. No. 1237

The purpose and intent of this measure is to reduce the cap amounts of the renewable energy technologies income tax credit.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Sunaru, Inc., dba Solar Help Hawaii; Photonworks Engineering, LLP; Affordable Solar Contracting; Solar Services of Hawaii; Green Power Projects; Hawaii PV Coalition; Hawaii Solar Energy Association; Tesla; Blue Planet Foundation; Inter-Island Solar Supply; PV TECH; and nine individuals.

Your Committee received written comments on this measure from the Department of Taxation, Hawaii Green Infrastructure Authority, Hawaii State Energy Office, Tax Foundation of Hawaii, Hawaiian Electric, Kauai Island Utility Cooperative, and Ulupono Initiative.

Your Committee finds that this measure would amend the renewable energy technologies income tax credit by reducing the applicable cap amounts allowed to qualified taxpayers by fifty percent.

Your Committee has amended this measure by:

- (1) Providing that, for commercial property used for eligible community-based renewable energy projects, the cap amount shall be \$500,000 per system for:
 - (A) Solar energy systems for which the primary purpose is not to heat water for household use; and
 - (B) Wind-powered energy systems;
- (2) Clarifying that the measure shall apply to taxable years beginning after December 31, 2021; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1237, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 915 Ways and Means on S.B. No. 1275

The purpose and intent of this measure is to provide for the establishment of leave sharing programs for state and county employees.

More specifically, this measure:

- (1) Requires each branch of state government to establish a leave sharing program for each branch's respective employees;
- (2) Authorizes the chief executive of each county to establish a leave sharing program;
- (3) Restricts each branch of state government from prohibiting leave sharing between different departments or bargaining units due to administrative infeasibility; and
- (4) Appropriates moneys to the Department of Human Resources.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and Hawaii State Teachers Association.

Your Committee received written comments in opposition to this measure from the Department of Human Resources Development.

Your Committee finds that permitting leave sharing between different state or county departments and bargaining units will benefit the general well-being of the affected employees and result in the State and applicable counties operating more effectively.

Your Committee has amended this measure by:

- Clarifying that this measure's restrictions on state government branches prohibiting leave sharing between different departments or bargaining units because of administrative infeasibility also apply to any county that establishes a leave sharing program pursuant to section 78-26, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1275, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1275, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 916 Ways and Means on S.B. No. 1297

The purpose and intent of this measure is to extend the authorization to issue special purpose revenue bonds to assist MauiGrown Coffee, Inc., a Hawaii corporation, with expanding its coffee farm and coffee mill in Puukolii, Maui.

Your Committee received written comments in support of this measure from the Hawaii Department of Agriculture; Maui Chamber of Commerce; and MauiGrown Coffee, Inc.

Your Committee received written comments in opposition to this measure from Neighborhood Place of Puna.

Your Committee finds that extending the special purpose revenue bond issuance authorization will help MauiGrown Coffee, Inc., protect its crops against coffee berry borers, coffee leaf rust, and other devastating plant diseases.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1297, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 917 (Joint) Ways and Means and Judiciary on S.B. No. 1320

The purpose and intent of this measure is to incorporate a regenerative framework into the State Planning Act by establishing objectives and policies for Hawaii's visitor industry.

Your Committees received written comments in support of this measure from the Hawaii Tourism Authority; Maui Tomorrow Foundation, Inc.; Ekolu Mea Nui; Aina Momona; Kauai Women's Caucus; Hui o Hoohonua; Kanaeokana; Apollo Kauai, Zero Waste Kauai; and numerous individuals.

Your Committees received written comments on this measure from the Office of Planning.

Your Committees find that the objectives and policies established by this measure will help Hawaii transition to a more sustainable form of tourism as part of the State's long-term economic recovery.

Your Committees have amended this measure by making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1320, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1320, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 918 Ways and Means on S.B. No. 221

The purpose and intent of this measure is to authorize the Governor's Coordinator on Homelessness to develop plans for each county to coordinate the services and shelter facilities of public agencies and nonprofit organizations to address the concerns of impacted communities and the needs of applicable homeless populations.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Hawaii Youth Services Network, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, and Hoomau Ke Ola.

Your Committee received written comments on this measure from the Governor's Coordinator on Homelessness.

Your Committee finds that allowing the Governor's Coordinator on Homelessness to develop separate regional plans for each county to coordinate the homelessness services and shelter facilities of public agencies and nonprofit organizations will allow the Governor's Coordinator on Homelessness to more effectively address homelessness in each community.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 221, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

CRep. 919 Ways and Means on S.B. No. 229

The purpose and intent of this measure is to require each department to submit to the Auditor an annual report for each non-general fund account.

More specifically, this measure:

- (1) Requires each department to submit to the Auditor, in addition to the Legislature, an annual report for each non-general fund
- (2) Requires that each department's annual report for each non-general fund account include, among other things, the status of implementing certain recommendations made by the Auditor and any reasons that no action has been taken, if applicable; and
- (3) Requires the Auditor to include in the Auditor's annual report on certain special, revolving, and trust funds an identification of any recommendations that were included in any of the Auditor's reports published over the previous five years but have not yet been implemented.

No written comments were received on this measure.

Your Committee finds that the State's budget deficit resulting from the coronavirus disease 2019 pandemic has confirmed that the State requires valuable, detailed information regarding the State's non-general funds. Your Committee believes that it is appropriate for the Auditor, in addition to the Legislature, to receive this information each year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 229, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 920 Ways and Means on S.B. No. 1039

The purpose and intent of this measure is to make appropriations and approve payments for claims against the State, its officers, and its employees.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure serves as the vehicle by which payments of claims against the State are authorized and funded by an appropriation of general and special funds, and that timely passage of this measure will minimize the State's obligation to pay interest that accrues on claim amounts.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1039, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1039, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 921 Ways and Means on S.B. No. 466

The purpose and intent of this measure is to provide for the efficient operation of the School Facilities Agency.

More specifically, this measure amends Act 72, Session Laws of Hawaii 2020, by:

- (1) Requiring the School Facilities Agency to comply with the Hawaii Public Procurement Code;
- (2) Providing additional powers and duties to the School Facilities Agency;
- (3) Specifying additional uses for the school facilities special fund; and
- (4) Providing the Executive Director of the School Facilities Agency with additional authority relating to capital improvement projects of the School Facilities Agency.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that, as enacted, Act 72, Session Laws of Hawaii 2020, did not clearly describe the powers and responsibilities of the School Facilities Agency. This measure amends Act 72 to provide additional guidance and provide for the efficient operation of the School Facilities Agency.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 466, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Kidani, Moriwaki).

SCRep. 922 (Joint) Ways and Means and Judiciary on S.B. No. 613

The purpose and intent of this measure is to increase the physician workforce, particularly for rural and medically underserved areas.

More specifically, this measure:

- (1) Repeals the requirement that not less than fifty percent of the physician workforce assessment fees transferred or deposited into the John A. Burns School of Medicine special fund be expended for physician workforce assessment and planning efforts;
- (2) Repeals the cap on expenditures from the John A. Burns School of Medicine special fund;
- (3) Authorizes funds from the John A. Burns School of Medicine special fund to be expended for loan repayments to physicians who commit to working in certain underserved areas; and
- (4) Authorizes funds from the John A. Burns School of Medicine special fund to be expended for scholarships to medical students.

Your Committees received written comments in support of this measure from the Department of Labor and Industrial Relations, University of Hawaii System, Hawaii State Rural Health Association, The Queen's Health Systems, Hawaii Primary Care Association, Hawaii Medical Association, Hawaii Pacific Health, and one individual.

Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that the scholarships and financial flexibility provided by this measure will help to reduce the student loan debt of medical school graduates so that they can afford to practice medicine in lower-paying rural and medically underserved areas of the State where the need for physicians is the greatest.

Your Committees have amended this measure by

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 613, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 613, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 923 Ways and Means on S.B. No. 614

The purpose and intent of this measure is to exempt certain unemployment insurance benefits from the state income tax.

More specifically, this measure:

- (1) Exempts from the state income tax any unemployment insurance compensation and pandemic unemployment assistance payments received between March 1, 2020, and December 31, 2020; and
- (2) Requires the Department of Taxation to allow individuals to credit against the individual's overall state income tax liability the state income tax that was deducted and withheld from the individual's unemployment compensation or pandemic unemployment assistance between March 1, 2020, and December 31, 2020.

Your Committee received written comments in support of this measure from Hawaii Iron Workers Stabilization Fund; Hawaii Lodging and Tourism Association; Hawaii Workers Center; IATSE Local 665; ILWU Local 142; Pono Hawaii Initiative; UFCW 480; We Are One, Inc.; and numerous individuals.

Your Committee received written comments in opposition to this measure from four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that exempting from state income tax certain unemployment compensation and pandemic unemployment assistance payments received by residents of the State as a result of the coronavirus disease 2019 pandemic will help to alleviate significant economic hardships experienced by numerous residents of the State.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 614, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Kidani).

SCRep. 924 Ways and Means on S.B. No. 645

The purpose and intent of this measure is to amend the county surcharge on state tax.

More specifically, this measure:

- (1) Extends the period in which a county may adopt a surcharge on state tax, under certain conditions; and
- (2) Authorizes the use of county surcharge revenues for affordable and workforce housing infrastructure.

Your Committee received written comments in support of this measure from a member of the Maui County Council.

Your Committee received written comments on this measure from the Department of Taxation, Maui Chamber of Commerce, NAIOP Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that this measure supports the development of affordable and workforce housing, which will allow skilled employees to remain in the State, instead of leaving due to a lack of affordable housing options.

Your Committee has amended this measure by:

- (1) Changing the date by which a county may adopt a surcharge on state tax from July 1, 2023, to July 1, 2022;
- (2) Changing the date upon which the Department of Taxation is authorized to begin levying the surcharge from July 1, 2023, to January 1, 2023; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 645, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Kidani).

SCRep. 925 Ways and Means on S.B. No. 651

The purpose and intent of this measure is to rename the Kahului Airport Access Road as Mayor Elmer F. Cravalho Way.

Your Committee received written comments in support of this measure from numerous individuals.

Your Committee finds that renaming the Kahului Airport Access Road as Mayor Elmer F. Cravalho Way is a fitting tribute that will honor the legacy and memory of the County of Maui's first mayor.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 651, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 926 Ways and Means on S.B. No. 659

The purpose and intent of this measure is to make certain amendments to the State's low-income housing tax credit.

More specifically, the measure:

- (1) Allows the tax credit to be allocated among the partners or members of the taxpayer earning the credit in any manner by those parties; and
- (2) Requires claims for the tax credit to include copies of applicable federal tax documents;
- (3) Provides that for taxable years after December 31, 2020:
 - (A) Certain federal provisions relating to the installment method, risk, and passive activity shall not be operative;
 - (B) All allocations to partners or members of their distributive shares of income, loss, and deductions under state income tax law shall be made in accordance with the written agreement of the partners or members;
 - (C) The total amount of state credits allocated for the qualified low-income building shall not exceed fifty per cent of the total amount of federal credits allocated to the building for the ten-year federal credit period; and
 - (D) The deductions and expenses claimed by all Hawaii taxpayers on Hawaii income tax returns shall not exceed the deductions and expenses claimed by all taxpayers on federal returns;

provided that the foregoing shall not apply to any building that ceases to be a qualified low-income building; and

(4) Extends from December 31, 2021, to December 31, 2027, the sunset of certain provisions relating to the tax credit that were established by Act 129, Session Laws of Hawaii 2016.

Your Committee received written comments in support of this measure from EAH Housing; Bank of Hawaii; Dowling Co., Inc.; Hunt Companies - Hawaii; Hunt Capital Partners, LLC; Schatz Collaborative, LLC; Pacific Resource Partnership; Maui Chamber of Commerce; NAIOP Hawaii; Sugar Creek Capital; and Faith Action Housing NOW!

Your Committee received written comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee believes that partners or members of a partnership or limited liability company should be able to decide how to allocate any low-income housing tax credits earned during a taxable year. Your Committee recognizes that because the State's low-income housing tax credit law incorporates the federal tax provisions that relate to at-risk rules and passive activity loss rules, the state tax credit attracts a limited scope of investors. Accordingly, your Committee believes that by specifying that the state tax credit shall not be subject to federal tax provisions, the scope of taxpayers who will use the tax credit will increase and thus spur investment in such developments.

Your Committee has amended this measure by:

- Specifying that the low-income housing tax credit may be allocated by the partnership or limited liability company in any
 manner agreed to by the partners or members, so long as the individual or entity is deemed to be a partner or member pursuant
 to applicable state law;
- (2) Deleting language allowing an individual or an entity to be admitted to a partnership after the end of the taxable year, but before the individual or entity files a tax return;
- (3) Clarifying that the application of certain provisions of the measure are contingent upon the date a qualified low-income building is placed in service;
- (4) Applying the Act to taxable years beginning after December 31, 2024;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 659, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 659, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 927 (Majority) Ways and Means on S.B. No. 666

The purpose and intent of this measure is to establish planning and funding mechanisms to protect the State's unique environmental assets:

Specifically, the measure:

- (1) Establishes the conservation workforce special fund to finance workforce programs and services that promote certain environmental goals;
- (2) Requires the Department of Land and Natural resources and the Office of Planning to convene a Conservation Advisory Committee to develop criteria and a framework to ensure proper management of the conservation workforce special fund; and
- (3) Establishes a ten-year pilot visitor green fee surcharge for each guest of a transient accommodation, effective July 1, 2021.

Your Committee received written comments in support of this measure from Ulupono Initiative, Zero Waste Oahu, Conservation International, Kanu Hawaii, Surfrider Foundation Hawaii, Hawaii Alliance for Community-Based Economic Development, Sustainable Coastlines Hawaii, Hawaii Reef and Ocean Coalition, Hawaii Alliance for Progressive Action, Wastewater Alternatives and Innovations, Young Progressives Demanding Action, Hawaii Youth Climate Coalition, National Tropical Botanical Garden, Imua Alliance, Hawaii Government Employees Association, Kupu, Kua Aina Ulu Auamo, The Trust for Public Land, and nine individuals.

Your Committee received written comments in opposition to this measure from Maui Chamber of Commerce, Kohala Coast Resort Association, Fairmont Orchid, and Hawaii Lodging and Tourism Association.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Department of Taxation, Office of Planning, Hawaii Tourism Authority, Tax Foundation of Hawaii, Climate Protectors Hawaii, Grassroot Institute of Hawaii, and two individuals.

Your Committee finds that each year, the State's reefs, oceans, beaches, and forests benefit residents and visitors alike, and are vital to the tourism industry. These natural resources provide billions of dollars in value to the state economy and form an important part of residents' cultural identity.

Your Committee also finds that the tourism industry has been disproportionately impacted due to the coronavirus disease 2019 (COVID-19) pandemic, and that the State needs to take action to restore the vibrancy of the tourism sector. However, steps must be taken to ensure sustainability, which may occur through comprehensive funding for green job growth that contributes to the economic and environmental well-being of the State.

Your Committee has amended this measure by:

- (1) Deleting language establishing of the Conservation Advisory Committee;
- (2) Deleting language making the assessment and collection of the \$20 green fee surcharge contingent upon the total number of visitor arrivals reaching a threshold level of five million visitors or more during the preceding calendar year, based on statistics from the Hawaii Tourism Authority;
- (3) Changing its effective date to January 1, 2022, and its repeal date to December 31, 2031; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 666, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 928 Judiciary on S.B. No. 1122

The purpose and intent of this measure is to:

- Clarify requirements on the county boards of water supply to ensure adequate water supplies to residents of Hawaiian home lands; and
- (2) Add representation on the county boards of water supply of the interests to be served by the allocation of water for current and foreseeable development and use of Hawaiian home lands as set forth in section 221 of the Hawaiian Homes Commission Act.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Hawaiian Home Lands, and one individual. Your Committee received testimony in opposition to this measure from the County of Hawai'i, Department of Water of the County of Kaua'i, Board of Water Supply of the City and County of Honolulu, Department of Water Supply of the County of Hawai'i, Water Board of the County of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the lack of available water has been and remains a significant barrier to the State's ability to develop projects on Hawaiian home lands. The Department of Hawaiian Home Lands has worked in conjunction with the Department of Land and Natural Resources' Commission on Water Resource Management to set groundwater and surface water reservations for Hawaiian home lands projects on each island with lands set aside for homesteading purposes. However, your Committee further finds that there is no statewide standard for policies and procedures to provide for these water reservations. Your Committee additionally finds that the

county boards and departments of water supply provide a vital and essential service to the counties, and that a requirement to reallocate significant water resources runs the risk of disregarding pre-existing legal protections and systems regarding water use and allocation, therefore a statutory mandate for the boards to coordinate with the Department of Hawaiian Home Lands and accommodate the department's requests may be a more feasible solution.

Accordingly, your Committee has amended this measure by:

- (1) Allowing the Department of Hawaiian Home Lands to request the reservation of available and unallocated water credits;
- (2) Requiring the county boards of water supply to consider the Department of Hawaiian Home Land's request when allocating available and unallocated water credits:
- (3) Requiring each board of water supply to develop policies that comply with the public trust doctrine to implement in case of water shortage;
- (4) Deleting the requirement that boards of water supply must apply for state water licenses;
- (5) Clarifying terminology used to refer to the boards of water supply;
- (6) Clarifying that the requirements of the new statutory section apply to each of the county boards of water supply;
- (7) Clarifying that, effective July 1, 2024, one of the appointed members of each board of water supply, including the Department of Water Supply of the County of Hawai'i, must be a representative of the Department of Hawaiian Home Lands;
- (8) Deleting language relating to the membership on the county board of water supply of individuals from different geographic regions of the County of Hawai'i;
- (9) Amending section 1 to reflect its amended purpose;
- (10) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1122, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Gabbard, Kim, Fevella). Noes, none. Excused, none.

SCRep. 929 (Joint/Majority) Judiciary and Ways and Means and Water and Land on S.B. No. 1334

The purpose and intent of this measure is to:

- (1) Increase the building height limit for two of the six parcels owned by the Office of Hawaiian Affairs in the Kaka'ako Makai area to four hundred feet; and
- (2) Lift the current restriction against residential development in Kaka'ako Makai to allow residential development by the Office of Hawaiian Affairs or by third parties to which the Office of Hawaiian Affairs conveys the parcels.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Hawaiian Home Lands; Hawaiian Community Development; Ke One O Kākuhihewa-'Oahu Council for the Association of Hawaiian Civic Clubs; Na Kuleana O Kanaka 'Oiwi; Association of Hawaiian Civic Clubs; Stanford Carr Development, LLC; Ka Ohana O Na Pua; Pe'a Records & Entertainment; Hawaii Appleseed Center for Law and Economic Justice; Keaukaha Community Association; Native Hawaiian Legal Corporation; Innovations Development Group, Inc.; Prince Kūhiō Hawaiian Civic Club; and eighty individuals. Your Committees received testimony in opposition to this measure from the Free Access Coalition, Friends of Kewalos, alohahawaiionipaa.org, Hawaii's Thousand Friends, Kaka'ako Makai Community Planning Advisory Council, Life of the Land, and ninety individuals. Your Committees received comments on this measure from the Hawaii Community Development Authority, Department of Transportation, O'ahu Island Parks Conservancy, Historic Hawai'i Foundation, and one individual.

Your Committees find that Act 15, Session Laws of Hawaii 2012 (Act 15), conferred to the Office of Hawaiian Affairs (OHA) parcels of land in Kaka'ako Makai to settle certain claims against the State regarding longstanding claims to income and proceeds from ceded lands by OHA. The property identified in Act 15 is virtually contiguous, suited for master planning, and is in an area of Honolulu that is already experiencing significant redevelopment. Increasing the revenue stream on these commercial lands will provide a greater sum to fund OHA's programs and services for its beneficiaries, including direct grants, advocacy services, and legacy land stewardship.

Your Committees further find that existing law prohibits OHA, an agency solely dedicated to serving the Native Hawaiian population, from developing housing and housing-associated projects makai of Ala Moana. Therefore, lifting this prohibition would create parity for the Office of Hawaiian Affairs with these mauka landowners by affording the agency the same land use options for its parcels as enjoyed by its neighbors. This measure exempts OHA from the residential development restrictions on certain parcels located in Kaka'ako Makai for OHA to realize the full value of these lands.

During the hearing on this measure, members of your Committees expressed various viewpoints about the measure including whether the measure went beyond what had been contemplated in previous legislation and whether permitting residential developments at heights of up to four hundred feet in Kaka'ako Makai warranted additional consideration from OHA in exchange. Your Committees additionally find that the language of Act 15 states in part that the parcels were being conveyed to OHA "as is, where is", meaning that OHA accepted the parcels in their condition as of March 1, 2012, without warranties or representations of any kind or nature.

Your Committees also find that the Department of the Attorney General, in its testimony on Senate Bill No. 2783, Regular Session of 2012 (S.B. No. 2783), which was enacted as Act 15, noted that the properties were commercially zoned. Two of the committee reports filed on S.B. No. 2783 also discussed the issue of commercial zoning, and noted that the value of the parcels could be enhanced by certain entitlements that, while not specifically provided for in S.B. No. 2783, could be obtained at a future date. Additionally, Senate Bill No. 682, Regular Session of 2012, was under consideration by the Legislature contemporaneous to S.B. No. 2783, and would have explicitly permitted residential development of certain parcels in Kaka'ako Makai. Although the measure was not enacted, in part due to concern by OHA and the Department of the Attorney General about impairing the passage of S.B. No 2783, OHA stated in testimony on the measure that once becoming the landowner, they would be in a position to request entitlements for the parcels in subsequent legislative sessions.

Your Committees have amended this measure by:

- (1) Requiring the Office of Hawaiian Affairs and any developer to provide advance written notice to potential lessees and residents of possible noise, odor, and other aircraft related nuisances before entering any lease agreement;
- (2) Requiring the Office of Hawaiian Affairs and any developer to assess and propose mitigation efforts to address possible noise, odor, and other aircraft related nuisances in their development plans and proposals;
- (3) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary, Ways and Means, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1334, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1334, S.D. 2.

Signed by the Chairs and President on behalf of the Committees.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio, Lee, Fevella). Noes, 1 (Kim). Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Taniguchi, Fevella). Noes, 1 (Moriwaki). Excused, none.

Water and Land: Ayes, 3; Ayes with Reservations (Fevella). Noes, 2 (Misalucha, Riviere). Excused, none.

SCRep. 930 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 767

The purpose and intent of this measure is to:

- (1) Legalize the personal use, possession, and sale of cannabis in a specified quantity;
- (2) Require licensing to operate cannabis establishments; and
- (3) Subject cannabis establishments to excise taxes and income taxes.

Your Committees received testimony in support of this measure from the Maui County Council; Office of the Prosecuting Attorney of the County of Kaua'i; Cannabis Maui; Drug Policy Forum of Hawai'i; Pono Hawai'i Initiative; Young Progressives Demanding Action; Our Revolution Hawaii; Imua Alliance; Aloha Green Holdings, Inc.; and ninety-six individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Maui Police Department, Kaua'i Police Department, Hawai'i Police Department, AAA Hawai'i, Coalition for a Drug-Free Hawaii, Hawai'i Public Health Institute, Hawaii Family Forum, and thirteen individuals. Your Committees received comments on this measure from the Department of Taxation, Department of Public Safety, Tax Foundation of Hawaii, Mothers Against Drunk Driving Hawai'i, Akamai Cannabis Clinic, and one individual.

Your Committees find that, notwithstanding the prospect of federal prosecution, fifteen states and the District of Columbia have legalized the recreational use of cannabis by adults, and that others are in the process of considering legalization. Your Committees further find that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Additionally, recent polling indicates broad public support in Hawai'i for the legalization of cannabis. Your Committees further find that the legalization of cannabis for personal or recreational use is a logical and reasonable outgrowth of the scientific consensus, public attitudes, and nationwide legal trends regarding cannabis.

Your Committees have amended this measure by:

- (1) Removing cannabis from the list of Schedule I controlled substances;
- (2) Making conforming amendments to chapter 712, Hawaii Revised Statutes;
- (3) Deleting redundant language subjecting cannabis establishments to certain taxes;
- (4) Specifying that personal use of cannabis is not permitted in any location where the consumption of alcohol is prohibited;
- (5) Expanding the medical cannabis exemption to the rule against giving tax benefits and deductions for the sale of illegal drugs to include recreational cannabis;
- (6) Amending the allowable decriminalized amount of cannabis from one ounce to thirty grams;
- (7) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 767, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 767, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 8; Ayes with Reservations (Kidani, Fevella). Noes, 2 (Inouye, Moriwaki). Excused, 1 (Wakai).

SCRep. 931 Judiciary on S.B. No. 1270

The purpose and intent of this measure is to replace the Director of Human Services with the Administrator of the Division of Vocational Rehabilitation, Department of Human Services, as an ex officio, voting member on the Workforce Development Council.

Your Committee received testimony in support of this measure from the Department of Human Services and Workforce Development Council.

Your Committee finds that federal regulations that implement the Workforce Innovation Opportunity Act (WIOA) of 2014, specifically, title 34 Code of Federal Regulations section 361.13(c), require that a representative from the vocational rehabilitation agency, with the requisite experience and expertise, serve on the State's Workforce Development Council, as a voting member with the sole responsibility of the vocational rehabilitation agency, including participation in the state workforce development and local workforce development boards. This measure makes amendments regarding the composition of the Workforce Development Council's council members to comply with federal regulations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1270 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 932 Judiciary on S.B. No. 678

The purpose and intent of this measure is to:

- (1) Require the representative of labor on the Hawaii Labor Relations Board (HLRB) to be a person that is selected by a process determined by simple majority of the exclusive representatives of the collective bargaining units and appointed by the Governor by and with the advice and consent of the Hawai'i State Senate;
- (2) Allow the simple majority of exclusive representatives who nominated the person to transmit the person's name directly to the Senate for confirmation if the Governor fails to nominate the person; and
- (3) Allow a simple majority of the exclusive representatives of the collective bargaining units to remove, via a written request to the Governor, the representative of labor from the HLRB during the member's term.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawai'i Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Hawai'i Labor Relations Board.

Your Committee finds that the HLRB is a quasi-judicial board with jurisdiction over state public sector collective bargaining; state private sector collective bargaining; and cases pertaining to state occupational safety and health citations and whistleblower discrimination claims. The Board consists of three members — the Chair, who is the representative of the public, one member who is a representative of management, and another member who is a representative of labor. All three Board members are appointed to six-year terms by the Governor. Under existing law, the representative of management is appointed by the Governor, who must first consider the names submitted by each county. The representative of labor is appointed by the Governor from a list of three nominees submitted by mutual agreement from a majority of the exclusive representatives of the collective bargaining units. The Governor's selection for Board Chair is not limited to names submitted by other parties. This measure will require the Governor to appoint with the advice and consent of the Senate, the one individual chosen by the exclusive representatives of the collective bargaining units. This measure also gives the exclusive representatives authority to remove, via written request to the Governor, the board member if they determine, by simple majority, that the board member is not effective during the member's term.

Your Committee questions whether the removal provision established by this measure is constitutional and consistent with legal provisions related to other boards and commissions. Your Committee finds that this question merits further discussion as this measure proceeds through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 678, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 933 (Joint) Judiciary and Ways and Means on S.B. No. 1087

The purpose and intent of this measure is to suspend the requirement for public employers to make annual required contributions to the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) through fiscal year 2024-2025.

Your Committees received testimony in support of this measure from the Department of Budget and Finance. Your Committees received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund, Tax Foundation of Hawaii, and Grassroot Institute of Hawaii.

Your Committees find that, in July 2020, the Governor suspended the State's required payment of annual contributions to the EUTF to address the \$2.3 billion budget shortfall caused by the coronavirus disease 2019 pandemic. Extending this temporary suspension of annual required contributions is one of the cornerstones of the Governor's approach to balancing the general fund financial plan. This

measure will continue the temporary suspension of prefunding retiree health benefits to reduce state and county annual payment requirements and provide the State and other public employers flexibility to address immediate budgetary concerns while the economy recovers.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1087, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 934 Judiciary on S.B. No. 576

The purpose and intent of this measure is to:

- (1) Require licensed used motor vehicle part dealers to obtain a written statement by a seller of a catalytic converter that the seller has the lawful right to sell and dispose of the catalytic converter;
- (2) Require a seller of a catalytic converter to present a receipt or notarized declaration regarding the catalytic converter;
- (3) Prohibit a licensed used motor vehicle part dealer from purchasing a catalytic converter with no receipt or notarized declaration and to report the attempted sale to the police; and
- (4) Establish the offense of theft of catalytic converter as a class C felony.

Your Committee received testimony in support of this measure from the Honolulu Police Department, American Property Casualty Insurance Association, and one individual. Your Committee received comments on this measure from the Department of Attorney General

Your Committee finds that theft of catalytic converter is on the rise, in part due to the increase in prices associated with metals that are used in the construction of catalytic converters and the relative ease and speed in which a thief can sell scrap metal. Businesses and citizens incur the costs of replacing their catalytic converters, which often cost thousands of dollars, and the extra costs of not having their vehicles for days on end while they are repaired. Additionally, the hasty removal of a catalytic converter can cause secondary repair costs. This measure requires used motor vehicle parts' dealers to follow certain requirements and establishes the theft of a catalytic converter as a class C felony to help deter the increasing proliferation of this crime.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 576, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 935 (Majority) Judiciary on S.B. No. 367

The purpose and intent of this measure is to waive the requirement for section 401 water quality certification for certain small-scale beach restoration projects authorized by the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Health, Department of Land and Natural Resources, Hawai'i Shore and Beach Preservation Association, Waikīkī Beach Special Improvement District Association, and one individual.

Your Committee finds that waiving the requirement of water quality certification for small-scale beach restoration projects will result in the efficient administration of site-specific water pollution control and more practical and realistic erosion control alternatives to the deleterious practice of coastal armoring. Your Committee further finds that the intent of this measure is not to undermine provisions of the Federal Clean Water Act, and that the Federal Clean Water Act specifically provides for states to waive water quality certification requirements.

Your Committee has amended this measure by:

- (1) Removing language from section 1 of the measure relating to the permitting process; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 367, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 367, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 936 Judiciary on S.B. No. 1311

The purpose and intent of this measure is to require the Department of Education to:

- (1) Establish locally sourced food and zero-emission vehicle goals as part of the sustainable schools initiative; and
- (2) Submit annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Hawai'i State Youth Commission, Hawai'i Youth Climate Coalition, Hawaii Electric Vehicle Association, PlanIt, Ulupono Initiative, Americans for Democratic Action, Blue Planet Foundation, Hawai'i Public Health Institute, and four individuals. Your Committee received comments on this measure from the Hawaii State Energy Office and Department of Education.

Your Committee finds that Hawaii imports more than six million pounds of food on a daily basis at a cost of more than \$3,000,000,000 per year. An increase in locally sourced proteins and produce would simultaneously improve food quality and public health, boost the local economy, and improve overall food sustainability. Your Committee further finds that traditional internal combustion school bus engines emit exhaust, which children breathe in while riding buses and sitting in traffic, and can increase asthma and other health problems. In contrast, electric school buses provide potential benefits to the quality of student health, the environment, utility infrastructure, and cost savings. Additionally, electric buses have lower operational, maintenance, and labor costs than comparable buses powered by internal combustion engines and conversion of school buses to electronic powered transportation aligns with Hawai'i's established goals of achieving a carbon-negative economy by 2045. This measure will engage students in sustainable living through establishing the goals of locally sourcing sixty percent of school food and providing students with zero-emission transportation in the future.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1311, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1311, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 937 Judiciary on S.B. No. 1409

The purpose and intent of this measure is to prohibit council, board, and commission members from serving if the member has not completed, within the requisite time, the required training course related to Native Hawaiian traditional and customary rights, Native Hawaiian natural resource protection and access rights, and the public trust, including the State's fiduciary responsibility.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Kūpuna for the Moʻopuna, Kuaʻāina Ulu ʻAuamo, and six individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Land Use Commission.

Your Committee finds that Act 169, Session Laws of Hawaii 2015 (Act 169), required the Office of Hawaiian Affairs to establish, design, and administer a training course on Hawaiian rights, the sources of these rights, and how the infringement of these rights affects the Hawaiian people, and further required new members of certain state councils, boards, and commissions to complete the training course within one year of their appointment. Your Committee further finds that, despite this requirement, a significant number of board and commission members subject to the mandatory training course continue to fail to comply with their training course completion responsibility. Your Committee additionally finds that, although departments of the State have testified that prohibiting board and commission members from service if they have not completed the training requirement within a certain time is an unnecessary burden, greater recognition and incorporation of Native Hawaiian knowledge, values, and rights in agency decision-making is an important policy goal; and a balance between these two interests is appropriate.

Accordingly, your Committee has amended this measure by:

- Applying disqualification for service in the event a member fails to meet the training requirement prospectively to newly
 appointed or reappointed members instead of all members; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1409, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1409, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 938 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1147

The purpose and intent of this measure is to:

- (1) Make unlawful the sale of flavored tobacco products, mislabeling of e-liquid products containing nicotine, and sale of tobacco products other than through retail sales via in-person exchange;
- (2) Establish the offense of unlawful shipment of tobacco products;
- (3) Include e-liquid and electronic smoking devices within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law;
- (4) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products;
- (5) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products;
- (6) Repeal certain provisions of the Hawaii Revised Statutes relating to electronic smoking devices; and

(7) Provide for the disposition of fines paid for the unlawful shipment of tobacco products into the Hawaii Tobacco Prevention and Control Trust Fund.

Your Committees received testimony in support of this measure from the Department of Taxation; Department of the Attorney General; Department of Health; Hawaii State Teachers Association; Blue Zones Project; Young Progressives Demanding Action; Americans for Democratic Action Hawaii; Hawaii Children's Action Network Speaks!; Hawaii COPD Coalition; University of Hawaii Student Health Advisory Council; We are One, Inc.; Hawaii Substance Abuse Coalition; Get Fit Kauai; Kamehameha Schools; Windward Nazarene Academy; Maui Preparatory Academy; St. Andrew's Schools; Waimea Country School; Malamalama Waldorf School; Roots School; Maryknoll School; Holy Nativity School; Mid-Pacific; Damien Memorial School; Hawaii Public Health Institute; PHOCUSED; AlohaCare; and eighty-eight individuals. Your Committees received testimony in opposition to this measure from the American Heart Association; Hawaii Smokers Alliance; Cigar Association of America, Inc.; VOLCANO; Hawaiian Royal Trading Company and twelve individuals. Your Committees received comments on this measure from Tax Foundation of Hawaii, Hawaii Food Industry Association, Cancer Action Network, Campaign for Tobacco-Free Kids, Hawaii Petroleum Marketers Association, and one individual.

Your Committees find that Hawaii does not regulate electronic smoking devices, or e-cigarettes, through licensing or permitting, and because they are not taxed like other tobacco products, they often can be purchased at lower prices than regular cigarettes. E-cigarettes have become the most commonly used tobacco product among youth in Hawaii, with over thirty percent of high school students reporting to be current users. According to the U.S. Surgeon General and several studies, increasing the price of tobacco products is the single most effective way to reduce consumption, especially among youth, who are particularly price sensitive. Further, the imposition of an excise tax equal to seventy percent of the wholesale price of each e-liquid and electronic smoking device is consistent with the tax on other tobacco products. This measure is therefore an important comprehensive legislative approach to address the youth vaping epidemic and protect the health of Hawaii's residents.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1147, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1147, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, 1 (Kidani). Excused, none.

SCRep. 939 Judiciary on S.B. No. 1395

The purpose and intent of this measure is to:

- (1) Require the Governor to appoint an individual to fill a vacancy within all boards and commissions within an unspecified period of time;
- (2) Require that holdover appointments are limited to an unspecified period of time, thereby creating a vacancy at the end of the holdover period; and
- (3) Require department heads to inform the Governor of any vacancy on any board or commission.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that state boards and commissions provide a vital opportunity for a cross-section of Hawai'i's residents to offer input and influence decisions that shape the quality of life throughout the State. Your Committee further finds that the Governor nominates and appoints more than one hundred and seventy board and commission positions established by the Hawaii State Constitution, Hawaii Revised Statutes, and executive orders, and that without timely appointments to fill vacancies, the ability of these boards and commissions to conduct business would be negatively impacted. Your Committee further finds that it is imperative that members of boards and commissions are appropriately and timely nominated and appointed to enable boards and commissions to meet and conduct business.

Your Committee has amended this measure by:

- (1) Requiring the Governor to appoint an individual to fill a vacancy within all boards and commissions within one hundred eighty days;
- (2) Requiring that holdover appointments are limited to one hundred eighty days; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1395, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1395, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 940 (Joint) Judiciary and Ways and Means on S.B. No. 932

The purpose and intent of this measure is to:

(1) Establish the Clean Energy and Energy Efficiency Revolving Loan Fund;

- (2) Repeal the Building Energy Efficiency Revolving Loan Fund;
- (3) Authorize moneys in the Green Infrastructure Special Fund to be used to finance the option to purchase solar energy systems and other clean energy equipment, including the purchase or lease of electric vehicles; and
- (4) Appropriate funds out of the Clean Energy and Energy Efficiency Revolving Loan Fund.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Green Infrastructure Authority, Environmental Caucus of the Democratic Party of Hawaii, Blue Planet Foundation, Climate Protectors Hawaii, Land Use Research Foundation of Hawaii and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Budget and Finance; City and County of Honolulu Office of Climate Change, Sustainability, and Resiliency; and Public Utilities Commission.

Your Committees find that the State has set important goals to reduce energy costs, drive higher-paying green job creation and retention, and save the billions of dollars currently spent on importing petroleum. Given the fiscal constraints resulting from the coronavirus disease 2019 pandemic, the Hawaii Green Infrastructure Authority (HGIA) will need to pursue outside funds besides bond financing to support a broad range of clean energy technologies. This measure establishes a new revolving loan fund to provide flexible financing and will enable HGIA to submit applications for low-cost federal loans to facilitate green infrastructure investments and help kick-start Hawaii's economy. This measure will further enable both the financing of electric vehicle charging stations and the electrification of state vehicles at no extra cost to the State by utilizing a new cash flow stream generated from the realized savings of exercising purchase options in existing power purchase agreements.

Your Committees have amended this measure by:

- (1) Deleting the amount of \$50,000,000 and inserting a blank dollar amount to be appropriated out of the Clean Energy and Energy Efficiency Revolving Loan Fund;
- (2) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 932, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 932, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 941 (Majority) Ways and Means on S.B. No. 180

The purpose and intent of this measure is to facilitate recycling of deposit beverage containers.

More specifically, this measure:

- (1) Exempts, from the requirement that a dealer operate a deposit beverage redemption center, any beverage dealer located in a high-density population area and within one mile, rather than two miles, of a certified deposit beverage redemption center operated independently from the dealer;
- (2) Requires that the Department of Health adjust the deposit beverage handling fee at least once per year and publish notice of the change within a certain period of time; and
- (3) Establishes additional criteria for adjusting the deposit beverage handling fee.

Your Committee received written comments in opposition to this measure from the American Beverage Association and Hawaii Food Industry Association.

Your Committee received written comments on this measure from the Department of Health and Tax Foundation of Hawaii.

Your Committee finds that this measure will provide residents of the State with more options for recycling deposit beverage containers, thus benefiting both the residents and the natural environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, 1 (Fevella). Excused, 1 (Shimabukuro).

SCRep. 942 (Joint) Judiciary and Ways and Means on S.B. No. 321

The purpose and intent of this measure is to provide the Office of Hawaiian Affairs with the funds to which it is entitled under article XII, section 6, of the Hawaii State Constitution and section 10—l3.5, Hawaii Revised Statutes. Specifically, this measure:

- (1) Requires agencies that collect receipts related to the public land trust to transfer twenty percent of such receipts to the Office of Hawaiian Affairs on a quarterly basis;
- (2) Sets the minimum aggregate quarterly transfer of receipts to the Office of Hawaiian Affairs at \$3,775,000;
- (3) Directs the Director of Finance to transfer funds to the Office of Hawaiian Affairs in satisfaction of any quarterly shortfall;

- (4) Transfers to the Office of Hawaiian Affairs all overpayment funds collected in fiscal year 2012-2013 through fiscal year 2020-2021 from the carry-forward trust holding account established pursuant to Executive Order No. 06-06, plus any additional overpayments collected in the holding account in fiscal year 2021-2022 or 2022-2023; and
- (5) Establishes a public land trust revenues negotiating committee to make recommendations to the Legislature for resolving the matter of the amount of the income and proceeds from the public land trust that the Office of Hawaiian Affairs shall receive annually.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Kūpuna for the Moʻopuna, Hawaiian Affair Caucus of the Democratic Party of Hawaiii, and fifteen individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of the Attorney General, Department of Agriculture, Department of Budget and Finance, University of Hawaiii System, Office of Information Practices, Hawaii Health Systems Corporation, and League of Women Voters of Hawaii.

Your Committees find that the Hawai'i Admission Act and the Hawaii State Constitution established the public land trust, which comprises over one million acres of former government and crown lands of the Kingdom of Hawai'i, for the betterment of the conditions of native Hawaiians and for the general public. The Hawaii State Constitution entrusts the Board of Trustees of the Office of Hawaiian Affairs with the responsibility to manage and administer public land trust funds set aside for native Hawaiians, which state law reaffirms is a twenty percent pro rata share of all funds from the trust.

Act 178, Session Laws of Hawaii 2006 (Act 178), put in place annual payments of \$15,100,000 from the pro rata portion of the public land trust to the Office of Hawaiian Affairs in acknowledgment of the State's constitutional obligation. However, Act 178 was passed with the intention that it would be an interim measure until the Legislature could further assess the complexities of the issue, including gathering information on revenue-generating public trust lands and amounts derived from those lands. Your Committees find that since Act 178 was passed, the Legislature has received additional information from the departments and the Office of Hawaiian Affairs on the annual amounts derived from the public land trust. From fiscal years 2011-2012 through 2019-2020, the State reported to the Legislature total gross receipts averaging \$197,433,474. Twenty percent of the average reported gross receipts for fiscal years 2011-2012 through 2019-2020 is \$39,486,695.

Therefore, your Committees find that lifting the \$15,100,000 cap on the annual transfer of the public land trust revenues to the Office of Hawaiian Affairs, and allowing the Office of Hawaiian Affairs to expend the funds it has had to return over the last nine fiscal years due to this cap would demonstrate the State's support for providing native Hawaiians with a fair share of the public land trust.

Your Committees further find that despite the ongoing, urgent economic crisis faced by the State, this measure does not require any general fund appropriations, nor does it require state agencies to set aside more funds than they are already required. This measure intends to ensure that the full twenty percent of public land trust receipts that agencies set aside as the native Hawaiians' pro rata share can be used to assist beneficiaries of the Office of Hawaiian Affairs.

Your Committees have amended this measure by:

- (1) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 321, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 321, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Wakai).

SCRep. 943 (Joint) Judiciary and Ways and Means on S.B. No. 789

The purpose and intent of this measure is to:

- (1) Authorize a special procurement process for the procurement of goods and services;
- Require the Procurement Policy Board to establish rules and procedures for the special procurement process by December 31, 2021;
- (3) Require the head of a purchasing agency to prepare a procurement plan and submit the plan to the Attorney General or Corporation Counsel; and
- (4) Require the head of a purchasing agency to electronically post, for at least one year, public notice of special procurement contracts within seven days of the contract award.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that competition in the public procurement process is necessary to prevent favoritism, collusion, or fraud in the award of public contracts. Your Committees further find, however, that increased flexibility in the procurement process is needed to respond in a timely and appropriate manner to changing and challenging circumstances. This measure will provide greater flexibility while preserving transparency and integrity in the procurement process.

Your Committees have amended this measure by:

(1) Requiring the head of a purchasing agency to electronically post all contracts awarded through a special procurement process;

- (2) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 789, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 789, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 944 Ways and Means on S.B. No. 39

The purpose and intent of this measure is to encourage the development of affordable housing in the State.

More specifically, this measure:

- (1) Removes the limit on the type of costs eligible for exemption from the general excise tax for development of affordable rental housing certified by the Hawaii Housing Finance and Development Corporation; and
- (2) Amends section 104-2(i), Hawaii Revised Statutes, by repealing the requirement that persons or firms engaged in the construction of an affordable rental housing project, which has received an exemption from general excise taxes by the Hawaii Housing Finance and Development Corporation and to which a governmental contracting agency is a party, receive no other direct or indirect financing for the construction project from any other governmental contracting agency.

Your Committee received written comments in support of this measure from Hawaii Construction Alliance; MCYID LLC; NAIOP Hawaii; Schatz Collaborative; and Stanford Carr Development, LLC.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations and Hawaii Housing Finance and Development Corporation.

Your Committee believes that this measure will make the general excise tax exemptions provided by the Hawaii Housing Finance and Development Corporation more attractive to affordable rental housing developers, and will help to add more rental units to the statewide housing inventory.

Your Committee has amended this measure by:

- (1) Amending section 104-2(i), Hawaii Revised Statutes, by:
 - (A) Restoring the requirement that persons or firms engaged in the construction of an affordable rental housing project, which has received an exemption from general excise taxes by the Hawaii Housing Finance and Development Corporation and to which a governmental contracting agency is a party, receive no other direct or indirect financing for the construction project from any other governmental contracting agency; and
 - (B) Clarifying that "any other governmental contracting agency" refers to state agencies;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 39, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 39, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Kidani).

SCRep. 945 (Majority) Ways and Means on S.B. No. 86

The purpose and intent of this measure is to increase the number of medical cannabis dispensaries available to and operated by native Hawaiians by requiring the Department of Health to issue eight dispensary licenses to the Department of Hawaiian Home Lands.

Your Committee received written comments in opposition to this measure from Kupuna for the Moopuna.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands, Department of the Attorney General, and Department of Health.

Your Committee finds that the Department of Health is authorized to issue licenses for medical cannabis dispensaries, which are regulated in a manner that benefits registered patients while balancing the health and safety of the general public. Your Committee recognizes that, as more states have legalized medical and cannabis use, an increasing number of native American tribes have entered into the cannabis industry in pursuit of economic development and job creation. Your Committee believes the Department of Hawaiian Home Lands should review similar potential opportunities.

Your Committee has amended this measure by:

(1) Inserting a requirement that the Department of Hawaiian Home Lands study the feasibility of, and revenue that may be generated by, operating licensed medical cannabis dispensaries, limited gaming, and other potential revenue-generating enterprises on Hawaiian home lands to address historic funding shortfalls exacerbated by the economic shutdown from the coronavirus disease 2019 (COVID-19) pandemic; and submit a report of its findings to the Legislature no later than twenty days prior to the Regular Session of 2022;

- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 86, S.D. 3.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, 1 (Fevella). Excused, 1 (English).

SCRep. 946 Ways and Means on S.B. No. 243

The purpose and intent of this measure is to develop a plan for meeting the State's renewable energy, energy efficiency, and zero emissions clean economy targets.

More specifically, this measure requires the Hawaii Natural Energy Institute to submit to the Legislature, prior to the Regular Session of 2023:

- (1) A strategic plan for achieving Hawaii's one hundred percent renewable energy portfolio standard; and
- (2) A feasibility study on the State's ability to achieve its renewable energy goals by 2045.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii State Energy Office, Ulupono Initiative, Hawaiian Electric, and Climate Protectors Hawaii.

Your Committee finds that this measure will allow interested stakeholders to participate in identifying benchmarks and determining ways to reduce the State's overall energy demand.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 243, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 243, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 947 (Majority) Ways and Means on S.B. No. 257

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to extend the leases of certain public lands.

More specifically, this measure:

- (1) Authorizes the Board of Land and Natural Resources to extend the rental period of a lease of public lands upon the Board's approval of a development agreement proposed by the lessee, or the lessee and developer, to make substantial improvements to the existing improvements; and
- (2) Establishes the requirements, conditions, and restrictions relating to the public lands lease extensions and the lease extension application and approval processes.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Prince Kuhio Plaza, and two individuals.

Your Committee received written comments in opposition to this measure from the Office of Hawaiian Affairs; Cinesthesia Investigation Analysis; Flores-Case Ohana; Ka Lahui Hawaii Komike Kalaiaina; Koolaupoko Hawaiian Civic Club; Kupuna for the Moopuna; Mauna Kea Anaina Hou and Kai Palaoa; Na Kupuna Moku O Keawe; Pele Lani Farm, LLC; Waimea Hawaiian Civic Club; and numerous individuals.

Your Committee finds that this measure will support long-term tenants who lease public lands and are seeking to continue their respective businesses beyond the maximum allowable lease term of sixty-five years. However, your Committee believes that it is more appropriate to proceed with a limited pilot project to determine the efficacy of authorizing the Board of Land and Natural Resources to extend leases of public lands.

Your Committee has amended this measure by:

- (1) Establishing the substantive provisions of this measure in session law, rather than statute;
- (2) Requiring the Board of Land and Natural Resources to establish a public lands lease extension pilot project;
- (3) Clarifying that the authority of the Board of Land and Natural Resources to extend the leases of certain public lands pursuant to this measure shall be:
 - (A) Through the public lands lease extension pilot project; and

- (B) Limited to public lands located at TMK 2-2-047-006, TMK 2-2-047-066, TMK 2-2-047-069, or TMK 2-2-047-073, within the area designated by zip code 96720;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 257, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 257, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 948 Ways and Means on S.B. No. 263

The purpose and intent of this measure is to promote products that are made or grown in the State.

More specifically, this measure:

- (1) Bifurcates the Department of Agriculture's existing Made in Hawaii program into two separate programs;
- (2) Transfers oversight of the Made in Hawaii program for manufactured products to the Department of Business, Economic Development, and Tourism;
- (3) Establishes and keeps the Grown in Hawaii program under the management of the Department of Agriculture;
- (4) Transfers ownership of the "Made in Hawaii with Aloha" trademark from the Department of Agriculture to the Hawaii Technology Development Corporation; and
- (5) Appropriates \$150,000 to the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation, Hawaiian Craft Brewers Guild, and Lanikai Brewing Company.

The Department of Business, Economic Development, and Tourism and Department of Agriculture submitted written comments on the measure.

Your Committee finds that this measure will help to raise the profile of Hawaii-branded products and move the local manufacturing and agriculture industries forward.

Your Committee has amended this measure by:

- (1) Replacing the Hawaii Technology Development Corporation with the Department of Business, Economic Development, and Tourism as the owner of the "Made in Hawaii with Aloha" trademark;
- (2) Including perishable consumer commodities among the items that are protected under the Grown in Hawaii program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 263, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 263, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 949 Ways and Means on S.B. No. 266

The purpose and intent of this measure is to appropriate moneys to fund programs and activities related to the State's coronavirus disease 2019 (COVID-19) response efforts.

Your Committee received written comments in support of this measure from the Department of Public Safety, Department of Defense, Department of Human Services, Hawaii Health Systems Corporation, Hawaii Primary Care Association, and one individual.

Your Committee finds that the moneys provided by this measure will allow the State to continue critically needed COVID-19 response, relief, and mitigation programs.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 266, S.D. 1, as amended herein, and recommends that is pass Third Reading in the form attached hereto as S.B. No. 266, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 950 Ways and Means on S.B. No. 335

The purpose and intent of this measure is to improve and expand agriculture in the State.

More specifically, this measure requires:

- (1) The Department of Agriculture and Agribusiness Development Corporation, beginning January 1, 2022, to annually lease at least fifty percent of land leased or up for lease renewal to operations whose primary business relates to local food production; and
- (2) The Department of Agriculture to submit annual reports to the Legislature on its leasing activities.

Your Committee received written comments in support of this measure from a member of the Hawaii County Council, 350Hawaii, Aina Momona, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Alliance for Progressive Action, Hawaii SEED, Hawaii Tea Society, Kauai Climate Action Coalition, Kauai Food Hub, Malama Kauai, Our Revolution Hawaii, Pono Hawaii Initiative, Seymour Resources Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Department of Agriculture.

Your Committee received written comments on the measure from the Agribusiness Development Corporation.

Your Committee finds that the measure, as received by your Committee, will promote the State's goal of food self-sufficiency by prioritizing food production for local consumption. However, your Committee also believes that this goal would be more attainable if the Agribusiness Development Corporation and its Board of Directors were required to fully implement the recommendations of the State Auditor in the January 2021 report titled *Audit of the Agribusiness Development Corporation: A Report to the Legislature of the State of Hawaii.*

Your Committee has amended this measure by:

- (1) Adding a requirement that the Agribusiness Development Corporation and its Board of Directors:
 - (A) Implement by January 1, 2023, the recommendations in the State Auditor's Report No. 21-01; and
 - (B) Submit to the Legislature a progress report twenty days before the Regular Session of 2022 and a final report by December 31, 2023;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 335, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 335, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 951 Ways and Means on S.B. No. 341

The purpose and intent of this measure is to exclude up to \$100,000 of income derived from taro production from the state income tax.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Office of the Mayor, County of Maui; Office of Climate Change, Sustainability and Resiliency, City and County of Honolulu; Department of Research and Development, County of Hawaii; Ai Pohaku; Aina Momona; Environmental Caucus of the Democratic Party of Hawaii; Hawaii Alliance for Progressive Action; Hawaii Farm Bureau; Hawaii Food Industry Association; Hawaii SEED; Hooulu Aina Farms; Living Pono Project; Malama Kauai; Our Revolution Hawaii; Supersistence; and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture, Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee recognizes that taro farming is important to the State's cultural identify and food security. Your Committee believes that reasonable tax relief facilitates the ability of farmers to reinvest in their farms and provides incentives for future generations to enter into taro farming.

Your Committee has amended this measure by:

- (1) Clarifying that the tax relief provided is an exclusion from the state income tax of a portion of a qualified taxpayer's income derived from taro production;
- (2) Clarifying the reference to qualified taxpayers who are eligible for an exclusion;
- (3) Changing from \$100,000 to an unspecified amount the amount that is excluded from the state income tax;
- (4) Simplifying the definitions of "qualified taxpayer", "taro corm", and "taro huli";
- (5) Deleting the definition of "poi mill" as it is no longer used in the measure;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 341, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 952 Ways and Means on S.B. No. 463

The purpose and intent of this measure is to promote interactive, hands-on education and better health through school and community gardens.

More specifically, this measure authorizes:

- (1) The Department of Education to develop programs that encourage the development of gardens on school property; and
- (2) The Hawaii Community Development Authority to develop programs that provide incentives to establish gardens in housing projects, communities, and schools.

Your Committee received written comments in support of this measure from the Obesity Prevention Task Force, Hawaii Public Health Institute, Hawaii Farm to School Hui, Hawaii Farm Bureau, Zero Waste Kauai, Blue Zones Project, Ka Ohana O Na Pua, Oahu Farm to School Network, and two individuals.

The Department of Education submitted written comments on the measure.

Your Committee finds that the school and community gardens authorized by this measure provide interactive, hands-on educational environments for learning about nutrition and obesity prevention and a wide range of other subjects; provide outdoor recreational opportunities; and help to promote a sense of community and well-being.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 463, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 463, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kidani, Moriwaki).

SCRep. 953 Ways and Means on S.B. No. 465

The purpose and intent of this measure is to require the Auditor to conduct an audit of the academic and financial plans of the Department of Education.

Your Committee received written comments in support of this measure from the Maui Chamber of Commerce, HE'E Coalition, and one individual.

The Department of Education and Office of the Auditor submitted written comments on the measure.

Your Committee finds that it would be more productive to narrow the scope of the audit in order to increase the relevance and utility of the information gleaned from the audit.

Your Committee has amended this measure by:

- (1) Amending the scope of the audit to focus on policies and procedures put in place by the Board of Education and Department of Education to support schools in meeting the goals and statewide student success indicators outlined in the 2017-2020 strategic plan of the Board and Department;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 465, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 465, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Kidani, Moriwaki).

SCRep. 954 Ways and Means on S.B. No. 478

The purpose and intent of this measure is to create an exclusion from the income tax for the lesser of a specified percentage or an amount of gross annual income earned by a farmer from farming activities.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, Hawaii Food Industry Association, Ulupono Initiative, and one individual.

The Department of Taxation and Tax Foundation of Hawaii submitted written comments on the measure.

Your Committee finds that the need to address the State's imbalance in agricultural trade and significantly expand food production warrants the creation of this tax relief measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 478, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Kidani, Moriwaki).

SCRep. 955 Ways and Means on S.B. No. 479

The purpose and intent of this measure is to minimize the risk of disease and pest introduction in the State.

More specifically, this measure requires the Department of Agriculture to collaborate with agricultural growers and researchers to develop and implement a program to safely distribute disease- and insect-free tropical plant materials to Hawaii farmers.

Your Committee received written comments in support of this measure from Hawaii Farm Bureau and one individual.

Your Committee received written comments in opposition to this measure from the Department of Agriculture.

Your Committee finds that the importation of flowers and foliage from outside the State creates an elevated risk of inadvertently introducing destructive insects and diseases to the State's farms and plant nurseries. Your Committee further finds that the program established by this measure would provide a safe way for disease- and insect-free tropical plant materials to be distributed within the State.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 479, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Kidani).

SCRep. 956 (Majority) Ways and Means on S.B. No. 646

The purpose and intent of this measure is to increase the rental motor vehicle surcharge tax in certain counties.

More specifically, this measure:

- (1) Increases the rental motor vehicle surcharge tax from \$5 per day to \$8 per day for any county having a residential population of more than 125,000 but less than 195,000; and
- (2) Allocates this increase in the rental motor vehicle surcharge tax to the applicable county's subaccount within the State Highway Fund.

Your Committee received written comments in support of this measure from Maui Chamber of Commerce.

Your Committee received written comments in opposition to this measure from Avis Budget Group and Enterprise Holdings.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will enable the implementation of necessary highway upgrades in the affected counties.

Your Committee has amended this measure by:

- (1) Codifying in section 251-5, Hawaii Revised Statutes, rather than section 251-2, Hawaii Revised Statutes, the requirement that, for a county having a residential population between 125,000 and 195,000, \$3 out of every \$8 collected for use of a rental motor vehicle in that county shall be deposited into that county's subaccount within the State Highway Fund; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 646, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Inouye). Excused, none.

SCRep. 957 (Majority) Ways and Means on S.B. No. 762

The purpose and intent of this measure is to require the Department of Accounting and General Services to develop an enhanced security plan for the Hawaii State Capitol and Washington Place.

More specifically, this measure:

- (1) Requires the Department of Accounting and General Services, in consultation with the Legislature and any agencies responsible for security at the Hawaii State Capitol and Washington Place, to develop and implement an enhanced security plan for the Hawaii State Capitol, Washington Place, and the surrounding area;
- Requires the Department of Accounting and General Services to submit an annual report to the Legislature regarding the enhanced security plan;
- (3) Adds the State Historic Preservation Officer as a member of the State Capitol Management Committee;
- (4) Requires that the State Capitol Management Committee be co-chaired by a member of the House of Representatives and a member of the Senate, rather than by a single chairperson elected by the committee members; and
- (5) Permitting, rather than requiring, the State Capitol Management Committee to establish rules.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Accounting and General Services and Common Cause Hawaii.

Your Committee finds that enhancing the security of the Hawaii State Capitol, Washington Place, and the surrounding area will ensure the safety of state officials, employees, and the general public while also allowing the State to continue serving the public without interruption.

Your Committee has amended this measure by:

- (1) Codifying in statute, rather than session law, the annual reporting requirements for the Department of Accounting and General Services regarding this measure's required enhanced security plan;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 762, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Taniguchi). Excused, none.

SCRep. 958 Ways and Means on S.B. No. 516

The purpose and intent of this measure is to improve the collection of data related to student attainment of industry-recognized credentials.

Specifically, this measure:

- (1) Requires the State Board for Career and Technical Education to:
 - (A) Annually review statewide data collection processes, reporting requirements, and business rules related to student attainment of industry-recognized credentials;
 - (B) Ensure that the data collection is consistent and that the reporting across all state educational systems and agencies is transparent; and
 - (C) Submit a report to the Governor and Legislature regarding the data;
- Specifies the types of data required to be collected by state agencies administering educational courses or training programs;
- (3) Requires data-sharing agreements by state agencies administering educational courses or training programs relating to industry-recognized credentials.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Chamber of Commerce Hawaii, and HawaiiKidsCAN.

Your Committee received written comments on this measure from the Department of Education and University of Hawaii System.

Your Committee finds that accurate data collection and the sharing of that data will provide policymakers with the information necessary to develop and offer programs that prepare students with the credentials required for jobs that are high-paying and responsive to industry needs.

Your Committee notes that this measure may ultimately require an effective date of July 1, 2023, along with appropriate amendments to the reporting requirements, to provide the State Board for Career and Technical Education with sufficient time to prepare the additional data collection components.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 959 Ways and Means on S.B. No. 793

The purpose and intent of this measure is to repeal the exemption of individuals with disabilities from the State's minimum wage requirements.

More specifically, this measure:

- (1) Amends the Hawaii Procurement Code's definition of "qualified community rehabilitation program" by:
 - (A) Repealing certain certification requirements; and
 - (B) Requiring that the program maintain a certain disabled-to-non-disabled employee ratio; and
- (2) Repeals the provision allowing for sub-minimum wage payments to individuals with disabilities.

Your Committee received written comments in support of this measure from the Department of Health, Disability and Communication Access Board, Hawaii State Council on Developmental Disabilities, Democratic Party of Hawaii Education Caucus, Hawaii Disability Rights Center, Hawaii State Teachers Association, Imua Alliance, National Federation of the Blind of Hawaii, PHOCUSED, and three individuals.

Your Committee finds that sub-minimum wage laws for workers with disabilities are outdated and no longer serve the purpose for which the laws were originally enacted. Accordingly, your Committee believes that it is appropriate to end the practice of paying wages that are lower than the applicable minimum wage to individuals with disabilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 793, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 960 Ways and Means on S.B. No. 797

The purpose and intent of this measure is to authorize the Chief Information Officer to approve, or expedite the approval process of:

- (1) A state agency's management information system project that is budgeted at \$1,000,000 or more; and
- (2) Other projects that the Chief Information Officer deems necessary to expedite.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services and Transform Hawaii Government.

Your Committee finds that expediting the approval of large information system projects will allow the State to better find economies of scale throughout the state government system. Your Committee further finds that the flexibility to expedite the implementation of new technologies will increase efficiency, reduce waste, and improve access to government services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 961 Ways and Means on S.B. No. 810

The purpose and intent of this measure is to eliminate the vote of the Superintendent of Education for purposes of negotiating collective bargaining agreements for bargaining units (5) and (6).

Your Committee received written comments in support of this measure from two individuals.

Your Committee received written comments in opposition to this measure from the Department of Education.

Your Committee finds that eliminating the vote of the Superintendent of Education for purposes of negotiating collective bargaining agreements for bargaining units (5) and (6) will encourage the Department of Education to work more closely with the Board of Education in developing terms of collective bargaining agreements for those bargaining units.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 810, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 962 Ways and Means on S.B. No. 813

The purpose and intent of this measure is to require the authorizer of each charter school in the State to provide the authorizer's respective charter school with a list of independent auditors that are approved to conduct the charter school's annual financial audit.

Your Committee received written comments in support of this measure from the Hawaii State Public Charter School Commission.

Your Committee finds that this measure will empower each charter school to select the approved auditor of its choice and provide neighbor island charter schools with a larger pool of independent auditors from which to choose to perform their annual audits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 963 (Joint) Ways and Means and Commerce and Consumer Protection on S.B. No. 820

The purpose and intent of this measure is to ensure the continued viability of nursing facilities in the State.

More specifically, this measure:

- (1) Extends the nursing facility sustainability program;
- (2) Removes the statutory cap on the per resident daily fee for each nursing facility; and
- (3) Provides that nursing facilities that meet certain criteria shall pay a reduced daily fee compared to other facilities.

Your Committees received written comments in support of this measure from the Department of Human Services, Healthcare Association of Hawaii, Ohana Pacific Health, The Queen's Health Systems, and Hawaii Primary Care Association.

Your Committees find that extending the nursing facility sustainability program will help to financially sustain the State's nursing facilities, which continue to face major challenges due in part to the health and financial pressures related to the coronavirus disease 2019 pandemic.

Your Committees have amended this measure by:

- Allowing nursing facilities to pay fees assessed under the nursing facility sustainability program within sixty days, instead of thirty days;
- (2) Correcting the text of section 7 of Act 124, Session Laws of Hawaii 2014, as amended, to accurately reflect the printed version of the Session Laws of Hawaii;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 820, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 820, S.D. 1.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 964 Ways and Means on S.B. No. 830

The purpose and intent of this measure is to update policies for telework and alternative work schedules.

More specifically, this measure requires:

- The Department of Human Resources Development to establish a working group to update and create existing and new
 policies and procedures relating to telework and alternative work schedules to address the caregiving responsibilities and other
 needs of state employees;
- (2) State departments and agencies to cooperate with the working group; and
- (3) The working group to submit a report of its proposed telework and alternative work schedule policies and procedures.

Your Committee received written comments in support of this measure from the Department of Education, Department of Human Resources Development, Hawaii State Commission on the Status of Women, Office of Planning, Planned Parenthood Votes Northwest and Hawaii, Hawaii Children's Action Network Speaks!, Hawaii State Coalition Against Domestic Violence, and three individuals.

Your Committee received written comments on this measure from the Hawaii Government Employees Association and American Association of University Women of Hawaii.

Your Committee finds that updated policies for telework and alternative work schedules will help to retain women in the workforce by giving them more employment flexibility to address child care and caregiving needs of their families.

Your Committee has amended this measure by:

- (1) Deleting the responsibility of the working group to establish telework and alternative work schedule policies and procedures;
- (2) Requiring state departments to adopt Department of Human Resources Development policies that permit state employees to telework while caregiving during the coronavirus disease 2019 pandemic;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 830, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 965 (Joint) Ways and Means and Commerce and Consumer Protection on S.B. No. 976

The purpose and intent of this measure is to amend the healthcare preceptor income tax credit.

More specifically, this measure:

- Amends the definitions of "preceptor" and "volunteer- based supervised clinical training rotation" to improve accessibility for
 providers to receive income tax credits for acting as preceptors; and
- (2) Revises the membership of the Preceptor Credit Assurance Committee to include the Director of Health.

Your Committees received written comments in support of this measure from the Department of Health; Department of Taxation; University of Hawaii System; Hawaii Association of Professional Nurses; Hawaii Pacific Health; Hawaii Primary Care Association; Hawaii State Center for Nursing; Hawaii State Rural Health Association; Hilo Medical Center Foundation; Hua Moon Women's Health, LLC; The Queen's Health Systems; and five individuals.

Your Committees find that there is a shortage of primary care providers in the State, which will be exacerbated by the projected retirements of current physicians, advanced practice registered nurses, and pharmacists. Your Committees also find that the purpose of the existing healthcare preceptor income tax credit is to incentivize volunteer preceptors to offer professional instruction, training, and supervision to students and residents seeking careers as healthcare providers. However, although a large number of providers trained eligible students in 2019 during the first-year implementation of the tax credit, only a small subset actually met the tax credit eligibility requirements due to the primary care qualifying criteria.

Your Committees have amended this measure by:

- (1) Clarifying that the term "primary care", as used in section 321-2.7, Hawaii Revised Statutes, has the same meaning as in section 235-110.25, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 976, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 976, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 966 Ways and Means on S.B. No. 1159

The purpose and intent of this measure is to make certain amendments with respect to employment security law.

Specifically, the measure:

- (1) Amends the definitions of "benefit year" and "week";
- (2) Provides that continued claim certifications for partial unemployment benefits shall be filed in the same manner and extent that apply to total or part-total unemployment benefits;
- (3) Sets the employer contribution rate schedules for calendar years 2021, 2022, and 2023 at schedules D, F, and G, respectively;
- (4) Authorizes the Director of Labor and Industrial Relations to modify the annual contribution rate computation method for all employers for calendar years 2020 and 2021, by omitting from the calculation benefits charged against their accounts.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic devastated Hawaii's economy, and the economic downturn forced many businesses to reduce their employees' work hours or lay off employees altogether. As a result, unemployment reached levels as high as twenty-five per cent, and in less than a three month time period, more than \$600,000,000 from the unemployment compensation trust fund was expended to pay unemployment benefit claims.

Your Committee also finds that, as a result of the reduction of the moneys in the unemployment compensation trust fund, the State, which is responsible for ensuring that there are sufficient moneys in the fund, borrowed hundreds of millions of dollars from the federal government to replenish the fund and pay unemployment claims. Your Committee recognizes the importance of paying this loan obligation in a timely manner.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting appropriations of unspecified sums of general fund revenues for fiscal years 2021-2022 and 2022-2023 for the purpose of reimbursing the federal government for moneys lent to the State for the payment of unemployment benefit claims; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1159, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 11. Noes, none. Excused, none.

SCRep. 967 Ways and Means on S.B. No. 1187

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety.

More specifically, this measure:

- (1) Makes an emergency appropriation of \$6,006,892 for the Department of Public Safety for fiscal year 2021-2022 to cover a projected shortfall for personnel services costs; and
- (2) Appropriates \$502,476 to the Department of Public Safety to fund positions for intake service centers.

Your Committee received written comments in support of this measure from the Department of Public Safety.

Your Committee finds that the emergency appropriation made by this measure will provide the Department of Public Safety with sufficient funds to provide continuous coverage sufficient to address the coronavirus disease 2019 pandemic. Your Committee further finds that the appropriation made for intake service center positions will ensure that the Department of Public Safety can meet the legislative objectives for pretrial reform initiatives established pursuant to Act 179, Session Laws of Hawaii 2019.

Your Committee has amended this measure by:

- (1) Providing that the emergency appropriation of \$6,006,892 shall be expended during fiscal year 2020-2021, instead of fiscal year 2021-2022;
- (2) Clarifying that the appropriation for the intake service centers is to establish nine permanent full-time equivalent (9.0 FTE) positions for fiscal years 2021-2022 and 2022-2023;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1187, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1187, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 968 (Joint) Ways and Means and Judiciary on S.B. No. 468

The purpose and intent of this measure is to repeal the school impact fee exemptions for developments that are or will be subject to the transient accommodations tax or that are nonresidential.

Your Committees received written comments in support of this measure from one individual.

Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii.

Your Committees received comments on this measure from Department of Education and Tax Foundation of Hawaii.

Your Committees find that expanding the use of construction cost component impact fees along with separating the expenditure plan of school impact fees from the Department of Education's annual budget process will help to provide the Department with the flexibility to more efficiently address the needs of each school impact district.

Your Committees have amended this measure by:

- (1) Authorizing the Department of Education to expend construction cost component impact fees for the improvement or renovation of existing structures for school use;
- (2) Repealing the requirement that an expenditure plan for all collected impact fees be incorporated into the Department of Education's annual budget process; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 468, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 468, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 969 (Joint) Ways and Means and Judiciary on S.B. No. 808

The purpose and intent of this measure is to clarify the powers and responsibilities of the School Facilities Agency.

More specifically, this measure:

- (1) Clarifies the powers and responsibilities of the School Facilities Agency, the agency's director and administrative staff, and the School Facilities Board;
- (2) Clarifies the membership of the School Facilities Board;
- (3) Clarifies the sources of moneys to be deposited into the School Facilities Special Fund;
- (4) Changes the deadline for the School Facilities Agency to submit its report to the Legislature pursuant to Act 72, Session Laws of Hawaii 2020, to twenty days prior to the convening of the Regular Session of 2022;
- (5) Amends Act 210, Session Laws of Hawaii 2018, to require the City and County of Honolulu to convey to the School Facilities Agency fee simple interest in certain properties not previously conveyed to the Department of Education;
- (6) Authorizes the School Facilities Agency to retain private attorneys to provide certain legal services;
- (7) Exempts the Director of the School Facilities Agency and the agency's full-time staff from civil service requirements;
- (8) Subjects to the statutory restriction on the sale or gift of lands without legislative approval lands to which the School Facilities Agency holds title;
- (9) Clarifies the definition of the term "school facilities," as the term relates to school impact fees;
- (10) Transfers the total balance of the State Educational Facilities Improvement Fund to the School Facilities Special Fund; and
- (11) Appropriates moneys into and out of the School Facilities Special Fund.

Your Committees received written comments in support of this measure from the Department of Transportation and one individual.

Your Committees received written comments in opposition to this measure from the Department of the Attorney General and Hawaii Government Employees Association.

Your Committees received written comments on this measure from the Department of Budget and Finance and Department of Education.

Your Committees find that the clarifications to the powers and responsibilities of the School Facilities Agency, the agency's director and administrative staff, and the School Facilities Board made by this measure will provide additional guidance to the agency and improve the agency's overall efficiency and effectiveness.

Your Committees have amended this measure by:

- (1) Amending Part VI, Subpart C of Chapter 302A, Hawaii Revised Statutes, instead of Section 1 of Act 72, Session Laws of Hawaii 2020;
- Clarifying that moneys received by the School Facilities Agency for deposit into a trust account shall not be deposited into the school facilities special fund;
- (3) Expanding the scope of public lands to include lands to which the school facilities agency holds title;
- (4) Inserting a definition of the term "agency" into section 302A-1602, Hawaii Revised Statutes;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 808, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 808, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 970 (Joint) Ways and Means and Judiciary on S.B. No. 913

The purpose and intent of this measure is to promote electronic stewardship and reduce electronic waste in the State.

More specifically, this measure:

- (1) Establishes a new chapter in the Hawaii Revised Statutes, to be known as the "Electronic Hardware Donation Act";
- (2) Requires all persons who receive state funds and state financial assistance to donate unnecessary but functioning electronic devices to nonprofit organizations that will refurbish and distribute the devices to eligible persons in the State;
- (3) Requires the Department of Accounting and General Services to receive information from refurbishers and recipients covered by the Act, maintain a website with current information, and submit an annual report to the Legislature; and
- (4) Authorizes administrative penalties for noncompliance.

Your Committees received written comments in support of this measure from the Department of Education, Hawaiian Hope, and two individuals.

Written comments in opposition were received from one individual.

The Department of Accounting and General Services submitted written comments on the measure.

Your Committees find that the refurbishment and distribution of electronic devices under this measure will extend the lives of valuable products, keep devices out of the waste stream for a longer period, and provide to schools, nonprofit organizations, and lower-income families the electronic equipment that they otherwise may not be able to afford.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 913, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 913, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 971 (Joint) Ways and Means and Judiciary on S.B. No. 1198

The purpose and intent of this measure is to amend and simplify Chapters 231 and 232, Hawaii Revised Statutes, relating to mandatory electronic filing, mandatory electronic payment, and interest rates.

More specifically, this measure:

- (1) Allows the Department of Taxation to mandate the electronic filing of:
 - (A) Partnership and S-corporation returns if the taxpayer's gross receipts exceed \$250,000; and
 - (B) Individual tax returns if the federal adjusted gross income, as shown on the taxpayer's Hawaii return, exceeds \$100,000;
- (2) Requires certain tax return preparers to file returns electronically;
- (3) Amends the rules for electronic funds transfer to remove the authorization to require electronic funds transfer or electronic filing if the federal government required that taxpayer to file or pay electronically;
- (4) Requires electronic funds transfers for tax return preparers and any person subject to mandatory electronic filing;
- (5) Removes the timeliness requirement from the electronic funds transfer penalty;
- (6) Removes the authority of the Department of Taxation to charge for certified copies of tax clearances;
- (7) Authorizes the Department of Taxation to make limited disclosures of a liquor licensee's tax compliance information directly to the license issuing agency; and
- (8) Clarifies the interest rate for payments made to taxpayers out of the litigated claims fund.

Your Committees received written comments in support of this measure from the Department of Budget and Finance and Department of Taxation.

Your Committees received written comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the amendments proposed by this measure are consistent with national trends toward electronic filing and electronic payment and would add clarity to the administration of taxes.

Your Committees have amended this measure by:

- (1) Amending section 235-20.5, Hawaii Revised Statutes, to expand the permissible uses of the tax administration special fund;
- (2) Clarifying the requirement that tax return preparers file electronically;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1198, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1198, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 972 (Joint) Ways and Means and Judiciary on S.B. No. 1204

The purpose and intent of this measure is to replace the taxation district boards of review with a single statewide Taxation Board of Review consisting of ten members appointed by the Governor.

Your Committees received written comments in support of this measure from the Department of Taxation.

Your Committees received written comments on this measure from the Office of Information Practices and Tax Foundation of

Your Committees anticipate that a single statewide Taxation Board of Review will be able to attain regular and consistent quorum and attract individuals who are qualified and willing to serve as members.

Your Committees have amended this measure by:

- Clarifying that the Governor may appoint an acting member to the Taxation Board of Review without regard to section 26-34,
 Hawaii Revised Statutes, which generally requires the advice and consent of the Senate for the appointment of any member to
 a board: and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1204, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1204, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 973 (Joint) Ways and Means and Judiciary on S.B. No. 1207

The purpose and intent of this measure is to provide government agencies with additional flexibility to conduct procurements during emergency situations.

More specifically, this measure:

- Authorizes the head of a purchasing agency to obtain emergency procurements to address equipment failures; make repairs to
 public property to protect against further loss of or damage to public property; and to prevent or minimize serious disruption in
 the continued functioning of government services;
- (2) Removes the requirement that an emergency procurement receive prior approval from the chief procurement officer; and
- (3) Requires a head of a purchasing agency to submit a report accounting for the emergency procurement to the chief procurement officer and the Legislature within sixty days of the end of the fiscal year in which the procurement was made.

Your Committees received written comments in support of this measure from the Department of Accounting and General Services.

Your Committees received written comments in opposition to this measure from the Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund.

Your Committees find that this measure will allow government agencies to procure necessary goods, services, and construction more quickly and efficiently for smaller and more localized emergency situations. Your Committees further find that this will help vital facilities to keep operating and allow essential government services to continue to be delivered to the public with less disruption.

Your Committees have amended this measure by:

- Clarifying that a head of a purchasing agency may make an emergency procurement when a situation creates a threat to life, public health, welfare, public property, serious disruption to government services, or safety, including a situation caused by equipment failure;
- Correcting the text of section 103D-307, Hawaii Revised Statutes, to accurately reflect the printed version of the Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making a technical nonsubstantive change for the purpose of style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1207, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1207, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 974 (Joint) Ways and Means and Judiciary on S.B. No. 1285

The purpose and intent of this measure is to better bridge the cultural and language gaps between healthcare providers and Compact of Free Association (COFA) benefit recipients in the State.

More specifically, this measure requires any hospital that serves a community having more than five hundred COFA benefit recipients to:

- (1) Establish and implement a program of diversity and inclusion training for all staff; and
- (2) Hire interpreters and community healthcare workers as necessary to effectively communicate with, and provide culturally sensitive services to, the community.

Your Committees received written comments in support of this measure from the Hawaii Civil Rights Commission and two individuals

The Queen's Health Systems, Kaiser Permanente, Healthcare Association of Hawaii, Hawaii Pacific Health, and Hale Makua-Wailuku submitted written comments on the measure.

Your Committees find that many COFA benefit recipients have experienced prejudice and discrimination in the healthcare system. Your Committees also find that investment in programs that bridge cultural and language gaps between healthcare providers and COFA benefit recipients, as required by this measure, will help to alleviate treatment disparities and the resulting financial burden on the State and revenue loss by medical facilities.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1285, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1285, S.D. 2.

Signed by the Chairs on behalf of the Committees. Ways and Means: Ayes, 11. Noes, none. Excused, none. Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 975 Human Services on Gov. Msg. No. 503

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF HUMAN SERVICES

G.M. No. 503 CATHERINE BETTS, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Catherine Betts for service as the Director of the Department of Human Resources.

Your Committee received testimony in support of the nomination from the Office of the Governor; Department of Budget and Finance; Department of Human Resources Development; Department of Health; Department of Transportation; Department of Agriculture; Department of Land and Natural Resources; Department of Taxation; Department of Defense; Department of Labor and Industrial Relations; Department of Accounting and General Services; Hawaii Public Housing Authority; Department of Public Safety; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Hawaiian Home Lands; Workforce Development Council; Department of Human Services, Benefit, Employee, and Support Services Division; Hawaii State Energy Office; Hawaii's State Commission on the Status of Women; Hawaii's State Youth Commission; Department of Human Services, Workforce Development Council; Domestic Violence Action Center; Hawaii Medical Service Association; Hawaii Family Caregiver Association; Hina Mauka; Hawaii Children's Action Network, Harm Reduction Hawaii; Healthcare Association of Hawaii; East Hawaii Region of Hawaii Systems Corporation; Hawai'i Primary Care Association; PHOCUSED; Planned Parenthood Votes Northwest and Hawaii; Parents and Children Together; Hawai'i Women Lawyers; AlohaCare; YWCA Oahu; One Shared Future, Child and Family Service; and forty individuals.

Your Committee finds that Ms. Betts, who has served as Acting Director of Human Services since September 2020, has demonstrated a deep understanding of the leadership needed to guide the Department of Human Services through the unique challenges presented by the coronavirus disease 2019 (COVID-19) pandemic. It is notable that, as Deputy Director from October 2017 until September 2020, Ms. Betts worked alongside former Director Pankaj Bhanot on all substantive matters, including budget preparation, legislative reviews, meetings with community stakeholders, review of litigation, ongoing re-organizations of the Department's staff, offices, and divisions, and development of the Department's first strategic plan. Therefore, she has acquired valuable and practical experience especially relevant to the position for which she is nominated. Your Committee finds that in her testimony, Ms. Betts shared her deeply held belief that "economic justice, gender justice, and racial justice are intricately interwoven, and that no oppression can be undone without taking a hard look at the myriad ways individuals, families, and communities are undervalued and marginalized, thereby affecting their social determinants of health, wellbeing, and their ability to thrive."

Your Committee further finds that after litigating complex child abuse and neglect cases for the attorney general and practicing family law, in December 2011, Ms. Betts was named Executive Director of the Hawaii Commission on the Status of Women, where she served until September 2017. During her tenure, Ms. Betts spearheaded progressive legislation for women, including requiring emergency rooms to provide emergency contraception to sexual assault victims, providing for a bill of rights for domestic workers (including minimum wage and overtime protections), and strengthening Hawaii's equal pay law. Demonstrating her ability to engage with public and private partners, your Committee also finds that Ms. Betts chaired multiple task forces and working groups, and she convened county and state agencies and community stakeholders on issues such as domestic violence response, sexual assault evidence collection kit backlog, pregnancy discrimination, and breastfeeding in the work place laws and regulations.

Your Committee notes the testimony received in support of Ms. Betts' nomination, which indicates that she has earned the trust and respect of colleagues with whom she has engaged over many years. Therefore, your Committee concludes that Ms. Betts' extensive background and experience in law, policy, management, and leadership, as well as her passion for serving the public, especially children and vulnerable adults, qualify her for the position of Director of the Department of Human Services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 976 Labor, Culture and the Arts on Gov. Msg. No. 504

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS

G.M. No. 504 ANNE PERREIRA-EUSTAQUIO, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Anne Perreira-Eustaquio for service as the Director of Labor and Industrial Relations.

Your Committee received testimony in support of the nomination for the appointment of Ms. Perreira-Eustaquio from the Governor; Department of Accounting and General Services; Department of Agriculture; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Hawaiian Home Lands; Department of Health; Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Department of Public Safety; Department of Taxation; Department of Transportation; Hawaii State Energy Office; Office of Enterprise Technology Services; Labor and Industrial Relations Appeals Board; Workforce Development Council; Department of Labor and Industrial Relations Wage Standards Division; Department of Labor and Industrial Relations Workforce Development Division; Hawaii Government Employees Association, AFSCME Local 152, AFL CIO; and six individuals. Your Committee received testimony in opposition to the nomination for the appointment of Ms. Perreira-Eustaquio from the Hawaii Workers Center and one individual.

Upon review of the testimony, your Committee finds that Ms. Perreira-Eustaquio's background and dedication to serving the public qualify her to be appointed as Director of Labor and Industrial Relations. Your Committee notes that she is currently the Acting Director of Labor and Industrial Relations. Prior to that, she served as the Department's Deputy Director, Unemployment Insurance Administrator, and as the Unemployment Insurance Program Development Officer. Ms. Perreira-Eustaquio has served in a variety of other positions in the Department, including Program Specialist V & VI and Auditor II, III, and IV. She holds a Bachelor of Business Administration degree in Accounting and a Master's degree in Business Administration from Chaminade University of Honolulu.

Your Committee finds that Ms. Perreira-Eustaquio has a thorough understanding of the role and responsibilities of the Director and her extensive experience in the Department will continue to enhance Department operations. Your Committee therefore recommends that Ms. Perreira-Eustaquio be appointed as the Director of Labor and Industrial Relations based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 977 Labor, Culture and the Arts on Gov. Msg. No. 505

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS

G.M. No. 505 JOANN VIDINHAR, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Joann Vidinhar for service as the Deputy Director of Labor and Industrial Relations.

Your Committee received testimony in support of the nomination for the appointment of Ms. Vidinhar from the Governor; Department of Accounting and General Services; Department of Agriculture; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Hawaiian Home Lands; Department of Human Resources Development; Department of Human Services; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Department of Public Safety; Department of Taxation; Department of Transportation; Hawaii State Energy Office; Office of Enterprise Technology Services; Labor and Industrial Relations Appeals Board; Workforce Development Council; Department of Labor and Industrial Relations Workforce Development Division; and three individuals.

Upon review of the testimony, your Committee finds that Ms. Vidinhar's background and commitment to serving the public qualify her to be appointed as Deputy Director of Labor and Industrial Relations. Your Committee notes that she has been serving as the Acting Deputy Director of Labor and Industrial Relations since September 2020. Prior to that, she served as the Administrator for the Department's Disability Compensation Division. Ms. Vidinhar has previously served in a variety of public positions, including as the Assistant Director and City Building Official, and as the Development Manager and Planner at the City of Bremerton, Washington Department of Community Development; and as a Senior Planner and Building and Planning Supervisor at the Kitsap County Department of Community Development.

Your Committee finds that Ms. Vidinhar has a thorough understanding of the role and responsibilities of the Deputy Director and her extensive experience with work programs and public sector management will continue to enhance Department operations. Your Committee therefore recommends that Ms. Vidinhar be appointed as Deputy Director of Labor and Industrial Relations based on her knowledge, experience, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 978 Judiciary on Gov. Msg. No. 515

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLAND OF O'AHU

G.M. No. 515 MARILYN KHAN, for a term to expire 06-30-2023

Your Committee reviewed the personal history, resume, and statement submitted by Marilyn Khan for service on the Board of Registration of the Island of O'ahu.

Your Committee received testimony in support of the nomination for the reappointment of Marilyn Leimomi Khan from the Koʻolau Foundation and four individuals.

Upon review of the testimony, your Committee finds that Ms. Khan's experience, background, and commitment to public service qualify her for consideration for reappointment to the Board of Registration of the Island of O'ahu. Numerous testifiers commended Ms. Khan's integrity and dedication to fairness in the democratic process. Your Committee further finds that she has developed a strong reputation for professionalism and thoroughness during her service on the Board of Registration of the Island of O'ahu, and that her commitment to ensuring fairness in the process of registering and counting votes will continue to be great assets to the Board.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 979 Judiciary on Gov. Msg. Nos. 525 and 663

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION TO PROMOTE UNIFORM LEGISLATION

G.M. No. 525 PETER HAMASAKI, for a term to expire 06-30-2024; and

G.M. No. 663 LANI EWART, for a term to expire 06-30-2025

Your Committee has reviewed the personal histories, resumes, and statements submitted by Peter Hamasaki and Lani Ewart for service on the Commission to Promote Uniform Legislation.

PETER HAMASAKI

Your Committee received testimony in support of the nomination for the reappointment of Peter Hamasaki from the Department of the Attorney General and three individuals.

Upon review of the testimony, your Committee finds that Mr. Hamasaki's background, experience, and commitment to public service qualify him for consideration for reappointment to the Commission to Promote Uniform Legislation. Your Committee notes that Mr. Hamasaki is licensed to practice law in the State and has regularly attended and participated in the annual meetings of the National Conference of Commissioners on Uniform State Laws and the National Conference's committee meetings. Mr. Hamasaki has served as a member of numerous National Conference committees, including the National Conference's Drafting Committee on Registered Agents and Annual Filing Requirements Act and the Drafting Committee to Revise the Uniform Law on Notarial Acts, among many others. Your Committee further notes that the National Conference's committee appointments are selectively made by the President of the National Conference and not all members have the privilege of serving on a Committee. In addition to attending meetings of the National Conference, Mr. Hamasaki has regularly participated in meetings and activities of the Commission to Promote Uniform Legislation by providing information to interested organizations and officials of the Executive Branch and providing testimony to legislative committees during hearings on bills to enact new or revised uniform laws.

LANI EWART

Your Committee received testimony in support of the nomination for the reappointment of Lani Ewart from the Department of the Attorney General and three individuals.

Upon review of the testimony, your Committee finds that Ms. Ewart's background, experience, and commitment to public service qualify her for consideration for reappointment to the Commission to Promote Uniform Legislation. Your Committee notes that Ms. Ewart is licensed to practice law in the State, and has served on the Commission to Promote Uniform Legislation continuously since 1977. She currently serves as Chairperson of the Commission, and has regularly attended and actively participated in the Commission's meetings. Your Committee further notes that Ms. Ewart was elected to Life Membership in the National Conference in 1998. To become a Life Member, a commissioner is required to serve the National Conference in the voluntary drafting and review of uniform laws for at least twenty years, must be recommended by the National Conference's Executive Committee, and must be elected by an affirmative vote of two-thirds of the commissioners present and voting at the session in which the recommendation is made. Your Committee additionally finds that Ms. Ewart was the first woman commissioner to be elected to Life Membership in the then 106-year history of the National Conference. Your Committee further finds that Ms. Ewart has served on numerous National

Conference Committees during her service as a commissioner, and has been instrumental in the activities of the Commission to Promote Uniform Legislation.

As affirmed by the records of votes of the members of your Committee on Judiciary that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 980 Transportation on Gov. Msg. Nos. 569, 570, 571, and 572

Recommending that the Senate advise and consent to the nominations of the following:

STATE HIGHWAY SAFETY COUNCIL

G.M. No. 569 KAREN TESSIER, for a term to expire 06-30-2024;

G.M. No. 570 HENRY ROSS, for a term to expire 06-30-2024;

G.M. No. 571 VERNON SCRIBNER, for a term to expire 06-30-2024; and

G.M. No. 572 CHAD TANIGUCHI, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by Karen Tessier, Henry Ross, Vernon Scribner, and Chad Taniguchi for service on the State Highway Safety Council.

KAREN TESSIER

Your Committee received testimony in support of the nomination for the appointment of Karen Tessier from the Department of Transportation and one individual.

Upon review of the testimony, your Committee finds that Ms. Tessier's experience in the field of nursing, especially her experience caring for children in the pediatric intensive care unit who were victims of motor vehicle crashes, will be very beneficial to the Council. Ms. Tessier is currently an Assistant Professor at the University of Hawaii at Manoa, School of Nursing and Dental Hygiene. Your Committee notes that Ms. Tessier is already actively contributing to highway safety in her position as Coordinator of the Keiki Injury Prevention Coalition Child Passenger Safety program as well as being a nationally certified Child Passenger Safety Technician Instructor. These experiences will give Ms. Tessier a unique voice on the Council and allow her to use her personal knowledge and experiences gained from years of service to advance child safety initiatives. Your Committee therefore finds that Ms. Tessier's knowledge, personal experience, and desire to contribute to the community will be valuable assets to the State Highway Safety Council.

HENRY ROSS

Your Committee received testimony in support of the nomination for the appointment of Henry Ross from the Department of Transportation and Office of the Prosecuting Attorney for the County of Kauai.

Your Committee finds that Mr. Ross currently serves as a Deputy Prosecuting Attorney for the County of Kauai. In that role he has prosecuted all types and degrees of traffic crimes on Kauai. Your Committee notes that Mr. Ross also serves as a Traffic Safety Resource Prosecutor (TSRP) in the Kauai Office of the Prosecuting Attorney. As a TSRP, he provides legal resources to law enforcement officers and traffic prosecutors around the State. In his personal statement, Mr. Ross highlighted his role as a TSRP and explained how this role has provided him with the opportunity to work with a wide variety of traffic safety professionals as well as being constantly engaged in traffic safety issues. Your Committee therefore finds that Mr. Ross's knowledge, personal experience, and desire to contribute to the community will be valuable assets to the State Highway Safety Council.

VERNON SCRIBNER

Your Committee received testimony in support of the nomination for the appointment of Vernon Scribner from the Department of Transportation, Office of the Prosecuting Attorney of the County of Kauai, Kauai County Police Department, and one individual.

Your Committee finds that Mr. Scribner currently serves as a Sergeant with the Kauai Police Department. Mr. Scribner brings decades of policing experience to the Council and will be able to provide valuable insights to traffic safety from a law enforcement perspective. Your Committee also notes that during his more than twenty years of service with the Kauai Police Department, Mr. Scribner worked for six years as a Traffic Crash Reconstructionist and for the past two years as the Acting Commander for the Kauai Police Department's Traffic Safety Section. In those roles, Mr. Scribner has responded to numerous serious and fatal injury crashes and will bring that wealth of experience to bear while working with the Council to improve highway safety. Your Committee therefore finds that Mr. Scribner's knowledge, personal experience, and desire to contribute to the community will be valuable assets to the State Highway Safety Council.

CHAD TANIGUCHI

Your Committee received testimony in support of the nomination for the reappointment of Chad Taniguchi from the Department of Transportation.

Your Committee finds that Mr. Taniguchi is the Emeritus Director for the Hawaii Bicycling League (HBL) and the former Executive Director for the Hawaii Public Housing Authority. Mr. Taniguchi has previously served on the State Highway Safety Council from 2011 until 2018 and the experience he gained will be a valuable resource. Your Committee notes Mr. Taniguchi's commitment to the State's Vision Zero policy, a state-wide policy that seeks to prevent and ultimately eliminate all traffic fatalities in the State, and is impressed by his work with Robert's Hawaii while serving as the Executive Director of the HBL. Robert's Hawaii drivers had been

responsible for accidents that resulted in at least one pedestrian or cyclist fatality each year between 2006 and 2010 until Mr. Taniguchi and HBL worked with them to reduce that number to zero fatal accidents since 2010. Your Committee therefore finds that Mr. Taniguchi's knowledge, personal experience, and desire to contribute to the community will be valuable assets to the State Highway Safety Council.

As affirmed by the records of votes of the members of your Committee on Transportation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. For Gov. Msg. Nos. 569, 570, and 571: Ayes, 3. Noes, none. Excused, 2 (English, Fevella). For Gov. Msg. No. 572: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 981 Health on Gov. Msg. No. 506

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF HEALTH

G.M. No. 506 ELIZABETH CHAR, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Dr. Elizabeth Char for service as the Director of the Department of Health.

Your Committee received testimony in support of the nomination for the appointment of Dr. Char from the Office of the Governor; Department of Agriculture; Department of Commerce and Consumer Affairs; Department of Land and Natural Resources; Department of Transportation; Department of Defense; Department of Accounting and General Services; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Department of Public Safety; Department of Taxation; Department of Human Resources Development; Department of Education; Department of Human Services; Department of Hawaiia Home Lands; Hawaii State Energy Office; State Fire Council; University of Hawaii at Manoa Pacific Emergency Management, Preparedness and Response Information Network and Training Services; Hawaii Health Systems Corporation; Hawai'i Lodging & Tourism Association; Hawai'i Tourism Authority; City and County of Honolulu Department of Emergency Management; City and County of Honolulu Emergency Services Department; Mayor of the County of Kaua'i; Hawai'i Fire Department; Hawai'i Pacific Health; The Queen's Health Systems; Hawaii Primary Care Association; Healthcare Association of Hawaii; Kaiser Permanente Hawai'i; One Shared Future Inc.; American Heart Association, Inc.; Hawaii College of Emergency Physicians; Hawaii Medical Service Association; Hina Mauka; Kökua Mau, Inc.; National Association of EMS Physicians; Hawaii' Public Health Institute; and sixty-eight individuals.

Dr. Char is currently the Interim Director of Health and was appointed to the position as the State was grappling with the coronavirus disease 2019 (COVID-19) pandemic. At the time of her appointment, Dr. Char was working as an emergency physician for Queen's Healthcare Centers; was the Medical Director of American Medical Response, Hawaii; and the Medical Director of both the Honolulu Fire Department and Kauai Fire Department. Dr. Char has served, among other positions, as the Director of the City and County of Honolulu's Emergency Services Department, Medical Director of Oahu Emergency Medical Services, and President of the Oahu Board of Directors for the American Heart Association. Dr. Char has also served as an advisor for the Emergency Medicine Interest Group at the John A. Burns School of Medicine. Additionally, Dr. Char has served the State as a member of the State's Maternal Mortality Review Committee and Opioid Abuse and Prevention Task Force. Dr. Char has held these positions while practicing as a physician since 1997. Notably, the Governor named Dr. Char to the position of Interim Director of Health on September 8, 2020, shortly after Hawaii experienced a spike in COVID-19 infections in August 2020. She was immediately faced with captaining the State's response to the pandemic through efforts such as contact tracing, developing safety policies, and the ongoing vaccine distribution

Dr. Char is admired and respected by her colleagues, as evidenced by the unanimous supportive testimony submitted on her behalf. Testimony in support of her nomination indicates that she has a proven track record of being a tireless worker, an effective communicator, and an experienced physician. Testifiers who have worked closely with Dr. Char commented that, in her time as Interim Director of Health, she has brought a holistic perspective and vision to the Department of Health and that she makes sound, evidence-based decisions. Other testifiers noted that Dr. Char brings a leadership style that is authentic, humble, collaborative, compassionate, and competent.

Your Committee notes from Dr. Char's personal statement that her vision for the Department of Health is to lead a team of deputy directors towards a science-based, rational approach to help the State navigate the COVID-19 pandemic and mitigate morbidity and mortality in the community. Dr. Char also highlighted the need for collaboration between government, the private sector, and the nonprofit sector to solve the challenges presented by the COVID-19 pandemic and other public health problems that may arise. Your Committee believes that Dr. Char, with her experience, background, and demonstrated commitment to the health and safety of the people of Hawaii, possesses the qualifications to serve and excel as the Director of Health and to continue leading the Department of Health

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 982 Agriculture and Environment on H.B. No. 817

The purpose and intent of this measure is to require each executive department to ensure that a certain percentage of the produce purchased by that department is grown in Hawaii and report to the Legislature on each department's progress toward meeting locally-grown produce benchmarks.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i Farm Bureau; Malama Kaua'i; Ulupono Initiative LLC; Healthy Eating Active Living; Hawai'i Public Health Institute; Hawai'i Farm to School Hui, Hawaii Cattlemen's Council, Inc.; Hawai'i Alliance for Progressive Action; Center for Getting Things Started; Land Use Research Foundation of Hawaii; Kamehameha Schools; and eleven individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that supporting local businesses and encouraging the production and use of local agricultural products is a matter of statewide concern. Requiring state departments and agencies to establish and meet benchmarks for the purchase of fifty percent locally grown, raised, and harvested produce by 2050, with relative benchmarks along the way, demonstrates the State's support for local farmers and ranchers with a consistent market to provide fresh, healthy products to the community and revitalization of the local economy, especially in the State's rural areas. Local food procurement boosts the flavor of meals, benefits the environment through maintenance of farmland and green space, and promotes food safety. These efforts can be important in supporting local food production goals, supporting the local agriculture industry, and increasing the State's food security efforts. Additionally, the staggered timeline proposed by the measure can help farmers gradually expand production to meet proposed demands.

Your Committee also finds that this measure seeks to provide equitable access to locally-grown products to all Hawaii residents, rather than those with the means to spend premium prices for local products.

Your Committee has amended this measure by:

- (1) Clarifying that the benchmark for locally-grown products are measured by the percent of total food cost;
- Replacing "locally-grown produce" with "fresh local agricultural products and local value-added, processed, agricultural, or food products" throughout;
- (3) Adding definitions for "fresh local agricultural products", "local value-added processed, agricultural, or food products", and "primary agricultural product" to be in alignment with the Department of Agriculture's Seal of Quality Program that protects Hawaii's brand for fresh and value-added products; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 817, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 817, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 983 Agriculture and Environment on H.B. No. 871

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under its jurisdiction, to support and promote agriculture;
- (2) Establish the agricultural enterprise program;
- (3) Establish the agricultural enterprise special fund; and
- (4) Require the Board of Agriculture to annually report an accounting of non-agricultural park lessees to the Legislature.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i College of Tropical Agriculture and Human Resources, Hawaii Aquaculture & Aquaponics Association; Hawaii Farm Bureau; East Oahu County Farm Bureau; Ulupalakua Ranch; Hawaii Cattlemen's Council, Inc.; Larry Jefts Farms, LLC; Ulupono Initiative LLC; Ag Matters, LLC; Local Food Coalition; Kalera, Inc.; Land Use Research Foundation of Hawaii; Hawai'i Food+ Policy Internship 2021; Kualoa Ranch Hawaii; and twelve individuals.

Your Committee finds that article XI, section 3, of the Hawaii State Constitution establishes, in part, that the "State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands." Currently, the Department of Agriculture's agricultural park program and the non-agricultural park program focuses on the actual, physical farming activity on land. Limited ancillary activity is allowed only under narrow conditions and circumstances. Many diversified farming operations do not have adequate resources to expand or maximize their productivity. Your Committee finds that it is imperative to provide the Department of Agriculture flexibility to move forward with agricultural educational training, farmers' markets, and food hubs and processing facilities on state agricultural lands to promote and support diversified agriculture and ensure agricultural sustainability. Agricultural infrastructure such as controlled environment production, on-site processing, cold storage, and value-added processing will promote environmental sustainability and meet consumer demands. These types of operations are extremely costly and not within the budgets for new or expanding small and medium-sized farms but are critical to support the State's goal relating to food production.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 871, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 871, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 984 Agriculture and Environment on H.B. No. 416

The purpose and intent of this measure is to:

- (1) Prohibit certain restraints and tethers that endanger a dog, including preventing the dog from obtaining sustenance; and
- (2) Authorize courts to order attendance at educational classes concerning animal abuse prevention in addition to other penalties.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Animal Interfaith Alliance in Britain, Animal Rights Hawai'i, Sanctuary of Mana Ke'a Gardens, Hawaii Association of Animal Welfare Agencies, Domestic Violence Hurts Animals and People, Pono Advocacy, The Humane Society of the United States, and thirty-five individuals. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that tethering a dog in ways that cause injuries; preventing access to food, water, or shelter; or isolating an animal from opportunities to bond with their human families adversely affects the health and safety of dogs and can lead to further aggressive behavior. Dogs that are tethered are three times more likely to develop aggressive behavior than those that are not chained. Existing statutes make it difficult for law enforcement officers to act before an improperly tethered or restrained dog has suffered serious injuries or death. Your Committee further finds that these protections will ensure that dogs who are kept outdoors are provided proper and humane restraints and are provided adequate food and water. This measure is intended to create reasonable expectations for the humane treatment of dogs, and not simply to punish violators. The proposed enforcement provisions concerning proper tethering will allow investigators to educate dog owners so they can correct violations before an animal becomes aggressive or the dog endangers itself, keeping pets safe on their property and socially integrated.

Your Committee has heard the concerns of the Department of the Prosecuting Attorney of the City and County of Honolulu that this measure as drafted appears to narrow the criminal conduct, rather than expand the criteria for behavior that qualifies under the offense. Additionally, the suggested penalties may create a conflict within existing statutes that may unnecessarily restrict the Department of the Prosecuting Attorney from requesting the educational courses as a condition of probation in other types of cruelty to animal offenses. Removal of this provision would not preclude the courts from imposing educational classes as already authorized under section 706-624, Hawaii Revised Statues, Amendments to this measure are therefore necessary to address the Department of the Prosecuting Attorney's concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the prohibited conduct and elements under the offense of cruelty to animals in the second degree;
- (2) Removing language that would have authorized a court to order attendance at educational classes concerning animal abuse prevention pursuant to section 706-624, Hawaii Revised Statutes, because courts already have such discretion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 416, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 416, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 985 Agriculture and Environment on H.B. No. 770

The purpose and intent of this measure is to protect the health of Hawaii's consumers by establishing a task force to:

- (1) Review and recommend specific actions to ensure that Hawaii's food imports, including meat, produce, and all dairy products, are sourced, transported, stored, and distributed to retailers, restaurants, institutions, schools, or any place designated for sale to the public, in compliance with the federal Food Safety Modernization Act; and
- (2) Develop specific recommendations to ensure that all foods and brands imported into Hawaii do not mislead or confuse the public through name, pictures, artwork, or statements in packaging or by advertising that the imported food's origin is from Hawaii or has the same freshness or qualities as food that is locally produced.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i College of Tropical Agriculture and Human Resources, and one individual.

Your Committee finds that aligning the State's food safety standards with the food safety science requirements in the Food Safety Modernization Act from source point to sale will safeguard our most vulnerable populations from ailments, hospitalizations, and death associated with bacterial infections linked to foodborne illnesses. Your Committee further finds that the growth in demand for local products has caused an increase of non-locally made products to be marketed and packaged. The scope of the proposed task force includes finding mechanisms to protect against continued misrepresentations of the origin of products as being from any place within Hawaii if the origin of the product is not actually from the State, thereby ensuring consumers that they are purchasing and supporting local products.

Your Committee has amended this measure by:

- (1) Adding the Director of Health as a member of the task force, as the appropriate party with food security concerns under their purview;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 770, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 770, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 986 Agriculture and Environment on H.B. No. 1088

The purpose and intent of this measure is to prohibit manufacturers from importing cosmetics in the State for profit, sale, and offer for sale if the final product or any component of the final product was developed or manufactured using animal testing performed in a cruel manner on or after January 1, 2024.

Your Committee received testimony in support of this measure from Animal Rights Hawai'i, Animal Defenders International, Pono Advocacy, Cruelty Free United States, Cruelty Free International, The Body Shop, Hawaiian Humane Society, Down to Earth Organic & Natural, The Humane Society of the United States, and nine individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that testing cosmetics on animals is cruel and increasingly unnecessary, as there are now thousands of cosmetic ingredients whose effects have already been tested and compiled. Alternatives to animal testing are available, some of which provide better predictors of adverse human reactions to new chemical compounds than animal testing. Your Committee notes that the prohibition on the sale of cosmetics tested on animals included in this measure is not unique, as similar prohibitions have already been adopted by California, Nevada, Illinois, India, Israel, Norway, Switzerland, and the European Union.

Your Committee finds that this measure strikes a balance between a complete ban and limited exceptions to the animal testing prohibition, which exceptions recognize the realities of chemical testing commonly done around the globe. Your Committee further notes that this measure is not intended to penalize retailers or consumers who rely on manufacturers to meet state laws or rules, nor is its intent to prohibit the continued import or export of cosmetic products in the State from or to other countries if the safety of the product sold in the State does not rely on data from animal testing that was performed after 2024.

Your Committee has amended this measure by:

- (1) Moving the substantive provisions to chapter 321, Hawaii Revised Statutes, relating to the Department of Health, as chapter 328, Hawaii Revised Statutes, only governs cosmetics related to human health;
- (2) Deleting references to section 711-1109, Hawaii Revised Statutes, as the testing of ingredients on animals does not occur in Hawaii, and thus could not be substantiated as meeting the state law's definition of cruelty;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1088, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1088, H.D. 3, S.D. 1, and be referred to your Committees on Judiciary and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 987 Agriculture and Environment on H.B. No. 1102

The purpose and intent of this measure is to prohibit the intentional release of balloons inflated with a gas that is lighter than air.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources – Division of Aquatic Resources, Hawai'i Reef and Ocean Coalition, Animal Rights Hawai'i, For the Fishes, Surfrider Foundation O'ahu Chapter, Beach Environmental Awareness Campaign Hawaii (B.E.A.C.H.), Hawai'i Wildlife Fund, The Humane Society of the United States, six individuals, and a petition signed by over fifteen hundred individuals.

Your Committee finds that the release of balloons inflated with lighter-than-air gases poses a danger and nuisance to the environment, particularly to wildlife and marine animals. Many animals are attracted to the bright colors of balloons and mistake them for food, which can cause an animal severe injury or death. Animals are often found entangled in balloon strings and as a result are injured or strangled to death.

Your Committee further finds that any benefit provided by the intentional release of balloons is de minimis at best. There are numerous other ecologically friendly options to celebrate or commemorate events. Therefore, your Committee finds that to ensure the safety of wildlife and marine animals and protect the environment, the intentional release of balloons filled with lighter-than-air gas should be prohibited, except under certain circumstances.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1102, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1102, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

CRep. 988 Transportation on Gov. Msg. Nos. 567 and 568

Recommending that the Senate advise and consent to the nominations of the following:

MEDICAL ADVISORY BOARD

G.M. No. 567 ANTHONY KATRAS, for a term to expire 06-30-2025; and

G.M. No. 568 CHRISTOPHER TORTORA, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Anthony Katras and Christopher Tortora for service on the Medical Advisory Board.

ANTHONY KATRAS

Your Committee received testimony in support of the nomination for the reappointment of Anthony Katras from the Department of Transportation.

Upon review of the testimony, your Committee finds that Dr. Katras' professional experience, background, and commitment to public service qualify him for consideration for reappointment to the Medial Advisory Board. Dr. Katras is currently a vascular surgeon at Straub Clinic and Hospital and Tripler Army Medical Center. His experience and knowledge with general medical issues as well as with vascular surgical procedures in particular will continue to be of great benefit to the Board, especially when reviewing cases that involve these types of medical conditions. Your Committee notes that Dr. Katras has served on the Medical Advisory Board for the past three years and his experience in this role will be a valuable resource. Your Committee therefore finds that Dr. Katras' knowledge, personal experience, and desire to contribute to the community will continue to be valuable assets to the Medical Advisory Board.

CHRISTOPHER TORTORA

Your Committee received testimony in support of the nomination for the reappointment of Christopher Tortora from the Department of Transportation.

Upon review of the testimony, your Committee finds that Dr. Tortora's professional experience, background, and commitment to public service qualify him for consideration for reappointment to the Medial Advisory Board. Prior to his retirement in 2019, Dr. Tortora served as the Medical Director of the Hawaii Eye Center for sixteen years. In over thirty years of practice as an ophthalmologist with a sub-specialty in glaucoma and cataract, Dr. Tortora was frequently acknowledged as a leader in his field and received "Top Doctor" and "Best Doctors" awards in 2015-2017. Your Committee also notes that Dr. Tortora has been serving on the Medical Advisory Board since 2020 and that his contributions have been valuable and appreciated by the other members of the Board. Your Committee therefore finds that Dr. Tortora's knowledge, personal experience, and desire to contribute to the community will continue to be valuable assets to the Medical Advisory Board.

As affirmed by the records of votes of the members of your Committee on Transportation that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 989 Judiciary on S.C.R. No. 8

The purpose and intent of this measure is to request the Hawaii State Commission on the Status of Women to convene a task force to study missing and murdered Native Hawaiian women and girls.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Office of Hawaiian Affairs, Hawaii State Commission on the Status of Women, Hawaii Children's Action Network Speaks!, Planned Parenthood Votes Northwest and Hawaii, Hoʻōla Nā Pua, and six individuals. Your Committee received comments on this measure from the Hawaii Youth Services Network.

Your Committee finds that missing and murdered native women is a human rights crisis that disproportionately affects indigenous peoples in the United States and Canada, notably those in Native American communities.

Your Committee further finds that there are concerns about the high rate of sexual violence against Native Hawaiian women. Native Hawaiians represent the largest ethnic group among sex abuse victims and Native Hawaiian girls are over-represented among juvenile runaways, but until recently no comprehensive data on the prevalence of sex trafficking victimization among Native Hawaiians was available. Your Committee additionally finds that, given the potential prevalence of sex trafficking, sexual exploitation, and sexual abuse of Native Hawaiians and the lack of reliable information related to this risk, more data is needed to understand and address the social and systemic contexts of violence against Native Hawaiian women and girls, including their murder or disappearance.

Your Committee has amended this measure by:

- (1) Clarifying language comparing the amounts earned by native Hawaiian women relative to men;
- (2) Requesting that the task force submit its preliminary and final report forty days prior to the Regular Sessions of 2023 and 2024, respectively, instead of twenty days prior; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 8, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 8, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 990 Agriculture and Environment on S.R. No. 60

The purpose and intent of this measure is to request that the year 2022 be designated as the Year of the Limu.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, Malama Pupukea-Waimea, Kuaʻāina Ulu 'Auamo (KUA), Reef Power LLC, the Kawaihapai Ohana, Ke Kula Nui o Waimanalo, and seventeen individuals.

Your Committee finds that limu is found throughout the Hawaiian islands and forms a critical cultural and ecological piece of Hawaii's oceanscape. Limu serves as the primary food and shelter for herbivorous fish and is the foundation of the food chain, helps to filter runoff, and provides necessary protection and food for juvenile fish. Some limu also have high medicinal and ceremonial value. Currently, as the climate crisis looms ahead, non-native algae proliferate, and urbanization pressures increase, pollution and diversion of upland stream flows, the degradation of reefs, and changes to the hydrology and degradation in sand movement have compromised conditions of limu gathering. The loss of native limu runs parallel with the loss of Hawaiian cultural practices and loss of ancestral knowledge; limu knowledge and practices are still maintained, primarily in rural areas of the State, but the scarcity of this once-abundant resource has made it difficult for practitioners to pass on their knowledge.

However, your Committee finds that despite these obstacles to growing limu, there are several limu restoration projects throughout the State to preserve limu cultivation knowledge, reestablish limu abundance, and grow a network of limu practitioners. The "Year of the Limu" would uplift the work and passion of the cultural practitioners who have worked tirelessly to revitalize limu and provide opportunities to increase awareness and education of Hawaii's residents of the environmental and cultural significance of limu.

Your Committee has amended this measure by:

- Recognizing the achievements of kupuna whose academic and community efforts to revitalize limu practice perpetuated the deeper socio-cultural tie that bind limu to the State;
- (2) Acknowledging community efforts, like those of the Limu Hui of the Kua'āina Ulu 'Auamo (KUA) and the Waimanalo Limu Hui, for their ongoing efforts in propagating limu species;
- (3) Adding the Chairperson of the Board of Land and Natural Resources, Chairperson of the Board of Directors of KUA, and Limu Hui Coordinator for KUA as recipients for the certified copies of this resolution; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 60, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 60, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 991 Commerce and Consumer Protection on Gov. Msg. Nos. 611 and 612

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I MEDICAL BOARD

G.M. No. 611 GERI YOUNG, for a term to expire 06-30-2025; and

G.M. No. 612 GARY BELCHER, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Geri Young and Gary Belcher for service on the Hawai'i Medical Board.

GERI YOUNG

Your Committee received testimony in support of the nomination for the reappointment of Geri Young from the Hawai'i Medical Board, Hawai'i Pacific Health, Kaua'i Medical Clinic, and one individual.

Upon review of the testimony, your Committee finds that Dr. Young's professional experience, background, and desire to serve her community qualify her for reappointment to the Hawaii Medical Board as a physician member from Kauai. Your Committee notes that Dr. Young has held a medical license in Hawaii for over forty years and is certified by the American Board of Pediatrics. Dr. Young currently works as a Pediatrician at Hawaii Pacific Health Kauai Medical Clinic, where she also serves as Medical Director,

and further works as an Assistant Clinical Professor with the Department of Pediatrics at the University of Hawaii at Manoa John A. Burns School of Medicine. Your Committee also notes that Dr. Young is an active member in a number of professional and community organizations, including the American Academy of Pediatrics, Kauai Rural Health Association, and Wilcox Medical Center where she currently serves as Chairperson of Physicians' Health, in addition to many others. Your Committee further finds that Dr. Young has served on the Hawai'i Medical Board since 2017 and her knowledge and experience continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Dr. Young be reappointed to the Hawai'i Medical Board based on her background, knowledge, and desire to contribute to the community.

GARY BELCHER

Your Committee received testimony in support of the nomination for the appointment of Gary Belcher from the Department of Commerce and Consumer Affairs and five individuals.

Upon review of the testimony, your Committee finds that Mr. Belcher's background and dedication to serving the public qualify him to be appointed to the Hawai'i Medical Board as a public member. Your Committee notes that Mr. Belcher has over forty years of experience in clinical health care and health care delivery systems and recently retired from his position as Residency Program Administrator for the surgical, orthopedic, and critical care training programs with the University of Hawaii John A. Burns School of Medicine and Hawaii Residency Programs, Inc., a position he held since 1982. Mr. Belcher remains an active participant in his community and currently serves as the Chapter Administrator for the Hawaii Chapter of the American College of Surgeons, and previously served on the Board of Speech Pathology and Audiology for six years, including serving as the Board's Vice-Chairperson. Your Committee finds that Mr. Belcher has a thorough understanding of the role and responsibilities of board members and his extensive experience in health care environments will continue to enhance the effectiveness of the Hawai'i Medical Board. Your Committee therefore recommends that Mr. Belcher be appointed to the Hawai'i Medical Board based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 992 Commerce and Consumer Protection on Gov. Msg. Nos. 624 and 625

Recommending that the Senate advise and consent to the nominations of the following:

MOTOR VEHICLE INDUSTRY LICENSING BOARD

G.M. No. 624 MARIE WEITE, for a term to expire 06-30-2023; and

G.M. No. 625 STEVEN CHOW, for a term to expire 06-30-2024

Your Committee reviewed the personal histories, resumes, and statements submitted by Marie Weite and Steven Chow for service on the Motor Vehicle Industry Licensing Board.

MARIE WEITE

Your Committee received testimony in support of the nomination for the appointment of Marie Weite from the Motor Vehicle Industry Licensing Board and two individuals.

Upon review of the testimony, your Committee finds that Ms. Weite's experience, background, and commitment to public service qualify her for appointment to the Motor Vehicle Industry Licensing Board as a public member. Your Committee notes that Ms. Weite currently manages the claims department of First Insurance Company of Hawaii, Ltd. and has over forty years of experience in the insurance industry, handling auto, property, and litigation claims. Your Committee further notes that Ms. Weite is a highly active member in her profession and community and has served on various boards and commissions, including as Chairperson of the Hawaii Insurance Guaranty Association and Vice Chairperson of the Hawaii Insurers Council. Ms. Weite also previously served on the Governor's Highway Safety Council and the Motor Vehicle Repair Industry Board from 2012 to 2019, including serving as the Board's Chairperson. Your Committee finds that Ms. Weite has a thorough understanding of the roles and responsibilities of board members and her extensive experience and knowledge will be assets to the Motor Vehicle Industry Licensing Board. Your Committee therefore recommends that Ms. Weite be appointed to the Motor Vehicle Industry Licensing Board on her background and dedication to public service.

STEVEN CHOW

Your Committee received testimony in support of the nomination for the reappointment of Steven Chow from the Motor Vehicle Industry Licensing Board and two individuals.

Upon review of the testimony, your Committee finds that Mr. Chow's experience, knowledge, and proven leadership on the Motor Vehicle Industry Licensing Board qualify him for reappointment to the Board as a public member. Your Committee notes that Mr. Chow has been a licensed attorney in Hawaii since 1981 and engages in the general practice of law, including civil and commercial litigation, personal injury, insurance and construction law, and alternative dispute resolution. Mr. Chow is the founder and owner of The Pacific Law Group and is an active member in a number of professional associations. Your Committee further notes that Mr. Chow has served on various professional and community boards, including as former President for both Prevent Child Abuse Hawaii and Friends of Hickam, Inc., and as a member of the Board of Chiropractic Examiners. Mr. Chow has served on the Motor Vehicle Industry Licensing Board since 2016, currently serves as the Board's Vice Chairperson, and your Committee finds his experience and knowledge will continue to be assets to the Board. Your Committee therefore recommends that Mr. Chow be reappointed to the Motor Vehicle Industry Licensing Board based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 993 Commerce and Consumer Protection on Gov. Msg. Nos. 613 and 614

Recommending that the Senate advise and consent to the nominations of the following:

PEST CONTROL BOARD

G.M. No. 613 WILLIAM LEE, for a term to expire 06-30-2024; and

G.M. No. 614 JOHN SPEED, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by William Lee and John Speed for service on the Pest Control Board.

WILLIAM LEE

Your Committee received testimony in support of the nomination for the appointment of William Lee from the Department of Commerce and Consumer Affairs; Isemoto Contracting Co., Ltd.; Business Insurance Services, Inc.; Hawaii Island Contractors' Association; Takamine Construction, Inc.; and two individuals.

Upon review of the testimony, your Committee finds that Mr. Lee's experience, background, and commitment to public service qualify him for appointment to the Pest Control Board as a licensee member. Your Committee notes that Mr. Lee has been licensed as a pest control operator in Hawaii since 2006 and is the owner of Will Kill Termites & Pests, LLC, a highly regarded and well-respected company in Hilo, Hawaii. Mr. Lee also serves as a member of multiple professional and community organizations and is the current Vice President the Hawaii Island Contractors' Association, Grounds Committee Chair for the Hilo Yacht Club, and former President of the Hawaii Island Portuguese Chamber of Commerce. Your Committee further notes that Mr. Lee has served as an interim member of the Pest Control Board since January 2020 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Mr. Lee be appointed to the Pest Control Board based on his knowledge, experience, and commitment to public service.

JOHN SPEED

Your Committee received testimony in support of the nomination for the appointment of John Speed from the Department of Commerce and Consumer Affairs; Durrett Lang Morse, LLLP; and one individual.

Upon review of the testimony, your Committee finds that Mr. Speed's background and dedication to serving the public qualify him to be appointed to the Pest Control Board as a licensee member. Your Committee notes that Mr. Speed has held a pest control operator license in Hawaii since 2002 and has been in the pest control industry for twenty-two years. Mr. Speed is the Founder and President of Kilauea Pest Control and is also the Founder and President of Gobias Industries, a real estate holdings and management company. Your Committee further notes that Mr. Speed is an active member in a number of professional and community organizations and serves as an Eagle Scout, advisory board member for Salvation Army of Honolulu, and has served in various capacities with the Hawaii Pest Control Association where he currently serves as Vice President. Your Committee finds that Mr. Speed has a thorough understanding of the role and responsibilities of board members and his extensive experience in the industry will continue to enhance the effectiveness of the Pest Control Board. Your Committee therefore recommends that Mr. Speed be appointed to the Pest Control Board based on his knowledge, background, and dedication to public.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 994 Commerce and Consumer Protection on Gov. Msg. Nos. 656 and 657

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I BOARD OF VETERINARY MEDICINE

G.M. No. 656 ROBERT JORDAN, for a term to expire 06-30-2024; and

G.M. No. 657 AILEEN WADA, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Robert Jordan and Aileen Wada for service on the Hawai'i Board of Veterinary Medicine.

ROBERT JORDAN

Your Committee received testimony in support of the nomination for the appointment of Robert Jordan from the Hawai'i Board of Veterinary Medicine.

Upon review of the testimony, your Committee finds that Dr. Jordan's experience, knowledge, and proven leadership on the Hawai'i Board of Veterinary Medicine qualify him for appointment to the Board as a licensee member from Hawaii County. Dr. Jordan has been a licensed veterinarian in Hawaii since 2004 and has been a practicing veterinarian for over twenty-six years. Dr. Jordan is the

owner of Kona Veterinary Service, which was founded in 2004, and prior to that, Dr. Jordan worked as an emergency and critical care veterinarian. Dr. Jordan serves as a mentor for many new graduates and student externs in the field of veterinary medicine and has prior experience on the Hawai'i Board of Veterinary Medicine. Dr. Jordan has most recently served as an interim member of the Hawai'i Board of Veterinary Medicine since July 2020, and currently serves as the Board's Vice Chairperson. Dr. Jordan's experience and knowledge will continue to be assets to the Hawai'i Board of Veterinary Medicine. Your Committee therefore recommends that Dr. Jordan be appointed to the Hawai'i Board of Veterinary Medicine based on his experience, knowledge, and commitment to public service.

AILEEN WADA

Your Committee received testimony in support of the nomination for the reappointment of Aileen Wada from the Hawai'i Board of Veterinary Medicine and three individuals.

Upon review of the testimony, your Committee finds that Ms. Wada's experience, knowledge, and proven leadership on the Hawai'i Board of Veterinary Medicine qualify her for reappointment to the Board as a public member. As a pet owner, Ms. Wada brings a unique perspective that can be helpful in resolving issues considered by the Hawai'i Board of Veterinary Medicine. Your Committee notes that Ms. Wada is a licensed broker and real estate agent and has been employed with Locations, LLC for over thirty-five years. Ms. Wada is an active member in local neighborhood associations of apartment owners and other professional realtor organizations, and previously served on the Real Estate Commission for eight years. Your Committee further finds that Ms. Wada has served on the Hawai'i Board of Veterinary Medicine since 2019 and her experience, knowledge, and passion for animals will continue to be assets to the Board. Your Committee therefore recommends that Ms. Wada be reappointed to the Hawai'i Board of Veterinary Medicine based on her experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 995 Commerce and Consumer Protection on Gov. Msg. Nos. 621, 622, and 623

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF PROFESSIONAL ENGINEERS, ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS

G.M. No. 621 TONY LAU, for a term to expire 06-30-2025;

G.M. No. 622 KEVIN KATAYAMA, for a term to expire 06-30-2024; and

G.M. No. 623 DAN HIROTA, for a term to expire 06-30-2024

Your Committee reviewed the personal histories, resumes, and statements submitted by Tony Lau, Kevin Katayama, and Dan Hirota for service on the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

TONY LAU

Your Committee received testimony in support of the nomination for the appointment of Tony Lau from the Department of Commerce and Consumer Affairs; American Society of Civil Engineers Hawaii Section; Iwamoto Engineering Consultants, Inc.; MKE Associates LLC; and two individuals.

Upon review of the testimony, your Committee finds that Mr. Lau's background and dedication to serving the public qualify him to be appointed to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects as a professional engineer member. Your Committee notes that Mr. Lau has been licensed as a professional civil engineer since 1996 and has nearly thirty years of engineering experience. Mr. Lau is presently a civil engineering branch manager for capital improvements, as well as a civil engineering technical discipline coordinator, for Naval Facilities Engineering Systems Command Hawaii. Mr. Lau is also an active member in professional and community organizations, has served as the American Society of Civil Engineers Hawaii Section's President, Younger Forum Member President, and Professional Exam Refresher Course Chairperson. Your Committee finds that Mr. Lau has a thorough understanding of the role and responsibilities of board members and his extensive experience will continue to enhance the effectiveness of the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects. Your Committee therefore recommends that Mr. Lau be appointed to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects based on his knowledge, background, and dedication to public service.

KEVIN KATAYAMA

Your Committee received testimony in support of the nomination for the appointment of Kevin Katayama from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects; Iwamoto Engineering Consultants, Inc.; Anbe, Aruga & Ishizu, Architects, Inc.; and one individual.

Upon review of the testimony, your Committee finds that Mr. Katayama's background, knowledge, and prior experience on the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects qualify him for appointment to the Board as a professional engineer member. Your Committee notes that Mr. Katayama has been a licensed mechanical engineer in Hawaii since 1993. Mr. Katayama has over twenty-seven years of experience as an engineer and is currently the President and Principal-in-Charge of Katayama and Associates, a consulting engineering firm that provides design and construction supervision relating to air conditioning, ventilation, plumbing, fire protection, and energy management systems. Your Committee further finds that Mr. Katayama previously served on the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects where he made significant contributions to the Board's deliberations, served on the Rules Committee, and assisted with the proposed

licensure for fire protection engineers. Mr. Katayama's experience and knowledge will continue to be assets to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects. Your Committee therefore recommends that Mr. Katayama be appointed to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects based on his experience, knowledge, and commitment to public service.

DAN HIROTA

Your Committee received testimony in support of the nomination for the reappointment of Dan Hirota from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects; Iwamoto Engineering Consultants, Inc.; and four individuals.

Upon review of the testimony, your Committee finds that Mr. Hirota's experience, knowledge, and proven leadership on the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects qualify him for reappointment to the Board as a surveyor member. Your Committee notes that Mr. Hirota has nearly thirty years of experience in civil engineering and surveying and has been licensed as a land surveyor in Hawaii since 2002. Mr. Hirota has devoted much of his professional career to the development of highend resort residential communities along the gold coast of the Big Island of Hawaii, and is presently employed as senior engineer and surveyor of Coffman Engineers, Inc. Your Committee further finds that Mr. Hirota has served as a member of many professional and community organizations and has served on Board of Professional Engineers, Architects, Surveyors, and Landscape Architects since 2008 where he currently serves as Chairperson. Mr. Hirota's experience and knowledge will continue to be assets to the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects based on his knowledge, background, and desire to serve his community.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 996 Commerce and Consumer Protection on Gov. Msg. Nos. 542, 543, 544, and 545

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOXING COMMISSION OF HAWAI'I

- G.M. No. 542 MARK OZAKI, for a term to expire 06-30-2024;
- G.M. No. 543 MICHAEL YADAO, for a term to expire 06-20-2022 (expiration date amended to 6-30-2022 by GM659);
- G.M. No. 544 JOEL KIM, for a term to expire 06-30-2024; and
- G.M. No. 545 MICHAEL FREITAS, for a term to expire 06-30-2024

Your Committee reviewed the personal histories, resumes, and statements submitted by Mark Ozaki, Michael Yadao, Joel Kim, and Michael Freitas for service on the State Boxing Commission of Hawai'i.

MARK OZAKI

Your Committee received testimony in support of the nomination for the reappointment of Mark Ozaki from the State Boxing Commission of Hawai'i.

Upon review of the testimony, your Committee finds that Mr. Ozaki's experience, knowledge, and proven leadership on the State Boxing Commission of Hawai'i qualify him for reappointment to the Commission as a public member. Your Committee notes that Mr. Ozaki has forty years of combined experience in the field of boxing as an athlete, coach, judge, official, and fan. Mr. Ozaki is currently a Lieutenant with the Kauai Police Department Investigative Services Bureau and also serves as an instructor with the Department's Administrative and Technical Bureau. Mr. Ozaki is a proven leader in his community and serves on a number of nonprofit boards, coalitions, foundations, and committees, and has experience holding director, secretary, and treasurer positions. Your Committee further finds, that Mr. Ozaki has served on the State Boxing Commission of Hawaii since 2017 and his experience and knowledge will continue to be assets to the Commission. Your Committee therefore recommends that Mr. Ozaki be reappointed to the State Boxing Commission of Hawaii'i based on his experience, knowledge, and commitment to public service.

MICHAEL YADAO

Your Committee received testimony in support of the nomination for the appointment of Michael Yadao from the Department of Commerce and Consumer Affairs and one individual.

Upon review of the testimony, your Committee finds that Mr. Yadao's background and dedication to service the public qualify him for appointment to the State Boxing Commission of Hawai'i as a public member. Your Committee notes that Mr. Yadao is the Executive Director of the Hawaii Masons and Plasterers Union and was previously the Director of Government Relations for the General Contractors Association of Hawaii where he represented the association and the industry on all governmental issues. Prior to that, Mr. Yadao served as a campaign manager for Governor David Ige and Deputy Director of Campaign Operations for Mayor Kirk Caldwell. Mr. Yadao is also a former combat sport athlete, has served as a referee and coach, and is familiar with the local amateur fighting community. Your Committee further notes that Mr. Yadao has served as an interim member of the State Boxing Commission of Hawai'i since August 2020 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Mr. Yadao be appointed to the State Boxing Commission of Hawai'i based on his knowledge, experience, and dedication to public service.

JOEL KIM

Your Committee received testimony in support of the nomination for the appointment of Joel Kim from the Department of Commerce and Consumer Affairs; USA Boxing, Hawaii Association; and three individuals.

Upon review of the testimony, your Committee finds that Mr. Kim's experience, background, and commitment to public service qualify him for appointment to the State Boxing Commission of Hawai'i as a public member. Your Committee notes that Mr. Kim has worked as a secondary social studies teacher with the Department of Education since 2006, and prior to that, worked as a secondary history teacher for seven years with the Hawaii Public Summer School System. Mr. Kim has over forty years of diverse experience in boxing, including as a competition athlete, coach, official, licensed boxing cornerman, team owner, and various leadership roles within the Hawaii USA Boxing, Inc. organization. Your Committee further notes that Mr. Kim has served as an interim member of the State Boxing Commission of Hawai'i since August 2020 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Mr. Kim be appointed to the State Boxing Commission of Hawai'i based on his experience, knowledge, and commitment to public service.

MICHAEL FREITAS

Your Committee received testimony in support of the nomination for the reappointment of Michael Freitas from the State Boxing Commission of Hawai'i; USA Boxing, Hawaii Association; and one individual.

Upon review of the testimony, your Committee finds that Mr. Freitas' experience, knowledge, and proven leadership on the State Boxing Commission of Hawai'i qualify him for reappointment to the Commission as a public member. Your Committee notes that Mr. Freitas has over thirty years of federal and state government experience in the areas of strategic planning, budgeting, procurement, communication, and conflict resolution. For six years, Mr. Freitas worked as a Complaints Officer with the City and County of Honolulu Department of Customer Service, and prior to that, was an Eligibility Worker with the Department of Human Services. Your Committee further finds that Mr. Freitas has served on the State Boxing Commission of Hawai'i since 2017 and currently serves as Chair of the Commission. Mr. Freitas' experience and knowledge will continue to be assets to the State Boxing Commission of Hawai'i. Your Committee therefore recommends that Mr. Freitas be reappointed to the State Boxing Commission of Hawai'i based on his experience, knowledge, and proven dedication to serving the public.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 997 Commerce and Consumer Protection on Gov. Msg. No. 540

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 540 ERIN FIRMIN, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Erin Firmin for service on the Board of Speech Pathology and Audiology.

Your Committee received testimony in support of the nomination for the appointment of Erin Firmin from the Board of Speech Pathology and Audiology, Department of Education, and one individual.

Upon review of the testimony, your Committee finds that Ms. Firmin's background, experience, and dedication to public service qualify her for appointment to the Board of Speech Pathology and Audiology as a licensee member. Your Committee notes that Ms. Firmin has worked as a speech-language pathologist in schools for over twenty years and has been a licensed speech pathologist in Hawaii since 2011. Ms. Firmin is currently employed by the Department of Education as a speech-language pathologist, and prior to that, worked as a speech-language pathologist with the San Diego Unified School District. Ms. Firmin is an active member in a number of professional and community organizations, including the Hawaii Association of Behavior Analysis and American Speech-Language-Hearing Association, and has held various chair positions with the Hawaii Speech-Language-Hearing Association. Your Committee further notes that Ms. Firmin has served as an interim member of the Board of Speech Pathology and Audiology since September 2020 and was recently confirmed as the Board's chairperson. Ms. Firmin's experience and knowledge will continue to be assets to the Board of Speech Pathology and Audiology. Your Committee therefore recommends that Ms. Firmin be appointed to the Board of Speech Pathology and Audiology based on her experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 998 Commerce and Consumer Protection on Gov. Msg. No. 615

Recommending that the Senate advise and consent to the nomination of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 615 RAYNETTE HALL, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Raynette Hall for service on the State Board of Barbering and Cosmetology.

Your Committee received testimony in support of the nomination for the appointment of Raynette Hall from the Department of Commerce and Consumer Affairs, Chamber of Commerce Hawaii, and one individual.

Upon review of the testimony, your Committee finds that Ms. Hall's background and dedication to serving the public qualify her to be appointed to the State Board of Barbering and Cosmetology as a licensed beauty operator. Your Committee notes that Ms. Hall has held a nail technician license since 2001, a beauty operator license since 2002, and is the owner and operator of Hapa Heaven Salon & Spa in Hawaii Kai. Previously, Ms. Hall was employed as an OPI Educator where she taught distributor workshops and seminars, presented in-salon classes, and represented the OPI nail polish manufacturer at educational events. Your Committee finds that Ms. Hall is part of the Small Business Advisory Committee with the Chamber of Commerce Hawaii, has a thorough understanding of the role and responsibilities of board members, and her extensive experience in the beauty industry will enhance the effectiveness of the State Board of Barbering and Cosmetology. Your Committee therefore recommends that Ms. Hall be appointed to the State Board of Barbering and Cosmetology based on her knowledge and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 999 Commerce and Consumer Protection on Gov. Msg. Nos. 534 and 535

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF DENTISTRY

G.M. No. 534 PAUL GUEVARA, for a term to expire 06-30-2021; and

G.M. No. 535 PAUL GUEVARA, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Paul Guevara for service on the Board of Dentistry.

Your Committee received testimony in support of the nomination for the appointment and reappointment of Paul Guevara from the Board of Dentistry, Hawaii Dental Association, Temple Valley Dental Group, and three individuals.

Upon review of the testimony, your Committee finds that Dr. Guevara's experience, background, and commitment to public service qualify him for appointment and reappointment to the Board of Dentistry as a licensed dentist member. Your Committee notes that Dr. Guevara has been licensed as a dentist in Hawaii since 2003. Dr. Guevara has served in many positions in the dental field, both in the military and private sector, and currently works in private practice as an endodontist and is a resident instructor at the Waianae Coast Comprehensive Health Center. Your Committee further notes that Dr. Guevara is an active member of many professional and community organizations, including the American Association of Endodontists, American Dental Association, and Hawaii Dental Association, and previously served as Chair of the Board of Dentistry from 2015 to 2019. Dr. Guevara has been serving as an interim member of the Board of Dentistry since August 2020 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Dr. Guevara be appointed and reappointed to the Board of Dentistry based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1000 Commerce and Consumer Protection on Gov. Msg. Nos. 532 and 533

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF ACUPUNCTURE

G.M. No. 532 BROOKE FOREMAN, for a term to expire 06-30-2021; and

G.M. No. 533 BROOKE FOREMAN, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Brooke Foreman for service on the Board of Acupuncture.

Your Committee received testimony in support of the nominations for the appointment and reapportionment of Brooke Foreman from the Board of Acupuncture, Wailuku Community Acupuncture, and three individuals.

Upon review of the testimony, your Committee finds that Dr. Foreman's professional experience, background, and desire to serve her community qualify her for appointment and reappointment to the Board of Acupuncture as a licensee member. Dr. Foreman holds a Doctorate of Acupuncture and Chinese Medicine and has worked in the field of acupuncture for over ten years. Dr. Foreman is the owner and operator of Brooke Foreman Acupuncture and Wellness, LLC on Kauai and has been a licensed acupuncturist in Hawaii since 2015. Your Committee further notes that Dr. Foreman is an active member of other professional and community organizations, including the Hawaii Acupuncture Association, National Certification Commission for Acupuncture and Oriental Medicine, and the

American Council on Exercise, and serves as a continuing education instructor for other practitioners. Your Committee further finds that Dr. Foreman has served as an interim member of Board of Acupuncture since September 2020, and her knowledge and experience continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Dr. Foreman be appointed and reappointed to the Board of Acupuncture based on her background, knowledge, and desire to contribute to the community.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1001 Commerce and Consumer Protection on Gov. Msg. Nos. 538 and 539

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF PRIVATE DETECTIVES AND GUARDS

G.M. No. 538 SCOTT COLLINS, for a term to expire 06-30-2021; and

G.M. No. 539 SCOTT COLLINS, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Scott Collins for service on the Board of Private Detectives and Guards.

Your Committee received testimony in support of the nomination for the appointment and reappointment of Scott Collins from the Board of Private Detectives and Guards; Pacific Security Group, LLC; Kobayashi Sugita & Goda, LLP; and one individual.

Upon review of the testimony, your Committee finds that Mr. Collins' professional experience, background, and desire to serve his community qualify him for appointment and reappointment to the Board of Private Detectives and Guards as a licensed private detective and licensed guard member. Your Committee notes that Mr. Collins has been practicing law in Hawaii for thirty-five years, and prior to that, worked as a security officer and law enforcement officer. Mr. Collins has been involved in the industry for several decades and has been licensed as both a private detective and guard since 1985. Mr. Collins is also the agency principal licensee for a number of security and private detective agencies in the State, which has helped shape his knowledgeable and sensible insight into the field. Your Committee further finds that Mr. Collins has served as an interim member of the Board of Private Detectives and Guards since August 2020 where he serves as a member of the Board's legislative committee and has volunteered to attend legislative committee hearings as the Board's representative. Mr. Collins' knowledge and experience continue to enhance the effectiveness of the Board and your Committee therefore recommends that Mr. Collins be appointed and reappointed to the Board of Private Detectives and Guards based on his background, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1002 Commerce and Consumer Protection on Gov. Msg. No. 541

Recommending that the Senate advise and consent to the nomination of the following:

REAL ESTATE COMMISSION

G.M. No. 541 P. DENISE LA COSTA, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by P. Denise La Costa for service on the Real Estate Commission.

Your Committee received testimony in support of the nomination for the appointment of P. Denise La Costa from the Real Estate Commission; REALTORS Association of Maui, Inc.; Jack R. Naiditch, Inc.; and four individuals.

Upon review of the testimony, your Committee finds that Ms. La Costa's experience, background, and commitment to public service qualify her for appointment to the Real Estate Commission as a licensee member representing Maui County. Your Committee notes that Ms. La Costa has been a licensed real estate broker in Hawaii since 2001 and she is the owner and principal agent of La Costa Realty Hawaii, LLC in Lahaina. During the twenty-six-year course of Ms. La Costa's career, she has gained broad experience and knowledge concerning transactions representing buyers, sellers, lessees, and lessors with sales, listings, leasing, and management of all types of real estate. Your Committee further notes that Ms. La Costa is an active member in her professional community and serves on the Maui Commercial Roundtable and the Maui County Planning Commission. Ms. La Costa has served as an interim member of the Real Estate Commission since January 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Ms. La Costa be appointed to the Real Estate Commission based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1003 Commerce and Consumer Protection on Gov. Msg. No. 608

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 608 KENT KIKUCHI, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Kent Kikuchi for service on the Board of Pharmacy.

Your Committee received testimony in support of the nomination for the appointment of Kent Kikuchi from the Department of Commerce and Consumer Affairs, Hawai'i Pacific Health, Gather Federal Credit Union, and three individuals.

Upon review of the testimony, your Committee finds that Mr. Kikuchi's experience, background, and commitment to public service qualify him for appointment to the Board of Pharmacy as a licensee member representing Kauai County. Your Committee notes that Mr. Kikuchi has been a licensed pharmacist in Hawaii since 1990 and is currently the Director of Pharmacy at Wilcox Medical Center, Kauai's largest health care provider. Your Committee further notes that Mr. Kikuchi is an active leader in his community and has served in various advisory roles and on the board of directors for a number of organizations, including the Hawaii Pharmacist Association and the Department of Commerce and Consumer Affairs' Regulated Industries Complaints Office, representing the pharmacy industry. Your Committee finds that, having previously served on the Board from 2005 to 2009, Mr. Kikuchi has a thorough understanding of the roles and responsibilities of board members and his extensive experience in the field of pharmacy will continue to enhance the effectiveness of the Board of Pharmacy. Your Committee therefore recommends that Mr. Kikuchi be appointed to the Board of Pharmacy based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1004 Commerce and Consumer Protection on Gov. Msg. No. 609

Recommending that the Senate advise and consent to the nomination of the following:

ELEVATOR MECHANICS LICENSING BOARD

G.M. No. 609 MARK BAKER, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Mark Baker for service on the Elevator Mechanics Licensing Board.

Your Committee received testimony in support of the nomination for the appointment of Mark Baker from the Elevator Mechanics Licensing Board; International Union of Elevator Constructors, Local Union No. 126; and three individuals.

Upon review of the testimony, your Committee finds that Mr. Baker's experience, background, and commitment to public service qualify him for appointment to the Elevator Mechanics Licensing Board as a licensee member. Your Committee notes that Mr. Baker has been licensed as an elevator mechanic in Hawaii since 1998 and has over twenty-five years of experience in installing, developing, and adjusting elevator controls and security systems. Mr. Baker is currently the lead adjuster with OTIS Elevator Company, and prior to that, worked with Kone Corporation as a foreman and mechanic, and with ThyssenKrupp Elevator Americas as a mechanic and adjuster. Mr. Baker also serves as an instructor for the National Elevator Industry Education Program, mentoring apprentice elevator mechanics. Your Committee further notes that Mr. Baker has served as an interim member of the Elevator Mechanics Licensing Board since January 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Mr. Baker be appointed to the Elevator Mechanics Licensing Board based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1005 Commerce and Consumer Protection on Gov. Msg. No. 610

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I BOARD OF OPTOMETRY

G.M. No. 610 PETER SEARL, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Peter Searl for service on the Hawai'i Board of Ontometry.

Your Committee received testimony in support of the nomination for the appointment of Peter Searl from the Department of Commerce and Consumer Affairs; Strategies Education, Inc.; and one individual.

Upon review of the testimony, your Committee finds that Dr. Searl's background and dedication to serving the public qualify him to be appointed to the Hawai'i Board of Optometry as a licensee member. Your Committee notes that Dr. Searl has worked as a pilot for

Hawaiian Airlines since 1992 and has been a licensed optometrist in Hawaii since 2002, specializing in sports vision and concussion education. Dr. Searl was an active member in the Hawaii Chapter of the Airline Pilots Association Aeromedical Committee, including serving many years as Aeromedical Chairperson, where he educated fellow pilots about the role of optometry in a person's overall health. Dr. Searl also serves on the Airline Pilots Association National Pilot Peer Support Committee, providing counsel to fellow pilots who may be experiencing trauma or stress in their lives. Your Committee finds that Dr. Searl has a thorough understanding of the role and responsibilities of board members and his unique and extensive experience will continue to enhance the effectiveness of the Hawai'i Board of Optometry. Your Committee therefore recommends that Dr. Searl be appointed to the Hawai'i Board of Optometry based on his knowledge, background, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1006 Commerce and Consumer Protection on Gov. Msg. No. 536

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF MASSAGE THERAPY

G.M. No. 536 AMY OKURA, for a term to expire 06-30-2023

Your Committee reviewed the personal history, resume, and statement submitted by Amy Okura for service on the Board of Massage Therapy.

Your Committee received testimony in support of the nomination for the appointment of Amy Okura from the Board of Massage Therapy, Klein Natural Health and Wellness Center, and one individual.

Upon review of the testimony, your Committee finds that Ms. Okura's professional experience, background, and desire to serve her community qualify her for appointment to the Board of Massage Therapy as a licensee member. Your Committee notes that Ms. Okura is currently a massage therapist at Klein Natural Health and Wellness Center in Hilo and has been a licensed massage therapist in Hawaii since 2001. In the past, Ms. Okura volunteered at a public charter school, a domestic violence shelter, and was a member of Easter Seals. Your Committee further notes that Ms. Okura has served as an interim member of the Board of Massage Therapy since January 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Ms. Okura be appointed to the Board of Massage Therapy based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1007 Commerce and Consumer Protection on Gov. Msg. No. 537

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHYSICAL THERAPY

G.M. No. 537 JOANNE ZAZZERA, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Joanne Zazzera for service on the Board of Physical Therapy.

Your Committee received testimony in support of the nomination for the appointment of Joanne Zazzera from the Department of Commerce and Consumer Affairs; The Queen's Health Systems; Kauai Region, Hawaii Health Systems Corporation; and two individuals.

Upon review of the testimony, your Committee finds that Dr. Zazzera's experience, background, and commitment to public service qualify her for appointment to the Board of Physical Therapy as a licensed physical therapist member. Your Committee notes that Dr. Zazzera is a Doctor of Physical Therapy and currently works as a physical therapist at The Queen's Health Systems Women's Health Center. Prior to that, Dr. Zazzera worked as a physical therapist in a one-on-one outpatient orthopedic clinic, treating a diverse group of patients. Your Committee further notes that Dr. Zazzera is an active member of numerous committees within The Queen's Medical Center organization and formerly served as Legislative Chair for the Hawaii Chapter of the American Physical Therapy Association. Your Committee further notes that Dr. Zazzera has served as an interim member of the Board of Physical Therapy since January 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Dr. Zazzera be appointed to the Board of Physical Therapy based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 1008 Hawaiian Affairs on Gov. Msg. No. 691

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF KAUAI AND NIIHAU

G.M. No. 691 CAROL LOVELL, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Carol Lovell for service on the Island Burial Council, islands of Kauai and Niihau.

Your Committee received testimony in support of the nomination for the reappointment of Carol Lovell from the Office of Hawaiian Affairs, Department of Land and Natural Resources, Association of Hawaiian Civic Clubs, and two individuals.

Ms. Lovell is a resident of Anahola, Kauai, and has been serving on the Island Burial Council for the islands of Kauai and Niihau for the past five years. She previously served as the Kauai Museum Director for fourteen years, where she gained insight into Hawaiian history, culture, and burial practices. In that capacity, she became knowledgeable and gained experience in working with the Native American Grave Repatriation Act. Her responsibilities as Director also included attendance at Island Burial Council meetings, where she became familiar with Hawaiii's laws and rules regarding native Hawaiian burials. Ms. Lovell was also fortunate to have been mentored by well-known and respected kupuna of Kauai. Through that mentorship, she learned proper protocol surrounding cultural artifacts and gained a respect for traditional knowledge and cultural resources. Your Committee finds that Carol Lovell's knowledge and experience will continue to be valuable assets to the Island Burial Council for islands of Kauai and Niihau.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1009 Hawaiian Affairs on Gov. Msg. Nos. 688, 689, and 690

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAI'I

G.M. No. 688 NORMAN KAIMULOA, for a term to expire 06-30-2023;

G.M. No. 689 SCOTT MAHONEY, for a term to expire 06-30-2024; and

G.M. No. 690 CAYLA CRIVELLO, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by Norman Kaimuloa, Scott Mahoney, and Cayla Crivello for service on the Island Burial Council, island of Hawai'i.

NORMAN KAIMULOA

Your Committee received testimony in support of the nomination for the reappointment of Norman Kaimuloa from the Office of Hawaiian Affairs and Department of Land and Natural Resources.

Mr. Kaimuloa has been serving on the Island Burial Council, island of Hawai'i, for the past four years. Mr. Kaimuloa has also served on the Hawai'i Island Burial Council prior to his current term. Mr. Kaimuloa is a resident of Kailua-Kona, Hawai'i, and has family ties and history to that area since the 1850s. Mr. Kaimuloa possesses cultural knowledge that is invaluable to the Council and is grounded in his experiences as a member of the Royal Order of Kamehameha I, former Trustee for the Kahikolu Congregational Church, and a caretaker of 'Aha 'Umi and Likelike. Mr. Kaimuloa's knowledge and perspective, combined with his interest in protecting the iwi of his ancestors, will assist with the deliberations of the Council. Your Committee finds that Norman Kaimuloa's experience and knowledge will continue to be valuable assets to the Council.

SCOTT MAHONEY

Your Committee received testimony in support of the nomination for the reappointment of Scott Mahoney from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Mr. Mahoney currently resides at his family's homestead in Waimea, Hawai'i, and traces his Haili 'ohana genealogies to Ka'ū and Kawaihae. Mr. Mahoney has been serving on the Hawai'i Island Burial Council for the past four years. Mr. Mahoney is currently retired but has spent the last twenty years assisting with the removal of unexploded ordnance on the islands of Hawai'i, O'ahu, Moloka'i, and Kaho'olawe. Mr. Mahoney has accompanied many archaeologists on investigative assignments as safety support, while they conducted studies on archaeological resources and burial sites in dangerous areas. Through these experiences, he learned much about why and how to mālama iwi and developed a deep connection to the preservation and protection of iwi kūpuna. Additionally, in his free time, Mr. Mahoney remains actively engaged in various cultural and community organizations, including the Royal Order of Kamehameha I, Kua'āina Ulu 'Auamo and its E Alu Pū Network, the Sovereign Councils of the Hawaiian Home Lands Assembly, and Mālama Kōloa, where he assisted with the restoration and protection of the Hapa Trail. Your Committee finds that Scott Mahoney's knowledge, kuleana, and willingness to continue learning to his candidacy will continue to be valuable assets to the Hawai'i Island Burial Council

CAYLA CRIVELLO

Your Committee received testimony in support of the nomination for the appointment of Cayla Crivello from the Department of Land and Natural Resources.

Ms. Crivello is a resident of Kailua-Kona, Hawai'i. She works as a Cultural Liaison for the Hōkūlia Park and Cultural Sites Association with the mission of preserving and maintaining the burial and archaeological sites within the Hōkūlia development and shoreline park in a manner consistent with approved preservation and maintenance plans. Her position includes maintaining an open and productive relationship among all stakeholders, including homeowners and members of the native Hawaiian community. Her prior employment with the Aha Kahakai Trail Association and the Ka'ūpūlehu Dry Forest Reserve demonstrates her cultural knowledge related to trail preservation, invasive species control and extraction, and education outreach assistance. Your Committee finds that Cayla Crivello's experience and knowledge will be valuable assets to the Hawai'i Island Burial Council.

As affirmed by the records of votes of the members of your Committee on Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1010 Hawaiian Affairs on S.C.R. No. 59

The purpose and intent of this measure is to urge the Hawaiian Homes Commission to appropriate one hundred per cent of lease revenues from commercial property uses to homeland lot development.

Your Committee received testimony in support of this measure from Neighborhood Place of Puna. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that more than two thousand native Hawaiian beneficiaries have died while on the Hawaiian homes waiting list for a home land lease, and twenty-eight thousand beneficiaries currently remain on the list, half of which are over the age of sixty. Additionally, the Department of Hawaiian Home Lands recently estimated that to house all beneficiaries on the waitlist, cost projections range between \$4,000,000,000 to \$12,000,000,000 for infrastructure alone. Eliminating the waitlist for the Department of Hawaiian Home Lands has not been made a priority in past and current administrations and the State has an affirmative duty to make sufficient sums available to the Department of Hawaiian Home Lands for its administrative and operative budget. Because the Department of Hawaiian Home Lands has not sought to provide lot development on a trajectory that will extinguish their wait list, reduce the amount of lands for commercial and industrial uses, and aggressively pursue diversification of housing awards, your Committee finds it necessary to urge the Department of Hawaiian Home Lands to appropriate one hundred percent of lease revenue from commercial property uses to homeland lot development.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 59, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 59, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1011 Hawaiian Affairs on S.R. No. 41

The purpose and intent of this measure is to urge the Hawaiian Homes Commission to appropriate one hundred per cent of lease revenues from commercial property uses to homeland lot development.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that more than two thousand native Hawaiian beneficiaries have died while on the Hawaiian homes waiting list for a home land lease, and twenty-eight thousand beneficiaries currently remain on the list, half of which are over the age of sixty. Additionally, the Department of Hawaiian Home Lands recently estimated that to house all beneficiaries on the waitlist, cost projections range between \$4,000,000,000 to \$12,000,000,000 for infrastructure alone. Eliminating the waitlist for the Department of Hawaiian Home Lands has not been made a priority in past and current administrations and the State has an affirmative duty to make sufficient sums available to the Department of Hawaiian Home Lands for its administrative and operative budget. Because the Department of Hawaiian Home Lands has not sought to provide lot development on a trajectory that will extinguish their wait list, reduce the amount of lands for commercial and industrial uses, and aggressively pursue diversification of housing awards, your Committee finds it necessary to urge the Department of Hawaiian Home Lands to appropriate one hundred percent of lease revenue from commercial property uses to homeland lot development.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 41, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1012 Hawaiian Affairs on S.C.R. No. 55

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to adopt administrative rules to streamline the process for allowing traditional Hawaiian farming systems on conservation lands.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Office of Hawaiian Affairs, and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources

Your Committee finds that traditional farming systems play a critical role in Hawaii and should be encouraged to promote greater self-sufficiency, crop diversity, and food security. Supporting these farming systems is critical towards helping the State achieve food security and increasing the domestic production of a local food supply. Currently, Native Hawaiian bona fide farmers face challenges in perpetuating traditional Hawaiian farming systems and practices in conservation districts that have sustained our islands since time immemorial. The rules contemplated in this measure, if appropriately tailored, would help to facilitate ecologically compatible and environmentally sustainable traditional Native Hawaiian farming practices and approaches, thereby furthering the State's interest in food self-sufficiency, cultural perpetuation, and economic diversification.

Your Committee has amended this measure by:

- Adding a clause to acknowledge that each petitioner for use of conservation lands should have a generational and traditional kupaaina of the land they are farming or consult with native peoples of that specific ahupuaa to ensure that the crop is compatible with the ecosystem of that place; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 55, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 55, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1013 Hawaiian Affairs on S.R. No. 37

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to adopt administrative rules to streamline the process for allowing traditional Hawaiian farming systems on conservation lands.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Office of Hawaiian Affairs, and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that traditional farming systems play a critical role in Hawaii and should be encouraged to promote greater self-sufficiency, crop diversity, and food security. Supporting these farming systems is critical towards helping the State achieve food security and increasing the domestic production of a local food supply. Currently, Native Hawaiian bona fide farmers face challenges in perpetuating traditional Hawaiian farming systems and practices in conservation districts that have sustained our islands since time immemorial. The rules contemplated in this measure, if appropriately tailored, would help to facilitate ecologically compatible and environmentally sustainable traditional Native Hawaiian farming practices and approaches, thereby furthering the State's interest in food self-sufficiency, cultural perpetuation, and economic diversification.

Your Committee has amended this measure by:

- Adding a clause to acknowledge that each petitioner for use of conservation lands should have a generational and traditional kupaaina of the land they are farming or consult with native peoples of that specific ahupuaa to ensure that the crop is compatible with the ecosystem of that place; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 37, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1014 Hawaiian Affairs on S.C.R. No. 54

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to conduct an analysis and provide data on the number of Department of Hawaiian Home Lands beneficiaries who have applied for and need housing in each county, by income classification and unit type.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands is mandated to fulfill its purpose by providing housing for native Hawaiian beneficiaries. A 2019 Hawaii Housing Planning Study was conducted on behalf of the Hawaii Housing Finance and Development Corporation on the housing needs of Hawaii residents by area median income (income classification), preference for ownership or rental of housing (preferred tenancy), and single- or multi-family unit (unit type) per county, but did not specifically include the housing needs of Hawaiian homes beneficiaries. Therefore, your Committee believes that the Department of Hawaiian Home Lands should perform an analysis and provide data on the number of Department of Hawaiian Home Lands beneficiaries who have applied for and need housing in each county, categorized by income classification and preferred unit type.

Your Committee has amended this measure by:

(1) Clarifying that fewer than ten thousand homesteads have been resettled;

- (2) Providing that the data requested is for the needed housing units by income classification broken down for the counties and State from 2021-2025; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 54, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 54, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1015 Hawaiian Affairs on S.R. No. 36

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to conduct an analysis and provide data on the number of Department of Hawaiian Home Lands beneficiaries who have applied for and need housing in each county, by income classification and unit type.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands is mandated to fulfill its purpose by providing housing for native Hawaiian beneficiaries. A 2019 Hawaii Housing Planning Study was conducted on behalf of the Hawaii Housing Finance and Development Corporation on the housing needs of Hawaii residents by area median income (income classification), preference for ownership or rental of housing (preferred tenancy), and single- or multi-family unit (unit type) per county, but did not specifically include the housing needs of Hawaiian homes beneficiaries. Therefore, your Committee believes that the Department of Hawaiian Home Lands should perform an analysis and provide data on the number of Department of Hawaiian Home Lands beneficiaries who have applied for and need housing in each county, categorized by income classification and preferred unit type.

Your Committee has amended this measure by:

- (1) Clarifying that fewer than ten thousand homesteads have been resettled;
- (2) Providing that the data requested is for the needed housing units by income classification broken down for the counties and State from 2021-2025; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 36, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1016 Hawaiian Affairs on S.C.R. No. 30

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to provide a progress report regarding the development of the Ka'ū water system.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that Act 49, Session Laws of Hawaii 2017, allocated \$1,500,000 in general obligation bonds for the plans, designs, and construction for the development of the Ka'ū water system. The Hawaiian Homes Commission also approved \$500,000 for construction of the project. Phase 1 of the project will provide for the design and construction of a one hundred-thousand-gallon water storage tank and appurtenances on Hawaiian home lands to comply with safe drinking water standards. Specifically, Phase 1A will provide for the design and construction of four pressure reducing valve stations with repair and replacement work to amount to \$500,000. Construction bids opened in May 2020 with a construction cost of \$2,700,000. The Department of Hawaiian Home Lands invited twenty-five pastoral lessees to discuss water needs for each lot and supplemental water availability. The county of Hawaii will maintain and operate the water tank. The Department of Hawaiian Home Lands estimates this project will go out to bid in the summer 2021.

Your Committee further finds that it is expected that Phase 2 of the project will include designs to relocate existing waterline from within lots to South Point Road right-of-way, install new water meters, provide fire protection, and subdivide twenty-five pastoral lots at an estimated cost of subdivision and construction of \$15,000,000. The Department of Hawaiian Home Lands' sufficient sums request submitted to this body included \$5,000,000 for the Ka'ū water system for design and construction.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 30, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 30, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1017 Hawaiian Affairs on S.R. No. 19

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to provide a progress report regarding the development of the Ka'ū water system.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that Act 49, Session Laws of Hawaii 2017, allocated \$1,500,000 in general obligation bonds for the plans, designs, and construction for the development of the Ka'ū water system. The Hawaiian Homes Commission also approved \$500,000 for construction of the project. Phase 1 of the project will provide for the design and construction of a one hundred-thousand-gallon water storage tank and appurtenances on Hawaiian home lands to comply with safe drinking water standards. Specifically, Phase 1A will provide for the design and construction of four pressure reducing valve stations with repair and replacement work to amount to \$500,000. Construction bids opened in May 2020 with a construction cost of \$2,700,000. The Department of Hawaiian Home Lands invited twenty-five pastoral lessees to discuss water needs for each lot and supplemental water availability. The county of Hawaii will maintain and operate the water tank. The Department of Hawaiian Home Lands estimates this project will go out to bid in the summer 2021.

Your Committee further finds that it is expected that Phase 2 of the project will include designs to relocate existing waterline from within lots to South Point Road right-of-way, install new water meters, provide fire protection, and subdivide twenty-five pastoral lots at an estimated cost of subdivision and construction of \$15,000,000. The Department of Hawaiian Home Lands' sufficient sums request submitted to this body included \$5,000,000 for the Ka'ū water system for design and construction.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 19, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 19, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1018 Commerce and Consumer Protection on H.B. No. 149

The purpose and intent of this measure is to clarify that cards issued by a county for the purposes of paying transit fares and county fees and other uses are not subject to the State's unfair and deceptive practices regulations related to gift certificates.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Transportation Services.

Your Committee finds that, like many other large cities, Honolulu has adopted a smart card, or HOLO Card, for public transit passengers to pay fares on TheBus and TheHandi-Van. The HOLO Card can be registered and reloaded to hold a dollar value, eliminating the need to purchase daily and monthly bus passes, and may be programmed for discounted users like youth and seniors. Further, the HOLO Card will be the sole form of fare payment on rail. Certain requirements in existing law for private businesses and retailers concerning gift certificates are not necessarily applicable to the HOLO Cards, and this measure provides clarification to support county-issued and county-managed cards, especially with regard to unspent value and redemption of cash balances, to support the administration of the smart card program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 149, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 149, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1019 Commerce and Consumer Protection on H.B. No. 943

The purpose and intent of this measure is to establish provisions concerning nondepository trust companies, including powers and duties, yearly assessment calculations, and paid-in-capital and surplus requirements.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that there is a growing "gap" group of consumers in Hawaii who need assistance managing their assets but do not meet the customer criteria for asset management services by banks or large investment firms, as their home may be their primary source of wealth. These consumers include kupuna, individuals who have a mental or physical impairment, individuals who are a ward of the State, or those who otherwise do not have a qualified or trusted family member or friend to help them manage their finances. Nondepository trust companies serve as fiduciaries in the administration and management of assets and operate similarly to a bank trust department, but do not take deposits or make loans. This measure will enable nondepository trust companies to serve this "gap" group of consumers and establishes the appropriate fee structure based on the fiduciary activity and risk profile of nondepository trust companies.

Your Committee has amended this measure by:

- (1) Inserting language authorizing the Department of Commerce and Consumer Affairs Division of Financial Institutions to expend \$4,000 of the fees collected to administer the nondepository trust company program established by this measure;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 943, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 943, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1020 Commerce and Consumer Protection on H.B. No. 941

The purpose and intent of this measure is to allow the Public Utilities Commission to use electronic filing processes and similar practices.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Hawaiian Electric Company. Your Committee received comments on this measure from the Disability and Communications Access Board.

Your Committee finds that existing state law requires parties to provide both hard copies and electronic copies when filing documents with the Public Utilities Commission (Commission). Prior to the coronavirus disease 2019 (COVID-19) pandemic, over ninety-five percent of the Commission's docketed filings were on paper and were received either in-person or via mail. Filings to the Commission are often very lengthy, sometimes exceeding ten thousand pages and filling up to ten to fifteen boxes in their hardcopy forms. Certain emergency orders issued by the Governor as a result of the COVID-19 pandemic enabled the Commission to allow for all-electronic filings, which has proven to be successful and saved utility companies considerable time and administrative costs. This measure codifies this modernized practice to enable the Commission to receive one hundred percent of its docketed filings through electronic means to allow the Commission to conduct business safely and more efficiently.

Your Committee has amended this measure by:

- Inserting language requiring the Public Utilities Commission to conform its electronically filed documents and its electronic
 filing processes to comply with the Americans with Disabilities Act and all existing federal laws and regulations to ensure
 equal access for individuals with disabilities;
- (2) Inserting an effective date of January 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 941, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 941, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1021 Commerce and Consumer Protection on H.B. No. 352

The purpose and intent of this measure is to:

- Clarify that the secondhand dealers law applies to a secondhand dealer's operation of an automated recycling kiosk that only
 accepts handheld electronic devices for recycling; and
- (2) Specify the retention requirements for secondhand dealers that operate an automated recycling kiosk.

Your Committee received testimony in support of this measure from Retail Merchants of Hawaii and EcoATM-Gazelle. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Police Department, Hawaii Pawnbrokers Association, and Kamaaina Loan.

Your Committee finds that rapid changes in technology have increased access to handheld cellular phone devices that can quickly depreciate in value, and with a lack of solutions available to address the environmental damage caused by improper disposal, consumers ultimately end up accumulating and storing unused devices around their homes. Automated recycling kiosks, which enable a person to recycle their unused handheld electronic devices, are in operation across the United States and Europe and have helped divert approximately seven million pounds of electronic waste from local landfills at no cost to consumers or government agencies. To deter the re-sale of potentially stolen goods, existing law mandates lengthy in-county storage of purchased items, a provision that would create costly and logistical challenges to the storage space within an automated recycling kiosk. Your Committee further finds that every other state in the country has adopted legislation to recognize the use of automated recycling kiosks and this measure will enable automated recycling kiosks to operate in Hawaii to allow for secure storage of items off-site during the extended holding period.

Your Committee notes that the companion to this measure, S.B. No. 925, S.D. 2, which was previously passed by the Senate, incorporates important language that would require automated recycling kiosks to be remotely opened upon request by law enforcement during normal business hours and electronically transmit transaction records to law enforcement within twenty-four hours from when a device is received by the kiosk. Additionally, S.B. No. 925, S.D. 2, requires a secondhand dealer operating an automated

recycling kiosk to retain devices for a total period of thirty calendar days. The language in S.B. No. 925, S.D. 2, is therefore preferable because it provides these additional safeguards.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 925, S.D. 2, a substantively similar measure, which defines "automated recycling kiosk" as an interactive device that performs certain technological functions, including the ability to be remotely opened upon request by law enforcement during normal business hours and electronically transmit transaction records to law enforcement within twenty-four hours of receipt of the device;
- (2) Clarifying that a secondhand dealer operating an automated recycling kiosk shall retain previously owned consumer handheld electronic cellular phone devices for a total period of thirty calendar days from the date they were received or purchased, provided that the secondhand dealer operating an automated recycling kiosk may store the devices outside the county where the devices were received or purchased, and provided further that upon request by law enforcement within the thirty-day retention period, a secondhand dealer operating an automated recycling kiosk shall promptly return any requested device no later than five business days from the date of the request at no cost to the requesting law enforcement agency;
- (3) Inserting an effective date of January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 352, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 352, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1022 Hawaiian Affairs on H.B. No. 204

The purpose and intent of this measure is to appropriate funds for the operating expenses of the Office of Hawaiian Affairs (OHA).

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawaiii, Hawaii Appleseed Center for Law and Economic Justice, Kūpuna for the Moʻopuna, and eighteen individuals.

Your Committee finds that OHA is a semi-autonomous state agency, established by article XII, section 4, and article XI, section 5, of the Hawaii State Constitution and chapter 10, Hawaii Revised Statutes, that is responsible for improving the well-being of native Hawaiians and Hawaiians. This measure appropriates funds for OHA's operating budget in support of plans for the upcoming biennium and is vital to fulfilling its mandates. Your Committee further finds that for every dollar of state funds provided, OHA matches these general funds with trust funds, community funds, and additional OHA funds. Thus for every dollar of state general funds expended, there is a total impact of \$2.84. OHA is considering opportunities to lessen the burden on community partners by reducing the cash-match requirement for grants during the coronavirus disease 2019 pandemic.

Your Committee has amended this measure by inserting a blank dollar amount for all appropriations of general funds and trust funds.

Your Committee notes that although the appropriations are blank, the Office of Hawaiian Affairs' testimony requests an appropriation of the following sums:

- \$415,000 in general funds and \$415,000 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 for referral services and case management to at-risk Office of Hawaiian Affairs beneficiaries for financial assistance to improve stability during emergency situations;
- (2) \$615,000 in general funds and \$615,000 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 for educational improvement programs for native Hawaiian students; and
- (3) \$524,400 in general funds and \$524,400 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 to provide for legal services and legal representation.

Your Committee's intent in recommending this measure for passage is for the adjustments requested to be incorporated into the General Appropriations Act of 2022, or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests that your Committee on Ways and Means strongly consider incorporating the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 204, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1023 Hawaiian Affairs on H.B. No. 776

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for a master planned development proposed by Pueo Development, LLC, on Hawaiian home lands for housing development, energy development systems, agricultural development, infrastructure development, and agriculture and processing enterprises.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i; Pueo Development, LLC; Waiohuli Hawaiian Homesteaders Association, Inc.; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that on December 3, 2018, the Waihouli Hawaiian Homestead Association, Inc. submitted a land use request to the Department of Hawaiian Home Lands with a proposed master plan on approximately one hundred fifty acres for due diligence studies, including a project master plan, related chapter 343, Hawaii Revised Statutes, compliance requirements, and chapter 6E, Hawaii Revised Statutes, compliance requirements. The proposed master plan includes the development of residential and agricultural lots, economic and educational opportunities, energy projects, and water source development through collaboration and partnerships for career development and employment opportunities. On May 30, 2019, a beneficiary consultation meeting was conducted to collect beneficiary input and feedback on the land use request. In July 2019, a beneficiary consultation report was submitted to the Hawaiian Homes Commission who voted to approve the issuance of a Right of Entry permit to conduct the necessary due diligence and project feasibility. On January 7, 2020, Right of Entry permit #688 was issued to the Waiohuli Hawaiian Homesteaders Association, Inc.

Your Committee has amended this measure by:

- (1) Changing the authorized amount of the special purpose revenue bonds from \$80,000,000 to an unspecified sum; and
- (2) Deleting references of issuances of special purpose revenue bonds pursuant to part IX of chapter 39A, Hawaii Revised Statutes.

Your Committee notes that although the appropriations are blank, the Waihoulu Hawaiian Homesteaders Association, Inc.'s testimony requests an appropriation of \$80,000,000 for a special purpose revenue bond.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 776, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 776, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1024 Judiciary on H.B. No. 189

The purpose and intent of this measure is to authorize the Chief Justice of the Hawaii Supreme Court to designate Circuit Court Judges, retired Intermediate Appellate Judges, or retired Supreme Court Justices to temporarily fill a vacancy on the Intermediate Court of Appeals.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association Appellate Section, and a petition signed by four individuals.

Your Committee finds that the Intermediate Court of Appeals was established in 1979 and originally consisted of a chief judge and two associate judges. Your Committee further finds that the Legislature has since doubled the size of the Intermediate Court of Appeals to six judges. Existing law requires the Intermediate Court of Appeals to decide cases in panels of no less than three judges, and only allows the Chief Justice of the Hawaii Supreme Court to designate temporary judges when the number of available intermediate appellate judges is insufficient to make up a panel because of vacancy or disqualification. Your Committee additionally finds that the Intermediate Court of Appeals has a significant and complex caseload, and that this measure will better enable to effectively and timely decide appeals with greater flexibility and the opportunity to address temporary vacancies on the court.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 189, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1025 Hawaiian Affairs on H.B. No. 1122

The purpose and intent of this measure is to:

- (1) Define "beneficiary consultation";
- (2) Prohibit the Department of Hawaiian Home Lands from disposing or extending a general lease to non-beneficiaries, unless there are no applicants seeking to enter into a general lease to the use and occupancy of a tract of Hawaiian home lands;
- (3) Require the Department of Hawaiian Home Lands to notify beneficiaries through beneficiary consultation prior to the disposition of Hawaiian home lands;
- (4) Prohibit the Department of Hawaiian Home Lands from establishing additional criteria to enter into a general lease with an applicant without notifying beneficiaries;
- (5) Specify that the Department of Hawaiian Home Lands may grant a license or enter into a general lease with an applicant, under certain conditions;
- (6) Allocate the interest or earnings from the Hawaiian home loan fund and Hawaiian home general loan fund into their respective funds, under certain conditions:
- (7) Require the Department of Hawaiian Home Lands to submit a quarterly report to the Legislature and beneficiaries; and

(8) Authorize the Department of Hawaiian Home Lands to negotiate with homestead association-governed water agencies to maintain water systems prior to other service providers, under certain conditions.

Your Committee received testimony in support of this measure from Kūpuna for the Moʻopuna and the Sovereign Council of Hawaiian Homestead Associations. Your Committee received testimony in opposition of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee notes that title 43 Code of Federal Regulations part 48, as amended, outlines the process for amendments to the Hawaiian Homes Commission Act and whether or not Congressional approval is necessary. Your Committee strongly believes that this measure does not require Congressional approval.

Your Committee finds that in the Hawaiian Homes Commission Act, 1920, as amended, the United States Congress established the Hawaiian home lands trust, intending that it would enable its native Hawaiian beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. This measure will make changes to improve the governance and accountability entrusted to the Department of Hawaiian Home Lands and Hawaiian Homes Commission to fulfill their duty toward the preservation of values, traditions, culture, and self-sufficiency for native Hawaiians. Additionally, your Committee finds that the Department of Hawaiian Home Lands does not receive sufficient funding to develop house lots for all applicants on the waiting list nor reduce the waiting list by ninety percent over the next decade, leading to a lack of access resources for beneficiaries.

Your Committee finds that the reforms proposed in this measure have the potential to provide access to private capital for beneficiaries of the Department of Hawaiian Home Lands; revolve interest earnings to deploy capital to farms, ranches, and businesses on homesteads; and make significant strides to alleviate the waitlist. The Department of Hawaiian Home Lands has been inconsistent with their approach of beneficiary consultation and this measure seeks to provide increased guidance and stability to formally define beneficiary consultation and to articulate the best practices of its use to maximize success by the agency, especially when triggered by land dispositions to a non-beneficiary, creating additional qualifying criteria by waitlist beneficiaries, and moving of interest earnings out of the loan fund trust account. Your Committee additionally finds that Community Benefits Agreements ensure that non-beneficiary corporate entities and individuals are directly engaged with homestead beneficiary associations in advancing social and economic services in and around the homestead areas. Further, your Committee finds that clarifications are needed to ensure that lands may not be disposed of to the public if there are individuals that are on the waitlist. If lands are not suited for homesteading purposes, there are sections of the Hawaiian Homes Commission Act and complimentary federal regulations that establish processes for the State to sell or exchange lands.

Your Committee notes the concerns of the Department of Hawaiian Home Lands, including:

- (1) The unnecessary need for an additional definition of "beneficiary consultation";
- (2) Concerns surrounding the proposal and elevation of the interest of lessees and homestead associations over the interests of applicants on the waitlist and Hawaiian Homes Commission Act Beneficiary Associations;
- (3) Conflicting provisions surrounding establishing additional criteria to enter into leases with applicants;
- (4) The unnecessary need for the allocation of the interest or other earnings from the Hawaiian home loan fund and Hawaiian home general funds into their respective funds; and
- (5) The unnecessary need for the Department of Hawaiian Home Lands to negotiate with homestead association-governed water agencies to maintain water systems prior to other service providers since the Department already has an agreement in place with regard to water maintenance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1122, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1122, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Keohokalole). Noes, none. Excused, none.

SCRep. 1026 Hawaiian Affairs on H.B. No. 1124

The purpose and intent of this measure is to amend the Hawaiian Homes Commission Act to:

- (1) Require appraisals of mortgages and improvements to identify the replacement cost or the leasehold market value;
- (2) Grant authority to the Department of Hawaiian Home Lands to authorize second position loans on homestead leases by approved lenders;
- (3) Clarify that the Department of Hawaiian Home Lands shall not cancel a lease solely based on a loan default or delinquency unless all loan loss mitigation procedures are exhausted pursuant to the loan servicing manual; and
- (4) Require the Department of Hawaiian Home Lands to develop and implement a loan servicing manual, subject to Commission approval, to standardize loan loss mitigation policies, procedures, and methods.

Your Committee received testimony in support of this measure from the Kūpuna for the Moʻopuna and Sovereign Council of Hawaiian Homestead Associations. Your Committee received testimony in opposition of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee notes that title 43 Code of Federal Regulations part 48, as amended, outlines the process for amendments to the Hawaiian Homes Commission Act and whether Congressional approval is necessary. Your Committee is of the opinion that this measure does not require Congressional approval.

Your Committee finds that in the Hawaiian Homes Commission Act, 1920, as amended, the United States Congress established the Hawaiian home lands trust, intending that it would enable its native Hawaiian beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. Additionally, your Committee finds that the Department of Hawaiian Home Lands does not receive sufficient funding to develop house lots for all applicants on the waiting list, nor to reduce the waiting list by ninety percent over the next decade, leading to a lack of access resources for beneficiaries.

Your Committee finds that the reforms proposed in this measure have the potential of providing access to private capital to beneficiaries of the Department of Hawaiian Home Lands, revolve interest earnings to deploy capital to farms, ranches, and businesses on homesteads, and make significant strides to alleviate the waitlist. Your Committee further finds that these clarifications seek to provide parity to residents where access to capital from owned equity in an owned asset is available to native Hawaiian families, especially where redlining has been historically used to deny capital and financial information to certain citizens, leading to a loss of homes, business assets, and even the unnecessary houselessness and families. This measure improves the governance and accountability entrusted to the Department of Hawaiian Home Lands and Hawaiian Homes Commission to fulfill their duty toward the preservation of values, traditions, culture, and self-sufficiency for native Hawaiians.

Your Committee has heard the concerns of the Department of Hawaiian Home Lands that:

- (1) The Department of Hawaiian Home Lands homestead leases refer to the lessee's right to exclusive use and possession of a tract of Department of Hawaiian Home Lands land for a term of years and can only be owned by qualified beneficiaries, thereby, limiting the market for leaseholds; therefore, requiring appraisals of the Department of Hawaiian Home Lands leaseholds may put private lenders and federal agencies at odds with the requirements of the Hawaiian Homes Commission Act and their underwriting requirements and may lead to financial burdens to successors of Hawaiian home leases;
- (2) The proposed amendments to section 210 of the Hawaiian Homes Commission Act to prohibit lease cancellation based solely on a loan delinquency or default, unless all loan servicing procedures identified in the loan servicing manual have been exhausted, fails to consider the extensive lease cancellation process established with the Hawaiian Homes Commission; and
- (3) Authorizing second position loans could require additional sources of loan financing to existing lessees while nearly three times that number are awaiting a lease and financing for their homestead award.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1124, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1124, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1027 Transportation on H.B. No. 766

The purpose and intent of this measure is to authorize the Department of Transportation to assess and collect impact fees for the repair of unsafe privately-owned roadways that are widely used by the general public and that connect to a state highway.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that due to the tropical climate and proximity to the ocean, roadways in Hawaii require constant maintenance and repair. There are privately-owned roadways in the State that are frequently used by the general public that connect to a state highway and that require repair and maintenance. However, since they are privately owned, they are outside the purview of the Department of Transportation. This measure will authorize the Department of Transportation to assess an impact fee and use those funds to repair and maintain privately-owned roadways that connect to a state highway that are frequently used by the general public and that pose a substantial danger to the public due to their deteriorating condition. This measure will make the roads safer for all drivers in Hawaii

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 766, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 766, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1028 Transportation on H.B. No. 1056

The purpose and intent of this measure is to provide the Department of Transportation with greater authority over the motor carrier vehicle safety inspection program.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the current methods and procedures of the state motor vehicle safety inspection program are inefficient. Any time a change needs to be made to the program, the Department of Transportation must go to the Legislature and request a statutory change. This measure will make the Department of Transportation much more efficient by empowering the Director of Transportation to make administrative changes without the requirement of statutory amendments.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1056, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1029 Transportation on H.B. No. 161

The purpose and intent of this measure is to allow the counties to require payment of outstanding charges or fees owed to the county for the towing, removal, or disposal of an abandoned or derelict vehicle.

Your Committee received testimony in support of this measure from the Kauai County Department of Finance, Maui County Department of Environmental Management, Office of the Mayor of Maui County, Kauai Police Department Patrol Services Bureau, Hawaii State Association of Counties, one member of the Maui County Council, and two individuals. Your Committee received comments on this measure from Enterprise Holdings.

Your Committee finds that the counties expend a great deal of resources to tow and dispose of abandoned or derelict vehicles. Existing law only allows for the counties to charge the towing fee for these vehicles to the registered owners, and only when the vehicles are claimed. Frequently, these abandoned or derelict vehicles are not claimed, leaving the counties with no recourse to recoup their costs for the towing and disposal of the vehicles. This measure will provide counties the ability to recoup costs for towing and disposing of abandoned and derelict vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 161, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1030 Transportation on H.B. No. 1059

The purpose and intent of this measure is to repeal the following sections of the Hawaii Revised Statutes:

- (1) Section 264-19, Hawaii Revised Statutes, relating to the transportation improvement special fund;
- (2) Section 266-2.3, Hawaii Revised Statutes, relating to Kewalo Basin and Honolulu Harbor use permits; and
- (3) Section 266-22, Hawaii Revised Statutes, relating to the maintenance of a fire boat.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Hawaii Revised Statutes sections being repealed by this measure are obsolete or unnecessary. There are no funds remaining in the transportation improvement special fund and all improvements have been completed. Therefore, section 264-19, Hawaii Revised Statutes, is obsolete. Additionally, Kewalo Basin is managed by the Howard Hughes Corporation and is under the purview of the Hawaii Community Development Authority, not the Department of Transportation. Thus, the statute should reflect that shared permitting and expense items are wholly within the Hawaii Community Development Authority, making section 266-2.3, Hawaii Revised Statutes, unnecessary. Further, the City and County of Honolulu sold the fire boat in 2014, which makes section 266-22, Hawaii Revised Statutes, out of date, obsolete, and unnecessary.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1059, and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1031 (Majority) Transportation on H.B. No. 485

The purpose and intent of this measure is to increase the rental motor vehicle surcharge tax from \$5 per day to an unspecified amount.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received testimony in opposition to this measure from the Avis Budget Group and Enterprise Holdings. Your Committee received comments on this measure from the Department of Taxation, Grassroot Institute of Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that the rental motor vehicle surcharge tax is used to fund highway construction projects and maintain and repair roadways in Hawaii. This measure will increase the rental motor vehicle surcharge tax from \$5 per day to an unspecified amount, which will provide more money to the State to repair and maintain our roads and highways.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 485, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Inouye). Excused, none.

SCRep. 1032 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 508

The purpose and intent of this measure is to increase the fines associated with the illegal use of consumer fireworks and display fireworks, articles pyrotechnic, and aerial devices outside of the times permitted by law.

Your Committee received testimony in support of this measure from the Department of Health, State Fire Council, Hawaiian Humane Society, and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, despite the potential for fines and arrest for the illegal use of fireworks, individuals continue to break the law concerning the lawful use of fireworks. Your Committee further finds that eighty per cent of fines collected by courts for violations of the Fireworks Control Law is required to be allocated to the counties for purposes of law enforcement, while twenty percent is allocated to the State. By increasing these fines, the police departments may have greater incentive to enforce those laws.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 508, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1033 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 572

The purpose and intent of this measure is to:

- (1) Specify that the Hawaii Emergency Management Agency is an administratively attached agency to, rather than established within, the Department of Defense;
- (2) Specify that the Administrator of Emergency Management shall serve as the Director of Hawaii Emergency Management and require the Administrator to report directly to the Governor; and
- (3) Require the current Administrator of Emergency Management to serve until such time that the Governor appoints another Administrator.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Emergency Management Agency.

Your Committee finds that under existing law, the Administrator of Emergency Management is appointed by the Director of Hawaii Emergency Management, who is the Adjutant General. Your Committee believes that given the importance of the responsibility of the Administrator of Emergency Management and their role in protecting the State and its residents, particularly during the coronavirus disease 2019 pandemic, the Governor is the more appropriate appointing authority.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 572, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1034 Commerce and Consumer Protection on H.B. No. 1086

The purpose and intent of this measure is to:

- (1) Provide veterinarians who render emergency care to an animal immunity from civil liability in the absence of gross negligence;
- (2) Provide veterinarians who render emergency treatment when there is no veterinarian-client-patient relationship immunity from civil liability in the absence of gross negligence; and
- (3) Require veterinarians to report events of animal injury, death, or abuse to law enforcement where there is reasonable cause to believe that it relates to dogfighting or animal abuse and gives veterinarians immunity for civil liability for making the reports.

Your Committee received testimony in support of this measure from the Hawaii Board of Veterinary Medicine, Hawaiian Humane Society, Pono Advocacy, Hawaii Veterinary Medical Association, Hawaii Association of Animal Welfare Agencies, Humane Society Veterinary Medical Association, and thirty-one individuals.

Your Committee finds that, under existing law, veterinarians are mandated to provide care under a valid and current veterinarianclient-patient relationship, so confusion can sometimes arise when dealing with an animal emergency where there is no owner present or life-saving treatment is needed before a relationship can be established. This measure allows a veterinarian to be a "good Samaritan" and provide emergency care outside of a valid veterinarian-client-patient relationship, while also protecting against civil liability when acting in this role in an emergency. This measure also makes animal abuse reporting a duty of the veterinarian, relieving any responsibility of discretionary action by the veterinarian while protecting the veterinarian against any civil liability as a result of the reporting. Veterinarians are often the only witness to animal abuse and they are uniquely qualified to identify the signs of cruelty. This requirement will benefit the community at large, as multiple studies have shown a link between perpetrators of animal abuse and domestic or child abuse, and other acts of violence.

Your Committee has amended this measure by:

- (1) Inserting an effective date of upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1086, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1086, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1035 Agriculture and Environment on S.C.R. No. 44

The purpose and intent of this measure is to declare a climate emergency and request statewide collaboration toward an immediate and just transition in emergency mobilization efforts to restore a safe climate.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Office of Planning, one member of the Maui County Council, two members of the Hawaii County Council, City and County of Honolulu Board of Water Supply, Facing Future, Hawai'i Youth Climate Coalition, Foresight and Policy Analysis, The Climate Mobilization, Pele Lani Farm LLC, Surfrider Foundation's Kona Kai Ea Chapter, Circlepack Hawaii, Think B.I.G., Kauai Climate Action Coalition, Environmental Caucus of the Democratic Party of Hawai'i, Hawaii Electric Vehicle Association, Citizens' Climate Lobby Hawaii, Our Revolution Hawaii, Big Island Electric Vehicle Association, 350Hawaii.org, Zero Waste Kaua'i, Surfrider Foundation Hawai'i Region, Hawai'i Reef Ocean Coalition, Mālama Kaua'i, Community Coalition Kaua'i, Pono Hawai'i Initiative, Hawai'i Alliance for Progressive Action, HI Strikes Back, Kaua'i Women's Caucus, Surfrider Foundation Kaua'i, Faith Action for Community Equity Environmental Justice Task Force, Climate Protectors Hawaii, and fifty-eight individuals. Your Committee received comments on this measure from Hawaiian Electric Company.

Your Committee finds that the climate crisis, caused primarily by fossil fuels, poses an existential threat to every aspect of society. The United Nations has declared this 2020-2030 decade as the "Decade of Action" to achieve the 2030 Sustainable Development Goals in alignment with the goals of the United Nations' Paris Agreement. A statewide declaration will amplify the commitments made by Maui County (Resolution No. 19-209) and Hawaii County (Resolution No. 322-19) and will allow Hawaii to join over one thousand nine hundred governments worldwide who have already declared climate emergencies.

Your Committee further finds that warming temperatures have caused destructive wildfires, stronger hurricanes, worsening droughts, floods, and coastal erosion from the rising sea levels. The climate crisis has been linked to the spread of disease, the destabilization of food and water security, and the unraveling of natural ecosystems, global warming causes billions in damages to the United States economy. The harms from fossil fuel extraction and climate disruption fall first and worst on communities with underrepresented, low-wealth, and frontline communities, especially for communities of color. Your Committee further finds that the overwhelming scientific consensus has concluded that without immediate and rapid emissions reductions, warming will exceed 1.5 degrees Celsius and will result in catastrophic damage, threatening the lives, health and safety, livelihood, the environment, economy, and national security for present and future generations.

Additionally, your Committee finds that climate mitigation and adaptation efforts grounded in equity, self-determination, and culture, including a statewide commitment to a just transition toward a decarbonized economy, a prohibition against fossil fuel infrastructure projects, and investment in energy efficient infrastructure and technologies are necessary to combat the climate crisis.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 44, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 44, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1036 Agriculture and Environment on S.R. No. 30

The purpose and intent of this measure is to declare a climate emergency and request statewide collaboration toward an immediate and just transition in emergency mobilization efforts to restore a safe climate.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; one member of the Maui County Council; one member of the Hawai'i County Council; Facing Future; Hawai'i Youth Climate Coalition; Foresight and Policy Analysis; The Climate Mobilization; Pele Lani Farm LLC; Circlepack Hawaii; Kauai Climate Action Coalition; Environmental Caucus of the Democratic Party of Hawai'i; Hawaii Electric Vehicle Association; Citizens' Climate Lobby Hawaii; Our Revolution Hawaii; Big Island Electric Vehicle Association; 350Hawaii.org; Surfrider Foundation Hawai'i Region; Zero Waste Kaua'i; Hawai'i Reef & Ocean Coalition; Mālama Kaua'i; Pono Hawai'i Initiative; Community Coalition Kaua'i; Pono Hawai'i Initiative; Hawai'i Alliance for Progressive Action; HI Strikes Back; Kaua'i Women's Caucus; Surfrider Foundation Kaua'i; Faith Action for Community Equity Environmental Justice Task Force; and forty-five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the climate crisis, caused primarily by fossil fuels, poses an existential threat to every aspect of society. The United Nations has declared this 2020-2030 decade as the "Decade of Action" to achieve the 2030 Sustainable Development Goals in alignment with the goals of the United Nations' Paris Agreement. A statewide declaration will amplify the commitments made by Maui County (Resolution No. 19-209) and Hawaii County (Resolution No. 322-19) and will allow Hawaii to join over one thousand nine hundred governments worldwide who have already declared climate emergencies.

Your Committee further finds that warming temperatures have caused destructive wildfires, stronger hurricanes, worsening droughts, floods, and coastal erosion from the rising sea levels. The climate crisis has been linked to the spread of disease, the destabilization of food and water security, and the unraveling of natural ecosystems, global warming causes billions in damages to the United States economy. The harms from fossil fuel extraction and climate disruption fall first and worst on communities with underrepresented, low-wealth, and frontline communities, especially for communities of color. Your Committee further finds that the overwhelming scientific consensus has concluded that without immediate and rapid emissions reductions, warming will exceed 1.5 degrees Celsius and will result in catastrophic damage, threatening the lives, health and safety, livelihood, the environment, economy, and national security for present and future generations.

Additionally, your Committee finds that climate mitigation and adaptation efforts grounded in equity, self-determination, and culture, including a statewide commitment to a just transition toward a decarbonized economy, a prohibition against fossil fuel infrastructure projects, and investment in energy efficient infrastructure and technologies are necessary to combat the climate crisis.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 30, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 30, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1037 Agriculture and Environment on S.C.R. No. 46

The purpose and intent of this measure is to request the Department of Agriculture to establish a Kona area agricultural working group to promote agriculture, economic development, and housing.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that currently in the Kona area, 1,800,000 gallons of potential irrigation water will continue to be wasted daily for the lack of transmission infrastructure; the Keahole Agricultural Park that was intended to combine and concentrate agricultural activities for the purpose of production and distribution still remains a relatively minor player in Hawaii island's economy; farmers continue to be frustrated by the lack of available land, high costs of irrigation, and the inability to live where they farm; beneficiaries of the Department of Hawaiian Home Lands will continue to be denied access to lands for residential and agricultural usage; and a substantial amount of state land will continue to remain unproductive. Therefore, your Committee finds it necessary to establish a working group where state agencies explore optimizing opportunities in the areas of agriculture, economic development, and housing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 46, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 46, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1038 Agriculture and Environment on S.R. No. 31

The purpose and intent of this measure is to request the Department of Agriculture to establish a Kona area agricultural working group to promote agriculture, economic development, and housing.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that currently in the Kona area, 1,800,000 gallons of potential irrigation water will continue to be wasted daily for the lack of transmission infrastructure; the Keahole Agricultural Park that was intended to combine and concentrate agricultural activities for the purpose of production and distribution still remains a relatively minor player in Hawaii island's economy; farmers continue to be frustrated by the lack of available land, high costs of irrigation, and the inability to live where they farm; beneficiaries of the Department of Hawaiian Home Lands will continue to be denied access to lands for residential and agricultural usage; and a substantial amount of state land will continue to remain unproductive. Therefore, your Committee finds it necessary to establish a working group where state agencies explore optimizing opportunities in the areas of agriculture, economic development, and housing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 31, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1039 Agriculture and Environment on S.C.R. No. 61

The purpose and intent of this measure is to reaffirm the State's commitment to combat climate change and prioritize climate change legislation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Americans for Democratic Action; Environmental Caucus of the Democratic Party of Hawai'; Climate Protectors Hawaii; and one individual. Your Committee received comments on this measure from the Office of Planning and Life of the Land.

Your Committee finds that climate change and sea level rise are not only real phenomena but are also two of the most preeminent challenges of the twenty-first century and are pivotal issues for the State. The Intergovernmental Panel on Climate Change has projected up to 3.2 feet of global sea level rise by the end of this century, which could cause up to \$19,000,000,000 in damage. Your Committee also finds that the State shall continue its commitment to set ambitious goals for carbon sequestration, decreased greenhouse gas emissions, and decreased dependence on imported fuels, as the State seeks to obtain one hundred percent of its electricity by 2045 from renewable sources. Your Committee further recognizes the importance of climate literacy and ecological restoration to promote increased public awareness of the climate crisis and the affirmative effort to restore native plants and animals in their local habitats

Therefore, due to the ecological, economical, health, and security threats posed by the climate crisis, your Committee believes it is necessary to reaffirm its commitment to combat the climate crisis and prioritize climate change legislation that reduces greenhouse gas emissions as laid out in the framework of the 2016 Paris Climate Accord.

Your Committee has amended this measure by:

- Clarifying previously prioritized climate change adaptation actions codified through section 226-109, Hawaii Revised Statutes, as part of the Hawaii State Planning Act;
- (2) Revising the referenced amounts for the final approved fiscal year 2020-2021 budget of the Department of Land and Natural Resources; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 61, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 61, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1040 Agriculture and Environment on S.R. No. 43

The purpose and intent of this measure is to reaffirm the State's commitment to combat climate change and prioritize climate change legislation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and the Environmental Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that climate change and sea level rise are not only real phenomena but are also two of the most preeminent challenges of the twenty-first century and are pivotal issues for the State. The Intergovernmental Panel on Climate Change has projected up to 3.2 feet of global sea level rise by the end of this century, which could cause up to \$19,000,000,000 in damage. Your Committee also finds that the State shall continue its commitment to set ambitious goals for carbon sequestration, decreased greenhouse gas emissions, and decreased dependence on imported fuels, as the State seeks to obtain one hundred percent of its electricity by 2045 from renewable sources. Your Committee further recognizes the importance of climate literacy and ecological restoration to promote increased public awareness of the climate crisis and the affirmative effort to restore native plants and animals in their local habitats.

Therefore, due to the ecological, economical, health, and security threats posed by the climate crisis, your Committee believes it is necessary to reaffirm its commitment to combat the climate crisis and prioritize climate change legislation that reduces greenhouse gas emissions as laid out in the framework of the 2016 Paris Climate Accord.

Your Committee has amended this measure by:

- Clarifying previously prioritized climate change adaptation actions codified through section 226-109, Hawaii Revised Statutes, as part of the Hawaii State Planning Act;
- (2) Revising the referenced amounts for the final approved fiscal year 2020-2021 budget of the Department of Land and Natural Resources; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 43, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 43, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1041 Judiciary on Gov. Msg. Nos. 513 and 514

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF REGISTRATION OF THE ISLAND OF HAWAI'I

G.M. No. 513 SHAWN MERRILL, for a term to expire 06-30-2023; and

G.M. No. 514 PHILIP BARNES, for a term to expire 06-30-2022

Your Committee reviewed the personal histories, resumes, and statements submitted by Shawn Merrill and Philip Barnes for service on the Board of Registration of the Island of Hawai'i.

SHAWN MERRILL

Your Committee did not receive any testimony on the nomination for the reappointment of Shawn Merrill.

Your Committee finds that the Boards of Registration hear and decide appeals that arise from voter challenges or a county clerk's decision regarding voter registration, and they are vital to the transparency and integrity of the State's elections. Your Committee notes that Shawn Merrill is a paralegal on Hawai'i island and is active in numerous community organizations. Ms. Merrill is currently a member of the Board of Registration of the Island of Hawai'i, and your Committee finds that her commitment to ensuring fairness in the process of registering and counting votes will continue to be a great asset to the Board.

PHILIP BARNES

Your Committee did not receive any testimony on the nomination for the reappointment of Philip Barnes.

Your Committee finds that the Boards of Registration hear and decide appeals that arise from voter challenges or a county clerk's decision regarding voter registration, and they are vital to the transparency and integrity of the State's elections. Your Committee notes that Philip Barnes is active in several community organizations and is currently a member of the Board of Registration of the Island of Hawai'i. Your Committee further finds that his commitment to ensuring fairness in the process of registering and counting votes will continue to be a great asset to the Board.

As affirmed by the records of votes of the members of your Committee on Judiciary that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1042 Judiciary on Gov. Msg. Nos. 518 and 519

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF MAUI, MOLOKA'I, LANA'I, AND KAHO'OLAWE

G.M. No. 518 LINDA PUPPOLO, for a term to expire 06-30-2021; and

G.M. No. 519 LINDA PUPPOLO, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Linda Puppolo for service on the Board of Registration of the Islands of Maui, Moloka'i, Lāna'i, and Kaho'olawe.

Your Committee did not receive any testimony on the nomination for the appointment and reappointment of Linda Puppolo.

Your Committee finds that the Boards of Registration hear and decide appeals that arise from voter challenges or a county clerk's decision regarding voter registration, and they are vital to the transparency and integrity of the State's elections. Your Committee notes that Ms. Puppolo currently sits on the Board of Registration of the Islands of Maui, Moloka'i, Lāna'i, and Kaho'olawe, and further finds that her commitment to ensuring fairness in the process of registering and counting votes will continue to be great assets to the Board

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kim, Lee, Fevella).

SCRep. 1043 Judiciary on Gov. Msg. No. 516

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLAND OF O'AHU

G.M. No. 516 DAPHNE BARBEE-WOOTEN, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Daphne Barbee-Wooten for service on the Board of Registration of the Island of O'ahu.

Your Committee received testimony in support of the nomination for the appointment of Daphne Barbee-Wooten from Sisters Empowering Hawaii and eight individuals.

Upon review of the testimony, your Committee finds that Ms. Wooten's legal experience, background, and commitment to public service qualify her for appointment to the Board of Registration of the Island of O'ahu. Numerous testifiers praised her integrity and dedication to the advancement of voting rights and civic engagement. Your Committee notes that Ms. Wooten has developed a strong reputation for professional ethics and trustworthiness in the State's legal community. Your Committee further finds that her commitment to ensuring fairness in the process of registering and counting votes will be great assets to the Board of Registration of the Island of O'ahu.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Kim, Lee, Fevella).

SCRep. 1044 Judiciary on Gov. Msg. No. 517

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF KAUAI AND NIIHAU

G.M. No. 517 PAMELA MURPHY, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Pamela Murphy for service on the Board of Registration of the Islands of Kaua'i and Ni'ihau.

Your Committee did not receive any testimony on the nomination for the reappointment of Pamela Murphy.

Your Committee finds that the Boards of Registration hear and decide appeals that arise from voter challenges or a county clerk's decision regarding voter registration, and they are vital to the transparency and integrity of the State's elections. Your Committee notes that Ms. Murphy is currently a member of the Board of Registration of the Islands of Kaua'i and Ni'ihau, and further finds that her commitment to ensuring fairness in the process of registering and counting votes will continue to be great assets to the Board.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Kim, Lee, Fevella).

SCRep. 1045 Judiciary on Gov. Msg. No. 521

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGISTRATION OF THE ISLANDS OF MAUI, MOLOKA'I, LANA'I, AND KAHO'OLAWE

G.M. No. 521 DYLAN ANDRION, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Dylan Andrion for service on the Board of Registration of the Islands of Maui, Moloka'i, Lāna'i, and Kaho'olawe.

Your Committee did not receive any testimony on the nomination for the reappointment of Dylan Andrion.

Your Committee finds that the Boards of Registration hear and decide appeals that arise from voter challenges or a county clerk's decision regarding voter registration, and they are vital to the transparency and integrity of the State's elections. Your Committee notes that Dylan Andrion has substantial experience as a minister and as a manager in the visitor industry, and is currently a member of the Board of Registration of the Islands of Maui, Moloka'i, Lāna'i, and Kaho'olawe. Your Committee further finds that his commitment to ensuring fairness in the process of registering and counting votes will continue to be an asset to the Board.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1046 Judiciary on H.B. No. 185

The purpose and intent of this measure is to appropriate funds for the Judiciary for the fiscal biennium beginning July 1, 2021, and ending June 30, 2023.

Your Committee received testimony in support of this measure from the Judiciary; Hawai'i State Bar Association; Hawai'i State Bar Association Appellate Section; Hawai'i State Bar Association Family Law Section; Farrell & Perrault, LLLC; and Law Office of Georgette A. Yaindl, LLLC. Your Committee received comments on this measure from the Office of the Public Defender, Hawaii County Bar Association, and one individual.

Your Committee finds that the appropriations made by this measure are intended to assist the Judiciary in its efforts to fulfill its constitutional and statutory duties for the 2021-2023 fiscal biennium, but your Committee also notes concerns raised in testimony and by committee members during the hearing relating to appropriations made to the Office of the Public Defender.

Your Committee further finds that the Judiciary is tasked with serving as a neutral arbiter in judicial proceedings, and that having public defenders represent defendants in court when the public defender is a part of the same judicial organization as the judge could raise the appearance of a conflict of interest. Additionally, a transfer of the Office of the Public Defender from an executive agency to the Judiciary could result in legal challenges on constitutional grounds. Your Committee also finds that an effective transfer of the Office of the Public Defender from the Department of Budget and Finance to the Judiciary would require an amendment to section 802-8, Hawaii Revised Statutes, and that appropriations to the Office should be restored to the executive budget.

Accordingly, your Committee has amended this measure by:

- (1) Removing the appropriation to the Office of the Public Defender;
- (2) Re-inserting capital improvement project appropriations in the amount of \$40,621,000 for the 2021-2023 fiscal biennium; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 185, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 185, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1047 (Majority) Judiciary on H.B. No. 73

The purpose and intent of this measure is to amend the definition of "emergency worker" in the Penal Code to include State onscene coordinators and communications dispatchers.

Your Committee received testimony in support of this measure from the Department of Health; Department of Defense; Honolulu Police Department; Hawai'i Police Department; Pacific Environmental Corporation; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that telecommunications dispatchers play a vital role in partnership with their in-the-field first responder colleagues, and that they undergo extensive training to develop skills that allow them to assist individuals during a variety of situations. Your Committee acknowledges the importance of providing increased protections for emergency workers, but your Committee further finds that the definition of "emergency worker" in the Penal Code is specifically utilized in a statute that elevates the penalty level of assault specific to emergency workers during an emergency period. As such, the enhanced protection appropriately applies when the emergency worker is working in a non-office setting such as on the scene of an emergency response or otherwise in the field. Additionally, your Committee notes that chapter 127A, Hawaii Revised Statutes, primarily relating to emergency management, considers all state and county officials, officers, and employees to be emergency workers for the purposes of that chapter.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that telecommunications dispatchers are only included in the definition of "emergency worker" when they are onsite or otherwise working in the field;
- (2) Providing a definition for the term "working in the field"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 73, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 73, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 1048 Water and Land on S.C.R. No. 10

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as Tax Map Key: (1) 3-1-041:025, Kaalawai, Honolulu, Oahu, for the existing seawall, and for the use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. The parcel in question relates to a seawall that was built within private property, except for a small portion of the wall footing which was built makai of the property on state lands. The Department of Land and Natural Resources' Office of Conservation and Coastal Lands supported the disposition through an easement, citing there are no sandy beach resources fronting the subject seawall. Further, it is unlikely that removal of the encroachment would improve lateral shoreline access. The current seawall is being used as a retaining wall, and the removal of the encroaching portion could undermine the integrity of the entire seawall causing a catastrophic collapse and subsequent loss of backfilled soil and the resident structure.

Your Committee further finds that, on April 13, 2018, under agenda item D-7, the Board of Land and Natural Resources, subject to conditions, unanimously approved a grant of a fifty-five-year non-exclusive easement to resolve the two hundred fourteen square feet seawall encroachment to no public opposition. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing seawall.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 10 and recommends that it be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1049 Water and Land on S.C.R. No. 11

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands identified as Tax Map Key: (1) 4-1-001:011, Waimanalo, Koolaupoko, Oahu, for the existing pier, seawall, and steps, and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (BLNR) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on January 13, 2017, under agenda item D-14, BLNR, subject to conditions, approved a grant of a fifty-five year non-exclusive easement to resolve the pier encroachment of seven hundred sixteen square feet. Your Committee also finds that at its meeting on April 12, 2019, under agenda item D-8, BLNR, subject to conditions, approved to amend the total encroachment area to 2,818 square feet and to add seawall and steps purposes to the non-exclusive easement approved in 2017. Your Committee concludes that the amendment of the easement is necessary for the use, repair, and maintenance of the existing pier, seawall, and steps. Following testimony and discussion, your Committee notes that this measure does not include all relevant tax map keys in the description of the submerged lands subject to the non-exclusive easement.

Your Committee has amended this measure by adding Tax Map Key (1) 4-1-001:013 where necessary to accurately reflect the subject portion of submerged lands.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 11, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 11, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1050 Water and Land on S.C.R. No. 12

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (2) 3-9-005:001, Kamaole, Kula, Maui, for the existing rubble rock revetment, rock wall, and two concrete stairways, and for the use, maintenance, repair, replacement, and removal of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. The rubble rock revetment, rock wall, and two concrete stairways built in 1980 were originally built entirely in the government beach reserve. However, a portion of the improvements are located on lands makai of the shoreline, on state submerged lands. The encroaching structures will prevent shoreline erosion and mitigate inland flooding associated with large wave and storm events. Removal of the rubble rock revetment would place one of the condominium buildings under immediate threat of erosion, and removal of the stairs could hinder public access.

Your Committee further finds that, on March 10, 2011, under agenda item D-4, the Board of Land and Natural Resources, subject to conditions, unanimously approved a grant of a fifty-five-year non-exclusive easement to resolve the encroachment of the submerged portions, roughly half, of the 18,668 square feet subject area. Your Committee concludes that the easement is necessary for the use, maintenance, repair, replacement, and removal of the existing structures.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 12 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1051 Water and Land on S.C.R. No. 13

The purpose and intent of this measure is to authorize the issuance of a perpetual, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (1) 3-9-027:007, Maunalua, Honolulu, Oahu, for the existing storm drain, and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. In 2006, the City and County of Honolulu sought to improve one of their storm drains when they discovered a one hundred seventy-four square foot encroachment located makai of the existing drainage easement. There appears to be no anticipated impacts to lateral

sand movements and the improvement does not seek to prohibit lateral shoreline access. Rather, the improvement mitigates any surface runoff at the location. The improvement is a non-conforming use and no conservation district use permit was issued for the construction.

Your Committee further finds that on March 23, 2007, under agenda item D-5, the Board of Land and Natural Resources (Board) unanimously approved a request for a grant of a perpetual non-exclusive easement to resolve the one hundred seventy-four square feet storm drain encroachment. On August 9, 2019, under agenda item D-5, the Board amended its prior action by adding section 171-53, Hawaii Revised Statutes, as the governing statutory authority. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing storm drain.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 13 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1052 Water and Land on S.C.R. No. 14

The purpose and intent of this measure is to authorize the issuance of a perpetual, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (1) 4-4-021:038, Kaneohe, Koolaupoko, Oahu, for the existing storm drain and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. The City and County of Honolulu was made aware of the portion of the storm drain encroaching onto state property during a shoreline certification of the neighboring private property. The drainage structure was constructed as part of the King Subdivision developed in the neighborhood and was subsequently dedicated to the City and County of Honolulu as part of the subdivision improvements in 1968. The structure can be considered of non-conforming use in the context of permitting requirements regulated by the Department of Land and Natural Resources' Office of Conservation and Coastal Lands and the Department of Health. The shoreline fronting the drainage structure consists of the muddy waters of Kaneohe Bay, which contain no beach resources. There are no anticipated impacts to lateral sand movement or flanking.

Your Committee further finds that on August 23, 2013, under agenda item D-10, the Board of Land and Natural Resources, subject to conditions, unanimously approved a grant of a perpetual non-exclusive easement to resolve the six hundred seventy-nine square foot storm drain encroachment. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing storm drain.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 14 and recommends that it be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1053 Water and Land on S.C.R. No. 15

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Keys: (2) 4-3-002:026, 027, and 028, Napili 2 and 3, Lahaina, Maui, for portions of the existing walkway, and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Napili Kai Beach Resort.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that in its meeting on June 28, 2019, under agenda item D-7, the Board of Land and Natural Resources, subject to conditions, approved a grant of a term, non-exclusive easement to resolve the one hundred forty-two square foot encroachment of the existing walkway. Your Committee notes that the term of this easement is to run with the land and inure to the benefit of the abutting real property and to be coterminous with the term of the Grant of Non-Exclusive Easement No. S-5998, dated October 25, 2010. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing walkway.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1054 Water and Land on S.C.R. No. 16

The purpose and intent of this measure is to authorize the issuance of term, non-exclusive easements for portions of state submerged lands fronting the property identified as Tax Map Keys: (2) 3-9-011:008 CPR 0001 and CPR 0002, Waiohuli-Keokea (Kihei), Wailuku, Maui, for the existing seawall, and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that in its meetings on August 25, 2017, under agenda item D-9, as amended, and October 12, 2018, under agenda item D-5, the Board of Land and Natural Resources, subject to conditions, approved the grants of sixty-five-year non-exclusive easements of the additional portions of the seawall on state submerged lands, to resolve the approximately nine hundred twenty-eight square feet of seawall encroachments. Your Committee notes that the term of these additional easements is to run with the land and inure to the benefit of the abutting real property. According to testimony received by your Committee, the grantees of the easement have paid fair market consideration to the State in the total amount of \$38,900 for CPR units 0001 and 0002, Waiohuli-Keokea (Kihei), Wailuku, Maui. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing seawall.

Your Committee has amended this measure by:

- Specifying that the grantees have paid fair market consideration to the State in the amount of \$19,700 and \$19,200 for CPR
 units 0001 and 0002, respectively; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 16, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 16, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1055 Water and Land on S.C.R. No. 17

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (2) 3-9-012:003, Waiohuli-Keokea Homesteads, Kihei, Maui, for the existing seawall, rock revetment, and concrete steps, and the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (BLNR) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. During a recent shoreline certification process, it was determined that the revetment and a portion of the seawall and concrete stairs were located makai of the shoreline and located on state lands. There is little to no beach fronting the subject property, and public access is limited due to extensive beach loss and shoreline armoring; thus, the seawall easement would have no discernable effect on beach and recreational resources and would not act as a detriment to public access. Removal of the seawall may destabilize seawalls and revetments at adjacent properties, potentially threatening upland structures.

Your Committee further finds that, on June 9, 2017, under agenda item D-9, the BLNR, subject to conditions, unanimously approved a grant of a fifty-five year non-exclusive easement to resolve the seawall and rock revetment encroachment for an area of approximately six hundred eleven to six hundred fifty square feet. Your Committee also finds that on April 26, 2019, BLNR, subject to conditions, unanimously approved to add a portion of the concrete steps and amend the total encroachment area from six hundred fifty square feet to six hundred sixty-eight square feet. Your Committee concludes that the amendment of the easement is necessary for the use, repair, and maintenance of the existing seawall, rock revetment, and concrete steps.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 17 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1056 Water and Land on S.C.R. No. 18

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (2) 3-9-10:006, Waiohuli-Keokea Homesteads and Beach Lots, Kihei, Maui, for the existing seawall and rock revetment and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53. Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution.

The seawall and most of the revetment are located makai of the shoreline, on state lands. The Department of Land and Natural Resources' Office of Conservation and Coastal Lands (OCCL) determined that the seawall was authorized by the County of Maui on August 1, 1985, and supported a disposition through an easement. The OCCL determined that removal of the subject seawall would not result in a substantial improvement to beach resources fronting the property, would not improve public access, and could destabilize the seawalls and lawns on adjacent properties. The seawall also operates as the primary erosion control for potentially threatened upland structures.

Your Committee further finds that on July 11, 2014, under agenda item D-3, the Board of Land and Natural Resources, subject to conditions, unanimously approved a grant of a fifty-five-year non-exclusive easement to resolve the 1,260 square feet seawall and rock revetment encroachment. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing seawall and rock revetment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1057 Water and Land on S.C.R. No. 19

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (1) 3-9-016:036, Maunalua, Honolulu, Oahu, for the existing seawall, and for the use, repair, and maintenance of existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Daisho Co., Ltd.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that in its meeting on July 10, 2020, under agenda item D-5, the Board of Land and Natural Resources, subject to conditions, approved a grant of a twenty-five-year non-exclusive easement to resolve the one hundred thirty-eight square foot seawall encroachment. Following testimony and discussion, your Committee notes that the fair market value of the easement is currently being appraised. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing seawall.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 19 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1058 (Joint) Agriculture and Environment and Water and Land on H.B. No. 553

The purpose and intent of this measure is to:

- Prohibit knowingly capturing, entangling, or killing a shark in state marine waters, with exceptions, and provide for penalties
 and fines for violations; and
- (2) Require the Department of Land and Natural Resources to adopt rules to achieve certain objectives relating to sharks.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Pacific Whale Foundation; The Humane Society of the United States; Friends of Hanauma Bay; For the Fishes; Conservation Council for Hawaii; Kai Palaoa; Kalanihale; Environmental Caucus of the Democratic Party of Hawaii; Moana 'Ohana; KAHEA; Sierra Club of Hawaii; Legacy Reef Foundation; ODA Hawaii; FairWind; Haereticus Environmental Laboratory; Center for Biological Diversity; The Kohala Center; Hawaii Reef and Ocean Coalition; Aloha Animal Advocates; and twenty individuals. Your Committees received testimony in opposition to this measure from Lokahi Fishing, LLC and seventeen individuals. Your Committees received comments on this measure from the University of Hawaii Institute of Marine Biology and one individual.

Your Committees find that sharks are culturally significant and serve critical ecological functions. By controlling fish populations as apex predators, sharks care for the ocean environment that is necessary for the continuation of native Hawaiian traditional and customary practices. Locations with greater apex predator biomass showed a high biomass of herbivorous fish, which helps keep coral reef ecosystems and the ocean healthy. Since 1970, the global abundance of oceanic sharks has declined by seventy-one percent due to an eighteen-fold increase in relative fishing pressure, increasing the risk of global extinction to the point at which three-quarters of the species compromising this functionally important assemblage are threatened with extinction.

Your Committees additionally find that in 2010, Hawaii became the first state to enact a prohibition on shark-finning and the sale of shark fins or fin products. However, existing law does not protect sharks from intentional capture or killing. Your Committees further find that the growing number of interactions between ocean users and sharks has resulted in the consideration of stronger penalties for cruelty against sharks. Some fishers have expressed concerns that they may be charged for the incidental capture of a shark while fishing for other species. To avoid punishing fishers for the incidental take of sharks, an explicit exception may be unnecessary, but such amendment may further render this measure largely unenforceable. Similar explicit exceptions have not been necessary to prevent imposing liability on fishers for the truly incidental take of protected species. Moreover, the extremely limited amount of subsistence shark fishing currently occurring, as noted in the preamble to this measure, weighs against the need to expand subsistence fishing beyond that which may occur as a native Hawaiian traditional and customary practice.

Your Committees have amended this measure by:

- (1) Amending section 1 to reflect its amended purpose to protect sharks for their ecological value, while not criminalizing the accidental capture and release of sharks that may be captured while fishing for other species as allowed by existing statutes or rules:
- (2) Setting the prosecutorial burden to intentionally and knowingly capturing or entangling any shark within marine state waters;
- (3) Removing the incidental take exception, as fishers who are truly targeting non-protected species and who immediately release incidentally hooked or taken protected species are not held liable for an unlawful take despite the lack of an explicit statutory or regulatory incidental take exception;
- (4) Removing the exception for subsistence fishing of sharks by permit, as incidental capture while fishing for other species may be further addressed by the Department of Land and Natural Resource's rulemaking process;
- (5) Clarifying that the Department of Land and Natural Resources may adopt rules pursuant to chapter 91, Hawaii Revised Statutes, rather than requiring the Department to adopt rules;
- (6) Inserting an effective date of January 1, 2022, to allow for community outreach and education about the importance of protecting sharks and provide information about the potentially forthcoming rulemaking process from the Department of Land and Natural Resources; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 553, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 553, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1059 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 601

The purpose and intent of this measure is to amend the statewide traffic code to allow for the county chiefs of police to designate county employees to issue citations for traffic violations.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Kaua'i, National Tropical Botanical Garden, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that due to the shortage of police officers in every county, enforcement of special no stopping, standing, or parking zones throughout the State is very limited. Unlike the Department of Transportation Airport and Harbor Divisions, the Highway Division does not have an enforcement branch and relies on county police departments to enforce traffic and safety violations. This measure will provide additional persons with the authority to issue traffic citations, thereby improving traffic safety in the State

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 601, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1060 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 765

The purpose and intent of this measure is to appropriate funds for the Hawaii Emergency Management Agency to acquire mobile communications, water, and power service capabilities that can be deployed to each county as needed.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Hawaii Emergency Management Agency.

Your Committee finds that climate change is causing a dramatic increase in extreme weather events globally. In Hawaii, effects of climate change include increases in the number of wildfires, sea surface and air temperatures, coastal erosion, and extreme rain. Against this backdrop, your Committee finds that emergency management systems must be bolstered. The Hawaii Emergency Management Agency is tasked with, among other things, anticipating trends and promoting innovations that will enhance the emergency management system for the State, and taking steps that include the partial or full mobilization of emergency management forces and organizations in advance of an actual emergency, to ensure the availability of adequately equipped forces before, during, and after emergencies and disasters. This measure will appropriate funds to the Hawaii Emergency Agency so that it can quickly provide support to the people of Hawaii in cases of emergencies.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 765, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1061 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 835

The purpose and intent of this measure is to appropriate funds to support the ongoing operations of the Hawaii national guard youth challenge program.

Your Committee received testimony in support of this measure from the Judiciary, County of Hawai'i Office of the Prosecuting Attorney, and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Hawaii national guard youth challenge program is a community-based program that provides and teaches life changing structure, education, values, and skills for "at promise" youth throughout the State. The Hawaii national guard youth challenge program provides the necessary services to divert "at promise" youth from the juvenile justice system and serves as a much-needed alternative to detention. This measure appropriates funds to support this essential program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 835, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1062 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1036

The purpose and intent of this measure is to:

- (1) Authorize the Department of Public Safety to maintain a list of independent civil process servers; and
- (2) Amend appropriate statutes to authorize process servers to serve specific types of legal documents.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii State Bar Association, Collection Law Section of the Hawaii State Bar Association, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the sunset provision in Act 101, Session Laws of Hawaii 2015, that went into effect on June 30, 2020, resulted in a repeal of numerous sections of the Hawaii Revised Statutes, which removed express language authorizing process servers to serve specific types of legal documents. This measure updates and reinstates statutory language in order to provide clear guidelines for the limitation of authority, fee schedules, and the specific services provided by process servers who are required to be registered with the Department of Safety.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1036, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1036, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1063 Transportation on H.B. No. 95

The purpose and intent of this measure is to authorize the issuance of special number license plates that commemorate the beauty of the State's natural resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that state residents understand and appreciate the importance of the beauty of the natural resources that Hawaii provides. This measure offers the people of Hawaii the opportunity to support the conservation of the State's natural resources through the purchase of a special number license plate.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 95, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1064 Transportation on H.B. No. 264

The purpose and intent of this measure is to make permanent the provisions of Act 236, Session Laws of Hawaii 2016, that created a statewide insurance framework for transportation network companies.

Your Committee received testimony in support of this measure from the American Property Casualty Insurance Association of America, Hawaii Insurers Council, Uber Technologies, and Lyft.

Your Committee finds that Act 236, Session Laws of Hawaii 2016 (Act 236), was enacted to close the insurance gaps associated with transportation network companies and their drivers by establishing motor vehicle insurance requirements. The intent of Act 236 was to serve as a trial period of five years to see if the law functioned as intended and included a sunset provision that terminates the

law in September of 2021. Your Committee finds that over the past five years the provisions of Act 236 have worked as intended and it is now the intent of your Committee to make the insurance provisions of Act 236 permanent.

Your Committee further finds that transportation network companies have grown from a nascent industry into a common part of resident's everyday life. As such, your Committee finds that statewide regulation of transportation network companies beyond what is contemplated in this measure is needed to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network company drivers, as well as to preserve and enhance access to important transportation options for residents and visitors of the State.

Your Committee notes that S.B. No. 251, S.D. 2, which was previously passed by the Senate, establishes a wider regulatory framework for transportation network companies and their drivers, and includes the insurance provisions covered by this measure. The language in S.B. No. 251, S.D.2, is therefore preferrable because it accomplishes the intent of this measure and also establishes regulations for the transportation network company industry as a whole.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 251, S.D. 2, which establishes a regulator framework for the transportation network company industry.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 264, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 264, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1065 Transportation on H.B. No. 486

The purpose and intent of this measure is to:

- (1) Specify that a government agency does not assume ownership or jurisdiction over a disputed road solely as a result of performing maintenance or repair activities; and
- (2) Authorize the State to transfer ownership of roads in favor of counties by quitclaim if requested by the county.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there are roads in Hawaii whose ownership or jurisdiction is disputed between the State and counties. Your Committee further finds that the safety of persons traveling over these so called "roads in limbo" is affected by the lack of maintenance to these roads. Your Committee also finds that neither state nor county agencies are willing to maintain these roads because the performance of maintenance or repair activities may be construed to indicate ownership and jurisdiction over the disputed roads. This measure allows the state or county to maintain roads without taking on ownership responsibility.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 486, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1066 Transportation on H.B. No. 1062

The purpose and intent of this measure is to amend section 286-236, Hawaii Revised Statutes, to comply with title 49, Code of Federal Regulations, part 380 subpart F, which requires entry level driver training for certain applicants for a commercial driver's license or endorsement.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation

Your Committee finds that effective February 7, 2022, the Federal Motor Carrier Safety Administration will require states to comply with federal entry-level driver training regulations for certain first-time commercial driver license applicants. Failure to comply with the federal mandate could result in millions of dollars being withheld from the State from the federal Highway Trust Fund. Your Committees further note that approximately two-thirds of all states have already implemented this requirement. Considering the exceptional penalties that would be assessed against the State for failure to comply, this measure is important to keep the State in compliance and to continue to receive the full apportioned amounts from the federal Highway Trust Fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1062, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1062, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1067 Transportation on H.B. No. 1090

The purpose and intent of this measure is to:

- (1) Amend the requirements for the restraint of child passengers; and
- (2) Increase certain fines for violations.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Strategic Highway Safety Plan; Honolulu Police Department; Kapi'olani Medical Center for Women and Children; Juvenile Products Manufacturers Association, Inc.; AAA Hawai'i; and Keiki Injury Prevention Coalition. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that motor vehicle injuries are one of the leading causes of death among children. The best way to save lives and reduce injuries in the event of an automobile collision is to ensure the use of age and size appropriate car seats, booster seats, and seat belts. This measure will better protect children by placing them in a safer seating position within the vehicle and securely seated in an appropriate child restraint seat for an increased period of time.

Your Committee has amended this measure by:

- (1) Restoring language to preclude contributory negligence, comparative negligence, and negligence per se arguments from being raised as a defense to failure to properly restrain a child in a child restraint seat; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1090, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1090, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1068 Transportation on H.B. No. 1321

The purpose and intent of this measure is to erect depth-gauge signs on any portion of a public highway that lies within a special flood hazard area and is prone to flooding.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Department of Transportation, and one individual.

Your Committee finds that flooded highways pose a safety risk to drivers. It can be very difficult for a driver to accurately gauge how deep the water is and many drivers attempt to cross flooded highways, which can jeopardize their safety. This measure will allow drivers to determine the depth of water on flooded highways.

Your Committee has amended this measure by removing the appropriation.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1321, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1321, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1069 Education on S.C.R. No. 100

The purpose and intent of this measure is to request the Department of Education to provide free menstrual products to students on all Hawaii public school campuses.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawai'i Health & Harm Reduction Center, Ma'i Movement Hawai'i, HawaiiKidsCAN, Hawai'i Women's Coalition, I Support the Girls Hawaii, Going Home Hawaii, Neighborhood Place of Puna, AF3IRM Hawai'i, Hawaii Student Care Resources, Hawai'i Children's Action Network Speaks!, and forty-eight individuals.

Your Committee finds that the Hawaii Board of Education policy number 1110-10 states that "gender equity extends the doctrine of fairness to all areas of activity in the public school system". Your Committee further finds that the funding allocated by the Legislature and expended by the Department of Education should be equitably allocated among students who menstruate and those who do not. However, although the Department of Education maintains a healthy school environment by providing free products to students such as toilet paper and hand soap in restrooms, the Department of Education does not provide students with free menstrual products. Some students who are menstruating do not come to school or leave school early because they cannot afford the menstrual products that maintain a healthy school environment. By providing these products to students, the Department of Education will promote gender equity in schools as well as ensure that students from lower income homes do not miss out on their education simply because they cannot afford these products.

Your Committee notes that the Department of Education is encouraged to start right away with distributing menstrual products to students using the school health rooms and possibly female school teachers to distribute the products rather than using dispensers and to consider using federal funds for Title I schools as well as seek advice from other state agencies that may already be providing these products through different programs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 100 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1070 Education on S.R. No. 77

The purpose and intent of this measure is to request the Department of Education to provide free menstrual products to students on all Hawaii public school campuses.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Hawaii Board of Education policy number 1110-10 states that "gender equity extends the doctrine of fairness to all areas of activity in the public school system". Your Committee further finds that the funding allocated by the Legislature and expended by the Department of Education should be equitably allocated among students who menstruate and those who do not. However, although the Department of Education maintains a healthy school environment by providing free products to students such as toilet paper and hand soap in restrooms, the Department of Education does not provide students with free menstrual products. Some students who are menstruating do not come to school or leave school early because they cannot afford the menstrual products that maintain a healthy school environment. By providing these products to students, the Department of Education will promote gender equity in schools as well as ensure that students from lower income homes do not miss out on their education simply because they cannot afford these products.

Your Committee notes that the Department of Education is encouraged to start right away with distributing menstrual products to students using the school health rooms and possibly female school teachers to distribute the products rather than using dispensers and to consider using federal funds for Title I schools as well as seek advice from other state agencies that may already be providing these products through different programs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 77 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1071 (Joint) Education and Higher Education on S.C.R. No. 9

The purpose and intent of this measure is to convene a task force to address implementation of Hawaii's state law corollary to Title IX in light of recent changes to federal Title IX regulations.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System; Hawai'i Civil Rights Commission, AAUW of Hawaii, Every Voice Coalition, Democratic Party of Hawai'i Women's Caucus, Democratic Party of Hawai'i Education Caucus, Hawaii Women's Coalition, Americans for Democratic Action Hawai'i, Imua Alliance; and four individuals.

Your Committees find that Title IX of the federal Education Amendments of 1972, renamed in 2002 as the Patsy T. Mink Equal Opportunity in Education Act in honor of its principal author, former Hawaii Congresswoman Patsy Takemoto Mink, states that "[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance". In response to the intended policy changes announced by the United States Department of Education (USDOE) on the scope of Title IX's application, the Hawaii Legislature passed House Bill No. 1489, H.D. 1, S.D. 2, C.D. 1, which ultimately became Act 110, Session Laws of Hawaii 2018 (Act 110). Act 110 established a state law corollary to Title IX that prohibits sex-based discrimination in state-administered or state-funded educational programs or activities, including discrimination based on sexual orientation, gender identity, and gender expression. Your Committees further find that after receiving more than one hundred twenty-four thousand public comments on the proposed Title IX regulations, the USDOE formally published the final Title IX regulations (also known as the "Final Rule") in the Federal Register on May 19, 2020. This measure creates a task force to work together to ensure that the State remains in compliance with Title IX.

Your Committees have amended this measure by:

- (1) Changing the title to convening a task force to address implementation of Hawaii's state law corollary to Title IX to strengthen Hawaii's effort to end campus-based sexual violence and gender discrimination;
- (2) Specifying that according to the Rape, Abuse, and Incest National Network, one in ten students across the United States will experience sexual violence while attending an institution of higher education;
- (3) Specifying that according to the United States Department of Justice, an estimated ninety percent of survivors of campus-based sexual violence do not report such violence through official institutional or legal protocols;
- (4) Specifying that according to the University of Hawaii systemwide campus climate survey of 2019, 12.7 percent of students have reported experiencing sexual harassment, 10.6 percent have experienced stalking, 21.3 percent have experienced dating violence, and 7.2 percent have experienced nonconsensual sexual contact, all of which represent significant increases from the University of Hawaii's campus climate survey results of 2017;
- (5) Expanding the task force to include a representative from the Prevention, Awareness, and Understanding Program of the University of Hawaii; Hawaii Coalition to End Domestic Violence; The Sex Abuse Treatment Center; and Every Voice Coalition:
- (6) Specifying that the task force is requested to considers in its deliberations the:

- (A) Availability of resources for survivors of campus-based sexual violence;
- (B) Adequacy of evidence-based and trauma-informed training regarding sexual violence for faculty, staff, and students;
- (C) Sufficiency of information provided to students about gender violence;
- (D) Legislation enacted in other states to strengthening protections for survivors of campus based sexual violence;
- (E) Recommendations contained in "The Complexities of Enforcing Title IX and Related Laws: Past History, Current Status, and Future Directions", which was published by the Legislative Reference Bureau in 2019; and
- (F) Strategies for improving protections for transgendered students in Hawaii's public schools; and
- (7) Specifying that the task force is requested to work with student organizations to obtain feedback from survivors of campus-based sexual violence in the course of its deliberations;
- (8) Clarifying that the certified copies of the resolution be transmitted to the System Coordinator for the Prevention, Awareness, and Understanding Violence Program of the University of Hawaii; Executive Director of the Hawaii Coalition to End Domestic Violence; the Executive Director of the Sex Abuse Treatment Center, and Co-Executive Directors of the Every Voice Coalition; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 9, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 9, S.D. 1.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 1072 (Joint) Education and Higher Education on S.R. No. 8

The purpose and intent of this measure is to convene a task force to address implementation of Hawaii's state law corollary to Title IX in light of recent changes to federal Title IX regulations.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, AAUW of Hawaii, Every Voice Coalition, Democratic Party of Hawai'i Women's Caucus, Democratic Party of Hawai'i Education Caucus, Hawaii's Women's Coalition, Hawaii'i Women Lawyers, Imua Alliance, and one individual.

Your Committees find that Title IX of the federal Education Amendments of 1972, renamed in 2002 as the Patsy T. Mink Equal Opportunity in Education Act in honor of its principal author, former Hawaii Congresswoman Patsy Takemoto Mink, states that "[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance". In response to the intended policy changes announced by the United States Department of Education (USDOE) on the scope of Title IX's application, the Hawaii Legislature passed House Bill No. 1489, H.D. 1, S.D. 2, C.D. 1, which ultimately became Act 110, Session Laws of Hawaii 2018 (Act 110). Act 110 established a state law corollary to Title IX that prohibits sex-based discrimination in state-administered or state-funded educational programs or activities, including discrimination based on sexual orientation, gender identity, and gender expression. Your Committees further find that after receiving more than one hundred twenty-four thousand public comments on the proposed Title IX regulations, the USDOE formally published the final Title IX regulations (also known as the "Final Rule") in the Federal Register on May 19, 2020. This measure creates a task force to work together to ensure that the State remains in compliance with Title IX.

Your Committees have amended this measure by:

- (1) Changing the title to convening a task force to address implementation of Hawaii's state law corollary to Title IX to strengthen Hawaii's effort to end campus-based sexual violence and gender discrimination;
- (2) Specifying that according to the Rape, Abuse, and Incest National Network, one in ten students across the United States will experience sexual violence while attending an institution of higher education;
- (3) Specifying that according to the United States Department of Justice, an estimated ninety percent of survivors of campus-based sexual violence do not report such violence through official institutional or legal protocols;
- (4) Specifying that according to the University of Hawaii systemwide campus climate survey of 2019, 12.7 percent of students have reported experiencing sexual harassment, 10.6 percent have experienced stalking, 21.3 percent have experienced dating violence, and 7.2 percent have experienced nonconsensual sexual contact, all of which represent significant increases from the University of Hawaii's campus climate survey results of 2017;
- (5) Expanding the task force to include a representative from the Prevention, Awareness, and Understanding Program of the University of Hawaii; Hawaii Coalition to End Domestic Violence; The Sex Abuse Treatment Center; and Every Voice Coalition:
- (6) Specifying that the task force is requested to considers in its deliberations the:
 - (A) Availability of resources for survivors of campus-based sexual violence;
 - (B) Adequacy of evidence-based and trauma-informed training regarding sexual violence for faculty, staff, and students;
 - (C) Sufficiency of information provided to students about gender violence;

- (D) Legislation enacted in other states to strengthening protections for survivors of campus based sexual violence;
- (E) Recommendations contained in "The Complexities of Enforcing Title IX and Related Laws: Past History, Current Status, and Future Directions", which was published by the Legislative Reference Bureau in 2019; and
- (F) Strategies for improving protections for transgendered students in Hawaii's public schools; and
- (7) Specifying that the task force is requested to work with student organizations to obtain feedback from survivors of campus-based sexual violence in the course of its deliberations;
- (8) Clarifying that the certified copies of the resolution be transmitted to the System Coordinator for the Prevention, Awareness, and Understanding Violence Program of the University of Hawaii; Executive Director of the Hawaii Coalition to End Domestic Violence; the Executive Director of the Sex Abuse Treatment Center, and Co-Executive Directors of the Every Voice Coalition; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 8, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 8, S.D. 1.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 1073 Government Operations on S.C.R. No. 5

The purpose and intent of this measure is to:

- (1) Recognize the importance of 21st century data governance for fact-based policymaking;
- (2) Urge the Department of Health, Department of Labor and Industrial Relations, Department of Human Services, Judiciary, and county police departments to compile and share existing and disaggregated data on native Hawaiians and Pacific Islanders with the Office of Hawaiian Affairs and the general public in an expeditious manner;
- (3) Urge the same departments to work with the Office of Hawaiian Affairs and the Native Hawaiian & Pacific Islander Hawaii COVID-19 Response, Recovery, and Resilience Team to develop procedures and agreements for improving data collection, processing, retention, governance, and sharing with respect to native Hawaiians, Pacific Islanders, and other relevant demographics, and to each report to the Legislature; and
- (4) Urge the Governor to establish a Task Force on 21st Century Data Governance to assess the current data collection, processing, retention, and sharing procedures, needs, and challenges across state agencies and report to the Legislature.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Office of Hawaiian Affairs, InterAgency Council for Immigrant and Refugee Services, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, Papa Ola Lōkahi, Hawai'i Public Health Institute, Hawai'i Children's Action Network Speaks!, Na Pu'uwai, 'Ahahui o nā Kauka (Association of Native Hawaiian Physicians), Hawai'i Appleseed Center for Law & Economic Justice, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Medical-Legal Partnership for Children in Hawai'i, and twenty-nine individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that state departments and agencies need timely, comprehensive, and detailed data to accurately evaluate and improve services for the populations they serve. According to testimony received by your Committee, the coronavirus disease 2019 pandemic underscored the importance of disaggregated race, ethnicity, and spoken language data in delivering critical health care information and other services for native Hawaiian, Pacific Islanders, and limited English proficient persons in the State. Your Committee further finds that disaggregated data helps to develop good policies through informed decision-making in our State, as well as to leverage and incorporate the data in relevant federal grant applications. This measure would help state agencies address issues with the collection and disaggregation of data on native Hawaiians and Pacific Islanders in a systemic and transparent manner.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1074 Labor, Culture and the Arts on S.C.R. No. 211

The purpose and intent of this measure is to urge the Hawaii Employees' Retirement System to establish and offer to its qualified governmental pension plan participants, a qualified Roth contribution program by July 1, 2022.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Employees' Retirement System. Your Committee received comments on this measure from one individual.

Your Committee finds that saving money to cover one's living costs after retirement is one of the most important financial goals an individual will need to achieve, and the State has a vested interest in ensuring that its populace has adequate retirement savings for economic and healthcare purposes, as people without sufficient retirement savings may need to rely on governmental assistance after retirement and strain the State budget. The State currently offers its employees:

- (1) A tax-qualified defined benefit pension plan that requires mandatory employer contributions by the State, is governed by section 401(a) of the Internal Revenue Code (IRC), and administered by the Employees' Retirement System (ERS);
- (2) The Island \$avings Plan, which is a voluntary deferred compensation plan offered by the Department of Human Resources Development (DHRD) that is governed by section 457(b) of the IRC and administered by Prudential Retirement Insurance and Annuity Company;
- (3) A voluntary tax-sheltered annuity plan for employees of the Department of Education (DOE) and University of Hawaii that is governed by section 403(b) of the IRC and administered by National Benefit Services, LLC; and
- (4) A deferred compensation retirement plan offered by the DHRD for part-time, temporary, and seasonal/casual employees that is governed by section 457 of the IRC and administered by Life Insurance Company of the Southwest, a member of National Life Group.

All retirement plans currently offered to state employees are traditional retirement plans that deduct contributions from the employee's pre-tax income, and therefore reduces the employee's taxable income and federal and state tax burden for that current year. However, all future distributions, including capital gains in the account, are treated as taxable income at the time of withdrawal. Your Committee finds that section 402A of the IRC allows certain employer retirement plans to have a qualified Roth contribution program, under which plan participants may designate some or all of their retirement contributions as designated Roth contributions and have them placed into their designated Roth accounts. Unlike traditional pre-tax retirement contributions, an employee's designated Roth contribution is included in the employee's gross income in the year the contribution is made; however, qualified distributions from the designated Roth account (including capital gains in the account) are not treated as taxable income at the time of withdrawal. Your Committee finds that the option of a designated Roth account will benefit many plan participants, especially the employees whose retirement distributions will not occur until decades later because the tax savings for the distributions and capital gains accumulated in their designated Roth accounts over the years (due to compounding of interests) excluded from taxable income may surpass the amount of tax saved by making pre-tax contributions into traditional accounts. Your Committee also finds that a broader selection of retirement plans will entice more employees to contribute to their retirement accounts and induce other public and private sector employers to offer their employees the same option.

Your Committee notes testimony from ERS stating that under section 401(a) of the IRC, the ERS cannot maintain its tax-qualified status if it offers "elective deferrals" of compensation to its participants in the manner contemplated by a Roth contribution plan. In contrast, the DHRD and DOE currently offer a deferred compensation program for state employees separate from the retirement plans offered by the ERS, and can offer an alternative, qualified Roth contribution program for elective deferral of compensation by state workers.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the ERS with the DHRD and DOE, as the state agencies urged to establish and offer to their retirement plan participants, a qualified Roth contribution program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 211, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 211, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1075 Labor, Culture and the Arts on S.R. No. 174

The purpose and intent of this measure is to urge the Hawaii Employees' Retirement System to establish and offer to its qualified governmental pension plan participants, a qualified Roth contribution program by July 1, 2022.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Employees' Retirement System.

Your Committee finds that saving money to cover one's living costs after retirement is one of the most important financial goals an individual will need to achieve, and the State has a vested interest in ensuring that its populace has adequate retirement savings for economic and healthcare purposes, as people without sufficient retirement savings may need to rely on governmental assistance after retirement and strain the State budget. The State currently offers its employees:

- (1) A tax-qualified defined benefit pension plan that requires mandatory employer contributions by the State, is governed by section 401(a) of the Internal Revenue Code (IRC), and administered by the Employees' Retirement System (ERS);
- (2) The Island \$avings Plan, which is a voluntary deferred compensation plan offered by the Department of Human Resources Development (DHRD) that is governed by section 457(b) of the IRC and administered by Prudential Retirement Insurance and Annuity Company;
- (3) A voluntary tax-sheltered annuity plan for employees of the Department of Education (DOE) and University of Hawaii that is governed by section 403(b) of the IRC and administered by National Benefit Services, LLC; and
- (4) A deferred compensation retirement plan offered by the DHRD for part-time, temporary, and seasonal/casual employees that is governed by section 457 of the IRC and administered by Life Insurance Company of the Southwest, a member of National Life Group.

All retirement plans currently offered to state employees are traditional retirement plans that deduct contributions from the employee's pre-tax income, and therefore reduces the employee's taxable income and federal and state tax burden for that current year.

However, all future distributions, including capital gains in the account, are treated as taxable income at the time of withdrawal. Your Committee finds that section 402A of the IRC allows certain employer retirement plans to have a qualified Roth contribution program, under which plan participants may designate some or all of their retirement contributions as designated Roth contributions and have them placed into their designated Roth accounts. Unlike traditional pre-tax retirement contributions, an employee's designated Roth contribution is included in the employee's gross income in the year the contribution is made; however, qualified distributions from the designated Roth account (including capital gains in the account) are not treated as taxable income at the time of withdrawal. Your Committee finds that the option of a designated Roth account will benefit many plan participants, especially the employees whose retirement distributions will not occur until decades later because the tax savings for the distributions and capital gains accumulated in their designated Roth accounts over the years (due to compounding of interests) excluded from taxable income may surpass the amount of tax saved by making pre-tax contributions into traditional accounts. Your Committee also finds that a broader selection of retirement plans will entice more employees to contribute to their retirement accounts and induce other public and private sector employers to offer their employees the same option.

Your Committee notes testimony from ERS stating that under section 401(a) of the IRC, the ERS cannot maintain its tax-qualified status if it offers "elective deferrals" of compensation to its participants in the manner contemplated by a Roth contribution plan. In contrast, the DHRD and DOE currently offer a deferred compensation program for state employees separate from the retirement plans offered by the ERS, and can offer an alternative, qualified Roth contribution program for elective deferral of compensation by state workers.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the ERS with the DHRD and DOE, as the state agencies urged to establish and offer to their retirement plan participants, a qualified Roth contribution program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 174, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 174, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1076 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 195

The purpose and intent of this measure is to urge the United States Congress to amend the United States code to permit all retired disabled veterans to receive concurrent retirement and disability payments.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that under federal law, the phrase "concurrent retirement and disability payments" refers to a retired disabled veteran's simultaneous receipt of the veteran's full retirement payments and disability compensation. Prior to implementation of the concurrent retirement and disability payments program, the retirement payments for all retired disabled veterans were offset by the amount of disability compensation received by the veteran. The National Defense Authorization Act of Fiscal Year 2004 amended 10 United States Code section 1414 to permit retired disabled veterans who served in the armed forces for twenty or more years and have a United States Department of Veterans Affairs disability rating at or above fifty percent to receive concurrent retirement and disability payments. However, the retirement payments for retired disabled veterans who are ineligible for concurrent retirement and disability payments continue to be offset by the amount of disability compensation received by the veteran. This measure requests the United States Congress to provide all retired, disabled veterans with concurrent retirement and disability compensation regardless of their disability rating or years of service.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 195, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 195, S.D. 1.

Signed by the President on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1077 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 160

The purpose and intent of this measure is to urge the United States Congress to amend the United States code to permit all retired disabled veterans to receive concurrent retirement and disability payments.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that under federal law, the phrase "concurrent retirement and disability payments" refers to a retired disabled veteran's simultaneous receipt of the veteran's full retirement payments and disability compensation. Prior to implementation of the concurrent retirement and disability payments program, the retirement payments for all retired disabled veterans were offset by the amount of disability compensation received by the veteran. The National Defense Authorization Act of Fiscal Year 2004 amended 10 United States Code section 1414 to permit retired disabled veterans who served in the armed forces for twenty or more years and have a United States Department of Veterans Affairs disability rating at or above fifty percent to receive concurrent retirement and disability payments. However, the retirement payments for retired disabled veterans who are ineligible for concurrent retirement and disability payments continue to be offset by the amount of disability compensation received by the veteran. This measure requests the

United States Congress to provide all retired, disabled veterans with concurrent retirement and disability compensation regardless of their disability rating or years of service.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 160, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 160, S.D. 1.

Signed by the President on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English)

SCRep. 1078 Water and Land on S.C.R. No. 87

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for a portion of state submerged lands fronting the property identified as Tax Map Key: (2) 2-6-010:017, Kuau, Hamakuapoko, Maui, for the existing seawall and concrete steps, and for use, repair, and maintenance of the existing improvements constructed thereon pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on September 11, 2020, under agenda item D-4, the Board of Land and Natural Resources, under certain circumstances, approved the grants of a fifty-five-year non-exclusive easement of the additional portions of the L-shaped wing wall area on state submerged lands, to resolve the approximately two hundred twenty-three square feet of seawall and concrete steps encroachments. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing seawall and concrete steps.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 87 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1079 Water and Land on S.C.R. No. 102

The purpose and intent of this measure is to authorize the issuance of a perpetual, non-exclusive easement for the portion of state submerged lands seaward of Tax Map Key: (1) 3-9-002: seaward of Kalanianaole Highway near the bridge at Maunalua, Oahu, Hawaii, for the construction and maintenance of a rock groin to slow the rate of sediment deposition into the entrance channel of the Hawaii Kai Marina, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two hundred sixteen individuals.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (BLNR) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on June 12, 2020, under agenda item D-7, BLNR, subject to conditions, approved the issuance of a perpetual, non-exclusive easement to the Hawaii Kai Marina Community Association for the replacement of the existing deteriorating sandbag groin with a new, larger, and permanent rock rubble mound revetment and groin. Your Committee concludes that the easement is necessary for the construction and maintenance of a rock groin to slow the rate of sediment deposition in the entrance channel of the Hawaii Kai Marina.

Following testimony and discussion, your Committee notes that the grantee has rejected the independently appraised value of \$400,000 for the easement and that, to date, no consideration has been paid for the easement. According to testimony received by your Committee, BLNR will request that the Hawaii Kai Marina Community Association adhere to the process under section 171-17, Hawaii Revised Statutes, to resolve disputes on the appraisal of fair market value.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of consistency and clarity

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 102, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 102, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1080 Water and Land on S.C.R. No. 141

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portions of state submerged lands fronting the property identified as Tax Map Key: (2) 2—1—008: seaward of 069, Wailea, Maui, for beach access stairway purposes, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Association of Apartment Owners of Wailea Elua.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (BLNR) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on January 22, 2021, under agenda item D-5, BLNR, subject to conditions, approved the issuance of a twenty-five-year term, non-exclusive easement to the Association of Apartment Owners of Wailea Elua for beach access stairway purposes. Your Committee concludes that the easement is necessary for continued public access for beach and offshore recreational activities at Ulua Beach.

Your Committee has amended this measure by:

- (1) Inserting a clause stating that the grantee shall pay the State the fair market value of the easement as consideration for the use of state submerged lands, to be determined by independent appraisal; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 141, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 141, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1081 Government Operations on S.C.R. No. 146

The purpose and intent of this measure is to request that the Legislative Reference Bureau conduct a study relating to the State's authority to allow collective negotiation between physicians and health care insurers in Hawaii to restrain or balance the monopsonistic market power of health care insurers over independent physicians.

Your Committee received testimony in support of this measure from the Hawaii Medical Association; Hawaii Independent Physicians Association; Health Committee of the Democratic Party of Hawai'i; Joyful Living, LLC; Hawaii Physician Shortage Crisis Task Force; and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committee received comments on this measure from the Legislative Research Bureau.

Your Committee finds that the intent of this measure is to request a study for the purpose of restraining or balancing the monopsonistic market power of health care insurers over independent physicians. According to testimony received by your Committee from the Legislative Reference Bureau, the Bureau has no expertise regarding antitrust law, the federal Prepared Health Care Act, or how enacting state action immunity legislation could impact the State's exemption from the federal Employee Retirement Income Security Act of 1974 (ERISA), for its Prepaid Health Care Act, codified as chapter 393, Hawaii Revised Statutes, nor does its current budget allow for the Bureau to contract for an entity that specializes in the analysis of whether and how enacting a law similar to Alaska's law on collective negotiation by physicians would impact the State's ERISA exemption.

Accordingly, your Committee has amended this measure by:

- (1) Narrowing the scope of the requested study to examine the Alaska law authorizing collective negotiation by physicians, the Parker immunity doctrine and its current legal status, and the extent of any statutory or policy implementation by other states relating to collective negotiation by physicians;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 146, as amended herein, and recommends that it be referred to your Committee on Commerce and Consumer Protection, in the form attached hereto as S.C.R. No. 146, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1082 Government Operations on S.C.R. No. 200

The purpose and intent of this measure is to request that the Legislative Reference Bureau, Department of Budget and Finance, and Office of Enterprise Technology Services identify and eliminate gaps in the tracking of studies, funds appropriated for studies, and submission status of reports, and submit a joint report of their findings, actions already undertaken, and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services. Your Committee received comments on this measure from the Legislative Research Bureau.

Your Committee finds that pursuant to section 13G-5, Hawaii Revised Statutes, the Legislative Reference Bureau (LRB) tracks the submission of every report that a government agency is required to submit to the Legislature. According to testimony of the LRB received by your Committee, the broad request to identify and eliminate gaps in the tracking of studies, funds appropriated for studies, and submission status of reports to the Legislature, in addition to the LRB's current duties and responsibilities, would require additional funding and personnel.

Accordingly, your Committee has amended this measure by:

- (1) Focusing the scope of the resolution to request that the LRB identify the necessary steps and estimated costs of developing an automated system to track studies, funds appropriated for studies, and submission status of reports to the Legislature;
- (2) Amending its title in accordance with its amended purpose; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 200, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 200, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1083 Government Operations on S.R. No. 165

The purpose and intent of this measure is to request that the Legislative Reference Bureau, Department of Budget and Finance, and Office of Enterprise Technology Services identify and eliminate gaps in the tracking of studies, funds appropriated for studies, and submission status of reports, and submit a joint report of their findings, actions already undertaken, and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that pursuant to section 13G-5, Hawaii Revised Statutes, the Legislative Reference Bureau (LRB) tracks the submission of every report that a government agency is required to submit to the Legislature. According to testimony of the LRB received by your Committee, the broad request to identify and eliminate gaps in the tracking of studies, funds appropriated for studies, and submission status of reports to the Legislature, in addition to the LRB's current duties and responsibilities, would require additional funding and personnel.

Accordingly, your Committee has amended this measure by:

- (1) Focusing the scope of the resolution to request that the LRB identify the necessary steps and estimated costs of developing an automated system to track studies, funds appropriated for studies, and submission status of reports to the Legislature;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 165, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 165, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1084 Water and Land on S.C.R. No. 113

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as Tax Map Key: (4) 4-3-009: seaward of 050, Kapaa, Kawaihau, Kauai for construction of a sand groin, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and eight individuals.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources (BLNR) may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on February 14, 2021, under agenda item D-3, BLNR, subject to certain conditions, approved the issuance of a term, non-exclusive easement to the Association of Unit Owners of Kauai Kailani for the replacement of the existing sandbag barrier with a sandbag groin. Your Committee concludes that the easement is necessary for the construction of the sandbag groin to slow littoral drift and the erosion of Kuhio Beach in Kapaa, Kauai.

Your Committee notes for your Committee on Ways and Means that, following testimony and discussion, at its meeting scheduled for March 25, 2021, under agenda item D-3, BLNR plans to amend its prior approval of a term, non-exclusive easement of approximately 960 square feet in favor of a twenty-five year term, non-exclusive easement of 1,764 square feet, subject to certain conditions.

Your Committee has amended this measure by:

- (1) Clarifying its title; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 113, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 113, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1085 Agriculture and Environment on H.B. No. 46

The purpose and intent of this measure is to require all habitat conservation plans to include an agreement for plan participants to enter into and maintain an annual service contract with a stand-by and response facility available to provide emergency medical and rehabilitation services to native wildlife affected by activities undertaken within the plan area.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Hawai'i County Council, Hawai'i Wildlife Center, and five individuals.

Your Committee acknowledges that Hawaii's unique ecosystem is under constant threat by natural and manmade causes and that habitat conservation plans are one means of mitigating against this threat. Your Committee finds that the annual service contract requirement proposed by this measure will help to fulfill the requirement under existing law that each habitat conservation plan identify the steps that will be taken to minimize the impact of any incidental take to the maximum extent practicable. Thus, your Committee believes this measure seeks to ensure that permitted, professionally staffed, wildlife response resources are prepared to protect native wildlife adversely affected by human activities and help satisfy the statutory responsibilities of the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 46, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Acasio).

SCRep. 1086 (Joint/Majority) Agriculture and Environment and Hawaiian Affairs on H.B. No. 756

The purpose and intent of this measure is to designate that one of the four at-large positions on the Board of Agriculture shall be filled by the Chairperson of the Hawaiian Homes Commission.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, and Kawaihapai Ohana. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the Department of Agriculture, headed by the Board of Agriculture, works to support, enhance, promote, and protect Hawaii's agriculture and aquaculture industries. The Hawaiian Homes Commission Act authorizes the Department of Hawaiian Home Lands to lease agricultural lands or lands used for aquaculture purposes. A position on the Board of Agriculture will provide needed representation for native Hawaiian agricultural beneficiaries as an important part of the State's growing small-scale agricultural community. Additionally, the Department of Hawaiian Home lands currently represents the interests of 16,470 agricultural beneficiaries and 43,569 acres of agricultural lands and its agricultural program plan seeks to increase the issuance of agricultural homestead lots for lessees. As the State looks to increase food security statewide, the interests of agricultural homestead lessees should be represented on the Board of Agriculture. Thus, the addition of the Chairperson of the Hawaiian Homes Commission will provide a voice on the Board of Agriculture for the Department of Hawaiian Home Lands as a major and long-standing stakeholder in our State's agricultural landscape, facilitating their contribution to our State's economic resilience and food self-sufficiency.

Your Committees have heard concerns expressed by the Department of Agriculture that adding the Chairperson of the Hawaiian Homes Commission to the Board of Agriculture would provide opportunities for other stakeholder groups to request further expansion of the Board, thus compromising its ability to govern efficiently.

Your Committees have amended this measure by:

- (1) Providing that the Chairperson of the Hawaiian Homes Commission shall not join the Board of Agriculture until the next expiration of a currently serving at-large member's term;
- (2) Removing the sunset date; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 756, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 756, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, 1 (Nishihara).

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.

SCRep. 1087 Commerce and Consumer Protection on H.B. No. 171

The purpose and intent of this measure is to change the state of mind required for penalties to intentionally, knowingly, or recklessly for certain violations relating to pawnbrokers or secondhand dealers.

Your Committee received testimony in support of this measure from the Honolulu Police Department and three individuals. Your Committee received testimony in opposition to this measure from Kamaaina Loan, Hawaii Pawnbrokers Association, and Hawaii Gold & Silver Company.

Your Committee finds that pawnbrokers and secondhand dealers are required to maintain certain records and make them available to law enforcement to deter the purchase of stolen goods. However, recent efforts to bring dealers into compliance have been frustrated by the high state of mind standard. This measure would incentivize proper record keeping of items purchased by pawnbrokers and secondhand dealers and support enforcement efforts.

Your Committee notes the concerns raised in testimony that the term "reckless" in the context of pawnbrokers and secondhand dealers is vague and may have unintended consequences. These businesses are required to be licensed by their respective counties to buy secondhand merchandise, make records of government issued identification, fingerprint, and submit information to law enforcement, and the inclusion of the lower "reckless" state of mind standard, in essence, absolves investigators of any burden to

establish minimum standards that a crime has been committed. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Deleting the term "recklessly" and clarifying that any dealer, or any agent, employee, or representative of a dealer who intentionally or knowingly violates certain provisions, or who refuses to allow the inspection of records, shall be guilty of a misdemeanor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 171, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 171, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1088 Commerce and Consumer Protection on H.B. No. 286

The purpose and intent of this measure is to authorize the Department of Taxation to require real estate investment trusts to notify the Department of its presence within the State and to report the assets and revenues generated annually.

Your Committee received testimony in support of this measure from the Department of Taxation, Hawaii State Teachers Association, Young Progressives Demanding Action, Hawaii Health & Harm Reduction Center, Our Revolution Hawaii, Imua Alliance, Democratic Party of Hawaii Education Caucus, Hawaii Children's Action Network Speaks!, Americans for Democratic Action Hawaii, Trinity United Methodist Church, Faith Action for Community Equity, and thirty-five individuals. Your Committee received testimony in opposition to this measure from Securities Industry Association of Hawaii. Your Committee received comments on this measure from Tax Foundation of Hawaii; Nareit Hawaii; Alexander & Baldwin; League of Women Voters; NAIOP Hawaii; Douglas Emmett, Inc.; Park Hotels & Resorts, Inc.; and one individual.

Your Committee finds that real estate investment trusts (REITs) play a significant role in Hawaii's economy. In fact, due to Hawaii's low property tax rate, REITs own more real estate in Hawaii than in any other state in the country on a per capita basis. However, the extent of the assets and revenues generated by REITs have not been transparently reported to and accurately recorded by the State, and it is therefore necessary to assess how much REITs are currently affecting our local economy. In a time when Hawaii will face budget shortfalls for a number of years to come due to the coronavirus disease 2019 pandemic, the State should objectively evaluate how much revenue may be lost as a result of keeping the dividends paid deduction in place for REITs and obtain accurate information around progressive tax options. This measure increases transparency and accountability and adds another compliance tool for the Department of Taxation to gather statistical information from tax returns to help guide policy makers in the future. Accordingly, your Committee requests that your Committee on Ways and Means consider adding an additional section to this measure that would require the Department of Taxation to make annual reports, including any proposed legislation, to the Legislature concerning REITs to ensure that the information collected is readily available and up to date for the purposes of making future tax policy determinations.

Your Committee has amended this measure by:

- (1) Clarifying that, beginning January 1, 2022, the Department of Taxation shall require REITs subject to chapter 235, Hawaii Revised Statutes, to notify the Department of its operation in the State no later than fifteen days from the first day of operation in the State, provided that for REITs operating in the State as of July 1, 2021, the Department shall be notified no later than January 15, 2022;
- (2) Clarifying that the Department of Taxation shall assess a penalty of \$50 per day for any REIT that fails to comply with the provisions of this measure;
- (3) Inserting an effective date of January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 286, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 286, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1089 Commerce and Consumer Protection on H.B. No. 459

The purpose and intent of this measure is to add a permanent commercial driver's license disqualification for a holder of a commercial driver's license or commercial learner's permit who is convicted of a felony involving a severe form of trafficking in persons.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, and Hawaii Transportation Association.

Your Committee finds that, in 2019, the Federal Motor Carrier Safety Administration amended certain regulations to permanently disqualify individuals convicted of a felony involving a severe form of trafficking in persons from driving a commercial motor vehicle. This amendment also mandates states to comply with the changes within three years to avoid forfeiting funds apportioned to states under the federal Highway Trust Fund. This measure puts the State in substantial compliance with the federal regulations and combats

human trafficking and commercial and sexual exploitation of children and other vulnerable populations by imposing this strict, lifetime revocation of commercial driver's licenses.

Your Committee has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 459, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 459, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1090 Commerce and Consumer Protection on H.B. No. 940

The purpose and intent of this measure is to:

- (1) Mandate reporting of suspected financial exploitation of elders and vulnerable adults in relation to securities;
- (2) Provide immunity for good faith reporting; and
- (3) Authorize the delay of disbursements and transactions in situations of suspected financial exploitation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, AARP Hawai'i, NAIFA Hawaii, Securities Industry and Financial Markets Association, Securities Industry Association of Hawaii, and one individual.

Your Committee finds that financial exploitation of elders is the fastest growing form of elder abuse and can result in devastating consequences for victims, including fear, loss of independence, reduced quality of life, and even death. This measure is based on a securities model act from 2016 that has since been enacted in more than two-dozen states across the country and addresses existing privacy rules and concerns about potential legal exposure and liability that may make it difficult for securities professionals to contact regulators and other government authorities to report suspected financial exploitation. This measure enables financial institutions and the State to work together in preventing, identifying, and addressing cases of financial abuse to combat this growing threat to vulnerable residents.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 940, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 940, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1091 Judiciary on H.B. No. 631

The purpose and intent of this measure is to:

- (1) Provide courts with greater discretion to adjust the amount owed or installments to be paid by a person who violates certain traffic offenses based on the person's ability to pay;
- (2) Decrease the imprisonment term to contumacious nonpayment ratio; and
- (3) Increase the amount of credit given to a person committed for contumacious nonpayment.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, Community Alliance on Prisons, Kalihi-Palama Hawaiian Civic Club, and six individuals.

Your Committee finds that the financial hardship task force, established pursuant to Act 112, Session Laws of Hawaii 2019, made several recommendations on how to improve the current traffic system to address the needs of those who are experiencing financial hardship. Your Committee further finds that these recommendations include increasing judicial discretion to impose alternative sentences, expansion of the restricted license program to allow motorists to legally maintain driving privileges while remaining in compliance with court orders, increasing community service conversion rates to authorize courts to give motorists the ability to satisfy monetary assessments at an increased pace, establishing a uniform procedure to adjust a defendant's monetary assessment when a defendant claims financial hardship, increasing the imprisonment conversion rate for criminal traffic offenses, and increasing public visibility of financial hardship options. This measure implements several recommendations from the task force.

Your Committee has amended this measure by:

- (1) Increasing the amount of credit given to a person committed for contumacious nonpayment to \$250 per day; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 631, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 631, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1092 Transportation on H.B. No. 72

The purpose and intent of this measure is to:

- (1) Establish a framework for the regulation of electric foot scooters; and
- (2) Amend the definition of "moped" to exclude electric foot scooters.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Department of Transportation; Department of Planning for Kaua'i County; Department of Transportation Services for the City and County of Honolulu; Honolulu Police Department; Spin; Lime; Helbiz, Inc.; Waikiki Neighborhood Board; and one individual.

Your Committee finds that electric foot scooters and other micromobility options have enormous potential to be a solution to reducing transportation costs, vehicle congestion on Hawaii's roads, dependence on fossil fuels, and pollutants and harmful emissions. These vehicles are also a good option for first-mile/last-mile connections for many who use public transit as a primary mode of transportation. Your Committee further finds that given the frequency with which these scooters are seen on the roads, it is necessary to appropriately regulate these vehicles. This measure establishes a framework for the regulation of electric foot scooters by the State and counties and amends the definitions of "moped" to exclude electric foot scooters.

Your Committee has amended this measure by:

- (1) Requiring that electric foot scooters only be publicly stored or docked at specific locations authorized by a county;
- Requiring the funds from the registration of electric foot scooters be deposited into the bikeway fund under section 249-17.5, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 72, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 72, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1093 Transportation on H.B. No. 775

The purpose and intent of this measure is to rename Kahului Airport Access Road on Maui as Mayor Elmer F. Cravalho Way.

Your Committee received testimony in support of this measure from the Office of the Mayor of Maui County and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that Maui currently does not have any roadways commemorating local politicians and their role in the modern history of Maui. Mayor Elmer F. Cravalho was the first Speaker of the House of Representatives following statehood in 1959 and the first mayor of Maui County, a position that he held from 1969 until 1979. His career in Hawaii politics started in 1954 and he remained a civic leader until his passing in 2016. Your Committee believes that Mayor Cravalho has a clear connection to Maui's modern history and he should be remembered for his civil service by naming a highway in his honor.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 775, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1094 Transportation on H.B. No. 1081

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation (DOT) to create and maintain a priority list of sidewalk installation and improvement projects;
- (2) Require the county transportation departments to create and maintain a priority list of sidewalk installation and improvement projects; and
- (3) Require the DOT and the counties to post the list on their respective websites to promote transparency and public accountability.

Your Committee received testimony in support of this measure from the Department of Transportation, Waikiki Neighborhood Board, Hawaii Bicycling League, and three individuals.

Your Committee finds that sidewalk networks increase pedestrian safety by separating pedestrians from vehicular traffic. Moreover, sidewalks produce positive public-health outcomes by encouraging walking, making communities more accessible, and contributing to more sustainable communities by decreasing dependence on motor vehicles. However, there is a significant disparity in the installation, maintenance, and improvement of sidewalk networks throughout the State. This measure will promote the development of

sidewalk installation and improvement plans by requiring the DOT and the counties to maintain an ongoing list of sidewalk installation and pedestrian improvement projects. It will also promote transparency and accountability by requiring those lists to be published on the respective websites of the DOT and the counties so that the information can be accessed by the public.

Your Committee notes that the DOT has testified that it already has a list of sidewalk and pedestrian improvement projects and that the list, called the Statewide Pedestrian Master Plan, is already accessible on the DOT's website.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the DOT to maintain, rather than create, a list of statewide sidewalk and pedestrian improvement projects;
- (2) Requiring the DOT and county transportation departments to include possible alternative to sidewalks that may be better suited for individual communities on the priority list; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1081, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1081, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1095 (Joint) Transportation and Energy, Economic Development, and Tourism on H.B. No. 1142

The purpose and intent of this measure is to:

- Establish a surcharge on the sale of high-end gasoline-powered vehicles to fund the installation of electric vehicle charging systems; and
- (2) Establish an electric vehicle charging systems subaccount within the public utilities commission special fund.

Your Committees received testimony in support of this measure from the City and County of Honolulu Office of Climate Change, Sustainability, and Resiliency; Hawaii Electric Vehicle Association; Tesla, Inc.; Soderholm Bus and Mobility; Ulupono Initiative; American Lung Association; Hawaiian Electric Company; Climate Protectors Hawai'i; Blue Planet Foundation; Environmental Caucus of the Democratic Party of Hawai'i; Kauai Electric Vehicle Association; and eighteen individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Automobile Dealers' Association, Cutter Management Company, Alliance for Automotive Innovation, Hawaii Laborers' Union Local 368, and one individual. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, Public Utilities Commission, State Energy Office, Tax Foundation of Hawaii, Grassroot Institute of Hawaii, and Hawai'i Energy.

Your Committees find that the State is nearly one hundred percent dependent on imported petroleum for its ground transportation needs. Hawaii residents, businesses, and visitors spent over \$1.7 billion on gasoline in 2019 and the combustion of that fuel released over ten billion pounds of climate-changing carbon dioxide into the atmosphere. Your Committees also observe that ground transportation is undergoing a seismic shift in the industry as more and more automobile manufacturers transition to all-electric vehicles. Hawaii is woefully unprepared for this transition to all-electric vehicles and it is imperative that the State act with utmost haste to ensure that residents are sufficiently equipped for a future where all new vehicle sales will be electric vehicles. In order to prepare for the influx of electric vehicles, the State needs to ensure that there are sufficient electric vehicle charging stations to meet the anticipated demand. This measure will provide funding to increase the supply of EV charging stations.

Your Committees have amended this measure by:

- (1) Removing the vehicle surcharge tax;
- (2) Allocating three cents of the barrel tax to fund the electric vehicle charging system rebate program until June 30, 2030; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1142, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1142, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Fevella). Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1096 Human Services on H.B. No. 722

The purpose and intent of this measure is to address the growing problem of sex trafficking and commercial sexual exploitation of children in the State by establishing within the Department of the Attorney General a statewide coordinator and program to address the needs of victims of human trafficking.

Your Committee received testimony in support of this measure from the Judiciary; Department of Human Services; Department of the Attorney General; Office of Hawaiian Affairs; Department of Health; Maui Police Department; Hawaii County Office of the Prosecuting Attorney; Honolulu Police Department; City and County of Honolulu, Department of the Prosecuting Attorney; Hawaii Psychological Association; St. Michael the Archangel Parish; Hawaii Island Safe Net, Hawaii Island Coalition Against Human

Trafficking; Sex Abuse Treatment Center; and five individuals. Your Committee received comments on this measure from Imua

Your Committee finds that children in the State are vulnerable to sex trafficking and commercial sexual exploitation. In the last decade, the commercial sexual exploitation of children has garnered greater attention in Hawaii and throughout the United States. Your Committee further finds that in order to adequately serve children who have been sexually exploited, a statewide human trafficking program is needed to develop and utilize comprehensive interagency case management strategies, protocols, and a multi-disciplinary response that is both victim-centered and offender-focused. Your Committee notes the testimony of the Department of the Attorney General, which stated that an appropriation for a statewide coordinator would not be necessary as its current budget already includes a position for the coordinator; however, having the position statutorily-established will aid in opportunities to obtain federal grants.

Accordingly, your Committee has amended this measure by:

- (1) Reinserting the requirement that the Department of the Attorney General establish a statewide coordinator and program within the Department to address the needs of victims of human trafficking;
- (2) Inserting an effective date of January 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 722, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 722, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1097 Human Services on H.B. No. 975

The purpose and intent of this measure is to bring state law into compliance with the most recent amendments to the Child Abuse Prevention and Treatment Act, which seek to provide immunity from civil and criminal liability for individuals making good faith reports of suspected or known instances of child abuse or neglect.

Your Committee received testimony in support of this measure from the Department of Human Services and the Hawai'i Psychological Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in January 2019, the Victims of Child Abuse Act Reauthorization Act of 2018, P.L. 115-424, was enacted, further amending certain provisions of the Child Abuse Prevention and Treatment Act. Your Committee also finds that the 2019 amendment provides immunity from civil and criminal liability for individuals making good faith reports of suspected or known instances of child abuse or neglect, or who otherwise provide information or assistance, including medical evaluations or consultations, in connection with a report, investigation, or legal intervention pursuant to a good faith report of child abuse or neglect. Your Committee further finds that due to the impact of the coronavirus disease 2019 pandemic on the Hawaii State Legislature's regular session of 2020, the Children's Bureau of the Administration for Children and Families of the United States Department of Health and Human Services, granted the department of human services an extension until June 30, 2021, to bring Hawaii's law into compliance with federal law.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2021; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 975, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1098 Human Services on H.B. No. 980

The purpose and intent of this measure is to broaden the department of human services' right of entry into a vulnerable adult's premises without a warrant, for an investigation of any type of abuse, regardless of whether there is physical injury.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Department of Human Services, Department of Human Services, Adult Protective and Community Services; Maui County Department of the Prosecuting Attorney; AARP Hawai'i; and three individuals.

Your Committee finds that the department of human services is authorized to enter premises without a warrant for purposes of investigating the possibility of abuse of a vulnerable adult. However, existing law limits that right of warrantless entry to only situations where there is probable cause to believe that a vulnerable adult will be physically injured. However, under existing law, abuse includes not only physical abuse, but also psychological abuse, sexual abuse, financial exploitation, caregiver neglect, or self-neglect, each of which can result in severe harm to the vulnerable adult. Your Committee further finds that this measure allow earlier intervention that can stem the effects of harmful abuse of all types. Accordingly, your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 980, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 980, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1099 Housing on H.B. No. 79

The purpose and intent of this measure is to:

- (1) Establish the affordable homeownership revolving fund within the Hawaii Housing Finance and Development Corporation to provide loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects; and
- (2) Appropriate funds from the affordable homeownership revolving fund for loans for the development of affordable for-sale housing projects.

Your Committee received testimony in support of this measure from the Hawai'i Association of Realtors; Hawaii Habitat for Humanity Association; Habitat for Humanity Hawaii Island, Inc.; HOPE Services Hawai'i, Inc.; St. Michael the Archangel Parish; Lei Ho'olaha CDFI, Hawai'i Appleseed Center for Law & Economic Justice; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Department of Budget and Finance.

Your Committee finds that homeownership is positively correlated with economic and social stability. However, the number of full-time Hawaii residents who own homes has steadily declined over the last fifty years. Currently, Hawaii has the third lowest homeownership rate of any state in the nation. To help solve this problem, self-help housing, nonprofit developers, and community land trust organizations can leverage federal funds to build houses that are available for purchase by low- and moderate-income households, but only if these organizations can provide additional non-federal matching funds. Your Committee further finds that the additional matching funds required can be provided by the establishment of an affordable homeownership revolving fund. The use of this fund, together with federal funds, can create homeownership opportunities for more of Hawaii's residents.

Your Committee has amended this measure by changing the appropriation amount from an unspecified amount to \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 79, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 79, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1100 Housing on H.B. No. 606

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the dwelling unit revolving fund and the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; AARP Hawai'i; Catholic Charities Hawai'i; Hawaiian Humane Society; Partners In Care; Stanford Carr Development, LLC; Hawai'i Association of Realtors; Hawai'i Health & Harm Reduction Center; AlohaCare; and two individuals.

Your Committee finds that Hawaii has an ongoing housing crisis that was exacerbated by the economic difficulties brought on by the coronavirus disease 2019 (COVID-19) pandemic. During the past year, many residents have found themselves either unemployed or facing reduced hours at work. During these difficult economic times, it is critical that residents have access to affordable housing. Without access to affordable housing, many residents face the prospect of leaving the State or becoming homeless. By appropriating funds into the dwelling unit revolving fund and the rental housing revolving fund as provided in this measure, more affordable housing units can be built to provide homes for Hawaii residents.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for the Dwelling Unit Revolving Fund from an unspecified amount to \$20,000,000; and
- (2) Changing the appropriation amount for the Rental Housing Revolving Fund from an unspecified amount to \$25,000,000.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 606, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 606, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1101 Housing on H.B. No. 1132

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the construction of phase I of a senior living affordable housing project on School Street on the island of Oahu by the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, AARP Hawai'i, Catholic Charities Hawai'i, Hawaiian Humane Society, Partners In Care, Hawai'i Health & Harm Reduction Center, AlohaCare, Hawai'i Appleseed Center for Law & Economic Justice, and three individuals.

Your Committee finds that the State has a housing crisis. The high cost of housing in particular affects senior citizens who often live on fixed incomes. This is especially worrisome as the age group of those sixty-five years and older is growing at an annual rate of 3.6 percent while the total annual population growth for the entire State is just 0.5 percent. The State needs to take action to help provide elderly citizens with affordable housing. This measure will provide the funds necessary for an affordable senior living housing project.

Your Committee has amended this measure by:

- (1) Changing the funding amount for the general obligation bond from an unspecified amount to \$40,000,000;
- (2) Changing its effective date from July 1, 2050, to effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1132, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1132, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1102 Housing on H.B. No. 907

The purpose and intent of this measure is to repeal the Down Payment Loan Assistance Program and the Homebuyers' Club Program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Department of Business, Economic Development, and Tourism.

Your Committee finds that the Down Payment Loan Assistance Program, established in 1995, and the Homebuyers' Club Program, established in 1993, are old, obsolete, and not cost-effective. Moreover, these programs are no longer necessary as nonprofit entities and financial institutions operate successful programs that accomplish the same goals. This measure repeals both programs.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 907, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1103 Housing on H.B. No. 869

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Luana Kai A Life Plan Community with the planning, design, and construction of a three hundred sixty-six-unit retirement community for seniors in the Honolulu suburb of Hawaii Kai.

Your Committee received testimony in support of this measure from Luana Kai A Life Plan Community. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that special purpose revenue bonds are used to assist statutorily designated categories of private entities in raising funds to purchase or build capital facilities. A continuing care retirement community, like the kind Luana Kai A Life Plan Community plans to build, is a health care facility as defined in part II, chapter 39A, Hawaii Revised Statutes. As such, the project is eligible for the issuance of special purpose revenue bonds that will assist the company in building a large senior living development in Hawaii Kai, which is a community in need of senior housing options.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 869, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1104 Government Operations on H.B. No. 33

The purpose and intent of this measure is to support the Information Technology Steering Committee (ITSC) in developing the State's information technology standards and policies by:

- (1) Amending the terms and composition of the ITSC members; and
- (2) Requiring ITSC's Chief Information Officer to present an annual report to the ITSC for public comment prior to submitting the report to the Governor and Legislature.

Your Committee received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, Transform Hawai'i Government, Hawaii Data Collaborative, and two individuals.

Your Committee finds that preserving the continuity of the ITSC is necessary to properly administer section 27-43, Hawaii Revised Statutes, relating to the development of the State's information technology standards and policies. According to oral testimony received by your Committee from the Chief Information Officer, there is no issue to add two additional members to ITSC. Your Committee further finds that ITSC is an advisory committee and not a board or commission subject to section 26-34, Hawaii Revised Statutes

Accordingly, your Committee has amended this measure by:

- (1) Deleting:
 - (A) References to section 26-34, Hawaii Revised Statutes, regarding the selection and terms of members of boards and commissions; and
 - (B) Language requiring the President of the Senate and Speaker of the House of Representatives to each remove one of the members they appointed to the ITSC;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 33, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 33, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1105 Government Operations on H.B. No. 103

The purpose and intent of this measure is to:

- (1) Clarify that the powers granted for emergency purposes shall not be inconsistent with the Hawaii State Constitution;
- (2) Provide parameters for the duration of suspension of laws and require justification for the suspension;
- (3) Provide for the termination or extension of a proclamation of a state of emergency; and
- (4) Allow a separate proclamation arising from the same emergency or disaster as a previous proclamation that expired, upon request of the Governor and adoption of a concurrent resolution by the Legislature.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual. Your Committee received testimony in opposition of this measure from the Hawaii Emergency Management Agency, Maui Chamber of Commerce, and one individual. Your Committee received comments on this measure from Common Cause Hawaii and Grassroot Institute of Hawaii.

Your Committee finds that this measure addresses the lack of legislative oversight on the Governor's emergency powers under the State's existing emergency management law. Your Committee notes the concerns in the testimony regarding the prolonged suspension of sunshine laws and open record laws during the coronavirus disease 2019 pandemic and recognizes that there needs to be a balance between flexibility and transparency to provide and protect the public health, safety, and welfare during times of emergency.

Accordingly, your Committee has amended this measure by:

- (1) Requiring any suspension of law during a state of emergency to specify the emergency functions facilitated with justification based on protecting the public health, safety, and welfare, and careful regard to the public right to know under chapters 92 and 92F, Hawaii Revised Statutes;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 103, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 103, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1106 Government Operations on H.B. No. 513

The purpose and intent of this measure is to repeal the State Capitol Management Committee, which oversees the financing, operations, and maintenance of the State Capitol grounds and facilities.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and one individual

Your Committee finds that it is the responsibility of the Department of Accounting and General Services (DAGS) to operate and maintain the State Capitol grounds and facilities. According to testimony received by your Committee, the last meeting of the State Capitol Management Committee with minutes was in September 2018. Your Committee recognizes that over the past year during the coronavirus disease 2019 pandemic, DAGS continued to operate and maintain the State Capitol through on-ongoing projects and operations that include repainting, renovations, bird dropping mitigation, soffit replacement, new security cameras/equipment, recarpeting, dead bolt lock installations, and pool leak mitigation.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 513, and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1107 Government Operations on H.B. No. 526

The purpose and intent of this measure is to:

- (1) Require a bidder's past performance on state contracts of similar scope to be considered for contract awards and responsibility determinations;
- Require a responsible bidder or offeror to be determined based upon the responsibility determination standards adopted by the Procurement Policy Board;
- (3) Prohibit the evaluation of criteria not set forth in the request for proposals under the competitive sealed proposal process; and
- (4) Appropriate funds for the development and implementation of guidance and related implementation training for several tools relating to a past performance guide and past performance database, to be expended by the State Procurement Office.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition of this measure from the City and County of Honolulu Department of Design and Construction, General Contractors Association of Hawaii, and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of Accounting and General Services and State Procurement Office.

Your Committee finds that this measure is intended to decrease repeated inefficiencies, substandard work, and other forms of poor performance on state contracts by requiring the evaluation of past performance in the bid selection of contractors for certain projects. According to testimony received by your Committee, past performance, as another level of consideration and diligence in evaluating responsibility, will provide additional insight to positively impact the award selection to optimally support increased accountability, enhanced quality performance, and efficient and effective utilization of taxpayer dollars in respect to contract awards and the respective deliverables. Your Committee recognizes that the establishment and maintenance of a past performance database and the adoption of relevant administrative rules would help procurement officers in awarding contracts to responsible bidders and offerors.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of past performance to include the positive, negative, or lack of previous experience of a contractor;
- Clarifying the requirements that include past performance as an evaluation factor in awarding a contract through the competitive sealed proposal procurement method;
- (3) Deleting language that would have required procurement officers to consider a bidder's or offeror's past performance when making a responsibility determination;
- (4) Inserting language requiring the State Procurement Office to adopt rules and develop a statewide past performance database, by December 31, 2023, and procurements over the small purchase threshold to be maintained in the procuring department's files and the statewide past performance database, in conformity with S.B. No. 788, S.D. 2;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 526, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 526, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1108 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce and Consumer Protection on H.B. No. 391

The purpose and intent of this measure is to establish a process for the early termination of a rental agreement for certain active duty servicemembers who receive military orders to vacate civilian housing and move into on-post government quarters, or who die while serving on active duty.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association of REALTORS. Your Committees received comments on this measure from two individuals.

Your Committees find that servicemembers can lose their housing allowance when they get divorced, no longer have dependents, or do not have physical custody of children. In this event, servicemembers will be required to move into barracks regardless of any valid lease to which they are a party. Your Committees further find that this measure will help to ensure that servicemembers will not have to face evictions or serious financial hardship if they are no longer eligible for a basic housing allowance and need to terminate a residential lease for off-post housing.

Your Committees have amended this measure by:

 Specifying that servicemember tenants are required to request permission to maintain their housing allowance from their commanding officer before giving early termination notice to their landlord;

- (2) Specifying that written proof from the commanding officer denying the servicemember's request to maintain their housing allowance is required to be shown to the landlord along with the early termination notice;
- (3) Clarifying that the early termination notice starts after the landlord receives the commanding officer's written proof;
- (4) Clarifying that the notice requirement for early termination from non-terminating tenants who fail to demonstrate the ability to pay the rent is thirty days rather than fifteen days;
- (5) Inserting an effective date of July 1, 2030, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 391, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 391, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1109 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor, Culture and the Arts on H.B. No. 954

The purpose and intent of this measure is to convert the executive officer, public information officer, civil defense administrative officer, branch chiefs, and emergency operations center state warning point personnel in the Hawaii Emergency Management Agency from civil service status to exempt status.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency, Hawaii State Energy Office, The Maritime Group, and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that there continues to be an insufficient number of Hawaii Emergency Management Agency staff and applicants to fill critical position vacancies with trained, experienced, and qualified personnel. Exempting key Hawaii Emergency Management Agency positions from civil service will create the conditions for a responsive, flexible, and aggressive hiring system that will expedite the filling of these vacancies, as well as improve competitive recruiting and retention of qualified and experienced emergency management professionals. There will also be a reduction of risk to the State in having extended vacancies in these critical positions.

Your Committees have amended this measure by:

- (1) Clarifying that the civil service exemption for emergency operations center state warning point personnel applies if the Department of Human Resources Development Director determines that recruitment through normal civil service recruitment procedures would result in delay or noncompliance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 954, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 954, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Fevella).

SCRep. 1110 Judiciary on H.B. No. 671

The purpose and intent of this measure is to:

- (1) Prohibit certain state officials and employees from representing certain interests before the State for twelve months after termination from their respective positions; and
- (2) Specify that the prohibition against disclosing certain information applies to those who were employed by the State for less than one hundred eighty-one days.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Common Cause Hawai'i, and twelve individuals.

Your Committee finds that it is in the public interest to keep a distinct wall of separation between lobbyists and the State's elected officials and certain other government employees. Your Committee further finds that prohibiting elected officials, employees of the Legislature, and certain other high-ranking state officials from representing other interests before the State or before former colleagues with whom they have served, for twelve months after termination from their respective government positions will reduce any appearance of corruption and increase public confidence in the integrity of state government.

Your Committee has amended this measure by:

 Providing an exemption from the twelve-month representation prohibition for persons holding interim or acting positions for less than one hundred eighty-one days;

- Clarifying the specific board, authority, or commission executive directors, directors, or administrators that are included in the representation prohibition;
- (3) Changing the effective date to January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 671, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 671, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1111 Agriculture and Environment on S.C.R. No. 23

The purpose and intent of this measure is to urge the Department of Health's Environmental Management Division to ensure that destinations to which the State's recyclable waste is transported for out-of-state processing abide by the environmental standards as outlined by the Basel Convention.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Food Industry Association, and three individuals.

Your Committee finds that the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (Basel Convention) is a multilateral environmental agreement that establishes standards for the transboundary movement of hazardous waste and solid waste, including notice to and written confirmation from the receiving country prior to export, and seeks to protect human health and the environment from the adverse effects of hazardous wastes. The end-of-life processing for recyclable plastics and waste in many of the countries in which Hawaii's recyclable waste ultimately arrives are handled in a manner that is harmful to human health and local environments. Thereby, your Committee finds that it is necessary to ensure that the destinations to which the State's recyclable waste is transported for out-of-state processing abides by the environmental standards outlined in the Basel Convention.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 23, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 23, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Acasio).

SCRep. 1112 Agriculture and Environment on S.R. No. 12

The purpose and intent of this measure is to urge the Department of Health's Environmental Management Division to ensure that destinations to which the State's recyclable waste is transported for out-of-state processing abide by the environmental standards as outlined by the Basel Convention.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Food Industry Association, and three individuals.

Your Committee finds that the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (Basel Convention) is a multilateral environmental agreement that establishes standards for the transboundary movement of hazardous waste and solid waste, including notice to and written confirmation from the receiving country prior to export, and seeks to protect human health and the environment from the adverse effects of hazardous wastes. The end-of-life processing for recyclable plastics and waste in many of the countries in which Hawaii's recyclable waste ultimately arrives are handled in a manner that is harmful to human health and local environments. Thereby, your Committee finds that it is necessary to ensure that the destinations to which the State's recyclable waste is transported for out-of-state processing abides by the environmental standards outlined in the Basel Convention.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 12, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Acasio).

SCRep. 1113 (Joint) Higher Education and Education on S.C.R. No. 89

The purpose and intent of this measure is to urge the University of Hawai'i System (University) and Department of Education (DOE) to include training, courses, and curricula related to the mechanics, repair, and maintenance of electric vehicles, hydrogen vehicles, and other alternative fuel vehicles in their respective programs.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaiian Electric Company, Hawaii Electric Vehicle Association, Big Island Electric Vehicle Association, Sustainable Energy Hawai'i, and six individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that the need to address the impacts of climate change on the natural and human environment is becoming increasingly urgent. Combustion of gasoline and diesel for cars and trucks releases climate-changing carbon dioxide into the atmosphere each year, which is a major cause of global warming. Hawaii recognizes the importance of transitioning to clean energy across all sectors and ranks in the top five states in the nation for adoption of electric vehicles based on the percentage of vehicles purchased. The number of electric vehicles in Hawaii is expected to continue to increase. However, it is estimated that only three percent of automotive technicians have the skill set to work on electric vehicles, and only limited courses focused on electric vehicle mechanics, repair, and maintenance are offered through programs at the University and DOE. As Hawaii strives to achieve its goal of one hundred percent renewable energy by 2045, your Committees find it imperative that the University and DOE include training, courses, and curricula related to the mechanics, repair, and maintenance of electric vehicles, hydrogen vehicles, and other alternative fuel vehicles in their respective programs, so that the State can develop a workforce of automotive technicians who are trained in said areas.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 89 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1114 (Joint) Hawaiian Affairs and Ways and Means on S.C.R. No. 57

The purpose and intent of this measure is to urge the counties to expand kuleana property tax relief to family members that have continuous ownership of ancestral lands.

Your Committees received testimony in support of this measure from Kīpuka Kuleana, 'Āina Aloha Economic Futures Initiative, and fifty-two individuals.

Your Committees find that the health and well-being of native Hawaiians are intrinsically tied to the 'āina and immeasurable value in the relationship between Hawaiians, their ancestors, and the land. The Kumulipo, the Native Hawaiian cosmogony and creation chant, establishes that native Hawaiians descend from natural life forms. The inextricable familial relation to the 'āina engenders a kuleana to care for the land, and a deep-rooted bond between native Hawaiians and the 'āina that they care for. Historically the 'āina was held in trust by the sovereign for the benefit for all.

Your Committees further find that the Māhele, the foundational process of what would become the private property system in Hawaii, provided mechanisms for ownership of kuleana land by Hawaiian Kingdom subjects and foreign citizens. The Kuleana Act of August 6, 1850, and the amendment of July 11, 1851, authorized the Kingdom of Hawaii to confirm several resolutions of the Monarch and Privy Council that secured title for native tenants to possess land for cultivation. Since that time, many kuleana land parcels have been lost due to a myriad of reasons, including the lack of understanding of the imposed foreign legal and judicial system, introduction and expansion of large-scale ranching and plantation operations, the decline of taro cultivation due to the mass diversion of water for large-scale planting and ranching operations from large community-maintained traditional irrigation systems, the acquisition of parcels through adverse possession or quiet title actions, and the seizure of parcels as payments for debt and taxes.

Currently, the rapid escalation of land values in recent years have resulted in disenfranchisement of native Hawaiian families, foreclosure, emotional and financial struggles, and harm to the cultural, spiritual, social, and health connections for native Hawaiian families that are trying to keep their ancestral lands, farms, and burial places, especially in affluent areas. These kuleana lands are unique to the State and its identity.

Your Committees find that the City and County of Honolulu, County of Hawaii, County of Kauai, and County of Maui have enacted ordinances providing for a permanent reduction in property tax rates for lands received by native Hawaiians who demonstrate that they are lineal descendants of an original kuleana owner and that at least part of the property they currently own is comprised of kuleana land acquired by the original awardee under sections 1 and 2 of the Kuleana Act of 1850. These property tax exemptions have resulted in qualified owners of kuleana lands paying minimal property taxes, enhancing the protection of these historic lands and tax relief to owners. Additionally, the fiscal impact of kuleana land property tax exemptions on county revenues has been minimal as relative few parcels qualify for an exemption.

Your Committees further find that this distribution under sections 1 and 2 of the Kuleana Act makes up less than one percent of lands in the State, including only twenty-eight thousand acres of land. Additionally, the Kuleana Act allowed Hawaiian Kingdom subjects, including native Hawaiians, to purchase government lands, by which native Hawaiians obtained land through this process. Families who purchased land not classified as kuleana land through other mechanisms under the Kuleana Act do not benefit from the property tax relief provided by the counties. Your Committees additionally find that expanding protections to section 4 of the Kuleana Act would still only account for four percent of lands throughout the State, accounting for four hundred thousand acres.

Your Committees discussed exempting continuous ownership requirements and county infrastructure requirements from kuleana lands. Currently, many families are unable to prove continuous lineal ownership due to various inconsistencies between the traditional Native Hawaiian land tenure system and a Western land title system that has failed to incorporate and recognize the communal land values of traditional Native Hawaiian culture that include but are not limited to:

- (1) A break in title where families lost a quiet title or forced partition action, but then regained title;
- (2) Lack of recognition for lineal ownership due to lack of proof of blood quantum;
- (3) Preclusion of hānai children from asserting right to title; and
- (4) Lack of documentation to proof title necessary to establish continuous ownership.

Your Committees find that these issues raise concerns that merit further consideration as this measure proceeds.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language that:
 - (A) Recognizes how native Hawaiians are connected to the 'āina through genealogy and provides more context around the value kuleana lands hold for the State;
 - (B) Urges the counties to expand property tax projections to include all lands purchased by Hawaiian Kingdom subjects under the Kuleana Act and whose titleholders can trace lineal ownership of such lands to the Kuleana Act;
 - (C) Recognizes and appreciates the pilina (relationship) native Hawaiians maintain with 'āina and the unique value this pilina contributes to Hawai'i's identity; and
 - (D) Continues to support the continual retention of lands by lineal descendants of Hawaiian Kingdom subjects who claimed land under the Kuleana Act to protect the special relationship between kānaka (people) and 'āina; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Ways and Means that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 57, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 57, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Acasio, Ihara). Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 1115 (Joint) Hawaiian Affairs and Ways and Means on S.R. No. 39

The purpose and intent of this measure is to urge the counties to expand kuleana property tax relief to family members that have continuous ownership of ancestral lands.

Your Committees received testimony in support of this measure from Kīpuka Kuleana, 'Āina Aloha Economic Futures Initiative, and fifty-two individuals.

Your Committees find that the health and well-being of native Hawaiians are intrinsically tied to the 'āina and immeasurable value in the relationship between Hawaiians, their ancestors, and the land. The Kumulipo, the Native Hawaiian cosmogony and creation chant, establishes that native Hawaiians descend from natural life forms. The inextricable familial relation to the 'āina engenders a kuleana to care for the land, and a deep-rooted bond between native Hawaiians and the 'āina that they care for. Historically the 'āina was held in trust by the sovereign for the benefit for all.

Your Committees further find that the Māhele, the foundational process of what would become the private property system in Hawaii, provided mechanisms for ownership of kuleana land by Hawaiian Kingdom subjects and foreign citizens. The Kuleana Act of August 6, 1850, and the amendment of July 11, 1851, authorized the Kingdom of Hawaii to confirm several resolutions of the Monarch and Privy Council that secured title for native tenants to possess land for cultivation. Since that time, many kuleana land parcels have been lost due to a myriad of reasons, including the lack of understanding of the imposed foreign legal and judicial system, introduction and expansion of large-scale ranching and plantation operations, the decline of taro cultivation due to the mass diversion of water for large-scale planting and ranching operations from large community-maintained traditional irrigation systems, the acquisition of parcels through adverse possession or quiet title actions, and the seizure of parcels as payments for debt and taxes.

Currently, the rapid escalation of land values in recent years have resulted in disenfranchisement of native Hawaiian families, foreclosure, emotional and financial struggles, and harm to the cultural, spiritual, social, and health connections for native Hawaiian families that are trying to keep their ancestral lands, farms, and burial places, especially in affluent areas. These kuleana lands are unique to the State and its identity.

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Ways and Means that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 39, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 39, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Acasio, Ihara). Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 1116 Human Services on S.C.R. No. 70

The purpose and intent of this measure is to request the Department of Human Services to convene a task force to plan the certification and training process for community health workers.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association; Kula no na Po'e Hawaii 'o Papakolea, Kewalo, Kalawahine; Hawai'i Public Health Institute, University of Hawai'i System, Kau Rural Health Community Association, Inc.; and seven individuals. Your Committee received comments on this measure from the Department of Human Services and the Department of Health.

Your Committee finds that during the coronavirus disease 2019 pandemic, many rural areas in the State were disconnected and unable to receive adequate health care services. Your Committee also finds that when rural communities struggled with connectivity, transportation, and financial obligations, community health workers provided a critical lifeline to ensuring that residents' health care needs were met. Your Committee further finds that families living in rural areas comprise diverse communities, including varying income, level of service availability, ethnicities, ages, living arrangements, and citizenship status, many of whom face language and cultural barriers that require specialized access to assistance and technology regarding health care issues. Accordingly, your Committee finds that increasing the number of community health care workers and standardizing their certification and training will help address these issues.

Your Committee has amended this measure by:

- (1) Deleting the request to have the Department of Human Services convene a task force;
- (2) Requesting the Auditor to conduct a sunrise analysis on the licensing and certification of community health workers;
- (3) Changing the title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 70, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 70, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1117 Human Services on S.R. No. 52

The purpose and intent of this measure is to request the Department of Human Services to convene a task force to plan the certification and training process for community health workers.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association; Kula no na Po'e Hawaii 'o Papakolea, Kewalo, Kalawahine; Hawai'i Public Health Institute, University of Hawai'i System, Kau Rural Health Community Association, Inc.; and seven individuals. Your Committee received comments on this measure from the Department of Human Services and the Department of Health.

Your Committee finds that during the coronavirus disease 2019 pandemic, many rural areas in the State were disconnected and unable to receive adequate health care services. Your Committee also finds that when rural communities struggled with connectivity,

transportation, and financial obligations, community health workers provided a critical lifeline to ensuring that residents' health care needs were met. Your Committee further finds that families living in rural areas comprise diverse communities, including varying income, level of service availability, ethnicities, ages, living arrangements, and citizenship status, many of whom face language and cultural barriers that require specialized access to assistance and technology regarding health care issues. Accordingly, your Committee finds that increasing the number of community health care workers and standardizing their certification and training will help address these issues.

Your Committee has amended this measure by:

- (1) Deleting the request to have the Department of Human Services convene a task force;
- (2) Requesting the Auditor to conduct a sunrise analysis on the licensing and certification of community health workers;
- (3) Changing the title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 52, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 52, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1118 (Joint) Education and Government Operations on H.B. No. 515

The purpose and intent of this measure is to require the Auditor to perform an audit of the Department of Education's School Food Services Branch to determine how much local produce is being purchased and served to students.

Your Committees received testimony in support of this measure from the Department of Education, Ulupono Initiative, Hawai'i Farm Bureau, and one individual.

Your Committees find that the State should increase its use of local foods within the Department of Education's school meal programs. As such, it is in the State's best interest to establish a baseline which will assist the Department of Education in making administrative decisions to increase locally grown food in the State's schools. This measure supports the use of locally sourced produce in the State's schools by requiring a baseline determination of where produce used by the School Food Services Branch is being purchased and whether the produce is locally sourced.

Your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 515, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 515, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1119 Education on H.B. No. 11

The purpose and intent of this measure is to:

- (1) Require the Board of Education to develop statewide performance standards to be culturally relevant, historically and scientifically accurate, and nondiscriminatory;
- (2) Require a standards-based curriculum and its related educational materials to be nondiscriminatory;
- (3) Establish certain requirements for school complexes when developing standards-based curricula; and
- (4) Require reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Education, Office of Hawaiian Affairs, Democratic Party of Hawaiii Education Caucus, and two individuals. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that to advance the fundamental democratic principles of equality, liberty, and justice for all, a quality school system must deliver instruction that is historically and scientifically accurate and free from discrimination. This measure will prepare students to participate in the advancement of a more equal society through the development and adoption of educational content that is culturally relevant, nondiscriminatory, and inclusive of the historical injustices endured by marginalized populations.

Your Committee has amended this measure by:

(1) Clarifying that performance standards adopted by the Board of Education may be culturally relevant, historically and scientifically accurate, and nondiscriminatory;

- (2) Specifying that when developing a standards-based curriculum and implementing it in a school or complex, the curriculum may be historically and scientifically accurate and nondiscriminatory with regard to race, ethnicity, sex, gender identity or expression, sexual orientation, color, religion, ancestry, or disability; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 11, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 11, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1120 Education on H.B. No. 613

The purpose and intent of this measure is to:

- (1) Make an emergency appropriation for fiscal year 2020-2021 from elementary and secondary school emergency relief fund (ESSER funds) monies received by the State from the CARES Act and CRRS Appropriations Act to offset any budget reductions that are identified or proposed by the Department of Education and the Governor that would result in the reduction of personnel who are subject to a collective bargaining agreement pursuant to chapter 89, Hawaii Revised Statutes, and who are employed at the school level, including any budget reduction that results in a layoff, furlough, or pay reduction;
- (2) Require the Board of Education and Superintendent of Education to certify in writing that the Board of Education, Superintendent, and Department of Education agree to certain conditions, including that the funds appropriated shall be used only for salaries and wages of officers and employees who are subject to a collective bargaining agreement and are employed at the school level; and
- (3) Make an appropriation for fiscal years 2021-2022 and 2022-2023 from the same source of funding and with the same conditions.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, HE'E Hui for Excellence in Education, Democratic Party of Hawai'i Education Caucus, and three individuals. Your Committee received comments on this measure from the Department of Education, Department of Budget and Finance, and Board of Education.

Your Committee finds that the states that received certain federal funds, including monies from the Elementary and Secondary School Emergency Relief Funds established by the Coronavirus Aid, Relief, and Economic Security Act, Public Law 116-136, 2020 (CARES Act), and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021, Public Law 116-260 (CRRSAA), are required to assure that they will maintain support for education programs during fiscal years 2019-2020 and 2020-2021 by meeting certain benchmarks. The State, through the Department of Education, must comply with the provisions of the federal Education Stabilization Fund as set forth in section 18006 of the CARES Act to receive and expend CARES Act and CRRSAA monies, which, in part, requires the Department of Education to continue to pay its employees. This measure will appropriate certain federal monies received by the State to the Department of Education to offset any budget reductions that have been identified or proposed by the Department of Education and the Governor that would result in the reduction of personnel who are subject to a collective bargaining agreement and who are employed at the school level, including any budget reduction that results in a layoff, furlough, or pay reduction.

Your Committee has amended this measure by:

- (1) Specifying that funds appropriated be used for salaries and wages of Department of Education officers and employees who are subject to a collective bargaining agreement pursuant to chapter 89, Hawaii Revised Statutes, and who are employed at the school level in the classroom; and
- (2) Inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 613, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 613, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1121 Education on H.B. No. 1360

The purpose and intent of this measure is to:

- (1) Establish an early childhood educator stipend program to be administered by the executive office on early learning to address the shortage of qualified early childhood educators in Hawaii; and
- (2) Require stipend fund repayments for the early childhood educator stipend program to be deposited into the early learning special fund.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Early Learning Board, Children's Action Network Speaks!, Kaulanakilohana, Parents and Children Together, National Association of School Psychologists, Early Childhood Action Strategy, and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the demand for quality early care and education far exceeds the amount of available and qualified early childhood educators. Your Committee also finds that preschool teachers are amongst the lowest paid occupations, earning an average less than many non-skilled positions such as parking lot attendants. Moreover, it is difficult to attract individuals to this highly

specialized field with such low pay, and there is a common misperception that preschool teachers are babysitters. This measure will support those individuals seeking to become high-quality early childhood educators, thereby moving the State toward reaching its goal of increasing access to high-quality early learning programs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1360, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1360, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1122 Human Services on H.B. No. 282

The purpose and intent of this measure is to permit a minor to consent to no cost emergency shelter and related services if the minor understands the benefits, responsibilities, risks, and limits of the shelter and services, and the minor agrees to adhere to the provider's rules and cooperate and participate in those services recommended by the provider.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network; LGBT Caucus of the Democratic Party of Hawai'i; Residential Youth Services and Empowerment; Partners in Care; Rainbow Family 808; Pride at Work - Hawaii; Hawai'i Health and Harm Reduction Center; Hawaii State AFL-CIO; Catholic Charities Hawai'i; Neighborhood Place of Puna; Hawaii Island Safe Net, Hawaii Island Coalition Against Human Trafficking, and three individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness; Department of Human Services, Social Service Division and Department of Human Services.

Your Committee finds that enabling minors to consent for admission to an emergency youth shelter ensures that they are able to escape the dangers of living on the streets, in those rare situations in which consent from a parent or legal guardian cannot be obtained. Your Committee further finds that a minor may consent to no cost emergency shelter and related services absent permission from the minor's parent, legal guardian, or legal custodian, if the provider reasonably believes that the minor would incur harm, or would be subject to threatened harm, if the minor returned immediately to the home of the parent, legal guardian, or legal custodian. Your Committee also finds that any provider must make a reasonable attempt to contact the minor's parent, legal guardian, or legal custodian.

Your Committee heard the testimony of the governor's coordinator on Homelessness who commented that the existing definition of "provider" in section 346-17(h), Hawaii Revised Statutes, is too restrictive and may keep some youth service providers from offering temporary shelter to minors. The coordinator suggested that a broader definition could be enacted for a period of years during which the Department of Human Services could monitor any impacts stemming from the amended definition.

Your Committee has amended this measure by:

- (1) Amending the definition of "provider";
- (2) Making it effective upon its approval; provided there is a sunset date of June 30, 2023; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 282, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 282, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1123 (Joint) Agriculture and Environment and Water and Land on H.B. No. 237

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the mitigation and control of the two-lined spittlebug and recovery of the rangelands damaged by the invasive pest.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i College of Tropical Agriculture and Human Resources; New Island Feed, Inc.; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; Hawaii Meats, LLC; Ulupono Initiative LLC; Kualoa Ranch; Hawaii Cattlemen's Council, Inc.; Kealia Ranch; Ulupalakua Ranch; Ponoholo Ranch Limited; Hawai'i Farm Bureau; Local Food Coalition; Rocker G Livestock; Maui Chamber of Commerce; and eight individuals.

Your Committees find that invasive species are a primary threat to Hawaii's agriculture and economy. Funding for control of invasive species is critical to ensure that appropriate responses can be implemented and maintained which mitigate negative impacts on agriculture, the environment, and the economy. The two-lined spittlebug was first detected in Kailua-Kona in September 2016, where it damaged nearly two thousand acres of pasture land. As of October 2019, damage from infestation has increased to 142,468 acres of range lands on the island of Hawaii, thereby decreasing the nutritional value, palatability, and productivity of key forages. In highly infested areas, there is one hundred percent die-off of key pasture grasses such as Kikuyu and Pangola, which are widely used high quality forage for pastures. Rapid spread and die-off due to this pest are affecting the local livestock industry and pose a massive threat to production on the island of Hawaii. Additionally, the loss of living ground cover leaves land vulnerable to soil loss, which contributes to sediment-laden runoff into our near shore coastal waters, thereby affecting coral reef health. Your Committees find that protecting these pasture lands are in the best interest of the State, as it is in line with the Department of Agriculture's mission of increasing local food production and protecting agricultural capacity for the State.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$659,000 out of the pest inspection, quarantine, and eradication fund for fiscal year 2021-2022 and the same sum for fiscal year 2022-2023; and
- (2) Inserting an effective date of July 1, 2021.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 237, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 237, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none. Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1124 (Joint) Agriculture and Environment and Water and Land on H.B. No. 247

The purpose and intent of this measure is to amend certain land subdivision and condominium property regime laws related to agricultural land, as recommended pursuant to Act 278, Session Laws of Hawaii 2019, to ensure:

- (1) Farm dwellings on agricultural lands are accessories to a farm, or where the agricultural activities provide income of no less than \$10,000 per year to the family occupying the dwelling, and verified by general excise tax return filing or agricultural tax dedication;
- (2) Structures on subdivided leasehold subdivisions of agricultural land are subject to county enforcement authority; and
- (3) Applications for registration of condominium property regimes of agricultural land include county comments regarding the availability of supportive infrastructure, any potential impact on government plans and resources, other requirements pursuant to county ordinances and rule, and the developer's public report pursuant to section 514B-52, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Commerce and Consumer Affairs Real Estate Commission; Office of Planning; City and County of Honolulu Department of Planning and Permitting; Ulupono Initiative LLC; Kauai Kunana Dairy; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and six individuals. Your Committees received testimony in opposition to this measure from twenty-two individuals and a petition signed by seven hundred fifty-six individuals. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that designating land for agricultural uses can increase the long-term sustainability of local agricultural production. Your Committees further find that to ensure that agricultural lands are being utilized appropriately, the Legislature enacted Act 278, Session Laws of Hawaii 2019, which directed the Office of Planning, in consultation with other agencies, to study land subdivision and condominium property regime laws relating to agricultural lands. As a result, the Office of Planning submitted recommendations to the Legislature on how to better enforce requirements that agricultural lands are used for agricultural purposes.

Your Committees further find that the State must ensure that agricultural lands are being used for agriculture and improve its enforcement of requirements that agricultural uses are taking place on agricultural lands. This measure amends certain land subdivision and condominium property regime laws related to agricultural land, as recommended by the Office of Planning in its study of subdivision and condominium property regimes on agricultural lands on Oahu to ensure agricultural lands that are organized under a condominium property regime are used for agricultural purposes. In addition, this measure allows meaningful county input in the condominium property regime process involving agricultural lands to ensure availability of necessary supportive infrastructure and identify and mitigate any potential negative impacts to environmentally or culturally significant resources.

Your Committees have amended this measure by:

- Removing the requirement of farm dwellings to generate income of no less than \$10,000 per year for families occupying the dwelling; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 247, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 247, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1125 (Joint) Human Services and Health on H.B. No. 311

The purpose and intent of this measure is to:

- (1) Extend the nursing facility sustainability program to 2024;
- (2) Extend the period of time for which the nursing facility sustainability fee may be used to enhance capitated rates paid to medicaid managed care health plans;
- (3) Allow nursing facilities sixty days to pay the nursing facility sustainability fee;
- (4) Specify that the nursing facility sustainability fee limit is 5.5 percent of the overall net patient service revenue;

- (5) Remove the per resident daily maximum fee of \$20 for each facility;
- (6) Specify that facilities that meet certain exceptions shall pay a reduced daily fee in comparison to other participating facilities; and
- (7) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawai'i Primary Care Association, Aloha Nursing Rehab Centre, The Queen's Health Systems, and Healthcare Association of Hawaii.

Your Committees find that the nursing facility sustainability program has, since its establishment in 2012, served a critical role in strengthening the long-term care system in Hawaii. Your Committees further find that even with this program, nursing facilities in the State still face major challenges, due in part to the health and financial pressures related to the coronavirus disease 2019 (COVID-19) pandemic. Your Committees also find that provider fees, which are collected from specific categories of health care providers, may be imposed on different classes of health care services, including inpatient and outpatient hospital and nursing facility services. Your Committees find that provider fees exist in forty-nine states and the District of Columbia as a means of drawing down federal funds sustain their medicaid programs due rising state budget deficits, increasing health care costs, and expanding medicaid enrollment. The additional federal funds obtained via the fee program authorized by the nursing facility sustainability program can maintain access to care and efficient delivery of health care for medicaid recipients, which will allow nursing facilities in the State to continue to provide a safety net for medicaid recipients and under-insured or uninsured patients.

Your Committees have amended this measure by:

- (1) Inserting an effective date of June 29, 2021; provided that sections 8 and 9 of this measure shall take effect on July 1, 2021;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 311, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 311, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1126 (Joint) Human Services and Health on H.B. No. 1283

The purpose and intent of this measure is to require employers of first responders to develop and provide dementia training, including de-escalation tactics, to aid first responders when they encounter individuals exhibiting possible dementia behavior.

Your Committees received testimony in support of this measure from the Alzheimer's Association Hawaii, AARP Hawai'i, Alzheimer's Association Aloha Chapter, CareOps Consulting, LLC, and twenty-four individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department. Your Committees received comments on this measure from the Department of Health and Executive Office on Aging.

Your Committees find that individuals with dementia often wander from home or safety and may not be able to recall their own address or name. When these individuals are lost, they can exhibit behaviors that appear uncooperative, disruptive, or combative, which may lead to more aggressive behaviors. Your Committees further find that first responders would benefit from training that would equip them to better manage encounters with individuals who may be suffering from dementia.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1283, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1127 (Joint) Education and Health on H.B. No. 812

The purpose and intent of this measure is to:

- (1) Require the Department of Education to establish a three-year pilot program for the development and implementation of a trauma-informed education program in the Castle, Kailua, and Kalaheo complex areas, based on the Nanakuli-Waianae complex area trauma-informed education programs; and
- (2) Require a report to the Legislature.

Your Committees received testimony in support of this measure from Hawaii Youth Services Network, Hawai'i Primary Care Association, Hawaii Substance Abuse Coalition, and Hale Kipa. Your Committees received comments on this measure from the Department of Education and Department of Health.

Your Committees find that incorporating trauma-informed education in the State's public education system will help to address adverse childhood experiences. Trauma-informed education involves mental health education for students, teachers, staff, parents, and community members, adds a flexible, responsive, and measured strategy for addressing trauma, and would be an important component to the Department of Education's multi-tier system of supports. Incorporating a trauma-informed education program in the public schools will enhance the staff's trauma awareness and skills to recognize behavior that results from exposure to trauma.

Your Committees further find that the Nanakuli-Waianae complex area has incorporated trauma-informed education into its schools and, since 2015, has seen a reduction in the suspension and absenteeism rates and an increase in graduation and teacher retention rates. The windward district, which includes the Castle, Kailua, and Kalaheo complex areas, created the Compassionate Koolaupoko Coalition, which includes numerous stakeholders who are currently working to bring trauma-informed education to the district. A few schools in the district have already been trained in trauma-informed education. This measure will establish a three-year pilot program to develop a trauma-informed education program similar to the one in the Nanakuli-Waianae complex area in the Castle, Kailua, and Kalaheo complexes to reduce violence and absenteeism and help students to improve in their academic performance.

Your Committees note that additional expenditures may be necessary to effectuate the program.

Your Committees have amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 812, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 812, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1128 (Joint) Education and Agriculture and Environment on H.B. No. 767

The purpose and intent of this measure is to:

- (1) Move the Hawaii farm to school program from the Department of Agriculture to the Department of Education;
- (2) Establish a programmatic goal for the Department of Education that at least thirty percent of food served in public schools shall consist of locally sourced products by 2030; and
- (3) Create an annual reporting requirement.

Your Committees received testimony in support of this measure from the Department of Education; Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Public Health Institute; Local Food Coalition; Hawaii Cattlemen's Council, Inc; Land Use Research Foundation of Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Hawai'i Primary Care Association; University of Hawaii West Oʻahu Food+ Policy Internship 2021; Hawai'i Seed; Pono Hawai'i Initiative; Hawaii Meats, LLC; Hawai'i Alliance for Progressive Action; Kauai Climate Action Coalition; Climate Protectors Hawai'i; Our Revolution Hawaii; Foresight/Policy Analysis; Apollo Kauai, Zero Waste Kauai; and eighty individuals. Your Committees received comments on this measure from one individual.

Your Committees find that the primary reason for the creation of the Hawaii farm to school program in 2015 was to improve the health of the State's keiki by encouraging consumption of fresh, locally grown foods, both for their nutritional content and to promote healthy behaviors at an early age. Your Committees further find that setting a target goal of providing a fixed minimum percentage of locally sourced food in public schools can bring the farm to school program closer to achieving tangible results for the health of Hawaii's students, including an increased consumption of fresh fruits and vegetables and the potential to minimize diet-related diseases in childhood, such as obesity and diabetes. This measure is a necessary step to determine a baseline for how much food is currently locally sourced in order to begin monitoring any movement to fulfill the goal of thirty percent.

Your Committees note that in order to achieve the goal of thirty percent of food being served in public schools by 2030, the Department of Education should employ multiple strategies, such as geographic preferences in procurement, inclusion of food hubs, and other localized strategy.

Your Committees have amended this measure by removing institutions other than public schools from the farm to school program.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 767, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 767, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 1129 Energy, Economic Development, and Tourism on H.B. No. 558

The purpose and intent of this measure is to:

- (1) Create a clean energy and energy efficiency revolving loan fund to finance a broad range of clean energy technologies;
- (2) Expand the objective of the Hawaii green infrastructure special fund \$50,000,000 sub-fund to allow state agencies to finance their purchase option under existing energy performance contracts and power purchase agreements;
- (3) Repeal the building energy efficiency revolving loan fund; and
- (4) Make an appropriation out of the clean energy and energy efficiency revolving loan fund to provide clean energy investment loans or for other approved uses.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Office of Economic Development, Hawaii Green Infrastructure Authority, Blue Planet, Climate Protectors Hawaii and two individuals. Your Committee

received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Budget and Finance; Public Utilities Commission; and the City and County of Honolulu Office of Climate Change, Sustainability, and Resiliency.

Your Committee finds that the State has set ambitious goals for reducing energy costs, driving higher-paying green job creation and retention, and saving billions of dollars currently spent on importing petroleum. To meet these goals while simultaneously addressing the budget shortfalls attributed to the deleterious effects of the coronavirus disease 2019 pandemic on the State's economy, the State must pursue innovative ways of making funds available aside from bond financing. This measure would allow the Hawaii Green Infrastructure Authority to access flexible, low-cost loan capital and facilitate green infrastructure investments in rural areas across the State. The measure would also enable the State to finance a broad range of clean energy technologies, including electric vehicle charging stations and the electrification of the State's vehicle fleet, by utilizing a new cashflow stream generated by savings from the exercise of purchase options in existing power purchase agreements. Your Committee further finds that these infrastructure investments can help to kick-start the State's economy.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 558, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1130 Energy, Economic Development, and Tourism on H.B. No. 1333

The purpose and intent of this measure is to require and appropriate funds for the Hawaii State Energy Office, in consultation with the Department of Health, to conduct a comprehensive study to determine the best practices for the disposal and recycling of discarded clean energy products in the State.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that solar panels have a life expectancy of up to thirty years, and panels installed in the 1990s will require disposal in the very near future. Heavy metals such as cadmium and lead are found in solar cells, which can harm the natural environment if not recycled or disposed of properly. This measure ensures that the best practices for proper disposal and recycling of discarded clean energy products can be adopted to prevent excess waste and harm to the environment.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1333, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1131 Energy, Economic Development, and Tourism on H.B. No. 1191

The purpose and intent of this measure is to:

- (1) Establish the Broadband Infrastructure Grant Program to award grants to extend the deployment of facilities used to provide broadband service to unserved areas of the State;
- (2) Rename the Hawaii technology loan revolving fund to the Hawaii broadband infrastructure fund and changing the types of funds to be deposited into the fund; and
- (3) Authorize the issuance of general obligation bonds for the Broadband Infrastructure Grant Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Health; Maui Chamber of Commerce; Hawai'i Primary Care Association; AlohaCare; Charter Communications; Office of Information Practices; AARP Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaiian Telcom.

Your Committee finds that it is critical to improve access to broadband services for residents, consumers, and businesses across the State. Although broadband coverage in the State is widespread, additional investment can be made to keep up with needs in rural communities to bridge the digital divide. Your Committee further finds that the Broadband Infrastructure Grant Program facilitates deployment of infrastructure necessary to bring broadband service to unserved and underserved areas of the State. Project eligibility under the Broadband Infrastructure Grant Program is currently limited to unserved areas and excludes areas partially served by an existing provider. However, your Committee also finds that inclusion of partially served areas in the Broadband Infrastructure Grant Program eligibility requirements will foster full development of the broadband infrastructure throughout the State.

Your Committee also notes that while the Broadband Infrastructure Grant Program is intended to be complementary to the Federal Communications Commission's Rural Digital Opportunity Fund, it is important to ensure that the Broadband Infrastructure Grant Program does not duplicate funding in those areas where the federal government has specifically directed funding for broadband expansion.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the meaning of "unserved area" to specify that it does not include locations where federal funding has been awarded pursuant to the Rural Digital Opportunity Fund for the deployment or expansion of broadband networks;
- (2) Expanding project eligibility requirements under the Hawaii Broadband Infrastructure Grant Program to include those areas that are partially-served by an existing provider;

- (3) Allowing applicants to designate material as confidential or a challenger to request confidential treatment, but only require the Department of Business, Economic Development, and Tourism to treat the information as confidential to the extent it is in fact protected under the Uniform Information Practices Act;
- (4) Increasing the minimum amount an applicant is required to commit to paying for project costs from forty percent to fifty percent; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1191, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1191, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1132 (Joint) Energy, Economic Development, and Tourism and Higher Education on H.B. No. 862

The purpose and intent of this measure is to:

- (1) Abolish the Office of Aerospace Development, Aerospace Advisory Committee, and the Hawaii Unmanned Aerial Systems Test Site Advisory Board; and
- (2) Specify that the Pacific International Space Center for Exploration Systems shall be administratively attached to the University of Hawaii at Hiko Imiloa rather than the Department of Business, Economic Development, and Tourism.

Prior to hearing this measure, your Committees made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1, in addition to the original contents of the measure:

- (1) Transfers the administration of the Challenger Center Hawaii program from the Office of Aerospace Development to the Department of Education for administrative purposes; and
- (2) Transfers all appropriations for the Challenger Center Hawaii Program from the Office of Aerospace Development to the Department of Education.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Education, University of Hawai'i System, Challenger Center Hawaii, Pacific International Space Center for Exploration Systems, Canada-France-Hawaii Telescope Corporation, Sustainable Energy Hawai'i, Smarter Building Systems LLC, and eleven individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism.

Your Committees find that Hawaii plays an important role in the development of the aerospace industry and given the current economic situation in the State, it is critical for the State to consider reallocating its limited resources by eliminating certain state agencies. While recognizing the need to reallocate resources, your Committees also recognize the vital role that the Pacific International Space Center for Exploration plays in facilitating aerospace economic development projects, workforce development, and outreach programs.

Your Committees also recognize that the Challenger Center Hawaii Program adds value to the State's education system. The Challenger Center Hawaii Program is a once-in-a-lifetime experience that offers middle-school students the opportunity to apply both critical and creative thinking in a real-world collaborative space exploration scenario. Through this program, students are immersed in a fully-integrated Science, Technology, Engineering, and Mathematics (STEM) experience based on core concepts that enhance their aptitude in a wide variety of foundational life skills, which serves as a springboard for students to embark in STEM careers.

Your Committees have amended this measure by specifying that the Executive Director of the Pacific International Space Center for Exploration Systems shall oversee and manage the Unmanned Aircraft Systems Program.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 862, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 862, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none. Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

SCRep. 1133 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 550

The purpose and intent of this measure is to:

- Require state facilities, with the exception of smaller facilities and facilities at Aloha Stadium, to implement cost-effective energy efficiency measures;
- (2) Direct the Hawaii State Energy Office to collect all state-owned facilities' utility bill and energy usage data and make this data publicly available;
- (3) Establish a goal for the State to achieve at least a twenty-five percent reduction in the electricity consumption of state facilities;

- (4) Provide that certain agencies that perform energy efficiency retrofitting may continue to receive budget appropriations for energy expenditures; and
- (5) Require, beginning July 1, 2022, where feasible and cost-effective, the design of all new state building construction to maximize energy generation, water efficiency, energy efficiency, and energy generation potential, and to use building materials that reduce the carbon footprint of the project.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Energy, Plumbers and Fitters Local 675 United Association, Ulupono Initiative, Blue Plant, 350Hawaii, and three individuals. Your Committees received comments on this measure from the Department of Education, Department of Accounting and General Services, Chamber of Commerce Hawaii, and one individual.

Your Committees find that energy efficiency is the most cost-effective way to reduce emissions associated with electricity generation and that reducing the demand for power generation is a necessary component of reaching the State's goal of one hundred percent renewable energy by 2045.

Your Committees further find that energy used to power buildings accounts for more than fifty percent of electricity consumed in the State, yet the State has not undertaken improvements for increased efficiency in many of its own facilities, forgoing millions of dollars in potential savings. Your Committees believe that it is important for the State to lead by example when it comes to energy efficiency, and this measure offers a statewide coordinated approach that improves energy efficiency for state facilities through smart energy management that reduces energy usage in certain state facilities.

Your Committees have amended this measure by:

- (1) Changing the term "Aloha Stadium" to the "Stadium Development District";
- (2) Requiring the Hawaii Natural Energy Institute, instead of the Hawaii State Energy Office, to conduct the usage study;
- (3) Allowing the Department of Accounting and General Services to opt out of the energy-efficiency requirements if the facility will be demolished within five years;
- (4) Clarifying language that the facilities must be state-owned; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 550, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 550, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 1134 Commerce and Consumer Protection on H.B. No. 446

The purpose and intent of this measure is to:

- (1) Establish a new offense of theft of a catalytic converter;
- (2) Require vehicle registration records to be kept for businesses engaged in the selling or negotiating the purchase of used motor vehicle parts or accessories or licensed to wreck, salvage, or dismantle motor vehicles;
- (3) Require these businesses to refuse purchase of used motor vehicle parts or accessories and report the attempted sale to police if a seller does not provide certain information; and
- (4) Change the fine for any violations of the used motor vehicle parts and accessories laws.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney, Hawaii Transportation Association, Roberts Hawaii, National Insurance Crime Bureau, American Property Casualty Insurance Association, Hawaii Insurers Council, AAA Hawaii, and one individual. Your Committee received comments on this measure from Schnitzer Steel Hawaii.

Your Committee finds that catalytic converters have precious metals inside of them that act as catalysts in removing toxic elements from a motor vehicle's exhaust stream. Due to the high value of these metals, theft of catalytic converters is on the rise, not just locally, but nationwide. Theft of a catalytic converter renders a vehicle inoperable and is extremely costly to replace, especially in the case of commercial motor vehicles, which can lead to delays of services due to low inventory of parts and accessories for these vehicles. This measure establishes a new offense for theft of a catalytic converter and also holds businesses that buy and sell used motor vehicle parts more accountable over suspicious transactions involving catalytic converters.

Your Committee has amended this measure by:

- (1) Clarifying a person commits the offense of theft of a catalytic converter if the person:
 - (A) Obtains a catalytic converter through any means described in section 708-830, Hawaii Revised Statutes; or
 - (B) Violates section 289-6, Hawaii Revised Statutes, in regard to a catalytic converter;

- (2) Clarifying that licensees dealing in used motor vehicle parts and accessories shall maintain certain records containing the name, address, vehicle registration, and a photocopy of the driver's license of all persons from whom parts, accessories, or vehicles are purchased or received;
- (3) Inserting an effective date of January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 446, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 446, H.D. 3, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1135 Commerce and Consumer Protection on H.B. No. 1192

The purpose and intent of this measure is to:

- (1) Transition from lump sum deferred deposit transactions to installment loan transactions;
- (2) Specify various consumer protection requirements for installment loans;
- (3) Beginning January 1, 2023, require licensure for installment lenders that offer installment loans to consumers;
- (4) Require check cashers to offer a voluntary payment plan to customers under certain circumstances;
- (5) Clarify that a customer may only have one outstanding deferred deposit transaction from any source;
- (6) Require the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to report on the implementation of installment loan transaction requirements and the transition of check cashers who engage in deferred deposit transaction to installment lenders;
- (7) Appropriate funds to the Division of Financial Institutions for positions and resources; and
- (8) Repeal the statutory authorization for deferred deposit transactions on July 1, 2023.

Your Committee received testimony in support of this measure from Dollar Financial Group. Your Committee received testimony in opposition to this measure from The Pew Charitable Trusts; Maui Loan, Inc.; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Financial Services Association.

Your Committee finds that nearly one quarter of all Hawaii households use an alternative financial service product, such as a check cashing or payday loan service, at least once during the year. However, due to the lack of certain protections in existing deferred deposit laws, consumers can easily get trapped in unsustainable cycles of debt. Installment loans, rather than traditional payday loans, allow unbanked and underbanked persons to utilize more traditional financial products. This measure would transition the market of payday loans to installment loans over a two-year period and implement certain consumer protections for deferred deposit transactions.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, does not sufficiently resolve Hawaii's payday loan problem. Specifically, this measure would establish a minimum loan amount of \$600, which does not serve the needs of borrowers who want access to smaller loans. It also allows high fees and unrealistically short-term loans with unaffordable payment amounts. Further, the two-year transition period does not provide the immediate protections needed in today's payday lending industry.

Your Committee further notes that the Department of Commerce and Consumer Affairs' Division of Financial Institutions (DFI) and interested stakeholders have had an opportunity to discuss potential amendments to this measure to ensure proper protections for consumers who utilize small-dollar loan products. Amendments to this measure are therefore necessary to incorporate this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Updating section 1 to reflect its amended purpose;
- (2) Amending the definitions of "control", "control person", "finance charges", "instrument", "interest", and "loan charges";
- (3) Inserting a definition for the term "nonprofit organization";
- (4) Deleting the minimum installment loan amount of \$600 and clarifying the total amount of the installment loan shall not be greater than \$1,500;
- (5) Amending the monthly maintenance fees that may be charged by lenders based on a scale of certain original principal loan amounts;
- (6) Clarifying the minimum and maximum contracted repayment terms for installment loans;
- (7) Inserting language clarifying that written agreements for installment loans shall contain a statement that an installment lender shall not require a consumer to purchase add-on products;
- (8) Clarifying a consumer has the right to rescind an installment loan before 5:00 P.M., Hawaii-Aleutian Standard Time, by the third business day at the location where the loan was originated;

- (9) Inserting language that it shall not be a violation of law if a consumer obtains an installment loan voluntarily and separately from the consumer's spouse if the consumer documents the action in writing, either in the written agreement or in a subsequent agreement;
- (10) Inserting language that requires an installment lender to wait a period of three days before the lender may make another installment loan to the same consumer;
- (11) Clarifying that an installment lender shall not negotiate or present an instrument for payment unless the instrument is endorsed with the actual business name of the lender;
- (12) Specifying that, prior to an installment lender negotiating or presenting the instrument, a consumer may redeem any instrument held by the lender as a result of an installment loan if the consumer pays the full amount of the instrument to the lender:
- (13) Clarifying that any loan made in violation of the licensing provisions is void, and no person shall have the right to collect, receive, or retain any principal, interest, fees, or other charges in connection with the loan;
- (14) Amending the fees an installment lender shall pay to DFI to obtain and maintain a valid license;
- (15) Clarifying that a nonprofit organization shall pay certain fees to maintain a valid registration as a nonprofit organization in NMLS:
- (16) Specifying each installment lender shall pay a nonrefundable fee of \$100 to DFI for each office that is relocated;
- (17) Deleting language that would have required check cashers subject to chapter 480F, Hawaii Revised Statutes, to offer consumers the option of participating in voluntary payment plans and limiting consumers to one deferred deposit transaction at a time from all sources;
- (18) Deleting language that would have required DFI to submit a report on the implementation of this measure and the progress of transitioning payday lenders to installment lenders to the Legislature;
- (19) Deleting the appropriation to the Department of Commerce and Consumer Affairs for the purposes of hiring two full-time equivalent (2.0 FTE) permanent examiners to carry out the purposes of the installment loan program;
- (20) Inserting an effective date of July 1, 2021, provided that the licensing requirements for installment lenders shall take effect on January 1, 2022, and provided further that the repealing of certain sections in chapter 480F, Hawaii Revised Statutes, relating to check cashers shall take effect on January 1, 2022; and
- (21) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1192, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1192, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1136 Commerce and Consumer Protection on H.B. No. 78

The purpose and intent of this measure is to eliminate the requirement for a public utility to seek approval from the Public Utilities Commission for the underground construction of high-voltage electric transmission lines if certain conditions are met.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaiian Electric Company, and one individual.

Your Committee finds that, under existing law, public utilities must obtain approval from the Public Utilities Commission (Commission) for constructing underground transmission systems. Part of this approval process includes an evaluation by the Commission to determine whether the benefits of undergrounding, as opposed to overhead construction, justify the total cost to build transmission lines below ground, as the costs are significantly higher than overhead construction and are ultimately passed on to the ratepayers. However, if an entity other than a public utility is responsible for the cost of undergrounding, such as a developer or other agency, there is no direct ratepayer burden to weigh against the benefits of undergrounding, and requiring approval from the Commission in these circumstances can unnecessarily increase the Commission's workload. Your Committee notes this measure only exempts public utilities from the requirement to obtain approval from the Commission for constructing underground high-voltage transmission line systems when the cost of undergrounding is paid for by an entity other than the public utility (i.e., not the ratepayers). Accordingly, this measure will help streamline the regulatory process while maintaining appropriate oversight of public utility operations and investments.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 78, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 78, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1137 (Joint) Education and Hawaiian Affairs on H.B. No. 753

The purpose and intent of this measure is to exclude housing developed by the Department of Hawaiian Home Lands from school impact fees.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, and one individual. Your Committees received comments on this measure from the Department of Education.

Your Committees have amended this measure by:

- (1) Specifying that construction cost component impact fees are allowed to be used to improve or renovate existing structures for school use;
- (2) Repealing the requirement that an expenditure plan for all collected impact fees be incorporated into the Department of Education's annual budget process; and
- (3) Inserting a three-year sunset date for the exemption from school impact fees housing developed by the Department of Hawaiian Home Lands.

As affirmed by the records of votes of the members of your Committees on Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 753, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 753, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair and President on behalf of the Committees. Education: Ayes, 4; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, 1 (Dela Cruz). Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Ihara).

SCRep. 1138 (Joint) Labor, Culture and the Arts and Education on H.B. No. 125

The purpose and intent of this measure is to establish the Uniform Employee and Student Online Privacy Protection Act to protect the online accounts maintained by employees, prospective employees, unpaid interns, independent contractors, students, prospective students, and parents or legal guardians of students under the age of majority from employers and educational institutions.

Your Committees received testimony in support of this measure from the Department of Education, Hawai'i Civil Rights Commission, and Commission to Promote Uniform Legislation.

Your Committees find that privacy is a growing concern as social media use rises and employers increasingly ask current and prospective employees to grant the employer access to their social media accounts. Likewise, many educational institutions seek to examine the social media presence of current and prospective students and ask for access to their accounts. Your Committees further find that in recent years there have been a number of reported incidents in which employers and educational institutions have demanded and were granted access to non-public information on their employees' and students' personal online accounts. This measure prevents employers and educational institutions from coercing persons who typically have less than equal bargaining power into granting them access to non-public information on personal online accounts while allowing for narrow and justified exceptions.

Your Committees note that this measure adopts the Uniform Employee and Student Online Privacy Protection Act that was drafted by the National Conference of Commissioners of Uniform State Laws (also known as the Uniform Law Commission) and incorporates language from the Personal Online Account Privacy Act drafted by the American Civil Liberties Union.

Your Committees have amended this measure by:

- (1) Clarifying that a student under the age of majority means a student under the age of eighteen years; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 125, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 125, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none. Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1139 Ways and Means on H.B. No. 1

The purpose and intent of this measure is to appropriate funds for the legislative branch of the State of Hawaii.

More specifically, this measure:

- (1) Appropriates funds for the Senate, House of Representatives, Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission up to June 30, 2022;
- (2) Requires that payment of Senate expenses between the 2021 and 2022 Regular Sessions be made only after the approval of the President of the Senate and that payment of House of Representatives expenses during that same period be made only after the approval of the Speaker of the House of Representatives;

- (3) Requires that the accounts of the Senate and the House of Representatives be audited before January 19, 2022; and
- (4) Provides that the expenses of any member of the legislature while traveling abroad on official business shall be \$145 per day.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Office of the Auditor, and Office of the Ombudsman, and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate and House of Representatives, including expenses for a legislative information system and legislative broadcasting system, along with funds necessary to support the operations of the Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 1140 Commerce and Consumer Protection on H.B. No. 1376

The purpose and intent of this measure is to:

- (1) Extend the period for a notice of summary possession from five days to fifteen days;
- (2) Require landlords to enter into mediation and delay when a landlord may seek possession of a dwelling unit if the tenant schedules or attempts to schedule mediation;
- (3) Require landlords to provide the notice to mediation centers that offer free mediation for residential landlord-tenant disputes;
- (4) Restrict when a landlord may exercise these remedies depending on the amount of rent due;
- (5) Appropriate funds for the judiciary to contract for mediation services; and
- (6) Repeal one year after the expiration date of the final eviction moratorium imposed pursuant to a coronavirus disease 2019 (COVID-19) state of emergency proclamation.

Your Committee received testimony in support of this measure from the Hawaii Housing and Finance Development Corporation, Department of Commerce and Consumer Affairs, Catholic Charities Hawai'i, and Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that, due to the COVID-19 pandemic, thousands of Hawaii residents have lost their jobs, including both housing providers and renters. To help protect those unable to pay rent, there has been an eviction moratorium in Hawaii since April 2020, and a federal eviction mortarium is currently set to expire on April 13, 2021. Hawaii cannot afford a new surge in homelessness, nor can it afford a wave of outmigration of working families seeking other alternatives on the mainland. Accordingly, this measure provides a balanced approach by encouraging communication between both the renter and landlord, facilitates mediation to help both parties understand their options, and benefits the Judiciary by reducing the large number of summary possession cases it will need to dispose of when the COVID-19 pandemic eviction moratoriums ultimately expire.

Your Committee notes that the companion to this measure, S.B. No. 1388, S.D. 2 (Regular Session of 2021), which was previously passed by the Senate, is a substantially similar measure that also extends the period of a notice of summary possession from five days to fifteen days, requires landlords to enter into mediation, and delays when a landlord may seek possession of a dwelling unit if the tenant schedules or attempts to schedule mediation. Your Committee concludes that the language in S.B. No. 1388, S.D. 2, is preferable because it contains a purpose and findings clause, contains preferred clarifying amendments, and does not contain appropriation language.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1388, S.D. 2, a substantially similar measure, which:
 - (A) Extends the required period for a notice of summary possession from five days to fifteen days;
 - (B) Requires landlords to provide notice with specified terms and enter into mediation;
 - (C) Delays when a landlord may seek possession of a dwelling unit if the tenant schedules or attempts to schedule mediation;
 - (D) Requires landlords to provide the notice to mediation centers that offer free mediation for residential landlord-tenant disputes;
 - (E) Restricts when a landlord may exercise these remedies depending on the amount of rent due; and
 - (F) Repeals one year after expiration of the Governor's final eviction moratorium emergency supplementary proclamation related to the COVID-19 pandemic;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1376, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1376, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1141 Commerce and Consumer Protection on H.B. No. 824

The purpose and intent of this measure is to require any express carrier company, common or contract carrier, except water carriers as defined and regulated by the Surface Transportation Board of the United States, or other person that transports liquor from outside the State for delivery in the State to prepare and file a monthly report with the liquor commission or liquor control adjudication board of each county.

Your Committee received testimony in support of this measure from the Hawaii Liquor Wholesalers Association.

Your Committee finds that direct shipment of wine is allowed under existing law, as small local wineries are not regularly able to find licensed wholesalers to distribute their wine to consumers outside their county. Other states that also allow direct shipment have found, through carrier reporting, that large amounts of liquor have been shipped into their states without payment of liquor, excise, and income tax, resulting in a loss of tax revenue to the states. Likewise, in Hawaii, illegal shipments of liquor hurt the State's economy, can result in loss of income and jobs to local residents, and constitutes unlawful and unfair competition. Accordingly, this measure requires the carriers of liquor to report the amount of statewide liquor being shipped and shipper information to the liquor commissions or liquor control adjudication boards, to determine and analyze the shipments made to each county and confirm whether the shipper has complied with the requirements to obtain permits and pay all applicable taxes.

Your Committee has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 824, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 824, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1142 (Joint) Transportation and Energy, Economic Development, and Tourism on H.B. No. 683

The purpose and intent of this measure is to establish a sustainable aviation fuel program that provides matching grants to any small business in Hawaii that is developing products related to sustainable aviation fuel or products that would otherwise reduce greenhouse gasses from commercial aviation operations.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Bioeconomy Trade Organization, Airlines for America, Climate Protectors Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, and nine individuals. Your Committees received comments on this measure from the Office of Planning and Hawaii Technology Development Corporation.

Your Committees find that tourism is the number one driver of Hawaii's economy and that over ninety-five percent of visitors to the State arrive by airplane. Nearly one-third of the energy consumed in the State is from jet fuel, which is one of the largest sources of Hawaii's greenhouse gas emissions. The availability of sustainable aviation fuel will be key to reducing global warming caused by greenhouse gas emissions. Hawaii is well positioned to develop solutions and build upon the success of the federal Green Initiative for Sustainable Fuels Transition Pacific (GIFTPAC), which was based in Hawaii from 2009 to 2019, and to continue to be a leader in the promotion of sustainable aviation fuels. This measure will help local businesses innovate to overcome the challenges of greenhouse gas emissions from commercial air travel.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 683, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1143 Transportation on H.B. No. 273

The purpose and intent of this measure is to allow the Director of Transportation to enact emergency rules to provide for the renewal of driver's licenses by mail or online without requiring a written request from the applicant.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of Customer Services for the City and County of Honolulu and one individual.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic and resulting shut down orders made it virtually impossible to transact business that required a face-to-face interaction. Section 286-107, Hawaii Revised Statutes, requires an applicant who is renewing their driver's license to appear in person, which was impossible during large portions of 2020. And while section 286-107, Hawaii Revised Statutes, does allow for renewal by mail for any applicant who is unable to appear in person, the applicant must first submit a written request before being allowed to do so. This provision is not practical for implementation on a mass scale as the department of motor vehicles would potentially be so inundated with requests for renewal by mail that it would be

impossible to process them all in a timely manner. The COVID-19 pandemic demonstrated the need for a system that can be implemented on a large scale without legislative approval, which may be difficult to obtain in the event of another global pandemic. This measure will provide wide latitude to the Director of Transportation to enact emergency measures to allow residents of Hawaii to renew their driver's license by mail or online.

Your Committee has amended this measure by adding language to clarify that the ability to renew a driver's license by mail or online without the need to first submit a written request to the examiner of licenses applies to every applicant.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 273, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 273, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1144 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 774

The purpose and intent of this measure is to

- Establish the Pulehunui Community Development Authority as an autonomous community development authority under the Hawaii Community Development Authority for the purposes of developing the Pulehunui Community Development District;
- (2) Authorize the Hawaii Community Development Authority to obtain various forms of federal funding for construction, maintenance, and development projects in the Pulehunui Community Development District.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Hawaiian Home Lands, Hawaii Community Development Authority, and one member of the Maui County Council. Your Committees received comments on this measure from Maui County Department of Planning.

Your Committees find that public lands in Pulehunui, Maui are underutilized and that redeveloping, renovating, or improving these public lands to provide suitable recreational, residential, educational, industrial, governmental, and commercial areas where the public can live, congregate, recreate, attend schools, and shop as part of a thoughtfully integrated experience is in the best interest of the State.

Your Committees further find that an entity dedicated to the development of the Pulehunui area will help to guide and enhance its development in an integrated manner that will facilitate the development and improvement and provide optimal use of Pulehunui public lands.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 774, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 774, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1145 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 1348

The purpose and intent of this measure is to provide the necessary powers, appropriations, and guidance to ensure optimal development of the Stadium Development District as intended by Act 268, Session Laws of Hawaii 2019, which established the Stadium Development District.

Specifically, this measure:

- (1) Amends the membership, responsibilities, powers, and duties of the Stadium Authority;
- (2) Exempts lands to which the Stadium Authority holds title from designation as public lands, but subjects the lands to legislative approval if sold or gifted;
- (3) Establishes the Stadium Authority Special Fund;
- (4) Clarifies the governance and management of the Stadium Development District;
- (5) Authorizes the Hawaii Community Development Authority, with approval from the Governor, to delegate to other state agencies implementation of capital improvement projects, under certain conditions;
- (6) Amends the general bond authorization enabled through Act 268, Session Laws of Hawaii 2019; and
- (7) Makes the financial disclosure of a member of the Stadium Authority a public record.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, University of Hawaii System, Stadium Authority, General Contractors Association of Hawaii, Pacific Resource Partnership, Hawaii Operating Engineers Industry Stabilization Fund, Operating Engineers Local Union No. 3, LiUNA! Hawaii Laborer's Union Local 368, Hawai'i Construction Alliance, and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii Community Development Authority.

Your Committees find that effective development of the Stadium Development District is crucial to the overall welfare of the State because it allows the State to leverage the best of both public and private sector investments to develop a vibrant planned community for generations to come. Your Committees also recognize that collaboration between the Stadium Authority and the Hawaii Community Development Authority is important to continue on-going efforts to ensure proper development of the stadium area. Your Committees further recognize the unique opportunity for Hawaii to upgrade needed sports facilities, develop critical infrastructure, and provide much-need affordable housing in an important transit-oriented development district.

Your Committees further find that the State has the potential to establish the Stadium Development District as a premier destination for sports and events, and as a vital center for residential housing, retail, and other transit-oriented development. Your Committees also find that this measure provides clarity and guidance for the development of the Stadium Development District and a basis to advance the progress of the Stadium Development District.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language from S.B. No. 1423, S.D. 2, a substantively similar measure, which provides for clarity and consistency in the measure as a whole;
- (2) Providing for the closure of the stadium special fund after all remaining moneys in the stadium special fund are depleted;
- (3) Enhancing and clarifying the roles of and dynamic relationship between the partnering agencies, primarily supporting the implementation and management of the Stadium Development District and requiring the Stadium Authority and the Hawaii Community Development Authority to enter into a memorandum of agreement regarding the implementation responsibilities of the respective agencies;
- (4) Providing for the continued expenditure of the general obligation bond proceeds previously appropriated by Act 268, Session Laws of Hawaii 2019, as amended by Act 4, Session Laws of Hawaii 2020, in accordance with the memorandum of agreement between the Hawaii Community Development Authority, Stadium Authority, and Department of Accounting and General Services:
- (5) Establishing the stadium development special fund under chapter 109, Hawaii Revised Statutes, instead of chapter 206E, Hawaii Revised Statutes, into which all funds collected by the Stadium Authority shall be deposited upon passage of this measure;
- (6) Making the Stadium Authority, rather than the Hawaii Community Development Authority, the expending agency for the appropriation of general obligation bond proceeds;
- (7) Making the appropriation of general obligation bond proceeds for fiscal year 2021-2022 effective on July 1, 2021; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1348, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1348, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1146 Human Services on H.B. No. 887

The purpose and intent of this measure is to increase protections for victims of sex trafficking and commercial sexual exploitation by:

- (1) Creating a separate commercial sexual exploitation offense for those who provide anything of value to engage in sexual conduct with another;
- (2) Adding sex trafficking to offenses that can be prosecuted at any time;
- (3) Making a person strictly liable for sex trafficking of a minor in terms of the victim's age;
- (4) Changing the name of the crime of solicitation of a minor for prostitution to commercial sexual exploitation of a minor;
- (5) Increasing the grade of offense of commercial sexual exploitation of a minor to a class B felony; and
- (6) Adding "anything of value" as a type of compensation for purposes of engaging in commercial sexual exploitation.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Maui Police Department, Maui County Department of the Prosecuting Attorney, Honolulu Police Department, City and County of Honolulu Department of the Prosecuting Attorney, Imua Alliance, CHILD USAdvocacy, Hoʻola Na Pua, Survivors for Solutions, and four individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Hawaii State Commission on the Status of Women.

Your Committee finds that sex trafficking is an ever-evolving criminal enterprise in which traffickers and exploiters find various means to sexually exploit the most vulnerable in our community. Your Committee also finds that protecting victims from sexual exploitation in all its forms and holding offenders accountable is difficult given the disparity in power between the victims and perpetrators. Your Committee also finds that updating Hawaii's sex trafficking laws to better reflect a survivor-centered response to hold sex buyers and traffickers accountable will improve outcomes for trafficking victims and survivors. Your Committee further notes the concerns of one member of your Committee that although no amendment was made to the law enforcement exemption language,

any such exemption should not be interpreted to allow for undercover law enforcement "acting in the course and scope of duties during undercover operations" to be permitted to engage in any form of sexual contact with sexually exploited individuals, including the current restrictions against "sexual penetration or sadomasochistic abuse."

Accordingly, your Committee has amended this measure by:

- (1) Establishing a good faith exemption to the crime of commercial sexual exploitation for individuals who seek law enforcement assistance or medical assistance for themselves or others as proposed by the Commission on the Status of Women; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 887, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 887, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1147 Human Services on H.B. No. 1237

The purpose and intent of this measure is to clarify that the courts have the authority to issue temporary restraining orders, protective orders, and injunctions for reasonable time periods that expire after a protected minor reaches the age of majority.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Department of the City and County of Honolulu Prosecuting Attorney, Hawaii Youth Services Network, and one individual.

Your Committee finds that temporary restraining orders, protective orders, and injunctions restraining a person from contacting, threatening, physically abusing, or harassing a minor typically expire when the minor reaches the age of majority because there is ambiguity whether the courts have the authority to issue these orders for a period that extends beyond the date upon which the minor turns eighteen years of age. Your Committee further finds that this forces the now eighteen-year-old who was previously protected to return to court and complete the process again, which can be time consuming, costly, and the source of unnecessary stress on and possible future harm to the now-majority-aged individual.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1237, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1237, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1148 Higher Education on H.B. No. 1291

The purpose and intent of this measure is to create a special education-specific eligibility criteria for the Hawaii State Scholars Program and Hawaii Community College Promise Program; specifically, to allow high-achieving applicants to the University of Hawaii (University) and students enrolled at any community college campus of the University, who graduated from a public high school in the State with a cumulative grade point average of 3.0; and qualified for and received special education services for two or more years during enrollment in grades kindergarten through twelve, to be eligible to receive scholarships under the respective programs.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Special Education Advisory Council, and four individuals

Your Committee finds that the Hawaii State Scholars Program for University applicants was established under section 304A-504, Hawaii Revised Statutes, to encourage Hawaii residents to pursue post-secondary school education. The program offers scholarship to high-achieving applicants who are residents of the State, can present evidence of academic excellence (i.e., valedictorians, cumulative high school grade point average of 4.0, top ten percentile standardized college admission test score), are enrolled at the University within eighteen months of high school graduation, and maintain satisfactory progress toward degree completion and a cumulative 3.0 grade point average. Your Committee also finds that the Hawaii Community College Promise Program was established under section 304A-506, Hawaii Revised Statutes, to make college affordable for all students by providing scholarships for the unmet direct cost needs of qualified students enrolled at any community college campus of the University.

According to the Special Education Advisory Council, students in special education constitute approximately ten percent of the State's public-school population. There is a massive achievement gap between students in regular education and special education. For example, the 2018 graduation rate for special education students was sixty-four percent, compared to eighty-seven percent for students in regular education. The 2018 college enrollment rate of special education students was thirty percent, compared to regular education students' fifty-seven percent. Your Committee believes this measure will encourage high-achieving special education students to pursue post-secondary education, continue to drive for excellence during their enrollment, and enhance their lives by availing themselves to the opportunities for a better personal and profession life in Hawaii.

Your Committee notes the University's request to remove section 2 of this measure that creates a special education-specific eligibility criteria for the Hawaii Community College Promise Program because it is a "need-based" scholarship program available to all eligible community college students, including students with disabilities, who meet the "need-based" eligibility criteria.

Your Committee has amended this measure by:

- (1) Allowing applicants for the University to be eligible for scholarship under the Hawaii State Scholars Program if the applicant:
 - (A) Graduated from a public high school in the State with a cumulative grade point average of 3.0; and
 - (B) Qualified for and received special education services for three or more years, instead of two or more years, during enrollment in grades seven through twelve, instead of kindergarten through twelve;
- (2) Removing section 2, which creates a special education-specific eligibility criteria for the Hawaii Community College Promise Program, as requested by the University; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1291, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1291, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1149 Higher Education on H.B. No. 1069

The purpose and intent of this measure is to decrease the frequency of University of Hawaii's (University) reporting on the Hawaii Cancer Research Special Fund account to the Legislature from a semi-annual to annual basis.

Your Committee received testimony in support of this measure from the University of Hawaii Cancer Center (UHCC).

Your Committee finds that section 304A-2168(d), Hawaii Revised Statutes, requires the University to report to the Legislature on the monies in the Hawaii Cancer Research Special Fund on a semi-annual basis. The reporting requirement was established in Act 28, Session Laws of Hawaii 2009, with the intent to promote transparency in the financial accounting relating to the special fund; assist the UHCC in providing better cancer care to improve the health and well-being of the people of Hawaii; help the Legislature ensure that the UHCC is making progress in meeting its recruitment and expansion goals; assure the commitment of funds in the special fund; and prevent the use of monies in the special fund for non-compliant purposes. Over the past three years, the UHCC has been improving its finances. Your Committee believes that this measure, which brings the Hawaii Cancer Research Special Fund's reporting requirement to a frequency that is on a par with other non-general funds, will reduce the University's administrative burden while continuing to maintain the Legislature's oversight over the special fund.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1069, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1150 (Joint) Water and Land and Agriculture and Environment on H.B. No. 243

The purpose and intent of this measure is to require the executive branch departments to:

- (1) Identify existing and planned facilities that are vulnerable to sea level rise, flooding impacts, and natural hazards;
- (2) Assess a range of options for mitigation impacts of sea level rise to existing and planned facilities;
- (3) Establish staff level points of contact to improve interagency coordination for sea level rise adaptation, flooding, and resilience; and
- (4) Submit annual reports to the Governor, Legislature, and Hawaii Climate Change Mitigation and Adaptation Commission regarding vulnerability and adaptation assessments for state facilities and progress in implementing sea level rise and disaster resiliency consideration.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency, Hawaii Climate Change Mitigation and Adaptation Commission, Sierra Club of Hawai'i, Hawai'i Reef and Ocean Coalition, and twelve individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that pursuant to Act 45, Session Laws of Hawaii 2020, the responsibilities of the Office of Planning to include sea level adaptation coordination. Your Committees recognize that the coastal zone management program within the Office of Planning has been furthering shoreline management and studying sea level rise adaptation options for Hawaii's shorelines for years. Your Committees further recognize that one of the three focus areas of the 2020 Hawaii Ocean Resources Management Plan, which is published and updated by the coastal zone management program, addresses coastal development and chronic coastal hazards such as sea level rise.

Accordingly, your Committees have amended this measure by:

- Requiring staff level points of contacts to also work with the Office of Planning to improve interagency coordination for sea level rise adaptation, flooding, and resilience;
- (2) Adding the Office of Planning as a party to receive annual reports from each executive branch department regarding vulnerability and adaptation assessments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 243, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 243, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran). Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1151 (Majority) Water and Land on H.B. No. 499

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to extend commercial, industrial, resort, or governmental leases, other than those to which the University of Hawaii is a party, that have not been sold or assigned within the last ten years, for lessees who commit to substantial improvement to the existing improvements.

Your Committee received testimony in support of the measure from the Department of Land and Natural Resources; Prince Kuhio Plaza, LLC; ValueRock Realty Partners, Inc.; Stanford Carr Development, LLC; Pacific Resource Partnership; and McCully Works, Inc. Your Committee received testimony in opposition of the measure from the Office of Hawaiian Affairs, one member of the Maui County Council, Ka Lāhui Hawaiian Affairs Caucus of the Democratic Party of Hawaiii, Kūpuna for the Moʻopuna, Native Hawaiian Legal Corporation, Hui Makaʻainana a Kalawahine, Sierra Club of Hawaiʻi, Mauna Kea Anaina Hou, Kai Palaoa, and one hundred forty-four individuals.

Your Committee finds that many of the leases for commercial, industrial, and resort properties on public land statewide may be nearing the end of their lease terms. Faced with the uncertainty of continued tenancy, lessees have little incentive to make major investments in infrastructural improvements and therefore the infrastructure on these properties has been deteriorating. Authorization of lease extensions, like those proposed by this measure, may resolve issues surrounding the future of a tenancy and thereby promote investment in improvements located on currently leased public lands.

Your Committee notes that S.B. No. 257, S.D. 1 (Regular Session of 2021), which was previously passed by your Committee, is a substantially similar measure that also allows the Board of Land and Natural Resources to extend commercial, industrial, resort, or governmental leases, other than those to which the University of Hawaii is a party, that have not been sold or assigned within the last ten years, for lessees who commit to substantial improvement to the existing improvements. Your Committee notes that the language in S.B. No. 257, S.D. 1, is preferable because the measure does not contain language prohibiting leases to be assigned to a sublessee.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have prohibited a lease to be assignable to a sublease, in conformity with the contents of S.B. No. 257, S.D. 1;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 499, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 499, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 1152 Water and Land on H.B. No. 1016

The purpose and intent of this measure is to:

- (1) Authorize the Department of Land and Natural Resources (DLNR) to establish requirements and fees for obtaining a commercial marine vessel license;
- Specify that a single commercial marine vessel license satisfies the commercial marine license requirement for all persons aboard a licensed vessel;
- (3) Require any person providing fishing charter services to obtain a commercial marine license; and
- (4) Allow marine charter fishing vessels to obtain commercial marine vessel licenses.

Your Committee received testimony in support of the measure from the Department of Land and Natural Resources, United Fishing Agency and one individual.

Your Committee finds that the current commercial marine license laws are unduly burdensome on small scale, boat-based commercial fishers and those who provide vessel-based commercial fishing charter services. Your Committee further finds that the establishment of a new commercial marine vessel license category is more convenient and cost-effective for Hawaii's boat-based fishers. This measure allows for a single commercial marine vessel license to cover all individuals aboard a commercial marine vessel, eliminates the need for individual commercial marine licenses, and clarifies who is responsible for submitting catch reports for the vessel.

Your Committee notes that S.B. No. 255, S.D. 2 (Regular Session of 2021), which was previously passed by the Senate, is a substantially similar measure that also clarifies that a valid commercial marine vessel license satisfies the commercial marine license requirement for all persons taking marine life for commercial purposes aboard a licensed vessel and that any person providing fishing charter services must obtain a commercial marine vessel license. Your Committee notes that the language in S.B. No. 255, S.D. 2, is preferable because the measure requires DLNR to submit a report to the Legislature no later than thirty days prior to the convening of

the Regular Session of 2022, concerning the status of its administrative rules establishing a new commercial marine vessel license category.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language requiring DLNR to submit a report to the Legislature no later than thirty days prior to the convening of the Regular Session of 2022, concerning the status of its administrative rules establishing a new commercial marine vessel license category, in conformity with the contents of S.B. No. 255, S.D. 2;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1016, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1016, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1153 (Joint) Water and Land and Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1352

The purpose and intent of this measure is to require the Office of Planning to submit a report to the Legislature containing the following:

- (1) An inventory of lands within the State that are leased from the federal government or under federal government control, to be prepared by the Department of Land and Natural Resources;
- Any known contaminants or environmental hazards discovered on the inventoried lands or associated with past environmental studies performed in connection with those lands, to be prepared by the Department of Health in consultation with the Environmental Protection Agency;
- (3) Input from departments and agencies on proposed alternative uses for the lands; and
- (4) Its findings and recommendations, including any proposed legislation, based on the information above.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Environmental Caucus of the Democratic Party of Hawaii'i, Hawaii Reef and Ocean Coalition, Sierra Club of Hawaii'i, Kūpuna for the Moʻopuna, Aloha Hawaii Onipaa, and eight individuals. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that it is in the public's best interest to preserve and protect Hawaii's natural resources and environment. This measure is a proactive step to ensure adequate environmental remediation of the lands leased to the federal government.

Your Committees have amended this measure by:

- (1) Clarifying that the inventory of lands contained in the report identify lands that are leased to the federal government instead of lands that are leased from the federal government;
- Requiring that the report contain input from all executive branch departments and agencies and the Office of Hawaiian Affairs on remediation and restoration needs and on proposed alternative uses of the lands identified in the inventory of lands contained in the report; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1352, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1352, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1154 Higher Education on H.B. No. 313

The purpose and intent of this measure is to:

- Repeal the requirement that no less than fifty percent of the physician workforce assessment fees transferred or deposited into the John A. Burns School of Medicine (JABSOM) Special Fund be expended for purposes identified by the Hawaii Medical Education Council to support physician workforce assessment and planning efforts;
- (2) Repeal the cap on expenditures from the JABSOM Special Fund; and
- (3) Authorize funds from the JABSOM Special Fund to be expended for:
 - (A) Loan repayments to physicians who commit to working in certain medically underserved areas as part of the Hawaii Rural Health Care Provider Loan Repayment Program; and

(B) Scholarships to qualifying medical students.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, AlohaCare, Hawaii Medical Association, Kapi'olani Medical Specialists dba Hawai'i Pacific Health Medical Group, The Queen's Health Systems, and one individual. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that Hawaii faces a critical need for recruitment and retention of physicians to serve in rural and medically underserved areas of the State. Hawaii's shortage of physicians has been estimated to be as high as one thousand and eight, which is compounded by the fact that its physician workforce is the fifth oldest of all the states, of which a majority will be over the age of sixty-five within ten years. Your Committee also finds that the increasingly high cost of education for health care professionals binds graduates to practice in highly specialized fields of care in urban areas that provide sufficient income to repay costly student loans, rather than in general practice on the neighbor islands or in rural areas of the State where need for their service is greatest. Your Committee notes that the physician shortage in Hawaii was exacerbated by the coronavirus disease 2019 pandemic. In 2020, at least one hundred ten physicians retired, one hundred thirty-nine left the State, one hundred twenty decreased their work hours, and eight passed away.

Your Committee further finds that the Physician Workforce Assessment Project administered by JABSOM has been providing physicians in Hawaii with various workforce services, including loan repayment for physicians working in areas of need, recruitment advertisement, preparation of local students for medical school, and education on the issue of physician shortage. According to the University of Hawai'i Systems, the funding for the project is limited to what is provided by the JABSOM Special Fund. Under existing law, funding for the project is statutorily capped at \$245,000 per year despite the JABSOM Special Fund being well funded from the \$60 relicensing fees paid by all physicians in Hawaii. As such, the fund currently has reserves that cannot be accessed.

This measure will help the Physician Workforce Assessment Project to address the shortage of physicians in rural and medically underserved areas of the State by allowing more funds to be used to support the project and expanding the purposes for which the funds may be used to include loan repayment to physicians who commit to working in medically underserved areas of the State and scholarships to qualifying medical students.

Your Committee has amended this measure by:

- (1) Amending the name of JABSOM's loan repayment program from "Hawaii Rural Health Care Provider Loan Repayment Program" to "Hawaii State Loan Repayment Program" as requested by the University of Hawai'i System; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 313, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 313, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1155 Human Services on H.B. No. 1284

The purpose and intent of this measure is to:

- (1) Require health insurance providers in the State who provide health benefits plans that are funded by the Hawaii Employer-Union Health Benefits Trust Fund or the state Medicaid agency, and providers of Medicare Advantage (Medicare Part C) health benefits, to submit administrative data to the Health Analytics Program in the Department of Human Services; and
- (2) Authorize the Health Analytics Program to develop an annual plan for the analysis, maintenance, and publication of collected all-claims, all-payer administrative data.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Budget and Finance, and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the State Health Planning and Development Agency (SHPDA) operates the State's All Payer Claims Data (APCD) Warehouse, which contains important data reported directly by insurers to the State, including information on patient care and private insurance that is otherwise unavailable. Currently, SHPDA designates all functions of the APCD to the University of Hawaii and the Department of Human Services' Med-QUEST's Health Analytics Program. SHPDA does not provide any funding or staffing for the APCD. Your Committee notes that there are a number of measures being considered by the Legislature that may impact SHPDA, and ultimately, may cost the State the ability to collect claims data and operate the APCD. This measure provides the Department of Human Services with the necessary statutory authority to continue the work of its Health Analytics Program to develop and maintain the State's APCD.

Your Committee has amended this measure by:

- (1) Changing its effective date from July 1, 2060, to January 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1284, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1284, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1156 Health on H.B. No. 224

The purpose and intent of this measure is to:

- (1) Exempt psychiatric services, special treatment facilities, and chronic renal dialysis services from the certificate of need requirements;
- (2) Authorize administrative penalties for persons who do not comply with an approved certificate of need;
- (3) Provide that any money in the state health planning and development special fund in excess of \$2,000,000 shall lapse to the general fund;
- (4) Transfer the administration of the state health planning and development special fund from the state health planning and development agency to an unspecified agency;
- (5) Require a fee for any request for reconsideration under section 323D-47; and
- (6) Make an appropriation from the health planning development fund.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Pacific Health, Healthcare Association of Hawaii, Institute for Justice, Satellite Healthcare, Ohana Pacific Health, Hale Makua Health Services, Hawaii Medical Service Association, and one individual. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the State Health Planning and Development Agency, Kaiser Permanente, Grassroot Institute of Hawaii, Hawaii Government Employees Association, Hawai'i Primary Care Association, Hawaii Substance Abuse Coalition, Liberty Dialysis – Hawaii, American Medical Response Hawaii, and two individuals.

Your Committee finds that the Governor's executive biennium budget proposes downsizing the State Health Planning and Development Agency (SHPDA) and transferring its role of administering the Certificate of Need (CON) Program to the Department of Health. Your Committee also finds that the CON Program is a vital regulatory component for ensuring accessibility to health care in Hawaii as well as the long-term financial viability of the health care delivery system. This measure proposes various amendments to SHPDA and its associated statutes that ensure its continuing viability while meeting the Governor's goals of minimizing costs.

Your Committee recognizes the testimony of various stakeholders in the hospital community who proposed that SHPDA be required to reassess and revise its state plan every five years. Your Committee has amended this measure by:

- (1) Requiring the Department of Health to alternatively be responsible for SHPDA's duties and responsibilities;
- (2) Requiring SHPDA or the Department of Health to reassess and revise its state plan every five years;
- (3) Removing the proposed fee for an applicant requesting reconsideration of SHPDA's decision; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 224, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 224, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

SCRep. 1157 Health on H.B. No. 302

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses to certify whether a person is totally disabled under the State income tax code;
- (2) Authorize advanced practice registered nurses with psychiatric specializations to make capacity determinations; and
- (3) Add advanced practice registered nurses with psychiatric specializations as primary providers in advance mental health care directives.

Your Committee received testimony in support of this measure from the Hawai'i State Center for Nursing, Board of Nursing, Hawai'i – American Nurses Association, Hawai'i Psychological Association, Hawaii Substance Abuse Coalition, National Association of Social Workers – Hawai'i Chapter, The Queen's Health Systems, Hawai'i Association of Professional Nurses, and four individuals. Your Committee received comments on this measure from the Department of Taxation and one individual.

Your Committee finds that there is a need for greater access to health care in the State, especially in rural communities and on the neighbor islands. Because there is a well-documented physician shortage in the State, authorizing the readily-available advanced practice registered nurse (APRN) workforce to engage in activities within their scope of practice and in accordance with their education, training, and licensure provides a reasonable solution to this problem.

Your Committee recognizes the testimony of the Hawai'i State Center for Nursing, which expressed concerns that the definition of "advanced practice registered nurse" currently in the measure is too restrictive and would unnecessarily limit the number of APRNs affected by the measure. The Hawaii State Center for Nursing also proposed an amendment that would adopt a provision that was passed in the Federal Coronavirus, Aid, Relief and Economic Security (CARES) Act authorizing APRNs to order home health care for Medicare patients.

Therefore, your Committee has amended this measure by:

- Including a provision authorizing APRNs to order home health care for Medicare patients in conformance with the CARES
 Act:
- (2) Removing from the definition of "advanced practice registered nurse," the requirement that an APRN must hold an accredited national certification in an advanced practice registered nurse psychiatric specialization;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 302, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 302, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1158 Health on H.B. No. 334

The purpose and intent of this measure is to:

- (1) Establish a state drug and alcohol toxicology testing laboratory special fund, to be administered by the Department of Health;
- (2) Deposit into the special fund fines imposed on offenders convicted of certain offenses involving operation of a vehicle under the influence of an intoxicant; and
- (3) Require expenditure reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Health, Department of Transportation, Hawaii Strategic Highway Safety Plan, City and County of Honolulu Department of the Prosecuting Attorney, Honolulu Police Department, County of Maui Department of the Prosecuting Attorney, Maui Police Department, County of Kaua'i Office of the Prosecuting Attorney, County of Hawai'i Police Department, Mothers Against Drunk Driving, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that driving under the influence of drugs and alcohol continues to be a major safety issue in the State. However, the prosecution of arrested and suspected drivers impaired by drugs and alcohol is costly because blood and urine samples for drug analyses are sent to mainland laboratories for analysis. Your Committee further finds that in addition to being costly, this process is also lengthy and can result in case dismissals. This measure establishes a special fund to sustain a drug and alcohol laboratory in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 334, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 334, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1159 (Joint) Health and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 542

The purpose and intent of this measure is to remove cannabidiol drugs that have been approved by the United States Food and Drug Administration from the State's list of Schedule V substances for consistency with federal law.

Your Committees received testimony in support of this measure from the Department of Public Safety and three individuals.

Your Committees find that section 329—11, Hawaii Revised Statutes, requires that the State's list of controlled substances comport with the list of controlled substances under federal law. Your Committees also find that the federal Food and Drug Administration recently approved the prescription drug Epidiolex, and generic versions of that drug, which is a plant-derived prescription cannabinoid product used to treat seizures associated with certain types of epilepsy. This measure brings state law in conformity with federal law by removing federally-approved cannabidiol drugs from the State's schedule V list of controlled substances.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 542, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1160 Health on H.B. No. 723

The purpose and intent of this measure is to authorize the use of funds appropriated from the emergency and budget reserve fund, from the amounts received by the State from the Coronavirus Aid, Relief, and Economic Security (CARES) Act, for the purchase and distribution of personal protective equipment and industrial hygiene products to state departments and attached agencies.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, State Procurement Office, Department of Labor and Industrial Relations Office of Community Services, Hawaii Emergency Management Agency, Hawaii Health Systems Corporation, and Hawai'i Primary Care Association.

Your Committee finds that the CARES Act provided significant and much needed funds to the State in response to the coronavirus disease 2019 (COVID-19) pandemic. In Act 9, Session Laws of Hawaii 2020, the Legislature appropriated \$100,000,000 of CARES Act funding, later amended to \$61,000,000 by the Governor, for the purchase and distribution of personal protective equipment to hospitals, childcare facilities, elderly care facilities, businesses, nonprofit organizations, and schools. This measure expands current legislation to allow for the purchase of industrial hygiene products and allows all state departments and attached agencies to purchase those products.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 723, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 723, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1161 Health on H.B. No. 986

The purpose and intent of this measure is to:

- (1) Ensure that timely diagnostic audiologic evaluation results on newborns who did not pass newborn hearing screening, or infants whose hearing status changes, are provided to the Department of Health; and
- (2) Update definitions and terminology.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, Executive Office on Early Learning, State Council on Developmental Disabilities, Early Childhood Action Strategy, Hawai'i Speech-Language-Hearing Association, and three individuals.

Your Committee finds that requiring the reporting of diagnostic audiologic evaluation results for newborns who do not pass hearing screening will help the State meet national goals to assist children who are deaf or hard of hearing to be language-ready for school. National data show that the incidents of infants who are born deaf or hard of hearing in Hawaii is at least twice the incidents in other states. This measure will improve the identification of and follow—up with infants who are deaf or hard of hearing.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 986, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 986, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1162 Health on H.B. No. 987

The purpose and intent of this measure is to increase the early identification of children with hearing or vision loss by establishing consistent protocols for hearing and vision screening and follow-up, screener training, and data collection for quality improvement.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, Executive Office on Early Learning, State Council on Development Disabilities, Early Childhood Action Strategy, Hawai'i Speech-Language-Hearing Association, and three individuals.

Your Committee finds that the sooner a parent knows that their child may be identified as blind, deaf, deaf-blind, or hard of hearing, the more beneficial it is for the child. Early intervention and appropriate follow-up services can greatly impact a child's lifelong language and communication development. Your Committee also finds that this measure will allow the Department of Health to set recommended standards for vision and hearing screening based on national guidelines and best practices. Furthermore, a statewide screening protocol will ensure consistency between all organizations performing screening are using tools, screening procedures, and referral criteria based on evidence and best practices.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 987, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 987, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1163 Health on H.B. No. 1096

The purpose and intent of this measure is to require the Department of Health to convene a task force to recommend amendments to existing parentage laws, which reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights.

Your Committee received testimony in support of this measure from the Department of Health, American Civil Liberties Union of Hawai'i, AF3IRM Hawai'i, Associated Students of the University of Hawai'i, Hawai'i Women Lawyers, The First Caucus of the Democratic Party of Hawai'i, Maui Equality Coalition, American Association of University Women of Hawaii, Hawaii Women's Coalition, Ma'i Movement Hawai'i, Planned Parenthood Votes Northwest and Hawaii, Healthy Mothers Healthy Babies Coalition of Hawaii, LGBTQ+ Rainbow Alliance, Rainbow Family 808, and fifty two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that under existing law, only male partners of birthing people are afforded the option to volunteer themselves as the other legal parent and establish parenthood on a birth certificate. This same right is not afforded to female, non-binary, and queer partners. As a result, non-male LGBTQ+ parents are subject to a "queer parent penalty". That is, the female, non-binary, and queer partners are forced to undergo extreme financial and emotional burdens to obtain an adoption decree for legal recognition as their child's parent. This measure convenes a working group to recommend amendments to the Hawaii Revised Statutes to update existing paternity laws to reflect modern concepts of family, parenthood, and parental rights.

Your Committee heard from various stakeholders who recommended that the working group include more members of the LGBTQ+ community. Therefore, your Committee has amended this measure by:

- (1) Adding one representative of the Department of Health's Sexual and Gender Minority Working Group and one representative of Ka 'Aha Māhū as members of the working group;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1096, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1096, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (San Buenaventura).

SCRep. 1164 Commerce and Consumer Protection on H.B. No. 136

The purpose and intent of this measure is to apply liquor licensing provisions related to the transfer of licenses and the denial of licenses to limited liability companies.

Your Committee received testimony in support of this measure from the City and County of Honolulu Liquor Commission and one individual.

Your Committee finds that there are inconsistencies under existing law regarding changes in the principals of entities that hold a liquor license. Certain housekeeping amendments are needed for these provisions to ensure they are internally consistent and to conform state liquor law to modern business practices. This measure recognizes the prevalent use of limited liability companies in the State today and allows publicly traded limited liability companies to be treated the same as publicly traded corporations. This measure further grants temporary licenses or approval of a management agreement to account for certain business transactions where a closing of a sale of a hotel or other property must occur before there is time to affect the final transfer of a liquor license. This measure is therefore necessary to accommodate modern business practices and permit licensees reasonable flexibility while maintaining liquor commission oversight and control.

Your Committee has amended this measure by:

- Replacing the terms "fit or proper" and "unfit or improper" with the phrases "meets statutory requirements to hold a license" or "does not meet statutory requirements to hold a license", respectively, throughout the measure to establish a more objective standard;
- (2) Inserting an effective date of January 5, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 136, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 136, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1165 Commerce and Consumer Protection on H.B. No. 137

The purpose and intent of this measure is to:

- (1) Provide that violations of liquor tax law shall be referred to the Director of Taxation for investigation;
- (2) Repeal the general right of inspection without a warrant for potential violations of liquor tax law;
- (3) Repeal the discretionary power of the county liquor commissions to deny a license to any person the commission finds is not fit and proper to hold a license;
- (4) Require applications for liquor licenses to be notarized;
- (5) Provide the administrator of the county liquor commissions discretion over whether to refer applications for investigation; and
- (6) Repeal the requirement that investigative reports to the county liquor commissions include any and all matters that are relevant to the application or license in the judgment of the investigator.

Your Committee received testimony in support of this measure from the City and County of Honolulu Liquor Commission, Beer Lab HI, Hawaiian Craft Brewers Guild, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that liquor commission investigators do not have the expertise to competently investigate tax law, nor do they have training in forensic accounting. Further, certain existing laws regarding liquor licensing processes are arbitrary, contrary to other provisions in state law, and can be overly burdensome. Additionally, the term "fit and proper" can be construed as vague and determining whether a person should be disqualified from holding a liquor license should be based on clear and articulable facts and standards as presently outlined in statute, rather than an investigator's subjective opinion. This measure streamlines the licensing process to clarify the Department of Taxation's role, and removes undefined, arbitrary, and capricious language while retaining adequate safeguards and community considerations.

Your Committee has amended this measure by:

- Clarifying that county liquor commissions may grant a license to a corporation that has been convicted of a felony where the
 commission finds that the corporation's officers and shareholders of twenty-five per cent or more of outstanding stock meet
 the statutory requirements to hold a license;
- (2) Inserting an effective date of January 5, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 137, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 137, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1166 Transportation on H.B. No. 160

The purpose and intent of this measure is to increase the registration fee requirement for "U-drive motor vehicles," as defined by section 286-2, Hawaii Revised Statutes, to match the registration fees for other motor vehicles.

Your Committee received testimony in support of this measure from the Finance Department of the County of Kaua'i.

Your Committee finds that U-drive motor vehicles are motor vehicles that are rented or leased for a period of six months or less. These vehicles are charged a fee that is statutorily capped at \$1 for U-drive vehicles and \$2 for all other types of vehicles. The fees collected fund the costs associated with collection and disposal of abandoned or derelict vehicles. Abandoned and derelict vehicles are an eyesore on the side of the road that detract from the natural beauty of the State. They negatively impact the environment, the quality of life for residents, and detract from the visitor experience. This measure will increase the resources available to the counties to clean up these abandoned and derelict vehicles by increasing the fee charged to U-drive motor vehicles to be the same amount that is charged to other vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 160, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1167 Transportation on H.B. No. 458

The purpose and intent of this measure is to extend the driver's license renewal period from two years to four years for licensees who are between the ages of seventy-two and eighty.

Your Committee received testimony in support of this measure from the Department of Transportation and six individuals.

Your Committee finds that there is no local data to indicate that drivers between the ages of seventy-two and seventy-nine years old are at a higher risk of causing or being involved in traffic accidents. This measure will allow drivers over the age of seventy-two to renew their driver's license every four years rather than every other year.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 458, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1168 Transportation on H.B. No. 333

The purpose and intent of this measure is to:

- (1) Adopt uniform standards for peer-to-peer car sharing; and
- (2) Establish the peer-to-peer car sharing surcharge tax.

Your Committee received testimony in support of this measure from the Department of Transportation; Internet Association; Enterprise Holdings; TechNet; and Turo, Inc. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Insurance Division, Department of Taxation, Department of Commerce and Consumer Affairs Office of Consumer Protection, Tax Foundation of Hawaii, and Grassroots Institute of Hawaii.

Your Committee finds that peer-to-peer car sharing is a vital, yet nascent, industry in the State. Due to its growing popularity, residents who participate in peer-to-peer car sharing services need to have uniform protections and safety standards. Your Committee further finds that rental motor vehicle surcharge revenues deposited into the state highway fund amounted to \$58,000,000 in 2019, which is a major source of revenue for the state highway fund and is vital for the continued operation, maintenance, and construction of the state highway system. This measure will provide uniform standards for peer-to-peer car sharing services and will also help to preserve revenues deposited into the state highway fund.

Your Committee notes that it was informed by this measure's stakeholders that there are extensive conversations currently taking place between the insurance commissioner, office of consumer protection, and proponents of this measure who are working collaboratively to address some of the concerns regarding the insurance provisions contained in this measure. While these conversations are ongoing, there was not sufficient time to provide your Committee with proposed language regarding the insurance provisions prior to the hearing. Due to the time constraints of this legislative session and in order to provide your Committees on Judiciary and Ways and Means adequate time to consider and hear this measure, your Committee has adopted previously recommended provisions on insurance as a placeholder and, should this measure advance, encourages your Committees on Judiciary and Ways and Means to examine any proposed insurance language agreed to by the stakeholders and submitted for consideration.

Accordingly, your Committee has amended this measure by:

- (1) Requiring insurers offering insurance through a peer-to-peer car-sharing program to be subject to the provisions of the Hawaii insurance code under chapter 431, Hawaii Revised Statutes;
- (2) Replacing provisions that would have required insurance coverage during the car-sharing period with language requiring a shared car owner, peer-to-peer car-sharing program, and peer-to-peer car-sharing platform to be insured under a motor vehicle insurance policy that provides primary insurance coverage for each shared car available and used through a peer-to-peer car-sharing program in amounts no less than provided for in section 431:10C-703(d), Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 333, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 333, H.D. 3, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 1169 Transportation on H.B. No. 803

The purpose and intent of this measure is to:

- (1) Authorize each county to adopt ordinances to enforce section 291-71, Hawaii Revised Statutes, including the establishment of penalties for failure to comply with its requirements or maintain electric vehicle (EV) charging stations in working order;
- (2) Clarify that certain enforcement officers may enter private property to enforce EV parking space violations;
- (3) Require new EV charging systems installed pursuant to the EV charging system requirement to be at least Level 2 and network-capable; and
- (4) Increase the number of required parking spots for EVs from one space to five spaces.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii State Energy Office; Office of Climate Change, Sustainability, and Resiliency for the City and County of Honolulu; Hawaii Electric Vehicle Association; Big Island Electric Vehicle Association; Sustainable Energy Hawaii; Ulupono Initiative; Hawaiian Electric Company; 350Hawaii; Climate Protectors Hawaii; Blue Planet Foundation; Our Revolution Hawaii; Tesla, Inc.; Environmental Justice Task Force of Faith Action for Community Equity; Environmental Caucus of the Democratic Party of Hawaii; and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Building Owners and Managers Association of Hawaii, Hawaii Credit Union League, Retail Merchants of Hawaii, Building Association of Hawaii, and Brookfield Properties. Your Committee received comments on this measure from the Department of Design and Construction for the City and County of Honolulu.

Your Committee finds that emissions from ground transportation account for the largest share of energy sector emissions in the State. Despite Hawaii's statutory target to sequester more greenhouse gases than emitted no later than 2045, less than thirty percent of qualifying parking lots are in compliance with the requirements to designate and maintain a certain number of charging systems for EVs. This measure clarifies the authority to enforce and promote much needed compliance for EV charging infrastructure to help Hawaii meet its clean energy goals.

Your Committee notes that the companion to this measure, S.B. No. 756, S.D. 2 (Regular Session 2021), which was previously passed by the Senate, is a substantially similar measure that also authorizes the counties to adopt ordinances to enforce section 291-71, Hawaii Revised Statutes, requires newly installed EV charging systems to be at least Level 2 and network-capable, and requires parking lot owners to provide a certain number of parking stalls to be equipped with EV charging stations. Your Committee concludes that the language in S.B. No. 756, S.D. 2, is preferrable because it includes a provision for parking lot owners to provide ten parking stalls per one hundred stalls to be equipped with EV charging stations by 2030.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 756, S.D. 2, a substantially similar measure which:
 - (A) Authorizes each county to adopt ordinances to enforce section 291-71, Hawaii Revised Statutes, including the establishment of penalties for failure to comply with its requirements or make reasonable efforts to maintain electric vehicle (EV) charging stations in working order;
 - (B) Clarifies that certain enforcement officers may enter private property to enforce EV parking space violations;
 - (C) Requires new EV charging systems installed pursuant to the EV charging system requirement to be at least Level 2 and network-capable beginning January 1, 2022; and
 - (D) Increases EV charging system equipment requirements per one hundred parking stalls from one stall by 2012 to five stalls by 2025 and ten stalls by 2030; and
- (2) Exempting any parking lot that is located in a flood zone from the requirements to install EV charging systems;
- (3) Allowing the county to grant a parking lot owner an extension for up to one year to comply with the requirements of this measure upon a demonstration of need by the owner; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 803, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 803, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1170 Transportation on H.B. No. 434

The purpose and intent of this measure is to establish a non-commercial aircraft landing fee and non-commercial aircraft storage fee and use those moneys to help off-set the current budget deficit.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to require the Director of Transportation to adopt rules to:

- (1) Require tour aircraft operators to have commercial general liability insurance coverage of at least \$10,000,000; and
- (2) Require tour aircraft operators applying for permit renewal to report details of each flight taken by the tour aircraft operation during the permitted period.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Transportation Airports Division, O'ahu Tour Helicopter Safety and Noise Inter-Action Group, and seven individuals.

Your Committee finds that tour helicopter and small aircraft operations constitute a significant risk to passengers and residents on the ground. Over the past five years tour helicopters and small aircraft operations in Hawaii accounted for nearly seventeen percent of the nation-wide accidents that prompted investigations by the National Transportation Safety Board. In one ten-month period spanning 2019 to 2020, twenty-three lives were lost in four separate tour helicopter or small aircraft accidents on Oahu and Kauai. Therefore, it is important that tour operators carry insurance in sufficient amounts to cover potential losses in the event of an accident.

Your Committee also finds that residents in the State must endure the excessive noise that helicopter tours generate. Federal legislation, such as the National Parks Air Tour Management Act of 2000, established rules that tour operators must follow when flying over national parks like Volcanoes National Park, Pearl Harbor National Memorial, and Haleakala National Park. Therefore, it is in the interest of the State to monitor and ensure that federal regulations are being followed and that the State has the option not to renew a tour aircraft operation permit for any company that repeatedly deviates from flight plans over sensitive areas. This measure will require tour aircraft operators to carry and maintain sufficient insurance amounts as well as file appropriate reports and disclosures so that the State can monitor compliance with federal regulations.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 434, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 434, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1171 (Joint) Health and Human Services on H.B. No. 310

The purpose and intent of this measure is to:

- (1) Amend the definition of "imminently dangerous to self or others";
- (2) Authorize the involuntary treatment of up to thirty days for patients who are subject to emergency hospitalization, diagnosed with a serious mental illness or severe substance use disorder, and found to be lacking decisional capacity; and
- (3) Require assessment of patients who are subject to emergency hospitalization, diagnosed with a serious mental illness or severe substance use disorder, and found to be lacking decisional capacity to determine if a surrogate or guardian needs to be appointed to make appropriate health care decisions for the patient.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney; The Institute for Human Services, Inc.; Hawai'i Psychological Association; Hina Mauka; and seven individuals. Your Committees received testimony in opposition to this measure from the Office of the Public Defender and one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Health, Hawaii Disability Rights Center, and The Queen's Health Systems.

Your Committees recognize the testimony of the Department of the Attorney General, which raised concerns about the legality of the measure permitting involuntary treatment with long-term injectable psychotropics. Your Committees also recognize the testimony of various stakeholders who raised concerns that allowing medical professionals the discretion to treat certain patients who are mentally ill or suffering from substance abuse, imminently dangerous to themselves or others, and in need of care or treatment, rather than requiring the medical professional to treat the patient, would lessen patient care. Finally, your Committees note that many stakeholders testified that amending the definition of "imminently dangerous to self or others" by increasing the number of days from forty-five days to ninety days has no basis in psychiatric opinion or data.

Therefore, your Committees have amended this measure by:

- (1) Restoring the original language of section 334-59(d), Hawaii Revised Statutes, that requires qualified medical professionals to direct certain patients to be hospitalized on an emergency basis;
- (2) Removing the amendment to the definition of "imminently dangerous to self or others";
- (3) Removing the proposed amendment that would allow the involuntary administration of medication;
- (4) Removing the amendment to the definition of "imminently dangerous to self or others" in section 334-161, Hawaii Revised Statutes;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 310, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 310, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 1172 (Joint) Health and Commerce and Consumer Protection on H.B. No. 476

The purpose and intent of this measure is to:

- (1) Impose an excise tax of fifty percent of the otherwise applicable tax under section 245-3, Hawaii Revised Statutes, on every wholesaler for each modified risk tobacco product sold, used, or possessed by a wholesaler;
- (2) Define modified risk tobacco product;
- (3) Establish taxation of e-liquids used in electronic smoking devices;
- (4) Require wholesalers and dealers to be licensed; and
- (5) Require retailers of tobacco and e-liquids to obtain permits.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii State Teachers Association, Hawaii Substance Abuse Coalition, Hawaii' Primary Care Association, and Democratic Party of Hawaii Labor Caucus. Your Committees received testimony in opposition to this measure from the American Cancer Society Cancer Action Network, Hawaii' Public Health Institute, Black Lava Vape, Hawaii COPD Coalition, Irie Hawaii, Smoke-Free Alternatives Trade Association, AlohaCare, Hawaii Food Industry Association, Volcano Vape Shops, Hawaii Smokers Alliance, and forty-one individuals. Your

Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Campaign for Tobacco-Free Kids, American Heart Association, American Lung Association in Hawaii, and Grassroot Institute of Hawaii.

Your Committees find that electronic smoking devices (ESDs), also known as e-cigarettes, have become the most used tobacco products among youth in the State. While youth eigarette smoking has decreased from the year 2000, youth ESD use has continued to rise. Your Committees further find that in Hawaii, ESDs are not taxed like other tobacco products and often can be purchased at lower prices than eigarettes. According to the U.S. Surgeon General, increasing the price of tobacco products is the single most effective way to reduce consumption. This measure establishes taxes for certain e-liquid products.

Your Committees recognize the testimony of the Department of Health, which voiced concerns that more research is needed to determine the best taxation strategy for any emerging product and that using standardized definitions to achieve tax parity with other tobacco products would best address the youth vaping epidemic. Additionally, your Committees recognize the testimony of the Department of Taxation, which noted that section 245-31, Hawaii Revised Statutes, creates a redundant reporting requirement.

Therefore, your Committees have amended this measure by:

- (1) Removing the proposed definitions of "e-liquid", "e-liquid cartridge", "electronic smoking device", "open system e-liquid", and "unit of open system e-liquid";
- (2) Removing all references to the definitions listed in paragraph (1), above;
- (3) Defining "e-liquid" and "smoke" or "smoking";
- (4) Amending the definition of tobacco products; and
- (5) Repealing section 245-31, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 476, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 476, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1173 (Joint) Health and Commerce and Consumer Protection on H.B. No. 598

The purpose and intent of this measure is to:

- (1) Establish the offense of unlawful shipment of tobacco products;
- (2) Increase the license fee for persons or entities engaged as a wholesaler or dealer of cigarettes and tobacco products;
- (3) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products;
- (4) Fund health education and prevention programs concerning the risks and dangers of the use of electronic smoking devices for youth; and
- (5) Repeal various statutory provisions relating to electronic smoking devices.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Dental Association, Hawaii Medical Association, Hawaii Primary Care Association, Hawaii Substance Abuse Coalition, Keiki Injury Prevention Coalition, and one individual. Your Committees received testimony in opposition to this measure from American Cancer Society Cancer Action Network; American Vaping Association; Cigar Association of America, Inc.; Irie Hawaii; Hawaii Smokes Alliance; Volcano Vape Shops; and thirty individuals. Your Committees received comments on this measure from the Department of Hatorney General, Department of Budget and Finance, Department of Health, Department of Taxation, American Heart Association, American Lung Association in Hawaii, Hawaii Public Health Institute, Tax Foundation of Hawaii, Hawaii COPD Coalition, Hawaii Petroleum Marketers Association, AlohaCare, Hawaii Food Industry Association, and four individuals.

Your Committees find that tobacco use continues to be a problem in Hawaii, causing approximately one thousand four hundred deaths per year among adults. Your Committees also find that e-cigarette use has increased considerably in recent years and that e-cigarette use among youth and young adults is also strongly associated with the use of other tobacco products, including combustible tobacco products. This measure prohibits online sales of tobacco products and raises monies to fund youth tobacco prevention and education programs.

Your Committees recognize the testimony of the Department of Health which voiced concerns that the measure as currently drafted does not contain a clear vehicle to impose a tax on electronic smoking devices. Therefore, your Committees have amended this measure by:

- (1) Including electronic smoking devices in the definition of "tobacco products"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 598, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 598, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 1174 (Joint) Health and Commerce and Consumer Protection on H.B. No. 1282

The purpose and intent of this measure is to:

- (1) Commence the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health, beginning with the transfer of the Oahu Regional Health Care System's budget;
- (2) Enable the Oahu Regional Health Care System, Department of Health, Hawaii Health Systems Corporation, and other state agencies to implement the processes and transactions required to effectuate the completion of the transition;
- (3) Require the Department of Health to consult with the University of Hawaii regarding services provided at Leahi Hospital and Maluhia, and allow University of Hawaii students to rotate through those facilities for training purposes;
- (4) Authorize the Department of Health to pay rent to the University of Hawaii for the use of the Leahi Hospital property at a rate and on terms to be negotiated between the Department of Health and the University of Hawaii;
- (5) Clarify the rights, powers, and exemptions held by the Oahu Regional Health Care System during the transition period and the rights, powers, and exemptions held by the Inpatient Services Division of the Department of Health following completion of the transfer of the Oahu Regional Health Care System;
- (6) Appropriate monies from the mental health and substance abuse special fund to expand and operate programs at Leahi Hospital and Maluhia; and
- (7) Authorize the issuance of general obligation bonds and appropriate the proceeds of the bonds for improvements at Leahi Hospital and Maluhia.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, University of Hawaii System, and The Queen's Health System. Your Committees received comments on this measure from the Department of the Attorney General, State Procurement Office, and Hawaii Government Employees Association.

Your Committees recognize the testimony of the Hawaii Government Employees Association, that the measure, as written, would not accomplish one of its purposes to ensure that employees exempt from civil service maintain their position for at least one year after the transition. Therefore, your Committees have amended this measure by:

- Ensuring that employees who are exempt from civil service maintain their positions for at least one year after the transition, subject to certain conditions;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1282, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1282, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1175 (Joint) Health and Commerce and Consumer Protection on H.B. No. 477

The purpose and intent of this measure is to:

- Authorize the department of health to allow a licensed dispensary to purchase up to three thousand grams of medical cannabis
 or manufactured cannabis products from another licensed dispensary located on the same island to ensure ongoing qualifying
 patient access;
- (2) Increase the allowable number of production centers and retail dispensing locations per dispensary license;
- (3) Prohibit primary caregivers from cultivating cannabis for a qualifying patient after December 31, 2021;
- (4) Limit where qualifying patients can obtain medical cannabis or manufactured cannabis products after December 31, 2021;
- (5) Authorize the Department of Health or law enforcement, upon the request of the department, to conduct administrative inspections of registered grow sites to ensure compliance with cannabis plant limits;
- (6) Clarify that as long as federal law prohibits the transportation of medical cannabis over a body of water, dispensary-todispensary sales may only occur between dispensaries located on the same island; and
- (7) Clarify that the transport of cannabis to another county or island for the sole purposes of laboratory testing is permissible only if no certified laboratory is in the county or on the island where the dispensary is located.

Your Committees received testimony in support of this measure from Big Island Grown Dispensaries; Green Aloha, Ltd; Maui Grown Therapies; Manoa Botanicals; and eight individuals. Your Committees received testimony in opposition to this measure from Effective Change, LLC; Epic Interventions, LLC; Hawaii Compassionate Care; Lama O Aloha; Big Island Booch, Inc.; Drug Policy

Forum of Hawai'i; Fujiwara and Rosenbaum, LLLC; Island Star Landscaping; Patients Without Time; We Are One, Inc.; and two hundred fifty-seven individuals. Your Committees received comments on this measure from the Department of Health; Aloha Green Holdings, Inc.; and four individuals.

Your Committees find that there is a need to fortify and enhance qualifying patient access to safe, regulated cannabis in the State. Your Committees further find that there is an illicit recreational cannabis market flourishing in the State. The danger of such a market is that the products are unregulated, escaping product testing requirements, accountability to qualifying patients, and oversight by any state agency. Thus, your Committees believe that overall enhancement of the medical cannabis dispensary program is necessary to strengthen patient access, improve product controls and safety, and refine the administration of the program.

Your Committees heard the testimony of the Department of Health, which requested amendments that would allow the Department to generate funds to hire more staff necessary for the increased regulatory oversight. The Department of Health also recommended amendments for clarity. Finally, your Committees heard from many testifiers who voiced concerns about tighter regulation on home grown cannabis.

Therefore, your Committees have amended this measure by:

- (1) Removing statutory fees for production center and retail dispensing location permit applications and authorizing the Department of Health to determine the fee structure;
- (2) Clarifying that the Department of Health or law enforcement, at the request of the Department, may make administrative inspections, including onsite inspections, of registered grow sites;
- (3) Removing the proposed reduction in home cultivation limit from five to two plants;
- (4) Removing the change in the proposed sunset date for primary caregiver cannabis cultivation;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 477, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 477, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (Moriwaki, San Buenaventura). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 1176 (Joint) Health and Commerce and Consumer Protection on H.B. No. 826

The purpose and intent of this measure is to:

- (1) Expand the purposes for which moneys in the tobacco enforcement special fund may be used to include all functions of the Department of the Attorney General;
- (2) Rename the Electronic Smoking Device Retailer Registration Unit to the Electronic Smoking Device Retailer Registration and Enforcement Unit;
- (3) Expand the scope of the Unit to include enforcement of compliance of electronic smoking devices with the Federal Food, Drug, and Cosmetic Act;
- (4) Establish the electronic smoking device retailer registration and enforcement unit special fund for moneys received from enforcement actions; and
- (5) Amend the fine amount for persons under twenty-one years of age who purchase or possess tobacco products or electronic smoking devices.

Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Health, Hawaii State Teachers Association, American Heart Association, Hawaii Public Health Institute, American Cancer Society Cancer Action Network, American Vaping Association, Black Lava Vape, Hawaii COPD Coalition, Hawaiii Primary Care Association, Irie Hawaii, Smoke-Free Alternatives Trade Association, AlohaCare, Hawaii Smokers Alliance, Volcano Vape Shops, and thirty individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the introduction of flavored e-cigarettes, electronic smoking devices, and other electronic nicotine delivery systems into the marketplace has had a negative impact on Hawaii's youth. Your Committees further find that the Department of the Attorney General requires funding to better regulate and ensure the removal of unsafe, noncertified electronic nicotine delivery systems from the marketplace. This measure provides the Department of the Attorney General with additional funding to expand its electronic smoking device regulatory arm.

Your Committees heard a significant amount of testimony from many stakeholders opposing any increase in the fines levied against persons under twenty-one years of age who purchase or possess tobacco products or electronic smoking devices. The testimony in opposition explained that punishment, such as the fine in this measure, is not an optimal strategy for behavior change and that the fine disproportionately affects low-income communities, youth of color, LGBT youth, youth with disabilities, and boys.

Therefore, your Committees have amended this measure by:

- (1) Removing the proposed amendments to section 712-1258, Hawaii Revised Statutes, in section 6 of this measure with respect to youth fines;
- (2) Inserting, section 3 of S.B. No. 1147, S.D. 2, Legislative Session 2021, which makes unlawful the sale of flavored tobacco products, mislabeling of e-liquid products containing nicotine, and sale of tobacco products other than through retail sales via in-person exchange;
- (3) Inserting into this measure, section 4 of S.B. No. 1147, S.D. 2, Legislative Session 2021, which includes e-liquid and electronic smoking devices within the definition of "tobacco products" as used in the cigarette tax and tobacco tax law;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 826, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 826, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1177 (Joint) Health and Human Services on H.B. No. 541

The purpose and intent of this measure is to:

- (1) Establish the State Payor Committee, to be administered by the Directors of the Departments of Health and Human Services, or their designees, to establish a purchase of service framework that aligns all behavioral health and substance abuse service contracts:
- (2) Require executive programs that purchase social services related to behavioral health or substance abuse to coordinate with the State Payor Committee as part of the planning for purchases of the enumerated services; and
- (3) Require all community or private organizations that purchase services for behavioral health or substance abuse, at the request of any state funding agency, to disclose the source of other federal, state, or county-level funding it receives for the purposes of performing such services.

Your Committees received testimony in support of this measure from the Department of Health and Office of the Mayor of the County of Maui. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services, State Procurement Office, Phocused, Hawaii Substance Abuse Coalition, and The Queen's Health Systems.

Your Committees find that the intention of this measure is to ensure that procurements for behavioral health and substances abuse services are public and known. Act 263, Session Laws of 2019, created a working group whose purpose was to evaluate current behavioral health care and related systems and to identify steps to promote effective integration to respond to and coordinate care for persons experiencing substance abuse, mental health conditions, and homelessness. Your Committees find that this working group can be reconstituted to effectuate the goals of this measure. The working group is preferable to the new committee proposed by this measure because the working group is already familiar with the problems this measure aims to combat.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the language of Act 263, Session Laws of Hawaii 2019, a measure that establishes a working group within the Department of Health to evaluate current behavioral health care and related systems and identify steps to promote effective integration to respond to and coordinate care for persons experiencing substance abuse, mental health conditions, and homelessness, with the following amendments:
 - (A) Updating the working group's purpose to be to identify gaps in services, coordinate funding sources, and establish and identify outcome measures for behavioral health, substance abuse, and homelessness;
 - (B) Removing the representative of the Hawaii Opioid Initiative executive steering committee from the working group; and
 - (C) Adding to the working group, the Governor's Coordinator on Homelessness, a representative from the Office of Hawaiian Affairs, and a representative from the University of Hawaii John A. Burns School of Medicine Department of Psychiatry who is affiliated with the American society of Addiction Medicine;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 541, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 1178 (Joint/Majority) Health and Commerce and Consumer Protection on H.B. No. 576

The purpose and intent of this measure is to authorize advanced practice registered nurses (APRNs) to perform medication or aspiration abortions.

Your Committees received testimony in support of this measure from the Board of Nursing, ACLU Hawai'i, American College of Obstetricians and Gynecologists, Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, Planned Parenthood Votes Northwest and Hawai'i, AAUW of Hawaii, Aoki Birthing Care, AF3IRM Hawai'i, Common Cause Hawaii Maternal & Infant Health Collaborative, Hawaii Women's Coalition, Hawai'i Women Lawyers, Ma'i Movement Hawai'i, Pono Hawai'i Initiative, Rainbow Family 808, Young Progressives Demanding Action, Hawai'i Health & Harm Reduction Center, Save Medicaid Hawaii, Hawai'i - American Nurses Association, and one hundred eleven individuals. Your Committees received testimony in opposition to this measure from A Place for Women in Waipio, Hawaii Family Forum, Hawaii Life Alliance, and nine individuals. Your Committees received comments on this measure from the Hawai'i State Center for Nursing.

Your Committees find that existing law allows only physicians to perform abortions. Many women, particularly those on the neighbor islands and in rural parts of the State, do not have access to physicians who are authorized to perform abortions. Thus, these women are forced to fly to another island in addition to taking time off work, arranging childcare, and booking lodging to see a physician and receive safe and adequate care. Your Committees find that APRNs can safely provide abortion care and can do so outside of hospitals. This measure allows APRNs to perform medication or aspiration abortions.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 576, H.D. 3, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, 1 (Fevella). Excused, none.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Misalucha). Noes, 2 (Riviere, Fevella). Excused, none.

SCRep. 1179 Labor, Culture and the Arts on H.B. No. 325

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (1) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (1) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 325, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 325, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1180 Labor, Culture and the Arts on H.B. No. 326

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (10) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (10) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 326, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 326, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1181 Labor, Culture and the Arts on H.B. No. 712

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (2) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 712, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 712, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1182 Labor, Culture and the Arts on H.B. No. 713

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (3) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 713, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 713, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1183 Labor, Culture and the Arts on H.B. No. 714

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (4) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (4) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 714, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 714, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1184 Labor, Culture and the Arts on H.B. No. 715

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (6) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (6) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 715, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1185 Labor, Culture and the Arts on H.B. No. 716

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (8) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (8) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 716, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1186 Labor, Culture and the Arts on H.B. No. 919

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (5) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 919, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1187 Labor, Culture and the Arts on H.B. No. 921

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (7) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and University of Hawai'i System.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (7) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 921, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1188 Labor, Culture and the Arts on H.B. No. 925

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (11) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 925, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 925, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1189 Labor, Culture and the Arts on H.B. No. 1125

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (9) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; University of Hawaii System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (9) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1125, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1125, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1190 Labor, Culture and the Arts on H.B. No. 1126

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (13) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (13) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1126, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1126, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1191 Labor, Culture and the Arts on H.B. No. 1127

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items, including salary and other cost adjustments, for public employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (14) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate or authorize necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the Regular Session of 2021

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1127, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1192 (Majority) Judiciary on H.B. No. 357

The purpose and intent of this measure is to establish a two-year statute of limitations for all actions for an inverse condemnation against the State, including a claim brought under article I, section 20, of the Hawaii State Constitution, regarding eminent domain.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Department of the Attorney General, and one individual.

Your Committee finds that the decision of the Hawaii Supreme Court in *DW Aina Le'a Dev., LLC v. State Land Use Comm'n*, 148 Haw. 396, 477 P.3d 836, 837 (2020), held that the statute of limitations for a regulatory taking is six years, pursuant to Hawaii's catch-all statute of limitations for personal actions. Your Committee further finds that, in light of this decision, the explicit establishment of a statute of limitations applicable to all types of inverse condemnation actions against the State will bring certainty and predictability to the timeframe within which a plaintiff must file this type of action against the State or be barred from pursuing the claim. Your Committee additionally finds that the clearest and most effective way to establish a statute of limitations consistent with other claims against the State is to explicitly include claims brought under article I, section 20, of the Hawaii State Constitution with other claims against the State.

Accordingly, your Committee has amended this measure by:

- Removing language establishing a two-year statute of limitations for inverse condemnation claims brought against the State as part of the general laws governing personal actions;
- (2) Including claims brought under article I, section 20, of the Hawaii State Constitution with other claims against the State for all procedural purposes, including the two-year statute of limitations generally applied to claims against the State; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 357, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 357, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Fevella). Excused, none.

SCRep. 1193 Judiciary on H.B. No. 1043

The purpose and intent of this measure is to amend chapter 237D, Hawaii Revised Statutes, relating to the transient accommodations tax by:

- (1) Repealing the misdemeanor criminal penalty for failing to register under and replace it with a monetary fine structure;
- (2) Replacing references to "operator or plan manager" with the terms "person" or "taxpayer";
- (3) Clarifying that a certificate of registration is required for persons advertising transient accommodations;
- (4) Applying the personal liability provision under general excise tax law to the transient accommodations tax; and
- (5) Making various technical amendments.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from Airbnb and one individual.

Your Committee finds that the transient accommodations tax serves as an important source of revenue for the State. Your Committee further finds that a number of inconsistencies, loopholes, and ambiguities have been identified that adversely affect enforcement and administration of the transient accommodations tax. This measure assists the Department of Taxation in the imposition of the transient accommodations tax by simplifying and streamlining certain provisions and processes.

Your Committee has amended this measure by:

- (1) Clarifying that the registration requirement for persons other than transient accommodations brokers, travel agencies, or tour packagers applies only to persons who are subject to the transient accommodations tax;
- (2) Replacing "operator and plan manager" with "taxpayer" to conform with other amendments made by the measure;
- (3) Changing the effective date to January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1043, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1043, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1194 (Majority) Judiciary on H.B. No. 1263

The purpose and intent of this measure is to:

- (1) Establish a system of graduated penalties for violations of the ignition interlock law; and
- (2) Require proof of compliance with the ignition interlock law to be eligible to apply for a driver's license.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of the Prosecuting Attorney of the County of Kaua'i; Smart Start, LLC; Casanova Powell Consulting; Traffic Injury Research Foundation; Strategic Highway Safety Plan Core Committee; Responsibility.org; AAA Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that an ignition interlock device is a small device attached to a vehicle's electrical system that requires a driver to submit to a breath test before the vehicle will start. If alcohol is detected at or above a predetermined threshold, the vehicle will not start. The device may also require rolling or running retests, where a driver must submit to another breath test at random intervals after the vehicle has been allowed to start. Your Committee further finds that, because ignition interlock devices are the only technology to physically separate the act of drinking from the act of driving and will directly prohibit an offender from driving again with alcohol in the offender's system, they are more effective in preventing persons from reoffending than other technologies or programs that do not directly prevent an offender from operating the offender's vehicle. This measure will protect the public from repeat offenders who put themselves and others at risk when they decide to drive under the influence of an intoxicant by expanding on the existing ignition interlock device law.

Your Committee has amended this measure by:

- Specifying that installation of an ignition interlock device on all vehicles the person drives is a prerequisite for the new ignition interlock device requirements;
- (2) Specifying a period of required compliance with ignition interlock device installation of sixty days for a first offense within ten years, ninety days for a second offense within ten years, and six months for a habitual offense and subsequent offenses;
- (3) Adding fifty percent to the applicable period of license revocation convicted of operating a vehicle under the influence of an intoxicant if the person does not own a vehicle, have use of a vehicle, or is otherwise unable to drive during the revocation period unless the period of revocation is permanent or the person is required to drive a vehicle on which an ignition interlock device cannot be installed for the purposes of the person's employment;
- (4) Changing the effective date to January 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1263, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1263, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 3 (Acasio, Kim, Fevella). Excused, none.

SCRep. 1195 Energy, Economic Development, and Tourism on H.B. No. 1174

The purpose and intent of this measure is to:

- (1) Amend the motion picture, digital media, and film production income tax credit by:
 - (A) Reducing the cap amount and aggregate cap amount the credit;
 - (B) Establishing a maximum amount of above-the-line costs that may be used to claim the credit;
 - (C) Reducing the minimum amount of qualified production costs needed to claim the credit;
 - (D) Requiring qualified production costs to be incurred through a qualified vendor;
 - (E) Requiring at least seventy-five percent of a qualified production to be filmed in the State if the taxpayer claims a credit in excess of \$5,000,000 in a single taxable year; and
 - (F) Requiring that the State receive a percentage of the worldwide gross revenues of a qualified production if the taxpayer claims credits in excess of an aggregate amount of \$15,000,000 in two taxable years;
- (2) Defining "above-the-line costs" and "qualified vendor"; and
- (3) Extending the repeal date of the tax credit from January 1, 2026, to January 1, 2033.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1, in addition to the original contents of the measure:

- (1) Amends the motion picture, digital media, and film production income tax credit by:
 - (A) Adjusting the general excise tax from 4% percent to .5% percent for qualified productions costing less than \$3,000,000 per qualified production; and
 - (B) Allowing the tax credit for qualified productions costing less than \$3,000,000 to be carried over and applied to the taxpayer's future state tax liability; and
- (2) Reduces the cap amounts of the renewable energy technologies income tax credit.

Your Committee received testimony in support of this measure from Island Film Group, Tritium 3 Renewable Ventures LLC, and one individual. Your Committee received testimony in opposition to this measure from Department of Taxation; Hawaiian Electric Company, Inc.; Hawaii PV Coalition; Hawaii Solar Energy Association; Inter-Island Solar Supply; and Tesla. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Kaua'i Island Utility Cooperative; Tax Foundation of Hawaii; Holu Hou Energy; and Ulupono Initiative.

Your Committee finds that the film industry in Hawaii is an important component of a diversified economy and that the motion picture, digital media, and film production income tax credit is an effective means of stimulating the economy and creating quality employment while promoting Hawaii as a premier destination for the both the film industry and visitors. Amending certain criteria for the motion picture, digital media, and film production income tax credit will provide stability and predictable economic incentives for the film industry and individuals employed in the film industry in Hawaii.

Your Committee further finds that smart renewable energy policy is critical to Hawaii's economic growth. Hawaii's renewable tax credit has empowered residents and businesses alike to install rooftop solar which, in turn, has become a large contributor of renewable energy in Hawaii helping it achieve its renewable energy goals. The tax credits are an important part of procuring lower cost energy from commercial developers eligible for the tax credit, which is sorely needed if Hawaii is to reach its one hundred percent renewable energy goals in a cost-effective manner.

Your Committee heard testimony from stakeholders who suggested that the measure could be improved by including amendments to provide incentives in a balanced approach that aligns with the measure's intent. Therefore, your Committee has amended this measure by:

- (1) Removing the provision that allowed qualified productions costing less than \$3,000,000 from receiving a reduction in general excise tax:
- (2) Removing the tax credit for qualified productions costing less than \$3,000,000 to apply to a taxpayer's future state tax liability;
- (3) Clarifying that the publication of the names of qualified productions and the amount of tax credits must be certified per qualified production filing year by the Department of Business, Economic Development, and Tourism;
- (4) Deleting the reduction of the annual aggregate cap on the tax credit to \$45,000,000 from \$50,000,000;
- (5) Changing the sunset date for claiming excess tax credits from December 31, 2025, to December 31, 2026;
- (6) Increasing the cap amount of the renewable energy technologies income tax credit from \$250,000 to \$500,000 for community-based renewable energy projects on commercial property; and
- (7) Changing the taxable year to begin after December 31, 2021.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1174, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1174, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Lee). Noes, none. Excused, 1 (Fevella).

SCRep. 1196 Commerce and Consumer Protection on H.B. No. 961

The purpose and intent of this measure is to:

- Exempt dependents of military servicemembers from state residency requirements for government employment if the military servicemember is in Hawaii on bona fide military orders; and
- (2) Allow a spouse of an active duty servicemember in the military who accompanies the servicemember to a permanent change of station in the State and holds a current, unencumbered license in another jurisdiction in specific professions to apply for Hawaii licensure on an expedited basis.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Human Resources Development, Department of Defense, Chamber of Commerce Hawaii, and five individuals. Your Committee received comments from the United States Department of Defense.

Your Committee finds that recruiting and retaining highly qualified applicants and reducing the number of vacancies for positions across the State has been a challenge. The dependents or spouses of military servicemembers represent an untapped pool of potential applicants. However, under existing law, state employees must sign a declaration within thirty days of their employment start date affirming that they are a resident of the State of Hawaii. Given the nature of military service, it may be in the interests of civilian dependents of military servicemembers to maintain their residency in their "home" state for various reasons. This measure aligns state

law with the Military Spouse Residency Relief Act to allow military spouses to declare the same state or legal residency as their spouse who is in the State on bona fide military orders and will streamline the licensing processes for active duty military spouses.

Your Committee notes that this measure, as currently drafted, contemplates approval for temporary licensure for a number of professions that may require additional and unique qualifications or other licensing requirements specific to Hawaii. Your Committee therefore finds that amendments to this measure are necessary to safeguard public health, safety, and welfare.

Your Committee has amended this measure by:

- Deleting accountants, architects, athlete agents, athletic trainers, engineers, and real estate appraisers from the list of licensees
 entitled to temporary licensure in the State;
- (2) Inserting an effective date of January 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 961, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 961, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Chang).

SCRep. 1197 Energy, Economic Development, and Tourism on H.B. No. 561

The purpose and intent of this measure is to:

- Reinforce the Legislature's intent to reduce the State's reliance on fossil fuels through energy efficiency and increased renewable energy generation by clarifying the Public Utilities Commission's (Commission) obligations and authority under section 269-6, Hawaii Revised Statutes;
- (2) Require the Commission to determine whether analysis of the effect of the State's reliance on fossil fuels is necessary for proceedings involving water, wastewater, or telecommunications providers on an individual basis; and
- (3) Provide that the analysis is not required for an electric or a gas utility's routine system replacements or determinations that do not directly pertain to capital improvements or operations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaii Clean Power Alliance; Hawaiian Electric Company, Inc.; Hawaii Gas; and one individual. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii.

Your Committee finds that it is important to reduce the State's reliance on fossil fuels through energy efficiency and increased renewable energy generation.

Your Committee also finds that existing law requires the Commission to consider the effect of the State's reliance on fossil fuels as to:

- (1) Price volatility;
- (2) Export of funds for fuel imports;
- (3) Fuel supply reliability risk; and
- (4) Greenhouse gas emissions.

Your Committee further finds that the Commission makes determinations on the reasonableness of the costs of utility system capital improvements and operations. However, your Committee also finds that this analysis may not be relevant in certain proceedings for certain providers and, therefore, this analysis should be conducted only when appropriate.

Accordingly, your Committee recognizes that the Commission should:

- (1) Focus its analysis on eliminating the use of fossil fuels for electric or gas utility system capital improvements and operations;
- Conduct its analysis only for matters that involve fossil fuel sourced electricity and gas utility system capital and operations improvements; and
- (3) Not be required to conduct analysis for an electric or gas utility's routine system replacements.

Your Committee notes that this measure requires the Commission to make determinations, on an individual basis, on whether the analysis should also extend to other types of utilities, namely water, wastewater, and telecommunications providers. This measure would also provide the Commission flexibility to better focus its examination efforts on electric or gas utility capital improvements or operations, instead of routine system replacements.

Your Committee heard the testimony of stakeholders who suggested that this measure could be improved by including amendments to clarify this measure's intent. Therefore, your Committee has amended this measure by:

- Specifying that the analysis shall not be required for determinations that do not pertain to capital improvements or operations such as financing requests;
- (2) Adding language to further strengthen and clarify the intent of this measure;

- (3) Clarifying the meaning of the term "routine" in the utility industry; and
- (4) Changing the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 561, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 561, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1198 (Majority) Judiciary on H.B. No. 1377

The purpose and intent of this measure is to:

- (1) Create a five-year electronic citation program; and
- (2) Establish an electronic citation surcharge.

Your Committee received testimony in support of this measure from the Judiciary, Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, Hawai'i Police Department, and Hawai'i Strategic Highway Safety Plan. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the use of paper citation sometimes gives rise to difficulties including supervisors, prosecutors, and judiciary personnel having to decipher handwritten notes that are difficult to read, as well as untimely delivery of citations from law enforcement agencies to the Judiciary. These difficulties have the potential to lead to delays in access to citations and to dismissal of traffic citations. Your Committee further finds that the use of an electronic citation system resolves handwriting legibility issues and eliminates the need to collect and scan paper citations. By establishing an electronic citation program in the State, this measure provides numerous benefits to law enforcement, the Judiciary, and the general public, including the streamlining of processes and increased access to information.

Additionally, your Committee notes that revenue projections from the electronic citation pilot programs in the County of Maui and the City and County of Honolulu indicate that an electronic citation surcharge of \$5 is not necessary, and that a surcharge of \$2 will be self-sustainable.

Accordingly, your Committee has amended this measure by:

- (1) Changing the amount of the electronic citation surcharge from \$5 to \$2;
- (2) Removing inapplicable language requiring that the rules adopted by the Judiciary be pursuant to chapter 91, Hawaii Revised Statutes:
- (3) Removing the sunset date on the electronic citation special fund;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1377, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1377, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 1199 Higher Education on H.B. No. 1067

The purpose and intent of this measure is to repeal the sunset provision in Act 42, Session Laws of Hawaii 2018 (Act 42), which temporarily reinstated and restored full authority to the President of the University of Hawaii (University) to serve as the University's Chief Procurement Officer (CPO) for all procurement contracts under the Hawaii State Procurement Code, set to expire on June 30, 2021.

Your Committee received testimony in support of this measure from the State Procurement Office, University of Hawai'i System, and General Contractors Association of Hawaii. Your Committee received comments on this measure from the Hawaii Construction Alliance.

Your Committee finds that following the unveiling of issues pertaining to the University's procurement process and procedures, Act 87, Session Laws of Hawaii 2013 (Act 87), removed the authority of the University of Hawaii President to serve as the CPO for the University's contracts for construction and construction-related professional services furnished by licensees under chapter 464, Hawaii Revised Statutes (i.e., engineers, architects, surveyors, and landscape architects), and transferred such authority to the Administrator of the State Procurement Office (SPO). Thereafter, the University made significant changes to its procurement policies and procedures which lead the SPO to find, in a report issued in January 2016 pursuant to Act 87, that the University was conducting construction procurements in a "compliant, efficient, and transparent manner." Based on the SPO's report, Act 42, Session Laws of Hawaii 2018 (Act 42), temporarily reinstated and restored full authority to the University of Hawaii President to serve as the University's CPO for all procurement contracts under the Hawaii State Procurement Code, with a trial-period set to expire on June 30, 2021. This measure repeals the sunset provision of Act 42, thereby permanently restoring the full authority of the University of Hawaii President to act as the University's CPO.

Your Committee recognizes that without the repeal or extension of Act 42's sunset provision, the University's procurement procedure will revert to the bifurcated structure employed from 2013 through 2018, wherein a different set of rules and procedures applied for goods and services and for construction-related professional services. Your Committee also notes the concerns raised in testimony regarding the changes that are currently being made to the University's procurement standards.

Accordingly, your Committee has amended this measure by:

- (1) Extending the sunset date for Act 42 by three years until June 30, 2024, instead of repealing the provision; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1067, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1067, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1200 Health on H.B. No. 471

The purpose and intent of this measure is to make permanent the regulation of behavior analysts.

Your Committee received testimony in support of this measure from the Department of Health, Department of Commerce and Consumer Affairs, Department of Education, Hawaii Association for Behavior Analysis, Hawaii State Teachers Association, Hawaii Disability Rights Center, The Council of Autism Service Providers, Together For Our Keiki, and twenty individuals.

Your Committee finds that since the enactment of the behavior analyst licensure law, Act 199, Session Law of Hawaii 2015, and the autism insurance law, Act 235, Session Law of Hawaii 2015, over four hundred eighty behavior analysts have been licensed and over one thousand five hundred registered behavior technicians have been credentialed under their supervision in the State. As a result, several thousand keiki and other individuals have received access to applied behavior analysis services. Your Committee finds that these numbers are continuing to grow to meet the ongoing demand for applied behavior analysis services in the State. This measure makes permanent the regulation of behavior analysts.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 471, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 471, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

SCRep. 1201 Health on H.B. No. 1322

The purpose and intent of this measure is to establish a trauma-informed care task force within the Department of Health to make recommendations regarding trauma-informed care in the State.

Your Committee received testimony in support of this measure from the Department of Health, Department of Human Services, Office of Hawaiian Affairs, Executive Office on Early Learning, Hawai'i Pacific Health, Hawai'i Community Foundation, Hawai'i Primary Care Association, Hawaii Youth Services Network, Early Childhood Action Strategy, Kamehameha Schools, Kinai 'Eha, Hawaii Substance Abuse Coalition, and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that adverse childhood events have harmful effects on health care spending, health care utilization, poorly controlled chronic illness, obesity, substance abuse, smoking, and other risk factors later in life. Your Committee further finds that trauma-informed approaches to health and human service systems of care from other states demonstrate improvements in organizational culture, availability and uptake of evidence-based treatments, use of trauma informed practices, and improvements in staff and caregiver knowledge and attitudes. This measure establishes a trauma-informed care task force within the Department of Health to implement a trauma-informed approach to health and human services in the State.

Your Committee recognizes the testimony of the Department of Health, which recommended extending the amount of time allotted to the Department for submission of its report to the Legislature. Your Committee also recognizes the testimony of the Department of Agriculture, who requested removal from the task force due to a lack of subject matter expertise. Your Committee finds that other members of the task force may also be removed for similar reasons and to facilitate more efficient operations of the task force.

As such, your Committee has amended this measure by:

- (1) Requiring the Department of Health to submit its report to the Legislature no later than twenty days prior to the convening of the regular session of 2024, rather than 2023;
- (2) Extending the task force's sunset date from July 1, 2023, to July 1, 2024;

- (3) Removing from the task force, the Director of Labor and Industrial Relations, Director of Commerce and Consumer Affairs, Chairperson of the Board of Agriculture, Chairperson of the Board of Trustees of the Office of Hawaiian Affairs, President of the Senate, Speaker of the House of Representatives, Mayors of the Counties, and consumer advocates;
- (4) Adding to the task force the Director of Public Safety and a member of the law enforcement community;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1322, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1322, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

SCRep. 1202 (Joint) Health and Human Services on H.B. No. 882

The purpose and intent of this measure is to:

- (1) Require purchasing agencies to make a written determination that the amount of a contracting action for purchases of health and human services is fair and reasonable;
- (2) Amend the selection process and composition of the Procurement Policy Board;
- (3) Amend the circumstances for when treatment services may be purchased and the procedure to purchase such services;
- (4) Increase the small purchase threshold; and
- (5) Repeal the establishment of the Community Council on Purchase of Health and Human Services.

Your Committees received testimony in support of this measure from the State Procurement Office. Your Committees received comments on this measure from Catholic Charities Hawai'i, PHOCUSED, and Hawaii Substance Abuse Coalition.

Your Committees find that the Community Council, established by section 103F-202, Hawaii Revised Statutes, has not met since 2010. Your Committees further find that the Community Council was valuable and necessary when it was established, but since that time, the focus of health and human services procurements has changed. Therefore, it is appropriate to now repeal the establishment of the Community Council.

Your Committees recognizes the testimony of Catholic Charities Hawai'i, which urged that a representative of either the Hawaii Alliance of Nonprofit organizations (HANO) or Protecting Hawaii's Ohana, Children, Under-Served, Elderly & Disabled (PHOCUSED) sit on the Policy Board. Therefore, your Committees have amended this measure by:

- (1) Requiring that a member of either HANO or PHOCUSED, or similar organization, be a member of the policy board; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 882, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 882, H.D. 1, S.D. 1, and be referred to your Committees on Government Operations and Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 1203 Water and Land on H.B. No. 834

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources (DLNR), in collaboration with the County of Hawaii, to conduct site surveys to identify the most suitable locations for black cinder cone quarries on the island of Hawaii;
- (2) Require DLNR, in collaboration with the County of Hawaii, to submit a report of its findings and recommendations to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022; and
- (3) Appropriate an unspecified amount to DLNR for the site survey.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Floriculture and Nursery Association, Hawaii Tropical Flower Council, Orchid Growers of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure facilitates economic recovery, not only on Hawaii island, but also for the local horticulture, floriculture, and landscaping industries. According to testimony received by your Committee, access to nematode-free cinder is essential to these industries as the cost to remove these pests can raise the price of black cinder by three hundred percent. Your Committee notes for your Committee on Ways and Means that the testimony submitted by DLNR recommends an appropriation of at least \$150,000 to cover staff time and the procurement of a geologist, mineralogist, or relevant specialist as a consultant to the site surveys required by this measure.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 834, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1204 Water and Land on H.B. No. 1009

The purpose and intent of this measure is to:

- (1) Amend the additional fines and costs for destroying or harvesting trees or tree products, including koa, on state forest reserves lands:
- (2) Establish penalties for any person who violates vehicular parking or traffic movement rules adopted by the Department of Land and Natural Resources under forest reserves, water development, and zoning laws;
- (3) Authorize the State to pursue civil legal action and criminal action against a person violating forest reserves, water development, and zoning laws and rules;
- (4) Establish criminal penalties for violations of all forest reserves laws or rules; and
- (5) Repeal the general penalty provision for violations of certain forestry and wildlife, recreation areas, and fire protection laws and rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the current value of koa and other forest products, such as Hawaiian sandalwood, far exceeds the current dollar amount of the administrative fine of up to \$10,000 per koa tree and \$2,000 for all other tree or plants destroyed or harvested on state lands. Your Committee further finds that this measure not only streamlines offenses and penalties within statutes regarding forest reserves, but also allows the Department of Land and Natural Resources to more consistently and effectively enforce administrative rules and protect, preserve, and enhance the State's natural resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1009, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1205 (Majority) Judiciary on H.B. No. 170

The purpose and intent of this measure is to amend the offense of theft in the second degree to include theft of property commonly used to store items of monetary value, including but not limited to any purse, handbag, or wallet.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the State's Penal Code does not adequately address situations in which an offender takes the property of another that is commonly used to store items of personal or monetary value, including purses, handbags, or wallets. Under existing law, the prosecution must prove beyond a reasonable doubt that an accused offender intended to steal real property, such as a purse or wallet, valued in excess of \$750 to convict a defendant of theft in the second degree. Commonly, purses and wallets are not valued at more than \$750; however, these items often contain personal information of the victim as well as the victim's family, friends, and acquaintances; sensitive medical and financial information; workplace information; photos; and other personal items of sentimental value that may be irreplaceable. Therefore, theft of a purse or wallet can result in mental and emotional hardship beyond any loss of monetary value. Your Committee finds that inclusion of the theft of purses, handbags, and wallets under the offense of theft in the second degree may deter potential offenders from committing such acts, thereby increasing public safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 170, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 1206 (Majority) Judiciary on H.B. No. 172

The purpose and intent of this measure is to establish the offense of unauthorized control of a propelled vehicle in the second degree.

Your Committee received testimony in support of this measure from the Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that there are a number of statutory provisions enacted to address the high number of vehicle thefts that occur in the State, especially on the island of Oahu. Frequently, a stolen vehicle is recovered during the commission of a crime or after it has been used to commit other crimes. Under existing law, it can be difficult to prove that a defendant operating or occupying a stolen vehicle knew that the vehicle was stolen. This measure establishes the offense of unauthorized detention of a propelled vehicle to place criminal liability on individuals who recklessly or negligently take possession of a vehicle that may be stolen.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 172, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 1207 (Majority) Judiciary on H.B. No. 895

The purpose and intent of this measure is to clarify that defendants may not earn credit on a sentence imposed for a subsequent conviction for time being served on a previous felony conviction.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Public Safety. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that Act 50, Session Laws of Hawaii 2012 (Act 50), was enacted to prevent a defendant from earning credit for time served for a subsequent crime while the defendant is serving a sentence of imprisonment for a separate unrelated offense. However, the Hawaii Supreme Court held in *State v. Abihai*, 146 Haw. 398, 463 P.3d 1055 (2020), that a defendant was still entitled to presentence detention credit under Hawaii law for the period of time the defendant was simultaneously being detained for a separate unrelated felony conviction and a subsequent offense. Your Committee further finds that when Act 50 was being considered by the Legislature, your Committee on Judiciary and Labor noted in Senate Standing Committee Report No. 3188 that the purpose and intent of the measure was "to clarify that a defendant will not earn credit for time served for a subsequent crime while the defendant is serving an imprisonment sentence for a separate, unrelated offense." Accordingly, this measure will clarify the intent of Act 50 by specifying that certain defendants may not earn credit for a sentence imposed for a subsequent conviction if the defendant was simultaneously serving the sentence of imprisonment for a separate unrelated felony conviction.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 895, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, 2 (Gabbard, Keohokalole).

SCRep. 1208 (Majority) Judiciary on H.B. No. 181

The purpose and intent of this measure is to update the definition of "property" as it relates to offenses against property rights under the penal code to expressly include property stored in an electronic medium.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that in the modern digital age, property that is stored on an electronic device has just as much value as property in hard copy form. Your Committee also finds that intellectual property should be protected from property theft in the same manner in which existing law protects real and personal property. This measure amends the definition of property for purposes of offenses against property to expressly include intellectual property and property stored on an electronic device.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 181, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 181, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 1209 (Majority) Judiciary on H.B. No. 338

The purpose and intent of this measure is to require an appellate court to conduct a hearing when a conflict of interest pertaining to a judge or justice is alleged by motion of a party to any suit, action, or proceeding of the appellate court.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that judges are required to be recused from hearing matters for which they have a disqualifying relationship, pecuniary interest, previous judgment, or other perceived bias or prejudice. Your Committee notes that this requirement applies to judges and justices at every level of the court system. Your Committee further finds that at the appellate level, requiring a hearing on a motion to disqualify a justice on an alleged judicial conflict of interest would facilitate a valuable colloquy regarding impartiality, allow a judge or justice the opportunity to rebut any allegation of a disqualifying conflict of interest, and promote transparency within the State's judiciary.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 338, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 338, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 1210 Judiciary on H.B. No. 250

The purpose and intent of this measure is to include as offenses of sexual assault in the second degree and sexual assault in the third degree, offenses against a person who is stopped by a law enforcement officer and a person who is accompanied by a law enforcement officer for official purposes.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that there was an incident in which a Honolulu police officer was indicted for the offense of sexual assault in the third degree for knowingly subjecting a teenage girl in custody to sexual contact. The indictment was based upon the interpretation that a person being stopped by a police officer for a traffic infraction was in "custody". However, the indictment was dismissed with prejudice because the court determined that the term "custody" did not include a traffic stop, for purposes of the offense.

Your Committee further finds that during a traffic stop, the person stopped by the officer is not free to go without permission of the officer, and that their actions during the traffic stop are constrained by legal requirements that, if violated, can subject the person to legal penalties, including possible criminal prosecution. Your Committee additionally finds that it is appropriate and in the public interest to clarify that the offenses of sexual assault in the second degree and sexual assault in the third degree include, and explicitly prohibit, a law enforcement officer from knowingly subjecting to sexual penetration or sexual contact, a person who is being stopped by the officer or accompanied by the officer for official purposes, including during a traffic stop.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 250, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 250, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1211 (Majority) Judiciary on H.B. No. 177

The purpose and intent of this measure is to amend the offenses of sexual assault in the first and third degree perpetrated against a person who is mentally defective to provide that there is a rebuttable presumption that the person assaulted was mentally defective.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that mentally disabled persons need additional protection from sexual predators. Among adults who are developmentally disabled, as many as eighty-three percent of females and thirty-two percent of males are victims of sexual assault. Your Committee further finds that anywhere from fifteen thousand to nineteen thousand people with developmental disabilities are sexually assaulted each year in the United States. Forty percent of people with developmental disabilities who are victims of sexual violence will experience ten or more abusive incidents. Your Committee additionally finds that mentally disabled persons and developmentally disabled persons have limited, if any, capacity to give knowing and willing consent to sexual acts. Although your Committee finds that a need exists to extend protection to mentally disabled persons who have a diminished capacity to consent to sexual acts, the rebuttable presumption that a victim is mentally disabled could present constitutional challenges under the Fifth Amendment to the United States Constitution if a defendant is forced to testify to rebut the presumption.

Accordingly, your Committee has amended this measure by:

- (1) Changing the state of mind element that a victim is mentally defective to negligence; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 177, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 177, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 1212 Judiciary on H.B. No. 490

The purpose and intent of this measure is to:

- (1) Lower the age at which enhanced penalties apply for crimes against seniors from sixty-two years of age to sixty years of age; and
- (2) Make commission of certain criminal offenses against a senior's person or property applicable if the perpetrator knows or reasonably should know the senior victim's age.

Your Committee received testimony in support of this measure from the Department of Human Services, Executive Office on Aging, Adult Protective Community Services, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, Hawai'i Police Department, Macha, and five individuals. Your Committee received comments on this measure from the Office of the Public Defender.

Your Committee finds that the rate of crimes targeting seniors in the State has increased in recent years. Your Committee further finds that the State's senior citizens are especially vulnerable to long-term physical, emotional, and financial harm from criminal acts, and that there is lack of adequate protection against exploitation of senior citizens under existing law. This measure more closely aligns certain Penal Code statutes with common elder abuse scenarios, which will allow law enforcement and prosecutors to appropriately respond.

Your Committee has amended this measure by:

- Clarifying that a person employed or contracted to work by a mutual benefit society receives increased protection if the person
 provides case management services in a hospital, health care provider's office, or home;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 490, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 490, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 1213 Judiciary on H.B. No. 1107

The purpose and intent of this measure is to:

- (1) Add aggravated harassment by stalking to the list of offenses upon which the offense of use of a computer in the commission of a separate crime may be based; and
- (2) Provide the court with the discretion to require the forfeiture of property used in computer crimes if the perpetrator was a minor, regardless of whether the minor owned the property.

Your Committee received testimony in support of this measure from the Honolulu Police Department, LGBT Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Education and Office of Public Defender.

Your Committee finds that bullying, cyberbullying, and harassment are serious issues that hinder student well-being and achievement, especially when the targets are vulnerable youth. Your Committee further finds that although the Department of Education has recently implemented comprehensive efforts to address bullying, cyberbullying, and harassment in public schools, including the adoption of amended administrative rules that, among other things, provide expanded definitions of and complaint procedures for these forms of student misconduct, the transition to online classroom environments as a result of the coronavirus disease 2019 pandemic has exacerbated the problems of bullying, cyberbullying, and harassment of vulnerable youth. This measure will provide further incentive to parents and guardians to better ensure that their minor children refrain from using electronic devices to perpetrate bullying, cyberbullying, and harassment.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1107, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1107, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 1214 Judiciary on H.B. No. 741

The purpose and intent of this measure is to require certain Hawai'i State Ethics Commission records to be retained permanently.

Your Committee received testimony in support of this measure from Common Cause Hawai'i and eleven individuals. Your Committee received comments on this measure from the Hawai'i State Ethics Commission.

Your Committee finds that the maintenance of records by the Hawai'i State Ethics Commission is vital to transparency and integrity in state government. Your Committee further finds that the period of record maintenance should be increased in light of increased capacity for storing digital copies of records. Your Committee additionally finds, however, that maintaining all lobbying records in perpetuity will eventually place an undue burden on the storage capacity of the Hawai'i State Ethics Commission.

Accordingly, your Committee has amended this measure by:

- (1) Changing the retention period to six years;
- (2) Requiring records to be maintained, instead of preserved, for consistency with financial disclosure statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 741, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 741, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1215 Judiciary on H.B. No. 156

The purpose and intent of this measure is to repeal the requirement that the County of Kaua'i contract solely with the Kaua'i Humane Society for the provision of animal control services.

Your Committee received testimony in support of this measure from the Department of Finance of the County of Kaua'i, Animal Rights Hawai'i, and one individual.

Your Committee finds that section 143-16, Hawaii Revised Statutes, requires the County of Kaua'i to contract solely with the Kaua'i Humane Society for animal control services. Your Committee further finds that this requirement has been superseded by the County's ability to offer public contracts to other animal control service providers, and thus is outdated and no longer relevant to the State's needs. Your Committee additionally finds that construction of the animal shelter or "dog pound" authorized by section 143-16, Hawaii Revised Statutes, has been completed, making the provision no longer necessary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 156, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1216 (Majority) Judiciary on H.B. No. 566

The purpose and intent of this measure is to add coercive control between family or household members to the offense of abuse of family or household members as a petty misdemeanor.

Your Committee received testimony in support of this measure from Hawai'i State Coalition Against Domestic Violence, AAUW of Hawai'i, Domestic Violence Action Center, Planned Parenthood Votes Northwest and Hawai'i, Early Childhood Action Strategy, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Office of the Public Defender, Prosecuting Attorney of the City and County of Honolulu, and one individual. Your Committee received comments on this measure from the Honolulu Police Department.

Your Committee finds that abuse between family or household members takes many forms and coercive control is often part of the cycle of domestic violence. Your Committee further finds that coercive control is defined under section 586-1, Hawaii Revised Statutes, in part as "a pattern of threatening, humiliating, or intimidating actions, which may include assaults, or other abuse that is used to harm, punish, or frighten an individual." Your Committee additionally finds that coercive behaviors often carry a threat of violence or are direct precursors to violence.

Your Committee also finds that Act 19, Regular Session of 2020, established a five-year pilot program to strengthen state and county responses to domestic violence and increase offender accountability. Part of this pilot program was the establishment of a petty misdemeanor offense within abuse of a family or household member. Your Committee further finds that the addition of coercive control as a petty misdemeanor offense should be placed within the pilot program established by Act 19, Regular Session of 2020.

Accordingly, your Committee has amended this measure by:

- (1) Including coercive control as part of the petty misdemeanor offense of abuse of a family or household member to the pilot program established by Act 19, Regular Session of 2020; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 566, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 566, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, 1 (Acasio). Excused, 2 (Gabbard, Keohokalole).

SCRep. 1217 (Majority) Judiciary on H.B. No. 1326

The purpose and intent of this measure is to allow a narrow hearsay exception for statements made by domestic violence victims during the course of the first interaction with the responding law enforcement officers and before the arrest of the defendant, as long as the statement bears sufficient indicia of reliability.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Hawai'i Supreme Court Standing Committee on the Hawai'i Rules of Evidence, and one individual.

Your Committee finds that victims of domestic violence are often reluctant to testify in court against their abusers, making prosecution of domestic violence cases difficult. Your Committee further finds that Oregon has adopted a pioneering approach to address certain challenges associated with prosecuting domestic violence cases in which the victims are uncooperative, which provides a limited hearsay exception for a statement made by a victim of domestic violence to a government official within twenty-four hours of a domestic violence attack, even if the statement is testimonial in nature, as long as the statement bears "sufficient indicia of

reliability". Your Committee additionally finds that, although there may be constitutional issues regarding Oregon's hearsay exception, allowing a narrow hearsay exception for statements made by a domestic violence victim during the course of the first interaction with the responding law enforcement officers and before the defendant is arrested, regardless of the availability of the declarant, as long as the statement bears sufficient indicia of reliability strikes a balance between protecting the constitutional rights of defendants while promoting the safety of domestic violence victims.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1326, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1326, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Kim). Noes, 2 (Acasio, Fevella). Excused, 2 (Gabbard, Keohokalole).

SCRep. 1218 Education on H.B. No. 608

The purpose and intent of this measure is to:

- (1) Require the Board of Education to hold no less than six community forums annually, with at least one forum in each county;
- (2) Require the Board of Education to include an open forum for public comments on non-agenda items; and
- (3) Require a report to the Legislature on implementing open forums.

Your Committee received testimony in support of this measure from the League of Women Voters and one individual. Your Committee received comments on this measure from the Board of Education and Office of Information Practices.

Prior to the hearing on this measure, your Committee posted and made available for review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of this measure and also inserted provisions that eliminate the Superintendent of Education as a voting member constituting the public employer for the purpose of negotiating a collective bargaining agreement with personnel of the Department of Education.

Your Committee received testimony in support of the proposed S.D. 1 from one individual. Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of Education and League of Women Voters. Your Committee received comments on the proposed S.D. 1 from the Office of Information Practices.

Your Committee finds that community meetings held by the Board of Education improve the public's access to the Board and allow the public to provide the Board with more information to help with decision-making and priority setting. Greater access to the Board of Education from communities in each county across the State through community forums will allow the Board to hear from more community stakeholders and receive more information before making decisions at a later date. Your Committee further finds that eliminating the vote of the Superintendent of Education for purposes of negotiating collective bargaining agreements for bargaining units (5) and (6) will encourage the Department of Education to work more closely with the Board of Education in developing terms of collective bargaining agreements for those bargaining units.

Your Committee has amended this measure by adopting proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 608, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 608, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1219 Education on H.B. No. 546

The purpose and intent of this measure is to amend the composition of the Early Learning Board to make a representative from Aha Punana Leo a standing member.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Kaulanakilohana, and one individual.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Require complex area superintendents to report directly to the Superintendent of Education;
- (2) Authorize various positions to report directly to complex area superintendents; and
- (3) Make appropriations.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Associations, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that currently, the complex area superintendents report to the Deputy Superintendent of Education. There is concern that the Superintendent of Education does not consistently communicate with or hear all feedback from all the complex area superintendents. This measure will streamline communication between the complex superintendents and the Superintendent of Education.

Your Committee has amended this measure by:

- (1) Adopting the proposed S.D. 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 546, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 546, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1220 Education on H.B. No. 225

The purpose and intent of this measure is to:

- (1) Require the Board of Education to develop a bullying prevention and response action plan;
- (2) Require the Board of Education to report annually to the Legislature; and
- (3) Repeal Act 214, Session Laws of Hawaii 2011.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network, Americans for Democratic Action Hawaii, Hawaii Disability Rights Center, and four individuals. Your Committee received comments on this measure from the Department of Education, Board of Education, and one individual.

Your Committee finds that the Board of Education advocates for safe learning environments that ensure the well-being of students and recognizes bullying as a severe issue. Furthermore, the Department of Education fosters positive and safe learning environments for all students and staff by creating a culture of respect, responsibility, and resiliency and does not tolerate bullying on any of its campuses, transportation, or sponsored events. This measure will serve as a tool for the Board of Education to respond and prevent bullying in public schools.

Your Committee notes that the bullying prevention and response action plan is not just for students but also for Department of Education employees.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 225, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 225, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1221 Human Services on H.B. No. 381

The purpose and intent of this measure is to:

- (1) Codify the administrative rule definition of "assistance animal";
- (2) Clarify the type of verification an individual may provide to substantiate a reasonable accommodation request for a specific assistance animal; and
- (3) Specify that possession of an item or registration documents that are commonly purchased online to identify an animal as a service animal do not constitute valid verification of a disability-related need for an assistance animal.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, Associa Hawaii, Community Associations Institute, Hawaii Association of REALTORS, and one individual. Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that under the federal and state fair housing laws, landlords may allow "assistance animals" in rental properties that otherwise do not allow pets. For landlords seeking to follow the fair housing laws, this can create problems discerning between a legitimate request from a person with a disability and those from persons who simply wish to keep a pet in their rental unit. This measure provides clarification on what information a landlord might reasonably request from an individual to verify the need for an assistance animal

Your Committee also finds that there is no national registry or certification for assistance animals. In the absence of such a system, some pet owners use items or registration documents that are commonly purchased online purporting to identify an animal as a service or assistance animal. This measure clarifies that such items and documents, by themselves, do not establish an animal as a service or assistance animal.

Your Committee has amended this measure by:

- (1) Changing its effective date to November 1, 2021;
- (2) Adding clarification for instances in which the disability-related need is not readily apparent; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 381, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 381, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1222 Higher Education on H.B. No. 389

The purpose and intent of this measure is to require accredited and non-accredited for-profit post-secondary educational institutions that are authorized to award degrees and operate in the State to disclose that they are for-profit businesses on their catalogs, promotional materials, electronic media, signages, and contracts for instruction.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and Hawaii Post-Secondary Education Authorization Program. Your Committee received testimony in opposition to this measure from Hawaii Medical College, International Quantum University for Integrative Medicine Inc. dba Quantum University, University of Phoenix, and one individual. Your Committee received comments on this measure from the Chamber of Commerce of Hawaii.

Your Committee finds that for-profit educational institutions are significantly different from non-profit educational institutions, in that for-profit educational institutions are a business, and many of them are traded on major stock exchanges or owned by private equity firms. As with all owners and shareholder of businesses, the owners and shareholders of for-profit educational institutions expect the institutions to turn a profit, and as with most business entities, programs that do not generate profit will be eliminated. Your Committee further finds that in recent years, numerous for-profit educational institutions have engaged in unfair or deceptive trade practices, including misrepresentations involving accreditation, selectivity, graduation rates, placement rates, transferability of credit, financial aid, veterans' benefits, and licensure requirements. In response, many states, including Hawaii, have initiated enforcement actions to protect students.

Your Committee notes the testimony of the Department of Commerce and Consumer Affairs' (DCCA) Hawaii Post-Secondary Education Authorization Program (HPEAP) stating that it does not receive complaints or otherwise become aware of serious problems associated with degree-granting institutions in Hawaii until it is too late and the institution is in the process of closing. The HPEAP receives complaints pertaining to both accredited and un-accredited institutions, and since HPEAP does not have jurisdiction over non-accredited institutions, it forwards the latter to the DCCA's Office of Consumer Protection. Based on its experience, HPEAP believes that any kind of extra precaution will be helpful to the students. Given the myriad problems associated with for-profit educational institutions, your Committee believes there is a justifiable basis to require them to disclose their for-profit status to prospective students. This measure will enable potential students to be fully aware of a degree-granting institution's for-profit status when pursuing higher education opportunities. Your Committee also notes testimony raising concern that this measure will require the institutions to discard, re-create, and re-print all of their existing printed materials and signage.

Your Committee has amended this measure by:

- (1) Requiring the disclosures to be made on the for-profit degree-granting institution's official website, promotional digital and print media created on or after the enactment of this measure, and contracts for instruction; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 389, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 389, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1223 Government Operations on H.B. No. 573

The purpose and intent of this measure is to:

- (1) Require the Joint Legislative Budget Committee, under certain circumstances, to convene and make recommendations to the Legislature regarding federal funds;
- (2) Provide the Legislature with the opportunity to convene in Special Session in accordance with the Hawaii State Constitution to act on the recommendations or, if the Legislature does not convene in Special Session, otherwise authorize the Governor to expend federal funds pursuant to the Governor's emergency powers; and
- (3) Appropriate federal funds for the coronavirus disease 2019 (COVID-19) response; provided that funding of certain programs be paid for from a county's share of federal funds.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance, Hawaii Emergency Management Agency, and one member of the Maui County Council. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that under existing law, there is no process to appropriate federal relief funds received by the State during a state of emergency when the Legislature is not in session. Although your Committee believes that it is imperative to have a process in place to ensure that crucial services are available to support and protect the residents and visitors of the State, your Committee recognizes that appropriations can be restrictive and difficult to implement during times of emergency, when needs and requirements are changing rapidly.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to establish a Joint Legislative Emergency Response and Recovery Committee that can address budgetary matters and other matters relating to the emergency response and recovery of the State;
- (2) Amending language relating to federal funds during a state of emergency to give the Joint Legislative Emergency Response and Recovery Committee and Legislature broad discretion to convene;
- (3) Deleting part II, which would have appropriated federal funds from the American Rescue Plan Act of 2021 for COVID-19 response pursuant to Public Law 117-2; provided that the funding of certain programs be paid for from a county's share of federal funds; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 573, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 573, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1224 (Joint) Government Operations and Commerce and Consumer Protection on H.B. No. 424

The purpose and intent of this measure is to require all agencies of the State, when renting a vehicle to conduct official government business, to adopt a preference for renting electric vehicles or hybrid vehicles.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, County of Kaua'i Office of Economic Development, Hawaiian Electric Company, Climate Protectors Hawaii, Kauai Climate Action Coalition, Enterprise Holdings, Environmental Justice Task Force of Faith Action for Community Equity, Our Revolution Hawaii, 350.org, and nine individuals.

Your Committees find that to meet the State's goal of one hundred percent renewable energy by 2045, it is essential to reduce carbon emissions by beginning the conversion of the State's motor pools to zero-emission vehicles (ZEVs) as soon as practicable. This measure encourages and incentivizes the demand for electric and hybrid vehicle rentals for government use and provides rental car contractors with a guaranteed market, which they can also use to test visitor demand. According to testimony received by your Committees, increased use of electric and hybrid vehicles in Hawaii may also facilitate the rollout of needed infrastructure to support ZEVs, such as electric vehicle charging stations, in the State.

Your Committees have amended this measure by:

- (1) Requiring agencies to exercise the policy preference for renting electric vehicles or hybrid vehicles when the rental rate for the electric vehicle or hybrid vehicle is comparable to that of a conventional vehicle of similar class; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 424, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 424, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 5. Noes, none. Excused, none. Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1225 (Joint) Energy, Economic Development, and Tourism and Transportation on H.B. No. 552

The purpose and intent of this measure is to:

- Require that the procurement policy for each agency purchasing or leasing medium- and heavy-duty motor vehicles shall be to seek vehicles that reduce dependence on petroleum-based fuels that meet the needs of the agency, where feasible and costeffective;
- (2) Establish clean ground transportation goals for state agencies on a staggered basis until achieving a complete inventory of clean state-owned, light-duty motor vehicles by December 31, 2035; and
- (3) Require state and county agencies to purchase building materials that reduce the carbon footprint of the project for use on the construction of new roads, where feasible and cost-effective.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, Hawaiian Electric, SanHi Government Strategies, Hawaii Electric Vehicle Association, Big Island Electric Vehicle Association, Kauai Electric Vehicle Association, Pacific Biodiesel Technologies, Sustainable Energy Hawai'i, Ulupono Initiative, Blue Planet, Sierra Club of Hawai'i, Environmental Caucus of The Democratic Party of Hawai'i, Hawaii Automobile Dealers' Association, Climate

Protectors Hawaii, and eight individuals. Your Committees received comments on this measure from the State Procurement Office, Hawaii Petroleum Marketers Association, 350Hawaii, and one individual.

Your Committees find that it is vital that the State begin transitioning away from imported fossil fuel-power ground transportation and toward a cleaner and more efficient transportation system powered by renewable, local energy sources.

Your Committees further find that an effective way to combat the State's reliance on imported fossil fuels is to transition to the use of electric vehicles, which are less expensive to operate on a per-mile basis than their gas-powered counterparts. This measure ensures that the State is progressing toward its goal of one hundred percent clean energy ground transportation by 2035.

Your Committees have amended this measure by:

- (1) Removing the requirement that the Department of Transportation and the Hawaii State Energy Office to develop strategies to transition all light-duty motor vehicles in the State to meet the clean ground transportation goals;
- (2) Removing the requirements that state and county agencies purchase building materials that reduce the carbon footprint of the project for use on the construction of new roads, where feasible and cost-effective;
- (3) Updating the priority list for selecting vehicles for lease or purchase to include vehicles that are one hundred percent biodiesel fueled, as fifth on the priority list for vehicle selection;
- (4) Adjusting the clean ground transportation goals for state agencies on a staggered basis, with forty percent of its fleet of light-duty motor vehicles powered by renewal sources by December 31, 2025, and one hundred percent of its fleet powered by renewable sources by December 31, 2030;
- (5) Requiring the Hawaii State Energy Office to lead the efforts to incorporate energy efficiency, renewable energy, energy resiliency, and clean transportation to reduce costs and achieve clean energy goals across all public facilities;
- (6) Requiring that all new light-duty passenger vehicles purchased for the state's fleet are zero emission vehicles and that the comptroller may authorize an exemption for new fleet vehicle procurements if the zero emission vehicles are cost-prohibitive on a lifecycle basis or unsuitable for the vehicle's planned purpose;
- (7) Requiring that the vehicle selection criteria include one hundred percent biodiesel fueled vehicles, and electric vehicles and fuel cell vehicles using one hundred percent renewable hydrogen are among the priorities for vehicles selected;
- (8) Allowing state and county agencies to include trees and plants with lifespans longer than twenty years as a part of capitol improvement projects;
- (9) Adding the term "green infrastructure" as a new definition;
- (10) Updating the definitions of "capital investment costs" and "construction costs"; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 552, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 552, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

SCRep. 1226 (Joint) Education and Housing on H.B. No. 525

The purpose and intent of this measure is to:

- (1) Clarify that the Department of Education may construct housing for teachers on a public school campus; and
- (2) Require that housing units constructed or acquired on a school campus after June 30, 2021, be rented at an affordable cost to new teachers or teachers teaching in a rural or hard-to-staff location, with priority given to teachers employed full-time at the school where the housing unit is located.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Association of REALTORS, General Contractors Association of Hawaii, St. Michael the Archangel Parish, and two individuals. Your Committee received comments on this measure from the Hawaii Government Employees Association, AFSCME, AFL-CIO.

Your Committees find that Hawaii continues to suffer from a shortage of licensed teachers. Financial incentives and affordable options for teacher housing are key strategies for the recruitment and retention of teachers, particularly given that Hawaii's teacher salaries continue to trail the nation when adjusted for cost of living. Housing in Hawaii is a big portion of each teacher's paycheck. This measure will enable the building of more affordable teacher housing, which will assist teachers in attaining sustainable and stable residency and make the teaching profession more attractive to teachers in Hawaii.

Your Committees have amended this measure by:

(1) Directing the Department of Education to partner with the Hawaii Public Housing Authority, Hawaii Housing Finance and Development Corporation, and the School Facilities Agency in the construction of teacher housing facilities on school campuses;

- (2) Clarifying that the rental units should be rented at an affordable rate comparable to existing teacher housing;
- (3) Excluding teachers that own other residential real estate from renting units at the teacher housing facility; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 525, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 525, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella). Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1227 (Joint/Majority) Housing and Water and Land on H.B. No. 1311

The purpose and intent of this measure is to:

- (1) Remove the construction completion deadline for the Leialii affordable housing project and Keawe Street apartments; and
- (2) Allow the Hawaii Housing Finance and Development Corporation to address chapter 6E, Hawaii Revised Statutes, relating to history preservation, when funding is appropriated for each portion of the Leialii affordable housing project.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Department of Land and Natural Resources, Office of the Mayor of Maui County, one member of the Maui County Council, and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs and Kūpuna for the Moʻopuna.

Your Committees find that there is a severe shortage of affordable rental housing in the county of Maui, particularly in the western part of the island. To remedy this problem, the Legislature appropriated funds to expedite and complete the Leialii affordable housing and the Keawe Street apartments housing projects, with the mandate that the projects be completed by 2022. However, in 2020 the State Historic Preservation Division of the Department of Land and Natural Resources notified the Hawaii Housing Finance and Development Corporation that it would require a new archaeological inventory survey for the entire Leialii and Keawe Street projects. Despite discussions between the Hawaii Housing Finance and Development Corporation, the State Historical Preservation Division, and the Office of the Governor, no agreement could be reached, and a new archaeological inventory survey must be performed. In light of this new requirement, your Committees find the 2022 completion deadline imposed by the Legislature cannot be met. This measure will extend the deadline imposed by the Legislature and allow the housing projects to go forward to provide much-needed homes for Maui residents.

Your Committees have amended this measure by:

- (1) Eliminating the provision stating that Leialii affordable housing project shall comply with chapter 6E, Hawaii Revised Statutes, relating to historic preservation, as the existing phased review process by the State Historic Preservation Division is more appropriate;
- (2) Inserting language from the companion to this measure, S.B. No. 607, S.D. 3, which was previously passed by the Senate, clarifying that the developer of the Keawe Street apartments housing project shall be responsible for all costs associated with the archaeological inventory survey for the footprint of their portion of the project but not for the costs of the survey for the entire master planned community; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1311, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1311, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4; Ayes with Reservations (Moriwaki). Noes, 1 (Fevella). Excused, none. Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 1228 (Joint) Water and Land and Housing on H.B. No. 77

The purpose and intent of this measure is to exempt the sale of the leased fee interest in certain affordable leasehold developments by the Hawaii Housing Finance and Development Corporation from legislative approval.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received testimony in opposition of this measure from Kūpuna for the Moʻopuna. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that the State is experiencing a severe shortage of affordable housing. Your Committees further find that the exemption from the definition of "public lands" proposed by this measure will streamline the development of affordable housing on state land by reducing the number of approvals required from the Department of Land and Natural Resources as affordable housing projects move forward from set-aside to leasing, entitlement, financing, and development phases.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 77, H.D. 1, as amended herein, and recommend that it

pass Second Reading in the form attached hereto as H.B. No. 77, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Housing: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1229 Water and Land on H.B. No. 244

The purpose and intent of this measure is to:

- (1) Clarify the data requirements for land recordation by the Bureau of Conveyances on land other than fee simple time share interests deregistered by the Land Court; and
- (2) Require landowners who voluntarily deregister their property to include a plan of the parcel or parcels sought to be deregistered that includes a map and description prepared by a licensed professional surveyor to the Bureau of Conveyances.

Your Committee received testimony in support of this measure from nine individuals.

Your Committee finds that existing Land Court deregistration laws do not ensure that owners who voluntarily deregister their property from the Land Court registration system have a proper map and legal description of their land. This measure seeks to amend existing land deregistration laws to ensure that deregistered lands have the proper documentation describing their original land titles, encumbrances, and rights that is expected of every other piece of land not registered in the Land Court.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 244, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1230 (Majority) Water and Land on H.B. No. 497

The purpose and intent of this measure is to prohibit the counties from requiring, as part of a county zoning ordinance or county rule, a developer with more than one residential unit to obtain the approval of any state agency unless that approval is expressly required by law.

Your Committee received testimony in support of this measure from the Hawaii Operating Engineers Industry Stabilization Fund, HPM Building Supply, and four individuals. Your Committee received testimony in opposition of this measure from the Office of Hawaiian Affairs, Sierra Club of Hawaiii, and one individual. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that it is in the public interest to address the economic downturn caused by the coronavirus disease 2019 pandemic. According to testimony received by your Committee, this measure will streamline the permitting and regulatory process between the counties and various state agencies and thereby reduce the cost of housing for the State's residents.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 497, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 497, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Riviere, Fevella). Excused, none.

SCRep. 1231 (Joint/Majority) Water and Land and Housing on H.B. No. 902

The purpose and intent of this measure is to:

- Exempt lands set aside by the Governor to the Hawaii Housing Finance and Development Corporation (HHFDC) and lands leased to HHFDC by any state department or agency, from classification as public lands subject to Department of Land and Natural Resources management;
- (2) Require the land to be subject to legislative approval prior to the sale or gift of those lands; and
- (3) Require state department or agency lands leased or set aside to HHFDC that are no longer needed for housing, finance, or development, to be returned to the state department or agency that leased or approved the set aside of the lands to HHFDC.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and Stanford Carr Development, LLC. Your Committees received testimony in opposition of this measure from the Office of Hawaiian Affairs, one member of the Maui County Council, Ka Lāhui Hawai'i Kōmike Kalai'āina, Kūpuna for the Moʻopuna, Kanaeokana Kula Hawai'i Network, Native Hawaiian Legal Corporation, Na Kupuna Moku O Keawe, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Council for Native Hawaiian Advancement, and sixty-one individuals.

Your Committees find that the State is experiencing a severe shortage of affordable housing. According to testimony received by your Committees, only lands to which HHFDC currently holds title in its corporate capacity are excluded from the definition of "public lands". Your Committees further find that the exemption from the definition of "public lands" proposed by this measure will streamline the development of affordable housing on state land by reducing the number of approvals required from the Department of Land and Natural Resources as affordable housing projects move forward from set-aside to leasing, entitlement, financing, and development phases.

Your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 902, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 902, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

Housing: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Fevella). Excused, none.

SCRep. 1232 Water and Land on H.B. No. 1017

The purpose and intent of this measure is to repeal section 188-58.5, Hawaii Revised Statutes, which prohibits the taking, killing, and possession of female spiny lobsters, Kona crabs, and Samoan crabs to allow the Department of Land and Natural Resources (DLNR) to regulate the taking, killing, and possession of these animals through administrative rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and one individual.

Your Committee finds that DLNR currently regulates the taking of spiny lobsters, Kona crabs, and Samoan crabs through administrative rules. According to testimony received by your Committee, the existing statutory prohibition on the taking or killing of these female crustaceans may create a sex ratio and size imbalance of these new species, thusly inhibiting successful reproduction. Your Committee further finds that repealing section 188-58.5, Hawaii Revised Statutes, would remove any limits on DLNR's ability to effectively manage the spiny lobster, Kona crab, and Samoan crab populations in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1017, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1017, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1233 Water and Land on H.B. No. 1019

The purpose and intent of this measure is to:

- Establish a five-year Ocean Stewardship Special Fund for the collection and use of monies for the conservation, restoration, and enhancement of the State's marine resources; and
- (2) Authorize the Department of Land and Natural Resources (DLNR) to collect fees for the use and enjoyment of the State's ocean resources.

Your Committee received testimony in support of the measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Kuaʻāina Ulu ʻAuamo, Hawaii Reef and Ocean Coalition, The Nature Conservancy, Ocean Tourism Coalition, and Mālama Pūpūkea-Waimea. Your Committee received comments on the measure from the Pacific Whale Foundation.

Your Committee finds that DLNR needs additional revenue to ensure the health of our nearshore marine ecosystems for present and future generations. According to testimony received by your Committee, if the ocean stewardship user fee is set at a fixed \$1 rate, even with SARS-CoV-2 virus impacts, the State is estimated to generate a net present value of \$14.4 million over a fifteen-year time horizon. Your Committee notes that although this measure repeals the Ocean Stewardship Special Fund on June 30, 2026, the fees, revenues, and other monies to be deposited into the fund are not repealed nor diverted. Your Committee further notes that with the delayed collection of the ocean stewardship user fee, DLNR would have under three years to use the monies collected, thus obstructing its ability to engage in long-term planning for ocean stewardship projects.

Accordingly, your Committee has amended this measure by:

- (1) Extending the sunset date of the Ocean Stewardship Special Fund from June 30, 2026, to June 30, 2030;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1019, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1019, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1234 Water and Land on H.B. No. 119

The purpose and intent of this measure is to update Act 43, Session Laws of Hawaii 2019, which issues special purpose revenue bonds (SPRB) for the financing, acquisition, remediation, construction and development of the old Kekaha Sugar Mill in Kekaha, Kauai, by:

- (1) Replacing E Ola Mau Na Leo O Kekaha with Kaunalewa as the entity to be assisted by the issuance of the SPRBs; and
- (2) Amending the various industrial services to be realized by Kaunalewa through the acquisition, remediation, and development of the old Kekaha Sugar Mill.

Your Committee received testimony in support of this measure from Kaunalewa, the Mayor of Kaua'i, four members of the Kaua'i County Council, County of Kaua'i Department of Planning, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will allow for the preservation of the old Kekaha Sugar Mill, an historic cultural site, and will assist the creation and development of diverse economic drivers on the west side of Kauai, including supply chain facilities, a community marketplace, workforce development center, and hub for product creation and incubation. Your Committee notes that Kaunalewa applied for the federal Brownfield Community-Wide Assessment Grant for environmental remediation in October 2020 and expects to receive a response from the Environmental Protection Agency in July or August of this year.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 119, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 119, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1235 Water and Land on H.B. No. 498

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use in-lieu fee mitigation to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation prospectively or for past damages.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Reef and Ocean Coalition.

Your Committee finds that natural resource agencies, such as the Department of Land and Natural Resources, prefer compensatory mitigation mechanisms such as in-lieu fee mitigation because in-lieu fee sponsors are often entities with more experience, scientific expertise, and vested long-term interest in natural resource conservation. According to testimony received by your Committee, Hawaii intends to be the first state in the nation to establish in-lieu fee mitigation for coral reefs. Your Committee further finds that this measure would provide the Department of Land and Natural Resources with another innovative mechanism to improve state stewardship of aquatic public trust habitats and resources, increase accountability for aquatic resource damage, and provide a higher quality of restitution for the damaged resources.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 498, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 498, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1236 (Majority) Water and Land on H.B. No. 502

The purpose and intent of this measure is to authorize the counties to allow dwellings on each quarter acre, rather than half-acre, of lands in rural districts; provided that the dwellings are consistent with the county general plan and community development plans.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii faces numerous affordable housing challenges, including land and infrastructure costs, funding, and regulation and permitting. According to the Department of Business, Economic Development, and Tourism's 2019 report on Housing Demand in Hawaii, the State needs up to 46,000 housing units to meet anticipated demand by 2030. This measure represents a creative approach to address Hawaii's housing supply crisis.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 502, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 502, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Riviere). Excused, none.

SCRep. 1237 Water and Land on H.B. No. 663

The purpose and intent of this measure is to amend how members are appointed to the Game Management Advisory Commission to require the appointment of members by the Governor from lists of nine names each submitted by the President of the Senate and the Speaker of the House of Representatives.

Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the Game Management Advisory Commission presents an opportunity for stakeholders with varying knowledge, experience, and leadership on subsistence and recreational hunting to advise the Board of Land and Natural Resources in conserving and managing game resources in the State. This measure would provide the Legislature with a broader level of involvement in shaping the membership and priorities of the Game Management Advisory Commission.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 663, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 663, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1238 Water and Land on H.B. No. 863

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the forest stewardship program of the Department of Land and Natural Resources to build and expand facilities of the state tree nurseries.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, 350.org, Climate Protectors Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Tree's for Honolulu's Future, Hawai'i Forest Industry Association, and one individual.

Your Committee finds that the strategic planting of trees in agricultural landscapes may increase crop yield, improve soil quality, provide habitat for wildlife, and provide a variety of other benefits. Your Committee further finds that there is a need to repair, update, and expand the infrastructure of the State's tree nurseries so that the Division of Forestry and Wildlife of the Department of Land and Natural Resources can provide high quality native, endangered, and windbreak trees and plants for the public and its reforestation projects.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 863, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 863, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1239 Water and Land on H.B. No. 1018

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to adopt rules for a lay net permit for the use or possession of lay nets, including reasonable fees and provisions to address noncompliance with lay net rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Malama Pupukea-Waimea, The Nature Conservancy, For the Fishes, and one individual.

Your Committee finds that the Department of Land and Natural Resources (DLNR) regulates lay net fishing through detailed restrictions on net dimensions, mesh size, soak time, time of day, frequency between sets, location, water depth, and inspection requirements. Your Committee further finds that all lay nets are required to be registered with DLNR and marked with identification tags and surface buoys. However, your Committee also finds that despite these detailed administrative rules, which are intended to ensure responsible use of lay nets, irresponsible use of lay nets continues with adverse impacts to fishery resources and protected species. This measure would enhance DLNR's ability to enforce lay net rules by allowing DLNR to revoke, suspend, or withhold a permit for non-compliance.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1018, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1240 Water and Land on H.B. No. 1020

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to temporarily adopt, amend, and repeal certain natural resource rules by formal board action at a publicly noticed meeting if the Board finds that the adoption, amendment, or repeal is necessary to implement effective and adaptive management measures in response to rapidly changing resource conditions

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Hawaiian Affairs; Kuaʻāina Ulu 'Auamo; Malama Pupukea-Waimea; Hawaiʻi Fishermen's Alliance for Conservation and Tradition, Inc.; and For the Fishes. Your Committee received testimony in opposition of this measure from one individual.

Your Committee finds that the intent of this measure is to enable the Board of Land and Natural Resources to adapt management polices and practices to address emergent natural resources issues, while providing the opportunity for public review and input. According to testimony received by your Committee, the adaptive management framework is a powerful tool, not only because of its flexibility, but also because it allows state management efforts to better incorporate the intimate knowledge and experience of those who are observing and connecting with the State's aquatic and terrestrial wildlife resources on a daily basis.

Your Committee has amended this measure by:

- (1) Requiring approval from the Legislature and the Board of Land and Natural Resources prior to the continued adoption, amendment, or repeal of certain natural resource rules;
- (2) Requiring the Department of Land and Natural Resources to submit a report, regarding its actions and findings on the temporary adoption, amendment, and repeal of certain natural resource rules through formal action at a publicly noticed meeting over the past two years, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1020, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1020, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1241 Water and Land on H.B. No. 1021

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into the Interstate Wildlife Violator Compact or a similar agreement for mutual assistance in the enforcement of wildlife laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Reef and Ocean Coalition, The Humane Society of the United States, Hawaiian Human Society, Animal Rights Hawai'i, Friends of Hanauma Bay, For the Fishes, Congressional Sportsmen's Foundation, and one individual.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulation across state lines. According to testimony received by your Committee, forty-eight states have passed legislation necessary to join the Interstate Wildlife Violator Compact, whereby persons who have had their licenses revoked in one state are prohibited from engaging in those licensed activities in another state that is part of the compact agreement. Currently, Hawaii is not a member of the Interstate Wildlife Violator Compact. Your Committee further finds that this measure would enhance Hawaii's ability to protect and manage wildlife resources for the benefit of all residents and visitors.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1021, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1021, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1242 (Majority) Water and Land on H.B. No. 1022

The purpose and intent of this measure is to allow the Division of Conservation and Resources Enforcement officers, upon reasonable belief that a person is or was recently engaged in hunting or fishing, to briefly detain that person as necessary, to review any relevant licenses, permits or related documents to allow conduct of the activity, and to inspect the wildlife or aquatic life in that person's possession.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Kuaʻāina Ulu 'Auamo, Hawaii Reef and Ocean Coalition, For the Fishes, The Nature Conservancy, Surfrider

Foundation O'ahu Chapter, Mālama Pūpūkea-Waimea, and three individuals. Your Committee received testimony in opposition of this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that although consent to inspection is a condition for granting a game mammal hunting license in public hunting areas, because unlicensed hunters have not given prior consent to inspection, voluntary compliance must be given to inspect their bags for any illegal taking of wildlife, game, or other natural resources. Your Committee further finds that there is no consent to inspection requirement for non-commercial marine fishing licenses. By lowering the standard for these inspections from upon probable cause to upon reasonable belief, this measure will provide Department of Land and Natural Resources (DLNR) with adequate authority to conduct field inspections for compliance with rules and regulations concerning the taking of natural and cultural resources. Your Committee also finds that this measure clarifies the general conditions under which these inspections would occur. According to testimony received by your Committee, not only is the context, manner, and scope of this administration measure meant to be limited to a civil prosecution and penalty, but its enforcement is limited to its use by DLNR's Conservation and Resources Enforcement Officers in situations related to hunting and fishing activities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1022, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1022, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 1243 Water and Land on H.B. No. 1023

The purpose and intent of this measure is to:

- (1) Establish a nonresident recreational marine fishing license requirement and fees to enable the Department of Land and Natural Resources (DLNR) to manage the marine fisheries resources of the State more effectively; and
- (2) Require DLNR to adopt rules to implement this license.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Reef and Ocean Coalition, and two individuals. Your Committee received comments on this measure from For the Fishes.

Your Committee finds that nonresident recreational fishers directly benefit from enjoyment of Hawaii's marine fishery resources without directly contributing to management of those resources. This measure establishes a nonresident recreational marine license and associated fees to provide DLNR with an additional source of revenue to manage the marine resources of the State more effectively.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1023, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1023, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1244 Water and Land on H.B. No. 1028

The purpose and intent of this measure is to repeal section 171-8.5, Hawaii Revised Statutes, establishing the Koke'e State Park Advisory Council.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the implementation of the Kōke'e/Waimea Canyon Final Master Plan can take years, if not decades, and requires consultation and community collaboration to have a successful outcome. However, for a variety of reasons, the Kōke'e Advisory Council has not been populated with necessary members. Community advisory groups and other organizations are more flexible than legislatively appointed groups and are equally able to develop long-term relationships with the Division of State Parks. Therefore, this measure repeals the statutory establishment of the Kōke'e State Park Advisory Council.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1028, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1245 Water and Land on H.B. No. 1029

The purpose and intent of this measure is to repeal Act 15, Special Session Laws of Hawaii 2009, establishing living park planning councils.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that Act 15, Special Session Laws of Hawaii 2009, in part, establishes a living park planning council to develop a master plan for each state living park that will provide the framework, proposed rules, measurements for success, and planning process to ensure that the living park achieves its purpose and goals. According to testimony received by your Committee, Act 15 applied specifically to Ahupua'a 'O Kahana State Park, the only intact ahupua'a under the ownership of the State other than the owners of Niihau. However, after ten years, over eighty meetings, and the retention of a private planning contractor, there has been no rours made on the Ahupua'a 'O Kahana State master plan and there has been no further discussion to establish a master plan nor to convene the living park planning council. Your Committee believes that the living park planning council structure has not proven to be productive for the Ahupua'a 'O Kahana State Park and therefore Act 15, Special Session Laws of Hawaii 2009, should be repealed.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1029, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1246 Water and Land on H.B. No. 1030

The purpose and intent of this measure is to:

- (1) Repeal the Aquatic Life and Wildlife Advisory Committees under section 197-4, Hawaii Revised Statutes; and
- (2) Make conforming amendments to sections 197-1 and 197-2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the repeal of Aquatic Life and Wildlife Advisory Committees would reduce the size of the Animal Species Advisory Committee. According to testimony received by your Committee, there is sufficient representation on the Animal Species Advisory Commission to carry out its duties without the four chairpersons of the county Aquatic Life and Wildlife Advisory Committees as members. Your Committee also notes that the Department of Land and Natural Resources can administratively convene similar advisory committees on aquatic life and wildlife when necessary.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1030, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1030, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1247 (Majority) Water and Land on H.B. No. 1031

The purpose and intent of this measure is to reduce the number of members who serve on the Hawaii Historic Places Review Board (HHPRB) from ten to seven members.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition of this measure from the Historic Hawai'i Foundation and one individual.

Your Committee finds that HHPRB currently has two vacancies and that the terms of two of its members will reach the end of their second term, and be ineligible for reappointment, in a few months. According to testimony received by your Committee, HHPRB has consisted of all ten members for approximately twelve months over the past seven years, and recruitment onto the HHPRB continues to be difficult. Your Committee further finds that this measure does not alter the professional qualification requirements necessary under the National Historic Preservation Act. The reduction in members as proposed in this measure would ease problems in recruitment and reduce the inability to meet and conduct business due to a lack of quorum.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1031, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 1248 Water and Land on H.B. No. 1130

The purpose and intent of this measure is to:

- Require the Office of Planning to hire a contractor to, among other things, identify and assess alternative financing, project delivery, and cost recovery mechanisms to recapture the State's upfront investment in transit-oriented development (TOD) infrastructure;
- (2) Require the contractor to consult with representatives of certain governmental entities in conducting the study;

- (3) Require the Office of Planning to report to the Legislature on its findings and recommendations; and
- (4) Authorize the issuance of general obligation bonds.

Your Committee received testimony in support of this measure from the Office of Planning; Hawaii Interagency Council for Transit-Oriented Development; and Stanford Carr Development, LLC.

Your Committee finds that this measure is intended to facilitate the realization of transit-oriented development in compact, mixeduse communities in Hawaii. According to testimony received by your Committee, infrastructure deficits are one of the biggest barriers to achieving transit-oriented development statewide. This measure provides the greater analysis needed to determine and refine appropriate methods for financing and investing in TOD-serving infrastructure necessary in the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Director of the Office of Planning is to be consulted with in conducting the study;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1130, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1130, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1249 Water and Land on H.B. No. 1276

The purpose and intent of this measure is to:

- (1) Authorize the Board of Land and Natural Resources to adopt, amend, and repeal administrative fee schedules for the Division of State Parks within the Department of Land and Natural Resources (DLNR) by formal board action at a publicly noticed meeting rather than through administrative rulemaking; and
- (2) Make an appropriation from the State Parks Special Fund for the administration of the state parks program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hui Maka'āinana o Makana, and one individual.

Your Committee finds that adaptive management strategies, such as dynamic pricing, have become the standard in many places and travel-related industries. This measure would allow DLNR to replace its rigid pricing models with flexible fee schedules, allowing seasonal fee adjustments to be made without constantly undergoing a cumbersome administrative approval process pursuant to Chapter 91, Hawaii Revised Statutes. According to testimony received by your Committee, DLNR will consult with the Small Business Regulatory Review Board before implementing fees that would affect small businesses.

Your Committee has amended this measure by:

- Clarifying that the Board of Land and Natural Resources has broad discretion to adopt, amend, or repeal administrative fee schedules for all state park user fees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1276, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1276, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1250 Water and Land on H.B. No. 1280

The purpose and intent of this measure is to transfer operational authority over the Makai Research Pier (Pier) located at the southeast corner of Oahu, from the University of Hawaii to the Natural Energy Laboratory of Hawaii Authority (NELHA), and authorize general obligation bonds and appropriate funds to repair and upgrade the Pier.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai's System; Natural Energy Laboratory of Hawaii Authority; and Makai Ocean Engineering, Inc.

Your Committee finds that the Pier enables local ocean technology companies to create high-paying, highly skilled professional jobs and to expand and diversify Hawaii's economy. According to testimony received by your Committee, this measure would not only allow the Pier to remain operational, but also allow its tenants to continue to compete and win against mainland peers in the award of high-quality federal research and development projects.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1280, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1280, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1251 (Joint) Water and Land and Government Operations on H.B. No. 1149

The purpose and intent of this measure is to reorganize and integrate the Land Use Commission (LUC) within a modified Office of Planning (OP), to be renamed the Office of Planning and Sustainable Development.

Your Committees received testimony in support of this measure from the Land Use Commission and Office of Planning. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the intent of this measure is to streamline government and how it handles land use and planning matters by consolidating the various governmental land use and environmental policy functions of different agencies into one new structure with a focus on sustainable development under a modified Office of Planning. Your Committees note that the original version of this measure was introduced in conjunction with H.B. No. 1318, Regular Session of 2021, which would have integrated the Office of Environmental Quality into the Office of Planning and Sustainable Development created by this measure and created an Environmental Advisory Council to serve as a liaison between the Office of Planning and the general public regarding matters of ecology and environmental quality.

Although your Committees support government efficiency, your Committees received testimony stating that there may be serious concerns and potential legal ramifications in reorganizing existing state entities of various organizational units into the Office of Planning through statute rather than through executive order or administrative rules.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that:
 - (A) Established the Office of Planning and Sustainable Development;
 - (B) Reclassified the Coastal Zone Management Program into a division;
 - (C) Reclassified the Statewide Sustainability Branch into a division;
 - (D) Required OP to act as the lead agency to coordinate climate adaptation and sustainability plans and studies;
 - (E) Allowed the Director of OP to employ staff without regard to chapter 76, Hawaii Revised Statutes;
 - (F) Required OP to also submit its five-year boundary review of the districts to the Governor, Legislature, and appropriate state and county agencies; and
 - (G) Required the LUC to have a separate reporting structure from the Land Use Division in OP;
- (2) Clarifying language regarding the Department of Business, Economic Development, and Tourism's jurisdiction over state planning under chapter 225M and the Hawaii State Planning Act under chapter 226;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1149, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1149, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none. Government Operations: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1252 (Joint/Majority) Water and Land and Agriculture and Environment on H.B. No. 469

The purpose and intent of this measure is to establish a mechanism for the transfer of certain non-agricultural park lands from the Department of Land and Natural Resources (DLNR) to the Department of Agriculture (DOA) pursuant to chapter 166E, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau; Local Food Coalition; Land Use Research Foundation of Hawaii; Kualoa Ranch; Larry Jefts Farms, LLC; Hawaii Aquaculture & Aquaponics Association; Kealia Ranch; Ponoholo Ranch Limited; Hawaii Meats, LLC; Rocker G Livestock; and fifteen individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawaiii, Sierra Club of Hawaiii, and eleven individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Agriculture, and Kapapala Ranch.

Your Committees find that Act 90, Session Laws of Hawaii 2003 (Act 90), now codified as chapter 166E, Hawaii Revised Statutes, was enacted for the purpose of ensuring the long-term productive use of public agricultural lands by allowing certain non-agricultural park lands to be transferred from DLNR to DOA. Your Committees further find since 2003, that DLNR has transferred more than nineteen thousand acres of agricultural land to DOA and additional transfers are in process, mainly consisting of agricultural crop land. The leases and revocable permits managed by DLNR cover approximately one hundred three thousand acres statewide.

Your Committees note that Act 90 also required each transfer to be individually reviewed and approved by the Board of Land and Natural Resources (BLNR) and the Board of Agriculture. While this requirement has been followed, the DLNR has generally excluded large-acre pasture leases from these transfers because of the high natural resource value of certain pasture lands, including

native forests that contain native and endangered plants and wildlife and are important in providing access to other public lands for management, traditional gathering, and public recreation. DLNR has also stated that positive advancement in carbon sequestration challenges, wildlife management, wildfire protection, forestry development, and forest health concerns can be best managed by DLNR because of their mutually beneficial practices with ranching, wildlife protection, and native restoration; responsibility; institutional memory; and expertise to balance the important public trust resources on these lands.

Your Committees further note that concerns have been raised by the lessees of many large acreages of lands, primarily farmers and ranchers, who were notified that the lands they lease would be transferred to the DOA pursuant to Act 90. Because ranchers are only able to obtain revocable leases, ranchers have been hindered in their ability to engage in long-term planning and increasing contributions to local food production. Therefore, your Committees believe that the importance of supporting local farmers and ranchers and strengthening the State's agricultural industry must be balanced with the need to protect Hawaii's environment and safeguard other public-land priorities.

According to testimony received by your Committees, DOA has greater flexibility to amend, extend, and issue new pasture leases by negotiation than DLNR. Your Committees further believe that DNLR should have the same flexibility to negotiate its pasture leases and industrial leases to better manage the State's natural resource lands.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have:
 - (A) Required DOA to transmit a list of disputed lands to DLNR by January 1, 2022, for review by DLNR;
 - (B) Required BLNR to establish a third-party advisory committee to make certain determinations prior to any disposition or transfer of the disputed lands if there is disagreement between DOA and DLNR;
 - (C) Required the disputed lands to remain under the jurisdiction and management of DLNR until a mutual agreement was reached regarding their disposition;
 - (D) Required lands for which DOA and DLNR do reach a mutual agreement regarding their disposition to be transferred to the DOA; and
 - (E) Required that beginning with the 2026-2027 fiscal year, and no less than every fifth fiscal year thereafter, DOA and DLNR undertake the same process regarding disputed lands;
- (2) Inserting language to:
 - (A) Clarify that prior to offering a lease, DOA shall inquire with DLNR regarding any easements required by DLNR to access landlocked forest reserves or other assets of DLNR on the lands subject to the lease;
 - (B) Require DOA and DLNR to meet within one year of the effective date of this measure and identify by mutual agreement the non-agricultural parks lands under DLNR's jurisdiction that are not in use for the public purpose for which it has been leased and should be rezoned as conservation district land under DLNR;
 - (C) Transfer all other non-agricultural park lands currently leased and being utilized for the agricultural purpose for which it has been leased to the DOA;
 - (D) Transfer all other non-agricultural lands not identified in the disputed lands process to DOA by December 31, 2023; and
 - (E) Require, beginning in the 2021-2022 fiscal year, and no less than every fifth fiscal year thereafter, that DOA and DLNR meet and determine additional lands that may be appropriate for transfer from DLNR to DOA;
- (3) Requiring DLNR to submit a report on its meetings and progress with DOA to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022;
- (4) Requiring DLNR to submit a report on the transfer of lands to DOA to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023 and every year thereafter;
- (5) Inserting language to authorize BLNR to amend and extend existing pasture or industrial leases and to issue new pasture or industrial leases by negotiation in furtherance of public purposes that are the responsibility of DLNR and DOA to promote, such as food production and natural resource conservation and stewardship;
- (6) Updating and adding legislative findings in accordance with its amended purposes; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 469, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 469, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 4. Noes, 1 (Acasio). Excused, none.

SCRep. 1253 (Joint) Human Services and Labor, Culture and the Arts on H.B. No. 718

The purpose and intent of this measure is to require the Department of Human Services to compile data and identify employers that have numerous employees enrolled in public assistance programs so that the legislature and other policy makers will have a deeper

understanding of the causes and sources of underemployment and poverty wages, and the resulting economic impacts on society, business, and the state budget.

Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services, Department of Labor and Industrial Relations, and Civil Beat Law Center for the Public Interest.

Your Committees find that public assistance programs are essential to ensure that all residents have access to healthy food, quality health insurance, basic needs, cash assistance, child care, and income supports. Your Committees also find that some employers may be abusing public assistance programs by providing their employees with low wages and poor benefits with the intention or expectation that the employees will enroll in public assistance programs to subsidize their income. Further, your Committees believe that large, profitable employers should pay wages and benefits that do not impoverish workers or shift costs to taxpayers. Your Committees also note that the Departments of Human Services and Labor and Industrial Relations should modify and strengthen their current data sharing agreement.

Your Committees have amended this measure by:

- (1) Inserting reporting dates for the Department of Human Services;
- (2) Removing the reference that the Department of Human Services comply with the Health Insurance Portability and Accountability Act privacy standards; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 718, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 718, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 1254 (Joint) Education and Human Services on H.B. No. 1362

The purpose and intent of this measure is to:

- (1) Establish the Hawaii early childhood educator stipend program to address shortage of early childhood education educators;
- (2) Extend certain effective dates for implementation of Act 46, Session Laws of Hawaii 2020, relating to access to learning;
- (3) Require the application of a uniform assessment for public and charter school kindergarten students; and
- (4) Allow educational data to be shared using an existing system.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Board of Education, HE'E Coalition, Children's Action Network Speaks!, Early Childhood Action Strategy, Special Education Advisory Council, Democratic Party of Hawai'i Education Caucus, and one individual. Your Committees received comments on this measure from the Department of Education, Department of Human Services, Executive Office on Early Learning, Department of the Attorney General, State Public Charter School Commission, Early Learning Board, Kamehameha Schools, and Kaulanakilohana.

Your Committees find that persons considering a career in the early childhood education field face formidable obstacles. Even highly qualified and motivated workers are paid very low wages. As a result, recruitment and retention of workers in the early childhood education field can be extremely challenging. This measure will support individuals seeking to become high-quality early childhood educators, thereby moving the State toward reaching its goal of increasing access to high-quality early learning programs.

Your Committees have amended this measure by:

- (1) Clarifying that that the purpose of the measure is to improve assessment of the longitudinal education and workforce outcomes of students who were provided with early childhood services;
- Removing the prohibition for private partnership funds to go directly to Department of Education schools for the purposes of opening prekindergarten classrooms;
- (3) Specifying that beginning with the 2024 school year, any parent, guardian, or other person having the responsibility for, or care of, a child who will be at least five years of age on or before December 31 of the school year shall enroll the child in a public school kindergarten unless the child is enrolled at a private school or the child's attendance is otherwise exempt;
- (4) Specifying that a collection agency that is contracted by the Executive Office on Early Learning is allowed to collect a commission;
- (5) Clarifying that the Department of Human Services and the Executive Office on Early Learning shall collaborate to identify the need for child care and early learning in geographic regions of the State and consider using public facilities, including school, libraries, and the University of Hawaii System as locations for child care and early learning programs rather than collect annual data;
- (6) Clarifying that joint reports to be submitted by the Department of Human Services and Executive Office on Early Learning to monitor the progress of implementing the early care and education sector programs shall be submitted to the Legislature prior to the convening of the regular sessions of 2024, 2025, 2026, and 2027;

- (7) Inserting section 13 of Act 46, Session Laws of Hawaii 2020, to be amended to clarify that the Department of Human Services will work with other state departments and agencies provide inter-departmental data sharing through the statewide longitudinal data system for the purposes of evaluating outcomes through early education to workforce;
- (8) Clarifying that the Department of Human Services will provide licensure for all programs funded by section 15 of Act 46, Session Laws of Hawaii 2020, for the purposes of health and safety;
- (9) Inserting a blank appropriation to fund one full-time equivalent (1.0 FTE) position to coordinate, staff, and facilitate the implementation of Act 46, Session Laws of Hawaii 2020, which will report to the Early Learning Board; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1362, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1362, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Kim). Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 1255 Labor, Culture and the Arts on H.B. No. 465

The purpose and intent of this measure is to:

- (1) Require the representative of labor on the Hawaii Labor Relations Board (Board) to be a person whose name has been chosen by the exclusive representatives of the collective bargaining units through a process determined by a simple majority of exclusive representatives and submitted to the Governor for appointment with the advise and consent of the Senate;
- (2) Allow a simple majority of the exclusive representatives who recommended the nominee to transmit the nominee's name directly to the Senate for confirmation if the Governor fails to do so within twenty days after submission of the nominee's name to the Governor; and
- (3) Allow a simple majority of the exclusive representatives of the collective bargaining units to remove, via a written request to the Governor, the representative of labor from the Board during the member's term.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Hawaii Labor Relations Board.

The Board is a quasi-judicial board with jurisdiction over public and private sector collective bargaining and cases pertaining to state occupational safety and health citations and whistleblower discrimination claims. The Board consists of three members — the Chair, who is the representative of the public, one member who is a representative of management, and one member who is a representative of labor. All three Board members are appointed to six-year terms by the Governor.

Under existing law, the representative of management is appointed by the Governor, who must first consider the names submitted by each county. The representative of labor is appointed by the Governor from a list of three nominees submitted by mutual agreement from a majority of the exclusive representatives of the collective bargaining units.

This measure requires the Governor to appoint as the representative of labor, the one individual chosen by the exclusive representatives of the collective bargaining units; and if the Governor fails to transmit that nominee's name to the Senate for advice and consent within twenty days after the exclusive representatives' submission of the nominee's name to the Governor, allows a simple majority of the exclusive representatives who recommended the nominee to transmit the nominee's name directly to the Senate for confirmation. This measure also allows a simple majority of the exclusive representatives to remove, via a written request to the Governor, the representative of labor from the Board mid-term, if they determine that the member is ineffective.

Your Committee acknowledges testimony from numerous labor unions supporting this measure on the basis that the existing appointment process provides the Governor with too much authority over the composition of the Board. Your Committee also notes the labor unions' testimony regarding their struggle in finding three nominees with the required qualifications, and their call for an established mechanism for removal and replacement of a labor representative, who fails to represent labor's best interests. Your Committee also acknowledges the testimony of the Office of Collective Bargaining, finding no compelling reason to limit the pool of nominees for the representative of labor from three to one. Since this measure leaves the Governor with no choice but to appoint the single nominee as the representative of labor, the Governor's authority over the process will be diminished from being discretionary to ministerial. According to the Office of Collective Bargaining, there are no other boards or commissions in the State over which the Governor's appointment authority is ministerial.

Your Committee also acknowledges the testimony of the Board itself, raising numerous concerns over the current appointment process and the process provided in this measure. This includes the fact that despite the Board having jurisdiction over three constituencies, only the state public employment collective bargaining sector has a voice as to who sits on the Board. The positions of private sector unions and small businesses are not reflected. The Board also points to its duty to act as a neutral body that does not favor certain parties. To maintain the Board's independence and neutrality, the members are protected from being removed based on political reasons or a party's negative response to an outcome of a case. The Board is concerned that the removal process provided in this measure may jeopardize its duty to remain neutral and take actions based on the facts and the law. Your Committee also notes the concerns raised by the Board as to whether the removal process without due process, i.e., removal without cause and the opportunity to defend and appeal, is constitutional and consistent with legal provisions related to other boards and commissions.

Based on the testimonies and these concerns, your Committee finds that this measure requires further review and consideration.

Your Committee has amended this measure by:

- (1) Repealing unnecessary details relating to section 26-34, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 465, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 465, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

SCRep. 1256 Labor, Culture and the Arts on H.B. No. 670

The purpose and intent of this measure is to authorize the forfeiture of certain Employees' Retirement System (ERS) benefits, pursuant to court order, for state or county employees and their designated beneficiaries who are convicted of an employment—related felony.

Your Committee received testimony in support of this measure from Common Cause Hawaii and eight individuals. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that public officers and employees are responsible for upholding the public's trust in government and democracy. The public's belief in government and democracy become strained when public officers and employees participate in misconduct in their employment while maintaining the benefits of their employment. Your Committee finds that while existing law requires an employee of the State or county who is convicted of a felony to have their employment terminated, the employee is still entitled to receive benefits from the ERS. Public employees who have been convicted of a felony that is directly related to the employee's position or duties ultimately lose the trust of the public by misusing their position, and therefore, should no longer be eligible to receive benefits accrued during their employment with the State or county. Your Committee further finds that beneficiaries who were convicted of a felony based on the same set of circumstances as the member, former member, or retirant who was subject to forfeiture of their retirement benefits, should not be allowed to receive ERS benefits either. This measure will prohibit public employees and their designated beneficiaries from receiving ERS benefits should they be convicted of a felony relating to the public employees' employment, thereby demonstrating that the State takes the ethics of its employees seriously.

Your Committee has amended this measure by:

- (1) Clarifying that the court may decree a forfeiture of one-half of an ERS member, former member, or retirant's ERS benefits upon the individual's conviction of a felony related to individual's employment with the State or county;
- (2) Clarifying that upon the death of the convicted ERS member, former member, or retirant, the designated beneficiary may receive the reduced benefits to which the member, former member, or retirant would be entitled under this measure;
- (3) Clarifying that designated beneficiaries who have been convicted of a felony based on the same set of circumstances as the member, former member, or retirant, who was ordered to forfeit their ERS benefits under this measure shall not receive any ERS benefits;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 670, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 670, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1257 Labor, Culture and the Arts on H.B. No. 929

The purpose and intent of this measure is to facilitate the Employees' Retirement System's (ERS) processing of Hawaii domestic relations orders by providing clarity on the processing procedure and benefits subject to the orders. Specifically, this measure clarifies that:

- Hawaii domestic relations orders apply to benefits an ERS member is expected to receive or is receiving without regard to any Hawaii domestic relations order;
- (2) The release of an ERS member's information may be initiated by a complaint for divorce or a divorce decree;
- (3) The ERS may issue and provide notification as to whether a proposed domestic relations order meets the requirement for a Hawaii domestic relations order to the ERS member, former member with vested benefit status, retirant, or alternate payee, in addition to the person who submitted the proposed domestic relations order;
- (4) A Hawaii domestic relations order that is enforced on a payout of benefits triggered by termination of ERS membership will not be applied to subsequent benefits resulting from the former member or former member with vested benefit status becoming an ERS member again;

- (5) Should a retirant be deceased within a year of retirement and the retirant's designated beneficiary elect to calculate the death benefit using the alternative benefit option, any payments made to an alternate payee pursuant to the terms of a Hawaii domestic relations order will be deducted as payments received by the retirant;
- (6) The priority of multiple orders will be determined based on the order in which the ERS receives the domestic relations order; and
- (7) The qualification of a domestic relations order shall supersede and terminate the qualification of any prior order between the same parties.

Your Committee received testimony in support of this measure from the Employees' Retirement System Board of Trustees.

Your Committee finds that on July 1, 2020, ERS began its processing of Hawaii domestic relations orders to allow the ERS to directly disburse benefits to a member's former spouse or a spouse in a divorce action who is recognized under the order as an alternate payee. To facilitate the further implementation of Hawaii domestic relations orders and processing of the orders, there is a need to provide clarity on ERS's processing procedures and the types of benefits that are subject to the orders.

Your Committee notes that the companion to this measure, S.B. No. 1083, S.D. 1, which was previously passed by your Committee, is a substantially similar measure that provides clarity on the processing of Hawaii domestic relations orders and the types of benefits that are subject to orders. Your Committee finds that the language in S.B. No. 1083, S.D. 1, is preferable because it does not include multiple conflicting language as to how a Hawaii domestic relations order affects the benefits to which a retirant is entitled.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1083, S.D.1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 929, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 929, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1258 Labor, Culture and the Arts on H.B. No. 930

The purpose and intent of this measure is to amend section 88-103, Hawaii Revised Statutes, to exempt the Employees' Retirement System (ERS) from disclosing certain types of alternative investment fund information, the disclosure of which would likely put the ERS at a competitive disadvantage, pursuant to the Uniform Information Practices Act (Modified), codified at chapter 92F, Hawaii Revised Statutes (UIPA).

Your Committee received testimony in support of this measure from the Employees' Retirement System Board of Trustees. Your Committee received testimony in opposition to this measure from The Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, and UNITE HERE Local 5. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the ERS engages in diversified investment, including high-yield private alternative investment funds, to address its \$14.6 million unfunded liability and other financial needs. Due diligence into such investments requires the ERS to invest time and money in acquiring and analyzing detailed proprietary and confidential information regarding the projected performance of each fund. Under current law, information held by the ERS pertaining to such proprietary or confidential information is not explicitly exempted from disclosure under the UIPA. Your Committee further finds that based on the potential risk of the ERS disclosing or required to disclose proprietary and confidential information pertaining to its portfolio, some high-performing funds have been deterred from allowing the ERS to invest with them. Public disclosure of proprietary and confidential information will result in the ERS being precluded from investing in certain high-yield investment opportunities.

Your Committee acknowledges the concerns of The Civil Beat Law Center for the Public Interest and its request to revise the language to clarify that information that is currently subject to disclosure under the UIPA and other laws and is not exempted from disclosure under this measure remains subject to disclosure. Your Committee also believes that it is more appropriate to have provisions pertaining to disclosure of information by the ERS in section 88-103.5, Hawaii Revised Statutes, titled "Disclosure of information", rather than section 88-103, titled "Records".

Your Committee notes that the companion to this measure, S.B. No. 1084, S.D. 1, is a substantially similar measure which was previously passed by your Committee. Your Committee finds that the language in S.B. No. 1084, S.D. 1, is preferable because it is more concise, as pointed out by the ERS; addresses the concern raised by The Civil Beat Law Center for the Public Interest; and amends section 88-103.5, Hawaii Revised Statutes, to include the provisions pertaining to disclosure of information by the ERS.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1084, S.D.1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 930, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 930, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1259 Labor, Culture and the Arts on H.B. No. 1004

The purpose and intent of this measure is to:

- (1) Allow the Department of Labor and Industrial Relations (DLIR) to prohibit the operation of pressure retaining items, amusement rides, and elevators and kindred equipment if fees and fines are not timely paid; and
- (2) Require the Director of Labor and Industrial Relations to establish by administrative rules, the fee schedules for services rendered by the Department and permits, certificates, and licenses required pursuant to the Boiler and Elevator Safety Law, rather than setting the fees in statute.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the Legislature established the Boiler and Elevator Special Fund in 2012, as a mechanism for self-sufficiency for the DLIR's Boiler and Elevator Inspection Branch (Branch), Hawaii Occupational Safety and Health Division. The objective was to improve public safety by allowing the Branch to expend the fund to hire and retain the necessary staffing to clear the backlog of critical load tests on elevators, internal inspections of escalators, and inspections of amusement rides. In 2018, the fund was converted into the Boiler and Elevator Revolving Fund (Revolving Fund). Under the law, all fees collected for services rendered under the Boiler and Elevator Safety Law, such as inspection and examination fees and fees for issuance of permits, certificates, and licenses, are required to be paid into the Revolving Fund. Your Committee finds, however, that the viability of the Revolving Fund is currently threatened, as the DLIR has been struggling to collect the fees for inspections that have been completed. Due to insufficient resources, the DLIR has not been able to perform inspections of all elevators and kindred equipment in a timely manner.

Your Committee finds it imperative that the Revolving Fund be revitalized for the interest of public safety. Your Committee also finds that the fee schedules for boilers and pressure systems, elevators and kindred equipment, and amusement rides are outdated and unnecessary, as they are now set forth in the Department's administrative rules. This measure allows the DLIR to prohibit the operation of pressure retaining items, amusement rides, and elevators and kindred equipment if fees and fines are not timely paid, and requires the Director to establish by administrative rules, the fee schedules for services rendered by the department and permits, certificates, and licenses required pursuant to the Boiler and Elevator Safety Law, rather than setting the fees in statute.

Your Committee notes DLIR's testimony requesting that this measure reflect language from its companion, S.B. No. 1158, S.D. 1, which was previously passed by this Committee and is substantially similar to this measure. Your Committee finds that the language in S.B. No. 1158, S.D. 1, is preferable because the description of the conditions under which the DLIR may issue orders revoking or suspending permits to operate as well as when such orders shall be revoked is clearer. S.B. No. 1158, S.D. 1, also makes a conforming amendment to section 397-2, Hawaii Revised Statutes, as pointed out in the DLIR's testimony.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1158, S.D.1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1004, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1004, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1260 Labor, Culture and the Arts on H.B. No. 1176

The purpose and intent of this measure is to establish and appropriate funds for a state job corps program within the Department of Labor and Industrial Relations (DLIR) with a focus on the resiliency and green sector industries to help address the unemployment impacts of the coronavirus disease 2019 (COVID-19) pandemic and support economic diversification.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Research and Development of the County of Hawaii; one member of the Hawaii County Council; Kupu; Beach Environmental Awareness Campaign Hawaii; Beyond Organic Consulting, Inc.; Chamber of Commerce of Hawaii; Hawaii Fish Company, Inc.; Hawaiii Public Health Association; Kuaiāna Ulu 'Auamo; Kua O Ka La New Century Public Charter School; Mainstreet-Pahoa Association; The Nature Conservancy; Re-Use Hawaii; Young Democrats of Hawaii; and ten individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that prior to the coronavirus disease 2019 (COVID-19) pandemic, Hawaii had one of the lowest unemployment rates in the nation; however, the pandemic has placed tens of thousands of Hawaii residents out of work, and the current state unemployment rate is among the nation's highest. Your Committee also finds the State's commitment to uphold the Paris Climate Accord and attain its 2045 zero-emissions clean economy target requires the State to invest in its community and emerging economic sectors. This measure provides Hawaii residents who were economically impacted by the COVID-19 pandemic with opportunities to learn new skills and increase their prospects of employment in the resiliency and green sectors, while building a diversified economy.

Your Committee notes testimony from the Department of Land and Natural Resources (DLNR) on its long-time partnership with AmeriCorps and Kupu through their mentorship programs that have been hugely successful in increasing Hawaii youth employment in not only the conservation sector but also the workforce at large. Your Committee also notes Kupu's testimony attesting to the DLNR's expertise in the subject matter of green jobs, especially natural resource management, and DLNR's substantial experience in

administering a similar program - the Hawaii Youth Conservation Corps program - under chapter 193, part IV, Hawaii Revised Statutes. Based on these testimonies, your Committee finds that the DLNR is better suited to administer the job corps program established by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 to reflect the amended purpose of establishing a Green Job Youth Corps program within the DLNR;
- (2) Amending section 193-32, Hawaii Revised Statutes, to allow the Governor to designate the DLNR to administer or enter into an agreement or agreements for the administration of a Green Jobs Youth Corps program;
- (3) Requiring DLNR to submit a report to the Legislature on its implementation of the program prior to the convening of the Regular Session of 2022;
- (4) Changing the expending agency of the funds appropriated from the DLIR to the DLNR; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1176, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1176, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 1261 (Joint) Labor, Culture and the Arts and Government Operations on H.B. No. 1193

The purpose and intent of this measure is to appropriate funds for capital improvement projects relating to Iolani Palace and the State Archives.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Department of Land and Natural Resources; The Friends of Iolani Palace; Oahu Economic Development Board; Aloha State Services, Ltd.; Historic Hawai'i Foundation; and ten individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Iolani Palace and the State Archives are irreplaceable parts of the State's legacy, history, culture, and identity. Iolani Palace, which was constructed in 1879, is a living restoration of a proud Hawaiian national identity, a registered National Historic Landmark, and the only palace of official royal residence in the United States. The 142-year-old palace is an important cultural and historical landmark that represents the dignity and unique history of the people of Hawaii. According to the Department of Land and Natural Resources (DLNR), the last time portions of the palace's roof were repaired was over two decades ago in 2000, and due to increasing decay and leakage during rain, the roof and various other architectural elements of the palace are deteriorating. For example, The Friends of Iolani Palace, the non-profit corporation that preserves, restores, and protects the Iolani Palace, testified that the top-portion of the palace's decorative columns made of lead and weighing approximately three pounds, had recently broken off and fell to the ground. According to DLNR, after the last major storm event, the leakage has expanded to other areas within the palace and threatens the integrity of the exhibits.

The State Archives is responsible for collecting, arranging, describing, and making accessible the public archives of the State. According to the Department of Accounting and General Services (DAGS), the State Archives facility, which was designed in 1954, is severely outdated in both form and function. The facility is currently at ninety-four percent of its approximately 14,000 cubic feet of storage-capacity and is projected to reach full capacity in five years. The current facility's electrical grid cannot accommodate the millions of electronic records being created. Furthermore, the facility's space limitations are severely impinging upon the State Archive's ability to conduct utility classroom activities and make educational and outreach efforts to the public and school groups while serving patrons conducting archival research; display the historical artifacts it holds in the public trust; collect archives and conduct proper processing and conservation of the materials; and engage more volunteers to assist its staff, thereby reducing the number of records that can be made available to the public. Your Committees further find that the coronavirus disease 2019 pandemic, which greatly disrupted the public's ability to travel and access the State Archive records in person, highlighted the need to post more of the records online to be accessible to people around the world, twenty-four hours a day, seven days a week. However, the State Archive's current facility is incapable of providing the digitization infrastructure necessary for such large-scale access.

This measure serves to protect the unique history of Hawaii by appropriating funds for needed repairs and updates for the Iolani Palace and State Archives.

Your Committees note testimony of the Department of Budget and Finance, advising that general obligation bonds cannot be used for operating costs. Your Committees also note that H.B. No. 777, S.D. 1, scheduled to be considered by your Committee on Labor, Culture and the Arts immediately following this measure, proposes to authorize the funding of the State of Hawaii Museum of Natural and Cultural History aka the Bernice Pauahi Bishop Museum (Bishop Museum) and the State of Hawaii Museum of Monarchy History aka Iolani Palace, using the Works of Art Special Fund. The State Foundation on Culture and the Arts submitted testimony opposing H.B. No. 777, S.D. 1, stating that this measure is better suited to appropriate the funds being sought by the Bishop Museum and Iolani Palace.

Accordingly, your Committees have amended this measure by:

- (1) Inserting \$2,965,000 as the sum of general obligation bonds the Director of Finance is authorized to issue under this measure for the purposes of financing the following capital improvement projects:
 - (A) Iolani Palace: \$1,000,000 for construction and equipment for renovation and improvements to the roof, to be expended by DLNR;

- (B) State Archives: \$1,000,000 for development of a state archives master plan to include the expansion and creation of new collections processing and storage, administrative, public research, exhibition, and community engagement spaces, to be expended by DAGS;
- (C) Bishop Museum: A total of \$965,000 for plans, design, construction, and equipment for renovations and improvements, for the following, to be expended by DAGS:
 - (i) \$240,000 for installation of fire sprinkler systems in Pauahi Building;
 - (ii) \$100,000 for nitrate removal and fire safety improvements in Pauahi Building;
 - (iii) \$375,000 for fire rated egress improvements for Konia Building; and
 - (iv) \$250,000 to repair water infiltration in Hale Kini Building; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1193, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1193, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole). Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 1262 Labor, Culture and the Arts on H.B. No. 1253

The purpose and intent of this measure is to prohibit employers, with certain exemptions, from:

- (1) Requiring an employee to download a mobile application to the employee's personal communication devices that enables the employee's location to be tracked or their personal information revealed;
- (2) Terminating or otherwise discriminating against an employee for refusing to download a mobile application to the employee's personal communication device; or
- (3) Discharging or otherwise discriminating against an employee for filing a complaint, testifying, or assisting in any proceeding concerning these unlawful practices.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received testimony in opposition to this measure from the Chamber of Commerce of Hawaii; Maui Chamber of Commerce; and Retail Merchants of Hawaii, Inc. Your Committee received comments on this measure from Society for Human Resource Management Hawaii.

Your Committee finds that the high rate of transmission of the coronavirus disease 2019 has necessitated the development of new public health tools to mitigate the spread of the virus. These tools include job-driven tracking devices and technologies such as the Global Positioning System (GPS). While mobile phone users may voluntarily agree to be tracked, your Committee finds that such applications have raised privacy concerns and anxiety over potential misuse of the tracking information, and therefore, the mandatory downloading and use of such applications should not be a condition of employment. This measure will prohibit an employer, with certain exemptions, from requiring employees to download the mobile application to their personal communication devices, and taking adverse action against an employee who refused to do so or against an employee for filing a complaint, testifying, or assisting in any proceeding regarding violations of provisions in this measure.

Your Committee notes testimony regarding the existing use of tracking devices and technologies by employers for purposes of efficiency, accountability, safety, and productivity to increase service to customers in Hawaii. Your Committee finds that use of tracking devices and technologies for such purposes may be justified, provided that the devices are owned by the employer or the employee's cost of using the device is reimbursed by the employer.

Your Committee has amended this measure by:

- Amending the definition of employee to include a prospective employee who has applied for or otherwise actively expressed interest in employment with an employer;
- (2) Adding definitions of "employer-owned communication device" and "mobile application";
- (3) Clarifying that it is unlawful for an employer to require, as a condition of employment or continued employment, an employee to download to their personal communication device, a mobile application that enables the employee's location to be tracked or the employee's personal information to be revealed;
- (4) Clarifying that it is unlawful for an employer to terminate, discharge, or otherwise discriminate against an employee who has refused to consent to downloading to their personal communication device, a mobile application that enables the employee's location to be tracked or the employee's personal information to be revealed;
- (5) Deleting the exemption for mobile applications that are required as a condition of employment and related to the functions of the employment position;
- (6) Allowing an employer to require an employee to carry or use a communication device that enables the employee's location to be tracked if the device is owned or whose cost is reimbursed by the employer;
- (7) Clarifying that a person, not limited to an employee, can commence a civil action; and

(8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1253, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1253, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1263 (Joint) Human Services and Health on H.B. No. 474

The purpose and intent of this measure is to preserve access to affordable health care for Medicaid recipients by extending the Hospital Sustainability Program for two years.

Your Committees received testimony in support of this measure from the Department of Human Services, The Queen's Health Systems, Hawai'i Primary Care Association, Adventist Health, Kaiser Permanente Hawai'i, Healthcare Association of Hawaii, and Hawai'i Pacific Health.

Your Committees find that the hospital sustainability program was established in 2012 and has served a critical role in strengthening the health care system in Hawaii. In the nine years since its inception, the hospital sustainability program has helped acute care facilities treat the most vulnerable patients in the State, especially low-income individuals who require hospital services. Your Committees further find that even with this program, hospitals in the State face major financial challenges. These challenges were exacerbated by the health and financial pressures related to the coronavirus disease 2019 pandemic. Your Committees also find that provider fees exist in forty-nine states and the District of Columbia as a means of drawing down federal funds to sustain Medicaid programs due to rising state budget deficits, increasing health care costs, and expanding Medicaid enrollment. Your Committees find that a provider fee on hospitals can result in substantial increases in Medicaid payments without putting additional constraints on the State's budget. The additional federal funds obtained via the fee program authorized by the hospital sustainability program can maintain access to care for Medicaid recipients. As a result, your Committees find that this will allow hospitals in the State to continue to serve uninsured or underinsured patients in a timely, effective manner.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of \$325,000,000;
- (2) Inserting an effective date of June 29, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 474, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 474, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1264 (Joint) Human Services and Health on H.B. No. 345

The purpose and intent of this measure is to require the court to appoint, at the time an assisted community treatment program petition is filed, any guardian to represent the best interests of the individual who is subject to the petition throughout the pendency of the judicial proceedings

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Human Services; Department of Health; Department of the City and County of Honolulu Prosecuting Attorney; Hawaii Substance Abuse Coalition; Partners in Care; Ohana Health Plan; The Institute for Human Services, Inc.; and seventeen individuals. Your Committees received comments on this measure from the Judiciary, Office of the Public Defender, and Hawaii Disability Rights Center.

Your Committees find that the Assisted Community Treatment Program, established in 2013, provides individuals with severe mental illness, and who are unlikely to live safely in the community without available supervision, with the necessary medical treatment and medication when it is in the individual's best interest. Your Committees also find that although the Assisted Community Treatment Program presents these individuals with an opportunity to receive ongoing treatment in the least restrictive setting and serves as a vital alternative to repeat emergency interventions as their primary course of treatment, many mentally ill individuals fail to participate in the program, often due to lack of adequate representation. Your Committees further find that existing law does not require any guardian to be appointed to represent an individual with severe mental illness during Assisted Community Treatment Program proceedings and promote their needs and interests.

Your Committees received testimony from various stakeholders and amendments are necessary to address their concerns. Accordingly, your Committees have amended this measure by:

- (1) Removing all references to "guardian ad litem" and replacing them with "any guardian", or "guardian";
- (2) Requiring the family court to determine if the assisted community treatment petitioner has a guardian, and if not, appoint a public guardian;
- (3) Eliminating the requirement that the Public Defender be appointed to assisted community treatment petitioners or requiring the family court to provide notice to the Public Defender; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 345, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 345, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1265 Health on H.B. No. 991

The purpose and intent of this measure is to:

- (1) Authorize the Department of Health to disclose vital statistics records for public health and law enforcement purposes; and
- (2) Update eligibility requirements for access to confidential vital statistics records.

Your Committee received testimony in support of this measure from the Department of Health, Department of Transportation, Office of Hawaiian Affairs, and Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the appropriate sharing of vital records to be in the public interest, particularly to expedite law enforcement or judicial proceedings and research to help define unique issues in the State. This measure will allow the Department of Health greater discretion to disclose vital records in certain circumstances for legitimate government and research functions. Your Committee received testimony from the Department of Health that the proposed process of review by its Institutional Review Committee for disclosures made for "research purposes" is consistent with academic and scientific human subject research protocols and standards and assures that requests serve an ethical public good, individual privacy is maintained, and records are appropriately handled. This measure seeks to provide needed data governance and disclosure practices to increase agency and service provider access to public health data, which may be critical to identifying and addressing social determinants of health.

Your Committee heard the testimony of the Department of Health, which noted that vital records include information such as births, deaths, and marriage/civil unions, which contain information such as race and ethnicity, cause of death, relative health at birth, and other qualitative data. The Department recognizes that chapter 338, Hawaii Revised Statutes, provides a high standard for access to vital records; however, flexibility to disclose for situations is required to provide a transparent baseline where affirmative "direct and tangible interests" present. Therefore, amendments to this measure are needed to address the Department's concerns.

Your Committee has amended this measure by:

- (1) Permitting the discretionary publication of vital records index data;
- (2) Providing that the Department of Health may permit persons working on genealogy projects access to microfilm or other copies of vital records of events that occurred more than one hundred fifteen years before the current year;
- (3) Adding a personal representative or trustee of the registrant's estate or trust as a party that has a direct and tangible interest in a public health statistics record;
- (4) Adding a person, agency, or beneficiary of a will or trust who needs access to determine the death of a co-owner of property as a party that has a direct and tangible interest in a public health statistics record;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 991, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 991, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1266 Health on H.B. No. 1281

The purpose and intent of this measure is to:

- Establish a four-year transfer of certain duties, functions, and powers relating to emergency medical services for the City and County of Honolulu from the Department of Health to the City and County of Honolulu;
- (2) Begin transition of the training and billing for emergency services on July 1, 2021;
- Appropriate general funds to the City and County of Honolulu for emergency medical services for fiscal years 2021-2022 and 2022-2023;
- (4) Appropriate half of the monies in the emergency medical services special fund to the general fund for fiscal years 2021-2022 and 2022-2023; and
- (5) Phase out state funding for emergency medical services in the City and County of Honolulu by June 30, 2025.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Medical Service Association. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General; Honolulu Emergency Services Department; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual.

Your Committee finds that currently, most costs for emergency medical services (EMS) are negotiated by the counties and paid by the State. The total cost of operating a statewide comprehensive EMS system now exceeds \$100,000,000. This measure creates a cost-sharing model for EMS services between the State and counties with population of greater than five hundred thousand residents.

Your Committee notes the testimony of the Department of Health, which proposed multiple amendments that reflects consensus language between the Department of Health and City and County of Honolulu administrators (City) that would facilitate the transition of EMS services from the State to the City while ensuring no lapse in EMS services.

Therefore, your Committee has amended this measure by:

- (1) Inserting a start date of July 1, 2021, for the four-year transition of EMS services from the State to the City;
- (2) Ensuring that the State funds EMS services for the City from the general funds, to transition from one hundred percent funding in the first year to zero percent in the fourth year;
- (3) Establishing a perpetual ceiling on state financial support to City EMS services;
- (4) Updating existing law to authorize the City to have autonomous control over its EMS system but allowing it to continue to participate in systemwide activities;
- (5) Authorizing the City to propose new EMS-related services and enhance revenue; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1281, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1281, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Moriwaki).

SCRep. 1267 Health on H.B. No. 1032

The purpose and intent of this measure is to update and codify within the Uniform Controlled Substances Act, chapter 329D, Hawaii Revised Statutes, certain amendments made to the federal controlled substances law as required by section 329-11, Hawaii Revised Statutes

Your Committee received testimony in support of this measure from the Department of Public Safety and Akamai Cannabis Clinic.

Your Committee finds that this measure is necessary to make permanent the temporary designation of new controlled substances by the Department of Public Safety, and the Department's temporary designation of the new controlled substances will be nullified if not made permanent through legislation. Your Committee also finds that existing law requires that if a substance is added, deleted, or rescheduled under federal law, or by an emergency scheduling action taken by the Department of Public Safety, then the Department is required to recommend that the Legislature make corresponding changes to Hawaii law. Your Committee further finds that the substances listed in this measure correspond to several similar changes to the Drug Enforcement Administration's federally controlled substances schedules. Thus, this measure makes consistent federal and state law.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1032, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1268 (Joint/Majority) Health and Higher Education on H.B. No. 1296

The purpose and intent of this measure is to:

- (1) Repeal the Hawaii tobacco prevention and control trust fund and transfer unencumbered balances to the general fund;
- (2) Specify that Hawaii tobacco settlement special fund monies shall only be deposited into the University of Hawaii revenueundertakings fund until July 1, 2033; and
- (3) Appropriate general funds to the Department of Health for tobacco prevention and control.

Your Committees received testimony in support of this measure from Hawaii Smokers Alliance and ten individuals. Your Committees received testimony in opposition to this measure from the Department of Health; Adventist Health Castle; Hawai'i Pacific Health; AlohaCare; American Cancer Society Cancer Action Network; American Heart Association; American Lung Association; Bay Clinic, Inc.; Blue Zones Project; Hawai'i Community Foundation; Hawaii COPD Coalition; Hawai'i Health & Harm Reduction Center; Hawai'i Public Health Institute; Kapiolani Smokefree Families; Campaign for Tobacco-Free Kids; Big Island Substance Abuse Council; Hawai'i Primary Care Association; Hawaii Substance Abuse Coalition; Kōkua Kalihi Valley Comprehensive Family Services; Lāna'i Community Health Center; Student Health Advisory Council; Waianae Comprehensive Health Center; Waimānalo Health Center; We Are One, Inc.; Hawaii Medical Association; Hawaii' Public Health Association; Save Medicaid Hawaii; and fifty-four

individuals. Your Committees received comments on this measure from the Department of the Attorney General, University of Hawai'i System, and University of Hawaii at Mānoa John A. Burns School of Medicine.

Your Committees find that the coronavirus disease 2019 pandemic severely impacted the State's economy. As a result, the State must find creative solutions to finance programs statewide. This measure allows the State to reallocate monies from the Hawaii tobacco prevention and control trust fund into the general fund while preserving tobacco prevention programs.

Your Committees note the testimony of the Department of the Attorney General, which raised concerns that the measure as drafted may violate article 1, section 10, of the United States Constitution, which bars states from passing laws impairing the obligations of contracts.

Therefore, your Committees have amended this measure by:

- (1) Changing the date by which unencumbered balances to be lapsed from the Hawaii tobacco prevention and control trust fund to the general fund from July 1, 2021, to September 1, 2022;
- (2) Inserting a blank appropriation amount;
- (3) Removing the amendment repealing the tobacco prevention and control advisory board's duty to advise on the administration of the Hawaii tobacco prevention and control trust fund;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1296, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1296, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4; Ayes with Reservations (Moriwaki, San Buenaventura, Fevella). Noes, 1 (Baker). Excused, none.

Higher Education: Ayes, 5; Ayes with Reservations (Kidani, Fevella). Noes, none. Excused, none.

SCRep. 1269 (Joint) Health and Higher Education on H.B. No. 1297

The purpose and intent of this measure is to:

- (1) Require each department to submit program measures, costs elements, and accounting reports for all non-general funds to the Legislature by October 1 of each year;
- (2) Specify that the cigarette tax revenues deposited to the credit of the cancer research special fund shall only be used for capital expenditures and only until July 1, 2041;
- (3) Make certain special funds subject to deductions for central service expenses into the general fund; and
- (4) Transfer to the credit of the general fund, beginning July 1, 2021, surcharges and cigarette tax revenue allocated to the trauma systems special fund.

Your Committees received testimony in support of this measure from the Department of Public Safety. Your Committees received testimony in opposition to this measure from the University of Hawai'i System, American Cancer Society Cancer Action Network, Hawai'i Tourism Authority, University of Hawaii Professional Assembly, Hawaii Substance Abuse Coalition, Ho'ōla Lāhui Hawai'i, Alana Dung Research Foundation, Friends of UH Cancer Center, and eighteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Education, Department of Human Services, Department of Taxation, Department of Transportation, Hawai'i Pacific Health, and Hawai'i Pacific Health Wilcox Medical Center.

Your Committees find that the coronavirus disease 2019 (COVID-19) pandemic caused severe economic harm to the State. Requiring non-general fund balances to be transferred to the general fund is a necessary measure to address the State's budget shortfall. Removing exemptions for most special funds from the five percent deduction into the general fund and dissolving other special funds will contribute to the State's economic recovery. Your Committees also find that consolidating the administrative services of the University of Hawaii Cancer Center (UHCC) and the John A. Burns School of Medicine (JABSOM) will save much needed funds and that consolidating the management of public resources provided to the UHCC and JABSOM will avoid unnecessary duplication of administrative expenses or conflicting priorities.

Your Committees recognize the testimony of various stakeholders who raised concerns that requiring the Director of the UHCC to report to the Dean of JABSOM would jeopardize UHCC's status as a National Cancer Institute designated cancer center. Therefore, your Committees have amended this measure by:

- $(1) \quad \text{Removing the requirement that the Director of the UCHH report to the Dean of JABSOM;}$
- Requiring the University of Hawaii to report to the Legislature on the monies in the Hawaii cancer research special fund annually instead of semi-annually; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1297, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1297, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Health: Ayes, 5. Noes, none. Excused, none. Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1270 Education on S.C.R. No. 83

The purpose and intent of this measure is to urge the Department of Education to use Coronavirus Aid, Relief, And Economic Security (CARES) Act, Public Law 116-136, and Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act monies to retain teachers and prevent furloughs.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Hawaii continues to suffer from a shortage of licensed teachers with over one thousand vacancies every year. Prior to the economic crisis brought about by the coronavirus disease 2019 (COVID-19) pandemic, the Department of Education heavily depended on hiring teachers from the continent, many of whom leave the islands after a few years due to the hardship posed by the State's high cost of living. Teachers are also leaving the State at an increasing rate. Of the 1,116 teachers who separated from the Hawaii Department of Education in 2017-2018, four hundred twenty-three individuals left for the continent, a seventy percent increase from five years prior. These challenges have created more vacancies and have left positions to be filled by substitutes or emergency hires, especially in rural and high poverty schools. The Department of Education also struggled with recognizing and compensating teachers, thereby not retaining properly credentialed, effective, and committed teachers.

Your Committee further finds that the COVID-19 pandemic has exacerbated these existing issues related to teacher retention. Even with federal assistance coming in the form of funds from the CARES and CRRSA Acts, the Department of Education has \$83,000,000 in projected shortfalls for fiscal year 2021, and \$393,000,000 in fiscal year 2022. Your Committee also finds that while the Department of Education will prioritize federal monies for learning, the Department has also proposed using federal funds towards private tutors and summer school to target learning loss mitigation, while firing other teachers and school staff. Thus, federal monies received by the State for the Department of Education should be used to offset budget restrictions that would otherwise result in layoffs, furloughs, or pay reduction.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 83 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1271 Education on S.R. No. 63

The purpose and intent of this measure is to urge the Department of Education to use Coronavirus Aid, Relief, And Economic Security (CARES) Act, Public Law 116-136, and Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act monies to retain teachers and prevent furloughs.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Hawaii continues to suffer from a shortage of licensed teachers with over one thousand vacancies every year. Prior to the economic crisis brought about by the coronavirus disease 2019 (COVID-19) pandemic, the Department of Education heavily depended on hiring teachers from the continent, many of whom leave the islands after a few years due to the hardship posed by the State's high cost of living. Teachers are also leaving the State at an increasing rate. Of the 1,116 teachers who separated from the Hawaii Department of Education in 2017-2018, four hundred twenty-three individuals left for the continent, a seventy percent increase from five years prior. These challenges have created more vacancies and have left positions to be filled by substitutes or emergency hires, especially in rural and high poverty schools. The Department of Education also struggled with recognizing and compensating teachers, thereby not retaining properly credentialed, effective, and committed teachers.

Your Committee further finds that the COVID-19 pandemic has exacerbated these existing issues related to teacher retention. Even with federal assistance coming in the form of funds from the CARES and CRRSA Acts, the Department of Education has \$83,000,000 in projected shortfalls for fiscal year 2021, and \$393,000,000 in fiscal year 2022. As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 63 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1272 Education on S.C.R. No. 63

The purpose and intent of this measure is to request the Department of Education to convene a working group to create a model statewide school policy on student suicide prevention, intervention, and postvention.

Your Committee received testimony in support of this measure from the Department of Education, The Trevor Project, Hawaii Youth Services Network, and seven individuals.

Your Committee finds that suicide is the fourth leading cause of death for children between the ages of ten and fourteen and is the leading cause of death for young people between the ages of fifteen and twenty-four. In Hawaii, suicide accounts for twenty-five percent of all fatal injuries. From 2013-2015, the statewide suicide rate was 12.9 deaths for every one hundred thousand individuals. The percentage of teenagers in the State who plan to commit suicide and the percentage of teenagers who attempt suicide are amongst the highest in the nation. Lesbian, gay, bisexual, transgender, and questioning (LGBTQ+) youth are more likely to experience suicidal ideation, engage in self-injury, consider suicide, and attempt suicide. Additionally, 39.7 percent of homeless youth have had suicidal thoughts and among those who consider suicide, 58.3 percent of individuals attempted suicide.

Your Committee further finds that suicide attempts have harmful, lasting, and profound impacts on families and communities. School personnel who interact with students daily are essential gatekeepers for recognizing warning signs of suicide and making the appropriate referrals for help. Your Committee also finds that the stress of the coronavirus disease 2019 (COVID-19) pandemic and its impacts on education and other stressors have increased mental health issues and suicide risks among youth. Therefore, your Committee believes that the Department of Education should convene a working group to create a model statewide policy on student suicide prevention, intervention, and postvention.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1273 Education on S.R. No. 45

The purpose and intent of this measure is to request the Department of Education to convene a working group to create a model statewide school policy on student suicide prevention, intervention, and postvention.

Your Committee received testimony in support of this measure from The Trevor Project and six individuals.

Your Committee finds that suicide is the fourth leading cause of death for children between the ages of ten and fourteen and is the leading cause of death for young people between the ages of fifteen and twenty-four. In Hawaii, suicide accounts for twenty-five percent of all fatal injuries. From 2013-2015, the statewide suicide rate was 12.9 deaths for every one hundred thousand individuals. The percentage of teenagers in the State who plan to commit suicide and the percentage of teenagers who attempt suicide are amongst the highest in the nation. Lesbian, gay, bisexual, transgender, and questioning (LGBTQ+) youth are more likely to experience suicidal ideation, engage in self-injury, consider suicide, and attempt suicide. Additionally, 39.7 percent of homeless youth have had suicidal thoughts and among those who consider suicide, 58.3 percent of individuals attempted suicide.

Your Committee further finds that suicide attempts have harmful, lasting, and profound impacts on families and communities. School personnel who interact with students daily are essential gatekeepers for recognizing warning signs of suicide and making the appropriate referrals for help. Your Committee also finds that the stress of the coronavirus disease 2019 (COVID-19) pandemic and its impacts on education and other stressors have increased mental health issues and suicide risks among youth. Therefore, your Committee believes that the Department of Education should convene a working group to create a model statewide policy on student suicide prevention, intervention, and postvention.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 45 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1274 Ways and Means on S.C.R. No. 74

The purpose and intent of this measure is to urge the Governor to require the Director of Finance to conduct a statewide program and budget performance review and submit biennial reports to the Legislature in each odd-numbered year.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that pursuant to section 26-8, Hawaii Revised Statutes, the Department of Budget and Finance is required to, among other things, "[c]onduct a systematic and continuous review of the finances, organization, and methods of each department of the State to assist each department in achieving the most effective expenditure of all public funds and to determine that such expenditures are in accordance with the budget laws and controls in force". Your Committee also finds that section 37-70, Hawaii Revised Statutes, requires the Governor to submit to the Legislature biennial program memoranda addressing each of the State's major programs. Accordingly, your Committee believes that it is appropriate for the Governor to require the Director of Finance to perform a statewide program and budget performance review pursuant to this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 74 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 1275 Energy, Economic Development, and Tourism on S.C.R. No. 32

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism and the Department of Accounting and General Services:

(1) Conduct a cost analysis study regarding centralizing and consolidating the state offices in west Hawaii island into one conveniently located complex; and

(2) Submit a report of their findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the Department of Human Services and the Department of Business, Economic Development, and Tourism.

Your Committee finds that consolidating state offices in a centralized location in west Hawaii may be more cost effective for the State and beneficial for the public to access state services than housing operations in multiple locations. The cost analysis study requested by this measure would aid the legislature in considering whether to pursue this course of action. Your Committee notes testimony from the Department of Accounting and General Services, which indicated that funding and acquisition of consulting services may be required to perform the study.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 32 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1276 Energy, Economic Development, and Tourism on S.R. No. 21

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism and the Department of Accounting and General Services:

- Conduct a cost analysis study regarding centralizing and consolidating the state offices in west Hawaii island into one conveniently located complex; and
- (2) Submit a report of their findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the Department of Human Services and the Department of Business, Economic Development, and Tourism.

Your Committee finds that consolidating state offices in a centralized location in west Hawaii may be more cost effective for the State and beneficial for the public to access state services than housing operations in multiple locations. The cost analysis study requested by this measure would aid the legislature in considering whether to pursue this course of action. Your Committee notes testimony from the Department of Accounting and General Services, which indicated that funding and acquisition of consulting services may be required to perform the study.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1277 Judiciary on S.C.R. No. 49

The purpose and intent of this measure is to acknowledge the forthcoming centennial of the 1921 Tulsa Race Massacre.

Your Committee received testimony in support of this measure from Common Cause Hawaii and six individuals.

Your Committee finds that in the early twentieth century, African Americans in Tulsa, Oklahoma, district of Greenwood, built a thriving and nationally-renowned entrepreneurial center often referred to as the "Black Wall Street". Your Committee further finds that, from May 31 to June 1, 1921, this community was decimated by thousands of armed white Tulsa residents in a wave of racially-based violence following an unsubstantiated allegation made by a young white woman against a young African American man. Your Committee additionally finds that local officials not only failed to take actions to calm or contain the violence, but aggravated it by providing firearms and ammunition to and deputizing hundreds of white men from a crowd that had gathered as a potential lynch mob, who in that capacity engaged in overt and often illegal acts that destroyed the Greenwood community. Your Committee also finds that this event, known as the 1921 Tulsa Race Massacre, and its aftermath were largely omitted from local, state, and national histories for decades, and that none of the officials or residents who took part in the violence were ever held accountable for their actions.

Your Committee has amended this measure by:

- Inserting language describing resolutions introduced in both chambers of the United States Congress in March 2021, recognizing the one hundred year anniversary of the 1921 Tulsa Race Massacre;
- (2) Requesting the members of the United States Congress to take action to advance the current recognitory resolutions;
- (3) Providing that certified copies be sent to the Majority Leader of the United State Senate, Speaker of the United States House of Representatives, members of Hawaii's congressional delegation, Governor of Oklahoma; Mayor and Councilors of the City Council of Tulsa, Oklahoma; and Chair of the 1921 Tulsa Race Massacre Centennial Commission; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 49, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 49, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 1278 Education on S.C.R. No. 81

The purpose and intent of this measure is to urge the Department of Education to include the teaching of financial literacy in the existing personal transition plan course requirement for each student.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that financial literacy education is a lifelong learning process that empowers individuals to plan for their futures. In the past, the educational system has assumed that students will learn important financial skills from their families. However, not all students are being taught the financial skills they will need to be successful later in life. The lack of financial literacy in students poses a significant barrier for individuals seeking to achieve financial prosperity and stability. Your Committee further finds that although the Department of Education offers a financial literacy elective course, it is not required. This measure will encourage the Department of Education to make financial literacy part of required course work.

Your Committee has amended this measure by specifying that the Department of Education is urged to ensure consistency in the financial literacy course.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 81, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 81, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1279 Education on S.R. No. 61

The purpose and intent of this measure is to urge the Department of Education to include the teaching of financial literacy in the existing personal transition plan course requirement for each student.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that financial literacy education is a lifelong learning process that empowers individuals to plan for their futures. In the past, the educational system has assumed that students will learn important financial skills from their families. However, not all students are being taught the financial skills they will need to be successful later in life. The lack of financial literacy in students poses a significant barrier for individuals seeking to achieve financial prosperity and stability. Your Committee further finds that although the Department of Education offers a financial literacy elective course, it is not required. This measure will encourage the Department of Education to make financial literacy part of required course work.

Your Committee has amended this measure by specifying that the Department of Education is urged to ensure consistency in the financial literacy course.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 61, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 61, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1280 Education on S.C.R. No. 249

The purpose and intent of this measure is to request the Board of Education to authorize an e-sports program for public high schools in the State.

Your Committee received no testimony on this measure.

Your Committee finds that electronic sports, more commonly known as e-sports, are video game competitions, often in organized, multiplayer video games, among professional players who compete individually or as teams. The e-sports industry is projected to produce more than \$1,000,000,000 in global revenue each year, with video game companies being a major driver of jobs in the United States and generating more revenue than the music and film industries combined. The support of high school e-sports in Hawaii could aid in creating a path for students to attend college through networking, scholarships, and mentorship. The support of high school e-sports could inspire student interest in Science, Technology, Engineering, and Mathematics (STEM) topics at a young age. This measure will encourage the Department of Education to offer an e-sport program to high school students, which will promote students' passion for video games through competition and social interactions, foster personal growth and academic research, and educate and prepare students for opportunities in the video game industry.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 249 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1281 Education on S.R. No. 208

The purpose and intent of this measure is to request the Board of Education to authorize an e-sports program for public high schools in the State.

Your Committee received no testimony on this measure.

Your Committee finds that electronic sports, more commonly known as e-sports, are video game competitions, often in organized, multiplayer video games, among professional players who compete individually or as teams. The e-sports industry is projected to produce more than \$1,000,000,000 in global revenue each year, with video game companies being a major driver of jobs in the United States and generating more revenue than the music and film industries combined. The support of high school e-sports in Hawaii could aid in creating a path for students to attend college through networking, scholarships, and mentorship. The support of high school e-sports could inspire student interest in Science, Technology, Engineering, and Mathematics (STEM) topics at a young age. This measure will encourage the Department of Education to offer an e-sport program to high school students, which will promote students' passion for video games through competition and social interactions, foster personal growth and academic research, and educate and prepare students for opportunities in the video game industry.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 208 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1282 Education on S.C.R. No. 203

The purpose and intent of this measure is to urge the Board of Education to form a special committee or permitted interaction group to monitor and account for how the Department of Education is spending its federal relief funds.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, HE'E Coalition, and one individual.

Your Committee finds that the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, created the Education Stabilization Fund to provide emergency funding for education systems, and within that fund is the Elementary and Secondary School Emergency Relief (ESSER) Fund, which awards monies to states based on their relative share of Elementary and Secondary Act (ESEA) grants for fiscal year 2019. Allowable uses for ESSER funds include the coordination of preparedness and response efforts with state and local public health departments; providing principals with resources necessary to addressing needs of individual schools; addressing the needs of low-income children, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. The funds may also be used to address how outreach and service delivery will meet the needs of each population; the purchase of educational technology for students, including low-income students and students with disabilities; providing mental health services and support; planning and implementing activities related to summer learning and supplemental after-school programs, including online instruction; and maintaining the continuity of services and the continued employment of existing staff.

Your Committee further finds that on December 21, 2020, Congress passed the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, Public Law 116-260, 2021, which authorized \$900,000,000,000 in stimulus relief through various programs and a \$1,400,000,000,000 omnibus spending. States that received certain federal funds, including monies from the ESSER Fund established by the CARES ACT and the CRRSA Act, are required to assure that they will maintain support for education programs. There are ongoing concerns with the manner in which the Department of Education has been utilizing these ESSER funds, and there have been disagreements between the Board of Education and Department of Education on how ESSER II funds should be spent. This measure will encourage the Board of Education to form a group to oversee the use of those federal funds, which will ensure that there is transparency and accountability in how the Department of Education and their schools utilize those funds to service students

Your Committee notes that the Board of Education should also consider using this special committee or permitted interaction group to create short-, medium-, and long-term strategic plans for the use of federal funds to ensure that the Department of Education maximizes the use of these funds.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 203 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1283 Education on S.R. No. 168

The purpose and intent of this measure is to urge the Board of Education to form a special committee or permitted interaction group to monitor and account for how the Department of Education is spending its federal relief funds.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law 116-136, created the Education Stabilization Fund to provide emergency funding for education systems, and within that fund is the Elementary and Secondary School Emergency Relief (ESSER) Fund, which awards monies to states based on their relative share of Elementary and Secondary Act (ESEA) grants for fiscal year 2019. Allowable uses for ESSER funds include the coordination of preparedness and response efforts with state and local public health departments; providing principals with resources necessary to addressing needs of individual schools; addressing the needs of low-income children, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth. The funds may also be used to address how outreach and

service delivery will meet the needs of each population; the purchase of educational technology for students, including low-income students and students with disabilities; providing mental health services and support; planning and implementing activities related to summer learning and supplemental after-school programs, including online instruction; and maintaining the continuity of services and the continued employment of existing staff.

Your Committee further finds that on December 21, 2020, Congress passed the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, Public Law 116-260, 2021, which authorized \$900,000,000,000 in stimulus relief through various programs and a \$1,400,000,000,000 omnibus spending. States that received certain federal funds, including monies from the ESSER Fund established by the CARES ACT and the CRRSA Act, are required to assure that they will maintain support for education programs. There are ongoing concerns with the manner in which the Department of Education has been utilizing these ESSER funds, and there have been disagreements between the Board of Education and Department of Education on how ESSER II funds should be spent. This measure will encourage the Board of Education to form a group to oversee the use of those federal funds, which will ensure that there is transparency and accountability in how the Department of Education and their schools utilize those funds to service students.

Your Committee notes that the Board of Education should also consider using this special committee or permitted interaction group to create short-, medium-, and long-term strategic plans for the use of federal funds to ensure that the Department of Education maximizes the use of these funds.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 168 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1284 Education on S.C.R. No. 38

The purpose and intent of this measure is to urge the Department of Education School Food Services Branch to adopt an addendum to its agreements for the Aina Pono Hawaii state farm to school program for the purpose of requiring the procurement of goods and services from food hubs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Research and Development, County of Hawaii; Hawaii Public Health Institute; Center for Getting Things Started; Ka Ohana O Na Pua; and three individuals. Your Committee received comments on this measure from the Department of Education; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; and Hawaii Food Bureau.

Your Committee finds that Act 218, Session Laws of Hawaii 2015, spearheaded by the Office of the Lieutenant Governor, established a farm-to-school program within the Department of Agriculture to address the issues of supply, demand, procurement, and consumption of Hawaii-grown foods in state facilities, primarily education facilities, and take reasonable steps to incorporate more agriculture and nutrition education in schools. Your Committee further finds that the Department of Education and Office of the Lieutenant Governor rebranded the farm-to-school program into the Aina Pono Hawaii state farm to school program in 2018 to unite the Department of Education School Food Services Branch's existing health and nutrition education programs, such as Aina Pono Harvest of the Month, test kitchens, meal programs, menu planning, and school gardens.

Your Committee additional finds that farmers in Hawaii face many challenges on their way to achieving economic sustainability. Food hubs provide these small to mid-sized farmers and producers, who are often unable to afford or manage trucks, warehouses, processing space, and storage spaces, with facilities for aggregation, storage, processing, distribution, and marketing support. This measure will increase the procurement of local agricultural products for schools from food hubs.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education is urged to include food hubs as part of the overall procurement strategy for goods and services related to the Aina Pono Hawaii state farm to school program, however, goods and services are not exclusively to be procured from food hubs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 38, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 38, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1285 Education on S.R. No. 27

The purpose and intent of this measure is to urge the Department of Education School Food Services Branch to adopt an addendum to its agreements for the Aina Pono Hawaii state farm to school program for the purpose of requiring the procurement of goods and services from food hubs.

Your Committee received testimony in support of this measure from the Department of Research and Development, County of Hawaii.

Your Committee finds that Act 218, Session Laws of Hawaii 2015, spearheaded by the Office of the Lieutenant Governor, established a farm-to-school program within the Department of Agriculture to address the issues of supply, demand, procurement, and consumption of Hawaii-grown foods in state facilities, primarily education facilities, and take reasonable steps to incorporate more agriculture and nutrition education in schools. Your Committee further finds that the Department of Education and Office of the

Lieutenant Governor rebranded the farm-to-school program into the Aina Pono Hawaii state farm to school program in 2018 to unite the Department of Education School Food Services Branch's existing health and nutrition education programs, such as Aina Pono Harvest of the Month, test kitchens, meal programs, menu planning, and school gardens.

Your Committee additional finds that farmers in Hawaii face many challenges on their way to achieving economic sustainability. Food hubs provide these small to mid-sized farmers and producers, who are often unable to afford or manage trucks, warehouses, processing space, and storage spaces, with facilities for aggregation, storage, processing, distribution, and marketing support. This measure will increase the procurement of local agricultural products for schools from food hubs.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education is urged to include food hubs as part of the overall procurement strategy for goods and services related to the Aina Pono Hawaii state farm to school program, however, goods and services are not exclusively to be procured from food hubs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 27, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 1286 (Joint) Human Services and Government Operations on S.C.R. No. 219

The purpose and intent of this measure is to urge the Executive Office on Aging to convene a working group to develop an outreach plan to kupuna to address their lack of digital literacy, broadband access, and computer equipment.

Your Committees received testimony in support of this measure from AlohaCare, LearningBond, and one individual. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committees find that access to broadband connectivity is a foundation for improved economic growth, job creation, global competitiveness, and a better way of life. Your Committees also find that the coronavirus disease 2019 (COVID-19) pandemic and its broad, adverse economic impact underscored that improved access to broadband services across all communities in Hawaii would enhance economic development, education, health care, public safety, and emergency services in those communities. Further, your Committees find that vulnerable members of our community, such as kupuna, homeless, and recently released prisoners, often lack the digital skills necessary to effectivity utilize newer, current technologies to access career and social support opportunities, which may be accessible online and are especially critical during the COVID-19 pandemic. Your Committees find that kupuna are especially eager for opportunities to learn about technologies that would facilitate their aging independently, but the rapid and constant advancement of technology often makes older adults unsure of their ability to use it, which can leave them uncomfortable and lacking in the self-confidence to utilize technology in their everyday life. Accordingly, your Committee believes the Executive Office on Aging, by convening a working group, could assist in formulating a plan to outreach to kupuna on this important issue.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 219 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1287 (Joint) Human Services and Government Operations on S.R. No. 179

The purpose and intent of this measure is to urge the Executive Office on Aging to convene a working group to develop an outreach plan to kupuna to address their lack of digital literacy, broadband access, and computer equipment.

Your Committees received testimony in support of this measure from AlohaCare, LearningBond, and one individual. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committees find that access to broadband connectivity is a foundation for improved economic growth, job creation, global competitiveness, and a better way of life. Your Committees also find that the coronavirus disease 2019 (COVID-19) pandemic and its broad, adverse economic impact underscored that improved access to broadband services across all communities in Hawaii would enhance economic development, education, health care, public safety, and emergency services in those communities. Further, your Committees find that vulnerable members of our community, such as kupuna, homeless, and recently released prisoners, often lack the digital skills necessary to effectivity utilize newer, current technologies to access career and social support opportunities, which may be accessible online and are especially critical during the COVID-19 pandemic. Accordingly, your Committee believes the Executive Office on Aging, by convening a working group, could assist in formulating a plan to outreach to kupuna on this important issue.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 179 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1288 Agriculture and Environment on S.C.R. No. 92

The purpose and intent of this measure is to request the Department of Agriculture to consider amending its eligibility qualifications and lease terms for its agricultural lots to aid small farm businesses.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii farmers are facing difficulty in obtaining long-term leases and reasonable lease rents because there is pressure on the use of important agricultural land for higher value purposes, resulting in accelerated decline near urban areas due to farmers' disinvestment in their farm operations in anticipation of development. Because lease rents for lands under the Department of Agriculture are lower than privately owned lands, small farmers are attracted to rent lands from the State. However, farmers have had difficulty in meeting bona fide farmer requirements to qualify to lease state lands.

Your Committee also finds that one of the Department of Agriculture's significant challenges for issuing new leases to new and small farming operations is the lack of high quality, vacant farmlands, even though there are qualified bona fide and new farmers applying for desirable parcels. The Department of Agriculture remains amenable to revisiting its current standards for qualifications to lease state farmlands to ensure that it adjusts for and incorporates any changes in agriculture. The initial establishment of the bona fide farmer eligibility requirements to lease state land were established to ensure state agricultural land assets would remain in productive agricultural uses rather than possibly be abused as a vehicle for acquiring inexpensive lands for residential use with minimal farming occurring on the premises. The Department of Agriculture stated that it does not believe modifying the lease qualifications is necessary to improve its ability to fill vacant lands with new small farmers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 92, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 92, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1289 Agriculture and Environment on S.R. No. 71

The purpose and intent of this measure is to request the Department of Agriculture to consider amending its eligibility qualifications and lease terms for its agricultural lots to aid small farm businesses.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii farmers are facing difficulty in obtaining long-term leases and reasonable lease rents because there is pressure on the use of important agricultural land for higher value purposes, resulting in accelerated decline near urban areas due to farmers' disinvestment in their farm operations in anticipation of development. Because lease rents for lands under the Department of Agriculture are lower than privately owned lands, small farmers are attracted to rent lands from the State. However, farmers have had difficulty in meeting bona fide farmer requirements to qualify to lease state lands.

Your Committee also finds that one of the Department of Agriculture's significant challenges for issuing new leases to new and small farming operations is the lack of high quality, vacant farmlands, even though there are qualified bona fide and new farmers applying for desirable parcels. The Department of Agriculture remains amenable to revisiting its current standards for qualifications to lease state farmlands to ensure that it adjusts for and incorporates any changes in agriculture. The initial establishment of the bona fide farmer eligibility requirements to lease state land were established to ensure state agricultural land assets would remain in productive agricultural uses rather than possibly be abused as a vehicle for acquiring inexpensive lands for residential use with minimal farming occurring on the premises. The Department of Agriculture stated that it does not believe modifying the lease qualifications is necessary to improve its ability to fill vacant lands with new small farmers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 71, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 71, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1290 Agriculture and Environment on S.C.R. No. 258

The purpose and intent of this measure is to urge the Department of Agriculture to identify how coffee berry borer and coffee leaf rust entered into Hawaii and measures to prevent the flow of these invasive species into the State to protect the ongoing viability of Hawaii's coffee industry

Your Committee received testimony in support of this measure from Cassandra Farms, Rancho Aloha, Hawaii Coffee Association, and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that in 2010, the coffee berry borer, a small beetle that is harmful to coffee crops worldwide, was found to have infested coffee crops in the Kona and Kau regions of Hawaii island and has since been detected on Oahu, Maui, Kauai, and Lanai. Over ninety percent of coffee farms in the Kona region are affected by the coffee berry borer, where every farm in the region has

experienced a degree of infestation and secondary infestation, drastically reducing the yield of coffee trees and adversely impacting the quantity and price of coffee from the Kona region. Coffee leaf rust can cause severe defoliation of coffee plants that greatly reduces the photosynthetic capacity of plants and vegetative and berry growth are reduced depending on the intensity of rust in the current year. The infestation of coffee farms by the coffee berry borer and coffee leaf rust threatens to dismantle Hawaii's coffee industry because of the severity and rapidity of the infestations.

Despite the lack of resources, the Department of Agriculture has been working with the University of Hawaii and the United States Department of Agriculture Animal and Plant Health Inspection Service to develop measures to prevent the spread of coffee leaf rust, provide outreach, and implement interim rules to limit the spread throughout the State. Your Committee finds that it is imperative that the State understand how the coffee berry borer and coffee leaf rust were introduced to understand and mitigate the risks that these pests may cause to the coffee industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 258, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 258, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1291 Agriculture and Environment on S.R. No. 217

The purpose and intent of this measure is to urge the Department of Agriculture to identify how coffee berry borer and coffee leaf rust entered into Hawaii and measures to prevent the flow of these invasive species into the State to protect the ongoing viability of Hawaii's coffee industry

Your Committee received testimony in support of this measure from Kona Coffee Farmers Association and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that in 2010, the coffee berry borer, a small beetle that is harmful to coffee crops worldwide, was found to have infested coffee crops in the Kona and Kau regions of Hawaii island and has since been detected on Oahu, Maui, Kauai, and Lanai. Over ninety percent of coffee farms in the Kona region are affected by the coffee berry borer, where every farm in the region has experienced a degree of infestation and secondary infestation, drastically reducing the yield of coffee trees and adversely impacting the quantity and price of coffee from the Kona region. Coffee leaf rust can cause severe defoliation of coffee plants that greatly reduces the photosynthetic capacity of plants and vegetative and berry growth are reduced depending on the intensity of rust in the current year. The infestation of coffee farms by the coffee berry borer and coffee leaf rust threatens to dismantle Hawaii's coffee industry because of the severity and rapidity of the infestations.

Despite the lack of resources, the Department of Agriculture has been working with the University of Hawaii and the United States Department of Agriculture Animal and Plant Health Inspection Service to develop measures to prevent the spread of coffee leaf rust, provide outreach, and implement interim rules to limit the spread throughout the State. Your Committee finds that it is imperative that the State understand how the coffee berry borer and coffee leaf rust were introduced to understand and mitigate the risks that these pests may cause to the coffee industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 217, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 217, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1292 Agriculture and Environment on S.C.R. No. 234

The purpose and intent of this measure is to urge the Department of Agriculture to expand the quarantine facilities of the plant quarantine branch.

Your Committee received testimony in support of this measure from the Hawaii Coffee Association and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that responding quickly to newly detected invasive species can often prevent the species from becoming firmly established, saving taxpayers money in the long term. Your Committee notes that administrative rules may allow the Board of Agriculture to shorten or exempt existing quarantine of restricted plants, provided that the plants can be propagated or imported under procedures that would mitigate the risk of pest introductions with associated materials. Your Committee further finds that the Plant Quarantine Branch of the Department of Agriculture is a critical component in meeting the threat of invasive species entering Hawaii and spreading throughout the State. Increased capacity to appropriately quarantine regulated plant materials will benefit growers by enhancing the Department of Agriculture's ability to prevent the entry of invasive species into the State.

Your Committee has amended this measure by:

- (1) Urging the Department of Agriculture to determine the cost of quarantine facilities in affected areas; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 234, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 234, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1293 Agriculture and Environment on S.R. No. 194

The purpose and intent of this measure is to urge the Department of Agriculture to expand the quarantine facilities of the plant quarantine branch.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that responding quickly to newly detected invasive species can often prevent the species from becoming firmly established, saving taxpayers money in the long term. Your Committee notes that administrative rules may allow the Board of Agriculture to shorten or exempt existing quarantine of restricted plants, provided that the plants can be propagated or imported under procedures that would mitigate the risk of pest introductions with associated materials. Your Committee further finds that the Plant Quarantine Branch of the Department of Agriculture is a critical component in meeting the threat of invasive species entering Hawaii and spreading throughout the State. Increased capacity to appropriately quarantine regulated plant materials will benefit growers by enhancing the Department of Agriculture's ability to prevent the entry of invasive species into the State.

Your Committee has amended this measure by:

- (1) Urging the Department of Agriculture to determine the cost of quarantine facilities in affected areas; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 194, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 194, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1294 Human Services on S.C.R. No. 36

The purpose and intent of this measure is to request the Governor's Coordinator on Homelessness to provide a status update on the Kukui'ola Village construction, and to coordinate with the Hawaii Interagency Council on Homelessness to secure additional funding for the Ka Lamaku shelter until construction of the Kukui'ola Village is completed.

Your Committee did not receive testimony on this measure.

Your Committee finds that the Legislature allocated funding to the Hawaii Housing Finance and Development Corporation and 'Ohana Zones initiative to help the State gain momentum in its struggle against homelessness. Your Committee further finds that in November 2019, the County of Hawaii submitted the Final Environmental Assessment and Finding of No Significant Impact (FEA-FONSI) for Kukui'ola Village, allowing the project to move forward. Your Committee also finds that in September 2020, the County of Hawaii blessed the future Kukui'ola Village site at a groundbreaking ceremony; however, the Ka Lamaku temporary homeless emergency shelter should remain funded while the construction of Kukui'ola Village progresses and until its completion.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 36, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 36, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1295 Human Services on S.R. No. 25

The purpose and intent of this measure is to request the Governor's Coordinator on Homelessness to provide a status update on the Kukui'ola Village construction, and to coordinate with the Hawaii Interagency Council on Homelessness to secure additional funding for the Ka Lamaku shelter until construction of the Kukui'ola Village is completed.

Your Committee did not receive testimony on this measure.

Your Committee finds that the Legislature allocated funding to the Hawaii Housing Finance and Development Corporation and 'Ohana Zones initiative to help the State gain momentum in its struggle against homelessness. Your Committee further finds that in November 2019, the County of Hawaii submitted the Final Environmental Assessment and Finding of No Significant Impact (FEA-FONSI) for Kukui'ola Village, allowing the project to move forward. Your Committee also finds that in September 2020, the County of Hawaii blessed the future Kukui'ola Village site at a groundbreaking ceremony; however, the Ka Lamaku temporary homeless emergency shelter should remain funded while the construction of Kukui'ola Village progresses and until its completion.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 25, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 25, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1296 Commerce and Consumer Protection on S.C.R. No. 72

The purpose and intent of this measure is to request the Department of Commerce and Consumer Affairs to establish a working group to develop funding sources for rural broadband improvement.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development & Tourism; Department of Commerce and Consumer Affairs; and Department of Labor and Industrial Relations.

Your Committee finds that the coronavirus disease 2019 pandemic has underscored the critical need for universal broadband access to participate in distance learning, telework and job training, telehealth, social services, and civic and social engagement. This measure will enable coordination among stakeholders to identify broadband deployment obstacles and capitalize on funding opportunities to improve broadband use and foster a robust network and digital equity for all residents, especially those in rural areas of the State.

Your Committee has amended this measure by:

- (1) Correcting the measure's title to reflect the Department of Business, Economic Development and Tourism, rather than the Department of Commerce and Consumer Affairs, is requested to establish the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 72, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 72, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1297 Commerce and Consumer Protection on S.R. No. 54

The purpose and intent of this measure is to request the Department of Commerce and Consumer Affairs to establish a working group to develop funding sources for rural broadband improvement.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association. Your Committee received comments on this measure from the Department of Business, Economic Development & Tourism; Department of Commerce and Consumer Affairs; and Department of Labor and Industrial Relations.

Your Committee finds that the coronavirus disease 2019 pandemic has underscored the critical need for universal broadband access to participate in distance learning, telework and job training, telehealth, social services, and civic and social engagement. This measure will enable coordination among stakeholders to identify broadband deployment obstacles and capitalize on funding opportunities to improve broadband use and foster a robust network and digital equity for all residents, especially those in rural areas of the State.

Your Committee has amended this measure by:

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 54, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 54, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1298 (Joint) Government Operations and Water and Land on S.C.R. No. 78

The purpose and intent of this measure is to request that the Auditor conduct a performance audit of the State Historic Preservation Division of the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Historic Hawai'i Foundation and nine individuals. Your Committees received comments on the measure from the Department of Land and Natural Resources.

Your Committees find that the audits of the State Historic Preservation Division have reported serious internal strife and a significant backlog of project reviews, resulting in the undermining of the preservation and protection of unmarked burial sites throughout the islands. Your Committees further find that the reported systemic and chronic mismanagement of the burial councils by the State Historic Preservation Division has effectively undermined the ability of the island burial councils to provide protection and cultural care to unmarked Hawaiian burial sites in accordance with the program enacted by Act 306, Session Laws of Hawaii 1990.

Your Committees have amended this measure by:

(1) Clarifying that the audit will include all the programs within the State Historic Preservation Division; and

(2) Specifying the scope of the audit to include certain issues, in conformity with the contents of H.B. No. 865, H.D. 1.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 78, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 78, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1299 Government Operations on S.C.R. No. 29

The purpose and intent of this measure is to request that the Legislative Reference Bureau conduct a study of the benefits and drawbacks of implementing term limits for members of the Legislature.

Your Committee received testimony in support of this measure from the Iron Workers Stabilization Fund and one individual. Your Committee received testimony in opposition of this measure from two individuals. Your Committee received comments on the measure from the Legislative Reference Bureau and Common Cause Hawaii.

Your Committee finds that timely, comprehensive, and detailed data helps to develop good policies through informed decision-making in the State. Your Committee further finds that the information from the study proposed in this measure serves to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 29 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Dela Cruz, Gabbard, Fevella). Noes, none. Excused, none.

SCRep. 1300 Government Operations on S.C.R. No. 26

The purpose and intent of this measure is to annually recognize October 11 in Hawaii as the International Day of the Girl.

Your Committee received testimony in support of this measure from Hawaii Children's Action Network Speaks! and one individual. Your Committee received testimony in opposition of this measure from one individual.

Your Committee finds that girl children worldwide enjoy fewer of the rights, opportunities, and benefits of childhood and adolescence than boys enjoy, such as access to quality education, nutrition, and physical and mental health care. The intent of this measure is to empower and advance girls by increasing awareness of the challenges that girls around the world face and supporting opportunities for girls to reach their full social, political, and economic potential in accordance with their own aspirations.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 26, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 26, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1301 Government Operations on S.R. No. 15

The purpose and intent of this measure is to annually recognize October 11 in Hawaii as the International Day of the Girl.

Your Committee received testimony in support of this measure from Hawaii Children's Action Network Speaks! and one individual.

Your Committee finds that girl children worldwide enjoy fewer of the rights, opportunities, and benefits of childhood and adolescence than boys enjoy, such as access to quality education, nutrition, and physical and mental health care. The intent of this measure is to empower and advance girls by increasing awareness of the challenges that girls around the world face and supporting opportunities for girls to reach their full social, political, and economic potential in accordance with their own aspirations.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1302 Higher Education on S.C.R. No. 201

The purpose and intent of this measure is to request the University of Hawaii and University of Hawaii Professional Assembly to convene a task force to examine and assess the University of Hawaii's tenure system for researchers and other non-instructional faculty in comparison to peer higher education institutions across the United States, and propose the best practices to be implemented by the University of Hawaii.

Your Committee received comments on this measure from the University of Hawai'i System and University of Hawaii Professional Assembly.

Your Committee finds that the University of Hawaii (University) is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. The University grants to certain faculty members academic tenure, which is defined as an indefinite appointment that can be terminated only for cause or under extraordinary circumstances such as financial exigency and program discontinuation. Therefore, the University's decision to classify a faculty position as one eligible for academic tenure results in the long-term commitment of public resources for that position.

Your Committee believes that an educated workforce is a critical determinant of the economic and social health of the State, and therefore, the ability to instruct, educate, and prepare students to enter the workforce are indispensable skills that should be supported by public funds. However, the University continues to grant academic tenure to not only "I" (Instructional faculty), but also to Non-Instructional faculty, including "R" (Researchers) who primarily engage in research. Furthermore, according to the American Association of University Professors, from which the modern conception of tenure in the U.S. higher education originated, the tenure system in U.S. higher education has eroded, where the percentage of faculty members that are off tenure-track has been steadily increasing throughout the United States.

Your Committee believes that it is a matter of statewide concern to ensure that public resources are targeted to support academic tenure for faculty whose primary duties are to provide instruction to students. The task force created under this measure will examine and assess the University's tenure system for Researchers and other Non-Instructional faculty, in comparison to peer higher education institutions across the United States and propose the best practices to be implemented by the University.

Your Committee notes and appreciates testimony from the Board of Regents of the University of Hawaii acknowledging its responsibility to establish faculty classifications and informing of its recent formation of a Permitted Interaction Group (PIG) that will be examining the University's post-tenure review process and faculty classification structure. Based on this testimony, your Committee considered if the PIG will be able to address the concerns raised in this measure. However, your Committee was notified that the PIG has a broader, long-term vision pertaining to the University and its mission, and that its initial focus will be on assessing the strategic alignment among the mission of the University, the purpose of academic tenure, and its current tenure practices for the entire faculty.

Your Committee further notes that S.C.R. No. 202, Regular Session of 2021, which is also being heard by your Committee, requests the University to convene a working group to assess the compensation structure of its faculty engaged in activities supported by extramural funding (i.e., monies received through grants or contracts), including Researchers, Specialists, and Extension Agents, in comparison to best practices implemented at peer higher education institutions in the United States. Since the subject matters requested to be examined in this measure and S.C.R. No. 202 both pertain to the University's policies and practices relating to its Non-Instructional faculty, your Committee believes that convening of one task force should be sufficient.

Accordingly, your Committee has amended this measure by:

- (1) Incorporating the language from S.C.R. No. 202;
- (2) Amending its title in accordance with its amended purpose;
- (3) Amending the composition of the task force by including the Associate Executive Director of Governance of the University of Hawaii Professional Assembly; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 201, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 201, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1303 Higher Education on S.R. No. 166

The purpose and intent of this measure is to request the University of Hawaii and University of Hawaii Professional Assembly to convene a task force to examine and assess the University of Hawaii's tenure system for researchers and other non-instructional faculty in comparison to peer higher education institutions across the United States, and propose the best practices to be implemented by the University of Hawaii.

Your Committee received comments on this measure from the University of Hawai'i System and University of Hawaii Professional Assembly.

Your Committee finds that the University of Hawaii (University) is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. The University grants to certain faculty members academic tenure, which is defined as an indefinite appointment that can be terminated only for cause or under extraordinary circumstances such as financial exigency and program discontinuation. Therefore, the University's decision to classify a faculty position as one eligible for academic tenure results in the long-term commitment of public resources for that position.

Your Committee believes that an educated workforce is a critical determinant of the economic and social health of the State, and therefore, the ability to instruct, educate, and prepare students to enter the workforce are indispensable skills that should be supported by public funds. However, the University continues to grant academic tenure to not only "I" (Instructional faculty), but also to Non-Instructional faculty, including "R" (Researchers) who primarily engage in research. Furthermore, according to the American

Association of University Professors, from which the modern conception of tenure in the U.S. higher education originated, the tenure system in U.S. higher education has eroded, where the percentage of faculty members that are off tenure-track has been steadily increasing throughout the United States.

Your Committee believes that it is a matter of statewide concern to ensure that public resources are targeted to support academic tenure for faculty whose primary duties are to provide instruction to students. The task force created under this measure will examine and assess the University's tenure system for Researchers and other Non-Instructional faculty, in comparison to peer higher education institutions across the United States and propose the best practices to be implemented by the University.

Your Committee notes and appreciates testimony from the Board of Regents of the University of Hawaii acknowledging its responsibility to establish faculty classifications and informing of its recent formation of a Permitted Interaction Group (PIG) that will be examining the University's post-tenure review process and faculty classification structure. Based on this testimony, your Committee considered if the PIG will be able to address the concerns raised in this measure. However, your Committee was notified that the PIG has a broader, long-term vision pertaining to the University and its mission, and that its initial focus will be on assessing the strategic alignment among the mission of the University, the purpose of academic tenure, and its current tenure practices for the entire faculty.

Your Committee further notes that S.C.R. No. 202, Regular Session of 2021, which is also being heard by your Committee, requests the University to convene a working group to assess the compensation structure of its faculty engaged in activities supported by extramural funding (i.e., monies received through grants or contracts), including Researchers, Specialists, and Extension Agents, in comparison to best practices implemented at peer higher education institutions in the United States. Since the subject matters requested to be examined in this measure and S.C.R. No. 202 both pertain to the University's policies and practices relating to its Non-Instructional faculty, your Committee believes that convening of one task force should be sufficient.

Accordingly, your Committee has amended this measure by:

- (1) Incorporating the language from S.C.R. No. 202;
- (2) Amending its title in accordance with its amended purpose;
- (3) Amending the composition of the task force by including the Associate Executive Director of Governance of the University of Hawaii Professional Assembly; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 166, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1304 Higher Education on S.C.R. No. 183

The purpose and intent of this measure is to request the University of Hawaii (University) to convene a task force to examine and assess the reasonableness, necessity, and feasibility of each of the terms and conditions of its arrangement for services with the Research Corporation of the University of Hawaii (RCUH); determine whether amendments are warranted; and propose amendments.

Your Committee received comments on this measure from the University of Hawai'i System and Research Corporation of the University of Hawai'i.

Your Committee finds that the University is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. The RCUH is a public instrumentality of the State that is a part of the University, having the mission of supporting and enhancing research, development, and training in Hawaii, with a focus on the University. To carry out its purposes and objectives, the RCUH is granted flexibility in the obligations to reimburse the state general fund for central service and administrative expenses; certain provisions of the Hawaii Public Procurement Code; Civil Service Law; law relating to public employment; and laws relating to collective bargaining in public employment.

When the University determines that neither it nor another state agency can more effectively or efficiently accomplish the purposes of sponsored research and training activities, it must contract with the RCUH to receive management and other services to support such research and training activities. The terms and conditions of the services provided by the RCUH to the University, including the factors and method by which fees charged by the RCUH are computed, are set forth in an agreement (Service Agreement) between the two parties.

Your Committee finds that concerns have been raised over the transparency of the RCUH's operations and its handling of expenses, as well as the increasing amount of fees it charges and collects from the University. Thus, your Committee believes that the task force created under this measure should not merely review, but also examine and assess the terms and conditions of the Service Agreement and propose amendments thereto to ensure that the fees committed and paid by the University to the RCUH are reasonable and commensurate with and balanced against the needs, priorities, and other demands placed on the University's limited resources.

Accordingly, your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Inserting language explaining that when the University contracts out sponsored research and training activities to the RCUH, it retains portions of the extramural funds and grants it receives, as internal costs computed by using certain internal costs rates;

- (3) Amending the composition of the task force by including the Director of Finance of the RCUH and reducing the number of members representing the University from four to three;
- (4) Inserting as items requested to be included in the task force's report to the Legislature, the breakdown of the extramural funds and grants received by the University, including the amount of internal costs retained by the University, the formulae and rates used to compute the internal costs, and how the University spent the internal costs; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 183, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 183, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1305 Higher Education on S.R. No. 148

The purpose and intent of this measure is to request the University of Hawaii (University) to convene a task force to examine and assess the reasonableness, necessity, and feasibility of each of the terms and conditions of its arrangement for services with the Research Corporation of the University of Hawaii (RCUH); determine whether amendments are warranted; and propose amendments.

Your Committee received comments on this measure from the University of Hawai'i System and Research Corporation of the University of Hawai'i.

Your Committee finds that the University is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. The RCUH is a public instrumentality of the State that is a part of the University, having the mission of supporting and enhancing research, development, and training in Hawaii, with a focus on the University. To carry out its purposes and objectives, the RCUH is granted flexibility in the hiring of its personnel and in the handling and disbursement of monies, by being excepted from various state laws, including the obligations to reimburse the state general fund for central service and administrative expenses; certain provisions of the Hawaii Public Procurement Code; Civil Service Law; law relating to public employment; and laws relating to collective bargaining in public employment.

When the University determines that neither it nor another state agency can more effectively or efficiently accomplish the purposes of sponsored research and training activities, it must contract with the RCUH to receive management and other services to support such research and training activities. The terms and conditions of the services provided by the RCUH to the University, including the factors and method by which fees charged by the RCUH are computed, are set forth in an agreement (Service Agreement) between the two parties.

Your Committee finds that concerns have been raised over the transparency of the RCUH's operations and its handling of expenses, as well as the increasing amount of fees it charges and collects from the University. Thus, your Committee believes that the task force created under this measure should not merely review, but also examine and assess the terms and conditions of the Service Agreement and propose amendments thereto to ensure that the fees committed and paid by the University to the RCUH are reasonable and commensurate with and balanced against the needs, priorities, and other demands placed on the University's limited resources.

Accordingly, your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Inserting language explaining that when the University contracts out sponsored research and training activities to the RCUH, it retains portions of the extramural funds and grants it receives, as internal costs computed by using certain internal costs rates;
- (3) Amending the composition of the task force by including the Director of Finance of the RCUH and reducing the number of members representing the University from four to three;
- (4) Inserting as items requested to be included in the task force's report to the Legislature, the breakdown of the extramural funds and grants received by the University, including the amount of internal costs retained by the University, the formulae and rates used to compute the internal costs, and how the University spent the internal costs; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 148, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 148, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1306 Labor, Culture and the Arts on S.C.R. No. 168

The purpose and intent of this measure is to urge the Department of Human Resources Development to reexamine the qualifications for state positions that are currently vacant and replace the job requirement of a bachelor's degree with an associate degree or certificate, where applicable.

Your Committee received comments on this measure from the Department of Human Resources Development and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the state government has over 27,700 positions that are currently vacant. The high vacancy rate is a concern for the public to which government provides critical services as well as existing state employees who are overburdened with fulfilling departmental missions with limited personnel. Your Committee further finds that there are various courses offered in the University of Hawaii community college system and apprenticeship programs that prepare participants for jobs in administrative support positions. Upon satisfactory completion of such courses and programs, the participants may apply the work process and related instruction hours to an associate degree or receive certain certificates. This measure will enable individuals with associate degrees and certificates to seek and fill, when appropriate, vacant state positions that currently require a bachelor's degree, and thereby increase the availability and improve the quality of customer service provided to the public, while providing Hawaii residents with access to stable careers and income. Your Committee also believes this will be a good opportunity for the Department of Human Resources Development to conduct a detailed review of the job classifications of the State's workforce and determine qualifications that warrant elimination or revision.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 168 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1307 Labor, Culture and the Arts on S.R. No. 133

The purpose and intent of this measure is to urge the Department of Human Resources Development to reexamine the qualifications for state positions that are currently vacant and replace the job requirement of a bachelor's degree with an associate degree or certificate, where applicable.

Your Committee received comments on this measure from the Department of Human Resources Development and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the state government has over 27,700 positions that are currently vacant. The high vacancy rate is a concern for the public to which government provides critical services as well as existing state employees who are overburdened with fulfilling departmental missions with limited personnel. Your Committee further finds that there are various courses offered in the University of Hawaii community college system and apprenticeship programs that prepare participants for jobs in administrative support positions. This measure will enable individuals with associate degrees and certificates to seek and fill, when appropriate, vacant state positions that currently require a bachelor's degree, and thereby increase the availability and improve the quality of customer service provided to the public, while providing Hawaii residents with access to stable careers and income. Your Committee also believes this will be a good opportunity for the Department of Human Resources Development to conduct a detailed review of the job classifications of the State's workforce and determine qualifications that warrant elimination or revision.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 133 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1308 Education on S.C.R. No. 152

The purpose and intent of this measure is to urge the Department of Education to coordinate with the Department of Commerce and Consumer Affairs to implement a graduation requirement of at least a half credit in financial literacy during the junior year or senior year.

Your Committee received testimony in support of this measure from Junior Achievement of Hawaii and Visa, Inc. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that financial literacy is the capacity, based on knowledge, skills, and access, to manage financial resources effectively. Students lacking financial literacy are more likely to have lower credit scores and financial problems than those who received instruction regarding financial matters. The Department of Education, in coordination with the Department of Commerce and Consumer Affairs, offer several financial literacy materials and instruction, but lack a comprehensive financial literacy standard and curriculum. This measure will create a financial literacy task force to implement a financial literacy requirement in schools so that students will be provided practical information on matters relating to banking, credit cards, student loans, filing taxes, credit scores, savings and investments, rental deposits, and wages and benefits analysis.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 152 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1309 Education on S.R. No. 118

The purpose and intent of this measure is to urge the Department of Education to coordinate with the Department of Commerce and Consumer Affairs to implement a graduation requirement of at least a half credit in financial literacy during the junior year or senior year.

Your Committee received testimony in support of this measure from Visa, Inc.

Your Committee finds that financial literacy is the capacity, based on knowledge, skills, and access, to manage financial resources effectively. Students lacking financial literacy are more likely to have lower credit scores and financial problems than those who received instruction regarding financial matters. The Department of Education, in coordination with the Department of Commerce and Consumer Affairs, offer several financial literacy materials and instruction, but lack a comprehensive financial literacy standard and curriculum. This measure will create a financial literacy task force to implement a financial literacy requirement in schools so that students will be provided practical information on matters relating to banking, credit cards, student loans, filing taxes, credit scores, savings and investments, rental deposits, and wages and benefits analysis.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 118 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1310 Education on S.C.R. No. 160

The purpose and intent of this measure is to request the Department of Education to create a landscape management plan with the goal to increase tree canopies on public school grounds, document existing inventory and talent, and identify additional resources required to implement and sustain the plan.

Your Committee received testimony in support of this measure from the Trees for Honolulu's Future.

Your Committee finds that the increase in hot days makes it difficult for students to learn at school. Increasing the tree canopy on school grounds will enable students to continue to play, learn, and gather outside, even as the temperature rises. Trees on school campuses will also absorb storm water, clean the air, beautify campuses, and help towards reaching county and state environmental goals. An abundance of trees on school campuses would help cool each campus and provide a multitude of learning opportunities, including learning the role trees play in the overall health of the ecosystem, cultural uses of indigenous trees, tree propagation and care, commercial uses of trees, and participation in community programs that promote tree planting. This measure will create a plan to increase tree canopies on school campuses, which will provide students with a cooler, more beautiful, and healthier learning space.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 160 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1311 Education on S.R. No. 125

The purpose and intent of this measure is to request the Department of Education to create a landscape management plan with the goal to increase tree canopies on public school grounds, document existing inventory and talent, and identify additional resources required to implement and sustain the plan.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the increase in hot days makes it difficult for students to learn at school. Increasing the tree canopy on school grounds will enable students to continue to play, learn, and gather outside, even as the temperature rises. Trees on school campuses will also absorb storm water, clean the air, beautify campuses, and help towards reaching county and state environmental goals. An abundance of trees on school campuses would help cool each campus and provide a multitude of learning opportunities, including learning the role trees play in the overall health of the ecosystem, cultural uses of indigenous trees, tree propagation and care, commercial uses of trees, and participation in community programs that promote tree planting. This measure will create a plan to increase tree canopies on school campuses, which will provide students with a cooler, more beautiful, and healthier learning space.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 125 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1312 Education on S.C.R. No. 238

The purpose and intent of this measure is to request the Department of Education, Hawaii High School Athletic Association, Big Island Interscholastic Federation, Oahu Interscholastic Association, Interscholastic League of Hawaii, Maui Interscholastic League, and Kauai Interscholastic Federation to create a plan to implement bass fishing as a sanctioned high school sport.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that high school fishing is one of the fastest-growing sports in the nation. The State has an existing population of largemouth bass fish for which the Department of Land and Natural Resources issues fishing licenses. Hawaii has an established history with bass fish beginning with the first observation on the island of Hawaii in 1856, followed by observations on Oahu, Maui, and Kauai in 1897. Oahu has a pre-established bass hatchery located at Wahiawa Middle School, which is supplied by the Department of Agriculture's Division of Aquatic Resources. This measure would create a plan to establish bass fishing as a high school sport, which would instill a sense of pride and belonging in students, give students a reason to attain academic achievement, and provide a competitive outlet for our keiki.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 238 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1313 Education on S.R. No. 198

The purpose and intent of this measure is to request the Department of Education, Hawaii High School Athletic Association, Big Island Interscholastic Federation, Oahu Interscholastic Association, Interscholastic League of Hawaii, Maui Interscholastic League, and Kauai Interscholastic Federation to create a plan to implement bass fishing as a sanctioned high school sport.

Your Committee did not receive any testimony on this measure.

Your Committee finds that high school fishing is one of the fastest-growing sports in the nation. The State has an existing population of largemouth bass fish for which the Department of Land and Natural Resources issues fishing licenses. Hawaii has an established history with bass fish beginning with the first observation on the island of Hawaii in 1856, followed by observations on Oahu, Maui, and Kauai in 1897. Oahu has a pre-established bass hatchery located at Wahiawa Middle School, which is supplied by the Department of Agriculture's Division of Aquatic Resources. This measure would create a plan to establish bass fishing as a high school sport, which would instill a sense of pride and belonging in students, give students a reason to attain academic achievement, and provide a competitive outlet for our keiki.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 198 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1314 Education on S.C.R. No. 151

The purpose and intent of this measure is to encourage the Department of Education, complex areas, and charter schools to implement school-wide restorative justice practices in Hawaii's public and charter schools.

Your Committee received testimony in support of this measure from the Department of Education, Teran James Young Foundation, and nine individuals.

Your Committee finds that studies show that suspension and expulsion, which are traditional methods of addressing disciplinary issues in schools, do not make schools safer and result in lower graduation rates and increased rates of involvement in the juvenile justice system, and expanding the school to prison pipeline. Studies have also shown that restorative justice practices can lead to reductions in problem behavior; improvements in school climate; and increases in student achievement, attendance, and graduation rates. This measure encourages restorative practices to be implemented in public and charter schools in the State to create positive learning environments in its schools. Your Committee believes that the aim of this measure should be to encourage the implementation of a comprehensive system of supports prior to youth becoming involved with the justice system, therefore the scope should be widened to "restorative practices" rather than restricted to "restorative justice practices". Therefore, amendments are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that restorative practices are to be implemented in the State's public and charter schools;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 151, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 151, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1315 Education on S.C.R. No. 153

The purpose and intent of this measure is to request the convening of a working group to discuss the role of the Hawaii public charter school authorizer, its relationship with charter schools, the accountability for the use of public funds, and whether or not legislation is required to effectuate any desired changes.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and one individual. Your Committee received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the Hawaii State Public Charter School Commission has faced questions on the role of the authorizer and its relationship with charter schools. There is a need to clarify the purpose and intent of charter school authorizers. Your Committee also notes that the need for transparency and accountability for the use of public funds must be balanced with the authority for the charter school to educate our keiki. This measure will convene a Charter School Authorizers Working Group to address these problems.

Your Committee has amended this measure by:

- (1) Specifying that a representative of a conversion and Hawaiian immersion school be included in the working group; and
- (2) Clarifying that any legislative recommendations should include national best practices as applicable to Hawaii's public charter school system and focus on positive student outcomes in public education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 153, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 153, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1316 (Joint) Human Services and Government Operations on S.C.R. No. 7

The purpose and intent of this measure is to request the Disability and Communication Access Board in collaboration with the Office of Enterprise Technology Services to convene a working group on accessible government documents.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Office of Enterprise Technology Services, Disability and Communication Access Board, National Federation of the Blind of Hawaii, and eight individuals. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that an accessible document is a document created to be as easily readable by a sighted reader as a low-vision or non-sighted reader. However, public agencies that are required to provide accessible documents do not always have staff that understand how to make the information accessible. Your Committees also find that the increasing use of technology to communicate can also present complications and challenges, such as the various state agency websites that post public meeting notices, agendas, and attached resource documents that may not necessarily all be in accessible formats, especially when attachments are scanned copies. This measure requests that a work group be convened to address these issues; however amendments are needed in light of testimony your Committees received.

Your Committees have amended this measure by:

- (1) Requesting that the National Federation of the Blind of Hawaii replace the Disability and Communication Access Board, as co-chair of the proposed working group;
- (2) Adding a representative of the Disability and Communication Access Board to the proposed list of working group members;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 7, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 7, S.D. 1.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1317 (Joint) Human Services and Government Operations on S.R. No. 5

The purpose and intent of this measure is to request the Disability and Communication Access Board in collaboration with the Office of Enterprise Technology Services to convene a working group on accessible government documents.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Office of Enterprise Technology Services, Disability and Communication Access Board, National Federation of the Blind of Hawaii, and nine individuals. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that an accessible document is a document created to be as easily readable by a sighted reader as a low-vision or non-sighted reader. However, public agencies that are required to provide accessible documents do not always have staff that understand how to make the information accessible. Your Committees also find that the increasing use of technology to communicate can also present complications and challenges, such as the various state agency websites that post public meeting notices, agendas, and attached resource documents that may not necessarily all be in accessible formats, especially when attachments are scanned copies. This measure requests that a work group be convened to address these issues; however amendments are needed in light of testimony your Committees received.

Your Committees have amended this measure by:

- (1) Requesting that the National Federation of the Blind of Hawaii replace the Disability and Communication Access Board, as co-chair of the proposed working group;
- (2) Adding a representative of the Disability and Communication Access Board to the proposed list of working group members;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 5, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 5, S.D. 1.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1318 Commerce and Consumer Protection on S.C.R. No. 161

The purpose and intent of this measure is to support and urge the inclusion of gender transition treatments and services as medically necessary for the purposes of health care insurance coverage.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, LGBT Caucus of the Democratic Party of Hawaii, Hawaii Health & Harm Reduction Center, Planned Parenthood Votes Northwest and Hawaii, AF3IRM Hawaii, University of Hawaii at Manoa, Rainbow Family 808, The Trevor Project, ACLU Hawaii, and seventeen individuals.

Your Committee finds that, despite legislation enacted in 2016 that prohibits health insurance discrimination in participation or coverage under a policy against any person on the basis of the person's actual or perceived gender identity, numerous complaints have revealed that health insurance providers are not complying with the law, leaving many patients in a state of uncertainty about their rights and how to receive the medically necessary care to which they are entitled, which can in turn put lives and mental health at great risk. This measure acknowledges the medical necessity of transition-related treatment and services and provides guidance to health insurance providers to support increased access to care and services.

Your Committee notes the concerns raised in testimony that amendments to this measure are needed to require the Auditor to perform a social and financial assessment of newly mandated health insurance coverage, as required by law. These amendments would further support the goals of this measure and ensure that gender transition treatments be considered medically necessary for Hawaii's transgender community and covered by their health insurance policies.

Accordingly, your Committee has amended this measure by:

- (1) Updating the measure's title to reflect its amended purpose;
- (2) Inserting language requesting the Auditor to assess the social and financial effects of requiring health insurers to provide coverage for certain health care services related to gender transition treatments, as identified in S.B. No. 752, Regular Session of 2021;
- (3) Inserting language requesting the Auditor to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature, no later than twenty days prior to the convening of the Regular Session of 2022;
- (4) Updating the parties entitled to receive certified copies of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 161, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 161, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 1319 Commerce and Consumer Protection on S.R. No. 126

The purpose and intent of this measure is to support and urge the inclusion of gender transition treatments and services as medically necessary for the purposes of health care insurance coverage.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Health & Harm Reduction Center, AF3IRM Hawai'i, University of Hawai'i at Manoa, Rainbow Family 808, The Trevor Project, ACLU Hawai'i, and three individuals.

Your Committee finds that, despite legislation enacted in 2016 that prohibits health insurance discrimination in participation or coverage under a policy against any person on the basis of the person's actual or perceived gender identity, numerous complaints have revealed that health insurance providers are not complying with the law, leaving many patients in a state of uncertainty about their rights and how to receive the medically necessary care to which they are entitled, which can in turn put lives and mental health at great risk. This measure acknowledges the medical necessity of transition-related treatment and services and provides guidance to health insurance providers to support increased access to care and services.

Your Committee notes the concerns raised in testimony that amendments to this measure are needed to require the Auditor to perform a social and financial assessment of newly mandated health insurance coverage, as required by law. These amendments would further support the goals of this measure and ensure that gender transition treatments be considered medically necessary for Hawaii's transgender community and covered by their health insurance policies.

Accordingly, your Committee has amended this measure by:

- (1) Updating the measure's title to reflect its amended purpose;
- (2) Inserting language requesting the Auditor to assess the social and financial effects of requiring health insurers to provide coverage for certain health care services related to gender transition treatments, as identified in S.B. No. 752, Regular Session of 2021;

- (4) Updating the parties entitled to receive certified copies of this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 126, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 126, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 1320 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 25

The purpose and intent of this measure is to request the Department of Public Safety to allow faith pods based on kapu aloha to be established within each correctional center.

Your Committee received testimony in support of this measure from the Department of Public Safety, Ohana Hoʻopakele, Malu ʻAina, and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that native Hawaiians are severely overrepresented in the State's prison population and have a much higher recidivism rate than non-Hawaiians. Pu'uhonua is a decentralized wellness center that can act as an alternative to building more prisons in the State and is based on healing inhabitants and eventually returning them back to the community. Your Committee further finds that non-violence has always been key to Hawaiians, as represented in the Hawaiian cultural practice of kapu aloha. Incarcerated individuals, or pa'ahao, have initiated Hawaiian cultural programs within different correctional systems known as "faith pods" throughout the nation to help promote safe spaces to heal and regain their identity as Hawaiians. This measure will allow faith pods to be established in correctional center in the State to provide Hawaiians with the opportunity to practice native Hawaiian cultural practices in those centers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 25, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1321 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 14

The purpose and intent of this measure is to request the Department of Public Safety to allow faith pods based on kapu aloha to be established within each correctional center.

Your Committee received testimony in support of this measure from the Department of Public Safety, Ohana Hoʻopakele, Malu ʻAina, and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that native Hawaiians are severely overrepresented in the State's prison population and have a much higher recidivism rate than non-Hawaiians. Pu'uhonua is a decentralized wellness center that can act as an alternative to building more prisons in the State and is based on healing inhabitants and eventually returning them back to the community. Your Committee further finds that non-violence has always been key to Hawaiians, as represented in the Hawaiian cultural practice of kapu aloha. Incarcerated individuals, or pa'ahao, have initiated Hawaiian cultural programs within different correctional systems known as "faith pods" throughout the nation to help promote safe spaces to heal and regain their identity as Hawaiians. This measure will allow faith pods to be established in correctional center in the State to provide Hawaiians with the opportunity to practice native Hawaiian cultural practices in those centers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 14, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 14, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1322 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 47

The purpose and intent of this measure is to urge the Department of Veterans Affairs to recognize a presumptive service connection for chronically ill veterans who were stationed at Kunia Field and to provide medical care and long-term services regardless of the veterans' ability to conclusively link their conditions to toxic exposure.

Your Committee received testimony in support of this measure from six individuals.

Your Committee finds that Kunia Field Station was constructed on the island of Oahu during World War II to serve as an underground bomb-proof aircraft assembly plant. Kunia Field Station is located under former pineapple fields near Wheeler Army Airfield and Schofield Barracks and was exposed to pesticides, herbicides, fumigants, smoke, and other toxins and carcinogens while pineapple agriculture was active, from approximately 1940 to 2008. A chemical spill in 1977 and a flood in 1991 further exposed the area and its drinking water to toxic substances, including the soil fumigant ethylene dibromide, identified as a probable human carcinogen. Many veterans who were stationed at Kunia Field Station have developed cancer, neurological conditions, dementia, and other chronic illnesses. However, the official position of the Department of Veterans Affairs is that veterans stationed at Kunia Field Station were not exposed to toxic substances, making it difficult for these veterans to receive medical care and long-term service. This

measure urges the Department of Veteran Affairs to recognize that chronically ill veterans who were stationed at Kunia Field were exposed to toxins, which caused their illness, so that those veterans may receive medical care and long-term services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1323 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 48

The purpose and intent of this measure is to request the United States Marine Corps to complete an environmental impact statement for the shoreline stabilization at the Puuloa Range training facility.

Your Committee received testimony in support of this measure from SaveEwaShoreline, Kanehili Cultural Hui, and fourteen individuals. Your Committee received comments on this measure from the Marine Corps Base Hawaii.

Your Committee finds that studies conducted by the University of Hawaii show that hardening the shoreline of Oahu where there is chronic coastal erosion causes beach narrowing and beach loss. The shoreline stabilization project at the Puuloa Range Training Facility (PRTF) is a plan to harden the shoreline along the makai boundary of the PRTF. The shoreline stabilization at PRTF environmental assessment (2019) released by Marine Corps Base Hawaii does not properly consider potential beach narrowing and beach loss west of PRTF resulting from strong trade wind wave events producing east to west near shore sand transport. This measure urges Marine Corps Base Hawaii to conduct an environmental impact statement to consider potential beach narrowing and beach loss at PRTF

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 48 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1324 (Majority) Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 62

The purpose and intent of this measure is to urge the United States Congress to enact federal legislation granting statehood to the people of Washington, D.C.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the passage of the Organic Act of 1801 placed the District of Columbia under the exclusive authority of the United States Congress and abolished residents' right to vote for members of Congress and the President and Vice President of the United States. Residents of the District of Columbia were granted the right to vote for the President and Vice President through passage of the Twenty—Third Amendment to the United States Constitution in 1961. Residents of the District of Columbia share all the responsibilities of United States citizenship, including paying more federal taxes than residents of twenty-two states, service on federal juries, and defending the United States as members of the United States armed forces in every war since the War for Independence, yet they are denied full representation in Congress. The residents of the District of Columbia lack full democracy, equality, and citizenship enjoyed by the residents of the fifty states. This measure will urge the United States Congress to provide the residents of the District of Columbia with the same democratic rights guaranteed to the residents of the existing fifty states.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 62 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Riviere). Excused, 1 (English).

SCRep. 1325 (Majority) Public Safety, Intergovernmental, and Military Affairs on S.R. No. 44

The purpose and intent of this measure is to urge the United States Congress to enact federal legislation granting statehood to the people of Washington, D.C.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the passage of the Organic Act of 1801 placed the District of Columbia under the exclusive authority of the United States Congress and abolished residents' right to vote for members of Congress and the President and Vice President of the United States. Residents of the District of Columbia were granted the right to vote for the President and Vice President through passage of the Twenty–Third Amendment to the United States Constitution in 1961. Residents of the District of Columbia share all the responsibilities of United States citizenship, including paying more federal taxes than residents of twenty-two states, service on federal juries, and defending the United States as members of the United States armed forces in every war since the War for Independence, yet they are denied full representation in Congress. The residents of the District of Columbia lack full democracy, equality, and citizenship enjoyed by the residents of the fifty states. This measure will urge the United States Congress to provide the residents of the District of Columbia with the same democratic rights guaranteed to the residents of the existing fifty states.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 44 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Riviere). Excused, 1 (English).

SCRep. 1326 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 69

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to develop an evacuation plan for the areas within lava zones 1, 2, 3, 4, and 6.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Mauna Loa is the largest active volcano on Earth, rising approximately 13,680 feet above the Pacific Ocean and encompasses more than half the area of the island of Hawaii. Your Committee further finds that the Kilauea volcano is currently erupting with lava pouring into the lava lake within Halemaumau crater. There are numerous volcanic hazards associated with a Mauna Loa eruption and the active Kilauea volcano. Lava flows from Kilauea and Mauna Loa will interfere with human activity and infrastructure as development and communities increase around these active volcanos, including but not limited to the South Kona and Kau areas. Perhaps the greatest risk is the lack of a plan to evacuate the residents of these areas in the event of a lava flow. As such, it is critical that the Hawaii Emergency Management Agency be prepared to respond to county requests for state assistance in the case of hazardous volcanic activity. This measure urges the Hawaii Emergency Management Agency to develop an evacuation plan for the South Kona and Kau areas so that the residents can be quickly evacuated should volcanic activity become hazardous in those areas.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 69 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1327 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 51

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to develop an evacuation plan for the areas within lava zones 1, 2, 3, 4, and 6.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Mauna Loa is the largest active volcano on Earth, rising approximately 13,680 feet above the Pacific Ocean and encompasses more than half the area of the island of Hawaii. Your Committee further finds that the Kilauea volcano is currently erupting with lava pouring into the lava lake within Halemaumau crater. There are numerous volcanic hazards associated with a Mauna Loa eruption and the active Kilauea volcano. Lava flows from Kilauea and Mauna Loa will interfere with human activity and infrastructure as development and communities increase around these active volcanos, including but not limited to the South Kona and Kau areas. Perhaps the greatest risk is the lack of a plan to evacuate the residents of these areas in the event of a lava flow. As such, it is critical that the Hawaii Emergency Management Agency be prepared to respond to county requests for state assistance in the case of hazardous volcanic activity. As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 51 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1328 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 73

The purpose and intent of this measure is to urge the Department of Defense to continue to operate the Hawaii National Guard Youth Challenge Academy's Hilo Campus.

Your Committee received comments on this measure from the Department of Defense.

Your Committee finds that the mission of the National Guard youth challenge program is to intervene in and reclaim the lives of sixteen to eighteen year old "at promise" youth and produce program graduates with the values, life skills, education, and self-discipline necessary to succeed as productive citizens. The Hawaii National Guard Youth Challenge Academy's Hilo Campus has been extremely successful in dissuading at-risk youths from causing harm to others and themselves. Due to budget constraints, the Hawaii Department of Defense is expected to close the Hawaii National Guard Youth Challenge Academy's Hilo Campus and eliminate forty-two positions. This measure will urge the Department of Defense to continue to operate the Hawaii National Guard Youth Challenge Academy's Hilo Campus so that it will not close and the cadets may continue to receive the invaluable benefits associated with the Hilo campus.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 73 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1329 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 55

The purpose and intent of this measure is to urge the Department of Defense to continue to operate the Hawaii National Guard Youth Challenge Academy's Hilo Campus.

Your Committee received comments on this measure from the Department of Defense.

Your Committee finds that the mission of the National Guard youth challenge program is to intervene in and reclaim the lives of sixteen to eighteen year old "at promise" youth and produce program graduates with the values, life skills, education, and self-discipline necessary to succeed as productive citizens. The Hawaii National Guard Youth Challenge Academy's Hilo Campus has been extremely successful in dissuading at-risk youths from causing harm to others and themselves. Due to budget constraints, the Hawaii Department of Defense is expected to close the Hawaii National Guard Youth Challenge Academy's Hilo Campus and eliminate forty-two positions. This measure will urge the Department of Defense to continue to operate the Hawaii National Guard Youth Challenge Academy's Hilo Campus so that it will not close and the cadets may continue to receive the invaluable benefits associated with the Hilo campus.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 55 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1330 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 103

The purpose and intent of this measure is to urge the United States Military to clean up munitions and explosives of concern in Hawaii under the Military Munitions Response Program.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii.

Your Committee finds that certain areas of the Hawaiian Islands were used for military training exercises that resulted in large quantities of munitions and explosives being deposited in the ground. The Military Munitions Response Program provides a focused program to address the challenges presented at munitions response sites. Part of Bellows Air Force Base was previously used as an urban warfare training facility and is contaminated and unsuitable for use if the land is returned to the State. This measure will urge the cleaning up of the munitions and explosives on land formerly used for military training purposes, including Bellows Air Force Base, so that the land may be restored and to allow residents of surrounding communities the ability to enjoy and make productive use of the land.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 103, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 103, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1331 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 80

The purpose and intent of this measure is to urge the United States Military to clean up munitions and explosives of concern in Hawaii under the Military Munitions Response Program.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii.

Your Committee finds that certain areas of the Hawaiian Islands were used for military training exercises that resulted in large quantities of munitions and explosives being deposited in the ground. The Military Munitions Response Program provides a focused program to address the challenges presented at munitions response sites. Part of Bellows Air Force Base was previously used as an urban warfare training facility and is contaminated and unsuitable for use if the land is returned to the State. This measure will urge the cleaning up of the munitions and explosives on land formerly used for military training purposes, including Bellows Air Force Base, so that the land may be restored and to allow residents of surrounding communities the ability to enjoy and make productive use of the land

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 80, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 80, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1332 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 107

The purpose and intent of this measure is to request the Department of Public Safety to correct issues and dismantle barriers relating to the provision of civil identification documents and successful community re-entry of inmates exiting incarceration.

Your Committee received testimony in support of this measure from the Department of Public Safety, American Civil Liberties Union of Hawai'i, and three individuals.

Your Committee finds that re-entry programs assist people who are released from jails and prisons to obtain post-secondary education, housing, employment, and treatment. These re-entry programs help formerly incarcerated people undergo a smooth and successful transition back into their communities, which results in reduced recidivism and improved public safety. Pursuant to section 353H-32, Hawaii Revised Statutes, the Department of Public Safety is required, upon request, to issue civil identification cards to inmates exiting correctional facilities; and assist those inmates in obtaining the inmates' own birth certificates, social security cards,

and any other relevant identification documents necessary to promote the inmates' successful transition from incarceration. Despite section 353H-32, Hawaii Revised Statutes, many inmates are exiting incarceration without identification documentation. This measure will request the Department of Public Safety to expeditiously identify and correct issues that prevent the Department from complying with section 353H-32, Hawaii Revised Statutes, with respect to providing requested civil identification cards and assistance with other identification documents to individuals exiting correctional facilities so that those individuals may successfully re-enter into their community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 107 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1333 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 84

The purpose and intent of this measure is to request the Department of Public Safety to correct issues and dismantle barriers relating to the provision of civil identification documents and successful community re-entry of inmates exiting incarceration.

Your Committee received testimony in support of this measure from the Department of Public Safety and American Civil Liberties Union of Hawai'i.

Your Committee finds that re-entry programs assist people who are released from jails and prisons to obtain post-secondary education, housing, employment, and treatment. These re-entry programs help formerly incarcerated people undergo a smooth and successful transition back into their communities, which results in reduced recidivism and improved public safety. Pursuant to section 353H-32, Hawaii Revised Statutes, the Department of Public Safety is required, upon request, to issue civil identification cards to inmates exiting correctional facilities; and assist those inmates in obtaining the inmates' own birth certificates, social security cards, and any other relevant identification documents necessary to promote the inmates' successful transition from incarceration. Despite section 353H-32, Hawaii Revised Statutes, many inmates are exiting incarceration without identification documentation. This measure will request the Department of Public Safety to expeditiously identify and correct issues that prevent the Department from complying with section 353H-32, Hawaii Revised Statutes, with respect to providing requested civil identification cards and assistance with other identification documents to individuals exiting correctional facilities so that those individuals may successfully re-enter into their community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 84 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1334 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 108

The purpose and intent of this measure is to urge the Department of Public Safety to increase its investment in comprehensive offender re-entry training programs for individuals exiting correctional facilities.

Your Committee received testimony in support of this measure from the Department of Public Safety, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, and three individuals.

Your Committee finds that re-entry programs focused on helping persons exiting jails and prisons to obtain post-secondary education, housing, employment, and treatment foster a smoother and more successful transition from incarceration back into their communities; result in reduced recidivism and improved public safety. The Department of Public Safety is statutorily required to provide comprehensive and effective re-entry planning for adults exiting correctional facilities. The lack of civil identification documents makes it nearly impossible to obtain housing and legal employment, both of which are foundational pieces to successful reentry into communities. Despite the Department of Public Safety's statutory mandate to provide civil identification documents to persons exiting correctional facilities, pursuant to section 353H-32, Hawaii Revised Statutes, roughly half are exiting jails and prisons without such documentation. This measure requests the Department of Public Safety to increase investment in comprehensive offender re-entry programs for individuals exiting correctional facilities so that they may have the proper identification documents and be able to successfully re-enter into their community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 108 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1335 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 85

The purpose and intent of this measure is to urge the Department of Public Safety to increase its investment in comprehensive offender re-entry training programs for individuals exiting correctional facilities.

Your Committee received testimony in support of this measure from the Department of Public Safety, American Civil Liberties Union of Hawai'i, and Community Alliance on Prisons.

Your Committee finds that re-entry programs focused on helping persons exiting jails and prisons to obtain post-secondary education, housing, employment, and treatment foster a smoother and more successful transition from incarceration back into their communities; result in reduced recidivism and improved public safety. The Department of Public Safety is statutorily required to provide comprehensive and effective re-entry planning for adults exiting correctional facilities. The lack of civil identification documents makes it nearly impossible to obtain housing and legal employment, both of which are foundational pieces to successful re-

entry into communities. Despite the Department of Public Safety's statutory mandate to provide civil identification documents to persons exiting correctional facilities, pursuant to section 353H-32, Hawaii Revised Statutes, roughly half are exiting jails and prisons without such documentation. This measure requests the Department of Public Safety to increase investment in comprehensive offender re-entry programs for individuals exiting correctional facilities so that they may have the proper identification documents and be able to successfully re-enter into their community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 85 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1336 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 111

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to convene a task force to study and identify appropriate stockpile storage facility options to store and distribute emergence supplies in the State of Hawaii.

Your Committee received comments on this measure from the Hawai'i Emergency Management Agency and Hawaii Technology Development Corporation.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has ravaged the State's available inventories of personal protection equipment and other medical products and supplies. There is a pressing need for the State to accumulate reserves of critical supplies to provide to the counties and communities during an emergency and within a reasonable time of the State's decision to deploy the stockpiled reserves. This measure requests the Hawaii Emergency Management Agency to create a task force to identify appropriate stockpile storage facility options and present possible solutions as to whether it is more appropriate to have a single storage facility on the island of Oahu or whether it may be more prudent to utilize multiple storage facilities spread throughout the four counties in the State to effectively and efficiently distribute emergency supplies.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 111, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 111, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1337 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 88

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to convene a task force to study and identify appropriate stockpile storage facility options to store and distribute emergence supplies in the State of Hawaii.

Your Committee received comments on this measure from the Hawaii Technology Development Corporation.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has ravaged the State's available inventories of personal protection equipment and other medical products and supplies. There is a pressing need for the State to accumulate reserves of critical supplies to provide to the counties and communities during an emergency and within a reasonable time of the State's decision to deploy the stockpiled reserves. This measure requests the Hawaii Emergency Management Agency to create a task force to identify appropriate stockpile storage facility options and present possible solutions as to whether it is more appropriate to have a single storage facility on the island of Oahu or whether it may be more prudent to utilize multiple storage facilities spread throughout the four counties in the State to effectively and efficiently distribute emergency supplies.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 88, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 88, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1338 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 133

The purpose and intent of this measure is to urge the City and County of Honolulu to install a roof covering the restroom facilities at Puuloa Beach Park.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that Puuloa Beach Park, formerly known as Ewa Beach Park, is a popular five-acre park on Oahu's southwest shoreline. Puuloa Beach Park includes open-air, unroofed restroom facilities and complaints of individuals scaling the facilities' walls to peer inside the restrooms. This measure urges the City and County of Honolulu to install a roof covering over those restrooms so that they are safer and more secure for residents of, and visitors to, Puuloa Beach Park.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 133 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1339 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 107

The purpose and intent of this measure is to urge the City and County of Honolulu to install a roof covering the restroom facilities at Puuloa Beach Park.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Puuloa Beach Park, formerly known as Ewa Beach Park, is a popular five-acre park on Oahu's southwest shoreline. Puuloa Beach Park includes open-air, unroofed restroom facilities and complaints of individuals scaling the facilities' walls to peer inside the restrooms. This measure urges the City and County of Honolulu to install a roof covering over those restrooms so that they are safer and more secure for residents of, and visitors to, Puuloa Beach Park.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 107 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1340 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 134

The purpose and intent of this measure is to urge the City and County of Honolulu to refurbish the Puuloa Beach Park pavilion as part of a larger plan to renovate and improve the entire Puuloa Beach Park complex.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that Puuloa Beach Park at the end of Fort Weaver Road in Ewa Beach is a popular location for holding celebrations, conducting gatherings, and enjoying the outdoors. The condition of the pavilion and the surrounding park complex has deteriorated, leaving them in a dilapidated state. This measure urges the City and County of Honolulu to refurbish the Puuloa Beach Park pavilion to prevent it from falling into further disrepair and becomes a neighborhood blight instead of serving as a place for the community to come together and hold celebrations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 134 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1341 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 108

The purpose and intent of this measure is to urge the City and County of Honolulu to refurbish the Puuloa Beach Park pavilion as part of a larger plan to renovate and improve the entire Puuloa Beach Park complex.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Puuloa Beach Park at the end of Fort Weaver Road in Ewa Beach is a popular location for holding celebrations, conducting gatherings, and enjoying the outdoors. The condition of the pavilion and the surrounding park complex has deteriorated, leaving them in a dilapidated state. This measure urges the City and County of Honolulu to refurbish the Puuloa Beach Park pavilion to prevent it from falling into further disrepair and becomes a neighborhood blight instead of serving as a place for the community to come together and hold celebrations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 108 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1342 Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 253

The purpose and intent of this measure is to urge the United States Department of Defense to report current coronavirus disease 2019 statistics in order to help protect the military communities and local communities in which the government and military installations are located.

Your Committee did not receive any testimony on this measure.

Your Committee finds that on March 31, 2020, United States Defense Secretary Mark Esper ordered all commanders of the Department of Defense installations worldwide to cease publicly releasing coronavirus disease 2019 (COVID-19) statistical information. Although the Department of Defense has released near-daily COVID-19 statistics on its website, the statistics are delayed and not disaggregated by base or even by State. Potentially unclear Department of Defense COVID-19 protocols of quarantine could contribute to super spreading the virus. This measure urges the Department of Defense to provide for better COVID-19 information for the protection of the State's communities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 253, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 253, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1343 Public Safety, Intergovernmental, and Military Affairs on S.R. No. 212

The purpose and intent of this measure is to urge the United States Department of Defense to report current coronavirus disease 2019 statistics in order to help protect the military communities and local communities in which the government and military installations are located.

Your Committee did not receive any testimony on this measure.

Your Committee finds that on March 31, 2020, United States Defense Secretary Mark Esper ordered all commanders of the Department of Defense installations worldwide to cease publicly releasing coronavirus disease 2019 (COVID-19) statistical information. Although the Department of Defense has released near-daily COVID-19 statistics on its website, the statistics are delayed and not disaggregated by base or even by State. Potentially unclear Department of Defense COVID-19 protocols of quarantine could contribute to super spreading the virus. This measure urges the Department of Defense to provide for better COVID-19 information for the protection of the State's communities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 212, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 212, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1344 Education on S.C.R. No. 198

The purpose and intent of this measure is to urge the Department of Education to include civic online reasoning and media literacy in its information technology curriculum.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that teaching civic online reasoning and media literacy prepares students for judging the veracity of the media and online sources. Learning about the origin of information allows students to become well-informed using trustworthy sources. An education in civic online reasoning and media literacy increases students' ability to access, analyze, and evaluate information so that they may discern between truth and fallacy when engaging in online platforms. This measure urges the Department of Education to include civic online reasoning and media literacy in students' curriculum so that they will develop sound digital citizenship and become media literate in a modern digital world.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 198 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1345 Education on S.R. No. 163

The purpose and intent of this measure is to urge the Department of Education to include civic online reasoning and media literacy in its information technology curriculum.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that teaching civic online reasoning and media literacy prepares students for judging the veracity of the media and online sources. Learning about the origin of information allows students to become well-informed using trustworthy sources. An education in civic online reasoning and media literacy increases students' ability to access, analyze, and evaluate information so that they may discern between truth and fallacy when engaging in online platforms. This measure urges the Department of Education to include civic online reasoning and media literacy in students' curriculum so that they will develop sound digital citizenship and become media literate in a modern digital world.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 163 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1346 (Joint) Energy, Economic Development, and Tourism and Commerce and Consumer Protection on S.C.R. No. 223

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism conduct a study to examine the use and effects of transaction medium equity, which includes electronic transactions and cash transactions, on consumers and businesses in the State.

Your Committees received testimony in support of this measure from Cardtronics. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that information on the use of electronic and cash transactions in Hawaii should be gathered to help guide future legislation, policy recommendations, and decision-making on issues regarding transaction medium equity and how these forms of payment can either benefit or disadvantage consumers and businesses. Your Committees received testimony from the Department of Business, Economic Development, and Tourism, which reported that it does not have the expertise or the resources to conduct the study envisioned by this measure. Your Committees further find that the Legislative Reference Bureau has the necessary expertise and experience to conduct this study, and therefore amendments are needed to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Requesting that the Legislative Reference Bureau, instead of the Department of Business, Economic Development, and Tourism, conduct a study to examine the use and effects of transaction medium equity, which includes electronic transactions and cash transactions, on consumers and businesses in the State of Hawaii;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 223, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 223, S.D. 1.

Signed by the Chairs on behalf of the Committees. Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 1347 Higher Education on S.C.R. No. 115

The purpose and intent of this measure is to request the University of Hawaii (University) to undertake a broadly based economic and sociological study to identify factors that contribute to crime in the State.

Your Committee received testimony in support of this measure from two individuals.

Prior to the hearing on this measure, your Committee posted and made available for the public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to request the University, with the oversight of the Chairperson of the Board of Regents of the University of Hawaii (Board of Regents), to examine and assess the reasonableness and feasibility of the existing policies, standards, rules, guidelines, and procedures governing the University's rental housing program for its faculty.

Your Committee received comments on the proposed version of this measure from the University of Hawai'i System.

Your Committee finds that the University is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. The University of Hawaii at Manoa University Housing Program offers rental housing to new employees during their initial years of employment. The program consists of three rental housing projects located in Manoa, named the Wa'ahila Rental Project, the Kau'iokahaloa Nui Rental Project, and the Kau'iokahaloa Iki Project (collectively, Oahu Rental Projects), consisting of a total of consisting of 237 units. Your Committee further finds that concerns have been raised over the administration of the Oahu Rental Projects, including policies on eligibility criteria, rent, and duration of tenancy, and the University's enforcement thereof.

Your Committee finds that Board of Regents Policy 9.209 (RP 9.209) specifically provides that the purpose of the Oahu Rental Projects is to serve as temporary transitional housing for newly recruited university personnel. Your Committee further finds that according to a report produced by the University of Hawai'i Office of Internal Audit (University Internal Audit) in November 2019 (2019 Audit Report), in similar reports issued in December 2010 and February 2013, various issues were identified relating to the University Housing Program's noncompliance with the policies of the Board of Regents (Board Policies) and the Internal Revenue Code (IRC). These issues included the program's:

- (1) Historical failure to enforce the maximum term of stay resulting in low housing turnover as of January 2018, forty-seven percent of the tenant-faculty were staying in their units for over five years, despite the maximum lease term under Board Policies being one or three years depending on the employee's position, while having a waitlist of one hundred eighty-one applicants;
- (2) Potential violation of section 119(d) of the IRC by failing to report the difference between the market value rent and the lower rent charged as the tenant-faculty's gross income and withholding applicable taxes therefrom; and
- (3) Lack of policies and procedures pertaining to the subleasing of faculty rental housing.

Your Committee finds that in 2019, the University Internal Audit re-evaluated the University Housing Program's process, procedures, and compliance with University policies. According to the 2019 Audit Report, the Board of Regents revised its policies governing the University Housing Assistance Program (UHAP), i.e., RP 9.209 and Executive Policy (EP) 9.230 in October 2014 to address the issues raised in 2013 and 2014.

Eligibility (RP 9.209). Your Committee finds that, to be eligible for the Oahu Rental Projects, the prospective tenant must be a full-time employee of the University: (1) who is appointed to an Oahu campus; (2) whose workplace is on Oahu; and (3) who does not own real property on Oahu. Your Committee notes that the final criterion differs from that of other UHAP programs, such as the financial assistance program, which requires the applicant to not own "an interest" in "residential" real property "within the State".

<u>Priority of Assignment (RP 9.209).</u> Your Committee further finds that assignment of the units at the Oahu Rental Projects is prioritized based on the employee's status and rank as follows: (Priority 1) tenure-track assistant faculty; (Priority 2) other tenure-track faculty; (Priority 3) tenured faculty; (Priority 4) administrative, professional and technical (APT) personnel; and (Priority 5) all other employees. RP 9.209 provides that if the number of prospective tenants exceed the number of available rental units, the vacancies will

be assigned first to applicants with initial appointment dates of three years or less; and then to applicants with the lowest salaries, within each respective priority rank.

Maximum Lease Period (EP 9.230 and RP 9.209). Your Committee also finds that Board of Regents Policies require the standard lease term for the Oahu Rental Projects to be one year. The policies do not allow the lease term for Priority 4 and 5 tenants to be renewed. The lease term for tenure-track and tenured faculty may be renewed annually for up to a maximum of three years. At the end of the maximum three-year lease period, tenure-track faculty who have not achieved tenure by then may apply for lease extensions, which will be considered and approved by the President on a case by case basis. The Board of Regents Policies do not provide a basis for allowing the extension of a tenured faculty's lease beyond the maximum three-year lease period; provided that the President may extend the lease terms beyond the standard maximum to maintain the occupancy rates at appropriate levels, i.e., when there are vacancies and no eligible applicants are on the waitlist.

Your Committee notes that the Board of Regents Policies do not provide explicitly guidance as to the priority between lease extension requests filed by existing tenants and applicants on the waitlist with newer initial appointment dates. Your Committee further notes that the policies only require "vacancies" to be assigned first to applicants with initial appointment dates of three years or less. Your Committee is uncertain if these policies resonate with the purpose of the Oahu Rental Projects, i.e., to serve as temporary transitional housing for newly recruited university personnel.

Your Committee also notes that according to the 2019 Audit Report, the University started sending out notices in May 2014 to tenants of the Oahu Rental Projects who had exceeded the maximum term of tenancy, to vacate their units within one year from the receipt of the notice. As of August 2019, the waitlist has decreased to forty, compared to one hundred eighty-one in January 2013. Your Committee commends the University's progress, however, believes the one-year period to vacate to be too long, especially considering the fact that as of June 30, 2019, approximately one third of the tenants (seventy-one out of the two hundred six leased units) still exceeded the maximum term of their tenancy, despite having forty people on the waitlist. Your Committee's concerns are compounded by the University's statements that it is now strictly enforcing its five-year maximum tenancy requirement (instead of the one or three-year period under the policies) and when asked for the basis for the five-years, replied that it was what other schools were doing. Your Committee believes that if the University finds current policies to be stale or not on a par with other peer institutions, it should amend the policies instead of arbitrarily violating them.

Compliance with section 119(d) of the IRC. Your Committee finds that EP 9.230 states that the University must adhere to applicable federal and state laws and regulations, including section 119 of the IRC, which states that if the amount of annual rent paid by a tenant is less than five percent of the appraised value of the qualified campus lodging, the difference (taxable benefit) shall be reported as gross income to the tenant. According to the 2019 Audit Report, the University is now requiring the taxable benefit to be reported as taxable income on the employees' IRS Form W-2, Wages and Tax Statement. Your Committee commends the University's efforts in becoming compliant with the IRC. However, your Committee notes that EP 9.230 states that appraisals of campus lodging will be conducted at a minimum every three years, however, according to the 2019 Audit Report, the IRS requires such appraisals to be conducted on an annual basis. Your Committee is uncertain as to whether the University addressed this discrepancy. Furthermore, your Committee finds it concerning that the University is unaware as to whether the implications of its previous failure to report the taxable benefits have been dealt with.

Subletting and Assignment (EP 9.230). Your Committee finds that the EP 9.230 prohibits the subletting and assignment of the units, parking stalls, and parking permits at the Oahu Rental Projects, unless agreed to by the University Housing Program. The policy further states that violations of this policy could result in eviction. According to the 2019 Audit Report, the program has not approved and was unaware of any tenant subleasing their unit. Your Committee notes the University's testimony regarding its efforts to investigate and evict a couple of tenants who had been in violation of this policy. Your Committee commends the University's efforts in enforcing this policy.

Based on the documents submitted by the University and its testimony, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting clauses noting the internal audit conducted by the University Internal Audit in November 2019;
- (2) Amending the subjects to be included in the task force's report by:
 - (A) Eliminating matters already provided in the 2019 Audit Report;
 - (B) Adding matters based on the 2019 Audit Report, including information pertaining to the value of each type of unit, additional tenant information, assessment of lease extensions approved by the University, the process by which the University verifies compliance, and proposed policies on lease extensions and time period to vacate the premises;
 - (C) Specifying that information be included on whether the unit is occupied as of May 1, 2021; and
 - (D) Clarifying the language relating to ownership of property; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 115, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 115, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1348 (Joint) Government Operations and Labor, Culture and the Arts on S.C.R. No. 67

The purpose and intent of this measure is to recognize October 4 through October 8, 2021, as Digital Inclusion Week in the State to raise awareness of the need for digital equity and to promote digital inclusion.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Workforce Development Council; HawaiiKidsCAN; LearningBond; Pacific International Center for High Technology Research; Hawaii Leeward Planning Conference; Hawaii Island Economic Development Board; Hawaii Dialogix Telecom; Code.org; Hawaii Executive Collaborative; Oʻahu County Democrats, Digital Equity Committee; Michaels Management; and five individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the coronavirus disease 2019 pandemic has highlighted the need for broadband infrastructure and digital equity for all of Hawaii's residents, especially those in rural and underserved communities. As broadband access is increasingly intertwined with the daily functions of modern life, your Committees believe that a Digital Inclusion Week will help to promote public awareness and attention on the critical issues of digital equity and digital inclusion.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor, Culture and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 67, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 67, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1349 (Joint) Government Operations and Labor, Culture and the Arts on S.R. No. 49

The purpose and intent of this measure is to recognize October 4 through October 8, 2021, as Digital Inclusion Week in the State to raise awareness of the need for digital equity and to promote digital inclusion.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the coronavirus disease 2019 pandemic has highlighted the need for broadband infrastructure and digital equity for all of Hawaii's residents, especially those in rural and underserved communities. As broadband access is increasingly intertwined with the daily functions of modern life, your Committees believe that a Digital Inclusion Week will help to promote public awareness and attention on the critical issues of digital equity and digital inclusion.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor, Culture and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 49, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 49, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1350 (Joint) Government Operations and Education on S.C.R. No. 154

The purpose and intent of this measure is to urge the Governor to maintain teachers as essential workers during the coronavirus disease 2019 pandemic or any future pandemic, when contemplating emergency furloughs and layoffs.

Your Committees received testimony in support of this measure from three individuals. Your Committees received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that in addition to teachers, school-level educational support staff, such as food service staff, security, custodial staff, and administrators, are also one of the many categories deemed essential during the coronavirus disease 2019 pandemic.

Your Committees have amended this measure by:

- (1) Inserting language to include school-level personnel as essential workers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 154, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 154, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1351 (Joint) Government Operations and Education on S.R. No. 119

The purpose and intent of this measure is to urge the Governor to maintain teachers as essential workers during the coronavirus disease 2019 pandemic or any future pandemic, when contemplating emergency furloughs and layoffs.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that in addition to teachers, school-level educational support staff, such as food service staff, security, custodial staff, and administrators, are also one of the many categories deemed essential during the coronavirus disease 2019 pandemic.

Your Committees have amended this measure by:

- (1) Inserting language to include school-level personnel as essential workers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 119, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 119, S.D. 1.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1352 (Joint) Government Operations and Education on S.C.R. No. 155

The purpose and intent of this measure is to request that the Auditor conduct a performance audit of the policies and procedures of the Office of Curriculum and Instructional Design (OCID) and how it effectuates its responsibility to schools in the design, development, and support of curriculum.

Your Committees received testimony in support of this measure from the Department of Education and two individuals.

Your Committees find that in a December 2020 review of active Department of Education (DOE) contracts, there are various contracts ranging between \$38,500 and \$215,000 that appeared to procure duplicative services for curriculum development, design, and review. Your Committees further find that this measure is in the public interest to ensure that OCID is optimizing its ability to support the State's schools and complex areas in the design and development of curriculum and professional development. According to testimony received by your Committees, DOE is currently revisiting its curriculum management and instructional materials approval process and welcomes an audit of its OCID with the goal of improving the efficiency and effectiveness of its practices.

As affirmed by the records of votes of the members of your Committees on Government Operations and Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 155 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang). Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1353 (Joint) Government Operations and Education on S.R. No. 120

The purpose and intent of this measure is to request that the Auditor conduct a performance audit of the policies and procedures of the Office of Curriculum and Instructional Design (OCID) and how it effectuates its responsibility to schools in the design, development, and support of curriculum.

Your Committees received testimony in support of this measure from two individuals.

Your Committees find that in a December 2020 review of active Department of Education (DOE) contracts, there are various contracts ranging between \$38,500 and \$215,000 that appeared to procure duplicative services for curriculum development, design, and review. Your Committees further find that this measure is in the public interest to ensure that OCID is optimizing its ability to support the State's schools and complex areas in the design and development of curriculum and professional development. According to testimony received by your Committees, DOE is currently revisiting its curriculum management and instructional materials approval process and welcomes an audit of its OCID with the goal of improving the efficiency and effectiveness of its practices.

As affirmed by the records of votes of the members of your Committees on Government Operations and Education that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 120 and recommend its adoption.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang). Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 1354 (Joint/Majority) Government Operations and Commerce and Consumer Protection on S.C.R. No. 143

The purpose and intent of this measure is to request that the Auditor conduct a social and financial assessment of requiring health insurers, mutual benefit societies, and health maintenance organizations to provide mandatory health insurance coverage without cost-sharing for a comprehensive category of reproductive health services, drugs, devices, products, and procedures.

Your Committees received testimony in support of this measure from the Hawai'i Women's Coalition, LGBT Caucus of the Democratic Party of Hawai'i, Ma'i Movement Hawai'i, Planned Parenthood Votes Northwest and Hawai'i, ACLU of Hawaii, Common Cause Hawaii, and four individuals.

Your Committees find that this measure is intended to fill the gaps in coverage for crucial preventative sexual and reproductive health services and safeguard access to abortion. Your Committees concur with testimony expressing that expanding access to comprehensive sexual and reproductive health care for the residents of Hawaii reduces discrimination, increases economic security, and ensures a healthy, vibrant democracy.

Your Committees have amended this measure by:

- (1) Inserting references to S.B. No. 623, Regular Session of 2021, where necessary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 143, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 143, S.D. 1.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 3. Noes, 2 (Gabbard, Fevella). Excused, none. Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 1355 Government Operations on S.C.R. No. 166

The purpose and intent of this measure is to urge the heads of the departments and agencies that administratively control or supervise a board or commission to provide training for all members of their boards and commissions subject to 84-17, Hawaii Revised Statutes

Your Committee received comments on this measure from the Department of Accounting and General Services, Department of Commerce and Consumer Affairs, Department of Human Services, Department of Land and Natural Resources, and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that reports from the Office of the Auditor have indicated that various state board members and staff are unfamiliar with the applicable laws and statutes that are relevant to the work of the board or commission on which they sit. Your Committee also finds that although some departments train the members of their boards and commissions, this is not a consistent practice throughout the State. This measure would help ensure that board and commission members have appropriate training to effectively fulfill their responsibilities. Your Committee heard testimony regarding concerns that the requirement for newly appointed board members to complete training before receiving voting rights will limit the board or commission's ability to meet quorum requirements and take action on pending board matters that require a vote.

Accordingly, your Committee has amended this measure by removing the clause that would have requested that board and commission members be required to complete training before receiving voting rights.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1356 Government Operations on S.R. No. 131

The purpose and intent of this measure is to urge the heads of the departments and agencies that administratively control or supervise a board or commission to provide training for all members of their boards and commissions subject to 84-17, Hawaii Revised Statutes.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Department of Land and Natural Resources, and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that reports from the Office of the Auditor have indicated that various state board members and staff are unfamiliar with the applicable laws and statutes that are relevant to the work of the board or commission on which they sit. Your Committee also finds that although some departments train the members of their boards and commissions, this is not a consistent practice throughout the State. This measure would help ensure that board and commission members have appropriate training to effectively fulfill their responsibilities. Your Committee heard testimony regarding concerns that the requirement for newly appointed board members to complete training before receiving voting rights will limit the board or commission's ability to meet quorum requirements and take action on pending board matters that require a vote.

Accordingly, your Committee has amended this measure by removing the clause that would have requested that board and commission members be required to complete training before receiving voting rights.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 131, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 131, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1357 Government Operations on S.C.R. No. 186

The purpose and intent of this measure is to designate April as Tree Awareness Month in the State of Hawaii.

Your Committee received testimony in support of this measure from Trees for Honolulu's Future, Punahou School Sustainability Club, and three individuals.

Your Committee finds that trees benefit the environment, ecosystem, and human health and that planting trees is an important way to help address the global climate crisis.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 186, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 186, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1358 Government Operations on S.R. No. 151

The purpose and intent of this measure is to designate April as Tree Awareness Month in the State of Hawaii.

Your Committee received testimony in support of this measure from Trees for Honolulu's Future, Punahou School Sustainability Club, and one individual.

Your Committee finds that trees benefit the environment, ecosystem, and human health and that planting trees is an important way to help address the global climate crisis.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 151, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 151, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1359 (Joint) Government Operations and Human Services on S.C.R. No. 212

The purpose and intent of this measure is to request that the Auditor conduct an assessment, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial effects of mandating health care coverage of annual mental health screenings.

Your Committees did not receive any testimony on this measure.

Your Committees find that not all health care insurers provide coverage for the cost of an annual mental health screening, even though identifying underlying mental health problems could mitigate the risks of serious unidentified medical health issues. This measure is the first step to require health insurers to cover annual medical health screenings in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 212, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 212, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1360 (Joint) Government Operations and Human Services on S.R. No. 175

The purpose and intent of this measure is to request that the Auditor conduct an assessment, pursuant to sections 23-51 and 23-52, Hawaii Revised Statutes, of the social and financial effects of mandating health care coverage of annual mental health screenings.

Your Committees did not receive any testimony on this measure.

Your Committees find that not all health care insurers provide coverage for the cost of an annual mental health screening, even though identifying underlying mental health problems could mitigate the risks of serious unidentified medical health issues. This measure is the first step to require health insurers to cover annual medical health screenings in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 175, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 175, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

CRep. 1361 Human Services on S.C.R. No. 41

The purpose and intent of this measure is to urge the Department of Human Services to study the feasibility of increasing payment to Hawaii's Community Care Foster Family Homes (CCFFH) and Expanded Adult Residential Care Homes (E-ARCH) for Medicaid recipients.

Your Committee received testimony in support of this measure from United Caregivers of Hawaii, Adult Foster Homecare Association of Hawaii, Community Home Care Association of Hawaii, and 49 individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Hawaii has a limited number of beds in nursing homes for patients requiring the level of care provided by nursing homes. Your Committee also finds that the CCFFH and E—ARCH programs provide additional options for patients requiring nursing home level care throughout the State. Caregivers in CCFFHs and E—ARCHs effectively provide the proper care needed for nursing home level patients. The CCFFH program is currently serving approximately three thousand patients, with the potential for even greater capacity. The CCFFH and E—ARCH programs allow reduction of hospital stays by patients requiring nursing home level of care and provide relief to families caring for a family member with such needs, which can lead to a reduction of morbidity and mortality in those patients. Your Committee further finds that although the CCFFH and E—ARCH programs provide the same level of care for patients at nursing facilities, unlike the sustainability fund established for nursing facilities, there is no similar fund directly related to the CCFFH and E—ARCH programs.

Accordingly, your Committee believes that establishing a CCFFH and E—ARCH sustainability fund will provide an affordable system for long—term care for patients outside of nursing facilities; and therefore amendments are necessary.

Your Committee has amended this measure by:

- Urging the Department of Human Services to convene a working group to explore creation of a sustainability fund as well as
 other methods to increase funding for the Community Care Foster Family Home and Expanded Adult Residential Care Home
 programs;
- (2) Deleting references to reimbursement rates for program caregivers who accept Medicaid patients and other language to sharpen to focus of the measure;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 41, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1362 Transportation on S.C.R. No. 158

The purpose and intent of this measure is to urge the appropriate authorities to take every action necessary to address the safety risks and community disruption from tour helicopter and small aircraft operations.

Your Committee received testimony in support of this measure from the O'ahu Tour Helicopter Safety and Noise Inter-Action Group, Pearl City Neighborhood Board No. 21, one member of Hawaii's United States congressional delegation, and seven individuals.

Your Committee finds that tour helicopter and small aircraft operations constitute a significant risk to passengers and residents on the ground. Over the past five years tour helicopters and small aircraft operations in Hawaii accounted for nearly seventeen percent of the nation-wide accidents that prompted investigations by the National Transportation Safety Board. In one ten-month period spanning 2019 to 2020, twenty-three lives were lost in four separate tour helicopter or small aircraft accidents on Oahu and Kauai. Therefore, it is imperative that the United States Congress, Federal Aviation Administration, and the Hawaii Department of Transportation take every action necessary to address the safety risks from insufficient regulation of tour helicopters and small aircraft operations.

Your Committee has amended this measure by:

- Adding the Western Regional Administrator of the Federal Aviation Administration as a recipient of a certified copy of this
 concurrent resolution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 158, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 158, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1363 Transportation on S.R. No. 123

The purpose and intent of this measure is to urge the appropriate authorities to take every action necessary to address the safety risks and community disruption from tour helicopter and small aircraft operations.

Your Committee received testimony in support of this measure from the O'ahu Tour Helicopter Safety and Noise Inter-Action Group, Pearl City Neighborhood Board No. 21, and one individual.

Your Committee finds that tour helicopter and small aircraft operations constitute a significant risk to passengers and residents on the ground. Over the past five years tour helicopters and small aircraft operations in Hawaii accounted for nearly seventeen percent of the nation-wide accidents that prompted investigations by the National Transportation Safety Board. In one ten-month period spanning 2019 to 2020, twenty-three lives were lost in four separate tour helicopter or small aircraft accidents on Oahu and Kauai. Therefore, it is imperative that the United States Congress, Federal Aviation Administration, and the Hawaii Department of Transportation take every action necessary to address the safety risks from insufficient regulation of tour helicopters and small aircraft operations.

Your Committee has amended this measure by:

- (1) Adding the Western Regional Administrator of the Federal Aviation Administration as a recipient of a certified copy of this resolution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 123, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 123, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1364 Transportation on S.C.R. No. 39

The purpose and intent of this measure is to urge the County of Hawaii to establish a metropolitan planning organization (MPO), if allowable.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that MPOs were established to serve as a forum for collaboration among local communities and government agencies and to direct federal funds toward projects that increase access to opportunity and prosperity through improved multimodal pedestrian, bicycle, and transit options. According to federal regulation, an MPO requires an urban area with a population of more than fifty thousand individuals. As the population of the County of Hawaii in 2016 was 198,691 people, your Committee finds it appropriate that the County should have their own MPO.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 39, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 39, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1365 Transportation on S.R. No. 28

The purpose and intent of this measure is to urge the County of Hawaii to establish a metropolitan planning organization (MPO), if allowable.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that MPOs were established to serve as a forum for collaboration among local communities and government agencies and to direct federal funds toward projects that increase access to opportunity and prosperity through improved multimodal pedestrian, bicycle, and transit options. According to federal regulation, an MPO requires an urban area with a population of more than fifty thousand individuals. As the population of the County of Hawaii in 2016 was 198,691 people, your Committee finds it appropriate that the County should have their own MPO.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 28, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 28, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1366 Transportation on S.C.R. No. 239

The purpose and intent of this measure is to urge the Department of Transportation to increase the use of reclaimed asphalt pavement in construction projects that require asphalt.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that when asphalt pavements are removed for construction projects, resurfacing, or to obtain access to buried utilities, the removed asphalt can be crushed and screened to be reused as "reclaimed asphalt pavement (RAP)." RAP has many uses in highway construction applications, including in recycled asphalt paving. The Federal Highway Administration promotes the use of RAP in pavement construction projects to preserve the natural environment, reduce waste, and provide a cost-effective material for constructing highways and paved walkways. Therefore, your Committee finds it appropriate to urge the Department of Transportation to increase its use of RAP in certain construction projects and to explore further potential uses for RAP.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 239 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1367 Transportation on S.R. No. 199

The purpose and intent of this measure is to urge the Department of Transportation to increase the use of reclaimed asphalt pavement in construction projects that require asphalt.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that when asphalt pavements are removed for construction projects, resurfacing, or to obtain access to buried utilities, the removed asphalt can be crushed and screened to be reused as "reclaimed asphalt pavement (RAP)." RAP has many uses in highway construction applications, including in recycled asphalt paving. The Federal Highway Administration promotes the use of RAP in pavement construction projects to preserve the natural environment, reduce waste, and provide a cost-effective material for constructing highways and paved walkways. Therefore, your Committee finds it appropriate to urge the Department of Transportation to increase its use of RAP in certain construction projects and to explore further potential uses for RAP.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 199 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1368 (Joint) Education and Human Services on S.C.R. No. 6

The purpose and intent of this measure is to urge the Department of Education to develop and implement a program designed to recruit and employ qualified blind professionals to serve as orientation and mobility instructors and in other positions as teachers of visually impaired students.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, National Federation of the Blind Hawaii, and six individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that for decades, Structured Discovery Cane Travel has been empowering blind children and adults across the United States, helping them build confidence and feelings of self-respect as they move safely from place to place. For the teaching of orientation and mobility, the Department of Education has no employees who hold the National Orientation and Mobility Certification credential and until recently would only accept the Certified Orientation and Mobility Specialist (COMS) certification from the Academy for Certification of Vision Rehabilitation and Education Professionals. The COMS certification gives the Department of Education the personnel resources to provide vision-centered orientation and mobility services but not personnel qualified or capable to teach the structured discovery approach. Of the two recognized training methods, adherents to the structured discovery approach emphasize employing blind instructors, while adherents to the vision-centered approach emphasize instructors who can see, resulting in diminished employment opportunities for qualified blind persons. This measure urges the Department of Education to develop and implement a program to recruit and employ qualified blind professionals to provide more opportunities for blind instructors in the workforce while providing opportunities for self-improvement to vision impaired students.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 6 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Misalucha).

SCRep. 1369 (Joint) Education and Human Services on S.R. No. 6

The purpose and intent of this measure is to urge the Department of Education to develop and implement a program designed to recruit and employ qualified blind professionals to serve as orientation and mobility instructors and in other positions as teachers of visually impaired students.

Your Committees received testimony in support of this measure from the National Federation of the Blind Hawaii, and six individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that for decades, Structured Discovery Cane Travel has been empowering blind children and adults across the United States, helping them build confidence and feelings of self-respect as they move safely from place to place. For the teaching of orientation and mobility, the Department of Education has no employees who hold the National Orientation and Mobility Certification credential and until recently would only accept the Certified Orientation and Mobility Specialist (COMS) certification from the Academy for Certification of Vision Rehabilitation and Education Professionals. The COMS certification gives the Department of Education the personnel resources to provide vision-centered orientation and mobility services but not personnel qualified or capable to teach the structured discovery approach. Of the two recognized training methods, adherents to the structured discovery approach emphasize employing blind instructors, while adherents to the vision-centered approach emphasize instructors who can see, resulting in diminished employment opportunities for qualified blind persons. This measure urges the Department of Education to develop and implement a program to recruit and employ qualified blind professionals to provide more opportunities for blind instructors in the workforce while providing opportunities for self-improvement to vision impaired students.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 6 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Misalucha).

SCRep. 1370 (Joint) Agriculture and Environment and Hawaiian Affairs on S.C.R. No. 246

The purpose and intent of this measure is to request that a working group be convened to develop recommendations for implementing the Revitalizing Economy and Agriculture Leadership Initiative.

Your Committees received testimony in support of this measure from Kamehameha Schools, Sovereign Council of Hawaiian Homestead Associations, and one individual. Your Committees received comments on this measure from the Department of Agriculture, Agribusiness Development Corporation, Department of Hawaiian Home Lands, and University of Hawai'i College of Tropical Agriculture and Human Resources.

Your Committees find that the State's Aloha+ Challenge local food goal was informed by stakeholder and community input to the Hawaii 2050 Sustainability Plan, which identified doubling local food production by 2030, so that at least twenty to thirty percent of food consumed is grown locally. For Hawaii to achieve food and energy security, farming needs to be profitable; practical and a vital component of economic and environmental recovery; and remain a priority to achieve food and energy security. The Revitalizing Economy and Agriculture Leadership (REAL) initiative empowers Hawaii farmers to become self-sustaining, for-profit businesses with industry partners; provides market connections to attract capital assets to the State; facilitates access to a sustainable food supply and feedstock for ranching; promotes clean energy and environmental conservation; and provides jobs for skilled agricultural technology workers. The REAL initiative is stabilizing Hawaii's small farming businesses impacted by the coronavirus disease 2019 (COVID-19) pandemic.

Therefore, your Committees find that a REAL working group is needed to jump-start Hawaii's agricultural economy through cost-effective agriculture that stabilizes Hawaii's economy by connecting farming and ranching and keeping revenue flowing in the State; coordinate farmers and ranchers to revitalize fallow and unproductive agricultural and pastoral lands and increase production capacity; and provide technical assistance in building communities of practice and provide workforce training in agricultural technologies, sciences, marketing, and brand thought leadership.

Your Committees have amended this measure by:

- (1) Removing references to "restorative agriculture";
- (2) Removing references to the timeline of the REAL initiative;
- (3) Providing the composition of the REAL initiative members; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 246, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 246, S.D. 1.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1371 (Joint) Agriculture and Environment and Hawaiian Affairs on S.R. No. 205

The purpose and intent of this measure is to request that a working group be convened to develop recommendations for implementing the Revitalizing Economy and Agriculture Leadership Initiative.

Your Committees received testimony in support of this measure from the Sovereign Council of Hawaiian Homestead Associations, Kamehameha Schools, and two individuals. Your Committees received comments on this measure from the University of Hawai'i College of Tropical Agriculture and Human Resources and Department of Hawaiian Home Lands.

Your Committees find that the State's Aloha+ Challenge local food goal was informed by stakeholder and community input to the Hawaii 2050 Sustainability Plan, which identified doubling local food production by 2030, so that at least twenty to thirty percent of food consumed is grown locally. For Hawaii to achieve food and energy security, farming needs to be profitable; practical and a vital component of economic and environmental recovery; and remain a priority to achieve food and energy security. The Revitalizing Economy and Agriculture Leadership (REAL) initiative empowers Hawaii farmers to become self-sustaining, for-profit businesses with industry partners; provides market connections to attract capital assets to the State; facilitates access to a sustainable food supply and feedstock for ranching; promotes clean energy and environmental conservation; and provides jobs for skilled agricultural technology workers. The REAL initiative is stabilizing Hawaii's small farming businesses impacted by the coronavirus disease 2019 (COVID-19) pandemic.

Therefore, your Committees find that a REAL working group is needed to jump-start Hawaii's agricultural economy through cost-effective agriculture that stabilizes Hawaii's economy by connecting farming and ranching and keeping revenue flowing in the State; coordinate farmers and ranchers to revitalize fallow and unproductive agricultural and pastoral lands and increase production capacity; and provide technical assistance in building communities of practice and provide workforce training in agricultural technologies, sciences, marketing, and brand thought leadership.

Your Committees have amended this measure by:

- (1) Removing references to "restorative agriculture";
- (2) Removing references to the timeline of the REAL initiative;
- (3) Providing the composition of the REAL initiative members; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 205, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 205, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1372 (Joint) Agriculture and Environment and Hawaiian Affairs on S.C.R. No. 247

The purpose and intent of this measure is to request that a working group be convened to develop recommendations to facilitate homestead agricultural demonstration projects in the State.

Your Committees received testimony in support of this measure from the Sovereign Council of Hawaiian Homestead Associations and one individual. Your Committees received comments on this measure from the Department of Agriculture and Department of Hawaiian Home Lands

Your Committees find that homestead agricultural demonstration projects seek to increase small farm capacity, homestead community ranching capacity, and farming and ranching supportive affordable housing on the islands of Molokai and Kauai. These projects seek to empower small family farms in planting, harvesting, and marketing of products by documenting the production chain; coordinating funding resources from local and national intermediaries to make investments in livestock related projects; and designing four-plex structures to attract private conventional long term debt capital and national intermediary equity capital to rural rental housing in compliance with the Hawaiian Homes Commission Act.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 247, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 247, S.D. 1.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1373 (Joint) Agriculture and Environment and Hawaiian Affairs on S.R. No. 206

The purpose and intent of this measure is to request that a working group be convened to develop recommendations to facilitate homestead agricultural demonstration projects in the State.

Your Committees received testimony in support of this measure from the Sovereign Council of Hawaiian Homestead Associations. Your Committees received comments on this measure from the Department of Agriculture and Department of Hawaiian Home Lands.

Your Committees find that homestead agricultural demonstration projects seek to increase small farm capacity, homestead community ranching capacity, and farming and ranching supportive affordable housing on the islands of Molokai and Kauai. These projects seek to empower small family farms in planting, harvesting, and marketing of products by documenting the production chain; coordinating funding resources from local and national intermediaries to make investments in livestock related projects; and designing four-plex structures to attract private conventional long term debt capital and national intermediary equity capital to rural rental housing in compliance with the Hawaiian Homes Commission Act.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 206, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 206, S.D. 1.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1374 (Joint) Agriculture and Environment and Hawaiian Affairs on S.C.R. No. 260

The purpose and intent of this measure is to endorse and support 'āina-based values to guide Hawaii to a healthy and thriving future.

Your Committees received testimony in support of this measure from Ka Ohana O Na Pua, Pacific American Foundation, Hawai'i Public Health Institute Obesity Prevention Task Force, Hawai'i Farm to School Hui, Hawai'i Forest Industry Association, Center for Getting Things Started, Native Hawaiian Education Council, and ten individuals.

Your Committees find that our connection and responsibility to 'āina has been and continues to be grounded in the cultural values and foundation as people of Hawaii and an island community. The 'āina based mindset is driven by a fundamental premise that nurturing the earth allows for the people to be nurtured; it is a holistic practice that is inextricably intertwined with learning, living, and teaching to bridge indigenous Hawaiian wisdom with modern knowledge. Therefore, your Committees find that adoption of an 'āina-based philosophy will support the State in its response to complex issues that require a cross-portfolio and sectoral response; provide collective solutions that are based around shared outcomes reflective of locally agreed priorities and unite local stakeholders; embed a sense of deep engagement and collaborative governance structures that engage across sectors and with a diverse cross-section of the community; and implementation through shared action, with an iterative approach and progress monitoring that supports continual learning.

Your Committees have amended this measure by:

- (1) Urging the Governor and county mayors to support and further dialogue and convening of entities within all sectors of Hawaii to proactively develop new initiatives that strengthen 'āina-based assets toward a more thriving Hawaii;
- (2) Amending its title in accordance with its amended purpose;
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 260, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 260, S.D. 1.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1375 (Joint) Agriculture and Environment and Hawaiian Affairs on S.R. No. 219

The purpose and intent of this measure is to endorse and support 'āina-based values to guide Hawaii to a healthy and thriving future.

Your Committees received testimony in support of this measure from Pacific American Foundation, Hawai'i Public Health Institute Obesity Prevention Task Force, Hawai'i Farm to School Hui, Native Hawaiian Education Council, and two individuals.

Your Committees find that our connection and responsibility to 'āina has been and continues to be grounded in the cultural values and foundation as people of Hawaii and an island community. The 'āina based mindset is driven by a fundamental premise that nurturing the earth allows for the people to be nurtured; it is a holistic practice that is inextricably intertwined with learning, living, and teaching to bridge indigenous Hawaiian wisdom with modern knowledge. Your Committees have amended this measure by:

- (1) Urging the Governor and county mayors to support and further dialogue and convening of entities within all sectors of Hawaii to proactively develop new initiatives that strengthen 'āina-based assets toward a more thriving Hawaii;
- (2) Amending its title in accordance with its amended purpose;
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 219, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 219, S.D. 1.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 1376 (Joint) Human Services and Health on S.C.R. No. 95

The purpose and intent of this measure is to request that the Governor convene a working group to develop recommendations for effective communications with limited English proficient persons and persons with disabilities before, during, and after emergencies and natural disasters.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, Department of Human Services, Judiciary, Office of Enterprise Technology Services, Hawai'i Coalition for Immigrant Rights, Catholic Charities Hawai'i, Medical-Legal Partnership Hawai'i, Hawai'i Friends of Civil Rights, Ethnic Education Hawai'i, Alii Interpreting Services, LLC; and five individuals. Your Committees received comments on this measure from the Office of Language Access.

Your Committees find that roughly one in four residents of Hawaii, or 348,139, speak a language other than English at home. The 2019 State of Hawaii Data Book also reported that 161,055, or approximately one in nine of Hawaii's residents, indicated that they speak English "less than very well", classifying them as limited English proficient persons. Your Committees also find that language access is a civil right that derives from Title VI of the Civil Rights Act of 1964, providing that "[n]o person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Further, your Committees find that the Office of Language Access, established in 2006, reaffirmed Hawaii's commitment to civil rights and inclusive access to services regardless of national origin.

Your Committees find that the State has been cited repeatedly by the federal court, federal offices of civil rights, including the Department of Justice and Hawai'i Civil Rights Commission, for its failure to provide language accessible services for limited English proficient persons. Your Committees also find that during the coronavirus disease 2019 pandemic, Hawaii's limited English proficient community has expressed concern and dismay regarding non—existent or limited access to essential state services, including health related information and unemployment benefits, in a language they understand. Therefore, your Committees find that bridging the language divide experienced by the limited English proficient, deaf, blind, and disabled communities is essential to ensuring equitable access to services, programs, and activities for all Hawai'i residents. Accordingly, your Committees believe that effective and

appropriate communication that reaches these communities during natural disasters or emergency events is critical to protecting lives, families, and the State's diverse communities.

Your Committees have amended this measure by:

- (1) Removing language tasking the working group to identify translation and interpreter costs; and
- (2) Requesting the working group to:
 - (A) Assess the current status of communication access for persons with a disability and limited English proficient persons during natural disasters and emergencies;
 - (B) Assess the current communication needs and challenges across government entities during natural disasters and emergencies;
 - (C) Identify information technology resources and other resources and costs; and
 - (D) Identify and propose legislative solutions and submit recommendations to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 95, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 95, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 1377 (Joint) Human Services and Health on S.R. No. 74

The purpose and intent of this measure is to request that the Governor convene a working group to develop recommendations for effective communications with limited English proficient persons and persons with disabilities before, during, and after emergencies and natural disasters.

Your Committees received testimony in support of this measure from the Department of Human Services and two individuals. Your Committees received comments on this measure from the Office of Language Access.

Your Committees find that roughly one in four residents of Hawaii, or 348,139, speak a language other than English at home. The 2019 State of Hawaii Data Book also reported that 161,055, or approximately one in nine of Hawaii's residents, indicated that they speak English "less than very well", classifying them as limited English proficient persons. Your Committees also find that language access is a civil right that derives from Title VI of the Civil Rights Act of 1964, providing that "[n]o person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Further, your Committees find that the Office of Language Access, established in 2006, reaffirmed Hawaii's commitment to civil rights and inclusive access to services regardless of national origin.

Your Committees find that the State has been cited repeatedly by the federal court, federal offices of civil rights, including the Department of Justice and Hawai'i Civil Rights Commission, for its failure to provide language accessible services for limited English proficient persons. Your Committees also find that during the coronavirus disease 2019 pandemic, Hawaii's limited English proficient community has expressed concern and dismay regarding non—existent or limited access to essential state services, including health related information and unemployment benefits, in a language they understand. As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 74, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 1378 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.C.R. No. 248

The purpose and intent of this measure is to request that the Public Utilities Commission develop and adopt reliability standards and interconnection requirements to facilitate the timely interconnection of utility-scale renewable energy projects.

Your Committees received testimony in support of this measure from the Public Utilities Commission, Hawaii Clean Power Alliance, and Environmental Caucus of the Democratic Party of Hawaii. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that there have been significant and unreasonable delays in interconnecting renewable energy projects, which were intended to help reduce costs for consumers, move Hawaii towards achieving its energy goals, and uphold an electric system that serves the public interest. Your Committees note the efforts made by the Public Utilities Commission (Commission) to prevent future delays and expedite interconnection timelines for renewable energy projects and further note that the State's decision to retire the Oahu coal plant and the Kahului power plant was based on the reasonable expectation of timely completion of new replacement renewable generation. However, delays have heightened certain concerns. Your Committees further note that costs for interconnection remains for the project is well into development, after power purchase pricing has been committed to, creating additional uncertainties for the project's successful completion. This measure supports efforts to address the interconnection process, timeliness, transparency, equity, and reliability of renewable energy projects by requesting the Commission to create the standards for electric grid reliability and contract with an independent Hawaii Electricity Reliability Administrator to oversee electric grid reliability.

Your Committees have amended this measure by:

- (1) Inserting language requesting the Commission to submit a report to the Legislature, no later than thirty days prior to the convening of the Regular Session of 2022, to include:
 - (A) Findings, updates, and recommendations following the Commission's April 2021 status conference addressing circumstances specific to Maui;
 - (B) Recommendations and proposed legislation amending section 269-146, Hawaii Revised Statutes, to ensure that the Commission has discretion in determining how the Hawaii electricity reliability surcharge should be assessed to reduce potential risks to ratepayers and that customers are not forced to bear the cost burden for the establishment of the Hawaii Electricity Reliability Administrator;
 - (C) Findings and updates from the Governor's task force addressing the retirement of the AES Coal Plant by 2022 and any Commission updates or recommendations in response thereto; and
 - (D) Further recommendations, including any proposed legislation, concerning any of the foregoing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 248, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 248, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1379 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.R. No. 207

The purpose and intent of this measure is to request that the Public Utilities Commission develop and adopt reliability standards and interconnection requirements to facilitate the timely interconnection of utility-scale renewable energy projects.

Your Committees received testimony in support of this measure from the Public Utilities Commission, Hawaii Clean Power Alliance, and Environmental Caucus of the Democratic Party of Hawaii. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that there have been significant and unreasonable delays in interconnecting renewable energy projects, which were intended to help reduce costs for consumers, move Hawaii towards achieving its energy goals, and uphold an electric system that serves the public interest. Your Committees note the efforts made by the Public Utilities Commission (Commission) to prevent future delays and expedite interconnection timelines for renewable energy projects and further note that the State's decision to retire the Oahu coal plant and the Kahului power plant was based on the reasonable expectation of timely completion of new replacement renewable generation. However, delays have heightened certain concerns. Your Committees further note that costs for interconnection remain unknown until a project is well into development, after power purchase pricing has been committed to, creating additional uncertainties for the project's successful completion. This measure supports efforts to address the interconnection process, timeliness, transparency, equity, and reliability of renewable energy projects by requesting the Commission to create the standards for electric grid reliability and contract with an independent Hawaii Electricity Reliability Administrator to oversee electric grid reliability.

Your Committees have amended this measure by:

- (1) Inserting language requesting the Commission to submit a report to the Legislature, no later than thirty days prior to the convening of the Regular Session of 2022, to include:
 - (A) Findings, updates, and recommendations following the Commission's April 2021 status conference addressing circumstances specific to Maui;
 - (B) Recommendations and proposed legislation amending section 269-146, Hawaii Revised Statutes, to ensure that the Commission has discretion in determining how the Hawaii electricity reliability surcharge should be assessed to reduce potential risks to ratepayers and that customers are not forced to bear the cost burden for the establishment of the Hawaii Electricity Reliability Administrator;
 - (C) Findings and updates from the Governor's task force addressing the retirement of the AES Coal Plant by 2022 and any Commission updates or recommendations in response thereto; and

No. 207, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 207, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 1380 Labor, Culture and the Arts on S.C.R. No. 220

The purpose and intent of this measure is to recognize the seventy-fifth anniversary of the establishment of diplomatic relations between the United States of America and the Republic of the Philippines on July 4, 2021.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that the United States and the Republic of the Philippines (Philippines) established diplomatic relations seventy-five years ago, on July 4, 1946.

Your Committee further finds that Filipino-Americans have a long-standing history of serving in the Armed Forces of the United States, with many having received the Congressional Medal of Honor, and continue to demonstrate a sense of patriotism and honor in the Armed Forces. The Filipino-American community has flourished in the United States, and today, it has become one of the largest among the Asian-American and Pacific Islander groups in the United States.

Your Committee also finds that since the arrival of the first fifteen Filipino plantation workers on December 20, 1906, Filipino-Americans have helped shape the history of the State and have contributed to the development of Hawaii. The Filipino-American community continues to thrive in Hawaii, and individuals of Filipino ethnicity make up the largest portion of the State's population. The existence of the economic and people-to-people exchanges, as well as the large number of sister city relationships between the cities and counties of Hawaii and cities and municipalities of the Philippines is evidence of the strong ties of friendship and cooperation between Hawaii and the Philippines.

Your Committee believes that Hawaii's recognition of the seventy-fifth anniversary of the establishment of diplomatic relations between the United States and the Philippines will further solidify its strong and prosperous relationship with the Philippines.

Your Committee has amended this measure by:

- (1) Amending the names of the countries to their official form;
- (2) Inserting language to support the democratic institutions and processes established in the Philippines and their commitment to the preservation of and respect for human rights and dignity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 220, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 220, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1381 Labor, Culture and the Arts on S.R. No. 180

The purpose and intent of this measure is to recognize the seventy-fifth anniversary of the establishment of diplomatic relations between the United States of America and the Republic of the Philippines on July 4, 2021.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that the United States and the Republic of the Philippines (Philippines) established diplomatic relations seventy-five years ago, on July 4, 1946.

Your Committee further finds that Filipino-Americans have a long-standing history of serving in the Armed Forces of the United States, with many having received the Congressional Medal of Honor, and continue to demonstrate a sense of patriotism and honor in

the Armed Forces. The Filipino-American community has flourished in the United States, and today, it has become one of the largest among the Asian-American and Pacific Islander groups in the United States.

Your Committee also finds that since the arrival of the first fifteen Filipino plantation workers on December 20, 1906, Filipino-Americans have helped shape the history of the State and have contributed to the development of Hawaii. The Filipino-American community continues to thrive in Hawaii, and individuals of Filipino ethnicity make up the largest portion of the State's population. The existence of the economic and people-to-people exchanges, as well as the large number of sister city relationships between the cities and counties of Hawaii and cities and municipalities of the Philippines is evidence of the strong ties of friendship and cooperation between Hawaii and the Philippines.

Your Committee believes that Hawaii's recognition of the seventy-fifth anniversary of the establishment of diplomatic relations between the United States and the Philippines will further solidify its strong and prosperous relationship with the Philippines.

Your Committee has amended this measure by:

- (1) Amending the names of the countries to their official form;
- (2) Inserting language to support the democratic institutions and processes established in the Philippines and their commitment to the preservation of and respect for human rights and dignity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 180, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 180, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1382 Labor, Culture and the Arts on S.C.R. No. 240

The purpose and intent of this measure is to urge the Department of Human Resources Development (DHRD) to establish a new civil service class for project managers as members of bargaining unit 13 (BU13), defined in section 89-6, Hawaii Revised Statutes, as professional and scientific employees who cannot be included in any other bargaining unit.

Your Committee received testimony in support of this measure from the Department of Human Resources Development and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that civil service positions are grouped into classes based on the kind and level of work assigned to the position and the knowledge, skills, abilities, education, training, and experience required to perform the duties thereof. Specifically, a class is a group of positions that have sufficiently similar duties and responsibilities, such that the same title and pay range or pay grade apply. Classes of positions that share a similar subject matter of work but have different levels of difficulty, responsibility, and qualifications, are called series. For example, the classes of Office Assistant I, II, III, IV, and V, make up the Office Assistant series.

Your Committee further finds that engineering construction projects are managed by engineers and architects, who are managed by project managers. While there are civil service classes and series of classes for the positions of the engineers and architects, the position of project manager is not included in any existing civil servant class or series. As such, departments that need to post recruiting information for project managers are currently using a class in the General Professional series, which is a generic series for professional positions with the work characteristics of BU13. Your Committee acknowledges that DHRD has been collaborating with other state departments to develop a civil servant class of project manager, however, official action has yet to be taken. By urging DHRD to complete its process of developing the civil servant class of project manager, this measure assists state departments in recruiting and retaining qualified project managers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 240, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 240, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1383 Labor, Culture and the Arts on S.R. No. 200

The purpose and intent of this measure is to urge the Department of Human Resources Development (DHRD) to establish a new civil service class for project managers as members of bargaining unit 13 (BU13), defined in section 89-6, Hawaii Revised Statutes, as professional and scientific employees who cannot be included in any other bargaining unit.

Your Committee received testimony in support of this measure from the Department of Human Resources Development and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that civil service positions are grouped into classes based on the kind and level of work assigned to the position and the knowledge, skills, abilities, education, training, and experience required to perform the duties thereof. Specifically, a class is a group of positions that have sufficiently similar duties and responsibilities, such that the same title and pay range or pay grade apply. Classes of positions that share a similar subject matter of work but have different levels of difficulty, responsibility, and qualifications, are called series. For example, the classes of Office Assistant I, II, III, IV, and V, make up the Office Assistant series.

Your Committee further finds that engineering construction projects are managed by engineers and architects, who are managed by project managers. While there are civil service classes and series of classes for the positions of the engineers and architects, the position of project manager is not included in any existing civil servant class or series. As such, departments that need to post recruiting information for project managers are currently using a class in the General Professional series, which is a generic series for professional positions with the work characteristics of BU13. Your Committee acknowledges that DHRD has been collaborating with other state departments to develop a civil servant class of project manager, however, official action has yet to be taken. By urging DHRD to complete its process of developing the civil servant class of project manager, this measure assists state departments in recruiting and retaining qualified project managers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 200, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 200, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 1384 (Joint) Energy, Economic Development, and Tourism and Commerce and Consumer Protection on S.R. No. 183

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism conduct a study to examine the use and effects of transaction medium equity, which includes electronic transactions and cash transactions, on consumers and businesses in the State.

Your Committees received testimony in support of this measure from Cardtronics and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that information on the use of electronic and cash transactions in Hawaii should be gathered to help guide future legislation, policy recommendations, and decision-making on issues regarding transaction medium equity and how these forms of payment can either benefit or disadvantage consumers and businesses. Your Committees received testimony from the Department of Business, Economic Development, and Tourism, which reported that it does not have the expertise or the resources to conduct the study envisioned by this measure. Your Committees further find that the Legislative Reference Bureau has the necessary expertise and experience to conduct this study, and therefore amendments are needed to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Requesting that the Legislative Reference Bureau, instead of the Department of Business, Economic Development, and Tourism, conduct a study to examine the use and effects of transaction medium equity, which includes electronic transactions and cash transactions, on consumers and businesses in the State of Hawaii;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 183, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 183, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 1385 Energy, Economic Development, and Tourism on S.C.R. No. 259

The purpose and intent of this measure is to urge the State to explore and implement a visitor pledge of Aloha to educate and explain the importance of Hawaii's environment and culture and encourage increased respect and appreciation of the Hawaiian Islands.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii's environment, culture, and people are unique and its assailable resources are central to the identity of our island state. Your Committee further finds that the unique attributes of the Hawaiian Islands should be honored, valued, and protected by the people of Hawaii and visitors should be educated and acknowledge their kuleana to honor and respect Hawaii's environment, culture, and people. This measure, which implements a visitor pledge of Aloha, will allow visitors to gain a deeper understanding of the importance of Hawaii's environment and culture and an increased admiration and respect of the Hawaiian Islands.

Your Committee also finds that this measure aligns with the Hawaii Tourism Authority's guiding principles, and therefore, your Committee has amended this measure by:

- (1) Identifying the Hawaii Tourism Authority as the responsible State agency for this effort;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 259, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 259, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1386 Energy, Economic Development, and Tourism on S.R. No. 218

The purpose and intent of this measure is to urge the State to explore and implement a visitor pledge of Aloha to educate and explain the importance of Hawaii's environment and culture and encourage increased respect and appreciation of the Hawaiian Islands.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority.

Your Committee finds that Hawaii's environment, culture, and people are unique and its assailable resources are central to the identity of our island state. Your Committee further finds that the unique attributes of the Hawaiian Islands should be honored, valued, and protected by the people of Hawaii and visitors should be educated and acknowledge their kuleana to honor and respect Hawaii's environment, culture, and people. This measure, which implements a visitor pledge of Aloha, will allow visitors to gain a deeper understanding of the importance of Hawaii's environment and culture and an increased admiration and respect of the Hawaiian Islands.

Your Committee also finds that this measure aligns with the Hawaii Tourism Authority's guiding principles, and therefore, your Committee has amended this measure by:

- (1) Identifying the Hawaii Tourism Authority as the responsible State agency for this effort;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 218, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 218, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1387 Energy, Economic Development, and Tourism on S.C.R. No. 88

The purpose and intent of this measure is to support and adopt the goals set forth in the Digital Equity Declaration for Hawaii adopted by the Broadband Hui.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Primary Care Association; Aloha Care; Transform Hawai'i Government; and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that "digital equity" is a condition in which all Hawaii residents have the information technology capacity to participate fully in our society, democracy, and economy; including civics, social and cultural activities, employment, lifelong learning, and access to essential services. In contrast, "digital inequity", often referred to as the "digital divide", is a pressing concern, separating those individuals in rural communities and socioeconomically disadvantaged circumstances from the rest of modern society. Your Committee further finds that the coronavirus disease 2019 pandemic has exacerbated the "digital divide" and highlighted the need for broadband infrastructure and "digital equity" across the State, especially in unserved or underserved areas.

Your Committee recognizes that the Broadband Hui is a multi-sector conglomerate of both public and private organizations and individuals, which convened to discuss and adopt a compilation of goals known as the Digital Equity Declaration for Hawaii. Your Committee believes that the goals set forth by the Broadband Hui are timely and important for state government to consider in securing digital equity for Hawaii's citizenry.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 88 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1388 Energy, Economic Development, and Tourism on S.R. No. 67

The purpose and intent of this measure is to support and adopt the goals set forth in the Digital Equity Declaration for Hawaii adopted by the Broadband Hui.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Primary Care Association; Aloha Care; and Transform Hawai'i Government.

Your Committee finds that "digital equity" is a condition in which all Hawaii residents have the information technology capacity to participate fully in our society, democracy, and economy; including civics, social and cultural activities, employment, lifelong learning, and access to essential services. In contrast, "digital inequity", often referred to as the "digital divide", is a pressing concern, separating those individuals in rural communities and socioeconomically disadvantaged circumstances from the rest of modern society. Your Committee further finds that the coronavirus disease 2019 pandemic has exacerbated the "digital divide" and highlighted the need for broadband infrastructure and "digital equity" across the State, especially in unserved or underserved areas.

Your Committee recognizes that the Broadband Hui is a multi-sector conglomerate of both public and private organizations and individuals, which convened to discuss and adopt a compilation of goals known as the Digital Equity Declaration for Hawaii. Your Committee believes that the goals set forth by the Broadband Hui are timely and important for state government to consider in securing digital equity for Hawaii's citizenry.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 67 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1389 Energy, Economic Development, and Tourism on S.C.R. No. 184

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to convene a working group to produce an integrated strategic plan for regional engagement by the State of Hawaii in the Pacific Islands Region.

Your Committee received testimony in support of this measure from eleven individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the East-West Center has engaged in efforts to revitalize the Pacific Islands Conference of Leaders' annual dialogue, which has historically linked Hawaii, Guam, Commonwealth of the Northern Marianas, and American Samoa with the Northern Pacific in a concrete framework. The discussions have addressed our shared concerns about migration, health care, climate change, gender equality, and economic development. Therefore, your Committee believes that the working group and development of an integrated strategic plan for regional engagement requested by this measure would allow Hawaii to achieve the long-term objective of reaffirming itself as the political, economic, environmental, sociological, and technological epicenter for regional engagement in the Pacific Island region.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 184 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1390 Energy, Economic Development, and Tourism on S.R. No. 149

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to convene a working group to produce an integrated strategic plan for regional engagement by the State of Hawaii in the Pacific Islands Region.

Your Committee received testimony in support of this measure from eleven individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the East-West Center has engaged in efforts to revitalize the Pacific Islands Conference of Leaders' annual dialogue, which has historically linked Hawaii, Guam, Commonwealth of the Northern Marianas, and American Samoa with the Northern Pacific in a concrete framework. The discussions have addressed our shared concerns about migration, health care, climate change, gender equality, and economic development. Therefore, your Committee believes that the working group and development of an integrated strategic plan for regional engagement requested by this measure would allow Hawaii to achieve the long-term objective of reaffirming itself as the political, economic, environmental, sociological, and technological epicenter for regional engagement in the Pacific Island region.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 149 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1391 Health on S.C.R. No. 255

The purpose and intent of this measure is to request that the twenty-seventh day of June of each year be recognized as Post-Traumatic Stress Injury Awareness Day and the month of June of each year be designated as Post-Traumatic Stress Injury Awareness Month.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that post-traumatic stress has been mischaracterized as a mental illness and that the term "disorder" carries a stigma that perpetuates this misconception. Your Committee further finds that electro-magnetic imaging has shown that severe post-traumatic stress causes physical changes in the brain that are more accurately described as an injury than a disorder.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 255 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1392 Health on S.R. No. 214

The purpose and intent of this measure is to request that the twenty-seventh day of June of each year be recognized as Post-Traumatic Stress Injury Awareness Day and the month of June of each year be designated as Post-Traumatic Stress Injury Awareness Month.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that post-traumatic stress has been mischaracterized as a mental illness and that the term "disorder" carries a stigma that perpetuates this misconception. Your Committee further finds that electro-magnetic imaging has shown that severe post-traumatic stress causes physical changes in the brain that are more accurately described as an injury than a disorder.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 214 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1393 Health on S.C.R. No. 37

The purpose and intent of this measure is to request the Department of Health to report on cardiopulmonary resuscitation (CPR) instruction being offered throughout state departments.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that out-of-hospital cardiac arrest is one of the leading causes of death in the State. Cities that have increased CPR training have seen cardiac arrest survival rates reach up to sixty percent. Your Committee finds that CPR training can be completed in a single thirty-minute session. Your Committee acknowledges the testimony of the Department of Health, which explained that it was not aware of whether state departments offer CPR training.

Therefore, your Committee has amended this measure by:

- (1) Requesting the Department of Health to survey other state departments as to whether those departments offer CPR training;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1394 Health on S.R. No. 26

The purpose and intent of this measure is to request the Department of Health to report on cardiopulmonary resuscitation (CPR) instruction being offered throughout state departments.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that out-of-hospital cardiac arrest is one of the leading causes of death in the State. Cities that have increased CPR training have seen cardiac arrest survival rates reach up to sixty percent. Your Committee finds that CPR training can be completed in a single thirty-minute session. Your Committee acknowledges the testimony of the Department of Health, which explained that it was not aware of whether state departments offer CPR training.

Therefore, your Committee has amended this measure by:

- (1) Requesting the Department of Health to survey other state departments as to whether those departments offer CPR training;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 26, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 26, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1395 Health on S.C.R. No. 35

The purpose and intent of this measure is to request the Department of Health Office of Health Status Monitoring to improve its process for fulfilling vital record requests.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that pursuant to the Governor's Third Supplementary Proclamation and Emergency Rules Relating to COVID-19, requests for vital records pertaining to births, deaths, marriages, and name changes required for identification, nationality, and citizenship have become backlogged in the Office of Health Status Monitoring. This backlog of vital record requests have led to delays in those requestors' registrations for Social Security, burial, probate, and others that require verification of vital records. This measure requests the Office of Health Status Monitoring to improve its fulfilment of vital record requests.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 35, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 35, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1396 Health on S.R. No. 24

The purpose and intent of this measure is to request the Department of Health Office of Health Status Monitoring to improve its process for fulfilling vital record requests.

Your Committee did not receive any testimony on this measure.

Your Committee finds that pursuant to the Governor's Third Supplementary Proclamation and Emergency Rules Relating to COVID-19, requests for vital records pertaining to births, deaths, marriages, and name changes required for identification, nationality, and citizenship have become backlogged in the Office of Health Status Monitoring. This backlog of vital record requests have led to delays in those requestors' registrations for Social Security, burial, probate, and others that require verification of vital records. This measure requests the Office of Health Status Monitoring to improve its fulfilment of vital record requests.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 24, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1397 (Joint) Government Operations and Water and Land on S.C.R. No. 162

The purpose and intent of this measure is to request that each executive department:

- (1) Identify existing and planned departmental facilities, including critical infrastructure facilities that are vulnerable to flooding and other impacts of sea level rise;
- (2) Assess options for mitigating the impacts of sea level rise to existing and planned departmental facilities, especially those facilities located in areas in which the conservation of beaches and coastal environments is desired; and
- (3) Submit a report to the Governor, Legislature, and Hawaii Climate Change Mitigation and Adaptation Commission no later than twenty days prior to the convening of each Regular Session.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Hawaii Climate Change Mitigation and Adaptation Commission, Hawaii'i Reef and Ocean Coalition, and the Environmental Caucus of the Democratic Party of Hawaii'i. Your Committees received comments on this measure from the Department of Education and Office of Planning.

Your Committees find that with the recent estimate of three feet or more in sea level rise in the second half of this century, it is critical that the State proactively address potential climate change impacts on existing and planned public infrastructure. Your Committees note that certain departments may lack the necessary resources required to fund and administer the research, analysis, and recommendations requested by this measure.

Your Committees have amended this measure by:

- (1) Requesting that infrastructure also be identified and assessed along with the departmental facilities that may be vulnerable to flooding and other impacts of sea level rise;
- (2) Requesting that the Office of Planning coordinate the efforts of each executive department to identify and assess vulnerable facilities and infrastructure;
- (3) Requesting that the Office of Planning submit the report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 162, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 162, S.D. 1.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1398 (Joint) Government Operations and Water and Land on S.R. No. 127

The purpose and intent of this measure is to request that each executive department:

(1) Identify existing and planned departmental facilities, including critical infrastructure facilities that are vulnerable to flooding and other impacts of sea level rise;

- (2) Assess options for mitigating the impacts of sea level rise to existing and planned departmental facilities, especially those facilities located in areas in which the conservation of beaches and coastal environments is desired; and
- (3) Submit a report to the Governor, Legislature, and Hawaii Climate Change Mitigation and Adaptation Commission no later than twenty days prior to the convening of each Regular Session.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Hawaii Climate Change Mitigation and Adaptation Commission, and Environmental Caucus of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that with the recent estimate of three feet or more in sea level rise in the second half of this century, it is critical that the State proactively address potential climate change impacts on existing and planned public infrastructure. Your Committees note that certain departments may lack the necessary resources required to fund and administer the research, analysis, and recommendations requested by this measure.

Your Committees have amended this measure by:

- (1) Requesting that infrastructure also be identified and assessed along with the departmental facilities that may be vulnerable to flooding and other impacts of sea level rise;
- (2) Requesting that the Office of Planning coordinate the efforts of each executive department to identify and assess vulnerable facilities and infrastructure:
- (3) Requesting that the Office of Planning submit the report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 127, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 127, S.D. 1.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 1399 Transportation on S.C.R. No. 121

The purpose and intent of this measure is to urge the City and County of Honolulu to install three raised crosswalks on Papipi Road in west Oahu.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Urge the Department of Transportation and City and County of Honolulu to install six raised crosswalks at specific locations in west Oahu:
- (2) Urge the Department of Transportation and City and County of Honolulu to remove bus stop number 1091, located in front of Ilima Intermediate School on Fort Weaver Road in west Oahu; and
- (3) Request that the Department of Transportation and City and County of Honolulu notify those affected by the removal of bus stop number 1091 that other bus stops in close proximity remain in service.

Your Committee received testimony in support of the proposed S.D. 1 from the Ewa Neighborhood Board Number 23 and eight individuals. Your Committee received comments on this measure from the Department of Transportation and Department of Transportation Services for the City and County of Honolulu.

Your Committee finds that speeding on certain west Oahu streets poses a serious threat to the safety of residents, especially to school children when the speeding occurs near schools. This measure urges the Department of Transportation and the City and County of Honolulu to install raised crosswalks or other general safety measures along certain portions of the streets where speeding frequently occurs. These safety measures will slow down vehicular traffic and help keep residents safe.

Your Committee notes that the Department of Transportation has raised concerns that installing raised crosswalks at specific points in west Oahu will lead to increased traffic and gridlock at certain intersections.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- Removing the specification for raised crosswalks and replacing it with a request for general safety measures as appropriate;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 121, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 121, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1400 Transportation on S.R. No. 95

The purpose and intent of this measure is to urge the City and County of Honolulu to install three raised crosswalks on Papipi Road in west Oahu.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Urge the Department of Transportation and City and County of Honolulu to install six raised crosswalks at specific locations in west Oahu:
- (2) Urge the Department of Transportation and City and County of Honolulu to remove bus stop number 1091, located in front of Ilima Intermediate School on Fort Weaver Road in west Oahu; and
- (3) Request that the Department of Transportation and City and County of Honolulu notify those affected by the removal of bus stop number 1091 that other bus stops in close proximity remain in service.

Your Committee received testimony in support of this measure from Ewa Beach Elementary School and two individuals. Your Committee received comments on this measure from the Department of Transportation and Department of Transportation Services of the City and County of Honolulu.

Your Committee finds that speeding on certain west Oahu streets poses a serious threat to the safety of residents, especially to school children when the speeding occurs near schools. This measure urges the Department of Transportation and the City and County of Honolulu to install raised crosswalks or other general safety measures along certain portions of the streets where speeding frequently occurs. These safety measures will slow down vehicular traffic and help keep residents safe.

Your Committee notes that the Department of Transportation has raised concerns that installing raised crosswalks at specific points in west Oahu will lead to increased traffic and gridlock at certain intersections.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Removing the specification for raised crosswalks and replacing it with a request for general safety measures as appropriate;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 95, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 95, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1401 Transportation on S.C.R. No. 213

The purpose and intent of this measure is to:

- (1) Encourage the State to establish a zero net vehicle growth policy; and
- (2) Request the Department of Transportation to convene a working group to determine the feasibility and best course of action for the State to adopt a zero net vehicle growth policy.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office and Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawaii Automobile Dealers Association, King Windward Nissan, and JN Group.

Your Committee finds that traffic congestion is a major issue that costs the State millions of dollars annually and negatively contributes to the health and welfare of residents. The current method of dealing with traffic congestion by widening roads to add more lanes is not a sustainable path. Additionally, studies have shown that adding lane miles does not solve traffic problems.

Your Committee notes the testimony from several automobile dealerships in opposition to this measure that calls into question whether a zero net vehicle growth policy would be in the best interest of the people of Hawaii. Your Committee finds that this question is worthy of discussion within the working group.

Accordingly, your Committee has amended this measure by:

- Urging the State to examine and consider innovative policies to invest in alternative transit infrastructure and reduce the number of vehicles on the roads instead of urging the State to adopt a zero net vehicle growth policy;
- (2) Requesting the working group to examine and consider innovative policies to invest in alternative transit infrastructure and reduce the number of vehicles on the roads instead of determining how best to implement a zero net vehicle growth policy;
- (3) Removing the Director of Department of Business, Economic Development, and Tourism from the working group;
- (4) Adding the following members to the working group:
 - (A) The Chairperson of the Senate Standing Committee on Housing;
 - (B) The Chairperson of the House of Representatives Standing Committee on Housing;
 - (C) The Chief Energy Officer;

- (D) A representative of the Ulupono Initiative; and
- (E) A representative of the Hawaii Bicycling League;
- (5) Eliminating specific provisions only applicable to the zero net vehicle growth policy;
- (6) Amending its title in accordance with its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 213, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 213, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1402 Transportation on S.R. No. 176

The purpose and intent of this measure is to:

- (1) Encourage the State to establish a zero net vehicle growth policy; and
- (2) Request the Department of Transportation to convene a working group to determine the feasibility and best course of action for the State to adopt a zero net vehicle growth policy.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office and Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawaii Automobile Dealers Association, King Windward Nissan, and JN Group.

Your Committee finds that traffic congestion is a major issue that costs the State millions of dollars annually and negatively contributes to the health and welfare of residents. The current method of dealing with traffic congestion by widening roads to add more lanes is not a sustainable path. Additionally, studies have shown that adding lane miles does not solve traffic problems.

Your Committee notes the testimony from several automobile dealerships in opposition to this measure that calls into question whether a zero net vehicle growth policy would be in the best interest of the people of Hawaii. Your Committee finds that this question is worthy of discussion within the working group.

Accordingly, your Committee has amended this measure by:

- Urging the State to examine and consider innovative policies to invest in alternative transit infrastructure and reduce the number of vehicles on the roads instead of urging the State to adopt a zero net vehicle growth policy;
- (2) Requesting the working group to examine and consider innovative policies to invest in alternative transit infrastructure and reduce the number of vehicles on the roads instead of determining how best to implement a zero net vehicle growth policy;

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 176, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 176, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1403 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 76

The purpose and intent of this measure is to request the City and County of Honolulu to prohibit electric scooters, electric bicycles, and electric trikes on sidewalks

Your Committees received testimony in support of this measure from eight individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Transportation Services for the City and County of Honolulu (DOTS).

Your Committees find that electric scooters, bikes, and trikes can weigh more than forty pounds and can be modified to reach speeds of eighteen miles per hour, which is nearly six times faster than the average walking speed. These devices can be a safety risk to pedestrians when operated on the same sidewalks.

However, your Committees have heard the concerns raised by the City and County of Honolulu, Department of Transportation Services regarding the legality of the requests made by this measure. Under existing state traffic code, electric scooters are classified as mopeds and are generally prohibited from operation regardless of location. As the operation of electric foot scooters are prohibited by state law, the counties do not have the authority to further regulate their use. Amendments to this measure are therefore necessary to address the DOTS' concerns.

Accordingly, your Committees have amended this measure by:

- (1) Removing the request that the City and County of Honolulu prohibit electric scooters, bicycles, and trikes on sidewalks and replacing it with a request to provide the necessary facilities for their safe operation that would be separate them from pedestrian traffic;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 76, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 76, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1404 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 56

The purpose and intent of this measure is to request the City and County of Honolulu to prohibit electric scooters, electric bicycles, and electric trikes on sidewalks.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Transportation Services for the City and County of Honolulu.

Your Committees find that electric scooters, bikes, and trikes can weigh more than forty pounds and can be modified to reach speeds of eighteen miles per hour, which is nearly six times faster than the average walking speed. These devices can be a safety risk to pedestrians when operated on the same sidewalks.

However, your Committees have heard the concerns raised by the City and County of Honolulu, Department of Transportation Services regarding the legality of the requests made by this measure. Under existing state traffic code, electric scooters are classified as mopeds and are generally prohibited from operation regardless of location. As the operation of electric foot scooters are prohibited by state law, the counties do not have the authority to further regulate their use. Amendments to this measure are therefore necessary to address the DOTS' concerns.

Accordingly, your Committees have amended this measure by:

- (1) Removing the request that the City and County of Honolulu prohibit electric scooters, bicycles, and trikes on sidewalks and replacing it with a request to provide the necessary facilities for their safe operation that would be separate them from pedestrian traffic;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 56, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 56, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1405 Transportation on S.C.R. No. 21

The purpose and intent of this measure is to request the Department of Transportation along with the Kauai Department of Public Works to conduct a joint study to identify and recommend methods to alleviate traffic congestion at certain points along Kaumualii Highway.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that Kaumualii Highway in the County of Kauai is a thirty-three-mile highway that passes through some of the largest communities on Kauai, including Lihue, Omao, Koloa, Kalaheo, and Waimea, among others. Additionally, seventeen of the county's largest employers are located in communities near Kaumualii Highway. Due to the growing population of Kauai County along with the proximity to some of the area's largest employers, Kaumualii Highway experiences some of the worst traffic congestion in the county. This measure requests the Department of Transportation and the Kauai Department of Public Works to conduct a joint study to identify and recommend methods to alleviate traffic congestion at certain points along the highway.

Your Committee has amended this measure by:

- (1) Changing the date by which the Department of Transportation and Kauai Department of Public Works are requested to present their findings and recommendations to the Legislature from 2022 to 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 21, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 21, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1406 Transportation on S.R. No. 10

The purpose and intent of this measure is to request the Department of Transportation along with the Kauai Department of Public Works to conduct a joint study to identify and recommend methods to alleviate traffic congestion at certain points along Kaumualii Highway.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that Kaumualii Highway in the County of Kauai is a thirty-three-mile highway that passes through some of the largest communities on Kauai, including Lihue, Omao, Koloa, Kalaheo, and Waimea, among others. Additionally, seventeen of the county's largest employers are located in communities near Kaumualii Highway. Due to the growing population of Kauai County along with the proximity to some of the area's largest employers, Kaumualii Highway experiences some of the worst traffic congestion in the county. This measure requests the Department of Transportation and the Kauai Department of Public Works to conduct a joint study to identify and recommend methods to alleviate traffic congestion at certain points along the highway.

Your Committee has amended this measure by:

- (1) Changing the date by which the Department of Transportation and Kauai Department of Public Works are requested to present their findings and recommendations to the Legislature from 2022 to 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 10, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 10, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1407 Health on S.C.R. No. 208

The purpose and intent of this measure is to request the Department of Health to convene a Medicinal Psilocybin and Psilocin Working Group to examine:

- (1) Federal, state, and local laws, regulations, administrative rules, and procedures regarding the medicinal use of psilocybin and psilocin;
- (2) Available medical, psychological, and scientific studies, research, and other information relating to the safety and efficacy of psilocybin and psilocin in treating mental health conditions; and
- (3) Requirements, specifications, and guidelines for a medical professional to prescribe and provide psilocybin and psilocin to patients.

Your Committee received testimony in support of this measure from Beyond Mental Health; The Clarity Project; Drug Policy Forum of Hawai'i, Inc.; and thirty-one individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that mental health conditions are treated in various ways, depending on the condition, and can include medication, therapy, and psychosocial services. Your Committee further finds that studies conducted by nationally and internationally recognized medical institutions demonstrate that psilocybin and psilocin, which occur naturally in certain species of mushrooms, have shown efficacy, tolerability, and safety in the treatment of a variety of mental health conditions, including addiction, depression, anxiety disorders, and end-of-life psychological distress. This measure requests the Department of Health to convene a working group examine the relevant issues regarding psilocybin and psilocin and, if feasible, to develop a long-term plan to ensure the availability of safe, accessible, and affordable medicinal psilocybin and psilocin in the State.

Your Committee acknowledges the testimony of the Department of Health, which recommended modifying the proposed members of the working group to enhance its expertise and promote manageability. Therefore, your Committee has amended this measure by:

- (1) Amending its title to reflect its amended purpose;
- (2) Removing certain members from the working group;
- (3) Limiting the size of the working group to no more than fifteen members; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 208, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 208, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1408 Health on S.R. No. 172

The purpose and intent of this measure is to request the Department of Health to convene a Medicinal Psilocybin and Psilocin Working Group to examine:

- (1) Federal, state, and local laws, regulations, administrative rules, and procedures regarding the medicinal use of psilocybin and psilocin;
- (2) Available medical, psychological, and scientific studies, research, and other information relating to the safety and efficacy of psilocybin and psilocin in treating mental health conditions; and
- (3) Requirements, specifications, and guidelines for a medical professional to prescribe and provide psilocybin and psilocin to patients.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that mental health conditions are treated in various ways, depending on the condition, and can include medication, therapy, and psychosocial services. Your Committee further finds that studies conducted by nationally and internationally recognized medical institutions demonstrate that psilocybin and psilocin, which occur naturally in certain species of mushrooms, have shown efficacy, tolerability, and safety in the treatment of a variety of mental health conditions, including addiction, depression, anxiety disorders, and end-of-life psychological distress. This measure requests the Department of Health to convene a working group examine the relevant issues regarding psilocybin and psilocin and, if feasible, to develop a long-term plan to ensure the availability of safe, accessible, and affordable medicinal psilocybin and psilocin in the State.

Your Committee acknowledges the testimony of the Department of Health, which recommended modifying the proposed members of the working group to enhance its expertise and promote manageability. Therefore, your Committee has amended this measure by:

- (1) Amending its title to reflect its amended purpose;
- (2) Removing certain members from the working group;
- (3) Limiting the size of the working group to no more than fifteen members; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 172, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 172, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1409 (Joint) Health and Human Services on S.C.R. No. 119

The purpose and intent of this measure is to request the Department of Health to change its eligibility criteria for the home and community-based services Medicaid waiver for individuals having intellectual or developmental disabilities, or mental illnesses.

Your Committees received testimony in support of this measure from the Hawaii Disability Rights Center. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the State Council on Developmental Disabilities.

Your Committees find that state residents who have intellectual or developmental disabilities may receive Medicaid benefits if those residents meet the requirements for having a developmental disability under existing state law. However, the criteria for having a developmental disability pursuant to existing law unfairly excludes from eligibility a number of individuals who would otherwise be eligible for services based on their developmental disabilities. This measure requests the Department of Health to change its eligibility criteria so that more state residents may qualify for Medicaid.

Your Committees recognize the testimony of the Department of Health, raising concerns that changing its eligibility criteria would not necessarily allow more residents to be eligible for Medicaid and that further study is needed to determine the fiscal implications of expanding coverage. Accordingly, your Committees have amended this measure by:

- (1) Replacing the request for the Department of Health to change its eligibility criteria with a request for the Department of Health Developmental Disability Division to convene a task force to study the feasibility of the Department to change its eligibility criteria; and
- (2) Replacing references to 11-88.1-1.5(a), Hawaii Administrative Rules, with 11-88.1-5(a), Hawaii Administrative Rules;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 119, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 119, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Misalucha).

SCRep. 1410 (Joint) Health and Human Services on S.R. No. 93

The purpose and intent of this measure is to request the Department of Health to change its eligibility criteria for the home and community-based services Medicaid waiver for individuals having intellectual or developmental disabilities, or mental illnesses.

Your Committees received comments on this measure from the State Council on Developmental Disabilities.

Your Committees find that state residents who have intellectual or developmental disabilities may receive Medicaid benefits if those residents meet the requirements for having a developmental disability under existing state law. However, the criteria for having a developmental disability pursuant to existing law unfairly excludes from eligibility a number of individuals who would otherwise be eligible for services based on their developmental disabilities. This measure requests the Department of Health to change its eligibility criteria so that more state residents may qualify for Medicaid.

Your Committees recognize the testimony of the Department of Health, raising concerns that changing its eligibility criteria would not necessarily allow more residents to be eligible for Medicaid and that further study is needed to determine the fiscal implications of expanding coverage. Accordingly, your Committees have amended this measure by:

- (1) Replacing the request for the Department of Health to change its eligibility criteria with a request for the Department of Health Developmental Disability Division to convene a task force to study the feasibility of the Department to change its eligibility criteria; and
- (2) Replacing references to 11-88.1-1.5(a), Hawaii Administrative Rules, with 11-88.1-5(a), Hawaii Administrative Rules;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 93, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 93, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Misalucha).

SCRep. 1411 Health on S.C.R. No. 176

The purpose and intent of this measure is to request the Department of Health to conduct a study that explores options for the Department to provide better oversight of community health centers, dental clinics, and other medical service entities.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that community health centers, also known as federally qualified health centers, are the cornerstone of the State's health care system and provide essential services to the most vulnerable populations. Recently, community health centers and other medical service entities have experienced disturbing incidents, including the closure of the only community health center on the island of Molokai and the death of a child at a Kailua dental practice. This measure requests the Department of Health to explore ways to provide better oversight of community health centers, dental clinics, and other medical service entities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 176 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1412 Health on S.R. No. 141

The purpose and intent of this measure is to request the Department of Health to conduct a study that explores options for the Department to provide better oversight of community health centers, dental clinics, and other medical service entities.

Your Committee did not receive any testimony on this measure.

Your Committee finds that community health centers, also known as federally qualified health centers, are the cornerstone of the State's health care system and provide essential services to the most vulnerable populations. Recently, community health centers and other medical service entities have experienced disturbing incidents, including the closure of the only community health center on the island of Molokai and the death of a child at a Kailua dental practice. This measure requests the Department of Health to explore ways to provide better oversight of community health centers, dental clinics, and other medical service entities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 141 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1413 (Joint) Health and Government Operations on S.C.R. No. 169

The purpose and intent of this measure is to urge the Governor to create a task force to develop recommendations on the roles and responsibilities of the Department of the Attorney General and the state and county law enforcement agencies to enforce emergency proclamations, including but not limited to supplemental emergency proclamations related to the coronavirus disease 2019 (COVID-19) pandemic.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney. Your Committees received testimony in opposition to this measure from seventeen individuals. Your Committees received comments on this measure from the Department of the Attorney General and Hawaii Emergency Management Agency.

Your Committees find that existing law provides the Governor and county mayors the ability to establish misdemeanor offenses through rulemaking during emergency periods. The Governor has issued supplemental emergency proclamations to mitigate the spread of COVID-19 by ordering residents and visitors to self-quarantine for a mandatory fourteen-day period, which applies to all arrivals at state airports from the continental United States and international destinations. However, enforcement of the Governor's emergency order are largely on an "honor system", dependent on the deterrent effect of potential penalties and the individual's tolerance for risk. This measure requests the Governor to establish a task force to make recommendations on how to enforce future emergency proclamations.

Your Committees have amended this measure by:

- (1) Amending the measure to more accurately describe the purpose of the State's mandatory self-quarantine requirement;
- (2) Expanding the scope of the measure to include all emergency proclamations;
- (3) Adding additional members to sit on the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 169, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 169, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 1414 (Joint) Health and Government Operations on S.R. No. 134

The purpose and intent of this measure is to urge the Governor to create a task force to develop recommendations on the roles and responsibilities of the Department of the Attorney General and the state and county law enforcement agencies to enforce emergency proclamations, including but not limited to supplemental emergency proclamations related to the coronavirus disease 2019 (COVID-19) pandemic.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney. Your Committees received testimony in opposition to this measure from five individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that existing law provides the Governor and county mayors the ability to establish misdemeanor offenses through rulemaking during emergency periods. The Governor has issued supplemental emergency proclamations to mitigate the spread of COVID-19 by ordering residents and visitors to self-quarantine for a mandatory fourteen-day period, which applies to all arrivals at state airports from the continental United States and international destinations. However, enforcement of the Governor's emergency order are largely on an "honor system", dependent on the deterrent effect of potential penalties and the individual's tolerance for risk. This measure requests the Governor to establish a task force to make recommendations on how to enforce future emergency proclamations.

Your Committees have amended this measure by:

- (1) Amending the measure to more accurately describe the purpose of the State's mandatory self-quarantine requirement;
- (2) Expanding the scope of the measure to include all emergency proclamations;
- (3) Adding additional members to sit on the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 134, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 134, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 1415 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 2

The purpose and intent of this measure is to request the counties to study how inclusionary zoning impacts housing supply.

Your Committees received testimony in support of this measure from the Building Industry Association Hawaii.

Your Committees find that inclusionary zoning is a housing policy that requires a certain percentage of units in new residential developments to be priced as "affordable housing" for buyers with low to moderate income levels. This policy gained traction in the 1970s and today is an increasingly popular method of producing affordable homes through the private market. Despite the increase in popularity over the years, questions remain over the effectiveness of inclusionary zoning policies. A 2016 study by the Terner Center for Housing Innovation at the University of California, Berkley, estimated that a new inclusionary zoning policy in the city of Oakland, California, would lead to a six to twelve percent reduction in total housing unit production than if the zoning policy did not exist. Furthermore, the same study estimated that the inclusionary zoning policy would reduce government revenue from taxes and fees by between six to nineteen percent. Due to Hawaii's continuing housing crisis and the urgent need for more housing units throughout the State, it is vitally important to understand the impacts of inclusionary zoning policies on the housing market. This measure requests the counties to study inclusionary zoning and its effects on housing supply in the State.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 2 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

SCRep. 1416 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 3

The purpose and intent of this measure is to request the counties to study how inclusionary zoning impacts housing supply.

Your Committees received testimony in support of this measure from the Building Industry Association Hawaii.

Your Committees find that inclusionary zoning is a housing policy that requires a certain percentage of units in new residential developments to be priced as "affordable housing" for buyers with low to moderate income levels. This policy gained traction in the 1970s and today is an increasingly popular method of producing affordable homes through the private market. Due to Hawaii's continuing housing crisis and the urgent need for more housing units throughout the State, it is vitally important to understand the impacts of inclusionary zoning policies on the housing market. This measure requests the counties to study inclusionary zoning and its effects on housing supply in the State.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 3 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

SCRep. 1417 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 3

The purpose and intent of this measure is to urge the counties to produce land use plans that account for housing production.

Your Committees received testimony in support of this measure from the Building Industry Association Hawaii and one individual.

Your Committees find that the State is suffering from a housing crisis. There is a dearth of housing units available across all price points, but the lack of housing units is especially dire in the affordable housing segment. A study by the Department of Business, Economic Development, and Tourism found that the State will need an additional fifty-seven thousand housing units by 2025 and there are currently no concrete plans by the State or the counties on how to provide these additional housing units. This measure urges the counties to produce land use plans that account for housing production to combat the ongoing housing crisis.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 3 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

SCRep. 1418 Energy, Economic Development, and Tourism on S.C.R. No. 204

The purpose and intent of this measure is to commend the Governor Ariyoshi Foundation for its sustained vision and leadership in supporting space research and exploration through the Hawaii Space Industry Innovation Program (HiSPACE) and endorsing this program's ongoing efforts to establish a Global Alliance for International Collaboration in Space (GALIX), headquartered in Hawaii, as a multinational coalition to both expand and diversify space ventures for all of humankind, thereby enhancing Hawaii's pioneering role on the frontiers of space.

Your Committee received testimony in support of this measure from Space Renaissance International; Lockheed Martin Commercial Launch Service; Hawaii Space Industry Innovation Program; ORBITBeyond, Inc.; and two individuals.

Your Committee finds that humanity is now embarking on a new era of space enterprise, with both public and private research and development institutions worldwide exploring innovative approaches to advance space science, exploration, and development. Your

Committee recognizes that a team of visionary space professionals, coordinated through the Governor Ariyoshi Foundation's HiSPACE Program is now exploring creative ways to engage with government agencies, scientific institutions, universities, commercial space ventures, and space organizations worldwide.

Your Committee further finds that it is important to support a GALIX initiative, which both inspires and promotes innovative approaches to space enterprise by exploring multiple opportunities to expand and diversify space education, training, and research and that its goals and objectives should continue to be developed by an international steering committee to explore and promote new types of cooperative space ventures as well as innovative organizational models and international alliances.

Your Committee also finds that to promote and realize the vision and full potential of GALIX, the State of Hawaii should explore ways to provide both administrative and funding support for a GALIX initiative in consultation with the HiSPACE Advisory Team and the Governor Ariyoshi Foundation.

Accordingly, your Committee has amended this measure by:

- (1) Adding language commending the Governor Ariyoshi Foundation for its sustained vision and leadership in supporting space research and exploration through HiSPACE and endorsing GALIX;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 204, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 204, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1419 Energy, Economic Development, and Tourism on S.R. No. 169

The purpose and intent of this measure is to commend the Governor Ariyoshi Foundation for its sustained vision and leadership in supporting space research and exploration through the Hawaii Space Industry Innovation Program (HiSPACE) and endorsing this program's ongoing efforts to establish a Global Alliance for International Collaboration in Space (GALIX), headquartered in Hawaii, as a multinational coalition to both expand and diversify space ventures for all of humankind, thereby enhancing Hawaii's pioneering role on the frontiers of space.

Your Committee received testimony in support of this measure from Space Renaissance International; Lockheed Martin Commercial Launch Service; Hawaii Space Industry Innovation Program; ORBITBeyond, Inc.; and two individuals.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 169, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 169, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1420 Energy, Economic Development, and Tourism on S.C.R. No. 175

The purpose and intent of this measure is to request the Hawaii Tourism Authority to develop an implementation plan based on tourism hot spots identified in county destination management action plans.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority and one individual.

Your Committee finds that the current reduction in the number of visitors to Hawaii due to the coronavirus disease (COVID-19) pandemic, provides Hawaii with the opportunity to review and restructure tourism management practices that can be implemented as the tourism industry recovers.

Your Committee further finds that tourism "hot spots" include areas that attract visitors because of their popularity, resulting in overcrowding, congestion, degradation of resources, safety hazards, and a negative experience for residents and visitors. Your Committee believes that identifying these tourism "hot spots" will allow the Hawaii Tourism Authority to develop an implementation plan to assess resources needed to facilitate multi-year discussions between public, private and community stakeholders to address issues, including the responsibilities of each respective county and state agency, and recommend a timetable for implementation of the

Your Committee has amended this measure by:

- (1) Clarifying that the implementation plan should also explore potential areas for increasing revenue, including impact fees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 175, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 175, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

Energy, Economic Development, and Tourism on S.R. No. 140

The purpose and intent of this measure is to request the Hawaii Tourism Authority to develop an implementation plan based on tourism hot spots identified in county destination management action plans.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority.

Your Committee finds that the current reduction in the number of visitors to Hawaii due to the coronavirus disease (COVID-19) pandemic, provides Hawaii with the opportunity to review and restructure tourism management practices that can be implemented as the tourism industry recovers.

Your Committee further finds that tourism "hot spots" include areas that attract visitors because of their popularity, resulting in overcrowding, congestion, degradation of resources, safety hazards, and a negative experience for residents and visitors. - (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 140, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 140, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

Energy, Economic Development, and Tourism on S.C.R. No. 56

The purpose and intent of this measure is to support an economic transition that combats climate change and incorporates circular economy goals rooted in Aloha 'Āina principles. Specifically, this measure:

- (1) Requests that all state agencies, in pursuance of the circular economy principles, convene and participate in the Hawaii Circular Economy Task Force that supports Hawaii's transition toward a circular economy by 2035; and
- (2) Requests that recommendations made by the Hawaii Circular Economy Task Force achieve the following objectives:
 - (A) Consideration of circular economy values in decision-making;
 - (B) Incorporation of circular economy principles in future policy and regulatory actions;
 - (C) Restoration of 'āina and communities in a manner that elevates local self-sufficiency;
 - (D) Supporting efficient processing and reduction of waste streams across economic sectors to produce regenerative impacts on Hawaii's 'āina and resources; and
 - (E) Consideration of utilizing the 'Āina Aloha Economic Futures Assessment Tools for decision-making and allocations of resources unless inappropriate.

Your Committee received testimony in support of this measure from the Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Waimea Hawaiian Civic Club, Kaua'i Climate Action Coalition, Kanaeokana Kula Hawai'i Network, Climate Protectors Hawai'i, and forty individuals.

Your Committee finds that Hawaii is a leader in climate change and renewable energy generation goals and has the potential to model an economy rooted in centuries of island-based values, such as sustainable practices, environmental health, and community well-being. With the adoption of circular energy goals, Hawaii is poised to become a global leader in the transition toward a circular economy grounded in indigenous values. Your Committee intends that this measure complement the efforts of the newly-established Statewide Sustainability Program.

Therefore, your Committee has amended this measure by:

- (1) Adding the State Sustainability Coordinator to the list of individuals to receive a certified copy of the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1423 Energy, Economic Development, and Tourism on S.R. No. 38

The purpose and intent of this measure is to support an economic transition that combats climate change and incorporates circular economy goals rooted in Aloha 'Āina principles. Specifically, this measure:

- Requests that all state agencies, in pursuance of the circular economy principles, convene and participate in the Hawaii Circular Economy Task Force that supports Hawaii's transition toward a circular economy by 2035; and
- (2) Requests that recommendations made by the Hawaii Circular Economy Task Force achieve the following objectives:

 - (D) Supporting efficient processing and reduction of waste streams across economic sectors to produce regenerative impacts on Hawaii's 'āina and resources; and
 - (E) Consideration of utilizing the 'Āina Aloha Economic Futures Assessment Tools for decision-making and allocations of resources unless inappropriate.

Your Committee received testimony in support of this measure from the Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Waimea Hawaiian Civic Club, Kaua'i Climate Action Coalition, Kanaeokana Kula Hawai'i Network, Foresight/Policy Analysis, Climate Protectors Hawai'i, and eighteen individuals.

Your Committee finds that Hawaii is a leader in climate change and renewable energy generation goals and has the potential to model an economy rooted in centuries of island-based values, such as sustainable practices, environmental health, and community well-being. With the adoption of circular energy goals, Hawaii is poised to become a global leader in the transition toward a circular economy grounded in indigenous values. Your Committee intends that this measure complement the efforts of the newly-established Statewide Sustainability Program.

Therefore, your Committee has amended this measure by:

- (1) Adding the State Sustainability Coordinator to the list of individuals to receive a certified copy of the measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 38, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 38, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1424 Energy, Economic Development, and Tourism on S.C.R. No. 205

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism to compile a short list of Fortune 500 Companies that are suitable to relocate to Hawaii and identify means and incentives to entice these companies to relocate.

Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the effects of the coronavirus disease 2019 (COVID-19) pandemic and relating job losses in the tourism sector of the economy have demonstrated the urgent need for business diversification in the State. Your Committee further finds that given the advances in technology and the way business is conducted in the modern age, there are more reasons for companies to relocate to Hawaii than ever before and the State should explore all possible incentives to lure well-paying jobs and investment to Hawaii. These efforts may provide pathways to the business diversification that Hawaii sorely needs.

Your Committee has amended this measure by requesting that the Director of the Department of Business, Economic Development, and Tourism submit a report, which includes a list of the Fortune 500 companies identified as suitable to relocate to the State, along with any other findings, recommendations, and any proposed legislation to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 205, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 205, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1425 Energy, Economic Development, and Tourism on S.R. No. 170

The purpose and intent of this measure is to request that the Department of Business, Economic Development, and Tourism to compile a short list of Fortune 500 Companies that are suitable to relocate to Hawaii and identify means and incentives to entice these companies to relocate.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the effects of the coronavirus disease 2019 (COVID-19) pandemic and relating job losses in the tourism sector of the economy have demonstrated the urgent need for business diversification in the State. As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 170, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 170, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1426 Transportation on S.C.R. No. 262

The purpose and intent of this measure is to request the Department of Transportation to review, revise, and update plans for the Daniel K. Inouye International Airport.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the Daniel K. Inouye International Airport (HNL) is Hawaii's busiest airport. Unfortunately, over the years HNL has been periodically redesigned or renovated in piecemeal manner and without the benefit of an overarching master plan. This has resulted in a patchwork of different architectural styles, functional designs, and an overall layout that is unintuitive, inefficient, and doesn't best reflect a gateway to Hawaii. These problems are evidenced by the J.D. Power 2019 North America Airport Satisfaction Study ranking HNL as the second worst large airport in North America for customer satisfaction.

Your Committee also finds that the coronavirus disease 2019 (COVID 19) pandemic and resulting reduction in air travel has caused airports around the globe to pause and rethink how airports can optimally function with the prospect of future pandemics or other events that may cause a diminution of air travel. This measure requests the Department of Transportation to take this opportunity to review, revise, and update the plans for HNL so that it can be a better experience for residents and visitors as well as position HNL to handle catastrophic events in the future.

Your Committee has amended this measure by:

- (1) Correcting the name of the Daniel K. Inouye International Airport;
- (2) Adding updated passenger counts for 2020;
- (3) Inserting consideration for additional revenue generation from entertainment and other innovative experiences;
- (4) Acknowledging that other major airports are similarly rethinking their future plans in light of the COVID-19 pandemic; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 262, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 262, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1427 Transportation on S.R. No. 221

The purpose and intent of this measure is to request the Department of Transportation to review, revise, and update plans for the Daniel K. Inouye International Airport.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the Daniel K. Inouye International Airport (HNL) is Hawaii's busiest airport. Unfortunately, over the years HNL has been periodically redesigned or renovated in piecemeal manner and without the benefit of an overarching master plan. This has resulted in a patchwork of different architectural styles, functional designs, and an overall layout that is unintuitive, inefficient, and doesn't best reflect a gateway to Hawaii. These problems are evidenced by the J.D. Power 2019 North America Airport Satisfaction Study ranking HNL as the second worst large airport in North America for customer satisfaction.

Your Committee also finds that the coronavirus disease 2019 (COVID 19) pandemic and resulting reduction in air travel has caused airports around the globe to pause and rethink how airports can optimally function with the prospect of future pandemics or other events that may cause a diminution of air travel. This measure requests the Department of Transportation to take this opportunity to review, revise, and update the plans for HNL so that it can be a better experience for residents and visitors as well as position HNL to handle catastrophic events in the future.

Your Committee has amended this measure by:

- (1) Correcting the name of the Daniel K. Inouye International Airport;
- (2) Adding updated passenger counts for 2020;
- (3) Inserting consideration for additional revenue generation from entertainment and other innovative experiences;
- (4) Acknowledging that other major airports are similarly rethinking their future plans in light of the COVID-19 pandemic; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 221, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 221, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 1428 Transportation on S.C.R. No. 235

The purpose and intent of this measure is to request the Department of Transportation (DOT) to:

- (1) Evaluate traffic congestion on Kuakini Highway and Queen Kaahumanu Road on Hawaii Island; and
- (2) Conduct a feasibility study regarding traffic reduction by widening those highways or by other alternative means.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the island of Hawaii has experienced a growth in population and accompanying increases in traffic congestion. The DOT has acknowledged this problem along certain segments of road and looked into widening the roads in North Kona to alleviate the traffic congestion. Unfortunately, the DOT found that it would require more than \$150,000,000 to complete the project, an amount that renders the project infeasible. However, the traffic issues still remain and something must be done. This measure encourages the DOT to conduct a feasibility study regarding traffic reduction through either lane repainting to narrow the lanes or through other alternative means.

Your Committee also notes that flooding along certain portions of Hawaii Belt Road (Mamalohoa Highway) and Meleana Place on the island of Hawaii are prone to flooding after completion of a highway improvement project in 1997. This flooding creates hazardous conditions for drivers and significant property damage for residents whose properties abut the flooded areas. Your Committee acknowledges that the portions of highway in question are currently under private ownership and as such the DOT does not have jurisdiction to make any repairs or improvements at this time. However, given the impact of this flooding on residents your Committee feels the issue is ripe for discussion so that, should the area in question come under state control in the future, the DOT will be well-positioned to respond.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language from S.C.R. No. 51, Regular Session 2021, regarding flooding along certain portions of the Hawaii Belt Road (Mamalahoa Highway) and Meleana Place on the island of Hawaii and requesting the DOT to conduct a study and prepare a plan to remediate the flooding issues at the appropriate time;
- (2) Requesting the DOT to consider narrowing the lanes to a uniform width of ten feet in acknowledgement of the testimony from the DOT that the lane width along Kuakini Highway and Queen Kaahumanu Highway between Henry Street and Kamehameha III Road on the island of Hawaii island is not currently a uniform fourteen feet in width as previously understood but instead varies between twelve and a half feet and ten feet;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 235, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 235, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1429 Transportation on S.R. No. 195

The purpose and intent of this measure is to request the Department of Transportation (DOT) to:

- (1) Evaluate traffic congestion on Kuakini Highway and Queen Kaahumanu Road on Hawaii Island; and
- (2) Conduct a feasibility study regarding traffic reduction by widening those highways or by other alternative means.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the island of Hawaii has experienced a growth in population and accompanying increases in traffic congestion. The DOT has acknowledged this problem along certain segments of road and looked into widening the roads in North Kona to alleviate the traffic congestion. Unfortunately, the DOT found that it would require more than \$150,000,000 to complete the project, an amount that renders the project infeasible. However, the traffic issues still remain and something must be done. This measure encourages the DOT to conduct a feasibility study regarding traffic reduction through either lane repainting to narrow the lanes or through other alternative means.

Your Committee also notes that flooding along certain portions of Hawaii Belt Road (Mamalohoa Highway) and Meleana Place on the island of Hawaii are prone to flooding after completion of a highway improvement project in 1997. This flooding creates hazardous conditions for drivers and significant property damage for residents whose properties abut the flooded areas. Your Committee acknowledges that the portions of highway in question are currently under private ownership and as such the DOT does not have jurisdiction to make any repairs or improvements at this time. However, given the impact of this flooding on residents your Committee feels the issue is ripe for discussion so that, should the area in question come under state control in the future, the DOT will be well-positioned to respond.

No. 51, Regular Session 2021, regarding flooding along certain portions of the Hawaii Belt Road (Mamalahoa Highway) and Meleana Place on the island of Hawaii and requesting the DOT to conduct a study and prepare a plan to remediate the flooding issues at the appropriate time;
- (2) Requesting the DOT to consider narrowing the lanes to a uniform width of ten feet in acknowledgement of the testimony from the DOT that the lane width along Kuakini Highway and Queen Kaahumanu Highway between Henry Street and Kamehameha III Road on the island of Hawaii island is not currently a uniform fourteen feet in width as previously understood but instead varies between twelve and a half feet and ten feet;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 195, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 195, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1430 Transportation on S.C.R. No. 173

The purpose and intent of this measure is to request the Department of Transportation to initiate three innovative pilot projects of meaningful scale to modernize transportation infrastructure in undeserved communities.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that the State should move away from auto-centric transportation policies and instead should modernize ground transportation infrastructure by incorporating safer, protected walking and biking infrastructure. This measure will help residents reduce the cost of living, improve their quality of life, and stimulate the economy by encouraging the Department of Transportation and the county partner agencies to execute three new innovative pilot projects of meaningful scale that will improve ground transportation infrastructure.

Your Committee has amended this measure by:

- (1) Adding language referencing federal infrastructure priorities and support;
- (2) Requesting that county departments of transportation participate with the state Department of Transportation to prioritize and execute three pilot ground transportation projects; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 173, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 173, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1431 Transportation on S.R. No. 138

The purpose and intent of this measure is to request the Department of Transportation to initiate three innovative pilot projects of meaningful scale to modernize transportation infrastructure in undeserved communities.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the State should move away from auto-centric transportation policies and instead should modernize ground transportation infrastructure by incorporating safer, protected walking and biking infrastructure. This measure will help residents reduce the cost of living, improve their quality of life, and stimulate the economy by encouraging the Department of Transportation and the county partner agencies to execute three new innovative pilot projects of meaningful scale that will improve ground transportation infrastructure.

Your Committee has amended this measure by:

- (1) Adding language referencing federal infrastructure priorities and support;
- (2) Requesting that county departments of transportation participate with the state Department of Transportation to prioritize and execute three pilot ground transportation projects; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 138, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 138, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1432 (Joint) Health and Judiciary on S.C.R. No. 191

The purpose and intent of this measure is to urge the United States Department of Health and Human Services to amend its policies relating to postpartum sterilization waiting periods for Medicaid recipients.

Your Committees received testimony in support of this measure from the American College of Obstetricians and Gynecologists and eight individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that postpartum sterilization, a form of contraception for women in which a doctor cuts and closes or completely removes the fallopian tubes shortly after a woman gives birth, is the most used form of contraception in the United States. For Medicaid recipients, federal regulations require a thirty-day waiting period between consent to postpartum sterilization and surgery and failure to comply with the waiting period can result in reimbursement denial for delivery and postpartum care. By contrast, privately insured individuals are not generally subject to a thirty-day waiting period between consent and surgery, creating a two-tiered system of access that restricts reproductive autonomy to those who can afford it. Your Committees find that regulations that place an additional undue burden on patients and families who already face systemic disadvantage and poor health outcomes, particularly low-income people and people of color, should be abolished or revised to ensure fair and equitable access to all reproductive health services.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 191 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Baker, Moriwaki).

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 1433 Health on S.C.R. No. 53

The purpose and intent of this measure is to request the Hawaii Health Systems Corporation to convene a task force to conduct a feasibility study for the construction of a hospital in North Kona.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, Kona-Kohala Chamber of Commerce, Association of Hawaiian Civic Clubs – Hawai'i Council, Kohala Coast Resort Association, County of Hawai'i Office of the Mayor, and seventeen individuals.

Your Committee finds that the population of North Kona on the island of Hawaii has significantly increased over the years, which has corresponded with a steady increase in the need for convenient access to medical services. Your Committee further finds that the residents of North Kona would greatly benefit from the addition of a hospital in their community. This measure requests the Hawaii Health Systems Corporation to convene a task force to conduct a feasibility study for construction of a hospital in North Kona.

Your Committee recognizes the testimony of the Hawaii Health Systems Corporation, which recommended that the task force also conduct a health care needs assessment of the West Hawaii region to contextualize the need for a new hospital and to add a representative of Queen's North Hawaii Community Hospital to the task force.

As such, your Committee has amended this measure by:

- (1) Requesting the task force to also conduct a health care needs assessment of the West Hawaii region;
- (2) Adding a representative of Queen's North Hawaii Community Hospital to the task force;

- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1434 Health on S.R. No. 35

The purpose and intent of this measure is to request the Hawaii Health Systems Corporation to convene a task force to conduct a feasibility study for the construction of a hospital in North Kona.

Your Committee received testimony in support of this measure from the Kona-Kohala Chamber of Commerce, Association of Hawaiian Civic Clubs – Hawaii'i Council, Kohala Coast Resort Association, Hawaii Island Economic Development Board, Hawaii Leeward Planning Conference, and six individuals.

Your Committee finds that the population of North Kona on the island of Hawaii has significantly increased over the years, which has corresponded with a steady increase in the need for convenient access to medical services. Your Committee further finds that the residents of North Kona would greatly benefit from the addition of a hospital in their community. This measure requests the Hawaii Health Systems Corporation to convene a task force to conduct a feasibility study for construction of a hospital in North Kona.

Your Committee recognizes the testimony of the Hawaii Health Systems Corporation, which recommended that the task force also conduct a health care needs assessment of the West Hawaii region to contextualize the need for a new hospital and to add a representative of Queen's North Hawaii Community Hospital to the task force.

As such, your Committee has amended this measure by:

- (1) Requesting the task force to also conduct a health care needs assessment of the West Hawaii region;
- (2) Adding a representative of Queen's North Hawaii Community Hospital to the task force;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 35, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 35, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 1435 Health on S.C.R. No. 33

The purpose and intent of this measure is to request that the Office of Primary Care and Rural Health facilitate discussions with key community health and social service organizations in west Hawaii and major health care stakeholders in Senate District 3 to address the health and wellness needs of the most vulnerable communities by aligning the goals and objectives of key organizations into a 2030 One Shared Health Vision Plan.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the purpose of the "One Shared Vision" plan is to improve public health by strengthening collaboration and communication among all sectors of the health care community. Your Committee also finds that establishing a strong health network based in west Hawaii in accordance with the One Shared Vision plan would allow the region to serve as a model for the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 33 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1436 Health on S.R. No. 22

The purpose and intent of this measure is to request that the Office of Primary Care and Rural Health facilitate discussions with key community health and social service organizations in west Hawaii and major health care stakeholders in Senate District 3 to address the health and wellness needs of the most vulnerable communities by aligning the goals and objectives of key organizations into a 2030 One Shared Health Vision Plan.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the purpose of the "One Shared Vision" plan is to improve public health by strengthening collaboration and communication among all sectors of the health care community. Your Committee also finds that establishing a strong health network based in west Hawaii in accordance with the One Shared Vision plan would allow the region to serve as a model for the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 22 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 1437 Agriculture and Environment on S.C.R. No. 135

The purpose and intent of this measure is to request that the year 2022 be designated as the Year of Limu.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, Kuaʻāina Ulu ʻAuamo, Malama Pupukea-Waimea, Kanaeokana, Papa Ola Lōkahi, Native Hawaiian Education Council, Boys & Girls Club of Hawaii, Council for Native Hawaiian Advancement, Kamehameha Schools, Iolani Palace, The Queen's Health Systems, Partners in Development Foundation, The Kawaihapai Ohana, and three individuals.

Your Committee finds that limu is found throughout the Hawaiian islands and forms a critical cultural and ecological piece of Hawaii's oceanscape. Limu serves as the primary food and shelter for herbivorous fish and is the foundation of the food chain, helps to filter runoff, and provides necessary protection and food for juvenile fish. Some limu also have high medicinal and ceremonial value. Currently, as the climate crisis looms ahead, non-native algae proliferate, and urbanization pressures increase, pollution and diversion of upland stream flows, the degradation of reefs, and changes to the hydrology and degradation in sand movement have compromised conditions of limu gathering. The loss of native limu runs parallel with the loss of Hawaiian cultural practices and loss of ancestral knowledge; limu knowledge and practices are still maintained, primarily in rural areas of the State, but the scarcity of this once-abundant resource has made it difficult for practitioners to pass on their knowledge.

Your Committee finds that despite these obstacles to growing limu, there are several limu restoration projects throughout the State to preserve limu cultivation knowledge, reestablish limu abundance, and grow a network of limu practitioners. Designating the "Year of Limu" would uplift the work and passion of the cultural practitioners who have worked tirelessly to revitalize limu and provide opportunities to increase awareness and education of Hawaii's residents of the environmental and cultural significance of limu.

Your Committee has amended this measure by:

- Recognizing the achievements of kupuna whose academic and community efforts to revitalize limu practice perpetuated the deeper socio-cultural tie that bind limu to the State;
- (2) Acknowledging community efforts, like those of the Limu Hui of the Kua'āina Ulu 'Auamo (KUA) and the Waimanalo Limu Hui, for their ongoing efforts in propagating limu species;
- (3) Adding the Chairperson of the Board of Land and Natural Resources, Chairperson of the Board of Directors of KUA, and Limu Hui Coordinator for KUA as recipients for the certified copies of the resolution; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 135, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 135, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 1438 (Joint) Agriculture and Environment and Water and Land on S.C.R. No. 52

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaptation Commission and the County of Hawaii to collaborate to identify sea level rise at Kahaluu Bay and jointly pursue a master plan to relocate the pavilion at Kahaluu Bay, Hawaii.

Your Committees received testimony in support of this measure from the County of Hawaii – Office of the Mayor and The Kohala

Your Committees find that Kahaluu Bay is a historic and traditional cultural gathering site for native Hawaiians and is a prime source of fishing, gathering, and surfing. The current pavilion at Kahaluu Bay is perceived as the focal gathering point of the Kahaluu Beach Park. However, Kahaluu Bay is in the potential area of chronic flooding with five feet of sea level rise in Kailua-Kona. In 2008, the Kahaluu Beach Park Conceptual Master Plan recommended the relocation of the pavilion back from the shoreline to protect the structure from damage that may occur from sea level rise and storm surges. Additionally, the terrestrial areas and park facilities are eroding from storm surges and sea level rise, while the marine life is threatened by human interaction through trampling, sunscreen exposure, runoff, overfishing and waste disposal, as well as by ocean acidification, ocean heating, and other climate change effects.

Currently, the Kahaluu Bay Education Center, a program of The Kohala Center, is working in collaboration with Hawaii County and Sea Engineering LLC to undertake a coastal assessment and hazards analysis of Kahaluu Bay that considers how ocean trends will affect the nearshore environment in the face of climate change, which will further provide a basis for a community-informed master plan for terrestrial restoration and park development can be examined. Therefore, your Committees find that it is necessary to relocate the pavilion to avoid further deterioration from sea level rise and storm surges.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 52, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 52, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 1439 (Joint) Agriculture and Environment and Water and Land on S.R. No. 34

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaptation Commission and the County of Hawaii to collaborate to identify sea level rise at Kahaluu Bay and jointly pursue a master plan to relocate the pavilion at Kahaluu Bay, Hawaii.

Your Committees received testimony in support of this measure from the County of Hawaii - Office of the Mayor, The Kohala Center, and one individual.

Your Committees find that Kahaluu Bay is a historic and traditional cultural gathering site for native Hawaiians and is a prime source of fishing, gathering, and surfing. The current pavilion at Kahaluu Bay is perceived as the focal gathering point of the Kahaluu Beach Park. However, Kahaluu Bay is in the potential area of chronic flooding with five feet of sea level rise in Kailua-Kona. In 2008, the Kahaluu Beach Park Conceptual Master Plan recommended the relocation of the pavilion back from the shoreline to protect the structure from damage that may occur from sea level rise and storm surges. Additionally, the terrestrial areas and park facilities are eroding from storm surges and sea level rise, while the marine life is threatened by human interaction through trampling, sunscreen exposure, runoff, overfishing and waste disposal, as well as by ocean acidification, ocean heating, and other climate change effects.

SCRep. 1440 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 120

The purpose and intent of this measure is to urge the Department of Transportation and county police departments to expand a statewide public awareness campaign about the State's "move over law."

Your Committees received testimony in support of this measure from the Department of Transportation and one individual.

Your Committees find that the State's "move over law" requires that drivers slow down to a reasonable speed and, if necessary, move over into an adjacent lane upon approaching an emergency vehicle that is stopped for an emergency. Despite this requirement in statute, your Committees find that many Hawaii drivers do not follow the law. This has resulted in close calls, injuries, and even fatalities to tow truck drivers, emergency personnel, and police officers who have stopped to assist drivers in need on the roadways of the State. Expanding public awareness of the "move over law" would protect those emergency responders who are assisting other drivers. Therefore, your Committees find it appropriate to urge the Department of Transportation, as well as other departments and agencies, to promote an awareness campaign of the "move over law."

Your Committees have amended this measure by:

- (1) Adding the Governor and the Department of Health to the list of entities that should collaborate with the Department of Transportation to develop an expanded public awareness campaign;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 120, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 120, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1441 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 94

The purpose and intent of this measure is to urge the Department of Transportation and county police departments to expand a statewide public awareness campaign about the State's "move over law."

Your Committees received testimony in support of this measure from the Department of Transportation and Pinky Tows Hawaii, Inc.

Your Committees find that the State's "move over law" requires that drivers slow down to a reasonable speed and, if necessary, move over into an adjacent lane upon approaching an emergency vehicle that is stopped for an emergency. Despite this requirement in statute, your Committees find that many Hawaii drivers do not follow the law. This has resulted in close calls, injuries, and even fatalities to tow truck drivers, emergency personnel, and police officers who have stopped to assist drivers in need on the roadways of the State. Expanding public awareness of the "move over law" would protect those emergency responders who are assisting other drivers. Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1442 (Joint) Transportation and Energy, Economic Development, and Tourism on S.C.R. No. 263

The purpose and intent of this measure is to convene a public racing facility working group to locate and establish a public racing facility on Oahu.

Your Committees received testimony in support of this measure from the Department of Transportation and Oahu Motorsports Association. Your Committees received testimony in opposition to this measure from Climate Protectors Hawaii and one individual.

Your Committees find that automobile racing has a long and established history in Hawaii. When the last public racing facility on Oahu closed in 2006, many people took to illegally racing on public streets which is a threat to the safety and well-being of the residents of Oahu. Currently, Oahu is the only county without public racing facilities. Besides being used for public enjoyment, public racing facilities can be used for driver education and a valuable training area for law enforcement personnel. Your Committees believe that it is in the public interest to re-establish public racing facilities on Oahu.

Your Committees have amended this measure by:

- (1) Removing the Chairperson of the House Committee on Transportation from the working group and replacing them with a member of the House of Representatives to be appointed by the Speaker of the House of Representatives;
- (2) Adding the Director of Parks and Recreation for the City and County of Honolulu to the working group; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 263, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 263, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 1443 (Joint) Transportation and Energy, Economic Development, and Tourism on S.R. No. 222

The purpose and intent of this measure is to convene a public racing facility working group to locate and establish a public racing facility on Oahu.

Your Committees did not receive any testimony on this measure.

Your Committees find that automobile racing has a long and established history in Hawaii. When the last public racing facility on Oahu closed in 2006, many people took to illegally racing on public streets which is a threat to the safety and well-being of the residents of Oahu. Currently, Oahu is the only county without public racing facilities. Besides being used for public enjoyment, public racing facilities can be used for driver education and a valuable training area for law enforcement personnel. Your Committees believe that it is in the public interest to re-establish public racing facilities on Oahu.

SCRep. 1444 Hawaiian Affairs on S.C.R. No. 185

The purpose and intent of this measure is to recognize the centennial celebration of the Hawaiian Homes Commission Act Of 1920, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Hawaiian Homes Commission Act of 1920, as amended, was enacted to provide homestead lots for native Hawaiians, who following the Māhele of 1848, lost their parcels due to a myriad of reasons, including the lack of understanding of the imposed foreign legal and judicial system, introduction and expansion of large-scale ranching and plantation operations, the decline of taro cultivation due to the mass diversion of water for large-scale planting and ranching operations from large community-maintained traditional irrigation systems, the acquisition of parcels through adverse possession or quiet title actions, and the seizure of parcels as payments for debt and taxes. The Hawaiian Homes Commission Act sought to provide homesteading programs for native Hawaiians by placing approximately 203,500 acres of the 1,800,000 acres of former government and crown lands into the Hawaiian Home Lands Trust, in which the day-to-day management is vested in the Department of Hawaiian Home Lands headed by the Hawaiian Homes Commission. The Hawaiian Homes Commission administers the trust solely in the interest of beneficiaries and uses reasonable skill and care to make the trust property productive.

Your Committee further finds that the Hawaiian Homes Commission Act was signed on July 9, 1921, in which Congress sought to lay the foundation for a comprehensive program to resettle Hawaiians on land that could be farmed and ranched with adequate water and financial assistance to get them started. The Hawaiian Homes Commission Act also sought to increase native Hawaiian land ownership by making the land title inalienable. More specifically, Congress intended to provide homesteads and financial support to assist native Hawaiian beneficiaries, whose numbers were seriously declining due to complex sociological, economic, medical, and political factors. The Hawaiian Homes Commission Act presents a clear opportunity for the federal government, the State, and native Hawaiian beneficiaries to work toward increased self-determination and self-governance. Therefore, this measure seeks to recognize the centennial celebration of the Hawaiian Homes Commission Act.

Your Committee has amended this measure by:

- (1) Inserting provisions to urge the executive departments to review their policies related to the beneficiaries of the Hawaiian Homes Commission Act and prioritize housing of beneficiaries under the Hawaiian Homes Commission Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 185, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 185, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1445 Hawaiian Affairs on S.R. No. 150

The purpose and intent of this measure is to recognize the centennial celebration of the Hawaiian Homes Commission Act Of 1920, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Hawaiian Homes Commission Act of 1920, as amended, was enacted to provide homestead lots for native Hawaiians, who following the Māhele of 1848, lost their parcels due to a myriad of reasons, including the lack of understanding of the imposed foreign legal and judicial system, introduction and expansion of large-scale ranching and plantation operations, the decline of taro cultivation due to the mass diversion of water for large-scale planting and ranching operations from large community-maintained traditional irrigation systems, the acquisition of parcels through adverse possession or quiet title actions, and the seizure of parcels as payments for debt and taxes. The Hawaiian Homes Commission Act sought to provide homesteading programs for native Hawaiians by placing approximately 203,500 acres of the 1,800,000 acres of former government and crown lands into the Hawaiian Home Lands Trust, in which the day-to-day management is vested in the Department of Hawaiian Home Lands headed by the Hawaiian Homes Commission. The Hawaiian Homes Commission administers the trust solely in the interest of beneficiaries and uses reasonable skill and care to make the trust property productive.

Your Committee further finds that the Hawaiian Homes Commission Act was signed on July 9, 1921, in which Congress sought to lay the foundation for a comprehensive program to resettle Hawaiians on land that could be farmed and ranched with adequate water and financial assistance to get them started. The Hawaiian Homes Commission Act also sought to increase native Hawaiian land ownership by making the land title inalienable. More specifically, Congress intended to provide homesteads and financial support to assist native Hawaiian beneficiaries, whose numbers were seriously declining due to complex sociological, economic, medical, and political factors. The Hawaiian Homes Commission Act presents a clear opportunity for the federal government, the State, and native Hawaiian beneficiaries to work toward increased self-determination and self-governance. Therefore, this measure seeks to recognize the centennial celebration of the Hawaiian Homes Commission Act.

Your Committee has amended this measure by:

- (1) Inserting provisions to urge the executive departments to review their policies related to the beneficiaries of the Hawaiian Homes Commission Act and prioritize housing of beneficiaries under the Hawaiian Homes Commission Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 150, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 150, S.D. 1.

Signed by the Chair on behalf of the Committee. Aves. 5. Noes, none. Excused, none.

SCRep. 1446 Hawaiian Affairs on S.C.R. No. 231

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to provide recommendations for the maintenance of South Point Access Road for motor vehicles and pedestrian traffic.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku of Ka'ū, Moku o Keawe. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that South Point (Ka Lae) is a special wahi pana of cultural and spiritual significance for the people of Kaʻū and Hawaiʻi Island that warrants immediate and special protection because of its iwi kūpuna, wahi pana, and unique natural resources. The Department of Hawaiian Home Lands maintains an access road in Ka Lae. Currently, unregulated access at Ka Lae has compromised the integrity of its iwi kupuna, wahi pana, traditional trails, and coastal ecosystems, resulting in miles of deep, wide, and extremely severe erosion scars. Many Kaʻū residents are frustrated with the lack of progress for the management of Ka Lae resources and the disregard for the natural and cultural sites of Ka Lae, thereby jeopardizing the preservation of the remaining unique ecosystems of the area to be preserved for future generations. The resource management issues that have arisen over the decades have stemmed from the lack of a consistent Department of Hawaiian Home Lands' management presence at Ka Lae due to insufficient funds, staffing levels, and resources to manage these lands at a higher level.

Your Committee also finds that in 2012 the Hawaiian Homes Commission adopted the Department of Hawaiian Home Lands Kaʻū Regional Plan, which identified the need for a management plan for coastal lands in Ka Lae. Of the fifteen projects identified in the Ka Lae Resource Management Plan, six projects were identified that need to be implemented immediately for future management plans to be successful, including managing vehicular access at Ka Lae (\$329,000-\$342,000 in annual operating costs); instituting a parking fee for Ka Lae; and planning, designing, and constructing a pedestrian path to Mahana Bay (annual operating costs of \$100,300). The South Point Resource Management Plan specifies that the coastal path will allow the public to access the area, but will only serve foot traffic, while the service road will provide access for emergency and maintenance vehicles only.

Therefore, your Committee supports the purpose and intent of this measure requesting that the Department of Hawaiian Home Lands be proactive in its effort to maintain the unpaved corridor between the end of the South Point Access Road and the boat ramp at Kaulana Bay and Māhana Bay to the Southernmost Point in the United States. In furtherance thereof, this measure requests the Department of Hawaiian Home Lands to provide recommendations, including necessary legislation in a report to the Legislature.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 231, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 231, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1447 Hawaiian Affairs on S.R. No. 191

The purpose and intent of this measure is to request the Department of Hawaiian Home Lands to provide recommendations for the maintenance of South Point Access Road for motor vehicles and pedestrian traffic.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku of Kaʻū, Moku o Keawe. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that South Point (Ka Lae) is a special wahi pana of cultural and spiritual significance for the people of Kaʻū and Hawaiʻi Island that warrants immediate and special protection because of its iwi kūpuna, wahi pana, and unique natural resources. The Department of Hawaiian Home Lands maintains an access road in Ka Lae. Currently, unregulated access at Ka Lae has compromised the integrity of its iwi kupuna, wahi pana, traditional trails, and coastal ecosystems, resulting in miles of deep, wide, and extremely severe erosion scars. Many Kaʻū residents are frustrated with the lack of progress for the management of Ka Lae resources and the disregard for the natural and cultural sites of Ka Lae, thereby jeopardizing the preservation of the remaining unique ecosystems of the area to be preserved for future generations. The resource management issues that have arisen over the decades have stemmed from the lack of a consistent Department of Hawaiian Home Lands' management presence at Ka Lae due to insufficient funds, staffing levels, and resources to manage these lands at a higher level.

Your Committee also finds that in 2012 the Hawaiian Homes Commission adopted the Department of Hawaiian Home Lands Kaʻū Regional Plan, which identified the need for a management plan for coastal lands in Ka Lae. Of the fifteen projects identified in the Ka Lae Resource Management Plan, six projects were identified that need to be implemented immediately for future management plans to be successful, including managing vehicular access at Ka Lae (\$329,000-\$342,000 in annual operating costs); instituting a parking fee for Ka Lae; and planning, designing, and constructing a pedestrian path to Mahana Bay (annual operating costs of \$100,300). The

South Point Resource Management Plan specifies that the coastal path will allow the public to access the area, but will only serve foot traffic, while the service road will provide access for emergency and maintenance vehicles only.

Therefore, your Committee supports the purpose and intent of this measure requesting that the Department of Hawaiian Home Lands be proactive in its effort to maintain the unpaved corridor between the end of the South Point Access Road and the boat ramp at Kaulana Bay and Māhana Bay to the Southernmost Point in the United States. In furtherance thereof, this measure requests the Department of Hawaiian Home Lands to provide recommendations, including necessary legislation in a report to the Legislature.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 191, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 191, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 1448 (Joint) Hawaiian Affairs and Water and Land on S.C.R. No. 206

The purpose and intent of this measure is to request the William S. Richardson School of Law to establish the burial sites working group to examine the burial sites program under the Department of Land and Natural Resources' (DLNR) State Historic Preservation Division (SHPD).

Your Committees received testimony in support of this measure from Ka Lāhui Hawai'i Kōmike Kalai'āina, Huliaupa'a, and thirty-seven individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, University of Hawai'i System, and two individuals.

Your Committees find that chapter 6E, Hawaii Revised Statutes, provides that the State must provide leadership in preserving historic and cultural property in the spirit of stewardship and trusteeship for future generations and conduct activities, plans, and programs in a manner consistent with the preservation and enhancement of historic and cultural property. SHPD is entrusted with protecting Hawaii's unique and cultural historic resources. The Island Burial Councils seek to augment current procedures relating to the proper care and protection of native Hawaiian burial sites found in the State by avoiding future disputes arising from the discovery of human skeletal remains, and providing additional protection for native Hawaiian burial sites of high preservation value.

For generations, native Hawaiians have cared for loved ones upon their passing by protecting iwi kūpuna. The relationship between the deceased and descendants is an ongoing connection, and when this connection is disrupted through disturbance, damages, or destruction of iwi kūpuna via development, vandalism, or other circumstances, there are direct spiritual implications to native Hawaiian descendants today.

Your Committees also find that historically, state audits of SHPD have revealed chronic leadership dysfunction, employee discord, a significant backlog of project reviews that has substantially undermined the historic preservation review process, particularly with respect to the protection of burial sites throughout the State; and refusal to comply with chapter 6E, Hawaii Revised Statutes, and chapter 13-300, Hawaii Administrative Rules, in fulfilling SHPD's public trust responsibilities to beneficiaries. Recently, the chairpersons of the Island Burial Councils alleged that systemic and chronic mismanagement by SHPD has effectively undermined their ability to provide protection and cultural care to unmarked Hawaiian burial sites. DLNR does not agree with these assertions. This mismanagement continues to undermine the ability of the councils to exercise their legally established authorities, rights, and responsibilities to the significant detriment of Hawaiian burial sites and cherished cultural properties.

Your Committees further find that DLNR disputes the claims of mismanagement and their testimony provides that:

- (1) The Hawaii, Maui/Lanai, and Oahu Burial Councils are supported by two Burial Sites Specialists each;
- The History and Culture Branch Chief is available by phone as necessary when no in attendance at Island Burial Council meetings;
- (3) All staff are properly trained in relevant Hawaii Revised Statutes and Hawaii Administrative Rules affecting proceedings;
- (4) SHPD and the Deputy Attorney Generals (DAGs) assigned to SHPD are working on training materials concerning Sunshine Law and ethics matters for presentation at the May or June 2021 Island Burial Council meetings;
- (5) DAGs assigned to the Island Burial Council meetings regularly provide support by phone when they cannot be physically in attendance at a meeting and provide guidance and advice on specific matters on which the Island Burial Councils need legal advice;
- (6) Every allegation of burial disturbance reported to SHPD is investigated by staff and allegations are forwarded to DLNR's Division of Conservation and Resources Enforcement (DOCARE) for investigation and DAGs; and
- (7) SHPD has a burial sites inventory, including all burials identified during archaeological inventories and surveys, identified by descendants, and those inadvertently discovered. SHPD does not have the resources to carry on an active survey to identify burial sites throughout the State and there is a cultural belief that burials should not be identified, thereby making it difficult to implement a systematic survey effort.

Your Committees believe that the burial sites working group may bring clarity to the issues surrounding the allegations of systemic and chronic mismanagement of the Island Burial Councils by SHPD and the lack of consistent and independent legal representation by the Office of the Attorney General. The working group is requested to solicit community input from the Society of Hawaiian Archaeology, cultural resource management firms, lineal and cultural descendants, including groups, such as Kia'i Kaua'ula, Mālama Kakanilua, Ka Lāhui Hawai'i whose members are actively involved in protecting iwi kūpuna, burial, and repatriation efforts.

Your Committees have amended this measure by:

- (1) Replacing the University of Hawaii William S. Richardson School of Law with the Office of Hawaiian Affairs as the convenor of the burial sites working group;
- (2) Including the University of Hawaii William S. Richardson School of Law as a member of the burial sites working group;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 206, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 206, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Riviere).

SCRep. 1449 (Joint) Hawaiian Affairs and Water and Land on S.R. No. 171

The purpose and intent of this measure is to request the William S. Richardson School of Law to establish the burial sites working group to examine the burial sites program under the Department of Land and Natural Resources' (DLNR) State Historic Preservation Division (SHPD).

Your Committees received testimony in support of this measure from Huliaupa'a and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, University of Hawai'i System, and one individual.

Your Committees find that chapter 6E, Hawaii Revised Statutes, provides that the State must provide leadership in preserving historic and cultural property in the spirit of stewardship and trusteeship for future generations and conduct activities, plans, and programs in a manner consistent with the preservation and enhancement of historic and cultural property. SHPD is entrusted with protecting Hawaii's unique and cultural historic resources. The Island Burial Councils seek to augment current procedures relating to the proper care and protection of native Hawaiian burial sites found in the State by avoiding future disputes arising from the discovery of human skeletal remains, and providing additional protection for native Hawaiian burial sites of high preservation value.

For generations, native Hawaiians have cared for loved ones upon their passing by protecting iwi kūpuna. The relationship between the deceased and descendants is an ongoing connection, and when this connection is disrupted through disturbance, damages, or destruction of iwi kūpuna via development, vandalism, or other circumstances, there are direct spiritual implications to native Hawaiian descendants today.

Your Committees also find that historically, state audits of SHPD have revealed chronic leadership dysfunction, employee discord, a significant backlog of project reviews that has substantially undermined the historic preservation review process, particularly with respect to the protection of burial sites throughout the State; and refusal to comply with chapter 6E, Hawaii Revised Statutes, and chapter 13-300, Hawaii Administrative Rules, in fulfilling SHPD's public trust responsibilities to beneficiaries. Recently, the chairpersons of the Island Burial Councils alleged that systemic and chronic mismanagement by SHPD has effectively undermined their ability to provide protection and cultural care to unmarked Hawaiian burial sites. DLNR does not agree with these assertions. This mismanagement continues to undermine the ability of the councils to exercise their legally established authorities, rights, and responsibilities to the significant detriment of Hawaiian burial sites and cherished cultural properties.

Your Committees further find that DLNR disputes the claims of mismanagement and their testimony provides that:

- (1) The Hawaii, Maui/Lanai, and Oahu Burial Councils are supported by two Burial Sites Specialists each;
- The History and Culture Branch Chief is available by phone as necessary when no in attendance at Island Burial Council meetings;
- (3) All staff are properly trained in relevant Hawaii Revised Statutes and Hawaii Administrative Rules affecting proceedings;

SHPD does not have the resources to carry on an active survey to identify burial sites throughout the State and there is a cultural belief that burials should not be identified, thereby making it difficult to implement a systematic survey effort.

Your Committees believe that the burial sites working group may bring clarity to the issues surrounding the allegations of systemic and chronic mismanagement of the Island Burial Councils by SHPD and the lack of consistent and independent legal representation by the Office of the Attorney General. The working group is requested to solicit community input from the Society of Hawaiian Archaeology, cultural resource management firms, lineal and cultural descendants, including groups, such as Kia'i Kaua'ula, Mālama Kakanilua, Ka Lāhui Hawai'i whose members are actively involved in protecting iwi kūpuna, burial, and repatriation efforts.

Your Committees have amended this measure by:

- (1) Replacing the University of Hawaii William S. Richardson School of Law with the Office of Hawaiian Affairs as the convenor of the burial sites working group;
- (2) Including the University of Hawaii William S. Richardson School of Law as a member of the burial sites working group;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 171, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 171, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Riviere).

SCRep. 1450 (Joint) Hawaiian Affairs and Judiciary on S.C.R. No. 165

The purpose and intent of this measure is to request the United States Congress to consent to the enactment of Act 80, Session Laws of Hawaii 2017 (Act 80).

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaiian Civic Club of Laupāhoehoe, Waimea Hawaiian Civic Club, Association of Hawaiian Civic Clubs - Hawai'i Council, 'Ahahui Siwila 'o Ke Aloha 'Āina, and two individuals.

Your Committees find that the State has a fiduciary duty to ensure long-term tenancies to beneficiaries and successors of beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended. Your Committees also acknowledge that the State has a fiduciary duty to support the rehabilitation of the Hawaiian people, by among other things, ensuring long-term tenancies to beneficiaries, transferees, and successors of beneficiaries under the Hawaiian Homes Commission Act, 1920, as amended. Further, as outlined in *Ahuna v. Department of Hawaiian Home Lands*, 64 Haw. 327, 640 P.2d 1161 (1982), the federal government set aside public lands to be considered Hawaiian home lands, to be utilized in the rehabilitation of native Hawaiians, thereby undertaking a trust obligation benefitting the aboriginal people, and the State of Hawaii assumed this fiduciary obligation upon being admitted to the union as a state.

In advocating for the Hawaiian Homes Commission Act, Prince Jonah Kūhiō Kalanianaole, the Territory of Hawaii's non-voting delegate to Congress, anticipated future interracial marriages of the Hawaiian people and originally advocated for a blood quantum requirement of one thirty-second to perpetuate native Hawaiian presence on the land. However, Prince Kūhiō settled for a fifty percent blood quantum requirement to get a homestead lease as a necessary concession to sugar and ranching interests. At the time of the creation of the Hawaiian Homes Commission Act, a one thirty-second blood quantum meant that anyone who had Hawaiian ancestry would qualify from the Hawaiian homesteading program.

Your Committees find that under existing federal guidelines, homestead leases can only be transferred to family members who are at least one quarter Hawaiian. Eligibility requirements as outlined in Act 80, Session Laws of Hawaii 2017, provide that the Hawaiian blood quantum requirement for successors will be lowered to one thirty-second. The issue of reducing the blood quantum for successorship is a recurring theme expressed by beneficiaries of the Hawaiian Homes Commission Act. Homestead organizations and individual beneficiaries expressed concerns that immediate family members of homestead lessees may not have the required one-quarter blood quantum due to interracial marriages and blended families who have produced descendants who are less than twenty-five percent Hawaiian to succeed homestead leases and face possible loss of a homestead lease that has been in the family for several generations. These disruptions create undue hardships of displacement and interfere with families' abilities to maintain that equity of their homes and business and sever the relationships that native Hawaiians have to their land. A reduction in blood quantum requirements for certain successors will lead to a reduction in "highest bid" and "leapfrog" homestead lease sales.

Your Committees further find that blood quantum makes it increasingly difficult to inherit land access. Reducing the blood quantum requirement for purposes of transfer or successorship will allow expanding opportunities to family members who have already invested time, talent, resources, commitment, and aloha for the land to continue the legacy initiated by their families and elders. While the relaxed requirements would apply only to leases that have already been awarded, these requirements will benefit those on the Department of Hawaiian Home Lands' waitlist by preventing leaseholders from selling their leases when there is no eligible successor in the family.

Your Committees also find that certain lands used for the purposes of the Admission Act should be used for the betterment of all persons of Hawaiian ancestry, regardless of blood quantum, so that the State may have more flexibility in providing services and benefit to the Hawaiian people. Further, this reform will encourage current lessees to maintain and invest in their residences, as the lessees anticipate that their descendants will be able to make use of the properties for many generations to follow. For example, elderly or retired homesteaders may not be able to financially qualify for home renovation loans or business loans because of their limited incomes. However, if they may transfer their homestead lease during their lifetime to a child or grandchild who can financially qualify for these loans, necessary homestead repairs or business investments can be made, and sound successorship planning can occur.

Your Committees note the concerns that reducing the minimum successorship blood quantum may decrease homestead waitlist applicants' opportunities to receive homestead awards when applicants themselves are required to be at least fifty percent native Hawaiian. While the longstanding need to address the homestead waitlist backlog is clear, rather than disrupt current homestead families' housing security and tenancy of lands held for generations, the waitlist backlog is best addressed by prioritizing the issuance of homestead awards that those on the waitlist can afford and ensuring the appropriate use and allocation of sufficient resources.

Your Committees also note that 43 C.F.R. Part 48.15 delineates the responsibilities of the Chairperson of the Hawaiian Homes Commission in submitting proposed amendments to the Secretary of the Interior. The Chairperson of the Hawaiian Homes Commission submitted these amendments to section 209 of the Hawaiian Homes Commission Act in compliance with these regulations. While the enactment of Act 80 has been recognized as a positive step toward permanently reducing the Hawaiian blood quantum requirement of certain successors to lessees of Hawaiian home lands, historical challenges remain; many descendants of lessees of Hawaiian home lands still do not qualify as successors due to their blood quantum. The urgency of this situation continues to escalate as time passes and as lessees and proposed successors who would qualify under the amendment reducing the Hawaiian blood quantum requirement await the introduction of legislation to approve the requirements as provided for in Act 80.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 165, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 165, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara). Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 1451 (Joint) Hawaiian Affairs and Judiciary on S.R. No. 130

The purpose and intent of this measure is to request the United States Congress to consent to the enactment of Act 80, Session Laws of Hawaii 2017 (Act 80).

Your Committees received testimony in support of this measure from the Association of Hawaiian Civic Clubs - Hawai'i Council and one individual.

Your Committees find that the State has a fiduciary duty to ensure long-term tenancies to beneficiaries and successors of beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended. Your Committees also acknowledge that the State has a fiduciary duty to support the rehabilitation of the Hawaiian people, by among other things, ensuring long-term tenancies to beneficiaries, transferees, and successors of beneficiaries under the Hawaiian Homes Commission Act, 1920, as amended. Further, as outlined in *Ahuna v. SCRep. 1452 Judiciary on S.C.R. No. 66

The purpose and intent of this measure is to condemn and denounce all forms of anti-Asian sentiment and all acts of racism, xenophobia, intolerance, discrimination, hate crime, and hate speech against Asian Americans and Asian individuals in the United States.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission; Common Cause Hawai'i; Hawai'i Friends of Civil Rights; Community Alliance on Prisons; LGBT Caucus of the Democratic Party of Hawai'i; Democratic Party of Hawai'i; Education Caucus; Affirmative Action, Inclusion, and Diversity Committee of the O'ahu County Committee of the Democratic Party of Hawai'i; Planned Parenthood Votes Northwest and Hawai'i; Imua Alliance; Japanese American Citizens League Honolulu Chapter; Filipinos for Affirmative Action; Knights of Rizal-Aloha Chapter; and sixteen individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, despite the undeniable history of persistent discrimination, violence, and hate crimes against Asians in the United States, racism against Asians is often considered nonexistent, insignificant, or justified. Your Committee further finds that since the outbreak of coronavirus disease 2019, anti-Asian sentiment has surged and random crimes and hate crimes against Asians skyrocketed, instigating violent attacks against individuals of not only Chinese, but also of Thai, Vietnamese, Filipino, Korean, Japanese, and other Asian origins. Your Committee additionally finds that the persistent discrimination, violence, and hate crimes against Asians in the United States are placing Asian individuals and their families, communities, and businesses at risk.

Your Committee has amended this measure by:

- (1) Inserting language describing recent anti-Asian sentiment and acts;
- (2) Requesting the Hawaii Civil Rights Commission to collect and analyze incidents based on anti-Asian sentiment that have occurred in Hawaii since March, 2020, and submit a report of findings and recommendations to the Legislature;
- (3) Providing for a certified copy to be sent to the Executive Director of the Hawaii Civil Rights Commission;
- (4) Making conforming amendments to the title; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 66, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 66, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 1453 Judiciary on S.R. No. 48

The purpose and intent of this measure is to condemn and denounce all forms of anti-Asian sentiment and all acts of racism, xenophobia, intolerance, discrimination, hate crime, and hate speech against Asian Americans and Asian individuals in the United States.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Imua Alliance, Democratic Party of Hawai'i Education Caucus, and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, despite the undeniable history of persistent discrimination, violence, and hate crimes against Asians in the United States, racism against Asians is often considered nonexistent, insignificant, or justified. Your Committee further finds that since the outbreak of coronavirus disease 2019, anti-Asian sentiment has surged and random crimes and hate crimes against Asians skyrocketed, instigating violent attacks against individuals of not only Chinese, but also of Thai, Vietnamese, Filipino, Korean, Japanese, and other Asian origins. Your Committee additionally finds that the persistent discrimination, violence, and hate crimes against Asians in the United States are placing Asian individuals and their families, communities, and businesses at risk.

Your Committee has amended this measure by:

- (1) Inserting language describing recent anti-Asian sentiment and acts;
- (2) Requesting the Hawaii Civil Rights Commission to collect and analyze incidents based on anti-Asian sentiment that have occurred in Hawaii since March, 2020, and submit a report of findings and recommendations to the Legislature;

- (4) Making conforming amendments to the title; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 48, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 48, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 1454 (Majority) Judiciary on S.C.R. No. 192

The purpose and intent of this measure is to request statewide implementation of the United Nations Universal Periodic Review Recommendations.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the United Nations (UN) established the Universal Periodic Review (UPR) in 2006 to review the human rights records of all one hundred ninety-three UN member states, with the goal of improving human rights. Your Committee further finds that every UN member state appears and actively participates in the UPR hosted by the UN Human Rights Council Working Group in Geneva twice a decade, with each review cycle lasting four and a half years, and that the United States appeared at the UPR 1020, 2014, and most recently in 2020. Your Committee additionally finds that Hawai'i has had civil society and community associations participate in all three UPR cycles, and was the first state to conduct a Voluntary Local Review at the UN, sharing local strategies regarding the UN's 17 Sustainable Development Goals through the Aloha+ Challenge. Your Committee also finds that continued participation with and implementation of UPR recommendations will continue to benefit the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 192, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 192, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Fevella). Excused, none.

SCRep. 1455 (Majority) Judiciary on S.R. No. 157

The purpose and intent of this measure is to request statewide implementation of the United Nations Universal Periodic Review Recommendations.

Your Committee received testimony in support of this measure from Americans for Democratic Action and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the United Nations (UN) established the Universal Periodic Review (UPR) in 2006 to review the human rights records of all one hundred ninety-three UN member states, with the goal of improving human rights. Your Committee further finds that every UN member state appears and actively participates in the UPR hosted by the UN Human Rights Council Working Group in Geneva twice a decade, with each review cycle lasting four and a half years, and that the United States appeared at the UPR in 2010, 2014, and most recently in 2020. Your Committee additionally finds that Hawai'i has had civil society and community associations participate in all three UPR cycles, and was the first state to conduct a Voluntary Local Review at the UN, sharing local strategies regarding the UN's 17 Sustainable Development Goals through the Aloha+ Challenge. Your Committee also finds that continued participation with and implementation of UPR recommendations will continue to benefit the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 157, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 157, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Fevella). Excused, none.

SCRep. 1456 Judiciary on S.C.R. No. 171

The purpose and intent of this measure is to urge all law enforcement officers and prosecuting attorneys in the State to vigorously enforce and prosecute offenses committed against essential workers while on the job.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i; State AFL-CIO; Pride at Work – Hawai'i; International Union of Painters and Allied Trades, District Council 50; UNITE HERE

Local 5; International Longshore and Warehouse Union Local 142; United Food and Commercial Workers Union 480; Hawaii Government Employees Association, AFSCME local 152, AFL-CIO and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the outbreak of coronavirus disease 2019 has given rise to the public's reliance upon a multitude of workers for essential services, such as health care, grocery and food service, hospitality, airline travel, and ground transportation. Your Committee further finds that in the course of their employment, essential workers are required to have a high degree of face-to-face interaction with the public, relay to customers and other members of the public government-enacted emergency rules and orders, and frequently enforce those rules and orders. Your Committee additionally finds that essential workers are often harassed or confronted, sometimes physically, while trying to do their vital jobs by persons who do not wish to follow the emergency rules and orders. Therefore, it is imperative that law enforcement officers and prosecutors be diligent in enforcing and prosecuting offenses committed against essential workers while on the job.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 171 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1457 Judiciary on S.R. No. 136

The purpose and intent of this measure is to urge all law enforcement officers and prosecuting attorneys in the State to vigorously enforce and prosecute offenses committed against essential workers while on the job.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i; State AFL-CIO; Pride at Work – Hawai'i; International Union of Painters and Allied Trades, District Council 50; International Longshore and Warehouse Union Local 142; United Food and Commercial Workers Union 480; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO, UNITE HERE Local 5, and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the outbreak of coronavirus disease 2019 has given rise to the public's reliance upon a multitude of workers for essential services, such as health care, grocery and food service, hospitality, airline travel, and ground transportation. Your Committee further finds that in the course of their employment, essential workers are required to have a high degree of face-to-face interaction with the public, relay to customers and other members of the public government-enacted emergency rules and orders, and frequently enforce those rules and orders. Your Committee additionally finds that essential workers are often harassed or confronted, sometimes physically, while trying to do their vital jobs by persons who do not wish to follow the emergency rules and orders. Therefore, it is imperative that law enforcement officers and prosecutors be diligent in enforcing and prosecuting offenses committed against essential workers while on the job.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 136 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1458 Judiciary on S.C.R. No. 195

The purpose and intent of this measure is to urge the United States Congress to amend the United States Code to permit all retired, disabled veterans to receive concurrent retirement and disability payments.

Your Committee received testimony in support of this measure from the Department of Defenses' Office of Veterans Services and three individuals.

Your Committee finds that under federal law, the phrase "concurrent retirement and disability payments" refers to a retired, disabled veteran's simultaneous receipt of the veteran's full retirement payments and disability compensation. Your Committee further finds that, prior to implementation of the concurrent retirement and disability payments program, the retirement payments for all retired, disabled veterans were offset by the amount of disability compensation received by the veteran; however, the National Defense Authorization Act of Fiscal Year 2004 amended the United States Code to provide that retired, disabled veterans who served in the armed forces for twenty or more years and have a United States Department of Veterans Affairs disability rating at or above fifty percent may receive concurrent retirement and disability payments. Your Committee additionally finds that a veteran's retirement annuity is earned for successful years of service whereas disability compensation is earned for a service-connected injury or ailment, and that the two types of benefits are necessarily distinct from one another. Your Committee also finds that it is unjust to offset the retirement payments for certain retired, disabled veterans by the amount of disability compensation received by the veteran.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 195, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1459 Judiciary on S.R. No. 160

The purpose and intent of this measure is to urge the United States Congress to amend the United States Code to permit all retired, disabled veterans to receive concurrent retirement and disability payments.

Your Committee received testimony in support of this measure from the Department of Defenses' Office of Veterans Services and one individual.

Your Committee finds that under federal law, the phrase "concurrent retirement and disability payments" refers to a retired, disabled veteran's simultaneous receipt of the veteran's full retirement payments and disability compensation. Your Committee further finds that, prior to implementation of the concurrent retirement and disability payments program, the retirement payments for all retired, disabled veterans were offset by the amount of disability compensation received by the veteran; however, the National Defense Authorization Act of Fiscal Year 2004 amended the United States Code to provide that retired, disabled veterans who served in the armed forces for twenty or more years and have a United States Department of Veterans Affairs disability rating at or above fifty percent may receive concurrent retirement and disability payments. Your Committee additionally finds that a veteran's retirement annuity is earned for successful years of service whereas disability compensation is earned for a service-connected injury or ailment, and that the two types of benefits are necessarily distinct from one another. Your Committee also finds that it is unjust to offset the retirement payments for certain retired, disabled veterans by the amount of disability compensation received by the veteran.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 160, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1460 Judiciary on S.C.R. No. 9

The purpose and intent of this measure is to convene a task force to address implementation of Hawaii's state law corollary to Title IX to strengthen Hawaii's efforts to end campus-based sexual violence and gender discrimination.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Department of Education, Americans for Democratic Action, Ma'i Movement Hawai'i, Planned Parenthood Votes Northwest and Hawai'i, Hawai'i State Coalition Against Domestic Violence, AAUW of Hawai'i, Hawai'i Women's Coalition, Democratic Party of Hawai'i Education Caucus, Imua Alliance, Every Voice Coalition, and two individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Title IX of the federal Education Amendments of 1972, renamed in 2002 as the Patsy T. Mink Equal Opportunity in Education Act in honor of its principal author, former Hawaii Congresswoman Patsy Takemoto Mink, states that "[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance". Your Committee further finds that with the change in federal executive administration in 2016, and again in 2020, interpretation and implementation of Title IX has shifted over time, resulting in a need for action to ensure clarity and consistency at the state level. Your Committee further finds that Act 110, Session Laws of Hawaii 2018, enacted in response to intended policy changes regarding Title IX announced by the United States Department of Education, established a state law corollary to Title IX that prohibits sex-based discrimination in state-administered or state-funded educational programs or activities, including discrimination based on sexual orientation, gender identity, and gender expression. This measure creates a task force to work to ensure that the State remains in compliance with Title IX.

Your Committee has amended this measure by:

- (1) Requesting that the task force submit a report to the Legislature prior to the convening of the Regular Session of 2023, in addition to the Regular Session of 2022;
- (2) Changing the requested submission date for the report from twenty days prior to the convening of the Regular Session to forty days prior to the convening of the Regular Session;
- (3) Clarifying language relating to the composition of the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 9, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 9, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1461 Judiciary on S.R. No. 8

The purpose and intent of this measure is to convene a task force to address implementation of Hawaii's state law corollary to Title IX to strengthen Hawaii's efforts to end campus-based sexual violence and gender discrimination.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawai'i State Coalition Against Domestic Violence, Planned Parenthood Votes Northwest and Hawai'i, AAUW of Hawai'i, Hawai'i Women's Coalition, Democratic Party of Hawai'i Education Caucus, Imua Alliance, Every Voice Coalition, and one individual. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Title IX of the federal Education Amendments of 1972, renamed in 2002 as the Patsy T. Mink Equal Opportunity in Education Act in honor of its principal author, former Hawaii Congresswoman Patsy Takemoto Mink, states that "[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance". Your Committee further finds that with the change in federal executive administration in 2016, and again in 2020, interpretation and implementation of Title IX has shifted over time, resulting in a need for action to ensure clarity and consistency at the state level. Your Committee further finds that Act 110, Session Laws of Hawaii 2018, enacted in response to intended policy changes regarding Title IX announced by the United States Department of Education, established a state law corollary to Title IX that prohibits sex-based discrimination in state-administered or

state-funded educational programs or activities, including discrimination based on sexual orientation, gender identity, and gender expression. This measure creates a task force to work to ensure that the State remains in compliance with Title IX.

Your Committee has amended this measure by:

- (1) Requesting that the task force submit a report to the Legislature prior to the convening of the Regular Session of 2023, in addition to the Regular Session of 2022;
- (2) Changing the requested submission date for the report from twenty days prior to the convening of the Regular Session to forty days prior to the convening of the Regular Session;
- (3) Clarifying language relating to the composition of the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 8, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 8, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1462 Judiciary on S.C.R. No. 99

The purpose and intent of this measure is to ratify a proposed amendment to the Constitution of the United States giving the Congress of the United States power to limit, regulate, and prohibit the labor of persons under eighteen years of age.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that child labor was common and pervasive throughout the United States in the late nineteenth and early twentieth centuries. Your Committee further finds that in 1916, and again in 1918, the United States Congress (Congress) passed legislation regulating and limiting child labor, but these measures were later held to be unconstitutional by the Supreme Court of the United States, leading to Congress proposing an amendment to the United States Constitution through House Joint Resolution 184 (Resolution 184) in the First Session of the Sixty-Eighth Congress, giving itself the power to regulate labor of persons under eighteen years of age. Your Committee additionally finds that ratification of this proposed amendment stalled after 1925, and that, although child labor was later regulated by Congress through the Fair Labor Standards Act of 1938, the Resolution 184 did not specify a time limit for the amendment's ratification. Your Committee also finds that Hawai'i is one of five states that has no record of taking action on Resolution 184, and that although federal regulation of child labor in the United States is now provided under the Fair Labor Standards Act of 1938, ratification of the constitutional amendment set forth in Resolution 184 would put Hawaii on the right side of history.

Your Committee has amended this measure by:

- (1) Removing the Administrator of the United States General Services Administration and President of the United States Senate from the list of persons to whom certified copies are to be transmitted;
- (2) Adding the Archivist of the United States, Majority Leader of the United States Senate, and Director of Labor and Industrial Relations to the list of persons to whom certified copies are to be transmitted; and
- (3) Making a technical, nonsubstantive stylistic amendment to the ratification language.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 99, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 99, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1463 Judiciary on S.C.R. No. 261

The purpose and intent of this measure is to request the Attorney General to petition the Hawaii Supreme Court seeking relief to prevent action against the Reapportionment Commission for the Commission's failure to meet statutory or constitutional deadlines relating to the 2021 reapportionment plans.

Your Committee received testimony in support of this measure from the Office of Elections and one individual. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that article IV, section 2, of the Hawaii State Constitution requires and provides procedures and a timetable for the convening of the Reapportionment Commission to be tasked with creating a reapportionment plan for the Legislature and the United States congressional districts within the State. Your Committee further finds that the Reapportionment Commission relies on data from the United States Census Bureau for accurate counts of the United States population on which to base reapportionment plans. Your Committee additionally finds that, because of the coronavirus disease 2019 pandemic, the United States Census Bureau has already indicated that redistricting data will not be available until after the constitutional deadline for the Reapportionment Commission to submit a final plan has passed. This measure requests the Attorney General to petition the Hawaii Supreme Court seeking relief to prevent action against the Reapportionment Commission stemming from this unavoidable delay.

Your Committee has amended this measure by:

- (1) Removing members of the state Senate and state House of Representatives from the listed recipients of certified copies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 261, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 261, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Fevella).

SCRep. 1464 Judiciary on S.R. No. 220

The purpose and intent of this measure is to request the Attorney General to petition the Hawaii Supreme Court seeking relief to prevent action against the Reapportionment Commission for the Commission's failure to meet statutory or constitutional deadlines relating to the 2021 reapportionment plans.

Your Committee received testimony in support of this measure from the Office of Elections and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that article IV, section 2, of the Hawaii State Constitution requires and provides procedures and a timetable for the convening of the Reapportionment Commission to be tasked with creating a reapportionment plan for the Legislature and the United States congressional districts within the State. Your Committee further finds that the Reapportionment Commission relies on data from the United States Census Bureau for accurate counts of the United States population on which to base reapportionment plans. Your Committee additionally finds that, because of the coronavirus disease 2019 pandemic, the United States Census Bureau has already indicated that redistricting data will not be available until after the constitutional deadline for the Reapportionment Commission to submit a final plan has passed. This measure requests the Attorney General to petition the Hawaii Supreme Court seeking relief to prevent action against the Reapportionment Commission stemming from this unavoidable delay.

Your Committee has amended this measure by:

- (1) Removing members of the state Senate and state House of Representatives from the listed recipients of certified copies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 220, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 220, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Fevella).

SCRep. 1465 Judiciary on S.C.R. No. 170

The purpose and intent of this measure is to:

- (1) Request the Judiciary to consider written statements from victims or families of victims when approving a plea-bargain; and
- (2) Request the departments or offices of the prosecuting attorney for the counties to offer a victim or the victim's immediate family member the choice of providing a written statement when consulting and advising the victim whenever a plea-bargain agreement is being negotiated.

Your Committee received testimony in support of this measure from Mothers Against Drunk Driving and three individuals.

Your Committee finds that the rights of victims in criminal proceedings are well established in the State, and that the standard of care toward victims by law enforcement agencies, prosecutors, and the courts has been placed at the same level as that for the defendant. Your Committee further finds that, under the basic bill of rights for victims and witnesses, the victim or a surviving family member is required to be notified of major developments in a criminal case. Your Committee additionally finds that, although the victim has an opportunity to submit a statement in situations where a defendant has already been convicted and is eligible for release, there is no such opportunity provided with regards to plea-bargains being considered. This measure requests prosecutors and courts to solicit and consider statements from a victim or the immediate family member of a victim when plea-bargain agreements are being negotiated or approved.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 170 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Fevella).

SCRep. 1466 (Majority) Judiciary on S.C.R. No. 150

The purpose and intent of this measure is to request the Department of the Attorney General to propose legislation that criminalizes any acts by eligible public officials, including local law enforcement, that violate their oaths of office to the United States Constitution and Hawaii State Constitution.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that article XVI, section 4, of the Hawaii State Constitution requires eligible public officials to take an oath to defend the Constitution of the United States and the Constitution of the State of Hawaii. Your Committee further finds that neither the Hawaii State Constitution nor the Hawaii Revised Statutes currently provide specific penalties for an eligible public official's violation of their oath to defend the United States Constitution or Hawaii State Constitution, and that in light of the risk of harm that can arise when persons in positions of power abuse that power, criminal penalties for violations of that oath are appropriate.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 150 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keohokalole, Kim). Noes, 1 (Fevella). Excused, none.

SCRep. 1467 (Majority) Judiciary on S.R. No. 116

The purpose and intent of this measure is to request the Department of the Attorney General to propose legislation that criminalizes any acts by eligible public officials, including local law enforcement, that violate their oaths of office to the United States Constitution and Hawaii State Constitution.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that article XVI, section 4, of the Hawaii State Constitution requires eligible public officials to take an oath to defend the Constitution of the United States and the Constitution of the State of Hawaii. Your Committee further finds that neither the Hawaii State Constitution nor the Hawaii Revised Statutes currently provide specific penalties for an eligible public official's violation of their oath to defend the United States Constitution or Hawaii State Constitution, and that in light of the risk of harm that can arise when persons in positions of power abuse that power, criminal penalties for violations of that oath are appropriate.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 116 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keohokalole, Kim). Noes, 1 (Fevella). Excused, none.

SCRep. 1468 (Majority) Judiciary on S.C.R. No. 149

The purpose and intent of this measure is to request that the United States Congress pass a law that criminalizes any act by a current or former law enforcement officer, military personnel, or politician that is contrary to their oath to uphold the Constitution.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that, upon enlistment or taking office, law enforcement, military personnel, and elected officials take an oath to support and defend the Constitution against all enemies, to support and defend the Constitution of the United States, and to perform the duties of the office they are about to enter. Your Committee further finds that, despite the potential for harm resulting from the actions of persons in positions of power who abuse those positions, there are currently no specific criminal offenses nor penalties for the violation by a current or former law enforcement officer, military personnel, or politician of their oath to uphold the Constitution.

Your Committee has amended this measure by:

- (1) Providing for certified copies to be sent to the Speaker of the United States House of Representatives and Majority Leader of the United States Senate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 149, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 149, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Keohokalole, Fevella). Excused, none.

SCRep. 1469 (Majority) Judiciary on S.R. No. 115

The purpose and intent of this measure is to request that the United States Congress pass a law that criminalizes any act by a current or former law enforcement officer, military personnel, or politician that is contrary to their oath to uphold the Constitution.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that, upon enlistment or taking office, law enforcement, military personnel, and elected officials take an oath to support and defend the Constitution against all enemies, to support and defend the Constitution of the United States, and to perform the duties of the office they are about to enter. Your Committee further finds that, despite the potential for harm resulting from the actions of persons in positions of power who abuse those positions, there are currently no specific criminal offenses nor penalties for the violation by a current or former law enforcement officer, military personnel, or politician of their oath to uphold the Constitution.

Your Committee has amended this measure by:

- (1) Providing for certified copies to be sent to the Speaker of the United States House of Representatives and Majority Leader of the United States Senate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 115, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 115, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, 2 (Keohokalole, Fevella). Excused, none.

SCRep. 1470 Water and Land on S.C.R. No. 42

The purpose and intent of this measure is to authorize the Department of Transportation to issue, subject to conditions from the Board of Land and Natural Resources, a lease with Atlantis Submarines Hawaii, LLC, for the state submerged lands fronting the property bound by Pier 27, identified as Tax Map Key (1) 1-5-38:78 (portion), pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Transportation and Atlantis Submarines Hawaii, LLC.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. According to testimony received by your Committee, the Department of Transportation intends to issue a new thirty-five-year lease to be approved by the Board of Land and Natural Resources for the approximately 26,876 square feet of state submerged lands identified in this measure. Currently, Atlantis employs floating docks on the submerged lands to maintain its submarines and recharge their batteries. Your Committee concludes that the lease of these submerged lands is necessary to support the full relocation of Atlantis's repair and maintenance facility from Pier 41 to Pier 27 as part of the Honolulu Harbor Master Plan.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 42 and recommends its adoption.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1471 Water and Land on S.C.R. No. 58

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to sell a lease of a portion of state submerged lands seaward of the property identified as Tax Map Key: (1)4-4-022:032, Kaneohe Bay, Kaneohe, Oahu, for non-commercial boat pier purposes, by public auction, pursuant to section 171-53(c), Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that at its meeting on July 26, 2019, under agenda item D-6, the Board of Land and Natural Resources, subject to conditions, approved a set-aside and management right-of-entry for approximately 6.5 acres of submerged lands seaward of Tax Map Key: (1)4-4-022:032, to the Department of Land and Natural Resources, Division of Boating and Ocean Recreation. Your Committee also finds that at its meeting on January 8, 2021, under agenda item J-2, the Board of Land and Natural Resources, subject to conditions, approved a grant of a fifty-five year lease of approximately 3.3648 acres of submerged lands seaward of Tax Map Key: (1)4-4-022:032, Kaneohe Bay, Kaneohe, Oahu, for non-commercial boat pier purposes, by public auction. Your Committee concludes that the lease is necessary for the use, repair, and maintenance of the existing piers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 58, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 58, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 1472 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 75

The purpose and intent of this measure is to request that the Office of Planning convene an interdisciplinary task force to develop a framework for a sea level adaptation and resilience plan for the Waikiki Special Improvement District.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Waikīkī Beach Special Improvement District Association, Waikiki Neighborhood Board, and Hawai'i Reef and Ocean Coalition. Your Committees received testimony in opposition of this measure from one individual. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that the Waikiki Special Improvement District is a large generator of revenue for the State and that the framework created by this measure can serve as a pilot and demonstration project for other coastal districts that may develop a comprehensive sea level adaptation and resilience plan.

Your Committees have amended this measure by extending the deadline for the submission of the Office of Planning's report to the Legislature to no later than twenty days prior to the convening of the Regular Session of 2023 so that the Office of Planning has sufficient time to create a framework for a comprehensive sea level adaptation and resilience plan for the Waikiki Special Improvement District.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 75, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 75, S.D. 1.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1473 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 159

The purpose and intent of this measure is to urge the Department of Land and Natural Resources (DLNR) to examine and consider purchasing reef insurance to protect the State's coastlines and coastal infrastructure from natural disasters.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, and one individual.

Your Committees find that reefs are the first line of defense against the impacts of natural disasters to the State, such as marine heatwaves, beach erosion, and chronic flooding. According to testimony received by your Committees, damages from sea level rise alone would result in over \$19,000,000,000 in economic damages, not including the destruction of vulnerable coastal infrastructure and flooding of over thirty-eight miles of state roads and highways, which would severely limit trade and transportation throughout the State. Your Committees note that given the priority projects associated with DLNR's Holomua: Marine 30x30 Initiative, completing the requested investigation and report prior to the Regular Session of 2022 may require additional resources and capacity.

Your Committees have amended this measure by:

- Amending the requested submission deadline for DLNR's report from prior to the convening of the Regular Session of 2022 to prior to the convening of the Regular Session of 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 159, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 159, S.D. 1.

Signed by the Chair and President on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1474 (Joint) Water and Land and Agriculture and Environment on S.C.R. No. 189

The purpose and intent of this measure is to urge the Department of Land and Natural Resources, Department of Agriculture, and other relevant state entities, including the Hawaii congressional delegation, to work with The Trust for Public Land and the Hui Maunawili-Kawainui to acquire the agricultural and conservation lands in Maunawili Valley, Oahu to protect the ancient and historic sites, trails, and waters in Maunawili Valley.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that HRT Realty, Inc., who currently owns over a thousand acres of agricultural and conservation lands in Maunawili Valley, is in discussions to sell several of these parcels to the Department of Land and Natural Resources and the Department of Agriculture. According to testimony received by your Committees, the Department of Land and Natural Resources is currently performing due diligence and exploring federal, state, and county funding opportunities to finance the acquisition of these parcels

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 189, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 189, S.D. 1.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 1475 Human Services on S.C.R. No. 229

The purpose and intent of this measure is to request that the Hawaii Health Systems Corporation (HHSC) convene a task force to facilitate improved, mission-driven hiring and training of culturally-accepted interpreters to assist non-English speaking populations seeking care at HHSC facilities.

Your Committee received comments on this measure from the Hawaii Health Systems Corporation and Office of Language Access.

Your Committee finds that the Hawaii Health Systems Corporation provides high quality health care services to residents and visitors throughout the State and serves as a vital component of Hawai'i's system of health care. The HHSC consists of a network of hospitals and clinics, some of which are located in remote, rural, and low-populated areas, HHSC facilities often provide safety-net services for neighbor island acute care and for long-term care in the State, as they serve all people regardless of whether an individual has health insurance or the ability to pay for the health care service they receive. Your Committee further finds that HHSC's vision is

to be recognized as a progressive model for an accessible, integrated, patient-centered, and fiscally responsible health care system focused on assuring high quality care to improve the health of Hawai'i's underserved communities.

Your Committee also finds that members of Hawai'i's non-English speaking populations are often reluctant and intimidated to seek medical care due to the lack of properly trained interpreters in HHSC medical facilities who are able to assist those seeking medical care, who may have language and cultural barriers. Your Committee believes that the scope of this measure should be expanded to include the involvement of the Department of Health and to request that the task force also create culturally-accepted educational materials on preventative care and early intervention to further assist non-English speaking clientele.

Your Committee has amended this measure by:

- (1) Requesting the Department of Health to serve as co-convener of the task force;
- (2) Requesting the task force to create culturally-accepted educational materials on preventative care and early intervention to assist non-English speaking populations seeking care at Hawaii Health Systems Corporation facilities;
- (3) Clarifying that the Regional Chief Executive Officer of the East Hawaii Region of Hawaii Health Systems Corporation is requested to serve as chairperson;
- (4) Urging that two members of a nonprofit Micronesian advocacy group serve as members of the task force;
- (5) Amending its title in accordance with its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 229, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 229, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 1476 Human Services on S.R. No. 189

The purpose and intent of this measure is to request that the Hawaii Health Systems Corporation (HHSC) convene a task force to facilitate improved, mission-driven hiring and training of culturally-accepted interpreters to assist non-English speaking populations seeking care at HHSC facilities.

Your Committee did not receive testimony on this measure.

SCRep. 1477 Judiciary on S.C.R. No. 140

The purpose and intent of this measure is to assert that racism is a public health crisis and to urge the State to commit to recognizing and addressing the resulting inequities.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, University of Hawaii System, LGBT Caucus of the Democratic Party of Hawaii, Community Alliance on Prisons, YWCA O'ahu, Hawaii Public Health Institute, Planned Parenthood Votes Northwest and Hawaii, Hawaii Children's Action Network Speaks!, Hawaii Primary Care Association, American Civil Liberties Union of Hawaii, and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Common Cause Hawaii and one individual.

Your Committee finds that racism is a social system with many dimensions that act on systemic, institutional, and interpersonal levels, and that structural racism has resulted in race functioning as a social determinant of health, with persistent racial disparities in areas such as health care, criminal justice, housing, education, employment, worker protections, climate, food access, and technology. Your Committee further finds that the coronavirus disease 2019 (COVID-19) pandemic has highlighted these disparities. Your Committee additionally finds that shortly before the COVID-19 pandemic, the Aloha United Way issued a report on Asset Limited, Income Constrained, Employed (ALICE) households, finding that forty-two percent of Hawaii's 455,138 households struggle to make ends meet. Your Committee also finds that the disparities caused by systemic racism and the difficulties experienced by ALICE households are frequently linked.

Accordingly, your Committee has amended this measure by:

- Clarifying that state departments and agencies and the counties are included in the requested actions to address racism as a public health crisis;
- (2) Requesting the Director of Health and the Director of Human Services to identify communities with the largest number of ALICE households, summarize activities conducted by the Department of Health and Department of Human Services to provide health care services in these communities, develop a plan to reduce the number of ALICE households, and transmit a report of their findings and recommendations to the Legislature;
- (3) Amending its title in accordance with its amended purpose;
- (4) Providing for certified copies to be sent to the Dean of the John A. Burns School of Medicine, Executive Director of Aloha United Way, and Chief Executive Officer of the Hawaii Care Association; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 140, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 140, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 1478 (Majority) Judiciary on S.C.R. No. 215

The purpose and intent of this measure is to recognize the contributions of the Compact of Free Association community in the State of Hawai'i.

Your Committee received testimony in support of this measure from two individuals and a petition signed by eleven individuals and entities. Your Committee received testimony in opposition to this measure from one individual.
