SPECIAL COMMITTEE REPORTS

Spec. Com. Rep. No. 1

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Thirty-first Legislature of the State of Hawaii, Regular Session of 2021, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senators whose respective terms of office will expire on November 8, 2022, are:

Second Senatorial District

Joy A. San Buenaventura

Fifth Senatorial District

Gilbert S.C. Keith-Agaran

Eighth Senatorial District

Ronald D. Kouchi

Ninth Senatorial District

Stanley Chang

Tenth Senatorial District

Les Ihara, Jr.

Eleventh Senatorial District

Brian T. Taniguchi

Thirteenth Senatorial District

Karl Rhoads

Fourteenth Senatorial District

Donna Mercado Kim

Fifteenth Senatorial District

Glenn Wakai

Sixteenth Senatorial District

Bennette E. Misalucha

Nineteenth Senatorial District

Kurt Fevella

Twentieth Senatorial District

Mike Gabbard

Twenty-second Senatorial District

Donovan Dela Cruz

Twenty-fifth Senatorial District

Chris Lee

Signed by Senators Kidani, Kanuha, and Keohokalole, members of the Committee on Credentials

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1 on S.B. No. 151

The purpose of this measure is to replace the term "accident" with "collision" for the purposes of certain provisions of the statewide traffic code.

Your Committee on Conference finds that the use of the term "accident" when referring to a traffic collision or incident is outdated. The Honolulu Police Department (HPD) replaced the term "accident" with "collision" in their policies, procedures, and report writing more than a decade ago. Additionally, the National Highway Traffic Safety Administration (NHTSA) has encouraged everyone to use the term "collision" instead of "accident" when referring to incidents of vehicular collision. This measure amends the statewide traffic code to replace "accident" with "collision" to bring Hawaii statutes in line with the NHTSA and HPD policies and provide consistency and clarity.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 151, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 151, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Johanson and Ward. Managers on the part of the House. Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 2 on S.B. No. 329

The purpose of this measure is to:

- (1) Shorten the notice period from sixty days to thirty days for a board of directors of a condominium association to sell, store, donate, or dispose of personalty when the identity and address of the owner are known; and
- (2) Remove the publication requirement and permit the board of directors of a condominium association to proceed directly to the sale, storage, donation, or disposal of personalty that has been abandoned in or on the common elements of a condominium when the identity or address of the owner is unknown.

Your Committee on Conference finds that unwanted personalty may be abandoned in common areas of a condominium by residents, their visitors, or other third parties. Abandoned personalty is often an eyesore and can create safety hazards for other residents, especially when space is limited. When the owner of the personalty or the owner's address is not known, existing law requires a condominium association to first advertise the sale, donation, or disposition at least once in a daily newspaper of general circulation. Your Committee on Conference further finds that this process is burdensome, costly, and lengthy, and can increase the costs associated with the operation of condominiums. This measure simplifies the process for condominium boards when disposing of abandoned or unwanted property.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 329, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 329, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 3 on S.B. No. 1053

The purpose of this measure is to expand the eligibility of organizations that may receive community-based economic development technical and financial assistance beyond community-based organizations to also include for-profit businesses.

Your Committee on Conference finds that expanding the eligibility for community-based economic development technical and financial assistance to include for-profit businesses will allow the Department of Business, Economic Development, and Tourism to assist in the success and viability of a larger number of organizations throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the maximum grant amount per applicant of \$100,000;
- (2) Changing the effective date to upon its approval; and

(3) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1053, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1053, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Taniguchi and Misalucha.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Holt and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 4 on S.B. No. 336

The purpose of this measure is to amend the maximum amount of each agricultural and aquacultural loan that the Chairperson of the Board of Agriculture may be authorized to approve unilaterally to an unspecified amount.

Your Committee on Conference finds that increasing the maximum amount of state funds that the Chairperson of the Board of Agriculture is authorized to unilaterally approve for each agricultural and aquacultural loans to \$50,000 will help reduce approval times for micro-loans and ensure that loan applicants receive needed financial assistance in a timely manner.

Your Committee on Conference has amended this measure by:

- (1) Inserting \$50,000 as the maximum loan amount that the Chairperson of the Board of Agriculture may authorize; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 336, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 336, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Nishihara.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 5 on S.B. No. 186

The purpose of this measure is to prohibit the enforcement of a re-recorded homeowners' association restriction if the restriction prohibits bona fide agricultural uses and activities on agricultural land.

Your Committee on Conference finds subdivision of agricultural lands has significantly increased over the past few decades, resulting in homeowners' associations imposing restrictions that limit bona fide agricultural uses on agricultural lands. Restrictive covenants that limit agricultural uses and activities on agricultural lands undermine the State's interest in protecting and preserving agricultural resources and promoting agricultural self-sufficiency. Thus, this measure clarifies that renewed covenants restricting agricultural uses and activities within the State Land Use Agricultural Districts are considered new contracts and therefore voidable, under limited circumstances.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 186, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 186, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Nishihara.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Hashem, Johanson, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 6 on H.B. No. 177

The purpose of this measure is to amend the offenses of sexual assault in the first and third degree perpetrated against a person who is mentally defective to provide that a perpetrator commits the offense if the perpetrator is negligent in not knowing of the mental defect of the victim

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 177, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 177, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

rijes, 3. rvees, none. Exeuseu, none.

Representatives Matayoshi, Takumi, Todd and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 7 on H.B. No. 599

The purpose of this measure is to:

- Clarify that regular, annual, and special meetings of planned community associations may be conducted remotely consistent with the Hawaii Nonprofit Corporations Act; and
- (2) Authorize condominium associations to conduct electronic meetings and electronic, machine, or mail voting in a state of emergency or local state of emergency, or any meeting noticed during such emergencies and for which the applicable emergency has since expired under certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 599, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 599, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Nishihara. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 8 on H.B. No. 941

The purpose of this measure is to:

- (1) Allow the Public Utilities Commission to use electronic filing processes and similar practices as an alternative to hard copy, rather than requiring hard copies and electronic copies; and
- (2) Require the Public Utilities Commission to conform its electronically filed documents and electronic filing processes for compliance with the American with Disabilities Act and all other existing federal laws and regulations to ensure equal access for individuals with disabilities.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 941, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 941, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Johanson, B. Kobayashi and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 9 on H.B. No. 943

The purpose of this measure is to establish a different regulatory framework for nondepository trust companies by:

- (1) Clarifying the powers and duties of nondepository trust companies;
- (2) Changing the yearly assessments imposed on nondepository trust companies by basing the calculation on total assets under management;
- (3) Establishing a paid-in capital and surplus requirement in order to charter nondepository trust companies in the State; and
- (4) Appropriating monies from the Compliance Resolution Fund for the Division of Financial Institutions to administer the requirements of new nondepository trusts.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 943, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 943, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Chang.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, B. Kobayashi, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 10 on H.B. No. 1023

The purpose of this measure is to help the State identify and develop sustainable sources of funding to effectively manage its fisheries by establishing a nonresident recreational marine fishing license and associated fees.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1023, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1023, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Wakai and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nakashima, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 11 on H.B. No. 243

The purpose of this measure is to help the State prepare for the effects of climate change by:

- (1) Requiring the Office of Planning, in cooperation with each state agency having operational responsibilities over state facilities, to:
 - (A) Identify existing and planned facilities that are vulnerable to sea level rise, flooding impacts, and natural hazards;
 - (B) Assess a range of options to mitigate the impacts of sea level rise to those facilities; and
 - (C) Submit annual reports to the Governor, Legislature, and Hawaii Climate Change Mitigation and Adaptation Commission regarding the vulnerability and adaptation assessments for state facilities and the progress made in implementing sea level rise adaptation in future plans, programs, and capital improvement needs and decisions;
- (2) Amending the Hawaii State Planning Act to include sustainable development, climate change adaptation, and sea level rise adaptation as objectives for facility systems; and

(3) Establishing planning and implementing considerations, policies, and practices related to disaster resilience and climate adaptation, including sea level rise, as a function of statewide concern.

Your Committee on Conference has amended this measure by:

- (1) Removing planning and implementing considerations, policies, and practices related to disaster resilience and climate adaptation, including sea level rise, as a function of statewide concern;
- (2) Requiring the Office of Planning to coordinate sea level rise adaptation, rather than mitigation, with state agencies having operational responsibilities over state facilities;
- (3) Changing its effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 243, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 243, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard and Moriwaki.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Lowen, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 12 on H.B. No. 244

The purpose of this measure is to clarify the data requirements for land recordation by the Bureau of Conveyances, on land other than fee simple time share interests deregistered by the Land Court, to include a plan of the parcel or parcels sought to be deregistered that includes a map and description prepared by a licensed professional surveyor.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 244, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 244, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha and Gabbard.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Todd, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 13 on S.B. No. 399

The purpose of this measure is to:

- (1) Provide that certain rights shall be deemed waived if a preliminary determination of probable cause is rendered during a meeting subject to the requirements of chapter 92, Hawaii Revised Statutes, and the person fails to request a contested case hearing within twenty days of receipt of the preliminary determination; and
- (2) Allow the Campaign Spending Commission to have an order confirmed as a judgment by the First Circuit Court, giving the order the same force and effect as any other judgment issued by the circuit courts.

Your Committee on Conference finds that the Campaign Spending Commission is unable to issue a fine against a person without providing the person with written notice and an opportunity to be heard at a hearing. Your Committee on Conference further finds that a person may waive these rights by written stipulation or consent. Your Committee on Conference additionally finds that the enforcement actions of the Campaign Spending Commission can be delayed if a person declines to participate in the hearing process. This measure will establish an implied waiver of a person's rights to notice and to be heard at a contested case hearing if the person fails to request a hearing prior to a preliminary determination, and will allow the Commission to file orders with the First Circuit Court and enable those orders to be enforceable and collectable in the same manner as other judgments of the court.

Your Committee on Conference has amended this measure by:

- (1) Providing that the right to written notice of an opportunity to be heard shall be deemed waived if a person fails to request a contested case hearing within thirty days of receipt of a preliminary determination rather than twenty days;
- (2) Making an order of the Campaign Spending Commission that is confirmed as a judgment by the First Circuit Court non-appealable; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 399, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 399, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Matayoshi, LoPresti and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 14 on S.B. No. 200

The purpose of this measure is to clarify that candidates or other committee representatives as specified who make contributions over a certain amount prior to an election are required to file a late contribution report only if the candidate is on the ballot in that election.

Your Committee on Conference finds that while contribution reporting requirements for candidate and noncandidate committees are vital to ensuring transparency and accountability in the election process, requiring candidates who are not on the ballot to file the late contributions report due on the third calendar day prior to an election is inefficient and provides negligible benefit to election integrity. Your Committee on Conference further finds that exempting candidates who are not on the ballot of an election from the requirement to file the late contributions report is consistent with the requirements under section 11-334, Hawaii Revised Statutes, for the filing of preliminary, final, and supplemental reports.

Your Committee on Conference has amended this measure by:

- (1) Specifying the amount of contributions that trigger the requirement to file a late contribution report as \$500;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 200, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 200, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nakashima, LoPresti and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (LoPresti).

Conf. Com. Rep. 15 on S.B. No. 413

The purpose of this measure is to exclude violation of privacy in the first degree, and certain subsections of violation of privacy in the second degree, from qualifying for deferred acceptance of guilty plea or nolo contendere plea.

Your Committee on Conference finds that under existing law a defendant may request a deferral of their criminal charges under certain circumstances. The trial court, after considering the merits of the case, and hearing argument from the prosecutor, may grant a deferral of the proceedings, only if the trial court finds that the defendant is not likely again to engage in a criminal course of conduct and that the ends of justice and welfare of society do not require that the defendant suffer the penalty imposed by law. Your Committee on Conference further finds that due to the serious nature of certain privacy violations involving other people's intimate activities, private communications, or intimate areas of the body, without consent, deferred pleas should not be available for those offenses.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 413, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 413, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard and Kim. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Todd and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 16 on S.B. No. 189

The purpose of this measure is to repeal the requirement to prove that a dog has bitten a person on at least two separate occasions prior to bringing legal action against a dog's owner to determine whether conditions of treatment or confinement have changed so as to remove the danger the dog poses to other persons.

Your Committee on Conference finds that dog bites are among the top reasons for emergency room visits, ranking higher than injuries occurring on motorcycles, to pedestrians, and from gunshots. Your Committee on Conference further finds that existing state law only allows a dog bite victim standing in district court if it can be proven to the court that the dog has bitten and injured on a prior separate occasion. This measure will allow an individual to inquire into the conditions of treatment or confinement of a dog without the burdensome requirement of proving the dog previously bit a human being on two separate occasions.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 189, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 189, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Todd and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 17 on S.B. No. 1421

The purpose of this measure is to:

- (1) Create a Dual Use Technology Task Force within the Department of Business, Economic Development, and Tourism to explore how dual use technology can be used to promote economic recovery and diversify the State's economy; and
- (2) Require the task force to submit reports to the Legislature prior to the Regular Sessions of 2023 and 2025.

Your Committee on Conference finds that dual use technology, or technology that has military and civilian applications, is vital to economic growth and a diversified economy in the Hawaii. Hawaii has an extraordinary opportunity to take advantage of the strong military presence in the State and the research conducted on its behalf. However, the State's heavy dependence on its tourism and hospitality industry has taken its focus away from developing innovative concepts and new approaches to technology. This measure allows the State to explore how dual use technology can be used to significantly contribute to Hawaii's economic recovery, thereby promoting a decreased reliance on tourism.

Your Committee on Conference has amended this measure by:

- (1) Inserting a dissolution date of July 1, 2025, for the Dual Use Technology Task Force; and
- (2) Inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1421, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1421, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Wakai, Moriwaki and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Quinlan, Takayama, Holt, DeCoite and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (DeCoite).

Conf. Com. Rep. 18 on S.B. No. 489

The purpose of this measure is to increase the maximum area for each agricultural shade cloth structure, cold farm, and greenhouses that could qualify the structure for an exemption from building permit and building code requirements.

Your Committee on Conference finds that low-risk agricultural structures, such as agricultural shade cloth structures, cold frames, and greenhouses, are provided limited exemption from county building permit and building code requirements if under a specified maximum area. Increasing the maximum area allowed from twenty thousand to sixty thousand square feet will increase the number of agricultural structures available to support local food production. Your Committee on Conference further finds that this measure will drastically cut construction costs and effectively utilize the open areas currently required between smaller greenhouses and assist farmers to increase their operations for bigger and more cost-effective protective structures to shelter crops from pest infestation, extreme temperatures, excessive rains, long droughts, and feral animals. This measure seeks to make farming more productive and economically feasible for farmers and help Hawaii reach its self-sustaining food production goals.

Your Committee on Conference has amended this version by changing the effective date to January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 489, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 489, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Nishihara and Baker. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Johanson, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 19 on S.B. No. 1222

The purpose of this measure is to:

- (1) Expand the scope of the programs for which the University of Hawaii at Hilo's Conference Center Revolving Fund may be expended to include conference center programs conducted by the University of Hawaii at Hilo;
- (2) Authorize the Chancellor of the University of Hawaii at Hilo or the Chancellor's designee, instead of the Dean of the College of Continuing Education and Community Service, to expend monies from the Revolving Fund;
- (3) Exempt the expenditure of monies from the Revolving Fund from bidding requirements under the Hawaii Public Procurement Code: and
- (4) Require the Chancellor of the University of Hawaii at Hilo to submit annual reports to the Legislature that include an accounting for all income and expenditures of the Revolving Fund.

Your Committee on Conference finds that under existing law, the Conference Center Revolving Fund is specifically designated to expend and collect monies in relation to the Conference Center Program offered by the College of Continuing Education and Community Service at the University of Hawaii at Hilo. However, since the College of Continuing Education and Community Service no longer exists, the University of Hawaii at Hilo has not been able to use the fund. This measure enables the University of Hawaii at Hilo to utilize the fund once again. Your Committee on Conference also finds that providing an exemption from the bidding requirements under the Hawaii Public Procurement Code would allow for more efficient use of expenditures out of the fund.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1222, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1222, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Sayama, DeCoite and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 20 on S.B. No. 512

The purpose of this measure is to expand the Hawaii Healthy Food Incentive Program, also known as the Double Up Food Bucks Program (Program), to make fresh fruits and vegetables more readily accessible to families or individuals in Hawaii who receive assistance through the federal Supplemental Nutrition Assistance Program (SNAP), by:

- (1) Removing the \$10 per visit per day cap on the dollar-for-dollar match received by SNAP beneficiaries under the Program; and
- (2) Specifying that healthy proteins are eligible purchases under the Program.

Your Committee on Conference finds that despite the critical role that fresh fruits and vegetables play in a healthy diet and the prevention of obesity and chronic disease, access to fresh produce for income-limited individuals is difficult due to the high cost of fresh produce, especially for SNAP participants. The Program has been instrumental in supporting local families and farmers and participating local grocers experienced significant increases in sales of local fruits and vegetables paid with SNAP benefits. State investment into the Program will help to increase SNAP beneficiaries' access to fresh and health dietary options, further defray the high cost of healthy eating, and support the agricultural industry, which has been adversely impacted by the ongoing coronavirus disease 2019 pandemic. Further, state funds may generate significant leverage to stimulate economic activity and the State's objectives of doubling local food production by 2030.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 512, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 512, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, English and Rhoads. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Yamane, Cullen, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 21 on S.B. No. 1412

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist HK Management LLC, in planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improving surf industry center facilities.

Your Committee on Conference finds that HK Management, LLC proposes to develop a surf industry center on state lands, which will include facilities for research, development, manufacturing, and a testing and surf and aquatic film studio. Moreover, the activities within the project facilities will provide opportunities for cultural education, awareness of the history of surfing and Hawaiian culture, employment opportunities, smart tourism, and economic development.

Your Committee on Conference has amended this measure by authorizing the issuance of special purpose revenue bonds in an amount not to exceed \$95,000,000 to assist HK Management LLC in the development of surf industry center facilities.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1412, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1412, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kanuha, Wakai and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, 1 (Wakai).

Representatives Quinlan, Holt and Okimoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 22 on S.B. No. 345

The purpose of this measure is to prohibit a manufacturer from importing for profit, selling, or offering for sale any cosmetic that a manufacturer knew or reasonably should have known was developed or manufactured using animal testing performed, on or after January 1, 2022, in a cruel manner.

Your Committee on Conference finds that testing cosmetics on animals is cruel and increasingly unnecessary as there are now thousands of cosmetic ingredients whose effects have already been tested and compiled, especially when new alternatives to animal testing are readily available. These new testing methods are more efficient and humane and provide better predictors of adverse human reactions to new chemical compounds than animal testing. This measure aligns the State with other jurisdictions that have banned testing cosmetics on animals by striking a balance between a complete ban with limited exceptions to the animal testing prohibition.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 345, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 345, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads and Baker. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Kitagawa, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 23 on S.B. No. 1225

The purpose of this measure is to:

- (1) Require the Chair of the Independent Audit Committee of the University of Hawaii Board of Regents to be selected in a manner consistent with the Bylaws of the Board of Regents;
- (2) Limit the Board of Regents' flexibility to appoint members to the Independent Audit Committee when no member of the Board of Regents has financial expertise, by removing its authority to make other arrangements, including appointing a member of the general public;

- (3) Exempt the Independent Audit Committee from public proceedings and records laws and open meetings laws during its discussions with auditors on matters that should remain confidential, and, at the Independent Audit Committee Chair's discretion, allow the discussions to be held in the absence of the President or Chief Financial Officer of the University of Hawaii: and
- (4) Clarify the Independent Audit Committee's role regarding the University of Hawaii's enterprise risk management.

Your Committee on Conference finds that the Independent Audit Committee is an advisory body established within the Board of Regents of the University of Hawaii by the Bylaws of the Board of Regents, and statutorily established in section 304A-321, Hawaii Revised Statutes. The Independent Audit Committee's responsibilities include overseeing the University of Hawaii's compliance with, and internal controls relating to, various areas of risk management, finance, and accounting. The members of the Independent Audit Committee are appointed by the Chair of the Board of Regents from among the regents.

Your Committee on Conference further finds that while the chairs of the Board of Regents' other standing committees are appointed by the Board Chair pursuant to the Bylaws of the Board of Regents, existing law requires the Chair of the Independent Audit Committee to be selected by the committee members from among themselves. This requirement inadvertently creates a situation in which the Independent Audit Committee may not have a Chair, such as when the Chair's term on the Board of Regents ends on June 30, and committee membership is pending appointment by the Board Chair. In this situation, the Independent Audit Committee will have no Chair to plan and set the agenda for the committee's first meeting. This measure requires appointment of the Independent Audit Committee Chair to be consistent with the Bylaws of Board of Regents, and makes other clarifying amendments.

Your Committee on Conference also finds that there have been incidences in which audit reports of a University of Hawaii program that was reviewed by the Independent Audit Committee found significant issues warranting corrective or remedial action, including non-compliance with applicable laws and policies. Your Committee on Conference further finds that despite years after the issuance of the audit reports, some of the significant issues continue to exist and implications of non-compliance may remain unremedied.

Accordingly, your Committee on Conference has amended this measure by inserting language requiring the Independent Audit Committee to report to the Board of Regents significant issues relating to the operations and programs of the University of Hawaii that warrant corrective or remedial action, and requiring the Board of Regents to take certain actions to ensure that the significant issues are appropriately corrected and remedied.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1225, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1225, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Gabbard and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Takayama, Ichiyama, DeCoite, Gates and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 24 on S.B. No. 855

The purpose of this measure is to:

- Extend the sunset dates for the Pesticide Subsidy Program and Pesticide Subsidy Program Manager position for an additional two years;
- (2) Provide that the \$600 per year subsidy limit for each single coffee grower applies to coffee berry borer control, with a separate \$600 annual limit per grower for coffee leaf rust control;
- (3) Provide that no single coffee grower can receive subsidies totaling more than an unspecified amount per year after June 30, 2021, and before July 1, 2023; and
- (4) Expand the list of pesticides that the Department of Agriculture is required to establish to include those effective against coffee

Your Committee on Conference finds that the coffee berry borer, an invasive beetle, has been found on Hawaii island, Oahu, Maui, Kauai, and Lanai. In 2020, coffee leaf rust was discovered for the first time in the State on the islands of Maui and Hawaii. Your Committee on Conference further finds that this pest and fungus threaten the viability of the State's entire coffee industry, which represents one of the largest agricultural crops in the State and is an important part of Hawaii's economy. The two-year extension of the Pesticide Subsidy Program and Pesticide Subsidy Program Manager position under this measure will allow the State to continue to subsidize the cost of pesticides best shown to combat the coffee berry borer and coffee leaf rust, thus incentivizing coffee growers to adopt recommended pest management strategies.

Your Committee on Conference has amended this measure by:

- (1) Specifying \$12,000 as the total annual amount for which a single coffee grower can receive subsidies after June 30, 2021, and before July 1, 2023;
- (2) Changing the effective date to July 1, 2021; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 855, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 855, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kanuha and Nishihara.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 25 on S.B. No. 412

The purpose of this measure is to:

- (1) Clarify implied consent law to make an exception for giving a breath, blood, or urine test pursuant to a search warrant or any other basis permissible under the Constitution of the State of Hawaii and state law; and
- (2) Exclude habitually operating a vehicle under the influence of an intoxicant from qualifying for deferred acceptance of guilty plea or nolo contendere plea.

Your Committee on Conference finds that each person is typically allowed only one deferred plea in their lifetime, and that it is an opportunity for the person to show the court that they have learned their lesson and are unlikely to reoffend in the future. Your Committee on Conference further finds that because of the repeat nature of the offense and the potential for serious harm to others, offenders who habitually operate a vehicle under the influence of an intoxicant should not be eligible for deferred pleas.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 412, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 412, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Marten and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 26 on S.B. No. 157

The purpose of this measure is to authorize the issuance of a civil license to solemnize marriage and allow solemnization by any individual at least eighteen years of age.

Your Committee on Conference finds that officiants ordained by a religious denomination or society are currently the only persons besides justices, judges, and magistrates who are authorized to officiate a wedding in the State. Your Committee on Conference further finds that the right to marry belongs to all citizens, regardless of their moral beliefs or religious creed. This measure will allow persons without any religious affiliation to perform the marriage rite.

Your Committee on Conference has amended this measure by:

- (1) Providing for the issuance of a temporary three-month license upon the request of an applicant;
- (2) Specifying that the fee for a temporary three-month license shall be \$25; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 157, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 157, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 27 on S.B. No. 834

The purpose of this measure is to establish the felony offense of importation, sale, or possession of a childlike sex doll.

Your Committee on Conference finds that the widespread availability of childlike sex dolls, which are designed to look and feel as lifelike as possible, contributes to the exploitation, objectification, abuse, and sexual assault of minors. Your Committee on Conference further finds that the possession of a childlike sex doll correlates with other offenses perpetrated against children and may reinforce pedophilic thoughts and cause those thoughts to be acted upon with greater urgency. This measure will help protect minors from the harm associated with childlike sex dolls by prohibiting the importation, sale, or possession of a childlike sex doll.

Your Committee on Conference has amended this measure by:

- (1) Adding a misdemeanor offense for importation, sale, or possession of one childlike sex doll;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 834, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 834, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Acasio). Noes, none. Excused, none.

Representatives Kitagawa, Ichiyama and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 28 on S.B. No. 807

The purpose of this measure is to:

- (1) Require each school's academic plan to include a clear accounting of all resources that will be allocated to address and achieve each measurable outcome; the school's priority improvement strategies and measures to determine progress; student growth indicators; information about programs intended to address social and economic conditions that adversely impact student learning; a breakdown of certain teacher vacancy data; average class sizes for all regular education, special education, and content-based English-language learning classes; and teacher workforce experience metrics; and
- (2) Require the Department of Education to submit an annual report on the school academic and financial plans to the Board of Education and the Legislature before the convening of each regular session.

Your Committee on Conference finds that there is a greater need for transparency and accountability from the Department of Education. Your Committee further finds that establishing clear guidance for what should be included in a school's academic plan will better inform the Legislature, Board of Education, and communities of what the school's measurable outcomes are and how resources are allocated to achieve those outcomes.

Your Committee on Conference has amended this measure by clarifying that the data inputs required for student growth indicators, teacher vacancy data, average class size, and school status and improvement report data shall be preloaded into the academic and financial plan template by the Department of Education, and not the individual schools' principals or complex superintendent.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 807, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 807, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Perruso, Ganaden, Hashimoto and Okimoto.

Managers on the part of the House.

Ayes, 5; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

Conf. Com. Rep. 29 on S.B. No. 1384

The purpose of this measure is to provide that the prohibition against serving two consecutive terms not to exceed eight consecutive years shall not apply to the term of the representative of Hawaiian medium early learning providers on the Early Learning Board.

Your Committee on Conference finds that the Early Learning Board provides crucial input, direction, and oversight necessary for the Executive Office on Early Learning to achieve its statutory responsibilities. Representatives on the Early Learning Board are reflective of the diversity of the early care and education field in Hawaii, providing unique and important input on how to best serve Hawaii's families and young children. The State has long recognized the value of its host culture and has taken such actions as designating the native Hawaiian language as one of its two official state languages and creating native Hawaiian immersion charter schools. This measure will allow for better qualified, continued representation for Hawaiian early learning providers on the Early Learning Board.

Your Committee on Conference amended this measure by:

- (1) Inserting a repeal date of June 25, 2025; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1384, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1384, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim and Kanuha. Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Ilagan, Hashimoto, Perruso and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 30 on H.B. No. 776

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Pueo Development, LLC, in building a master planned community on Hawaiian Home Lands.

Your Committee on Conference has amended this measure by:

- (1) Changing the authorized amount of the special purpose revenue bonds from an unspecified amount to \$80,000,000;
- (2) Deleting references to processing enterprises; and
- (3) Changing the effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 776, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 776, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kanuha and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakamura, Yamashita and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 31 on H.B. No. 119

The purpose of this measure is to amend Act 43, Session Laws of Hawaii 2019 (Act 43), by:

- (1) Replacing E Ola Mau Na Leo O Kekaha with Kaunalewa as the entity authorized to receive special purpose revenue bonds issued to assist with the acquisition, remediation, and development of the old Kekaha Sugar Mill in Kekaha, Kauai, Hawaii; and
- (2) Extending the lapse date for which the special purpose revenue bonds may be authorized from June 30, 2024, to June 30, 2026.

Your Committee has amended this measure by:

- (1) Reverting to Act 43's existing special purpose revenue bond authorization of \$10,000,000;
- (2) Deleting provisions that would have extended the lapse date for Act 43's special purpose revenue bond authorization;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 119, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 119, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 33 on H.B. No. 1043

The purpose of this measure is to facilitate the administration of the transient accommodations tax by:

- (1) Providing that any taxpayer who receives gross rental proceeds shall pay the tax;
- (2) Replacing certain references to "operator" or "plan manager" with "taxpayer" or "person";
- (3) Clarifying that a certificate of registration is required for persons advertising transient accommodations;
- (4) Eliminating the misdemeanor criminal penalty for failing to register and replacing it with a monetary fine structure;
- (5) Applying the personal liability provision under the general excise tax law to the transient accommodations tax; and
- (6) Repealing provisions establishing the office of the taxation district in which the taxes arose or the office of the first taxation district in Honolulu as the recipient of periodic returns.

Your Committee has amended this measure by changing the effective date to January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1043, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1043, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Wakai and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Quinlan, Sayama and Okimoto.

Conf. Com. Rep. 34 on H.B. No. 1253

The purpose of this measure is to:

- (1) Prohibit an employer, with certain exemptions, from requiring an employee or prospective employee to download to their personal communication device a mobile application that enables the employee's location to be tracked or their personal information to be revealed, as a condition of employment or continued employment;
- (2) Prohibit an employer, with certain exemptions, from terminating, discharging, or otherwise discriminating against an employee or prospective employee for refusing to download or refusing to consent to download the mobile application to the employee's personal communication device; or opposing any forbidden practice or filing a complaint, testifying, or assisting in any proceeding concerning an unlawful practice;
- (3) Allow a person who alleges a violation to bring a civil action for injunctive relief, actual damages, or both; and
- (4) Set fines for violations.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1253, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1253, H.D. 3, S.D. 1, C.D. 1.

Conf. Com. Rep. 35 on H.B. No. 723

The purpose of this measure is to appropriate funds to purchase and distribute personal protective equipment and industrial hygiene products to hospitals, childcare facilities, elderly care facilities, businesses, nonprofits, schools, and state departments and attached agencies.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the S.D. 1 version, which amends Act 9, Session Laws of Hawaii 2020, to authorize the use of funds received from the Coronavirus Aid, Relief, and Economic Security Act for the purchase and distribution of personal protective equipment and industrial hygiene products to state departments and attached agencies, in addition to other organizations; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 723, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 723, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 36 on H.B. No. 954

The purpose of this measure is to convert certain positions within the Hawaii Emergency Management Agency from civil service to exempt status.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 954, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 954, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Taniguchi, English, Rhoads and Riviere.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Ichiyama, Onishi, Eli, Sayama and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 37 on H.B. No. 103

The purpose of this measure is to:

- (1) Clarify that the powers granted for emergency purposes shall not be inconsistent with the Hawaii State Constitution;
- (2) Provide parameters for the duration of suspension of laws under an emergency order and require justification for the suspension;
- (3) Require approval of the Legislature by concurrent resolution to extend to a date certain, or deny the extension of, a proclamation of a state of emergency timely requested by the Governor and specifies that if the Legislature fails to take action, the state of emergency is automatically extended for sixty days; and
- (4) Allow the authorization of the issuance of a separate proclamation arising from the same emergency or disaster as a previous proclamation that expired, upon request of the Governor and adoption of a concurrent resolution by the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Clarifying further the parameters for the termination of a state of emergency;
- (2) Specifying that if an emergency proclamation was terminated by the Legislature, a subsequent proclamation declaring the existence of a state of emergency arising from the same emergency or disaster may be authorized for no more than sixty days upon the request by the Governor and adoption of a concurrent resolution by the Legislature;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 103, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 103, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Rhoads and Wakai. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Nakashima, Nishimoto, Eli and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 38 on H.B. No. 237

The purpose of this measure is to appropriate funds to the Department of Agriculture for the mitigation and control of the two-lined spittlebug and fund recovery efforts.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$350,000 for fiscal year 2021-2022 only;
- (2) Changing the source of funding to the funds received by the State of Hawaii from the American Rescue Plan Act of 2021, Public Law 117-2 (Section 9901);
- (3) Changing its effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 237, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 237, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye and Kanuha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso, Tokioka and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 39 on H.B. No. 1192

The purpose of this measure is to:

- (1) Establish a framework for providing new, viable installment loan transactions; and
- (2) Repeal the statutory authorization for deferred deposit transactions in the State.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the late filing fees for an installment lender's failure to file an annual report or pay the annual renewal fee are to be assessed on a per day basis, rather than per business day;
- (2) Changing the effective date to July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1192, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1192, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Rhoads. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Johanson, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 40 on H.B. No. 1016

The purpose of this measure is to:

- (1) Provide that a single valid commercial marine vessel license satisfies the licensure requirement for all persons aboard the licensed vessel, if the vessel is on a trip of seventy-two hours or less;
- (2) Require any person who provides fishing charter services to obtain a commercial marine license;
- (3) Allow any vessel used for or engaged in the taking of marine life for commercial purposes to obtain a commercial marine vessel license, if the vessel is on a trip of seventy-two hours or less;
- (4) Authorize the Department of Land and Natural Resources to establish rules and fees for the issuance of a commercial marine vessel license; and
- (5) Require the Department of Land and Natural Resources to submit a report to the Legislature regarding the status of its administrative rules establishing a new commercial marine vessel license category.

Your Committee on Conference has amended this measure by:

- (1) Providing that a single valid commercial marine vessel license satisfies the licensure requirement for all persons aboard the licensed vessel, regardless if the vessel is on a trip of seventy-two hours or less;
- (2) Requiring the commercial marine vessel licensee of a Hawaii longline vessel that satisfies the commercial marine license requirement by obtaining the vessel license to file an annual report with the Department of Land and Natural Resources that contains the identity, nationality, arrival date, and departure date of the crew members;
- (3) Authorizing any vessel used for or engaged in the taking of marine life for commercial purposes to be eligible to obtain a commercial marine vessel license, regardless if the vessel is on a trip of seventy-two hours or less;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1016, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1016, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads and Moriwaki.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Kitagawa, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 41 on H.B. No. 1291

The purpose of this measure is to allow applicants to the University of Hawaii who earned a high school diploma from a public high school in the State with a cumulative grade point average of 3.0 and also provide evidence that they qualified for and received special education services for two or more years during enrollment in grades nine through twelve to be eligible for the Hawaii State Scholars Program.

Your Committee on Conference has amended this measure by:

- (1) Amending the eligibility requirements to include applicants who provide evidence that the student qualified for and received special education for two or more years during enrollment in grades seven through twelve; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1291, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1291, H.D. 1, S.D. 2, C.D. 1.

Senators Kim, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

 $Representatives\ Woodson,\ Takayama,\ Perruso,\ De Coite\ and\ Okimoto.$

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 42 on H.B. No. 282

The purpose of this measure is to:

- (1) Expand the circumstances where a minor may consent to no cost emergency shelter and related services to include cases where the provider is coordinating with the Department of Human Services' Child Welfare Services Branch; and
- (2) Clarify the definition of "provider" as it relates to the entities eligible to provide no cost emergency shelter and related services to a consenting minor to include certain organizations who are not considered child placing organizations or child caring institutions.

Your Committee on Conference has amended this measure by:

- (1) Removing as duplicative the requirement that a provider coordinate with the Department of Human Services, as this requirement is already contained in the expanded definition of "provider" as amended by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 282, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 282, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads and Acasio.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Nakashima, LoPresti and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 43 on H.B. No. 313

The purpose of this measure is to:

- (1) Repeal the requirement that no less than fifty percent of the assessment fees deposited into the John A. Burns School of Medicine Special Fund be used for purposes identified by the Hawaii Medical Education Council;
- (2) Repeal the monetary cap of expenditures from the John A. Burns School of Medicine Special Fund; and
- (3) Authorize monies in the John A. Burns School of Medicine Special Fund to be used to provide loan repayment to physicians who commit to working in medically underserved areas of the State as part of the Hawaii State Loan Repayment Program and award scholarships for qualifying medical students.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the name of the loan repayment program is the "Hawaii State Loan Repayment Program";
- (2) Changing the effective date to July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 313, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 313, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Yamane, Takayama, Tam, DeCoite, LoPresti and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 44 on H.B. No. 334

The purpose of this measure is to:

- (1) Establish the State Drug and Alcohol Toxicology Testing Laboratory Special Fund to support a State Drug and Alcohol Toxicology Testing Laboratory;
- (2) Specify that monies in the State Highway Fund may be expended for the cost of establishing a State Drug and Alcohol Toxicology Testing Laboratory;
- (3) Require that fines imposed on offenders convicted of repeat or habitual offenses involving operating a vehicle under the influence of an intoxicant or convicted of operating a vehicle after a license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant be deposited into the State Drug and Alcohol Toxicology Testing Laboratory Special Fund; and

(4) Require the Department of Health to submit reports to the Legislature on expenditures from the State Drug and Alcohol Toxicology Testing Laboratory Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1 version, which is substantially similar; and
- (2) Further amending this measure by:
 - (A) Abolishing and repealing the State Drug and Alcohol Toxicology Testing Laboratory Special Fund on June 30, 2026, and requiring any unencumbered remaining balances to lapse to the general fund; and
 - (B) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 334, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 334, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Rhoads, English, San Buenaventura and Fevella.

Ayes, 4. Noes, none. Excused, no

Conf. Com. Rep. 45 on H.B. No. 887

The purpose of this measure is to:

- (1) Create a separate commercial sexual exploitation offense for those who provide anything of value to engage in sexual conduct with another:
- (2) Specify that the offense of sex trafficking may be prosecuted at any time;
- (3) Specify that sex trafficking includes advancing or profiting from prostitution by certain means, including through coercion;
- (4) Make a person strictly liable for sex trafficking of a minor in terms of the victim's age;
- (5) Rename offenses involving the solicitation of prostitution to use the more appropriate term of commercial sexual exploitation;
- (6) Amend the elements for commission of the offense of commercial sexual exploitation of a minor and increase the grade of offense to a class B felony;
- (7) Include anything of value as a type of compensation for purposes of engaging in prostitution or other offenses involving commercial sexual exploitation; and
- (8) Clarify the exemption from commercial sexual exploitation and prostitution-related offenses for law enforcement officers acting in the course and scope of duties.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the definition of "sexual offense" under the Registration of Sex Offenders and Other Covered Offenders and Public Access to Registration Information Chapter applies to persons who commit the offense of commercial sexual exploitation in reckless disregard of the fact that the person exploited is a victim of sex trafficking, rather than petty misdemeanor commercial sexual exploitation offenders;
- (2) Clarifying that the state of mind requirement for the offense of commercial sexual exploitation is not applicable to the fact that the victim was a minor if the person provides anything of value to a minor or third person as compensation for having engaged in sexual conduct with a minor, rather than if the person offers or agrees to provide anything of value to a member of a police department, a sheriff, or a law enforcement officer who represents that person's self as a minor to engage in sexual conduct; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 887, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 887, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 46 on S.B. No. 367

The purpose of this measure is to waive the requirement for section 401 water quality certification for certain small-scale beach restoration projects authorized by the Department of Land and Natural Resources.

Your Committee on Conference finds that waiving the requirement of water quality certification for small-scale beach restoration projects will result in the efficient administration of site-specific water pollution control and more practical and realistic erosion control alternatives to the deleterious practice of coastal armoring.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 367, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 367, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Rhoads and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Lowen, Tarnas, Nakashima, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 47 on S.B. No. 764

The purpose of this measure is to add a permanent commercial driver's license disqualification for a holder of a commercial driver's license or commercial learner's permit who is convicted of a felony involving a severe form of trafficking in persons.

Your Committee on Conference finds that on July 23, 2019, the Federal Motor Carrier Safety Administration of the United States Department of Transportation issued a final rule that provides that drivers who are convicted of a felony involving severe forms of trafficking in persons while operating a commercial motor vehicle for which a commercial driver's license or commercial learner's permit is required are permanently banned from holding the license or permit without the possibility of reinstatement. Your Committee on Conference further finds that this final rule requires states to achieve substantial compliance within three years of the final rule's effective date to avoid certain penalties. Accordingly, this measure brings Hawaii into compliance with the federal rule.

Your Committee on Conference notes that the S.D. 1 version of this measure specifies the definition for the term "severe forms of trafficking in persons", rather than providing a citation for the definition in the corresponding federal rule. The language in the S.D. 1 is therefore preferable for purposes of clarity.

Your Committee on Conference has amended this measure by reverting its contents to the S.D. 1 version and further amending it by:

- (1) Deleting language that would have inserted the definition of "severe forms of trafficking in persons" into section 286-2, Hawaii Revised Statutes, and instead inserting it into section 286-240, Hawaii Revised Statutes;
- (2) Inserting a definition for the term "commercial sex act"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 764, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 764, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Ichiyama, LoPresti and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 48 on S.B. No. 973

The purpose of this measure is to:

- (1) Amend the Money Transmitters Act;
- (2) Incorporate definitions of key terms provided in the Model Money Services Business Law;
- (3) Add supporting documentation required to be submitted by an applicant for licensure;
- (4) Extend the period of an applicant's litigation and criminal conviction history review from five years to ten years from the date of the application;

- (5) Require an applicant to submit information concerning any bankruptcy or receivership proceedings; and
- (6) Clarify the authority of the Commissioner of Financial Institutions to examine and investigate licensees and participate in nationwide protocols for licensing cooperation.

Your Committee on Conference finds that the money transmission industry has evolved since the enactment of Hawaii's Money Transmitter Act in 2006. The current fast-paced nature of money transmission and the increased innovation of financial technologies necessitates additional oversight of money transmitters to ensure appropriate consumer protection. This measure adopts certain model act provisions to allow Hawaii to work alongside a network of states to enable timely, coordinated, and efficient regulation of transglobal, regional, and single-state money transmission companies to provide financial stability and better protect consumers.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 973, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 973, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Misalucha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Johanson, Holt and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 49 on S.B. No. 766

The purpose of this measure is to allow a penalty of up to \$5,000 for certain repeat offenders of the motor carrier law.

Your Committee on Conference finds that commercial Public Utilities Commission (PUC) motor carriers traditionally transport high numbers of tourists to many locations around the State. However, the trucking and tour vehicle industry have long had to contend with unlicensed and unregulated operators who seek to skirt the PUC requirements of motor carrier operations. This measure will strengthen the PUC's ability to punish those who repeatedly break the rules.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 766, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 766, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Kitagawa, Nishimoto and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 50 on S.B. No. 1409

The purpose of this measure is to:

- (1) Prohibit a newly appointed or reappointed council, board, and commission member from serving if the member has not completed, within the requisite time, the required training course related to native Hawaiian and Hawaiian traditional and customary rights, native Hawaiian and Hawaiian natural resource protection and access rights, and the public trust, including the State's trust responsibility;
- (2) Require the Office of Hawaiian Affairs and Department of Land and Natural Resources to compile an annual report of council, board, and commission members who have failed to complete their training course requirement; and
- (3) Require the Office of Hawaiian Affairs to record the training courses and make the recordings available to those who were unable to attend the training course in person.

Your Committee on Conference finds that Act 169, Session Laws of Hawaiia 2015 (Act 169), required the Office of Hawaiian Affairs to establish, design, and administer a training course on native Hawaiian traditional and customary rights, the source of these rights, and how the infringement of these rights affects native Hawaiians. Act 169 requires new members of certain state councils, boards, and commissions to complete the training course within one year of their appointment. Currently, a significant number of board and commission members subject to the mandatory training course continue to fail to comply with their training course completion responsibility. Therefore, this measure strengthens requirements of the completion of the training course, which will ensure greater recognition and incorporation of native Hawaiian knowledge, values, and rights in land use and resource management decision-making.

Your Committee on Conference has amended this measure by:

- Removing language that would have allowed for individual votes taken by council, board, or commission members who fail to
 complete the mandatory training course within the required time period to be challenged and subject to being nullified and
 voided following a contested case proceeding;
- (2) Clarifying that the Office of Hawaiian Affairs shall record the training courses and make the recordings available to council, board, and commission members identified in section 10-41(a), Hawaii Revised Statutes, who have not yet satisfied the training requirement and were unable to attend the training course;
- (3) Specifying that viewing a recording of a training course satisfies the training requirement;
- (4) Changing the effective date to April 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1409, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1409, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Rhoads, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Cullen, Takumi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 51 on S.B. No. 696

The purpose of this measure is to:

- Extend the date on which the temporary Commission on the Thirteenth Festival of Pacific Arts ceases to exist to August 31, 2025; and
- (2) Permit less than a quorum of members of the temporary Commission on the Thirteenth Festival of Pacific Arts to discuss matters relating to official board business outside a Commission meeting as a permitted interaction matter under part I of chapter 92, Hawaii Revised Statutes, to enable the members to perform their duties faithfully, provided that the Commission holds a meeting at least once a month.

Your Committee on Conference finds that Act 104, Session Laws of Hawaii 2017 (Act 104), created the temporary Commission on the Thirteenth Festival of Pacific Arts (Commission) to plan the Festival of Pacific Arts originally scheduled to be held in Hawaii in 2020. Due to the outbreak of the coronavirus disease 2019, the Pacific Community notified the State that it is postponing the Festival of Pacific Arts to 2024. Therefore, the Commission, which was to cease to exist on June 30, 2021, must be extended to fulfill its duties to plan for the Thirteenth Festival of Pacific Arts in 2024. Additionally, Commission members have had to take on more handson tasks because of a lack of contractor to oversee the festival; thus, this has resulted in smaller groups of Commission members that need to communicate outside of publicly noticed meetings to carry out their tasks. Your Committee on Conference finds that this measure will balance the public interest in access to government decision-making, while simultaneously allowing Commission members to oversee the tasks necessary to running the festival.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 696, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 696, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Rhoads and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Cullen, Har and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 52 on S.B. No. 516

The purpose of this measure is to:

- (1) Beginning July 1, 2022, require the State Board for Career and Technical Education to oversee and review annually certain statewide processes, requirements, and rules related to the student attainment of industry-recognized credentials;
- (2) Require an annual report to the Governor and Legislature; and
- (3) Require the statewide longitudinal data system to include career and technical education data for analysis.

Your Committee on Conference finds that in the current job market, nearly sixty-five percent of available positions require postsecondary credentials. Industry-recognized credentials are important because they teach the specific knowledge and skills that are required for an occupation or industry. This measure will help break down Hawaii labor market data by credentials to help develop career and technical training pathways that can contribute to future workforce generations.

Your Committee on Conference amended this measure by changing the effective date to upon its approval; provided that the provision in this measure that requires the State Board for Career and Technical Education to oversee and review certain processes related to industry-recognized credentials shall take effect on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 516, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 516, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai and Kanuha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Matayoshi, Perruso, Ganaden, Gates and Okimoto.

Managers on the part of the House. Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 53 on S.B. No. 1212

The purpose of this measure is to amend the registration requirements for motor carrier vehicles that have an outstanding federal out-of-service order.

Your Committee on Conference finds that this measure will bring Hawaii into compliance with the federal Performance Registration Information Systems Management (PRISM) program that identifies motor carriers that are under a federal out-of-service order because those motor carriers have not corrected safety deficiencies found in compliance review inspections. This measure will allow the State to be compliant with and qualify under PRISM and thus continue to qualify for federal funding.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1212, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1212, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Johanson, Ilagan and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 54 on S.B. No. 474

The purpose of this measure is to require that mandatory seller disclosures in real property transactions include whether a residential real property is within the sea level rise exposure area as designated by the Hawaii Climate Change Mitigation and Adaptation Commission or its successor.

Your Committee on Conference finds that the value of property lying within the boundaries of a sea level rise exposure area will likely be affected over time, and is therefore a material fact that should be disclosed by the seller in a real property transaction in accordance with chapter 508D, Hawaii Revised Statutes, relating to mandatory seller disclosures in real estate transactions. Your Committee on Conference further finds that the Hawai'i Association of REALTORS will need time to not only update the seller's real property disclosure statement and the oceanfront property addendum of their purchase contracts, but also to train their members to use the Hawaii sea level rise viewer, which is an interactive mapping tool that depicts projections for future hazard exposure and assesses economic and other vulnerabilities due to rising sea levels.

Your Committee on Conference has amended this measure by inserting an effective date of May 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 474, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 474, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Baker, Rhoads and Misalucha. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Johanson, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 55 on S.B. No. 1313

The purpose of this measure is to:

- (1) Establish, no later than January 1, 2023, a pilot project in the Division of Aquatic Resources of the Department of Land and Natural Resources to restock northern largemouth bass, butterfly peacock bass, or both, in the Wahiawa public fishing area in central Oahu; and
- (2) Require the Division of Aquatic Resources to apply to the Board of Agriculture for the permit to import the northern largemouth bass and work with another public entity or partner with a private entity to accomplish the pilot project.

Your Committee on Conference finds that the northern largemouth bass and butterfly peacock bass are some of the most popular gamefish in the United States; however, bass fishing in Hawaii is far less popular than in other states, partially because of the lack of a diverse population of these sport fish in Hawaii's artificial reservoirs. Placing the northern largemouth bass and the butterfly peacock bass on the Restricted Animal List, Part B, would allow the Department of Land and Natural Resources the ability to import and restock the Wahiawa public fishing area to refresh the genetic diversity of these fish populations while minimizing the risk of spread or possible introduction to other bodies of water. This measure would thereby enhance and support the pre-existing populations for continued recreational fishing in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Providing that the pilot project shall be established provided that the Board of Agriculture has placed the northern largemouth bass and butterfly peacock bass on the list of restricted animals that require a permit for both import into the State and possession, pursuant to section 150A-6.2, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1313, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1313, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye, Rhoads and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Johanson, Cullen, Kong and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 56 on S.B. No. 1150

The purpose of this measure is to authorize the Department of Health to accept nationally recognized accreditation or certification organizations to demonstrate a skilled facility's compliance with the licensing inspections required by the State.

Your Committee on Conference finds that The Joint Commission and other nationally recognized accrediting agencies have certification standards that are more stringent than those required by state law. Your Committee on Conference further finds that authorizing the Department of Health to recognize these accreditation and certification reviews to establish a skilled nursing facility's compliance with state licensing requirements will allow the Department of Health to better allocate resources to its regulatory oversight responsibilities, while also permitting the Department's Office of Healthcare Assurance to deploy staffing resources to other equally important investigations and surveys.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1150, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1150, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Johanson, Kapela and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 57 on S.B. No. 224

The purpose of this measure is to:

- (1) Give a preference to students who live within the service area of a school or who were enrolled at the school in the previous school year and apply for participation in a career and technical education program offered by that school; and
- (2) Exempt students enrolled in a career and technical education program from the requirement to attend school within the service area in which a student resides.

Your Committee on Conference finds that a gap exists between the skills that students in the State attain upon graduation from high school and the skills that employers in the State are seeking. Business leaders in Hawaii's expanding industries report that it is often difficult to recruit local applicants who have the necessary skills and experiences. Your Committee on Conference further finds that educational programs specializing in career readiness and technical skills can be effective in preparing students in Hawaii to enter the State's job market. This measure expands the number of students receiving career and technical skills education by allowing students to enroll in career and technical programs, regardless of where they reside.

Your Committee on Conference has amended this measure by:

- (1) Updating the purpose section; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 224, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 224, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Perruso, Gates and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 58 on S.B. No. 806

The purpose of this measure is to require the Attorney General, on behalf of the Department of Education, to institute proceedings to acquire certain land owned by the Mililani Town Association by voluntary action or condemnation.

Your Committee on Conference finds that the Mililani Town Association owns a parcel of land that fronts Mililani High School. Mililani High School desires to build an access ramp on this parcel that is compliant with the Americans for Disabilities Act to allow students, staff, family members, and the general public access to the school. Mililani Town Association is amenable to this construction and would like to avoid the potential for liability by transferring title to the parcel to the State. This measure provides a legal process for the friendly condemnation of the parcel by the State in a manner agreeable to all parties.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 806, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 806, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Tarnas, Matayoshi, Cullen, Tokioka and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Tarnas, Tokioka).

Conf. Com. Rep. 59 on S.B. No. 813

The purpose of this measure is to require authorizers to provide to each charter school it oversees a list of approved independent auditors

Your Committee on Conference finds that charter schools may only select an auditor from a list of three auditors selected by the authorizer. There are currently not enough auditors in Hawaii to meet the required timeline to ensure charter school audits are included in the consolidated annual financial reports. Your Committee further finds that many of the auditors selected by the authorizer are based on Oahu, which makes it more difficult for charter schools on the other islands to complete their audits and forces those charter schools to incur additional expenses and delays. This measure would allow the charter schools to choose from a list of more than three independent auditors to conduct audits and provide access to auditors for the many charter schools that operate on all the islands across the State.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 813, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 813, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Woodson, Johanson, Ilagan, Gates, Perruso and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 60 on S.B. No. 811

The purpose of this measure is to require the Department of Education to publish a weekly report on schools that have reported positive coronavirus disease 2019 (COVID-19) cases.

Your Committee on Conference finds that although the Department of Education has stated that it has communication policies and procedures in place to address COVID-19 cases, it generally has not provided information about positive COVID-19 test result cases on all school campuses and the limited information that it has shared has been inconsistent and incomplete. Your Committee further finds that of the limited information publicly released, positive COVID-19 cases listed by schools are not included. This measure will help to provide critical, real-time data necessary to assess school reopening and to respond to COVID-19 outbreak events that may place students, their families, and school staff at a heightened risk.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 811, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 811, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Rhoads, Dela Cruz, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Woodson, Ichiyama, Ilagan, Eli, Hashimoto and Okimoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 61 on S.B. No. 404

The purpose of this measure is to:

- (1) Lower the monetary threshold that triggers disclosure of electioneering communications. Repeals the requirement that disclosures of electioneering communications occur on the date of any subsequent expenditures;
- (2) Classify election advertisements sent by mail at any postal rate as electioneering communications;
- (3) Exempt communications that are actual expenditures of an organization from being considered electioneering communications; and
- (4) Exclude candidate and candidate committees from the disclosure requirements.

Your Committee on Conference finds that electioneering communications are meant to expose noncandidate influences on elections which have been shown to radically influence the outcomes of elections in the State. Your Committee on Conference further finds that changing the disclosure date to the date on which the advertisement runs and triggering the requirement to file a statement of information at that time will increase public transparency and accountability in campaign advertising.

Your Committee on Conference has amended this measure by making it effective upon its approval; provided that it applies beginning with the 2022 primary election.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 404, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 404, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nakashima, D. Kobayashi, Tokioka and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 62 on S.B. No. 1387

The purpose of this measure is to require dog and cat owners to microchip their pets.

Your Committee on Conference finds that microchips are the safest, most accessible, and most affordable identification tool for pet owners. Microchipping is an affordable way to locate a missing pet as it bypasses the need for animal control, thereby eliminating the cost of intake and boarding of lost pets at the expense of taxpayers. This measure will ensure that lost pets are returned to their owners in a timely and safe manner by requiring certain dogs and cats to be microchipped.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1387, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1387, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Johanson, Todd and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 63 on S.B. No. 385

The purpose of this measure is to:

- (1) Enact the 2018 Uniform Trust Code; and
- (2) Repeal the Uniform Trustees' Powers Act, Uniform Prudent Investor Act, and laws regarding trust administration under the Uniform Probate Code.

Your Committee on Conference finds that to date, the Uniform Trust Code has been enacted by thirty-four states and the District of Columbia. Your Committee on Conference further finds that this piece of uniform legislation standardizes the law of trusts so that parties across a diverse range of jurisdictions can rely on the same governing principles. This measure will update Hawaii statutes relating to trusts and bring them under one comprehensive umbrella, which will significantly reduce the time, complexity, and expense of trust proceedings.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 385, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 385, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Acasio and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Johanson, Marten, D. Kobayashi and Ward.

Managers on the part of the House. Aves, 5. Noes, none. Excused, none.

Conf. Com. Rep. 64 on S.B. No. 1042

The purpose of this measure is to:

- (1) Repeal the provision that allows persons designated as sex offenders in another state or jurisdiction to petition the Attorney General for termination of registration requirements upon demonstrating that the out-of-state convictions are not covered offenses in the State of Hawaii;
- (2) Require certain long term visitors to Hawaii with out-of-state sex offender convictions to register; and
- (3) Clarify how persons required to register as sex offenders can petition to terminate registration.

Your Committee on Conference finds that existing sex offender registration laws allow out-of-state persons who intend to reside or maintain a residence in Hawaii, visit Hawaii for ten or more days, or visit Hawaii for thirty or more days a year, and who have been or are required to be registered in another state as a sex offender, to avoid registration by establishing that they do not meet the criteria for registration as a covered offender in Hawaii because the out-of-state conviction in their state is not for a covered offense under Hawaii law. Your Committee on Conference further finds that allowing out-of-state covered offenders to avoid registering as a sex offender in Hawaii by demonstrating that Hawaii's law is different from the law of the state that required the person to register as a sex offender is an unintended loophole in the registration law. This measure closes the loophole by requiring those persons who have been designated as a sex offender in another state, who is or would be required to be on a sex offender registry in that state, to be subject to registration requirements in the State of Hawaii.

Your Committee on Conference amended the measure by:

- (1) Specifying that a denial by the court for relief shall preclude the filing of another petition for termination of registration requirements for five years; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1042, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1042, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads and Riviere. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Todd and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 65 on S.B. No. 153

The purpose of this measure is to:

- (1) Prohibit any person whose driver's license has been administratively revoked or who has been convicted for offenses involving operating a vehicle under the influence of an intoxicant from being eligible for a driver's license without providing proof of compliance with the ignition interlock law;
- (2) Require the Director of Transportation to contract with the selected ignition interlock vendor to provide at no cost for the installation and periodic calibration charges to certain offenders who apply for assistance; and
- (3) Require a person who does not own or have the use of a vehicle in which the person can install an ignition interlock device during the revocation period or is otherwise unable to drive during the revocation period to be absolutely prohibited from driving during a period of time equal to twice that of the applicable revocation period.

Your Committee on Conference finds that the ignition interlock program plays a crucial role in preventing an individual from being a repeat offender of driving under the influence of an intoxicant. However, your Committee on Conference has several questions regarding the ignition interlock program and how it can be improved.

Your Committee on Conference notes that resolving these issues through a task force of experts is the best path forward. Your Committee on Conference finds that in 2016, Governor Ige signed Executive Order No. 16-02 that temporarily established the Hawaii Impaired Driving Task Force. The purpose of the task force was to provide a comprehensive strategy for preventing and reducing impaired driving behavior in Hawaii. Because there are lingering questions surrounding the ignition interlock program and impaired driving in general, your Committee on Conference finds it appropriate to make the Hawaii Impaired Driving Task Force a permanent body housed within the Department of Transportation and tasking it with answering the unresolved ignition interlock questions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting its contents and inserting language that establishes the Hawaii Impaired Driving Council and tasking it with addressing the questions raised by the discussion on this measure; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 153, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 153, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Todd and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 66 on S.B. No. 1291

The purpose of this measure is to:

- (1) Include autocycles equipped with handlebars in the definition of motorcycle in the Highway Safety Act; and
- (2) Exempt motorcycles and motor scooters with a roll bar or roll cage from the safety helmet requirement.

Your Committee on Conference finds that existing law is unclear whether certain three-wheeled electric vehicles that use handlebar steering in place of a steering wheel are classified as motorcycles or autocycles. As a result, operators of these vehicles must obtain a motorcycle endorsement for operation, even though the vehicles handle very similarly to front wheel drive automobiles. This measure clarifies that vehicles with three wheels and handlebars are included in the definition of motorcycle under the Hawaii highway safety act.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1291, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1291, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads and Inouye. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Aquino, Johanson, Takumi and Matsumoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 67 on S.B. No. 615

The purpose of this measure is to:

- (1) Require all moped and motor scooter rental companies to ensure the rider wears a safety helmet supplied either by the company or the renter, except for riders with a motorcycle license;
- (2) Prohibit the rental of any moped or motor scooter that is not equipped with a flag or any moped or scooter with aftermarket modifications; and
- (3) Amend the definition of "motor scooter" under the Hawaii Highway Safety Act and the Statewide Traffic Code.

Your Committee on Conference finds that from 2016 to 2018, there were twenty-three motor scooter and moped operator fatalities, and of the twenty-three fatalities, twenty-two operators were not wearing helmets. Wearing a helmet while operating a moped, powered scooter, or other motorized cycle decreases fatalities and serious injuries. Your Committee on Conference notes that according to the Hawaii Injury Prevention Plan for 2012-2017, published by the Department of Health and the Emergency Services and Injury Prevention System Branch, properly worn helmets can reduce the risk of death by forty-two percent and the risk of a head injury by sixty-nine percent. This measure will reduce fatal moped or motor scooter accidents by requiring most riders to wear a helmet.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the requirements related to safety flags for rental mopeds or motor scooters;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 615, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 615, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker and Shimabukuro. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Kitagawa, Nakashima, Ilagan and Matsumoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 68 on S.B. No. 244

The purpose of this measure is to:

- (1) Expand liability protections for donors to include donations of perishable or nonperishable food, farm produce, and similar donations made to needy persons by charitable, religious, or nonprofit organizations; and
- (2) Authorize the donation of expired food when the good-faith donor or distributor reasonably believes the food is fit for human consumption.

Your Committee on Conference finds that coronavirus disease 2019 (COVID-19) pandemic has severely threatened the health, welfare, and food security of Hawaii residents. The COVID-19 pandemic has further increased the need to expand and clarify existing law to support food donation programs. Despite this high level of food insecurity, Hawaii businesses and residents discard excessive amounts of food waste in the State, which can overload landfills and create harmful greenhouse gases. Therefore, this measure establishes a standard of liability protection for food donations to encourage the donation of food, remove unnecessary barriers, and reduce food insecurity.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 244, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 244, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole and Baker. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 69 on S.B. No. 348

The purpose of this measure is to:

- (1) Update existing law to require bottled water to meet standards prescribed by the United States Food and Drug Administration regarding product quality standards for bottled water; and
- (2) Repeal the requirement that noncarbonated bottled water be transported, stored, processed, or bottled in or through lines or equipment through which only water is passed.

Your Committee on Conference finds that existing state law expressly prohibits carbonated soft drink, juice, and beer operations from using the same equipment to can noncarbonated bottled water. Hawaii bottled water manufacturers are required to comply with an outdated rule that results in unfair and costly limits for local beverage filling companies that manufacture other products from providing noncarbonated water to consumers in aluminum cans as an alternative to single-use plastic water bottles. Lifting this constraint would allow beverage companies in the State to expand their businesses by putting still water in aluminum cans thereby meeting the growing demand for water in sustainable packaging while continuing to invest in the local economy.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 348, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 348, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Nishihara. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Johanson, Cullen and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 70 on S.B. No. 309

The purpose of this measure is to add the intentional creation, disclosure, or threat of disclosure of certain types of realistic deep fake images or videos to the offense of violation of privacy in the first degree, subject to specified exemptions.

Your Committee on Conference finds that one of the recommendations made by the Twenty-First Century Privacy Task Force was that the State protect the privacy of a person's likeness by adopting laws that prohibit the unauthorized use of deep fake technology, which is advancing rapidly and is easily sharable on social media. Your Committee on Conference further finds that deep fake technology enables the creation of synthetic media in which a person in an existing image or video is replaced with the likeness of another person. This measure will protect the privacy of a person's likeness by prohibiting the unauthorized use of deep fake technology.

Your Committee on Conference has amended this measure by:

- (1) Removing the requirement that the image or video of a composite fictitious person be realistic;
- (2) Removing the reasonable person standard for believing that a composite fictitious person is a known person;
- (3) Removing the exemption for images or videos made in connection with a matter of legitimate public concern, a work of political or newsworthy value, or expression protected by the First Amendment of the United States Constitution;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 309, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 309, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nakashima and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 71 on S.B. No. 1034

The purpose of this measure is to:

Authorize boards to use interactive conference technology to remotely conduct meetings under the State's open meetings law;
 and

(2) Amend the requirements for public notices of board meetings and for in-person board meetings held by interactive conference technology.

Your Committee on Conference finds that remote meetings can be a way to protect the health and safety of participants. Your Committee on Conference further finds that remote meetings have increased transparency by allowing more public members to participate in meetings, even if they live far from the physical location of a meeting or on another island.

Your Committee on Conference understands that the requirements of the Americans with Disabilities Act (ADA) apply to meetings held by interactive conference technology, and notes that any locations and technology used for remote meetings will need to be in compliance with the requirements of the ADA.

Your Committee on Conference has amended this measure by:

- Requiring at least one meeting location that is open to the public and has an audiovisual connection for a remote meeting held by interactive conference technology;
- (2) Requiring a quorum of board members participating in a remote meeting held by interactive conference technology to be visible and audible to other members and the public during the meeting;
- (3) Requiring all votes during a remote meeting held by interactive conference technology to be conducted by roll call unless unanimous;
- (4) Changing the duration of the automatic recess of a meeting in case audiovisual communication cannot be maintained to a maximum of thirty minutes;
- (5) Requiring the Office of Information Practices to assess the implementation of meetings held using interactive conference technology and submit a report of its findings to the Legislature;
- (6) Inserting an effective date of January 1, 2022; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1034, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1034, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Nakashima, Eli and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 72 on S.B. No. 726

The purpose of this measure is to:

- (1) Require officers serving a warrant to declare the officer's office and business and wait thirty seconds before entry into a house, store, or other building, subject to certain circumstances; and
- (2) Require officers serving a warrant issued by a district court to do so in an authorized uniform and wear and use a body-worn video camera.

Your Committee on Conference finds that, although a general knock-and-announce rule exists, if the police believe in advance of executing a search warrant that the threat of physical violence or the destruction of evidence exists, the police may obtain a "no-knock warrant" to allow the police to enter with force into the building without knocking. These raids have led to injury, death, and substantial collateral damage, and feed into the growing sense of community distrust of police. This measure prohibits no-knock warrants.

Your Committee on Conference has amended this measure by:

- Removing language providing that an officer serving a warrant may enter a house, store, or other building before the thirtysecond wait period has expired under exigent circumstances;
- (2) Providing that the thirty-second wait period commences at the moment the announcement of presence is made by the officer; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 726, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 726, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, 1 (Fevella). Excused, none.

Representatives Nakashima, Todd and Ward. Managers on the part of the House. Ayes, 2. Noes, 1 (Ward). Excused, none.

Conf. Com. Rep. 73 on S.B. No. 639

The purpose of this measure is to:

- (1) Prohibit courts of appeal from affirming, modifying, reversing, or vacating a matter on grounds other than those raised by the parties to the proceeding, unless the parties are provided the opportunity to brief the court; and
- (2) Require a rehearing if the courts fail to afford the opportunity for parties to submit supplemental briefing upon timely petition by any party.

Your Committee on Conference finds that when a court decides a case on grounds not raised by the parties, it departs from the principle of party presentation and risks abusing its discretion. Your Committee on Conference further finds that on multiple occasions, the Hawaii Supreme Court has reiterated a party's right to discuss and explore its rights, claims, and defenses through a colloquy. This measure will ensure due process during the appeals process and permit parties, rather than the appellate court, to litigate their cases.

Your Committee on Conference has amended this measure by inserting an effective date of September 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 639, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 639, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Todd and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 74 on S.B. No. 819

The purpose of this measure is to:

- (1) Extend the Hospital Sustainability Program through June 30, 2024;
- (2) Increase the maximum fee for inpatient care services to five and one-half percent;
- (3) Reduce the amount in the hospital sustainability program special fund that may be used by the Department of Human Services for departmental purposes from twelve percent to ten percent;
- (4) Increase the amount of time hospitals have to pay the hospital sustainability fee from thirty days to sixty days;
- (5) Increase the pool of Medicaid services that can be used for matching purposes;
- (6) Require that the aggregate net benefit for private hospitals shall not be less than the aggregate net benefit provided by the Hospital Sustainability Program for fiscal year 2021;
- (7) Define "net benefit" for purposes of the Hospital Sustainability Program; and
- (8) Appropriate an unspecified amount of monies out of the hospital sustainability program special fund for the purposes of the program.

Your Committee on Conference finds that the program has served a critical role in strengthening the health care system in Hawaii. In the nine years since its inception, the Hospital Sustainability Program has helped acute care facilities treat the most vulnerable patients in the State, especially Medicaid recipients who require hospital services. Your Conference on Committee also believes that continuing the Hospital Sustainability Program will ensure that the State's uninsured or underinsured patients continue to receive care in a timely, effective manner.

Your Committee on Conference has amended this measure by:

- (1) Deleting the definition of "net benefit";
- (2) Deleting language that would have increased the pool of Medicaid services that may have been used for matching purposes;
- (3) Deleting language that would have required that the aggregate net benefit for private hospitals shall not be less than the aggregate net benefit provided by the hospital sustainability program for fiscal year 2021;
- (4) Inserting an appropriation of \$100,000,000 out of the hospital sustainability program special fund for fiscal year 2021-2022 for purposes of the program;
- (5) Making it effective on June 29, 2021; provided that certain provisions relating to the extension of the Hospital Sustainability Program and appropriation take effect on July 1, 2021; and

(6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 819, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 819, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole and Kidani.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kidani).

Representatives Yamane, Johanson, Tam, Gates and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 75 on S.B. No. 793

The purpose of this measure is to repeal existing law that exempts individuals with disabilities from the State's minimum wage requirements. More specifically, this measure:

- (1) Amends the definition of "qualified community rehabilitation program" in the Hawaii Public Procurement Code by:
 - (A) Repealing certain certification requirements; and
 - (B) Requiring that the program maintain a certain disabled-to-non-disabled employee ratio; and
- (2) Repeals the provision in the State's Wage and Hour Law that allows employment of certain individuals, including individuals with disabilities, at sub-minimum wage.

Your Committee on Conference finds that laws that allow payment of sub-minimum wage based on an individual's disability status are based on a provision in the Fair Labor Standards Act that was enacted in 1938 to create a platform to train and prepare individuals with disabilities to gain open-market competitive jobs. Your Committee on Conference further finds that these laws are archaic and no longer serve their original purpose. The employers in the State who currently hold certificates that allow for payment of sub-minimum wage to individuals with disabilities are currently paying them statutory minimum wage, and the only reason the employers obtain the certificates is to meet the definition of "qualified community rehabilitation program" under the Hawaii Public Procurement Code. This measure repeals outdated laws that allow payment of sub-minimum wage to individuals with disabilities and replaces the qualified community rehabilitation program's special certificates requirement with an employee-ratio requirement.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 793, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 793, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Acasio, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Moriwaki).

Representatives Onishi, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 76 on H.B. No. 631

The purpose of this measure is to accommodate within the justice system certain traffic violators who are facing financial hardship.

More specifically, this measure:

- (1) Provides courts with greater discretion to adjust the payment of fees or fines for violations of certain traffic offenses based on a person's ability to pay or financial circumstances;
- (2) Amends the ratio of imprisonment term to contumacious nonpayment, from a maximum of one day for each \$25 of a fee or fine, to a maximum of one day for each \$250 of a fee or fine; and
- (3) Increases the amount of credit given to a person committed for contumacious nonpayment, from \$25 per day to \$250 per day.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 631, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 631, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Yamashita, D. Kobayashi and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 77 on H.B. No. 1377

The purpose of this measure is to:

- (1) Establish an Electronic Citation Program under the Judiciary for transmitting traffic, misdemeanor, or other citations and law enforcement data to the clerk of the court through electronic means;
- (2) Establish an Electronic Citation Surcharge of \$5 to be charged to persons who receive certain traffic, misdemeanor, or other citations:
- (3) Establish an Electronic Citation Special Fund to defray expenses related to the establishment and maintenance of the Electronic Citation Program; and
- (4) Appropriate funds to the Judiciary for start-up costs associated with the Electronic Citation Program.

Your Committee on Conference has amended this measure by:

- (1) Providing that the Electronic Citation Surcharge of \$5 will become inoperative on January 1, 2027;
- (2) Clarifying that the monies in the Electronic Citation Special Fund are to be distributed by the Judiciary to the respective law enforcement agencies and the Administrative Director of the Courts, not the clerk of the court;
- (3) Deleting the appropriation to the Judiciary for start-up costs associated with the Electronic Citation Program;
- (4) Changing the effective date to January 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1377, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1377, H.D. 1, S.D. 2, C.D. 1.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Yamashita and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 78 on H.B. No. 1333

The purpose of this measure is to require and appropriate funds for the Hawaii State Energy Office, in consultation with the Department of Health, to conduct a comprehensive study to determine best practices for disposal and recycling of discarded clean energy products in the State.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Hawaii Natural Energy Institute, rather than the Hawaii State Energy Office, shall conduct a comprehensive study to determine best practices for disposal, recycling, or secondary use of clean energy products in the State:
- (2) Deleting language that would have appropriated funds to conduct the comprehensive study;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1333, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1333, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, English and Misalucha. Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 79 on H.B. No. 1318

The purpose of this measure is to:

- (1) Establish the Environmental Advisory Council within the Office of Planning to replace the existing Environmental Council;
- (2) Transfer the rights, powers, employees, appropriations, and other personal property from the Office of Environmental Quality Control to the Office of Planning;
- (3) Amend the ability for an applicant to appeal nonacceptance of an environmental impact statement from the Environmental Council to the Environmental Court; and
- (4) Repeal certain provisions relating to the Office of Environmental Quality Control and Environmental Center of the University of Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions that would have required the Environmental Advisory Council to be an adjudged party for hearing appeals relating to the acceptance or nonacceptance of an environmental impact statement;
- (2) Clarifying that the current members of the Environmental Council shall continue to serve for the remainder of their respective terms as initial members of the Environmental Advisory Council;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1318, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1318, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye, Moriwaki, Rhoads and Kanuha.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Lowen, Luke, Tokioka and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tokioka).

Conf. Com. Rep. 80 on H.B. No. 1022

The purpose of this measure is to:

- (1) Clarify that any conservation and resources enforcement officer of the Department of Land and Natural Resources may, in the performance of their official duties, stop and temporarily detain any person who the officer reasonably believes is, or recently has been engaged in, hunting or fishing for a natural resource for the purposes of the officer conducting a limited inspection;
- (2) Establish administrative penalties for refusing to comply with an inspection request, under certain conditions.

Your Committee on Conference has amended this measure by:

- (1) Clarifying provisions to prohibit roaming administrative inspections of any member of the public's vehicle beyond a reasonable distance and clarifying the circumstances under which those inspections are allowed;
- (2) Deleting language that would have provided that items, natural resources, or other evidence obtained through an administrative inspection without probable cause may by used to pursue any civil and administrative penalties that are authorized by law;
- (3) Deleting provisions that specified that the administrative fines shall not apply to persons engaged in the proper and lawful exercise of traditional and customary Native Hawaiian rights for subsistence, religious, or cultural purposes;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1022, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1022, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, 1 (Fevella). Excused, 1 (Rhoads).

Representatives Lowen, Nakashima, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 81 on S.B. No. 1100

The purpose of this measure is to enact the National Association of Insurance Commissioners' Insurance Data Security Model Law to establish insurance data security standards for Hawaii insurance licensees.

Your Committee on Conference finds that there have been several major data breaches involving large insurers that exposed and compromised the sensitive personal information of millions of insurance consumers. The National Association of Insurance Commissioners adopted the Insurance Data Security Model Law in 2017 to strengthen existing data privacy standards and consumer breach notification obligations of insurance licensees. If states do not adopt provisions of this model law by 2022, they risk federal preemption of state laws in this area. Accordingly, this measure adopts the National Association of Insurance Commissioners' Insurance Data Security Model Law to establish insurance data security standards and ensure data security protections for Hawaii insurance licensees.

Your Committee on Conference has amended this measure by:

- (1) Inserting a definition for the term "commissioner" to mean the Insurance Commissioner of the State;
- (2) Reverting to certain provisions of the S.D. 1 version of this measure to clarify that:
 - (A) The licensee's regulator, rather than the licensee's domiciliary regulator, shall have the power to examine and investigate the affairs of any licensee to determine whether the licensee has been or is engaged in certain conduct; and
 - (B) Each insurer, rather than each licensee, domiciled in the State shall submit annual certifications to the Insurance Commissioner;
- (3) Updating the purpose section; and
- (4) Inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1100, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1100, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Matayoshi, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matayoshi).

Conf. Com. Rep. 82 on S.B. No. 1098

The purpose of this measure is to adopt certain provisions of the National Association of Insurance Commissioners' Producer Licensing Model Act, Public Adjuster Licensing Model Act, Reinsurance Intermediary Model Act, and Independent Adjuster Licensing Model Guidelines to provide consistency and promote efficiency in processing insurance licensing fees, applications, certificates, registrations, and renewals.

Your Committee on Conference finds that existing state law does not list all of the licenses, registrations, and fees issued by the Insurance Division of the Department of Commerce and Consumer Affairs, which can create confusion. This measure consolidates those licenses, registrations, and fees under Article 7 of the Insurance Code to increase clarity and transparency. Your Committee on Conference further finds that this measure facilitates the Insurance Division's transition to the electronic processing of insurance licensing fees, certificates, registrations, and renewals to make the process more efficient and accurate and conforms certain penalties to model acts.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1098, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1098, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Misalucha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 83 on S.B. No. 1103

The purpose of this measure is to clarify the role of the Board of Public Accountancy in selecting members to serve on the Board's Peer Review Oversight Committee.

Your Committee on Conference finds that the accounting profession's standards of review can change frequently. As a result of these changes, the duties of the Board of Public Accountancy's Peer Review Oversight Committee are expected to increase

substantially. Your Committee on Conference further finds that it is necessary for the Board to have flexibility and discretion in selecting members who have the ability and aptitude to serve on the Peer Review Oversight Committee. This measure accomplishes these objectives.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1103, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1103, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Misalucha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 84 on S.B. No. 1102

The purpose of this measure is to allow promoters of mixed martial arts events to compensate contestants and their managers in cash.

Your Committee on Conference finds that existing law requires that promoters of mixed martial arts events pay contestants or their managers by check. However, many events undergo last minute changes to the fight card for various reasons. For example, a contestant could fail to make weight, which occurs the day before a contest, or could be injured. When a change occurs at the last minute, promoters often have insufficient time to go to a financial institution to obtain a new cashier's check or certified check, as most events take place on Saturdays when financial institutions are normally closed. This measure provides promoters with the necessary flexibility to compensate contestants and their managers in a timely manner and better mirrors the realities of the event process.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1102, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1102, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Riviere. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 85 on S.B. No. 1096

The purpose of this measure is to make necessary amendments to the Insurance Code to:

- Institute various consumer protections with regard to public adjusters, including requiring contractual terms and disclosures and granting a right to rescind;
- (2) Impose a standard of conduct on various entities;
- (3) Authorize the Insurance Commissioner to waive or modify certain fees by order;
- (4) Reinstate the right to an administrative hearing and appeal from an order;
- (5) Amend the composition of the Hawaii Joint Underwriting Plan Board of Governors;
- (6) Correct references to the electronic payment platform developed by the National Association of Insurance Commissioners to facilitate insurers' electronic payment of premium taxes;
- (7) Mandate electronic filing of insurers' surplus lines reports and payment of surplus lines premium taxes to reduce processing errors and delays;
- (8) Change the specified dates for extensions of certificates for risk retention groups to maintain consistency with other certificates issued by the Insurance Division of the Department of Commerce and Consumer Affairs;
- (9) Lower the minimum nonforfeiture interest rate; and
- (10) Clarify that rewards under wellness programs do not qualify as prohibited rebates.

Your Committee on Conference finds that a number of administrative amendments to Hawaii's insurance code are necessary to provide clarity, enhance consumer protections, and improve the administration and enforcement of regulated entities. Your Conference on Committee further finds that this measure will accomplish these objectives.

- (1) Reverting to the existing statutory language for the definition of the term "complaint" to apply to the entirety of section 431:13-103, Hawaii Revised Statutes, rather than only paragraph (12) of subsection (a); and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1096, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1096, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang, Riviere and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 86 on S.B. No. 320

The purpose of this measure is to:

- Require each tax return preparer to have a valid Preparer Tax Identification Number issued by the Internal Revenue Service
 and to furnish the Preparer's Tax Identification Number on any return or claim for refund prepared for compensation if
 required by the Department of Taxation;
- (2) Establish penalties for failure to comply with the Preparer Tax Identification Number requirements;
- (3) Beginning in calendar year 2022, establish continuing education requirements for tax return preparers;
- (4) Require the Board of Public Accountancy to adopt rules regarding continuing education, including compliance procedures and penalties for violations; and
- (5) Provide that tax return preparers shall not be liable for penalties prior to January 1, 2022.

Your Committee on Conference finds that many tax preparers in the State operate with little oversight or accountability. Your Committee on Conference further finds that requiring all tax return preparers to have a Preparer Tax Identification Number issued by the Internal Revenue Service to prepare a claim for refund or return for compensation will help taxpayers and the Department of Taxation ensure that tax return preparers are held accountable for the returns they prepare. This measure will provide greater consumer protection resources and promote accurate tax administration.

Your Committee on Conference has amended this measure by:

- Deleting language that would have established continuing education requirements for tax return preparers and language that
 would have required the Board of Public Accountancy to adopt continuing education courses for tax return preparers;
- (2) Deleting language that would have exempted tax return preparers from penalties prior to January 1, 2022, in light of the change to the effective date;
- (3) Inserting an effective date of January 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 320, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 320, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kim and Moriwaki. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 87 on S.B. No. 589

The purpose of this measure is to:

- (1) Establish the University of Hawaii Cancer Center in statute as the Cancer Research Center of Hawaii;
- (2) Require the Director of the Cancer Research Center of Hawaii to be appointed by the Board of Regents of the University of Hawaii upon recommendation from the Provost of the University of Hawaii at Manoa and with the concurrence of the President of the University of Hawaii;
- (3) Require the Director of the Cancer Research Center of Hawaii and Dean of the University of Hawaii John A. Burns School of Medicine to report to the Provost of the University of Hawaii at Manoa and coordinate with the President of the University of Hawaii:

- (4) Require funds expended or originating from the University of Hawaii Tuition and Fees Special Fund for the University of Hawaii John A. Burns School of Medicine or the Cancer Research Center of Hawaii to be used for educational purposes only;
- (5) Require funds expended or originating from the Research and Training Revolving Fund for the University of Hawaii John A. Burns School of Medicine or the Cancer Research Center of Hawaii to be used for research and research-related purposes only;
- (6) Allow the University of Hawaii to continue its contribution to research commercialization and economic development by repealing the sunset provision in Act 38, Session Laws of Hawaii 2017 (Act 38);
- (7) Make the University of Hawaii's Innovation and Commercialization Initiative Program permanent by repealing the sunset provision in Act 39, Session Laws of Hawaii 2017 (Act 39);
- (8) Make permanent the authority of the President of the University of Hawaii to act as its chief procurement officer for all procurement contracts under chapter 103D, Hawaii Revised Statutes, by repealing the sunset provision in Act 42, Session Laws of Hawaii 2018 (Act 42); and
- (9) Further efforts to ensure the efficient and effective management of public resources provided to the University of Hawaii John A. Burns School of Medicine and the Cancer Research Center of Hawaii to optimize public benefits.

Your Committee on Conference notes that the University of Hawaii had been proposing the consolidation of the University of Hawaii Cancer Center and University of Hawaii John A. Burns School of Medicine through various business plans, reports, and consultant recommendations since 2014, in order to eliminate operational redundancies and enhance the efficiency and effectiveness of both units. Your Committee on Conference also notes that the University of Hawaii frequently groups different organized research units within a larger administrative structure. For example, the School of Ocean and Earth Science and Technology encompasses several outstanding research units, including the Center for Microbial Oceanography: Research and Education. Furthermore, several other universities with outstanding medical schools have their cancer research programs integrated closely therewith. For example, the Siteman Cancer Center, a comprehensive cancer center that holds an "exceptional" rating from the National Cancer Institute, is a part of the Washington University School of Medicine in St. Louis. The MD Anderson Cancer Center is also a comprehensive cancer center that operates in close affiliation with the McGovern Medical School at the University of Texas Health Science Center. As such, to ensure the efficient and effective management of public resources provided to the Cancer Research Center of Hawaii and University of Hawaii John A. Burns School of Medicine, your Committee on Conference finds it necessary to administratively affiliate the two entities and have their administrative services and infrastructure teams be merged.

Your Committee on Conference further finds it important for the State to continue its support of the University of Hawaii's technology transfer activities pursuant to Act 38 and activities under its Innovation and Commercialization Initiative Program pursuant to Act 39. Your Committee on Conference also finds that these activities must be transparent, and the University of Hawaii must be held accountable therefor. Your Committee on Conference also finds it prudent for the Legislature to continue monitoring the University of Hawaii's activities pursuant to Act 38, Act 39, and Act 42.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting language requiring the Cancer Research Center of Hawaii and the University of Hawaii John A. Burns School of Medicine to be administratively affiliated;
- (2) Inserting language to promote the accountability and transparency of the University of Hawaii's technology transfer activities pursuant to Act 38 and activities under its Innovation and Commercialization Initiative Program pursuant to Act 39;
- (3) Extending the repeal date of Act 38 for two years until June 30, 2024;
- (4) Extending the repeal date of Act 39 for three years until June 30, 2024;
- (5) Extending the repeal date of Act 42 for three years until June 30, 2024;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 589, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 589, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Takayama, Tam, DeCoite and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 88 on S.B. No. 60

The purpose of this measure is to authorize the issuance of special number license plates to commemorate the Polynesian Voyaging Society.

Your Committee on Conference finds that the issuance of special number plates commemorating the Polynesian Voyaging Society is an effective way to support the Polynesian Voyaging Society's efforts to perpetuate the art and science of traditional Polynesian voyaging and the spirit of exploration.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 60, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 60, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Inouye and Shimabukuro. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Gates, B. Kobayashi and Ward. Managers on the part of the House. Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 89 on S.B. No. 57

The purpose of this measure is to:

- (1) Codify certain certification, renewal, and violation processes of vehicle inspectors who conduct vehicle safety inspections under the Department of Transportation;
- (2) Temporarily repeal the requirement for reconstructed vehicles to obtain a special inspection and certification; and
- (3) Require the Department of Transportation to report to the Legislature on the effects of the repeal.

Your Committee on Conference finds that vehicle inspectors serve the important function of ensuring the safety of vehicles on Hawaii's roads. This measure codifies the process by which vehicle inspectors obtain and renew their certification and the penalties for improper inspections.

Your Committee on Conference further finds that the reconstructed vehicle inspection program no longer serves its intended purposes. The purpose of the reconstructed vehicle inspection program is to ensure that modifications to motor vehicles do not result in a significant degradation of highway safety. However, available crash data does not indicate that reconstructed vehicles are more dangerous than other vehicles. As this program is restricted to Oahu and there is no data to support the conclusion that it is effective, this measure temporarily repeals the requirement that reconstructed vehicles be inspected and receive a permit before operating on public highways and requires the Department of Transportation to report back to the Legislature on the effects of the repeal.

Your Committee on Conference has amended this measure by:

- (1) Making the repeal of the reconstructed vehicle inspection program effective from January 1, 2022 to July 31, 2025;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 57, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 57, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker, English, Shimabukuro and Fevella.

Managers on the part of the Senate. Ayes, 5. Noes, none. Excused, none.

Representatives Aquino, Johanson, Cullen, Ilagan and Matsumoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 90 on S.B. No. 1039

The purpose of this measure is to appropriate funds for the payment of claims against the State, its officers, or its employees.

Your Committee on Conference finds that the timely passage of this measure will minimize the State's obligation to pay interest on those amounts

- (1) Providing that the claims against the Agribusiness Development Corporation, Aloha Stadium Authority, Department of the Attorney General, Department of Education, Department of Hawaiian Home Lands, Department of Health, Department of Land and Natural Resources, Department of Public Safety, and Hawaii State Public Charter School Commission shall be paid from general funds;
- (2) Increasing the total general fund appropriation from \$1,263,213.02 to \$1,330,163.78 to settle three additional miscellaneous claims totaling \$66,950.76;

- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1039, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1039, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 91 on S.B. No. 538

The purpose of this measure is to:

- (1) Clarify the meaning of "program or activity receiving state financial assistance"; and
- (2) Exclude cases within the scope of the Individuals with Disabilities Education Act from the jurisdiction of the Hawaii Civil Rights Commission.

Your Committee on Conference finds that when Act 387, Session Laws of Hawaii 1989, was enacted and codified as section 368-1.5, Hawaii Revised Statutes, it was meant to be the state counterpart to section 504 of the federal Rehabilitation Act of 1973, as amended, to provide a state remedy for disability discrimination and an alternative in situations in which federal remedies are also available. Your Committee on Conference further finds that the intent of section 368-1.5, Hawaii Revised Statutes, was originally, and is now, to give the Hawaii Civil Rights Commission jurisdiction over disability discrimination claims, even if protections under section 504 of the Rehabilitation Act, as amended, are available.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 538, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 538, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads and Acasio.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Nakashima, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Okimoto).

Conf. Com. Rep. 92 on S.B. No. 386

The purpose of this measure is to require:

- (1) A family court to make findings, after a hearing and in writing, before a minor can be transferred to an adult jail or lockup or be permitted sight or sound contact with adult offenders, subject to certain circumstances; and
- (2) The circuit court to commit all convicted offenders under eighteen to Hawaii youth correctional facilities in cases where the court deems the sentence more suitable.

Your Committee on Conference finds that when a youth is transferred to the adult criminal justice system, the lifelong consequences of placement in the criminal justice system has a profoundly negative effect on both the youth and our community. Your Committee on Conference further finds that full brain development and maturity is proven to extend beyond teen years, and studies have shown that young adults reach full maturity past the age of twenty-five years. Due to these developmental facts, your Committee on Conference additionally finds that adult facilities do not provide the developmentally appropriate rehabilitative services youth require.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 386, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 386, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads and Acasio.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Ohno, Matayoshi, Tam, Ganaden and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Ohno, Ward).

Conf. Com. Rep. 93 on S.B. No. 225

The purpose of this measure is to:

- (1) Allow the cost of regional infrastructure improvements undertaken by the Hawaii Housing Finance and Development Corporation to be assessed against transit-oriented development projects that specially benefit from the improvements; and
- (2) Require the Hawaii Interagency Council for Transit-Oriented Development to review and make recommendations on applications for dwelling unit revolving fund subaccount funds for infrastructure projects related to transit-oriented development.

Your Committee on Conference finds that the cost of off-site infrastructure is a major barrier to the achievement of transit-oriented development potential statewide. Your Committee on Conference believes that this measure will help to facilitate state investment in needed transit-oriented development infrastructure by allowing the Hawaii Housing Finance and Development Corporation to recover costs to help offset the significant costs of regional infrastructure.

Your Committee on Conference has amended this measure by:

- Clarifying that the Hawaii Housing Finance and Development Corporation shall consider previous contributions by project owners to infrastructure improvements when assessing costs against transit-oriented development projects;
- (2) Exempting the stadium development district from assessments made under this measure;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 225, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 225, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keith-Agaran and Misalucha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakamura, Aquino, Tarnas, Sayama, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 94 on S.B. No. 159

The purpose of this measure is to:

- (1) Make an application for voter registration part of the state identification card or driver's license application process;
- (2) Require applicants to choose to be registered to vote or make changes to the applicant's voter registration information as part of the application for a state identification card or driver's license; and
- (3) Require the sharing of certain information among the counties, Department of Transportation, election personnel, and online voter registration system.

Your Committee on Conference finds that increased voter engagement and participation is beneficial to the civic health of the State, and that increased voter registration is a vital step in this process. Your Committee on Conference further finds that the electronic sharing of data will help ensure the accuracy of voter-registration polls and compliance with the National Voter Registration Act of 1993 and Help America Vote Act of 2002.

Your Committee on Conference has amended this measure by:

- Providing for an applicant for a driver's license or identification card to have automatically updated any changes to their name and address for voter registration purposes unless the applicant declines;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 159, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 159, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Cullen and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 95 on S.B. No. 630

The purpose of this measure is to establish that every judgment for child support is enforceable until paid in full.

Your Committee on Conference finds that the costs associated with raising a child are extensive and persist for many years.

Your Committee on Conference further finds that, under existing law, child support judgments are considered paid and discharged when the child turns thirty-three years old or when the latest period provided in section 657-5, Hawaii Revised Statutes, expires, whichever is later. This measure will require that child support be paid in full to be considered discharged.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 630, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 630, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Nakashima, Eli, LoPresti and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 96 on S.B. No. 828

The purpose of this measure is to:

- (1) Grant exclusive original jurisdiction in matters of divorce to the family court of the circuit in which an applicant is domiciled at the time the application is filed; and
- (2) Repeal the requirement that a person be domiciled or physically present in the State for a continuous period of at least six months before applying for a divorce.

Your Committee on Conference finds that existing law often places unnecessary burdens on persons seeking divorce. This measure clarifies the jurisdiction of the family court and enables individuals to complete a divorce in the State even if they are unable to be physically present in the State for a continuous period of time before filing.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 828, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 828, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Cullen, Takumi and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 97 on S.B. No. 697

The purpose of this measure is to designate January of each year as "Kalaupapa Month".

Your Committee on Conference finds that in 1865, the Kingdom of Hawaii passed "An Act to Prevent the Spread of Leprosy" and, over time, forcibly removed an estimated eight thousand individuals suspected of having leprosy to a colony established on eight hundred acres of land on the Kalaupapa peninsula of Moloka'i. Your Committee on Conference further finds that many important events in the history of Kalaupapa occurred in January. This measure recognizes the contributions and sacrifices of the residents of Kalaupapa by establishing January of each year as "Kalaupapa Month".

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 697, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 697, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 98 on S.B. No. 791

The purpose and intent of this measure is to amend provisions regarding the designation, impoundment, and disposal of unauthorized, abandoned, grounded, and derelict vessels on state property or in the waters of the State to more quickly address these vessels and relevant proceedings.

Your Committee on Conference finds that existing law requires the Department of Land and Natural Resources (DLNR) to provide a seventy-two-hour notice of intent to impound an unauthorized, abandoned, grounded, or derelict vessel before being able to take control of the vessel. However, in some instances, the condition of the vessel rapidly deteriorates, requiring additional labor, increased risks to health and public safety, and additional costs to remove and impound the vessel. This measure shortens the time-period for the DLNR to respond and remove abandoned vessels to help protect reefs and maintain ocean health.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 791, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 791, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki, Lee and Riviere.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Matayoshi, Branco, D. Kobayashi and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 99 on S.B. No. 1162

The purpose of this measure is to update the Forest Stewardship Program (Program) administered by the Board of Land and Natural Resources by:

- (1) Clarifying the purpose of the Program;
- Expanding the areas of approved management activities and practices that are eligible for cost-share assistance under the Program;
- (3) Increasing the limit for payments from the Forest Stewardship Fund (Fund) for development of approved management plans and allowing payments from the Fund for implementation of approved management plans; and
- (4) Amending requirements for applicants to receive Program funds.

Your Committee on Conference finds that over sixty percent of Hawaii's forested areas are privately owned and managed. The Program provides technical and financial assistance to private landowners in protecting, restoring, and managing Hawaii's forested lands, which in turn helps protect watersheds, forest resources, forest products, fish and wildlife habitats, rare and endangered plants, and native vegetation. This measure modifies the Program's qualification requirements to increase eligibility for private forest managers, increases funds available for the management of private forests, and provides protections for native vegetation.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1162, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1162, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, English and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Tarnas, Lowen, Branco, Kong and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 100 on S.B. No. 932

The purpose of this measure is to:

- (1) Establish and appropriate funds out of the clean energy and energy efficiency revolving loan fund to provide financial assistance for investments in a broad range of clean energy technologies;
- (2) Authorize monies in the Hawaii green infrastructure special fund to be used to finance the option to purchase solar energy systems and other clean energy equipment, including the purchase or lease of electric vehicles and installation of electric vehicle charging systems; and

(3) Repeal the building energy efficiency revolving loan fund.

Your Committee on Conference finds that significant investment in clean energy technology and infrastructure is necessary to achieve the State's goals of energy self-sufficiency, energy security, and energy diversification. However, the unavailability of flexible financing and low-cost capital are significant barriers to clean energy adoption. Your Committee on Conference believes that this measure will provide the Hawaii green infrastructure authority with a variety of financing options to support investment in and implementation of clean energy technology and infrastructure in the State.

Your Committee on Conference has amended this measure by:

- Clarifying that the Hawaii green infrastructure's existing loan fund is capitalized by the issuance of the green energy market securitization bonds to distinguish it from the clean energy and energy efficiency revolving fund established by this measure, which is capitalized with federal and other funding sources;
- (2) Inserting an appropriation in the amount of \$50,000,000 out of the clean energy and energy efficiency revolving loan fund for the purposes of this measure;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 932, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 932, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, Kidani, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Misalucha).

Representatives Lowen, Johanson, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 101 on S.B. No. 936

The purpose of this measure is to require:

- (1) The Department of Health to disseminate information regarding seizure first aid to employers, employees, and the general public:
- (2) Employers to post information on seizure first aid provided by the Department of Health in a prominent position in the employer's workplace; and
- (3) The Department of Health to adopt rules to implement this measure.

Your Committee on Conference finds that one in ten persons may experience a seizure at some point in their lifetime. Since a seizure can happen to any person, in any place, at any time, your Committee on Conference finds it imperative that members of the public are prepared to respond appropriately and effectively to a person experiencing a seizure. This measure ensures that information on rendering seizure first aid is provided to employers, employees, and the general public.

Your Committee on Conference notes the concerns raised by the Department of Health with regard to the implementation of this

Accordingly, your Committee on Conference has amended this measure by:

- (1) Making discretionary, rather than mandatory, the dissemination of information on seizure first aid by the Department of Health:
- (2) Making discretionary, rather than mandatory, the employers' dissemination of information on seizure first aid provided by the Department of Health;
- (3) Deleting the requirement that the Department of Health adopt rules to implement this measure;
- (4) Inserting an effective date of July 1, 2021, and a repeal date of June 30, 2026; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 936, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 936, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Keohokalole.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Johanson, Sayama, Kong and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 102 on S.B. No. 772

The purpose of this measure is to:

- (1) Authorize the issuance of special number license plates to benefit forest and ocean conservation; and
- (2) Increase the initial application and renewal fees for special number license plates from \$25 to an unspecified amount.

Your Committee on Conference finds that Hawaii's forests, beaches, and nearshore waters are culturally and naturally unique and vital to maintaining the health and well-being of Hawaii's residents. Providing dedicated funding sources for conservation through the issuance of special number license plates will help to ensure that Hawaii's forests, beaches, and nearshore waters are adequately managed and maintained. Your Committee on Conference notes that the islands of Hawaii are home to many unique ecosystems beyond just beaches and forests and find it appropriate to dedicate funding from the issuance of special number plates to environmental conservation generally instead of specifically to forest and ocean conservation.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Replacing "forest conservation" and "ocean conservation" with "environmental conservation" throughout the measure;
- (2) Specifying that the special number plate design shall be visually attractive and highlight Hawaii's environment, native species, or both:
- (3) Providing that the fundraising fee is to be set by the Department of Land and Natural Resources;
- (4) Depositing fees from the issuance of the special number plates into the conservation and resources enforcement special fund, rather than the beach restoration special fund and the forest stewardship special fund;
- (5) Setting the initial application and subsequent annual renewal fees for special number plates at \$60, beginning January 1, 2022;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 772, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 772, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Inouye and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Branco, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 103 on S.B. No. 384

The purpose of this measure is to clarify that:

- (1) Filing fees for tax appeals are nonrefundable; and
- (2) No deposits are required for tax appeals.

Your Committee on Conference finds that this measure is a housekeeping measure, which amends certain sections of Hawaii Revised Statutes to align with the intent of Act 152, Session Laws of Hawaii 1997, by adopting existing rules regarding court filing fees

Your Committee on Conference has amended this measure by making it effective on January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 384, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 384, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English and Taniguchi.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Matayoshi, Marten, D. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 104 on S.B. No. 1202

The purpose of this measure is to make various technical amendments to the fuel tax law, liquor tax law, and cigarette tax and tobacco tax law under the jurisdiction of the Department of Taxation.

Your Committee on Conference recognizes the Department of Taxation recently completed a review of the Hawaii Revised Statutes chapters that are being amended by this measure. Your Committee on Conference believes that this measure will clarify certain state tax laws and allow for more effective administration of those laws.

Your Committee on Conference has amended this measure by:

- Clarifying that statements filed concerning the number of gallons of fuel refined, manufactured, compounded, imported, sold
 or used by the distributor or person are public records;
- (2) Changing the effective date to July 1, 2021; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1202, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1202, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English and Taniguchi.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Quinlan, Johanson, Holt, Kong and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 105 on S.B. No. 1203

The purpose of this measure is to make nonsubstantive changes to Title 14, Hawaii Revised Statutes, for clarity and to delete obsolete provisions.

Your Committee on Conference finds that it is necessary to amend and repeal various provisions of the Hawaii Revised Statutes for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions. This measure adds clarity to the law and allows for more effective administration.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1203, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1203, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, English and Kanuha.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Ouinlan, Holt and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 106 on S.B. No. 400

The purpose of this measure is to clarify that increased fines may apply if a candidate committee or noncandidate committee fails to timely file the preliminary primary or preliminary general report due in an unspecified number of calendar days before a primary or general election.

Your Committee on Conference finds that the Campaign Spending Commission requires candidate and noncandidate committees to file a series of reports prior to an election and the language establishing these reporting requirements is periodically in need of clarifying updates as the requirements are refined and amended. This measure will improve transparency and accountability in the election system by incentivizing, through the potential for increased fines, the timely filing of reports by candidate committees and noncandidate committees to the Campaign Spending Commission.

Your Committee on Conference has amended this measure by:

- (1) Specifying that preliminary primary and preliminary general reports are due ten calendar days before a primary or general election; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 400, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 400, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Matayoshi, Wildberger, Todd and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 107 on S.B. No. 402

The purpose of this measure is to:

- (1) Provide that expenditures by candidate committees may be made to reimburse other individuals for expenditures advanced by those individuals, in addition to those advanced by the candidate; and
- (2) Delete candidate reimbursements from the category of expenditures that noncandidate committees must itemize in their reports, since noncandidate committees are not allowed to receive or make loans under existing law.

Your Committee on Conference finds that under existing law, only candidate reimbursements need to be itemized in reports made to the Campaign Spending Commission. Your Committee on Conference further finds that in many instances, individuals other than the candidate are also being reimbursed for campaign costs advanced by the individuals. This measure requires that reimbursements made to other individuals be itemized as well, which will provide more transparency in how candidate committees are spending their funds.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 402, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 402, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Acasio and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nakashima, Wildberger and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 108 on S.B. No. 405

The purpose of this measure is to:

- (1) Provide that excess contributions by nonresident contributors shall escheat to the Hawaii Election Campaign Fund if not returned to the contributor within thirty days of the end of the election period; and
- (2) Allow the candidate, candidate committee, or noncandidate committee to choose which excess contributions by nonresident contributors to return.

Your Committee on Conference finds that the Hawaii Election Campaign Fund was established to be used for partial public financing of campaigns of the State and its political subdivisions, but that demand for financing often outstrips available resources. Providing that excess contributions by nonresident contributors shall escheat to the fund if not returned to the contributor within thirty days compliments existing law and will help ensure adequate funding for the partial public financing program. This measure will provide an additional source of income for the Hawaii Election Campaign Fund and allow candidates to more readily use available public financing through the Fund.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 405, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 405, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Matayoshi, Wildberger, Takumi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 109 on S.B. No. 1402

The purpose of this measure is to require the Department of Transportation to create motor vehicle, bicycle, and pedestrian highway and pathway networks throughout each island.

Your Committee on Conference finds that Hawaii's ground transportation system has historically been built as a car-centric system with little attention given to alternative forms of transportation. This has raised the cost of living, impacted quality of life, and resulted in some of the highest transportation-related fatality rates in the nation, especially in some of the lower-income communities in the State. Simply adding lanes to reduce traffic does not address Hawaii's most pressing concerns regarding traffic, safety, and health. The establishment of separate motor vehicle, bicycle, and pedestrian highway and pathway networks throughout the State is an

effective way to decrease the public's reliance on personal motor vehicles, reduce the cost of transportation, and improve public health. Accordingly, this measure will modernize Hawaii's ground transportation infrastructure by providing additional metrics, considerations, and assistance to the Department of Transportation in order to reduce transportation costs, minimize traffic injuries and fatalities, improve public health and quality of life, and address greenhouse gas emissions.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1402, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1402, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Moriwaki and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Ilagan, Hashimoto and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 110 on H.B. No. 553

The purpose of this measure is to protect sharks while not criminalizing the accidental capture and release of sharks that may be captured while fishing for other species as allowed by statute or rule by:

- Establishing an offense of intentionally or knowingly capturing, entangling, or killing a shark in state marine waters and providing for criminal and civil penalties and administrative fines, fees, and costs;
- (2) Providing for certain exemptions to the offense of intentionally or knowingly capturing, entangling, or killing a shark in state marine waters; and
- (3) Allowing the Department of Land and Natural Resources to adopt rules to, at minimum:
 - (A) Ensure that the incidental capture and release of sharks while targeting other species is not a violation;
 - (B) Prevent the wanton waste of sharks; and
 - (C) Limit gear, such as gill nets, in areas identified as shark nursery habitats.

Your Committee on Conference has amended this measure by:

- Exempting a person who captures or kills a shark pursuant to a permit issued by the Department of Land and Natural Resources from the criminal and civil penalties and administrative fines, fees, and costs established;
- (2) Authorizing the Department of Land and Natural Resources to issue a non-commercial permit for the take of sharks, subject to permit conditions that include Native Hawaiian cultural protocol, size and species restrictions, and a prohibition on species designated as endangered or threatened; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 553, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 553, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye, Rhoads and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (English).

Representatives Tarnas, Lowen, Cullen and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 111 on H.B. No. 1019

The purpose of this measure is to conserve, restore, and enhance Hawaii's marine resources by:

- (1) Temporarily establishing the Ocean Stewardship Special Fund; and
- (2) Establishing the Ocean Stewardship User Fee, to be collected beginning on January 1, 2024.

Your Committee on Conference has amended this measure by:

- (1) Changing the sunset date of the Ocean Stewardship Special Fund from June 30, 2030, to January 1, 2029; and
- (2) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1019, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1019, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 112 on H.B. No. 834

The purpose of this measure is to require the Department of Land and Natural Resources, in collaboration with the County of Hawaii, to conduct site surveys on the island of Hawaii to identify the most suitable locations for new black cinder cone quarries.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 for fiscal year 2021-2022;
- (2) Changing the source of funding to the funds received by the State of Hawaii from the American Rescue Plan Act of 2021, Public Law 117-2 (Section 9901); and
- (3) Changing its effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 834, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 834, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha and Misalucha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Branco and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 113 on H.B. No. 1276

The purpose of this measure is to:

- (1) Grant the Board of Land and Natural Resources greater flexibility by authorizing it to adopt, amend, and repeal administrative fee schedules for all user fees, including camping, lodging, parking, group use, and special use activities, through formal board action at a publicly noticed meeting rather than through administrative rulemaking; and
- (2) Appropriate funds for administration of the State Parks Program.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation section;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1276, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1276, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki and Misalucha.

Managers on the part of the Senate.

Conf. Com. Rep. 114 on H.B. No. 863

The purpose of this measure is to authorize the issuance of general obligation bonds for the forest stewardship program to build and expand the facilities of state tree nurseries.

- (1) Inserting an appropriation amount of \$750,000 for fiscal year 2021-2022 only;
- (2) Changing the source of funding to the funds received by the State of Hawaii from the American Rescue Plan Act of 2021, Public Law 117-2 (Section 9901);

- (3) Changing its effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 863, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 863, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran and Riviere.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 115 on H.B. No. 1149

The purpose of this measure is to restructure the manner in which the State handles certain land use and planning matters by:

- (1) Exempting the Land Use Commission from certain provisions of section 26-35, Hawaii Revised Statutes, pertaining to the administrative supervision of boards and commissions;
- (2) Administratively attaching the Land Use Commission to the Office of Planning; and
- (3) Maintaining the independence of the Land Use Commission on matters coming before it to which the Office of Planning is a party by requiring the establishment of and adherence to procedures and safeguards to avoid actual or perceived conflicts of interest that may otherwise arise in the Land Use Commission's proceedings.

Your Committee on Conference has amended this measure by:

- (1) Renaming the newly restructured Office of Planning as the Office of Planning and Sustainable Development (Office) and making conforming amendments;
- (2) Authorizing, rather than requiring, the Office to undertake a boundary review of the classification and districting of all lands in the State;
- (3) If the Office undertakes a boundary review, requiring the Office to submit a report of its findings to the Governor, Legislature, and appropriate state and county agencies;
- (4) Requiring the Office to assist the Legislature and state and county agencies in maintaining an overall framework to guide the development of the State;
- (5) Authorizing, rather than requiring, the Director of the Office to retain staff in conformity with chapter 76, Hawaii Revised Statutes;
- (6) Authorizing the Director of the Office to retain staff without regard to chapter 76, Hawaii Revised Statutes;
- (7) Requiring the Office to gather, analyze, and provide information to the Legislature and state and county agencies to assist in the overall analysis and formulation of state policies and strategies;
- (8) Clarifying and strengthening the provisions that may prevent conflicts of interest in proceedings before the Land Use Commission; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1149, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1149, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Luke and McDermott.

Managers on the part of the House.

Ayes, 3; Ayes with Reservations (McDermott). Noes, none. Excused, none.

Conf. Com. Rep. 116 on H.B. No. 1352

The purpose of this measure is to require the Office of Planning to submit a report to the Legislature containing the following:

(1) An inventory of the lands within the State that are leased to, or under the control of, the federal government, to be prepared by the Department of Land and Natural Resources by a date determined by the Office of Planning;

- (2) Any known contaminants or environmental hazards on the lands based on past environmental studies, to be prepared by the Department of Health in consultation with the Environmental Protection Agency, by a date determined by the Office of Planning;
- (3) Input from all executive branch departments and agencies and the Office of Hawaiian Affairs on remediation and restoration needs and proposed alternative uses for the lands; and
- (4) The Office of Planning's findings and recommendations, including any proposed legislation, based on the information above.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1352, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1352, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Nishihara, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Ohno, Tarnas, Marten, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 117 on H.B. No. 1176

The purpose of this measure is to:

- (1) Authorize the Governor to designate the Department of Land and Natural Resources to administer or enter into agreements to administer a Green Job Youth Corps Program to help address the unemployment impacts of the COVID-19 pandemic and support work and training opportunities for young adults and economic diversification;
- Require the Department of Land and Natural Resources to submit a progress report to the Legislature prior to the convening of the Regular Session of 2022; and
- (3) Appropriate funds.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Green Job Youth Corps Program shall prioritize work and training opportunities for young adults between ages twenty and forty, rather than thirty years or younger;
- (2) Deleting language that would have appropriated general funds for the Green Job Youth Corps Program;
- (3) Appropriating \$5,000,000 out of the funds received by the State from the American Rescue Plan Act, Public Law 117-2, section 9901, for salaries only for up to one thousand Green Job Youth Corps Program participant positions;
- (4) Lapsing all unexpended and unencumbered balances of the appropriation on November 1, 2021;
- (5) Changing the effective date to July 1, 2021; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1176, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1176, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Holt and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 118 on H.B. No. 1191

The purpose of this measure is to:

- (1) Establish the Broadband Infrastructure Grant Program to award grants to applicants to extend deployment of infrastructure used to provide broadband service to unserved and underserved areas of the State;
- (2) Amend the Hawaii Technology Loan Revolving Fund to rename it the Hawaii Broadband Infrastructure Fund, change the types of funds deposited into the fund, and increase the expenditure ceiling; and
- (3) Authorize the issuance of general obligation bonds for the Broadband Infrastructure Grant Program.

- (1) Clarifying the eligibility requirements for an applicant under the Broadband Infrastructure Grant Program by:
 - (A) Requiring an applicant to commit to paying a minimum of sixty percent, rather than eighty percent, of the total project costs out of the applicant's own funds;
 - (B) Removing references to the State's portion of the total project costs; and
 - (C) Removing the requirement for an applicant to attest that the project does not jeopardize the eligibility of federal funding;
- (2) Renaming the Hawaii Technology Loan Revolving Fund the Hawaii Broadband Infrastructure Special Fund, rather than the Hawaii Broadband Infrastructure Fund;
- (3) Deleting language that would have allowed funds received from a county to be deposited into the Hawaii Broadband Infrastructure Special Fund;
- (4) Deleting language that would have authorized the issuance of general obligation bonds for the Broadband Infrastructure Grant Program;
- (5) Appropriating \$5,000,000 out of the funds received by the State from the American Rescue Plan Act of 2021, Public Law 117-2 (Section 9901), for the Broadband Infrastructure Grant Program;
- (6) Establishing the Hawaii Broadband and Digital Equity Office within the Department of Business, Economic Development, and Tourism;
- (7) Requiring the Governor, upon the advice and consent of the Senate, to appoint a Strategic Broadband Coordinator to head the Hawaii Broadband and Digital Equity Office;
- (8) Changing the effective date to July 1, 2021; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1191, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1191, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani and Misalucha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Johanson, Cullen, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (D. Kobayashi).

Conf. Com. Rep. 119 on H.B. No. 561

The purpose of this measure is to:

- Require the Public Utilities Commission to make determinations of the reasonableness of the costs pertaining to fossil fuel or biomass sourced electricity or gas utility system capital improvements and operations and to consider the effect of the State's reliance on fossil fuels and biomass based on certain factors;
- (2) Require the Public Utilities Commission to determine on an individual basis whether an analysis is necessary for proceedings involving water, wastewater, or telecommunications providers; and
- (3) Exempt the Public Utilities Commission from the requirement to conduct an analysis for a utility's routine system replacements or determinations that do not pertain to capital improvements or operations.

Your Committee on Conference has amended this measure by:

- (1) Deleting the preamble;
- (2) Clarifying that the Public Utilities Commission shall make determinations of the reasonableness of the costs pertaining to electric or gas, and deleting "fossil fuel or biomass sourced", utility system capital improvements and operations in its consideration to reduce the State's reliance on fossil fuels;
- (3) Deleting all references to "and biomass";
- (4) Replacing "overground" with "underground" line determinations; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 561, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 561, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Dela Cruz and Misalucha.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Kitagawa, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 120 on H.B. No. 552

The purpose of this measure is to:

- (1) Establish clean ground transportation goals for state agencies on a staggered basis until achieving a one hundred percent light-duty motor vehicle clean fleet by December 31, 2030;
- (2) Establish procurement policy requirements for medium- and heavy-duty motor vehicles;
- (3) Allow state and county agencies to include trees and plants having lifespans longer than twenty years as a part of capital improvement projects;
- (4) Require that all new light-duty passenger vehicles purchased for the State's fleet are zero-emission vehicles and permit the Department of Accounting and General Services to authorize an exemption for new fleet vehicle procurement;
- (5) Conform various definitions to the Code of Federal Regulations;
- (6) Provide for electric vehicle charging and clean ground transportation goals in the State's planning and budget preparation and program implementation goals; and
- (7) Require the Chief Energy Officer to lead the efforts to incorporate energy efficiency, renewable energy, energy resiliency, and clean transportation to reduce costs and achieve clean energy goals across all public facilities.

Your Committee on Conference has amended this measure by:

- (1) Amending the clean ground transportation goals for the State's fleet to the following:
 - (A) One hundred percent of light-duty motor vehicles that are passenger cars to be zero-emission vehicles by December 31, 2030; and
 - (B) One hundred percent of light-duty motor vehicles to be zero-emission vehicles by December 31, 2035;
- (2) Deleting language that would have allowed state and county agencies to include trees and plants having lifespans longer than twenty years as a part of capital improvement projects;
- (3) Deleting language that would have provided for electric vehicle charging and clean ground transportation goals in the State's planning and budget preparation and program implementation goals;
- (4) Authorizing the Department of Accounting and General Services to approve state fleet acquisition, including:
 - (A) Establishing one hundred percent zero-emission vehicle requirements for light-duty motor vehicles that are passenger cars and light-duty motor vehicles that are multipurpose passenger vehicles and trucks by January 1, 2022, and January 1, 2030, respectively; and
 - (B) Authorizing the Comptroller to exempt new fleet vehicle purchases from zero-emission requirements for various reasons;
- (5) Requiring the Department of Transportation, in collaboration with the Hawaii State Energy Office, to develop strategies to transition all light-duty motor vehicles in the State's fleets to meet its clean ground transportation goals;
- (6) Clarifying provisions relating to the procurement policy for public agencies purchasing or leasing light-, medium-, and heavy-duty motor vehicles, including the priority for selecting vehicles and various related definitions;
- (7) Specifying that vehicles acquired from another state agency and vehicles excluded from the procurement policy requirements described in paragraph (6) shall be included in the calculation of the State's clean ground transportation goals;
- (8) Clarifying that with regard to motor vehicles and transportation fuel, each state agency shall include:
 - (A) Efficient utilization of renewable energy for charging electric vehicles in its promotion of efficient operation of vehicles;
 and
 - (B) The collection and maintenance of hourly charging data by electric vehicle and electric vehicle charging system;
- (9) Deleting language that would have required the Hawaii State Energy Office to lead the efforts to incorporate energy efficiency, renewable energy, energy resiliency, and clean transportation to reduce costs and achieve clean energy goals across all public facilities;
- (10) Changing the effective date to July 1, 2021; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 552, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 552, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Lee and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Aquino, Johanson, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 121 on H.B. No. 73

The purpose of this measure is to amend the definition of "emergency worker" in the Penal Code to include Hawaii state on-scene coordinators and telecommunications dispatchers.

Your Committee on Conference has amended this measure by:

- (1) Deleting its contents and inserting language that requires the Department of Human Resources Development to:
 - (A) Review the classification and compensation schedules for telephone and emergency dispatchers and similar employees;
 and
 - (B) Submit a report to the Legislature recommending modifications to those classification and compensation schedules;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 73, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 73, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Holt, D. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 122 on H.B. No. 357

The purpose of this measure is to establish the statute of limitations for all claims against the State founded upon article I, section 20, of the Hawaii State Constitution, regarding eminent domain, as two years.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 357, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 357, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Yamashita, D. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 123 on H.B. No. 1311

The purpose of this measure is to address the shortage of affordable rental housing on Maui and maintain the viability of the Keawe Street Apartments affordable housing project by:

- (1) Removing the 2022 deadline for completion of the Leialii affordable housing project; and
- (2) Specifying that the developer of the Keawe Street Apartments affordable housing project shall be responsible for all associated costs of the archaeological inventory survey for the footprint of the Keawe Street apartments affordable housing project but shall not be responsible for the cost of the archaeological inventory survey for the entire Villages of Leialii master planned community.

- (1) Reverting to the existing \$37,000,000 appropriation authorized by Act 98, Session Laws of Hawaii 2019;
- (2) Requiring the Villages of Leialii affordable housing project to comply with the requirements of the Historic Preservation Law, as funding is appropriated for each portion of the Villages of Leialii affordable housing project;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1311, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1311, H.D. 2, S.D. 2, C.D. 1.

Senators Chang, Moriwaki, Rhoads, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

Representatives Nakamura, McKelvey, Yamashita, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 124 on H.B. No. 80

The purpose of this measure is to amend the Low-Income Housing Tax Credit by:

- Allowing the tax credit to be allocated by a partnership or limited liability company in any manner agreed to by the partners or members, regardless of whether an individual or entity receiving the tax credit is deemed to be a partner or member for federal income tax purposes;
- (2) Requiring claims for the tax credit to include an Internal Revenue Service Form 8609;
- (3) Specifying the application of certain tax provisions with respect to qualified low-income buildings placed in service after December 31, 2020; and
- (4) Extending the sunset date of Act 129, Session Laws of Hawaii 2016, from December 31, 2021, to December 31, 2027.

Your Committee on Conference has amended this measure by:

- (1) Deleting language stating that the intent of the measure is not to jeopardize the receipt of any federal aid;
- (2) Deleting severability language;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 80, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 80, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 126 on H.B. No. 824

The purpose of this measure is to require any express carrier company, certain common or contract carriers, or any other person that transports liquor from outside the State for delivery in the State, to prepare and file a monthly report with the liquor commission or liquor control adjudication board of each county.

- (1) Changing the effective date to July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 824, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 824, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Wakai and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Johanson, Ilagan, Takumi and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 127 on H.B. No. 766

The purpose of this measure is to amend Act 30, Session Laws of Hawaii 2020, to increase the funding appropriated from the State Highway Fund for the Photo Red Light Imaging Detector Systems pilot program.

Your Committee on Conference has amended this measure by making it take effect retroactively on June 30, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 766, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 766, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 128 on S.B. No. 765

The purpose of this measure is to:

- (1) Establish sentencing guidelines for highly intoxicated drivers;
- (2) Require that ignition interlock devices be installed on all vehicles operated by a person upon license revocation;
- (3) Increase the license revocation period and extend the applicable lookback periods; and
- (4) Amend the penalties for operating a vehicle under the influence of an intoxicant.

Your Committee on Conference finds that the habitual highly intoxicated driver poses a substantial risk to others on the road. Despite their repeated arrests and convictions, these drivers continue to drive while intoxicated. This measure aims to strengthen the current law regarding operating a vehicle under the influence of an intoxicant.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 765, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 765, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads and English.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (English).

Representatives Nakashima, Cullen, Takumi and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 129 on S.B. No. 934

The purpose of this measure is to exempt hydrogen fuel products from petroleum product measurement requirements.

Your Committee on Conference finds that hydrogen has an important role to play in Hawaii's energy portfolio as a carbon-free energy storage mechanism, potential means of providing grid support, and provider of pollution-free fuel for both electricity and transportation. Your Committee on Conference further finds that the definition of fuel is broad and does not exclude hydrogen, which implies that hydrogen must be sold on the basis of measure. Currently, the State has no means to measure and certify a hydrogen dispenser. This measure will assist the State in utilizing other forms of renewable fuels by explicitly exempting hydrogen fuels from measurement standards relating to fuel.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 934, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 934, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai and Rhoads. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Lowen, Kitagawa, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 130 on S.B. No. 242

The purpose of this measure is to:

- (1) Establish the computer science special fund until June 30,2026;
- (2) Require that public and charter schools offer education in computer science; and
- (3) Require the Department of Education to submit to the Board of Education and Legislature annual reports.

Your Committee on Conference finds that the economic disruption caused by the global coronavirus disease 2019 (COVID-19) pandemic has illustrated a need to diversify Hawaii's economy beyond tourism and has highlighted the importance of digital literacy. Your Committee on Conference further finds that the economic disruption caused by the COVID-19 pandemic has increased the focus on computer science education as a key driver of both economic growth and digital literacy. A computer science job pipeline can help to diversify Hawaii's economy away from tourism and into cybersecurity, green energy, robotics, and other technology-based fields. This measure requires schools to offer education in computer science, which will provide students with a knowledge in technology so that they may capitalize on growing opportunities in the computer science industry in the future.

Your Committee on Conference has amended this measure by:

- (1) Removing language that establishes the computer science special fund;
- (2) Changing the effective date to July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 242, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 242, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Perruso, Ganaden, Gates and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 131 on S.B. No. 222

The purpose of this measure is to, beginning July 1, 2022, require the Comptroller's annual report to the Governor and Legislature to include a list of all accounts closed by the Comptroller during the immediately preceding fiscal year and a list of accounts that remain open but that are serving a lapsed program or initiative.

Your Committee on Conference finds that although the Department of Accounting and General Services reports on closed accounts, departments do not always report accounts that are open but inactive and are serving lapsed funds.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 222, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 222, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai and Kanuha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Wildberger and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 132 on S.B. No. 332

The purpose of this measure is to temporarily amend for one year the powers and duties of the Comptroller to reduce the preaudit requirements of all proposed payments to expenditures.

Your Committee on Conference finds that the State's forty-five-year-old accounting software system is a dated processing system that requires substantial human intervention and paper processing because it was not designed with automated checks and balances embedded in the programming methodology. Your Committee on Conference further finds that updating the preaudit process for proposed payments can help the State provide more effective, efficient, and expeditious services to the public. Your Committee on Conference notes that the new Financial Management System project, which will replace the outdated manual process, will also help preserve and strengthen the integrity of the Comptroller's pre-audits and post-audits.

Your Committee on Conference has amended this measure by:

- (1) Allowing the Comptroller to preaudit proposed payments that are less than \$100,000;
- (2) Requiring the Comptroller to preaudit proposed payments of expenditures of \$100,000 or more;
- (3) Changing the effective date to July 1, 2021 and inserting a sunset date of July 1, 2024; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 332, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 332, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Wildberger and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 133 on S.B. No. 939

The purpose of this measure is to establish June 19 of each year as Juneteenth in recognition of the history and legacy of slavery in the United States and in honor of the significant roles and contributions of African Americans in the history of the United States.

Your Committee on Conference finds that Hawaii is one of only three states that have not recognized Juneteenth as a state holiday or special day of observance. Juneteenth, also known as Freedom Day, was the day in 1865 that Union soldiers rode into Galveston, Texas, declaring the end of the Civil War and that all slaves were free. The holiday is a celebration of African American freedom and achievement, encouraging continuous self-development and respect for all cultures. Your Committee on Conference further finds that as a state that prides itself on diversity and inclusivity, it is long overdue for the State to fully live out the Aloha spirit and stand with the forty-six states that have chosen to make Juneteenth an annual day of remembrance and celebration.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 939, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 939, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai and Taniguchi. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Matayoshi, B. Kobayashi, Tokioka and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 134 on S.B. No. 1015

The purpose of this measure is to require the Comptroller to perform additional office space management duties for state agencies occupying facilities that are managed by the Department of Accounting and General Services.

Your Committee on Conference finds that remote teleworking during the coronavirus disease 2019 pandemic has enabled the State to make better use of its limited resources, including office space, furnishing, equipment, electrical and data requirements, storage space, and other traditional needs of employees who work at state facilities. Your Committee on Conference further finds that the Department of Accounting and General Services (DAGS) manages roughly one percent of the entire state building inventory.

- (1) Expanding the Comptroller's authority to manage spaces in facilities to include those that are not managed by DAGS;
- (2) Decreasing the total square footage of state-leased space for the Comptroller to reduce before July 1, 2026, from twenty-five to ten percent;

- (3) Requiring the Comptroller to submit the first annual progress report to the Legislature prior to the Regular Session of 2022;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1015, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1015, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kidani and Kanuha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Eli and Ward. Managers on the part of the House. Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 135 on S.B. No. 1204

The purpose of this measure is to:

- (1) Replace the four district taxation boards of review with a single statewide Taxation Board of Review consisting of up to ten residents to be appointed by the Governor;
- Authorize the Governor to appoint temporary board members during regular members' temporary absence from the State, recusal, or illness;
- (3) Require a quorum of at least three board members for any meeting or proceeding;
- (4) Authorize taxpayers and others appearing before the Taxation Board of Review to participate using cost-efficient means, such as teleconferencing;
- (5) Require all decisions of the Taxation Board of Review to be reduced to writing and state the Board's findings of fact and conclusions of law separately; and
- (6) Repeal the requirement that the assessor prepare the notice of appeal upon the request of the taxpayer.

Your Committee on Conference finds that the laws regarding the boards of review for each taxation district have inadvertently rendered the taxation appeal process practically inoperable. Your Committee on Conference further finds that replacing the four district boards of review with a single, statewide Taxation Board of Review will address and solve the existing boards' current inability to achieve regular and consistent quorum and increase the limited pool of candidates who are qualified and willing to serve.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1204, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1204, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran and Rhoads. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Quinlan, Matayoshi, Holt and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 136 on S.B. No. 1329

The purpose of this measure is to amend the Hawaii Public Procurement Code to:

- (1) Require the Chief Procurement Officer or designee to address protests as expeditiously as possible;
- (2) Establish time limits to resolve protests to the awards of competitive sealed proposal contracts and procurements of professional services, if the protest is not resolved by mutual agreement, unless extenuating circumstances require additional time; and
- (3) Amend the cash or protest bond amount for a party initiating an administrative proceeding for review of a decision on the solicitation or award of a competitive sealed bidding or competitive sealed proposal contract, depending on the estimated value of the awarded contract.

Your Committee on Conference finds that the timely review and resolution of bid protests reduces the costs and facilitates the execution of state-awarded projects, especially contracts on major construction and other crucial infrastructure enhancements. Your Committee on Conference notes that existing statutes and administrative rules on administrative review of the procurement protests require a resolution within forty-five days from the date of receipt of the protest, and therefore concludes that seventy-five calendar

days, with an extension of forty-five calendar days for extenuating circumstances, is a sufficient period of time for review and response from the procuring department or agency.

Your Committee on Conference further finds that the current cash or protest bond amount for a party initiating an administrative proceeding for review under the Hawaii Public Procurement Code is too low for public works projects.

Accordingly, your Committee on Conference has amended this measure by:

- Requiring the Chief Procurement Officer or designee to respond to protests to the awards of construction contracts and airport
 contracts that are not resolved by mutual agreement, within seventy-five calendar days of receipt of the protests;
- (2) Allowing for an extension of the seventy-five-day resolution period under certain circumstances;
- (3) Amending the protest bond amount for a party initiating an administrative proceeding for review of a decision on the solicitation or award of a competitive sealed bidding or competitive sealed proposal contract to the singular rate of one percent of the estimated value of the contract;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1329, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1329, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kim and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Johanson, Wildberger and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 137 on S.B. No. 599

The purpose of this measure is to require massage therapist licensees to complete twelve hours of continuing education which shall include two hours of first aid, cardiopulmonary resuscitation, or other emergency-related course.

Your Committee on Conference finds that the practice of massage therapy in the State affects public health and safety. As a matter of public interest and concern, massage therapist licensees should regularly maintain their knowledge and education and receive basic first aid and emergency-related training through mandatory continuing education requirements. This measure requires massage therapists to complete basic first aid or emergency-related training as a condition of obtaining or renewing their licenses.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 599, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 599, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 138 on S.B. No. 814

The purpose of this measure is to:

- (1) Require members of the State Public Charter School Commission to collectively possess strong experience and expertise in various fields:
- (2) Allow the authorizer's staff to provide technical support up until the completed charter application is submitted;
- (3) Clarify charter application notice requirements; and
- (4) Clarify authorizer compliance requirements in cases of an appeal.

Your Committee on Conference finds that the charter school processes for new school applicants, contract renewals, and contract negotiation are inconsistent, difficult to navigate, and lack transparency. This measure will allow applicants to cure any deficiencies

with their application rather than be automatically denied for nonsubstantive reasons and streamlines the charter school application process to ensure that approvals are obtained in a consistent and transparent manner.

Your Committee on Conference amended this measure by:

- (1) Specifying that the members of the State Public Charter School Commission shall collectively possess experience and expertise in public or nonprofit governance, management and finance, assessment, and public education;
- Removing language that allowed an authorizer's staff to provide technical support to a prospective charter school applicant or applicant governing board;
- (3) Removing the letter of intent as part of the application process for charter schools;
- (4) Clarifying that the applicant governing board may cure any deficiency with their application within the application period;
- (5) Removing language that provided that if an authorizer takes any action that prohibits any applicant from proceeding with an application for any reason, then the action would be deemed a denial and subject to appeal;
- (6) Changing the effective date to July 1, 2021; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 814, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 814, S.D. 1, H.D. 1, C.D. 1.

Representatives Woodson, Ilagan, Gates, Perruso and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 139 on S.B. No. 664

The purpose of this measure is to appropriate funds for the Hawaii Correctional System Oversight Commission.

Your Committee on Conference finds that the Legislature established the oversight coordinator position in 2019 when it established the Hawaii Correctional Oversight Commission. The Legislature specified the salary of the oversight coordinator, mandated that the oversight coordinator devote their entire time and attention to the administration of the Commission, and authorized the oversight coordinator to employ persons to perform the functions of the Commission. Nonetheless, to date, the Commission has operated without the benefit of an oversight coordinator or support staff. This measure will ensure that there is funding for an oversight coordinator position.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$330,000; and
- (2) Changing the effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 664, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 664, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads, Taniguchi and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (English).

Representatives Ohno, Matayoshi, Nishimoto, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 140 on S.B. No. 263

The purpose of this measure is to:

- (1) Transfer oversight of the "Made in Hawaii" Program as it relates to manufactured products to the Department of Business, Economic Development, and Tourism;
- (2) Place the "Grown in Hawaii" Program under the management of the Department of Agriculture;
- (3) Transfer the ownership of the "Made in Hawaii with Aloha" trademark from the Department of Agriculture to the Department of Business, Economic Development, and Tourism; and
- (4) Appropriate funds to the Department of Business, Economic Development, and Tourism for the oversight and administration of the "Made in Hawaii" Program and for the promotion of the "Made in Hawaii with Aloha" brand.

Your Committee on Conference finds that this measure will help to raise the profile of Hawaii-branded products and move the local manufacturing and agriculture industries forward.

Your Committee on Conference has amended this measure by:

- (1) Renaming the "Made in Hawaii with Aloha" Program to the "Hawaii Made" Program;
- (2) Renaming the "Made in Hawaii with Aloha" trademark to the "Hawaii Made" trademark;
- (3) Outlining the Department of Business, Economic Development, and Tourism's oversight and administration responsibilities for the "Hawaii Made" Program;
- (4) Removing the "Grown in Hawaii" Program oversight provision;
- (5) Removing provisions that created a master plan for the marketing and advertising activities of the Department of Business, Economic Development, and Tourism and the Department of Land and Natural Resources;
- (6) Appropriating \$150,000 to the Department of Business, Economic Development, and Tourism out of federal funds for fiscal year 2021-2022, for the oversight and administration of the "Hawaii Made" Program and for the promotion of the "Hawaii Made" trademark;
- (7) Changing the effective date to upon its approval; and
- (8) Making technical, nonsubstantive amendments for the purposes of consistency and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 263, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 263, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard, Moriwaki, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Quinlan, Hashem, Johanson, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 141 on S.B. No. 873

The purpose of this measure is to authorize contested case hearings to be conducted via the use of interactive conference technology.

Your Committee on Conference finds that contested case hearings can be conducted by using interactive conference technology, which is already being utilized for public meetings in accordance with section 92-3.5, Hawaii Revised Statutes. Your Committee on Conference further finds that allowing contested case hearings to be conducted by interactive conference technology will improve efficiency without compromising effectiveness.

Your Committee on Conference has amended this measure by making it effective on October 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 873, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 873, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Representatives Nakashima, Cullen and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 142 on S.B. No. 1196

The purpose of this measure is to:

- (1) Amend the due date for employers to file the wage and tax statement from the last day of February to January 31 following the close of the calendar year; and
- (2) Impose a penalty on employers that fail to timely furnish and file the wage and tax statement.

Your Committee on Conference finds that under existing state law, there is no penalty if an employer fails to furnish an employee with their wage and tax statement (Form W-2) or fails to file a copy of Form W-2 with the Department of Taxation. This measure encourages further compliance with the requirements of state tax law and aligns state filing deadlines with those established by the Internal Revenue Service.

- (1) Specifying penalty amounts for failure to timely furnish and file wage and tax statements of \$25 per failure not to exceed \$50 per employee; and
- (2) Inserting an effective date of January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1196, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1196, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Taniguchi and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Holt and Okimoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 143 on S.B. No. 548

The purpose of this measure is to:

- (1) Amend various statutory provisions to clarify and improve the administration of elections by mail;
- (2) Establish voters with special needs advisory committees at the state and county levels;
- (3) Require the Department of Public Safety and the Hawaii Paroling Authority to inform individuals on parole or probation of their right to vote and provide them with voting information; and
- (4) Require the Office of Elections and the county clerks to make a determination, as soon as practicable, of the optimal number and placement of voter service centers.

Your Committee on Conference finds that statewide elections by mail were implemented in the 2020 primary and general elections, with the State receiving a record voter turnout. Your Committee on Conference further finds that although the administration of elections by mail in the State has been generally successful, further refinement and clarification of election law is required.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the minimum requirement of four precincts in each district applies beginning with the 2022 primary election;
- (2) Requiring each county to establish a county voters with special needs advisory committee;
- (3) Specifying the process by which ballots may be forwarded by electronic transmission to voters with special needs;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 548, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 548, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Cullen and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 144 on S.B. No. 140

The purpose of this measure is to:

- (1) Require the Hawaii Community Development Authority to develop a transit-oriented development zone improvement program;
- (2) Amend the membership of the Hawaii Community Development Authority for matters affecting transit-oriented development zones; and
- (3) Authorize the Hawaii Community Development Authority to establish transit-oriented development zones for lands within county-designated transit-oriented development zones or within a one-half mile radius around proposed or existing transit stations, under certain circumstances.

Your Committee on Conference finds that transit-oriented development zones promote a wide range of social, environmental, and economic benefits, but currently, no single entity has the authority to redevelop the State's assets along the transit corridor in the best interest of the State. This measure fosters community development by strategically investing in public facilities through transit-oriented development.

Your Committee on Conference has amended this measure by:

- (1) Removing language that amended the membership of the Hawaii Community Development Authority for matters affecting community development districts;
- (2) Inserting language that establishes the Transit-Oriented Development Zone Improvement Board to govern the Transit-Oriented Development Zone Improvement Program;
- Amending the definition of transit-oriented development to require transit-oriented development zones in counties with a population in excess of five hundred thousand to include a rail station or planned rail station;
- (4) Inserting an effective date of July 1, 2021; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 140, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 140, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Inouye, Moriwaki and Riviere.

Managers on the part of the Senate.

Representatives Aquino, Nakamura, Tarnas, Cullen, Hashimoto and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 145 on S.B. No. 1139

The purpose of this measure is to:

- (1) Authorize the Department of Health to adopt administrative rules to establish patient registration fees beginning in fiscal year 2022;
- Appropriate monies from the medical cannabis registry and regulation special fund to finance operations and staff, including administrative services, of the Office of Medical Cannabis Control and Regulation;
- Establish, hire, and fill one full-time equivalent (1.00 FTE) permanent position funded by the medical cannabis registry and regulation special fund; and
- (4) Establish a task force to explore a dual system program of legalization for cannabis and its impact on qualifying patients, which shall submit a report of its findings to the Legislature.

Your Committee on Conference finds that the Office of Medical Cannabis Control and Regulation was forced to eliminate six fulltime positions, including critical administrative staff, due to the budget shortfalls caused by the coronavirus disease 2019 pandemic. Administrative and program staff are needed to meet current statutory requirements and the need for administrative and programmatic support will only increase as the landscape for medical cannabis grows and evolves. This measure allows the Department of Health to establish patient registration fees through administrative rules, which would give the Office the financial flexibility it needs to support its ongoing operating costs.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation from the medical cannabis registry and regulation special fund and the full-time equivalent permanent position funded by that appropriation;
- (2) Amending section 1 of this measure to reflect its amended purpose;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1139, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1139, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Keith-Agaran and Fevella.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 146 on S.B. No. 324

The purpose of this measure is to establish a definition of the practice of medicine that provides uniformity of practice for both medical and osteopathic physicians.

Your Committee on Conference finds that the definition of the practice of medicine was last amended in 2008 to include a distinct definition of osteopathic medicine. Your Committee on Conference further finds that medical doctors and osteopathic doctors are both physicians of equivalent education and training and should be regulated as such. This measure provides for the uniform regulation of medical and osteopathic doctors.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 324, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 324, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Johanson, Tam, Har and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 147 on S.B. No. 1340

The purpose of this measure is to:

- (1) Enable the Hawaii Medical Board to issue licenses for emergency medical responders and other emergency ambulance personnel, which shall be based on certain requirements;
- (2) Include emergency medical responders in the State's pre-hospital response; and
- (3) Require the Department of Commerce and Consumer Affairs to examine a potential additional licensure category for emergency medical technicians who have received certain certification from the National Registry of Emergency Technicians but do not provide emergency ambulance services.

Your Committee on Conference finds that there is currently no licensure category for emergency medical technicians who only have National Registry Emergency Medical Technician certification. However, these emergency medical technicians, which include firefighters and ocean safety lifeguards, provide life-saving care with minimal equipment to critical care patients. This measure establishes licensure for emergency medical technicians who only have National Registry Emergency Medical Technician certification.

Your Committee on Conference has amended this measure by:

- Removing the amendment to the definition of "emergency medical services personnel" in section 321-222, Hawaii Revised Statutes:
- (2) Amending chapter 453, Hawaii Revised Statutes, by adding a new section that:
 - (A) Requires the Hawaii Medical Board to issue licenses in four levels of emergency response practice, provided the practice is performed in a county with a population of 500,000 or greater;
 - (B) Requires the Hawaii Medical Board to accept license applications for a new class of license designated Emergency Medical Technician 1; and
 - (C) Sets forth practice requirements for Emergency Medical Technician 1 licensees;
- (3) Removing the issuance of emergency medical responder certifications and replacing it with emergency medical services licenses;
- (4) Removing the provision authorizing applications for emergency medical responder licenses;
- (5) Removing the requirement that the Department of Commerce and Consumer Affairs examine the possibility of an additional category of emergency medical technician license;
- (6) Inserting an appropriation amount of \$31,000 out of the compliance resolution fund for the hiring of a 0.5 full-time equivalent (0.5 FTE) permanent position;
- (7) Amending section 1 of the measure to reflect its amended purpose;
- (8) Changing the effective date to July 1, 2021;
- (9) Inserting a repeal date of July 1, 2027; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1340, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1340, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Kitagawa, Tam, Kapela and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 148 on S.B. No. 808

The purpose of this measure is to:

- (1) Rename the School Facilities Agency as the School Facilities Authority;
- Describe the powers and responsibilities of the School Facilities Authority by amending chapter 302A, part VI, subpart C and Act 72, Session Laws of Hawaii 2020;
- (3) Transfer the total fund balance in the state educational improvement fund to the school facilities special fund by an unspecified date; and
- (4) Appropriate funds.

Your Committee on Conference finds that Act 72, Session Laws of Hawaii 2020, established the School Facilities Agency, to be responsible for the development, planning, and construction of public school capital improvement projects and help improve the efficiency of school construction while more directly addressing the education needs of students. Your Committee on Conference further finds that this measure will provide more clarity as to the powers and responsibilities of the School Facilities Agency, the Agency's Executive Director and administrative staff, and the School Facilities Board, which will improve the Agency's overall efficiency and effectiveness.

- (1) Updating the purpose section;
- Clarifying that the School Facilities Authority shall employ an Executive Director exempt from chapters 76 and 89, Hawaii Revised Statutes;
- (3) Removing language that provides that the establishment of the School Facilities Authority shall be for the purposes of implementing chapter 302A, part VI, subpart C, Hawaii Revised Statutes;
- (4) Clarifying that the School Facilities Authority shall comply with chapter 103D, Hawaii Revised Statutes;
- (5) Substituting the term "school facilities board" with "school facilities authority board";
- (6) Clarifying that the School Facilities Authority Board shall head and oversee the School Facilities Authority;
- (7) Removing language that the School Facilities Authority Board shall be responsible for advising the School Facilities Authority on preferred strategies to complete construction projects;
- (8) Clarifying that the School Facilities Authority Board shall be responsible for all matter related to the projects the School Facilities Authority is authorized and responsible for initiating and completing;
- (9) Substituting the term "subpart" with "chapter" in section 302A-1705, Hawaii Revised Statutes;
- (10) Amending Act 72, Session Laws of Hawaii 2020, section 5 to exclude the administrative positions for the School Facilities Authority from chapter 89, Hawaii Revised Statutes;
- (11) Amending Act 72, Session Laws of Hawaii 2020, section 10 to clarify that the School Facilities Authority shall be responsible for implementing the provisions of sections 302A-1151.1 and 302A-1151.2, Hawaii Revised Statutes, subpart B, part VI of chapter 302A, Hawaii Revised Statutes, and the development, planning, and construction of public schools facilities that the School Facilities Authority is authorized to undertake and complete;
- (12) Deleting language that required the City and County of Honolulu to convey fee simple interest in properties not previously conveyed to the Department of Education and School Facilities Authority;
- (13) Clarifying that the Executive Director and seven full-time administrative positions of the School Facilities Authority shall be exempt from section 76-16(b), Hawaii Revised Statutes, relating to civil service;
- (14) Specifying that the term "school facilities authority" shall be substituted for the word "department", "board", or "board of education" in section 302A-1151.1, Hawaii Revised Statutes;
- (15) Specifying that the Department of Education shall transfer the total fund balance in the state educational facilities improvement fund and all encumbrances against that fund to the school facilities special fund no later than one hundred eighty days of the effective date of this measure;
- (16) Specifying that every reference to the Department of Education, Board of Education, Chairperson of the Board of Education, or Superintendent of Education relating to the school impact fees is amended to refer to the School Facilities Authority, Executive Director of the School Facilities Authority, School Facilities Board, or Chairperson of the School Facilities Board;
- (17) Removing appropriation language;
- (18) Making conforming amendments; and
- (19) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 808, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 808, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Keith-Agaran and Rhoads.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Woodson, Cullen, Yamashita and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Yamashita).

Conf. Com. Rep. 149 on H.B. No. 54

The purpose of this measure is to appropriate funds for deposit into the Emergency and Budget Reserve Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$250,000,000 for deposit into the Emergency and Budget Reserve Fund;
- (2) Appropriating \$390,000,000 in general funds for the actuarially required contribution for other post-employment benefits;
- (3) Appropriating funds for state debt service payments;
- (4) Making it effective upon its approval; provided that the deposit into the Emergency and Budget Reserve Fund and appropriation for other post-employment benefits take effect retroactively on June 30, 2021; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 54, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 54, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Keith-Agaran).

Representatives Luke, Cullen and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Cullen).

Conf. Com. Rep. 150 on H.B. No. 1298

The purpose of this measure is to transfer excess moneys from various non-general funds to the general fund.

Your Committee on Conference finds that non-general funds must be reviewed and scrutinized from time to time to determine if resources are being deployed effectively and efficiently. Your Committee on Conference also finds that the funds listed in this measure contain moneys in excess of what is necessary for the purposes of each of those funds and that the excess amounts should be transferred to the general fund.

Your Committee on Conference amended this measure by:

- (1) Inserting provisions requiring each state department to annually submit to the Legislature program measures, cost elements, and accounting reports for all non-general funds under the department's control;
- (2) Amending the list of non-general funds having amounts determined by the Legislature to be in excess of what is necessary for the purposes of each of those funds;
- (3) For certain non-general funds, amending the amounts that are authorized to be transferred to the general fund; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1298, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1298, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kanuha, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Luke, Cullen and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 151 on H.B. No. 1299

The purpose of this measure is to repeal or abolish various non-general funds and transfer the unencumbered balances to the general fund

Your Committee on Conference finds that this measure will help to implement some of the recommendations of the Auditor regarding the reclassification, repeal, or abolition of certain funds. Your Committee on Conference further finds that this measure will help to provide greater transparency and accountability in the funding of certain programs.

Your Committee on Conference has amended this measure by:

- (1) Deleting various provisions that collectively repealed or abolished approximately fifty funds;
- Repealing the agricultural development and food security special fund established pursuant to section 141-10, Hawaii Revised Statutes;
- (3) Abolishing the Leeward Coast homeless project fund;
- (4) Abolishing the Hawaii teacher standards board special fund; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1299, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1299, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kanuha and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 152 on H.B. No. 224

The purpose of this measure is to:

- (1) Make the Department of Health alternatively responsible for the State Health Planning and Development Agency's duties;
- Require the State Health Planning and Development Agency or Department of Health to update the state health services and facilities plan every five years;
- (3) Transfer monies in excess of \$2,000,000 in the State Health Planning and Development Special Fund to the general fund at the end of each fiscal year;
- (4) Impose an administrative penalty of an unspecified sum for each seven-day period during which a person violates or fails to act in compliance with an approved certificate of need granted by the State Health Planning and Development Agency;
- (5) Exempt psychiatric services, special treatment facilities, and chronic renal dialysis services in Oahu regional government hospitals from the certificate of need requirements; and
- (6) Appropriate monies from the State Health Planning and Development Special Fund to fund positions within the State Health Planning and Development Agency.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the existing statutory language that establishes the State Health Planning and Development Agency as the administrator of the State Health Planning and Development Special Fund;
- (2) Inserting a \$5,000 administrative penalty;
- (3) Removing special treatment facilities from the exemption from the certificate of need requirements;
- (4) Exempting all chronic renal dialysis services from the certificate of need requirements, rather than only those in Oahu regional government hospitals;
- (5) Removing all appropriations;
- (6) Requiring the Department of Health to conduct a study and report to the Legislature on the efficacy of this measure;
- (7) Changing the effective date to July 1, 2021;
- (8) Inserting a sunset date of July 1, 2026; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 224, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 224, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Keith-Agaran and Fevella.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Johanson, Cullen, Har and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 153 on H.B. No. 311

The purpose of this measure is to:

- (1) Extend the Nursing Facility Sustainability Program to June 30, 2024;
- (2) Specify that the Nursing Facility Sustainability Fee shall not exceed 5.5 percent of the overall net patient service revenue;
- (3) Remove the per resident daily maximum fee of \$20 for each facility and permit certain facilities to pay a reduced daily fee, as compared to other participating facilities;
- (4) Allow nursing facilities sixty days to pay the Nursing Facility Sustainability Fee; and
- (5) Appropriate funds out of the Nursing Facility Sustainability Program Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$20,000,000 for uses consistent with the Nursing Facility Sustainability Program Special Fund; and
- (2) Changing the effective date to June 29, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 311, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 311, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, Kidani, Baker and Ihara.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Tam, Kapela and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 154 on H.B. No. 541

The purpose of this measure is to:

- Clarify that the duties of the working group established within the Department of Health by Act 263, Session Laws of Hawaii 2019, include identifying gaps in services, coordinating funding sources, and establishing and identifying outcome measures for behavioral health, substance abuse, and homelessness;
- (2) Amend the composition of the working group;
- (3) Require the working group to report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022;
- (4) Make an emergency appropriation to address budget shortfalls relating to payroll and other current expenses for the State Comprehensive Emergency Medical Services System; and
- (5) Require the Department of Commerce and Consumer Affairs to create an additional certification category for emergency medical technicians certified by the National Registry of Emergency Medical Technicians at a higher level of practice than emergency medical responders but who do not provide emergency ambulance service.

Your Committee on Conference has amended this measure by:

- (1) Removing the emergency appropriation;
- (2) Removing the requirement that the Department of Commerce and Consumer Affairs create an additional certification category;
- (3) Inserting an effective date of June 29, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 541, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Ihara, English, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Ichiyama, Tam, Har and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 155 on H.B. No. 869

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Luana Kai A Life Plan Community with the development and operation of a continuing care retirement community.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 869, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 869, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Kanuha and Moriwaki.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Moriwaki).

Representatives Yamane, Tam and Ward.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 156 on H.B. No. 1283

The purpose of this measure is to:

- (1) Authorize employers of first responder personnel to obtain and provide dementia training for first responder personnel at no cost to the first responder personnel; and
- (2) Authorize the Executive Office on Aging to coordinate dementia training schedules and standards, as necessary, with all public and private entities and agencies responsible for services provided by first responder personnel.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1283, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1283, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 157 on H.B. No. 1284

The purpose of this measure is to establish the All-Claims, All-Payer Data Center Steering Committee within the Department of Human Services to provide oversight and direction for the all-claims, all-payer database and data center in the Department's Health Analytics Program.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1284, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1284, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, English and Acasio.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Nakashima, Tam and Ward. Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 158 on H.B. No. 79

The purpose of this measure is to support affordable housing in Hawaii by:

- (1) Establishing an Affordable Homeownership Revolving Fund within the Hawaii Housing Finance and Development Corporation to provide loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects;
- (2) Authorizing the transfer of taxable general obligation bond proceeds and accrued interest from the Rental Housing Revolving Fund to the Affordable Homeownership Revolving Fund; and
- (3) Appropriating funds out of the Affordable Homeownership Revolving Fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting language authorizing the transfer of taxable general obligation bond proceeds and accrued interest from the Rental Housing Revolving Fund to the Affordable Homeownership Revolving Fund;
- (2) Deleting language appropriating funds out of the Affordable Homeownership Revolving Fund;
- (3) Appropriating \$1,000,000 in American Rescue Plan Act funds for fiscal year 2022-2023 for the purpose of providing, in whole or in part, loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects;
- (4) Changing the effective date to July 1, 2021; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 79, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 79, H.D. 1, S.D. 2, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Chang, Moriwaki and Kanuha. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Nakamura, Nishimoto, Hashimoto, Takumi and McDermott.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 159 on S.B. No. 1350

The purpose of this measure is to further defer:

- Salary increases for the executive and judicial branches for an additional eighteen months at the salary rate as of July 1, 2022;
 and
- (2) Planned raises for members of the Legislature for an additional two years at the rate as of June 30, 2020; provided that the salaries for legislators are adjusted to the January 1, 2023, rate as of that date; provided further that the salary recommendations for legislators on January 1, 2024, are also effective on that date.

Your Committee on Conference finds that, pursuant to section 26-56, Hawaii Revised Statutes, the Commission on Salaries submitted a report of its findings and its salary recommendations for the next six years to the Legislature in 2019. Your Committee on Conference notes that the recommended salary adjustments submitted by the Commission on Salaries become effective on July 1 of the following fiscal year. Your Committee on Conference believes that because of the economic downturn that has resulted from the coronavirus disease 2019 pandemic, implementation of the Commission on Salaries' recommendations to the salaries of the executive and judicial branches, and planned adjustments for the Legislature, should continue to be deferred.

Your Committee on Conference further finds that, in February 2011, the U.S. Census Bureau announced it will likely delay delivery of the 2020 census results to the fifty states by as much as six months or more. This will significantly delay the reapportionment of federal, state, and county districts by the Reapportionment Commission.

Your Committee on Conference recognizes that reapportionment should occur before a candidate for the 2022 election is issued a nomination paper to ensure that the candidate not only meets the residency requirements, but also collects signatures from voters in the correct district. Your Committee on Conference further notes that after experiencing delays in preparing the reapportionment plan following the 2010 census, the State of Hawaii 2011 Reapportionment Commission Final Report and Reapportionment Plan made recommendations to improve the reapportionment process for the future, which includes clarifying the definition of a "permanent resident" and streamlining public notice of the proposed, revised, and final reapportionment plans.

Your Committee on Conference addresses the Reapportionment Commission's recommendation to clarify the definition of a "permanent resident" by requiring only the extraction of non-permanent residents from the total population of the State as counted by the U.S. Census Bureau. Obtaining specific data, rather than estimates, should result in an actual count of non-residents; and thereby provide a count of the permanent resident population of the State. In addition, the streamlined form of notice for reapportionment

plans proposed by this measure is projected to result in significant cost savings, while also providing adequate notice to the public of the Reapportionment Commission's actions and the availability of the Reapportionment Plan and other related documents.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting language that:
 - (A) Permits public notice in a short form for proposed, revised, and final reapportionment plans, subject to specific requirements;
 - (B) Temporarily amends the start date for the availability of nomination papers for the 2022 primary election;
 - (C) Defines "permanent resident" for reapportionment purposes; and
 - (D) Authorizes and appropriates funds to the Reapportionment Commission;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1350, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1350, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai, Rhoads and Lee.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Cullen, Belatti and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 160 on H.B. No. 613

The purpose of this measure is to:

- (1) Make an emergency appropriation for fiscal year 2020-2021 from elementary and secondary school emergency relief fund (ESSER funds) monies received by the State from the Coronavirus Aid, Relief, and Economic Security Act and the Coronavirus Response and Relief Supplemental Appropriations Act to offset any budget reductions that are identified or proposed by the department of education and the governor that would result in the reduction of personnel who are subject to a collective bargaining agreement pursuant to chapter 89, Hawaii Revised Statutes, and who are employed at the school level, including any budget reduction that would result in a layoff, furlough, or pay reduction;
- (2) Require the Board of Education and Superintendent of Education to certify in writing that the Board of Education, Superintendent, and Department of Education agree to certain conditions, including that the funds appropriated shall be used only for salaries and wages of officers and employees who are subject to a collective bargaining agreement and are employed at the school level in the classroom; and
- (3) Make an appropriation for fiscal years 2021-2022 and 2022-2023 from the same source of funding and with the same conditions.

Your Committee on Conference finds that states that received certain federal funds, including monies from the Elementary and Secondary School Emergency Relief Funds established by the Coronavirus Aid, Relief, and Economic Security Act, Public Law 116-136, 2020 (CARES Act), and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021, Public Law 116-260 (CRRSAA), are required to assure that they will maintain support for education programs during fiscal years 2019-2020 and 2020-2021 by meeting certain benchmarks. The State, through the Department of Education, must comply with the provisions of the federal Education Stabilization Fund as set forth in section 18006 of the CARES Act to receive and expend CARES Act and CRRSAA monies, which, in part, requires the Department of Education to continue to pay its employees. This measure will appropriate certain federal monies received by the State to the Department of Education to offset any budget reductions that have been identified or proposed by the Department of Education and the Governor, which would result in the reduction of personnel who are subject to a collective bargaining agreement and who are employed at the school level, including any budget reduction that results in a layoff, furlough, or pay reduction.

Your Committee on Conference has amended this measure by:

- (1) Removing language that appropriates CARES Act and CRRSAA monies to the Department of Education to offset certain education-related budget reductions;
- (2) Inserting language that appropriates out of the Coronavirus Response and Relief Supplemental Appropriations Elementary and Secondary School Emergency Relief Fund (ESSER2) appropriation amount of \$144,656,637 for the Department of Education to expend on certain education-related items;
- (3) Inserting language that appropriates out of the American Rescue Plan Elementary and Secondary Emergency Relief Fund (ESSER3) appropriation amount of \$412,328,764 for the Department of Education to expend on certain education-related items;
- (4) Inserting language that establishes conditions under which superintendents may receive pay raises; and

(5) Changing the effective date to upon its approval; provided that certain appropriation amounts made in section 2, paragraphs (12) through (14) and section 3 shall take effect on July 1, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 613, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 613, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Dela Cruz and Fevella.

Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Ichiyama, Luke, Eli, Kapela and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ichiyama).

Conf. Com. Rep. 161 on H.B. No. 1362

The purpose of this measure is to:

- (1) Establish the Hawaii Early Childhood Educator Stipend Program to address the shortage of early childhood educators;
- (2) Authorize the Department of Education to directly accept private funding for the purpose of establishing public prekindergarten programs, subject to certain conditions;
- (3) Provide that each early learning program and preschool program may use available classrooms for public preschool programs statewide:
- (4) Give priority for entering the preschool open doors program to children who miss the cutoff date to enter kindergarten;
- (5) Clarify and make adjustments to Act 46, Session Laws of Hawaii 2020, which relates to access to learning, including:
 - (A) Delaying the expansion of the Preschool Open Doors Program to serve three-year-old children to July 1, 2024;
 - (B) Extending the deadline for a service provider of the Preschool Open Doors Program to commence national accreditation by two years;
 - (C) Requiring the application of a uniform assessment for public school and charter school kindergarten students;
 - (D) Extending the effective date for the Department of Education and State Public Charter School Commission to share certain information on prior early learning program attendance to July 1, 2023; and
 - (E) Allowing educational data to be shared using an existing system; and
- (6) Appropriate funds for one full-time equivalent (1.0 FTE) position to coordinate, staff, and facilitate the implementation of Act 46, Session Laws of Hawaii 2020.

Your Committee on Conference has amended this measure by:

- Establishing a Hawaii Early Childhood Educator Special Fund and requiring stipend payments to be deposited into the Hawaii
 Early Childhood Educator Special Fund, rather than the Early Learning Special Fund, to be used to support the Hawaii Early
 Childhood Educator Stipend Program;
- (2) Providing that the Hawaii Early Childhood Educator Special Fund shall be abolished and repealed on June 30, 2023, and any unencumbered remaining balances shall lapse to the general fund;
- (3) Authorizing the Executive Office on Early Learning to accept federal funds to support the Hawaii Early Childhood Educator Stipend Program;
- (4) Clarifying that if the Department of Education accepts private funding for the purpose of establishing public prekindergarten programs:
 - (A) The Department of Education and the Executive Office on Early Learning shall sign a bilateral memorandum of agreement or understanding; and
 - (B) The Department of Education, the Executive Office on Early Learning, and the person or entity providing the private funding may sign a multilateral memorandum of agreement or understanding;
- (5) Providing that if the private funding received by the Department of Education to establish public prekindergarten programs is insufficient to maintain classroom operations of the public prekindergarten programs, the Department of Education and Executive Office on Early Learning are prohibited from requesting additional funding from the Legislature to pay for the remaining costs:
- (6) Requiring certain child care centers to be licensed by the Department of Human Services prior to accepting children into care;
- (7) Delaying the implementation of the application of the uniform assessment for public school and charter school kindergarten students to July 1, 2023;
- (8) Inserting an appropriation of \$98,000 for one full-time equivalent (1.0 FTE) position to coordinate, staff, and facilitate the implementation of Act 46, Session Laws of Hawaii 2020;

- (9) Changing the effective date to upon approval; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1362, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form att

ached hereto as H.B. No. 1362, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, San Buenaventura and Inouye.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 162 on H.B. No. 546

The purpose of this measure is to:

- (1) Require complex area superintendents to report directly to the Superintendent of Education; and
- (2) Make appropriations to implement a reorganization of the Department of Education that is informed by a 2015 reorganization chart prepared by the Department, which redistributes positions and dissolves:
 - (A) The Office of Strategy, Innovation, and Performance; and
 - (B) The Office of information Technology Services.

Your Committee on Conference finds that currently, the complex area superintendents report to the Deputy Superintendent of Education. There is a concern that the Superintendent of Education does not consistently communicate with or receive all feedback from the complex area superintendents. This measure will streamline communication between the complex superintendents and the Superintendent of Education.

Your Committee on Conference has amended this measure by:

- (1) Removing language appropriating funds for the Department of Education to implement the reorganization plan prepared by the Department;
- (2) Inserting language that requires the Department of Education's Office of Information Technology Services to submit a report to the Legislature providing an explanation of how the Office of Information Technology Services will be restructured in the next biennium;
- (3) Inserting language that the Department of Education's Office of Strategy, Innovation, and Performance to submit a report to the Legislature providing an explanation of how the Office of Strategy, Innovation, and Performance will be restructured in the next biennium:
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency; and
- (5) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 546, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 546, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Nakashima, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 163 on H.B. No. 1376

The purpose of this measure is to provide a fair and balanced procedure for landlords and tenants to seek rental assistance and mediate and negotiate resolutions before landlords evict tenants. Specifically, this measure:

- Extends from five business days to fifteen calendar days the period for a notice of termination of a lease agreement for failure to pay rent;
- (2) Requires landlords to include certain content in the fifteen-calendar day notice;
- (3) Requires landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule a mediation;

- (4) Restricts when landlords may exercise remedies based on the number of days that have elapsed following the expiration of the Governor's final eviction moratorium and the amount of rent due;
- (5) Provides for the expungement and sealing of court records of eviction judgments for failure to pay rent that are entered during the one-year period following the expiration of the Governor's final eviction moratorium; and
- (6) Repeals the amendments made to the Residential Landlord-Tenant Code one year after the expiration of the Governor's final eviction moratorium.

- Specifying that the notice is to contain a statement that the mediation center will confirm the scheduled date and time of the mediation with the tenant and landlord;
- (2) Limiting the remedies a landlord may seek for a tenant's failure to pay rent to a summary proceeding for possession;
- (3) Allowing landlords to bring summary proceedings for possession beginning on the first day, rather than the third day, after the expiration date of the Governor's final eviction moratorium;
- (4) Deleting language that provided for the expungement and sealing of court records of eviction judgments;
- (5) Inserting appropriations to the counties from federal funds received pursuant to the American Rescue Plan Act of 2021 to contract for services permitted by this measure related to emergency rental assistance;
- (6) Changing the effective date to upon approval;
- (7) Specifying that the amendments to the Residential Landlord-Tenant Code made by this measure are to be repealed on December 31, 2022, or upon the one year anniversary of the expiration date of the final eviction moratorium identified by the Governor, whichever is sooner; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1376, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1376, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English and Rhoads. Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Rhoads).

Representatives Johanson, Luke and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 164 on H.B. No. 264

The purpose of this measure is to:

- (1) Regulate the operations of transportation network companies in the State and establish a permitting process for these companies within the Department of Transportation; and
- (2) Make permanent the motor vehicle insurance requirements for transportation network companies and transportation network company drivers enacted by Act 236, Session Laws of Hawaii 2016.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established a regulation and permitting process for transportation network companies in the State;
- (2) Extending to September 1, 2023, the motor vehicle insurance requirements for transportation network companies and transportation network company drivers, rather than making the insurance requirements permanent;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 264, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 264, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Cullen and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 165 on H.B. No. 891

The purpose of this measure is to repeal the existing ban on electric guns and establish a regulatory framework for electric guns.

Your Committee on Conference has amended this measure by:

- (1) Removing unnecessary references to January 1, 2022, in the new statutory language proposed by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 891, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 891, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Fevella). Excused, none.

Representatives Johanson, Nakashima, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 166 on H.B. No. 485

The purpose of this measure is to increase the amount of the rental motor vehicle surcharge tax.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that, beginning January 1, 2022, and each subsequent year on January 1 until December 31, 2027, increases the rental motor vehicle surcharge tax by \$0.50;
- (2) Exempting the imposition of the rental motor vehicle surcharge tax for persons whose vehicles have been stolen and are unrecovered or will not be repaired due to total loss;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 485, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 485, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Inouye and English.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Aquino, Johanson, Cullen, Yamashita and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 167 on H.B. No. 424

The purpose of this measure is to require all state agencies, when renting a vehicle on behalf of a state employee conducting official government business, to adopt a preference for renting electric vehicles or hybrid vehicles; provided that the vehicles are suitable for the specific travel requirements and available when needed.

Your Committee on Conference finds that Hawaii currently has over one million gasoline-powered vehicles on its roads, which emit nearly five million metric tons of climate-changing carbon pollution annually. Some of these vehicles are used by government employees in the performance of their duties. Your Committee on Conference notes that the intent of this measure is to ensure that electric vehicles and hybrid vehicles are offered to the State at market rates. Your Committee on Conference further finds that electric vehicles will play an important role in the State's clean energy future and meeting the goals set for Hawaii in reducing its greenhouse gas emissions. Your Committee on Conference believes that requiring state agencies to prioritize the rental of electric vehicles will put the agencies at the forefront of energy independence and greenhouse gas emissions reduction efforts.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 424, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 424, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Baker and Kidani,

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Johanson, Wildberger and Ward. Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 168 on H.B. No. 526

The purpose of this measure is to:

- (1) Define "past performance" with regard to contractors;
- (2) Require the State Procurement Office to implement and administer a past performance database by December 31, 2023, including adopting rules regarding the information to be included in the past performance database and procedures for informing contractors of, and permitting corrections or responses to, the information contained in the database;
- (3) Require procurement officers to consider specific factors when making contract awards, including past performance, when available; and
- (4) Appropriate funds for the development, implementation, and training for certain procurement resources tools, including a past performance guide and past performance database.

Your Committee on Conference finds that the State's procurement process requires clear legislative direction to award contracts to responsible bidders or offerors to increase accountability, enhance performance, and utilize taxpayer dollars more efficiently. Your Committee on Conference further finds that currently, some state contracts may be awarded to the lowest bidder without regard to that bidder's poor past performance, which may lead to these bidders being considered qualified despite their poor past performance and result in repeated inefficiencies and substandard work. Your Committee on Conference believes consideration of past performance of a bidder will offer another level of consideration and diligence in evaluating responsibility, provide additional insight to positively impact the award selection, enhance quality performance, and efficiently and effectively utilize taxpayer dollars.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 526, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 526, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha and Chang. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Matayoshi, Wildberger and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 169 on H.B. No. 1296

The purpose of this measure is to:

- (1) Repeal the Hawaii Tobacco Prevention and Control Trust Fund on June 30, 2025;
- (2) Specify that the Hawaii Tobacco Settlement Special Fund monies shall only be deposited into the University Revenue-Undertakings Fund until July 1, 2033;
- (3) Prohibit any contract for the management of the Hawaii Tobacco Prevention and Control Trust Fund monies from extending beyond June 30, 2025; and
- (4) Transfer all unencumbered monies remaining in the Hawaii Tobacco Prevention and Control Trust Fund on June 30, 2025, to the general fund.

Your Committee on Conference has amended this measure by:

- (1) Establishing a \$4,300,000 expenditure cap on the Hawaii Tobacco Settlement Fund;
- (2) Requiring the Department of Health to provide a report to the legislature on the expenditure of monies in the Hawaii Tobacco Prevention and Control Trust Fund no later than twenty days prior to the convening of the Regular Sessions of 2022, 2023, 2024, 2025, and 2026;
- (3) Inserting an emergency appropriation to address budget shortfalls relating to payroll and other current expenses for the State Comprehensive Emergency Medical Services System;
- (4) Inserting an appropriation to fund and establish two permanent and five temporary full-time equivalent positions in the Office of the Governor;
- (5) Requiring all departments, including the University of Hawaii, to reimburse the State for the fringe benefit costs of employees whose positions are funded by a special fund, rather than the general fund;

- (6) Specifying that the cigarette tax revenues deposited to the credit of the Cancer Research Special Fund shall only be used for capital expenditures and only until July 1, 2041;
- (7) Ceasing deposits of cigarette tax revenues into the Emergency Medical Services Special Fund on July 1, 2021;
- (8) Establishing a Threat Assessment Team Program within Hawaii State Fusion Center of the Office of Homeland Security;
- (9) Inserting an appropriation to fund a statutorily established administrative assistant position in the Department of Human Resources Development;
- (10) Changing the effective date to July 1, 2021; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1296, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1296, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Kim, Dela Cruz, San Buenaventura and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Kim).

Representatives Yamane, Takayama, Luke and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 170 on H.B. No. 468

The purpose of this measure is to:

- (1) Temporarily suspend the requirement for public employers to make annual required contributions to the Hawaii Employer-Union Health Benefits Trust Fund through fiscal year 2024-2025; and
- (2) Require the Hawaii Employer-Union Health Benefits Trust Fund to:
 - (A) Examine and assess possible means to offset the future increase in the State's annual required contributions resulting from the temporary suspension, including the impacts of eliminating the state and county employers' obligations to reimburse Medicare Part B premiums to spouses of employee-beneficiaries who are hired after a specific future date; and
 - (B) Submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the convening of the Regular Session of 2022.

Your Committee on Conference has amended this measure by:

- (1) Temporarily suspending the requirement for public employers to make annual required contributions to the Hawaii Employer-Union Health Benefits Trust Fund for two fiscal years, rather than four;
- (2) Removing the requirements that the Hawaii Employer-Union Health Benefits Trust Fund examine and assess possible means to offset the future increase in the State's annual required contributions resulting from the temporary suspension and submit a report to the Legislature;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 468, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 468, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Dela Cruz and Chang.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Luke, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 171 on H.B. No. 930

The purpose of this measure is to ensure that the Employees' Retirement System is not disadvantaged as a competitive investor by exempting the Employee's Retirement System from disclosing under the Uniform Information Practices Act, Chapter 92F, Hawaii Revised Statutes, certain types of alternative investment fund information.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 930, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 930, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 172 on H.B. No. 58

The purpose of this measure is to amend the estate and generation-skipping transfer tax, general excise tax, use tax, and conveyance

Specifically, the measure:

- (1) Temporarily reallocates conveyance tax revenues for purposes of paying the principal and interest of general obligation bonds;
- (2) Authorizes the issuance of general obligation bonds to be appropriated into and out of the land conservation fund and rental housing revolving fund;
- (3) Changes the estate tax exclusion to \$3,500,000 for decedents dying or taxable transfers occurring after June 30, 2021;
- (4) From July 1, 2021, through June 30, 2023, temporarily suspends certain general excise and use tax exemptions;
- (5) Provides a grandfathering provision from the suspension of general excise and use tax exemptions;
- (6) Requires information reporting for all general excise and use tax exemptions and exclusions; and
- (7) Increases conveyance tax rates for the sale of properties valued at \$4,000,000 or greater.

Your Committee on Conference finds that the intent of this measure is to make the State's tax structure more equitable and to generate funds to support critical services.

Your Committee on Conference has amended this measure by:

- Removing provisions that temporarily reallocate conveyance tax revenues for purposes of paying the principal and interest of general obligation bonds;
- (2) Removing provisions that authorize the issuance of general obligation bonds to be appropriated into and out of the land conservation fund and rental housing revolving fund;
- (3) Removing provisions that change the estate tax exclusion to \$3,500,000 for decedents dying or taxable transfers occurring after June 30, 2021;
- (4) Applying the suspension of general excise and use tax exemptions to the period beginning January 1, 2022, and ending December 31, 2023;
- (5) Removing from the list of suspended general excise tax exemptions:
 - (A) A general excise tax exemption related to high technology research and development grants;
 - (B) A general excise tax exemption related to the refining of petroleum products; and
 - (C) A general excise tax exemption related to shipbuilding and ship repairs;
- (6) Maintaining current conveyance tax rates for the sale of commercial properties; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 58, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 58, H.D. 1, S.D. 1, C.D. 1.

Signed by the Speaker of the House of Representatives and Chairs on behalf of the Committee.

Senators Dela Cruz, Kidani, Moriwaki and Wakai.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nakamura, Luke, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 173 on H.B. No. 774

The purpose of this measure is to:

- (1) Establish a Pulehunui Community Development District to redevelop, renovate, and improve public lands in Pulehunui, Maui;
- (2) Amend the composition and duties of the Hawaii Community Development Authority;
- (3) Establish Community Development District Authority Boards to govern each of the community development districts; and
- (4) Reassign certain powers and duties from the Hawaii Community Development Authority to the Community Development District Authority Boards.

- (1) Modifying the manner in which Community Development District Authority Board members are appointed and the term of the director of planning and permitting member;
- (2) Making the Director of Finance, Director of Transportation, and Director of the Office of Planning, or their designees, voting members of the Community Development District Authority Boards and the Hawaii Community Development Authority and making their terms on each board run concurrently with their official terms of office;
- Adding as members of the Hawaii Community Development Authority two at-large members with expertise in urban planning, infrastructure, or financing;
- (4) Granting the Hawaii Community Development Authority exclusive power to make and alter bylaws for the organization and internal management of itself and District Authority Boards;
- (5) Removing the requirement that in making the initial appointments to the Community Development District Authority Boards, the Governor must strive to retain each existing member of the Hawaii Community Development Authority and place them on a Community Development District Authority Board;
- (6) Requiring all rules, policies, procedures, guidelines, and other materials adopted or developed by the Hawaii Community Development Authority prior to July 1, 2022, that implement provisions of the Hawaii Revised Statutes to remain in full force and effect until amended or repealed;
- (7) Requiring all actions taken by the Hawaii Community Development Authority prior to July 1, 2022, to remain in full force and effect until amended or repealed;
- (8) Changing the effective date of certain portions of this measure to July 1, 2021, and all other portions to July 1, 2022; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 774, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 774, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Inouye and Moriwaki. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Yamashita and McDermott.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 174 on H.B. No. 1348

The purpose of this measure is to:

- (1) Establish the Stadium Development Special Fund in chapter 109, Hawaii Revised Statutes;
- (2) Provide for the abolishment of the Stadium Special Fund;
- (3) Revise the general development guidance policies for the Stadium Development District and clarify the respective roles of the Stadium Authority and Hawaii Community Development Authority in the development of the Stadium Development District;
- (4) Broaden the powers and duties of the Stadium Authority, including authorizing the Stadium Authority to acquire and hold title to real property;
- (5) Exempt land to which the Stadium Authority holds title from the definition of "public lands";
- (6) Authorize the Stadium Authority, with approval from the Governor, to delegate to other state agencies implementation of capital improvement projects, under certain conditions;
- (7) Add two members to the Stadium Authority, including the President of the University of Hawaii, or the President's designee, who will serve as a voting member of the Stadium Authority;
- (8) Amend the general bond authorization made by Act 268, Session Laws of Hawaii 2019;
- (9) Allow the Stadium Authority, with the approval of the Governor, to delegate to other state agencies the implementation of projects when it is determined advantageous to do so by the Stadium Authority as the original expending agency and the other state agency to which expending authority is to be delegated; and
- (10) Make the financial disclosures of members of the Stadium Authority public records.

- (1) Amending the boundary descriptions of the areas to be represented by certain members of the Stadium Authority;
- (2) Making the President of the University of Hawaii a nonvoting member of the Stadium Authority;
- (3) Removing the exemption of the Stadium Authority from the public notice, public hearing, and gubernatorial approval requirements of chapter 91, Hawaii Revised Statutes, in establishing or amending fees or charges that generate receipts for deposit into the Stadium Development Special Fund;
- (4) Removing the proposed special facilities powers of the Stadium Authority under chapter 206E, Hawaii Revised Statutes, to assist in the development of projects under the control of other public agencies;
- (5) Authorizing the Stadium Authority to transfer funds to implement projects delegated to other state agencies, under certain circumstances;
- (6) Removing the authorization of the Director of Finance to issue general obligation bonds in the sum of \$180,000,000 and removing the appropriation of funds to the Stadium Authority for the Stadium Development District;
- (7) Changing its effective date to upon its approval; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

It is the intent of your Committee on Conference that the rights and benefits of current civil service employees shall not be diminished or impaired, including but not limited to their rights to collective bargaining and civil service employment. However, the Stadium Authority has the flexibility to hire upper-management positions that are exempt from chapters 76 and 89, Hawaii Revised Statutes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1348, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1348, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Inouye, Dela Cruz, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Tarnas, Luke, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 175 on H.B. No. 499

The purpose of this measure is to authorize the Board of Land and Natural Resources to extend certain commercial, industrial, resort, mixed-use, or government leases that have not been assigned or transferred within the last ten years for lessees who commit to making substantial improvements to the existing improvements.

Your Committee has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 499, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 499, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Fevella). Excused, none.

Representatives Tarnas, Johanson, Cullen and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 176 on H.B. No. 469

The purpose of this measure is to address the management of certain non-agricultural park lands under the control of the Department of Land and Natural Resources by:

- (1) Requiring the Department of Agriculture to inquire about any easements needed by the Department of Land and Natural Resources before offering a lease;
- (2) Requiring the Department of Land and Natural Resources and Department of Agriculture to meet and identify by mutual agreement the non-agricultural park lands under the jurisdiction of the Department of Land and Natural Resources and in agricultural use that should remain under the jurisdiction of the Department of Land and Natural Resources;
- (3) Requiring non-agricultural park lands under the jurisdiction of the Department of Land and Natural Resources and in agricultural use and not identified pursuant to paragraph (2) to be placed under the Department of Agriculture's jurisdiction;

- (4) Requiring the Department of Land and Natural Resources and Department of Agriculture to meet at least every five years to discuss transferring the remaining lands;
- (5) Requiring the Department of Land and Natural Resources to report to the Legislature on its meetings with the Department of Agriculture regarding the progress and status of transferring non-agricultural park lands; and
- (6) Authorizing the Board of Land and Natural Resources to amend and extend existing pasture leases and to issue new pasture leases by negotiation in furtherance of public purposes that the Department of Land and Natural Resources and Department of Agriculture are responsible for promoting.

- (1) Deleting its contents and establishing a working group to:
 - (A) Ascertain the process and status of the transfer of non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture pursuant to Act 90, Session Laws of Hawaii 2003, and chapter 166E, Hawaii Revised Statutes, regarding non-agricultural park lands; and
 - (B) Determine the challenges and potential remedies necessary to facilitate the process of fulfilling the purposes of Act 90, Session Laws of Hawaii 2003; and
- (2) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 469, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 469, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Tarnas, Cullen and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 177 on H.B. No. 1142

The purpose of this measure is to:

- (1) Allocate 3 cents of the environmental response, energy, and food security tax, also known as the barrel tax, to fund the installation of electric vehicle charging systems; and
- (2) Establish an Electric Vehicle Charging System Subaccount within the Public Utilities Commission Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Amending the preamble to emphasize the urgent need for electric vehicle infrastructure;
- (2) Clarifying that the \$1,000,000 ceiling for the Public Utilities Commission Special Fund shall not apply to the Electric Vehicle Charging System Subaccount;
- (3) Appropriating \$100,000 into and out of the Electric Vehicle Charging System Subaccount for the Electric Vehicle Charging System Rebate Program;
- (4) Authorizing each county to adopt ordinances to enforce section 291-71, Hawaii Revised Statutes, including the establishment of penalties for failure to comply with the requirements of that section or maintain electric vehicle charging systems in working order;
- (5) Establishing penalties for parking any vehicle in a parking space equipped with an electric vehicle charging system while not actively charging;
- (6) Beginning January 1, 2022, requiring new electric vehicle charging systems installed pursuant to the electric vehicle charging system requirement to be at least Level 2 and network-capable;
- (7) Requiring electric vehicle charging systems to be maintained in working order;
- (8) Clarifying that certain enforcement officers may enter private property to enforce electric vehicle parking space violations;
- (9) Inserting a savings clause;
- (10) Changing the effective date to July 1, 2021, and removing the sunset date; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1142, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1142, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Wakai and Inouye.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Johanson, Marten and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 178 on H.B. No. 185

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Judiciary for fiscal biennium beginning July 1, 2021, and ending June 30, 2023.

Your Committee on Conference has amended this measure by inserting appropriate operating and capital amounts for fiscal biennium 2021-2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 185, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 185, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 179 on H.B. No. 204

The purpose of this measure is to appropriate funds for fiscal biennium 2021-2023 operating budget of the Office of Hawaiian Affairs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 204, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 204, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Dela Cruz, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Luke and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 180 on H.B. No. 200

PART I. OVERVIEW

This measure, as received, includes:

- (1) The base budget from Act 9, Session Laws of Hawaii (SLH) 2020;
- (2) The addition of previously appropriated collective bargaining amounts in prior acts;
- (3) The adjustment amounts necessary to fulfill the Employees' Retirement System, Employer-Union Health Benefits Trust Fund, debt service, and Medicaid requirements for the 2021-2023 biennium;
- (4) The reduction of non-recurring amounts identified in the 2020 and 2021 executive budget worksheets issued by the Legislature; and
- (5) Various reductions for critical government services.

Your Committee on Conference has amended this measure to include:

- (1) The approved executive requests for trade-offs, transfers, changes to means of financing, conversions of positions from temporary to permanent, ceiling increases or decreases, and reductions;
- (2) Additional funding for critical government services;
- (3) Appropriations of American Rescue Plan Act of 2021 funds; and
- (4) Adjustments to meet federal Maintenance of Effort requirements.

	Fiscal Year 2021-2022		Fiscal Year 2022-2023	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 9, SLH 2020	\$15,672,211,865	\$8,026,960,067	\$15,672,211,865	\$8,026,960,067
Executive Budget Request	\$15,416,743,597	\$7,685,972,117	\$15,521,316,276	\$7,798,266,153
Net Change in Conference Draft	\$229,056,855	(\$602,042,663)	(\$410,576,386)	(\$525,767,306)
Total Appropriation	\$15,901,268,720	\$7,424,917,404	\$15,261,635,479	\$7,501,192,761

PART II. GENERAL FUND REVENUES AND ECONOMY

The Council on Revenues increased its general fund tax revenue projection at both its January 2021 and March 2021 meetings.

When the Council met, their forecast assumed the passage of the \$1.9 trillion Federal stimulus bill (the American Rescue Plan Act of 2021). The Council's forecast also assumed that Hawaii's economy will continue to open up steadily without significant regulatory restrictions and shutdowns affecting businesses and individuals, and that travel restrictions will continue to become more relaxed and visitor arrival numbers will return to relatively normal levels in the near future.

The Council's fiscal year 2021 forecast considered and discussed the fiscal impacts of the delay in the income tax filing deadline from April 2020 to July 2020, which resulted in a shift of approximately \$308 million from fiscal year 2020 to fiscal year 2021 and the adverse impact on tax collections due to businesses affected by the 2020 pandemic shutdown and restrictions. The Council acknowledged that economic activity continues its upward trajectory since the last shutdown in September 2020. In addition, the Council discussed the impacts of the American Rescue Plan Act of 2021 that it expected to be passed in March 2021 and the taxation of benefits received from Unemployment Insurance and the Pandemic Unemployment Assistance (PUA) program.

The Council acknowledged that the coronavirus disease 2019 (COVID-19) continues to represent a serious risk to public health and the State's economy. Future tax revenues are highly dependent on the trajectory of the virus, new variants, the availability and efficacy of vaccines, rapid low-cost testing, and the state, county, and federal governments' ability to manage health risks while at the same time supporting economic activities. Given the prominent role of tourism in Hawaii's economy, the number of visitors to the State will have major impacts on the economy and tax collections. The Council recognized that international visitor arrivals may lag domestic visitor arrivals since certain other countries are behind the United States in their vaccination programs.

The new forecasts for the state general fund tax revenues for fiscal year 2021 through fiscal year 2027 are shown in the table below:

General Fund Tax Revenues

Amount (in Thousands of Dollars)	Growth From Previous Year
\$6,527,438	-2.5%
\$6,788,536	4.0%
\$7,060,077	4.0%
\$7,342,480	4.0%
\$7,599,467	3.5%
\$7,865,448	3.5%
\$8,140,739	3.5%
	\$6,527,438 \$6,788,536 \$7,060,077 \$7,342,480 \$7,599,467 \$7,865,448

PART III. OPERATING BUDGET

Your Committee on Conference has worked diligently to create a responsible financial plan that includes a budget that continues to fund critical services and programs. The conference draft approach to balancing the budget included considering the Council on Revenues' General Fund Forecast, allocating federal funds received from the American Rescue Plan Act of 2021, implementing revenue enhancements, sweeping excess special funds to the general fund, and strategic restructuring, reductions and cuts.

American Rescue Plan Act of 2021

Given the significant constriction of state revenues, your Committee on Conference had the daunting task of balancing the state budget. Your Committee on Conference strategically allocated American Rescue Plan Act of 2021 (ARPA), Public Law 117-2, funds to retain critical services and provide for various other one-time costs. Numerous federal requirements, restrictions, and limitations were placed on how ARPA funds could be spent by the states. With limited guidance from the Department of Budget and Finance and the federal government, your Committee on Conference carefully allocated those funds based on the guidance available.

The Conference Draft of the executive budget includes the following amounts in ARPA funds:

- (1) \$160,020,792 in fiscal year 2022 and \$153,659,250 in fiscal year 2023 to repay a working capital loan;
- (2) \$252,391 in fiscal year 2022 and \$5,091,175 in fiscal year 2023 to repay the federal unemployment insurance loan interest payable to ensure it does not become a long-term financial burden;
- (3) \$700,000,000 in fiscal year 2022 to repay the unemployment insurance loan principal to ensure it does not become a long-term financial burden:

- (4) \$32,315,400 in each fiscal year for the operations of the Hawaii Health Systems Corporation hospitals statewide;
- (5) \$11,585,000 in fiscal year 2022 and \$8,923,000 in fiscal year 2023 for Maui Health System operating subsidy;
- (6) \$2,383,931 in fiscal year 2022 for Family Health Services and perinatal support services;
- (7) \$1,500,000 in fiscal year 2022 for Senior Centers' contracted services;
- (8) \$6,180,433 in fiscal year 2022 for staffing at the Hawaii State Hospital's new forensics unit;
- (9) \$345,000 in each fiscal year for Health Resources Administration;
- (10) \$307,775 in fiscal year 2022 and \$635,350 fiscal year 2023 for Worker's Compensation Claims to comply with Workers' Compensation Law (Chapter 386) and its related rules and regulations;
- (11) \$275,000 in fiscal year 2022 for Unemployment Insurance Benefits to be in compliance with Section 383-62(b) Hawaii Revised Statutes;
- (12) \$875,000 in fiscal year 2022 for Rapid Ohia Death Response to protect an important cultural and ecological mainstay;
- (13) \$120,000 in each fiscal year for the Native Resources and Fire Protection Program;
- (14) \$1,200,000 in fiscal year 2022 to fund economic analysis at the University of Hawaii Economic Research Organization;
- (15) \$4,000,000 in each fiscal year for Economic Planning and Research;
- (16) \$11,000,000 in each fiscal year for Convention Center operations;
- (17) \$1,000,000 in fiscal year 2022 to support a Sea Urchin Hatchery working to properly care and restore an important part of the local ecosystem and economy;
- (18) \$2,548,290 in fiscal year 2022 for Conservation and Resources Enforcement;
- (19) \$431,937 in each fiscal year for the Disability Compensation Program for the Disability Compensation Program's modernization project;
- (20) \$70,000,000 in fiscal year 2022 and \$35,000,000 in fiscal year 2023 for the Unemployment Insurance Program Call Center to more efficiently provide unemployment insurance services;
- (21) \$9,700,000 in each fiscal year for centralized vacation payout statewide;
- (22) \$5,400,000 in fiscal year 2022 to maintain general assistance payments and help prevent homelessness and increase health and safety for unemployable individuals with disabilities;
- (23) \$500,000 in fiscal year 2022 for the Rental Supplement Program (RSP) to maintain the current assistance to low-income families:
- (24) \$832,500 in each fiscal year to retain in-community youth programs to allow for continued services;
- (25) \$520,000 in each fiscal year for operations at the Hawaii Youth Correctional Facility;
- (26) \$134,000 in fiscal year 2022 and \$1,137,000 in fiscal year 2023 for KOLEA maintenance and operations; and a superaction of the contraction of the contraction
- (27) \$14,300,000 in each fiscal year for homeless services, including the Housing First Program, Rapid Re-Housing Program, Family Assessment Centers, Homeless Outreach and Civil Legal Services, and the Stored Property and Debris Removal Program.

Your Committee on Conference worked diligently to meet the proportional maintenance of effort funding requirements established under ARPA. Many hours were spent to ascertain accurate appropriations to the University of Hawaii, Department of Education, and all other state departments. The federal maintenance of effort requirements mandate the State to provide proportional funding in fiscal years 2022 and 2023 to elementary and secondary education, and higher education relative to overall state funding over fiscal years 2017, 2018, and 2019. The State faced economic hardships engendered by the COVID-19 pandemic. Your Committee on Conference presents a budget that meets the MOE.

The Conference Draft of the executive budget also appropriates Elementary and Secondary School Emergency Relief (ESSER) funds to maintain personnel previously identified by the Executive branch for reduction and to maintain the Office of Strategy, Innovation and Performance.

Strategic Reorganizations, Consolidations, and Restructuring

Your Committee on Conference believes it is important to continuously evaluate the structure of government and identify efficiencies and reduce duplication. Where applicable, government agencies should be working with each other to provide services to Hawaii's residents. With that in mind, and incorporating each department's executive budget requests, your Committee on Conference reduced vacant positions, changed means of financing for certain programs, and restructured, eliminated, or consolidated departments and programs to align with the State's goals and priorities and achieve greater effectiveness and efficiencies.

The Conference Draft of the executive budget makes the following major adjustments:

(1) Consolidates the Land Use Commission, the Office of Environmental Quality Control, and the Office of Planning into a new budget program retitled as the Office of Planning and Sustainable Development;

- (2) Transfers 10.00 permanent positions from the Department of Labor and Industrial Relations' Research and Statistics Office (LBR901) to Economic Planning and Research (BED130) to consolidate research and statistics functions;
- (3) Transfers 2.00 permanent and 5.00 temporary positions from the Hawaii Tourism Authority (BED113) Tourism Research Office to Economic Planning and Research (BED130) to further consolidate research functions;
- (4) Creates new program IDs and transfers personnel and funds to Hawaii Army and Air National Guard (DEF116) and Hawaii Emergency Management Agency (DEF118) from Amelioration of Physical Disasters (DEF110);
- (5) Transfers the Department of Education's Office of Information Technology Services from State Administration (EDN300) to School Support (EDN400);
- (6) Creates a new program ID and transfers the UH Cancer Center from UH Manoa (UOH100) to UH Cancer Center (UOH115);
- (7) Transfers and consolidates 7.00 permanent positions, \$6,500,000 in federal funds, and \$464,372 in general funds from the Workforce Development Council to the Workforce Development Division to retain the positions while consolidating the duties into a single office;
- (8) Converts positions and programs funded by the Agricultural Development and Food Security Special Fund and the Agricultural Loan Reserve Fund to general funds in coordination with HB1298 and HB1299;
- (9) Converts 68.00 permanent positions in the Department of Agriculture's Plant Industry Division to the Pest Inspection, Quarantine, and Eradication Fund;
- (10) Converts 6.00 temporary positions in the Agribusiness Development Corporation from the Hawaii Agricultural Development Revolving Fund to general funds; and
- (11) Converts the Conservation and Resources Enforcement Special Fund, which receives funds from the Boating Special Fund, to general funds.

Your Committee on Conference understands that there are many competing needs that the State must address. Your Committee on Conference recognizes the State's role in overseeing and managing a range of services for our kupuna; addressing issues surrounding homelessness; investing in the development of affordable housing; funding early learning and kindergarten through grade twelve education, early college programs, and the Hawaii Promise program; and scaling alternative education and trauma informed care programs statewide.

The Conference Draft of the executive budget includes the following major adjustments:

- (1) Changing means of financing from \$2,687,824 in general funds to \$2,687,824 in federal funds for Kupuna Care and Aging Disability Resource Center;
- (2) Adding \$50,000,000 in revolving funds to Environmental Management Branch for Sewerage;
- (3) Adding \$3,200,000 in special funds in both fiscal years for Developmental Disabilities' Medicaid Waiver Administrative Claiming Special Fund;
- (4) Restoring \$3,110,946 in general funds for fiscal year 2022 for the Native Resources and Fire Protection Program to ensure proper care for the local environment;
- (5) Adding \$1,459,440 in general funds for 30.00 permanent Conservation and Resource Enforcement Officers to ensure proper protection and coverage for lands under their jurisdiction;
- (6) Adding \$771,980 in general funds for 12.00 unfunded permanent positions for Conservation and Resources Enforcement;
- (7) Restoring 6.00 permanent positions and funds for the Office of the Civil Rights Commission to provide proper legal counsel for the State's marginalized communities;
- (8) Restoring \$1,043,780 in general funds for the Office of Community Services to provide essential services to communities;
- (9) Restoring \$5,000,000 for the Harbors Division Special Maintenance Projects to ensure a continuation of construction related projects;
- (10) Adding \$24,111,848 in special funds for fiscal year 2022 and \$24,911,848 in special funds for fiscal year 2023 for Daniel K. Inouye International Airport to ensure the airport is in proper working condition as travel begins to reopen;
- (11) Restoring funds for sex abuse treatment, which would have had evening and weekend services eliminated under the proposed executive budget;
- (12) Funding the Tax System Modernization, providing greater effectiveness, efficiency, and automation;
- (13) Increasing ceiling for the Compliance Resolution Fund to allow for repairs needed for the King Kalakaua building;
- (14) Increasing ceiling for the Compliance Resolution Fund to allow for funds to be used for data integration across various divisions and departments;
- (15) Increasing ceiling for Compliance Resolution Fund to allow for funds to be used for the 5th VX Rail Server for UH Data Center which hosts DCCA virtual servers and maintains IT security;
- (16) Adding funds for childcare payments and childcare block grant to maintain the level of services and care currently being provided;

- (17) Restoring Hilo Youth Challenge Academy, a community-based program that leads, trains, and mentors youth so that they may become productive citizens;
- (18) Adding \$250,000 for a proof-of-concept for the High Core Program, \$611,450 and 7.00 permanent positions for Papahana 'O Kaiona Alternative Learning Center (ALC), and \$3,000,000 in fiscal year 2022 and \$6,000,000 in fiscal year 2023 to expand Alternative Learning Programs across the State;
- (19) Adding \$676,222 in fiscal year 2022 for the Crime Victim Compensation Program; and
- (20) Restoring \$30,326,848 in fiscal year 2022 and \$35,926,848 in fiscal year 2023 of University of Hawaii program review reductions across all programs.

PART IV. CAPITAL IMPROVEMENTS PROGRAM BUDGET

Your Committee on Conference finds an opportunity to invest in the State's infrastructure while remaining fiscally prudent.

The Administration requested a capital improvement budget that totaled:

ADMINISTRATION	FY 2022	FY 2023
General Obligation Bonds	\$679,393,000	\$512,128,000
All Means of Financing	\$1,236,328,000	\$1,116,254,000

Your Committee on Conference has amended this budget to appropriate the following in capital improvement funds:

CONFERENCE	FY 2022	FY 2023
General Obligation Bonds	\$984,796,000	\$294,105,000
American Rescue Plan Act Funds	\$110,109,000	\$-
All Means of Financing	\$1,756,366,000	\$929,231,000

The projects funded are for critical infrastructure throughout the State.

The Conference Draft invests a substantial amount in projects improving and enhancing accessibility for rural communities, especially public schools and libraries to support virtual operations and distance learning:

- \$14,163,000 in American Rescue Plan Act Funds and General Obligation Bond Funds for broadband and technology improvements for Hawaii Department of Education Schools, Statewide.
- (2) \$25,000,000 in American Rescue Plan Act Funds for broadband and technology improvements for Hawaii State Public Libraries, Statewide.
- (3) \$26,589,000 in American Rescue Plan Act Funds for ventilation improvements for Schools and Libraries, Statewide.

The draft provides \$458,428,000 in funding for school facilities and \$311,690,000 for the University of Hawaii system:

- (1) \$179,290,000 for improvements for University of Hawaii Statewide.
- (2) \$121,000,000 for improvements for University of Hawaii Community Colleges, Statewide.
- (3) \$3,500,000 for improvements for University of Hawaii at West Oahu.
- (4) \$10,900,000 for University of Hawaii at Hilo.

Your Committee on Conference also allocates \$65,250,000 for public hospital facilities, and \$21,250,000 for improvements for Intensive Care Units and COVID Care Units, Statewide.

The Conference Draft also increases to \$53,000,000 in Fiscal Year 2022 and \$25,000,000 in Fiscal Year 2023 for Department of Hawaiian Home Lands Projects, Statewide.

Your Committee on Conference further authorizes \$493,880,000 for Airports, \$224,907,000 for Harbors, and \$493,008,000 for Highways.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 200, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 200, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, English, Inouye, Kanuha, Kidani, Moriwaki, Shimabukuro, Taniguchi, Wakai and Fevella. Managers on the part of the Senate.

Ayes, 11. Noes, none. Excused, none.

Representatives Luke, Branco, Cullen, Eli, Holt, Ilagan, B. Kobayashi, Marten, Nishimoto, Perruso, Sayama, Tam, Wildberger, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 12. Noes, none. Excused, 3 (Branco, Marten, McDermott).

Conf. Com. Rep. 181 on H.B. No. 53

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that in accordance with Article VII, section 13, of the Hawaii State Constitution, the total amount of principal and interest, estimated for the general obligation bonds authorized under this measure and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating the dates and measure numbers cited in the measure;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 53, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 53, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kanuha, Wakai and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Luke, Cullen and McDermott. Managers on the part of the House. Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 182 on S.B. No. 628

The purpose of this measure is to:

- (1) Commence the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health, beginning with the transfer of the Oahu Regional Health Care System's budget into the Department of Health;
- (2) Enable the Oahu Regional Health Care System, Department of Health, Hawaii Health Systems Corporation, and other state agencies to implement the processes and transactions required to effectuate the completion of the transition;
- (3) Require the Department of Health to consult with the University of Hawaii regarding services provided at Leahi Hospital and Maluhia, and allow University of Hawaii students to rotate through those facilities for training purposes;
- (4) Authorize the Department of Health to pay rent to the University of Hawaii for the use of the Leahi Hospital property at a rate and on terms to be negotiated between the Department of Health and the University of Hawaii;
- (5) Clarify the rights, powers, and exemptions held by the Oahu Regional Health Care System during the transition period and the rights, powers, and exemptions held by the Inpatient Services Division of the Department of Health following completion of the transfer of the Oahu Regional Health Care System;
- (6) Appropriate moneys from the mental health and substance abuse special fund to expand and operate programs at Leahi Hospital and Maluhia that are mutually advantageous to the Department of Health, the Oahu region, and the State; and
- (7) Authorize the issuance of general obligation bonds and appropriate the proceeds of the bonds for improvements at Leahi hospital and Maluhia.

Your Committee on Conference finds that the Hawaii Health Systems Corporation comprises five semi-autonomous health care regions within the State, one of which is the Oahu Regional Health Care System. However, the Oahu Regional Health Care System is unique because of the limited services its facilities, Leahi Hospital and Maluhia, provide. Your Committee on Conference finds that rather than serving the general population, Leahi Hospital and Maluhia serve primarily long-term care and Medicaid patients and thus operate as de facto safety-net social services. Because the Department of Health operates the Hawaii State Hospital, a facility that does not generate revenue but provides necessary care for mentally ill patients, the Department of Health can better operate Leahi Hospital and Maluhia. This measure commences the transfer of the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health.

Your Committee on Conference has amended this measure by:

- Removing language granting the Director of Health sole decision-making authority over all corporation board matters concerning the Oahu Regional Health Care System during the transition period;
- (2) Clarifying that any transfer of real property pursuant to paragraph (a)(5) of section 323F-7.6, Hawaii Revised Statutes, shall be made to the Department of Land and Natural Resources;
- (3) Removing references to specific budget program codes;

- (4) Requiring the transfer of positions and class specifications of the Oahu Regional Health Care System to the Department of Health to be completed no later than December 31, 2022;
- (5) Removing language authorizing the Inpatient Services Division of the Department of Health to develop policies and procedures for the procurement of goods and services for two years following the completion of the transition;
- (6) Adding members who shall serve in a consultative capacity to the working group;
- (7) Requiring the working group to develop a comprehensive business plan in addition to a transfer framework that shall include:
 - (A) A five-year pro forma operating plan and budget for Leahi Hospital and Maluhia; and
 - (B) A ten-year pro forma capital improvement plan and budget for the continuing operation of Leahi Hospital and Maluhia;
- (8) Requiring the working group's report to the Legislature to include the five- and ten-year pro forma plans, proposed legislation, and timeline of necessary major milestones to complete the transfer;
- (9) Requiring that the transition of employee positions and payroll be approved by the Director of Human Resources Development and Comptroller;
- (10) Removing language authorizing the issuance of general obligation bonds and appropriating proceeds of the bonds for improvements at Leahi Hospital and Maluhia;
- (11) Inserting an appropriation amount of \$200,000 from the mental health and substance abuse special fund for the formulation of a comprehensive business and transition plan;
- (12) Inserting an appropriation amount of \$16,320,700 from the funds received by the State of Hawaii from the American Rescue Plan Act of 2021, Public Law 117-2 (Section 9901) to transfer the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health;
- (13) Changing the effective date to July 1, 2021;
- (14) Changing the effective date for part II of this measure to December 31, 2022;
- (15) Removing the effective dates for parts VI and VIII of this measure;
- (16) Amending part I of this measure to reflect its amended purpose; and
- (17) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 628, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 628, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Keohokalole, Baker, Dela Cruz, Kim, San Buenaventura and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Baker).

Representatives Yamane, Onishi, Luke and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 183 on H.B. No. 1297

The purpose of this measure is to:

- (1) Require each department to submit program measures, cost element, and accounting reports for all non-general funds to the Legislature by November 1 of each year;
- (2) Specify that the cigarette tax revenues deposited to the credit of the Cancer Research Special Fund shall only be used for capital expenditures and only until July 1, 2041;
- (3) Cease deposits of cigarette tax revenues into the Emergency Medical Services Special Fund on July 1, 2021;
- (4) Subject certain special funds to deductions for central service expenses;
- (5) Statutorily establish the Cancer Research Center of Hawaii and establish lines of reporting and other administrative and funding provisions relating to the Cancer Research Center of Hawaii;
- (6) Limit the uses of funds expended from the Tuition and Fees Special Fund and Research and Training Revolving Fund; and
- (7) Require the University of Hawaii to provide an annual, rather than a semi-annual, report to the Legislature on the Hawaii Cancer Research Special Fund.

The intent of the Legislature is to fund amounts requested by Governor's Message Numbers 7, 8, and 9, and to fund any remaining Employer-Union Trust Fund agreements ratified after April 23, 2021.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting its contents and inserting language that amends House Bill No. 200, H.D. 1, S.D. 1, C.D. 1 (Regular Session of 2021) to appropriate general funds for statewide collective bargaining costs;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1297, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1297, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Keohokalole, Kim, Dela Cruz, San Buenaventura, Fevella and Taniguchi.

Managers on the part of the Senate.

Ayes, 6. Noes, none. Excused, none.

Representatives Yamane, Takayama, Luke and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 184 on H.B. No. 862

The purpose of this measure is to:

- (1) Abolish the Office of Aerospace Development, Aerospace Advisory Committee, and the Hawaii Unmanned Aerial Systems Test Site Advisory Board;
- (2) Transfer administration of the Pacific International Space Center for Exploration Systems from the Department of Business, Economic Development, and Tourism to the University of Hawaii at Hilo;
- (3) Transfer the administration of and the budget for the Challenger Center Hawaii Program from the Office of Aerospace Development to the Department of Education;
- (4) Prohibit holdover board members of the Hawaii Tourism Authority;
- (5) Specify that monies in the Tourism Emergency Special Fund are to be used exclusively for emergency measures that directly relate to safety and security initiatives;
- (6) Require that the 3.5 percent cap on spending from the Tourism Special Fund include all governance and employment expenses, organization-wide costs, and a protocol fund, as administrative expenses;
- (7) Repeal the allocation from the transient accommodations tax to the Tourism Special Fund and Tourism Emergency Special Fund:
- (8) Repeal the Hawaii Tourism Authority's authorization to establish an advisory group;
- (9) Require the State and local workforce development boards to develop written conflict of interest policies;
- (10) Require the Governor to fix the compensation for the Hawaii Workforce Development Council's Executive Director and require the Department of Labor and Industrial Relations to provide support staff;
- (11) Clarify the employment of professional staff by the Public Utilities Commission;
- (12) Transfer Hawaiian cultural duties and responsibilities from the Hawaii Tourism Authority to the State Foundation on Culture and the Arts:
- (13) Mandate that the Hawaii Tourism Authority collaborate with the State Foundation on Culture and the Arts for its visitor industry marketing; and
- (14) Appropriate funds.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited holdover board members of the Hawaii Tourism Authority;
- (2) Deleting language that would have transferred Hawaiian cultural duties and responsibilities from the Hawaii Tourism Authority to the State Foundation on Culture and the Arts;
- (3) Deleting language that would have mandated that the Hawaii Tourism Authority collaborate with the State Foundation on Culture and the Arts for marketing purposes;
- (4) Deleting language that would have specified that monies in the Tourism Emergency Special Fund are to be used exclusively for specific emergency measures;
- (5) Deleting language that would have required that the 3.5 percent cap on spending from the Tourism Special Fund include specific types of administrative expenses;
- (6) Reverting to existing statutory language that authorizes the Hawaii Tourism Authority to establish an advisory group;
- (7) Reverting to existing statutory language that allocates a portion of the transient accommodations tax into the Tourism Emergency Special Fund;

- (8) Deleting language that would have required state and local workforce development boards to develop written conflict of interest policies;
- (9) Deleting language that would have required the Governor to fix the compensation for the Hawaii Workforce Development Council's Executive Director and require the Department of Labor and Industrial Relations to provide support staff;
- (10) Deleting language that would have clarified the employment of professional staff by the Public Utilities Commission;
- (11) Deleting language that would have transferred and appropriated funds for three permanent full-time equivalent (3.0 FTE) positions from the Hawaii Tourism Authority to the State Foundation on Culture and the Arts;
- (12) Deleting language that would have appropriated \$4,000,000 in general funds to the Hawaii Tourism Authority;
- (13) Authorizing the counties to establish, by ordinance, a county transient accommodations tax at a rate not to exceed three percent;
- (14) Decreasing the transient accommodations tax allocation to the Convention Center Enterprise Special Fund from \$16,500,000 to \$11,000,000;
- (15) Repealing the transient accommodations tax allocation to the counties;
- (16) Effective January 1, 2022, repealing the Tourism Special Fund and making conforming amendments and removing certain compensation package limits for the President and Chief Executive Officer of the Hawaii Tourism Authority;
- (17) Deleting language that would have authorized the Hawaii Tourism Authority to conduct market development-related research as necessary:
- (18) Repealing the Hawaii Tourism Authority's exemption from the Hawaii Public Procurement Code;
- (19) Appropriating \$60,000,000 out of the funds received by the State from the American Rescue Plan Act, Public Law 117-2, section 9901, for the Hawaii Tourism Authority;
- (20) Removing the severability clause;
- (21) Changing the effective date to July 1, 2021; and
- (22) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 862, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 862, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee (Senate President signed "with reservations" for Co-Chair Baker).

Senators Wakai, Kim, Dela Cruz, Baker, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, 1 (Fevella). Excused, none.

Representatives Quinlan, Onishi, Luke and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 185 on H.B. No. 1281

The purpose of this measure is to:

- (1) Establish a three-year transfer of certain duties, functions, and powers relating to emergency medical services for the City and County of Honolulu from the Department of Health to the City and County of Honolulu, beginning July 1, 2021;
- Require individuals acting as dispatchers in the State to obtain emergency medical dispatch certification by July 1, 2026, and maintain certification thereafter;
- (3) Clarify the Department of Health's requirements related to the statewide emergency aeromedical program;
- (4) Authorize an annual distribution of \$3,500,000 from the Emergency Medical Services Special Fund to any county operating a county emergency medical services system, beginning with fiscal year 2021-2022;
- (5) Appropriate general funds to the City and County of Honolulu for emergency medical services for fiscal years 2021-2022 and 2022-2023;
- (6) Appropriate monies from the Emergency Medical Services Special Fund to the City and County of Honolulu for fiscal years 2021-2022 and 2022-2023; and
- (7) Phase out funding from general revenues for emergency medical services in the City and County of Honolulu before July 1, 2024.

Your Committee on Conference has amended this measure by:

(1) Removing the general fund appropriation;

- (2) Inserting an appropriation of \$84,257,043 for fiscal year 2021-2022 and \$46,990,131 for fiscal year 2022-2023 from funds received by the State from the American Rescue Plan Act, Public Law 117-2 (Section 9901), to the Department of Health for the operation of the statewide emergency medical services and injury prevention system; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1281, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1281, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Dela Cruz, Rhoads, Moriwaki and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Representatives Yamane, Luke and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

STANDING COMMITTEE REPORTS

SCRep. 1 Labor, Culture and the Arts on S.B. No. 1159

The purpose and intent of this measure is to provide relief to employers contributing to the State Unemployment Compensation Trust Fund (UCTF) and expedite the State's economic recovery from the disruptions caused by the coronavirus disease 2019 (COVID-19) pandemic by amending the rates and method by which employer contributions are computed, as follows:

- (1) Setting the employer contribution rate schedules for calendar years 2021, 2022, and 2023 at schedules D, F, and G, respectively; and
- (2) Allowing the Director of Labor and Industrial Relations to modify the annual contribution rate computation method for all employers for calendar years 2020 and 2021, by omitting from the calculation, benefits charged against their accounts.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; ABTS Wholesale, Inc., ABTS PK Inc., and ABTS HV, Inc., dba Angels By The Sea Hawaii; Hawaii Food Industry Association; Hawaii Petroleum, LLC; Honolulu Japanese Chamber of Commerce; International Longshore and Warehouse Union, Local 142; Maui Chamber of Commerce; and Parents and Children Together. Your Committee received testimony in opposition to this measure from the Kona-Kohala Chamber of Commerce; Retail Merchants of Hawaii, Inc.; Warren W. Gibson III, LLC, dba Warren & Annabelle's; and five individuals. Your Committee received comments on this measure from Tax Foundation of Hawaii; A.V.S. Audio Visual Services Hawaii, Corp.; Chamber of Commerce of Hawaii; Cyanotech Corporation; Diamond Head Dental Care Corp.; FishHopper LLC; GM Construction, Inc.; Hawaii Automobile Dealers' Association; Hawaiian Humane Society; Industrial Battery Solutions, LLC; Layout Etc., Inc.; Lisa L. Wong, M.D., Inc.; Michael A. McMann, M.D., LLC, dba McMann Eye Institute; Maui Adventure Group, Inc. dba The Snorkel Store; Metzler Contracting Co. LLC; Premier Title and Escrow, Inc.; ProService Pacific, LLC dba ProService Hawaii; Society for Human Resource Management (Hawaii Chapter); Sofasogood Learning Preparatory & The Reading Tutor, Inc., dba Corvid Academy & Performing Arts; Woo's Electrical LLC; and seventeen individuals.

Your Committee finds that the computation of an employer's UCTF contribution rate is computed once a year using the employer's classification, which is determined based on the employer's actual experience in the payment of contributions and benefits charged against their accounts; and one of eight contribution rate schedules (A through H) that is in effect for the year, which is determined based on the relationship between the most recent current reserve fund and the most recent adequate reserve fund.

Your Committee finds that the UCTF, which had a reserve of \$607.5 million as of November 2019, was depleted in June 2020, due to the extraordinary increase in Hawaii's unemployment rate caused by the COVID-19 pandemic. Consequently, the State received a \$700 million loan from the federal government as federal unemployment insurance advances under Title XII of the Social Security Act to continue payment of unemployment benefits.

Your Committee further finds that due to the depletion of the UCTF, by statute the applicable contribution rate schedule for calendar years 2021, 2022, and 2023, will be at Schedule H, the highest statutory rate.

Your Committee finds that to provide relief to contributory employers and help expedite the State's economic recovery from the disruptions caused by the COVID-19 pandemic, it is necessary to apply lower contribution rate schedules for calendar years 2021, 2022, and 2023, from Schedule H to Schedules D, E, and F, respectively; and allow the Director of Labor and Industrial Relations to modify the annual contribution rate computation method for all employers for calendar years 2021 and 2022, by omitting from the calculation, benefits charged against the employers' accounts.

Your Committee acknowledges that S.B. No. 682, Regular Session of 2021, has a similar content to this measure with even lower contribution rate schedules, Schedules C, D, and E, for calendar years 2021, 2022, and 2023, respectively. Your Committee finds the schedules under this measure provides a more balanced approach. First, the lowest contribution rate under Schedules C and D are zero percent and 0.2 percent, respectively. Therefore, under Schedule C, there will be employers who will not be contributing to the UCTF at all, whereas under Schedule D, all contributory employers will share the weight in replenishing the UCTF and re-establishing the fund's integrity. Second, and more importantly, your Committee finds that the lower contribution rates in S.B. No. 682 may have a detrimental impact to Hawaii employers in the long term. According to the Department of Labor and Industrial Relations, if the State is not able to repay the federal Title XII advances by November 10, 2022, Hawaii employers will be required to make payments toward the outstanding federal loan balance in the form of a federal unemployment insurance (FUTA) credit reduction, which will increase the FUTA taxes employers must pay. Specifically, Hawaii employers will lose 0.3 percent of their FUTA credit each year after 2022 when there is an outstanding balance on Hawaii's Title XII advances. Therefore, the longer it takes for the UCTF to be replenished, the longer Hawaii employers will be required to pay higher FUTA taxes. If the contribution rate schedules in this measure are applied, the insolvency of the UCTF after five years will be under \$1 billion. The UCTF insolvency under the rate schedules in S.B. No. 682 will be significantly higher at \$1.6 billion. Therefore, your Committee finds that the rate schedules under this measure offer a more prudent approach for Hawaii employers in the long term.

Your Committee has amended this measure by:

- (1) Authorizing the Director of Labor and Industrial Relations to modify the annual contribution rate computation method for calendar years 2021 and 2022, rather than calendar years 2020 and 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and conformity.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1159, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2 Agriculture and Environment on S.B. No. 128

The purpose and intent of this measure is to appropriate monies for the development and implementation of a pesticide subsidy program until June 30, 2026, to assist coffee growers with offsetting the cost of purchasing fungicides that combat coffee leaf rust.

Your Committee received testimony in support of this measure from the University of Hawai'i at Manoa, College of Tropical Agriculture and Human Resources; Konalicious Organic Coffee LLC; Konaloha Farms; Hawai'i Farm Bureau; Rancho Aloha; Hawaii Coffee Association; Kona Perfect; Kona Coffee Farmers Association; Synergistic Hawaii Agriculture Council; Huahua Farm; and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that to date, *Hemileia vasatrix* (coffee leaf rust) has been identified in Holualoa, Hawaii; Haiku, Maui; and on Lanai. If left untreated, researchers estimate losses between thirty percent and eighty percent per year. Your Committee further finds that there are a limited number of contact fungicides available to treat coffee leaf rust. Though costly, systemic fungicides are needed to provide greater resistance and suppression for active infections of coffee leaf rust. The cost of the fungicide provided to the Department of Agriculture is estimated at \$27.89 per acre. Fungicides must be applied twice a year for successful control, doubling the cost to \$55.78 per acre annually. At the initial reimbursement rate of seventy-five percent for the first two years of the program, the \$900,000 allocation will provide approximately 21,500 acres with protection from coffee leaf rust. Therefore, your Committee finds that the fungicide subsidy program in the Department of Agriculture is needed to assist coffee growers with offsetting the costs of purchasing certain pesticides known to be effective against coffee leaf rust.

Your Committee notes that Act 152, Session Laws of Hawaii 2015, extended by Act 32, Session Laws of Hawaii 2018, established a pesticide subsidy program with nearly three hundred participating coffee farmers throughout Hawaii. The new fungicide subsidy program supported by the pesticide use revolving fund would require a new fungicide subsidy program manager to be established.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 128, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 3 Agriculture and Environment on S.B. No. 179

The purpose and intent of this measure is to:

- (1) Transfer portions of the East Kauai Irrigation System operated and maintained by the East Kauai Water Users' Cooperative as of July 1, 2021, to the Department of Agriculture until the adoption of rules is complete or the Chairperson of the Board of Agriculture determines that the system can be appropriately operated and maintained pursuant to chapters 167 and 168, Hawaii Revised Statutes:
- (2) Stipulate that the East Kauai Irrigation System will not be governed by chapters 167 and 168, Hawaii Revised Statutes, until it is transferred to the appropriate program; and
- (3) Appropriate funds for the operations and maintenance of the East Kauai Irrigation System.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; County of Kaua'i; SR Hawaii; Kulana Association of Unit Owners; Larry Jefts Farms, LLC; Hawai'i Farm Bureau; Ulupono Initiative; East Kauai Water Users' Cooperative; Saiva Siddhanta Church; Kalepa Koalition; and six individuals.

Your Committee finds that the East Kauai Irrigation System services more than twelve thousand five hundred acres of agricultural land on Kauai. The system includes two reservoirs and twenty-two miles of ditch and has historically serviced thousands of acres of state and private lands. In particular, the system services more than one thousand acres of the state Kalepa lands located between Kapaa and Lihue. In recent years, through the action of the Agribusiness Development Corporation, nearly three hundred acres have been leased to farmers who are actively developing crops, including ginger and sweet potatoes.

Your Committee further finds that the Department of Land and Natural Resources currently has oversight of the irrigation system and is focused on addressing public health and safety and preserving the viability of the irrigation system for future use, not the continued delivery of water to various users. Further, the Department of Land and Natural Resources does not have the resources and expertise to function as a water delivery provider, which could be inconsistent with its mission of natural, cultural, recreational, and historical resource management of protection.

Moving forward, the Department of Land Natural Resources' primary objective is to work collaboratively with Kauai legislators to find an appropriate public or private entity that can assume management and operation of the system as had previously been done by the East Kauai Water Users' Cooperative. Your Committee believes this measure satisfies that objective by ensuring the ongoing operation of the irrigation system by the Department of Agriculture in support of local agriculture. Your Committee notes that if the primary objective cannot be met, the Department of Land and Natural Resources will pursue shutdown of the irrigation system, including breaching the reservoirs, as a last resort.

Your Committee has amended this measure by:

- Amending the reference date to determine the portions of the East Kauai Irrigation System being transferred to the Department of Agriculture from portions operated and maintained by the East Kauai Water Users' Cooperative as of July 1, 2021, to as of December 14, 2020;
- (2) Expanding the parties that the Department of Agriculture may enter into any contracts with necessary to bill and collect any fees and to operate and maintain the system;
- (3) Replacing the provision regarding all fees collected by the East Kauai Water Users' Cooperative with all fees collected from the water users of the East Kauai Irrigation System;
- (4) Adding the condition that all fees collected shall be deposited into the State's general fund until such times that the adoption of rules pursuant to chapter 91, Hawaii Revised Statutes, is completed or until the system can be operated and maintained appropriately pursuant to chapters 167 and 168, Hawaii Revised Statutes, at which time the fees will be deposited into the appropriate fund, if applicable;
- (5) Establishing the following positions within the Department of Agriculture's Agricultural Resource Management Division contingent on the date on which the system becomes a state irrigation system pursuant to chapter 91, Hawaii Revised Statutes:
 - (A) One full-time equivalent (1.0 FTE) irrigation district manager position;
 - (B) Three full-time (3.0 FTE) irrigation system worker II positions; and
 - (C) One full-time equivalent (1.0 FTE) office assistant III position; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 179, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 4 Agriculture and Environment on S.B. No. 339

The purpose and intent of this measure is to:

- Clarify that a taxpayer can claim the important agricultural land qualified agricultural cost tax credit in the third taxable year
 after application for first-year certification of the credit, rather than in any taxable year after incurring qualified agricultural
 costs; and
- (2) Extend the expiration of the important agricultural land qualified agricultural cost tax credit from December 31, 2021, to December 31, 2030.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Office of Planning, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, Ulupono Initiative LLC, and Kamehameha Schools. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that article XI, section 3, of the Hawaii State Constitution provides:

The State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self sufficiency and assure the availability of agriculturally suitable lands. The legislature shall provide standards and criteria to accomplish the foregoing.

Lands identified by the State as important agricultural lands needed to fulfill the purposes above shall not be reclassified by the State or rezoned by its political subdivisions without meeting the standards and criteria established by the legislature and approved by a two-thirds vote of the body responsible for the reclassification or rezoning action.

Your Committee further finds that to address the issue of important agricultural lands, Act 183, Session Laws of Hawaii 2005, established standards, criteria, and mechanisms to identify important agricultural lands and to implement the intent and purpose of article XI, section 3, of the Hawaii Constitution. Act 233, Session Laws of Hawaii 2008, subsequently established incentives under the requirements of Act 183, including the important agricultural land qualified agricultural cost tax credit claimed over a three-year period to help offset costs related to establishing and sustaining viable agricultural operations on important agricultural lands that play a significant role in increasing local food self-sufficiency. Your Committee acknowledges that the State's precarious financial situation due to the coronavirus disease 2019 (COVID-19) pandemic has necessitated a three year-delay for landowners or farmers who are still waiting for potential designations of important agricultural lands by the Land Use Commission.

Your Committee has amended this measure by:

- (1) Indicating in the preamble that the important agricultural land qualified agricultural cost tax credit is claimed over a three-year period, and that the State's precarious financial situation necessitates a three-year delay for a landowner or farmer of designated important agricultural lands to claim the important agricultural land qualified agricultural cost tax credit;
- (2) Making it applicable to taxable years beginning after December 31, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 339, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 5 Agriculture and Environment on S.B. No. 336

The purpose and intent of this measure is to authorize the Chairperson of the Board of Agriculture to approve agricultural and aquacultural loans in a requested amount not to exceed \$50,000, rather than \$25,000.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Ulupono Initiative LLC, and one individual.

Your Committee finds that under existing law the Chairperson of the Board of Agriculture may approve agricultural loans up to \$25,000. The Chairperson's approval authority of \$25,000 has not increased since it was originally authorized in 1982. Since that time, the costs and speed of business have increased significantly.

Your Committee further finds that access to agricultural loan resources in a timely and streamlined manner benefits local farmers and researchers. In calendar year 2020, forty percent of loans approved were for \$25,000 and sixty percent of the loans approved were for amounts less than \$25,000, indicating an intense need for faster small loan approval decisions. This measure will expedite the approval of small loans for farmers and ranchers by increasing the loan ceiling to \$50,000 to allow for more funds to be dispersed via fewer loans, which reduced overall costs and time expended by the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 336 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 6 Education on S.B. No. 144

The purpose and intent of this measure is to:

- (1) Establish a one-year school supply subsidy pilot program at Naalehu elementary school; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that Title I, Part A of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act, provides federal financial assistance to local educational agencies and schools with high percentages of children from low-income families to help ensure educational success. Your Committee further finds that a pilot program to subsidize school supplies for schools composed entirely of students eligible for participation in Title I would be a useful pilot to identify methods for relieving the financial burden of education on low-income families.

Your Committee finds that Naalehu elementary school is a school composed entirely of students eligible for participation in Title I, as many students who attend Naalehu elementary school live in rural areas and experience geographical challenges such as limited opportunities and isolation from educational resources. This measure will establish a school supply subsidy pilot program at Naalehu elementary school, which will provide teachers, staff, and administrators with the resources to provide students with a more successful learning environment.

Your Committee has amended this measure by inserting a blank appropriation amount.

Your Committee notes that that although the appropriation is blank, your Committee on Ways and Means should consider the proper appropriation amount for the one-year school supply subsidy pilot program at Naalehu elementary school.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 144, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 7 Education on S.B. No. 220

The purpose and intent of this measure is to require the Department of Education to implement a service-learning curriculum to develop student character, values, self-esteem, civic responsibility, and knowledge of local community issues and concerns though community service volunteer work.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus, Common Cause Hawaii, Hawaii Youth Services Network, Green Party Hawai'i, and sixteen individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that learning through community service volunteering activities, known as service-learning, is a powerful instructional strategy for improving the educational performance of students. Your Committee further finds that students who participate in service-learning experience numerous positive outcomes, including a positive development of character, values,

self-esteem, civic responsibility, and knowledge of local community issues and concerns; higher academic achievement; higher attendance rates; a greater sense of civic responsibility; greater acceptance of cultural diversity; increased awareness of cultural difference; positive attitudes toward helping others; greater social competency; lower dropout rates; lower disciplinary rates; and lower rates of engagement in behaviors that lead to arrest or pregnancy. This measure will implement a mandatory service-learning curriculum for students, which will help to build positive community attitudes and relationships among youths.

Your Committee has amended this measure by specifying that another purpose of the service-learning curriculum is to develop financial literacy.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 220, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 8 Education on S.B. No. 247

The purpose and intent of this measure is to:

- (1) Establish a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries:
- (2) Establish the library facilities fund; and
- (3) Require the State Librarian and Board of Education to report to the Legislature.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawaii State Public Library System.

Your Committee finds that it has been almost fifty years since all Hawaii State Public Library System properties have been reviewed. Your Committee further finds that a comprehensive planning study would greatly assist the Hawaii State Public Library System in identifying properties for the pilot program and developing a strategic plan for its long-term needs. This measure establishes a pilot program that will allow the Hawaii State Public Library System to work with the Board of Education on leasing public library land to generate income necessary to fulfill its missions.

Your Committee has amended this measure by:

- (1) Replacing references to the Board of Education with the Department of Education for the pilot program for lease of public library land; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 247, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 9 Agriculture and Environment on S.B. No. 341

The purpose and intent of this measure is to establish a state income tax exemption for taro production.

Your Committee received testimony in support of this measure from Ku-A-Kanaka LLC; Hawai'i Alliance for Progressive Action; Hawaii Food Industry Association; Hawai'i Farm Bureau; Supersistence; Food+ Policy Internship; Hawai'i SEED; and thirty-eight individuals. Your Committee received comments on this measure from the Department of Agriculture; Department of the Attorney General; Department of Taxation; Tax Foundation of Hawaii; and two individuals.

Your Committee finds that it is of critical importance to protect and perpetuate the traditional practice of taro farming as part of Hawaii's cultural identify and its role in local food security. Loi kalo, or wetland taro systems, are recognized for their potential to mitigate impacts of climate change by functioning as riparian buffers and soil capture basins. Underground foods, such as taro, can often survive hurricane or flood events and be harvested to address immediate food shortages where the capacity to store and cook food can be retained. Your Committee also finds that tax relief measures allow farmers to build structures, reinvest in their farms and businesses, and offer more attractive opportunities for the next generation to engage in taro farming, perpetuating important cultural practices and additional food security measures. This measure creates stronger economic incentives for new taro farmers, improve the livelihoods for existing taro farmers, and reduce the cost of poi for local families by exempting taro production from state income taxes for the first \$100,000 of income derived from taro, taro products, and land used to produce taro if the total amount of land used to cultivate taro in Hawaii does not exceed thirty thousand acres at any point in the year.

Your Committee has amended this measure by:

- (1) Removing the requirement that the tax exemption be limited to preparations of taro, poi, and value-added taro products exclusively made from taro grown in the State;
- (2) Clarifying the parties and their activities that would qualify for income tax exclusion;
- (3) Adding definitions for "persons engaged in taro production", "poi mill", "taro corm", and "taro huli";

- (4) Inserting language to indicate that the first \$100,000 of a person's income from the business of taro cultivation or production is excluded from their gross income for Hawaii income tax purposes;
- (5) Stipulating that the exclusion shall not apply if the Department of Agriculture determines that the thirty thousand acre threshold has been met;
- (6) Allowing the Department of Taxation to consult with the Office of Hawaiian Affairs in the administration of the tax exemption; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 341, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 10 Agriculture and Environment on S.B. No. 478

The purpose and intent of this measure is to encourage and support the growth of new, small, and diversified farming businesses by excluding from the State income tax the lesser of a percentage of gross annual income or an amount of gross annual income earned by a farmer from farming activities.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association, Hawai'i Farm Bureau, Ulupono Initiative LLC, and two individuals. Your Committee comments on this measure from the Department of Agriculture, Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii imports far more goods and services than it exports, thus creating a significant negative trade flow. Your Committee additionally notes that the growth of small, diversified farming businesses will add to and diversify Hawaii's economy and encourage more local food production. A partial tax exclusion for such businesses will not significantly affect existing tax revenue by the State, but will strengthen the State's economy, and improve the long-term economic well-being of the State as a whole.

Your Committee further finds that of Hawaii's seven thousand farmers, including all business entities, approximately nine percent earn more than seventy-five percent of their total household income from farming. By creating an exclusion from income tax for the lesser of a percentage of gross annual income or an amount of gross annual income earned by farmers for farming activities, this measure will help Hawaii address the imbalance in agricultural trade and significantly expand food production in the State.

Your Committee has amended this measure by:

- (1) Amending the definition of "farmer" and "farm products"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 478, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 11 Agriculture and Environment on S.B. No. 496

The purpose and intent of this measure is to:

- (1) Establish an agricultural import replacement task force to identify the top ten fruits or vegetables that are imported into the State but may be commercially grown in the State; and
- (2) Create the agricultural import replacement income tax credit to incentivize the production of those fruits or vegetables to obviate the need to import them into the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Food Industry Association; Ulupono Initiative LLC; Hawaiii Farm Bureau, and Supersistence. Your Committee received comments on this measure from the Department of Taxation, University of Hawaiii System, and Tax Foundation of Hawaii.

Your Committee finds that the House of Representatives' COVID Subcommittee on Agriculture and Foodstream reported that about eighty-five to ninety percent of Hawaii's food is imported, which makes the State particularly vulnerable to disruptions in shipping and the food supply. Replacing just ten percent of the food imported into the State would amount to approximately \$313,000,000, or \$94,000,000 at the farmgate, assuming a thirty percent farm share. Considering the multiplier effects, the \$313,000,000 would generate an estimated economywide impact of \$188,000,000 in sales, \$47,000,000 in earnings, \$6,000,000 in state tax revenue, and more than two thousand three hundred jobs.

Your Committee further finds that food import replacement can also have a significant impact on Hawaii's economy by decreasing the risk of introducing harmful invasive pests, which could have devastating effects on the State's agricultural economy and its fragile ecosystems and require millions in public dollars to fund eradication or containment. Therefore, your Committee finds that identification of new food crops and creating incentives to grow such crops are necessary to improve Hawaii's economy, food security, and assist in reaching the State's local food production goals.

Your Committee has amended this measure by:

- (1) Amending the membership of the task force by:
 - (A) Removing a representative from the University of Hawaii Economic Research Office;
 - (B) Adding a representative from the University of Hawaii College of Tropical Agriculture and Human Resources;
 - (C) Adding a representative from the Hawaii Farmers Union United; and
 - (D) Adding a representative from the local food distribution industry; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 496, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 496, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 12 Agriculture and Environment on S.B. No. 497

The purpose and intent of this measure is to create a manufacturing development income tax credit to incentivize the food manufacturing industry in the State.

Your Committee received testimony in support of this measure from the Hawaiian Chip Company, LLC; Chamber of Commerce Hawaii; Diamond Bakery Co., Ltd.; Spicy Ninja Sauce LLC; Hawaii Food Industry Association; Hawaii Farm Bureau; Ulupono Initiative LLC; Punahele Provisions, PBC; Retail Merchants of Hawaii; and one individual. Your Committee received comments on this measure from the Department of Agriculture; Department of Taxation; Hawaii Technology Development Corporation; and Tax Foundation of Hawaii.

Your Committee finds that the food manufacturing industry in Hawaii can help the State's food security by strengthening the link between farmers and other agricultural producers and Hawaii's small businesses that process raw fruits, vegetables, grains, meats, and dairy products into finished goods ready for the grocer or wholesaler to sell to households, restaurants, or institutional food services. Act 215, Session Laws of Hawaii 2015, created the manufacturing development program which aids manufacturing businesses in the State through grants. Every new manufacturing job created adds another 1.6 jobs to the local service economy, and for every dollar in manufacturing sales, another \$1.34 is added to the economy. Thus, investments in manufacturing can have a stronger impact than investments in other economic sectors. Your Committee finds that this measure establishes income tax credits for expenditures made to purchase food manufacturing equipment, train employees to use food manufacturing equipment, and improve the energy efficiency of operations to help fuel manufacturing in Hawaii, grow the agriculture economy, and provide more products for both local consumption and export.

Your Committee has amended this measure by making it applicable to taxable years beginning after December 31, 2021, to allow the Department of Taxation the sufficient time to make the necessary form and computer system changes.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 13 Education on S.B. No. 242

The purpose and intent of this measure is to:

- (1) Require public and charter schools to offer education in computer science; and
- (2) Require annual reports from the Department of Education.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, HawaiiKidsCAN, Code.org, Hawaii'i Society for Technology in Education, and sixteen individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the economic disruption caused by the global coronavirus disease 2019 (COVID-19) pandemic has illustrated a need to diversify Hawaii's economy beyond tourism. The pandemic has also shown the importance of digital literacy, particularly as applied to distance learning, telehealth appointments, and working from home.

Your Committee further finds that the economic disruption has increased the focus on computer science education as a key driver of both economic growth and digital literacy. A computer science pipeline can help to diversify Hawaii's economy away from tourism and into cybersecurity, green energy, robotics, and other technology-based fields. This measure will require schools to offer education in computer science, which will provide students with a knowledge in technology so that they may capitalize on growing opportunities in the computer science industry in the future.

Your Committee has amended this measure by:

(1) Specifying that the definition of "computer science" is to align with the national definition of "computer science" by Allen Tucker:

- (2) Clarifying that the annual report shall be submitted by the Department of Education and broken down by complex areas; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 242, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 14 Education on S.B. No. 463

The purpose and intent of this measure is to:

- (1) Authorize the Department of Education to develop programs to encourage the development of gardens on school property; and
- (2) Authorize the Hawaii Community Development Authority to develop programs that provide incentives to establish gardens in housing projects, communities, and schools.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that garden programs have the potential to strengthen partnerships between state agencies, improve access to healthy food options, and increase consumption of locally grown fruits and vegetables by Hawaii's youth and community members. Your Committee further finds that garden programs develop healthy food systems and reinforce positive nutrition behaviors that will reduce the risk for chronic diseases such as obesity, heart disease, diabetes, high blood pressure, and some cancers. Therefore, your Committee believes that supporting garden programs in schools, housing projects, and communities will promote public interest by encouraging proper eating habits, supporting local agriculture, and fostering interest in gardening among students and adults alike.

Your Committee has amended this measure by:

- (1) Specifying that the growing of edible and native Hawaiian plants shall be made a priority in school gardens; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 463, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 463, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 15 Education on S.B. No. 224

The purpose and intent of this measure is to:

- (1) Give a preference to students who live within the service area of a school or who enrolled in the school the previous school year in applying for participation in a career and technical education program offered by that school; and
- (2) Establish enrollment in a career and technical education program as a new exception to the requirement to attend school within the service area in which a student resides.

Your Committee received testimony in support of this measure from the Hawaii State Teacher's Association and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that a gap exists between the skills that students in the State have upon graduation from high school and the skills that employers in the State are seeking. Business leaders in Hawaii's expanding industries report that it is often difficult to recruit local applicants who have necessary skills and experiences. Your Committee further finds that educational programs specializing in career readiness and technical skills can be effective in preparing students in Hawaii to enter the State's job market. Educational initiatives at schools within the State have been established to develop students' technical skills and prepare them to enter the workforce. This measure supports those students who want to receive career and technical skills education, which will prepare students to become members of the modern workforce.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 16 Hawaiian Affairs on S.B. No. 211

The purpose and intent of this measure is to require that the Hawaiian language version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and eight individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Office of the Attorney General.

Your Committee finds that the Hawaiian language (olelo Hawaii) is the native language and speech of Hawaii. Beginning in 1846, the Kingdom of Hawaii's legislature declared that all laws enacted were to be published in both Hawaiian and English. However, by 1850, English had become the language of business, diplomacy, and the government, leading to disputes between the use of languages in Hawaii's laws. In multiple court cases, the Hawaii Supreme Court has upheld the supremacy of Hawaiian language as the governing law. In *Hardy v. Ruggles*, the Hawaii Supreme Court held that "where there is a radical and irreconcilable difference between the English and Hawaiian language, the latter must govern, because it is the language of the country." The Kingdom of Hawaii and Territory of Hawaii published all their laws both in Hawaiian and English until 1943 when the practice of publishing laws in Hawaiian was abolished by statute.

Your Committee further finds that the Hawaii State Constitutional Convention of 1978 added Hawaiian as an official language to the State Constitution to "give full recognition and honor to the rich cultural inheritance that Hawaiians have given to all ethnic groups of this State." Article XV, Section 4, of the Hawaii State Constitution provides:

"English and Hawaiian shall be the official languages of Hawaii except that Hawaiian shall be required for public acts and transactions as provided by law."

Although Hawaiian was established as an official language of the State of Hawaii through this constitutional amendment and codified in section 1-13, Hawaii Revised Statutes, English continues to be predominate and Hawaiian language access to government functions remains limited. In *In re Ross*, the Hawaii Supreme Court held that "though the Hawaiian language is the original language of [Hawaii], the English language is largely in use." This measure, therefore, reinforces the parity of Hawaiian language with the English language by requiring Hawaiian for public acts and transactions and ensuring that laws drafted in Hawaiian shall be binding over English translations.

Your Committee has heard the testimony of the Department of the Attorney General that this measure could create due process and vagueness issues. Amending section 1-13, Hawaii Revised Statutes, to allow for a version of statute to supersede the English version may lead to ambiguities in the application and interpretation of laws. Your Committee also notes concerns over whether case law concerning the precedence of Hawaiian language over English should be overridden or controlling. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committee on Judiciary further examine those issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 211, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 17 Hawaiian Affairs on S.B. No. 238

The purpose and intent of this measure is to require the names of the candidates for the Office of Hawaiian Affairs Board of Trustees to be placed on the ballot grouped by residency and non-residency requirements and to randomize the order of candidate names within those groupings.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of Elections, Common Cause Hawaii, and one individual.

Your Committee finds that under existing law, names of candidates for the Board of Trustees of the Office of Hawaiian Affairs are placed on the ballot in alphabetical order to ensure that all candidates are properly listed, which corresponds to the voting position for the vote counting system. Your Committee further finds that the ordering of candidate names on a ballot has been shown to affect election outcomes because the first name on the ballot generally has an advantage over names listed further down the ballot. A candidate listed first on a ballot increases their chances of winning by almost five percentage points and going from last to first on the ballot raises a candidate's vote share by ten percentage points. To mitigate any advantage that may arise from the order of candidate names on the ballot, this measure requires that the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs be randomized on individualized ballots.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 238, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 18 Hawaiian Affairs on S.B. No. 195

The purpose and intent of this measure is to:

- (1) Amend the process for electing the members to the Board of Trustees of the Office of Hawaiian Affairs; and
- (2) Require the Reapportionment Commission to establish a reapportionment plan based on basic island units.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General and the Office of Hawaiian Affairs.

Your Committee finds that members of the Board of Trustees of the Office of Hawaiian Affairs are elected during an at-large statewide election in which all registered voters are permitted to vote to elect all trustees. This measure provides for an election in which only qualified voters of a district within the State's four basic island units – Hawaii; Maui, Molokai, and Lanai; Oahu; and Kauai and Niihau are permitted to elect one of the nine members of the Board of Trustees for the Office of Hawaiian Affairs.

Your Committee notes the testifiers' concerns that the reapportionment of the nine-member Board of Trustees among the four basic island units may fall short of the one-person, one-vote standard established by the United States Supreme Court in *Reynolds v. Sims*, 377 U.S. 533 (1964). States must make honest and good faith efforts to construct districts with equal numbers of persons as practicable. Due to the significant disparities in population sizes among the basic island units, deviations from population equality in the reapportionment of the Board of Trustees may be required.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that all registered voters in the general election are entitled to receive an Office of Hawaiian Affairs containing the names of all candidates seeking election to the Board of Trustees within the voter's district;
- (2) Clarifying that certain procedures apply to each election to fill an available seat, rather than any election with only one available seat:
- (3) Repealing language relating to elections with three available seats without a residency requirement;
- (4) Clarifying that the final Office of Hawaiian Affairs Board of Trustees reapportionment plan shall govern the election of members until the next reapportionment plan becomes effective, rather than for five years; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 195, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 19 Hawaiian Affairs on S.B. No. 196

The purpose and intent of this measure is to amend the State Constitution to require the Reapportionment Commission to establish a reapportionment plan to draw district lines for the total number of members of the Board of Trustees of the Office of Hawaiian Affairs.

Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Office of the Attorney General and Office of the Hawaiian Affairs.

Your Committee finds that members of the Board of Trustees of the Office of Hawaiian Affairs are elected during an at-large statewide election in which all registered voters are permitted to vote to elect all trustees. This measure provides for an election in which only qualified voters of a district within the State's four basic island units – Hawaii; Maui, Molokai, and Lanai; Oahu; and Kauai and Niihau are permitted to elect one of the nine members of the Board of Trustees.

Your Committee further finds that the reapportionment of the nine-member Board of Trustees among the four basic island units may fall short of the one-person, one-vote standard established by the United States Supreme Court in *Reynolds v. Sims*, 377 U.S. 533 (1964). States must make honest and good faith efforts to construct districts with equal numbers of persons as practicable. Due to the significant disparities in population sizes among the basic island units, deviations from population equality in the reapportionment of the Board of Trustees of the Office of Hawaiian Affairs may be required.

Accordingly, your Committee notes the concerns expressed in the testimony of the Office of Hawaiian Affairs indicating that the Board of Trustees would likely lose the seat for the Trustee representing the islands of Molokai and Lanai, and that six of the nine trustee seats would likely be apportioned to Oahu, with one trustee seat for each of the remaining island units. These deviations and change in representation may raise concerns under the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution. Your Committee finds that addressing these constitutional equal representation requirements, combined with the apportionment envisioned in this measure may require a significant increase in the number of trustees on the Board of Trustees, resulting in potential increases in trust fund spending and impacts to governance from an expanded Board of Trustees.

Moreover, your Committee finds that there is uncertainty as to how the current Board of Trustees will transition to the new configuration and how all members will serve concurrent four-year terms following reapportionment.

Your Committee has amended this measure by:

- (1) Inserting language to require that at the election immediately following the adoption of the apportionment plan:
 - (A) The term of office for all members of the Board of Trustees shall end;
 - (B) The Reapportionment Commission shall assign two-year terms to a simple majority of the seats; and
 - (C) The remaining seats shall be assigned to four-year terms;
- (2) Updating the question to be printed on the ballot; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 196, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Ihara).

SCRep. 20 Hawaiian Affairs on S.B. No. 321

The purpose and intent of this measure is to provide the Office of Hawaiian Affairs with the funds to which it is entitled under article XII, section 6, of the Hawaii State Constitution and section 10-13.5, Hawaii Revised Statutes. Specifically, this measure:

- (1) Requires agencies that collect receipts related to the public land trust to transfer twenty percent of such receipts to the Office of Hawaiian Affairs on a quarterly basis;
- (2) Sets the minimum aggregate quarterly transfer of receipts to the Office of Hawaiian Affairs at \$3,775,000;
- (3) Directs the Director of Finance to transfer funds to the Office of Hawaiian Affairs in satisfaction of any quarterly shortfall;
- (4) Transfers to the Office of Hawaiian Affairs all overpayment funds collected in fiscal year 2012-2013 through fiscal year 2020-2021 from the carry-forward trust holding account established pursuant to Executive Order No. 06-06, plus any additional overpayments collected in the holding account in fiscal year 2021-2022 or 2022-2023; and
- (5) Establishes a public land trust revenues negotiating committee to make recommendations to the Legislature for resolving the matter of the amount of the income and proceeds from the public land trust that the Office of Hawaiian Affairs shall receive annually.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of Hawaiian Affairs, Hawaii Appleseed Center for Law and Economic Justice, Kūpuna for the Moʻopuna, Ka Lāhui Hawaiʻi, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Agriculture, Department of Budget and Finance, University of Hawaiʻi System, Hawaii Health Systems Corporation, Hawaii Public Housing Authority, Office of Information Practices, and League of Women Voters.

Your Committee finds that there is a constitutional obligation for the State to provide a sufficient sum of income and proceeds as the pro rata share of the public land trust for the betterment of the conditions of native Hawaiians. Act 178, Session Laws of Hawaii 2006 (Act 178), put in place annual payments of \$15,100,000 from the pro rata portion of the public land trust to the Office of Hawaiian Affairs in acknowledgment of the State's constitutional obligation. However, Act 178 was passed with the intention that it would be an interim measure until the Legislature could further assess the complexities of the issue, including in part gathering information on revenue-generating public trust lands and amounts derived from those lands. Your Committee finds that since Act 178 was passed, the Legislature has received additional information from the departments and the Office of Hawaiian Affairs on the annual amounts derived from the public land trust. For fiscal years 2011-2012, 2012-2013, 2013-2014, 2014-2015, 2015-2016, 2016-2017, 2017-2018, 2018-2019, and 2019-2020, the State reported to the legislature total gross Public Land Trust receipts in the amounts of \$150,939,203, \$159,971,589, \$163,322,176, \$178,043,261, \$177,617,893, \$202,528,564, \$225,079,055, \$289,767,657, and \$229,631,870 respectively, or an average of \$197,433,474 over the last nine fiscal years. Twenty per cent of the average reported gross receipts for fiscal years 2011-2012 through 2019-2020 is \$39,486,695. The Office of Hawaiian Affairs states that it is in the interests of the Office of Hawaiian Affairs, its beneficiaries, and the State to use that information to enact an updated interim legislative measure regarding the Office of Hawaiian Affairs' constitutional pro rata share of the public lands trust.

Despite the ongoing, urgent economic crisis faced by the State, this measure does not require any general fund appropriations, nor does it require state agencies to set aside more funds than they are already required. This measure intends to ensure that the full twenty percent of public land trust receipts that agencies set aside as native Hawaiians' pro rata share can be used to benefit native Hawaiians.

Your Committee has heard the concerns of the Department of the Attorney General that this measure would require all agencies collecting receipts from the public land trust to indiscriminately transfer twenty percent of such receipts to the Office of Hawaiian Affairs. In Office of Hawaiian Affairs v. State, 96 Haw. 388, 31 P.3d 901 (2001), the United States' Supreme Court ruled that a twenty percent transfer requirement as applied to the Department of Transportation's airport revenues conflicted with federal transportation statutes. Therefore, this measure's return to a twenty percent transfer requirement for all agencies may raise issues of preemption.

Furthermore, your Committee notes the concerns of the Department of the Attorney General and Department of Budget and Finance regarding the carry-forward trust holding account established by Executive Order 06-06, due to the financial strain caused by the coronavirus disease-2019 (COVID-19) pandemic, which has had a negative impact on the ability of state agencies to collect revenue that may result in insufficient sums to meet the minimum \$3,775,000 quarterly payments.

Your Committee has also heard the concerns of the University of Hawai'i System citing article X, section 5, of the Hawaii State Constitution, which states that the University shall have title to all real and personal property conveyed to it, which shall be held in public trust to further its purposes as a model indigenous-serving university.

Your Committee has additionally heard the concerns of the Hawaii Health Systems Corporation, Department of Agriculture, Department of Land and Natural Resources, and the Hawaii Public Housing Authority that this measure places undue hardships on their agency operations.

Your Committee has heard the concerns of the Office of Information Practices that the measure as drafted would exempt the public land trust revenues negotiation committee from being subject to chapter 92, Hawaii Revised Statutes, because this exemption creates the appearance that the sensitivity of negotiations precludes public participation in the process.

Accordingly, in response to the numerous concerns of the testifiers, your Committee has amended this measure by:

- (1) Updating dollar amounts referenced in section 1;
- (2) Inserting language in Section 1 to acknowledge the sensitive nature of anticipated negotiations and provide an explanation for the exemption of the public land trust revenues negotiating committee from part I of chapter 92, Hawaii Revised Statutes;
- (3) Clarifying that the quarterly transfer of receipts shall occur unless precluded by federal law;
- (4) Inserting a blank dollar amount for the minimum total amount of receipts transferred to the Office of Hawaiian Affairs for any fiscal quarter;
- (5) Inserting a definition for the term "receipt";
- (6) Inserting a blank dollar amount required to be left in the holding account to act as contingency payments;
- (7) Clarifying that the public land trust revenues negotiating committee is exempt from part I of chapter 92, Hawaii Revised Statutes, rather than the entire chapter;
- (8) Inserting language to clarify that:
 - (A) Nothing in this measure shall resolve or settle the claims of native Hawaiians to the income and proceeds of a pro rata portion of the public land trust under article XII, section 6 of the Hawaii State Constitution; and
 - (B) Any funds transferred shall be deemed income and proceeds from the public land trust, just as if the funds had been paid out of the income and proceeds from the public land trust pursuant to article XII, section 6, of the Hawaii State Constitution; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 321, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 21 Hawaiian Affairs on S.B. No. 389

The purpose and intent of this measure is to appropriate funds for the operating expenses of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Kūpuna for the Moʻopuna, Hawaii Appleseed Center for Law and Economic Justice, and fourteen individuals.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency, established by Article XII, Section 4 and Article XI, Section 5, of the Hawaii State Constitution and Chapter 10, Hawaii Revised Statutes, that is responsible for improving the well-being of native Hawaiians and Hawaiians. This measure appropriates funds for the Office of Hawaiian Affairs' operating budget in support of plans for the upcoming biennium and is vital to fulfilling the mandates of the Office of Hawaiian Affairs.

Your Committee has amended this measure by:

- (1) Inserting a blank dollar amount for all appropriations of general funds and trust funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriations are blank, the Office of Hawaiian Affairs' testimony requests an appropriation of the following sums:

- \$415,000 in general funds and \$415,000 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 for referral services and case management to at-risk Office of Hawaiian Affairs beneficiaries for financial assistance to improve stability during emergency situations;
- (2) \$615,000 in general funds and \$615,000 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 for educational improvement programs for native Hawaiian students; and
- (3) \$524,400 in general funds and \$524,400 in trust funds for fiscal year 2021-2022 and the same sums for fiscal year 2022-2023 to provide for legal services and legal representation.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2021, or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests that your Committee on Ways and Means incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 389, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 22 Judiciary on S.B. No. 294

The purpose and intent of this measure is to:

- (1) Restrict civil asset forfeiture to cases involving the commission of a felony offense where the property owner has been convicted of an underlying felony offense; and
- (2) Direct any forfeiture proceeds to the general fund.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Libertarian Party of Hawaii, Americans for Democratic Action Hawaii, Young Progressives Demanding Action, American Civil Liberties Union of Hawaii, LGBT Caucus of the Democratic Party of Hawaii, Community Alliance on Prisons, Common Cause Hawaii, and seventeen individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Hawaii Police Department, and Maui Police Department. Your Committee received comments on this measure from the Department of the Attorney General, Department of Public Safety, and Grassroot Institute of Hawaii.

Your Committee finds that existing civil asset forfeiture procedures in Hawaii allow law enforcement agencies to seize and keep property based on suspicion that the property is connected to criminal activity. Your Committee further finds that this property can be taken without the property owner having been convicted of a crime or even being formally accused of one. Your Committee additionally finds that the State's civil asset forfeiture laws were established over thirty years ago and are in need of updates and refinement.

Your Committee acknowledges the issue raised by a number of testifiers on this measure that the proceeds from civil asset forfeitures supplement the budgets of law enforcement agencies and support important programs relating to public safety. However, your Committee finds that the purpose of civil asset forfeiture should not be addressing budget shortfalls.

Your Committee has amended this measure by:

- (1) Removing language relating to the 2018 Auditor's report from the purpose section;
- Clarifying that the restrictions on civil asset forfeiture shall not prohibit forfeitures authorized under other chapters of the Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 294, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 23 (Majority) Agriculture and Environment on S.B. No. 232

The purpose and intent of this measure is to:

- (1) Increase the maximum civil penalty for littering from \$500 to \$1,000; and
- (2) Increase the maximum fine for the offense of criminal littering from \$1,000 to \$5,000.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association and one individual.

Your Committee finds that littering is costly, portrays a negative picture of an area and is dangerous to the environment. Litter can cause physical harm and injury, especially needles, broken glass, highway debris, and improperly disposed of cigarette butts that may spark fires. Littering can also contribute to the spread of disease and pollute the environment as toxic chemicals leach into waterways and soils. Furthermore, when litter drifts out to sea, animals may ingest the plastic which creates health problems, including depletion of nutrients and causing animals to die. Additionally, toxins ingested by animals may cause blood clotting, seizures, or other serious issues. Toxic waterways may also kill off surrounding plant life in riverbanks, soil, and the air, compromising the health of the ecosystems and the animals and humans that rely on the health of the ecosystem. Your Committee finds that littering fines must be increased to reflect the seriousness of the offense, be sufficient to deter individuals from littering, and demonstrate the State's commitment to protecting the natural environment.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 232 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Acasio). Excused, none.

SCRep. 24 Agriculture and Environment on S.B. No. 345

The purpose and intent of this measure is to:

- (1) Prohibit manufacturers from importing, selling, or offering for sale any cosmetic tested on animals, on or after January 1, 2022, with certain exceptions; and
- (2) Incentivize cosmetic companies to push for the development and acceptance of additional non-animal testing methods.

Your Committee received testimony in support of this measure from Pono Advocacy, Cruelty Free International, The Body Shop, Personal Care Products Council, The Humane Society of the United States, O'o Hawaii, and eight individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that testing cosmetics on animals is cruel and increasingly unnecessary, as there are now thousands of cosmetic ingredients whose effects have already been tested and compiled. Your Committee further finds that alternatives to animal testing are available, some of which provide better predictors of adverse human reactions to new chemical compounds than animal testing. Your Committee notes that the prohibition on the sale of cosmetics tested on animals included in this measure is not unique, as similar prohibitions have already been adopted by California, Nevada, Illinois, Israel, Norway, India, Switzerland, and the European Union

Your Committee further notes that this measure is not intended to penalize retailers or consumers who rely on manufacturers to meet state laws or rules, nor is its intent to prohibit the continued import or export of cosmetic products in the State from or to other countries if the safety of the product sold in the State does not rely on data from animal testing that was performed after 2021.

Your Committee has amended this measure by:

- (1) Placing the new language to prohibit a manufacturer from importing or selling any cosmetic product in Chapter 328, Hawaii Revised Statutes (Food, Drugs, and Cosmetics), rather than Chapter 321, Hawaii Revised Statutes (Department of Health); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 345, S.D. 1, and be referred to your Committees on Judiciary and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 25 Agriculture and Environment on S.B. No. 347

The purpose and intent of this measure is to prohibit the intentional release of balloons inflated with a gas that is lighter than air.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Reef and Ocean Coalition, The Humane Society of the United States, Beach Environmental Awareness Campaign Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, five individuals, and a petition signed by over fifteen hundred individuals.

Your Committee finds that the release of balloons inflated with lighter-than-air gases poses a danger and nuisance to the environment, particularly to wildlife and marine animals. Many animals are attracted to the bright colors of balloons and mistake them for food, which can cause an animal severe injury or death. Animals are often found entangled in balloon strings and as a result are injured or strangled to death.

Your Committee further finds that any benefit provided by the intentional release of balloons is de minimis at best. Your Committee notes that there are numerous other ecologically friendly options to celebrate or commemorate events. Therefore, your Committee finds that to ensure the safety of wildlife and marine animals and protect the environment, the intentional release of balloons filled with lighter-than-air gas should be prohibited, except under certain circumstances.

Your Committee has amended this measure by inserting language finding that several states, including California, Connecticut, Florida, New Jersey, Tennessee, and Virginia, as well as numerous counties in other states have prohibited the release of balloons inflated with lighter-than-air gases.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 347, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 26 Agriculture and Environment on S.B. No. 348

The purpose and intent of this measure is to repeal the requirement that noncarbonated bottled water not be transported, stored, processed, or bottled in or through lines or equipment through which any food product other than water is passed.

Your Committee received testimony in support of this measure from Maui Brewing Company, Hawaii Food Industry Association, Sierra Club National Marine Team, Ball Corporation, Ko Olina Resort Hawai'i, Mananalu, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Americans send more than thirty-eight billion water bottles to landfills every year, while only thirty percent of water bottles are placed in a recycling bin. Aluminum cans, however, are recycled twice as often as plastic, glass, and cartons. Unlike single-use plastic bottles, one hundred percent of the aluminum can is recyclable, meaning the material from one aluminum can or bottle can be used to make another aluminum can without any new material. This closed loop cycle can take as little as sixty days.

Your Committee further finds that many carbonated soft drink companies in other states also produce canned noncarbonated water with the same equipment used to make their other products. However, existing state law expressly prohibits carbonated soft drink, juice, and beer operations from using the same equipment to can noncarbonated bottled water. Hawaii bottled water manufacturers are required to comply with a United States Food and Drug Administration's (FDA) rule that is outdated and has been superseded by another FDA rule. Complying with the outdated FDA rule is costly and unfairly and unnecessarily limits local beverage filling companies that manufacture other products from providing noncarbonated water in aluminum cans to consumers as an alternative to single-use plastic water bottles. Lifting this constraint would allow beverage companies in the State to expand their businesses by

putting still water in aluminum cans meeting the growing demand for water in sustainable packaging while continuing to invest in the local economy. Accordingly, this measure repeals the existing restriction.

Your Committee has amended this measure by:

- (1) Updating section 328D-2, Hawaii Revised Statutes, to reflect current rules of the FDA regarding product quality standards for bottled water found in 21 C.F.R. section 165.110; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 348, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 27 Agriculture and Environment on S.B. No. 351

The purpose and intent of this measure is to repeal:

- (1) The statutory requirement for the Environmental Council to prepare an annual report by January 31 of each year;
- (2) The provision in Chapter 343, Hawaii Revised Statutes, whereby an applicant can appeal a non-acceptance determination on its final environmental impact statement directly to the Environmental Council; and
- (3) References to the environmental center in various sections of chapter 341, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Environmental Quality Control, State Environmental Council, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Environmental Council does not have its own budget and relies on volunteers to complete its annual report. There is uncertainty about whether the annual report is serving its statutory function of providing recommendation for improvement of the progress of state, county, and federal agencies in achieving the State's environmental goals and policies. Thus, your Committee notes the testimony of the State Environmental Council that it should not be held to the requirement to produce an annual report if it no longer serves its intended purpose and seeks to spend its efforts in other roles, such as community outreach and developing guidance on rules regarding environmental impact statements.

Additionally, your Committee finds that under Section 343-5, Hawaii Revised Statutes, appeals for a non-acceptance determination on its final environmental impact statement can be appealed directly to the Environmental Council. Given that the Environmental Council is not proficient to function as a quasi-judicial body due to a lack of resources, equipment, and staffing, and because determination of the sufficiency of an environmental impact statement properly lies with technical experts at relevant agencies reviewing these documents, your Committee has determined that appeals of this nature should not fall under the Environmental Council's purview.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 351, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 28 Agriculture and Environment on S.B. No. 502

The purpose and intent of this measure is to propose an amendment to article I of the Hawaii State Constitution to guarantee all individuals the right to a clean and healthy environment.

Your Committee received testimony in support of this measure from Life of the Land, Our Revolution Hawaii, Imua Alliance, Kauai Climate Action Coalition, Surfrider Foundation Hawaii'i Region; 350Hawaii.org, Kūpuna for the Moʻopuna, Hawaii Reef and Ocean Coalition, Green Amendments for the Generations, and twenty-four individuals. Your Committee received testimony in opposition to this measure from the Center for Biological Diversity. Your Committee received comments on this measure from the Department of the Attorney General and NAIOP Commercial Real Estate Development Association Hawaii Chapter.

Your Committee finds that the goals of this measure are to:

- Advance better government decision-making that will advance economic development, business and community interests in a
 way that avoids environmental pollution and harm to avoid the costs, health harms, lost property values, diminished quality of
 life, and other adverse impacts that pollution and environmental degradation cause; and
- (2) Support government actions, community and business interests that are beneficial for environmental protection, such as advancing clean energy projects, environmentally beneficial development, bans on plastic, or other government efforts intended to proactively advance environmental protection and benefits.

Your Committee finds that the language of the proposed constitutional amendment in this measure recognizes and protects the alienable rights of all people, including future generations, to clean water, clean air, a stable climate, and healthy environments and

makes clear that government's duties, as a trustee, to protect the environment for the benefit of the residents and future generations of their states. Clean water, clean air, a stable climate, and a healthy environment are essential for supporting physical, mental, and economic health of the State's residents and their placement in the Hawaii State Constitution would confirm the self-executing nature of the provision and liken the right to a healthy environment with other fundamental rights, like freedom of religion, freedom of speech, property rights and due process rights. Recognizing the right to a clean and healthy environment in the Hawaii State Constitution would ensure a proper and equitable balance of these rights by the legislative and judicial branches of government.

Your Committee further finds that while the State has strong constitutional and statutory environmental protections, there are still a plethora of ongoing environmental justice issues. Minority, indigenous, and immigrant communities continue to be targeted for highly polluting and environmentally and culturally degrading activities. In addition, poor implementation, and politically expedient rollbacks of protections are commonplace. This proposed constitutional amendment seeks to encourage sustainable, environmentally protective, and innovative development, industry, and business growth by providing powerful incentives for government officials to render decisions that advance economic objectives while protecting natural resources critical to sustaining healthy ecosystems.

Your Committee has amended this measure by deleting language that would have provided that the reserved environmental rights may not be diminished through the interpretation or implementation of article XI, section 9, of the Hawaii State Constitution.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 29 Agriculture and Environment on S.B. No. 582

The purpose and intent of this measure is to amend the definition of "water pollutant" as used in chapter 342D, Hawaii Revised Statutes, to include plastic.

Your Committee received testimony in support of this measure from Surfrider Foundation Hawai'i Region, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, He'eia National Estuarine Research Reserve, Center for Biological Diversity, Sustainable Coastlines Hawai'i, Zero Waste O'ahu, and twenty individuals. Your Committee received testimony in opposition to this measure from the Department of Health and American Chemistry Council. Your Committee received comments on this measure from Life of the Land.

Your Committee finds that the Environmental Protection Agency recognizes that most of the trash that pollutes the nation's waters is plastic trash. Additionally, the Environmental Protection Agency held that seventeen water bodies around the Hawaiian islands are impaired by plastic pollution. Plastic pollution poses a serious threat to the State's water quality and vulnerable marine ecosystems, killing and injuring thousands of seabirds, sea turtles, and other marine mammals after ingestion or entanglement. Plastic never fully biodegrades or decomposes, but instead breaks into smaller pieces that is readily dispersed by water and wind. Microplastics have emerged as a major threat to marine wildlife, water quality, and human health because of its ability to absorb environmental toxins and be eaten by fish, other marine life, and proceeds through the food chain until eventually consumed.

Additionally, your Committee finds that on March 30, 2020, the Environmental Protection Agency issued a final ruling, rescinding its approval of the 2018 Hawai'i List of Impaired Waters under Clean Water Act (CWA), Section 303(d), citing specifically that "the State's submission does not demonstrate that it has satisfied its statutory and regulatory obligation to assemble and evaluate all existing and readily available water-quality data and information, specifically for plastic trash related to plastics."

Your Committee acknowledges the testimony of the Department of Health expressing concerns that the addition of "plastic" to section 342D-1, Hawaii Revised Statutes, is unnecessary and redundant as plastics are a subset of garbage and solid refuse, both of which are already defined as pollutants.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 582, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 30 Agriculture and Environment on S.B. No. 777

The purpose and intent of this measure is to establish the crime of the destruction of a tree on state or county property punishable as a misdemeanor

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Trees for Honolulu's Future, and the Lani-Kailua Outdoor Circle.

Your Committee finds that trees are integral tools in tackling the climate crisis. In addition to carbon sequestration, trees reduce ambient temperatures and storm water runoff, increase wildlife habitat, and provide human health, psychological, and quality of life benefits. New seedlings can take years before they realize ecological and human health benefits; however, existing mature trees already provide significant benefits, underscoring the importance of their protection. Establishing criminal penalties to apply to destruction of trees would strengthen enforcement capabilities and allow for greater protection, preservation, and enhancement of

natural resources, while providing an opportunity for education about the benefits of trees, which may result in impacts beyond issuing penalties.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 31 Education on S.B. No. 518

The purpose and intent of this measure is to:

- Require the Department of Education to establish and implement a sexual abuse prevention education program to educate
 public school students on sexual abuse prevention, provide relevant training to teachers and staff, and inform parents and
 guardians about important child sexual abuse topics;
- (2) Require the Board of Education to adopt policies to effectuate the program;
- (3) Require reports to the Legislature; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network, Parents and Children Together, The Sex Abuse Treatment Center, Democratic Part of Hawaii Education Caucus, Imua Alliance, and three individuals. Your Committee received comments on this measure from the Department of Education and Hawaii State Public Charter School.

Your Committee finds that sexual abuse remains a serious and ongoing threat to the safety, health, and well-being of children in the State of Hawaii. Your Committee further finds that although there are programs and Department of Education-approved curricula that provide both training to Department of Education teachers and staff and sexual abuse prevention education to students, implementation of these programs is not consistent across the Department of Education and resources to provide this training and education are limited. Consequently, students may not receive regular, consistent child abuse prevention education, nor are parents informed about child sexual abuse topics. In addition, many teachers and staff do not receive proper training on how to talk to children about child sexual abuse prevention, the effects of this abuse on children, how to handle sexual abuse disclosures, and mandatory reporting. This measure will establish a sexual abuse prevention education program in schools, which will equip students, school personnel, and parents with the skills they need to keep children safe from sexual abuse.

Your Committee has amended this measure by:

- (1) Specifying that charter schools are included in the sexual abuse prevention education program;
- Specifying that the Board of Education must adopt policies to effectuate the sexual abuse prevention education program for public and charter schools;
- (3) Specifying that charter schools are allowed to participate and collaborate with the Department of Education in the development of the sexual abuse prevention education program;
- (4) Inserting a blank appropriation amount for the State Public Charter School Commission to implement the sexual abuse prevention education program; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 518, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 32 Education on S.B. No. 807

The purpose and intent of this measure is to require the Department of Education to submit an annual report on the school academic and financial plans to the Board of Education and the Legislature.

Your Committee received testimony in support of this measure from the HE'E Coalition and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that, currently, the Department of Education's academic plan and financial plan are two separate documents that are difficult to consider together. Your Committee further finds that it would be better to have a single consolidated report that illustrates how the use of financial resources impacts student outcomes. Requiring a consolidated report will allow for more transparency and accountability in Hawaii's school system.

Your Committee has amended this measure by:

- (1) Specifying that the educational outcomes in the academic plan must have a clear description of priority improvement strategies and measures to determine progress;
- (2) Clarifying that the inclusion of National Assessment of Educational Progress scores in the academic plan applies to those schools that participate in that assessment; and
- (3) Specifying that the academic plan must include the last three years of Strive HI scores.

Your Committee notes that HE'E Coalition suggested that there be continuous monitoring of academic plans by complex areas and state leadership to support schools' progress.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 807, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 807, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 33 Education on S.B. No. 812

The purpose and intent of this measure is to:

- (1) Require the superintendent to serve as the summer learning coordinator and coordinate all summer programs for children; and
- (2) Require the summer learning coordinator to leverage certain federal funds for school-based summer programs.

Your Committee received testimony in support of this measure from the Hawai'i Afterschool Alliance, Hawai'i Children's Action Network Speaks!, After-School All-Stars Hawaii, Hawai'i Arts Alliance, Kaho'omiki, Parents and Children Together, HE'E Coalition, and eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education and Department of Human Services.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic resulted in students suffering from learning loss, especially those students that are the most vulnerable or coming from low-income families. Your Committee further finds that summer months should be utilized to provide students with coordinated summer programs so that students can close the achievement gap and be provided deeper learning and extra help in order to recover from the learning loss that resulted from school closures and disrupted schedules. Summer programs may also assist in addressing students' mental health, promoting physical activity, and allowing parents and caregivers time to return to work or seek employment. This measure will require the superintendent to coordinate summer programs, which will provide students with the support they need to overcome any learning loss or lack of social or mental benefits derived from regular school activities.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 812, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 812, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 34 Human Services on S.B. No. 409

The purpose and intent of this measure is to expressly include "coercion" as a means by which to advance prostitution in the commission of the offense of sex trafficking.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Maui Police Department, City and County of Honolulu Department of the Prosecuting Attorney, IMUAlliance, The Sex Abuse Treatment Center, and six individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the use of coercion is a common factor in sex trafficking, which is on the increase throughout the State. This measure provides an expanded definition of "coercion", which will provide additional means for law enforcement to protect victims and hold traffickers accountable. Your Committee also finds that adding "coercion" to the statute reflects the realistic means by which traffickers compel victims into prostitution.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.B. No. 409 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 35 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1111

The purpose and intent of this measure is to:

- (1) Establish the Hawaii State Fusion Center as a program under the Office of Homeland Security; and
- (2) Establish the position of Hawaii State Fusion Center Director who shall be state-funded, permanently exempt from chapter 76, Hawaii Revised Statutes, responsible to the Director of Homeland Security, and accountable to manage the operations of the Hawaii State Fusion Center.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Transportation, Office of Enterprise Technology Services, Hawaii Emergency Management Agency, Hawaii State Energy Office, Board of Water Supply of the City and County of Honolulu, National Insurance Crime Bureau, Retail Merchants of Hawaii, and two

Your Committee finds that on December 20, 2010, the State was designated as the seventy-seventh fusion center by the United States Department of Homeland Security. The Hawaii Fusion Center has been a vital resource for the State, serving as a center for federal, state, and county agencies to coordinate their efforts in receiving and sharing important security information. As security threats increase, it is essential that the State maintains the ability to coordinate the efficient and effective sharing of security information across all levels of government. This measure officially establishes the Hawaii Fusion Center and the position of the Hawaii State Fusion Center Director.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1111 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 36 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 698

The purpose and intent of this measure is to:

- (1) Exempt members of a County Council from the limitation on the number of members that may attend an informational meeting or presentation on matters relating to official board business, including a meeting of another entity, legislative hearing, convention, seminar, or community meeting; and
- (2) Clarify that those meetings shall be meetings that are open to the public for purposes of permitted interactions.

Your Committee received testimony in support of this measure from the Hawaii State Association of Counties. Your Committee received testimony in opposition to this measure from the Office of Information Practices, Civil Beat Law Center for the Public Interest, League of Women Voters, and Society of Professional Journalists Hawaii Chapter. Your Committee received comments on this measure from Common Cause Hawai'i.

Your Committee finds that informational meetings and presentations open to the public provide the opportunity for individuals who have an interest to attend and learn more about the subject matter being discussed. However, there is currently limited flexibility under state law for a county council member to attend such meetings and presentations as an individual with a similar private interest. This measure allows council members to stay informed on developing policy issues throughout their respective counties to fulfill their duty and better serve the public.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to your Committee on

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1107

The purpose and intent of this measure is to establish the hazard mitigation special fund for the Hawaii Emergency Management

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawaii Emergency Management Agency; The Maritime Group, LLC; and AARP Hawai'i.

Your Committee finds that section 127A-18, Hawaii Revised Statutes, allows certain personnel to enter private property in the absence of an emergency or disaster, with notice to the landowner and occupant, to address dangerous trees and unstable rock and soil conditions and mitigate flood hazards. Creation of the special hazard mitigation fund will provide the Hawaii Emergency Management Agency a dedicated funding source for personnel to mitigate situations deemed hazardous to the health and safety of the public through the actions identified in statute. This measure will provide a funding source to allow this important work to continue.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1107, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 38 Education on S.B. No. 809

The purpose and intent of this measure is to appropriate funds for public school positions and the Hawaii teacher standards board.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i Teacher Standards Board, and Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that funding for public school positions and the Hawaii Teacher Standards Board will help to increase alternative pathways to teacher licensure and more effectively allow out-of-state teachers to gain licensure in the State. This measure will help increase the number of licensed teachers in Hawaii and, thereby, reduce the current teacher shortage.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 39 Education on S.B. No. 805

The purpose and intent of this measure is to:

- (1) Make the exemption from the behavior analyst licensing requirements permanent for certain teachers working in collaboration with a licensed behavior analyst or licensed psychologist;
- (2) Clarify exemptions from licensure as a behavioral analyst for general education teachers, direct support workers, special education teachers, and teacher trainees working in collaboration with or under the supervision of licensed professionals; and
- (3) Exempt licensed special education teachers and individuals in approved and accredited special education training programs who are working toward licensure as special education teachers whose scope of practice and training includes applied behavior analysis.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i Psychological Association, Special Education Advisory Council, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association, Autism Behavior Consulting Group Hawaii, and five individuals. Your Committee received comments on this measure from the Department of Education, Together For Our Keiki, Hawaii Association for Behavioral Analysis, Hawaii Disability Rights Center, Horizons Academy, and twenty-three individuals.

Your Committee finds that many students enrolled in public schools would benefit from the expansion of behavior analysis services throughout Hawaii's public school system. However, under existing law, there is a deadline after which teachers will no longer be allowed to implement these services. This measure ensures that teachers will be able to continue to implement these services in direct collaboration with a licensed behavioral analyst or licensed psychologist.

Your Committee has amended this measure by:

- (1) Deleting language that would have exempted from licensure a licensed special education teacher and an individual who is working toward licensure as a special education teacher and who is enrolled in a state-approved and nationally-accredited special education teacher preparation program that includes training in behavior analysis assessment and interventions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 805, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 805, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 40 Education on S.B. No. 811

The purpose and intent of this measure is to require the department of education to publish a weekly report on schools that have cases of coronavirus disease 2019 (COVID-19) cases.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and two individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that although the Department of Education has stated that it has communication policies and set procedures in place to address COVID-19 cases, it generally has not provided information about positive COVID-19 test result cases on all school campuses and the limited information that it has shared has been inconsistent and incomplete. The Committee further finds, in particular, that the Department of Educations does not publicize positive COVID-19 cases listed by school. This measure will require that the Department of Education reports positive COVID-19 cases, which will allow students, teachers, and communities to make informed decisions on how to proceed.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 811 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 41 Education on S.B. No. 806

The purpose and intent of this measure is to require the Attorney General of the State of Hawaii, on behalf of the Department of Education, to institute proceedings to acquire certain land owned by the Mililani Town Association by voluntary action or condemnation.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Mililani Town Association owns a parcel of land that fronts Mililani High School. Mililani High School desires to build an access ramp on this parcel that is compliant with the Americans for Disabilities Act to allow students, staff, family members, and the general public access to the school. Mililani Town Association is amenable to this construction and would like to avoid the potential for liability by transferring title to the parcel to the State. This measure provides a legal process for the friendly condemnation of the parcel by the State in a manner agreeable to all parties.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 806 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 42 Judiciary on S.B. No. 309

The purpose and intent of this measure is to add the intentional disclosure or threat of disclosure of certain types of deep fake images or video to the offense of violation of privacy in the first degree.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Imua Alliance; Screen Actors Guild – American Federation of Television and Radio Artists Hawaii Local; International Longshore and Warehouse Union Local 142; Iron Workers Stabilization Fund; International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers; Hawaii State AFL-CIO; and eight individuals. Your Committee received testimony in opposition to this measure from the Motion Picture Association – America.

Your Committee finds that in 2019, the legislature established the twenty-first century privacy law task force (task force), whose membership consisted of individuals in government and the private sector with an interest or expertise in privacy law in the digital era. Your Committee additionally finds that one of the recommendations made by the task force was that the State protect the privacy of a person's likeness by adopting laws that prohibit the unauthorized use of deep fake technology, which is advancing rapidly and is easily sharable on social media. Your Committee further finds that deep fake technology enables the creation of synthetic media in which a person in an existing image or video is replaced with the likeness of another person, and that this technology can be used to insert the likeness of a person into media that is pornographic or otherwise inappropriate or damaging to the person.

This measure will provide increased privacy protections by adding certain inappropriate and harmful uses of deep fake technology to the offense of violation of privacy in the first degree.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 309, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 43 Judiciary on S.B. No. 343

The purpose and intent of this measure is to:

- (1) Establish the offense of bestiality as a class C felony; and
- (2) Provide that bestiality is a class B felony if the offense subjects a minor to sexual contact with an animal or is committed in the presence of a minor.

Your Committee received testimony in support of this measure from the Prosecuting Attorney of the City and County of Honolulu, Humane Society of the United States, Hawaiian Humane Society, Hawaii Association of Animal Welfare Agencies, Pono Advocacy, Animal Rights Hawai'i, Animal Interfaith Alliance, and sixty-three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that sexual assault on an animal has been significantly linked to the sexual abuse of children, as well as interpersonal violence and other forms of animal cruelty. Your Committee further finds that, although Hawai'i has strong animal cruelty laws, some acts of sexual assault on animals cannot be prosecuted under animal cruelty laws because they do not cause bodily injury. This measure will allow law enforcement officers to better identify potentially dangerous and violent sexual predators in their communities.

Your Committee has amended this measure by:

- (1) Removing redundant language regarding subjecting an animal to sexual contact in the presence of a minor;
- (2) Replacing the term "bestiality" with "sexual assault on an animal" throughout the measure; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 343, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 44 Judiciary on S.B. No. 399

The purpose and intent of this measure is to:

- (1) Provide that certain rights shall be deemed waived if a preliminary determination of probable cause is rendered during a chapter 92, Hawaii Revised Statutes, meeting and the person fails to request a contested case hearing within 20 days of receipt of the preliminary determination; and
- (2) Allow the Campaign Spending Commission to have an order confirmed as a judgment by the first circuit court, giving the order the same force and effect as any other judgment issued by the circuit courts; provided that there shall be no appeal from the judgment.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and League of Women Voters. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Campaign Spending Commission is unable to issue a fine against a person without providing the person with written notice and an opportunity to be heard at a hearing. Your Committee further finds that a person may waive these rights by written stipulation or consent. Your Committee additionally finds that the enforcement actions of the Campaign Spending Commission can be delayed if a person declines to participate in the hearing process. This measure will establish an implied waiver of a person's rights to notice and to be heard at a contested case hearing if the person fails to request a hearing within twenty days of a preliminary determination, and will allow the Commission to file orders with the First Circuit Court and enable those orders to be enforceable and collectable in the same manner as other judgments of the court.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 399, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 45 Judiciary on S.B. No. 400

The purpose and intent of this measure is to clarify that increased fines may apply if a candidate committee or noncandidate committee fails to timely file the preliminary primary or preliminary general report due ten days before the primary or general election.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and seven individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Campaign Spending Commission requires candidate and noncandidate committees to file a series of reports prior to an election. Your Committee further finds that the language establishing these reporting requirements is periodically in need of clarifying updates as the requirements are refined and amended. This measure clarifies that increased fines may apply if a committee fails to timely file certain reports.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 400, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 400, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 46 Commerce and Consumer Protection on S.B. No. 206

The purpose and intent of this measure is to prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program or requirements related to participation in housing assistance programs, in real estate transactions and requirements.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Governor's Coordinator on Homelessness, Hawai'i State Commission on the Status of Women, Hawai'i Civil Rights Commission, American Civil Liberties Union of Hawai'i, Rainbow Family 808, LGBT Caucus of the Democratic Party of Hawaii, Imua Alliance, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that homelessness remains one of the most pressing challenges facing Hawaii, due in large part to the high cost of living and lack of affordable housing in the State. As a result of the pandemic-related economic downturn, it is anticipated that the number of homeless individuals will significantly increase at a far greater magnitude than what followed the Great Recession. The

Section 8 Housing Choice Voucher Program (Section 8) is one of the federal government's primary programs for assisting very low-income families, the elderly, and the disabled to have access to decent, safe, and sanitary housing in the private market.

Despite the Section 8 program currently bringing over \$38,000,000 into the State every year (primarily on Oahu), many landlords advertise "No Section 8" on rental listings, or refuse to consider Section 8 participants, simply because they assume that they will not be good tenants. However, the Section 8 program is a vitally important part of the State's efforts in addressing the affordable housing needs of low-income families, all of whom must first undergo criminal background, sex offender, and Homeland Security screenings before being given a voucher to pursue a rental unit. Because there is no general federal law that prohibits discriminating against a tenant based on "source of income", including Section 8 vouchers, this measure is critically necessary to break down this significant barrier to accessing affordable housing and to improve geographic mobility for low-income families.

Your Committee has amended this measure by:

- (1) Amending section 1 to further clarify this measure's importance;
- (2) Increasing the maximum penalty from \$500 to \$5,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 206, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 206, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 47 Commerce and Consumer Protection on S.B. No. 562

The purpose and intent of this measure is to:

- (1) Clarify that any person who offers free or reduced rate shipping to a consumer in another state but who refuses to honor that shipping offer to a consumer in Hawaii has engaged in an act that is unfair and deceptive under certain conditions; and
- (2) Extend remedies.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Department of the Attorney General.

Your Committee finds that many companies offer free or reduced rate shipping to consumers in the United States, but for many consumers in Hawaii, these companies will refuse to honor these offers once a Hawaii zip code is entered. This measure would establish the offering of free or reduced rate shipping to a consumer in another state that is refused to a consumer in Hawaii as an unfair and deceptive practice.

Your Committee has heard the concerns raised in testimony that this measure in its current form may have the unintended consequence of discouraging or deterring merchants from shipping goods to consumers in Hawaii. Since it is likely that shipping goods to Hawaii costs more than shipping to other states, it may be unreasonable to require mainland companies to apply the same free or reduced rates that it offers to mainland consumers, and it would require a merchant to absorb an additional cost to ship to Hawaii consumers. However, your Committee finds that the assessment of any arbitrary fees or costs, in addition to the actual costs to ship goods to Hawaii consumers, is unreasonable and should be regulated by this measure. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee also notes the concerns raised by the Department of the Attorney General that this measure may be subject to challenge under the commerce clause of the United States Constitution. Your Committee finds that this concern merits further consideration and requests that your Committee on Judiciary further examines this issue raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the deceptive trade practice of refusing to honor free or reduced rate shipping to a consumer in this state under section 481A-3, Hawaii Revised Statutes;
- (2) Inserting a new section into chapter 481B, Hawaii Revised Statutes, providing that, in the sale or purchase of any commodity to be shipped or delivered to a consumer in this State, if a separate charge for shipping or delivery is charged to a consumer, that charge shall not exceed the actual cost to ship or deliver the commodity to a consumer in this State;
- (3) Updating section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 562, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 562, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 48 Commerce and Consumer Protection on S.B. No. 320

The purpose and intent of this measure is to:

- (1) Require each tax return preparer to have a valid preparer tax identification number issued by the Internal Revenue Service and to furnish the preparer's tax identification number on any return or claim for refund if required by the Department of Taxation;
- (2) Establish penalties for failure to comply; and
- (3) Provide that tax return preparers shall not be liable for penalties prior to January 1, 2022.

Your Committee received testimony in support of this measure from the Department of Taxation and the Hawaii Association of Public Accountants. Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that many tax preparers in the State operate with little oversight or accountability. Requiring all tax return preparers to have a valid preparer tax identification number will help the Department of Taxation better monitor tax return preparers, detect noncompliance, and prevent unintended losses in revenue. This measure will also give taxpayers greater assurance that they can rely on the services of their preparers.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 320 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 49 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 221

The purpose and intent of this measure is to encourage the Governor's Coordinator on Homelessness to develop plans for the four counties of Hawaii to coordinate the services and shelter facilities of public agencies and nonprofit organizations to meet the concerns of communities impacted by homelessness.

Your Committees received testimony in support of this measure from Hawaii Youth Services Network, and one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Hawaii Health and Harm Reduction Center, and Catholic Charities Hawaii.

Your Committees find that each county has unique regional needs regarding the impact of homelessness, and that coordination with the four counties is critical. This measure will allow for specific regional plans for each county to complement the overall ten-year plan set forth in section 346-381(b), Hawaii Revised Statutes, which requires the Hawaii Interagency Council on Homelessness to "formulate, and advise the governor on the implementation of, a unified ten-year statewide plan to address homelessness in all Hawaii counties." Your Committees find that this measure will encourage further coordination among the four counties and the Governor's Coordinator on Homelessness to effectively address regional needs, including an assessment of additional resources that may be required.

Your Committees have amended this measure by inserting an effective date of May 1, 2029, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.B. No. 221, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 221, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 50 Human Services on S.B. No. 300

The purpose and intent of this measure is to allow law enforcement agencies to quickly verify the existence of, and more easily obtain information on, long-term protective orders by establishing a Hope Card Program within the Department of the Attorney General.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Child and Family Service, Ala Kuola, and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Domestic Violence Action Center.

Your Committee finds that individuals who are granted long-term protective orders must carry a multiple-paged court order on their person to prove the existence of the order. This method is cumbersome and inconvenient, especially for young children. Having a wallet-sized identification card containing the essential information is a convenient, efficient, and effective method of assisting law enforcement with the verification of a long-term protective order. Your Committee also finds that other jurisdictions have implemented the use of the Hope Card as a valuable tool to protect victims of domestic abuse.

Your Committee amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.B. No. 300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 300, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 51 Human Services on S.B. No. 386

The purpose and intent of this measure is to protect youth from certain harmful conditions in the justice system by ensuring compliance with the Juvenile Justice Reform Act of 2018, codified under 34 U.S.C.A §11133, which requires the family court to make findings before a minor can be transferred to an adult facility.

Your Committee received testimony in support of this measure from The Judiciary of the State of Hawai'i, Office of the Public Defender, Department of Human Services, Office of Youth Services, Hawaii Disability Rights Center, and one individual.

Your Committee finds that when a youth is transferred to the adult criminal justice system, the lifelong consequences of placement in the criminal justice system has a profoundly negative effect on both the youth and our community. There is an abundance of evidence that youth are fundamentally different from adults and are more likely to experience abuse, commit suicide, and be exposed to prolonged periods of isolation. Your Committee also finds this measure provides additional guidance and restrictions concerning any detention of a juvenile in an adult detention facility.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 386 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 52 Judiciary on S.B. No. 29

The purpose and intent of this measure is to propose an amendment to article IX, section 6, of the Hawaii State Constitution to require the State to plan to provide enough housing to meet demand in its management of population growth.

Your Committee received testimony in support of this measure from Imua Alliance and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that during the coronavirus disease 2019 (COVID-19) pandemic, unemployment in Hawai'i has risen to historically high levels, and that the State is experiencing the slowest rate of unemployment recovery in the nation. Your Committee further finds that housing costs have increased during the COVID-19 pandemic. Your Committee additionally finds that these factors combined give rise to a looming eviction crisis. This measure proposes an amendment to the state Constitution to require the State to plan to provide sufficient housing as part of its management plan for state population growth, which will allow it to address such issues as the current housing emergency.

Your Committee has amended this measure by inserting the phrase "as provided by general law" at the end of the ballot question.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 29, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 29, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 53 Judiciary on S.B. No. 556

The purpose and intent of this measure is to specify that non-profit organizations with a current legislator on their governing board shall not be eligible to receive a grant pursuant to section 42F-103, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Department of Labor and Industrial Relations Office of Community Services, Common Cause Hawaii, Hawai'i Alliance of Nonprofit Organizations, and one individual.

Your Committee finds that the current state conflict of interest law applies differently to state legislators compared to other state employees in that state legislators are not specifically prohibited from taking official action affecting nonprofit organizations on which they serve as an officer or director. Your Committee further finds that restricting nonprofit organizations with a current legislator on the governing board from receiving grants under Chapter 42F, Hawaii Revised Statutes, will help avoid the appearance of conflicts of interest in the awarding of grant funds and promote integrity in state government.

Your Committee additionally finds that extending this restriction beyond nonprofit organizations and applying it to all individuals and organizations seeking a grant pursuant to section 42F-102, Hawaii Revised Statutes, will provide the public with further confidence that the grant process under Chapter 42F, Hawaii Revised Statutes, is a level playing field in which no applicant has an unfair advantage.

Your Committee has amended this measure by:

- (1) Changing the term "existing member of the legislature" to "current member of the legislature"; and
- (2) Applying the restriction against having a board member who is a current member of the legislature to all individuals and organizations who are potential grant recipients under section 42F-102, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 556, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 556, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 54 Judiciary on S.B. No. 1196

The purpose and intent of this measure is to:

- (1) Amend the due date for employers to file the wage and tax statement from the last day of February to January 31 following the close of the calendar year; and
- (2) Impose a penalty on employers that fail to timely furnish and file the wage and tax statement.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee finds that under existing law, there is no state penalty for an employer who fails to furnish an employee with their wage and tax statement or fails to file a copy of that statement with the Department of Taxation. Your Committee further finds that imposing a flat fee penalty would encourage compliance with the requirements of state tax law. Your Committee additionally finds that aligning state filing deadlines with those established by the Internal Revenue Service will benefit employers by providing them with a single filing deadline for all similar tax documents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 55 Judiciary on S.B. No. 401

The purpose and intent of this measure is to:

- (1) Increase the amount of the fine for campaign spending law violations that may be assessed against a noncandidate committee making only independent expenditures and that has received at least one contribution of more than \$10,000, or spent more than \$10,000, in an election period; and
- (2) Allow the Campaign Spending Commission to order that the payment of a fine assessed against a noncandidate committee, or any portion thereof, be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and six individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that campaign contributions and expenditures by large, well-funded political committees have a significant effect on elections. Your Committee further finds that enforcement of campaign finance law violations against these committees is difficult due to the resources available to them. This measure will increase the ability of the Campaign Spending Commission to enforce campaign finance law violations against large political committees by significantly increasing the amounts of fines and provide that the Commission may order that the fines, or a portion of the fines, be paid from the personal funds of an officer of the committee.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 401 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 56 Judiciary on S.B. No. 403

The purpose and intent of this measure is to exempt candidates who are either unsuccessful or elected to office in a primary election from the requirement to file preliminary general reports for the following general election.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that reporting requirements under campaign finance law are important to maintain transparency and fairness in elections. Your Committee further finds that preliminary reports are due throughout the spring, summer, and fall in the year of an election, and that the final two preliminary reports are due between the primary election and the subsequent general election. Your Committee additionally finds that requiring candidates who are either unsuccessful or who have been elected to office in a primary election to file preliminary reports between the primary and general election is wasteful and unnecessary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 403 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 57 Ways and Means on S.B. No. 514

The purpose and intent of this measure is to dispose of excess general fund revenues, as required by article VII, section 6, of the Hawaii State Constitution.

Specifically, this measure:

- (1) Provides for an income tax credit to every resident individual taxpayer of the State;
- (2) Deposits an unspecified sum into the emergency and budget reserve fund; and
- (3) Deposits an unspecified sum into the other post-employment benefits trust fund.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that when the balance of the general fund at the close of each of two successive fiscal years has exceeded five percent of the general fund revenues for both fiscal years, article VII, section 6, of the Hawaii State Constitution requires the Legislature to:

- (1) Provide for a tax refund or tax credit to the taxpayers of the State;
- (2) Make a deposit into one or more funds, which shall serve as temporary supplemental sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue; or
- (3) Appropriate general funds for the pre-payment of:
 - (A) Debt service of general obligation bonds issued by the State; or
 - (B) Pension or other post-employment benefit liabilities accrued for state employees.

Your Committee further finds that the required conditions have been met, and that this measure allows the Legislature to decide which of the three constitutionally mandated options is preferable.

Your Committee has amended this measure by clarifying that the income tax credit applies to taxable years beginning after December 31, 2020.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 514, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 58 Judiciary on S.B. No. 200

The purpose and intent of this measure is to clarify that candidates or other committee representatives as specified who make or receive contributions over a certain amount prior to an election are required to file a late contribution report only if the candidate is on the ballot in that election.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received testimony in opposition to this measure from Common Cause Hawaii.

Your Committee finds that while contribution reporting requirements for candidate and noncandidate committees are vital to ensuring transparency and accountability in the election process, requiring candidates who are not on the ballot to file the late contributions report due on the third calendar day prior to an election is inefficient and provides negligible benefit to election integrity. Your Committee further finds that exempting candidates who are not on the ballot of an election from the requirement to file this report is consistent with the requirements under section 11-334, Hawaii Revised Statutes, for the filing of preliminary, final, and supplemental reports. Any contributions that would have been reflected on the late report will be reflected on the final or supplemental report.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 59 Judiciary on S.B. No. 662

The purpose and intent of this measure is to require that new income tax credits include a five-year sunset or a gradual reduction over a three-year period.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the impact of changes to the tax code are not always immediately apparent at the time the change is established. Specifically, it is often difficult to precisely predict how well a tax credit might accomplish the effect for which it was created and what adverse impact it may have on the State's ability to collect revenue. Therefore, this measure requires that new income tax credits sunset after five years or gradually reduce to increase the integrity of Hawaii's income tax system.

Your Committee has amended this measure by:

- Clarifying that the sunset or gradual reduction requirement applies only to tax credits established or renewed after December 31, 2021;
- (2) Deleting unnecessary language relating to a trigger of legislative review; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 662, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 60 Human Services on S.B. No. 280

The purpose and intent of this measure is to further clarify the definition of an "assistance animal" by codifying the administrative definition, while also providing guidance for identifying adequate verification of the need for an assistance animal.

Your Committee received testimony in support of this measure from Hawaii Civil Rights Commission, Hawaii Disability Rights Center, and two individuals. Your Committee also received comments on this measure from Disability and Communication Access Board and Community Associations Institute.

Your Committee has found that to carry out Hawaii's constitutional mandate that no person shall be discriminated against in the exercise of their civil rights where a reasonable housing accommodation is requested by a disabled person, there is a need to clarify the process by which a request for an assistance animal can be verified. Your Committee further finds that codifying this administrative rule will assist applicants for rental housing when the need for the accommodation is not readily apparent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.B. No. 280 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 61 Human Services on S.B. No. 387

The purpose and intent of this measure is to protect children and minors who are being confined at detention and shelter facilities by defining specific conditions and time limits under which they may be confined.

Your Committee received testimony in support of this measure from the Judiciary of the State of Hawaii, Office of the Public Defender, Office of Youth Services of the State of Hawaii, Hawaii Disability Rights Center, ACLU Hawaii, and one individual.

Your Committee finds that over the past decade, Hawaii's juvenile justice system has undergone a major philosophical shift toward evidence-based and trauma responsive approaches for holding youth accountable for their conduct. In keeping with the significant advances in how to handle youth, facilities that rely on room confinement to control youth must also change their approach. Your Committee also finds that long periods of isolation have negative consequences for youth as they are especially vulnerable to the mental and emotional effects of room confinement. Room confinement poses a safety risk for youth, including the increased likelihood of self-harm, suicide, and retraumatizing those who were already victimized. Your Committee finds that codifying these confinement limitations will better protect children and minors.

Your Committee received comments from the Office of Youth Services regarding certain federal laws that apply to juvenile confinement. Accordingly, your Committee has amended this measure by:

- (1) Clarifying that confinement applies only to juveniles who commit non-status offenses;
- (2) Removing language for the purpose of limiting the period of confinement to comply with federal law;
- (3) Removing the reference to "shelter facility" as a place where a child may be held in room confinement;
- (4) Inserting an effective date of May 1, 2029; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 387, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 62 (Majority) Human Services on S.B. No. 22

The purpose and intent of this measure is to provide additional means by which minors may seek emergency shelter.

Your Committee received testimony in support of this measure from Hawaii Youth Services Network, Residential Youth Services and Empowerment, Hawaii Health and Harm Reduction Center, LGBT Caucus of the Democratic Party of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of the Governor's Coordinator on Homelessness and the Department of Human Services.

Your Committee finds that there is often reluctance on the part of minors seeking no-cost emergency shelter due to their concerns about being reported to child welfare services or law enforcement, absent permission from their parents or other legal guardians. Your Committee further finds that permitting a minor to consent to these emergency services will reduce their exposure to harm on the streets.

Your Committee has amended this measure by:

- (1) Allowing the child welfare services branch to become involved with a youth even without a provider report suspecting child abuse or neglect to the Department of Human Services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 22, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 22, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 63 Agriculture and Environment on S.B. No. 337

The purpose and intent of this measure is to establish and appropriate monies for a crop reimbursement pilot program to reimburse farming operations in the State for the costs of acquiring cover crop seeds or green manure.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Kauai Climate Action Coalition, Ka Ohana O Na Pua, Hawai'i Alliance for Progressive Action, Our Revolution Hawaii, Hawaii Farmers Union United Kona Chapter, Pesticide Action Network North America, Hawai'i Farm Bureau, Hawai'i SEED, Supersistence, Rooted Kekahi Me Ka Aina, and sixty-eight individuals.

Your Committee finds that the use of cover crops and green manure increases agricultural productivity and aligns with the State's integrated sustainability goals. Plants used for this purpose, including grasses, legumes, and forbs, add nutrients to the soil, act as windbreaks, assist with water retention, provide habitats for beneficial insects, and help to prevent soil erosion. This measure incentivizes the use of management practices that enhance the quality and sustainability of Hawaii's agricultural lands.

Your Committee has amended this measure by:

- (1) Decreasing the reimbursement percentage incurred for cover crop seeds or green manure from one hundred percent to seventy-five percent to be consistent with past reimbursement programs and to reflect the finding that reimbursement programs are beneficial to the State when the farmer has an investment of time, money, and effort in the program's results;
- (2) Providing that applicants be screened and rated on the quality of their cover crop and green manure practices by a review panel comprising of representatives from the Department of Agriculture, University of Hawaii College of Tropical Agriculture and Human Resources, and industry organizations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 337, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 64 Agriculture and Environment on S.B. No. 338

The purpose and intent of this measure is to establish and appropriate funds for a five-year food hub pilot program under the Department of Agriculture to increase access to local food.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Health, Office of Planning, University of Hawai'i College of Tropical Agriculture and Human Resources, Hawai'i Primary Care Association, Manowaiopae Excellent Adventure Farm, Kauai Climate Action Coalition, Our Revolution Hawaii, Hawaii Cattlemen's Council, EcoTipping Points Project, Center for Getting Things Started, Americans for Democratic Action Hawai'i, Hawai'i Alliance for Progressive Action, Ulupono Initiative LLC, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, Kauai Food Hub, Supersistence, Hawai'i SEED, Kahana Foundation, Hawaii Ulu Producers Cooperative, and forty-one individuals. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that farmers in Hawaii face many challenges in achieving economic sustainability, including the limited availability of reliable markets and food hubs, which are facilities used to secure food and process value-added products. Food hubs, as centrally located facilities with a business management structure that facilitates the aggregation, storage, processing, distribution, and marketing of locally grown produce, are an integral but missing piece of agricultural infrastructure required to achieve and sustain the doubling of local food production in Hawaii.

Your Committee also finds that state supported food hubs may give Hawaii's producers the opportunity to compete with local markets, while also remaining financially viable. According to the 2017 United States Department of Agriculture National Agricultural Statistics Service Census of Agriculture, of Hawaii's 7,238 farms statewide, sixty-six percent of farms are between one and nine acres, and seventy-eight percent of farms produce less than \$25,000 in sales. Hawaii's agricultural producer majority is small farmers who struggle with access to facilities and infrastructure to aggregate, process, and distribute products to local consumers and face high costs in land, labor, energy, and limited access to water supply for irrigation. Allowing small farmers to participate in larger markets will

ensure their economic survival and Hawaii's long-term ecosystem survival. Therefore, your Committee finds that a food hub pilot program will help lower costs for and increase revenue to farmers in the State, help farmers become or remain economically sustainable, and ensure public access to locally grown food and value-added products.

Your Committee has amended this measure by:

- (1) Inserting language to authorize the issuance of \$1,500,000 of general obligation bonds for fiscal year 2021-2022 for the Honalo Marshalling Yard;
- (2) Specifying that the appropriation of general obligation bonds shall be expended by the Department of Agriculture; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 338, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 338, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 65 Agriculture and Environment on S.B. No. 346

The purpose and intent of this measure is to prohibit the confinement of egg-laying hens in a cruel manner and prohibit business owners and operators from selling certain products made from animals confined in a cruel manner beginning on December 31, 2025.

Your Committee received testimony in support of this measure from the University of Hawai'i College of Tropical Agriculture and Human Resources, Friends of the Earth, Humane Society International, The Humane Society of the United States, Natural Resources Defense Council, Hawaiian Humane Society, World Animal Protection, Mercy for Animals, American Society for the Prevention of Cruelty to Animals, Animal Equality, Animal Outlook, Farm Sanctuary, The Human League, Compassion in World Farming, Animal Legal Defense Fund, Supersistence, and Center for Biological Diversity. Your Committee received testimony in opposition to this measure from the Department of Agriculture, Hawaiian Egg Company, Peterson's Upland Farm LLC, and one individual.

Your Committee finds that certain methods of farm animal containment are cruel to animals and threaten human health and safety by increasing the risk of foodborne illness. Additionally, battery cage facilities have been linked to high levels of air contamination from ammonia and hydrogen sulfide as well as organic compounds, large amounts of pesticide, and pharmaceutical residues that can be transported into nearby soil, causing groundwater pollution and contaminating surface waters. This measure prevents cruelty to farm animals by phasing out extreme methods of farm animal confinement and the sale of products produced through extreme confinement.

Your Committee notes the testifiers' concerns that requiring local egg producers to be one hundred percent cage free by 2025 may increase production costs, which can be passed onto the consumer and the insolvency of farms. Further, your Committee notes additional concerns surrounding the uncertainty of the meaning of the term "confinement in a cruel manner."

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 346, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Nishihara). Noes, none. Excused, none.

SCRep. 66 Agriculture and Environment on S.B. No. 361

The purpose and intent of this measure is to provide a general excise tax exemption for certain food or food ingredients.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association, Iron Workers Stabilization Fund, Hawaii Farm Bureau, Maui Chamber of Commerce, and Retail Merchants of Hawaii. Your Committee received testimony in opposition to this measure from Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has the highest cost of living in the nation and food is a major expense for Hawaii families. Food insecurity affects one out of every eight residents. Additionally, Hawaii's general excise tax, applied to almost all goods and services, affects lower income and working-class individuals almost ten times greater than those in the top one percent of Hawaii income earners. This measure will provide the greatest effects of lower income and working class households in Hawaii, who spend a larger proportion of their income on food and other essential items. Your Committee further finds that the economic crisis caused by the coronavirus disease-2019 (COVID-19) pandemic has exacerbated the preexisting struggles faced by Hawaii families.

Your Committee notes the concerns of the Department of Taxation that the definitions of "food", "food ingredients", and "prepared foods" do not fully actualize the Legislature's desired goals of providing economic relief to struggling Hawaii families. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

(1) Clarifying that the exemption from the general excise tax applies to the gross proceeds or income arising from the sale of eligible items under the Supplemental Nutrition Assistance Program, to provide the greatest relief to lower-income tax residents and encourage residents to eat healthy foods;

- (2) Making it applicable to tax years beginning after December 31, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 361, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 67 Agriculture and Environment on S.B. No. 479

The purpose and intent of this measure is to require the Department of Agriculture to collaborate with agricultural growers and researchers to develop and implement a program to safely distribute disease- and insect-free tropical plant materials to Hawaii farmers.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that there are concerns within the State's agricultural community that certain diseases that affect tropical flowers and foliage grown in the State have caused a decline in this industry. When the local supply of tropical flowers and foliage cannot meet local needs, tropical flowers and foliage must be imported from foreign countries, which in turn carries an elevated risk of inadvertently introducing other dangerous insects and diseases to the State's farms and plant nurseries.

Your Committee has heard the concerns of the Department of Agriculture that this measure lacks a definition for tropical plant materials and could potentially turn the Department of Agriculture into an importer, breeder, producer, and distributor of tropical plant materials, creating direct competition with existing nurseries both in State and out-of-state that produce plants for sale in Hawaii. In addition, because the Department of Agriculture's Plant Quarantine Branch is charged with regulating the import of plants, the Department of Agriculture would have a conflict of interest as both the importer and regulator.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture to adopt rules by January 1, 2023, to specify the plant species and varieties that would need additional regulations, and establish quarantine requirements, diagnostic measures, and import requirements; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 479, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 68 Agriculture and Environment on S.B. No. 493

The purpose and intent of this measure is to establish the Hawaii agriculture and forest carbon positive incentive program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Green Infrastructure Authority, Office of Planning, Climate Protectors Coalition, Sierra Club of Hawaii, Supersistence, Environmental Caucus of the Democratic Party of Hawaii, and four individuals. Your Committee received comments on this measure from the Department of Agriculture, Department of Taxation, Tax Foundation of Hawaii, and Life of the Land.

Your Committee finds that the State's commitment to uphold the Paris Climate Accord and progress towards its goal of a zero emissions clean economy by 2045 requires a reduction of emissions, mitigation of greenhouse gases, and investing in carbon positive actions to mitigate the State's carbon footprint. Your Committee also finds that smaller land management plays a significant role in managing natural and agricultural resources and are in need of incentives to reduce their carbon emissions and increase carbon sequestration to help the State meet food security and carbon emission goals. Your Committee finds that this measure will streamline and fill in limitation gaps of existing programs aimed to help the State meet its carbon emission goals.

Your Committee has heard the concerns of the Department of Agriculture that the Department would need substantial assistance to acquire expertise in the development of compensation rates and carbon incentives contract terms, estimations of sequestration rates for priority sequestration activities, creation of the technical underpinning of compensation rates for sequestration activities, and conducting landowner outreach to oversee the program. Your Committee has also heard additional concerns about whether the Hawaii Green Infrastructure Authority is the appropriate agency to administer the program.

Your Committee has amended this measure by:

- (1) Inserting January 1, 2022, as the appropriation date of funds to ensure the proper functioning of the new barrel tax allocation to the newly established fund in conjunction with the Department of Accounting and General Services and Department of Budget and Finance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 69 Agriculture and Environment on S.B. No. 512

The purpose and intent of this measure is to remove the \$10 per visit per day cap on the dollar-for-dollar match received by Supplemental Nutrition Assistance Program (SNAP) beneficiaries under the Hawaii Healthy Food Incentive Program, also known as the Double Up Food Bucks Program (DA BUX).

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; University of Hawai'i College of Tropical Agriculture and Human Resources; Executive Office on Early Learning; City and County of Honolulu Office of Economic Revitalization; Hawai'i Primary Care Association; Our Revolution Hawaii; Hawaii Food Industry Association; GreenWheel Food Hub; Kauai Women's Caucus; Chamber of Commerce Hawaii; Hawai'i Children's Action Network Speaks!; Sierra Club of Hawai'i; Lanakila Pacific; Ka Ohana O Na Pua; Aloha Harvest; Hawai'i Alliance for Community-Based Economic Development; American Heart Association; Wahiawa Health; Land Use Research Foundation; We Are One, Inc.; Hawaii Cattlemen's Council, Inc.; Hawai'i Alliance for Progressive Action; Ulupono Initiative LLC; Blue Zones Project; Hawai'i Public Health Institute; Hawai'i Farm Bureau; Kamehameha Schools; Hawai'i Community Foundation; Early Childhood Action Strategy; 'Ohana Health Plan; Local Food Coalition; Hawaii Appleseed Center for Law and Economic Justice; Hawai'i SEED; The Food Basket Inc.; Hawai'i Islands Food Bank; Hawaii Medical Service Association; Aloha Care; and seventy-four individuals.

Your Committee finds that Hawaii imports approximately ninety percent of its food and has food costs that are eighty-two percent higher than the national average. Dependence on food imports threatens the sustainability of food producers on the islands and places the entire population directly at risk of food shortages in the event of pandemics, natural disasters, and economic disruptions. Furthermore, with the highest cost of living in the nation, Hawaii has the highest unemployment rate of its residents. Due to the coronavirus disease-2019 (COVID-19) pandemic and the resulting unprecedented unemployment, there has been an increase in SNAP participation and an additional thirty thousand individuals will be eligible for SNAP benefits post-pandemic. Additionally, local food producers are losing about \$2,000,000 in estimated sales per week.

Your Committee also finds that the objectives of the DA BUX program are to increase SNAP household purchases of:

- (1) Hawaii-grown fruits and vegetables at grocery stores;
- (2) Hawaii-grown fruits and vegetables at farmers markets, mobile markets, and other produce retailers; and
- (3) Community-supported agriculture subscriptions exclusively sourced from Hawaii farms.

The DA BUX program has been instrumental in supporting local families and farmers; participating local grocers experienced significant increases in sales of local fruits and vegetables paid with SNAP benefits. As a result of previous efforts around the program between 2018 and 2020, the number of SNAP-participating households in Hawaii with access to a DA BUX retailer near their homes increased by two hundred seventy-two percent and at the end of 2020, the program expansion resulted in seventy-seven percent of all SNAP participating households having a DA BUX retailer within a reasonable shopping distance of their homes. Your Committee further finds that state investment into the DA BUX program can potentially generate an economic impact of \$15,400,000 and spur three times additional funding of \$7,500,000 to support farmers. State funds generate significant leverage to stimulate economic activity while advancing the State's objective of doubling local food production by 2030.

Your Committee further finds that this program helps low-income families double their purchasing power and improve access to affordable and healthy Hawaii grown produce; farmers to expand their customer base and increase their sales and farm profits, while stimulating farm expansion in both acreage and crop diversity to meet demand; and communities to build community food self-reliance, improve disaster resilience, and create economic opportunities to stimulate the local economy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 70 Agriculture and Environment on S.B. No. 579

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist the House of Aloha Enterprises LLC, with planning, designing, constructing, and equipping facilities for the manufacturing and processing of certain products.

Your Committee received testimony in support of this measure from Mason Industries, LLC; House of Aloha Enterprises, LLC; Hawaii Master Food Preservers; and Hawaii Tropical Fruit Growers. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that House of Aloha Enterprises, LLC seeks to build a facility and expand existing facilities in the State to process value-added agricultural, advanced materials, sustainable, and fine art products. The facilities will provide automated packaging and bottling and will serve as the hub for coordinated shipping.

Your Committee has amended this measure by inserting language to clarify that the purpose of the special purpose revenue bond is to generate business in Hawaii.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 71 Agriculture and Environment on S.B. No. 668

The purpose and intent of this measure is to:

- (1) Rename the agricultural development and food security special fund as the land, aquaculture, freshwater, or sea-based food development and food security special fund; and
- (2) Expand the scope of the special fund to include land, aquaculture, freshwater, or sea-based food production.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii's aquaculture industry farm gate is valued at \$76,400,000, the third highest contribution to the economy in diversified agriculture. The current state environmental response, energy, and food security tax on each barrel or fractional barrel of petroleum product was intended to support critical investments in clean energy, local agricultural production, and environmental responses. Your Committee further finds that aquaculture is poised to make a significant contribution to the Governor's goal of doubling local food production. Therefore, the inclusion of aquaculture as allowable expenses of the barrel tax will allow for additional investment in foundational infrastructure and research, including helping farmers use research-based knowledge, achieving greater benefits for the Hawaii economy, providing healthy seafood for local markets and export, generating jobs, complementing tourism, and maintaining rural communities.

Your Committee notes the concerns expressed by the Department of Agriculture that the insertion of commercial fishermen broadens the fund's stakeholder group beyond the Department of Agriculture's jurisdiction since pelagic fisheries are under the federal jurisdiction of the National Oceanic and Atmospheric Association's National Marine Fisheries Service and freshwater and recreational fishing are regulated at the Department of Land and Natural Resources' Division of Aquatic Resources. Additionally, the allowable expenditures of special fund monies are tailored to serve agricultural or aquacultural users other than commercial fisheries, which vastly differ in their respective operational needs and challenges.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 668 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 72 Education on S.B. No. 508

The purpose and intent of this measure is to require the Department of Education to establish and administer an ocean safety and stewardship education program for all fourth grade students.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that drowning is a leading cause of injury—related death for children in the State who are under fifteen years of age. Yet, the ocean is a vital and essential part of everyone's life in Hawaii. This measure will educate fourth grade students on how to stay safe while enjoying being in the ocean.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 73 Education on S.B. No. 1287

The purpose and intent of this measure is to require the Department of Education Food Services Branch to coordinate with the principals and vice principals of department schools to determine which school meal program offered by the United States Department of Agriculture is the best fit for the student body and campus of each school.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that during the early stages of the coronavirus disease 2019 (COVID-19) pandemic, there was an immediate closure of schools operated by the Department of Education. For many students, this closure had the unfortunate effect of not only missing in-person learning, but also missing the meals provided at school. The United States Department of Agriculture provided Grab N' Go meals as a supplement for students, but students living in rural areas were often not able to participate in this program due to the far commute or lack of available transportation. For this reason, many administrators, students, and parents have requested to be part of the Emergency Meals-To-You Program that sends food to students, but the Department of Education Food Services Branch has not allowed participation in this program to certain schools that have already been designated as a Department of Education feeding site. This measure will provide students with a meal program that works best for their needs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 74 Education on S.B. No. 1384

The purpose and intent of this measure is to provide that the prohibition against serving two consecutive terms not to exceed eight consecutive years pursuant to section 26-34(a), Hawaii Revised Statutes, shall not apply to the representative of Hawaiian medium early learning providers' term limit. The prohibition would repeal on June 30, 2025.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, University of Hawaii Systems, 'Aha Pūnana Leo, Kūpuna for the Moʻopuna, Puakalehua Early Learning Consortium, Association of Hawaiian Civic Clubs, and thirty-six individuals. Your Committee received comments on this measure from the Executive Office of Early Learning and Early Learning Board.

Your Committee finds that the Early Learning Board provides crucial input, direction, and oversight necessary for the Executive Office on Early Learning to achieve its statutory responsibilities. Representatives on the Early Learning Board are reflective of the diversity of the early care and education field in Hawaii, providing unique and important input on how to best serve Hawaii's families and young children. The State has long recognized the value of its host culture and has taken such actions as designating a native Hawaiian language as one of its two official state languages and creating native Hawaiian immersion charter schools. This measure will allow for better, continued representation for Hawaiian early learning providers on the Early Learning Board.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1384 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 75 Education on S.B. No. 468

The purpose and intent of this measure is to repeal the school impact fee exemptions for nonresidential development and housing subject to the transient accommodations tax when seeking development in a designated school impact district requiring county subdivision approval, county building permit, or condominium property regime approval of the project.

Your Committee received comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that the collection of school impact fees are necessary in areas of high growth to accommodate the increase in new families and school enrollments. Traditionally, certain types of development were exempt from school impact fees. However, nonresidential development and housing subject to transient accommodations tax within these emerging communities are found to impact the pace and scale of residential development, increasing the need for more public schools. This measure ensures that as communities grow through residential and other types of development, the resulting need for schools to be built and operate will be met

Your Committee notes that the Department of Education has expressed concerns regarding its authority to collect school impact fees. Your Committee requests that the Committee on Judiciary consider the concerns expressed by the Department of Education as this measure proceeds.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 468 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 76 Education on S.B. No. 703

The purpose and intent of this measure is to require two hours of annual in-service training in suicide prevention for all teachers, principals, and school counselors.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center, E Ola Hou Prevent Suicide Maui County Task Force, and three individuals. Your Committee received comments on this measure from the Department of Education and Committee of the Prevent Suicide Hawaii Taskforce.

Your Committee finds that suicide is the fourth leading cause of death for children between the ages of ten and fourteen, and is the leading cause of death for young people between the ages of fifteen and twenty-four. The percentage of teenagers in Hawaii who plan to commit suicide and the percentage of teenagers who attempt suicide are among the highest in the nation. Your Committee therefore recognizes that there is a need to increase the number of individuals in educational institutions, such as teachers, principals, and school counselors, who are trained to identify youth at risk of suicide and refer those children to appropriate services, counseling, and intervention. The Jason Flatt Act, first passed in Tennessee in 2007, requires all educators to complete youth suicide awareness and prevention training every year as part of their state licensure to teach. Your Committee finds that it is the appropriate time for Hawaii to enact similar legislation.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 703 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 77 Education on S.B. No. 1271

The purpose and intent of this measure is to:

- (1) Establish an early childhood educator stipend program to be administered by the Executive Office on Early Learning to address the shortage of qualified early childhood educators in Hawaii; and
- (2) Require stipend fund repayments for the early childhood educator stipend program to be deposited into the early learning special fund.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Early Learning Board, Kaulanakilohana, Children's Action Network Speaks!, Early Childhood Action Strategy, National Association of School Psychologists, and three individuals. Your Committee received comments on this measure from the Department of Human Services and the Department of the Attorney General.

Your Committee finds that the demand for quality early care and education far exceeds the amount of available and qualified early childhood educators. The legislature also finds that preschool teachers are amongst the lowest paid occupations, making an average less than many non-skilled positions such as parking lot attendants. Moreover, it is difficult to attract individuals to this highly specialized field with such low pay and the common misperception that preschool teachers are babysitters. This measure will support those individuals seeking to become high-quality early childhood educators, thereby moving the State toward reaching its goal of increasing access to high-quality early learning programs.

Your Committee has amended this measure by:

- Specifying that a collection agency that is contracted by the Executive Office on Early Learning shall be allowed to collect a commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1271, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 78 Education on S.B. No. 1385

The purpose and intent of this measure is to:

- Require the Department of Education to develop a reorganization plan to provide students and schools with centralized food and transportation services; and
- (2) Require the provision of locally produced food to increase in an unspecified percentage annually for five years.

Your Committee received testimony in support of this measure from the Department of Education and Ulupono Initiative.

Your Committee finds that currently, the overall program management and service delivery of public school food and transportation services are, for the most part, centralized. Reorganization to provide further centralization in both areas could lead to additional efficiencies and service improvements. Your Committee further finds that the implementation of centralized kitchens may also assist in increasing the procurement of foods directly from local farmers. Centralized kitchens will allow farmers to deliver food directly to one site for multiple schools within that area as opposed to having many delivery points across the islands, easing the burden of the farmers. Centralizing food services may therefore increase local farmer participation in bid solicitations and help to further the farm-to-school program's aim of increasing the procurement of local produce and food as contemplated. This measure will improve food and transportation services in schools and better provide healthy and locally grown food to students.

Your Committee has amended this measure by:

- Clarifying that the reorganization plan is to provide student and schools with centralized transportation services, not food services;
- (2) Specifying that the department of education is to develop a plan to provide students with locally produced food and that locally produced food that is purchased for school meals shall increase by five per cent annually until 2026;
- (3) Specifying that the report to the Legislature shall include food service delivery models customized to the needs of schools broken down by complex area;
- (4) Specifying that the report shall include information on how reorganization will look for efficiencies by reducing food waste, increasing school meal participation, and promoting a healthy menu; and
- (5) Specifying that the report shall also include projected cost-savings and increased student benefits such as healthier diets and increased nutrition knowledge.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1385, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 79 Education on S.B. No. 702

The purpose and intent of this measure is to require the Committee on Weights to submit a report to the Legislature detailing any changes to the funding formula within thirty days of the change.

Your Committee received testimony in support of this measure from Ka Lei Papahi O Kakuhihewa. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Committee on Weights is responsible for, among other things, reviewing the issue and revising the formula to provide for the equitable distribution of funds to all of Hawaii public schools. Although there is major concern for insufficient funding for public schools, various Committees on Weights have recommended, and the Board of Education has approved, changes in the formula factor that has increased the weighted student formula base funding at schools. Because these changes affect the well-being of schools and students from all areas, it is important that the Legislature be made aware of such changes.

Your Committee has amended this measure by clarifying that any changes to the funding formula must be reported thirty days after the posting of the Committee on Weights final committee report indicating that the Board of Education has approved the recommended change to the funding formula.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 702, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 80 Education on S.B. No. 509

The purpose and intent of this measure is to:

- (1) Establish criteria for industry certification awards to public high schools and appropriates funds to the Department of Education to incentivize public high schools to encourage students to obtain industry-recognized certifications; and
- (2) Require the Department of Education to submit an annual report containing specified information about the progress of the incentivization effort.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Education and Department of Labor and Industrial Relations.

Your Committee finds that the State has critical shortages of qualified local workers in sectors such as health, education, air travel, and technology. Due to the needs of the State's economy, Hawaii's public high schools should strategically prepare students for the workforce by encouraging industry certification in "high value" occupations, including jobs that have a high demand for competent and skilled employees, high potential for growth, and high wages. This measure will incentivize public high schools to encourage students to obtain industry certification in high value occupations.

Your Committee has amended this measure by:

- Specifying that the Hawaii P-20 Partnerships for Education, rather than the Department of Labor and Industrial Relations, shall provide an annual list of occupations that meet the high value employment criteria to the Department of Education upon its request; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 509, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 81 Transportation on S.B. No. 60

The purpose and intent of this measure is to authorize the issuance of special number license plates solely for electric vehicles. The fees from these plates will commemorate and support the Polynesian Voyaging Society (PVS).

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Department of Customer Services of the City and County of Honolulu, Polynesian Voyaging Society, and fifteen individuals.

Your Committee finds that the Legislature has from time to time authorized special decorative or commemorative license plates, the proceeds of which fund various causes and organizations. A prominent example of this is the popular Hawaii National Park license plates depicting Haleakala National Park or Volcanoes National Park, where a portion of the license plate fee is used to support Hawaii's national parks.

Your Committee further finds that PVS has great cultural and promotional value to the State and people of Hawaii. This measure will serve to commemorate PVS' alignment with and commitment to a sustainable future for the planet and will provide financial support that will help PVS continue their mission of perpetuating the art and science of traditional Polynesian voyaging and the spirit of exploration through programs that inspire students and their communities to respect and care for themselves, each other, and their natural and cultural environments.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 60 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 82 Transportation on S.B. No. 151

The purpose and intent of this measure is to amend the statewide traffic code, to replace the word "accident" with "collision" when referencing traffic incidents.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, Department of the Prosecuting Attorney for the City and County of Honolulu, and Honolulu Police Department.

Your Committee finds that the use of the term "accident" when referring to a traffic collision or incident is outdated. The Honolulu Police Department (HPD) replaced the term "accident" with "collision" in their policies, procedures, and report writing more than a decade ago. Additionally, the National Highway Traffic Safety Administration (NHTSA) has encouraged everyone to use the term "collision" instead of "accident" when referring to incidents of vehicular collision. This measure amends the statewide traffic code to replace "accident" with "collision" to bring Hawaii in line with the NHTSA and HPD and provide consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 151 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 83 Transportation on S.B. No. 375

The purpose and intent of this measure is to commission a study to determine the feasibility of repairing or renovating the Kalaeloa Airport air traffic control tower.

Your Committee received testimony in support of this measure from the Department of Transportation and Transportation Committee of the Kapolei-Makakilo Neighborhood Board No. 34.

Your Committee finds that the Kalaeloa Airport air traffic control tower is old and outdated. The air traffic controllers from the Hawaii Air National Guard who currently operate the tower do so under a waiver from the Federal Aviation Administration. Your Committee also finds that the current tower cannot accommodate the anticipated future increase in air traffic and is presently unable to accommodate Instrument Flight Rules capabilities that are currently in operation at the Daniel K. Inouye International Airport (HNL) in Honolulu. This is problematic as the Kalaeloa tower is the designated backup tower for HNL in the event of a disaster, yet the Kalaeloa tower is not adequately equipped to perform that task. This measure will be the first step towards improving the Kalaeloa tower.

Your Committee notes the testimony from the Department of Transportation that, due to the procurement process they must adhere to, the Department would be unable to submit the results of the study by the 2022 deadline required by this measure.

Accordingly, your Committee has amended this measure by extending the date that the Department of Transportation is required to submit its findings and recommendations to the Legislature from twenty days prior to the convening of the Regular Session of 2022, to prior to the Regular Session of 2023.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 375, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 84 Transportation on S.B. No. 651

The purpose and intent of this measure is to rename Kahului Airport Access Road on Maui as Mayor Elmer F. Cravalho Way.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of the Mayor of Maui County, two members of the Maui County Council, Maui Federal Credit Union, and nine individuals.

Your Committee finds that Maui currently does not have any roadways commemorating local politicians and their role in the modern history of Maui. Mayor Elmer F. Cravalho was the first mayor of Maui County and served in that role from 1969 until 1979. His career in Hawaii politics started in 1954 and he remained a civic leader until his passing in 2016. Your Committee believes that Mayor Cravalho has a clear connection to Maui's modern history and he should be remembered for his civil service by naming a highway in his honor.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 85 Transportation on S.B. No. 667

The purpose and intent of this measure is to eliminate the requirement of a front license plate for vehicles in Hawaii.

Your Committee received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu and four individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Department of Transportation.

Your Committee finds that removing the requirement of a front license plate can reduce the counties' expense to purchase license plates by fifty percent and reduce the counties' storage requirements, but may prevent the rollout of red light cameras at intersections or other means of vehicle identification.

Your Committee has heard the concerns noted in the testimony of the Honolulu Police Department and Department of Transportation. However, your Committee feels this measure merits further discussion to see if solutions are possible.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (English).

SCRep. 86 Transportation on S.B. No. 772

The purpose and intent of this measure is to:

- (1) Establish special number license plates that commemorate forest and ocean conservation; and
- (2) The fees from these plates will be used to fund conservation efforts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and City and County of Honolulu Department of Customer Services. Your Committee received comments on this measure from one individual.

Your Committee finds that the Legislature has from time to time authorized special decorative or commemorative license plates, the proceeds of which fund various causes and organizations. A prominent example of this is the popular Hawaii National Park license plates depicting Haleakala National Park or Volcanoes National Park, where a portion of the license plate fee is used to support Hawaii's national parks.

Your Committee further finds that state residents understand and appreciate the importance of the unique ecosystem that Hawaii provides. More specifically, residents appreciate the beloved native and endemic plants and animals of Hawaii, strongly believe that these resources must be preserved for future generations, and support opportunities to directly contribute to the conservation of these critical resources. This measure offers the people of Hawaii the opportunity to support the conservation of forests, beaches, and nearshore environments through the purchase of a special number license plate.

Your Committee has amended this measure by:

- (1) Requiring that the renewal fee amount be the same as the initial fee;
- (2) Specifying that funds deposited into the beach restoration special fund be used for beach and nearshore environmental cleanup; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 772, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 87 Transportation on S.B. No. 755

The purpose and intent of this measure is to require lessors of rental motor vehicles to include in the rental agreement an option for the lessee of a motor vehicle to contribute money to the Department of Land and Natural Resources for the preservation of the environment.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Trust for Public Land. Your Committee received testimony in opposition to this measure from Avis Budget Group and Enterprise Holdings.

Your Committee finds that the protection of natural resources is critical to the future of the State's tourism industry. However, the Department of Land and Natural Resources lacks the necessary funding to properly carry out its critical role as guardian of the environment. Other states have successfully used voluntary contribution check-off boxes to raise money for the protection of their natural resources. A similar program in Hawaii would raise funds for the State's own environmental management.

Your Committee has amended this measure by changing the effective date to January 1, 2023, to allow rental car companies time to update their processes to conform to this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 755, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 88 Human Services on S.B. No. 48

The purpose and intent of this measure is to provide further protection to vulnerable minors and children by identifying solicitation of a minor for prostitution as a form of sex trafficking.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Maui Police Department; IMUAlliance; The Sex Abuse Treatment Center; and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Harm Reduction Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that incidents of sex trafficking throughout the State are increasing and that coercion as a means of committing the offense of sex trafficking is common. To provide additional protection for victims, Hawaii must strengthen its sex trafficking statutes by providing clarification to several provisions. Your Committee further finds that clarifying these provisions will assist law enforcement in its efforts to protect minors from sexual predators.

Your Committee has amended this measure by:

- (1) Removing language that would have repealed the statute of limitations for sex trafficking and promoting prostitution;
- (2) Changing the definition of "minor" in the sex trafficking statute to be consistent with other sections of the Hawaii Revised Statutes:
- (3) Changing the effective date to May 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee believes that the Committee on Judiciary is the more appropriate body to address whether to amend the statute of limitations for sex trafficking and promoting prostitution and requests that the Committee on Judiciary consider that issue as this measure moves forward.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 48, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 48, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 89 Energy, Economic Development, and Tourism on S.B. No. 596

The purpose and intent of this measure is to repeal language that has been interpreted to allow board members of the Hawaii Tourism Authority to hold office until the member's successor is appointed and qualified. Instead, it prohibits holdover board members from holding office beyond the end of the second regular session following the expiration of the board member's term of office.

Your Committee received comments on this measure from one individual.

Your Committee finds that holdover limitations for board members of the Hawaii Tourism Authority are important to reduce redundancy and limit the power and scope of members whose terms of office have expired. Your Committee also finds that the holdover limitations in section 26-34(b), Hawaii Revised Statutes, that allow a holdover member to potentially continue in office until the end of the second regular legislative session following the expiration of the member's term of office are too long and counterproductive. Therefore, your Committee finds that any holdover on the board of the Hawaii Tourism Authority should be limited to the beginning of the next regular legislative session following the expiration of the member's term of office.

Your Committee has amended this measure by:

- (1) Removing the holdover limitations subject to section 26-34(b), Hawaii Revised Statutes; and
- (2) Limiting the holdover status of a Hawaii Tourism Authority board members from holding office beyond commencement of the next regular legislative session, following the expiration of the member's term.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 596, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 596, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 90 Energy, Economic Development, and Tourism on S.B. No. 938

The purpose and intent of this measure is to specify that monies in the Tourism Emergency Special Fund are to be used exclusively for emergency measures directly related to safety and security initiatives necessary to respond to any tourism emergency.

Your Committee finds that it is important to provide dedicated funding specifically for responding to safety and security initiative during emergency situations involving tourism.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 91 Energy, Economic Development, and Tourism on S.B. No. 916

The purpose and intent of this measure is to specify that \$1,000,000 of the transient accommodations tax revenues currently allocated to operate a Hawaiian Center and the Museum of Hawaiian Music and Dance may also be used to plan, design, and construct these facilities at an unspecified location.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Royal Hawaiian Center, and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii and one individual.

Your Committee finds that broadening the purposes for which the \$1,000,000 allocation of Transient Accommodations Tax revenue for a Hawaiian Center and the Museum of Hawaiian Music is necessary because it will allow the funds to be utilized for both the operations and the development of the Hawaiian Center.

Your Committee further finds that specifying the use of the allocation to include planning, design, and construction will sufficiently provide for the necessary infrastructural pre-requisites for the establishment of a Hawaiian Center and the Museum of Hawaiian Music and Dance. Your Committee also finds that identifying the general location for the Hawaiian Center and the Museum of Hawaiian Music and Dance is an important next step in moving the project forward.

Your Committee has amended this measure by adding Waikiki as the future location of the Hawaiian Center and the Museum of Hawaiian Music and Dance.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 916, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 92 Energy, Economic Development, and Tourism on S.B. No. 950

The purpose and intent of this measure is to require the 3.5 percent cap on spending from the Tourism Special Fund to also include all governance and employment expenses and organization-wide costs as administrative expenses.

Your Committee received comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that including governance and employment expenses as well as organization-wide costs as administrative expenses provides clarity and transparency regarding spending from the Tourism Special Fund.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 950 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 93 Energy, Economic Development, and Tourism on S.B. No. 225

The purpose and intent of this measure is to:

- Specify the cost of regional infrastructure improvements made by the Hawaii Housing Finance and Development Corporation
 by allowing an assessment against transit-oriented development projects specifically benefiting from the improvements; and
- (2) Require the Hawaii Interagency Council for Transit-Oriented Development to review and make recommendations on applications for subaccount funds for infrastructure projects related to transit-oriented development.

Your Committee received testimony in support of this measure from the Office of Planning and the Department of Business, Economic Development, and Tourism.

Your Committee finds that the cost of off-site infrastructure is a major barrier to the achievement of transit-oriented development potential statewide. This measure will help facilitate state investment in needed infrastructure by allowing the Hawaii Housing Development and Financing Corporation to recover costs to help offset the significant upfront costs of regional infrastructure.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 94 Energy, Economic Development, and Tourism on S.B. No. 1353

The purpose and intent of this measure is to enhance the core responsibilities of the Hawaii State Energy office by:

- (1) Expanding the duties of the Hawaii State Energy Office to include identifying and pursuing opportunities for economic development; and
- (2) Transferring certain duties relating to energy efficiency, renewable energy, energy resilience, and clean transportation related incentives, programs, and goals from the Chief Energy Officer to the Hawaii State Energy Office.

Your Committee received testimony in support of this measure from the Hawaii Clean Power Alliance and SanHI Government Strategies. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that this measure expands the duties of the Hawaii State Energy Office to include developing opportunities for economic opportunities through both the public and private sectors. Your Committee further finds that this measure transfers certain duties relating to energy efficiency, renewable energy, energy resilience, and clean transportation related incentives, programs, and goals from the Chief Energy Officer to the Hawaii State Energy Office. The transfer of duties will more clearly define the Chief Energy Officer's role in the State's ambitious goal to achieve one hundred percent renewable energy by 2045.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1353 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 95 Hawaiian Affairs on S.B. No. 717

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to digitize its applicant, beneficiary, and lessee records and create a usable digital database by July 1, 2022, to increase departmental efficiency and reduce abuse of lease awards by lessees.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that in June 2013, the Department of Hawaiian Home Lands began implementing an electronic document imaging system that converted applicant and lessee records to digital media to easily store, access, track, and share documents from a secure and central location with the intent of improving accessibility and inquiry wait times and allow for the preservation of original documents. Your Committee also finds that the current waitlist for leases under the Department of Hawaiian Home Lands has over twenty thousand applicants and applicants often wait years before receiving a lease offer. Your Committee further finds that digitizing the Department of Hawaiian Home Lands' applicant, beneficiary, and lessee records will increase the efficiency and transparency of this process.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 96 Hawaiian Affairs on S.B. No. 1021

The purpose and intent of this measure is to prohibit the selling, transfer, conveyance, disposal, or offer for sale of any plot if the capacity limit is lower than ten when applied to burials prepared consistent with traditional Hawaiian cultural customs and practices.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources Hawaii State Aha Moku, Office of Hawaiian Affairs, Koʻolau Foundation, Koʻolaupoko Hawaiian Civic Club, and three individuals. Your Committee received testimony in opposition of this measure from the Hawaii Funeral and Cemetery Association, Inc. Your Committee received comments on this measure from the Department of Commerce and Consumers Affairs' Professional and Licensing Division.

Your Committee finds that Native Hawaiian burial practices are deeply integral to Hawaiian culture and identity. Native Hawaiian burial practices are vital to the preparation, as iwi (ancestral bones) are a lasting embodiment of ancestors and serve as a continuous genealogical link from the past, present, and future generations. Current state policy and cemetery and mortuary industry practices have prevented families from engaging in traditional burial practices in allowing their ancestors to be buried in culturally appropriate family-style burials.

Your Committee has heard the testimony of the Hawaii Funeral and Cemetery Association, Inc., concerning the lack of definition for "traditional Hawaiian burials." Additionally, the Association voiced reservations about disturbing already interred remains. Further, the Association provided practical considerations for interring multiple sets of remains in a single interment. Specifically, endowment care cemeteries design and map accordingly for casket burial and cremation disposition and proper cemetery design and

mapping utilize space within the cemetery. To increase the size of interments and comply with most cemetery standards imposes challenges for families and business operations. The Association also highlighted concerns about authorization for interment and the potential that cemeteries that are not regulated under the Department of Commerce and Consumer Affairs will be operating without organized supervision, which could lead to encroachment of other interments or existing interments.

Your Committee finds that the language in S.B. No. 982 (Regular Session of 2021), relates to traditional Hawaiian burials and addresses the concerns of providing an adequate definition for traditional Hawaiian burials.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 982, a measure that:
 - (A) Clarifies the definition of "traditional Hawaiian burial" for enforcement purposes;
 - (B) Allows the Department of Health to accommodate traditional Hawaiian burial practices, such as alkaline hydrolysis or water cremation to promote the use of these practices;
 - (C) Amends the procedures for the resolution of disputes regarding the right of disposition and the right to rely and act upon written instructions in a funeral service agreement or similar document; and
 - (D) Provides for the disposition of a decedent's remains and recovery of reasonable expenses to include hydrolysis facilities and natural organic reduction facilities; and
- (2) Clarifying that an applicant of a cemetery authority license must provide documentation that the property on which the plot, niche, or crypt is located is dedicated to cemetery use and is free and clear of all encumbrances; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee further finds that the issues raised by the testifiers merit further consideration and requests that your Committee on Commerce and Consumer Protection further examine those issues and concerns regarding this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1021, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1021, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 97 Hawaiian Affairs on S.B. No. 981

The purpose and intent of this measure is to:

- (1) Change the maximum amount of public funds available to each candidate running for election to the office of State Senator, State Representative, County Council, and the Board of Trustees of the Office of Hawaiian Affairs to an unspecified percent of the expenditure limit established for each election; and
- (2) Increase the amount each candidate for the Board of Trustees of the Office of Hawaiian Affairs candidate must raise to qualify for public funds.

Your Committee received testimony in support of this measure from Common Cause Hawaii.

Your Committee finds that candidates running for the Board of Trustees of the Office of Hawaiian Affairs who voluntarily agree to participate in the partial public funding program run statewide campaigns yet they are provided substantially less partial public funding than other statewide candidates. This measure will increase the partial public funding expenditure limit and maximum amount of public funds available for candidates for the Board of Trustees.

Your Committee notes that S.B. No. 238 (Regular Session of 2021), which was previously passed by the Senate Hawaiian Affairs Committee, also relates to election requirements for the Board of Trustees of the Office of Hawaiian Affairs. Under existing law, names of candidates for the Board of Trustees of the Office of Hawaiian Affairs are placed on the ballot in alphabetical order to ensure that all candidates are properly listed, which corresponds to the voting position for the vote counting system. To mitigate any advantage that may arise from the order of candidate names on the ballot, S.B. No. 238 requires that the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs be randomized on individualized ballots. Your Committee believes that elections should be transparent, inclusive, and accountable, and there must be equitable opportunities to compete in the elections for the Board of Trustees.

Therefore, your Committee has amended this measure by:

- (1) Adding the contents of S.B. No. 238, S.D. 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 981, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 981, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 98 Hawaiian Affairs on S.B. No. 890

The purpose and intent of this measure is to amend the election process for the Office of Hawaiian Affairs Board of Trustees so that:

- (1) Of the four at-large seat candidates without an island residency requirement, two must reside in an urban district and two must reside in the rural district; and
- (2) One urban district candidate and one rural district candidate shall be elected in any election cycle.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the population disparity between urban and rural residents generally results in the election of Office of Hawaiian Affairs Board of Trustees candidates who prioritize urban concerns over the concerns of rural residents. Your Committee further finds that because all Board of Trustees candidates participate in statewide elections, urban voters distort elections even for island-specific seats. Therefore, your Committee finds that removing the statewide element of Board of Trustees elections will ensure more accurate representation of and accountability to Office of Hawaiian Affairs constituents.

Your Committee has heard the concerns of the Department of the Attorney General that this measure eliminates the guarantee that the islands of Molokai and Kauai have a member, potentially violating article XII, section 5, of the Hawaii State Constitution which requires that Oahu, Kauai, Maui, Molokai, and Hawaii each have a seat on the Board of Trustees. The Department of the Attorney General also raised issues that this measure does not address how the nine-member Board of Trustees of the Office of Hawaiian Affairs will transition to the new board after the measure goes into effect on January 1, 2024.

Your Committee has amended this measure by:

- (1) Amending the language to ensure that the islands of Oahu, Kauai, Maui, Molokai, and Hawaii each have at least one member;
- (2) Clarifying when the terms of all four of the urban and rural district members will commence; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 890, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 890, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 99 Hawaiian Affairs on S.B. No. 715

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds for a master planned development proposed by Pueo Development, LLC, on Hawaiian home lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Pueo Development, LLC; Waiohuli Hawaiian Homesteaders Association, Inc.; Board of Directors of the Waiohuli Hawaiian Homesteaders Association, Inc.; Hawaii Operating Engineers Industry Stabilization Fund; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that on December 3, 2018, the Waihouli Hawaiian Homestead Association, Inc. submitted a land use request to the Department of Hawaiian Home Lands with a proposed master plan on approximately one hundred fifty acres for the development of residential and agricultural lots, economic and educational opportunities, energy projects, and water source development through collaboration and partnerships for career development and employment opportunities. A beneficiary consultation meeting was conducted on May 30, 2019, to collect beneficiary input and feedback on the land use request. In July 2019, a beneficiary consultation report was submitted to the Hawaiian Homes Commission who voted to approve the issuance of a Right of Entry permit to conduct the necessary due diligence and project feasibility. On January 7, 2020, Right of Entry permit #688 was issued to the Waiohuli Hawaiian Homesteaders Association, Inc.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 715, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 100 Hawaiian Affairs on S.B. No. 1121

The purpose and intent of this measure is to exempt any housing development developed by the Department of Hawaiian Home Lands from general excise taxes.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii and one individual.

Your Committee finds that the Department of Hawaiian Home Lands provides housing at affordable rates when compared to similar housing available in Hawaii. However, the Department of Hawaiian Home Lands does not receive sufficient funding to develop house lots for all applicants on the waiting list. Additionally, the Department of Hawaiian Home Lands does not currently receive sufficient

funding to reduce the waiting list by ninety percent over the next decade. The Department of Hawaiian Home Lands has stated that it would take one hundred eighty-two years to meet the demand of the waitlist at its current rate. The Department of Hawaiian Home Lands has provided a conservative estimate of \$4,500,000,000 of infrastructure costs alone to develop twenty-eight thousand lots, without accounting for new land acquisition. To further the interest of beneficiaries, the Department of Hawaiian Home Lands proposes that its housing development projects be exempt from general excise taxes that will result in cost savings to assure economic feasibility which will ultimately make feasible the production of lower cost housing units.

Your Committee has heard the concerns of the Tax Foundation of Hawaii that the proposed exemption presented in this measure is similar to the affordable housing exemptions in sections 46-15.1 and 201H-36, Hawaii Revised Statutes. However, the proposed exemption in this measure appears to be more relaxed. The existing low-income housing exemption requires a regulatory agreement of a duration of at least five years for moderately rehabilitated projects, ten years for substantially rehabilitated projects, and thirty years for new projects. The Tax Foundation of Hawaii notes that because the Department can exempt any developer from the compliance agreement requirement and there are no standards for when the exemption may be exercised, this uncertainty may lead to arbitrary interpretations and applications of the exemption. The Tax Foundation also noted several existing benefits that are unique to residents of Hawaiian homesteads and comments that the proposed tax exemption would be "layered" upon those existing benefits.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 101 Hawaiian Affairs on S.B. No. 978

The purpose and intent of this measure is to require certain public buildings near mass transit projects and on Hawaiian home lands to display portraits of Prince Jonah Kuhio Kalanianaole.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaiian Civic Club of Honolulu, and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that Prince Jonah Kuhio Kalanianaole served a nineteen-year tenure in the United States Congress during which was passed the Hawaiian Homes Commission Act of 1921, under which the Department of Hawaiian Home Lands was created. Your Committee further finds that as 2021 is the centennial anniversary for the drafting of the Act, it is appropriate to honor Prince Kuhio's legacy as the author of the Hawaiian Homes Commission Act. This measure will require certain public buildings near mass transit projects and on Hawaiian home lands to display portraits of Prince Jonah Kuhio Kalanianaole to honor him.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 978, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 978, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 102 Hawaiian Affairs on S.B. No. 884

The purpose and intent of this measure is to amend the Hawaiian Homes Commission Act to:

- (1) Require appraisals of mortgages and improvements to identify the replacement cost or the leasehold market value;
- Grant authority to the Department of Hawaiian Home Lands to authorize second position loans on homestead leases by approved lenders;
- (3) Clarify that the Department of Hawaiian Home Lands shall not cancel a lease solely based on a loan default or delinquency unless all loan loss mitigation procedures are exhausted pursuant to the loan servicing manual; and
- (4) Require the Department of Hawaiian Home Lands to develop and implement a loan servicing manual, subject to Commission approval, to standardize loan loss mitigation policies, procedures, and methods.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee notes that title 43 Code of Federal Regulations part 48, as amended, outlines the process for amendments to the Hawaiian Homes Commission Act and whether Congressional approval is necessary. Your Committee is of the opinion that this measure does not require Congressional approval.

Your Committee finds that in the Hawaiian Homes Commission Act, 1920, as amended, the United States Congress established the Hawaiian home lands trust, intending that it would enable its native Hawaiian beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. Additionally, your Committee finds that the Department of Hawaiian Home Lands does not receive sufficient funding to develop house lots for all applicants on the waiting list. The Department of Hawaiian Home Lands does not currently receive sufficient funding to reduce the waiting list by ninety percent over the next decade, leading to a lack of access resources for beneficiaries.

Your Committee finds that reforms have the potential of providing access to private capital to beneficiaries of the Department of Hawaiian Home Lands, revolve interest earnings to deploy capital to farms, ranches, and businesses on homesteads, and make significant strides to alleviate the waitlist. This measure will make changes to improve the governance and accountability entrusted to the Department of Hawaiian Home Lands and Hawaiian Homes Commission to fulfill their duty toward the preservation of values, traditions, culture, and self-sufficiency for native Hawaiians.

Your Committee has heard the concerns of the Department of Hawaiian Home Lands that:

- (1) The Department of Hawaiian Home Lands homestead leases refer to the lessee's right to exclusive use and possession of a tract of Department of Hawaiian Home Lands land for a term of years and can only be owned by qualified beneficiaries, thereby, limiting the market for leaseholds; therefore, requiring appraisals of the Department of Hawaiian Home Lands leaseholds may put private lenders and federal agencies at odds with the requirements of the Hawaiian Homes Commission Act and their underwriting requirements and may lead to financial burdens to successors of Hawaiian Home leases;
- (2) The proposed amendments to section 210 of the Hawaiian Homes Commission Act to prohibit lease cancellation based solely on a loan delinquency or default, unless all loan servicing procedures identified in the loan servicing manual have been exhausted, fails to take into account the extensive lease cancellation process established with the Hawaiian Homes Commission; and
- (3) Authorizing second position loans could require additional sources of loan financing to existing lessees while nearly three times that number are awaiting a lease and financing for their homestead award.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 884, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 884, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 103 Hawaiian Affairs on S.B. No. 891

The purpose and intent of this measure is to:

- (1) Require that a majority of the members of the Hawaiian Homes Commission be beneficiaries who are on the waitlist;
- (2) Require quarterly reporting to the beneficiaries, registered homestead associations, and the Legislature on land dispositions and lease cancellations made during the quarter;
- (3) Authorize the Governor to establish an inter-agency council to address the purposes of the Hawaiian Homes Commission Act, and if convened, to meet at least three times per year;
- (4) Require an annual full accounting of Act 14, Special Session Laws of Hawaii 1995, expenditures;
- (5) Allow the Hawaiian Homes Commission or Department of Hawaiian Home Lands to retain independent legal counsel; and
- (6) Require the Legislative Reference Bureau to conduct a study on the implications of creating a position for the Director of Hawaiian Home Lands that is separate from the Chairperson of the Hawaiian Homes Commission.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Legislative Reference Bureau and Department of Hawaiian Home Lands.

Your Committee finds that in the Hawaiian Homes Commission Act, 1920, as amended, the United States Congress established the Hawaiian home lands trust, intending that it would enable its native Hawaiian beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. This measure will make changes to improve the governance and accountability entrusted to the Department of Hawaiian Home Lands and Hawaiian Homes Commission to fulfill their duty toward the preservation of values, traditions, culture, and self-sufficiency for native Hawaiians.

Your Committee notes that the Department of Hawaiian Home Lands creates multiple reports and is encouraged to create a searchable database to allow those reports to be more easily located. Although the Department of Hawaiian Home Lands prepares extensive reports on a monthly basis to the Hawaiian Homes Commission and completes an independent and financial audit of its agency on an annual basis, your Committee encourages the Department to provide quarterly reports via email or its websites to increase transparency for its beneficiaries.

Your Committee has heard the concerns from the Department of the Attorney General that the Attorney General is best suited to provide legal advice in a cost effective and conflict-free manner to the Department of Hawaiian Home Lands. Additionally, private attorneys retained by the Hawaiian Homes Commission and the Department of Hawaiian Home Lands would not possess the necessary breadth of knowledge and experience available within the Department of the Attorney General.

Your Committee has also heard the concerns from the Legislative Reference Bureau about its lack of specific expertise in matters relating to the Hawaiian Homes Commission and executive personnel issue. As written, this measure does not provide other instructions on the potential organizational structure of the Department of Hawaiian Home Lands. Amendments to this measure are therefore necessary to address the concerns of the Legislative Reference Bureau.

Your Committee finds that the Department of Hawaiian Home Lands has an extensive lease cancellation process, which includes multiple and ongoing hearings with the Hawaiian Homes Commission on the lessee's island to prevent travel costs and provide for loan

modification options and additional financial counseling. A lease may only be cancelled by a quorum of five commissioners and a majority vote. Once a lease is cancelled, a lessee can seek reconsideration or appeal under chapter 91, Hawaii Revised Statutes. Your Committee further finds that the Department of Hawaiian Home Lands has written loan servicing guidelines, and the department staff work one-on-one with lessees who are experiencing challenges in paying their mortgages. These challenges may include but are not limited to job loss, a medical emergency, or a family crisis. In addition, loan officers with the Department of Hawaiian Home Lands provide payment options and financial counseling paid for by the Department of Hawaiian Home Lands. To ensure the availability of adequate assistance, lessees are contacted by postal mail, phone, e-mail, and through in-person visits, if necessary. In light of the foregoing, your Committee finds that requiring the Department of Hawaiian Home Lands to develop and implement a loan servicing manual would further enhance its efforts to assist distressed beneficiaries and assist the Department's efforts in addressing issues posed by and facing beneficiaries subject to the cancellation process.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language from S.B. No. 2826, S.D. 1 (Regular Session 2020), that requires the Department of Hawaiian Home Lands to develop and implement a loan servicing manual, subject to approval by the Hawaiian Homes Commission;
- (2) Clarifying the parameters of the Legislative Reference Bureau study on the implications of creating a position for the Director of Hawaiian Home Lands separate from the Chairperson of the Hawaiian Homes Commission to include the following stipulations:
 - (A) The Governor shall appoint the Director of the Department of Hawaiian Home Lands;
 - (B) The Director of Hawaiian Home Lands shall be an ex-officio member of the Hawaiian Homes Commission;
 - (C) The Director of Hawaiian Home Lands shall not be eligible to be considered as the chairperson of the Hawaiian Homes Commission;
 - (D) The members of the Hawaiian Homes Commission shall choose the Chairperson from amongst their own members;
 - (E) The Director of Hawaiian Home Lands may veto major policy and budgetary decisions of the Hawaiian Homes Commission with written justification on its decisions; and
 - (F) The study shall consider the effectiveness, cost, and potential conflicts of interests (e.g., contested case hearings), and issues that may arise from this change in the governance structure of the Department of Hawaiian Home Lands;
- (3) Codifying Rule 10-4-60, Hawaii Administrative Rules, within the definition of "beneficiary consultation" as provided for in Section 201, Hawaiian Homes Commission Act, 1920, as amended;
- (4) Deleting references to the Hawaiian Homes Commission in the provisions discussing the need for independent counsel, since the term "department" as provided in Section 28-8.3(b), Hawaii Revised Statutes, includes any department, board, commission, agency, or officer of the State;
- (5) Restoring language that increases the members from four to five that are descendants of not less than one-fourth part of the blood of the races inhabiting the Hawaiian Islands previous to 1778; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 891, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 104 Hawaiian Affairs on S.B. No. 892

The purpose and intent of this measure is to:

- (1) Define "beneficiary consultation";
- (2) Prohibit the Department of Hawaiian Home Lands from disposing or extending a general lease to non-beneficiaries, unless there are no applicants seeking to enter into a general lease to the use and occupancy of a tract of Hawaiian home lands;
- (3) Require the Department of Hawaiian Home Lands to notify beneficiaries through beneficiary consultation prior to the disposition of Hawaiian home lands;
- (4) Prohibit the Department of Hawaiian Home Lands from establishing additional criteria to enter into a general lease with an applicant without notifying beneficiaries;
- (5) Specify that the Department of Hawaiian Home Lands may grant a license or enter itno a general lease with an applicant, under certain conditions;
- (6) Allocate the interest or earnings from the Hawaiian home loan fund and Hawaiian home general loan fund into their respective funds, under certain conditions;
- (7) Require the Department of Hawaiian Home Lands to submit a quarterly report to the Legislature and beneficiaries; and
- (8) Authorize the Department of Hawaiian Home Lands to negotiate with homestead association governed water agencies to maintain water systems prior to other service providers, under certain conditions.

Your Committee received comments on this measure from the Department of the Hawaiian Home Lands.

Your Committee notes that title 43 Code of Federal Regulations part 48, as amended, outlines the process for amendments to the Hawaiian Homes Commission Act and whether or not Congressional approval is necessary. Your Committee strongly believes that this measure does not require Congressional approval.

Your Committee finds that in the Hawaiian Homes Commission Act, 1920, as amended, the United States Congress established the Hawaiian home lands trust, intending that it would enable its native Hawaiian beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. This measure will make changes to improve the governance and accountability entrusted to the Department of Hawaiian Home Lands and Hawaiian Homes Commission to fulfill their duty toward the preservation of values, traditions, culture, and self-sufficiency for native Hawaiians. Additionally, your Committee finds that the Department of Hawaiian Home Lands does not receive sufficient funding to develop house lots for all applicants on the waiting list. The Department of Hawaiian Home Lands does not currently receive sufficient funding to reduce the waiting list by ninety percent over the next decade, leading to a lack of access resources for beneficiaries.

Your Committee finds that these reforms have the potential to provide access to private capital for beneficiaries of the Department of Hawaiian Home Lands, revolve interest earnings to deploy capital to farms, ranches, and businesses on homesteads, and make significant strides to alleviate the waitlist.

Your Committee notes the concerns of the Department of Hawaiian Home Lands, including:

- (1) The unnecessary need for an additional definition of "beneficiary consultation";
- (2) Concerns surrounding the proposal and elevation of the interest of lessees and homestead associations over the interests of applicants on the waitlist and Hawaiian Homes Commission Act Beneficiary Associations;
- (3) Conflicting provisions surrounding establishing additional criteria to enter into leases with applicants;
- (4) The unnecessary need for the allocation of the interest or other earnings from the Hawaiian home loan fund and Hawaiian home general funds into their respective funds; and
- (5) The unnecessary need for the Department of Hawaiian Home Lands to negotiate with homestead association governed water agencies to maintain water systems prior to other service providers since the department already has an agreement in place with regard to water maintenance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 892, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 892, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Keohokalole). Noes, none. Excused, none.

SCRep. 105 Commerce and Consumer Protection on S.B. No. 329

The purpose and intent of this measure is to remove the publication requirement and permit the board of directors of a condominium association to proceed directly to the sale, storage, donation, or disposal of personalty that has been abandoned in or on the common elements of a condominium when the identity or address of the owner is unknown.

Your Committee received testimony in support of this measure from Community Associations Institute, Associa, Palehua Townhouse Association, Honolulu Tower AOAO, and three individuals.

Your Committee finds that abandoned bicycles, surfboards, appliances, furniture, and other personal items left on common elements of condominium property is a frequent problem. Abandoned personal property is often an eyesore and can create safety hazards for other residents, especially when space is limited. The current process to dispose of abandoned items is burdensome, costly, and lengthy. This measure simplifies the process for boards to more easily dispose of abandoned property and eliminates the requirement of publishing expensive notices in the newspaper.

Your Committee has amended this measure by clarifying that the board shall provide thirty, rather than sixty, days' written notice to a known owner before selling, storing, donating, or disposing of the personalty.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 329, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Misalucha).

SCRep. 106 Commerce and Consumer Protection on S.B. No. 601

The purpose and intent of this measure is to:

- (1) Prohibit roofing contractors from offering to pay, in any monetary form, an insured's insurance deductible as an incentive to encourage the insured to hire the contractor;
- (2) Allow insureds to rescind contracts with roofing contractors within five business days of receiving notification from an insurer that all or any part of a claim or contract is not a covered loss under the insured's insurance policy; and

(3) Allow the Contractors License Board to revoke, suspend, or refuse to renew a contractor's license if the contractor performs as a public adjuster without a public adjuster license.

Your Committee received testimony in support of this measure from the National Insurance Crime Bureau, National Association of Mutual Insurance Companies, and State Farm Mutual Automobile Insurance Company. Your Committee received testimony in opposition to this measure from the Roofing Contractors Association of Hawaii. Your Committee received comments on this measure from the Contractors Licensing Board.

Your Committee finds that contractor fraud, particularly involving roofing and roofing-related practices, is a widespread problem, and Hawaii is no exception. Often, in the aftermath of major storms or catastrophes, unscrupulous and aggressive contractors use the opportunity to prey on already vulnerable consumers who may be pressured into signing a binding contract for work that is later determined unnecessary by an insurance adjuster. Insurance claims can then be denied, leaving consumers contractually obligated to pay for repairs they did not need and cannot afford. This measure models legislation that has been adopted in over twenty other states to help prevent Hawaii citizens from being scammed into entering into deceptive roofing repair contracts.

Your Committee notes the concerns raised in testimony in objection to this measure that this measure allows insureds to rescind contracts with roofing contractors within five business days, but that a three-day recission period is already required for door-to-door sales. Your Committee finds that this apparent discrepancy merits further consideration and requests that your Committee on Judiciary further examine this issue and the concerns raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Amending the definition of "roofing contractor" to clarify a roofing contractor means a person, independent contractor, or subcontractor whose scope of practice includes roofing and roofing-related services;
- (2) Deleting language that would have allowed the Contractors License Board to revoke, suspect, or refuse to renew a contractor's license if the contractor performs as a public adjuster without a public adjuster license;
- (3) Updating section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 601, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 601, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 107 Commerce and Consumer Protection on S.B. No. 162

The purpose and intent of this measure is to specify that the amount of damages recoverable by a tenant subjected to an unlawful retaliatory eviction is equal to two months' rent.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Imua Alliance. Your Committee received testimony in opposition to this measure from the Collection Law Section of the Hawaii State Bar Association. Your Committee received comments on this measure from one individual.

Your Committee finds that a number of other states have statutory minimum damage awards for tenants who are illegally retaliated against for asserting their lawful rights to request that repairs be made to their rental property or for complaining about health or safety code violations. This measure is in the best interest of justice and establishes a statutory minimum damage award for tenants to further deter unscrupulous landlords from engaging in wrongful conduct.

Your Committee notes the concerns raised in testimony that the State already recognizes the defense of retaliatory eviction in a summary possession action, which a court will consider prior to ruling on whether to allow the tenant to stay. Accordingly, amendments to this measure are necessary to clarify that the statutory minimum damage award contemplated by this measure should be allowed only if the courts were not involved in the eviction, further discouraging "self-help" evictions by landlords who do not first seek court permission before evicting tenants.

Your Committee has therefore amended this measure by:

- (1) Clarifying that a tenant who has been involuntarily dispossessed by an unlawful retaliatory eviction, without a court order, is entitled to recover damages in an amount equal to two months' rent and the cost of suit, including reasonable attorney's fees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 108 Energy, Economic Development, and Tourism on S.B. No. 80

The purpose and intent of this measure is to amend the law relating to the economy.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that requires the Bureau of Conveyance to amend its rules to establish a new fee schedule for certain general, land court, and regular system fees in order to:

- (1) Assist local residents in participating in the Hawaii housing market by modifying fees charged by the Bureau of Conveyances;
- (2) Stimulate growth of the local economy by promoting homeownership for residents; and
- (3) Provide increased revenues for the Bureau of Conveyances to maintain its operation.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80, as amended herein, and recommends that it be recommitted to your Committee on Energy, Economic Development, and Tourism in the form attached hereto as S.B. No. 80, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 109 (Majority) Hawaiian Affairs on S.B. No. 877

The purpose and intent of this measure is to:

- (1) Allow the Hawaiian Homes Commission and Department of Hawaiian Home Lands to retain independent legal counsel;
- (2) Authorize the Hawaiian Homes Commission and Department of Hawaiian Home Lands to use the services of the Attorney General as needed and when the interests of the State, Hawaiian Homes Commission, and Department of Hawaiian Home Lands are aligned; and
- (3) Provide that funds owed to independent legal counsel shall be paid by the State.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that the Department of Hawaiian Home Lands has a trust duty to its beneficiaries under the Hawaiian Homes Commission Act and in the fulfillment of this trust responsibility, the Department of Hawaiian Home Lands may at times be at odds with the interest of the State. The Department of Hawaiian Home Lands seeks to be assured that its counsel provide legal advice strictly in the interest of the Department and remove any appearance of a conflict of interest as a result of representation by the Department of the Attorney General, which represents the State of Hawaii.

Your Committee further finds that twenty-one other state agencies currently have the autonomy that this measure would provide to the Hawaiian Homes Commission and Department of Hawaiian Home Lands. Your Committee also notes its concern that there are currently no limits to the cost of independent legal counsel for the state agencies that retain such counsel.

Your Committee has heard the concerns from the Department of Attorney General that the Attorney General is best suited to provide legal advice in a cost effective and conflict-free manner to the Department of Hawaiian Home Lands. Additionally, private attorneys retained by the Hawaiian Homes Commission and the Department of Hawaiian Home Lands may not possess the necessary breadth of knowledge and experience available within the agency. In *State v. Klattenhoff*, 801 P.2d 548 (1990), the Hawaii Supreme Court ruled that the Department of Attorney General may assign deputies to represent agencies that have competing interests, and the Department has done this in past cases to ensure that all client agencies are vigorously and separately represented.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 877 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 110 Commerce and Consumer Protection on S.B. No. 1232

The purpose and intent of this measure is to establish a three-year surcharge on the liquor tax, to repeal on June 30, 2024.

Your Committee received testimony in support of this measure from the Hawai'i Alcohol Policy Alliance, Hawaii Substance Abuse Coalition, Hawaii Fetal Alcohol Spectrum Disorder Action Group, Maui Chapter of the State of Hawai'i Organization of Police Officers, Hawaii Chapter of Mothers Against Drunk Driving, Hawaii State Teachers Association, and fourteen individuals. Your Committee received testimony in opposition to this measure from the Maui Chamber of Commerce; Retail Merchants of Hawaii; Legislative Action Center; Hawaii Food Industry Association; Lanikai Brewing Company; Mahalo Aleworks; Hawaiian Craft Brewers Guild; Maui Brewing Co.; Kauai Island Brewing Co.; Wine Institute; Hana Koa Brewing Co.; Kauai Beer Company; Ola Brewing Co.; Waikiki Brewing Company; Beer Lab Hawaii; Maui Wine, Ltd.; Big Island Brewhaus; and nine individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that alcohol consumption and heavy drinking has increased during the pandemic and will likely remain high post-pandemic. Excessive alcohol consumption poses significant health risks and costs money to our community. Treatment funds are being slashed in Hawaii, and funds are needed to help the economy recover. Additionally, increasing taxes on alcohol has lagged compared to other commodities. The temporary surcharge proposed by this measure would be paid only by those who consume alcohol, not the general public. According to testimony, it is estimated that over \$62 million would be generated in state revenues if a modest ten cent per alcoholic beverage surcharge were imposed over the next three years. These funds would help reduce excessive use of alcohol and its related consequences.

Your Committee notes the testimony of the Department of Taxation that this measure could be amended to instead increase the perwine gallon liquor tax rates currently found in the applicable statute, rather than impose a separate per drink surcharge, to accomplish the same effect. Your Committee requests that your Committee on Ways and Means further examine this approach, if necessary, to clarify the desired objective of this measure.

Your Committee has amended this measure by:

- (1) Inserting an amount of \$0.10 for the per drink surcharge proposed by this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1232, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1232, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 111 Commerce and Consumer Protection on S.B. No. 563

The purpose and intent of this measure is to prohibit a commercial landlord from initiating or continuing any action to evict or collect unpaid rent from a commercial tenant that has been adversely impacted by the economic effects of coronavirus disease 2019 (COVID-19) or official measures intended to mitigate the spread of COVID-19, to repeal July 1, 2022.

Your Committee received testimony in support of this measure from Vision Design Kitchen and Bath, LLC dba Poggenpohl Kitchens Hawaii; Leading Importers, LLC; and twelve individuals. Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii; NAIOP Commercial Real Estate Development Association; Ka Makana Ali'i Shopping Center; Kapolei Hawaii Property Company, LLC; Kapolei Shops, LLC; Hawaii Bankers Association; International Council of Shopping Centers; Building Owners and Managers Association of Hawaii; and seven individuals. Your Committee received comments on this measure from the Hawai'i Lodging & Tourism Association, Retail Merchants of Hawaii, and Pacific Islands Institute.

Your Committee finds that, due to the negative economic effects of COVID-19 over the past year, small businesses across the State have continued to struggle and many have been forced to close permanently. Reports have indicated that Hawaii has one of the highest rates of small business closures at twenty-five percent, many of which were landmarks in their communities. In many cases, local and federal assistance has not been sufficient to bridge the gap between the reduction in sales or business income and high rent expenses. Several jurisdictions across the country have taken measures to protect commercial tenants and due to the uncertain nature of the COVID-19 pandemic and the significant, prolonged economic disruption it has had on Hawaii's small businesses, emergency measures are necessary to support recovery and survival of Hawaii's small businesses, and the State's economy as a whole.

Your Committee has amended this measure by:

- (1) Clarifying that an impacted commercial tenant shall not have a subsequent option to terminate the lease pursuant to the terms of this measure at a later date if the impacted commercial tenant and commercial landlord reach an agreement, regardless of whether the agreement is made pursuant to the terms of this measure or any other process;
- (2) Inserting definitions for "COVID-19" and "paycheck protection program loans";
- (3) Clarifying that "impacted commercial tenant" shall additionally mean a commercial tenant who has applied for a paycheck protection program loan in the calendar years 2020 and 2021;
- (4) Specifying the criteria to qualify as an "impacted commercial tenant" to include a commercial tenant who has experienced a decline of twenty-five percent or more in average monthly revenue over the two most recent calendar months when compared to other certain averages; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 563, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Misalucha, Riviere, San Buenaventura, Fevella). Noes, none. Excused, none.

SCRep. 112 Commerce and Consumer Protection on S.B. No. 576

The purpose and intent of this measure is to:

- (1) Require licensed used motor vehicle part dealers to obtain a written statement by a seller of a catalytic converter that the seller has the lawful right to sell and dispose of the catalytic converter;
- (2) Require a seller of a catalytic converter to present a receipt or notarized declaration regarding the catalytic converter;
- (3) Prohibit a licensed used motor vehicle part dealer from purchasing a catalytic converter with no receipt or notarized declaration and to report the attempted sale to the police; and
- (4) Establish the offense of theft of catalytic converter as a class C felony.

Your Committee received testimony in support of this measure from the City and County of Honolulu Police Department, American Property Casualty Insurance Association, National Insurance Crime Bureau, and Poi Dogs & Popoki. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that catalytic converter theft is on the rise, in part due to the increase in prices associated with precious metals that are used in the construction of catalytic converters, the relative ease and speed in which a thief can remove a catalytic converter, and the money a thief can reap in selling scrap metal. Currently, police departments are ill-equipped to conduct enforcement in this area due to the lack of strong legislation that addresses this issue. Installing a replacement catalytic converter can cost several hundreds to several thousands of dollars, and the hasty removal of a catalytic converter can cause additional repair costs. Therefore, this measure requires scrap dealers to follow certain requirements and establishes the theft of a catalytic converter as a class C felony to help deter the increasing proliferation of this crime.

Your Committee has amended this measure by:

- (1) Clarifying that a person commits the offense of theft of catalytic converter if the person obtains a catalytic converter through any means described in section 708-830, Hawaii Revised Statutes, or the provisions being added to chapter 289, Hawaii Revised Statutes:
- (2) Removing language that would have established minimum penalties for theft of catalytic convertors, and inserting language clarifying that theft of a catalytic converter is a class C felony;
- (3) Inserting a savings clause;
- (4) Inserting an effective date of July 1, 2021; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 576, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 113 Commerce and Consumer Protection on S.B. No. 191

The purpose and intent of this measure is to:

- (1) Provide a process for associations to incorporate power of sale language into governing documents; and
- (2) Clarify that the explicit grant of power of sale to associations is not required for the purposes of enforcing association liens under the association alternate power of sale foreclosure process.

Your Committee received testimony in support of this measure from Community Associations Institute, Associa, Palehua Townhouse Association, and four individuals. Your Committee received testimony in opposition to this measure from Hui 'Oai'i'o, Condo Owners Coalition of Hawaii; and two individuals.

Your Committee finds that Act 282, Session Laws of Hawaii 2019, expressed the legislative intent that condominium associations have authority to use a nonjudicial foreclosure process when owners default on their financial obligations to their fellow owners. Courts have nonetheless cast doubt on previous legislative action and have insisted that "power of sale" language must be contained within the governing documents of a condominium association before a nonjudicial foreclosure process may be used. Because the courts have not honored this longstanding legislative intent, additional legislation is necessary. Accordingly, this measure strictly prescribes how a condominium association may incorporate "power of sale" language into its governing documents and further provides owners with an "opt out" mechanism to address potential impairment of contract concerns.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 191, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Misalucha).

SCRep. 114 Commerce and Consumer Protection on S.B. No. 764

The purpose and intent of this measure is to add a lifetime commercial driver's license disqualification for a commercial driver's license or commercial learner's permit holder who is convicted of a felony involving a severe form of trafficking in persons.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Transportation Association, Hawaii Strategic Highway Safety Plan, and one individual.

Your Committee finds that recent Federal Motor Carrier Safety Administration rule changes permanently disqualify individuals who have been convicted of a felony involving severe forms of human trafficking from driving commercial motor vehicles. This measure further advances policies to combat human trafficking and will bring the State into substantial compliance with the federal regulations.

Your Committee has amended this measure by:

- (1) Clarifying that the examiner of drivers shall permanently disqualify any person from driving a commercial motor vehicle for life with the possibility of reinstatement, if the person uses a commercial motor vehicle in the commission of a felony involving a severe form of trafficking in persons; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 764, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 115 Commerce and Consumer Protection on S.B. No. 609

The purpose and intent of this measure is to:

- (1) Provide veterinarians who provide emergency care to an animal immunity from civil liability in the absence of gross negligence;
- (2) Provide veterinarians who render emergency treatment when there is no veterinarian-client-patient relationship immunity from civil liability in the absence of gross negligence; and
- (3) Require veterinarians to report events of animal injury, death, or abuse to law enforcement where there is reasonable cause to believe that it relates to dog fighting or animal abuse and gives veterinarians immunity for civil liability for making the reports.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Hawaii Veterinary Medical Association, Hawaii Association of Animal Welfare Agencies, Pono Advocacy, Animal Interfaith Alliance, Humane Society Veterinary Medical Association, and forty-seven individuals. Your Committee received comments on this measure from the Hawaii Board of Veterinary Medicine.

Your Committee finds that, under existing law, if an animal is taken to a veterinarian with non-life threatening injuries, and there is no owner present or a current established veterinarian-client-patient relationship, veterinarians are only permitted to provide pain medications and antibiotics for a certain number of days, depending on whether the animal is microchipped. In some of these situations, veterinarians have to wait to perform important surgeries or other essential procedures to provide animals with necessary relief. Accordingly, this measure allows a veterinarian to be a "good Samaritan" and provide emergency care outside of a valid veterinarian-client-patient relationship, while also protecting against civil liability when acting in this role in the time of an emergency to assist the animal in need. This measure also provides justified guidance to practicing veterinarians on reporting acts of animal abuse, cruelty, and staged fighting, similar to the laws in place for over twenty other states in the country. Reporting such events to law enforcement is beneficial to the community at large, as multiple studies have shown a link between perpetrators of animal abuse and domestic or child abuse, and other acts of violence. This measure is therefore important to help advance these significant public interests.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 609 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 116 Commerce and Consumer Protection on S.B. No. 1241

The purpose and intent of this measure is to require any express carrier company, common or contract carrier, or other person that transports liquor from outside the State for delivery in the State to prepare and file a monthly report with the liquor commission or liquor control adjudication board of each county in which deliveries are made.

Your Committee received testimony in support of this measure from Hawaii Liquor Wholesalers Association. Your Committee received testimony in opposition to this measure from the Hawaiian Craft Brewers Guild; Maui Brewing Co.; Lanikai Brewing Company; and Maui Wine, Ltd. Your Committee received comments on this measure from Matson Navigation Company, Inc.

Your Committee finds that state law allows wine producers outside of the state to direct ship to consumers within the State. Other states that allow direct shipment have found, through carrier reporting, that large amounts of liquor have been shipped into their states without payment of liquor, excise, and income taxes, resulting in loss of tax revenue to the states. Illegal shipments of liquor hurt Hawaii's economy and can result in loss of income and jobs to local residents. This measure would require the carriers of liquor to report the amount of statewide liquor being shipped and shipper information to the liquor commission or liquor control adjudication board, who can determine and analyze the shipments made to each county and confirm whether the shipper has complied with the requirements to obtain a direct shipper permit and paid all required taxes.

Your Committee has amended this measure by clarifying that this measure does not extend to water carriers as defined and regulated by the Surface Transportation Board of the United States.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1241, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1241, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 117 Commerce and Consumer Protection on S.B. No. 565

The purpose and intent of this measure is to expand the definition of "beer" to specify an alcohol by volume of no less than 0.5 percent and to include alcoholic seltzer beverages.

Your Committee received testimony in support of this measure from Kauai Beer Co., Maui Brewing Co., Beer Lab Hawaii, Hawaiian Craft Brewers Guild, Hana Koa Brewing Co., Koholā Brewery, Mahalo Aleworks, Big Island Brewhaus, Waikiki Brewing Company, and two individuals. Your Committee received testimony in opposition to this measure from the Wine Institute. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the existing statutory definition of "beer" is limited and does not reflect the public's perception of beer in the current marketplace, or adequately represent the unique aspects of craft beer ingredients that brewers use to develop new products and new offerings, such as gluten-free beer or beer with alternative grain ingredients, which are becoming more popular across the United States. Furthermore, this definition is not the same as the federal definition, which includes a broader range of substitutes or additions to malted barley and fermentable sugars. This measure will help foster the creation of new and unique styles of beer that are well-suited for the inclusion of Hawaii-grown products and will have a significant benefit for local, small, independent craft breweries across the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 565, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 565, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 118 Commerce and Consumer Protection on S.B. No. 922

The purpose and intent of this measure is to:

- Limit the period of years that criminal convictions may be used by the liquor commission in review of an application to the
 most recent ten years; and
- (2) Mandate an applicant to disclose specific disqualifying convictions related to certain federal or state laws related to products regulated pursuant to certain provisions of the Internal Revenue Code or the Federal Alcohol Administration Act.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild and two individuals.

Your Committee finds that existing law requires liquor license applicants (and, in certain instances, the officers and board of directors of companies who are designated as decision-makers regarding the sale or purchase of liquor) to report any conviction other than minor traffic violations going back to eighteen years of age, which exceeds requirements established by the federal government. This requirement is overly burdensome and can have the effect of discouraging business or employment. This measure establishes a ten-year lookback period for criminal convictions, which is the standard for many other applications, while still mandating an applicant to disclose specific disqualifying convictions from any time related to products regulated pursuant to certain provisions of the Internal Revenue Code and Federal Alcohol Administration Act to better serve the public interest.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 922, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 119 Commerce and Consumer Protection on S.B. No. 35

The purpose and intent of this measure is to:

- Prohibit landlords from recovering possession of a dwelling unit from tenants if habitability of the premises is significantly impaired;
- (2) Set a tenant's liability for rent if habitability of the premises is significantly impaired; and
- (3) Provide remedies for retaliatory evictions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Imua Alliance. Your Committee received testimony in opposition to this measure from the Collection Law Section of the Hawaii State Bar Association, Hawai'i Association of REALTORS, and one individual.

Your Committee finds that the most common complaint received by the Department of Commerce and Consumer Protection's Landlord-Tenant Information Center concerns landlords failing to make repairs in a timely manner. Under existing state law, a tenant has the legal right to request necessary repairs without being evicted, and if the landlord does not respond in a certain number of days, the tenant may deduct up to \$500 from the following month's rent for the cost of repairs. However, the cost to repair conditions that

materially affect health and safety can exceed \$500, leaving a tenant with limited recourse. This measure will help incentivize landlords to keep their rental units safe and sanitary, establishes a clear standard of damages for tenants who fall victim to retaliatory evictions, and will deter unscrupulous landlords from engaging in unlawful conduct.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2124, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 35, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 120 Commerce and Consumer Protection on S.B. No. 606

The purpose and intent of this measure is to temporarily halt nonjudicial foreclosures by condominium associations until June 30, 2023.

Your Committee received testimony in support of this measure from one member of the Maui County Council; Imua Alliance; Hui 'Oia'i'o, Condo Owners Coalition of Hawaii; and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Bar Association Collection Law Section and two individuals. Your Committee received comments on this measure from Associa and Palehua Townhouse Association.

Your Committee finds that a recent study found that Hawaii is experiencing the slowest unemployment rate recovery in the nation. Thousands of people who have not lost their jobs have still experienced a reduction in employment hours and earnings. Due to the economic burden this has placed on many residents and families in the State, this measure provides additional protection for unit owners by halting nonjudicial foreclosures by condominium associations.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, is too broadly applied to meet its intended purpose of ensuring that persons have adequate housing during uncertain times. Nonjudicial foreclosures are an important tool for associations to take control of unoccupied units so that they may be rented to generate income to pay the unit owner's delinquency. Additionally, associations have a strong incentive for tenants to remain in the property in order to collect rent to offset a delinquency and pay maintenance fees and assessments that continue to accrue. Therefore, tenants of a rental unit would not suffer if an association were able to foreclose and take possession from a defaulting landlord. By limiting the moratorium to only owner-occupied units, associations could continue to nonjudicially foreclose rental units and abandoned units to make more housing available and not further exacerbate the housing crisis.

Your Committee further notes that shortening the term of the moratorium contemplated by this measure to one year, rather than two years, would provide more flexibility and will allow for legislative review next year to evaluate the need for any extension of relief. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Specifying that, if a unit serves as a unit owner's primary residence and is occupied by the unit owner, an association shall not be permitted to initiate a nonjudicial foreclosure process or exercise a power of sale, pursuant to the terms of this measure;
- (2) Clarifying that nothing in this measure shall be construed to restrict an association from using nonjudicial foreclosure procedures to recover possession of a rental unit or an abandoned unit;
- (3) Inserting an effective date of July 1, 2021, and clarifying the measure shall repeal on June 30, 2022, rather than June 31, 2023;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 606, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Misalucha).

SCRep. 121 Education on S.B. No. 813

The purpose and intent of this measure is to require authorizers to provide to each charter school it oversees a list of approved independent auditors.

Your Committee received testimony in support of this measure from the State Public Charter School Commission and Hawaii Public Charter School Network.

Your Committee finds that charter schools can only select an auditor from three auditors selected by the authorizer. There are currently not enough auditors in Hawaii to meet the required timeline to ensure charter school audits are included in the consolidated annual financial reports. Your Committee further finds that many of the auditors selected by the authorizer are based on Oahu, which makes it more difficult for charter schools on the other islands to complete their audits and forces those charter schools to incur additional expenses and delays. This measure would allow the charter schools to choose from a list of more than three independent auditors to conduct audits and provide access to auditors for the many charter schools that operate on all the islands across the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 122 Education on S.B. No. 864

The purpose and intent of this measure is to require that a minimum of two of the three auditors selected by the authorizer for the State's public charter schools have offices on the neighbor islands.

Your Committee received testimony in support of this measure from the Hawaii Public Charter School Network, Hawaii Academy of Arts and Science Public Charter School, Kanu o ka 'Āina New Century Public Charter School, Kapolei Charter School, and two individuals. Your Committee received comments on this measure from the State Public Charter School Commission and Alaka'i O Kaua'i Charter School.

Your Committee finds that in 2019, the Hawaii State Public Charter School Commission requested control of the selection of auditors for public charter schools and requested that the number of auditors be limited to a choice of three. Since passage, the State Public Charter School Commission has only recommended a list of auditors all of whom were located on the island of Oahu. Your Committee further finds that having three auditors on the island of Oahu will cause undue burden and expense to neighbor island public charter schools and will likely hinder the completion of an audit of all thirty-seven public charter schools in the State within the timeframe required for the consolidated annual audit report. This measure will require that two auditor have offices on a neighbor island, which will allow charter schools on islands other than Oahu to be less burdened by the audits and be provided with an auditor located more conveniently to meet their needs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 864 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 123 Education on S.B. No. 136

The purpose and intent of this measure is to require the:

- Department of Education School Facilities Agency to adopt and publish administrative rules necessary to implement Act 72, Session Laws of Hawaii 2020, by July 1, 2021; and
- (2) Office of the Governor to provide a report to the Legislature regarding the process by which the Department of Education purchases land and executes capital improvement project contracts through the School Facilities Agency.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that Act 72, Session Laws of Hawaii 2020, established a School Facilities Agency to be a body corporate and a public instrumentality of the State for the purposes of being responsible for public school development, planning, and construction related to capital improvement projects assigned to the Legislature, Governor, or Board of Education. Currently, the Department of Education is not required to adopt and publish administrative rules to implement Act 72, Session Laws of Hawaii 2020. This measure will require that administrative rules are established by July 1, 2021, which is integral to the operation of the School Facilities Agency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 136 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 124 Water and Land on S.B. No. 204

The purpose and intent of this measure is to authorize the use of aquatic in-lieu fee mitigation where a person is required to provide compensatory mitigation for past and prospective damages to restore, create, enhance, or preserve the affected aquatic habitat or resource.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that natural resource agencies, such as the Department of Land and Natural Resources, prefer compensatory mitigation mechanisms such as in-lieu fee mitigation because in-lieu fee sponsors are often entities with more experience, scientific expertise, and vested long-term interest in natural resource conservation. According to testimony received by your Committee, Hawaii intends to be the first state in the nation to establish in-lieu fee mitigation for coral reefs. Your Committee further finds that this measure would provide the Department of Land and Natural Resources with another innovative mechanism to improve state stewardship of aquatic public trust habitats and resources, increase accountability for aquatic resource damage, and provide a higher quality of restitution for the damaged resources.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 204, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 125 Water and Land on S.B. No. 578

The purpose and intent of this measure is to regulate commercial shark boat tour operators, improve public safety, and increase protections of sharks within state waters. Specifically, this measure:

- (1) Prohibits commercial shark tour operations from operating without a permit; and
- (2) Requires the Department of Land and Natural Resources to adopt rules to regulate commercial shark tours, including adherence to a code of conduct and safety standards.

Your Committee received testimony in support of this measure from the Center for Biological Diversity, Hawai'i Reef and Ocean Coalition, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that commercial shark boat tours are presently unregulated and, as a result, safety measures vary greatly between operators. Noting the inherent risks associated with swimming with sharks, your Committee finds that the regulation of shark boat tours is appropriate.

Your Committee further finds that all commercial vessels not under the jurisdiction of the Department of Transportation are required to obtain a commercial use permit (CUP) with the Department of Land and Natural Resources Division of Boating and Ocean Recreation (DOBOR). Your Committee notes DOBOR's ability to modify the terms and conditions for granting CUPs and encourages DOBOR to establish terms and conditions for issuing CUPs for commercial shark tour operations based on the minimum standards set forth in this measure.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Department of Land and Natural Resources to adopt rules to establish a code of conduct and best management practices for commercial shark tour operators; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 578, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 578, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 126 (Majority) Agriculture and Environment on S.B. No. 219

The purpose and intent of this measure is to impose extended terms of imprisonment for a person who commits a crime on agricultural land if the person knew or reasonably should have known that the crime was committed on agricultural land.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative, LLC; and Hawai'i Farm Bureau.

Your Committee finds that agricultural crime is a persistent problem in the State despite efforts to install cameras, form community watch groups, and patrol farms. Agricultural theft, vandalism, trespassing, and recently murder have occurred on state agricultural lands. This measure imposes extended terms of imprisonment for certain crimes committed on state agricultural lands to protect the agricultural industry, agricultural lands, public at-large, and acts as a deterrent to potential offenders.

Your Committee also finds that losing revenue and investing in repairs and security has the potential to push more local farmers and ranchers out of the agricultural sector, jeopardizing the State's ability to increase locally grown food in the State. An April 2020 report from the United States Department of Agriculture indicated that agricultural theft and crime cost Hawaii farm producers \$14,400,000, or ten percent of the 2018 Hawaii net farm income of \$142,000,000.

Your Committee has amended this measure by removing the specific intent requirement that the person knew or reasonably should have known that the crime was committed on agricultural land.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 219, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 127 Transportation on S.B. No. 998

The purpose and intent of this measure is to grant voting rights to members of the Honolulu Authority for Rapid Transportation (HART) Board of Directors who were appointed by the President of the Senate or the Speaker of the House of Representatives.

Your Committee received testimony in support of this measure from the International Brotherhood of Electrical Workers Local No. 1186.

Your Committee finds that the HART rail project will provide an efficient and reliable transportation alternative for Honolulu's congested urban corridor. The elevated rail system will take more than 40,000 vehicles off the road every weekday by the year 2030. However, many critical and timely decisions are periodically impeded by quorum requirements and the disparity between voting and non-voting members of the Board of Directors. This measure will improve the efficiency of the HART Board by granting voting rights to two members who currently are statutorily prohibited from voting.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 128 Transportation on S.B. No. 615

The purpose and intent of this measure is to:

- (1) Prohibit operating a moped or motor scooter from any rental company unless a person wears a safety helmet; provided that the prohibition does not apply if a person has a valid license from any state to operate a motorcycle; and
- (2) Prohibit the rental of any moped or motor scooter with an aftermarket modification to its motor.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, AAA Hawaii, and thirty-seven individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that from 2016 to 2018, there were twenty-three motor scooter and moped operator fatalities, and of the twenty-three fatalities, twenty-two operators were not wearing helmets. Wearing a helmet while operating a moped, powered scooter, or other motorized cycle decreases fatalities and serious injuries. Your Committee notes that according to the Hawaii Injury Prevention Plan for 2012-2017, published by the Department of Health and the Emergency Services and Injury Prevention System Branch, properly worn helmets can reduce the risk of death by forty-two percent and the risk of a head injury by sixty-nine percent. This measure would require anyone who rents or leases a motor scooter or moped to wear a helmet and will help to reduce motor scooter and moped related fatalities.

Your Committee also encourages your Committee on Commerce and Consumer Protection to examine whether it is prudent to exempt renters who possess a current motorcycle license from the requirement to wear a helmet, should this measure proceed. Additionally, your Committee notes the comments in the testimony of the Honolulu Police Department regarding the difficulty of enforcing the prohibition on aftermarket modifications as actual horsepower measures are never taken.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 129 (Majority) Transportation on S.B. No. 646

The purpose and intent of this measure is to improve roadways in the State by increasing the amount of the rental motor vehicle surcharge tax from \$5 to \$8 for any county with a resident population of more than 125,000, but less than 195,000, and depositing the revenue from the increased surcharge tax into that county's subaccount within the State highway fund.

Your Committee received testimony in support of this measure from the Department of Transportation and Maui Chamber of Commerce. Your Committee received testimony in opposition to this measure from Avis Budget Group and Enterprise Holdings. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will increase funding to improve roadways by increasing the surcharge tax on rental motor vehicles for counties with a certain population.

Your Committee understands the concerns addressed by the testimony from Avis Budget Group and Enterprise Holdings and acknowledges that rental car companies have been especially hurt by the continuing coronavirus 2019 (COVID-19) pandemic. It is the desire of your Committee that when a final effective date is inserted into this measure, should it proceed, it will be a date that accounts for economic recovery from the effects of the COVID-19 pandemic.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 646, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Inouye). Excused, none.

SCRep. 130 (Majority) Transportation on S.B. No. 649

The purpose and intent of this measure is to provide immunity from liability for personal injuries or property damage arising out of the repair or maintenance of a street whose ownership is disputed between the State and county.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there are certain roads in the State where ownership is disputed between the county and the State. Frequently these disputed roads have fallen into disrepair as neither the State nor the county will repair what is not legally theirs. This measure will allow for the repair and maintenance of these disputed roads without conferring ownership. It will also relieve the repairing entity from any liability arising from the repair and maintenance of the disputed roads.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 649, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 649, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 131 Transportation on S.B. No. 1008

The purpose and intent of this measure is to establish a permanent autonomous transportation task force to be placed in the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation, 350Hawaii.org, Hawaii Electric Vehicle Association, Tesla, and five individuals. Your Committee received comments on this measure from the Motorcycle Industry Council, Recreational Off-Highway Vehicle Association, and Specialty Vehicle Institute of America.

Your Committee finds that nearly every automaker and many prominent tech companies worldwide are working diligently toward deploying autonomous vehicles that can drive with little or no human intervention. Currently, twenty-nine states and Washington, D.C., as well as Governors in eleven states, including Hawaii, have enacted legislation or executive orders related to autonomous vehicles. This measure will establish a permanent task force within the Department of Transportation to make recommendations to the Legislature and to prepare the State for the inevitable adoption and use of autonomous vehicles.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1008, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 132 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1116

The purpose and intent of this measure is to provide emergency appropriations in fiscal year 2020-2021 to the Department of Defense to continue funding various coronavirus disease 2019 (COVID-19) response related programs and activities.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency. Your Committee received comments regarding this measure from one individual.

Your Committee finds that the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted on March 27, 2020, to address the extensive health and economic fallout of the COVID-19 pandemic and provide federal funds to support the State's COVID-19 relief efforts. With the expiration of the CARES Act funds, your Committee finds that additional funds are needed to continue funding critical COVID-19 response programs and activities for the remainder of fiscal year 2020-2021. This measure appropriates funds for the purpose of COVID-19 response activities and provides transparency and accountability for the use of those funds.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$8,413,549 for the transfer of Safe Travels Hawaii contracts from the Department of Transportation to the Department of Defense;
- (2) Deleting appropriations for activation of the National Guard and data service for airport screener tablets, because such funding is no longer required;
- (3) Inserting an appropriation amount of \$4,588,802 for procurement, storage, and distribution of personal protective equipment to schools and state agencies;

- (4) Clarifying that the Governor is authorized to transfer the appropriated funds among all executive agencies and is authorized to transfer excess Department of Defense funds to the Governor's contingency fund, as deemed necessary; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1116, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 133 Judiciary on S.B. No. 1286

The purpose and intent of this measure is to appropriate funds to the Office of the Prosecuting Attorney for Hawaii County for the Career Criminal Prosecution Unit.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Office of the Prosecuting Attorney, County of Hawai'i; and two individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that a disproportionate amount of serious crimes are committed against the public by a relatively small number of multiple and repeat-felony offenders, commonly known as career criminals. Your Committee further finds that the Career Criminal Prosecution Unit was created to more efficiently and effectively prosecute career criminals. Your Committee additionally finds that funding Career Criminal Prosecution programs serves the public interest by providing citizens with swift and effective justice, as well as reducing heavy caseloads and court delays.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1286 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 134 Health on S.B. No. 262

The purpose and intent of this measure is to assure sufficient resources to sustain and enhance the State's SARS-CoV-2 virus vaccination goals.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that appropriations are necessary to sustain and enhance vaccinations for the SARS-CoV-2 virus. However, due to evolving factors, it is not possible to determine exactly much more funds are necessary. Therefore, your Committee has amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 262, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 135 Health on S.B. No. 266

The purpose and intent of this measure is to appropriate monies in order to assure sufficient resources to sustain and enhance the State's coronavirus disease 2019 pandemic response.

Your Committee received testimony in support of this measure from the Department of Health and Department of Human Services.

Your Committee finds that another bill, S.B. No. 1088, also appropriate funds for response activities to the coronavirus 2019 disease and to provide transparency and accountability for the use of those funds. Your Committee further finds that S.B. No. 1088 identifies specific purposes for which appropriated monies will be spent.

Therefore, your Committee has amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 1088;
- (2) Inserting blank appropriation amounts;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 266, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 266, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 136 Health on S.B. No. 506

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to restructure certain long-term debts owed by Wahiawa General Hospital.

Your Committee received testimony in support of this measure from Wahiawa General Hospital.

Your Committee finds that Wahiawa General Hospital has experienced severe financial difficulties due to circumstances beyond its control. Your Committee further finds that due to these financial difficulties, Wahiawa General Hospitals has been unable to repay certain long-term debts. However, the hospital continues to provide critical services particularly for those who reside in Central Oahu and the North Shore of Oahu. Your Committee notes that the hospital also opened a much needed COVID-19 Sub-Acute Isolation Unit to address the healthcare needs of the entire State during the global pandemic. Despite its challenges, Wahiawa General Hospital plans to develop its campus to serve the growing population in central Oahu but cannot move forward due to its current financial liabilities.

Your Committee has amended this measure by:

- (1) Amending the purpose section for clarity;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 506, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 137 (Joint/Majority) Water and Land and Housing on S.B. No. 2

The purpose and intent of this measure is to exempt, from the definition of "public lands":

- (1) Lands that are set aside by the Governor to the Hawaii Housing Finance and Development Corporation (HHFDC), and
- (2) Lands that are leased to the HHFDC by other state agencies.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one individual. Your Committees received testimony in opposition to this measure from Kūpuna for the Moʻopuna and the Office of Hawaiian Affairs.

Your Committees find that the State is experiencing a severe shortage of affordable housing. According to testimony received by your Committees, only lands to which HHFDC currently holds title in its corporate capacity are excluded from the definition of "public lands". Your Committees further find that the exemption from the definition of "public lands" proposed by this measure will streamline the development of affordable housing on state land by reducing the number of approvals required from the Department of Land and Natural Resources as affordable housing projects move forward from set-aside to leasing, entitlement, financing, and development phases.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none. Housing: Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Rhoads).

SCRep. 138 Water and Land on S.B. No. 137

The purpose and intent of this measure is to establish affordable housing as a priority activity within the State's land use laws. Specifically, this measure authorizes county land use decision—making authorities to amend district boundaries for land areas between fifteen and twenty-five acres, that are non-important agricultural land or rural land areas if the land areas are proposed for reclassification to the urban district, contiguous to the urban district, and at least sixty percent of the land area will be dedicated for the development of affordable housing.

Your Committee received testimony in support of this measure from the Mayor of the County of Maui, Mayor of the County of Hawaii, Hawai'i Association of REALTORS, and Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from Life of the Land, Hawai'i Alliance for Progressive Action, Sierra Club of Hawai'i, Hawai'i Farm Bureau, and one individual. Your Committee received comments on this measure from the Land Use Commission, Department of Agriculture, Office of Planning, and Grassroot Institute of Hawaii.

Your Committee finds that the growth of available affordable housing is a priority in Hawaii. However, your Committee also recognizes the importance of protecting prime agricultural lands. Your Committee finds that this measure would streamline the approvals process to allow affordable housing to be built in a timely and less costly manner while preserving the State's highest quality agricultural lands.

Your Committee has amended this measure by:

- (1) Inserting language that further requires the soil of the land area petitioned for reclassification to be of a classification as a certain overall (master) productivity rating class; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 137, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 137, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 139 Water and Land on S.B. No. 178

The purpose and intent of this measure is to:

- (1) Establish within the Department of Land and Natural Resources (Department) a two-year beach protection pilot program under which no vehicles are authorized to drive on any beaches in Polihale State Park or on any state beaches in Kekaha, Kauai, without a permit;
- (2) Fund maintenance of and improvements to Polihale State Park and state beaches in Kehaka, Kauai with the permit fees collected;
- (3) Require the Department to work with the County of Kauai to determine the feasibility of establishing a similar pilot program for the county beaches in Kekaha, Kauai; and
- (4) Require an annual report regarding the pilot program be submitted to the Legislature.

Your Committee received testimony in support of this measure from Hui Malama Polihale and ten individuals. Your Committee received testimony in opposition to this measure from Bonilla Enterprises, Inc.; Lawai Market; Little Fish Coffee; Kelley's Surf School; and three hundred fifty-five individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, County of Kaua'i, and six individuals.

Your Committee finds that Polihale State Park is a remote, multi-mile stretch of beach with one unimproved dirt road for access. Your Committee notes that Polihale State Park contains sensitive cultural and natural resources, as well as a recent history of illicit and destructive uses, including that of reckless driving through the dunes and other areas of the park that contain Hawaiian burial sites or critically endangered plants. According to testimony received by your Committee, the Department took the unprecedented step of closing Polihale State Park for several months in 2020 due to public health and safety concerns following a marked increase in these damaging activities. Your Committee further finds that the Department has no jurisdiction over any beaches in Kekaha, Kauai.

Your Committee has amended this measure by:

- (1) Deleting all references to the beaches in Kekaha, Kauai and any relevant language;
- (2) Specifying that the fees collected shall be deposited into the state parks special fund to be used for maintenance of and improvements to Polihale State Park; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 178, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Misalucha, Fevella). Noes, none. Excused, none.

SCRep. 140 Water and Land on S.B. No. 1166

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to approve rental reductions or waivers for leases that require substantial demolition costs or infrastructure improvement costs for the lessee to utilize the premises.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that there are unimproved public lands in the State's inventory that require millions of dollars in infrastructure investments, including drainage, sewer, water, electricity, and other utilities. Your Committee finds that, by incentivizing lessees through rental reductions or waivers, the State can defer the costs of these improvements while supporting projects that benefit the State as a whole.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1166, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 141 Health on S.B. No. 1018

The purpose and intent of this measure is to require the Department of Health to establish a reorganization pilot project to reorganize the Department of Health Behavioral Health Services Administration.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Psychological Association, and one individual. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has caused an enormous budgetary shortfall in the State. Your Committee further finds that to adjust to this deficit, state government and its agencies must have the authority and flexibility to reorganize to meet the ongoing and emerging needs resulting from the COVID-19 pandemic. This measure establishes a pilot program for the Department of Health to reorganize its Behavioral Health Services Administration.

Your Committee heard testimony from the Department of Health, which proposed to expand the scope of the pilot project to reorganize all divisions. Your Committee also heard testimony from the State Procurement Office, which expressed concerns that exempting the Department of Health from the Hawaii Public Procurement Code could lead to higher costs due to lack of competition.

As such, your Committee has amended this measure by:

- (1) Amending section 2 to add the Environmental Health Administration; general administration, including the Office of the Director of Health; and Health Resources Administration to the reorganization pilot projects;
- (2) Removing the exemption from chapters 103D and 103F, Hawaii Revise Statutes, which govern public procurement; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1018, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 142 Health on S.B. No. 1234

The purpose and intent of this measure is to authorize use of funds appropriated from the emergency and budget reserve fund, from the amounts received by the State from the Coronavirus Aid, Relief, and Economic Security Act (CARES) Act, for the purchase and distribution of personal protective equipment and industrial hygiene products to state departments and attached agencies.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Department of Defense, Department of Labor and Industrial Relations Office of Community Services, State Procurement Office, Department of Education, Department of Transportation, and Hawai'i Primary Care Association.

Your Committee finds that Act 9, Session Laws of Hawaii 2020 (Act 9), appropriated moneys received from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136, for the purchase of personal protective equipment. Your Committee finds that in addition to personal protective equipment, funds are needed to purchase other hygiene products. This measure amends Act 9 to allow moneys appropriated from the CARES Act to purchase industrial hygiene products and clarifies that the items may be purchased for all state department and agencies.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (3) Amending section 1 to add that the moneys appropriated may be also used to purchase coronavirus disease 2019 tests; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1234, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 143 Health on S.B. No. 352

The purpose and intent of this measure is to prohibit, beginning after December 31, 2021, the use of lead-based paint on outdoor structures, whether applied to new outdoor structures or already-existing outdoor structures.

Your Committee received testimony in support of this measure from the Department of Health, Community Alliance on Prisons, and three individuals.

Your Committee finds that lead poisoning can cause several maladies, including neurological damage, behavioral and learning disabilities in children, kidney damage, and miscarriages, and as such, lead-based paints on outdoor structures can be hazardous to workers, contaminate the environment, and expose children and adults to unnecessary risks. Your Committee recognizes that while there are both existing federal and state laws prohibiting the use of lead-based paints, there are none that prohibit structures (indoor or outdoor) from containing pre-existing lead-based paint.

To address the health and environmental hazards, this measure prohibits the use of lead-based paint on outdoor structures after December 31, 2021, whether on new or pre-existing structures. However, because the United States Consumer Product Safety Commission issued regulations prohibiting lead-based paints in 1978, and amended those regulations as recently as 2009, your Committee also finds that a public education campaign is not necessary to notify the public of the prohibitions set forth in this measure.

Therefore, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 352, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 144 Health on S.B. No. 611

The purpose and intent of this measure is to:

- (1) Make permanent the regulation of behavior analysts established by Act 199, Session Laws of Hawaii 2015, and codified as chapter 465D, Hawaii Revised Statutes (Act 199); and
- (2) Exempt the behavior analyst licensing program from the auditor's sunset evaluation pursuant to section 26H-4, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Education, Department of Health, Hawaii State Teachers Association, Hawaii Disability Rights Center, Together For Our Keiki, Hawaii Association for Behavior Analysis, and thirteen individuals. Your Committee received comments on this measure from one individual

Your Committee finds that since the enactment of Act 199, and the autism insurance law, Act 235, Session Laws of Hawaii 2015, over fifteen hundred registered behavior technicians have been credentialed in the State. Your Committee further finds that several thousand children and other individuals have received access to applied behavior analysis services. Your Committee further finds that in December of 2020, the Auditor released Report No. 20-20, entitled "Sunset Evaluation: Regulation of Behavior Analysts," which supported the continued regulation of behavior analysts.

As the Auditor's sunset evaluation report has already been completed, your Committee has amended this measure by deleting section 3, which exempts the behavior analysts licensing program from the auditor's sunset evaluation requirement.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 611, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 611, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 145 Health on S.B. No. 1258

The purpose and intent of this measure is to allow for standard telephone contacts for telehealth purposes.

Your Committee received testimony in support of this measure from AARP Hawai'i, Waianae Coast Comprehensive Health Center, Hawai'i Psychological Association, Hawai'i Primary Care Association, Hawaii Substance Abuse Coalition, and two individuals. Your Committee received comments on this measure from the Department of Human Services and Hawaii Medical Service Association.

Your Committee finds that the emergency proclamation issued by the Governor on December 16, 2020, related to the coronavirus disease 2019 pandemic, suspended the application of certain laws that excluded the use of standard telephone contacts from the definition of "telehealth" to enable doctors and patients to minimize in—person meetings while ensuring access to medical care. Your Committee further finds that for many underserved and low—income communities, standard telephone contacts are the only means of contact, while cellular data plans and broadband services needed for video calls are not feasible options.

This measure will allow medical professionals to use standard telephone contacts for telehealth. Your Committee notes the testimony of the Department of Human Services that audio-only patient/provider interactions are prohibited by the federal Office of Civil Rights as a telehealth modality; however, the Office of Civil Rights has exercised enforcement discretion during the coronavirus disease 2019 pandemic, electing not to prosecute violations of the rule.

Therefore, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 146 Health on S.B. No. 1333

The purpose and intent of this measure is to remove cannabidiol drugs that have been approved by the United States Food and Drug Administration from the list of Schedule V substances for consistency with federal laws.

Your Committee received testimony in support of this measure from Greenwich Biosciences, Inc.

Your Committee finds that section 329—11, Hawaii Revised Statutes, requires that the State's list of controlled substances comport with the list of controlled substances under federal law. Your Committee further finds that Food and Drug Administration recently approved the prescription drug Epidiolex, and generic versions of that drug which is a plant-derived prescription cannabinoid product used to treat seizures associated with certain types of epilepsy, including rare and difficult to treat forms of childhood-onset epilepsy. This measure brings state law in conformity with federal law by removing approved cannabidiol drugs from the State's schedule V list of controlled substances.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1333, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 147 Health on S.B. No. 145

The purpose and intent of this measure is to authorize the manufacture and distribution of cannabis seeds and cannabis clones by medical cannabis dispensary licensees.

Your Committee received testimony in support of this measure from Big Island Grown Dispensaries and the Hawai'i Cannabis Industry Association. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of the Attorney General and Akamai Cannabis Clinic.

Your Committee finds that patients and primary caregivers who wish to cultivate medical cannabis have no legal means of obtaining safe, laboratory-tested genetic material from which to propagate their plants. Currently, state law authorizes qualifying patients to cultivate up to ten medical cannabis plants but does not specify by what means propagules, cuttings, or other cannabis genetic material necessary to produce these plants may be obtained. This measure will allow authorized patients and primary caregivers to obtain laboratory-tested genetic material without resorting to illicit markets.

Your Committee also finds that S.B. No. 254, Regular Session 2021, is similar in content and intent as it authorizes the sale and distribution of cannabis propagules and cuttings and finds that it should be incorporated into this measure. Your Committee has also heard the Attorney General's concerns that this measure may potentially allow a patient to obtain more than the allowed ten medical cannabis plants. Therefore, your Committee has amended this measure by:

- (1) Incorporating sections 2 and 3 of S.B. No. 254 into this measure to add propagules and cuttings to the definition of "cannabis" in chapter 329D, Hawaii Revised Statutes, and authorize persons allowed to cultivate medical cannabis to also purchase propagules and cuttings;
- Adding limitations to the number of propagules, cuttings, cannabis clones, and cannabis seeds a patient or primary caregiver may purchase within certain time periods;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 145, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki, Fevella). Noes, none. Excused, none.

SCRep. 148 Health on S.B. No. 599

The purpose and intent of this measure is to require massage therapy licensees to complete twelve hours of continuing education every two years between the massage therapist's license renewals, beginning July 1, 2022. Two hours of the continuing education shall include first aid, cardiopulmonary resuscitation, or emergency-related courses.

Your Committee received testimony in support of this measure from the Board of Massage Therapy, Department of Commerce and Consumer Affairs; American Massage Therapy Association; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that requiring continuing education for licensed massage therapists will elevate the massage therapy profession to the highest standards of quality and safety. Your Committee also finds that twelve continuing education hours is a reasonable requirement for license renewal. Finally, your Committee finds that changing the implementation date from July 1, 2022 to July 1, 2024 would allow the Board of Massage Therapy ample time to notify all affected licensed massage therapists of the new continuing education requirement and for licensees to meet the requirements. As such, your Committee has amended this measure by amending the implementation date of the new requirements from July 1, 2022 to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 599, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 149 Health on S.B. No. 976

The purpose and intent of this measure is to amend the definition of "preceptor" and "volunteer-based supervised clinical training rotation" to improve accessibility for providers to receive income tax credits for acting as preceptors, who offer professional instruction, training, and supervision to future healthcare providers.

Your Committee received testimony in support of this measure from the Department of Health, Department of Taxation, University of Hawai'i System, Hawai'i – American Nurses Association, Hawai'i State Center for Nursing, University of Hawai'i at Hilo - Daniel K. Inouye College of Pharmacy, Hawai'i Primary Care Association, The Queen's Health Systems, Hawai'i Association of Professional Nurses, and ten individuals.

Your Committee finds that clarifying the effective date to apply to all of 2021 would help an eligible preceptor to qualify for the tax credit for volunteer work performed from the beginning of 2021. As such, your Committee has amended this measure by:

- (1) Amending the effective date to July 1, 2050, to encourage further discussion; and
- (2) Further amending the effective date to clarify that the tax credit shall apply to taxable years beginning after December 31, 2020.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 976, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 150 Health on S.B. No. 138

The purpose and intent of this measure is to:

- (1) Increase the cigarette and tobacco tax on cigarettes and little cigars by five cents beginning July 1, 2021; and
- (2) Allocate excise tax revenue generated at the increased rate to specified health improvement purposes beginning July 1, 2021.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Cancer Center, Hawaii Health Systems Corporation, Hawai'i Public Health Institute, American Heart Association, Hawaii Dental Association, American Cancer Society Cancer Action Network, Hawaii Medical Association, AlohaCare, Hawaii Substance Abuse Coalition, and four individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii and eight individuals. Your Committee received comments on this measure from the Department of Taxation and Hawai'i Primary Care Association.

Your Committee finds that tobacco use is the most preventable cause of death in Hawaii, killing approximately one thousand four hundred people every year. Your Committee also finds that tobacco use is a drain on the State's economy, costing the State approximately \$526 million in health care costs every year. Research has shown that significantly increasing the excise tax and price of tobacco products is the most consistently effective tool for reducing tobacco use. This measure increases the tobacco tax on certain tobacco products by five cents and allocates the revenue generated from the tax to health improvement programs.

Your Committee notes the testimony of the Department of Taxation, requesting that the bill's effective date be no earlier than July 1, 2022, to give the Department sufficient time to update its forms, instructions, computer systems, and cigarette stamps. Your Committee also finds that further deliberation of the amount of the tobacco tax increase and the disposition of the resulting revenues is needed.

Therefore, your Committee has amended this measure by:

- (1) Inserting an unspecified tax increase amount;
- (2) Inserting unspecified amounts for the dispositions of revenue generated from such tax;
- (3) Inserting unspecified recipients and listing the general fund as a recipient for the dispositions of revenue generated from such tax:
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 138, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 151 Health on S.B. No. 324

The purpose and intent of this measure is to clarify the definition of the practice of medicine in the Hawaii Revised Statutes to provide uniformity of practice for both medical physicians and osteopathic physicians.

Your Committee received testimony in support of this measure from the Hawaii Medical Board of the Department of Commerce and Consumer Affairs and Kaiser Permanente Hawai'i. Your Committee received comments on this measure from Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that because the practice of medicine is already limited to duly licensed practitioners pursuant to section 453-2, Hawaii Revised Statutes, the measure's inclusion of a license requirement is unnecessary and may complicate the Department of Commerce and Consumer Affairs' ability to prosecute licensing violations. Your Committee further finds that another bill, S.B. No. 1099, accomplishes the same goal as this measure but without the license requirement. Therefore, your Committee has amended this measure by:

- (1) Substituting Section 2 of this measure with Section 1 of S.B. No. 1099; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 324, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 152 Health on S.B. No. 1117

The purpose and intent of this measure is to provide an emergency appropriation to the Office of the Governor for fiscal year 2020-2021 to continue funding for various coronavirus disease 2019 (COVID-19) response-related programs and activities.

Your Committee received testimony in support of this measure from Hawai'i Primary Care Association.

Your Committee finds that the impact of the SARS-CoV-2 virus and resulting COVID-19 pandemic has been devastating to Hawaii's economy. Your Committee further finds that the funds from the federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136, which provided federal funds to support the State's COVID-19 relief efforts, have expired. This measure makes appropriations to continue funding critical COVID-19 response programs and activities for the remainder of fiscal year 2020-2021.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1117, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 153 Health on S.B. No. 1157

The purpose and intent of this measure is to provide emergency appropriations in fiscal year 2020-2021 to the Department of Health to continue funding for various coronavirus disease 2019 (COVID-19) response-related programs and activities.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Primary Care Association.

Your Committee finds that the impact of the SARS-CoV-2 virus and resulting COVID-19 pandemic has been devastating to Hawaii's economy. Your Committee further finds that the funds from the federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136, which provided federal funds to support the State's COVID-19 relief efforts, have expired. This measure makes appropriations to continue funding critical COVID-19 response programs and activities for the remainder of fiscal year 2020-2021.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1157, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 154 Health on S.B. No. 1153

The purpose and intent of this measure is to make an emergency appropriation to provide funds for the state comprehensive emergency medical system for expenses related to collective bargaining and other current expenses.

Your Committee received testimony in support of this measure from the Department of Health, Maui County Paramedics Association, and eight individuals.

Your Committee finds that due to the coronavirus disease 2019 pandemic, the Department of Health experienced an operational budget shortfall of \$6,400,000. Your Committee further finds that an emergency appropriation is necessary to maintain comprehensive emergency medical services for the residents and visitors in the counties of Hawaii, Kauai, Maui, and Oahu for fiscal year 2020-2021.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1153, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 155 Health on S.B. No. 1156

The purpose and intent of this measure is to make an emergency appropriation to provide funds for supplies, personnel, equipment, and related effects to implement the State's coronavirus disease 2019 (COVID-19) vaccination plan.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Primary Care Association.

Your Committee finds that vaccinations can dramatically decrease the health impacts of the COVID-19 pandemic. Your Committee further finds that although the Department of Health has a plan for the rapid distribution of COVID-19 vaccines, the Department's current budget is unable to accommodate a full-scale deployment of the State's vaccination plan. As such, this measure is necessary to ensure the Department of Health has the resources to implement its vaccination plan.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1156, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 156 Water and Land on S.B. No. 140

The purpose and intent of this measure is to consolidate long-term master planning and zoning regarding state-owned lands within each of the transit-oriented development zones under the Hawaii Community Development Authority. Specifically, this measure:

- (1) Requires the Hawaii Community Development Authority (HCDA) to develop a transit-oriented development zone improvement program; and
- (2) Appropriates funds to Hawaii Community Development Authority for staff necessary to develop and manage the transitoriented development zone improvement program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Stanford Carr Development, LLC. Your Committee received comments on this measure from Hawaii Community Development Authority, Office of Planning, and Department of the Attorney General.

Your Committee finds that transit-oriented developments promote a wide range of social, environmental, and economic benefits, but currently, no single entity has the authority to redevelop the State's assets along the transit corridor in the best interest of the State. This measure fosters community development by strategically investing in public facilities through transit-oriented development.

Your Committee has amended this measure by:

- (1) Explicitly authorizing the Hawaii Community Development Authority to create zones and transit-oriented development improvement programs except on lands administered by the Hawaii Public Housing Authority or any community development district:
- (2) Replacing all instances of "TOD" with "transit-oriented development"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 140, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 157 (Majority) Water and Land on S.B. No. 257

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to extend commercial, industrial, resort, or governmental leases, other than those to which the University of Hawaii is a party, that have not been sold or assigned within the last ten years, for lessees who commit to substantial improvement to the existing improvements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Prince Kuhio Plaza, LLC; Sand Island Business Association; Stanford Carr Development, LLC; and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Ka Lāhui Hawai'i, Kūpuna for the Mo'opuna, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that many of the leases for commercial, industrial, and resort properties on public land statewide may be nearing the end of their lease terms. Faced with the uncertainty of continued tenancy, lessees have little incentive to make major investments in infrastructural improvements and therefore the infrastructure on these properties has been deteriorating. Authorization of lease extensions, like those proposed by this measure, may resolve issues surrounding the future of a tenancy and thereby promote investment in improvements located on currently leased public lands. Your Committee further finds that the extension of mixed use leases of state land in densely populated areas may promote the fullest use of public lands in urban cores.

Accordingly, your Committee has amended this measure by:

- Inserting language to allow for extensions of leases for mixed-development use in addition to commercial, industrial, resort, or governmental uses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 257, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 257, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 158 Water and Land on S.B. No. 1179

The purpose and intent of this measure is to allocate a portion of the conveyance tax to the Division of Conservation and Resources Enforcement (DOCARE) of the Department of Land and Natural Resources to partially cover operational costs related to upholding the laws that serve to protect, conserve, and manage Hawaii's unique and limited natural, cultural, and historic resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, For the Fishes, Trilogy Excursions, Ocean Tourism Coalition, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that this measure would provide funds to DOCARE to help offset funds that were reduced due to the coronavirus disease 2019 pandemic. According to testimony received by your Committee, DOCARE has one of the lowest rates of state funding per person compared to all other state wildlife agencies. Your Committee further finds that DOCARE is already short staffed and underfunded and will continue to struggle to effectively carry out its mission unless additional funding sources are found.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1179, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 159 Judiciary on Jud. Com. No. 9

Recommending that the Senate consent to the appointment of the following:

DISTRICT COURT OF THE SECOND CIRCUIT

J.C. No. 9 CHRISTOPHER M. DUNN, for a term to expire in 6 years

Your Committee reviewed the personal history, resume, and statement submitted by Christopher M. Dunn for service on the District Court of the Second Circuit, State of Hawaii.

Your Committee received testimony in support of the appointment of Christopher M. Dunn from the Maui Community Correction Center, Maui Office of the Public Defender, the Honorable John T. Lu, and sixty-six individuals. Your Committee received comments on the appointment of Christopher M. Dunn by the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of District Court Judge of the Second Circuit based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to fulfill the responsibilities and duties of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Mr. Dunn received his Bachelor of Arts degree in English from Skidmore College, where he played collegiate basketball on the junior varsity and varsity teams. He later obtained his Doctorate of Jurisprudence from the George Washington University National Law Center, where he served as an intern at the Office of the Federal Public Defenders in Washington, D.C.

Mr. Dunn has been a solo practitioner in the State of Hawaii since 2002, and has practiced primarily in the area of criminal defense. A significant portion of his practice involves representing indigent clients on a court-appointed basis. He has represented petitioners and respondents in District Court and Family Court restraining order cases, and has served as a court-appointed Commissioner in judicial foreclosure actions. Throughout the course of his practice, he has served as counsel in numerous cases that have presented novel or challenging legal issues, including pleas of not guilty by reason of insanity and challenges to improper search and seizure by law enforcement.

Mr. Dunn has been active in the legal community throughout his career, and regularly participates in legal round table luncheons with other practitioners in the community. He also provides significant pro-bono services in and out of the scope of his court-appointed representation. In addition, he has been involved in competitive outrigger canoe paddling since 2004.

Testimony submitted in support of Mr. Dunn's appointment commend his genuine concern for his clients and his consistent pursuit of justice. In the course of his private practice and court-appointed representation, he has demonstrated an outstanding professional demeanor and an ability to build strong working relationships with judges, court clerks and staff, and opposing counsel. Numerous testifiers also praise his deep legal expertise, commitment to fairness, and strong personal integrity.

Your Committee finds that, based on the testimony submitted on his behalf, responses to questions asked by the members of your Committee, and your Committee's review of information about him and his qualifications, Christopher M. Dunn has the experience, temperament, and other competencies required to be a Judge of the District Court of the Second Circuit, and he has the legal expertise, integrity, and demeanor to fully and faithfully discharge the duties associated with that judicial office.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate advise and consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 160 Judiciary on Jud. Com. No. 10

Recommending that the Senate consent to the appointment of the following:

DISTRICT FAMILY COURT OF THE SECOND CIRCUIT

J.C. No. 10 JAMES R. ROUSE, for a term to expire in 6 years

Your Committee reviewed the personal history, resume, and statement submitted by James R. Rouse for service on the District Family Court of the Second Circuit, State of Hawaii.

Your Committee received testimony in support of the appointment of James R. Rouse from the Office of the Public Defender, Maui Office of the Public Defender, and thirty-six individuals. Your Committee received comments on the appointment of James R. Rouse from the Hawaii State Bar Association.

The Hawaii State Bar Association Board of Directors found the appointee to be qualified for the position of District Court Judge of the District Family Court of the Second Circuit based on established criteria for determining the qualifications of judicial and executive appointments generally using the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. Specifically, the Board uses the following criteria in its deliberations: integrity and diligence, legal knowledge and ability, professional experience, judicial temperament, financial responsibility, public service, health, and ability to fulfill the responsibilities and duties of the position for which the applicant has been nominated. The Board's rating system includes the categories of "qualified" and "not qualified".

Mr. Rouse received his Bachelor of Arts degree in political science from Chico State University, where he was on the Dean's List and was involved in intramural sports and a social fraternity. He later received his Doctorate of Jurisprudence from Golden Gate University.

Mr. Rouse has served as a Deputy Attorney General for the State of Hawaii since 2017, where he represents state agencies such as the Department of Human Services, Department of Health, Department of Education, and the Public Guardian in child protection, adult protection, truancy, and involuntary commitment matters. Prior to being a Deputy Attorney General, he served as a Deputy Public Defender for almost fifteen years, and intermittently worked in private practice. He has consistently balanced careful consideration of the law with zealous advocacy to seek the best outcomes for those he represents.

Mr. Rouse has been active in the legal community throughout his career. He sat on the Maui County Bar Association Board of Directors for two years, and served as a judge in high school mock trial competitions during his time at the Office of the Public Defender. He also participates in the Hawai'i Children's Justice Center's sexual assault team to coordinate the efforts of service providers and law enforcement. In addition, he has served on the Board of Directors of Keiki's Dream, and regularly participated in the organization's annual fundraiser.

Testimony submitted in support of Mr. Rouse's appointment commend his thorough legal expertise as well as his professional and compassionate disposition. During his time at the Office of the Public Defender and the Department of the Attorney General, he has earned a reputation for dealing fairly and honestly with everyone he comes into contact with, as well as for strong advocacy and sophisticated legal analysis. Numerous testifiers praised his respectful candor, integrity, and profound care for the most vulnerable members of the community.

Your Committee finds that, based on the testimony submitted on his behalf, responses to questions asked by the members of your Committee, and your Committee's review of information about him and his qualifications, James R. Rouse has the experience, temperament, and other competencies required to be a District Family Court Judge of the Second Circuit, and he has the legal expertise, integrity, and demeanor to fully and faithfully discharge the duties associated with that judicial office.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the appointee, has found the appointee to be qualified for the position to which appointed and recommends that the Senate advise and consent to the appointment.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 161 (Joint) Health and Transportation on S.B. No. 241

The purpose and intent of this measure is to authorize qualifying patients and qualifying out-of-state patients to transport cannabis between islands of the State for personal medical use.

Your Committees received testimony in support of this measure from Big Island Grown Dispensaries, Community Alliance on Prisons, Hawai'i Cannabis Industry Association, Marijuana Policy Project, and six individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Health, Department of Public Safety, and Department of Transportation,

Your Committees find that currently licensed medical cannabis dispensaries are located only on Oahu, Hawaii island, Maui, and Kauai. Because there are no dispensaries on Molokai, Lanai, and Niihau, qualifying patients living on those islands have less access to legal medical cannabis than qualifying patients residing on other islands. Your Committees further find that the legal transport of medical cannabis would allow both qualifying patients and qualifying out-of-state patients to travel freely without fear of prosecution for possessing cannabis that has been legally obtained or possessed under state law. This measure assures access to legal medical cannabis to qualifying patients regardless of where they live or where they travel within the State.

As affirmed by the records of votes of the members of your Committees on Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 241 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Transportation: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Inouye).

SCRep. 162 Health on S.B. No. 970

The purpose and intent of this measure is to authorize the establishment of a physician-patient relationship via a telehealth interaction if the physician is licensed to practice medicine in the State.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Medical Board, Hawaii Health Systems Corporation, Hawaii Pacific Health, The Queen's Health Systems, Kaiser Permanente Hawaii, AARP Hawaiii, Healthcare Association of Hawaii, Hawaii Substance Abuse Coalition, American Telemedicine Association, and one individual.

Your Committee finds that currently, the law is ambiguous as to when a physician-patient relationship is established via telehealth. As written, the physician-patient relationship with a telehealth provider can only be established if the patient was first referred to the telehealth provider by another health care provider who has conducted an in-person consultation with the patient. Your Committee further finds that the coronavirus disease 2019 pandemic has resulted in an increase in the use of telehealth services and the establishment of telehealth as a community standard of care is a strategic priority for the Department of Health. This measure will make clear that a physician-patient relationship may be established via telehealth by a physician licensed to practice medicine in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 970, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 163 Health on S.B. No. 1139

The purpose and intent of this measure is to allow the Department of Health to fully operationalize the Office of Medical Cannabis Control and Regulation (OMCCR) to ensure patient access and regulatory oversight of the licensed dispensaries by:

(1) Changing the means of financing for general-funded OMCCR positions from general funds to the medical cannabis registry and regulation special fund;

- (2) Establishing, hiring, and filling three new permanent full-time equivalent positions (3.0 FTE) funded by the medical cannabis registry and regulation special fund; and
- (3) Authorizing a \$10.00 per year increase to the patient registration fee beginning in fiscal year 2022.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Cannabis Association. Your Committee received comments on this measure from Akamai Cannabis Clinic.

Your Committee finds that the OMCCR can be fully operational, without general funds, by expending monies exclusively from the medical cannabis registry and regulation fund. Your Committee further finds that the OMCCR was forced to eliminate six full-time positions due to budget shortfalls related to the coronavirus disease 2019 pandemic. Finally, your Committee finds that authorizing the Department of Health to set patient registration fees via administrative rulemaking would allow the Department more flexibility to periodically change future registration fees. Your Committee notes that this measure as introduced inadvertently appropriates funds for the establishment of three full-time equivalent positions for only the 2021-2022 fiscal year, when in fact, the positions were intended to also continue for the 2022-2023 fiscal year.

Therefore, your Committee has amended this measure by:

- (1) Authorizing the Department of Health to set patient registration fees via administrative rulemaking;
- Amending section 4 to appropriate funds for three permanent full-time equivalent (3.00 FTE) positions for fiscal year 2022-2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1139, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 164 Health on S.B. No. 1140

The purpose and intent of this measure is to:

- (1) Ensure that timely diagnostic audiologic reports on newborns who did not pass newborn hearing screening, or infants whose hearing status changes, are provided to the Department of Health; and
- (2) Update definitions and terminology.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, and Hawai'i Children's Action Network Speaks!. Your Committee received comments on this measure from Kaiser Permanente Hawaii.

Your Committee finds that mandating the reporting of diagnostic audiologic evaluation results for newborns who do not pass hearing screening will help the State meet national goals to help children who are deaf or hard of hearing be language ready for school. This measure will improve the identification and follow-up of infants who are deaf or hard of hearing.

Your Committee finds that the amended language in section 321-363, Hawaii Revised Statutes, which relates to the adoption of rules regarding the Statewide Newborn Hearing Screening Program in section 5 of this measure can be read to require reporting for infants who have not been identified as deaf or hard of hearing. Therefore, your Committee has amended this measure by:

- (1) Amending section 5 of this measure to clarify that the reporting requirements will apply to only those infants who have been identified as deaf or hard of hearing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1140, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 165 Health on S.B. No. 1141

The purpose and intent of this measure is to increase the early identification of children with hearing or vision loss by establishing consistent protocols for hearing and vision screening and follow-up, screener training, and data collection and reporting.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, Hawaii Children's Action Network Speaks!, and Hawaii Optometric Association.

Your Committee finds that the sooner a parent is aware that their child may be identified as blind, deaf, deaf-blind, or hard of hearing, the more advantageous it is for the child. Your Committee also finds that this measure will allow the Department of Health to set recommended standards for vision and hearing screening based on national guidelines and best practices. Furthermore, a statewide screening protocol will ensure that all organizations performing screening are using tools, screening procedures, and referral criteria based on evidence and best practices.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 166 Health on S.B. No. 1145

The purpose and intent of this measure is to grant the Director of Health greater discretion to share confidential data for legitimate government and research functions.

Your Committee received testimony in support of this measure from the Department of Health and University of Hawai'i Cancer Center. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the appropriate sharing of vital records to be in the public interest, particularly to expedite law enforcement or judicial proceedings but also for research to help define unique issues in Hawaii. These vital records include information such as births, deaths, and marriage/civil unions, which contain information such as race and ethnicity, cause of death, relative health at birth, and other qualitative data. Your Committee finds that this measure will allow the Department of Health more flexibility to disclose vital information in certain situations.

Your Committee received testimony from the Department of Health that the proposed process of review by its Institutional Review Committee for disclosures made for "research purposes" is consistent with academic and scientific human subject research protocols and standards and assures that requests serve an ethical public good, individual privacy is maintained, and records are appropriately handled.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1145, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 167 Health on S.B. No. 1150

The purpose and intent of this measure is to:

- (1) Allow the Department of Health to accept accreditation or certification of a skilled nursing facility by a nationally recognized accreditation or certification organization; and
- (2) Exempt skilled nursing facilities from a licensing inspection on a continuing basis, provided they meet certain requirements.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Healthcare Association of Hawaii.

Your Committee finds that The Joint Commission and other nationally recognized accrediting agencies have certification standards that are more stringent than those required by state law. Your Committee also finds that the Department of Health conducts state license renewal surveys simultaneously with federally required recertification surveys. This measure allows the Department to accept accreditation surveys from a private accreditation organization or federally mandated recertification surveys for state licensing purposes. This would allow the Department's Office of Healthcare Assurance to deploy staffing resources to other equally important investigations and surveys.

Your Committee heard the testimony of the Healthcare Association of Hawaii, which commented that the use of an outside accreditation or certification program should be voluntary, rather than compulsory. As such, your Committee has amended this measure by:

- (1) Amending the measure to reflect that use of an outside accreditation or certification program is voluntary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1150, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 168 Health on S.B. No. 629

The purpose and intent of this measure is to:

- Align with recent enactments that provide a process for the voluntary or involuntary sale or transfer of a dispensary license, remove the exclusion from dispensary employment for certain class C felony convictions, and repeal certain restrictions on medical cannabis dispensary siting;
- Include primary caregivers, qualifying out-of-state patients, and caregivers of a qualifying out-of-state patient as covered individuals; and
- (3) Better serve the needs and protect the safety of Hawaii's seriously ill patients.

Your Committee received testimony in support of this measure from the Department of Health, Big Island Grown Dispensaries, and Hawai'i Cannabis Industry Association. Your Committee received comments on this measure from the Department of the Attorney General

Your Committee finds that this measure will allow family members, caregivers, or other assistants to help patients into retail medical cannabis dispensaries while preventing unauthorized access to medical cannabis. Your Committee also finds that this measure will clarify that each day of a violation of Hawaii's medical cannabis dispensary system laws under chapter 329D, Hawaii Revised Statutes, is a separate offense, thus facilitating oversight of dispensary compliance.

Your Committee also notes the Department of the Attorney General's concerns of allowing individuals convicted of felonies – the highest grade of offense under the penal code – to handle or sell marijuana. Therefore, your Committee has amended this measure by:

- (1) Deleting section 3 of the measure that would allow for the transfer of dispensary licenses;
- (2) Deleting the amendment that would allow individuals convicted of a felony to work in a medical cannabis dispensary;
- (3) Deleting section 7 of the measure, as that proposed amendment was previously implemented by Act 70, Session Laws of Hawaii 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 629, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 169 Commerce and Consumer Protection on S.B. No. 974

The purpose and intent of this measure is to:

- (1) Provide for new, viable installment-based small dollar loan transactions in addition to enhanced deferred deposit transactions;
- (2) Specify various consumer protection requirements for small dollar loans;
- (3) Beginning January 1, 2023, require licensure for small dollar lenders that offer small dollar loans to consumers, subject to the oversight of the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to protect against illegal lending;
- (4) Specify licensing requirements for small dollar lenders;
- (5) Cap interest at thirty-six per cent per annum and one simple maximum monthly maintenance fee tiered up to \$50.00;
- (6) Amortize loans in full and renewing the loan while also permitting borrowers to choose to repay the loan without penalty;
- (7) Cap maximum allowable costs at sixty per cent of the principal loan amount, preventing a loan from being either too short or too long in duration;
- (8) Cap the maximum allowable loan size at \$1,500, providing more flexibility for lenders and borrowers than under the current law;
- (9) Require lenders to provide clear disclosures of the loan terms and total charges;
- (10) Prohibit a lender from making more than one loan at a time to a consumer, preventing incentives for lenders to "split" loans and charge higher fees; and
- (11) Repeal section 480F-4, Hawaii Revised Statutes, relating to deferred deposits, to provide further protection to Hawaii's consumers from harmful lending practices.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from Maui Loan Inc. Your Committee received comments on this measure from the Office of Information Practices and Pew Charitable Trusts.

Your Committee finds that high-cost payday loans can be harmful to Hawaii consumers and that the practice of deferred deposits should be repealed in favor of new forms of safer, affordable installment-based small dollar loans. Accordingly, this measure provides greater oversight and additional protections for consumers.

Your Committee has amended this measure by:

 Clarifying that a small dollar loan shall have a minimum loan term of four months and a maximum loan term of twenty-four months;

- (2) Clarifying that, upon a customer's payment in full of any small dollar loan, a small dollar lender shall wait a period of three days before the small dollar lender may make another small dollar loan to the same customer;
- (3) Specifying that the Commissioner of Financial Institutions shall not issue a license to engage in the business of making small dollar loans in this State if the Commissioner determines that the applicant has had a small dollar lender license revoked in any jurisdiction within five years of the filing of the application;
- (4) Clarifying that any notification of a cease and desist order issued by the Commissioner of Financial Institutions shall be given by personal service or by certified mail; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 974, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 170 Energy, Economic Development, and Tourism on S.B. No. 935

The purpose and intent of this measure is to:

- (1) Establish the Office of Aerospace Development in the Hawaii Technology Development Corporation, rather than the Department of Business, Economic Development, and Tourism;
- (2) Repeal the Pacific International Space Center for Exploration Systems (PISCES); and
- (3) Transfer the rights, powers, functions, and duties of PISCES to the Office of Aerospace Development.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Hawaii Technology Development Corporation.

Your Committee finds that the Legislature has played a pivotal role in expanding and diversifying the national economy by forging new inroads to scientific discovery, advancing national engineering and manufacturing expertise, pioneering innovations in communications and computer technologies, enhancing surveillance of our home planet, and enabling better understanding of weather systems and climates.

Your Committee further finds that the aerospace industry holds great potential to enable future innovation in science and technology and that Hawaii continues to support national space efforts through a wide range of aerospace-related activities on all major islands. Your Committee also finds that by combining the office of Aerospace Development and PISCES, the State can more efficiently direct its resources in the field of aerospace to further address these needs.

Your Committee believes that it is important that the Office of Aerospace select its own director and that the membership of the Aerospace Advisory Committee reflect a diverse group of individuals with knowledge of the aerospace industry.

Your Committee has amended this measure by:

- (1) Requiring the Aerospace Advisory Committee to select the Office of Aerospace Director;
- (2) Reducing the number of the Advisory Committee members from thirteen to nine; and
- (3) Requiring that of the nine members: four represent the aerospace industry, four represent the economic development boards of the counties, and one represent the University of Hawaii System.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 171 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 480

The purpose and intent of this measure is to:

- Establish the Pulehunui Community Development Authority as an autonomous community development authority under the Hawaii Community Development Authority for the purposes of developing the Pulehunui Community Development District; and
- (2) Authorize the Hawaii Community Development Authority to obtain various forms of federal funding for construction, maintenance, and development projects in the Pulehunui Community Development District.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one member of the Maui County Council. Your Committees received comments on this measure from the Hawaii Community Development Authority.

Your Committees find that this measure would create a development district that will provide an integrated experience of housing, education, and commercial facilities as well as significant financial opportunity to successfully supply the necessary infrastructure for projects throughout the State. Your Committees further find that this measure would assist in the development of much-needed housing units and ensure skilled employees remain in the State.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 480 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 172 Energy, Economic Development, and Tourism on S.B. No. 139

The purpose and intent of this measure is to revise the county allocations of transient accommodations tax revenues to reflect the growth in population of each respective county, including Kauai county, Hawaii county, the city and county of Honolulu, and Maui county to take effect July 1, 2021.

Your Committee received testimony in opposition to this measure from the Hawaii State Association of Counties. Your Committee received comments on this measure from the Department of Budget and Finance, Office of the Mayor of Maui County, Tax Foundation of Hawaii, and Kohala Coast Resort Association.

Your Committee finds that it is important to provide a fairer, more consistent, and reliable allocation of transient accommodations tax revenues to the counties. Your Committee further finds that many of the burdens imposed by tourism fall on the counties and increased pressures of the visitor industry means greater demands on county services, such as providing, maintaining, and upgrading police and fire protection, parks, beaches, water, roads, sewage systems, and other tourism-related infrastructure.

Your Committee further finds that basing the allocation of transient allocation funds on the number of visitor arrivals, rather than population growth, better reflects the impact that the visitor industry places on county services, ultimately providing a more equitable distribution of the transient accommodations tax to each county.

Therefore, your Committee has amended this measure by:

- Changing the allocation of transient accommodations taxes to each county based on the number of annual visitor arrivals for each respective county;
- (2) Requiring the statistics used for allocation of the transient accommodations tax to be updated annually and taken from the Hawaii Tourism Authority and State Data Book; and
- (3) Requiring each respective county to report annually to the legislature, no later than twenty days prior to the convening of each regular legislative session, describing how the transient accommodations tax allocation was spent.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 139, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 173 Energy, Economic Development, and Tourism on S.B. No. 243

The purpose and intent of this measure is to:

- (1) Require the Governor; Department of Business, Economic Development, and Tourism; and the Hawaii State Energy Office to develop a strategic plan that outlines benchmarks to achieve a one hundred percent renewable energy portfolio standard and appropriate funds for its development;
- (2) Require the Department of Business, Economic Development, and Tourism to submit the strategic plan to the Legislature before the Regular Session of 2023; and
- (3) Require the Hawaii Natural Energy Institute to conduct a feasibility study on the State's ability to achieve its renewable energy goals by 2045.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Natural Energy Institute of the University of Hawaii, Ulupono Initiative, Hawaii Auto Dealers Association, and two individuals. Your Committee received comments on this measure from the Life of the Land.

Your Committee finds that it is important to develop a strategic plan that establishes benchmarks to achieve a one hundred percent renewable energy portfolio standard and to establish a zero emissions clean economy target to sequester more atmospheric carbon and greenhouse gasses. Your Committee further finds that because the energy environment continues to evolve, it is important that the strategic plan and a feasibility study required by this measure should be aligned in order to more effectively meet these benchmarks.

Your Committee also finds that because the feasibility study, which examines the State's ability to achieve its energy goals, will be prepared by the Hawaii Natural Energy Institute, it is in a unique position to develop the strategic plan. This will allow the Hawaii Natural Energy Institute to incorporate its analyses into the overall development of a strategic plan and provide key intermediate benchmarks to help the State achieve a one hundred percent renewable energy portfolio standard by 2045.

Therefore, your Committee has amended this measure by:

- (1) Requiring the Hawaii Natural Energy Institute to establish a strategic plan through the Department of Business, Economic Development, and Tourism and in cooperation with the Office of the Governor;
- (2) Requiring the Hawaii Natural Energy Institute to submit its strategic plan including proposed strategies, benchmarks, and metrics, and any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (3) Removing the appropriation for the development of the strategic plan;
- (4) Changing the submission date for the feasibility study conducted by the Hawaii Natural Energy Institute to no later than twenty days prior to the convening of the Regular Session of 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 243, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 174 Energy, Economic Development, and Tourism on S.B. No. 775

The purpose and intent of this measure is to reduce the cost burden and negative impact from tourism on local residents by providing a mechanism to adjust the transient accommodations tax rate based on the number of tourists visiting Hawaii each calendar year.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Hawai'i Tourism Authority, Tax Foundation of Hawaii, and Hawaii Lodging and Tourism Association.

Your Committee finds that tourism has been a critical industry and a pillar of Hawaii's modern economy for which the people of Hawaii are fortunate. With the numbers of tourists expected to continue to grow annually as Hawaii recovers from the coronavirus disease 2019 (COVID-19) pandemic, capturing additional dollars from tourism can help pay for public services, infrastructure, and other needs that local taxpayers must currently pay for.

Your Committee further finds that to better manage tourism, the existing mechanism to adjust the transient accommodations tax should be modified by creating a more flexible method that allows for a base transient accommodations tax rate that fluctuates by a smaller percentage rate. Your Committee further finds that it is also important to provide clarity to hotels by requiring them to apply the transient accommodations tax rate at the time of the hotel booking.

Your Committee has amended this measure by:

- (1) Changing the baseline transient accommodations tax rate to six percent based on visitor arrivals of six million;
- (2) Adjusting the baseline transient accommodations tax rate by one percent per one million visitor arrivals of seven million visitor arrivals or more and decreasing it by one percent per one million visitor arrivals—but not falling below the baseline tax rate of six percent;
- (3) Requiring the transient accommodations tax rate to apply at the time of the hotel booking;
- (4) Requiring the Hawaii Tourism Authority and the State Data Book to determine and publish the annual visitor arrivals in the State for the preceding calendar year; and
- (5) Changing the effective date of this measure to January 1, 2022.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 775, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 175 Energy, Economic Development, and Tourism on S.B. No. 1237

The purpose and intent of this measure is to reduce the cap amounts of the renewable energy technologies income tax credit.

Your Committee received testimony in opposition to this measure from Hawaiian Electric Company, Affordable Solar Contracting, Tesla, Sierra Club of Hawaii, Photonworks Engineering, Kauai Climate Action Coalition, Inter-Island Solar Supply, Alternate Energy Inc., Greenpath Technologies Inc., Grand Solar Inc., Neighborhood Power, Rising Son Solar LLC, Hawaii PV Coalition, Generac, Mercury Solar, PV Tech, Green Power Projects LLC, Hawaii Solar Energy Association, Solar Services Hawaii LLP, 350Hawaii, Climate Protectors Coalition, and forty-seven individuals. Your Committee received comments on this measure from the Department of Taxation, Hawaii State Energy Office, Hawaii Green Infrastructure Authority, Tax Foundation of Hawaii, Ulupono Initiative, and Hawaii Energy.

Your Committee finds that it is important to reduce the cap amounts of the renewable energy technologies income tax credit to allow for funding of other programs.

Your Committee has amended this measure by changing the effective date to January 1, 2022.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1237, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Lee). Noes, none. Excused, none.

SCRep. 176 Transportation on S.B. No. 153

The purpose and intent of this measure is to:

- (1) Establish penalties for violations of the ignition interlock law; and
- (2) Require proof of compliance with the ignition interlock law to be eligible to apply for a driver's license.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, Mothers Against Drunk Driving Hawaii, SmartStart, Casanova Powell Consulting, Foundation for Advancing Alcohol Responsibility, and Traffic Injury Research Foundation. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that ignition interlock devices prevent an intoxicated driver from operating a motor vehicle if their breath alcohol concentration exceeds a set point. Since its inception in 2011, the ignition interlock program has prevented over one million impaired driving attempts. This measure will improve upon this program by requiring drivers in the program to provide proof of compliance before their drivers license may be reinstated. Your Committee notes that driving is a privilege and not a right. As such, drivers who lose that privilege due to driving while impaired should demonstrate their fitness for driving by proving compliance with the program.

Your Committee also notes that an issue has been raised regarding equitable impact of this measure due to the cost to participants in the program. Should this measure move forward, your Committee on Judiciary is encouraged to consider the equity issues raised.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 153, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 177 Transportation on S.B. No. 227

The purpose and intent of this measure is to repeal the provision requiring light transmittance of no less than thirty-five percent on side and rear windows of certain vehicles.

Your Committee received testimony in support of this measure from T&T Tinting Specialists, Inc. Your Committee received testimony in opposition to this measure from the Department of Transportation and Honolulu Police Department.

Your Committee finds that there is a conflict within current law regarding sun screening devices and glazing material, commonly called tinted windows. Currently there are restrictions on the percent of light transmittance on side and rear windows for certain vehicles while other vehicles are exempt from this limitation. This measure creates a more uniform application of existing law by repealing the provision requiring light transmittance of no less than thirty-five percent on side and rear windows of certain vehicles; provided that the vehicle is equipped with rearview mirrors on both sides.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 227, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 178 Transportation on S.B. No. 650

The purpose and intent of this measure is to clarify fees that may be charged in association with towing services.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, American Property Casualty Insurance Association, and GEICO. Your Committee received comments on this measure from the Hawaii Insurers Council.

Your Committee finds that the fees associated with towing services are determined by the Legislature. Your Committee notes the testimony of consumer advocates that the amended fee schedule would ultimately be passed to consumers and, should this measure move forward, encourages your Committee on Commerce and Consumer Protection to consider what fees may be appropriate.

Your Committee has amended this measure by inserting blank fee amounts, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 650, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Inouye). Noes, none. Excused, none.

SCRep. 179 Transportation on S.B. No. 1291

The purpose and intent of this measure is to:

- (1) Include autocycles equipped with handlebars in the definition of motorcycles in the Hawaii Safety Act; and
- (2) Exempt motorcycles and motor scooters with a partial enclosed cab, in addition to those with a full body enclosed cab, from the safety helmet requirement.

Your Committee received testimony in support of this measure from Arcimoto and two individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that electric three-wheeled vehicles are a promising source of affordable emissions-free vehicles for Hawaii residents. However, because this type of vehicle typically uses handlebars in lieu of a steering wheel in order to reduce the weight of the vehicle, they do not fall under the statutory definition of an autocycle. This measure will amend the definition of "motorcycle," which includes the definition of an "autocycle," so that vehicles with handlebars and three wheels can meet the definition. Additionally, this measure amends the exemption from the safety helmet requirement provided that the vehicle has a roll bar, a roll cage, or full body enclosed cab.

Your Committee has amended this measure by replacing the "partial or full body enclosed cab" exception with "roll bar, roll cage, or full body enclosed cab."

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1291, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 180 Transportation on S.B. No. 754

The purpose and intent of this measure is to lower the threshold blood alcohol concentration (BAC) for the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the National Transportation Safety Board, Department of Transportation, Hawaii Strategic Highway Safety Plan, Kauai County Office of the Prosecuting Attorney, Honolulu Police Department, Maui Police Department, Mothers Against Drunk Driving Hawaii, SparksInitiatives, Hawaii Alcohol Policy Alliance, National Safety Council, Hawaii Public Health Institute, and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Beverage Institute, and one individual.

Your Committee finds that when Hawaii was one of the earliest states to lower its BAC limit from .10 to .08 for classification of impaired driving, the alcohol-related fatality rates dropped. When Utah became the first state to lower its legal BAC limit from .08 to .05 in 2018, the state saw a nearly forty-four percent decrease in alcohol-related crashes and a seventy percent decrease in fatalities in the first year of enactment. Moreover, research shows that among drivers with a BAC between .05 to .79, which would still be below the legal BAC level allowed under current Hawaii law, the risk of being in a single-vehicle fatal crash is at least seven times higher than for drivers with no alcohol in their system. This measure is intended to save lives by lowering the BAC limit from .08 to .05 for the offense of operating a vehicle while under the influence of an intoxicant.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 181 Transportation on S.B. No. 766

The purpose and intent of this measure is to allow a penalty of up to \$5,000 for repeat offenders of the motor carrier law.

Your Committee received testimony in support of this measure from the Public Utilities Commission, Hawaii Transportation Association, and twenty-seven individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that commercial Public Utilities Commission (PUC) motor carriers traditionally transport high numbers of tourists to many locations around the State. However, the trucking and tour vehicle industry have long had to contend with unlicensed and unregulated operators who seek to skirt the PUC requirements of motor carrier operations. This measure will strengthen the PUC's ability to punish those who repeatedly break the rules.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 766 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 182 Education on S.B. No. 76

The purpose and intent of this measure is to amend the law relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Require the Board of Education to prioritize, for the Superintendent of Education position, candidates that have the minimum qualification of ten years of employment in a department of education with at least five of those years serving in the capacity as a principal or higher; and
- (2) Specify that a desired qualification for a candidate is having a working understanding of the State's tri-level system of educational administration.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 76, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 183 Education on S.B. No. 863

The purpose and intent of this measure is to require the Department of Education to:

- Conduct an electrical assessment on all public and charter schools in the State to determine whether their electrical capacity
 will allow for the installation of air conditioning units and other air purifying devices and note the level of need in each
 classroom; and
- (2) Submit a report of its findings and recommendations to the Legislature no later than December 31, 2021.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and one individual. Your Committee received comments on this measure from the Department of Education and State Public Charter School Commission.

Your Committee finds that many Hawaii schools face extreme heat in their classrooms. Your Committee further finds that research demonstrates that the longer and more consistently students are exposed to classroom cooling, the better and more stable their performance gains tend to be. Conversely, students exposed to thermal conditioning for only short or intermittent periods of time achieved less than their peers. Further, proper cooling systems lead to better attitudes toward learning, fewer disciplinary problems, and sustained achievement. This measure is a step towards ensuring that classrooms are of suitable temperatures for successful student learning.

Your Committee has amended this measure by clarifying that the Department of Education shall only be required to complete the electrical assessment on all public and conversion charter schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 863, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 184 Water and Land on S.B. No. 570

The purpose and intent of this measure is to amend the definition of "historic property" under the Historic Preservation Law to require that the property meets the criteria for being entered into the Hawaii Register of Historic Places.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Housing Finance and Development Corporation, and Historic Hawai'i Foundation. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that to be eligible for inclusion in the Hawaii Register of Historic Places, a property must be significant in the history, architecture, archeology, or culture of the State, its communities, or the nation. Your Committee further finds that the current definition for "historic property" merely considers the property's age of construction, which is not equivalent to its historic importance. According to testimony received by your Committee, this measure would address this issue by also considering the property's integrity and historical significance. Your Committee notes that this measure would allow the Hawaii State Historic Preservation Division to focus its reviews on appropriate properties and help clear their backlog.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 570 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 185 (Majority) Water and Land on S.B. No. 1169

The purpose and intent of this measure is to:

- (1) Clearly define dispositions for the use of water by the Board of Land and Natural Resources (Board) by way of licenses for water rather than conveyance of any property right or interest in water via a lease;
- (2) Clarify the water disposition process and the development and implementation of the watershed management plan required of the licensee; and
- (3) Require the Board to consult with the Commission on Water Resource Management on any proposed license to ensure that the disposition is consistent with water resource management requirements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, and Hawaiian Electric Company. Your Committee received testimony in opposition to this measure from Kaua'i Island Utility Cooperative. Your Committee received comments on this measure from Sierra Club of Hawai'i and Wai'oli Valley Taro Hui.

Your Committee finds that this measure would provide much needed efficiency, direction, certainty, and clarity to the current water disposition process. According to testimony received by your Committee, the current requirement for the disposition of water by public auction is patently unfair and unpredictable, especially for farmers and ranchers that have invested years in the land to create successful businesses. Your Committee further finds that this measure will support agricultural and renewable energy (hydroelectric) projects, improve the State's food and energy independence and sustainability, and ensure responsible stewardship of public trust resources, including water resources from forested watersheds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1169, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Misalucha). Noes, 1 (Fevella). Excused, none.

SCRep. 186 Water and Land on S.B. No. 1175

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into the Interstate Wildlife Violator Compact or similar agreement for mutual assistance in the enforcement of wildlife laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, For the Fishes, and Hawaiian Humane Society.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulation across state lines. According to testimony received by your Committee, forty-eight states have passed legislation necessary to join the Interstate Wildlife Violator Compact, whereby persons who have had their licenses revoked in one state are prohibited from engaging in those licensed activities in another state that is part of the compact agreement. Currently, Hawaii is not a member of the Interstate Wildlife Violator Compact. Your Committee further finds that this measure would enhance Hawaii's ability to protect and manage wildlife resources for the benefit of all residents and visitors.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1175, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1175, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 187 Commerce and Consumer Protection on S.B. No. 223

The purpose and intent of this measure is to:

- (1) Require contractors and subcontractors to submit tax clearances as a condition of obtaining building permits for private developments exceeding a certain value; assigning a contract for private developments exceeding a certain value; and obtaining final inspection of private developments exceeding a certain value;
- (2) Authorize the department of taxation to require that tax clearance applications be submitted electronically;
- (3) Establish penalties; and
- (4) Appropriate funds for grants-in-aid to the counties.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and the Subcontractors Association of Hawaii.

Your Committee finds that current administrative rules require tax clearances to obtain or renew a contractor's license during each even-numbered year. This measure in essence codifies this practice for purposes of obtaining building permits. Your Committee notes the problematic grant-in-aid appropriation language included in the current version of this measure, due to title concerns. Accordingly, amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Clarifying that a building license issued pursuant to this measure shall be valid for two years, provided that all appropriate tax clearances were obtained and submitted with the application;
- Clarifying that, if the building license expires, all state and county contracting officers or agents shall withhold final inspection in certain circumstances;
- (3) Deleting language that would have appropriated funds for grants-in-aid to the counties;
- (4) Inserting an effective date of January 1, 2022;
- (5) Inserting a repeal date of December 31, 2026; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 188 Commerce and Consumer Protection on S.B. No. 946

The purpose and intent of this measure is to:

- (1) Establish a Commercial Rent Relief Grant Program; and
- (2) Require that the Commercial Rent Relief Grant Program be given priority for moneys received through federal funding.

Your Committee received testimony in support of this measure from the Hawai'i Lodging & Tourism Association; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawai'i Farm Bureau; Hawai'i Association of REALTORS; Retail Merchants of Hawaii; Hawaii Food Industry Association; Island Business Management, LLC; Ale Stake, LLC, dba Village Bottle and Tasting Room; Suzuki Properties, LLC; Retail Entertainment Concepts, Inc., dba Jungle Fun Island; Fun Factory, Inc.; ABC Stores; Eggs'n Things Hawaii, Inc., dba Eggs'n Things; Global Village; MW Group, Ltd.; Building Owners and Managers Association of Hawaii; HawaiiUSA Federal Credit Union; Joe's Grill Express; WUB Network Hawai'i - Okinawan Chamber of Commerce; and one individual.

Your Committee finds that, as a result of the coronavirus disease 2019 (COVID-19) pandemic and stagnation of the tourism economy, it is estimated that more than one thousand four hundred local businesses have closed their doors permanently, with another two thousand suspending their operations at least temporarily. Commercial rent remains one of the largest fixed costs for a business, and without the ability to take on more debt or additional governmental support, the expenses being absorbed by both lessors and lessees will result in additional closures, further damaging this sector of the economy. The program established by this enabling measure will serve as an essential catalyst for businesses and landlords to work together through the assistance of federal funds.

Your Committee notes this measure, as currently drafted, appropriates \$180,000,000 from the general fund, to be deposited into the emergency and budget reserve fund (also known as the "rainy day fund") for the purposes of funding the grant program contemplated by this measure. Due to the effect the COVID-19 pandemic has had on the State's budget and general fund, your Committee recognizes this measure requires federal funds to be available to reimburse the State's general fund and appropriately establish and operate this proposed grant program. Your Committee finds that your Committee on Ways and Means is best suited to consider these funding aspects, and requests your Committee on Ways and Means to consider whether federal funds are anticipated to come to the State for this purpose, and if so, to make this grant program a priority to support struggling local businesses.

Your Committee has amended this measure by:

- (1) Inserting an unspecified dollar amount to be appropriated out of the general revenues of the State of Hawaii and deposited into the emergency and budget reserve fund;
- (2) Inserting an unspecified dollar amount to be appropriated out of the emergency and budget reserve fund for grants under the Commercial Rent Relief Grant Program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 946, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 189 (Majority) Commerce and Consumer Protection on S.B. No. 1201

The purpose and intent of this measure is to:

- (1) Require that any license issued under section 237-9, Hawaii Revised Statutes, be renewed biennially;
- (2) Permit the Department of Taxation to charge a fee for biennial renewals; and
- (3) Permit the Department of Taxation to require biennial renewals be applied for electronically.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that many general excise tax license holders who close their businesses fail to cancel their licenses, which leads to the Department of Taxation's records being filled with defunct licenses. According to the Department of Taxation's testimony, the Department has found that many taxpayers fail to update their business registration and contact information when there are changes, leading to a waste of State resources when Department mailings get returned and Department personnel have to manually search for the taxpayer's new address. This measure requires general excise tax license holders to renew their licenses biennially, and allows for electronic filing, which will help facilitate efficient tax administration.

Your Committee has amended this measure by:

- (1) Clarifying that existing general excise tax licenses issued and in effect on or before the effective date of this measure shall be subject to renewal beginning in 2022, provided that the Department of Taxation shall not immediately charge a fee for the renewal; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (San Buenaventura, Fevella). Noes, 1 (Riviere). Excused, none.

SCRep. 190 Commerce and Consumer Protection on S.B. No. 1105

The purpose and intent of this measure is to:

- (1) Allow a person aggrieved by the fraud, misrepresentation, or deceit of a mortgage loan originator company licensee to receive restitution payment upon a final court order;
- Repeal fees paid by mortgage loan originator companies and their branch office locations to the Mortgage Loan Recovery Fund; and
- (3) Provide the Commissioner of Financial Institutions with the authority to consider applications to recover from the fund.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds a person who holds a court order against a mortgage loan originator or a mortgage loan originator company licensee for fraud, deceit, or misrepresentation is eligible to receive restitution from the Mortgage Loan Recovery Fund. However, that person must obtain a separate order from the court to receive the restitution payment from the Mortgage Loan Recovery Fund. In one recent example, it took the court approximately eight months to order the Division of Financial Institutions to issue the restitution payment. This measure will allow aggrieved persons to receive restitution payments more efficiently, as the Division of Financial Institutions will be able to issue those payments pursuant to final, rather than separate, court orders. Additionally, this measure repeals fees paid by mortgage loan originator companies and their branches to adjust the funding level of the Mortgage Loan Recovery Fund because currently there are sufficient funds to make restitution payments to aggrieved persons by assessing individual mortgage loan originators, as required by federal law.

Your Committee has amended this measure by clarifying that this measure shall take effect on July 1, 2021.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1105, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 191 Commerce and Consumer Protection on S.B. No. 1198

The purpose and intent of this measure is to:

- (1) Allow the Department of Taxation to mandate the electronic filing of partnership and S-corporation returns if the taxpayer's gross receipts exceed \$250,000 and individual tax returns if the federal adjusted gross income as shown on the taxpayer's Hawaii return exceeds \$100,000;
- (2) Require certain tax return preparers to file returns electronically and authorize a penalty for failure to do so;
- (3) Amend the rules for electronic funds transfer to remove the authorization to require electronic funds transfer or electronic filing if the federal government required that person to file or pay electronically and requires electronic funds transfers for tax return preparers and any person subject to mandatory electronic filing;
- (4) Remove the timeliness requirement from the electronic funds transfer penalty;

- (5) Remove the authority of the Department of Taxation to charge for certified copies of tax clearances;
- (6) Authorize limited disclosure of tax information to licensing agencies with respect to tax clearances for liquor license holders; and
- (7) Clarify the interest rate for payments made to taxpayers out of the litigated claims fund.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure makes various amendments to existing State law to improve general tax administration. This measure is also consistent with the national trend toward electronic filing and electronic payments, which further adds clarity and efficiency to tax administration.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1198, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1198, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 192 (Majority) Hawaiian Affairs on S.B. No. 1317

The purpose and intent of this measure is to provide the Department of Hawaiian Home Lands with the funds to which the Office of Hawaiian Affairs is entitled under article XII, section 6, of the Hawaii State Constitution and section 10-13.5, Hawaii Revised Statutes. Specifically, this measure:

- Requires agencies that collect receipts related to the public land trust to transfer twenty percent of such receipts to the Office of Department of Hawaiian Home Lands on a quarterly basis;
- (2) Sets the minimum aggregate quarterly transfer of receipts to the Department of Hawaiian Home Lands at \$3,775,000;
- (3) Directs the Director of Finance to transfer funds to the Department of Hawaiian Home Lands in satisfaction of any quarterly shortfall;
- (4) Transfers to the Department of Hawaiian Home Lands all overpayment funds collected in fiscal year 2012-2013 through fiscal year 2020-2021 from the carry-forward trust holding account established pursuant to Executive Order No. 06-06, plus any additional overpayments collected in the holding account in fiscal year 2021-2022 and 2022-2023; and
- (5) Establishes a public land trust revenues negotiating committee to make recommendations to the Legislature for resolving the matter of the amount of the income and proceeds from the public land trust that the Department of Hawaiian Home Lands shall receive annually.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Agriculture, Department of the Attorney General, Department of Budget and Finance, Department of Hawaiian Home Lands, University of Hawai'i System, Office of Information Practices, Hawaii Health Systems Corporation, and League of Women Voters.

Your Committee finds that there is a constitutional obligation for the State to provide a sufficient sum of income and proceeds as the pro rata share of the public land trust for the betterment of the conditions of native Hawaiians. Act 178, Session Laws of Hawaii 2006 (Act 178), put in place annual payments of \$15,100,000 from the pro rata portion of the public land trust to the Office of Hawaiian Affairs in acknowledgment of the State's constitutional obligation. However, Act 178 was passed with the intention that it would be an interim measure until the Legislature could further assess the complexities of the issue, including in part gathering information on revenue-generating public trust lands and amounts derived from those lands. Your Committee finds that since Act 178 was passed, the Legislature has received additional information from the departments and the Office of Hawaiian Affairs on the annual amounts derived from the public land trust. For fiscal years 2011-2012, 2012-2013, 2013-2014, 2014-2015, 2015-2016, 2016-2017, 2017-2018, 2018-2019, and 2019-2020, the State reported to the legislature total gross Public Land Trust receipts in the amounts of \$150,939,203, \$159,971,589, \$163,322,176, \$178,043,261, \$177,617,893, \$202,528,564, \$225,079,055, \$289,767,657, and \$229,631,870 respectively, or an average of \$197,433,474 over the last nine fiscal years. Twenty per cent of the average reported gross receipts for fiscal years 2011-2012 through 2019-2020 is \$39,486,695.

Your Committee further finds that the Hawaiian Homes Commission Act provides for the rehabilitation of the native Hawaiian people through a government-sponsored homesteading program for individuals having at least fifty percent blood quantum. Despite constitutional obligation of the Department of Hawaiian Home Lands and Hawaiian Homes Commission under article XII, section 1, of the Hawaii State Constitution, the State has failed to provide sufficient funds to the Department of Hawaiian Home Lands to minimize the number and waiting time on its waiting lists for homesteads to a reasonable level. Additionally, the Department of Hawaiian Home Lands does not currently receive sufficient funding to meet its goal in reducing the waiting list by ninety percent over the next decade. Therefore, this measure is needed to provide for a source of revenue to allow the Department of Hawaiian Home Lands to meet its constitutional amendments in alleviating the waitlist.

Despite the ongoing, urgent economic crisis faced by the State, this measure does not require any general fund appropriations, nor does it require state agencies to set aside more funds than they are already required. This measure intends to ensure that the full twenty percent of public land trust receipts that agencies set aside as native Hawaiians' pro rata share can be used to benefit native Hawaiians.

However, your Committee has heard the concerns of the Office of Hawaiian Affairs that although both the Office of Hawaiian Affairs and the Department of Hawaiian Home Lands have trusts rooted in the Admission Act and the Hawaii State Constitution, and have a similar history of underfunding by the State, the basis for the State's obligation to each entity is distinct and the spending of each trust fund is separately overseen by each organization's governing body pursuant to the Hawaii State Constitution. Article XII, section 6, of the Hawaii Constitution designates the Office of Hawaiian Affairs as the receiving agency for all the pro rata portion receipts that go toward the betterment of the conditions of native Hawaiians. There is no analogous provision in the Hawaii State Constitution that provides the Department of Hawaiian Home Lands with any portion of the receipts collected from the lands of the public land trust. Moreover, the Hawaii State Constitution does not specify the amount, percentage, or nature of the income or proceeds from the lands referred to in article XII, section 4, of the Hawaii State Constitution that must be transferred to the Office of Hawaiian Affairs. The Department of Hawaiian Home Lands administers a different trust comprised of different lands under the Hawaiian Homes Commission Act.

The Office of Hawaiian Affairs noted further concerns that by halting the transfer for public land transfers to the Office of Hawaiian Affairs, this measure would thereby abdicate the State's constitutional obligations under the Public Land Trust. Redirecting receipts to the Department of Hawaiian Home Lands may impede the State's obligation under article XII, section 6, of the Hawaii State Constitution, which provides that "all income and proceeds from that pro rata portion of the [public land trust]...for native Hawaiians" is to be managed and administered by the Board of Trustees of the Office of Hawaiian Affairs. By diverting these revenues to the Department of Hawaiian Home Lands, this measure could be interpreted to supplant the State's separate and independent constitutional obligation to sufficiently fund the administration and operation of the Department of Hawaiian Home Lands.

The Department of the Attorney General also noted concerns that this measure requires state agencies to transfer twenty percent of each receipt or gross income derived from the public land trust. Transferring twenty percent of gross income could adversely affect important governmental programs, which could come in the form of higher lease rents in affordable housing projects, higher fees at state harbors, and an increased cost of services operated by the State on public lands, which would be passed onto consumers, businesses, and taxpayers. The Department highlighted its trust responsibilities to exercise a level of care and skill in administering the trust as a person of ordinary prudence; therefore, transferring twenty percent of gross income without consideration of the detrimental impact to the trust and the enterprises thereon would not be an exercise of ordinary prudence.

Your Committee has heard the additional concerns of the Department of the Attorney General that this measure would require all agencies collecting receipts from the public land trust to indiscriminately transfer twenty percent of such receipts to the Office of Hawaiian Affairs. In Office of Hawaiian Affairs v. State, 96 Haw. 388, 31 P.3d 901 (2001), the United States' Supreme Court ruled that a twenty percent transfer requirement as applied to the Department of Transportation's airport revenues conflicted with federal transportation statutes. Therefore, this measure's return to a twenty percent transfer requirement for all agencies may raise issues of preemption.

Furthermore, your Committee also notes the concerns of the Department of the Attorney General and Department of Budget and Finance regarding the carry-forward trust holding account established by Executive Order 06-06, due to the financial strain caused by the coronavirus disease-2019 (COVID-19) pandemic, which has had a negative impact on the ability of state agencies to collect revenue that may result in insufficient sums to meet the minimum \$3,775,000 quarterly payments. Additionally, if the amounts in the holding account are transferred to the Department of Hawaiian Home Lands, there will be no contingency funds to meet the minimum payments as set by Act 178. The Department of Budget and Finance also presented concerns that the measure does not provide a framework for administering the transfer of ceded land payments to the Department of Hawaiian Home Lands.

Your Committee has additionally heard the concerns of the Hawaii Health Systems Corporation, Department of Agriculture, and the Department of Land and Natural Resources that this measure places undue hardships on their agency operations.

Your Committee has also heard the concerns of the University of Hawai'i System citing article X, section 5, of the Hawaii State Constitution, which states that the University shall have title to all real and personal property conveyed to it, which shall be held in public trust to further its purposes as a model indigenous-serving university.

While the Department of Hawaiian Home Lands acknowledged that the Department does not currently receive sufficient funding to develop house lots for all applicants on the waiting list, the Department of Hawaiian Home Lands provided comments that the Hawaii State Constitution established the Office of Hawaiian Affairs to manage and administer the proceeds from the sale or other disposition of the lands and income from the public land trust.

Your Committee has heard the concerns of the Office of Information Practices that the measure as drafted would exempt the public land trust revenues negotiation committee from being subject to chapter 92, Hawaii Revised Statutes, because this exemption creates the appearance that the sensitivity of negotiations precludes public participation in the process.

Accordingly, in response to the numerous concerns of the testifiers, your Committee has amended this measure by:

- (1) Updating dollar amounts referenced in section 1;
- (2) Inserting language in section 1 to acknowledge the sensitive nature of anticipated negotiations and provide an explanation for the exemption of the public land trust revenues negotiating committee from part I of chapter 92, Hawaii Revised Statutes;
- (3) Clarifying that the quarterly transfer of receipts shall occur unless precluded by federal law;
- (4) Inserting a blank dollar amount for the minimum total amount of receipts transferred to the Department of Hawaiian Affairs for any fiscal quarter;
- (5) Inserting a definition for the term "receipt";

- (6) Inserting a blank dollar amount required to be left in the holding account to act as contingency payments;
- (7) Clarifying that the public land trust revenues negotiating committee is exempt from part I of chapter 92, Hawaii Revised Statutes, rather than the entire chapter;
- (8) Inserting language to clarify that nothing in this measure shall diminish the revenues owed to the office of Hawaiian affairs pursuant to Act 178, session laws of Hawaii 2006, or any other law providing for the office of Hawaiian affairs' pro rata portion of the public land trust under article XII, section 6, of the Hawaii State Constitution; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1317, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Fevella). Excused, none.

SCRep. 193 Hawaiian Affairs on S.B. No. 1413

The purpose and intent of this measure is to require the Governor, Lieutenant Governor, state legislators, and heads of principal departments to prominently display a Hawaiian language translation of the name of their office or department at least once on the main page of their official website and in the letterhead of their stationary.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Hawaii State Constitution provides for the preservation and promotion of native Hawaiian culture, history, and language. Article X, section 4, of the Hawaii State Constitution provides that "[t]he State shall promote the study of Hawaiian culture, history, and language." Article XII, section 7, of the Hawaii State Constitution provides for the protection of native Hawaiian traditional and customary rights. Article XV, section 4, of the Hawaii State Constitution also establishes English and Hawaiian as the official languages of the State. The Hawaiian language is also established in section 1-13, Hawaii Revised Statutes, as one of the official languages of the State. Additionally, language rights are specifically recognized and protected in Article 13 of the United Nations Declaration on the Rights of Indigenous Peoples, which provides that states shall take effective measures to ensure that the right to revitalize, use, and develop language for communities. Your Committee further finds that one way to preserve and promote native Hawaiian culture, history, and language is by requiring state and county documents, letterheads, symbols, and emblems to contain accurate, appropriate, and authentic Hawaiian names and language.

Your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 711, a substantially similar measure, which:
 - (A) Requires all letterheads, documents, symbols, and emblems of the State and other political subdivisions that include Hawaiian words or names to include accurate and appropriate Hawaiian names, spelling, and punctuation;
 - (B) Establishes references for accurate, appropriate, and authentic Hawaiian names and words, including proper Hawaiian spelling and punctuation; and
 - (C) Clarifies that the full text of bills and other official documents are not required to be written in Hawaiian and that misspelled or incorrectly punctuated Hawaiian words and names shall not invalidate the documents or render them unenforceable and no cause of action shall arise accordingly;
- (2) Replacing the Office of Hawaiian Affairs with the University of Hawaiia Ka Haka 'Ula o Ke'elikolani or Kawaihuelani Center for Hawaiian Language as the entity to consult with each office or department on the appropriate translation and use of the Hawaiian language and its spelling;
- (3) Requiring that the University of Hawaii System Ka Haka 'Ula o Ke'elikōlani or Kawaihuelani Center for Hawaiian Language consult with native speakers to determine the appropriate use of the Hawaiian language and its spelling in the translations;
- (4) Defining "native speakers" as speakers of Hawaiian language who come from an unbroken lineage of primary speakers of Hawaiian language; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1413, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1413, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 194 Hawaiian Affairs on S.B. No. 1343

The purpose and intent of this measure is to:

- (1) Remove acreage restrictions on leases of Hawaiian home lands for agricultural purposes;
- (2) Provide that the availability of these leases be subject to the availability of suitable tracts of land; and
- (3) Specify that the leases may be for for-profit or non-profit purposes.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that the Department of Hawaiian Home Lands' subsistence agricultural program is intended for those individuals who seek to be self-sufficient and grow enough to be self-sufficient. As originally enacted by the United States Congress, the Hawaiian Homes Commission Act authorized the Hawaiian Homes Commission to lease twenty to eighty acres of agricultural land. In the present day, the Hawaiian Homes Commission Act authorizes the Department of Hawaiian Home Lands to lease no more than forty acres of agricultural land with at least twenty-six of those acres of continuous cultivation.

Your Committee finds that beneficiaries have voiced concerns of current agricultural lessees. There are concerns that applicants on the agricultural lease waitlist have voiced concerns of agricultural lessees not farming their land. Among agricultural applicants who are farming, fifty-five percent of farmers engage in subsistence farming, only growing enough crops to provide for the need of their household members. An additional twenty percent are growing enough to provide for some of the needs of their household members. Nearly six out of ten agricultural applicants seek to engage in subsistence farming. Fifty-nine percent of applicants were willing to accept agricultural parcels of two acres or less and another twenty-three percent indicated that a lot size between three and five acres would be acceptable.

Your Committee has heard the concerns from the Department of Hawaiian Home Lands that removing acreage restrictions statewide would have an impact on over nineteen thousand applicants that are on the waitlist for an agricultural lease with 7,269 applicants on Hawaii Island; 4,666 applicants on Maui; 3,817 applicants on Oahu; 2,235 applicants on Kauai; and 1,097 applicants on Molokai. If each of the current 19,084 applicants on the waitlist were provided with a forty-acre parcel, the Department would be required to provide 763,360 acres of land, which is more than triple the amount of lands currently available under the Hawaiian Homes Commission Act. While removing the acreage restriction would potentially allow for expanded opportunities in certain areas for farming, these lands are not outfitted with the proper infrastructure and water for cultivation which would make these agricultural lands difficult to utilize. In addition, the Department of Hawaiian Home Lands would likely have to assist in providing technical assistance and financial support for beneficiaries to be successful.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1343, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 195 (Majority) Hawaiian Affairs on S.B. No. 1323

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to develop a strategic plan based on a comprehensive assessment of the needs of beneficiaries to devise and implement coordinated long-term solutions for eliminating the waiting list for a home land lease with an emphasis on leveraging its trust resources, statutory powers, and other means of state funding and support to focus on lot development and distribution.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that more than two thousand native Hawaiian beneficiaries have died while on the Hawaiian homes waiting list for a home land lease, and twenty-eight thousand beneficiaries currently remain on the waitlist, half of which are over the age of sixty. Additionally, the Department of Hawaiian Home Lands recently estimated that to house all the beneficiaries of the waitlist, cost projections range between for \$4,000,000,000 to \$12,000,000,000 for infrastructure alone. Your Committee finds that the Department of Hawaiian Home Lands has not made strident efforts to eliminate the waitlist for leases of Hawaiian home lands which has led to a mismanagement of the trust, causing native Hawaiian beneficiaries to languish. As of November 30, 2020, there were 10,881 applicants from the island of Oahu; 5,905 applicants from the island of Hawaii; 3,859 applicants from the island of Maui; 1,693 applicants from the island of Kauai; eight hundred forty applicants from the island of Molokai; and seventy-four applicants from the island of Lanai on the waitlist.

Your Committee also finds that the Hawaii Supreme Court has upheld the State's constitutional duty to make sufficient sums available for the Department of Hawaiian Home Lands' administrative and operating budget. The Department of Hawaiian Home Lands submitted its executive biennium budget request for fiscal year 2018 for \$73,425,000 for lot development, but only received \$20,000,000. The Department of Hawaiian Home Lands submitted its executive biennium budget request for fiscal year 2019 for \$88,975,000 for lot development, but only received \$20,000,000. The Department of Hawaiian Home Lands submitted its executive biennium budget request for fiscal year 2020 for \$74,775,000 for lot development, but only received \$20,000,000. For the fiscal years from 2018 to 2020, the Department has requested \$237,175,000, and has only received \$60,000,000 for lot development, resulting in a difference of \$177,175,000.

While your Committee further finds that the Department of Hawaiian Home Lands conducted studies in 1995, 2003, 2008, and 2014 which outlined goals on emphasizing management of their existing land inventory, their plans have not made explicit mention of providing lot development on a trajectory that would extinguish the waitlist. Additionally, the Department of Hawaiian Home Lands has shifted to more expensive housing developments that may have exacerbated the problems of people remaining on the waiting list for extended periods of time and failed to aggressively pursue diversification of housing awards for diversified housing arrangements. Therefore, your Committee finds that this measure is necessary to assess beneficiaries' needs and create a long-term strategic plan to eliminate the waitlist for home lease lands.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1323, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Acasio). Excused, none.

SCRep. 196 Hawaiian Affairs on S.B. No. 1412

The purpose and intent of this measure is to direct the Department of Budget and Finance to issue special purpose revenue bonds for the planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improvement of the Honokea Surf Village.

Your Committee received testimony in support of this measure from HK Management, LLC and twenty-four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and the Hawaii Community Development Authority.

Your Committee finds that on January 8, 2020, the Hawaii Community Development Authority held a Kalaeloa Authority Meeting where members authorized the Executive Director to enter into an exclusive negotiations agreement and right of entry agreement with HK Management for a period of eighteen months to provide site control to conduct due diligence and further explore the possibility of the proposed Honokea Surf Village project at the site. The Honokea Surf Village is intended to be a surf industry center, consisting of research, development, manufacturing, and testing facilities; a surf and aquatic film studio; and an artificial surf park that can be used as a design testing facility, filming location, training venue, and place for surf meets of all levels, including high school. Moreover, the activities within the project facilities will provide opportunities for cultural education, awareness of the history of surfing and Hawaiian culture, and employment opportunities at Honokea Surf Village and related local businesses.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1412, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 197 Hawaiian Affairs on S.B. No. 696

The purpose and intent of this measure is to extend the date on which the Temporary Commission on the Thirteenth Festival of Pacific Arts shall cease to exist to August 31, 2025, and permits the Commission members to discuss matters relating to official board business without regard to chapter 92, Hawaii Revised Statutes, to enable them to perform their duties faithfully.

Your Committee received testimony in support of this measure from Department of Business, Economic Development, and Tourism; Hawai'i Tourism Authority; and one individual. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the Festival of Pacific Arts and Culture has been held approximately every four years since its founding in 1972, bringing together a delegation of at least two thousand five hundred artists, performers, and cultural practitioners from twenty-seven nations in Oceania to preserve, perpetuate, and exchange the arts and cultures of their indigenous peoples. Visitors from around the world attend the festival to experience and appreciate what the artists, performers, cultural practitioners, and host country bring to share, thereby creating a global market for arts, ideas, and products.

Additionally, the Legislature finds that Act 104, Session Laws of Hawaii 2017, created the temporary Commission on the Thirteenth Festival of Pacific Arts to plan the Festival of Pacific Arts originally scheduled to be held in Hawaii in June 2020. Due to the outbreak of the coronavirus disease 2019 (COVID-19), the Pacific Community, the international custodian of the festival, notified the State that it is postponing the Festival to 2024. Therefore, the temporary Commission, which was to cease to exist on June 30, 2021, must be extended to fulfill its duties to plan the Thirteenth Festival of Pacific Arts in 2024.

Your Committee has heard the concerns of the Office of Information Practices that this measure would propose an exemption of chapter 92, Hawaii Revised Statutes. To carry-out and coordinate these responsibilities of the Commission to ensure a successful festival, occasionally more than a quorum of the Commission members must be able to communicate expeditiously and outside of the confines of chapter 92, Hawaii Revised Statutes. At the same time, the Legislature finds that the Commission is committed to fulfilling the policy and intent of chapter 92, Hawaii Revised Statutes, including by holding regularly scheduled open meetings and posting notices and minutes. The Office of Information Practices recommended in its testimony that your Committee should tailor a permitted interaction to be consistent with chapter 92, Hawaii Revised Statutes, to meet this intent.

Your Committee has amended this measure by:

- (1) Permitting less than a quorum of commission members to discuss matters relating to official board business outside a commission meeting as a permitted interaction under part I of chapter 92, Hawaii Revised Statutes, to enable them to perform their duties faithfully, provided that the Commission holds a meeting at least once a month and discusses the permitted interaction matter at the next meeting; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 696, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 198 Hawaiian Affairs on S.B. No. 1318

The purpose and intent of this measure is to require that claimants seeking to quiet title of kuleana land and original land titles that are land commission awards with a royal patent of confirmation which are based on claims to a right to the land before 1848, shall have a good faith claim to more than fifty percent of the land.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from Ka Lāhui Hawai'i Kōmike Kalai'āina and one individual.

Your Committee finds that the State has a constitutional duty to protect the title to kuleana lands granted to native Hawaiians over one hundred fifty years ago, kuleana claims that were approved by the land commission, and land titles with a royal patent of confirmation which are based on claims to a right to land before 1848. Following the Mahele of 1848, several thousand native tenants, or makaainana (common people), pursuant to the Kuleana Act of 1850, filed for and were granted title to lands they occupied and improved. Although these lands were, by law, "subject to the rights of native tenants" there were, initially, no formal protections in place to guard these rights and nothing to stop the konohiki (chiefs) or the government from selling lands occupied by makaainana. In response to the concerns over the rights of native tenants, the Kuleana Act of August 6, 1850, and the amendment of July 11, 1851, authorized the Kingdom of Hawaii to confirm several resolutions of the Monarch and Privy Council that granted to the makaainana grant fee-simple title to all native tenants for their cultivated lands and house lots, often referred to as kuleana lands.

Your Committee also finds that very few native Hawaiian families live on their ancestral kuleana lands. The rapid escalation of land values in the recent years have resulted in further disenfranchisement, foreclosure, and emotional and financial struggles for native Hawaiian families that are trying to keep kuleana lands in their families. While quiet title actions have been a beneficial legal tool for kuleana awardees to resist adverse possession claims made by large agricultural entities, the current framework of quiet title action leaves kuleana owners vulnerable to dispossession, including through the use of complex and cost-prohibitive legal processes that effectively foreclose quiet title defendants from challenging quiet title actions and adverse possession claims.

Your Committee notes concerns raised by Ka Lāhui Hawai'i Kōmike Kalai'āina that this measure could be strengthened further by limiting actions to quiet title to kuleana land to plaintiffs who own at least a fifty percent interest in the land. This measure will create a more equitable and timelier safeguard to resolve disputes and hardships stemming from quiet title actions filed against owners of kuleana lands.

Your Committee has amended this measure by:

- (1) Requiring that claimants seeking to quiet title of kuleana land shall hold title rather than have a good faith claim, to more than fifty percent of the land;
- (2) Inserting language to require that the plaintiff bear any costs for quiet title actions and may only recover costs, expenses, or attorney's fees from the defendant as the court may deem equitable under the circumstances; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1318, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 199 Human Services on S.B. No. 410

The purpose and intent of this measure is to add offenses relating to abuse of a family or household member to the list of felonies that qualify for repeat offender sentencing.

Your Committee received testimony in support of this measure from Maui Police Department, the Honolulu Police Department, Maui County Department of the Prosecuting Attorney, Department of the Prosecuting Attorney of the City and County of Honolulu, Domestic Violence Action Center, Child and Family Service, Hawai'i State Coalition Against Domestic Violence, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and one individual.

Your Committee finds that domestic violence is a serious and pervasive public health issue with devastating long-term consequences for society. The seriousness of this violent crime emphasizes the need for mandatory minimum sentencing to hold repeat offenders accountable. Your Committee also finds over the years, amendments to the mandatory minimum sentencing law, section 709-606.5, Hawaii Revised Statutes, have been "piecemeal", and abuse of family or household member (AFHM) offenses were, unfortunately, not added to the list of offenses that qualify for repeat offender sentencing.

Your Committee further finds that under section 709-906(7), Hawaii Revised Statutes, it is a class C felony to commit the offense of AFHM more than twice over a two-year period, and a defendant in this situation would be eligible for a maximum five-year term of imprisonment. However, existing law does not provide for enhanced sentencing for defendants who continue to abuse beyond a third offense. These repeat offenders may serve terms that are substantially shorter than five years or, worse, receive probation.

Accordingly, your Committee has amended this measure by removing the reference to section 709-906(7), Hawaii Revised Statutes, from the list of offenses that are eligible for repeat offender sentencing because it is already described as a class C felony for those defendants who have been convicted three times for an AFHM offense.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 410, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 200 Education on S.B. No. 808

The purpose and intent of this measure is to:

- (1) Describe the powers and responsibilities of the School Facilities Agency by amending Act 72, Session Laws of Hawaii 2020;
- (2) Transfer the total fund balance in the state educational improvement fund to the school facilities special fund by a certain date.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Department of Education, State Procurement Office, and Department of Budget and Finance.

Your Committee finds that currently, Act 72, Session Laws of Hawaii 2020 (Act 72), does not clearly describe the powers and responsibilities of the School Facilities Agency and its Executive Director, School Facilities Board, and administrative staff. This measure will amend some of the provisions of Act 72, which will help provide guidance and improve the efficiency of the School Facilities Agency.

Your Committee has amended this measure by:

- (1) Amending Act 72 to specify that the School Facilities Agency may appoint or retain by contract one or more attorneys independent of the Attorney General to provide legal services solely in cases of negotiations in which the Attorney General lacks expertise; provided that the independent attorney shall consult and work in conjunction with the designated deputy attorney general assigned and make conforming amendments;
- (2) Amending Act 72 to specify that the School Facilities Agency may use the Department of Human Resources Development to recruit, hire, and retain exempt employees, architects, engineers, existing civil service positions for the development, planning, and construction related to capital improvement projects;
- (3) Specifying that there shall be transferred all rules, policies, deeds, contracts, and agreements from the Department of Education to the School Facilities Agency that are related to the school impact fees;
- (4) Specifying that a blank general fund appropriation be made to fund the special facilities special fund and an appropriation from the fund for the purposes of this Act; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 808, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 201 (Joint) Commerce and Consumer Protection and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1101

The purpose and intent of this measure is to:

- (1) Establish the Safe Home Program to provide matching and nonmatching grants for installation of wind resistive devices to single-family, owner-occupied, residential property owners upon certain circumstances; and
- (2) Create one temporary position within the Insurance Division of the Department of Commerce and Consumer Affairs to implement and administer the Safe Home Program.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Office of the Director of Emergency Management; Hawaii State Energy Office; City and County of Honolulu Office of Climate Change, Sustainability, and Resiliency; Hawaii Insurers Council; and two individuals. Your Committees received comments on this measure from the State Procurement office and Hawaii Green Infrastructure Authority.

Your Committees find that Hawaii residents are highly susceptible to property loss due to hurricanes, tropical storms, and strong winds. With climate change affecting average temperatures, the likelihood of weather-related natural disasters will only continue to increase. Your Committees note the testimony of the Department of Commerce and Consumer Affairs that, even if there are no funds immediately available to fund this program, this measure is still important to help establish and set the regulatory framework of the Safe Home Program so that, when funding or grant money does becomes available, the program will already be in place to more quickly facilitate the grants contemplated by this measure.

Your Committees have amended this measure by:

- (1) Clarifying the matching and nonmatching grants awarded to applicants under this measure from the Safe Home Program Trust Fund shall not be subject to chapter 42F, 91, 103D, or 103F, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees. Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 202 Housing on S.B. No. 142

The purpose and intent of this measure is to exempt affordable housing units, additions to existing dwelling units, accessory dwelling units, ohana dwelling units, and any affordable housing projects developed by the Hawaii Public Housing Authority from fifty percent of the required school impact fee.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from EAH Housing. Your Committee received comments on this measure from one individual.

Your Committee finds that there are currently thousands of Hawaii residents on the public housing wait list but not enough supply of affordable housing projects to meet the demand. The only way to meet this demand is to increase the current inventory of affordable housing. The school impact fee, as required by section 302A-1603, Hawaii Revised Statutes, presents a significant financial barrier to the development of affordable housing projects in Hawaii. Many developers of affordable housing projects rely on funds from the State's Rental Housing Revolving Fund or other state appropriations to pay for the school impact fee in order to make affordable housing projects financially viable. This creates a situation where, if funding requests are approved by the State, one state entity pays money to another state entity while critically needed affordable housing projects are delayed waiting on those funding decisions. The waiver of the school impact fee, as proposed by this measure, will make the development of affordable housing projects more financially viable.

Your Committee has amended this measure by increasing the exemption of the required school impact fee from fifty percent to one hundred percent for certain affordable housing projects.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 142, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 203 Housing on S.B. No. 40

The purpose and intent of this measure is to allow owner-occupant projects to qualify, without income restrictions, as a housing project that may be exempt from certain statutes pursuant to the provisions of section 201H-38, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Faith Action HousingNOW! and one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority.

Your Committee finds that creating more housing supply is a necessary course of action to help the thousands of Hawaii families who need a permanent roof over their heads. By providing Hawaii residents with more opportunities to purchase a home, the State would be moving toward fulfilling the housing objectives and policies for socio-cultural advancement outlined in the Hawaii State Planning Act, as codified in section 226-19, Hawaii Revised Statutes. This measure will help greater numbers of Hawaii residents obtain home ownership by eliminating income restrictions.

Your Committee has amended this measure by:

- (1) Replacing the term "residents of the State" with "qualified resident," which is a defined term in chapter 201H, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 40, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 204 Housing on S.B. No. 12

The purpose and intent of this measure is to require the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation to increase homeownership and rental opportunities for Hawaii residents.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority.

Your Committee finds that the provision of rental housing and opportunities for home ownership for Hawaii residents is an important goal of the State as evidenced by their inclusion in the state objectives for socio-cultural advancement, found in section 226-19, Hawaii Revised Statutes. To strengthen the State's commitment to this objective, this measure specifies that the Hawaii Housing

Finance and Development Corporation and Hawaii Public Housing Authority have an obligation to provide more housing opportunities to the residents of the State.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 12 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 205 Housing on S.B. No. 26

The purpose and intent of this measure is to establish the individual housing accounts savings program, with accompanying board and administrative fund. The savings program will allow Hawaii residents to save money for a down payment on a home or certain other home-related expenses.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Hawaii Credit Union League, Office of Information Practices, and Department of Budget and Finance.

Your Committee finds that this measure is intended to create a way for employees who are Hawaii taxpayers to save money for home ownership or other housing-related expenses. Your Committee has heard testimony that when a similar program was offered there were only 83 participants in the program, which would make it difficult to achieve economies of scale.

Your Committee understands this concern and notes that S.B. No. 5, Regular Session of 2021, is substantially similar to this measure and creates employer-run housing savings accounts but creates an opt-out system where every employee is automatically enrolled rather than the opt-in provision in this measure as drafted. Your Committee finds that the language in S.B. No. 5 is preferrable as it will result in far greater participation in the program.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 5, a measure that:

- (1) Establishes a Housing Savings Account system;
- (2) Establishes a board for administrative purposes within the Department of Budget and Finance;
- (3) Sets the default contribution rate, but provides that employees may elect to contribute a different amount; and
- (4) Automatically enrolls all employees in the program, but also provides that any employee may opt-out at any time.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 26, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 26, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 206 Housing on S.B. No. 36

The purpose and intent of this measure is to:

- Prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program; and
- (2) Establish a landlord incentive program special fund to reimburse land owners who participate in the Section 8 program for the costs of repairs for tenant-caused damage that exceed the cost of the tenant's security deposit.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Civil Rights Commission, Hawaii State Commission on the Status of Women, Hawaii Public Housing Authority, ACLU of Hawaii, League of Women Voters, Hawaii Appleseed Center for Law and Economic Justice, LGBT Caucus of the Democratic Party of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of Realtors and one individual

Your Committee finds that low-income individuals experience extreme difficulty in finding affordable housing rentals in Hawaii. Many housing vacancy advertisements proclaim "no Section 8 accepted" or "Section 8 need not apply" in an effort to prevent low-income individuals with housing vouchers from consideration for tenancy. Your Committee further finds that many states, the District of Columbia, and many cities and counties already prohibit discrimination based on source of income. In those areas where this discrimination is already prohibited, renters with housing vouchers are twelve percent more likely to find housing than areas that allow for this type of discrimination. Your Committee finds that this measure will prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program.

Your Committee is cognizant that some of the testimony in opposition to this measure claim that the requirements of Section 8 are too burdensome, including requiring audits, entering into contracts with the government, and other conditions. However your Committee notes that the Hawaii Public Housing Authority offered oral testimony wherein they stated that the requirements for landlords to participate in Section 8 are very minimal. All that is required is an inspection to ensure that the rental unit is safe and sanitary, and secondly, the execution of one simple agreement by the landlord to accept Section 8 moneys. In light of the testimony provided by the Hawaii Public Housing Authority, your Committee finds that the regulations imposed on landlords for participation in Section 8 housing are quite minimal.

Your Committee has amended this measure by:

- (1) Adding the contents of S.B. No. 53, Regular Session 2021, to this measure to address the concerns of the Hawaii Public Housing Authority;
- (2) Amending the definition of "Housing assistance program" to clarify that the source of income prohibition pertains only to government programs;
- (3) Inserting language to clarify that it is also unlawful to expel or otherwise refuse to continue to rent to a current tenant based on their participation in a housing assistance program;
- (4) Including a definition of "source of income" to more clearly describe a discriminatory practice;
- (5) Amending the penalty for a violation from \$500 to \$5,000 on the recommendation of the Governor's Coordinator on Homelessness, Hawai'i State Commission on the Status of Women, and ACLU of Hawai'i;
- (6) Amending the appropriation amount from an unspecified amount to \$100,000 per the recommendation of the Hawaii Public Housing Authority;
- (7) Amending section 1 of this measure to include a paragraph explaining how Section 8 housing discrimination is also a proxy for discriminating against women to give additional context to effects of Section 8 discrimination; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 36, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 207 Housing on S.B. No. 43

The purpose and intent of this measure is to create the position of Housing Coordinator to be administratively attached to the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, EAH Housing, and BIA Hawaii.

Your Committee finds that there is a statewide housing crisis that is negatively impacting the quality of life of Hawaii's residents. The overall lack of supply of housing and the exorbitant cost of the available housing supply is causing an exodus of residents out of the State to more affordable markets. There is a need to coordinate and focus the efforts of the various government agencies who have an obligation to increase the supply of available housing so that Hawaii residents can purchase a home. To accomplish this task, this measure will create the position of Housing Coordinator to be a centralized authority in government to coordinate all of the government's resources to respond to the housing crisis.

Your Committee received testimony from the Hawaii Public Housing Authority (HPHA) that to charge the Housing Coordinator with oversight of state public housing units would interfere with HPHA's annual contribution contract with the U.S. Department of Housing and Urban Development.

Your Committee has amended this measure by:

- (1) Deleting the Housing Coordinator's duty to facilitate redevelopment and rehabilitation of existing public housing units;
- (2) Changing the appropriation amount from an unspecified amount to \$200,000 to cover salary and fringe benefits for the position of Housing Coordinator; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 43, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 43, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 208 Housing on S.B. No. 143

The purpose and intent of this measure is to establish an affordable homeownership revolving fund within the Hawaii Housing Finance and Development Corporation, which would provide loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects.

Your Committee received testimony in support of this measure from Hawaii Habitat for Humanity Association; Faith Action HousingNOW!; Habitat for Humanity Hawaii Island, Inc.; EAH Housing; St. Michael the Archangel Parish; and two individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that homeownership is positively correlated with economic and social stability. However, the number of full-time Hawaii residents who own homes has steadily declined over the last fifty years. Currently, Hawaii has the third lowest homeownership rate of any state in the nation. To help solve this problem, self-help housing, nonprofit developers, and community land trust organizations can leverage federal funds to build houses that are available for purchase by low- and moderate-income

households, but only if these organizations can provide additional non-federal matching funds. Your Committee further finds that the additional matching funds required can be provided by the establishment of an affordable homeownership revolving fund. The use of this fund, together with federal funds, can create homeownership opportunities for more of Hawaii's residents.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from an unspecified amount to \$1 million; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 143, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 209 Housing on S.B. No. 202

The purpose and intent of this measure is to:

- (1) Eliminate the home mortgage interest deduction for second homes under Hawaii income tax law; and
- (2) Direct that any revenue derived from the elimination of the second home mortgage interest deduction be deposited into the rental housing revolving fund.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of Realtors and one individual. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and the Tax Foundation of Hawaii.

Your Committee finds that the federal mortgage interest deduction, to which Hawaii conforms, was first introduced in 1913. Its purpose was to encourage the purchase of a home by offsetting the amount of mortgage interest paid from any tax liability that the homeowner may have incurred. However, Hawaii currently finds itself in a housing crisis where there are not enough homes to meet demand. Your Committee believes that removing the homeowners interest deduction for second homes would encourage those who own second homes to sell them, increasing the housing supply for Hawaii residents who could use the home as their primary residence.

Your Committee further finds that the testimony from the Department of Tax and the Tax Foundation of Hawaii wherein they opined that instead of depositing any tax revenue from this measure directly into the rental housing revolving fund that the legislature should seek an appropriation from the general fund for the rental housing revolving fund is in contradiction with the requirements of section 37-52.3, Hawaii Revised Statutes, which requires special funds to reflect a clear nexus between the program and the source of revenue.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 202 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 210 Housing on S.B. No. 607

The purpose and intent of this measure is to:

- (1) Remove the construction completion deadline for the Leialii Affordable Housing project and Keawe Street Apartments; and
- (2) Exempt the project from the historic preservation laws pursuant to chapter 6E, Hawaii Revised Statutes, under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Kihei Community Association, and the Office of the Mayor of Maui County.

Your Committee finds that there is a severe shortage of affordable rental housing in the county of Maui, particularly in the western part of the island. To remedy this problem, the Legislature appropriated funds to expedite and complete the Leialii Affordable Housing and the Keawe Street Apartments housing projects, with the mandate that the projects be completed by 2022. However, in 2020 the State Historic Preservation District from the Department of Land and Natural Resources notified the Hawaii Housing Finance and Development Corporation that it would require a new archaeological inventory survey for the entire Leialii and Keawe Street projects. Despite discussions between the Hawaii Housing Finance and Development Corporation, the State Historical Preservation Division, and the Office of the Governor, no agreement could be reached, and a new archaeological survey must be performed. In light of this new requirement, your Committee finds the 2022 completion deadline imposed by the Legislature cannot be met. This measure will extend the deadline imposed by the Legislature and allow the housing projects to go forward to provide much-needed homes for Maui residents.

Your Committee has amended this measure by deleting the requirement that the Hawaii Housing Finance and Development Corporation give preference to residents of Lahaina when the project is completed as that would likely be a violation of the general public use requirement of Section 42 of the Internal Revenue Code, which the corporation is required to uphold.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 607, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 607, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 211 Housing on S.B. No. 749

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to build non-subsidized housing.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that creating more affordable housing opportunities for Hawaii residents is of utmost importance. However, many affordable housing projects are revenue-negative, which limits the number of projects that the Hawaii Public Housing Authority can undertake. By allowing the Hawaii Public Housing Authority to build non-subsidized housing, this measure will allow for more mixed use and for-profit portions of affordable housing projects, which will make these projects more financially viable. With more profitable projects, the Hawaii Public Housing Authority can return more money to the State and therefore build more affordable housing projects.

Your Committee notes the conflicting testimony submitted by the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority. In order to provide input to the Committee that is credible and useful, state agencies are encouraged to better coordinate their testimony before this Committee going forward.

Your Committee has amended this measure by:

- (1) Deleting the definition of "Public housing project, housing project, or complex" from section 356D-1, Hawaii Revised Statutes, as this definition does not include "state low-income housing project" as defined in section 356D-51, Hawaii Revised Statutes;
- (2) Adding a new definition of "Housing" to section 356D-1, Hawaii Revised Statutes, as recommended by the Hawaii Public Housing Authority, to prevent any unintended consequences that may inhibit the Hawaii Public Housing Authority from carrying out the legislative intent of this measure;
- (3) Making conforming amendments to section 356D-11, Hawaii Revised Statutes, to further the purpose and intent of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 749, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 212 Housing on S.B. No. 866

The purpose and intent of this measure is to temporarily exempt affordable housing projects by the Hawaii Housing Finance and Development Corporation from certain specific state and county fees and exactions; provided that the affordable housing units are exclusively for qualified residents who are owner/renter occupants and who own no other real property.

Your Committee received testimony in support of this measure from Michaels Development and Hawaii Habitat for Humanity Association.

Your Committee finds that the State is experiencing economic turmoil brought on by the coronavirus 2019 (COVID-19) pandemic. Unfortunately, the declining economy has affected some of Hawaii's most vulnerable residents. A recent study by the University of Hawaii found that more than eleven thousand Hawaii tenants have fallen behind on their rent payments and more than forty percent of rental tenants have lost their jobs. To make matters worse, Hawaii continues to suffer from a lack of affordable housing. This measure will make the development of affordable housing projects more financially viable for developers and therefore bring more affordable housing units to market for Hawaii residents.

Your Committee has amended this measure by replacing the affordability income restriction with the requirement that the affordable housing units be exclusively for qualified residents who are owner or renter occupants and who own no other real property.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 866, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 213 Housing on S.B. No. 869

The purpose and intent of this measure is to require the Department of Land and Natural Resources, through the State Historic Preservation Division, to contract its review of proposed state projects, projects on privately owned historic property, and projects affecting historic properties to third-party consultants if the projects involve the development of affordable housing and the department will not be able to complete its review within sixty days.

Your Committee received testimony in support of this measure from Michaels Development. Your Committee received testimony in opposition to this measure from the State Procurement Office and Historic Hawaii Foundation. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there is a housing crisis in Hawaii that has been exacerbated by the coronavirus 2019 (COVID-19) pandemic. A recent study by the University of Hawaii found that more than eleven thousand Hawaii tenants have fallen behind on their rent and more than forty percent of rental tenants have lost their jobs. Hawaii needs more affordable housing but some affordable housing projects are facing delays waiting on approvals from the State Historic Preservation Division. Your Committee finds that this measure will expedite the construction of affordable housing by removing some of the bureaucratic delays in the approval process.

Your Committee has amended this measure by:

- (1) Removing the exemption from the Hawaii procurement code found in section 103D, Hawaii Revised Statutes, for the retention of a third-party consultant;
- (2) Requiring that any third party consultant retained by the department has the education, experience, and qualifications for preservation professionals as determined by state historic presentation division rules; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 869, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 214 Housing on S.B. No. 870

The purpose and intent of this measure is to require the utility companies to install infrastructure or equipment whenever an affordable housing development within a transit-oriented development area requires the infrastructure or equipment to be installed underground.

Your Committee received testimony in support of this measure from Hawaii Habitat for Humanity. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that the costs associated with utility infrastructure and equipment for affordable housing projects can render a development financially unfeasible. This is especially true when utility infrastructure and equipment are required to be placed underground where the costs are significantly higher. Because of the crisis that Hawaii is facing due to the lack of affordable housing, your Committee finds that the utility companies should bear responsibility for underground installation of infrastructure and equipment so that more affordable housing units can be constructed for Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 870 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 215 Housing on S.B. No. 867

The purpose and intent of this measure is to extend the low-income housing tax credit program until December 31, 2027.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hunt Companies, Inc.; Michaels Development; and NAIOP Hawaii. Your Committee received comments on this measure from the Department of Taxation and Sugar Creek Capital.

Your Committee finds that the State faces an unprecedented economic crisis due to the coronavirus disease 2019 (COVID-19) pandemic. Hawaii renters in particular have been dramatically affected by the current economic crisis with a recent study from the University of Hawaii showing that more than eleven thousand Hawaii renters have fallen behind on their rent and forty percent of rental tenants having lost their jobs. Your Committee agrees with the sentiment that doing nothing is not an option. Accordingly, this measure will extend the low-income housing tax credit to provide vital assistance to those who need it.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 216 Housing on S.B. No. 868

The purpose and intent of this measure is to amend the low-income tax credit for low-income household renters.

Specifically, this measure:

(1) Sets the tax credit amount based on adjusted gross income and filing status, phrasing out the credit as the taxpayer's income rises; and

(2) Establishes a maximum tax credit of \$150 per exemption.

Your Committee received testimony in support of this measure from IMUA Alliance and Hawaii Appleseed Center for Law & Economic Justice. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii

Your Committee finds that this measure provides a needed adjustment to the eligibility requirements for renters under the income tax credit for low-income household renters, as the cost of housing in the State has increased by three hundred ninety percent since the income eligibility threshold for this credit was last adjusted in 1989. Your Committee further finds that this adjustment to the tax credit will benefit qualified low-income renters in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 868, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 868, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 217 Housing on S.B. No. 659

The purpose and intent of this measure is to:

- (1) Allow state low-income housing tax credits to be allocated among the members or partners of a taxpaying entity in any manner that the parties see fit; and
- (2) Specify that certain provisions of the Internal Revenue Code related to at-risk rules, deductions, and passive activity losses do not apply with respect to claims for the state low-income housing tax credit.

Your Committee received testimony in support of this measure from Hunt Companies, Inc. and Sugar Creek Capital. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the partners or members of a taxpaying entity are in the best position to decide how to allocate any low-income housing tax credits that have been earned in a taxable year.

Your Committee further finds that because the low-income housing tax credit law incorporates the Internal Revenue Code provisions that relate to at-risk rules and passive activity loss rules, it attracts only a small pool of investors. By amending the law to specify that the tax credit shall not be subject to those Internal Revenue provisions, the universe of potential investors is expected to increase, thereby creating a positive cycle of reinvestment into the local economy.

Your Committee has amended this measure by:

- (1) Changing "depreciation basis of the qualified low-income business" to "deductions and expenses" and clarifying that deductions and expenses claimed on a state income tax return cannot exceed the deductions and expenses claimed on a federal return:
- Adding language that the relaxation of the installment method, at-risk, and passive activity loss rules shall not apply to any building that is no longer a qualified low-income building;
- (3) Replacing language to make it administratively easier for the Department of Taxation to apply the statutory changes on a taxable year basis;
- (4) Clarifying the language regarding the manner in which the parties may decide to allocate low-income housing tax credits within a taxpaying entity; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 659, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 659, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 218 (Joint/Majority) Housing and Water and Land on S.B. No. 7

The purpose and intent of this measure is to give the Hawaii Housing Finance and Development Corporation the right of first refusal on any transfer of a property interest on state lands within a one-half mile radius of a rail transit station, excluding any lands owned or controlled by the Hawaii Public Housing Authority or Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that Hawaii has a housing crisis and the development of affordable housing is of paramount importance. Providing the Hawaii Housing Finance and Development Corporation with the opportunity to obtain control and develop affordable housing on state lands within a one-half mile radius of a rail transit station will advance the efforts to end the housing crisis.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 7 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Rhoads).

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 219 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 510

The purpose and intent of this measure is to:

- (1) Allow the State Historic Preservation Division of the Department of Land and Natural Resources (Department), in consultation with the Office of Hawaiian Affairs, to delegate the responsibility for historic preservation project reviews to the impacted counties; and
- (2) Allow the Department to establish a program to certify third-party individuals and organizations to review documents for completeness and compliance prior to submission of those documents to the Department.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Maui Chamber of Commerce, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committees received comments on this measure from the Historic Hawai'i Foundation.

Your Committees find that the current demand for construction of housing and critical infrastructure has caused an unacceptably large backlog of projects waiting for State Historic Preservation Division review. According to testimony received by your Committees, Hawaii is unique in reserving the responsibility of historic preservation reviews to the State. In every other state, many of these reviews would be subject to scrutiny at the county or municipal level. Your Committees further find that the qualified third-party reviewers established by this measure will significantly reduce the submission of incomplete and noncompliant permit documentation, thereby decreasing the backlog and delays to permit reviews.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 510, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 510, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 220 (Majority) Water and Land on S.B. No. 567

The purpose and intent of this measure is to prohibit the counties from requiring, as part of a zoning ordinance or county rule, a developer with more than one residential unit to obtain the approval of any state agency unless that approval is expressly required by

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that it is in the public interest to address the economic downturn caused by the coronavirus disease 2019 pandemic. According to testimony received by your Committee, this measure will reduce the cost of housing and in turn accelerate the development of much needed housing in the State. Your Committee further finds that this measure will streamline the permitting and regulatory process between the counties and various state agencies and thereby provide additional economic and housing opportunities for the State's residents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 567, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 567, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Misalucha, Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 221 (Joint) Health and Human Services on S.B. No. 1036

The purpose and intent of this measure is to abolish the Community Council on Purchase of Health and Human Services (Community Council).

Your Committees received testimony in support of this measure from the Department of Health and State Procurement Office. Your Committees received testimony in opposition to this measure from Child and Family Service and Domestic Violence Action Center.

Your Committees find that the Community Council, established by section 103F-202, Hawaii Revised Statutes, has not met since 2010. Your Committees further find that the Community Council was valuable and necessary when it was established, but since that time, the focus of health and human services procurements has changed. Therefore, it is appropriate to now repeal the establishment of the Community Council.

Your Committees further finds that S.B. No. 1019, Regular Session of 2021, also relates to state procurement; however, the measure's title is defective, and it would be appropriate to include the contents of S.B. No. 1019 into this measure. Your Committees note the testimony of the State Procurement Office, which proposed multiple amendments to improve the State's procurement code. Your Committees also note the testimony of the Department of Health on S.B. No. 1019, which suggested amendments to improve that

Therefore, your Committees have amended this measure by:

- (1) Inserting the contents of S.B. No. 1019 into this measure;
- (2) Amending the contents of S.B. No. 1019 to clarify that the individual programs, and not the State Payor Committee, will evaluate, score, and make recommendations for the award of contracts for services;
- (3) Including the Director of the Department of Human Services as a member of the State Payor Committee;
- (4) Amending various provisions of the State's procurement code; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1036, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1036, S.D. 1, and be referred to your Committees on Judiciary and Ways and

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 222 Health on S.B. No. 628

The purpose and intent of this measure is to:

- (1) Commence the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health, beginning with the transfer of the Oahu Regional Health Care System's budget and position count into the Department of Health; and
- Enable the Oahu Regional Health Care System, Department of Health, Hawaii Health Systems Corporation, and other state agencies to manage and implement the processes required to effectuate the completion of the transition.

Your Committee received testimony in support of this measure from the Oahu Region Hawaii Health Systems Corporation, University of Hawai'i System, Department of Health, and The Queen's Health Systems. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Government Employees Association.

Your Committee finds that, unlike the Hawaii Health System Corporation's neighbor island facilities, which are generally the primary care providers for their respective communities, the Oahu Region's facilities almost exclusively provide safety-net, long-term care and adult-day health services to patients who are unable to find much-needed care in private facilities. The Oahu Region also provides care for incarcerated inmates released for compassionate care and psychiatric patients from the Hawaii State Hospital who have significant long-term care needs. Your Committee finds that the Oahu Region operates more as a necessary social service than a health care business.

Your Committee further finds that to ensure the continued availability of long-term care beds for Oahu's aging population and facilitate more efficient use of the Oahu Region's facilities to address the need for additional social services such as mental health and substance use treatment, it would be beneficial to transition the Oahu Region into the Department of Health. This measure commences that transfer and enables the Oahu Regional Health Care System, Department of Health, and other state agencies, to manage and implement the completion of the transition.

Your Committee recognizes the testimony of the Department of the Attorney General, which offered proposed amendments that clarify the intent of the measure. Your Committee also recognizes the testimony of the Department of Health, which offered proposed amendments that clarify that the Oahu Regional Health Care System's budget, but not position count, will be transferred into the Department of Health. Finally, your Committee recognizes the Department of Health's proposed additions to the measure, which provide certain protections and exemptions to the Oahu Regional Health Care System and Inpatient Services Division of the Department of Health during and after transition, and prohibits the substantial reduction or elimination of direct patient care at any Oahu Regional Health Care System facility unless certain conditions are met.

Accordingly, your Committee has amended this measure by:

- (1) Amending the measure to clarify that the Oahu Regional Health Care System's position count will not be transferred into the Department of Health;
- (2) Making amendments to clarify the measure's intent;
- (3) Inserting a new part to the measure:
 - (A) Providing certain protections and exemptions to the Oahu Regional Health Care System and Inpatient Services Division of the Department of Health during and after transition; and
 - (B) Prohibiting the substantial reduction or elimination of direct patient care at any Oahu Regional Health Care System facility unless certain conditions are met;

- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 628, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 628, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 223 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1109

The purpose and intent of this measure is to establish the framework of the Hawaii State Disaster Recovery Program as overseen by the State Disaster Recovery Coordinator.

Your Committee received testimony in support of this measure from the Office of Planning, Hawaii Emergency Management Agency, and Hawaii State Energy Office. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that disaster recovery is a complex and long-term process that involves a range of activities and many participants. Recovery operations begin shortly after a disaster occurs and can continue for many years. It involves short—term restoration of essential community functions as well as long-term recovery planning and coordination. State, public, and private organizations share in providing for the public's health and safety therefore, it is essential that the response, recovery, and mitigation activities of all parties be fully aligned. This measure will enhance the capacity of the government, relevant agencies, and the community to coordinate their efforts to efficiently recover from the impacts of disasters.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1109, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 224 Transportation on S.B. No. 1401

The purpose and intent of this measure is to:

- (1) Direct the Department of Transportation to fashion a complete streets policy; and
- (2) Require the Department of Transportation to submit an annual report to the Legislature detailing their compliance with the complete streets policy.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Climate Change Mitigation and Adaption Commission, Ewa Neighborhood Board #23, Blue Zones Project, Hawaii Youth Climate Coalition, Ulupono Initiative, Young Progressives Demanding Action, American Heart Association, AARP Hawaii, Hawaii Bicycling League, Hawaii'i Public Health Institute, and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that in 2009, the Legislature enacted a Complete Streets law that required the Department of Transportation and the county transportation departments to adopt policies that seek to reasonably accommodate convenient access and mobility to all users of the public highways, including pedestrians, bicyclists, transit users, motorists, and persons of all ages and abilities. Collectively, these policies are known as the Complete Streets Policy. Your Committee finds that this measure is necessary to clarify the Complete Streets Policy to assure its proper implementation and effectiveness.

Your Committee has amended this measure by:

- (1) Designating the amount of eligible federal funds required to be spent out of the state highway fund for the establishment of bikeways at five percent, rather than eight percent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1401, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1401, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 225 Transportation on S.B. No. 1402

The purpose and intent of this measure is to modernize Hawaii's ground transportation infrastructure by providing metrics, considerations, and assistance to the Department of Transportation in:

- (1) Creating motor vehicle, bicycle, and pedestrian facilities; and
- (2) Establishing a ground transportation modernization commission.

Your Committee received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission, Department of Transportation, Department of Health, Ewa Neighborhood Board #23, Hawaii Youth Climate Coalition, Ulupono Initiative, Hawaii Automobile Dealers' Association, Hawaii Bicycling League, Young Progressives Demanding Action, AARP Hawai', American Heart Association, Hawai'i Public Health Institute, and one individual. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that Hawaii's ground transportation system has historically been built as a car-centric system with little attention given to alternative forms of transportation. This has raised the cost of living, impacted quality of life, and resulted in some of the highest transportation-related fatality rates in the nation, especially in some of the poorer communities in the State. Simply adding lanes to reduce traffic does not address Hawaii's most pressing concerns regarding traffic, safety, and health. Accordingly, this measure will modernize Hawaii's ground transportation infrastructure by providing additional metrics, considerations, and assistance to the Department of Transportation in order to reduce transportation costs, minimize traffic injuries and fatalities, improve public health and quality of life, and address greenhouse gas emissions.

Your Committee has amended this measure by:

- (1) Deleting language that would have established a ground transportation modernization commission;
- (2) Requiring the Department of Transportation to report annually to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1402, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1402, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 226 Water and Land on S.B. No. 999

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the forest stewardship program of the Department of Land and Natural Resources to increase plant stocks, invest in public outreach, and renovate the equipment and facilities of the state tree nurseries.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i College of Tropical Agriculture and Human Resources, Environmental Caucus of the Democratic Party of Hawai'i, and Climate Protectors Coalition.

Your Committee finds that the strategic planting of trees in agricultural landscapes may increase crop yield, improve soil health, provide habitat for wildlife, and provide a variety of other benefits. According to testimony received by your Committee, general obligation bonds are not eligible to finance an increase in plant stocks that provide beneficial functions in agricultural production and soil health nor invest in public outreach and education regarding the benefits and appropriate uses of trees and plants in agricultural settings. Your Committee further finds that there is a need to repair, update, and expand the infrastructure of the State's tree nurseries so that the Division of Forestry and Wildlife of the Department of Land and Natural Resources can provide high quality native, endangered, and windbreak trees and plants for the public and its reforestation projects.

Accordingly, your Committee has amended this measure by:

- (1) Removing all references directing the use of general obligation bonds to expand planting stock and provide for public outreach and education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 999, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 999, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 227 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 1423

The purpose and intent of this measure is to provide the necessary powers, appropriations, and guidance to ensure optimal development of the Stadium Development District as intended by Act 268, Session Laws of Hawaii 2019 (Act 268), which established the Stadium Development District. Specifically, this measure:

- (1) Establishes the stadium development district special fund;
- (2) Revises the general development guidance policies for the Stadium Development District and clarifies the respective roles of the Stadium Authority and Hawaii Community Development Authority (HCDA) in the development of the Stadium Development District;
- (3) Broadens the powers and duties of the Stadium Authority, including authorizing the Stadium Authority to acquire and hold title to real property;
- (4) Exempts the lands to which the Stadium Authority holds title from the definition of "public lands";

- (5) Authorizes HCDA, with approval from the Governor, to delegate implementation of capital improvement projects to other state agencies, under certain conditions;
- (6) Broadens the representation of the Stadium Authority by adding two members to its membership; and
- (7) Makes the financial disclosures of members of the Stadium Authority public records pursuant to section 84-17(d), Hawaii Revised Statutes

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Aloha Stadium Authority, University of Hawai'i System, American Council of Engineering Companies of Hawaii, Hawai'i Lodging & Tourism Association, Building Industry Association of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Community Development Authority, and League of Women Voters of Hawaii.

Your Committees find that the intent of Act 268 is to ensure the optimal development of the Stadium Development District for the enjoyment of Hawaii's residents and visitors. According to testimony received by your Committees, the establishment of the Stadium Development District special fund is a critical first step in the process to develop the area, make maximum use of the land, and accrue a plethora of benefits for the community. Your Committees further find that this measure will provide flexibility to the Stadium Authority to enable it to undertake redevelopment of the stadium area more efficiently.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1423, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1423, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 228 (Majority) Hawaiian Affairs on S.B. No. 85

The purpose and intent of this measure is to amend the law relating to Hawaiian affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that authorizes the Department of Hawaiian Home Lands to engage in lottery or bingo enterprises pursuant to applicable state law.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 85, as amended herein, and recommends that it be recommitted to your Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 85, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.

SCRep. 229 (Majority) Hawaiian Affairs on S.B. No. 86

The purpose and intent of this measure is to amend the law relating to Hawaiian affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to authorize the Department of Hawaiian Home Lands to engage in the operation of medical cannabis dispensaries.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, as amended herein, and recommends that it be recommitted to your Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 86, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.

SCRep. 230 (Majority) Agriculture and Environment on S.B. No. 180

The purpose and intent of this measure is to exempt a beverage dealer who is located in a high-density population area from operating a redemption center if the dealer is located within one mile, rather than two miles, of a certified redemption center operated independently of the State.

Your Committee received testimony in support of this measure from Reynolds Aluminum Recycling Company. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that under the deposit beverage container program, dealers are required to operate a redemption center unless the dealer is located in a high-density population and within two miles of a certified redemption center that is operated independently of a dealer. This has resulted in a significant number of dealers being exempt from operating redemption centers. This measure limits

the exemption to one mile, rather than two miles, of a certified redemption center that is operated independently of a dealer to require more dealers to operate redemption centers, thereby providing more recycling opportunities to Hawaii consumers.

Your Committee notes testifiers' concerns that when making changes to the handling fee, it is necessary to fix the existing issues with the HI-5 program, including findings that "the program paid out [\$28,000,000] more in handling fees than it collected in container fees." Further, there are concerns about the economic impacts of this measure on local retailers in urban areas who may have to accommodate the new distance requirements, especially when retailers do not have control over the space in which they operate their stores.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2024, to allow for the Department of Health to convene an advisory committee per section 342G-122, Hawaii Revised Statutes, to revise Hawaii Administrative Rules to update dealer exemptions to operate redemption centers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 180, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 231 Agriculture and Environment on S.B. No. 719

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture, in consultation with the Department of Health, to develop and implement a restricted use pesticide disposal collection program;
- (2) Convene a steering committee to guide and monitor the restricted use pesticide disposal collection program; and
- (3) Increase the monetary penalties for violating the Hawaii pesticides law.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Health; Imua Alliance; Hawai'i Alliance for Progressive Action; Larry Jefts Farms, LLC; Pesticide Action Network; Hawai'i SEED; Hawaii Crop Improvement Association; Hawai'i Farm Bureau; Down to Earth Organic & Natural, and twenty-three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Pest Control Association.

Your Committee finds that many residents of the State are very concerned about the long-term health effects and potential impacts of pesticide drift, especially as the number of large-scale, outdoor, commercial agricultural operations in the State continues to increase. A pesticide disposal program for household pesticide products exists in most counties, but those programs are limited to certain commercial and similar types of pesticide products. The disposal program proposed by this measure would benefit the health and well-being of residents and the environment by removing unused and unwanted pesticide products from the State. The introduction of this measure is timely, as legal disposal options for pesticides are limited in Hawaii.

Your Committee further finds that responsible environmental stewardship requires management and supervision of the safe collection and lawful disposal of banned, outdated, or unwanted pesticides. The existing Hawaii pesticides law prohibits the disposal of agricultural pesticides in sanitary landfills, but there are currently no options for the legal disposal of these substances within the State. Your Committee finds that there is great urgency to establish a pesticide disposal program to enable individuals and entities to legally dispose of banned, outdated, or unwanted pesticides.

Your Committee also finds that the maximum possible fines as currently set in statute have not deterred certain violators of pesticide use abuses and only apply to the business and individuals who repeatedly violate pesticide laws without any attempt to better their practices. Therefore, your Committee finds it appropriate to increase the schedule of fines to deter violations of the State's pesticide laws.

Your Committee has heard concerns about how location sites will be selected for collection and disposal. Historically, disposal sites have been placed near economically disadvantaged communities and native Hawaiian communities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 719, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 232 Agriculture and Environment on S.B. No. 855

The purpose and intent of this measure is to:

(1) Extend the Pesticide Subsidy Program to June 30, 2024;

- (2) Extend the Pesticide Subsidy Program Manager position and the position's civil service collective bargaining laws exemption to June 30, 2026; and
- (3) Provide that no single coffee grower shall receive more than \$6,000 for each pest per year in subsidies between June 30, 2021, and July 1, 2023.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System, College of Tropical Agriculture and Human Resources; Kona Perfect; Hawaii Coffee Association; Maui Coffee Association; Synergistic Hawaii Agriculture Council; Kona Coffee Farmers Association; Rancho Aloha; Konaloha Farms; Intelinair; Halai Hill Coffee and Cacao; Rusty's Hawaiian; Kehau's Coffee Farm; United Ka'u Farmers Cooperative; Ka'u Ocean Vista Coffee Estate LLC; and six individuals.

Your Committee finds that coffee is a high value agricultural crop to local economy. A recent economic analysis by the College of Tropical Agriculture and Human Resources estimated that the coffee berry borer caused \$7,680,000 in crop losses and \$571,000 in lost state tax revenues in the 2013 fiscal year. The economic losses from coffee leaf rust and the coffee berry borer would have an outsized impact in rural areas that serve historically underserved populations.

Your Committee finds that Act 105, Session Laws of Hawaii 2014, established a temporary Pesticide Subsidy Program in the Department of Agriculture to assist coffee growers with offsetting the costs of purchasing pesticides containing *Beauveria bassiana* as an active ingredient to combat the coffee berry borer, a highly destructive pest that has infested coffee crops on Hawaii and has recently been detected on Oahu, Maui, and Kauai. Additionally, Act 152, Session Laws of Hawaii 2015, established a full-time temporary manager position for the Pesticide Subsidy Program, exempt from chapters 76 and 89, Hawaii Revised Statutes. Your Committee also finds that the current pesticide subsidy program manager position is a full-time, temporary position that is exempt from civil service and collective bargaining laws.

Your Committee further finds that the pesticide subsidy program took longer than anticipated to implement, thus the program sunset date was also extended from June 30, 2019, to June 30, 2021. However, applications for a subsidy for pesticide purchases made in a fiscal year must be filed in the immediately following fiscal year. Therefore, for pesticide purchases made in the last fiscal year of the program (from July 1, 2020, to June 30, 2021), applications for subsidies must be filed in the immediately following fiscal year (anytime from July 1, 2021, to June 30, 2021). The pesticide subsidy program will be repealed on June 30, 2021, and the Program Manager position will be repealed on June 30, 2022. Your Committee finds that extending the Program to June 30, 2025, and the Program Manager position to June 30, 2026, should be viewed as a modest investment in one of the State's largest and most important agricultural industries in mitigating the damage it causes to coffee beans. The manager position is also needed to process these applications for subsidies for costs incurred in the final year of the program, thus, your Committee finds that the civil service exemption and the subsidy program should be extended by three more years.

Your Committee considered concerns about whether landowners of coffee fields are able to provide input or consent in whether or not their property will be sprayed with fungicides like Priaxor, which is currently not approved for use on coffee by the United States Environmental Protection Agency, especially those landowners who live on their property and seek to protect themselves from exposure. Additionally, systemic fungicides have been posed as a short-term solution, but questions remain as to whether the quality of Kona coffee would become compromised. Evidence of adverse effects to bees has been linked to the use of systemic pesticides, and further research is needed in understanding Priaxor's impact on bees. Your Committee also considered whether organic certifications will likely be in jeopardy if there are no subsidies for organic controls, which provide a non-toxic alternative to watersheds and aquatic life. Equal subsidies for local, organic alternatives promotes the circular economy by creating local jobs, promoting environmental sustainability, and keeping monies in State.

Therefore, your Committee finds that continuing efforts to combat the coffee berry borer and coffee leaf rust subsidies under a single program is necessary to control against these invasive species.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 233 Agriculture and Environment on S.B. No. 1054

The purpose and intent of this measure is to enable funds from the brownfields cleanup revolving loan fund to be used for subgrants to eligible entities for brownfields site assessments, cleanup, and monitoring activities.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Office of Planning; and City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that the Hawaii brownfields cleanup revolving loan fund was capitalized with funds from a United States Environmental Protection Agency brownfields revolving loan fund grant. In 2012, the grant was closed when all grant funds had been expended for cleanup loans, and a closeout agreement was executed between the United States Environmental Protection Agency and the Department of Business, Economic Development, and Tourism. Under the closeout agreement, revolving loan funds may be used for loans and sub-grants to eligible entities for brownfields site assessment activities, sampling, and related activities in addition to cleanup activities.

Your Committee further finds that the statutory authority for the existing loan fund strictly limits use of revolving loan funds to loans and cleanup activities. Expansion of the loan fund authority to enable sub-grants for cleanups, environmental site assessments, and related activities, in conformance with the closeout agreement, will allow for greater use of the grant funds for eligible brownfields projects and facilitate redevelopment of lands that are underutilized due to perceived or real contamination. Accordingly, this measure expands activities for which sub-grants may be awarded to eligible entities for brownfields site assessments, cleanup, and monitoring

activities. This measure makes more productive use of the revolving loan funds to advance eligible public and non-profit projects of community benefit, such as accommodations for park and open space and affordable housing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1054, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 234 Agriculture and Environment on S.B. No. 1250

The purpose and intent of this measure is to establish the Hawaii emergency food assistance program and special fund to be administered by the Department of Agriculture.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association, Hawaii Food Industry Association, Hawaii Community Foundation, Hawaii Appleseed Center for Law and Economic Justice, AlohaCare, Ulupono Initiative LLC, Hawai'i Food+ Policy Internship 2021, Hawai'i Farm Bureau, Hawaii Food Bank, and five individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that during times of economic crisis or other emergencies, like the economic and health crises arising from the coronavirus disease 2019 (COVID-19) pandemic and subsequent government mandated shutdowns, the number of Hawaii residents who experience food in security increase dramatically. Local charitable food organizations are critical parts of the food safety net during times of crises and the fallout from natural disasters and similar crisis place insurmountable pressure on these organizations, who must respond to increased demands on limited budgets. Charitable food operations not only ensure that families in need have access to enough food to sustain their households, but also operate as an economic stimulus by purchasing food directly from local Hawaii food businesses. Thus, your Committee finds that there is a need to connect community feeding and local food production to emergency funding solutions.

Your Committee has amended this measure by:

- (1) Deleting the reference to county mayors from the preamble, since a state agency cannot be activated for emergency response until a state of emergency is declared by the Governor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1250, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 235 Agriculture and Environment on S.B. No. 1235

The purpose and intent of this measure is to establish two new positions on the Board of Agriculture, specifying that one of the positions shall be reserved for a resident of the island of Molokai and one of the positions shall be reserved for a resident of the island of Lanai.

Your Committee received testimony in support of this measure from two members of the County Council of Maui; Hawai'i SEED; Hawai'i Farm Bureau, Molokai Chapter; and three individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that there is often unequitable representation of neighbor island issues through boards and commissions. Access to many government services and functions are difficult for Molokai and Lanai residence because most government operations are based on Maui and Oahu. Molokai's agricultural environment, needs, and realities are different than the other islands that currently hold designated seats on the Board of Agriculture. Molokai's reliance on its subsistence economy and lifestyle, agricultural infrastructure, resources, economies of scale, challenges to imports and exports, access to supplies and inputs, opportunities for growth, and delivery pipelines to markets are complex agricultural issues unique to the island and are currently not represented on the Board of Agriculture.

Your Committee also finds that Lanai faces unique agricultural issues. Fifty percent of the island's lands are designated as agricultural land by the Land Use Commission. While Lanai's food resources once supported at least six thousand people, the closure of the pineapple plantation has led to a large reliance on imported foods due to the lack of limited water resources, declining forest ecosystems, and limited economic diversity. Lanai continues to rely on subsistence hunting and is seeking to promote the identification of untapped agricultural niche markets and value-added products to support the growth of small-scale agriculture.

Your Committee has noted the concerns of the Department of Agriculture that keeping the four at-large positions on the Board of Agriculture provides the most diverse representation of agricultural knowledge and experience. Historically, the Board member representing Maui County has represented the interests of the entire county, including Molokai and Lanai. Additionally, there is an exclusive opportunity for residents of Molokai to have a decision-making vote as a member for the Molokai Irrigation System Water Users Advisory Board for the Molokai irrigation system water service. Additionally, there have been challenges for the Department of Agriculture to fill vacant advisory board positions with Molokai residents.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1235, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 236 (Joint) Agriculture and Environment and Transportation on S.B. No. 32

The purpose and intent of this measure is to require public water or sewer utilities regulated by the Public Utilities Commission to consider the disruption to transportation as a criterion in planning future maintenance.

Your Committees received comments on this measure from Department of Commerce and Consumer Affairs' Division of Consumer Advocacy, Public Utilities Commission, and Honolulu Board of Water Supply.

Your Committees find that it is important to prioritize the maintenance of utility infrastructure, but such maintenance can cause significant traffic congestion. The Public Utilities Commission oversees approximately thirty-nine small private and wastewater utilities, but does not have statutory oversight over municipal utilities. Traffic disruption is a criterion of consequence of pipeline failure in addition to the likelihood of failure based on historical main breaks and pipeline condition assessments.

Your Committees have heard the concerns of the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy that installation, maintenance, and retirement of underground infrastructure, whether regulated by the Public Utilities Commission or a municipal entity, expands beyond public water and sewer utilities and that before conducting any roadwork, utilities must make appropriate arrangements with the relevant county or state agencies that oversee the affected roads. Thus, the Division suggests that rather than limiting the bill to only water and sewer utilities regulated under the Public Utilities Commission, the bill should target agencies that have roadwork permit oversight to improve coordination and minimize disruptions in traffic and transportation. Your Committees recommend that this testimony be considered by the Committee on Commerce and Consumer Protection as this measure moves forward.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 32 and recommend that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Inouye).

SCRep. 237 (Joint/Majority) Agriculture and Environment and Transportation on S.B. No. 1055

The purpose and intent of this measure is to exempt development projects involving discretionary approvals from the need to prepare an environmental assessment or an environmental impact statement if the only trigger is a relatively minor infrastructure improvement, such as a water line or sewer line connection or driveway improvements to a highway or public right-of-way.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Office of Planning; City and County of Honolulu Department of Planning and Permitting; and one individual. Your Committees received testimony in opposition to this measure from Life of the Land, Makahanaloa Fishing Association, Wailoa River and Reeds Bay Boating and Users Association, Earthjustice Mid-Pacific Office, and seventeen individuals. Your Committees received comments on this measure from the Office of Environmental Quality.

Your Committees find that this measure seeks to streamline the environmental review process by deleting the reference to discretionary consents and allowing for infrastructure exemptions for all development projects. Additionally, your Committees find that discretionary permits are already required to undergo public hearings, so this measure will save the time and costs associated with preparation of an environmental assessment or environmental impact statement. Thus, the streamlined process would reduce the time to process applications major projects.

However, your Committees have heard testifiers' concerns that this measure would also terminate a longstanding and accepted practice of comprehensively analyzing major development projects in their entirety when the triggering component of the project are uses of an adjoining public right-of-way, such as necessary improvements to an intersection at a public highway or modification of sewage or drainage infrastructure. Additionally, this measure may improperly segment actions when there is a "primary action" component on private lands that triggers the use of chapter 343, Hawaii Revised Statutes, along with a "secondary action" component involving infrastructure in a public right-of-way that triggers review, but would be exempt from chapter 343, Hawaii Revised Statutes. Judicial and administrative rules that govern the environmental review process currently prohibit the segmenting of projects into multiple components that are not considered comprehensively.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1055, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1055, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, 2 (Acasio, Fevella). Excused, none.

Transportation: Ayes, 2. Noes, 1 (Fevella). Excused, 2 (English, Inouye).

SCRep. 238 (Joint) Human Services and Health on S.B. No. 820

The purpose and intent of this measure is to preserve access to health care for Medicaid recipients by extending the Nursing Facility Sustainability Program.

Your Committees received testimony in support of this measure from the Department of Human Services, Ohana Pacific Health, Hawai'i Primary Care Association, Healthcare Association of Hawaii, and The Queen's Health Systems.

Your Committees find that the Nursing Hospital Sustainability Program and the Nursing Facility Sustainability Program Special Fund receive moneys from the nursing facility sustainability fee, which is used to draw down federal Medicaid matching funds. Your Committees further find that these moneys are used to increase reimbursements to the nursing facilities through capitation payments with a greater benefit to those providing proportionately more services to Medicaid recipients. The Nursing Facility Sustainability Program has successfully supported providers and seniors for nearly ten years, and it is important to note that this program is different and separate from other proposals that would levy a fee on insurance providers. Finally, your Committees find that no state general funds are used for this program, which is an important consideration given our current economic downturn.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 820 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 239 (Joint) Human Services and Health on S.B. No. 819

The purpose and intent of this measure is to improve health care in the State by preserving access to health care for Medicaid recipients, which will be accomplished by extending the Hospital Sustainability Program.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Primary Care Association, Healthcare Association of Hawaii, Hawai'i Pacific Health, The Queen's Health Systems, and Kaiser Permanente Hawai'i.

Your Committees find that the hospital sustainability program is key in protecting hospital access for Medicaid beneficiaries, which is especially important as the State continues to work its way out of the coronavirus disease 2019 (COVID-19) pandemic and the attendant recession. Your Committees further find that the program functions by levying a fee on participating providers. The funds generated through that fee are used to draw down additional matching federal dollars, which are then distributed back to the providers to help them cover the gap between the amounts Medicaid reimburses and the amounts Medicare reimburses for medical services. Your Committees also find that these funds will increase the sustainability of hospitals to continue as a critical part of the safety net and help address budget constraints in the Medicaid program. Most importantly, the program as designed would provide critical additional State funds that will help cover the program's budget shortfall without using any general fund revenues.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 819, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 819, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 240 (Joint) Transportation and Agriculture and Environment on S.B. No. 304

The purpose and intent of this measure is to establish a voluntary program that allows air travelers going to or from Hawaii to purchase carbon offset credits.

Your Committees received testimony in support of this measure from Blue Planet Foundation. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that climate change is one of the most pressing issues of our time. And while there are many contributors to greenhouse gas emissions, air transportation remains one of the largest offenders. Since air travel is essential to tourism, offsetting the carbon emissions associated therewith will be a key element to achieving the zero emissions clean economy target set by the Legislature.

Your Committees note their desire to work with the Department of Land and Natural Resources to determine what is the verified CO2 offset of air travel emissions and how to maximize public outreach to best implement this measure in a meaningful way.

Your Committees have amended this measure by:

- (1) Removing the requirement that the Department of Transportation maintain and staff kiosks at airports for the purpose of assisting travelers with purchasing carbon offset credits;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 304, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Inouye).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 241 (Joint) Transportation and Agriculture and Environment on S.B. No. 1309

The purpose and intent of this measure is to:

- Establish an electric vehicle incentive program by imposing a one-time tax on the purchase of vehicles that are not zero
 emission vehicles; and
- (2) Make an appropriation for the administrative costs of the electric vehicle charging system rebate program.

Your Committees received testimony in support of this measure from the Hawaiian Electric Company, Tesla, and Blue Planet Foundation. Your Committees received testimony in opposition to this measure from the JN Group and Alliance for Automotive Innovation. Your Committees received comments on this measure from the Department of Transportation, Hawaii State Energy Office, Public Utilities Commission, Tax Foundation of Hawaii, and Hawaii Energy.

Your Committees find that the automotive industry is rapidly moving towards an all-electric vehicle future. And while this shift from combustion-engines to clean electric vehicles will benefit the environment and help Hawaii achieve its energy goals, the State's infrastructure is woefully unprepared to accommodate an all-electric future. This measure will provide additional funding to assist the State in developing its electric vehicle charging infrastructure.

Your Committees note that the State will need to upgrade its electric vehicle charging infrastructure and the clock is ticking to accomplish that task. With General Motors recently announcing that it will produce electric vehicles exclusively by 2035 and other major automakers poised to achieve that goal sooner, the State only has fourteen years to be ready for this transition.

Your Committees have amended this measure by:

- (1) Deleting language that would have established the electric vehicle infrastructure incentive program, which would have levied a tax of ten percent of the gross proceeds of new non-electric vehicle sales within the State over \$60,000;
- (2) Inserting language to require for non-electric vehicles with an initial MSRP exceeding \$60,000 registered in the State after December 31, 2021, an annual luxury pollution registration fee of an unspecified percent of the MSRP greater than \$60,000;
- (3) Requiring twenty-five percent of proceeds from the luxury pollution vehicle registration fee to be deposited into the state highway fund and seventy-five percent to be deposited into the energy security special fund for the electric vehicle charging system rebate program;
- (4) Expanding the electric vehicle charging system rebate program by authorizing the Public Utilities Commission to provide a rebate for new electric vehicles or installation or upgrade of an electric vehicle charging system to low-income applicants who are residents of the State;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1309, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1309, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Inouye).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Nishihara). Noes, none. Excused, none.

SCRep. 242 Ways and Means on S.B. No. 336

The purpose and intent of this measure is to increase, from \$25,000 to \$50,000, the maximum amount of each agricultural and aquacultural loan that the Chairperson of the Board of Agriculture may be authorized to unilaterally approve.

Your Committee received written comments in support of this measure from the Department of Agriculture, Ulupono Initiative, and Hawaii Farm Bureau.

Your Committee finds that increasing the maximum amount of state funds that the Chairperson of the Board of Agriculture is authorized to unilaterally approve for each agricultural and aquacultural loan will help reduce approval times for micro-loans and ensure that loan applicants receive needed financial assistance in a timely manner.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 336, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 336, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 243 Ways and Means on S.B. No. 144

The purpose and intent of this measure is to facilitate the purchase of school supplies for low-income families.

Specifically, the measure:

- (1) Requires the Department of Education to establish and implement a one-year school supply subsidy pilot program at Naalehu Elementary School; and
- (2) Appropriates funds for the program.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that implementing a one-year school supply subsidy pilot program at Naalehu Elementary School, where many students are children from low-income families, would help to identify methods for relieving the financial burden of education on these families and contribute to the creation of a successful learning environment.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 144, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 244 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 664

The purpose and intent of this measure is to require the Department of Public Safety to develop the new Oahu Community Correctional Center.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and Department of Public Safety. Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, and three individuals. Your Committee received comments on this measure from the Office of the Public Defender and one individual.

Your Committee finds that a new facility for the Oahu Community Correctional Center is critical to the Department of Public Safety in fulfilling their responsibility to provide safe and secure services to certain members of our community. Parts of the current facility are over one hundred years old, and is neither adequate nor appropriate to meet today's correctional needs. Escalating maintenance costs, the lack of a safe and efficient work environment for corrections staff, and the inability to address detainees with special needs or mental health issues underscore the importance of this project. Your Committee further finds that a new facility will allow the State to provide inmates with healing, and subsequently, transformational programs and services that aim at a successful integration back into their home communities. This measure will allow the new facility to be developed, which will provide inmates and corrections personnel with a healthier and safer environment.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 245 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 744

The purpose and intent of this measure is to:

- (1) Repeal the authorization for the Governor to negotiate with any person for the development or expansion of private correctional facilities; and
- (2) Prohibit the establishment of private correctional facilities in the State.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Office of the Prosecuting Attorney, County of Kaua'i; Imua Alliance; Community Alliance on Prisons; ACLU Hawai'i; and two individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that private correctional facilities are for-profit entities that lack transparency and accountability for incarcerated individuals. Public correctional facilities ensure that consistent policies, protocols, and standards are maintained for incarcerated individuals; employees are properly trained; and medical programs and treatment are readily available. The privatization of correctional facilities perpetuates the cycle of crime by providing a financial motivation for the criminalization of nonviolent

offenses and the imposition of longer sentences. Your Committee further finds that private correctional facilities are not subject to the same requirements of a public correctional facility, such as Hawaii's Uniform Information Practices Act. This can make prison events and conditions impossible to evaluate, potentially leaving the State powerless to hold a private correctional facility accountable. This measure will ensure that Hawaii's correctional facilities can be held accountable by prohibiting any private correctional facility in the State

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 246 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1194

The purpose and intent of this measure is to provide emergency appropriations to the Department of Public Safety to continue funding for various coronavirus disease 2019 (COVID-19) pandemic response related programs and activities.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the impact of the SARS-CoV-2 virus and resulting COVID-19 pandemic has been devastating to global, national, and state economies. The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted on March 27, 2020, to address the extensive health and economic fallout of the COVID-19 pandemic and provided federal funds to support the State's COVID-19 relief efforts. With the expiration of federal CARES Act funds, your Committee finds that additional funds are needed to continue critical COVID-19 response programs and activities within the Department of Public Safety for the remainder of fiscal year 2020-2021. This measure will appropriate funds for the purpose of COVID-19 response activities and provide transparency and accountability for the use of those funds by the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 247 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1112

The purpose and intent of this measure is to require that the minimum appointment eligibility for the Adjutant General be an officer that holds or has held a commission of the rank of Colonel in the military grade of O6 or above in the Army or Air National Guard, state defense force, or the Army or Air Force active component of the United States or a reserve component thereof and has no administrative actions that would prevent promotion to the rank of a general officer in the military grade of O7 or O8.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Defense.

Your Committee finds that Hawaii does not have substantive qualifying criteria for the Governor to use in the selection of the Adjutant General. Your Committee further finds that the key role the Adjutant General plays in the safety and security of the people of Hawaii warrants this individual to have certain experience. This measure provides qualifying criteria to assist with the selection of the Adjutant General.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1112, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 248 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1187

The purpose and intent of this measure is to make an emergency appropriation to provide funds for the Department of Public Safety to cover the shortfall of funding for the costs of personnel services at all correctional institutions statewide.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has placed unprecedented pressures on the economy of the State of Hawaii, forcing state government to severely restrict its operating budget. Act 5, Session Laws of Hawaii 2019, as amended by Act 7, Session Laws of Hawaii 2020, as amended by Act 9, Session Laws of Hawaii 2020, deleted the base salary of approximately two hundred ninety-eight positions of the Department of Public Safety, including positions for the health care division which is at the forefront of the Department of Public Safety's response to the COVID-19 pandemic. This measure will ensure that critical personnel in the Department of Public Safety are compensated for their services and that necessary positions are reinstated.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$502,476 in general funds for fiscal year 2021-2022, for the funding of intake service center positions;
- (2) Inserting an effective date of July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1187, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 249 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1243

The purpose and intent of this measure is to:

- (1) Require the State to phase out the use of private correctional facilities for incarceration of Hawaii inmates; and
- (2) Prohibit the construction of new correctional facilities or the expansion of existing correctional facilities without the approval of the Hawaii Correctional System Oversight Commission.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Office of the Prosecuting Attorney of the County of Kaua'i; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Imua Alliance, Community Alliance on Prisons, League of Women Voters, and three individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that the State has relied on contracted private, for-profit prisons to house a significant portion of the State's prison population for more than two decades. Private correctional facilities' goal of generating the greatest possible profit is in direct conflict with providing safe and humane conditions. Your Committee further finds that the inmates who serve their sentences in these out-of-state facilities are effectively exiled thousands of miles away from their families, friends, and crucial support networks. The impacts of this isolation are felt disproportionately by the native Hawaiian inmates, who are significantly more likely to be transferred to out-of-state prisons than inmates of other ethnicities. This measure will phase out the use of private prisons, which will bring out-of-state inmates back to Hawaii and closer to their families, support systems, and local communities.

Your Committee has amended this measure by specifying that beginning July 1, 2022, rather than July 1, 2021, the Director of Public Safety shall commence reducing the number of committed felons incarcerated in private correctional institutions.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1243, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 250 Energy, Economic Development, and Tourism on S.B. No. 850

The purpose and intent of this measure is to establish a Broadband Equity Task Force to expand digital inclusion and adoption to achieve digital equity to ensure that all individuals and communities, especially the most disadvantaged and geographically isolated, have access to information and modern communication technologies.

Your Committee received testimony in support of this measure from the Department of Education, Department of Transportation, Office of the Mayor of the City and County of Honolulu, Office of the Mayor of Maui County, Office of the Mayor of Hawaii County, Office of the Mayor of Kauai County, Hawaii Primary Care Association, Ka'u Rural Health Community Association, AARP Hawai'i, and three individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Office of Community Services; Department of Commerce and Consumer Affairs; and Office of Information Practices.

Your Committee finds that the global pandemic, triggering stay-at-home and social distancing orders, has underscored the critical need for universal broadband access for distance learning, telework and job training, telehealth and social services, and social and civic engagement.

Your Committee heard the testimony from the Department of Commerce and Consumer Affairs recognizing the value of seeking input from and coordinating among the various broadband stakeholders comprising the Broadband Access Equity Task Force, and this measure provides the Department of Commerce and Consumer Affairs with needed flexibility to help carry out the functions of the task force. Your Committee also finds that the Broadband Access Equity Task Force will consider issues that are of great interest to the public. Accordingly, your Committee believes that the public should have access to the task force's policy discussions and decision-making.

Your Committee has amended this measure by:

- (1) Replacing the Administrator of the Cable Television Division with the Director of the Department of Commerce and Consumer Affairs;
- (2) Removing the Broadband Access Equity Task Force from the Sunshine Law exemption under chapter 92 of the Hawaii Revised Statutes; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 850, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 251 Energy, Economic Development, and Tourism on S.B. No. 932

The purpose and intent of this measure is to:

- (1) Establish the clean energy and energy efficiency revolving loan fund;
- (2) Repeal the building energy efficiency revolving loan fund;
- (3) Authorize monies in the green infrastructure special fund to be used to finance the option to purchase solar systems and other clean energy equipment, including the purchase or lease of electric vehicles;
- (4) Appropriate funds out of the clean energy and energy efficiency revolving loan fund; and
- (5) Replace the Department of Business, Economic Development, and Tourism with the Hawaii Green Infrastructure Authority as the administering agency for the motion picture, digital media, and film production income tax credit (motion picture income tax credit).

Your Committee received testimony in support of this measure from Hawaii State Energy Office, Hawaii Green Infrastructure Authority, and Climate Protectors Coalition. Your Committee received comments on this measure from the Department of Energy, Economic Development, and Tourism; Department of Budget and Finance; Department of Commerce and Consumer Affairs; Public Utilities Commission; and Tax Foundation of Hawaii.

Your Committee finds that it is important to strengthen the Hawaii green infrastructure authority's ability to support investment in clean energy technology, including electric vehicles and electric charging vehicle systems and infrastructure.

Your Committee also finds that while financial expertise is important in the administration of the motion picture income tax credit, sufficient industry experience is also necessary in order to pass on the reasonableness of production costs, to negotiate with industry members regarding qualified Hawaii promotions, efforts to hire local talent and crew, and competition from other jurisdictions seeking to land production work.

Your Committee heard the testimony from the Department of Business, Economic Development, and Tourism that it is currently taking steps to address both the financial expertise and industry knowledge in the administration of the tax credit. Therefore, your Committee believes it is unnecessary, at this time, to replace the Department of Business, Economic Development, and Tourism with the Hawaii Green Infrastructure Authority as the administering agency for the income tax credit.

Your Committee has amended this measure by:

- (1) Removing part II pertaining to the administration of the motion picture income tax credit; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 932, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 932, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 252 Human Services on S.B. No. 1132

The purpose and intent of this measure is to:

- (1) Ensure access to health care for Medicaid recipients by establishing a Medicaid sustainability fee assessed on health insurers;
- (2) Establish a limited-term Medicaid sustainability program special fund to receive money from the Medicaid sustainability fee and federal Medicaid matching funds; and
- (3) Provide for the use of the money in the Medicaid sustainability program special fund.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Primary Care Association, and Ohana Health Plan. Your Committee received comments on this measure from Hawaii Medical Services Association.

Your Committee finds that by collecting fees assessed on health insurers for a two-year period, with a limited purpose, the Medicaid Sustainability Program created by this measure will preserve access to much-needed critical healthcare services without compromising or reducing current provider rates, beneficiary eligibility, benefits, and choice of health plans. Further, your Committee finds that given the State's unprecedented budget shortfall, the program will allow the State to draw down increased federal Medicaid matching funds to help fill the revenue gaps and balance the State's budget, provided that the program does not negatively impact the financial well-being of health plans and permits the State to repeal the Medicaid sustainability fee when it is no longer needed.

Your Committee, accordingly, has amended this measure by:

- (1) Adding language to the definition of "health insurer" to exclude "not-for-profit" health plans;
- (2) Removing language from the definition of "member month";
- (3) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1132, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 253 Human Services on S.B. No. 391

The purpose and intent of this bill is to establish best practices to assist people with histories of homelessness and barriers to employment to enter or re-enter the work force or obtain housing by adopting a plan to expunge the records of a person for certain non-violent criminal offenses, if they are substantially related to the person's homeless status.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Office of the Public Defender, Office of Hawaiian Affairs, Office of the Prosecuting Attorney of the County of Kauai, Neighborhood Place of Puna, Hawaii Appleseed Center for Law & Economic Justice, Hawai'i Health and Harm Reduction Center, Hawai'i Friends of Justice and Civic Education, ACLU of Hawai'i, Association of Hawaiian Civic Clubs, and thirty-seven individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Retail Merchants of Hawaii, and one individual. Your Committee received comments on this measure from the Judiciary and Department of Public Safety.

Your Committee finds that this measure will fulfill a 2021 legislative priority by adopting a plan to expunge the records of a person for certain non-violent criminal offenses if they are substantially related to the person's homeless status. In many cases, an individual's criminal history includes multiple convictions for non-violent offenses, such as park closure, violation of sit-lie ordinances, or sidewalk obstruction. Your Committee also finds that a history of criminal convictions can be a barrier for homeless individuals seeking employment. To address this problem, your Committee finds that this measure establishes a clear process to address the expungement of these offenses for homeless individuals, when those offenses are substantially related to the person's homeless status. By doing so, this measure will remove a barrier for houseless individuals who are trying to enter the workforce or find suitable housing, as they try to regain their independent living status. Finally, your Committee finds that this measure will assist these individuals to lift themselves up and out of a legal quagmire that holds them back but provides no tangible benefit to the State.

Accordingly, to further clarify which offenses are included by this plan, your Committee has amended this measure by limiting expungement to misdemeanor offenses no higher than those described under sections 708-814.7 and 711-1105, Hawaii Revised Statutes, and any offense no higher than a misdemeanor not involving bodily harm or the threat of bodily harm, if the offense is substantially related to the person's homeless status.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 391, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 254 Water and Land on S.B. No. 255

The purpose and intent of this measure is to clarify Hawaii's commercial marine license laws by:

- (1) Specifying that a single valid commercial marine vessel license satisfies the licensure requirement for all persons aboard the licensed vessel; and
- (2) Requiring any person providing fishing charter services to obtain a commercial marine license.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Coral Fish Hawaii, Inc.; Hawaii Seafood Council; S. Tokunaga Store, Inc.; United Fishing Agency, Ltd.; POP Fishing & Marine; Vessel Management Associates, Inc.; Waialua Boat Club; Hawaii Longline Association; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; Ice Partners, LLC; Tropic Fish Hawaii, LLC; and sixteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Marlin Tournament Series.

Your Committee finds that the current commercial marine license laws are unduly burdensome on small scale, boat-based commercial fishers and those who provide vessel-based commercial fishing charter services. Your Committee further finds that the establishment of a new commercial marine vessel license category is more convenient and cost-effective for Hawaii's boat-based fishers. This measure allows for a single commercial marine vessel license to cover all individuals aboard a commercial marine vessel, eliminates the need for individual commercial marine licenses, and clarifies who is responsible for submitting catch reports for the vessel.

Your Committee has amended this measure by:

- (1) Authorizing the Department of Land and Natural Resources to adopt rules and fees for the issuance of a commercial marine vessel license:
- (2) Allowing marine charter fishing vessels to obtain commercial marine vessel licenses; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 255, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 255 Water and Land on S.B. No. 474

The purpose and intent of this measure is to ensure that buyers of coastal property understand the hazards and risks they are assuming in purchasing oceanfront property. Specifically, this measure requires that sellers of residential real property disclose whether a residential real property lies within a sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission or its successor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Climate Change Mitigation and Adaptation Commission, Hawai'i Reef Ocean Coalition, Hawai'i Association of REALTORS, Imua Alliance, Sierra Club of Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Surfrider Foundation, and eleven individuals.

Your Committee finds that the value of property lying within the boundaries of a sea level rise exposure area will likely be affected over time, and is therefore a material fact that should be disclosed by the seller in a real property transaction in accordance with chapter 508D, Hawaii Revised Statutes, relating to mandatory seller disclosures in real estate transactions. Your Committee further finds that the Hawai'i Association of REALTORS will need time to not only update the seller's real property disclosure statement and the oceanfront property addendum of their purchase contracts, but also to train their members to use the Hawaii sea level rise viewer, which is an interactive mapping tool that depicts projections for future hazard exposure and assesses economic and other vulnerabilities due to rising sea levels.

Accordingly, your Committee has amended this measure by inserting an effective date of May 1, 2022.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 474, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 256 Higher Education on S.B. No. 1219

The purpose and intent of this measure is to remove the sunset provision of Act 39, Session Laws of Hawaii 2017 (Act 39), thereby making the Innovation and Commercialization Initiative Program at the University of Hawaii permanent.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Hawaii Business Roundtable.

Your Committee finds that Act 39 provided the University of Hawaii with express statutory authority to enable and facilitate the deployment of university educational and instructional resources, university managerial and fiscal resources, and university personnel to promote the economic health and diversification of workforce opportunities in the State through the commercialization of inventions and discoveries generated by or at the University of Hawaii. With Act 39, the Innovation and Commercialization Initiative Program was established within the University of Hawaii under sections 304A-1951 through 1959, Hawaii Revised Statutes. Under Act 39, this authority is set to be repealed on June 30, 2021.

Your Committee finds that the University of Hawaii, as the only public system of higher education in the State, plays a critical role in diversifying Hawaii's economy by promoting research, discovery, and commercial innovation. For the University to remain competitive, it is imperative that it has a strong and comprehensive research program with the capacity to support commercial innovation. Your Committee believes that it is in the interest of the State to allow the efforts of the University's Innovation and Commercialization Initiative Program, which is still in its early stages, to continue to attain its goal of promoting the State's economic health and diversification of workforce opportunities.

Accordingly, your Committee has amended this measure by:

- (1) Extending the sunset date of Act 39 by three years, to June 30, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1219, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 257 (Majority) Higher Education on S.B. No. 1218

The purpose and intent of this measure is to remove the sunset provision in Act 38, Session Laws of Hawaii 2017 (Act 38), that exempts technology transfer activities sponsored by the University of Hawaii from certain sections of the State Ethics Code, for the purpose of allowing the University of Hawaii to continue its contribution to research commercialization and economic development.

Your Committee received testimony in support of this measure from the University of Hawai'i System and the Hawaii Business Roundtable. Your Committee received comments on this measure from the Hawai'i State Ethics Commission.

Your Committee finds that Act 38 was enacted to facilitate the University of Hawaii's contribution to research commercialization and economic development for the State by making certain sections of the State Ethics Code inapplicable to technology transfer activities sponsored by the University, provided that the activities comply with the regulatory framework and research compliance program approved by the Board of Regents. Under Act 38, this exemption is set to be repealed on June 30, 2022.

Your Committee finds that it is a matter of statewide concern to support the timely and efficient commercialization of intellectual property created by basic and applied research at the University of Hawaii, and that extending Act 38 will allow the University to continue its contribution to research commercialization and economic development. Your Committee also finds that since the enactment of Act 38, the University of Hawaii has consulted with various stakeholder groups in the University of Hawaii community, including its faculty, to develop the policies, internal guidance, forms, and procedural protocols to comply with the requirements under Act 38. Your Committee finds that the University of Hawaii has completed its issuance of a Regents Policy and Executive Policy, and is currently in the process of finalizing its administrative procedures, to ensure compliance with an Act 38 management plan that is designed to identify, address, and mitigate conflicts of interest that arise during technology transfer activities involving its faculty.

Your Committee believes that there is a need for stakeholders, such as the Legislature, University of Hawaii, Hawaii State Ethics Commission, and general public to have the opportunity to review the University of Hawaii's final compliance framework on technology transfer activities. Therefore, your Committee recommends a three-year extension of Act 38, rather than the removal of the sunset provision being requested.

Accordingly, your Committee has amended this measure by:

- (1) Extending the repeal date of Act 38 by three years, to June 30, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1218, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 258 Higher Education on S.B. No. 1222

The purpose and intent of this measure is to allow the Conference Center Revolving Fund (Revolving Fund) for the University of Hawaii at Hilo (UH-Hilo) to be expended by:

- Expanding the scope of use of the Revolving Fund from being limited to expenditures by the conference center program at the College of Continuing Education and Community Service to all conference center programs conducted by UH-Hilo;
- (2) Transferring the authority to expend monies from the Revolving Fund from the Dean of the College of Continuing Education and Community Service to the Chancellor of UH-Hilo or the Chancellor's designee;
- (3) Exempting the expenditure of monies from the Revolving Fund from the bidding requirements under the state procurement requirements; and
- (4) Requiring the Chancellor of UH-Hilo to submit annual reports to the Legislature providing an accounting for the Revolving Fund.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the Revolving Fund, which is specifically designated to be expended for the conference center program at the College of Continuing Education and Community Service at UH-Hilo, is no longer in use because the college no longer exists. Your Committee further finds that the State Auditor, in Auditor's Report No. 20-03, recommended that the Revolving Fund be repealed as it has been inactive and no longer serves the purpose for which it was created. This measure would allow the Revolving Fund to be restructured for the purpose of all conference center programs conducted by UH-Hilo. Furthermore, providing an exemption from the bidding requirements under the Hawaii Public Procurement Code would allow for more efficient use of expenditures out of the Revolving Fund.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1222, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 259 Human Services on S.B. No. 1137

The purpose and intent of this measure is to maintain funding for the Spouse and Child Abuse Special Fund, thereby securing a stable source of funding for neglect, prevention, intervention, and other services. by retaining all unencumbered and unexpended moneys, including Family First and title IV-E federal reimbursements received in the fiscal year following the year in which the funds were expended.

Your Committee received testimony in support of this measure from the Department of Human Services, Domestic Violence Action Center, and two individuals.

Your Committee finds that there is a need to secure funding for spouse and child abuse in Hawaii. The Family First Prevention Services Act of 2018, Public Law 115-123, adds a mechanism for states to claim reimbursement through Title IV-E of the Social Security Act for a percentage of state funds spent on certain child abuse and neglect prevention services. Your Committee further finds the Department of Human Services submitted its Family First Hawai'i Plan for federal review at the end of December 2020 and is awaiting its approval. Your Committee also finds that once the plan is approved and implemented, the Department of Human Services will be able to begin drawing down additional federal reimbursement funds for certain prevention services under the Family First Hawai'i program. Accordingly, your Committee finds that this measure will provide a means to retain necessary funding for the Spouse and Child Special Fund.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1137, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1137, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 260 Labor, Culture and the Arts on S.B. No. 676

The purpose and intent of this measure is to increase the minimum wage for certain employees from the current \$10.10 per hour to \$12.00 per hour beginning July 1, 2022.

Your Committee received testimony in support of this measure from one member of the County Council of the County of Maui; 'Ai Pohaku; Americans for Democratic Action; Common Cause Hawaii; Faith Action for Community Equity; Democratic Party of Hawai'i LGBT Caucus; Democratic Party of Hawai'i Women's Caucus; Earth Medicine Institute; Free Access Coalition; Hawai'i Appleseed Center for Law and Economic Justice; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; Hawaii'i Workers Center; International Longshore and Warehouse Union Local 142; Kauai Community Coalition; Kauai Organic Agroecological Systems; League of Women Voters of Hawaii; Our Revolution Hawaii; Pono Hawaii'i Initiative; Pono Praxis; Pride at Work – Hawaii'i, Sierra Club of Hawaii'i; Trilogy Excursions; Young Progressives Demanding Action; and one hundred sixty-three individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce of Hawaii; Diamond Bakery Co., Ltd.; Envisions Entertainment & Productions, Inc.; Gyotaku Japanese Restaurants; Hawaii Food Industry Association; Hawaii Restaurant Association; Hawaii Transportation Association; Highway Inn, Inc.; IL Gelato Hawaii; Island Plastic Bags, Inc.; Kona-Kohala Chamber of Commerce; Maui Chamber of Commerce; Molokai Chamber of Commerce; National Federation of Independent Business; Retail Merchants of Hawaii; Seven-Eleven Hawaii, Inc.; Warren W. Gibson III, LLC, dba Warren & Annabelle's; and three individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Community Alliance on Prisons, Democratic Party of Hawai'i Education Caucus, Imua Alliance, Living Wage Hawaii, and five individuals.

Your Committee finds that a vast majority of credible studies conclude that higher minimum wages appreciably boost workers' earnings with little or no effect on employment. A 2018 study by the U.S. Census Bureau found that raising the minimum wage benefits a large majority of low-income workers by putting them on the path to higher earnings in the long term and decreasing income inequality. Your Committee further finds that currently, there is a significant difference between the minimum wage and what is needed to afford basic needs in Hawaii. Indeed, Hawaii has the lowest average wage in the nation when adjusted for the cost of living. This measure will therefore increase the minimum wage which will raise the quality of life for Hawaii residents, reduce poverty, and increase economic activity.

Your Committee acknowledges the significant number of testimonies asking that this measure be amended to incrementally increase the minimum wage to \$17.00 per hour by 2026, based on reports issued by the Department of Business, Economic Development, and Tourism. On the other hand, your Committee cannot pretermit the effect such increase may have on small businesses in Hawaii that are barely surviving the unprecedented disruption caused by the coronavirus disease 2019 (COVID-19) pandemic.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 676, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 261 Ways and Means on S.B. No. 384

The purpose and intent of this measure is to clarify that filing fees for tax appeals are nonrefundable and that no deposits are required for tax appeals.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Act 152, Session Laws of Hawaii 1997, authorized the Hawaii Supreme Court to establish by rule a nonrefundable filing fee for tax appeal cases. Your Committee further finds that this is a housekeeping measure that amends sections 232-22 and 232-23, Hawaii Revised Statutes, which govern the costs associated with tax appeals, to align with the intent of Act 152.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 384 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 262 Ways and Means on S.B. No. 172

The purpose and intent of this measure is to extend eligibility for grants under Chapter 42F, Hawaii Revised Statutes, to organizations that spend at least ninety percent of their respective operating budgets in the State.

Your Committee received written comments in support of this measure from the Kauai County Council, Managing Director of the County of Kauai, Hui Makaaina o Makana, and National Tropical Botanical Garden.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Office of Community Services.

Your Committee finds that extending eligibility for grants under Chapter 42F, Hawaii Revised Statutes, will ultimately benefit the State. However, your Committee believes that the percentage of an organization's operating budget that is spent in the State may be an ineffective measure of qualification for these grants.

Your Committee has amended this measure by:

- (1) Replacing language allowing an organization to qualify for a grant under Chapter 42F, Hawaii Revised Statutes, if the organization spends at least ninety percent of its operating budget in the State with language allowing the organization to qualify if the organization is registered with the Department of Commerce and Consumer Affairs and in possession of a valid certificate of vendor compliance issued by the State; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 172, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 263 Ways and Means on S.B. No. 594

The purpose and intent of this measure is to amend the state general excise tax law.

More specifically, this measure authorizes the Director of Taxation to exempt from monthly, quarterly, or semiannual general excise tax filing requirements a taxpayer whose annual general excise tax liability does not exceed \$100; provided that the taxpayer files an annual return

Your Committee received testimony in support of this measure from an individual.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that, under current state law, periodic returns are required semiannually for taxpayers reporting less than \$2,000 in annual general excise tax liability; quarterly for taxpayers reporting more than \$2,000 and less than \$4,000; and monthly for taxpayers reporting more than \$4,000. Your Committee believes that this measure may ease the burden both for taxpayers who must file periodic returns, as well as the Department of Taxation, which must process the returns.

Your Committee has amended this measure by:

- (1) Changing the effective date to apply to taxable years beginning after December 31, 2021; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 594, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 264 Agriculture and Environment on S.B. No. 186

The purpose and intent of this measure is to prohibit the enforcement of a re-recorded homeowners' association restriction if the restriction prohibits bona fide agricultural uses and activities on agricultural land.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Planning, Hawai'i Farm Bureau, and one individual. Your Committee received testimony in opposition to this measure from the Community Associations Institute and one individual. Your Committee received comments on this measure from the Land Use Commission and Associa.

Your Committee finds that subdivision of agricultural lands has significantly increased over the past few decades, thereby leading homeowners' associations to impose restrictions that limit bona fide agricultural uses on agricultural lands. Currently, some homeowners' associations have been circumventing the law by renewing agricultural restrictions that existed prior to July 8, 2003, claiming that the renewed terms continue to be exempt from the law despite those agreements, by their own terms, expiring after 2003. Restrictive covenants that limit agricultural uses on agricultural lands undermine the State's interest in protecting and preserving agricultural resources and promoting self-sufficiency. Additionally, agricultural subdivisions promote conflict between "gentlemen estates", where little farming exists, and bona fide farmers in surrounding areas regarding dust, odors, smoke, and noise from farming operations. The existence of these gentlemen estates increases the cost of agricultural land, making it difficult for bona fide purchasers to purchase farm land. Thus, this measure is needed to prevent the restriction of agricultural uses and activities on lots within state agricultural districts. This measure also clarifies that renewed contracts restricting agricultural uses and activities within agricultural uses and activities on limited circumstances.

Your Committee notes testifiers' concerns that this measure as currently written is overly broad. Many agricultural condominiums have restrictions on the types of agriculture permitted as the project itself may have limitations, such as the availability of water, electricity, or the topography and should not be forced to anticipate the inception of the project.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 186 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 265 Agriculture and Environment on S.B. No. 495

The purpose and intent of this measure is to:

- Authorize agricultural cooperative associations and consumer cooperative associations to operate as agents to sell the products
 of their members and nonmember patrons on a nonprofit basis, under certain conditions;
- (2) Allow agricultural cooperative associations and consumer cooperative associations to convert to cooperative associations;
- (3) Authorize an agricultural cooperative association to be formed for purposes in connection with leasing land to its members;
- (4) Authorize the articles or bylaws of an agricultural cooperative association to provide for referendum upon the affirmative vote of two-thirds of its members voting at any meeting; and
- (5) Exempt membership stock or membership certificates issued by a cooperative and preferred stock, equity, or notes issued to members of a cooperative.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Earth Law Center; EcoTipping Points Project; Ulupono Initiative LLC; Land Use Research Foundation of Hawaii; The Kohala Center; GoFarm Hawai'i; Moloka'i Livestock Cooperativ; Hawai'i 'Ulu Cooperative; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and nine individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of Commerce and Consumer Affairs, Business Registration Division.

Your Committee finds that a cooperative is an autonomous association of persons united voluntarily to meet their common economic, social, and cultural needs and aspirations through a jointly owned and democratically controlled enterprise. Cooperatives are based on the values of self—help, self—responsibility, democracy, equality, equity, and solidarity.

Your Committee further finds that when an agricultural cooperative incorporates, the members choose between one of two cooperative statutes, one relating to agriculture cooperatives and the other relating to consumer cooperatives; however, these statutory options limit cooperatives that are pursuing multi—stakeholder and worker models. Currently, the statutes limit cooperative membership to specific members of farmers and consumers, which do not work for all cooperative structures. Additionally, updates to the current cooperative structure will allow for expanded lawful practices within cooperatives that provide additional benefit for cooperative member businesses, including the resale of member products on a non-profit basis and the acceptance of services and labor from volunteers. To provide cooperatives with greater flexibility in defining membership and organizational structure, many states offer a general cooperative statute. This measure adopts a general cooperative statute to encourage the use of the cooperative model by allowing many different types of business activities to form as cooperatives and diverse stakeholders to form a single cooperative. This measure allows for a broader membership base that would facilitate diverse member financing and lessen the fundraising challenges experienced by cooperatives that have difficulty acquiring finances from conventional lending institutions.

Your Committee also notes that this measure includes "sacred species and natural ecosystems" in the definition of "person." The expanded definition of "person" expresses a way in which cooperatives can give a voice to nature and is an important step toward placing Hawaii at the forefront of a global movement aligned with its cultural values.

Your Committee has amended this measure by:

- (1) Amending the title of chapter 421C-36, Hawaii Revised Statutes, to reflect it amended purpose; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 495, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 266 Agriculture and Environment on S.B. No. 964

The purpose and intent of this measure is to:

- (1) Establish a class of artisan-scale composting operations exempt from Department of Health regulations to divert organic materials from Hawaii's landfills;
- (2) Broaden the definition of food waste as used in integrated solid waste management; and
- (3) Exclude facilities designed primarily for composting organic material from the requirement that waste facilities shall not be constructed or modified without establishing a buffer zone.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council, Kūpuna for the Moʻopuna, Pele Lani Farm LLC, Environmental Caucus of the Democratic Party of Hawai'i, Kauai Climate Action Coalition, Kōkua Hawai'i Foundation, West Maui Green Cycle, Zero Waste Maui, and twelve individuals. Your Committee received comments on this measure from the Department of Health, County of Kaua'i Department of Public Works, and the Hawai'i Farm Bureau.

Your Committee finds that the use of composted organics with their vast stores of macro- and micro- nutrients greatly improves the health of all soils in ways that protect and enhance natural systems, while imported, petroleum-based, and energy-intensive fertilizers destabilize a healthy soil microbiome. This measure furthers the State's waste management goals and ensures progress toward managing the State's waste by addressing the urgent need to expand the State's capacity for capturing and processing the organic waste its residents and visitors generate.

Your Committee further finds that organics constitute the largest single component of Hawaii's waste stream and the diversion of waste organics into composting programs is the least costly and most direct method for the State to meet its solid waste reduction goals. This measure proposes to create a class of artisan-scale composting operations that are exempt from Department of Health regulations and easily established by farmers and others to divert organic materials from Hawaii's landfills and sequester atmospheric carbon.

Your Committee considered the concerns that composting at schools rarely occurs on land zoned agricultural or industrial lands because these facilities are often located on land zoned as mixed use or residential. Individuals who seek to stage zero waste events must obtain a permit for small scale activities that place an unreasonable burden on teachers, communities, and event organizers. Given these longstanding issues with the Department of Health and individuals who seek to compost, your Committee considered requesting evidence to show that composting for small scale activities poses a public health hazard. Your Committee also considered the need to expand artisan scale composting to lands zoned in commercial or residential lands.

Your Committee notes the concerns of the Department of Health that removing the Department's authority over permitting of federal municipal solid waste landfills places the State in noncompliance of 40 C.F.R. Part 239. The loss of a federal approved program will no longer afford other municipal solid waste landfills in the State, which are currently all owned by the counties, the ability to design, operate, monitor, and close their counties, the ability to design, operate, monitor, and close their landfill using alternative designs or methods to the federal standard that could be more suitable for local site conditions and more cost-effective.

The Department of Health also provided comments that it currently has a tiered solid waste permitting program for relatively small composting facilities. The Department voiced concerns that there are no proposed restrictions on the use and distribution for artisan scale facilities, which could lead to the Department's inability to be protective of human health and the environment through the release of waste that could be a source of pathogenic contamination. Additionally, exemption of state regulations regarding the National Pollutant Discharge Elimination System (NPDES) permit program will not absolve the composters' responsibility of complying with federal NPDES permitting requirements.

Your Committee has amended this measure by:

- Removing the extraneous wording "waste or" from the term "waste or disposal facility" in section 342H-52, Hawaii Revised Statutes;
- (2) Repealing the exclusion of individual, state certified, non-industrial redemption centers from the term "disposal facility", to indicate that composting facilities are already excluded from buffer zones;
- (3) Inserting language to restore the Department of Health's authority over federal facilities;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 964, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 964, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 267 Agriculture and Environment on S.B. No. 969

The purpose and intent of this measure is to prohibit the sale of certain animal fur products.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Humane Society Veterinary Medical Association, InStyle Magazine, Stella McCartney, Down to Earth Organic & Natural, Animal Rights Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from International Fur Federation, White Fox Fur & Feather Co., Wisconsin Trappers Association, Natural Fibers Alliance, and seventeen individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Association of Fish and Wildlife Agencies, and one individual

Your Committee finds that existing laws provide relatively little oversight of the fur farming and fur trade industries, leading to the compromised health, safety, and welfare of wild animals and animals living within fur farms. Additionally, the fur industry poses serious environmental threats; fur factory farm industrial waste and runoff from animal waste has been tied to polluted air, soil, and waterways. Consumers' concerns for animal cruelty and environmental threats have led to fashion trends moving away from using animal fur and investment in the production of faux fur alternatives that has significantly reduced environmental impacts. Your Committee finds that eliminating the manufacture and sale of fur products in Hawaii will foster a more humane environment.

Your Committee has heard the concerns of the Department of Commerce and Consumer Affairs that the regulation of animal fur products would require oversight by a department or an agency well-versed in matters involving fur farming, fur trade industries, and animal rights.

Your Committee also heard testifier concerns that this measure infringes on personal choice. Testifiers stated that trapping assists with the protection and monitoring of endangered species, reintroduction of species into their original habitats, public safety, prevention of property damage, protection of crops and livestock, protection of ecosystems and habitat, and disease management to protect animal and human health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 969, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 268 (Joint) Education and Higher Education on S.B. No. 245

The purpose and intent of this measure is to require the Department of Education's existing Free Application for Federal Student Aid (FAFSA) working group to create a state plan to make completion of the FAFSA, or an opt-out waiver, a statewide graduation requirement by the 2023-2024 school year and report to the 2022 Legislature and various public school leaders.

Your Committees received testimony in support of this measure from the Maui Chamber of Commerce. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from Department of Education and Office of Information Practices.

Your Committees find that Hawaii left \$10,000,000 in federal Pell Grants unclaimed in 2018, which is enough to send roughly twenty-five hundred students to a University of Hawaii community college tuition-free. Nationally, nearly \$2,600,000,000 in federal financial aid for higher education went unused by high school graduates from the class of 2018 who were eligible for a federal Pell Grant but did not complete the FAFSA application. When students do not apply for federal student aid, many students may revert to private student loans, which often have high interest rates and lack the consumer protections of federal student loans. This measure creating a working group to increase awareness about FAFSA will help students successfully obtain federal funds and get the financial aid that they need to pursue higher education.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 245 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 269 Education on S.B. No. 365

The purpose and intent of this measure is to:

(1) Allow public school students in grades kindergarten through 12 to decline participation in dissection, vivisection, and other procedures harmful to animals;

(2) Require schools to make alternative educational projects available, and the Board of Education to develop rules and give notice to all schools.

Your Committee received testimony in support of this measure from the Department of Education and one individual.

Your Committee finds that dissections and vivisections are a well-established part of many biology class curricula, but some students have ethical, moral, or religious objections to those practices. Advancements in computer software and other technologies have made it possible for schools to achieve the educational objectives met by dissections and vivisections while still respecting the positions and convictions of students regarding the humane treatment of animals.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 365 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 270 Education on S.B. No. 1004

The purpose and intent of this measure is to require the Department of Education to include the teaching of financial literacy in the personal transition plan requirement for each student beginning with the 2021-2022 school year.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that financial education is a lifelong learning process that empowers individuals to plan for their futures. In the past, the educational system has assumed that students will learn important financial skills from their families. However, not all students are being taught the financial skills they will need to be successful later in life.

Your Committee further finds that lack of financial literacy poses a significant barrier for individuals seeking to achieve financial prosperity and stability. Personal financial education is essential to ensure that the youth are prepared to manage money, credit, and debt and to become responsible workers, heads of households, investors, entrepreneurs, business leaders, and citizens. This measure will require that Hawaii's youth be educated in economic and financial matters to prepare them for financial independence and success.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1004 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 271 Education on S.B. No. 815

The purpose and intent of this measure is to:

- (1) Establish maintenance of effort provisions;
- (2) Establish a public education stabilization trust fund; and
- (3) Make appropriations.

Your Committee received testimony in support of this measure from the Department of Education, Board of Education, State Public Charter School Commission, Hawaii State Teachers Association, Kamehameha Schools, Democratic Party of Hawaiii Education Caucus, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Tax Foundation of Hawaii, and HE'E Hui for Excellence in Education.

Your Committee finds that the State faces a dire fiscal challenge with drastic cuts to the state budget and virtually every government service it provides, including education. The threat of decreased funding for K-12 public education reduces both access to learning and the preservation of critical safety nets for a significant number of students, particularly the Department of Education's most vulnerable learners and their families.

Your Committee further finds that it must build on the foundation established by the weighted student formula of ensuring equity in access to educational opportunities for all students. It is also incumbent to promote predictability and stability of K-12 education revenues by committing a base of annual funding in the face of changing circumstances to ensure the continuous and uninterrupted equitable distribution of educational resources for all public school students. This measure establishes maintenance of effort provisions to increase funding for public education.

Your Committee has amended this measure by:

- (1) Specifying that the difference in state appropriations between fiscal years that shall be deposited into the public education stabilization trust fund shall only occur in deficits and not surpluses;
- Specifying that the amount deposited into the public education stabilization trust fund shall only apply to reductions in general fund appropriations for direct school funding programs;
- (3) Specifying that the Department of Education shall make an appropriate allocation from the public education stabilization trust fund to ensure that any reductions in charter school programs are appropriately compensated in the same way as public school programs;

- (4) Requiring the Department of Budget and Finance to submit to the Legislature a report on general excise tax revenues diverted from the general fund to the public education stabilization trust fund and the impact that diversion had on other state departments and operations:
- (5) Specifying that the Department of Budget and Finance is to approve and the Department of Education is to prepare a report to be submitted to the Legislature on any money spent from the public education stabilization trust fund;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 815, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 272 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 489

The purpose and intent of this measure is to increase the maximum area for each agricultural shade cloth structure, cold farm, and greenhouses that could qualify the structure for an exemption from building permit and building code requirements.

Your Committees received testimony in support of this measure from the Office of Planning; University of Hawai'i College of Tropical Agriculture and Human Resources; Aloun Farms; Ulupono Initiative LLC; Hawaii Farming LLC; Big Island Produce Asset Holdings LLC; Hawaii'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committees find that the existing maximum area for each agricultural shade cloth structure, cold frame, and greenhouse that qualifies the structure for an exemption from building permit and building code requirements is twenty thousand square feet. Increasing the maximum area allowed from twenty thousand to sixty thousand square feet will support local food production. Your Committees find that this measure is narrowly tailored to agricultural structures meant for agricultural production. Your Committees further find that this measure will drastically cut construction costs and effectively utilize the open areas currently required between smaller greenhouses. According to testimony received by your Committees, this measure will make farming more productive and economically feasible for farmers and help Hawaii reach its self-sustaining food production goals.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 489 and recommend that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 273 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 573

The purpose and intent of this measure is to require all habitat conservation plans to include an agreement for plan participants to enter into and maintain an annual service contract with a stand-by and response facility available to provide emergency medical and rehabilitation services to native wildlife affected by activities undertaken within the plan area.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Hawai'i County Council, Hawai'i Wildlife Center, and six individuals.

Your Committees acknowledge that Hawaii's unique ecosystem is under constant threat by natural and manmade causes and that habitat conservation plans are one means of mitigating against this threat. Your Committees find that the annual service contract requirement proposed by this measure could help to fulfill the requirement under existing law that each habitat conservation plan identify the steps that will be taken to minimize the impact of any incidental take to the maximum extent practicable.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 573 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 274 Commerce and Consumer Protection on S.B. No. 973

The purpose and intent of this measure is to amend the Money Transmitters Act by:

- Incorporating definitions of key terms provided in the Model Money Services Business Law published by the Conference of State Bank Supervisors;
- (2) Adding supporting documentation to be submitted by a license applicant;
- (3) Extending the period of a license applicant's litigation and criminal conviction history review from five to ten years from the date of the application;

- (4) Requiring a license applicant to submit information concerning any bankruptcy or receivership proceedings; and
- (5) Clarifying the authority of the commissioner of financial institutions relating to examinations and investigations of licensees and to participate in nationwide protocols for licensing cooperation.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law does not provide sufficient flexibility for Hawaii to share supervisory information with other states to swiftly protect consumers who use money transmission companies. The fast-paced nature of money transmissions and innovation of financial technologies necessitates a quicker response. Therefore, this measure adopts certain model act provisions to allow Hawaii to work alongside a network of states to license, supervise, and examine transglobal money transmission companies as a multi-state system to better protect consumers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 973, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 275 Commerce and Consumer Protection on S.B. No. 193

The purpose and intent of this measure is to:

- Require publicly held domestic corporations to include non-male and non-female individuals among the directors of their corporate boards; and
- (2) Establish reporting requirements for the Department of Commerce and Consumer Affairs and penalties.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, AAUW of Hawaii, Hawai'i Women Lawyers, and seven individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and the LGBT Caucus of the Democratic Party of Hawai'i.

Your Committee finds that, statistically, corporations have much to gain with gender diversity in leadership, including higher profits, better employee job satisfaction and productivity, and better corporate reputations. Nevertheless, while women now represent the majority in the nation's college educated work force, women hold only twenty percent of corporate board positions due to gender discrimination and negative stereotypes. This measure helps to create more opportunities and gender equity on corporate boards for publicly held corporations in the State.

Your Committee has amended this measure by:

- (1) Replacing the term "non-male" with the term "male or non-binary" throughout the measure;
- (2) Replacing the term "non-female" with the term "female or non-binary" throughout the measure;
- (3) Clarifying that, no later than July 1, 2024, the Department of Commerce and Consumer Affairs shall publish a report on its website documenting the number of all publicly held domestic corporations whose principal executive office is located within the State that have at least one male or non-binary director and one female or non-binary director;
- (4) Clarifying the Department of Commerce and Consumer Affairs shall publish on its website subsequent annual reports commencing on March 1, 2025;
- (5) Inserting a definition for "department" to mean the Department of Commerce and Consumer Affairs;
- (6) Inserting an effective date of July 1, 2021; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 193, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 276 Health on S.B. No. 1186

The purpose and intent of this measure is to update the Uniform Controlled Substances Act, chapter 329, Hawaii Revised Statutes, to make it consistent with amendments in the federal controlled substances law as required by section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety; Greenwich Biosciences, Inc.; and Akamai Cannabis Clinic.

Your Committee finds that existing law requires that if a substance is added, deleted, or rescheduled under federal law, or by an emergency scheduling action taken by the Department of Public Safety, then the Department is required to recommend that the Legislature make corresponding changes to Hawaii law. Your Committee further finds that the substances listed in this measure

correspond to several similar changes to the Drug Enforcement Administration's federally controlled substances schedules. Thus, this measure eliminates the differences between federal and state law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1186, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1186, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 277 Health on S.B. No. 1192

The purpose and intent of this measure is to amend section 329-101(b) and (d), Hawaii Revised Statutes, to require that the dispensing of a pharmacist-prescribed opioid antagonist be reported to the State's Electronic Prescription Accountability System also known as HI-PDMP.

Your Committee received testimony in support of this measure from the Department of Health and Department of Public Safety. Your Committee received comments on this measure from Kaiser Permanente Hawaii.

Your Committee finds that this measure aligns with and supports the goals of the Hawaii Opioid Initiative to combat the national opioid crisis. Presently, efforts to track dispensing and distribution of opioid antagonists such as naloxone are decentralized. Your Committee finds that requiring pharmacists to report opioid antagonist prescriptions to the Electronic Prescription Accountability System would not be substantially burdensome and would provide the Department of Health with data useful to prevent opioid overdose.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1192, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 278 Health on S.B. No. 1242

The purpose and intent of this measure is to establish a trauma-informed care task force within the Department of Health to make recommendations of trauma-informed care in the State.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Youth Services Network, Office of Hawaiian Affairs, Hawaii Primary Care Association, Hawaii Pacific Health, Kinai 'Eha, Hawaii Substance Abuse Coalition, Kamehameha Schools, Imua Alliance, Hawaii Children's Action Network Speaks!, Hawaii Community Foundation, and nine individuals. Your Committee received comments on this measure from the Department of Human Services and Executive Office on Early Learning.

Your Committee finds that adverse childhood events (ACEs; abuse or dysfunction in childhood) have harmful effects on health care spending, health care utilization, poorly controlled chronic illness, obesity, substance abuse, smoking, and other risk factors later in life. Your Committee further finds that trauma-informed approaches to health and human service systems of care from other states demonstrate improvements in organizational culture, availability and uptake of evidence-based treatments, use of trauma informed practices, and improvements in staff and caregiver knowledge and attitudes. This measure establishes a trauma-informed care task force within the Department of Health to implement a similar trauma-informed approach to health and human services in the State.

Your Committee recognizes the testimony of the Department of Health and other testifiers, which recommend adding certain personnel to the trauma-informed care task force. Accordingly, your Committee has amended this measure by:

- (1) Adding and removing from the trauma-informed care task force, certain members of the community;
- (2) Requiring the task force's framework to include an implementation and sustainability plan; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1242, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 279 Health on S.B. No. 1138

The purpose and intent of this measure is to increase the annual expenditure ceiling of the Office of Healthcare Assurance Special Fund to meet expanding program needs and diminish dependence on the general fund.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Primary Care Association.

Your Committee finds that the coronavirus disease 2019 pandemic has had deleterious effects on the State's economy. This measure increases the spending limit of the Office of Healthcare Assurance Special Fund thereby reducing reliance on the general funds of the State.

Your Committee has amended this measure by:

- Prohibiting not more than an unspecified dollar amount of the special fund to be used by the Office of Health Care Assurance during any fiscal year;
- (2) Requiring any amount in the special fund over an unspecified dollar amount on June 30 of each year to be deposited into the general fund;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1138, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 280 Health on S.B. No. 1231

The purpose and intent of this measure is to provide flexibility to deploy statewide health planning and resource development programs and resources.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from the State Health Planning and Development Agency, Hawai'i Pacific Health, Kapi'olani Medical Center for Women & Children, Wilcox Medical Center, Navian Hawaii, Democratic Party of Hawai'i, Hawaii Government Employees Association, Hospice Maui, and nine individuals. Your Committee received comments on this measure from Healthcare Association of Hawaii; The Queen's Health Systems; Hawai'i Primary Care Association; Hawaii Medical Services Association; North Hawaii Hospice, Inc.; and two individuals.

Your Committee finds that the Governor's executive biennium budget proposes downsizing the State Health Planning and Development Agency (SHPDA) and transferring its role of administering the Certificate of Need (CON) program to the Department of Health. Your Committee further finds that the CON program is a vital regulatory component for ensuring accessibility to healthcare in Hawaii as well as the long-term financial viability of the healthcare delivery system. This measure makes the duties of SHPDA optional instead of mandatory.

Your Committee heard significant opposition and comment to this measure from various stakeholders in the healthcare community, whose chief concern is the continued operation of the CON program. Your Committee finds that the goals of the Governor's biennium budget may be accomplished by transferring the responsibilities of SHPDA directly to the Department of Health. Furthermore, your Committee finds that excess moneys from the state health planning and development special fund, which SHPDA uses to offset its program expenses, should be returned to the State's general fund.

Therefore, your Committee has amended this measure by:

- (1) Making SHPDA's duties mandatory instead of optional;
- Amending the measure to make the Department of Health alternatively responsible for SHPDA's duties and responsibilities, which repeals after five years;
- (3) Adding a provision that requires any moneys in excess of \$2,000,000 remaining in the state health planning and development special fund at the close of each fiscal year to lapse into the general fund; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1231, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 281 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 560

The purpose and intent of this measure is to establish ranked choice voting for special federal elections and special elections of vacant county council seats.

Your Committee received testimony in support of this measure from the Americans for Democratic Action, Common Cause Hawaii, Green Party Hawaii, and eight individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that numerous candidates often run in special elections for federal or county council offices, which often results in the election of a candidate by a mere plurality of votes. Your Committee recognizes that conducting these elections by ranked choice voting would result in the election of candidates who receive a clear majority of votes, thus eliminating the need for costly and inefficient runoff elections.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 282 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 568

The purpose and intent of this measure is to:

- (1) Clarify that persons who enter private property for recreational purposes have no cause of action, unless exempted under law;
- (2) Require a court to award attorneys' fees and costs to landowners if plaintiffs bring unreasonable claims; and
- (3) State that, as a matter of law, persons participating in outdoor recreational activities accept the inherent dangers in the activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Land and Natural Resources' Division of Forestry and Wildlife, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that the recreational use law, codified as chapter 520, Hawaii Revised Statutes, is an important means to allow public access to land and water areas for recreational purposes while limiting landowner's liability toward persons entering for such purposes. Your Committee further finds that, in spite of the legal protection currently afforded under chapter 520, Hawaii Revised Statutes, landowners remain reluctant to open their lands for recreational use because of the threat of lawsuits and the costs associated with those suits in the event a person gets injured on the landowner's property. Therefore, chapter 520, Hawaii Revised Statutes, needs to be clarified to better protect a landowner's liability for injuries persons receive while on the landowner's land for recreational purposes to ensure more land and water areas can be available to the public for recreational purposes. This measure will encourage more landowners to make land and water areas available to the public for recreational purposes.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 568 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 283 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 645

The purpose and intent of this measure is to:

- (1) Extend the period in which a county may adopt a surcharge on state tax, under certain conditions; and
- (2) Authorize the use of county surcharge revenues for affordable and workforce housing infrastructure.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that section 46-16.8(c), Hawaii Revised Statutes, authorizes counties to establish a surcharge on the state general excise and use taxes by adopting an ordinance prior to March 31, 2019. Your Committee further finds that this measure extends the period in which a county may adopt such an ordinance until December 31, 2021, and this extra time will provide counties with an opportunity to plan for updates to transportation projects and transportation infrastructure repairs.

Your Committee has amended this measure by specifying that the ordinance to establish the surcharge on state tax shall be adopted prior to July 1, 2023.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 645, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Fevella).

SCRep. 284 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 648

The purpose and intent of this measure is to:

- (1) Specify that a government agency does not assume ownership or jurisdiction over a disputed road solely through maintenance or repair activities; and
- (2) Authorize the State to transfer ownership of roads in favor of counties by quitclaim if requested by the county.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that there are roads in Hawaii whose ownership or jurisdiction is disputed between the State and counties. Your Committee further finds that the safety of persons traveling over these so called "roads in limbo" is affected by the lack of maintenance to these roads. Your Committee also finds that neither state nor county agencies are willing to maintain these roads

because the maintenance activities may be construed as assuming ownership and jurisdiction over the disputed roads. This measure allows the state or county to maintain roads without taking on ownership responsibility.

Your Committee has amended this measure by:

- (1) Clarifying that whenever ownership of a public street, road, or highway remains in dispute between the State and the county, any action by a government agency to maintain or repair a public street, road, or highway shall not be used to establish the agency's ownership of, or jurisdiction over, the public street, road, or highway;
- (2) Specifying that the definition of "disputed public street, road, or highway" means any highway, road, alley, street, way, lane, bikeway, bridge, or trial that is open to the public for which there is a dispute over ownership and jurisdiction, as determined by the department of transportation, between the State or any of its political subdivisions and a county or a private party or between a county and a private party; and
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 648, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 648, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 285 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 700

The purpose and intent of this measure is to require government entities to seek reimbursement for all or a portion of search and rescue expenses for persons who require rescue after leaving a hiking trail to enter a prohibited area or hiking on a trail closed to the public.

Your Committee received testimony in support of this measure from three individuals. Your Committee received comments on this measure from Department of Land and Natural Resources and the Department of Land and Natural Resources' Division of Forestry and Wildlife.

Your Committee finds that with the numerous hiking trails available to the public throughout the State, there are certain areas that pose safety concerns and consequently have been closed to the public. Despite this, your Committee finds that there are cases in which individuals and groups unlawfully enter trails that have been closed off to the public due to safety concerns, ultimately putting those individuals and groups at risk of significant injury and further risking the damage of native habitats and other natural resources being preserved in closed areas.

Your Committee further finds that those defying the law by entering into prohibited areas not only put themselves at risk, but create potentially difficult and expensive rescue operations. The costs associated with the search and rescue of individuals who willfully disregard their own safety by ignoring warning signs are considerable. This measure will hold those willfully disregarding the law accountable by requiring a reimbursement of funds used for a search and rescue mission of those who entered a prohibited area.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 700, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 286 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1119

The purpose and intent of this measure is to:

- (1) Authorize the Governor and the mayors to establish lesser petty misdemeanor offenses and violations during emergency periods, including non-criminal infractions; and
- (2) Establish a more expeditious system for the processing of these infractions to reduce the burden on the court system.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, County of Maui Police Department, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary and Hawaii Emergency Management Agency.

Your Committee finds that the global coronavirus disease 2019 (COVID-19) pandemic has created great challenges to our health, economy, and way of life. The Governor and county mayors have had to exercise their emergency powers to impose rules in an attempt to control the spread of the SARS-CoV-2 virus. The enforcement of these rules is critical to the State's efforts to control the spread of COVID-19, protect the health and safety of those in our community, manage our medical resources, and restart our economy.

Your Committee further finds that these enforcement efforts have placed a heavy burden upon the criminal justice system, which must be able to process these cases appropriately to allow for meaningful and effective enforcement. At this time there is concern that the criminal justice system is unable to handle the great number of cases being placed into the system. This measure allows the

Governor and mayor to establish lessor offenses during emergency periods so that cases can be processed in a timely and appropriate

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1119, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 287 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1190

The purpose and intent of this measure is to:

- (1) Authorize the Department of Public Safety to maintain a list of independent civil process servers; and
- (2) Allow process servers to serve specific types of legal documents.

Your Committee received testimony in support of this measure from the Department of Public Safety and Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that the sunset provision in Act 101, Session Laws of Hawaii 2015, that went into effect on June 30, 2020, resulted in a repeal of numerous sections of the Hawaii Revised Statutes, which removed express language allowing process servers to serve specific types of legal documents. This measure updates and reinstates that language in order to provide clear guidelines for the limitation of authority, fee schedules, and the specific services provided by process servers who are required to be registered with the Department of Safety.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1190, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 288 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1244

The purpose and intent of this measure is to:

- (1) Eliminate the use of monetary bail, with certain exceptions, and require defendants to be released on their own recognizance for traffic offenses, violations, non-violent petty misdemeanor offenses, and non-violent misdemeanor offenses;
- (2) Create a rebuttable presumption regarding both release and detention for certain offenses and specify circumstances in which these presumptions apply; and
- (3) Require the Judicial Council to appoint a committee to review and recommend changes to the Hawaii Penal Code.

Your Committee received testimony in support of this measure from the Hawai'i Correctional System Oversight Commission, Office of the Public Defender, Office of the Prosecuting Attorney of Kaua'i County, Community Alliance on Prisons, Imua Alliance, and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Legislative Reference Bureau and Hawaii Disability Rights Center.

Your Committee finds that there is an urgent need to comprehensively reform and modernize the State's criminal justice system. Though there have been valiant efforts during the last decade to reform the criminal justice system, these reforms have not been thorough enough to end the State's practice of mass incarceration. Your Committee further finds that in order to adequately address jail and prison overcrowding and ensure that the State's criminal justice system is effectively rehabilitating inmates, the State must also examine other aspects of the criminal justice system beyond pretrial procedures. This measure will require a committee to scrutinize the Hawaii Penal Code in a full and deliberative manner to ensure that the Code remains effective in achieving the objectives of the State's criminal justice system.

Your Committee has amended this measure by:

- (1) Removing language that would have eliminated the use of monetary bail, with certain exceptions, and required defendants to be released on their own recognizance for traffic offenses, violations, non-violent petty misdemeanor offenses, and non-violent misdemeanor offenses:
- (2) Removing language that would have created a rebuttable presumption regarding both release and detention for certain offenses and specified circumstances in which these presumptions would apply;
- (3) Restoring statutory language that requires any person charged with a criminal offense shall be bailable by sufficient sureties;
- (4) Specifying that the court is to determine whether bail may be denied where the charge is for a serious crime;

- (5) Clarifying that a rebuttable assumption arises that a person poses a serious danger to any person or community or will engage in illegal activity where the court determines that the defendant is pending trial or sentencing for a felony charge or the defendant is on probation or parole for a felony charge;
- (6) Inserting an effective date of July 1, 2025, to encourage further discussion;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure should be amended to specify that the request to draft proposed legislation by the Legislative Reference Bureau to effectuate the purposes of this measure be submitted to the Bureau no later than September 1, 2021.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1244, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 289 Hawaiian Affairs on S.C.R. No. 8

The purpose and intent of this measure is to request the Hawaii State Commission on the Status of Women (Commission) to convene a task force to conduct a study on missing and murdered Native Hawaiian women and girls and to submit a report on the study to the Legislature.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Office of Hawaiian Affairs, Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, Papa Ola Lokahi, Ho'ola Nā Pua, and five individuals.

Your Committee finds that missing and murdered native women is a human rights crisis that disproportionately affects indigenous peoples in the United States and Canada, notably those in Native American communities. A corresponding mass movement in the United States and Canada has worked to raise awareness of missing and native women and girls. In the United States, one in three native women is sexually assaulted during her life and sixty-seven percent of these assaults are perpetuated by non-natives.

Your Committee further finds that there are concerns about the high rate of sexual violence against Native Hawaiian women. Native Hawaiians represent the largest ethnic group among sex abuse victims and Native Hawaiian girls are over-represented among juvenile runaways. Until 2019, there was no comprehensive data on the prevalence of sex trafficking victimization among Native Hawaiians or the sex market in Hawaii. In 2019, the Commission reported that current over-representation of Native Hawaiian women and girls in sex trafficking at present may directly be linked to vulnerabilities exclusive to the Hawaiian community, such as land dispossession, exposure to sexual violence, hypersexualization, incarceration, cultural dislocation, intergenerational trauma, mental and emotional distress, racism, poverty, and ongoing inequities. Seventy-seven percent of twenty-two sex trafficking victims were Native Hawaiian and one hundred percent identified as women. Of three hundred sixty-three willing participants, twenty-seven percent of participants surveyed were identified as having been sexually trafficked, with sixty-four percent of trafficking victims trafficked before the age of eighteen.

The potential prevalence of sex trafficking, sexual exploitation, and sexual abuse of Native Hawaiians heightens concerns that Native Hawaiians, and particularly Native Hawaiian women and girls may be at a higher risk of being murdered or gone missing. More data is needed to understand and address the social and systemic contexts of violence against Native Hawaiian women and girls, including their murder or disappearance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 8, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 8, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 290 Hawaiian Affairs on S.R. No. 7

The purpose and intent of this measure is to request the Hawaii State Commission on the Status of Women (Commission) to convene a task force to conduct a study on missing and murdered Native Hawaiian women and girls and to submit a report on the study to the Legislature.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Office of Hawaiian Affairs, Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, Papa Ola Lokahi, Hoʻola Nā Pua, and five individuals.

Your Committee finds that missing and murdered native women is a human rights crisis that disproportionately affects indigenous peoples in the United States and Canada, notably those in Native American communities. A corresponding mass movement in the United States and Canada has worked to raise awareness of missing and native women and girls. In the United States, one in three native women is sexually assaulted during her life and sixty-seven percent of these assaults are perpetuated by non-natives.

Your Committee further finds that there are concerns about the high rate of sexual violence against Native Hawaiian women. Native Hawaiians represent the largest ethnic group among sex abuse victims and Native Hawaiian girls are over-represented among juvenile runaways. Until 2019, there was no comprehensive data on the prevalence of sex trafficking victimization among Native Hawaiians or the sex market in Hawaii. In 2019, the Commission reported that current over-representation of Native Hawaiian women and girls in sex trafficking at present may directly be linked to vulnerabilities exclusive to the Hawaiian community, such as land dispossession, exposure to sexual violence, hypersexualization, incarceration, cultural dislocation, intergenerational trauma, mental and emotional distress, racism, poverty, and ongoing inequities. Seventy-seven percent of twenty-two sex trafficking victims were Native Hawaiian and one hundred percent identified as women. Of three hundred sixty-three willing participants, twenty-seven percent of participants surveyed were identified as having been sexually trafficked, with sixty-four percent of trafficking victims trafficked before the age of eighteen.

The potential prevalence of sex trafficking, sexual exploitation, and sexual abuse of Native Hawaiians heightens concerns that Native Hawaiians, and particularly Native Hawaiian women and girls may be at a higher risk of being murdered or gone missing. More data is needed to understand and address the social and systemic contexts of violence against Native Hawaiian women and girls, including their murder or disappearance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 7, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 7, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 291 Judiciary on S.B. No. 540

The purpose and intent of this measure is to:

- (1) Allow for lesser emergency period penalties to be adopted and promulgated by the Governor or a mayor; and
- (2) Authorize county prosecutors to exercise discretion with the offense charged and penalty sought for certain first-time violations of coronavirus disease 2019 (COVID-19) emergency orders incurred since March 4, 2019.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which removed language authorizing county prosecutors to exercise discretion with the offense charged and penalty sought for certain first-time violations of COVID-19 emergency orders incurred since March 4, 2019, and replaced it with language allowing for the emergency period infractions to be processed under the traffic adjudication process in chapter 291D, Hawaii Revised Statutes.

Your Committee received testimony in support of the proposed S.D.1 from the Department of the Attorney General, Office of the Public Defender, Department of the Prosecuting Attorney for the City and County of Honolulu, and thirty-two individuals. Your Committee received testimony in opposition to the proposed S.D.1 from one individual. Your Committee received comments on the proposed S.D.1 from the Judiciary and one individual.

Your Committee finds that the COVID-19 pandemic has created great challenges in the State relating to public health and the economy. These challenges have necessitated the Governor and county mayors to exercise their emergency powers under chapter 127A, Hawaii Revised Statutes, to impose rules aimed to control the spread of COVID-19. Your Committee further finds that the enforcement of those rules is critical to efforts to protect the health and safety of the community, manage medical resources, and restart the economy. Your Committee additionally finds that allowing violations of emergency orders to be adjudicated similarly to traffic infractions will result in more meaningful and effective enforcement.

Accordingly, your Committee has amended this measure by adopting the proposed S.D.1 and further amending it by:

- (1) Clarifying that an emergency period infraction is in lieu of a violation, petty misdemeanor, or misdemeanor;
- (2) Designating "traffic infraction" and "emergency period infraction" as separate infractions under the infraction judication process and amending certain sections of chapter 291D, Hawaii Revised Statutes, accordingly;
- (3) Allowing electronic copies of notices of infractions, notices of infraction adjudication hearings, and notices of infraction judgements to be sent via email;
- (4) Granting the District Court concurrent jurisdiction over emergency period rule infractions committed by minors; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 540, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 540, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 292 Ways and Means on S.B. No. 1202

The purpose and intent of this measure is to make various technical amendments to chapters within the Hawaii Revised Statutes relating to fuel taxes, liquor taxes, and cigarette and tobacco taxes.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee recognizes that the Department of Taxation recently completed a review of the Hawaii Revised Statutes chapters that are being amended by this measure. Your Committee believes that the proposed amendments will add clarity to certain state tax laws and allow for more effective administration of those laws.

Your Committee has amended this measure by:

- (1) Inserting an amendment to section 245-9, Hawaii Revised Statutes, that repeals a cross-reference to section 245-31, Hawaii Revised Statutes, which is being repealed by the measure;
- (2) Inserting a savings clause to clarify that the measure does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date;
- (3) Changing the effective date to July 1, 2021; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1202, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 293 Ways and Means on S.B. No. 256

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Keahole Hotel & Suites, LLC, a Hawaii company, with planning, designing, constructing, and equipping hotel facilities at the Ellison Onizuka Kona International Airport at Keahole.

Your Committee received testimony in support of this measure from Mason Industries, LLC, and Keahole Hotel & Suites, LLC.

Your Committee received comments on this measure from the Department of Budget and Finance and Department of Transportation.

Your Committee finds that the construction of hotel facilities at Onizuka Kona International Airport is expected to contribute to the State's economy through increased taxes, job creation, business travel and tourism revenues, and patronage at nearby businesses.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 256 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 294 Human Services on S.B. No. 1134

The purpose and intent of this measure is to broaden the Department of Human Services' ability to protect vulnerable adults who may require intervention by Adult Protective Services.

Your Committee received testimony in support of this measure from the Department of Human Services, Executive Office on Aging, and Maui County Department of the Prosecuting Attorney.

Your Committee finds that reports of abuse against vulnerable adults continue to rise as Hawaii's population ages. Your Committee also finds that the Department of Human Services is authorized to enter premises without a warrant for purposes of investigating the abuse of vulnerable adults, pursuant to section 346-229, Hawaii Revised Statutes. Your Committee further finds that existing law limits that right of warrantless entry only to situations in which there is probable cause to believe that a vulnerable adult will be physically injured. However, your Committee also finds that abuse includes not only physical abuse, but also psychological abuse, sexual abuse, financial exploitation, caregiver neglect, or self-neglect. Accordingly, your Committee finds that to better serve vulnerable adults who may be victims of abuse, the Department's right of entry into a vulnerable adult's premises without a warrant for an investigation should extend to any type of abuse, regardless of whether there is physical injury.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1134, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 295 Human Services on S.B. No. 1129

The purpose and intent of this measure is to add immunity from civil and criminal liability for individuals who provide information or assistance in child abuse investigations.

Your Committee received testimony in support of this measure from the Department of Human Services and three individuals.

Your Committee finds that there is a need to add further protections for those individuals who assist in child abuse investigations. On January 7, 2019, the federal Victims of Child Abuse Act Reauthorization Act of 2018, P.L. 115-24, was enacted, further amending the Child Abuse and Prevention and Treatment Act (CAPTA). The amendment grants immunity from civil and criminal prosecution to people who provide information or assistance to a good faith report of child abuse and/or neglect. This includes medical evaluations and professional consultations. Your Committee further finds that the language proposed in this measure does not provide immunity for individuals who provide information and assistance in bad faith. And finally, your Committee finds that this measure will bring Hawaii's CAPTA Program Improvement Plan into conformity with the federal CAPTA amendments by the required date of June 30, 2021.

Your Committee has amended this measure by:

- (1) Clarifying the effective date of June 30, 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 296 Human Services on S.B. No. 1128

The purpose and intent of this measure is to establish a:

- (1) Self-funded commercial enterprise vocational programs within the Office of Youth Services for young adults at risk; and
- (2) Revolving fund within the Office of Youth Services, for the receipt of income and payment of expenses generated from the commercial enterprise vocational programs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Office of Youth Services, Department of Human Services, Kawailoa Youth and Family Wellness Center, Community Alliance on Prisons, Kūpuna for the Moʻopuna, and thirty-eight individuals.

Your Committee finds that it is critical for the State to develop early intervention strategies that are focused on diverting youth, especially native Hawaiian youth, away from the criminal justice system and toward pathways for success. Your Committee further finds that the over-representation and disparate treatment of native Hawaiians in the criminal justice system is a longstanding problem in Hawaii. Native Hawaiian youth are disproportionately represented in the juvenile justice system, and are also most frequently arrested in all offense categories. Accordingly, your Committee finds that establishing a commercial enterprise vocational program for at-risk young adults will help address this continuing problem, and that establishing a revolving fund to collect the proceeds from enterprise activities will help to self-sustain the program and provide participating opio (youths) a stable income.

Your Committee has amended this measure by:

- (1) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1128, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 297 Human Services on S.B. No. 577

The purpose and intent of this measure is to:

- (1) Amend provisions relating to criteria and procedures in family court determinations regarding custody and visitation rights;
- (2) Clarify that a parent's felony conviction for a violent or sexual offense in which the victim was a minor, or requirement to register as a sex offender, raises a rebuttable presumption that custody or visitation by that parent is not in the best interest of the child:
- (3) Require courts to consider registration as a sex offender a presumption of risk that affects the burden of producing evidence; and
- (4) Require courts to state the reasons for findings in writing or on the record, including specific findings that there is no risk to the child's health, safety, and welfare.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, Hawai'i Psychological Association, and one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that ninety-five percent of sexually abused children are abused by someone they know and trust. Your Committee also finds that seventy-three percent of child victims do not tell anyone about the abuse for at least one year, while forty-five percent do not tell anyone for five years. Some never disclose having been or being abused at all. Your Committee further finds that more restrictive standards must be established to help courts determine the best interests of children during these highly consequential custody proceedings. Accordingly, your Committee finds it is necessary, when granting custodial rights, to ensure that

no child is placed in a home where that child would be exposed to a parent with a history of violent felonies, including those for sexual offenses, family violence, or homicides, or if the parent is required to register as a sex offender. To accomplish these goals, courts must adhere to the restrictive standards set forth in this measure.

Your Committee received the testimony of the Judiciary, which pointed out that provisions regarding the nondisclosure of a certain information relating to a custodial parent and the child are overly-broad and might be construed to subject all cases to the restrictions, including cases in which neither abuse nor sexual abuse is involved.

Accordingly, your Committee has amended this measure to clarify that the nondisclosure procedures apply only when the court makes a finding of domestic abuse, violence, or sexual abuse against a parent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 577, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 298 (Majority) Human Services on S.B. No. 821

The purpose and intent of this measure is to:

- (1) Allow a minor who has reached the age of sixteen to petition the Family Court for emancipation, and directs the court regarding investigation of the petition, appointment of legal counsel and a guardian ad litem for the petitioner, and the findings necessary to grant the petition;
- (2) Specify the rights gained by the minor upon emancipation, and authorizes the court to require the minor's parents or legal guardians to pay for any services ordered by the court; and
- (3) Require emancipation proceedings to be stayed until final disposition of the minor's child protective case under chapter 587A, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that when a minor who has reached the age of sixteen petitions the Family Court for emancipation, the court must protect the best interests of the petitioning minor. Your Committee also finds that safeguards must be established to ensure the minor:

- (1) Is able to financially support themselves;
- (2) Understands and accepts the responsibilities they are taking on;
- (3) Is not seeking emancipation due to duress or coercion by a parent or guardian; and
- (4) Can continue to receive educational and other services intended for and needed by adolescents.

Consequently, your Committee also finds that during the investigation of the petition, the court must be prepared to appoint legal counsel and a guardian ad litem for the minor and produce the findings necessary to grant the petition.

Your Committee heard the testimony of the Department of Human Services, which opined that emancipation proceedings should not be stayed pending final disposition of a minor's child protective case under chapter 587A, Hawaii Revised Statutes, as a youth's rights should be the same as their peers and not affected because of the active status of a child protective case.

Accordingly, your Committee amended this measure by deleting language that would have stayed emancipation proceedings pending a final disposition of a minor's child protective case.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 821, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 299 Human Services on S.B. No. 543

The purpose and intent of this measure is to:

- (1) Create a human trafficking coordinator and program within the Department of the Attorney General;
- (2) Require the Department to report to the Legislature; and
- (3) Require the children's justice program to coordinate the investigation and care management of human trafficking cases.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Department of the Attorney General, Office of the Public Defender, Honolulu Police Department, Imua Alliance, Catholic Charities of Hawai'i, Parents and Children Together, Sex Abuse Treatment Center, Ho'ola Na Pua, and seven individuals.

Your Committee finds that the commercial sexual exploitation of children is a serious problem in Hawaii and throughout the United States. Your Committee heard testimony from the Judiciary, which reported that youth in the foster care system are especially

vulnerable to becoming involved in sex trafficking, and issues regarding the commercial sexual exploitation of children in the State are increasing in prevalence in cases before the Family Court on the juvenile, domestic violence, child abuse, and other calendars.

Further, your Committee finds that the Department of Human Services has received an increasing number of calls on its hotline for witnesses or victims of child sex trafficking. However, because child sex trafficking is covert, it is difficult to accurately measure the scope of the problem, and exploited youth may not identify themselves as victims. Accordingly, your Committee believes that to adequately serve children who have been sexually exploited, a statewide coordinator and program within the Department of the Attorney General are needed to develop and utilize comprehensive interagency case management strategies, protocols, and a multidisciplinary response that is both victim-centered and offender-focused.

Your Committee also received the testimony of the Department of the Attorney General, which stated that this measure would not require an appropriation, and the Department has already designated a deputy attorney general to begin implementing a statewide human trafficking program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 543, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 543, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 300 (Joint) Human Services and Health on S.B. No. 1285

The purpose and intent of this measure is to better serve the healthcare needs of members of the Compact of Free Association (COFA) community by implementing programs to bridge the cultural and language gaps between healthcare providers and COFA

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission; Hawai'i Primary Care Association; Hawai'i Friends of Civil Rights; Papa Ola Lokahi; COFA Alliance National Network; Hawai'i Coalition for Immigrant Rights; Native Hawaiian and Pacific Islander Hawaii COVID-19 Response, Recovery, and Resilience Team; Nations of Micronesia, Waipahu Safe Haven Immigrant/Migrant Center; and eleven individuals. Your Committees received comments on this measure from the Department of the Attorney General, The Queen's Health Systems, Healthcare Association of Hawaii, Hawai'i Pacific Health, and one individual.

Your Committees find that during the coronavirus disease 2019 (COVID-19) pandemic, Pacific Islander communities have been affected by COVID-19 at higher numbers than any other community of color in the State. COFA recipients have been particularly adversely impacted. Your Committees also find that many COFA recipients have experienced prejudice and discrimination in the healthcare system and no longer use medical facilities as a first option to treat illnesses, but rather as an option of last resort that often results in a much more severe prognosis than if the patient had received treatment at an earlier stage. To better serve members of the COFA community, your Committees also find that investing in programs to bridge the cultural and language gaps between healthcare providers and COFA recipients, as well as other communities with similar cultural and language barriers, will lead to more inclusion, reduced healthcare costs, and better health outcomes.

Your Committees have amended this measure by:

- (1) Clarifying which members of the COFA community are covered by this measure;
- (2) Removing the reference to "other medical facilities" so that the requirements of this measure apply only to hospitals;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1285, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1285, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 301 (Joint) Human Services and Health on S.B. No. 900

The purpose and intent of this measure is to:

- Require the Department of Human Services to collect and report data on severe maternal morbidity incidents, disaggregated by county, race, and ethnicity;
- Establish a Maternal Disparity and Health Equity Task Force to make recommendations on reducing maternal morbidity and improving maternal health outcomes for women, particularly women of color;
- Require the task force to submit an initial report to the Legislature no later than June 30, 2022, and an annual report prior to each Regular Session; and

(4) Require the Department of Human Services to develop and the Hawaii State Commission on the Status of Women to administer implicit bias training for health care professionals in perinatal facilities.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, Hawaii Children's Action Network Speaks!, AlohaCare, AF3IRM Hawaii, Hawaii Women's Coalition, Papa Ola Lokahi, Healthy Mothers Healthy Babies Coalition of Hawaii, American College of Obstetricians and Gynecologists District VIII, Hawaiii Section, and fifty individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Health, The Queen's Health Systems, Healthcare Association of Hawaii, Hawaiii Pacific Health, and two individuals.

Your Committees find that each year in the United States, more than fifty thousand women suffer from complications in pregnancy or childbirth that have serious consequences for the women's short- or long-term health and that a reduction in maternal morbidity in the country is critically needed to address the multiple inequities that exist throughout health care and that maternal health is no exception. Your Committees also find that although Hawaii currently collects data on incidents of severe maternal morbidity, the data is not disaggregated by race or ethnic background, making it difficult for the State to assess and meet the specific needs of women who are Black, native Hawaiian, Samoan, and other women of color. Accordingly, your Committees find that these goals are best accomplished by requiring the Department of Human Services to collect and report severe maternal morbidity data, disaggregated by race and ethnic background, and to require bias training of health care professionals.

Your Committees have amended this measure by:

- (1) Removing the Maternal Disparity and Health Equity Task Force;
- (2) Removing the requirement for the Hawaii State Commission on the Status of Women to issue a certificate upon completion of the implicit bias training;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 900, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 302 (Majority) Transportation on S.B. No. 23

The purpose and intent of this measure is to repeal vehicle license recovery fees.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Department of Transportation, Avis Budget Group, and Enterprise Holdings.

Your Committee finds that vehicle license recovery fees impose an additional fee to lessees of rental vehicles. Allowing these onetime fees to be passed on to lessees is a departure from the statutory policy in favor of passing on only recurring government taxes and fees. Your Committee also finds that vehicle license recovery fees are an attempt by rental car companies to advertise low base rates but subtly increase the actual per day rental rate by greatly increasing the applicable taxes and fees passed on to lessees, which may be detrimental to the State's tourism industry.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 23, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 23, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Inouye). Excused, none.

SCRep. 303 Transportation on S.B. No. 428

The purpose and intent of this measure is to specify that interference with an automated public transit vehicle, system, or service is a class C felony.

Your Committee received testimony in support of this measure from the Department of Transportation and City and County of Honolulu Department of Transportation Services. Your Committee received comments on this measure from the Department of the Attorney General and Office of the Public Defender.

Your Committee finds that existing criminal statutes governing interference with public transit vehicles do not cover automated public transit vehicles like the new Honolulu Rapid Transportation Project. Therefore, in order to modernize the State Penal Code this measure will make it a class C felony to interfere with the automated operation of a public transit vehicle.

Your Committee has amended this measure by:

- (1) Deleting language that would have included causing the delay of an automated operation of a public transit vehicle as an element of the offense;
- (2) Inserting a definition of "automated operation", per the recommendation of the Attorney General; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 428, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 304 Transportation on S.B. No. 432

The purpose and intent of this measure is to require the transferor and transferee of a motor vehicle to appear in person at the county Department of Motor Vehicles to execute the transfer.

Your Committee received testimony in support of this measure from the Hawaii State Association of Counties. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council; Copart, Inc.; American Property Casualty Insurance Association; and Insurance Auto Auctions, Inc. Your Committee received comments on this measure from Enterprise Holdings.

Your Committee finds that buyers and sellers of vehicles often provide false, illegible, or unusable contact information. This measure will assist the counties in keeping accurate and current records of vehicle transfers.

Your Committee has amended this measure by:

- (1) Exempting dealers and vehicles transferred as salvaged vehicles from the requirement to appear in person to transfer a vehicle title;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 432, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 305 Transportation on S.B. No. 434

The purpose and intent of this measure is to allow the counties to require payment of outstanding charges or fees owed to the county for the towing, removal, or disposal of an abandoned or derelict vehicle.

Your Committee received testimony in support of this measure from the Hawaii County Department of Environmental Management, Maui County Department of Environmental Management, County of Kauai Police Department, Hawaii State Association of Counties, and one individual. Your Committee received comments on this measure from Enterprise Holdings.

Your Committee finds that the counties expend a great deal of resources to tow and dispose of abandoned or derelict vehicles. Exiting law only allows for the counties to charge the towing fee for these vehicles to the registered owners, and only when the vehicles are claimed. Frequently, these abandoned or derelict vehicles are not claimed, leaving the counties with no recourse to recoup their costs. This measure will provide counties the ability to recoup costs for towing and disposing of abandoned and derelict vehicles.

Your Committee has amended this measure by providing an exemption for registered owners who have had their vehicle taken without their permission or authorization and who have filed a police report.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 434, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 434, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 306 Transportation on S.B. No. 1011

The purpose and intent of this measure is to appropriate funds to the Department of Transportation to widen Queen Kaahumanu Highway and Kuakini Highway on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Transportation, one member of the Hawai'i County Council, and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the rapidly growing population in west Hawaii has contributed to consistent vehicle traffic on Queen Kaahumanu Highway and Kuakini Highway. The intersection where these highways merge is a critical lifeline for south Kona residents and is often compromised by excessive traffic. This measure appropriates funds to widen these highways to alleviate the traffic congestion.

Your Committee has amended this measure by inserting a blank appropriation amount.

Your Committee requests that if this measure advances, your Committee on Ways and Means continue the conversation and determine the appropriate appropriation amount for the projects proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1011, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 307 Water and Land on S.B. No. 800

The purpose and intent of this measure is to:

- (1) Remove county councils as the nominating authority for members of the Hawaii Community Development Authority who serve as representatives of the Heeia, Kalaeloa, and Kakaako community development districts; and
- (2) Provide that the President of the Senate and the Speaker of the House of Representatives shall each nominate representatives of each of the three community development districts.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that under existing law, the Honolulu City Council nominates individuals to be appointed by the Governor to represent the Heeia, Kalaeloa, and Kakaako community development districts on the Hawaii Community Development Authority. Your Committee believes that given the important responsibility of guiding the long-range planning and implementation of improved community development programs in their represented districts, it is important to address any community concerns and clarify the nomination process for these nominated individuals.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 800 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 308 Water and Land on S.B. No. 962

The purpose and intent of this measure is to:

- Transfer operational authority of the Makai Research Pier (Pier) located at the southeast corner of Oahu to the Natural Energy Laboratory of Hawaii Authority (NELHA); and
- (2) Authorize the Director of Finance to issue general obligation bonds for the NELHA to repair and upgrade the Pier.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Makai Ocean Engineering, Inc.; Sea Engineering, Inc.; and one individual. Your Committee received comments on this measure from the Natural Energy Laboratory of Hawaii Authority.

Your Committee finds that the Pier enables local ocean technology companies to create high-paying, highly skilled professional jobs and to expand and diversify Hawaii's economy. According to testimony received by your Committee, this measure would not only allow the Pier to remain operational, but also allow its tenants to continue to compete and win against mainland peers in the award of high-quality federal research and development projects. Your Committee further finds that the current leases of the Pier should be grandfathered in the transfer of authority over the Pier to NELHA.

Your Committee has amended this measure by:

- (1) Inserting language to transfer the current leases of the Pier to NELHA; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 962, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 309 Human Services on S.B. No. 1142

The purpose and intent of this measure is to improve the Kupuna Caregivers Program by providing additional options for caregivers to support their loved ones, especially during the hardship placed on families during the coronavirus disease 2019 (COVID-19) pandemic.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Department of Health, Policy Advisory Board for Elder Affairs, AARP Hawaii, Adult Day Centers Hawaii, Alzheimer's Association, Faith Action for Community Equity, and thirteen individuals.

Your Committee finds that in 2017 the legislature established the kupuna caregivers program in the executive office on aging to focus on working caregivers and provide assistance to enable them to remain in the workforce. Your Committee also finds that the hardships imposed on families during the COVID-19 pandemic require some flexibility in the Kupuna Caregivers Program. Accordingly, your Committee finds that to meet kupuna caregivers' needs during this health crisis, the work eligibility requirement during a governor-proclaimed state of emergency must be refined; Kupuna Caregiver-Directed services should be added as an option; and a financial management service provider who is responsible for financial payments on behalf of participants enrolled in the Kupuna Caregiver-Directed program should also be added to the program.

Your Committee has amended this measure by:

- Removing unemployed qualified caregivers from inclusion in the kupuna care and caregivers support services work eligibility program, during a governor-proclaimed state of emergency;
- (2) Inserting an effective date of May 1, 2029; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1142, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 310 Ways and Means on S.B. No. 224

The purpose and intent of this measure is to facilitate the ability of students to enroll in public school career and technical education programs.

Specifically, this measure requires public schools to enroll all high school students, including those who reside outside the school's service area, who submit a timely application, subject to the capacity of the program.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association and one individual

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that, according to projections made by the Department of Labor and Industrial Relations, nearly three-quarters of projected job openings through the year 2022 will require a high school diploma or less. Increasing access to career and technical education will help to provide high school graduates not attending college with industry-based skills and certifications sought by many employers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 311 Ways and Means on S.B. No. 242

The purpose and intent of this measure is to increase the offering of computer science education in Department of Education schools.

More specifically, this measure:

- (1) Establishes the computer science special fund to be administered by the Department of Education for the provision of computer science grants to eligible entities;
- (2) Requires that the Department of Education submit to the Board of Education and Legislature an annual report regarding the computer science special fund;
- (3) Establishes a timeline for elementary, middle, and intermediate schools to offer computer science courses or content;
- (4) Requires that the Superintendent of Education submit to the Board of Education and Legislature annual reports of the computer science courses and content offered during the preceding school year; and
- (5) Requires that, beginning with the 2024-2025 school year, each public charter school serving elementary, middle, intermediate, or high school students offers computer science courses or content at a certain frequency.

Your Committee received written comments in support of this measure from Code.org, HawaiiKidsCAN, Microsoft Corporation, TechNet, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Education.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has exemplified and catalyzed the global shift towards a digital economy and increased the public's reliance on digital technology for basic tasks. Accordingly, your Committee believes that it is important to ensure that elementary, middle, intermediate, and high school students throughout the State are prepared for an increasingly digital world.

Your Committee has amended this measure by:

- (1) Clarifying the Superintendent of Education's annual reporting requirements; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 242, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 312 Ways and Means on S.B. No. 518

The purpose and intent of this measure is to raise awareness of and provide training on addressing child sexual abuse.

Specifically, the measure:

- (1) Requires the Department of Education to establish a sexual abuse prevention education program that shall be implemented beginning with the 2021-2022 school year;
- (2) Requires the Board of Education to adopt policies to effectuate the sexual abuse prevention education program;
- (3) Requires the Department of Education to submit reports to the Legislature; and
- (4) Appropriates funds for the program.

Your Committee received written comments in support of this measure from the Office of the Prosecuting Attorney of the County of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Hawaii State Teachers Association, Imua Alliance, Education Caucus of the Democratic Party of Hawaii, Women's Caucus of the Democratic Party of Hawaii, Parents and Children Together, Hawaii Youth Services Network, Sex Abuse Treatment Center, and six individuals.

The Department of Education submitted written comments on the measure.

Your Committee finds that requiring the implementation of a program of regular, consistent sexual abuse prevention education for students, parents, teachers, and staff at public and charter schools will help to address the serious and ongoing threat of child sexual abuse in the State.

Your Committee has amended this measure by:

- (1) Clarifying a reference to Title IX of the federal Education Amendments of 1972, 20 United States Code section 1621 et seq.; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 518, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 518, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 313 Ways and Means on S.B. No. 807

The purpose and intent of this measure is to increase transparency and accountability in the State's public school system.

Specifically, this measure requires:

- (1) Each school's academic and financial plan to include a clear accounting of all resources that will be allocated to address and achieve each measurable outcome, the school's priority improvement strategies and measures to determine progress, and certain assessment scores; and
- (2) The Department of Education to submit an annual report on the academic and financial plan of each school, grouped by complex area, to the Legislature and the Board of Education.

Your Committee received written comments in support of this measure from He'e Coalition and one individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that this measure promotes transparency and accountability by requiring the Department of Education and its schools to connect the expenditure of financial resources to student outcomes. Your Committee further finds that the information required to be reported under this measure will enable communities to see how schools are strategically using their resources to maximize positive impacts for students.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 807, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 807, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 314 Health on S.B. No. 134

The purpose and intent of this measure is to prohibit the Governor or the mayors from suspending requests for public or vital statistics records during a declared state of emergency.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, All Hawaii News, League of Women Voters, Big Island Press Club, and two individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that existing law allows the Governor or a mayor to suspend requests for public or vital statistics records during a declared state of emergency. Your Committee further finds that during the coronavirus disease 2019 (COVID-19) pandemic, the Governor suspended the Uniform Information Practices Act (UIPA) in its entirety for two and a half months, and that the deadlines under the UIPA have been suspended indefinitely. Your Committee acknowledges that while it is important for the Governor and the counties to have flexible and broad emergency powers during extended emergencies such as the COVID-19 pandemic, guardrails must exist to prevent the overreach of those powers. This measure prohibits the Governor or a mayor from suspending requests for public or vital statistics records during a declared state of emergency.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 134, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 315 (Joint) Health and Human Services on S.B. No. 283

The purpose and intent of this measure is to:

- (1) Require Medicaid and insurance coverage of ambulance services;
- (2) Authorize Medicaid programs, and require private insurers, to pay for community paramedicine services provided by emergency medical technicians or paramedics; and
- (3) Appropriate monies for costs resulting from Medicaid coverage of ambulance service and community paramedicine services provided by emergency medical technicians or paramedics.

Your Committees received testimony in support of this measure from Hawaii Medical Service Association, Kaiser Permanente Hawaii, American Medical Response, and four individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, and Department of Human Services.

Your Committees find that community paramedicine programs can help address a few important issues in healthcare, such as improving access to primary and preventive care, ensuring that services are triaged appropriately, and alleviating the overburdened hospital emergency department. This measure mandates Medicaid and insurance coverage of ambulance and community paramedicine services.

Your Committees heard the testimony of the Department of Commerce and Consumer Affairs, which noted that a measure that mandates health insurance coverage for specific health services requires the Auditor to prepare and submit a report to the Legislature that assesses both the social and financial effects of the proposed mandated coverage.

Therefore, your Committees have amended this measure by:

- (1) Requiring the Auditor to prepare a report that assesses the social and financial effects of mandating coverage of ambulance and community paramedicine services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 283, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 283, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 316 (Majority) Health on S.B. No. 839

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses, in addition to physicians, to practice medical aid in dying in accordance with their scope of practice and prescribing authority;
- Authorize psychiatric mental health nurse practitioners, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient;

- (3) Reduce the mandatory waiting period between oral requests from twenty days to fifteen days; and
- (4) Waive the mandatory waiting period for those terminally ill individuals not expected to survive the mandatory waiting period.

Your Committee received testimony in support of this measure from Hawai'i Psychological Association, Compassion & Choices, Hawaii Society of Clinical Oncology, Hawaiian Islands Association for Marriage and Family Therapy, Hawai'i Association of Professional Nurses, Hawai'i – American Nurses Association, National Association of Social Workers, and forty-nine individuals. Your Committee received testimony in opposition to this measure from Hawaii Family Forum, Hawaii Professionals for Appropriate and Compassionate Care, and seven individuals. Your Committee received comments on this measure from the Board of Nursing and Hawai'i State Center for Nursing.

Your Committee finds that the Our Care, Our Choice Act (OCOCA) allows terminally ill individuals to request and receive prescription medication that allows them to pass away in a peaceful, humane, and dignified manner. Your Committee further finds that since the OCOCA was enacted, the Department of Health solicited input from the medical community on the law's implementation. This process has revealed that a shortage of physician on the neighbor islands unintentionally created barriers and burdens in care. This measure amends the OCOCA to ease those barriers while maintaining the safeguards intended to protect patients. Your Committee heard the testimony of the Board of Nursing, which noted that the measure as written excludes clinical nurse specialists who specialize in adult psychiatric mental health from providing care.

Therefore, your Committee has amended this measure by:

- (1) Amending the definition of "counseling" to include consultations from clinical nurse specialists;
- (2) Amending section 1 of the measure to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 839, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 317 Health on S.B. No. 1144

The purpose and intent of this measure is to increase the marriage license fee to fund the Hawaii Birth Defects Program, modernization of the vital statistics system, and operating costs of marriage license agents.

Your Committee received testimony in support of this measure from the Department of Health and one individual. Your Committee received testimony in opposition to this measure from the Domestic Violence Action Center

Your Committee finds that the State's marriage license fee is used, in part, to support the Hawaii Birth Defects Program and the Spouse and Child Abuse Special Fund. Your Committee further finds that no part of the marriage license fee is used to update the vital statistics computer system that maintains the State's records of marriage license issuance and registration. Your Committee finds that this measure increases the fee amount for marriage licenses, thereby increasing funding to these causes. The funds will also be used to update the vital statistics system, which is aging and could be more efficient in processing request, especially with the increased demands for records to comply with REAL ID Act standards. Your Committee recognizes the testimony of the Domestic Violence Action Center, which expressed concerns that adding more programs to receive distributions from marriage license fees could reduce the amount received by the Spouse and Child Abuse Special Fund.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank amount for the new marriage license fees;
- (2) Inserting blank amounts for the distribution of marriage license fees;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1144, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 318 (Majority) Health on S.B. No. 1155

The purpose and intent of this measure is to authorize the issuance of licenses to persons of a secular or non-religious organization to solemnize marriages.

Your Committee received testimony in support of this measure from the Department of Health, LGBT Caucus of the Democratic Party of Hawai'i, and four individuals.

Your Committee finds that this measure allows non-religiously affiliated persons to officiate marriage and civil union ceremonies. Your Committee also finds that this measure acknowledges the diversity of perspectives in the State without diminishing the customs

and rights of other traditions. Finally, your Committee finds that the term "civil celebrant", which means "person of a secular or non-religious organization who performs marriage ceremonies" is circularly defined in this measure.

Therefore, your Committee has amended this measure by:

- (1) Amending the definition of "civil celebrant" to mean "a person of a secular or non-religious organization who has received the consent of the parties to be married"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1155, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 319 Health on S.B. No. 1191

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, to clarify that advance practice registered nurses, pharmacists, authorized staff of the MedQuest program, and certain employees of the United States Department of Veterans Affairs may access information stored in the electronic prescription accountability system.

Your Committee received testimony in support of this measure from the Department of Health and Department of Public Safety.

Your Committee finds that this measure aligns with and supports the goals of the Hawaii Opioid Initiative to combat the national opioid crisis as well as assist the federal government in its initiative to provide veterans with more health care options.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1191, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 320 (Joint/Majority) Health and Human Services on S.B. No. 1230

The purpose and intent of this measure is to provide flexibility to deploy statewide language access programs and resources.

Your Committees received testimony in opposition to this measure from the County of Hawai'i Department of Research and Development, Hawai'i Friends of Civil Rights, Catholic Charities Hawai'i, and four individuals. Your Committees received comments on this measure from the Department of Health, Department of Human Services, Hawaii State Council on Developmental Disabilities, Office of Language Access, Language Access Advisory Council, and Hawai'i Coalition for Immigrant Rights.

Your Committees find that the Governor's executive biennium budget proposed the elimination of the Office of Language Access (OLA) within the Department of Health. Your Committees recognize the State's dire financial situation caused by the coronavirus disease 2019 pandemic. This measure aims to provide flexibility to the State by making OLA optional instead of mandatory.

Your Committees also heard testimony from multiple stakeholders emphasizing the importance of OLA. Therefore, your Committees have amended this measure by:

- (1) Deleting the amendments that proposed making OLA optional instead of mandatory;
- (2) Amending the measure to allow either the Department of Health or the Executive Director of OLA to carry out OLA's duties; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1230, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1230, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Human Services: Ayes, 4; Ayes with Reservations (Acasio, Ihara). Noes, 1 (Misalucha). Excused, none.

SCRep. 321 (Majority) Health on S.B. No. 1340

The purpose and intent of this measure is to enable the Hawaii Medical Board to certify emergency medical responders other than emergency ambulance service personnel.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from American Medical Response, Paradise Medical Services, and four individuals. Your Committee received comments on this measure from the Department of Health and Hawaii Medical Board.

Your Committee finds that this measure will allow the Hawaii Medical Board to certify emergency medical responders other than emergency ambulance service personnel, such as firefighters, ocean safety lifeguards, and police officers. Your Committee finds that

this measure warrants further discussion. Therefore, your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1340, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 322 Education on S.B. No. 467

The purpose and intent of this measure is to require the Board of Education to:

- (1) Hold no less than six community forums annually, with at least one forum in each county;
- (2) Include an open forum for public comments on non-agenda items; and
- (3) Submit a report to the Legislature on implementing open forums.

Your Committee received testimony in support of this measure from the Americans for Democratic Action, League of Women Voters, and one individual. Your Committee received comments on this measure from the Board of Education, Office of Information Practices, and Civil Beat Law Center for the Public Interest.

Your Committee finds that community meetings held by the Board of Education improve the public's access to the Board and allows the public to provide more information to help the Board with decision-making and priority setting. Your Committee further finds that providing greater access to the Board of Education will improve transparency and access to information thereby encouraging an informed and engaged community of citizens. This measure seeks to increase communication between the community—at—large and the Board of Education.

Your Committee has amended this measure by:

- (1) Adopting the recommendations of the Board of Education and requiring the Board of Education to provide written public notice of their forums that shall be open to the public for attendance and to submit data, views, or argument; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 467, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 323 Education on S.B. No. 814

The purpose and intent of this measure is to:

- (1) Clarify the process for applicants to submit a letter of intent to apply to open and operate a charter school; and
- (2) Provide for penalties for authorizers who fail to timely comply with the Board of Education's decisions.

Your Committee received testimony in support of this measure from the Kulia Academy and one individual. Your Committee received comments on this measure from the State Public Charter School Commission and Maui Hui Malama.

Your Committee finds that charter school processes for new school applicants, contract renewals, and contract negotiation are inconsistent, difficult to navigate, and lack transparency. This measure will allow applicants to cure any deficiencies with their application rather than be automatically denied for nonsubstantive reasons and streamlines the charter school application process so that approval will be easier to obtain.

Your Committee has amended this measure by:

- (1) Incorporating changes recommended by the State Public Charter School Commission by removing language relating to the letter of intent process; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 814, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 324 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 149

The purpose and intent of this measure is to:

- (1) Restrict asset forfeiture to cases involving the commission of a covered criminal misdemeanor or felony offense;
- (2) Require seized property to be forfeited only when the property owner has been convicted of an underlying covered criminal misdemeanor or felony offense;

- (3) Change the standard of proof that the State must meet in order for property to be forfeited from "preponderance of the evidence" to "beyond a reasonable doubt";
- (4) Require the State to prove that owners consented to or possessed knowledge of the crime that led to the seizure of their property;
- (5) Require that the agency seizing the property pay for safe and secure storage of the seized property until the completion of the forfeiture proceeding or final disposition of the property;
- (6) Direct any proceeds from a civil forfeiture to the general revenue fund for public education purposes; and
- (7) Repeal administrative forfeiture proceedings.

Your Committee received testimony in support of this measure from the Office of the Public Defender, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Drug Policy Forum of Hawai'i, Common Cause Hawaii, Young Progressives Demanding Action, and ten individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and one individual. Your Committee received comments on this measure from the Department of Public Safety, Department of Education, and Office of Hawaiian Affairs.

Your Committee finds that civil asset forfeiture laws are controversial and have been evolving throughout the country over the twenty years since Hawaii passed the Omnibus Criminal Forfeiture Act, which provides for civil asset forfeiture. Hawaii's process allows law enforcement agencies to seize and keep property based on suspicion that the property is connected to criminal activity. Property, such as vehicles, houses, cash, and jewelry, can be taken without the property owner having been convicted of a crime or even being formally accused of one, leaving innocent citizens deprived of personal property. This measure will make the civil forfeiture process fairer to Hawaii citizens by eliminating financial incentives for law enforcement to seize and keep forfeited property and imposing stricter restrictions on the civil forfeiture process.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 325 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 513

The purpose and intent of this measure is to:

- (1) Increase the fireworks display permit fee from \$110 to \$150 and the fine for certain fireworks violations from \$2,000 per violation to \$5,000 per violation;
- (2) Clarify that each aerial device, display firework, or article pyrotechnic having a total weight of twenty-five pounds or less that is illegally imported, transferred, or sold constitutes a separate violation;
- (3) Increase the penalty for removing or extracting the pyrotechnic contents;
- (4) Require the Attorney General to establish an explosion detection technology working group;
- (5) Require the Department of Public Safety to develop and implement a web-based fireworks reporting tool;
- (6) Authorize the Sheriff Division to enforce the fireworks control law; and
- (7) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that the people of the State deserve to live in peace and security, without the public safety risks, health hazards, and traumatic impacts of illegal fireworks use. Your Committee also finds that Act 170, Session Laws of Hawaii 2010, established an Illegal Fireworks Task Force to develop strategies and make recommendations to the Legislature to address the illegal importation and use of fireworks in the State. Among other matters, the Illegal Fireworks Task Force recommended that the Legislature consider increasing fireworks permit fees and violation fines to deter the use of illegal fireworks, decrease the supply of illegal fireworks in the State, and increase funding for prevention and enforcement efforts. This measure adopts the recommendations of the Illegal Fireworks Task Force by increasing penalties and fines to deter the illegal use of fireworks.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 326 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 758

The purpose and intent of this measure is to:

(1) Increase from three grams to one ounce the minimum amount of marijuana that a defendant must possess to be charged with a petty misdemeanor; and

(2) Increase from three grams to one ounce the maximum amount of marijuana that a defendant convicted of possessing marijuana could have possessed without being disqualified from the subsequent expungement of the record of that conviction.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Office of the Prosecuting Attorney of the County of Kaua'i, Drug Policy Forum of Hawai'i, LGBT Caucus of the Democratic Party of Hawai'i, Imua Alliance, Democratic Party of Hawai'i Education Caucus, and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Honolulu Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, and Maui Police Department. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that fifteen states and the District of Columbia have legalized the recreational use of marijuana by adults, and that others are in the process of considering legalization. Your Committee further finds that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Your Committee additionally finds that recent polling indicates broad public support in Hawaii for the legalization of marijuana. This measure decriminalizes the possession of small amounts of marijuana.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 327 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 818

The purpose and intent of this measure is to:

- (1) Require counties to establish expedited procedures to approve demolition permits for vacant and abandoned residential homes;
- (2) Allow the Department of Taxation to seek sale of the property through nonjudicial foreclosure of vacant and abandoned residential properties with outstanding recorded state tax liens at any time after establishing vacancy and abandonment.

Your Committee received comments on this measure from the Department of Taxation, City and County of Honolulu Department of Planning and Permitting, and Tax Foundation of Hawaii.

Your Committee finds that abandoned residential properties can impose significant costs on the community and become public safety hazards and magnets for criminal activity. Your Committee further finds that it is in the public's interest to encourage the use of residential properties and reduce the number of vacant and abandoned homes in the State. This measure will reduce the potential hazards associated with vacant and abandoned residential properties and ensure that they are promptly removed from Hawaii communities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 328 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 175

The purpose and intent of this measure is to exempt certain liquor license applications from the automatic refusal provision that may be invoked by a majority of nearby voters or real estate owners; specifically, applications for a class 1 license on land designated as agricultural by state or county zoning laws and for which the majority of the agricultural commodities used in the manufacturing of the liquor are grown and produced in the State by the license holder.

Your Committees received testimony in support of this measure from LBD Coffee, LLC and Lanikai Brewing Company.

Your Committees find that there is a desire to grow and produce agricultural products for the manufacturing of liquor. However, your Committees further find that under existing law, a person may be denied a class 1 liquor license if a majority of neighbors protest or object to the application. Your Committees believe that there is merit in diversifying the agricultural industry in the State by exempting agricultural producers who wish to use their own agricultural products to produce liquor from being disqualified by a majority protest of their neighbors when seeking a class 1 liquor license.

Your Committees have amended this measure by:

- (1) Exempting applications for a class 18 license, in addition to class 1 licenses, on land designated as agricultural by state or county zoning laws and for which the majority of the agricultural commodities used in the manufacturing of the liquor are grown and produced in the State by the license holder; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 175, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 175, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (English).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 329 (Joint/Majority) Water and Land and Agriculture and Environment on S.B. No. 226

The purpose and intent of this measure is to:

- (1) Allow the Governor to negotiate land exchanges to acquire lands suitable for long-term diversified agricultural production in return for state lands to be developed for affordable, workforce, and other housing; and
- (2) Require the Governor to report to the Legislature any potential or negotiated land exchanges for final legislative approval.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau, Agribusiness Development Corporation, Ulupono Initiative, and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Office of Planning and Office of Hawaiian Affairs.

Your Committees find that this measure provides the State with opportunities to negotiate mutually beneficial land exchanges with private landowners to reach its goals of food security and sustainability.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 226 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Rhoads, Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 330 (Joint/Majority) Water and Land and Agriculture and Environment on S.B. No. 367

The purpose and intent of this measure is to waive the requirement for Section 401 Water Quality Certification for any applicant that has received a notice of authorization to proceed from the Department of Land and Natural Resources, Office of Conservation and Coastal Lands under its small-scale beach restoration program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, and Hawai'i Shore and Beach Preservation Association.

Your Committees find that waiving the requirement of water quality certification for small-scale beach restoration projects will result in the efficient administration of site-specific water pollution control and more practical and realistic erosion control alternatives to the deleterious practice of coastal armoring. Your Committees further find that the intent of this measure is not to undermine provisions of the Federal Clean Water Act. According to testimony received by your Committees, the Department of Land and Natural Resources will enforce permit conditions that are consistent with Section 401 of the Federal Clean Water Act pertaining to beach restoration and water quality protection.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 367, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 367, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

Agriculture and Environment: Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 331 Water and Land on S.B. No. 1173

The purpose and intent of this measure is to:

- (1) Establish the ocean stewardship special fund for the collection and use of moneys for the conservation, restoration, and enhancement of the State's marine resources; and
- (2) Authorize the Department of Land and Natural Resources to collect non-resident fees for the use and enjoyment of the State's ocean resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, University of Hawai'i Sea Grant College Program, Kua'āina Ulu 'Auamo, Kauhako Ohana Association, The Nature Conservancy, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, and five individuals. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition, Banyan Tree Divers Maui, Extended Horizons Scuba, Teralani Sailing Charters, Mike Severns Diving, Atlantis Adventures, Dive Maui, Hawaiian Rafting Adventures, Jack's Diving Locker, and four individuals.

Your Committee finds that this measure would create a sustainable source of funding for the Department of Land and Natural Resources to further the management, research, restoration, and enhancement of marine resources in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1173, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 332 (Joint) Agriculture and Environment and Water and Land on S.B. No. 340

The purpose and intent of this measure is to amend certain land subdivision and condominium property regime laws related to agricultural land, as recommended pursuant to Act 278, Session Laws of Hawaii 2019, to ensure:

- (1) Farm dwellings on agricultural lands are accessories to a farm, or where the agricultural activities provide income of no less than \$10,000 per year to the family occupying the dwelling, and verified by general excise tax return filing or agricultural tax dedication;
- (2) Structures on subdivided leasehold subdivisions of agricultural land are subject to county enforcement authority; and
- (3) Applications for registration of condominium property regimes of agricultural land include county comments regarding the availability of supportive infrastructure, any potential impact on government plans and resources, other requirements pursuant to county ordinances and rule, and the developer's public report pursuant to section 514B-52, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Commerce and Consumer Affairs Real Estate Commission, Office of Planning, one member of the County Council of Maui, City and County of Honolulu Department of Planning and Permitting, Hawai'i Farm Bureau, Ulupono Initiative LLC, and three individuals.

Your Committees find that designating land for agricultural uses can increase the long-term sustainability of local agricultural production. Your Committees further find that to ensure that agricultural lands are being utilized appropriately, the Legislature enacted Act 278, Session Laws of Hawaii 2019, which directed the Office of Planning, in consultation with other agencies, to study land subdivision and condominium property regime laws relating to agricultural lands. As a result, the Office of Planning submitted recommendations to the Legislature on how to better enforce requirements that agricultural lands are used for agricultural purposes.

Your Committees further find that the State must ensure that agricultural lands are being used for agriculture and improve its enforcement of requirements that agricultural uses are taking place on agricultural lands. This measure amends certain land subdivision and condominium property regime laws related to agricultural land, as recommended by the Office of Planning in its study of subdivision and condominium property regimes on agricultural lands on Oahu to ensure agricultural lands that are organized under a condominium property regime are used for agricultural purposes. In addition, this measure allows meaningful county input in the condominium property regime process involving agricultural lands to ensure availability of necessary supportive infrastructure and identify and mitigate any potential negative impacts to environmentally or culturally significant resources.

Your Committees discussed allowing small scale farmers to retain the right to have small dwellings for farmer or farmhands live close to their crops, consistent with traditional farming and a way to reduce crime that happens on farmlands. Your Committees considered allowing for small dwellings not more than five hundred square feet, including trailers and campers to be permitted to be constructed on the leased area. Your Committees find that this issue raises concerns that merit further consideration and requests that your Committee on Commerce and Consumer Protection further examine those issues and concerns raised on this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 340 and recommend that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 333 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 997

The purpose and intent of this measure is to allow county governments to have the ability to enter into private-public partnerships for services and transfer wastewater treatment facility management and operation responsibilities to private entities.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Council Chair of the County of Maui, one councilmember from the Hawai'i County Council, County of Hawai'i Department of Environmental Management, Ulupono Initiative LLC, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; and two individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Department of Taxation.

Your Committees find that the counties are facing the critical need to invest in costly upgrades of its aging wastewater infrastructure, under time sensitive legal conditions with limited available financial resources and must focus current environmental management practices toward a modern resource recovery model. Current wastewater systems throughout the State are outdated and require major upgrades and the replacement of entire facilities. Estimated costs for these systems are in excess of \$500,000,000 in capital improvement project funds and \$1,000,000,000 in resource recovery systems funding.

For these reasons, Hawaii's wastewater treatment systems will require state-of-the-art facilities that private entities, through their experience in resource recovery services, technological expertise, and economies of scale, can provide more economically and effectively than county governments.

Your Committees further find that throughout Hawaii, county wastewater treatment departments seek to explore public-private partnerships allowed under section 323F-7.6, Hawaii Revised Statutes, including undertaking formal solicitation efforts to gauge the interest of potential private partners both on a local and national level. However, in *Konno v. County of Hawaii*, 937 P.2d 397 (1997), the Hawaii Supreme Court held that public landfill worker positions were "civil service" positions governed by merit principles and thus Hawaii County violated civil service statutes and article XVI, section 1, of the Hawaii State Constitution when it privatized its landfill operations. This holding has limited counties in their ability to establish effective business models that would create resource recovery systems that are regulatory compliant, and environmentally and financially sound.

Your Committees also find that potential partners are hesitant to work with the counties in evaluating opportunities for the delivery and operation systems for wastewater resource recovery without enabling legislation that would address logistical and structural issues related to these systems for wastewater resource recovery. Therefore, this measure seeks to enable county governments to establish public-private partnerships that would create resource recovery systems that are regulatory compliant, and environmentally and financially sound, and provide protection of workers and affords them the right to fair and just wages and benefits.

Your Committees have heard the concerns that this measure would subsidize or otherwise encourage the sale or lease of public infrastructure to private investors or subsidize or otherwise encourage public-private partnerships that will result in private control or operation of public assets.

Your Committees have amended this measure by:

- (1) Placing the new part in chapter 46, Hawaii Revised Statutes, relating to county organization and administration, rather than chapter 340B, Hawaii Revised Statutes, relating to wastewater treatment personnel;
- (2) Defining "full scale resource recovery facilities";
- (3) Providing that the "transferred facility" means a wastewater treatment facility within the State for which the right and responsibility to design, construct, manage, operate, and otherwise provide wastewater treatment services at the facility to be transferred to the private entity or its nonprofit management entity;
- (4) Deleting language that would have required agreements negotiated by the counties and entered into by the private entity and the counties to include provisions and deadlines for conducting and completing due diligence, because due diligence occurs before an agreement is entered for a transaction of this nature and is not therefore addressed in the same agreement of the transfer itself;
- (5) Clarifying what items over which the county will retain administrative oversight;
- (6) Deleting references to Act 262, Session Laws of Hawaii 1996;
- (7) Stating that licensing and accreditation requirements shall apply to the private entity's wastewater operators, not the entity itself:
- (8) Adding additional requirements to expand the submission of tax clearances from the Director of Taxation;
- (9) Providing that the Department of Taxation has authority to mandate the electronic filing of the tax clearance application;
- (10) Establishing annual auditing and reporting, disclosure of revenue projections, and internal performance audit requirements;
- (11) Deleting language that would have required an alteration to a collective bargaining agreement that intrudes beyond the county's jurisdiction to only be effective upon consent of the other jurisdiction;
- (12) Revising the definition of "resource recovery facility" in chapter 340A, Hawaii Revised Statutes, to explicitly encompass other resources the county desires to recover, such as water and gas;
- (13) Removing unintended references to the Hawaiian Health Services Corporation; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 997, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 997, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Acasio, Fevella). Noes, 1 (Rhoads). Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Misalucha). Noes, 1 (Fevella). Excused, none.

SCRep. 334 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 1313

The purpose and intent of this measure is to require the:

- (1) Department of Agriculture to allow for the permitted importation of northern largemouth bass and butterfly peacock bass into Hawaii; and
- (2) Department of Land and Natural Resources' Division of Aquatic Resources to establish a pilot project to restock the Wahiawa public fishing area with northern largemouth bass, butterfly peacock bass, or both.

Your Committees received testimony in support of this measure from Animal Rights Hawai^{*}i, Hawaii Freshwater Fishing Association, Wahiawa Community Based Development Organization, and seventeen individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Department of Agriculture and the Department of Land and Natural Resources.

Your Committees find that the northern largemouth bass has existed in the State's artificial reservoirs since 1896, and butterfly peacock bass have existed since 1957. Your Committees find that attempts to import largemouth bass into the State to improve the fishing stock have faced regulator restrictions. Thus, this measure seeks to streamline the process to import live northern largemouth bass and butterfly peacock bass to enhance and support the pre-existing populations for continued recreational fishing.

Your Committees have heard the testimony of the Department of Land and Natural Resources expressing concerns that it is not able to undertake the establishment of the pilot project to restock the Wahiawa public fishing area because it does not have the fiscal resources to undertake this project. The Department provided that the biologist position that manages the Wahiawa reservoir activities has been frozen due to budget restrictions, causing a lack of capacity to expand operations at the reservoir. Your Committees find that this issue raises concerns that merit further consideration and request that your Committees on Judiciary and Ways and Means further examine those issues and concerns raised by the Department of Land and Natural Resources on this measure.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Agriculture shall only issue permits to the Department of Land and Natural Resources for the importation of the northern largemouth bass and butterfly peacock bass into Hawaii; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1313, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Acasio, Nishihara, Rhoads). Noes, 1 (Fevella). Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Misalucha, Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 335 Transportation on S.B. No. 376

The purpose and intent of this measure is to prohibit the use, sale, alteration, or installation of loud motor vehicle mufflers.

Your Committee received comments on this measure from one individual.

Your Committee finds that aftermarket mufflers can be excessively loud and are a major source of noise pollution which negatively affects the quality of life of residents. Most, if not all, vehicles come stock from the manufacturer with mufflers that emit noise at levels that are reasonable. Therefore, if an owner of a motor vehicle needs to replace their muffler there are options available that would not contribute to excessive noise pollution and disrupt the quality of life for other residents. This measure will prohibit the sale, installation, or modification of mufflers that emit more than ninety-five decibels of sound.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 376 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 336 Transportation on S.B. No. 792

The purpose and intent of this measure is to increase the penalties for violating certain provisions relating to the installation or possession of noisy mufflers.

Your Committee received testimony in support of this measure from the Waikiki Neighborhood Board No. 9.

Your Committee finds that many residents are concerned with the noise pollution from loud mufflers, particularly from motorcycles and mopeds. The excessive noise from these mufflers can have negative impacts on public health and safety, as well as quality of life. Your Committee further finds that existing law and penalties have done little to deter violators from installing or possessing excessively noisy mufflers. This measure will increase the fines that may be issued for violating the loud muffler laws.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 337 Transportation on S.B. No. 771

The purpose and intent of this measure is to

- (1) Establish the offense of theft of a bicycle; and
- (2) Establish penalties for conviction of the offense of theft of a bicycle.

Your Committee received testimony in support of this measure from the Hawaii Bicycling League and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that many more people are commuting by bicycle than ever before. Due to the high cost of living in the State, including parking expenses, gasoline prices, and upkeep of motor vehicles, more people are relying on bicycles as their primary mode of transportation. When a bicycle is stolen from someone who uses it as their primary mode of commuting to and from work, it hampers their ability to earn an income. Existing law does not have an express provision for the theft of a bicycle. This measure will serve to deter bicycle theft.

Your Committee has amended this measure by:

- (1) Classifying theft of a bicycle as an offense under theft in the second degree, a class C felony, in section 708-831, Hawaii Revised Statutes, instead of creating a new statute to classify the offense of theft of a bicycle;
- (2) Adding the definitions of "bicycle" and "toy bicycle" to section 708-800, Hawaii Revised Statutes;
- (3) Deleting language that would have exempted theft of a bicycle from inclusion in the offense of habitual property crime; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 771, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 771, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 338 Transportation on S.B. No. 908

The purpose and intent of this measure is to extend the driver's license renewal period for licensees who are between the ages of seventy-two and eighty, provided that the licensee's driving record does not include two or more moving traffic violations after the licensee turned seventy-two years old.

Your Committee received testimony in support of this measure from the Department of Transportation, AARP Hawaii, and five individuals.

Your Committee finds that there may be a benefit to reducing license renewal requirements, however they must be weighed against any risk to public safety. The issue is appropriate for further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 908, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 339 Transportation on S.B. No. 915

The purpose and intent of this measure is to authorize the issuance of special license plates commemorating Duke Kahanamoku.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Duke Kahanamoku should be recognized for his contributions to the State. Duke was a lifeguard, a record-setting swimmer, a four-time Olympic medalist, a sheriff of the City and County of Honolulu, a world-renown surfer, and the State's original ambassador of aloha. He has been inducted into the Hawaii Waterman Hall of Fame, U.S. Olympic Hall of Fame, International Swimming Hall of Fame, and International Surfing Hall of Fame. It is therefore appropriate that he be honored with a special license plate to further promote his legacy of aloha.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 915, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 340 Transportation on S.B. No. 1007

The purpose and intent of this measure is to:

- (1) Improve roadway safety by establishing a framework for the regulation of electric foot scooters by the State and counties; and
- (2) Amend the definition of "moped" to exclude electric foot scooters.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of Transportation Services, City and County of Honolulu Department of Customer Services, Lime, and Spin. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii State Energy Office.

Your Committee finds that electric foot scooters and other micromobility options have enormous potential to be a solution to reducing transportation costs, vehicle congestion on Hawaii's roads, dependence on fossil fuels, and pollutants and harmful emissions.

These vehicles are also a good option for first-mile/last-mile connections for many who use public transit as a primary mode of transportation. Your Committee further finds that given the frequency with which these scooters are seen on the roads, it is necessary to appropriately regulate these vehicles. This measure establishes a framework for the regulation of electric foot scooters by the State and counties and amends the definitions of "moped" to exclude electric foot scooters.

Your Committee has amended this measure by:

- (1) Requiring that operators of electric foot scooters need to be at least fifteen years old;
- (2) Requiring that electric foot scooters shall only be publicly stored or docked at specific locations authorized by a county;
- (3) Clarifying that electric foot scooters shall be registered in accordance with section 249-14, Hawaii Revised Statutes, relating to bicycle fees;
- (4) Making conforming amendments to sections 249-14, 249-14.2, 249-14.5, 249-15, 249-16, Hawaii Revised Statutes, to include electric foot scooters in the regulations for registration and transfers of ownership; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1007, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 341 Human Services on S.B. No. 537

The purpose and intent of this measure is to formally recognize American Sign Language as a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawai'i Civil Rights Commission, Hawaii Disability Rights Center, and four individuals.

Your Committee finds that American Sign Language (ASL) is the primary language of many persons who are deaf or hard of hearing in the United States, including residents of Hawaii. Your Committee further finds that, although ASL is a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage, it was erroneously viewed for many years as a pantomime and a poor substitute for spoken speech. Your Committee additionally finds that recognizing ASL as a language will create more equitable access in numerous areas, including employment, public awareness, and civic participation.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 342 Energy, Economic Development, and Tourism on S.B. No. 931

The purpose and intent of this measure is to eliminate the use of fossil fuels in Hawaii for electricity generation and storage by:

- (1) Prohibiting, with an unspecified date, any new extension, improvements, overhauling, or refurbishing of any fossil fuel electricity generation or fossil-fuel powered electricity use for grid-tied battery energy storage; and
- (2) Prohibiting, by an unspecified date, the use of fossil fuels for electricity generation or grid-tied battery energy storage.

Your Committee received testimony in support of this measure from the Hawaii Clean Power Alliance, Environmental Caucus of the Democratic Party of Hawai'i, 350Hawaii, Climate Protectors Coalition, Tesla, and three individuals. Your Committee received testimony in opposition to this measure from Hawaiian Electric, Kaua'i Island Utility Cooperative, and IBEW Local 1260. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Hawaii State Energy Office.

Your Committee finds that it is important to eliminate fossil fuels for electricity generation and storage by transitioning away from fossil fuels and towards a clean energy economy powered by one hundred percent renewable energy.

Your Committee further finds that the State has also committed to reducing carbon emissions. The renewable energy transformation will help to stabilize and strengthen Hawaii's economy by reducing its dependency on imported and price-volatile fossil fuels, foster innovation and clean energy job growth, help protect Hawaii's environment by greatly reducing carbon emissions by replacing fossil fuel energy with renewable energy, and positioning Hawaii as a global leader in renewable energy and climate solutions.

Your Committee also finds that it is important to implement specific deadlines to reach these benchmarks and that routine maintenance of existing generation sources will help to provide continued delivery of reliable electricity.

Your Committee has amended this measure by:

(1) Amending section 2 by prohibiting the Public Utilities Commission from approving or extending, after December 31, 2035, any new, extension, improvements, overhauling, or refurbishing of any fossil fuel electricity generation facilities or fossil-fuel powered grid-tied battery energy storage system resource, except for routine maintenance or minor repairs up to \$2,500,000 per existing facility in order to maintain reliability;

- (2) Amending section 2 by prohibiting, after December 31, 2045, the use of fossil fuels for electricity generation or grid-tied battery energy storage; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 931, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 343 Energy, Economic Development, and Tourism on S.B. No. 1053

The purpose and intent of this measure is to expand the eligibility of organizations that can receive Community-based Economic Development (CBED) technical assistance.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawai'i Primary Care Association.

Your Committee finds that technical assistance is an important component of CBED technical assistance and should not only support community-based organizations, but also for-profit businesses, including recipients of CBED microloans. Your Committee further finds that expanding those organizations that are eligible for CBED technical assistance will allow the Department of Business, Economic Development, and Tourism (DBEDT) to better assist in their success and viability. This measure will provide greater opportunity for for-profit businesses to participate in the CBED program and also enable DBEDT's CBED program to be more responsive in addressing community-based economic development needs and opportunities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1053, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 344 (Majority) Energy, Economic Development, and Tourism on S.B. No. 1033

The purpose and intent of this measure is to make an emergency appropriation of general funds to the Stadium Authority to allow the Aloha Stadium to continue to maintain and operate the facility in a safe condition for the public. Funds are authorized to be used for the following expenses:

- (1) Payroll;
- (2) Various repairs and maintenance;
- (3) Contracts for services; and
- (4) Operating equipment.

Your Committee received testimony in support of this measure from the Stadium Authority.

Your Committee finds that due to the coronavirus disease 2019 (COVID-19), the Aloha Stadium and its iconic Aloha Stadium Swap Meet and Marketplace were closed to the public beginning in March 2020. Your Committee believes it is important that the Aloha Stadium receive a general cash appropriation of \$1,500,000 in order to carry it through the fiscal year 2020-2021 and provide sufficient cash to begin the next fiscal year to maintain and operate the Aloha Stadium in a safe, efficient, and compliant manner.

Your Committee further finds that the \$1,500,000 appropriation provides the general funds required to minimally operate and maintain the Aloha Stadium for a limited period of time, and that the Stadium Authority has taken cost-cutting measures in light of the projected budget shortfall.

Accordingly, your Committee highly encourages the Stadium Authority to explore creative outlets, options, and programming ideas to make better use of the Aloha Stadium facility, increase its revenue, and support the needs of the public. Your Committee also encourages the Stadium Authority and the University of Hawaii Athletics Department to work together and collaborate to develop a comprehensive plan that allows the Aloha Stadium to continue to host Rainbow Warrior football games.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1033, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Misalucha, Riviere). Noes, 1 (Fevella). Excused, 1 (Lee).

SCRep. 345 Energy, Economic Development, and Tourism on S.B. No. 1058

The purpose and intent of this measure is to expand the funding sources and the authorized uses of the Hawaii Film and Creative Industries Development Fund by:

- (1) Amending the Hawaii Film and Creative Industries Development Special Fund to expand is funding sources and the authorized uses of the fund; and
- (2) Making an appropriation out of the Hawaii Film and Creative Industries Development Special Fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that Act 228, Session Laws of Hawaii 2019, renamed the Hawaii Television and Film Development Special Fund as the Creative Film and Media Development Special Fund and intended that the fund be used to support creative intellectual property and related infrastructure development. Your Committee heard testimony from the Department of Business, Economic Development, and Tourism explaining that this measure would allow the revenues generated from its film facilities in Kalaeloa and on Diamond Head to be deposited into the Creative Film and Media Development Special Fund instead of the general fund. Expanding the authorized uses of the funds will help the Department to effectuate the purposes of Act 228.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1058, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 346 Energy, Economic Development, and Tourism on S.B. No. 927

The purpose and intent of this measure is to provide an income tax exclusion of up to \$50,000 per year in income earned and proceeds derived from stock options or stock by an employee from a qualified high technology business or an investor who qualified for a high technology business investment tax credit, pursuant to section 235-110.9, Hawaii Revised Statutes, provided that:

- (1) The employee or investor is a resident of the State; and
- (2) Amounts in excess of \$50,000 in the taxable year shall be taxed at the applicable income tax rate.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, Tax Foundation of Hawaii, Hawaii Technology Development Corporation, and TechMana LLC.

Your Committee finds that this measure limits the amount of the exclusion for income earned and proceeds derived from stock options or stock from one hundred percent of such income earned to \$50,000. In addition, your Committee finds that the measure limits the availability of the income tax exclusion to certain employees and investors based on whether they are a resident of the State. Your Committee received testimony from the Department of the Attorney General, which noted that a restriction based on residency does not appear to achieve an overall substantial equality of treatment between residents and nonresidents as required by the United States Constitution.

Accordingly, your Committee has amended this measure by removing the requirement that the taxpayer must be a resident of the State in order to be eligible for the tax exclusion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 927, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 927, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 347 Energy, Economic Development, and Tourism on S.B. No. 963

The purpose and intent of this measure is the issuance of special purpose revenue bonds to assist HK Management, LLC, in planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improving a surf industry center in Kalaeloa on Oabu

Your Committee received testimony in support of this measure from Kai Law, LLC, and nine individuals. Your Committee received comments on this measure from Department of Budget and Finance.

Your Committee finds that HK Management, LLC, was selected to develop the Surf Industry Center and believes that its development will advance the State's interest by promoting Hawaii's surfing and film industries, cultural education, smart tourism, and economic development. Your Committee also finds that the surf center will provide other benefits, which include:

- (1) Supporting local surf-related businesses;
- (2) Providing a world-class surf and aquatic film studio;
- (3) Providing an artificial surf facility to serve as a training and meet venue; and

(4) Providing employment opportunities and promoting awareness of surf history and Hawaii surf culture.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 963 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 348 Energy, Economic Development, and Tourism on S.B. No. 930

The purpose and intent of this measure is to facilitate the timely interconnection and transmission lines for utility-scale renewable energy projects.

Your Committee received testimony in support of this measure from Hawaii Clean Power Alliance and the Democratic Caucus Environmental Committee. Your Committee received testimony in opposition to this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, and Public Utilities Commission.

Your Committee finds that accelerating the development of renewable energy in order to reduce greenhouse gases is a high priority and the Legislature has enacted numerous measures to achieve this objective. Your Committee further finds that there have been significant delays for Hawaiian Electric to complete its interconnection process so that utility-scale renewable energy projects know how they may interconnect with Hawaiian Electric's grid allowing them to begin construction.

Your Committee further finds that facilitating the timing of interconnection will help bring utility-scale renewable projects online sooner and further the State's prospects of meeting its ambitious renewable portfolio standards, clean energy, and carbon reduction goals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 930, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 349 Energy, Economic Development, and Tourism on S.B. No. 929

The purpose and intent of this measure is to:

- Provide timely review by the Public Utilities Commission in its decision-making process regarding proposed renewable energy projects; and
- (2) Require timely completion of the interconnection process by electric public utilities.

Your Committee received testimony in support of this measure from the Hawaii Clean Power Alliance. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, and Ulupono Initiative.

Your Committee finds that it is necessary for the State to aggressively pursue the goal of carbon negativity to mitigate the potentially catastrophic results of such things as sea level rise caused by continued greenhouse gas emissions. Your Committee further finds that in order for the State to move closer to its carbon negative target as soon as possible, continual progress, timely approval, commencement of construction, and competition of renewable energy project is of paramount importance. In particular, the timely review by the Public Utilities Commission in its decision-making process regarding proposed renewable energy projects and the timely completion of the interconnection process by electric public utilities is critical.

Your Committee further finds that there are instances where the timely completion of the interconnection process may not be feasible and the interconnection process should have a certain degree of flexibility to adjust for changes due to permitting requirements, financing restrictions, community feedback, or other issues that could impact the fundamental design of an interconnection and change the scope and timing of the interconnection process.

Your Committee also finds that when these situations occur and the electric public utility and developer are in agreement, the completion timeline should be lifted to allow for additional completion time.

Your Committee has amended this measure by:

- (1) Amending section 2 to allow for the extension of the timeline for completion of the interconnection process between an electric public utility and developers, when both parties agree to the extension;
- (2) Specifying that any agreement between the electric public utility and developers to extend the timelines does not apply to or modify the timeline for completion of the interconnection process between the Public Utilities Commission and any other project of the utility; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 929, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 929, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Riviere). Noes, none. Excused, none.

SCRep. 350 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 335

The purpose and intent of this measure is to require the Department of Agriculture and Agribusiness Development Corporation to annually lease at least fifty percent of land leased or up for lease renewal to operations whose primary business is local food production.

Your Committees received testimony in support of this measure from one councilmember of the Kaua'i County Council, one councilmember of the Hawai'i County Council, EcoTipping Points Project, The Friends of Makakilo and Save O'ahu Famlands Alliance, Kauai Climate Action Coalition, Malama Kauai, Americans for Democratic Action, Hawai'i SEED, Pele Lani Farm LLC, Hawai'i Center for Food Safety, Pono Hawai'i Initiative, Food+ Policy Internship University of Hawai'i West O'ahu, Hawai'i Alliance for Progressive Action, OrganicHawaii.org, and ninety-eight individuals. Your Committees received testimony in opposition to this measure from the Department of Agriculture; Umi's Farm; Kaua'i Island Utility Cooperative; Green Point Nurseries, Inc.; Kaua'i Chamber of Commerce; and three individuals. Your Committees received comments on this measure from the Agribusiness Development Corporation and two individuals.

Your Committees find that the Agribusiness Development Corporation was established in 1994, to transform large tracts of land becoming available due to the downsizing of the sugar and pineapple industries into economically viable farms. Hawaii now faces different issues in sustainable agriculture and local food production, especially considering the coronavirus disease 2019 (COVID-19) pandemic and the economic crisis that has followed. According to the Agribusiness Development Corporation's 2019 report to the Legislature, the Corporation manages over 22,000 acres of public agricultural lands with significant potential to shape the State's agricultural public policy toward the goal of food self-sufficiency. The lack of affordable agricultural land with long-term leases is cited as a key inhibitor of the growth and expansion of local agriculture.

Your Committees further find that in 2021, the State Auditor published an audit of the Agribusiness Development Corporation. The audit concluded that though the Corporation was established more than twenty-five years ago to develop an "aggressive and dynamic" agribusiness development program to fill the economic void created by the closure of the sugar and pineapple plantation, the agency has done little to fill the void. The audit also concluded that the land management struggles, including inconsistent, incomplete, and, in many cases, non-existent recordkeeping, prospective tenants occupying lands without signed written agreements, and persistent criminal activity on its properties, expose the State to unnecessary risk. Additionally, the audit noted that Agribusiness Development Corporation's Board of Directors provides minimal guidance and oversight to the Corporation. A great majority of Agribusiness Development Corporation's land and water holdings have been leased to agrochemical corporations for experimental research and developing herbicide-resistant seed corn for export.

The Agribusiness Development Corporation's management and alleged misuse of Hawaii's prime agricultural lands has been linked to contamination and pesticide drift concerns, as well as violations of the Clean Water Act, Best Management Practices, and other environmental laws. Overall, these findings suggest that their land management struggles may have hindered Hawaii's potential for a diversified and sustainable food economy. Therefore, this measure seeks to ensure that the Agribusiness Development Corporation prioritizes food production for local consumption.

Your Committees have heard concerns from the Department of Agriculture that this measure would severely limit the income of some farms and harm diversified agricultural sectors, such as nurseries, crops for export, agroforestry, and energy crop production, not all department lands are suitable for food production due to soil quality and slope of land, local produce prices are influenced by imported crops, and the Department currently maintains the authority to establish other terms and conditions it deems necessary on leases. Your Committees have also heard testimony that this measure could result in cancelation of an important renewable energy project on Kauai's west side, which will bring Kauai to more than eighty percent of renewable generation.

Your Committees have amended this measure by:

- (1) Inserting language to include among the members of the Board of Directors of the Agribusiness Development Corporation two representatives of local farmers' or ranchers' associations, as nominated by the chairs of the House of Representatives and Senate Committees on agriculture;
- (2) Reducing the number of at-large members on the Board of Directors of the Agribusiness Development Corporation from four to two;
- (3) Requiring meetings of the Board of Directors of the Agribusiness Development Corporation to be subject to sunshine law requirements under part I of chapter 92, Hawaii Revised Statutes;
- (4) Inserting language to require the Department of Agriculture and Agribusiness Development Corporation to lease at least fifty percent of certain lands for purposes that support food or crop production for local consumption, in addition to agricultural operations whose primary business is food or crop production for local consumption; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 335, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 335, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 351 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 934

The purpose and intent of this measure is to exempt hydrogen fuels from petroleum product measurement requirements.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Center for Advanced Transportation Technologies, Alliance for Automotive Innovation, Hawaii Food Industry Association, Servco Pacific Inc., Hawaii Gas, Ulupono Initiative LLC, Hawaii Automobile Dealers' Association, and Blue Planet Foundation. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that hydrogen, as a renewable fuel, offers great promise for Hawaii. Your Committees further find that the existing measurement standards law implies that hydrogen must be sold based on measure, yet the State currently does not have a means to measure and certify hydrogen dispensers. This measure will assist the State in utilizing other forms of renewable fuels by explicitly exempting hydrogen from measurement standards relating to fuel.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 934 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 352 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 1248

The purpose and intent of this measure is to establish a new agricultural enterprise program within the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under the jurisdiction of the Department, to support and promote agriculture, and to accept the transfer of qualifying agricultural enterprises and agricultural enterprise lands from the Department of Land and Natural Resources for the program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Larry Jefts Farms, LLC; Kauai Nursery & Landscaping, Inc.; Lokelani Ranch/7th Veil, LLC; Ka'u Royal Hawaiian Coffee and Tea, LLC; Land Use Research Foundation of Hawaii; East O'ahu County Farm Bureau; Ulupalakua Ranch; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; MetroGrow Hawaii; Ponoholo Ranch Limited; Hawaii Farm Bureau; Jay's Hog Farm; Ulupono Initiative LLC; Hawaii Aquaculture & Aquaponics Association; MauiGrown Coffee, Inc.; Scott E. Enright Company, LLC; Kualoa Ranch Hawaii; Ag Matters, LLC; and ten individuals.

Your Committees find that article XI, section 3, of the Hawaii State Constitution establishes in part that the "State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands." Your Committees further find that many diversified farming operations do not have adequate resources to expand or maximize their productivity. Your Committees believe that it is in the State's best interest to give the Department of Agriculture flexibility to move forward with agricultural educational training, farmers' markets, and food hubs and processing facilities on state agricultural lands to promote and support diversified agriculture and ensure agricultural sustainability.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1248 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 353 Government Operations on S.B. No. 135

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to conduct a study to determine appropriate state office buildings that can provide equitable telecommunication access to allow residents to remotely participate in legislative hearings for the counties of Hawaii, Kauai, and Maui and rural areas of the City and County of Honolulu.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and one individual. Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that as an island state, Hawaii's geography and transportation challenges pose particular hardships for residents of the counties of Hawaii, Kauai, and Maui to actively participate in the legislative process via in-person testimony at committee hearings. Neighbor island residents who physically attend legislative committee hearings to testify on measures incur significant air travel, lodging, and other transportation costs, and often have to take time off from work. This measure is the first step to allow neighbor island residents and other residents who live far from the State Capitol to participate in committee hearings via remote testimony, which will promote equal access to the legislative process and encourage greater civic participation. Your Committee further finds that it is important to ensure that the state office buildings identified through the study are also able to allow persons with disabilities to provide live, real-time remote testimony.

Your Committee has amended this measure by requiring that the buildings identified by this measure are equally accessible to persons with disabilities.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 135, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 135, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

SCRep. 354 Government Operations on S.B. No. 222

The purpose and intent of this measure is to require the Comptroller's annual report to the Governor and Legislature to include a list of all accounts that were closed by the Comptroller during the immediately preceding fiscal year, and a list of accounts that remain open but that are serving a lapsed program or initiative.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that although the Department of Accounting and General Services (DAGS) reports on closed accounts, departments do not always report accounts that are open but inactive and serving lapsed funds. According to testimony received by your Committee, DAGS recently initiated a contract review for existing encumbrances five years or older based on the date of the contract, and will continue to review contract encumbrances on a periodic basis to assess which contracts should be closed to unencumber appropriate funds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 222, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 355 Government Operations on S.B. No. 332

The purpose and intent of this measure is to amend the powers and duties of the Comptroller to reduce the preaudit requirements of all proposed payments to expenditures by:

- (1) Increasing the minimum dollar amount of payments to be preaudited from \$10,000 to \$100,000; and
- (2) Allowing, rather than requiring, the Comptroller to preaudit proposed payments of expenditures below \$100,000.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the State's forty-five year old accounting software system is a dated processing system that requires substantial human intervention and paper processing because it was not designed with automated checks and balances embedded in the programming methodology. Your Committee notes that the increased delegation of authority to the departments by this measure will also place additional responsibility for compliance and accuracy at the department level. According to testimony received by your Committee, thorough and accurate transaction information submitted to the Department of Accounting and General Services is processed expeditiously by the following business day. Your Committee further finds that updating the preaudit process for proposed payments can help the State provide more effective, efficient, and expeditious services to the public. Your Committee further notes that the new Financial Management System project, which will replace the outdated manual process, will also help preserve and strengthen the integrity of the Comptroller's pre-audits and post-audits.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 332, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 356 Government Operations on S.B. No. 787

The purpose and intent of this measure is to:

- (1) Require that revenue estimates provided by the Department of Taxation to the Legislature or to any executive or administrative office be accompanied by a description of the methodology used and assumptions made in providing the estimate; and
- (2) Require the estimate and description to be open to public disclosure.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the existing language of this measure may inadvertently mandate the disclosure of confidential taxpayer information. According to testimony received by your Committee, the disclosure of confidential taxpayer information leads to distrust in the voluntary tax compliance system and the erosion of tax revenue. Your Committee finds that the Department of Taxation can provide the estimate and description required in this measure without disclosing any confidential taxpayer information.

Your Committee has amended this measure by removing language that would have exempted the revenue estimate and description from laws that restrict the disclosure of a tax return or tax return information.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 787, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 787, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 357 Government Operations on S.B. No. 788

The purpose and intent of this measure is to improve the efficiency and cost-effectiveness of the State's procurement of goods, services, and construction by:

- (1) Requiring that past performance be considered in the bid selection of contractors for certain contracts;
- (2) Requiring procurement officers to consider past performance and conduct past performance evaluations and maintain the record of the evaluations; and
- (3) Repealing the requirement that an offeror give notice of their intention to submit a bid ten calendar days before the date of opening offers.

Your Committee received testimony in support of this measure from the Department of Transportation and Subcontractors Association of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services and City and County of Honolulu Department of Design and Construction. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that this measure is intended to decrease repeated inefficiencies, substandard work, and other forms of poor performance on state contracts by requiring the evaluation of past performance in the bid selection of contractors for certain projects. However, according to testimony received by your Committee, the State Procurement Code currently allows procuring agencies to consider past performance, when appropriate. In addition, multiple testifiers expressed concerns on mandating the evaluation of past performance on all state bids and solicitations, citing potential increases in administrative burden, bid protests, and delays in project award, execution, and delivery, all which could lead to lapsed funding or increased final costs. The Department of Accounting and General Services also indicated that this measure may add undesirable subjectivity to the bid selection process.

Your Committee understands these concerns and notes that S.B. No. 1017 (Regular Session of 2021), is a substantially similar measure that has inclusive language containing the necessary steps to implement past performance criteria in a bid or offer for a public works project. S.B. No. 1017 implements certain recommendations of the procurement policy review conducted pursuant to House Resolution No. 142, Regular Session of 2016. Your Committee notes that these recommendations were made to increase economy, efficiency, effectiveness, and impartiality in public procurement by aligning the state procurement process to the federal procurement process, while safeguarding against the possibility of subjectivity in the bid selection process. Your Committee further notes that the language of S.B. No. 1017 is preferable because it not only addresses the issue of poor performance in public procurement, but also addresses procurement issues such as bid shopping while allowing state agencies the flexibility to weigh selection criteria when procuring services from design professionals and to negotiate price adjustments on the successful bid for construction as their federal counterparts.

According to multiple testimonies received by your Committee, the repeal of the requirement to disclose the scope and nature of work to be performed by subcontractors, although intended to decrease the amount of bid protests on technical mistakes and unintentional errors, would, in fact, increase the practice of bid-shopping as there would be no way for the State Procurement Office, listed subcontractor, other bidders, and stakeholders to verify the portion of work a subcontractor is to perform. Your Committee further finds that bid shopping reduces the quality of work, discourages competition, inflates prices, and promotes unethical and unfair business practices.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1017, a similar measure, which implements certain recommendations made by the State Procurement Office's review of Hawaii procurement laws conducted pursuant to House Resolution No. 142. Regular Session of 2016, by:
 - (A) Allowing selection committees for the procurement of professional services the same flexibility afforded to their federal counterparts to weigh the selection criteria in the order of importance relevant to their agency and project;
 - (B) Requiring the State Procurement Office to develop a statewide vendor performance information system;
 - (C) Allowing the head of a purchasing agency the option to negotiate an adjustment of an otherwise successful bid for construction procurements to closer align with an internal project price estimate;
 - (D) Eliminating the requirement that bidders disclose the nature and scope of work expected to be performed by subcontractors; and
 - (E) Requiring the State Procurement Office to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022 regarding the progress it has made toward adopting the recommendations in this measure, and to include any proposed legislation necessary to facilitate those recommendations;
- (2) Requiring that the past performance database include the reason for any positive or negative difference between the final cost of the project and the project's authorized budget;

- (3) Removing language that would have required the evaluation of past performance for the award of competitive sealed proposals;
- (4) Inserting language requiring the written past performance evaluations for all procurements under the small purchase threshold to be maintained in the procuring department's files and the past performance database;
- (5) Maintaining current statutory language that requires bidders to disclose the nature and scope of work expected to be performed by subcontractors;
- (6) Inserting language that allows a bidder to clarify and correct non-material or technical issues with subcontractor listings for up to twenty-four hours after the bid submission deadline;
- (7) Removing language that would have required the State Procurement Office to submit a report to the Legislature on the progress of implementing the recommendations;
- (8) Amending the purpose sections of Parts I and V to reflect their amended purpose;
- (9) Providing an effective date of July 1, 2021; provided that the effective date for Part III, regarding the development of a statewide vendor performance information system is December 31, 2022; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 788, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 358 Government Operations on S.B. No. 789

The purpose and intent of this measure is to:

- (1) Establish a special procurement process for the procurement of goods and services;
- Require the Procurement Policy Board to establish procedures for the special procurement process through administrative rules;
- (3) Require the head of a purchasing agency to prepare a procurement plan and submit the plan to the Attorney General or corporation counsel; and
- (4) Require the head of a purchasing agency to electronically post, for at least one year, public notice of special procurement contracts within seven days of the contract award.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the State Procurement Office and Department of Human Services.

Your Committee finds that competition in the public procurement process is necessary to prevent favoritism, collusion, or fraud in the award of public contracts. According to testimony received by your Committee, hinging the awards of special procurements on administrative rules may limit the utility of the special procurement vehicle. Your Committee further finds that it is in the public's best interest to provide the State with greater flexibility in the procurement of certain goods and services so it can be more responsive in addressing unique or unusual needs or situations.

Your Committee has amended this measure by:

- (1) Clarifying the appropriate level of competition for special procurement;
- Requiring the Procurement Policy Board to adopt administrative rules for the special procurement process by December 31, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 789, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 359 Government Operations on S.B. No. 797

The purpose and intent of this measure is to:

- (1) Provide the Chief Information Officer with the authority to approve, or expedite the approval process of, a state agency's management information system project that is budgeted at or more than \$1,000,000, or any other project the Chief Information Officer deems necessary to expedite; and
- (2) Require the Chief Information Officer to annually report the status of all pending or completed projects over \$1,000,000, including whether they are on time and on budget.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and Transform Hawai'i Government.

Your Committee finds that this measure expedites the approval of large information system projects, which is integral to fulfilling the Hawaii Information Technology Strategic Plan. According to testimony received by your Committee, this measure promulgates key portions of the present State Information Technology (IT) Governance review process as outlined in the Governor's Administrative Directive No. 18-03, Program Governance and Independent Verification and Validation Requirements for Enterprise Information Technology Projects, dated September 25, 2018. Your Committee further finds that the annual reporting requirement to the Legislature on information technology and telecommunications acquisition projects proposed by this measure is imperative to maintaining transparency in information technology projects and will also ensure that the projects achieve their expected objectives and provide a clear return on investment

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 360 Government Operations on S.B. No. 798

The purpose and intent of this measure is to prohibit the purchase of any new vehicles powered by internal combustion engines for the State's motor pools beginning January 1, 2022.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Ulupono Initiative, 350Hawaii.org, Americans for Democratic Action, KauaiEV, Mission Zero Hawaii, Hawaii Electric Vehicle Association, and three individuals. Your Committee received comments on this measure from the Department of Accounting and General Services and Department of Education.

Your Committee finds that to meet the State's goal of one hundred percent renewable energy by 2045, it is essential to reduce carbon emissions by beginning the conversion of the State's motor pools to zero emission vehicles (ZEVs) as soon as practicable. According to testimony received by your Committee, the conversion will require significant upgrades of state infrastructure to ensure adequate electrical capacity for ZEVs, which requires significant financing. The State operates approximately five thousand vehicles through various agencies, which operate their own motor pools and manage their own expenses to support their respective fleets. Your Committee further finds that the Department of Accounting and General Services' (DAGS) motor pool program is a logical place to facilitate the use of ZEVs statewide.

Your Committee has amended this measure by:

- Specifying that all new vehicles purchased for the DAGS' motor pool program rather than the State's motor pools, be ZEVs;
 and
- (2) Requiring DAGS, in coordination with other state agencies, to submit a plan to convert the State's motor pool fleet to ZEVs to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 361 Government Operations on S.B. No. 851

The purpose and intent of this measure is to:

- Clarify that certain small wireless facilities and associated modified or replaced utility poles shall be classified as permitted
 uses and shall not be subject to zoning review or zoning approval if they are deployed in an underserved area or unserved area;
 and
- (2) Define "underserved area" and "unserved area".

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; and Verizon. Your Committee received testimony in opposition to this measure from Mahana Weddings Maui; Keep Your Power Hawaii; Keep Your Power, Kauai; and fifty-seven individuals.

Your Committee finds that broadband is increasingly intertwined with the daily functions of modern life. Your Committee further finds that nearly one hundred thousand residents of Hawaii have only one wired service provider available at their residence address, nearly twenty-two thousand residents have no wired internet providers offering service at their residence, and over forty thousand residents of Hawaii do not have a wired connection capable of high-speed internet. This measure will facilitate the development of broadband infrastructure.

Your Committee also notes that numerous testifiers expressed concerns about the potential impacts of this measure on the ability of counties and local communities to make their own zoning and permitting decisions, and that consideration of these concerns may merit further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 851, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 362 Government Operations on S.B. No. 947

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Broadband and Digital Equity Office within the Office of the Governor; and
- (2) Appropriate funds for the establishment and staffing for the Hawaii Broadband and Digital Equity Office.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Human Services; Department of Transportation; Department of Health; Office of the Mayor of the County of Maui; AARP Hawaii'; Hawaii Primary Care Association; two individuals; and a petition consisting of twenty-eight organizations and eleven individuals. Your Committee received testimony in opposition to this measure from Mahana Weddings Maui and eighteen individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Keep Your Power Hawaii, and twenty-six individuals.

Your Committee finds that the development of broadband technology is vital to the well-being of the State's residents and communities. For example, these technologies bring opportunities for direct access to education and healthcare for rural residents who are otherwise forced to travel long distances for educational courses and medical treatment, allow farmers to gain real-time access to vital information such as crop prices or weather forecasts, and empower small businesses to expand their access to markets. This measure will establish a Hawaii Broadband and Digital Equity Office to broaden access to these vital technologies throughout the State.

Your Committee also notes that several testifiers expressed concerns about the potential negative health impacts associated with certain types of wireless broadband technologies, and that consideration of the evidence supporting these concerns may merit further discussion as this measure proceeds in the legislative process.

Your Committee has amended this measure by:

- Establishing the Hawaii Broadband and Digital Equity Office within the Department of Business, Economic Development, and Tourism instead of the Office of the Governor;
- (2) Removing the general fund appropriation for the creation and staffing of the Hawaii Broadband and Digital Equity Office; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 947, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 363 Government Operations on S.B. No. 1016

The purpose and intent of this measure is to require the Department of Accounting and General Services to establish and enforce a virtual private network policy to provide state employees teleworking from home or other off-worksite locations access to otherwise closed state network resources through the internet in a secure and uniform manner.

Your Committee received testimony in opposition to this measure from the Office of Enterprise and Technology Services. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that remote teleworking can and should continue to remain an important option for state employees who can accomplish their duties outside of their traditional work environment. According to testimony received by your Committee, state agencies and departments need the flexibility to choose the technology that best fits its organization. Your Committee further finds that the Office of Enterprise Technology has the expertise to define the parameters that will strengthen the ability of state employees to work remotely.

Accordingly, your Committee has amended this measure by:

- Directing the Office of Enterprise Technology within the Department of Accounting and General Services to establish policies, in collaboration with departments and agencies, to provide infrastructure and resources for state employees to telework securely;
- (2) Broadening the scope of this measure to allow the policies to include other efficient and effective remote computing technologies in addition to virtual private networks; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 364 Government Operations on S.B. No. 1035

The purpose and intent of this measure is to:

- (1) Establish a procurement automation system special fund;
- (2) Allow the State Procurement Administrator (Administrator) to establish procedures for issuing the final decision on any procurement practice, procurement policy and procedures, and compliance investigation conducted by the State Procurement Office, pursuant to section 103D-206, Hawaii Revised Statutes; and
- (3) Authorize the Administrator to assess and collect an administrative fee to cover the costs of the procurement automation system.

Your Committee received testimony in support of this measure from the State Procurement Office, Department of Transportation, and Hawaii Public Policy Advocates. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that the transition from a manual procurement process to a centralized online digital procurement system across executive branch and state agencies will increase efficiencies and responsiveness; support consistent and standardized procurement practices, policies, and procedures; and provide greater confidence to taxpayers by ensuring optimal compliance and transparency under the State Procurement Code. According to testimony received by your Committee, the administrative fee proposed by the State Procurement Office to financially sustain this automated system will save the State approximately \$1,200,000 in general funds each year. Your Committee further finds that although the Administrator has the authority to perform periodic reviews of the State's agencies for compliance with the State Procurement Code, the language of this measure will acknowledge the Administrator as the authority on the final review of these matters.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1035, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 365 Government Operations on S.B. No. 1207

The purpose and intent of this measure is to:

- (1) Authorize emergency procurements in situations such as equipment failure and repairs to public property that are necessary to protect against further loss or damage to public property, or to prevent or minimize serious disruptions in government services; and
- (2) Remove the need for approval of the Chief Procurement Officer for these emergency procurements; provided that an accounting report is submitted to the Legislature within sixty days after the end of the fiscal year in which the emergency procurement was made.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and Department of Transportation. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the proposed language of this measure aligns with and expands the current emergency procurement statute to include situations of an unusual or compelling urgency that, without the continued government service, would be a threat to life, public health, welfare, or safety. This measure also allows greater flexibility and efficiency for the appropriate department or agency to directly address the need, determine and perform appropriate action, and close out financial obligations to restore the conditions of the property or operation against further loss, damage, or serious disruptions in essential government services.

Your Committee has amended this measure by:

- Requiring the procuring agency to report to the Chief Procurement Officer regarding the emergency procurement in a timely manner; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1207, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 366 Government Operations on S.B. No. 1304

The purpose and intent of this measure is to require that the Department of Accounting and General Services (DAGS) be responsible for ensuring state facilities are maintained in accordance with proper repair, maintenance, and cleanliness standards to promote the health and safety of occupants and visitors.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that it is in the best interest of the public and the State for state facilities to be managed with proper repair, maintenance, and sanitation procedures. According to testimony received by your Committee, state facilities are assigned to various departments and each department is responsible for the repairs, maintenance, and management of the facilities that they are assigned. Your Committee notes that DAGS has direct oversight over one percent of all State facilities.

Your Committee has amended this measure by:

- (1) Limiting the scope of this measure to apply to the state buildings under the responsibility of DAGS; and
- (2) Inserting language to encourage other state departments to adopt health and safety policies within their respective facilities.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1304, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 367 Government Operations on S.B. No. 1307

The purpose and intent of this measure is to establish an information technology modernization program management office to provide guidance and support to major public information technology projects.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Office of Enterprise Technology Services, and Transform Hawai'i Government.

Your Committee finds that the Hawaii Modernization Initiative (HiMod) has had success in implementing the State Enterprise Resource Planning Project. HiMod has already updated the State's human resource management system and created a statewide payroll system. This existing project management office is currently updating the State's system of processing electronic timesheets and leave requests, while upgrading the State's financial management and accounting system. According to testimony received by your Committee, although the HiMod is not large enough to support other state modernization efforts, it can serve as a model for the information technology modernization program management office proposed in this measure. Your Committee recognizes that the coronavirus disease 2019 pandemic has highlighted how modern information technology infrastructure can improve public access to government services. Your Committee notes the Comptroller's oral testimony that the Department of Accounting and General Services will work with the Office of Enterprise Technology Services to provide funding in the Department's executive budget for the establishment of an information technology modernization program management office.

Your Committee has amended this measure by:

- (1) Removing the appropriation for the operation and administration of the information technology modernization program management office; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1307, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 368 Government Operations on S.B. No. 1395

The purpose and intent of this measure is to:

- (1) Require the Governor to appoint an individual to fill a vacancy within all boards and commissions within an unspecified period of time;
- (2) Require that holdover appointments are limited to an unspecified period of time, thereby creating a vacancy at the end of the holdover period; and
- (3) Require department heads to inform the Governor of any vacancy on any board or commission.

Your Committee received testimony in support of this measure from one member of the Hawaii State Senate.

Your Committee finds that state boards and commissions provide a vital opportunity for a cross-section of Hawaii's residents to offer input and influence decisions that shape the quality of life throughout the State. Your Committee further finds that it is imperative that members of boards and commissions are appropriately and timely nominated and appointed to enable boards and commissions to meet and conduct business.

Your Committee further notes testimony that recent positions by the Office of the Attorney General regarding the law governing holdovers has led to confusion and possible abuse. This measure would clarify the law regarding holdover members of boards and commissions

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1395, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 369 (Joint) Education and Government Operations on S.B. No. 465

The purpose and intent of this measure is to:

- (1) Require the Auditor to perform an annual operational audit of the academic and financial plans of the Department of Education:
- (2) Require the Department of Education to contract with a third-party consultant that specializes in school finance to study the adequacy of education funding in Hawaii; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the HE'E Hui for Excellence in Education, Maui Chamber of Commerce, and one individual. Your Committees received comments on this measure from the Department of Education and Office of the Auditor.

Your Committees find that there is a greater need for fiscal transparency of the Department of Education. Your Committees further find that routine audits will help to identify the financial and management needs of Department of Education schools. While there are audits and reviews of certain processes in various Department of Education offices, this measure adds further accountability to ensure that resources are used effectively and efficiently.

Your Committees note that clarification should be provided for the specific areas of the academic and financial plan that the Auditor should review. Your Committees advise that the Auditor should focus the scope of the academic and financial plan audit, looking at the connection between education outcomes expressed in the academic plans and how they affect complex area and state level educational outcomes. Any audit conducted should link the financial plans with success in identified education outcomes as expressed in the academic plans.

Your Committees have amended this measure by:

- (1) Removing language that required the reporting by the Auditor be performed annually;
- (2) Removing language that required the Department of Education to contract with a third-party consultant that specializes in school finance to perform a study on the adequacy of education funding in Hawaii and appropriating funds for the study; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 465, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 465, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 370 (Joint) Education and Government Operations on S.B. No. 466

The purpose and intent of this measure is to:

- (1) Require that the School Facilities Agency complies with the Hawaii Public Procurement Code;
- (2) Authorize the School Facilities Agency to have additional powers and duties;
- (3) Specify additional uses for the school facilities special fund; and
- (4) Provide the Executive Director of the School Facilities Agency with authority relating to capital improvement projects for the School Facilities Agency.

Your Committees received testimony in support of this measure from the State Procurement Office and Department of Transportation. Your Committees received testimony in opposition to this measure from the Department of the Attorney General and one individual. Your Committees received comments on this measure from the Department of Education.

Your Committees find that currently, Act 72, Session Laws of Hawaii 2020 (Act 72), does not clearly describe the powers and responsibilities of the School Facilities Agency and its Executive Director, School Facilities Board, and administrative staff. This measure will amend some of the provisions of Act 72, which will help provide guidance and improve the efficient operation of the School Facilities Agency.

Your Committees have amended this measure by:

- (1) Removing language that allows the School Facilities Agency to appoint or retain, by contract, one or more attorneys independent of the Attorney General to provide legal services solely in cases of negotiations in which the Attorney General lacks expertise;
- (2) Clarifying that the School Facilities Agency shall collaborate with the Department of Education and submit a report to the Legislature, no later than twenty days prior to the convening of the regular session of 2022, identifying positions of the Department of Education that should be transferred to the School Facilities Agency, including positions responsible for public school development, planning, and construction related to capital improvement projects, along with proposed legislation to further implement the transfer of positions, offices spaces, and related records and equipment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 466, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 466, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 371 (Joint) Education and Government Operations on S.B. No. 1118

The purpose and intent of this measure is to remove the Governor from the Education Commission of the States and add a fourth member appointed by the Governor.

Your Committees received testimony in support of this measure from one individual.

Your Committees find the guiding principle for the composition of the membership on the Education Commission of the States from each party state is that the members representing a state shall, by virtue of their training, experience, knowledge, or affiliations, be in a position to collectively reflect broadly the interests of the state government, higher education, state education system, local education, lay and professional, and public and nonpublic educational leadership. In an effort to follow the guiding principle and increase education expertise on the Commission, under this measure, the number of members appointed by the Governor will increase and the Governor will be removed from the Commission.

Your Committees have amended this measure by:

- (1) Rather than merely adding a fourth member to be appointed by the Governor, specifying that the Executive Director of the Hawaii State Public Charter School Commission will serve on the Education Commission of the States instead; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1118, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1118, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 372 (Joint) Education and Human Services on S.B. No. 1347

The purpose and intent of this measure is to require the Department of Education to offer training for teachers, educational officers, and school-based behavioral health specialists on sex trafficking prevention and response.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu, Hawaii State Teachers Association, Democratic Party of Hawai'i Hawaiian Affairs Caucus, Democratic Party of Hawai'i Education Caucus, Imua Alliance, Susannah Wesley Community Center, Pacific Survivor Center, Hawaii Association of School Psychologists, and six individuals. Your Committees received testimony in opposition to this measure from Harm Reduction Hawaii. Your Committees received comments on this measure from the Department of Education.

Your Committees find that sexual violence is a serious and ongoing threat to the safety, health, and well-being of children and young people in Hawaii. Recognizing and identifying indicators, such as social isolation, removal from the home, and cultivation of dependency, are key in providing greater protection for children who are being exploited or who may be at risk for future sexual exploitation. Because of the amount of time students spend at school, sexual abuse and sex trafficking prevention training for educators and other school staff can facilitate interventions with students who may be at risk of sex trafficking or exploitation or experiencing sexual abuse. This measure will assist teachers and educational officers with resources to better protect Hawaii's children and young people from sexual abuse and sex trafficking throughout the State.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1347 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 373 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 414

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the career criminal prosecution unit.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney for the County of Hawai'i, and one individual.

Your Committee finds that a disproportionate number of serious crimes against the public are committed by a relatively small number of multiple and repeat-felony offenders, commonly known as "career criminals". Your Committee further finds that by their nature, career criminal prosecution cases are often labor intensive and require experienced and well-trained deputy prosecutors. This measure appropriates funds to staff the career criminal prosecution unit so that the prosecution of career criminals can be more effectively pursued.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 414 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 374 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 417

The purpose and intent of this measure is to appropriate moneys as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Victim-Witness Assistance Program.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the Victim-Witness Assistance Program provides direct support services to the victims and witnesses of crimes committed in Hawaii. Your Committee further finds that the Honolulu Victim-Witness Kokua Services has developed into one of the finest services of its kind in the country, helping over four thousand crime victims. Victims are usually the key witnesses in a case and without their testimony, criminals often could not be held responsible for their actions and would remain free to hurt others in the community. Your Committee believes that increased funding is necessary to maximize the effectiveness of this important program.

Your Committee has amended this measure by inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 375 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 622

The purpose and intent of this measure is to require a court to sentence a person convicted of violating an injunction or restraining order or order of protection during the term of a stay-at-home order imposed by the State or a county in which the violation occurred to a mandatory minimum jail sentence of not less than thirty days and fine of not less than \$5,000.

Your Committee received testimony in support of this measure from the Hawai'i State Coalition Against Domestic Violence and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the coronavirus disease 2019 pandemic has caused police, courts, and jails to reprioritize their use of personnel and resources. This can be emotionally and physically devastating for individuals with injunctions or temporary restraining orders who are harassed while a "stay-at-home" order is in place. In some cases, these individuals can become a hostage to their harasser with no real-time recourse, essentially creating an aggravated circumstance that warrants stricter penalties for violations. This measure will increase the penalties for the violation of a restraining order during a stay-at-home order in an attempt to protect victims from their harassers.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 622 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 376 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 742

The purpose and intent of this measure is to require each county police department to collect certain data regarding police stops, uses of force, and arrests, and submit annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Civil Beat Law Center for the Public Interest, American Civil Liberties Union of Hawai'i, Society of Professional Journalists Hawaii Chapter, Young Progressives Demanding Action, Community Alliance on Prisons, and four individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Police Department.

Your Committee finds that, in 2016, the Washington D.C. Council unanimously passed the Neighborhood Engagement Achieve Results (NEAR) Act, which provides a comprehensive framework to promote public safety and reduce crime. Recognizing that a number of issues in communities have been criminalized, thus leading to high rates of incarceration and the breakdown of those communities, the NEAR Act consists of several tools and public safety initiatives designed to reduce violent crime, reform criminal justice provisions, and improve community-police relations. One of these tools is a requirement that the D.C. Metro Police Department collect data on felony crimes, stops and frisks, and use of force incidents in an effort to build transparency, increase community trust, and improve internal accountability and data analysis. This measure will require each county police department to collect certain data regarding police stops, uses of force, and arrests, to better determine conditions for situations of interest, such as trends in the use of force; safeguard law enforcement officers from injury; and thereby allow greater overall academic analysis of policing in the State.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 742 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 377 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1042

The purpose and intent of this measure is to:

- (1) Repeal the existing provision that allows persons designated as covered offenders in another state or jurisdiction to petition the Attorney General for termination of sex offender registration requirements upon demonstrating that the out of state convictions are not covered offenses in the State of Hawaii:
- (2) Require certain long-term visitors to Hawaii with out-of-state convictions to register; and
- (3) Clarify how persons required to register can petition to terminate registration.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of the Attorney General, and Maui Police Department.

Your Committee finds that existing sex offender registration laws allow out-of-state persons who intend to reside or maintain a residence in Hawaii, visit Hawaii for ten or more days, or visit Hawaii for thirty or more days a year, and who have been or are required to be registered in another state as a sex offender, to avoid registration by establishing that they do not meet the criteria for registration as a covered offender in Hawaii because the out-of-state conviction in their state is not for a covered offense under Hawaii law. Your Committee further finds that allowing out-of-state covered offenders to avoid registering as a sex offender in Hawaii by demonstrating that Hawaii's law is different from the law of the state that required the person to register as a sex offender is an unintended loophole in the registration law. This measure closes the loophole by requiring those persons who have been designated as a sexual offender in another state, who is or would be required to be on a sex offender registry in that state, to be subject to registration requirements in the State of Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1042, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 378 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1407

The purpose and intent of this measure is to:

- Require all members of the State Building Code Council to have significant experience and knowledge of building codes and the cost impacts of building code revisions;
- (2) Add two voting council members, representing the National Association of Industrial and Office Properties and the construction trade unions, respectively;
- (3) Require the State Building Code Council and its subcommittee to conduct a cost-benefit analysis prior to recommending state code amendments;
- (4) Require council members and the drafters of recommended state code amendments to disclose potential conflicts of financial interests;
- (5) Require the State Building Code Council to consult with builders of residential, commercial, and industrial buildings; and
- (6) Require the State Building Code Council to adopt the International Building Code every six years starting with the 2018 edition.

Your Committee received testimony in opposition to this measure from the State Fire Council and Honolulu Fire Department. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the State Building Code Council was established by Act 82, Session Laws of Hawaii 2007, to create and implement a uniform set of statewide building codes applicable to all construction in the State of Hawaii, which is now known as the Hawaii State Building Codes. Your Committee further finds that health and safety considerations related to the State Building Codes are matters of statewide concern.

Your Committee also finds that the State Building Code Council has struggled with limited funding and insufficient staffing since its creation. With most members being government officials lacking the required knowledge and experience. Amendments to the State Building Codes proposed by the private sector and others, especially amendments to codes that do not pertain to public health or safety, are often adopted without a cost benefit analysis; input from residential, commercial, and industrial builders; or consideration of the resulting increase in the overall cost of construction in Hawaii. This measure will ensure that knowledgeable and experienced members are making decisions as to the State Building Codes.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1407 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 379 Commerce and Consumer Protection on S.B. No. 1104

The purpose and intent of this measure is to increase the monetary amount an injured homeowner may recover from the Contractor's Recovery Fund.

Your Committee received testimony in support of this measure from the Contractors License Board. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii.

Your Committee finds the Contractors Recovery Fund was created to provide financial assistance to homeowners injured by the act, representation, transaction, or conduct of a licensed contractor. Currently, the maximum amount of recovery from the fund is \$12,500 per contract, and the maximum payout per licensed contractor is \$25,000. However, due to increased construction costs, homeowners are increasingly unable to recoup some of their financial losses from the fund. Accordingly, this measure increases the maximum recovery amount to \$25,000 per contract, and the maximum payout per licensed contractor to \$75,000.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 380 Commerce and Consumer Protection on S.B. No. 1094

The purpose and intent of this measure is to:

- (1) Mandate reporting of suspected financial exploitation of elders and vulnerable adults in relation to securities;
- (2) Provide immunity for good faith reporting; and
- (3) Authorize delay of disbursements and transactions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Maui Police Department, AARP Hawai'i, NAIFA Hawaii, LPL Financial, Securities Industry Association of Hawaii, Hawaii Credit Union League, and Securities Industry and Financial Markets Association. Your Committee received comments on this measure from the Department of Human Services and Office of Information Practices.

Your Committee finds that financial exploitation has been described as the fastest growing form of elder abuse, and the financial consequences for those who fall victim to financial exploitation are often devastating and irreparable. Older adults are susceptible to fraud and financial exploitation in part because they own sixty-seven percent of bank deposits in the United States, and they are also more vulnerable because of health status, cognitive ability, and social isolation. This measure is based on a model act that expands the State's securities laws to allow the Department of Commerce and Consumer Affairs to better protect Hawaii's elders and vulnerable adults from financial exploitation.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 381 Commerce and Consumer Protection on S.B. No. 1097

The purpose and intent of this measure is to establish provisions to allow nondepository trust companies to assist certain individuals with asset management services.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that there is a growing gap of consumers in Hawaii who need assistance with managing their assets but do not qualify for asset management services by banks or large investment firms, as their home may be their primary source of wealth. This measure will allow nondepository trust companies to serve as fiduciaries in the administration and management of assets for this

gap group, to be licensed, supervised, and examined by the Department of Commerce and Consumer Affairs Division of Financial Institutions.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1097, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1097, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 382 Commerce and Consumer Protection on S.B. No. 397

The purpose and intent of this measure is to broaden the state of mind element for certain offenses under chapter 486M, Hawaii Revised Statutes, relating to the responsibilities of pawnbrokers and secondhand dealers.

Your Committee received testimony in support of this measure from the Honolulu Police Department and Maui Police Department. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Hawaii Pawnbrokers Association, Hawaii Gold & Silver Company, Kamaaina Loan, and West Maui Gold and Loan.

Your Committee finds that police departments have been unable to successfully conduct enforcement of secondhand dealers purchasing stolen goods due to the high burden of proving the "knowingly" state of mind element required under existing law. Unscrupulous buyers are unwitting surrogates to conduct illegal transactions and avoid prosecution by claiming ignorance, and therefore there is no incentive to do their due diligence to scrutinize the items being offered for sale. The high frequency of burglaries and vehicle break-ins in the State are fueled in part by the ease in which stolen items are trafficked. Without this measure, it will continue to be a challenge to prosecute crimes in this area.

Your Committee notes the concerns raised in testimony that this measure may put secondhand dealers in a precarious position that could substantially impact their risk of being prosecuted for criminal acts when they did not have knowledge that property was stolen, and may make it even more challenging for law abiding citizens to quickly sell items to make ends meet in times of financial crisis. Your Committee finds these issues and concerns merit further consideration and requests that your Committee on Judiciary further examines those issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (2) Inserting a three-year sunset date; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 397, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 383 Commerce and Consumer Protection on S.B. No. 1373

The purpose and intent of this measure is to:

- (1) Prohibit a creditor from initiating or continuing any action to garnish wages from a debtor during the period of an emergency proclamation and some time thereafter; and
- (2) Prohibit a creditor from garnishing more than ten percent of a debtor's wages for one year thereafter.

Your Committee received testimony in support of this measure from Hawaii Debt Solutions. Your Committee received testimony in opposition to this measure from the Hawaii State Bar Association Collection Law Section; Hawaii Credit Union League; Hawaii Financial Services Association; Hawaiian Collectors Association; PRA Group, Inc.; Receivables Management Association International; Hawaii Bankers Association; and Encore Capital Group.

Your Committee finds that many households, particularly those of the economically vulnerable, often depend on several incomes to make ends meet. Due to the economic devastation created by the coronavirus disease 2019 (COVID-19) pandemic, many of these households now have fewer incomes on which they can rely. Existing law allows creditors to garnish approximately twenty-five percent of a person's net wages, but for many in this State experiencing hardships related to COVID-19, that amount can directly impact whether a household can continue to pay for basic needs.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, appears to prohibit wage garnishments during any declared state of emergency. However, a future event that impacts only one region or county of the State may still result in the declaration of a statewide state of emergency, which could be overly prejudicial to creditors in unaffected areas. Furthermore, this measure currently prohibits garnishments regardless of whether the debtor can demonstrate that they have experienced a negative financial impact due to the emergency. Therefore, amendments to this measure are necessary to address these concerns. Your Committee further finds these issues merit further consideration and requests that your Committee on Judiciary further examine these issues raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Clarifying that, after the covered period and sixty days following the termination of the covered period, for six months thereafter, it shall be unlawful for a creditor to garnish an amount exceeding ten percent of the debtor's wages;
- (2) Clarifying the definition of "debtor" to mean any individual obligated or allegedly obligated to pay any debt who can demonstrate that they have been negatively financially impacted by the COVID-19 pandemic;
- (3) Clarifying the definition of "emergency proclamation" to mean an emergency proclamation issued by the Governor in relation to the COVID-19 pandemic;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Inserting a repeal date of six months after the expiration of the Governor's emergency proclamation related to COVID-19, or on December 31, 2021, whichever occurs first.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1373, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1373, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 384 Commerce and Consumer Protection on S.B. No. 1388

The purpose and intent of this measure is to:

- (1) Extend the period for a notice of summary possession from five days to fifteen days;
- (2) Require landlords to enter into mediation and delay when a landlord may seek possession of a dwelling unit if the tenant schedules or attempts to schedule mediation;
- (3) Require landlords to provide the notice to mediation centers that offer free mediation for residential landlord-tenant disputes;
- (4) Restrict when a landlord may exercise these remedies depending on the amount of rent due; and
- (5) Repeal on June 1, 2022.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawai'i Association of REALTORS, Hawaii Appleseed Center for Law & Economic Justice, Legal Aid Society of Hawai'i, and one individual.

Your Committee finds that, since the start of the coronavirus disease 2019 pandemic, the caseload concerning landlord-tenant matters has doubled with nearly nine hundred cases being opened. The current environment for evictions due to non-payment has been, and will continue to be, very fluid as state and federal moratoriums for evictions due to non-payment of rent continue to be extended. However, at some time, the moratoriums will expire and the large number of eviction cases will need to be addressed by the courts. This measure provides for a balanced approach to encourage communications and facilitate mediation between landlords and tenants and a phased schedule to help ease the increased caseload.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, sets a firm date of May 1, 2021, for the beginning of the phase-out of the eviction moratorium. Because it is uncertain at this time when the Governor's final eviction moratorium may expire, this measure should be amended to provide for the possibility that the Governor or the federal government decide that public health requires an extension past May 1.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Clarifying that the fifteen-calendar day notice shall identify the dwelling unit subject to the rental agreement;
- (3) Deleting language that would have provided a sample form for the fifteen-calendar day notice;
- (4) Clarifying that, in the event there is a defect in the fifteen-calendar day notice, the court may allow the landlord to cure the defect without dismissing the action for summary possession;
- (5) Conforming the dates for a landlord to issue a notice demanding payment of rent or to bring a summary possession action to a certain range of days following the expiration of the Governor's final eviction moratorium, depending on the number of months' rent due, to begin three days after the expiration of the Governor's final eviction moratorium;
- (6) Inserting a definition for the term "final eviction moratorium";
- (7) Inserting an effective date of upon approval;
- (8) Clarifying this measure shall repeal one year after the expiration date of the final eviction moratorium; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1388, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1388, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 385 Commerce and Consumer Protection on S.B. No. 1135

The purpose and intent of this measure is to create a new chapter on "source of income" discrimination in rental transactions, including definitions and enforcement remedies by direct civil action.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Hawaiian Affairs, Hawai'i Civil Rights Commission, League of Women Voters of Hawaii, Hawai'i Health and Harm Reduction Center, Catholic Charities Hawai'i, St. Michael the Archangel Parish, Hawaii Appleseed Center for Law & Economic Justice, Imua Alliance, Neighborhood Place of Puna, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that, prior to the coronavirus disease 2019 pandemic, Hawaii had a housing shortage at all price points. Many residents have been economically impacted by the pandemic and are facing evictions, pending the expiration of the eviction moratorium, due to their inability to pay rent. Consequently, additional individuals and families are looking for more affordable housing, and low-level income households will likely be further pushed out of the market. Residents with Section 8 vouchers have the added burden of finding an available rental that meets Section 8 program minimums. Many landlords in Hawaii, however, advertise "no Section 8" and discriminate against prospective tenants that have rental assistance vouchers. This measure, by creating a statutory prohibition against discrimination based on the source of income for rental payments, will promote greater access to stable housing for marginalized individuals and families. This measure will further bring Honolulu's rental market into alignment with other major metropolitan areas that already ban these discriminatory practices.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1135, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 386 Commerce and Consumer Protection on S.B. No. 925

The purpose and intent of this measure is to clarify that the secondhand dealers law applies to a secondhand dealer's operation of an automated recycling kiosk.

Your Committee received testimony in support of this measure from the Maui Police Department, Retail Merchants of Hawaii, TechNet, and ecoATM. Your Committee received testimony in opposition to this measure from the Honolulu Police Department, Hawaii Pawnbrokers Association, and Kamaaina Loan.

Your Committee finds that electronic waste kiosks, or automated recycling kiosks, provide a resource for consumers to sell their old cell phones, which are then collected and recycled or refurbished. Automated recycling kiosks have modernized electronic waste recycling and have diverted more than seven million pounds of electronic waste from local landfills across the country, at no cost to consumers or governmental agencies. However, existing law requires secondhand dealers to store property in the county for a certain holding period, which creates a barrier for the operators of the automatic recycling kiosks, due to the limited space within the kiosk, the safety risks of long storage time requirements, and other related logistical issues. This measure provides the necessary structure to bring Hawaii into alignment with the other forty-nine states that already recognize the use of automated recycling kiosks to purchase and recycle electronic devices.

Your Committee has heard the concerns raised in testimony that this measure, as currently drafted, should be placed into a different chapter of the Hawaii Revised Statutes, as automated recycling kiosks are a different type of business and industry compared to pawnbrokers and secondhand dealers. Your Committee further notes the concerns raised by the Honolulu Police Department concerning the importance of the retention period within the respective county, and requests that your Committee on Judiciary examine and consider these issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "automatic recycling kiosk" to include a device that:
 - (A) Purchases previously owned consumer hand-held electronic devices;
 - (B) Can be remotely opened upon request by law enforcement during normal business hours; and
 - (C) Electronically transmits transaction records to law enforcement within twenty-four hours from when the article was received;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 925, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Nishihara). Noes, none. Excused, none.

SCRep. 387 Commerce and Consumer Protection on S.B. No. 1149

The purpose and intent of this measure is to authorize establishment of an increased spending ceiling for the Dietician Licensure Special Fund through the state budgeting process to meet expanding program needs and diminish dependence on the general fund.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that existing state law sets the spending ceiling for the Dietician Licensure Special Fund at \$30,000 per year. Spending varies from year to year based on the current fund balance and annual changes to revenue. Therefore, this measure provides the flexibility to adjust the spending ceiling through the budget process, rather than a statutory ceiling, to better meet licensee needs while being less dependent on general funds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 388 Human Services on S.B. No. 192

The purpose and intent of this measure is to allow the Department of Human Services to administer and provide public assistance to eligible residents of the State during a governor-declared state of emergency.

Your Committee received comments on this measure from the Department of Human Services and one individual.

Your Committee finds that the ongoing coronavirus disease 2019 (COVID-19) pandemic has necessitated emergency action by the State to protect the health of Hawaii's residents and slow the spread of COVID-19. Your Committee further finds that COVID-19 and the necessary response have resulted in significant economic hardship to the people of Hawaii. Your Committee additionally finds that, even after the emergency response to COVID-19 is no longer necessary, future outbreaks and other public health disasters may require similar emergency responses from the State. This measure will allow the Department of Human Services to administer and provide public assistance to eligible residents during a declared state of emergency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 389 Human Services on S.B. No. 538

The purpose and intent of this measure is to:

- (1) Clarify the meaning of "program or activity receiving state financial assistance"; and
- (2) Exclude cases within the scope of the Individuals with Disabilities Education Act from the jurisdiction of the Hawaii Civil Rights Commission.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawai'i Civil Rights Commission, Hawaii Disability Rights Center, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that when Act 387, Session Laws of Hawaii 1989, was enacted and codified as section 368-1.5, Hawaii Revised Statutes, it was meant to be the state counterpart to section 504 of the federal Rehabilitation Act of 1973, as amended, to provide a state remedy for disability discrimination and an alternative in situations in which federal remedies are also available. Your Committee further finds that the intent of section 368-1.5, Hawaii Revised Statutes, was originally, and is now, to give the Hawaii Civil Rights Commission jurisdiction over disability discrimination claims, even if protections under section 504 of the Rehabilitation Act, as amended, are available.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 390 Human Services on S.B. No. 1127

The purpose and intent of this measure is to make an emergency appropriation from the general revenues of the State of Hawaii for fiscal year 2020-2021 to address the budget shortfall for the general support for the general assistance program (HMS 204) in the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services, Governor's Coordinator on Homelessness, Catholic Charities Hawai'i, Hawaii Primary Care Association, and one individual.

Your Committee finds that due to the coronavirus disease 2019 pandemic and related economic crisis, current appropriations to the Department of Human Services' General Assistance (GA) program are insufficient to meet the needs of the high number of GA recipients. Your Committee further finds that the GA program is fully funded by the State, and that there are no federal funds available to support the program. Your Committee concludes that additional appropriations are urgently needed to cover the program's funding shortfall.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 391 Human Services on S.B. No. 1233

The purpose and intent of this measure is to allow persons with a mental illness to participate in the vending facilities program currently available to blind and visually handicapped persons pursuant to section 102-14, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health and eleven individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Committee of Blind Vendors, National Federation of the Blind Hawaii, Hawaii Association of the Blind, Randolph Shepard Vendors of Hawaii, and fourteen individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that individuals living with serious mental illness should have the opportunities to pursue self-employment to improve their economic and health outcomes in a similar manner as individuals participating in the vending facilities program pursuant to section 102-14, Hawaii Revised Statutes, through the Department of Human Services, Division of Vocational Rehabilitation, Hoʻoponopono Services for the Blind Branch (Hoʻoponopono Services).

Your Committee finds that Ho'oponopono Services is designated by the United States Department of Education's Rehabilitation Services Administration as the state licensing agency for managing the federal Randolph-Sheppard Program to support eligible blind and visually impaired individuals to maintain vending stands through self-employment, also associated with their remunerative employment. There are no state-appropriated moneys in the program's account.

Your Committee further finds that this measure may inadvertently jeopardize Hoʻoponopono Service's receipt of federal Randolph-Sheppard funds for blind individuals. Testimony received by your Committee revealed that the proposed amendments incorporating persons with mental illness into the existing program's framework may cause confusion or federal scrutiny and lead Hoʻoponopono Services to lose its designation as a state licensing agency under the federal Randolph-Sheppard Act.

Therefore, your Committee has amended this measure by:

- (1) Replacing its contents with language received from the Department of Health to:
 - (A) Establish a two-year vendor facilities pilot program task force for vendors with serious mental illness within the Department of Health; and
 - (B) Require the vendor facilities pilot program task force to submit an annual report to the Governor and the Legislature not later than twenty days prior to the convening of the 2022 and 2023 regular sessions;
- (2) Including the Director of the Department of Accounting and General Services, or their designee, and the heads of the building facilities management departments of each county, or their designees in the pilot program;
- (3) Inserting an effective date of May 1, 2029, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1233, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1233, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Misalucha). Noes, none. Excused, none.

SCRep. 392 Transportation on S.B. No. 768

The purpose and intent of this measure is to require rental car companies to incorporate zero emissions vehicles in their rental fleets at specific intervals until their fleets are one hundred percent zero-emission vehicles by 2035.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Hawaiian Electric Company, Americans for Democratic Action, Kauai Climate Action Coalition, Ulupono Initiative, Imua Alliance, 350Hawaii, Mission Zero Hawaii, Kauai Electric Vehicle Association, Hawaii Electric Vehicle Association, Blue Planet Foundation, and thirty-four individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation, Avis Budget Group, and Enterprise Holdings. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that emissions from ground transportation account for one of the largest shares of greenhouse gas emissions in the State. Requiring rental car companies to include zero-emission vehicles in their rental fleets will help Hawaii in its goal to be one hundred percent zero-emission by 2045.

Your Committee has amended this measure by:

- (1) Removing language that required rental car lessors to transition to one hundred percent zero-emission vehicles by 2035;
- (2) Inserting language to create the Rental Car Modernization Task Force to submit reports and make recommendations to the Legislature in support of achieving a one hundred percent zero-emission rental fleet by 2035; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 768, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 768, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 393 (Joint) Transportation and Energy, Economic Development, and Tourism on S.B. No. 987

The purpose and intent of this measure is to convene a Sustainable Aviation Fuel Task Force to develop a state action plan to reduce the greenhouse gas emissions from international air transportation from the State.

Your Committees received testimony in support of this measure from Americans for Democratic Action, Imua Alliance, 350Hawaii, and two individuals. Your Committees received comments on this measure from the Office of Planning and Hawaii State Energy Office.

Your Committees find that the burning of aviation fuel during air travel is a significant contributor to greenhouse gas emissions and remains an impediment to meeting the State's Zero Emissions Clean Economy target by 2045. Accordingly, this measure will convene a Sustainable Aviation Fuel Task Force to develop a state action plan to reduce the greenhouse gas emissions from international air transportation from the State.

Your Committees have amended this measure by:

- (1) Placing the task force under the Hawaii Natural Energy Institute for administrative purposes, rather than within the Hawaii State Energy Office in the Department of Business, Economic Development, and Tourism;
- Removing the mandate to include federal agencies as task force members and replacing it with an invitation for federal agencies to join;
- (3) Adding language to allow the Hawaii Natural Energy Institute to invite other members to join the task force as they see fit; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 987, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 987, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 394 Ways and Means on S.B. No. 1092

The purpose and intent of this measure is to temporarily suspend the requirement for disposition of the conveyance tax to the land conservation fund and rental housing revolving fund for fiscal years 2021-2022 and 2022-2023.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Budget and Finance, and Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in opposition to this measure from The Trust for Public Land, Hawaii's Thousand Friends, Conservation Council for Hawaii, Kuaaina Ulu Auamo, North Shore Community Land Trust, Hawaiian Islands Land Trust, Livable Hawaii Kai Hui, Maunalua Fishpond Heritage Center, and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Tax Foundation of Hawaii, Molokai Land Trust, and The Nature Conservancy.

Your Committee finds that the devastating economic impact of the COVID-19 pandemic on state revenues, which will suffer an estimated decline of \$2.3 billion in fiscal biennium 2019-2021, necessitates action to preserve the solvency of the state general fund and ensure the continuation of critical government operations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1092, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 395 Ways and Means on S.B. No. 1240

The purpose and intent of this measure is to require the State to conform to those provisions of the federal Consolidated Appropriations Act, 2021, relating to taxable income and deductible expenses.

Your Committee received testimony in support of this measure from Chamber of Commerce Hawaii; Hawaii Restaurant Association; Island Plastic Bags, Inc.; Hawaii Food Industry Association; Maui Chamber of Commerce; Hawaii Lodging and Tourism Association: Hawaii Association of Public Accountants; and one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the federal Paycheck Protection Program helped tens of thousands of businesses in the State to shoulder the economic downturn caused by the coronavirus disease 2019 (COVID-19) pandemic. Your Committee further finds that this measure will provide much-needed tax relief to small businesses that continue to struggle in the current economic climate, by allowing businesses to deduct, from their Hawaii taxes, those payroll and other business expenses paid using Paycheck Protection Program loan proceeds.

Your Committee has amended this measure by:

- (1) Correcting the name of the Consolidated Appropriations Act, 2021; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1240, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 396 Commerce and Consumer Protection on S.B. No. 65

The purpose and intent of this measure is to:

- (1) Allow direct shipment of all forms of liquor, rather than just wine, by certain licensees; and
- (2) Require the county liquor commissions to adopt rules and regulations.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild, Lanikai Brewing Company, Mahalo Aleworks, Waikiki Brewing Company, Kaua'i Island Brewing Company, Kōloa Rum Co., Big Island Brewhaus, Kauai Beer Company, Hawai'i Farm Bureau, Maui Brewing Co., Maui Chamber of Commerce, Distilled Spirits Council of the United States, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Hawaii Liquor Wholesalers Association, and Wine Institute.

Your Committee finds that craft beer manufacturers across the State have experienced significant economic challenges during the coronavirus disease 2019 (COVID-19) pandemic due to reduced sales and lost income. Wholesalers have shown little interest in expanding distribution opportunities for local, small craft breweries, especially for markets outside of Hawaii. It is therefore necessary to allow brewpubs, small craft producer pubs, and other alcohol manufactures to obtain direct shipper permits, as smaller producers usually do not have access to distributors or wholesalers that adequately represent the unique aspects of craft beer and alcohol made in Hawaii. As direct shipment of wine is already permitted, this measure provides parity and will allow craft beer producers and other liquor manufactures in Hawaii to access customers through direct shipping to help meet the current needs for those businesses struggling through the financial challenges brought upon by COVID-19.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 65, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 65, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 397 Commerce and Consumer Protection on S.B. No. 610

The purpose and intent of this measure is to:

- (1) Prohibit a public member of any board or commission under the Department of Commerce and Consumer Affair's purview from being engaged in the occupation that the board or commission regulates or having other direct legal or financial interests in the regulated occupation; and
- (2) Specify that public members represent the public interest.

Your Committee received testimony in support of this measure from 'Oia'i'o Condo Owners Coalition of Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that public members of a board or commission should strictly represent the public interest. Accordingly, a public member of any board or commission administratively attached to it should be prohibited from being engaged in or having a direct financial interest in the occupation that the board or commission regulates. Your Committee, however, heard the concerns raised in testimony that this measure may be overly broad and could unintentionally restrict well-qualified individuals from serving as public members on a board or commission. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by:

- Clarifying that a public member shall not be associated with a member of the occupation that the board or commission regulates that results in a material conflict of interest, an appearance of impropriety, or a reasonable suspicion that the public member does not represent the public interest; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 610, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 610, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 398 Commerce and Consumer Protection on S.B. No. 784

The purpose and intent of this measure is to:

- (1) Specify notice requirements for a regular annual or special meeting of a cooperative housing corporation; and
- (2) Allow the annual meetings and election of board members of cooperative housing corporations, planned community associations, and condominium associations to be conducted by videoconferencing in the event of a pandemic or other similar unforeseen circumstance that prevents owners from physically gathering for a meeting.

Your Committee received testimony in support of this measure from Associa, Community Associations Institute, Hawaii State Association of Parliamentarians Legislative Committee, Hawaii Council of Associations of Apartment Owners dba Hawaii Council of Community Associations, Honolulu Tower AOAO, and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds the coronavirus disease 2019 (COVID-19) pandemic has prevented many, if not most, of the condominium associations whose annual meetings were scheduled after March 16, 2020, from having their annual meetings, due to the prohibition on socially gathering in large numbers and a result of the Governor's emergency proclamation. The COVID-19 pandemic has further established the need for common interest communities to have flexibility regarding meetings. This measure is important to enable these communities to efficiently conduct their business during pandemics and other emergency situations.

Your Committee notes concerns raised in testimony that the amendments to chapter 4211, Hawaii Revised Statutes, proposed by this measure are not necessary, as other sections of Hawaii Revised Statutes already authorize meetings for these entities to be held remotely. Further, the term "video conferencing" may be too restricting and does not correlate with the newest edition of Robert's Rules of Order, which instead uses the term "electronic meetings." Additionally, the applicability of the provisions contemplated by this measure should be limited to official, governmental declarations of emergency to prevent ambiguity and abuse. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Deleting sections of the measure that would have made amendments to chapter 421I, Hawaii Revised Statutes;
- (2) Clarifying that, for planned community associations, in the event a state of emergency declared pursuant to chapter 127A, Hawaii Revised Statutes, is in effect in the county in which the association is located that prevents members from physically gathering for an annual meeting or special meeting, the association may conduct the meeting remotely and in a manner consistent with sections 414D-101(g) or 414D-102(f), Hawaii Revised Statutes, as applicable;
- (3) Clarifying that, for condominium association meetings, electronic meetings and electronic or mail voting shall be authorized during any period in which a state of emergency, declared pursuant to chapter 127A, Hawaii Revised Statutes, is in effect in the county in which the association is located, regardless of what the declaration or bylaws provide;
- (4) Clarifying that a board may permit any meeting to be conducted by any means of communication through which all directors participating may simultaneously hear each other during the meeting; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 784, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Misalucha).

SCRep. 399 Commerce and Consumer Protection on S.B. No. 799

The purpose and intent of this measure is to:

(1) Make condominium laws regarding sales to owner-occupants inapplicable to time share units; and

(2) Increase the minimum number of residential units in a condominium project that must be offered for sale to prospective owner-occupants in the thirty-day period following the initial date of sale of the condominium from fifty percent to ninety percent.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from Associa.

Your Committee finds that given the overall lack of affordable housing options for Hawaii residents, additional policies are necessary to promote owner-occupancy of new condominium developments. This measure assists in increasing the housing pool for local residents and encourages developers to meet the State's dire need for affordable housing. Your Committee heard the concerns raised in testimony that the ninety percent increase may be too high and may have the unintended consequence of discouraging development. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by:

- (1) Lowering the minimum number of residential units in a condominium project that must be offered for sale to prospective owner-occupants in the thirty-day period following the initial date of sale of the condominium from ninety to sixty-seven percent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 799, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Misalucha).

SCRep. 400 Ways and Means on S.B. No. 220

The purpose and intent of this measure is to require service-learning for public high school students.

Specifically, the measure requires the Department of Education to implement a mandatory service-learning curriculum that:

- (1) Specifies a minimum number of community service volunteer work hours;
- (2) Includes instructional practices;
- (3) Aligns with common core state standards and is integrated into the standards-based curriculum;
- (4) Includes reflection on the volunteer experience;
- (5) Is specific to each grade level; and
- (6) Is publicly available on the Department of Education website.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii Education Caucus and

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that requiring students to participate in community service volunteer work that is integrated with a standards-based curriculum will help students to develop character, values, self-esteem, civic responsibility, financial literacy, and knowledge of community issues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 220, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 401 Ways and Means on S.B. No. 806

The purpose and intent of this measure is to require the Attorney General to institute proceedings on behalf of the Department of Education to acquire by voluntary action or by condemnation certain land owned by the Mililani Town Association.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments in opposition to this measure from the Department of the Attorney General.

Your Committee finds that the Mililani Town Association owns parcels of land near Mililani High School. The school intends to use these parcels to provide an access ramp that is compliant with the Americans with Disabilities Act for the benefit of students, staff, family members, and the general public. Your Committee notes that the Mililani Town Association has indicated that it is amenable to the State's acquisition of the land at issue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 806 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 402 Ways and Means on S.B. No. 29

The purpose and intent of this measure is to propose an amendment to Article IX, section 6, of the Hawaii State Constitution to require the State and its political subdivisions to plan to produce enough housing to meet demand.

Your Committee received written comments in support of this measure from Faith Action Housing NOW!, Maui Chamber of Commerce, Imua Alliance, and one individual.

Your Committee finds that housing is a basic necessity and a foundation for stable families and strong communities, and that planning for the production of enough housing to meet demand should therefore be prioritized in the population growth management activities of the State and its political subdivisions.

Your Committee has amended this measure by:

- (1) Clarifying that the management of population growth by the State and its political subdivisions shall include:
 - (A) Planning for the production of enough housing to meet demand; and
 - (B) Striving to ensure that housing production is sufficient to meet planned demand;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 29, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 29, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 403 Ways and Means on S.B. No. 715

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Pueo Development, LLC, a Hawaii limited liability company, with designing, building, and operating a master planned development on lands under the jurisdiction of the Department of Hawaiian Home Lands.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands; Pueo Development, LLC; Waiohuli Economic Development Opportunities; the Hawaiian Affairs Caucus of the Democratic Party of Hawaii; and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that assisting Pueo Development by issuing special purpose revenue bonds will provide the public with the benefits of a master planned community without investment or operational risk to the State or counties.

Your Committee has amended this measure by:

- (1) Changing the authorized amount of the special purpose revenue bonds from \$80,000,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 715, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 404 Ways and Means on S.B. No. 772

The purpose and intent of this measure is to authorize the issuance to any registered owner of a motor vehicle special number plates to benefit forest and ocean conservation.

More specifically, this measure:

- (1) Authorizes the Director of Finance of each county to issue special number plates to benefit forest and ocean conservation;
- Requires the Director of Finance of the City and County of Honolulu to design the special number plates based on certain guidelines;
- (3) Requires the Director of Finance of each county to charge a special number plate fee and fundraising fee;
- (4) Provides that the revenue generated by the applicable fundraising fees be deposited into the forest stewardship fund, for special number plates issued to benefit forest conservation, or the beach restoration special fund, for special number plates issued to benefit ocean conservation; and
- (5) Increases the special number plate initial application and renewal fees from \$25 to \$100.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Surfrider Foundation Maui Chapter, Surfrider Foundation Oahu Chapter, and numerous individuals.

Your Committee finds that Hawaii's forests, beaches, and nearshore waters are culturally and naturally unique and vital to maintaining the health and well-being of Hawaii's residents. Your Committee believes that providing dedicated funding sources for forest and ocean conservation will help to ensure that Hawaii's forests, beaches, and nearshore waters are adequately managed and maintained

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 772, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 772, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 405 Ways and Means on S.B. No. 1385

The purpose and intent of this measure is to require the Department of Education to develop plans to provide public school students with centralized transportation services and more locally produced food in school meals.

Your Committee received written comments in support of this measure from the Department of Education and two individuals.

Your Committee finds that centralized transportation services will help to increase efficiency in the Department of Education. Your Committee further finds that increasing the amount of locally produced food served to public school students will help to provide fresher and healthier meals while also supporting local farmers.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1385, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 406 Judiciary on S.B. No. 383

The purpose and intent of this measure is to appropriate funds for operating and capital improvement costs of the Judiciary for the fiscal biennium beginning July 1, 2021, and ending June 30, 2023.

Your Committee received testimony in support of this measure from the Judiciary; Hawaii State Bar Association, Kauai Bar Association; Hawaii County Bar Association; Appellate Section of the Hawaii State Bar Association; Environment, Energy, and Resources Section of the Hawaii State Bar Association; Farrell and Perrault Family Law Attorneys, LLC; Hawaii Veterans Legal Services; and two individuals. Your Committee received comments on this measure in a petition signed by twenty-six former presidents of the Hawaii State Bar Association.

Your Committee finds that the appropriations made by this measure will assist the Judiciary in its efforts to fulfill its constitutional and statutory duties for the 2021-2023 fiscal biennium.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 383 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 407 (Joint) Higher Education and Energy, Economic Development, and Tourism on S.B. No. 1421

The purpose and intent of this measure is to:

- (1) Create a Dual Use Technology Task Force within the Department of Business, Economic Development, and Tourism consisting of representatives from the University of Hawaii, Hawaii Technology Development Corporation, Department of Labor and Industrial Relations Workforce Development Task Force, and Hawaii's technological and business community to:
 - (A) Explore potential research on technologies that can be used for both peaceful and military purposes, also known as "dual use technology", and development projects for technology companies;
 - (B) Establish high-growth new venture company infrastructure development for dual use technology companies; and
 - (C) Create ideas for high-income job opportunities for Hawaii residents and graduates of the State's educational institutions;
- (2) Require the Dual Use Technology Task Force to submit preliminary and final reports of its findings and recommendations, including any proposed legislation, to the Legislature prior to the convening of the regular sessions of 2023 and 2025, respectively; and
- (3) Appropriate funding for the operation and administration of the Dual Use Technology Task Force.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Hawaii Technology Development Corporation; Hyperspective Studios, Inc.; Nalu Scientific, LLC; Oceanit; and Premier Solutions HI, LLC. Your Committees received comments on this measure from one individual.

Your Committees find that technologies developed for military use have been and continues to be appropriated by businesses for commercialization with extraordinary success. However, the State's heavy dependence on its tourism and hospitality industry has taken its focus away from developing innovative concepts and new approaches to technology, as well as availing itself to the extraordinary opportunity to take advantage of the strong military presence in the State and the research conducted on its behalf. The establishment of the Dual Use Technology Task Force will promote the development of the dual use technology industry in Hawaii that is essential to the recovery, continued growth, and diversification of the State's economy.

Your Committees also acknowledge the testimonies regarding certain initiatives being taken by the Hawaii Technology Development Corporation and University of Hawaii, such as the Hawaii Small Business Innovation Research program that assists many Hawaii dual use technology businesses in securing federal Small Business Innovation Research funding, and the Hawaii Tech Bridge program, which is a new partnership with the Naval Information Warfare Center Pacific to facilitate new opportunities for Hawaii technology companies, including dual use technology companies, to provide solutions to the U.S. Navy. Your Committees recognize the concerns raised in the testimonies regarding the establishment of the Dual Use Technology Task Force affecting these priorities set forth in the Executive Budget.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 3 to eliminate the appropriation for the operations and administration of the Dual Use Technology Task Force;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1421, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1421, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Higher Education: Ayes, 5. Noes, none. Excused, none. Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 408 (Majority) Education on S.B. No. 816

The purpose and intent of this measure is to:

- (1) Create a state lottery;
- (2) Create the state lottery commission, state lottery account, and lottery administration account; and
- (3) Require certain amounts of lottery revenues to be deposited into the administrative account, general fund, and special funds for university facilities and operations and public school operations.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department, Department of Commerce and Consumer Affairs, Department of the Prosecuting Attorney for the City and County of Honolulu, Hawaii Family Forum, and four individuals. Your Committee received comments on this measure from the Department of Education, Department of Budget and Finance, University of Hawai'i System, and Tax Foundation of Hawaii.

Your Committee finds that compared to other states, Hawaii is unique because the State, rather than a county or local level jurisdiction, is responsible for the full cost and administration of public education. As a result, funding for public education in Hawaii is primarily sourced from the State's general fund. Your Committee further finds that public education in Hawaii is not adequately funded and continuous underfunding of public schools undermines the State's goal of providing a quality education to all of Hawaii's children. This measure creates a lottery to provide a new means for funding Hawaii's public education system and ensure that the State will be able to prepare children to meet the social and economic demands of the twenty-first century.

Your Committee has amended this measure by:

- (1) Specifying that the earliest date that the lottery may commence is prior to January 1, 2023, rather than prior to January 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 816, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Kim). Excused, none.

SCRep. 409 Commerce and Consumer Protection on S.B. No. 1282

The purpose and intent of this measure is to:

(1) Establish the offense of theft of catalytic converter as a class C felony;

- (2) Define "catalytic converter", "catalytic metals", and "scrap catalytic converter";
- (3) Require sellers of scrap catalytic converters and catalytic metals to provide receipts and notarized declarations to the scrap dealer:
- (4) Prohibit scrap dealers from purchasing scrap catalytic converters and catalytic metals without the seller providing a receipts and notarized declaration; and
- (5) Require scrap dealers to report to the police certain attempted sales of catalytic converters or catalytic metals.

Your Committee received testimony in support of this measure from the Hawaii Automobile Dealers Association; Schnitzer Steel Hawaii; Roberts Hawaii; Hakuyosha International, Inc.; Island Recycling, Inc.; American Property Casualty Insurance Association; National Insurance Crime Bureau; and five individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the value of precious metals in catalytic converters is fueling a dramatic upswing in thefts, especially from vehicle dealerships and fleet operations. Installing a replacement catalytic converter can cost hundreds to thousands of dollars, and because thieves try to remove the converters quickly, their hastiness often causes repair costs to be higher due to other areas of the car being damaged. This measure adds requirements for a paper trail when purchasing catalytic converters to properly identify sellers and makes theft of a catalytic converter a class C felony to deter this destructive theft of property.

Your Committee notes the concerns raised in testimony that this measure, as currently drafted, proposes to include scrap catalytic converters in the scrap dealer provisions of chapter 445, Hawaii Revised Statutes. However, licensed scrap dealers are not authorized to deal in used motor vehicle parts. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- Moving the language requiring a written statement, notarized declaration, receipt, and other documentation from chapter 445, Hawaii Revised Statutes, to chapter 289, Hawaii Revised Statutes, which regulates used motor vehicle parts and accessories;
- (2) Clarifying that the seller's requirement to provide a receipt or notarized declaration does not apply to manufacturing, industrial, or other commercial vendors that generate or sell catalytic converters in their ordinary course of business, such as licensed scrap dealers, towing companies, or muffler repair shops;
- (3) Clarifying that a person commits the offense of theft of catalytic converter if the person obtains, receives, retains, disposes of, or exerts unauthorized control over a catalytic converter through any means described in section 708-830, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1282, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 410 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 529

The purpose and intent of this measure is to:

- (1) Establish the right of persons to record law enforcement activities; and
- (2) Establish a private right of action for violations of the right.

Your Committee received testimony in support of this measure from the Office of the Public Defender, American Civil Liberties Union of Hawai'i, Young Progressives Demanding Action, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii law and the United States Constitution afford an individual the right to record law enforcement officers. However, there is nothing to prevent law enforcement from interfering with an individual's right to do so. Without consequences, law enforcement may continue to unconstitutionally prevent individuals from recording their activities. This measure will ensure that individuals have the right to record law enforcement activities and create a civil cause of action if law enforcement interferes with that right.

Your Committee has amended this measure by:

- (1) Specifying that "law enforcement officer" means any public servant, whether employed by the State or subdivisions thereof or by the United States, vested by law with a duty to maintain public order or, to make arrests for offenses or to enforce the criminal laws, whether that duty extends to all offenses or is limited to a specific class of offenses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 529, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 529, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 411 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 765

The purpose and intent of this measure is to:

- (1) Define "highly intoxicated driver";
- (2) Provide the evidentiary standard for establishing that a person was a highly intoxicated driver;
- (3) Require that ignition interlock devices be installed and maintained on one or more vehicles registered to, and all vehicles operated by, anyone convicted of operating a vehicle under the influence of an intoxicant, during the applicable period of license revocation;
- (4) Increase the license revocation period ordered by the Administrative Driver's License Revocation Office and extend the applicable lookback periods from five to ten years;
- (5) Establish higher penalties for a highly intoxicated driver operating a vehicle; and
- (6) Establish higher penalties for offenses of operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, Honolulu Police Department, Maui Police Department, MADD Hawaii, Hawaii Strategic Highways Safety Plan Core Committee, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Malolo Charters, and one individual.

Your Committee finds that the habitual "highly intoxicated driver," or someone who has been arrested and convicted many times over, poses a substantial risk to others on the road. Despite their repeated arrests and convictions, these drivers continue to drive while intoxicated. This measure aims to strengthen the current law regarding operating a vehicle under the influence of an intoxicant.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 765, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 765, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 412 (Majority) Public Safety, Intergovernmental, and Military Affairs on S.B. No. 767

The purpose and intent of this measure is to:

- (1) Legalize the personal use, possession, and sale of cannabis in a specified quantity;
- (2) Require licensing to operate cannabis establishments; and
- (3) Subject cannabis establishments to excise taxes and income taxes.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Office of the Prosecuting Attorney of the County of Kaua'i, Young Progressives Demanding Action, Democratic Party of Hawai'i Education Caucus, National Organization for the Reform of Marijuana Laws, Imua Alliance, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department, Maui Police Department, Hawai'i Public Health Institute, Coalition for a Drug-Free Hawaii, Hawaii Family Forum, and Hawaii Hotel Visitor Industry Security Association. Your Committee received comments on this measure from the Department of Taxation, Department of Public Safety, Tax Foundation of Hawaii, and Mothers Against Drunk Driving Hawaii.

Your Committee finds that fifteen states and the District of Columbia have legalized the recreational use of marijuana by adults, and that others are in the process of considering legalization. Your Committee further finds that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Your Committee additionally finds that recent polling indicates broad public support in Hawaii for the legalization of marijuana. This measure legalizes cannabis for personal and recreational use.

Your Committee notes the concerns of the Department of Taxation and Hawaii Public Health Institute that the Department of Health, not Department of Taxation, should be the appropriate agency tasked with establishing rules and regulations. Your Committee also notes the Hawaii Public Health Institute's concern regarding the adoption of certain regulations, which should be addressed during the rulemaking process.

Your Committee has amended this measure by:

- (1) Specifying that consumption of flavored e-liquids and juices containing cannabis for vaporizing devices is prohibited;
- (2) Specifying that personal use of cannabis shall not occur on public highways, public sidewalks, or federal property;
- (3) Specifying that cannabis products are required to be contained in generic packaging that uses only black lettering and contain no colors, pictures, cartoons, or images that might appeal to children and youth;
- (4) Specifying that cannabis advertising is prohibited near youth-centered areas such as parks, schools, recreational facilities, public transit stations, and bus stops; and

(5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 767, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 413 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1046

The purpose and intent of this measure is to:

- (1) Clarify membership and certain powers and duties of the Law Enforcement Standards Board;
- (2) Establish new deadlines for the Law Enforcement Standards Board to complete its responsibilities; and
- (3) Provide appropriate funds and resources to enable the Law Enforcement Standards Board to accomplish its mission.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of the Attorney General, Department of Land and Natural Resources, Hawai'i Police Department, and one individual. Your Committee received testimony in opposition to this measure from the Young Progressives Demanding Action and one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee recognizes that the Law Enforcement Standards Board's duties include the establishment and enforcement of minimum employment standards for and certification of law enforcement officers throughout the State. Your Committee believes that these employment and certification standards are necessary for public health, safety, and welfare. Your Committee finds that in order to establish appropriate standards, the Law Enforcement Standards Board needs to consult with various stakeholders, consider reputable studies, and hire appropriate staff. Your Committee also finds that all of the foregoing steps will require time, monetary resources, and the active participation of board members. This measure will provide the Law Enforcement Standards Board with the necessary resources to comply with its statutory requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1046, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 414 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1381

The purpose and intent of this measure is to:

- (1) Establish a Special Intergovernmental Task Force to eradicate illegal gambling and drug activities and to establish community safe zones across the State; and
- (2) Require a report to the Legislature.

Your Committee received testimony in support of this measure from the Waikiki Neighborhood Board No. 9, Hawaii Family Forum, and seven individuals. Your Committee received testimony in opposition to this measure from the Maui Police Department. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee acknowledges the harmful effects of illegal gambling and drug houses that exist in communities across the State. These effects include an increase in other criminal activities such as crimes of violence and sex trafficking. Your Committee believes that rather than attempting to address these criminal activities in a piecemeal fashion, an intergovernmental task force encompassing federal, state, and county agencies should be established to engage in an organized, collaborative effort to examine relevant issues, determine the resources needed to address these issues, and devise a coordinated action plan.

Your Committee has amended this measure by:

- (1) Specifying that in fulfilling its duties, the Special Intergovernmental Task Force shall consider the necessary resources and legislative actions that may be necessary to accomplish certain goals and activities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1381, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 415 Higher Education on S.B. No. 613

The purpose and intent of this measure is to help address the shortage of physicians in rural and medically underserved areas of the State. Specifically, the measure:

- (1) Repeals the requirement that no less than fifty percent of the physician workforce assessment fees deposited into the University of Hawaii John A. Burns School of Medicine (JABSOM) Special Fund be used for purposes identified by the Hawaii Medical Education Council;
- (2) Repeals the monetary cap on expenditures from the JABSOM Special Fund used to support physician workforce assessment and planning efforts, including the recruitment and retention of physicians for rural and medically underserved areas of the State; and
- (3) Authorizes the JABSOM Special Fund to provide:
 - (A) Loan repayment to physicians who commit to working in medically underserved areas of the State as part of the Health Care Provider Loan Repayment Program administered by JABSOM; and
 - (B) Scholarships for qualifying medical students.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, Hawaii Medical Association, Hawai'i Primary Care Association, and The Queen's Health Systems. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that Hawaii faces a critical need for recruitment and retention of physicians to serve in rural and medically underserved areas of the State. The shortage of physicians is compounded by the fact that Hawaii's physician workforce is the fifth oldest of all the states, of which a majority will be over the age of sixty-five within ten years. Your Committee also finds that the increasingly high cost of education for healthcare professionals binds graduates to practice in highly specialized fields of care in urban areas that provide sufficient income to repay costly student loans, rather than in general practice on the neighbor islands or in rural areas of the State where need for their service is greatest. Your Committee further finds that the physician shortage in Hawaii was exacerbated by the coronavirus disease 2019 pandemic. In 2020, at least one hundred ten physicians retired, one hundred thirty-nine left the State, one hundred twenty decreased their work hours, and eight passed away.

Your Committee further finds that the Physician Workforce Assessment Project administered by JABSOM has been providing physicians in Hawaii with various workforce services, including loan repayment for physicians working in areas of need, recruitment advertisement, preparation of local students for medical school, and education on the issue of physician shortage. According to the University of Hawai'i Systems, the funding for the project is limited to what is provided by the JABSOM Special Fund. Funding for the project is statutorily capped at \$245,000 per year, despite the JABSOM Special Fund being well funded from the \$60 relicensing fees paid by all physicians in Hawaii. As such, the fund currently has a reserve of \$500,000 that cannot be accessed.

This measure will help the Physician Workforce Assessment Project to address the shortage of physicians in rural and medically underserved areas of the State by allowing more funds to be used to support the project and expanding the purposes for which the funds may be used to include loan repayment to physicians who commit to working in medically underserved areas of the State and scholarships to qualifying medical students.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 613, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 416 Higher Education on S.B. No. 1024

The purpose and intent of this measure is to create a Cannabinoid Medicine Program within the University of Hawaii to be administered by the University of Hawaii John A. Burns School of Medicine (JABSOM).

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from JABSOM.

Your Committee finds that there are over thirty thousand people registered as medical cannabis patients in Hawaii, creating a need for expertise in the field of cannabinoid medicine to facilitate the exchange of education and research information related to the state-authorized use of cannabis for medical purposes in Hawaii. This measure will satisfy this need by creating a Cannabinoid Medicine Program within the University of Hawaii to be administered by JABSOM.

Your Committee notes the testimony from JABSOM stating that the new program is unnecessary as it would be duplicative of JABSOM's existing faculty with expertise in substance abuse, which includes substances such as marijuana, tetrahydrocannabinol, and cannabinols; curriculum on substance use, chronic pain management, management of side effects of chemotherapy, and medical cannabis; and residency and fellowships programs, such as the fellowships on Addition Psychiatry and Addiction Medicine. However, your Committee also acknowledges other testimony that distinguishes the existing programs at JABSOM from the Cannabinoid Medicine Program that will be created under this measure. Specifically, the existing programs at JABSOM are a part of the school's substance abuse and addictive psychiatry programs, whereas the new program will focus more on research and education related to the authorized use of cannabis for medical purposes and will include a certified cannabinoid medicine specialist as part of its faculty.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 417 Human Services on S.B. No. 534

The purpose and intent of this measure is to provide special needs voters with a means to authenticate an electronic transmission of a replacement ballot that does not include the voter's handwritten signature or waiver of secrecy.

Your Committee received testimony in support of this measure from the Office of Elections, Disability Communication and Access Board, National Federation of the Blind of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from seven individuals. Your Committee received comments on this measure from Common Cause Hawaii and two individuals.

Your Committee finds that this measure ensures voter accessibility. According to the Help America Vote Act of 2002 (HAVA), accessible voting systems must provide voters with disabilities the same opportunity for access and participation, including privacy and independence, that other voters receive. Your Committee also finds that election officials implemented an HTML ballot in 2018 that allowed uniform and overseas voters and mail voters within five days of the election to receive and vote a ballot that could be marked on a personal device, phone, tablet, or computer. Further, your Committee finds that after marking the HTML ballot, the voter would print it, sign a waiver of secrecy, and return it by mail or electronically. As determined by the Committee, the secrecy waiver is a standard document associated with voting by electronic transmission across the country. By implementing these expanded means of voting, this measure will provide voters with special needs a means by which they can more easily participate in elections.

Your Committee heard the concerns of Common Cause Hawaii regarding the need for security in the voting process. Accordingly, your Committee has amended this measure by:

- (1) Removing the provisions that made the voter's handwritten signature or a waiver of secrecy not required for purposes of electronic authentication; and
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 534, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 418 Human Services on S.B. No. 597

The purpose and intent of this measure is to help defray the expensive costs of a political candidate's dependent family care and child care, by allowing candidates seeking election to use campaign funds, in limited circumstances, for child care costs.

Your Committee received testimony in support of this measure from Common Cause Hawaii, AAUW of Hawaii, and eight individuals.

Your Committee finds that parenthood and care for one's dependents should not be a barrier to political office. One solution to this unnecessary obstacle is to allow candidates for elected office to use campaign funds to defray the expensive costs of a candidate's child care or dependent family care. Your Committee also finds that a growing number of candidates and good governance organizations are pushing state legislatures and elections commission to adopt similar proposals because it would encourage more women and low-income candidates to run for public office by clearing a restrictive financial barrier for parents and caregivers. Accordingly, your Committee finds that this measure will reduce that cost barrier by allowing candidates more flexibility in how they use campaign funds.

Your Committee has amended this measure by:

- (1) Expanding the covered family care costs to include the care of a candidate's vital household dependents, such as family members living in the candidate's household who are physically or mentally incapable of self-care; and
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 597, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 419 Human Services on S.B. No. 838

The purpose and intent of this measure is to improve the Kupuna Caregivers Program by providing additional work eligibility options for caregivers to support their loved ones, especially during the hardship placed on families during the coronavirus disease 2019 (COVID-19) pandemic.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Aging, Department of Human Services, AARP Hawaii'i, Hawaii Family Caregiver Coalition, Policy Advisory Board for Elder Affairs, Alzheimer's Association, Faith Action for Community Equity, Hawaii Alliance for Retired Americans, and nineteen individuals.

Your Committee finds that in 2017, the Legislature established the Kupuna Caregivers Program in the Executive Office on Aging to focus on working caregivers and provide assistance to enable them to remain in the workforce. Your Committee also finds that the hardships imposed on families during the COVID-19 pandemic require some flexibility in the Kupuna Caregivers Program. Further, your Committee finds that work eligibility requirements and service options of the Kupuna Caregivers Program must be adjusted. Accordingly, your Committee finds that the change to the work eligibility requirement during a governor-proclaimed state of emergency would allow working caregivers whose work hours have been reduced to less than thirty hours per week to continue to receive needed caregiving support in times of uncertainty, such as during the COVID-19 pandemic. Finally, your Committee finds that the addition of Kupuna Caregiver-Directed services as an option in the Kupuna Caregivers program would allow the participants to direct their services and to address their needs with a monthly-budgeted dollar amount, instead of receiving services through a contracted provider.

Your Committee has amended this measure by:

- (1) Deleting language that would have given the Executive Office on Aging the authority to eliminate the work hour requirement for a "qualified caregiver", as requested by the Office;
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 838, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 420 Human Services on S.B. No. 886

The purpose and intent of this measure is to reduce the secondary traumatization of long-term consequences for children and minors providing testimony at trial concerning abuse they have either experienced or witnessed, where the perpetrator is an adult.

Your Committee received testimony in support of this measure from Rainbow Family 808, Hawaii Family Advocacy Team, and six individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the right to a speedy criminal trial is a fundamental element of our state and federal constitutions. However, your Committee also finds that victims and witnesses in cases involving a sexual offense charged under part V of chapter 707, Hawaii Revised Statutes, should also have a right to a speedy trial that is subordinate only to a defendant's constitutional rights. Your Committee further finds that when considering a motion to postpone a trial in any of these cases, the court should consider the totality of the circumstances, including any substantial adverse impact that postponing the trial may have on the victim or witness, particularly if the trial has been postponed once before. Accordingly, your Committee finds that this measure is designed to preserve the fundamental trial rights of criminal defendants, while also protecting victims and witnesses of sexual offenses committed by an adult from undue delay at trial that may adversely impact their well-being.

Your Committee recognizes that delays in cases involving child victims and child witnesses are due to trial judges, defense bar, and prosecuting attorneys alike, and therefore, your Committee has amended this measure by:

- (1) Removing sanctions against defense counsel for failure to timely prepare for trial;
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 886, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 886, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 421 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 1124

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to undertake review of the effect of any proposed project on historic properties or burial sites for lands under its jurisdiction.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation. Your Committees received comments on this measure from the Office of Hawaiian Affairs and Department of Land and Natural Resources.

Your Committees find that the protection and preservation of prehistoric and historic native Hawaiian burial sites help to ensure that native Hawaiian ancestors are afforded dignity and respect. The Department of Hawaiian Home Lands seeks to streamline the process regarding the effect of any proposed project on historic properties or burial sites for lands under its jurisdiction. The State Historic Preservation Division of the Department of Land and Natural Resources is currently responsible for the coordination of the evaluation and management under chapter 6E, Hawaii Revised Statutes. Issues before the State Historic Preservation Division can be contentious, highly emotive, and often involve complex aspects of landowner, familial, and cultural rights. Your Committees find that many

housing projects are delayed because of the State's Historic Preservation Division's inability to efficiently and effectively provide necessary reviews to ensure compliance with the State Historic Preservation Law.

Additionally, section 6E-8(b), Hawaii Revised Statutes requires the Department of Hawaiian Home Lands to consult with the Department of Land and Natural Resources regarding the effect of the project upon historic property or a burial site prior to any proposed project relating to lands under its jurisdiction. Therefore, because of the Department of Hawaiian Home Lands' expertise of burial sites of native Hawaiian origin on its lands, this measure seeks to allow the Department to undertake review of the proposed project on historic properties or burial sites for lands under its jurisdiction.

Your Committees have heard the concerns of the Office of Hawaiian Affairs regarding the success of the modified historic preservation review process proposed in this measure, especially to highlight the need for the Department of Hawaiian Home Lands to retain qualified staff and resources to appropriately review their projects for possible adverse impacts to historic properties and to recommend consultation with the Office of Hawaiian Affairs as part of their review process. There is a need for qualifying standards, informational resources, and established consultation and assessment processes to protect iwi kupuna, cultural sites, and other historic properties from development impacts as envisioned under chapter 6E, Hawaii Revised Statutes. The Office of Hawaiian Affairs has proposed an amendment that the Department of Hawaiian Home Lands should retain qualified historic preservation staff and acquire adequate resources to access adequate resources for staff to perform the review.

Your Committees also heard the concerns from the Historic Hawai'i Foundation that the State Historic Preservation Division's review of proposed projects is an important safeguard to ensure that historic properties and cultural resources are identified and appropriate treatment measures are in place during planning and design work, which limits surprises or delays during construction. Additional concerns were presented that the Department of Hawaiian Home Lands does not have qualified staff, subject matter expertise, an appropriate administrative framework, or other capacity to conduct these reviews or to resolve effects that projects may have on historic properties and could result in conflicts of inflicts without proper safeguards to ensure professional judgment and ensure ethical decision-making.

Your Committees also heard the concerns of the Department of Land and Natural Resources that this measure does not ensure a uniform statewide process or single repository for all data. The Department of Land and Natural Resources suggested amendments to provide that the Department of Hawaiian Home Lands:

- (1) Adopt rules governing the review process consistent with the Department of Land and Natural Resources rules governing reviews;
- (2) Hire qualified professional staff who meet standards established by the Department of Land and Natural Resources to conduct the reviews;
- (3) Establish sufficient internal organizational controls to ensure that the qualified professional staff can make independent determinations regarding the effects of projects on historic properties;
- (4) Ensure that the qualified professional staff can function in a manner that does not create a conflict of interest or an appearance of a conflict of interest;
- (5) Provide for appropriate public notification in a manner consistent with standards established by the Department of Land and Natural Resources;
- (6) Provide further that the delegation of authority shall automatically be suspended or terminated if the Department of Hawaiian Home Lands is unable to retain its qualified professional staff or if it becomes apparent that the it does not have sufficient staffing capacity to complete the delegated reviews in a timely manner; and
- (7) Consult with the Department of Land and Natural Resources on reviews for projects affecting properties listed in the Hawaii register of historic places or the national register of historic places.

Your Committees find that these amendments raise concerns that merit further consideration, and requests that your Committee on Judiciary further examine those issues and concerns raised by the agencies on these measures.

The Historic Hawai'i Foundation also presented concerns that Department of Hawaiian Home Lands projects are subject to federal historic preservation regulations under Section 106 of the National Historic Preservation Act.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1124, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1124, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none. Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 422 (Joint) Hawaiian Affairs and Agriculture and Environment on S.B. No. 882

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission to the board of agriculture.

Your Committees received testimony in support of this measure from Department of Hawaiian Home Lands and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the Department of Agriculture, headed by the Board of Agriculture, works to support, enhance, promote, and protect Hawaii's agriculture and aquaculture industries. The Hawaiian Homes Commission Act authorizes the Department to lease agricultural lands or lands used for aquaculture purposes. As the State looks to increase food security statewide, the interests of agricultural homestead lessees should be represented on the Board of Agriculture.

Your Committees have heard concerns expressed by the Department of Agriculture that adding the Chairperson of the Hawaiian Homes Commission to the Board of Agriculture would provide opportunities for other stakeholder groups to request further expansion of the Board, thus compromising its ability to govern efficiently. The Department of Agriculture provided a suggestion that the stakeholder-oriented representation sought by the Department of Hawaiian Home Lands may be more appropriately achieved by occupying one of the existing at-large seats.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 882, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 882, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Ihara). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 423 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1147

The purpose and intent of this measure is to:

- (1) Establish the offense of unlawful shipment of tobacco products;
- (2) Include e-liquid and electronic smoking devices within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law;
- (3) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products;
- (4) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products; and
- (5) Repeal certain provisions of the Hawaii Revised Statutes relating to electronic smoking devices.

Your Committees received testimony in support of this measure from the Department of Attorney General, Department of Health, Department of Taxation, Hawaii COPD Coalition, American Lung Association in Hawaii, Hawaii Substance Abuse Coalition, AlohaCare, Blue Zones Project, The Friends of Kamalani and Lydgate Park, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Public Health Institute, Hawaii State Teachers Association, American Cancer Society Cancer Action Network, and twenty-four individuals. Your Committees received testimony in opposition to this measure from the American Vaping Association, Taxpayers Protection Alliance, Americans for Tax Reform, and twenty-two individuals. Your Committees received comments on this measure from Tax Foundation of Hawaii, Hawaii Food Industry Association and Hawaii' Primary Care Association.

Your Committees find that tobacco use is the single most preventable cause of disease, disability, and death in the United States. Your Committees also find that e—cigarette use among youth and young adults is strongly associated with the use of other tobacco products, including combustible tobacco products. This measure imposes a tax on e-liquids and e-cigarettes similar to other tobacco products in order to encourage users of e-liquids to quit, sustain cessation, prevent youth initiation, and reduce consumption among those who continue to use them.

Your Committees note that S.B. No. 63 also aims to curb the use of e-cigarettes by prohibiting the sale of those products other than through in-person exchange retail sales. Your Committees find that portions of that measure can be appropriately added to this one. Your Committees also heard the testimony of the Department of the Attorney General, which noted that portions of S.B. No. 63 contained provisions that conflicted with due process rights. Finally, your Committees heard the testimony of the Department of Taxation, which requested that the measure take effect no earlier than January 1, 2022, to give the Department time to update its forms, instructions, and computer system.

Therefore, your Committees have amended this measure by:

- (1) Inserting section 2 of S.B. No. 63, which prohibits the sale of flavored tobacco products, mislabeling of e-liquid products containing nicotine, and sale of tobacco products other than through retail sales via in-person exchange;
- (2) Adopting the amendments made by S.B. No. 63 to the definition of "tobacco products" and new definitions of "e-liquid" and "electronic smoking devices" as used in the cigarette tax and tobacco tax law, with section 3 of S.B. No. 63, which similarly amends those definitions;
- (3) Amending portions of the measure to avoid infringing on a person's due process rights;
- (4) Inserting blank fee amounts for wholesale licenses and retail tobacco permits;
- (5) Providing for the disposition of fines for unlawful shipment of tobacco products into the Hawaii Tobacco Prevention and Control Trust Fund;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1147, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1147, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 424 Higher Education on S.B. No. 358

The purpose and intent of this measure is to establish a state income tax deduction for eligible contributions to any college savings program established under section 529 of the Internal Revenue Code (IRC), with certain limits.

Your Committee received testimony in support of this measure from the Securities Industry and Financial Markets Association, Security Industry Association of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Taxation.

Your Committee finds that in 2002, the Legislature established the State's College Savings Program pursuant to chapter 256, Hawaii Revised Statutes, and section 529 of the Internal Revenue Code of 1986, as amended. Administered by the Department of Budget and Finance, the "HI529-Hawaii's College Savings Program" (HI529 Program) exists to assist and encourage families to set aside funds for future college and higher education expenses by exempting investment income earned under the program from federal and state taxes; provided that the funds are used for qualified higher education expenses.

Your Committee finds that the benefits of a college education are well-documented. A recent study by the College Board has concluded, among other things, that college graduates have substantially higher median incomes, pay more taxes, have lower unemployment rates, and are healthier and more involved in their communities. However, the cost to attend college has been increasing significantly. Since the early 1980s, the increase in college costs have outpaced inflation nearly every year, sometimes reaching as high as 9.5 percent above the rate of inflation. In the last five years, college tuition and fees have risen by about seven percent for a public four-year program and ten percent at private non-profit four-year programs, adjusted for inflation. In the last ten years, college costs at both public and private institutions have risen more than twenty-five percent.

Your Committee finds that most other states offer a state tax deduction or credit for contributions into college savings programs as an incentive for their residents' participation. This measure, which provides a similar incentive by establishing an upfront state tax deduction for contributions paid into any state college savings program established under section 529 of the IRC, will further encourage Hawaii residents to save early and often for future college expenses as an alternative to taking out educational loans.

Your Committee also notes the concerns raised by the Department of Budget and Finance regarding the scope of this measure. Based on information on the HI529 Program as of December 2020, if all Hawaii account owners contributed into the HI529 Program, assuming the maximum deductible amount for a single state tax-filer at the maximum tax rate, the potential revenue loss for the State would be approximately \$1.5 million per year. The potential revenue loss for the State will be significantly greater if the tax deduction is applied to contributions into all 529 college savings programs.

Accordingly, your Committee has amended this measure by:

- (1) Amending sections 2 and 3 by:
 - (A) Limiting the application of the Hawaii income tax deduction to contributions into the HI529 Program; and
 - (B) Amending the definition of "qualified taxpayers" to limit the definition to residents of the State of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 358, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 358, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 425 Higher Education on S.B. No. 1225

The purpose and intent of this measure is to:

- (1) Allow the chairperson of the Independent Audit Committee (IAC) of the University of Hawaii Board of Regents (Board) to be selected in a manner consistent with the Board's bylaws; and
- (2) Clarify that the IAC's responsibility as to the University's enterprise risk management is to oversee, rather than engage in the pertinent operations.

Your Committee received testimony in support of this measure from the University of Hawai'i System Office of the Board of Regents (Board Office). Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the IAC is an advisory body established under section 304A-321, Hawaii Revised Statutes, as well as the Board's bylaws, to provide oversight of the University's compliance with, and internal controls relating to, various areas of risk management, finance, and accounting. The members of the IAC are appointed by the Board Chairperson from among the Board members. While the chairpersons of the Board's other standing committees are appointed by the Board Chairperson, current law requires that the chairperson of the IAC be selected by the members of the IAC from among the members of the IAC itself.

Your Committee finds that this unique selection process for the IAC chairperson has presented challenges to the administration of IAC meetings when the IAC chairperson's term on the Board, and consequently the chairperson's term on the IAC, ends on June 30, and the IAC membership is pending election by the Board Chairperson. For other Board standing committees, the Board Chairperson may appoint the voting members and chairpersons at the first Board meeting after June 30, and the appointed chairpersons may plan and set the agenda for the committees' first meeting thereafter. However, since existing law does not allow the Board Chairperson to appoint the IAC chairperson, there will be no chairperson to plan and set the agenda for the first IAC meeting. This measure prevents such problems from occurring by allowing the Board Chairperson to appoint an IAC chairperson in a manner consistent with the appointment process of other committee chairpersons. Your Committee also finds that the IAC's responsibility is to oversee, rather than engage in the operations related to, the University's enterprise risk management activities, and that this measure clarifies the distinction.

Your Committee notes the concerns raised by the Board Office that the existing statute does not explicitly exempt from part I of chapter 92, Hawaii Revised Statutes, discussions between the IAC and internal and external auditors on matters that should remain confidential in accordance with nationally recognized best practices for independent audit committees. Your Committee also acknowledges the Board Office's request that the IAC chairperson be given authority to determine whether executive sessions that are exempt from chapter 91 and part I of chapter 92, Hawaii Revised Statutes, may occur without the presence of the President or Chief Financial Officer of the University.

Accordingly, your Committee has amended this measure by:

- (1) Exempting from chapter 91 and part I of chapter 92, Hawaii Revised Statutes, discussions between the IAC and internal or external auditors on matters that should remain confidential in accordance with nationally recognized best practices for independent audit committees;
- (2) Allowing the IAC chairperson to determine whether IAC discussions that are exempt from chapter 91 and part I of chapter 92, Hawaii Revised Statutes, may be held without the presence of the President or the Chief Financial Officer of the University; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1225, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1225, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 426 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 167

The purpose and intent of this measure is to improve the quality of life in the State by:

- Establishing objectives and policies for state facility systems in the Hawaii State Planning Act to achieve the use of green infrastructure, vegetation, and trees in state facility systems, infrastructure, and transit projects; and
- (2) Requiring the Office of Planning, in partnership with the Greenhouse Gas Sequestration Task Force, to make recommendations for implementing green infrastructure objectives, policies, and priority guidelines established by this measure.

Your Committees received testimony in support of this measure from the Office of Planning, Department of Land and Natural Resources, Department of Health, Office of Hawaiian Affairs, 350Hawaii, and three individuals.

Your Committees find that sustainable design concepts for public infrastructure that incorporate green vegetation and trees help decrease urban temperatures, reduce carbon emissions, improve air quality, and capture water to replenish the water table. Your Committees also finds that people who live in these areas are less likely to suffer from acute respiratory symptoms and heart disease. Accordingly, your Committees also find that the effects of climate change have made implementing sustainable design concepts even more critical, as each passing year has seen increased temperatures and other impacts from climate change.

Your Committees further find that this measure addresses these concerns by establishing green infrastructure objectives and policies for state facility systems in the Hawaii State Planning Act and is an important step to improve the quality of life for both residents and visitors alike.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 167 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 427 Energy, Economic Development, and Tourism on S.B. No. 1320

The purpose and intent of this measure is to incorporate a regenerative framework into the State Planning Act by establishing objectives and policies for the visitor industry.

Your Committee received testimony in support of this measure from the City and County of Honolulu, Office of Economic Revitalization; Hawai'i Tourism Authority; one member of the Hawai'i County Council; Waikiki Neighborhood Board; Imua Alliance; Conscious Concepts; and eighty individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Planning and two individuals.

Your Committee finds that the tourism industry is a significant part of the State's economy as a whole and linked inextricably with other sectors. Emerging from the coronavirus disease 2019 pandemic gives Hawaii an opportunity to restart with a regenerative design for tourism that embraces biosphere stewardship and recognizes that we have the responsibility to preserve the health of our land in a better condition than we found it. Your Committee believes that this measure enhances the capacity of state government, its relevant agencies, and the community to position our economy toward a more resilient and sustainable future for generations to come.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1320 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 428 (Joint/Majority) Hawaiian Affairs and Housing on S.B. No. 1322

The purpose and intent of this measure is to designate a seat for the Department of Hawaiian Home Lands on the board of the Hawaii Housing Finance and Development Corporation.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Office of Hawaiian Affairs, Hawaiian Community Development, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation; Mutual Housing Association of Hawaiii, Inc.; and one individual.

Your Committees find that the constitutional mandate and mission of the Department of Hawaiian Home Lands trust is to effectively develop and deliver lands to native Hawaiians. The Hawaii Housing Finance and Development Corporation is tasked with developing low- and moderate-income housing projects and administering homeownership programs. This measure is intended to further enhance the partnerships and collaboration between the Department of Hawaiian Home Lands and Hawaii Housing Finance and Development Corporation. As a voting member of the Hawaii Housing Finance and Development Corporation Board, the Chairperson of the Hawaiian Homes Commission can bring new perspectives and ideas developed through the Department of Hawaiian Home Land's activities and experiences to the Hawaii Housing Finance and Development Corporation Board's deliberations.

Your Committees have heard testifiers' concerns that having the Chairperson of the Hawaiian Homes Commission on the Hawaii Housing Finance and Development Corporation Board could possibly constitute a conflict of interest. The Hawaii Housing Finance and Development Corporation testified that there would be a concern as to whether the Chairperson of the Hawaiian Homes Commission would be focusing on providing housing for native Hawaiians rather than production of housing for all residents of the State of Hawaii.

In response to those concerns, the Department of Hawaiian Home Lands noted that the Director of Business, Economic Development, and Tourism and the Director of Finance also are provided seats on the Hawaii Housing Finance and Development Corporation Board. Additionally, in *Ahuna v. Department of Hawaiian Home Lands*, 640 P.2d 1161 (1982), the Hawaii Supreme Court recognized the State's fiduciary responsibility to facilitate the Hawaiian Homes Commission Act. Because the ruling was not specified to one individual state agency, the State of Hawaii shares the responsibility among all agencies for fulfilling the mandates of the Hawaiian Homes Commission Act. Your Committees find that these concerns warrant further consideration and may require the issuance of an opinion from the Department of the Attorney General.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1322 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Acasio, Ihara). Noes, 1 (Fevella). Excused, none.

Housing: Ayes, 4; Ayes with Reservations (Moriwaki). Noes, 1 (Fevella). Excused, none.

SCRep. 429 (Joint/Majority) Hawaiian Affairs and Housing on S.B. No. 1334

The purpose and intent of this measure is to:

- (1) Allow the raising of the building height limit for two of the six parcels owned by the Office of Hawaiian Affairs in the Kakaako Makai area to four hundred feet; and
- (2) Lift the current restriction against residential development in Kakaako Makai to allow residential development by the Office of Hawaiian Affairs or by third parties to which the Office of Hawaiian Affairs conveys the parcels.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Community Development, Kūpuna for the Moʻopuna, Association of Hawaiian Civic Clubs, Ke One o Kākuhihewa - Oʻahu Council of the Association of Hawaiian Civic Clubs, and twenty-five individuals. Your Committees received testimony in opposition to this measure from Free Access Coalition; Friends of Kewalos; Common Ground Hawaii; Hawaii's Thousand Friends; Mālama Moana; Kaka'ako Makai Community Planning Advisory Council, Kaka'ako United; Life of the Land; The Outdoor Circle, and eighty-six individuals. Your Committees received comments on this measure from the Hawaii Community Development Authority, Oʻahu Island Parks Conservancy, Historic Hawai'i Foundation, and one individual.

Your Committees find that Act 15, Session Laws of Hawaii 2012 (Act 15), conferred to the Office of Hawaiian Affairs parcels of land in Kakaako Makai to settle certain claims against the State regarding the Office of Hawaiian Affairs' longstanding claims to income and proceeds from ceded lands. The property identified in Act 15 is virtually contiguous, suited for master planning, and is in an area of Honolulu that is already experiencing significant redevelopment. Increasing the revenue stream on these commercial lands will provide a greater sum to fund the Office of Hawaiian Affairs' programs and services for its beneficiaries, including direct grants, advocacy services, and legacy land stewardship.

Your Committees further find that the ten parcels in Kakaako Makai were appraised at \$200,000,000. For the Office of Hawaiian Affairs to realize the full value of these lands, the Office of Hawaiian Affairs must have the ability to construct residential developments. In 2006, however, the Legislature banned residential development in the Kakaako Makai area in response to community concerns regarding preserving open space. In effect, this residential prohibition means that the Office of Hawaiian Affairs, an agency solely dedicated to serving the Native Hawaiian population, cannot develop housing and housing-associated projects makai of Ala Moana. Therefore, lifting this prohibition would create parity for the Office of Hawaiian Affairs with these mauka landowners by affording the agency the same land use options for its parcels as enjoyed by its neighbors.

Your Committees also find that the Office of Hawaiian Affairs testified that the State's contemporaneous appraisal of the value of the lands in Kakaako Makai transferred to the Office of Hawaiian Affairs pursuant to Act 15, included assumptions that appear to imply that residential development of the area was contemplated at that time.

In 2012, legislators proposed separate legislation that would have provided the Office of Hawaiian Affairs the right to develop housing on two of the parcels that would be conveyed, thus adding to their value. While the Office of Hawaiian Affairs was appreciative of these efforts, the Office of Hawaiian Affairs was concerned that that the residential issue would impair the passage of the settlement. While Act 15 was passed into law, the residential restrictions on the parcels conveyed were not lifted. However, your Committees on Judiciary and Labor and Ways and Means acknowledged the values of the properties and believed that property values could be enhanced by certain entitlements that, while not specifically provided for in Act 15, could be obtained at a future date. As a result, this measure exempts the Office of Hawaiian Affairs from the residential development restrictions on certain parcels located in Kakaako Makai for the Office of Hawaiian Affairs to realize the full value of these lands.

Your Committees find that considering a drastically changing and challenging economic environment, the Office of Hawaiian Affairs is considering the development of Kakaako Makai lands as its top priority. In 2016, the Office of Hawaiian Affairs was presented a conceptual master plan, which provided for a scenario with residential development. Over the last year, the Office of Hawaiian Affairs has been revisiting plans for their Kakaako Makai lands, including updating their development master plan to explore a host of development scenarios to maximize revenues in Kakaako Makai to best serve beneficiaries by offering housing, economic development opportunities, integration of commerce and culture, and a better sense of place and community in the revitalized core of urban Honolulu.

Your Committees have heard testifiers' concerns about the Office of Hawaiian Affairs further developing the Kakaako Makai area. Your Committees recognize the Office of Hawaiian Affairs has a proven track record of ensuring that Native Hawaiians participate in and benefit from responsible stewardship throughout the Hawaiian Islands. Through its ownership of both legacy and commercial properties, the Office of Hawaiian Affairs has proven to create economic value, preserve cultural and natural resources and historic properties, and provide cultural and social opportunities for Native Hawaiians in a sustainable and balanced manner. Your Committee find that this measure will not result in the additional sale of public land, and the areas in question do not constitute public lands, which would affect potential shoreline access rights. Nevertheless, the Office of Hawaiian Affairs is dedicated to proper stewardship of its properties in a way that creates value for its beneficiaries.

Your Committees have also heard testifiers' concerns about the impact of climate change and sea level rise on the Kakaako Makai development. The Kakaako Makai properties are at a higher elevation than the cross streets and main streets that lay mauka of the peninsula; thus, climate change and sea level rise are predicted to affect Kakaako Makai parcels in other areas of Honolulu located further inland. A 2012 study identified ten design features to minimize future risks due to climate change and sea level rise, including drainage problems that may come from rainfall, groundwater rising, and ocean water flooding.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1334, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1334, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, 2 (Acasio, Ihara). Excused, none. Housing: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Moriwaki). Excused, none.

SCRep. 430 Hawaiian Affairs on S.B. No. 1246

The purpose and intent of this measure is to prohibit a county from enacting any ordinance that prohibits a person from lying by the roadside in safety in accordance with the Law of the Splintered Paddle.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i and four individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that in Hawaii, equal justice under the law has been a mandate codified in the first law of Ke Kanawai Mamalahoe. In his royal edict, Ke Kanawai Mamalahoe, the first law of the Kingdom of Hawaii, Kamehameha galvanized the supremacy of the law, protecting people from physical harm and enshrining equal rights, and protecting the vulnerable from those in more powerful or advantageous positions. Furthermore, article IX, section 10, of the Hawaii State Constitution provides that the State shall have the power to provide for the safety of the people from crimes against persons and property.

Your Committee further finds that in a modern-day context, the spirit of the Law of the Splintered Paddle requires state government to review the conduct of the counties and act as necessary to protect the vulnerable. Enforcement of criminal laws prohibiting people from camping, sitting, lying, or engaging in similar conduct on public property also violates the prohibition on cruel and unusual punishment under the Eighth Amendment of the United States Constitution and article I, section 12, of the Hawaii State Constitution, as applied to houseless persons who have no option to sleep indoors. Saddling a person experiencing houselessness with fines and a

criminal record is counterproductive to the goal of helping lift themselves out of poverty and would create collateral consequences of criminal records on a person's ability to secure employment, housing, and critical social services. Therefore, this measure will guide the counties in developing ordinances and supporting initiatives that meaningfully address the needs of our most vulnerable people in the spirit of the Law of the Splintered Paddle.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1246, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1246, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

SCRep. 431 Hawaiian Affairs on S.B. No. 1409

The purpose and intent of this measure is to prohibit council, board, and commission members from serving if the member has not completed, within an established time, a required training course related to native Hawaiian traditional and customary rights, resource protection and access rights, and the public trust, including the State's fiduciary responsibility.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, Native Hawaiian Legal Corporation, and eight individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that in Act 169, Session Laws of Hawaii 2015, the Legislature found that pursuant to Hawaii's constitution, statutes, and case law, the State recognizes a mandate to protect native Hawaiian traditional and customary rights. Accordingly, Act 169 amended chapter 10, Hawaii Revised Statutes, to require the Office of Hawaiian Affairs to establish, design, and administer a training course on Hawaiian rights, the sources of these rights, and how the infringement of these rights affects the Hawaiian people, and further required new members of certain state councils, boards, and commissions to complete the training course within one year of their appointment.

Unfortunately, despite the regular provision of notice to board and commission administrators and overwhelmingly positive feedback from training course attendees, a significant number of board and commission members subject to the mandatory training course continue to fail to comply with their training course completion responsibility. Additionally, although certain critical decision-making bodies are required to have one member with experience or expertise in native Hawaiian culture and well-being, this single individual membership requirement has not resulted in decisions that consistently incorporate or even acknowledge native Hawaiian knowledge, values, rights, and practices. Such decisions have led to substantial conflict, distrust, and legal action against the State, and may further foreclose critical opportunities to enhance our islands' resiliency and self-sufficiency through culturally informed land use and resource management approaches. As a result, critical land use and resource management decision-making may continue to be less than fully informed on native Hawaiian rights. The courts have held that the State "must take the initiative in considering, protecting, and advancing public rights in the resource at every stage of the planning and decision[-]making process." In re Water Use Permit Applications, 94 Hawaii'i 97, 143, P.3d 209, 255 (2000). Therefore, this measure strengthens requirements of the completion of the training course, which will ensure greater recognition and incorporation of native Hawaiian knowledge, values, and rights in land use and resource management decision-making.

Your Committee has also heard concerns from the Department of Land and Natural Resources that the Department does not believe that members who are unable to complete the course within one year should be prevented from voting or serving on permitted interaction groups, removed from their seats, or have their votes challenged and subject to being nullified and voided following a contested case hearing. This provision may cause undue hardship for parties needing to complete business before the board if the board loses quorum because of this measure. Board members normally only have two opportunities per year to take the course, and sometimes the training is scheduled with board meetings or other commitments conflict.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1409, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 432 Hawaiian Affairs on S.B. No. 1122

The purpose and intent of this measure is to:

- (1) Clarify requirements on the county boards of water supply to ensure adequate water supplies to residents of Hawaiian home lands; and
- (2) Add representation on the county boards of water supply of the interests to be served by the allocation of water for current and foreseeable development and use of Hawaiian home lands as set forth in section 221 of the Hawaiian Homes Commission Act.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Board of Water Supply, County of Hawaii

Department of Water Supply, and County of Maui Department of Water Supply. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the lack of available water has been and remains a significant barrier to the State's ability to develop projects on Hawaiian home lands. The Department of Hawaiian Home Lands has worked in conjunction with the Department of Land and Natural Resources' Commission on Water Resource Management to set groundwater and surface water reservations for Hawaiian Homes projects on each island with lands set aside for homesteading purposes. Nevertheless, some county boards or departments of water supply have no administrative rules or policies for differentiating and prioritizing the development and provision of water for Hawaiian Homes projects when compared to other state or private projects, thereby not accounting for the trust obligations that the Department of Hawaiian Home Lands holds for its beneficiaries.

Your Committee has also heard testifiers' concerns that this measure seeks to usurp "home rule" guarantees. Article VIII, section 2, of the Hawaii State Constitution provides for each political subdivision to have the power to frame and adopt a charter for its own self-governance. Under section 54-12, Hawaii Revised Statutes, the Mayor of each county shall, with the advice and consent of the council, nominate the members of the county board of water supply stipulating the makeup of the members of the board. Additionally, this measure disregards pre-existing legal protections and systems regarding water use and allocation and is unnecessary because water for the Department of Hawaiian Home Lands is already comprehensively planned and being implemented. Further, a significant burden of the county boards and departments of water supply will be detrimental to our ability to provide a vital and essential service to the counties. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Judiciary consider this as this measure proceeds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1122, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

SCRep. 433 (Majority) Hawaiian Affairs on S.B. No. 86

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to operate medical cannabis dispensaries in addition to the dispensaries operated under eight medical cannabis dispensary licenses issued by the Department of Health

Your Committee received testimony in opposition to this measure from Kūpuna for the Moʻopuna and one individual. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, and Department of Hawaiian Home Lands.

Your Committee finds that Act 241, Session Laws of Hawaii 2015, allowed for the Department of Health to begin administering the Medical Cannabis Dispensaries Program in 2016 to oversee laboratories that test the safety and quality of cannabis and manufactured cannabis products and monitor the dispensaries that make medicinal products readily available for registered patients while balancing the health and safety of patients and the public. As more states have legalized medicinal and recreational cannabis use, an increasing number of tribes have become involved in the cannabis industry in creating financially viable opportunities for economic development and job opportunities.

Your Committee finds that the Department of Hawaiian Home Lands prepared a draft legislative proposal that would require the Department of Health to issue eight additional dispensary licenses to the Department of Hawaiian Home Lands to expand the medical cannabis dispensary program administered by the Department of Health on Hawaiian Home Lands to allow for increased revenue for beneficiaries. Under the proposed program, only eight licenses would be issued statewide, which would limit competition and the opportunity for native Hawaiian communities to participate. The Department of Hawaiian Home Lands also envisioned the proposal to further its utilization of agricultural lands and diversification. However, the proposal did not have the support of the Hawaiian Homes Commission and the proposal was removed from the Department of Hawaiian Home Lands' 2021 legislative proposals.

Your Committee has heard the concerns from the Department of the Attorney General that cannabis is classified as a Schedule I substance under the federal Controlled Substances Act, which could classify the Department as an active participant in an enterprise that is illegal under federal criminal law. Additionally, it is a crime under federal anti-money laundering laws for financial institutions to engage in monetary transactions, including the sale of cannabis. These proceeds could adversely impact the State's ability to utilize banks and ability to receive federal grants. Your Committee has also heard the concerns of the Department of Health that it is unclear as to how the Department of Hawaiian Home Lands' operated dispensaries would work within the existing medical use of cannabis dispensary system. In particular, there are questions about whether the dispensaries are licensed by the Department of Health; whether qualifying patients would be allowed to make purchases from the Department of Hawaiian Home Lands; and how the Department of Hawaiian Home Lands operated dispensaries would ensure that patients remain within their dispensing limits.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the draft proposal of the Department of Hawaiian Home Lands, which expands the medical cannabis dispensary program administered by the Department of Health on Hawaiian Home Lands by eight additional licenses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 86, S.D. 2, and be referred to your Committees on Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Ihara). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 434 Hawaiian Affairs on S.B. No. 1123

The purpose and intent of this measure is to give counties jurisdiction over the infrastructure of the Department of Hawaiian Home Lands housing developments within their boundaries under specific conditions and require counties to commence maintenance on certain infrastructure within sixty days of a completed application of maintenance request.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that while the Department of Hawaiian Home Lands complies with county requirements regarding infrastructure when developing subdivisions, the maintenance of the infrastructure often remains the responsibility of the Department of Hawaiian Home Lands. Although Act 227, Session Laws of Hawaii 2014, clarified and confirmed that operating and maintaining sewer systems is a county function, the Department of Hawaiian Home Lands continues to maintain sewer systems on Hawaiian home lands until such time that Act 227 can be fully implemented in subdivisions completed after the mid-1990s. This measure will ensure that more of the funding from the Department of Hawaiian Home Lands can be allocated to the development of housing, rather than maintenance of infrastructure, such as waterlines and appurtenance, sewer lines, waste treatment systems, roadways, and street lighting that connects to county infrastructure.

Your Committee has heard the concerns of the Office of Hawaiian Affairs that the proposed time limit of sixty days to complete the Department of Hawaiian Home Lands maintenance work could unreasonably limit consultation, assessment, mitigation activities that are critical to protecting iwi kupuna, cultural sites, and other historic properties from avoidable and unnecessary impacts, unless language is included to explicitly require the State Historic Preservation Division concurrence with county approval for permitted actions, and to exclude any additional days needed to implement historic preservation protection and mitigation actions. Amendments to this measure are therefore necessary to address the Office of Hawaiian Affairs' concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to account for additional time that may be needed to protect historic sites; potentially adverse, avoidable impacts; and provide for extensions on the sixty-day deadline should historic preservation and protections activities require them; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1123, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

SCRep. 435 (Joint) Hawaiian Affairs and Health on S.B. No. 905

The purpose and intent of this measure is to ensure that the Hawaii State Council on Mental Health includes a member or members who have a background in native Hawaiian cultural concepts or practices relating to mental health.

Your Committees received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, The Queen's Health Systems, Hawai'i Psychological Association, and two individuals.

Your Committees find that native Hawaiians experience mental health disparities that require culturally responsive solutions. Native Hawaiian keiki are over-represented as victims of abuse and neglect, and native Hawaiian youth experience higher rates of depression and drug use. Native Hawaiians are also less likely than other populations to seek help from the State's mental health services. Culturally sensitive treatment programs that are grounded in native Hawaiian healing and health practices have proven to be more successful when congruent with the client's values and beliefs. Requiring the Council to include members having educational, professional, or practical backgrounds in native Hawaiian and indigenous health, transgenerational trauma, and traditional healing practices will help the State advance and develop culturally responsive policies and programs. Members that are trained in either Western or traditional knowledge or possess work experience involving native Hawaiian concepts of well-being, culturally grounded mental health methodologies, or traditional healing or health practices will allow for a unique understanding of native Hawaiians struggling with mental health challenges. These additions will assist the Council to ensure greater and more consistent opportunities for native Hawaiians and others to participate in culturally grounded programs and services that can foster positive mental health outcomes far more effectively than purely Western approaches.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 905 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 436 (Joint) Hawaiian Affairs and Health on S.B. No. 982

The purpose and intent of this measure is to:

- (1) Include the use of alkaline hydrolysis, water cremation, and natural organic reduction as methods for the disposal of human remains; and
- (2) Amend the procedures for the resolution of disputes regarding the right of disposition, the right to rely and act upon written instructions in a funeral service agreement or similar document, and provisions for the disposition of a decedent's remains and recovery of reasonable expenses to include hydrolysis facilities and natural organic reduction facilities.

Your Committees received testimony in support of this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii; Fisher & Associates Consulting, LLC; Ken Ordenstein Funerals; Aloha Mortuary Cremation & Funeral Services; and eleven individuals. Your Committees received testimony in opposition to this measure from the Hawaii Funeral & Cemetery Association, Inc.; Dodo Mortuary, Inc.; Mililani Group, Inc.; Nuuanu Memorial Park & Mortuary; Hawaiian Memorial Life Plan, Ltd.; and Leeward Funeral Home.

Your Committees find that there has been a recent increase of interest in traditional Hawaiian practices for burials. Native Hawaiian burial traditions acknowledge the natural cycles of life and death and ancestral bones offer spiritual sustenance to present generations as the lasting embodiments and continuous genealogical link from past, present, and future generations. Modern treatment of corpses often involves chemicals, such as embalming fluids which can be harmful to the environment when buried, as the chemicals will eventually be released into the soil and aquifers. However, traditional Hawaiian treatment of human remains is safe, feasible, and cost effective. Therefore, this measure is necessary to allow the Department of Health to accommodate traditional Hawaiian burial practices.

However, your Committees have heard testifiers' concerns that there is not sufficient information to support the disposition of natural organic reduction or alkaline hydrolysis and the overall effects to the environment and the regulatory agency oversight regarding the technology, facilities, environmental impact, and operator licenses involved in these practices. Specifically, there are concerns about the length of time to transform the decedent into compost, the amount of water used per decedent, discharge from an alkaline facility, and permitting requirements of the Department of Health. Your Committees find that these issues raise concerns that merit further consideration and requests that your Committee on Judiciary further examine those issues and concerns raised by the testifiers on this measure.

Your Committees note that the measure in this language is substantially similar to the language in S.B. No. 1021, S.D. 1, Regular Session of 2021, a measure concerning traditional Hawaiian burial practices recently reported from your Committee on Hawaiian Affairs

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 982, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 982, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 437 (Joint/Majority) Water and Land and Hawaiian Affairs on S.B. No. 712

The purpose and intent of this measure is to require that the Executive Director of the Aha Moku Advisory Committee be appointed by the Governor and subject to the advice and consent of the Senate, with a term limit of four years.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Aha Moku Advisory Committee, Koʻolaupoko Hawaiian Civic Club, and thirteen individuals. Your Committees received comments on this measure from one individual.

Your Committees find that the Senate's role in the advice and consent of certain governor-appointed positions is rooted in the concept of "checks and balances" between the three constitutionally established branches of government. Your Committees note that they cannot identify any employee who serves a board or commission as its executive director and is subject to the advice and consent of the Senate. Your Committees further find that the purpose of the Aha Moku Advisory Committee is to advise the Chairperson of the Board of Land and Natural Resources regarding the aha moku system, on issues related to land and natural resources.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2025, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 712, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 712, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Acasio, Ihara). Noes, 1 (Fevella). Excused, none.

SCRep. 438 (Joint) Higher Education and Labor, Culture and the Arts on S.B. No. 590

The purpose and intent of this measure is to:

- (1) Amend the eligibility requirement for membership in the University of Hawaii's optional retirement system by eliminating the eligibility for employees in bargaining unit (7) and other employees who are excluded from bargaining unit (7) pursuant to chapter 89, Hawaii Revised Statutes, and making eligible, new employees who are employed by the University's Board of Regents;
- (2) Require the Board of Regents to choose at least three companies to provide investment products under the optional retirement system;
- (3) Require the University to make annual contributions into the optional retirement system for members whose compensation is paid in whole or part from the general fund;
- (4) Allow existing members of the State Employees' Retirement System (ERS) to transfer into the optional retirement system within ninety days after establishment of the optional retirement system;
- (5) Automatically enroll University employees to the ERS unless they opt to enroll in the optional retirement system within ninety days of employment;
- (4) Prohibit employees who selected the optional retirement system from transferring to the ERS;
- (5) Require the University to make annual contributions for its employees within the optional retirement system; and
- (6) Require the retirement benefits of the optional retirement system to be subject to collective bargaining negotiations.

Your Committees received testimony in opposition to this measure from the State Employees' Retirement System. Your Committees received comments on this measure from the University of Hawai'i System and University of Hawaii Professional Assembly.

Your Committees find that section 88-8, Hawaii Revised Statutes, allows the University to establish its own retirement system for employees in bargaining unit (7), who are faculty appointed by the Board of Regents, and employees excluded from unit (7) under chapter 89, Hawaii Revised Statutes. However, the University has never taken the step to establish its own retirement system, and therefore, membership in the ERS is required of nearly all existing University employees.

Your Committees further find that in Fall 2020, the University convened a "Blue Ribbon Committee" to explore possible means to improve the fiscal balance in the University of Hawaii at Manoa Athletics Program, and that the committee had recently suggested establishment of an alternative retirement system for employees in the program as a means to reduce the fringe benefit expense for employee pensions. Often, employees in the Athletics Program, such as collegiate coaches, assistant coaches, and sport-specific support staff do not maintain employment for more than ten years, which is the minimum vesting period required to earn pension benefits in retirement in the ERS. Therefore, establishment of an alternative retirement program that is portable and in which the University would contribute less than what is currently being required for the ERS, would benefit both the University and eligible employees in the Athletics Program.

Your Committees also note the concerns raised by the ERS that the provisions in the measure, which allow ERS members to opt out of the ERS and into the optional retirement system, would jeopardize ERS's status as a qualified defined benefit public pension plan under the Internal Revenue Code. The ERS also raises concerns regarding the possibility of ERS's unfunded liability being defrayed by the optional retirement system.

Accordingly, your Committees have amended this measure by:

- (1) Retaining the membership eligibility for the University's optional retirement system for employees in bargaining unit (7) and other employees who are excluded from bargaining unit (7) pursuant to chapter 89, Hawaii Revised Statutes;
- (2) Expanding the membership eligibility for the University's optional retirement system to athletic coaches and assistant coaches who are employed by the University of Hawaii on or after July 1, 2021, and are included in bargaining unit (8) pursuant to chapter 89, Hawaii Revised Statutes;
- (3) Allowing the Board of Regents to utilize existing alternative surrogate retirement plans already offered by the State or University as an alternative:
- (4) Allowing the Board of Regents to adopt rules pertaining to eligibility in the optional retirement system;
- (5) Prohibiting members and former members of the ERS from opting into the optional retirement system;
- (6) Allowing eligible new employees to elect between the ERS and optional retirement system and prohibiting them from transferring from one system to the other once election is made;
- (7) Inserting an effective date of July 31, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 590, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 590, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees (Chair Taniguchi signed "with reservations"). Higher Education: Ayes, 5. Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 439 (Joint) Higher Education and Labor, Culture and the Arts on S.B. No. 1220

The purpose and intent of this measure is to allow the University of Hawaii to conduct criminal history record checks on current or prospective employees and contractors whose positions or duties are related to the security of the campus facilities and persons.

Your Committees received testimony in support of this measure from the Department of Human Resources Development, University of Hawai'i System, and one individual.

Your Committees find that the University has University Security Officers (USOs) on duty to ensure the safety and security of the facilities and persons on its campuses. There are approximately one hundred sixty USO positions throughout the ten campuses, and the University anticipates processing approximately fifteen recruitments a year. Your Committees also find that as civil service employees, the recruitment of USOs was historically performed by the Department of Human Resources Development (DHRD). However, since the position is unique to the University the University and DHRD have entered into a delegation agreement, effective September 2016, under which the University performs all tasks associated with recruiting, selecting, and hiring a USO, except for conducting criminal background checks of applicants. Since existing law does not allow the University to perform background checks, the DHRD cannot delegate the task to the University. This limitation on the University's authority affects the efficient hiring of USOs, which in turn, impacts the University's ability to ensure the safety of its campuses.

This measure will ensure a strong presence of USOs on the University campuses by enabling the DHRD to delegate the background checks of USOs to the University. The University will be able to perform all aspects of the USO recruitment process and fill these vacancies more efficiently. According to the University, the background checks will be conducted in a manner similar to DHRD's current process, which includes submittal of fingerprints to the Hawaii Criminal Justice Data Center and the Federal Bureau of Investigation. Should outside vendors be used to conduct the criminal background checks, the estimated cost would be between \$40.00 and \$90.00 per background check.

Your Committees have amended this measure by:

- (1) Replacing "current or prospective employees or contractors" with "current and prospective employees and contractors" in the newly created paragraph in section 846-2.7(b), Hawaii Revised Statutes, for the University of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1220, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1220, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Higher Education: Ayes, 5. Noes, none. Excused, none. Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 440 Commerce and Consumer Protection on S.B. No. 1398

The purpose and intent of this measure is to prohibit businesses that sell age-restricted goods from requiring disclosure of a customer's date of birth if it is clear that the individual has attained the age required to make a purchase.

Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii and ABC Stores.

Your Committee finds that certain retailers may restrict a customer from purchasing age-restricted items simply because they cannot produce identification to verify their age, despite it being highly probable that the customer is over the required age to purchase the age-restricted items. Retailer policies may also require older customers to verbally disclose their birthdates within earshot of other customers, which can subject elderly residents to discrimination.

Your Committee notes the concerns raised in testimony that, because of a number of factors including make-up or apparel, it can be difficult to determine someone's age, and accordingly, retailers should be allowed to request identification when it is not immediately certain to the cashier that a customer has reached the minimum age required to purchase the age-restricted goods. However, whereas a cashier may ask a younger customer to see identification, a cashier may verbally ask an older customer for their birth date, which may be considered confidential and discriminatory. Therefore, amendments to this measure are necessary to address these concerns.

Lastly, your Committee finds the definition of "clear and convincing standard" as currently drafted in this measure requires additional clarification and requests your Committee on Judiciary to further examine this issue.

Your Committee has amended this measure by:

- (1) Clarifying that no business that sells age-restricted goods shall require a customer to verbally verify or verbally disclose the customer's age when purchasing age-restricted goods if the seller determines by a clear and convincing standard that the purchaser has reached the minimum age required for the purchase of age-restricted goods; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1398, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1398, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 441 Education on S.B. No. 757

The purpose and intent of this measure is to authorize the issuance of up to \$25,000,000 in special purpose revenue bonds to assist Le Jardin Academy.

Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the authorization of special purpose revenue bonds to schools is in the public's interest and will promote the education of Hawaii's children. This measure will provide Le Jardin Academy with the financial tools for campus development and improvement projects that will benefit not only its students, but the community-at-large as well.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 442 (Joint) Education and Labor, Culture and the Arts on S.B. No. 810

The purpose and intent of this measure is to:

- (1) Eliminate the Superintendent of Education as a voting member constituting the public employer for the purpose of negotiating a collective bargaining agreement with personnel of the Department of Education; and
- (2) Reduce the total number of votes the voting members have from six to five, allocating three to the Board of Education and two to the Governor.

Your Committees received testimony in support of this measure from four individuals. Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining, Department of Budget and Finance, Department of Education, and one individual.

Your Committees find that prior to Act 253, Session Laws of Hawaii 2000, the Superintendent of Education did not have a vote or say in negotiations over a collective bargaining agreement for bargaining units (5) and (6). The Board of Education members were highly involved in negotiations and the Department of Education was required to work closely and transparently with the Board of Education in collective bargaining negotiations for Department of Education employees in collective bargaining units (5) and (6). Since then, there has been a decrease in participation and involvement of the Board of Education in the collective bargaining negotiations relating to those employees. This measure removes the Superintendent of Education as a voting party, which would require the Department of Education to work more closely with the Board of Education as it did in the past.

Your Committees have amended this measure by specifying that, for the purpose of negotiating a collective bargaining agreement for bargaining units (5) and (6), the distribution of votes shall be three for the Governor and two for the Board of Education.

As affirmed by the records of votes of the members of your Committees on Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 810, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 810, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 443 Labor, Culture and the Arts on S.B. No. 1069

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (1) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (1) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 444 Labor, Culture and the Arts on S.B. No. 1070

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (2) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1070, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 445 Labor, Culture and the Arts on S.B. No. 1071

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (3) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1071, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 446 Labor, Culture and the Arts on S.B. No. 1072

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (4) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1072, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 447 Labor, Culture and the Arts on S.B. No. 1073

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (5) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1073, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 455 Labor, Culture and the Arts on S.B. No. 1081

The purpose and intent of this measure is to provide a legislative vehicle to fund public sector collective bargaining cost items for salary adjustments, other cost adjustments, and Hawaii employer-union health benefits trust fund costs for public employees in collective bargaining unit (14) and their excluded counterparts for fiscal biennium 2021-2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2021 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 456 (Majority) Energy, Economic Development, and Tourism on S.B. No. 666

The purpose and intent of this measure is to:

- (1) Establish the Conservation Workforce Special Fund with the explicit commitment of funding a Conservation Workforce and advancing the Aloha+ Challenge Natural Resource Management Targets;
- (2) Form a public-private Conservation Advisory Committee focused on designing the management and governance structure and funding criteria that safeguards the special funds' fidelity towards conservation; and
- (3) Establish a ten-year pilot visitor green fee to go into effect July 1, 2021.

Your Committee received testimony in support of this measure from Hawaii Government Employees Association, Ulupono Initiative, Pono Hawaii Initiative, Surfrider Foundation, Imua Alliance, and forty-four individuals. Your Committee received testimony in opposition to this measure from Hawaii Lodging and Tourism Association and Kohala Coast Association. Your Committee received comments on this measure from the Department of Land and Natural Resources, Office of Planning, Department of Budget and Finance, Department of Taxation, Chamber of Commerce Hawaii, Tax Foundation of Hawaii, and Hawaii Tourism Authority.

Your Committee finds that each year, Hawaii's reefs, oceans, beaches, and forests provide billions of dollars in value to the state economy, supporting the well-being of our resident community and visitors alike, which are vital to the tourism industry and the local community's cultural identity.

Your Committee believes that the coronavirus disease 2019 (COVID-19) pandemic provides the State with an opportunity to build back the tourism sector more sustainably and this measure creates sustainable and comprehensive funding for green job growth beyond initial federal stimulus relief and provides various economic and environmental benefits to the State.

Your Committee also recognizes that due to the COVID-19 pandemic, the tourism industry has been disproportionately impacted and the timing of this measure may place a burden on an industry that so many people depend on for their livelihoods. There are also administrative concerns with tracking an annual green fee to visitors and whether it would apply to state residents.

Accordingly, to address these concerns, your Committee has amended this measure by:

- Reducing the green fee surcharge on transient accommodations charged to visitors and residents from \$40 dollars per visit to \$20 dollars per visit;
- (2) Requiring that the assessment and collection of the \$20 green fee surcharge is contingent upon the total number of visitor arrivals reaching a threshold level of five million visitors or more during the preceding calendar year, based on statistics from the Hawai'i Tourism Authority; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 666, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Fevella). Excused, 2 (Lee, Riviere).

SCRep. 457 (Joint) Education and Agriculture and Environment on S.B. No. 1251

The purpose and intent of this measure is to authorize the Department of Education to meet the local farm to school meal goal of fifteen percent of food served in public schools to be locally sourced by 2025 and thirty percent by 2030.

Your Committees received testimony in support of this measure from the Department of Education; Department of Agriculture; Hawaii Public Health Institute; Hawaii 'Ulu Cooperative; Ulupono Initiative; Local Food Coalition; Hawaii Food Industry Association; Hawaii Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Primary Care Association; Americans for Democratic Action; Pono Hawaii Initiative; Blue Zones Project; and forty-one individuals.

Your Committees find that the Farm to School Program provides students with an agricultural education, which contributes to improved attendance, academic achievement, and behavior, while also increasing opportunities for place-based experiential learning, physical activity, and active participation in the school meal program. In addition, the Farm to School Program activities support a nutritious school food environment that encourages students to make healthier food choices. With more than eighty-five percent of students in Hawaii attending public schools, participation in farm to school activities increases students' familiarity with local foods, access to fresh fruits and vegetables, and the likelihood that students will make healthier choices at home. Currently, it is estimated that three percent of food served in public schools is locally sourced. This measure will increase the percentage of locally sourced food served in public schools in Hawaii.

Your Committees note that procurement exceptions may be required to effectuate the goals in this measure.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1251, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1251, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 458 Education on S.B. No. 270

The purpose and intent of this measure is to appropriate monies relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Appropriate elementary and secondary school emergency relief fund (ESSER funds) monies received by the State from the Coronavirus Aid, Relief, and Economic Security Act, 2020, Public Law 116-136, and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021, Public Law 116-260, to offset any budget reductions that are identified or proposed by the Department of Education and the Governor that would result in the reduction of personnel who are subject to a collective bargaining agreement and who are employed at the school level, including any budget reduction that results in a layoff, furlough, or pay reduction;
- (2) Require the Board of Education and Superintendent of Education to certify in writing that the Board of Education, Superintendent, and Department of Education agree to the conditions established by this measure, including that the funds appropriated shall be used only for salaries and wages of officers and employees who are subject to a collective bargaining agreement and are employed at the school level; and
- (3) Provide that monies from the appropriation shall lapse at the end of the fiscal biennium.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii State Teachers Association, HE'E Hui for Excellence in Education, Democratic Party of Hawai'i Education Caucus, and three individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from one individual. Your Committee received comments on the proposed S.D. 1 from the Department of Education and Board of Education.

Your Committee finds that the states that receive certain federal funds, including monies from the Elementary and Secondary School Emergency Relief Funds established by the Coronavirus Aid, Relief, and Economic Security Act, Public Law 116-136, 2020 (CARES Act), and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021, Public Law 116-260 (CRRSAA), are required to assure that they will maintain support for education programs during fiscal years 2019-2020 and 2020-2021 by meeting certain benchmarks. The State, through the Department of Education, must comply with the provisions of the federal Education Stabilization Fund as set forth in section 18006 of the CARES Act to receive and expend CARES Act and CRRSAA monies, which, in part, requires the Department of Education to continue to pay its employees. This measure will appropriate certain federal monies received by the State to the Department of Education to offset any budget reductions that have been identified or proposed by the Department of Education and the Governor that would result in the reduction of personnel who are subject to a collective bargaining agreement and who are employed at the school level, including any budget reduction that results in a layoff, furlough, or pay reduction.

Your Committee notes that as this measure progresses, your Committee on Ways and Means may consider waiving the requirement for federal Education Stabilization Funds to pay fringe benefit costs to the Department of Budget and Finance.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that the Legislature declares that it does not support any attempts by the Superintendent to seek a waiver from the Secretary of Education regardless of whether the State is currently experiencing a precipitous decline in revenue or not;
- (2) Inserting a blank appropriation amount for fiscal year 2020-2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 270, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 270, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 459 (Joint) Agriculture and Environment and Health on S.B. No. 244

The purpose and intent of this measure is to expand liability protection for donors to include donation of expired food when the donor reasonably believes in good faith that the food remains fit for human consumption.

Your Committees received testimony in support of this measure from Hawai'i Primary Care Association, Hawai'i Pacific Health; Down to Earth Organic and Natural, Hawai'i Farm Bureau, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from Hawaii Association for Justice.

Your Committees find that more than ten percent of Hawaii residents are food insecure and receive food assistance through nonprofit organizations and governments. Approximately twenty-six percent of food grown in or imported to Hawaii is thrown away, amounting to approximately \$1,000,000,000 in annual food waste. Food production is a direct contributor to local and global climate change, as food production requires energy, fertilizer, irrigation, livestock feed, and other resources that contribute to greenhouse gas emissions. Food waste entering landfills creates methane gas, a greenhouse gas that is eighty-four times more potent than carbon dioxide. Much of the wholesome surplus food in Hawaii is discarded instead of donated because of fear of liability. Therefore, this measure seeks to discourage food waste and encourage food donation to needy recipients through its clarification and expansion of liability protections for good-faith food donors and allowing the donation of expired food when the donor makes a good-faith judgment that the food is unspoiled.

Your Committees have heard the concerns of the Department of Health that the Department's Food Safety Specialist is responsible for conducting inspections at food establishments to prevent foodborne illness by the consuming public. While the Food Safety Specialist has the expertise and knowledge of food safety, this individual is not qualified to educate or provide legal counsel to anyone in the State. Therefore, the Department believes that it is not the appropriate agency to educate those in the food industry about food donation liability protections.

Your Committees have also heard testifier concerns about placing broad exceptions to liability to all forms of perishable or nonperishable food to determine if packaged and unpackaged food should be differentiated to provide a basic level of protection to the recipients in need. Your Committees find that this issue raises concerns that merit further consideration and requests that your Committee on Commerce and Consumer Protection further examine those issues and concerns raised by the testifiers on this measure.

Your Committees have amended this measure by:

- (1) Removing exceptions to liability for donors who donate food directly to the needy and for government entities;
- (2) Directing the Department of Health to educate potential donors on reasonable and safe food donation protocols; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 244, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 244, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 460 (Joint) Agriculture and Environment and Hawaiian Affairs on S.B. No. 1410

The purpose and intent of this measure is to:

- (1) Amend section 165-2, Hawaii Revised Statutes, by adding "customary and traditional subsistence farming", defined as an activity "conducted by a native Hawaiian cultural practitioner", that is used for direct personal or family consumption on land that contains no dwelling or residence and on which no person resides, to the definition of "farming operation";
- (2) Amend chapter 205, Hawaii Revised Statutes, to add customary and subsistence farming to the permitted uses within the State Agricultural District, which is currently reserved primarily for commercial agriculture; and

(3) Amend chapter 226, Hawaii Revised Statutes, to protect customary and traditional subsistence farming as part of the State's economic policy.

Your Committees received testimony in support of this measure from seven individuals. Your Committees received comments on this measure from the Department of Agriculture, Office of Planning, Center for Hawaiian Sovereignty Studies, and one individual.

Your Committees find that subsistence farming is relied upon by native Hawaiians and should be protected. Article XI, section 3, of the Constitution of the State of Hawaii requires the Legislature to provide standards and criteria to increase Hawaii's agricultural self-sufficiency. Prioritizing traditional agricultural techniques such as traditional Hawaiian farming is increasingly viewed as good policy. The United Nations Commission on Trade and Development urges nation states to support the development of sustainable small-scale farms and traditional farming systems to achieve food security, particularly considering climate change. Supporting traditional farming is also consistent with the recommendations of the Taro Security and Purity Task Force's legislative report, emphasizing the need to invest in traditional farming and crops to perpetuate culture and to support disaster preparedness and food security in our islands.

Your Committees support the practice of traditional Hawaiian farming to promote Hawaii's agricultural self-sufficiency. Your Committees also find that traditional Hawaiian farming systems still play a critical role in Hawaii and should be encouraged to promote greater self-sufficiency, crop diversity, and food security. Moreover, traditional Hawaiian crops like kalo, uala (sweet potato), limu (various seaweeds), awa, hoio (large native fern), and olena (turmeric) that were cultivated using these traditional Hawaiian farming techniques continue to be important agricultural products for food, medicine, and cultural practices today.

However, your Committees find that equating native Hawaiian traditional and cultural subsistence farming with commercial agriculture under the Hawaii Right to Farm Act may lead to numerous zoning and land-use disagreements and disruptions to county administration, which may ultimately cause more harm than good for the agriculture community, including subsistence farmers.

In addition, your Committees find that article XII, section 7, of the Hawaii State Constitution reaffirms traditional and customary rights exercised for subsistence, cultural, and religious purposes by native Hawaiians, which are an integral part of Hawaiian civilization retained by its descendants. Therefore, your Committees find it necessary to acknowledge that the rights of native Hawaiians to engage in customary and traditional subsistence farming shall not be trumped by any judicial interpretation of article XII, section 7, of the Hawaii State Constitution.

Your Committees believe that assuring the right to subsistence farming under the Hawaii State Planning Act preserves the spirit of this measure while avoiding potentially detrimental unintended consequences.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have included customary and traditional subsistence farming in the Right to Farm Act, to address the concerns of conflation of commercial agriculture and subsistence farming;
- (2) Amending the Hawaii state plan policy to achieve the culture objective of the Hawaii State Planning Act to include assurance of the right of traditional and customary subsistence farming by:
 - (A) Providing that the right of traditional and customary subsistence farming shall not be preempted by any judicial interpretation of article XII, section 7, of the Hawaii State Constitution;
 - (B) Allowing traditional and customary subsistence farmers to reside on their land upon approval by the Department of Agriculture and verification by a cultural practitioner council that the land use is traditional and customary;
 - (C) Declaring that no court, official, public servant, or public employee shall declare any operation of traditional and customary subsistence farming a nuisance if the farming operation is conducted in a manner consistent with generally accepted agricultural and management practices; and
 - (D) Defining "traditional and customary subsistence farming" as farming conducted by a native Hawaiian cultural practitioner for direct personal or family consumption;
- (3) Inserting a preamble to explain the amended purpose of this measure and to assert support of native Hawaiian subsistence farmer multi-family cooperatives;
- (4) Inserting an effective date of July 1, 2060, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1410, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1410, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Nishihara). Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Acasio, Ihara, Keohokalole). Noes, none. Excused, none.

SCRep. 461 Agriculture and Environment on S.B. No. 350

The purpose and intent of this measure is to:

- (1) Fill the vacant Environmental Management Division chief staff position by October 1, 2021;
- (2) Require that the Clean Water Branch of the Environmental Management Division include, as part of its Hawaii beach monitoring program, water quality testing during brown water advisories;

- (3) Require the Department of Health issue health advisories during brown water advisories that explain the health risks associated with water runoff;
- (4) Require the Department of Health to take into consideration environmental justice issues in the assessment of use, when considering usage and public health risk for its determination and ranking of beaches for inclusion in Hawaii's beach monitoring program; and
- (5) Establish an Environmental Management Division Oversight Advisory Board to provide oversight and guidance to the Environmental Management Division.

Your Committee received testimony in support of this measure from the Surfrider Foundation Hawai'i Region, Surfrider Foundation – Oahu Chapter, Surfrider Maui Chapter, Hawai'i Youth Climate Coalition, Kauai Climate Action Coalition, Our Revolution Hawaii, Animal Rights Hawai'i, Pono Hawai'i Initiative, Kihei Community Association, Wastewater Alternatives and Innovations, Surfrider Foundation, Sierra Club of Hawai'i, Earthjustice, Friends of Maha'ulepu, Mālama Maunalua, Waiwai Ola Waterkeepers Hawaiian Islands, Center for Biological Diversity, Kia'i Wai o Wai'ale'ale, Polanui Hui Community Managed Market Area, Kaiola Canoe Club, WMPA, HAMER, Friends of Hanauma Bay, Windward Coalition for Community Concerns, Young Progressives Demanding Action Hawai'i, Hawaii Wildlife Fund, The Makali'i Group, Hui o He'e Nalu, HI Strikes Back, and fifty-two individuals. Your Committee received testimony in opposition to this measure from the Department of Health and one individual. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the Environmental Management Division of the Department of Health oversees the clean air, clean water, solid and hazardous water, wastewater, and safe drinking water branches of the Department of Health. The Division provides executive and functional leadership, policy, oversight, and coordination for these branches. Brown water advisories are issued by the clean water branch as preemptive, precautionary notice to the public of potential risks of entering coastal waters. Currently, there is minimal data to describe the pollution and health risks during brown water advisory conditions, leaving the public less informed of risks during pollution associated with brown water advisories. There are many locations that have elevated levels of fecal indicator bacteria after rain events and in brown water events. Without testing during brown water events, it is unknown which locations experience pollution spikes during heavy rains, thereby putting ocean users at risk and delaying the identification and enactment of needed pollution mitigation efforts. The United States Environmental Protection Agency Region 9 has also recommended to the Department of Health's Clean Water Branch that establishing a protocol to test in brown water advisories would provide more accurate and comprehensive data regarding water quality.

This measure seeks to provide greater oversight and require increased water testing and communication of possible risks to ensure the public is informed as to when it is safe for them and their families to enter coastal waters. Your Committee finds that water quality continues to be of concern to residents and visitors and therefore conversations as to how to best protect the public and environment should continue between policy makers and stakeholders.

Your Committee has heard the concerns of the Department of Health that the Department anticipates that this position will be filled before October 1, 2021, after securing approval from the Governor to fill the position on December 25, 2020. Additionally, the Department has concerns that water quality testing during brown water advisories in addition to testing already performed on a regular basis would be unnecessary. As part of the Beaches Environmental Assessment and Coastal Health Act of 2000 (BEACH Act) monitoring program, the Clean Water Branch routinely monitor's beaches for enterococci and provides prompt notification to the public whenever there is an exceedance or likelihood of exceedance of recreational water quality standards. As a recipient of funding from the Environmental Protection Agency as part of the BEACH Act, adding monitoring during brown water advisories would require additional resources and allotted federal funds cannot accommodate the additional statewide laboratory analytical testing. The Department of Health also raised concerns about posting informational signs at all beaches impacted by brown water, especially on the neighbor islands. The Department of Health also raised reservations about the oversight advisory board, as it seems infeasible to assemble a board that can adequately and knowledgably oversee and provide guidance to the Clean Water Act, Safe Drinking Water Act, Clean Air Act, and the Resource Conservation and Recovery Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 350, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 462 Agriculture and Environment on S.B. No. 369

The purpose and intent of this measure is to establish the time of transfer individual wastewater system inspection program to oversee the inspection and repair of any individual wastewater system at the time of the property's sale or transfer.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Sea Grant Program, Environmental Caucus of the Democratic Party of Hawai'i, Surfrider Maui Chapter, Hawaii Reef and Ocean Coalition, Wastewater Alternatives & Innovations, and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS.

Your Committee finds that the Department of Health and Department of Business, Economic Development, and Tourism receive approximately \$1,100,000 in annual federal grants through the Coastal Zone Act Reauthorization Amendments, contingent on the State taking measures to address and minimize polluted runoff, including runoff from on-site sewage facilities. This measure satisfies federal requirements by minimizing the polluted runoff created by failing individual wastewater systems in the State by establishing a program to oversee their inspection and repair of individual wastewater systems at the time of an attached property's transfer or sale.

Requiring the inspection of the individual wastewater systems at the time of sale to spot deficiencies would be consistent with home inspections at the time of sale as they are considered extensions of plumbing in homes.

Your Committee also heard testifiers' concerns that there are numerous inspection periods during the real estate transaction and this measure could add delays and financing issues to a real estate transaction, especially if the individual wastewater system must be inspected and renovated within one year to meet construction standards.

Your Committee has amended this measure by:

- Inserting the contents of S.B. No. 368, Regular Session of 2021, a measure that removes the limitation on specific types of
 wastewater systems to which cesspools must be converted and requires a cesspool to be upgraded or converted to a wastewater
 system by the Department of Health prior to January 1, 2050;
- (2) Providing that if an individual wastewater system fails inspection, the system shall be repaired or replaced within one year by the current property owner or by the prospective property owner with written agreement, to meet the design and construction requirements adopted by the Department of Health;
- (3) Stating that administrative rules shall not apply to a transfer between joint tenants or tenants in common; spouse, child, or parent; or spouses resulting from decree of dissolution of marriage, legal separation, or property settlement agreement; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 369, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 369, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 463 Agriculture and Environment on S.B. No. 587

The purpose and intent of this measure is to:

- (1) Require the Department of Health to update its co-composting rules by January 1, 2021, and every five years thereafter;
- (2) Require the Department of Health to establish a multi-tiered registration and permitting system for compositing facilities; and
- (3) Allow composting and co-composting in agricultural districts.

Your Committee received testimony in support of this measure from the Kōkua Hawai'i Foundation, Hawai'i Youth Climate Coalition, Zero Waste Big Island, Surfrider Maui Chapter, Climate Protectors Hawaii, Down to Earth Organic & Natural, and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that the use of composted organics with their vast stores of macro- and micro- nutrients greatly improves the health of all soils in ways that protect and enhance natural systems, while imported, petroleum-based, and energy-intensive fertilizers destabilize a healthy soil microbiome. This measure furthers the State's waste management goals and ensures progress toward managing the State's waste by addressing the urgent need to expand the State's capacity for capturing and processing the organic waste its residents and visitors generate.

Your Committee further finds that food waste is the second largest component that enter the waste stream and accounts for twenty-five percent of all materials sent to landfills. Nearly fifty percent of organic materials disposed of in incinerators and landfills can be diverted for bioconversion, including composting. Your Committee also finds that the regulation of co-composting in the State is under the purview of the Department of Health Solid and Hazardous Waste Branch. Existing regulations have not been updated in over twenty years, and currently a single application applies to all co-composting operations regardless of size or scope. The mandated tiered permitting system proposed in this measure would seek to greatly increase the number of permitted facilities and makes the permitting and infrastructure requirements more accessible. Additionally, county environmental and waste management agencies have indicated that diverting organics from their waste streams will be essential in extending the life of their landfills and preventing more landfill siting and the associated environmental justice impacts. Schools would greatly benefit from project-based learning associated with resource rescue, soil health and school garden lessons; farmers would be able to generate nutritive soil amendments; and entrepreneurs would be able to operate initiatives to offset greenhouse gas offsets from sequestration. Your Committee finds that updating the co-composting regulations and permitting process will greatly increase the number of operators diverting organics from landfills and incinerators, thereby aiding the State and counties in reaching their sustainability, resilience, and fiscal goals.

Your Committee has heard concerns from the Department of Health that Class III and Class IV compositing facilities should not be exempt from oversight due to issues of stability, pathogens, and other contaminants. In addition, fire potential poses a risk to the safety of nearby residents if the facilities do not have proper procedural concerns. Open burning of the pile could offset positive environmental impacts of compositing. By exempting facilities in the proposed Class III and Class IV from the Department of Health's regulations and permitting authority, the Department of Health would be unable to evaluate the potential impact of the operation and require appropriate controls that are protective of human health and the environment. The Department of Health would also lose the ability to effectively respond to complaints involving Class III and Class IV composting facilities. The Department of Health also acknowledges that it is attempting to maximize its efficiencies through flexibility in the current rules and revised permitting forms and is planning on updating chapter 11-58.1, Hawaii Administrative Rules.

Your Committee has amended this measure by:

 $(1) \quad \text{Extending regulation reform deadlines from January 1, 2022, to January 1, 2023;} \\$

- (2) Providing that the Department of Health shall update its rules regarding composting and co-compositing every ten years, rather than every five years, to allow for the Department of Health to realistically prepare rules and regulations updates;
- (3) Deleting the definitions of Class I, II, III, and IV solid waste compositing facilities;
- (4) Deleting language that would have established requirements for Class I, II, III, and IV solid waste composting facilities;
- (5) Requiring the Department of Health to update its administrative rules to create a multi-tiered registration and permitting system for composting and co-composting facilities that includes an exclusion tier under which a compositing or cocomposting operation is exempt from requirements for registration or permitting from the Department of Health; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 587, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 587, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 464 Agriculture and Environment on S.B. No. 132

The purpose and intent of this measure is to add the chemicals homosalate, octocrylene, and octisalate to the sale and distribution sunscreen ban as of January 1, 2023.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i State Youth Commission, Hawaii Reef and Ocean Coalition, Kahalu'u Bay Education Center - The Kohala Center, Surfrider Foundation O'ahu Chapter, Surfrider Foundation Maui Chapter, Lani & Kai, Coral Reef Education Institute, Haereticus Environmental Laboratory, Hanauma Bay Snorkel Adventures, Waiwai Ola Waterkeepers Hawaiian Islands, Kawaihae Canoe Club, Hawaii Coral Reef Stakeholders Hui, Napili Bay and Beach Foundation, Safe Sunscreen Council, Chemists Without Borders, Shandong Agricultural University, Sorbonne Universite, and forty-five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Personal Care Products Council, Chamber of Commerce Hawaii, Public Access to SunScreens Coalition, Consumer Healthcare Products Association, American Chemistry Council, and three individuals. Your Committee received comments on this measure from the Department of Health, American Academy of Dermatology Association, and one individual.

Your Committee finds that octocrylene is linked to significant harmful impacts on Hawaii's marine environment and ecosystems, including coral reefs that protect Hawaii's shoreline. Furthermore, as the environmental contamination of octocrylene is constantly refreshed and renewed daily by swimmers and beachgoers who apply sunscreens containing these three chemicals, the contamination persists in Hawaii's coastal waters.

Additionally, your Committee finds that since the passage of Act 14, Session Laws of Hawaii 2018, which prevented the sale and distribution of sunscreen containing oxybenzone and octinoxate in the State beginning on January 1, 2021, octocrylene and avobenzone have been shown to be harmful to marine life and human health and should also be kept out of our marine environment. Evolving science around the world clearly demonstrates that these ubiquitous and pervasive reef toxins irreversibly interfere with the life-cycles of Hawaii's foundational and endemic marine life. Furthermore, long-term exposure to avobenzone and octocrylene has been found to be lethal for some organisms living in freshwater environments.

Your Committee has amended this measure by:

- (1) Removing language that would have banned the sale of the sunscreen chemicals "octisalate" and "homesalate" beginning January 1, 2023;
- (2) Inserting language that bans the sale of the sunscreen chemical "avobenzone" beginning January 1, 2023;
- (3) Deleting the definition of "homosalate" and "octisalate";
- (4) Adding the definition of "avobenzone"; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 132, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Nishihara). Noes, none. Excused, none.

SCRep. 465 Agriculture and Environment on S.B. No. 1026

The purpose and intent of this measure is to authorize fees for diagnostic, surveillance, and other work by the Department of Agriculture's Division of Animal Industry's Veterinary Laboratory and Animal Disease Control Branch to be deposited into the animal industry special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that the animal industry special fund was established to receive monies from the use or rental of the Department of Agriculture's Division of Animal Industry properties and facilities to assist with expenditures of the Division. The Division's Veterinary Laboratory assists industries, practicing veterinarians, the state animal quarantine branch, and other

governmental animal health agencies by providing laboratory and testing services, including pathology, histopathology, parasitology, and serology; diagnostic support; and conducting disease surveillance projects involving poultry, swine, dairy, and other livestock and aquaculture industries. Your Committee further finds that although reductions were made to the Veterinary Laboratory in recent years, the laboratory is currently positioned to perform at optimal capacity and generate revenue from its diagnostic, surveillance, and other work fees. This measure ensures that such fees will be deposited into the animal industry special fund to assist with costs of the Division of Animal Industry.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1026, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 466 Agriculture and Environment on S.B. No. 1027

The purpose and intent of this measure is to allow for the industrial hemp special fund to be utilized for the Department of Agriculture's responsibilities regarding hemp created by Act 14, Session Laws of Hawaii 2020 (Act 14).

Your Committee received testimony in support of this measure from the Department of Agriculture. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that hemp is a high-value crop that can be of significant benefit to Hawaii's economy. At least forty-six states have passed legislation to facilitate hemp cultivation in recognition of a marked increase in hemp cultivation from 2018 to 2019. Your Committee notes that Hawaii's hemp industry remains in a nascent stage, in part due to restrictive regulatory actions taken by the Department of Agriculture under existing law. Act 14 tasked the Department of Agriculture with monitoring the transportation of and enforcing certain State restrictions regarding the growth of hemp within the State. However, the Act did not establish a special fund within the Department of Agriculture to perform these duties. As of December 2020, there were fifty-five licensed hemp growers in the State and counting, with no limit on the number of licensees or acreage. The Department of Agriculture was not given any resources to execute its new duties which are essentially unlimited in scope. Allowing for the industrial hemp special fund to be used for these purposes will allow the Department of Agriculture to use the existing special fund to perform the new regulatory duties relating to hemp.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 467 Agriculture and Environment on S.B. No. 1344

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the appropriate departmental agency, to prepare and periodically update a functional plan for seafood sustainability that expands the State's priority on food by including wild seafood as a viable food source.

Your Committee received testimony in support of this measure from United Fishing Agency, Ltd.; Waialua Boat Club; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Fishing Tales with Mike Sakamoto; and thirteen individuals. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that past inclusion of fish and seafood as part of the State's food security and self-sufficiency plan has been noticeability absent much to the detriment of our citizens. Fishing and seafood are integral parts of our community, culture, history, sustainability, and self-sufficiency objectives. Your Committee finds that the State's largest food producing entity is fishing; eighty to ninety percent of locally caught fish stays in the islands.

Your Committee also finds that while understanding Hawaii's seafood sustainability is an important aspect to the planning of Hawaii's overall food sustainability and food security, the Office of Planning recommends that the most appropriate functional plan to integrate wild seafood sustainability is the State Agricultural Functional Plan. The State's Agricultural Functional Plan was last updated in 1991 and would benefit from an update sought by this measure.

Your Committee has heard the concerns of the Department of Agriculture that they have no role in regulating pelagic fisheries and has no authority to set policy, establish objectives, or take enforcement action on seafood sustainability. The Department of Agriculture's expertise and regulatory oversight authority with regards to fish and seafood is limited to net-pan aquaculture and other farm-raised seafood.

Your Committee has amended this measure by:

- (1) Incorporating the wild seafood sustainability plan update into the State Agricultural Functional Plan;
- (2) Inserting the Office of Planning as the appropriate departmental agency to coordinate with the Department of Agriculture;
- (3) Extending the timeline to update the functional plan by one year to 2023; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1344, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Nishihara, Rhoads). Noes, none. Excused, none.

SCRep. 468 Agriculture and Environment on S.B. No. 1405

The purpose and intent of this measure is to appropriate general revenues to expand state-run quarantine facilities under the jurisdiction of the Department of Agriculture's Plant Quarantine Branch.

Your Committee received testimony in support of this measure from the Hawaii Coffee Association; Pacific Coffee Research, Inc.; MauiGrown Coffee, Inc.; and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that responding quickly to newly detected invasive species can often prevent the species from becoming firmly established, saving taxpayers money in the long term. The United States Department of Agriculture has stated that foreign pests and disease already cost the United States' economy tens of billions of dollars annually in lower crop values, eradication programs, emergency payments to farmers, and increased costs for food and other natural resources.

Your Committee further finds that the recent detection of coffee leaf rust has shown that the existing facilities are unable to deal with the demand for disease resistant stock. Even with the expansion of existing facilities with a \$1,000,000 increase over two years, this effort would still be inadequate for the total number of plants needed statewide for the entire industry. The increase in quarantine capacity needed to meet those demands will likely require an additional two to three years and unfortunately may not be timely enough to adequately address the immediate threat to the industry. The lack of resources and facilities can allow invasive species to become established in the State, making mitigation efforts more protracted and expensive.

Your Committee further finds that the Plant Quarantine Branch of the Department of Agriculture is tasked with preventing the introduction and spread of harmful pests and diseases into the State by regulating domestic import, performing border inspections, and facilitating post-border detection and control of agricultural pests. The Plant Quarantine Branch is a critical component in meeting the threat of invasive species entering Hawaii and spreading throughout Hawaii through the State's ports of entry. In the long term, the Department of Agriculture believes that increased capacity to appropriately quarantine regulated plant materials will benefit growers by enhancing the Department of Agriculture's ability to prevent the entry of invasive species. Accordingly, this measure seeks to expand the abilities under the jurisdiction of the Department of Agriculture's Plant Quarantine Branch to increase screening and enforcement abilities throughout the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1405, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 469 Agriculture and Environment on S.B. No. 1297

The purpose and intent of this measure is to extend the authorization to issue special purpose revenue bonds to assist MauiGrown Coffee, Inc., with the operation and expansion of its farm and mill.

Your Committee received testimony in support of this measure from MauiGrown Coffee, Inc.; Maui Chamber of Commerce; and Hawaii Coffee Association.

Your Committee finds that Act 116, Session Laws of Hawaii 2017 (Act 116), authorized the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc., a Hawaii corporation, with the expansion of its coffee farm and mill in Puukolii, Maui. The authorization to issue special purpose revenue bonds is set to lapse on June 30, 2022. At the time of its passage, Act 116 was the only special purpose revenue bond funding vehicle designated for agriculture. Additionally, Act 116 is awaiting review through the Finance Administration Division so that the company may be appointed a bond counsel and move further to banking institutions. Your Committee further finds that this process includes securing numerous commitments and agreements that are put forth in a working business plan. Prior commitments secured during the passage of Act 116 need to be revised as each vendor entity that provided bids is reevaluating their own business structure. Therefore, this measure is necessary to ensure MauiGrown Coffee, Inc.'s expanded operations.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 470 (Joint) Labor, Culture and the Arts and Health on S.B. No. 64

The purpose and intent of this measure is to:

- (1) Prohibit employment discrimination based on a person's status as a medical cannabis cardholder or a registered qualifying patient's positive drug test for cannabis components under certain circumstances;
- (2) Specify that an employer may use a fit-for-duty test for registered qualifying patients in potentially dangerous occupations; and
- (3) Specify certain categories of occupations that are exempt from the protections under the prohibition.

Your Committees received testimony in support of this measure from the Department of Public Safety, Drug Policy Forum of Hawai'i, Hawai'i Cannabis Industry Association, and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation; Hawaii Food Industry Association; Matson Navigation Company, Inc.; Maui Chamber of Commerce; Maui Economic Opportunity, Inc.; The Queen's Health Systems; Retail Merchants of Hawaii, Inc.; and one individual. Your Committees received comments on this measure from the Department of Health, Hawai'i Civil Rights Commission, Akamai Cannabis Clinic, and Chamber of Commerce of Hawaii.

Your Committees find that under existing law, individuals who are registered to use cannabis for medical purposes can be summarily terminated solely on the basis of their status as a medical cannabis cardholder or positive drug test for cannabis components. Consequently, registered medical cannabis users frequently find themselves in situations in which they must choose between the job they need to support themselves and their families and foregoing medication needed to effectively relieve their pain and suffering. This measure will provide protection to medical cannabis cardholders and registered qualifying patients against employment discrimination, while providing employers clarity on conditions under which they may enforce their drug-free policy against their employees.

You Committees acknowledge the concerns raised in the testimonies that the exemption for employers from liability towards employees who are injured or killed during the performance of their jobs may strip employees of their right to workers' compensation, which is an employee's exclusive remedy for work-related injuries. Your Committees also find that certain provisions in the exempt occupation section are overly broad.

Your Committees discussed the adequacy of allowing employers to use fit-for-duty tests as a risk assessment tool for medical cannabis users in potentially dangerous occupations. First, "dangerous occupations" are not defined. Second, your Committees note that most fit-for-duty substance tests are urine tests. Since cannabinoids that reside in fat stay in a person's system for an extended period of time, a urine test may test positive even if the individual is not impaired. Therefore, your Committees acknowledge the need for a workplace testing method and standard by which an employer can quickly and accurately assess the level of an individual's impairment due to cannabinoids. Your Committees considered deleting this provision from this measure; however, concluded that further discussion is necessary for this complex issue.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have exempted registered qualifying patients in a potentially dangerous occupation from discrimination protections;
- (2) Deleting language that would have exempted employers from liability towards employees who are injured or killed during the performance of their jobs if impairment by medical cannabis was the sole contributing factor;
- (3) Removing employees who operate or are in physical control of machinery, power equipment, or motor vehicles from the list of exempt occupations;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 64, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 64, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 471 Labor, Culture and the Arts on S.B. No. 382

The purpose and intent of this measure is to include in the definition of "income", tips or gratuities that are paid directly to an employee by a customer of the employer and reported or declared to the employer, for the purposes of an employer withholding income from an employer for payment of the employee's child or spousal support under an assignment or income withholding order.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that cash wages paid directly by the employer and the amount of any tip credit claimed by the employer under federal or state law are earnings for the purposes of the wage garnishment law. However, tips received in excess of the tip credit amount are not considered earnings subject to withholding. This measure will include all tips and gratuities in the definition of income withheld by employers for payments of child or spousal support. This will allow employers to garnish the appropriate child or spousal support payments to help alleviate the financial stress and worry that many families experience.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 472 Labor, Culture and the Arts on S.B. No. 431

The purpose and intent of this measure is to extend the deadline by which the State and counties are required to furnish payroll and personnel transaction information to the Employees' Retirement System (ERS) in an electronic format.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Budget and Fiscal Services, City and County of Honolulu Department of Human Resources, City and County of Honolulu Department of Information Technology, County of Kauai Department of Human Resources, and County of Maui Department of Personnel Services. Your Committee received comments on this measure from the ERS.

Your Committee finds that Act 87, Session Laws of Hawaii 2015 (Act 87), amended section 88-103.7, Hawaii Revised Statutes, effective July 1, 2020, to require the State and counties to furnish the ERS with necessary information in a format required under the system's new reporting standards. Under the Act, departments and agencies who fail to comply with this requirement during any fiscal year, are required to pay the ERS an entire year's worth of additional employer contributions on the first day of the following fiscal year. Act 87 also required the ERS to submit annual progress reports to the Legislature from 2016 through 2020.

Your Committee finds that the state and county departments and agencies have been working diligently and cooperatively with the ERS towards compliance since the enactment of Act 87 and have made substantial progress. However, the ERS reports that the parties continue to face significant challenges to resolve the issues of non-compliance and proposes that the effective date of Act 87 be extended until 2024. Your Committee believes that more time is needed for both the ERS and public employers to work together to address the complex issues relating to employer reporting of the required information.

Your Committee notes that S.B. No. 2142, S.D. 1 (Regular Session of 2020), is a substantially similar measure that extended the effective date of Act 87 to July 1, 2023. S.B. No. 2142, S.D. 2 (Regular Session of 2020), which extended that date to July 1, 2050, to facilitate further discussion, was passed by the Senate; however, further consideration was terminated due to the disruptions caused by the coronavirus disease 2019 (COVID-19) pandemic.

Your Committee has amended this measure by:

- (1) Extending the effective date of Act 87 to July 1, 2024;
- (2) Requiring the ERS to continue submitting annual progress reports until 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 431, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 431, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 473 Labor, Culture and the Arts on S.B. No. 614

The purpose and intent of this measure is to alleviate the financial strain on households in Hawaii that are struggling from the disruptions caused by the coronavirus disease 2019 (COVID-19) pandemic. Specifically, this measure:

- Exempts from state income tax, unemployment compensation received by an individual during the period of March 1, 2020, through December 31, 2020; and
- (2) Requires the Department of Taxation to retroactively refund state income tax deducted and withheld from individuals for unemployment compensation during the period of March 1, 2020, through December 31, 2020.

Your Committee received testimony in support of this measure from the Hawaii Iron Workers' Stabilization Fund, Hawaii' Lodging and Tourism Association, Hawaii' Workers Center, I.A.T.S.E. Local 665, International Longshore and Warehouse Union Local 142, and fifty-six individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that in addition to unemployment compensation paid under chapter 383, Hawaii Revised Statutes, the pandemic unemployment assistance (PUA) received by individuals pursuant to the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act should be exempt from state income tax. Your Committee also finds that since the 2020 tax year has already closed, taxpayers who have had state income tax deducted and withheld from their unemployment compensation will be required to file a return in order to receive a refund of any exempted amounts. Likewise, taxpayers who may have already filed their returns before this measure takes effect would be subsequently required to file an amended return to receive their refund. Therefore, taxpayers should be allowed to credit the state income tax that was deducted and withheld from their unemployment compensation and PUA against their overall state tax liability instead of having the amount refunded.

Your Committee, while acknowledging the need to alleviate the financial strain incurred by many households in Hawaii caused by the COVID-19 pandemic, finds that this measure merits further discussion, as it will have a significant impact on the State's tax revenue. According to the Department of Taxation, this measure in its current form will decrease the State's tax revenue by \$145 million. If PUA were also exempted from state income tax, the State will lose an additional \$46 million, a total of \$191 million in tax revenue.

Accordingly, your Committee has amended this measure by:

(1) Exempting from state income tax, PUA as well as unemployment compensation received by an individual during the period of March 1, 2020, through December 31, 2020;

- (2) Allowing taxpayers to credit the state income tax that was deducted and withheld from their unemployment compensation or PUA against their overall state tax liability;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 614, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 474 Labor, Culture and the Arts on S.B. No. 675

The purpose and intent of this measure is to amend the definition of "employee-beneficiary" of the Hawaii Employer-Union Benefits Trust Fund to include the surviving unmarried adult child of a deceased retired member who is incapable of self-support due to a mental or physical incapacity, which existed prior to the unmarried child's reaching the age of majority.

Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that this measure is necessary to provide continued health benefit coverage to surviving children with mental or physical incapacity when the retiree and the retiree's spouse are no longer living or eligible.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 675, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 475 Labor, Culture and the Arts on S.B. No. 678

The purpose and intent of this measure is to:

- (1) Require the representative of labor on the Hawaii Labor Relations Board (HLRB) to be a person that is selected by a simple majority of the exclusive representatives of the collective bargaining units and appointed by the Governor by and with the advice and consent of the Hawaii State Senate; and
- (2) Allow the exclusive representatives of the collective bargaining units to remove the representative of labor from the HLRB during the member's term by a simple majority.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Fire Fighters Association, International Association of Fire Fighters Local 1463, AFL-CIO; Hawaii State Teachers Association; State of Hawaii Organization of Police Officers; United Public Workers, AFSCME Local 646, AFL-CIO; and University of Hawaii Professional Assembly. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Hawaii Labor Relations Board.

Your Committee finds that the HLRB is a quasi-judicial board with jurisdiction over state public sector collective bargaining; state private sector collective bargaining; and cases pertaining to state occupational safety and health citations and whistleblower discrimination claims. The Board consists of three members — the Chair, who is the representative of the public, one member who is a representative of management, and another member who is a representative of labor. All three Board members are appointed to six-year terms by the Governor. Under existing law, the representative of management is appointed by the Governor, who must first consider the names submitted by each county. The representative of labor is appointed by the Governor from a list of three nominees submitted by mutual agreement from a majority of the exclusive representatives of the collective bargaining units. As for the Board Chair, the Governor's selection is not limited to names submitted by other parties.

This measure diminishes the Governor's authority over the appointment process of the labor representative, by requiring the Governor to appoint with the advice and consent of the Hawaii State Senate, the one individual chosen by the exclusive representatives of the collective bargaining units. This measure also gives the exclusive representatives authority to remove the board member if they determine, by simple majority, that the board member is not effective during the member's term.

Your Committee acknowledges the testimonies from numerous labor unions supporting this measure on the basis that the existing appointment process for the representative of labor gives the Governor too much authority over a quasi-judicial body that adjudicates disputes in which the Governor, serving as the employer, would often be involved as a party. Your Committee also acknowledges the testimonies of the Office of Collective Bargaining, finding no compelling reason to limit the pool of nominees for the representative of labor from three to one, leaving the Governor no choice but to appoint the single nominee.

Your Committee also acknowledges the testimony of the Board itself, raising numerous concerns over the current appointment process and the process provided in this measure. This includes the fact that despite the HLRB having jurisdiction over three constituencies, only the state public employment collective bargaining sector has a voice as to who sits on the Board. The positions of private sector unions and small businesses are not reflected. The Board also points to its duty to act as a neutral body that does not

favor certain parties. To maintain the Board's independence and neutrality, the members are protected from being removed based on political reasons or a party's negative response to an outcome of a case. The HLRB is concerned that the removal process provided in this measure may jeopardize its duty to remain neutral and take actions based on the facts and the law. Based on these testimonies, your Committee believes this measure requires further review and consideration.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 678, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 476 (Joint) Labor, Culture and the Arts and Human Services on S.B. No. 793

The purpose and intent of this measure is to repeal state laws that exempt individuals with a disability from minimum wage requirements by:

- (1) Repealing section 387-9(a)(2), Hawaii Revised Statutes, which allows payment of sub-minimum wage to individuals with impairments by obtaining a special certificate from the Department of Labor and Industrial Relations (DLIR); and
- (2) Amending the definition of "qualified community rehabilitation program" (QCRP) under the Hawaii Public Procurement Code by eliminating the requirement that they hold the DLIR special certificate and a federal certificate issued under section 14(c) of the Fair Labors Standard Act of 1938, as amended, which also allows payment of sub-minimum wage based on an individual's disability status.

Your Committees received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, Democratic Party of Hawai'i Education Caucus, Democratic Party of Hawai'i Hawaiian Affairs Caucus, Hawaii Disability Rights Center, Hawaii State Teachers Association, Imua Alliance, International Longshore and Warehouse Union Local 142, MCH Lend, National Federation of the Blind of Hawaii, one member of the County Council of the County of Maui, and six individuals. Your Committees received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that laws that allow payment of sub-minimum wage based on an individual's disability status are archaic and a possible violation of the Americans with Disabilities Act (ADA) of 1990, as amended. Your Committees further find that the employers who currently hold the certificate for sub-minimum wage are actually paying their employees statutory minimum wage, and the only reason for them obtaining the certificates is to meet the definition of QCRP under the Hawaii Public Procurement Code. The contracts that are awarded to QCRPs do not require payment of sub-minimum wage. This measure will eliminate the need for these employers from obtaining the special certificates.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 793, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 793, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 477 Labor, Culture and the Arts on S.B. No. 936

The purpose and intent of this measure is to add a new section to the Hawaii Occupational Safety and Health Law to require:

- (1) The Department of Labor and Industrial Relations to disseminate information regarding seizure first aid to employers, employees, and the general public;
- (2) Employers to post materials provided by the Department of Labor and Industrial Relations; and
- (3) The Department of Labor and Industrial Relations to adopt rules to implement the new requirements.

Your Committee received testimony in support of this measure from ten individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations.

Your Committee finds that seizure disorders like epilepsy are evidenced by sudden surges of electrical activity in the brain that affect a variety of mental and physical functions. Your Committee finds that as of 2019, over fifteen thousand people in the State of Hawaii and over three million in the United States are living with epilepsy, and an additional ten percent of the population may experience a non-epileptic seizure in their lifetime. Your Committee also acknowledges testimony that seizures and strokes are becoming more common among individuals who contract the coronavirus disease 2019 (COVID-19). The prevalence of epilepsy and other seizure disorders in our community evidence a need to provide workplace education regarding seizure first aid. This measure would ensure that information is available to members of the community regarding how to render first aid in the event of a seizure.

Your Committee also acknowledges the concerns raised by the Department of Labor and Industrial Relations regarding this statutory placement of the new requirements set forth in this measure and the difficulty in implementing and enforcing them. The Hawaii Occupational Safety and Health Law, codified at chapter 396, Hawaii Revised Statutes, is administered by the Hawaii Occupational Safety and Health Division (HIOSH). The jurisdiction of HIOSH is limited to ensuring that every employer furnishes its employees with a workplace that is safe and free from recognized hazards. Since seizures are currently deemed a medical condition and not a workplace hazard, HIOSH does not have the jurisdiction to enforce or require seizure first aid training for the public. Furthermore, since epileptic seizures or other seizures not directly caused by a workplace exposure to hazardous material is not considered a workplace injury or illness by state or federal standards, the cost of enforcement will not be covered by federal grants, and therefore must be fully funded by the State. According to the Department of Labor and Industrial Relations, the Governor has restricted state funds for the Department and further restrictions are likely to come. Based on the testimony from the Department, your Committee believes further discussion of this complex issue is needed.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 936, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 936, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 478 Labor, Culture and the Arts on S.B. No. 1082

The purpose and intent of this measure is to:

- (1) Clarify the definition of "compensation" for the purpose of calculating retirement benefits for public employees; and
- (2) Exclude recurring differentials from the definition of "base pay" and shortage differentials from the definition of "compensation", respectively.

Your Committee received testimony in support of this measure from the Employees' Retirement System (ERS). Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL CIO; Hawaii State Teachers Association; and one individual. Your Committee received comments on this measure from the City and County of Honolulu Department of Budget and Fiscal Services, City and County of Honolulu Department of Human Resources, and City and County of Honolulu Department of Information Technology.

Your Committee finds that ERS retirement benefits are calculated based on a formula which includes the employee's average final compensation; however, the eight separate employers who use the ERS are currently reporting their employees' payroll information to the system using inconsistent discretionary definitions of "base compensation". This inconsistency, in addition to creating inequality among public employees, also subjects the ERS to the risk of losing its tax-exempt status as a qualified pension plan. Therefore, your Committee finds that this measure is necessary to ensure that retirement benefits are computed fairly and equitably for all public employees, facilitate employer reporting of compensation on a consistent and timely basis, and eliminate risk to ERS's tax-exempt status.

Your Committee also finds that some employers who fill hard-to-fill positions by increasing the salary using shortage differential choose to continue paying the differential for the duration of the employee's career instead of reclassifying the position's salary to an appropriate market rate. Your Committee finds that excluding recurring differentials, including shortage differentials used in such manner, from the definitions of "base pay" and "compensation" will have an unintended detrimental effect on many employees.

Your Committee notes that S.B. No. 2867, S.D. 2 (Regular Session of 2020), which was previously passed by the Senate, is a substantially similar measure that also clarifies the definition of compensation for the purposes of calculating retirement benefits. According to the ERS, there is no substantive difference between this measure and S.B. No. 2867, S.D. 2.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2867, S.D. 2, a substantially similar measure, which clarifies the definition of compensation for the purposes of calculating retirement benefits;
- (2) Allowing "recurring differentials" to remain as part of "base pay" in section 88-21, Hawaii Revised Statutes;
- (3) Allowing "shortage differentials" to remain as part of "compensation" in section 88-21.5(b), Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1082, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 479 Labor, Culture and the Arts on S.B. No. 1083

The purpose and intent of this measure is to facilitate the Employees' Retirement System's (ERS) processing of Hawaii domestic relations orders by providing clarity on the processing procedure and benefits subject to the orders. Specifically, this measure:

- (1) Applies Hawaii domestic relations orders to benefits that an ERS member is expected to receive or is receiving;
- (2) Authorizes release of a member's ERS information to be initiated by a complaint for divorce or a divorce decree;
- (3) Authorizes the ERS's advisory notification as to whether a proposed domestic relations order meets the requirement of a Hawaii domestic relations order to be given to the parties involved, in addition to the person who submitted the proposed order:
- (4) Prohibits a Hawaii domestic relations order that is enforced on a payout of benefits triggered by a member's termination of membership from being enforced on any subsequent benefits resulting from the former member becoming a member again;
- (5) For the purposes of calculating the death benefit payable to a designated beneficiary of a retirant who deceases within one year of retirement using the alternative benefit option, deducts payments made to an alternate payee pursuant to a Hawaii domestic relations order as payments received by the retirant;
- (6) Specifies that the priority among multiple orders will be determined based on the order in which the ERS receives the domestic relations order; and
- (7) Clarifies that the qualification of a domestic relations order shall supersede and terminate the qualification of any prior order between the same parties.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that on July 1, 2020, ERS began its processing of Hawaii domestic relations orders that allow the ERS to disburse benefits to a member's former spouse or a spouse in a divorce action who is recognized under the order as an alternate payee. To facilitate the processing of the orders, there is a need to provide clarity on ERS's processing procedures and the types of benefits that are subject to the orders.

Your Committee notes that S.B. No. 2868, S.D. 1 (Regular Session of 2020), is a substantially similar measure that provides clarity on the processing of Hawaii domestic relations orders and the types of benefits that are subject to orders. S.B. No. 2868, S.D. 1, was previously passed by the Senate; however, further consideration was terminated due to the disruptions caused by the coronavirus disease 2019 (COVID-19) pandemic. There are no substantive differences between the two measures.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2868, S.D. 1, Regular Session of 2020, a substantially similar measure, which provides clarity on ERS's processing procedure and the types of benefits that are subject to the orders; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1083, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 480 Labor, Culture and the Arts on S.B. No. 1084

The purpose and intent of this measure is to amend section 88-103, Hawaii Revised Statutes, to exempt the Employees' Retirement System (ERS) from disclosing certain types of alternative investment fund information, the disclosure of which would likely put the ERS at a competitive disadvantage, pursuant to the Uniform Information Practices Act (Modified), codified at chapter 92F, Hawaii Revised Statutes (UIPA).

Your Committee received testimony in support of this measure from the ERS. Your Committee received testimony in opposition to this measure from The Civil Beat Law Center for the Public Interest and UNITE HERE Local 5. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the ERS engages in diversified investment, including high-yield private alternative investment funds, to address its \$14.6 million unfunded liability and other financial needs. Due diligence into such investments requires the ERS to invest time and money in acquiring and analyzing detailed proprietary and confidential information regarding the projected performance of each fund. Under current law, information held by the ERS pertaining to such proprietary or confidential information is not explicitly exempted from disclosure under the UIPA. However, public disclosure of such proprietary and confidential information will put the ERS at a disadvantaged as a competitive investor, since competing investors could acquire ERS's investment intelligence at no cost and invest in the ERS's best investments. This may cause an oversubscription of such investments and thereby hinder the ERS formation investing in them. Your Committee further finds that based on the potential risk of the ERS disclosing or being required to disclose proprietary and confidential information pertaining to its portfolio, some high-performing funds have been deterred from allowing the ERS to invest with them.

Your Committee notes that S.B. No. 2869, S.D. 1 (Regular Session of 2020), is a substantially similar measure that exempted the ERS from disclosing certain types of alternative investment fund information pursuant to the UIPA. S.B. No. 2869 drew concern that the language of the exemption was written loosely enough for the ERS to assert in the future that the exemption applied not only to the information listed in the measure, but also to any records relating to the management and investment of ERS funds. Your Committee believes that the language in this measure clarifies that the only information being statutorily exempted from disclosure under the UIPA is information relating to ERS's alternative investments funds and leaves no room for an interpretation that the exemption may apply to records related to the ERS's general management and investment practices.

Your Committee acknowledges the concerns of The Civil Beat Law Center for the Public Interest and its request to revise the language to clarify that information that is currently subject to disclosure under the UIPA and other laws and is not exempted from disclosure under this measure remains subject to disclosure. Your Committee also believes that it is more appropriate to have provisions pertaining to disclosure of information by the ERS in section 88-103.5, Hawaii Revised Statutes, titled "Disclosure of information," rather than section 88-103, titled "Records".

Accordingly, your Committee has amended this measure by:

- (1) Amending section 2 to:
 - (A) Make amendments to section 88-103.5, Hawaii Revised Statutes, instead of section 88-103, Hawaii Revised Statutes; and
 - (B) Clarify that the exemptions from disclosure under this measure are in addition to any other records that may be exempt from disclosure pursuant to other laws;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1084, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1084, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 481 Labor, Culture and the Arts on S.B. No. 1087

The purpose and intent of this measure is to temporarily suspend the requirement for public employers to make annual required contributions into the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) for four years, through fiscal year 2024-2025.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, County of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Health Committee of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Americans for Democratic Action Hawai'i.

Your Committee finds that the EUTF is a state agency administratively attached to the Department of Budget and Finance that provides eligible State and county employees and retirees and their eligible dependents with health and life insurance benefits. EUTF receives monthly contributions known as "pay-as-you go" premiums from public employers that is used towards the payment of costs for the beneficiaries' health benefit and group life insurance plans.

In 2013, to reduce the EUTF is substantial amount of unfunded liability, the Legislature passed Act 268, Sessions Laws of Hawaii 2013, that required the EUTF to establish a separate trust fund entitled the Other Post-Employment Benefits (OPEB) Trust, into which the employers must pay annual required contributions to pre-fund the OPEB plan costs for existing employees as well as pay down the EUTF's existing unfunded liability. The amount of annual required contribution is determined by the EUTF, and beginning fiscal year 2018-2019, public employers were required to pay an amount sufficient to fully cover the "normal cost", which is the OPEB cost attributable to the current year of service and the "amortization payment", which is a catch-up payment for past service costs to fund the unfunded actuarial accrued liability over the next thirty years.

Your Committee finds that on July 17, 2020, to address the \$2.3 billion budget shortfall resulting from the impacts of the coronavirus disease 2019 (COVID-19) pandemic, the Governor issued a Tenth Proclamation Related to the COVID-19 Emergency, which suspended the State's payment of \$408 million as the annual required contributions for the fiscal year ending June 30, 2021. As a result, for fiscal year 2020-2021, the State and counties contributions will be limited to their share of the monthly "pay-as-you-go" premiums and claims expenses. This measure will extend this suspension for four more years, until fiscal year 2024-2025.

In July 2020, Moody's Investors Service, one of the three major credit rating agencies that publish bond-ratings for Hawaii, downgraded the rating for the State's general obligation (GO) bonds from Aa1 to Aa2, considering the long-term effect of the COVID-19 pandemic on the State's economy. In October 2020, Fitch Ratings downgraded its rating for the State's outstanding GO bonds from AA+ to AA. S&P Global Ratings has assigned the State an AA+ rating with a negative outlook. Your Committee finds that the Department of Budget and Finance is requesting the suspension of the annual required contribution payments in this measure to balance the State's budget with minimum impact on the State's bond ratings. According to the Department, the four-year suspension will reduce the State's fixed costs by \$1,434,439,000, and provide the public employers with the flexibility to address budgetary shortfalls while the economy recovers from the impact of the COVID-19 pandemic.

Your Committee also recognizes the concerns raised in testimony on the negative impacts of the elongated suspension of the annual required contribution payments. Prefunding of the OPEB is a sound, long-term budget policy that hedges against the risk of the EUTF's annual current benefits payments outpacing its revenues. Prefunding also allows the investment earnings from the funds to be used in the future for payment of retiree premiums. The suspension of contributions will delay the public employers from reaching a full-funded status of their OPEB funds unless payments are accelerated after the suspension is repealed. According to the EUTF's projections, this measure will increase its unfunded liability, resulting in a net increase of \$4.1 billion in the State's required payments for fiscal years 2026 to 2055. Furthermore, the State's fringe benefits rate for non-general funds will be lower than it would be without the suspension.

Therefore, your Committee has considered amending this measure to shorten the duration of the suspension from four to two years with the opportunity for the Department of Budget and Finance to request for further extensions thereafter, if necessary. However, according to the Department, shortening the duration of the suspension period would result in a negative general fund ending balance for fiscal years 2024-2025 and 2025-2026. Since a state's general fund ending balance is one of the factors considered in bond ratings,

shortening the duration of the suspension may have a negative impact on the State's bond-rating. Based on the testimony from the Department, your Committee believes further discussion of this complex issue is needed.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 482 Labor, Culture and the Arts on S.B. No. 1158

The purpose and intent of this measure is to:

- (1) Allow the Department of Labor and Industrial Relations to revoke or suspend a permit to operate a pressure retaining item, amusement ride, or elevator and kindred equipment, for which the required fees or fines have not been paid; and
- (2) Eliminate the fee schedules for boilers and pressure systems, elevators and kindred equipment, and amusement rides.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the Legislature established the Boiler and Elevator Special Fund in 2012, as a mechanism for self-sufficiency for the Boiler and Elevator Inspection Branch (Branch), Hawaii Occupational Safety and Health Division, Department of Labor and Industrial Relations (Department). The objective was to improve public safety by allowing the Branch to expend the fund to hire and retain the necessary staffing to clear the backlog of critical load tests on elevators, internal inspections of escalators, and inspections of amusement rides. In 2018, the fund was converted into the Boiler and Elevator Revolving Fund (Revolving Fund). Under the law, all fees collected for services rendered under the Boiler and Elevator Safety Law, such as inspection and examination fees and fees for issuance of permits, certificates, and licenses, are required to be paid into the Revolving Fund.

Your Committee finds, however, that the viability of the Revolving Fund is currently threatened, as the Department has been struggling to collect the fees for inspections that have been completed. Due to insufficient resources, the Department has not been able to perform inspections of all elevators and kindred equipment in a timely manner. Your Committee finds it imperative that the Revolving Fund be revitalized for the interest of public safety. This measure, which allows the Department to revoke or suspend permits to operate equipment in the event the required fees are unpaid, will encourage the timely payment of fees, and assist in the revitalization of the Revolving Fund. Your Committee also finds that the fee schedules for boilers and pressure systems, elevators and kindred equipment, and amusement rides are outdated and unnecessary, as they are now set forth in the Department's administrative rules.

Accordingly, your Committee has amended this measure by:

- (1) Making a conforming amendment to section 397-2, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1158, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 483 Labor, Culture and the Arts on S.B. No. 1275

The purpose and intent of this measure is to:

- (1) Require each state government branch to establish a shared leave program for state employees;
- (2) Preclude state government branches from prohibiting leave sharing between employees of different departments or bargaining units because of administrative infeasibility; and
- (3) Allow a public employee to designate beneficiaries to the employee's unpaid vacation allowance and wages through a statement that is not verified or written.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Hawaii Government Employees Association, AFSCME Local 152, AFL CIO. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development.

Your Committee finds that the State's existing shared leave program does not allow sharing of leave across separate employer jurisdictions. Your Committee also finds that because each jurisdiction has their own set of policies and rules, implementation of a multi-jurisdictional shared leave program would require an assessment of existing policies and programs across all jurisdictions to assess integration into a centralized system. This would require coordination among all state jurisdictions and a budget for staffing, software development and maintenance, security, and hosting. Since the conditions for usage of the program include limitation over the life of an employee's state employment, a comprehensive and sustainable tracking system would also be necessary. Authority for the grant and appeals process would require formalization to include a multi-jurisdictional board to insure fairness and transparency

across the affected jurisdictions. Therefore, your Committee finds that there is need for additional time for the State to assess the implications, the necessary protocols, and budgeting to implement this measure.

Accordingly, your Committee has amended this measure by:

- (1) Retaining the six-month minimum service and absence of disciplinary record of sick leave abuse within the past two years under sections 78-26(b)(1) and (4), Hawaii Revised Statutes, as eligibility criteria for participation in the shared leave program;
- Appropriating an unspecified amount of general funds to be expended by the Department of Human Resources Development for the purposes of this measure;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1275, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1275, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 484 Labor, Culture and the Arts on S.B. No. 1380

The purpose and intent of this measure is to authorize the issuance of general obligation bonds in the sum of \$1,000,000 to finance capital improvement projects for Iolani Palace to be expended by the Department of Accounting and General Services; specifically, as funding for the construction for roof repairs and improvements to the palace.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; The Friends of Iolani Palace; Aloha State Services, Ltd.; Oahu Economic Development Board; and five individuals.

Your Committee finds that Iolani Palace, constructed in 1879, is a living restoration of a proud Hawaiian national identity, a registered national Historic Landmark, and the only palace of official royal residence in the United States. The 142-year-old palace is an important cultural and historical landmark that represents the dignity and unique history of the people of Hawaii.

According to the Department of Land and Natural Resources, the last time portions of the palace's roof were repaired was two decades ago in 2000, and due to increasing decay and leakage during rain, the roof and various other architectural elements of the palace are deteriorating. Your Committee also acknowledges that The Friends of Iolani Palace, the non-profit corporation that preserves, restores, and protects the Iolani Palace, receives no financial subsidy from the State for operational support. As such, the corporation relies solely on ticket sales, gift shop sales, and donations to develop the cultural exhibits and functions held at the palace to educate people about Hawaii's history and culture. According to the testimony of The Friends of Iolani Palace, the disruption caused by the coronavirus disease 2019 (COVID-19) pandemic required the palace to close for nearly four months, resulting in the corporation cutting their employees' salaries and terminating nearly half of its staff. During such disruption, the roof of the palace continued to leak, and a new leak was discovered recently during heavy rains. This measure will provide funding to address the critical need for roof repair and improvements to the palace to protect the integrity of various antiquities and elements of this treasured historical site.

Your Committee also notes the testimony of the Department of Land and Natural Resources regarding the allocation of departmental duties regarding the maintenance and management of Iolani Palace. Specifically, the Department of Accounting and General Services is responsible for the maintenance and management of the grounds, trees, and parking areas surrounding Iolani Palace, whereas capital improvements for the buildings and appurtenant structures are administered by the Department of Land and Natural Resources. As such, the funding for the construction of roof repair and improvements to the Iolani Palace should be expended by the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Amending section 2 to reflect that the sum appropriated for this measure be expended by the Department of Land and Natural Resources; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1380, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 485 (Joint) Labor, Culture and the Arts and Human Services on S.B. No. 1270

The purpose and intent of this measure is to replace the Director of Human Services with the Administrator of the Division of Vocational Rehabilitation, Department of Human Services, as an ex officio voting member of the Workforce Development Council, Department of Human Services.

Your Committees received testimony in support of this measure from the Workforce Development Council, Department of Human Services, and State Council on Developmental Disabilities.

Your Committees find that federal regulations that implement the Workforce Innovation Opportunity Act (WIOA) of 2014, specifically, title 34 Code of Federal Regulations section 361.13(c), provide participation in the state's workforce development system as a non-delegable responsibility of a state's vocational rehabilitation agency. Furthermore, under title 20 Code of Federal Regulations sections 679.110(b)(3)(iii)(A)(1)(iii) and 679.120(a), a representative of the state's vocational rehabilitation agency with optimum policy-making authority is required to serve on the State Workforce Development Board. Failure to comply with these regulations will subject the Hawaii WIOA Unified State Plan to loss of its federal approval, resulting in possible penalties. Your Committees find that the Administrator of the Division of Vocational Rehabilitation, Department of Human Services, is best qualified for this position and that this measure is necessary to comply with federal regulations.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1270 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Human Services: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 486 (Joint) Water and Land and Agriculture and Environment on S.B. No. 693

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources (DLNR) and the Department of Agriculture (DOA) to meet and identify the non-agricultural park lands that should be rezoned as those in the conservation district;
- (2) Require that agricultural lands under the jurisdiction of DLNR be transferred to the DOA no later than December 31, 2023;
- (3) Require the DLNR and DOA to meet every five years to discuss transferring remaining lands; and
- (4) Require the DOA to inquire about any easements needed by DLNR before offering a lease.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Local Food Coalition; Ulupono Initiative; Hawaii Aquaculture and Aquaponics Association; Land Use Research Foundation of Hawaii; Kapapala Ranch; Jay's Hog Farm; Ponoholo Ranch Limited; Larry Jefts Farms, LLC; MauiGrown Coffee, Inc.; Ulupalakua Ranch; Hawaii Meats LLC; and twenty individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Conservation Council for Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, and one individual.

Your Committees find that this measure facilitates the transfer of certain non-agricultural park lands from DLNR to DOA pursuant to Act 90, Session Laws of Hawaii 2003, and chapter 166E, Hawaii Revised Statutes, regarding non-agricultural park lands.

Your Committees have amended this measure by:

- Specifying that the easements required by DLNR in this measure are easements to access landlocked forest reserves or other DLNR assets; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

 $Agriculture\ and\ Environment:\ Ayes,\ 5;\ Ayes\ with\ Reservations\ (Acasio,\ Rhoads,\ Fevella).\ Noes,\ none.\ Excused,\ none.$

SCRep. 487 Water and Land on S.B. No. 1182

The purpose and intent of this measure is to repeal section 171-8.5, Hawaii Revised Statutes, establishing the Koke'e State Park Advisory Council.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Kōke'e Leaseholders Association.

Your Committee finds that the implementation of the Kōke'e/Waimea Canyon Final Master Plan can take years, if not decades, and requires consultation and community collaboration to have a successful outcome. However, for a variety of reasons, the Kōke'e Advisory Council has not been populated with necessary members. Community advisory groups and other organizations are more flexible than legislatively appointed groups and are equally able to develop long-term relationships with the Division of State Parks. Therefore, this measure repeals the statutory establishment of the Kōke'e State Park Advisory Council. Your Committee encourages the community to continue to engage with the Division of State Parks to fulfill the remaining mandates intended for the statutory Kōke'e State Park Advisory Council.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1182 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 488 (Joint/Majority) Water and Land and Agriculture and Environment on S.B. No. 1292

The purpose and intent of this measure is to exempt the proposed drilling, construction, or use of a well on lands leased from the Department of Agriculture from the requirements of relevant environmental impact statement laws, provided that the land is being used to support agriculture and food production.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau and one individual. Your Committees received testimony in opposition to this measure from the Office of Environmental Quality Control and Office of Hawaiian Affairs. Your Committees received comments on this measure from the Department of Agriculture, Department of Land and Natural Resources, and Commission on Water Resource Management.

Your Committees find that agricultural water is needed for uses such as irrigating crops, pasture, livestock, and processing for sale. Reported agricultural ground water use from two hundred fifty-six of the total four hundred thirty-four agricultural wells in the State is around twenty million gallons per day, as the industry transitions from large scale to smaller diversified agriculture; that does not account for surface water use. Research shows that agricultural water use may have significant impacts on groundwater recharge and corresponding groundwater sustainable yields and setting of instream flow standards. Before drilling a well to tap into the abundant aquifer to expand food production, farmers who lease land from the Department of Agriculture must obtain an environmental impact statement (EIS). Testifiers have stated that the requirements of the EIS may delay beneficial projects until they are no longer feasible. With the coronavirus disease 2019 pandemic renewing awareness of the critical importance of food production and self-sufficiency, this measure seeks to assist farmers by providing water essential to the generation of productive agricultural lands.

Your Committees have heard the concerns of testifiers that the exemption contemplated by this measure would subvert the laws and processes in place to protect Hawaii's fragile natural and cultural resources from avoidable and unnecessary impacts despite efforts to expedite projects that promote local food sustainability and agriculture. The environmental review process outlined in chapter 343, Hawaii Revised Statutes, demonstrates the State's desire for careful planning to preserve its finite natural resources. The exemption in this measure may result in significant and adverse impacts. Pursuant to section 343-6, Hawaii Revised Statutes, and section 11-200-8(a), Hawaii Administrative Rules, the Department of Agriculture lessees enjoy an exemption from EIS requirements for the construction of "small" facilities, including for public utility services, and "minor" accessory structures, which may contain small wells. However, exemptions for proposed large well structures may fail to consider impacts to streams and springs fed by groundwater sources, adjacent native species habitat, native Hawaiian traditional and customary practices, and sites of cultural significance.

Accordingly, your Committees have amended this measure by:

- (1) Placing the exemption within chapter 343, Hawaii Revised Statutes, relating to EIS, rather than chapter 174C, Hawaii Revised Statutes, relating to the State Water Code;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1292, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1292, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Nishihara, Rhoads). Noes, 2 (Acasio, Fevella). Excused, none

SCRep. 489 (Joint) Energy, Economic Development, and Tourism and Labor, Culture and the Arts on S.B. No. 1023

The purpose and intent of this measure is to require a certain percentage of the Transient Accommodations Tax to be allocated to provide funding for the Bishop Museum and Iolani Palace.

Your Committees received testimony in support of this measure from the Oahu Economic Development Board, Bishop Museum, Iolani Palace, Aloha State Services, Historic Hawai'i Foundation, Hawai'i Arts Alliance, and seven individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Tax Foundation of Hawaii.

Your Committees find that the Bishop Museum stewards more than twenty-five million catalogued objects and includes over one million cultural artifacts representing Native Hawaiian, Pacific Island, and Hawaii immigrant life. Your Committees also find that the Bishop Museum offers science and cultural educational programs to thousands of Hawaii's schoolchildren each year and through its work it also actively supports tourism and economic development.

Your Committees further find that the Iolani Palace is the only royal palace in the United States and due to its intrinsic value as a significant historic building, it serves a poignant role representing the Hawaiian monarchy. Your Committees also find that the tourism industry has depicted Iolani Palace as an enticing backdrop for marketing and is a popular tourism venue.

Your Committees also recognize that during the coronavirus disease 2019 (COVID-19) pandemic, both the Bishop Museum and Iolani Palace suffered a substantial loss of revenue due to the lack of visitors and events. Accordingly, your Committees believe that applying a fixed amount of the Transient Accommodations Tax to the Bishop Museum and Iolani Palace will provide a stable funding source for their continued operation and enable the preservation of the valuable and precious antiquities of Hawaii's history.

Your Committees have amended this measure by:

(1) Requiring a fixed amount of \$750,000, instead of applying a certain percentage, of the Transient Accommodations Tax to be allocated to the Iolani Palace; and

(2) Requiring a fixed amount of \$1,500,000, instead of applying a certain percentage, of the Transient Accommodations Tax to be allocated to the Bishop Museum.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1023, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1023, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 490 Energy, Economic Development, and Tourism on S.B. No. 921

The purpose and intent of this measure is to amend the motion picture, digital media, and film production income tax credit, pursuant to section 235-17, Hawaii Revised Statutes, by:

- (1) Reducing the cap amount and aggregate cap amount of the credit;
- (2) Establishing a maximum amount of above-the-line costs that may be used to claim the credit;
- (3) Reducing a minimum amount of qualified productions costs needed to claim the credit;
- (4) Requiring qualified production costs to be incurred through a qualified vendor;
- (5) Requiring at least seventy-five percent of a qualified production to be filmed in the Sate if the taxpayer claims a credit in excess of \$5,000,000 in a single taxable year;
- (6) Requiring that the State receive a percentage of the worldwide gross revenues of a qualified production if the taxpayer claims credits in excess of \$15,000,000 in two taxable years;
- (7) Reducing the total tax credits claimed per qualified production to \$12,000,000;
- (8) Requiring the Department of Business, Economic Development, and Tourism to make a public disclosure identifying the name of the taxpayers who are receiving the tax credits and the total amount of tax credit received;
- (9) Defining "above-the-line costs" and "qualified vendor"; and
- (10) Extending the repeal date of the tax credit from January 1, 2026 to January 1, 2033.

Your Committee received testimony in support of this measure from the Island Group. Your Committee received testimony in opposition to this measure from the Motion Picture Association. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Department of the Attorney General; and Tax Foundation of Hawaii.

Your Committee finds that this measure is an important tool to foster the State's economic recovery efforts amidst the coronavirus disease 2019 pandemic.

Your Committee further finds that the Department of Business, Economic Development, and Tourism testified that 2021 is gearing up to be an explosive year in production and entertainment around the globe and also in Hawaii because of the increased demand for streaming content worldwide during the pandemic. The Legislature believes that it is important to enable the State to continue this production momentum, create jobs, and sustain the pipeline of opportunity for local students, while also allowing the State to attract private investment.

Accordingly your Committee finds that amending the measure to reduce the tax credit cap per qualified production will promote continued expansion of production opportunities in the State.

Your Committee has amended this measure by:

- (1) Retaining the provision reducing the total tax credits claimed per qualified production to from \$15,000,000 to \$12,000,000;
- (2) Requiring the Department of Business, Economic Development, and Tourism to make a public disclosure identifying the name of the taxpayers who receive the tax credits and the total amount of tax credit received;
- (3) Deleting the rest of its contents; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 491 Health on S.B. No. 25

The purpose and intent of this measure is to:

- (1) Permit minors to consent to medical care related to the diagnosis or treatment of the human immunodeficiency virus (HIV) or the prevention of HIV; and
- (2) Provide that a minor, under certain circumstances, will not be liable for payment for treatment or prevention of HIV.

Your Committee received testimony in support of this measure from the Department of Health, Kaiser Permanente Hawaii, LGBT Caucus of the Democratic Party of Hawai'i, Hawai'i Health & Harm Reduction Center, Mālama I Ke Ola Health Center, Hawaii Youth Services Network, Pride at Work - Hawai'i, Hawai'i Academy of Physician Assistants, and eight individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that persons between the ages of thirteen and twenty-four accounted for twenty-one percent of new diagnoses of new HIV diagnoses in 2017. Of those, forty-four percent were unaware of their HIV status. Your Committee further finds that this age group is the least likely to test for HIV, receive HIV treatment or be virally suppressed, or be offered HIV prevention treatment. This measure enables and encourage minors age fourteen to seventeen to obtain HIV related medical care without involvement of a parent or guardian.

Your Committee recognizes the testimony of Kaiser Permanente Hawaii, which notes that in Hawaii, physician assistants practice in primary care and in every medical and surgical subspeciality and proposes amendments that would allow physician assistants to also provide the medical services in the measure.

Therefore, your Committee has amended this measure by:

- Authorizing licensed physician assistants to perform the same medical care and services related to HIV as licensed physicians and advanced practice registered nurses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 25, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 25, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 492 Health on S.B. No. 279

The purpose and intent of this measure is to:

- (1) Raise the minimum age requirement to enter into marriage from sixteen to eighteen years of age;
- (2) Remove the requirement for parental consent and written approval by the family court for a minor to marry;
- (3) Remove spousal cohabitation after the parties attain legal age as an exception for an annulment based on nonage; and
- (4) Make conforming amendments.

Your Committee received testimony in support of this measure from the AHA Foundation, Small Business Association Leadership Council, Global Hope 365, Unchained At Last, National Consumers League, CHILD USA, American Atheists, Students Against Child Marriage, William & Mary Law School Center for Racial & Social Justice, Hawaii Zonta International, and nine individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that child marriage can severely limit opportunities and poses risks to health, education, and economic freedom. In certain cases, minors lack the rights and resources of adults and are more vulnerable to coercion and predation. This measure would raise the minimum age requirement to enter into marriage from sixteen to eighteen to conform to other age thresholds that grant certain rights and responsibilities. However, according to the Department of Health, in general, marriage with persons under the age of eighteen or couples with an age difference of ten to twenty-one years is an uncommon occurrence in Hawaii, but there are a small number of outlier cases that prompt closer scrutiny. Due to a number of possible circumstances including family resilience, socioeconomic potential, cultural perspectives, and a number of other considerations, amendments to this measure are necessary to address these issues.

Your Committee has amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Deleting section 2 of the measure to retain the existing statutory definitions of "guardianship of a minor" and "residual parental rights and responsibilities", which include consent to marriage;
- (3) Deleting section 3 of the measure to retain exclusive original jurisdiction in court proceedings involving judicial consent to the marriage of a child;
- (4) Deleting language that would have raised the minimum age requirement to enter into marriage from sixteen to eighteen years of age;
- (5) Restoring existing statutory language that requires each of the parties at the time of contracting the marriage to be at least sixteen years of age; provided that, with the written approval of the family court of the circuit within which the minor resides, it shall be lawful for a person under the age of sixteen years, but in no event under the age of fifteen years, to marry;
- (6) Inserting language that requires the Child Protective Services Unit of the Department of Human Services to investigate and report to the family court before approving any marriage wherein one of the parties is a minor and the other party is more than five years older than the minor;

- (7) Deleting sections 5, 6, 7, 8, and 9 of the measure that would have made certain conforming amendments, and restoring existing statutory language that requires parental consent for a minor to marry and spousal cohabitation after the parties attain legal age as an exception for an annulment based on nonage; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 279, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 493 Health on S.B. No. 602

The purpose and intent of this measure is to:

- Prohibit certain contracts for managed care, entered into after June 30, 2021, from containing a provision that authorizes
 pharmacy benefit managers to reimburse a contracting pharmacy on a maximum allowable cost basis, and voids any such
 provisions in existing managed care contracts;
- (2) Prohibit pharmacy benefit managers from engaging in self-serving or deceptive business practices;
- (3) Prohibit pharmacy benefit managers from engaging in unfair methods of competition or unfair practices;
- (4) Prohibit pharmacy benefit managers from retaining any portion of spread pricing;
- (5) Prohibit pharmacy benefit managers from reimbursing a 340B pharmacy differently than any other network pharmacy;
- (6) Prohibit pharmacy benefit managers from reimbursing an independent or rural pharmacy an amount less than the rural rate for each drug under certain circumstances;
- (7) Prohibit pharmacy benefit managers from prohibiting a pharmacist to provide certain information to insureds;
- (8) Increase pharmacy benefit managers' annual reporting requirements;
- (9) Require the insurance commissioner to file annual reports with the legislature;
- (10) Increase pharmacy benefit manager registration and renewal fees; and
- (11) Make certain violations by pharmacy benefit managers subject to the penalties provided in chapters 480 and 481, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Hawaii Primary Care Association; Pharmacare Hawaii, Inc.; Times Supermarkets; National Community Pharmacists Association; and three individuals. Your Committee received testimony in opposition to this measure from Hawaii Association of Health Plans; Hawaii Medical Service Association; and Cigna Healthcare, Inc. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Health; Hawaii Employer-Union Health Benefits Trust Fund; Kaiser Permanente Hawaii; CVS Health Solutions, LLC; and Pharmaceutical Care Management Association.

Your Committee finds that rural and independent pharmacies are critical healthcare infrastructure in areas that may not yield enough revenue potential for big box pharmacies. Moreover, rural and independent pharmacies have deep roots in their communities that enhance their value to kupuna and other vulnerable residents. Your Committee finds that pharmacy benefit managers are companies that manage prescription drug benefits on behalf of health insurers and other payors. Pharmacy benefits managers wield great negotiating power, and thus have a significant behind-the-scenes impact in determining total drug costs for insurers, shaping patients' access to medications, and determining how much pharmacies are paid. While pharmacy benefit managers can provide value to the healthcare system, as third-party business entities, they also have economic interests that can add costs, or keep drug prices higher than they should be.

Your Committee further finds that rural and independent pharmacies across the United States are struggling financially due to the decreased reimbursement rates for prescription that are determined by pharmacy benefit managers. Additionally, more and more rural and independent pharmacies are closing, leaving residents in less populated areas without a pharmacist to fill prescriptions. This measure increases transparency and fairness in business dealings by pharmacy benefits managers.

Your Committee recognizes the testimony of the Insurance Commissioner of the Department of Commerce and Consumer Affairs' Insurance Division, who proposed amendments that clarify several areas of the measure. Your Committee also recognizes the testimony of several stakeholders in the healthcare community who testified that some of the proposed amendments would be untenable for pharmacy benefits managers. Therefore, your Committee has amended this measure by:

- (1) Removing the prohibitions against self-dealing and spread pricing;
- (2) Removing the annual examination requirement for the Insurance Commissioner;
- (3) Adding a definition of "rural" to have the same meaning as defined in section 1B-1(c), Hawaii Revised Statutes;
- (4) Removing the amendments to the definition of "pharmacy benefit manager";
- (5) Removing the deletion of health maintenance organizations from the definition of "covered entity";
- (6) Setting, at an undetermined amount, the:

- (A) Pharmacy benefit manager license application fee;
- (B) Pharmacy benefit manager license renewal fee; and
- (C) Penalty for a pharmacy benefit manager for failing to renew its license;
- (7) Removing the amendment that would allow penalties for a person acting as a pharmacy benefit manager without first being registered to be cumulative;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (9) Amending section 1 to reflect its amended purpose; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 602, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 494 Health on S.B. No. 618

The purpose and intent of this measure is to:

- (1) Amend the Uniform Parentage Act to allow non-gestational partners to voluntarily establish parentage of a child during the period immediately prior to or following the birth of the child; and
- (2) Require the State to recognize parentage determinations from other states and territories.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, AF3IRM Hawai'i, Planned Parenthood Votes Northwest and Hawaii, Hawai'i Women's Coalition, Trans Hawaii Project, and one hundred and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing parentage laws reflect cisheteronormative concepts of families, parenthood, and parental rights. Your Committee further finds that because parentage laws use the terms "paternity", "natural mother", and "natural father", LGBTQ+ parents are forced to obtain post-birth adoption decrees that cost thousands of dollars, otherwise known as the "queer parent penalty", placing an extreme financial and emotional burden on queer families who wish to adopt children. This measure removes this penalty by allowing non-gestational partners of any gender identity to voluntarily establish parentage at the time of a child's birth.

Your Committee recognizes the testimony of the Department of the Attorney General, which expresses concern that the measure as drafted would create inconsistencies in the Uniform Parentage Act and thereby lead to unintended effects, such as precluding male same-sex couples from establishing parentage at the time of birth. Therefore, your Committee has amended this measure by:

- (1) Defining "gestational parent" to mean an individual who gives birth to a child;
- (2) Defining "non-gestational parent" to mean an individual of any gender identity who establishes their co-parentage of a child with the consent of a gestational parent; and
- (3) Authorizing two non-gestational parents to expedite the establishment of parentage at the time of a child's birth.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 618, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 618, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 495 (Joint) Health and Commerce and Consumer Protection on S.B. No. 619

The purpose and intent of this measure is to amend provisions concerning fitness to proceed examinations in criminal proceedings to specify circumstances in which qualified advanced practice registered nurses or advanced practice registered nurses with certain required certifications may participate.

Your Committees received testimony in support of this measure from Hawai'i State Center for Nursing, The Queen's Health Systems, Hawai'i – American Nurses Association, Hawai'i Association of Professional Nurses, and six individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Health, Hawai'i Psychological Association, and two individuals. Your Committees received comments on this measure from the Judiciary and Board of Nursing.

Your Committees find that there is a need for greater access to healthcare, including forensic evaluation services relating to fitness to proceed examinations in criminal proceedings, particularly for those communities in rural areas and on the neighbor islands. Your Committees further find that this measure provides courts with greater flexibility by allowing qualified advanced practice registered nurses or advanced practice registered nurses (APRN) with prescriptive authority who hold an accredited national certification in an advanced practice registered nurse psychiatric specialization to conduct fitness to proceed evaluations in criminal proceedings. Your Committees also find that the State has adopted the national best practices for APRNs and enacted administrative rules that create a safe practice environment with clear standards to ensure high quality and safe care by APRNs.

Your Committees note the concerns of the Department of Health and the Department of the Attorney General that Act 26, Session Laws of Hawaii 2020, which made recent changes to the forensic examination panel process, be allowed to operate without further changes to the applicable laws so that its effects can be monitored and assessed.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 619, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 619, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (Moriwaki, San Buenaventura, Fevella). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (Misalucha, San Buenaventura, Fevella). Noes, none. Excused, none.

SCRep. 496 (Joint) Health and Commerce and Consumer Protection on S.B. No. 620

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses to certify whether a person is totally disabled under the income tax code;
- (2) Authorize advanced practice registered nurses to make capacity determinations; and
- (3) Add advanced practice registered nurses as primary providers in advance mental health care directives.

Your Committees received testimony in support of this measure from the Hawai'i State Center for Nursing, Hawai'i – American Nurses Association, Hawai'i Association of Professional Nurses, The Queen's Health Systems, Hawaii Nurses' Association, and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation, Board of Nursing, and Hawai'i Psychological Association.

Your Committees find that there is a need for greater access to healthcare in the State, especially in rural communities and on the neighbor islands. Because there is a well-documented physician shortage in the State, authorizing the readily-available advanced practice registered nurse (APRN) workforce to engage in activities within their scope of practice and in accordance with their education, training, and licensure provides a reasonable means of addressing this problem.

Your Committees also find that there are APRNs in all regions of the State with more than twenty-five percent working in rural areas. A majority of APRNs who work on the neighbor islands are also located in federally designated medically underserved areas. Expanding their authority could bring valuable services to those communities. Your Committees further find that this measure would allow APRNs to assist in important and high-demand services such as certifying whether a person is totally disabled under the income tax code, making capacity determinations, and serving as primary providers in advance mental health care directives.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 620, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 620, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 497 Health on S.B. No. 732

The purpose and intent of this measure is to:

- (1) Direct the Department of Health to create a two-year non-violent response team pilot program; and
- (2) Appropriate funds for the non-violent response team pilot program.

Your Committee received testimony in support of this measure from Hawai'i Psychological Association, Young Progressives Demanding Action, and twenty-one individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that Oahu has about 4,448 homeless people, twenty-three percent of whom report having mental health problems, and eighteen percent of whom report having a substance use problem. Many of those people end up having encounters with the police that result in arrest and incarceration. Your Committee further finds that a crisis intervention team would be more effective than law enforcement in responding to homeless people in distress and others with mental health or substance use disorders and could save the State in incarceration, ambulance, and emergency room costs. This measure directs the Department of Health to create a two-year non-violent response team pilot program.

Your Committee recognizes the testimony of the Department of Health, which raised concerns that the Department already has a program in place called the Hawaii CARES Program, which serves the purposes of the proposed pilot program. While your

Committee is in strong support of the establishment of the non-violent response team pilot program, your Committee also recognizes the financial constraints of the State.

Therefore, your Committee has amended this measure by deleting its contents and inserting language to:

- (1) Direct the Legislative Reference Bureau to conduct a study examining the efficacy of the Hawaii CARES Program offered by the Department of Health's Behavioral Health Administration Adult Mental Health Division;
- (2) Require that the study include the following:
 - (A) A summary of the responses and interventions made by the Hawaii CARES Program during the past five years, including intervention responses to incidents related to mental health, substance abuse, suicide threats, as well as providing conflict resolution and welfare checks on the island of Oahu;
 - (B) Whether any of the responses and interventions listed in subparagraph (a) involved an armed response; and
 - (C) A financial report for the preceding five fiscal years; and
- (3) Require that the Legislative Reference Bureau submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 732, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 498 Health on S.B. No. 858

The purpose and intent of this measure is to:

- (1) Require the Department of Health to establish a certification process, oversight board, and reimbursement process for services performed by community health workers; and
- (2) Require the Department of Health, supported by a task force of stakeholders, to provide a report to the Legislature no later than twenty days prior to the start of the 2022 legislative session.

Your Committee received testimony in support of this measure from Hui Malama Pono Hawaii Foundation; Kau Rural Health Community Association, Inc.; Hawaii Public Health Institute; Kau Rural Health Community Association, Inc.; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Health and three individuals. Your Committee received comments on this measure from the Hawai'i Public Health Institute, Hawai'i Primary Care Association, and two individuals.

Your Committee finds that Hawaii is facing a shortage of medical professionals, especially in geographically isolated and homeless communities. Community health workers help support medical practices by providing essential health education and working with social service programs, which are currently struggling to keep up with the demands placed on the behavioral health care system as a result of the coronavirus disease 2019 pandemic. Community health workers have been underutilized and this measure would establish a pathway for certification and reimbursement for services rendered by community health workers. Your Committee notes the concerns raised in testimony that this measure, in its current form, may be premature in its establishment of the certification process, and that at this stage, the framework for that process should first be determined. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Deleting sections 2 and 3 of the measure, which would have established a certification process, an oversight board, and a reimbursement process for services performed by community health workers; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 858, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 499 Health on S.B. No. 975

The purpose and intent of this measure is to establish procedures for the auditing of pharmacies.

Your Committee received testimony in support of this measure from the National Community Pharmacists Association; Molokai Drugs, Inc.; Times Supermarket and Times Pharmacy; Pharmacy Audit Assistance Services, LLC; Kamehameha Pharmacy, LLC; and one individual. Your Committee received testimony in opposition to this measure from Kaiser Permanente Hawaii. Your Committee received comments on this measure from the Department of Health; Hawaii Employer-Union Health Benefits Trust Fund; and CVS Health, Inc.

Your Committee finds that pharmacy audits are a necessary practice to identify fraud, abuse, and wasteful spending. However, your Committee also finds that pharmacy audits are often abused by pharmacy benefit managers as additional revenue sources by targeting community pharmacies and recouping money for harmless clerical errors where the correct medication was properly dispensed, and no financial harm was incurred. In many instances, the pharmacy benefit manager not only recoups the money paid to the pharmacy for the claim in question, but also recoups the money paid for every refill of that claim, even if all other fills were dispensed without error. This measure establishes procedures and rules for pharmacy audits that are necessary to prevent abuse of pharmacy audits.

Your Committee recognizes the testimony of Kaiser Permanente Hawaii, which raised concerns that the measure, as drafted, will have the unintended consequence of promoting healthcare fraud, waste, and abuse, and requests amendments to the measure to prevent abuse and ensure contract pharmacy compliance.

Accordingly, your Committee has amended this measure by:

- Removing the requirement that the auditing entity give the pharmacy being audited at least two weeks written notice prior to conducting an initial audit;
- (2) Removing the requirement that the period covered by an audit not exceed one year from the date the claim was submitted to or adjudicated by an auditing entity;
- (3) Removing the requirement that an audit not take place during the first seven days of the month, unless otherwise consented to by the pharmacy;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 975, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 975, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 500 Health on S.B. No. 1298

The purpose and intent of this measure is to:

- (1) Increase the advance disposal fee collected on glass containers to five cents; and
- (2) Remove the exemption for glass deposit beverage containers.

Your Committee received testimony in support of this measure from the Department of Health, Zero Waste Big Island, Qan LLC, and fifty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Wine Institute, Chamber of Commerce Hawaii, Glass Packaging Institute, and Hawaii Liquor Wholesalers Association.

Your Committee finds that the Hawaii Advanced Disposal Fee (ADF) program has not changed the 1.5 cents fee imposed on glass containers in twenty-seven years. Section 342G-84, Hawaii Revised Statutes, mandates that the Department of Health allocate funds collected by the advance disposal fee to each county based on that county's de facto population, so that the counties may operate glass recovery programs. Increasing the fee will allow the Department of Health to allocate a greater amount of funds to the less-populated neighbor islands and will provide a dramatic increase in funds vital for the continuation of the glass recycling program. With landfills reaching limited capacity throughout the State, the Legislature acknowledges the need to ensure the maintenance of glass recovery programs that divert disposed products from landfills.

Your Committee has amended this measure by:

- (1) Keeping the provision that applies the glass advance disposal fee only to glass containers that are not glass deposit beverage containers:
- (2) Inserting a blank amount for the disposal fee collected on glass containers; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1298, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 501 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1332

The purpose and intent of this measure is to:

- (1) Increase the allowable number of production centers and retail dispensing locations per dispensary license; and
- (2) Authorize the Department of Health to allow a licensed dispensary to purchase medical cannabis or manufactured cannabis products from another licensed dispensary to ensure ongoing qualified patient access.

Your Committees received testimony in support of this measure from Big Island Grown Dispensaries; Green Aloha, Ltd.; Hawai'i Cannabis Industry Association; and one individual. Your Committees received comments on this measure from the Department of Health and Akamai Cannabis Clinic.

Your Committees find that there is a need to fortify and enhance qualified patient access to safe, regulated cannabis in the State. Your Committees further find that there is an illicit recreational cannabis market flourishing in the State. The danger of such a market is that the products are unregulated, escaping product testing requirements, accountability to qualified patients, and oversight by any state agency. Thus, your Committees believe that overall enhancement of the medical cannabis dispensary program is necessary to strengthen patient access, improve product controls and safety, and refine the administration of the program.

Your Committees heard the testimony from several stakeholders who raised concerns about provisions in this measure that allow inter-island sales between licensed dispensaries that could conflict with federal law. Additionally, your Committees heard the testimony of the Department of Health, which recommended amendments to improve product quality and safety. Therefore, your Committees have amended this measure by:

- (1) Limiting the sales of medical cannabis between licensed dispensaries to only dispensaries on the same island;
- Authorizing the collection and laboratory testing of samples of cannabis and manufactured cannabis as part of production center and dispensary inspections;
- Authorizing the Department of Health to establish manufacturing and product stability standards of manufactured cannabis products;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1332, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1332, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (Misalucha). Noes, none. Excused, none.

SCRep. 502 (Joint) Health and Commerce and Consumer Protection on S.B. No. 1372

The purpose and intent of this measure is to:

- (1) Create a cultivation facility license that allows cultivators to grow cannabis for sale to licensed dispensaries; and
- (2) Establish requirements for license applications and qualifications for license holders.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Taxation; Department of Health; Department of the Attorney General; Big Island Grown Dispensaries; Green Aloha, Ltd.; Hawai'i Cannabis Industry Association; and Akamai Cannabis Clinic.

Your Committees find that currently, only holders of medical cannabis dispensary licenses may legally cultivate and sell medical cannabis in retail locations. Your Committees further find that allowing residents, farmers, and families to grow cannabis for retail would provide a positive social and economic impact across the State and creates better access to safe, regulated products for qualified patients. This measure creates a cultivation license that allows cultivators to grow cannabis for sale to licensed dispensaries.

Your Committees heard the testimony of several stakeholders, who raised concerns that under the current language of the measure, cultivation licenses would be impossible for anyone to obtain other than large, well-financed corporations. Your Committees also heard the testimony of the Attorney General, which proposed amendments to improve the safety and regulation of cultivation licenses. Therefore, your Committees have amended this measure by:

- (1) Removing the prescribed number of cultivation licenses to be issued and allowing the Department of Health to issue cultivation licenses at its discretion, subject to certain conditions;
- (2) Limiting the number of cannabis plants allowed to be grown at one cultivation facility to one thousand plants;
- (3) Allowing one cultivation license to be issued per tax map key number;
- (4) Lowering the minimum asset requirement for cultivation licensees from \$500,000 to \$250,000;
- (5) Clarifying that cultivation licensees may only sell to licensed medical cannabis dispensaries;
- (6) Establishing requirements for cultivation facility operations, including required cannabis plant tracking and testing;
- (7) Making the cultivation licenses available after December 31, 2023;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1372, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 1372, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (Misalucha). Noes, none. Excused, none.

SCRep. 503 (Joint) Education and Energy, Economic Development, and Tourism on S.B. No. 516

The purpose and intent of this measure is to:

- (1) Require the State Board for Career and Technical Education to oversee and review annually statewide data collection processes and reporting requirements related to the student attainment of industry-recognized credentials;
- (2) Require certain agencies to collect and report disaggregated data on students' attainment of industry-recognized credentials;
- (3) Require certain agencies to pursue data-sharing agreements with credentialing entities; and
- (4) Require an annual report to the Governor and Legislature.

Your Committees received testimony in support of this measure from the Department of Education, Office of Hawaiian Affairs, Chamber of Commerce Hawaii, HawaiiKidsCAN, Hawaii'i P-20 Partnerships for Education, and four individuals. Your Committees received comments on this measure from the Department of the Attorney General and University of Hawaii'i Systems.

Your Committees find in the current job market, nearly sixty-five percent of available positions require postsecondary credentials. Industry-recognized credentials are important because they teach the specific knowledge and skills that are required for an occupation or industry. Full-time employees with industry credentials earn more than their uncredentialed counterparts, and, in some cases, the salaries of credential holders who do not hold college degrees are similar to the salaries of college graduates.

Your Committees also find that the State has critical shortages of qualified and credentialed workers in certain industries. Given the recent downturn in the State's economy and the rise in unemployment, it is especially important for Hawaii to equip its students for the existing job market. To this end, the Promising Credentials project, a collaborative effort aimed at using Hawaii labor market data and local employer insights to identify high-value industry credentials in the State, was launched. The information obtained will enable local career readiness programs to better tailor their offerings to Hawaii's job market and to deliver more effective services to both students and employers. However, there is a need for the data to be disaggregated by credential and to be consistently collected and reported by state agencies. This measure will ensure that student attainment data is collected for industry-recognized credentials.

Your Committees have amended this measure by:

- Specifying that the data shall include demographic information, which shall include the student's race; provided that native Hawaiian demographic data shall be disaggregated from other Pacific Islanders; and
- (2) Clarifying that all data collection and reporting activity shall be conducted in a manner consistent with applicable federal and state laws governing the privacy and confidentiality of the data.

As affirmed by the records of votes of the members of your Committees on Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 516, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 516, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 504 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 1341

The purpose and intent of this measure is to:

- (1) Transfer the Hawaii Green Infrastructure Authority from the Department of Business, Economic Development, and Tourism to the Hawaii State Energy Office; and
- (2) Clarify the purpose, duties, and responsibilities of the Hawaii State Energy Office and the Chief Energy Officer.

Your Committees received testimony in opposition to this measure from the Hawaii Green Infrastructure Authority and Hawaii State Energy Office.

Your Committees find that transferring the Hawaii Green Infrastructure Authority from the Department of Business, Economic Development, and Tourism to the Hawaii State Energy Office and clarifying the duties and responsibilities will help to stimulate the State's economic development and promote energy efficiency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1341 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3; Ayes with Reservations (Misalucha). Noes, none. Excused, 2 (Lee, Riviere).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 505 Higher Education on S.B. No. 589

The purpose and intent of this measure is to recognize and establish the University of Hawaii Cancer Center (UHCC) as an organized research unit within the administrative and management purview of the University of Hawaii John A. Burns School of Medicine (JABSOM).

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association. Your Committee received testimony in opposition to this measure from the University of Hawai'i System, Alana Dung Research Foundation, Hawaii Society of Clinical Oncology, and twenty-three individuals. Your Committee received comments on this measure from the American Cancer Society Cancer Action Network.

Your Committee finds that the genesis of this measure is the University's own efforts and presentations since 2014, including the report by University of Hawaii at Manoa, UHCC's proposed business plans, and the report submitted by consultants commissioned by the University, all proposing or recommending the consolidation of UHCC and JABSOM to enhance the efficiency and effectiveness of both units. Specifically, in December 2014, the new Interim Director of UHCC was charged to develop a new business plan for UHCC. In March 2015, the UHCC Interim Director proposed the framework for the Kakaako Campus Operations Business Plan, which introduced a cost reduction measure of integrating the Kakaako Health Science Campus operations to eliminate operational redundancies resulting from the separate operation of JABSOM and UHCC. In April 2015, Chancellor Robert Bley-Vroman presented a University of Hawaii at Manoa Report that summarized the University's internal work on a business plan proposal for UHCC and JABSOM at the Kakaako Campus. The report included plans to have UHCC administratively incorporated into JABSOM to improve the efficiency and effectiveness of both units. In releasing the report, Chancellor Bley-Vroman announced his intent to convene a group of external reviewers to assist the University in the identification of additional opportunities and development of procedures to create a thriving Kakaako Campus that serve the people of Hawaii. Your Committee notes that this never happened. In the Fall of 2015, the University commissioned consultants who, upon review, also recommended the consolidation of JABSOM and UHCC. In February 2016, an updated proposed UHCC Business Plan was proposed to the University of Hawaii Board of Regents. The proposal included a bridge business plan for the following five years to be implemented by the Director of UHCC, which included the consolidation of JABSOM and UHCC's administrative services. Your Committee finds that there is a need now more than ever to implement these plans and recommendations. This measure will ensure that the management of public resources provided to JABSOM and UHCC will be integrated, coordinated, and focused on common priorities to avoid unnecessary duplication of administrative expenses or conflicting priorities.

Your Committee acknowledges the concern raised in the testimonies that the integration of UHCC into JABSOM may jeopardize UHCC's NCI designation, which allows UHCC to apply for grants and recruit top scientists and oncologists. Your Committee finds that several outstanding medical schools at other universities integrate their cancer research programs closely with their medical schools. For example, the Washington University School of Medicine in St. Louis is the parent institution to the Siteman Cancer Center that is designated as a comprehensive cancer center that holds an "exceptional" rating from the NCI. The MD Anderson Cancer Center in Houston, Texas is also a comprehensive cancer center that operates in close affiliation with the McGovern Medical School as part of the University of Texas Health Science Center at Houston. Your Committee also acknowledges the testimony from the University of Hawaii System stating that that UHCC's existing structure of reporting to the Provost of the University of Hawaii at Manoa and working closely with the President of the University is an essential component of UHCC's NCI-designation.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 to reflect additional findings;
- (2) Requiring that the Director of UHCC be appointed by the University's Board of Regents upon recommendation from the Provost of the University of Hawaii at Manoa instead of the Dean of JABSOM;
- (3) Requiring that UHCC be administratively affiliated with JABSOM instead of being integrated into JABSOM;
- (4) Requiring that the Director of UHCC report to the Provost of the University of Hawaii at Manoa and the Dean of JABSOM and coordinate with the President of the University;
- (5) Requiring that funds expended from or originating from the Tuition and Fees Special Fund for JABSOM or UHCC to be used for educational purposes only;
- (6) Requiring that funds expended from or originating from the Research and Training Revolving Fund for JABSOM or UHCC to be used for research and research-related purposes only; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 589, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 589, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 506 Transportation on S.B. No. 287

The purpose and intent of this measure is to require the Department of Transportation and the counties to implement a Vision Zero program that aims to eliminate all traffic fatalities and serious injuries by the year 2030.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawai'i Public Health Institute, Hawaii Bicycling League, and two individuals.

Your Committee finds that traffic fatalities and serious injuries continue to be an area of concern for the Legislature. Sweden adopted a national Vision Zero policy in 1997 and by 2013 had achieved the lowest number of road accidents on record.

Your Committee further finds that existing statute directs the Department of Transportation and county transportation departments to adopt a Vision Zero policy, but no implementation date is specified. Therefore, to ensure a Vision Zero program is implemented in a timely manner, your Committee finds that this measure should amend existing statute to specify an implementation date and Vision Zero program goal date, and include reporting requirements to increase the accountability of the state and county transportation departments.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 286-7.5, relating to Vision Zero, rather than creating a new statutory section;
- (2) Establishing the goal of the Vision Zero program to eliminate all traffic fatalities and serious injuries in Hawaii by 2045; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 287, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 507 Transportation on S.B. No. 756

The purpose and intent of this measure is to:

- (1) Authorize each county to adopt ordinances to make reasonable efforts to maintain electric vehicle (EV) charging stations in working order;
- (2) Require that any new EV charging station be at least a level 2 charging station; and
- (3) Provide that parking enforcement officers may enter private property to enforce EV parking stall violations.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, one member of the Maui County Council, Hawaiian Electric Company, Ulupono Initiative, Hawaii Electric Vehicle Association, Kauai Electric Vehicle Association, Tesla, Blue Planet Foundation, and five individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committee finds that the global automobile market is transitioning to EVs. One obstacle to this transition is the lack of infrastructure needed to charge the influx of EVs. As more EVs and hybrid vehicles are brought into the State, it is of utmost importance to maintain a robust network of EV charging stations that are in good working order and repair. This measure will allow counties to adopt ordinances to effectuate that end.

Your Committee has amended this measure by:

- (1) Requiring owners of parking structures and lots with one hundred or more parking stalls to provide at least five parking stalls exclusively equipped with EV charging systems by 2025;
- Requiring owners of parking structures and lots with one hundred or more parking stalls to provide at least ten parking stalls
 exclusively equipped with EV charging systems by 2030;
- (3) Providing that owners of parking structures or lots may charge a reasonable fee for the use of EV charging stations; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 756, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 508 (Joint) Transportation and Energy, Economic Development, and Tourism on S.B. No. 920

The purpose and intent of this measure is to transition one hundred percent of the State's light-duty motor vehicles to zero emissions vehicles by December 31, 2030.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Department of Accounting and General Services, Department of Transportation, 350Hawaii, Mission Zero Hawaii, KauaiEV, Hawaii EV Association, Ulupono Initiative, Hawaiian Electric Company, Blue Planet Foundation, Alliance for Automotive Innovation, and four individuals. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that the use of fossil fuels is the State's primary contributor to greenhouse gas emissions. These emissions cause climate change which poses a threat to the State's economic well-being, public health, infrastructure, and the environment. This measure will set a goal for the State to lead by example and transition one hundred percent of its light-duty motor vehicles to zero emission vehicles by December 31, 2030.

Your Committees note that in addition to the transition to a one hundred percent zero emissions state fleet, your Committees hope that this measure will allow for a streamlining of any redundancies in the state vehicle fleet.

Your Committees have amended this measure by:

- (1) Adding the definition of "plug-in hybrid electric vehicle"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 920, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 920, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 509 Transportation on S.B. No. 1403

The purpose and intent of this measure is to require commercial helicopter owners and operators to retain and make available records containing basic helicopter flight information.

Your Committee received testimony in support of this measure from the Office of United States Congressman Ed Case and thirty-eight individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Transportation, Department of Land and Natural Resources, Blue Hawaiian Helicopters, and two individuals.

Your Committee finds that there are multiple commercial helicopter flights over and around the State every day. These helicopter flights create noise pollution and the possibility of crashes. There have been at least eighteen civilian helicopter crashes in the State since 2015. This measure will require commercial helicopter owners and operators to record basic flight information so that stakeholders and community members can effectively work towards addressing the concerns of local residents and interested parties.

Your Committee has amended this measure by:

- (1) Requiring the commercial flight reports to be submitted monthly to the Department of Transportation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1403, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 510 Transportation on S.B. No. 155

The purpose and intent of this measure is to:

- (1) Adopt uniform standards for peer-to-peer car sharing; and
- (2) Establish the peer-to-peer car sharing surcharge tax.

Your Committee received testimony in support of this measure from the Department of Transportation, Internet Association, Technet California and the Southwest, Enterprise Holdings, and Turo Inc. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice and one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Commerce and Consumer Affairs Insurance Division, Department of Commerce and Consumer Affairs Office of Consumer Protection, Tax Foundation of Hawaii, and Grassroots Institute of Hawaii.

Your Committee finds that peer-to-peer car sharing is a vital, yet nascent, industry in the State. Due to its growing popularity, residents who participate in peer-to-peer car sharing services need to have uniform protections and safety standards. Your Committee further finds that rental motor vehicle surcharge revenues deposited into the State Highway Fund amounted to \$58,000,000 in 2019, which was twenty percent of the total revenues. As such, the rental vehicle surcharge tax is a major source of revenue for the State Highway Fund and is vital for the continued operation, maintenance, and construction of the state highway system. This measure will provide uniform standards for peer-to-peer car sharing services and will also help to preserve revenues deposited into the State Highway Fund.

Your Committee also finds that further discussion of automobile manufacturer recall requirements may be warranted by the appropriate committee as this measure proceeds.

Your Committee has amended this measure by:

- (1) Requiring peer-to-peer car-sharing programs to provide primary insurance coverage for each shared vehicle at similar levels of insurance as required for a transportation network company;
- (2) Removing language relating to exemptions for vicarious liability;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 155, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 511 Transportation on S.B. No. 251

The purpose and intent of this measure is to make permanent the motor vehicle insurance requirements for transportation network companies and drivers by repealing the sunset provision of Act 236, Session Laws of Hawaii 2016 (Act 236).

Your Committee received testimony in support of this measure from Hawaii Insurers Council, American Property Casualty Insurance Association, Hawaii Transportation Association, and Uber Technologies.

Your Committee finds that in 2016 the Legislature passed Act 236 that established insurance requirements for transportation network companies to protect their drivers and passengers. This was necessary as most personal insurance policies carried by drivers do not provide coverage for this type of commercial activity. This measure will remove the sunset provision of Act 236 and make the insurance requirements for transportation network companies and drivers permanent.

Your Committee further finds that there is no statewide regulation of transportation network companies. Such regulation is necessary to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network companies and to ensure access to transportation options for residents and visitors.

Accordingly, your Committee has amended this measure by:

- (1) Adding the contents of S.B. No. 770, Regular Session of 2021, a substantially similar measure which establishes requirements and permitting procedures for transportation network companies operating in the State, with the exception of certain provisions that may have conflicted with the federal Employee Retirement Income Security Act;
- (2) Inserting a new section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 251, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 512 (Joint) Human Services and Health on S.B. No. 199

The purpose and intent of this measure is to better serve Hawaii's mentally ill population by mandating appointment of a guardian ad litem to represent the best interest of a mentally ill individual in assistant community treatment (ACT).

Your Committees received testimony in support of this measure from Bay Clinic; Huli Au Ola, Maui County Area Health Education Center; Hawaii Substance Abuse Coalition; The Institute for Human Services, Inc.; St. Elizabeth's Church; Ohana Health Plan; Habitat for Humanity Hawaii Island, Inc.; St. Michael the Archangel Parish; Community Alliance Partners; BRE Hotels & Resorts; and twelve individuals. Your Committees received comments on this measure from the Judiciary, Department of the Attorney General, Office of the Public Defender, Department of Health, and Hawaii Disability Rights Center.

Your Committees find that mentally ill individuals are not adequately represented at ACT or MH-1 proceedings. Your Committees also find that by requiring the appointment of a guardian ad litem for subjects of ACT and MH-1 proceedings, and by eliminating the requirement that the subject of a petition be present at the hearing (provided that the subject has been served with the petition and the subject's guardian ad litem is present), these individuals will be better represented during these proceedings.

Your Committees have amended this measure by:

- Adding applications for emergency examination and hospitalization (MH-1) to be included in the proceedings covered by this
 measure requiring the appointment of a guardian ad litem;
- (2) Inserting an effective date of May 1, 2029, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 199, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 199, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 513 Human Services on S.B. No. 913

The purpose and intent of this measure is to promote electronics stewardship and reduce electronic waste in the State, by:

- (1) Requiring all persons who receive state financial assistance to donate unnecessary, but functioning, electronic devices, hardware, and televisions to nonprofit organizations that will refurbish and distribute them to eligible persons in the State;
- Setting reporting requirements for donating entities, nonprofit refurbishers, and the department of accounting and general services; and
- (3) Establishing penalties for violations.

Your Committee received testimony in support of this measure from Hawaiian Hope Org, Zero Waste O'ahu, and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Business Regulation Division; Department of Education, Department of Accounting and General Services, and one individual.

Your Committee finds that use of electronic devices has grown substantially over the past two decades, and according to the United States Environmental Protection Agency, Americans have generated approximately three million tons of waste in consumer electronics goods per year during the last decade. Your Committee also finds that donating used, but still functioning electronic devices for reuse extends the lives of valuable products and keeps them out of the waste stream for a longer duration of time. Recycling of electronic devices prevents valuable materials from going into the waste stream, which is preferable to any waste management option. Accordingly, this measure establishes a sustainable electronics program that provides a means for used electronic devices to be restored, so recipients such as schools, nonprofit organizations, and lower-income families may obtain equipment that they otherwise could not afford

Your Committee has amended this measure by:

- (1) Inserting blank amounts for all dates, penalties, and violations;
- Limiting the sustainable electronics program to entities in counties with a population greater than seven hundred and fifty thousand;
- (3) Allowing covered entities to remove all data storage devices prior to transferring the covered device to any covered refurbisher:
- (4) Limiting all penalties to administrative penalties;
- (5) Removing a judicial remedy under this program;
- (6) Limiting the price paid by a covered refurbisher for any refurbished device to no more than \$50;
- (7) Exempting enterprise hardware from the \$50 cap;
- (8) Requiring the Department of Accounting and General Services to notify all covered entities of their new responsibilities;
- (9) Requiring any covered entity to remove all material from the covered device that may be deemed inappropriate for individuals under the age of eighteen, in a way that does not compromise the integrity of the device or render the device unusable;
- (10) Inserting an effective date of May 1, 2029, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 913, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 913, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 514 Judiciary on S.B. No. 1039

The purpose and intent of this measure is to make appropriations to satisfy claims against the State, its officers, and its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Transportation, and State Public Charter School Commission.

Your Committee finds that, based on the testimony submitted by the Department of the Attorney General, this measure requests a total of \$741,577.62 in appropriations from the general fund, to be paid from the respective department's fiscal year 2020-2021 budget, to satisfy twenty-one various claims against the State and a total of \$995,000 in an appropriation from the state highway fund to satisfy one claim against the State. The grand total for the twenty-two claims settled in this measure as received by your Committee is \$1,736,577.62. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee notes that it considered the question of whether, as an administrative matter, claims against departments should be paid out of department funds or the general fund of the State; specifically, whether the Charter School Commission can pay the balance of claims against the Commission, or whether it is constrained by limitations on how it can expend monies in its budget. Your Committee further notes that it considered the question of the appropriate fiscal year for which appropriations for claims against the State should be made. Your Committee finds that these considerations may merit further consideration as this measure proceeds in the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1039 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 515 Labor, Culture and the Arts on S.B. No. 670

The purpose and intent of this measure is to set specific requirements that must be satisfied for a minor to work in theatrical employment. Specifically, this measure:

- (1) Requires the employer of the minor to procure and keep on file a valid certificate of employment;
- (2) Requires the minor to be accompanied by two persons a parent or guardian and a studio teacher or nurse;
- (3) Requires a nurse certified in basic life support to accompany, supervise, and advocate on behalf of the minor on set to ensure the employer's compliance with applicable law when the minor is under the age of one year;
- (4) Requires for a minor who has attained the age of five years but not eighteen years is on set and the minor is required to attend school that:
 - (A) The work be performed during periods when the minor is not legally required to attend school or when the minor is excused by school authorities from attending school; and
 - (B) A studio teacher accompany and supervise the minor to ensure the employer's compliance with applicable law; and
- (5) Prohibits a studio teacher from supervising more than ten minors when one or more minors are on set under a work hour variance granted by the Director of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State Teachers Association; Hawaii Iron Workers' Stabilization Fund; I.A.T.S.E. Local 665; Motion Picture Association, Inc.; Pride at Work Hawai'i; Screen Actors Guild – American Federation of Television and Radio Artists; and four individuals.

Your Committee finds that existing law does not require a registered nurse, advanced practice registered nurse, or studio teacher to be present on set when minors are engaged in theatrical employment. Your Committee recognizes that a majority of the theatrical employment certificates issued by Department of Labor and Industrial Relations are for television or motion picture productions which can last for several hours a day or several months out of the year. This measure recognizes the importance of ensuring safe working conditions for children, as well as ensuring that their educational opportunities are protected while working on these types of productions.

Your Committee, based on the concerns raised in the testimonies submitted, finds that certain amendments to this measure are required to clarify the specific ages of minors subject to the theatrical employment provisions and circumstances under which they apply.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the subsection on theatrical employment provided in this measure applies to the employment of minors under the age of sixteen;
- (2) Eliminating the requirement that all minors be accompanied by two persons, a parent or guardian and a studio teacher or nurse, and instead requiring that the minor be accompanied by a parent, guardian, or a responsible adult designated by the parent or guardian to supervise and advocate on behalf of the minor;
- (3) Requiring that the nurse who is required to accompany a minor who is under the age of one year be hired by the employer;
- (4) Clarifying that a studio teacher is required to accompany, teach, and attend to the health, safety, and well-being of a minor who has attained the age of five years when the minor is performing work during periods when the minor is legally required to attend school but was excused by school authorities from attending;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussions; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 670, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 670, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 516 Labor, Culture and the Arts on S.B. No. 912

The purpose and intent of this measure is to:

- Authorize a court to order the forfeiture of one-half of the Employees' Retirement System (ERS) benefits of an ERS member, former member, or retirant upon conviction of the individual for a felony related to the state or county employment of the individual; and
- (2) Authorize designated beneficiaries to receive one-half of the ERS benefits to which the beneficiaries would otherwise be entitled upon the death of the ERS member, former member, or retirant convicted of the felony.

Your Committee received testimony in support of this measure from Common Cause Hawaii and seven individuals. Your Committee received comments on this measure from the ERS.

Your Committee finds that Hawaii is one of thirteen states, including the District of Columbia, that does not have any law that governs the forfeiture of public pensions for public employees who are convicted of a felony. Your Committee believes that imposing a civil penalty against a public employee who commits a felony by misusing the individual's position of authority in government is justified. Your Committee also believes that beneficiaries who were convicted of a felony based on the same set of circumstances as the member, former member, or retirant who was subject to forfeiture of their retirement benefits, should not be allowed to receive ERS benefits.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that upon the death of the convicted ERS member, former member, or retirant, the designated beneficiary shall receive the reduced benefits to which the member, former member, or retirant would be entitled;
- (2) Prohibiting the receipt of ERS benefits by designated beneficiaries who have been convicted of a felony based on the same set of circumstances as the member, former member, or retirant, who was ordered to forfeit their ERS benefits under this measure;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 912, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 517 (Joint) Housing and Government Operations on S.B. No. 725

The purpose and intent of this measure is to add the definition of "housing" to include all potential properties that could be developed by the Hawaii Public Housing Authority.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that concentrating public housing projects solely for low-income families in dense urban areas is not an effective use of the scarce resources available to the Hawaii Public Housing Authority. Recently, the U.S. Department of Housing and Urban Development (HUD) has led this new paradigm as they now strive to create financially viable and socially stable mixed-income housing projects. This measure will allow the Hawaii Public Housing Authority to follow HUD's lead and create vibrant communities for residents.

Your Committees note that, should this measure move forward, the Hawaii Public Housing Authority's statutory mission to provide affordable housing will not change as a result of this measure. Your Committees also note that ninety-nine years is the minimum length of time necessary to guarantee that a buyer will never have to move before they die, that ninety-nine years is the lease term for Department of Hawaiian Home Lands residences, and that the Office of Hawaiian Affairs cannot rule out developing market-rate housing for non-Hawaiians on their parcels at Kakaako Makai. Finally, your Committees recognize that "home ownership on as widespread a basis as possible" is one of the statutory purposes of the public land trust under the Admission Act.

Your Committees respectfully request that future committees that have this measure consider:

- (1) Adding language to provide a mechanism to recognize and protect native Hawaiian claims to ceded lands which may become subject to the broad leasing authority of the Hawaii Public Housing Authority; and
- (2) Adding language to clarify the obligations of the Hawaii Public Housing Authority under the public land trust and the Hawaiian Homes Commission Act.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 725 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 518 (Joint) Housing and Education on S.B. No. 804

The purpose and intent of this measure is to:

- Authorize the Hawaii Public Housing Authority (HPHA) and Hawaii Housing Finance and Development Corporation to
 provide affordable rental housing projects for teachers employed by the Department of Education (DOE) and public charter
 schools;
- (2) Permit a project owner to lease teacher housing to eligible non-teachers if occupancy falls below ninety-five percent; and
- (3) Appropriate funds to HPHA and the Dwelling Unit Revolving Fund.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Public Housing Authority, Hawaii Housing Finance and Development Corporation, Department of Education, and one individual. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Hawaii Government Employees Association.

Your Committees find that there is a severe shortage of qualified teachers in the State. Each year the DOE has to fill approximately one thousand two hundred teaching positions. The difficulty in retaining teachers is inexorably tied to the ongoing housing crisis. The lack of affordable housing in the State has driven many to leave the State for cheaper locations on the mainland. The DOE employment report for the 2017-2018 school year reported that fifty-two percent of teachers who resigned cited "leaving Hawaii" as their primary reason for resigning. Providing financial incentives such as affordable housing for teachers is one way the DOE can better recruit and retain qualified teachers.

Your Committees note concern that the measure is silent with respect to a timeline for filling these units with non-teachers and, should this measure go forward, encourages discussion in the Committee on Ways and Means to address this point.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 804 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Rhoads).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 519 Housing on S.B. No. 1337

The purpose and intent of this measure is to allow counties to adopt an ordinance permitting individual blocks to increase the allowable housing density for their neighborhood.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from Grassroot Institute of Hawaii.

Your Committee finds that there is a severe shortage of affordable housing in Hawaii. A recent study by the Department of Business, Economic Development, and Tourism found that Hawaii is not producing enough new housing to meet the anticipated demand through the year 2025. This measure will allow counties to oversee and local neighborhoods to make block-level decisions regarding housing density. It will empower communities to help solve the housing crisis without requiring intervention at the state level.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1337 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 520 Housing on S.B. No. 33

The purpose and intent of this measure is to:

- (1) Require each county to prepare a housing supply plan to meet the State's housing demands;
- (2) Require the county housing supply plans to be submitted to the Legislature; and
- (3) Appropriate funds for the counties to conduct the required studies to prepare the housing supply plans.

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce, Faith Action for Community Equity, and two individuals.

Your Committee finds that there is a severe shortage of affordable housing in Hawaii that exists across all counties. A recent study by the Department of Business, Economic Development, and Tourism found that Hawaii is not producing enough new housing to meet the anticipated demand through the year 2025. This measure will require all counties to be proactive in planning for new housing in order to meet this anticipated demand.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 33 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki, Fevella). Noes, none. Excused, none.

SCRep. 521 Housing on S.B. No. 1276

The purpose and intent of this measure is to require each county to adopt ordinances authorizing detached dwelling units that meet certain minimum standards.

Your Committee received comments on this measure from Grassroots Institute of Hawaii and HI Good Neighbor.

Your Committee finds that the State has a housing crisis. A recent study by the Department of Business, Economic Development, and Tourism found that the State will need more than fifty thousand new homes by 2025. Consequently, the State needs to be proactive in addressing the housing crisis and search for new and creative ways to provide more housing for residents. This measure will allow new types of homes, such as tiny homes, to be built as well as streamline the process for required approvals.

Your Committee has amended this measure by adding language clarifying that a county shall not deny issuance of a building permit where a dwelling unit meets the strict criteria outlined in this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1276, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 522 Housing on S.B. No. 1061

The purpose and intent of this measure is to repeal the Down Payment Loan Assistance Program and the Homebuyers' Club Program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Department of Business, Economic Development, and Tourism.

Your Committee finds that the Down Payment Loan Assistance Program, established in 1995, and the Homebuyers' Club Program, established in 1993, are old, obsolete, and not cost-effective. Moreover, these programs are not necessary since there are other programs that accomplish the same goals and are being successfully operated by non-profit entities and financial institutions. This measure repeals both programs.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1061 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 523 Housing on S.B. No. 4

The purpose and intent of this measure is to:

- (1) Prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to certain buyers; and
- (2) Require each county to submit a report on inclusionary zoning requirements to the Legislature every year until the Regular Session of 2026

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce, Faith Action Housing NOW!, and two individuals.

Your Committee finds that inclusionary zoning, which requires developers to sell housing units at below-market rates to low-income households, acts as a tax on developers because it reduces their revenues. A 2010 study by the University of Hawaii analyzed inclusionary zoning policies around the United States and found that inclusionary zoning policies overwhelmingly resulted in both increased market price of housing and decreased housing units available. This measure will help Hawaii families by exempting them from inclusionary zoning policies provided that the housing buyer is a Hawaii resident who will occupy the unit and does not own any other real property.

Your Committee has amended this measure by:

- (1) Removing the repeal date; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 4, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 524 Housing on S.B. No. 779

The purpose and intent of this measure is to:

- (1) Require each county to authorize construction for a specified number of new housing units; and
- (2) Reduce the amount of transient accommodation tax revenue the counties receive if they fail to meet the authorized housing requirements.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that Hawaii has a housing crisis. A recent study by the Department of Business, Economic Development, and Tourism found that the State will require more than fifty thousand additional new homes by the year 2025. And while this forecast projects an acute housing shortage, there has been a lack of measurable progress at the county level to enact policies that will stimulate housing production to meet project demand. This measure will require each county to annually authorize the construction of ten percent of the forecasted demand by 2025, thus creating more housing for the residents of the State.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 525 Housing on S.B. No. 840

The purpose and intent of this measure is to require developers of housing projects that are exempt from certain laws to enter into profit-sharing agreements with the tenants of those properties.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State is experiencing a housing crisis. A recent study by the Department of Business, Economic Development, and Tourism found that Hawaii will need more than fifty thousand new homes by the year 2025. High demand and low supply of housing has resulted in housing prices that are simply too expensive for most local families. Your Committee believes that requiring developers who use state incentives to share a portion of their profits with affordable housing tenants will enable local families to save for a home of their own.

Your Committee has amended this measure by limiting the provisions of this measure to apply prospectively and only to projects that are approved after the effective date.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 840, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 840, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 526 Housing on S.B. No. 39

The purpose and intent of this measure is to remove the limit on the types of eligible costs for exemption from general excise tax for the development of affordable rental housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Kohala Coast Resort Association, Hawaii Regional Council of Carpenters, Schatz Collaborative, and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that there is a severe shortage of affordable housing in Hawaii. A recent study by the Department of Business, Economic Development, and Tourism found that Hawaii is not producing enough new housing to meet the anticipated demand through the year 2025. By removing the limits on general excise tax exemptions with respect to qualifying costs and restrictions on the receipt of certain governmental funding, this measure will encourage developers and construction companies to build more affordable housing across the State. Your Committee also notes the testimony of the Hawaii Regional Council of Carpenters as well as Schatz Collaborative that language of section 104-2(i)(3), Hawaii Revised Statutes, might prevent developers from taking advantage of county-level incentives like the City and County of Honolulu's Ordinance No. 18-01, which provides real property tax exemptions and waivers pertaining to certain affordable housing projects. By removing that section from the Hawaii Revised Statutes, developers may be able to make affordable housing projects more financially feasible.

Accordingly, your Committee has amended this measure by repealing section 104-2(i)(3), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 39, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 39, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 527 Housing on S.B. No. 871

The purpose and intent of this measure is to:

- (1) Lower the conveyance tax rates for properties with a value under \$2,000,000;
- (2) Increase the conveyance tax rate for investment property; and
- (3) Require an unspecified amout of the conveyance tax to be deposited into the Housing Finance Revolving Fund.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS, NAIOP, Rental By Owner Awareness Association, and one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Budget and Finance, Department of Taxation, Tax Foundation of Hawaii, and Grassroots Institute of Hawaii.

Your Committee finds that housing costs in Hawaii are among the highest in the nation. First time home buyers find it especially difficult to afford even modest accommodations while wealthy investors from around the world continue to purchase additional homes in the State. This measure will help residents afford to buy a home by lowering the conveyance tax rates on properties with a value of less than \$2,000,000 while increasing the conveyance tax rates for investment properties.

Your Committee has amended this measure by:

- (1) Exempting the transfer of real property for affordable housing development from the increased conveyance tax rate;
- (2) Exempting rental housing used by local residents who occupy the unit as their primary residence from the increase conveyance tax rate:
- (3) Specifying that only conveyance tax revenues above the current general fund deposits can be deposited into the Housing Finance Revolving Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 871, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 871, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 528 Housing on S.B. No. 1278

The purpose and intent of this measure is to allow the counties to adopt rules for the construction of fourplex dwelling units on lots where single-family dwelling units are permitted in any county with a population of twenty-five thousand or more or within an urban area.

Your Committee received testimony in opposition to this measure from HI Good Neighbor. Your Committee received comments on this measure from Grassroots Institute of Hawaii.

Your Committee finds that the State has a housing crisis. A recent study by the Department of Business, Economic Development, and Tourism found that Hawaii will need more than fifty thousand new homes by 2025. The State cannot simply wait for the free market to develop new home projects. Instead, the State must be proactive and look for creative ways to provide housing for its people. This measure will give counties the opportunity to permit the construction of more houses.

Your Committee has amended this measure by removing a provision that would have prevented the State or the counties from prohibiting any construction of fourplexes.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1278, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads, Fevella). Noes, none. Excused, none.

SCRep. 529 Housing on S.B. No. 302

The purpose and intent of this measure is to:

- (1) Adjust the eligibility requirements under the income tax credit for low-income household renters; and
- (2) Increase the amount of the tax credit by creating tax brackets that will phase out the credit as the taxpayer's income rises.

Your Committee received testimony in support of this measure from the League of Women Voters, Americans for Democratic Action, IMUA Alliance, and Hawaii Appleseed Center for Law & Economic Justice. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the State has made tax credits available to assist eligible renters since 1977 and that this tax credit is the third most commonly used credit among residents. However, the income eligibility threshold has not been adjusted since 1989 and the amount of the credit was last adjusted in 1981. Meanwhile, the cost of housing has increased by approximately three hundred ninety percent during that same time. This measure will adjust the eligibility requirements under the income tax credit for low-income household renters and increase the amount of the tax credit.

Your Committee has amended this measure by:

- Clarifying that the federal definition of "adjusted gross income" applies to the calculation of the low-income household renters credit;
- (2) Changing the inflation adjustments to occur every 3 years instead of annually; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 530 Housing on S.B. No. 1280

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for construction of phase I of a senior living affordable housing project by the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Hawai'i Health & Harm Reduction Center, AlohaCare, Partners in Care, and Catholic Charities Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State has a housing crisis. The high cost of housing in particular affects senior citizens who often live on fixed incomes. This is particularly worrisome as the age group of those sixty-five years and older is growing at an annual rate of 3.6 percent while the total annual population growth for the entire State is just 0.5 percent. The State needs to take action to help elderly citizens with affordable housing. This measure will provide the funds necessary for an affordable senior living housing project.

Your Committee has amended this measure by:

- (1) Appropriating general obligation bond funds to the Rental Housing Revolving Fund for fiscal year 2022 only;
- (2) Inserting required language for the lapse of general obligation bonds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1280, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 531 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 263

The purpose and intent of this measure is to make an appropriation for an unspecified amount of funds for economic development.

Your Committees did not received testimony on this measure.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amends this measure by:

- Transferring oversight of the Made in Hawaii program as it to relates non-agricultural products to the Department of Business, Economic Development, and Tourism; and
- (2) Appropriating an unspecified amount of funds.

Your Committees received testimony in support of the proposed S.D. 1 from one individual. Your Committees received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism; Department of Agriculture; and Chamber of Commerce Hawaii.

Your Committees find that the Made in Hawaii program is an integral part of the State's economic development strategy and a valuable asset established to protect the integrity and value of authentic Hawaii-branded products.

Your Committees further find that it is important to distinguish between products manufactured in Hawaii from agricultural products made or grown in Hawaii. In doing so, your Committees believe that the Department of Business, Economic Development, and Tourism is well-suited to administer and oversee the Made in Hawaii program based on its resources and means to promote these products in Hawaii and elsewhere allowing small businesses to expand, create job growth, and infuse the State's economy with external capital.

Your Committees also find that transferring the ownership of the Made in Hawaii with Aloha trademark to the Hawaii Technology Development Corporation, which is attached to the Department of Business, Economic Development, and Tourism, will help innovate and diversify Hawaii's economy.

Your Committees further find that it is important to provide oversight by the Department of Agriculture of the Grown in Hawaii program for agricultural products and those products manufactured with Hawaii grown inputs and percentages to prevent misleading labeling.

Accordingly, your Committees have amended this measure by:

- (1) Transferring ownership of the Made in Hawaii with Aloha trademark to the Hawaii Technology Development Corporation;
- Establishing oversight of the Grown in Hawaii program to the Department of Agriculture as it relates to agricultural products;
- (3) Appropriating \$150,000 for the administration of the Made in Hawaii program.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 263, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 263, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 532 Health on S.B. No. 827

The purpose and intent of this measure is to:

- (1) Increase the categories of women required to be covered for mammogram screenings;
- Require the existing health insurance mandate for coverage of low-dose mammography to include digital mammography and breast tomosynthesis;
- (3) Define "digital breast tomosynthesis"; and
- (4) Require healthcare providers to be reimbursed at rates accurately reflecting the resource costs specific to each service, including any increased resource cost after January 1, 2021.

Your Committee received testimony in support of this measure from Hawaii Medical Association, Hawaii Radiological Society, Hawaii Society of Clinical Oncology, Hawaii Primary Care Association, Planned Parenthood Votes Northwest and Hawaii, Hawaii Women Lawyers, Hawaii Pacific Health, Pacific Radiology Group, and eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, and Kaiser Permanente Hawaii.

Your Committee finds that the data is clear: annual mammographic screenings significantly reduce breast cancer deaths and morbidity and that effective screening programs are in the best interest of Hawaii's people. Moreover, your Committee finds that increasing mammographic screenings would be particularly beneficial in Hawaii because research shows that women of Asian ancestry in Hawaii are the ethnic group most likely to develop breast cancer before age fifty. Women in Hawaii between the ages of forty and forty-nine have a higher incidence of breast cancer compared to the U.S. national average. Additionally, native Hawaiian women have the greatest breast cancer incidence and mortality in Hawaii. Nationally, half of all fatal cancers are diagnosed in women before age fifty in the general population. This measure would improve the health and wellness of women in the State by increasing the categories of women required to be covered for mammogram screenings.

Your Committee recognizes the testimony of Kaiser Permanente Hawaii, which offered an amendment to clarify the measure. Your Committee heard the testimony of the Insurance Commissioner of the Department of Commerce and Consumer Affairs, who testified that because the measure does not include chapter 432D, Hawaii Revised Statutes, entities, i.e., health maintenance organizations, it will not apply to the Kaiser Foundation Health Plan. Your Committee finds, however, that the measure amends section 431:10A-116, Hawaii Revised Statutes. This section is included among those sections listed in section 432D-23, Hawaii Revised Statutes, which are benefits that must be included in each policy, contract, plan, or agreement issued in the State by health maintenance organizations. As such, through the amendments made to section 431:10A-116, this measure would apply to the Kaiser Foundation Health Plan.

Your Committee has amended this measure by:

- (1) Replacing the phrase "annual baseline mammogram" with "baseline mammogram";
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 827, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 533 (Joint/Majority) Health and Judiciary on S.B. No. 663

The purpose and intent of this measure is to enact an interstate compact to award prizes for the curing of diseases.

Your Committees received testimony in support of this measure from the Hawai'i Primary Care Association and one individual. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that by pooling the potential savings of as many states as possible to generate a sufficient financial incentive to develop cures for some of the world's most devastating diseases, the states will lessen their reliance on the prerogatives of the federal government and expedite medical breakthroughs. This measure will incentivize private organizations to research cures, treatments, and therapies for diseases for which there is little knowledge and for which private organizations have no incentive to research.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 663, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 663, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Baker).

Judiciary: Ayes, 6; Ayes with Reservations (Kim, Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 534 (Joint) Education and Agriculture and Environment on S.B. No. 1311

The purpose and intent of this measure is to:

(1) Require the Department of Education to establish food waste and zero-emission vehicle goals as part of the sustainable schools initiative; and

(2) Require annual reports to the Legislature.

Your Committees received testimony in support of this measure from the Hawai'i Public Health Institute, Ulupono Initiative, Americans for Democratic Action, Take Flight, Climate Protectors Hawaii, Hawaii Electric Vehicle Association, and seven individuals. Your Committees received comments on this measure from the Department of Education and Hawaii State Energy Office.

Your Committees find that food in public schools is wasted each day, costing the Department of Education millions of dollars each year. Safely sharing unused food that would otherwise be wasted with those who need it and implementing on-site campus composting programs that students can be involved with will help divert food waste from landfills, save potentially millions of dollars annually, provide students with valuable and engaging learning experiences, and give farmers and communities fresh carbon-sequestering compost. Additionally, your Committees find that providing access to healthy plant-based foods in state public schools is an effective way to improve sustainability and student health.

Your Committees also find that traditional internal combustion school bus engines emit exhaust, which children breathe in while riding buses and sitting in traffic, and can increase asthma and other health problems. In contrast, electric school buses provide potential benefits to the quality of student health, the environment, utility infrastructure, and cost savings. Additionally, electric buses have lower operational, maintenance, and labor costs than comparable buses powered by internal combustion engines and align with Hawaii's established goals of achieving a carbon-negative economy by 2045. This measure will engage students in sustainable living through learning about food waste management and provide students with zero emission transportation in the future.

Your Committees note that because the Department of Education contracts the majority of transportation services through private companies, the Department of Education will be somewhat constrained in the speed at which they can meet zero emissions goals. The Department of Education must balance the mandate to provide transportation services to students with the goals contained within this measure. Your Committees understand that this balancing effort may require amendments down the line based on the capacity for the Department of Education and their private contractors to replace existing internal combustion engine fleets and looks forward to the annual reports from the Department of Education to the Legislature.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1311, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1311, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 535 Water and Land on S.B. No. 1162

The purpose and intent of this measure is to clarify conditions that must be met by applicants to receive funds under the Forest Stewardship Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that over sixty percent of Hawaii's forested areas are privately owned and managed. The Forest Stewardship Program provides technical and financial assistance to private landowners in protecting, restoring, and managing Hawaii's forested lands, which in turn helps protect watersheds, forest resources, forest products, fish and wildlife habitats, rare and endangered plants, and native vegetation. This measure modifies qualification requirements to increase program eligibility for private forest managers, increases funds available for the management of private forests, and provides protections for native vegetation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1162, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 536 (Joint) Water and Land and Agriculture and Environment on S.B. No. 1168

The purpose and intent of this measure is to amend and extend existing pasture leases and issue new pasture leases by negotiation, to further protect and enhance the State's pasture lands.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Environmental Caucus of the Democratic Party of Hawai'i, Conservation Council for Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and Ulupono Initiative.

Your Committees find that this measure is intended to address the concerns of the lessees of many large acreages of land, primarily farmers and ranchers, who were notified that the lands they lease would be transferred to the Department of Agriculture pursuant to Act 90, Session Laws of Hawaii 2003.

Your Committees have amended this measure by:

- (1) Inserting language requiring lease rents for pastoral and agricultural leases to be determined based on agricultural use value;
- (2) Inserting language to allow the Department of Land and Natural Resources to alter or convert the existing use of the productive agricultural land transferred under certain circumstances; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1168, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1168, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 5. Noes, none. Excused, none. Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 537 (Majority) Water and Land on S.B. No. 1176

The purpose and intent of this measure is to:

- (1) Clarify that any police officer or agent of the Department of Land and Natural Resources (DLNR) upon whom the Board of Land and Natural Resources (Board) has conferred police powers may, upon reasonable belief, in the performance of their primary duties, inspect certain items for compliance with protection and conservation of natural resources regulations; and
- (2) Establish penalties for refusal to comply with inspection requests made by any police officer or agent of DLNR upon whom the Board has conferred police powers.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, Kua'āina Ulu 'Auamo, Moana Ohana, and four individuals. Your Committee received testimony in opposition to this measure from Coral Fish Hawaii, Big Island Fisheries Alliance, and seven individuals. Your Committee received comments on this measure from the Department of the Attorney General, Office of Hawaiian Affairs, and Hui Maka'ainana O Makana.

Your Committee finds that although consent to inspection is a condition for granting a game mammal hunting license in public hunting areas, because unlicensed hunters have not given prior consent to inspection, voluntary compliance must be given to inspect their bags for any illegal taking of wildlife, game, or other natural resources. Your Committee further finds that there is no consent to inspection requirement for non-commercial marine fishing licenses. By lowering the standard for these inspections from upon probable cause to upon reasonable belief, this measure will provide DLNR with adequate authority to conduct field inspections for compliance with rules and regulations concerning the taking of natural and cultural resources. Your Committee also finds that this measure clarifies the general conditions under which these inspections would occur. According to testimony received by your Committee, not only is the context, manner, and scope of this administration measure meant to be limited to a civil prosecution and penalty, but its enforcement is limited to its use by DLNR's Conservation and Resources Enforcement Officers in situations related to hunting and fishing activities.

According to testimony received by your Committee, DLNR has accepted the Department of the Attorney General's offer to train Conservation and Resources Enforcement Officers on the proper application of the provisions of this amended measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the proposed inspection authority applies to the Conservation and Resources Enforcement Officers of the DLNR upon whom the Board has conferred police powers;
- (2) Narrowing the scope of the authority to apply to illegal takings of natural resources related to hunting and fishing activities;
- (3) Prohibiting the inspecting officer from inspecting clothing and receptacles or containers that could not be reasonably used to carry game or aquatic life;
- (4) Outlining the conditions under which the brief inspection shall be conducted;
- (5) Removing language that referenced criminal prosecution and penalties;
- (6) Amending the administrative penalties to mirror the administrative penalties for violations relating to aquatic resources under section 187A-12.5, Hawaii Revised Statutes;
- (7) Inserting a purpose section to reflect the measure's amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1176, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1176, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 538 Transportation on S.B. No. 112

The purpose and intent of this measure is to amend the law relating to transportation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that makes flying or facilitating flying without a pilot license a misdemeanor.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112, as amended herein, and recommends that it be recommitted to your Committee on Transportation, in the form attached hereto as S.B. No. 112, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 539 Transportation on S.B. No. 1213

The purpose and intent of this measure is to repeal the following sections of the Hawaii Revised Statutes:

- (1) Section 264-19, Hawaii Revised Statutes, relating to the transportation improvement special fund;
- (2) Section 266-2.3, Hawaii Revised Statutes, relating to Kewalo Basin and Honolulu Harbor use permits; and
- (3) Section 266-22, Hawaii Revised Statutes, relating to the maintenance of a fire boat.

Your Committee received testimony in support of this measure from the Department of Transportation and Department of Transportation Harbors Division.

Your Committee finds that the Hawaii Revised Statutes sections being repealed by this measure are obsolete or unnecessary. There are no funds remaining in the transportation improvement special fund and all improvements have been completed. Therefore, section 264-19, Hawaii Revised Statutes, is obsolete. Additionally, Kewalo Basin is managed by the Howard Hughes Corporation and is under the purview of the Hawaii Community Development Authority, not the Department of Transportation. Thus, the statute should reflect that shared permitting and expense items are wholly within the Hawaii Community Development Authority, making section 266-2.3, Hawaii Revised Statutes, unnecessary. Further, the Department of Transportation no longer owns any fire boat, which makes section 266-22, Hawaii Revised Statutes, out of date, obsolete, and unnecessary.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1213, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 540 Transportation on S.B. No. 152

The purpose and intent of this measure is to:

- (1) Amend the requirements for the restraint of child passengers; and
- (2) Increase certain fines for violations.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, County of Kauai Office of the Prosecuting Attorney, Honolulu Police Department, Keiki Injury Prevention Coalition, Kapi'olani Medical Center for Women & Children, and AAA Hawaii. Your Committee received comments on this measure from the Juvenile Products Manufacturers Association and Hawaii Association for Justice.

Your Committee finds that motor vehicle injuries are one of the leading causes of death among children. The best way to save lives and reduce injuries in the event of an automobile collision is to ensure the use of age and size appropriate car seats, booster seats, and seat belts. This measure will better protect children by placing them in a safer seating position within the vehicle and securely seated in an appropriate booster seat for an increased period of time.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 541 Transportation on S.B. No. 1210

The purpose and intent of this measure is to provide the Department of Transportation with greater authority over the motor carrier vehicle safety inspection program.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the current methods and procedures of the state motor vehicle safety inspection program are inefficient. However, any time a change needs to be made the Department of Transportation must go to the Legislature and request a statutory change. This measure will make the Department of Transportation much more efficient by empowering the Director of Transportation to be able to make administrative changes without the requirement of statutory amendments.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1210, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 542 Transportation on S.B. No. 1212

The purpose and intent of this measure is to:

- (1) Require resolution of an outstanding federal out-of-service order prior to registration renewals and initial registrations of motor carrier vehicles; and
- (2) Define "out-of-service order".

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation

Your Committee finds that the Department of Transportation's Motor Carrier Safety Assistance Program (MCSAP) is funded through a federal grant from the Federal Motor Carrier Safety Administration. Eligible activities of the MCSAP include commercial motor vehicle inspections and compliance reviews. The Performance Registration Information Systems Management (PRISM) is a federal program that identifies motor carriers that are under a federal out-of-service order because those motor carriers have not corrected safety deficiencies found in compliance review inspections. This measure will allow the State to be compliant with and qualify under PRISM, and thus continue to receive MCSAP funding.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1212, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 543 Transportation on S.B. No. 1216

The purpose and intent of this measure is to amend section 286-236, Hawaii Revised Statutes, to comply with title 49, Code of Federal Regulations, part 380 subpart F, which requires entry level driver training for certain applicants for a commercial driver's license or endorsement.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation Association. Your Committee received comments on this measure from one individual.

Your Committee finds that effective February 7, 2022, the Federal Motor Carrier Safety Administration (FMCSA) will require states to comply with federal entry-level driver training regulations for certain first-time commercial driver license applicants. Failure to comply with the federal mandate could result in millions of dollars being withheld from the State. This measure will amend the state statutes to comply with the federal requirements.

Your Committee recognizes the testimony of the Department of Transportation, noting that several housekeeping amendments are needed in order to clarify the measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a grandfather provision allowed by the FMCSA that exempts the holder of a valid commercial learner's permit or commercial driver's license that was obtained prior to February 7, 2022, from the entry-level driver training requirements;
- (2) Clarifying that the validity period of a commercial learner's permit begins on the date that the driver passes the general knowledge test or any required endorsement knowledge test, or from the date the permit is issued if a knowledge test is not required;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1216, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1216, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 544 Transportation on S.B. No. 1211

The purpose and intent of this measure is to repeal section 286-208, Hawaii Revised Statutes, which provides exemptions for vehicles used by farmers from the motor carrier safety law.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that existing state law is superseded by title 49 Code of Federal Regulations sections 390.5 and 390.39, both of which have been adopted by the State under chapter 19-141, Hawaii Administrative Rules. This measure will repeal this outdated statute. According to testimony received by your Committee, failure to enact this measure could disqualify Hawaii from receiving \$1,200,000 in federal Motor Carrier Safety Assistance Program funds annually. Although the Department of Transportation is currently working to establish new exemptions for farmers to continue their current practice of traversing through public highways to reach unconnected farmlands, your Committee notes that there are no existing exemptions nor administrative rules that would authorize farmers to use vehicles outside of the federal covered farm vehicles exemption. Your Committee believes that these issues merit further discussion and requests that your Committee on Judiciary further examine this concern, should this measure proceed.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1211, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (English, Inouye, Fevella). Noes, none. Excused, none.

SCRep. 545 Housing on S.B. No. 1

The purpose and intent of this measure is to:

- (1) Establish the ALOHA Homes Program to facilitate the creation of low-cost leasehold homes for sale to residents of the State on state-owned land near public transit stations;
- (2) Authorize Hawaii Housing Finance and Development Corporation to sell the leasehold interest in residential condominium units located on state lands for lease terms of ninety-nine years; and
- (3) Establish the ALOHA Homes Revolving Fund.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 amended this measure by:

- (1) Deleting the definition of "high density";
- (2) Making changes to reflect that ALOHA Homes projects endeavor to be revenue-neutral instead of requiring them to be so;
- (3) Removing a provision that required the Hawaii Housing Finance and Development Corporation to recoup all costs of ALOHA Homes projects;
- (4) Altering the pricing for median ALOHA Homes within an urban redevelopment site to ensure revenue neutrality for the State;
- (5) Eliminating income level and down payment requirements for qualification for median ALOHA Homes;
- (6) Deleting the requirement that ALOHA Home owners retain property for five years before selling, certain restrictions on transfers of ALOHA Homes, and the requirement that the Hawaii Housing Finance and Development Corporation purchase the home in the event the owner defaults on the mortgage;
- (7) Removing the requirement for Hawaii Housing Finance and Development Corporation to complete a pilot project; and
- (8) Amending the appropriation provision to include three full time equivalent positions for the ALOHA Homes Project.

Your Committee received testimony in support of the proposed S.D. 1 from the Trinity United Methodist Church, Catholic Charities Hawaii, Institute for Human Services, Hawaii Health & Harm Reduction Center, Faith Action for Community Equity, Church of the Crossroads, Partners In Care, and seventeen individuals. Your Committee received testimony in opposition to the proposed S.D. 1 from the Office of Hawaiian Affairs and one individual. Your Committee received comments on the proposed S.D. 1 from the Hawaii Housing Finance and Development Corporation, Department of Hawaiian Home Lands, Department of Education, and Department of the Attorney General.

Your Committee finds that the cost and lack of availability of housing is a significant concern to residents of the State. While the State has the tenth highest median wage nationally, living expenses are two-thirds higher than the rest of the nation, with the cost of housing being a major contributing factor. The Legislature needs to authorize more affordable housing projects to be built for the residents of the State. This measure will go a long way towards the goal of providing enough affordable housing for all of the residents of the State.

Your Committee notes that adopting the Office of Hawaiian Affairs' proposed amendments on ninety-nine-year leases, and income restrictions would actually hurt, not help, its intended beneficiaries. Ninety-nine years is the minimum amount of time necessary to give security that the initial buyer will never have to move before they die. It is easy to imagine young buyers outliving a shorter lease term, such as sixty-five years, and the Legislature's intent is to draw a clear line protecting the initial buyers, not secondary market buyers. This maximizes the chances of the units actually reverting back to the State, which the Office of Hawaiian Affairs wants. A

sixty-five-year lease necessarily implies contemplating lease extensions to accommodate those initial buyers. For these reasons, it is the intent of this committee and a tenet of this measure to provide a lease term of ninety-nine years for the leasehold interest of condominiums

Your Committee further notes that the purpose of this measure is to create a new model of mixed income housing available to all in which the wealthy and the indigent will live side-by-side. Housing projects where the wealthy and indigent students have equal access to a free, taxpayer-funded education at public schools, and we would not countenance rationing public education on the basis of income need or ethnicity. In the same way, ALOHA Homes will be a public service available to the public equally without regard to income, and enough housing will be produced to meet demand. In addition, income is a poor predictor of the ability to buy housing, as demonstrated by low-income young people who have parents willing to subsidize their home purchases. Finally, the Office of Hawaiian Affairs is unwilling to adopt income restrictions on development of residential condominiums on its Kakaako Maki parcels.

Your Committee also notes that because these units will be built on lands set aside to the Hawaii Housing Finance and Development Corporation, the corporation will be unable to transfer the fee interest in these lands to the Department of Hawaiian Home Lands.

Your Committee supports increasing funding to the Department of Hawaiian Home Lands, whose mission is complementary to the ALOHA Homes program. In the same way that the Department of Education is the largest educator of native Hawaiian children in the world, it is this measure's intent to produce enough revenue neutral housing to satisfy all demand from all ethnicities, including native Hawaiians. The Department of Hawaiian Home Lands can and should continue to fulfill its mission of providing subsidized housing for its beneficiaries.

Your Committee also notes that this measure exempts the ALOHA Homes Revolving Fund from legislative appropriation and allotment. Many other agencies, such as the Hawaii Community Development Authority, have the same exemption. Because these funds will be used much like a homeowner's association fund, it is not appropriate that legislative appropriation and allotment be required.

Finally, your Committee would like to acknowledge the comments provided by the Department of Education wherein they expressed concern about school impact fees as provided by sections 1601-1612, Hawaii Revised Statutes. Your Committee notes that section 201H-D(b)(11), Hawaii Revised Statutes, as set forth in this measure, already mandates the provision of schools.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- Removing the requirement for the transfer of ALOHA Homes to the Department of Hawaiian Home Lands or the Office of Hawaiian Affairs:
- (2) Removing the provision requiring voting in the most recent election as proof of residency and replaced it with the requirements of being a "qualified resident" as defined in section 201H-32, Hawaii Revised Statutes;
- (3) Removing a provision that would have classified ALOHA Homes as "public lands" for the purposes of accounting for receipts from lands described in section 5(f) of the Admissions Act;
- (4) Clarifying the definition of "owner-occupied residential use" to include a prohibition on renting or subleasing; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 546 Housing on S.B. No. 10

The purpose and intent of this measure is to require the counties to adopt rules allowing religious and educational institutions to build affordable housing units on land they own regardless of current zoning restrictions.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from Grassroots Institute of Hawaii

Your Committee finds that Hawaii has a housing crisis. A recent study by the Department of Business, Economic Development, and Tourism found that the State will need more than fifty thousand homes by the year 2025. It is imperative that the State explore new and creative solutions to make meaningful progress in the housing crisis. This measure will allow educational and religious institutions to help end the housing crisis by developing housing units on land they own.

Your Committee has amended this measure by:

- (1) Adding the requirement that any housing developed under the provisions of this measure be either affordable housing or exclusively for Hawaii residents who are owner or renter occupants and own no other real property; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 10, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 10, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 547 Government Operations on S.B. No. 229

The purpose and intent of this measure is to:

- (1) Require executive departments to submit their annual reports concerning their non-general fund accounts to the Auditor, in addition to the Legislature;
- (2) Require executive departments to include the status of implementing any recommendations made by the Auditor, and detail the reasons why any recommendation has not been implemented, in the annual reports;
- (3) Require the Auditor to submit an annual compilation report for annual non-general fund account reports; and
- (4) Require the Auditor to include, in its annual report to the Legislature on special, revolving, and trust funds, an update on fund recommendations made within the past five years that have not been implemented.

Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that requiring the Auditor to compile and submit a report on the status on implementing recommendations of each department's non-general funds is duplicative of the reports that state departments are required to provide the Legislature. Your Committee further finds that the fund recommendations from the Office of the Auditor on the departments' special, revolving, and trust funds are not subject to the general fund appropriation process and notes that the Office of the Auditor reviews each special, revolving, and trust fund every five years.

Your Committee has amended this measure by:

- (1) Removing language that would have required the Auditor to submit an annual compilation report for annual non-general fund account reports; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 229, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 229, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 548 (Joint) Government Operations and Judiciary on S.B. No. 246

The purpose and intent of this measure is to establish the state government realignment commission to periodically review the state executive branch's departments, divisions, and agencies, including functions and services, and submit its findings and recommendations for greater modernization, transparency, and accountability to the Legislature.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that there is a need to modernize state government to meet the current needs of society. Your Committees further find that the current generation of Hawaii residents have not only shown a lack of public support for government, but also believe that the State needs to be more modernized, transparent, and accountable. Your Committees note that it is unusual for the Senate to advise and consent on board and commission members appointed by the Senate President and Speaker of the House of Representatives.

Your Committees have amended this measure by:

- (1) Specifying that only the members appointed by the Governor shall be subject to the advice and consent of the Senate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 246, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 246, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Kim).

SCRep. 549 Government Operations on S.B. No. 661

The purpose and intent of this measure is to allow boards the option to use interactive conference technology to conduct remote meetings in compliance with the Sunshine Law, while retaining the option to conduct traditional in-person meetings at a single meeting site or at multiple meeting sites connected by interactive conference technology.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Information Practices, Executive Office on Aging, Disability and Communication Access Board, Hawai'i Civil Rights Commission, Big Island Press Club, The Civil Beat Law Center for the Public Interest, All Hawaii News, Common Cause Hawaii, League of Women Voters of Hawaii, National Federation of the Blind of Hawaii, and eight individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Professional and Vocational Licensing Division and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that during the ongoing coronavirus disease 2019 (COVID-19) pandemic, emergency measures have been implemented to allow boards to continue meeting and conducting necessary business while protecting participants' health and safety

and expanding public access to meetings throughout the State. Your Committee further finds that, even after stay-at-home-orders due to COVID-19 are no longer necessary, circumstances may arise in which remote board meetings would be beneficial. Your Committee additionally finds that remote meetings can protect the health and safety of participants and that should remote meetings continue in non-emergency times, permanent amendments must be made to the state sunshine laws.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 661, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 550 Government Operations on S.B. No. 762

The purpose and intent of this measure is to:

- (1) Require the Department of Accounting and General Services (DAGS) to develop and implement an enhanced security plan for the Hawaii State Capitol and surrounding grounds;
- (2) Require DAGS to submit annual reports of its findings and recommendations, including any proposed legislation, to the Legislature regarding its progress on short-term and long-term steps toward implementing the enhanced security plan, no later than twenty days prior to the convening of the Regular Session of 2022; and
- (3) Amend provisions regarding the internal governance of the State Capitol Management Committee.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of Accounting and General Services, Department of Public Safety, and Common Cause Hawaii.

Your Committee finds that currently there are no meaningful security measures in place to restrict dangerous crowds, weapons, explosives, or vehicular access at the Hawaii State Capitol. This measure will ensure reasonable preventative short-term and long-term measures to protect public safety while also preserving public access at the Hawaii State Capitol, rather than waiting for a tragic incident and loss of life to occur before action is taken. Your Committee recognizes that the Hawaii State Capitol building not only is listed in the national and Hawaii register of historic places but is also a central feature of the designated Hawaii Capitol Historic District.

Accordingly, your Committee has amended this measure by:

- (1) Including the State Historic Preservation Officer or their designee among the members of the State Capitol Management Committee, to ensure that the preservation of the historic character of the Hawaii State Capitol is fully considered during the planning for the security upgrades at the Hawaii State Capitol building; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 762, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 551 Government Operations on S.B. No. 933

The purpose and intent of this measure is to:

- (1) Establish four-year terms for the members of the Information Technology Steering Committee (ITSC) without regard to the holdover limitations in section 26-34, Hawaii Revised Statutes;
- (2) Redefine the member composition of ITSC by allowing the Superintendent of Education and the President of the University of Hawaii to each appoint one member; and
- (3) Require the Chief Information Officer to present the Office of Enterprise Technology Services annual report to ITSC prior to submitting it to the Legislature before the convening of each Regular Session.

Your Committee received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, and Transform Hawai'i Government. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that preserving the continuity of the ITSC is necessary to properly administer section 27-43, Hawaii Revised Statutes, relating to the development of the State's information technology standards and policies. Your Committee recognizes that this measure is meant to address the holdover members of the ITSC that the Senate has not confirmed through advice and consent. Your Committee notes that although there are no specific deadlines in section 3 of this measure, because of the amendments to this measure by your Committee, section 3 may not be necessary.

Your Committee has amended this measure by:

- (1) Removing language that would have exempted appointees of the ITSC from the holdover provision of section 26-34, Hawaii Revised Statutes, and instead subjecting the appointees to the advice and consent of the Senate;
- (2) Clarifying that the Chief Information Officer shall serve as a member and as the chairperson of ITSC; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 933, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 552 Government Operations on S.B. No. 1015

The purpose and intent of this measure is to expand the Comptroller's duties to include the assessment of state agency office space, including initiating, canceling, and renegotiating current and new leases and to coordinate teleworking infrastructure requirements to support State agency tenants.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that remote teleworking during the coronavirus disease 2019 pandemic has enabled the State to make better use of its limited resources, including office space, furnishing, equipment, electrical and data requirements, storage space, and other traditional needs of employees who work at state facilities. According to the testimony received by your Committee, the Department of Accounting and General Services (DAGS) manages roughly one percent of the entire state building inventory. Your Committee further finds that the level of administrative oversight that this measure demands is beyond the current capacity of DAGS.

Your Committee has amended this measure by:

- (1) Directing the Comptroller to perform specific duties relating to office space management, authorizing space allocation, and determining telework infrastructure requirements for state agencies occupying facilities managed by DAGS; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1015, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1015, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 553 (Joint) Government Operations and Transportation on S.B. No. 1305

The purpose and intent of this measure is to encourage the work-related use of personal vehicles by employees of the State to decrease the size of state motor pools.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that the Department of Accounting and General Services currently maintains a fleet of about four hundred thirty-five vehicles in its motor pool program, and that the State as a whole has about five thousand vehicles owned and operated by various state agencies which operate their own motor pools and fleets. Your Committees further find that state employees who use their personal vehicles through their various bargaining unit contracts are reimbursed at the standard mileage rate prescribed by the Internal Revenue Service for each mile traveled for business purposes. This measure will establish a state compensation program for the use of personal vehicles to conduct official business with a goal of minimizing the size of motor pools maintained by the State and state agencies.

As affirmed by the records of votes of the members of your Committees on Government Operations and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1305 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 5. Noes, none. Excused, none. Transportation: Ayes, 5. Noes, none. Excused, none.

SCRep. 554 Government Operations on S.B. No. 1329

The purpose and intent of this measure is to create time limits to resolve protests to the awards of competitive sealed proposal contracts and procurements of professional services.

Your Committee received testimony in support of this measure from the Department of Transportation; Subcontractors Association of Hawaii; and Associated Builders and Contractors, Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the timely review and resolution of bid protests reduces the costs of state-awarded projects. Your Committee recognizes that bid protests may involve complex issues and that some agencies have taken six months or longer to respond to a bid protest. Your Committee further finds that creating a deadline for the reviewing department or agency to address protest

concerns would cause even more delay in the bid protest process. Your Committee notes that existing statutes on administrative hearings of bid protests require a resolution within forty-five days and therefore concludes, that seventy-five calendar days, with an extension of thirty calendar days for extenuating circumstances, is a sufficient timeframe for a procuring department or agency to resolve its bid protests.

Your Committee has amended this measure by:

- (1) Removing language that would have set internal deadlines for the purchasing agency and any reviewing department or agency to complete the review of a protest concerning the solicitation or award of a contract;
- (2) Inserting language that requires the resolution of the bid protest within seventy-five calendar days of receipt of the protest;
- (3) Allowing for an extension of the seventy-five day resolution period under certain circumstances; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1329, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 555 (Joint) Government Operations and Energy, Economic Development, and Tourism on S.B. No. 1371

The purpose and intent of this measure is to authorize government agencies to wheel electricity produced by their own facilities from renewable energy sources, subject to disallowance by the Public Utilities Commission.

Your Committees received testimony in support of this measure from the Hawaii Clean Power Alliance and Environmental Caucus of the Democratic Party of Hawaii. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy and Public Utilities Commission.

Your Committees find that as a result of pursuing its goal to reach one hundred percent renewal energy by 2045, Hawaii now leads other states in nearly every category of renewable energy. Notwithstanding such progress, the State continues to depend heavily upon imported petroleum for its energy needs and fall short of its ambitious renewable energy goals. Your Committees believe that they must continue to support established renewable energy sources emerging from new technological innovations.

Your Committees further find that the production of clean electricity may be encouraged if government agencies, as sellers of clean electricity, are allowed to engage in intra-government wheeling. The State and other government entities could acquire clean electricity by purchasing it from a clean electricity project developer and then transmitting it across utility lines owned and maintained by an existing electric utility to the government agency or another government agency.

Your Committees recognize the concerns raised in testimony provided by the Hawaiian Electric Company regarding the impact wheeling has on utilities and urges the Public Utilities Commission to consider the following when assessing wheeling requests:

- (1) The financial costs and impacts of intra-governmental wheeling on non-wheeling customers of a utility;
- The impact intragovernmental wheeling will have on existing independent power producers already providing energy under contract to Hawaii's electric utilities;
- (3) Any power back-up issues;
- (4) How the rates for intra-governmental wheeling will be established; and
- (5) The implementation costs of intra-governmental wheeling.

Your Committees further find that it is important to provide the Public Utilities Commission with flexibility to carry out the provisions in this measure.

Accordingly, your Committees have amended this measure by authorizing the Public Utilities Commission to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, or by order of the Public Utilities Commission in order to implement the provisions of this measure.

As affirmed by the records of votes of the members of your Committees on Government Operations and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1371, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1371, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 556 Government Operations on S.B. No. 1391

The purpose and intent of this measure is to require the Procurement Policy Board to adopt specific rules requiring the consideration of life-cycle costs in all state procurements by December 31, 2021.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the State Procurement Office and KYD, Inc.

Your Committee finds that the State considers life-cycle costs when procuring those classes of items for which nationally recognized energy efficiency data have been developed and investing in products, services, construction, and other projects to lower the State's costs and to reduce energy and water consumption. According to testimony received by your Committee, the consideration of life-cycle costs in the evaluation of competitive sealed bids creates more ambiguity in construction solicitation and increases the potential for bid protests. Your Committee further finds that the consideration of life-cycle costs in procurement is critical to ensure economical management of the financial resources of the State and counties.

Your Committee has amended this measure by:

- (1) Amending the definition of "life-cycle costs";
- (2) Removing language that would have required the Procurement Policy Board to adopt rules to consider, specify, and quantify the life-cycle costs of goods, services, and construction procured through competitive sealed bidding; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1391, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 557 Government Operations on S.B. No. 141

The purpose and intent of this measure is to appropriate funds for the State Building Code Council.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Blue Planet Foundation, and one individual. Your Committee received comments on this measure from the Department of Accounting and General Services and Hawaii State Energy Office.

Your Committee finds that this measure is intended to establish one full-time equivalent (1.0 FTE) program director position and one full-time equivalent (1.0 FTE) staff member position, and to provide for employee training, materials and supplies, other costs associated with the State Building Code Council, and any costs necessary to establish a full-time office.

While your Committee is in strong support of providing personnel and resources to ensure the building codes developed by the State, and thereby adopted by the counties, are timely and reflect the latest in technology, energy, health, and safety, your Committee also recognizes that the Department of Accounting and General Services (DAGS), to which the State Building Code Council is administratively attached, is only responsible for buildings of the Executive Branch and not the State Building Code Council has statewide importance beyond the purview of DAGS and would be more appropriately aligned within the Hawaii State Energy Office within the Department of Business, Economic Development, and Tourism (DBEDT). Your Committee also encourages the State Building Code Council to work with DBEDT on its executive budget to provide funding to support the establishment of a full-time office with a full-time equivalent (1.0 FTE) program director position and any additional personnel and resources as needed for State Building Code Council to carry out its important work.

Accordingly, your Committee has amended this measure by:

- (1) Removing the general fund appropriation to establish one full-time equivalent (1.0 FTE) program director position and one full-time equivalent (1.0 FTE) staff member position, and for employee training, materials and supplies, other costs associated with the State Building Code Council, and any costs necessary to establish a full-time State Building Code Council office;
- Inserting language to transfer the State Building Code Council from DAGS to the Hawaii State Energy Office under DBEDT;
 and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 141, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 558 Government Operations on S.B. No. 694

The purpose and intent of this measure is to codify the seventeen United Nations sustainable development goals and indicators with references to existing state sustainability programs, such as the Aloha+ Challenge, Sustainable Hawai'i Initiative, and World Conservation Congress Hawaii Commitments, in the Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Education, Department of Transportation, Office of Hawaiian Affairs, Chamber of Commerce Hawaii, Hawai'i Youth Climate Coalition, Hawaii Immunization Coalition, and four individuals.

Your Committee finds that this measure aligns with the State's commitment to conservation, sustainability, and economic development, and that the adoption of this measure will supplement the State's existing sustainability goals, empower collective

government and private conservation efforts in Hawaii to preserve and improve the State's communities and environment, and contribute to global efforts designed to build a more sustainable future for the world.

Your Committee notes that the Hawaii State Senate has utilized the United Nations sustainable goals to develop, discuss and organize its legislative priorities prior to recent legislative sessions and believes that broader application would be beneficial for the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 559 Government Operations on S.B. No. 695

The purpose and intent of this measure is to:

- (1) Establish La Ku'oko'a, Hawaiian Recognition Day, as an official state holiday; and
- (2) Repeal Election Day as an official state holiday.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; LGBT Caucus of the Democratic Party of Hawai'i; O'ahu Council of the Association of Hawaiian Civic Clubs; Ka Lei Papahi O Kakuhihewa, and five individuals. Your Committee received comments on this measure from the City and County of Honolulu Department of Human Resources and Common Cause Hawaii.

Your Committee finds that Hawaii's special heritage and the various holidays currently celebrated distinguishes Hawaii from other states. La Ku'oko'a commemorates the date of November 28, 1843, when, during the reign of Kamehameha III, Great Britain and France recognized the independence of the Hawaiian Kingdom. Acknowledging La Ku'oko'a, or Hawaiian Recognition Day, is an appropriate and meaningful way to recognize and celebrate the culture and history of Hawaii. However, according to testimony received by your Committee, eliminating Election Day as a state holiday sends the wrong message about the importance of voting and may also create issues or difficulty with determining locations for voter service centers, especially those on government facilities. Your Committee recognizes that Hawaii is a vote-by-mail state with voter service centers on government facilities that currently open ten days prior to primary and general elections. Your Committee further recognizes that the cost of a holiday to the State, not including the cost to the counties, is roughly \$13,600,000.

Accordingly, your Committee has amended this measure by:

- (1) Designating La Kuʻokoʻa, Hawaiian Recognition Day, to celebrate the historical recognition of the independence of the kingdom of Hawaii, but not to be construed as a state holiday;
- (2) Removing language that would have eliminated Election Day as an official state holiday; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recognizes that the amendment to this measure may be problematic given the bill title and requests that your Committee on Judiciary consider this issue as the measure proceeds.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 695, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 560 (Joint) Government Operations and Labor, Culture and the Arts on S.B. No. 830

The purpose and intent of this measure is to:

- (1) Require each department to establish a telework and alternative work schedule policy;
- Establish a minimum percentage of eligible employees who are required to telework or use an alternative work schedule policy;
- (3) Require departments to allow, when feasible, employees who act as a caregiver to telework or use an alternative work schedule; and
- (4) Require the Department of Human Resources Development to submit a report of its findings and recommendations, including any proposed legislation and specific budget requests, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2022.

Your Committees received testimony in support of this measure from the Department of Human Resources Development; Department of Education; Department of Transportation; Office of Planning; Hawaii State Commission on the Status of Women; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; American Association of University Women of Hawaii; Hawaii Children's Action Network Speaks!; Planned Parenthood Votes Northwest and Hawaii; and twelve individuals. Your Committees received comments on this measure from the Department of Public Safety.

While your Committees are in strong support of increasing state productivity, increasing employee quality of life, and reducing costs associated with staff turnover and office space through teleworking, your Committees recognize that mandating a specific percent of

employees from each department to telework may prevent certain departments from meeting their core responsibilities and requiring each department to establish its own teleworking policy may lead to inconsistences across the executive branch. Your Committees further recognize that issues pertaining to employee working conditions have historically been subject to collective bargaining negotiations between the employer and the exclusive employee representative and believe that prior to imposing teleworking requirements on individual departments, it would be prudent to study best practices for teleworking and to work with executive branch departments and affected exclusive bargaining representatives in developing effective telework policies and procedures.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that would have:
 - (A) Required each department to establish a telework and alternative work schedule policy;
 - (B) Established a minimum percentage of eligible employees who are required to telework or use an alternative work schedule policy; and
 - (C) Required departments to allow, when feasible, employees who act as a caregiver to telework or use an alternative work schedule;
- (2) Inserting language that directs the Department of Human Resources Development to convene a working group of stakeholders from the executive branch departments and affected exclusive bargaining representatives to update and create policies and procedures relating to telework and alternative work schedules to address the caregiving and other needs of state employees;
- (3) Requiring the Department of Human Resources Development to report on its proposed telework and alternative work schedule policies and procedures, including any recommendations on proposed legislation or specific budget requests, to the Legislature prior to the convening of the Regular Session of 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 830, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 830, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees (Chair Taniguchi signed "with reservations"). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard). Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 561 Government Operations on S.B. No. 928

The purpose and intent of this measure is to:

- (1) Allow the works of art special fund to be used for the support and promotion of performing arts in the State;
- (2) Include posting of a recording of performing art as a form of public display; and
- (3) Define performing arts.

Your Committee received testimony in support of this measure from the Hawai'i Arts Alliance and one individual. Your Committee received testimony in opposition to this measure from Ebb & Flow Arts, Inc.; Volcano Art Center; and seven individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of the Attorney General; and State Foundation on Culture and the Arts.

Your Committee finds that the works of art special fund is funded by tax-exempt general obligation bonds and therefore must be used for capital projects, not operating expenses. According to testimony received by your Committee, although the recording of works is a capital expenditure under the Internal Revenue Code and the Treasury Regulation, the showing or playback of the video or audio files recorded may be considered an operating expense and therefore use of the works of art special fund for such purposes could jeopardize the tax-exempt status of the State's general obligation bonds. Your Committee also notes that the State Foundation on Culture and the Arts has agreed to work with the Department of Budget and Finance and the Department of the Attorney General to look for ways to expand the uses of the works of art special fund.

Your Committee has amended this measure by:

- (1) Removing all references to the showing or playback of a recorded work of art or performance in public places; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 928, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 928, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 562 Government Operations on S.B. No. 1204

The purpose and intent of this measure is to:

(1) Replace the four taxation district boards of review with a single statewide Taxation Board of Review appointed by the Governor, consisting of ten members with three required for quorum;

- (2) Clarify that any vacancy in the Taxation Board of Review would not impair the authority of the remaining member to exercise their powers, provided that there is quorum;
- (3) Authorize the Governor to appoint acting members to the Taxation Board of Review to temporarily fill vacancies created by a current member's illness, recusal from a case, or temporary absence from the State;
- (4) Require at least one board member to be physically present at each meeting;
- (5) Authorize board members and taxpayers to appear and conduct official business using cost—saving measures;
- (6) Require all decisions of the Taxation Board of Review to be in writing and state the Board's findings of fact and conclusions of law:
- (7) Clarify the conditions of a timely notice of appeal to the Taxation Board of Review; and
- (8) Remove the requirement for an assessor to prepare a notice of appeal upon request of the taxpayer and the assumption that the notice prepared is sufficient.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the laws regarding the boards of review for each taxation district have inadvertently rendered the taxation appeal process practically inoperable. Your Committee further finds that replacing the four district boards of review with a single, statewide Taxation Board of Review will address and solve the existing boards' current inability to achieve regular and consistent quorum and increase the limited pool of candidates who are qualified and willing to serve. According to testimony received by your Committee, the provisions proposed in this measure requiring at least one board member to be physically present at each meeting and authorizing board members to appear and conduct official business using cost—saving measures, such as teleconferencing, are in conflict with the state Sunshine Laws.

Your Committee has amended this measure by:

- (1) Removing language that would have:
 - (A) Required at least one member of the Taxation Board of Review to be physically present at each meeting; and
 - (B) Authorized Board members to appear and conduct official business using cost—saving measures, such as teleconferencing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1204, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 563 Transportation on S.B. No. 57

The purpose and intent of this measure is to:

- (1) Statutorily establish certain certification, renewal, and violation processes for vehicle inspectors who conduct safety inspections under the Department of Transportation; and
- (2) Repeal requirements for reconstructed vehicles to obtain a special inspection and certification.

Your Committee received testimony in support of this measure from the Department of Transportation, Oahu Motorsports Association, and seventy-five individuals. Your Committee received comments on this measure from the Honolulu Police Department.

Your Committee finds that vehicle inspectors serve an important function in the State by certifying the safety of vehicles in Hawaii. This measure codifies the process by which vehicle inspectors earn and renew their certification and are penalized for improper inspections.

Your Committee also finds that the reconstructed vehicle inspection program on Oahu is not necessary. Available crash data does not indicate that reconstructed vehicles are more dangerous than other vehicles. Moreover, the reconstructed vehicle program does not exist on the neighbor islands. As this program is unique to Oahu and there is no data to support the conclusion that it is effective, this measure repeals the reconstructed vehicle program.

Your Committee notes that elements of the reconstructed vehicle inspection, specifically with regard to tire width and fender flares, rear mud guards, and maximum vehicle height are issues of public safety. The Department of Transportation has assured your Committee that these elements are already part of the existing motor vehicle safety inspection program statewide and it is the expectation of your Committee that these elements will continue to be required to be inspected on all motor vehicles under the state motor vehicle inspection program.

Your Committee has amended this measure by:

- Requiring the Department of Transportation to adopt rules to include exhaust noise tests to ensure exhaust noise does not
 exceed ninety-five decibels as part of the safety inspection process; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 57, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 57, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 564 Transportation on S.B. No. 1368

The purpose and intent of this measure is to:

- (1) Prohibit the eviction of any tenant of Kawaihapai Airfield so long as that tenant remains in good standing; and
- (2) Require the Department of Transportation to cooperate with any private entity performing an economic feasibility study of Kawaihapai Airfield.

Your Committee received testimony in support of this measure from SaveDillinghamAirfield.org; North Shore Oahu Flight School; United States Parachute Association; Hawaiian Astronomical Society; Soaring Society of America, Inc.; Uncomfortably Comfortable LLC; Aircraft Owners and Pilots Association; Above & Beyond Hawaii; Pacific Skydiving Center; Skymax LLC; Everest Innovation Lab LLC; Shoreline Conservation Initiative; Kawaihapai Ohana; North Shore Aviation; and three hundred individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Kawaihapai Airfield, also known as Dillingham Airfield, is a vital economic and tourism contributor to the economy of Oahu's north shore. Small business tenants at the airfield generate over \$12,000,000 in yearly revenues and employ over one hundred and thirty people. Currently the Department of Transportation (DOT) leases the airfield from the United States Department of the Army. The original DOT lease runs until July 5, 2024, however the lease is now set to terminate on June 30, 2021, due to an early termination provision.

Your Committee notes the myriad of complex issues with Kawaihapai Airfield raised in both the written and oral testimony. As such, your Committee finds it prudent to form a task force to address these issues and work towards a solution with input from all parties.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language to create the Kawaihapai Airfield Revitalization Task Force to:
 - (A) Address the issues necessary to keep Kawaihapai Airfield open and operating safely, provided that plans to resolve all pending issues can be agreed upon by June 30, 2021, and subsequently executed; and
 - (B) Submit a report to the Legislature prior to the convening of the Regular Session of 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1368, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 565 Water and Land on S.B. No. 1165

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to issue new ocean recreation commercial permits by public auction.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition, Malolo Charters, Trilogy Excursions, and two individuals.

Your Committee finds that there are an increasing number of commercial ocean recreation providers requesting to operate in state waters. Your Committee believes that the fairest way to issue the limited commercial permits available under these circumstances is through public auction. The fees collected through public auction of permits to operate from state small boat harbors go toward the operation, maintenance, and management of all state small boat harbor facilities under the control of the Department of Land and Natural Resources. Ultimately, this measure would allow the Department of Land and Natural Resources to increase revenues through higher permit fees arising as a result of competitive bidding through auctions. Your Committee notes that this measure is not intended to affect existing commercial permits. In situations where unfairness to permit applicants may result if a lottery or first-come, first-served method is used, the Department of Land and Natural Resources believes that having the authority to auction new permits would provide a better opportunity for existing established operators to obtain a permit.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1165 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 566 Water and Land on S.B. No. 1404

The purpose and intent of this measure is to establish a working group to manage the Honokohau Small Boat Harbor with the oversight and assistance of the Department of Land and Natural Resources' Division of Boating and Ocean Recreation, to dissolve on June 30, 2026.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and Surfrider Foundation's Kona Kai Ea Chapter.

Your Committee finds that the Department of Land and Natural Resources' Division of Boating and Ocean Recreation has already formed the Honokohau Small Boat Harbor Working Group (working group), which held its first meeting in August 2018. This measure establishes the working group in statute, formalizes its ongoing efforts to function as the management authority for the Honokohau Small Boat Harbor, and enables the continued collaboration needed to support the economic opportunities for the community served by the Honokohau Small Boat Harbor.

Your Committee, however, notes the concerns raised in testimony that formalizing the working group, especially to function as the management authority for the Honokohau Small Boat Harbor, may supersede the function of a government agency, namely the Department of Land and Natural Resources, to lease its assets to a private entity. Your Committee finds this concern holds merit and to the extent this measure allows the working group to explore the private-public framework, your Committee recognizes that all lease arrangements continue to rest with the Department of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1404 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 567 Water and Land on S.B. No. 572

The purpose and intent of this measure is to strengthen the penalties for violations of the State's aquatic resources law by:

- (1) Specifying that any equipment, article, instrument, aircraft, vehicle, vessel, or business record used in violation of the aquatic resources law is subject to forfeiture;
- (2) Authorizing the imposition of a criminal fine;
- (3) Clarifying that the fine structure may be assessed on a per-specimen basis;
- (4) Making violations of the aquatic resources law a misdemeanor, rather than a petty misdemeanor; and
- (5) Permitting the Department of Land and Natural Resources to recommend community service that benefits the resource damaged when a person is ordered to perform community service in lieu of a fine.

Your Committee received testimony in support of this measure from the Hawaii Reef and Ocean Coalition, Animal Rights Hawaiii, and two individuals. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition and Calypso Charters. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that allowing funds from fines to be collected and deposited into the Conservation and Resources Enforcement Special Fund could be used to support the Department's law enforcement efforts through its Conservation and Resources Enforcement Program.

Your Committee has amended this measure by:

- (1) Removing "for each specimen" since the Department of Land and Natural Resources already provides for per-specimen fines of up to \$1,000 and \$5,000 for the respective offenses;
- (2) Maintaining violations as petty misdemeanors, to prevent a relapse of pleading down or dismissing aquatic resource cases;
- (3) Providing that a fine of up to \$1,000 may be levied for all other aquatic life taken, killed, or injured in violation of subtitle 5 of title 12, Hawaii Administrative Rules, or any rule adopted thereunder;
- (4) Deleting the provision providing for seizure and forfeiture of property due to the Department of Land and Natural Resources' existing forfeiture authority under section 199-7, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 572, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 568 Water and Land on S.B. No. 791

The purpose and intent of this measure is to:

(1) Clarify removal of unauthorized vessels on state property or in the waters of the State;

- (2) Clarify the definition of an "abandoned vessel";
- (3) Reduce the time limit to claim an unauthorized vessel that is impounded by the Department of Land and Natural Resources (DLNR) from thirty days to ten working days;
- (4) Reduce the time limit to claim an abandoned vessel that is impounded by a state or county agency from twenty days to ten working days;
- (5) Make abandonment of a vessel on waters of the State or public property a petty misdemeanor;
- (6) Clarify auction requirements regarding abandoned vessels; and
- (7) Allow DLNR to charge an impound storage fee.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Reef and Ocean Coalition.

Your Committee finds that existing law requires DLNR to provide a seventy-two-hour notice of intent to impound an unauthorized, abandoned, grounded, or derelict vessel before being able to take control of the vessel. However, in some instances, the condition of the vessel rapidly deteriorates, requiring additional labor, increased risks to health and public safety, and additional costs to remove and impound the vessel. This measure shortens the time-period for DLNR to respond and remove abandoned vessels to help protect reefs and maintain ocean health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 569 Water and Land on S.B. No. 795

The purpose and intent of this measure is to amend the various fees that the Department of Land and Natural Resources may charge for the usage of state small boat harbors and amend the way those fees are applied.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition; PacWhale Eco-Adventures; Maui Classic Charters; Sailing Maui Inc.; Kapalua Kai Sailing, Inc.; Crystal Seahorse, Ltd.; Trilogy Excursions; Sea Paradise Scuba, Inc.; Calypso Charters; Alii Nui Charters; and one individual.

Your Committee finds that the Department of Land and Natural Resource's Division of Boating and Ocean Recreation has identified approximately \$300,000,000 in deferred maintenance at small boat harbors and boating facilities statewide. Implementing the fees as prescribed in this measure would allow the Department of Land and Natural Resources to collect appropriate fee amounts if an operator attempts to circumvent the gross receipt collection method. The fees collected would go towards funding upgrades to state small boat harbor facilities resulting in improved sanitation and maintenance of small boat harbors.

Your Committee has heard concerns that the \$3 per passenger fee will be far greater than three percent of gross receipts for a large number of operators who are struggling to survive and there is no recourse for harbor users to dispute the fees established by appraisal.

Your Committee has amended this measure by:

- (1) Reducing the passenger fee from \$3 to \$1.50; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 795, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 570 (Joint) Labor, Culture and the Arts and Ways and Means on H.B. No. 1278

The purpose and intent of this measure is to:

- (1) Amend the definitions of "benefit year" and "week" for the purposes of unemployment insurance;
- (2) Conform the method of filing claims for partial unemployment benefits to those for total or part-total unemployment benefits;
- (3) Provide relief to certain reimbursable employers with regard to unemployment benefit reimbursement payments;
- (4) Set the employer contribution rate schedules at schedule D for the purposes of determining the amount of employer contributions to the State Unemployment Compensation Trust Fund (UCTF) for calendar years 2021 and 2022; and
- (5) Require the Director of Labor and Industrial Relations to modify the annual contribution rate computation for all employers for calendar years 2021 and 2022, by omitting from the calculation, benefits charged against their accounts to address the disruptions caused by the coronavirus disease 2019 (COVID-19) pandemic.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Accor Management US Inc. dba Fairmont Orchid, Hawai'i; Castaway Construction & Restoration LLC; Chamber of Commerce of Hawaii; Contract Furnishers of Hawaii, Inc. dba Office Pavillion; Engineering & Inspections Hawaii, Inc.; Fun Factory, Inc.; Gray, Hong, Nojima & Associates, Inc.; Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawai'i Primary Care Association; Hawai'i Restaurant Association; Hawai'i Lodging & Tourism Association; Hawaiian Humane Society; Island Plastic Bags, Inc.; Healthy's, Inc. dba Down to Earth Organic and Natural; Kohala Coast Resort Association; Kona-Kohala Chamber of Commerce; Lanikai Brewing Company, LLC; Maui Adventure Group, Inc. dba The Snorkel Store; Maui Distributors, Inc.; NAIOP Hawaii; Pacific Mirror and Glass LLC; Parents And Children Together; Retail Merchants of Hawaii, Inc.; Society for Human Resource Management (Hawaii Chapter) and three individuals. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii and Envisions Entertainment & Productions, Inc. Your Committees received comments on this measure from the Tax Foundation of Hawaii; Altres, Inc.; Ho'ala Salon and Spa; Maui Chamber of Commerce; Pono Kai Resort; ProService Pacific, LLC dba ProService Hawaii; Woo's Electrical LLC; and one individual.

Your Committees find that the COVID-19 pandemic created an unprecedented disruption in Hawaii's economy and increase in Hawaii's unemployment rate. Consequently, the UCTF, which had a reserve of \$607,500,000 as of November 2019, was depleted in June 2020. The State, to keep the UCTF afloat and continue payment of unemployment benefits, received a \$700,000,000 loan from the federal government as federal unemployment insurance advances under Title XII of the Social Security Act.

Your Committees find that each year, the Department of Labor and Industrial Relations calculates the UTCF contribution rate for employers based on the employer's actual experience — history pertaining to the employer's contributions into the UCTF and benefits paid out to former employees therefrom — and one of eight statutory contribution rate schedules (A through H) that is in effect for the year determined by the overall health of UCTF. Under existing law, depletion of the UTCF prompts the application of Schedule H, which is the highest statutory rate, to the computation for 2021, at a time when employers can least afford the increase.

Therefore, your Committees find that timely relief is necessary to support Hawaii's struggling employers and expedite the State's economic recovery from the disruptions caused by COVID-19. This measure, by reducing the applicable employer contribution rate to Schedule D and requiring the Department of Labor and Industrial Relations to omit certain COVID-19 pandemic-related benefits charged to employer accounts when calculating their annual experience rating for calendar years 2021 and 2022, will significantly reduce Hawaii employers' annual contribution into the UTCF. This measure will also provide relief to certain reimbursable employers. Your Committees believe this measure provides the necessary relief to Hawaii employers while minimizing the long-term impact on the health of the UCTF.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1278, H.D. 1, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none. Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Kidani, Shimabukuro, Wakai).

SCRep. 571 Ways and Means on S.B. No. 662

The purpose and intent of this measure is to encourage efficacy in the State's income taxation system by requiring new income tax credits to include a five-year sunset provision or a gradual reduction over a three-year period.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the impact of changes to the state tax code are not always apparent at the time that the change is first enacted. Specifically, it is often difficult to precisely predict how effectively a new income tax credit may accomplish its policy goal or what adverse impact the tax credit may have on the State's ability to collect revenue. Accordingly, this measure requires that any income tax credit established or renewed after December 31, 2021, either expire after five years or be reduced by one third each year after the fifth year of the credit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Moriwaki).

SCRep. 572 Ways and Means on S.B. No. 668

The purpose and intent of this measure is to rename the agricultural development and food security special fund.

More specifically, this measure:

- (1) Renames the agricultural development and food security special fund as the land, aquaculture, freshwater, or sea-based food development and food security special fund;
- (2) Allows for the use of moneys in the special fund for the awarding of grants to commercial fishermen; and
- (3) Expands the scope of the special fund to include uses related to land-, aquaculture-, freshwater-, or sea-based food production.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau, Hawaii Longline Association, and United Fishing Agency.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that expanding the scope of the agricultural development and food security special fund to include uses related to land-, aquaculture-, freshwater-, or sea-based food production is an effective way to support the growth of these food production industries in the State.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 668, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 668, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 573 Ways and Means on S.B. No. 1412

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist HK Management, LLC, a Hawaii limited liability company, with planning, constructing, renovating, acquiring, equipping, and improving surf industry center facilities at Honokea Surf Village.

Your Committee received written comments in support of this measure from HK Management, LLC, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Hawaii Community Development Authority.

Your Committee finds that the surf industry center facilities at Honokea Surf Village are expected to generate income for the State, significantly advance Hawaii's surf and film industries, and create more than two hundred jobs on state lands.

Your Committee has amended this measure by replacing its contents with the contents of S.B. No. 963, which are substantively the same as S.B. No. 1412, S.D. 1, but with nonsubstantive, technical changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1412, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1412, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 574 Ways and Means on S.B. No. 1413

The purpose and intent of this measure is to promote the accurate, appropriate, and authentic use of the Hawaiian language.

Specifically, the measure:

- Requires specified state officials to prominently display a Hawaiian language translation of the name of their respective office or department on official websites and letterheads;
- (2) Requires all letterheads, documents, symbols, and emblems of the State and other political subdivisions that include Hawaiian names or words to include accurate and appropriate Hawaiian names, spelling, and punctuation;
- (3) Establishes references for accurate, appropriate, and authentic Hawaiian names and words, including proper Hawaiian spelling and punctuation; and
- (4) Clarifies that the full text of bills and other official documents are not required to be written in Hawaiian and that misspelled or incorrectly punctuated Hawaiian names and words shall not invalidate the documents, or render them unenforceable, and no cause of action shall arise accordingly.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Halau Ku Mana Public Charter School, and three individuals.

Your Committee finds that requiring the inclusion of accurate and appropriate Hawaiian names, spelling, and punctuation in various forms of state communications will help to effectuate the State's constitutional mandate to promote Hawaiian culture, history, and language.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1413, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1413, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 575 Ways and Means on S.B. No. 179

The purpose and intent of this measure is to transfer operational authority over certain portions of the East Kauai Irrigation System to the Department of Agriculture.

Specifically, this measure:

- (1) Provides that the portions of the system to be transferred are those portions operated and maintained by the East Kauai Water Users' Cooperative as of December 14, 2020;
- (2) Provides that the relevant portions of the system shall be under the operational authority of the Department of Agriculture until the adoption of rules pursuant to chapter 91, Hawaii Revised Statutes, or until a determination is made that the system can be appropriately operated and maintained pursuant to chapters 167 and 168, Hawaii Revised Statutes;
- (3) Contingent upon the East Kauai Irrigation System becoming a state irrigation system, establishes certain employment positions within the Department of Agriculture's Agricultural Resource Management Division; and
- (4) Appropriates \$500,000 for fiscal years 2021-2022 and 2022-2023 for the operations and maintenance of the East Kauai Irrigation System.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; County of Kauai; Hawaii Farm Bureau; Kalepa Koalition; Larry Jefts Farms, LLC; Saiva Siddhanta Church; Ulupono Initiative; and two individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the East Kauai Water Users' Cooperative.

Your Committee finds that the East Kauai Irrigation System includes two reservoirs and twenty-two miles of ditch, and currently services more than twelve thousand five hundred acres of agricultural land, including more than one thousand acres of the state Kalepa lands located between Kapaa and Lihue.

Your Committee further finds that the Department of Land and Natural Resources currently has oversight of the irrigation system. However, the department does not have the resources or expertise to function as a water delivery provider, as its mission is the management and protection of natural, cultural, recreational, and historical resources.

Your Committee further finds that the East Kauai Water Users' Cooperative no longer manages and operates certain portions of the system. Accordingly, the Department of Agriculture's assumption of those operational responsibilities will ensure the ongoing operation of the system and the system's support of local agriculture.

Your Committee has amended this measure by:

- (1) Clarifying that the relevant portions of the East Kauai Irrigation System are those portions operated and maintained by the East Kauai Water Users' Cooperative before December 15, 2020;
- (2) Clarifying that a qualifying event for the discontinuation of certain actions would be the Board of Agriculture's adoption of administrative rules for irrigation water development and irrigation and water utilization with respect to the East Kauai Irrigation System;
- (3) Changing the appropriation from \$500,000 to an unspecified amount;
- (4) Providing that the funds appropriated by the measure shall not be expended if the East Kauai Irrigation System does not become a state irrigation system under the Department of Agriculture;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 179, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 179, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 576 Ways and Means on S.B. No. 1179

The purpose and intent of this measure is to facilitate funding for the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources.

Specifically, the measure:

- (1) Allocates a portion of the conveyance tax revenues to the conservation and resources enforcement special fund; and
- (2) Authorizes the conservation and resources enforcement special fund to be used for permanent and temporary staff positions for the conservation and resources enforcement program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and League of Women Voters of Hawaii.

Your Committee finds that the Division of Conservation and Resources Enforcement has one of the lowest per-person rates of state funding compared to all other state wildlife agencies. Your Committee further finds that the Division is short-staffed and underfunded. Accordingly, your Committee finds that the Division needs appropriate funding to fulfill its mission, especially in light of the recent reduction of funds allocated to the Division due to the coronavirus 2019 pandemic.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1179, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 577 Ways and Means on S.B. No. 935

The purpose and intent of this measure is to transfer the Office of Aerospace Development from the Department of Business, Economic Development, and Tourism to the Hawaii Technology Development Corporation and to transfer the functions of the Pacific International Space Center for Exploration Systems to the Office of Aerospace Development.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Hawaii Technology Development Corporation; Department of Business, Economic Development, and Tourism; and Pacific International Space Center for Exploration Systems.

Your Committee finds that the expertise of the Hawaii Technology Development Corporation, particularly in the field of commercial technology, may help to guide a unified aerospace office to more effectively develop and expand the aerospace industry in Hawaii.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 935, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 578 Ways and Means on S.B. No. 1109

The purpose and intent of this measure is to establish a State Disaster Recovery Program overseen by the State Disaster Recovery Coordinator.

Your Committee received written comments in support of this measure from the Office of the Governor, Office of Planning, Hawaii State Energy Office, and Hawaii Emergency Management Agency.

Your Committee finds that disaster recovery operations, which begin shortly after a disaster occurs, are complex, time-consuming, and involve many individuals and agencies undertaking a wide range of actions. Disaster recovery requires both short—term restoration of necessary community functions and long-term planning and coordination. Your Committee recognizes that federal, state, and county agencies, as well as private organizations, contribute in these efforts to ensure public health and safety. Accordingly, your Committee believes that it is vital to align the response, recovery, and mitigation activities of all parties, and to enhance the capacity of these parties to coordinate their efforts and efficiently recover from disasters.

Your Committee has amended this measure by:

- (1) Replacing an incorrect reference to "federal disaster recovery" with a reference to "state disaster recovery";
- (2) Specifying that the Federal Disaster Recovery Coordinator is from the Federal Emergency Management Agency;
- (3) Specifying that the State Disaster Recovery Coordinator's report to the Legislature is due no later than twenty days prior to each applicable Regular Session;
- (4) Specifying that state and county agencies having recovery responsibilities shall maintain and update applicable recovery plans;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1109, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1109, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 579 Ways and Means on S.B. No. 512

The purpose and intent of this measure is to expand the Double Up Food Bucks Program administered by the Hawaii Department of Agriculture.

Specifically, the measure:

- (1) Removes the \$10 per visit per day cap on the dollar-for-dollar match received by Supplemental Nutrition Assistance Program (SNAP) beneficiaries under the Hawaii Healthy Food Incentive Program, also known as the Double Up Food Bucks Program (DA BUX);
- (2) Specifies that healthy proteins are eligible purchases under the program; and
- (3) Appropriates an unspecified amount of moneys to the Department of Agriculture to expand the Hawaii Healthy Food Incentive Program.

Your Committee received written comments in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; Department of Community Services of the City and County of Honolulu; Office of Economic Revitalization of the City and County of Honolulu; Hawaii Medical Service Association; Hawaii Food Industry Association; The Chamber of Commerce Hawaii; Hawaii Association of Health Plans; Hawaii Alliance for Community-Based Economic Development; Malama Kauai; Land Use Research Foundation of Hawaii; Lanakila Meals on Wheels; AARP Hawaii; American Heart Association; Aloha Harvest; Sierra Club of Hawaii; Kamehameha Schools; Hawaii Public Health Institute; 350Hawaii; Ulupono Initiative; Hawaii Children's Action Network Speaks!; The Food Basket Inc., Hawaii Island's Food Bank; Kaiser Permanente; Hawaii Farm Bureau; AlohaCare; Ohana Health Plan; Blue Zones Project; Hawaii Primary Care Association; Early Childhood Action Strategy; Hawaii Community Foundation; Local Food Coalition; Catholic Charities Hawaii; Parents And Children Together; Hawaii Pacific Health; Pono Hawaii Initiative; Hawaii Alliance for Progressive Action; Hawaii Cattlemen's Council; Hawaii Foodbank; and numerous individuals.

Your Committee finds that the measure's expansion of the Double Up Food Bucks Program will help to increase SNAP beneficiaries' access to fresh and healthy dietary options, further defray the high cost of healthy eating, and support the efforts of the agricultural industry, which has been adversely impacted by the ongoing coronavirus disease 2019 pandemic.

Your Committee has amended this measure by:

- (1) Removing the appropriation section; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 512, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 580 Ways and Means on S.B. No. 1121

The purpose and intent of this measure is to exempt from general excise taxes housing developed by the Department of Hawaiian Home Lands so that the department may more fully commit its funding toward fulfilling its mission of developing housing.

Your Committee received written testimony in support of this measure from the Department of Taxation, Department of Hawaiian Home Lands, Office of Hawaiian Affairs, and Hawaiian Affairs Caucus of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure would save the Department of Hawaiian Home Lands more than \$9,500,000 in general excise taxes for four large-scale development projects that are currently underway. Your Committee further finds that the general excise tax savings that accrue from this measure can be applied to the development of additional housing and associated infrastructure, allowing the Department of Hawaiian Home Lands to more fully commit its funding toward its mission.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1121, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 581 Ways and Means on S.B. No. 225

The purpose and intent of this measure is to promote transit-oriented development.

More specifically, this measure:

- (1) Specifies that the cost of regional infrastructure improvements made by the Hawaii Housing Finance and Development Corporation may be assessed against transit-oriented development projects specifically benefiting from the improvements; and
- (2) Requires the Hawaii Interagency Council for Transit-Oriented Development to review and make recommendations on applications for subaccount funds for infrastructure projects related to transit-oriented development.

Your Committee received written comments in support of this measure from the Office of Planning, Hawaii Housing Finance and Development Corporation, Hawaii Interagency Council for Transit-Oriented Development, and Coral Fish Hawaii/Hawaii Sustainable Reef Fisheries

Your Committee finds that the cost of off-site infrastructure is a major barrier to the achievement of transit-oriented development potential statewide. Your Committee believes that this measure would help to facilitate state investment in needed transit-oriented development infrastructure by allowing the Hawaii Housing Finance and Development Corporation to recover costs to help offset the significant costs of regional infrastructure.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 225, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 582 Ways and Means on S.B. No. 339

The purpose and intent of this measure is to provide incentives to landowners and farmers to continue agricultural operations on agricultural lands.

Specifically, this measure:

- (1) Extends the time that the Department of Agriculture may certify the important agricultural land qualified agricultural cost tax credit from December 31, 2021, to December 31, 2030; and
- (2) Provides that a taxpayer may claim the important agricultural land qualified agricultural cost tax credit in the third taxable year after application for first-year certification of the credit.

Your Committee received written comments in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Office of Planning; Carpenter & Carpenter, Inc.; Ulupono Initiative; Hawaii Crop Improvement Association; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; Kamehameha Schools; and one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the important agricultural land qualified agricultural cost tax credit provides an important incentive to farmers to keep agricultural lands in productivity, thereby increasing the State's food security, sustainability, and economic diversity. Your Committee further finds that this measure will help to ensure that the State's most important agricultural lands remain available for future generations of Hawaii's farmers.

Your Committee has amended this measure by:

- (1) Clarifying that a taxpayer may first claim the tax credit no earlier than in the third taxable year after the taxable year during which the taxpayer applied to the Department of Agriculture for first-year certification of the tax credit;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 339, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 339, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 583 Ways and Means on S.B. No. 60

The purpose and intent of this measure is to authorize the issuance to any registered owner of an electric vehicle special number plates to commemorate the Polynesian Voyaging Society.

More specifically, this measure:

- (1) Authorizes the Director of Finance of each county to issue, for use on electric vehicles, special number plates to commemorate the Polynesian Voyaging Society;
- (2) Requires the Director of Finance of the City and County of Honolulu to design the special number plates, based on certain guidelines;
- (3) Requires the Director of Finance of each county to charge a special number plate fee and fundraising fee, and authorizes the Director to charge an additional fundraising fee; and
- (4) Provides that the revenue generated by the fundraising fees be deposited in the name of the Polynesian Voyaging Society in each county's budget accounts.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Polynesian Voyaging Society, and numerous individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that the issuance of special number plates commemorating the Polynesian Voyaging Society is an effective way to support both the adoption of electric vehicles throughout the State and the Polynesian Voyaging Society's efforts to perpetuate the art and science of traditional Polynesian voyaging and the spirit of exploration.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 60, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 60, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Moriwaki).

SCRep. 584 Ways and Means on S.B. No. 855

The purpose and intent of this measure is to extend the lifespan and clarify the provisions of the Department of Agriculture's pesticide subsidy program to mitigate the damage caused by coffee pests.

More specifically, this measure:

- (1) Extends the sunset date of the pesticide subsidy program to June 30, 2023;
- (2) Provides that no single coffee grower shall receive more than:
 - (A) \$600 per year in subsidies for coffee berry borer control; and
 - (B) \$600 per year in subsidies for coffee leaf rust control,

per acre of land in coffee production;

- (3) Provides that no single coffee grower shall receive more than a total of \$12,000 per year in subsidies between June 30, 2021, and July 1, 2023;
- (4) Requires the Department of Agriculture to compile a list of certain pesticides;
- (5) Extends the sunset date of the pesticide subsidy program manager position, including the position's exemption from civil service and collective bargaining laws, to June 30, 2024; and
- (6) Requires the Department of Agriculture to submit a report to the Legislature twenty days prior to the convening of the Regular Session of 2023.

Your Committee received written comments in support of this measure from the Department of Agriculture; Hawaii Coffee Association; and MauiGrown Coffee, Inc.

Your Committee finds that extending the coffee berry borer pesticide subsidy program and program manager position will allow the Department of Agriculture to continue supporting the efforts of Hawaii's coffee growers to control the effects of, and mitigate damages from, the coffee berry borer and coffee leaf rust.

Your Committee has amended this measure by:

- (1) Inserting a definition to clarify that the term "department" means the Department of Agriculture;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 855, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 585 Ways and Means on S.B. No. 1402

The purpose and intent of this measure is to require the Department of Transportation to establish various motor vehicle, bicycle, and pedestrian highway networks throughout the State.

More specifically, this measure:

- (1) Requires the planning for, and establishment of, motor vehicle, bicycle, and pedestrian highway networks throughout the State;
- (2) Requires the Department of Transportation to plan for, establish, and, if applicable, ensure that each county plans for and establishes, inter-community bicycle and pedestrian networks and pedestrian exercise and active health pathways;
- (3) Establishes goals and metrics to guide the Department of Transportation in its planning and establishment of these networks and pathways; and

(4) Requires the Department of Transportation to submit an annual report to the Legislature.

Your Committee received written comments in support of this measure from the Department of Health, Department of Transportation, Hawaii Climate Change Mitigation and Adaptation Commission, Hawaii State Energy Office, Office of Planning, AARP Hawaii, AlohaCare, American Heart Association, Blue Planet Foundation, Hawaii Bicycling League, Hawaii Public Health Institute, Ulupono Initiative, Young Progressives Demanding Action, and two individuals.

Your Committee finds that the establishment of separate motor vehicle, bicycle, and pedestrian highway and pathway networks throughout the State is an effective way to decrease the public's reliance on personal motor vehicles, reduce the cost of transportation, and improve public health.

Your Committee has amended this measure by:

- (1) Designating the new sections to be added to Chapter 264, Hawaii Revised Statutes, as a new part to that chapter;
- (2) Inserting a definition of "department";
- (3) Requiring the Department of Transportation to coordinate with each applicable county to develop a comprehensive plan regarding the establishment of certain bicycle and pedestrian pathways within communities;
- (4) Clarifying certain goals that the Department of Transportation is required to endeavor to achieve when planning, designing, and implementing ground transportation infrastructure for certain projects;
- (5) Clarifying the Department of Transportation's applicable reporting requirements;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1402, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1402, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 586 Ways and Means on S.B. No. 1091

The purpose and intent of this measure is to help address the state budget shortfall caused by the coronavirus disease 2019 (COVID-19) pandemic by transferring or authorizing the transfer of moneys in certain special or revolving funds.

Specifically, this measure:

- Authorizes the transfer of moneys from the land conservation fund to the general fund and replaces the moneys with proceeds from general obligation bond proceeds;
- (2) Authorizes the transfer of moneys from the rental housing revolving fund to the dwelling unit revolving fund; and
- (3) Transfers to the general fund moneys from the emergency medical services special fund and cigarette tax stamp administrative special fund.

Your Committee received written comments in support of this measure from the Department of Taxation, Department of Budget and Finance, Department of Health, and Hawaii Housing Finance and Development Corporation.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Tax Foundation of Hawaii, and The Trust for Public Land.

Your Committee finds that transferring excess moneys from certain special and revolving funds to the general fund is a prudent approach to address the budget shortfall brought about by the COVID-19 pandemic and will help to minimize any necessary tax increases or reductions in government services.

Your Committee has amended this measure by:

- (1) Appropriating to the general fund the following sums:
 - (A) An additional \$29,763 from the cigarette tax stamp administrative special fund, which increases the appropriation from that fund to \$1,029,763;
 - (B) \$317,711 from the state archives preservation and long-term access special fund;
 - (C) \$200,000 from the criminal forfeiture revolving fund;
 - (D) \$50,000 from the DNA registry special fund;
 - (E) \$140,000 from the internet crimes against children special fund;
 - (F) \$150,000 from the notaries public revolving fund;
 - (G) \$600,000 from the criminal records improvement revolving fund;
 - (H) \$280,877 from the state disaster revolving fund;
 - (I) \$483,723 from the foreign-trade zone special fund;

- (J) \$14,355 from the general support for health care payments special fund;
- (K) \$56,000 from the dietitian licensure special fund;
- (L) \$1,350 from the human trafficking victim special fund;
- (M) \$420,257 from the bureau of conveyances special fund;
- (N) \$590,000 from the water and land development special fund;
- (O) \$236,011 from the special land and development fund;
- (P) \$68,165 from the Hawaii historic preservation special fund;
- (Q) \$500,000 from the automated victim information and notification system special fund; and
- (R) \$2,617,063 from the tax administration special fund;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 587 Ways and Means on S.B. No. 1203

The purpose and intent of this measure is to make amendments to title 14, Hawaii Revised Statutes, to simplify and streamline administration of the State's tax laws.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure makes nonsubstantive, technical amendments for purposes of correcting errors, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee has amended this measure by:

- (1) Changing the text of section 235-23.5(a)(1), Hawaii Revised Statutes, to correspond to the printed version of the Hawaii Revised Statutes;
- (2) Inserting a new part to amend section 235-45, Hawaii Revised Statutes, and repeal section 257-10, Hawaii Revised Statutes, to delete cross-references to sections of the Hawaii Revised Statutes that are repealed by the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1203, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 588 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 981

The purpose and intent of this measure is to:

- (1) Change the maximum amount of public funds available to each candidate running for the office of State Senator, State Representative, County Council, and the Board of Trustees of the Office of Hawaiian Affairs to an unspecified percent of the expenditure limit established for each election;
- (2) Amend the amount each Office of Hawaiian Affairs candidate must raise to qualify for public funds; and
- (3) Amend ballot requirements to display candidates for the Office of Hawaiian Affairs Board of Trustees by residency and non-residency requirements and to randomize the order of candidate names within those groupings.

Your Committees received testimony in support of this measure from Common Cause Hawaii and League of Women Voters of Hawaii. Your Committees received comments on this measure from the Department of the Attorney General, Office of Hawaiian Affairs, Office of Elections, and Campaign Spending Commission.

Your Committees find that candidates running for the Board of Trustees of the Office of Hawaiian Affairs who voluntarily agree to participate in the partial public funding program run statewide campaigns yet they are provided substantially less partial public funding than other statewide candidates. Your Committees further find that, under existing law, names of candidates for the Board of Trustees of the Office of Hawaiian Affairs are placed on the ballot in alphabetical order to ensure that all candidates are properly listed, which corresponds to the voting position for the vote counting system. This measure will increase the partial public funding expenditure limit and maximum amount of public funds available for candidates for the Board of Trustees and mitigates any advantage that may arise

from the order of candidate names on the ballot by requiring that the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs be placed in random order on the ballot.

Your Committees have amended this measure by:

- (1) Re-inserting fifteen percent as the maximum amount of public funds available to candidates running for the office of State Senator, State Representative, and County Council and inserting fifteen percent as the maximum amount of public funds available to candidates running for the Board of Trustees of the Office of Hawaiian Affairs;
- (2) Clarifying that the requirement that candidates be placed on the ballot in random order applies only to candidates for the Board of Trustees of the Office of Hawaiian Affairs:
- (3) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 981, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 981, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Inouye). Noes, 1 (Kidani). Excused, 1 (Taniguchi).

SCRep. 589 (Joint) Ways and Means and Judiciary on S.B. No. 891

The purpose and intent of this measure is to amend laws relating to Hawaiian home lands.

Specifically, the measure:

- (1) Inserts certain definitions relating to beneficiary consultation into the Hawaiian Homes Commission Act, 1920;
- (2) Requires five of the nine members of the Hawaiian Homes Commission to be:
 - (A) At least one-fourth Hawaiian; and
 - (B) Beneficiaries of the trust who are on the waitlist for Hawaiian home lands at the time of their appointment;
- (3) Requires the Department of Hawaiian Home Lands to distribute quarterly reports to Hawaiian home lands beneficiaries, registered homestead associations, and the Legislature regarding land dispositions, lease cancellations, and trust fund receipts and expenditures;
- (4) Authorizes the Governor to establish an inter-agency council to address the purposes of the Hawaiian Homes Commission Act, 1920;
- (5) Requires the Department of Hawaiian Home Lands to include an accounting of expenditures made pursuant to Act 14, Special Session Laws of Hawaii 1995, in its annual report on the Hawaiian home lands trust fund;
- (6) Requires the Department of Hawaiian Home Lands to develop and implement a loan servicing manual;
- (7) Authorizes the Department of Hawaiian Home Lands to retain independent legal counsel;
- (8) Excludes attorneys employed by the Department of Hawaiian Home Lands from the general provision that full-time departmental attorneys shall be deputy attorneys general; and
- (9) Requires the Legislative Reference Bureau to conduct a study on the implications of creating a position for the Director of Hawaiian Home Lands that is separate from the Chairperson of the Hawaiian Homes Commission.

Your Committees received written comments in support of this measure from a member of the Kauai County Council.

Your Committees received written comments in opposition to this measure from the Department of the Attorney General.

Your Committees received written comments on this measure from the Department of Hawaiian Home Lands and the Legislative Reference Bureau.

Your Committees find that the Hawaiian Homes Commission Act, 1920, enables native Hawaiian beneficiaries to access state lands to improve and perpetuate self-sufficiency and cultural preservation. Your Committees believe that the Department of Hawaiian Home Lands and Hawaiian Homes Commission should be governed in ways that ensure their accountability and fulfill their duties toward the preservation of beneficiaries' values, traditions, culture, and self-sufficiency.

Your Committees recognize that the Department of Hawaiian Home Lands currently prepares monthly reports for the Hawaiian Homes Commission and completes an annual independent and financial agency audit. Your Committees believe, however, that a quarterly report on land dispositions, lease cancellations, and trust fund receipts will increase transparency for the department's beneficiaries.

Your Committees also find that the Department of Hawaiian Home Lands has an extensive lease cancellation process. Your Committees believe that requiring the Department of Hawaiian Home Lands to develop and implement a loan servicing manual would enhance its efforts to assist distressed beneficiaries who are facing lease cancellation.

Your Committees have amended this measure by:

- (1) Deleting certain definitions relating to beneficiary consultations and inserting substantive provisions that establish standards and requirements for beneficiary consultations;
- 2) Providing that the five members who are required to have Hawaiian ancestry to serve as members of the Hawaiian Homes Commission shall either be:
 - (A) At least one-fourth Hawaiian; or
 - (B) Beneficiaries of the trust who are on the waitlist for Hawaiian home lands at the time of their appointment;
- (3) Authorizing the Hawaiian Homes Commission to recommend to the Governor the establishment, membership, and other specifics regarding an inter-agency council, and authorizing the Governor to establish the council based on the Commission's recommendation:
- (4) Requiring the Legislative Reference Bureau, in conducting its study, to assume, among other matters, that:
 - (A) The Governor shall appoint the Director of Hawaiian Home Lands; and
 - (B) The Director of Hawaiian Home Lands would not be eligible to be considered as the Chairperson of the Hawaiian Homes Commission;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 891, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 891, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (English, Taniguchi).

Judiciary: Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 590 Judiciary on S.B. No. 402

The purpose and intent of this measure is to:

- (1) Require reporting of expenditures by candidate committees made to reimburse individuals other than the candidate for expenditures advanced by those individuals, in addition to reimbursements to the candidate; and
- (2) Delete "candidate reimbursements" from the category of expenditures that noncandidate committees must itemize in their report.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii.

Your Committee finds that under existing law, only reimbursements to candidates are required to be itemized in candidate committee reports. Your Committee further finds that in many instances, individuals other than the candidate are being reimbursed for campaign costs advanced by those individuals. Your Committee additionally finds that requiring reimbursements to those other individuals to be itemized is consistent with the policy goals of the States' campaign finance law.

Your Committee also finds that, under section 11-335(b), Hawaii Revised Statutes, noncandidate committees are prohibited from receiving or making loans. Thus, noncandidate committees should not be required to report reimbursements to candidates.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 402 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 591 Judiciary on S.B. No. 548

The purpose and intent of this measure is to amend elections laws to clarify the administration of elections by mail by:

- (1) Renaming districts as precincts;
- (2) Extending voter registration deadlines;
- (3) Requiring additional voter service centers on election day; and
- (4) Repealing election days as designated state holidays.

Your Committee received testimony in support of this measure from the Office of Elections, Office of the County Clerk of the County of Kaua'i, Disability and Communication Access Board, LGBT Caucus of the Democratic Party of Hawai'i, League of Women Voters of Hawaii, National Federation of the Blind of Hawaii, Common Cause Hawaii, AARP Hawai'i, Sierra Club of Hawai'i, Community Alliance on Prisons, and ten individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Elections Division of the City and County of Honolulu, Office of the County Clerk of the County of Hawai'i, and one individual.

Your Committee finds that Act 136, Session Laws of Hawaii 2019, provided that all elections statewide were to be conducted by mail beginning with the 2020 primary election. Your Committee further finds that although the administration of elections by mail in the State has been generally successful, further refinement and clarification of election law is required.

Your Committee has amended this measure by:

- (1) Deleting language that removed elections days as state holidays;
- (2) Requiring a minimum of four precincts in each representative district and a minimum of one precinct on each inhabited island with at least one hundred residents;
- (3) Establishing voters with special needs advisory committees at the State and county level;
- (4) Requiring the Department of Public Safety to inform persons on probation or parole that they have the right to vote and to provide them with information on how to register and vote;
- (5) Allowing registrants to state that they cannot read standard print due to a disability and are requesting an electronic ballot be sent via email on the voter registration affidavit;
- (6) Requiring ballot packages to be mailed so that they arrive at least eighteen days before an election instead of approximately eighteen days before an election and exempting the State and counties from liability if the ballot packages are received fewer than eighteen days before an election;
- (7) Requiring ballot deficiencies to be cured within five business days instead of seven calendar days;
- (8) Allowing ballot tabulation to begin on the eighteenth day before an election instead of the tenth day;
- (9) Adding areas designated for voters waiting to vote at voter service centers and places of deposit to the areas near which campaign activities are prohibited;
- (10) Requiring the Office of Elections and the county clerks to make a determination as soon as practicable of the optimal number and placement of voter service centers and places of deposit; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 548, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 548, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 592 Judiciary on S.B. No. 1387

The purpose and intent of this measure is to require dog and cat owners to microchip their pets, if the pets are not licensed.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Poi Dogs & Popoki, American Bird Conservancy, Hawaii Association of Animal Welfare Agencies, and three individuals. Your Committee received testimony in opposition to this measure from Neighborhood Cats, The Libertarian Party of Hawaii, Best Friends Animal Society, and one individual.

Your Committee finds that microchip identification is the single most effective way of returning lost pets to their owners. A microchip is about the size of a grain of rice and, once implanted beneath the pet's skin between the shoulders, it can be scanned and then used to find the owner's contact information in a registry. Found pets can be taken to a veterinary office, rescue organization or shelter, or even a pet store to have the pet checked for a microchip. Your Committee further finds that microchip identification can efficiently reunite lost pets with their owners and simultaneously minimize the adverse effects of lost and stray animals on communities and wildlife.

Your Committee has amended this measure by:

- Clarifying that the requirement that animal control contractors activate the found pet alert only applies if the pet is found and the owner is not present;
- (2) Placing the definitions of "microchip" or "microchip identification" and "owner" into the new statutory section;
- (3) Requiring licensing and microchips for dogs, but only microchips for cats;
- (4) Inserting an effective date of May 6, 2137, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1387, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1387, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 593 Judiciary on S.B. No. 1327

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee received comments on this measure from the Contractors License Board.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to Chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

Your Committee has amended this measure by:

- (1) Deleting section 14 of this measure and the amendment to section 444-26(b), Hawaii Revised Statutes, in section 16 of this measure to remove the amendments relocating the definition of "person injured" or "injured person" from section 444-26(b), Hawaii Revised Statutes, to section 444-1, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1327, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 594 Judiciary on S.B. No. 834

The purpose and intent of this measure is to establish the felony offense of importation, sale, or possession of a childlike sex doll.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Hoʻola Na Pua, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the widespread availability of childlike sex dolls enables the exploitation, objectification, abuse, and sexual assault of minors. Childlike sex dolls are designed to look and feel as lifelike as possible. The legislature recognizes that possession of a childlike sex doll correlates with other offenses perpetrated against children. This measure will help protect minors from the harm associated with childlike sex dolls by establishing the felony offense of importation, sale, or possession of a childlike sex doll

Your Committee has amended this measure by amending the definition of "childlike sex doll" to be consistent with language in other sections of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 834, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 595 Judiciary on S.B. No. 714

The purpose and intent of this measure is to clarify that the rights of publicity includes the rights of individuals who died prior to the enactment of the Hawaii Publicity Rights Act.

Your Committee received testimony in support of this measure from SAG-AFTRA Hawaii Local, Hawaii Academy of Recording Arts, one member of the Honolulu City Council, and thirteen individuals.

Your Committee finds that the Hawai'i Publicity Rights Act (HPRA), was enacted on July 15, 2009, to recognize the existence of the right of publicity, which is a property right in the commercial use of one's name, voice, signature, likeness, and other commercially valuable attributes. Your Committee further finds that the Legislature's intent in enacting the HPRA in 2009 was to recognize the right of publicity held by all persons, living and dead, including those who predeceased the enactment of the HPRA. This measure will clarify that the HPRA applies retroactively to protect the publicity rights of individuals who died prior to the date of its enactment.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 714, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 596 Judiciary on S.B. No. 630

The purpose and intent of this measure is to establish that every judgment for child support is enforceable until paid in full.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the costs associated with raising a child are extensive and persist for many years. Your Committee further finds that in the case of couples with children who are separated or divorced, these costs can be borne primarily by one of the parents. Your Committee additionally finds that unpaid child support obligations impose an unjust burden on parents who are the sole or primary caretaker of their child or children, and that if child support judgments expire over time, parents in arrears may be incentivized to avoid making payment.

Your Committee has amended this measure by:

- Clarifying that judgments for child support are enforceable until paid in full notwithstanding any other provision of law to the contrary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 630, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 630, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 597 Judiciary on S.B. No. 566

The purpose and intent of this measure is to:

- (1) Increase the homestead exemption for all persons to \$2,000,000; and
- (2) Require that the exempted real property be the principal residence.

Your Committee received testimony in support of this measure from the Maui Brewing Co. and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Bankers Association and Hawaii Financial Services Association. Your Committee received comments on this measure from the Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic and the governmental responses to contain the spread of COVID-19 have precipitated an economic contraction on global, national, and local levels. Your Committee further finds that this contraction has dramatically increased the unemployed population in Hawai'i and resulted in a decline in income for almost half of the households in the State. Your Committee additionally finds that the percentage of persons who are not current on their mortgage loans more than doubled from 2019 to 2020. Your Committee also finds that, since the amount of the homestead exemption has not been adjusted since 1978, increasing it to better reflect the effects of inflation and the economic impacts of the pandemic will benefit homeowners in the State.

Your Committee has amended this measure by:

- (1) Changing the exemption amount from \$2,000,000 to \$350,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 566, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 598 Judiciary on S.B. No. 406

The purpose and intent of this measure is to clarify that Campaign Spending Commission personnel includes staff and that the staff may initiate complaints on behalf of the Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that the assistance of staff is valuable to the functions of the Campaign Spending Commission, including the initiation of the complaint process. Your Committee further finds that members of the Commission are appointed by the Governor from a list of nominees submitted by the Judicial Council, but that Commission staff are not subject to this appointment process.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that staff of the Campaign Spending Commission may initiate complaints but are not members of the Commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 406, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 406, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 599 Judiciary on S.B. No. 148

The purpose and intent of this measure is to require certain landlords, lessors, or plaintiffs in a summary possession action to provide proof of payment of taxes due to the State as a condition of the issuance of a writ of possession.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that under current law, it is possible for landlords in irregular landlord-tenant arrangements, such as work-for-room-and-board or rent-to-own arrangements, to take advantage of summary possession proceedings instead of foreclosure actions without paying the taxes required in normal long- or short-term lease situations. Your Committee acknowledges that tax returns indicate the amount of income reported and the amount of tax owed but do not indicate the actual source of income. However, your Committee further finds that demonstrating general excise tax licensure in good standing can be an indicator of compliance with state general excise tax laws in general.

Your Committee has amended this measure by:

- (1) Requiring only a general excise tax license in good standing as a condition to the issuance of a writ of possession; and
- (2) Inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 148, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 600 Ways and Means on S.B. No. 819

The purpose and intent of this measure is to extend the hospital sustainability program.

Your Committee received written comments in support of this measure from the Department of Human Services, Healthcare Association of Hawaii, Hawaii Primary Care Association, Hawaii Pacific Health, and The Queen's Health Systems.

Your Committee finds that the hospital sustainability program is vital to preserve hospital access for Medicaid beneficiaries, especially as the State continues to face challenges from the coronavirus disease 2019 (COVID-19) pandemic and the recent recession. Your Committee notes that the program functions by levying a fee on participating providers, and that funds generated through the fee are used to draw down additional matching federal dollars, which are then distributed back to providers to help cover the difference between Medicaid reimbursements and Medicare reimbursements. Your Committee also finds that the funds generated from the fee will ensure that hospitals continue operations, help address budget constraints in the Medicaid program, and provide necessary funds that will help cover the program's budget shortfall without using moneys from the State's general fund.

Your Committee has amended this measure by:

- (1) Clarifying that children's hospitals, psychiatric hospitals, and rehabilitation hospitals may be assessed hospital sustainability fees at a different rate than other private hospitals;
- (2) Correcting language in a reference to section 346G-4(c), Hawaii Revised Statutes; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 819, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 819, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 601 Ways and Means on S.B. No. 1018

The purpose and intent of this measure is to require the Department of Health to establish pilot projects to reorganize departmental divisions and offices.

Specifically, this measure requires the Department of Health to:

- (1) Establish four two-year pilot projects to reorganize the:
 - (A) Behavioral Health Services Administration;
 - (B) Environmental Health Administration;
 - (C) General administration, including the Office of the Director of Health; and
 - (D) Health Resources Administration;

- (2) Consult with the Department of Budget and Finance and the Department of Human Resources Development regarding the reorganization; and
- (3) Conduct the reorganization to make the department more cost-effective and to improve its ability to meet the needs of the community.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Psychological Association, and one individual.

Your Committee finds that reorganization will help the Department of Health to increase efficiency and more quickly respond to the needs of specific communities and the public in general.

Your Committee has amended this measure by:

- (1) Clarifying that the reorganization of the Department of Health will be a single pilot project, instead of four separate pilot projects;
- (2) Requiring the Department of Health to submit reports to the Legislature regarding the pilot project; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1018, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 602 (Majority) Ways and Means on S.B. No. 1423

The purpose and intent of this measure is to provide the necessary powers, appropriations, and guidance to ensure optimal development of the Stadium Development District as intended by Act 268, Session Laws of Hawaii 2019, which established the Stadium Development District.

Specifically, this measure:

- (1) Establishes the stadium development district special fund;
- (2) Revises the general development guidance policies of the Stadium Development District and clarifies the respective roles of the Stadium Authority and Hawaii Community Development Authority in the development of the Stadium Development District:
- (3) Broadens the powers and duties of the Stadium Authority, including authorizing the Stadium Authority to acquire and hold title to real property;
- (4) Exempts the lands to which the Stadium Authority holds title from the definition of "public lands";
- (5) Authorizes the Hawaii Community Development Authority, with approval from the Governor, to delegate implementation of capital improvement projects to other state agencies, under certain conditions;
- (6) Adds two members to the Stadium Authority; and
- (7) Makes public the financial disclosures of members of the Stadium Authority, pursuant to section 84-17(d), Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Stadium Authority, Chamber of Commerce Hawaii, and BIA Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance, League of Women Voters, Hawaii Community Development Authority, and one individual.

Your Committee finds that the State has the potential to establish the Stadium Development District as a premier destination for sports and events and a vital center for residential housing, retail, and other transit-oriented development. Your Committee also finds that this measure clarifies the roles and responsibilities of all agencies involved in the development of the Stadium Development District and provides a basis to advance the progress of the Stadium Development District.

Your Committee has amended this measure by:

- Establishing the stadium development special fund under Chapter 109, Hawaii Revised Statutes, instead of Chapter 206E, Hawaii Revised Statutes, into which all funds collected by the Stadium Authority after the effective date of the measure shall be deposited;
- (2) Authorizing the Stadium Authority to continue to encumber and expend any moneys that were deposited into the stadium special fund prior to the effective date of the measure until the remaining balance of the stadium special fund is depleted;
- (3) Providing for the closure of the stadium special fund after all remaining moneys in the stadium special fund are depleted;
- (4) Making the Stadium Authority, rather than the Hawaii Community Development Authority, the expending agency for the appropriation of general obligation bond proceeds;

- (5) Providing for the continued expenditure by the Stadium Authority of general obligation bond proceeds previously appropriated by Act 268, Session Laws of Hawaii 2019, as amended by Act 4, Session Laws of Hawaii 2020;
- (6) Authorizing the Hawaii Community Development Authority to use its special facilities powers under part VI of Chapter 206E, Hawaii Revised Statutes, to assist in the development of projects under the control of other public agencies;
- (7) Requiring the Stadium Authority and Hawaii Community Development Authority to enter into a memorandum of agreement regarding the implementation responsibilities of the respective agencies;
- (8) Making the appropriation of general obligation bond proceeds for fiscal year 2021-2022 effective on July 1, 2021; and
- (9) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1423, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1423, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 603 Education on S.B. No. 76

The purpose and intent of this measure is to:

- (1) Require that the Board of Education prioritize for the superintendent of education position, candidates that have the minimum qualification of ten years of employment in a department of education with at least five of those years serving in the capacity as a principal or higher; and
- (2) Specify that a desired qualification for a candidate is having a working understanding of the State's tri-level system of educational administration.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that Hawaii has a unique, statewide public education system. The state educational agency and local education agency are one and the same, and its leadership requires a unique perspective and experience. Hawaii is also the only state that provides all public school funding without any additional support from the counties. This measure will meaningfully raise and specify the qualifications for candidates for the superintendent of education position.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 76, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 604 Ways and Means on S.B. No. 315

The purpose and intent of this measure is to appropriate moneys for the State of Hawaii Museum of Natural and Cultural History.

Your Committee received testimony in support of this measure from the Bishop Museum.

Your Committee finds that the moneys appropriated by this measure will allow the State of Hawaii Museum of Natural and Cultural History to continue to protect the State's irreplaceable collections and primary source knowledge and to serve as a global resource on Hawaii's natural history and cultural heritage.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 315, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 315, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 605 Ways and Means on S.B. No. 911

The purpose and intent of this measure is to clarify existing, and establish new, eligibility and document provision requirements for organizations applying for grants under chapter 42F, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of Community Services and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Youth Services Network.

Your Committee received written comments on this measure from the Department of Taxation, Domestic Violence Action Center, and Hawaii Alliance of Nonprofit Organizations.

Your Committee finds that requiring organizations applying for grants under chapter 42F, Hawaii Revised Statutes, to provide certain documentation at the beginning of the Legislature's reviewing process will improve the effectiveness of the grant-application process.

Your Committee has amended this measure by:

- (1) Amending section 42F-102, Hawaii Revised Statutes, to require the submission of certain documentation with each request for a grant under chapter 42F, Hawaii Revised Statutes;
- (2) Clarifying that certain requirements in section 42F-103, Hawaii Revised Statutes, are eligibility requirements for receiving a grant and not requirements for the provision of documents;
- (3) Inserting a provision allowing an organization to qualify for a grant under chapter 42F, Hawaii Revised Statutes, if the organization is registered with the Department of Commerce and Consumer Affairs and in possession of a valid certificate of vendor compliance issued by the State;
- (4) Clarifying that an applicant for a grant may provide evidence of filing federal Form 990-PF, in addition to certain other federal tax forms:
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 911, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 606 Public Safety, Intergovernmental, and Military Affairs on Gov. Msg. No. 607

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII PAROLING AUTHORITY

G.M. No. 607 GENE DEMELLO JR, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Gene DeMello, Jr. for service on the Hawaii Paroling Authority.

Your Committee received testimony in support of the nomination for the appointment of Gene DeMello, Jr. from the Department of Public Safety, Hawaii Paroling Authority, and ten individuals.

Upon review of the testimony, your Committee finds that Mr. DeMello's experience, knowledge, background, and commitment to public service qualify him to be nominated for appointment to the Hawaii Paroling Authority. Your Committee notes that Mr. DeMello has spent over thirty years in community corrections and has dedicated his entire career to transitioning incarcerated individuals as they return to life in the community. For the majority of his career, Mr. DeMello was with the United States Probation Office as a Probation Office, Supervisor, and Assistant Deputy Chief until he retired after twenty-eight years of service. Mr. DeMello has the knowledge base and skill set to make critical decisions and has a thorough understanding of the roles and responsibilities of the Hawaii Paroling Authority. Your Committee therefore recommends that Mr. DeMello be appointed to the Hawaii Paroling Authority based on his knowledge, experience, loyalty, integrity, commitment, and dedication to the mission of the Hawaii Paroling Authority.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 607 Public Safety, Intergovernmental, and Military Affairs on Gov. Msg. No. 507

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR OF THE DEPARTMENT OF PUBLIC SAFETY

G.M. No. 507 MAX OTANI, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Max Otani for service on the Department of Public Safety.

Your Committee received testimony in support of the nomination for the appointment of Max Otani from the Governor; Department of Transportation; Department of Health; Department of Taxation; Department of Budget and Finance; Department of Human Resources Development; Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Department of Accounting and General Services; Department of Land and Natural Resources; Department of Agriculture; Department of Hawaiian Homelands; Department of Defense; Crime Victim Compensation Commission; Office of Enterprise Technology Services; Hawaii Paroling Authority; Hawaii State Energy Office; Hina Mauka; and thirty-two individuals. Your Committee received comments on the nomination for the appointment of Mr. Otani from one individual

Upon review of the testimony, your Committee finds that Mr. Otani's experience, background, and commitment to public service qualify him to be nominated for appointment to the Department of Public Safety. Your Committee notes that Mr. Otani has over thirty years of experience working in the criminal justice field and has held various positions throughout his career, ranging from probation officer to Division Administrator for the Intake Service Center for the Department of Public Safety. Mr. Otani was selected to be a member of the Hawaii Paroling Authority in 2019 where he has taken on many positions and responsibilities. Mr. Otani was appointed to be the Acting Director of the Department of Public Safety on December 1, 2020, where he was challenged with addressing urgent problems associated with the coronavirus disease 2019 (COVID-19) pandemic, including responding to COVID-19 outbreaks in Hawaii's correctional facilities. Together with three strong Deputy Directors and able staff, Mr. Otani was able to systematically implement appropriate responses to the outbreaks in the State's correctional facilities.

Mr. Otani is admired and respected by his colleagues, as evidenced by the number of positive testimony submitted on his behalf. Testimony in support of his nomination indicates that he has a proven track record of strong leadership and dedication, possesses a sound knowledge of law enforcement and the judicial system, and has a real understanding of the challenges that the Department of Public Safety faces, particularly as the State continues to deal with the COVID-19 pandemic. Mr. Otani has been described as a humble, compassionate, and competent leader and well-suited to lead the Department of Public Safety. Mr. Otani has also been described to be the right person to transform the State's public safety system and shepherd it forward during these challenging times.

Your Committee further finds that during the course of Mr. Otani's public service career at the Department of Public Safety, he has gained broad experiences and extensive knowledge regarding the various issues relating to corrections and law enforcement in the State. Mr. Otani has excellent credentials and has demonstrated a high level of understanding of the State's public safety needs and how those needs can be met. His years of service to the State are an indication of his dedication to public service and he has demonstrated tremendous leadership skills while still maintaining the respect of his peers. Your Committee therefore recommends that Mr. Otani be appointed as Director of the Department of Public Safety based on his knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 608 Ways and Means on S.B. No. 1353

The purpose and intent of this measure is to expand the duties of the Hawaii Sate Energy Office to include planning and supporting opportunities for economic development.

Specifically, the measure transfers certain duties relating to energy efficiency; renewable energy; energy resilience; and clean transportation incentives, programs, and goals from the Chief Energy Officer to the Hawaii State Energy Office.

Your Committee received written comments in support of this measure from the Hawaii Clean Power Alliance.

Your Committee received written comments on this measure from the Hawaii State Energy Office.

Your Committee finds that expanding the duties of the Hawaii State Energy Office to prioritize economic development will create long- and short-term jobs in the State and support ancillary industries.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1353, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1353, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, none.

SCRep. 609 (Majority) Judiciary on S.B. No. 413

The purpose and intent of this measure is to exclude violation of privacy in the first degree, and certain subsections of violation of privacy in the second degree, from qualifying for pleas of deferred acceptance of guilty or nolo contendere.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that under existing law a defendant may request a deferral of their criminal charges under certain circumstances. The trial court, after considering the merits of the case, and hearing argument from the prosecutor, may grant a deferral of the proceedings, only if the trial court finds that the defendant is not likely again to engage in a criminal course of conduct and that the ends of justice and welfare of society do not require that the defendant suffer the penalty imposed by law. The court may ultimately discharge the defendant and dismiss the charge if certain conditions are met. Several exclusions apply to this provision, including, among others, when the offense is a class A felony, the defendant has a prior felony conviction, a firearm was used in the offense, or if the defendant is accused of certain serious offenses.

Your Committee further finds that the unauthorized, surreptitious recording of a person in a state of undress or participating in a private sexual act is a criminal violation of a person's right to privacy. The release of or threat to release such recordings or images, sometimes referred to as revenge porn, can cause irreparable personal, professional, and financial harm. This measure excludes such instances of invasion of privacy offenses from qualifying for deferred acceptance of guilty or nolo contendere pleas in order to hold perpetrators to a higher level of accountability for their actions and provide a deterrent for repeat offenses.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 413, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 413, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 610 Government Operations on S.B. No. 82

The purpose and intent of this measure is to amend the law relating to government operation and policy.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Require each new member of a board or commission to participate in a formal educational and orientation session with the head of the department with jurisdiction of that member's board or commission to receive voting rights; and
- (2) Require each department and agency to train their members at least once per calendar year.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 82, as amended herein, and recommends that it be recommitted to your Committee on Government Operations, in the form attached hereto as S.B. No. 82, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 611 Government Operations on S.B. No. 83

The purpose and intent of this measure is to amend the law relating to government.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to designate November 28 of each year as La Kuʻokoʻa, Hawaiian Recognition Day, not constituting a state holiday, to celebrate the historical recognition of independence of the kingdom of Hawaii.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 83, as amended herein, and recommends that it be recommitted to your Committee on Government Operations, in the form attached hereto as S.B. No. 83, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 612 Commerce and Consumer Protection on S.B. No. 1096

The purpose and intent of this measure is to amend various portions of the insurance code to update and improve existing provisions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawai'i, Hawaii Medical Service Association, and the National Association of Mutual Insurance Companies.

Your Committee finds that a number of administrative amendments to Hawaii's insurance code are necessary to enhance consumer protections for residents in this State. This measure, among other things, will mandate contractual terms for agreements between public adjusters and insurers, establish uniform standards for limited lines producer licenses, grant the Insurance Commissioner authority to waive certain fees, require electronic filings to support efficiency, and clarify that rewards under certain wellness programs do not constitute a rebate, which may, in turn, reduce utilization of health services and potentially reduce insurance premiums.

Your Committee has amended this measure by:

- (1) Clarifying that the Insurance Commissioner shall appoint certain members to the Board of Governors within the Joint Underwriting Plan Bureau; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1096, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 613 Commerce and Consumer Protection on S.B. No. 1098

The purpose and intent of this measure is to adopt certain provisions of the National Association of Insurance Commissioners' Producer Licensing Model Act, Public Adjuster Licensing Model Act, Reinsurance Intermediary Model Act, and Independent Adjuster Licensing Model Guidelines to provide consistency and promote efficiency in processing insurance licensing fees, applications, certificates, registrations, and renewals.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing state law does not list all of the licenses, registrations, and fees issued by the Insurance Division of the Department of Commerce and Consumer Affairs, which may create confusion. This measure makes necessary amendments to more accurately reflect the licenses, registrations, and fees issued by the Insurance Division, and will help facilitate the transition to electronic processing and conform certain penalties to model acts.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1098, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1098, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 614 Commerce and Consumer Protection on S.B. No. 1100

The purpose and intent of this measure is to adopt the National Conference of Insurance Commissioners' Insurance Data Security Model Law to establish insurance data security standards for Hawaii insurance licensees.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Hawaii Insurers Council, American Council of Life Insurers, and National Association of Mutual Insurance Companies.

Your Committee finds the National Conference of Insurance Commissioners adopted the Insurance Data Security Model Law in 2017 to strengthen existing data privacy standards and consumer breach notification obligations of insurance licensees. If states do not adopt provisions of this model law by 2022, they risk federal preemption of state laws in this area. Although some insurance licensees may already have cybersecurity policies and protocols in place, this measure will ensure and formalize insurance data security protections for all licensees.

Your Committee has amended this measure by:

- (1) Inserting a purpose and findings section;
- (2) Amending the definitions of "cybersecurity event", "information system", and "nonpublic information";
- (3) Clarifying licensee oversight requirements for third-party service provider arrangements to recognize the unique nature of cloud services;
- (4) Clarifying insurers domiciled in this State shall annually submit written statements to the Insurance Commissioner by March 31, rather than February 15;
- (5) Specifying that if the licensee provides nonpublic information to a third-party service provider and learns that a cybersecurity event has or may have impacted the licensee's nonpublic information in a system maintained by a third-party service provider, the licensee shall complete certain steps or confirm and document that the third-party service provider has taken certain steps;
- (6) Requiring that each licensee shall notify the Insurance Commissioner no later than three business days, rather than twenty-two hours, from the determination that a cybersecurity event has impacted two hundred fifty or more consumers, and further clarifying the criteria for when notification shall be provided;
- (7) Clarifying that licensees shall have a continuing obligation to update and supplement initial notifications to the Insurance Commissioner regarding material changes to previously provided information;
- (8) Clarifying the notification requirements regarding cybersecurity events of reinsurers to insurers;
- (9) Clarifying that the licensee's domiciliary regulator, rather than strictly the Insurance Commissioner, shall have the power to examine and investigate the affairs of any licensee, and further specifying investigation and examination powers;
- (10) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1100, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 615 Commerce and Consumer Protection on S.B. No. 1102

The purpose and intent of this measure is to allow mix martial arts promoters to pay fighters in cash.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law requires that mixed martial arts promoters pay fighters by check. However, many events undergo last minute changes to the fight card for various reasons including a fighter not making weight or getting injured during training. Most events take place on Saturdays, and fighters must weigh-in the day before the event. As a result, it is difficult for promoters to get new checks issued on a Saturday because most financial institutions are closed. By allowing payment to be made in cash, this measure tailors the requirements of state law to mirror the realities of the event process and make it easier for promoters to make changes to the fight card.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1102 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 616 Commerce and Consumer Protection on S.B. No. 1103

The purpose and intent of this measure is to clarify the roles of the Board of Public Accountancy (Board) in selecting members to serve on the Board's Peer Review Oversight Committee (PROC).

Your Committee received testimony in support of this measure from the Board of Public Accountancy.

Your Committee finds the standards of review for the profession of public accountancy can change frequently, and it is anticipated that the PROC's duties will increase substantially because of recent changes. It is necessary for the Board to have flexibility and discretion in selecting members who have the ability and aptitude to serve on the PROC. Accordingly, this measure will help the Board appropriately and timely appoint PROC members by removing the requirement that a prospective PROC member's firm has a rating of "pass" or an unmodified opinion from its last peer review and grants the Board broader discretion in selecting members for the PROC.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 617 Commerce and Consumer Protection on S.B. No. 1150

The purpose and intent of this measure is to:

- (1) Allow the Department of Health to accept accreditation or certification of a skilled nursing facility by a nationally recognized accreditation or certification organizations; and
- (2) Exempt skilled nursing facilities from a licensing inspection on a continuing basis, provided they meet certain requirements.

Your Committee received comments on this measure from the Healthcare Association of Hawaii.

Your Committee finds that The Joint Commission and other nationally recognized accrediting agencies have certification standards that are more stringent than those required by state law. Your Committee further finds that authorizing the Department of Health to recognize these accreditation and certification reviews to establish a facility's compliance with all licensing requirements of the State will allow the Department of Health more resources to continue its regulatory oversight responsibilities for licensing purposes, while also permitting the Department's Office of Healthcare Assurance to deploy staffing resources to other equally important investigations and surveys.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 618 Commerce and Consumer Protection on S.B. No. 766

The purpose and intent of this measure is to allow a penalty of up to \$5,000 for repeat offenders of the motor carrier law.

Your Committee received testimony in support of this measure from the Public Utilities Commission.

Your Committee finds that motor carriers regulated by the Public Utilities Commission (PUC) traditionally transport high numbers of tourists to many locations around the State. However, the trucking and tour vehicle industries have long had to contend with unlicensed and unregulated operators who seek to skirt the PUC regulatory requirements for motor carrier operations. This measure will strengthen the PUC's ability to penalize repeat offenders of the motor carrier laws.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 766 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

SCRep. 619 Commerce and Consumer Protection on S.B. No. 615

The purpose and intent of this measure is to:

- (1) Prohibit the operation of a moped or motor scooter rented from any rental company unless the operator wears a safety helmet; provided that the prohibition does not apply if the operator has a valid license from any state to operate a motorcycle; and
- (2) Prohibit the rental of any moped or motor scooter with an aftermarket modification to its motor.

Your Committee received testimony in support of this measure from the Honolulu Police Department, AAA Hawaii, and twenty-eight individuals.

Your Committee finds that from 2016 to 2018, there were twenty-three motor scooter and moped operator fatalities, and of the twenty-three fatalities, twenty-two operators were not wearing helmets. Wearing a helmet while operating a moped, powered scooter, or other motorized cycle decreases fatalities and serious injuries. Your Committee notes that according to the Hawaii Injury Prevention Plan for 2012-2017, published by the Department of Health and the Emergency Services and Injury Prevention System Branch, properly worn helmets can reduce the risk of death by forty-two percent and the risk of a head injury by sixty-nine percent. This measure requires anyone who rents or leases a motor scooter or moped to wear a helmet to help reduce motor scooter and moped related fatalities.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 620 Commerce and Consumer Protection on S.B. No. 599

The purpose and intent of this measure is to require massage therapy licensees to complete twelve hours of continuing education in the two years between their license renewals, beginning July 1, 2022; provided that two hours of the continuing education shall include first aid, cardiopulmonary resuscitation, or emergency-related courses.

Your Committee received testimony in support of this measure from the Board of Massage Therapy, American Massage Therapy Association – Hawaii Chapter, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that requiring continuing education for licensed massage therapists will elevate the massage therapy profession to the highest standards of quality and safety. Your Committee further finds that twelve hours of continuing education hours in areas such as cardiopulmonary resuscitation, first aid, and other emergency training is a reasonable requirement for renewal and raises the level of professionalism for massage therapists. Additionally, this measure ensures that state requirements are consistent with national trends and best practices, as continuing education is required in forty other states for massage therapist license renewals.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 621 Commerce and Consumer Protection on S.B. No. 489

The purpose and intent of this measure is to increase the maximum area for each agricultural shade cloth structure, cold frame, and greenhouse that could qualify the structure for an exemption from building permit and building code requirements.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning; University of Hawai'i College of Tropical Agriculture and Human Resources; Hawai'i Farm Bureau; Ulupono Initiative LLC, Hawaii Cattlemen's Council, Inc.; Hawaii Farming LLC; Hydroponics Alternatives LLC; and one individual.

Your Committee finds that the existing maximum area for each agricultural shade cloth structure, cold frame, and greenhouse that qualifies the structure for an exemption from building permit and building code requirements is twenty thousand square feet. Increasing the maximum area allowed from twenty thousand to sixty thousand square feet will support local food production. Your Committee finds that this measure is narrowly tailored to apply to agricultural structures meant for agricultural production. Your Committee further finds that this measure will drastically cut construction costs and effectively utilize the open areas currently required between smaller greenhouses. According to testimony received by your Committee, this measure will make farming more productive and economically feasible for farmers and help Hawaii reach its self-sustaining food production goals.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 489 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 622 Commerce and Consumer Protection on S.B. No. 975

The purpose and intent of this measure is to establish procedures and rules for pharmacy audits that are necessary to prevent unfair pharmacy auditing practices.

Your Committee received testimony in support of this measure from the National Community Pharmacists Association, Times Supermarket and Times Pharmacy and one individual. Your Committee received testimony in opposition to this measure from CVS Health and Kaiser Permanente Hawaii.

Your Committee finds that although pharmacy audits are a necessary practice to identify fraud, abuse, and wasteful spending, they are often abused by pharmacy benefit managers (PBMs) to generate additional revenue sources for themselves at the expense of independent pharmacies, plan sponsors, taxpayers, and most importantly, patients. According to testimony received by your Committee, PBMs routinely go beyond the intent of the pharmacy audit and target community pharmacies and recoup money for harmless clerical errors where the correct medication was properly dispensed and no financial harm was incurred.

Your Committee further finds that not only have PBMs increasingly hired third party entities to conduct pharmacy audits, but PBMs also compensate these entities based on the amount of discrepancies they find and the amount of money they can help PBMs recoup. Your Committee recognizes that local pharmacies do not have the resources to keep contesting audit discrepancies, especially when the PBM refuses to overturn their decision, even after the pharmacy has provided sufficient documentation. This measure will help prevent abusive pharmacy auditing practices conducted by PBMs, health providers, insurance companies, third party payors, and any entity that represents these companies or groups.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 975, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 623 Commerce and Consumer Protection on S.B. No. 340

The purpose and intent of this measure is to amend certain land subdivision and condominium property regime laws related to agricultural land, as recommended pursuant to Act 278, Session Laws of Hawaii 2019, to ensure:

- (1) That a farm dwelling on agricultural land is a permitted use if it is an accessory to a farm, or where the agricultural activities provide income of no less than \$10,000 per year to the family occupying the dwelling, and verified by general excise tax return filing or agricultural tax dedication;
- (2) Structures on subdivided leasehold subdivisions of agricultural land are subject to county enforcement authority;
- (3) Applications for registration of condominium property regimes of agricultural land include county comments regarding the availability of supportive infrastructure, any potential impact on government plans and resources, and any other requirements pursuant to county ordinances and rule; and
- (4) The developer's public report pursuant to section 514B-83, Hawaii Revised Statutes, shall include a verified statement.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Commerce and Consumer Affairs Real Estate Commission; Office of Planning; City and County of Honolulu Department of Planning and Permitting; one member of the County Council of Maui; Ulupono Initiative LLC; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committee finds that the State must ensure that agricultural lands are being used for agricultural purposes and improve its enforcement to ensure that agricultural uses are taking place on agricultural lands. This measure amends certain land subdivision and condominium property regime laws related to agricultural land, as recommended by the Office of Planning in its study of subdivision and condominium property regimes on agricultural lands on Oahu, to ensure agricultural lands that are organized under a condominium property regime are used for agricultural purposes. This measure also allows meaningful county input in the condominium property regime process involving agricultural lands to ensure availability of necessary supportive infrastructure and to identify and mitigate any potential negative impacts to environmentally or culturally significant resources.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 340 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 624 Commerce and Consumer Protection on S.B. No. 838

The purpose and intent of this measure is to:

- (1) Define "financial management service provider";
- (2) Include assisting the care recipient and caregiver with the enrollment process as a duty of a coach;
- (3) Amend the definition of a "person-centered support plan" or "support plan" to require a qualified caregiver in its development and implementation;
- (4) Relax the thirty-hour per week employment requirement for qualified caregivers under the Kupuna Caregiver Program during a Governor-declared state of emergency;

- (5) Allow the Kupuna Caregiver Program to be delivered through traditional and kupuna caregiver-directed services; and
- (6) Allow the funds under the Kupuna Caregivers Program to be issued to the care recipient's financial management service provider.

Your Committee received testimony in support of this measure from the State Executive Office on Aging, Department of Human Services, Policy Advisory Board for Elder Affairs, and one individual.

Your Committee finds that the coronavirus disease 2019 pandemic has not only imposed additional stressors and isolation on vulnerable kupuna, but also increased the burden on caregivers and their caregiving duties. According to testimony received by your Committee, the Kupuna Caregivers Program requires more flexibility and more options to better serve kupuna and their caregivers. Your Committee further finds that this measure would improve the Kupuna Caregivers Program by providing additional options for kupuna caregivers to support their loved ones.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 625 Commerce and Consumer Protection on S.B. No. 1192

The purpose and intent of this measure is to:

- (1) Require that the dispensing of a pharmacist—prescribed opioid antagonist be reported to the State's Electronic Prescription Accountability System (EPAS); and
- (2) Require that dispensers of a controlled substance report "zero" dispensing if no prescriptions for designated controlled substances are filled, not less than once every seven days.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of Health.

Your Committee finds that Act 255, Session Laws of Hawaii 2019, allows pharmacists to issue prescriptions for opioid antagonists, thereby increasing access to lifesaving drugs. Your Committee further finds that the EPAS acts as a prescription drug monitoring system and is a useful tool to reduce the risk of substance abuse and addiction and helps prevent unintended drug interactions. According to testimony received by your Committee, efforts to track dispensing and distribution of opioid antagonists are decentralized. This measure will require pharmacists to report opioid antagonist prescriptions to the EPAS, thereby improving efficiency for reporting and collecting data to prevent opioid overdose.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 626 Commerce and Consumer Protection on S.B. No. 324

The purpose and intent of this measure is to clarify the definition of the practice of medicine in the Hawaii Revised Statutes to provide uniformity of practice for both medical physicians and osteopathic physicians.

Your Committee received testimony in support of this measure from the Hawaii Medical Board, Department of Commerce and Consumer Affairs' Regulated Industries Complaints Office, and Kaiser Permanente Hawaii.

Your Committee finds that the practice of medicine is no longer limited to the treatment of disease and now includes telehealth, medical imaging, and preventing mental and physical diseases, conditions, injuries, and other ailments. Expanding this scope of conduct will assist the Department of Commerce and Consumer Affairs in their enforcement responsibilities by providing tangible grounds on which to evaluate physician compliance with licensure laws. Your Committee further finds that the definition of the practice of medicine has not been amended since 2008. This measure appropriately updates the definition and brings it into parity with the current practice of medicine, thereby providing uniformity between medical doctors and osteopathic doctors who receive the same education and training.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 324, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 627 Commerce and Consumer Protection on S.B. No. 348

The purpose and intent of this measure is to:

- (1) Repeal the requirement that noncarbonated bottled water be transported, stored, processed, or bottled through lines or equipment through which only water is passed; and
- (2) Update section 328D-2, Hawaii Revised Statutes, to reflect current rules of the United States Food and Drug Administration (FDA) regarding product quality standards for bottled water.

Your Committee received testimony in support of this measure from Maui Brewing Co., Ball Corporation, Hawaii Food Industry Association, Ko Olina Resort Operators Association, Sierra Club's National Marine Team, and one individual. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that existing state law expressly prohibits carbonated soft drink, juice, and beer manufacturers in Hawaii from using the same equipment to can noncarbonated drinking water. Your Committee further finds that this existing state law is based on an outdated and superseded FDA rule. This measure repeals this existing restriction that unfairly and unnecessarily limits local beverage companies that manufacture other products from providing noncarbonated water in recyclable aluminum cans to consumers as an alternative to single-use plastic water bottles. According to testimony received by your Committee, this measure will also allow local businesses to expand into new products and encourage economic growth.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 348, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 628 Commerce and Consumer Protection on S.B. No. 1191

The purpose and intent of this measure is to:

- (1) Clarify that an advanced practice registered nurse or pharmacist may access information stored in the Electronic Prescription Accountability System (EPAS);
- (2) Allow authorized employees of the Department of Human Services, Med—QUEST Division to access EPAS information; and
- (3) Allow controlled substances prescribers, dispensers, and pharmacists employed by United States Department of Veterans Affairs facilities in Hawaii, who submit data of dispensing activity as described in section 329—101, Hawaii Revised Statutes, to access prescription information stored in the EPAS.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Health, and Department of Human Services.

Your Committee finds that clarifying the authority of advanced practice registered nurses, pharmacists, and Med—QUEST staff regarding EPAS access aligns with and supports the goals of the Hawaii Opioid Initiative to combat the national opioid crisis. Your Committee further finds that allowing controlled substances prescribers, dispensers, and pharmacists employed by United States Department of Veterans Affairs facilities in Hawaii to access EPAS will make state law consistent with the VA MISSION Act, which requires that every state provide these licensed health care providers and their delegates access to their EPAS, without exception. This measure clarifies who may access up—to—date and accurate prescription information stored in the EPAS or, as it is more commonly known, the Prescription Drug Monitoring Program. According to testimony received by your Committee, this measure better protects the community from prescribing and treatment practices that are of concern, especially the over-prescribing of opioids.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 629 (Joint) Hawaiian Affairs and Water and Land on S.C.R. No. 22

The purpose and intent of this measure is to encourage the Board of Land and Natural Resources to enter into a long-term water lease with the Wai'oli Valley Taro Hui for traditional lo'i kalo cultivation in Wai'oli, Kaua'i.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Kaua'i, one member of the Kaua'i County Council, Wai'oli Valley Taro Hui, Hanalei Watershed Hui, The Waipā Foundation, National Tropical Botanical Garden, Sierra Club of Hawai'i, Hawai'i Land Trust, Hanalei Hawaiian Civic Club, Kīpuka Kuleana, and thirty individuals. Your Committees received comments on this measure from one individual.

Your Committees find that for over a century, kalo farmers of the Wai'oli Valley Taro Hui have collaborated informally to steward and maintain Wai'oli Valley's natural resources, cultural lifeways, and community identity reliant upon those resources. Destruction of the historic mānowai and 'auwai in Wai'oli during the unprecedented floods of 2018 resulted in decreased water flow to lo'i kalo, and hampered the Hui's ability to restore its fields and feed its community. Your Committees also find that as part of its disaster relief efforts, the Department of Land and Natural Resources informed the Wai'oli Valley Taro Hui that portions of the current kalo irrigation system are located on conservation land, thus requiring a water lease. Additionally, the Wai'oli Valley Taro Hui has applied for an easement for their irrigation system and a revocable permit for water use; completed consultation with the Department of Hawaiian Home Lands on a draft Watershed Plan; is working with the Commission on Water Resource Management on an interim instream flow standard assessment; and is consulting with others on the preparation of a draft environmental assessment in compliance with chapter 343, Hawaii Revised Statues. In summary, the Wai'oli Valley Taro Hui has been working diligently to continue to maintain and perpetuate their land and its finite natural and cultural resources.

However, your Committees further find that subjecting the Wai'oli Valley Taro Hui to competition at a public auction for a water lease is concerning, due to their limited financial resources. Allowing the Hui to negotiate directly with the Board of Land and Natural Resources for this water lease phase would promote the Hui's continued traditional practice of lo'i kalo, and expand community-based cultural and agricultural education. Protections provided by article XI, sections 1 and 7, and article XII, section 7, of the Hawaii State Constitution; chapter 174C, Hawaii Revised Statutes; and decisions from the Hawaii Supreme Court, such as *In the Matter of the Water*

Use Permit Applications, Petitions for Interim Instream Flow Standard Amendments, and Petitions for Water Reservations for the Waiāhole Ditch Combined Contested Case Hearing, 9 P.3d 409 (2000), grant special protection and respect to traditional in-watershed cultivation of kalo, like the ones conducted by the Wai'oli Valley Taro Hui.

Your Committees have amended this measure by:

- (1) Amending its title to better reflect its purpose; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 22, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 22, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella). Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 630 (Joint) Hawaiian Affairs and Water and Land on S.R. No. 11

The purpose and intent of this measure is to encourage the Board of Land and Natural Resources to enter into a long-term water lease with the Wai'oli Valley Taro Hui for traditional lo'i kalo cultivation in Wai'oli, Kaua'i.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Kaua'i, one member of the Kaua'i County Council, Wai'oli Valley Taro Hui, Hanalei Watershed Hui, The Waipā Foundation, National Tropical Botanical Garden, Sierra Club of Hawai'i, Hawai'i Land Trust, Hanalei Hawaiian Civic Club, Kīpuka Kuleana, and thirty individuals. Your Committees received comments on this measure from one individual.

Your Committees find that for over a century, kalo farmers of the Wai'oli Valley Taro Hui have collaborated informally to steward and maintain Wai'oli Valley's natural resources, cultural lifeways, and community identity reliant upon those resources. Destruction of the historic mānowai and 'auwai in Wai'oli during the unprecedented floods of 2018 resulted in decreased water flow to lo'i kalo, and hampered the Hui's ability to restore its fields and feed its community. Your Committees also find that as part of its disaster relief efforts, the Department of Land and Natural Resources informed the Wai'oli Valley Taro Hui that portions of the current kalo irrigation system are located on conservation land, thus requiring a water lease. Additionally, the Wai'oli Valley Taro Hui has applied for an easement for their irrigation system and a revocable permit for water use; completed consultation with the Department of Hawaiian Home Lands on a draft Watershed Plan; is working with the Commission on Water Resource Management on an interim instream flow standard assessment; and is consulting with others on the preparation of a draft environmental assessment in compliance with chapter 343, Hawaii Revised Statues. In summary, the Wai'oli Valley Taro Hui has been working diligently to continue to maintain and perpetuate their land and its finite natural and cultural resources.

However, your Committees further find that subjecting the Wai'oli Valley Taro Hui to competition at a public auction for a water lease is concerning, due to their limited financial resources. Allowing the Hui to negotiate directly with the Board of Land and Natural Resources for this water lease phase would promote the Hui's continued traditional practice of lo'i kalo, and expand community-based cultural and agricultural education. Protections provided by article XI, sections 1 and 7, and article XII, section 7, of the Hawaii State Constitution; chapter 174C, Hawaii Revised Statutes; and decisions from the Hawaii Supreme Court, such as *In the Matter of the Water Use Permit Applications, Petitions for Interim Instream Flow Standard Amendments, and Petitions for Water Reservations for the Waiāhole Ditch Combined Contested Case Hearing*, 9 P.3d 409 (2000), grant special protection and respect to traditional in-watershed cultivation of kalo, like the ones conducted by the Wai'oli Valley Taro Hui.

Your Committees have amended this measure by:

- (1) Amending its title to better reflect its purpose; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 11, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 11, S.D. 1.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella). Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 631 Judiciary on S.B. No. 211

The purpose and intent of this measure is to require that the Hawaiian language version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Kūpuna for the Moʻopuna, and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Article XV, section 4, of the Hawaii State Constitution provides that English and Hawaiian shall be the official languages of Hawaii except that Hawaiian shall be required for public acts and transactions as provided by law. Although Hawaiian was established as an official language of the State of Hawaii and codified in section 1-13, Hawaii Revised Statutes, English continues to be dominate and Hawaiian language access to government functions remains limited. This measure, therefore, reinforces the parity of Hawaiian language with the English language by codifying that laws drafted in Hawaiian shall be binding.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 632 Judiciary on S.B. No. 537

The purpose and intent of this measure is to recognize American Sign Language as a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communication Access Board, Deaf and Blind Task Force, Maui Deaf Friends, and six individuals.

Your Committee finds that American Sign Language (ASL) is the primary language of many persons who are deaf or hard of hearing in the United States, including residents of Hawaii. Your Committee further finds that, although ASL is a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage, it was erroneously viewed for many years as a pantomime and a poor substitute for spoken speech. Your Committee additionally finds that recognizing ASL as a language will create more equitable access in numerous areas, including employment, public awareness, and civic participation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 633 Judiciary on S.B. No. 538

The purpose and intent of this measure is to:

- (1) Clarify the meaning of "program or activity receiving state financial assistance"; and
- (2) Exclude cases within the scope of the Individuals with Disabilities Education Act from the jurisdiction of the Hawaii Civil Rights Commission.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Civil Rights Commission, Disability and Communication Access Board, Hawaii Disability Rights Center, National Federation of the Blind of Hawaii, and two individuals.

Your Committee finds that when Act 387, Session Laws of Hawaii 1989, was enacted and codified as section 368-1.5, Hawaii Revised Statutes, it was meant to be the state counterpart to section 504 of the federal Rehabilitation Act of 1973, as amended, to provide a state remedy for disability discrimination and an alternative in situations in which federal remedies are also available. Your Committee further finds that the intent of section 368-1.5, Hawaii Revised Statutes, was originally, and is now, to give the Hawaii Civil Rights Commission jurisdiction over disability discrimination claims, even if protections under section 504 of the Rehabilitation Act, as amended, are available.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 634 Judiciary on S.B. No. 596

The purpose and intent of this measure is to repeal language that has been interpreted to allow members of the Board of Directors of the Hawaii Tourism Authority to hold office until the board member's successor is appointed and qualified, and instead prohibit holdover board members from holding office beyond the convening of the regular session following the expiration of the board member's term of office.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that holdover limitations for members of the Board of Directors of the Hawaii Tourism Authority are important to reduce redundancy and limit the power and scope of board members whose terms of office have expired. Your Committee also finds that the holdover language in section 26-34(b), Hawaii Revised Statutes, that has been interpreted to allow a holdover board member to potentially continue in office beyond the end of the second regular legislative session following the expiration of the board member's term of office are too long and counterproductive. Therefore, your Committee finds that any holdover on the Board of Directors of the Hawaii Tourism Authority should end by the start of the next regular legislative session following the expiration of the board member's term of office.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 596, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 635 Judiciary on S.B. No. 696

The purpose and intent of this measure is to extend the date on which the Temporary Commission on the Thirteenth Festival of Pacific Arts shall cease to exist from June 30, 2021, to August 31, 2025, and permit the Commission members to discuss matters

relating to official board business as a permitted interaction under chapter 92, Hawaii Revised Statutes, subject to a monthly meeting requirement to enable them to perform their duties faithfully.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Hawaiian Affairs; Hawai'i Tourism Authority; Commission on the 13th Festival of Pacific Arts and Culture; and one individual. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the Festival of Pacific Arts and Culture has been held approximately every four years since its founding in 1972, bringing together a delegation of at least two thousand five hundred artists, performers, and cultural practitioners from twenty-seven nations in Oceania to preserve, perpetuate, and exchange the arts and cultures of their indigenous peoples. Visitors from around the world attend the festival to experience and appreciate what the artists, performers, cultural practitioners, and host country bring to share, thereby creating a global market for arts, ideas, and products.

Additionally, your Committee finds that Act 104, Session Laws of Hawaii 2017, created the temporary Commission on the Thirteenth Festival of Pacific Arts to plan the Festival of Pacific Arts originally scheduled to be held in Hawaii in June 2020. Due to the outbreak of the coronavirus disease 2019 pandemic, the Pacific Community, the international custodian of the festival, notified the State that it is postponing the Festival to 2024. Therefore, the temporary Commission, which was to cease to exist on June 30, 2021, must be extended to fulfill its duties to plan the Thirteenth Festival of Pacific Arts in 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 636 Ways and Means on S.B. No. 506

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to facilitate the consolidation, liquidation, or both, of the long—term debt of Wahiawa General Hospital in order to facilitate its continued operation as a health care facility.

Your Committee received written comments in support of this measure from Wahiawa General Hospital and Wahiawa-Whitmore Village Neighborhood Board No. 26.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee recognizes that Wahiawa General Hospital provides critical services, primarily for residents of Central Oahu and the North Shore of Oahu, but also has addressed the needs of the entire State during the coronavirus disease 2019 (COVID-19) pandemic. Your Committee finds that the hospital plans to develop its campus to serve the growing population in central Oahu. However, your Committee further finds that the hospital cannot move forward with its plans because the hospital has experienced severe financial difficulties due to circumstances beyond its control, and these financial challenges have resulted in Wahiawa General Hospital's inability to repay certain long-term debts.

Your Committee has amended this measure by:

- (1) Authorizing the special purpose revenue bonds to be refunded after June 30, 2026, which is the lapsing date of the authorization for the issuance of special purpose revenue bonds; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 506, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 637 (Joint) Judiciary and Ways and Means on S.B. No. 502

The purpose and intent of this measure is to propose an amendment to article I of the Constitution of the State of Hawaii to guarantee all individuals the right to have a clean and healthy environment.

Your Committees received testimony in support of this measure from the Hawai'i Reef and Ocean Coalition, Green Amendments For The Generations, Imua Alliance, Surfrider Foundation, Kauai Climate Action Coalition, Kūpuna for the Moʻopuna, 350Hawaii, Our Revolution Hawaii, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Youth Climate Coalition, Center for Biological Diversity, and eighteen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General and NAIOP Hawai'i.

Your Committees find that clean water, clean air, a stable climate, and a healthy environment are essential for supporting physical, mental, and economic health of the State's residents. This measure would recognize and establish a right for all people to clean water, clean air, a stable climate, and healthy environments and make clear the government's duties, as a trustee, to protect the environment for the benefit of the residents and future generations. Your Committees further find, however, that the global effects of climate change mean that a stable climate cannot be guaranteed.

Your Committees have amended this measure by:

- (1) Removing references to the right to a stable climate;
- (2) Making it effective fifty years after approval by vote of the electorate, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 502, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 502, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Inouye, Kidani, Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 638 Judiciary on S.B. No. 998

The purpose and intent of this measure is to grant voting rights to the four members of the Board of Directors of the Honolulu Authority for Rapid Transportation appointed by the President of the Senate and Speaker of the House of Representatives.

Your Committee received comments on this measure from the Honolulu Authority for Rapid Transportation and one individual.

Your Committee finds that the Honolulu Authority for Rapid Transportation (HART) was established pursuant to article XVII of the Revised Charter of the City and County of Honolulu. Your Committee further finds that Act 1, First Special Session Laws of Hawaii 2017, added four non-voting, ex-officio members of the HART Board of Directors with two to be appointed by the President of the Senate and two to be appointed by the Speaker of the House of Representatives.

Your Committee additionally finds that the HART Board of Directors is subject to the requirements of section 92-15, Hawaii Revised Statutes, which provides in part that unless otherwise specified, "a majority of all the members to which the board or commission is entitled shall constitute a quorum to do business, and the concurrence of a majority of all the members to which the board or commission is entitled shall be necessary to make any action of the board or commission valid". Under section 92-15, Hawaii Revised Statutes, the introduction of four non-voting members to the HART Board of Directors has resulted in a de facto quorum requirement of eight and a de facto requirement that eight of nine voting members vote affirmatively to take any action. As a result, the HART Board of Directors' ability to conduct business has been severely impaired.

Your Committee has amended this measure by inserting an effective date of May 6, 2137, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 998, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 639 Commerce and Consumer Protection on S.B. No. 132

The purpose and intent of this measure is to preserve marine ecosystems by, beginning on January 1, 2023, banning the sale, offer of sale, or distribution in the State of any sunscreen that contains avobenzone or octocrylene, or both, without a prescription issued by a licensed healthcare provider.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Kohala Center, Surfrider Foundation, Malama Pupukea-Waimea, Hawaii Coral Reef Stakeholders Hui, Haereticus Environmental Laboratory, College of Charleston, Chemists Without Borders, Ben-Gurion University of the Negev, Institute of Geophysics - University of Tehran, Shandong Agricultural University, Tel Aviv University, Napili Bay and Beach Foundation, Safe Sunscreen Council, Sorbonne Université, Hanauma Bay Snorkel Adventures, Hawaii Reef and Ocean Coalition, Maui Ocean Center, Safe Sunscreen Coalition, and forty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Chamber of Commerce Hawaii, Retail Merchants of Hawaii, American Chemistry Council, Consumer Healthcare Products Association, Personal Care Products Council, Public Access to SunScreens Coalition, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that since the enactment of Act 14, Session Laws of Hawaii 2018, which prohibits the sale and distribution of sunscreen containing oxybenzone and octinoxate in the State, octocrylene and avobenzone are common sunscreen chemicals that have also been shown to cause harm to marine life and human health. The environmental contamination of octocrylene is a daily occurrence, as swimmers and beachgoers apply sunscreens containing these chemicals then swim in the ocean waters. Evolving science around the world clearly demonstrates that these ubiquitous and pervasive reef toxins irreversibly interfere with the life cycles of Hawaii's marine ecosystems. Furthermore, long-term exposure to avobenzone and octocrylene has been found to be lethal for some organisms living in freshwater environments. Therefore, additional regulations are necessary to ensure these chemicals are kept out of our marine environment.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.
