As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1316 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2609 Agriculture and Environment on S.B. No. 1416

The purpose and intent of this measure is to:

- (1) Establish requirements for the Department of Agriculture to enhance farmer equity by ensuring inclusion of socially disadvantaged farmers and ranchers in the development, implementation, and enforcement of food and agriculture laws, rules, policies, and programs; and
- (2) Require an annual report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that farmers are key to the State's food system. However, many farmers who are socially disadvantaged face unique additional barriers to success. Existing policies are insufficient to meet the needs of socially disadvantaged farmers. This measure supports socially disadvantaged farmers by requiring the Department of Agriculture to enhance farmer equity and ensure inclusion of socially disadvantaged farmers in agricultural policy decision making.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1416 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2610 (Joint) Agriculture and Environment and Transportation on S.B. No. 2007

The purpose and intent of this measure is to:

- (1) Impose a state carbon emissions tax of \$6.25 per ton of carbon dioxide equivalent emissions on aviation fuel;
- (2) Direct the aviation fuel tax into the airport revenue fund; and
- (3) Implement a tax credit to mitigate the effects of the aviation fuel tax on low income tax payers.

Your Committees received testimony in support of this measure from the Ulupono Initiative, Climate Protectors Hawai'i, Elemental Excelerator, and five individuals. Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawaii, Airlines for America, and three individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Transportation, Hawai'i State Energy Office, Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that the State's efforts to address climate change have overlooked the role of aviation fuel in producing greenhouse gas emissions. In accordance with the 2018 Intergovernmental Panel on Climate Change report and the Carbon Offsetting and Reduction Scheme for International Aviation, it is essential for Hawaii to reduce the level of greenhouse gas emissions from aviation fuel. This measure imposes an aviation fuel tax to help the State and aviation industry meet their respective sustainability and environmental goals.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2007, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2007, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Transportation: Ayes, 5; Ayes with Reservations (DeCoite, Inouye, Fevella). Noes, none. Excused, none.

SCRep. 2611 Agriculture and Environment on S.B. No. 2054

The purpose and intent of this measure is to:

- (1) Assess a climate change mitigation impact fee on every customer who rents, leases, or utilizes a rental motor vehicle; and

(2) Establish a Climate Change Mitigation Special Fund.

Your Committee received testimony in support of this measure from two members of the Maui County Council, Hawai'i State Association of Counties, Life of the Land, and Ulu pono Initiative. Your Committee received testimony in opposition to this measure from the Avis Budget Group, Enterprise Holdings, Maui Hotel & Lodging Association, Hawai'i Lodging & Tourism Association, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Transportation, Department of the Attorney General, Office of Planning and Sustainable Development, and the Tax Foundation of Hawaii.

Your Committee finds that the tourism industry has significant effects on Hawaii's environment and public services. The effects of cars, buses, shuttles, and other road vehicles, which emit carbon, are especially pernicious to the State's environment. This measure imposes a climate change mitigation impact fee for the renting, leasing, or utilizing of tourism-related vehicles to help protect Hawaii's natural environment.

Your Committee has amended this measure by clarifying that all revenues from the fee will be deposited to the credit of the Climate Change Mitigation Special Fund.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2054, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2054, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2612 Agriculture and Environment on S.B. No. 2290

The purpose and intent of this measure is to implement a phased series of bans on personal care products that contain plastic microbeads.

Your Committee received testimony in support of this measure from the Department of Health, Conservation Council For Hawai'i, Life of the Land, and three individuals. Your Committee received testimony in opposition to this measure from the Consumer Healthcare Products Association, Personal Care Products Council, Retail Merchants of Hawaii, and Hawaii Food Industry Association.

Your Committee finds that plastic microbeads pose a danger to Hawaii's natural environment, especially aquatic animals. A prohibition on plastic microbeads would support the State's commitment to environmental sustainability. This measure implements phased bans on plastic microbeads in 2022, 2023, and 2024.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2290 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2613 Agriculture and Environment on S.B. No. 2327

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to collaborate with agricultural growers and researchers to develop and implement a program to safely distribute disease and insect free tropical plant materials to Hawaii farmers;
- (2) Require the Department of Agriculture to adopt rules to specify plant species and varieties that warrant additional regulations; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State's tropical flower industry is an important part of the agricultural sector. There is concern, however, that certain diseases that affect tropical flowers and foliage have caused a decline in the industry. This measure reduces the risks to the tropical flower industry by requiring the Department of Agriculture to collaborate with agricultural growers to implement a program to safely distribute disease and insect free plant materials to farmers.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2327 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2614 Agriculture and Environment on S.B. No. 1030

The purpose and intent of this measure is to remove the requirement that representatives of the pineapple and sugar industries be included on the Advisory Committee on Pesticides and instead include representatives of the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Alliance for Progressive Action, and one individual. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that, in 1980, Hawaii was home to fourteen sugar plantations and four pineapple plantations, which covered more than three hundred thousand acres. In 2017, however, sugar and pineapple plantations accounted for fewer than five thousand acres. The dramatic decline in sugar and pineapple production in the State highlights the need to update the membership of the Advisory Committee on Pesticides. This measure replaces representatives from the sugar and pineapple industries with representatives of the coffee and diversified agricultural industries, thereby ensuring the continued relevance of the Advisory Committee. Your Committee further finds, however, that this measure does not fully revise the membership of the Advisory Committee on Pesticides. Future action may be needed to ensure that the public interest in health and safety, as well as environmental protection, is represented on the Advisory Committee on Pesticides.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1030 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2615 Agriculture and Environment on S.B. No. 2353

The purpose and intent of this measure is to create an exclusion from the income tax for the lesser of a percentage of gross annual income or an amount of gross annual income earned by a farmer from farming activities.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Food Industry Association, Ulupono Initiative, and Hawai'i Farm Bureau. Your Committee received comments on this measure from Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the State has a significant trade imbalance in its agricultural industry, meaning that it relies on imported agricultural products. Increasing the amount of agriculture in the State, especially small farms engaged in diversified agriculture, would help Hawaii reduce its reliance on agricultural imports. This measure provides a tax exclusion for farmers to incentivize the growth of diversified agriculture in the State. However, your Committee also notes that the tax exclusion provided in this measure applies to all eligible agricultural production and is not limited to food production. Given the State's goal of increased food self-sufficiency, priority for tax exclusion should be given to agricultural food production.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2353 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Rhoads, Fevella). Noes, none. Excused, none.

SCRep. 2616 Agriculture and Environment on S.B. No. 2357

The purpose and intent of this measure is to extend the authorization to issue special purpose revenues bonds to assist MauiGrown, Inc. with the operation and expansion of its farm and mill.

Your Committee received testimony in support of this measure from the Department of Agriculture; MauiGrown Coffee, Inc.; Hawaii Coffee Association; Hawai'i Farm Bureau; and Momona Farm. Your Committee received comments on this measure from Department of Budget and Finance.

Your Committee finds that Act 116, Session Laws of Hawaii 2017, authorized the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc. with the operation and expansion of its coffee farm and mill. However, the authorization for the issuance special purpose revenue bonds to MauiGrown Coffee, Inc. is set to lapse in June of 2022. This measure extends authorization for the issuance of special purpose revenue bonds by five years to 2027.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2357 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Fevella).

SCRep. 2617 Agriculture and Environment on S.B. No. 2435

The purpose and intent of this measure is to:

- (1) Clarify that a taxpayer may claim the important agricultural land qualified agricultural cost tax credit no earlier than the third taxable year after application for first-year certification of the credit; and
- (2) Extend the time that the Department of Agriculture may certify the important agricultural land qualified agricultural cost tax credit by ten years from 2021 to 2031.

Your Committee received testimony in support of this measure from Kamehameha Schools; the Land Use Research Foundation of Hawaii; Carpenter & Carpenter, Inc.; Ulupono Initiative; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Office of Planning and Sustainable Development, Department of Budget and Finance, Department of Taxation, Department of Agriculture, and Tax Foundation of Hawaii.

Your Committee finds that the important agricultural lands qualified agricultural cost tax credit supports food self-sufficiency by providing tax credits to qualified landowners and farmers to offset certain costs related to agricultural operations. However, the tax credit effectively expired in December of 2021. This measure provides landowners and farmers additional time to claim the tax credit and extends the tax credit to 2031.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2618 Agriculture and Environment on S.B. No. 2538

The purpose and intent of this measure is to make criminal the destruction of any tree on state or county property to be punishable as a misdemeanor.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Climate Protectors Hawai'i, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure supports the State's environmental sustainability goals by protecting Hawaii's trees. Trees are an important source of carbon sequestration and improve the general quality of life of the State's residents.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2538 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2619 Agriculture and Environment on S.B. No. 2556

The purpose and intent of this measure is to repeal chapter 157, Hawaii Revised Statutes, commonly referred to as the Milk Control Act.

Your Committee received testimony in support of this measure from the Hawaii Coffee Association, Kuahiwi Ranch, and Hawaii Foodservice Alliance LLC. Your Committee received testimony in opposition to this measure from Cloverleaf Dairy and Meadow Gold Dairies Hawaii. Your Committee received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committee finds that the Milk Control Act was put into effect in response to issues prevalent in the dairy industry of the 1960s, such as over-production and unfair pricing schemes. However, the Milk Control Act has become a burden for Hawaii's existing dairy industry, which is faced with high regulatory hurdles and is unable to compete with producers from outside the State. This measure repeals the Milk Control Act to strengthen Hawaii's dairy industry and lower prices for consumers.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2620 Agriculture and Environment on S.B. No. 2615

The purpose and intent of this measure is to amend the composition of the Board of Agriculture by providing representation from the islands of Molokai and Lanai.

Your Committee received testimony in support of this measure from the Department of Agriculture, Pūlama Lāna'i, one member of the Maui County Council, and eight individuals.

Your Committee finds that this measure amends the composition of the Board of Agriculture to better reflect the unique characteristics of the agricultural resources of Molokai and Lanai.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2621 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2664

The purpose and intent of this measure is to:

- (1) Create a classification of agricultural public lands entitled "taro lands"; and
- (2) Appropriate funds to the Department of Land and Natural Resources to create an inventory of lands classified as taro lands.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, Hydroponics Alternatives LLC, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committees find that Hawaii imports a substantial portion of the food it consumes. The need for imports is particularly acute for essential starches. However, taro is a culturally significant food crop in Hawaii that could meet the State's need for essential starches. This measure creates a land classification for taro lands to promote the cultivation of taro crops in Hawaii and reduce the State's dependence on food imports.

Your Committees have amended this measure by replacing the Board of Land and Natural Resources with the Land Use Commission as the agency responsible for conducting the inventory and as the expending agency of the appropriation for the inventory.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2664, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2664, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2622 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2665

The purpose and intent of this measure is to:

- (1) Prohibit the Board of Land and Natural Resources, in declaring residential development areas and acquiring lands therein, from disturbing wetland taro lands and infrastructure on undeveloped lands;
- (2) Establish a fourth public land class for taro lands;
- (3) Permit structures for lo'i taro fields in the agricultural district;
- (4) Establish growth and perpetuation of traditional Hawaiian crops as a goal of the State Planning Act; and
- (5) Authorize the Board of Land and Natural Resources, with the Taro Security and Purity Task Force, to create an inventory of taro lands.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, Hydroponics Alternatives LLC, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that protection of wetland taro lands is essential to the State's heritage and food security goals. However, gaps in land use, historic preservation, and planning laws have allowed key structural elements for wetland taro production to be destroyed. This measure implements protections for wetland taro lands to promote Hawaii's cultural heritage and food security.

Your Committees have amended this measure by:

- (1) Restricting the new definition of "taro lands" to public lands of high productivity determination within the conservation district established pursuant to chapter 205, Hawaii Revised Statutes;
- (2) Requiring that permitted walls, terraces, or supporting structures in agricultural districts be currently in use for wetland taro cultivation;
- (3) Limiting the prohibition on development projects for the Board of Land and Natural Resources to lands used for wetland taro cultivation prior to statehood and currently in use for wetland taro cultivation;
- (4) Replacing the Board of Land and Natural Resources with the Land Use Commission as the agency responsible for conducting an inventory of wetland taro lands; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2665, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2665, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2623 Agriculture and Environment on S.B. No. 2798

The purpose and intent of this measure is to:

- (1) Authorize temporary courtesy and relief permits for out-of-state veterinarians;
- (2) Permit licensed veterinarians to practice veterinarian telemedicine; and
- (3) Allow international veterinary school graduates to qualify for the veterinary licensure examination.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaiian Humane Society, Hawaii Board of Veterinary Medicine, Hawaii Veterinary Medical Association, Veterinary Emergency + Referral Center, Animal Interfaith Alliance in Britain, The Humane Society of the United States, and twenty-six individuals.

Your Committee finds that many able and skilled veterinarians are unable to help the State meet its demand for veterinarians due to eligibility requirements for licensure. Granting temporary permits to out-of-state veterinarians would ensure that qualified veterinarians are able to assist in providing veterinary care in the State. Additionally, veterinary telemedicine is an important tool for veterinarians to meet the needs of their clients and patients. This measure allows out-of-state veterinarians to provide care in certain settings and for veterinarians to offer veterinary telemedicine in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2798 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2624 Agriculture and Environment on S.B. No. 2837

The purpose and intent of this measure is to establish a spay and neuter special fund and allow funds from an income tax check-off to be deposited into the special fund.

Your Committee received testimony in support of this measure from Best Friends, Maui Humane Society, Environmental Caucus of the Democratic Party of Hawai'i, Animal Balance, Hawaiian Humane Society, Alliance for Contraception in Cats & Dogs, Animal Interfaith Alliance in Britain, Petfix Spay and Neuter, Neighborhood Cats, Kaua'i Humane Society, Love A Cat Charity, Aloha Animal Advocates, Conflictresolution.com, The Humane Society of the United States, Molokai Humane Society, Hawaii Island Humane Society, Stonewall Caucus of the Democratic Party of Hawai'i, and ninety-six individuals. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance and two individuals. Your Committee received comments on this measure from the Department of Agriculture, Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, and North Shore Ko'olau Diversity Collective.

Your Committee finds that overpopulation of certain animals contributes to widespread suffering of those animals in the State. Spaying and neutering of pets would reduce the overpopulation of animals and limit the need for euthanization. Despite the value of spaying and neutering for the prevention of animal suffering, the State does not contribute funds to support the practice. This measure establishes a spay and neuter special fund and allows an income tax check-off to be deposited into the special fund for the purpose of supporting spaying and neutering of certain animals in the State.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation into and out of the Spay and Neuter Special Fund;
- (2) Replacing references to a husband and wife with reference to a married couple for purposes of income tax filing; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2837, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2625 Agriculture and Environment on S.B. No. 2944

The purpose and intent of this measure is to prohibit the use of important agricultural lands and lands with class A productivity ratings for waste disposal.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farm Bureau, and Hawaii Crop Improvement Association.

Your Committee finds that agriculture is an essential economic activity in Hawaii. To support agriculture, the State has established land use designations that protect certain lands for agricultural use. However, lands designated for agriculture can also be used for specific other activities. This measure prohibits the use of agricultural lands for waste disposal to ensure that agricultural lands are used to support agricultural production.

Your Committee has amended this measure by including lands with class B productivity ratings among lands on which waste disposal sites are prohibited.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2944, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2944, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2626 Energy, Economic Development, and Tourism on S.B. No. 2474

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to develop and adopt reliability standards and interconnection requirements;
- (2) Establish an interconnection procedure for utility-scale renewable energy projects; and
- (3) Require the Public Utilities Commission to contract for an electricity reliability administrator.

Your Committee received testimony in support of this measure from Hawaii Clean Power Alliance and Ulupono Initiative. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company, Inc. and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Hawaii State Energy Office.

Your Committee finds that with the retirement of the AES coal plant, the timely interconnection of alternative utility-scale renewable energy generation and storage projects to the Hawaii electric system is necessary to maintain electric grid reliability and ensure that the State's electrical energy needs are met. Independent power producers rely on a clear timeline and transparent costs to ensure their proposed projects are completed within budget and will contribute to the State's renewable energy portfolio standards. This measure will help reduce the risks of delays and variables to benefit ratepayers, support the State's renewable energy goals, and set standards for grid-reliability.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2474, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2627 Energy, Economic Development, and Tourism on S.B. No. 2584

The purpose and intent of this measure is to direct the Public Utilities Commission to adopt guidelines for interconnection applications that would trigger distribution, transmission, or other utility infrastructure upgrade costs in excess of a threshold determined by the Commission.

Your Committee received testimony in support of this measure from the Hawaii Solar Energy Association. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii and Hawaiian Electric Company, Inc. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy, Public Utilities Commission, Hawai'i State Energy Office, and Tesla.

Your Committee finds that Hawaii electric utilities currently invest in grid infrastructure based on the assumption that one hundred percent of the estimated customer load from new home and commercial development will be served by the electrical grid. However, much of the electrical demand from new developments will be met through onsite distributed energy sources. This measure directs the Public Utilities Commission to adopt guidelines for electric utilities to integrate and leverage distributed energy resources.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2584, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2584, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2628 Energy, Economic Development, and Tourism on S.B. No. 3049

The purpose and intent of this measure is to amend section 201-13.8, Hawaii Revised Statutes, to allow the Department of Business, Economic Development, and Tourism to collect and analyze employer information and data.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Department of Labor and Industrial Relations. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii.

Your Committee finds that the Department of Business, Economic Development, and Tourism currently does not have the authority to collect and analyze employer data related to industry and occupational wages by county or other employment conditions and practices. Your Committee further finds that this type of data is vital to the effective operation of several programs within the purview of the Department of Business, Economic Development, and Tourism. Accordingly, your Committee finds that this measure will increase the effectiveness of the Department of Business, Economic Development, and Tourism by authorizing the collection of data necessary to inform and support programs within the Department's purview.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3049, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3049, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2629 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 2398

The purpose and intent of this measure is to:

- (1) Create the Pulehunui Community Development District to allow for planning, development, and maintenance of public lands in Pulehunui, Maui;
- (2) Amend the Hawaii Community Development Authority (HCDA) membership by replacing the Chairperson of the Hawaiian Homes Commission and an at-large member with the Director of the Office of Planning and Sustainable Development and the Director of the Office of Planning and Permitting of each county, or their designees, in which a community development district is located;
- (3) Amend community representatives on each board from three to two at-large members; and
- (4) Establish membership for quorum on matters related to the Pulehunui Community Development District.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, Hawaii Community Development Authority, and one member of the Maui County Council. Your Committees received testimony in opposition to this measure from the League of Women Voters and one individual.

Your Committees find that the public lands in Pulehunui, Maui are relatively underdeveloped and have strong potential for increased growth and development that can provide for the community's needs. Investing in critical infrastructure through the development of these public lands will provide significant opportunities for other state and county projects in the vicinity.

Your Committees note that the Department of Land and Natural Resources intends to develop a light industrial and business park on a two hundred and eighty-acre portion within the Pulehunui Community Development District and that adding the Chairperson of the Board of Land and Natural Resources as a member on the Pulehunui Community Development District Authority Board is reasonable and appropriate.

Accordingly, your Committees have amended this measure by:

- (1) Adding the Chairperson of the Board of Land and Natural Resources or the Chairperson's designee to the voting members considered in determining quorum and majority for matters affecting the Pulehunui Community Development District;
- (2) Replacing all references to the Director of the Office of Planning and Sustainable Development with the Director of the Department of Business, Economic Development, and Tourism to conform with other related measures;
- (3) Deleting language referencing the initial terms of members appointed under Act 61, Session Laws of Hawaii 2014, as extraneous; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2398, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2398, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Water and Land: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2630 (Joint) Agriculture and Environment and Water and Land and Energy, Economic Development, and Tourism on S.B. No. 2174

The purpose and intent of this measure is to:

- (1) Establish within the Department of Agriculture an Aquacultural Area Lease Program for the purpose of identifying state facilities, lands, and marine waters that are suitable for use as commercial agricultural areas and leasing them to be used for aquaculture;
- (2) Allow agencies having control and management of identified aquacultural areas to lease the facilities, lands, and waters to the Department of Agriculture;
- (3) Allow the Aquacultural Area Lease Program to use the funds in the Aquacultural Development Special Fund;
- (4) Require revenues obtained from aquacultural area leases to be deposited into the Aquacultural Development Special Fund;
- (5) Impose penalties and civil and criminal liabilities; and
- (6) Exempt the Aquacultural Area Lease Program from being subject to the Hawaii Ocean and Submerged Lands Leasing Act.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i Sea Grant College Program, Hatch Aquaculture Fund Management LLC, and Kohala Mountain Fish Company. Your Committees received comments on this measure from the Office of Information Practices and one individual.

Your Committees find that aquacultural production presents a valuable opportunity for the State. Increasing aquacultural production would greatly benefit the State's economic development and promote Hawaii's food self-sufficiency goals. This measure establishes an Aquacultural Lease Program to identify and lease certain areas for the development of aquacultural production. Your Committees further find that, according to testimony submitted by the Department of Agriculture, the Department of Agriculture is better suited to administer the program than the Board of Agriculture.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the Board of Agriculture with the Department of Agriculture as the administrator for the program;
- (2) Removing a requirement that the Department of Agriculture hold meetings pursuant to chapter 92, Hawaii Revised Statutes; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Water and Land, and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2174, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2174, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2631 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2284

The purpose and intent of this measure is to:

- (1) Establish provisions of law relating to the Department of Agriculture's governing of aquaculture;
- (2) Grant exclusive property rights to persons who lawfully obtain the cultured progeny of wild plants and animals by brood stock acquisition;
- (3) Clarify that any person who takes aquaculture products without lawful entitlement shall be subject to prosecution for theft;
- (4) Authorize the Department of Agriculture to regulate the transportation, purchase, possession, and sale of specific aquaculture products as may be necessary to protect indigenous species;
- (5) Establish prohibitions relating to the spawning, incubating, or cultivation of transgenic fish species or any exotic species of finfish;
- (6) Make exemptions for certain research activities; and
- (7) Require the Department of Agriculture to prepare programmatic environmental impact reports.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hatch Aquaculture Fund Management LLC, and Kohala Mountain Fish Company. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of the Attorney General.

Your Committees find that diversification of the State's economy is necessary to lessen its economic dependence on tourism. Globally, seafood demand outpaces supply, making aquacultural industry a promising source of economic growth for the State. This measure supports expansion of Hawaii's aquaculture industry by clarifying and strengthening regulation of aquacultural production. However, your Committees also note the need for the Department of Agriculture to acquire land for aquacultural parks and the potential for significant environmental effects from aquaculture if it is not appropriately managed and regulated.

Your Committees have amended this measure by:

- (1) Removing provisions relating to prohibited and research activities regarding transgenic fish species or any exotic species of finfish;
- (2) Removing the theft provision, for consistency;
- (3) Clarifying that the business of aquaculture is exempt from other provisions relating to the harvesting, processing, and marketing of cultured aquatic life, not from provisions relating to commercial fishing;
- (4) Reorganizing existing aquaculture provisions and new provisions of this measure as a new section in chapter 141, Hawaii Revised Statutes;
- (5) Requiring the Department of Agriculture to acquire land for the purposes of aquaculture;
- (6) Inserting an appropriation for four full-time equivalent (4.0 FTE) positions in the Department of Agriculture for aquaculture;
- (7) Inserting an effective date of July 1, 2022; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2284, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2284, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Nishihara).

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2632 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 3325

The purpose and intent of this measure is to:

- (1) Establish the Hawaii farmland and forest soil health carbon smart incentive program to incentivize carbon sequestration activities; and
- (2) Appropriate funds for the program.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Department of Land and Natural Resources; The Nature Conservancy; 350Hawaii.org; Hawaii Cattlemen's Council, Inc.; Climate Protectors Hawai'i, Conservation Council For Hawaii, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Agriculture, and Office of Planning and Sustainable Development.

Your Committees find that climate change has caused an increase in extreme weather events that pose a threat to food production and distribution. However, the State can mitigate its contributions to climate change by sequestering carbon. This measure incentivizes carbon sequestration by establishing a carbon smart incentive program for certain sequestering activities.

Your Committees have amended this measure by:

- (1) Making the Office of Planning and Sustainable Development the coordinating agency for the farmland and forest soil health carbon smart incentive program;
- (2) Replacing the carbon offset program under section 225P-6, Hawaii Revised Statutes, with the new provisions proposed by this measure to establish a farmland and forest soil health carbon smart incentive program;
- (3) Requiring the greenhouse gas sequestration task force to establish a reviewing committee;
- (4) Replacing the Hawaii Green Infrastructure Authority with the Office of Planning and Sustainable Development as the expending agency; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3325, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3325, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2633 (Joint) Agriculture and Environment and Health on S.B. No. 2629

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture, in consultation with the Department of Health, to develop and implement a one-time pesticide disposal collection for a duration to be determined by the Department of Agriculture;
- (2) Require the Department of Agriculture to convene a steering committee to guide and monitor the pesticide disposal collection program; and
- (3) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Health; Delaware Department of Agriculture; Hawaii Pest Control Association; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Hawai'i Farm Bureau Molokai Chapter; Larry Jeffs Farms, LLC; Hawai'i Food+ Policy Internship; CropLife America; Biotechnology Innovation Organization; Hawaii Crop Improvement Association; and eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that providing a safe and lawful method to dispose of banned, outdated, or unwanted pesticides is critical to the State's environmental management efforts. Additionally, more than forty states have successfully implemented similar programs. This measure requires the Department of Agriculture to implement a pesticide disposal collection program to support the State's environmental management efforts.

Your Committees have amended this measure by:

- (1) Clarifying language to align with existing language in the Hawaii Revised Statutes; and
- (2) Allowing the Department of Agriculture to determine the duration of the pesticide disposal collection program.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2629, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2629, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2634 (Joint) Agriculture and Environment and Health on S.B. No. 2888

The purpose and intent of this measure is to establish the Access to Local Food Act to allow cottage food operation to sell cottage food products under certain conditions and upon receipt of a permit from the Department of Health.

Your Committees received testimony in support of this measure from the Institute for Justice, Hawaii Master Food Preservers, Ka Ohana O Na Pua, Hawaii Tropical Fruit Growers, Hawai'i Alliance for Progressive Action, Hawaii Food Industry Association, Hawai'i Farm Bureau, one member of the Hawai'i County Council, and thirteen individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that local food production is integral to the State's economic development and food security. Homemade food sold directly to consumers constitutes a small but growing industry that can help the State achieve higher economic development and greater food security. However, Hawaii is one of only a few states that does not provide exemptions from Department of Health regulations for cottage foods. This measure provides exemptions from certain Department of Health Regulations to ensure the continued growth and productivity of the cottage food industry.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2888, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2888, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

SCRep. 2635 (Joint) Agriculture and Environment and Health on S.B. No. 2195

The purpose and intent of this measure is to establish a five-year pilot program within the Department of Health to eradicate feral chickens beginning in the Pearl City and Aiea areas of Oahu.

Your Committees received testimony in support of this measure from seven individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Health, Department of Agriculture, Hawaiian Humane Society, and one member of the Waimanalo Neighborhood Board.

Your Committees find that feral chickens are a persistent nuisance and health risk throughout the State. Feral chickens trespass in yards and gardens, dig up plants, damage food crops, and jeopardize native plants. They also crow at all times of the day and night and create road hazards. This measure establishes a five-year pilot program for the eradication of feral chickens to promote a higher quality of life and greater safety for Hawaii's residents.

Your Committees have amended this measure by:

- (1) Expanding the pilot project to be Statewide;
- (2) Requiring the Department of Agriculture to submit a Special Local Need registration to the Environmental Protection Agency for the use of OvoControl; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2195, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2195, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

SCRep. 2636 Health on S.B. No. 2031

The purpose and intent of this measure is to establish the Office of Health Equity within the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Coalition for Immigrant Rights; Hawai'i Public Health Institute; AlohaCare; American Cancer Society Cancer Action Network; American Heart Association;

Hawaii Medical Service Association; Native Hawaiian & Pacific Islander Hawai'i COVID-19 Response, Recovery, and Resilience Team (NHPI 3R); and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Healthcare Association of Hawaii.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic unequally impacted groups already experiencing health disparities. Many people who are employed as frontline workers in essential services industries and, as a result, faced greater risks of exposure to COVID-19 are demographically native Hawaiian, Pacific Islander, Filipino, women, and immigrants. One of the stated goals of the Department of Health is to pursue and achieve health equity. Therefore, in support of that goal, this measure establishes the Office of Health Equity within the Department of Health.

Your Committee acknowledge the testimony of NHPI 3R, which recommended recomposing the membership of the policy advisory group created by this measure in order to include membership who would provide the Office with specific and direct objectives.

Therefore, your Committee has amended this measure by:

- (1) Replacing the proposed policy advisory groups with leaders from organizations advancing health equity for disadvantaged racial or ethnic groups; gender and sexual minorities; those with physical, developmental, and other disabilities; and rural and remote communities;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2031, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2637 Health on S.B. No. 2073

The purpose and intent of this measure is to allow for standard telephone contacts for telehealth purposes.

Your Committee received testimony in support of this measure from the University of Hawai'i System, State Council on Developmental Disabilities, State Council on Mental Health, Disability and Communication Access Board, Hawai'i Pacific Health, Hawai'i Public Health Institute, Hawai'i Primary Care Association, National Association of Social Workers--Hawai'i, Waianae Coast Comprehensive Health Center, American Cancer Society Cancer Action Network, Hawaii Medical Association, Hawaii Substance Abuse Coalition, Health Committee of the Democratic Party of Hawai'i, Hawaiian Islands Association for Marriage and Family Therapy, AARP Hawai'i, Healthcare Association of Hawaii, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Kaiser Permanente Hawaii, The Queen's Health Systems, and Hawaii Psychiatric Medical Association.

Your Committee finds that during the coronavirus disease 2019 pandemic, the Governor's emergency order allowed the use of standard telephone contacts between health care providers and patients to minimize in-person meetings while ensuring continued access to care. Allowing insurance reimbursement for telehealth through standard telephone contacts greatly increased access to care for vulnerable populations, including the elderly, low-income, medically- and socially-complex patients, and those in rural areas who do not have the broadband capabilities, electronic equipment, financial means, transportation options, or technological proficiency to operate sophisticated digital video conferencing software. This measure aims to make provisions of the emergency order permanent by including standard telephone contacts in the definition of "telehealth".

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2073, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2638 Health on S.B. No. 2281

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Board of Psychology;
- (2) Require all school psychologists to be licensed by July 1, 2025; and
- (3) Increase the composition of the Board of Psychology to include two school psychologists.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawai'i Association of School Psychologists, Hawai'i Psychological Association, Hui for Excellence in Education, and twenty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Board of Psychology, and three individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Hawaii is the only state that does not regulate school psychologists. Not having a licensing requirement has allowed individuals who do not have graduate training in school psychology and who do not meet the nationally accepted certification standard to practice psychology in Hawaii's schools. Furthermore, services performed by certified or licensed school

psychologists are reimbursable by Medicaid; thus, because school psychologists are not required to be licensed, the Department of Education cannot bill Medicaid for their services. Your Committee finds that licensing school psychologists would increase the standards of the profession and provide the Department of Education a means to recoup funds under Medicaid. Therefore, this measure establishes licensure requirements for school psychologists to ensure qualified persons serve Hawaii's students in public schools in a fiscally sustainable manner.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2281, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2639 Health on S.B. No. 2443

The purpose and intent of this measure is to:

- (1) Define pharmacy benefit manager practices; and
- (2) Authorize the Insurance Commissioner to suspend or revoke a pharmacy benefit manager's registration and impose fines for certain violations.

Your Committee received testimony in support of this measure from Hawai'i Primary Care Association and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, CVS Health Solutions LLC; Kaiser Permanente Hawaii, Pharmaceutical Care Management Association, and American Cancer Society Cancer Action Network.

Your Committee finds that pharmacy benefit managers (PBMs) are companies that manage prescription drug benefits on behalf of health insurers and other payors. PBMs wield great negotiating power, and thus have a significant behind-the-scenes impact in determining total drug costs for insurers, shaping patients' access to medications, and determining how much pharmacies are paid. PBMs may also prevent pharmacists from engaging in certain beneficial behavior, such as contractually prohibiting pharmacists from informing a customer about the availability of a more affordable generic medication. This measure protects consumers' and pharmacists' interests by regulating certain PBM practices.

Your Committee acknowledges the testimonies of various stakeholders, including the Department of Health, the Insurance Commissioner of the Department of Commerce and Consumer Affairs' Insurance Division, Kaiser Permanente Hawaii, and CVS Health Solutions LLC, which provided suggested amendments to this measure for clarity and consistency with existing law.

Therefore, your Committee has amended this measure by:

- (1) Replacing PBM license issuance and service fees of \$140 with an amount required under section 431:7-101, Hawaii Revised Statutes;
- (2) Repealing section 328-106, Hawaii Revised Statutes;
- (3) Clarifying that information a PBM may not prohibit a pharmacy or pharmacist from discussing with a person is specific to the person's cost sharing obligations;
- (4) Clarifying that a PBM may not prohibit a pharmacy or pharmacist from disclosing information to law enforcement or government officials for the purposes of filing a complaint;
- (5) Amending the definition of "pharmacy benefit manager" in sections 431R-1 and 431S-1, Hawaii Revised Statutes, to be the same;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2443, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2443, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2640 Health on S.B. No. 3180

The purpose and intent of this measure is to establish the Rural Health Task Force within the Department of Health to make recommendations on registered nurse recruitment and retention in rural areas of east Maui, Molokai, and Lanai.

Your Committee received testimony in support of this measure from one member of the Maui County Council; The Queen's Health Systems; Hana Health; Hawai'i Primary Care Association; Liberty Dialysis--Hawaii, LLC; Molokai Community Health Center; and eight individuals. Your Committee received comments on this measure from the Department of Health, Department of Human Services, Hawai'i State Center for Nursing, and Hawai'i--American Association of Nurses.

Your Committee finds that since 2019, more than nine hundred nurses have left the workforce in Hawaii due to the coronavirus disease 2019 pandemic, the cost of living, and lack of affordable housing in the State. This shortage has impacted the State's rural communities the hardest. This measure would provide the Department of Health with assistance from health care providers currently working in the rural communities in east Maui, Molokai, and Lanai to develop a plan to recruit and retain nurses for these and other rural areas.

Your Committee acknowledges the testimony of the Hawaii Primary Care Association, which requested that a representative of the Molokai Community Health Center be included on the task force, as it is one of only five organizations providing primary care on Molokai, serving forty percent of that island's population. Your Committee also acknowledges the testimony of the Department of Human Services, which requested to be removed from the task force, as it lacks expertise in recruiting and retaining nurses.

Therefore, your Committee has amended this measure by:

- (1) Removing the Director of Human Services from the task force;
- (2) Adding one representative of Molokai Community Health Center as a member to be invited to participate on the task force;
- (3) Clarifying that members participating on the task force are not subject to chapter 84, Hawaii Revised Statutes, solely because of the member's participation on the task force; and
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3180, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3180, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2641 Health on S.B. No. 3208

The purpose and intent of this measure is to:

- (1) Amend the definition of "preceptor" and "volunteer-based supervised clinical training rotation" to improve accessibility for providers to receive income tax credits for acting as preceptors; and
- (2) Include the Director of Health on the Preceptor Credit Assurance Committee.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i State Center for Nursing, Kaiser Permanente Hawaii, The Queen's Health Systems, Hawai'i —American Nurses Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, Hawai'i Association of Professional Nurses, and four individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that the State faces a shortage of primary care providers, such as physicians, advanced practice registered nurses, and pharmacists. Although Hawaii students are interested in pursuing careers in health care, Hawaii schools lack qualified preceptors to teach and train these students. To encourage the participation of preceptors, existing law provides an income tax credit to health care preceptors volunteering to instruct, supervise, and train students and resident doctors. However, only a small number of preceptors met the credit's eligibility requirements due to its qualifying criteria. This measure amends the health care preceptor tax credit law to expand its eligibility requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3208, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2642 Health on S.B. No. 3248

The purpose and intent of this measure is to appropriate funds to the Department of Health to purchase one advanced life support ambulance to be based on the island of Molokai, and related equipment, and pay related personnel costs for state-certified emergency medical services personnel.

Your Committee received testimony in support of this measure from one member of the Maui County Council, American Medical Response, Kauai Paramedics Association, The Queen's Health Systems, and twenty-seven individuals. Your Committee received comments on this measure from the Department of Health and Department of Budget and Finance.

Your Committee finds that currently, the island of Molokai has only one ambulance providing emergency medical services to residents. Providing timely response to a 911 call is critical to increasing the likelihood of successful outcomes for injured or sick individuals. Adding another advanced life support ambulance would provide better on-island emergency coverage and decrease the time needed to transport medical professionals responding to emergencies on the island. This measure appropriates funds to the Department of Health to purchase one advanced life support ambulance for the island of Molokai and for related equipment and personnel costs.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3248, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3248, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2643 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2023

The purpose and intent of this measure is to require the Department of Land and Natural Resources to utilize the current state-of-the-art knowledge in marine finfish hatchery production to establish a functional system to provide pua ama and pua awa to stock loko ia.

Your Committees received testimony in support of this measure from Food+ Policy Internship 2022, Kua'āina Ulu 'Auamo, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that loko ia (Hawaiian fishponds) are part of advanced food systems that optimize natural watersheds, nutrient cycles, and fish biology and represent one of the world's most significant and successful aquacultural achievements. The dramatic decline in the number of loko ia and the average yield of those remaining are attributed to various factors including competition from cheaper imported products, money replacing barter as the standards of exchange, population movement from rural to urban areas, loss of traditional loko ia management skills, and the availability of alternative sources of employment.

Additionally, forces of nature, such as lava flows, tsunami and sea storms, land erosion, vegetation encroachment, and eutrophication have contributed to the destruction of Hawaiian loko ia. The historic loss of loko ia played a tragic role in furthering food inequity in Hawaii and points to the need to reinvigorate efforts to get ponds in operation.

Presently, hatchery production is the best option to restore loko ia productivity and access to hatchery-raised pua has been identified as a pivotal need. State and federal funded research between the 1970s and 1980s examined hatchery production of amaama and demonstrated successful maturation, spawning, and rearing of amaama through larval stage. Similar success with awa showed the potential role hatchery-raised pua could have for restocking efforts. Prioritizing loko ia restoration and revitalization is an active step towards improving food systems and reducing hunger and increasing responsible consumption and production patterns. Restoration addresses the food security challenges of being an isolated island community.

Your Committees have heard concerns from the Department of Land and Natural Resources regarding appropriations for loko ia. This measure, as drafted, does not contain appropriation language that will allow the Department of Land and Natural Resources to expand and develop its knowledge and practices of marine finfish hatchery production to address the decline of loko ia. To address the concerns of the Department, your Committees have amended this measure by:

- (1) Inserting a blank appropriation for the hiring of staff or contractors with expertise in finfish hatchery production, purchasing of equipment and supplies, and training workshops for loko ia across the State and by the Department of Land and Natural Resources;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2023, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2023, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5. Noes, none. Excused, none.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2644 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2480

The purpose and intent of this measure is to authorize the issuance of bonds for the Department of Land and Natural Resources and Agribusiness Development Corporation to purchase the Wahiawa Irrigation System on the Island of Oahu.

Your Committees received testimony in support of this measure from the Hawaii Crop Improvement Association, Ulupono Initiative, Hawai'i Farm Bureau, Dole Food Company Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Agribusiness Development Corporation.

Your Committees find that the Wahiawa Irrigation System is a critical irrigation system providing water to farmers in Waialua and Haleiwa on the island of Oahu. Built by the Waialua Sugar Company, the Wahiawa Irrigation System was created with a dam and freshwater reservoir fed by the north fork and south fork of the Kaukonahua stream. The dam is essential to agriculture as the water in the reservoir provides irrigation to farmers in Wahiawa, Waialua, and Haleiwa. Dole Food Company has listed the irrigation system for sale for \$20,000,000, which includes the Wahiawa Reservoir, Wahiawa Dam and Spillway, and Ditch System. This purchase price is not for the acquisition of the system but rather it reflects the estimated cost of mandated improvements to the Wahiawa Irrigation System. It is in the interest of the public for the State to acquire the Wahiawa Irrigation System and preserve the System for public access and the agriculture industry. To provide the agricultural sector with a reliable irrigation system, this measure requires the Department of Agriculture and the Agribusiness Development Corporation to acquire the Wahiawa Irrigation System.

Your Committees raised concerns that the proposed amendments would have an impact on the Department of Agriculture but the Department of Agriculture did not submit testimony on this measure. Your Committees also raised concerns regarding the true financial burden to the State and the Department of Agriculture beyond the estimated \$20 million, which may lead to potential litigation and liabilities. As the Wahiawa Irrigation System serves as a crucial system to many local farmers on Oahu, your Committees also expressed concerns regarding impacts from climate change.

Your Committees have amended this measure by:

- (1) Replacing the Department of Land and Natural Resources with the Department of Agriculture as one of the purchasing agencies of the Wahiawa Irrigation System;
- (2) Amending the general obligation bonds lapse date to lapse on June 30, 2024; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2480, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2480, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2645 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2768

The purpose and intent of this measure is to:

- (1) Authorize the Governor to designate the Department Of Land and Natural Resources to administer or enter into an agreement for the administration of a green jobs youth corps to provide temporary work and training opportunities in the fields of natural resource management, agriculture, or other sustainability-related professions to young adults ages twenty-six and younger;
- (2) Require the Department of Land and Natural Resources to partner with an organization that has received accreditation from the Corps Center of Excellence Accreditation Program or has at least ten years of experience providing similar programming statewide in the State, or both; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Department Of Land and Natural Resources, Hawaii State Energy Office, Kua'āina Ulu 'Auamo, Hawaii Fish Company Inc., Kupu, Hawai'i's Thousand Friends, Hawai'i Food + Policy Internship, Re-use Hawai'i, The Nature Conservancy, Hawai'i Green Fee, and four individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the State is currently facing an unemployment epidemic. Many skilled and promising young people in the State lack meaningful opportunities to participate in the workforce.

Your Committees additionally find that during the Regular Session of 2020, the Legislature passed Act 9, Session Laws of Hawaii 2020 (Act 9), which used funds designated for the State by the federal Coronavirus Aid, Relief, and Economic Security Act to establish a workforce and training program that, among other accomplishments, funded a short-term green jobs program in partnership with the nonprofit Kupu. Under the Kupu Aina Corps, over three hundred fifty displaced workers and recent graduates were matched with work and training opportunities across the State. Kupu's partnership with conservation and agricultural host sites enabled individuals to work within their own communities, while also contributing to Hawaii's economy and environment.

Your Committees further find that, despite the success of the program established pursuant to Act 9, more must be done to support the diversification of Hawaii's economy. Your Committees note, too, that the program established under part XV of Act 9 is no longer active.

Accordingly, your Committees find that this measure will revive the benefits of the workforce program previously enacted under Act 9 in terms of economic diversification and stimulus, but with a greater focus on young adults. This measure will also make the program permanent and place it under the administration of the agency most familiar with conservation and oversight of a conservation corps, and provide the authority to administer a green jobs youth corps in partnership with a qualified community organization.

Your Committees have amended this measure by:

- (1) Increasing, from twenty-six to thirty-eight, the age limit for participation in the program authorized by this measure to encourage greater participation, as recommended in the testimony of Kupu; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2768, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2768, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2646 (Joint) Water and Land and Agriculture and Environment on S.B. No. 3299

The purpose and intent of this measure is to:

- (1) Require that the Department of Land and Natural Resources recognize that:
 - (A) Game mammals and game birds provide a sustainable food source and play a role in native Hawaiian traditional and customary practices, merit quality habitat, and should be managed to reduce impacts and provide benefits in reducing grass fire fuel and weed control to important watershed areas and native habitat;
 - (B) Sustainability of natural habitats reduces negative impacts to important watershed areas; and
 - (C) The State's unique relationship with the ocean requires careful consideration and management of land and ocean activities that prioritize the public trust responsibilities of the State;
- (2) Require that each department, office, or agency of the State update its rules and policies to integrate the local hunting and fishing industries into any food security or sustainability strategies that department, office, or agency employs; and
- (3) Require reports to the Legislature.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Hawaii County Game Management Advisory Commission, Hawai'i Forest Industry Association, Hawaii Sportsmen's Alliance, National Wild Turkey Federation, Hawaii Firearms Coalition, Hawai'i Farm Bureau, and twenty-two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that it is important to balance the management of game populations with the sustainability of their natural habitats to reduce negative impacts of significant watershed areas. Hunting game mammals and birds is an accepted generational practice that helps many local families and individuals supplement their food supply. If game and bird populations are left unmanaged, they can contribute to environmental degradation to both farmland and the natural environment. However, game mammals are also a first line of defense against wildfires that can destroy native trees and cause the growth of additional invasive plants. This measure will help guide the Department of Land and Natural Resources to balance hunting with the management of healthy ecosystems.

Your Committees have amended this measure by:

- (1) Clarifying that game mammals and game birds provide a sustainable food source, provided that negative impacts to the environment are sufficiently minimized or offset through native ecosystem protections that merit quality habitats with sufficient food, water, and refuge to support viable populations sufficient for hunting;
- (2) Clarifying that the Department of Land and Natural Resources shall recognize that proper management of game populations in appropriate areas minimizes or reduces impacts to agriculture, important watershed areas, and native habitats, and provides benefits such as reducing grass fire fuel and weed control to important watershed areas; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3299, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3299, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2647 (Joint) Transportation and Agriculture and Environment on S.B. No. 2295

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation to plan for a certain amount of sea level rise in all future or amended transportation projects; and
- (2) Require all Department of Transportation projects to conform to certain carbon concrete standards.

Your Committees received testimony in support of this measure from the Surfrider Foundation and three individuals. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that our state highways are vulnerable to sea level rise, coastal erosion, and other impacts of climate change and extreme weather. Therefore, this measure requires the Department of Transportation to plan for sea level rise in all future or amended transportation projects and to conform to the carbon concrete standards.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Transportation shall plan for sea level rise within the sea level rise exposure areas designated by the Hawaii Climate Commission;
- (2) Allowing the Director of Transportation to issue exemptions for the use of the carbon concrete standards when necessary or when different procedures are mandated by federal law; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2295, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2295, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2648 (Joint) Transportation and Agriculture and Environment on S.B. No. 3275

The purpose and intent of this measure is to prohibit any person from using a state-owned road, street, or highway to transport endangered marine species harvested from state waters for commercial purposes, and marine species harvested from state waters for non-subsistence commercial purposes.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 prohibits any person from using a public road, street, highway, or similar thoroughfare to transport endangered marine species harvested from state waters for commercial purposes and marine species harvested from state waters for commercial aquarium purposes.

Your Committees received testimony in support of the proposed S.D. 1 from the Legacy Reef Foundation, Big Island Reef Keepers Alliance, and four individuals. Your Committees received comments on the proposed S.D. 1 from the Department of Transportation, Department of Land and Natural Resources, and one individual.

Your Committees find that illegal poaching and extraction of marine species, rare corals, and fish for commercial gain are serious problems in Hawaii and are heightened by challenges in enforcing applicable laws. Your Committees find that prohibiting the transportation of illegal takes provides law enforcement with an additional tool to stop illegal trophy hunting and profiteering from Hawaiian waters.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Removing references to endangered species;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3275, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3275, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2649 (Joint) Public Safety, Intergovernmental, and Military Affairs and Higher Education on S.B. No. 2640

The purpose and intent of this measure is to appropriate funds for the second year of the education program for imprisoned women.

Your Committees received testimony in support of this measure from the University of Hawai'i; Women's Prison Project; Hawai'i Friends of Restorative Justice; Young Women's Christian Association, O'ahu; Hawaii Substance Abuse Coalition; American Civil Liberties Union of Hawai'i; Community Alliance on Prisons; and six individuals. Your Committees received comments on this measure from the Department of Public Safety, Department of Human Services, and Department of Budget and Finance.

Your Committees find that in August 2021, the Governor awarded over \$8,000,000 to schools, colleges, and other entities as part of the Governor's emergency education relief. Among the awardees, the Hawaii Friends for Restorative Justice received \$250,000 for the first year of an education program for imprisoned women. The program involves the Hawaii Friends for Restorative Justice partnering with the Women's Community Correctional Center, Windward Community College, the University of Hawaii at Manoa, and McKinley Community School for adults to train incarcerated women to be general education development tutors for their peers, provide college correspondence courses for women in the Women's Community Correctional Center, and provide reentry and transition services for women who wish to continue their education post incarceration. Additionally, your Committees believe that continuing education reduces repeat crime. This measure will allow the State to reduce recidivism and provide skills to develop incarcerated women's potential and help with their post-incarceration employment by appropriating funds for the second year of the education program for imprisoned women.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2640, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2640, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2650 Labor, Culture and the Arts on S.B. No. 2731

The purpose and intent of this measure is to appropriate funds to support the Bernice Pauahi Bishop Museum.

Your Committee received testimony in support of this measure from the Bernice Pauahi Bishop Museum, State Foundation on Culture and the Arts, Hawai'i Tourism Authority, and Kanaeokana Network. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Bernice Pauahi Bishop Museum, designated as the State of Hawaii Museum of Natural and Cultural History, is significant for its cultural, architectural, educational, scientific, and historical contributions to Hawaii. It is listed on the National Register of Historic Places and is one of Hawaii's most significant and iconic buildings.

Your Committee further finds that the Bernice Pauahi Bishop Museum stewards more than twenty-five million catalogued objects, and actively generates and shares knowledge associated with its collections. The museum's work supports over fifty state and federal government agencies, departments, and affiliated organizations, without whom many basic questions concerning Hawaii's people, plants, and animals could not be answered with efficiency and confidence. The museum's collections include over 1,200,000 cultural artifacts, representing Native Hawaiian, Pacific Island, and Hawaii immigrant life; more than 125,000 historical publications, including many in the Hawaiian language; one million historical photographs, films, works of art, and publications; and over twenty-two million plant and animal specimens.

Your Committee also finds that Bernice Pauahi Bishop Museum researchers have discovered over seventeen thousand species of plants, animals, and insects throughout the Pacific region and have made countless discoveries related to the migration, settlement, and daily life of Pacific people. Not only does the museum conduct research, but it also provides vital education to the public. The museum's educational programs provide science and cultural education opportunities to thousands of school children in Hawaii each year, and it is estimated that the museum has hosted more than ten million visitors over its history.

This measure will appropriate funds to enable the Bernice Pauahi Bishop Museum to continue its work to protect Hawaii's irreplaceable collections and primary source knowledge, which is a global resource essential for the perpetuation of Hawaii's natural and cultural heritage.

Your Committee notes the testimony of the Department of Budget and Finance, stating that funding for the Bernice Pauahi Bishop Museum may be more suitably appropriation to the Department of Accounting and General Services. This is because Act 88, Session Laws of Hawaii 2021, removed the recurring operating subsidy of \$626,000 in general funds for the museum from the Department of Budget and Finance's base budget and replaced it with appropriations of \$626,000 in American Rescue Plan Act funds in fiscal year 2021-2022 and 2022-2023 that were made to the State Foundation on Culture and the Arts within the Department of Accounting and General Services.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$2,000,000;
- (2) Changing the expending agency to the Department of Accounting and General Services;
- (3) Requiring the sum appropriated pursuant to this measure to be included in the base budget for the Department of Accounting and General Services for the Bernice Pauahi Bishop Museum in future fiscal bienniums; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee also notes the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2731, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2651 (Joint) Government Operations and Water and Land on S.B. No. 2366

The purpose and intent of this measure is to:

- (1) Clarify that a government agency does not assume ownership or jurisdiction over a disputed road solely through maintenance or repair activities; and
- (2) Authorize the State to transfer ownership of roads in favor of counties by quitclaim if requested by the county.

Your Committees received testimony in support of this measure from the Department of Transportation, Office of the Mayor of the County of Kauai, and Office of the Mayor of the County of Maui. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that there are roads in Hawaii whose ownership or jurisdiction is disputed between the State and counties. Neither state nor county agencies are willing to maintain these roads because the maintenance activities may be construed as assuming ownership and jurisdiction over the disputed roads. Your Committees further find that the safety of persons traveling over these so called "roads in limbo" is affected by the lack of maintenance. Your Committees therefore find that this measure will promote public

safety by enabling government agencies to maintain roads that are subject to ownership and jurisdictional disputes without compromising any legal claims pertaining to those roads.

Your Committees note the testimony of the Department of Transportation suggesting a more appropriate statutory placement for the new section created by this measure. Your Committees also note the testimony of the Office of the Mayor of the County of Kauai and Office of the Mayor of the County of Maui recommending the addition of statutory immunity for the State and counties under certain circumstances.

Your Committees have amended this measure by:

- (1) Moving the new statutory language to chapter 264, Hawaii Revised Statutes, rather than chapters 27 and 46, Hawaii Revised Statutes;
- (2) Deleting the definition of “disputed public street, road, or highway” and any references to non-vehicular accessways or interests;
- (3) Inserting language granting statutory immunity for the State and counties under certain circumstances; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2366, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2366, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 2652 (Joint) Government Operations and Health on S.B. No. 2137

The purpose and intent of this measure is to:

- (1) Establish a public information meeting requirement to receive a county permit to operate a halfway house, clean and sober home, or drug rehabilitation home;
- (2) Establish a public information meeting requirement for clean and sober home registry applications; and
- (3) Prohibit clean and sober homes that are located within one-half mile of an existing public or private elementary or secondary school from inclusion on the Department of Health’s registry of clean and sober homes.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Hawai’i Health & Harm Reduction Center; American Civil Liberties Union of Hawaii; Oxford House Inc.; Hawaii Substance Abuse Coalition; Coalition for a Drug-Free Hawaii; Habilitat, Inc.; The Institute for Human Services, Inc.; and eight individuals. Your Committees received comments on this measure from the Department of the Attorney General and Department of Health. Your Committees note the testimony of the Department of the Attorney General that the measure would violate federal anti-discrimination laws.

Your Committees find, however, that there have been complaints by community members with respect to the lack of oversight of operations of clean and sober homes. These complaints concern the lack of transparency regarding the locations of clean and sober homes, especially those in proximity to schools, and the lack of clear procedures for community members to address concerns or complaints regarding these homes.

Accordingly, your Committees find that this measure has the potential to address legitimate community concerns while balancing the needs and rights of persons residing in clean and sober homes. Your Committees have therefore amended this measure by:

- (1) Deleting the language that would have amended section 46-4, Hawaii Revised Statutes, to impose public information meeting requirements prior to a county issuing a permit for the operation of a halfway house, clean and sober home, or drug rehabilitation home;
- (2) Amending section 321-193.7(j), Hawaii Revised Statutes, to require the Department of Health and county agencies, to work together to address complaints and educate the public on clean and sober homes;
- (3) Deleting language that would have prohibited a clean and sober home to operate within one-half mile of an elementary or secondary school; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2137, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2137, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Health: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2653 Government Operations on S.B. No. 2336

The purpose and intent of this measure is to allow the Office of Information Practices to resolve open meeting and open record complaints through either a legal determination on whether a violation occurred or guidance on the relevant legal requirements.

Your Committee received testimony in support of this measure from the Office of Information Practices and one individual. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii, The Civil Beat Law Center for the Public Interest, and Hawaii Chapter of the Society of Professional Journalists. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that the purpose of the Office of Information Practices is to ensure open government practices while protecting individual privacy rights. Your Committee further finds that existing law requires the Office of Information Practices to issue a full written opinion in response to certain inquiries and complaints, and does not provide the Office of Information Practices with the discretion to issue informal opinions where appropriate. This causes delays in the processing of appeals and exacerbates an existing backlog of appeals.

Accordingly, your Committee finds that this measure will promote more expedient decision-making from the Office of Information Practices by codifying a discretionary, informal guidance process to resolve certain inquiries and complaints, thereby providing the Office of Information Practices with the flexibility needed, given its limited resources, to prioritize appeals that warrant formal opinions and expedite addressing complaints through written guidance.

Your Committee has amended this measure by:

- (1) Requiring opinions or rulings and guidance issued by the Office of Information Practices, or summaries thereof, to be posted publicly online within a reasonable amount of time from issuance;
- (2) Defining the terms “guidance” and “ruling” to clarify that both decisions are written documents available for public review;
- (3) Clarifying that the Director of the Office of Information Practices has the discretion to determine whether to issue guidance or a ruling in the form of a formal opinion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2336, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2654 Government Operations on S.B. No. 3034

The purpose and intent of this measure is to clarify the listing requirements for joint contractors and subcontractors submitting construction bids under section 103D-302, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Budget and Fiscal Services of the City and County of Honolulu, and General Contractors Association of Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the State’s procurement law is in need of clarification regarding the listing of subcontractors requirement under section 103D-302(b), Hawaii Revised Statutes. As noted in the testimony of the Department of Accounting and General Services, the current lack of clarity leads to additional bid protests, delays, and administrative costs in the procurement process. Accordingly, your Committee finds that this measure will increase efficiency in the procurement process and reduce avoidable bid protests by clarifying the listing of subcontractors requirement.

Your Committee notes the testimony of the State Procurement Office, providing that the term “joint contractor” is not defined by section 444-1, Hawaii Revised Statutes, nor otherwise defined by administrative rule. That section, however, defines “contractor” to include contractors submitting a bid with another contractor as “joint contractors”, subcontractors, and others who may perform the work of a contractor or portions thereof, and therefore all of which should be included in bid listings.

Your Committee has therefore amended this measure by:

- (1) Adding the term “joint contractor” as contractors submitting a bid with other contractors; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3034, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2655 Government Operations on S.B. No. 2123

The purpose and intent of this measure is to require the redaction of certain information on financial disclosure statements deemed to be public records for non-paid volunteer members of state boards and commissions.

Your Committee received testimony in support of this measure from the Department of Transportation; University of Hawai’i System; University of Hawai’i Alumni Association; HPM Building Supply; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Lisa A.M. Miller Consulting, LLC; Title Guaranty of Hawaii; Watumull Properties Corp.; University of Hawaii Professional Assembly; Na Hoku, Inc.; Hawai’i Executive Collaborative; Association of Emeritus Regents of the University of Hawaii;

Hawaiian Host Group; Hawaii Foodservice Alliance LLC; Central Pacific Bank; Kaua'i Island Utility Cooperative; Island Holdings, Inc.; First Hawaiian Bank; Tori Richard, Ltd.; Finance Factors; Mana Up; Hawaii Venture Capital Association; 31 aikalima LLC; and eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Ethics Commission, League of Women Voters of Hawaii, The Civil Beat Law Center for the Public Interest, Americans for Democratic Action Hawai'i, Common Cause Hawaii, Hawaii Chapter of the Society of Professional Journalists, and eight individuals.

Your Committee finds that all state board and commission members are required to submit financial disclosures to the Hawaii State Ethics Commission. Your Committee further finds that as a direct result of this disclosure requirement, the state currently has many vacancies and the pool of qualified individuals that are willing to serve on state boards and commissions has and continues to dwindle. Community members who are most qualified to serve are often not willing to pursue a seat on state boards or commissions because of the requirement that financial disclosures be made public. Those individuals and their businesses often value privacy concerning compensation and other personal matters.

Your Committee notes the testimony in opposition to this measure and the importance of the public's right to know that those entrusted to serve on seventeen major boards do so without conflicts of interest in matters that come before them.

Your Committee recognizes that personal privacy interests of those who voluntarily serve on boards and commissions must be balanced with the public's right to know and prevent conflicts of interest in decision-making. Your Committee finds that this balance will be best achieved by maintaining the requirement that each person submit to the Hawaii State Ethics Commission the financial disclosure statements required under sections 87-17(f)(1) through -(7), Hawaii Revised Statutes, which include sources of income, certain ownership interests, officer and director positions, debts, creditor interests in insolvent businesses, and names of persons represented before government agencies. Your Committee finds that this measure will require the Hawaii State Ethics Commission to redact only amounts, leaving all key information open to public disclosure.

In implementing this measure, your Committee urges the Hawaii State Ethics Commission to work with agencies to ensure that all board members and staff are trained and educated on the state ethical rules and laws, and, in particular, those pertaining to financial disclosures of board members.

Accordingly, your Committee finds that this measure will benefit the people of Hawaii and increase the size and quality of the pool of candidates for seats on state boards and commissions by redacting only the amounts of the financial disclosure information.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2023, to afford the Hawaii State Ethics Commission additional time to implement this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2123, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2656 Government Operations on S.B. No. 2143

The purpose and intent of this measure is to require each state board to make its board packets publicly available prior to the board's meeting.

Your Committee received testimony in support of this measure from The Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, National Federation of the Blind of Hawaii, Common Cause Hawaii, and seven individuals. Your Committee received comments on this measure from the Office of Information Practices and Hawai'i Tourism Authority.

Your Committee finds that a recurring issue with many state boards is the inadequate or incomplete provision of information regarding agenda topics in advance of board meetings. This impairs the public's ability to provide meaningful comment on board matters. Your Committee further finds that members of the public have useful contributions to make on a wide array of issues and should be allowed to provide comments on issues on the agenda and not only at the beginning of meetings. Accordingly, your Committee finds that this measure will promote public engagement in the operation of state boards by increasing the amount of information provided to the public in advance of board meetings.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "board packet";
- (2) Clarifying that boards are not required to prepare and use board packets, but when boards do so, they are required to make the board packets available to the public before the meeting; and
- (3) Increasing the required packet availability from twenty-four to forty-eight hours prior to a board meeting.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2143, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2657 Government Operations on S.B. No. 2111

The purpose and intent of this measure is to allow government agencies to publish public notices on an official website as an alternative to a newspaper.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Department of Health, Department of Budget and Finance, University of Hawai'i System, Department of Human Services, Hawaii State Energy Office, Department of Land and Natural Resources, Hawai'i Tourism Authority, Department of Transportation, Department of Planning and Permitting of the City and County of Honolulu, Department of Design and Construction of the City and County of Honolulu, and National Federation of the Blind of Hawaii. Your Committee received testimony in opposition to this measure from the Star Advertiser and one individual. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that electronic posting can be a more effective, expedient, and economical method of publishing public notices. This is particularly true for routine but time-sensitive situations, such as postings of clean water environmental hazard advisories or postings regarding disaster-related response and recovery activities. Your Committee further finds that it is in the public interest to encourage within government the adoption of modern technologies and business practices that expand public engagement. Your Committee recognizes, however, that certain public notices shall remain subject to stricter statutory posting requirements where circumstances so demand.

Accordingly, your Committee finds that this measure will promote transparency in government operations, increase administrative efficiency, and modernize governmental operations by allowing government agencies to publish public notices electronically under certain circumstances. In effecting this modernization, your Committee urges all government agencies to consider the access needs of individuals with disabilities and not only meet, but exceed, legal obligations regarding those individuals.

Your Committee notes the testimony of the Department of Health, suggesting certain amendments to address the needs of individuals with limited broadband access or technological experience.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1-28.5(a)(3), Hawaii Revised Statutes, to:
 - (A) Require the evaluation and documentation of the rationale for posting online-only notices for individuals with limited broadband access or technological experience; and
 - (B) Provide online-only notices accessible to individuals with visual impairments through screen reader accessible format; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2111, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2658 (Joint) Transportation and Government Operations on S.B. No. 2603

The purpose and intent of this measure is to:

- (1) Allow the Department of Transportation to install and lease or contract to install and lease telecommunication facilities;
- (2) Allow longitudinal access to the right-of-way of a highway for installation, operation, and maintenance of these telecommunication facilities;
- (3) Authorize the Director of Transportation to offer a broadband service provider use of and access to its spare conduits and related telecommunication facilities under special conditions;
- (4) Grant a property owner the right of just compensation from the Department of Transportation or the broadband provider for any decrease in land value from the expanded use of an existing easement to install or operate a telecommunication facility; and
- (5) Establish the smart highway corridor special fund.

Your Committees received comments on this measure from the Department of Transportation, Department of the Attorney General, Department of Budget and Finance, and State Procurement Office.

Your Committees find that it is necessary to have greater flexibility and direction in telecommunication facility and infrastructure installation. Therefore, this measure sets rules for the construction, funding, and management of telecommunication facilities including leasing the areas above or below state highways for construction. This measure also allows other entities to use state telecommunication facilities in exchange for moneys that shall be deposited in the smart highway corridor special fund, which shall help to offset the cost of the original construction, installation, and maintenance of the telecommunication facilities.

Your Committees have amended this measure by:

- (1) Specifying that chapter 206N, Hawaii Revised Statutes, applies to the activities of a provider of telecommunication facilities;
- (2) Clarifying that the Director of Transportation may lease highway rights of way above or below state highways for telecommunication purposes only;

- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2603, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2603, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Government Operations: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Gabbard).

SCRep. 2659 Higher Education on S.B. No. 2304

The purpose and intent of this measure is to:

- (1) Clarify that the purpose of the Research Corporation of the University of Hawaii is to promote educational, scientific, and literary pursuits through research, training of research personnel, and dissemination of knowledge by publication of research findings; and
- (2) Limit undertakings of the Research Corporation of the University of Hawaii to matters that are reasonably necessary to carry out its purpose.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the University of Hawai'i System, Research Corporation of the University of Hawai'i, and twenty-five individuals.

Your Committee finds that the Research Corporation of the University of Hawaii was established in 1965 for the purposes of promoting, encouraging, initiating, developing, and conducting scientific research and investigation in all branches of learning, and disseminating to the public, the benefits of such research and investigation. To promote cooperative research projects with private firms and persons, the Legislature at the time granted the Research Corporation of the University of Hawaii with flexibility in the hiring of its personnel and the handling of disbursement moneys by exempting it from state laws relating to reimbursement of special funds to the state general funds.

However, the Research Corporation of the University of Hawaii has gradually expanded its undertakings into areas beyond its original eponymous purpose, and the benefits of exemptions from statutory requirements granted years ago have been extended to apply beyond what was originally intended by the Legislature.

Additionally, your Committee also notes that any amendments made to Administrative Procedures 12.204 (AP 12.204), relating to guidelines and procedures for revolving fund service orders to the Research Corporation of the University of Hawaii, require notification to the Legislature. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider amending this measure to include a requirement for the University of Hawaii to report to the Legislature any amendments to AP 12.204 within thirty days of adoption by both the University and the Corporation.

Your Committee notes that S.B. No. 3267 (Regular Session of 2022), is a substantially similar measure that also allows the Research Corporation of the University of Hawaii to enter into contracts with the University of Hawaii for the purposes of supporting or facilitating sponsored research and training activities, or for advancing innovation in the State. Your Committee concludes that the language in S.B. No. 3267 is partially preferable because it also allows for innovation of entrepreneurship activities.

Your Committee has amended this measure by:

- (1) Deleting the contents of section 2 and inserting the contents of section 1 of S.B. No. 3267, a substantially similar measure, which:
 - (A) Authorizes the University of Hawaii to enter into contracts with the Research Corporation of the University of Hawaii for the purposes of supporting or facilitating sponsored research and training activities or for advancing innovation and entrepreneurship in the State; and
 - (B) Requires the University of Hawaii to consult with employee unions to review conformance of positions with exceptions to collective bargaining for the employment of personnel.
- (2) Prohibiting the Research Corporation of the University of Hawaii to supplant civil servants, and in the event of any transfers of personnel to the Corporation, a justification must be provided and approved by the Governor and requiring that the Corporation provide quarterly and end-of-year reports to the Legislature on all affected programs and personnel;
- (3) Authorizing the Research Corporation of the University of Hawaii to continue and uphold any contracts enacted prior to the approval of this measure but shall not enter into new contracts that conflict with this measure upon its enactment;
- (4) Authorizing the Research Corporation of the University of Hawaii to engage in minor renovation projects in support of research and training that do not exceed \$2 million;
- (5) Requiring all Research Corporation of the University of Hawaii accounts to follow internal policies and laws governing the Corporation, and follow Administrative Procedures 12.204, relating to the guidelines and procedures for revolving fund service orders to the Research Corporation of the University of Hawaii;
- (6) Requiring the Research Corporation of the University of Hawaii to report all internal service orders and revolving accounts utilizing University of Hawaii intramural funds to the Legislature on an annual basis;

- (7) Requiring the University of Hawaii and the Research Corporation of the University of Hawaii to review and approve all revolving accounts on an annual basis; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee respectfully requests your Committee on Ways and Means to examine the feasibility of rolling over contracts and whether the agreements are nullified upon approval of this measure.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2660 Higher Education on S.B. No. 3269

The purpose and intent of this measure is to:

- (1) Outline tenure requirements and criteria for tenure-track faculty;
- (2) Require a minimum of at least one performance review every five years for tenured and tenure-track faculty;
- (3) Require a minimum of at least one performance review every three years for administrative, professional, and technical and non-tenurable employees;
- (4) Establish minimum faculty categories for all campuses; and
- (5) Establish a “C” classification for instructors at the community colleges.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from University of Hawaii'i at Mānoa Department of Political Science; Hawaii Nurses' Association – OPEIU Local 50; Hawaii State AFL-CIO; Hawaii Cattlemen's Council, Inc.; Graduate Student Organization of the University of Hawaii'i at Mānoa Executive Council; International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts of the United States, Its Territories, and Canada, AFL-CIO, CLC Local 665; Hawaii Firefighters Association; Hawaii'i Library Association; a petition containing the signatures of nineteen faculty and staff members from the University of Hawaii Cancer Center; and one hundred seventy-one individuals. Your Committee received comments on this measure from one individual.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Amending the preamble to correct the statement that the University of Hawaii Board of Regents adopted the permitted interaction group's Resolution 21-06, which supported recommendations by the permitted action group;
- (2) Including librarians and employees previously classified as “B” to be eligible for tenure; and
- (3) Creating a “C” category to classify community college faculty as employees who teach classes but are not required to conduct research.

Your Committee received testimony in support from one individual. Your Committee received testimony in opposition from the Office of Collective Bargaining; University of Hawaii'i System; Hawaii Community College Academic Support Division Faculty; University of Hawaii'i at Mānoa Hawai'inuiākea School of Hawaiian Knowledge; State of Hawaii Organization of Police Officers; United Public Workers, AFSCME Local 646, AFL-CIO; University of Hawaii Professional Assembly; Hawaii Government Employees Association AFSCME Local 152, AFL-CIO; and eighty-eight individuals. Your Committee received comments on the proposed S.D. 1 from one individual.

Your Committee finds that the University of Hawaii is the only system of public education in Hawaii that is supported by state funds, uses public land set aside for university purposes, and is continually supported by other public resources. Some of the university's workforce that are supported by public resources are faculty who teach and provide other instruction in various academic disciplines and professional fields such as law and medicine, while other faculty primarily engage in research or who provide specialized services but who are not typically employed in a teaching capacity. Within academic institutions, the term “academic tenure” is generally understood to mean the right of a faculty member to permanent or continuous service, which is granted following a rigorous process that includes a probationary service period and evaluations on various criteria. The decision to classify a position as eligible for a possible grant of tenure to the incumbent results in the long-term commitment of public resources for that position.

In 2021, the Senate passed Senate Concurrent Resolution No. 201, S.D. 1, H.D. 1, Regular Session of 2021 (S.C.R. No. 201), to urge the University of Hawaii to convene a task force to examine and assess the University of Hawaii tenure system. Following the enactment of S.C.R. No. 201, the Board of Regents of the University of Hawaii created a permitted interaction group to review the issue of tenure with a focus on the history and evolution of tenure and current criteria used for decision-making on tenure. The permitted interaction group found that, while tenure is still a critical component to academic freedom and retention of faculty, in recent years, the University of Hawaii has been reducing the number of tenured faculty. In addition, the permitted interaction group further found that “to establish policy direction in conducting promotion and tenure to ensure that university priorities and mission are met” revisions to review policies should be considered.

While your Committee has heard the concerns of many testifiers from the community, your Committee also considered the findings from the permitted interaction group, which suggested revisions to classification plans and incorporation of revisions regarding periodic review of university employees should be considered. In addition, classifications of community college faculty and instructors were not adequately addressed, leading to this group's omission in the original classification system. Amendments are

therefore necessary to address some issues raised by the permitted interaction group findings and testimony regarding the community college classification.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that only support faculty and extension agents, personnel classified as "FSE", hired after June 30, 2022, shall be subject to section 304A-1002(3), Hawaii Revised Statutes;
- (2) Clarifying eligibility for tenure for community college faculty classified as "C"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3269, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Wakai). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2661 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2959

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for the College of Tropical Agriculture and Human Resources to establish one full-time agriculture education coordinator position.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Department of Agriculture; Hawai'i Farm to School Hui; Local Food Coalition; Hawai'i Farm Bureau; Hawai'i Youth Food Council; Growing Together Edible Landscaping; Center for Getting Things Started; Ka Ohana O Na Pua; Hawai'i Island School Garden Network; Hawaii Cattlemen's Council, Inc.; and five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the number of young farmers in Hawaii has steadily decreased in recent years. A key factor in the decreasing number of young farmers is the lack of agriculture education, which has led to falling interest in agricultural activities. This measure appropriates funds for a full-time agriculture education coordinator position to ensure the continuation and expansion of agriculture education for young farmers in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2959 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kidani, Wakai).

SCRep. 2662 (Joint) Transportation and Water and Land on S.B. No. 2134

The purpose and intent of this measure is to authorize the Department of Transportation to negotiate leases for the non-maritime use of commercial harbors, commercial harbor and waterfront improvements, ports, docks, wharves, piers, quays, bulkheads, and landings belonging to or controlled by the State.

Your Committees received comments on this measure from the Hawaii Harbor Users Group and Young Brothers, LLC.

Your Committees find that the Department of Transportation should be able to lease maritime infrastructure for non-maritime usage. This measure authorizes the Department of Transportation to negotiate such leases when necessary.

Your Committees have amended this measure by clarifying that the non-maritime use of commercial harbors, commercial harbor and waterfront improvements, ports, docks, wharves, piers, quays, bulkheads, and landings shall be located within the Aloha Tower complex designated boundaries.

As affirmed by the records of votes of the members of your Committees on Transportation and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2134, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2134, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2663 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 2772

The purpose and intent of this measure is to:

- (1) Create and expand existing community-based furlough programs, residential drug treatment, therapeutic living, and mental health programs for judiciary-involved women; and
- (2) Create and fund a comprehensive data base regarding justice-involved women and their families to better inform decisions regarding diversion from prison, rehabilitation in prison, and transition out of prison.

Your Committees received testimony in support of this measure from the Women's Prison Project; Young Women's Christian Association, O'ahu; Hawaii Disability Rights Center; Hawaii Substance Abuse Coalition; and five individuals. Your Committees received comments on this measure from the Department of Public Safety, Department of Budget and Finance, Judiciary, and Community Alliance on Prisons.

Your Committees find that expanding diversion services for females is considerably less costly than incarceration and may also allow female offenders in the community to remain with their families and children while participating in much-needed services and treatment. Presently, the number of programs that allow minors to remain with their mothers while in treatment is limited. Expanding these existing programs would be beneficial as their capacity to provide residential treatment to women with minor children is a challenge. There is a limited number of bed spaces, which results in wait lists for mothers seeking treatment. Your Committees further find that the creation of a comprehensive database will help all justice-involved agencies to better address an offender's risks, needs, and responsivity, enabling the creation of a more complete and comprehensive plan for treatment and care. This measure will allow the State to reduce trauma for children and mothers and lower the risk of recidivism by appropriating funds to the Judiciary to create and expand existing community-based furlough programs, residential drug treatment, therapeutic living, and mental health programs for judiciary-involved women.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$200,000;
- (2) Deleting language that would have required the Judiciary to create and fund a comprehensive data base regarding justice-involved women and their families to better inform decisions regarding diversion from prison, rehabilitation in prison, and transition out of prison; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2772, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2772, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2664 (Joint) Higher Education and Education on S.B. No. 2359

The purpose and intent of this measure is to require the University of Hawaii to establish in each county, K-12 expanded teaching cohort programs for students who are pursuing undergraduate degrees in education.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, University of Hawaii at Hilo, and Hawaii State Teachers Association.

Your Committees find that due to a variety of factors, Hawaii has long suffered from a shortage of qualified public school teachers. Recent data reflect another long-term trend: teachers leaving Hawaii or resigning for other non-retirement reasons has outpaced retirement as the top reason for attrition in the last three years. During the 2020-2021 school year, seven hundred seventy-one teachers resigned for non-retirement reasons, compared with six hundred seventy-four in 2019-2020 and seven hundred fifty-five in 2018-2019. In total, 1,199 teachers separated from the Department of Education in the 2020-2021 school year, compared to nine hundred sixty-one in 2019-2020.

Your Committees also find that the University of Hawaii System does not offer a sufficient number of classes required for students majoring in education and pursuing undergraduate degrees, especially on the neighbor islands. Expanding the pipeline to "grow our own" educators for the State builds capacity on all islands, including the neighbor islands where shortages are most severe, and provides residents with an opportunity to remain in Hawaii and support local communities. As the University of Hawaii serves as a major pipeline to produce teachers for the State, this issue is a matter of statewide concern pursuant to article X, section 6, of the Hawaii State Constitution.

After hearing the concerns from the University of Hawaii System regarding the \$600,000 implementation costs for this measure, your Committees respectfully requests that your Committee on Ways and Means investigate the possibility of appropriations being needed to support the expanded cohort program.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2359, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2359, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2665 Higher Education on S.B. No. 3155

The purpose and intent of this measure is to:

- (1) Amend the number of University of Hawaii Board of Regents member terms that expire each year from three to two; and
- (2) Adjust the terms of the Board of Regents members appointed between 2022-2026 to realign the number of terms scheduled to expire each year.

Your Committee received testimony in support of this measure from the University of Hawaii Board of Regents.

Your Committee finds that Act 172, Session Laws of Hawaii 2019, reduced the number of members of the Board of Regents of the University of Hawaii from fifteen to eleven, making the number of members whose terms will expire in the coming years not evenly distributed and may result in sudden losses of institutional knowledge. To prevent dramatic shifts in the composition of the Board of Regents, a realignment of terms of members appointed by the Governor is necessary to ensure that a large number of terms do not expire each year. As the Board of Regents guide policy and major decisions for the University of Hawai'i System, the composition of the Board of Regents is a matter of statewide concern under article X, section 6 of the Hawaii State Constitution. To address the issues surrounding regent terms and to prevent significant loss of knowledge, this measure addresses the Board of Regents member numbers, composition, selection, and term limits.

Your Committee has amended this measure by:

- (1) Reducing the number of regents from eleven to nine;
- (2) Amending the composition of the Board of Regents to require one member from each county, totaling four members;
- (3) Amending the composition of the Board of Regents to require five at-large members to be selected as follows:
 - (A) Two members selected from a list of three names submitted to the governor by the President of the Senate;
 - (B) Two members selected from a list of three names submitted to the governor by the Speaker of the House of Representatives; and
 - (C) One member selected by the Governor;
- (4) Adjusting the terms of the Board of Regents members appointed between 2022-2026 to reflect the new total of regents;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the amendments made to this measure that change the composition and selection process of the Board of Regents is contingent upon the ratification of a constitutional amendment repealing the Candidate Advisory Council of the Board of Regents of the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3155, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2666 (Joint) Judiciary and Labor, Culture and the Arts on S.B. No. 2836

The purpose and intent of this measure is to:

- (1) Require the Judiciary to create a separate employment classification for juvenile probation officers;
- (2) Establish minimum procedures for the appointment of juvenile probation officers; and
- (3) Require reports to the Legislature on the status of the implementation of this Act.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Adult Friends for Youth; and eleven individuals. Your Committees received comments on this measure from the Judiciary.

Your Committees find that the duties performed by juvenile probation officers are essential and vital to the State's juvenile justice system. Juvenile probation officers address a wide range of complex issues that impact the well-being of the State's youth and their families. Their efforts to transform the juvenile justice system have resulted in a significant reduction in juvenile crime across the State. Your Committees also find that juvenile probation officers are currently classified as social workers within the Judiciary's hiring system. This classification has created confusion about the role and authority of juvenile probation officers, including their ability to take minors into custody, administer drug tests, and establish reporting requirements for earned discharge from probation. Juvenile probation officers do not currently have access to annual safety training and do not possess sufficient identification, such as badges, to ensure their safety in the field. This measure will provide juvenile probation officers with the necessary tools and training that they need to adequately perform their duties assigned.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2836, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2836, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 5. Noes, none. Excused, 2 (Kim, Lee).
Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2667 Judiciary on S.B. No. 2044

The purpose and intent of this measure is to:

- (1) Increase from \$1,000 to \$5,000 the fine that may be assessed for campaign spending law violations against a noncandidate committee making only independent expenditures and that has received at least one contribution of more than \$10,000, or spent more than \$10,000 in an election period; and
- (2) Allow the Campaign Spending Commission to order that the fine be up to three times the amount of the unlawful contribution or expenditure, and that the payment of the fine assessed against a noncandidate committee, or any portion thereof, be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and one individual.

Your Committee finds that a noncandidate committee that makes only independent expenditures, otherwise known as Super PACs or large political action committees, is not penalized the same as individuals and candidate committees for violations of campaign spending laws. An increase in the amount of the fine is necessary in enforcement cases against Super PACs. This measure will be a more effective deterrent against Super PACs, with their deep pockets, from violating campaign spending laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2668 (Joint) Judiciary and Agriculture and Environment on S.B. No. 2618

The purpose and intent of this measure is to establish and fund an Environmental Investigative Hotline Pilot Project through the Department of the Attorney General, Investigations Division, that will implement and manage an investigative hotline for Molokai residents to report environmental concerns on Molokai and have one full time investigator on the island of Molokai to investigate reports of environmental concerns.

Your Committees received testimony in support of this measure from the Hawaii State Aha Moku and one member of the Maui County Council. Your Committees received testimony in opposition to this measure from the Department of the Attorney General. Your Committees received comments on this measure from the Department of Budget and Finance.

The Committees find that in rural areas, such as Molokai, a remote island with a population of about seven thousand people, many state departments do not have full time employees dedicated to enforcement activities available. Therefore, when a complaint is made, the state departments do not have staff physically present to address the situation; instead, many times a state department has to rely on still photos and videos that may not capture the full extent of the situation or be sufficient to support the issuance of a citation. State departments must then make a determination whether to send a staff member into the field after the fact to conduct an investigation, which can take weeks to schedule depending upon flight schedules or staff availability. The delay obviously hampers the ability of any government inspector to witness the violation and issue an enforceable citation. These limitations also lead to delays in stopping environmentally hazardous activities, that impact the health and safety of the residents of Molokai. This measure will establish and fund an investigative hotline that gives Molokai residents a way to report concerns and violations and provide for an investigator on site to address the concerns and violations in a timely manner.

Your Committees urge the Department of the Attorney General, Department of Land and Natural Resources, and Maui County Police to suggest solutions for the law enforcement issues faced by Molokai residents, specifically the excessive delays in responding to concerns on the island as noted in the Hawaii State Aha Moku's testimony.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2618, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2618, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 7. Noes, none. Excused, none.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2669 (Joint) Judiciary and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3194

The purpose and intent of this measure is to:

- (1) Establish an expeditious adjudication system for processing fireworks infractions, similar to the system for processing traffic infractions;
- (2) Implement the recommendations of the 2010 illegal fireworks task force by:
 - (A) Raising the fireworks display permit fee from \$110 to \$150;
 - (B) Amending the fines for certain fireworks violations;
 - (C) Clarifying that each aerial device, display firework, or article pyrotechnic having a total weight of twenty-five pounds or less that is illegally imported, transferred, or sold constitutes a separate violation; and

- (D) Increasing the penalty for removing or extracting the pyrotechnic contents from any fireworks or articles pyrotechnic for certain uses;
- (3) Authorize the Sheriff Division of the Department of Public Safety to enforce the fireworks control law;
- (4) Require the Attorney General to establish an explosion detection technology working group; and
- (5) Require the Department of Public Safety to develop and implement a web-based reporting tool for illegal fireworks that will provide the counties with additional data to enforce the applicable fireworks laws.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaiian Humane Society, and four individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department and two individuals. Your Committees received comments on this measure from the Judiciary, Department of Budget and Finance, and one individual.

Your Committees find that Act 170, Session Laws of Hawaii 2010, established an illegal fireworks task force to develop strategies and make recommendations to the Legislature to address the illegal importation and use of fireworks in the State. Among other matters, the illegal fireworks task force recommended that the Legislature consider increasing fireworks permit fees and violation fines to deter the use of illegal fireworks, decrease the supply of illegal fireworks in the State, and increase funding for prevention and enforcement efforts. Your Committees further find that technologies, including ShotSpotter and web-based reporting tools, have shown potential to assist police departments in enforcing fireworks laws. Additionally, your Committees believe that alternative enforcement mechanisms, such as an expeditious adjudication system for fireworks infractions similar to the system for processing traffic infractions, should be considered to promote compliance with fireworks laws. This expeditious adjudication system will allow the Judiciary to expediently process violations of the fireworks control law, allowing the Judiciary to reserve resources for cases that require more resources. This measure will allow the State to ensure that the people of the State may live in peace and security, without the public safety risks, health hazards, and traumatic impacts of illegal fireworks use by implementing a multi-faceted approach to increasing the State's enforcement against illegal fireworks, including a working group and proposed technology to further improve interagency cooperation.

Your Committees have amended this measure by:

- (1) Deleting language that would have established an expeditious adjudication system for processing fireworks infractions, similar to the system for processing traffic infractions;
- (2) Deleting language that would have increased the permit cost to use aerial fireworks from \$110 to \$150;
- (3) Incorporating the new fireworks citations into the existing traffic and emergency order citation system under Chapter 291D, Hawaii Revised Statutes;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3194, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3194, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2670 (Joint) Government Operations and Transportation on S.B. No. 3324

The purpose and intent of this measure is to require:

- (1) Lot owners in a subdivision to pay for the repair and maintenance of subdivision roads where the applicable deeds do not specify that requirement; and
- (2) The counties to provide training, support for applicable assessments, and oversight of housing subdivisions where no oversight authority has been established.

Your Committees received testimony in support of this measure from the Hawaii Council of Community Associations, Hawaiian Shores Community Association, Associa, and fifteen individuals. Your Committees received testimony in opposition to this measure from the County of Hawaii Planning Department and three individuals.

Your Committees find that some housing subdivisions in the State have been approved without a requirement that the lot owners fund the repair and maintenance of the private roads and other infrastructure within the subdivision. Unlike condominium property regimes, many housing subdivisions are not subject to a statutory framework or an oversight agency to oversee the creation, monitoring, training, and auditing of the various volunteer associations responsible for the subdivision infrastructure. As a result, various homeowners in the subdivisions in the district of Puna in the County of Hawaii have been involved in litigation for decades.

Your Committees further find that the inability to collect assessments from lot owners of subdivisions with no court-approved corporation, association, or entity results in substandard and deeply rutted roads that can delay emergency vehicles that respond to emergency situations, including crime scenes. Numerous structures have been destroyed because a fire truck was not able to arrive in time.

Your Committees note, however, the testimony of the County of Hawaii Planning Department regarding certain community association support services that are outside the purview of the department. Your Committees also note the testimony of the Hawaii Council of Community Associations, which commented that it would be prudent to establish a working group to study the issues and develop a more comprehensive statutory scheme and long-term workable solutions for the health and safety of these homeowners.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have created a new chapter in the Hawaii Revised Statutes pertaining to Housing Subdivisions, and replacing it with language to establish a working group to study matters further;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3324, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3324, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Transportation: Ayes, 5. Noes, none. Excused, none.

SCRep. 2671 Transportation on S.B. No. 2756

The purpose and intent of this measure is to:

- (1) Create a two-tier rate adjustment for water carriers based on automatic annual increases or a justified increase based on actual costs and performance;
- (2) Establish a water carrier agricultural cargo shipping subsidy with an annual rate increase; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from Young Brothers, LLC. Your Committee received comments on this measure from the Department of the Attorney General; Public Utilities Commission; Department of Commerce and Consumer Affairs; Department of Budget and Finance; Hawai'i Farm Bureau; Maui County Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that the water carrier industry plays a crucial role in sustaining each island's economy and supporting Hawaii's agricultural industry by making shipping more affordable for consumers. Due to recent economic events and increasing operating costs, it is necessary to balance the need for continuous interisland water carrier service throughout the State with the need for water carriers to maintain financial stability. General rate cases tend to be time consuming for both water carriers and the Public Utilities Commission. The collaborative efforts by the Water Carrier Working Group, formed in response to Senate Resolution No. 125, S.D. 1 (2020), developed recommendations focusing on annual rate adjustments, improving customer service, and establishing broad subsidies for trans-Pacific and interisland cargo, among other issues, including the recommendation to establish the water carrier inflationary cost index, which is reflected in this measure. A two-tier rate adjustment mechanism will help reduce administrative burdens and provide a more contemporaneous means of pairing regulated cargo rates with inflation-adjusted expenses. Further, the agriculture cargo shipping subsidy program will make shipping agricultural goods more affordable and help mitigate further increases for customers.

Your Committee has heard the concerns raised in testimony that this measure, as currently drafted, fails to incorporate certain audit findings that recommended no inflation adjustment be requested prior to 2023, and that any such proposal for increasing rates be subject to the water carrier demonstrating measurable improvements in cost containment. Therefore, amendments to this measure are necessary to address these and other concerns raised in testimony.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that, before January 1, 2024, the Public Utilities Commission shall establish a two-tier water carrier inflationary cost index by which water carrier rates shall be annually adjusted;
- (2) Specifying that, for tier one, an automatic rate adjustment for each calendar year shall be calculated by increasing or decreasing the water carrier rate in effect through the end of the previous calendar year by the percentage increase or decrease in the consumer price index for that year;
- (3) Clarifying that, for tier two, the Public Utilities Commission shall grant approval of an expense justified rate increase based on proof of performance measures demonstrating that there has been no material decline in the water carrier's operations, safety, or customer service levels;
- (4) Clarifying that the total water carrier inflationary cost index rate adjustment shall exclude surcharges and shall not exceed five percent per calendar year;
- (5) Requiring the water carrier agriculture cargo shipping subsidy program to be administered consistent with the standards and qualifications for making subsidies as previously enacted for other administrative grant programs in the State;
- (6) Inserting language appropriating \$200,000 to the Public Utilities Commission to establish a water carrier inflationary cost index rate adjustment;

- (7) Inserting a \$750,000 appropriation amount for the Department of Transportation for the interstate water carrier agriculture subsidies program;
- (8) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (9) Amending section 1 to reflect its amended purpose and to clarify that the interstate water carrier agriculture subsidies program is for a public purpose to alleviate costs associated with transportation and service across the State, primarily for small communities reliant on shipment of goods by barge, and providing universal support to water carriers, cargo users, and consumers; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2756, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2672 Transportation on S.B. No. 3158

The purpose and intent of this measure is to appropriate funds for subsidies to encourage the purchase and use of electric motor vehicles and bicycles.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, Alliance for Automotive Innovation, Ulupono Initiative, Tesla, Blue Planet Foundation, and Hawaii Bicycling League. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that the single greatest factor of the increasing cost of living in Hawaii is the rising cost of transportation. Due to increasingly expensive fossil fuels and a lack of cheaper transit options, Hawaii residents already pay among the highest cost to commute in the country. Furthermore, the continued burning of fossil fuels contributes to climate change which poses a serious threat to the economic well-being, public health, and environment of Hawaii.

Your Committee further finds that electric motor vehicles and bicycles are significantly more cost effective and better for the environment than gas powered vehicles. Therefore, the purpose of this measure is to encourage the purchase and use of electric motor vehicles and electric bicycles to reduce the cost of living and cost of transportation by creating subsidies for those looking to purchase electric motor vehicles and electric bicycles.

Your Committee has amended this measure by:

- (1) Inserting language to establish the electric vehicle, electric bicycle, moped, and motorcycle rebate program and electric vehicle and electric bicycle rebate special fund within the Department of Transportation to provide rebates up to an unspecified amount to individuals for the purchase of an electric vehicle, electric bicycle, moped, or motorcycle;
- (2) Authorizing the Department of Transportation to contract with a third-party administrator to manage the rebate program;
- (3) Specifying that the rebate program prioritize low-income applicants;
- (4) Allocating an unspecified portion of the barrel tax to fund the rebate program;
- (5) Inserting a blank appropriation amount of federal funds for the rebate program;
- (6) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although this measure contains a blank portion of the barrel tax to be allocated to the electric vehicle, electric bicycle, moped, and motorcycle rebate special fund, your Committee respectfully requests that your Committee on Ways and Means consider inserting 3 cents as the allocation. Your Committee also requests the your Committee on Ways and Means consider suspending the allocation of the barrel tax to the electric vehicle charging system subaccount established pursuant to section 269-33(e), Hawaii Revised Statutes, for five years, and instead appropriating \$5,000,000 from federal Infrastructure Investment and Jobs Act to the subaccount.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3158, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2673 Transportation on S.B. No. 3274

The purpose and intent of this measure is to establish the Multimodal Transportation Branch of the Department of Transportation to increase funding, pursue grants, and work on projects focusing on safe, low user cost pedestrian and bicycle infrastructure.

Your Committee received testimony in support of this measure from the Hawai'i Public Health Institute, Ulupono Initiative, Hawaii Bicycling League, Hawaii Transportation Association, Bikeshare Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the fastest growing contributor to the increasing cost of living in Hawaii is the rising cost of transportation. Hawaii residents already pay among the highest costs to commute per capita anywhere in the country, and despite rising fossil fuel prices, residents struggle to find cheaper, efficient transit options. Hawaii lacks a safe pedestrian and bicycle commuting infrastructure, meaning that many Hawaii households are forced to pay for multiple cars. This measure will increase resources available for pedestrian and bicycle infrastructure.

Your Committee has amended this measure by:

- (1) Removing language that would have established the Multimodal Transportation Branch;
- (2) Establishing a requirement that an unspecified percentage of all Department of Transportation expenditures in a fiscal biennium shall be used for safe, protected pedestrian and bicycle infrastructure;
- (3) Establishing two positions dedicated to grant writing to maximize funds gained from the Infrastructure Investment and Jobs Act;
- (4) Inserting a blank appropriation for two full-time equivalent grant writing positions in the Department of Transportation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3274, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3274, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (DeCoite). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2674 Transportation on S.B. No. 2825

The purpose and intent of this measure is to require the Department of Transportation Harbors Division to conduct a comprehensive study examining increased commercial activity at Kalaeloa Harbor to support the offloading of additional cargo containers and livestock transportation.

Your Committee received testimony in support of this measure from the Kapolei Chamber of Commerce; Hawaii Logistic Services; and Hawaii Meats, LLC. Your Committee received testimony in opposition to this measure from the Hawaii Harbor Users Group. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Transportation; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that over eighty percent of goods in Hawaii are imported via ocean transportation. From Honolulu Harbor, many cargo containers are transported via commercial trucks to West Oahu for storage or further processing. These frequent trips negatively impact efficiency at the docks and increase highway traffic levels and congestion. This measure is to appropriate an unspecified amount of money to fund the Department of Transportation Harbors Division to conduct a comprehensive study to determine and identify resources necessary to expand Kalaeloa Harbor for increased and additional commercial uses, including offloading of cargo and livestock transportation.

Your Committee has amended this measure by:

- (1) Allowing the Department of Transportation an additional year to report to the Legislature; and
- (2) Requiring the Department of Transportation to consult with relevant stakeholders and harbor users to conduct the study.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2825, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2825, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2675 Transportation on S.B. No. 2444

The purpose and intent of this measure is to establish peer-to-peer car-sharing insurance requirements.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Insurers Council, American Property Casualty Insurance Association, and GEICO. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice and Avail. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Insurance Division, Turbo, and Independent Car Rental Association.

Your Committee finds that peer-to-peer car-sharing programs do not have established requirements for insurance coverage. Not all car insurance packages cover peer-to-peer car-sharing purposes, and thus the purpose of this measure is to make mandatory the insurance terms for operating a peer-to-peer car-sharing program.

Your Committee notes the testimony of the Insurance Commissioner expressing concern that this measure may limit insurance coverage and may take away some of the broad protections that consumers currently have under their existing auto policies.

Your Committee also notes the testimony of the Hawaiian Association for Justice that this measure does not require a sufficient amount of minimum insurance coverage.

Your Committee has amended this measure by:

- (1) Addressing insurance gap coverage by specifying that car-sharing termination time means the latest of certain events, rather than the earliest;
- (2) Removing business use from the categories of excluded coverage provided for in this measure; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2444, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2676 Transportation on S.B. No. 2720

The purpose and intent of this measure is to:

- (1) Allow for new electric vehicle charging stations having a single port to qualify for a rebate;
- (2) Increase the flexibility of the Public Utilities Commission to administer the electric vehicle charging station rebate program; and
- (3) Include marketing and outreach expenses within allowable administration costs of the electric vehicle charging station rebate program.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaiian Electric Company, Blue Planet Foundation, Alliance for Automotive Innovation, Tesla, Ulupono Initiative, 350 Hawaii, Our Revolution Hawaii, and Hawaii Automobile Dealers' Association. Your Committee received comments on this measure from the Hawaii State Energy Office, Public Utilities Commission, and Hawai'i Energy.

Your Committee finds that climate change caused by carbon emissions from burning fossil fuels poses a serious threat to the economic well-being, public health, natural resources, and environment of Hawaii. While there is growing interest in electric vehicles among Hawaii residents, the lack of adequate vehicle charging infrastructure presents a key barrier to greater adoption. Therefore, the purpose of this measure is to provide a rebate for new Level 2 charging stations with one port, amend and add flexibility to the guidelines for consideration by the Public Utilities Commission in administering the program, and clarify that marketing and outreach expense are included among allowable program administration expenses.

Your Committee has amended this measure by:

- (1) Clarifying that each installation or upgrade is eligible for up to the stated rebate dollar amounts;
- (2) Inserting a rebate of up to \$1,300 for upgrades to existing Level 2 station with one port; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2720, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2720, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2677 Transportation on S.B. No. 2299

The purpose and intent of this measure is to:

- (1) Permit a bicyclist to proceed through an intersection from a right turn only lane if they cannot safely merge into the thru traffic lane, provided they signal intention to merge left; and
- (2) Permit a bicyclist to proceed in a right turn only lane when approaching an intersection, even if they do not intend to turn right, provided that they do not pass a stopped vehicle and that they exercise reasonable safety when passing a moving vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Bicycling League, Cycle On Hawaii, and Bikeshare Hawaii. Your Committee received testimony in opposition to this measure from the Department of Transportation and Honolulu Police Department.

Your Committee finds that at some intersections it may be appropriate to allow bicyclists to proceed through the intersection via a right turn only lane. Your Committee further finds that it should be left to the Department of Transportation to determine intersections appropriate for application of this measure.

Your Committee has amended this measure by authorizing the Department of Transportation to identify intersections where bicycles may proceed through an intersection and place signage to designate them.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2299, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2678 (Joint) Transportation and Government Operations on S.B. No. 2803

The purpose and intent of this measure is to require all state, county, and private bus operators to upgrade to zero emission buses by 2035.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Education, Hawaiian Electric Company, Ulupono Initiative, Hawaii Hydrogen Alliance, Americans for Democratic Action Hawaii, 350 Hawaii, Roberts Hawaii, and Climate Protectors Hawai'i. Your Committees received testimony in opposition to this measure from the Hawaii Transportation Association, Pacific Biodiesel Technologies, and one individual. Your Committees received comments on this measure from the Public Utilities Commission, Hawaii State Energy Office, State Procurement Office, Department of Transportation Services of the City and County of Honolulu, and the United States Hydrogen Alliance.

Your Committees find that unabated greenhouse gas emissions, and the resulting climate change and sea level rise present an urgent and existential threat to citizens of the State. The State has established a target date of 2045, to become carbon negative, but these efforts must be accelerated. This measure requires state, county, and private bus operators to upgrade to zero emission buses.

Your Committees have amended this measure by:

- (1) Extending the goal of only zero emission buses to 2045;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation: Ayes, 5. Noes, none. Excused, none.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2679 (Joint) Transportation and Government Operations on S.B. No. 2679

The purpose and intent of this measure is to:

- (1) Extend the renewal period from two years to four years for licensees who are seventy years of age or older but younger than eighty years of age; and
- (2) Require applicants for a new license or for license renewal who are seventy years of age or older to present certification of physical and mental competence from a doctor upon application.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Customer Services of the City and County of Honolulu, AARP Hawai'i, and four individuals. Your Committees received comments on this measure from the Executive Office on Aging and three individuals.

Your Committees find that for greater convenience while maintaining safety, license renewal applicants over the age of seventy but younger than eighty only need to apply once every four years instead of every two years. To ensure the safety of these applicants, this measure requires an applicant to present certification of physical and mental competence from a doctor.

Your Committees have amended this measure by:

- (1) Extending the renewal period to four years for all licensees seventy-two years of age or older;
- (2) Removing language that would have required that driver's license applicants who are seventy years of age or older have to present certification of physical and mental competence from a doctor;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2679, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2679, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Transportation: Ayes, 5. Noes, none. Excused, none.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2680 (Joint) Transportation and Agriculture and Environment on S.B. No. 2516

The purpose and intent of this measure is to establish a goal within the Hawaii Department of Transportation for seventy-five percent of state highways to be covered with tree canopies by 2045.

Your Committees received testimony in support of this measure from the Hawai'i Public Health Institute, Environmental Caucus of the Democratic Party of Hawai'i, Hawaii Bicycling League, and Climate Protectors Hawai'i. Your Committees received testimony in opposition to this measure from the Department of Transportation. Your Committees received comments on this measure from one individual.

Your Committees find that urban heat from the sun is a problem in Hawaii. Areas with asphalt and concrete are particularly susceptible. To reduce the exposure to the sun, this measure sets a goal of seventy-five percent of all state highways to be covered by tree canopy by 2045.

Your Committees have amended this measure by:

- (1) Deleting language that would have set the goal of all state highways being seventy-five percent covered by tree canopy by 2045;
- (2) Inserting language to establish various new environmentally focused standards for new highways or new highway modifications;
- (3) Establishing a task force to guide the funding, implementation, and maintenance of the new highway construction standards; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2516, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2516, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2681 Human Services on S.B. No. 2518

The purpose and intent of this measure is to identify gender-based pricing as a deceptive trade practice.

Your Committee received testimony in support of this measure from Ma'i Movement Hawai'i, AF3IRM Hawai'i, and thirteen individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that gender-based pricing is a subtle and invidious form of discrimination based on gender, where different prices are charged for goods or services based on the consumer's gender. Gender-based pricing can be evidenced in a wide range of goods and services for consumers of all ages, including toys, clothing, personal hygiene products, car purchases and repairs, mortgages, haircuts, tailoring, and dry cleaning. Your Committee further finds that most of the time, pricing for goods and services for female consumers are priced higher than those for male consumers, and although the price difference for each product may be minuscule, the effect of paying a higher price on goods and services over an entire lifetime is significant, especially considering the fact that women in Hawaii earn roughly \$0.85 for every dollar men are paid, according to a recent study from the U.S. Bureau of Labor Statistics. This measure seeks to eliminate gender-based pricing in Hawaii by making it unlawful as a deceptive trade practice.

Your Committee notes the testimony of Retail Merchants of Hawaii, raising the concern that the base price of products, especially for personal care products, are set by manufacturers who are mostly on the mainland or in foreign countries, who ship their products to be sold in Hawaii. Therefore, your Committee believes that this measure should not be applied to price differences based upon labor, materials, tariffs, or any other gender-neutral reason, including when a retail establishment passes through to the consumer, a price that is set by a manufacturer, distributor, or other entity that is beyond the retailer's control.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that gender-based pricing by manufacturers who sell the goods they manufacture to any person in the State for a price they set constitutes an unlawful deceptive trade practice;
- (2) Amending section 1 to reflect its clarified purpose; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2518, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Misalucha).

SCRep. 2682 (Joint) Health and Water and Land on S.B. No. 2658

The purpose and intent of this measure is to make an emergency appropriation from the leaking underground storage tank fund to the City and County of Honolulu Board of Water Supply for emergency operations, future planning, and remediation resulting from the contamination of the Southern Oahu Basal Aquifer; provided that the Department of Health seeks to enter into a memorandum of understanding with the United States Navy to reimburse the Department of Health for the full amount of the appropriation.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, League of Women Voters of Hawaii, and three individuals. Your Committees received comments on this measure from the Department of Health, Department of Land and Natural Resources, and Department of Budget and Finance.

Your Committees find that in November of 2021, petroleum was detected in the drinking water supply on Oahu resulting from a petroleum leak from the U.S. Navy's Red Hill Bulk Fuel Storage Facility. Since the contaminated drinking water was discovered, the City and County of Honolulu Board of Water Supply (BWS) and Department of Health have worked to address the consequences of the contamination, including water testing, remediation, and studying sites for future wells. This action has included closing the Halawa Shaft and both Halawa and Aiea wells, limiting BWS' ability to provide sufficient fresh water to its customers. BWS has expended a significant amount of funds on these efforts but lacks sufficient funding for emergency operations, future planning, and remediation. This measure makes an emergency appropriation to the City and County of Honolulu Board of Water Supply as a grant-in-aid for these operations.

Your Committees acknowledge the testimony of the Department of Health, which testified that its leaking underground storage tank fund has a \$400,000 ceiling, \$300,000 of which has already been encumbered.

Therefore, your Committees have amended this measure by:

- (1) Changing the appropriation source from the leaking underground storage tank fund to the general fund;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2658, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2658, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2683 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3343

The purpose and intent of this measure is to require:

- (1) Importers of fireworks to obtain a license from the Harbors Division of the Department of Transportation; and
- (2) The Harbor Division of the Department of Transportation to report annually to the Legislature regarding licenses issued.

Your Committees received testimony in support of this measure from the Hawaiian Humane Society and one individual. Your Committees received comments on this measure from the Department of Transportation, Department of Labor and Industrial Relations, and Honolulu Fire Department.

Your Committees find that while illegal fireworks usage in Hawaii is a problem, the shipments of illegal fireworks by importers without fireworks permits enable this issue. This measure requires importers of fireworks to obtain a license to import aerial devices, display fireworks, articles pyrotechnic, or consumer fireworks.

Your Committees note that they did not receive clarification from the Department of Transportation Harbors Division on whether additional resources are needed for the Division to carry out the purposes of this measure. Your Committees request that the Harbors Division notify your Committee on Commerce and Consumer Protection if additional resources are necessary.

Your Committees have amended this measure by:

- (1) Deleting section 5 to retain license fees payable to the counties;
- (2) Clarifying that the applicable county will share joint jurisdiction over fireworks inspections with the Harbors Division; and
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3343, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3343, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2684 Higher Education on S.B. No. 2302

The purpose and intent of this measure is to designate the State Procurement Officer as the Chief Procurement Officer for both the University of Hawaii and Department of Education.

Your Committee received testimony in support of this measure from the Hawaii Regional Council of Carpenters.

Prior to the hearing, your Committee posted and made available for public review a proposed S.D. 1, which, amends this measure by:

- (1) Inserting findings to provide information on chief procurement officer practices at other state higher education systems in the United States and establishing that preventing conflicts of interest in the area of procurement is a matter of statewide concern;
- (2) Retaining the Department of Education Superintendent as the Department's chief procurement officer; and
- (3) Replacing the State Procurement Officer with the Vice President for Budget and Finance and Chief Financial Officer of the University of Hawaii System to serve as the Chief Procurement Officer of the University of Hawaii.

Your Committee received comments on the proposed S.D. 1 from the University of Hawai'i System.

Your Committee finds that it is a matter of statewide concern that the President of the University of Hawaii serves simultaneously as the Chief Procurement Officer for the University of Hawaii System. The President of the University of Hawaii System concurrently serving as Chief Procurement Officer will lead to inevitable conflicts of interest.

In other state systems of higher education, such as California State University, University of Massachusetts, and University of Oregon, there is a distinction between institutional leadership and purchasing when assigning the authority over procurement. While the Chief Procurement Officer for Colorado possesses authority over state purchasing and procurement and direct oversight over Colorado's institutions of higher learning, there were no instances in institutions across the country that had a university president concurrently named as Chief Procurement Officer.

Your Committee also heard the testimony of the University of Hawaii System, which provided comments regarding its Chief Financial Officer simultaneously serving as the Chief Procurement Officer. In its current organizational structure, the President serves as the Chief Procurement Officer, which aligns with other state agencies that designate the director of that agency as the Chief Procurement Officer. However, your Committee probed further into the intricacies of how procurement decisions are made at the University.

Currently, there are twelve procurement positions bifurcated into seven positions within the Office of Procurement Management (OPM), which are responsible for goods and services, and five positions within the Facilities Contracts Office, which are responsible for construction and construction-related projects. While OPM's Director reports directly to the Vice President for Administration, the Facilities Contracts Manager reports to the Director of Facilities Business Office, and the Director of Facilities Business Office reports to the Vice President for Administration. While the procurement code's lack of specificity in certain areas may require the exercise of discretion in making certain decisions about issues such as change orders, the complex and seemingly convoluted chain of command in the University's procurement process and workflow provide little responsibility of decision makers to thoroughly vet decisions and be held accountable for those decisions.

Your Committee also expresses concerns regarding the Director of Procurement position, which has been filled on an interim basis for the last two years. While the University noted that a hiring freeze impacted the ability to hire a permanent Director of Procurement, keeping the position filled on an interim basis exacerbated problems relating to the lack of oversight and accountability.

Your Committee additionally notes that testimony received from the University of Hawaii System also raises concerns that there are multiple bureaucratic considerations that must be addressed to place the procurement process under the Chief Financial Officer. As the procurement process is currently separated from the Chief Financial Officer, additional considerations such as revising internal processes and chain of responsibility to incorporate the Chief Financial Officer are necessary. However, incorporating procurement under the Chief Financial Officer provides a layer of accountability in the oversight of personnel involved in procurement and the ability to ensure that matters are thoroughly vetted before final approval of procurement projects. To address concerns raised over the role of Chief Procurement Officer at the University of Hawaii, this measure designates the Vice President for Budget and Finance/Chief Financial Officer as the Chief Procurement Officer.

In consideration of the testimony received from the University of Hawaii regarding the multiple bureaucratic considerations that would arise in placing the procurement process under the Chief Financial Officer, your Committee respectfully requests your Committee on Ways and Means to investigate potential costs and budget implications for the University of Hawaii.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2685 Transportation on S.B. No. 3313

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a mileage-based road user fee with a cap for electric vehicles;
- (2) Require motor vehicle registration applications to specify whether the type of fuel for which the vehicle is adapted is electricity;
- (3) Require certificates of inspection to state the odometer reading of electric vehicles;
- (4) Defines "alternative fuel vehicle"; and
- (5) Appropriates an unspecified amount of funds for the implementation of a state mileage-based road user fee, beginning with electric vehicles.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals. Your Committee received testimony in opposition to this measure from Our Revolution Hawaii, 350 Hawaii, Hawaii Electric Vehicle Association, Kauai Electric Vehicle Association, and five individuals. Your Committee received comments on this measure from the Hawaii State Energy Office, Tax Foundation of Hawaii, Ulupono Initiative, Tesla, and six individuals.

Your Committee finds that as fuel tax revenues decrease, the Department of Transportation (DOT) has recommended the adoption of a per-mile road usage charge system to provide sustainable funding for the State's road infrastructure. Replacing the registration surcharge on electric vehicles with a mileage-based road user fee is a minimally disruptive first step to transition the State to a per-mile road usage charge system. This measure ensures that the owners of alternative fuel vehicles pay a fair share of Hawaii's roadway maintenance costs.

Your Committee notes that a number of testimonies was submitted in opposition to this measure as the description of this measure did not indicate that the capped mileage-based road user fee for electric vehicles established in this measure replaces the existing \$50 annual vehicle registration surcharge for electric vehicles.

Your Committee further finds that it is important to not incentivize increasing in overall commuting and vehicle miles travelled to boost road usage charge revenue. Your Committee further notes that a mileage-based road user fee should eventually apply to all road users to ensure that all drivers pay a fair share of Hawaii's roadway maintenance costs.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the capped mileage-based road user fee for electric vehicles established in this measure replaces the existing \$50 annual vehicle registration surcharge for electric vehicles;
- (2) Requiring DOT to plan for the deployment of a statewide mileage-based road user fee program by 2025 and submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024;
- (3) Requiring DOT, in collaboration with the Hawaii State Energy Office, Hawaii Climate Change Mitigation and Adaptation Commission, and the Office of Planning and Sustainable Development, to establish a working group to:
 - (A) Develop metrics, benchmark targets, and plans to reduce the overall miles travelled in the State, using the total miles traveled in 2019 as a beginning year; and
 - (B) Annually report its progress and recommendations to the Legislature;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3313, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3313, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (DeCoite, Inouye, Fevella). Noes, none. Excused, none.

SCRep. 2686 Transportation on S.B. No. 377

The purpose and intent of this measure is to increase all fines for traffic violations relating to the operation or ownership of a vehicle by twenty percent.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the current penalties for traffic violations relating to the operation or ownership of a vehicle are not strict enough to adequately discourage repeat offenders. The purpose of this measure is to increase traffic fines by twenty percent to facilitate harsher consequences on these violations.

Your Committee has amended this measure by:

- (1) Removing the twenty percent increase in fines and instead imposing mandatory community service for a third or subsequent moving traffic violation within a one-year period;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 377, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 377, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2687 Transportation on S.B. No. 2834

The purpose and intent of this measure is to establish the Transportation Improvement and Modernization Commission to help ensure the Department of Transportation achieves state goals and outcomes while improving reporting to provide better transparency for elected leaders and the public.

Your Committee received testimony in support of this measure from the Ulupono Initiative, Hawaii Bicycling League, Bikeshare Hawaii, and Hawaii Regional Council of Carpenters. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health, Hawaii State Energy Office, and Hawaii Transportation Association.

Your Committee finds that transparency and accountability are critical to ensuring public agencies are effective, efficient, and successfully provide services in the public interest. However, there is no current reliable and readily available metric to track how much overall progress is being made on the statewide goals for the Department of Transportation. Some planned projects are even projected to be contrary to achieving certain policy goals. This measure improves transparency and accountability to help ensure the Department of Transportation progresses towards meeting its goals by improving reporting to elected leaders and the public.

Your Committee has amended this measure by:

- (1) Amending the duties and membership of the State Highway Safety Council and renaming it to the Transportation Safety and Modernization Council; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2834, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2688 Transportation on S.B. No. 2133

The purpose and intent of this measure is to:

- (1) Prohibit any person whose driver's license has been administratively revoked or who has been convicted for offenses involving operating a vehicle under the influence of an intoxicant from being eligible for a driver's license without providing proof of compliance with the ignition interlock law; and
- (2) Prohibit a person from driving for two years if the person does not own or have the use of a vehicle for the installation of an ignition interlock device or is otherwise unable to drive during the revocation period.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Casanova Powell Consulting, Smart Start, Traffic Injury Research Foundation, and the Foundation for Advancing Alcohol Responsibility. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that driving under the influence of an intoxicant is a serious and highly dangerous offense. Ignition interlock devices are designed to prevent a person under the influence from driving their vehicle. This measure requires compliance with the ignition interlock law for offenders if they wish to be eligible for a driver's license. This measure further provides that if the offender does not have a vehicle that can have an interlock ignition device installed or otherwise is unable to drive during the revocation period, they are prohibited from driving for two years.

Your Committee finds that this measure is intended to deter driving under the influence. Your Committee has heard the concerns raised in testimony and acknowledges that several other measures relating to ignition interlock devices have been introduced during the current session. Accordingly, your Committee finds that it is best to consolidate several of the provisions proposed into this measure.

Your Committee has therefore amended this measure by deleting its contents and inserting language to:

- (1) Require any person operating a vehicle with an ignition interlock device to have government issued identification in their immediate possession;
- (2) Expand the offense of circumventing or tampering with an ignition interlock device to include obscuring the camera lens or not providing a picture of the driver;
- (3) Impose a fine for operation of a motor vehicle by a person with a blood alcohol concentration between .05 and .08;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2133, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2689 Transportation on S.B. No. 2745

The purpose and intent of this measure is to require the Director of Transportation to adopt rules that require tour aircraft operators to have aircraft liability insurance coverage of not less than \$1,000,000 per person per incident.

Your Committee received comments on this measure from the Department of Transportation, Blue Hawaiian, and Paradise Helicopters Hawai'i.

Your Committee finds that tour aircraft crashes, particularly involving helicopters, have escalated in recent years, which poses significant risks to public health and safety. In recent years there has been increased and widespread operation of sight seeing aircraft in the State and notably over residential areas. Passengers and local residents living in densely populated areas have an interest in ensuring that costs and expenses due to tour aircraft crashes are covered by insurance.

Your Committee has amended this measure by:

- (1) Inserting a blank amount for the required per person per incident liability insurance coverage;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2745, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2690 Transportation on S.B. No. 3255

The purpose and intent of this measure is to appropriate funds for capital improvement projects in the Waianae district to address traffic mitigation.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Ulupono Initiative, Hawaiian Community Development, Bikeshare Hawaii, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that Farrington Highway is the sole major roadway on Oahu's leeward coast and the sole access route that links the Waianae district to Ewa and east toward metropolitan Honolulu. Traffic volume on Farrington Highway has increased from an average of twenty thousand vehicles per day in 2000, to fifty thousand vehicles per day in 2016. This situation not only creates daily commutes lasting hours, but the lack of viable alternate routes creates serious problems when an emergency results in Farrington Highway being impassable.

Your Committee finds that this measure is necessary to appropriate funds for capital improvement projects to attempt to address traffic issues on Farrington Highway.

Your Committee has amended this measure by:

- (1) Removing certain language from section 1;
- (2) Removing projects relating to pedestrian overpasses;
- (3) Limiting the capital improvement project to the Farrington Highway corridor infrastructure plans;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3255, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2691 Transportation on S.B. No. 3152

The purpose and intent of this measure is to make an emergency appropriation to authorize additional funds for the Department of Transportation Highways Division's special maintenance program.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that Hawaii's critical infrastructure needs immediate repairs. Additionally, spending on infrastructure will stimulate economic recovery for the State. This measure will appropriate funds to address critical infrastructure needs throughout the State, including critical infrastructure that is nearing the end of its service life.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3152 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2692 Transportation on S.B. No. 3312

The purpose and intent of this measure is to:

- (1) Make clarifying amendments to chapter 291J, Hawaii Revised Statutes, to reflect legislative intent, including the repeal or change of certain defenses to violations of the photo red light imaging detector systems program; and
- (2) Amend the appropriation made pursuant to Act 133, Session Laws of Hawaii 2021, to account for the photo red light imaging detector systems program's current timetable.

Your Committee received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of the Prosecuting Attorney, Honolulu Police Department, and one individual.

Your Committee finds that there is a prevalence of drivers who run red lights and thereby endanger the lives of other motorists, pedestrians, bicyclists, and other vulnerable road users. In recent years, it has become common to hear reports of hit-and-run drivers who have struck children or the elderly on Hawaii's roads and highways. Disregard for traffic signals has also been the common denominator in many recent, highly-publicized motor vehicle crashes that have claimed numerous lives.

To address systemic issues regarding drivers who disregard traffic signals, the Legislature initially passed Act 234, Session Laws of Hawaii 1998 (Act 234), to implement a photo speed imaging detector system. Across the United States, photo red light imaging detectors are shown to be safe, quick, cost-effective, and efficient as no traffic stop is involved and a police officer is not at risk from passing traffic or armed violators. Implementation of photo red light imaging systems not only create safer streets, but police officers are also freed from time consuming duties of traffic enforcement and have more time to respond to priority calls. Imaging systems also allow for impartial enforcement of traffic laws. Despite many benefits to the implementation of red light systems, public opposition to the method of implementing the photo speed imaging detector systems program forced the State to repeal Act 234 in its entirety.

Since the enactment and repeal of Act 234, red light traffic violations continue to create hazards for users of Hawaii's roads and highways. To address ongoing issues related to red light violations, the Legislature enacted Act 30, Session Laws of Hawaii 2020, and Act 133, Session Laws of Hawaii 2021, to develop and implement a photo red light imaging detector systems program. In 2019, the Department of Transportation also convened a multi-agency red light running committee to anticipate any legal or procedural challenges, and to prepare for the upcoming red light imaging program, which is scheduled to begin in 2022. Despite some delays in the implementation of the photo red light system program, this measure clarifies the legislative intent of the photo red light system program to align with the program's current timetable.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3312, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2693 (Majority) Transportation on S.B. No. 1357

The purpose and intent of this measure is to prohibit display of any material that distracts, obstructs the view of, or affects the safety of other drivers, including but not limited to flags, towels, sheets, and cloths, on vehicles being operated or moved on a public street, road, or highway, except when required to be displayed for loads that extend beyond the vehicle, and sets a fine for violation of this prohibition.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Livable Honolulu, and two individuals. Your Committee received testimony in opposition to this measure from thirteen individuals. Your Committee received comments on this measure from the Department of Transportation Services of the City and County of Honolulu.

Your Committee finds that flags, banners, and other large cloths flown from vehicles being operated or moved on streets cause distractions and create unsafe driving conditions. The purpose of this measure is to implement a fine to discourage these unsafe practices.

Your Committee has amended this measure by:

- (1) Clarifying that the maximum size of an acceptable flag or banner is twelve inches by eighteen inches for purposes of this measure; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1357, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1357, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Shimabukuro).

SCRep. 2694 Transportation on S.B. No. 3272

The purpose and intent of this measure is to:

- (1) Establish the Helicopter Noise and Safety Task Force; and
- (2) Require the Director of Transportation to adopt rules to require tour aircraft operators to have commercial general liability insurance coverage of at least \$10,000,000 and to report details of each flight taken by the tour aircraft operation in order to renew a tour aircraft operation permit.

Your Committee received testimony in support of this measure from the O'ahu Tour Helicopter Safety and Noise Inter-Action Group and three individuals. Your Committee received comments on this measure from the Department of Transportation, Blue Hawaiian, Paradise Helicopters Hawaii, and one individual.

Your Committee finds that tour helicopters and small aircraft operations constitute a significant risk to passengers and residents on the ground. Over the past five years, tour helicopters and small aircraft operations in Hawaii accounted for nearly seventeen percent of the nation-wide accidents that prompted investigation by the National Transportation Safety Board. In one ten-month period spanning 2019 to 2020, twenty-three lives were lost in four separate tour helicopter or small aircraft accidents on Oahu and Kauai. Your Committee therefore finds that decisive action must be taken to increase safety precautions.

Your Committee has amended this measure by:

- (1) Renaming the task force as the Air Noise and Safety Task Force;
- (2) Amending the scope of the task force to include aircrafts, rather than helicopters;
- (3) Inviting communities impacted by aircraft noise, helicopter operators, and small aircraft operators to join the task force;
- (4) Clarifying that the term of membership of the task force is a two-year term;
- (5) Removing language that would have required commercial general liability insurance coverage for tour aircraft operations;
- (6) Requiring the Director of Transportation to adopt rules to require tour aircraft operations to submit monthly reports of certain flight data; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3272, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3272, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2695 Transportation on S.B. No. 3361

The purpose and intent of this measure is to establish the Airport Advisory Working Group in the Department of Transportation to advise on airport design and construction projects to prioritize user experience while reflecting local culture, environment, and the history of Hawaii.

Your Committee received testimony in support of this measure from the Airport Concessionaires Committee. Your Committee received testimony in opposition to this measure from the Airlines Committee of Hawaii. Your Committee received comments on this measure from the Department of Transportation and the Department of Budget and Finance.

Your Committee finds that Hawaii's airports ranked near the bottom in a J.D. Power 2021 customer satisfaction airport survey despite having spent hundreds of millions of dollars in renovations. This measure addresses problems facing Hawaii's airports by establishing the Airport Advisory Working Group in the Department of Transportation which will advise on construction projects to prioritize the user experience while preserving a design that reflects local culture and shares the narrative of Hawaii and its values.

Your Committee has amended this measure by:

- (1) Clarifying that the airport advisory working group shall advise the Department of Transportation Airports Division on how to improve airport planning and design at state international airports;
- (2) Adjusting the membership of the working group to include the following:
 - (A) A member appointed by the President of the Senate, to serve a co-chairperson;
 - (B) A member appointed by the Speaker of the House of Representatives, to serve as co-chairperson;
 - (C) One member representing labor or the construction trade; and
 - (D) One member representing commercial or retail airport concessions;
- (3) Establishing one full-time equivalent conceptual architect position in the Department of Transportation to assist the working group;
- (4) Appropriating an unspecified amount from the airport revenue fund, rather than from general funds, for establishment and operation of the working group;
- (5) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3361, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2696 Government Operations on S.B. No. 2191

The purpose and intent of this measure is to clarify existing eligibility and document provision requirements for organizations applying for grants under chapter 42F, Hawaii Revised Statutes, and establish new requirements.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network and one individual. Your Committee received written comments on this measure from the Office of Community Services and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that certain requirements of chapter 42F, Hawaii Revised Statutes, are presently unclear. This leads to complications in expeditiously determining grantee eligibility and processing grant applications. Accordingly, your Committee finds that this measure will improve the effectiveness of the grant application process under chapter 42F, Hawaii Revised Statutes, by clarifying existing requirements and requiring applicants to provide certain additional documentation at the beginning of the review process.

Your Committee has amended this measure by:

- (1) Deleting proposed language under section 42F-102(b)(1), Hawaii Revised Statutes, which would have added a redundant tax clearance requirement;
- (2) Clarifying that nonprofit organizations applying for a grant under section 42F-103(c), Hawaii Revised Statutes, must have and maintain tax-exempt status under the Internal Revenue Code, instead of being limited to section 501(c)(3) of the Internal Revenue Code;
- (3) Clarifying that grants awarded under chapter 42F, Hawaii Revised Statutes, shall only be awarded to organizations that are incorporated in Hawaii and not elsewhere, among other requirements; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2191, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2697 (Joint) Government Operations and Transportation on S.B. No. 2293

The purpose and intent of this measure is to limit the Department of Transportation's use of facial recognition systems to certain specified situations.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual. Your Committees received testimony in opposition to this measure from the Security Industry Association. Your Committees received comments on this measure from the American Civil Liberties Union.

Your Committees find that the unregulated and unfettered use of facial recognition and imaging technology poses unique and significant implications with respect to the civil rights and liberties of the State's residents and visitors. Your Committees recognize, however, that in certain limited circumstances, the use of this technology serves a legitimate public purpose and does not infringe on an individual's privacy rights.

Your Committees further find that detecting infectious travelers is necessary to ensure that Hawaii's economy can fully function while keeping the public safe. In May 2021, facial imaging equipment became operational throughout the State's five major airports. Your Committees find that this equipment is being used in conjunction with thermal screening as part of the project of the Airports Division of the Department of Transportation to screen travelers for fevers and detect those who may be infected with the coronavirus or other infectious diseases that pose a public health risk.

Your Committees additionally find that the Airports Division of the Department of Transportation should be allowed to continue using the facial imaging system purchased for sole use within airports to protect the public health and safety while balancing concerns regarding privacy interests of individuals.

Accordingly, your Committees find that this measure balances concerns regarding privacy and public health and safety by limiting the Department of Transportation's use to a facial imaging system.

Your Committees note the testimony of the Department of Transportation on the nature of its imaging system and need for funding for its continued maintenance and operation. Based on this testimony, your Committees find that the Department of Transportation uses an "integrated thermal scanner facial imaging system" that obtains images for the purpose of detecting a person's temperature; captures images only of persons with temperatures of 100.4 degrees Fahrenheit or higher who are referred to the Department of Health for testing; and neither retains the image for longer than thirty minutes nor is connected to any personal identifying information or shared with any other entity or person.

Your Committees have therefore amended this measure by:

- (1) Clarifying that the system used by the Department of Transportation is an integrated thermal scanner facial imaging system;

- (2) Specifying that any images obtained by the Department of Transportation's integrated thermal scanner facial imaging system be deleted within thirty minutes of capture, rather than within sixty minutes;
- (3) Inserting a blank appropriation to the Department of Transportation for the maintenance and operation of its thermal scanner facial imaging system;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2293, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2293, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Transportation: Ayes, 5. Noes, none. Excused, none.

SCRep. 2698 Government Operations on S.B. No. 2456

The purpose and intent of this measure is to authorize the issuance of limited purpose identification cards for individuals who otherwise satisfy the requirements for a government-issued identification card except for the individual's inability or refusal to provide satisfactory proof of authorized presence in the United States under federal law.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Customer Services of the City and County of Honolulu, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, The Legal Clinic, Parents and Children Together, and six individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 2015, the Legislature authorized the issuance of limited purpose driver's licenses, limited purpose provisional driver's licenses, and limited purpose instruction permits to individuals who otherwise satisfy the requirements for a driver's license, provisional driver's license, or instruction permit except for the individual's inability or refusal to provide satisfactory proof of authorized presence in the United States under the federal REAL ID Act.

Your Committee further finds that the State does not similarly provide residents who do not drive and are unable to meet the requirements for a REAL ID-compliant identification card with the ability to access state-issued identification. This issue impacts several demographic groups, including young adults, elderly persons, houseless persons, undocumented immigrants, and lawfully present non-immigrants, and is exacerbated by the coronavirus disease 2019 pandemic, since proof of identification is required for entry into many public venues. Authorizing the issuance of limited purpose identification cards will improve access for residents of the State, including marginalized or disadvantaged residents.

Accordingly, this measure will provide greater access to a wide range of services for marginalized persons and others by providing an alternate form of identification.

Your Committee has amended this measure by:

- (1) Aligning the limited purpose identification card application process with that of the limited purpose driver's license under section 286-104.5, Hawaii Revised Statutes;
- (2) Clarifying the identity of the federal department associated with the issuance of deferred action for childhood arrival approval letters;
- (3) Adding as acceptable documentation certain documents issued to incarcerated persons upon their release;
- (4) Deleting the reference to the Department of Transportation as providing direction to the examiner of drivers, to clarify the measure's county-wide application; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2456, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2456, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2699 Energy, Economic Development, and Tourism on S.B. No. 1065

The purpose and intent of this measure is to:

- (1) Include best practice destination management and regenerative tourism under the scope and responsibilities of the Hawaii Tourism Authority (HTA);
- (2) Require HTA to develop a tourism management plan that includes tourism marketing, best practice destination management, and regenerative tourism; and

- (3) Require HTA to allocate most marketing moneys to the respective county economic development offices for visitor marketing contracts and nonprofits that benefit the county.

Your Committee received testimony in support of this measure from eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Tourism Authority, County of Hawai'i Office of the Mayor, City and County of Honolulu's Office of Economic Revitalization, County of Hawaii's Department of Research and Development, Maui Hotel & Lodging Association, Kohala Coast Resort Association, Kahala Hotel & Resort, Kona-Kohala Chamber of Commerce, Hawai'i Hotel Alliance, American Hotel and Lodging Association, Kaanapali Operations Association Inc., Hawai'i Lodging & Tourism Association, County of Maui's Office of Economic Development, Outrigger Hospitality Group, The Old Wailuku Inn at Ulupono, Springboard Hospitality, Hanalei Colony Resort, and twelve individuals.

Your Committee finds that the first two parts of this measure better align with HTA's updated mission to focus on visitor and designation management. Your Committee recognizes the majority of the testimony in opposition to the measure applies to part III of this measure, which requires HTA to allocate ninety-seven percent of its marketing funds to each county's economic development office based on the percentage of visitor arrivals in each county to finance visitor marketing contracts and nonprofits that benefit the county.

According to testimony received by your Committee, marketing efforts are best leveraged for the State when they are centralized, and certain county economic development offices do not have enough expertise to efficiently promote the county as a visitor destination. Multiple testifiers also stated that an allocation of marketing funds based on visitor arrivals reinforces the demand for visitor quantity, which is contrary to HTA's updated focus on visitor quality and may also be detrimental to current resident sentiment within and among the counties.

Your Committee further recognizes that with its updated focus on visitor and destination management, HTA, in partnership with the counties and the respective visitor bureaus, coherently and expeditiously developed community-based destination management action plans (DMAPs) that aim to rebuild, redefine, and reset the direction of tourism over a three-year period. Each DMAP focuses on the stabilization, recovery, and rebuilding of the desired visitor industry on each island. Testimony from the County of Hawaii's Department of Research and Development acknowledges that the implementation of the action steps in its DMAP has contributed to the renewal of the visitor sector on Hawaii Island in a responsible, regenerative, and pono (righteous) manner as the coronavirus disease 2019 pandemic continues.

Accordingly, your Committee has amended this measure by:

- (1) Removing the requirement for HTA to allocate most of its marketing funds to the respective county economic development offices for visitor marketing contracts and nonprofits that benefit the county;
- (2) Codifying the objectives and action items for HTA within the:
 - (A) Oahu DMAP 2021 to 2024;
 - (B) Maui Nui DMAP 2021 to 2023;
 - (C) Hawaii Island DMAP 2021 to 2023; and
 - (D) Kauai DMAP 2021 to 2023;
- (3) Appropriating unspecified amounts to HTA to carry out the action items for each DMAP; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1065, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2700 Labor, Culture and the Arts on S.B. No. 2059

The purpose and intent of this measure is to designate the 'ōhi'a lehua as the State endemic tree to recognize its cultural and ecological importance and raise awareness of the critical threats the plant species is currently facing, with the hope that it will lead to effective conservation and healthy growth of 'ōhi'a forests across the Hawaiian Islands.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Ko'olau Waialua Alliance, Kua'āina Ulu 'Auamo, Coordinating Group on Alien Pest Species, Rapid 'Ōhi'a Death Statewide Outreach, and three hundred forty-five individuals.

Your Committee finds that the 'ōhi'a lehua (*Metrosideros polymorpha*) is a flowering evergreen that is an endemic plant species found only in the Hawaiian Islands that has unique cultural, ecological, and economic value to the people of Hawaii. Your Committee also finds that the existence of the 'ōhi'a is currently under threat, including from diseases such as a fungal pathogen called rapid 'ōhi'a death. Your Committee believes that this measure will not only allow the people of Hawaii to recognize the 'ōhi'a lehua's cultural and ecological importance to the State, but also raise awareness of the critical threats the endemic plant species is currently facing and prompt effective conservation and expansion of its habitat in the State.

Your Committee notes that S.B. No. 2520 (Regular Session of 2022) is a similar measure that includes valuable information regarding the history and significance of the 'ōhi'a lehua. Your Committee therefore believes this measure should incorporate such information.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 to incorporate the information in S.B. No. 2520 (Regular Session of 2022) on the history and significance of the 'ōhi'a lehua; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2059, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2701 Ways and Means on S.B. No. 2639

The purpose and intent of this measure is to require the Offender Reentry Office of the Department of Public Safety to develop and implement a risk needs assessment tool that is specifically intended to assess the needs of female offenders.

Your Committee received written comments in support of this measure from the Department of Public Safety, Women's Prison Project, and two individuals.

Your Committee recognizes the importance of addressing the specific needs of female offenders, which includes their assessment, program, treatment, and reentry needs. Your Committee finds that developing and implementing an appropriate risk needs assessment tool will help address those needs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2639 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2702 Ways and Means on S.B. No. 2766

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to assess the rural land use district law and submit reports that provide suggested revisions to facilitate the reclassification of agricultural district lands to rural district lands.

Your Committee received written comments in support of this measure from the Office of Planning and Sustainable Development, Department of Agriculture, and Hawaii Farm Bureau.

Your Committee received written comments in opposition to this measure from the Land Use Commission.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that because only 0.3 percent of all lands in the State, and none on Oahu, are classified as rural district lands, most rural communities exist on agricultural district lands. Further, many people residing in these rural communities engage in subsistence or family farming, thereby benefiting from the reduced property tax rates. Your Committee believes that the reports required by this measure will help to improve land use management by distinguishing lands for rural communities and subsistence or family farms from agricultural lands with bonafide farming, thus allowing for better protection of productive agricultural lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2703 Ways and Means on S.B. No. 2767

The purpose and intent of this measure is to appropriate moneys to support the State's fish aggregation device program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and the Hawaii Fishermen's Alliance for Conservation and Tradition.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that fishers throughout the State rely heavily on fish aggregation devices to locate targeted fish. Your Committee recognizes that a missing or an off-station fish aggregation device may result in the loss of opportunity to acquire fish for personal and community consumption and increased operational costs borne by fishers in the State. Accordingly, your Committee believes that keeping the State's fish aggregation device program fully operational is essential to mitigating these losses and costs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2767, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2704 Ways and Means on S.B. No. 2056

The purpose and intent of this measure is to support the State's food sustainability and agricultural production goals.

Specifically, the measure:

- (1) Requires the Office of Planning and Sustainable Development to conduct a study of the suitability of soil classification systems, including the soil overall (master) productivity rating system and detailed land classification of the Land Study Bureau, for the regulation of agricultural lands by the State and counties;
- (2) Requires the Office of Planning and Sustainable Development to submit a report to the Legislature; and
- (3) Appropriates funds to the Office of Planning and Sustainable Development to conduct the study.

Your Committee received written comments in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, Hawaii State Energy Office, University of Hawaii, Hawaii Farm Bureau, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the study and accompanying report required by this measure will facilitate optimal public and private agricultural investments by providing valuable information to help the State more effectively identify productive agricultural lands and protect agricultural production resources under state and county land use regulatory systems.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2056, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2056, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2705 Ways and Means on S.B. No. 2150

The purpose and intent of this measure is to authorize and appropriate moneys for the Department of Human Services to provide additional housing assistance subsidies to recipients of Temporary Assistance for Needy Families or Temporary Assistance for Other Needy Families benefits who participate in the First-to-Work program.

Your Committee received written comments in support of this measure from the Department of Human Services, Partners in Care, Catholic Charities Hawaii, Hawaii Children's Action Network Speaks!, Neighborhood Place of Kona, Hawaii Appleseed, Hawaii Habitat for Humanity, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that this measure will help reduce homelessness, childhood poverty, and economic stress by providing housing security for vulnerable families while the families prepare for, accept, and retain employment through the First-to-Work program.

Your Committee notes the objection by the State Procurement Office to provisions in the measure that exempt the expenditure of funds for the administration of housing assistance subsidies from Chapters 103D and 103F, Hawaii Revised Statutes, and its recommendation to delete the exemption language from the measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified sums; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2150, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2706 Ways and Means on S.B. No. 2681

The purpose and intent of this measure is to minimize bid challenges, costs, and delays of public works construction projects.

Specifically, this measure:

- (1) Allows a bidder for a construction project to clarify or correct immaterial or technical issues with subcontractor listings for up to twenty-four hours after the bid submission deadline; and
- (2) Requires that bids for construction be publicly opened no sooner than twenty-four hours after the bid submission deadline.

Your Committee received written comments in support of this measure from the General Contractors Association of Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Accounting and General Services and the City and County of Honolulu.

Your Committee received written comments on this measure from the Judiciary, State Procurement Office, and Department of Transportation.

Your Committee finds that there is a limited amount of time between a prime contractor's receipt of bids from its subcontractors and the procuring agency's bid submission deadline. These constraints may cause inadvertent failures to list in a bid a required subcontractor, or the listing of erroneous subcontractor license numbers. Your Committee further finds that authorizing additional time for prime contractors to correct their subcontractor listings would facilitate the Legislature's intent of ensuring that subcontractors are listed properly on bid submittals and are licensed, while maintaining the integrity of the bid process.

Your Committee has amended this measure by:

- (1) Clarifying that, upon this measure's repeal date, section 103D-302, Hawaii Revised Statutes, shall be reenacted in the form in which it read before the effective date of this Act; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2681, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2681, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2707 Ways and Means on S.B. No. 2759

The purpose and intent of this measure is to exempt the instream use of water used for traditional and customary kalo cultivation from the Department of Land and Natural Resources' disposition of water rights process.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands; a member of the Hawaii County Council; County of Kauai Planning Department; Office of the Mayor of the County of Kauai; Council for Native Hawaiian Advancement; Kuaaina Ulu Auamo; Sierra Club of Hawaii; Aloha Aina Legal Group, LLLC; Waioli Valley Taro Hui; Ahahui o na Kauka - Association of Native Hawaiian Physicians; Hui o Na Wai Eha; Earthjustice; Papa Ola Lokahi; Haiku Community Association; Hanalei Hawaiian Civic Club; and thirteen individuals.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that providing a water disposition exemption for certain kalo cultivation will help to reduce barriers for taro cultivation, reduce the cost to produce poi, increase food production in Hawaii, and protect the traditional and customary practices of Native Hawaiians as mandated by the Hawaii State Constitution.

Your Committee has amended this measure by:

- (1) Including a severability clause; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2759, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2759, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2708 Ways and Means on S.B. No. 2770

The purpose and intent of this measure is to require the Department of Public Safety to create, in collaboration with the Office of Hawaiian Affairs, a Native Hawaiian rehabilitation program for prison inmates that emphasizes Native Hawaiian values and cultural practices.

Your Committee received written comments in support of this measure from the Department of Public Safety, Women's Prison Project, Community Alliance on Prisons, Opportunity Youth Action Hui, and four individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance and the Office of Hawaiian Affairs.

Your Committee finds that rehabilitation programs improve the likelihood of inmate rehabilitation. Further, your Committee believes that connecting Native Hawaiian prison inmates with their cultural and ancestral roots may be an effective method of rehabilitation. However, it is the intent of this Committee that these Native Hawaiian programs should be available to all inmates, regardless of ethnic background.

Your Committee has amended this measure by:

- (1) Codifying in the Hawaii Revised Statutes the mandate for the creation of a Native Hawaiian rehabilitation program;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2770, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2709 Ways and Means on S.B. No. 2771

The purpose and intent of this measure is to improve outcomes for female offenders.

More specifically, the measure requires the Department of Public Safety to:

- (1) Conduct pretrial female risk and needs assessments to measure female offenders' risk of flight, reoffending, or harming the community; and
- (2) Consider factors important to women when considering their risks of reoffending and their treatment needs.

Your Committee received written comments in support of this measure from the Hawaii Substance Abuse Coalition, Women's Prison Project, and four individuals.

Your Committee received written comments on this measure from the Department of Public Safety.

Your Committee finds that more individualized identification of women inmates' risk factors and needs would result in the provision of more effective interventions and services for these offenders and help to reduce recidivism.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2771, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2771, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2710 Ways and Means on S.B. No. 3046

The purpose and intent of this measure is to make an emergency appropriation to the Department of the Attorney General for the retention of expert witnesses and counsel in major litigation against the State of Hawaii.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the emergency appropriation provided by this measure is necessary and appropriate because the State is involved in major litigation that requires a vigorous defense, including the retention of expert witnesses and specialized legal counsel.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion on the measure.

Your Committee notes that the written comments submitted by the Department of the Attorney General in support of this measure included a request to amend this measure by increasing the amount of the emergency appropriation from \$1,000,000 to \$4,000,000 and including a provision specifying that the appropriated funds shall not lapse prior to June 30, 2023. Your Committee respectfully requests that subsequent committees consider this request as the measure moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3046, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3046, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2711 Ways and Means on S.B. No. 3075

The purpose and intent of this measure is to ensure that \$2,000,000 is deposited annually into the Department of Commerce and Consumer Affairs' compliance resolution fund, which is currently funded by franchise tax revenues.

Specifically, this measure requires that, in years where franchise tax revenues are insufficient, the difference shall be made up by a deposit of income tax revenues.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Division of Financial Institutions; Department of Taxation; and Hawaii Bankers Association.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Article III, section 14, of the Hawaii State Constitution provides that “[e]ach law shall embrace but one subject, which shall be expressed in its title.” A title must include a distinct reference to the subject matter to which it relates and also cover only one subject. Thus, the scope of the title cannot be narrower than the scope of the subject matter of the bill. Your Committee notes that the title of this measure is “A Bill for an Act Relating to Franchise Tax.” In the context of this measure, the term “franchise tax” refers to the franchise tax imposed on banks and other financial corporations pursuant to Chapter 241, Hawaii Revised Statutes. Your Committee also finds that the intent of this measure is to address a shortfall in the \$2,000,000 earmarked from the franchise tax collections to be deposited into the compliance resolution fund. Accordingly, the measure requires the deposit of income tax revenues, collected pursuant to Chapter 235, Hawaii Revised Statutes, into the compliance resolution fund to make up the shortfall. Your Committee notes concerns that, by amending the income tax law, the contents of this measure may exceed the scope of its title.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (2) Clarifying the taxable years to which the provisions of the measure that amend the income tax law shall apply; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3075, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3075, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2712 Ways and Means on S.B. No. 3094

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education to establish a virtual school.

More specifically, to ensure the continued availability of multiple learning options necessitated by the adverse impacts of the COVID-19 pandemic, the measure:

- (1) Makes an emergency appropriation to the Department of Education to build a virtual school to allow for distance learning; and
- (2) Authorizes the issuance of general obligation bonds for the purpose of renovations and electrical upgrades for the virtual school.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the disruption caused by the COVID-19 pandemic and resulting adoption of distance learning methods have made it clear that certain students should have an option to attend school virtually.

Your Committee has amended this measure by:

- (1) Changing the appropriation and general obligation bond amounts to unspecified amounts;
- (2) Inserting an effective date of July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3094, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2713 Ways and Means on S.B. No. 3095

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and to appropriate the funds derived therefrom for fiscal year 2021-2022 for a Department of Education maintenance base yard.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that the maintenance base yard funded by this measure will allow the Department of Education to provide maintenance services more efficiently and to allocate storage space for other departments.

Your Committee has amended this measure by:

- (1) Changing the amount of general obligation bonds authorized and moneys appropriated to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3095, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3095, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2714 Ways and Means on S.B. No. 3098

The purpose and intent of this measure is to make an emergency appropriation for lead abatement measures at Department of Education elementary schools.

Your Committee received written comments in support of this measure from the Department of Education, Department of Health, and International Association of Plumbing and Mechanical Officials.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is an urgent need to protect the health and safety of vulnerable students by repairing or replacing state elementary school plumbing fixtures associated with elevated lead levels.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3098, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3098, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2715 Ways and Means on S.B. No. 3130

The purpose and intent of this measure is to authorize state small boat harbor mooring permit holders to transfer the holders' respective mooring permits, subject to certain conditions.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and five individuals.

Your Committee finds that applicants for state small boat harbor mooring permits often must wait many years to receive a mooring permit, despite having no place to moor the applicant's vessel in the meantime. Consequently, many vessel owners are unable to sell their respective vessels. Your Committee believes that this measure will help to facilitate the sale and purchase of previously owned vessels.

Your Committee has amended this measure by:

- (1) Reorganizing certain provisions for purposes of clarity and consistency;
- (2) Clarifying that failure to comply with the law while selling a vessel or transferring a mooring permit will result in the automatic termination of the applicable mooring permit;
- (3) Changing the effective date to upon approval; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3130, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3130, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2716 Ways and Means on S.B. No. 3134

The purpose and intent of this measure is to streamline the process for completing the Department of Land and Natural Resources' required annual payment of debt service on the reimbursable general obligation bonds that financed the Turtle Bay conservation easement.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 173A-13, Hawaii Revised Statutes, currently requires the Department of Land and Natural Resources to complete a cumbersome annual grant application and award process before the Department can make its required annual debt service payment. Your Committee further finds that this measure would allow the Department to process the required annual payment without having to undergo this prolonged process.

Your Committee has amended this measure by:

- (1) Amending the savings clause to clarify that the measure does not affect penalties that were incurred before its effective date; and
- (2) Correcting a drafting error.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3134, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3134, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2717 Judiciary on S.B. No. 2114

The purpose and intent of this measure is to update the purpose of the Children's Justice Program to include investigation and management of cases involving suspected or confirmed child sex trafficking, commercial sexual exploitation of children, other child maltreatment, and child witnesses to crime or violence.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Department of the Attorney General, Department of Education, Honolulu Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kauai, Office of the Prosecuting Attorney of the County of Hawai'i, Hawai'i Police Department, County of Kauai Victim/Witness Program, Sex Abuse Treatment Center, Friends of the Children's Justice Center of Oahu, YWCA of Kaua'i, Hale Kipa, Neighborhood Place of Kona, Catholic Charities Hawai'i, Parents and Children Together, Hawai'i Exploitation and Trafficking Unit, and five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Children's Justice Program currently plays a vital role in providing support for the special needs of child victims and witnesses of child sex abuse and serious physical child abuse. Victims of child sex trafficking, commercial sexual exploitation of children, and other child maltreatment and child witnesses to crime or violence are also vulnerable and experience various forms of complex trauma, and would benefit from the support of the Children's Justice Program. Expanding the purpose of the Children's Justice Program to include these additional victim populations aligns with the mission of the Children's Justice Program and will help reduce and prevent unnecessary trauma while ensuring justice for children and their families.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2114 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2718 Judiciary on S.B. No. 2741

The purpose and intent of this measure is to provide a limited exemption for the Hawaii Commission to Promote Uniform Legislation from certain requirements of part I of chapter 92, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawaii's Commission to Promote Uniform Legislation, and five individuals. Your Committee received comments on this measure from the Office of Information Practices and Common Cause Hawaii.

Your Committee finds that the Hawaii Commission to Promote Uniform Legislation was created by law in 1911 and is Hawai'i's delegation to the National Conference of Commissioners on Uniform State Laws (now commonly referred to as the "Uniform Law Commission"). One of the primary duties of the Hawaii Commission to Promote Uniform Legislation is to represent the State during the annual meeting of the Uniform Law Commission. The Hawaii Commission to Promote Uniform Legislation works on an annual basis with the Uniform Law Commission to select, draft, consider, and amend various legislation to be adopted by the Uniform Law Commission as uniform laws. Uniform laws have been used extensively by most state legislatures, including Hawai'i. This measure would allow all Hawaii Commission to Promote Uniform Legislation members to actively work towards the goal of promoting uniformity of legislation in the State, without any limitation on the number of participating members.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2741 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2719 Judiciary on S.B. No. 2082

The purpose and intent of this measure is to add abuse of a family or household member to those felonies that qualify for repeat offender sentencing.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, and one individual.

Your Committee finds that section 706-606.5, Hawaii Revised Statutes, was first enacted in 1976 to provide specialized sentencing provisions for repeat felony offenses and has been amended a number of times to include various class C felonies. Although this list covers a range of very serious crimes, one violent class C felony which is not on this list is felony-level abuse of a family or household member under sections 707-906(8), (9), and (10), Hawaii Revised Statutes. Given that class C felony offenses have been added to this section piecemeal over the years, your Committee believes that it was not intentional to leave felony-level abuse of a family or

household member off of the list, but rather an oversight, as the three class C felony subsections were created long after the sentencing for repeat offenders statute was enacted in 1976, and also long after the abuse of a family or household member was enacted in 1973. Until 1999, abuse of a family or household member was only classified as a misdemeanor offense. This measure will more accurately reflect the seriousness of these types of offenses in today's society by placing abuse of a family or household member on the same level as all other violent class C felonies.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2082 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2720 Judiciary on S.B. No. 2163

The purpose and intent of this measure is to elevate the penalty of negligent homicide in the first degree from a class B felony to a class A felony when certain conditions are met.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of the Prosecuting Attorney of the County of Hawai'i, Department of the Prosecuting Attorney of the County of Maui, Hawai'i Police Department, Honolulu Police Department, Maui Police Department, Mothers Against Drunk Driving Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that drivers who operate a vehicle with a suspended or revoked license show a pattern of poor decision making, leading to hazardous behavior. Providing a twenty year look back into an individual's driving record allows agencies to determine if a driver has already been convicted for operating a vehicle under the influence of an intoxicant. This information will help show a pattern of disregarding the orders of the court, which are intended to protect the community.

Your Committee further finds that any driver who operates a vehicle as a "highly intoxicated driver" poses a serious danger to anyone on or near a roadway. Most fatal crashes in the State involve drivers impaired by intoxicating substances. For example, the County of Hawaii had twenty-six people who were killed in fatal crashes, twenty-one of them involved an impaired driver, with many of the most tragic crashes involving drivers who were highly intoxicated at that time. This measure will deter would-be offenders from driving impaired by elevating the penalty of negligent homicide in the first degree from a class B felony to a class A felony when certain conditions are met.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2163 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2721 Judiciary on S.B. No. 2092

The purpose and intent of this measure is to establish the Class A felony offense of child torture.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Hawai'i, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Family Advocacy Team, and eleven individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that tragically, child abuse is an all-too-common occurrence across our nation, which spans all races and genders. Out of all cases involving child maltreatment, it is estimated that one to two percent fall into the category of "child torture". Currently, the only relevant references to torture found in Hawaii's Penal Code are in section 706-657, Hawaii Revised Statutes, as a sentencing enhancement for second degree murder, or section 711-1100, Hawaii Revised Statutes, in relation to the offense of cruelty to animals in the first degree. Despite these references, and despite the fact that at least thirty-three states across the nation have criminal codes addressing both the physical and mental aspects of child torture, Hawaii continues to be without any child torture statute. Your Committee further finds that many cases of child torture do not result in severe physical injury to the child, but rather the long-term developmental, psychological, and behavioral ramifications in these cases can be devastating. This measure will help close any gaps in the current laws that may allow perpetrators to sometimes receive lenient sentences for these horrific and inhumane abuses by establishing the class A felony offense of child torture.

Your Committee has amended this measure by:

- (1) Clarifying that the factfinder shall apply a reasonable person standard, and that a finding of guilt would be based on a gross deviation from that standard of providing necessities to a minor;
- (2) Clarifying that the factfinder shall apply a reasonable person standard, and that a finding of guilt would be based on a gross deviation from that standard in situations where minors are being unreasonably restrained;
- (3) Adding a definition for "mental anguish"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2092, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2722 Judiciary on S.B. No. 2747

The purpose and intent of this measure is to repeal and replace the Uniform Parentage Act of 1973 with the Uniform Parentage Act of 2017.

Your Committee received testimony in support of this measure from the Judiciary, Stonewall Caucus of the Democratic Party of Hawai'i, Commission to Promote Uniform Laws, Hawai'i Women Lawyers, and two individuals. Your Committee received testimony in opposition to this measure from Truth in Adoption and four individuals. Your Committee received comments on this measure from the Department of the Attorney General, Donor Sibling Registry, and one individual.

Your Committee finds that existing parentage laws reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights. Under existing law, only male partners of birthing people are afforded the option to volunteer themselves as the other legal parent and establish parenthood on a birth certificate. As a result, non-male LGBTQ+ parents are subject to a "queer parent penalty". That is, female, non-binary, and queer partners are forced to undergo extreme financial and emotional burdens to obtain an adoption decree for legal recognition as their child's parent. This measure amends the Hawaii Revised Statutes to update existing paternity laws to reflect modern concepts of family, parenthood, and parental rights.

Your Committee notes that the task force to recommend updates to existing parentage laws needs more time to resolve various issues and concerns identified in its reports to the 2022 Legislature.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have enacted the new Uniform Parentage Act;
- (2) Deleting language that would have repealed the current Uniform Parentage Act;
- (3) Inserting language that amends Act 201, Session Laws of Hawaii 2021, which established a task force to recommend amendments to the Hawaii Revised Statutes to update existing parentage laws that reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights, as follows:
 - (A) Clarifying that the Department of the Attorney General shall be a joint convener with the Department of Health;
 - (B) Clarifying that a representative from the Department of the Attorney General shall be a co-chairperson with the Director of Health;
 - (C) Specifying that the task shall submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than forty days prior to the convening of the Regular Session of 2023; and
 - (D) Specifying that the task force shall be dissolved on December 31, 2022;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2747, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2723 (Majority) Judiciary on S.B. No. 2755

The purpose and intent of this measure is to require the Board of Land and Natural Resources to approve all revoked, limited, condemned, removed, or shortened public land leases or revocable permits.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that in order to effectively manage public lands, oversight of land usage is necessary. The Department of Land and Natural Resources Land Division has significant discretion to revoke, limit, remove, or shorten leases granted by the Department, issue condemnations, and rescind revocable permits without prior approval from the Board of Land and Natural Resources. This measure will ensure a more thorough review of public land leases and revocable permits by both the Department of Land and Natural Resources and the Board of Land and Natural Resources for the benefit of the State's people.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2755, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2755, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.

SCRep. 2724 Commerce and Consumer Protection on S.B. No. 3084

The purpose and intent of this measure is to amend the composition of the Elevator Mechanics Licensing Board to replace the ex-officio Department of Labor and Industrial Relations member with a licensed elevator mechanic member.

Your Committee received testimony in support of this measure from the Elevator Mechanics Licensing Board.

Your Committee finds that the Elevator Mechanics Licensing Board (Board) has experienced difficulties meeting quorum requirements. This measure will relieve the Director of the Department of Labor and Industrial Relations of the need to dedicate personnel resources to Board meetings and will grant the Board more flexibility to address Board vacancies (which has further created challenges to meet quorum requirements) to ensure appropriate decisions on applications and that scope of practice issues are discussed and decided in a timely manner.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3084 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2725 Commerce and Consumer Protection on S.B. No. 3083

The purpose and intent of this measure is to authorize the Commissioner of Financial Institutions to modify or waive requirements in chapter 454M, Hawaii Revised Statutes, to implement changes and improvements made to the National Multi-State Licensing System and Registry (NMLS).

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that most states' agencies have adopted the process of streamlining and standardizing the filing of electronic surety bonds through NMLS. Hawaii remains one of the few states that has not adopted this modernized process and requires applicants and licensees to physically submit a surety bond with the Commissioner of Financial Institutions before the license becomes effective. If there is any error in the surety bond, for example, a typo in the name or address, the Division of Financial Institutions is required to mail the surety bond back to the insurer and request a new surety bond. This physical transfer process can add significant delays. Accordingly, this measure will allow the Commissioner of Financial Institutions to implement modern features through NMLS to streamline the licensing process for mortgage servicers, similar to the existing licensing process for mortgage loan originators and money transmitters.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3083 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2726 Commerce and Consumer Protection on S.B. No. 3080

The purpose and intent of this measure is to amend various sections of article 4A of chapter 431, Hawaii Revised Statutes, in order for the State to maintain accreditation with the National Association of Insurance Commissioners.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, Reinsurance Association of America, American Property Casualty Insurance Association, and American Council of Life Insurers.

Your Committee finds that the National Association of Insurance Commissioners (NAIC) adopted amendments to its Credit for Reinsurance Model Law in 2019 to make it consistent with bilateral agreements between the United States and the European Union and between the United States and the United Kingdom. The NAIC accreditation standard requires states to adopt the 2019 amendments to the model law. Accordingly, this measure is necessary for the State to maintain its NAIC accreditation and ensure that the Insurance Commissioner of the Department of Commerce and Consumer Affairs has the information necessary to regulate the ability and willingness of reinsurers to pay their claims as they become due.

Your Committee has amended this measure by:

- (1) Adopting certain amendments proposed by the Department of Commerce and Consumer Affairs to conform the measure to the NAIC model law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3080, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3080, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2727 Commerce and Consumer Protection on S.B. No. 2329

The purpose and intent of this measure is to establish that charging shipping and delivery charges that exceed the actual cost to ship or deliver a commodity to a consumer in Hawaii constitutes an unfair and deceptive practice.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committee received comments on this measure from Matson Navigation Company, Inc.

Your Committee finds that many Hawaii consumers are often treated unfairly compared to mainland consumers who more commonly benefit from free or reduced-rate shipping. Some consumers in the State are assessed arbitrary shipping surcharges or costs that do not correlate to the actual costs of shipping items to the consumer. This measure will require merchants to apply the actual shipping cost to facilitate transparency in consumer transactions and will help ensure that Hawaii consumers are not victims to arbitrary shipping costs or fees.

Your Committee has amended this measure by:

- (1) Clarifying that, if a seller imposes a separate charge for shipping or delivery to a consumer, that charge shall not exceed the actual cost charged to the seller to ship or deliver the commodity to a consumer in this State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2329, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2728 Commerce and Consumer Protection on S.B. No. 2382

The purpose and intent of this measure is to prohibit the issuance of cabaret licenses to premises located within the apartment mixed use subprecinct of the Waikiki special district.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that certain establishments holding class 11 cabaret licenses issued by county liquor authorities have created public safety and noise issues for residents and visitors, especially in resort areas where cabarets are permitted to transact business until 4:00 a.m. throughout the entire week. This measure would restrict the issuance of cabaret licenses within the apartment mixed use subprecinct of the Waikiki special district to assist with reducing noise and crime and promote increased public safety and wellness.

Your Committee has heard the concerns raised in testimony that this measure does not apply uniformly throughout all political subdivisions of the State. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by uniformly applying the restriction on cabaret license issuance to all county mixed use subprecincts in which the economy is primarily based on tourism.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2382, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2729 Commerce and Consumer Protection on S.B. No. 2730

The purpose and intent of this measure is to:

- (1) Require that the fees for attorneys retained by a condominium association be paid from an association's funds or reserves;
- (2) Limit the total and final legal fees to twenty-five percent of the original debt amount;
- (3) Require attorneys retained by a condominium association to confine their communications to the condominium board, except when the attorneys must request and require materials and responses directly from owners for each matter; and
- (4) Prohibit attorneys retained by a condominium association from billing unit owners directly.

Your Committee received testimony in support of this measure from the Kokua Council, Hui 'Oia'i'o, and four individuals. Your Committee received testimony in opposition to this measure from the Legislative Action Committee of the Community Associations Institute, Hawaii Chapter; Hawaii Council of Community Associations; Associa; Palehua Townhouse Association; Law Offices of Mark K. McKellar, LLC; Country Club Village, Phase 2; and seventeen individuals.

Your Committee finds that associations have a fiduciary duty to, for example, collect delinquent maintenance fees. However, associations generally engage attorneys to do the collection even for de minimis fines, which can at times triple any original amounts owed. Accordingly, there should be additional protections in place to deter associations from assessing inflated legal fees against individual unit owners.

Your Committee has amended this measure by:

- (1) Clarifying that the association shall not assess, demand, or seek reimbursement for its total and final legal fees in any matter in an amount exceeding twenty-five percent of the original debt amount sought by the association unless approved by the majority of unit owners at a regular meeting of the association; provided that, for the collection of debt totaling less than \$2,000, the total and final legal fees the board seeks to recover from a unit owner for the matter shall not exceed twenty-five percent of the claimed debt;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2730, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2730 Commerce and Consumer Protection on S.B. No. 2852

The purpose and intent of this measure is to:

- (1) Require condominium associations to allow members or their proxies to vote by mail and attend and cast votes in association meetings through the Internet, teleconference, or other electronic transmission technology; and
- (2) Ensure the provision of copies of printed audit trails.

Your Committee received testimony in support of this measure from the Hawaii Council of Community Associations, Hawai'i Public Health Institute, Hui 'Oia'i'o, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Community Associations Institute; Country Club Village AOA; Honolulu Tower AOA; Hawai'i State Association of Parliamentarians Legislative Committee; Country Club Village Phase 2 AOA; Law Offices of Mark K. McKeller, LLC; Kipuka at Hoakalei AOUO; and eight individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that a certain percentage of members are required to vote in the affirmative for an association to adopt or amend its rules. If a member is not present, an absent vote will translate to a "no" vote. Due to a countless number of reasons, it can be a challenge for two-thirds of the members of an association to physically be present to vote at a meeting to adopt certain rules or amendments to rules. With the progression of technologies and increased abilities to conduct business remotely, this measure will remove outdated barriers and increase opportunities for member participation in the voting process.

Your Committee has amended this measure by:

- (1) Clarifying that members of the association or proxies of members shall be allowed to vote by mail and participate in any association meeting by means of the Internet, teleconference, or other electronic transmission technology, if authorized by the board of directors in its sole discretion;
- (2) Inserting language that provides a member of the association or proxy of a member participating in a meeting by means of Internet, teleconference, or other electronic transmission technology shall be deemed to be present at the meeting, and requiring the association to implement reasonable measures to verify that each person deemed present and permitted to vote at the meeting is a member of the association or proxy of a member; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2852, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2852, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2731 Commerce and Consumer Protection on S.B. No. 2876

The purpose and intent of this measure is to prohibit planned community associations, condominium associations, or their boards of directors from expending association funds to enforce de minimis violations of association rules or regulations that do not pose risks to the health and safety of other members, units, or unit owners.

Your Committee received testimony in support of this measure from Hui 'Oia'i'o and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Legislative Action Committee of the Community Associations Institute; Hawaii Council of Community Associations; Associa; Honolulu Tower AOA; Sunset Kahili AOA; CCV2 Board; Law Offices of Mark K. McKeller, LLC; Kipuka at Hoakalei AOUO; and eight individuals.

Your Committee finds that it is not uncommon for certain planned community or condominium unit owners to be saddled with unreasonable legal fees, or for them to feel they are being unfairly targeted and "bullied" by specific individuals on a board of directors, for seemingly minor violations of bylaws or house rules. This measure would prohibit an association from using association funds to enforce minor violations, ameliorate the problem of alleged harassment perpetrated by single individuals on association boards, and discourage associations from turning day-to-day minor issues over to expensive attorneys.

Your Committee has heard the concerns raised in testimony that the existing definition of "de minimis infraction" as presently drafted is subjective and could be open to various interpretations. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by clarifying that a "de minimis infraction" means a technical violation of a bylaw, rule, or regulation that results in not more than three complaints from separate units within a calendar year or does not result in a fine of more than \$500 per violation pursuant to the bylaws, rules, or regulations of the association.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2876, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2876, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2732 Commerce and Consumer Protection on S.B. No. 3077

The purpose and intent of this measure is to:

- (1) Add and update definitions to satisfy current industry practice needs;
- (2) Align and remedy inconsistencies between chapter 438 and chapter 439, Hawaii Revised Statutes;
- (3) Remove the five-year license requirement for barber and beauty operator Board of Barbering and Cosmetology member seats;
- (4) Raise fees for penalties and disciplinary actions; and
- (5) Remove medical clearance tests, which under existing law, the Board may require.

Your Committee received testimony in support of this measure from the Board of Barbering and Cosmetology.

Your Committee finds that there are inconsistent provisions in existing state law that add undue complexities to the regulation of the barbering and cosmetology industries. This measure will repeal existing law and establish a new, comprehensive licensing and regulatory structure to protect consumers and address evolving industry concerns and needs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3077, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2733 Commerce and Consumer Protection on S.B. No. 3078

The purpose and intent of this measure is to apply the existing advance warning requirements to excavators operating on residential properties and clarify various excavation requirements and reporting procedures.

Your Committee received testimony in support of this measure from the Public Utilities Commission, Hawaiian Electric, Hawai'i Gas, Hawaiian Telcom, and Hawaii Pest Control Association.

Your Committee finds that most excavators are required to call the One Call Center to provide the opportunity to check for pipelines or similar infrastructure prior to commencing excavation. Existing law, however, does not require excavators operating on residential properties to contact the One Call Center prior to excavating. Consequently, in 2020, approximately sixty-eight percent of subsurface utility infrastructure strikes occurred on residential properties. This exemption poses significant risk for homeowners and community members who use shared infrastructure. This measure extends the advance warning requirements to residential properties to reduce avoidable infrastructure damage and the risks of outages and other injuries to excavators.

Your Committee has amended this measure by:

- (1) Deleting certain language in the definition of "excavation" to clarify excavators are exempt from the advance warning requirements when their activities on residential properties do not involve excavation of more than twelve inches below the surface of the ground; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3078, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2734 Commerce and Consumer Protection on S.B. No. 3082

The purpose and intent of this measure is to amend the definitions of "distressed property consultant" and "mortgage assistance relief service" in section 480E-2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that, when the State enacted its Mortgage Rescue Fraud Prevention Act in 2008, the federal government had not yet enacted legislation designed to protect consumers from mortgage rescue scams. In 2010, the Federal Trade Commission's Mortgage Assistance Relief Services Rule was enacted. As a result, existing state law provides exemptions that do not exist in federal law. Accordingly, the protections these exemptions offer under state law is illusory, as anyone engaged in wrongdoing can be sued in federal court under the federal law. However, the inconsistencies remaining between state and federal law may unnecessarily cause confusion in determining how the law should be interpreted. This measure is therefore necessary to take the unique protections of the federal law and combine and reconcile those with the protection provisions in existing state law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3082, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2735 (Joint) Government Operations and Judiciary and Ways and Means on S.B. No. 2930

The purpose and intent of this measure is to establish and fund two new units within the Department of the Attorney General:

- (1) The Special Investigation and Prosecution Unit; and
- (2) The Sex and Human Trafficking Unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, The Kupuna Caucus of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance and the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committees find that recent events have illustrated the critical need to bolster the investigation, enforcement, and prosecution of incidents of fraud, white collar crime, and public corruption. Your Committees further find that there is an urgent need for more proactive law enforcement of sex and human trafficking crimes.

Your Committees additionally find that there are no specialized units within the Department of the Attorney General dedicated solely to the investigation and prosecution of the types of crimes within the purview of the units proposed by this measure. As noted in testimony, including that of Honolulu First Deputy Prosecuting Attorney Thomas Brady, dedicated units are key to the effective investigation and prosecution of these crimes, as these cases are lengthy, highly complex, and often involve emotionally or politically sensitive issues.

Your Committees note the testimony of Daniel Hanagami, Chief Special Investigator with the Department of the Attorney General, regarding cases that were investigated but did not result in charges. While Mr. Hanagami testified in opposition to the measure, your Committees find that this measure will actually address some of the issues raised in his testimony by forming dedicated units focused solely on the investigation and successful prosecution of crimes within the purview of the units. Your Committees also recognize the mutual interest and experience of the counties in attacking fraud, white collar crime, public corruption, and sex and human trafficking and thus encourage the units to collaborate with county law enforcement agencies.

Accordingly, your Committees find that this measure will promote the delivery of justice to victims and represents the best use of funds by creating units that are highly focused in scope and comprised of investigators, forensic analysts, attorneys, and other support staff with the expertise necessary to collaborate and concentrate efforts on the prevention and prosecution of fraud, white collar crime, public corruption, and sex and human trafficking crimes.

Your Committees have amended this measure by:

- (1) Adding a three-year annual reporting requirement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations, Judiciary, and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2930, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2930, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).
Judiciary: Ayes, 5. Noes, none. Excused, 2 (Gabbard, Lee).
Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Taniguchi).

SCRep. 2736 Judiciary on S.B. No. 2331

The purpose and intent of this measure is to expand the definition of "beer" to specify an alcohol by volume of no less than 0.5 per cent and to include alcohol seltzer beverages.

Your Committee received testimony in support of this measure from Lanikai Brewing Company, Maui Brewing Co., and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the existing statutory definition of "beer" is limited and does not reflect the public's perception of beer in the current marketplace, or adequately represent the unique aspects of craft beer ingredients that brewers use to develop new products and new offerings, such as gluten-free beer or beer with alternative grain ingredients, which are becoming more popular across the United States. Furthermore, the State's definition is not the same as the federal definition, which includes a broader range of substitutes or additions to malted barley and fermentable sugars. This measure will help foster the creation of new and unique styles of beer that are well-suited for the inclusion of Hawaii-grown products and will have a significant benefit for local, small, independent craft breweries across the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2331 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2737 Judiciary on S.B. No. 2136

The purpose and intent of this measure is to prohibit juror exclusion based on gender identity or expression.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Hawaii Rainbow Chamber of Commerce, and four individuals.

Your Committee finds that an individual's gender identity or expression is not currently protected from discrimination for service on a jury. Individuals should not be discriminated against based on their gender identity or expression in the State's laws. This measure disallows arbitrary discrimination for service on a jury so that all individuals may participate in performing their civic duties.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2136 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2738 Judiciary on S.B. No. 2048

The purpose and intent of this measure is to establish the criminal offense of unlawful chop shop activity in the first and second degrees and to provide for the forfeiture of property connected with chop shop activity.

Your Committee received testimony in support of this measure from the Maui County Council. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that there is currently no state statute covering the criminal misconduct of chop shop activity, despite numerous auto theft investigations showing that chop shop activity is a central part of the criminal misconduct. Your Committee further finds that the Crime in the U.S. 2019 report by the Federal Bureau of Investigation's Criminal Justice Information Services Division listed Hawaii as having the third highest motor vehicle theft rate in the nation. Furthermore, in 2019 alone, the Maui Police Department reported six hundred and sixty-one motor vehicle theft offenses and \$4,421,246 in stolen motor vehicle property. This measure will protect public safety and deter motor vehicle theft by establishing the criminal offense of unlawful chop shop activity and providing for the forfeiture of property connected with unlawful chop shop activity.

Your Committee has amended this measure by:

- (1) Establishing the offense of unlawful chop shop activity as a misdemeanor;
- (2) Deleting language that would have created the offenses of illegal chop shop activity in the first and second degrees;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2048, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2739 Judiciary on S.B. No. 2091

The purpose and intent of this measure is to establish a comprehensive process regarding executive pardons.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kauai, and two individuals. Your Committee received comments on this measure from the Department of Public Safety, Hawaii Paroling Authority, Hawaii Firearms Coalition, and ACLU of Hawai'i.

Your Committee finds that county prosecutors and crime victims in Hawaii do not receive advance notice of applications for executive pardons and are only notified at the time that pardons are granted. This creates a situation where neither prosecutors nor the victims are able to provide any input for the Governor's consideration, as they do for furlough and parole prior to an offender's conviction or sentencing. Under existing law, only the Department of Public Safety is mandated to consider every application for pardon, which is referred by the Governor. Your Committee further finds that there is very little guidance or requirements regarding the process before a pardon is granted. This measure will establish a consistent and reliable means for prosecutors and victims to be able to provide meaningful input on all applications for pardon so that the Governor can make more informed decisions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2091, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2740 (Majority) Judiciary on S.B. No. 2096

The purpose and intent of this measure is to lower the threshold of blood alcohol content for the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Prosecuting Attorney, County of Maui; Hawai'i Police Department; Honolulu Police Department; Maui Police Department; Maui County Council; Hawai'i State Association of Counties; Mothers Against Drunk Driving Hawaii; National Safety Council; and eighteen individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Beverage Institute, Wine Institute, and one individual.

Your Committee finds that in 2013, the National Transportation Safety Board (NTSB) recommended that all fifty states adopt a blood alcohol concentration cutoff of 0.05 compared to the 0.08 standard. According to the NTSB, lowering the rate to 0.05 would save approximately five hundred to eight hundred lives annually. The NTSB reports that a driver with a blood alcohol concentration of 0.05 would be affected by exaggerated behavior, loss of small-muscle control and eye focus, impaired judgment, lowered alertness, and release of inhibition. This would result in reduced coordination, reduced ability to track moving objects, difficulty steering, and reduced response to emergency driving situations. This measure will save lives, prevent catastrophic injuries, and decrease medical costs by lowering the threshold of blood alcohol content for the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee has amended this measure by:

- (1) Conforming other relevant sections to the lowered blood alcohol content threshold; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2096, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 2 (Kim, Fevella). Excused, none.

SCRep. 2741 Judiciary on S.B. No. 2642

The purpose and intent of this measure is to:

- (1) Establish an exemption from mediation in paternity proceedings where there are allegations of domestic abuse; and
- (2) Amend the exemption from mediation in divorce proceedings by disallowing mediation when there are allegations of domestic violence.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, Hawaii State Democratic Women's Caucus, and two individuals. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that the waiver of the requirement to participate in mediation was included in the divorce statute many years ago. Your Committee further finds that many partners do not marry but rather cohabit and have children in common. If abuse occurs in the household, the issue of custody must be resolved when the relationship ends. Mediation is not the appropriate intervention for resolving custody and visitation issues when there has been domestic violence. This measure amends the paternity statute so that it excludes the mediation requirement when there has been domestic violence similar to the mediation exclusion under the divorce statute.

Your Committee has amended this measure by:

- (1) Adopting changes recommended by the Judiciary as follows:
 - (A) Clarifying that in contested paternity proceedings where there are allegations of domestic abuse, the court shall not require a party alleging the domestic abuse to participate in any component of any mediation program against the wishes of that party;
 - (B) Prohibiting a mediator from engaging in mediation in paternity proceedings where there are allegations of domestic violence unless certain requisites are met;
 - (C) Specifying that in paternity proceedings if there is a temporary restraining or protective order in effect, the court shall not require a party alleging domestic abuse to participate in any component of any mediation program against the wishes of that party;
 - (D) Specifying that the court may order mediation in paternity proceedings where there are allegations of domestic abuse if there is no temporary restraining or protective order under certain circumstances;

- (E) Clarifying that in contested divorce proceedings where there are allegations of domestic abuse, the court shall not require a party alleging the domestic abuse to participate in any component of any mediation program against the wishes of that party;
 - (F) Prohibiting a mediator from engaging in mediation in divorce proceedings where there are allegations of domestic violence unless certain requisites are met;
 - (G) Specifying that in divorce proceedings, if there is a temporary restraining or protective order in effect, the court shall not require a party alleging domestic abuse to participate in any component of any mediation program against the wishes of that party; and
 - (H) Specifying that the court may order mediation in divorce proceedings where there are allegations of domestic abuse if there is no temporary restraining or protective order under certain circumstances;
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion; and
 - (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2642, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2742 Judiciary on S.B. No. 2916

The purpose and intent of this measure is to prohibit the Governor or a Mayor from suspending requests for public records or vital statistics during a declared state of emergency.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, Kokua Council, Hawaii Chapter of the Society of Professional Journalists, For Our Rights, and three individuals. Your Committee received comments on this measure from the Department of Human Services, Office of Information Practices, Grassroot Institute of Hawaii, and Common Cause Hawaii.

Your Committee finds that the Governor's twenty-first proclamation relating to the coronavirus disease 2019 (COVID-19) emergency included a suspension of the Uniform Information Practices Act to the extent that it contains any deadlines for agencies or the Office of Information Practices, relating to requests for government records or complaints to the Office of Information Practices, subject to minimum requirements. One requirement is that the completion of the request must directly impair the agency's COVID-19 response effort. This requirement lets government agencies freely deny access to public information for an indefinite time period even as COVID-19 vaccination rates increase and the economy begins to reopen. This measure prevents future suspensions of the acquisition of critical public records.

Your Committee has amended this measure by:

- (1) Clarifying that the Governor or a Mayor shall not, through any proclamation or declaration of emergency or any rule or order, suspend agency response deadlines for requests to public records, or vital records or statistics;
- (2) Specifying that due to extenuating circumstances, there may be a reasonable delay in an agency's response to a request; provided that an agency shall not reject a request at any time, regardless of whether an emergency has been declared; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2916, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2916, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2743 Judiciary on S.B. No. 2869

The purpose and intent of this measure is to allow obligees under an order solely for spousal support to elect to enforce the order pursuant to chapters 651, 652, and 653, Hawaii Revised Statutes, rather than through the clerk of the court or the Child Support Enforcement Agency.

Your Committee received testimony in support of this measure from the Health Committee of the Democratic Party of Hawai'i and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that currently spousal support orders are enforced by the clerk of the court and the Child Support Enforcement Agency in cases where there is an order for both spousal and child support. These entities are often overburdened by spousal and child support orders and at times collection is complicated and slow. This measure will make it easier and faster for the obligee to receive spousal support by garnishment through the obligor's employer.

Your Committee has amended this measure by:

- (1) Adopting the recommendations proposed by the Department of the Attorney General as follows:

- (A) Clarifying that for orders solely for the support or maintenance of a spouse or former spouse, the spouse or former spouse may elect to enforce the order pursuant to chapters 651, 652, or 653, Hawaii Revised Statutes, in which case no assignment shall be made to the clerk of the court;
 - (B) Specifying that the assignment of the amounts shall be to the clerk of the court where the order is entered if for the support or maintenance of a spouse or former spouse, unless the spouse or former spouse elects to enforce the order pursuant to chapters 651, 652, or 653, Hawaii Revised Statutes;
 - (C) Clarifying that for each payment made pursuant to an assignment order solely for the support or maintenance of a spouse or former spouse may be enforced directly pursuant to chapters 651, 652, and 653, Hawaii Revised Statutes, if elected by the spouse or former spouse, and payments shall not be assigned to the clerk of the court; and
 - (D) Deleting section 2 of this measure amending section 576E-16, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2869, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2744 Judiciary on S.B. No. 3309

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

Your Committee has amended this measure by:

- (1) Deleting section 3 of this measure and the amendment to section 107-27, Hawaii Revised Statutes;
- (2) Deleting section 11 of this measure and the amendment to section 302A-1151.1(a) and (d), Hawaii Revised Statutes;
- (3) Deleting section 13 of this measure and the amendment to section 445-111, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3309, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3309, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2745 Judiciary on S.B. No. 2291

The purpose and intent of this measure is to:

- (1) Amend provisions relating to electronic eavesdropping;
- (2) Require law enforcement entities to obtain a search warrant before accessing a person's electronic communications in certain circumstances; and
- (3) Amend notification requirements of a law enforcement entity's access to electronic communications to allow for discovery in criminal cases.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Fellow of Information Privacy, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that Hawai'i law permits law enforcement to obtain access to electronically stored data using one of three forms of legal process: a subpoena, a court order, and a search warrant. The evidentiary burden to use a subpoena and court order is lower than the burden imposed by a search warrant. The burden to use a subpoena and court order is materiality and relevance, whereas the burden to obtain a search warrant requires that law enforcement establish probable cause that the data to be seized constitutes evidence of a crime. Probable cause is a higher burden of proof that requires specificity and invokes all of the constitutional protections that attach to a search warrant. Requiring that law enforcement use a search warrant to obtain access to electronically stored data will provide greater protection to Hawai'i residents who are the subject of a law enforcement investigation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2746 Judiciary on S.B. No. 2300

The purpose and intent of this measure is to allow candidates seeking election to use campaign funds for child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Common Cause Hawaii, Hawaii State Democratic Women's Caucus, Vote Mama Foundation, Great Wāhine Run, Pono Hawai'i Initiative, AAUW of Hawaii, Hawai'i Children's Action Network Speaks!, and ten individuals. Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party and one individual. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that parenthood and care for one's dependents should not be a barrier to political office. One solution to this unnecessary obstacle is to allow candidates for elected office to use campaign funds to defray the expensive costs of a candidate's child care or dependent family care. Your Committee also finds that a growing number of candidates and good governance organizations are pushing state legislatures and elections commissions to adopt similar proposals in an effort to encourage more women and low-income candidates to run for public office by addressing a financial barrier for parents and caregivers. Accordingly, your Committee finds that this measure will reduce that cost barrier by allowing candidates more flexibility in how they use campaign funds.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2300 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2747 Judiciary on S.B. No. 2040

The purpose and intent of this measure is to:

- (1) Exempt candidates who are either unsuccessful or elected to office in a primary election from the requirement to file preliminary general reports; and
- (2) Clarify the aggregate contribution and expenditure amounts that trigger the requirement for a candidate or noncandidate committee to file only the final election period report.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that reporting requirements under campaign finance laws are important to maintain transparency and fairness in elections. However, candidates who are either unsuccessful or who have been elected to office in a primary election will not appear on the ballot in the general election. Therefore, your Committee finds that requiring these candidates to file preliminary reports between the primary and general elections is unnecessary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2040 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2748 Judiciary on S.B. No. 2043

The purpose and intent of this measure is to repeal references in sections 11-322(b) and 11-323(b), Hawaii Revised Statutes, to paragraphs in subsection (a) of those statutes that have been repealed.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that this housekeeping measure updates Hawaii's campaign spending laws to remove obsolete references to subsections that were repealed by Acts 80 and 81, Session Laws of Hawaii 2018.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2043 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2749 Commerce and Consumer Protection on S.B. No. 3079

The purpose and intent of this measure is to amend various portions of title 24 of the Hawaii Revised Statutes to update and improve existing provisions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; American Insurance Group, Inc.; National Association of Insurance and Financial Advisors Hawaii; and American Council of Life Insurers.

Your Committee finds that, under existing law, the limited lines producer license does not cover general travel insurance products, such as trip interruption or cancellation, damages to accommodations or rental vehicles, emergency evacuations, or repatriation of

remains. There are also certain products covered in the insurance code that are outdated and obsolete. This measure will cover gaps in limited lines product offerings and remove existing products that are outdated.

Your Committee further finds that this measure excludes dental insurers and dental service corporations from third party administrator regulation to address a drafting oversight from the previous legislative session and will promote financial stability of these entities and increase consumer protection.

Lastly, your Committee finds that, in 2020, the National Association of Insurance Commissioners adopted a revised Suitability in Annuity Transactions Model Regulation that requires insurance producers making annuity recommendations to act in the best interest of a consumer when making annuity recommendations, rather than apply the existing suitability standard. This measure adopts this model regulation to better protect consumers and ensure that their insurance and financial objectives are effectively considered and brings Hawaii into parity with nineteen other states that have also enacted this legislation.

Your Committee has amended this measure by:

- (1) Clarifying that an administrator shall maintain a surety bond of at least \$100,000 for the first two years of licensure, and at least \$300,000 from the third year of licensure;
- (2) Clarifying at the third annual report filing, and each subsequent annual report filing, the surety bond amount shall be at least \$300,000 and filed in accordance with section 431:9J-112, Hawaii Revised Statutes;
- (3) Specifying that a producer who engages in the sale of annuity products shall complete a one-time four-credit training course approved by the Insurance Commissioner and that a producer who is authorized to sell annuity products on or before December 31, 2022, shall complete by July 1, 2023, a one-time training course on annuity products meeting certain requirements;
- (4) Clarifying a producer who obtains a life or variable life and variable annuity products line of authority after December 31, 2022, shall not engage in the sale of annuities until the insurance producer has completed certain training by July 1, 2023;
- (5) Inserting language granting the Insurance Commissioner the authority to enforce certain provisions of this measure until March 31, 2023, in the event the electronic platform for online renewals do not provide sufficient time to comply with new audited financial filing requirements;
- (6) Inserting an effective date of July 1, 2022, for sections 4, 5, and 7 of this measure, and inserting an effective date of December 31, 2022, for sections 2, 3, and 6 of this measure; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency with legislative drafting conventions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3079, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2750 Ways and Means on S.B. No. 1048

The purpose and intent of this measure is to clarify the Hawaii Criminal Justice Data Center's authority to set and collect fees for its services.

Specifically, this measure:

- (1) Deletes statutorily established fees for services provided by the Hawaii Criminal Justice Data Center and instead authorizes the Center to establish or adjust fees by administrative rules adopted pursuant to Chapter 91, Hawaii Revised Statutes; and
- (2) Repeals a provision that exempts county agencies from paying fees for employment background checks.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that providing the Hawaii Criminal Justice Data Center with the flexibility to adjust the fees charged for its services will help the Center to sustain its operations and minimize its use of general funds. Your Committee further finds that removing the county fee exemption for employment background checks will increase the annual revenue collected by the Hawaii Criminal Justice Data Center by approximately \$30,000 and will provide a fair and consistent process for all non-criminal justice agencies that submit fingerprints to the Center for processing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 2751 Ways and Means on S.B. No. 2376

The purpose and intent of this measure is to amend the cigarette tax and tobacco tax law.

Specifically, this measure:

- (1) Repeals and eliminates the deferred payment purchase option for cigarette tax stamps; and

(2) Requires licensees to pay for stamps at the time of purchase using cash, certified check, or bank transfer.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure amends Chapter 245, Hawaii Revised Statutes, by repealing all provisions related to the "deferred payment purchase" of required cigarette tax stamps. Your Committee also finds that, according to the Department of Taxation, the deferred payment purchase of cigarette tax stamps is no longer necessary, and requiring that taxpayers pay for cigarette tax stamps upon purchase is the most efficient way to administer this program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2752 Ways and Means on S.B. No. 3248

The purpose and intent of this measure is to appropriate moneys to purchase one advanced life support ambulance and related equipment for use on the island of Molokai and to pay state-certified emergency medical services personnel.

Your Committee received written comments in support of this measure from a member of the Maui County Council, Queen's Health Systems, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the advanced life support ambulance, equipment, and medical staff funded by this measure will help reduce death and disability among residents of and visitors to Molokai by facilitating timely responses to calls for emergency medical services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3248, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2753 Ways and Means on S.B. No. 2597

The purpose and intent of this measure is to appropriate moneys to the Department of Health to fund the Hawaii State Loan Repayment Program.

More specifically, the measure appropriates moneys to provide student loan repayment for physicians, nurse practitioners, physician assistants, psychologists, licensed clinical social workers, psychiatric nurse specialists, licensed professional counselors, marriage and family therapists, registered nurses, and certified alcohol and substance abuse counselors who agree to work in a federally-designated health professional shortage area.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, Department of Labor and Industrial Relations, Healthcare Association of Hawaii, Hawaii Medical Association, Hawaii Primary Care Association, Hawaii American Nurses Association, Hawaii State Center for Nursing, Hawaii Pacific Health, Hawaii Psychiatric Medical Association, Queen's Health Systems, and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the loan repayment program funded by this measure will help to address the State's severe shortage of health care professionals, especially in rural areas. Your Committee recognizes that health care professionals who have benefitted from the program currently serve on all islands and in the communities of Waimea, Kihei, Waianae, Hilo, and Wailuku; at health clinics in Kalihi-Palama and Kokua Kalihi Valley; and in public institutional settings at the federal detention center in Honolulu, the Halawa correctional facility, and the Maui County correctional center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2597, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2754 Ways and Means on S.B. No. 2862

The purpose and intent of this measure is to appropriate moneys to install air conditioning units in the State's public school classrooms.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, and Democratic Party of Hawaii Education Caucus.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that studies have shown evidence of significant achievement gaps between cooled and non-cooled classroom environments. Providing air conditioning units for those public school classrooms that still lack cooling systems will help the students in those classrooms focus on learning, thereby leading to fewer disciplinary problems and more sustained academic achievement.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2862, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2755 Ways and Means on S.B. No. 3090

The purpose and intent of this measure is to provide greater fiscal transparency by making the reimbursement provisions in section 302A-1405, Hawaii Revised Statutes, applicable to all federal grants received by the Department of Education, State Public Charter School Commission, or a charter school authorizer.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee finds that amending the reimbursement provisions of the federal grants revolving fund and making the indirect costs from all federal grants available for deposit into the fund will facilitate better, more intentional, and more transparent use of the fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3090, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2756 Ways and Means on S.B. No. 3125

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for coronavirus disease 2019 (COVID-19) vaccinations.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Medical Service Association, and Hawaii Primary Care Association.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that currently, residents of many communities, including rural and marginalized communities, remain unvaccinated and thus more vulnerable to COVID-19. Accordingly, your Committee further finds that the moneys appropriated by this measure will help protect the health of state residents by allowing wider dissemination of COVID-19 vaccines.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2757 Commerce and Consumer Protection on S.B. No. 2280

The purpose and intent of this measure is to allow dental assistants to perform limited duties under the general supervision of a dentist in public health settings.

Your Committee received testimony in support of this measure from the Department of Health; Board of Dentistry; Hawai'i Oral Health Coalition; Hui No Ke Ola Pono, Inc.; AlohaCare; Hawaii Dental Association; Hawaii Dental Hygienists' Association; and one individual.

Your Committee finds that incidences of tooth decay and poor oral hygiene in children across the State is alarmingly high. Untreated cavities can lead to significant pain and increase the risk of more serious infections in the mouth and body.

Your Committee further finds that the State lacks adequate and accessible dental public health infrastructure, especially on the neighbor islands. While existing law permits dental assistants to practice under the general supervision of a dentist in public health settings, dental assistants are prohibited from providing auxiliary support except under direct supervision.

Your Committee additionally finds that permitting dental assistants to provide limited, but essential, auxiliary support under general supervision while in public health settings would contribute to the development and sustainable implementation of community-based dental disease prevention programs. It would also expand providers' ability to offer adequate and accessible oral health services to rural communities and the State's most vulnerable residents, such as expanding the provision of teledentistry services.

Accordingly, your Committee finds that this measure will promote equitable access to critically needed dental services in communities across the State by expanding the permissible duties of dental assistants.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2280, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2280, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2758 Judiciary on S.B. No. 2030

The purpose and intent of this measure is to;

- (1) Require a prescriber to offer a prescription of certain drugs under certain circumstances related to opioid overdose;
- (2) Require a prescriber to offer patient education under certain circumstances related to opioid overdose;
- (3) Exempt veterinarians or prescriptions for animals;
- (4) Require a pharmacist who dispenses a prescription order for an opioid to notify the individual of the potential dangers of a high dose of an opioid and to offer to dispense to the individual an opioid antagonist; provided that the individual is prescribed specific opioids at specified doses;
- (5) Exempt patients in hospice or palliative care, residents of veterans community living centers, and patients in inpatient or outpatient care; and
- (6) Require a pharmacist to notify an individual receiving an opioid antagonist of the availability of generic and brand-name opiate antagonists.

Your Committee received testimony in support of this measure from Kaiser Permanente and one individual. Your Committee received comments on this measure from the Department of Health and State of Hawaii Board of Pharmacy.

Your Committee finds that there is an opioid abuse crisis in the State. Prevention and access to treatment for opioid addiction and overdose reversal drugs are critical to fighting the opioid epidemic. This measure will require prescribers and pharmacists to offer life-saving medication and education on opioid overdose prevention and help combat the opioid abuse crisis in the State.

Your Committee notes that there is concern from the State of Hawaii Board of Pharmacy that not all pharmacists have completed or elected to complete the required training program related to prescribing opioid antagonists, including Naloxone.

Your Committee has amended this measure by deleting a sedative drug and gabapentin from the list of controlled substances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2030, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2030, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2759 Judiciary on S.B. No. 2277

The purpose and intent of this measure is to:

- (1) Prohibit contractors from offering to pay or rebate, or promising to pay or rebate, an insured's property or casualty insurance deductible;
- (2) Prohibit contractors from representing or negotiating, or offering or advertising to do so, on behalf of an insured in an insurance claim;
- (3) Specify violations are unfair methods of competition and unfair or deceptive acts or practices;
- (4) Allow insureds to rescind contracts with the contractors within five business days after the date the contract is executed; and
- (5) Require contractors to provide certain forms to an insured, prior to entering into a contract.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council and National Insurance Crime Bureau. Your Committee received testimony in opposition to this measure from the Contractors License Board and Subcontractors Association of Hawaii. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that, after significant weather events, contractors may take advantage of consumers by convincing homeowners to replace their entire roof even in scenarios where the homeowner's roof has sustained minimal or no damage. Your Committee further finds that unscrupulous individuals in these situations may represent themselves to consumers as insurance claims experts who can obtain insurance proceeds to fix a house, even when these individuals are not licensed independent adjusters. If an insured is convinced into signing a contract with the contractor, they could be liable for repairs that are unnecessary or uninsured. This measure seeks to prohibit or remedy these types of actions and prevent consumers from being scammed into entering into deceptive repair contracts.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2277, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2277, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2760 Judiciary on S.B. No. 2180

The purpose and intent of this measure is to:

- (1) Require the Governor to nominate members for reappointment to the Board of Education at least one hundred fifty days before the expiration of the member's term;
- (2) Require the Senate to consider the reconfirmation of the Board of Education member at least sixty days before the member's term expires;
- (3) Clarify that holdover members shall not serve as members of the Board of Education beyond the end of the first Regular Session of the Legislature following the expiration of the member's term unless duly appointed by the Governor and confirmed by the Senate;
- (4) Immediately disqualify from service any Board of Education holdover member whose nomination is withdrawn by the Governor prior to the holdover member's confirmation by the Senate; and
- (5) Require the Governor to submit to the Senate, no later than twenty days prior to the convening of each Regular Session of the Legislature, a list of the names of any vacancies filled by interim appointment and the number of any vacancies on the Board of Education.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the existing nomination, appointment, and confirmation procedures for Board of Education members could be improved and this measure will make changes to those procedures.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2180, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2180, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2761 Ways and Means on S.B. No. 3096

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education to build an agriculture innovation center and create an agricultural program on the island of Kauai.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Education, Hawaii Farm Bureau, and Hawaii Cattlemen's Council.

Your Committee finds that agricultural education is critical to ensuring the longevity and resilience of Hawaii's agriculture industry. The agriculture innovation center supported by this measure will give students the opportunity to learn about local food production and may motivate them to pursue careers in agriculture.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3096, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3096, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2762 Commerce and Consumer Protection on S.B. No. 2635

The purpose and intent of this measure is to require insurers and mutual benefit societies to cover mandated services for mammography at least as favorably as coverage for other radiological examinations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Association, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that preventative health care services such as mammograms allow Hawaii's people to take proactive choices for their personal health. Currently, a mammogram is the best way to find breast cancer for most women at the screening age of fifty to seventy-four years old. Despite the recommendation of an annual mammogram, some women delay crucial screenings because of high out-of-pocket expenses, leading to delays in diagnoses that may result in serious adverse health outcomes.

To align with the Hawaii Cancer Plan 2030, increasing breast cancer screening rates is a priority for both the Center for Disease Control and Prevention-funded programs, Hawaii Breast and Cervical Cancer Control Program, and Hawaii Comprehensive Cancer Control Program within the Department of Health. The Hawaii Breast and Cervical Cancer Control Program is a crucial program that provides critical screening and early detection services to high risk, uninsured, and underinsured, and rarely or never-before screened women between the ages of fifty and sixty-four.

Your Committee also notes the comments from the Insurance Commissioner of the Department of Commerce and Consumer Affairs' Insurance Division that this measure, as drafted, will ensure a base level of coverage for breast cancer screening under current insurance mandates consistent with coverage for other radiological exams.

Your Committee has amended this measure by inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2635, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2635, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2763 Commerce and Consumer Protection on S.B. No. 3382

The purpose and intent of this measure is to allow the utilization of post office boxes for controlled substances prescriptions by amending the definition of "address" under chapter 329, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawaii and one individual. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that, under existing requirements, if a patient with a controlled substance prescription has a post office box address, before dispensing, pharmacists must verify the patient's identification, note the identification number on the prescription, and change the address on file. This measure eliminates unnecessary burdens and increases workflow efficiencies by eliminating these steps if the physical address is already on file, saving pharmacists time and making good use of technology. The volume of prescriptions received with post office box addresses is significant, especially on the neighbor islands. This measure will therefore enable pharmacists to address other patient care responsibilities and reduce administrative burdens.

Your Committee has amended this measure by:

- (1) Expanding the definition of "address" to also include rural route boxes and highway contract route boxes;
- (2) Inserting an effective date of January 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3382, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3382, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2764 Commerce and Consumer Protection on S.B. No. 2073

The purpose and intent of this measure is to allow for standard telephone contacts for telehealth purposes.

Your Committee received testimony in support of this measure from the Department of Health State Council on Mental Health; University of Hawai'i System; AARP Hawai'i; Healthcare Association of Hawaii; Hawaii Substance Abuse Coalition; Hawaii Psychiatric Medical Association; Hawaii Primary Care Association; Waianae Coast Comprehensive Health Center; Hawai'i Pacific Health; Clinical Psychology Services, LLC; American Cancer Society Cancer Action Network; Hawai'i Public Health Institute; Hawaii Medical Association; Hawai'i Family Caregiver Coalition; Hawai'i Psychological Association; National Association of Social Workers, Hawai'i Chapter; Hawaiian Islands Association of Marriage and Family Therapy; and five individuals. Your Committee received testimony in opposition to this measure from Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Kaiser Permanente Hawaii, and The Queen's Health Systems.

Your Committee finds that the coronavirus disease 2019 pandemic greatly changed the way primary care is delivered to the most vulnerable populations among the State. Telehealth rapidly expanded as a means to ensure the provision of proper continuing care to patients, perform necessary counseling, and maintain surveillance and therapy. However, not everyone has access to smart phones and broadband service to utilize telehealth as it was intended, especially in underserved areas and rural or remote areas of the State. According to testimony received by your Committee, a certain health care facility on Oahu reported that over forty percent of its patients were not able to maintain a televideo encounter due to poor internet connectivity.

Your Committee notes that, even when face-to-face visual components may be lacking, a telephonic encounter still employs all the powerful aspects of the Electronic Medical Record, provided by a certified and knowledgeable health care provider using the standard visit protocols. Accordingly, a telephonic encounter is much more than a casual conversation, but rather, has the essential components of a normal medical visit, and therefore merits full reimbursement according to the prevailing standards. Behavioral health, in particular, has shown the most benefit from the expansion of telehealth over the past two years, and many of these encounters have been audio-only, standard telephone contacts.

Your Committee further finds that the Centers for Medicare and Medicaid Services (CMS) recently released its 2022 Medicare Physician Fee Schedule Final Rule, which permanently added certain services to the Medicare telehealth services list that were temporarily provided throughout the duration of the federal public health emergency. CMS amended its definition of "interactive telecommunications system" to include audio-only communications technology when used for telehealth services for the diagnosis, evaluation, or treatment of mental health disorders furnished to patients in their homes under certain circumstances. Your Committee finds that this policy should be consistent for health plans across the State and should provide pay parity for telephonic and telehealth services in these circumstances.

Your Committee additionally finds that allowing for the use of standard telephone contacts for telehealth purposes related to certain services is not a new mandate that would trigger an Auditor's assessment under section 23-51, Hawaii Revised Statutes, but is simply an additional telehealth modality to further support existing coverage requirements, and establishes parity with the services covered under Medicare and Medicaid. However, your Committee finds that inserting a sunset date will provide the opportunity to review any impacts to patient care, including whether there is any increase in services to rural areas, an increase or decrease in provider productivity, or other measurable impacts to the quality of care.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that reimbursement for services provided through telehealth by way of an interactive telecommunications system shall be equivalent to reimbursement for the same services provided via face-to-face contact;
- (2) Inserting a definition for the term "interactive telecommunications system" to include audio and video equipment; provided that, for services furnished for purposes of diagnosis, evaluation, or treatment of a mental health disorder, interactive telecommunications may include audio-only communication technology in certain circumstances;
- (3) Clarifying that, except as otherwise provided in this measure, standard telephone contacts do not constitute a telehealth service;
- (4) Inserting a repeal date of July 1, 2027; and
- (5) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2073, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2073, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2765 Ways and Means on S.B. No. 3235

The purpose and intent of this measure is to improve the response of state and county agencies to the unmet needs of homeless youth in the State.

More specifically, the measure:

- (1) Establishes within the Department of Human Services a Safe Spaces for Youth Pilot Program that requires:
 - (A) Inter-agency collaboration among all departments of the State and counties that offer certain services to youth to provide safe spaces in each county for youth experiencing homelessness; and
 - (B) The Department of Human Services to enter into contracts with nonprofit organizations for placement of homeless youth in shelters that provide overnight lodging, supervision, and support services;
- (2) Requires the Department of Human Services to submit a report to the Legislature on pilot program activities, accomplishments, and other specified information; and
- (3) Appropriates moneys for the pilot program.

Your Committee received written comments in support of this measure from the Hawaii Youth Services Network, Stonewall Caucus of the Democratic Party of Hawaii, Rainbow Family 808, Opportunity Youth Action Hui, and two individuals.

Your Committee received written comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that the pilot program established by this measure will provide an additional means of addressing the unmet needs of homeless youth through a coordinated inter-agency effort involving the state and county agencies responsible for the State's child welfare, education, health, human services, and juvenile justice systems.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3235, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3235, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2766 Ways and Means on S.B. No. 3267

The purpose and intent of this measure is to clarify the role of the Research Corporation of the University of Hawaii.

Specifically, this measure:

- (1) Clarifies that the University of Hawaii may use moneys appropriated by the Legislature to contract with the Research Corporation of the University of Hawaii for purposes of supporting or facilitating sponsored research and training activities and advancing innovation and entrepreneurship in the State;
- (2) Authorizes the University of Hawaii to contract with the Research Corporation of the University of Hawaii for invasive species control and eradication; and
- (3) Requires the University of Hawaii to consult with employee unions to review the conformance of positions having exceptions to collective bargaining that involve state programs or state employees.

Your Committee received written comments in opposition to this measure from the Research Corporation of the University of Hawaii.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee finds that the Research Corporation of the University of Hawaii was established in 1965 to promote, encourage, investigate, develop, and conduct scientific research and investigation in all branches of learning and disseminating the benefits of that research to the public. Your Committee further finds that this measure will foster the Research Corporation of the University of Hawaii's continued pursuit of sponsored research activities, training activities, and activities that promote innovation and entrepreneurship in the State.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3267, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3267, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2767 Ways and Means on S.B. No. 3284

The purpose and intent of this measure is to establish the technology services consolidation working group.

More specifically, this measure:

- (1) Establishes the technology services consolidation working group to:
 - (A) Develop a plan for the phased consolidation of certain state executive branch information technology services and staff within five years; and
 - (B) Make recommendations to attract high quality information technology professionals to the State;
- (2) Requires the Office of Enterprise Technology Services to provide administrative support to the working group; and
- (3) Requires the working group to submit a report to the Legislature of its findings and recommendations.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services and Transform Hawaii Government.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs and Department of Transportation.

Your Committee finds that consolidating information technology resources will allow the State to achieve economies of scale and provide the State with more efficient and secure uses of technology and information management. Your Committee believes that this measure will help to achieve the State's information technology vision of having a "transformative information and technology-enriched government that serves all the people of Hawaii and the aina."

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3284, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3284, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2768 Ways and Means on S.B. No. 915

The purpose and intent of this measure is to allow the counties to issue special motor vehicle number plates to commemorate Duke Kahanamoku.

More specifically, this measure:

- (1) Authorizes the Director of Finance of each county to issue special motor vehicle number plates to commemorate Duke Kahanamoku;

- (2) Requires the Director of Finance of the City and County of Honolulu to design the special number plates, based on certain guidelines;
- (3) Requires the Director of Finance of each county to charge a special number plate fee and fundraising fee, and authorizes the Director to charge an additional fundraising fee for renewal of the special number plate; and
- (4) Provides that the revenue generated by the fundraising fees be deposited in the name of the Outrigger Duke Kahanamoku Foundation in separate county budget accounts.

Your Committee received written comments in support of this measure from the City and County of Honolulu, Department of Customer Services; Outrigger Duke Kahanamoku Foundation; and one individual.

Your Committee finds that the issuance of special number plates commemorating Duke Kahanamoku is an appropriate way to honor and remember Duke Kahanamoku while helping to promote water safety and swim education throughout the State.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 915, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 915, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2769 Ways and Means on S.B. No. 2024

The purpose and intent of this measure is to ensure children who are deaf or hard-of-hearing receive early intervention services to support their communication development.

More specifically, the measure requires that diagnostic audiologic evaluations results for:

- (1) Newborns who did not pass newborn hearing screening; and
- (2) Infants whose hearing status changes,

be provided to the Department of Health.

Your Committee received written comments in support of this measure from the Department of Health, State Council on Developmental Disabilities, Executive Office on Early Learning, Disability and Communication Access Board, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, Hawaii Medical Association, Special Education Advisory Council, and one individual.

Your Committee believes that consistent reporting of diagnostic audiologic evaluation results to the Department of Health would allow the newborn hearing screening program to ensure that any infant who does not pass a hearing screening would receive a diagnostic audiologic evaluation, appropriate follow-up, and support. Your Committee also believes that timely diagnostic audiologic evaluation results would facilitate referrals of deaf and hard-of-hearing infants to early intervention services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2024, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2024, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2770 Ways and Means on S.B. No. 2077

The purpose and intent of this measure is to update chapter 201B, Hawaii Revised Statutes, to reflect the Hawaii Tourism Authority's updated mission to focus on visitor and destination management.

Specifically, this measure:

- (1) Adds the heads of the Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Land and Natural Resources; Department of Agriculture; and State Foundation on Culture and the Arts as ex officio, nonvoting members of the Hawaii Tourism Authority board of directors;
- (2) Amends the powers and responsibilities of the Hawaii Tourism Authority;
- (3) Renames the Hawaii Tourism Authority's tourism marketing plan as the tourism branding plan; and
- (4) Repeals the Hawaii Tourism Authority advisory group.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority, Department of Transportation, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; State Foundation on Culture and the Arts; and Department of Land and Natural Resources.

Your Committee finds that the amendments in this measure will better align the Hawaii Tourism Authority with its focus on destination management, by acknowledging its statutory responsibilities with respect to the State's long-range strategic plan and island destination management actions plans. Your Committee further finds that this measure will facilitate the Hawaii Tourism Authority's ability to partner with other state and county agencies to resolve issues and effectuate change.

Your Committee has amended this measure by:

- (1) Providing that the Director of Business, Economic Development, and Tourism shall serve as an ex officio, voting member of the Hawaii Tourism Authority board of directors, rather than a nonvoting member;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2077, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 2771 Ways and Means on S.B. No. 2087

The purpose and intent of this measure is to appropriate moneys to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the Department's victim witness assistance program.

Your Committee received written comments in support of this measure from the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the financial assistance provided by this measure will allow the Department of the Prosecuting Attorney of the City and County of Honolulu to continue providing support and guidance to crime victims, trial witnesses, and surviving family members of crime victims in navigating the criminal justice system.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$371,722 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2087, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2087, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2772 Ways and Means on S.B. No. 2088

The purpose and intent of this measure is to appropriate moneys to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the Department's career criminal prosecution unit.

Your Committee received written comments in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the financial assistance provided by this measure will improve public safety by allowing the Department of the Prosecuting Attorney of the City and County of Honolulu to continue its vigorous prosecution of career criminals, who commit a disproportionate number of serious crimes in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$653,360 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2088, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2088, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2773 Ways and Means on S.B. No. 2387

The purpose and intent of this measure is to increase transparency in state procurement.

Specifically, this measure requires departments to publicly post, on an electronic notification system for a minimum of ten days, the justification for cancelling an invitation for bids or request for proposals.

Your Committee received written comments in support of this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that offerors devote considerable time and resources to prepare and submit bids and proposals for public contracts. Accordingly, your Committee finds that potential vendors have the right to know the reason that a purchasing agency has cancelled a contract solicitation.

Your Committee has amended this measure by:

- (1) Clarifying that the reasons for the cancellation shall be posted on a purchasing agency or provider internet site or by any other method the procurement officer deems effective for publicizing the cancellation notice;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2387, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2387, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2774 Ways and Means on S.B. No. 2459

The purpose and intent of this measure is to ensure that individuals with limited proficiency in English have access to public services.

Specifically, the measure:

- (1) Requires the Office of Language Access to submit an annual report to the Governor and Legislature on compliance, complaints, resolution of complaints, and recommendations to enhance and promote language access; and
- (2) Appropriates moneys to establish limited English proficiency language coordinator positions in the Department of Commerce and Consumer Affairs, Department of Health, Department of Agriculture, and Hawaii Emergency Management Agency.

Your Committee received written comments in support of this measure from the Department of Health, Department of Human Services, Department of Agriculture, Department of Labor and Industrial Relations, Common Cause Hawaii, Hawaii Friends of Civil Rights, The Legal Clinic, Hawaii Public Health Institute, Hawaii Children's Action Network Speaks!, Hawaii Coalition for Immigrant Rights, Catholic Charities Hawaii, and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Office of Language Access, and Hawaii Emergency Management Agency.

Your Committee finds that many Hawaii residents have limited proficiency in English, which often impedes access to important public benefits and services. By requiring the Office of Language Access to submit annual reports and appropriating moneys for limited English proficiency language coordinator positions, this measure will help ensure compliance with state and federal language access laws.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2459, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2459, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2775 Judiciary on S.B. No. 2138

The purpose and intent of this measure is to subject interns who work for the State to the provisions of chapter 84, Hawaii Revised Statutes, otherwise known as the State Ethics Code, by defining and including the term "intern" in the definition of "employees" under the Code.

Your Committee did not receive any testimony on this measure.

Your Committee finds that existing law is unclear with respect to the applicability of the State Ethics Code to individuals classified as interns. Your Committee further finds that, although the State Ethics Commission interprets the State Ethics Code to apply to interns working for the State, this interpretation is not codified and as a result, may be subject to inconsistent interpretation and application. Accordingly, this measure clarifies, in statute, that the State Ethics Code applies to interns working for the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2138, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2776 Commerce and Consumer Protection on S.B. No. 3038

The purpose and intent of this measure is to allow for each member of the Information Privacy and Security Council to designate a person from the member's agency to act on the member's behalf in order to ensure quorum.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that, due to competing work priorities, the members of the Information Privacy and Security Council are often unable to attend meetings, resulting in the delay of important discussions and decision-making by the Council due to a lack of quorum. Your Committee further finds that, for the sake of efficiency and flexibility, it is in the best interest of the public to allow each member of the Information Privacy and Security Council to appoint a designee to act on the member's behalf to ensure quorum.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (San Buenaventura, Fevella).

SCRep. 2777 Ways and Means on S.B. No. 2481

The purpose and intent of this measure is to establish the Youth Crisis Branch and the position of Administrator of the Youth Crisis Branch within the Office of Youth Services.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness, Office of Youth Services, Hawaii Health and Harm Reduction Center, Opportunity Youth Action Hui, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that interaction with the legal system has been shown to have adverse effects on youth. Accordingly, your Committee notes that this measure's inclusion of a thirty-day limit on the provision of temporary shelter per person is solely intended to avoid the necessity of youth interacting with the legal system. Your Committee does not intend that this thirty-day limit will prevent the inclusion of legal system supports when those supports are advantageous or necessary.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2481, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2481, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2778 Ways and Means on S.B. No. 2657

The purpose and intent of this measure is to address the State's shortage of health care providers by providing moneys to support medical education and training in Hawaii.

More specifically, the measure:

- (1) Reestablishes the Hawaii medical education special fund to enable the John A. Burns School of Medicine, in consultation with the Hawaii Medical Education Council, to provide funding for medical education and training in Hawaii;
- (2) Appropriates moneys to the John A. Burns School of Medicine to expand medical education and training in Hawaii, with an emphasis on supporting residency training on the neighbor islands and in medically underserved areas throughout the State; and
- (3) Appropriates moneys to the John A. Burns School of Medicine to create further medical residency and training opportunities through a partnership with the United States Department of Veterans Affairs.

Your Committee received written comments in support of this measure from the University of Hawaii, Healthcare Association of Hawaii, Hawaii Medical Association, Hawaii Primary Care Association, Hawaii Pacific Health, Hawaii Psychiatric Medical Association, Queen's Health Systems, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that, according to the John A. Burns School of Medicine, eighty percent of graduates who complete medical school and residency training in Hawaii remain in the State to practice medicine. The moneys appropriated by this measure will help address the State's physician shortage, especially in medically underserved areas, by supporting a partnership with the United States Department of Veterans Affairs and creating residency and training programs on the neighbor islands.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2657, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2779 Ways and Means on S.B. No. 2863

The purpose and intent of this measure is to increase access to necessary health resources by exempting the sale of feminine hygiene products from the general excise tax.

Your Committee received written comments in support of this measure from the Department of Human Services, Rainbow Family 808, Common Cause Hawaii, Planned Parenthood Alliance Advocates—Hawaii, Health Committee of the Democratic Party of Hawaii, Ilima Intermediate School Activist Club and Rainbow Royales Gender Sexuality Alliance Club, Hawaii Women Lawyers, Ma'i Movement Hawai'i, Hawaii Food Industry Association, Hawaii Public Health Institute, and fourteen individuals.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that 288,348 women and girls between the ages of twelve and forty-four reside in the State, and that one in eight of those persons lives below the federal poverty line. Your Committee further finds that exempting feminine hygiene products from the general excise tax would alleviate an unequal tax burden on women and improve accessibility to these products.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2863, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2780 Ways and Means on S.B. No. 2917

The purpose and intent of this measure is to ensure that all residents of the State receive comprehensive quality coverage for sexual reproductive health care services.

More specifically, this measure:

- (1) Requires certain insurance policies and individual and group hospital or medical service plan contracts to include benefits for outpatient expenses arising from oocyte cryopreservation procedures, under certain conditions;
- (2) Removes the one-time benefit limitation for in vitro fertilization procedures; and
- (3) Reduces from five to two the number of years of infertility that a patient or patient's spouse is required to experience before becoming eligible for in vitro fertilization.

Your Committee received written comments in support of this measure from Hawaii Women Lawyers.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, Hawaii Association of Health Plans, Hawaii Medical Service Association, and Kaiser Permanente.

Your Committee finds that this measure will provide important benefits to many families in the State that are currently unable to afford prohibitively expensive fertility treatments and procedures.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2917, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2917, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2781 (Joint) Ways and Means and Water and Land on S.B. No. 2922

The purpose and intent of this measure is to facilitate the use of rural district lands.

Specifically, the measure:

- (1) Authorizes each county to determine the propriety of allowing a dwelling house on each quarter-acre, rather than each half-acre, of land in rural districts, under certain circumstances; and
- (2) Requires and appropriates moneys for the Office of Planning and Sustainable Development to perform a study to assess the rural district framework within the land use law and make recommendations for revisions to rural district policies and permissible uses within the rural district.

Your Committees received written comments in support of this measure from the Office of Planning and Sustainable Development, Hawaii Association of REALTORS, and Land Use Research Foundation of Hawaii.

Your Committees received written comments in opposition to this measure from Kupuna for the Moopuna and four individuals.

Your Committees received written comments on this measure from the Department of Agriculture, Department of Budget and Finance, and Grassroot Institute of Hawaii.

Your Committees find that as state residents are faced with a severe housing shortage, authorizing higher population density in the rural district may increase the supply of housing and reduce the overall cost of housing. Your Committees also find that the measure's proposed study regarding the rural district may prove helpful, as the redefinition and expansion of the rural district may promote better land use management of existing rural settlements, rural centers, and residential dwellings engaged in subsistence or family agriculture, which are not explicitly permitted in the agricultural district.

Your Committees have amended this measure by:

- (1) Changing the appropriation for the study from \$250,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2922, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2922, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Moriwaki, Shimabukuro, Wakai).

Water and Land: Ayes, 5; Ayes with Reservations (Riviere). Noes, none. Excused, none.

SCRep. 2782 Ways and Means on S.B. No. 3087

The purpose and intent of this measure is to move the chapter of the Hawaii Revised Statutes that contains the Emergency Management Assistance Compact from Chapter 128F to the 127 series of chapters.

Your Committee received written comments in support of this measure from the Hawaii Emergency Management Agency and Department of Defense.

Your Committee received written comments in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that moving the Emergency Management Assistance Compact from Chapter 128F to the 127 series of chapters will facilitate the administration of emergency management within the State, help the Hawaii Emergency Management Agency align with other states' emergency management practices, and improve the organization of the State's emergency management laws.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3087, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2783 Ways and Means on S.B. No. 3168

The purpose and intent of this measure is to ensure the continued provision of housing and critical services to the State's homeless population.

More specifically, the measure:

- (1) Extends the Ohana Zones Pilot Program's sunset date by five years, to June 30, 2028;
- (2) Establishes an Ohana Zones Program within the Hawaii Public Housing Authority upon the pilot program's June 30, 2028, expiration date, and requires that the Authority's program be substantially similar to the pilot program; and
- (3) Appropriates moneys for the extension of the Ohana Zones Pilot Program and expenses related to facility construction, renovation, and maintenance; provision of services and staffing; and administrative costs.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Hawaii Health and Harm Reduction Center, Catholic Charities Hawaii, Women in Need, Partners in Care, Opportunity Youth Action Hui, and four individuals.

Your Committee received written comments on this measure from the Department of Human Services, Department of the Attorney General, and Department of Budget and Finance.

Your Committee finds that the extension of the Ohana Zones Pilot Program will provide additional resources to address homelessness and housing instability across the State.

Your Committee has amended this measure by:

- (1) Adding a new section to the measure that would allow a person receiving accommodations or services from an Ohana Zone Pilot Program site to request a ninety-day extension of the person's receipt of accommodations or services;
- (2) Inserting language in the measure's appropriation section to provide that all moneys from the appropriation that are unencumbered as of June 30, 2025, shall lapse as of that date, and deleting language that would have permitted transfer of funds unused by June 30, 2028, to the Hawaii Public Housing Authority;
- (3) Changing the appropriation from \$15,000,000 to an unspecified amount;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3168, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3168, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2784 Ways and Means on S.B. No. 3184

The purpose and intent of this measure is to increase access to post-secondary education for Hawaii's high school students and recent high school graduates.

Specifically, this measure expands the criteria for students to qualify for resident tuition fees at University of Hawaii campuses to include persons enrolled in a high school in the State, and recent graduates of high schools in the State.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii, and Kamehameha Schools.

Your Committee finds that the current statutory requirements for determining residency for tuition purposes pose challenges for some graduates of Hawaii high schools. For example, students experiencing homelessness or having complex family situations may have difficulty providing evidence of bona fide residency. Your Committee further finds that recognizing local high school graduates and those who complete high school equivalences locally as residents for tuition purposes would facilitate the enrollment of these individuals at University of Hawaii campuses.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3184, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3184, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2785 Ways and Means on S.B. No. 3190

The purpose and intent of this measure is to establish a native fish hatchery pilot program at Waianae High School.

More specifically, this measure:

- (1) Requires the Department of Education to establish a native fish hatchery pilot program at Waianae High School;
- (2) Establishes requirements for teachers participating in the pilot program;
- (3) Requires the Department of Education to submit a report to the Legislature on the progress of the pilot program;
- (4) Appropriates moneys to the Department of Education to establish the pilot program, including establishing three full-time equivalent (3.0 FTE) positions and construction, operation, and maintenance of a hatchery; and
- (5) Dissolves the pilot program on June 30, 2025.

Your Committee received testimony in support of this measure from the Department of Education, Department of Land and Natural Resources, Waianae High School, Environmental Caucus of the Democratic Party of Hawaii, Kuaaina Ulu Auamo, Malama Pupukea-Waimea, Maunaloa Fishpond Heritage Center, and numerous individuals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the native fish hatchery pilot program will provide students with hands-on and real-world experiences that the students may use in the future to promote community-based food cultivation activities. Accordingly, your Committee believes that the pilot program will support the State's food sustainability and security efforts.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3190, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3190, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2786 Ways and Means on S.B. No. 3195

The purpose and intent of this measure is to appropriate start-up funding for the investigation, exploration, and identification of geothermal resources on Hawaiian home lands.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Hawaii State Energy Office, Environmental Caucus of the Democratic Party of Hawaii, Sustainable Energy Hawaii, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the exploration geothermal resources can be used for the generation, transmission, or production of hydrogen, other renewable energy resources, and electricity. Accordingly, your Committee finds that efforts to investigate, explore, and identify these resources on Hawaiian home lands should be supported.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3195, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3195, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2787 Ways and Means on S.B. No. 3209

The purpose and intent of this measure is to appropriate funds for each Department of Education teacher to be paid for twenty-one hours of professional development without students.

Your Committee received written comments in support of this measure from the Hawaii State Public Charter School Commission, Department of Education, Hawaii State Teachers Association, and eleven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will reinstate the funding for twenty-one hours of professional development for each teacher that expired on June 30, 2021, due to a lack of funds. These funds will help to build staff capacity through professional development, recruit new teachers, and retain the current experienced teachers.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$16,600,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3209, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3209, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2788 Judiciary on S.B. No. 2334

The purpose and intent of this measure is to:

- (1) Require the Board of Education to include an open forum for public comments on non-agenda items at the end of board meetings;
- (2) Require the Board of Education to hold not less than six community forums annually, with at least one forum in each county; and
- (3) Require a report to the Legislature on implementing the open forums mandate.

Your Committee received testimony in support of this measure from the Office of Information Practices and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that community forums improve the public's access to the Board of Education and provide the Board with more information to assist in its decision-making and priority setting. Your Committee further finds that the Board of Education should receive public input at its noticed regular public meetings and by reaching out to the public through community forums. This measure seeks to increase communication between the community-at-large and the Board of Education.

Your Committee has amended this measure by:

- (1) Inserting language into chapter 302A, Hawaii Revised Statutes, requiring the Board of Education to include an open forum at the end of its meeting agenda to afford all interested persons an opportunity to present oral testimony on any matter not on the agenda; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2334, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 2789 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2882

The purpose and intent of this measure is to:

- (1) Establish the Community Health Worker Certification Program within the Department of Commerce and Consumer Affairs; and
- (2) Establish the Community Health Worker Certification Special Subaccount of the Compliance Resolution Fund.

Your Committees received testimony in support of this measure from the Hawai'i Primary Care Association, Ka'u Rural Health Community Association, Hawai'i Community Health Worker Association, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, University of Hawai'i System, Department of Budget and Finance, Department of Health, Papa Ola Lōkahi, Hawaii Substance Abuse Coalition, Hawai'i Public Health Institute, and one individual.

Your Committees find that community health workers have long been active health care providers in rural and underserved communities throughout the State. However, because this profession is not regulated, licensed, or certified in accordance with state law, their services are not reimbursable under private or public insurance. Accordingly, this measure establishes the necessary framework for the professional recognition and certification of community health workers in the State to provide more accessibility to services in the public health and social service fields. Your Committees additionally note that this measure is subject to a sunrise analysis to be conducted by the Auditor pursuant to section 26H-6, Hawaii Revised Statutes.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2882, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2882, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2790 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 3272

The purpose and intent of this measure is to:

- (1) Establish the Air Noise and Safety Task Force; and
- (2) Require the Director of Transportation to adopt rules to require tour aircraft operators to report details of each flight taken by the tour aircraft operation on a monthly basis.

Your Committees received testimony in support of this measure from the Department of Transportation, O'ahu Tour Helicopter Safety and Noise Inter-Action Group, and one individual. Your Committees received comments on this measure from the Hawaii Association for Justice and Jack Harter Helicopters.

Your Committees find that excessive noise from tour aircrafts, including helicopters flying over residential areas is a serious detriment to the health and quality of life of those residents. Federal regulations have established rules to mitigate this problem, but it is in the interest of the State to monitor and ensure that these rules and regulations are being followed. This measure forms the Air Noise and Safety Task Force and requires tour aircraft operators to file appropriate reports and disclosures when renewing their licenses so that the State can monitor their compliance with Federal rules and regulations.

Your Committees have amended this measure by:

- (1) Requiring the Air Noise and Safety Task Force to recommend a minimum general liability coverage amount for tour aircraft operators to be considered for enactment during the 2023 Regular Session of the Legislature; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3272, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3272, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2791 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2695

The purpose and intent of this measure is to establish a Blockchain and Cryptocurrency Task Force.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that, despite the emerging growth and popularity of digital currency, there is little regulation of the industry. Accordingly, as there is vast potential for both the use and regulation of blockchain technology and cryptocurrency, it is in the interests of the State and its consumers to determine whether or how to regulate and provide oversight to the cryptocurrency industry. This measure establishes a task force to create a master plan to explore the use and regulation of blockchain and cryptocurrency.

Your Committees have amended this measure by:

- (1) Clarifying that meetings of the task force may be conducted via interactive conference technology;
- (2) Clarifying the task force shall review data and other aspects of the blockchain and cryptocurrency industry throughout the country, including but not limited to the development of a plan to expand blockchain adoption in both the private and public sectors, to be regulated within the jurisdiction and purview of the Department of Commerce and Consumer Affairs' Division of Financial Institutions;
- (3) Requiring the task force to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024, at which point the task force shall dissolve; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2695, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2695, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2792 Commerce and Consumer Protection on S.B. No. 3034

The purpose and intent of this measure is to clarify the listing of contractors and subcontractors required for construction bids under section 103D-302, Hawaii Revised Statutes, to facilitate the implementation of competitive sealed bidding procurements of public works construction projects.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and General Contractors Association of Hawaii. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that existing law, which requires bidders to list joint contractors and specialty subcontractors, including those that are not subject to licensing under chapter 444, Hawaii Revised Statutes, for all public works construction projects may result in unnecessary bid protests, award delays, and increased project costs. This measure, in part, intends to reduce the number of subcontractors that must be listed in a bid for the award of a public works construction project, thereby reducing the number of challenges by unsuccessful bidders based on subcontractor listing errors, and increasing the efficiency of the competitive sealed bidding process.

According to testimony from the General Contractors Association of Hawaii (GCAH), requiring that the specialties or administrative subclassifications of licensed contractors and subcontractors be included in a competitive sealed bid for a public works construction project, instead of exempting contractors and subcontractors that are not required to be licensed in the performance of the contract, will ensure that there is no unintended consequence if the contractor's license board adds a new profession under chapter 444, Hawaii Revised Statutes, that is not meant to be included in the subcontractor listing. Your Committee notes GCAH's testimony also states that the joint contractor listing requirement is confusing and unnecessary, even for joint venture bidders with subcontractors as the prime contractors.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have exempted information concerning certain contractors and subcontractors who are not required to be licensed pursuant to chapter 444, Hawaii Revised Statutes, from inclusion in a competitive sealed bid and replacing it with a requirement that the specialty or specialties of a licensed contractor or subcontractor be included in the bid, along with the nature and scope of the work to be performed; and
- (2) Removing references to "joint contractor" to avoid confusion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3034, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (San Buenaventura, Fevella).

SCRep. 2793 Ways and Means on S.B. No. 2564

The purpose and intent of this measure is to appropriate funds for the Department of Education's Resources for Enrichment, Athletics, Culture, and Health Program.

Your Committee received written comments in support of this measure from the Department of Education; Department of Human Services; American Academy of Pediatrics, Hawaii Chapter; HEE Coalition; Early Childhood Action Strategy; Hawaii State Teachers Association; Hawaii Children's Action Network Speaks!; Hawaii Afterschool Alliance; Parents And Children Together; Special Education Advisory Council; CARE Arts and Recreation Education Services; and four individuals.

Your Committee received written comments from the Department of Budget and Finance.

Your Committee finds that the funds appropriated by the measure will allow the State to obtain matching federal funds through the federal Nita M. Lowey 21st Century Community Learning Centers Grant Program, which will help to expand after-school programs.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2564, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2564, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2794 Ways and Means on S.B. No. 2567

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to digitize its applicant, beneficiary, and lessee records through the creation of an interactive digital database software program, which shall be completed and available for use by July 1, 2023.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that although basic Department of Hawaiian Home Lands applicant waiting lists are readily available, access to more detailed information can require weeks of work. Accordingly, your Committee believes that steps must be taken to ensure that the Department of Hawaiian Home Lands has access to and compiles relevant lease information in a more efficient manner.

Your Committee has amended this measure by:

- (1) Inserting an unspecified appropriation from general revenues for the creation of an interactive digital database software program of the Department of Hawaiian Home Lands' applicant, beneficiary, and lessee records;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2567, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2567, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2795 (Joint) Ways and Means and Water and Land on S.B. No. 2581

The purpose and intent of this measure is to prioritize for the provision of affordable housing the use of lands previously used by the federal government.

Specifically, this measure establishes, as a priority guideline for the provision of affordable housing, that state lands that are leased by or under the control of the federal government and that are to be returned to the State, including lands formerly used for military facilities, be prioritized for the provision of affordable housing.

Your Committees received written comments in support of this measure from the Office of Planning and Sustainable Development, Partners in Care, and one individual.

Your Committees find that the scarcity of available land has been a major challenge in addressing the State's critical shortage of affordable housing. Your Committees further find that the use of lands that were formerly leased to or used by the federal government will help to alleviate this shortage of available land for affordable housing.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2581, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2581, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Moriwaki, Shimabukuro, Wakai).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2796 Ways and Means on S.B. No. 2627

The purpose and intent of this measure is to make an emergency appropriation to the Department of Transportation to replace the perimeter fence around Kahului airport in the County of Maui.

Your Committee received written comments in support of this measure from the Department of Transportation and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the airport fence funded by this measure is needed to prevent axis deer from entering the runway area and threatening the safety of airport passengers and operators.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum to facilitate further discussion; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2627, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2627, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Fevella).

SCRep. 2797 Ways and Means on S.B. No. 2637

The purpose and intent of this measure is to help improve post-incarceration outcomes for female offenders in the State.

More specifically, the measure:

- (1) Requires that a community-based work furlough program be among the gender-responsive, community-based programs developed by the Department of Public Safety and made available to female offenders, and that these programs be made available to all female offenders; and
- (2) Appropriates moneys to the Department of Public Safety to ensure the continuation and expansion of community-based work furlough for all incarcerated women.

Your Committee received written comments in support of this measure from the Department of Public Safety, Hawaii Health and Harm Reduction Center, YWCA Oahu, Community Alliance on Prisons, Institute for Human Services, Women's Prison Project, Hawaii Women Lawyers, ACLU of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the funding provided by this measure will allow a greater number of women to participate in community-based work furlough programs, which help to reduce recidivism by providing reentry support and transitional training in areas such as job readiness and job retention.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2637, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2637, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2798 Ways and Means on S.B. No. 2701

The purpose and intent of this measure is to provide support for early child care workers and early education programs.

More specifically, this measure:

- (1) Requires the Department of Human Services to:
 - (A) Establish and implement a one-year early child care worker subsidy pilot program;

- (B) Develop standards and qualifications for participation in the pilot program;
 - (C) Establish best practices to bring all early childhood educators' wages to a certain amount; and
 - (D) Submit a report to the Legislature on the pilot program;
- (2) Appropriates moneys to the Department of Human Services for the pilot program; and
 - (3) Appropriates moneys to be deposited into the early learning special fund for the Executive Office on Early Learning to expend on the Hawaii early childhood educator stipend program.

Your Committee received written comments in support of this measure from the Early Learning Board; Executive Office on Early Learning; AAUW of Hawaii, AF3IRM Hawaii, Aloha United Way, Inc.; American Academy of Pediatrics, Hawaii Chapter; Early Childhood Action Strategy; Hawaii Association for the Education of Young Children; Hawaii Children's Action Network Speaks!; Hawaii State Commission on the Status of Women; Neighborhood Place of Kona; Save Medicaid Hawaii; Special Education Advisory Council; and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that this measure will help to improve the recruitment and retention of child care workers in the State and facilitate access to high-quality child care by working families.

Your Committee has amended this measure by:

- (1) Renaming the early child care worker subsidy pilot program the child care worker subsidy pilot program;
- (2) Clarifying that the scope of the pilot program is to serve child care workers;
- (3) Requiring the Department of Human Services to submit interim and final reports on the pilot program;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committee notes that, in its written comments, the Department of Human Services requested that the measure be amended to remove references to "early" when referencing child care and child care workers. Although your Committee accepted the Department of Human Services' amendments, it acknowledges that this change of focus from "early child care" and "early child care workers" to the more general categories of "child care" and "child care worker" could cause the amended contents of the measure to exceed the scope of the measure's title. Therefore, as the measure moves through the legislative process, your Committee requests that the Department of Human Services consult with the Attorney General to address this potential conflict.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2701, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2701, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2799 Ways and Means on S.B. No. 2808

The purpose and intent of this measure is to appropriate moneys for the State Small Business Credit Initiative program to provide financial support to Hawaii's small businesses.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Hawaii Food Industry Association; Chamber of Commerce Hawaii; and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the moneys appropriated by this measure will help expand access to capital, in the form of loans and investments, for small businesses statewide.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2808, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2800 Ways and Means on S.B. No. 2907

The purpose and intent of this measure is to require the Hawaii Invasive Species Council to amend its administrative rules to classify coffee leaf rust as an invasive species.

The measure further requires the Council to expend any moneys available for that purpose on mitigation efforts, research, and prevention or control actions for coffee leaf rust.

Your Committee received written comments in support of this measure from a member of the Hawaii County Council, Hawaii Coffee Association, Hawaii Farm Bureau, and two individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and Department of Agriculture.

Your Committee finds that efforts to control coffee leaf rust are critical to sustaining the State's coffee industry. The long-term impact of a coffee leaf rust outbreak could cause a thirty to eighty per cent loss of Hawaii's annual coffee yield if not properly treated. This measure's requirement that the Hawaii Invasive Species Council classify coffee leaf rust as an invasive species will help focus additional coordination and resources on mitigation and prevention efforts.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2907, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2907, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2801 Ways and Means on S.B. No. 3041

The purpose and intent of this measure is to make appropriations and approve payments for claims against the State, its officers, and its employees.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Department of Education, and Earthjustice.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Land and Natural Resources, and one individual.

Your Committee notes that the following updated settlement amounts have been provided through written comments on the measure:

- (1) In Part III of the measure, the \$145,000.00 settlement in the case of Kaupiko et al. v. Department of Land and Natural Resources, State of Hawaii, should include an additional \$736.28; and
- (2) Since the introduction of the measure, a settlement in the amount of \$550,000.00 was reached in the case of HELG Administrative Services, LLC, as Special Administrator of the Estate of Daisy L. Kasitati, deceased, et al. v. Department of Public Safety.

Your Committee finds that this measure serves as the vehicle by which payments of claims against the State are authorized and funded by an appropriation of general and special funds, and that timely passage of this measure will minimize the State's obligation to pay interest that accrues on claim amounts.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3041, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3041, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2802 Ways and Means on S.B. No. 3129

The purpose and intent of this measure is to address the depletion of moneys in the unemployment compensation trust fund.

Specifically, this measure deposits an unspecified amount of moneys into the unemployment compensation trust fund.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Hawaii Food Industry Association, and Kohala Coast Resort Association.

Your Committee received written comments in opposition to this measure from UNITE HERE Local 5.

Your Committee received written comments on this measure from the Department of Budget and Finance and Parents and Children Together.

Your Committee finds that the coronavirus disease 2019 pandemic created an unprecedented period of unemployment in the State, which resulted in the depletion of moneys in the unemployment compensation trust fund. Your Committee further finds that depositing moneys into the unemployment compensation trust fund may help to reduce unemployment insurance tax rates for employers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3129, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3129, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2803 Commerce and Consumer Protection on S.B. No. 2439

The purpose and intent of this measure is to require health insurance policies and contracts issued after December 31, 2022, to provide coverage for purchases of medically necessary hearing aid models, including analog, digital, and digitally programmable, with standard features, per hearing impaired ear, every thirty-six months.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, AARP Hawai'i and nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Medical Service Association and Hawai'i Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Kaiser Permanente Hawai'i, and one individual.

Your Committee finds that many health insurance companies have inconsistent coverage for hearing aids and that federal Medicare coverage is very limited, causing enrollees to often face large out-of-pocket costs. As a result, it is not unusual for people with hearing loss to choose to delay or forgo purchasing hearing aids because they are cost prohibitive. This can further result in residents not being able to attend work or school, resulting in lost income, and less participation and engagement in their communities. Your Committee additionally finds that the Auditor has already conducted an assessment of the impact of mandates for hearing aid insurance coverage and that amendments to this measure are necessary to specify minimum dollar amounts to conform to the Auditor's report.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the hearing aid coverage required by this measure shall be subject to a minimum benefit of \$1,500 per hearing-impaired ear every thirty-six months;
- (2) Clarifying that any literature or correspondence an insurer sends to insureds, including annual information that is made available to insureds, shall include information concerning the coverage required by this measure, provided that the information concerning the coverage shall also be posted on the insurer's website;
- (3) Inserting an effective date of January 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2439, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2439, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2804 Commerce and Consumer Protection on S.B. No. 2645

The purpose and intent of this measure is to allow for standard telephone contacts for telehealth purposes related to behavioral health services.

Your Committee received testimony in support of this measure from the Hawai'i State Council on Mental Health; University of Hawai'i System; Disability and Communication Access Board; Hawai'i Substance Abuse Coalition; Hawai'i Psychiatric Medical Association; Hawai'i Primary Care Association; Hawai'i Public Health Association; AARP Hawai'i; Center for Healing & Transformation; Clinical Psychology Services, LLC; Hawai'i Medical Association; Hawai'i Family Caregiver Coalition; Hawai'i Psychological Association; The Hawaiian Islands Association for Marriage and Family Therapy; National Association of Social Workers - Hawai'i Chapter; and three individuals. Your Committee received testimony in opposition to this measure from Hawai'i Medical Service Association and Hawai'i Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Healthcare Association of Hawai'i, The Queen's Health Systems, Kaiser Permanente Hawai'i, and Hawai'i Pacific Health.

Your Committee finds that many high-risk patients reside in medically underserved areas or in federally designated health professional shortage areas. It is also not uncommon for patients in these areas to lack access to, or proficiency with, sufficient technology for video telehealth. The use of audio-only telehealth services during the pandemic proved extremely helpful for many patients who could not receive services due to restrictions. Patients with certain behavioral health issues are especially vulnerable and require immediate attention and care. Accordingly, this measure recognizes the value of telephonic health care services and reduces unnecessary barriers to promote greater access to care.

Your Committee additionally finds that, under the 2022 Physician Fee Schedule, telephone services are an integral part of Medicaid and Medicare, which allow audio-only telecommunications for the diagnosis, evaluation, or treatment of a mental health disorder to a

patient in their home if the patient is not capable of, or does not consent to, the use of video technology. Accordingly, the provisions of this measure do not constitute a new insurance mandate that would trigger an impact assessment report by the Auditor, but simply allows for an additional modality in existing telehealth coverage requirements.

Your Committee has amended this measure by:

- (1) Amending section 1 to clarify that this measure is consistent with existing benefits offered under Medicare and Medicaid and that an impact assessment report under section 23-51, Hawaii Revised Statutes, is not required; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2645, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2645, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2805 Commerce and Consumer Protection on S.B. No. 2443

The purpose and intent of this measure is to:

- (1) Address and define pharmacy benefit manager practices;
- (2) Create enforcement authority by the Insurance Commissioner to suspend and revoke a pharmacy benefit manager's registration and impose fines; and
- (3) Repeal section 328-106, Hawaii Revised Statutes, which requires the Department of Health to enforce the terms of private contacts pertaining to pharmacy benefit managers.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Primacy Care Association, Hawai'i Medical Association, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, CVS Health, and American Cancer Society Cancer Action Network.

Your Committee finds that pharmacy benefit manager practices, including the practice of limiting a pharmacy or pharmacist from disclosing certain information and requiring consumers to pay more than the cash price for prescriptions, have considerable impacts on the pricing of prescription drugs. Many residents in the State struggle to afford the medications they need and, accordingly, should have access to any information that would increase price transparency. Additionally, and particularly for cancer patients, certain drugs do not yet have a modestly-priced generic equivalent or other alternative to drug treatment. This measure prohibits certain pharmacy benefit manager practices to increase price transparency and require that any amounts paid by a covered person be attributable toward any deductible or out-of-pocket maximums under the covered person's health benefit plan. This measure is therefore necessary to establish a framework to prevent over-reaching pharmacy benefit managers from creating barriers to life-saving treatments and access to new drugs, especially for cancer care.

Your Committee has amended this measure by:

- (1) Clarifying the ability of the Insurance Commissioner, law enforcement, or state and federal government officials to access certain information;
- (2) Prohibiting a pharmacy benefit manager from reimbursing a 340B pharmacy differently than any other network pharmacy based on its status as a 340B pharmacy;
- (3) Extending certain penalties under chapter 480, Hawaii Revised Statutes;
- (4) Clarifying the Insurance Commissioner's ability to suspend or revoke the registration of a pharmacy benefit manager, including requiring the Insurance Commissioner to conduct a hearing in accordance with Chapter 91, Hawaii Revised Statutes;
- (5) Increasing the fine for failing to register as a pharmacy benefit manager from \$500 to \$1,000 for each violation;
- (6) Inserting language prohibiting a contract for managed care to contain a provision that authorizes pharmacy benefit managers to reimburse a contracting pharmacy on a maximum allowable cost basis after December 31, 2022;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2443, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2443, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2806 Commerce and Consumer Protection on S.B. No. 2275

The purpose and intent of this measure is to:

- (1) Establish requirements and permitting procedures for transportation network companies and transportation network drivers; and

- (2) Create permanent motor vehicle insurance requirements for transportation network companies and transportation network company drivers.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Insurers Council, and Uber Technologies. Your Committee received comments from the Hawaii Transportation Association.

Your Committee finds that Act 236, Session Laws of Hawaii 2016, served as the first step to close the insurance gaps associated with transportation network companies by establishing motor vehicle insurance requirements for transportation network companies and transportation network company drivers. Since their inception, transportation network companies have provided thousands of trips for Hawaii residents and tourists on various platforms. Despite the popularity of transportation network companies, only the City and County of Honolulu requires a form of driver screening and other operating requirements. Expanding the regulation of transportation network companies across the State will not only create uniform, permanent law, but regulation will also better protect both drivers and passengers who utilize transportation network company services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2275, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2275, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2807 Commerce and Consumer Protection on S.B. No. 2829

The purpose and intent of this measure is to:

- (1) Establish provisional or associate level licensure requirements for marriage and family therapists, mental health counselors, and psychologists, and authorize insurance reimbursement in certain circumstances; and
- (2) Allow psychologist license applicants to sit for the licensing examination before completing other requirements.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association; Hawaiian Islands Association for Marriage and Family Therapy; National Association of Social Workers, Hawai'i Chapter; Center for Healing & Transformation; and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Psychiatric Medical Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Board of Psychology.

Your Committee finds that the coronavirus disease 2019 pandemic has had immeasurable impacts on public behavioral health and has further intensified the critical shortage of mental health professionals in the State, particularly in rural areas. Over twenty other states provide associate-level licensure for mental health care providers, which not only expands patient access to providers, but also creates a viable career path for those working toward full licensure. This measure will expand access to much-needed, high-quality mental health services provided by local practitioners and will significantly increase the speed with which trained, qualified, credentialed, and culturally-competent practitioners can enter the workforce to meet the increasing needs of the State's residents.

Your Committee has amended this measure by:

- (1) Clarifying that the Board of Psychology, rather than the Director of the Department of Commerce and Consumer Affairs, is authorized to approve organized health service training programs;
- (2) Clarifying that a licensed associate psychologist may only practice psychology under the direct supervision of a licensed psychologist; provided that:
 - (A) The supervising licensed psychologist holds a current, active, and unencumbered license with the Board of Psychology; and
 - (B) The supervising licensed psychologist shall notify the Board within ten days of the termination or completion of the supervision;
- (3) Clarifying that a provisional license shall be valid for one year to fulfill the requirements for full licensure as a psychologist under section 465-7, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2829, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2808 Commerce and Consumer Protection on S.B. No. 2187

The purpose and intent of this measure is to:

- (1) Include advanced practice registered nurses with prescriptive authority in the list of health care professionals authorized to administer medication to public school students; and

- (2) Require the administration of the medication to be approved by the Department of Health or other on-campus, school-based, health care provider pursuant to a written agreement with the Department of Education.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i at Mānoa Nancy Atmospera-Walch School of Nursing, State Council on Developmental Disabilities, Hawai'i--American Nurses Association, Hawai'i Primary Care Association, Hawai'i State Center for Nursing, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that this measure enables advanced practice registered nurses with prescriptive authority to provide care to school-aged children, which helps reduce the impact of health issues that are otherwise barriers to learning. Your Committee recognizes that the assistance provided by school-based licensed health care professionals, including advanced practice registered nurses with prescriptive authority, in the administration of medicine to students helps to decrease absenteeism and facilitate better self-management of chronic health conditions; increase parents' and guardians' time at work; and increase teachers' instructional time.

Your Committee has amended this measure by:

- (1) Amending language to reflect that some schools, through a written agreement with the Department of Education, have specialized licensed health care providers at the complex-area level; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2187, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2187, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2809 Commerce and Consumer Protection on S.B. No. 2445

The purpose and intent of this measure is to expand the authorized scope of practice for physician assistants.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawai'i Medical Board, Hawai'i Public Health Association, Hawai'i Academy of Physician Assistants, Hawai'i Public Health, Kaiser Permanente Hawai'i, The Queen's Health Systems, Occupational Therapy Association of Hawai'i, and twenty-two individuals.

Your Committee finds that many residents of the State lack sufficient access to timely, high-quality health care due in part to a shortage of qualified physicians. By some estimates, the State has an unmet need for seven hundred thirty-two full time physicians, with the most severe shortages reaching almost forty percent in Maui County and Hawai'i County. Studies suggest this shortage will continue to worsen over time.

Your Committee further finds that physician assistants serve a critical role in addressing the most acute impacts of Hawai'i's physician shortage. Fortunately, the practice of physician assistants is rapidly growing in the State. However, because Hawai'i has some of the nation's most restrictive scope of practice laws for physician assistants, these providers are prevented from meeting many of their patients' needs, such as certifying the need for temporary disability insurance, disability parking permits, and provider orders for life-sustaining treatment forms.

Your Committee additionally finds that there is a disconnect between the skills and qualifications of physician assistants and the permissible scope of practice provided under existing law. Because of their rigorous medical training, physician assistants are skilled health care providers who routinely take medical histories, perform physical examinations, order and interpret laboratory tests, diagnose illnesses, develop and manage treatment plans, prescribe medications, and assist in surgery. Moreover, these professionals can work in a multitude of clinical settings, locations, and specialties, and because physician assistants can work off-site from their collaborating physician as long as the physician remains available via telecommunication, physician assistants have been helping to fill Hawai'i's rural health care gap with high quality care.

Accordingly, your Committee finds that this measure will improve patient access to health care services and provide optimal care for Hawai'i patients, especially those in rural and underserved areas, by expanding the permissible scope of practice in which physician assistants may engage.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2445, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2445, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2810 Commerce and Consumer Protection on S.B. No. 2444

The purpose and intent of this measure is to establish peer-to-peer car-sharing insurance requirements.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Insurers Council, American Property Casualty Insurance Association, and Hawaii Association for Justice. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Turo Inc.

Your Committee finds that peer-to-peer car-sharing provides a number of benefits for individuals who do not own a car due to ownership costs or for other reasons. It also allows individuals to access a new solution to long-standing mobility needs, while also allowing car owners to earn passive income through sharing their unused vehicles. Peer-to-peer car-sharing is a relatively new activity that has grown exponentially in recent years, but lacks an appropriate insurance regulatory framework. Many consumers may be unaware that motor vehicle insurance coverage may not be in place for peer-to-peer car-sharing under their personal insurance policies. Accordingly, this measure bridges certain gaps in insurance by establishing minimum insurance requirements for peer-to-peer car sharing.

Your Committee has amended this measure by:

- (1) Clarifying the definition of “car-sharing start time” to mean when the shared car becomes subject to the control of the shared car driver at or after the time the reservation of a shared car is scheduled to begin, as documented in the records of a peer-to-peer car-sharing program;
- (2) Clarifying the definition of “car-sharing termination time” to mean the earliest of certain specified events and eliminating duplicative language;
- (3) Clarifying that the term “peer-to-peer car-sharing” means the authorized operation, use, or control of a motor vehicle by an individual other than the shared car’s owner through a peer-to-peer car-sharing program, and further clarifying the term does not mean the business of a “lessor” as defined in section 437D-3, Hawaii Revised Statutes;
- (4) Clarifying the definition of “peer-to-peer car-sharing program” does not include a “lessor” as that term is defined in section 251-1 or section 437D-3, Hawaii Revised Statutes;
- (5) Clarifying the definition of “shared car” does not mean a rental motor vehicle as that term is used in sections 251-2 and 251-3, Hawaii Revised Statutes;
- (6) Specifying the primary insurance coverage requirement for each shared car available and used through a peer-to-peer car-sharing program to be in an amount not less than \$1,000,000 for death, bodily injury, and property damage per accident, in addition to other certain requirements of section 431:10C-103.5, Hawaii Revised Statutes, and further requiring insurers to offer certain optional coverages, which any shared car driver may elect or reject to purchase; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2444, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2811 Commerce and Consumer Protection on S.B. No. 2709

The purpose and intent of this measure is to clarify that a licensed specialty contractor may perform incidental and supplemental work in crafts or trades other than in which the specialty contractor is licensed; provided that, when measured by the cost and extent of work involved in executing the specialty contractor’s work, the performance of the unlicensed work is substantially less than and only incidental and supplemental to the performance of the work in the craft for which the specialty contractor is licensed.

Your Committee received testimony in support of this measure from the Iron Workers Stabilization Fund. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Contractors License Board, and Subcontractors Association of Hawaii.

Your Committee finds that it is in the interest of public health and safety to prohibit specialty contractors from performing work for which they are not licensed. Your Committee notes that general contractors are already prohibited from using the “incidental and supplemental” exception to take on work in a specialty for which they are not licensed, and this measure will extend the same restriction to specialty contractors. Your Committee further notes the concerns raised in testimony that some of the standards used in the measure, as presently drafted, may be considered vague. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by clarifying that specialty contractors may take and execute a contract involving the use of two or more crafts or trades when there are more than two specialty contractors involved; provided that the performance of the work in the crafts or trades, other than in which the specialty contractor is licensed, is incidental and supplemental and does not exceed five percent of the specialty contractor’s total work performed in the craft for which the specialty contractor is licensed.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2709, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2709, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2812 Commerce and Consumer Protection on S.B. No. 2467

The purpose and intent of this measure is to require that one annual mental health screening be included in health insurance coverage for diagnosis of mental disorders.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Hawai'i Public Health Institute, and five individuals. Your Committee received comments on this measure from the Department of Consumer and Commerce Affairs and Hawaii Medical Service Association.

Your Committee finds that mental health care is a critical tool in addressing chronic disease. Though mental health has conventionally been approached as separate and secondary to physical health, research has shown that mental illness is integral to overall health and has been linked to chronic diseases such as diabetes, cardiovascular disease, and cancer. Overall health conditions could be mitigated by early detection of mental illness, as the majority of lifetime mental health conditions begin before the age of twenty-five.

Your Committee also notes that while this measure is not a new mandate, it provides clarification of current practice and continuum of care. Assessment of mental health is a critical tool in addressing chronic diseases, especially in a post-pandemic world. For individuals with disabilities, mental health screenings can ensure better care by identifying situations of dual diagnoses in which an individual with a disability also suffers from a mental health disorder.

Your Committee has amended this measure by inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2467, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2467, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2813 Commerce and Consumer Protection on S.B. No. 2828

The purpose and intent of this measure is to:

- (1) Include the use of traditional native Hawaiian burial practices in the treatment and disposal of human remains, including the use of water cremation or alkaline hydrolysis;
- (2) Require alkaline hydrolysis facilities to be licensed by the Department of Health; and
- (3) Require alkaline hydrolysis facility operators to be licensed and undergo alkaline hydrolysis operator training.

Your Committee received testimony in support of this measure from Fisher & Associates, LLC; Ken Ordenstein Funerals; Aloha Mortuary; and ten individuals. Your Committee received comments on this measure from the Department of Health; Department of Commerce and Consumer Affairs; and Hawaii Funeral & Cemetery Association, Inc.

Your Committee finds that, traditionally, native Hawaiian burial practices were undertaken by the steaming of the deceased's body in an imu until the flesh could be easily removed from the bones, which were then wrapped and returned to the family of the deceased. For over a century, native Hawaiians have had no culturally appropriate way to bury their loved ones other than a full body burial in a casket in a plot of earth or by flame cremation with ashes and bone fragments. Water cremation is a water-based dissolution process for human remains that uses alkaline chemicals, heat, agitation, and pressure to gently accelerate natural decomposition. The liquid is considered a sterile wastewater, with no remaining DNA and is discharged with the permission of the local wastewater treatment authority, in accordance with federal, state, and local laws. There are also significant environmental benefits in comparison to traditional flame cremation. This measure, therefore, provides native Hawaiians and consumers in Hawaii with an option for burial that is culturally appropriate, clean, and environmentally responsible.

Your Committee has amended this measure by:

- (1) Requiring hydrolysis facilities to be subject to certification, rather than licensure, by the Department of Health;
- (2) Clarifying that the sterile wastewater shall be discharged into the sewer system as approved by the appropriate county;
- (3) Requiring operators of a hydrolysis facilities to undergo training and comply with Title 11, Chapter 22, Hawaii Administrative Rules, as adopted by the Department of Health regarding mortuaries, cemeteries, embalmers, undertakers, and mortuary authorities; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2828, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2814 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2076

The purpose and intent of this measure is to:

- (1) Define broadband equity;

- (2) Clarify the Hawaii Broadband and Digital Equity Office's duties to promote and support digital equity and broadband deployment; and
- (3) Appropriate funds to the Hawaii Broadband and Digital Equity Office for five FTE positions.

Your Committees received testimony in support of this measure from the Department of Health; Department of Business, Economic Development, and Tourism; State Council on Developmental Disabilities; State Council on Mental Health; Common Cause Hawaii; League of Women Voters of Hawaii; members of the Broadband Hui; Hawai'i Primary Care Association; Maui Chamber of Commerce; and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that there is an emerging digital divide between those with access to the Internet and those without. Even where sufficient broadband infrastructure is available, many individuals with disabilities face obstacles to digital access. It is important for the State to ensure equal access to those individuals. This measure supports the Hawaii Broadband and Digital Equity Office's efforts by defining broadband equity and appropriating funds for additional full-time positions.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount for an unspecified number of full-time positions;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2076, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2076, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2815 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2720

The purpose and intent of this measure is to:

- (1) Allow for new electric vehicle charging stations and certain upgrades having a single port to qualify for a rebate;
- (2) Increase flexibility of the Public Utilities Commission to administer the electric vehicle charging station rebate program; and
- (3) Allow for marketing and outreach expenses to be included within allowable administration costs of the electric vehicle charging station rebate program.

Your Committees received testimony in support of this measure from Hawaii State Energy Office; Public Utilities Commission; Department of Design and Construction of the City and County of Honolulu; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Ulupono Initiative; Big Island Electric Vehicle Association; Hawaiian Electric Company; Hawaii Electric Vehicle Association; Alliance for Automotive Innovation; Kaua'i Island Utility Cooperative; Blue Planet Foundation; 350Hawaii.org; and five individuals. Your Committees received comments on this measure from Hawai'i Energy and Practical Policy Institute of Hawaii.

Your Committees find that the decarbonization of the ground transportation sector is essential to achieving a net-negative carbon economy as soon as practicable, but no later than Hawaii's 2045 energy goals. One foundational strategy to decarbonize the transportation sector is the adoption of zero-emission vehicles, such as electric vehicles; however, one significant barrier to the adoption of zero-emission vehicles is fueling stations. Currently, the Electric Vehicle Charging Station Rebate Program serves as a critical catalyst for infrastructure development within the State to provide eighty-nine stations across the State, which account for one-quarter of the State's total public charging stations. However, continued support and promotion of zero-emission transportation and infrastructure is critical to the growth of the EVCS Rebate Program and a net-zero carbon economy. As the lack of enough fueling stations remains as the most significant barrier to the adoption of zero-emission vehicles, providing an updated program for electric vehicle charging station rebates allows the State to achieve its net-negative carbon economy in compliance with 2045 energy goals.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2720, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2720, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2816 Commerce and Consumer Protection on S.B. No. 2745

The purpose and intent of this measure is to require the Director of Transportation to adopt rules that require tour aircraft operators to verify that they have aircraft liability insurance coverage for an unspecified amount per person per incident.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from Blue Hawaiian.

Your Committee finds that tour aircraft crashes resulting in both non-fatal and fatal injuries have increased in recent years. These crashes, especially in dense residential areas, are a serious problem that will only increase with the growing aircraft tours industry. Therefore, the tour aircraft permit process should require that each tour aircraft operator has adequate insurance to cover any loss of life and damage to property in the event of an accident.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2745, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2817 Ways and Means on S.B. No. 3283

The purpose and intent of this measure is to increase the efficiency of tax administration and protect state revenues.

More specifically, this measure reorganizes certain functions and offices of the Department of Taxation to address aging accounts receivable and quality control.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Human Resources Development, and Tax Foundation of Hawaii.

Your Committee finds that having an efficient and effective tax department is essential to keeping up with the fast-paced changes in our economy and the tax administration landscape.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3283, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3283, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2818 Ways and Means on S.B. No. 2020

The purpose and intent of this measure is to clarify that sales to a licensed retail merchant, jobber, or other licensed seller for resale, and certain sales of tangible personal property, are only eligible for the wholesale tax rate if the resale will be subject to the highest general excise tax rate.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Hawaii Pacific Health, Queens Health System, and Walgreens.

Your Committee received comments on this measure from the Hawaii Health Systems Corporation, Tax Foundation of Hawaii, and Healthcare Association of Hawaii.

Your Committee recognizes that the wholesale rate for the general excise tax was adopted to relieve taxpayers from the pyramid effect of the tax. Your Committee notes the application of the wholesale rate contemplated that a subsequent sale taxed at the highest rate of tax would occur. Accordingly, your Committee believes that this measure will restore the intent behind the implementation of the wholesale rate and help ensure the orderly administration of taxes.

Your Committee has amended this measure by making the measure effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2020, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2020, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2819 Ways and Means on S.B. No. 2654

The purpose and intent of this measure is to establish an income tax credit for water rationing systems.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Honolulu Board of Water Supply.

Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that, with the challenges facing the State over the supply of clean water, the State must pursue all means to protect the environment and water resources. Accordingly, your Committee believes innovative solutions are needed to incentivize behaviors that conserve and protect water resources.

Your Committee has amended this measure by:

- (1) Inserting definitions of “alternate water sources for nonpotable applications”, “nonpotable rainwater catchment system”, and “potable rainwater catchment system” into the new statutory section established by the measure;
- (2) Deleting language that makes the tax credit refundable for certain taxpayers;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2654, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2820 Ways and Means on S.B. No. 3074

The purpose and intent of this measure is to appropriate moneys into the emergency and budget reserve fund.

Your Committee received testimony in support of this measure from Common Cause Hawaii and four individuals.

Your Committee received comments on this measure from the Campaign Spending Commission, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that recapitalizing the emergency and budget reserve fund is necessary to help enable the State to withstand unforeseen economic downturns and natural disasters in the future.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,000,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3074, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3074, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2821 Ways and Means on S.B. No. 3099

The purpose and intent of this measure is to extend the availability of the state earned income tax credit.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, the Department of Human Services, the Department of Taxation, Americans for Democratic Action, Catholic Charities Hawaii, Chamber of Commerce Hawaii, Hawaii Children’s Action Network Speaks!, Hawaii Health and Harm Reduction Center, Planned Parenthood Alliance Advocates, Pono Hawaii Initiative, and three individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Hawaii Appleseed Center for Law and Economic Justice, Parents And Children Together, and Tax Foundation of Hawaii.

Your Committee finds that the state earned income tax credit, codified as section 235-55.75, Hawaii Revised Statutes, provides an incentive for taxpayers to work, while also reducing the tax burden on low- and moderate-income families. Your Committee also finds that, under present law, the state earned income tax credit shall not apply to taxable years beginning after December 31, 2022. Your Committee further finds that this measure would extend the availability of the state earned income tax credit by an additional six years.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3099, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2822 Ways and Means on S.B. No. 3205

The purpose and intent of this measure is to temporarily re-establish and appropriate moneys for the Hawaii Office of Naval Research grant program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Hawaii State Energy Office; Oceanit Laboratories, Inc.; Makai Ocean Engineering, Inc.; and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the grant program re-established by this measure will help further the State's commitment to promote renewable energy, support local businesses, and keep high-paying and high-skill jobs in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated into and out of the alternative energy research and development revolving fund to unspecified sums;
- (2) Clarifying that the moneys appropriated by the measure shall not lapse at the end of the 2022-2023 fiscal year;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3205, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2823 Ways and Means on S.B. No. 2303

The purpose and intent of this measure is to amend the state general excise tax filing requirements for certain taxpayers.

More specifically, this measure authorizes the Director of Taxation to exempt from monthly, quarterly, or semiannual general excise tax filing requirements a taxpayer whose annual general excise tax liability does not exceed \$100; provided that the taxpayer files an annual return.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, under current state law, periodic returns are required semiannually for taxpayers reporting less than \$2,000 in annual general excise tax liability; quarterly for taxpayers reporting more than \$2,000 and less than \$4,000; and monthly for taxpayers reporting more than \$4,000. Your Committee believes that this measure may ease the burden both for taxpayers, who must file periodic returns, and the Department of Taxation, which must process the returns.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2303 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2824 Judiciary on S.B. No. 3219

The purpose and intent of this measure is to amend the Sunshine Law to exempt minors from being required to state their presence in public meetings.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority. Your Committee received comments on this measure from the Office of Information Practices and one individual.

Your Committee finds that the Sunshine Law's newly effective remote meetings provision requires a board member participating from a nonpublic location to state who, if anyone, is present at the same location. This provides the public with information as to who the board member is with. However, there are times when a board member may have their minor children with them during a remote board meeting. Your Committee further finds that children's privacy rights prevail over the public's right to know. This measure will protect the privacy and identity of minors that are with a board member during a meeting.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3219 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2825 Judiciary on S.B. No. 2872

The purpose and intent of this measure is to require that the sexual orientation and gender identity of persons processed for crimes be included in the systems of identification.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i Health & Harm Reduction Center, AF3IRM Hawai'i, Rainbow Family 808, and seven individuals. Your Committee received comments on this measure from the Department of the Attorney General and Judiciary.

Your Committee finds that sexual and gender minorities are disproportionately represented in the criminal legal system, including higher rates of arrest, incarceration, and community supervision. Transgender people and other sexual and gender minorities have historically been the target of enforcement actions. Your Committee further finds that currently, the Honolulu Police Department and Maui Police Department only offer male and female categories for gender. Therefore, it is difficult to measure the problem of violence

against sexual and gender minorities. This measure will help to standardize data collection on gender across the State and acknowledge transgender and non-binary categories in data reporting.

Your Committee has amended this measure by:

- (1) Adopting the recommendations proposed by the Hawai'i State Commission on the Status of Women as follows:
 - (A) Deleting language that included sexual orientation as information to be included in the systems of identification; and
 - (B) Specifying that the data center shall collect the following gender identity designations and terminologies: male, female, transgender women/female, transgender man/male, and non-binary;
- (2) Specifying that gender identity information collected shall remain confidential and shall be used strictly for statistical research and data analysis;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2872, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2872, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2826 Judiciary on S.B. No. 2856

The purpose and intent of this measure is to require the court to extend the duration of a restraining order or protective order issued against a pretrial detainee if the detainee is granted a motion for pretrial release.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Judiciary and Office of the Public Defender. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that many inmates are being released or diverted away from Hawai'i prisons and jails to reduce overcrowding and prevent the spread of coronavirus disease 2019. Many of these defendants are being released into the communities where they were arrested and may pose a danger to the complaining witness in the case against the defendant. Prosecutors routinely request "no contact" orders to protect their complainants and witnesses and courts routinely grant these requests for "no contact" orders, as a condition of bail or release, that the defendant have no contact, either verbal or in person, with the complainant or any other witness in the case. Additionally, the court can also place conditions on where the defendant resides and where a defendant is able to travel. However, these "no contact" orders are not mandatory and are ordered at the discretion of the court pursuant to section 804-7.1, Hawaii Revised Statutes. This measure will protect the safety and well-being of complaining witnesses by requiring the court to issue a "no contact" order against a pretrial detainee if the pretrial detainee is granted a motion for pretrial release for the pendency of the case; provided that the crime the pretrial detainee is charged with pertains to the complaining witness, the complaining witness has a protective order against the pretrial detainee, and the court is aware of the protective order.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the court to extend the duration of a restraining order or protective order issued against a pretrial detainee if the detainee is granted a motion for pretrial release;
- (2) Adding language that requires the court to issue a no contact order against a pretrial detainee if the pretrial detainee is granted a motion for pretrial release; provided that the charged crime pertains to the complaining witness, the complaining witness has a protective order against the pretrial detainee, and the court is aware of the protective order; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2856, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2856, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2827 Judiciary on S.B. No. 166

The purpose and intent of this measure is to:

- (1) Prohibit foreign nationals and foreign corporations from making independent expenditures;
- (2) Require every corporation that contributes or expends funds in a state election to file a statement of certification regarding its limited foreign influence; and
- (3) Require noncandidate committees making only independent expenditures to obtain a statement of certification from each top contributor required to be listed in an advertisement.

Your Committee received testimony in support of this measure from Common Cause Hawaii, Americans for Democratic Action Hawai'i, Campaign Legal Center, Center for American Progress, Free Speech for People, and three individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained certain contents of this measure and also inserted provisions that:

- (1) Prohibit foreign nationals and foreign-influenced corporations from making independent expenditures, electioneering communications, or contributions to candidates or committees; and
- (2) Require recipients of corporate donations from expending funds for certain purposes unless the contributing corporation has certified that the corporation is not foreign-influenced.

Your Committee received testimony in support of the proposed S.D. 1 from the Center for American Progress and two individuals. Your Committee received comments on the proposed S.D. 1 from the Campaign Spending Commission, Common Cause Hawaii, and Free Speech for People.

Your Committee finds that that the State has a compelling interest in securing its democratic self-governance from foreign influence. Your Committee further finds that former President Barack Obama warned of foreign corporate spending in state elections and that Ellen Weintraub, commissioner of the Federal Election Commission, and Ann Ravel, former commissioner of the Federal Election Commission, specifically called on states to enact legislation to limit the influence of foreign corporate spending on American elections. This measure limits foreign-influenced corporate political spending to protect the integrity of the State's elections from foreign corporate influence.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by:

- (1) Clarifying that every corporation that contributes to or makes an expenditure of more than \$1,000 in an election cycle on behalf of a candidate, candidate committee, or noncandidate committee, including an independent expenditure or electioneering communication, shall file with the Campaign Spending Commission a statement of certification;
- (2) Clarifying that if a noncandidate committee does not receive a statement of certification from a top contributor, then the noncandidate committee shall return the contribution to the top contributor; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 166, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2828 Judiciary on S.B. No. 3164

The purpose and intent of this measure is to:

- (1) Require the maintenance of transfer records relating to certain campaign contributions and transfers;
- (2) Require certain covered persons to seek permission from contributors to use transfer contributed funds for independent campaign spending;
- (3) Require certain major contributors to disclose and maintain relevant records relating to the identities of other contributors;
- (4) Require certain covered persons to file disclosure reports with the Campaign Spending Commission;
- (5) Facilitate the identification of certain top contributors of funds for certain political advertisements; and
- (6) Prohibit structured transactions.

Your Committee received testimony in support of this measure from Common Cause Hawaii, Campaign Legal Center, League of Women Voters of Hawaii, and two individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that transparency is an important factor for a healthy and strong democracy, as it allows voters to have accurate information they need to evaluate candidates for public office and to hold those candidates accountable if they are elected. Your Committee further finds that existing law does not prevent some people and corporations from transferring their money to other entities and hiding their true identities when purchasing campaign advertisements. This measure will require the maintenance of transfer records relating to certain campaign contributions and transfers to inform voters of the identities of those who attempt to influence elections through the purchase of campaign advertisements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3164, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2829 Ways and Means on S.B. No. 2618

The purpose and intent of this measure is to establish and appropriate moneys for a Molokai-centered environmental investigative hotline pilot project, which the Department of the Attorney General, Investigations Division, shall implement and manage.

Your Committee received written comments in support of this measure from a member of the Maui County Council.

Your Committee received written comments in opposition to this measure from the Department of the Attorney General.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that many state departments do not have the capacity to investigate environmental concerns in remote rural areas. Your Committee believes that the implementation of a temporary hotline program that uses the services of trained investigators who are familiar with rural matters will help protect the State's natural environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2618, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2830 Ways and Means on S.B. No. 2626

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources Division of State Parks to purchase all-terrain vehicles for use on the island of Maui.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the aging vehicles currently used by the Maui Branch of the Division of State Parks require frequent maintenance and costly repairs. The vehicles funded by this measure are therefore necessary for the Division of State Parks to perform its duties safely and efficiently.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2626, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2831 Ways and Means on S.B. No. 2659

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources for equipment, training, and the establishment of twenty full-time positions for the Division of Conservation and Resources Enforcement.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Kuaaina Ulu Auamo, Surf Rider Foundation, Malama Pupukeya-Waimea, Nature Conservancy Hawaii, and six individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the resources provided by this measure will facilitate the creation of a dedicated unit in each county to focus on marine patrol work. Your Committee further finds that the presence of marine patrol units on the water will help protect the State's marine resources, enhance recreational boating safety, and provide greater visibility and response capabilities for the Division's law enforcement efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2832 Judiciary on S.B. No. 2126

The purpose and intent of this measure is to increase the minimum and maximum fine for violating certain provisions relating to the installation of a noisy muffler.

Your Committee received testimony in support of this measure from the Department of Transportation, Quieter & Healthier Maui, Free Access Coalition, and two individuals.

Your Committee finds that residents throughout the State have complained about increased noise pollution and disturbances from loud mufflers on motor vehicles. The noise produced by loud mufflers often disrupts residents' sleep and lowers their quality of life. While existing laws prohibit the installation of mufflers that increase the noise of the vehicle, the penalties for violations of those laws are minimal. This measure would deter violators by increasing fines for the installation of loud mufflers on motor vehicles and promote better quality of life for Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keohokalole).

SCRep. 2833 Judiciary on S.B. No. 2125

The purpose and intent of this measure is to increase the maximum allowable fine for violation of liquor control laws by a licensee from \$2,000 to \$5,000.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association

Your Committee finds that the liquor Commissions or liquor control adjudication boards of each county are established to regulate the sale of liquor through the issuance of liquor licenses and the enforcement of laws and rules. Your Committee further finds that the current maximum fine allowable for violations of liquor control laws is \$2,000. Heftier fines can create a greater deterrent for license holders to avoid violation of liquor control laws and rules. This measure will increase the maximum fine, which will grant greater flexibility to the liquor commissions or liquor control adjudication boards in assessing fees.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2125 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 2834 Judiciary on S.B. No. 2423

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, to clarify who may access information stored in the electronic prescription accountability system (EPAS).

Your Committee received testimony in support of this measure from the Department of Health and Department of Public Safety.

Your Committee finds that clarifying the authority of advanced practice registered nurses, pharmacists, and Med—QUEST staff regarding EPAS access aligns with and supports the goals of the Hawaii Opioid Initiative to combat the national opioid crisis. Your Committee further finds that allowing controlled substances prescribers, dispensers, and pharmacists employed by United States Department of Veterans Affairs facilities in Hawaii to access EPAS will make state law consistent with the VA MISSION Act, which requires that every state provide these licensed health care providers and their delegates access to their EPAS, without exception. This measure will better protect the community from prescribing and treatment practices that are of concern, especially the over-prescribing of opioids.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 2835 Judiciary on S.B. No. 3377

The purpose and intent of this measure is to prohibit any person from presetting commercial beach equipment on beaches encumbered with easements in favor of the public unless the customer is present.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Tourism Authority. Your Committee received testimony in opposition to this measure from Aloha Beach Services Waikiki.

Your Committee finds that Hawai'i's beaches and coastal areas should be accessible to all members of the public who wish to use them. In some areas of the State, beach access is frequently blocked by unrented commercial beach equipment, such as beach chairs and umbrellas. This measure will prohibit the presetting of commercial beach equipment on public beaches unless the customer is present so that people may have greater access to the State's beaches.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3377, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2836 Judiciary on S.B. No. 2974

The purpose and intent of this measure is to:

- (1) Update the membership of the Advisory Committee on Pesticides to replace representatives from the sugar and pineapple industries with representatives of the coffee and diversified agriculture industries; and
- (2) Add a representative from the Hawaii Farmers Union United to the Advisory Committee on Pesticides.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i Alliance for Progressive Action, Hawaii Farmers Union United, and one individual. Your Committee received comments on this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that while the sugar and pineapple industries were previously the major economic drivers in the State's economy, both industries have experienced a significant decline in economic and agricultural footprint. In comparison to historical data, there are fewer growers of both sugar and pineapple, leaving crucial seats on the Advisory Committee on Pesticides vacant. Updating the Advisory Committee on Pesticides composition to include current and emerging agricultural sectors such as coffee and diversified agriculture would allow for a greater pool of experts who represent various small and large growers of fruits, vegetables, and other commodities across the State.

Your Committee further finds that invasive pests, which include but are not limited to disease, insects, and plants, threaten agricultural practices in the State. While pesticides serve as one tool to allow the agricultural sector to remain viable in Hawaii, pesticide use can also become a much larger social, health, and welfare issue. To address the current state of agricultural pesticide use, this measure replaces members to reflect modern agricultural practices in the State, including adding a member who possesses knowledge and expertise on the health effects of pesticide use who will be able to provide insight on pesticide chemistry, pesticides with respect to public health, and pesticide efficacy.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2837 Judiciary on S.B. No. 2395

The purpose and intent of this measure is to:

- (1) Add coercive control and litigation abuse by a parent of a child to the list of factors to be considered by the court in determining what constitutes the best interest of the child when awarding custody and visitation rights to individuals in actions for divorce, separation, annulment, separate maintenance, or any other proceeding where there is at issue a dispute as to the custody of a minor child; and
- (2) Define “coercive control” and “litigation abuse”.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii State Democratic Women’s Caucus, Hawai‘i State Coalition Against Domestic Violence, and one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that abuse between family or household members takes many forms, including coercive control which is often part of the cycle of domestic violence. Your Committee further finds that when child custody is under consideration, courts should be aware that coercive control is a tactic that has been used by persons to harm and exploit their partner and children’s wellbeing. When courts are evaluating the best and safest way to issue custody orders, acts of coercive control should be included in the analysis. This measure will add coercive control as a factor for the court to consider in custody cases to ensure that children are placed in a safe and healthy environment.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2838 Judiciary on S.B. No. 2780

The purpose and intent of this measure is to:

- (1) Update the list of federal agencies whose law enforcement officers may make arrests for certain offenses under state law by adding United States Immigration and Customs Enforcement-Homeland Security Investigations and deleting United States Citizenship and Immigration Services from the list; and
- (2) Update references to the titles of the heads of the district offices for the listed federal agencies and the names of these agencies, including United States Customs and Border Protection.

Your Committee received testimony in support of this measure from the U.S. Department of Homeland Security Immigration and Customs Enforcement-Homeland Security Investigations, Department of the Attorney General, Department of Public Safety, Hawai‘i Police Department, and Honolulu Police Department.

Your Committee finds that federal law enforcement agencies greatly contribute to the safety and security of the State. Specifically, Immigration and Customs Enforcement-Homeland Security Investigations has always been a strong partner with state and county law enforcement agencies and has provided an immeasurable amount of support to enforcement in the State. This measure will promote enhanced collaboration between federal and state law enforcement counterparts and protect national security, prevent crimes of exploitation, combat financial crimes, investigate cybercrime and other threats, and ensure public safety by granting limited arrest powers, pursuant to state law, to agents of United States Immigration and Customs Enforcement-Homeland Security Investigations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2839 Judiciary on S.B. No. 2777

The purpose and intent of this measure is to:

- (1) Require pat downs and searches of female inmates be conducted by a female correctional facility employee unless the prisoner presents a risk of immediate harm to herself or others or risk of escape;
- (2) Prohibit male correctional facility employees from entering areas where female inmates may be in a state of undress including but not limited to restrooms, shower areas, or medical treatment areas, unless an inmate in the area presents a risk of immediate harm to herself or others or if there is a medical emergency in the area;

- (3) Require any prohibited search, pat down, or entry by a male correctional facility employee be documented within three days of the incident, reviewed by the warden, and retained by the institution for recordkeeping purposes;
- (4) Require the Department of Public Safety to increase its recruitment and training of female adult corrections officers to satisfy the requirements of female gender specific posts; and
- (5) Require the Department of Public Safety to make every effort within the law to address the concerns of the advocates, the requirements of the Prison Rape Elimination Act, and staffing shortages of female gender specific posts, as well as the hiring and training of female adult corrections officers.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and two individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety and one individual.

Your Committee finds that male staff touching female inmates' bodies and viewing them undress is damaging, harmful, and traumatizing for incarcerated women. At least forty percent of incarcerated women suffer from posttraumatic stress disorder symptoms and almost ninety percent of incarcerated women have suffered from sexual violence. This measure will prevent the further traumatization of female inmates by requiring pat downs and searches of female inmates be conducted by a female correctional facility unless certain conditions are met, prohibiting male correctional facility employees from entering certain areas unless certain conditions are met, requiring any prohibited search, pat down, or entry by a male correctional facility be documented, and requiring the Department of Public Safety to increase its recruitment and training of female adult corrections officers.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2777, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2840 Judiciary on S.B. No. 2944

The purpose and intent of this measure is to prohibit the use of important agricultural lands and lands with class A or B productivity ratings for waste disposal.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farm Bureau, Hawaii Corp Improvement Association, CropLife America, Biotechnology Innovation Organization, and Hawai'i Alliance for Progressive Action.

Your Committee finds that prioritizing and preserving agricultural lands for agricultural production is essential to ensure that Hawai'i can achieve its food security and sustainability goals.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2944, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2841 Judiciary on S.B. No. 3140

The purpose and intent of this measure is to:

- (1) Require the holder of a controlled substances registration to immediately make a verbal report of the theft, embezzlement, fraud, or diversion of a controlled substance from the holder's inventory;
- (2) Require the submission of a written report to the administrator of the Narcotics Enforcement Division that provides all information related to the theft, embezzlement, fraud, or diversion of controlled substances in the holder's inventory; and
- (3) Establish a misdemeanor penalty for a person who prevents another from reporting, or who knowingly fails to report and provide information as required.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that in the past, the Department of Public Safety has encountered many instances where incidents of theft, embezzlement, fraud, and diversion of controlled substances were not reported in a timely manner. Frequently, such incidents involve licensed health care workers such as physicians and nurses who work in large health care companies in Hawai'i. The Department of Public Safety has found significant reluctance in health care to report such incidents. Your Committee further finds that the Department of Public Safety has similarly experienced reluctance to provide reports and security videos related to incidents of theft, embezzlement, fraud, and diversion of controlled substances. The Department of Public Safety has also experienced many instances where incidents have occurred and the employers or company officials of the businesses involved have directed their employees and staff members not to report or cooperate in the Department of Public Safety's investigations. This measure will help the Department of Public Safety to reduce incidents of theft, fraud, embezzlement, or diversion of controlled substances by requiring the holder of a controlled substances registration to immediately issue a verbal report and a subsequent written report of any theft, embezzlement, fraud, or diversion of controlled substances and by establishing a misdemeanor penalty for a person who prevents another from reporting, or who knowingly fails to provide information as required.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3140, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2842 Judiciary on S.B. No. 3141

The purpose and intent of this measure is to update the Uniform Controlled Substances Act, chapter 329, Hawaii Revised Statutes, to make it consistent with amendments in federal controlled substances law as required by section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that section 329-11, Hawaii Revised Statutes, provides that if a substance is added, deleted, or rescheduled by an emergency scheduling action taken by the Department of Public Safety or under federal law, then the Department of Public Safety shall recommend to the Legislature to make the corresponding changes in Hawaii law. In 2021, the Department of Public Safety temporarily designated many new controlled substances pursuant to section 329-11, Hawaii Revised Statutes, and those substances are listed in this measure. Your Committee further finds that this measure amends chapter 329, Hawaii Revised Statutes, to mirror recent changes to the federal Controlled Substances Act, thereby eliminating differences between federal and state law and avoiding nullification of the controlled substances that were temporarily designated in 2021. This measure will prevent the nullification of the Department of Public Safety's temporary designation of new controlled substances by updating chapter 329, Hawaii Revised Statutes, to incorporate amendments made to the federal Controlled Substances Act.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3141, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2843 Judiciary on S.B. No. 2587

The purpose and intent of this measure is to require the Youth Commission to appoint an Executive Director.

Your Committee received testimony in support of this measure from the Hawaii Youth Services Network. Your Committee received comments on this measure from the Department of Human Services and Office of Youth Services.

Your Committee finds that Act 106, Session Laws of Hawaii 2018, established a Youth Commission to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State. There are many commissions that appoint their own executive director. Allowing the Youth Commission to appoint an executive director will provide the Youth Commission with the autonomy to select an individual that they believe will best represent them.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2587, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2587, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2844 Judiciary on S.B. No. 2343

The purpose and intent of this measure is to allow cases within the jurisdiction of the Intermediate Court of Appeals involving a judgment, order, or decree of a family court that affect the custody of a child or minor, including involuntary termination of parental rights, to be transferred to the Supreme Court.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that appeals involving the custody of children must be decided in a timely fashion. Unfortunately, there have been delays in numerous child custody cases. This measure will expedite the disposition of appeals from family court decisions by allowing appeals to the Intermediate Court of Appeals to be transferred to the Supreme Court.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2343, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2845 Judiciary on S.B. No. 2913

The purpose and intent of this measure is to:

- (1) Require a retail establishment with an employee toilet facility to allow a customer suffering from an eligible medical condition to use that restroom during normal business hours, under certain conditions;
- (2) Exempt a retail establishment and employees from civil liability in allowing an eligible customer to use an employee toilet facility; and
- (3) Establish fines.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communication Access Board, and one individual. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Hawaii Association for Justice.

Your Committee finds that people who suffer from certain diseases such as inflammatory bowel disease and Crohn's disease often need urgent and sudden access to a toilet facility. Irritable bowel disease is an invisible disability, but many sufferers feel housebound because of the need to be near a restroom. This measure would allow those individuals more freedom and would not create any additional costs to businesses.

Your Committee notes that a retail establishment's duty of care owed to its employees is negligence. Accordingly, your Committee has amended this measure by clarifying that a retail establishment shall not be civilly liable for damages arising from any act or omission in allowing a customer that has an eligible medical condition to use an employee toilet facility that is not a public restroom; provided that the act or omission is not negligent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2913, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2846 Commerce and Consumer Protection on S.B. No. 2986

The purpose and intent of this measure is to:

- (1) Remove certain duplicative regulations imposed on hemp producers in the State;
- (2) Allow hemp producers to sell biomass directly to consumers; and
- (3) Require that hemp produced in the State be labeled as Hawaii produced and that hemp produced outside the State be labeled with the appropriate origin.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau, Kauai Hemp Company, Hawai'i Farmers Union United, UpCountry Doctor, Hawai'i Hemp Farmers Association, Hawai'i Hemp Farmers Center, Earth Matters Hemp, South Maui Gardens, Hawai'i Royal Hemp, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General; Khandro Farm; Plumeria Plantation Ag Enterprise, LLC; Omaopio Piliwale Ohana; and two individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of Health.

Your Committee finds that existing law requires hemp growers in the State to be regulated by both the Hawai'i Department of Agriculture and the United States Department of Agriculture (USDA). However, the USDA already requires extensive record keeping and crop testing and covers necessary inspections. This duplicative regulation by both the State and the USDA can create undue administrative burdens, and this measure would eliminate certain costly double regulations.

Your Committee notes the concerns raised in testimony that the possession of raw hemp flower is prohibited unless the possessor is a licensed hemp producer or processor. Existing state law therefore requires hemp producers to report any transportation of raw hemp flower to the Hawai'i Department of Agriculture. Removing this requirement could be problematic for law enforcement, as there would be no way of knowing if the shipment contains legal hemp, or illegal marijuana, without having to confiscate and test the shipment. The current system was enacted to ensure hemp producers have documentation showing that the shipments are hemp. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee has amended this measure by:

- (1) Reinstating certain existing statutory language in subsection 141-42(b), Hawaii Revised Statutes, to clarify that an individual or entity may transport hemp within the State to an authorized facility or to another licensed producer's grow area, provided that certain USDA testing requirements have been met and the transportation has been reported to the Hawai'i Department of Agriculture;
- (2) Inserting language to clarify that hemp producers licensed by the USDA to grow hemp shall follow all inspection and sampling rules and protocols established by the USDA and that no other inspections or sampling by the State shall be required and the State shall not issue penalties unless the hemp producer is growing hemp without a license issued by the USDA;
- (3) Amending the definition of "hemp processor" to mean a person processing hemp to manufacture a hemp product, except for a person licensed by the USDA to grow hemp in the State and produces less than six hundred pounds of dry hemp per year;
- (4) Inserting language to amend Act 14, Session Laws of Hawaii 2020, to extend the repeal date to July 1, 2027; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2986, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2847 Commerce and Consumer Protection on S.B. No. 3057

The purpose and intent of this measure is to:

- (1) Amend the definition of “renewable portfolio standard” to be a percentage of electrical energy generation, rather than sales; and
- (2) Require electric utility companies to track and annually report data and trends on customer retention and attrition to further inform the calculation of renewable portfolio standards.

Your Committee received testimony in support of this measure from the Hawai‘i State Energy Office; Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Public Utilities Commission; Climate Protectors Hawai‘i; Ulupono Initiative; Recycle Hawai‘i and Clean the Pacific; Kauai Climate Action Coalition; Hawai‘i Clean Power Alliance; Kauai Women’s Caucus; 350 Hawai‘i; and eight individuals. Your Committee received testimony in opposition to this measure from Hawaiian Electric Company.

Your Committee finds that existing law contains a “loophole” that could allow the State to technically achieve one hundred percent renewable portfolio standards, but still have a significant contribution from fossil-fueled generation sources, due to the definition of “renewable portfolio standard”, which is based on sales rather than generation. At the time the existing law was enacted, the formula used to calculate the renewable energy percentage did not accurately capture the amount of renewable energy on the system and allows for greater use of fossil fuels than intended. Accordingly, this measure amends the calculation to be consistent with public’s understanding and addresses the increasing concerns over continued reliance on imported fossil fuels.

Your Committee notes the concerns raised in testimony that this measure may penalize an electric utility company whose customers choose to generate their own electricity through fossil fuels, as customer-sited fossil fuel generation would count towards total generation, thus making it impossible for certain electric utility companies to achieve one hundred percent renewable portfolio standards in this circumstance or other events beyond an electric utility company’s control. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Amending the definition of “renewable portfolio standard” to exclude customer-sited, grid connected generation that does not produce renewable energy;
- (2) Clarifying events or circumstances that are beyond an electric utility company’s reasonable control to include non-renewable energy generated by electric generation facilities where the electric utility otherwise does not have direct control or ownership of independent power producers, government and non-government agencies, and any persons or entities, including merchant or co-generation facilities;
- (3) Inserting language to require electric utility companies to make every reasonable effort to ensure that independent producers connected to the grid are converting to renewable resources by July 1, 2027, including but not limited to providing not more than five-year contracts for the producers to connect to the grid; provided that, if a producer cannot or will not convert to renewable resources, the electric utility company shall not renew its contract with the producer;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3057, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3057, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2848 Commerce and Consumer Protection on S.B. No. 3107

The purpose and intent of this measure is to:

- (1) Allow a landlord, when processing an application to rent residential property, to charge an application screening fee up to a maximum of \$25 for the cost of requesting a tenant report or credit report for a potential tenant; and
- (2) Require landlords to refund any unused amount of the application screening fee and, upon request, provide a receipt of the fee and a copy of any report obtained via the screening process to the applicant.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, State Council on Developmental Disabilities, Governor’s Coordinator on Homelessness, Partners in Care, Institute for Human Services, Catholic Charities Hawai‘i, HOPE Services Hawai‘i, and one individual. Your Committee received testimony in opposition to this measure from the Hawai‘i Association of REALTORS and one individual.

Your Committee finds that existing law does not specifically regulate the nature and amount of application fees that landlords may charge prospective tenants. Additionally, it is not uncommon for landlords to charge application fees that do not correlate with the actual costs to obtain background and credit checks. For certain low-income individuals or those with multigenerational households, application costs can create a significant barrier to obtaining affordable housing, with no guarantee that they will be accepted. This measure therefore provides a balance between tenants and landlords in the application process.

Your Committee has amended this measure by:

- (1) Clarifying that a landlord may charge an application fee at the time that an application is processed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3107, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3107, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2849 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2124

The purpose and intent of this measure is to:

- (1) Enhance the control of low-frequency noise emitted from establishments regulated by county liquor commissions by setting a maximum permissible noise level in dBC measurements;
- (2) Clarify that emission of noise that exceeds the maximum permissible noise level constitutes a noise violation;
- (3) Allow noise violations to be enforced by summons or citation issued by law enforcement officers;
- (4) Allow county liquor commissions to adopt rules to issue fines for noise violations; and
- (5) Allow county liquor commissions to take certain remedial actions with respect to violations of noise laws.

Your Committees received testimony in support of this measure from the Chinatown Gateway Plaza Tenant Association and five individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that all citizens have a right to a healthful and peaceful environment. Your Committees further find that quiet is an increasingly rare commodity and is constantly under siege from a wide range of sources. One source of excessive noise pollution is business establishments that serve alcohol, such as restaurants, bars, and night clubs that are in close proximity to residential areas. Accordingly, this measure will promote the health and well-being of all members of the public by establishing a comprehensive regulatory and enforcement scheme for noise pollution emitted by establishments that are subject to regulation by a county liquor commission.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2124, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2124, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Nishihara, Riviere).
Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2850 Ways and Means on S.B. No. 91

The purpose and intent of this measure is to increase transparency of the University of Hawaii by requiring detailed reporting about the use of special fund moneys.

Specifically, this measure:

- (1) Specifies that the annual report on the various special funds of the University of Hawaii shall contain information on the expenditures from each special fund for salaries, maintenance of buildings and grounds, utilities, general office expenses, and implementation of information technology policies, along with information on any transfers into and out of each of those special funds; and
- (2) Beginning with the 2023 Regular Session, requires the University of Hawaii to submit a new annual report to the Legislature, twenty days prior to the convening of each session, on expenditures from the Hawaii Cancer Research Special Fund for salaries, maintenance of buildings and grounds, utilities, general office expenses, and implementation of information technology policies, along with information on any transfers into and out of the special fund.

Your Committee received written comments in opposition to this measure from the University of Hawaii.

Your Committee finds that the additional information required for public disclosure by this measure will help to increase the public's understanding of how certain government funds are expended and the public's confidence in governmental functions.

Your Committee has amended this measure to clarify that the Cancer Research Center's annual reporting requirement will take effect upon the approval of the measure, rather than beginning in 2023.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 91, S.D. 3.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2851 Ways and Means on S.B. No. 1346

The purpose and intent of this measure is to increase from \$30 to \$50 the amount of compensation paid to a juror or prospective juror for each day of court attendance.

Your Committee received written comments in support of this measure from the Judiciary and two individuals.

Your Committee finds that the last increase in juror compensation occurred in 1986, and that the increase provided by this measure is an acknowledgment of the sacrifices made by jurors and prospective jurors in the performance of their civic duty.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1346, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1346, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2852 Ways and Means on S.B. No. 2035

The purpose and intent of this measure is to help provide guidelines to balance tourism in the State with the management of the State's natural resources and the well-being of Hawaii's communities.

Specifically, this measure:

- (1) Adds various concepts of regenerative tourism to the State Planning Act; and
- (2) Requires the Hawaii Tourism Authority to prepare and update the Tourism Functional Plan.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority and Office of Planning and Sustainable Development.

Your Committee finds that incorporating regenerative tourism into the visitor industry objectives of the State Planning Act will help to emphasize the State's commitment to a sustainable economic recovery.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2035, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2853 Ways and Means on S.B. No. 2075

The purpose and intent of this measure is to require the Hawaii Tourism Authority to include performance-based incentives for certain contracts.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority and Maui Chamber of Commerce.

Your Committee finds that requiring the Hawaii Tourism Authority to include performance-based incentives in its marketing and branding contracts will help to ensure the efficient and effective use of the State's limited resources for marketing Hawaii as a visitor destination.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2075, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2075, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2854 Ways and Means on S.B. No. 2081

The purpose and intent of this measure is to establish the Department of Education Commercial Enterprises Revolving Fund to accept the deposit of revenues from commercial enterprises at public schools and to provide guidelines for the expenditure of those moneys.

Your Committee received written comments in support of this measure from the Department of Education and Chamber of Commerce Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that commercial enterprises at public schools provide students with real-world learning experiences and generate revenue for the schools. Your Committee further finds that this measure will help to remove barriers and restrictions associated with generating those revenues so that those moneys may be expended to improve student learning experiences.

Your Committee has amended this measure by:

- (1) Deleting the provision authorizing the Department of Education to transfer excess funds to the general benefit of the department;
- (2) Adding a provision authorizing the Department of Education to adopt rules pursuant to Chapter 91, Hawaii Revised Statutes, governing expenditure of the revenues deposited in the revolving fund;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2081, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2855 Ways and Means on S.B. No. 2169

The purpose and intent of this measure is to appropriate moneys to fund the operating expenses of the four Hawaii food banks contracted by the Office of Community Services to administer The Emergency Food Assistance Program in each of the State's counties.

Your Committee received written comments in support of this measure from the City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Hawaii Health and Harm Reduction Center; Hawaii Medical Service Association; Parents And Children Together; United Public Workers, AFSCME Local 646; Hawaii Primary Care Association; Hawaii Food Industry Association; Hawaii Hunger Action Network; Hawaii Foodbank; AlohaCare; Hawaii Farm Bureau; Ulupono Initiative; Kaiser Permanente; and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that one out of every six state residents, including one out of every four children, faces food insecurity. Your Committee recognizes that Hawaii's food banks provide food to the needy through donations and federal programs. However, as funding from these sources has declined, the State must ensure that there are sufficient funds to continue to meet the food security needs of its residents.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2169, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2169, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2856 Ways and Means on S.B. No. 2188

The purpose and intent of this measure is to strengthen the State's workforce by establishing a Workforce Readiness Program.

More specifically, the measure:

- (1) Establishes a Workforce Readiness Program within the Department of Education's Community School for Adults program and requires the Department to designate schools to participate in the Workforce Readiness Program;
- (2) Authorizes the Department of Education to coordinate with the Department of Labor and Industrial Relations and the Division of Vocational Rehabilitation of the Department of Human Services, and to contract with industry employers to develop and implement the Workforce Readiness Program; and
- (3) Appropriates moneys for the Community School for Adults primary campuses and associated satellite sites to implement the Workforce Readiness Program, and for additional staffing at the primary campuses.

Your Committee received written comments in support of this measure from the Department of Education, McKinley Community School for Adults, McKinley Community School for Adults-Moanalua Campus, McKinley Community School for Adults-Maui Campus, McKinley Community School for Adults-Kauai Campus, Waipahu Community School for Adults, Waipahu Community School for Adults-Wahiawa Campus, Hawaii State Teachers Association, Workforce Development Council, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Workforce Readiness Program established by this measure will prepare more Hawaii residents to enter the workforce by providing opportunities for students to earn workforce development diplomas, pre-apprenticeship certificates, or other certificates recognized by industry employers that assess and document readiness for a wide range of jobs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2188, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2188, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 2857 Ways and Means on S.B. No. 2478

The purpose and intent of this measure is to promote the development of renewable fuels production.

More specifically, this measure reinstates the renewable fuels production tax credit.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Alliance for Automotive Innovation, Biotechnology Innovation Organization, Hawaii Clean Power Alliance, Hawaii Gas, Simonpietri Enterprises, and six individuals.

Your Committee received written comments in opposition to this measure from the Climate Protectors Hawaii, Pet Food Institute, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii is vulnerable to soaring prices and disruptions of its energy imports, which can hinder, cripple, or even devastate the State's economy and the well-being of its inhabitants. As the most isolated land mass on Earth, Hawaii imports nearly ninety percent of its energy and almost one hundred percent of its transportation resources. Your Committee believes that it is critical for Hawaii to ensure greater energy security by becoming more self-sufficient in its energy and food supply.

Your Committee further finds that Act 202, Session Laws of Hawaii 2016, established a renewable fuels production tax credit for the purpose of achieving greater energy security for Hawaii. However, the tax credit was repealed on December 31, 2021.

Your Committee has amended this measure by:

- (1) Changing all references to the "Department of Business, Economic Development, and Tourism" and the "Director of Business, Economic Development, and Tourism" to the "Hawaii State Energy Office" and the "Chief Energy Officer of the Hawaii State Energy Office", respectively;
- (2) Extending the credit period from five years to ten years;
- (3) Authorizing a taxpayer claiming the tax credit to receive a refund for excess credit amounts if the taxpayer agrees to reduce the amount of the tax credit;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2478, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2478, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2858 Ways and Means on S.B. No. 2570

The purpose and intent of this measure is to promote the use of zero-emission vehicles.

More specifically, this measure:

- (1) Renames Hawaii's Electric Vehicle Charging System Rebate Program to the Zero-Emission Vehicle Infrastructure Rebate Program;
- (2) Makes the installation and upgrade of hydrogen refueling stations eligible for participation in the Zero-Emission Vehicle Infrastructure Rebate Program;
- (3) Establishes the rebate amount for the installation or upgrade of a hydrogen refueling station at \$200,000;
- (4) Limits the rebate to hydrogen refueling stations that do not store and dispense hydrogen fuel produced using fossil fuels; and
- (5) Increases the spending cap of the Zero-Emission Vehicle Infrastructure Rebate Program from \$500,000 to \$700,000 per fiscal year.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Alliance for Automotive Innovation, Hawaii Automobile Dealers Association, Hawaii Hydrogen Alliance, Servco Pacific, Ulupono Initiative, and one individual.

Your Committee received written comments in opposition to this measure from 350Hawaii, Aloha Charge, Big Island Electric Vehicle Association, Climate Protectors Hawaii, Hawaii Electric Vehicle Association, KauaiEV, Maui Nui EV, and eighteen individuals.

Your Committee received written comments on this measure from the Public Utilities Commission and Hawaii Energy.

Your Committee finds that limited access to fueling stations is a significant barrier to the use of zero-emission vehicles. Your Committee also finds that broadening the scope of the existing Electric Vehicle Charging System Rebate Program to explicitly incorporate hydrogen refueling stations would serve to further the State's energy policy objectives.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2570, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2570, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2859 Ways and Means on S.B. No. 2588

The purpose and intent of this measure is to provide funding to assist with the care and maintenance of public housing units in the State.

More specifically, the measure appropriates moneys to the Hawaii Public Housing Authority to remodel, renovate, repair, and rehabilitate two hundred sixty-four housing units.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the appropriation made by this measure will provide the Hawaii Public Housing Authority with much-needed funds for the repair, maintenance, and modernization of its aging public housing properties and for federally mandated accessibility improvements to these properties.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$25,445,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2588, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2588, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2860 Ways and Means on S.B. No. 2641

The purpose and intent of this measure is to appropriate moneys for residential programs, including community-based furlough programs, residential drug treatment programs, therapeutic community programs, and mental health programs, that allow minor children to remain with their mothers.

Your Committee received written comments in support of this measure from the Judiciary, Community Alliance on Prisons, Hawaii Health and Harm Reduction Center, Women's Prison Project, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Public Safety.

Your Committee finds that the majority of the State's incarcerated women have children. Your Committee also finds that because the incarceration of mothers results in separation from their children, there is a risk that the children will suffer from trauma and eventually become incarcerated themselves. Accordingly, your Committee believes that funding a program that allow minors to remain with their mothers during the mothers' program participation will help avoid these negative outcomes.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2641, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2641, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2861 Ways and Means on S.B. No. 2806

The purpose and intent of this measure is to make an appropriation from the State's general revenues to the Hawaii Technology Development Corporation for the Hawaii small business innovation research program.

Your Committee received written comments in support of this measure from the University of Hawaii; Hawaii Technology Development Corporation; Shifted Energy; Sweet Brown Hawaii; Small Kine Farm; Hyperspective Studios, Inc.; KYD, Inc.; Diamond Bakery Co., Ltd.; Purple Maia Foundation; Hawaii Food Industry Association; Referentia Systems, Inc.; Makai Ocean Engineering, Inc.; 3D Innovations; Experiad Solutions; Hawaii Fish Company Inc.; Nalu Scientific, LLC; Mana Up; VisSidus Technologies, Inc.; Chamber of Commerce Hawaii; Maui Chamber of Commerce; Hawaii Venture Capital Association; and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Oceanit Laboratories, Inc.

Your Committee recognizes that the Hawaii Technology Development Corporation supports initiatives that promote technology and manufacturing jobs. Your Committee finds that since 1989, the Hawaii Technology Development Corporation has been providing grants to qualifying companies through the small business innovation research program. Your Committee believes that the grant program provides positive economic development value for the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,500,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2806, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2862 Ways and Means on S.B. No. 2821

The purpose and intent of this measure is to require that menstrual products be provided to all students free of charge on all public school and public charter school campuses.

Your Committee received written comments in support of this measure from the Department of Education, Department of Human Services, Hawaii State Public Charter School Commission, AAUW of Hawaii, Achieve Zero, Alliance for Period Supplies, Community Alliance on Prisons, Democratic Party of Hawaii Education Caucus, Hawaii Children's Action Network Speaks!, Hawaii Diaper Bank, Hawaii Health and Harm Reduction Center, Hawaii Public Health Institute, Hawaii State Democratic Women's Caucus, Hawaii State Teachers Association, Hawaii Women Lawyers, Hawaii Women's Coalition, Hawaii Youth Services Network, Hoola Lahui Hawaii, Ilima Intermediate School Activist Club & Rainbow Royales GSA Club, Kamehameha Schools, Mai Movement Hawaii, Parents and Children Together, PHOCUSED, Planned Parenthood Alliance Advocates, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawaii, Zonta Club of Kauai, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Common Cause Hawaii.

Your Committee finds that chronic absenteeism due to inadequate menstruation management is an avoidable detriment to a student's success, including a student's ability to engage in instructional activities. Accordingly, your Committee believes that the provision of free menstrual products to public school and public charter school students will help these students stay in class and engage in instructional activities.

Your Committee has amended this measure by:

- (1) Including clarifying information regarding Mai Movement Hawaii's Hoohanohano Initiative;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2821, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2821, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2863 Ways and Means on S.B. No. 2834

The purpose and intent of this measure is to improve ground transportation in the State.

More specifically, this measure:

- (1) Renames the State Highway Safety Council the Transportation Safety and Modernization Council and amends the Council's duties and membership; and
- (2) Requires the Department of Transportation to provide to the Council information on ground transportation plans and projects and any other relevant information.

Your Committee received written comments in support of this measure from Hawaii Bicycling League, Hawaii Public Health Institute, Ulupono Initiative, and one individual.

Your Committee received written comments on this measure from the Department of Health, Department of Transportation, and Hawaii State Energy Office.

Your Committee finds that this measure will increase the input of relevant stakeholders, thus ensuring that the State's transportation infrastructure and investments better serve the modern transportation needs of all residents of the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Chief Energy Officer of the Hawaii State Energy Office shall serve as a member of the Transportation Safety and Modernization Council;
- (2) Clarifying that the Council shall advise the Governor, Legislature, and public on, among other things, plans of the State in the field of transportation safety and modernization; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2834, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2864 (Majority Ways and Means on S.B. No. 2070)

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds to assist Hawaiian Legacy Reforestation Initiative, LLC.

Your Committee received written comments in support of this measure from Damien Memorial School, DLA Strategies, Menpachi Video Productions, Hawaiian Legacy Reforestation Initiative, and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Office of Planning and Sustainable Development.

Your Committee finds that the proposed issuance of special purpose revenue bonds are intended to assist Hawaiian Legacy Reforestation Initiative, LLC, with environmentally-friendly purposes, including the generation of a sustainable model of endemic reforestation, that constitute a project as defined in part IV, chapter 39A, Hawaii Revised Statutes. Your Committee also finds that this project is in the public interest and for the public health, safety, and general welfare.

Your Committee has amended this measure by:

- (1) Changing the amount of the bond authorization from \$50,000,000 to an unspecified amount;
- (2) Correcting a reference to the business structure of Hawaiian Legacy Reforestation Initiative, LLC;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2070, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 2865 Ways and Means on S.B. No. 2357

The purpose and intent of this measure is to extend an authorization to issue special purpose revenues bonds to assist MauiGrown, Inc. with its expanded operation of a coffee farm and mill.

Your Committee received written comments in support of this measure from the Department of Agriculture; Hawaii Coffee Association; MauiGrown Coffee, Inc; Hawaii Farm Bureau; and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that Act 116, Session Laws of Hawaii 2017, initially authorized the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc., a Hawaii corporation, with the expanded operation of its coffee farm and mill in Puukolii, Maui. Your Committee notes that this authorization is scheduled to lapse on June 30, 2022. Your Committee believes that with the

threat of the coffee berry borer and coffee leaf rust plaguing the coffee industry, extending the bond issuance authorization will help MauiGrown Coffee, Inc., incorporate best management practices to protect its valuable crop.

Your Committee has amended this measure by:

- (1) Changing the effective date to June 29, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2357, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2357, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2866 Ways and Means on S.B. No. 2377

The purpose and intent of this measure is to establish a civil penalty for a failure to respond or reply within a timely manner to the Department of Taxation's correspondence or inquiry during an official inspection or examination of records.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, during a state tax examination, auditors of the Department of Taxation will typically request that a taxpayer provide information and documents. If this information is not provided in a timely manner, the auditors may need to make assessments based on the best available information, which may result in the use of arbitrary or inaccurate assumptions. Your Committee believes that this measure will provide the Department of Taxation with tools and resources to help promote taxpayer compliance and efficient tax administration.

Your Committee has amended this measure by:

- (1) Adding a savings clause; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2377, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2377, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2867 Ways and Means on S.B. No. 2390

The purpose and intent of this measure is to provide funding to the Judiciary for one additional Intermediate Court of Appeals associate judge position and for additional support staff positions.

Your Committee received written comments in support of this measure from the Judiciary, Hawaii State Bar Association, Appellate Section of the Hawaii State Bar Association, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure's provision of funding for an additional associate judge and support staff for the additional judge will allow the Intermediate Court of Appeals to resolve a greater number of appeals within a shorter time frame and significantly assist the court's efforts to reduce its backlog of appeals.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2390, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2390, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Kidani). Noes, none. Excused, none.

SCRep. 2868 Ways and Means on S.B. No. 2510

The purpose and intent of this measure is to facilitate the use of renewable energy within the State.

Specifically, the measure:

- (1) Appropriates moneys for the Office of Planning and Sustainable Development to update the state energy plan;

- (2) Establishes a state energy policy that requires at least fifty-five percent of renewable energy to be generated by firm renewable energy and for renewable energy to replace fossil fuel energy and achieve one hundred percent renewable energy generation;
- (3) Requires the State to maintain a diversified renewable energy portfolio;
- (4) Amends various statutory provisions to achieve at least fifty-five percent firm renewable energy generation for each island; and
- (5) Appropriates moneys for the Hawaii Natural Energy Institute to conduct a study to update the minimum percentage of firm renewable generation for each island and the maximum proportion of any one renewable energy source on each island.

Your Committee received written comments in support of this measure from Pacific Biodiesel Technologies, Hawaii Clean Power Alliance, and fifty-eight individuals.

Your Committee received written comments in opposition to this measure from the Hawaii State Energy Office; Climate Protectors Hawaii; Tawhiri Power, LLC; 350Hawaii; and two individuals.

Your Committee received written comments on this measure from the University of Hawaii, Department of Budget and Finance, Office of Planning and Sustainable Development, Hawaiian Electric, and two individuals.

Your Committee finds that as the State is committed to achieving its goal of using one hundred percent renewable energy by 2045, the State needs to take steps to implement climate-friendly clean energy, self-sufficiency, and sustainability. Your Committee therefore believes that it is vital for the State to pursue a diverse array of renewable energy sources.

Your Committee has amended this measure by:

- (1) Replacing the definition of the term “intermittent renewable energy”, which does not appear in the new statutory language proposed by the measure, with a definition of the term “intermittent renewable generation”;
- (2) Clarifying the deadline for the Hawaii Natural Energy Institute’s study; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2510, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2510, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2869 Ways and Means on S.B. No. 2615

The purpose and intent of this measure is to include representatives of the islands of Molokai and Lanai on the Board of Agriculture.

Your Committee received written comments in support of this measure from the Department of Agriculture, a member of the Maui County Council, and one individual.

Your Committee recognizes that each of the State’s islands has different water resources, and therefore faces different agricultural issues. Accordingly, your Committee believes that the interest of the respective agricultural communities on Molokai and Lanai would be best served by representation on the Board of Agriculture.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2615, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2870 Ways and Means on S.B. No. 2996

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources for the research, extension, and control of the little fire ant and other harmful ant species.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Daifukuji Soto Mission; Wakefield and Sons, Inc.; Stop LFA Kohala; Manowaiopae Excellent Adventure Farm; Hawaii Farm Bureau; Coordinating Group on Alien Pest Species; Mauna Kea Cacao, LLC; Hawaii Pest Control Association; and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that providing funding to control little fire ants and other invasive ant species is critical to mitigating the negative impacts of the species on the State’s agriculture, environment, and economy.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2996, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2996, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2871 Ways and Means on S.B. No. 3004

The purpose and intent of this measure is to promote the use of compost in the State, and thus reduce food waste, by establishing a permanent compost reimbursement program.

More specifically, the measure:

- (1) Establishes within the Department of Agriculture a compost reimbursement program to provide cost reimbursements to farming operations for up to fifty percent of the costs incurred for the purchase of compost;
- (2) Establishes a full-time, permanent compost reimbursement program manager position;
- (3) Requires the Department of Agriculture to submit an annual report to the Legislature; and
- (4) Appropriates moneys for establishment of the compost reimbursement program and program manager position.

Your Committee received written comments in support of this measure from the Department of Agriculture, Kauai Climate Action Coalition, Malama Kauai, Hawaii Farmers Union United, Hawaii Farm Bureau, Climate Protectors Hawaii, Hawaii Alliance for Progressive Action, Green Party Hawaii, Hawaii Food+ Policy, Pele Lani Farm LLC, and more than twenty individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that the financial assistance provided through the compost reimbursement program established by this measure will support local agriculture by helping to defray operational costs incurred by farmers and ranchers and, at the same time, encourage the environmentally friendly practice of composting.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3004, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3004, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2872 Ways and Means on S.B. No. 3121

The purpose and intent of this measure is to establish within the disability and communication access board special fund an accessible parking special account.

More specifically, this measure:

- (1) Establishes within the disability and communication access board special fund the accessible parking special account;
- (2) Requires that all costs associated with the statewide parking program for persons with disabilities be paid using moneys appropriated from the accessible parking special account of the disability and communication access board special fund;
- (3) Requires the disability and communication access board to administer the special account;
- (4) Requires that \$1 from each annual motor vehicle registration fee be deposited into the special account; and
- (5) Increases from \$45 to \$46 the annual vehicle registration fee.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that an accessible parking special account within the disability and communication access board special fund is an appropriate funding mechanism for the parking program for persons with disabilities. Your Committee also finds that the special account will enable the program to be more self-sufficient.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3121, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2873 Ways and Means on S.B. No. 3194

The purpose and intent of this measure is to facilitate the enforcement of fireworks laws.

Specifically, the measure:

- (1) Establishes and appropriates moneys for an adjudication system for processing fireworks infractions citations;
- (2) Increases fines and other penalties for certain fireworks violations;
- (3) Clarifies the elements that constitute a separate fireworks violation;
- (4) Authorizes the Sheriff Division of the Department of Public Safety to enforce the fireworks control law;
- (5) Requires the Attorney General to establish an explosion detection technology working group; and
- (6) Requires and appropriates moneys for the Department of Public Safety to develop and implement a web-based reporting tool for illegal fireworks.

Your Committee received written comments in support of this measure from the Hawaii State Fire Council, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Fire Department, Maui Fire and Public Safety Department, Hawaiian Humane Society, and three individuals.

Your Committee received written comments in opposition to this measure from the Honolulu Police Department and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Judiciary.

Your Committee finds that the illegal fireworks task force, established pursuant to Act 170, Session Laws of Hawaii 2010, recommended that the Legislature consider increasing fireworks permit fees and violation fines to deter the use of illegal fireworks, decrease the supply of illegal fireworks in the State, and increase funding for prevention and enforcement efforts. Your Committee also finds that the State should pursue the use of certain technologies that have shown the potential to assist police departments in enforcing fireworks laws. Your Committee further finds that an alternative enforcement mechanism for fireworks infractions, similar to the system for processing traffic infractions, may expedite adjudication of fireworks offenses.

Your Committee has amended this measure by:

- (1) Correcting a statutory reference;
- (2) Authorizing designees of the Attorney General, the Chief of Police of Honolulu, and the Prosecuting Attorney of Honolulu to serve on the explosion detection technology working group, in lieu of their respective designators; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3194, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3194, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2874 Ways and Means on S.B. No. 3294

The purpose and intent of this measure is to provide transitional support for female offenders leaving prison.

More specifically, the measure appropriates moneys to the Department of Public Safety to fund participation in reentry planning circles for at least fifty incarcerated women.

Your Committee received written comments in support of this measure from the Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Women's Prison Project, Hawaii Health and Harm Reduction Center, and one individual.

Your Committee received written comments on this measure from the Department of Public Safety and Department of Budget and Finance.

Your Committee finds that offenders who participate in reentry planning circles before leaving prison have significantly lower rates of re-offending, and that the funding provided by this measure will allow a greater number of female inmates, their families, and prison staff to discuss and develop written transition plans for obtaining housing, employment, and other necessities after the inmates' release from incarceration.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3294, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2875 Ways and Means on S.B. No. 3357

The purpose and intent of this measure is to support the efforts of nonprofit organizations that serve Native Hawaiians.

Specifically, this measure appropriates funds to certain state departments to provide grants to nonprofit organizations that address issues facing the Native Hawaiian community.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority, Friends of Iolani Palace, Oahu Economic Development Board, Council for Native Hawaiian Advancement, and five individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; and Department of Land and Natural Resources.

Your Committee finds that the grants provided under this measure address a broad range of issues faced by the Native Hawaiian community, including food sustainability, economic development, mitigation of tourism impacts, cultural training, repatriation and reburial of Native Hawaiians, and historic preservation.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3357, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3357, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2876 Ways and Means on S.B. No. 3379

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture for a ports-of-entry biosecurity program.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Health, Department of Land and Natural Resources, Pacific Cooperative Studies Unit of the University of Hawaii's Coordinating Group on Alien Pest Species, Hawaii Farm Bureau, The Outdoor Circle, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that appropriating moneys for the continued operation of the ports-of-entry biosecurity program will help to prevent the introduction of invasive species into the State and protect the State's economy, natural resources, and public health.

Your Committee has amended this measure by:

- (1) Clarifying that the moneys are being appropriated out of the general revenues of the State that are appropriated for native resources and fire protection programs (LNR 402);
- (2) Changing the appropriation and allocation amounts to unspecified sums;
- (3) Changing the expending agency from the Department of Agriculture to the Department of Land and Natural Resources;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3379, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3379, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2877 Commerce and Consumer Protection on S.B. No. 2281

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Board of Psychology;
- (2) Require all school psychologists to be licensed by July 1, 2025; and
- (3) Increase the composition of the Board of Psychology to include two school psychologists.

Your Committee received testimony in support of this measure from the Hawai'i Association of School Psychologists, Hawai'i State Teachers Association, Hui for Excellence in Education Coalition, and thirteen individuals. Your Committee received comments on this measure from the Department of Education, Board of Psychology, and the Hawai'i Psychological Association.

Your Committee finds that Hawai'i is the only state in the country without credentialing requirements for school psychologists. Statistically, students with special learning needs are at a higher risk for a number of negative outcomes. Your Committee therefore finds that licensure is important for all professionals who are entrusted to care for students and that specialized training and expertise should be required in the practice of psychology to ensure protection of the public.

Your Committee notes the concerns raised in testimony that school psychologists may benefit from having a separate regulatory board rather than being incorporated into the Board of Psychology. Amendments to this measure are therefore necessary to establish an interim framework for licensure, but to also provide an opportunity for the Department of Education to collaborate with the Board of Psychology to develop a permanent licensing scheme appropriate for school psychologists.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that, beginning January 1, 2023, no person shall engage in the practice of school psychology without having first obtained an interim license from the Board of Psychology;
- (2) Clarifying that a school psychologist shall meet the continuing education requirements by obtaining twenty-five credit hours, with not less than ten of those hours accredited by the National Association of School Psychologists annually;
- (3) Requiring the Board of Psychology and the Department of Education to collaborate to develop a permanent licensing scheme for school psychologists in the State and to submit a report to the Legislature of their findings and recommendations no later than twenty days prior to the convening of the regular session of 2023;
- (4) Inserting an effective date of July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2281, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2281, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2878 Ways and Means on S.B. No. 2621

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture to control the spread of bovine tuberculosis among livestock and feral ungulates on the island of Molokai.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Hawaii Farm Bureau, and Hawaii Farm Bureau - Molokai Chapter.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that funding for the detection, containment, and suppression of bovine tuberculosis is essential to the State's food security efforts and for the survival of the State's cattle industry.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$500,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2621, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2621, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2879 Ways and Means on S.B. No. 2663

The purpose and intent of this measure is to alter the filing fee schedule for paternity actions by establishing an initial filing fee of \$100 and eliminating fees to file motions.

Your Committee received written comments in support of this measure from the Health Committee of the Democratic Party of Hawaii and one individual.

Your Committee finds that simplifying the filing fee schedule for paternity actions will help make the courtroom process more financially predictable and therefore less stressful for litigants.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2663, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2663, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2880 Ways and Means on S.B. No. 2740

The purpose and intent of this measure is to allow the Judiciary to compensate guardians ad litem for involuntary hospitalization and assisted community treatment petitions at a rate higher than provided for in existing statutory guidelines.

Your Committee received written comments in support of this measure from the Judiciary, Institute for Human Services, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that guardians ad litem have an important role in supporting vulnerable persons during judicial proceedings. Allowing the Judiciary to compensate guardians ad litem at a higher rate will help the courts secure more representatives for persons being considered for involuntary hospitalization or assisted community treatment.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2740, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2881 (Majority) Ways and Means on S.B. No. 2752

The purpose and intent of this measure is to protect state ground water resources.

More specifically, this measure:

- (1) Establishes an income tax credit for taxpayers who are required to seal abandoned wells on their real property;
- (2) Requires sellers of real property to disclose the existence of wells on the property;
- (3) Requires an owner or prior owner of an abandoned well to repair or seal the well at their own expense; and
- (4) Appropriates funds for three full-time equivalent ground surveyor positions in the Commission on Water Resource Management.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that wells in a state of disuse or disrepair can become conduits for contaminants to be introduced into ground water. Abandoned wells can also become receptacles for the disposal of waste, potentially resulting in additional contamination and associated risk to public health and the environment. Your Committee further finds that the Commission on Water Resource Management has developed minimum standards relating to water wells, including their sealing and abandonment, in order to protect the quality and quantity of the State's ground water resources.

Your Committee has amended this measure by:

- (1) Adding a definition for the term "well";
- (2) Amending the appropriation by removing the language referring to ground surveyor positions and replacing it with language to fund the following positions in the Commission on Water Resource Management:
 - (A) Either:
 - (i) Two full-time equivalent (2.0 FTE) engineering technician positions; or
 - (ii) Two full-time equivalent (2.0 FTE) environmental health specialist positions; and
 - (B) One full-time equivalent (1.0 FTE) clerical position; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee notes the recommendation of your Committee on Water and Land that, should this measure continue to move through the Legislative process, the amount of the income tax credit be set at twenty-five percent of the qualified compliance costs incurred by the taxpayer, up to a maximum of \$20,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2752, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2752, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 2882 Ways and Means on S.B. No. 2883

The purpose and intent of this measure is to convene, and appropriate moneys for, a task force to assist non-English speaking populations to receive care at health care facilities, by improving the hiring and training of interpreters and creating educational materials on preventative care and early intervention.

Your Committee received written comments in support of this measure from the Hawaii County Council; Hawaii Coalition for Immigrant Rights; Hawaii Public Health Institute; HI Coalition for Immigrant Rights; Kau Rural Health Community Association, Inc.; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, and Office of Language Access.

Your Committee finds that this measure will help to bridge cultural and language gaps between health care providers and non-English speakers and ensure that all residents are able to access quality health care services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2883, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2883, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2883 Ways and Means on S.B. No. 2895

The purpose and intent of this measure is to assist the County of Hawaii with certain transportation improvement endeavors.

More specifically, this measure:

- (1) Requires the Department of Transportation to convene an intergovernmental task force to assist the County of Hawaii with certain transportation improvement endeavors;
- (2) Requires the Department of Transportation to provide the task force with a list of certain highway projects;
- (3) Requires the task force to submit a report to the Legislature; and
- (4) Dissolves the task force upon submittal of the report to the Legislature.

Your Committee received written comments in support of this measure from three members of the Hawaii County Council.

Your Committee received written comments in opposition to this measure from the Department of Transportation and one individual.

Your Committee finds that this measure will enable the development of solutions for a more efficient and effective transportation system in the County of Hawaii that meets the needs of the county's growing population.

Your Committee has amended this measure by:

- (1) Changing the dissolution date of the intergovernmental task force to June 30, 2023; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2895, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2895, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2884 Ways and Means on S.B. No. 2947

The purpose and intent of this measure is to promote diversified agriculture and agricultural self-sufficiency in the State.

Specifically, this measure:

- (1) Authorizes the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure or improvements on any land over which the Department has jurisdiction; and
- (2) Establishes an agricultural enterprises program within the Department of Agriculture.

Your Committee received written comments in support of this measure from the Department of Agriculture, Ulupono Initiative, Local Food Coalition, Larry Jefts Farms LLC, Hawaii Farm Bureau, Land Use Research Foundation of Hawaii, Hawaii Crop Improvement Association, Hawaii Cattlemen's Council, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that current law allows only limited ancillary agricultural enterprise activity on lands within the jurisdiction of the Department of Agriculture. Your Committee further finds that providing additional flexibility to the Department of Agriculture to allow for and encourage innovative agricultural enterprises could help the State attain its food sustainability and agricultural diversification goals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2947, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2947, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2885 Ways and Means on S.B. No. 2955

The purpose and intent of this measure is to facilitate the provision of compost to farmers and ranchers.

Specifically, the measure:

- (1) Requires the Department of Agriculture to implement a three-year compost reimbursement pilot program to provide reimbursements to farmers and ranchers who make qualifying purchases of compost;
- (2) Appropriates moneys for the pilot program, including moneys for a temporary manager; and
- (3) Requires the Department of Agriculture to submit to the Legislature a report on the pilot program.

Your Committee received written comments in support of this measure from the Department of Agriculture; a member of the Hawaii County Council; Malama Kauai; Hawaii Farmers Union United; Hawaii Farm Bureau; Climate Protectors Hawaii; Hydroponics Alternatives, LLC; Hawaii Alliance for Progressive Action; Green Party Hawaii; Food+ Policy Internship 2022; Pele Lani Farm, LLC; Growing Together Edible Landscaping; and twenty-three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that food waste accounts for twenty-five percent of all materials sent to landfills and is the second-largest component that enters a waste stream. Your Committee also finds that recycling food waste into compost has environmental benefits, including improved soil health, increased drought resistance, and reduction in the need for supplemental water, fertilizers, and pesticides. Accordingly, your Committee believes that the use of compost will help the State meet its goal of seventy percent waste stream reduction by 2025.

Your Committee has amended this measure by:

- (1) Changing the annual maximum reimbursement amount, the salary of the compost reimbursement pilot program manager, the appropriation for the pilot program, and the annual ceiling on expenditures for pilot program costs to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2955, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2886 Ways and Means on S.B. No. 2969

The purpose and intent of this measure is to provide relief to farmers and ranchers in the State.

Specifically, this measure:

- (1) Establishes an agricultural emergency special fund; and
- (2) Appropriates moneys into and out of the agricultural emergency special fund.

Your Committee received written comments in support of this measure from the Department of Agriculture, Ulupono Initiative, Food+ Policy, Hawaii Farm Bureau, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that climate change and economic difficulties impose additional hardships on struggling farm and ranch operations throughout the State. Your Committee further finds that the Department of Agriculture's emergency loan program has made thirty-one emergency loans, totaling \$2,300,000, over the last three years.

Your Committee has amended this measure by:

- (1) Clarifying that moneys from the repayment of loans funded by the agricultural emergency special fund shall be paid back into the special fund;
- (2) Changing the amount of general fund moneys being deposited into the agricultural emergency special fund from \$2,500,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making a technical nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2969, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2969, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2887 Ways and Means on S.B. No. 2988

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture for the control and mitigation of the two-lined spittlebug and to fund recovery efforts for lands damaged by the pest.

Your Committee received written comments in support of this measure from the Department of Agriculture; Ulupono Initiative; Local Food Coalition; Ponoholo Ranch Limited; Larry Jefts Farms, LLC; Parker Ranch, Inc.; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; Ulupalakua Ranch, Haleakala Ranch; Barbed S. Ranch, LLC; and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the two-lined spittlebug is devastating to Hawaii's cattle industry and threatens the State's goals of food security and food self-sufficiency. Two-lined spittlebug infestations reduce the quality of forage and pastures by killing key forage species or reducing their nutritional value, palatability, and productivity. Your Committee recognizes that the mitigation and recovery efforts funded by this measure will help the State address an invasive species that directly affects local food production.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2988, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2988, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2888 Commerce and Consumer Protection on S.B. No. 2888

The purpose and intent of this measure is to allow cottage food operations to sell cottage food products, under certain conditions, upon receiving a permit from the Department of Health.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Hawai'i Farm Bureau; Hawaiian Goodness, LLC; Every One Grows; Hawai'i Alliance for Progressive Action; Hawaii Food Industry Association; Sally Jane's Sweets and Savories; Institute for Justice; and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that there is great interest in small-scale cottage food operations in the State. These homemade food entrepreneurs are preferred by many consumers who are mindful about sourcing food responsibly, finding healthy eating options, and supporting their local community members who produce these foods. However, the State's existing regulatory framework creates numerous challenges for entrepreneurs, especially for those in rural areas who do not have access to commercial or certified kitchens. This measure allows cottage food operations to sell directly to consumers under certain conditions and upon approval by the Department of Health.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2888, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2888, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2889 Commerce and Consumer Protection on S.B. No. 2017

The purpose and intent of this measure is to repeal section 453-34(d), Hawaii Revised Statutes, which limits licensure as an emergency medical technician 1 to individuals whose practice is performed in a county with a population of 500,000 or greater.

Your Committee received testimony in support of this measure from the State Fire Council. Your Committee received comments on this measure from the Hawaii Medical Board.

Your Committee finds that there are approximately one thousand four hundred emergency medical technicians in the State certified by the National Registry of Emergency Medical Technicians (NREMTs), which is the standard for educational requirements in most states. Over the past two years of the pandemic, NREMTs across the State have clearly demonstrated their value by providing an additional level of patient care and services, particularly in neighbor island communities where pre-hospital resources are not as abundant or centralized as they are on Oahu. This measure will, accordingly, expand licensure to all NREMTs throughout the State.

Your Committee has amended this measure by:

- (1) Clarifying that an “emergency medical technician 1” is an individual who is certified at a higher practice level than an emergency medical responder; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2017, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2017, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2890 Commerce and Consumer Protection on S.B. No. 3160

The purpose and intent of this measure is to establish the therapeutic psilocybin working group to examine the medicinal and therapeutic effects of psilocybin and develop a long-term strategic plan to ensure the availability of therapeutic psilocybin or psilocybin-based products that are safe, accessible, and affordable for adults twenty-one years of age or older.

Your Committee received testimony in support of this measure from the Oahu Economic Development Board; JW’s Mushrooms, Inc.; Clarity Project; Heroic Hearts Project; and thirty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association and Hawaii Psychiatric Medical Association. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that psilocybin is a naturally-occurring chemical compound found in certain species of mushrooms that can activate serotonin receptors in the brain. There are now numerous studies that demonstrate the safety and efficacy of psilocybin as a treatment for a range of mental health conditions, including addiction, depression, anxiety disorders, and end-of-life psychological distress. Given Hawaii’s shortage of mental health professionals, it is essential for the State to fully examine all available treatment options. This measure establishes a working group to evaluate the medicinal and therapeutic effects of psilocybin and strategic plan to ensure safety of and access to psilocybin products.

Your Committee has amended this measure by:

- (1) Adding two physicians with specialties in substance abuse and psychiatry to the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3160, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3160, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2891 Commerce and Consumer Protection on S.B. No. 3343

The purpose and intent of this measure is to:

- (1) Require importers of fireworks to obtain a license from the Harbors Division of the Department of Transportation or applicable county; and
- (2) Require annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society and one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from the State Fire Council, Honolulu Fire Department, and one individual.

Your Committee finds that the use of illegal fireworks in the State remains a concern for many communities. This measure would increase enforcement efforts to reduce the flow of illegal fireworks into the State by requiring certain importers to obtain a license from the Harbors Division of the Department of Transportation, rather than the applicable county.

Your Committee notes the concerns raised in testimony that this measure may create an additional and unnecessary administrative layer that would make it more difficult for those who are currently following the laws and legally importing fireworks. Additionally, redirecting license fees from the counties to the Department of Transportation may have a negative consequence on existing fireworks control programs implemented by the county fire departments to support inspections, inventory checks of storage facilities, training for

county auditors, and other education and enforcement efforts. Amendments to this measure are therefore necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriate county fire departments shall be authorized to issue licenses under chapter 132D, Hawaii Revised Statutes, rather than the Harbors Division of the Department of Transportation;
- (2) Reverting to existing statutory language for sections 132D-7, 132D-8, and 132D-8.6, Hawaii Revised Statutes, to clarify that the counties, rather than the Harbors Division of the Department of Transportation, shall have certain duties regarding licenses to import fireworks;
- (3) Inserting language to require the counties to share certain information regarding licensed importers of fireworks with the Harbors Division of the Department of Transportation;
- (4) Inserting language requiring each county fire department to submit a report of its enforcement activities concerning fireworks, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3343, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3343, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2892 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2196

The purpose and intent of this measure is to require cooperative housing corporations, homeowners associations, planned community associations, and condominium associations to develop plans to incorporate zero-emission fueling stations, including electric vehicle charging stations, onto residential properties that are constructed after January 1, 2023.

Your Committees received testimony in support of this measure from the Hawai'i State Energy Office, Hawai'i Climate Change Mitigation & Adaptation Commission, Hawaiian Electric Company, KauaiEV, Pearl City Neighborhood Board No. 21, and six individuals. Your Committees received testimony in opposition to this measure from NAIOP Hawai'i, Practical Policy Institute of Hawai'i, and one individual. Your Committees received comments on this measure from the Community Associations Institute, Associa, Hawai'i Electric Vehicle Association, and one individual.

Your Committees find that air and ground transportation is the largest source of greenhouse gas emissions in the State. To achieve a decarbonized economy, it is necessary for the State's transportation system to become less reliant on fossil fuels. Developing plans to integrate zero-emission vehicle fueling stations, including electric vehicle charging stations onto residential properties, ensures that communities will be prepared for the State's clean energy transformation. Your Committees note that this measure applies to new construction and existing properties undergoing renovations that are capable of incorporating electric vehicle charging stations, as not all existing properties may have adequate boundaries, common areas, or appropriate infrastructure to accommodate zero-emission fueling stations.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the corporation or association shall have plans to incorporate the zero-emission vehicle fueling stations, provided that the corporation or association has sufficient and adequate common area boundaries and infrastructure;
- (2) Clarifying that all plans for certain construction or renovations shall include charger ready stalls for parking stalls constructed, including details on sufficient wiring, electrical conduit, electrical panel service capacity, overcurrent protection devices, suitable termination points to connect to a charging station, and 120- to 240-volt outlets;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2196, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2196, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).
Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2893 Ways and Means on S.B. No. 2865

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist DIBSHawaii LLC in constructing a net-zero carbon capture storage utilization platform to recover vented carbon dioxide emissions and scrub and liquify the emissions into food grade liquid carbon dioxide.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Hawaii State Energy Office, DIBSHawaii LLC, Green Party Hawaii, Hydroponics Alternatives LLC, Ohana Hui Ventures, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the food grade liquid carbon dioxide produced by DIBSHawaii LLC's proposed net-zero carbon capture storage utilization platform will be used for agriculture, energy, and carbon storage to support the State's food security and resilience goals.

Your Committee has amended this measure by:

- (1) Changing the authorization amount of special purpose revenue bonds from \$40,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2865, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2865, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2894 Ways and Means on S.B. No. 3091

The purpose and intent of this measure is to enhance student profit-making pursuits at schools.

Specifically, the measure:

- (1) Includes commercial enterprises among the authorized profit-making pursuits;
- (2) Specifies that one authorized use of net profits from profit-making pursuits shall be the support of profit-making pursuit programs; and
- (3) Provides that school credit may be granted to students engaged in the pursuits.

Your Committee received written comments in support of this measure from the Department of Education, Marine Science Learning Center at Waianae High School, and five individuals.

Your Committee finds that students who participate in commercial enterprises may gain hands-on and real-world experience that is vital for post-secondary education and success in the workforce. Your Committee also finds that allowing students to earn school credit, compensation, or both, when engaging in profit-making pursuits will further incentivize student participation in those pursuits.

Your Committee has amended this measure by:

- (1) Specifying that a commercial enterprise shall comply with section 302A-448, Hawaii Revised Statutes;
- (2) Clarifying that school credit may be granted to students engaged in permitted operations, either in addition to, or in lieu of, any net profits distributed to the students; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3091, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2895 Ways and Means on S.B. No. 3120

The purpose and intent of this measure is to repeal the annual spending limitation imposed upon the office of healthcare assurance special fund and the ceiling on moneys that may be retained in the fund.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that moneys from the healthcare assurance special fund are to be used for operating costs and educational program expenses of the Office of Health Care Assurance, the improvement of public health outreach efforts, program and community development, industry consultations, and other matters. Your Committee also finds that the high costs of the Office's various activities and responsibilities, which often exceed the spending limitation and ceiling currently imposed on the fund, make the spending limitation and ceiling unrealistic, and often require the Office's efforts to be financed through general fund appropriations. Accordingly, your Committee finds merit in repealing the spending limitation and ceiling.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3120, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3120, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2896 Ways and Means on S.B. No. 3128

The purpose and intent of this measure is to allow the State's employers to replenish the unemployment compensation trust fund without being burdened by high unemployment tax rates.

Specifically, this measure amends the definition of "adequate reserve fund" for purposes of the Hawaii employment security law to exclude the benefit cost rate from June 2020 to August 2021, for calendar years 2023 through 2030.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure will prevent the most expensive state unemployment insurance tax rate schedule from going into effect, thus providing much-needed relief to Hawaii's employers who are still recovering from the devastating economic effects of the coronavirus disease 2019 (COVID-19) pandemic. Your Committee further finds that providing this relief will ensure that employers can afford to keep Hawaii workers employed and replenish the unemployment compensation trust fund, which was depleted due to the unprecedented high rates of unemployment caused by the COVID-19 pandemic.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive edit for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3128, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2897 Ways and Means on S.B. No. 3169

The purpose and intent of this measure is to continue certain low-income tiny home projects.

More specifically, this measure:

- (1) Exempts from certain statutory provisions low-income rentals, tiny home villages, or kauhale, developed on state land pursuant to certain emergency proclamations;
- (2) Establishes within the Department of Human Services the low-income tiny home village pilot program to provide long-term housing and services to individuals experiencing homelessness or whose income is at or below a certain threshold;
- (3) Establishes requirements for, and the duties of, the Department of Human Services in relation to the pilot program; and
- (4) Requires the Department of Human Services to submit a report to the Legislature on the pilot program.

Your Committee received written comments in support of this measure from Partners In Care and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources and State Procurement Office.

Your Committee received written comments on this measure from the Department of Human Services, Department of the Attorney General, Governor's Coordinator on Homelessness, and Office of Information Practices.

Your Committee finds that the cost of housing in the State is continuing to rise. Your Committee also finds that many residents of the State are experiencing, or at risk of experiencing, homelessness. Your Committee believes that this measure will help to house many of these residents.

Your Committee has amended this measure by:

- (1) Requiring the Department of Human Services to identify, and either provide or contract for the provision of, any services that may be required to effectuate the purpose of the low-income tiny home village pilot project; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3169, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3169, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2898 Ways and Means on S.B. No. 3189

The purpose and intent of this measure is to increase penalties for repeat violators of certain gambling laws.

Your Committee received written comments in support of this measure from Pokai Bay/Lualualei Beach Park 11 Neighborhood Security Watch and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from one individual.

Your Committee finds that in the past few years, there has been a steady increase in complaints against illegal gambling and game rooms, which often operate twenty-four hours a day, seven days a week. These establishments often attract undesirable elements who cause peripheral crimes, including homicides, narcotics trafficking, assaults, robberies, thefts, and unauthorized vehicular entries. Your Committee also finds that these gambling establishments often create excessive noise, unnecessary foot traffic, and loitering, which make them a public nuisance. Accordingly, your Committee supports increased penalties for repeat illegal gambling offenders.

Your Committee has amended this measure by:

- (1) Deleting an inapplicable proviso to the effective date; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3189, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3189, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2899 Ways and Means on S.B. No. 3268

The purpose and intent of this measure is to authorize the University of Hawaii Board of Regents to terminate the employment of the athletic director and head coaches at four-year campuses for cause and to require that certain coaching contracts be subject to Board of Regents approval.

Your Committee received written comments in opposition to this measure from the University of Hawaii Professional Assembly and Hawaii Government Employees Association.

Your Committee finds that the additional oversight provided by this measure will help to ensure that the employment of and compensation plans for many of the highest paid state employees are properly monitored and reviewed.

Your Committee has amended this measure by:

- (1) Applying the measure to all campuses of the University of Hawaii System, instead of the four-year campuses;
- (2) Clarifying that the specified coaching contracts shall not be valid unless approved by the University of Hawaii Board of Regents;
- (3) Appropriating \$3,600,000 out of the general funds appropriated to program ID University of Hawaii, Manoa (UOH 100) for the purposes of the measure;
- (4) Appropriating \$400,000 out of the general funds appropriated to program ID University of Hawaii, Hilo (UOH 210) for athletics;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3268, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3268, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2900 (Majority) Ways and Means on S.B. No. 3314

The purpose and intent of this measure is to facilitate the Hawaii State Energy Office's growing focus on climate change mitigation and sea level rise.

Specifically, this measure transfers the Hawaii State Energy Office from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from the Hawaii State Energy Office.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism, and Department of Land and Natural Resources.

Your Committee finds that the Hawaii State Energy Office's growing focus on climate change mitigation and sea level rise is consistent with the Department of Land and Natural Resources' focus on the natural environment.

Your Committee has amended this measure by:

- (1) Adding provisions that provide for the continuity of rules, deeds, contracts, and permits that may be affected by the transfer of the Hawaii State Energy Office;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3314, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3314, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 2901 Ways and Means on S.B. No. 3289

The purpose and intent of this measure is to promote greater retirement savings for private sector employees in the State.

More specifically, this measure:

- (1) Establishes a state-facilitated payroll-deduction retirement savings plan for private sector employees in Hawaii who do not have access to employer-sponsored retirement plans; and
- (2) Appropriates moneys to the Department of Budget and Finance for the implementation and operation of the Hawaii Retirement Savings Program.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations, AARP Hawaii, Aloha United Way, Common Cause Hawaii, Hawaiian Community Assets and Hawaii Community Lending, Hawaii Primary Care Association, Hawaii Public Health Institute, National Conference on Public Employee Retirement Systems, Policy Advisory Board for Elder Affairs, and twenty-six individuals.

Your Committee received written comments in opposition to this measure from the American Council of Life Insurers and National Association of Insurance and Financial Advisors Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance, Executive Office on Aging, Retail Merchants of Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's workforce faces many challenges, including the need of private sector workers to build their savings for retirement. Many workers currently do not have access to employer-sponsored retirement savings plans and risk failing to have sufficient income in retirement to achieve financial security. Your Committee also finds that, due to Hawaii's high cost of living, many workers continue to work beyond normal retirement age, and many of those workers work more than one job. Your Committee believes that establishing a Hawaii Retirement Savings Program would help enable workers to save enough to retire with financial security and avoid working further into their old age.

Your Committee has amended this measure by:

- (1) Establishing a cap amount on penalties imposed on employers for violations of statutes or rules regarding the Hawaii Retirement Savings Program;
- (2) Changing the amount of the appropriation from \$813,600 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3289, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3289, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2902 Ways and Means on S.B. No. 2638

The purpose and intent of this measure is to require, and appropriate moneys for, the Department of the Attorney General to submit to the Legislature annual reports containing available data pertaining to the commercial sexual exploitation of children.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Hawaii Youth Services Network, Imua Alliance, The Sex Abuse Treatment Center, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that requiring the Department of the Attorney General to provide to the Legislature statewide data pertaining to the commercial sexual exploitation of children will help the State to assess and improve the State's anti-trafficking response.

Your Committee has amended this measure by:

- (1) Clarifying that the demographic information collected by state-contracted providers regarding suspected or confirmed victims of commercial sexual exploitation includes gender identity and expression and sexual orientation, if the data is available;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2638, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2638, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2903 (Majority) Ways and Means on S.B. No. 2644

The purpose and intent of this measure is to make permanent:

- (1) The limited licensing exemption provided in Act 65, Session Laws of Hawaii 2013, allowing electrical contractors licensed in Hawaii to utilize qualified out-of-state high voltage electrical workers, in certain circumstances, without requiring the qualified electrical workers to obtain a journey worker electrician license; and
- (2) The requirement for the Board of Electricians and Plumbers to submit to the Legislature annual reports regarding high voltage electrical contractors.

Your Committee received written comments in support of this measure from Hawaiian Electric and the International Brotherhood of Electrical Workers Local 1260.

Your Committee received written comments in opposition to this measure from the Contractors License Board, Board of Electricians and Plumbers, and International Brotherhood of Electrical Workers Local 1186.

Your Committee finds that this measure will help ensure reliable electric service for Hawaii's residents and visitors by addressing the State's shortage of qualified high voltage electricians.

Your Committee has amended this measure by:

- (1) Extending until June 30, 2033, rather than making permanent, the limited exception to licensing requirements for certain qualified electricians, as suggested in written comments from the International Brotherhood of Electrical Workers Local 1260; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2644, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 2904 Ways and Means on S.B. No. 2647

The purpose and intent of this measure is to improve governmental support, including educational support, of individuals having fetal alcohol spectrum disorders.

More specifically, the measure:

- (1) Establishes within the Department of Health a Fetal Alcohol Spectrum Disorders Task Force to develop and report to the Legislature on guidelines, recommendations, and teaching protocols relating to fetal alcohol spectrum disorders; and
- (2) Appropriates moneys to the Department of Health to establish and support the Fetal Alcohol Spectrum Disorders Task Force.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii Substance Abuse Coalition, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders Action Group, Hawaii Public Health Institute, and nine individuals.

Your Committee received written comments on this measure from the Department of Health, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that the guidelines, recommendations, and teaching protocols to be developed by the Fetal Alcohol Spectrum Disorders Task Force will help government agencies and educators better understand the unique challenges faced by individuals impacted by fetal alcohol spectrum disorders and will enable more effective outreach to, treatment of, and resource identification for these individuals.

Your Committee has amended this measure by:

- (1) Specifying that the appropriation of moneys to the Department of Health to support the establishment and work of the Task Force may also be used to obtain any assistance necessary to enable the Task Force to carry out its duties, and that the Department may contract with a third party to provide this assistance; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2647, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2647, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2905 Ways and Means on S.B. No. 2774

The purpose and intent of this measure is to appropriate moneys to the Department of Public Safety for the further expansion of reentry planning circles, or huikahi restorative circles, at the Women's Community Correctional Center.

Your Committee received written comments in support of this measure from the Department of Public Safety, Community Alliance on Prisons, Hawaii Health and Harm Reduction Center, Hawaii Substance Abuse Coalition, Women's Prison Project, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that, by funding the further expansion of reentry planning circles at the Women's Community Correctional Center, this measure will help to reduce recidivism among female offenders.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2774, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2774, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2906 Ways and Means on S.B. No. 2782

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (1), which consists of nonsupervisory employees in blue collar positions, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii; Department of Budget and Finance; Hawaii Health Systems Corporation; and United Public Workers, AFSCME Local 646.

Your Committee finds that the State and the exclusive representative of collective bargaining unit (1) have reached an agreement, which was later ratified by the unit's members. Your Committee further finds that pursuant to section 89-10(b), Hawaii Revised Statutes, the Governor submitted the cost items and this measure serves as the corresponding legislative approval of those cost items.

Your Committee has amended this measure by:

- (1) Inserting the amounts for the cost items agreed upon between the State and the exclusive representative of collective bargaining unit (1), along with the corresponding adjustments for the excluded counterparts of the members of collective bargaining unit (1); and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2782, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2907 Ways and Means on S.B. No. 2783

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (2), which consists of supervisory employees in blue collar positions, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (2) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2783, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2783, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2908 Ways and Means on S.B. No. 2784

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (3), which consists of nonsupervisory employees in white collar positions, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii, Hawaii Health Systems Corporation, Hawaii Government Employees Association, and one individual.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (3) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2784, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2909 Ways and Means on S.B. No. 2785

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (4), which consists of supervisory employees in white collar positions, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (4) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2785, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2785, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2910 Ways and Means on S.B. No. 2786

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (5), which consists of teachers and other personnel of the Department of Education under the same pay schedule, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (5) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2786, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2786, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2911 Ways and Means on S.B. No. 2788

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (7), which consists of faculty of the University of Hawaii and the community college system, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii the University of Hawaii Professional Assembly.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (7) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2788, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2788, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2912 Ways and Means on S.B. No. 2790

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (9), which consists of registered professional nurses, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State and the exclusive representative of collective bargaining unit (9) have reached an agreement, which was later ratified by the unit's members. Your Committee further finds that pursuant to section 89-10(b), Hawaii Revised Statutes, the Governor submitted the cost items and this measure serves as the corresponding legislative approval of those cost items.

Your Committee has amended this measure by:

- (1) Inserting the amounts for the cost items agreed upon between the State and the exclusive representative of collective bargaining unit (9), along with the corresponding adjustments for the excluded counterparts of the members of collective bargaining unit (9); and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2790, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2913 Ways and Means on S.B. No. 2792

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (11), which consists of firefighters, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii Fire Fighters Association.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (11) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2792, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2792, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2914 Ways and Means on S.B. No. 2794

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (13), which consists of professional and scientific employees, who cannot be included in any other bargaining units, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (13) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2794, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2794, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2915 Ways and Means on S.B. No. 2795

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (14), which consists of state law enforcement officers, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (14) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2795, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2795, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2916 Ways and Means on S.B. No. 2796

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (15), which consists of state and county ocean safety and water safety officers, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (15) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2796, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2796, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2917 Ways and Means on S.B. No. 2801

The purpose and intent of this measure is to increase accountability and transparency in law enforcement practices.

More specifically, the measure:

- (1) Provides that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using unnecessary or excessive force on an arrestee;
- (2) Requires the intervening law enforcement officer to report the incident to the other law enforcement officer's supervisor; and
- (3) Requires specified departments to submit annual reports to the Legislature.

Your Committee received written comments in support of this measure from the Department of Transportation and one individual.

Your Committee received written comments in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that this measure will help to clarify the duties of, and expectations for, law enforcement officers who witness another officer using unnecessary or excessive force on an arrestee.

Your Committee has amended this measure by:

- (1) Clarifying, with respect to the intervening law enforcement officer's duty to report an incident to a supervisor as soon as practicable, that the report is to be made to the supervisor of the other law enforcement officer, as provided in the measure's preamble; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2801, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2801, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2918 Ways and Means on S.B. No. 2483

The purpose and intent of this measure is to promote the use of renewable energy in the State.

More specifically, this measure:

- (1) Includes as an objective in energy planning for the State's facility systems the requirement that all new utility scale electricity generation projects use renewable resources to generate electricity;
- (2) Amends the State's policies to:
 - (A) Ensure the short- and long-term provision of adequate, reasonably priced, and dependable renewable energy and the prioritization of renewable energy generation;
 - (B) Require that decisions of least-cost supply-side and demand-side energy resource options be based on, among other things, the benefits of non-fossil fuel sources to maximize the reduction in consumption of fossil fuels; and
 - (C) Include the use of non-fossil fuel sources in the development or expansion of energy systems; and
- (3) Appropriate moneys for the Hawaii Natural Energy Institute to evaluate the benefits and costs of dispatching renewable energy resources.

Your Committee received written comments in support of this measure from the Hawaii Clean Power Alliance and six individuals.

Your Committee received written comments in opposition to this measure from the Hawaiian Electric Company.

Your Committee received written comments on this measure from the Department of Budget and Finance and Hawaii State Energy Office.

Your Committee finds that by prioritizing renewable energy generation, this measure will help the State to achieve the State's goal of generating one hundred percent clean energy by 2045.

Your Committee has amended this measure by:

- (1) Amending the appropriation to appropriate moneys directly out of the energy systems development special fund;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2483, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2483, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Inouye). Noes, none. Excused, none.

SCRep. 2919 Ways and Means on S.B. No. 2807

The purpose and intent of this measure is to appropriate moneys to the Hawaii Technology Development Corporation for the manufacturing assistance program.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; University of Hawaii; Maui Chamber of Commerce; Shifted Energy; Sweet Brown Hawaii; Simonpietri Enterprises, LLC; KYD, Inc.; Hyperspective Studios, Inc.; Purple Maia Foundation; Diamond Bakery Co., Ltd.; Island Plastic Bags, Inc; Hidden Gears; Hawaii Food Industry Association; Makai Ocean Engineering, Inc.; 3D Innovations; Nalu Scientific, LLC; Hawaii Fish Company, Inc.; Hawaii Farm Bureau; Manulele Distillers, LLC; Mana Up; Elements of the Sea HI, LLC; Ohana Nui Group LLC; Big Island Moonbow Farms, LLC; Pawniolo Pets, LLC; Chamber of Commerce Hawaii; Vitalitea Group, LLC; Hawaii Food Manufacturers Association; Ulu Mana, Inc.; Hawaii Venture Capital Association; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Hawaiian Pie Company, LLC.

Your Committee finds that the manufacturing businesses supported by this measure play an important role in the State's economy. Manufacturers are key to the State's food security, sustainability, and resilience initiatives, and are important drivers for innovation.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$1,500,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2807, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2807, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2920 Ways and Means on S.B. No. 2818

The purpose and intent of this measure is to establish and fund a summer learning coordinator position within the Department of Education to coordinate school-based summer programs.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii, Malama Kauai, HE'E Coalition, Hawaii Children's Action Network Speaks!, Hawaii Afterschool Alliance, CARE Arts and Recreation Education Services, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that there are various unconnected summer learning programs offered by a myriad of offices and program managers, which creates overlapping services and challenges in forming partnerships with community organizations. Your Committee further finds that creating a summer learning coordinator position will help to establish a cohesive network of summer learning opportunities that can identify redundancies and gaps in summer learning programs while also helping students find and enroll in the programs that best fit their needs.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2818, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2818, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2921 Ways and Means on S.B. No. 2819

The purpose and intent of this measure is to address teacher compensation equity issues.

Specifically, this measure:

- (1) Allows the Department of Education and the governing boards of state public charter schools to adjust teacher salaries to reflect years of teaching experience; and
- (2) Appropriates funds for the salary adjustments.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii, Executive Office on Early Learning, Hawaii State Public Charter School Commission, Aha Kauleo - Statewide Hawaiian Immersion Schools Council, Hawaii Association of School Psychologists, Hawaii State Teachers Association, HE'E Coalition, Parents for Public

Schools of Hawaii, Rainbow Family 808, Democratic Party of Hawaii Education Caucus, Democratic Party of Hawaii Labor Caucus, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Office of Collective Bargaining.

Your Committee received written comments on this measure from the Department of Budget and Finance and two individuals.

Your Committee finds that authorizing the Department of Education to implement discretionary salary adjustments will help to address pay equity issues for teachers by more closely basing salaries upon years of teaching experience, which, in turn, will help to retain experienced teachers and improve recruitment of new teachers. Your Committee further finds that repealing section 302A-627(a), Hawaii Revised Statutes, is necessary to provide the Department of Education with the flexibility to allocate teacher compensation intended by the measure and that the repeal of section 302A-624(c), Hawaii Revised Statutes, regarding teacher classification, is not necessary.

Your Committee has amended this measure by:

- (1) Repealing section 302A-627(a), Hawaii Revised Statutes;
- (2) Deleting the repeal of section 302A-624(c), Hawaii Revised Statutes;
- (3) Changing the appropriation from charter schools (EDN 600) to charter schools commission and administration (EDN 612);
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2819, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2922 Ways and Means on S.B. No. 3110

The purpose and intent of this measure is to support access to childcare in the State.

Specifically, this measure:

- (1) Renames the preschool grant program special fund as the child care grant program special fund;
- (2) Authorizes the child care grant program special fund to be used to provide grants to child care facilities;
- (3) Authorizes the deposit of federal moneys into the child care grant program special fund;
- (4) Changes the date by which reports for the preschool open doors special fund and the child care grant program special fund must be submitted to the Legislature, from August 31 to twenty days prior to the convening of the regular legislative session; and
- (5) Repeals the authority to expend moneys from the preschool open doors special fund and child care grant program special fund without an appropriation.

Your Committee received written comments in support of this measure from the Department of Human Services, Executive Office on Early Learning, Early Childhood Action Strategy, and one individual.

Your Committee finds that well-supported, regulated childcare facilities keep children safe and provide parents the ability to pursue or maintain employment and educational activities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3110, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3110, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2923 Ways and Means on S.B. No. 3367

The purpose and intent of this measure is to establish an early lung cancer screening task force to research the steps and resources necessary to increase early lung cancer screening in Hawaii.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Health, University of Hawaii, American Lung Association of Hawaii, Hawaii Primary Care Association, Papa Ola Lokahi, Hawaii Medical Association, Hawaii Public Health Association, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that the early lung cancer screening task force established by this measure will help the State understand and address health disparities experienced by native Hawaiians, Pacific Islanders, and other people of color who are at high risk of lung cancer.

Your Committee acknowledges the State Procurement Office's concerns with the measure's exemption from the state procurement code for the task force's contracts with consultants to conduct related studies.

Your Committee has amended this measure by:

- (1) Clarifying that a representative from the United States Department of Veterans Affairs should be invited to serve on the task force;
- (2) Changing the appropriation amount from \$250,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3367, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3367, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 2924 Ways and Means on S.B. No. 3369

The purpose and intent of this measure is to improve the efficiency and effectiveness of procurement in the State.

Specifically, this measure:

- (1) Establishes a working group to develop a plan for the five-year phased-in consolidation, under the State Procurement Office, of all state executive branch procurement services and staff, except those of the Department of Education, Hawaii Health Systems Corporation, University of Hawaii, and Office of Hawaiian Affairs;
- (2) Requires the working group to make recommendations for attracting high-quality procurement professionals to the State; and
- (3) Appropriates moneys to the State Procurement Office to support the activities of the working group.

Your Committee received written comments on this measure from the Department of Accounting and General Services, Department of Budget and Finance, Department of Human Services, and State Procurement Office.

Your Committee finds that the State Procurement Office recommended in its testimony that the procurement services working group include in its report recommendations to:

- (1) Improve the recruitment, retention, and competitive compensation of high-quality procurement professionals to prevent those persons from leaving the State for higher-paying positions in the private sector;
- (2) Develop and implement a multi-tiered certified training program to ensure that all procurement staff are properly trained; and
- (3) Implement a procurement automation system as an integral part of a centralized procurement environment to mitigate errors and risk, increase efficiency, and maximize resources.

Your Committee also recognizes the testimony of the Department of Accounting and General Services, which expressed concerns that the consolidation of construction procurement would not be universally beneficial for state agencies. Certain agencies have specialized procurement requirements that cannot be incorporated into a "one-size-fits-all" format and that failing to meet these requirements may jeopardize the missions and programmatic supports of those agencies, especially departments that must meet federal program or grant requirements. Accordingly, the Department of Accounting and General Services recommended revising the measure to exclude construction procurement from the procurement consolidation plan.

Similarly, your Committee recognizes testimony from the Department of Human Services, which requested that the measure be amended to exclude that department from the consolidation plan. Specifically, the Department of Human Services noted that its procurements require highly specialized expertise in subject matter areas that are unique to that department.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$250,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3369, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3369, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 2925 Ways and Means on S.B. No. 2475

The purpose and intent of this measure is to clarify that amounts received or accrued for stevedoring services, wharfage, and demurrage services are exempt under the general excise tax law.

Your Committee received written comments in support of this measure from PASHA Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance; Department of Taxation; Matson Navigation Company, Inc.; and Tax Foundation of Hawaii.

Your Committee finds that, according to the Department of Taxation, amounts received for the loading and unloading of cargo, including stevedoring services, are already exempt from the general excise tax.

Your Committee has amended this measure by:

- (1) Removing amendments regarding stevedoring services; and
- (2) Clarifying that amounts received for the transportation or storage of cargo are not exempt under the general excise tax law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2475, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2475, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2926 Ways and Means on S.B. No. 2184

The purpose and intent of this measure is to establish a Digital Learning Center within the Department of Education to improve digital learning and other computer skills for public school students.

Your Committee received written comments in support of this measure from the Department of Education, Chamber of Commerce Hawaii, and Kamehameha Schools.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that a dedicated office within the Department of Education to coordinate digital learning will help to provide additional learning opportunities, through virtual classrooms, for students in rural areas and smaller schools while ensuring that students in all areas have the digital skills necessary for college and the workforce.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2184, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2927 Ways and Means on S.B. No. 2186

The purpose and intent of this measure is to provide the Department of Education with greater efficiency in developing its properties.

Specifically, this measure:

- (1) Requires that various parcels of land be transferred to the Department of Education;
- (2) Requires that the Legislature approve any sale or gift of Department of Education lands; and
- (3) Appropriates funds to effectuate the land transfers.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments in opposition to this measure from Kupuna for the Mo'opuna.

Your Committee received comments on this measure from the Department of Budget and Finance and Department of Land and Natural Resources.

Your Committee finds that efforts by the Department of Education to redevelop its existing facilities and construct new facilities have encountered permitting and entitlement delays due to titles for land under certain public schools not being in the name of the Department of Education. Your Committee further finds that the land transfers resulting from this measure will help to ensure timely construction of educational facilities.

In response to concerns highlighted in written comments submitted on this measure, the Committee wishes to draw attention to the additional protections on the sale of state lands provided by section 171-64.7, Hawaii Revised Statutes.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2186, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2186, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2928 Ways and Means on S.B. No. 2274

The purpose and intent of this measure is to assist the Hawaii Center for Nursing in its nursing workforce recruitment and development efforts.

More specifically, this measure:

- (1) Requires that each nursing license applicant respond to the Hawaii Center for Nursing's workforce supply survey in conjunction with each nursing license renewal;
- (2) Clarifies that nursing license renewal is not contingent upon responding to the workforce supply survey and that failure of an applicant to properly respond to the workforce supply survey does not result in an encumbrance on the applicant's license; and
- (3) Increases the Hawaii Center for Nursing fee from \$40 to \$60 per licensing biennium.

Your Committee received written comments in support of this measure from the Hawaii State Center for Nursing; University of Hawaii, Nancy Atmospera-Walch School of Nursing; Queen's Health Systems; and two individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Board of Nursing.

Your Committee finds that by requiring nursing license applicants to respond to the Hawaii Center for Nursing's workforce supply survey, this measure will enable policy makers and health care leaders throughout the State to plan for future nursing workforce development more effectively.

Your Committee has amended this measure by:

- (1) Clarifying that the failure of a nursing license applicant to properly complete the Hawaii Center for Nursing's supply survey will not result in the forfeiture of the applicant's nursing license;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2274, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2274, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2929 Ways and Means on S.B. No. 2283

The purpose and intent of this measure is to require the Hawaii Natural Energy Institute to study the State's ability to advance hydrogen production from local renewable energy resources and to utilize the study results to develop the Hawaii hydrogen strategic plan.

Your Committee received written comments in support of this measure from the University of Hawaii; Servco Pacific, Inc.; Energy and Climate Action Committee, Environmental Caucus of the Democratic Party of Hawaii; Ulupono Initiative; Hawaiian Electric Company, Inc.; Hawaii Clean Power Alliance; Alliance for Automotive Innovation; Hawaii Gas; Sustainable Energy Hawaii; Hawaii Hydrogen Alliance; and one individual.

Your Committee received written comments on this measure from the Hawaii State Energy Office; 350Hawaii; Climate Protectors Hawaii; KauaiEV; and one individual.

Your Committee finds that the hydrogen study and Hawaii hydrogen strategic plan required by this measure will help the State meet its goal of achieving a clean energy economy.

Your Committee has amended this measure by:

- (1) Codifying the measure's substantive provisions in Chapter 304A, Hawaii Revised Statutes, thus assigning a permanent responsibility to the Hawaii Natural Energy Institute, commencing in 2028, to review and update the Hawaii hydrogen strategic plan;
- (2) Clarifying that the policies to encourage the production and usage of hydrogen should be consistent with the Hawaii hydrogen strategic plan, as suggested in written comments from the University of Hawaii and Hawaii Natural Energy Institute;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussions on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2283, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2283, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2930 Ways and Means on S.B. No. 2373

The purpose and intent of this measure is to assist former inmates after they are released from incarceration.

More specifically, the measure:

- (1) Establishes a "Project Reset" Program, to be administered by the Governor's Coordinator on Homelessness, to oversee the development and implementation of comprehensive post-release housing programs to assist offenders transitioning back into the community; and
- (2) Appropriates moneys to the Department of Human Services for the program.

Your Committee received written comments in support of this measure from the Department of Public Safety, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Health and Harm Reduction Center, League of Women Voters, Institute for Human Services, Community Alliance on Prisons, and Women's Prison Project.

Your Committee received written comments on this measure from the Department of Human Services, Governor's Coordinator on Homelessness, and Department of Budget and Finance.

Your Committee finds that the assistance provided to offenders through the "Project Reset" Program in securing post-release housing will help to support offenders' reentry, rehabilitation, and employment prospects.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$375,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2373, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2373, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 2931 Ways and Means on S.B. No. 2385

The purpose and intent of this measure is to reduce delays and costs in the procurement of professional services.

Specifically, this measure authorizes agencies to seek approval for the alternative procurement of professional services in situations where a procuring agency receives fewer than three bids or proposals from qualified persons.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, University of Hawaii, Department of Finance of the County of Kauai, and Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee received written comments in opposition to this measure from the American Council of Engineering Companies of Hawaii, CONSOR Engineers, Yogi Kwong Engineers, Hart Crowser, AIA Hawaii State Council, and two individuals.

Your Committee received written comments on this measure from the State Procurement Office and Department of Transportation.

Your Committee finds that the procurement of professional services under section 103D-304, Hawaii Revised Statutes, currently requires a selection committee to rank a minimum of three interested persons based on the selection criteria, and to send the rankings to the head of the purchasing agency to begin negotiations. Your Committee further finds that when an agency seeking to procure professional services does not receive at least three responses to its contract solicitation, the agency must continue to solicit offers, which delays projects and increases costs for the State.

Your Committee has amended this measure by:

- (1) Deleting language that would authorize agencies to seek approval for the alternative procurement of professional services when the agency receives fewer than three bids or proposals from qualified persons;
- (2) Inserting language that authorizes agencies procuring professional services to request an exemption from chapter 103D, Hawaii Revised Statutes, pursuant to section 103D-102(b)(4)(L), Hawaii Revised Statutes, if fewer than three qualified persons submit statements of qualifications;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2385, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2932 (Joint) Ways and Means and Commerce and Consumer Protection on S.B. No. 2419

The purpose and intent of this measure is to require each county with a population of 200,000 or less to establish and submit a legislative report on a five-year pilot project that regulates hosting platforms that provide transient accommodation booking services.

Your Committees received written comments in support of this measure from the Hawaii Tourism Authority, a member of the Maui County Council, and Maui Hotel and Lodging Association.

Your Committees received written comments in opposition to this measure from the Department of Planning of the County of Kauai and Airbnb.

Your Committees find that the State and counties wish to properly manage visitor accommodations. Accordingly, your Committees further find that it is appropriate to implement measures to reduce the number of unauthorized short-term vacation rentals in neighborhoods and communities.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2419, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2419, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 11. Noes, none. Excused, none.
Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

SCRep. 2933 Commerce and Consumer Protection on S.B. No. 2276

The purpose and intent of this measure is to make comprehensive updates to chapter 436E, Hawaii Revised Statutes, regarding acupuncture practitioners to reflect modernized scopes of practice, titles, and licensing and renewal requirements, including thirty hours of continuing education per licensing biennium, beginning July 1, 2023.

Your Committee received testimony in support of this measure from the Board of Acupuncture, Mala Healing Arts, AcuPlan Hawaii, Windward Wellness, Hawaii Acupuncture Association, Institute of Clinical Acupuncture and Oriental Medicine, Kailua Acupuncture Clinic, Longevity Health Center, and eleven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association. Your Committee received comments on this measure from one individual.

Your Committee finds that existing laws concerning the scope of practice and other licensing-related statutes for acupuncturists are outdated. Updating the scopes of practice and titles of acupuncture practitioners will allow them to practice to their fullest potential and will bring the State into compliance with national standards of competency and safety. Additionally, updating scopes of practice will assist insurance companies better determine reimbursement for approved services. This measure is therefore necessary to make updates to the State's acupuncture licensing laws to reflect modernized scopes of practice, titles, and licensing and renewal requirements, including continuing education to further promote public health and safety.

Your Committee has amended this measure by:

- (1) Inserting language to allow the Board of Acupuncture to issue a license by reciprocity under certain circumstances;
- (2) Clarifying the definition of "practice of advanced acupuncture medicine" to mean the practice of acupuncture medicine as further determined by administrative rules;
- (3) Clarifying that compliance with the continuing education requirements shall begin with the renewal for the licensing biennium commencing July 1, 2025;
- (4) Inserting language authorizing the Board of Acupuncture to adopt rules relating to the requirements and standards that continuing education programs shall meet to obtain recognition and approval from the Board;
- (5) Authorizing the Board of Acupuncture to conduct random audits of licensees' continuing education documentation;
- (6) Reinstating existing statutory language to allow visiting acupuncturists who are not performing services on patients in the State to be exempt from the licensure requirements; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2276, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2276, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2934 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2474

The purpose and intent of this measure is to:

- (1) Establish reliability standards and interconnection requirements of public electric utilities for renewable energy projects; and
- (2) Require implementation of the Hawaii Electricity Reliability Administrator law.

Your Committees received testimony in support of this measure from the Hawaii Clean Power Alliance. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and the Public Utilities Commission.

Your Committees find that the State must move with intention and urgency to meet its ambitious renewable energy goals, bring relief to ratepayers, and reduce carbon emissions. Delays in the timely interconnection of renewable energy generation projects also delays the benefits associated with those projects being delivered to consumers and the progress of compliance with the State's renewable portfolio standards. Your Committees note that the Public Utilities Commission is already monitoring interconnection timelines and has prioritized this matter in its decision-making in several interrelated dockets. This measure will allow for the Public Utilities Commission to have more oversight into grid reliability standards and the interconnection process and provides for more transparency to further assist the State in its renewable electricity goals.

Your Committees have amended this measure by:

- (1) Making a conforming amendment to subsection 269-146(a), Hawaii Revised Statutes, to clarify that the Public Utilities Commission may require that any (rather than all) utilities, persons, businesses, or entities connecting to the Hawaii electric system shall pay a surcharge that shall be collected by Hawaii's electric utilities to provide necessary authority to determine the appropriate assessment and ensure that the burden of this surcharge does not fall to ratepayers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2474, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2474, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 11; Ayes with Reservations (Inouye). Noes, none. Excused, none.

SCRep. 2935 Commerce and Consumer Protection on S.B. No. 2592

The purpose and intent of this measure is to:

- (1) Define "clinical laboratory director" to include certain physicians, licensed clinical laboratory scientists, and pharmacists; and
- (2) Amend the definition of "practice of pharmacy" to include the ordering and performing of certain Clinical Laboratory Improvement Amendments-waived tests.

Your Committee received testimony in support of this measure from the Hawai'i-American Nurses Association, Walgreen Co., CVS Health, Hawai'i Pharmacists Association, and six individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Clinical Labs of Hawai'i, and seven individuals. Your Committee received comments on this measure from the Board of Pharmacy and American Society for Clinical Laboratory Science Hawai'i.

Your Committee finds that certain tests waived under the Clinical Laboratory Improvement Amendments of 1988 (CLIA) are simple, easy to use tests that are non-technical in nature and are meant to be performed by lay persons in a non-clinical setting. Pharmacies across the country perform CLIA-waived tests to provide easy and convenient access to important patient health care information. There is little to no risk of patients experiencing adverse health effects from CLIA-waived tests, as they can easily be performed in any non-laboratory setting, including at home or at a pharmacy.

Your Committee additionally finds that, over time, pharmacists have become more accessible and the scope of their practice has expanded, making access to health care more convenient for patients. Pharmacists possess the skills and knowledge to perform CLIA-waived tests in accordance with specific policies, procedures, and protocols developed collaboratively by health professionals. Hawai'i is the only state that requires additional credentialing as a clinical laboratory director, which creates regulatory barriers to testing that do not exist elsewhere in the nation at a time when there is already significant strain on the State's health care system. Accordingly, this measure will remove barriers to promote access to safe and effective health care services.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "clinical laboratory director" to include advanced practice registered nurses for clinical laboratory tests or examinations classified as waived under the CLIA; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2592, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2592, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2936 Judiciary on S.B. No. 2804

The purpose and intent of this measure is to define "pool" to mean a watertight artificial structure containing a body of water that does not exchange water with any other body of water either naturally or mechanically used for swimming, diving, recreational bathing, or therapy by humans.

Your Committee received testimony in support of this measure from the Department of Health and two individuals.

Your Committee finds that public swimming pools are currently regulated under the Hawaii Administrative Rules, which require established turnover rates and disinfectant residuals to ensure that proper filtering of the water is occurring at all times during use by the public. Your Committee further finds that man-made lagoons and pools, such as the Natatorium, cannot meet these requirements and do not meet nationally recognized definitions of a "public swimming pool". Therefore, alternative public health standards for other public recreational waters, such as beaches, should be applied to these structures instead, particularly if the owner of the structure intends to use the ocean or ocean venue for swimming. This measure clarifies the definition of "pool" so that certain structures such as man-made lagoons and pools do not fall under the regulation of "pools".

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2804, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2804, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2937 (Joint) Judiciary and Commerce and Consumer Protection on S.B. No. 2269

The purpose and intent of this measure is to:

- (1) Repeal the authorization of the Governor to negotiate with any person for the development or expansion of private in-state correctional facilities;
- (2) Prohibit the establishment of private correctional facilities in the State; and
- (3) Allow the Governor to enter into a contract with a private entity to construct a correctional facility on public or private land, only if the facility is operated by the Department of Public Safety.

Your Committees received testimony in support of this measure from United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Imua Alliance. Your Committees received testimony in opposition to this measure from Community Alliance on Prisons, Hawai'i Friends of Restorative Justice, and seven individuals. Your Committees received comments on this measure from the Department of Public Safety and American Civil Liberties Union of Hawai'i.

Your Committees find that research has shown the adverse effects on inmates who are incarcerated in out-of-state, private prisons and the shortfall of oversight and accountability at these facilities. Prisons owned and operated by private entities are not subject to the same freedom of information and open records laws as government agencies. Your Committees further find that private prisons provide a financial motivation for the further criminalization of nonviolent offenses and imposition of longer sentences. This measure will prevent the development of private prisons in the State by repealing the authorization of the Governor to negotiate with any person for the development or expansion of private in-state correctional facilities, prohibiting the establishment of private correctional facilities in the State, and allowing the Governor to enter into a contract with a private entity to construct a correctional facility on public or private land, only if the facility is owned and operated by the Department of Public Safety.

Your Committees have amended this measure by:

- (1) Requiring that prisons constructed by a private entity be owned and operated by the Department of Public Safety;
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2269, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2269, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

SCRep. 2938 Commerce and Consumer Protection on S.B. No. 3118

The purpose and intent of this measure is to ban the sale of flavored tobacco products and mislabeled e-liquid products.

Your Committee received testimony in support of this measure from the Department of Health; Student Health Advisory Council; Hawai'i State Department of Education; Honolulu Youth Commission; Hawai'i Children's Action Network Speaks!; Hina Mauka; AlohaCare; Blue Zones Project; Kahoomiki; Coalition for a Tobacco-Free Hawai'i's Youth Council; Hawai'i COPD Coalition; Hawai'i Youth Services Network; Hawai'i Public Health Association; Aloha Harvest; The Friends of Kamalani and Lydgate Park; Hawai'i State Teachers Association; Kapiolani Medical Center for Women and Children; American Academy of Pediatrics, Hawai'i Chapter; Opportunity Youth Action Hui; We Are One; Kaiser Permanente Hawai'i; Hawai'i Public Health Institute; Ohana Health Plan; Hawai'i

Dental Hygienists' Association; Keiki Injury Prevention Coalition; Save Medicaid Hawai'i; Hawai'i Substance Abuse Coalition; and fifty-four individuals. Your Committee received testimony in opposition to this measure from Volcano, Retail Merchants of Hawai'i, Consumer Choice Center, 24hourvapes, Consumer Advocates for Smoke-free Alternatives Association, American Vaping Association, ABC Stores, Black Lava Vape, Hawai'i Smokers Alliance; and forty-four individuals. Your Committee received comments on this measure from the American Heart Association, Reason Foundation, Hawai'i Petroleum Marketers Association, and Hawai'i Food Industry Association.

Your Committee notes that the American Cancer Society Cancer Action Network also submitted testimony in opposition to this measure as it is written in its current form, and requested that this measure be reverted to its original version, which would have prohibited the sale or distribution of all flavored tobacco products, including products with menthol. Your Committee shares the concerns raised in the testimony from the American Cancer Society Cancer Action Network and others that exempting certain products, including cigarettes, from the definition of "tobacco product" will make this measure ineffective in addressing the State's alarming youth tobacco epidemic. Experiences in other communities that have exempted certain tobacco products from flavor bans have illustrated that tobacco companies will shift their marketing to those flavored products that are exempted from the ban. Mint and menthol flavored tobacco products are heavily marketed to children, especially those from minority communities and the LGBTQ community, which has resulted in more than half of all youth and young adult smokers preferring menthol cigarettes.

Your Committee further finds that flavored tobacco products are a marketing weapon used to target youth and young people to a lifetime of addiction. Altering tobacco product ingredients with flavors can mask their harsh effects, facilitating nicotine uptake and increasing the product's overall appeal. Accordingly, amendments to this measure are necessary to impose a comprehensive ban on the sale of flavored tobacco products.

Your Committee has amended this measure by:

- (1) Clarifying that the cost of proper disposal of electronic smoking devices and e-liquids, as hazardous waste under existing administrative rules, shall be borne by the retailer;
- (2) Amending the definition of "tobacco product" to include cigarettes, cigars, or chewing or smokeless tobacco; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3118, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3118, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Riviere, San Buenaventura). Noes, none. Excused, none.

SCRep. 2939 Judiciary on S.B. No. 2159

The purpose and intent of this measure is to:

- (1) Clarify that the residential zone restriction on the use of leaf blowers at certain hours includes residential districts, apartment districts, and business mixed use districts; and
- (2) Remove the exemption on leaf blower restrictions for government agencies.

Your Committee received testimony in support of this measure from Climate Protectors Hawai'i, Chinatown Gateway Plaza Tenant Association, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that noise pollution is an ongoing and growing problem in the State. Leaf blowers cause a great deal of noise that, over a period of time, becomes an extreme nuisance which is harmful and disruptive to many individuals' lives particularly in residential areas. This measure will help ensure that the operation of leaf blowers in residential zone areas is limited to appropriate times.

Your Committee has amended this measure by specifying that government entities, and agents acting on behalf of government entities, may use leaf blowers during the prohibited hours in the case of an emergency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2159, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2159, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2940 Judiciary on S.B. No. 2456

The purpose and intent of this measure is to authorize the issuance of limited purpose identification cards for certain residents.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Public Safety, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, Community Alliance on Prisons, Parents and Children Together, The Legal Clinic, Hawai'i Appleseed Center for Law & Economic Justice, and nine individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 2015, the Legislature created a limited purpose driver's license, a limited purpose provisional driver's license, and a limited purpose instruction permit. Many young adults, elderly residents, houseless persons, recently released inmates, undocumented immigrants, and lawfully present non-immigrants who do not drive and cannot meet the heightened standards for a REAL ID-compliant identification card are unable to access state-issued identification. Proving one's identity is a necessity that has

been turned into an obstacle for many individuals and further heightened by the coronavirus disease 2019 pandemic since proof of identification is required for entry into many public venues. Authorizing the issuance of limited purpose identification cards will improve access for residents of the State, including marginalized or disadvantaged residents.

Your Committee has amended this measure by:

- (1) Specifying that documents that may be used to establish a person's identity include a prisoner identification card, certificate of discharge, order of parole, or printout prepared by the Department of Public Safety with the person's photograph, name, and date of birth;
- (2) Clarifying that an individual issued a limited purpose identification card shall surrender any REAL ID compliant identification card, drivers' license, or permit at the time the limited purpose identification card is issued to the examiner of drivers;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2456, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2456, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2941 Judiciary on S.B. No. 2685

The purpose and intent of this measure is to:

- (1) Establish requirements for cumulative voting and the removal of directors of planned community associations; and
- (2) Exempt planned community associations from certain requirements regarding cumulative voting for and the removal of directors under the Hawaii Nonprofit Corporations Act.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians; Legislative Action Committee of the Community Associations Institute, Hawaii Chapter; Hawaii Council for Association of Apartment Owners; Lualualei Association; Villages of Kapolei Association; Law Offices of Mark K. McKellar, LLLC; Associa; and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from three individuals.

Your Committee finds that the cumulative voting provisions under the Hawaii Nonprofit Corporations Act may be manipulated by planned community association boards of directors to prevent minority groups from attaining representation by simply omitting cumulative voting from meeting notices. This measure will clarify that the cumulative voting provisions under the Hawaii Nonprofit Corporations Act do not apply to planned community associations governed under the State's planned community association laws.

Your Committee has amended this measure by making mandatory the assumption that in computing whether a director is protected from removal, the votes against removal are cast in an election for the number of directors to the class to which the director to be removed belonged at the meeting at which the removal is proposed.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2685, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2942 Judiciary on S.B. No. 2297

The purpose and intent of this measure is to add the forfeiture of a vehicle as a punishment for being used in the commission of an illegal disposal of solid waste.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the illegal disposal of solid waste damages human health and the environment. Your Committee further finds that additional penalties for the illegal disposal of solid waste may deter the practice. This measure will protect human health and the environment by adding the forfeiture of a vehicle used in the commission of an illegal disposal of solid waste as a potential punishment.

Your Committee has amended this measure by:

- (1) Making the forfeiture penalty an optional penalty in addition to already existing penalties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2297, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2297, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Lee).

SCRep. 2943 Judiciary on S.B. No. 2137

The purpose and intent of this measure is to:

- (1) Require the Department of Health and pertinent county agencies to work together to resolve problems and complaints regarding clean and sober homes; and
- (2) Require the Department of Health to educate the public on certain matters related to clean and sober homes.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that Hawai'i continues to have limited resources for those in recovery to have a stable and safe environment in which to reside. Clean and sober homes are a critical strategy to assist in a person's recovery. Unfortunately, there are communities that have expressed frustration with the lack of oversight of clean and sober homes. This measure will help balance community education and the needs of those in clean and sober homes, which will help increase understanding and reduce misinformation about these important facilities.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2137, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Keohokalole).

SCRep. 2944 Judiciary on S.B. No. 2002

The purpose and intent of this measure is to:

- (1) Define "assistance animal" in the context of Hawaii law prohibiting discrimination in real property transactions; and
- (2) Codify the administrative process in verifying that a person requesting a reasonable accommodation that includes the use of an assistance animal has a disability and the assistance animal is needed to alleviate one or more symptoms of the person's disability.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communication Access Board, Hawai'i Association of REALTORS, Associa, and one individual.

Your Committee finds that under the federal and state fair housing laws, landlords may allow "assistance animals" in rental properties that otherwise do not allow pets. For landlords seeking to follow the fair housing laws, this can create problems discerning between a legitimate request from a person with a disability and those from persons who simply wish to keep a pet in their rental unit. This measure provides clarification on what information a landlord might reasonably request from an individual to verify the need for an assistance animal.

Your Committee has amended this measure by specifying that possession of a vest or other distinguishing animal garment, tag, or registration documents that are commonly purchased online and purporting to identify an animal as a service animal or assistance animal shall not constitute valid verification of a disability-related need for an assistant animal.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2002, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2002, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2945 Judiciary on S.B. No. 2835

The purpose and intent of this measure is to:

- (1) Prohibit health insurance companies from denying coverage on the basis of gender identity if the policy covers the treatment for purposes other than gender transition; and
- (2) Require insurance companies to provide applicants and insured persons with clear information about the coverage of gender transition services, including the process for appealing a claim denied on the basis of medical necessity.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, North Shore Ko'olau Diversity Collective, Northwest Society of Plastic Surgeons, American Society of Plastic Surgeons, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i Health & Harm Reduction Center, Hawai'i Public Health Institute, National Center for Transgender Equality, Transgender Law Center, AF3IRM Hawai'i, and thirty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Services Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Insurance Division, Hawaii Employer-Union Health Benefits Trust Fund, and Kaiser Permanente Hawaii.

Your Committee finds that many transgender individuals have experienced discriminatory treatment from health insurance providers when seeking coverage for gender-affirming treatments. Your Committee further finds that health insurance policies often cover therapies such as feminizing or masculinizing hormone therapies, voice therapies, chest augmentations or reductions, and genital

surgeries for other purposes but deny the same treatments for purposes of gender affirmation. This measure will prohibit health insurance companies from discriminating on the basis of gender identity.

Your Committee has amended this measure by:

- (1) Clarifying that references in the measure to a person's family member are to a person's transgender family member;
- (2) Removing language that would have required that no treatment or service shall be denied on the basis that it is not medically necessary unless a health care provider with experience in prescribing or delivering gender affirming treatment first reviews and confirms the appropriateness of the adverse benefit determination;
- (3) Specifying that a health care provider shall not apply categorical cosmetic or blanket exclusions to gender affirming treatment and, when prescribed as medically necessary gender affirming treatment, a health care provider shall not categorically exclude certain services;
- (4) Retaining the existing definitions of "actual gender identity" and "perceived gender identity";
- (5) Specifying that this measure is known as The Gender Affirming Treatment Act;
- (6) Specifying that nothing in this measure shall be construed to mandate coverage of a service that is not medically necessary and that this measure shall not be subject to any requirement pursuant to section 23-51, Hawaii Revised Statutes;
- (7) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2835, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2946 Judiciary on S.B. No. 2424

The purpose and intent of this measure is to require the Department of Human Services' Child Protective Services Unit to investigate all parties involved in a marriage, including the prospective spouse and any person giving written consent to a minor's marriage, and report its findings to the Family Court before the court approves the marriage when one of the parties to the marriage is a minor at the time of contracting the marriage and the other party is more than five years older than the minor.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Hawaii Youth Services Network, and three individuals. Your Committee received comments on this measure from the Department of Health and Department of Human Services.

Your Committee finds that there is growing recognition that child marriage is a human rights violation and a severe impediment to social and economic development. This has resulted in states and countries considering legislation to end the practice of allowing children to marry. Existing state law allows children as young as sixteen years of age to marry. State law further authorizes the Family Court to approve a marriage of a child who is fifteen years of age. Comparatively, sexual assault laws criminalize sexual conduct with a fifteen-year-old, though an exception is made if the fifteen-year-old is legally married to the sexual partner or the sexual partner is no more than five years older than the minor victim. This measure will balance certain protections with existing law.

Your Committee has amended this measure by:

- (1) Clarifying that written consent of the Family Court is required for a marriage when one of the parties to the marriage is a minor at the time of contracting the marriage and the other party is more than five years older than the minor;
- (2) Specifying that when the Department of Health receives an application for a license to marry where one of the parties is a minor and the other party is more than five years older than the minor, the Department of Health shall inform the parties that written consent of the Family Court is required;
- (3) Specifying that the Department of Health shall provide written notification of the application for a license to marry to the Child Protective Services Unit of the Department of Human Services, which shall investigate all parties involved in the marriage, including the prospective spouse and any person giving written consent to the minor's marriage;
- (4) Specifying that the Child Protective Services shall submit a report of its findings to the Family Court within a reasonable period of not more than two weeks from the date of the application for the license to marry;
- (5) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2424, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2424, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2947 Judiciary on S.B. No. 2877

The purpose and intent of this measure is to:

- (1) Allow a landlord or landlord's agent to charge an application screening fee at the time a rental application is processed for a residential property;
- (2) Cap the amount of an application screening fee at \$25 and prohibit fees to be charged for each member of a household;
- (3) Require the landlord or landlord's agent to provide a receipt for payment of the application screening fee and copy of any report obtained, if requested by the applicant, and within ten days of the applicant's request; and
- (4) Require the landlord or landlord's agent to return any unauthorized fee amounts to the applicant.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Commerce and Consumer Affairs; Department of Human Services; Partners in Care, Oahu's Continuum of Care; Catholic Charities Hawai'i; HOPE Services Hawai'i; and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and one individual.

Your Committee finds that application screening fees may be a significant barrier to housing for low-income residents, including elderly persons and individuals and families who are homeless or on the brink of homelessness. Excessive application fees are particularly egregious in those circumstances when a landlord or the landlord's agent receives numerous applications for one apartment, most of which are not seriously considered. Rather, the landlord or the landlord's agent takes advantage of their bargaining position to create a supplemental source of income merely by screening potential tenants. This measure sets a limit on the amount that could be charged to a prospective tenant, while still enabling landlords to be compensated for the expense associated with credit checks.

Your Committee has amended this measure by specifying that the landlord or the landlord's agent shall return to the applicant any amount of the application screening fee that is not used for the purposes authorized within thirty days after the landlord has submitted screening requests.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2877, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2877, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2948 Judiciary on S.B. No. 3373

The purpose and intent of this measure is to clarify the deadline for submitting written protests that are based on the content of a solicitation.

Your Committee received testimony in support of this measure from the State Procurement Office. Your Committee received testimony in opposition to this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that currently the law is potentially confusing regarding the deadline for submitting written protests that are based on the content of a solicitation. Your Committee finds that this measure clarifies the deadline requirements.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3373, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3373, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2949 Judiciary on S.B. No. 2623

The purpose and intent of this measure is to exclude from any waiting list maintained by the Department of Hawaiian Home Lands any lessee or successor who sells or transfers their lease on a tract of Hawaiian home lands.

Your Committee received comments on this measure from the Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that the practice of obtaining a Hawaiian home lands lease then selling or conveying it to others for a fee or other personal gain, then being placed on the waiting list to receive another lease is referred to as churning. Your Committee further finds that the large number of applications is due in part to an applicant being allowed to submit more than one application for the different awards of leases, such as pastoral, agricultural, and residential leases, where the applicant is eligible to apply for all three and hoping to receive just one award. With the number of applications continuing to grow, some eligible native Hawaiian beneficiaries may never obtain a lease or remain on the list for an extended number of years before receiving a Hawaiian Home Lands lease. Your Committee finds this practice of churning unacceptable, as it prevents many native Hawaiians from ever obtaining a lease, and that this practice must be prohibited to ensure fair distribution of leases to all beneficiaries.

Your Committee has amended this measure by inserting an effective date of upon its approval or as otherwise provided in section 5.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2623, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2623, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2950 Judiciary on S.B. No. 2118

The purpose and intent of this measure is to require the driver of a moped to be in immediate possession of a valid driver's license or instruction permit at all times.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, State of Hawaii Organization of Police Officers, and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the current language of section 291C-194, Hawaii Revised Statutes, has created confusion for law enforcement regarding its applicability. Section 291C-194, Hawaii Revised Statutes, is necessary to define the immediate license possession requirement specifically for moped operation and align with the same requirement for operators of all other motor vehicles covered under section 286-116, Hawaii Revised Statutes. This measure clarifies that moped drivers must always have a valid driver's license or instruction permit on their person while operating a moped.

Your Committee notes that when someone drives a car with a permit, they need a licensed driver in the car with them. Your Committee further notes that there are questions regarding the implication of being allowed to drive a moped with an instruction permit without a licensed driver.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2118, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2118, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2951 Judiciary on S.B. No. 2279

The purpose and intent of this measure is to:

- (1) Require used motor vehicle parts dealers to obtain a written statement that the seller has the lawful right to sell and dispose of a catalytic converter;
- (2) Require certain sellers to provide copies of receipts or a notarized declaration that contains specific information regarding the purchase or acquisition of a catalytic converter;
- (3) Require dealers to keep records of purchases and sales of catalytic converters, report purchases to the police department database, and tag and hold the catalytic converter for sixty days before selling or otherwise disposing of the catalytic converter;
- (4) Require dealers to pay for catalytic converters by check;
- (5) Establish the offense of theft of catalytic converter and make it a class C felony;
- (6) Require scrap dealers to keep records of purchases and sales of palladium, platinum, and rhodium and require scrap dealers to pay for palladium, platinum, and rhodium by check;
- (7) Establish that a scrap dealer who violates certain requirements shall be guilty of a class C felony; and
- (8) Require each county police department to establish a database to collect and maintain information reported by used motor vehicle parts licensees regarding purchased catalytic converters and to initiate education programs to encourage residents to take personal measures to prevent catalytic converter thefts.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Insurers Council, National Insurance Crime Bureau, Catholic Charities Hawai'i, AAA Hawaii, Schnitzer Steel Hawaii, and one individual.

Your Committee finds that in recent years, the State has seen an increase in the number of catalytic converters being stolen from vehicles and resold for profit. Catalytic converters contain precious metals such as platinum, palladium, and rhodium, making catalytic converters highly sought after by thieves due to their high resale value. A catalytic converter can be stolen in less than sixty seconds and cause extensive damage to a vehicle, leading to hundreds, if not thousands of dollars in repair costs. This measure will increase regulations on the sale of catalytic converters and make the theft of catalytic converter a class C felony, which will reduce the incentive for catalytic converter theft in the State.

Your Committee has amended this measure by:

- (1) Adopting the Department of Attorney General's proposed recommendation by specifying that a person commits the offense of theft of catalytic converter if that person commits theft of a catalytic converter under section 708, Hawaii Revised Statutes; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2279, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2952 Judiciary on S.B. No. 2396

The purpose and intent of this measure is to clarify that minors who reside in the same household as the victim of domestic abuse will not be compelled by the court to demonstrate that they are a victim of domestic abuse to be named a protected party in an order of protection or a temporary restraining order.

Your Committee received testimony in support of this measure from the Women's Caucus of the Democratic Party of Hawai'i, Hawai'i State Coalition Against Domestic Violence, Parents and Children Together, and three individuals.

Your Committee finds that children who witness abuse between parents are victims despite not being physically harmed because they have a higher risk for long-term physical and mental health problems. They have a greater risk of experiencing anxiety and depression and are more likely to resolve conflict by using violence. This measure will protect children by clarifying that a minor who resides in the same household as a victim of domestic abuse may be included in a petition for an order for protection or temporary restraining order and the court shall not require a minor to demonstrate the minor was a victim of domestic violence.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2953 Judiciary on S.B. No. 2292

The purpose and intent of this measure is to modernize the definition of "personal information" for the purposes of notifying affected persons of data and security breaches.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services; Department of Commerce and Consumer Affairs; Hawaiian Electric Company, Inc.; Fellow of Information Privacy; and Hawai'i Pacific Health. Your Committee received comments on this measure from the Hawaii Credit Union League, Hawaii Bankers Association, and Hawaii Financial Services Association, and one individual.

Your Committee finds that House Concurrent Resolution No. 225, Senate Draft 1, Regular Session of 2019, convened the Twenty-First Century Privacy Law Task Force, whose membership consisted of individuals in government and the private sector having an interest or expertise in privacy law in the digital era. Your Committee further finds that, following significant inquiry and discussion, the Twenty-First Century Privacy Law Task Force recommended that the outdated definition of "personal information" in chapter 487N, Hawaii Revised Statutes, which requires the public to be notified of data breaches, should be updated and expanded. This measure will help ensure that individuals are protected from data breaches which may place an individual at risk of identity theft or may compromise the individual's personal safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2292, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2954 Judiciary on S.B. No. 2824

The purpose and intent of this measure is to amend the minimum qualifications for members of the Board of Education.

Your Committee received testimony in support of this measure from HawaiiKidsCAN. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that Hawaii continues to be a place that is losing population and research shows that a significant number of young and educated former residents now call other states their home. Addressing and fundamentally changing this trajectory will require cross-sector strategies that look at how we are equipping our young people to live, play, and work in Hawaii. However, as educational opportunities and schools continue to become more innovative and sophisticated, policy leaders at the Hawaii Board of Education will increasingly need to understand and foresee how the K-12, higher education, and workforce sectors dynamically intersect, and how technology and entrepreneurial skills will play a larger role into the future. This measure will leverage the diverse perspectives and backgrounds in our community to chart a new and better course for local education.

Your Committee notes that there are questions as to what the qualifications in the measure specifically require and how it will be determined that members of the Board of Education are in compliance.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2955 Judiciary on S.B. No. 3023

The purpose and intent of this measure is to allow the Real Estate Commission to revoke or suspend a license, or fine a licensee, for advertising, promoting, representing, receiving any remuneration for, or offering for rent any transient vacation units and whole-home short-term rentals unless the unit or rental is permitted by the relevant county.

Your Committee received testimony in support of this measure from the Real Estate Commission and three individuals. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that illegal transient vacation units and whole-home short-term rentals adversely affect housing availability and affordability for Hawai'i residents. Some real estate agents are directly or indirectly involved in the unauthorized short-term vacation rental industry. This measure prohibits real estate agents from advertising, promoting, representing, receiving remuneration for, or offering for rent any illegal vacation unit or whole-home short-term rental.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3023, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2956 Judiciary on S.B. No. 2161

The purpose and intent of this measure is to:

- (1) Require the exterior of the envelope containing the ballot package for elections by mail to include instructions on how to obtain language translation services in Hawaiian and certain other non-English languages; and
- (2) Apply to all elections beginning with the 2024 primary election.

Your Committee received testimony in support of this measure from the Office of Elections, Office of Language Access, Hawai'i State Association of Parliamentarians, League of Women Voters of Hawaii, Hawai'i Friends of Civil Rights, Stonewall Caucus of the Democratic Party of Hawai'i, Common Cause Hawaii, Hawai'i Coalition for Immigrant Rights, and six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the City and County of Honolulu Elections Division.

Your Committee finds that Hawai'i is the most diverse state in the country with a diversity index of seventy-six percent. The April 2016 Department of Business, Economic Development, and Tourism Research and Economic Analysis Division report on the non-English speaking population in Hawai'i indicated that the number of non-English speakers at home increased by forty-four percent from 1980 to 2014, and that Ilocano, Tagalog, and Japanese were the top three most common non-English languages spoken at home, comprising approximately half of the non-English speakers. Your Committee further finds that language translation services are already required and used by the State and counties for in-person voting. This measure will ensure that limited English proficient voters are informed about how to obtain language translation services when voting by mail.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2161, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2957 Judiciary on S.B. No. 2711

The purpose and intent of this measure is to:

- (1) Specify additional exceptions under child labor laws to include certain work-based learning programs;
- (2) Define youth vocational training program or internship; and
- (2) Allow employment in youth vocational training programs or internships under chapter 390, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from HawaiiKidsCAN, Chamber of Commerce Hawaii, and four individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations and Department of Education.

Your Committee finds that state child labor laws must not unnecessarily stifle student access to quality work-based learning and internship opportunities. Local work-based learning, internship, and apprenticeship programs would benefit from an update to state its child labor law exemptions to align with best practices from around the country. This measure amends the child labor laws by making them less restrictive, which will encourage employers to provide more on-the-job training.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2711, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2958 Judiciary on S.B. No. 2707

The purpose and intent of this measure is to:

- (1) Require the employer to initiate negotiations on repricing of classes within a bargaining unit within thirty days of its receipt of the exclusive representative's written request to negotiate; and

- (2) Establish that the employer's failure to initiate the negotiation within such time frame and the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate or by January 31 of a year in which the collective bargaining agreement is due to expire, whichever is earlier, constitute an impasse to which the impasse procedures in section 89-11, Hawaii Revised Statutes, shall apply.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development, City and County of Honolulu Department of Human Resources, and County of Maui Department of Personnel Services. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that having a reasonable timetable to negotiate repricing of classes within a bargaining unit will help to ensure that public employees are being paid competitive and fair wages. By promoting access to fair and competitive wages, the State and counties would be able to recruit and retain workers to help to address any outstanding vacancies and prevent high turnover for these positions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2707 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2959 Judiciary on S.B. No. 2494

The purpose and intent of this measure is to:

- (1) Prohibit landlords from recovering possession of a dwelling unit from tenants if habitability of the dwelling unit is significantly impaired;
- (2) Set a tenant's liability for rent if habitability of the dwelling unit is significantly impaired; and
- (3) Provide remedies for retaliatory evictions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Department of Human Services. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that the warranty of habitability is a principle based on contract law, wherein the tenant is responsible for paying rent while the landlord guarantees in return that the premises are habitable and in compliance with health, safety, and building codes. The Hawaii Supreme Court has recognized the warranty of habitability, but it has not been codified in statute, resulting in it being largely unenforced.

Your Committee further finds that existing state law allows a tenant to deduct up to \$500 from the next month's rent for the cost of repairs if the landlord does not respond to the tenant's written repair request within twelve business days. However, costs to repair conditions that materially affect health and safety can exceed \$500, leaving the tenant with limited recourse. Hawaii renters already face one of the least affordable rental markets in the nation and eviction directly fuels homelessness, another epidemic facing the State. Accordingly, this measure codifies the warranty of habitability and sets minimum damages and establishes remedies for tenants who have suffered retaliatory evictions for reporting uninhabitable conditions. This measure also promotes incentivizing landlords to keep their rental unit in a safe and sanitary condition and protects landlord-tenant equity in Hawai'i.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 2960 Judiciary on S.B. No. 2158

The purpose and intent of this measure is to provide flexibility in the use of sirens by emergency response vehicles in certain circumstances.

Your Committee received testimony in support of this measure from the Chinatown Gateway Plaza Tenant Association, two individuals, and a petition containing the signatures of approximately ninety-six individuals.

Your Committee finds that the City and County of Honolulu has ordinances expressing that emergency vehicles should use sirens "as may be reasonably necessary". Your Committee further finds that the unnecessary use of a siren contributes to noise pollution, particularly in densely populated residential areas. This measure will promote the reduction of noise pollution by providing flexibility in the use of sirens by emergency response vehicles in certain circumstances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2158 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2961 Judiciary on S.B. No. 2072

The purpose and intent of this measure is to require the court to appoint counsel to indigent parents upon the filing of a petition for custody or family supervision and make every effort to do so at the first hearing attended by the parents.

Your Committee received testimony in support of this measure from the Health Committee of the Democratic Party of Hawai'i, National Coalition for a Civil Right to Counsel, and ACLU of Hawai'i.

Your Committee finds that the Hawaii Supreme Court held in *In re L.I.*, 149 Hawaii 118 (2021), that parents are constitutionally entitled to counsel upon the filing of a petition for either custody or family supervision and that the failure to timely appoint counsel in those cases constitutes structural error requiring reversal. Your Committee further finds that as currently written, the Hawaii Revised Statutes does not require the court to appoint counsel to indigent parents in custody or family supervision proceedings. Instead, as currently written, the appointment of counsel to indigent parents is discretionary. This measure therefore requires that the court appoint counsel to indigent parents in custody or family supervision proceedings, which will ensure that indigent parents have the right to counsel when a child's placement and care is at stake.

Your Committee notes that there are questions as to whether the scope of the measure adequately addresses which proceedings parents should be appointed counsel for and whether it includes proceedings involving the termination of parental rights.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2072, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2962 Judiciary on S.B. No. 872

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission or the Chairperson's designee to serve as an ex officio, voting member on the Commission on Water Resource Management.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Environmental Caucus of the Democratic Party of Hawai'i, League of Women Voters of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the State Water Code requires that adequate reserves of water for current and foreseeable development of Hawaiian home lands be incorporated into and protected by the decisions of the Commission on Water Resource Management. Your Committee finds that there would be stronger adherence to this requirement if the Commission on Water Resource Management included a representative of the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 872, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2963 (Joint) Judiciary and Ways and Means on S.B. No. 2305

The purpose and intent of this measure is to clarify that the comprehensive offender reentry system provides programs and services that result in the timely release of inmates on parole when the minimum term, rather than the maximum term, has been served by the inmate.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawai'i Health & Harm Reduction Center, and Community Alliance on Prisons. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that prioritizing reentry planning and comprehensive treatment, education, and support services should start at the beginning of incarceration, not at the tail end of a person's incarceration. Given that nearly ninety-five percent of people incarcerated in state jails and prisons will eventually be released and return home, the State should invest in comprehensive reentry programs and services from day one of incarceration. This measure will promote public safety by clarifying that the comprehensive offender reentry system provides programs and services that result in the timely release of inmates on parole when the minimum term, rather than the maximum term, has been served by the inmate.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2305 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 7. Noes, none. Excused, none.
Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2964 Commerce and Consumer Protection on S.B. No. 3136

The purpose and intent of this measure is to require a dispenser of a controlled substance to either:

- (1) Report the filling of a controlled substance prescription to the State's Electronic Prescription Accountability System in real-time; or
- (2) Report "zero" not less than once every seven days if no controlled substances prescriptions are filled.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that section 329-101(d), Hawaii Revised Statutes, is not in line with the national trend of requiring real-time reporting of data to track the dispensing of controlled substances. Real-time reporting develops a critical body of timely and relevant data for health care professionals with prescriptive authority. Your Committee further finds that a zero-reporting requirement provides

accountability in the dispensing of controlled substances and aids in the enforcement of related laws. Accordingly, your Committee finds that this measure promotes the responsible prescribing and dispensing of controlled substances by aligning existing law with national best practices.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3136, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2965 Ways and Means on S.B. No. 2165

The purpose and intent of this measure is to amend the income tax credit for low-income household renters.

More specifically, this measure:

- (1) Adjusts the eligibility requirements for the tax credit;
- (2) Establishes income thresholds that will phase out the credit as the taxpayer's income rises; and
- (3) Adjusts the amount of the tax credit every three years, based on the Urban Hawaii Consumer Price Index.

Your Committee received testimony in support of this measure from Planned Parenthood Alliance Advocates, Hawaii Alliance for Community-Based Economic Development, Pono Hawaii Initiative, Americans for Democratic Action, League of Women Voters of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Imua Alliance, Democratic Party of Hawaii Education Caucus, Hawaii Children's Action Network Speaks!, and eight individuals.

Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that the amount of the income tax credit for low-income household renters, \$50 per exemption, has not changed since 1981, and the income threshold to qualify for the tax credit has not changed since 1989. Your Committee also finds that this measure updates the tax credit amount and establishes a series of income thresholds to better target lower-income taxpayers. Your Committee further finds that the provisions authorizing automatic increases to the tax credit will help the tax credit adjust to inflation without the need for future statutory amendments by the Legislature.

Your Committee has amended this measure by:

- (1) Repealing the current \$50 per exemption tax credit amount;
- (2) Specifying that eligibility to claim the tax credit shall apply based upon a taxpayer's federal adjusted gross income;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2165, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2165, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 2966 Ways and Means on S.B. No. 2599

The purpose and intent of this measure is to amend certain requirements and limitations of the tax credit for research activities.

More specifically, this measure:

- (1) Establishes a cap on the amount of tax credits for research activities that an eligible taxpayer and the taxpayer's related entities may receive per taxable year;
- (2) Requires every qualified high technology business, to be eligible to receive tax credits for research activities, to submit additional information to the Department of Business, Economic Development, and Tourism;
- (3) Amends the annual aggregate cap on tax credits for research activities that the Department of Business, Economic Development, and Tourism may certify; and
- (4) Requires certification of tax credits for research activities on a first-come, first-served basis to be based on the date and time that a complete application is received, subject to certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Oceanit Laboratories, Inc.; Nalu Scientific, LLC; Simonpietri Enterprises, LLC; and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that establishing a cap amount on the tax credit for research activities will allow a greater number of companies to receive the tax credit.

Your Committee has amended this measure by:

- (1) Clarifying the entities that are subject to the cap amount on the tax credit for research activities;
- (2) Clarifying that the Department of Business, Economic Development, and Tourism shall certify the tax credit for research activities on a first-come, first-served basis, based on the date that a complete application is received; provided that complete applications received on the same date shall be certified on a pro rata basis;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2599, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 2967 Judiciary on S.B. No. 2027

The purpose and intent of this measure is to amend provisions relating to first degree murder, adding that a person commits the offense of first degree murder if:

- (1) The person knowingly or intentionally causes the death of another person that is less than fourteen years old or pregnant with a viable fetus; or
- (2) The murder was especially heinous, atrocious, or cruel, manifesting exceptional depravity.

Your Committee received testimony in support of this measure from the Hawaii Family Forum and twenty-eight individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Hawaii State Coalition Against Domestic Violence, and Save Medicaid Hawaii. Your Committee received comments on this measure from the Judiciary, Hawai'i State Commission on the Status of Women, Honolulu Police Department, and two individuals.

Your Committee finds that many other states include children as individuals deserving of heightened protection in their murder statutes. This measure will better protect the people of Hawaii by adding that a person commits the offense of first degree murder if the person knowingly or intentionally kills a pregnant woman, child under the age of ten, or if the murder was especially heinous, atrocious, or cruel, manifesting exceptional depravity.

Your Committee has amended this measure by:

- (1) Reducing the required age of the victim from less than fourteen years old to less than ten years old for the offense of first degree murder;
- (2) Clarifying language to require the person killed to have been pregnant for the offense of first degree murder;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2027, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2968 Judiciary on S.B. No. 3172

The purpose and intent of this measure is to require any electronic audio or visual recording of a board meeting to be maintained as public record and to clarify that complete minutes of the meetings are still required.

Your Committee received testimony in support of this measure from Common Cause Hawaii, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, Hawaii Chapter of the Society of Professional Journalists, and seven individuals. Your Committee received comments on this measure from the Office of Planning and Sustainable Development and Office of Information Practices.

Your Committee finds that opening the governmental process to public scrutiny and participation is important to protect the public's interests. Discussions, deliberations, decisions, and actions of governmental agencies in the formation and conduct of public policy should be conducted as openly as possible. Your Committee further finds that audio or visual recordings are not a substitute for complete written minutes. Many members of the public are interested but do not have the ability to attend meetings, nor the time or technology to listen to recordings, and those persons are therefore unnecessarily prevented from participating in the process. This measure will provide the public with as much access and information as possible of the ongoings of board meetings.

Your Committee has amended this measure by:

- (1) Clarifying that any electronic audio or video recording of any board meeting be made by or on behalf of the board;
- (2) Specifying that only one version of any electronic audio or video recording of any board meeting shall be kept as a public record;
- (3) Removing language requiring that a written summary accompany any board minutes; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3172, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2969 Judiciary on S.B. No. 2147

The purpose and intent of this measure is to:

- (1) Extend by one month the deadline by which nomination papers for candidates for elected office shall be made available; and
- (2) Repeal on the same date of the repeal of section 4 of Act 14, Session Laws of Hawaii 2021.

Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that in February 2021, the U.S. Census Bureau announced that it would likely delay delivery of the 2020 census results to the fifty states by as much as six months or more. This created delays with the 2021 Reapportionment and Redistricting Plan in the State. Your Committee further finds that reapportionment should occur before a candidate for the 2022 election is issued a nomination paper to ensure that the candidate not only meets the residency requirements, but also collects signatures from voters in the correct district. This measure provides for additional time for nomination papers to be made available.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2147, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2970 Judiciary on S.B. No. 555

The purpose and intent of this measure is to require a notice of intent for all campaign fundraisers held by incumbent legislators or candidates for legislative office during a Regular or Special Session of the Legislature regardless of price or suggested contribution amount.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure, which deletes the contents of the measure and inserts language to prohibit legislators and employees and persons acting on behalf of legislators from holding any fundraiser during a regular legislative session or special session.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Pono Hawai'i Initiative; Common Cause Hawaii; Chamber of Sustainable Commerce; Community Alliance on Prisons; Hawaii Advocates for Consumer Rights; Hawaii Family Advocacy Team; When We Shine Foundation; League of Women Voters of Hawaii; FREE ACCESS COALITION; We Are One, Inc.; Hawai'i Alliance for Progressive Action; Kokua Council; and eighty-six individuals.

Your Committee finds that there are concerns of growing apathy and lack of participation in the government process due partially to the lack of faith and trust in the government. This measure will ban fundraisers during legislative sessions, which will help to restore trust in the state legislative process.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 555, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 555, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2971 Judiciary on S.B. No. 2094

The purpose and intent of this measure is to clarify that all individuals charged with a felony offense or convicted of certain offenses are prohibited from possessing a firearm.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and Council of Honolulu and six individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that currently, section 134-7(b), Hawaii Revised Statutes, prohibits firearm ownership or possession for individuals who are under indictment, have waived indictment, are "bound over" to the circuit court, or have been convicted of a felony offense, crime of violence, or an illegal sale of drugs. Notably, when section 134-7, Hawaii Revised Statutes, was initially codified in 1988, one mechanism for charging offenses had not yet been established. In 2004, the Legislature passed Act 62, Session Laws of Hawaii 2004 (Act 62), creating the procedure commonly known as "information charging", whereby criminal felony charges can be initiated by a written document submitted by the prosecutor and approved by the court. Unfortunately, when Act 62 was passed, it appears there was an oversight in not including information charging under section 137-4(b), Hawaii Revised Statutes. There is no indication that this was done intentionally, as the plain language of section 137-4(b), Hawaii Revised Statutes, as written, would arguably allow some individuals to own or possess a firearm, but prohibit others from owning or possessing a firearm, even if they are

charged with the same felony offense, depending on whether that person was charged via information charging or another method originally listed under section 137-4(b), Hawaii Revised Statutes. This measure will ensure that, regardless of what procedure is used to charge a defendant with a felony offense, in Hawai'i or elsewhere, all individuals charged with a felony offense or convicted of certain offenses are prohibited from possessing a firearm.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2094 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2972 Judiciary on S.B. No. 2121

The purpose and intent of this measure is to require that environmental impact statements consider whether the proposed action will exacerbate socioeconomic disparities.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawai'i Public Health Institute, and Sierra Club of Hawai'i. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and three individuals. Your Committee received comments on this measure from the State Environmental Advisory Council.

Your Committee finds that vulnerable communities and neighborhoods have been historically overlooked, and systematically under-resourced, resulting in socioeconomic disparities across Hawaii. The coronavirus disease 2019 (COVID-19) pandemic has highlighted these preexisting vulnerabilities and conditions. Your Committee recognizes the need to ensure present and future generations' physical, social, and economic equity and well-being. This measure will ensure that agency decisionmakers assess the impact of proposed actions on socioeconomic disparities as part of the environmental review process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2121, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2973 Judiciary on S.B. No. 2046

The purpose and intent of this measure is to amend provisions relating to dates and deadlines in statutory provisions governing political parties.

Your Committee received testimony in support of this measure from the Office of Elections and one individual. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that every election year, qualified political parties must submit their current party rules and provide the names and addresses of their central committee officers and respective county committee officers. The deadline to submit the party rules and officers should be on the same day for qualified political parties. This measure aids qualified parties in keeping track of and facilitating compliance with deadlines.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2046 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2974 Judiciary on S.B. No. 3329

The purpose and intent of this measure is to:

- (1) Amend the scope of chapter 643F, Hawaii Revised Statutes; and
- (2) Limit the requirement that discovery in certain legal proceedings be suspended upon the filing of certain motions to dispose of a claim to only the responding party on the applicable claim.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and one individual.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language to:

- (1) Repeal chapter 634F, Hawaii Revised Statutes; and
- (2) Enact the Uniform Public Expression Protection Act.

Your Committee received testimony in support of the proposed S.D. 1 from the Uniform Law Commission, Commission to Promote Uniform Laws, Mālama Pūpūkea-Waimea, American Civil Liberties Union of Hawai'i, League of Women Voters of Hawaii, Surfrider Foundation, Sierra Club of Hawai'i, UNITE HERE Local 5, Motion Picture Association, Climate Protectors Hawai'i, Common Cause Hawaii, Hawai'i's Thousand Friends, Center for Biological Diversity, The Outdoor Circle, Hawaii Association for Justice, and five individuals.

Your Committee finds that the enactment in 2002 of Hawai'i's Citizen Participation in Government Act, codified as chapter 634F, Hawaii Revised Statutes, was intended to promote the rights of citizens to vigorously participate in government and to protect citizens from the chilling effect of retributive "strategic lawsuit[s] against public participation" or "SLAPP" suits. To minimize the damage of SLAPP claims against citizens, Hawai'i's "Anti-SLAPP" law seeks to shift the burden of litigation back to the party bringing the SLAPP claim by providing for expedited judicial review, a stay on discovery, and sanctions. Your Committee further finds that despite the broad intentions of the Legislature that the law "shall be construed liberally to fully effectuate its purposes and intent", section 634F-4, Hawaii Revised Statutes, Hawai'i's Anti-SLAPP law, has not been effective at protecting citizen participation. Your Committee also finds that the Uniform Law Commission, also known as the National Conference of Commissioners on Uniform State Laws, established in 1892, provides states with non-partisan, well-conceived, and well-drafted legislation that brings clarity and stability to critical areas of state statutory law. This measure will protect public participation at all levels of government, with procedural protections for all parties, and clearer instructions for the courts on how to fairly and expeditiously dispose of SLAPP claims to ensure citizens are protected from punitive SLAPP suits.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3329, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2975 (Majority) Judiciary on S.B. No. 3244

The purpose and intent of this measure is to repeal the definition of permanent resident for legislative reapportionment purposes.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Americans for Democratic Action Hawai'i and two individuals. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that reapportionment is the process of re-distributing seats for elected officials so that the seats are relatively evenly distributed based on the resident population. The Hawaii State Constitution requires that reapportionment for state senators and representatives be based on the average number of "permanent residents" in each district. Any resident not deemed permanent, even if included in the decennial United States census is extracted from the total used by the State Reapportionment Commission, and therefore not factored into the allocation of state senate and house districts. This measure will ensure that all individuals that are extracted but live in a specific area are counted for representation purposes for that district regardless of whether they are permanent residents.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3244, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, 1 (Acasio). Excused, none.

SCRep. 2976 Judiciary on S.B. No. 2660

The purpose and intent of this measure is to:

- (1) Allow defendants who enter deferred acceptance of nolo contendere pleas to have the conviction vacated if conditions are met; and
- (2) Specify that the three-year period begins after the original deferral of the nolo contendere plea.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, The Legal Clinic, American Civil Liberties Union of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of the Public Defender.

Your Committee finds that section 712-1209.6, Hawaii Revised Statutes, allows defendants convicted of prostitution to file a motion to vacate the conviction if the defendant is not subsequently convicted of any other crime within three years after the original conviction. However, section 712-1209.6, Hawaii Revised Statutes, fails to include immigrant defendants charged with prostitution who, instead of going to trial or entering a traditional guilty or nolo contendere plea, entered a deferred acceptance of a nolo contendere plea or deferred acceptance of a guilty plea. Under immigration law, a conviction is defined as a plea of guilty or nolo contendere and the judge has ordered some form of punishment. Under this definition, a deferred acceptance of nolo contendere plea or a deferred acceptance of a guilty plea is still considered a conviction in immigration law. As a result, many immigrant defendants receive deferred acceptance of nolo contendere pleas or deferred acceptance of guilty pleas for prostitution, comply with the terms of the court, have their plea dismissed and expunged, and still are arrested by U.S. Immigration and Customs Enforcement and put into removal proceedings. Because section 712-1209.6, Hawaii Revised Statutes, does not include these types of pleas, or acknowledge them as convictions, these clients are unable to utilize the vacatur and get their immigration case dismissed. This measure will give immigrant

defendants an opportunity to avoid the adverse immigration consequences of their deferred acceptance of nolo contendere and deferred acceptance of guilty pleas by allowing defendants who enter deferred acceptance of nolo contendere or guilty pleas to have the plea vacated if conditions are met.

Your Committee has amended this measure by:

- (1) Allowing a person's deferred acceptance of nolo contendere plea or deferred acceptance of guilty plea to be vacated;
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2660, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2660, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2977 (Joint) Government Operations and Ways and Means on S.B. No. 2940

The purpose and intent of this measure is to require state departments, agencies, boards, and commissions to develop policies under which eligible employees may be authorized to telework.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Office of Enterprise Technology Services, and one individual. Your Committees received testimony in opposition to this measure from the Department of Human Resources Development; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees find that the global coronavirus disease 2019 pandemic has placed a historic strain on the continuity of state and local government operations. Telework rapidly emerged as a critical tool in the provision of essential services, while maintaining public health and safety protocols. Your Committees further find that telework has the potential to reduce strain on the State's physical infrastructure and increase adaptability by developing a flexible and distributed work force. Telework can also promote the State's environmental goals by reducing traffic congestion and related carbon emissions. Accordingly, this measure will promote the development of teleworking as a permanent aspect of state government and ensure consistency in telework policies across state departments.

Your Committees note the testimony of the Office of Enterprise Technology Services, suggesting the provision of cybersecurity training. Your Committees also note the testimony of the Department of Human Resources Development, identifying the Telework Program Guidelines adopted by the Department in 2010 (Telework Policy) and ongoing collective bargaining related to teleworking that will result in updates to the Telework Policy.

Your Committees have therefore amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Designating the Department of Human Resources Development as the agency responsible for the State's telework policy;
- (3) Adopting the Department of Human Resources Development's recommendations on the definition of "telework" and regarding telework policy;
- (4) Deleting various requirements of specific state departments;
- (5) Clarifying the State's telework policy;
- (6) Clarifying that this measure shall not infringe on collective bargaining under chapter 89, Hawaii Revised Statutes, related to teleworking;
- (7) Requiring the Department of Human Resources Development to:
 - (A) Regularly update the Telework Policy, which shall be the State's telework policy;
 - (B) Make the Telework Policy, as updated, publicly available to all employees by publication on its website;
 - (C) Provide all state department heads, relevant staff, and eligible employees with interactive training programs, including best practices for teleworking and cybersecurity; and
 - (D) Consult and work with the Department of Accounting and General Services regarding any necessary reallocation of office space or resources;
- (8) Clarifying the Department of Human Resources Development's reporting requirements;
- (9) Deleting the Department of Human Resources Development's research requirements;
- (10) Appropriating an unspecified amount of funds for the expenses required to implement this measure and the establishment of two full-time equivalent (2.0 FTE) positions within the Department of Human Resources Development;
- (11) Making the appropriation contingent on the completion and publication of the updated Telework Policy;
- (12) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2940, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2940, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4; Ayes with Reservations (Chang). Noes, none. Excused, 1 (Fevella).

Ways and Means: Ayes, 9; Ayes with Reservations (Misalucha, Taniguchi). Noes, none. Excused, 2 (Kidani, Fevella).

SCRep. 2978 (Joint) Water and Land and Ways and Means on S.B. No. 3225

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources to prepare all studies to determine the health and safety issues of flooding to surrounding areas and safe removal or retirement of a dam or reservoir upon the request of a homeowner association or homeowner of property where a dam or reservoir is situated; and
- (2) Appropriate funds for a two-year pilot program to study dam removal in counties with a population of less than two hundred thousand people.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to:

- (1) Establish a dam and spillway improvement loan program for eligible expenses for plans, design, construction, and equipment used to improve deficient dams and spillways as determined by the Department of Land and Natural Resources;
- (2) Establish a dam and spillway improvement revolving fund for deposit of proceeds from the dam and spillway improvement loan program;
- (3) Establish a dam and spillway improvement grant program to provide private dam owners with funds for plans, design, construction, and equipment used to improve deficient dams and spillways as determined by the Department of Land and Natural Resources; and
- (4) Establish a dam and spillway improvement tax credit for qualifying expenditures for the improvement of deficient dams and spillways.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Land and Natural Resources. Your Committees received comments on the proposed S.D. 1 from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committees find that some plantation era reservoirs across the State, including locations on Maui County, are on lands sold by plantation landowners to developers. Following the sale, developers constructed subdivisions, often including dams and reservoirs within deeds to the homeowners or a homeowner's association. Some dams and spillways located on private subdivisions are not properly maintained, leading to significant risks from flooding during extreme weather. As costly permits are required to conduct repairs or removal of dams, many dams remain in unsafe, deficient states.

Your Committees have heard the concerns of the Department of Land and Natural Resources and the Department of the Attorney General that the proposed S.D. 1, as drafted, would not specify eligible dams, grant eligibility requirements, and appropriate funds and positions needed to administer the proposed dam and spillway improvement grant and loan programs. According to the Department of Land and Natural Resources, dams provide many beneficial uses, and approximately ninety-three dams out of one hundred twenty-seven dams regulated by the Department of Land and Natural Resources are fully or partly privately owned. To incentivize private dam owners to maintain their dam's beneficial use, the Department of Land and Natural Resources would need initial assistance and clarification on program terms to effectively offer its support to address ongoing issues from deficient dams and spillways. Amendments are therefore necessary to address the concerns raised by the Department of Land and Natural Resources and the Department of the Attorney General to strengthen the dam and spillway improvement grant and loan programs.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Clarifying that deficient high hazard and significant high hazard dams and spillways shall be eligible under the dam and spillway improvement loan program;
- (2) Deleting the proposed requirement that all dam and spillway owners participating in the dam and spillway loan program to be licensed to conduct business in the State;
- (3) Requiring that all loans approved under the dam and spillway improvement loan program shall be subject to conditions imposed by the Board of Land and Natural Resources;
- (4) Including loan moneys as a permitted expenditure under the dam and spillway improvement revolving fund;
- (5) Deleting the requirement that private dam and spillway owners must be licensed to conduct business in the State to receive grants awarded by the Department of Land and Natural Resources;
- (6) Requiring that all grants approved under the dam and spillway improvement grant program shall be subject to conditions imposed by the Board of Land and Natural Resources;
- (7) Specifying eligibility requirements for the dam and spillway improvement grant program;
- (8) Inserting a blank appropriation amount to:

- (A) Provide one-time seed funding for the initial administration of the dam and spillway improvement loan and grant program; and
- (B) Establish three new positions in the Department of Land and Natural Resources, which include a planner, business loan officer, and accountant;
- (9) Amending section 1 to reflect its amended purpose;
- (10) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3225, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3225, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Ways and Means: Ayes, 8. Noes, none. Excused, 3 (Shimabukuro, Taniguchi, Fevella).

SCRep. 2979 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2290

The purpose and intent of this measure is to:

- (1) Beginning July 1, 2022, ban the manufacture of personal care products in the State, except non-prescription drugs, that contain plastic microbeads;
- (2) Beginning July 1, 2023, ban the sale or offer for sale of personal care products in the State, except non-prescription drugs, that contain plastic microbeads;
- (3) Beginning July 1, 2023, ban the manufacture of non-prescription drug products in the State that contain plastic microbeads;
- (4) Beginning July 1, 2024, ban the sale of non-prescription drugs in the State that contain plastic microbeads; and
- (5) Exempt from this measure any rinse-off cosmetic that is also a non-prescription drug regulated under the federal Microbead-Free Waters Act of 2015.

Your Committees received testimony in support of this measure from the Department of Health, Animal Rights Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawai'i, Hawai'i Food Industry Association, and Personal Care Products Council. Your Committees received comments on this measure from Beach Environmental Awareness Campaign Hawai'i and Hawai'i Reef and Ocean Coalition.

Your Committees find that the accumulation and impacts of microplastic particles in the ocean is an important environmental issue and every effort should be made to decrease microplastic pollution in the State's waters and protect the marine environment. Microbeads are unnecessary plastic additives that can make their way into waterways and oceans, which are then ingested by marine life, and can eventually end up in human food sources. Your Committees note the federal Microbead-Free Waters Act of 2015 and further recognize this measure addresses only those products that are not preempted under federal law to support all possible efforts to minimize microplastic pollution.

Your Committees have amended this measure by:

- (1) Inserting the provisions of this measure into chapter 321, rather than chapter 328, Hawai'i Revised Statutes;
- (2) Amending the definition of "personal care product" to include hygiene, skin care, or sun protection products;
- (3) Amending the definition of "plastic microbead" to mean a plastic particle that is less than five millimeters in size;
- (4) Amending section 1 to specify the environmental rationale for the prohibition on plastic microbeads; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2290, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2290, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2980 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2556

The purpose and intent of this measure is to repeal Chapter 157, Hawaii Revised Statutes, commonly referred to as the Milk Control Act.

Your Committees received testimony in support of this measure from Hawaii Foodservice Alliance, LLC. Your Committees received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committees find that the Milk Control Act was established in 1967 to strengthen and regulate the State's dairy industry at a time when over-production and unfair pricing schemes threatened to undermine the industry. The State is no longer self-sufficient in milk and the Department of Agriculture currently does not set minimum prices. The remaining complex regulatory hurdles have

imposed high costs on local producers and negatively impacted their ability to compete against dairy products from the mainland. Accordingly, repealing the Milk Control Act will encourage local milk production and increase the State's food security and resiliency.

Your Committees have amended this measure by:

- (1) Requiring the moneys remaining in the Milk Control Special Fund to be used to refund fees paid by licensees within the two years prior to the effective date of this measure, and any remaining balance thereafter to be paid to the Department of Agriculture to assist the dairy industry to promote cooperatives and support the continued production of milk in the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2556, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2556, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2981 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2212

The purpose and intent of this measure is to hold telecommunication service providers and third-party spoofing providers accountable by making certain robocalls and spoofing unlawful.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection, Maui County Office on Aging, Hawaiian Telcom, and one individual. Your Committees received testimony in opposition to this measure from CTIA and one individual. Your Committees received comments on this measure from the Department of the Attorney General and Department of Health.

Your Committees find that nearly sixty million Americans say that they have fallen victim to a phone scam in the past year. According to a survey conducted by TrueCaller and The Harris Poll, Americans have been swindled out of more than \$30 billion over the past year in total. Your Committees further find that this measure seeks to prohibit many of the same practices regulated by the federal Truth in Caller ID Act of 2009, Public Law 111-331, and provides another tool for state law enforcement to hold telecommunication service providers and third-party spoofing providers accountable.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2212, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2212, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2982 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2977

The purpose and intent of this measure is to:

- (1) Establish standards for farm owners or operators to confine egg-laying hens;
- (2) Effective June 30, 2027, prohibit a business owner or operator from selling shell eggs or egg products that are produced by egg-laying hens that were confined in a cruel manner, with exceptions; and
- (3) Establish penalties.

Your Committees received testimony in support of this measure from the Hawaiian Humane Society, Animal Rights Hawai'i, Hawaiian Airlines, Down to Earth, Villa Rose, Animal Equality, Humane Society of the United States, Animal Outlook, Compassion in World Farming, Friends of the Earth, World Animal Protection, Animal Legal Defense Fund, The Humane League, American Society for the Prevention of Cruelty to Animals, Human Society International, Mercy for Animals, Farm Sanctuary, Natural Resources Defense Council, Center for Biological Diversity, and seven individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture, Hawai'i Farm Bureau, and one individual.

Your Committees find that there is increasing public concern for the way in which farm animals are treated, especially for matters affecting food safety and public health, as there have been scientifically proven connections between animal welfare and zoonotic disease. Most eggs currently sold in the State come from industrial factory farms that confine hens in extremely small spaces, often in barren wire cages. This measure establishes minimum standards for housing egg-laying hens and certain sales provisions to ensure that eggs sold in the State come from operations that meet modest standards, regardless of where they are produced.

Your Committees further find that, due to concerns raised by the Department of Agriculture, it is appropriate to amend this measure to include a defective effective date to encourage further discussion but note that a number of testifiers in support of this measure requested the provisions of the measure commence on January 1, 2025.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that it shall be unlawful for business owners or operators to engage in the sale of any shell egg or egg product that the business owner or operator knows or should have known was produced by an egg-laying hen that was confined in a manner that violates best practices for humanely housing egg-laying hens;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2977, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2977, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2983 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2032

The purpose and intent of this measure is to:

- (1) Require direct-to-consumer genetic testing companies to adhere to certain requirements pertaining to the collection, use, and disclosure of genetic data; and
- (2) Provide that any violation of the requirements be deemed an unfair or deceptive trade practice in accordance with section 480-2, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Health and Coalition for Genetic Data Protection. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that self-administered DNA and ancestry tests have grown in popularity in recent years. Despite certain federal protections that address discrimination based on genetic information, there is no holistic protection against the widespread collection, dissemination, and use of the genetic information. State law also fails to adequately address what can be done with genetic data collected by companies that are not otherwise subject to applicable privacy laws. This measure therefore fills existing gaps in protection and extends important safeguards for the privacy, confidentiality, security, and integrity of a consumer's genetic data.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2032, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2032, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2984 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2880

The purpose and intent of this measure is to prohibit any increase in the fees charged for providing home health care services during the pendency of an emergency proclamation or state of emergency concerning a public health pandemic on the sole basis that the patient receiving the services requires that the home health care service provider be vaccinated against the underlying disease causing the emergency.

Your Committees received testimony in support of this measure from the County of Hawai'i Office of Aging, Kokua Council, and four individuals. Your Committees received comments on this measure from the Healthcare Association of Hawai'i.

Your Committees find that home health care services are necessary for some people to be able to maintain a comfortable quality of life. This is especially true for vulnerable kupuna. As seen during the current coronavirus disease 2019 pandemic, the elderly often required health care service providers to be vaccinated due to their compromised health or underlying health conditions that placed them at greater risk of experiencing severe and life-threatening symptoms. This measure will prevent health care service providers from increasing their fees during a public health crisis solely on the basis that their client requires them to be vaccinated.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2880 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2985 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 2282

The purpose and intent of this measure is to:

- (1) Clarify that access to abortion care is inclusive of all pregnant people in the State;
- (2) Repeal a criminal penalty for violations of certain abortion provisions; and
- (3) Clarify that advanced practice registered nurses may provide abortion care.

Your Committees received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; American College of Obstetricians and Gynecologists Hawai'i, Guam, and American Samoa Section; Hawai'i - American Nurses Association; Hawai'i Public Health Association; Hawai'i Women Lawyers; The KoLab; American Association of University Women; Save Medicaid Hawai'i; Planned Parenthood Alliance Advocates – Hawai'i; AF3IRM Hawai'i; and fifty-six individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Board of Nursing and Hawai'i Medical Board.

Your Committees find that implementing safeguards and protections to equitable abortion access for all pregnant people in the State allows the individual to make their own decision about a significant, personal medical decision. Both the federal government and the State have recognized the right to choose as a fundamental right of all people that must be protected. However, there are certain gaps that exclude other individuals such as transgender and non-binary individuals who may need access to abortion care services. Utilizing inclusive language to recognize the need for abortion care across the State affirms that all pregnant people would be allowed access to abortions based on personal choice.

In addition to challenges against *Roe v. Wade*, 410 U.S. 113 (1973), recent developments in other states such as Texas and Mississippi show that abortion access is at risk for pregnant people across the country. Historical and contemporary data show that where abortion is illegal or highly restricted, pregnant people may resort to unsafe means to end an unwanted pregnancy, including self-inflicted abdominal and bodily trauma, ingestion of dangerous chemicals, and reliance on unqualified providers. Pregnant people of low socioeconomic status, who live in rural and remote areas, or who are young or a member of the LGBTQ community are more likely to be harmed by gaps in access to safe abortion care. Black, Latino, native Hawaiian, and Pacific Islander populations are also more likely to experience a lack of abortion care due to generational systemic racism. To continue the Legislature's support of equal rights for Hawai'i's people regardless of race, gender, and sexual preference, it is imperative that abortion access is safe and available for anyone who chooses to access abortion care services.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2282, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Fevella). Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 5. Noes, 2 (Gabbard, Fevella). Excused, none.

SCRep. 2986 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2749

The purpose and intent of this measure is to:

- (1) Prohibit commercial vehicles, excluding those operating in response to an emergency, from making pickups from, or deliveries to, business establishments during certain times of the day and within a certain proximity of single-family residences in the performance of the vehicles' pickup or delivery; and
- (2) Establish fines.

Your Committees received testimony in opposition to this measure from the Hawai'i Transportation Association; Hawai'i Restaurant Association; Retail Merchants of Hawai'i; Hawai'i Foodservice Alliance LLC; American Beverage Association; Matson Navigation Company, Inc.; Hawai'i Food Industry Association; and Chamber of Commerce Hawai'i.

Your Committees find that noise pollution from commercial vehicles has adverse effects on human health and quality of life, especially in residential areas. Noise pollution has become a major concern for the residents of Kailua, which is largely a joint commercial and residential community. In Kailua and other similar neighborhoods that are immediately adjacent to certain businesses, residents regularly experience excessively loud noises as a result of commercial vehicle operation between the hours of midnight and 4:00 a.m. These activities include trash collection, food deliveries, and the use of loud mechanical equipment to service certain businesses. At times, these operations can occur continuously, causing consistent harm, stress, and disruption during a time when residents are needing sleep to prepare for work or school. To restore health and well-being to all affected communities, this measure is necessary to prohibit pickups and deliveries by commercial vehicles during certain times in residential areas to reduce noise pollution and improve the quality of life for the State's residents.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2749, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (DeCoite, Fevella). Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2987 Commerce and Consumer Protection on S.B. No. 2798

The purpose and intent of this measure is to:

- (1) Authorize the Hawai'i Board of Veterinary Medicine to grant temporary courtesy and relief permits for out-of-state veterinarians;
- (2) Permit licensed veterinarians to practice veterinarian telemedicine; and
- (3) Allow for international veterinary school graduates to qualify for the licensure examination.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Veterinary Medical Association, Hawaiian Humane Society, Veterinary Emergency + Referral Center, Animal Interfaith Alliance in Britain, Neighborhood Cats, Aloha Animal Advocates, Hui Pono Holoholona, and twenty-seven individuals. Your Committee received comments on this measure from the Hawai'i Board of Veterinary Medicine.

Your Committee finds that the State is currently experiencing a shortage of veterinary specialists and practitioners. This measure reflects collaborative stakeholder efforts to allow the Hawai'i Board of Veterinary Medicine to grant temporary permits to assist local pet owners and the veterinary community, and to ensure that all qualified veterinarians are allowed to sit for the State licensing exam. Additionally, the coronavirus disease 2019 pandemic increased consumer demand for telehealth in the field of veterinary medicine. However, existing law does not provide appropriate safeguards to prevent the misuse of veterinary telehealth. Accordingly, this measure establishes veterinary telehealth definitions and parameters to assist the Hawai'i Board of Veterinary Medicine in ensuring consumers in the State receive proper and licensed veterinary telemedicine services that meet required standards.

Your Committee has amended this measure by:

- (1) Clarifying that courtesy permits shall not exceed sixty total days in any twelve-month period, provided that a courtesy permittee's request for more than two courtesy permits within a two-year period shall constitute prima facie evidence that the courtesy permittee is engaged in the active practice of veterinary medicine in the State and a license issued under section 471-9, Hawai'i Revised Statutes, shall be required;
- (2) Clarifying that a courtesy permittee shall practice under the level of supervision determined by the sponsor, either directly or indirectly;
- (3) Specifying that no individual shall be issued a courtesy permit and a relief permit in the same twelve-month period;
- (4) Clarifying that relief permits shall be valid for a period of thirty days, rather than thirty calendar days, and may be renewed once in any twelve-month period, provided that any relief permit issued and renewed shall not exceed sixty total days;
- (5) Establishing that a veterinarian shall practice veterinary telemedicine within the context of the veterinarian-client-patient relationship between medically necessary examinations of an animal patient or medically appropriate and timely visits to the premises where the animal patient is kept;
- (6) Inserting language to specify that nothing in the measure shall be construed to alter federal or state requirements and standards for the issuance of Certificates of Veterinary Inspection or health certificates;
- (7) Amending the definitions of "emergency response", "jurisdiction", "veterinarian-client-patient relationship", and "veterinary teleadvice";
- (8) Deleting the definition for "veterinary teleconsulting";
- (9) Specifying that a veterinarian licensed in another jurisdiction is not prohibited from practicing in the State under the direct supervision of a Hawai'i-licensed veterinarian as part of an enforcement action under chapter 711, Hawai'i Revised Statutes;
- (10) Inserting an effective date of July 1, 2024; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2798, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2798, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Riviere, San Buenaventura).

SCRep. 2988 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 3208

The purpose and intent of this measure is to:

- (1) Amend the definitions of "preceptor" and "volunteer-based supervised clinical training rotation" to improve accessibility for providers to receive income tax credits for acting as preceptors; and
- (2) Include the Director of Health on the Preceptor Credit Assurance Committee.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i System, Hawaii Medical Association, Hawai'i Pacific Health, Kaiser Permanente Hawai'i, Hawaii Primary Care Association, Hawai'i State Center for Nursing, The Queen's Health System, Hawai'i Association of Professional Nurses, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that there is a shortage of preceptors available to provide volunteer training to students in health care professions. To incentivize volunteer preceptors, the State offers a tax credit to eligible health care providers. While it is essential that the State maintain high standards of eligibility for the tax credit, it must also ensure that there are enough providers who are incentivized by and qualify for the tax credit. This measure amends the definitions of "preceptor" and "volunteer-based supervised clinical training rotation" to increase the accessibility of income tax credits granted to preceptors. In doing so, this measure offers incentives for a greater number of providers to volunteer as preceptors.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3208, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3208, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2989 (Joint) Judiciary and Ways and Means on S.B. No. 2817

The purpose and intent of this measure is to repeal certain Department of Education annual reporting requirements.

Your Committees received testimony in support of this measure from the Department of Education.

Your Committees find that the Department of Education has numerous reporting requirements, some of which are no longer necessary. This measure will repeal some of those unnecessary reporting requirements, which would allow the Department of Education's staff and resources to be put towards other priorities.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2817, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2817, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2990 (Joint) Judiciary and Ways and Means on S.B. No. 2600

The purpose and intent of this measure is to:

- (1) Prohibit issuance of permits for future underground storage tanks mauka of the underground injection control line as defined by the Department of Health beginning July 1, 2022; and
- (2) Prohibit operation of and renewal of underground storage tank permits located mauka of the underground injection control line as defined by the Department of Health beginning January 1, 2023.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Board of Water Supply, Sierra Club of Hawai'i, Livable Hawaii Kai Hui, Protect Kaho'olawe 'Ohana, Aloha 'Āina Legal Group, Hawai'i Alliance for Community-Based Economic Development, Hawaii Reef and Ocean Coalition, Surfrider Foundation O'ahu Chapter, Hawai'i Alliance for Progressive Action, Hawai'i Public Health Institute, 'Ahahui o nā Kauka, Environmental Caucus of the Democratic Party of Hawai'i, Church of the Crossroads, 350 Hawaii, Free Access Coalition, and fifty-eight individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that water is precious and the State has a duty to protect the islands' source of life for present and future generations. Recent events have displayed the devastating impacts that water contamination from leaking underground storage tanks may have on people and the environment, with additional effects likely to ripple across Oahu over the summer and into the foreseeable future. This measure will reduce the risk of large capacity underground storage tank systems leaking and contaminating potable drinking water aquifers by prohibiting the installation or continuance of large capacity underground storage tank systems within one-half mile from the outer edge of aquifers.

Your Committees have amended this measure by:

- (1) Prohibiting only large capacity underground storage tank systems instead of all underground storage tanks;
- (2) Defining "large capacity underground storage tank system";
- (3) Defining "underground injection control line"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2600, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2600, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2991 (Joint) Judiciary and Ways and Means on S.B. No. 2422

The purpose and intent of this measure is to:

- (1) Require certain persons to immediately submit a written report to the court if the person has reason to believe that a child in foster custody has suffered an injury that may arise to a tort claim; and
- (2) Establish procedures for the Family Court to follow upon receipt of the written report, including with regard to an order appointing a master.

Your Committees received testimony in support of this measure from the Judiciary, Hawaii Family Advocacy Team, and four individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committees find that if a child in foster care suffers an injury caused by a third party, the State will cover the child's medical costs. However, the child is unable to obtain legal representation to file a tort claim to seek any additional damages, such as damages for pain and suffering. This measure will allow children in foster care to seek these additional damages by requiring certain persons to immediately submit a written report to the court if the person has reason to believe that a child in foster custody has suffered an injury that may arise to a tort claim and establishing procedures for the Family Court to follow upon receipt of the written report, including with regard to an order appointing a master.

Your Committees have amended this measure by:

- (1) Requiring a declaration attached to a motion rather than a non-specified writing, to avoid delays and ensure consistency throughout the State;
- (2) Requiring a motion rather than a writing, to ensure more timely notice to all the parties under the rules of the court;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2422, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2422, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6. Noes, none. Excused, 1 (Lee).

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

SCRep. 2992 (Joint) Judiciary and Ways and Means on S.B. No. 2207

The purpose and intent of this measure is to require the Hawaii Interagency Council on Homelessness to include a representative of a LGBTQ+ focused organization as one of its members.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Health, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, North Shore Ko'olau Diversity Collective, Hawai'i Health & Harm Reduction Center, Hawaii Rainbow Chamber of Commerce, AF3IRM Hawai'i, and nine individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Hawaii Interagency Council on Homelessness is an advisory council chaired by the Governor's Coordinator on Homelessness that serves as the statewide homelessness planning and policy development entity with broad representation from state and county government and the community. Your Committees find that multiple national and Hawaii-specific studies show that LGBTQ+ youth are disproportionately affected by homelessness compared to their non-LGBTQ+ counterparts. Your Committees find however, that the Hawaii Interagency Council on Homelessness, currently consisting of twenty-seven members, does not include a member that specifically represents the interests of the LGBTQ+ community in Hawaii. This measure will allow the voice of the Hawaii's LGBTQ+ community to be reflected in Hawaii Interagency Council on Homelessness' policies and programs to better address the unique needs of sexual and gender minorities in Hawaii who are experiencing homelessness.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2207, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2993 (Joint) Judiciary and Ways and Means on S.B. No. 2298

The purpose and intent of this measure is to increase the classification for violations of wages and hours laws to a class C felony.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii State AFL-CIO, and Operating Engineers Local Union No. 3. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that state labor laws should vigorously protect workers from employers who fail to pay their employees. Wage theft accounts for \$15,000,000 stolen each year, which totals more than all stolen money from physical burglaries in the United States combined. This measure will provide a greater deterrence to employers who violate wage and hour laws or other compensation laws, and protect and elevate the State's economically vulnerable workers.

Your Committees note that the state of mind required for a class C felony should be the state of mind currently applicable to a misdemeanor.

Accordingly, your Committees have amended this measure by removing the knowingly state of mind requirement from the class C felony.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2298, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2298, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2994 (Joint) Judiciary and Ways and Means on S.B. No. 2384

The purpose and intent of this measure is to amend the procurement preference for Hawai'i products to only apply to agricultural goods, value-added products, and commodities.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Accounting and General Services, University of Hawai'i System, Hawai'i Farm Bureau, Ulupono Initiative, Get Fit Kauai, Food+ Policy Internship 2022, and one individual. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that the preference for Hawai'i products was established to encourage the use of Hawai'i products by bidders to support local industries. Contractors and subcontractors have indicated that it is common practice to source products locally due to availability and pricing, which levels the playing field for all vendors. Since contractors and subcontractors already use Hawai'i products, this incentive is no longer necessary. Your Committees find, however, that the preference should remain in effect for agricultural goods to further the State's food production and sustainability goals.

Your Committees have amended this measure by:

- (1) Incorporating the changes proposed by the State Procurement Office as follows;
 - (A) Clarifying that "Hawaii input" includes the cost to mine, excavate, produce, manufacture, raise, grow, assemble, or fabricate the material in Hawai'i;
 - (B) Specifying that the Hawai'i products preference shall not apply when the solicitation is for public works construction; and
 - (C) Specifying that the Department of Accounting and General Services shall provide written notice of any amendments to section 103D-1002, Hawaii Revised Statutes, including effective dates and dates of repeal to all vendors of construction products who are registered on the Hawai'i products list with the State Procurement Office; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2384, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2384, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2995 (Joint) Judiciary and Ways and Means on S.B. No. 2189

The purpose and intent of this measure is to:

- (1) Remove the Governor's authority to select the Chairperson of the Board of Education;
- (2) Authorize the majority of the members of the Board of Education to elect a Chairperson from among the members of the Board; and
- (3) Remove the requirement that the Chairperson be an at-large member.

Your Committees received comments on this measure from the Board of Education.

Your Committees find that the requirement for the Chairperson of the Board of Education to be selected by the Governor from among the at-large members hinders the Board's ability to operate and function efficiently. Moreover, it is important for the Chairperson of the Board of Education to reflect the collective authority of the Board. Accordingly, this measure places responsibility for the selection of the Chairperson of the Board of Education with the Board instead of the Governor.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2189 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2996 (Joint) Judiciary and Ways and Means on S.B. No. 2181

The purpose and intent of this measure is to require certain unlicensed but accredited private schools to annually submit health and safety documentation to fall within the definition of "private schools" pursuant to section 302A-1132, Hawaii Revised Statutes, regarding compulsory attendance.

Your Committees received testimony in support of this measure from the Hawai'i Association of Independent Schools.

Your Committees find that the Legislature passed Act 227 (2019), which defines a private school to be an education institution that teaches kindergarten through grade twelve and that is licensed or accredited by certain licensing or accrediting organizations, in order to assure parents who send their child to a private school that the school meets certain standards and criteria in providing a safe learning environment. Your Committees further find that the Hawaii Council of Private Schools (HCPS) is the licensing entity that

ensures that all of Hawaii's private and parochial schools are healthy, safe, and sustainable institutions of learning for faculty, staff, and students. According to testimony received by your Committee, although all HCPS-licensed schools are required to submit annual verifications of the health and safety information documents required by various state and county agencies, the health and safety documents of private schools that are accredited by one or more national accrediting agencies recognized by the HCPS are only verified by reaccreditation visiting teams every five to ten years. This measure will ensure that all private schools in Hawaii are in full compliance with the health and safety standards of the State by requiring that they submit health and safety documentation on an annual basis.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2181, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2997 (Joint) Judiciary and Ways and Means on S.B. No. 2172

The purpose and intent of this measure is to:

- (1) Prohibit the Department of Health from issuing new permits for underground fuel storage tanks mauka of the underground injection control line, as defined by the Department of Health, except for the repair or removal of existing tanks;
- (2) Prohibit the renewal of permits for underground fuel storage tanks mauka of the underground injection control line as defined by the Department of Health, beginning January 1, 2023; and
- (3) Create a new definition for "underground fuel storage tank".

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Honolulu Board of Water Supply, Sierra Club of Hawai'i, Livable Hawaii Kai Hui, Protect Kaho'olawe 'Ohana, Aloha 'Āina Legal Group, Hawai'i Alliance for Community-Based Economic Development, Hawaii State Teachers Association, Hawaii Reef and Ocean Coalition, Surfrider Foundation O'ahu Chapter, Hawai'i Alliance for Progressive Action, Hawai'i Public Health Institute, Environmental Caucus of the Democratic Party of Hawai'i, 'Ahahui o nā Kauka, Papa Ola Lōkahi, Church of the Crossroads, Uprooted and Rising, 350 Hawaii, Free Access Coalition, and forty-nine individuals.

Your Committees find that large capacity underground storage tank systems endanger public health and safety due to the risk of leaking and contaminating potable drinking water. This measure will protect public health and reduce the risk of fuel leaking into potable drinking water by prohibiting the installation or continuance of large capacity underground storage tank systems within one-half mile of the outer edge of aquifers.

Your Committees have amended this measure by:

- (1) Changing "underground storage tank system" to "large capacity underground storage tank system";
- (2) Adding a definition of "underground injection control line";
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2172, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2172, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2998 (Joint) Judiciary and Ways and Means on S.B. No. 2183

The purpose and intent of this measure is to exempt certain Department of Education employees from the state residency requirement under section 78-1, Hawaii Revised Statutes.

Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association and one individual. Your Committees received comments on this measure from the Department of Education.

Your Committees find that technology allows individuals to work entirely remotely. Your Committees further find that the Department of Education needs professionals to fill certain specialized positions, particularly those positions in the areas of information technology and online learning. This measure allows to the Department of Education to satisfy critical hiring needs by allowing them to hire non-resident employees.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2183, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2183, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio). Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 2999 (Joint) Judiciary and Ways and Means on S.B. No. 3324

The purpose and intent of this measure is to establish a working group to address the problem of infrastructure repair and maintenance in planned housing subdivisions that do not have compulsory community associations.

Your Committees received comments on this measure from one individual.

Your Committees find that homeowners have a legal obligation to maintain roads that serve their subdivisions whether or not there is express language in their conveyance documents. However, homeowners need a mechanism whereby they can be allowed to organize an association to collect fees required to repair and maintain the infrastructure that abuts their property. This measure will create a task force to determine how to best address this problem.

Your Committees have amended this measure by:

- (1) Removing language that provided that no member of the working group shall be subject to chapter 84, Hawaii Revised Statutes, solely because of the member's participation in the working group; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3324, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3324, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3000 (Joint) Judiciary and Ways and Means on S.B. No. 2667

The purpose and intent of this measure is to extend the deadline for the Hawaii Housing Finance and Development Corporation to renegotiate an existing, or issue a new, ground lease for the Front Street Apartments affordable housing project before the Corporation's requirement to initiate condemnation proceedings.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one member of the Maui County Council.

Your Committees find that the County of Maui, particularly West Maui, is facing a severe shortage of affordable housing. In 2018, the Legislature passed Act 150, Session Laws of Hawaii 2018 (Act 150), to appropriate funds in support of the Front Street Apartments in Lahaina, Maui. Pursuant to Act 150, as amended by Act 98, Session Laws of Hawaii 2019, and Act 34, Session Laws of Hawaii 2020, the Hawaii Housing Finance and Development Corporation must initiate condemnation proceedings unless, by December 31, 2021, the Corporation renegotiates the ground lease for the Front Street Apartment project or issues a new ground lease.

In 2019, the Hawaii Housing Finance and Development Corporation paid nearly \$15 million to acquire the leased-fee interest in the Front Street Apartments from 3900, LLC. Ongoing issues to advance the Front Street Apartments project has inhibited the Hawaii Housing Finance and Development Corporation from obtaining a definitive appraisal report on the fair market value of the ground lease for the property. Without the report, the Hawaii Housing Finance and Development Corporation could not proceed with the renegotiation or condemnation of the ground lease by the December 31, 2021 deadline as stipulated by Act 150, as amended.

To allow the Hawaii Housing Finance and Development Corporation to carry out its responsibilities under Act 150, as amended, while also alleviating the severe affordable housing shortage in the County of Maui, this measure extends by five-years, the deadline to complete the renegotiation or condemnation of the ground lease for the Front Street Apartments affordable housing project.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2667, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3001 (Joint) Judiciary and Ways and Means on S.B. No. 3044

The purpose and intent of this measure is to:

- (1) Provide a mechanism to assign non-participating tobacco manufacturers' qualified escrow account balances to the State; and
- (2) Provide a mechanism for the financial institution acting as the escrow agent of the qualified escrow account to petition courts to authorize the transfer of funds to the State when the qualified escrow account is abandoned.

Your Committees received testimony in support of this measure from the Department of the Attorney General.

Your Committees find that in 1998, Hawai'i and forty-five other states settled smoking-related claims against the then four largest tobacco manufacturers, resulting in parties entering into a Master Settlement Agreement (MSA). Under the MSA, the four tobacco companies were required to make annual payments to the settling states. Under existing law, tobacco product manufacturers who were not part of the MSA have the option to either submit to the requirements of the MSA, or become a "Non-Participating Manufacturer" (NPM), which requires the NPM to maintain and make payments to a qualified escrow account in the State. Your Committees find that existing law does not provide a mechanism for an NPM that no longer does business in the State to close the escrow account. As a result, many NPMs that no longer do business in the State still maintain and pay fees for escrow accounts they wish to close. This measure authorizes a process for the closure of abandoned NPM escrow accounts.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3044, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3002 Judiciary on S.B. No. 3162

The purpose and intent of this measure is to require the replacement of current audible reverse warning systems (back-up beepers) on state and county-owned vehicles purchased on or after January 1, 2025, with more effective broadband reversing alarms.

Your Committee received testimony in support of this measure from Quieter and Healthier Maui and four individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that in order to reduce urban noise pollution caused by reversing alarms of commercial and construction vehicles and to ensure safer reversing, it is necessary to transition to newer technology for audible reverse warning systems. Studies have determined that a traditional tonal back-up beeper had been inefficient in alerting people to a reversing vehicle. This measure will help protect the State's residents from disruptive noise pollution and utilize safer vehicular reversing practices by requiring the use of broadband reversing alarms instead of tonal alarms.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3162, S.D. 2.

Signed by the Chair on behalf of the Committee.
 Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3003 Judiciary on S.B. No. 3320

The purpose and intent of this measure is to:

- (1) Codify certain administrative rules of the Department of Land and Natural Resources regarding permits to destroy or control harmful feral pigs;
- (2) Require the authorized agent of the Department of Land and Natural Resources to issue or deny permits for complaint-based destruction or control of game mammals within one hundred eighty days; and
- (3) Allow applicants to appeal permit decisions if a permit is not issued within one hundred eighty days.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Ulupono Initiative, LLC.

Your Committee finds that feral pigs are a dangerous nuisance in the State. Feral pigs destroy crops, indigenous plants, and indigenous wildlife and can be hazardous to human health and safety. Under existing law, residents can acquire permits to eradicate feral pigs on private property; however, the process for acquiring these permits is difficult and cumbersome. This measure expedites the process for acquiring permits to eradicate feral pigs on private property.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3320, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
 Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3004 Ways and Means on S.B. No. 2142

The purpose and intent of this measure is to promote the study of computer science.

Specifically, this measure:

- (1) Requires the Department of Education to allow students to fulfill certain graduation requirement courses with computer science courses;
- (2) Requires the University of Hawaii to accept substituted computer science courses as part of their admission requirements;
- (3) Establishes and appropriates funds for a computer science in teaching scholarship;
- (4) Requires the University of Hawaii to develop pathways in computer science for students studying to obtain a degree in education; and
- (5) Requires teacher licensing and certification requirements to include instruction in computer science.

Your Committee received written comments in support of this measure from the Hawaii State Public Charter School Commission, HawaiiKidsCAN, Hawaii State Teachers Association, Code.org, Hawaii Society for Technology in Education, and six individuals.

Your Committee received written comments in opposition to this measure from the Joint National Committee for Languages and the National Council for Languages and International Studies and from ACTFL.

Your Committee received written comments on this measure from the Department of Budget and Finance, Board of Education, Department of Education, and one individual.

Your Committee finds that this measure takes a multilevel approach to developing computer science in the State by encouraging high school students to learn computer science, providing incentives for future teachers to study computer science, and requiring that certified and licensed teachers receive instruction in computer science.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2142, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 3005 Ways and Means on S.B. No. 2144

The purpose and intent of this measure is to require the Office of Enterprise Technology Services, in consultation with the Disability and Communication Access Board and a working group comprising stakeholders, to develop and publish electronic information technology accessibility standards to be implemented by all state agencies.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Disability and Communication Access Board, State Council on Developmental Disabilities, and National Federation of the Blind of Hawaii.

Your Committee received written comments on this measure from the Office of Enterprise Technology Services.

Your Committee finds that the electronic information technology accessibility standards required by this measure will help the State meet its digital equity goals by ensuring that all electronic information, programs, and services offered by the State are accessible to persons with disabilities. Your Committee further finds that the standards will ensure that accessibility levels are consistent across all state entities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2144, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3006 Ways and Means on S.B. No. 2162

The purpose and intent of this measure is to implement the use of ranked choice voting for special elections held for congressional races and vacant county council seats.

Your Committee received written comments in support of this measure from Common Cause Hawaii, League of Women Voters of Hawaii, FairVote Action, Americans for Democratic Action, Green Party Hawaii, Hawaii Alliance for Progressive Action, and eleven individuals.

Your Committee finds that ranked choice voting provides voters with the ability to rank candidates in order of preference and has been used effectively in other jurisdictions in the nation and the world. Your Committee believes that the State should explore its use in certain special elections.

Your Committee has amended this measure by:

- (1) Moving the proposed language relating to the contents of an election proclamation into the existing statutory section relating to election proclamations;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2162, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2162, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3007 Ways and Means on S.B. No. 2167

The purpose and intent of this measure is to promote the development of film infrastructure in the State.

More specifically, this measure:

- (1) Establishes a nonrefundable film infrastructure income tax credit;
- (2) Requires that the film infrastructure project spend at least \$3,000,000 on buildings, facilities, or installations; and
- (3) Sets an aggregate cap amount for the credit of \$10,000,000 per year.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; IATSE Local 665; SAG-AFTRA; and one individual.

Your Committee received written comments in opposition to this measure from the Department of Taxation and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that Hawaii is one of the few states that has not adopted a film infrastructure tax credit. Your Committee believes that incentivizing purpose-built production facilities will facilitate the growth and sustainability of the State's film and television industries.

Your Committee has amended this measure by:

- (1) Removing unnecessary language authorizing a film infrastructure project to prorate its expenses between counties;
- (2) Replacing the term "qualified production" with the term "film infrastructure project";
- (3) Clarifying that the issuance of a film infrastructure tax credit certificate serves as a reservation of tax credits applicable to the \$10,000,000 aggregate cap amount;
- (4) Clarifying that a film infrastructure tax credit voucher represents the actual amount of film infrastructure tax credits that a taxpayer may claim, and must be attached to the taxpayer's tax return to the Department of Taxation;
- (5) Removing language prohibiting the issuance of a film infrastructure tax credit voucher before a film infrastructure project is one hundred percent complete;
- (6) Clarifying that the deadline for submitting a statement of eligible costs is March 31 following the end of each calendar year in which eligible infrastructure costs were expended;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2167, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2167, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3008 Ways and Means on S.B. No. 2178

The purpose and intent of this measure is to propose a constitutional amendment to authorize individuals who are seventeen years of age, but who will be eighteen years of age by the time of a state or local general election, to vote at the state or local primary election immediately preceding the state or local general election, and at any co-occurring or subsequent special election.

Your Committee received written comments in support of this measure from seven individuals.

Your Committee received written comments in opposition to this measure from the Honolulu County Republican Party and one individual.

Your Committee received written comments on this measure from Vote16HI.

Your Committee finds that the age at which a person is eligible to vote in any federal, state, or local election is eighteen years of age. However, individuals whose date of birth falls between the primary and general elections are unable to participate in state and local primary elections to determine which candidates will be on the ballot for the general election in which the individuals will be eligible to vote. Your Committee believes that granting voting rights to these individuals for certain state and local elections may encourage voter turnout among younger residents and help to educate them about the democratic process.

Your Committee has amended this measure by:

- (1) Delaying the effective date of the proposed amendment to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2178, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2178, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3009 Ways and Means on S.B. No. 2182

The purpose and intent of this measure is to establish and fund a school garden coordinator position within the Department of Education to provide support and resources for schools interested in developing a school garden program.

Your Committee received written comments in support of this measure from the Department of Health, Department of Education, Climate Protectors Hawaii, Wild Kids, Food+ Policy, Hawaii Farm to School Hui, Hawaii Public Health Institute, Center for Getting Things Started, Hawaii Cattlemen's Council, Local Food Coalition, Hawaii Food Industry Association, Malama Kauai, Hawaii Youth Food Council, Hawaii Farm Bureau, Oahu Farm to School Network, and ten individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that establishing a position to support the development of school gardens will help to build positive learning experiences for children, improve student health, encourage the development of healthy eating habits, and enhance youth psychosocial development.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3010 Ways and Means on S.B. No. 2185

The purpose and intent of this measure is to amend certain requirements related to fireworks permits.

More specifically, this measure:

- (1) Increases fees for fireworks permits;
- (2) Requires that all amounts collected from fees for fireworks permits be deposited into the emergency medical services special fund; and
- (3) Requires the respective county auditor of fireworks and articles pyrotechnic records to submit an annual report to the Legislature detailing the inventory, recordkeeping, and sales of fireworks to license or permit holders.

Your Committee received written comments in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Hawaii Reef and Ocean Coalition, and three individuals.

Your Committee received written comments in opposition to this measure from the Retail Merchants of Hawaii and two individuals.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure will help to protect the public's health and safety while allowing for the continued legal use of fireworks.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2185, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2185, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3011 (Majority) Ways and Means on S.B. No. 368

The purpose and intent of this measure is to allow for the upgrade or conversion of cesspools to wastewater systems other than septic systems and aerobic treatment unit systems, as approved by the Director of Health.

More specifically, this measure:

- (1) Requires that every cesspool in the State be upgraded or converted to a wastewater system approved by the Director of Health by January 1, 2050; and
- (2) Requires that certain cesspools located on real property that is sold or whose ownership is transferred on or after January 1, 2024, be upgraded or converted to a septic system, an aerobic treatment unit system, or another approved wastewater system, or be connected to a sewerage system.

Your Committee received written comments in support of this measure from the Department of Health, Coral Reef Alliance, Hawaii Cattlemen's Council, Hawaii Reef and Ocean Coalition, Rotary Club of Hanalei Bay, Surfrider Foundation, Wastewater Alternatives and Innovations, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS and one individual.

Your Committee finds that upgrading or converting a cesspool to a septic system or an aerobic treatment unit system may be cost prohibitive for many property owners in the State. Your Committee believes that by providing property owners with wastewater treatment system alternatives to septic systems and aerobic treatment unit systems, this measure will allow property owners to select more efficient and affordable wastewater treatment systems.

Your Committee has amended this measure by:

- (1) Clarifying that the requirement to upgrade or convert cesspools, or connect the cesspools to a sewerage system, applies to certain cesspools on real property that is sold, or the ownership of which is transferred, on or after January 1, 2024; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 368, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 3012 Ways and Means on S.B. No. 1065

The purpose and intent of this measure is to add to the Hawaii Tourism Authority's scope and responsibilities.

More specifically, this measure:

- (1) Includes best practice destination management and regenerative tourism in the Hawaii Tourism Authority's scope and responsibilities;
- (2) Requires the Hawaii Tourism Authority to develop a tourism management plan that includes tourism marketing, best practice destination management, and regenerative tourism;
- (3) Requires the Hawaii Tourism Authority to rebuild, redefine, and reset the direction of tourism based on certain objectives and by taking specific actions outlined in each county's destination management action plan;
- (4) Outlines the actions contained in each county's destination management action plan; and
- (5) Appropriates moneys for the Hawaii Tourism Authority to carry out the action items outlined in each county's destination management action plan.

Your Committee received written comments in support of this measure from the Maui County Council; Kihei Community Association; We Are One, Inc.; and numerous individuals.

Your Committee received written comments in opposition to this measure from Fair Wind Cruises.

Your Committee received written comments on this measure from the Department of Budget and Finance, Hawaii Tourism Authority, Hawaii Lodging and Tourism Association, and Kohala Coast Resort Association.

Your Committee finds that this measure will help to ensure that each community is able to participate in the determination of the direction, and mitigation of the impacts, of tourism in that community.

Your Committee has amended this measure by:

- (1) Deleting language outlining the specific actions contained in each island's respective destination management action plan;
- (2) Replacing the identification of specific years for each county destination management action plan with a reference to the number of years that each plan encompasses; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1065, S.D. 3.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3013 Ways and Means on S.B. No. 1294

The purpose and intent of this measure is to appropriate moneys for the Department of Human Services to reinstate the basic package of diagnostic, preventative, and restorative dental benefits to adult Medicaid enrollees.

Your Committee received written comments in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, University of Hawaii, AARP Hawaii, AlohaCare, Americans for Democratic Action, Hawaii Children's Action Network Speaks!, Hawaii Dental Association, Hawaii Dental Hygienists' Association, Hawaii Dental Service, Hawaii Disability Rights Center, Hawaii Oral Health Coalition/Hawaii Public Health Institute, Hawaii Primary Care Association, Hawaii Self Advocacy Advisory Council, Health Committee of the Democratic Party of Hawaii, Hoola Lahui Hawaii, Kokua Kalihi Valley Comprehensive Family Services, Ohana Health Plan, Papa Ola Lokahi, Queen's Health Systems, The Kupuna Caucus of the Democratic Party of Hawaii, UnitedHealthcare, Waianae Coast Comprehensive Health Center, Waikiki Health, Waimanalo Health Center, West Hawaii Community Health Center, and nine individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that reinstating preventative dental benefits to adult Medicaid enrollees will result in the provision of fewer emergency dental services, thus reducing the medical costs paid by Medicaid.

Your Committee has amended this measure by changing the appropriation from \$10,195,082 to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1294, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3014 Ways and Means on S.B. No. 2021

The purpose and intent of this measure is to address revenues due to the Office of Hawaiian Affairs from income and proceeds from the public land trust.

Specifically, the measure:

- (1) Requires agencies that collect receipts for any disposition of the public land trust to transfer to the Office of Hawaiian Affairs in each fiscal quarter, twenty percent of each receipt from the disposition;
- (2) Returns to the Office of Hawaiian Affairs certain moneys previously claimed as public land trust overpayments to the Office; and
- (3) Establishes a Public Land Trust Revenues Negotiating Committee for the purpose of resolving the amount of the income and proceeds from the public land trust that the Office of Hawaiian Affairs shall annually receive.

Your Committee received written comments in support of this measure from the University of Hawaii; Office of Hawaiian Affairs; Native Hawaiian & Pacific Islander Hawaii COVID-19 Response, Recovery, and Resilience Team; and Kupuna for the Moopuna.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources and Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Agriculture, Department of the Attorney General, Hawaii Health Systems Corporation, and League of Women Voters of Hawaii.

Your Committee recognizes the State's trust obligation under Article XII, section 6, of the Hawaii State Constitution to Native Hawaiians. Accordingly, the State must uphold its trust responsibilities and duty of care to Native Hawaiians to account for all ceded lands in the public lands trust inventory; account for all income and proceeds derived from the public land trust; and transfer an adequate pro rata share of income and proceeds from the public land trust annually to the Office of Hawaiian Affairs for the betterment of the conditions of Native Hawaiians.

Your Committee has amended this measure by replacing its contents with S.B. No. 2122, S.D. 1, a substantially similar measure, and further amending the measure by:

- (1) Codifying twenty percent of the net receipts from the public land trust, or \$15,100,000, whichever is greater, as the Office of Hawaiian Affairs' annual share of the income and proceeds of the public land trust, beginning in fiscal year 2022-2023;
- (2) Specifying that departments, agencies, or entities that collect receipts from public land trust lands shall ensure that a total of \$3,775,000 in public land trust receipts are transferred to the Office of Hawaiian Affairs at the close of each fiscal quarter;
- (3) Specifying that if the total amount of receipts transferred pursuant in paragraph (2) is less than \$3,775,000, the Director of Finance shall make up the difference by establishing the additional amount of receipts that agencies must transfer to the Office of Hawaiian Affairs;
- (4) Deleting language providing for the Office of Hawaiian Affairs to transfer excess quarterly public trust funds receipts to the carry-forward trust holding account;
- (5) Making the appropriation to the Office of Hawaiian Affairs an unspecified sum of moneys from the carry-forward trust holding account;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on this measure; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2021, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3015 Ways and Means on S.B. No. 2044

The purpose and intent of this measure is to deter noncandidate committees from violating the campaign finance law.

Specifically, the measure:

- (1) Increases from \$1,000 to \$5,000 the fine that may be assessed for campaign spending law violations against a noncandidate committee that makes only independent expenditures and that has received at least one contribution of more than \$10,000, or spent more than \$10,000 in an election period; and
- (2) Authorizes the Campaign Spending Commission to impose upon the noncandidate committee a fine of up to three times the amount of an unlawful contribution or expenditure, and order that the fine, or any portion thereof, be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received written comments in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, Kokua Council, and seven individuals.

Your Committee finds that increased fines for campaign finance violations by noncandidate committees are necessary to deter violations by political action committees that make only independent expenditures.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Fevella).

SCRep. 3016 Ways and Means on S.B. No. 2071

The purpose and intent of this measure is to fund and establish requirements for public, charter, and private schools regarding the safety and treatment of students with a seizure disorder or who have been prescribed a seizure rescue medication.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association, Special Education Advisory Council, Hawaii FASD Action Group, Epilepsy Foundation of Hawaii, Hawaii Association for Justice, State Public Charter School Commission, and eighteen individuals.

Your Committee received written comments on this measure from the Department of Education and Department of Budget and Finance.

Your Committee finds that the funding and requirements established by this measure will help to ensure that schools and their faculty are prepared to respond to the health needs of the approximately two thousand school-aged children in Hawaii who have been diagnosed with a seizure disorder.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2071, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3017 Ways and Means on S.B. No. 2089

The purpose and intent of this measure is to propose an amendment to article I, section 25, of the Constitution of the State of Hawaii to expand the Legislature's present power to define the elements and jury unanimity requirements of the crime of continuous sexual assault of a minor, to include minors who are younger than sixteen years of age, rather than only those who are younger than fourteen years of age.

Your Committee received written comments in support of this measure from the Department of the Attorney General and the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the measure's proposed constitutional amendment to expand the Legislature's present power to define the elements and jury unanimity requirements in continuous sexual assault crimes against minors by enlarging the age range of the minor victims to include minors younger than sixteen years of age, instead of only those minors younger than fourteen years of age, would allow for the protection of a greater number of minor children and greater accountability for perpetrators of continuous sexual assault against minors.

Your Committee has amended this measure by:

- (1) Clarifying that the scope of the proposed constitutional amendment is to raise the upper limit of the requisite age of the victim in continuous sexual assault crimes against minors, for which the Legislature presently has the power to define with respect to the elements of the crime and the jury unanimity required, rather than to grant a wholly new power to the Legislature to define the elements and jury unanimity requirements in continuous sexual assault crimes against minors, and clarifying the ballot question accordingly; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2089, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2089, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3018 Ways and Means on S.B. No. 2132

The purpose and intent of this measure is to restore certain positions within the Department of Health that were previously deleted from its operating budget due to the impacts of the coronavirus disease 2019 pandemic.

Specifically, this measure restores positions to the Department of Health's Adult Mental Health Division and appropriates moneys to fill those positions.

Your Committee received written comments in support of this measure from the Judiciary, Department of Health, Hawaii Substance Abuse Coalition, Hawaii Health and Harm Reduction Center, Hawaii Psychiatric Medical Association, Hawaii Medical Association, Hawaii Government Employees Association, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the positions being restored by this measure include social workers, mental health specialists, nursing staff, psychiatrists, clinical psychologists, security staff, and other workers who are critical for meeting the Adult Mental Health

Division's mission of providing integrated mental health services to persons having serious mental illness who are uninsured or underinsured.

Your Committee has amended this measure by changing the amount of general funds appropriated to the Adult Mental Health – Outpatient (HTH420) and Adult Mental Health – Inpatient (HTH430) programs for fiscal year 2022-2023 to unspecified sums, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2132, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2132, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3019 Ways and Means on S.B. No. 2195

The purpose and intent of this measure is to manage feral chicken populations throughout the State.

More specifically, this measure:

- (1) Establishes within the Department of Health a five-year feral chicken eradication pilot program;
- (2) Requires the Department of Health to submit:
 - (A) A special local need registration to the United States Environmental Protection Agency; and
 - (B) An annual report to the Legislature on the feral chicken eradication pilot program; and
- (3) Appropriates moneys to the Department of Health for the feral chicken eradication pilot program.

Your Committee received written comments in support of this measure from the Hawaiian Humane Society, Julie Peine Trust, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Department of Health and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and two individuals.

Your Committee finds that this measure will allow for a humane and cost-effective method of managing the growing population of feral chickens in the State.

Your Committee has amended this measure by:

- (1) Requiring the Department of Agriculture, instead of the Department of Health, to submit a special local registration to the United States Environmental Protection Agency;
- (2) Changing the measure's repeal date to June 30, 2028; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2195, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2195, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3020 Ways and Means on S.B. No. 2205

The purpose and intent of this measure is to prepare the State for the planned utilization of the new 9-8-8 calling code of the National Suicide Prevention Lifeline.

More specifically, the measure:

- (1) Establishes a Suicide and Mental Health Crisis Lifeline Task Force, to be administered by the Department of Health, to develop an implementation plan to integrate and utilize the new 9-8-8 calling code of the National Suicide Prevention Lifeline for mental health-related emergencies;
- (2) Requires the task force to submit a report to the Legislature; and
- (3) Appropriates moneys to the Department of Health for the task force's development of the required implementation plan.

Your Committee received written comments in support of this measure from Rainbow Family 808, Hawaii Primary Care Association, Hawaii Disability Rights Center, Hawaii Psychiatric Medical Association, and Hawaii Medical Association.

Your Committee received written comments in opposition to this measure from the Department of Health.

Your Committee received written comments on this measure from the Department of Budget and Finance and Prevent Suicide Hawaii Task Force.

Your Committee finds that the task force created by this measure will facilitate the State's efforts to ensure a smooth transition to utilization of the new 9-8-8 calling code for the National Suicide Prevention Lifeline.

Your Committee has amended this measure by:

- (1) Clarifying references to the federal National Suicide Hotline Designation Act of 2020; the National Suicide Prevention Lifeline; the existing Prevent Suicide Hawaii Task Force and its associated regional task forces; and the Suicide and Mental Health Crisis Lifeline Task Force established by this measure;
- (2) Clarifying that Suicide and Mental Health Crisis Lifeline Task Force members who are private individuals or who represent specified non-governmental entities are invited, but not required, to participate; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2205, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 3021 Ways and Means on S.B. No. 2210

The purpose and intent of this measure is to facilitate voter education regarding candidates for public office and ballot issues.

Specifically, the measure:

- (1) Requires the Chief Election Officer to prepare, publish, and distribute voters' pamphlets for each election, and do so with assistance from county clerks for county elections;
- (2) Requires voters' pamphlets to include, among other information:
 - (A) Candidate information and photographs; and
 - (B) Explanatory statements, fiscal impact statements, and arguments and rebuttals regarding ballot issues;
- (3) Establishes a process for judicial determinations regarding whether candidate statements, and committee arguments and rebuttals on ballot issues, may be rejected or edited for publication in the voters' pamphlet;
- (4) Prohibits the publication and distribution of campaign materials that are deceptively similar to the voters' pamphlets;
- (5) Prohibits the public inspection and copying of candidate statements, and committee arguments and rebuttals on ballot issues, until all statements have been submitted, or until the submission deadline has passed; and
- (6) Requires the Chief Election Officer to adopt rules pursuant to Chapter 91, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from Americans for Democratic Action, Common Cause Hawaii, and eight individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and Office of Elections.

Your Committee believes that an informed electorate is an important component of a healthy democracy. Your Committee finds that providing registered voters with informational pamphlets would help them make their voting decisions.

Your Committee recognizes the Department of the Attorney General's concerns relating to the measure's provisions for judicial determinations regarding arguments, rebuttals, and candidate statements. Your Committee respectfully requests that the appropriate subject matter committee in the House of Representatives, and the conference committee, if one is convened on this measure, coordinate with the Department in refining the relevant proposed statutory provisions.

Your Committee has amended this measure by:

- (1) Deleting provisions relating to explanatory statements for ballot issues;
- (2) With respect to the availability of voters' pamphlets:
 - (A) Deleting a requirement for the publication of a pamphlet in a daily or weekly publication; and
 - (B) Inserting a requirement that the Chief Election Officer publish a notice in a newspaper regarding the mailing of the pamphlets and the availability of the pamphlets on a certain number of different days before an election;
- (3) Providing that a fiscal impact statement shall contain an estimated fiscal impact if a ballot issue is ratified or adopted, rather than if the ballot issue is not approved;
- (4) Deleting provisions that:
 - (A) Made candidates and committees respondents to actions for judicial determinations regarding arguments, rebuttals, and candidate statements;
 - (B) Made the Chief Election Officer a nominal party to those actions; and
 - (C) Required the Circuit Court to give priority on its calendar to those actions;
- (5) Providing that the measure shall apply to the 2024 primary election, and every state and county election thereafter;
- (6) Requiring that, before the effective date of this Act, the Chief Election Officer adopt rules, pursuant to Chapter 91, Hawaii Revised Statutes, necessary for the purposes of this measure; and

(7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2210, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2210, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

SCRep. 3022 Ways and Means on S.B. No. 2214

The purpose and intent of this measure is to appropriate moneys for the Board of Education, through the State Librarian, to establish a digital literacy program to promote digital literacy and make digital technology more accessible to persons with disabilities.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Hawaii State Public Library System; TechNet; Hawaii Pacific Health; Hawaii Broadband Hui; and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that promoting digital literacy is key to meeting the State's digital equity goals. Digital tools are often needed to access education, government resources, medical resources, and to perform a variety of personal and professional tasks. Your Committee further finds that digital literacy and access to technology can help support increased independence and self-sufficiency for persons with disabilities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2214, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2214, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 3023 Ways and Means on S.B. No. 2218

The purpose and intent of this measure is to increase consumers' access to fresh, healthy food that is produced locally.

More specifically, the measure:

- (1) Requires the Department of Agriculture to establish a five-year food hub pilot program to increase access to local food;
- (2) Provides for the award of grant funding to qualified applicants wishing to establish or expand a food hub;
- (3) Requires the Department of Agriculture to submit interim and final reports to the Legislature;
- (4) Appropriates moneys for the pilot program; and
- (5) Authorizes the issuance of general obligation bonds for the Honalo Marshalling Yard to be developed as a food hub.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau, Hawaii Farmers Union United, Hawaii Food Industry Association, Ulupono Initiative, Hawaii Cattlemen's Council, Oahu Fresh, Hawaii Ulu Producers Cooperative, North Shore Economic Vitality Partnership, Hawaii Food+ Policy, Land Use Research Foundation of Hawaii, Hawaii Primary Care Association, Hawaii Alliance for Progressive Action, Shaka Tea, Kulanui.org, Tinyville Farm, Puamana Gardens, Kohana Family Farms, Mamaki Ola Farm and Education LLC, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the establishment of food hubs under the pilot program will support efforts to strengthen the State's food security by encouraging the production of more locally grown food and facilitating the aggregation, storage, processing, distribution, and marketing of locally produced food products.

Your Committee has amended this measure by:

- (1) Specifying that the receipt of grant funding under the pilot program shall be conditioned upon the recipient's compliance with all applicable state and federal food safety laws, rules, and regulations, including the FDA Food Safety Modernization Act, P.L. 111-353, and that Act's provisions on supplier verification;
- (2) Correcting the lapse date of the general obligation bond funds appropriated by the measure from June 30, 2025, to June 30, 2024;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2218, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2218, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3024 (Majority) Ways and Means on S.B. No. 2251

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to develop mixed-income and mixed-financed housing projects, provided that those projects shall not be constructed on ceded land that is vacant on or after January 1, 2022.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee received written comments in opposition to this measure from Kupuna for the Mo'opuna.

Your Committee finds that this measure will help address the State's housing shortage by authorizing the Hawaii Public Housing Authority to develop mixed-income and mixed-financed housing projects, provided that the projects are not developed or constructed on ceded land that is vacant on or after January 1, 2022. Your Committee notes that on February 18, 2022, your Committee voted to recommend for passage S.B. No. 2588, S.D. 1, a related measure that appropriates moneys to the Authority to remodel, renovate, repair, and rehabilitate two hundred sixty—four housing units. Your Committee believes that passage of these two measures will significantly expand the inventory of urgently needed affordable housing units across the State.

Your Committee has amended this measure by:

- (1) Clarifying, with respect to the measure's prohibition on the development or construction of a housing project on vacant ceded land, that:
 - (A) The prohibition applies to ceded land that is vacant on or after January 1, 2022; and
 - (B) "Housing project" means any home, house, residence, building, apartment, living quarters, abode, domicile, or dwelling unit that is designed principally for the purposes of sheltering people;
- (2) Deleting "housing project" from the list of terms defined in section 356D-1, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2251, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2251, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, 1 (Fevella). Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3025 Ways and Means on S.B. No. 2288

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture to establish and implement a compost reimbursement program to assist farmers, ranchers, and landscapers in the State with acquiring affordable compost material comprising green waste and food waste.

Your Committee received written comments in support of this measure from the Department of Agriculture, Climate Protectors Hawaii, Kauai Climate Action Coalition, Hawaii Farmers Union United, Hawaii Alliance for Progressive Action, 350Hawaii, Hawaii Farm Bureau, Food + Policy Internship, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the compost reimbursement program funded by this measure will help divert food and green waste, reduce costs for farmers and ranchers, and support healthy and resilient local food production.

Your Committee has amended this measure by:

- (1) Changing the maximum annual reimbursement available to a single farmer, rancher, or landscaper from \$50,000 to an unspecified sum;
- (2) Changing the appropriation amount from \$2,000,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2288, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3026 Ways and Means on S.B. No. 2304

The purpose and intent of this measure is to clarify the purpose and powers of the Research Corporation of the University of Hawaii (Research Corporation).

Specifically, this measure:

- (1) Provides that legislative appropriations contracted to the Research Corporation may support sponsored research and training activities or advance innovation and entrepreneurship in the State;
- (2) Requires the University of Hawaii to consult with employee unions and generally not supplant civil servant positions;
- (3) Clarifies that the purpose of the Research Corporation shall be to conduct research and disseminate knowledge;
- (4) Focuses the powers of the Research Corporation on research, training, and publication; and
- (5) Specifies requirements for revolving fund accounts held by the Research Corporation.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Research Corporation of the University of Hawaii, the University of Hawaii, and one individual.

Your Committee received written comments on this measure from the Coordinating Group on Alien Pest Species.

Your Committee finds that since its creation, the Research Corporation's projects and responsibilities have expanded far beyond its original purpose. Your Committee further finds that this measure will help to focus the powers and duties of the Research Corporation on its original purpose of research while simultaneously preventing overlapping duties with other state entities.

Your Committee has amended this measure by:

- (1) Clarifying that the University of Hawaii shall be required to consult with the exclusive representative of the appropriate bargaining unit when the Research Corporation is involved with a state project or program or for any program involving the Research Corporation and a state employee;
- (2) Deleting the requirement that the Research Corporation report quarterly and annually to the Legislature since section 304A-3007, Hawaii Revised Statutes, already requires annual reports to the Legislature by the Research Corporation;
- (3) Authorizing the Research Corporation to retain contracts related to invasive species control and eradication;
- (4) Requiring the University of Hawaii to submit a report to the Legislature within thirty days of the adoption of any amendment to Administrative Procedures, AP 12.204, by the University of Hawaii and the Research Corporation;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2304, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2304, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

SCRep. 3027 Ways and Means on S.B. No. 2335

The purpose and intent of this measure is to allow the use of, and establish conditions and requirements for, a median bid procurement method by purchasing agencies.

Your Committee received written comments in support of this measure from the Department of Education and Department of Transportation.

Your Committee received written comments in opposition to this measure from the State Procurement Office and Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that use of the low bid procurement method may lead to completion of projects at higher-than anticipated final costs. Your Committee believes that allowing for the use of a median bid procurement method will help to ensure that each project is completed without exceeding the project's estimated budget.

Your Committee has amended this measure by:

- (1) Clarifying that procuring agencies may use either low or median bid procurement methods;
- (2) Clarifying that, for construction projects only, a purchasing agency may choose to award a bid to the responsible and responsive bidder whose bid is closest to the median of all bids submitted and who meets certain requirements;
- (3) Establishing criteria for determining the median bidder if there are an even number of bidders;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2335, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2335, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3028 Ways and Means on S.B. No. 2347

The purpose and intent of this measure is to facilitate voters' understanding of proposed constitutional amendments.

Specifically, the measure:

- (1) Requires the language and meaning of any proposed constitutional amendment and ratification question to be simple, concise, and direct, to the extent practicable;
- (2) Authorizes the presiding officers of the Legislature to request a written opinion of the Supreme Court of Hawaii regarding the legality of a proposed amendment to the Hawaii State Constitution and the corresponding constitutional ratification question;
- (3) In response to an above-described request, requires the Supreme Court of Hawaii to:
 - (A) Provide a written opinion within one week of receipt of the request; and
 - (B) For any written opinion by the Supreme Court of Hawaii that invalidates a constitutional ratification question, provide a detailed and specific explanation of the reasons for the opinion; and
- (4) Prohibits any appeal of a written opinion provided by the Supreme Court in response to an above-described request.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Judiciary.

Your Committee acknowledges the concerns expressed by the Judiciary regarding this measure. Nevertheless, your Committee finds merit in the measure's intent to ensure that constitutional amendments and constitutional ratification questions posed to voters be simple, concise, and direct.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Moriwaki, Fevella). Noes, none. Excused, none.

SCRep. 3029 Ways and Means on S.B. No. 2353

The purpose and intent of this measure is to encourage and support the growth of new, small, and diversified farming businesses.

More specifically, this measure establishes an exclusion from income tax for the lesser of an unspecified percentage of gross annual income or an unspecified amount of gross annual income earned by a farmer from farming activities.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Hawaii Food Industry Association, Ulupono Initiative, and two individuals.

Your Committee received written comments in opposition to this measure from the Department of Taxation.

Your Committee received written comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has a significant negative trade flow as it imports far more goods and services than it exports. Your Committee also finds that Hawaii needs to address the imbalance in agricultural trade and significantly expand food production in the State.

Your Committee has amended this measure by:

- (1) Clarifying the definition of the term "farmer";
- (2) Adding a definition of the term "farming activities";
- (3) Disallowing the deduction of any ordinary and necessary business expenses incurred in producing the income excluded by this measure;
- (4) Replacing the term "gross annual income" with "federal adjusted gross income";
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2353, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2353, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3030 Ways and Means on S.B. No. 2359

The purpose and intent of this measure is to increase the number of teachers in the State by requiring the University of Hawaii to establish additional teaching programs.

Specifically, this measure requires the University of Hawaii to:

- (1) Establish, in each county, K-12 expanded teaching cohort programs for students pursuing undergraduate degrees in education; and
- (2) Submit reports to the Legislature on the number of additional programs established, the enrollment of the additional programs, the number of faculty needed to teach the additional programs, the cost of the additional programs, and the effect of the additional programs on decreasing the teacher shortage.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Education, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the Department of Education is currently experiencing a shortage of qualified teachers, with many teaching positions filled by emergency hires or instructors who have not completed a state-approved teacher preparation program. Your Committee further finds that this measure will help to address the teacher shortage by making necessary courses more accessible to students pursuing undergraduate degrees in education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2359, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3031 Ways and Means on S.B. No. 2370

The purpose and intent of this measure is to provide for the development of solutions to prevent and end homelessness in the State.

More specifically, this measure:

- (1) Establishes within the Department of Human Services the Office on Homelessness and Housing Solutions to work with various stakeholders to develop and test solutions to prevent and end homelessness;
- (2) Requires the Governor's Coordinator on Homelessness to serve as the head of the Office on Homelessness and Housing Solutions;
- (3) Establishes the duties and responsibilities of the Office on Homelessness and Housing Solutions;
- (4) Requires the Governor's Coordinator on Homelessness to submit to the Legislature an annual report on the progress of the Coordinator's activities;
- (5) Establishes the homelessness and housing solutions special fund; and
- (6) Appropriates moneys for the administration of the Office of Homelessness and Housing Solutions.

Your Committee received written comments in support of this measure from the Department of Public Safety, Judiciary, Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Health and Harm Reduction Center, Institute for Human Services, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Human Services, Department of Land and Natural Resources, Governor's Coordinator on Homelessness, and Partners In Care.

Your Committee finds that establishing a permanent Office on Homelessness and Housing Solutions will help the State to reduce, prevent, and ultimately end homelessness.

Your Committee notes that the Department of Human Services' written comments on this measure clarify a misstatement regarding the Department's testimony included in Standing Committee Report No. 2407. According to the Department, "[t]he Department's testimony did not recommend creating an administratively attached agency within the Department, as the Coordinator and the [Hawaii Interagency Council on Homelessness] are already administratively attached within the Department per section 346-381, Hawaii Revised Statutes."

Your Committee has amended this measure by:

- (1) Clarifying that the Office on Homelessness and Housing Solutions is required to identify and address gaps in the homeless service system by, among other things, developing and implementing tax exemptions for certain facilities and projects;
- (2) Clarifying the required contents of the Governor's Coordinator on Homelessness' annual report to the Legislature;
- (3) Requiring that each state agency that administers public lands provide the Governor's Coordinator on Homelessness with an inventory identifying available vacant public lands;
- (4) Clarifying that the moneys appropriated into the homelessness and housing solutions special fund are in addition to, and do not supplant, any portion of the budget used to fund the ohana zones pilot program or housing first program;
- (5) Changing the amount appropriated into and out of the homelessness and housing solutions special fund from \$2,000,000 to an unspecified sum;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2370, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2370, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3032 Ways and Means on S.B. No. 2371

The purpose and intent of this measure is to establish a statewide homelessness information system working group to assess the feasibility of establishing a statewide information system that collects and tracks real-time data related to homelessness in the State.

Your Committee received written comments in support of this measure from the Department of Public Safety, Hawaii Health & Harm Reduction Center, Partners In Care, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Human Services and Governor's Coordinator on Homelessness.

Your Committee finds that the implementation of a statewide information system to collect and track real-time data related to homelessness will help to provide efficient and effective assistance to individuals throughout the State who are experiencing, or are at risk of experiencing, homelessness. Your Committee believes that establishing a working group to determine the feasibility of this endeavor is a necessary first step.

Your Committee has amended this measure by:

- (1) Inviting, rather than requiring, representatives from specific private entities to serve on the task force;
- (2) Specifying the appointing authority for certain listed task force members;
- (3) Requiring that the legislative committee chairs appointed to the working group serve as co-chairs of the working group;
- (4) Clarifying the contents of the working group's report to the Legislature;
- (5) Inserting an appropriation of an unspecified sum for the Department of Human Services to contract with a third-party to prepare the working group's required report; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2371, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 3033 Ways and Means on S.B. No. 2375

The purpose and intent of this measure is to require and appropriate moneys for the Department of Public Safety and Department of Human Services to establish a program to train certain nonviolent incarcerated individuals in the field of social work.

Your Committee received written comments in support of this measure from the Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Hawaii Chapter of the National Association of Social Workers, and two individuals.

Your Committee received written comments on this measure from the Department of Human Services, Department of Budget and Finance, and Department of Public Safety.

Your Committee finds that the program required and funded by this measure will help address the State's shortage of licensed social workers, provide education and employment opportunities for nonviolent incarcerated persons, and potentially reduce the risk of recidivism for program participants.

Your Committee has amended this measure by:

- (1) Providing that eligible participants in the program may include all nonviolent incarcerated individuals, rather than nonviolent misdemeanants and petty misdemeanants only, as suggested in written comments from the Community Alliance on Prisons;
- (2) Clarifying that participants should be trained to explore a professional pathway in the practice of social work, as suggested in written comments from the Hawaii Chapter of the National Association of Social Workers;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2375, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3034 Ways and Means on S.B. No. 2392

The purpose and intent of this measure is to improve access to the legal system by appropriating moneys for the Judiciary to purchase civil legal services for low- and moderate- income persons.

Your Committee received written comments in support of this measure from the Judiciary, Department of Human Services, Legal Aid Society of Hawaii, Hawaii Health and Harm Reduction Center, Hawaii Justice Foundation, The Legal Clinic, Hawaii State Coalition Against Domestic Violence, Hawaii Access to Justice Commission, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the moneys appropriated by this measure will allow the Judiciary to support the few nonprofit and volunteer organizations in the State that provide quality legal services to persons for whom these services otherwise would be prohibitively expensive.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$750,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2392, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2392, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 3035 Ways and Means on S.B. No. 2397

The purpose and intent of this measure is to ensure that child custody evaluators have adequate training on domestic violence issues.

More specifically, the measure:

- (1) Requires that, beginning on July 1, 2023, certain persons attempting to serve as child custody evaluators in Family Court proceedings complete a training course on domestic violence issues every three years; and
- (2) Requires that the training course be approved for professional credit by the applicable professional accreditation body or recommended by any state domestic violence services provider.

Your Committee received written comments in support of this measure from Early Childhood Action Strategy, Domestic Violence Action Center, Hawaii State Coalition Against Domestic Violence, Parents and Children Together, the Public Policy Committee of the American Association of University Women of Hawaii, and seven individuals.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that the recurring domestic violence training required by this measure will help to ensure that child custody evaluators who make recommendations to the Family Court receive appropriate training on the dynamics of domestic violence and related issues.

Your Committee has amended this measure by:

- (1) Specifying that the training course shall be developed and facilitated by the Hawaii State Coalition Against Domestic Violence, rather than a course approved for professional credit by the applicable professional accreditation body or recommended by any state domestic violence services provider;
- (2) Deleting Section 3 of the measure and inserting, in its place, an appropriation of \$35,000 to the Judiciary for development of the required training course, with a provision specifying that the Judiciary may contract with a nonprofit organization to develop the course curriculum and facilitate the training process; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2397, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Wakai).

SCRep. 3036 Ways and Means on S.B. No. 2435

The purpose and intent of this measure is to amend the important agricultural land qualified agricultural cost tax credit.

More specifically, this measure:

- (1) Clarifies that a taxpayer may claim the important agricultural land qualified agricultural cost tax credit in the third taxable year after application for the first-year certification of the credit, rather than in the taxable year following the taxable year in which the qualified agricultural costs were incurred; and

- (2) Extends the expiration date of the Department of Agriculture's certification authority with regard to the important agricultural land qualified agricultural cost tax credit from December 31, 2021, to December 31, 2031.

Your Committee received written comments in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, Hawaii Farm Bureau, Kamehameha Schools, Land Use Research Foundation of Hawaii, and Ulupono Initiative.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the important agricultural land qualified agricultural cost tax credit supports food self-sufficiency by providing tax credits to qualified landowners and farmers to help offset costs related to establishing and sustaining viable agricultural operations. Your Committee also finds that the ability of taxpayers to claim the tax credit effectively expired when the Department of Agriculture's certification authority ended on December 31, 2021.

Your Committee has amended this measure by:

- (1) Removing language imposing a three-year delay for a landowner or farmer of designated important agricultural lands to claim the tax credit;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2435, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3037 Ways and Means on S.B. No. 2437

The purpose and intent of this measure is to require the establishment of, appropriate funds for, and require a legislative report regarding a neighbor islands blind and visually impaired service pilot program that provides training and other services to blind and visually impaired individuals residing on the neighbor islands.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Hawaii State Committee of Blind Vendors, National Federation of the Blind of Hawaii, and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Human Services, and Executive Office on Aging.

Your Committee finds that the State should provide necessary services to the thousands of blind and visually impaired neighbor island residents who lack access to those services.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2437, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2437, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3038 Ways and Means on S.B. No. 2457

The purpose and intent of this measure is to restore funding for immigrant resource centers.

More specifically, the measure appropriates moneys to the Department of Labor and Industrial Relations for the Department's Office of Community Services to provide staff and resources to assist immigrant and refugee populations throughout the State.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations, Hawaii Friends of Civil Rights, Common Cause Hawaii, The Legal Clinic, Hawaii Coalition for Immigrant Rights, Pacific Gateway Center, Catholic Charities Hawaii, and seven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure's restoration of funding for immigrant resource centers will improve access to government services and support the Office of Community Services in meeting its legislative mandate and mission to serve low-income individuals, immigrants, and refugees.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

(2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2457, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2457, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3039 Ways and Means on S.B. No. 2458

The purpose and intent of this measure is to help provide legal assistance and legal counsel to low-income immigrants in immigration proceedings.

More specifically, the measure appropriates moneys to the Judiciary to contract with nonprofit organizations to provide legal services to low-income immigrants in immigration proceedings, including deportation and asylum cases.

Your Committee received written comments in support of this measure from the Judiciary, Hawaii Friends of Civil Rights, The Legal Clinic, Pacific Gateway Center, Hawaii Coalition for Immigrant Rights, Catholic Charities Hawaii, and eight individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that immigrants in Hawaii are in need of legal assistance, and an appropriation to the Judiciary will support efforts to provide competent legal services to low-income immigrants navigating the immigration court process.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$250,000 to an unspecified amount; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2458, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2458, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3040 Ways and Means on S.B. No. 2461

The purpose and intent of this measure is to appropriate moneys to the Department of Health for the Hawaii Healthy Aging Partnership.

Your Committee received written comments in support of this measure from the Department of Health Executive Office on Aging, AARP Hawaii, Department of Housing and Human Concerns for the County of Maui, Maui County Office on Aging, AEA, and seven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the partnership funded by this measure helps improve the health of Hawaii's older adults by providing evidence-based health and fitness programs.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$500,000 to an unspecified sum to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2461, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3041 Ways and Means on S.B. No. 2816

The purpose and intent of this measure is to establish a pilot program to provide grants for eligible students to pay for education expenses, including to purchase technological devices and services, pay fees for standardized tests and college applications, and pay for textbooks, approved therapies, and supplemental education services.

Your Committee received written comments in support of this measure from the State Public Charter Schools Commission, HawaiiKidsCAN, and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Education.

Your Committee finds that many students, especially those in low-income families, have experienced decreased academic performance due to changes caused by the coronavirus disease 2019 pandemic. Your Committee further finds that this measure will offer those families affordable access to vital learning materials and services necessary to offset recent learning losses.

Your Committee has amended this measure by:

- (1) Adding an unspecified end date for the pilot program;
- (2) Clarifying that eligible education expenses for supplemental education services are those permitted under the Hawaii State Constitution;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2816, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3042 Ways and Means on S.B. No. 2820

The purpose and intent of this measure is to fund pay incentives for teachers in special education positions, hard-to-staff geographic locations, and Hawaiian language immersion programs.

Your Committee received written comments in support of this measure from the University of Hawaii, Executive Office on Early Learning, Hawaii State Public Charter School Commission, Hawaii State Department of Education, Aha Kauleo - Statewide Hawaiian Immersion Schools Council, Hawaii Association of School Psychologists, Hawaii State Teachers Association, Hawaii State Teachers Association, HEE Coalition, Parents for Public Schools of Hawaii, Democratic Party of Hawaii Education Caucus, Hawaii Children's Action Network Speaks!, Democratic Party of Hawaii Labor Caucus, Waianae Intermediate School, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Office of Collective Bargaining.

Your Committee received written comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that the shortage of qualified teachers in special education positions, hard-to-staff geographic locations, and Hawaiian language immersion programs continues to increase. Your Committee further finds that appropriating funds for teacher differentials will help to retain existing teachers in those areas and recruit new teachers to fill the vacancies.

Your Committee has amended this measure by:

- (1) Changing the appropriation from charter schools (EDN 600) to charter schools commission and administration (EDN 612);
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2820, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3043 Ways and Means on S.B. No. 2822

The purpose and intent of this measure is to require the Department of Education to offer asthma instruction to students and provide asthma training to teachers and certain employees.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board; Hawaii Medical Association; AlohaCare; Hawaii Public Health Association; Hawaii Primary Care Association; American Academy of Pediatrics, Hawaii Chapter; Hawaii Public Health Institute; Hawaii Children's Action Network Speaks!; Special Education Advisory Council; American Lung Association in Hawaii; Hawaii Association of School Psychologists; and five individuals.

Your Committee received written comments on this measure from the Department of Education and Department of Health.

Your Committee finds that the courses and training required by this measure will help students with asthma and their teachers recognize the early warning signs of an asthma attack and take actions to avoid serious health complications, disability, and death.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2822, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3044 Ways and Means on S.B. No. 2823

The purpose and intent of this measure is to establish and fund a School Psychologist National Certification Incentive Program.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Children's Action Network Speaks!, HE'E Coalition, Hawaii State Teachers Association, Hawaii Government Employees Association, Hawaii Association of School Psychologists, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the incentive program established and funded by this measure will help the State recruit and retain highly qualified school psychologists to serve in Hawaii's public schools.

Your Committee has amended this measure by:

- (1) Clarifying that the program will provide financial incentives for school psychologists who obtain the Nationally Certified School Psychologist credential;
- (2) Authorizing the Department of Education to adopt administrative rules pursuant to Chapter 91, Hawaii Revised Statutes, to implement and administer the program; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2823, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3045 Ways and Means on S.B. No. 2826

The purpose and intent of this measure is to address the shortage of qualified and credentialed workers in high-demand industries in the State.

Specifically, this measure:

- (1) Establishes career development success programs that provide financial incentives for participating public high schools and charter schools to encourage pupils enrolled in grades nine through twelve to enroll in and complete qualified industry-credential programs; and
- (2) Appropriates moneys to the Department of Education and State Public Charter School Commission to implement the programs.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Public Charter School Commission, HawaiiKidsCAN, Chamber of Commerce Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the "Promising Credentials in Hawaii" report is produced as a collaborative effort between the Chamber of Commerce Hawaii, Harold K.L. Castle Foundation, Hawaii P-20 Partnerships for Education, and Kamehameha Schools. The report identifies high-value industry credentials that prepare students for careers in the State based on local labor market data and employer insights, with the goal of better tailoring career readiness programs that meet the needs of the local job market. Your Committee further finds that this measure establishes career development success programs in Hawaii schools to further facilitate this effort.

Your Committee notes that the intent of the measure is for the Department of Education to use the "Promising Credentials in Hawaii" report as a starting point in establishing the career development success programs. However, your Committee further notes that this measure provides the Department of Education the authority to determine the credentials that qualify under the programs to allow the Department to make changes as circumstances change.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education has the authority to determine the:
 - (A) Credentials that qualify for the different types of credential categories described in the measure; and
 - (B) Programs that are recognized as qualified industry-credential programs;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2826, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Wakai).

SCRep. 3046 Ways and Means on S.B. No. 2836

The purpose and intent of this measure is to clarify the role and authority of the State's juvenile probation officers.

More specifically, the measure:

- (1) Requires the Judiciary to create within the Judiciary's hiring system a separate employment classification for juvenile probation officers;
- (2) Establishes minimum procedures for the appointment of juvenile probation officers; and
- (3) Requires the Judiciary to submit status reports to the Legislature on the implementation of this effort.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that the creation of a separate employment classification for juvenile probation officers that is distinct from their current social worker classification, and requirements for the issuance of identification cards and badges and completion of annual safety training, will clarify their enforcement authority and promote their safety when carrying out enforcement duties in the field.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3047 Ways and Means on S.B. No. 2837

The purpose and intent of this measure is to reduce pet overpopulation and the reproduction of free-roaming cats in the State.

More specifically, this measure:

- (1) Establishes a spay and neuter special fund to fund spaying and neutering surgery and associated veterinary care; and
- (2) Allows funds from an income tax check-off to be deposited into the special fund.

Your Committee received written comments in support of this measure from A4A, Aloha Animal Advocates, Animal Interfaith Alliance in Britain, Hawaiian Humane Society, The Humane Society of the United States, Neighborhood Cats, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance, American Bird Conservancy, and one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that overpopulation contributes to animal suffering in Hawaii. Your Committee also finds that spaying and neutering are proven ways to reduce pet overpopulation and euthanasia rates. Your Committee further finds that the humane reduction of the free-roaming cat population is in the interest of cats, wildlife, the environment, and humans.

Your Committee has amended this measure by:

- (1) Clarifying that, in administering the special fund, priority shall be given to providing funding to organizations that specialize in trap-neuter-release practices;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2837, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3048 Ways and Means on S.B. No. 2857

The purpose and intent of this measure is to establish the child wellness incentive pilot program.

More specifically, this measure:

- (1) Establishes the child wellness incentive pilot program within the Department of Human Services to pay \$50 to a state Medicaid benefit recipient each time the recipient's child completes a well-child examination;
- (2) Requires the Department of Human Services to adopt rules and submit a report to the Legislature; and
- (3) Appropriates moneys to the Department of Human Services to establish, implement, and operate the child wellness incentive pilot program.

Your Committee received written comments in support of this measure from the American Academy of Pediatrics, Hawaii Chapter and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that a child wellness incentive pilot program will help to increase adherence to well-child examination schedules and promote the health of children throughout the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$4,516,000 to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2857, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3049 Ways and Means on S.B. No. 2885

The purpose and intent of this measure is to appropriate moneys to the Legislative Reference Bureau to support one full-time position in the State Capitol's Public Access Room to provide educational outreach and engagement for all Hawaii schools.

Your Committee received written comments in support of this measure from the Commission to Promote Advance Civic Education, Hawaii Youth Services Network, Common Cause Hawaii, and six individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Legislative Reference Bureau.

Your Committee finds that the educational outreach program funded by this measure will help teach students about the legislative process, provide them opportunities to interact with state legislators, and encourage them to become more politically engaged adults.

Your Committee acknowledges the following written concerns offered by the Legislative Reference Bureau:

[W]e note that [the Public Access Room] already provides universal community outreach and civic engagement seminars, workshops, and information that are not limited to one specific target audience, which means that students could benefit from these pre-existing educational sessions and information. The scope of additional activities envisioned by this measure is uncertain; however, if the intent is to include such activities as providing tours to school children, then PAR would need additional space within the Capitol building to ensure that tours do not interfere with PAR's current service . . . [I]f the Committee . . . envisions that PAR conduct in-person tours for large groups as part of the educational outreach program once the building has reopened, we respectfully ask the Committee to consider the spatial challenges that such an activity would create for PAR.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3050 Ways and Means on S.B. No. 2889

The purpose and intent of this measure is to provide businesses with the option of using water from rain catchment systems.

Specifically, this measure requires the Department of Health to:

- (1) Regulate water catchment systems used for business activities;
- (2) Provide testing to businesses that utilize water catchment systems; and
- (3) Provide technical assistance on water catchment systems and filtration to business owners who wish to use captured water.

Your Committee received written comments in support of this measure from Hawaii Tropical Fruit Growers.

Your Committee received written comments in opposition to this measure from the Department of Health.

Your Committee received written comments on this measure from the Board of Water Supply and International Association of Plumbing and Mechanical Officials.

Your Committee finds that, because water catchment systems capture and store rainwater, establishing regulations that allow water from catchment systems to be used for non-residential purposes will help to preserve the State's potable water resources while ensuring the public's safety.

Your Committee has amended this measure by:

- (1) Clarifying that the rules adopted by the Department of Health shall comply with appendix K of the state plumbing code; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2889, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2889, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3051 Ways and Means on S.B. No. 2893

The purpose and intent of this measure is to establish and fund a one-year pilot program to subsidize the purchase of school supplies at schools composed entirely of students eligible for participation in Title I, Part A, of the Elementary and Secondary Education Act, as amended.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the annual expense of purchasing student school supplies can reach thousands of dollars, which is beyond the financial means of many low-income families. Your Committee further finds that a subsidy program targeted specifically to schools composed of students in low-income families will help to ensure that the students who attend those schools receive the school supplies necessary for their academic year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2893, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3052 Ways and Means on S.B. No. 2898

The purpose and intent of this measure is to establish the Transit-Oriented Development Infrastructure Improvement District and governing board to improve infrastructure near transit stations.

Your Committee received written comments in support of this measure from the Hawaii Community Development Authority, Department of Land and Natural Resources, and Office of Planning and Sustainable Development.

Your Committee received written comments on this measure from the Department of Budget and Finance and Maui Chamber of Commerce.

Your Committee finds that establishing a dedicated improvement district will help to coordinate the public and private sectors to plan, finance, and deliver the infrastructure necessary to increase the capacity of housing in the areas surrounding transit stations.

Your Committee has amended this measure by:

- (1) Reducing, from four years to two years, the initial term of the cultural specialist on the Transit-Oriented Development Infrastructure Improvement District Board;
- (2) Deleting a provision regarding the removal of board members, since section 26-34(d), Hawaii Revised Statutes, already provides that authority to the Governor;
- (3) For the purposes of ensuring continuity in leadership and board decision-making, deleting the provision requiring that board members annually elect the Chairperson, Vice Chairperson, and other officers; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2898, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2898, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3053 Ways and Means on S.B. No. 2919

The purpose and intent of this measure is to require the State Council on Developmental Disabilities to submit a report to the Legislature identifying health disparities experienced by persons with disabilities in Hawaii.

Your Committee received written comments in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, Executive Office on Aging, Disability and Communication Access Board, Office of Aging for the County of Hawaii, Hawaii Health and Harm Reduction Center, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the report required by this measure will help the State better understand and address the barriers and health inequities faced by residents with disabilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2919, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3054 Ways and Means on S.B. No. 2923

The purpose and intent of this measure is to increase from \$2,000 to \$5,000 the maximum fine for certain fireworks violations.

Your Committee received written comments in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Chair of the Pearl City Neighborhood Board, Hawaii Reef and Ocean Coalition, and five individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the illegal use of aerial fireworks continues to annoy residents, traumatize pets, and create dangerous conditions for the entire community. Your Committee also finds that a strong deterrent is necessary to significantly reduce this activity. Your Committee believes that increasing fines associated with certain uses of illegal fireworks may provide an appropriate deterrent.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2923 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3055 Ways and Means on S.B. No. 2928

The purpose and intent of this measure is to establish and appropriate funds for a working group to prepare and submit to the Legislature an implementation plan for agricultural career pathways.

Your Committee received written comments in support of this measure from the University of Hawaii and Department of Education.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that a robust agricultural industry will require a well-trained workforce. Therefore, your Committee believes that it is appropriate for the State to plan to prepare young people for careers in agriculture.

Your Committee has amended this measure by:

- (1) Naming the working group the "agricultural careers working group";
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2928, S.D. 3.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3056 Ways and Means on S.B. No. 2473

The purpose and intent of this measure is to transfer the Agribusiness Development Corporation from the Department of Agriculture to the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in opposition to this measure from Hawaii Alliance for Progressive Action; Hawaii Food+ Policy; Malama Kauai; Pele Lani Farm, LLC; and numerous individuals.

Your Committee received written comments on this measure from the Agribusiness Development Corporation and Department of Agriculture.

Your Committee finds that because the goals and objectives of the Agribusiness Development Corporation support the Department of Business, Economic Development, and Tourism's general mission, transferring the Corporation from the Department of Agriculture to the Department of Business, Economic Development, and Tourism is appropriate.

Your Committee has amended this measure by:

- (1) Amending the focus, scope, responsibilities, and powers of the Agribusiness Development Corporation;
- (2) Amending the definition of the term "agriculture" as the term relates to the Agribusiness Development Corporation;
- (3) Amending the requirements and responsibilities of the Board of Directors of the Agribusiness Development Corporation;
- (4) Amending the required contents of the Hawaii agribusiness plan;
- (5) Requiring the Agribusiness Development Corporation to update the Hawaii agribusiness plan no later than July 1, 2023, and every five years thereafter;
- (6) Appropriating moneys to the Agribusiness Development Corporation for a consultant to assist in preparing and finalizing the Hawaii agribusiness plan, one full-time equivalent (1.0 FTE) permanent accountant position to provide fiscal support services, and security guard services; and
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2473, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2473, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3057 Ways and Means on S.B. No. 2479

The purpose and intent of this measure is to require that each public housing project, dwelling unit, or state low-income housing project built, renovated, or reconstructed after January 1, 2023, include all broadband infrastructure necessary for tenants to access broadband service.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; State Council on Developmental Disabilities; AARP Hawaii; Common Cause Hawaii; League of Women Voters of Hawaii; and one individual.

Your Committee finds that this measure will allow residents in Hawaii public housing units to conveniently access the Internet and receive those critical services, including health care and education, that have increasingly become internet-based.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2479 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3058 Ways and Means on S.B. No. 2480

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the Department of Agriculture and the Agribusiness Development Corporation to purchase the Wahiawa Irrigation System on the island of Oahu.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation, Ulupono Initiative, Dole Food Co. Hawaii, Hawaii Farm Bureau, and Hawaii Crop Improvement Association.

Your Committee received written comments in opposition to this measure from the Department of Agriculture.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Wahiawa Irrigation System has significant importance to the public for conservation, recreation, research, public safety, infrastructure management, and other purposes. Your Committee therefore believes that the acquisition, repair, and maintenance of the Wahiawa Irrigation System and the associated spillway are in the public interest and will benefit the State.

Your Committee has amended this measure by:

- (1) Requiring that the Office of the Governor negotiate with Dole Food Company for the State's fee simple acquisition of the Wahiawa Irrigation System;
- (2) Authorizing and appropriating moneys for the Department of Agriculture, Department of Land and Natural Resources, and Agribusiness Development Corporation to acquire from Dole Food Company and Sustainable Hawaii, LLC, fee simple interests in the Wahiawa Irrigation System and an associated spillway;
- (3) Changing the source of moneys appropriated to purchase the Wahiawa Irrigation System from general obligation bonds to the general fund;
- (4) Prohibiting the Department of Land and Natural Resources from imposing administrative fines on the Department of Agriculture for safety deficiencies at Wahiawa Dam; provided that the Department of Agriculture repairs and maintains the dam and spillway to meet dam safety standards;
- (5) Providing that any existing fines owed by Dole Food Company or Sustainable Hawaii, LLC, for violations of dam safety standards at Wahiawa Dam or the associated spillway shall not transfer to the State upon the sale of the property to the State;
- (6) Appropriating moneys to the Agribusiness Development Corporation and Department of Land and Natural Resources, to manage and maintain their respective portions of the Wahiawa Irrigation System, including the creation of four full-time equivalent (4.0 FTE) positions in the Department of Land and Natural Resources for this purpose; and
- (7) Making technical nonsubstantive changes for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2480, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2480, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3059 Ways and Means on S.B. No. 2482

The purpose and intent of this measure is to establish the Office of Wellness and Resilience within the Office of the Governor to address and improve trauma-informed care within the State.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning; Department of Human Services; Waimanalo Elementary and Intermediate School; Department of Health; Department of Public Safety; Hawaii Youth Services Network; Hawaii Children's Action Network Speaks!; Early Childhood Action Strategy; Maui Family Support Services, Inc.; Kamehameha Schools; HawaiiKidsCAN; Early Learning Board; Hawaii Community Foundation; Imua Family Services; Association for Infant Mental Health Hawaii; Rainbow Schools; Chaminade University; Bizgenics; and twenty individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that traumatic experiences, especially in childhood, can have a lifelong impact on health, learning, and even brain development. Your Committee further finds that the office established by this measure is the best entity to lead the creation and adoption of a statewide framework for trauma-informed and responsive practices, which among other things, will help to coordinate the various agencies that have individually taken steps toward improving trauma-informed care.

Your Committee notes that the Department of Health has requested that the Executive Director of the Office of Wellness and Resilience possess the necessary qualifications to lead the office and has expressed a willingness to assist in determining those prerequisites.

Your Committee has amended this measure by:

- (1) Clarifying that the placement of the Office of Wellness and Resilience within the Office of the Governor shall be for special purposes to comply with Article V, section 6, of the Hawaii State Constitution; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2482, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3060 Ways and Means on S.B. No. 2504

The purpose and intent of this measure is to establish a special fund to provide rent reimbursement incentives and property damage reimbursement for land owners participating in a Hawaii Public Housing Authority rental housing voucher program.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, State Council on Developmental Disabilities, Hawaii Health and Harm Reduction Center, Partners In Care, Family Promise of Hawaii, and Catholic Charities Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the reimbursement incentives and protections against excessive property damage provided by this measure will help to increase the inventory of affordable housing in the State by encouraging more landlords to participate in rental housing voucher programs.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2504, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3061 Ways and Means on S.B. No. 2511

The purpose and intent of this measure is to make the renewable energy technologies income tax credit available to taxpayers that install and use qualifying firm renewable energy systems.

Your Committee received written comments in support of this measure from Sustainable Energy Hawaii, Hawaii Clean Power Alliance, and nine individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, Hawaii State Energy Office, Tax Foundation of Hawaii, Climate Protectors Hawaii, Hawaiian Electric, and two individuals.

Your Committee finds that the use of renewable energy resources would enable the State to be energy self-sufficient and secure, resist fluctuations in oil prices, achieve environmental sustainability, promote economic development, and increase employment. Your Committee finds that expanding the renewable energy technologies income tax credit to include firm renewable energy systems would help the State to achieve these goals.

Your Committee has amended this measure by:

- (1) Requiring a firm renewable energy system to have an actual output of one thousand kilowatts of alternating current, rather than merely a capacity for that output;
- (2) Amending the definition of "firm renewable energy system" to exclude systems that are not always available on demand, and to delete emissions limitations;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2511, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3062 Ways and Means on S.B. No. 2529

The purpose and intent of this measure is to appropriate moneys to the Department of Health to expand and enhance the call capability of mobile outreach services provided through the Hawaii CARES crisis helpline, expand licensed crisis residential shelter services, and expand bed stabilization services.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Psychiatric Medical Association, Hawaii Medical Association, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the coronavirus disease 2019 pandemic has exacerbated the need for mental health care services, including services addressing mental illnesses, mental health crises, and substance use disorder. The moneys appropriated by this measure will allow the Department of Health's behavioral health divisions to meet these needs by expanding the divisions' existing crisis care services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3063 Ways and Means on S.B. No. 2532

The purpose and intent of this measure is to provide skills to inmates that will help them succeed after their release from incarceration.

More specifically, the measure:

- (1) Establishes within the Department of Public Safety a working group that shall contract with an educational institution to establish a business, entrepreneurial, and financial literacy program focused on providing incarcerated students with access to a quality business education;
- (2) Requires the Department of Public Safety to coordinate with an accredited institution of higher education to create a program designed to reduce recidivism and focus on providing inmates with business and entrepreneurial skills and financial literacy education; and
- (3) Appropriates moneys for the pilot program.

Your Committee received written comments in support of this measure from Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Hawaii Health and Harm Reduction Center, Resilience Education, University of Virginia Darden School of Business, and several individuals.

Your Committee received written comments on this measure from the Department of Public Safety, Department of Budget and Finance, and University of Hawaii.

Your Committee finds that the pilot program to be created by this measure will provide inmates with financial knowledge and business skills that inmates may use to increase their chances of success and reduce their risk of recidivism after their release.

Your Committee has amended this measure by:

- (1) Clarifying that the working group shall create a pilot program designed to reduce recidivism and that the Department of Public Safety shall establish the working group;
- (2) Clarifying that the Department of Public Safety, not the working group, shall contract with an educational institution to provide the instructional component of the pilot program;
- (3) Specifying that the working group shall submit a report to the Legislature;
- (4) Changing the appropriation from \$400,000 to an unspecified amount;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2532, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3064 Ways and Means on S.B. No. 2616

The purpose and intent of this measure is to promote safer outdoor recreation.

More specifically, the measure requires government entities to seek reimbursement for the expenses arising from the search and rescue of persons who ignore posted warnings, intentionally leave a hiking trail to enter a prohibited area, or hike on a trail that is closed to the public.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Honolulu Police Department.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure's directive for government entities to seek reimbursement of search and rescue expenses from persons who unreasonably disregarded their own safety will allow government entities to offset the costs of search and rescue efforts and, additionally, encourage outdoor enthusiasts to act with greater care and responsibility.

Your Committee has amended this measure by:

- (1) Clarifying that the requirement for a government entity to seek reimbursement of search or rescue expenses applies if the search or rescue was necessary because the person who was the subject of the search or rescue unreasonably disregarded the person's safety;
- (2) Clarifying that the act of leaving a managed and authorized hiking trail, or park boundary, for the purpose of entering an area or trail that is closed to the public, will require a government entity to seek reimbursement from the person searched for or rescued as a result;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2616, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2616, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3065 Ways and Means on S.B. No. 2708

The purpose and intent of this measure is to amend the definition of "employee-beneficiary", as the term relates to the Hawaii Employer-Union Health Benefits Trust Fund, to include the surviving unmarried adult child of a deceased retired member if the child is incapable of self-support due to a mental or physical incapacity that existed before the child's reaching the age of nineteen years.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board; Hawaii Government Employees Association; United Public Workers, AFSCME Local 646; and one individual.

Your Committee received written comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that this measure will ensure that certain disabled adults continue to receive health benefits or long-term care benefits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2708 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3066 Ways and Means on S.B. No. 2726

The purpose and intent of this measure is to allow for the efficient and timely procurement of parking lot operation services located on all public properties.

Specifically, this measure expands the exemption from mandatory public bidding requirements under state procurement law currently provided to parking concessions at airports to all parking concessions located on public property.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that the public bidding process required by section 102-2(a), Hawaii Revised Statutes, can create significant delays when a department attempts to replace a parking vendor. Your Committee further finds that the ability for a department to quickly respond to a need to change parking vendors or other extenuating circumstances is essential to ensure uninterrupted parking services for the public.

Your Committee has amended this measure by:

- (1) Removing the proposed language that expanded the exemption from the mandatory bidding requirements of section 102-1, Hawaii Revised Statutes, to all parking concessions on public property;

- (2) Restoring the existing narrow exemption provided for the operation of parking lot operations and ground transportation services at airports, and expanding that exemption to include parking lot operations and ground transportation services at small boat harbors;
- (3) Correcting the text of section 102-2(b), Hawaii Revised Statutes, to correspond to the printed version of the Hawaii Revised Statutes; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2726, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3067 Ways and Means on S.B. No. 2731

The purpose and intent of this measure is to appropriate moneys to support the Bernice Pauahi Bishop Museum.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts, Hawaii Tourism Authority, and Bishop Museum.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Bernice Pauahi Bishop Museum has lost significant operating revenue due to a decrease in visitors during the pandemic and is in need of additional funds. As the Museum is a distinguished institution and is officially designated as the State of Hawaii Museum of Natural and Cultural History, your Committee believes that an appropriation to support the Museum is warranted.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2731, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3068 Ways and Means on S.B. No. 2735

The purpose and intent of this measure is to address gaps in the State's mental health system.

Specifically, this measure appropriates moneys to the Adult Mental Health Division of the Department of Health for behavioral health crisis stabilization beds.

Your Committee received written comments in support of this measure from the Judiciary, Department of Health, Hawaii Substance Abuse Coalition, Hawaii Health and Harm Reduction Center, Hawaii Primary Care Association, Hawaii Psychiatric Medical Association, Catholic Charities Hawaii, Partners in Care, Hawaii Medical Association, Hawaii Psychological Association, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the moneys appropriated by this measure will help to address the gap in the number of behavioral health crisis stabilization beds available to treat individuals having severe behavioral health needs but who do not require emergency room-level crisis care.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3069 Ways and Means on S.B. No. 2736

The purpose and intent of this measure is to appropriate moneys to the Adult Mental Health Division of the Department of Health to support the development of a statewide crisis outreach program.

More specifically, the measure appropriates moneys to develop a crisis outreach program modeled on the Crisis Assistance Helping Out On The Streets (CAHOOTS) program created in Eugene, Oregon.

Your Committee received written comments in support of this measure from the Hawaii State Department of Health, Hawaii Substance Abuse Coalition, Hawaii Health and Harm Reduction Center, Hawaii Psychiatric Medical Association, Partners in Care, Hawaii Medical Association, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the development of a statewide crisis outreach program will help ensure that persons in need receive appropriate crisis support from workers and medical professionals who are trained in de-escalation and crisis intervention.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2736, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3070 Ways and Means on S.B. No. 2737

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to develop a long-term care facility at the Guensberg Building at Hawaii State Hospital.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Substance Abuse Coalition, Hawaii Health and Harm Reduction Center, Hawaii Psychiatric Medical Association, Partners in Care, and Hawaii Psychological Association.

Your Committee finds that certain individuals with behavioral health needs, developmental disabilities, intellectual disabilities, and cognitive needs would be best served by an appropriate facility at Hawaii State Hospital.

Your Committee has amended this measure by:

- (1) Changing the amount of the bond authorization from \$53,500,000 to an unspecified amount to facilitate further discussion on the measure;
- (2) Inserting language that explicitly appropriates the bond revenues for the construction project; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2737, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2737, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3071 Ways and Means on S.B. No. 2757

The purpose and intent of this measure is to appropriate moneys for the Department of Land and Natural Resources to develop a comprehensive inventory of historic properties and burial sites.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Society for Hawaiian Archaeology, Historic Hawaii Foundation, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proper management and protection of historic properties and burial sites across the State will require a comprehensive inventory of those properties and sites. Accordingly, your Committee further finds that the State should devote resources to the development of such an inventory.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3072 Ways and Means on S.B. No. 2768

The purpose and intent of this measure is to authorize the Governor to designate the Department of Land and Natural Resources to administer or enter into an agreement for the administration of a green jobs youth corps to provide temporary work and training in natural resource management, agriculture, or other sustainability-related professions.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, Food+ Policy, The Nature Conservancy Hawaii, Kua'aina Ulu 'Auamo, Hawaii Fish Company Inc., Kupu, Re-use Hawai'i, and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the green jobs youth corps enabled by this measure will help to promote Hawaii's clean energy goals, expand Hawaii's green workforce, and develop clean energy leaders.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2768, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3073 Ways and Means on S.B. No. 2772

The purpose and intent of this measure is to appropriate moneys to the Judiciary to create new and expand existing community-based furlough programs and residential drug treatment, therapeutic living, and mental health programs for judicial process-involved women.

Your Committee received written comments in support of this measure from the Hawaii Substance Abuse Coalition, Women's Prison Project, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Judiciary, Department of Budget and Finance, and ACLU of Hawaii.

Your Committee finds that because there is a limited number of programs that allow minors to remain with their mothers while their mothers are in treatment, funding would help expand these existing programs and create new programs to accommodate more participants.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2772, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2772, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3074 Ways and Means on S.B. No. 2787

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (6), which consists of educational officers and other personnel of the Department of Education under the same pay schedule, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and University of Hawaii.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (6) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2787, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3075 Ways and Means on S.B. No. 2789

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (8), which consists of non-faculty personnel of the University of Hawaii and the community college system, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (8) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2789, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2789, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3076 Ways and Means on S.B. No. 2791

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items for the members of collective bargaining unit (10), which consists of institutional, health, and correctional workers, along with their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and United Public Workers, AFSCME Local 646.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (10) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached or an arbitration award is issued before the end of the current legislative session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2791, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3077 Ways and Means on S.B. No. 2805

The purpose and intent of this measure is to establish and provide moneys for the Hawaii start-up business loan program.

More specifically, the measure:

- (1) Establishes the Hawaii start-up business loan program;
- (2) Establishes the Hawaii start-up business loan program revolving fund to provide moneys for the loan program; and
- (3) Appropriates moneys into and out of the Hawaii start-up business loan program revolving fund.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Department of Business, Economic Development, and Tourism; Hawaii Food Industry Association; Chamber of Commerce Hawaii; and Right to Start.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the start-up loan program established by this measure will help create jobs, grow the State's economy, increase incomes and community wealth, and fight inequality and poverty by supporting entrepreneurs and new businesses.

Your Committee has amended this measure by:

- (1) Clarifying that the Business Development and Support Division of the Department of Business, Economic Development, and Tourism shall adopt administrative rules necessary for administering the Hawaii start-up business loan program;
- (2) Amending the definition of "financial institution" to include nonprofit loan funds, as recommended in written comments from the Department of Business, Economic Development, and Tourism;
- (3) Changing the source of moneys appropriated into the Hawaii start-up business loan program revolving fund from federal funds to the State's general fund;
- (4) Changing the amounts appropriated into and out of the Hawaii start-up business loan program revolving fund to unspecified sums;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2805, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2805, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3078 Ways and Means on S.B. No. 2609

The purpose and intent of this measure is to authorize the issuance of no more than \$750,000,000 in special purpose revenue bonds to finance the construction, improvement, and equipping of health care facilities by The Queen's Health Systems and its nonprofit affiliates.

Your Committee received written comments in support of this measure from The Queen's Health Systems.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the activities and facilities of The Queen's Health Systems and its nonprofit affiliates constitute a project that qualifies for special purpose revenue bonds that are intended to assist not-for-profit corporations that provide health care facilities to the general public.

Your Committee has amended this measure by:

- (1) Changing the amount of the bond authorization from \$750,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2609, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2609, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3079 Ways and Means on S.B. No. 2612

The purpose and intent of this measure is to establish and appropriate moneys for a reusable utensil pilot project in Department of Education schools on the island of Molokai.

Your Committee received written comments in support of this measure from the Department of Education and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the single-use plastic utensils used in Department of Education schools are major contributors to plastic waste in the State. The pilot project established by this measure will help to reduce this waste and aid the State in determining the feasibility of implementing the program in Department of Education schools statewide.

Your Committee has amended this measure by:

- (1) Requiring the Department of Education to submit an interim report to the Legislature prior to the Regular Session of 2023 and a final report prior to the Regular Session of 2024 on the feasibility of statewide implementation;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2612, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2612, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3080 Ways and Means on S.B. No. 2622

The purpose and intent of this measure is to establish and provide moneys for a two-year pilot project on the island of Molokai to grow crops for biodiesel fuel production.

Your Committee received written comments in support of this measure from Pacific Biodiesel Technologies and the Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Agriculture, Hawaii State Energy Office, and Pacific Agricultural Land Management Systems and Hawaii Oil Seed Producers.

Your Committee finds that supporting local agricultural production is critical to diversifying Hawaii's economy. The feedstock produced through this pilot project can be processed into biofuels and other value-added products, benefiting farmers, feedstock processors, and the environment while also creating jobs. Your Committee also finds that the production of biofuels will help the State reach the goal of one hundred percent renewable energy by 2045.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to an unspecified sum to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2622, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2622, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3081 Ways and Means on S.B. No. 2624

The purpose and intent of this measure is to establish and appropriate moneys for telehealth and rural health care pilot projects.

More specifically, the measure establishes and funds:

- (1) A telehealth pilot project to evaluate the efficacy of various telehealth delivery models; and
- (2) A rural health care pilot project to pay additional fees and expenses for physicians and nurse practitioners who practice in certain medically underserved areas and have medical specialties that are typically difficult for residents in rural areas to access.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii Substance Abuse Coalition, Hawaii Public Health Institute, Queen's Health Systems, Hawaii Primary Care Association, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, State Council on Mental Health, and Hawaii State Center for Nursing.

Your Committee finds that the pilot projects established and funded by this measure will help improve the quality and availability of health care in the State by offering incentives to doctors to practice in rural areas. Your Committee further finds that this measure will help to provide health care access to residents who are elderly, have transportation barriers, or may otherwise benefit from telehealth.

Your Committee has amended this measure by:

- (1) Requiring the Department of Health to provide an evaluation report on the outcomes of the rural health care pilot project, within six months of the exhaustion of all project funds;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2624, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2624, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3082 Ways and Means on S.B. No. 2629

The purpose and intent of this measure is to require the Department of Agriculture, in consultation with the Department of Health, to develop and implement a pesticide disposal collection program no later than June 30, 2023, and operate the program for a duration to be determined by the Department of Agriculture.

Your Committee received written comments in support of this measure from the Department of Health; Department of Agriculture; Food+ Policy Internship 2022; Larry Jefts Farms, LLC; Hawaii Crop Improvement Association; Hawai'i Alliance for Progressive Action; Hawaii Pest Control Association; Hawaii Farm Bureau; and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the disposal of agricultural pesticides in sanitary landfills is prohibited. However, no safe or legal alternatives for their disposal are currently available. Your Committee recognizes that other states have successfully created low-cost pesticide disposal collection programs to ensure that unwanted agricultural pesticides are discarded in a safe manner. Your Committee believes that the State's implementation of a similar program would be a critical component of the State's environmental management efforts.

Your Committee has amended this measure by:

- (1) Explicitly including pest control operators licensed under Chapter 460J, Hawaii Revised Statutes, among the entities that may participate in the pesticide disposal collection program;
- (2) Requiring the Advisory Committee on Pesticides to serve as a steering committee to guide and monitor the program;
- (3) Changing the appropriation from \$800,000 to an unspecified amount;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2629, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2629, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3083 Ways and Means on S.B. No. 2634

The purpose and intent of this measure is to appropriate moneys from general revenues to extend Medicaid postpartum coverage to twelve months following the end of pregnancy.

Your Committee received written comments in support of this measure from the Department of Human Services; Executive Office on Early Learning; Disability and Communication Access Board; Hawaii State Commission on the Status of Women; Healthcare Association of Hawaii; AlohaCare; Hawaii Medical Service Association; United Healthcare; Hawaii Public Health Association; Hawaii

Women's Coalition; Hawaii Primary Care Association; American Academy of Pediatrics, Hawaii Chapter; Hawaii Medical Association; American Heart Association; Planned Parenthood Alliance Advocates - Hawaii; Save Medicaid Hawaii; Hawaii Association of Health Plans; Hawaii Public Health Institute; American Association of University Women of Hawaii; Hawaii Pacific Health; American College of Obstetricians and Gynecologists, Hawaii Section; Ahahui o na Kauka - Association of Native Hawaiian Physicians; Hawaii Family Forum; Midwives Alliance of Hawaii; Hawaii Women Lawyers; Hawaii Maternal and Infant Health Collaborative; Early Childhood Action Strategy; Children's Action Network Speaks!; and fifteen individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that it is important for the State to support women who are otherwise ineligible for postpartum health coverage, as these women often struggle to receive necessary care during the twelve months that immediately follow childbirth.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2634, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3084 Ways and Means on S.B. No. 2640

The purpose and intent of this measure is to appropriate moneys for the second year of the education program for imprisoned women.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Public Safety, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, Hawaii Health and Harm Reduction Center, Women's Prison Project, and three individuals.

Your Committee received written comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committee finds that the educational opportunities provided by this measure will help to reduce recidivism and assist incarcerated women integrating back into society by developing their employment skills, helping them to obtain their General Educational Development diploma, providing them with college-level education, enhancing their self-esteem, and providing them with beneficial parenting skills.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$250,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2640, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2640, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3085 Ways and Means on S.B. No. 2662

The purpose and intent of this measure is to encourage and facilitate the recycling of construction and demolition waste.

Specifically, this measure:

- (1) Establishes a state and county bid preference for construction and demolition services that use the most recycled materials or recycle the most demolition materials;
- (2) Updates the state building codes to include the latest edition of the International Green Construction Code; and
- (3) Updates the state building codes to require the recycling of not less than twenty-five percent of non-hazardous construction, deconstruction, or demolition waste from public buildings and not less than twenty percent of non-hazardous construction, deconstruction, or demolition waste from private buildings.

Your Committee received written comments in support of this measure from the City and County of Honolulu, Department of Environmental Services; Hawai'i Reef and Ocean Coalition; Re-use Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Mokulua High Performance Builder; and one individual.

Your Committee received written comments in opposition to this measure from the Building Industry Association of Hawaii; General Contractors Association of Hawaii; American Institute of Architects, Hawaii State Council; and one individual.

Your Committee received written comments on this measure from the State Procurement Office and Hawaii Gas.

Your Committee finds that construction and demolition waste account for approximately thirty percent of the material sent to landfills. Your Committee further finds that increasing the amount of recycled waste materials will help to reduce landfill use and increase environmental sustainability efforts of the construction industry.

Your Committee has amended this measure by:

- (1) Clarifying that each priority offeror's bid amount for construction or demolition services procured by the State or any county shall not be more than ten percent greater or less than all other bids;
- (2) Including the conversion of waste material to renewable gaseous fuel as a permissible form of recycling;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2662, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2662, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3086 Ways and Means on S.B. No. 2664

The purpose and intent of this measure is to improve protections for taro lands and production.

Specifically, this measure:

- (1) Establishes a fourth class of land for lands having cultural, social, economic, and food self-sufficiency value if preserved for wetland taro cultivation;
- (2) Authorizes the Land Use Commission to create an inventory of taro lands and to submit that inventory to the Board of Land and Natural Resources for approval; and
- (3) Appropriates moneys for the purpose of creating the inventory.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; 'Ai Pohaku; Kipahulu Ohana, Inc.; Green Party Hawaii; Environmental Caucus of the Democratic Party of Hawaii; Hawaii Farm Bureau; and twelve individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the additional protections afforded to taro lands and production by this measure will help to improve food security and agricultural diversity in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2664, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2664, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3087 Ways and Means on S.B. No. 2665

The purpose and intent of this measure is to improve protections for taro lands and production.

Specifically, this measure:

- (1) Establishes a fourth classification of land for intensive agricultural use designated for certain taro land;
- (2) Prohibits the Board of Land and Natural Resources from disturbing certain ancient taro lands, systems, and elements; and
- (3) Requires the Land Use Commission to create an inventory.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; 'Ai Pohaku; Kipahulu Ohana, Inc.; Green Party Hawaii; Environmental Caucus of the Democratic Party of Hawaii; Hawaii Farm Bureau; and ten individuals.

Your Committee finds that the additional protections afforded to taro lands and production by this measure will help to improve food security and agricultural diversity in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2665, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2665, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3088 Ways and Means on S.B. No. 2670

The purpose and intent of this measure is to improve the State's interface with members of the lesbian, gay, bisexual, transgender, queer, plus community.

Specifically, this measure:

- (1) Establishes the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission and provides for the commission's membership, powers, and duties;
- (2) Establishes a committee on lesbian, gay, bisexual, transgender, queer, plus affairs in each county; and
- (3) Appropriates moneys to establish and operate the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission, Stonewall Caucus of the Democratic Party of Hawaii, Pride @ Work – Hawaii, LGBTQ+ Center at the University of Hawaii at Manoa, Rainbow Family 808, Common Cause Hawaii, North Shore Koolau Diversity Collective, Hawaii Health and Harm Reduction Center, AF3IRM Hawaii, Americans for Democratic Action, and eleven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Health.

Your Committee finds that the commission established by this measure will help the State identify and meet the needs of the lesbian, gay, bisexual, transgender, queer, plus community.

Your Committee has amended this measure by:

- (1) Adding one member to the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission to represent the Hawaii sexual and gender minority work group of the Department of Health;
- (2) Requiring that the Governor appoint members of the commission that reflect the diversity of the lesbian, gay, bisexual, transgender, queer, plus community by including individuals from different lesbian, gay, bisexual, transgender, queer, plus identities;
- (3) Appropriating an unspecified sum of general funds to the counties to fulfill the State's obligation to share the cost of any new mandated program pursuant to Article VIII, section 5, of the Hawaii State Constitution;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making a technical nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2670, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2670, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3089 Ways and Means on S.B. No. 2675

The purpose and intent of this measure is to establish a three-year cover crop reimbursement pilot program.

More specifically, this measure:

- (1) Requires the Department of Agriculture to establish and implement a three-year cover crop reimbursement pilot program to reimburse farming operations in the State for the costs of cover cropping;
- (2) Establishes requirements for the pilot program, including application requirements and requirements for the allocation and distribution of payments;
- (3) Establishes within the Department of Agriculture a cover crop reimbursement pilot program manager position;
- (4) Establishes requirements for, and the duties of, the cover crop reimbursement pilot program manager;
- (5) Requires the Department of Agriculture to submit a report to the Legislature; and
- (6) Appropriates moneys to the Department Agriculture to establish, implement, and administer the pilot program.

Your Committee received written comments in support of this measure from 350Hawaii; Climate Protectors Hawaii; Food+ Policy; Green Party Hawaii; Growing Together Edible Landscaping; Hawaii Alliance for Progressive Action; Hawaii Cattlemen's Council; Hawaii Farm Bureau; Hawaii Farmers Union United; Hydroponics Alternatives, LLC; Kipahulu Ohana, Inc.; Larry Jefts Farms, LLC; Malama Kauai; Pele Lani Farm, LLC; and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that cover cropping promotes healthier soils and is an important component of regenerative agriculture, which helps to sequester carbon emissions. Accordingly, your Committee believes that this measure will help to promote food security in the State while helping to address the ongoing climate change crisis.

Your Committee has amended this measure by:

- (1) Clarifying the allocation categories for disbursement of moneys through the cover crop reimbursement pilot program;
- (2) Amending the definition of "cover crop" to exclude invasive or fast-growing grasses, or both, including Bermuda grass;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2675, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3090 Ways and Means on S.B. No. 2677

The purpose and intent of this measure is to establish the long-term rental assistance pilot program to provide long-term rental assistance to individuals who are sixty-two years of age or older and are homeless or at imminent risk of becoming homeless.

More specifically, this measure:

- (1) Establishes the long-term rental assistance pilot program to be administered by the Hawaii Public Housing Authority;
- (2) Authorizes the Hawaii Public Housing Authority to enter into memoranda of agreement with the counties or specialized nonprofit organizations to implement the pilot program;
- (3) Establishes the duties and requirements of the Hawaii Public Housing Authority in relation to the pilot program, including the submittal of a report to the Legislature;
- (4) Dissolves the pilot program on June 30, 2025; and
- (5) Appropriates moneys to the Hawaii Public Housing Authority for the pilot program, including the establishment of two full-time equivalent (2.0 FTE) public housing specialist positions.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Catholic Charities Hawaii, Hawaii Health and Harm Reduction Center, Partners In Care, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that as the cost of living in the State continues to increase, many senior citizens are experiencing, or are at risk of experiencing, homelessness. Your Committee believes that this measure is an appropriate way to help these kupuna obtain or retain long-term or permanent housing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3091 Ways and Means on S.B. No. 2678

The purpose and intent of this measure is to appropriate moneys for the Executive Office on Aging to expand the Hawaii State Health Insurance Assistance Program (SHIP) by contracting with third-party service providers and staffing consultants and recruiting more volunteers.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Hawaii State Health Insurance Assistance Program, Policy Advisory Board on Elder Affairs, AARP Hawaii, Catholic Charities Hawaii, and seven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the appropriation of moneys for expansion of the Hawaii State Health Insurance Assistance Program will provide stability for, and ensure the continuity of, this critical program that helps individuals navigate the complexities of the federal Medicare program and make informed health insurance decisions.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2678, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2678, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3092 Ways and Means on S.B. No. 2700

The purpose and intent of this measure is to ensure that the data in the Department of Human Services' early childhood registry is consistently collected and analyzed.

More specifically, this measure:

- (1) Requires the Department of Human Services to direct staff of certain childcare programs to update information in the Department's early childhood registry;
- (2) Requires the Department of Human Services to submit a report to the Legislature regarding updates to the early childhood registry; and
- (3) Appropriates moneys for the Department of Human Services to improve the early childhood registry.

Your Committee received written comments in support of this measure from the Early Learning Board, Executive Office on Early Learning, AAUW of Hawaii, AF3IRM Hawaii, Early Childhood Action Strategy, Faith Action for Community Equity, Hawaii Association for the Education of Young Children, Hawaii Children's Action Network Speaks!, Neighborhood Place of Kona, Save Medicaid Hawaii, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that by improving the collection and analysis of data in the early childhood registry, this measure will help to expand the availability of access to high-quality early childcare and education programs in the State.

Your Committee has amended this measure by:

- (1) Codifying in statute, rather than session law, the requirement that the Department of Human Services direct staff of certain childcare programs to update information in the Department's early childhood registry;
- (2) Clarifying the Department of Human Services' reporting requirements;
- (3) Changing the appropriation from \$80,000 to an unspecified amount to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2700, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2700, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3093 Ways and Means on S.B. No. 3106

The purpose and intent of this measure is to permanently exempt from civil service eight positions within the Department of Human Services.

Your Committee received written comments in support of this measure from the Department of Human Services, Neighborhood Place of Kona, Parents and Children Together, Early Childhood Action Strategy, and three individuals.

Your Committee finds that all eight positions addressed by this measure are currently temporarily exempt from civil service. Your Committee further finds that permanently exempting these critical positions from civil service is necessary for the Department of Human Services to continue to be competitive in attracting and retaining qualified individuals who have the knowledge and experience necessary to effectively lead and manage the Department's programs.

Your Committee has amended this measure by making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3106, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3094 Ways and Means on S.B. No. 3111

The purpose and intent of this measure is to provide to families with children additional support and resources to prevent child abuse and neglect, and to ensure family and child well-being.

More specifically, the measure:

- (1) Establishes within the Department of Human Services a five-year family resource centers pilot program and one family resource centers coordinator position, to further develop and implement a statewide network of school- and community-based family resource centers;
- (2) Requires the Department of Human Services to submit to the Legislature annual reports containing specified information relating to the pilot program; and

(3) Appropriates moneys for the establishment of the pilot program and specified related expenses.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Health, Waimanalo Elementary and Intermediate School, Kailua High School Parent Community Network, Hawaii Children's Action Network Speaks!, Blueprint for Change, Hawaii Afterschool Alliance, Ohana Support Network, Family Programs Hawaii, Neighborhood Place of Kona, and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that a statewide network of family resource centers, as established by the pilot program created by this measure, will increase access to resources and supportive services for at-risk families and children across the State.

Your Committee has amended this measure by:

- (1) Clarifying that the pilot program's areas of responsibility include the establishment of definitions, standards, and best practices and the identification and alignment of available services, goals, and outcomes;
- (2) Requiring, rather than authorizing, the Director of Human Services to appoint a family resource centers coordinator to carry out the functions of the pilot program;
- (3) Changing the appropriation from \$350,000 to an unspecified amount to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3111, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3111, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3095 Ways and Means on S.B. No. 3113

The purpose and intent of this measure is to improve government efficiency by incorporating the kupuna caregivers program into the kupuna care program.

More specifically, the measure:

- (1) Specifies that the kupuna care program, among other things, shall provide support services to caregivers and employed caregivers who assist older adults to age in place;
- (2) Expands the services available to caregivers, employed caregivers, and care recipients; and
- (3) Sets out procedures and information that may be used to determine program eligibility.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Maui County Office on Aging, Disability and Communication Access Board, AARP Hawaii, Alzheimer's Association, American Association of University Women of Hawaii, and three individuals.

Your Committee finds that this measure's incorporation of the kupuna caregivers program into the kupuna care program will streamline the administrative and programmatic burdens of maintaining two separate programs while continuing to provide an array of seamless services and supports that meet the needs of older adults and their caregivers.

Your Committee has amended this measure by:

- (1) Amending the definition of "care recipient" in section 349-16, Hawaii Revised Statutes, to achieve consistency between the names of long-term care facilities referenced therein and the names of those facilities as referenced in Chapter 321, Hawaii Revised Statutes;
- (2) Deleting the definition of "coach" from section 349-16, Hawaii Revised Statutes, which is rendered unnecessary by the measure's deletion of all references to that term in Chapter 349, Hawaii Revised Statutes; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3113, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3113, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3096 Ways and Means on S.B. No. 3126

The purpose and intent of this measure is to allow the Director of Labor and Industrial Relations to authorize certain qualified boiler inspectors to perform safety inspections of pressure retaining items.

More specifically, this measure:

- (1) Allows the Director of Labor and Industrial Relations to authorize qualified boiler inspectors in the exclusive employment of an owner-user inspection organization to perform safety inspections of pressure retaining items; and

- (2) Provides the Director of Labor and Industrial Relations an additional three years to reimburse the general fund for the initial appropriation made into the Boiler and Elevator Revolving Fund.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Hawaiian Electric Company, and Par Hawaii.

Your Committee finds that by allowing the Director of Labor and Industrial Relations to authorize inspections by owner-user organizations, this measure will enhance the Department of Labor and Industrial Relations' ability to inspect, and ensure the safe operation and use of, boilers, pressure vessels, and pressure systems in the State. Your Committee also finds that providing the Director of Labor and Industrial Relations additional time to reimburse the general fund will help to ensure the continued safe operation of boilers, pressure vessels, pressure systems, amusement rides, and elevator and kindred equipment throughout the State.

Your Committee has amended this measure by:

- (1) Clarifying the authority of the Director of Labor and Industrial Relations to appoint a Chief Boiler and Pressure Vessel Inspector; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3126, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3126, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3097 Ways and Means on S.B. No. 3135

The purpose and intent of this measure is to transfer to the counties, the responsibility to review certain projects that may affect a historic property, an aviation artifact, or a burial site; provided that the counties meet certain requirements.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, the Chair of the Maui County Council, and NAIOP.

Your Committee received written comments in opposition to this measure from the Society for Hawaiian Archaeology and one individual.

Your Committee received written comments on this measure from the Historic Hawaii Foundation and Hawaii Government Employees Association.

Your Committee finds that transferring the historic review process to the counties will bring Hawaii in conformity with other states while helping to address the Department of Land and Natural Resources' backlog of unprocessed historic reviews.

Your Committee has amended this measure by:

- (1) Deleting the provision that third-party reviewers shall be used to address permit review backlogs experienced by the Department of Land and Natural Resources and may be released when the volume of permit reviews reaches a level that is manageable by Department staff; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3135, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3135, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3098 Ways and Means on S.B. No. 3143

The purpose and intent of this measure is to conform state income tax law and estate and generation—skipping transfer tax law to the Internal Revenue Code of 1986, as amended as of December 31, 2021.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee recognizes that this gubernatorial administration measure serves as legislation to comply with sections 235-2.5(c) and 236E-4(c), Hawaii Revised Statutes, which require the Department of Taxation to submit to the Legislature for each Regular Session legislation to adopt the Internal Revenue Code as it exists on the December 31 preceding the Regular Session, to conform relevant state tax laws to those changes made to the federal Internal Revenue Code during the past year, to the extent that those changes are appropriate for the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3143 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3099 Ways and Means on S.B. No. 3152

The purpose and intent of this measure is to make an emergency appropriation to the Department of Transportation Highways Division for the highway special maintenance program.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that the highway maintenance and repair projects funded by this measure will help improve roads, create jobs, and support the State's economic recovery from the effects of the coronavirus disease 2019 pandemic.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$20,000,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3152, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3152, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3100 Ways and Means on S.B. No. 3158

The purpose and intent of this measure is to establish a rebate program for purchases of electric vehicles, electric bicycles, mopeds, and motorcycles.

More specifically, this measure:

- (1) Requires the Department of Transportation to administer a rebate program to provide incentives for the purchase of electric vehicles, electric bicycles, mopeds, and motorcycles, subject to certain conditions;
- (2) Authorizes the Department of Transportation to contract with a third-party administrator to operate and manage the rebate program;
- (3) Establishes the electric vehicle, electric bicycle, moped, and motorcycle rebate special fund;
- (4) Requires that a portion of the environmental response, energy, and food security tax be deposited into the electric vehicle, electric bicycle, moped, and motorcycle rebate special fund; and
- (5) Appropriates a portion of the funds received by the State from the federal Infrastructure Investment and Jobs Act for the electric vehicle, electric bicycle, moped, and motorcycle rebate program.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Energy Office, 350Hawaii, Alliance for Automotive Innovation, Big Island Electric Vehicle Association, Blue Planet Foundation, Climate Protectors Hawaii, Hawaii Bicycling League, Hawaii EV Association, Hawaiian Electric Company, KauaiEV, Ulupono Initiative, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Hawaii Automobile Dealers Association.

Your Committee finds that by incentivizing the proliferation of electrically powered conveyances in the State, this measure will help to ensure that the State meets its statutory target of sequestering more greenhouse gases than emitted by 2045.

Your Committee has amended this measure by:

- (1) Limiting the scope of the rebate program to electric bicycles and electric mopeds;
- (2) Requiring that, for a period of five years, three cents of the environmental response, energy, and food security tax assessed on each barrel of petroleum product be deposited into the electric bicycle and electric moped rebate special fund instead of the electric vehicle charging system subaccount of the public utilities commission special fund;
- (3) Appropriating out of the moneys received by the State from the federal Infrastructure Investment and Jobs Act an unspecified amount to be deposited into the electric vehicle charging system subaccount of the public utilities commission special fund; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3158, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3158, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3101 Ways and Means on S.B. No. 3179

The purpose and intent of this measure is to establish a pilot program to provide feral herd management on the islands of Maui, Molokai, and Lanai.

More specifically, this measure:

- (1) Requires the Division of Forestry and Wildlife of the Department of Land and Natural Resources to establish a pilot program to issue moneys to licensed hunters for feral herd population management; and
- (2) Appropriates moneys to the Department of Land and Natural Resources to establish the pilot program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, a member of the Maui County Council, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Kalamaula Mauka Homestead Association, Maui Chamber of Commerce, Maui County Farm Bureau, Molokai Farm Bureau, The Nature Conservancy, and three individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that feral axis deer destroy crops and pasture lands by devouring living vegetation. Your Committee also finds that feral axis deer populations have increased dramatically, especially in the County of Maui. Accordingly, your Committee believes that this measure will help to mitigate the ecological and financial damage caused by feral axis deer.

Your Committee has amended this measure by:

- (1) Clarifying that the intent of the pilot program is to manage feral axis deer herds;
- (2) Clarifying that the Division of Forestry and Wildlife of the Department of Land and Natural Resources is required to consult with the Department of Agriculture on the development and management of the pilot program;
- (3) Amending the appropriation to include the purchase of equipment and establishment of three full-time equivalent (3.0 FTE) technician positions within the Maui Branch of the Division of Forestry and Wildlife; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3179, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3179, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3102 Ways and Means on S.B. No. 3181

The purpose and intent of this measure is to reimburse certain agricultural producers for costs incurred in transporting agricultural commodities.

More specifically, this measure:

- (1) Establishes a local agriculture transportation cost reimbursement incentive program to reimburse eligible agricultural producers for a portion of each producer's costs to transport agricultural commodities;
- (2) Establishes eligibility requirements for agricultural producers to participate in the program;
- (3) Establishes a cap on the total reimbursement payments that may be disbursed; and
- (4) Appropriates moneys for the Department of Agriculture to fund and administer the program.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Hawaii Food Industry Association, Ulupono Initiative, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that this measure will help to mitigate the increasingly burdensome expense of interisland transportation that is borne by neighbor island agricultural producers.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3181, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3181, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3103 Ways and Means on S.B. No. 3192

The purpose and intent of this measure is to protect, restore, and build the resilience of Hawaii's natural and outdoor recreational resources.

Specifically, this measure:

- (1) Establishes a visitor green fee program to collect fees from visitors who visit a state park, beach, state-owned forest, hiking trail, or other state-owned natural area;

- (2) Establishes the Environmental Legacy Commission to allocate the revenues from the visitor green fee to protect and manage Hawaii's natural resources;
- (3) Establishes the visitor green fee special fund; and
- (4) Appropriates moneys into and out of the green fee special fund.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Tourism Authority, Kua'aina Ulu 'Auamo, Surfrider Foundation, Malama Pupukea-Waimea, Hawaii Green Fee, Wild Kids, Lailima Conservation LLC, Hawaii Alliance for Progressive Action, The Nature Conservancy Hawaii, Hawaii Alliance for Community-Based Economic Development, Hawaii Reef and Ocean Coalition, Maui Chamber of Commerce, The Trust for Public Land, Ka Leo O Na Opio, and twenty-six individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Budget and Finance, Tax Foundation of Hawaii, Hawaii Lodging and Tourism Association, and one individual.

Your Committee finds that the fee established by this measure would provide additional revenue to bolster the State's existing investments in natural resource management and help to fill Hawaii's conservation funding gap.

Your Committee has amended this measure by:

- (1) Renaming the "visitor green fee", "visitor green fee program", and "visitor green fee special fund" as the "visitor impact fee", "visitor impact fee program", and "visitor impact fee special fund", respectively;
- (2) Clarifying that revenues from the visitor impact fee special fund shall be allocated by the Environmental Legacy Commission for projects that offset adverse environmental impacts caused by licensees or ensure that the State's natural resources are maintained for continued use by licensees, or both;
- (3) Establishing qualifications and conditions for grants awarded pursuant to the visitor impact fee program;
- (4) Deleting provisions that would have established a maximum percentage of moneys that could be allocated for administration of the program or establishment, implementation, and enforcement of regulations;
- (5) Authorizing the Department of Land and Natural Resources to adopt or amend rules to ensure that persons who purchase a license are not assessed a separate entrance fee to visit state parks, beaches, state-owned forests, hiking trails, or other state-owned natural areas on state-owned lands;
- (6) Clarifying that certain Environmental Legacy Commission members shall be nominated to serve by either the Chairperson of the Board of Land and Natural Resources or the Chief Executive Officer of the Hawaii Tourism Authority for appointment by the Governor, subject to Senate confirmation; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3192, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3192, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3104 Ways and Means on S.B. No. 3197

The purpose and intent of this measure is to invest in the future of Hawaii's farming industry by increasing the number of new farmers and providing more support for aspiring farmers in the State.

More specifically, the measure:

- (1) Establishes a beginning farmer training program, to be administered by the Department of Agriculture in conjunction with qualified farmer training providers;
- (2) Requires the Department of Agriculture, among other things, to:
 - (A) Collaborate with and support qualified farmer training providers;
 - (B) Implement strategies to increase the number of new farmers in the State;
 - (C) Distribute any available funding to as many training programs as is practicable to achieve the purpose of the program; and
 - (D) Submit annual reports to the Legislature containing specified information, including an evaluation of program results; and
- (2) Appropriates moneys to establish and implement the program.

Your Committee received written comments in support of this measure from Hawaii Farmers Union United, Hawaii Food+ Policy, and nine individuals.

Your Committee received written comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that the program created by this measure will help to achieve a more robust agricultural industry by providing needed training to new and aspiring farmers across the State.

Your Committee has amended this measure by:

- (1) Establishing, in place of the beginning farmer training program, a farmer apprentice mentoring program having substantially similar characteristics, and amending the measure's preamble to reflect the purpose of the farmer apprentice mentoring program;
- (2) Requiring the Department of Agriculture, among other things, to collaborate with, and provide funding and information to, qualified farmer mentorship providers to fund apprenticeships for bona fide Hawaii farmers;
- (3) Specifying that a farmer apprentice shall be eligible to receive training for a maximum of one year;
- (4) Setting limits on: the maximum dollar amount of apprenticeship stipends that a farmer mentorship provider may receive per year; the maximum percentage of total farmer apprentice wages that may be funded by the program in a given year; and the maximum aggregated dollar amount that a farmer mentorship provider may receive during any five-year period for services procured by the Department of Agriculture;
- (5) Changing all dollar amounts, and the appropriation amount, to unspecified amounts to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3197, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3197, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3105 Ways and Means on S.B. No. 3201

The purpose and intent of this measure is to simplify the accounting of income for nonprofit organizations.

Specifically, this measure:

- (1) Exempts a tax-exempt nonprofit organization's fundraising income from the general excise tax; and
- (2) Retains the general excise tax for gross income derived by those organizations from any "unrelated trade or business" activities, as defined by the Internal Revenue Code.

Your Committee received written comments in support of this measure from PHOCUSED; Hawaii Substance Abuse Coalition; Hawaii Youth Services Network; Aloha Harvest; Hawaii Children's Action Network Speaks!; Aloha United Way, Inc.; Hawaii Alliance of Nonprofit Organizations; Hawaii Health and Harm Reduction Center; Big Brothers Big Sisters Hawaii; Kua'aina Ulu 'Auamo; Catholic Charities Hawaii; Hawaiian Humane Society; Samaritan Counseling Center Hawaii; Hawaii Pacific Health; Hawaii Public Health Institute; Hawaii Coalition Against Domestic Violence; Habilitat, Inc.; Na Hale O Maui; and one individual.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee notes the testimony of the Department of Taxation, which recognizes this measure's intent to establish congruity between the income tax and general excise tax treatment of tax-exempt organizations. Specifically, this measure exempts a tax-exempt organization's fundraising income and other receipts from the general excise tax, except those sourced from an unrelated trade or business. These changes would conform with federal and state income tax treatment.

Your Committee also notes that the Department of Taxation indicated in its testimony that the department would be able to administer the measure, but it requests that the effective date be changed to January 1, 2023, to provide the time necessary to make form and instruction changes.

Your Committee has amended this measure by:

- (1) Amending the preamble to accurately reflect the purpose of the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3201, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3201, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3106 Ways and Means on S.B. No. 3221

The purpose and intent of this measure is to appropriate to the Department of Business, Economic Development, and Tourism \$200,000 from general funds to support international sister-state relations.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and Japan-American Society of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee recognizes that sister-state relations raise Hawaii's profile internationally; attract cooperative programs, including mutual exchanges in business, culture, tourism, and education; and positively impact Hawaii's economic growth. Your Committee finds that an appropriation for these relations will support existing relationships and activities that will continue to assist Hawaii in its international role.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3221, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3221, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3107 Ways and Means on S.B. No. 3226

The purpose and intent of this measure is to facilitate voter education regarding elections.

Specifically, the measure:

- (1) Requires the Office of Elections to:
 - (A) Prepare and post on its website a digital voter information guide in a screen reader-accessible format;
 - (B) Provide on its website an Olelo Hawaii translation of the digital voter information guide;
 - (C) Mail hardcopies of the guide to voters, upon request; and
 - (D) Prepare, mail, and email a notice regarding the availability of the digital voter information guide;
- (2) Requires that the digital voter information guide include candidate statements and photographs and explanations of state constitutional amendments and county ballot issues; and
- (3) Appropriates moneys for the Office of Elections to prepare and mail notices to voters regarding the digital voter information guide.

Your Committee received written comments in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, Community Alliance on Prisons, Americans for Democratic Action, and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Office of Elections, and Disability and Communication Access Board.

Your Committee believes that an informed electorate is an important component of a healthy democracy, and that the distribution of informational guides prepared by the Office of Elections, an apolitical entity, will help the electorate in making informed voting decisions.

Your Committee has amended this measure by:

- (1) Requiring that certain information that is made available over the Internet comply with certain accessibility standards; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3226, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3226, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3108 Ways and Means on S.B. No. 3229

The purpose and intent of this measure is to amend the distribution scheme for geothermal royalties received by the State.

Specifically, this measure:

- (1) Caps the amount of royalties from geothermal resources that can be paid to the State or a county in which the geothermal resources are located;
- (2) Establishes the University of Hawaii geothermal exploration special fund to further the discovery and development of geothermal resources;
- (3) Provides for the deposit of excess royalties into the University of Hawaii geothermal exploration special fund; and
- (4) Requires annual reports to the Legislature.

Your Committee received written comments in support of this measure from the University of Hawaii and one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Hawaii State Energy Office, and Department of Budget and Finance.

Your Committee finds that the development of geothermal resources will be important for achieving the State's goal of transitioning to one hundred percent renewable energy generation statewide.

Your Committee has amended this measure by:

- (1) Clarifying that, after other required distributions are made, any excess royalties received by the State annually from geothermal resources on lands not under the jurisdiction of the Department of Hawaiian Home Lands, up to a maximum of \$1,000,000, shall be deposited into the University of Hawaii geothermal exploration special fund;
- (2) Appropriating an unspecified sum out of the University of Hawaii geothermal exploration special fund; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3229, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3229, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3109 Ways and Means on S.B. No. 3236

The purpose and intent of this measure is to provide a one-time enhanced payment of fifteen percent to each nursing facility, community care foster family home, and expanded adult residential care home caring for Medicaid patients.

Your Committee received written comments in support of this measure from The Villas, Garden Isle Rehab and Nursing, Legacy Hilo Rehabilitation and Nursing, Hale Makua Health Services - Wailuku, Ohana Pacific Health, Pu'uwai 'O Makaha, Healthcare Association of Hawaii, Palolo Chinese Home, Ohana Pacific Management Company, Adult Foster Care, Hawaii Pacific Health, Adult Foster Homecare Association of Hawaii, Kaiser Permanente, Aloha Nursing Rehab Centre, Queen's Health Systems, United Caregivers of Hawaii, and six individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Human Services, and Hawaii Health Systems Corporation.

Your Committee finds that the additional moneys provided by this measure will help mitigate the substantial financial impact that the coronavirus disease 2019 pandemic has had on the State's nursing facilities, community care foster family homes, and expanded adult residential care homes.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3236, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3236, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3110 Ways and Means on S.B. No. 2724

The purpose and intent of this measure is to establish a pilot project for a working group convened by the Office of Planning and Sustainable Development to develop the framework for a Waikiki adaptation and resilience plan addressing the impacts of projected climate change and sea level rise in the State.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Land and Natural Resources, Waikiki Beach Special Improvement District Association, Hawaii Chapter of the American Society of Landscape Architects, and three individuals.

Your Committee received written comments on this measure from the Office of Planning and Sustainable Development, Office of the Attorney General, and Department of Budget and Finance.

Your Committee finds that the adaptation and resilience plan supported by this measure will provide a useful model for other coastal communities in the State that are similarly threatened by sea level rise.

Your Committee has amended this measure by:

- (1) Requiring the Office of Planning and Sustainable Development to develop an adaptation and resilience plan for the Waikiki special district, rather than establishing a working group to develop the plan;
- (2) Making conforming amendments to the measure, including deleting the provision indicating the working group's dissolution date;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2724, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2724, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3111 Ways and Means on S.B. No. 3247

The purpose and intent of this measure is to address the housing needs of Native Hawaiians on the Department of Hawaiian Home Lands application waitlist for homestead leases by requiring the Department to build additional rental housing, including apartment units and rent-with-option-to-buy housing units.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the construction of rental housing units by the Department of Hawaiian Home Lands, as required by this measure, would be a significant step toward reducing the Department's waitlist backlog, which has not significantly decreased despite plans to develop more Hawaiian home lands lots.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3247, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3247, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3112 Ways and Means on S.B. No. 3252

The purpose and intent of this measure is to lower the public's cost to access to government records.

More specifically, the measure:

- (1) Imposes a cap on the costs charged for the reproduction of certain government records;
- (2) Waives reproduction costs for the first one hundred pages if disclosure of a record is in the public interest;
- (3) Waives the cost of duplication of government records in an electronic format;
- (4) Imposes a cap on costs charged for searching for, reviewing, and segregating records; and
- (5) Provides for a waiver of fees when the public interest is served by a record's disclosure.

Your Committee received written comments in support of this measure from Common Cause Hawaii, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, All Hawaii News, Big Island Press Club, Hawaii Chapter of the Society of Professional Journalists, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu.

Your Committee received written comments on this measure from the Office of Information Practices, Professional Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Employees' Retirement System, Department of Land and Natural Resources, Department of Budget and Finance, Department of Human Services, Honolulu Police Department, and Grassroot Institute of Hawaii.

Your Committee finds that this measure establishes a more uniform approach to determining the costs charged for public records requests and the application of fee waivers thereto, and will promote more equitable access to government records.

Your Committee has amended this measure by:

- (1) Clarifying, where applicable, that references to "disclosure" pertain to disclosure of a record in the public interest, and references to "public interest" pertain to the public interest served by a record's disclosure;
- (2) Clarifying that, although reproduction costs shall not be charged for documents maintained by an agency in an electronic format and provided to requesters in an electronic format, requesters shall be charged for an agency's provision of documents requested in an electronic format that are not maintained by the agency in an electronic format and must be faxed or converted into an electronic format;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3252, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3252, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3113 (Majority) Ways and Means on S.B. No. 3254

The purpose and intent of this measure is to propose amendments to article IV, sections 4 and 6, of the Hawaii State Constitution to specify that reapportionment shall be based on the resident population, as reported by the most recent decennial census of the United States.

Your Committee received written comments in support of this measure from Common Cause Hawaii.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and Office of Elections.

Your Committee recognizes that reapportionment is the process of redistributing seats for elected officials, so that the seats are evenly distributed, based on the residential population. Your Committee also recognizes that since 1992, sections 4 and 6 of Article IV of the Hawaii State Constitution have required that reapportionment for state senators and representatives be based upon the average number of "permanent" residents in each district. Your Committee notes that Hawaii is the only state that reapportions its districts in this manner, and is therefore the only state in which thousands of military personnel, military dependents, and non-resident college students are excluded from reapportionment.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3254, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3254, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, 2 (Inouye, Kanuha). Excused, none.

SCRep. 3114 Ways and Means on S.B. No. 3274

The purpose and intent of this measure is to facilitate and improve transportation in the State.

Specifically, the measure:

- (1) Establishes expenditure requirements for funding pedestrian and bicycle infrastructure and projects; and
- (2) Establishes and appropriates moneys for grant writing positions within the Department of Transportation to pursue funding from federal sources, including the Infrastructure Investment and Jobs Act.

Your Committee received written comments in support of this measure from the Ulupono Initiative, Hawaii Bicycling League, Hawaii Public Health Institute, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Transportation, and Hawaii State Energy Office.

Your Committee finds that the cost of transportation is an increasing burden to residents of the State and exacerbates its high cost of living. Your Committee also finds that Hawaii lacks a safe pedestrian and bicycle commuting infrastructure. Accordingly, your Committee believes that the State must take steps to reduce the cost of transportation for residents and provide safe networks of cost-efficient pedestrian and bicycle commuting infrastructure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3274, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3274, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3115 Ways and Means on S.B. No. 3280

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds to assist Saint Joseph School in planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improving its educational facilities.

Your Committee received written comments in support of this measure from the Cardinal Legacy Foundation.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the proposed uses of the special purpose revenue bonds constitute a project that qualifies for special purpose revenue bonds that are intended to assist a not-for-profit private enterprise sectarian elementary and secondary school that serves the public.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3280, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3280, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3116 Ways and Means on S.B. No. 3295

The purpose and intent of this measure is to ensure that the State is effectively responding to the unique needs of women involved in the criminal justice system.

More specifically, the measure:

- (1) Establishes the Women's Corrections Implementation Commission within the Department of Public Safety to:
 - (A) Provide oversight over state correctional facilities that incarcerate women;
 - (B) Receive and investigate complaints from incarcerated women;
 - (C) Monitor the criminal justice system's progress in implementing reforms; and
 - (D) Monitor programs and data that are important to ensuring successful outcomes for women in the correctional system;
- (2) Requires annual reports to the Legislature; and
- (3) Appropriates moneys to fund the Commission's operations, including the hiring of necessary staff.

Your Committee received written comments in support of this measure from the Women's Prison Project, Hawaii Health and Harm Reduction Center, and one individual.

Your Committee received written comments on this measure from the Department of Public Safety and Department of Budget and Finance.

Your Committee finds that the establishment of a Women's Corrections Implementation Commission to monitor the criminal justice system's interactions with women will help to ensure that the system is responsive to women's needs by addressing gender-specific issues and ensuring that these offenders have access to appropriate programs and services.

Your Committee has amended this measure by:

- (1) Making consistent the references to the Commission's name that appear throughout the measure;
- (2) Clarifying that the Commission's purview includes community correctional centers, in addition to state correctional facilities, to ensure that the Commission may address all incarcerated women in state custody;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3295, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3295, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3117 Ways and Means on S.B. No. 3296

The purpose and intent of this measure is to designate interscholastic sports as co-curricular activities.

Your Committee received written comments in support of this measure from Cultural Sports Connection LLC, Hawaii Iron Workers Stabilization Fund, Hawaii Building and Construction Trades Council, Ho'ākeolapono Trades Academy, Smart Money Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from Roosevelt High School, Radford High School, Hawaii High School Athletic Association, and one individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that youth athletics support character development, improve academic achievement, and establish a foundation for a healthy lifestyle. Designating interscholastic sports as co-curricular activities will elevate them to essential status within the Department of Education and ensure that sports are an indispensable part of each student-athlete's education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3296, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3118 Ways and Means on S.B. No. 3298

The purpose and intent of this measure is to establish a working group to determine potential locations and requirements for a shooting facility in the County of Hawaii and to appropriate moneys for the shooting facility if the County of Hawaii provides matching funds.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Department of Public Safety, Hawaii County Game Management Advisory Commission, Hawaii Firearms Coalition, and eight individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the shooting facility proposed by this measure will provide a safe and organized place on the island of Hawaii to learn firearms safety, develop hunting skills, train law enforcement officers, and practice recreational shooting.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3298, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3298, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3119 Ways and Means on S.B. No. 3299

The purpose and intent of this measure is to establish a policy guideline for the Department of Land and Natural Resources to balance hunting with the management of healthy ecosystems.

Specifically, this measure:

- (1) Requires the Department of Land and Natural Resources to recognize that:
 - (A) Game mammals and game birds provide a sustainable food source; provided that certain negative impacts on the environment are sufficiently minimized or offset;
 - (B) Proper management of game populations can minimize or reduce negative impacts to agriculture, watersheds, and native habitats; and
 - (C) The State's unique relationship with the ocean requires careful consideration and management of land and ocean activities that prioritize the public trust responsibilities of the State;
- (2) Requires state agencies to update agency rules and policies to integrate local hunting and fishing industries into the agency's food security or sustainability strategies; and
- (3) Requires reports to the Legislature.

Your Committee received written comments in support of this measure from the Hawaii County Game Management Advisory Commission, Hawaii Forest Industry Association, Hawaii Cattlemen's Council, Hawaii Firearms Coalition, and nine individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and Good Shepherd Foundation.

Your Committee finds that it is important to balance the management of game populations with the sustainability of their natural habitats to minimize the potential negative impacts of these populations on critical watersheds.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources recognizes that game mammals and game birds, managed in appropriate areas, can provide sustainable food sources that merit quality habitats having sufficient food, water, and refuge to support viable populations sufficient for hunting; provided that negative impacts to the environmentally are sufficiently minimized or offset through native ecosystem protections; and
- (2) Making a technical nonsubstantive amendment for the purposes of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3299, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3299, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3120 Ways and Means on S.B. No. 3311

The purpose and intent of this measure is to reduce transportation emissions.

Specifically, the measure:

- (1) Establishes long-term goals for zero emissions transportation in the State and abroad to reduce and eliminate transportation emissions;
- (2) Commits to and supports emerging companies that are looking to demonstrate and pioneer new technologies and services; and
- (3) Establishes working groups comprising government agencies and expert stakeholders to develop plans and recommendations for achieving zero emissions transportation.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Ulupono Initiative, Big Island Electric Vehicle Association, Hawaii Electric Vehicle Association, Alliance for Automotive Innovation, and ten individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Transportation and Climate Protectors Hawaii.

Your Committee finds that Hawaii is ideally suited for the electrification of ground transportation and the exploration of innovative new technologies and services that will help the State achieve zero emissions transportation. Accordingly, your Committee believes that the State should make a commitment to support these technologies.

Your Committee has amended this measure by:

- (1) Deleting provisions relating to the ground transportation working group;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3311, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3311, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3121 Ways and Means on S.B. No. 3316

The purpose and intent of this measure is to improve support for employed individuals providing care to a new child, or to a family member suffering from a serious health condition, by establishing a paid family leave program that takes effect on July 1, 2024.

More specifically, the measure:

- (1) Provides eligible employed individuals, through an employer-based private insurance program currently used for temporary disability benefits, with up to:
 - (A) Eight weeks of paid family leave during the first year after birth of the individual's child, adoption of a child by the individual, or placement of a child with the individual through foster care; and
 - (B) Eight weeks of paid family leave to care for the individual's family member having a serious health condition during any benefit year; and
- (2) Appropriates moneys to the Department of Labor and Industrial Relations for implementation of the program, including the hiring of additional staff.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, American Association of University Women of Hawaii, Hawaii Government Employees Association, United Public Workers AFSCME Local 646, Hawaii State Teachers Association, Hawaii Children's Action Network Speaks!, Labor Caucus of the Democratic Party of Hawaii, Education Caucus of the Democratic Party of Hawaii, American Cancer Society Cancer Action Network, Hawaii Women Lawyers, Hawaii Alliance for Progressive Action, UNITE HERE Local 5, Imua Alliance, and three individuals.

Your Committee received written comments in opposition to this measure from the Department of Labor and Industrial Relations, Hawaii Restaurant Association, Retail Merchants of Hawaii, Chamber of Commerce Hawaii, Maui Chamber of Commerce, Society for Human Resource Management Hawaii, and Hawaii Food Industry Association.

Your Committee received written comments on this measure from the Department of Budget and Finance, American Council of Life Insurers, Building Industry Association of Hawaii, and Hawaii Credit Union League.

Your Committee finds that the paid family leave program established by this measure will help to alleviate the financial strain experienced by employees taking a leave of absence to fulfill caregiving responsibilities, by ensuring that eligible employees receive reasonable compensation for wage loss associated with their leave of absence.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3316, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3316, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3122 Ways and Means on S.B. No. 3325

The purpose and intent of this measure is to establish and provide moneys for the Hawaii Farmland and Forest Soil Health Carbon Smart Incentive Program to provide incentive contracts to agricultural landowners and lessees who engage in certain carbon sequestration activities.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Recycle Hawaii and Clean the Pacific, Kauai Climate Action Coalition, Kauai Women's Caucus, 350Hawaii, Hawaii Gas, Climate Protectors Hawaii, Puamana Gardens, Nature Conservancy Hawaii, Hawaii Farm Bureau, Hawaii Cattlemen's Council, Environmental Caucus of the Democratic Party of Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Agriculture, Department of Budget and Finance, and Office of Planning and Sustainable Development.

Your Committee finds that the incentive program established by this measure will help support forestry and regenerative agriculture, improve soil health, increase carbon sequestration, and curb the detrimental impacts of climate change.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3325, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3325, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3123 Ways and Means on S.B. No. 3335

The purpose and intent of this measure is to appropriate moneys for the Department of Defense to fund the operational expenses of the Hawaii Wing of the Civil Air Patrol.

Your Committee received written comments in support of this measure from the Civil Air Patrol, Hawaii Emergency Management Agency, Hawaii Wing of the Civil Air Patrol, Kauai Squadron of the Hawaii Wing of the Civil Air Patrol, Kahului Squadron of the Hawaii Wing of the Civil Air Patrol, Maui Squadron of the Hawaii Wing of the Civil Air Patrol, Wheeler Composite Squadron of the Hawaii Wing of the Civil Air Patrol, The Maritime Group, and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that providing funding for the operational expenses of the Hawaii Wing of the Civil Air Patrol will help to ensure that it has the resources needed to support its response and recovery efforts during and after a disaster.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$150,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3335, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3335, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3124 Ways and Means on S.B. No. 3337

The purpose and intent of this measure is to authorize projects that address specific policy goals in economic disaster mitigation and economic diversification.

Specifically, this measure:

- (1) Establishes a public policy framework that addresses state goals in the areas of economic disaster mitigation and economic diversification;
- (2) Appropriates moneys to the Department of Business, Economic Development, and Tourism to implement specific projects that address those goals;

- (3) Requires the Department of Business, Economic Development, and Tourism to submit annual reports to the Legislature summarizing project outcomes, including an assessment of each project's effectiveness in achieving the goals; and
- (4) Appropriates moneys to staff the Hawaii Center for Advanced Transportation Technologies.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Hawaii Technology Development Corporation; Hawaii Green Infrastructure Authority; Natural Energy Laboratory of Hawaii Authority; Hawaii State Energy Office; Hawaii Tourism Authority; Hunt Companies; Maui Chamber of Commerce; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Hawaii Community Development Authority.

Your Committee finds that the projects authorized and funded by this measure will help to align the State with the emerging knowledge-based, zero emission, and digital global economy.

Your Committee notes that this measure, as received by your Committee, appropriated moneys for the following projects:

- (1) \$500,000 for community-based economic development revitalization grants;
- (2) \$1,000,000 for digital literacy training;
- (3) \$500,000 for Instant Teams' phase 2;
- (4) \$300,000 for remote work website business resources;
- (5) \$1,310,000 to expand creative space studio at Entrepreneurs Sandbox;
- (6) \$50,000 for a film permitting digital system; and
- (7) \$500,000 for a cyber leaders program.

Your Committee also recognizes the request from the Hawaii Technology Development Corporation for an appropriation of \$150,000 for two full-time equivalent positions at the Hawaii Center for Advanced Transportation Technologies, as provided in section 5 of the measure.

Your Committee further recognizes the following additional appropriation requests from the Department of Business, Economic Development, and Tourism:

- (1) An additional \$100,000 for the Creative Industries Division to build an online hub for all creative sectors, including a film component;
- (2) \$1,000,000 for carrier-neutral cable landing infrastructure;
- (3) \$400,000 to establish an office of international affairs;
- (4) \$2,500,000 for Solarize Waianae;
- (5) \$12,125,000 for Saratoga Avenue electrical and communications infrastructure improvements;
- (6) \$25,000,000 for repair of the Fisherman's Wharf bulkhead;
- (7) \$13,000,000 for expansion of the research campus at the Natural Energy Laboratory of Hawaii Authority;
- (8) \$10,000,000 to fund a sustainable aviation fuel program in the Hawaii Technology Development Corporation; and
- (9) \$5,000,000 to accelerate the transition of the state fleet to zero emission vehicles.

Your Committee has amended this measure by:

- (1) Amending the preamble to reflect the measure's contents;
- (2) Changing the amounts appropriated for the various projects in the measure to unspecified sums;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3337, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3337, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3125 Ways and Means on S.B. No. 3338

The purpose and intent of this measure is to appropriate moneys to the Department of Health for designing, planning, and constructing the Kalaupapa Memorial.

Your Committee received written comments in support of this measure from the Maui County Council, Damien Museum, IDEA Center for the Voices of Humanity, Ka 'Ohana O Kalaupapa, 'Ahahui o na Kauka - Association of Native Hawaiian Physicians, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Kalaupapa Memorial will serve as a symbol of justice for the estimated eight thousand individuals forcibly sent to and isolated at Kalaupapa, and as a place of healing and reconnection for their families.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$5,000,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3338, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3338, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3126 Ways and Means on S.B. No. 3374

The purpose and intent of this measure is to appropriate moneys for the University of Hawaii Community Colleges' workforce development programs to fund administration, training, employment positions, and student support.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the workforce development programs funded by this measure will help prepare students for immediate employment, contribute to the State's economic recovery from the coronavirus disease 2019 pandemic, and support Hawaii's evolving workforce needs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3374, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3374, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3127 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2442

The purpose and intent of this measure is to streamline the medical records review process for physician assistants by including the review of prescriptions for controlled substances issued by physician assistants.

Your Committees received testimony in support of this measure from the Hawai'i Medical Board, Hawai'i Academy of Physician's Assistants, Kaiser Permanente Hawai'i, and Hawai'i Public Health Association. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the State has an unmet need for over seven hundred full time physicians across the State with neighbor islands facing the most severe shortages. Your committees find that in order to address the physician shortage, physician's assistants should be permitted to practice at the top of their training, education, experience, and licensure. Your Committees further find that requiring a supervising physician to review all medical records that contain written orders or prescriptions for controlled substances is unnecessarily burdensome. This measure streamlines the medical records review process for physician assistants by including review of prescriptions for controlled substances issued by physician assistants and helps to bring Hawai'i physician assistants' scope of practice into alignment with national practices.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2442, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2442, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).
Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3128 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 2680

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses, in addition to physicians, to practice medical-aid-in-dying in accordance with their scope of practice and prescribing authority;

- (2) Authorize licensed psychiatric mental health nurse practitioners, clinical nurse specialists, and marriage and family therapists, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient;
- (3) Strengthen the nondisclosure protections of the Our Care, Our Choice Act;
- (4) Reduce the mandatory waiting period between oral requests from twenty days to fifteen days, for a prescription for self-administered medication for the purpose of ending the requestor's life; and
- (5) Authorize the waiver of the mandatory waiting period for those terminally ill individuals not expected to survive the mandatory waiting period for a prescription for self-administered medication for the purpose of ending the requestor's life.

Your Committees received testimony in support of this measure from Hawai'i Pacific Health, Hawai'i – American Nurses Association, Compassion & Choices, Hawai'i Society of Clinical Oncology, AlohaCare and twenty-six individuals. Your Committees received testimony in opposition to this measure from the Hawai'i Psychiatric Medical Association, Hawai'i Family Forum, Hawai'i Association for Justice, and four individuals. Your Committees received comments on this measure from the Department of Health, Board of Nursing, and Hawai'i State Center for Nursing.

Your Committees find that in 2018, the Legislature passed Act 2, Session Laws of Hawai'i 2018, known as the Our Care, Our Choice Act, which allows mentally capable, terminally ill individuals with six months or less to live to voluntarily request and receive prescription medication that allows the person to die in a peaceful, humane, and dignified manner. Since the passage of the Our Care, Our Choice Act, there have been only a limited number of physicians throughout the State willing or able to be an attending physician for purposes of the Act. Your Committees find that there are advanced practice registered nurses willing to participate in providing care under the Our Care, Our Choice Act and that allowing them to do so would enable residents in rural communities to have better access care. Therefore, this measure aims to ease the regulatory requirements of the Our Care, Our Choice Act to assist those terminally ill patients with difficulty accessing end-of-life care options.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2680, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2680, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Fevella). Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 5; Ayes with Reservations (Kim). Noes, 2 (Gabbard, Fevella). Excused, none.

SCRep. 3129 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2460

The purpose and intent of this measure is to allow temporary permits to be issued to registered nurses and licensed practical nurses from a territory or foreign country who are seeking a state license by endorsement.

Your Committees received testimony in support of this measure from the East Hawai'i Region of Hawai'i Health Systems Corporation, Hawai'i Pacific Health, Hawai'i Medical Service Association, Healthcare Association of Hawai'i, Hawai'i - American Nurses Association, Hawai'i Primary Care Association, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, The Legal Clinic, and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Board of Nursing, The Queen's Health Systems, and Hawai'i State Center for Nursing.

Your Committees find that certain nurses that are both licensed in another state and applying for licensure in Hawai'i by endorsement are eligible for a temporary permit to practice within the State while their applications are reviewed and verified. According to testimony received by your Committees, foreign nurses must have at least a bachelor's degree from an accredited academic nursing institution, a minimum of two years relevant work experience, and pass rigorous background checks by the United States Citizenship and Immigration Services to obtain a work visa to enter the United States. This measure will not only align the licensure by endorsement procedures between nurses who have been licensed in a territory or a foreign country with those nurses who have been licensed in another state, but also help decrease the nursing shortage within the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2460, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2460, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Riviere).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3130 Ways and Means on S.B. No. 2946

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture for maintaining and improving the Peekauai Ditch irrigation system on the island of Kauai.

Your Committee received written comments in support of this measure from the Department of Agriculture; Office of Economic Development for the County of Kauai; Ulupono Initiative; Local Food Coalition; Larry Jeffs Farms, LLC; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; and Hawaii Cattlemen's Council.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that investing in agricultural water systems is key to growing the State's diversified agriculture industry. Your Committee further finds that maintaining and improving the Peekauai Ditch irrigation system will help provide agriculturalists on Kauai's west side with adequate amounts of water to operate their agribusinesses.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2946, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2946, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3131 Ways and Means on S.B. No. 2960

The purpose and intent of this measure is to require and appropriate moneys for the Department of Agriculture to establish and implement a food safety certification training program to help small- to medium-sized farms comply with federal food safety certification mandates.

Your Committee received written comments in support of this measure from the North Shore Economic Vitality Partnership; Hawaii Food Industry Association; Ohana Hui Ventures, Inc.; Lanakila Pacific; Get Fit Kauai; Ulupono Initiative; Hawaii Farm Bureau; Hawaii Fish Company, Inc.; Hawaii Cattlemen's Council; Food+ Policy Internship; and five individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Agriculture.

Your Committee finds that the food safety certification training program established and funded by this measure will help the State's small farms access new, larger, and more stable markets by helping them obtain the required food safety certifications.

Your Committee has amended this measure by:

- (1) Clarifying that the moneys appropriated shall be expended under (AGR192), general administration for agriculture, as suggested in written comments from the Department of Agriculture;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2960, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2960, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3132 Ways and Means on S.B. No. 2990

The purpose and intent of this measure is to establish and appropriate moneys for a cover crop reimbursement pilot program to reimburse qualifying farming operations for acquisition costs for cover crop seeds, green manure, and compost.

Your Committee received written comments in support of this measure from a member of the Hawaii County Council; Malama Kauai; 350Hawaii; Larry Jeffs Farms, LLC; Hawaii Farmers Union United; Hawaii Farm Bureau; Hawaii Cattlemen's Council; Hawaii Alliance for Progressive Action; Green Party Hawaii; Climate Protectors Hawaii; Food+ Policy Internship; Pele Lani Farm, LLC; Kauai Climate Action Coalition; Growing Together Edible Landscaping; and numerous individuals.

Your Committee received written comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that the use of cover crops, green manure, and compost facilitates agricultural productivity and is consistent with the State's sustainability goals. Your Committee believes that appropriate incentives for the acquisition and use of these materials will improve the quality and sustainability of the State's agricultural lands.

Your Committee has amended this measure by:

- (1) Excluding bermuda grass and other invasive or fast-growing grasses from the definitions of "cover crop" and "green manure";
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2990, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3133 Ways and Means on S.B. No. 2998

The purpose and intent of this measure is to require the Department of Health to implement the Auditor's 2019 recommendations for the Deposit Beverage Container program.

More specifically, the measure requires the Department of Health to develop a risk-based process to select, for periodic audit, certain deposit beverage distributor and redemption center reports.

Your Committee received written comments in support of this measure from the Department of Health, Department of Environmental Management for the County of Hawaii, and American Beverage Association.

Your Committee finds that the periodic report audits required by this measure will help improve the performance of, and restore public trust in, the Deposit Beverage Container program.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2998, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2998, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3134 Ways and Means on S.B. No. 3019

The purpose and intent of this measure is to require and appropriate moneys for the Department of Land and Natural Resources to obtain accreditation for its Conservation and Resources Enforcement program from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Government Employees Association, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Conservation and Resources Enforcement Program helps preserve public peace and safety, and is responsible for enforcing laws on public lands and waters of the State. Consequently, Conservation and Resources Enforcement Officers should be required to obtain certification from the Commission on Accreditation for Law Enforcement Agencies, Inc.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3019, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3135 Ways and Means on S.B. No. 3025

The purpose and intent of this measure is to establish a program for the licensure, regulation, and oversight of digital currency companies.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation and eleven individuals.

Your Committee received written comments in opposition to this measure from Coin Center, Libertarian Party of Hawaii, and two individuals.

Your Committee received written comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs, Electronic Transactions Association, Grassroot Institute of Hawaii, and one individual.

Your Committee finds that, although digital currency has grown in popularity and acceptance worldwide, there is little regulation of the industry in the United States, with a few states treating digital currency activities as within the scope of their money transmitter laws. Your Committee also finds that a study conducted by the Department of Commerce and Consumer Affairs and the High Technology Development Corporation determined that digital currency transactions are not best regulated through existing money transmitter laws and that a new regulatory framework is appropriate.

Your Committee has amended this measure by:

- (1) Clarifying the definition of the term "digital currency business activity";
- (2) Removing a reference to the Electronic Fund Transfer Act of 1978; and
- (3) Clarifying the financial institutions that are exempt from the digital currency licensing program established by this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3025, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3136 Ways and Means on S.B. No. 3027

The purpose and intent of this measure is to include as a policy of the State the development of a statewide beach assessment study and a restoration and conservation plan.

Your Committee received written comments in support of this measure from Napili Bay and Beach Foundation, Inc.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and Office of Planning and Sustainable Development.

Your Committee finds that by helping to safeguard the health of the State's beaches and shorelines, this measure will benefit coastal ecosystems, public beach and shoreline access, recreational opportunities, cultural practices, and the State's tourism-based economy.

Your Committee has amended this measure by:

- (1) Clarifying that the scope of the restoration and conservation plan is to include beaches and shorelines; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3027, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3027, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3137 Ways and Means on S.B. No. 3040

The purpose and intent of this measure is to improve procurement efficiency.

Specifically, this measure:

- (1) Authorizes the administrator of the State Procurement Office to:
 - (A) Develop and administer procurement automation systems; and
 - (B) Charge and collect a transaction fee from all vendors using the procurement automation systems;
- (2) Creates a state procurement automation system special fund;
- (3) Amends section 103D-1010, Hawaii Revised Statutes, to conform that section with amendments made by Act 55, Session Laws of Hawaii 2021; and
- (4) Establishes five full-time equivalent (5.0 FTE) positions in the State Procurement Office.

Your Committee received written comments in support of this measure from the Department of Transportation, State Council on Developmental Disabilities, and State Procurement Office.

Your Committee received written comments in opposition to this measure from the Hawaii Alliance of Nonprofit Organizations.

Your Committee received written comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that the government purchasing offices of several other states are self-funded using revenues raised through transaction fees that are charged on all public contracts. Your Committee further finds that authorizing the State Procurement Office to charge a transaction fee would raise the funds necessary to develop, implement, and manage procurement automation systems.

Your Committee has amended this measure by:

- (1) Correcting the text of section 103D-1010(a), Hawaii Revised Statutes, for consistency with the printed version of the Hawaii Revised Statutes;
- (2) Changing the amount appropriated to the State Procurement Office from \$350,000, to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3040, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3138 Ways and Means on S.B. No. 3048

The purpose and intent of this measure is to authorize the Director of Finance to transfer from the rental housing revolving fund to the dwelling unit revolving fund tax-exempt general obligation bond proceeds and accrued interest.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the rental housing revolving fund contains legacy funds derived from tax-exempt general obligation bond proceeds. As these moneys cannot be used to finance projects that use low-income housing tax credits, your Committee believes that it is appropriate to transfer the money to the dwelling unit revolving fund, so that the moneys may be used for the financing of public infrastructure projects.

Your Committee also finds that general fund appropriations are necessary to finance certain hardware, software, and digitization efforts of the Hawaii Housing Finance and Development Corporation (HHFDC). More specifically, appropriations are needed for the following items in the listed amounts:

Hardware	
<u>Integration and Migration of the HHFDC domain into the State of Hawaii Enterprise Active Directory (EAD) Domain:</u>	\$55,000
<u>New Monitors for HHFDC staff:</u>	\$20,000
<u>New computers, computer accessories, and peripherals for HHFDC staff:</u>	\$82,000
<u>Videoconferencing Upgrades for HHFDC Board Room:</u>	\$60,000
<u>Industrial/Office Capacity Paper Shredders, with service and warranty:</u>	\$12,000
Software	
<u>Property Inventory and Lease Management Software:</u>	\$200,000
<u>Microsoft Dynamic Great Plains (GP) Software Upgrade:</u>	\$125,000
Digitization	
<u>Local Shared Drives to State Sharepoint:</u>	\$52,000
<u>Contract with a private scanning company to scan Consolidated Applications to digitized copies:</u>	\$352,000
<u>Contract with a private scanning company to digitize the paper documents of Development, PECEB, and Finance branches of HHFDC:</u>	\$636,000

Your Committee has amended this measure by:

- (1) With respect to the statutory section that establishes the rental housing revolving fund:
 - (A) Providing that the fund may be used for administrative expenses incurred by the Hawaii Housing Finance and Development Corporation in administering the Corporation's housing finance programs; and
 - (B) Inserting a conforming amendment relating to the payment of the conveyance taxes into the fund;
- (2) Establishing one full-time equivalent (1.0 FTE) housing finance specialist I position (BED160HF);
- (3) Inserting unspecified general fund appropriations to the Department of Business, Economic Development, and Tourism for the hardware, software, and digitization efforts of the Hawaii Housing Finance and Development Corporation discussed above; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3048, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3139 Ways and Means on S.B. No. 3054

The purpose and intent of this measure is to support the State's creative industries.

Specifically, this measure:

- (1) Expands the sources of funding for and authorized uses of the Hawaii film and creative industries development special fund by;
 - (A) Establishing that, effective July 1, 2022, all revenues, fees, and income received by the Department of Business, Economic Development, and Tourism from its management of public facilities that support media and entertainment and business development, except for revenues, fees, and income derived from the Hawaii Film Studio, shall be deposited into the special fund; and
 - (B) Authorizing the use of special fund moneys for the repair, maintenance, and related costs of the department's management of such facilities; and
- (2) Appropriates moneys from the Hawaii film and creative industries development special fund.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and Academy for Creative Media of the University of Hawaii at Manoa.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that establishing an additional revenue source for the Hawaii film and creative industries special fund will help to sustainably support the State's creative media and entertainment sectors and maintain public facilities used in the creative industries.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3054, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3054, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

SCRep. 3140 Ways and Means on S.B. No. 3072

The purpose and intent of this measure is to ensure that the Hawaii Employer-Union Health Benefits Trust Fund is not disadvantaged as a competitive investor.

Specifically, this measure allows the Hawaii Employer-Union Health Benefits Trust Fund to withhold certain types of alternative investment fund information from public disclosure pursuant to the Uniform Information Practices Act.

Your Committee received written comments in opposition to this measure from UNITE HERE Local 5 and one individual.

Your Committee received written comments on this measure from the Office of Information Practices.

Your Committee finds that this measure would allow the Hawaii Employer-Union Health Benefits Trust Fund to withhold, from public disclosure, the same type of alternative investment fund information that the Employees' Retirement System is allowed to withhold, pursuant to Act 71, Session Laws of Hawaii 2021. Your Committee further finds that maintaining confidentiality of information relating to alternative investments will help to ensure that the trust fund is not disadvantaged as a competitive investor.

Your Committee has amended this measure by:

- (1) Making corrections to the text of section 87A-31, Hawaii Revised Statutes, to accurately reflect the printed version of the Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3072, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3072, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3141 Ways and Means on S.B. No. 3092

The purpose and intent of this measure is to facilitate the increased implementation of commercial enterprises in public schools.

Specifically, the measure:

- (1) Provides that student interns engaging in commercial enterprises shall be considered employees of the State; and
- (2) Authorizes the Department of Education to use revenue generated from school commercial enterprises.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that students who participate in commercial enterprises may gain hands-on and real-world experiences that are vital for post-secondary education and success in the workforce. Your Committee also finds that revenues generated from these

enterprises can support various school programs. Your Committee recognizes that deeming student interns of commercial enterprises to be employees of the State would provide some degree of protection for businesses and thus encourage their participation in the commercial enterprise program. This will enable more schools to offer students the opportunity to participate in those enterprises.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3092, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3142 Ways and Means on S.B. No. 3101

The purpose and intent of this measure is to promote the development of homesteads for Native Hawaiians.

Specifically, this measure exempts any homestead development for the Department of Hawaiian Home Lands from the general excise tax and use tax.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands; Department of Taxation; Dowling Company, Inc.; and two individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that lands utilized by the Department of Hawaiian Home Lands to provide homesteads for Native Hawaiians are offered at lower costs when compared to similar developments available in Hawaii. Your Committee also finds that the tax exemption proposed in this measure could result in cost savings that would allow the Department of Hawaiian Home Lands to develop more homestead lots.

Your Committee has amended this measure by:

- (1) Correcting a reference to the Hawaiian Home Administration Account;
- (2) Providing rulemaking authority regarding the tax exemption to the Director of Taxation and the Department of Hawaiian Home Lands by statute, rather than session law;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee notes that the Department of Taxation requests that the measure be amended to become effective on January 1, 2023, in order to allow time to make necessary form, instruction, and computer system changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3101, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3101, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3143 Ways and Means on S.B. No. 3103

The purpose and intent of this measure is to authorize the Department of Hawaiian Home Lands to assume sole jurisdiction over the review of any effect that a proposed project may have on historic properties or burial sites on certain lands under its jurisdiction.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, and Hawaii State Aha Moku.

Your Committee received written comments in opposition to this measure from the Historic Hawaii Foundation and Society for Hawaiian Archaeology.

Your Committee finds that granting the Department of Hawaiian Home Lands the authority proposed by this measure will expedite reviews of the effects of proposed projects.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3103, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3103, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3144 Ways and Means on S.B. No. 2989

The purpose and intent of this measure is to establish the healthy soils grant program to determine, and incentivize the implementation of, practices that contribute to healthy soils.

More specifically, this measure:

- (1) Requires the Department of Agriculture to establish a healthy soils grant program;
- (2) Establishes requirements and long-term goals of the healthy soils grant program;
- (3) Establishes the healthy soils grant program special fund;
- (4) Requires the Department of Agriculture to submit a report to the Legislature on the healthy soils grant program; and
- (5) Appropriates moneys for the establishment of the healthy soils grant program and awarding of grants pursuant to the program.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Alliance for Progressive Action, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Hawaii Farmers Union United, and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that by protecting and improving the health of soils throughout the State, this measure will help to strengthen the State's food security and create positive impacts on the environment.

Your Committee has amended this measure by:

- (1) Changing the name of the healthy soils grant program and healthy soils grant program special fund to "healthy soils program" and "healthy soils program special fund", respectively;
- (2) Clarifying that the purpose of the healthy soils program is to issue awards instead of grants;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2989, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2989, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3145 Judiciary on S.B. No. 3085

The purpose and intent of this measure is to update the Hawaii Code of Military Justice by repealing chapter 124A, Hawaii Revised Statutes, and adding a new chapter to promote order and discipline in the State Military Forces by fostering an independent military justice system and updating nonjudicial punishment and courts-martial procedures.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that chapter 124, Hawaii Revised Statutes, relating to the Hawaii Code of Military Justice, was enacted in 1982 and was the first major update to the code of military justice for the State Military Forces since 1895. Your Committee further finds that the current form Hawaii Code of Military Justice lacks the necessary disciplinary options to provide for effective and efficient good order and discipline in the State Military Forces. This measure will remedy those issues and bring the military justice process in line with the Uniform Code of Military Justice by repealing chapter 124A, Hawaii Revised Statutes, and adding a new chapter to promote order and discipline in the State Military Forces by fostering an independent military justice system and updating nonjudicial punishment and courts-martial procedures.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3085, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3085, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3146 Judiciary on S.B. No. 2764

The purpose and intent of this measure is to expand exclusions from the definition of "development" as it applies to special management areas to reduce the need for special management area permits for certain activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, one member of the Maui County Council, and Hawai'i State Association of Counties.

Your Committee finds that targeted amendments to the definition of “development” as it relates to special management areas will promote, not undercut, the environmental controls and quality that special management area regulations are intended to protect. Currently, the broad definition of “development” coupled with rising labor and material costs can result in a special management area use permit review being required for improvements, facilities, and incidental structures that may not warrant such intense scrutiny and the associated costs and delays that go along with it. This measure will streamline special management area permitting procedures and reduce costs for certain activities that do not have adverse environmental impacts on the special management area.

Your Committee has amended this measure by:

- (1) Adopting the recommendations proposed by the Office of Planning and Sustainable Development as follows:
 - (A) Specifying that the exclusions from the special management areas definition of “development” include the installation, maintenance, repair, and replacement of traffic control barriers;
 - (B) Clarifying that the exclusions from the special management areas definition of “development” include the installation of fencing, including associated improvements and incidental structures, for invasive species control or preservation of native habitats on conservation land;
 - (C) Clarifying that the exclusions from the special management areas definition of “development” include the installation, maintenance, repair, and replacement of lighting, fixtures, and equipment to establish compliance with current standards at existing public facilities; and
 - (D) Specifying that the exclusions from the special management areas definition of “development” include the installation, maintenance, repair, and replacement of security measures, including fencing, to existing public facilities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2764, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 3147 Judiciary on S.B. No. 2679

The purpose and intent of this measure is to extend the renewal period from two years to four years for licensees who are seventy-two years of age or older.

Your Committee received testimony in support of this measure from the Department of Transportation, AARP Hawai‘i, Rainbow Family 808, Retirement Issues Committee of the Hawaii State Teachers Association, and twenty-four individuals. Your Committee received comments on this measure from the Executive Office on Aging and two individuals.

Your Committee finds that the Department of Transportation has not found local data to indicate drivers seventy years of age or older are at higher risk of causing or being involved in crashes. Your Committee further finds that the Mini-Mental State Examination and the Montreal Cognitive Assessment test for dementia require a fee to use and may put an unnecessary financial burden on drivers over seventy years old. Therefore, the current approach of relying on self-disclosure and observations by licensing clerks is the most reasonable. This measure will lessen the burden on older drivers by extending the renewal period from two years to four years for licensees who are seventy-two years or older, but less than eighty years of age.

Your Committee has amended this measure by:

- (1) Requiring applicants eighty years of age or older to remain subject to the two-year renewal period; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2679, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2679, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 3148 Judiciary on S.B. No. 2115

The purpose and intent of this measure is to protect minors who are being confined at detention and shelter facilities by defining specific conditions and time limits under which they may be confined.

Your Committee received testimony in support of this measure from the Department of Health, Judiciary, Office of the Public Defender, Office of Youth Services, American Civil Liberties Union of Hawai‘i, Opportunity Youth Action Hui, and one individual.

Your Committee finds that solitary confinement is actively harmful to youth health and development. Studies show that extreme social isolation and lack of environmental stimulation can impose serious cognitive, emotional, and psychological harm, even after only a short period of confinement and even absent additional harsh conditions. Your Committee further finds that juvenile solitary confinement in Hawai‘i has been used as punishment, despite the purpose of detention being rehabilitation. Using solitary confinement as punishment is retaliatory in nature, overly punitive, and creates tension within the facility when therapies and educational services are also provided. Your Committee further finds that solitary confinement is often disproportionately applied to native Hawaiian or Pacific Islander youth, youth with disabilities, and LGBTQ youth. This measure will better protect minors by codifying room confinement conditions and limitations.

Your Committee has amended this measure by:

- (1) Requiring that any decision to place or hold a minor in room confinement due to a mental health emergency be made by a mental health professional and based upon the mental health professional's examination of the minor;
- (2) Replacing "qualified mental health professional" with "mental health professional";
- (3) Prohibiting the use of consecutive periods of room confinement to evade the spirit and purpose of this measure;
- (4) Requiring the Department of Human Services to post on the Department of Human Services' official website quarterly reports listing all shelters' and detention centers' compliance with this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2115, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2115, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3149 Judiciary on S.B. No. 2111

The purpose and intent of this measure is to allow government agencies under certain circumstances to publish public notices on an official website as an alternative to a newspaper.

Your Committee received testimony in support of this measure from the Department of Health, Department of Taxation, Department of Transportation, Department of Land and Natural Resources, City and County of Honolulu Department of Planning and Permitting, Hawai'i Tourism Authority, and Hawai'i State Association of Counties. Your Committee received testimony in opposition to this measure from the Disability and Communication Access Board, Oahu Publications Inc., and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Office of Information Practices, Common Cause Hawaii, and AARP Hawai'i.

Your Committee finds that improving government efficiency without compromising public engagement and transparency is ideal. This can be accomplished by authorizing executive agencies the option to publish certain public notices on official websites in lieu of in printed newspapers. This measure will make the public notification process for certain notices more effective and efficient.

Your Committee has amended this measure by:

- (1) Incorporating a technical amendment recommended by the Office of Information Practices;
- (2) Incorporating a recommendation proposed by the Disability and Communication Access Board specifying that the government agency shall post documents in accessible formats on an accessible official website;
- (3) Specifying that the government agency shall provide a disclaimer in any public notice from January 1, 2023, through June 30, 2023, that states that the government agency may begin to post notices online after July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2111, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2111, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Fevella).

SCRep. 3150 Judiciary on S.B. No. 3165

The purpose and intent of this measure is to:

- (1) Lengthen the driver's license revocation period for first time offenders convicted of operating a vehicle under the influence of an intoxicant who do not install an ignition interlock device; and
- (2) Allow early termination of driver's license revocation after nine months upon showing three consecutive months of ignition interlock use without any violations.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Smart Start LLC, and Mothers Against Drunk Driving HAWAII. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that an increasing number of traffic fatalities involve alcohol and drugs. Your Committee further finds that an ignition interlock device is an effective tool to physically separate drinking alcohol from driving and thereby enhance public safety. This measure will help strengthen the State's ignition interlock laws which is critically important to help save lives and keep the roads safe.

Your Committee has amended this measure by:

- (1) Incorporating recommendations proposed by the Judiciary as follows:

- (A) Specifying that a person may file for a motion for early termination if the person includes with their motion a certified court abstract establishing that they were not sentenced to any additional mandatory revocation period; and
- (B) Specifying that a person may file a motion for early termination if the person includes with their motion a certified statement from the Director of Transportation establishing that they actually installed and maintained an ignition interlock device in one or more vehicles for a continuous period of six months and after the six-month period, they maintained the ignition interlock device in one or more vehicles for a continuous period of three months without violation;
- (2) Incorporating a recommendation proposed by the Department of Transportation to insert a definition for “violation”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3165, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3165, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Acasio, Kim). Noes, none. Excused, 1 (Fevella).

SCRep. 3151 (Majority) Judiciary on S.B. No. 2065

The purpose and intent of this measure is to prohibit the possession or use of unmanned aerial vehicles in state waters for purposes of fishing.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, Hawai'i Reef and Ocean Coalition, For the Fishes, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that in recent years, the innovation of unmanned aerial vehicles has become a new tool within the fishing community. Drones allow shore fishers to deploy baited hooks farther offshore and more efficiently than traditional shore fishing methods. This has resulted in increased interactions with protected species, such as monk seals and turtles, as well as increased user conflicts with boaters, swimmers, divers, surfers, kayakers, and other offshore ocean users. The use of drones has also vastly expanded the footprint of fishing-related tackle becoming debris in the ocean. This measure will help ensure that drones are used in a safe and responsible way.

Your Committee has amended this measure by:

- (1) Deleting section 1, which would have included unmanned aerial vehicles among the articles prohibited for use in state waters for purposes of fishing under section 188-23, Hawaii Revised Statutes;
- (2) Deleting section 2, which would have made fishing in state waters with an unmanned aerial vehicle a class C felony;
- (3) Adding a new section to chapter 188, Hawaii Revised Statutes, that prohibits the possession or use of unmanned aerial vehicles in state waters for the purpose of taking aquatic life, except under the terms and conditions of a permit first obtained by the user from the Department of Land and Natural Resources; provided that unmanned aerial vehicles may be used for the purpose of simple reconnaissance;
- (4) Specifying that any person who violates the prohibition against possession or use of unmanned aerial vehicles in state waters for the purpose of taking aquatic life is guilty of a misdemeanor; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2065, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2065, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, 1 (Keohokalole).

SCRep. 3152 Judiciary on S.B. No. 2393

The purpose and intent of this measure is to enact the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that Canada is the second largest international market for Hawai'i and Canadian visitors spend long periods of time in Hawai'i during the winter months, with many owning real estate throughout the islands. Despite this, Canadians with active domestic violence protective orders currently lack sufficient protection while visiting Hawai'i. Your Committee further finds that the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act was developed by the Uniform Law Commission with input from judges and practicing lawyers from both the United States and Canada. To date, the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act has been enacted in California, Delaware, Minnesota, Nevada, North Dakota, Washington, and Wisconsin. This measure will protect Canadian travelers who have domestic violence protection orders while they are visiting Hawai'i by allowing Hawai'i courts and law enforcement agencies to enforce domestic violence protection orders issued by Canadian courts.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2393, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Lee).

SCRep. 3153 Judiciary on S.B. No. 3372

The purpose and intent of this measure is to authorize, where it is determined that a solicitation or award of a contract is in violation of law, government contracts to be rescinded and awarded to the next lowest responsive, responsible bidder to whom the contract would have been awarded were it not for the violation of law.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that currently, if it is determined that a solicitation or award of a contract is in violation of the law, the contract may be modified or terminated. This measure adds a third option to rescind the award and present it to the next lowest responsive, responsible bidder.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3372, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3154 Judiciary on S.B. No. 3251

The purpose and intent of this measure is to:

- (1) Require that hunting guides obtain written permission from the landowner or other appropriate person before taking clients to hunt on private lands; and
- (2) Require hunting guides to provide copies of the written permission to the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Maui County Council; Hawaii Cattlemen's Council, Inc.; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that some hunting guides have taken their clients onto private land without permission from the landowner, prompting panic from landowners who witnessed unknown armed individuals walking on their property. To support existing laws that prohibit hunting guides from taking clients on to private property without permission, this measure requires that the guides obtain written permission from landowners, which must then be submitted to the Department of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3251, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3155 Judiciary on S.B. No. 3206

The purpose and intent of this measure is to require first responders to record the type of snorkel and mask, if any, worn by the person who was rescued or recovered in the incident report for each water rescue event.

Your Committee received testimony in support of this measure from Mālama Pūpūkea-Waimea and forty-two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that, according to the Hawaii Tourism Authority's snorkel safety study, conducted from August 2017 to April 2021, drowning is the leading cause of injury-related death among visitors to the State and snorkeling is the most common activity associated with visitor drownings. However, due to a lack of evidence, it is difficult for researchers to determine whether the type of snorkel or mask worn increases the risk of drowning. This measure will allow the State to make well-informed policy changes to decrease the number of snorkeling deaths in the State by requiring first responders to record in the incident report for each water rescue event the type of snorkel and mask, if any, that were worn by the person who was rescued or recovered.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3206 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3156 Judiciary on S.B. No. 3223

The purpose and intent of this measure is, upon the finding of the Department of Labor and Industrial Relations, to impose penalties on both the person and firm for repeat violations of the state law governing the wages and hours of employees on public works projects.

Your Committee received testimony in support of this measure from the Hawai'i State AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Operating Engineers Local 3; Hawai'i Nurses Association - OPEIU Local 50; and Hawai'i Ports Maritime Council. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that it is important to avoid repeat offenders who try to circumvent the law. This measure will protect Hawai'i's workers from wage theft and help ensure that repeat offenders do not have the privilege of working on public works projects in the future.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3223, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3157 Judiciary on S.B. No. 2034

The purpose and intent of this measure is to:

- (1) Require assessment of patients who are subject to emergency hospitalization, diagnosed with a mental illness or severe substance use disorder, and found to be lacking decisional capacity to determine if a surrogate or guardian needs to be appointed to make appropriate health care decisions for the patient; and
- (2) Authorize certain health care providers to make determinations on the presence of mental illness, substance abuse disorder, and decisional capacity of the patient.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; Institute for Human Services, Inc.; Hina Mauka; and five individuals. Your Committee received comments on this measure from the Hawaii Medical Association, Hawai'i Pacific Health, Queen's Health Systems, and Hawaii Disability Rights Center.

Your Committee finds that many persons suffering from serious mental illness do not receive timely and appropriate care or treatment because emergency response procedures in the State generally do not permit involuntary emergency hospitalization except in very narrow circumstances. Your Committee further finds that these procedures often result in a cycle of crisis response and short-term emergency treatment, after which the person receives no further care. This measure will increase the likelihood that persons suffering from serious mental illness or severe substance abuse will receive timely and appropriate care and treatment, whether when brought to an emergency department for evaluation, hospitalized in a psychiatric facility under an emergency hospitalization or involuntary commitment order, or while being considered for assisted community treatment, by requiring the assessment of certain patients subject to emergency hospitalization to determine if a surrogate or guardian should be appointed to make appropriate health care decisions for the patient.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2034, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3158 Judiciary on S.B. No. 3344

The purpose and intent of this measure is to restrict the use of solitary confinement whether for punitive or prison management purposes, as follows:

- (1) Prohibiting indefinite solitary confinement;
- (2) Prohibiting prolonged solitary confinement;
- (3) Prohibiting placement of an inmate in a dark or constantly lit cell;
- (4) Restricting the use of solitary confinement in state-operated and state-contracted correctional facilities, with certain specified exceptions;
- (5) Prohibiting inmates incarcerated or detained in state-operated or state-contracted correctional facilities from being placed in solitary confinement, unless there is reasonable cause to believe that an inmate or other persons would be at substantial risk of immediate serious harm as evidenced by recent threats or conduct, and that a less restrictive intervention would be insufficient to reduce this risk; and
- (6) Prohibiting the use of solitary confinement for a member of a vulnerable population.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Hawai'i Health & Harm Reduction Center, Hawaii Disability Rights Center, and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety and one individual.

Your Committee finds that solitary confinement often causes negative psychological reactions in persons subjected to it and can bring on mental illness where it did not exist before. Your Committee further finds that solitary confinement results in extreme societal costs because incarcerated people deprived of normal human contact often cannot properly reintegrate into society, resulting in higher recidivism rates. This measure will promote more humane and effective practices in prisons and jails by restricting the use of solitary confinement in state-operated and state-contracted correctional facilities, with certain specified exceptions, and requiring the Department of Public Safety to use appropriate alternatives to solitary confinement for inmates who are members of a vulnerable population.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3344 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3159 Judiciary on S.B. No. 3112

The purpose and intent of this measure is to:

- (1) Authorize the Department of Human Services to conduct comprehensive background checks on current and prospective employees, volunteers, and contractors, and a contractor's employees, agents, or volunteers, in positions that require them to be in close proximity to minors, young adults, or vulnerable adults who are receiving child welfare services, social services, or other benefits and services from the Department of Human Services intended to prevent abuse or neglect or assist youth aging out of foster care with obtaining and maintaining independent living skills; and
- (2) Replace the term "foster boarding home" in sections 321-11.2(d), 571-32.1, and 846-2.7(b)(8), Hawaii Revised Statutes, with "resource family homes", to conform to Act 133, Session Laws of Hawaii 2016.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Department of Human Services, and two individuals.

Your Committee finds that the Department of Human Services' current pre-employment background clearance process includes a state name-based criminal history record check and relies on prospective new hires to self-report any convictions that occurred outside of the State of Hawaii. Your Committee believes that a comprehensive national and state fingerprint-based criminal history record check is more appropriate than the Hawaii name-based criminal history check currently utilized. This measure will ensure that the vulnerable population of minors and young adults is being served by individuals with reputable and responsible character by allowing the Department of Human Services to conduct comprehensive national and state fingerprint-based criminal history record checks.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3112, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3160 Judiciary on S.B. No. 2241

The purpose and intent of this measure is to:

- (1) Permit minors to consent to medical care related to the diagnosis or treatment of HIV or the prevention of HIV;
- (2) Provide that a minor, under certain circumstances, shall not be liable for the payment for treatment or prevention of HIV;
- (3) Provide that a health insurer of a minor's parent, guardian, custodian, or spouse shall not notify the parent guardian, custodian, or spouse of the minor's treatment or prevention of HIV; and
- (4) Authorize physician assistants, in addition to physicians and advanced practice registered nurses, to render medical care and services to minors.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii Medical Board, Hawaii Youth Services Network, Rainbow Family 808, Hawai'i Health & Harm Reduction Center, Kaiser Permanente Hawai'i, and twelve individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from Planned Parenthood Alliance Advocates - Hawai'i.

Your Committee finds that adolescents and young adults are the least likely of any age group to be in treatment or have a suppressed viral load for HIV. Your Committee further finds that addressing HIV infection and spread among adolescents and young adults requires that they have access to medical care to get the information and tools they need to make healthy decisions, reduce their risk factors, and secure treatment. However, adolescents and young adults may avoid seeking care for sexually transmitted diseases if they must involve their parents or guardian. This measure will enable and encourage minors to access potentially life-saving treatment by allowing minors age fourteen to seventeen to obtain treatment for sexually transmitted disease without parent or guardian involvement.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2241, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3161 Judiciary on S.B. No. 899

The purpose and intent of this measure is to require that members of the State Council on Mental Health receive annual training that includes topics such as cultural awareness and loss of ethnic identity, as well as other topics that address native Hawaiian healing and health practices.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Mental Health, Hawai'i Psychological Association, Mental Health America of Hawai'i, Hawaiian Islands Association for Marriage and Family Therapy, Health Committee of the Democratic Party of Hawai'i, National Association of Social Workers - Hawai'i Chapter, Queen's Health Systems, and two individuals.

Your Committee finds that native Hawaiians tend to underutilize existing mental health services, seek therapy only after their illness has become severe, or leave treatment prematurely. The State Council on Mental Health is responsible for advising, reviewing, and evaluating the allocation and adequacy of mental health resources and services in the State. Accordingly, requiring the Council to receive training that addresses native Hawaiian culture, identity, and health and healing practices will help to systemically advance culturally responsive policies and programs that may be critical to addressing the dire mental health needs of Hawai'i's native Hawaiian and Pacific Islander communities. This measure will bring greater understanding of native Hawaiian health and healing practices to members serving on the State Council on Mental Health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 899, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 899, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3162 Judiciary on S.B. No. 879

The purpose and intent of this measure is to:

- (1) Give counties jurisdiction over the infrastructure of the Department of Hawaiian Home Lands housing developments in their boundaries under specific conditions; and
- (2) Require counties, under specific conditions, to commence maintenance on that infrastructure within sixty days.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Honolulu Board of Water Supply.

Your Committee finds that one of the most serious barriers to distribution of house lots under the Hawaiian Home Lands Program has been the lack of suitable infrastructure to serve those properties, including water, sewer, roads, and electricity primarily. This measure will help to address this barrier by requiring the counties to ensure that such infrastructure is properly maintained.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 3163 Judiciary on S.B. No. 3333

The purpose and intent of this measure is to:

- (1) Authorize any person to commence a civil action in District Court on that person's own behalf against any owner of a dwelling unit if the owner advertises, solicits, offers, or provides the dwelling unit as a transient vacation unit and the owner is not authorized by the applicable county to provide the unit as a transient vacation unit; and
- (2) Authorize the court to order a plaintiff to pay reasonable attorney fees when it determines that a claim is fraudulent or frivolous.

Your Committee received testimony in support of this measure from Keep It Kailua, Hawai'i Hotel Alliance, and five individuals. Your Committee received testimony in opposition to this measure from Oracle Bookkeeping & Finance Inc., Association of Apartment Owners of Inn on the Park, Rental By Owner Awareness Association, Airbnb, and eighty-two individuals. Your Committee received comments on this measure from the Hawai'i Tourism Authority and one individual.

Your Committee finds that there should be more regulations and limitations on illegal short-term vacation rentals in the State. This measure would allow frustrated neighbors an opportunity to address operators of illegal transient vacation units in their neighborhoods.

Your Committee has amended this measure by:

- (1) Clarifying that no action may be commenced before sixty days after the potential plaintiff has given notice of the alleged violation to the owner; and
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3333, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3333, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kim, Fevella).

SCRep. 3164 Judiciary on S.B. No. 2535

The purpose and intent of this measure is to establish the required distance from the shore of a main Hawaiian island where offshore wind turbines may be sited.

Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Hawaii State Energy Office, Public Utilities Commission, Hawaiian Electric Company, and Progression Energy.

Your Committee finds that offshore wind energy could play an important role in assisting the island of O'ahu and the State in achieving its goal of one hundred percent renewable energy by 2045. As O'ahu's high energy demand and consumption creates challenges to achieve electricity independence without off-island resources, wind energy may provide a solution to reduce fossil fuel dependence and consumption. Maximizing the State's clean energy resources allows for Hawai'i's communities, ratepayers, and environment to experience a clean energy future. Your Committee further finds that striking a key balance between the production of wind energy and the protection of Hawai'i's delicate, unique coral reef ecosystems is necessary to achieving both renewable energy and conservation goals.

Accordingly, your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2535, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2535, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Fevella).

SCRep. 3165 Judiciary on S.B. No. 3323

The purpose and intent of this measure is to:

- (1) Increase the amount of interest in real property that is exempt from attachment and execution;
- (2) Amend the value of personal property that is exempt from attachment and execution, including increasing the exemption amount for a motor vehicle; and
- (3) Exempt from attachment or execution, an amount equivalent to one month of child support and one month of spousal support.

Your Committee received testimony in support of this measure from Neighboring Place of Puna, Hawai'i Health & Harm Reduction Center, and one individual. Your Committee received testimony in opposition to this measure from the Mortgage Bankers Association of Hawaii, Hawaii Financial Services Association, Hawaii Credit Union League, and Collection Law Section.

Your Committee finds that the current statutory exemptions from attachment or execution of real and personal property need to be updated to create a safety net of assets for Hawaii families who are struggling to earn a living under heavy debt obligations. These families include workers who live from paycheck to paycheck and have incurred debt due to an unexpected event such as a job layoff, accident, or illness. This measure will allow these families and others to retain some of their assets by increasing the statutory exemptions.

Your Committee has amended this measure by:

- (1) Specifying that the equivalent of one month of child support or \$5,000, whichever is lower, and one month of spousal support or \$5,000, whichever is lower, in the possession of a debtor who is the recipient of the support payment is exempt from attachment or execution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3323, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3323, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3166 Judiciary on S.B. No. 2964

The purpose and intent of this measure is to authorize recreational athletic venues and cultural activities on existing golf courses within agricultural districts.

Your Committee received testimony in support of this measure from one member of the Honolulu City Council, Prince Waikiki Hotel & Hawaii Prince Golf Club, Hawaii Country Club, and three individuals. Your Committee received testimony in opposition from the Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture, Office of Planning and Sustainable Development, and City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that utilizing the vast outdoor spaces that exist at golf courses throughout the State could provide safe, outdoor venues for appropriate and approved events. This measure would provide additional options for event venues in local communities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2964, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 3167 Judiciary on S.B. No. 3089

The purpose and intent of this measure is to:

- (1) Clarify state and county emergency management authority;
- (2) Ensure effective and adaptable emergency responses; and
- (3) Further the goals of transparency and democratic accountability inherent within the Hawaii State Constitution.

Your Committee received testimony in support of this measure from the Department of Defense; Hawai'i Emergency Management Agency; State of Hawaii Organization of Police Officers; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Grassroot Institute of Hawaii, Common Cause Hawaii, and one individual.

Your Committee finds that the coronavirus disease 2019 pandemic has highlighted the importance of clear legal frameworks for state and county emergency management to ensure the State and counties are ready for any type of emergency. Your Committee further finds that chapter 127A, Hawaii Revised Statutes, should clearly specify and articulate the bases for emergency actions. This measure will benefit the Department of Defense, state and county agencies, and the public by clarifying state and county emergency management authority, ensuring effective and adaptable emergency responses, and furthering the goals of transparency and democratic accountability inherent within the Hawaii State Constitution.

Your Committee has amended this measure by:

- (1) Prohibiting the Governor or a mayor from suspending requests for public records or vital statistics during a declared state of emergency and allowing for a reasonable delay in an agency's response to a request as a result of extenuated circumstances;
- (2) Changing "severe weather warning" to "severe warning" and broadening the definition to include severe warnings by other entities;
- (3) Eliminating the need for most supplementary proclamations for permits, authorizations, or approvals to allow for repair work to continue beyond the emergency period;
- (4) Clarifying that the Governor's authority to be the sole judge of an emergency is subject to the Legislature's termination of a state of emergency;
- (5) Allowing a county council, by an affirmative vote of two-thirds, to terminate emergency proclamations made by a mayor; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3089, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3089, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3168 (Joint) Ways and Means and Judiciary on S.B. No. 1046

The purpose and intent of this measure is to revise the membership, powers, and duties of the Law Enforcement Standards Board.

More specifically, this measure:

- (1) Appropriates moneys for the establishment of, and exempts from civil service, the Administrator for the Law Enforcement Standards Board position;
- (2) Revises the membership of the Law Enforcement Standards Board;
- (3) Requires the Board to consider certain law enforcement consolidation studies;
- (4) Requires the Board to conduct its own study to evaluate ways to satisfy its duties efficiently and effectively;
- (5) Revises the conditions and requirements for a person to be appointed or employed as a law enforcement officer;
- (6) Repeals the December 31, 2021, deadline for the Board to finalize the Board's standards and certification process; and
- (7) Appropriates moneys for copying and supply costs for the Board.

Your Committees received written comments in support of this measure from the Department of Public Safety, Department of Taxation, Department of the Attorney General, Department of Transportation, Law Enforcement Standards Board, and Hawaii County Police Department.

Your Committees received written comments in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committees find that, by increasing the size of the Law Enforcement Standards Board and allowing the designees of certain ex-officio members to serve on the Board, this measure will expand the perspective of the Board while increasing its operational flexibility.

Your Committees have amended this measure by:

- (1) Changing to June 30, 2024:
 - (A) The date after which each person seeking appointment as a law enforcement officer is required to meet certain conditions;
 - (B) The date on or after which the Law Enforcement Standards Board is required to issue certifications to certain applicants for appointments as law enforcement officers;
 - (C) The date after which each person appointed or employed as a law enforcement officer by any county police department or certain state departments is required to possess a valid certification issued by the Board; and
 - (D) The date before which a person shall have been employed by an applicable county police department or state department in order to be exempt from the law enforcement certification requirement;
- (2) Changing the appropriation amounts to unspecified amounts;

- (3) Clarifying that the appropriations are for fiscal year 2022-2023;
- (4) Correcting the text of section 76-16(b), Hawaii Revised Statutes, in section 2 of the measure to accurately reflect the current text of that statutory section;
- (5) Changing:
 - (A) The effective date of the measure's appropriation sections; and
 - (B) The effective date for the remainder of the measure, to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1046, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 7; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 4 (Inouye, Kanuha, Kidani, Wakai).
 Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3169 (Joint) Ways and Means and Water and Land on S.B. No. 3261

The purpose and intent of this measure is to facilitate affordable housing development.

More specifically, this measure:

- (1) Establishes the ALOHA Homes Program to facilitate the creation of low-cost leasehold homes for sale to Hawaii residents on state-owned land near public transit stations;
- (2) Authorizes the Hawaii Housing Finance and Development Corporation to sell the leasehold interest in residential condominium units located on state lands for lease terms of ninety-nine years;
- (3) Directs the Hawaii Housing Finance and Development Corporation to conduct a study and form a working group on the implementation of the ALOHA Homes Program;
- (4) Directs the Hawaii Housing Finance and Development Corporation to conduct a study of the market depth for leasehold housing; and
- (5) Appropriates funds to the Department of Business, Economic Development, and Tourism for the Hawaii Housing Finance and Development Corporation to implement the ALOHA Homes Program.

Your Committees received written comments in support of this measure from the Building Industry Association of Hawaii, Church of the Crossroads, Policy Advisory Board for Elder Affairs, and one individual.

Your Committees received written comments in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees received written comments on this measure from the Department of Budget and Finance, Grassroot Institute of Hawaii, and Sierra Club of Hawaii.

Your Committees find that the cost and availability of housing in the State are significant challenges facing Hawaii residents. Although Hawaii has the tenth-highest median wage nationally, living expenses are two-thirds higher than the rest of the nation, with the cost of housing being a major contributing factor. Your Committees also find that, due to many barriers hindering the production of new housing, such as geographic limitations, lack of major infrastructure, construction costs, and government regulation, the State and housing developers have not been able to produce enough housing for Hawaii residents. Your Committees further find that, despite previous legislative efforts, the amount of new construction of housing, especially for low- to middle-income families, continues to be inadequate as the supply of housing remains constrained while demand for housing increases.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3261, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3261, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Shimabukuro, Wakai).
 Water and Land: Ayes, 5; Ayes with Reservations (Riviere). Noes, none. Excused, none.

SCRep. 3170 Ways and Means on S.B. No. 2295

The purpose and intent of this measure is to ensure that transportation projects in the State are adapted to, and help to mitigate, climate change and sea level rise.

More specifically, this measure:

- (1) Requires the Department of Transportation to plan for sea level rise in all future or amended transportation projects; and
- (2) Requires all Department of Transportation projects to conform to certain carbon concrete standards, subject to exemptions.

Your Committee received no written comments on this measure.

Your Committee finds that this measure will help the State to adapt to the effects of sea level rise while reducing carbon gas emissions.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2295, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2295, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3171 Ways and Means on S.B. No. 2799

The purpose and intent of this measure is to establish a Kaiwi coast state park.

Specifically, the measure authorizes the transfer and designation of lands, appropriates moneys, and establishes staff positions for the new park.

Your Committee received written comments in support of this measure from the Hawaii State Aha Moku, Sierra Club of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that establishing a Kaiwi coast state park will preserve for future generations the natural beauty of the Kaiwi coast lands.

Your Committee has amended this measure by:

- (1) Mandating, rather than authorizing, the transfer of certain lands, the designation of the transferred lands as a state park, and the naming of the park as "Kaiwi coast state park";
- (2) Establishing as a new section of the Hawaii Revised Statutes certain provisions of the measure that are of a general and permanent nature; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2799, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2799, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3172 Ways and Means on S.B. No. 2812

The purpose and intent of this measure is to facilitate the financing of affordable housing projects in the State by temporarily amending provisions that govern the allocation of the State's private activity bond ceiling.

Specifically, this measure:

- (1) Provides that the allocation of the State's portion of the private activity bond ceiling shall be used entirely for housing-related projects;
- (2) Facilitates the process for counties or issuers to assign their allocation back to the State by removing the requirement that an assignment be accomplished by a resolution or written certificate;
- (3) Repeals the authorization for counties or issuers to request additional allocations of the state bond ceiling;
- (4) Prioritizes projects of counties that assign their allocation back to the State over projects of counties that have their own bond issuance program;
- (5) Requires counties or issuers that retain their allocation to submit quarterly reports on the status or use of any allocation;
- (6) Requires a project to first apply to the county in which the project is located, if the county has a private activity bond issuance program, before applying to the State; and
- (7) Changes the dates for reverted or remaining allocations and requires certain reverted or remaining allocations to be used for housing-related projects.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Planning and Permitting of the City and County of Honolulu; Mutual Housing Association of Hawaii; Catholic Charities Hawaii; Stanford Carr Development, LLC; Pacific Resource Partnership; Schatz Collaborative, LLC; Highridge Costa Development Company; Hawaii LECET; NAIOP Hawaii; and EAH Housing.

Your Committee received written comments in opposition to this measure from the Kauai County Housing Agency.

Your Committee received written comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that the State is committed to the production and maintenance of affordable housing and that housing-related projects may benefit from having greater access to private activity bond financing.

Your Committee has amended this measure by:

- (1) Deleting a provision that would have required that the State's allocation of the private activity bond cap be used entirely for housing-related projects;
- (2) Deleting provisions requiring unused portions of the annual state ceiling allocation to be used for housing-related purposes and instead requiring that the unused allocation be allocated to the Hawaii Housing Finance and Development Corporation;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2812, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2812, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3173 Ways and Means on S.B. No. 2992

The purpose and intent of this measure is to establish an agricultural investment special fund to accept deposits of moneys to be expended for grants, real property acquisition, equipment, research, and other means of supporting agricultural producers.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Cattlemen's Council, Ulupono Initiative, Hawaii Farm Bureau, Food+ Policy, and Hawaii Food Industry Association.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that establishing the Hawaii Agricultural Investment Program, rather than a special fund, will better help the State meet its food self-sufficiency and sustainability goals and increase the production of locally grown food.

Your Committee has amended this measure by:

- (1) Establishing the Hawaii Agricultural Investment Program, rather than the agricultural investment special fund, to provide fifty percent matching grants for certain activities that increase local agricultural production or processing;
- (2) Appropriating an unspecified sum to the Department of Agriculture to establish and fund the Hawaii Agricultural Investment Program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2992, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Fevella). Noes, none. Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3174 Ways and Means on S.B. No. 3282

The purpose and intent of this measure is to ensure the cost- and space-efficient management of state records.

More specifically, this measure:

- (1) Allows the Comptroller to direct the transfer of state records to the State Records Center and to determine the time period after which those records should be transferred; and
- (2) Appropriates moneys to the Department of Accounting and General Services for operating costs and equipment for the State Records Center and two full-time equivalent (2.0 FTE) positions at the Hawaii State Archives.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will allow the State to make better use of the State Records Center, which offers the most cost-efficient space for the long-term bulk storage of government records. The measure will also reduce confusion among state workers as to when records should be sent for storage, by requiring the Comptroller to determine the transfer schedule. Your Committee further finds that the digitization of certain government records will afford the State and public better access to those records and provide virtually unlimited storage space.

Your Committee has amended this measure by:

- (1) Deleting the appropriation to the Department of Accounting and General Services;
- (2) Making numerous appropriations from the General Fund, special funds, and American Rescue Plan funds for the digitization of certain government records through the Office of Enterprise Technology Services; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3282, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3282, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3175 (Joint) Ways and Means and Judiciary on S.B. No. 3183

The purpose and intent of this measure is to require the Director of Transportation to establish and implement a pilot program for the issuance of digital identification.

Your Committees received written comments in support of this measure from the Department of Transportation, Hawaii Tourism Authority, and Office of Enterprise Technology Services.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees have amended this measure by:

- (1) Establishing the substantive provisions of this measure in session law, rather than statute;
- (2) Requiring the Director of Transportation to coordinate with the Office of Enterprise Technology Services, among others, to assess opportunities for the use of digital identification to improve government support to business operations, economic development, and tourism;
- (3) Establishing an unspecified dissolution date for the digital identification pilot program; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3183, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3183, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3176 (Joint) Ways and Means and Judiciary on S.B. No. 3237

The purpose and intent of this measure is to more effectively identify and prevent harm to at-risk children, including children who are or have been in the foster care system.

More specifically, the measure:

- (1) Expands the investigative power of the Department of Human Services to include children who:
 - (A) Have been adopted or have been placed in legal guardianship, and whose adoptive families or legal guardians are receiving federal or state financial assistance; and
 - (B) Are in the foster care system and have a pending petition for adoption, or for whom an adoption decree has been issued but the children have not yet been placed in the custody of the adoption petitioner;
- (2) Establishes a two-year crisis mobile outreach team pilot program within the Department of Health to expand and support existing crisis response services and programs for at-risk youth;
- (3) Appropriates moneys for the Department of Health to establish the crisis mobile outreach team pilot program, including the hiring and training of mental health professionals; and
- (4) Appropriates moneys for the Department of Human Services to hire additional case workers and support staff, and to fill vacancies and retain employees in existing child welfare services case worker positions.

Your Committees received written comments in support of this measure from four individuals.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committees find that this measure's grant of expanded investigative powers to the Department of Human Services and establishment of a crisis mobile outreach team pilot program within the Department of Health will collectively strengthen the network of state systems that protect and ensure the safety of at-risk children and will improve mental health crisis intervention services for at-risk youth.

Your Committees have amended this measure by:

- (1) Changing the appropriation to the Department of Health for establishment of the crisis mobile outreach team pilot program from \$1,780,000 to an unspecified amount to facilitate further discussion on this measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3237, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3237, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3177 Ways and Means on S.B. No. 3330

The purpose and intent of this measure is to assess the carrying capacity of the Pupukea Marine Life Conservation District and develop recommendations on the conservation district's level of use.

Specifically, this measure:

- (1) Requires the Department of Land and Natural Resources to conduct a pilot program addressing the Pupukea Marine Life Conservation District to:
 - (A) Assess the carrying capacity of the conservation district;
 - (B) Monitor, document, and assess the effectiveness of restrictions on the conservation district; and
 - (C) Propose long-term management options for the conservation district;
- (2) Requires the Department of Land and Natural Resources to:
 - (A) Consult with various entities in conducting the pilot program; and
 - (B) Submit a report to the Legislature of its findings and recommendations; and
- (3) Appropriates funds for the pilot program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Friends of Hanauma Bay, Malama Pupukea-Waimea, Center for Biological Diversity, Kua'aina Ulu 'Auamo, Surfrider Foundation Hawaii Region, and seven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that thousands of people visit the Pupukea Marine Life Conservation District nearly every day, subjecting the area to constant trampling and disturbance. Your Committee further finds that a study to determine the carrying capacity of the Pupukea Marine Life Conservation District will help to ensure that the conservation district is preserved for future generations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3330, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3178 (Joint) Ways and Means and Judiciary on S.B. No. 3139

The purpose and intent of this measure is to increase the efficiency and effectiveness of state public safety functions.

Specifically, this measure:

- (1) Establishes a Department of Law Enforcement to consolidate and administer criminal law enforcement and investigative functions;
- (2) Transfers into the Department of Law Enforcement the law enforcement functions of the Department of Public Safety, Department of Transportation, the Office of Homeland Security, and the non-statutorily mandated functions of the Department of the Attorney General;
- (3) Reestablishes the Department of Public Safety as an independent Department of Corrections and Rehabilitation to administer the corrections, rehabilitation, and reentry of the inmate population; and
- (4) Appropriates moneys to the Department of Law Enforcement and Department of Corrections and Rehabilitation.

Your Committees received written comments in support of this measure from United States Immigration and Customs Enforcement, Homeland Security Investigations; the United States Bureau of Alcohol, Tobacco, Firearms and Explosives; Department of the Attorney General; Department of Defense; Department of Public Safety; Department of Transportation; Sheriff Division of the Department of Public Safety; Office of Homeland Security; Department of the Prosecuting Attorney of the City and County of Honolulu; State of Hawaii Organization of Police Officers; Hawaii Government Employees Association; and more than seventy individuals.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Department of Budget and Finance; Office of Information Practices; and United Public Workers, AFSCME Local 646.

Your Committees find that consolidating state law enforcement responsibilities into a single state department will improve public safety, enhance decision making, promote accountability, streamline communication, decrease costs, reduce duplication of efforts, provide uniform training and standards, and promote uniform standards of law enforcement services.

Your Committees have amended this measure by:

- (1) Clarifying that the consolidation of state law enforcement officers does not relieve or diminish county police officers of any authority or responsibility to enforce laws or to maintain public safety on state lands, in state buildings, or in their respective counties;
- (2) Correcting the text of sections 76-16 and 291-31.5(a), Hawaii Revised Statutes, for consistency with the printed version of the Hawaii Revised Statutes;
- (3) Changing the amounts appropriated to the Department of Law Enforcement and Department of Corrections and Rehabilitation to unspecified sums;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3139, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3139, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Taniguchi).

Judiciary: Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3179 (Joint) Ways and Means and Judiciary on S.B. No. 1105

The purpose and intent of this measure is to make administrative changes related to the mortgage loan recovery fund.

More specifically, the measure:

- (1) Allows a person who has been aggrieved by the fraud, misrepresentation, or deceit of a mortgage loan originator or mortgage loan originator company licensee to receive restitution from the mortgage loan recovery fund after receiving a final court judgement;
- (2) Repeals certain fees paid by mortgage loan originator companies and their branches to the mortgage loan recovery fund; and
- (3) Provides the Commissioner of Financial Institutions with the authority to consider and approve an aggrieved person's application to recover from the mortgage loan recovery fund.

Your Committees received no written comments on this measure.

Your Committees find that the administrative changes made by this measure will allow more efficient management of the mortgage loan recovery fund.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1105, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1105, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3180 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 2068

The purpose and intent of this measure is to help to ensure the long-term, productive use of public lands leased for agricultural purposes.

Specifically, this measure:

- (1) Repeals the requirement that non-agricultural park lands transferred from the Department of Land and Natural Resources to the Department of Agriculture receive approval from the Board of Land and Natural Resources and Board of Agriculture before the transfer;
- (2) Requires, rather than permits, the Department of Agriculture to accept the transfer of and management of certain non-agricultural park lands, subject to the suitability of the land for agricultural activities;
- (3) Requires the Department of Agriculture, prior to offering a lease, to inquire with the Department of Land and Natural Resources regarding any necessary and reasonable easements on lands subject to the lease; and

- (4) Requires approval of the Board of Land and Natural Resources and Board of Agriculture before lands designated for pasture leases are removed for reforestation or other public purposes.

Your Committees received written comments in support of this measure from a member of the Hawaii County Council; Ulupalakua Ranch; Larry Jeffs Farms, LLC; Ponooho Ranch, Limited; Hawaii Meats, LLC; Ulupono Initiative; Hawaii Cattlemen's Council; Hawaii Cattlemen's Association; McCandless Ranch; Kaupo Ranch, Ltd.; Hawaii Farm Bureau; Local Food Coalition; Hawaii Farm Bureau – Molokai Chapter; Kapapala Ranch; Hawaii Aquaculture and Aquaponics Association; Hawaii Crop Improvement Association; Maui County Farm Bureau; and fourteen individuals.

Your Committees received written comments in opposition to this measure from the Department of Land and Natural Resources, Sierra Club of Hawaii, Food+ Policy, Conservation Council of Hawaii, Hawaii Alliance for Progressive Action, Hawaii Wildlife Fund, Kupuna for the Moopuna, The Nature Conservancy Hawaii, Hawaii's Thousand Friends, Hawaii Audubon Society, Climate Protectors Hawaii, Uprooted and Rising, and more than fifty individuals.

Your Committees received written comments on this measure from the Department of Agriculture and Land Use Research Foundation.

Your Committees find that the creation of a strong agricultural industry in the State is crucial to achieving Hawaii's goals of increasing food self-sufficiency and diversifying the economy.

Your Committees have amended this measure by:

- (1) Correcting the text of section 166E-1, Hawaii Revised Statutes, for consistency with the printed version of the Hawaii Revised Statutes;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2068, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2068, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, 1 (Fevella). Excused, none.

Judiciary: Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 3181 (Joint) Ways and Means and Judiciary on S.B. No. 2378

The purpose and intent of this measure is to enhance the administration of the Taxation Board of Review.

Specifically, the measure:

- (1) Replaces the current, volunteer ten-member Taxation Board of Review with a salaried, full-time three-member board;
- (2) Authorizes board members to validate board actions by a majority of the members who heard the appeal;
- (3) Clarifies that board meetings are contested case hearings and provides notice requirements;
- (4) Clarifies the legal and evidentiary framework the board may use in reaching its decisions; and
- (5) Appropriates moneys for salaries for board members and staff.

Your Committees received written comments in support of this measure from the Department of Taxation.

Your Committees received written comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that the establishment of a full-time, professional Taxation Board of Review will help reduce the Department of Taxation's significant backlog of appeals, and ensure the fair and expeditious resolution of those appeals.

Your Committees have amended this measure by:

- (1) Specifying that the three members of the new Taxation Board of Review are "salaried members;"
- (2) Clarifying that the existing volunteer members of the board may hold over in office until their successors are appointed and qualified;
- (3) Changing the appropriation from \$518,452 to an unspecified amount; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2378, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2378, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Wakai).

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3182 (Joint) Ways and Means and Judiciary on S.B. No. 2379

The purpose and intent of this measure is to authorize the Special Enforcement Section of the Department of Taxation to examine any sector of Hawaii's economy, initiate civil investigations, and refer certain matters to auditing branches within the Department for auditing.

Your Committees received written comments in support of this measure from the Department of Taxation.

Your Committees received written comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that codifying the authorized actions of the Special Enforcement Section would assist the Department of Taxation's efforts to ensure compliance with state tax law.

Your Committees have amended this measure by:

- (1) Replacing references to specific audit branches of the Department of Taxation with a reference to "appropriate auditors" within the Department, to accommodate administrative changes within the Department; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2379, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2379, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3183 (Joint) Ways and Means and Judiciary on S.B. No. 2398

The purpose and intent of this measure is to establish the Pulehunui Community Development District to assist in the development of public lands in Pulehunui, Maui.

Your Committees received written comments in support of this measure from the Department of Land and Natural Resources, Department of Hawaiian Home Lands, Hawaii Community Development Authority, and the Chair of the Maui County Council.

Your Committees received written comments in opposition to this measure from the League of Women Voters of Hawaii.

Your Committees received written comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that establishing a dedicated development district will allow the governing board to access various forms of federal funding to develop lands within the district.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2398, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2398, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9. Noes, none. Excused, 2 (Taniguchi, Fevella).

Judiciary: Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 3184 (Joint) Ways and Means and Judiciary on S.B. No. 2583

The purpose and intent of this measure is to exempt from the definition of public lands, the non-ceded lands set aside by the Governor to the Hawaii Housing Finance and Development Corporation.

Your Committees received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees received written comments on this measure from the Department of Land and Natural Resources.

Your Committees find that this measure will allow the Hawaii Housing Finance and Development Corporation to treat all non-ceded lands under its control in the same manner, which will streamline the construction approval process and assist in building affordable housing units in the State.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2583, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2583, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Judiciary: Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 3185 (Joint) Ways and Means and Judiciary on S.B. No. 3142

The purpose and intent of this measure is to include reserve public safety law enforcement officers among the volunteer positions covered by workers' compensation laws.

Your Committees received written comments in support of this measure from the Department of Labor and Industrial Relations and Department of Public Safety.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees find that the work performed by volunteer public safety law enforcement officers is both vital and potentially dangerous and that this measure will afford those unpaid individuals with coverage under workers' compensation laws should they sustain injuries in the line of duty.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3142, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3142, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3186 (Joint) Ways and Means and Judiciary on S.B. No. 3347

The purpose and intent of this measure is to provide financial support for persons seeking to exit the sex trade.

More specifically, the measure establishes within the Department of Human Services a one-year pilot program to provide a basic monthly income of \$2,000, for a period of up to one year, to qualified adults who are verified victims of sex trafficking and are seeking to exit the sex trade.

Your Committees received written comments in support of this measure from the Hawaii State Commission on the Status of Women, Imua Alliance, AF3IRM Hawaii, and numerous individuals.

Your Committees received written comments in opposition to this measure from Harm Reduction Hawaii and one individual.

Your Committees received written comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committees find that the basic monthly income to be paid to eligible participants under the pilot program will provide a significant incentive, and necessary financial support, to sex trafficking victims who are considering leaving the sex trade.

Your Committees have amended this measure by:

- (1) Changing the appropriation from \$6,000,000 to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3347, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3347, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3187 (Joint) Ways and Means and Judiciary on S.B. No. 3350

The purpose and intent of this measure is to require any procurement change order that increases a contract cost by more than fifty percent of the original contract cost or substantially changes the scope of work to be considered a new contract for procurement purposes.

Your Committees received written comments in support of this measure from the Department of Transportation.

Your Committees find that this measure will help contracting agencies to more effectively manage contracting and address and mitigate, with appropriate and time-critical action, any unusual circumstances that may arise during the course of a project.

Your Committees have amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3350, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3350, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 10. Noes, none. Excused, 1 (Taniguchi).
 Judiciary: Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3188 (Joint) Ways and Means and Judiciary on S.B. No. 3039

The purpose and intent of this measure is to promote procurement efficiency, program success, and government accountability.

Specifically, this measure:

- (1) Requires an agency purchasing health and human services to analyze a proposed cost or price and to document the agency's determination that the cost or price is fair and reasonable;
- (2) Increases the small purchase threshold for health and human services and authorizes the Procurement Policy Board to adopt rules to provide an expedited method for purchasing agencies to competitively procure small purchases of health and human services;
- (3) Makes amendments to section 103F-404, Hawaii Revised Statutes, to increase the efficiency of short-term treatment purchase of services; and
- (4) Repeals section 103F-202, Hawaii Revised Statutes, thus abolishing the community council on purchase of health and human services.

Your Committees received written comments in support of this measure from the Department of Human Services, State Procurement Office, and one individual.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Hawaii Substance Abuse Coalition and Hawaii Alliance of Nonprofit Organizations.

Your Committees find that this measure will expedite the procurement of and reduce the administrative costs associated with urgently needed health and human services, while ensuring that transparency and accountability measures remain in effect.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3039, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.
 Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3189 (Joint) Ways and Means and Judiciary on S.B. No. 3124

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for response and enforcement activities relating to the petroleum leaks and spills associated with the Red Hill Bulk Fuel Storage Facility.

Your Committees received written comments in support of this measure from the Department of Health, Board of Water Supply for the City and County of Honolulu, Environmental Caucus of the Democratic Party of Hawaii, 350Hawaii, and five individuals.

Your Committees received written comments on this measure from the Department of Budget and Finance.

Your Committees find that by funding the Department of Health's emergency response, regulatory oversight, and enforcement actions, the moneys appropriated by this measure will help the department address the ongoing public health impacts of the release of petroleum from the Red Hill Bulk Fuel Storage Facility.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3124, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.
 Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 3190 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 3133

The purpose and intent of this measure is to expedite the lease of public lands to establish long-term revenue streams.

Specifically, this measure makes leases for commercial, industrial, and hotel or resort purposes eligible for disposition by negotiation.

Your Committees received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committees received written comments in opposition to this measure from Sierra Club of Hawaii, Pono Hawaii Initiative, Hawaii Alliance for Progressive Action, Kupuna for the Moopuna, UNITE HERE Local 5, Uprooted and Rising, and twenty-seven individuals.

Your Committees find that leases disposed of by negotiation pursuant to this measure would be subject to approval by the Board of Land and Natural Resources in an open, public meeting that would offer members of the public, including any potential competing parties, the opportunity to review the proposed lease and provide testimony to the Board.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3133, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, 1 (Fevella). Excused, none.

Judiciary: Ayes, 5; Ayes with Reservations (Keohokalole). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 3191 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 2607

The purpose and intent of this measure is to:

- (1) Allow the Department of Hawaiian Home Lands to retain independent legal counsel as needed;
- (2) Authorize the Department of Hawaiian Home Lands to use the services of the Attorney General as needed and when the interests of the State and the Department of Hawaiian Home Lands are aligned; and
- (3) Provide that funds owed to independent legal counsel shall be paid by the State.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees find that to fulfill its trust duty to beneficiaries of the Hawaiian home lands trust, the Department of Hawaiian Home Lands must have the authority to hire and retain legal counsel for the purposes of representing the Department of Hawaiian Home Lands in litigation, rendering legal counsel, and drafting legal documents. Your Committees further find that since the interests of the Department of Hawaiian Home Lands in fulfilling its trust obligations may at times be at odds with the interests of the State, any legal counsel retained by the Department of Hawaiian Home Lands must necessarily be independent of the Department of the Attorney General.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2607, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2607, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6. Noes, 1 (Fevella). Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Taniguchi). Noes, 1 (Fevella). Excused, none.

SCRep. 3192 (Joint) Judiciary and Ways and Means on S.B. No. 2284

The purpose and intent of this measure is to:

- (1) Establish provisions relating to the Department of Agriculture's jurisdiction over the business of aquaculture;
- (2) Grant exclusive property rights to persons who lawfully obtain the cultured progeny of wild plants and animals by brood stock acquisition;
- (3) Authorize the Department of Agriculture to regulate the transportation, purchase, possession, and sale of specific aquaculture products as may be necessary to protect indigenous species;
- (4) Require the Department of Agriculture to prepare programmatic environmental impact reports and acquire land for aquacultural purposes; and
- (5) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hatch Aquaculture Fund Management LLC, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Land and Natural Resources.

Your Committees find that supporting local aquacultural productions can help the State move towards greater food sustainability and expand a home-based workforce. Your Committees further find that seafood demand outpaces supply and world fishery resources are quickly depleting. This measure will provide a pro-development framework that minimizes negative effects on the environment through monitoring and reporting using a science-based approach.

Your Committees note that questions arose about why the Chairperson of the Board of Agriculture would administer the business of aquaculture processing, distribution, and marketing. Your Committees also note that there were additional questions and discussion regarding brood stock acquisition and intellectual property rights.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2284, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2284, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Lee).

Ways and Means: Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Taniguchi).

SCRep. 3193 (Joint) Judiciary and Ways and Means on S.B. No. 3187

The purpose and intent of this measure is to:

- (1) Eliminate the University of Hawaii Board of Regents Candidate Advisory Council; and

- (2) Authorize the Governor to directly appoint members of the University of Hawaii Board of Regents.

Your Committees received testimony in opposition to this measure from the University of Hawaii Professional Assembly and two individuals.

Your Committees find that, while the University of Hawaii Board of Regents Advisory Council has served an important purpose as a source of oversight and accountability, it has also impeded the process of selecting new members for the Board of Regents. This measure allows the Governor to appoint members of the University of Hawaii Board of Regents directly, to promote greater expediency and efficiency in the replacement of the Board's members.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3187, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3187, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Lee).

Ways and Means: Ayes, 10; Ayes with Reservations (Inouye, Moriwaki). Noes, none. Excused, 1 (Taniguchi).

SCRep. 3194 (Joint) Judiciary and Ways and Means on S.B. No. 3186

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to:

- (1) Repeal the Candidate Advisory Council for the Board of Regents of the University of Hawaii;
- (2) Authorize the Governor to appoint members to the Board of Regents of the University of Hawaii without being limited to selecting a candidate deemed qualified by the Council; and
- (3) Clarify the jurisdiction of the Board of Regents over the internal structure, management, and operations of the University of Hawaii.

Your Committees received testimony in opposition to this measure from the University of Hawai'i System, University of Hawaii Professional Assembly, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that due to a relatively small number of applicants, at times the Candidate Advisory Council has been unable to submit an adequate number of candidates to the Governor for selection on the Board of Regents of the University of Hawaii. Your Committees further find that recently, the Candidate Advisory Council has only been able to recommend a small number of individuals for the Governor's consideration. This measure proposes a constitutional amendment that will allow the Governor to directly appoint regents with the advise and consent of the Senate.

Your Committees have amended this measure by:

- (1) Incorporating recommendations proposed by the Department of the Attorney General:
 - (A) Clarifying that the Board of Regents shall continue to have exclusive jurisdiction over the internal structure, management, and operation of the University; and
 - (B) Clarifying that the question on the ballot shall state "Shall the requirement that the Governor appoint members of the Board of Regents of the University of Hawaii from a pool of candidates presented by the Candidate Advisory Council for the Board of Regents of the University of Hawaii be eliminated, thereby allowing the governor to appoint members to the Board of Regents without being limited to a list of candidates?" and
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3186, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3186, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Lee).

Ways and Means: Ayes, 10; Ayes with Reservations (Inouye, Moriwaki). Noes, none. Excused, 1 (Taniguchi).

SCRep. 3195 (Joint) Judiciary and Ways and Means on S.B. No. 2143

The purpose and intent of this measure is to define "board packet" and require each state board to make its board packets publicly available at least forty-eight hours prior to the board meeting, but only if the board uses board packets.

Your Committees received testimony in support of this measure from the Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, Common Cause Hawaii, and seven individuals. Your Committees received comments on this measure from the Office of Information Practices and Hawai'i Tourism Authority.

Your Committees find that this measure would promote transparency and improve the public's ability to participate in government.

Your Committees have amended this measure by incorporating technical amendments recommended by the Office of Information Practices.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2143, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2143, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3196 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 2987

The purpose and intent of this measure is to:

- (1) Impose extended terms of imprisonment for certain offenses against property rights when committed on agricultural land; and
- (2) Appropriate funds for the Department of the Attorney General to establish a Statewide Agricultural Theft Task Force.

Your Committees received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farm Bureau, and one individual. Your Committees received testimony in opposition to this measure from the Office of the Public Defender and Community Alliance on Prisons. Your Committees received comments on this measure from the Department of the Attorney General and the Department of Budget and Finance.

Your Committees find that agricultural lots are a prime target for thieves as there are many open entry points, farms are often located in rural and isolated areas, and punishments are minor relative to other crimes. Deterring theft often requires significant monetary investments in security infrastructure, monitoring, and labor, despite already tight profit margins for most agricultural operations. This measure will support local producers by imposing mandatory minimum terms of imprisonment for certain offenses against property rights when committed on agricultural land and appropriating funds for the Department of the Attorney General to establish a Statewide Agricultural Theft Task Force.

Your Committees have amended this measure by:

- (1) Replacing the extended terms of imprisonment with mandatory minimum terms of imprisonment of ninety days for a class B felony, sixty days for a class C felony, thirty days for a misdemeanor, and seven days for a petty misdemeanor;
- (2) Specifying that the mandatory minimums are in addition to any other jail term or punishment otherwise provided by law;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2987, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2987, S.D. 1.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 5. Noes, 2 (Acasio, Fevella). Excused, none.
 Ways and Means: Ayes, 10. Noes, 1 (Fevella). Excused, none.

SCRep. 3197 (Joint) Judiciary and Ways and Means on S.B. No. 3114

The purpose and intent of this measure is to repeal fees related to obtaining a license to solemnize civil marriage ceremonies to conform to requirements of religious and judicial marriage performers.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that there are no fees for licenses to solemnize marriages for religious and judicial marriage solemnizers while recent legislation established fees for civil licenses to solemnize marriages. Your Committees further find that there are costs associated with issuing marriage licenses and therefore instead of repealing fees for civil solemnizers, the State should defray some of those costs with a modest license fee applicable to all solemnizers.

Your Committees have amended this measure by:

- (1) Incorporating the recommendations proposed by the Department of Health as follows:
 - (A) Establishing a \$25 fee for all licenses to solemnize a marriage to be deposited into the Vital Statistics Improvement Special Fund; and
 - (B) Specifying that the Department of Health is required to account for the collection and deposit of the fee into the Vital Statistics Improvement Special Fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3114, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3114, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.
 Ways and Means: Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3198 (Joint) Judiciary and Ways and Means on S.B. No. 3293

The purpose and intent of this measure is to establish a pilot program to provide:

- (1) Housing and child care vouchers for a period of up to two years to persons leaving incarceration; provided that certain eligibility requirements are met; and
- (2) Income tax credits for taxpayers who employ qualified program participants to incentivize employers to hire persons leaving incarceration, to assist in the rehabilitation process.

Your Committees received testimony in support of this measure from Hawaii Substance Abuse Coalition. Your Committees received comments on this measure from the Department of Human Services, Department of Taxation, and Department of Budget and Finance.

Your Committees find that the number of women in the criminal justice system has skyrocketed and that the rates of women's incarceration exceed those of men. Your Committees believe that one way to support women inmates as they prepare for reentry, while addressing their unique characteristics, needs, and barriers to success, is to provide temporary assistance in the form of housing and child care vouchers. This measure will assist female inmates preparing for reentry by establishing a pilot program to provide housing and child care vouchers for a period of up to two years to persons leaving incarceration if certain eligibility requirements are met and income tax credits for taxpayers who employ qualified program participants.

Your Committees have amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3293, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3293, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3199 (Joint) Judiciary and Ways and Means on S.B. No. 2748

The purpose and intent of this measure is to require the Department of Health to submit a request, as authorized by federal regulation, to the United States Department of Education to allow parents of children with a disability to continue receiving early intervention services after the child turns three years of age and until the child enters kindergarten.

Your Committees received testimony in support of this measure from the Special Education Advisory Council, Hawai'i Association for Behavior Analysis, and three individuals. Your Committees received comments on this measure from the Department of Health and Department of Budget and Finance.

Your Committees find that young children with disabilities lose access to early intervention services when they turn three years of age and must transition to special education services provided by the State. However, some children may benefit more by continuing their early intervention services after turning three years of age, allowing them to work toward obtaining the goals and skills necessary to succeed in a school-based setting. This measure will begin the process to allow parents of children with a disability to continue receiving early intervention services after turning three years of age and close any current gaps in services.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2748, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2748, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, none.

SCRep. 3200 (Joint) Judiciary and Ways and Means on S.B. No. 2433

The purpose and intent of this measure is to:

- (1) Encourage inmates to participate in correctional educational programs and vocational training by offering subsidized tuition, housing, and health care benefits to qualifying inmates;
- (2) Increase the quality and quantity of correctional mentorship, counseling, educational, and vocational training programs available to interested inmates; and
- (3) Appropriate funds to expand model programs to include more quality educational and vocational programs and to fund rewards for inmates who participate in correctional education programs while incarcerated.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawai'i Correctional System Oversight Commission, Hawaii Substance Abuse Coalition, Common Cause Hawaii, Community Alliance on Prisons, Women's Prison Project, and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committees find that offering extensive and high-quality educational and vocational programs to inmates is effective in reducing rates of recidivism and the overall cost of the correctional system. Inmates who participate in education and mentorship programs while incarcerated are less likely to recidivate and are more likely to find employment after release. This measure will

incentivize inmates to participate in education, vocational, and mentorship programs while incarcerated and reduce recidivism rates by appropriating funds for reward programs for inmates who participate in certain model programs and increasing the quality and quantity of programs available to inmates.

Your Committees have heard the testimony of the Department of Human Services suggesting the addition of peer support programs, peer specialists, and culturally appropriate and gender-responsive programs as part of the reentry programs included in this measure. Your Committees find that peer specialists can offer non-judgmental support, general education development, and work skills to develop employability. Your Committees further find that addressing historical and intergenerational trauma through culturally responsive and appropriate rehabilitation programs will be key for the successes of those incarcerated individuals during and after incarceration.

Your Committees have amended this measure by inserting an effective date of July 30, 2025, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2433, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2433, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3201 Ways and Means on S.B. No. 2302

The purpose and intent of this measure is to minimize conflicts of interest in procurement for the University of Hawaii System.

Specifically, this measure designates the Vice President for Budget and Finance and Chief Financial Officer of the University of Hawaii as the chief procurement officer for the university.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee finds that many institutions of higher education across the United States differentiate between institutional leadership and purchasing by assigning procurement authority to a person other than the institution's chief executive officer.

Your Committee further finds that the facilities of the University of Hawaii are in need of repairs and maintenance. Upon consultation with the Acting Administrator of the State Procurement Office and the chief procurement officer for the Executive Branch, your Committee is amending this measure to appropriate funds for this purpose, to be procured pursuant to chapter 103D, Hawaii Revised Statutes, and to be placed under the direction of the chief procurement officer of the University of Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating \$21,700,000 in general funds to program ID University of Hawaii – systemwide support (UOH900) for the repair and maintenance of campus buildings and infrastructure, to be procured under the direction of the chief procurement officer of the University of Hawaii;
- (2) Changing the effective date from upon its approval to July 1, 2022; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2302, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2302, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, none.

SCRep. 3202 Judiciary on S.B. No. 2008

The purpose and intent of this measure is to:

- (1) Remove the three-year limit on the exemption of the State and counties from the requirement to maintain or improve any condemned roads; and
- (2) Abolish joint and several liability of the State and counties for any condemned roads.

Your Committee received testimony in support of this measure from the Department of Transportation and one member of the Maui County Council. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that many privately owned roads exist throughout the State. Despite the public frequently using these roads, many people may not realize that the road is owned by a private entity and not a government entity, creating difficulties when individuals seek to have a private road repaired. This measure will reduce disincentives to state and county condemnation of private lanes so that the difficulties of repairing and maintaining private lanes do not continue.

Your Committee further finds that the counties and the State are already potentially liable for any improvements or repairs they have made to private roads or lanes. The fact that the counties or the State do not own these lanes does not exempt them from liability.

Your Committee further finds that the intent of this measure may be best explained through an illustration. If the city condemns Rawlins Lane in Palama and the owner cannot be found, the price of condemnation will be very little, if anything. Then, the city repaves the lane, but not up to the normal subdivision standard. Five years later, a culvert put in by a previous owner collapses due to an undetected negligent construction flaw and someone trips and falls in the resulting hole in the lane and sues the city and the previous owner. The plaintiff then reaches a settlement where the previous owner is eighty percent negligent for the construction

defect and the city is twenty percent negligent for not properly inspecting the culvert. Normally, under the joint and several liability rules, the plaintiff could collect one hundred percent of the damages from the city and the city would have to sue the previous owner for eighty percent of the damages. This measure would instead make the city liable to the plaintiff for twenty percent of the total damages and the plaintiff would have to collect the other eighty percent from the previous owner directly.

Your Committee has amended this measure by:

- (1) Limiting the applicability of the waiver of the joint and several liability rule to acts or omissions of the State or county that occurred prior to condemnation;
- (2) Allowing the State and counties to utilize flexibility in highway design pursuant to section 264-20, Hawaii Revised Statutes, regarding a privately owned condemned road where the owners are unknown;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2008, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2008, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3203 Judiciary on S.B. No. 2383

The purpose and intent of this measure is to:

- (1) Amend the process for appointing the Administrator of the State Procurement Office;
- (2) Transfer the authority and responsibility of the State Procurement Policy Board to the Administrator of the State Procurement Office; and
- (3) Repeal the Procurement Policy Board Nominating Committee and the State Procurement Policy Board.

Your Committee received testimony in support of this measure from the State Procurement Office. Your Committee received testimony in opposition to this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu, UNITE HERE Local 5 Hawaii, and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that the State Procurement Policy Board is one example where vacancies have hampered state processes. Unfortunately, because of vacancies on the Board, the Board has had challenges conducting its business and vital tasks are left pending. This measure will change the appointment process for the Board, which will increase efficiency in government and facilitate the procurement process in the State.

Your Committee has amended this measure by:

- (1) Restoring language that would have repealed the State Procurement Policy Board;
- (2) Removing language that would have transferred the authority and responsibility of the State Procurement Policy Board to the Administrator of the State Procurement Office;
- (3) Removing language that would have amended the appointment process of the Administrator of the State Procurement Office;
- (4) Specifying that the Governor shall appoint four members to the State Procurement Policy Board;
- (5) Specifying that the President of the Senate shall appoint one member to the State Procurement Policy Board;
- (6) Specifying that the Speaker of the House of Representatives shall appoint one member to the State Procurement Policy Board;
- (7) Repealing the Procurement Policy Board Nominating Committee;
- (8) Amending section 1 to reflect its amended purpose;
- (9) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2383, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Lee).

SCRep. 3204 Judiciary on S.B. No. 1411

The purpose and intent of this measure is to:

- (1) Define "pre-contact historic property";

- (2) Clarify that the historic preservation program includes providing consultation to counties and public and private agencies involved in historic preservation and the development, publication, and distribution of materials about protections for burials, historic sites, and archaeological resources;
- (3) Amend the composition and duties of the Hawaii Historic Places Review Board; and
- (4) Increase civil and administrative fines for certain violations of historic and preservation requirements and hold violators liable for costs associated with mitigation or restoration measures.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, Hawaii State Aha Moku, Kūpuna Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Society for Hawaiian Archaeology.

Your Committee finds that the Hawai'i historic preservation law, codified in chapter 6E, Hawaii Revised Statutes, was enacted to ensure that invaluable historic sites and archaeological resources are given appropriate consideration when they may be impacted by development activities. Historic cultural resources, burials, and sites protected under law embody the continued physical and spiritual connections between native Hawaiians, their ancestors, and their cultural heritage. Unfortunately, countless native Hawaiian historic sites and burials are threatened and an unknown number have likely been destroyed by individuals who knowingly commit violations to avoid state historic preservation review processes. This measure will help better deter violations from being committed against pre-contact historic properties and help raise awareness of the types of protections for burials and cultural sites that are currently available under existing statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1411, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1411, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 3205 Ways and Means on S.B. No. 2372

The purpose and intent of this measure is to plan for the use of certain lands to establish temporary ohana zones pilot program housing or affordable housing.

More specifically, this measure requires the Governor's Coordinator on Homelessness to:

- (1) Review the July 2018 Affordable Rental Housing Report and Ten-Year Plan;
- (2) Determine whether any of the lands identified in the report are suitable for development of temporary housing for the ohana zones pilot program or other forms of affordable housing and the actions required to develop those lands; and
- (3) Submit a report of the Coordinator's findings and recommendations to the Legislature.

Your Committee received written comments in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received written comments on this measure from the Department of Human Services and Governor's Coordinator on Homelessness.

Your Committee finds that this measure will help the State strategize how to house the many residents of the State who are experiencing homelessness or who require affordable housing.

Your Committee has amended this measure by:

- (1) Appropriating moneys into and out of the rental housing revolving fund for the purposes for which the revolving fund was established;
- (2) Requiring the Hawaii Housing Finance and Development Corporation to establish a five-year dwelling unit revolving fund equity pilot program to address the demand of for-sale units by residents having low or moderate income;
- (3) Requiring the Hawaii Housing Finance and Development Corporation to purchase equity in for-sale housing development projects to lower the per-unit purchase price to be paid by eligible buyers;
- (4) Requiring each buyer to repay to the Hawaii Housing Finance and Development Corporation an appreciated equity value upon reselling the unit or within thirty years of the date that the buyer purchased the unit;
- (5) Requiring the Hawaii Housing Finance and Development Corporation to adopt rules for, and submit reports on, the pilot program;
- (6) Appropriating moneys into and out of the dwelling unit revolving fund for the dwelling unit revolving fund equity pilot program;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2372, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2372, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3206 Ways and Means on S.B. No. 2963

The purpose and intent of this measure is to promote energy efficiency.

More specifically, this measure:

- (1) Requires state facilities, with the exception of smaller facilities and facilities within the stadium development district, to implement cost-effective energy efficiency measures;
- (2) Directs the Hawaii State Energy Office to collect all state-owned facilities' electric utility bills and energy usage data and make this data publicly available;
- (3) Directs the Office of Planning and Sustainable Development to collect all state-owned facilities' water utility bills and water usage data and make this data publicly available;
- (4) Establishes a goal for the State to achieve at least a twenty-five percent reduction in the electricity consumption of state facilities;
- (5) Provides that certain agencies that perform energy efficiency retrofitting may continue to receive budget appropriations for energy expenditures;
- (6) Appropriates moneys to the Office of Planning and Sustainable Development to fund two full-time equivalent (2.0 FTE) positions to fulfill the agency's water efficiency management responsibilities; and
- (7) Beginning July 1, 2023, where feasible and cost-effective, requires the design of all new state building construction to maximize energy generation, water efficiency, energy efficiency, and energy generation potential, and to use building materials, such as post-industrial carbon dioxide mineralized concrete and clumping bamboo, that reduce the carbon footprint of the project.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Hawaii State Energy Office, 350Hawaii, Blue Planet Foundation, Hawaii Energy, Ulupono Initiative, and eleven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Transportation, and Office of Planning and Sustainable Development.

Your Committee finds that improving energy efficiency is the most cost-effective way to reduce carbon emissions associated with electricity generation and consumption. Your Committee also finds that maximizing energy efficiency and thereby reducing demand for power generation is a necessary component of reaching the State's clean energy and decarbonization goals.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii State Energy Office, in consultation with the Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism, shall collect electric utility and energy usage data from all state-owned facilities and make this data publicly available;
- (2) Transferring the water efficiency management responsibilities from the Office of Planning and Sustainable Development to the Hawaii State Energy Office;
- (3) Changing the recipient of the appropriation from the Office of Planning and Sustainable Development to the Hawaii State Energy Office;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2963, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2963, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Kidani, Taniguchi, Fevella).

SCRep. 3207 (Majority) Ways and Means on S.B. No. 3269

The purpose and intent of this measure is to establish statutory guidelines for tenure at the University of Hawaii, including criteria for tenure, requirements for periodic reviews for tenured or tenure-track faculty, and establishing which employees are not eligible for tenure.

Your Committee received written comments in opposition to this measure from the Office of Collective Bargaining; University of Hawaii; Hawaii Cattlemen's Council; Hawaii Library Association; Hawaii Farm Bureau; University of Hawaii Professional Assembly; Hawaii Community College Academic Support Division Faculty; Hawaii Government Employees Association; United Public Workers,

AFSCME Local 646, AFL-CIO; International Union of Bricklayers and Allied Craftworkers Local 1 of Hawaii; Hawaii State AFL-CIO; Windward Community College; and over one hundred individuals.

Your Committee finds that requiring the University of Hawaii Board of Regents, President of the University of Hawaii, faculty of the University of Hawaii, and the exclusive representative of each applicable bargaining unit to discuss and implement changes to the tenure process will help to align the employment of university faculty with the mission of the University of Hawaii.

Your Committee has amended this measure by:

- (1) Deleting all sections of the measure that statutorily establish guidelines for tenure at the University of Hawaii;
- (2) Providing that, out of the general funds appropriated to the University of Hawaii, the sum of \$37,951,232 shall be expended to restore personal services of the University of Hawaii, including:
 - (A) \$30,000,000 for the University of Hawaii at Manoa;
 - (B) \$1,200,000 for the University of Hawaii John A. Burns school of medicine;
 - (C) \$2,280,000 for the University of Hawaii at Hilo;
 - (D) \$1,080,000 for the University of Hawaii, West Oahu; and
 - (E) \$3,391,232 for University of Hawaii systemwide support;
- (3) Requiring the University of Hawaii Board of Regents and the President of the University of Hawaii to discuss and adopt the permitted interaction group on tenure's recommendations for tenure of faculty and to consult with the University of Hawaii faculty and the exclusive representative of each applicable collective bargaining unit in implementing the recommendations;
- (4) Changing the effective date to July 1, 2022; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3269, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3269, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Taniguchi). Excused, none.

SCRep. 3208 Ways and Means on S.B. No. 3355

The purpose and intent of this measure is to require the University of Hawaii Board of Regents to establish a standing committee to examine issues regarding the community colleges and to require the Vice President of Community Colleges to report directly to the standing committee.

Your Committee received written comments in opposition to this measure from the University of Hawaii and University of Hawaii Professional Assembly.

Your Committee finds that a standing committee will provide the community colleges with a voice at the administrative level and a process for the University of Hawaii to more directly address issues with the community colleges.

Your Committee has amended this measure by appropriating out of the general funds appropriated to program ID University of Hawaii, Community Colleges (UOH 800), the following sums:

- (1) \$303,000 for the Culinary Institute of the Pacific, including seven full-time equivalent (7.0 FTE) positions;
- (2) \$2,650,000 for the Early College Program, including twenty full-time equivalent (20.0 FTE) positions;
- (3) \$1,400,000 for the Hawaii Promise Program;
- (4) \$385,000 for the Hawaii Nutrition Employment and Training Program, including five full-time equivalent (5.0 FTE) positions;
- (5) \$146,000 for the Maui Food Innovation Center, including three full-time equivalent (3.0 FTE) positions;
- (6) \$1,540,000 for workforce development programs, including eight full-time equivalent (8.0 FTE) positions;
- (7) \$1,274,100 for campus security officers, including thirty-one full-time equivalent (31.0 FTE) positions;
- (8) \$1,622,676 for the Wahiawa Value-Added Product Development Center, including nine full-time equivalent (9.0 FTE) positions;
- (9) \$4,600,000 to restore personal services to levels before the coronavirus disease 2019 pandemic began;
- (10) \$842,572 for clinical instructors for the nursing program; and
- (11) \$645,134 for the Learn and Earn Program, including four and three tenths full-time equivalent (4.3 FTE) positions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3355, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3355, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 8; Ayes with Reservations (Inouye). Noes, none. Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3209 Ways and Means on S.B. No. 3359

The purpose and intent of this measure is to establish and appropriate moneys into and out of a Hawaiian home lands special fund, which shall be used by the Department of Hawaiian Home Lands to fulfill its fiduciary duties to beneficiaries of the Hawaiian Homes Commission Act, 1920.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Catholic Charities Hawaii, Partners In Care, League of Women Voters of Hawaii, Hawaii Alliance for Community-Based Economic Development, Chamber of Sustainable Commerce, Hui of Native Hawaiian Organizations, Council for Native Hawaiian Advancement, and six individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance and Office of Hawaiian Affairs.

Your Committee finds that because more than twenty-eight thousand applicants for Hawaiian home lands leases remain on the waitlist, the Department of Hawaiian Home Lands must be provided with sufficient financial resources to ensure that it meets its fiduciary duty to provide funding for native Hawaiians to acquire residences.

Your Committee recommends that the Department of Hawaiian Home Lands consider offering up to \$100,000 to any applicant on the Hawaiian home lands residential waitlist, to be applied toward the purchase of a primary residence in the State, or to the applicant's existing mortgage on a primary residence; provided that the applicant agrees to the applicant's removal from the waitlist, and agrees to never reapply for Hawaiian home lands.

Your Committee has amended this measure by:

- (1) Correcting a reference to the Admission Act;
- (2) Deleting all provisions and appropriations relating to the Hawaiian home lands special fund;
- (3) Requiring the Department of Hawaiian Home lands to submit annual reports to the Legislature regarding expenditures from the native Hawaiian rehabilitation fund and the number of beneficiaries removed from the waitlist for Hawaiian home lands through the use of funds from the native Hawaiian rehabilitation fund;
- (4) Inserting an appropriation of \$600,000,000 from general revenues into the native Hawaiian rehabilitation fund;
- (5) Inserting an appropriation of \$487,614,000 from the native Hawaiian rehabilitation fund for Hawaiian home lands lots and related projects;
- (6) Inserting an appropriation of \$112,386,000 from the native Hawaiian rehabilitation fund for down payment assistance and mortgage payment assistance to Department of Hawaiian Home Lands beneficiaries;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3359, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3359, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Moriwaki, Taniguchi, Wakai).

SCRep. 3210 (Joint) Education and Ways and Means on S.B. No. 3334

The purpose and intent of this measure is to:

- (1) Add the Director of Business, Economic Development, and Tourism (DBEDT) as an ex officio voting member to the Board of Directors of the:
 - (A) Hawaii Tourism Authority;
 - (B) Stadium Authority; and
 - (C) School Facilities Authority;
- (2) Transfer the Stadium Authority from the Department of Accounting and General Services (DAGS) to DBEDT, which includes:
 - (A) Clarifying that the designees of the President of the University of Hawaii and the Superintendent of Education may serve as ex officio nonvoting members of the Stadium Authority; and
 - (B) Increasing the amount in general obligation bonds that may be issued for the Stadium Development District; and
- (3) Transfer the School Facilities Authority from the Department of Education to DBEDT.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Department of Accounting and General Services. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Education, Hawai'i Tourism Authority, Stadium Authority, and School Facilities Authority.

Your Committees find that certain agencies with land development functions are fragmented and disbursed throughout the State's executive branch. This can lead to ineffective or inefficient development and redevelopment of state lands. Your Committees find that now, more than ever, smart, creative, and efficient uses of state lands and associated resources are crucial. Projects are in the pipeline and resources are ready to be deployed. Accordingly, this measure will improve the operation of state government and benefit the public by consolidating land development expertise within DBEDT.

Your Committees have amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Amending two sections of chapter 109, Hawaii Revised Statutes, to clarify the subject of Stadium Authority management;
- (3) Amending various sections of chapter 206E, Hawaii Revised Statutes, by:
 - (A) Amending the Hawaii Community Development Authority membership to include the Chairperson of the Board of Land and Natural Resources; Director of Business, Economic Development, and Tourism; and Director of the Office of Planning and Permitting of each county, or their designee, in which a community development district is located;
 - (B) Amending the community representatives on each community development district board from three to two at-large members;
 - (C) Clarifying the subject of Stadium Authority management and the extent of its authority; and
 - (D) Making certain conforming amendments;
- (4) Making the effectiveness of this measure contingent on the completion of the land acquisition set forth by Act 40, Session Laws of Hawaii 2019, and Act 6, Session Laws of Hawaii 2020;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3334, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3334, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 10; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3211 Energy, Economic Development, and Tourism on Gov. Msg. Nos. 553 and 554

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY

G.M. No. 553 PETER APO, for a term to expire 06-30-2023; and

G.M. No. 554 SUSAN TODANI, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by Peter Apo and Susan Todani for service on the Hawaii Community Development Authority.

PETER APO

Your Committee received testimony in support of the nomination for the appointment of Peter Apo from Hawaii Community Development Authority and one individual.

Upon review of the testimony, your Committee finds that Mr. Apo's knowledge, experience, and dedication in serving the people of Hawaii qualify him for appointment to the Hawaii Community Development Authority as a cultural specialist, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Mr. Apo is a native Hawaiian who grew up in Makaha, Oahu and graduated from the University of Oregon after attending high school at the Mid-Pacific Institute. He has over forty years of public service, which includes serving on the first Board of Trustees of the Office of Hawaiian Affairs (OHA) from 1980 to 1982, as a state legislator in the Hawaii State House of Representatives from 1982 to 1994, as Special Assistant on Hawaiian Affairs to the Governor from 1996 to 1998, and again as an OHA trustee from 2010 to 2018. Your Committee further notes that Mr. Apo is a founding member of the Native Hawaiian Hospitality Association and is currently the president of Peter Apo Company, which provides Hawaiian cultural planning and consulting services. Your Committee further finds that Mr. Apo has chaired a number of boards and commissions and has a thorough understanding of the role and responsibilities of board members. Your Committee believes that his knowledge and experience will be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Mr. Peter Apo be appointed to the Hawaii Community Development Authority based on his experience, knowledge, and commitment to public service.

SUSAN TODANI

Your Committee received testimony in support of the nomination for the appointment of Susan Todani from the Hawaii Community Development Association, Waikiki Community Center, and eight individuals.

Upon review of the testimony, your Committee finds that Ms. Todani's knowledge, experience, and willingness to serve on the Hawaii Community Development Authority qualify her for appointment to the Hawaii Community Development Authority as an at-large member, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Ms. Todani was born and raised in

Honolulu and graduated with a Bachelor of Business Administration from the University of Hawaii at Manoa. Ms. Todani has over thirty-four years of experience in strategic planning and real estate development and, prior to her retirement, was the Area Development Director for Kamehameha Schools. Your Committee notes that Ms. Todani previously served on the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District from 1992 to 1995 and has been serving as the Chair of the Hawaii Community Development Authority since January 2022. Your Committee further finds that Ms. Todani has been a member and chair of a number of boards and associations and has a thorough understanding of the role and responsibilities of board members and that her experience and knowledge will continue to be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Ms. Susan Todani be appointed to the Hawaii Community Development Authority based on her experience, knowledge, and commitment to serve the community.

As affirmed by the records of votes of the members of your Committee on Energy, Economic Development, and Tourism that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 3212 Energy, Economic Development, and Tourism on Gov. Msg. Nos. 555 and 556

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY (HEEIA DISTRICT)

G.M. No. 555 KAIWIPUNI LIPE, for a term to expire 06-30-2023; and

G.M. No. 556 JO ANN LEONG, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Kaiwipuni Lipe and Jo Ann Leong for service on the Hawaii Community Development Authority for matters affecting the Heeia Community Development District.

KAIWIPUNI LIPE

Your Committee received testimony in support of the nomination for the appointment of Kaiwipuni Lipe from the Hawaii Community Development Authority and Ko'olau Foundation.

Upon review of the testimony, your Committee finds that Dr. Lipe's knowledge and desire to serve the Heeia Community Development District qualify her for appointment to the Hawaii Community Development Authority for matters affecting the Heeia Community Development District as a resident of the Heeia Community Development District or the Koolaupoko district, which consists of sections 1 through 9 of zone 4 of the first tax map key division, nominated by the county council of the county in which the Heeia Community Development District is located, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Dr. Lipe has been a resident of the Heeia district for over twenty-five years. Since 2017, Dr. Lipe has been both the Native Hawaiian Affairs Program Officer and the Director of the Truth, Racial Healing, and Transformation Campus Center of the University of Hawaii at Manoa. Your Committee notes that Dr. Lipe is not only an 'ōlapa (trained hula dancer) who has studied hula, mele (song), and oli (chant) for over twenty years, but is also a trained racial healing circle facilitator. Your Committee further finds that Dr. Lipe is a member of numerous boards and committees and, therefore, has an understanding of the roles and responsibilities of board members. Her illustrious academic background and knowledge of the Heeia community will be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Kaiwipuni Lipe be appointed to the Hawaii Community Development Authority for matters affecting the Heeia Community Development District based on her knowledge and willingness to serve the public.

JO ANN LEONG

Your Committee received testimony in support of the nomination for the reappointment of Jo Ann Leong from the Hawaii Community Development Authority, Ko'olau Foundation, and Ko'olaupoko Hawaiian Civic Club.

Upon review of the testimony, your Committee finds that Dr. Leong's experience, knowledge, and dedication to the development of the Heeia Community Development District qualify her for reappointment to the Hawaii Community Development Authority for matters affecting the Heeia Community Development District as a resident of the Heeia Community Development District or the Koolaupoko district, which consists of sections 1 through 9 of zone 4 of the first tax map key division, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that prior to her retirement in 2014, Dr. Leong was the Director for the Hawaii Institute of Marine Biology at the University of Hawaii at Manoa. Dr. Leong was appointed to the Hawaii Community Development Authority for matters affecting the Heeia Community Development District in 2017 and was instrumental in the designation of the Heeia National Estuarine Research Reserve. Her experience and knowledge will continue to be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Jo Ann Leong be reappointed to the Hawaii Community Development Authority for matters affecting the Heeia Community Development District based on her experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Energy, Economic Development, and Tourism that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 3213 Energy, Economic Development, and Tourism on Gov. Msg. Nos. 557 and 558

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY (KAKAAKO DISTRICT)

G.M. No. 557 VERNON INOSHITA, for a term to expire 06-30-2025; and

G.M. No. 558 PHILLIP HASHA, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Vernon Inoshita and Phillip Hasha for service on the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District.

VERNON INOSHITA

Your Committee received testimony in support of the nomination for the appointment of Vernon Inoshita from the Hawaii Community Development Authority and one individual.

Upon review of the testimony, your Committee finds that Mr. Inoshita's experience, knowledge, and desire to serve the Kakaako Community Development District qualify him for appointment to the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District as a resident of the district, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Mr. Inoshita has been a resident of the Kakaako Community Development District for the past fifteen years. He is a registered architect and has managed his architecture, planning, and construction management firm, Design Partners Incorporated, for the past forty-three years. Your Committee further finds that Mr. Inoshita has an understanding of the roles and responsibilities of board members and that his experience and knowledge in urban planning and permitting will be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Vernon Inoshita be appointed to the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District based on his experience, knowledge, and willingness to serve the public.

PHILLIP HASHA

Your Committee received testimony in support of the nomination for the reappointment of Phillip Hasha from the Hawaii Community Development Authority.

Upon review of the testimony, your Committee finds that Mr. Hasha's experience, knowledge, and dedication to the development of the Kakaako Community Development District qualify him for reappointment to the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District as an owner of a small business in the district, nominated by the county council of the county in which the Kakaako Community Development District is located, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Mr. Hasha has worked in the Kakaako Community Development District for the past ten years and has been a resident of the district for the past seven years. Mr. Hasha is the president and CEO of The Redmont Group, LLC, a commercial real estate company that he co-founded in 2012. Your Committee further finds that Mr. Hasha was nominated to the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District in 2017. His experience and knowledge will continue to be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Phillip Hasha be reappointed to the Hawaii Community Development Authority for matters affecting the Kakaako Community Development District based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Energy, Economic Development, and Tourism that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 3214 Energy, Economic Development, and Tourism on Gov. Msg. No. 638

Recommending that the Senate advise and consent to the nomination of the following:

HAWAII GREEN INFRASTRUCTURE AUTHORITY

G.M. No. 638 DENNIS WONG, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Dennis Wong for service on the Hawaii Green Infrastructure Authority.

Your Committee received testimony in support of the nomination for the reappointment of Dennis Wong from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; and Hawaii State Energy Office.

Upon review of the testimony, your Committee finds that Mr. Wong's experience, knowledge, and dedication in serving on the Hawaii Green Infrastructure Authority qualify him for reappointment to the Hawaii Green Infrastructure Authority as a public member, pursuant to section 196-63, Hawaii Revised Statutes. Your Committee notes that Mr. Wong is currently a Senior Business Advisor at the Hawaii Small Business Development Center. Your Committee further notes that Mr. Wong has held various management and leadership roles throughout his forty-one years of experience in business and financial industries. Your Committee further finds that Mr. Wong was appointed to the Hawaii Green Infrastructure Authority in 2020 and has a thorough understanding of the role and responsibilities of a public member of the Hawaii Green Infrastructure Authority. His experience and knowledge in reviewing and approving loan requests will continue to be assets to the Hawaii Green Infrastructure Authority. Your Committee therefore recommends that Dennis Wong be reappointed to the Hawaii Green Infrastructure Authority based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 3215 Government Operations on Gov. Msg. No. 652

Recommending that the Senate advise and consent to the nomination of the following:

ENHANCED 911 BOARD

G.M. No. 652 STEPHEN COURTNEY, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Stephen Courtney for service on the Enhanced 911 Board.

Your Committee received testimony in support of the nomination for the appointment of Stephen Courtney from the City and County of Honolulu's Department of Information and Technology.

Upon review of the testimony and materials submitted, your Committee finds that Mr. Courtney's background and extensive experience qualify him to be nominated for appointment to the Enhanced 911 Board. Your Committee notes that Mr. Courtney has decades of experience leading large technical projects in federal and municipal government, and that he currently serves as the Deputy Director of Information Technology of the City and County of Honolulu's Department of Information and Technology. Your Committee further notes that Mr. Courtney's electrical engineering background provides highly relevant expertise to matters pertaining to critical emergency services infrastructure. Your Committee therefore recommends that Stephen Courtney be appointed to the Enhanced 911 Board based on his leadership, management experience, and technical expertise.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3216 Health on Gov. Msg. No. 518

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT PLANTS

G.M. No. 518 VIRGILIO VIERNES, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Virgilio Viernes for service on the Board of Certification of Operating Personnel in Wastewater Treatment Plants.

Your Committee received testimony in support of the nomination for the appointment of Virgilio Viernes from the Department of Health.

Upon review of the testimony, your Committee finds that Mr. Viernes' experience in the field of wastewater treatment management, commitment to public service, and dedication to ensuring clean water in the State, qualify him for appointment to the Board of Certification of Operating Personnel in Wastewater Treatment Plants. Mr. Viernes was most recently a compliance specialist for the County of Maui's solid waste division and holds a Grade 4 wastewater treatment plant operator certificate. Prior to that, Mr. Viernes served in other positions for the County of Maui, including as a wastewater treatment operations manager and as the supervisor for the Lahaina wastewater reclamation facility. He has over twelve years of supervisory and operations in the wastewater industry. Your Committee notes that Mr. Viernes has also provided consulting services to small wastewater treatment facilities to ensure those facilities are in compliance with operational permits and requirements. Mr. Viernes studied kinesiology and leisure science at the University of Hawaii at Manoa in addition to earning his Associate's degree in General Education from Maui Community College. Mr. Viernes also served in the United States Navy and enlisted into the Surface Shop Nuclear Propulsion Plant Mechanical Operator Training Program among other programs. Your Committee further finds that Mr. Viernes' service on the Board would fulfill the requirement that one member be an individual employed at a wastewater treatment plant as a certified operator employed by the County of Maui.

Your Committee therefore recommends that Mr. Viernes be appointed to the Board of Certification of Operating Personnel in Wastewater Treatment Plants based on his experience in wastewater treatment plant management and commitment to ensuring clean water in the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 3217 Health on Gov. Msg. No. 519

Recommending that the Senate advise and consent to the nomination of the following:

DISABILITY AND COMMUNICATION ACCESS BOARD

G.M. No. 519 CHARLOTTE TOWNSEND, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Charlotte Townsend for service on the Disability and Communication Access Board.

Your Committee received testimony in support of the nomination for the appointment of Ms. Townsend from the Disability and Communication Access Board and three individuals.

Upon review of the testimony, your Committee finds that Ms. Townsend's experience working with and for people with disabilities, commitment to public service, and dedication to ensuring that persons with disabilities have equal access and opportunities as persons without disabilities, qualify her for appointment to the Disability and Communication Access Board. Ms. Townsend most recently served as the vice president of Paratransit Services for Oahu Transit Services. Prior to that, Ms. Townsend served as the program and policy development supervisor for the Disability and Communication Access Board and as vice president and director of program services for Abilities Unlimited, an organization dedicated to providing employment and community based services to adults with developmental disabilities. Your Committee notes that Ms. Townsend also serves on the Advisory Board of Directors for Very Special Arts for the John F. Kennedy Center for the Performing Arts and the Board of Directors for the Hawaii Commission for National and Community Services. Ms. Townsend earned a Bachelor's degree from Whittier College and Master's degree in career and rehabilitation counseling from the University of Hawaii.

Your Committee further finds that Ms. Townsend would fill a position on the Board as a person with a mobility disability as a wheelchair user. Ms. Townsend's service on the Board would also fulfill the requirement that some representatives possess knowledge in areas for which the Disability and Communication Access Board has rulemaking authority. Your Committee notes that Ms. Townsend previously served as the program and policy development supervisor for the Disability and Communication Access Board and therefore is already familiar with its work.

Your Committee therefore recommends that Ms. Townsend be appointed to the Disability and Communication Access Board based on her experience working with and for persons with disabilities and commitment to ensuring that persons with disabilities have equal access and opportunities as persons without disabilities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 3218 Energy, Economic Development, and Tourism on Gov. Msg. Nos. 559, 560, and 561

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII COMMUNITY DEVELOPMENT AUTHORITY (KALAELOA DISTRICT)

G.M. No. 559 DAVID RAE, for a term to expire 06-30-2022;

G.M. No. 560 DAVID RAE, for a term to expire 06-30-2026; and

G.M. No. 561 JOE LEWIS, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by David Rae and Joe Lewis for service on the Hawaii Community Development Authority for matters affecting the Kalaeloa Community Development District.

DAVID RAE

Your Committee received testimony in support of the nominations for the appointment and reappointment of David Rae from Hawaii Community Development Authority.

Upon review of the testimony, your Committee finds that Mr. Rae's experience, knowledge, and willingness to serve the Kalaeloa Community Development District qualify him for appointment and reappointment to the Hawaii Community Development Authority for matters affecting the Kalaeloa Community Development District as a resident of the Ewa Zone (Zone 9, Sections 1 through 2) or the Waianae Zone (Zone 8, Sections 1 through 9) of the First Tax Map Key Division, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Mr. Rae has been a resident of the Makakilo area for the past thirty years. Your Committee notes that Mr. Rae has over forty years in land use planning and development and, before his retirement in 2015, he was the Vice President of Development for Aina Nui Corporation and Kapolei Property Development LLC. Your Committee further finds that Mr. Rae has an understanding of the role and responsibilities of board members as he was not only a founding member of the Kapolei Chamber of Commerce and Move Oahu Forward coalition, but has also served as a member on various commissions, such as the 2001 Reapportionment Commission. His experience and knowledge in urban regional planning will be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that David Rae be appointed and reappointed to the Hawaii Community Development Authority for matters affecting the Kalaeloa Community Development District based on his experience, knowledge, and desire to serve the public.

JOE LEWIS

Your Committee received testimony in support of the nomination for the appointment of Joe Lewis from Hawaii Community Development Authority.

Upon review of the testimony, your Committee finds that Mr. Lewis's knowledge and willingness to serve the Kalaeloa Community Development District qualify him for appointment to the Hawaii Community Development Authority for matters affecting the Kalaeloa

Community Development District as an officer or director of a nonprofit organization in the Ewa or Waianae Zone that is nominated by the county council of the county in which the Kalaeloa Community Development District is located, pursuant to section 206E-3, Hawaii Revised Statutes. Your Committee finds that Mr. Lewis has been the president and CEO of the Council for Native Hawaiian Advancement, a nonprofit community development financial institution based in Kapolei, since 2018. Your Committee notes that Mr. Lewis is well-known for his work in the Hawaiian community and, prior to leading the Council for Native Hawaiian Advancement, was the Community Outreach Manager of the Office of Hawaiian Affairs. Your Committee further finds that Mr. Lewis is a member of a number of community organizations, such as the Kapolei Hawaiian Civil Club, West Oahu Professional Network, and the Native Hawaiian Chamber of Commerce, and has an understanding of the role and responsibilities of board members. His experience and knowledge will be assets to the Hawaii Community Development Authority. Your Committee therefore recommends that Joe Lewis be appointed to the Hawaii Community Development Authority for matters affecting the Kalaeloa Community Development District based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Energy, Economic Development, and Tourism that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 3219 Ways and Means on H.B. No. 2500

The purpose and intent of this measure is to appropriate moneys for the legislative branch of the State of Hawaii.

Specifically, this measure appropriates moneys for:

- (1) The Senate and the House of Representatives for the period up to and including June 30, 2023; and
- (2) The Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission for fiscal year 2022-2023.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau, Office of the Auditor, Office of the Ombudsman, Hawaii State Ethics Commission, League of Women Voters Hawaii, and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate and House of Representatives, including expenses for a legislative information system and legislative broadcasting system, along with funds necessary to support the operations of the Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2500, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, none.

SCRep. 3220 Energy, Economic Development, and Tourism on Gov. Msg. No. 552

Recommending that the Senate advise and consent to the nomination of the following:

STADIUM AUTHORITY

G.M. No. 552 CLAIRES TAMAMOTO, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Claire Tamamoto for service on the Stadium Authority.

Your Committee received testimony in support of the nomination for the appointment of Claire Tamamoto from the Stadium Authority, Department of Accounting and General Services, Ali'i Pauahi Hawaiian Civic Club, 'Aiea Community Association, and five individuals.

Upon review of the testimony, your Committee finds that Ms. Tamamoto's experience, knowledge, and willingness to serve qualify her for appointment to the Stadium Authority as a resident of the area described in section 109-1(1)(A), Hawaii Revised Statutes. Your Committee finds that Ms. Tamamoto was born and raised in Aiea, Oahu, and graduated with her Bachelor's degree in Sociology and her Master's degree in Education Administration at the University of Hawaii at Manoa. She is currently the Director and President of Pep Hawai'i, Inc., a corporation that provides sales representatives for various domestic manufacturers. Your Committee notes that Ms. Tamamoto is well-known for her service to the Aiea community, and especially for her active participation in the adoption of the City and County of Honolulu's Halawa Area Transit Oriented Development Master Plan and for current efforts with the New Aloha Stadium Entertainment District. Ms. Tamamoto has served in a number of roles for various community organizations, and continues to serve and lead in numerous capacities, including but not limited to the President of the Aiea Community Association, member of the City and County of Honolulu Neighborhood Commission, and member of the Pali Momi Board of Directors. Your Committee further finds that she has a thorough understanding of the role and responsibilities of board members and that her experience working with state, county, and local leaders and her knowledge of the Aiea community will be assets to the Stadium Authority. Your Committee

therefore recommends that Claire Tamamoto be appointed to the Stadium Authority based on her experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 3221 Water and Land on H.B. No. 1631

The purpose and intent of this measure is to create a nonrefundable water catchment income tax credit for homeowners who install a water catchment system meeting certain requirements on residential property in the State owned by the homeowner.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Honolulu Board of Water Supply. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that water catchment systems can be cost-effective, reliable, and safe fresh water sources that reduce consumer demand on existing fresh water. Factors such as population growth, climate change, resource depletion, drought, and risks to groundwater are considerable threats to Hawaii's existing fresh water, prompting a need for innovative solutions to incentivize conservation and protection of water resources. Currently, the Hawaii Water Conservation Plan recognizes various rebate programs offered by municipal water departments as a proven and effective way to reach its customers and reduce their water demands and water bills. While a tax credit is not identified as one of the recommended programs within the Hawaii Water Conservation Plan, the creation of a tax credit may incentivize water conservation efforts in Hawaii for residential property owners who may not be customers of the Honolulu Board of Water Supply, County of Maui Department of Water Supply, County of Kauai Department of Water, and County of Hawaii Department of Water Supply.

Accordingly, your Committee has amended this measure by:

- (1) Making the tax credit applicable to taxable years after December 31, 2022; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1631, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1631, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 3222 Water and Land on H.B. No. 1656

The purpose and intent of this measure is to appropriate funds for the establishment of a permanent full-time equivalent land and access specialist position and a permanent full-time equivalent abstractor position within the Nā Ala Hele program for the protection and expansion of public trail access statewide.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, Kaua'i Visitors Bureau, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that many residents and visitors utilize and enjoy the trails under the stewardship of the Nā Ala Hele program. Currently, the Department of Land and Natural Resources is facing a staffing shortage that minimizes the capacity to manage and maintain existing forest recreation resources. The addition of positions for an abstractor and land and access specialist will expand the Department of Land and Natural Resources' capacity to manage and maintain trails across the State. With a high volume of visitor traffic at state parks, there is a growing need for maintenance and management of trails to maintain safe conditions for all users.

Additionally, your Committee has heard the concerns of the Department of Land and Natural Resources regarding its ability to manage and maintain existing forest recreation resources.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation to the Department of Land and Natural Resources' operating fund to address trail management and maintenance;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1656, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1656, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3223 Water and Land on H.B. No. 2016

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to prepare a master plan for the Sand Island State Recreation Area.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Pillars LLC, Mountain View Community Church, Slapp Radio, and forty-three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that providing outdoor recreational opportunities, safe and well-maintained park infrastructure and facilities, and the protection of cultural and historic resources is paramount to the well-being of Hawaii's people. The previous Sand Island State Recreation Area plan was completed in 1973 but was never fully implemented, as the focus was on comprehensive development of shoreline pathways and passive recreational sites to support water sports. Since 1973, the Sand Island State Recreation Area has developed into a diverse use park unit, providing opportunities for day use, camping, fishing, surfing, softball play, canoe paddling, non-motorized BMX bicycle use with additional areas of open grass fields that can accommodate a variety of passive recreation and general open space for picnic and family gatherings.

However, the Sand Island State Recreation Area is in a deleterious condition with aging infrastructure, irrigation deficiencies, and is currently undergoing a new sewer line repair. Additionally, other challenges include a constant homeless population, invasive kiawe in the undeveloped area, an entrenched feral cat population, and shoreline impacts from climate change and sea level rise. Recent King Tides are also eroding the shoreline, which includes remnants of wartime materials and objects. As the Sand Island Recreation Area was originally envisioned to be a "People's Park", an updated master plan may address the weathered and antiquated facilities, create increased outdoor recreation opportunities, plans for underutilized spaces, and provide new methods for adaptive management and resilience to impacts from climate change and sea level rise.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2016, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2016, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3224 Education on H.B. No. 2248

The purpose and intent of this measure is to amend the definition of "private schools" under the compulsory attendance law to require unlicensed but accredited private schools to annually submit health and safety documentation to the Hawaii Council of Private Schools or the Hawaii Catholic Schools office, as appropriate.

Your Committee received testimony in support of this measure from the Hawaii Association of Independent Schools.

Your Committee finds that, to maintain state licensure, Hawaii schools are required to annually submit health and safety compliance verification as required by various state and county agencies. Your Committee further finds, however, that schools that are accredited but not licensed are not presently subject to this annual requirement. This accredited-but-not-licensed status results in health and safety compliance verification occurring only during reaccreditation visits every five to ten years. As noted in testimony, this method of verifying health and safety compliance is inconsistent, at best, and could be described as a "loophole". Accordingly, this measure will close that loophole and help ensure that private schools follow best practices regarding student health and safety by establishing a uniform annual health and safety compliance verification requirement for schools in the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2248, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2248, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3225 Education on H.B. No. 2000

The purpose of this measure is to appropriate funds to the School Facilities Authority for the construction of preschool facilities.

Your Committee received testimony in support of this measure from the School Facilities Authority, Executive Office on Early Learning, State Public Charter School Commission, Early Learning Board, Hawaii Children's Action Network Speaks!, Hawaii State Teachers Association, and Kamehameha Schools.

Your Committee finds that high quality early education improves future outcomes for Hawaii's young children in education and beyond. Your Committee further finds, however, that there is presently a critical shortage of preschool and related early education facilities throughout the State. Accordingly, this measure will increase access to high quality early education in the State by appropriating funds for the construction of preschool facilities, and is intended to include Department of Education schools and state public charter schools.

Your Committee has amended this measure by changing its effective date to July 1, 2051.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2000, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2000, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3226 Water and Land on H.B. No. 2446

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Land and Natural Resources to establish positions in parks administration and operation (LNR 806) to implement visitor reservation systems in Hawaii state parks; and
- (2) Appropriate additional funds to the Department of Land and Natural Resources from the State Parks Special Fund for purposes of state park management.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, Kaua'i Visitors Bureau, Historic Waimea Theater and Cultural Arts Center, and Maui Hotel and Lodging Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii has the least staffed state park system in the United States at one hundred twenty-eight positions and in the bottom five in funding. For decades, the Division of State Parks has been struggling financially to deliver quality management and service for a globally patronized park system. In recent years, staffing has decreased, from a peak of two hundred in the 1990s, to the current one hundred twenty-eight, while new park units have been added and are now patronized well beyond management expectations at the inception of the state parks. In addition, despite approval for capital improvement projects aimed for upgrades and new improvements, the Department of Land and Natural Resources currently has a \$42 million backlog in routine repair and maintenance not eligible or subject to capital improvement project funding. The lack of upgrades and new improvements places a continued strain on aging fleet vehicles, equipment, and maintenance for state parks. While the Division of State Parks is posed to achieve relative self-sufficiency, additional, critical funding sources are needed to address the maintenance backlog and staffing shortages.

Your Committee has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2446, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2446, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3227 Hawaiian Affairs on S.C.R. No. 15

The purpose and intent of this measure is to request that the Department of Hawaiian Home Lands implement programs that would support very low income beneficiaries and establish various prospective plans that could be used.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku, Environmental Caucus of the Democratic Party of Hawai'i, M.A.H.A. Homestead Association, and four individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Kūpuna for the Mo'opuna.

Your Committee finds that the waitlist for residential and farming homesteads reached 28,500 native Hawaiian adults in 2019 and remains around 28,000 adults today, despite pledges of money and programs to rectify the situation. Furthermore, Hawaii has one of the worst homeless rates in the country, with some of the highest average mortgage rates. Considering that the public land trust is for the benefit of the native Hawaiian people, this measure requests the Department of Hawaiian Home Lands to implement programs to support these very low income native Hawaiian beneficiaries.

Your Committee notes that some counties currently allow living in temporary structures with wheels on vacant lands.

Your Committee has amended this measure by clarifying the potential solutions requested to be considered by the Department of Hawaiian Homelands to be:

- (1) Awarding vacant land leases which could be used to live in county approved temporary structures with an accompanying Department of Health approved wastewater treatment system;
- (2) Duplicating the Puuhonua O Waianae model on every island possibly through awarding general leases to homestead groups; and
- (3) Requesting the Department of Hawaiian Home Lands to provide rental assistance, mortgage assistance, and down payment assistance subject to eligibility criterion and sufficient funds.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 15, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3228 Hawaiian Affairs on S.R. No. 9

The purpose and intent of this measure is to request that the Department of Hawaiian Home Lands implement programs that would support very low income beneficiaries and establish various prospective plans that could be used.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Kūpuna for the Mo'opuna.

Your Committee finds that the waitlist for residential and farming homesteads reached 28,500 native Hawaiian adults in 2019 and remains around 28,000 adults today, despite pledges of money and programs to rectify the situation. Furthermore, Hawaii has one of the worst homeless rates in the country, with some of the highest average mortgage rates. Considering that the public land trust is for the benefit of the native Hawaiian people, this measure requests the Department of Hawaiian Home Lands to implement programs to support these very low income native Hawaiian beneficiaries.

Your Committee notes that some counties currently allow living in temporary structures with wheels on vacant lands.

Your Committee has amended this measure by clarifying the potential solutions requested to be considered by the Department of Hawaiian Homelands to be:

- (1) Awarding vacant land leases which could be used to live in county approved temporary structures with an accompanying Department of Health approved wastewater treatment system;
- (2) Duplicating the Puuhonua O Waianae model on every island possibly through awarding general leases to homestead groups; and
- (3) Requesting the Department of Hawaiian Home Lands to provide rental assistance, mortgage assistance, and down payment assistance subject to eligibility criterion and sufficient funds.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 9, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 9, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3229 Education on Gov. Msg. Nos. 568, 569, 570, 571, and 573

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII TEACHER STANDARDS BOARD

- G.M. No. 568 KRISTI MIYAMAE, for a term to expire 06-30-2025;
- G.M. No. 569 DAWN RAYMOND, for a term to expire 06-30-2025;
- G.M. No. 570 BRANDEN KAWAZOE, for a term to expire 06-30-2024;
- G.M. No. 571 KIM SANDERS, for a term to expire 06-30-2025; and
- G.M. No. 573 KATINA SOARES, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Kristi Miyamae, Dawn Raymond, Branden Kawazoe, Kim Sanders, and Katina Soares for service on the Hawaii Teacher Standards Board.

KRISTI MIYAMAE

Your Committee received testimony in support of the nomination for the reappointment of Kristi Miyamae from two individuals.

Your Committee finds that Ms. Miyamae's professional and leadership experience, and desire to contribute to the teaching community, will be valuable assets to the Hawaii Teacher Standards Board. Ms. Miyamae is a licensed teacher at Mililani Middle School with nearly twenty years of experience in education. She has been described in testimony as a diligent and organized professional. Ms. Miyamae is currently a member of the Hawaii Teacher Standards Board and has served in leadership roles with the Hawaii State Teachers Association. Ms. Miyamae holds a Master's degree in Special Education and is a professional development trainer for the Hawaii State Teachers Association. Your Committee therefore recommends that Kristi Miyamae be reappointed to the Hawaii Teacher Standards Board based on her knowledge, background, and dedication to public service.

DAWN RAYMOND

Your Committee received testimony in support of the nomination for the reappointment of Dawn Raymond from three individuals.

Your Committee finds that Ms. Raymond's professional and leadership experience, and desire to contribute to the teaching community, will be valuable assets to the Hawaii Teacher Standards Board. Colleagues report that Ms. Raymond is a dedicated and energetic educator, and a recognized leader in the school community. Ms. Raymond holds a Master's degree in Autism Spectrum Disorder and has worked in education for over a decade. She is presently a special education teacher at Chiefess Kapiolani Elementary School and presently serves as a member of the Hawaii Teacher Standards Board. Ms. Raymond also has extensive community service experience. Your Committee therefore recommends that Dawn Raymond be reappointed to the Hawaii Teacher Standards Board based on her knowledge, background, and dedication to public service.

BRANDEN KAWAZOE

Your Committee received testimony in support of the nomination for the reappointment of Branden Kawazoe from two individuals.

Your Committee finds that Mr. Kawazoe's knowledge, professional and leadership experience, and desire to contribute to the teaching community will be valuable assets to the Hawaii Teacher Standards Board. Mr. Kawazoe holds a Master's degree in Counseling Psychology and has nearly a decade's worth of experience serving as a school counselor at Kaiser High School. He has also been a Director at the Assets School Summer Camp since 2012. Mr. Kawazoe was the head basketball coach of Kaiser High School's boys varsity basketball team from 2013 to 2018 and led the team to its first ever state championship. Additionally, Mr. Kawazoe has extensive community service experience and presently serves as Chairperson of the Hawaii Teacher Standards Board. Your Committee therefore recommends that Branden Kawazoe be reappointed to the Hawaii Teacher Standards Board based on his knowledge, background, and dedication to public service.

KIM SANDERS

Your Committee received testimony in support of the nomination for the reappointment of Kim Sanders from four individuals.

Your Committee finds that Ms. Sanders' knowledge, professional and leadership experience, and desire to contribute to the teaching community will be valuable assets to the Hawaii Teacher Standards Board. Ms. Sanders has more than forty years of experience in education and is currently the principal of Ewa Makai Middle School. She earned a Bachelor's of Arts Degree in Education from Arizona State University and a Master of Education in Educational Administration K-12 from the University of Hawaii. Ms. Sanders is a teaching veteran, described in testimony as a highly responsive and involved professional with tremendous leadership skills. She has an extensive track record of community service, as well as educational awards and honors. Your Committee therefore recommends that Kim Sanders be reappointed to the Hawaii Teacher Standards Board based on her knowledge, background, and dedication to public service.

KATINA SOARES

Your Committee received testimony in support of the nomination for the appointment of Katina Soares from two individuals.

Your Committee finds that Dr. Soares' knowledge, professional and leadership experience, and desire to contribute to the teaching community will be valuable assets to the Hawaii Teacher Standards Board. Dr. Soares has over twenty years of experience in education and is currently the principal of Molokai High School. Dr. Soares received her Bachelor's degree in Psychology from Judson College, Master's degree in Education School Counseling from Liberty University, Doctor of Philosophy degree from Walden University, and holds numerous certifications. She is a recipient of the 2020 Innovative Grant Award and received honors for exemplary performance as a vice principal in 2017 and 2018. Dr. Soares has been an interim member of the Hawaii Teacher Standards Board since 2021 and has held a multitude of professional and community service positions over the years. Your Committee therefore recommends that Katina Soares be appointed to the Hawaii Teacher Standards Board based on her knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Education that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3230 Transportation on Gov. Msg. No. 587

Recommending that the Senate advise and consent to the nomination of the following:

MEDICAL ADVISORY BOARD

G.M. No. 587 CARROLL DIEBOLD, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Carroll Diebold for service on the Medical Advisory Board.

Your Committee received testimony in support of the nomination for the appointment of Carroll Diebold from the Department of Transportation and one individual. Your Committee received testimony in opposition to the nomination for the appointment of Carroll Diebold from one individual.

Upon review of the testimony, your Committee finds that Dr. Diebold's experience, background, and knowledge qualify him for appointment to the Medical Advisory Board. Dr. Diebold is a United States Army veteran who specializes in psychiatry and has been a board certified psychiatrist for the past twenty-seven years and a board certified forensic psychiatrist for the past twenty-three years. His various active duty clinical positions at Tripler Army Medical Center included Chief of the Tri-Service Addictions Recovery Facility, Chief of Chemical Addictions Treatment Service, Chief of the Department of Psychiatry, and Chief of the Department of Behavioral Health. Before working in Hawaii, Dr. Diebold was active at Womack Army Medical Center at Fort Bragg, North Carolina in various positions of leadership. Beyond these considerable qualifications, Dr. Diebold has also taught at the University of Hawaii John A. Burns School of Medicine and has numerous medical publications on psychiatry. Your Committee finds that Dr. Diebold's decades of work experience will be an important asset to the Board, and therefore, recommends that Carroll Diebold be appointed to the Medical Advisory Board based on his proven knowledge and experience.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3231 Transportation on Gov. Msg. No. 597

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 597 PATRICK MCCAIN, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Patrick McCain for service as the Deputy Director of the Department of Transportation.

Your Committee received testimony in support of the nomination for the appointment of Patrick McCain from the Governor; Department of Transportation; Department of Transportation Airports Division; Department of the Attorney General; Department of Public Safety; Department of Budget and Finance; Department of Labor and Industrial Relations; Department of Commerce and Consumer Affairs; Department of Health; Department of Land and Natural Resources; Department of Human Resources Development; Department of Agriculture; Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Hawaii Friends of Civil Rights; and nineteen individuals.

Upon review of the testimony, your Committee finds that Mr. McCain's experience and knowledge qualify him for appointment as the Deputy Director of Transportation. Mr. McCain graduated from Chaminade University with a degree in political science and then proceeded to study human resources management, strategic management, and organizational behavior at Hawaii Pacific University. Mr. McCain has served in many levels of the government, including as the Chief of Staff for U.S. Congressman Neil Abercrombie, Executive Assistant of the City and County of Honolulu, and committee staffer in the Hawaii State Senate. Mr. McCain most recently worked in the United States Department of Homeland Security. Previously, he worked as the President of the Hawaii Restaurant Association and Government Affairs Liaison of Unity House Inc. He is an active member of the community having served on various neighborhood boards and local organizations, including Seagull Schools, Inc., Honolulu Community Action Program, Visitor Aloha Society of Hawaii, and AFGE Local 2886, throughout the past two decades. Mr. McCain's many experiences and breadth of knowledge make him a strong asset to the Department of Transportation. Your Committee therefore recommends Patrick McCain be appointed as Deputy Director of Transportation based on his experience, knowledge, and proven leadership.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3232 Water and Land on S.C.R. No. 3

The purpose and intent of this measure is to authorize the amendment of a term, non-exclusive easement covering a portion of state submerged lands fronting the property identified as tax map key: (1) 3-6-003:015, Wailupe, Honolulu, Oahu, for the existing seawall, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on August 28, 2020, under agenda item D-10, the Board of Land and Natural Resources, subject to conditions, approved an amendment to the original non-exclusive easement to resolve the additional seawall encroachment identified in this measure.

Your Committee has also heard the concerns from the Department of Land and Natural Resources regarding the easement areas for submerged and reclaimed lands. This measure, as drafted, may not fully clarify the respective easement areas for submerged and reclaimed lands referenced in this measure. To address the concerns of the Department of Land and Natural Resources, your Committee concludes that clarifying the measure to address submerged and reclaimed lands will conform to the state of the lands and affected seawall.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 3, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3233 Water and Land on S.C.R. No. 4

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (1) 4-7-001:006, Kahaluu, Koolaupoko, Oahu, for the existing seawall, steps, and filled land, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on February 8, 2019, under agenda item D-8, the Board of Land and Natural Resources approved a twenty-five-year non-exclusive easement to resolve the existing seawall, steps, and filled land encroachments identified in this measure, and such non-exclusive easement shall run with the land and shall inure to the benefit of the abutting real property.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 4, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 4, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

SCRep. 3234 Water and Land on S.C.R. No. 5

The purpose and intent of this measure is to authorize the issuance of a term, non-exclusive easement for the portion of state submerged lands fronting the property identified as tax map key: (1) 4-4-016:016, Kaneohe, Koolaupoko, Oahu, for the existing pier, house, rock wall, and landscape area, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that, pursuant to section 171-53, Hawaii Revised Statutes, the Board of Land and Natural Resources may lease submerged lands with the prior approval of the Governor and the prior authorization of the Legislature by concurrent resolution. Your Committee further finds that on November 8, 2019, under item D-14, the Board of Land and Natural Resources, subject to conditions, approved a grant of a twenty-five-year non-exclusive easement to resolve the encroachment of the existing pier, house, rock wall, and landscape area identified in this measure. Your Committee concludes that the easement is necessary for the use, repair, and maintenance of the existing pier, house, rock wall, and landscape area.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3235 Energy, Economic Development, and Tourism on H.B. No. 1983

The purpose and intent of this measure is to:

- (1) Establish a state film liaison position to plan, develop, and executive a statewide film industry development strategy for purposes of establishing a collaborative film industry development program; and
- (2) Appropriate funds to establish and fill one full-time equivalent (1.00 FTE) state film liaison position in the Creative Industries Division of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Island Film Group. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Business, Economic Development, and Tourism.

Your Committee finds that the Creative Industries Division of the Department of Business, Economic Development, and Tourism is the lead agency for the expansion and management of the State's creative economy, which includes but is not limited to film, arts, culture, music, design, literary arts, publishing, and creative and interactive media. Your Committee further finds that the Creative Industries Division currently has one administrative assistant position for the entire division.

Accordingly, your Committee has amended this measure by inserting language that appropriates funds for an additional full-time equivalent (1.00 FTE) administrative assistant in the Creative Industries Division of the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1983, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1983, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3236 Energy, Economic Development, and Tourism on H.B. No. 1552

The purpose and intent of this measure is to clarify the composition of members of the Stadium Authority as modified by Act 146, Session Laws of Hawaii 2021.

Your Committee received testimony in support of this measure from the Stadium Authority.

Your Committee finds that Act 146, Session Laws of Hawaii 2021, was enacted, in part, to amend the membership of the Stadium Authority by adding two members who represent and reside within certain areas in the Stadium Development District. Your Committee notes that this measure not only clarifies the designation and the residency requirement of the two public members established last year, but also clarifies the number of board members of the Stadium Authority to be appointed by the Governor. According to testimony from the Stadium Authority, this measure will ensure that there is an appropriate number of members in any given year as departing members end their final term and newly appointed members begin their term.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1552, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3237 Energy, Economic Development, and Tourism on H.B. No. 2225

The purpose and intent of this measure is to appropriate funds to the Hawaii Technology Development Corporation:

- (1) For the Hawaii Small Business Innovation Research Program;
- (2) For the Manufacturing Assistance Grant Program; and
- (3) To support its accelerator grant program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; JPG Hawaii Inc.; Nalu Scientific, LLC; Oceanit Laboratories, Inc.; Ten Tomorrow; Trutag Technologies, Inc.; Hawaii Fish Company Inc.; Hawai'i Farm Bureau; Neurobehavioral Research, Inc.; Hawaii Food Industry Association; Sweet Brown Hawaii; Chamber of Commerce Hawaii; Hawaii Food Manufacturers Association; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that due to the budget shortfalls caused by the coronavirus disease 2019 pandemic, three core grant programs of the Hawaii Technology Development Corporation were not funded for the 2021 fiscal year. Your Committee further finds that these programs are crucial to support small businesses engaged in technology innovation, local manufacturing, and start-ups in the State to effectively scale and become competitive in the global market.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2225, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2225, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3238 Health on H.B. No. 2392

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health to support mitigation responses to the coronavirus disease 2019 (COVID-19) pandemic, including vaccination response activities.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Department of Health, Hawaii Medical Service Association, and Hawai'i Primary Care Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Department of Health currently has a shortfall of over \$35,000,000 due to the costs it has incurred for community COVID-19 testing, medical surge staffing, and other COVID-19 mitigation efforts. Your Committee further finds that while many of the Department of Health's COVID-19 related programs will eventually be reimbursed by the Federal Emergency Management Agency (FEMA), the Department of Health's current deficit prevents it from being able to maintain its current level of services to the State and community. Thus, an emergency appropriation is necessary to continue to fund COVID-19 related efforts until the Department of Health receives FEMA reimbursement. This measure provides for that emergency appropriation.

Your Committee acknowledges the testimony of the Department of Budget and Finance, which notes that the Governor has requested expeditious consideration and immediate passage of this bill and that the funds appropriated are expected to be fully reimbursed by FEMA. Your Committee also acknowledges the testimony of the Department of Health providing the appropriation amounts necessary for fiscal years 2021-2022 and 2022-2023 for COVID-19 related FEMA reimbursable expenditures.

Therefore, your Committee has amended this measure by:

- (1) Inserting the appropriation amounts requested by the Department of Health;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2392, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2392, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3239 Energy, Economic Development, and Tourism on H.B. No. 2089

The purpose and intent of this measure is to:

- (1) Amend the definition of “renewable portfolio standard” to be a percentage of electrical energy generation, rather than sales, excluding customer-sited fossil fuel generation;
- (2) Expand the events or circumstances that are beyond an electric utility company’s reasonable control to include non-renewable energy generated by electric generation facilities over or of which the electric utility does not have direct control or ownership; and
- (3) Require electric utility companies to track and annually report data and trends regarding customer retention or attrition.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Commerce and Consumer Affairs’ Division of Consumer Advocacy; Hawaii State Energy Office; Public Utilities Commission; 350Hawaii.org; Environmental Caucus of the Democratic Party of Hawai‘i; Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai‘i; Ulupono Initiative; Hawaiian Electric Company, Inc.; Blue Planet Foundation; Climate Protectors Hawai‘i; and one individual.

Your Committee finds that amending the renewable portfolio standard calculation from the present calculation of the amount of renewable electrical energy sales divided by total amount of energy sales, to the amended calculation of the amount of renewable electrical energy generated divided by the total amount of electrical energy generated, more accurately reflects the intent of the State’s clean energy economy goals. According to testimony from the Department of Commerce and Consumer Affairs’ Division of Consumer Advocacy, it may be more appropriate to place the language requiring electrical utility companies to report data and trends on customer retention and attrition under another section in the Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Creating a new section in the Hawaii Revised Statutes establishing the requirement of electric utility companies to track and annually report data and trends on customer retention and attrition; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2089, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2089, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3240 Judiciary on H.B. No. 1423

The purpose and intent of this measure is to:

- (1) Increase the fine that may be assessed for campaign spending law violations against a noncandidate committee making only independent expenditures and that has received at least one contribution of more than \$10,000, or spent more than \$10,000 in an election period; and
- (2) Allow the Campaign Spending Commission to order that the fine be up to three times the amount of the unlawful contribution or expenditure, and that the payment of the fine assessed against a noncandidate committee, or any portion thereof, be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and six individuals.

Your Committee finds that a noncandidate committee that makes only independent expenditures, otherwise known as Super PACs or large political action committees, is not penalized the same as individuals and candidate committees for violations of campaign spending laws. An increase in the amount of the fine is necessary in enforcement cases against Super PACs. This measure will be a more effective deterrent against Super PACs, with their deep pockets, from violating campaign spending laws.

Your Committee has amended this measure by:

- (1) Restoring statutory language relating to political activities of Liquor Commission employees;
- (2) Specifying that if a noncandidate committee that makes only independent expenditures and has either received at least one contribution of more than \$10,000 from any one person or has made expenditures of more than \$10,000 in the aggregate in an election period violates the campaign spending laws, they may be fined an amount not to exceed \$5,000 for each occurrence or an amount not to exceed three times the amount of an unlawful contribution or expenditure; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1423, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1423, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3241 Judiciary on H.B. No. 1426

The purpose and intent of this measure is to:

- (1) Provide that a person waives the right to a contested case hearing if the person fails to request a contested case hearing within twenty days of receipt of the Campaign Spending Commission's preliminary determination; and
- (2) Allow the Campaign Spending Commission to have an order confirmed as a civil judgment, enforceable and collectible as any other judgment issued in the circuit courts.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that currently there is no option for the Campaign Spending Commission to collect fines as a money judgment. The Department of the Attorney General has been forced to seek bench warrants to compel payments of fines and the filing of reports by candidates who continue to violate the campaign finance law. This measure will allow the Campaign Spending Commission to have an order confirmed as a judgment, which will allow the Campaign Spending Commission to collect on violations of campaign finance law more effectively.

Your Committee notes that the reason why the final orders that are confirmed as judgments are not appealable is because the person did not contest it so there is no record on appeal. Your Committee also notes that the Campaign Spending Commission has testified that there is a process to collaterally challenge the judgment if new information becomes available.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1426, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1426, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3242 Agriculture and Environment on H.B. No. 2256

The purpose and intent of this measure is to:

- (1) Establish a Department of Environmental Protection on July 1, 2026;
- (2) Create a Department of Environmental Protection Working Group to address the logistics of establishing a Department of Environmental Protection; and
- (3) Require the Department of Environmental Protection Working Group to submit a report to the Legislature prior to the 2025 Regular Session.

Your Committee received testimony in support of this measure from the Environmental Advisory Council, Department of Health, Board of Water Supply of the City and County of Honolulu, Rotary Club of Hanalei Bay, Climate Protectors Hawai'i, Wastewater Alternatives & Innovations, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Hawai'i State Energy Office; and Office of Planning and Sustainable Development.

Your Committee finds that, while most states have an executive-level department dedicated to environmental protection, Hawaii does not. An executive-level Department of Environmental Protection would allow for greater coordination in addressing key environmental issues, which will only grow in importance as climate changes accelerates. Additionally, a Department of Environmental Protection will increase the efficiency and timeliness of the State in responding to environmental threats. This measure establishes a Department of Environmental Protection on July 1, 2026, and creates a working group to ensure effective implementation of a Department of Environmental Protection.

Your Committee has amended this measure by adding the following to the working group:

- (1) The Director of Business, Economic Development, and Tourism, or the Director's designee;
- (2) A representative of the Environmental Advisory Council; and
- (3) A representative of the Commission on Water Resource Management.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2256, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2256, H.D. 1, S.D. 1, and be referred to your Committee on Energy, Economic Development, and Tourism.

Signed by President on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3243 Judiciary on H.B. No. 1541

The purpose and intent of this measure is to clarify the acceptable procedure for initiating criminal complaints to include a signature by the prosecuting officer.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney for the County of Kaua'i, Office of the Prosecuting Attorney for the County of Hawai'i, Department of the Prosecuting Attorney for the County of Maui, Hawai'i Police Department, Honolulu Police Department, Hawai'i State Coalition Against Domestic Violence, Mothers Against Drunk Driving Hawaii, Domestic Violence Action Center, and Retail Merchants of Hawaii. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that state courts are struggling with interpreting section 805-1, Hawaii Revised Statutes, as written following the Hawaii Supreme Court's decision. The lack of clarity in a recent Hawaii Supreme Court decision has resulted in inconsistent rulings in trial courts and cases being dismissed, sometimes with prejudice, based on the form of the complaint and not the merits of the case. In *State v. Thompson* the Supreme Court held that in order to comply with section 805-1, Hawaii Revised Statutes, the underlying complaint must be subscribed under oath by the complainant or made by declaration in lieu of an affidavit in conformity with Hawaii Rules of Penal Procedure Rule 47(d). Your Committee further finds that a survey of the counties indicates that different judges are coming to different conclusions about the sufficiency of District Court complaints under *Thompson*, often with differing expectations of what the county prosecutors should do to meet the statutory requirements of section 805-1, Hawaii Revised Statutes. In the First Circuit alone, some judges have ruled that the Department of the Prosecuting Attorney of the City and County of Honolulu's current procedures, which include declarations designed to meet statutory requirements, satisfy *Thompson*, while others have ruled that the complaints, containing the same declarations, must be dismissed because they do not conform with the statutory requirements. In many of these cases, there is no discernible difference in the complaints, yet the outcomes differ due to which judge the complaint is assigned to. This measure will address outdated and ambiguous language in section 805-1, Hawaii Revised Statutes, by clarifying the acceptable procedure for initiating criminal complaints to include a signature by the prosecuting officer.

Your Committee believes that this measure will restore the pre-*Thompson* interpretation of section 805-1, Hawaii Revised Statutes. Your Committee notes that this measure is intended to neither expand nor contract the procedure to bring a criminal charge, but rather restore the procedure required by section 805-1, Hawaii Revised Statutes, to its pre-*Thompson* interpretation. This process reflects that criminal cases are initiated and prosecuted by the State of Hawaii, represented by the County Offices of the Prosecuting Attorney and the Department of the Attorney General, and not by individuals.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1541, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3244 (Joint) Water and Land and Hawaiian Affairs on H.B. No. 1577

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Kahoolawe Island Reserve Commission; and
- (2) Fund two full-time equivalent positions for the Kahoolawe Island Reserve Commission.

Your Committees received testimony in support of this measure from Kahoolawe Island Reserve Commission, County of Maui Planning Department, one member of the Maui County Council, Pacific American Foundation, and Ke Kai O Kuloloi'a, and twenty-one individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the island of Kahoolawe provides cultural and historic significance to the people of Hawaii, including Native Hawaiians. Following the conclusion of the United States Navy's unexploded ordnance cleanup in 2004, the Kahoolawe Island Reserve Commission has undertaken a significant task to stem erosion and further degradation of the Kahoolawe Island Reserve. Numerous restoration projects of the Kahoolawe Island Reserve, financed by state funds and various grant opportunities, have made significant changes toward transforming the desolate hardpan into vibrant living landscapes.

Despite the Kahoolawe Island Reserve Commission's work to restore Kahoolawe and its natural resources, the Commission is experiencing budgetary constraints that limit its ability to carry out its efforts. While the Kahoolawe Island Reserve Commission has a strong volunteer workforce to assist with native out plantings, erosion control construction, and invasive weed eradication, the lack of permanent full-time equivalent positions to assist with the Commission's mission has created more challenges to restoration of Kahoolawe. Recent unpredictable and severe weather events and ocean conditions have halted volunteer participation in restoration projects. As the Kahoolawe Island Reserve Commission relies on its strong volunteer force to expand restoration efforts to create more native dryland forest habitats, expanded beach restoration, shoreline protection efforts, food sustainability, and on-island water generation, this measure appropriates funds to the Kahoolawe Island Reserve Commission to continue its mission and restorative efforts of Kahoolawe.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1577, H.D. 1, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as H.B. No. 1577, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).
Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3245 Housing on H.B. No. 2020

The purpose and intent of this measure is to appropriate general funds for deposit into the Affordable Homeownership Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Habitat for Humanity, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that the Affordable Homeownership Revolving Fund provides financing to developers for affordable housing projects. Specifically, the revolving fund targets developers of housing for households at or below one hundred twenty percent of the area median income. This measure makes an appropriation to the Affordable Homeownership Revolving fund to support affordable housing in the State.

Your Committee has amended this measure by:

- (1) Requiring funds appropriated by Act 227, Session Laws of Hawaii 2021, to lapse on June 30, 2024;
- (2) Inserting an appropriation amount of \$5,000,000 into the Affordable Homeownership Revolving Fund;
- (3) Inserting a blank appropriation out of the Affordable Homeownership Revolving Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2020, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2020, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 3246 Housing on H.B. No. 1748

The purpose and intent of this measure is to authorize and appropriate funds for the issuance of general obligation bonds into and out of the Rental Housing Revolving Fund for low-income rental housing projects or units that are allocated low-income housing tax credits and developed for families and individuals who meet certain eligibility requirements.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Partners In Care, and Hawai'i Health & Harm Reduction Center.

Your Committee finds that the Rental Housing Revolving Fund provides financing to developers of affordable housing, especially for very and extremely low-income households. However, the demand for financing through the Rental Housing Revolving Fund exceeds the capacity of the revolving fund. This measure supports the development of affordable housing by expanding eligibility for funds through the Rental Housing Revolving Fund and by making an appropriation to the Rental Housing Revolving Fund.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$300,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1748, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1748, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 3247 Housing on H.B. No. 2239

The purpose and intent of this measure is to increase the minimum number of residential units in a condominium project that must be offered for sale to prospective owner-occupants in the thirty-day period following the initial date of sale from fifty percent to ninety percent.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from NAIOP Hawaii.

Your Committee finds that a key driver of Hawaii's housing shortage is the purchase of homes and condominiums by those who are not owner-occupants. Increasing the percentage of condominium units that must be offered to owner-occupants will increase the availability of housing for the State's residents. This measure increases the minimum percentage of units in condominium developments that must be offered to owner-occupants from fifty percent to ninety percent to promote greater housing availability in Hawaii.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2239, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 3248 Housing on H.B. No. 1859

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority for the State Rent Supplement Program.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Partners In Care, Catholic Charities Hawai'i, and Hawai'i Health & Harm Reduction Center. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii faces a severe homelessness crisis. Importantly, the State Rent Supplement Program provides relief to households that are at immediate risk of becoming homeless. The program allows the State to significantly reduce homelessness with relatively fewer resources than other affordable housing programs. However, continued funding for the program is essential. This measure ensures the continuation of the State Rent Supplement Program by appropriating funds to the Hawaii Public Housing Authority.

Your Committee has amended this measure by inserting an appropriation amount of \$1,500,000 and including one full-time (1.0 FTE) Public Housing Specialist II position.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1859, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1859, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 3249 Transportation on H.B. No. 1681

The purpose and intent of this measure is to:

- (1) Establish requirements and permitting procedures for transportation network companies operating in the State; and
- (2) Make permanent insurance requirements for transportation network companies and transportation network company drivers.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Insurers Council, Uber Technologies, Lyft, and GEICO. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association.

Your Committee finds that statewide regulation of transportation network companies is needed to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network company drivers. Regulation is also required to ensure that residents and visitors to the State have access to various transportation options. The purpose of this measure is to establish operational consistency across the State for transportation network companies.

Your Committee has amended this measure by inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1681, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1681, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3250 Transportation on H.B. No. 1692

The purpose and intent of this measure is to change the fines imposed for mobile electronic device violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the use of mobile electronic devices while driving is highly dangerous, and that enforcement of laws governing such activity needs to be reevaluated. Therefore, the purpose of this measure is to change the fines imposed for mobile electronic device violations.

Your Committee has amended this measure by depositing fines for mobile electronic device violations that occur in school zones into the safe routes to school program special fund.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1692, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1692, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3251 Transportation on H.B. No. 1761

The purpose and intent of this measure is to authorize the issuance of limited purpose identification cards for certain residents.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Public Safety, Hawai'i Coalition for Immigrant Rights, Community Alliance on Prisons, Hawai'i Friends of Civil Rights, The Legal Clinic, Parents and Children Together, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Community Services and Common Cause Hawaii.

Your Committee finds that the federal REAL ID Act of 2005 requires states to comply with federally mandated eligibility criteria in issuing driver's licenses and identification cards. However, many residents do not drive and are also unable to meet the stringent requirements for a REAL ID-compliant identification card. During the coronavirus disease 2019 pandemic, many places such as libraries and restaurants began requiring valid proof of vaccination and identity for entry. The purpose of this measure is to authorize the issuance of limited purpose identification cards for individuals who satisfy the requirements for a government-issued identification card but are not able to comply with the strict requirements of the REAL ID Act of 2005.

Your Committee has amended this measure by:

- (1) Adding certificates of discharge and prison ID information to the list of acceptable documentation;
- (2) Specifying that the limited purpose identification application requirements shall match requirements for limited purpose driver's licenses, for continuity and security, and include a voter registration application;
- (3) Clarifying that a person with a REAL ID is ineligible for a limited purpose ID; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1761, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1761, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3252 Commerce and Consumer Protection on Gov. Msg. No. 501

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF ACUPUNCTURE

G.M. No. 501 MARTA REBELLA, for a term to expire 06-30-2023

Your Committee reviewed the personal history, resume, and statement submitted by Marta Rebella for service on the Board of Acupuncture.

Your Committee received testimony in support of the nomination for the appointment of Marta Rebella from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Ms. Rebella's background, knowledge, and dedication to public service qualify her to be nominated for appointment to the Board of Acupuncture as a public member. Your Committee notes that Ms. Rebella has over twenty-eight years of experience in human resources consulting and personnel management, and previously served as the Director for Animal Control in Orange County, California and was a private business owner for ten years. Your Committee also finds that Ms. Rebella is a dedicated public servant who has participated in a number of community service and volunteer organizations and served on a number of boards, including the YMCA, Christmas in April, and various homeowners associations in California. Your Committee further finds that Ms. Rebella has a thorough understanding of the roles and responsibilities of board members and therefore recommends that Marta Rebella be appointed to the Board of Acupuncture based on her experience and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3253 Commerce and Consumer Protection on Gov. Msg. No. 505

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHYSICAL THERAPY

G.M. No. 505 STACIE KELIINOI, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Stacie Keliinoi for service on the Board of Physical Therapy.

Your Committee received testimony in support of the nomination for the appointment of Stacie Keliinoi from the Board of Physical Therapy, The Queen's Health Systems, and three individuals.

Upon review of the testimony, your Committee finds that Dr. Keliinoi's experience, background, and commitment to public service qualify her for appointment to the Board of Physical Therapy as a physical therapist member. Your Committee notes that Dr. Keliinoi has been licensed as a physical therapist in Hawaii since 2013 and has gained considerable experience working in several physical therapy settings, including inpatient, outpatient, inpatient rehabilitation, and school-based therapy. Dr. Keliinoi currently works as a physical therapist at Kapiolani Medical Center and The Queen's Medical Center, and also serves as a lecturer at Kapiolani Community College. Dr. Keliinoi also holds a number of professional certifications with the American Board of Physical Therapy and the American Physical Therapy Association. Your Committee further notes that Dr. Keliinoi has been serving as an interim member of the Board of Physical Therapy and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Stacie Keliinoi be appointed to the Board of Physical Therapy based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3254 Commerce and Consumer Protection on Gov. Msg. No. 511

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE REPAIR INDUSTRY BOARD

G.M. No. 511 TOBY KAKEHI, for a term to expire 06-30-2024

Your Committee reviewed the personal history, resume, and statement submitted by Toby Kakehi for service on the Motor Vehicle Repair Industry Board.

Your Committee received testimony in support of the nomination for the appointment of Toby Kakehi from the Motor Vehicle Repair Industry Board and Hawaii Electric Co., Inc.

Upon review of the testimony, your Committee finds that Mr. Kakehi's background, knowledge, and dedication to public service qualify him to be nominated for appointment to the Motor Vehicle Repair Industry Board as a member not connected to the motor vehicle repair industry. Your Committee notes that Mr. Kakehi is currently the account manager for Altec Industries, Inc., where he has worked for eight years. Prior to that, Mr. Kakehi served as a service consultant for Mercedes Benz of Honolulu, and was a service manager at Bridgestone/Firestone Inc. Your Committee further notes that Mr. Kakehi has served as an interim member of the Motor Vehicle Repair Industry Board since November 2021, and has a thorough understanding of the roles and responsibilities of board members. Your Committee therefore recommends that Toby Kakehi be appointed to the Motor Vehicle Repair Industry Board based on his experience and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3255 Commerce and Consumer Protection on Gov. Msg. No. 623

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF PHARMACY

G.M. No. 623 ALANNA ISOBE, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Alanna Isobe for service on the Board of Pharmacy.

Your Committee received testimony in support of the nomination for the reappointment of Alanna Isobe from the Board of Pharmacy and seven individuals.

Upon review of the testimony, your Committee finds that Ms. Isobe's background, experience, and proven leadership on the Board of Pharmacy qualify her for reappointment to the Board as a licensee member. Your Committee notes that Ms. Isobe has been a licensed pharmacist in Hawaii since 2007 and currently works for Safeway, Inc. as a pharmacy manager. Ms. Isobe has experience in both retail and hospital pharmacy settings and has extensive familiarity with the laws and rules regulating the practice pharmacy in the State and at the federal level. Your Committee further finds that Ms. Isobe has served as a member of the Board of Pharmacy since 2018 and currently serves as the Board's Chairperson. Accordingly, Ms. Isobe's knowledge and experience will continue to enhance the effectiveness of the Board of Pharmacy. Your Committee therefore recommends that Alanna Isobe be reappointed to the Board of Pharmacy based on her background, experience, and dedication to serving the community.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3256 Commerce and Consumer Protection on Gov. Msg. No. 625

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF SPEECH PATHOLOGY AND AUDIOLOGY

G.M. No. 625 ERIN FIRMIN, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Erin Firmin for service on the Board of Speech Pathology and Audiology.

Your Committee received testimony in support of the nomination for the reappointment of Erin Firmin from the Board of Speech Pathology and Audiology.

Upon review of the testimony, your Committee finds that Ms. Firmin's background, experience, and proven leadership on the Board of Speech Pathology and Audiology qualify her for reappointment to the Board as a licensed speech pathologist member. Your Committee notes that Ms. Firmin has been a licensed speech pathologist in Hawaii for nearly ten years, has over twenty-one years of experience working as a speech pathologist for schools, and is also a licensed behavior analyst. Ms. Firmin is currently the Central District Speech-Language Pathologist Coordinator for the Hawaii Department of Education. Your Committee further notes that Ms. Firmin is involved with a number of other professional organizations, including the Hawaii Association for Behavior Analysis, Hawaii Speech-Language-Hearing Association, and the American Speech-Language-Hearing Association. Your Committee further finds that Ms. Firmin currently serves as the Chairperson for the Board of Speech Pathology and Audiology, and her knowledge and experience will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Erin Firmin be reappointed to the Board of Speech Pathology and Audiology based on her background, experience, and dedication to serving the community.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3257 Commerce and Consumer Protection on Gov. Msg. No. 626

Recommending that the Senate advise and consent to the nomination of the following:

HAWAI'I BOARD OF CHIROPRACTIC

G.M. No. 626 ALICE OGAWA, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Alice Ogawa for service on the Hawai'i Board of Chiropractic.

Your Committee received testimony in support of the nomination for the reappointment of Alice Ogawa from the Hawai'i Board of Chiropractic, Waipahu Chiropractic Clinic, and one individual.

Upon review of the testimony, your Committee finds that Dr. Ogawa's background, experience, and proven leadership on the Hawai'i Board of Chiropractic qualify for reappointment to the Board as a licensed chiropractor member. Your Committee notes that Dr. Ogawa has been a licensed chiropractor in Hawaii since 1982, currently practices on Kauai, and has over forty years of clinical and professional experience. Your Committee further notes that Dr. Ogawa is a member of multiple professional organizations, including the Hawaii State Chiropractic Association and International Chiropractors Association. Your Committee further finds that Dr. Ogawa has served as a member of the Hawai'i Chiropractic Board since 2019 and her knowledge and experience will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Alice Ogawa be reappointed to the Hawai'i Board of Chiropractic based on her background, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3258 Commerce and Consumer Protection on Gov. Msg. No. 629

Recommending that the Senate advise and consent to the nomination of the following:

MOTOR VEHICLE INDUSTRY LICENSING BOARD

G.M. No. 629 JOHN UEKAWA, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by John Uekawa for service on the Motor Vehicle Industry Licensing Board.

Your Committee received testimony in support of the nomination for the reappointment of John Uekawa from the Motor Vehicle Industry Licensing Board, Hawaii Automobile Dealers' Association, and one individual.

Upon review of the testimony, your Committee finds that Mr. Uekawa's background, experience, and proven leadership on the Motor Vehicle Industry Licensing Board qualify him for reappointment to the Board as an industry member. Your Committee notes that Mr. Uekawa has nearly forty years of experience in Hawaii's motor vehicle industry. Mr. Uekawa is currently the General

Manager and President of New City Nissan, a role that he has held for over twenty-five years and in which he has earned numerous awards. Your Committee further notes that Mr. Uekawa has held various leadership roles for a number of professional and community organizations, including the Hawaii Automotive Dealers' Association, National Dealer Advisory Board, Easter Seals, Better Business Bureau, Variety School, and St. Anthony's School. Your Committee further finds that Mr. Uekawa has served as a member of the Motor Vehicle Industry Licensing Board since July 2018, and his knowledge and experience will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that John Uekawa be reappointed to the Motor Vehicle Industry Licensing Board based on his background, experience, and dedication to serving the community.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3259 Commerce and Consumer Protection on Gov. Msg. Nos. 502, 503, and 504

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF MASSAGE THERAPY

G.M. No. 502 OLIVIA NAGASHIMA, for a term to expire 06-30-2026;

G.M. No. 503 DARCI FRANKEL, for a term to expire 06-30-2026; and

G.M. No. 504 JAYCE ARAKAKI, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Olivia Nagashima, Darci Frankel, and Jayce Arakaki for service on the Board of Massage Therapy.

OLIVIA NAGASHIMA

Your Committee received testimony in support of the nomination for the reappointment of Olivia Nagashima from the Board of Massage Therapy, Hawaii Healing Arts College, and one individual.

Upon review of the testimony, your Committee finds that Ms. Nagashima's background, experience, and proven leadership on the Board of Massage Therapy qualify her for reappointment to the Board as a licensed massage therapist member. Your Committee notes that Ms. Nagashima has nearly twenty-five years of experience in massage therapy and has been a licensed massage therapist in Hawaii since 1996. Ms. Nagashima is the owner, principal, and sponsoring therapist of Koolau Massage and also serves as an adjunct professor at Hawaii Healing Arts College. Your Committee further notes that Ms. Nagashima is involved with a number of other professional and community organizations, including the American Massage Therapy Association and Hope Chapel Koolau, and also serves as a volunteer massage therapist for the Honolulu Marathon. Your Committee further finds that Ms. Nagashima has served as a member of the Board of Massage Therapy since 2018 and currently serves as the Board's Chairperson. Accordingly, Ms. Nagashima's knowledge and experience will continue to enhance the effectiveness of the Board of Massage Therapy. Your Committee therefore recommends that Olivia Nagashima be reappointed to the Board of Massage Therapy based on her background, experience, and dedication to serving the community.

DARCI FRANKEL

Your Committee received testimony in support of the nomination for the appointment of Darci Frankel from the Department of Commerce and Consumer Affairs and two individuals.

Upon review of the testimony, your Committee finds that Ms. Frankel's background and dedication to serving the public qualify her to be appointed to the Board of Massage Therapy as a licensee member. Your Committee notes that Ms. Frankel has nearly thirty years of experience in massage therapy. Ms. Frankel has been a licensed massage therapist in Hawaii since 2003 and is the managing owner of Hanalei Day Spa on Kauai, which has been in operation for nearly twenty years. Ms. Frankel has impressively earned seven hundred and fifty hours of education and training at the American Institute of Massage Therapy in Fort Lauderdale, Florida, where she began her career in massage therapy. Your Committee finds that Ms. Frankel has a thorough understanding of the role and responsibilities of board members and her extensive experience in massage therapy will continue to enhance the effectiveness of the Board of Massage Therapy. Your Committee therefore recommends that Darci Frankel be appointed to the Board of Massage Therapy based on her knowledge, background, and commitment to public service.

JAYCE ARAKAKI

Your Committee received testimony in support of the nomination for the appointment of Jayce Arakaki from the Board of Massage Therapy and one individual.

Upon review of the testimony, your Committee finds that Mr. Arakaki's background and dedication to serving the public qualify him to be appointed to the Board of Massage Therapy as a public member. Your Committee notes that Mr. Arakaki holds multiple academic degrees, including an Executive Master of Business Administration from the University of Texas and a Master of Arts in Communication from the University of Hawaii. Mr. Arakaki has over ten years of experience in the health care industry and currently works as a business manager at the Kapiolani Medical Center for Women and Children. Previously, Mr. Arakaki served as a Senior Analyst, specializing in revenue cycle management. Mr. Arakaki also has experience as an information technology specialist and technician, and computer lab assistant, which he gained while employed by the University of Hawaii's School of Nursing and Dental Hygiene. Your Committee further notes that Mr. Arakaki has served as an interim member of the Board of Massage Therapy since August 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore

recommends that Jayce Arakaki be appointed to the Board of Massage Therapy based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3260 Commerce and Consumer Protection on Gov. Msg. Nos. 506 and 507

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF PSYCHOLOGY

G.M. No. 506 JAMES SPIRA, for a term to expire 06-30-2026; and

G.M. No. 507 JUNE CHING, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by James Spira and June Ching for service on the Board of Psychology.

JAMES SPIRA

Your Committee received testimony in support of the nomination for the reappointment of James Spira from the Board of Psychology and four individuals.

Upon review of the testimony, your Committee finds that Dr. Spira's experience, knowledge, and proven leadership on the Board of Psychology qualify him for reappointment to the Board as a licensed psychologist member. Your Committee notes that Dr. Spira has nearly forty years of experience within the field of psychology in various capacities, has been a licensed psychologist in Hawaii since 2012, and currently serves as the Director of Pacific Behavioral Health. Dr. Spira has twenty-five years of experience with military and veteran behavioral health and previously served as the Director of the Pacific Island Division of the Department of Veterans Affairs' National Center for PTSD. Dr. Spira has also served as a professor for the Department of Psychology at the John A. Burns School of Medicine and as a subject matter expert in criminal cases. Your Committee further finds that Dr. Spira has also served as the President of the Hawaii Psychological Association and has been an active member in a number of other professional organizations throughout his career, and his experience and knowledge will continue to be assets to the Board of Psychology. Your Committee therefore recommends that James Spira be reappointed to the Board of Psychology based on his experience, knowledge, and commitment to public service.

JUNE CHING

Your Committee received testimony in support of the nomination for the appointment of June Ching from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Dr. Ching's background and dedication to serving the public qualify her to be appointed to the Board of Psychology as a licensed psychologist member. Your Committee notes that Dr. Ching has over forty years of experience in the field of psychology and has been a licensed psychologist in Hawaii since 1981. Dr. Ching currently works in private practice and as a psychological consultant for the Children's Justice Center and the Kid's First Program. Dr. Ching is certified by the American Board of Professional Psychology in Clinical Psychology and has specialized experience in the diagnostic assessment and treatment of a culturally diverse population of children, adults, couples, and families. Your Committee further notes that Dr. Ching is an active participant in her profession and has served as a member of various organizations, including the American Psychological Association and the National Register for Health Services Providers in Psychology. Your Committee finds that Dr. Ching has a thorough understanding of the role and responsibilities of board members and her extensive experience in psychology will continue to enhance the effectiveness of the Board of Psychology. Your Committee therefore recommends that June Ching be appointed to the Board of Psychology based on her knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3261 Commerce and Consumer Protection on Gov. Msg. Nos. 508, 509, and 510

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I BOARD OF VETERINARY MEDICINE

G.M. No. 508 NATHANIEL LAM, for a term to expire 06-30-2023;

G.M. No. 509 MARCELLA CHOCK, for a term to expire 06-30-2022; and

G.M. No. 510 MARCELLA CHOCK, for a term to expire 06-30-2026

Your Committee reviewed the personal histories, resumes, and statements submitted by Nathaniel Lam and Marcella Chock for service on the Hawai'i Board of Veterinary Medicine.

NATHANIEL LAM

Your Committee received testimony in support of the nomination for the appointment of Nathaniel Lam from the Hawai'i Board of Veterinary Medicine, Hawaiian Humane Society, and four individuals.

Upon review of the testimony, your Committee finds that Dr. Lam's experience, background, and commitment to public service qualify him for appointment to the Hawai'i Board of Veterinary Medicine as a licensed veterinarian member representing the City and County of Honolulu. Your Committee notes that Dr. Lam has been a licensed veterinarian in Hawai'i since 2013 and is currently the Chief of Surgery at VCA Oahu Veterinary Specialty Clinic. Dr. Lam has published numerous articles and is a frequent instructor for continuing education relating to the practice of veterinary medicine. Dr. Lam also serves as a consultant for various organizations, including the Honolulu Police Department, Hawaii Humane Society, and Oahu SPCA, and serves as a volunteer veterinarian for the Oahu Medical Reserve Corps and American Red Cross. Your Committee further notes that Dr. Lam has served as an interim member of the Hawai'i Board of Veterinary Medicine since October 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Nathaniel Lam be appointed to the Hawai'i Board of Veterinary Medicine based on his knowledge, experience, and commitment to public service.

MARCELLA CHOCK

Your Committee received testimony in support of the nomination for the appointment and reappointment of Marcella Chock from the Hawai'i Board of Veterinary Medicine and one individual.

Upon review of the testimony, your Committee finds that Dr. Chock's professional experience, background, and desire to serve her community qualify her for consideration for appointment and reappointment to the Hawai'i Board of Veterinary Medicine as a public member representing the City and County of Honolulu. Your Committee notes that Dr. Chock is a licensed pharmacist and has been employed by GlaxoSmithKline since 2015, where she serves as a medical service liaison with regard to vaccines. Prior to that, Dr. Chock worked for Ohana Health Plan where she was the State Director for Pharmacy Benefits. Your Committee further notes that Dr. Chock is an active member in the Hawai'i Pharmacists Association and has previously served on various boards in the State. Your Committee further finds that Dr. Chock has served as an interim member of the Hawai'i Board of Veterinary Medicine since October 2021 and her knowledge and experience will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Marcella Chock be appointed and reappointed to the Hawai'i Board of Veterinary Medicine based on her background, knowledge, and desire to contribute to the community.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3262 Commerce and Consumer Protection on Gov. Msg. Nos. 512 and 513

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF BARBERING AND COSMETOLOGY

G.M. No. 512 LESLIE MURATA, for a term to expire 06-30-2025; and

G.M. No. 513 JAMIE YAP, for a term to expire 06-30-2024

Your Committee reviewed the personal histories, resumes, and statements submitted by Leslie Murata and Jamie Yap for service on the State Board of Barbering and Cosmetology.

LESLIE MURATA

Your Committee received testimony in support of the nomination for the reappointment of Leslie Murata from the State Board of Barbering and Cosmetology and two individuals.

Upon review of the testimony, your Committee finds that Mr. Murata's experience, knowledge, and proven leadership on the State Board of Barbering and Cosmetology qualify him for reappointment to the Board as a public member. Your Committee notes that Mr. Murata worked for the United States Postal Service for nearly thirty years before retiring in 2014 and has dedicated much of his life to community service. Mr. Murata served as a volunteer Board Vice-President for Operations for the Hawaii Youth Symphony for twenty-eight years and continues to volunteer as a coordinator at Hulu Makua Senior Day Care. Mr. Murata has also served in leadership roles for various community organizations, including the Parent Teacher Student Association at Haleiwa Elementary School, and Band President and Chairperson of the School Community Base Management at Waiialua High School. Your Committee further finds that Mr. Murata has served on the State Board of Barbering and Cosmetology since December 2020, and his experience and knowledge will continue to be assets to the Board. Your Committee therefore recommends that Leslie Murata be reappointed to the State Board of Barbering and Cosmetology based on his experience, knowledge, and commitment to public service.

JAMIE YAP

Your Committee received testimony in support of the nomination for the appointment of Jamie Yap from the State Board of Barbering and Cosmetology; Lehiwa Designs, LLC; and one individual.

Upon review of the testimony, your Committee finds that Mr. Yap's experience, background, and commitment to public service qualify him for appointment to the State Board of Barbering and Cosmetology as a public member. Your Committee notes that Mr. Yap has over forty years of experience as an educator and youth coach and currently serves as the Interim Principal of Maui High School and Superintendent of the Baldwin-Kekaulike-Maui Complex Area. Prior to that, Mr. Yap served at the Maui Waena Intermediate School for twenty-seven years in various capacities, including serving as the Principal, Vice Principal, and a physical

education teacher. Mr. Yap also gained experience and knowledge about the rules and regulations regarding the cosmetology industry when his wife established a day spa in 2014. Your Committee further notes that Mr. Yap has served as an interim member of the State Board of Barbering and Cosmetology since August 2021 and has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Jamie Yap be appointed to the State Board of Barbering and Cosmetology based on his knowledge, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3263 Commerce and Consumer Protection on Gov. Msg. Nos. 514 and 515

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF NURSING

G.M. No. 514 KAREN BOYER, for a term to expire 06-30-2026; and
G.M. No. 515 LUZVIMINDA MIGUEL, for a term to expire 06-30-2026

Your Committee reviewed the personal histories, resumes, and statements submitted by Karen Boyer and Luzviminda Miguel for service on the State Board of Nursing.

KAREN BOYER

Your Committee received testimony in support of the nomination for the reappointment of Karen Boyer from the State Board of Nursing, Kapiolani Community College, and two individuals.

Upon review of the testimony, your Committee finds that Ms. Boyer's experience, knowledge, and proven leadership on the State Board of Nursing qualify her for reappointment to the Board as a licensed registered nurse representing the City and County of Honolulu. Your Committee notes that Ms. Boyer has nearly forty years of experience as a professional nurse and has been licensed as a registered nurse in Hawaii since 1990. Ms. Boyer presently serves as the Director of the ADN Program at the University of Hawaii, Kapiolani Community College, where she has also served as a faculty member, Interim Dean for Health Academic Programs, and Department Chairperson. Prior to that, Ms. Boyer worked as a nursing instructor for The Queen's Medical Center and a Women's Health Nurse Practitioner for Waimanalo Health Center. Your Committee further finds that Ms. Boyer is an active participant in a number of professional organizations, including the National League for Nursing, American Organization of Nurse Leaders, and the American Organization of Nurse Leaders. Ms. Boyer has served on the State Board of Nursing since 2018 and her experience and knowledge will continue to be assets to the Board. Your Committee therefore recommends that Karen Boyer be reappointed to the State Board of Nursing based on her experience, knowledge, and commitment to public service.

LUZVIMINDA MIGUEL

Your Committee received testimony in support of the nomination for the appointment of Luzviminda Miguel from the Department of Commerce and Consumer Affairs, Hawaii Community College, Hilo Medical Center, and four individuals.

Upon review of the testimony, your Committee finds that Dr. Miguel's background and dedication to serving the public qualify her to be appointed to the State Board of Nursing as a licensed nurse member representing Hawaii County. Your Committee notes that Dr. Miguel has been a licensed nurse in Hawaii since 2003 and earned her Doctor of Nursing Practice from the University of Hawaii at Manoa. Dr. Miguel is currently an assistant professor and the Department Chair of Nursing and Allied Health at the University of Hawaii, Hawaii Community College. Dr. Miguel has extensive experience serving on various national and local councils and professional organization boards, including the National Advisory Council on Nurse Education and Practice, Nurses on Boards Coalition, Hawaii State Center for Nursing, and the International Academic Nursing Alliance. Your Committee finds that Dr. Miguel has a thorough understanding of the role and responsibilities of board members and her extensive experience in the field of nursing will continue to enhance the effectiveness of the State Board of Nursing. Your Committee therefore recommends that Luzviminda Miguel be appointed to the State Board of Nursing based on her knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3264 Commerce and Consumer Protection on Gov. Msg. Nos. 516 and 517

Recommending that the Senate advise and consent to the nominations of the following:

STATE BOARD OF PUBLIC ACCOUNTANCY

G.M. No. 516 ZACHARY JOHNSON, for a term to expire 06-30-2025; and
G.M. No. 517 ALEXANDER SMITH, for a term to expire 06-30-2025

Your Committee reviewed the personal histories, resumes, and statements submitted by Zachary Johnson and Alexander Smith for service on the State Board of Public Accountancy.

ZACHARY JOHNSON

Your Committee received testimony in support of the nomination for the appointment of Zachary Johnson from the Department of Commerce and Consumer Affairs and three individuals.

Upon review of the testimony, your Committee finds that Mr. Johnson's background and dedication to serving the public qualify him to be appointed to the State Board of Public Accountancy as a licensee member. Your Committee notes that Mr. Johnson has five years of experience in accounting and has been a licensed certified public accountant in both Hawaii and Nevada since 2021. Mr. Johnson double majored in accounting and business management, graduating summa cum laude. While at Brigham Young University in Hawaii, Mr. Johnson finished second place in the University Accounting Case Competition and served as the Accounting Society Vice President. Mr. Johnson is currently the Chief Financial Officer of Koolauloa Health Center, a Not-for-Profit Federally Qualified Health Center. Prior to that, Mr. Johnson served as a Staff Accountant with BD & Associates and was an Accounting Clerk for Koolauloa Health Center while he was a college student. Your Committee finds that Mr. Johnson has a thorough understanding of the role and responsibilities of board members and his unique perspective will enhance the effectiveness of the State Board of Public Accountancy. Your Committee therefore recommends that Zachary Johnson be appointed to the State Board of Public Accountancy based on his knowledge, background, and dedication to public service.

ALEXANDER SMITH

Your Committee received testimony in support of the nomination for the appointment of Alexander Smith from the Department of Commerce and Consumer Affairs, Hawaii Habitat for Humanity Association, and three individuals.

Upon review of the testimony, your Committee finds that Mr. Smith's experience and commitment to serving the public qualify him to be appointed to the State Board of Public Accountancy as a licensee member. Your Committee notes that Mr. Smith has been a licensed certified public accountant since 1991 and has over thirty years of professional audit experience. Mr. Smith is currently in private practice, specializing in accounting for not-for-profit entities and government uniform compliance audits. Previously, Mr. Smith worked with Deloitte & Touche, was the Director of Audit Operations for Honda, and has worked with many nonprofit and for-profit organizations across the State. Your Committee further notes that Mr. Smith holds several memberships in professional organizations, including the American Institute of Certified Public Accountants, Hawaii Society of Certified Public Accountants, and the Hawaii Association of Public Accountants. Your Committee finds that Mr. Smith has a thorough understanding of the role and responsibilities of board members and his extensive experience in accounting will continue to enhance the effectiveness of the State Board of Public Accountancy. Your Committee therefore recommends that Alexander Smith be appointed to the State Board of Public Accountancy based on his background, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3265 Commerce and Consumer Protection on Gov. Msg. Nos. 627 and 628

Recommending that the Senate advise and consent to the nominations of the following:

HAWAI'I BOARD OF OPTOMETRY

G.M. No. 627 GAYLE CHANG, for a term to expire 06-30-2025; and

G.M. No. 628 KENNETH CHIN, for a term to expire 06-30-2026

Your Committee reviewed the personal histories, resumes, and statements submitted by Gayle Chang and Kenneth Chin for service on the Hawai'i Board of Optometry.

GAYLE CHANG

Your Committee received testimony in support of the nomination for the appointment of Gayle Chang from the Hawai'i Board of Optometry and four individuals.

Upon review of the testimony, your Committee finds that Ms. Chang's experience, background, and commitment to public service qualify her for appointment to the Hawai'i Board of Optometry as a public member. Your Committee finds that Ms. Chang has been a dental hygienist since 1975, is currently in private practice, and also serves at Healthcare Compliance Systems and as a consultant for OSHA training at dental offices. Your Committee also notes that Ms. Chang is a dedicated public servant and is an active participant in a number of professional organizations, including the Hawai'i Dental Hygienists Association and an examiner for Central Regional Dental Testing Services. Your Committee further finds that Ms. Chang previously served on the Hawai'i Board of Optometry for eight years as a public member and also has prior experience on the Board of Dentistry. Accordingly, Ms. Chang has a thorough understanding of the roles and responsibilities of its members. Your Committee therefore recommends that Gayle Chang be appointed to the Hawai'i Board of Optometry based on her background, experience, and commitment to public service.

KENNETH CHIN

Your Committee received testimony in support of the nomination for the reappointment of Kenneth Chin from the Hawai'i Board of Optometry and two individuals.

Upon review of the testimony, your Committee finds that Dr. Chin's experience, knowledge, and proven leadership on the Hawai'i Board of Optometry qualify him for reappointment to the Board as a licensed optometrist member. Your Committee finds that Dr. Chin has been a licensed optometrist in Hawai'i since 1990 and is currently in private practice. Your Committee also notes that Dr. Chin is an active participant in his profession and previously served as President of the Hawai'i Optometric Association. Dr. Chin has been

serving on the Hawai'i Board of Optometry since 2018 and currently serves as the Board's Vice Chair. Your Committee further finds that Dr. Chin's experience and knowledge will continue to be assets to the Hawai'i Board of Optometry. Your Committee therefore recommends that Kenneth Chin be reappointed to the Hawai'i Board of Optometry based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3266 Commerce and Consumer Protection on H.B. No. 2243

The purpose and intent of this measure is to:

- (1) Require buildings and structures to be maintained in a safe and sanitary condition;
- (2) Require devices and safeguards to be maintained in conformance with county building codes;
- (3) Require condominium associations or their designated agents to be responsible for the maintenance of the buildings and structures; and
- (4) Authorize county building officials to require a building or structure to be reinspected.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council, Community Associations Institute, Hawaii Council of Community Associations, Associa, Palehua Townhouse Association, Kokua Council, Hui 'Oia'i'o, and two individuals. Your Committee received comments on this measure from three individuals.

Your Committee finds that the recent, tragic collapse of a condominium building in Florida has heightened the concerns of many who reside in condominiums in the State, especially due to the age and maintenance requirements of many Hawai'i properties. Your Committee further finds, however, that the State's existing laws are vastly different from Florida's laws in that Hawai'i law requires reserve studies and vests in the board of directors the duty and authority to maintain the project, whereas Florida law first requires homeowner approval, which could delay necessary repairs. Accordingly, amendments to this measure are necessary to conform the measure to existing laws while continuing to advance safety and other protections.

Your Committee has amended this measure by:

- (1) Clarifying that, with respect to the upkeep of condominiums, the board of directors shall be responsible for the operation of the property, as defined by section 514B-3, Hawaii Revised Statutes, which shall include the administration, fiscal management, and physical operation of the property inclusive of the maintenance, repair, and replacement or construction of additions and improvements to the common elements, and to maintain the project in accordance with the requirements of the reserve study and any state or county requirements applicable to the project; and
- (2) Inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2243, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2243, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3267 Commerce and Consumer Protection on H.B. No. 2076

The purpose and intent of this measure is to:

- (1) Provide a mechanism to assign nonparticipating tobacco manufacturer's qualified escrow fund balances to the State; and
- (2) Provide a mechanism for the financial institution acting as the escrow agent of the qualified escrow fund to petition the courts to authorize transfer of funds to the State when the qualified escrow fund is abandoned.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that, in 1998, Hawaii and forty-five other states joined in a Master Settlement Agreement (MSA) with four of the largest tobacco manufacturers to settle long-running smoking-related claims. Pursuant to the terms of the MSA, the tobacco companies provide annual payments to the signing states through deposits into qualified escrow accounts based on their cigarette sales in each state. However, existing state law is silent as to how an account is to be closed when a tobacco product manufacturer decides to no longer do business in the State, or if an escrow account is subsequently abandoned. This measure is based on similar laws adopted in other states to provide appropriate mechanisms to accept an assignment of the interest in the escrow accounts, allow the closure of abandoned escrow accounts in a more timely manner, and thereby support tobacco prevention and control efforts.

Your Committee has amended this measure by:

- (1) Making this measure effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2076, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2076, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3268 Transportation on H.B. No. 1403

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation, in collaboration with the County of Hawaii, to conduct site surveys on the island of Hawaii to identify the most suitable location for an alternate route in Puna below Highway 130 while excluding lands under the jurisdiction of the Department of Hawaiian Home Lands from site surveys; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, County of Hawai'i Office of the Mayor, Ulupono Initiative, Keaukaha Pana'ewa Farmers Association, Friends of Puna's Future, one member of the Hawai'i County Council, and thirteen individuals. Your Committee received comments on this measure from the Department of Transportation, Department of Budget and Finance, and two individuals.

Your Committee finds that Puna is one of the fastest growing areas in the State. By 2035, the Puna district is projected to grow by approximately forty-two thousand residents. Because Hilo is the primary employment center of the region, average traffic volumes on Highway 130 especially will only grow worse. Trips from Hilo to the southernmost portion of Puna would take up to two hours as estimated by the travel demand forecasting model. The purpose of this measure is to require the Department of Transportation, in collaboration with the County of Hawaii, to conduct site surveys on the island of Hawaii to identify the most suitable location for an alternate route in Puna below Highway 130.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1403, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3269 Transportation on H.B. No. 1414

The purpose and intent of this measure is to hold a person who is the registered owner of a vehicle that was deemed abandoned or derelict liable and subject to a tiered fine schedule.

Your Committee received testimony in support of this measure from the County of Maui Department of Environmental Management, County of Hawai'i Department of Environmental Management, Hawaii Council of Mayors, Hawai'i State Association of Counties, one member of the Hawai'i County Council, one member of the Maui County Council, Maui Metropolitan Planning Organization, Friends of Puna's Future, and ten individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that abandoned vehicles are eyesores, reduce the availability of legal parking, cost the State a large amount of money, and are environmental hazards. Your Committee further finds that some people are in possession of more than one abandoned vehicle or are repeat offenders. This measure seeks to hold these persons liable and subject to a tiered fine schedule.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3270 Transportation on H.B. No. 1411

The purpose and intent of this measure is to:

- (1) Require that the transferee's and the transferor's address be provided on the certificate of ownership when the title to a motor vehicle is transferred;
- (2) Clarify that the signature of the transferee and signature of the transferor each serve as an attestation by that respective party as to the validity of the information on the certificate of ownership; and
- (3) Impose a fine on a party who provides false or fraudulent information.

Your Committee received testimony in support of this measure from the County of Kaua'i Department of Finance, County of Maui Department of Environmental Management, County of Hawai'i Department of Environmental Management, Hawaii Council of Mayors, one member of the Hawai'i County Council, one member of the Maui County Council, Maui Metropolitan Planning Organization, Friends of Puna's Future, and thirteen individuals.

Your Committee finds that more than eight thousand vehicles are abandoned in Hawaii every year. These abandoned vehicles are an eyesore in communities and harmful to the environment while also being a financial burden. This measure seeks to create systems to more accurately and efficiently track motor vehicle ownership and impose fines on those who abandon vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1411, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3271 Transportation on H.B. No. 2180

The purpose and intent of this measure is to repeal sections 266-2.3 and 266-22, Hawaii Revised Statutes, for the purpose of deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that section 266-2.3, Hawaii Revised Statutes, relates to authority of Kewalo Harbor which is no longer under the purview of the Department of Transportation. Section 266-22, Hawaii Revised Statutes, relates to the Honolulu Harbor fireboat which is no longer in service. For these reasons, the purpose of this measure is to repeal both sections.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2180, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3272 (Majority) Transportation on H.B. No. 2434

The purpose and intent of this measure is to require each water carrier to file a strategic plan with the Public Utilities Committee every five years.

Your Committee received testimony in support of this measure from the Department of Agriculture and Ulupono Initiative. Your Committee received comments on this measure from the Public Utilities Commission and Young Brothers, LLC.

Your Committee finds that increased transparency and accountability would be a positive change for water carriers. Setting measurable goals and initiatives will further focus their actions. This measure requires each water carrier to file a strategic plan with the Public Utilities Committee every five years.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2434, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 3273 Agriculture and Environment on H.B. No. 1499

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to partner with a Hawaii entity to establish a pilot United States Department of Agriculture (USDA) Harmonized Good Agricultural Practices (GAP) food safety training and certification program to help small and medium-sized farms obtain the USDA Harmonized GAP certification; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; County of Hawai'i Research and Development; Ulupono Initiative; Hawaii Food Industry Association; Hawai'i Farm Bureau; North Shore Economic Vitality Partnership; Hawaii Cattlemen's Council, Inc.; Restore the Commons; MetroGrow Hawaii; Mahiku A'o Mai Food Security Services; Hawaii Fish Company; and seven individuals. Your Committee received comments on this measure from Department of Budget and Finance.

Your Committee finds that Hawaii relies heavily on imported food to meet the needs of its residents and visitors. Increasing the amount of food produced locally in Hawaii would contribute to the State's self-sufficiency and produce significant economic benefits. However, complying with Food and Drug Administration regulations is often a barrier to food production for small farming enterprises, which do not possess the resources to obtain the required food safety certification. This measure assists small and medium farms in obtaining certification by requiring the Department of Agriculture to establish a food safety training and certification pilot program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1499, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3274 (Majority) Agriculture and Environment on H.B. No. 1644

The purpose and intent of this measure is to ban the manufacture, sale, and distribution for sale or use of certain packaging materials that contain perfluoroalkyl and polyfluoroalkyl substances.

Your Committee received testimony in support of this measure from Hawai'i Reef and Ocean Coalition, Environmental Caucus of the Democratic Party of Hawai'i, Chamber of Sustainable Commerce, Recycle Hawaii, Volcano Precious Plastic, Restore the Commons, Zero Waste Hawaii Island, Surfrider Foundation, Mahiku A'o Mai Food Security Services, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health, Retail Merchants of Hawaii, Par Hawaii, Island Energy, and American Chemistry Council.

Your Committee finds that perfluoroalkyl and polyfluoroalkyl substances pose a threat to human health and the environment. Perfluoroalkyl and polyfluoroalkyl substances are commonly found in food packaging, further increasing the risk to human health. This measure protects human health and the environment in Hawaii by implementing a ban on packaging that contains perfluoroalkyl and polyfluoroalkyl substances.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1644, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 3275 Agriculture and Environment on H.B. No. 1712

The purpose and intent of this measure is to prohibit waste disposal facilities on important agricultural lands and lands with class A and B productivity ratings.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Larry Jeffs Farms, LLC; Mahiku A'o Mai Food Security Services; Restore the Commons; and Hawaii Crop Improvement Association. Your Committee received testimony in opposition to this measure from the Department of Public Works of the County of Kaua'i, Department of Environmental Services of the City and County of Honolulu, and one individual. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that Hawaii has limited land available for agriculture. Consequently, it is essential for the State to protect existing agricultural lands and lands that are suitable for agricultural use. This measure prohibits the use of important agricultural lands and agricultural lands with class A and B productivity ratings for waste disposal, thereby preserving Hawaii's agricultural lands.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1712, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3276 Agriculture and Environment on H.B. No. 1714

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the mitigation and control of the two-lined spittlebug, recovery of rangeland and pastures damaged by the two-lined spittlebug, and research to monitor the status of the two-lined spittlebug.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Ulupono Initiative; Hawai'i Farm Bureau; Local Food Coalition; Hawai'i Forest Industry Association; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; McCandless Ranch; Ponoholo Ranch Limited; Larry Jeffs Farms, LLC; Parker Ranch, Inc.; Ulupalakua Ranch; and eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the two-lined spittlebug is an invasive insect that attacks and destroys important grasses essential to the livestock ranching industry. Given the high productivity of the State's livestock ranching industry and the central role it plays in Hawaii's economy, it is necessary to combat the establishment and spread of the two-lined spittlebug in the State. This measure appropriates funds to the Department of Agriculture to combat the threats posed by the two-lined spittlebug.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1714, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3277 Agriculture and Environment on H.B. No. 1810

The purpose and intent of this measure is to:

- (1) Define what constitutes quorum for the Environmental Advisory Council; and
- (2) Specify the number of votes required for any action of the Environmental Advisory Council to be valid.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and Environmental Advisory Council.

Your Committee finds that transparency and procedural clarity are essential for the functioning of the State's institutions. Currently, the Environmental Advisory Council lacks a clear mechanism through which to render decisions. Accordingly, this measure defines what constitutes a quorum for the Environmental Advisory Council and specifies that a majority of all members must concur for the Council to take any action.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1810, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3278 Agriculture and Environment on H.B. No. 2061

The purpose and intent of this measure is to add new sources of revenue generated by the State Veterinary Laboratory and Animal Disease Control Branch to fund the Animal Industry Special Fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the State Veterinary Laboratory and Animal Disease Control Branch functions as an important regulatory body for Hawaii's crucial livestock industry. Importantly, the Branch charges fees for diagnostic and surveillance services, which can serve as a source of revenue for the Animal Industry Special Fund. This measure adds fee-based revenues from the State Veterinary Laboratory and Animal Disease Control Branch as a source of funding for the Animal Industry Special Fund.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2061, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3279 Agriculture and Environment on H.B. No. 2062

The purpose and intent of this measure is to:

- (1) Establish the Agricultural Emergency Loan Revolving Fund to be administered by the Department of Agriculture to fund class D emergency loans;
- (2) Provide a separate source of funding for emergency agricultural loans; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Floriculture and Nursery Association; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the economic and financial strain caused by the coronavirus disease 2019 pandemic has demonstrated the need for emergency loans for farmers in the State. In 2020, the Department of Agriculture implemented an emergency loan program to meet that need. However, the program lacks a dedicated funding source. This measure establishes the Agricultural Emergency Loan Revolving Fund to provide a dedicated source of funding for the emergency loan program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2062, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3280 (Majority) Agriculture and Environment on H.B. No. 2280

The purpose and intent of this measure is to prohibit planned community associations from unreasonably restricting the use of a member's enclosed yard area for personal agriculture.

Your Committee received testimony in support of this measure from Mahiku A'o Mai Food Security Services. Your Committee received testimony in opposition to this measure from Associa; Law Offices of Philip S. Nerney, LLC; and Community Associations Institute Legislative Action Committee.

Your Committee finds that agriculture, including personal agriculture, is highly valued in Hawaii. Many individuals and families in the State rely on personal agricultural crops to supplement purchases of food. The ability to grow crops allows those individuals and families to achieve greater food security and promotes healthier lifestyles. However, some community associations unnecessarily restrict their members' ability to grow crops on private property. This measure prohibits community associations from unreasonably restricting their members from engaging in personal agricultural production in enclosed yard areas.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2280, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 3281 Agriculture and Environment on H.B. No. 2307

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to provide education and support to local businesses regarding the Food and Drug Administration's industry guidance on colored sea salt.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Food Industry Association, and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the demand for Hawaii-made sea salts and sea salt products is increasing. Many such salts and salt products contain color additives that may require approval through the Food and Drug Administration's color additive petition process. However, not all producers have the resources or information necessary to obtain approval from the Food and Drug Administration. This measure helps producers obtain approval by appropriating funds for the Department of Agriculture to educate and support local businesses regarding the approval process.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2307, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3282 Agriculture and Environment on H.B. No. 2418

The purpose and intent of this measure is to:

- (1) Amend the focus, scope, and management of the Agribusiness Development Corporation;
- (2) Appropriate funds to the Agribusiness Development Corporation for a consultant and account and for security on Agribusiness Development Corporation property; and
- (3) Repeal the requirement that all agricultural projects, development plans, and facility programs developed by the Agribusiness Development Corporation be approved by the Board of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawai'i Alliance for Progressive Action, Hawai'i Seed, Hawai'i Farm Bureau, Kauai Women's Caucus, Pesticide Action Network, Restore the Commons, Lapa'au Farm LLC, Free Access Coalition, and twenty-four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawai'i Food+ Policy.

Your Committee finds that the Agribusiness Development Corporation plays a crucial role in the development and expansion of Hawaii's agricultural industry. With the State's goal of achieving increased food self-sufficiency, the Agribusiness Development Corporation is more important than ever. However, it is essential that the Agribusiness Development Corporation's focus align with the State's local food production objectives. This measure revises the Agribusiness Development Corporation's focus and removes certain requirements for the Corporation to obtain Board of Agriculture approval. This measure also provides appropriations to allow the Agribusiness Development Corporation to retain services for consulting, accounting, and security.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2418, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3283 Agriculture and Environment on H.B. No. 2466

The purpose and intent of this measure is to exempt the gross proceeds or income received from the sale of any product resulting from the cultivation and production of unprocessed taro in the State from the general excise tax.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Hawaiian Affairs, Hawai'i Farm Bureau, Mahiku A'o Mai Food Security Services, Hawai'i Alliance for Progressive Action, Restore the Commons, Hawai'i Food+ Policy Internship, Ko'olaupoko Hawaiian Civic Club, and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Taxation. Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii imports a significant portion of the food consumed within the State. While the State has taken steps to increase the production of food in Hawaii, staple starches remain underproduced in the State. Your Committee believes that taro can help to fill that critical gap in Hawaii's local food production. This measure supports the expansion of local taro production by exempting unprocessed taro from the general excise tax.

Your Committee has amended this measure by:

- (1) Removing a requirement that taro must be produced and cultivated in the State to qualify for the exemption;
- (2) Excluding bulk buyers or shippers, supermarkets, and big box stores from the exemption; and
- (3) Defining "primary ingredient".

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2466, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2466, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3284 (Joint) Higher Education and Education on H.B. No. 1848

The purpose and intent of this measure is to establish freedom of speech and freedom of the press protections for student journalists producing school-sponsored media or university-sponsored media unless subject to certain exceptions.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Publishers Association, Student Press Law Center, and six individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that high school students involved in journalism programs learn to think critically, research topics, conduct interviews, write clearly for an audience, and work together as a team. In institutions with strong journalism programs, students also learn how a free and responsible press can improve their school communities by informing, entertaining, and influencing their audience. However, some student journalists experience difficulties in which principals or other school administrators may censor their work on the basis that it includes inflammatory content. While stories may not be libelous in nature, students may be dissuaded from pursuing lines of inquiry for stories out of fear the publication may not be approved. To allow students to learn and engage in the field of journalism, while also providing protections under the First Amendment of the United States Constitution, this measure establishes freedom of speech and freedom of press protections for Hawaii's students in schools and universities.

Your Committees have amended this measure by:

- (1) Clarifying that no state agency, school, university, board, or employee shall be held liable for the expression of material by student journalists under the First Amendment of the United States Constitution in addition to state law; and
- (2) Making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1848, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1848, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Wakai).
Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3285 Human Services on H.B. No. 1797

The purpose and intent of this measure is to establish within the Department of Human Services a three-year Medical Respite Pilot Program overseen by the Governor's Coordinator on Homelessness to provide outpatient health care and supportive services to homeless persons recently discharged from the hospital and non-hospitalized homeless persons who are being moved out of unauthorized spaces by the police.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association and one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that many homeless persons who have been discharged from hospitals require extended inpatient stays or experience repeat hospitalizations due to lack of access to a clean and safe place in which to recover. Your Committee believes that this measure will provide such individuals with a coordinated program of care, including medical care, housing assistance, and supportive services, to improve their quality of life and standard of care thereby reducing the number of extended inpatient stays or repeat hospitalizations.

Your Committee notes the testimony of the Department of Human Services suggesting the utilization of existing Medicaid benefits to provide outpatient health care and supportive services under the Medical Respite Pilot Program, which would provide more sustainable funding.

Accordingly, your Committee has amended this measure by:

- (1) Allowing the Governor's Coordinator on Homelessness to enter into contracts for the provision of outpatient health care and supportive services in compliance with the federal Centers for Medicare and Medicaid Services' guidance for a waiver under section 1115 of the Social Security Act, also known as a Medicaid Section 1115 Waiver, to allow the cost of such services to be reimbursed by existing Medicaid benefits; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1797, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1797, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3286 Human Services on H.B. No. 1932

The purpose and intent of this measure is to:

- (1) Require the Child Welfare Services Branch of the Department of Human Services to establish a pilot program to develop a modern case management software solution compatible with existing child welfare technology; and
- (2) Appropriate funds for this purpose.

Your Committee received testimony in support of this measure from Binti, Inc. Your Committee received comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committee finds that the number of children in Hawaii's foster care system has been increasing substantially, resulting in caseworkers being overwhelmed by the surging caseloads. This leads to fewer in-person visits to children and families, decreased child and family involvement in case planning, less support for families, and more opportunities for children and families to fall through the cracks. This measure will allow caseworkers to more effectively manage their caseloads to meet the growing number of children in foster care, ensure that Hawaii can meet the national standard for monthly visits, improve case planning, and strengthen child and family involvement to improve mental and behavioral health outcomes for youth and the health needs for children.

Your Committee notes the testimony of the Department of Human Services that a pilot program is not necessary as the department is currently developing and implementing a new Comprehensive Child Welfare Information System.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Child Welfare Services Branch of the Department of Human Services to develop a modern case management software solution that is compatible with existing child welfare technology without a pilot program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1932, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1932, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3287 Human Services on H.B. No. 2141

The purpose and intent of this measure is to remove outdated or obsolete reporting requirements of the Department of Human Services and its Office of Youth Services.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that existing law imposes certain reporting requirements on various state agencies that have not been updated for some time. Your Committee further finds that certain reporting requirements for the Department of Human Services relating to psychotropic medications and federal financial assistance and health care programs, and for certain programs overseen by its Office of Youth Services, are obsolete and no longer necessary. This measure will clarify the law and reduce confusion by removing these unnecessary reporting requirements.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2141, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2141, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3288 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 892

The purpose and intent of this measure is to:

- (1) Clarify the membership requirements for the Law Enforcement Standards Board to facilitate participation and representation;
- (2) Require the Law Enforcement Standards Board to consider studies relevant to its objectives and conduct its own study to evaluate how to satisfy its duties;
- (3) Establish new deadlines for the completion of the Law Enforcement Standards Board's significant responsibilities; and
- (4) Appropriate funds to enable the Law Enforcement Standards Board to accomplish its mission.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of Taxation, Law Enforcement Standards Board, Honolulu Police Department, Hawai'i Police Department, and one individual. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and one individual. Your Committee received comments on this measure from the Department of Transportation and Department of Public Safety.

Your Committee finds that the Law Enforcement Standards Board has the important task of establishing the minimum standards for employment as a law enforcement officer in the State of Hawaii. Your Committee recognizes the need for the Law Enforcement

Standards Board to receive funding, employ staff, and be provided with additional time to meet its statutory requirements. This measure will greatly assist the Law Enforcement Standards Board by providing the resources and time it needs to accomplish its mission.

Your Committee has amended this measure by:

- (1) Extending the deadlines for the completion of the Law Enforcement Standards Board's significant responsibilities to June 30, 2024;
- (2) Inserting an appropriation amount of \$483,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 892, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 892, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3289 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1239

The purpose and intent of this measure is to enhance the public's trust in law enforcement and standardize best practices between the counties by:

- (1) Amending provisions pertaining to the Law Enforcement Officer Independent Review Board to:
 - (A) Require members to serve four-year terms; and
 - (B) Make the Board permanent; and
- (2) Amending the membership and powers of the Law Enforcement Standards Board and extending certain members' terms to four years.

Your Committee received testimony in support of this measure from the Law Enforcement Standards Board. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers. Your Committee received comments on this measure from the Department of the Attorney General, Department of Transportation, and American Civil Liberties Union of Hawai'i.

Your Committee finds that public trust in law enforcement is critical to ensuring justice for all under the law. Your Committee believes that the difficult and often dangerous job of law enforcement is safer, easier, and more effectively executed when citizens trust those empowered to serve and protect them. This measure will enhance the public's trust in law enforcement and standardize best practices between the counties by amending provisions pertaining to the Law Enforcement Officer Independent Review Board to require members to serve four-year terms and make the Board permanent.

Your Committee has amended this measure by:

- (1) Removing the provisions relating to the Law Enforcement Standards Board to allow those issues to be addressed via House Bill No. 892, H.D. 2 (2022);
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1239, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1239, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3290 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1891

The purpose and intent of this measure is to adopt the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Laws and one individual.

Your Committee finds that the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act has been enacted in California, Delaware, Minnesota, Nevada, North Dakota, Washington, and Wisconsin. The Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act is part of state, federal, and international efforts to recognize domestic-violence protection orders across jurisdictions. This measure will help Canadian visitors by allowing them to go to court in Hawaii to enforce a protective order rather than requiring them to return to Canada for that purpose.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1891, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3291 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1903

The purpose and intent of this measure is to require first responders to record in the incident report for each water rescue event the type of snorkel and mask, if any, worn by the person who was rescued or recovered.

Your Committee received testimony in support of this measure from twenty-nine individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that, according to the Hawaii Tourism Authority's snorkel safety study, which was conducted from August 2017 to April 2021, snorkeling is the most common activity associated with visitor drownings. Your Committee further finds that, due to a lack of evidence, it is difficult for researchers to determine whether the type of snorkel or mask worn increases the risk of drowning. Your Committee believes that recording standardized, empirical data about the type of snorkel and mask used, if any, will help demonstrate whether certain types of snorkels or masks lead to a higher risk of drowning. This measure will allow the State to make well-informed policy changes to decrease the number of snorkeling deaths in the State by requiring first responders to record in the incident report for each water rescue event the type of snorkel and mask, if any, worn by the person who was rescued or recovered.

Your Committee has amended this measure by:

- (1) Restoring language that was deleted by the House of Representatives designating the measure as the "David Loasby Law"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1903, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1903, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3292 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2171

The purpose and intent of this measure is to:

- (1) Establish a Department of Law Enforcement to consolidate and administer criminal law enforcement and investigations functions of the State;
- (2) Reestablish the Department of Public Safety as an independent Department of Corrections and Rehabilitation to administer the corrections, rehabilitation, and reentry of the inmate population;
- (3) Transfer the law enforcement functions of the Department of Public Safety, Department of Transportation, non-statutorily mandated functions of the Investigations Division of the Department of the Attorney General, and the Office of Homeland Security to the Department of Law Enforcement;
- (4) Establish a training center within the Department of Law Enforcement; and
- (5) Establish positions and appropriate funds for the Department of Law Enforcement and Department of Corrections and Rehabilitation.

Your Committee received testimony in support of this measure from the U.S. Department of Homeland Security Immigrations and Customs Enforcement-Homeland Security Investigations; Department of the Attorney General; Department of Public Safety; Department of Transportation; Hawaii Paroling Authority; Department of Defense; Department of Hawaiian Home Lands; Department of Public Safety, Sheriff Division; Hawaii Office of Homeland Security; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; and one hundred twelve individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Office of Information Practices; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that consolidating corrections and rehabilitation functions into a single, dedicated department improves the State's ability to meet the needs of inmates and pretrial detainees. Your Committee further finds that establishing a single chain of command for law enforcement responsibilities within a single state department enhances state law enforcement services. This measure will allow for the efficient use of resources in administering correctional programs and improve decision making, promote accountability, streamline communication, decrease costs, reduce duplication of efforts, provide uniform training and standards, and promote uniform standards of law enforcement services by reestablishing the Department of Public Safety as an independent Department of Corrections and Rehabilitation to administer the corrections, rehabilitation, and reentry of the inmate population and establishing a Department of Law Enforcement to consolidate and administer criminal law enforcement and investigations functions of the State.

Your Committee has heard the testimony of one individual expressing concerns that there is a lack of research to show the efficacy of this measure. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committees on Ways and Means and Judiciary further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2171, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3293 (Joint/Majority) Agriculture and Environment and Water and Land on H.B. No. 1705

The purpose and intent of this measure is to allow the Department of Agriculture to extend the agricultural park lease of any lessee who holds a lease with a remaining term of fifteen years or less, provided that the land covered by the lease is twenty-five acres or less and located in a county with a population of less than five hundred thousand.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau, Land Use Research Foundation of Hawaii, Panaewa Foliage, and one individual. Your Committees received testimony in opposition to this measure from the Department of Agriculture.

Your Committees find that the Department of Agriculture maintains agricultural parks to provide leases for eligible farmers in the State. The agricultural parks and those who farm them are essential to the State's goal of increasing local food production and food security. Despite producing valuable food crops, some leases of agricultural park lands are set to expire. This measure allows lessees of certain agricultural park lands to renew their leases and continue their contributions to the State's food production.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1705, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4; Ayes with Reservations (Acasio, Rhoads). Noes, 1 (Fevella). Excused, none.
Water and Land: Ayes, 4; Ayes with Reservations (Misalucha, Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 3294 (Joint) Agriculture and Environment and Water and Land on H.B. No. 1721

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources and Department of Agriculture to collaborate on feral animal management; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii State Aha Moku; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Maui County Farm Bureau; Hawai'i Forest Industry Association; Maui Chamber of Commerce; Rescue Of Animal Rights; and three individuals. Your Committees received comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committees find that overpopulation of feral animals in Hawaii threatens the State's environment, agricultural production, and health. Proactively addressing the threat of feral animal overpopulation will save the State resources over the long-term and prevent extensive damage. This measure requires and appropriates funds for the Department of Land and Natural Resources and Department of Agriculture to collaborate on feral animal management to find and implement proactive solutions to overpopulation.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1721, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 3295 (Joint) Agriculture and Environment and Water and Land on H.B. No. 1988

The purpose and intent of this measure is to:

- (1) Prohibit the sale, import, or export of certain coral products; and
- (2) Require the Department of Land and Natural Resources to amend its administrative rules accordingly no later than December 31, 2022.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Black Coral, and six individuals. Your Committees received testimony in opposition to this measure from For the Fishes, Conservation Council for Hawaii, Kai Palaoa, Moana Ohana, Sierra Club of Hawaii Moku Lua Group, Kalanihale, Friends of Hanauma Bay, Legacy Reef Foundation, Haereticus Environmental Laboratory, Hawaii Reef & Ocean Coalition, Fair Wind Charters, Ocean Defenders Alliance-Hawaii, and one individual. Your Committees received comments on this measure from the Center for Biological Diversity and Big Island Reef Keepers Hui.

Your Committees find that Hawaii's coral reefs are essential to the State's marine ecosystems and are home to many species found nowhere else in the world. However, the commercial use of coral from the reefs contributes to their decline and degradation. It is critical for the State to protect Hawaii's coral reefs as a source of marine biodiversity. This measure prohibits the sale, import, and export of certain coral products to preserve the health of Hawaii's coral reefs.

Your Committees have amended this measure by:

- (1) Prohibiting the harvesting of coral, except under certain conditions;
- (2) Restricting exemptions for state and federal permitted harvesting to non-commercial purposes;

- (3) Extending the deadline for the Department of Land and Natural Resources to amend its administrative rules to December 31, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1988, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1988, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 3296 Hawaiian Affairs on Gov. Msg. Nos. 578, 579, 580, and 581

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL, ISLAND OF OAHU

G.M. No. 578 LYNETTE CRUZ, for a term to expire 06-30-2023;

G.M. No. 579 BENJAMIN SHAFER, for a term to expire 06-30-2024;

G.M. No. 580 BRICKWOOD GALUTERIA, for a term to expire 06-30-2025; and

G.M. No. 581 CHARLES EHRHORN, for a term to expire 06-30-2023

Your Committee reviewed the personal histories, resumes, and statements submitted by Lynette Cruz, Benjamin Shafer, Brickwood Galuteria, and Charles Ehrhorn for service on the Island Burial Council for the Island of Oahu.

LYNETTE CRUZ

Your Committee received testimony in support of the nomination for the appointment of Lynette Cruz from the Department of Land and Natural Resources, Hawaii State Aha Moku Kakuhihewa, and three individuals.

Upon review of the testimony, your Committee finds that Ms. Cruz's knowledge and experience qualify her for appointment to the Island Burial Council for the Island of Oahu. Ms. Cruz has taught at various universities since 1988, and since 2015, has served as both a lecturer at Leeward Community College and President of Malama Maku and Hui Aloha Aina O Ka Lei Maile Alii. Ms. Cruz also volunteers at various places such as Iolani Palace and Kaniakapupu. She is currently serving as an interim appointee on the Council. Ms. Cruz's vast experience and knowledge of Hawaiian culture, experiences in the community, and her academic background in Pacific studies and anthropology make her a strong asset to the Council. Your Committee therefore recommends that Lynette Cruz be appointed to the Island Burial Council for the Island of Oahu based on her experience and proven knowledge.

BENJAMIN SHAFER

Your Committee received testimony in support of the nomination for the appointment of Benjamin Shafer from the Department of Land and Natural Resources, Hawaii State Aha Moku Kakuhihewa, and two individuals.

Upon review of the testimony, your Committee finds that Mr. Shafer's experience and diligence qualify him for appointment to the Island Burial Council for the Island of Oahu. Mr. Shafer has always been active in his community, from working on restoring the Huilua Fishpond to chairing the Kahana Planning Council and being a co-chair for the Kahana Advisory Board. Mr. Shafer also has experience serving on community associations and neighborhood boards and would walk door-to-door to deliver minutes for the Kahana Planning Council to ensure everyone in his community was informed. He is currently serving as an interim appointee on the Council. Mr. Shafer shows a level of dedication and leadership that will be an important asset to the Council. Your Committee therefore recommends that Benjamin Shafer be appointed to the Island Burial Council for the Island of Oahu based on his experience and diligence.

BRICKWOOD GALUTERIA

Your Committee received testimony in support of the nomination for the appointment of Brickwood Galuteria from the Department of Land and Natural Resources, Hawaii State Aha Moku Kakuhihewa, and four individuals.

Upon review of the testimony, your Committee finds that Senator Galuteria's knowledge, experience, and proven leadership qualifies him for appointment to the Island Burial Council for the Island of Oahu. Senator Galuteria served in the Hawaii State Senate from 2008 to 2018 and held positions as Senate Majority Leader, Senate Majority Caucus Leader, Chair of the Committee on Hawaiian Affairs, and member of the Committee on Ways and Means, among others. Senator Galuteria also founded Na Kupuna Makamae Center, and has been involved in numerous other public service projects relating to Hawaiian culture, including serving as a board member of the Hawaii Book and Music Festival, Polynesian Voyaging Society, and Bishop Museum Native Hawaiian Culture and Arts Program. Senator Galuteria is currently serving as an interim appointee on the Council. Due to his extensive experience working directly with the Hawaiian people from many angles, Senator Galuteria will be a strong asset to the Council. Your Committee therefore recommends that Brickwood Galuteria be appointed to the Island Burial Council for the Island of Oahu based on his experience, knowledge, and proven leadership skills.

CHARLES EHRHORN

Your Committee received testimony in support of the nomination for the appointment of Charles Ehrhorn from the Department of Land and Natural Resources and one individual.

Upon review of the testimony, your Committee finds that Mr. Ehrhorn's knowledge and experience qualify him for reappointment to the Island Burial Council for the Island of Oahu. Mr. Ehrhorn has a masters degree in regional planning and was a land planning coordinator and manager for Campbell Estate from 1993 to 2003, and since then has been a consultant for C&J Land Planning LLC. Furthermore, Mr. Ehrhorn has served on the Island Burial Council for the Island of Oahu in the past and currently serves as an interim appointee. Mr. Ehrhorn's background and work experience gives him a unique perspective and skill set that will be a great asset to the Council. Your Committee therefore recommends that Charles Ehrhorn be appointed to the Island Burial Council for the Island of Oahu based on his experience and knowledge.

As affirmed by the records of votes of the members of your Committee on Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3297 Hawaiian Affairs on Gov. Msg. No. 704

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF MAUI AND LANAI

G.M. No. 704 VERNON KALANIKAU, for a term to expire 06-30-2023

Your Committee reviewed the personal history, resume, and statement submitted by Vernon Kalanikau for service on the Island Burial Council for the Islands of Maui and Lanai.

Your Committee received testimony in support of the nomination for the appointment of Vernon Kalanikau from the Department of Land and Natural Resources, Hawaii State Aha Moku, and one individual.

Upon review of the testimony, your Committee finds that Mr. Kalanikau's background and experiences qualify him for appointment to the Island Burial Council for the Islands of Maui and Lanai. Mr. Kalanikau was born and raised on the island of Maui and learned the importance of Hawaiian culture and lineage from his parents and grandparents. For the past four years, Mr. Kalanikau has been participating in the process of determining the final treatment of native Hawaiian skeletal remains that have been discovered inadvertently. This experience as well as his background as a life-long Maui resident and dedication to his culture make him a great asset to the Council. Your Committee therefore recommends Vernon Kalanikau for appointment to the Island Burial Council for the Islands of Maui and Lanai based on his background and experience.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3298 Hawaiian Affairs on Gov. Msg. No. 703

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF KAUAI AND NIIHAU

G.M. No. 703 BRUCE ROBINSON, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Bruce Robinson for service on the Island Burial Council for the Islands of Kauai and Niihau.

Your Committee received testimony in support of the nomination for the appointment of Bruce Robinson from the Department of Land and Natural Resources and Hawaii State Aha Moku.

Upon review of the testimony, your Committee finds that Mr. Robinson's experience and knowledge qualify him for appointment to the Island Burial Council for the Islands of Kauai and Niihau. Mr. Robinson is one of the owners of the island of Niihau and has been the island manager for fifty-two years. Mr. Robinson is fluent in Niihau Hawaiian and is deeply invested in preserving Hawaiian culture and lineage. Mr. Robinson has previously served two terms on the Island Burial Council and his unique background and perspectives make him a unique and critical asset to the Council. Your Committee therefore recommends that Bruce Robinson be appointed to the Island Burial Council for the Islands of Kauai and Niihau based on his vast experience, knowledge, and dedication.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3299 Hawaiian Affairs on Gov. Msg. No. 702

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAII

G.M. No. 702 DESMON HAUMEA, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Desmon Haumea for service on the Island Burial Council for the Island of Hawaii.

Your Committee received testimony in support of the nomination for the reappointment of Desmon Haumea from the Department of Land and Natural Resources and Hawaii State Aha Moku.

Upon review of the testimony, your Committee finds that Mr. Haumea's knowledge and experience qualify him for reappointment to the Island Burial Council for the Island of Hawaii. Mr. Haumea is a Hilo resident who currently provides Hawaiian Studies education at both Mt. View Elementary and Waldorf Malamalama. Mr. Haumea is also a crew member of the Hokule'a and a member of the Royal Order of Kamehameha I. Mr. Haumea has served on the Burial Council since 2019 and was involved in the re-internment of iwi at Honokahua and Mokapu. Mr. Haumea is deeply connected to the Hawaiian lands and the breadth of his experiences from both the Burial Council and his education and other activities make him an important asset to the Council. Your Committee therefore recommends that Desmon Haumea be reappointed to the Island Burial Council for the Island of Hawaii based on his knowledge and experience.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3300 Hawaiian Affairs on Gov. Msg. No. 645

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLAND OF HAWAII

G.M. No. 645 TRAVEN APIKI, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Traven Apiki for service on the Island Burial Council for the Island of Hawaii.

Your Committee received testimony in support of the nomination for the appointment of Traven Apiki from the Department of Land and Natural Resources.

Upon review of the testimony, your Committee finds that Mr. Apiki's experience and background as a State Historic Preservation Division volunteer qualifies him for appointment on the Island Burial Council for the Island of Hawaii. Mr. Apiki currently assists staff on site visits for the State Historic Preservation Division and has done so since 2019. He additionally reviews and provides administrative assistance regarding legacy burial council documents and burial treatment plans. Mr. Apiki is currently employed as an Activity Coordinator for Pacific Discovery, a travel based education program. His skills with planning, development, and execution of activities will be an asset to the Council. Your Committee therefore recommends that Traven Apiki be appointed to the Island Burial Council for the Island of Hawaii based on his experience, background, and commitment to historic preservation.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3301 Hawaiian Affairs on Gov. Msg. No. 582

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL, ISLANDS OF KAUAI AND NIIHAU

G.M. No. 582 BARBARA SAY, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Barbara Say for service on the Island Burial Council for the Islands of Kauai and Niihau.

Your Committee received testimony in support of the nomination for the appointment of Barbara Say from the Department of Land and Natural Resources.

Upon review of the testimony, your Committee finds that Ms. Say's experience, knowledge, and dedication qualify her for appointment to the Island Burial Council for the Islands of Kauai and Niihau. Ms. Say was born in Hawaii and raised on Kauai. She raised her family in Hanalei where she spent her time interacting with the kupuna from Hanalei, forming a bond with the land and her lineage. Ms. Say went on to serve as one of the first burial council members and was one of a group of thirteen individuals that repatriated iwi kupuna from the Smithsonian Institute under the Native American Graves Protection and Repatriation Act. The level of dedication and understanding of responsibility that Ms. Say has demonstrated will make her a valuable asset to the Council. Your Committee therefore recommends that Barbara Say be appointed to the Island Burial Council for the Islands of Kauai and Niihau based on her knowledge, experience, and commitment.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3302 Hawaiian Affairs on Gov. Msg. No. 577

Recommending that the Senate advise and consent to the nomination of the following:

HAWAIIAN HOMES COMMISSION

G.M. No. 577 PAULINE NAMUO, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Pauline Namuo for service on the Hawaiian Homes Commission.

Your Committee received testimony in support of the nomination for the reappointment of Pauline Namuo from the Hawaii State Aha Moku; Department of Hawaiian Home Lands; Aukai Pacific, LLC; Waiohuli Hawaiian Homesteaders Association, Inc; and twelve individuals.

Upon review of the testimony, your Committee finds that Ms. Namuo's experience, knowledge, and proven leadership on the Hawaiian Homes Commission qualify her for reappointment to the Commission. Ms. Namuo has thirty-two years of experience in the Hawaii government, with twenty-four in the State Judiciary and eight in the Executive Branch. Furthermore, she has been a substitute teacher in the Department of Education since 2004. Ms. Namuo has served on the Hawaiian Homes Commission since 2018. Beyond these considerable qualifications, Ms. Namuo's varied governmental experiences include being the Deputy Director of Administration for the Department of Public Safety, Legislative Coordinator for the Office of the Governor, Administrator of the State Judiciary Division of Driver Education and Training, along with various other positions dealing with human resources, statistics, training, information technology, and legislative services. Ms. Namuo's decades of knowledge and experience regarding both the Commission and the state government as a whole make her a valuable asset to the Commission. Your Committee therefore recommends that Pauline Namuo be reappointed to the Hawaiian Homes Commission based on her experience, knowledge, and proven leadership.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3303 (Majority) Judiciary on H.B. No. 1456

The purpose and intent of this measure is to amend the offense of theft in the second degree to include theft of an electric gun regardless of its monetary value.

Your Committee received testimony in support of this measure from the Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that electric guns can cause severe pain and completely incapacitate a person and may be used to facilitate a multitude of crimes, including but not limited to robberies, assaults, sexual assaults, human trafficking, and domestic abuse. Your Committee believes that specifying that the theft of an electric gun, regardless of its value, is a higher degree of theft may have a long-term deterrent effect. Therefore, this measure will be a deterrence to potential criminals and create a safer environment for the community by amending the offense of theft in the second degree to include theft of an electric gun regardless of its monetary value.

Your Committee has amended this measure by:

- (1) Inserting an effective date of August 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1456, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1456, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 3304 Judiciary on H.B. No. 124

The purpose and intent of this measure is to:

- (1) Require the Chief Election Officer to develop and distribute a voter information guide for all candidates running for state office, including candidates running for any trustee position of the Office of Hawaiian Affairs; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from Common Cause Hawaii, League of Women Voters of Hawaii, and Community Alliance on Prisons. Your Committee received comments on this measure from the Department of Budget and Finance and Office of Elections.

Your Committee finds that all states make an effort to inform the electorate about upcoming elections, where and when the elections will be held, and how to cast a vote. Your Committee further finds that some states publish official voter guides. Your Committee believes that an informed electorate is an important component of a healthy democracy, and that the distribution of informational guides prepared by the Office of Elections, an apolitical entity, will help the electorate in making informed voting decisions.

Your Committee has amended this measure by:

- (1) Specifying that the Chief Election Officer shall develop and distribute a voter information guide for all candidates running for federal or state office;
- (2) Specifying that the voter information guide shall include a short statement of less than one hundred fifty words for each candidate running for office, to be prepared by the candidate and based on a template or criteria created by the Office of Elections;
- (3) Specifying that the Office of Elections shall provide a translation of the voter information guide in Olelo Hawaii;
- (4) Removing the appropriation;
- (5) Making it effective upon its approval, making it applicable to the 2024 election, and sunseting it on November 6, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 124, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 124, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3305 Judiciary on H.B. No. 1828

The purpose and intent of this measure is to:

- (1) Amend the membership, composition, compensation, and duties of the Taxation Board of Review;
- (2) Amend quorum requirements of the Taxation Board of Review;
- (3) Authorize members of the Taxation Board of Review to validate the Board's actions with a concurrence of the majority of members who heard the appeal;
- (4) Specify that Taxation Board of Review board meetings are contested case hearings with certain notice requirements;
- (5) Clarify the legal and evidentiary framework for the Taxation Board of Review to use when making decisions; and
- (6) Appropriate funds to the Department of Taxation to establish staff positions.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that establishing a paid professional Taxation Board of Review with robust institutional support would greatly help the Department of Taxation work through its significant backlog of appeals. This measure will ensure that Hawaii's taxpayers have their tax appeal issues resolved fairly and expeditiously.

Your Committee has amended this measure by:

- (1) Restoring the three full-time equivalent new Taxation Board of Review member positions;
- (2) Restoring the two full-time equivalent new staff positions that the Department of Taxation may establish to serve as administrative support or legal staff to the Taxation Board of Review;
- (3) Re-inserting \$518,452 in general funds for fiscal year 2022-2023 for the payment of salaries to the new Taxation Board of Review members and staff; and
- (4) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1828, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1828, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3306 Health on H.B. No. 1579

The purpose and intent of this measure is to:

- (1) Extend the deadline by which the transfer of the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health is to be completed;
- (2) Set the manner by which the Oahu Regional Health Care System should request operational funding during the transition period;
- (3) Require the transition working group to submit an additional report to the Legislature prior to the convening of the Regular Session of 2023;
- (4) Clarify the procedure for the working group to discuss matters concerning patient privacy and prospective bidders; and
- (5) Appropriate funds to the Department of Health to formulate and execute a comprehensive business and transition plan.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawaii Health Systems Corporation Oahu Region; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Health Systems Corporation.

Your Committee finds that Act 212, Session Laws of Hawaii 2021 (Act 212), initiated the transfer of the Oahu Regional Health Care System (Oahu Region) from the Hawaii Health Systems Corporation (HHSC) to the Department of Health. The Oahu Region, unlike the other HHSC hospitals, operates primarily as a safety net social service rather than a traditional income-generating hospital. The Oahu Region, therefore, has difficulty competing for funds against other hospitals in the HHSC, which are provided to the HHSC without allocation to each region. Act 212 was passed to transfer the Oahu Region to the Department of Health, in part, to ensure the Oahu Region remained properly funded and to be integrated into the Department of Health's current social services.

Act 212 also created a transition working group to develop, evaluate, and implement any additional steps necessary to complete the transition of the Oahu Region from HHSC to the Department of Health. The transition working group submitted a report to the Legislature prior to the current Regular Session, which estimated that the transition would cost over \$10,000,000 with an annual post-transition cost of \$5,000,000 and would not be completed until the end of 2024.

Your Committee notes the testimony of the Department of Health, which opposes the measure due to the transition and post-transition costs. The Department of Health further testified that if the Legislature were to carry out the transition required by Act 212, it would need until the end of 2024 to complete the transition, per the working group's report.

Therefore, your Committee has amended this measure by:

- (1) Extending the deadline by which the transition of the Oahu Region Health Care System facilities must be completed from December 31, 2022, to December 31, 2025;
- (2) Authorizing the working group to hold multiple executive sessions to discuss individual identifiable information that could affect patient privacy or information that could identify prospective bidders;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1579, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1579, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3307 Health on H.B. No. 1743

The purpose and intent of this measure is to define the term "pool" for the purposes of the Department of Health's authority to adopt rules concerning public health and safety.

Your Committee received testimony in support of this measure from the Department of Health and one individual.

Your Committee finds that under existing law, the Department of Health is authorized to regulate "pools". However, there is currently no statutory definition of what constitutes a pool. The Department of Health's administrative rules require that public swimming pools use disinfectants such as chlorine and that the pool comply with turnover rates to reduce the chances of disease transmission. Man-made lagoons and pools such as the Waikiki War Memorial Natatorium cannot meet these requirements and should not be regulated by the Department of Health. This measure clarifies that the Department of Health is authorized to regulate structures such as public swimming pools.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1743, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1743, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3308 Health on H.B. No. 2058

The purpose and intent of this measure is to appropriate funds as a grant to the Waianae Coast Comprehensive Health Center for the operation of its twenty-four-hour emergency department.

Your Committee received testimony in support of this measure from the Waianae Coast Comprehensive Health Center and Hawai'i Primary Care Association. Your Committee received comments on this measure from the Department of Health and Department of Budget and Finance.

Your Committee finds that the Waianae Coast Comprehensive Health Center (Center) is a nonprofit medical facility serving the Waianae coast of Oahu. The Center provides twenty-four-hour emergency department services for the Waianae coast and the majority of the Center's patients are at one hundred percent of the federal poverty level and receive coverage under the State's Medicaid program or Medicare. As a result, the Center operates at a financial loss and requires state subsidies to maintain a twenty-four-hour year-round emergency department. This measure provides monies to the Center to continue its twenty-four-hour emergency department operations.

Your Committee acknowledges the concerns of the Department of Health and Hawai'i Primary Care Association, noting that the Center likely has not met the necessary requirements, pursuant to chapter 42F, Hawaii Revised Statutes, for receiving a grant-in-aid.

Therefore, your Committee has amended this measure by:

- (1) Removing the appropriation for a grant-in-aid to the Waianae Coast Comprehensive Health Center and replacing it with an appropriation to the Department of Health to procure the services for the public purpose of operating a twenty-four-hour emergency department from the center;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2058, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2058, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3309 Energy, Economic Development, and Tourism on H.B. No. 1809

The purpose and intent of this measure is to establish a renewable fuels production tax credit.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Pacific Biodiesel Technologies, LLC; Hawai'i Gas; Par Hawaii; Hawaii Clean Power Alliance; Climate Protectors Hawai'i; 350Hawaii.org; Environmental Caucus of the Democratic Party of Hawai'i; and eight individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Tax Foundation of Hawaii, and Pet Food Institute.

Your Committee finds that it is critical to achieve greater energy security for the State. Your Committee further finds that the renewable fuels production tax credit established through Act 202, Session Laws of Hawaii 2016, was repealed on December 31, 2021. Your Committee believes that reestablishing a renewable fuels production tax credit will increase the production of renewable fuels, which, in turn, facilitates the development and integration of renewable energy systems, diversifies energy technology, enhances energy resiliency, and furthers the realization of Hawaii's renewable energy goals.

Your Committee has amended this measure by:

- (1) Inserting language that allows the tax credit to be taken upfront at a seventy percent reduced rate;
- (2) Amends the requirement for the Hawaii State Energy Office to certify that the renewable fuels produced have life cycle emissions substantially below that of fossil fuels from annually to every five years;
- (3) Inserting language that protects the confidential data within the verification and certification information, taxpayer and facility information, and renewable fuels production information submitted;
- (4) Adding wastewater to the list of renewable feedstocks;
- (5) Adding bioenergy to the definition of renewable fuels; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1809, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1809, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3310 Human Services on H.B. No. 2233

The purpose and intent of this measure is to authorize and appropriate funds for the Department of Human Services to provide additional housing assistance subsidies of up to \$500 per month to Temporary Assistance for Needy Families (TANF) and Temporary Assistance for Other Needy Families (TAONF) program participants who are also participating in the First-To-Work program.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Office of Hawaiian Affairs, Partners In Care, Zonta Club of Hilo, Family Promise of Hawaii, Catholic Charities Hawai'i, Parents And Children Together, Hawai'i Children's Action Network Speaks!, LGF Consulting Hawaii, and four individuals. Your Committee received comments on this measure from the State Procurement Office, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that, as of January 2022, there was an average of 4,532 families participating in the TANF program, a federally-funded financial assistance program designed to help families in need achieve self-sufficiency; and 1,116 families participating in the TAONF program, a state-funded program that mirrors TANF and is designed to assist Hawaii families with minor children who are not eligible to receive TANF program benefits due to their citizenship. According to the Department of Human Services, seventy percent of TANF recipients and sixty percent of TAONF recipients participated in the First-To-Work program, which, in addition to assisting the recipient families in obtaining employment, also provides housing allowances to participating families. Your Committee finds, however, that the housing allowance is limited to a one-time payment of an amount not to exceed two months of rent.

Your Committee further finds that nearly one-third of households in Hawaii who rent their homes spend over half of their monthly income on rent and utilities. As housing prices continue to skyrocket, your Committee believes that low-income families participating in the First-to-Work program will likely require assistance to meet their housing costs; however, the programs currently lack the funds to accommodate this critical need. Your Committee, therefore, finds that this measure is necessary to address a key barrier to housing for many low-income families in Hawaii, including those experiencing homelessness or are at risk of homelessness.

Your Committee notes the testimony of the Department of Human Services stating that the annual cost of issuing a monthly housing assistance subsidy of \$500 to TANF and TAONF program participants is projected to total \$23,094,000. According to the Department, the annual cost for the TANF program participants, which is estimated at \$19,168,020, will need to be covered by federal TANF funds, and the annual cost for the TANOF participants, estimated at \$3,925,980, will need to be covered by state general funds. The Department also reports that an additional \$200,000 in federal TANF funds will be needed to cover the cost for the TANF program's system modifications.

Accordingly, your Committee has amended this measure by:

- (1) Appropriating out of the general revenues of the State of Hawaii, \$3,925,980 for fiscal year 2022-2023 for housing assistance subsidies for the TAONF program participants;
- (2) Appropriating out of the federal TANF funds received by the State of Hawaii, \$19,168,020 for fiscal year 2022-2023 for housing assistance subsidies for the TANF program participants;
- (3) Appropriating out of the federal TANF funds received by the State of Hawaii, \$200,000 for fiscal year 2022-2023 for system modifications for the TANF program;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2233, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2233, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3311 Higher Education on H.B. No. 2206

The purpose and intent of this measure is to appropriate funds to the University of Hawaii at Manoa and University of Hawaii at Hilo for athletics.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, for decades, University of Hawaii athletics have captivated Hawaii's people. University of Hawaii athletic programs offer teams opportunities to play before Hawaii's people and against teams from the continental United States and internationally as ambassadors of the State. Student athletes playing for University of Hawaii teams also have the opportunity to continue competitive play while earning postsecondary credentials. However, higher costs that are unique to Hawaii, which peer institutions do not have to address, pose some challenges to University of Hawaii athletic departments. To address the high costs of collegiate athletics, while also developing infrastructure and recruitment for future seasons, funding is needed to continue the University of Hawaii's rich legacy of athletic excellence.

Your Committee has amended this measure by:

- (1) Inserting an amount of \$3,600,000 of general funds to be appropriated to program ID University of Hawaii, Manoa (UOH100) for the purposes of the measure provided that the Board of Regents consider certain matters pertaining to athletic coaching contracts and terminations of employment; and
- (2) Inserting an amount of \$400,000 of general funds to be appropriated to program ID University of Hawaii, Hilo (UOH 210) for athletics.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2206, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2206, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3312 Higher Education on H.B. No. 1488

The purpose and intent of this measure is to require the tuition residency rules for the University of Hawaii to grant the resident tuition fee for enrollment at any University of Hawaii campus, including any community college, to individuals who have obtained a Hawaii high school diploma or equivalent credential and are working toward an undergraduate degree, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, Kamehameha Schools, and four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that increasing access to postsecondary educational opportunities in the State allows for Hawaii's high school graduates and individuals who possess equivalent credentials to pursue postsecondary educational goals. Simplifying the residency determination for admission into the University of Hawaii System will positively impact students who wish to pursue higher education while also reducing the barriers students may face while applying to a University of Hawaii campus. Additionally, simplifying residency requirements and the determination of residency will also assist high school students, recent graduates, and individuals with equivalent credentials who are homeless or experiencing complex family circumstances. Increasing access to postsecondary education for all students is in alignment with a larger collaborative effort in workforce development, as a significant number of jobs, particularly those affording a living wage, require postsecondary credentials.

Your Committee has amended this measure by:

- (1) Reducing the timeframe of eligibility for resident tuition from eight years to two years from the time the student received a high school diploma or its equivalent to the student's first day of official scheduled instruction at the University of Hawaii;
- (2) Amending section 1 to reflect that this measure is a matter of statewide concern; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1488, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1488, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3313 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1739

The purpose and intent of this measure is to clarify that the Comprehensive Offender Reentry System provides programs and services that result in the timely release of inmates on parole when the minimum term, rather than the maximum term, has been served by the inmate.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawai'i Correctional System Oversight Commission, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Hawaii Substance Abuse Coalition, Common Cause Hawaii, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing sentencing laws provide that the courts are responsible for setting maximum terms of imprisonment in accordance with statute. The Hawaii Paroling Authority establishes the minimum terms, at which point the inmate becomes eligible for release into the community on parole. Existing laws further promote community safety by requiring the Department of Public Safety to develop and implement comprehensive reentry plans to help each inmate. Such plans prepare inmates, upon parole eligibility, to make the difficult transition from the highly structured prison setting to life in the community. When offenders are held until their maximum terms expire, they have much more difficulty succeeding after release. This measure will reduce recidivism and give inmates the best chance to succeed after release by clarifying that the Comprehensive Offender Reentry System provides programs and services that result in the timely release of inmates on parole when the minimum term, rather than the maximum term, has been served by the inmate.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1739, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3314 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2169

The purpose and intent of this measure is to clarify that the Department of Public Safety's role is to work with the Department of Transportation and county examiners of drivers to assist inmates in procuring civil identification cards necessary to transition into the workforce, access social services, and secure housing, rather than issue civil identification cards.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Department of Public Safety, Hawai'i Health & Harm Reduction Center, Community Alliance on Prisons, Hawaii Substance Abuse Coalition, Hawai'i Friends of Restorative Justice, and nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Correctional System Oversight Commission, American Civil Liberties Union of Hawai'i, and one individual. Your Committee received comments on this measure from Common Cause Hawaii and four individuals.

Your Committee finds that it is not uncommon for an identification card to be lost when an individual is arrested, either during the booking process or during the transition from cell block to the correctional facilities. In some instances, identification cards are recovered as evidence by law enforcement and never released back to the individual. For individuals serving longer sentences, their

identification cards often lapse and expire. Your Committee further finds that identification cards are necessary to transition into the workforce, access social services, and secure housing. This measure will promote successful reentry of offenders by clarifying that the Department of Public Safety's role is to work with the Department of Transportation and county examiners of drivers to assist inmates in procuring civil identification cards necessary to transition into the workforce, access social services, and secure housing, rather than issue civil identification cards.

Your Committee notes that it is not the intent of this measure to restrict the voting rights of incarcerated individuals.

Your Committee has amended this measure by:

- (1) Removing language that would have placed the onus in procuring civil identification on soon-to-be released inmates;
- (2) Requiring the Department of Public Safety to assist inmates in obtaining civil identification by providing the forms necessary for obtaining civil identification;
- (3) Requiring any form provided by the Department of Public Safety for the purpose of assisting inmates in obtaining civil identification to be in the inmate's primary language; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2169, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2169, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3315 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2309

The purpose and intent of this measure is to reduce recidivism rates in the State and increase productivity in affected communities by appropriating moneys for the development and maintenance of diversion, reentry, and rehabilitation programs within the State.

Your Committee received testimony in support of this measure from the Hawai'i Correctional System Oversight Commission, Judiciary, American Civil Liberties Union of Hawai'i, Hawai'i Health & Harm Reduction Center, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, YWCA O'ahu, Going Home Hawaii, Women's Prison Project, Share Your Mana, Hawai'i Friends of Restorative Justice, and eighteen individuals. Your Committee received comments on this measure from the Department of Public Safety, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that reentry programs that help people secure jobs, treatment, housing, and education have proven effective in facilitating the successful transition of formerly incarcerated people out of jails and prisons, and back to their families and communities. Moreover, comprehensive support services have been shown to reduce recidivism. This measure will reduce recidivism rates in the State and increase productivity in affected communities by appropriating moneys for the development and maintenance of diversion, reentry, and rehabilitation programs within the State.

Your Committee has amended this measure by:

- (1) Providing an appropriation for the Department of Human Services for the development and maintenance of diversion, reentry, and rehabilitation services and programs by non-profit organizations within the State to provide services to formerly incarcerated persons exiting jails and prisons, with a special focus on housing and human services;
- (2) Providing an appropriation for the Department of Health for the development and maintenance of diversion, reentry, and rehabilitation services and programs by non-profit organizations within the State to provide services to formerly incarcerated persons exiting jails and prisons, with a special focus on health;
- (3) Requiring state agencies and non-profit organizations that receive appropriations from this measure to submit a report to the Legislature detailing how the funds have been expended, the list of providers, how many people have been served, a description of services provided, and measurable outcomes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2309, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2309, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3316 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2312

The purpose and intent of this measure is to:

- (1) Establish the Women's Corrections Implementation Commission in the Judiciary to ensure implementation of the recommendations from the final report of the House Concurrent Resolution No. 85 (2016) task force, to develop and implement an evidence-based, gender-responsive plan to divert non-violent women offenders, especially those with minor children, from the judicial system;

- (2) Require the Commission to consider model programs including residential, in-person, and community-based rehabilitation programs, supportive and subsidized housing, restorative justice, and educational programs; and
- (3) Appropriate funds to support the Women's Corrections Implementation Commission.

Your Committee received testimony in support of this measure from the Judiciary, Hawai'i Health & Harm Reduction Center, Women's Prison Project, and two individuals. Your Committee received comments on this measure from the Department of Public Safety, Hawai'i State Commission on the Status of Women, and Department of Budget and Finance.

Your Committee finds that the criminal justice system is set up to address the correctional concerns and needs of men because most crime is committed by men. However, criminal justice researchers have established that women differ in their offending patterns, both in kind and degree. Women are less likely to engage in acts of violence against others, which reduces the public safety risk to others if they are sentenced to probation, community service, or residential treatment programs instead of prison. Women are also more likely to suffer from substance abuse addiction and poor mental health that, if left untreated, become risk factors that can lead to increased recidivism. This measure will help to ensure that state systems are functioning as well as they can to promote the ongoing health and safety of local communities by establishing a Women's Corrections Implementation Commission to ensure the timely implementation of the recommendations from the House Concurrent Resolution No. 85 (2016) task force.

Your Committee has amended this measure by:

- (1) Adding the Public Defender or the Public Defender's designee to the Commission;
- (2) Allowing for the commission member representing the Department of the Prosecuting Attorney to come from any county in Hawaii, not only Honolulu; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2312, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2312, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3317 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2344

The purpose and intent of this measure is to reform probation procedures by:

- (1) Requiring a probation officer to conduct a formal review of a defendant's progress halfway through the defendant's period of probation and provide the defendant information on how to file a motion with the court for early termination of probation, if the defendant so chooses; and
- (2) Giving a probation or law enforcement officer who has probable cause to believe a defendant has failed to comply with a discretionary condition of probation the discretion to issue the defendant a written notice of a court hearing that states the defendant's alleged violation and the date, time, location, and purpose of the hearing.

Your Committee received testimony in support of this measure from the Judiciary, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Hawai'i Health & Harm Reduction Center, Hawai'i Friends of Restorative Justice, and fifteen individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of the Public Defender and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that reducing the number of people on supervision can allow agencies to direct resources where they can have the biggest impact on public safety. Research has shown that when officers have smaller caseloads and implement evidence-based practices, it can reduce recidivism. Your Committee further finds that research also shows that offering people the opportunity to reduce their sentences via earned time credits encourages compliance and increases successful outcomes without compromising public safety, especially if the incentive is perceived as significant, such as receiving fifteen to thirty days off a sentence for each month of compliance. Currently, sixteen states have statutes that allow for earned time credits on probation supervision. States such as Alaska, Arkansas, Delaware, Missouri, and Utah have "thirty for thirty" policies, in which the person on probation gets thirty days of credit for thirty days of compliance with probation conditions. This measure will save taxpayer dollars and promote community safety by improving the probation system in the State.

Your Committee has amended this measure by:

- (1) Re-inserting a good time credit system, by which a defendant on probation may reduce the defendant's sentence through compliance with conditions of probation, which was removed by the House of Representatives;
- (2) Requiring the probation officer to submit a report after the formal review of the defendant to the presiding or sentencing judge justifying why the defendant continues to need supervision on probation;
- (3) Restricting review and early termination of probation to cases not involving offenses under chapter 134, chapter 707, section 586-4, section 586-11, or section 707-906, Hawaii Revised Statutes;
- (4) Reinstating and defining the term "technical violation", which was removed by the House of Representatives;
- (5) Requiring a written notice rather than a bench warrant and arrest when a technical violation has occurred;
- (6) Amending section 1 to reflect its amended purpose; and

- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2344, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2344, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3318 Water and Land on H.B. No. 1669

The purpose and intent of this measure is to:

- (1) Require the Office of Planning and Sustainable Development to establish a pilot program to develop a Waikiki adaptation and resilience plan to address climate change and sea level impacts in the Waikiki Special District;
- (2) Require a report to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, University of Hawai'i System, Honolulu Board of Water Supply, Sierra Club of Hawai'i, Waikiki Neighborhood Board, Waikiki Beach Special Improvement District Association, and three individuals. Your Committee received comments on this measure from Hawai'i Emergency Management Agency, Department of Budget and Finance, and one individual.

Your Committee finds that Hawaii's vulnerable coastal communities must plan for adapting to and mitigating the impacts of sea level rise, groundwater inundation, and coastal erosion. To achieve climate change resiliency plans, comprehensive, feasible, and appropriate adaptation policies, plans, and actions are required to effectively safeguard the State's critical assets in sea level rise exposure areas. The threat of sea level rise and coastal erosion will impact the water distribution system in low lying and coastal areas and adaptation measures may need to be prioritized and implemented. While Waikiki serves as a major economic hub not only for the City and County of Honolulu, but for the State at-large, the creation of climate change adaptation and resilience plans allows the State to pursue climate-change related natural hazard mitigation. The Waikiki Adaptation and Resilience Plan will also serve as an opportunity for state and county agencies to collaborate on regional planning.

Your Committee notes the testimony of the Hawaii Emergency Management Agency regarding alignment of local hazard mitigation planning with statewide hazard mitigation efforts. Aligning the regional hazard mitigation planning with state efforts would allow the Hawaii Emergency Management Agency to maximize the impact of mitigation projects to be consistent with the hazard mitigation plans that are adopted by each county and the state with approval by the Federal Emergency Management Agency.

Your Committee has amended this measure by:

- (1) Requiring an implementation strategy as a component of the Waikiki Adaptation and Resilience Plan, to be included in the final report due to the Legislature prior to the convening of the Regular Session of 2024;
- (2) Inserting a blank appropriation amount for one full-time equivalent (1.0 FTE) position within the Office of Planning and Sustainable Development to ensure the activities identified within the Waikiki Adaptation and Resilience Plan are carried out;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1669, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1669, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3319 (Joint) Water and Land and Agriculture and Environment on H.B. No. 1497

The purpose and intent of this measure is to require the Division of Forestry and Wildlife of the Department of Land and Natural Resources to establish a two-year pilot program to remove invasive species in and around Waiahole Stream on Oahu.

Your Committees received testimony in support of this measure from Hawaii State Aha Moku, Hawaii Housing Finance and Development Corporation, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committees find that proper management and maintenance of watersheds are crucial to preventing loss of life and protecting public and private property in nearby communities. Forest management projects have the potential to increase water infiltration and reduce runoff, mitigating downstream flooding. Forest management may also improve forest health and reduce invasive species impacts, allowing the forest and its ecosystem to thrive.

Under lease agreements with the Hawaii Housing Finance and Development Corporation, lessees are responsible for clearing Waiahole Stream along their property. Many lessees lack the financial means to remove large albizia trees that may fall in or near the stream, thereby exacerbating existing flood risks. Impacts from climate change and extreme weather events also create additional hazards from flood risks, as witnessed during the damaging floods of March 2021 in Waiahole. As the albizia tree poses significant flood and community risks near the Waiahole Stream, mitigation is necessary to address the prevalence of this invasive species.

Your Committees have amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1497, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1497, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3320 (Joint) Water and Land and Agriculture and Environment on H.B. No. 1769

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to study and combat rapid ohia death in the State.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, Hawaii State Aha Moku, Center for Biological Diversity, Hawai'i Farm Bureau, Hawai'i Forest Industry Association, Coordinating Group on Alien Pest Species, and eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that rapid ohia death has killed over a million ohia trees on Hawaii Island and threatens forests on all of the main Hawaiian Islands. Ohia is the State's most common tree, comprising eighty percent of remaining native forests, and provides important habitats for other plants and animals. Ohia forests have been treasured by Hawaiians for centuries for many practical and cultural uses, including hula, where ohia is the kinolau of important, sacred Hawaiian gods.

However, conditions such as rapid ohia death continue to threaten ohia forests across the State. Since its discovery, there has never been a successful eradication of a fungal disease in natural areas. In addition to rapid ohia death, ohia forests are also threatened by invasive weeds that threaten the ability of ohia forests to thrive. While researchers have investigated two fungi associated with rapid ohia death and have developed recommendations for managing the disease, further study is needed to fully understand the complex relationships of the disease with introduced beetles, feral animals, storm events, and human activity.

Your Committees have amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1769, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1769, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3321 (Joint) Water and Land and Agriculture and Environment on H.B. No. 2431

The purpose and intent of this measure is to:

- (1) Establish the sustainable food systems working group within the Office of Planning and Sustainable Development;
- (2) Require the working group to submit a plan, any recommendations for implementing the plan, and any proposed legislation to the Legislature;
- (3) Appropriate funds to establish the working group and develop the plan; and
- (4) Appropriate funds for an unspecified number of sustainability specialist positions to be employed by the Office of Planning and Sustainable Development Statewide Sustainability Branch.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Department of Agriculture, Hawaii State Aha Moku, Hawai'i Farmers Union United, Hawaii Food Industry Association, Hawaii Fishermen's Alliance for Conservation and Tradition, Hawai'i Farm Bureau, Food+ Policy Internship 2022, Hawai'i Alliance for Progressive Action, Down to Earth Organic and Natural, and eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that the initiative called "Transforming Hawai'i's Food Systems Together" seeks to build statewide capacity to develop an integrated food policy framework and food system resilience and equity strategy that is inclusive of Hawai'i's indigenous values and producer perspectives. The initiative intends to harness innovation and momentum developed in response to the coronavirus disease 2019 pandemic, document lessons learned, articulate policy and planning recommendations, and set up the State to expand large-scale institutional purchasing of local food. Establishing a sustainable food systems working group may enhance cross-community relationships across a variety of sectors, including food producers, processors, distributors, retailers, consumers, waste management, academic institutions, non-governmental organizations, and government agencies.

Your Committees note the testimony from Hawaii State Aha Moku regarding the composition of the working group. As Native Hawaiian cultural practitioners possess valuable knowledge, skills, and experience protecting lands and coastal and ocean areas for continuing sustainable use of island food systems, the Native Hawaiian representatives to the sustainable food systems working group should be knowledgeable in the traditional cultural practices of mahiai and lawaia. As island needs vary across the Hawaiian Islands, the Hawaii State Aha Moku also requests the Native Hawaiian representatives understand the differences in natural and cultural resources that may impact sustainability of food systems.

Your Committees have amended this measure by:

- (1) Expanding the membership of the Sustainable Food Systems Working Group to include a representative of the Hawaii Farmers Union United, a representative of the Hawaii Fishermen's Alliance for Conservation and Tradition, to be selected by the President of the Hawaii Fishermen's Alliance for Conservation and Tradition, and a representative of the commercial fishing sector of the State, to be selected by the Administrator of the Department of Land and Natural Resources Division of Aquatic Resources; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2431, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2431, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3322 Water and Land on S.C.R. No. 64

The purpose and intent of this measure is to request the Board of Land and Natural Resources to support and authorize the Napili Beach Public Access Stair Project.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Napili Bay and Beach Foundation, Inc.

Your Committee finds that Hawaii's beaches are a world-renowned natural resource that are facing significant challenges with the onset of climate change, sea level rise, and coastal erosion. Napili Beach, located in Kaanapali, Maui, has served both residents and tourists as a scenic point on Maui's west coast. The old Napili Beach public access concrete stairs, originally constructed in the 1980s, from headland to the south end of Napili Beach, were seriously damaged by heavy south swells on Labor Day, 2017, before being destroyed completely in July 2019. To mitigate some impacts from further coastal erosion and heavy south swells, the Napili Beach Public Access Stair Project was proposed to be relocated to a location further way from south swell impact. In 2019, the Napili Bay and Beach Foundation Inc. applied for and received a state grant-in-aid to replace the older stairs with more resilient, trex decking stairs, which are open tread to allow seasonal ebb and flow of beach sand.

Your Committee further finds that since the inception of the Napili Beach Public Access Stair Project, the Department of Land and Natural Resources has issued a site plan approval for the replacement of the failed concrete stairs with the new access stairs. At the Board of Land and Natural Resources meeting on October 22, 2021, under agenda item D-5, the Board approved a twenty-five-year term, non-exclusive easement for elevated beach access stairs and dune walkover on state submerged lands identified by tax map keys: (2) 4-3-002:023 and (2) 4-3-002:099. To ensure continued access to Napili Beach for Hawaii's people, your Committee concludes that the easement is necessary for use, repair, and maintenance of the Napili Beach public access stairs.

Your Committee has amended this measure by:

- (1) Inserting updated findings regarding the Department of Land and Natural Resources' administrative procedures on the term, non-exclusive easement covering a portion of state submerged lands at Napili, Kaanapali, Maui;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 64, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 64, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3323 Transportation on H.B. No. 1619

The purpose and intent of this measure is to establish peer-to-peer car-sharing insurance requirements.

Your Committee received testimony in support of this measure from the Department of Transportation, American Property Casualty Insurance Association, Hawaii Insurers Council, GEICO, and Hawaii Association for Justice. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Insurance Division and Turo.

Your Committee finds that peer-to-peer car-sharing programs, which are not rental car businesses, do not have established requirements for insurance coverage. Having proper insurance coverage is critical, therefore this measure establishes mandatory insurance terms for peer-to-peer car-sharing programs.

Your Committee has amended this measure by adopting the clarifying language from the Insurance Commissioner to address concerns regarding primary insurance coverage.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1619, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1619, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3324 Ways and Means on Gov. Msg. No. 583

Recommending that the Senate advise and consent to the nomination of the following:

TAXATION BOARD OF REVIEW

G.M. No. 583 WILLIAM CURTIS, for a term to expire 06-30-2025

Your Committee reviewed the personal statement and resume submitted by William Curtis for service on the Taxation Board of Review.

Your Committee received testimony in support of the nomination of William Curtis from the Department of Taxation and a member of the Taxation Board of Review.

Your Committee received comments on the nomination of William Curtis from Mr. Curtis himself.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that William Curtis studied accounting at Menlo College and has been licensed by the State as a general contractor since 1996. Your Committee believes that his knowledge of budgets, contract administration, and project management in both the public and private sectors will bring an important perspective to the Taxation Board of Review.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

SCRep. 3325 Ways and Means on Gov. Msg. No. 584

Recommending that the Senate advise and consent to the nomination of the following:

TAXATION BOARD OF REVIEW

G.M. No. 584 RICHARD ROVELSTAD, for a term to expire 06-30-2025,

Your Committee reviewed the personal statement and resume submitted by Richard Rovelstad for service on the Taxation Board of Review.

Your Committee received testimony in support of the nomination of Richard Rovelstad from the Department of Taxation and a member of the Taxation Board of Review.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Richard Rovelstad has experience as a licensed certified public accountant in the State of Wisconsin, has previously served on Hawaii's Taxation Appeals Board, and has served in various academic and professional roles. Your Committee believes that Richard Rovelstad's professional expertise and commitment to public service will make him an asset to the Taxation Board of Review.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

SCRep. 3326 Ways and Means on Gov. Msg. No. 585

Recommending that the Senate advise and consent to the nomination of the following:

TAXATION BOARD OF REVIEW

G.M. No. 585 VALERIE PERALTO, for a term to expire 06-30-2024

Your Committee reviewed the personal statement and resume submitted by Valerie Peralto for service on the Taxation Board of Review.

Your Committee received testimony in support of the nomination of Valerie Peralto from the Department of Taxation and a member of the Taxation Board of Review.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Valerie Peralto has extensive experience as a Certified Public Accountant, has previously served on the Board of Taxation Review, and has been involved with a number of professional and community organizations. Your Committee believes that with her expertise and commitment to public service, she is ideally suited to serve on the Taxation Board of Review.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

SCRep. 3327 Ways and Means on Gov. Msg. No. 586

Recommending that the Senate advise and consent to the nomination of the following:

TAXATION BOARD OF REVIEW

G.M. No. 586 DARRYL KOMO, for a term to expire 06-30-2025

Your Committee reviewed the personal statement and resume submitted by Darryl Komo for service on the Taxation Board of Review.

Your Committee received testimony in support of the nomination of Darryl Komo from the Department of Taxation and a member of the Taxation Board of Review.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Darryl Komo earned a Masters of Business Administration degree from the University of Hawaii, has more than forty-six years of accounting experience, previously served on the Board of Public Accountancy, and has held key leadership roles with several professional and community organizations. Your Committee believes that Darryl Komo's expertise and commitment to public service make him highly qualified to serve on the Taxation Board of Review.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

SCRep. 3328 Energy, Economic Development, and Tourism on H.B. No. 1982

The purpose and intent of this measure is to:

- (1) Require every person making payment to a loan-out company and claiming the motion picture, digital media, and film production income tax credit (film tax credit) to withhold payments to loan-out companies;
- (2) Prohibit the defense of erroneous claim for a refund or credit if the claim for refund was generated by a tax credit and sets the penalty for such case to ten percent;
- (3) Require the report by Department of Business, Economic Development, and Tourism to include the dollar amount claimed, name of the company, and name of the qualified production of the taxpayer;
- (4) Extend the period during which excess income tax credits may be claimed to December 31, 2032;
- (5) Require qualified taxpayers to withhold a certain amount and remit that amount;
- (6) Amend the use of the Tax Administration Special Fund; and
- (7) Authorize the Department of Taxation to establish four full-time equivalent tax auditor positions.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; and Motion Picture Association, Inc. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Island Film Group, and one individual.

Your Committee finds that the film tax credit stimulates the economy and creates quality employment while promoting Hawaii as a premier destination for both the film industry and visitors. According to testimony from the Department of Business, Economic Development, and Tourism, 2021 was a record year for motion picture, digital media, and film production in the State with \$423,000,000 in direct expenditures and the creation of nearly four thousand five hundred new jobs. Your Committee further finds that amending certain criteria for the film tax credit will enable the State to continue this production momentum and diversify its economy.

Your Committee has amended this measure by:

- (1) Relocating the language of the tax withholding requirement and the definition of a loan-out company from chapter 235, Hawaii Revised Statutes, relating to income tax to chapter 237, Hawaii Revised Statutes, relating to general excise tax;
- (2) Reducing the withholding amount for persons that make payments to a loan-out company from ten to 4.5 percent of all payments made to the loan-out company;
- (3) Removing language that prohibits a taxpayer from invoking the defense against an erroneous claim for a refund or credit if the claim or refund was generated by a tax credit;
- (4) Setting an application processing fee for the film tax credit at one-tenth of one percent of the film tax credit claimed by a qualified production; provided that the fee be capped at \$20,000;
- (5) Removing the requirement for productions to submit a verification review by a qualified certified public accountant when applying for the film tax credit;
- (6) Clarifying that the withholding amount for qualified productions that claim the income tax credit is 4.5 percent of the qualified production costs for services performed in the State; and

- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1982, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1982, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3329 Energy, Economic Development, and Tourism on H.B. No. 2414

The purpose and intent of this measure is to establish a general excise tax exemption for the gross proceeds or income derived from the manufacture, production, packaging, and sale of diapers.

Your Committee received testimony in support of this measure from Hawaii Children's Action Network Speaks!, Hawai'i Diaper Bank, Early Childhood Action Strategy, Chamber of Commerce Hawaii, Retail Merchants of Hawaii, Hawaii Food Industry Association, Hawai'i Restaurant Association, and twelve individuals. Your Committee received testimony in opposition to this measure from the Department of Taxation. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that diapers are basic necessities for families with infants in the State. Your Committee further finds that sellers pass on the general excise tax to the consumer, which increases the cost of an item. Exempting amounts received from the sales of necessities, such as food, medicine, and diapers can benefit the Hawaii's families by reducing expenses associated with these necessities.

Accordingly, your Committee has amended this measure by:

- (1) Establishing a general excise tax exemption for the gross proceeds or income derived from the sale of food and nonprescription drugs;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2414, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2414, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3330 Government Operations on H.B. No. 1419

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to develop, publish, and periodically update electronic information technology disability access standards to be implemented by state entities.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Office of Enterprise Technology Services, Executive Office on Aging, Disability and Communication Access Board, Hawai'i Civil Rights Commission, National Federation of the Blind of Hawaii, Hawaii State Committee of Blind Vendors, and twelve individuals.

Your Committee finds that the State has made great progress in embracing information and communication technology. Your Committee further finds, however, that the enormous potential of this technology in government operations cannot be fully realized if significant portions of the citizenry lack meaningful access. This holds especially true for individuals with disabilities. As the testimony in support of this measure makes clear, barriers to accessing information and communication technology are not abstract, academic concepts. They are concrete obstacles that, in the context of government operations, impair the right of individuals with disabilities to fully participate in civic life. Accordingly, this measure will help ensure that all Hawaii residents can participate in and benefit equally from State programs and services by establishing standards and a process to improve accessibility for information and communication technology.

Your Committee has amended this measure by:

- (1) Replacing all references to "electronic information technology" with "information and communication technology", to conform with usage in federal law;
- (2) Designating the Disability and Communication Access Board as the agency responsible for the development of the Hawaii Information and Communication Technology Disability Access Standards, rather than the Office of Enterprise Technology Services;
- (3) Requiring the Disability and Communication Access Board to develop, publish, and update the Hawaii Information and Communication Technology Disability Access Standards in consultation with the Office of Enterprise Technology Services, by no later than July 1, 2023;
- (4) Specifying that technology developed, purchased, or provided by the State shall be consistent with the Hawaii Information and Communication Technology Disability Access Standards;
- (5) Clarifying the composition of the working group to be convened to review the Hawaii Information and Communication Technology Disability Access Standards;

- (6) Clarifying and streamlining the parameters of the Hawaii Information and Communication Technology Disability Access Standards;
- (7) Clarifying the definitions of “individuals with disabilities” and “information and communication technology”;
- (8) Appropriating an unspecified amount of funds for one full-time equivalent (1.0 FTE) position within the Department of Health to support the Disability and Communication Access Board in effectuating this measure and for the development and implementation of the Hawaii Information and Communication Technology Disability Access Standards;
- (9) Amending section 1 to reflect its amended purpose; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1419, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1419, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3331 Government Operations on H.B. No. 1434

The purpose and intent of this measure is to authorize counties, after adoption of an ordinance, to sell private property after all notices, orders, and appeal proceedings are exhausted and to use those revenues to satisfy unpaid civil fines related to a property subject to a recorded lien.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and four members of the Honolulu City Council. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that county planning agencies currently lack sufficient enforcement powers. This can result in unmitigated violations of county ordinances where the accrual of large fines is inadequate to deter violations or compel compliance. Accordingly, this measure provides a necessary enforcement tool for county planning agencies by allowing counties, under certain circumstances intended to protect due process rights, to nonjudicially foreclose on liens arising from civil fines.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1434, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3332 Government Operations on H.B. No. 1494

The purpose and intent of this measure is to amend the purpose and duties of the Special Enforcement Section of the Department of Taxation.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that a central mission of the Special Enforcement Section of the Department of Taxation is to close the gap between taxes owed and taxes paid. By some estimates this gap is approaching one billion dollars. The Special Enforcement Section promotes the uniform application of state tax law and is responsible for securing a significant amount of tax dollars on behalf of the public. Accordingly, this measure will benefit the State by clarifying the purpose and duties of the Special Enforcement Section.

Your Committee has amended this measure by repealing language that directed the Special Enforcement Section to prioritize the investigation of cash-based businesses.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1494, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1494, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 3333 Government Operations on H.B. No. 1885

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a Chief Data Officer within the Office of Enterprise Technology Services to develop, implement, and manage statewide data policies, procedures, and standards, and facilitate data sharing across state agencies; and
- (2) Establish a Data Task Force within the Office of Enterprise Technology Services to assist in the development of the statewide data policies, procedures, and standards.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services; Office of Information Practices; Office of Hawaiian Affairs; Transform Hawai'i Government; Civil Beat Law Center for the Public Interest; Society of Professional Journalists Hawaii Chapter; Ulupono Initiative; Native Hawaiian & Pacific Islander COVID-19 Hawaii

Response, Recovery, and Resilience Team; Hawaii Hui; and Hawaii Health Information Exchange. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that increasing access to data maintained by state agencies will benefit government operations and the public. This measure is consistent with the express policies of the State and will stimulate innovation, encourage public participation in government, and increase transparency. Your Committee further finds that effective efforts to increase access to government data require consistent policies, procedures, and standards across all state agencies. Accordingly, this measure will promote the uniform development, implementation, and management of statewide data policies to increase and enhance access to government data by establishing a Chief Data Officer position and Data Task Force within the Office of Enterprise Technology Services.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1885, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3334 Government Operations on H.B. No. 1974

The purpose and intent of this measure is to establish the Small Business Assistance Initiative within the State Procurement Office, to consist of a Small Business Procurement Coordinator and Small Business Office, and to appropriate funds for this purpose.

Your Committee received testimony in support of this measure from the Department of Transportation, State Procurement Office, Office of Veterans' Services, Hawaii State Commission on the Status of Women, Native Hawaiian Chamber of Commerce, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that small businesses are a critical component of the State's economy. Your Committee further finds that the promotion of small businesses, including businesses owned by veterans, Native Hawaiians, and women, in government procurement strengthens the small business ecosphere in the State and, in turn, the larger economy. Your Committee additionally finds that the State Procurement Office is positioned to assist small businesses with obtaining state contracts. Accordingly, this measure will allow the State Procurement Office to help small businesses in the State, and improve the health of the state economy, by encouraging small business participation in government contracting opportunities.

Your Committee has amended this measure by:

- (1) Clarifying that the term of the Small Business Initiative is five years from the date of enactment;
- (2) Amending section 103D-902, Hawaii Revised Statutes, to further promote small business participation in government contracting opportunities;
- (3) Specifying appropriation amounts and purposes to carry out the intent of the measure as follows:
 - (A) \$115,000 to complete the state small business database as provided by Act 42, Session Laws of Hawaii 2017, prior to its repeal;
 - (B) \$126,000 for the establishment of one permanent full-time equivalent (1.00 FTE) small business procurement coordinator position exempt from chapter 76, Hawaii Revised Statutes, in the State Procurement Office; and
 - (C) \$125,000 for the retention of a local small business to operate and maintain the Small Business Office and for marketing of and outreach for the small business assistance initiative for the full term of the five-year initiative; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1974, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1974, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3335 Government Operations on H.B. No. 2037

The purpose and intent of this measure is to require the Office of Information Practices to:

- (1) Rule or provide written guidance on an agency denial of access to, or granting of access to, information or records; and
- (2) Receive and resolve complaints under Hawaii's open meetings law either by determining whether a violation occurred or providing guidance.

Your Committee received testimony in support of this measure from the Office of Information Practices, League of Women Voters of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest and Society of Professional Journalists Hawaii Chapter.

Your Committee finds that appeals regarding record requests to the Office of Information Practices are numerous and resource intensive. Your Committee further finds that under certain circumstances informal written guidance may be more appropriate and efficient than providing a full legal ruling or opinion as required under existing law. Accordingly, this measure will promote flexibility and efficiency in the Office of Information Practices' processing of appeals by allowing it to resolve certain appeals by informal means.

Your Committee has amended this measure by:

- (1) Removing the definition of “guidance” from section 2 and inserting it more appropriately into section 1;
- (2) Clarifying procedures for when the Office of Information Practices issues certain written guidance;
- (3) Making it effective on January 1, 2023, to provide time for implementation;
- (4) Removing its repeal date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2037, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2037, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3336 Government Operations on H.B. No. 2444

The purpose and intent of this measure is to condition the authority of a qualifying county to exercise the same state housing powers as those granted to the Hawaii Housing Finance and Development Corporation on a finding that the county has fulfilled its duty to accept dedication of public infrastructure and public highways in affordable housing developments.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State continues to experience a chronic shortage of affordable housing. Your Committee further finds that efforts to address this shortage are hampered when counties fail to accept the dedication of infrastructure improvements in a timely manner. For example, despite the passage of more than thirty years, the City and County of Honolulu has still not accepted dedication of infrastructure improvements constructed by a Hawaii Housing Finance and Development Corporation predecessor agency in connection with the development of the Villages of Kapolei. Your Committee additionally finds that while the City and County of Honolulu receives the real property tax revenues derived, in part, from the State’s infrastructure improvements, its failure to accept dedication of those improvements forces the Hawaii Housing Finance and Development Corporation to maintain those improvements at considerable expense. Accordingly, this measure will enable the Hawaii Housing Finance and Development Corporation to make better use of funds for the development of new infrastructure for affordable housing projects in the State by promoting timely county acceptance of the dedication of public infrastructure improvements.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2444, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2444, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3337 Human Services on H.B. No. 1945

The purpose and intent of this measure is to require the Department of Human Services to establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program that supplements existing statewide services by providing training and other services to neighbor island residents who are blind or visually impaired.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Disability and Communication Access Board, Hawaii State Committee of Blind Vendors, Hawaii Disability Rights Center, Hawaii Association of the Blind, National Federation of the Blind of Hawaii, and nine individuals. Your Committee received comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committee finds that approximately two thousand neighbor island residents who are blind or visually impaired do not have access to or are ineligible for existing state and local support services, including training, adjustments to blindness services, and transportation. The Neighbor Islands Blind and Visually Impaired Service Pilot Program to be established pursuant to this measure will supplement existing statewide services and enable these individuals to receive the necessary training and other services that would enable them to have full and integrated lives in their existing communities.

Your Committee acknowledges that this measure requires Department of Human Services to identify and secure other sources of funding, including federal funding, to provide matching funds for the pilot program. Your Committee notes the testimony of the Department of Human Services, stating that it will be difficult to secure federal funding for the pilot project since existing federal funding is already allocated to services currently provided by the Department’s Division of Vocational Rehabilitation Services for the Blind Branch.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the requirement that the Department of Human Services identify and secure other sources of funding, including federal funding, to provide for matching funds for the Neighbor Islands Blind and Visually Impaired Service Pilot Program;
- (2) Defining “neighbor island”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1945, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1945, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3338 Human Services on H.B. No. 1883

The purpose and intent of this measure is to require the exterior of the envelope containing the ballot package for elections by mail to include instructions on how to obtain language translation services in Hawaiian and certain other non-English languages, for all elections beginning with the 2022 Primary Election.

Your Committee received testimony in support of this measure from the Office of Elections, Office of Language Access, University of Hawai'i System, Elections Administrator of the City and County of Honolulu, Common Cause Hawaii, Hawai'i Alliance for Progressive Action, Hawai'i Public Health Institute, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, and twelve individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii is the most diverse state in the country with a diversity index of seventy-six percent, and fifteen percent of its eligible voters are immigrants. According to a report published in April 2016 by the Department of Business, Economic Development, and Tourism's Research and Economic Analysis Division, titled "Non-English Speaking Population in Hawaii", one-in-four people in Hawaii ages five and older speak a language other than English at home, and nineteen percent of the non-English speakers in Hawaii, or about 62,000 people, speak English "not well" or "not at all". The report also provided that Ilocano, Tagalog, and Japanese were the top three most common non-English languages spoken at home, comprising approximately half of the non-English speakers.

Your Committee finds that section 203 of the federal Voting Rights Act of 1965, as amended, requires state and political subdivisions to provide language assistance to voters if more than five percent of voting-age citizens are members of a single-language minority group and do not speak or understand English adequately enough to participate in the electoral process. Your Committee believes that voting is one of the most important rights and responsibilities of a United States citizen, and thus, it is imperative that non-English speaking voters are adequately apprised of language translation services, including when voting by mail. This measure will ensure that voters who are limited in English proficiency are informed as to how they can obtain language translation services when voting by mail.

Your Committee notes the testimony of the Office of Elections requesting that this measure be applied to elections beginning with the 2024 Primary Election, rather than the 2022 Primary Election because production of the envelopes for the 2022 elections has already begun and it is too late to include additional language.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that nothing in this measure exempts or supplants the requirements of section 203 of the federal Voting Rights Act of 1965, as amended;
- (2) Making the measure applicable to elections beginning with the 2024 Primary Election;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1883, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1883, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3339 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 2255

The purpose and intent of this measure is to amend energy efficiency standards for state buildings and facilities to:

- (1) Require that public benefits fee administrator and utility rebates be used where available; and
- (2) Prioritize appliances that meet the required standards to qualify for public benefits fee administrator rebates.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Laulima Mechatronics, Hawai'i Energy – Conservation and Efficiency Program, Climate Protectors Hawaii, and one individual.

Your Committees find that the State's Public Benefits Fee Administrator is responsible for a number of demand-side management programs and initiatives, which include offering rebates on various types of energy efficient appliances for both residences and businesses. Your Committees further find that by requiring the use of rebates for the purchase of energy-efficient equipment and prioritizing the purchase of energy-efficient appliances for state buildings and facilities, the State will reduce its demand for and costs associated with energy consumption, thereby helping it meet its clean energy and decarbonization goals by 2045.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2255,

H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2255, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3340 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 1801

The purpose and intent of this measure is to:

- (1) Require and establish deadlines for state facilities, except smaller facilities, to implement cost-effective energy efficiency measures;
- (2) Direct the Hawaii State Energy Office to collect utility bill and energy usage data for state-owned buildings and to make the data publicly available;
- (3) Establish a goal for the State to achieve at least a thirty percent reduction in the electricity consumption of state facilities; and
- (4) Beginning July 1, 2023, require, where feasible and cost-effective, the design of all new state building construction to maximize energy and water efficiency, maximize energy generation potential, and use building materials that reduce the carbon footprint of the project.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; Hawaii Electric Company, Inc.; Zero Waste Hawaii Island; Kauai Climate Action Coalition; Climate Protectors Hawai'i; Blue Planet Foundation; Ulupono Initiative; 350Hawaii.org; Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i; Kauai Women's Caucus; Elemental Excelsior; and thirty individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Accounting and General Services, Department of Transportation, and Hawai'i Energy.

Your Committees find that this measure supports green building management and the sustainable development and operations of state-owned buildings and facilities. According to testimony during the joint hearing, this measure will help to insulate the State from the volatility of oil prices and the anticipated increase in electric bills of ten percent for Oahu and twenty percent for Maui County and Hawaii County. Your Committees note that there are certain state buildings, such as hospitals and prisons, where a thirty percent reduction in electricity consumption would disrupt the provision of government services.

Accordingly, your Committees have amended this measure by:

- (1) Removing language that establishes a goal for the State to achieve at least thirty percent reduction in the electricity consumption of state facilities; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1801, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1801, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3341 Commerce and Consumer Protection on H.B. No. 1886

The purpose and intent of this measure is to:

- (1) Ban hemp products that contain cannabinoids created through isomerization, including Delta 8 tetrahydrocannabinol; and
- (2) Add Delta 8 tetrahydrocannabinol to the list of schedule I controlled substances.

Your Committee received testimony in support of this measure from the Department of Health, Honolulu Police Department, and MADD Hawai'i.

Your Committee finds that hemp products containing Delta 8 tetrahydrocannabinol, also known as THC, are not approved by the United States Food and Drug Administration (FDA) and may be marketed in ways that put consumers at risk. When ingested, Delta 8 tetrahydrocannabinol has been known to cause vomiting, hallucinations, difficulty breathing, loss of consciousness, and even coma. The FDA and poison control centers have recently reported increased adverse events related to products containing Delta 8 tetrahydrocannabinol. Accordingly, this measure will help protect consumers by banning certain hemp products that contain Delta 8 tetrahydrocannabinol and adding Delta 8 tetrahydrocannabinol to the list of Schedule I controlled substances.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1886, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1886, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3342 Commerce and Consumer Protection on H.B. No. 2405

The purpose and intent of this measure is to:

- (1) Prohibit health insurers, mutual benefit societies, and health maintenance organizations from applying categorical cosmetic or blanket exclusions to gender affirming treatments;
- (2) Prohibit those same entities from excluding gender affirming treatments as cosmetic services when prescribed as medically necessary; and
- (3) Require those same entities to provide applicants and insured persons with clear information about the coverage of gender transition services, including the process for appealing a claim denied on the basis of medical necessity.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Civil Rights Commission, Hawai'i Health & Harm Reduction Center, Stonewall Caucus of the Democratic Party of Hawai'i, Planned Parenthood Alliance Advocates, North Shore Ko'olau Diversity Collective, Democratic Party of Hawai'i, Hawai'i Public Health Institute, AF3IRM Hawai'i, Rainbow Family 808, and twenty-two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawai'i Employer-Union Health Benefits Trust Fund Board of Trustees, Hawai'i Medical Service Association, Kaiser Permanente Hawai'i, and Hawai'i Association of Health Plans.

Your Committee finds that existing law prohibits the denial, exclusion, or limitation of health care services or treatment based on a person's actual gender identity or perceived gender identity. Nevertheless, members of the transgender community have continued to experience medical coverage denial for certain gender affirming treatments on the basis that they are cosmetic, rather than medically necessary. There is growing consensus among major medical organizations that health care services relating to gender transition are medically necessary to alleviate gender dysphoria. Accordingly, this measure will prohibit insurers from applying blanket exclusions to gender affirming treatments as cosmetic services when prescribed as medically necessary.

Your Committee has amended this measure by:

- (1) Clarifying that the anti-discrimination protections of this measure shall extend to a transgender person or a person's transgender family member;
- (2) Specifying that the medical necessity of any treatment shall be determined in accordance with the most recent edition of the Standards of Care for the Health of Transsexual, Transgender, and Gender Nonconforming People, issued by the World Professional Association for Transgender Health;
- (3) Clarifying that no treatment or service shall be denied on the basis that it is cosmetic or not medically necessary unless a health care provider with experience in prescribing or delivering gender affirming treatment first reviews and confirms the appropriateness of the adverse benefit determination;
- (4) Clarifying that a health insurer, mutual benefit society, or health maintenance organization shall not apply categorical cosmetic or blanket exclusions to gender affirming treatments or procedures, or any combination of services or procedures or revisions to prior treatments, when prescribed as medically necessary, and setting forth a non-exhaustive list of such procedures; provided that the policy, contract, plan, or agreement also provides coverage for those services when the services are offered for purposes other than gender transition;
- (5) Reverting the definitions of "actual gender identity" and "perceived gender identity" to the existing statutory language;
- (6) Amending section 432D-26.3, Hawaii Revised Statutes, to extend this measure directly to health maintenance organizations;
- (7) Inserting an effective date of November 20, 2022, to reflect Transgender Day of Remembrance; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2405, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2405, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3343 Commerce and Consumer Protection on H.B. No. 2113

The purpose and intent of this measure is to minimize regulatory burden and eliminate redundancy by permitting money transmitter applicants to submit to either a state or federal criminal history record check, rather than both.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law requires each key individual of a money transmitter to submit to both a state and federal criminal background review. Hawaii became a reporter to the national criminal history background database approximately seven years ago, and since that time, the Division of Financial Institutions has not found any discrepancies for disqualifying crimes when both a state and federal criminal background review is conducted. Accordingly, this measure will streamline the administrative requirements for applicants, and reduce the time it takes to process applications, by allowing the applicant to only submit to either a federal or state criminal background review.

Your Committee has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2113, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2113, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3344 Commerce and Consumer Protection on H.B. No. 1478

The purpose and intent of this measure is to:

- (1) Require property owners of residential real property to disclose, as part of the mandatory seller disclosures in real estate transactions, whether the installed smoke alarm is in accordance with existing building or residential codes based on information provided by the State Fire Council; and
- (2) Require the State Fire Council to create and maintain an informational guide on approved smoke alarms that are in accordance with existing building or residential codes and post the guide on specified websites.

Your Committee received testimony in support of this measure from the State Fire Council, Maui Fire Department, Honolulu Fire Department, Community Associations Institute, and one individual. Your Committee received testimony in opposition to this measure from Associa and Hawai'i Association of REALTORS.

Your Committee finds that smoke alarms, if properly installed and maintained, can help save the lives of persons in residential structures in the event of a fire. Existing building codes require new or renovated homes to have smoke alarms in and outside of every bedroom and on every level. This measure will help ensure buyers are informed as to the safety aspects of their potential purchase and may increase the likelihood that smoke alarms will be updated prior to a sale and purchase, without imposing substantial burdens on the transaction process.

Your Committee notes the operative provisions of this measure, as currently written, provide that the State Fire Council may create and maintain an informational guide on approved smoke alarms that are in accordance with existing state or county building or residential codes. Accordingly, amendments to this measure are necessary to require the State Fire Council to create and maintain the informational guide.

Your Committee has amended this measure by:

- (1) Clarifying that the State Fire Council shall create and maintain an informational guide on approved smoke alarms that are in accordance with existing state or county building or residential codes; and
- (2) Inserting an effective date of November 1, 2022.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1478, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1478, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 3345 Water and Land on H.B. No. 1653

The purpose and intent of this measure is to:

- (1) Establish a tiered administrative fine system for each specimen of aquatic life taken, killed, or injured;
- (2) Establish a criminal fine structure on a per-specimen basis for violations involving aquatic life;
- (3) Authorize the Department of Land and Natural Resources to recommend community service that benefits the resource damaged when a person is ordered to perform community service in lieu of a fine; and
- (4) Authorize the Department of Land and Natural Resources to recommend certain probationary terms and conditions to the court.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Judiciary, Mālama Pūpūkea-Waimea, and two individuals. Your Committee received testimony in opposition to this measure from Ocean Tourism Coalition. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that a critical component of effective resource management is ensuring that management agencies have the appropriate suite of enforcement tools and penalties to encourage compliance with aquatic resource laws and to ensure just and reasonable punishment for violations. Timely responses to aquatic resources violations allow for greater protection of marine resources and aquatic species. This measure provides a tiered administrative fine system and an option for community service to deter aquatic resource violations.

Your Committee has amended this measure by:

- (1) Clarifying that a defendant be restricted from specific geographical areas where aquatic resources may be found within "waters of the State";

- (2) Clarifying that a defendant be restricted from engaging in certain fishing activities;
- (3) Prohibiting a defendant from taking or possessing certain aquatic species;
- (4) Inserting an effective date of July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1653, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1653, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3346 Water and Land on H.B. No. 2006

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources to include as a condition on emergency permits to install sandbags, a requirement for the attachment of identifying information, including the permittee's contact information and the permit number, to the sandbag; and
- (2) Require the Board of Land and Natural Resources to specify the form and manner in which the identifying information is to be attached to the sandbag.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that temporary erosion control devices, commonly known as "sand burritos", have been authorized as a short-term solution for coastal property owners to combat coastal erosion. "Sand burritos" have been utilized as crucial tools in the event of short-term environmental disasters such as floods, tsunami, landslides, and storms. However, as "sand burritos" and other erosion control devices are considered to be temporary solutions, landowners are not required to obtain a disposition from the Board of Land and Natural Resources. Your Committee further finds that debris from torn bags, including unauthorized propylene bags, has washed up on beaches. To protect Hawaii's shorelines, while also preventing harmful debris from entering coastal waters, the addition of identifying information to sandbags utilized for erosion control will allow for greater enforcement and accountability.

Your Committee has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2006, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2006, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 3347 Hawaiian Affairs on H.B. No. 2511

The purpose and intent of this measure is to:

- (1) Appropriate funds into and out of the Native Hawaiian Rehabilitation Fund for the Department of Hawaiian Home Lands to fulfill its fiduciary duties to beneficiaries; and
- (2) Require the Department of Hawaiian Home Lands to submit an annual report to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku; Department of Hawaiian Home Lands; Office of Hawaiian Affairs; State Council on Developmental Disabilities; Hawaiian Homes Commission; one member of the Hawaii County Council; one member of the Maui County Council; Catholic Charities Hawai'i; Maika'i Kamakani'O Kohala, Inc.; Hawaiian Affairs Caucus of the Democratic Party of Hawai'i Executive Committee; League of Women Voters of Hawaii; Ko'olau Foundation; Family Promise of Hawaii; Hawaii Alliance for Community-Based Economic Development; HOPE Services Hawaii; Council for Native Hawaiian Advancement; 'Ōhia Technology Group; Spoehr Foundation; Hawaii Habitat for Humanity Association; Mama Loa Foundation, Kanaka Maoli Jew; Waimea Hawaiian Civic Club; Habitat for Humanity Hawai'i Island; Hawaiian Community Asset; Environmental Caucus of the Democratic Party of Hawai'i; Hawai'i Appleseed Center for Law & Economic Justice; Maui/Lana'i Moku Puni Council; Ohana Program Foundation; Kula no na Po'e Hawaii; Ke One O Kākuhihewa; Papakolea Community Development Corporation; Ka Lāhui Hawaii; Partners in Care; American Civil Liberties Union of Hawai'i; Kaupea Hawaiian Homestead Association; and two hundred eighty four individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, Tax Foundation of Hawaii, Kaupea Hawaiian Homestead Association, and five individuals.

Your Committee finds that the mission of the Department of Hawaiian Home Lands is to develop and deliver land to native Hawaiians. The Department of Hawaiian Home Lands is responsible for the management of 203,500 acres of trust land. There are currently over 28,000 applicants on the waitlist for homestead lands, and availability of residential lands, cost of infrastructure, and available capital for mortgage financing present problems for servicing most of the beneficiaries on the waitlist. The purpose of this act is to provide \$600,000,000 to the Department of Hawaiian Home Lands to pursue a multi-pronged approach to eliminate the waitlist.

Your Committee notes that the companion to this measure, S.B. No. 3359, S.D. 2 (Regular Session of 2022), which was previously passed by the Senate, is a substantially similar measure that also provides funds to the Department of Hawaiian Home Lands to pursue

a multi—pronged approach to eliminating its waitlist. Your Committee concludes that the language in S.B. No. 3359, S.D. 2, is preferable because it appropriates monies from the Native Hawaiian Rehabilitation Fund for specific purposes, rather than generally to fulfill Department of Hawaiian Home Lands' fiduciary duties to beneficiaries. Specifically, S.B. No. 3359, S.D. 2, contains language that:

- (1) Adds a reporting requirement to the Hawaiian Homes Commission Act for the Department of Hawaiian Home Lands to annually report to the Legislature an accounting of expenditures from the Native Hawaiian Rehabilitation Fund in the previous fiscal year and the number of beneficiaries removed from the waitlist through the use of Native Hawaiian Rehabilitation Fund;
- (2) Appropriates \$487,614,000 out of the Native Hawaiian Rehabilitation Fund for fiscal year 2022-2023 for plans, design, construction, land acquisition, and equipment for infrastructure for seventeen Department of Hawaiian Home Lands projects; and
- (3) Appropriates \$112,386,000 out of the Native Hawaiian Rehabilitation Fund for fiscal year 2022-2023 for down payment and mortgage payment assistance to beneficiaries of the Hawaiian Homes Commission Act.

Accordingly, your Committee has amended this measure by deleting its contents, inserting the contents of S.B. No. 3359, S.D. 2, and further amending it by:

- (1) Removing the proviso relating to the general fund appropriation into the Native Hawaiian Rehabilitation Fund, as recommended by the Attorney General;
- (2) Placing the reporting requirements in the Session Laws of Hawaii, rather than the Hawaiian Homes Commission Act;
- (3) Inserting a severability clause;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2511, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2511, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3348 Judiciary on H.B. No. 2049

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

Your Committee has amended this measure by:

- (1) Deleting section 3 of this measure and the amendment to section 107-27, Hawaii Revised Statutes;
- (2) Deleting section 11 of this measure and the amendment to section 302A-1151.1(a) and (d), Hawaii Revised Statutes;
- (3) Deleting section 13 of this measure and the amendment to section 445-111, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2049, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2049, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3349 Judiciary on H.B. No. 1777

The purpose and intent of this measure is to:

- (1) Require the Department of the Attorney General to provide annual reports to the Legislature on available data pertaining to the commercial sexual exploitation of children; and
- (2) Appropriate moneys.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Human Services, Sex Abuse Treatment Center, Hawaii Youth Services Network, Imua Alliance, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, during the coronavirus disease 2019 pandemic, demand for services for survivors of sex trafficking in the State increased significantly. Obtaining quality data about children and youth who are survivors of commercial sexual exploitation

is a critical tool for understanding their needs and increasing professional and community awareness. Reports to the Legislature containing pertinent data will assist in assessing and improving the State's response to the trafficking of minors.

Your Committee has amended this measure by:

- (1) Establishing the requirement that the Department of the Attorney General collect, share, and report data pertaining to the commercial sexual exploitation of children as a five-year pilot program;
- (2) Specifying that the Department of the Attorney General shall consult with the Department of Human Services to develop guidelines for the collection, sharing, and reporting of data pertaining to the commercial sexual exploitation of children;
- (3) Clarifying that entities other than state and county departments and agencies are encouraged but not required to collect specific data;
- (4) Specifying that the required reports pertaining to the Commercial Sexual Exploitation of Children Data Pilot Program be submitted to the Legislature no later than forty days prior to the convening of each regular session;
- (5) Specifying that the Department of the Attorney General shall post its annual reports on its website;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1777, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1777, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3350 Judiciary on H.B. No. 1841

The purpose and intent of this measure is to:

- (1) Increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel and guardians ad litem; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii Family Advocacy Team, Legal Aid Society of Hawai'i, and Hawaii State Bar Association.

Your Committee finds that guardians ad litem (GALs) perform a critical role in many family court cases, including, for example, child abuse and neglect cases, involuntary hospitalization proceedings, and assisted community treatment proceedings. The subjects of these proceedings are among the most vulnerable members of our community and they frequently are unable to advocate for themselves or meaningfully participate in court proceedings that may significantly impact their lives. It is in the community's interest to attract and retain competent individuals to act as GALs to represent those persons requiring their services. One important way to help accomplish this goal is to ensure that GALs are adequately compensated for their services.

Your Committee has amended this measure by:

- (1) Re-inserting pay rates that increase the compensation for appointed counsel and guardians ad litem as follows:
 - (A) \$120 an hour for in-court services provided by an attorney licensed to practice law in the State;
 - (B) \$90 an hour for out-of-court services provided by an attorney licensed to practice law in the State; and
 - (C) \$75 an hour for all services provided by a person who is not an attorney licensed to practice law in the State, whether performed in-court or out-of-court; and
- (2) Re-inserting \$2,300,000 in general funds for fiscal year 2022-2023 for the purchase of service contracts, guardian ad litem contracts, and court-appointed counsel contracts.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1841, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1841, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3351 Judiciary on H.B. No. 2365

The purpose and intent of this measure is to:

- (1) Create an Electronic Citation Program under the Judiciary;
- (2) Establish an electronic citation surcharge; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Department of Transportation, Honolulu Police Department, and Hawai'i Police Department. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the use of paper citation sometimes gives rise to difficulties including supervisors, prosecutors, and judiciary personnel having to decipher handwritten notes that are difficult to read, as well as untimely delivery of citations from law enforcement agencies to the Judiciary. These difficulties have the potential to lead to delays in access to citations and to dismissal of traffic citations. Your Committee further finds that the use of an electronic citation system resolves handwriting legibility issues and eliminates the need to collect and scan paper citations. This measure provides numerous benefits to law enforcement, the Judiciary, and the general public, including the streamlining of processes and increased access to information.

Your Committee notes that committee members raised the question why instituting a system that is expected to save the State money is going to cost violators more money.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have established an electronic citation surcharge;
- (2) Removing language that would have established a electronic citation special fund;
- (3) Clarifying that there is established within the Judiciary a Statewide Electronic Citation Program;
- (4) Making a general fund appropriation to the Judiciary for the purposes of establishing the Statewide Electronic Citation Program;
- (5) Making general fund appropriations as grants-in-aid to the counties for the purposes of establishing the Statewide Electronic Citation Program; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2365, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Kim, Fevella). Noes, none. Excused, none.

SCRep. 3352 Judiciary on H.B. No. 1539

The purpose and intent of this measure is to:

- (1) Prohibit the posting of judges' and other court staff's personal information on the internet with the intent to intimidate or threaten; and
- (2) Establish a Judicial Security Task Force to review and recommend additional measures to enhance the security of judges and judiciary personnel.

Your Committee received testimony in support of this measure from the Judiciary and Hawaii State Bar Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that threats and inappropriate communications to judges and court personnel have escalated in recent years. Your Committee further recognizes that, given the expanded availability of personal information of judges and judiciary staff through various sources, additional measures are needed to ensure the safety of judges and judiciary personnel. This measure will prohibit the posting of personal information of judges and judiciary staff on the internet, which will minimize the risk of threats or violence to these individuals.

Your Committee notes that the Judiciary, as a separate branch of government, has the ability to establish a task force on their own.

Your Committee has amended this measure by:

- (1) Removing the definition of "judiciary";
- (2) Clarifying that the definition of "personal information" includes unpublished home telephone numbers;
- (3) Specifying that the definition of "personal information" includes credit card information;
- (4) Clarifying that the Judicial Security Task Force shall submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than forty days prior to the convening of the Regular Session of 2023;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1539, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1539, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3353 Judiciary on H.B. No. 1695

The purpose and intent of this measure is to increase the generally applicable statutory fine under the Fireworks Control Law from \$2,000 to \$5,000.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Pearl City Neighborhood Board, Animal Rights Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that the use of illegal fireworks and improvised explosive devices has substantially increased in recent years. As a consequence, there have been serious injuries, property damage, and fatalities. The illegal fireworks task force established by Act 170, Session Laws of Hawaii 2010, recommended that the legislature consider increasing fireworks violation fines as a means to deter the use of illegal fireworks. In furtherance of that recommendation, this measure will deter the use of illegal fireworks and protect property and public safety by increasing the maximum fine that may be assessed against certain fireworks-related violations from \$2,000 to \$5,000.

Your Committee has amended this measure by:

- (1) Increasing the maximum penalty for homeowner violations pursuant to section 132D-14.5, Hawaii Revised Statutes, from \$2,000 to \$5,000;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1695, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1695, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3354 Judiciary on H.B. No. 2275

The purpose and intent of this measure is to establish an expeditious adjudication system for processing fireworks infractions, similar to the system for processing traffic infractions.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Department of the Prosecuting Attorney of the City and County of Honolulu, Pearl City Neighborhood Board, Hawaiian Humane Society, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary and Department of Budget and Finance.

Your Committee finds that the use of illegal fireworks and improvised explosives have substantially increased in recent years. Online searches reveal pervasive use of illegal aerial fireworks in many neighborhoods. As a consequence, serious injuries, property damage, and fatalities have occurred. Your Committee believes that alternative enforcement mechanisms should be considered to promote compliance with the fireworks control law. This measure will promote compliance with the fireworks control law by incorporating new fireworks citations into the existing traffic and emergency order citation system under chapter 291D, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Deleting language that would have established an expeditious adjudication system for processing fireworks infractions, similar to the system for processing traffic infractions;
- (2) Incorporating the new fireworks citations into the existing traffic and emergency order citation system under chapter 291D, Hawaii Revised Statutes;
- (3) Setting \$500 as the fine amount for any fireworks violation covered by this measure, including homeowners liability;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2275, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2275, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3355 Housing on H.B. No. 1752

The purpose and intent of this measure is to:

- (1) Establish the Housing Choice Voucher Landlord Incentive Program;
- (2) Require the Hawaii Public Housing Authority to adopt rules to establish incentives for landlords who participate in the tenant-based assistance housing choice voucher program pursuant to section 8 of Housing Act of 1937;

- (3) Require that the Hawaii Public Housing Authority adopt rules to establish a maximum of fifteen days for inspection of a dwelling unit following a landlord or owner's inspection request; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS, Koolauloko Hawaiian Civic Club, Family Promise of Hawaii, Chamber of Sustainable Commerce, League of Women Voters of Hawaii, Hawai'i Health & Harm Reduction Center, Faith Action For Community Equity, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Hawaii State Council on Developmental Disabilities, Hawaii Public Housing Authority, American Civil Liberties Union of Hawai'i, Catholic Charities Hawai'i, and Partners In Care.

Your Committee finds that the Housing Choice Voucher Program established under section 8 of the United States Housing Act of 1937 is critical for many Hawaii residents who lack access to affordable housing. The Housing Choice Voucher Program allows participants to select their housing instead of relying on existing public housing projects. By allowing participants to choose their housing, the program promotes a higher quality of life for low-income households and alleviates strain on the State's other affordable housing projects. However, the Housing Choice Voucher Program relies on cooperation from landlords and property owners. This measure establishes incentives and protections for landlords who participate in the Housing Choice Voucher Program.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1752, H.D. 3, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3356 Housing on H.B. No. 2513

The purpose and intent of this measure is to appropriate funds for deposit into the Rental Housing Revolving Fund to be used to provide loans or grants to mixed-income rental projects or units for persons and families with incomes between sixty-one and one hundred percent of the median family income.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Highridge Costa Development Company, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Catholic Charities Hawai'i.

Your Committee finds that many families living between sixty-one and one hundred percent of the area median income, or moderate income households, struggle to find affordable housing. However, funds from the Rental Housing Revolving Fund are often expended as gap financing for affordable housing for families at or below sixty percent of the area median income. This measure appropriates funds for the Rental Housing Revolving Fund for families with median income between sixty-one and one hundred percent of the area median income. However, your Committee further finds that the Rental Housing Revolving Fund contains \$45,000,000 in unused funds that are not eligible for use to fund affordable housing developments that utilize low-income housing tax credits. Greater clarity is needed regarding the reason those funds are not being used for affordable housing development that do not utilize low-income housing tax credit.

Your Committee has amended this measure by:

- (1) Requiring the funds deposited into the Rental Housing Revolving Fund to be used for housing projects for families with incomes between sixty percent and one hundred percent area median income;
- (2) Inserting an appropriation amount of \$150,000,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2513, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2513, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3357 (Joint) Housing and Water and Land on H.B. No. 2023

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for certain transit-oriented development projects identified in the state strategic plan for transit-oriented development.

Your Committees received testimony in support of this measure from the Hawaii Interagency Council for Transit-Oriented Development, Office of Planning and Sustainable Development, Hawaii Housing Finance and Development Corporation, and Maui Metropolitan Planning Organization Policy Board. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that mixed-use and transit-oriented development advances the State's objectives to provide economic opportunities, increase access to affordable housing, and promote environmentally sustainable lifestyles. To coordinate transit-oriented development, the Legislature established the Hawaii Interagency Council for Transit-Oriented Development and appropriated capital improvement funds to the Office of Planning and Sustainable Development. However, the interest in transit-oriented development projects has led to requests for funding that exceed the funds available. This measure authorizes the issuance of general obligation bonds to support transit-oriented development in the State.

Your Committees have amended this measure by inserting an appropriation amount of \$2,000,000.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2023, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2023, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3358 Hawaiian Affairs on S.C.R. No. 50

The purpose and intent of this measure is to request that the Waianae Moku Kupuna Council be designated by the Legislature as an advisory resource to its elected members representing the Waianae Moku community.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku, Build Team 50, 'Ai Pohaku, and nine individuals.

Your Committee finds that kupuna play an important role within households, businesses, and communities. The Waianae Moku Kupuna Council consists of members who are sixty years of age or older and are westside Oahu residents who have vast historic and cultural knowledge. This resolution requests that the Waianae Moku Kupuna Council be designated as an advisory resource to elected members of the Legislature to provide key perspective and input on various issues that are of importance to the Waianae Moku community.

Your Committee notes the concerns of the Hawaii State Aha Moku regarding the make-up, focus, and objective of this Council and whether if all Moku follow and become formally recognized by the Legislature, there would be conflict between separate Moku. Your Committee finds that the Waianae Moku Kupuna Council's role as a resource would be helpful to legislators of the district and that concerns raised should be monitored.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 50, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 50, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3359 Hawaiian Affairs on S.R. No. 45

The purpose and intent of this measure is to request that the Waianae Moku Kupuna Council be designated by the Legislature as an advisory resource to its elected members representing the Waianae Moku community.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that kupuna play an important role within households, businesses, and communities. The Waianae Moku Kupuna Council consists of members who are sixty years of age or older and are westside Oahu residents who have vast historic and cultural knowledge. This resolution requests that the Waianae Moku Kupuna Council be designated as an advisory resource to elected members of the Legislature to provide key perspective and input on various issues that are of importance to the Waianae Moku community.

Your Committee notes the concerns of the Hawaii State Aha Moku regarding the make-up, focus, and objective of this Council and whether if all Moku follow and become formally recognized by the Legislature, there would be conflict between separate Moku. Your Committee finds that the Waianae Moku Kupuna Council's role as a resource would be helpful to legislators of the district and that concerns raised should be monitored.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 45, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3360 Hawaiian Affairs on S.C.R. No. 46

The purpose and intent of this measure is to request that the Hawaiian Homes Commission conduct a feasibility study for the creation of an enforcement division with police powers within the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that the Department of Hawaiian Home Lands has an enforcement section to investigate complaints regarding trespassing and other misuses of Hawaiian home lands. Despite duties requiring the section to initiate actions to evict trespassers and curtail illegal activities, it must rely on county police to enforce any action. This resolution requests a feasibility study for the creation of an enforcement division with police powers within the Department of Hawaiian Home Lands.

Your Committee has amended this measure by requesting the Department of Hawaiian Home Lands to conduct the study instead of the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 46, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 46, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Ihara).

SCRep. 3361 Hawaiian Affairs on S.R. No. 41

The purpose and intent of this measure is to request that the Hawaiian Homes Commission conduct a feasibility study for the creation of an enforcement division with police powers within the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that the Department of Hawaiian Home Lands has an enforcement section to investigate complaints regarding trespassing and other misuses of Hawaiian home lands. Despite duties requiring the section to initiate actions to evict trespassers and curtail illegal activities, it must rely on county police to enforce any action. This resolution requests a feasibility study for the creation of an enforcement division with police powers within the Department of Hawaiian Home Lands.

Your Committee has amended this measure by requesting the Department of Hawaiian Home Lands to conduct the study instead of the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 41, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Ihara).

SCRep. 3362 Hawaiian Affairs on S.C.R. No. 47

The purpose and intent of this measure is to request that the Department of Hawaiian Home Lands, in conjunction with the County of Hawaii Department of Water Supply, provide a progress report regarding the development of the Ka'u water system.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku and one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that in 2017, \$1,500,000 in general obligation bonds were allocated for the plans, design, and construction for the development of the Ka'u water system. Since that time, production has progressed through multiple phases. Phase three is expected to require the relocation of existing water lines. Due to the complexities and further costs of this project, this resolution requests an update on the progress of the Ka'u water system project.

Your Committee has amended this measure by clarifying that this resolution shall only apply to the development of the Ka'u water system on Hawaiian home lands.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3363 Hawaiian Affairs on S.R. No. 42

The purpose and intent of this measure is to request that the Department of Hawaiian Home Lands, in conjunction with the County of Hawaii Department of Water Supply, provide a progress report regarding the development of the Ka'u water system.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku and one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that in 2017, \$1,500,000 in general obligation bonds were allocated for the plans, design, and construction for the development of the Ka'u water system. Since that time, production has progressed through multiple phases. Phase three is expected to require the relocation of existing water lines. Due to the complexities and further costs of this project, this resolution requests an update on the progress of the Ka'u water system project.

Your Committee has amended this measure by clarifying that this resolution shall only apply to the development of the Ka'u water system on Hawaiian home lands.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 42, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 42, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3364 Health on H.B. No. 1638

The purpose and intent of this measure is to appropriate funds to the Hawaii Health Systems Corporation to conduct a site assessment to identify and evaluate viable locations for a new hospital site in North Kona on the island of Hawaii.

Your Committee received testimony in support of this measure from the Kona Community Hospital; Office of the Mayor, County of Hawai'i; and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the West Hawaii community faces challenges in accessing medical services and needs a new medical facility. The Kona Community Hospital's current facility is nearly fifty years old. The hospital's aging infrastructure has major deficiencies, with many critical systems in urgent need of repair and renovation. Additionally, the Kona Community Hospital is in South Kona, while the population boom has occurred in North Kona. This measure appropriates funds for a site assessment to identify and evaluate viable locations for a new hospital in North Kona.

Your Committee acknowledges the testimony of the Kona Community Hospital, which requests an amendment requiring that a hospital needs assessment be performed before the hospital site assessment. Your Committee also notes the Kona Community Hospital's testimony that an appropriation of \$500,000 is sufficient to cover both the hospital needs and site assessment.

Therefore, your Committee has amended this measure by:

- (1) Requiring that the Hawaii Health Systems Corporation perform a hospital needs assessment before performing the site assessment;
- (2) Requiring the Hawaii Health Systems Corporation to submit a report of its findings and recommendations of the hospital needs assessment, to the Legislature no later than twenty days prior to the Regular Session of 2023;
- (3) Appropriating funds to the Hawaii Health Systems Corporation for the hospital needs assessment;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1638, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1638, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3365 Health on H.B. No. 1666

The purpose and intent of this measure is to:

- (1) Establish a pilot program within the Adult Mental Services Division of the Department of Health to expand existing county programs that make one or more licensed mental health counselors available to assist county first responders in responding to mental health crises in areas in the urban core with high rates of homelessness; and
- (2) Appropriate funds for the pilot program.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, City and County of Honolulu Office of the Mayor, Hawaii Substance Abuse Coalition, and one individual. Your Committee received comments on this measure from Department of Budget and Finance.

Your Committee finds that approximately twenty-five percent of homeless persons struggle with mental illnesses or substance abuse issues and would benefit from mental health assistance. Often, law enforcement officers are dispatched to respond to a homeless person experiencing a mental health crisis but lack the expertise and resources to adequately help. Your Committee further finds that county programs, such as the City and County of Honolulu's Crisis, Outreach, Response, and Engagement program provides assistance to persons experiencing homelessness and is staffed by community health workers experienced in social work and emergency medical technician training. This measure augments existing county programs by establishing a pilot program within the Adult Mental Services Division of the Department of Health that expands county programs that make one or more licensed mental health counselors available to assist county first responders who are responding to mental health crises.

Your Committee acknowledges the testimony of the Department of Health, which notes that the term "licensed mental health counselors" is limiting, since there are other types of mental health professionals who could participate in the pilot program to provide the much needed assistance.

Therefore, your Committee has amended this measure by:

- (1) Replacing all references to "licensed mental health counselor" with "mental health professional"; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1666, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1666, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3366 Health on H.B. No. 1798

The purpose and intent of this measure is to authorize the issuance of special purpose revenues bonds to finance the construction of and improvements to health care facilities of The Queen's Health Systems and its nonprofit affiliates.

Your Committee received testimony in support of this measure from The Queen's Health Systems. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to finance projects for not-for-profit corporations that provide health care facilities to the general public. Your Committee further finds that The Queen's Health Systems is such an entity. Furthermore, The Queen's Health Systems is embarking on a multi-year redevelopment and expansion of its West Oahu and Punchbowl campuses, among other projects. This measure will help The Queen's Health System to finance these projects.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1798, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1798, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3367 (Majority) Health on H.B. No. 1823

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses and physician assistants to practice medical-aid-in-dying or provide counseling to a qualified patient;
- (2) Amend the mandatory waiting period between oral requests and the provision of a prescription; and
- (3) Prohibit the disclosure, discovery, or compelled production of information collected or retained pursuant to incidental or routine communication between the Department of Health and qualified patients or providers.

Your Committee received testimony in support of this measure from Compassion & Choices, Stonewall Caucus of the Democratic Party of Hawaii, Hawai'i Association of Professional Nurses, Hawai'i Pacific Health, Hawaii Society of Clinical Oncology, and twenty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Family Forum and four individuals. Your Committee received comments on this measure from the Department of Health, Board of Nursing, Hawaii Medical Board, and Hawaii Psychiatric Medical Association.

Your Committee finds that in 2018, the State passed the Our Care, Our Choice Act, which allows mentally capable, terminally ill individuals with six months or less to live to voluntarily request and receive prescription medication that allows the person to die in a peaceful, humane, and dignified manner. However, the State's unique geography and shortage of physicians create barriers for qualified terminally ill individuals to find access to qualified and willing physicians. This measure amends the Our Care, Our Choice Act to address these burdens for qualified patients who wish to have a peaceful end of life experience.

Your Committee acknowledges the testimony of the Hawaii Psychiatric Medical Association, which requests an amendment requiring a prescribing provider to conduct an initial visit in-person. An in-person visit is already required for anyone prescribing opiates; however, medications other than opiates are now being used for medical-aid-in-dying.

Therefore, your Committee has amended this measure by:

- (1) Requiring a provider prescribing medications for medical-aid-in-dying to conduct an initial visit with the patient in-person;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1823, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1823, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Moriwaki).

SCRep. 3368 Health on H.B. No. 1980

The purpose and intent of this measure is to:

- (1) Permit, but not require or prohibit, Medicaid, health insurers, mutual benefit societies, and health maintenance organizations to cover telephonic behavioral health services under certain circumstances; and
- (2) Clarify that telephonic services do not constitute telehealth.

Your Committee received testimony in support of this measure from the Department of Human Services, University of Hawai'i System, Disability and Communication Access Board, Hawaii State Council on Developmental Disabilities, Hawaii Psychiatric Medical Association, Hawaii Medical Service Association, Hawai'i Primary Care Association, Hawai'i Psychological Association, National Association of Social Workers - Hawai'i, Hawaiian Islands Association for Marriage and Family Therapy, Hawaii Association of Health Plans, Hawai'i Family Caregiver Coalition, Hawaii Medical Association, and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawai'i Pacific Health, Healthcare Association of Hawaii, Kaiser Permanente Hawaii, and The Queen's Health Systems.

Your Committee finds that during the coronavirus disease 2019 pandemic, the use of telehealth for many services increased, but particularly for behavioral health services. Additionally, the State's Med-QUEST Division increased flexibility to use telephones for all types of clinical services, including behavioral health services. Flexible telephonic service also aids individuals without access to audio-visual technology needed for telehealth such as populations in rural communities or geographic areas that lack internet access or infrastructure and those without "smart" devices. This measure permits, but does not require, health insurers to cover telephonic behavioral health services and clarifies that telephonic services do not constitute telehealth.

Your Committee acknowledges the testimony of several stakeholders, who note that pursuant to recent updates to federal laws, Medicare and Medicaid pay equally for telephonic and telehealth services, in certain circumstances. Your Committee also acknowledges the Hawaii Primary Care Association's testimony, which provides proposed amendments adopting federal definitions into state law.

Therefore, your Committee has amended this measure by:

- (1) Requiring that Medicaid, health insurers, mutual benefit societies, and health maintenance organizations cover services provided through telehealth by way of an interactive telecommunications system;
- (2) Defining "interactive telecommunications system" to match the 2022 Medicare physician fee schedule final rule;
- (3) Removing language specifying that telephonic services do not constitute telehealth;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1980, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1980, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3369 Health on H.B. No. 2340

The purpose and intent of this measure is to allow the use of post office boxes for filling prescriptions, so long as the dispensing pharmacy has the physical location of the patient's residence on file.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawaii. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that under existing law, if a controlled substance prescription has a post office box address, pharmacists must verify the patient's identification, note the identification number on the prescription, and change the patient's address, before dispensing the medication. The number of prescriptions pharmacists receive with post office box addresses is significant, particularly on the neighbor islands. Removing this administrative burden on pharmacists would save them time and allow them to focus on other patient care responsibilities. This measure authorizes pharmacists to eliminate these steps if the patient's physical address is already on file.

Your Committee acknowledges the testimony of Kaiser Permanente Hawaii, which recommended amendments to this measure's preamble to clarify that this measure does not authorize pharmacists to mail controlled substances to post office or rural office boxes.

Therefore, your Committee has amended this measure by:

- (1) Amending section 1 to clarify that this measure is to ease pharmacists' administrative burdens and not to authorize pharmacists to mail controlled substances to a post office or rural office box; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2340, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2340, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3370 Health on H.B. No. 2515

The purpose and intent of this measure is to:

- (1) Require the Department of Health to establish and operate a laboratory capable of testing for diseases, air and water quality issues, and other complex issues; and

- (2) Appropriate funds to the Department of Health to establish the laboratory.

Your Committee received testimony in support of this measure from the Department of Health and City and County of Honolulu Board of Water Supply. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the current state laboratory building is approximately twenty-seven years old and was not designed to accommodate current testing needs. The laboratory building's facilities often fail and require repair due to its age, negatively effecting testing. Additionally, the building is not designed for mass testing for infectious diseases and water quality. Your Committee also finds that the laboratory building was not designed to perform certain tests such as testing for blood alcohol levels. Any tests that the state laboratory cannot perform must be sent to the mainland for testing. In order to maintain public health and safety, it is paramount that the State have a larger and modernized laboratory. This measure requires the Department of Health to establish and operate a laboratory capable of testing for diseases, air and water quality, and other complex issues, and appropriates funds to establish the laboratory.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2515, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2515, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3371 (Joint) Education and Higher Education on H.B. No. 1775

The purpose and intent of this measure is to:

- (1) Clarify the application of chapter 368D, Hawaii Revised Statutes, and set forth requirements with which entities that have state education programs or activities, or that receive state funding for educational programs or activities, must comply;
- (2) Require annual reporting to the Legislature on the number and types of Title IX cases received by the University of Hawaii, Department of Education, and public charter schools, and other relevant information;
- (3) Establish two full-time equivalent (2.0 FTE) senior advisor positions and one full-time equivalent (1.0 FTE) junior advisor position for the University of Hawaii System to carry out the purposes of this Act; and
- (4) Appropriate funds to the Department of Education and public charter schools to carry out the purposes of this Act.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, University of Hawai'i System, Hawai'i Civil Rights Commission, American Association of University Women of Hawaii, Hawaii Women's Coalition, Children's Action Network Speaks!, Americans for Democratic Action Hawai'i; Rainbow Family 808, The Every Voice Coalition, Planned Parenthood Alliance Advocates-Hawai'i, Hawai'i State Democratic Women's Caucus, Stonewall Caucus of the Democratic Party of Hawaii, and sixteen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and one individual.

Your Committees find that combating discrimination on the basis of sex, including gender identity or expression, or sexual orientation, is an ongoing matter of statewide concern. Your Committees further find that, as noted in testimony, the Patsy Takemoto Mink Equal Opportunity in Education Act, otherwise known as Title IX of the Education Amendments of 1972, sets the floor or baseline with respect to anti-discrimination legislation. Your Committees note, however, that shifting federal interpretations, rules, guidance, and executive actions highlight the need for stronger state protections. Accordingly, this measure will promote the fair and equitable treatment of all residents of the State by strengthening the State's Title IX corollary.

Your Committees have amended this measure by:

- (1) Defining the term "educational program or activity" under section 2; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1775, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1775, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 5. Noes, none. Excused, none.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3372 Human Services on H.B. No. 1824

The purpose and intent of this measure is to appropriate funds for an unspecified number of Long-Term Care Ombudsman Program Specialist positions within the Office of the Long-Term Care Ombudsman assigned to each county as follows: one for the City and County of Honolulu, one for the County of Maui, two for the County of Hawaii, and one for the County of Kauai.

Your Committee received testimony in support of this measure from the Hawaii Long-Term Care Ombudsman, County of Hawai'i Office of Aging, Alzheimer's Association, Hawaii Civil Rights Center, AARP Hawai'i, Policy Advisory Board for Elder Affairs, Protect Leahi & Maluhia 'Ohana, Kokua Council, Maunalani Nursing and Rehabilitation Center, and twelve individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Executive Office on Aging and Department of Budget and Finance.

Your Committee finds that long-term care ombudsmen serve as advocates for residents of long-term care facilities to ensure that they receive the quality of care and quality of life they deserve and are entitled to by law. Your Committee further finds that according to a recommendation made by the National Academy of Medicine, Hawaii should have at least six full-time long-term care ombudsmen; however, during the reorganization of the Executive Office on Aging in June 2015, staffing for the Office of the Long-Term Care Ombudsman was reduced from six to one. This measure will replenish the staffing of Hawaii's Long-Term Care Ombudsman Program to meet national standards and enable the program to protect the health, safety, welfare, and rights of residents of long-term care facilities in accordance with state and federal law.

Your Committee has amended this measure by:

- (1) Specifying that the appropriation is to fund five full-time equivalent (5.0 FTE) Long-Term Care Ombudsman Program Specialist positions within the Office of the Long-Term Care Ombudsman; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1824, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1824, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3373 Human Services on H.B. No. 1745

The purpose and intent of this measure is to appropriate funds to support Hawaii's four food bank efforts to continue meeting the food security needs of the people of Hawaii during this time of unprecedented need due to disturbances caused by coronavirus disease 2019 (COVID-19) pandemic.

Your Committee received testimony in support of this measure from the Office of Community Services; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; one member of the County of Maui County Council; Hawaii Foodbank, Inc.; Hawaii Foodbank, Inc.'s Kauai branch; The Food Basket, Inc.; Hawai'i Farm Bureau; Hawaii Food Industry Association; AlohaCare; Ulupono Initiative; Hawaii Primary Care Association; Hawai'i Hunger Action Network; Hawaii Association of Health Plans; Kaiser Permanente Hawai'i; Hawaii Medical Service Association; Chef Point of View; Hawai'i Health & Harm Reduction Center; Parent And Children Together; Hawai'i Public Health Institute Obesity Prevention Task Force; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Labor and Industrial Relations' Office of Community Services is the state administrator of The Emergency Food Assistance Program (TEFAP), a federal program that helps supplement the diets of low-income households by providing them with emergency food assistance at no cost. The Office of Community Services contracts with a food bank for each of the State's four counties, to establish, maintain, and supervise a network of eligible recipient agencies that distribute food received through TEFAP in designated areas of each county.

Your Committee also finds that the COVID-19 pandemic heavily impacted food security levels in Hawaii, increasing the volume of food collectively distributed in Hawaii by the food banks in fiscal year 2020-2021 to 36,500,000 pounds, which is more than double the volume distributed before the pandemic. Your Committee further finds that more than eighty-two thousand children in the State are projected to struggle with hunger in 2022, placing Hawaii as a state with the second highest rate of child food insecurity in the country. Your Committee acknowledges that the federal funds and donations that enabled the food banks to meet demands of the State during the height of the COVID-19 pandemic have declined considerably, and without additional funds, the food banks will not be able to continue meeting the food security needs of Hawaii residents. This measure will appropriate the funds necessary for the food banks to continue meeting the food security needs of the people in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that of the sum appropriated:
 - (A) One percent shall be allocated to the Office of Community Services to administer the funds appropriated pursuant to this measure;
 - (B) Ten percent shall be allocated to the food bank in each county for administrative expenses, based on the county's proportional share of the State's poverty population as set forth in the latest small area income and poverty estimates issued by the United States Census Bureau (SAIPE formula); and
 - (C) The remainder shall be allocated to the food bank in each county for food purchase expenses using the SAIPE formula; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1745, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1745, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3374 Human Services on H.B. No. 1754

The purpose and intent of this measure is to appropriate funds to restore diagnostic, preventive, and restorative dental benefits to adult Medicaid enrollees; provided that the Department of Human Services obtains the maximum federal matching funds available and pursues all funding sources before expending any general revenue appropriations.

Your Committee received testimony in support of this measure from the Department of Human Services, University of Hawai'i System John A. Burns School of Medicine, Hawaii State Council on Developmental Disabilities, Executive Office on Aging, Hawaii Dental Association, AlohaCare, Hawai'i Public Health Institute -Hawai'i Oral Health Coalition, Hawaii Medical Service Association, Hawaii Disability Rights Center, AARP Hawai'i, Oral Health Progress and Equity Network (OPEN), Health Committee of the Democratic Party of Hawai'i, Hawai'i Children's Action Network Speaks!, Ho'ōla Lāhui Hawai'i, Hawaii Primary Care Association, UnitedHealthcare Community Plan Hawaii, Hawaii Association of Health Plans, Hawai'i Section of the American College of Obstetricians and Gynecologists, Americans for Democratic Action Hawai'i, Hawaii Dental Service, Kaiser Permanente Hawai'i, Hawaii Dental Hygienists' Association, Catholic Charities Hawai'i, Papa Ola Lōkahi, 'Ohana Health Plan, Waimānalo Health Center, The Queen's Health Systems, 'Ahaui o na Kauka – Association of Native Hawaiian Physicians, Parents And Children Together, Hawaii Medical Association, Kōkua Kalihi Valley Comprehensive Family Services, and forty-six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that oral diseases are a significant health problem that affects the overall health and well-being of many Hawaii residents. Despite this fact, in 2009, the State terminated all preventive and restorative dental care services for adult Medicaid recipients and reduced coverage to emergency-only care that is limited to pain relief, injuries, trauma, and tooth removal and extraction. Your Committee further finds that recent research shows a disproportionate number of adult Medicaid enrollees ages twenty-one to forty-four years using the emergency room to receive emergency dental services. Your Committee is concerned that the lack of preventive and restorative dentistry services for adult Medicaid beneficiaries increases potential health care complications for Hawaii residents, especially those who have co-existing chronic diseases, such as diabetes and heart disease, which may lead to increased disability or death. Investing in preventive dental benefits for Medicaid-enrolled adults will, in the long term, lead to reductions in medical costs paid by Medicaid. Therefore, your Committee believes it is in the best interest of the State and its residents to reinstate coverage of diagnostic, preventive, and restorative dental benefits for adult Medicaid enrollees. This measure will appropriate funds to enable the State to do so.

Your Committee notes that the companion to this measure, S.B. No. 1294, S.D. 2, which was previously passed by the Senate, includes a preamble that sets forth the following three options to restore dental benefits for adult Medicaid beneficiaries with all three options covering periodontal services:

- (1) Option 1 (\$7,800,000 per year or \$3.32 per enrollee) covers a basic dental benefit package of diagnostic, preventive, and restorative services;
- (2) Option 2 (\$19,900,000 per year or \$8.45 per enrollee) includes the basic dental benefit package, plus core prosthodontic services; and
- (3) Option 3 (\$36,200,000 per year or \$15.37 per enrollee) further expands prosthodontic services.

Your Committee notes multiple testimonies providing that the limited dental benefits in Option 1, although helpful, may be insufficient to address the oral health needs of Medicaid beneficiaries in Hawaii whose oral health needs have accumulated over the past decade, and recommending the more comprehensive dental benefits in Option 2.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 1 by incorporating the preamble language of S.B. No. 1294, S.D. 2 (Regular Session of 2022);
- (2) Inserting a blank appropriation amount to restore diagnostic, preventive, and restorative dental benefits to adult Medicaid enrollees consistent with Option 2;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1754, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1754, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3375 Human Services on H.B. No. 2424

The purpose and intent of this measure is to :

- (1) Expand the investigative power of the Department of Human Services to include inspections of families:
 - (A) That have adopted or received legal guardianship of a child for whom maintenance is provided pursuant to the Social Security Act or through the State Adoption Assistance Program, including adoptive families where an adoption decree is pending or where an adoption decree has been issued but adoption has not yet taken place; or
 - (B) That are receiving financial assistance through the State's Permanency Assistance Program, and

against whom a complaint has been lodged with the Department of Human Services;

- (2) Require the Department of Human Services to report to the Legislature before the convening of the Regular Session of 2027, regarding the impact of expanding home visits to families receiving adoption assistance or legal guardianship assistance;
- (3) Appropriate funds for the Department of Human Services to hire additional case workers and support staff to conduct annual or semi-annual in-home visits for families receiving adoption assistance or legal guardianship assistance; and
- (4) Appropriate funds for the Department of Human Services to increase compensation to fill vacancies and retain employees in existing Child Welfare Services Case Worker positions.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining, Hawaii Family Advocacy Team, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that many children in foster care continue to require support from the Department of Human Services' Child Welfare Services Branch after being placed in permanent custody of a family through adoption or legal guardianship. Your Committee further finds that the network of state systems that protect and ensure the safety and security for at-risk children must be enhanced to protect children who had previously been under the protection and legal jurisdiction of the State. This measure expands the authority of the Department of Human Services to allow case workers to conduct investigations of adoptive families and legal guardians that receive federal or state funding, and foster families of children for whom adoption has not been completed and against whom a complaint has been lodged with the Department.

Your Committee notes the testimony of the Department of the Attorney General raising concerns that the investigation of families by the Department of Human Services pursuant to this measure may affect the constitutional rights of parents, including adoptive parents, to raise their children, which limits an investigator's ability to investigate families without reasonable cause to suspect that a child has been harmed or is subject to threatened harm.

Your Committee also notes the testimony of the Office of Collective Bargaining stating that appropriating funds to increase the compensation of existing Child Welfare Services Branch case worker positions is inappropriate and premature, as compensation for these positions is subject to collective bargaining.

Your Committee has amended this measure by:

- (1) Limiting the expansion of the Department of Human Services' investigative powers to include the review and investigation of families that receive benefits from the State's Adoption Assistance Program against whom a complaint has been lodged;
- (2) Clarifying that the Department of Human Services' review or investigation of families receiving benefits from the State's Adoption Assistance program and against whom a complaint has been lodged shall be in accordance with chapters 350 and 587A, Hawaii Revised Statutes;
- (3) Limiting the subject of the Department of Human Services' report to the Legislature to be filed before the Regular Session of 2027, to the impact of expanding home visits to families receiving benefits from the adoption assistance program;
- (4) Clarifying that any increase in compensation of Child Welfare Services Branch case worker positions shall be subject to collective bargaining with the objective of expeditiously filling all vacancies;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2424, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2424, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3376 (Joint) Higher Education and Hawaiian Affairs on H.B. No. 2288

The purpose and intent of this measure is to transfer the parcel of land designated as tax map key: (1) 3-2-030-002-0000-000 to the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Kūpuna for the Mo'opuna, and one individual. Your Committees received testimony in opposition to this measure from the University of Hawai'i System. Your Committees received comments on this measure from the Department of the Attorney General and Kaulana 'āina a Mahiku A'o Mai.

Your Committees find that the Oahu Island Plan was developed to provide recommendations for the future uses of lands on the island of Oahu to which the Department of Hawaiian Home Lands holds title to meet beneficiary and department needs over the next twenty years. As the Oahu Island Plan identified a land shortage and a large number of applicants seeking homesteading opportunities on Oahu, acquisition of new lands is necessary to award homesteads to all Oahu applicants.

However, your Committees note the testimony of the Attorney General regarding the land identified as tax map key: (1) 3-2-030-002-0000-000. As the land is currently held as a fee-simple parcel by the University of Hawaii, a quasi-independent state agency with exclusive jurisdiction over its internal affairs under the Hawaii State Constitution, the transfer of University land must obtain approval

by the Board of Regents of the University of Hawaii. However, University lands may be taken under eminent domain so long as the University is paid just compensation for the taking.

Your Committees also note the testimony of the Department of Hawaiian Home Lands regarding plans for the parcel currently held by the University of Hawaii. To address the decades-long waitlist for land administered by the Department of Hawaiian Home Lands, the department intends to utilize the land for multi-generational or rental units by maximizing the allowable density under residential zoning in the City and County of Honolulu. Therefore, your Committees believe that an amicable agreement should be reached to obtain the land from the University of Hawaii for use by the Department of Hawaiian Home Lands for housing.

Your Committees have amended this measure by inserting an appropriation in an unspecified amount to be expended by the Department of Hawaiian Home Lands for the purposes of this measure.

As affirmed by the records of votes of the members of your Committees on Higher Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2288, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2288, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 3377 (Joint) Higher Education and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2302

The purpose and intent of this measure is to appropriate funds for the continued operation and disaster preparedness outreach efforts of the University of Hawaii Sea Grant College Program.

Your Committees received testimony in support of this measure from University of Hawai'i System, Hawai'i Emergency Management Agency, Hawai'i State Public Library System, Maui Emergency Management Agency, and three individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that continued education of Hawaii's people on emergency preparedness allows residents and the State to prepare for, mitigate against, and recover from disasters. Emergency preparedness education such as the *Homeowner's Handbook to Prepare for Natural Disasters*, prepared by the Hawaii Emergency Management Agency and the University of Hawaii College Sea Grant Program, are vital to the safety and resiliency of the State. The most recent fourth edition of the *Handbook* provides crucial information regarding options on home retrofit, evacuation planning guidance, and sections on volcanoes and climate change. As Hawaii continues to experience the impacts from climate change, sea level rise, coastal erosion, and extreme weather events, there is a greater need to continue crucial partnerships with emergency management and civil defense agencies across the State and at the county level to make Hawaii's communities more resilient and to develop a culture of emergency preparedness.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2302, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Wakai).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 3378 (Joint) Higher Education and Health on H.B. No. 2220

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to increase the State's capacity to train new nurses and project future nursing workforce needs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Health, Department of Labor and Industrial Relations, Hawai'i State Center for Nursing, Healthcare Association of Hawaii, and The Queen's Health Systems. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the ongoing coronavirus disease 2019 (COVID-19) pandemic has exacerbated the need for nurses to care for the ill. Nationwide and locally, there is a nursing faculty shortage with a vacancy rate of over fifty percent. The nursing faculty shortage has led to increased difficulty in finding lecturers to support clinical education for nurses in hospitals and health care settings. To meet the growing demand for nurses, nursing schools in the State need to increase faculty and lecturer hiring capacity. Additionally, increased funding is needed to support existing nursing faculty, provide transitions to faculty practice training, and align nursing workforce projections between the schools of nursing and industry partners.

However, your Committees note that the nursing program at the University of Hawaii at West Oahu has been terminated. While the nursing degree pathway at the West Oahu campus began in fall 2015, it currently offers only a bachelor's degree in health professions and health information management. The community needs of West Oahu, exacerbated by the COVID-19 pandemic, signal a dire need to reinstate and continue a nursing program at the West Oahu campus to offer students educational and professional opportunities within their communities.

Your Committees have amended this measure by:

- (1) Providing that the nursing program at the University of Hawaii, West Oahu, be reinstated as a condition for the appropriation;
- (2) Inserting an effective date of July 1, 2055; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2220, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2220, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3379 Judiciary on H.B. No. 1427

The purpose and intent of this measure is to:

- (1) Clarify that candidates are not required to file preliminary general reports if they are either unsuccessful or are elected to office in the primary election; and
- (2) Clarify the aggregating contributions and expenditures that determine when a committee needs only to file the final election period report.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that reporting requirements under campaign finance laws are important to maintain transparency and fairness in elections. However, candidates who are either unsuccessful or who have been elected to office in a primary election will not appear on the ballot in the general election. Therefore, your Committee finds that requiring these candidates to file preliminary reports between the primary and general elections is unnecessary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1427, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3380 Judiciary on H.B. No. 1471

The purpose and intent of this measure is to amend provisions relating to dates and deadlines in statutory provisions governing political parties.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that every election year, qualified political parties must submit their current party rules and provide the names and addresses of their central committee officers and respective county committee officers. The deadline to submit the party rules and officers should be on the same day for qualified political parties. This measure aids qualified parties in keeping track of and facilitating compliance with deadlines.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1471, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3381 Judiciary on H.B. No. 1472

The purpose and intent of this measure is to amend the information necessary for a voter to withdraw their signature from a petition under election laws.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that this measure will standardize the requirements for a signatory to remove their name from a petition to match the withdrawal requirements of a signatory to a nomination paper.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1472, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1472, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 3382 Labor, Culture and the Arts on H.B. No. 1475

The purpose and intent of this measure is to require state legislators and employees to complete mandatory ethics training courses every four years, subject to certain requirements.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Common Cause Hawaii, and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the Hawaii State Constitution requires all public officers and employees to exhibit the highest standards of ethical conduct. This measure will ensure that state legislators and employees are aware of current ethics laws to meet this high standard.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of this measure is to require the state ethics commission to establish not only online, but also live ethics training courses;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1475, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1475, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3383 Labor, Culture and the Arts on H.B. No. 1789

The purpose and intent of this measure is to:

- (1) Require the representative of labor on the Hawaii Labor Relations Board to be a person whose name has been selected by a simple majority of the exclusive representatives of the collective bargaining units and submitted to the Governor for appointment;
- (2) Require the Governor to submit the name of the nominee to the Senate for advice and consent no later than twenty days after the exclusive representatives' submittal of the nominee's name to the Governor; and
- (3) Provide that if the Governor fails to do so, that the exclusive representatives who recommended the nominee shall transmit the nominee's name directly to the Senate for confirmation.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; Hawaii State Teachers Association; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Hawai'i Labor Relations Board.

Your Committee finds that the Hawaii Labor Relations Board is a quasi-judicial board that ensures that collective bargaining is conducted in accordance with law, with jurisdiction over state public sector collective bargaining, state private sector collective bargaining, and cases pertaining to state occupational safety and health citations and whistleblower discrimination claims. The Board consists of three members who represent three distinct interests--the Chair, who is the representative of the public, one member who is a representative of management, and another member who is a representative of labor. Under existing law, the representative of management is appointed by the Governor, who may first consider any names submitted by the counties. The representative of labor is appointed by the Governor from a list of three nominees submitted by mutual agreement from a majority of the exclusive representatives of the collective bargaining units. As for the Board Chair, the Governor's selection is not limited to names submitted by other parties.

Your Committee acknowledges the testimonies of numerous labor unions supporting this measure on the grounds that the existing appointment process for the representative of labor gives the Governor too much authority over a quasi-judicial body that adjudicates disputes in which the Governor, serving as the employer, would often be involved as a party.

This measure will allow the collective bargaining units to select their representative on the Hawaii Labor Relations Board by a simple majority of their exclusive representatives.

Accordingly, your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1789, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1789, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 3384 Labor, Culture and the Arts on H.B. No. 2159

The purpose and intent of this measure is to:

- (1) Rename the Hawaii Workforce Development Council to the Hawaii Workforce Development Board;
- (2) Require the Hawaii Workforce Development Board to develop written conflict of interest policies that are consistent with the federal Workforce Innovation and Opportunity Act of 2014; and
- (3) Amend the composition and powers of the Hawaii Workforce Development Board.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received testimony in opposition to this measure from the Workforce Development Council and one individual. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Act 88, Sessions Laws of Hawaii 2021, also known as the General Appropriations Act of 2021, eliminated the program identification number for the Workforce Development Council (LBR135) and transferred its appropriations and positions to the Department of Labor and Industrial Relations' Workforce Development Division. This measure amends chapter 202, Hawaii Revised Statutes, which governs the Workforce Development Council, in conformance with the new appropriation structure set forth in the General Appropriations Act of 2021.

Your Committee also finds that the Workforce Innovation and Opportunity Act of 2014 (29 U.S.C. sections 3111(f) and 3122(h)), prohibits members of the state workforce development board and local workforce development boards from engaging in activities determined by the Governor to constitute a conflict of interest.

Your Committee notes the testimonies of the Department of Labor and Industrial Relations and Hawaii Workforce Development Council raising concerns over the significant changes this measure makes to the size and composition of the Hawaii Workforce Development Board. The testimonies also supported making amendments to section 202-3, Hawaii Revised Statutes, to have the Executive Director of the Hawaii Workforce Development Board be appointed by the Governor from a list of three nominees submitted by the Board.

Your Committee further notes that the companion to this measure, S.B. No. 3127, S.D. 1 (Regular Session of 2022), is a substantially similar measure that renames the Hawaii Workforce Development Council as the Hawaii Workforce Development Board and prohibits its members and members of local workforce development boards from engaging in any activity determined by the Governor to constitute a conflict of interest as provided in the federal Workforce Innovation and Opportunity Act of 2014 or chapter 84, Hawaii Revised Statutes. Your Committee concludes that the language in S.B. No. 3127, S.D. 1, is preferable because it addresses concerns raised in testimony by retaining the current composition of the Hawaii Workforce Development Board and requiring the Governor to appoint the Executive Director of the Hawaii Workforce Development Board from a list of three nominees submitted by the Board.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 3127, S.D. 1, a similar measure that addresses the concerns raised in the testimonies of the Department of Labor and Industrial Relations and Hawaii Workforce Development Council.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2159, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2159, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3385 Labor, Culture and the Arts on H.B. No. 2240

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds to pay or prepay the State's Other Post-Employment Benefits liability under certain conditions; and
- (2) Require that the outstanding balance of general obligation bonds issued to pay or prepay the Other Post-Employment Benefits liability to be considered in the calculation of public employers' annual required contribution to the Other Post-Employment Benefits Trust Fund, beginning July 1, 2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund is a state agency administratively attached to the Department of Budget and Finance that provides eligible state and county employees and retirees and their eligible dependents with health and life insurance benefits. In 2013, to reduce the Hawaii Employer-Union Health Benefits Trust Fund's substantial amount of unfunded liability, the Legislature passed Act 268, Sessions Laws of Hawaii 2013, which required the Hawaii Employer-Union Health Benefits Trust Fund to establish a separate trust fund entitled the Other Post-Employment Benefits Trust Fund, into which public employers must pay annual required contributions to pre-fund the Other Post-Employment Benefits costs for existing employees, as well as pay down the Hawaii Employer-Union Health Benefits Trust Fund's existing unfunded liability.

In July 2020, to address the \$2.3 billion budget shortfall caused by the coronavirus disease 2019 (COVID-19) pandemic, the Governor suspended the State's required payment of the annual contributions to the Other Post-Employment Benefits Trust Fund for the fiscal year ending June 30, 2021. Act 229, Session Laws of Hawaii 2021, extended this suspension for two fiscal years, through fiscal year 2022-2023. According to the Department of Budget and Finance, as of July 1, 2021, the Other Post-Employment Benefits Trust Fund's unfunded actuarial accrued liability stood at \$8,125,000,000, and is projected to be paid down through the year 2044. This measure seeks to provide a viable financing option besides annual required contributions, with appropriate safeguards, to address and manage the Other Post-Employment Benefits Trust Fund's unfunded liability, thereby reducing the future financial strain on the State, counties, and taxpayers.

Your Committee acknowledges that Act 229, Session Laws of Hawaii 2021, suspended certain provisions in section 87A-42, Hawaii Revised Statutes, which governs the Other Post-Employment Benefits Trust Fund, until June 30, 2023. Therefore, section 2 of this measure which amends section 87A-42(f), Hawaii Revised Statutes, to require that Other Post-Employment Benefits bond debt be considered in the calculation of the annual required contribution by public employers, will take effect on July 1, 2023.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2240, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2240, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3386 (Majority) Labor, Culture and the Arts on H.B. No. 2449

The purpose and intent of this measure is as follows:

- (1) Part I of this measure appropriates funds to establish staff positions in the Hawaii State Archives;
- (2) Part II of this measure authorizes the issuance of general obligation bonds to finance the construction of an additional building for the state archives to expand and create new spaces for collections processing, storage, administrative use, public research, exhibitions, listening, learning, and community engagement; and
- (3) Part III of this measure requires:
 - (A) All departments, offices, and agencies to conduct an inventory of all documents in their possession related to the culture and history of Hawaii and Native Hawaiians; and
 - (B) The Hawaii State Archives to develop a transfer plan to acquire those documents.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Historic Hawai'i Foundation, and one individual. Your Committee received testimony in opposition to this measure from thirty-eight individuals. Your Committee received comments on this measure from the Department of Education, Department of Budget and Finance, Department of Health, Department of Land and Natural Resources, University of Hawai'i System, Office of the State Librarian, and one individual.

Your Committee finds that the Hawaii State Archives, an entity responsible for collecting, arranging, describing, and making accessible the public archives of the State, is an irreplaceable part of Hawaii's legacy, history, culture, and identity. Your Committee also finds that the coronavirus disease 2019 pandemic, which greatly disrupted the public's ability to travel and access the Hawaii State Archive records in person, highlighted the need to post more of the records online to be accessible to people around the world, twenty-four hours a day, seven days a week. However, the State Archives facility, which was designed seventy years ago, is severely outdated in both form and function to provide the digitization infrastructure necessary for such large-scale access. Your Committee finds that the facility is currently at ninety-eight percent of its approximately 14,000 cubic feet of storage-capacity and is projected to reach full capacity in the next biennium. This measure will assist the Hawaii State Archives to continue fulfilling its mission to "ensure open government by preserving and making accessible the historic records of state government and to partner with state agencies to manage their active and inactive records".

Your Committee notes the significant number of testimonies raising concerns over Part III of this measure based on various issues, including staffing, funding, confidentiality, professional ethics and standards, centralization of resources, and access, and recommending that Part III be removed from the measure. Your Committee appreciates the clarification provided by the Hawaii State Archives during the hearing, stating that it did not request Part III of this measure to be considered by the Legislature.

Accordingly, your Committee has amended this measure by:

- (1) Deleting Part III;
- (2) Amending section 3 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2449, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2449, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 3387 Labor, Culture and the Arts on H.B. No. 2469

The purpose and intent of this measure is to:

- (1) Establish an Unemployment Compensation Insolvency Special Fund to be administered by the Department of Labor and Industrial Relations and expended solely to resolve an Unemployment Compensation Trust Fund insolvency emergency declared by the Governor;
- (2) Permit the Governor to declare an Unemployment Compensation Trust Fund insolvency emergency and expend moneys from the Unemployment Compensation Insolvency Special Fund if the Director of Finance determines that the trust fund balance is insufficient to meet the State's obligations; and

(3) Appropriate moneys into the Unemployment Compensation Insolvency Special Fund.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of Labor and Industrial Relations, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that the Federal Unemployment Tax Act and Social Security Act (SSA) operate in tandem to provide a framework for the Federal-State Unemployment Compensation Program. Title XII of the Social Security Act provides loans to the states to pay unemployment insurance benefits when the state's unemployment compensation trust funds are insolvent. The Federal Unemployment Tax Act levies a federal tax on employers covered by a state's unemployment insurance program. The federal unemployment tax rate is 6.0 percent on the first \$7,000 of wages paid annually; however the law provides a 5.4 percent credit reduction, as long as the state remains in conformity with the unemployment insurance law and regulations and does not carry an outstanding loan balance beyond the allowable time frame. Specifically, if a state has an outstanding loan balance on January 1 for two consecutive years and does not repay the full amount of its loans by November 10 of the second year, the federal unemployment tax credit rate for employers in that state will be reduced until the loan is repaid. Therefore, employers in Hawaii will be detrimentally affected if the State depletes its Unemployment Compensation Trust Fund, takes out a loan, and does not pay the loan in full within the required time frame.

Your Committee acknowledges that section 328L-3, Hawaii Revised Statutes, establishes an Emergency and Budget Reserve Fund administered by the Director of Finance, which serves as a temporary supplemental source of funding for the State during times of emergency, severe economic downturn, or unforeseen reduction in revenues. Your Committee believes however, that establishment of the Unemployment Compensation Insolvency Special Fund will provide the State with greater flexibility to administer the Federal-State Unemployment Compensation Program, as it will not be required to receive advances from the federal government.

Your Committee has amended this measure by:

- (1) Clarifying that moneys from the Unemployment Compensation Insolvency Special Fund may also be expended as a temporary source of funding during times of emergency, severe economic downturn, or unforeseen reduction of revenues pursuant to an appropriation approved by a two-thirds majority vote of each house of the Legislature; and
- (2) Clarifying that a general or supplemental appropriations bill, as defined in article VII, section 9, of the Hawaii State Constitution, shall not be used to appropriate moneys from the Unemployment Compensation Insolvency Special Fund.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2469, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2469, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3388 Labor, Culture and the Arts on H.B. No. 2471

The purpose and intent of this measure is to amend the definition of "Adequate Reserve Fund" to exclude the benefit cost rate from June 2020 through August 2021, for calendar years 2023 through 2030.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that an employer's unemployment insurance tax rate is computed once a year using two factors: the employer's claim history, meaning the unemployment insurance benefits paid out to the employer's former employees over the years; and the applicable unemployment insurance tax rate for the year, categorized from Schedule A to Schedule H, with A being the lowest and H being the highest rate.

The unemployment insurance tax rate schedule for the year is calculated by dividing the balance of the Unemployment Compensation Trust Fund by the Adequate Reserve Fund. Thus, a higher Adequate Reserve Fund will result in a higher tax rate schedule for employers. The Adequate Reserve Fund is determined by multiplying the highest Benefit Cost Rate during the ten-year period by the total amount of wages paid by all employers during the last four calendar quarters. Thus, a higher Benefit Cost Rate will result in a higher Adequate Reserve Fund, which in turn will result in a higher tax rate schedule. The Benefit Cost Rate is calculated by dividing the total amount of unemployment insurance benefits paid to unemployed individuals during a twelve consecutive month period by the total amount of wages paid by all employers. Therefore, if there is a period during which a significant amount of unemployment benefits was paid out, the Adequate Reserve Fund, and in turn, the tax rate schedule for employers will be inflated for the subsequent ten years.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic caused an unprecedented increase in Hawaii's unemployment rate, which resulted in the State paying out a significant amount of unemployment insurance benefits, leading to the depletion of the Unemployment Compensation Trust Fund in June 2020. As such, the tax rate for 2021 and 2022 were slated to increase to Schedule H, the highest tax rate; however, the Legislature prevented this spike by passing Act 1, Session Laws of Hawaii 2021, which set the tax rates for 2021 and 2022 at Schedule D. This measure excludes the Benefit Cost Rate from June 2020 through August 2021 from the calculation of the Adequate Reserve Funds for calendar years 2023 through 2030, which will stabilize the tax rate schedules for those years while Hawaii's economy recovers from the disruptions caused by the pandemic.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2471, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2471, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3389 Labor, Culture and the Arts on H.B. No. 2495

The purpose and intent of this measure is to prohibit employers from entering into or requiring employees to enter into a nondisclosure agreement pertaining to sexual harassment or sexual assault occurring in the workplace, at work-related events, between employees, or between the employer and an employee.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Civil Rights Commission, Hawai'i State Commission on the Status of Women, AAUW of Hawaii, Hawai'i Women Lawyers, Hawai'i State Democratic Women's Caucus, and four individuals.

Your Committee finds that nondisclosure agreements have functioned as a shield for repeat offenders of discrimination based on sex, including sexual harassment and sexual assault, by allowing the pattern of misconduct to continue unnoticed and other individuals to suffer similar abuse by the same offender. Your Committee further finds that existing law only prohibits employers from requiring their employees to enter into a nondisclosure agreement as a condition of employment, and therefore, does not cover circumstances after hire, including when a settlement agreement that releases the employer from an employee's claim of employment discrimination, including sexual harassment, includes a confidentiality or nondisclosure clause. This measure will prohibit employers from entering into nondisclosure agreements pertaining to sexual harassment or sexual assault under any circumstance.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2495, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2495, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3390 Labor, Culture and the Arts on H.B. No. 1924

The purpose and intent of this measure is to appropriate funds to the State of Hawaii Museum of Monarchy History and the State of Hawaii Museum of Natural and Cultural History, to be expended by the Hawaii State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts, Department of Land and Natural Resources, Hawai'i Tourism Authority, Bernice Pauahi Bishop Museum, The Friends of Iolani Palace, Historic Hawai'i Foundation, HT Hayashi Foundation, and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State of Hawaii Museum of Monarchy History, also known as Iolani Palace, and the State of Hawaii Museum of Natural and Cultural History, also known as the Bernice Pauahi Bishop Museum, are irreplaceable cultural treasures for Hawaii. Your Committee also finds that these institutions have lost significant operating revenue due to the drop in the number of visitors as a result of the coronavirus disease 2019 pandemic. Despite the loss of revenues, the museums continue to be responsible for the maintenance and care of their respective collections and aging facilities. Your Committee believes that it is in the best interest of the State to appropriate funds to ensure the continued care, maintenance, and operation of these important repositories of irreplaceable collections of Hawaiian history and culture.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3391 (Joint) Government Operations and Judiciary on H.B. No. 2085

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to expressly provide that the Legislature may authorize political subdivisions to issue tax increment bonds and to exclude tax increment bonds in calculating the debt limit of the political subdivisions.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Department of Planning and Permitting of the City and County of Honolulu; Hawaii Interagency Council for Transit-Oriented Development; Hawaii Community Development Authority; and NAIOP Hawaii. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that having various means of funding capital improvements benefits the State. A diverse financial toolkit builds vibrant and resilient communities. Your Committees further find that a lack of clarity in existing law has clouded the potential

of tax increment financing, which is a method of capturing value generated from rising real property tax assessments. Accordingly, this measure will benefit the State and its residents, and promote investment in vital community infrastructure, by authorizing the use of tax increment financing.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2085, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Judiciary: Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 3 (Gabbard, Kim, Lee).

SCRep. 3392 (Joint) Government Operations and Agriculture and Environment on H.B. No. 2423

The purpose and intent of this measure is to require all state building construction projects and state highway projects to use building and construction materials that seek to reduce their carbon footprint, where feasible and cost-effective.

Your Committees received testimony in support of this measure from the Department of Transportation, one member of the Hawai'i County Council, Kauai Women's Caucus, Climate Protectors Hawai'i, 350.org, Environmental Caucus of the Democratic Party of Hawai'i, Our Revolution Hawaii, and twenty individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that climate change is a matter of global and statewide concern and that state government should be setting an example by affirmatively promoting climate change mitigation whenever possible. Hawaii, for obvious reasons, is particularly prone to the sea level rise that is associated with climate change. Accordingly, this measure will promote climate change mitigation efforts by requiring all state building construction projects and state highway projects to use materials that seek to reduce their carbon footprint, where feasible and cost-effective.

As affirmed by the records of votes of the members of your Committees on Government Operations and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2423, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3393 Education on H.B. No. 1561

The purpose and intent of this measure is to establish and appropriate funds for:

- (1) An Adult Workforce Readiness Program;
- (2) One full-time equivalent Adult Workforce Readiness Program Coordinator for McKinley Community School for Adults; and
- (3) One full-time equivalent Adult Workforce Readiness Program Coordinator for Waipahu Community School for Adults.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, State Council on Developmental Disabilities, McKinley Community School for Adults, Waipahu Community School for Adults, Hawaii State Teachers Association, Chamber of Commerce Hawaii, Workforce Development Council, Susannah Wesley Community Center, Society of Human Resource Management Hawaii, and fifty-eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State's high school students and adult education students, as well as employers, would benefit from a work readiness preparation program. Collaboration between educators and industry employers ensures that students develop the skills and credentials needed to make them highly employable. Your Committee further finds that allowing students, including students at adult and community schools, to earn associate degrees, workforce development diplomas, pre-apprenticeship certificates, and other industry-recognized certificates, helps employers identify suitable candidates and enhances employment success for students. Accordingly, this measure will benefit all manner of students across the State, and employers, by promoting workforce readiness.

Your Committee has amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1561, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1561, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3394 Education on H.B. No. 1562

The purpose and intent of this measure is to add the Director of Hawaii P-20 Partnerships for Education as an ex officio, nonvoting member to the Early Learning Board.

Your Committee received testimony in support of this measure from the Department of Education and one individual. Your Committee received comments on this measure from the Executive Office on Early Learning.

Your Committee finds that the Early Learning Board, which formulates statewide policy relating to early learning, benefits from the inclusion of additional perspectives. As noted in testimony, the Director of Hawaii P-20 Partnerships for Education is positioned to provide meaningful contributions to the Early Learning Board. The Hawaii P-20 Partnerships for Education helps students thrive in

school, work, and life by promoting and strengthening the education pipeline from early childhood through post-secondary education and training. Your Committee further finds that including the Director of Hawaii P-20 Partnerships for Education on the Early Learning Board will promote consistency and synergy between the efforts of the Hawaii P-20 Partnerships for Education and Early Learning Board. Accordingly, this measure will benefit students across the State by adding the Director of Hawaii P-20 Partnerships for Education as an ex officio, nonvoting member to the Early Learning Board.

Your Committee has amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1562, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1562, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kanuha).

SCRep. 3395 Education on H.B. No. 1865

The purpose and intent of this measure is to:

- (1) Repeal the exemption for charter schools from the requirements on the administration and use of the federal funds allocated to the State for public education purposes;
- (2) Clarify that the disbursement of these funds shall not be conditioned on the agreement of a public charter school to amend an existing charter contract; and
- (3) Amend the manner in which per-pupil funds are disbursed to public charter schools.

Your Committee received testimony in support of this measure from Kanuikapono Public Charter School; South Maui Learning Ohana, Inc.; Kihei Charter School; and twenty-two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Education.

Your Committee finds that there have been reports that the State Public Charter School Commission has handled per-pupil funding allocations in a manner that is inconsistent with chapter 302D, Hawaii Revised Statutes, and the legislative intent of that chapter, thereby necessitating this measure in its original form. Your Committee notes, however, concern expressed in testimony regarding proposed amendments to the disbursement of this funding. Accordingly, this measure clarifies chapter 302D, Hawaii Revised Statutes, by amending the manner in which per-pupil funds are disbursed to public charter schools and requiring authorizers to timely provide certain information to public charter schools.

Your Committee has amended this measure by:

- (1) Reverting proposed amendments to section 302D-25, Hawaii Revised Statutes, to restore the existing federal law exemption for charter schools, the State Public Charter School Commission, and authorizers;
- (2) Reverting proposed amendments to section 302D-28, Hawaii Revised Statutes, to restore the existing law's process of requiring authorizers to distribute certain federal funds to charter schools;
- (3) Deleting proposed amendments to section 302D-28, Hawaii Revised Statutes, to restore existing law;
- (4) Clarifying that the State Public Charter School Commission has the discretion to determine whether to consult with the Board of Education in adjustments to allocations;
- (5) Inserting a blank appropriation for certain infrastructure costs and related expenses for eligible public charter schools, subject to lease review and approval by the Department of the Attorney General under certain circumstances;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1865, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1865, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kanuha).

SCRep. 3396 Education on H.B. No. 1939

The purpose and intent of this measure is to appropriate funds for two positions in the Executive Office on Early Learning in order to enhance capacity and resources of the office.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning and Hawaii Children's Action Network Speaks!.

Your Committee finds that substantial investments in high-quality early learning programs yield significant and far-reaching benefits. Children who have accessed early learning programs are more likely to succeed in kindergarten and each successive grade, as well as outside of the classroom and into adulthood. Your Committee further finds that the Executive Office on Early Learning, which promotes the delivery of high-quality early learning programs in the State, is presently in need of additional staffing to fully realize its purpose and potential. Accordingly, this measure will help further the objectives of the Executive Office on Early Learning, and benefit all children in the State, by establishing and funding two new staff positions within the office.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2051, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1939, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1939, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3397 (Joint) Education and Human Services on H.B. No. 1999

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for the Preschool Open Doors Program.

Your Committees received testimony in support of this measure from the Department of Human Services, Executive Office on Early Learning, Early Learning Board, Hui for Excellence in Education, Early Childhood Action Strategy, Children's Action Network Speaks!, Parents And Children Together, Kamehameha Schools, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the Preschool Open Doors Program promotes school readiness by providing child care subsidies for eligible families, helping to alleviate the high cost of care. Your Committees further find that in 2021 funding for the Preschool Open Doors program was significantly decreased. Accordingly, this measure provides funding to continue to support the Preschool Open Doors Program.

Your Committees have amended this measure by inserting an effective date of July 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1999, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1999, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kanuha).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3398 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 957

The purpose and intent of this measure is to:

- (1) Establish the Hawaii State Fusion Center as a program under the Office of Homeland Security as described in chapter 128A, Hawaii Revised Statutes; and
- (2) Establish the position of Hawaii State Fusion Center Director.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Defense, Department of Transportation, Honolulu Board of Water Supply, Hawaiian Electric Company, and one individual.

Your Committee finds that the Hawaii State Fusion Center serves as a focal point for the State for the receipt, analysis, gathering, and sharing of threat-related information between the federal, state, local, and private sector partners. The Fusion Center collaborates among all levels of government to receive, analyze, and disseminate threat-related information in coordination with intelligence partners by coordinating with the sixteen critical infrastructure sectors and lifelines, including electric, water, food, gas utilities, and communications. The collaboration includes the integration of cyber-related threat information, cyber-crime prevention, and analytic capabilities to assist in identifying cyber threats and indicators to individual networks and systems. Your Committee believes that the Hawaii State Fusion Center is an important part of Hawaii's Homeland Security. This measure will protect the citizens and visitors of the State by establishing the Hawaii State Fusion Center as a program under the Office of Homeland Security and establishing the position of Hawaii State Fusion Center Director.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 957, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 957, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3399 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1415

The purpose and intent of this measure is to address violence and threats of violence by:

- (1) Assisting organizations in developing threat assessment teams by providing them with available training and assistance with establishing threat teams;

- (2) Enabling threat assessment teams to obtain and share information from different sources in order to assess threats of violence; and
- (3) Protecting privacy by vetting threat assessment team members that may receive certain sensitive information and providing that the information may not be used for any purpose beyond what is necessary for assessment of a threat.

Your Committee received testimony in support of this measure from the Hawaii State Fusion Center, Department of Education, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that incidents of violence or threats of violence on the basis of race, ethnicity, or ancestry have increased at an alarming rate during the coronavirus disease 2019 pandemic. Recently, Asian Americans have often been the target of these hate crimes. This violence against Asians has been driven in part by the use of anti-Asian terminology and rhetoric that perpetuate anti-Asian stigma, such as the terms “Chinese virus”, “Wuhan virus”, and “kung-flu”. Your Committee believes that a multidisciplinary threat assessment team consisting of individuals with diverse training and experience can help prevent violence. This measure will prevent targeted violence and produce solutions to manage threats by establishing a program within the Hawaii State Fusion Center to train, establish, and operate threat assessment teams, including for educational institutions.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1415, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3400 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1567

The purpose and intent of this measure is to:

- (1) Eliminate the use of monetary bail and require defendants to be released on their own recognizance for traffic offenses, violations, nonviolent petty misdemeanor offenses, or nonviolent misdemeanor offenses; and
- (2) Allow defendants the option to participate in a bail report interview via videoconference.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Hawai'i Alliance for Progressive Action, Common Cause Hawaii, Imua Alliance, Faith Action for Community Equity, and twenty-six individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Judiciary, Department of Public Safety, American Civil Liberties Union of Hawai'i, and Hawaii Substance Abuse Coalition.

Your Committee finds that the State's practice of making the payment of a money bond a condition for pretrial release discriminates based on wealth, exacerbates racial disparities, results in over-incarceration, and imposes unnecessary costs on individuals and society at large. On February 1, 2021, eight hundred eighty-three people were incarcerated throughout the State even though they had not been convicted of a crime. Feeding and caring for an incarcerated person costs \$198 a day in Hawaii. Before the coronavirus 2019 pandemic, the State was spending approximately \$209,000 a day, or \$76,000,000 annually, of taxpayer dollars to incarcerate more than one thousand people statewide, simply because they were too poor to afford bail. These costs come with trade-offs with other state spending priorities like education and healthcare. This measure will reduce the harms of the cash bail system upon the community by taking a necessary step in the State's phased approach to pretrial reform.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1567, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3401 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1586

The purpose and intent of this measure is to:

- (1) Clarify that federal funds received by the State for reimbursement of disaster-related expenses, except for federal funds received by the State to reimburse the Department of Education for disaster-related expenses, shall first be applied to the originating fund used by the department or agency for payment of disaster relief expenses; provided that if the original appropriation has lapsed, the funds shall be returned to the general fund;
- (2) Require the Administrator of the Hawaii Emergency Management Agency to submit an annual report to the Legislature on the status of federal reimbursement moneys for disaster response, and disaster response spending by each agency; and
- (3) Appropriate funds to the Department of Defense for disaster response efforts.

Your Committee received comments on this measure from the Hawai'i Emergency Management Agency, Department of Budget and Finance, and Department of Education.

Your Committee finds that the State has been historically vulnerable to natural disasters, including hurricanes, earthquakes, volcanic eruptions, storm surges, tsunamis, and wildfires. Various state departments and agencies have been affected by natural disasters and emergencies and have spent departmental funds to respond to incidents as necessary. Many departments apply for reimbursement for the costs of emergency response measures from the Federal Emergency Management Agency. However, disaster reimbursement may take months or years, depending on the federal government response. The delay in disaster reimbursements has resulted in the holding

of federal reimbursement funds in the major disaster fund, rather than the funds being returned to the originating department or agency. This measure will allow for quicker reimbursements to state departments and agencies that have expended funds due to disasters and will allow for the State to match federal emergency reimbursement funds.

Your Committee has amended this measure by:

- (1) Restoring statutory language that provides the Hawaii Emergency Management Agency with a rollover provision for unspent funds under \$2,500,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1586, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1586, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3402 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1584

The purpose and intent of this measure is to update:

- (1) The list of federal agencies whose law enforcement officers may make arrests for certain offenses under state law by adding the United States Immigration and Customs Enforcement-Homeland Security Investigations and deleting the United States Citizenship and Immigration Services from the list; and
- (2) References to the titles of the heads of the district offices for the listed federal agencies and the names of these agencies, including the United States Customs and Border Protection.

Your Committee received testimony in support of this measure from the U.S. Department of Homeland Security Immigrations and Customs Enforcement-Homeland Security Investigations, Department of the Attorney General, Department of Transportation, Department of Public Safety, Hawai'i Police Department, and Honolulu Police Department. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that United States Immigration and Customs Enforcement-Homeland Security Investigations special agents work extensively with law enforcement officers of the State on investigations targeting transnational organized criminal activity. These investigations often involve violations of both federal and state criminal law. Your Committee believes that the sophistication of the methods employed by criminal organizations in the State make it essential for United States Immigration and Customs Enforcement-Homeland Security Investigations special agents to have state arrest authority. This measure will help stem the impact of criminality and protect the citizens of Hawaii by updating the list of federal agencies whose law enforcement officers may make arrests for certain offenses under state law by adding the United States Immigration and Customs Enforcement-Homeland Security Investigations and deleting the United States Citizenship and Immigration Services from the list.

Your Committee has amended this measure by:

- (1) Clarifying findings relating to Act 95, Session Laws of Hawaii 2008; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1584, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1584, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 3403 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1588

The purpose and intent of this measure is to:

- (1) Ensure that the State is ready to receive federal funds from the Safeguarding Tomorrow through Ongoing Risk Mitigation Act by establishing the Resilient Hawaii Revolving Loan Fund;
- (2) Appropriate funds for the Resilient Hawaii Revolving Loan Fund; and
- (3) Establish and appropriate funds for two positions within the Hawaii Emergency Management Agency to provide administrative support associated with the Resilient Hawaii Revolving Loan Fund.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency and Department of Human Services. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that as major natural disasters become more prevalent, it becomes more important for the State to leverage as many federal funding opportunities as possible to mitigate against and prepare for their impacts. This measure will allow the State to take advantage of federal capitalization grants to move toward future sustainability and resilience and will align with the State's overall efforts to combat and prepare for the effects of climate change.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1588, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3404 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1747

The purpose and intent of this measure is to require the State Building Code Council to:

- (1) Consult with building industry trade associations to gather cost data on the implementation of certain codes or standards and calculate the financial impact of those building codes and standards, including amortized utility costs, on the cost of constructing single-family and multi-family homes built in the State; and
- (2) Include the cost provided by building industry trade associations on certain codes and standards adopted by the council in the annual written report submitted to the Governor.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii; D.R. Horton Hawaii, LLC; and NAIOP Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii State Energy Office. Your Committee received comments on this measure from Plumbers and Pipefitters UA Local 675.

Your Committee finds that the building codes and standards passed by the International Code Council add to the cost of housing construction and reduce affordability. Your Committee believes that in determining whether to adopt international standards, the State Building Code Council should assess the financial impact of changes to the construction costs, and the impact on amortized utility costs, for single-family and multi-family homes in the State. This measure will mitigate the rising costs of homes in the State by requiring the State Building Code Council to consult with building industry trade associations to gather cost data on the implementation of certain codes or standards and calculate the financial impact of those building codes and standards, including amortized utility costs, on the cost of constructing single-family and multi-family homes built in the State.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1747, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3405 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2118

The purpose and intent of this measure is to:

- (1) Codify the existing Hawaii State Cybersecurity Program, administered by the Office of Homeland Security in partnership with specified entities, to oversee cybersecurity and cyber resiliency matters; and
- (2) Eliminate the state Cybersecurity, Economic, Education, and Infrastructure Security Coordinator position.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the delineation of responsibilities, previously situated in the singular coordinator position, amongst planning and operations at the Hawaii State Fusion Center in the Office of Homeland Security will allow for a more effective and holistic effort to meet the cybersecurity objectives of the State. This measure will benefit the public at large, the general business community, and critical infrastructure owners and operators in Hawaii by codifying the existing Hawaii State Cybersecurity Program and eliminating the state Cybersecurity, Economic, Education, and Infrastructure Security Coordinator position which will no longer be necessary as a result of this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2118, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3406 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 2119

The purpose and intent of this measure is to:

- (1) Create a new Emergency Management Assistance Compact; and
- (2) Repeal the existing Emergency Management Assistance Compact.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency and Hawaii State Energy Office. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that, through the authority of the Governor, the Emergency Management Assistance Compact is implemented by the Hawaii Emergency Management Agency, which is governed by chapter 127A, Hawaii Revised Statutes. Your Committee believes that moving the Emergency Management Assistance Compact terms and provisions into the emergency management series of Hawaii Revised Statutes chapters will provide concise, logical organization to the emergency management laws of Hawaii. This measure will align the Hawaii Emergency Management Agency with the best emergency management practices across the country by

repealing chapter 128F, Hawaii Revised Statutes, and creating a new, appropriately designated chapter in the 127A series of the Hawaii Revised Statutes chapters to reincorporate the Emergency Management Assistance Compact.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2119, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3407 Judiciary on H.B. No. 1459

The purpose and intent of this measure is to require victim restitution in certain juvenile cases.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Mothers Against Drunk Driving Hawaii, and County of Kauai Victim/Witness Program. Your Committee received testimony in opposition to this measure from the Judiciary; Office of the Public Defender; Office of Hawaiian Affairs; one member of the Hawai'i County Council; one member of the Kaua'i County Council; Juvenile Law Center, Policy Advocacy Clinic at Berkeley Law; National Center for Youth Law; American Civil Liberties Union of Hawai'i; Native Hawaiian Legal Corporation; Opportunity Youth Action Hui; Hawaii Foodservice Alliance LLC; Hawai'i Health & Harm Reduction Center; Community Alliance on Prisons; Hawai'i Friends of Restorative Justice; Kupuna for the Mo'opuna; and thirty-six individuals.

Your Committee finds that victim restitution is perhaps the only core victims' right that addresses such a wide range of the devastating effects of crime, including physical, emotional, psychological, financial, and social impacts. Restitution is intended to not only repay the victim of a crime, but also to have a rehabilitative effect on the offender. However, some judges are using their discretion too liberally and not requiring restitution in cases where it is appropriate. Additionally, some judges are interpreting section 571-48, Hawaii Revised Statutes, to mean that the court is only authorized to order restitution as an alternative to community service, rather than having the authority to order either or both. Your Committee believes that there is a benefit to the law violator repaying the victim to right the wrong caused by the violator's criminal conduct. This measure creates a consistent and fair restitution process for all offenders, regardless of their age, by requiring all existing restitution orders in certain juvenile cases to be converted to independent orders at the time the court terminates jurisdiction.

Your Committee has amended this measure by:

- (1) Removing language that would have required victim restitution in certain juvenile cases;
- (2) Requiring all existing restitution orders to be converted to independent orders at the time the court terminates jurisdiction, mimicking the adult system whereby the victim can seek civil enforcement of that order;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1459, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1459, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 3408 Judiciary on H.B. No. 1469

The purpose and intent of this measure is to create an affirmative defense for anyone charged with unauthorized control of a propelled vehicle, where the defendant purchased the vehicle in good faith and believed themselves to be the actual owner of the vehicle.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that an affirmative defense is defined, in section 701-115(b), Hawaii Revised Statutes, as a defense where the defendant is entitled to an acquittal if the trier of fact finds that the evidence, when considered in the light of any contrary prosecution evidence, proves, by a preponderance of the evidence, that the specified fact or facts negate penal liability. Often, in cases involving unauthorized control of a propelled vehicle in the second degree, the prosecution is blindsided at trial when a defendant makes an inference during questioning of a witness, or personally testifies, that the defendant purchased the vehicle. When this occurs, the trial has already commenced, and the prosecution is learning of this defense for the first time. At that point, the prosecution and police are unable to investigate these claims mid-trial, jeopardy has already been attached, and jurors are potentially left to question whether the State has in fact proven the case beyond a reasonable doubt. This measure codifies an affirmative defense for these types of cases, which will still require the prosecution to prove their case beyond a reasonable doubt, but also will put the burden on the defendant to prove the particular defense by a preponderance of the evidence.

Your Committee has amended this measure by:

- (1) Removing language that required the defendant to have purchased the vehicle in good faith;
- (2) Requiring the defendant to have the reasonable belief that they were the actual owner of the vehicle; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1469, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1469, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 3409 Judiciary on H.B. No. 2421

The purpose and intent of this measure is to establish a three-year women's court pilot program in the Circuit Court of the First Circuit, which is intended to acknowledge the distinct pathways that lead women into the criminal justice system and address their individualized needs.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii State Bar Association, Hawai'i Women Lawyers, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there has been a significant increase in the number of women in Hawai'i jails and prisons over the past forty years, resulting in a higher proportion of women who are incarcerated. Nationally, women have been outpacing men in the numbers entering the prison population since 1980, at a rate of seven hundred percent compared to fifty percent for men. Research has shown that for women, histories of abuse, trauma, poverty, mental illness, substance use disorders, and unhealthy relationships intersect with their entry into criminal behavior. Your Committee believes that if these issues are not addressed, the outcome is that these women risk reentering the system, which creates a cycle of suffering not only for themselves but for their families and their community. This measure will benefit Hawai'i women and their families by establishing a three-year women's court pilot program in the Circuit Court of the First Circuit to acknowledge the distinct pathways that lead women into the criminal justice system and be responsive to their individualized needs.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$695,236 in general funds for fiscal year 2022-2023, allocated for the women's court pilot program as follows:
 - (A) \$62,136 for one full-time equivalent (1.0 FTE) social worker V position;
 - (B) \$52,200 each for four full-time equivalent (4.0 FTE) social worker IV positions;
 - (C) \$46,200 for one full-time equivalent (1.0 FTE) circuit court clerk II position; and
 - (D) \$41,100 for one full-time equivalent (1.0 FTE) judicial clerk position;
- (2) Requiring the Judiciary to submit a report to the Governor and Legislature no later than forty days prior to the convening of the Regular Sessions of 2023, 2024, and 2025; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2421, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2421, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 3410 (Joint) Judiciary and Hawaiian Affairs on H.B. No. 1870

The purpose and intent of this measure is to appropriate funds for a program coordinator and various services to support the Judiciary's 'Ōlelo Hawai'i initiatives.

Your Committees received testimony in support of this measure from the Judiciary, Office of Hawaiian Affairs, and four individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that article XV, section 4, of the Hawaii State Constitution affirms that English and 'Ōlelo Hawai'i (Hawaiian language) shall be the official languages of the State. Your Committees further find that the Judiciary has already taken initial steps to explore ways of providing 'Ōlelo Hawai'i resources, interpreter, and translation services to the public. To advance this work, in 2015, the Legislature adopted a concurrent resolution, H.C.R. No. 217, Session Laws of Hawaii 2015, that requested the Judiciary to convene a task force to examine and report on establishing 'Ōlelo Hawai'i resources for the Judiciary. The task force report made several findings including that 'Ōlelo Hawai'i "possesses appropriate specificity, sophistication, and technical breadth of terminology to accurately translate legal terminology from English into 'Ōlelo Hawai'i." Further, the task force found that as an independent branch of government, the Judiciary could effectively serve as a focused model to demonstrate the use of 'Ōlelo Hawai'i. The task force report made several recommendations and identified projects that can serve as a guide to the Judiciary. This measure will appropriate funds to support the implementation of the recommendations and ultimately the revitalization of the Hawaiian language.

Your Committees have amended this measure by:

- (1) Inserting a \$300,000 appropriation amount to support the Judiciary's 'Ōlelo Hawai'i projects as follows:
 - (A) \$100,000 for a program coordinator; and

(B) \$200,000 for implementation, including translation services, website upgrades, preparation of materials, and educational efforts; and

(2) Making it effective on July 1, 2022.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1870, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1870, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, 2 (Lee, Fevella).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3411 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 1637

The purpose and intent of this measure is to authorize a county to impose an annual in-lieu fee on land or improvements on land that are actively used to produce or store renewable energy that is sold to an electric utility, under certain conditions.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy; Public Utilities Commission; Hawaii State Energy Office; City and County of Honolulu's Department of Budget and Fiscal Services; Hawaii Solar Energy Association; Hawaiian Electric Company, Inc.; Kauai Island Utility Cooperative; Clearway Energy Group; and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the successful deployment of renewable energy generation and storage projects to the Hawaii electric system is necessary to ensure that the State's electrical energy needs are met as the State works to achieve its goal of one hundred percent renewable energy by 2045. Electric utilities and independent power producers rely on transparent costs to ensure their proposed projects are completed within budget and contribute to the State's renewable energy portfolio standards. Your Committees reviewed the testimony received and acknowledge that clarifying language is needed to ensure that there are no unintended consequences that may inadvertently and negatively impact the counties, electric utilities, independent renewable energy producers and suppliers, and other stakeholders.

Accordingly, your Committees have amended this measure by:

- (1) Replacing all references to "fees" with "payments", as the payment in lieu of real property taxes is neither a regulatory fee nor a user fee;
- (2) Amending language to reference renewable energy that is sold under a contract, which would also limit the annual fixed payment for the duration of the contract and include independent energy project developers that sell their renewable energy through a contract instead of power purchase agreement, thereby eliminating the risk of fluctuating payments to renewable energy producers and suppliers; and
- (3) Instead of an annual in-lieu fee, authorizing a county to enact an ordinance that establishes a program allowing a fixed annual payment under certain conditions to minimize potential lost revenues to the counties;
- (4) Removing language that prohibits counties from imposing or increasing fees for renewable energy projects for which the county previously granted a real property tax exemption;
- (5) Removing language in section 1 that misstates an electric utility's tax liabilities under county law and further amends section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1637, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1637, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3412 (Joint) Transportation and Government Operations on H.B. No. 1686

The purpose and intent of this measure is to require the Director of Transportation to establish and implement a digital identification pilot program.

Your Committees received testimony in support of this measure from the Department of Transportation, Office of Enterprise Technology Services, and Hawai'i Tourism Authority.

Your Committees find that digital identification has many benefits. With identification being tied to password protected phones, this method would increase both security and convenience. Additionally, digital identification may be useful for law enforcement to be able to identify a person quickly in the case of an emergency such as a medical crisis or car crash. Therefore, this measure implements a pilot program to study the use of digital identification.

Your Committees have amended this measure by removing the prohibition of digital identification being used or accepted as valid proof of identification for REAL ID purposes.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1686, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1686, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3413 (Joint) Human Services and Housing on H.B. No. 1744

The purpose and intent of this measure is to authorize:

- (1) The issuance of general obligation bond proceeds to the Hawaii Public Housing Authority to begin the development and construction of permanent supportive housing units to meet the needs of chronically homeless individuals and families and other vulnerable populations in the State; and
- (2) The Hawaii Housing Finance and Development Corporation to consider any application from the Hawaii Public Housing Authority, partner, or both, for competitive federal low-income housing tax credits for the construction of these units.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Department of Land and Natural Resources, Partners In Care, Catholic Charities Hawai'i, and four individuals. Your Committees received testimony in opposition to this measure from the State Procurement Office.

Your Committees find that Hawaii has one of the highest homelessness rate in the nation, which is, in part, driven by insufficient affordable housing. This measure will address the problem of chronic homelessness in Hawaii, which is a particularly costly problem for the State and one that puts a heavy burden on the State's health care and emergency service systems.

Your Committees note the testimony of the Governor's Coordinator on Homelessness, suggesting the establishment of a pilot program targeting the needs of homeless individuals with serious mental illness, chronic medical conditions, and chronic substance abuse; and in particular, by providing additional short-term shelter and triage capacity.

Your Committees also note the testimony of the State Procurement Office, objecting to the exemption from the Hawaii Procurement Code provided to Hawaii Public Housing Authority under this measure.

Accordingly, your Committees have amended this measure by:

- (1) Establishing a five-year Homelessness Triage Center Pilot Program to be administered by the Department of Human Services to assist homeless adults with serious mental illness, chronic medical conditions, or chronic substance abuse issues access appropriate treatment, shelter, care, and housing by providing temporary shelter and referral services;
- (2) Appropriating \$2,500,000 out of the general revenues of the State of Hawaii for the establishment, implementation, and administration of the homeless triage center pilot program, including funding for one full-time equivalent (1.0 FTE) planner or specialist position;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Deleting section 3(a), which exempts the Hawaii Public Housing Authority from the Hawaii Procurement Code for the purposes of this measure;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1744, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1744, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3414 Labor, Culture and the Arts on H.B. No. 2355

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2021-2023 for Hawaii Employer-Union Health Benefits Trust Fund costs and other cost adjustments for legislative officers and employees of the Senate, House of Representatives, and various legislative agencies, who are excluded from collective bargaining.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau, Office of the Auditor, and Office of the Ombudsman.

Your Committee finds that this measure provides a legislative vehicle that can be used to appropriate funds should the Legislature determine that Hawaii Employer-Union Health Benefits Trust Fund costs and other cost adjustments for legislative officers and employees of the Senate, House of Representatives, and various legislative agencies, who are excluded from collective bargaining, are warranted.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2355, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2355, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3415 Labor, Culture and the Arts on H.B. No. 2091

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (1), which consists of nonsupervisory employees in blue collar positions, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the State and the exclusive representative of collective bargaining unit (1) have reached an agreement, which was later ratified by the unit's members. Your Committee further finds that pursuant to section 89-10(b), Hawaii Revised Statutes, the Governor submitted the cost items and this measure serves as the corresponding legislative approval of those cost items.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2091, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2091, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3416 Labor, Culture and the Arts on H.B. No. 2092

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (2), which consists of supervisory employees in blue collar positions, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2092, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2092, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3417 Labor, Culture and the Arts on H.B. No. 2093

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (3), which consists of nonsupervisory employees in white collar positions, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2093, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2093, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3418 Labor, Culture and the Arts on H.B. No. 2094

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (4), which consists of supervisory employees in white collar positions, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2094, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2094, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3419 Labor, Culture and the Arts on H.B. No. 2095

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (6), which consists of educational officers and other personnel of the Department of Education under the same pay schedule, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2095, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2095, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3420 Labor, Culture and the Arts on H.B. No. 2096

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (8), which consists of non-faculty personnel of the University of Hawaii and the community college system, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2096, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2096, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3421 Labor, Culture and the Arts on H.B. No. 2097

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (9), which consists of registered professional nurses, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the State and the exclusive representative of collective bargaining unit (9) have reached an agreement, which was later ratified by the unit's members. Your Committee further finds that pursuant to section 89-10(b), Hawaii Revised Statutes, the Governor submitted the cost items and this measure serves as the corresponding legislative approval of those cost items.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2097, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2097, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3422 Labor, Culture and the Arts on H.B. No. 2098

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (10), which consists of institutional, health, and correctional workers, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (10) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2098, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2098, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3423 Labor, Culture and the Arts on H.B. No. 2099

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (11), which consists of firefighters, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (11) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2099, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2099, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3424 Labor, Culture and the Arts on H.B. No. 2100

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (13), which consists of professional and scientific employees, who cannot be included in any other bargaining units, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2100, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2100, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3425 Labor, Culture and the Arts on H.B. No. 2101

The purpose and intent of this measure is to appropriate or authorize funds for fiscal year 2022-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (14), which consists of state law enforcement officers, and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used to appropriate or authorize funds if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2101, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2101, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3426 (Joint) Transportation and Government Operations on H.B. No. 1412

The purpose and intent of this measure is to:

- (1) Require counties to provide a minimum distance a vehicle must be moved within a specified timeframe after a vehicle is initially inspected for abandonment to avoid an official classification of abandonment; and
- (2) Require that, before a vehicle can be classified as being abandoned, notice be provided that the vehicle must be moved the specified distance within the specified timeframe or be subject to removal.

Your Committees received testimony in support of this measure from the County of Maui Department of Environmental Management, County of Hawai'i Department of Environmental Management, Hawaii Council of Mayors, Hawai'i State Association of Counties, Maui Metropolitan Planning Organization, and nine individuals.

Your Committees find that abandoned vehicles are a nuisance for Hawaii communities while also being unsafe for the environment and an economic burden for the State. The existing laws that determine how far a vehicle must move to not be abandoned are vague, and this lack of clarity creates a loophole where a vehicle can be moved only an inch to qualify as no longer abandoned. This measure establishes a minimum distance a vehicle must be moved within a specified time frame to be considered not abandoned.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1412, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Transportation: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 3427 (Joint) Transportation and Government Operations on H.B. No. 1413

The purpose and intent of this measure is to:

- (1) Allow the Director of Finance of a county to require payment of outstanding charges and fines owed to the county relating to the disposition of an abandoned vehicle within the county by the registered owner of the abandoned vehicle before issuing a certificate of registration or completing a transfer of ownership, except under certain circumstances; and

- (2) Require the Director of Finance of a county to notify the appropriate county examiner of drivers of individuals who have outstanding charges and fines owed to the county relating to the disposition of an abandoned vehicle for the purposes of suspending, revoking, or prohibiting the renewal of their driver's licenses.

Your Committees received testimony in support of this measure from the County of Maui Department of Environmental Management, County of Hawaii Department of Environmental Management, Department of Finance of the County of Kaua'i, Hawai'i Council of Mayors, Hawaii State Association of Counties, Maui Metropolitan Planning Organization, and eleven individuals.

Your Committees find that abandoned vehicles in Hawaii cost the State large amounts of money in disposal fees. Charges and fines are levied against individuals who abandon their vehicles to offset this cost, but there is no current mechanism that requires the individuals to pay the charges within a reasonable timeframe, resulting in numerous outstanding payments within the State. This measure prohibits the transfer of ownership of vehicles and the renewal of driver's licenses while an individual has an outstanding fine except under special circumstances, as well as authorizing the suspension or revocation of a license for having an outstanding fine.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1413, H.D. 2, and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3428 (Joint) Transportation and Government Operations on H.B. No. 1688

The purpose and intent of this measure is to:

- (1) Subject U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles; and
- (2) Authorize the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

Your Committees received testimony in support of this measure from the County of Kaua'i Office of the Mayor, County of Kaua'i Department of Finance, Hawai'i State Association of Counties, Maui Metropolitan Planning Organization, Hertz Corporation, Enterprise Holdings, one member of the Maui County Council, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii and the Maui Chamber of Commerce.

Your Committees find that U-drive motor vehicles should be classified in the same way as other vehicles regarding registration fees as they can affect highway usage expenses, be abandoned, and add to traffic congestion to the same degree as other motor vehicles. This measure standardizes the registration fees for motor vehicles including U-drive motor vehicles, and adds the mitigation of tourism-related traffic congestion as another way in which these collected fees may be spent.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1688, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3429 (Joint) Human Services and Labor, Culture and the Arts on H.B. No. 1787

The purpose and intent of this measure is to:

- (1) Establish Employment First as a state policy with respect to persons with disabilities;
- (2) Require state and county agencies to implement the Employment First policy in hiring and all programs and services administered or funded by the State or counties; and
- (3) Require the Department of Human Services to apply Employment First principles to Medicaid home- and community-based services waiver program personnel.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii Disability Rights Center, Rainbow Family 808, and four individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Labor and Industrial Relations, and Executive Office on Aging.

Your Committees find that over the past several years, the State has made strides in removing various barriers for individuals with disabilities to enter the workforce, including the enactment of Act 155, Session Laws of Hawaii 2019, which enabled individuals receiving Medicaid to earn up to a livable wage without losing their Medicaid services; and Act 55, Session Laws of Hawaii 2021, which ended the discriminatory practice of paying subminimum wages to individuals with disabilities. This measure will further expand employment opportunities for individuals with disabilities, thereby enabling them to further integrate into their communities.

Your Committees note that S.B. No. 2875, S.D. 1, Regular Session of 2022, is a substantially similar measure. Your Committees believe that the language of S.B. No. 2875, S.D. 1, is preferable as it provides a clearer definition of "Employment First", defines "Person with a disability", and provides a more explicit description of the Department of Human Services' responsibilities.

Your Committees also note the testimony of the Department of Labor and Industrial Relations raising concerns that the requirement under this measure that all state and county agencies share data and information could be construed to require the Department to share confidential data and information, such as unemployment insurance information.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2875, S.D. 1, Regular Session of 2022;
- (2) Clarifying that the sharing of data and information among state and county agencies pursuant to this measure is voluntary; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1787, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1787, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3430 (Joint) Transportation and Agriculture and Environment on H.B. No. 2276

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Transportation for the coordinated removal of albizia and other invasive trees that potentially threaten the public roadways and utility infrastructure on public and private land; and
- (2) Require a two-to-one matching requirement from a public utilities source.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaiian Electric, and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Land and Natural Resources, and one individual.

Your Committees find that non-native albizia trees pose a hazard to public safety and critical infrastructure, including overhead utilities. Invasive albizia trees can grow up to two hundred and fifty feet tall; however, due to their brittle branches and shallow root systems, tropical storms can easily bring down albizia trees, resulting in blocked roadways and millions of dollars in damage to homes and important electric utility lines. This measure will therefore help to facilitate their removal to resolve the safety hazards and environmental threats created by albizia trees.

As affirmed by the records of votes of the members of your Committees on Transportation and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2276, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Acasio, Fevella).

SCRep. 3431 Transportation on H.B. No. 2218

The purpose and intent of this measure is to designate the reef runway at the Daniel K. Inouye International Airport as the Frank T. Okimoto Reef Runway.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that the reef runway was constructed on the coral reef adjacent to the Daniel K. Inouye International Airport in 1977. It was the world's first major runway built entirely offshore and earned one of the Ten Outstanding Engineering Achievements Award from the National Society of Professional Engineers and the Aviation Environment Award from the Federal Aviation Administration. The project engineer for this runway was the late Frank T. Okimoto whose care and dedication for the environment minimized the environmental impact of the runway's construction while also ensuring it would be safe and functional. This measure designates the reef runway as the Frank T. Okimoto reef runway as a tribute to his legacy.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2218, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3432 Transportation on H.B. No. 2336

The purpose and intent of this measure is to:

- (1) Clarify certain provision in chapter 291J, Hawaii Revised Statutes, to better reflect the legislative intent of the photo red light imaging detector systems program; and
- (2) Amend Act 30, Session Laws of Hawaii 2020, as amended, to account for the current timetable of the photo red light imaging detector systems program.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, and Honolulu Police Department. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that statutes relating to the red light imaging detector systems pilot program require further clarification. The Session Laws of Hawaii also need to be amended to match the current timetable of the systems program. Therefore, this measure clarifies various provisions.

Your Committee has amended this measure by:

- (1) Inserting language to require traffic-control signals that are actively monitored by an official photo red light imaging detector system to display a steady yellow indication for a minimum number of seconds;
- (2) Inserting language to require traffic-control signals generally to display a steady yellow indication for a minimum of three seconds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2336, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2336, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3433 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on H.B. No. 2108

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2023, establish a program for the licensure, regulation, and oversight of special purpose digital currency companies;
- (2) Extend operations of companies in the Digital Currency Innovation Lab Pilot Program under certain circumstances; and
- (3) Appropriate funds out of the compliance resolution fund to implement the program.

Your Committees received testimony in support of this measure from the Hawai'i Technology Development Corporation; Cloud Nalu, LLC; Blockchain Solutions Hawai'i; and seven individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Grassroot Institute of Hawai'i.

Your Committees find that the Digital Currency Innovation Lab was established as a two-year pilot program to create economic opportunities for the State through early adoption of digital currency, offer consumer protection by providing guidance to issues of digital currency, and provide data to shape legislation supporting digital currency activities. The pilot program received significant interest from residents in the State and confirmed the need for clear and consistent regulatory guidelines for companies to conduct business in Hawai'i following the end of the pilot program. This measure would establish a program for the licensure, regulation, and oversight of digital currency companies to ensure necessary consumer protections.

Your Committees note that S.B. No. 3025, S.D. 2 (Regular Session of 2022), which was previously passed by the Senate, is a substantially similar measure that also establishes a program for the licensure, regulation, and oversight of digital currency companies. In light of testimony received by your Committees, your Committees conclude that the language in S.B. No. 3025, S.D. 2, is preferable because it contains updated provisions that reflect stakeholder consensus language concerning the anti-money laundering compliance program and the cyber security program.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3025, S.D. 2, a substantially similar measure that establishes a special purpose digital currency licensing program that will replace the Digital Currency Innovation Lab;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2108, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2108, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 3434 (Joint) Health and Hawaiian Affairs on H.B. No. 1894

The purpose and intent of this measure is to accommodate the use of both traditional Native Hawaiian burial practices and environmentally-friendly burial practices by including water cremation in the treatment and disposal of human remains.

Your Committees received testimony in support of this measure from Aloha Mortuary; Council for Native Hawaiian Advancement; Fisher & Associates, LLC; and thirteen individuals. Your Committees received comments on this measure from the Department of Health; City and County of Honolulu Department of Environmental Services; and Hawaii Funeral & Cemetery Association, Inc.

Your Committees find that there has been an increased interest in traditional Native Hawaiian burial practices. Water cremation, also called alkaline hydrolysis, is not only a culturally appropriate method of burial but is also a more eco-friendly process than traditional flame cremation. Compared to flame cremation, water cremation uses one-eighth of the energy and has one-fourth the carbon footprint. This measure accommodates the use of traditional Native Hawaiian burial practices and the burial practice of water cremation.

Therefore, your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1894, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1894, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3435 (Joint) Health and Water and Land on H.B. No. 1954

The purpose and intent of this measure is to:

- (1) Make an emergency appropriation from the general revenues of the State of Hawaii to fund a grant-in-aid to the City and County of Honolulu Board of Water Supply (Honolulu Board of Water Supply) for emergency operations, future planning, and remediation resulting from the contamination of the southern Oahu basal aquifer; and
- (2) Require the Honolulu Board of Water Supply to make reports to the Legislature on all expenditures, remediation efforts, and testing quality prior to the regular sessions of 2023, 2024, and 2025.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, one member of the Hawai'i County Council, Kauai Women's Caucus, 350Hawaii.org, and eighteen individuals. Your Committees received comments on this measure from Department of Land and Natural Resources, Department of Budget and Finance, and two individuals.

Your Committees find that the fuel release from the Department of the Navy's Red Hill Bulk Fuel Storage Facility has caused the Honolulu Board of Water Supply to incur significant costs in taking responsive actions to address the potential impacts of contamination to Oahu's drinking water. It has also forced the Honolulu Board of Water Supply to shut off the Halawa Shaft, and Halawa and Aiea wells, reducing its capacity to provide water service to metropolitan Honolulu, and the Aiea-Halawa neighborhoods of Oahu. This measure will help offset some of the costs already incurred and to support future water resource protection measures.

Your Committees acknowledge the testimony of the Department of Land and Natural Resources, which proposed an amendment that would allow the Honolulu Board of Water Supply to use moneys for outreach, education, and conservation activities.

Therefore, your Committees have amended this measure by:

- (1) Authorizing the Honolulu Board of Water Supply to use grant funding for outreach, education, and conservation activities;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1954, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1954, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Misalucha).

SCRep. 3436 (Joint) Health and Commerce and Consumer Protection on H.B. No. 2260

The purpose and intent of this measure is to:

- (1) Amend the circumstances under which medical cannabis may be transported by and between dispensaries;
- (2) Increase the allowable number of plants for production centers;
- (3) Increase the number of production centers that may be allowed under a dispensary license;
- (4) Increase the number of retail dispensing locations that may be allowed under a dispensary license;
- (5) Redefine the term "medical cannabis production center" to include any series of structures located within the same secured perimeter fence-line;

- (6) Require the Department of Health to establish the fee structure for the submission of applications for additional production centers and retail dispensing locations and for dispensary-to-dispensary sales; and
- (7) Amend the Department of Health's duties with respect to the establishment of standards for manufactured cannabis products.

Your Committees received testimony in support of this measure from the Hawai'i Cannabis Industry Association, Green Aloha Ltd., Aloha Green Holdings Inc., Hawaiian Ethos LLC, Maui Grown Therapies, Noa Botanicals, and eight hundred forty-seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Health, Akamai Cannabis Consulting, and one individual.

Your Committees find that the Medical Cannabis Dispensary System was established to ensure that qualified patients have safe and legal access to medical cannabis. Your Committees additionally find that the Medical Cannabis Dispensary System needs to be updated to increase access to medical cannabis in rural areas, provide the Department of Health with improved administrative control, and increase the supply of medical cannabis in the State. This measure updates the existing Medical Cannabis Dispensary System and requires the Department of Health to establish additional manufacturing and product stability standards for medical cannabis products.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2260, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2260, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5; Ayes with Reservations (Moriwaki, San Buenaventura, Fevella). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (DeCoite, Riviere, San Buenaventura, Fevella). Noes, none. Excused, none.

SCRep. 3437 (Joint) Health and Transportation on H.B. No. 2338

The purpose and intent of this measure is to:

- (1) Make an appropriation from the State Highway Fund to the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund (Toxicology Special Fund) for fiscal year 2022-2023; and
- (2) Authorize the Department of Health to expend funds from the Toxicology Special Fund for the establishment of the state drug and alcohol toxicology testing laboratory (testing laboratory).

Your Committees received testimony in support of this measure from the Department of Health, Department of Transportation, and City and County of Honolulu Police Department.

Your Committees find that Act 196, Session Laws of Hawaii 2021 (Act 196), established the Toxicology Special Fund and authorized the Department of Health to utilize moneys from the Toxicology Special Fund to establish a testing laboratory. However, Act 196 did not appropriate money from the State Highway Fund to the Toxicology Special Fund, nor did it appropriate funds to the Department of Health to establish the testing laboratory. This measure addresses those matters by making an appropriation from the State Highway Fund.

As affirmed by the records of votes of the members of your Committees on Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2338, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Transportation: Ayes, 3. Noes, none. Excused, 2 (Inouye, Shimabukuro).

SCRep. 3438 (Joint) Health and Transportation on H.B. No. 2339

The purpose and intent of this measure is to:

- (1) Make an emergency appropriation from the State Highway Fund to the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund for fiscal year 2021-2022; and
- (2) Authorize the Department of Health to expend funds from the State Drug and Alcohol Toxicology Testing Laboratory Special Fund for the establishment of the state drug and alcohol toxicology testing laboratory.

Your Committees received testimony in support of this measure from the Department of Health, Department of Transportation, and City and County of Honolulu Police Department.

Your Committees find that Act 196, Session Laws of Hawaii 2021 (Act 196), established the Toxicology Special Fund and authorized the Department of Health to utilize moneys from the Toxicology Special Fund to establish a testing laboratory. However, Act 196 did not appropriate money from the State Highway Fund to the Toxicology Special Fund, nor did it appropriate funds to the Department of Health to establish the testing laboratory. This measure addresses those matters by making an emergency appropriation.

As affirmed by the records of votes of the members of your Committees on Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2339, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).
 Transportation: Ayes, 3. Noes, none. Excused, 2 (Inouye, Shimabukuro).

SCRep. 3439 (Joint) Health and Higher Education on H.B. No. 1548

The purpose and intent of this measure is to appropriate funds to the John A. Burns School of Medicine (JABSOM) to expand medical school and residency training through the Department of Veterans Affairs (VA) graduate medical education programs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Healthcare Association of Hawaii, Hawaii Health Systems Corporation, Hawai'i Pacific Health, Hawaii Psychiatric Medical Association, Hawai'i Primary Care Association, The Queen's Health Systems, and three individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that there is a severe shortage of physicians and other health care providers in the State. These shortages threaten the health of citizens and adversely affect the State's health care costs. Your Committees further find that there exists a strong collaboration between JABSOM and the VA Pacific Islands Healthcare System. The VA health system currently invests in Hawaii-based residency positions using federal funds. With additional faculty members, the capacity to train additional Hawaii-based residents through the VA program will enable JABSOM to expand the number of residency rotations and create new training opportunities. This measure appropriates funds to expand medical school and residency training through the VA medical education programs.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1548, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1548, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).
 Higher Education: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 3440 (Joint) Health and Higher Education on H.B. No. 1550

The purpose and intent of this measure is to establish the Hawaii Medical Education Special Fund to be administered by the John A. Burns School of Medicine for graduate medical education and training programs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Health, Hawaii Health Systems Corporation, Hawaii Medical Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, and Hawaii Psychiatric Medical Association. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that there is a severe shortage of physicians and health care providers in the State. The Hawaii Medical Education Council (Council) is tasked with monitoring the State's graduate medical education programs, physician residency and fellowship training, and their ability to meet the health care workforce requirements. The Council also must ensure adequate funding of health care training programs, particularly graduate medical education. Your Committees find that ongoing funding of graduate medical education is vital to addressing the physician shortage in the State. This measure establishes the Hawaii Medical Education Special Fund to provide funding for graduate medical education in the State which will provide a stand alone source of funds to promote the State's efforts to create, attract, and retain qualified health care providers.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1550, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1550, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).
 Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3441 (Joint) Health and Education on H.B. No. 1570

The purpose and intent of this measure is to:

- (1) Require the Department of Health to post monthly updates on its website on all deposits into and expenditures from the Tobacco Enforcement Special Fund, Hawaii Tobacco Settlement Special Fund, and Hawaii Tobacco Prevention and Control Trust Fund;
- (2) Require the Department of Health to submit annual reports to the Legislature that provides an accounting of the receipts and expenditures from the Hawaii Tobacco Settlement Special Fund and Hawaii Tobacco Prevention and Control Trust Fund;

- (3) Require the Department of the Attorney General to monitor all online sales of all tobacco products and electronic smoking device products and post monthly updates on its website regarding the estimated number of these products that have entered the State and how many products, by tonnage, have been confiscated;
- (4) Require the Department of Health to establish a standardized and scientific testing process for the presence of flavoring in all tobacco products and synthetic nicotine products and make the testing protocols and results available to the public;
- (5) Prohibit the sale or distribution of all flavored tobacco and synthetic nicotine products in the State;
- (6) Require the Department of Health, in collaboration with the Department of Education, to establish a take back program to collect and destroy all electronic smoking devices, flavored tobacco or synthetic nicotine products, and tobacco products voluntarily disposed of by students on school property; and
- (7) Require the Department of Health, in collaboration with the Department of Education, to establish quarterly meetings with students at all school complex areas and independent schools to seek input on addressing the youth vaping epidemic.

Your Committees received testimony in support of this measure from the Hawaii Association of Independent Schools; Parents for Public Schools of Hawai'i; Advantage Health Care Provider, Inc.; and twenty-six individuals. Your Committees received testimony in opposition to this measure from the Department of Health; Hawaii Primary Care Association; Retail Merchants of Hawaii; Volcano eCigs; Hawaii Cheapest Vape Shop; Hawaii Smokers Alliance; Consumer Advocates for Smoke-free Alternatives Association; R Street Institute; ABC Stores; BLVK, JOCOR Enterprises, LLC; American Cancer Society Cancer Action Network; Cigar Association of America, Inc.; Consumer Choice Center; Smoke-Free Alternatives Trade Association; and sixty-four individuals. Your Committees received comments on this measure from the Department of Education; Department of the Attorney General; Hawaii State Teachers Association; AlohaCare; American Heart Association, Inc.; Hawaii Children's Action Network Speaks!; Hawai'i Public Health Institute; American Lung Association; Coalition for a Tobacco-Free Hawai'i Youth Council; Hawaii COPD Coalition; Hawaii Food Industry Association; Hawaii Petroleum Marketers Association; Honolulu Youth Commission; one member of the Hawai'i County Council; Hawaii Youth Services Network; Save Medicaid Hawaii; Hawaii Substance Abuse Coalition; Hawaii Dental Hygienists' Association; Hawai'i – American Nurses Association; University of Hawai'i Student Health Advisory Council; We Are One, Inc.; 'Ohana Health Plan; Hamakua-Kohala Health; and forty-nine individuals.

Your Committees find that there has been a dramatic increase in the use of electronic smoking devices by Hawaii's youth. According to the 2019 Hawaii Youth Risk Behavior Survey, thirty-one percent of middle school students and forty-eight percent of public high school students had tried electronic smoking devices, and eighteen percent of middle school students and thirty-one percent of high school students currently vape. Your Committees find that the rates are higher in the neighbor island counties with high school vaping use rates exceeding thirty-five percent for Hawaii, Maui, and Kauai, which rank among the highest in the country. Your Committees also find that in a 2011 modeling study published in the American Journal of Public Health, an estimated 633,252 deaths, nationally, can be averted by the year 2050 if menthol cigarette smoking is banned.

The House Draft No. 1 of this measure added provisions that require:

- (1) The Department of Health to post monthly online updates on certain tobacco enforcement related expenditures, submit annual reports to the Legislature on the receipts of those expenditures, and establish a process for testing the presence of flavoring in tobacco products and synthetic nicotine products and post this information online;
- (2) The Department of the Attorney General to monitor online sales of tobacco products and electronic smoking device products and post online monthly updates; and
- (3) The Department of Health and Department of Education to establish a take back program for students to voluntarily dispose of certain tobacco products and hold quarterly meetings with students on addressing the youth vaping epidemic.

Your Committees acknowledge the overwhelming public outcry, as evidenced by the number of testifiers in opposition or providing comments to this measure particularly with respect to the amendments made by the House Draft No. 1 referenced above that place onerous administrative burdens on various state departments. Your Committees share the concern that these amendments add little to accomplishing the goals of the measure, make the measure untenable, and create a potential legal problem with the measure's title.

Therefore, your Committees have amended this measure by:

- (1) Replacing its contents with the contents of S.B. No. 3118, S.D. 2, Regular Session of 2022;
- (2) Exempting premarket tobacco application products; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1570, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1570, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 1 (Fevella).

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

SCRep. 3442 (Joint) Health and Commerce and Consumer Protection on H.B. No. 1758

The purpose and intent of this measure is to allow temporary permits to be issued to registered nurses and licensed practical nurses from a territory or foreign country who are seeking a state license by endorsement.

Your Committees received testimony in support of this measure from East Hawaii Region of the Hawaii Health Systems Corporation, Hawaii Medical Service Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, Healthcare Association of Hawaii, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, The Legal Clinic, and three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Board of Nursing, Hawai'i State Center for Nursing, and The Queen's Health Systems.

Your Committees find that there is a severe nursing shortage in the State that has been exacerbated by the coronavirus disease 2019 pandemic. During the pandemic, many nurses were recruited to relocate to the State; however, because of the time required to provide the nurses with necessary permitting, they were left waiting for authorization to work instead of treating patients. Making it possible for qualified nurses from another territory or foreign country to be eligible for a temporary permit would create a pathway for more nurses to enter the workforce quickly. This process may encourage nurses from another state, territory, or foreign country to relocate to Hawaii. Therefore, this measure expands application for licensure by endorsement to include registered nurses and licensed practical nurses from a territory or foreign jurisdiction.

Your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1758, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1758, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 3443 (Joint) Higher Education and Water and Land on H.B. No. 2229

The purpose and intent of this measure is to:

- (1) Establish a two-year program at the University of Hawaii to study the impact of sandbag walls, or "sand burritos", on sand movement patterns and coastal erosion and on public trust resources, including beach access, coastal water quality, and recreation, at Ehukai Beach Park; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Oceanit Center, Surfrider Foundation Hawaii Region, and four individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committees find that temporary erosion control devices with sandbag walls, or "sand burritos", and tarp systems can have effects similar to concrete and rock seawalls and other hardening structures. Emergency permits for "sand burritos" are designed to be temporary in nature, and to provide landowners time with the conditioned expectation that they work on short-, mid-, and long-range options. Currently, the Department of Land and Natural Resources' Office of Conservation and Coastal Lands is investigating potential permit non-compliance with each of the remaining erosion control structures. Alleged issues of non-compliance include the failure of the permit holders to secure the proper land disposition from either the Department of Land and Natural Resources' Land Division or the county departments of parks and recreation, failure to file a completion report, failure to clean debris from failed structures, and the use of unauthorized materials.

Your Committees encourage the Department of Land and Natural Resources to temporarily continue issuance of permits for "sand burritos" during the University of Hawaii, College of Engineering's two-year study to continue mitigation efforts against coastal erosion.

Your Committees have amended this measure by:

- (1) Expanding the scope of the University of Hawaii's program to include:
 - (A) Support of the design and implementation of a test project of a soft engineered shoreline protection system with one or more willing landowners, in collaboration with the relevant state and county agencies;
 - (B) Development of a beach and dune management plan for the area to identify potential short- and long-term sediment management techniques and coastal dune restoration and management strategies; and
 - (C) Analysis of potential changes to laws and policies that will allow for the implementation of adaptation measures identified in the study;
- (2) Clarifying that the University of Hawaii, College of Engineering will conduct the two-year study;
- (3) Requiring that one or more willing landowners to pay for the cost of design and implementation of any test project of a soft engineered solution, including removal; and
- (4) Amending section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2229, H.D. 1, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as H.B. No. 2229, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Wakai).
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 3444 Human Services on H.B. No. 2422

The purpose and intent of this measure is to clarify that sentences for domestic violence intervention for abuse-related offenses shall be imposed, with or without probation.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Hawai'i State Coalition Against Domestic Violence. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that section 586-4, Hawaii Revised Statutes, authorizes a family court to order a violator of a temporary restraining order to undergo mandatory domestic violence intervention, which includes both anger management and domestic violence treatment, as domestic violence intervention is recognized as an important part of addressing the root causes of domestic violence. Existing law also provides that the family court may impose additional sanctions applicable to a misdemeanor sentence. Nevertheless, a recent Hawaii Supreme Court decision held that domestic violence intervention may only be ordered as a condition of probation. To clarify the legislative intent in light of this misinterpretation of existing law and to eliminate any confusion, this measure clarifies and restates that a family court is required to impose a sentence for domestic violence intervention, with or without probation, for violations of restraining orders, orders for protection, and abuse of family or household members.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2422, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Acasio, Ihara). Noes, none. Excused, 2 (Misalucha, Fevella).

SCRep. 3445 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1741

The purpose and intent of this measure is to:

- (1) Establish a pilot Visitation and Family Resource Center located at Waiawa Correctional Facility on Oahu with trauma-informed professionals on its staff, who serve as liaisons and hookele for families affected by incarceration;
- (2) Require the Department of Human Services to continue to lead a working group to address visitation and support needs of children and families of incarcerated individuals and submit a report to the Legislature before the 2023 Regular Session; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from Department of Public Safety, Department of Human Services, Community Alliance on Prisons, Hawai'i Children's Action Network Speaks!, Blueprint for Change, Hawaii Youth Services Network, Hawai'i Health & Harm Reduction Center, Rainbow Family 808, Early Childhood Action Strategy, Hawaii Association for Infant Mental Health, Family Programs Hawaii, Hawaii Substance Abuse Coalition, and fifteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance and Office of Information Practices.

Your Committees find that children of incarcerated parents are some of the nation's most vulnerable and marginalized populations. Parental incarceration is noted as being a strong risk factor and determinant for many adverse outcomes for children, including antisocial and violent behavior, mental health problems, failure to graduate from school, and unemployment. Your Committees believe that the establishment of a Family Visitation and Resource Center that removes barriers and facilitates visitation to strengthen and reunify families with an emphasis on the well-being of the child, will not only be in the best interest of the children of incarcerated persons, but also the incarcerated parent, other family members, the community, and the State as a whole.

Your Committees note the testimony of the Office of Information Practices recommending clarification that the exemption provided to the working group under this measure is limited to part I of chapter 92, Hawaii Revised Statutes, that governs meetings held by certain public bodies, as known as the Sunshine Law, and not the entire chapter, which includes other matters, including authorization to charge for copies of government records.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the working group is exempt from part I of chapter 92, Hawaii Revised Statutes, rather than the entire chapter;
- (2) Appropriating \$305,000 to be expended by the Department of Human Services for the establishment of a pilot Visitation and Family Resource Center at Waiawa Correctional Facility on Oahu;
- (3) Appropriating \$115,000 to be expended by the Department of Public Safety for the establishment of a pilot Visitation and Family Resource Center at Waiawa Correctional Facility on Oahu; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1741, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1741, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3446 Transportation on H.B. No. 1953

The purpose and intent of this measure is to provide the Department of Transportation with more flexibility and discretion to address substantial hardship situations that impact airport concession contracts.

Your Committee received testimony in support of this measure from the Airport Concessionaires Committee and one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation and Airlines Committee of Hawaii.

Your Committee finds that the Department of Transportation needs flexibility and discretion to grant relief to airport concessions in times of hardship such as during the coronavirus disease 2019 pandemic. The Department of Transportation has not been able to grant consistent relief to all airport concessions during this pandemic leading to unfair treatment. Airport concession revenue is critical to the finances of airports and in times of crisis, airport concessions cannot appeal to the main public due to their location. The purpose of this measure is to give the Department of Transportation greater flexibility and discretion to grant relief and leeway to consider various relief opportunities.

Your Committee has amended this measure by:

- (1) Specifying that the modification of contract terms applies to any type of contract, lease, holdover, or revocable permit;
- (2) Deleting language that would have established contract term requirements for airport concessions; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1953, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1953, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3447 Labor, Culture and the Arts on H.B. No. 2510

The purpose and intent of this measure is to help working families by:

- (1) Making the earned income tax credit refundable and permanent for taxable years beginning after December 31, 2022, and allowing the earned income tax credits that were earned in previous tax years to be carried forward and used to offset tax liability in subsequent years until exhausted or up to the end of the 2024 taxable year;
- (2) Increasing the State's minimum wage to \$13.00 per hour beginning on January 1, 2023, and thereafter incrementally increasing it by \$1.00 every year, up to \$18.00 per hour on January 1, 2028; and
- (3) Increasing the State's tip credit to \$1.50 per hour beginning on January 1, 2023, and thereafter incrementally increasing it by 25 cents every year, up to \$2.75 per hour on January 1, 2028.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Human Services; two members of the Hawaii County Council; Pride at Work - Hawai'i; League of Women Voters® of Hawaii; Save Medicaid Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; The Church of the Crossroads; Community Alliance Partners; Hawaii State Association of Counties; Pono Hawai'i Initiative; Stonewall Caucus of the Democratic Party of Hawai'i; Early Childhood Action Strategy; Zero Waste Kauai; Hawaii Petroleum Marketers Association; Americans for Democratic Action Hawai'i; Hawai'i Children's Action Network Speaks!; Catholic Charities Hawai'i; and fifty-one individuals. Your Committee received testimony in opposition to this measure from IL Gelato Hawaii, Highway Inn, Gyotaku Japanese Restaurants, Magics Beach Grill, Raise Up Hawaii Kauai, Hawaii Clubhouse Advocacy Coalition, Hawai'i Alliance for Progressive Action, National Federation of Independent Business, Democratic Party of Hawai'i – Education Caucus, Imua Alliance, Society of Human Resources Management, Hawaii Food Manufacturers Association, Hawai'i County Democratic Party, Democratic Party of Hawaii - Labor Caucus; and nineteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Taxation; Tax Foundation of Hawaii; Hawai'i Restaurant Association; Microenvironmental; Retail Merchants of Hawaii; Free Access Coalition; Hawaii Appleseed Center for Law & Economic Justice; UNITE HERE Local 5; Grassroot Institute of Hawaii; Chamber of Commerce Hawaii; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Public Health Institute; Living Wage Hawaii; Maui Chamber of Commerce; Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawaii Workers Center; and twenty-two individuals.

Your Committee finds that, according to a report titled "Self-Sufficiency Income Standard – Estimates for Hawaii 2020" issued by the Department of Business, Economic Development, and Tourism in December 2021, approximately 18.2 percent of two-adult couples with no children, and 34.7 percent of two-adult couples with two children had incomes below the self-sufficiency standard in 2020. For single-adult with no children, single-adult with one child, and single-adult with two children, 43.1 percent, 50.0 percent, and 80.0 percent had incomes below the self-sufficiency level, respectively. The report also provided that a single adult with no children in City and County of Honolulu, Hawaii County, Maui County, and Kauai County, needed to earn an hourly wage of \$18.35, \$14.78, \$17.84, and \$19.33, respectively, in 2020 to be able to meet the individuals' basic needs and to be economically self-sufficient. Your Committee also finds that the annual inflation rate in the United States accelerated to seven percent in the last month of 2021, the highest since June of 1982, which will further increase the cost of living in Hawaii. Your Committee believes that this measure will help raise the quality of life for Hawaii residents, reduce poverty, increase economic activity in the State, and appropriately address inflation and the resulting increase of the cost of living in the State.

Your Committee notes that H.B. No. 1507, H.D. 1 (Regular Session of 2022), titled "A BILL FOR AN ACT RELATING TO TAX FAIRNESS," that passed the House of Representatives and was referred to your Committee on Ways and Means, includes provisions that makes Hawaii's earned income tax credit refundable and permanent. Your Committee believes that H.B. No. 1507, H.D. 1 (Regular Session of 2022), which pertains to income tax is a more appropriate vehicle for this matter.

Your Committee also notes multiple testimonies stating that increasing the State's minimum wage, which has not been changed since January 1, 2018, to \$18.00 per hour over a span of six years is insufficient to address the hardship which befalls the working families in Hawaii. Your Committee notes that S.B. No. 2018 (Regular Session of 2022), which passed the Senate in January 2022, proposes to increase the State's minimum wage on a more accelerated schedule, specifically, to \$12.00 per hour beginning October 1, 2022; \$15.00 per hour beginning January 1, 2024; and \$18.00 per hour beginning January 1, 2026. Your Committee believes that this schedule is preferable, as it more appropriately addresses the hardship that the working families in Hawaii are currently facing.

Your Committee finds that the tip credit currently allows an employer to pay an hourly wage up to 75 cents less than the current \$10.10 minimum wage, when the combined amount that an employee receives from the employer together with tips exceeds \$17.10 an hour. Your Committee received numerous testimonies for the total repeal of the tip credit because it penalizes employees who receive tips or gratuities for their services. In effect, the tip credit serves as a subsidy from customers to the employers of tipped workers, and the employers' obligation to pay the minimum wage is paid in part by customers via their tips. Your Committee received no testimony justifying the treatment of employers of tipped workers as a class of employers different from all other employers obligated to pay the minimum wage.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the purpose section;
- (2) Deleting section 2 relating to the earned income tax credit;
- (3) Replacing the schedule of the minimum wage increase with the schedule provided in S.B. No. 2018 (Regular Session of 2022);
- (4) Reducing the tip credit to 35 cents per hour beginning October 1, 2022, and zero cents per hour beginning January 1, 2026; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2510, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2510, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3448 Labor, Culture and the Arts on H.B. No. 2329

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to place historical markers in the State to indicate significant sites in the life of President Barack Obama, as identified by the Department in consultation with the Hawaii Tourism Authority and State Foundation on Culture and the Arts; and
- (2) Appropriate funds for this purpose.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, and Hawai'i NAACP. Your Committee received comments on this measure from the Department of Budget and Finance, State Foundation on Culture and the Arts, and Society for Hawaiian Archaeology.

Your Committee finds that President Barack Obama, who served as the forty-fourth President of the United States of America from 2009 to 2017, was born on August 4, 1961, at Kapiolani Medical Center for Women and Children in Honolulu, Hawaii. After residing in other places such as Washington state and Indonesia, President Obama returned to Honolulu in 1971 to live with his maternal grandparents, and thereafter attended Punahou School with the aid of a scholarship from fifth grade until he graduated from high school in 1979. In an essay for the Punahou Bulletin published in 1999, President Obama wrote of his years in Honolulu as follows: "The opportunity that Hawaii offered — to experience a variety of cultures in a climate of mutual respect — became an integral part of my world view, and a basis for the values that I hold most dear." Your Committee finds that it is important and appropriate that the State of Hawaii celebrate and commemorate the first President of the United States of America to be born in Hawaii, by placing historical markers at sites that were significant to him during his early childhood.

Your Committee has amended this measure by:

- (1) Clarifying that:
 - (A) If the location identified for a historical marker is on private property or is used as a private residence, the historical marker shall be placed on the property only if the owner of the property agrees to have the marker placed at the location; and
 - (B) If the owner of the property does not agree to have a marker placed on the owner's property, the marker shall be placed on a public property in close proximity to that location;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2329, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2329, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3449 Labor, Culture and the Arts on H.B. No. 886

The purpose and intent of this measure is to:

- (1) Clarify when the State shall be exclusively liable for civil tort claims resulting from the negligent or wrongful act or omission of a professionally licensed or certified employee of the State acting within the course and scope of the employee's office or employment;
- (2) Preclude civil actions or proceedings for money damages against the employee, except for claims based on liability other than an employee's course and scope of employment with the State or other employer; and
- (3) Clarify liability when the State agrees to assume full or partial responsibility in a civil action against a professionally licensed or certified employee.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Transportation; Department of Human Services; Hawaii Association for Justice; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that in *Slingluff v. State*, 131 Hawai'i 239, 317 P.3d 683 (Haw. Ct. App. 2013), the court held that prison physicians are not entitled to a qualified privilege or immunity for the exercise of their professional judgment and discretion, because their actions in diagnosing and treating the plaintiff were medical, not governmental. The application of this rationale can lead to liability for other professionally licensed or certified employees of the State, including nurses, attorneys, and engineers, and make them personally liable for performing their job functions as State employees.

This measure will clarify that the exclusive remedy for a tort claim based on injury or loss of property, or personal injury or death, arising from the act or omission of a professionally licensed or certified employee of the State shall be against the State and not the individual, so long as the State agrees that the employee was acting within the course and scope of the employee's office or employment.

Your Committee notes the testimony of the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO, contending that the qualified immunity under this measure be extended to all State employees, regardless of whether they hold professional licenses. While your Committee understands the basis for such sentiment, the title of this measure precludes the expansion of immunity under this measure to all State employees. Your Committee suggests that this measure does not preclude such a measure from being considered in the future.

This measure also provides that it does not create a right, claim, or cause of action by an employee against the State if the State does not invoke exclusive liability where the allegedly wrongful acts or omissions of its professionally licensed or certified employee are beyond the course or scope of employment. The Department of the Attorney General has clarified that this provision is not intended to preclude or extinguish any pre-existing rights that an employee may have against the State under chapter 662, Hawaii Revised States, including the right to seek declaratory relief. With that understanding, your Committee intends that this measure retains, and does not preclude, the employee's right to seek declaratory relief against the State for its failure to accept responsibility for the alleged negligence or other wrongful acts or omissions by a State employee.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of the measure is to override the Intermediate Court of Appeals' holding in *Slingluff*;
- (2) Clarifying that nothing in section 662-14, Hawaii Revised Statutes, creates a right, claim, or cause of action by an employee against the State if the State does not invoke exclusive liability;
- (3) Inserting an effective date of July 1, 2060, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 886, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 886, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3450 (Joint) Commerce and Consumer Protection and Judiciary on H.B. No. 1830

The purpose and intent of this measure is to:

- (1) Establish the State Self-Insurance Against Property and Casualty Risks Special Fund to be administered by the Comptroller to provide the State with self-insurance against the State's property and casualty risks; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Accounting and General Services, and one individual.

Your Committees find that the State currently expends significant funds every year in insurance premium costs for third-party insurance through its risk management and insurance administration to cover the State's property and casualty risks. This measure would require the State to self-insure against the State's property and casualty risks, thereby reducing the amounts paid in premiums every year.

Your Committees note the concerns raised in testimony, however, that a comprehensive actuarial study should first be completed to identify and address the viability and the potential risks and costs of converting the State to a completely self-insured system. Without this initial study, the State's ability to manage risk exposure may be compromised. Accordingly, amendments to this measure are necessary to address this concern.

Your Committees have amended this measure by:

- (1) Clarifying that the Comptroller shall request that the Governor authorize an advance to the special fund of sufficient sums of money from other funds in the state treasury to the extent permitted by law;
- (2) Inserting language to require the Department of Budget and Finance, in collaboration with the Department of Accounting and General Services and any other applicable department or agency, to perform an actuarial study on the potential risks, costs and economic impact, and viability of the State establishing and administering self-insurance coverage, and to submit the study, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (3) Inserting an appropriation for an unspecified amount to be expended by the Department of Budget and Finance to conduct the actuarial study;
- (4) Making the measure effective upon its approval, provided that sections 2 through 6 of this measure shall take effect on January 1, 2030; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1830, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1830, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 6. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 5. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 3451 Judiciary on H.B. No. 1536

The purpose and intent of this measure is to appropriate supplemental funds for the Judiciary for the fiscal biennium that began on July 1, 2021, and will end on June 30, 2023.

Your Committee received testimony in support of this measure from the Judiciary, Volunteer Legal Services Hawaii, Legal Aid Society of Hawaii, Hawaii State Bar Association, Hawaii Justice Foundation, Hawaii Access to Justice Commission, and Hawaii County Bar Association.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee recognizes that the coronavirus disease 2019 (COVID-19) pandemic has negatively impacted the Judiciary's budget. Notably, the Judiciary's budget was reduced by \$9,000,000 in fiscal year 2019-2020 and \$14,700,000 in fiscal year 2020-2021, for a total reduction of \$23,700,000 for those fiscal years. During the same period, one hundred ninety-two vacant positions were defunded, including twelve permanent judge positions and eight per diem judge positions. Your Committee also recognizes that the Judiciary adjusted to these lower budgets by reducing expenditures for service contracts, regular pay, utilities, jury costs, guardian ad litem and attorney fees, travel expenses, repair and maintenance, and overtime pay.

Your Committee finds that, in addition to the capital improvement projects listed in this measure as it was received by your Committee, the Judiciary has identified seventeen smaller capital improvement projects, the costs of which total \$3,120,000, that are necessary to ensure the safe, effective, and efficient operation of the court system:

- (1) For the First Circuit:
 - (A) Kaahumanu Hale – \$150,000 to waterproof judges' elevator 8, create an apron to divert water from the base of the building, make associated interior repairs, and re-landscape;
 - (B) Kauikeaouli Hale – \$500,000 to add fencing and gates to secure the entry courtyard against after-hours occupancy by unauthorized persons; and
 - (C) Abner Paki Hale – \$250,000 to excavate and waterproof the foundation exterior;
- (2) For the Second Circuit: Hoapili Hale - \$250,000 to replace broken cast iron storm water piping - with plastic piping where not already done;
- (3) For the Third Circuit: Hale Kaulike - \$50,000 to fund a power purchase agreement request for proposals to add solar power above parking;

- (4) For the Fifth Circuit:
- (A) Puuhonua Kaulike - \$125,000 to perform crack repair, reseal and restripe, and reapply miscellaneous markings in parking areas to renew the parking lot;
 - (B) Puuhonua Kaulike - \$300,000 to upgrade security cameras and related cabling to improve courthouse and grounds security;
 - (C) Puuhonua Kaulike - \$500,000 to remove failing duct insulation and install new insulation in multiple open-air locations, including the judges' garage, sally port, and sheriff's holding area;
 - (D) Puuhonua Kaulike - \$500,000 to replace select air handling units;
 - (E) Puuhonua Kaulike - \$100,000 to retrofit lighting in building interior to LEDs; and
 - (F) Puuhonua Kaulike - \$70,000 to retrofit emergency lighting and ballasts to LEDs; and
- (5) For administration and courts of appeal:
- (A) Aliiolani Hale and Kapuaiwa - \$25,000 for sprinkler system reconfiguration, repair, and upgrade;
 - (B) Aliiolani Hale - \$50,000 for temporary mitigation of the worst roof leaks and damages while a long-term solution is explored and implemented;
 - (C) Aliiolani Hale - \$25,000 to regrade and mitigate ponding and disperse condensate disposed from roof level air conditioning equipment along Queen Street;
 - (D) Aliiolani Hale - \$75,000 for skylight repairs;
 - (E) Kapuaiwa - \$50,000 for temporary mitigation of the worst roof leaks and damages while a long-term solution is explored and implemented; and
 - (F) Kapuaiwa - \$100,000 to repair a drain and add an enclosure at the electric service entry stairs.

Your Committee has amended this measure by:

- (1) Appropriating an additional \$200,000 in general funds to Administration (JUD601) for fiscal year 2022-2023 to be allocated as follows:
 - (A) \$100,000 for court-appointed guardians ad litem; and
 - (B) \$100,000 for court-appointed attorneys;
- (2) Subtracting \$203,406 from the amount of general funds appropriated for the First Circuit (JUD310), for the purpose of removing the current funding allocation for the following five vacant positions:
 - (A) Janitor II (position No. 500722) - \$22,146;
 - (B) Court bailiff I (position No. 15958) - \$39,540;
 - (C) Estate & guardianship specialist (position No. 4735) - \$50,016;
 - (D) Judicial clerk II (position No. 25250) - \$48,084; and
 - (E) Juvenile counselor I (position No. 500649) - \$43,620;
- (3) Authorizing the Judiciary to expend moneys appropriated by the measure to provide compensation to court-appointed guardians ad litem and attorneys at rates greater than those specified in section 571-87, Hawaii Revised Statutes; and
- (4) Authorizing an additional \$3,120,000 in general obligation bonds to fund the additional, smaller capital improvement projects identified by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1536, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1536, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 3452 (Joint) Judiciary and Human Services on H.B. No. 1759

The purpose and intent of this measure is to appropriate funds to the Judiciary to contract with non-profit organizations to provide legal counsel and assistance to low-income immigrants.

Your Committees received testimony in support of this measure from the Judiciary, Department of Human Services, Department of Labor and Industrial Relations Office of Community Services, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, The Legal Clinic, Americans for Democratic Action Hawai'i, Catholic Charities Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that laws governing immigration are complex and not easily navigable without legal expertise. Additionally, Hawaii is currently experiencing a critical shortage of low-income legal service providers, which compounds many immigrants'

barriers to obtaining assistance with immigration law matters and other civil legal needs. A number of recent working groups have recommended increasing funding for civil legal services for Hawaii's low-income residents. Despite the significant contributions made by immigrants to the State's gross domestic product, immigration legal services remain prohibitively expensive for low- to moderate-income immigrants, which can further impact their abilities regarding employment, permanent and safe housing, and a number of other services that may include immigration matters. Statistics further indicate having legal counsel in immigration proceedings often makes a difference between whether an individual is allowed to remain safely in the United States or be deported to harmful circumstances or permanently separated from their family. Accordingly, this measure will help fill a critical gap in services for the low-income immigrant members of communities in the State.

Your Committees have amended this measure by:

- (1) Clarifying that the appropriated funds are for the Judiciary to contract with non-profit organizations to provide legal counsel and assistance to low-income immigrants and residents from nations comprising the Compact of Free Association in immigration proceedings, including deportation defense and asylum, and for any other immigration related legal issues;
- (2) Inserting a \$250,000 appropriation amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1759, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1759, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, 2 (Lee, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3453 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on H.B. No. 1585

The purpose and intent of this measure is to reform the legal framework governing emergency management in the State by:

- (1) Clarifying that the powers granted for emergency purposes shall not be inconsistent with the state constitution;
- (2) Providing parameters for the duration of the suspension of laws and require justification for the suspension;
- (3) Authorizing the Governor to require counties to obtain the Governor's approval or the approval of the Director of the Hawaii Emergency Management Agency prior to issuing any emergency order, rule, or proclamation;
- (4) Clarifying that a state of emergency may be extended or terminated by a separate or supplementary proclamation;
- (5) Authorizing the Legislature to terminate a state of emergency, in part or in whole, by a two-thirds vote of the members of each legislative house; and
- (6) Specifying that prohibitions on price increases of essential commodities during a severe weather warning expire seventy-two hours after the effective date and time of the initial declaration or any supplemental proclamation.

Your Committees received testimony in support of this measure from one member of the Kaua'i County Council; State of Hawaii Organization of Police Officers; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and three individuals. Your Committees received comments on this measure from the Hawai'i Emergency Management Agency, Chamber of Commerce Hawaii, Common Cause Hawaii, Grassroot Institute of Hawaii, and one individual.

Your Committees find that the emergence of the coronavirus disease 2019 (COVID-19) and its variants created a great challenge to global health and the economy. The Governor and county mayors have exercised their emergency powers under chapter 127A, Hawaii Revised Statutes, to impose rules to combat the SARS-CoV-2 virus. Your Committees further find that the enforcement of these rules has been critical to efforts limit the spread of the virus, protect the health and safety of the community, manage medical resources, and promote economic recovery. However, the COVID-19 pandemic has also highlighted the importance of clear legal frameworks for state and county emergency management to ensure the State and counties are prepared for any type of emergency. Your Committees believe that existing law relating to emergency management should clearly specify and articulate the bases for emergency actions.

Your Committees have amended this measure by:

- (1) Changing the term "severe weather warning" to "severe warning" to include severe hazard warning messages from the Pacific Tsunami Warning Center, United States Geological Survey, and other public authorities;
- (2) Excluding seasonal price increases from being interpreted as "price gouging"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1585, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1585, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3454 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on H.B. No. 1587

The purpose and intent of this measure is to establish a system of intrastate mutual aid that will allow counties to provide assistance across jurisdictional lines during emergencies.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency.

Your Committees find that some emergencies are so consequential or urgent that they can overwhelm political jurisdictions and their available resources. In such cases, intergovernmental coordination is essential for the protection of lives and property. Your Committees believe that systems of mutual assistance allow for political jurisdictions to assist in the prevention of, response to, and recovery from, these types of emergencies. This measure will allow for better governmental responses to emergencies by establishing a system of intrastate mutual aid that will allow counties to provide assistance across jurisdictional lines during emergencies.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1587, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3455 (Joint) Housing and Education on H.B. No. 2345

The purpose and intent of this measure is to:

- (1) Authorize the acquisition of real property located in Ewa Beach on the island of Oahu; and
- (2) Appropriate funds to the Hawaii Housing Finance and Development Corporation to purchase the fee simple interest or acquire an interest in the real property located in Ewa Beach on the island of Oahu to develop affordable housing, with priority given to Department of Education classroom teachers in the beginning of their careers.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and one individual. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Budget and Finance, and Hawaii Government Employees Association.

Your Committees find that housing affordably is a barrier to teacher recruitment and retention. Policies that increase the availability of affordable housing and grant priority to Department of Education teachers will serve the State's interest in providing more affordable housing and recruiting additional teachers. This measure authorizes and appropriates funds for the acquisition of real property in Ewa Beach for the Hawaii Housing Finance and Development Corporation to develop affordable housing for Department of Education teachers.

Your Committees further find, however, that there are numerous concerns about the development of the Ewa Beach property and the prioritization of affordable housing for classroom teachers at the beginning of their careers. Notably, testimony submitted by the Hawaii State Teachers Association requested that the affordable housing development be made available to teachers of all seniority levels and not only to those beginning their careers. Additionally, testimony submitted by the Hawaii Government Employees Association expressed that other government employees who work alongside teachers should also be provided affordable workforce housing, regardless of which agency they work for or their years of service.

Members of your Committees also note concerns that existing infrastructure and elementary school capacity near the Ewa Beach property are already insufficient to meet the needs of the surrounding community. The development of additional affordable housing without a corresponding investment in nearby infrastructure will further undermine quality of life of those already living in the area. Finally, your Committees note that determinations regarding reductions and waivers of impact fees will be made by the Department of Education.

Your Committees have amended this measure by:

- (1) Requiring the Department of Education to conduct an elementary school needs assessment before any development on the Ewa Beach property;
- (2) Inserting an appropriation in an unspecified amount for the Hawaii Housing Finance and Development Corporation to obtain a fair market appraisal report for the Ewa Beach property;
- (3) Inserting an appropriation in an unspecified amount for the Hawaii Housing Finance and Development Corporation to maintain landscaping and public safety on the Ewa Beach property until a developer is selected; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2345, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2345, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Kanuha).

Education: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Dela Cruz, Kanuha).

SCRep. 3456 Housing on H.B. No. 1917

The purpose and intent of this measure is to indefinitely extend the deadline for the Hawaii Housing Finance and Development Corporation to renegotiate or issue a new ground lease for the Front Street Apartments affordable housing project before the Corporation's requirement to initiate condemnation proceedings is triggered.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 amends this measure by:

- (1) Removing the indefinite extension of the ground lease on the Front Street Apartments; and
- (2) Inserting an appropriation of private activity bonds and funds from the Rental Housing Revolving Fund to the Hawaii Housing Finance and Development Corporation for the purpose of allowing an eligible developer to acquire and rehabilitate the Front Street Apartments affordable housing project in Maui County.

Your Committee received testimony in support of the proposed S.D. 1 from two members of the Maui County Council, Affordable Housing and Economic Development Foundation, Hawaii Appleseed Center for Law & Economic Justice, Ahe Group, and one individual. Your Committee received testimony in opposition to the proposed S.D. 1 from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance.

Your Committee finds that there is a severe shortage of affordable rental housing in the County of Maui. To address the shortage, the Legislature passed Act 150, Session Laws of Hawaii 2018 (Act 150), which appropriated funds to support the Front Street Apartments in Maui County. However, the Hawaii Housing Finance and Development Corporation was unable to renegotiate its lease for the Front Street Apartments before the 2021 deadline set by Act 150, thereby triggering a requirement for the Corporation to initiate condemnation proceedings. Your Committee further finds that a long-term solution for the Front Street apartments is necessary. Additionally, your Committee notes a need for the Hawaii Housing Finance and Development Corporation to work with the Department of the Attorney General and Department of Budget and Finance to find consensus language on this measure.

Accordingly, your Committee has amended this measure by adopting the proposed S.D. 1 and further amending this measure by changing the ground lease to be an amount determined by the Hawaii Housing Finance and Development Corporation Board of Directors.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1917, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1917, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Rhoads).

SCRep. 3457 (Joint) Housing and Human Services on H.B. No. 1749

The purpose and intent of this measure is to establish and appropriate funds for a supportive housing task force to improve data collection on supportive housing needs in the State.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, State Council on Developmental Disabilities, Catholic Charities Hawai'i, and four individuals. Your Committees received comments on this measure from the Office of Information Practices, Department of Budget and Finance, Department of Human Services, and Common Cause Hawaii.

Your Committees find that there is a shortage of over ten thousand housing units for extremely low-income households with incomes below thirty percent of the area median income. Currently, there are no existing systems to address the supportive housing needs in each county for extremely low-income households. This measure establishes and appropriates funds for a task force to collect data on and analyze the supportive housing needs for various populations of vulnerable persons in each county.

Your Committees have amended this measure by:

- (1) Requiring at least one supportive services user or advocate to have a lived experience with homelessness at the time of appointment or earlier;
- (2) Removing the exemption to Chapter 92, Hawaii Revised Statutes; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1749, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1749, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 3458 (Joint) Housing and Government Operations on H.B. No. 1837

The purpose and intent of this measure is to:

- (1) Require each county to submit biennial reports to the Legislature on its efforts to reduce zoning and regulatory barriers to housing development; and

- (2) Require the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority to submit biennial reports based on their review of the counties' reports to the Legislature and their respective boards.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Maui Chamber of Commerce, and Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Planning and Permitting of the City and County of Honolulu, and Grassroots Institute of Hawaii.

Your Committees find that, despite efforts to address the housing shortage in Hawaii, the State will need approximately thirty-six thousand new housing units between 2020 and 2030. However, many state and county regulations, ordinances, and other administrative rules inhibit the development of new housing. Greater flexibility in county zoning and regulation would allow for increased housing development and move the State closer to its goal of increasing affordable housing availability. This measure requires each county to submit biennial reports to the Legislature on the steps it has taken to reduce regulatory barriers to new housing development. The measure also requires the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority to review and submit biennial reports to the Legislature based on their review of each county's reports.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of \$130,000 for one full-time (1.0 FTE) position for the Hawaii Housing Finance and Development Corporation to manage reports and information from each county and prepare reports to the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1837, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1837, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Gabbard).

SCRep. 3459 (Joint) Housing and Government Operations on H.B. No. 1829

The purpose and intent of this measure is to:

- (1) Specify that the entire allocation of the state bond ceiling shall be allocated to the Hawaii Housing Finance and Development Corporation to be used for housing-related projects;
- (2) Require the Hawaii Housing Finance and Development Corporation, in consultation with the respective counties, to allocate specified percentage amounts for housing-related projects in each county;
- (3) Authorize the Hawaii Housing Finance and Development Corporation to accumulate each county's annual allocation before assigning the allocation for housing-related projects, pursuant to the discretion of the Hawaii Housing Finance and Development Corporation Board of Directors;
- (4) Authorize the Hawaii Housing Finance and Development Corporation, with the approval of the Governor, to assign and reassign the Corporation's allocation to the counties;
- (5) Remove the authorization for the Department of Budget and Finance to request return of all or any part of the allocations of any of the counties and to assign and reassign the allocation to other counties or issuers;
- (6) Remove the authorization for counties or issuers to request additional allocations of the state bond ceiling; and
- (7) Change the deadlines for reporting on unused or unassigned allocations and reversion of certain allocations to the State.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Catholic Charities Hawai'i; and Stanford Carr Development, LLC. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance, Department of Planning and Permitting of the City and County of Honolulu, Kaua'i County Housing Agency, one member of the Maui County Council, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General and Ahe Group.

Your Committees find that the Internal Revenue Code of 1986, as amended, provides a formula for the allocation of the State's tax-exempt private activity bond annual ceiling among governmental units that are authorized to issue private activity bonds. However, the State may establish its own formula for allocating the state bond ceiling. This measure specifies that one hundred percent of the State's bond ceiling must be allocated to the Hawaii Housing Finance and Development Corporation for housing-related projects in each county.

Your Committees have amended this measure by:

- (1) Inserting additional findings in section 1;
- (2) Removing sections 2 and 3;
- (3) Inserting language requiring each county or other issuer of private activity bonds to submit quarterly reports to the Department of Budget and Finance on the status or use of its portion of the allocation of the annual state ceiling;
- (4) Specifying that no special purpose revenue bonds requiring allocation of the annual ceiling, unless requested and approved by the Governor and Legislature, shall be authorized between June 30, 2022, and December 31, 2028;

- (5) Specifying further that the allocation of the annual ceiling to a county with a population of five hundred thousand or more between June 30, 2022, and December 31, 2028, shall be used only for rental housing projects eligible for low-income housing tax credits pursuant to section 235-110.8, Hawaii Revised Statutes;
- (6) Removing the repeal date; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1829, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1829, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Gabbard).

SCRep. 3460 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1991

The purpose and intent of this measure is to:

- (1) Prohibit the sale of a bicycle that is reported as stolen and is listed on a publicly available online stolen item database in counties with a population of five hundred thousand or more residents; and
- (2) Require the county police department to establish the publicly available online stolen item database.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1:

- (1) Contains additional findings relating to electronic recordkeeping by pawnbrokers and secondhand dealers;
- (2) Updates the recordkeeping and retention requirements for businesses that purchase previously owned articles to require businesses to keep records upon receipt of any article in an electronic recordkeeping form or a paper form that includes a photograph of the person from whom the article was received; either a complete and accurate description of the article or photographs accurately depicting all markings, names, initials, and inscriptions of the article; and a signed copy of any pawn transaction agreement;
- (3) Requires the chief of police of each county to determine the method of submission of recordkeeping; provided that in any county with a population of five hundred thousand or more, forms shall be submitted electronically and free of charge;
- (4) Exempts dealers who have continually held a pawn or secondhand license since January 1, 2002, from the requirements for a photograph of the person from whom the article was received and submission of recordkeeping by electronic means; and
- (5) Applies the minimum retention of items requirement of fifteen calendar days under section 486M-4, Hawaii Revised Statutes, to all dealers in all counties.

Your Committees received testimony in support of the proposed S.D. 1 from the Honolulu Police Department, Hawaii Pawnbrokers Association, and nine individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from Kama'aina Loan and Cash for Gold. Your Committees received comments on the proposed S.D. 1 from the Department of the Attorney General.

Your Committees find that beyond the inherent safety and economic problems of theft, theft of bicycles additionally impacts the State's sustainability goals of reducing carbon emissions by disincentivizing the use of bicycles for transportation. Reducing resale opportunities for these items is one way to decrease the motivation to steal them. Therefore, this measure establishes a public database to catalogue stolen bicycles and prohibits the sale of bicycles that are reported as stolen and listed on this public database.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending it by:

- (1) Clarifying that in a county with a population of five hundred thousand or more, selling or offering for sale a bicycle that has been reported stolen and is listed on a publicly available online stolen bicycle database is a misdemeanor;
- (2) Clarifying that the prosecution need not prove the state of mind as to the attendant circumstance of the offense occurring in a county with a population of five hundred thousand or more;
- (3) Providing that it is an affirmative defense that the person viewed the publicly available online stolen bicycle database and did not see the bicycle listed prior to sale or offer for sale;
- (4) Clarifying that unique-identifying markings on an article required to be recorded include serial numbers and emblem numbers;
- (5) Specifying that the exemption to photograph and electronic recordkeeping submission requirements applies to dealers who have first obtained a pawn or secondhand license on or before January 1, 2002, and have continuously operated a pawn or secondhand business that is open to the public and has a physical address since January 1, 2002;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1991, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1991, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 3461 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on H.B. No. 2120

The purpose and intent of this measure is to:

- (1) Clarify current practices, policies, and procedures of the State Emergency Management Program and make them consistent with prevailing emergency management best practices; and
- (2) Highlight the intent of the State, Governor, and emergency management agencies to address environmental and climate impacts on emergency management.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency, Department of Defense, Hawaii State Energy Office, Coordinating Group on Alien Pest Species, and two individuals.

Your Committees find that recent incidents, including the coronavirus disease 2019 pandemic, have proven that certain elements in chapter 127A, Hawaii Revised Statutes, need to be revised to conform to current emergency management practices, policies, and procedures of the State Emergency Management Program and with prevailing emergency management best practices. Your Committees believe that the updates provided by this measure, which include adding language that highlights the State's, Governor's, and the Hawaii Emergency Management Agency's focus on climate and environmental impacts on Hawaii, are important for the safety and security of Hawaii. This measure will ensure that the Hawaii Emergency Management Agency is adhering to best practices of emergency management and providing the best protection to the citizens of the State by updating existing law to be consistent with current practices, policies, and procedures.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2120, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2120, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3462 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on H.B. No. 956

The purpose and intent of this measure is to formally establish the Statewide Interoperable Communications Executive Committee and its Coordinator for public safety communications purposes.

Your Committees received testimony in support of this measure from the Department of Defense, Office of Homeland Security, and one individual.

Your Committees find that a formal public safety communications governance body can produce a clear direction for future communications efforts to executive leadership, a framework for impacted parties to collaborate and make recommendations, and more effective and efficient use of financial and technology resources. This measure will better align public safety communications strategies at all levels of government within the State by formally establishing the Statewide Interoperable Communications Executive Committee and its Coordinator for public safety communications purposes.

Your Committees have amended this measure by:

- (1) Adding a definition of "interoperable communications"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 956, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 956, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 3463 Health on H.B. No. 1575

The purpose and intent of this measure is to:

- (1) Expand the scope of practice for physician assistants; and
- (2) Require a sampling of medical records, rather than all medical records, to be reviewed when physician assistants prescribe controlled substances.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Disability and Communication Access Board, Hawaii Medical Board, Hawai'i Pacific Health, Hawai'i Academy of Physician Assistants, Kaiser

Permanente Hawaii, The Queen's Health System, Hawai'i Public Health Association, and two individuals. Your Committee received comments on this measure from Grassroot Institute of Hawaii.

Your Committee finds that the State has a severe shortage of doctors, particularly on the neighbor islands. Utilizing physician assistants is a viable option to manage this physician shortage. Your Committee also finds that physician assistants are skilled medical providers and are authorized to serve as primary care providers. Expanding physician assistants' scope of practice would provide access to health care workers in areas where they are most needed while maintaining a high standard of care for patients. This measure expands the scope of practice for physician assistants.

Your Committee acknowledges the testimony of several stakeholders proposing amendments clarifying the Hawaii Medical Board's authority to require when a physician assistant's medical records must be reviewed.

Therefore, your Committee has amended this measure by:

- (1) Clarifying the Hawaii Medical Board's authority to require when a physician assistant's medical records must be reviewed;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1575, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1575, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3464 Health on H.B. No. 1635

The purpose and intent of this measure is to:

- (1) Establish the Rural Health Task Force within the Department of Health to prepare and develop solutions and make recommendations on registered nurse recruitment and retention in rural areas of Maui, Molokai, and Lanai; and
- (2) Require the Rural Health Task Force to submit a report of its findings, recommendations, and any proposed legislation to the Legislature prior to the Regular Session of 2023.

Your Committee received testimony in support of this measure from one member of the Maui County Council, Hana Health, Hawai'i Primary Care Association, Lāna'i Community Health Center, Maui Chamber of Commerce, The Queen's Health Systems, and Molokai Community Health Center. Your Committee received comments on this measure from the Department of Health, Department of Human Services, and Hawai'i State Center for Nursing.

Your Committee finds that there is a shortage of health care workers in the State, which is most severe on the neighbor islands and in other rural communities. This measure would provide the Department of Health with assistance from the health care providers in east Maui, Molokai, and Lanai in developing tangible action steps to assist with the recruitment and retention of registered nurses in these areas.

Your Committee acknowledges the testimony of the Department of Human Services, which notes that although it provides access to health care coverage and works with hospitals and nursing facilities, it does not have expertise in the recruitment, employment, or management of registered nurses, and thus requests to be removed from the task force.

Therefore, your Committee has amended this measure by removing the Department of Human Services from the Rural Health Task Force.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1635, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1635, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3465 (Joint) Health and Agriculture and Environment on H.B. No. 1806

The purpose and intent of this measure is to require cesspools in the State to be upgraded or converted to a wastewater system approved by the Director of Health before January 1, 2050.

Your Committees received testimony in support of this measure from the Department of Health; Wastewater Alternatives and Innovations LLC; Hawai'i Reef and Ocean Coalition; Rotary Club Hanalei Bay Foundation; Zero Waste Kauai; The Hawaii Association for Marine Education and Research, Inc.; The Coral Reef Alliance; and five individuals. Your Committees received testimony in opposition to this measure from the Hawai'i Association of Realtors and one individual.

Your Committees find that there are approximately eighty-eight thousand cesspools in the State, which discharge fifty-three million gallons of raw sewage into the State's waters every day. This raw sewage threatens public health and the health of the State's streams, coral reefs, and coastal areas. This measure requires cesspools to be upgraded or converted to a wastewater system by January 1, 2050.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1806, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1806, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3466 (Joint) Health and Agriculture and Environment on H.B. No. 1842

The purpose and intent of this measure is to:

- (1) Establish one full-time (1.0 FTE) Climate Change and Human Health Adaptation Specialist within the Department of Health; and
- (2) Appropriate funds for the position and related operating expenses.

Your Committees received testimony in support of this measure from the Department of Health, Americans for Democratic Action Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that major public health organizations, including the United States Centers for Disease Control and Prevention, World Health Organization, and Intergovernmental Panel on Climate Change, have reported that climate change is a critical public health problem. Your Committees further find that while investments in climate change mitigation are sound, there has been insufficient investment in societal adaptation to climate change, specifically for human health. This measure establishes and funds a position for a Climate Change and Human Health Adaptation Specialist within the Department of Health to determine future actions relating to climate change in human health, and to define and implement goals, objectives, policies, and priority guidelines.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1842, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3467 (Joint) Health and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1893

The purpose and intent of this measure is to:

- (1) Require the transfer of the Daniel K. Akaka state veterans Home to the Oahu Regional Health Care System and then to the Department of Health as part of the Oahu Regional Health Care System transfer pursuant to Act 212, Session Laws of Hawaii 2021; and
- (2) Extend, by one year, the date by which the transfer of the Oahu Regional Health Care System to the Department of Health must be completed.

Your Committees received testimony in support of this measure from the Department of Defense, Department of Defense Office of Veterans' Services, Department of Accounting and General Services, Hawaii Health Systems Corporation Oahu Region, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Health; Department of Budget and Finance; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the Daniel K. Akaka State Veterans Home, a facility that will provide long-term care for veterans, their spouses, and gold-star parents, is currently under construction by the Department of Accounting and General Services and Department of Defense with an expected completion date of spring of 2023. The Daniel K. Akaka State Veterans Home is primarily funded through the United States Department of Veterans Affairs and Medicare or Medicaid. Your Committees find that the Department of Accounting and General Services and Department of Defense do not have the expertise to manage a long-term care facility. Your Committees further find that the Oahu Region of the Hawaii Health Systems Corporation currently manages two of the State's nursing homes. Transferring management responsibilities to the Oahu Region of the Hawaii Health Systems Corporation would bring Oahu's three nursing homes under one administrative body and allow them to have the benefit of consolidated purchasing and efficiency. This measure transfers the Daniel K. Akaka State Veterans Home to the Oahu Regional Health Care System and to the Department of Health thereafter.

Your Committees note that part III of this measure extends, by one year, the date by which the transfer of the Oahu Regional Health Care System to the Department of Health must be completed; however, this extension of time is the subject of other measures being heard by the Legislature and therefore is unnecessary to include here.

Therefore, your Committees have amended this measure by:

- (1) Removing part III of this measure, which extends, by one year, the date by which the transfer of the Oahu Regional Health Care System to the Department of Health must be completed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1893, H.D. 1, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1893, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

SCRep. 3468 (Joint) Health and Agriculture and Environment on H.B. No. 2195

The purpose and intent of this measure is to establish and appropriate funds for a Cesspool Compliance Pilot Grant Project to assist low- and moderate-income property owners, including lessees on Hawaiian home lands, with the costs of upgrading, converting, or connecting a cesspool.

Your Committees received testimony in support of this measure from the Department of Health, Department of Hawaiian Home Lands, one member of the Hawai'i County Council, Hawai'i Reef and Ocean Coalition, Wastewater Alternatives and Innovations LLC, Rotary Club Hanalei Bay Foundation, Zero Waste Kauai, and seven individuals. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that Act 125, Session Laws of Hawaii 2017, required all cesspools to be upgraded or converted to a septic system or aerobic treatment unit system, or connected to a sewerage system, by 2050. Your Committees further find that upgrading or converting a cesspool can impose a significant financial burden, particularly on low- and moderate-income families. This measure establishes and appropriates funds for a Cesspool Compliance Pilot Grant Project to help low- and moderate-income property owners upgrade or convert failing cesspools to a wastewater system approved by the Director of Health, or connect a failing cesspool to a sewerage system.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2195, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 3469 (Joint) Health and Agriculture and Environment on H.B. No. 2514

The purpose and intent of this measure is to prohibit the operation of underground storage tanks with a capacity greater than one hundred thousand gallons.

Your Committees received testimony in support of this measure from the Department of Health, City and County of Honolulu Board of Water Supply, 'Ahaui o nā Kauka – Association of Native Hawaiian Physicians, Hawai'i Alliance for Community-Based Economic Development, Hawai'i Alliance for Progressive Action, Ko'olau Waialua Alliance, Livable Hawaii Kai Hui, Sierra Club of Hawai'i, 350Hawaii.org, and twenty-two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Land and Natural Resources Commission on Water Resource Management, and one individual.

Your Committees find that underground storage tanks containing fuel and their related plumbing pose a significant risk of leaking and contaminating potable drinking water aquifers. In December 2021, the United States Navy confirmed that the Red Hill Bulk Fuel Storage Facility on Oahu leaked petroleum into the Navy's water system and threatened to contaminate multiple underground aquifers of Oahu. This measure mitigates that risk by prohibiting the operation of underground storage tanks with a capacity greater than one hundred thousand gallons.

Your Committees have amended this measure by:

- (1) Prohibiting the operation of underground storage tanks with a capacity greater than one hundred thousand gallons beginning July 1, 2023;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2514, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2514, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3470 (Joint) Human Services and Government Operations on H.B. No. 1762

The purpose and intent of this measure is to:

- (1) Require the Executive Director of the Office of Language Access to submit an annual report to the Governor and Legislature on the compliance of state agencies and certain other entities with state and federal language access laws; complaints of noncompliance, if any; resolution of the complaints; and recommendations on how to enhance and promote language access; and
- (2) Appropriate funds to establish three full-time equivalent (3.0 FTE) Limited English Proficiency Language Coordinator positions in the Office of Language Access.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Labor and Industrial Relations – Office of Community Services, Department of Human Services, Hawaii Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, Common Cause Hawaii, Catholic Charities Hawai'i, Hawai'i Children's Action Network Speaks!, Refugee Advocacy Lab, The Legal Clinic, Pacific Gateway Center, and six individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Office of Language Access, Department of Commerce and Consumer Affairs, Department of Defense – Hawai'i Emergency Management Agency, Department of Budget and Finance, and one individual.

Your Committees find that one out of nine persons living in Hawaii has limited proficiency in English. This limitation often impedes those person's access to important benefits and services, including access to health care and other public benefits; essential information during public health emergencies, pandemics, or natural disasters; and access to earned benefits, including unemployment benefits and workers' compensation.

Chapter 321C, Hawaii Revised Statutes, was enacted for the purpose of affirmatively addressing the language access needs of limited English proficient persons defined as individuals who, on account of national origin, do not speak English as their primary language and self identify as having a limited ability to read, write, speak, or understand the English language. These principles are guided by Executive Order No. 13166 and succeeding provisions of federal law, regulation, or guidance. Under chapter 321C, state agencies and covered entities are required to take reasonable steps to ensure meaningful access to services, programs, and activities by limited English proficient persons.

The Office of Language Access was established under section 321C-6, Hawaii Revised Statutes, to provide oversight, central coordination, and technical assistance to state agencies in their implementation of language access requirements. However, existing law does not require the Office to file reports with the Governor or the Legislature on the status of state agencies' implementation of language access requirements. The reporting requirement under this measure will ensure that state agencies and other entities are in compliance with the state and federal language access laws. The establishment of permanent Limited English Proficiency Language Coordinator positions will facilitate the implementation and delivery of each state agency's language access plans.

Your Committees note the testimony of the Office of Language Access, stating that its existing office space cannot accommodate three more positions and requesting that it be allowed to utilize the funding for the establishment of one full-time equivalent (1.0 FTE) Limited English Proficiency Language Coordinator position and to cover the Office's operating expenses for purposes of this measure.

Accordingly, your Committees have amended this measure by:

- (1) Making an appropriation of an unspecified amount to fund:
 - (A) The establishment of one full-time equivalent (1.0 FTE) Limited English Proficiency Language Coordinator position in the Office of Language Access;
 - (B) The operating expenses of the Office of Language Access to collaborate with all state departments to ensure compliance with all state and federal language access laws; and
 - (C) The development of a comprehensive statewide plan to increase language access by the Office of Language Access; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1762, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1762, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3471 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on H.B. No. 1517

The purpose and intent of this measure is to:

- (1) Require coffee blend labels to disclose geographic and regional origins and percent by weight of the blended coffees;
