

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1-22 on S.B. No. 2752

The purpose of this measure is to:

- (1) Establish an income tax credit for taxpayers who are required to seal abandoned wells;
- (2) Clarify the definition of the term "abandoned well";
- (3) Require abandoned well owners to seal the well at their expense; and
- (4) Appropriate funds for positions under the Commission on Water Resource Management.

Your Committee on Conference finds that wells in a state of disuse or disrepair can become conduits for contaminants to be introduced into ground water. Your Committee on Conference further finds that abandoned wells can also become receptacles for the disposal of waste, potentially resulting in additional contamination and associated risk to public health and the environment.

Your Committee on Conference has amended this measure by:

- (1) Deleting the creation of a new section in statute that establishes the abandoned well income tax credit;
- (2) Deleting the appropriation for positions within the Commission on Water Resource Management;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2752, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2752, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nakashima, Branco and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 2-22 on S.B. No. 2163

The purpose of this measure is to elevate the penalty of negligent homicide in the first degree from a class B felony to a class A felony when certain conditions are met.

Your Committee on Conference finds that existing penalties need to be addressed to deter drivers from repeatedly operating their vehicles under the influence of drugs and alcohol or at increased blood or breath alcohol levels. This measure will prevent traffic fatalities and save lives by elevating the penalty of negligent homicide in the first degree from a class B felony to a class A felony when certain conditions are met.

Your Committee on Conference has amended this measure by increasing the lookback period for convictions for operating a vehicle under the influence from ten years within the instant offense to fifteen years within the instant offense.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2163, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2163, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Matayoshi and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 3-22 on S.B. No. 204

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use in-lieu fee mitigation to restore, create, enhance, preserve, or any combination thereof, aquatic habitats or resources as compensatory mitigation.

Your Committee on Conference finds that natural resource agencies prefer compensatory mitigation mechanisms such as in-lieu fee mitigation as in-lieu fee sponsors are often entities with more experience, scientific expertise, and a long-term interest in natural resource conservation. Providing the Department of Land and Natural Resources with an additional mechanism to improve stewardship of aquatic public trust habitats and resources, increased accountability for aquatic resource damage, and a higher quality of restitution for the damaged resource will improve aquatic resource management.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 204, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 204, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nakashima, Branco, LoPresti and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Nakashima, McDermott).

Conf. Com. Rep. 4-22 on S.B. No. 3077

The purpose of this measure is to:

- (1) Add and update definitions to satisfy current industry practice needs;
- (2) Align and remedy inconsistencies between statutory chapters on barbering and beauty culture;
- (3) Remove the five-year license requirement for barber and beauty operator board of barbering and cosmetology member seats; and
- (4) Raise fees for penalties and disciplinary actions and remove medical clearance requirements.

Your Committee on Conference finds that existing law contains various inconsistencies between the two separate statutory chapters that regulate barbering and cosmetology, which have created a number of undue complexities. This measure repeals chapters 438 and 439, Hawaii Revised Statutes, and creates a new chapter to align the regulatory structure for barbering and cosmetology, correct inconsistencies, and update certain provisions to address evolving industry concerns and needs.

Your Committee on Conference has amended this measure by:

- (1) Amending the definition of “beauty instructor”;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3077, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3077, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang, DeCoite and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Kitagawa, Matayoshi, Todd, LoPresti and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 5-22 on S.B. No. 2685

The purpose of this measure is to:

- (1) Establish requirements for cumulative voting and the removal of directors of planned community associations;
- (2) Exempt planned community associations from certain requirements regarding cumulative voting for and the removal of directors under the Hawaii Nonprofit Corporations Act; and
- (3) Require boards of directors of planned community associations, when planning to distribute proxies without the use of association funds, to post notices of their intent to distribute written notices for association meetings at least twenty-one days before distributing the written notices.

Your Committee on Conference finds that the cumulative voting provisions under the Hawaii Nonprofit Corporations Act can be easily manipulated by planned community association boards of directors to prevent minority groups from attaining representation by simply omitting cumulative voting from the notice. This measure clarifies that the cumulative voting provisions under the Hawaii Nonprofit Corporations Act do not apply to planned community associations governed by the State’s planned community association laws and establishes provisions specific to planned community associations.

Your Committee on Conference has amended this measure by making it effective January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2685, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2685, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Gabbard, Chang and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Kitagawa and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 6-22 on S.B. No. 2808

The purpose of this measure is to appropriate funds to the Hawaii Technology Development Corporation for the State Small Business Credit Initiative Program.

Your Committee on Conference finds that the State Small Business Credit Initiative Program is a program that will provide federal funds in three tranches over the next seven years for states to expand and develop certain programs to provide access to capital for small businesses. Your Committee on Conference further finds that this measure is essential for small businesses to not only recover from the economic effects of the coronavirus disease 2019 pandemic, but to grow and expand within the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$500,000; and
- (2) Making it effective on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2808, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2808, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kanuha, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Quinlan, Holt, B. Kobayashi and Okimoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (B. Kobayashi).

Conf. Com. Rep. 7-22 on H.B. No. 2111

The purpose of this measure is to update and improve existing provisions in the Insurance Code and promote consumer protection by:

- (1) Adopting the revised National Association of Insurance Commissioners Suitability in Annuity Transactions Model Regulation to:
 - (A) Require producers to act in the best interest of the consumer when making a recommendation of an annuity; and
 - (B) Require insurers to establish and maintain a system to supervise recommendations;
- (2) Amending the Insurance Commissioner's authority to issue limited licenses to persons selling travel insurance to be inclusive of other general travel insurance products;
- (3) Removing references to outdated and obsolete limited lines product offerings; and
- (4) Amending the regulation of third party administrators by:
 - (A) Excluding dental insurers and dental service corporations; and
 - (B) Requiring third party administrators to include renewal certificates for surety bonds and audited financial statements in their annual reports.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date for the provisions adopting the revised National Association of Insurance Commissioners Suitability in Annuity Transactions Model Regulation to January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2111, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2111, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Kitagawa and Matsumoto.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 8-22 on H.B. No. 2272

The purpose of this measure is to:

- (1) Specify that a condominium declaration may be amended at any time by the vote or written consent of unit owners representing at least sixty-seven percent of the common interest;
- (2) Require the developer's public report to include annual reserve contributions based on a reserve study as part of the breakdown of the annual maintenance fees;
- (3) Clarify time and date requirements for petitions to amend bylaws and calls for special meetings; time frame for approval of minutes; and board meeting participation;
- (4) Clarify the conditions for use of electronic voting devices;
- (5) Specify that the use of electronic meetings and electronic, machine, or mail voting are to be at the sole discretion of the board of directors and expand the circumstances under which such use is authorized;
- (6) Specify that a board of directors may make rules for owner participation at board meetings available on the association's website;
- (7) Require that the reserve study be performed by an independent, certified reserve study preparer who shall not be affiliated with the managing agent of the association and require that the reserve study be prepared or updated at least every three years; and
- (8) Specify that an association's cash flow plan be based on thirty-year projections.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the declaration may be amended by at least sixty-seven percent of unit owners, unless the declaration is amended by the unit owners to require a higher percentage;
- (2) Specifying that the reserve study must be reviewed by an independent reserve study preparer and reviewed or updated at least every three years; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2272, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2272, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Riviere, San Buenaventura and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Kitagawa and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 9-22 on H.B. No. 137

The purpose of this measure is to:

- (1) Remove the authority of county liquor commissions to investigate violations of the liquor tax law and require that such violations be referred to the Director of Taxation for investigation;
- (2) Require applications for liquor licenses to be notarized, rather than verified by oath; and
- (3) Repeal the requirement that investigative reports to the county liquor commissions include whether an applicant is a fit and proper person for licensure and any and all matters that are relevant to the application or license in the judgment of the investigator.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 137, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 137, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Kitagawa, Todd, B. Kobayashi, Morikawa and Matsumoto.

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 10-22 on H.B. No. 2307

The purpose of this measure is to ensure the continued viability of the State's sea salt manufacturing industry by appropriating funds to provide education and support to businesses in the State regarding the United States Food and Drug Administration's industry guidance on colored sea salt.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$300,000 to provide education and support to businesses in the State regarding federal industry guidance on colored sea salt; and
- (2) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2307, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2307, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kanuha, Wakai and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Perruso, Matayoshi and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 11-22 on H.B. No. 1768

The purpose of this measure is to:

- (1) Exempt the instream use of water for traditional and customary kalo cultivation practices from the existing process for disposition of water rights;
- (2) Clarify that the powers and duties of the Commission on Water Resource Management to determine appurtenant water rights include the specification of the water course or the means of access and delivery entitled to by that right;
- (3) Clarify that nothing in chapter 174C, part IV, Hawaii Revised Statutes, relating to the regulation of water use, shall be construed to deny the exercise of an appurtenant right, including access by the holder to conduct activities necessary to assure the use, delivery, and quality of water, that shall not be unreasonably withheld; and
- (4) Clarify that the appurtenant water rights of kuleana and taro lands include access by the holder to conduct activities necessary to assure the use, delivery, and quality of water, that shall not be unreasonably withheld.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1768, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1768, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Acasio and Fevella.
Managers on the part of the Senate.
Ayes, 3; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 1 (Gabbard).

Representatives Hashem, Tarnas, Nakashima, Branco, Perruso and Matsumoto.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 12-22 on H.B. No. 2280

The purpose of this measure is to prohibit planned community associations from prohibiting or unreasonably restricting the use of a unit owner's enclosed yard area for personal agriculture; provided the use is not in violation of the planned community association's existing master landscape plan or other restrictive covenants applicable to the unit.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2280, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2280, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Nishihara and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Hashem, Johanson, Perruso and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 13-22 on H.B. No. 2169

The purpose of this measure is to:

- (1) Clarify that the Department of Public Safety's role is to work with the Department of Transportation and county examiners of drivers to assist inmates in obtaining civil identification cards necessary to transition into the workforce, access social services, and secure housing, rather than issue civil identification cards; and
- (2) Require that any form the Department of Public Safety provides in connection with this assistance be in the inmate's primary language.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2169, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2169, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, Matayoshi, Ganaden, B. Kobayashi and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 14-22 on H.B. No. 2312

The purpose of this measure is to:

- (1) Establish the Women's Corrections Implementation Commission within the Judiciary to ensure implementation of the recommendations from the Final Report of the House Concurrent Resolution No. 85 (2016) Task Force on Prison Reform, to develop and implement an evidence-based, gender-responsive plan to divert non-violent women offenders, especially those with minor children, from the criminal justice system;
- (2) Require the Women's Corrections Implementation Commission to review existing local resources and programs focused on women in the justice system for their effectiveness and capacity for expansion; and
- (3) Require the Women's Corrections Implementation Commission to consider model programs including residential, in-person and community-based rehabilitation programs, supportive and subsidized housing, restorative justice, and educational programs.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$10,000; and
- (2) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2312, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2312, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads, Shimabukuro, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Rhoads, Fevella).

Representatives Ohno, Ichiyama, B. Kobayashi, Ganaden, Morikawa and McDermott.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 15-22 on H.B. No. 1787

The purpose of this measure is to:

- (1) Establish "employment first" as a policy of the State and counties;
- (2) Define "employment first" as the competitive employment and full inclusion of persons with a disability in an integrated setting as a first and preferred option for employment services;
- (3) Require state and county agencies to implement this policy in hiring practices and all programs and services administered or funded by the State or counties; and
- (4) Require the Department of Human Services to apply employment first principles to Medicaid home and community-based services programs.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2022; provided that the requirement that the Department of Human Services apply employment first principles to Medicaid home and community-based services programs shall not take effect until June 30, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1787, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1787, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ihara, Taniguchi, Acasio, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Onishi, Nakashima, Sayama, Belatti, LoPresti and Okimoto.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 16-22 on H.B. No. 1436

The purpose of this measure is to allow the counties to transfer development rights within a comprehensive planning program to protect from development lands at risk from sea level rise, coastal erosion, storm surge, or flooding associated with climate change.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1436, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1436, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Kitagawa, Branco, B. Kobayashi, Kong and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Kitagawa, McDermott).

Conf. Com. Rep. 17-22 on H.B. No. 1872

The purpose of this measure is to require:

- (1) The Department of Land and Natural Resources to recognize that:
 - (A) Game mammals and game birds provide a sustainable food source that merits appropriate resource management to support viable populations sufficient for hunting;
 - (B) Proper management of game populations in appropriate areas minimizes their impacts and provides important benefits; and
 - (C) The State's unique relationship with the ocean requires careful consideration and management of land and ocean activities that prioritize the public trust responsibilities of the State; and
- (2) Each department, office, or agency of the State to update its rules and policies to integrate the local hunting and fishing industries into any food security or sustainability strategies that the department, office, or agency employs.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1872, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1872, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Branco, B. Kobayashi, Kong and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 18-22 on H.B. No. 956

The purpose of this measure is to:

- (1) Establish a Statewide Interoperable Communications Executive Committee and Subcommittee for public safety communications; and
- (2) Establish the Statewide Interoperable Communications Coordinator.

Your Committee has amended this measure by:

- (1) Clarifying that the Statewide Interoperable Communications Coordinator shall coordinate governing body activities to maximize integration and collaboration across the emergency communications landscape;
- (2) Changing the effective date to January 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 956, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 956, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Moriwaki, Kanuha, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Eli, Takayama, Perruso, Clark, Costales, Ichiyama and Ward.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 19-22 on H.B. No. 1588

The purpose of this measure is to:

- (1) Establish the Resilient Hawaii Revolving Loan Fund to make low- or no-interest loans to local governments and nonprofit organizations to conduct hazard mitigation and resiliency projects, using funds anticipated to be available under the federal Safeguarding Tomorrow through Ongoing Risk Mitigation Act; and
- (2) Appropriate funds to administer the Resilient Hawaii Revolving Loan Fund and for positions to administer the Resilient Hawaii Revolving Loan Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 into and out of the Resilient Hawaii Revolving Loan Fund;
- (2) Changing the effective date to July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1588, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1588, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Eli, Perruso, Costales, Ichiyama, Mizuno and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 20-22 on H.B. No. 1412

The purpose of this measure is to require:

- (1) The counties to provide a minimum distance a vehicle must be moved within a specified timeframe after a vehicle is initially inspected for abandonment to avoid an official classification of abandonment; and
- (2) That, before a vehicle can be classified as being abandoned, notice be provided that the vehicle must be moved the specified distance within the specified timeframe or be subject to removal.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1412, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1412, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Moriwaki, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Moriwaki).

Representatives Aquino, Kitagawa, Ilagan, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 21-22 on H.B. No. 1413

The purpose of this measure is to:

- (1) Allow the Director of Finance of a county to require payment of outstanding charges and fines owed to the county relating to the disposition of an abandoned vehicle within the county by the registered owner of the abandoned vehicle before issuing a certificate of registration or completing a transfer of ownership, except under certain circumstances; and
- (2) Require the Director of Finance of a county to notify the appropriate county examiner of drivers of individuals who have outstanding charges and fines owed to the county relating to the disposition of an abandoned vehicle for the purposes of suspending, revoking, or prohibiting the renewal of their driver's licenses.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1413, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1413, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Moriwaki, Acasio, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Representatives Aquino, Kitagawa, Ilagan, Clark and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 22-22 on H.B. No. 1414

The purpose of this measure is to hold a person who is the registered owner of a vehicle that was deemed abandoned or derelict liable and subject to a tiered fine system.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1414, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1414, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Acasio, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Nakashima, Ilagan, Clark and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 23-22 on H.B. No. 1688

The purpose of this measure is to:

- (1) Subject U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles;
- (2) Amend the maximum amount that a county may charge for an additional motor vehicle registration fee; and
- (3) Authorize the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

Your Committee on Conference has amended this measure by:

- (1) Restoring language that authorized each county, by ordinance, to increase the additional motor vehicle registration fee to a maximum of \$10; and
- (2) Changing the effective date to January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1688, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1688, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Moriwaki, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Kitagawa, Ilagan, Clark and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 24-22 on H.B. No. 2416

The purpose of this measure is to inform the public of the sources of campaign spending contributions by:

- (1) Permitting 501(c)(4) nonprofit organizations to use donations for electioneering communications, independent expenditures, or contributions only upon receipt of written consent from the donor to use such donations for these purposes and requiring nonprofit organizations to provide certain written notice to donors;
- (2) Requiring 501(c)(4) nonprofit organizations to disclose the name and address of each donor who donates an aggregate of more than \$10,000, with certain exceptions; and
- (3) Specifying that the disclosure date of an electioneering communication and only subsequent electioneering communications is the first date the original or subsequent electioneering communication is made.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the consent, notice, disclosure, and reporting requirement under this measure are applicable to 501(c)(4) nonprofit organizations that are subject to Chapter 11, Hawaii Revised Statutes, relating to elections, and are operating as noncandidate committees;
- (2) Exempting election advertisements published by electronic means and candidate debates or forums made by or on behalf of an organization sponsoring the debate or forum from being considered electioneering communications;
- (3) Requiring the disclosure by 501(c)(4) nonprofit organizations of the name and address of each donor making a donation individually or aggregating more than \$10,000;
- (4) Requiring disclosure of an electioneering communication and subsequent electioneering communication on the first date the electioneering communication or subsequent electioneering communication is publicly distributed, rather than on the first date these electioneering communications are made;
- (5) Clarifying that the disclosure date for mailers means the date the mailers are first mailed;
- (6) Changing the effective date to January 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2416, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2416, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Matayoshi, Kitagawa, Nakashima and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 25-22 on H.B. No. 1475

The purpose of this measure is to require:

- (1) Legislators and certain state employees whose financial disclosure statements are public record to complete a live ethics training course administered by the State Ethics Commission within ninety days of taking office and at least once every four years thereafter;
- (2) All other state employees to complete either a live or an online ethics training course administered by the State Ethics Commission within ninety days of the start of employment and at least once every four years thereafter; and
- (3) Existing state legislators and employees who have not received ethics training within the immediately preceding three years of the effective date of this measure to complete a live or an online ethics training course within twelve months of this measure's effective date and at least once every four years thereafter.

Your Committee on Conference finds that, in light of the COVID-19 pandemic, there should be flexibility given to the State Ethics Commission to do virtual ethics training with a virtual video platform of the Commission's choice. Furthermore, ethics training done in this manner should be considered to fulfill the live ethics training course requirements provided in this measure. Your Committee on Conference notes the concerns of the public that a penalty for state employees who choose not to complete the required ethics training should be included in this measure. However, your Committee on Conference also notes that the State Ethics Commission already has powers to address instances of blatant noncompliance and as such feel there is no need to include any remediation of actions within this measure.

Your Committee on Conference has amended this measure by:

- (1) Allowing the implementation of the online ethics training course to include previously recorded ethics training courses originally conducted either in person or via videoconference and any other prerecorded material authorized by the State Ethics Commission;

- (2) Requiring state agencies to assist the State Ethics Commission by providing technical support as needed for the ethics training courses;
- (3) Changing the effective date to January 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1475, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1475, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Nakashima, Costales, Mizuno and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 26-22 on S.B. No. 2457

The purpose of this measure is to appropriate funds to the Department of Labor and Industrial Relations' Office of Community Services to restore funding for Immigrant Resource Centers for the purpose of providing staff and resources to assist immigrant and refugee populations throughout the State; provided that the Office includes an outreach component in the services it provides.

Your Committee on Conference finds that despite being vital members of the community and workforce in Hawaii, many immigrants face barriers to success, including discrimination, cultural misunderstanding, and language access to government information and services. Your Committee on Conference also finds that from fiscal years 2014 through 2017, the Office of Community Services maintained Immigrant Resource Centers in all four counties to provide low-income immigrants with the needed support services; however, the centers are no longer operating due to the lack of funding. This measure will restore funds for the Immigrant Resource Centers to provide the immigrant and refugee populations the necessary support to transition into life in Hawaii and increase opportunities to make civic and economic contributions to the community.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2457, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2457, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Taniguchi, Shimabukuro, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Onishi, Sayama, Aquino and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 27-22 on S.B. No. 152

The purpose of this measure is to:

- (1) Amend requirements for the restraint of child passengers;
- (2) Require a rear-facing child passenger restraint system with a harness for children under two years of age;
- (3) Repeal exceptions for compliance; and
- (4) Raise certain fines for violations.

Your Committee on Conference finds that child safety requirements in motor vehicles need to be improved. Your Committee on Conference further finds that some exceptions for safety compliance should be repealed, and that fines for violations should be increased to encourage compliance with legal requirements.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 152, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 152, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Gabbard, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Ilagan, Clark, Takumi and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Takumi).

Conf. Com. Rep. 28-22 on S.B. No. 2118

The purpose of this measure is to require the driver of a moped to be in immediate possession of a valid driver's license or instruction permit at all times.

Your Committee on Conference finds that existing law governing moped licenses can create confusion and difficulty in law enforcement. The statutes require a moped operator to have a license but do not specify that this license must be on the operator's person when operating a moped. This measure clarifies that when operating a moped, the driver must have their moped license on their person.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2118, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2118, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, Inouye and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Matayoshi, Clark, Ilagan, D. Kobayashi and Matsumoto.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 29-22 on S.B. No. 2059

The purpose of this measure is to designate the 'ōhi'a lehua as the state endemic tree.

Your Committee on Conference finds that the 'ōhi'a lehua is an endemic plant species found only in the Hawaiian Islands that has unique cultural, ecological, and economic value to the people of Hawaii. Your Committee on Conference also finds that the existence of the 'ōhi'a lehua is currently under threat, including from diseases such as a fungal pathogen known as rapid 'ōhi'a death. Your Committee on Conference believes that this measure will not only allow the people of Hawaii to recognize the 'ōhi'a lehua's cultural and ecological importance to the State, but also raise awareness of the critical threats the endemic plant species is currently facing and prompt effective conservation and expansion of its habitat in the State.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2059, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2059, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keohokalole and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Kapela and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 30-22 on S.B. No. 2202

The purpose of this measure is to designate the month of April of each year as Volunteer Month in Hawaii.

Your Committee on Conference finds that volunteers play a critical and irreplaceable role in providing essential support to the community. Your Committee on Conference also finds that, on a national level, April has long been dedicated to the recognition of the services volunteers provide in their communities. By designating the month of April of each year as the State's Volunteer Month, this measure honors the good deeds performed by volunteers in the community and encourages participation in service projects throughout the month.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2202, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2202, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Ihara and Fevella.

Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Gates, Nakashima, Har and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 31-22 on S.B. No. 2960

The purpose of this measure is to:

- (1) Require the Department of Agriculture to partner with Hawaii's agricultural community to establish and implement a food safety certification training program to help small- to medium-sized farms comply with federal food safety certification mandates; and
- (2) Appropriate funds.

Your Committee on Conference finds that compliance with federal food safety requirements can be challenging for Hawaii's small farms due to a lack of resources and knowledge of food safety requirements. Additional education and support for Hawaii's small farmers are necessary to ensure the continued productivity and viability of the State's agricultural industry. Accordingly, this measure requires the Department of Agriculture to partner with Hawaii's agricultural community to implement a food safety certification training program for small- and medium-sized farms.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$265,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2960, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2960, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Shimabukuro, Acasio and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Hashem, Quinlan, Perruso, Matayoshi and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 32-22 on S.B. No. 2990

The purpose of this measure is to:

- (1) Establish a cover crop reimbursement pilot program to provide up to seventy-five percent cost reimbursement to farming operations in the State for the acquisition of cover crop seeds, green manure, or compost;
- (2) Require the convening of a review panel to screen and rate applicants on the quality of their cover crop, green manure, and composting practices;
- (3) Establish a cover crop reimbursement pilot program manager position within the department of agriculture to administer the program;
- (4) Require reports to the legislature; and
- (5) Appropriate funds.

Your Committee on Conference finds that the use of cover crops significantly increases agricultural productivity, which is essential to the State's food security and self-sufficiency goals. A cover crop program would incentivize beneficial and sustainable use of cover crops by agricultural producers in the State. Accordingly, this measure establishes and funds a cover crop pilot program to be administered by the Department of Agriculture.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$300,000;
- (2) Deleting the proviso limiting expenses allowed for administrative costs; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2990, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2990, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Shimabukuro, Acasio and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Hashem, Perruso and Matsumoto.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 33-22 on S.B. No. 339

The purpose of this measure is to extend the period during which the important agricultural land qualified agricultural cost tax credit is available.

Your Committee on Conference finds that the important agricultural land qualified tax credit is crucial to the State's food security and self-sufficiency objectives. However, the Department of Agriculture is not able to certify tax credits for taxable years beginning after December 31, 2021. This measure extends the period during which the important agricultural land qualified tax credit is available until December 31, 2030.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 339, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 339, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso, Morikawa and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 34-22 on S.B. No. 1411

The purpose of this measure is to:

- (1) Define "pre-contact historic property";
- (2) Clarify that the Historic Preservation Program includes providing consultation to counties and public and private agencies involved in historic presentation and the development, publication, and distribution of materials about protections for burials, historic sites, and archaeological resources;
- (3) Amend the composition and duties of the Hawaii Historic Places Review Board;
- (4) Increase civil and administrative fines for certain violations of historic and preservation requirements; and
- (5) Hold violators liable for costs associated with mitigation or preservation measures.

Your Committee on Conference finds that the State continues to strike a balance between the preservation and existence of Native Hawaiian traditional and cultural practices amidst construction, development, and modernization. Clarifying the responsibilities of several key programs and organizations, including the Hawaii Preservation Program, Hawaii Historic Places Review Board, and the community at-large, will continue to ensure the preservation and protection of Native Hawaiian culture and traditions.

Your Committee on Conference has amended this measure by:

- (1) Deleting the proposed definition of "pre-contact historic property";
- (2) Deleting the requirement that the comprehensive historic preservation program develop, publish, and distribute certain informational materials;
- (3) Deleting changes to the review board membership and duties;
- (4) Deleting language that would have imposed a fine of no more than \$30,000 on a violator who directly or indirectly causes damage to any pre-contact historic property as determined by the Department of Land and Natural Resources in consultation with the Office of Hawaiian Affairs;
- (5) Requiring any landowner or developer responsible for projects where a violation is found to execute any mitigation and preservation measures as ordered by the Department of Land and Natural Resources and be jointly and severally liable for associated costs;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1411, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1411, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Lowen, Branco and McDermott.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 35-22 on S.B. No. 2767

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources for the deployment, replacement, and maintenance of fish aggregation devices.

Your Committee on Conference finds that the State's system of fish aggregation devices, or FADs, maintained by the Hawaii Institute of Marine Biology provides enhanced fishing opportunities for island fishers. Maintenance of the FAD program is labor-intensive as the devices are prone to breaking off and frequently need to be replaced or recovered and re-deployed, resulting in less fish for personal or community consumption and increased operational costs. Sufficient and timely upkeep and replacement of FADs may minimize the length of time off-station and the resulting lost fishing opportunities.

Your Committee on Conference has amended this measure by inserting an appropriation of \$350,000 to support the Fish Aggregation Device Program.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2767, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2767, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 36-22 on S.B. No. 3329

The purpose of this measure is to repeal chapter 634F, Hawaii Revised Statutes, the Citizen Participation in Government Act, and enact the Hawaii Public Expression Protection Act in its place

Your Committee on Conference finds that the enactment in 2002 of Hawaii's Citizen Participation in Government Act was intended to promote the rights of citizens to participate in government and to protect citizens from the chilling effect of retributive strategic lawsuits against public participation, or SLAPP suits. Your Committee on Conference further finds that, due to narrow and confusing provisions under the Act, courts often decline to apply its procedural protections. Your Committee on Conference additionally finds that this measure modernizes the State's anti-SLAPP laws by adopting the Uniform Public Expression Protection Act, which establishes procedural protections for all parties and clearer instructions for courts to fairly and expeditiously dispose of SLAPP claims.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3329, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3329, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 37-22 on S.B. No. 1211

The purpose of this measure is to repeal the exemption for certain vehicles used by farmers from the motor carrier safety law.

Your Committee on Conference finds that section 286-208, Hawaii Revised Statutes, is superseded by new federal regulations and is thus outdated. This measure repeals the outdated statute as its existence could disqualify the State from receiving certain federal funding.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1211, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1211, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Kitagawa, Nakashima, LoPresti and Matsumoto.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 38-22 on S.B. No. 3335

The purpose of this measure is to appropriate funds to support the operational expenses of the Hawaii Wing of the Civil Air Patrol.

Your Committee on Conference finds that the Hawaii Wing of the Civil Air Patrol provides invaluable assistance in emergency and disaster response efforts in the State. This measure will ensure the safety of the State's visitors and residents by appropriating funds for operational expenses of the Hawaii Wing of the Civil Air Patrol.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 to fund the operational expenses of the Hawaii Wing of the Civil Air Patrol; and
- (2) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3335, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3335, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Eli and Ward.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 39-22 on S.B. No. 3140

The purpose of this measure is to:

- (1) Require the holder of a controlled substances registration to immediately and verbally report to the Administrator of the Narcotics Enforcement Division of the Department of Public Safety any suspected theft, embezzlement, fraud, or diversion of a controlled substance in the holder's inventory, and to subsequently submit a written report; and
- (2) Establish a misdemeanor penalty for a person who knowingly prevents another from reporting any suspected theft, embezzlement, fraud, or diversion, or who knowingly fails to provide required information to the Administrator.

Your Committee on Conference finds that the theft, embezzlement, fraud, and diversion of controlled substances threaten public health and safety and suspected incidents of such are often not being reported in a timely matter to the Department of Public Safety for various reasons, making it substantially more difficult for the Department of Public Safety to enforce the Uniform Controlled Substances Act. This measure will assist the Department of Public Safety in enforcing the Uniform Controlled Substances Act.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3140, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3140, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Kitagawa, Matayoshi, Mizuno and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 40-22 on S.B. No. 3141

The purpose of this measure is to update the Uniform Controlled Substances Act to make it consistent with the federal Controlled Substances Act.

Your Committee on Conference finds that existing law requires that if a substance is added, deleted, or rescheduled by an emergency scheduling action taken by the Department of Public Safety, or under federal law, then the Department is required to recommend that the Legislature make corresponding changes to state law. Your Committee on Conference further finds that if the Legislature does not make the Department of Public Safety's temporary designation of new controlled substances permanent, the Department's temporary designations will be nullified. This measure eliminates the differences between federal and state law and avoids nullification of controlled substances that were temporarily designated in 2021.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3141, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3141, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Kitagawa, Matayoshi, Har and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 41-22 on S.B. No. 3085

The purpose of this measure is to:

- (1) Provide a comprehensive law setting forth military judicial procedures, which will apply to all members of the State's military forces while not in federal service; and
- (2) Repeal the existing Hawaii Code of Military Justice.

Your Committee on Conference finds that the existing Hawaii Code of Military Justice fails to provide for effective and efficient good order and discipline in the state military forces because it lacks the necessary disciplinary options. This measure will address those issues, further develop confidence in an independent military justice system, and bring the military justice process in line with the Uniform Code of Military Justice by repealing the existing Hawaii Code of Military Justice and replacing it with a new chapter that sets forth military judicial procedures, which apply to all members of the State's military forces while not in federal service.

Your Committee on Conference has amended this measure by changing the effective date to January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3085, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3085, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Rhoads and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, Matayoshi, B. Kobayashi, Ganaden, Morikawa and McDermott.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 42-22 on S.B. No. 3165

The purpose of this measure is to:

- (1) Amend the driver's license revocation period for first-time offenders convicted of operating a vehicle under the influence of an intoxicant and persons who do not install an ignition interlock device;
- (2) Allow for the early termination of a driver's license revocation;
- (3) Require any person operating a vehicle with an ignition interlock device to have government-issued identification in their immediate possession;
- (4) Amend the lookback period and sentencing requirements for violations of operating a vehicle after license and privilege have been suspended or revoked; and
- (5) Amend the offense of circumventing or tampering with an ignition interlock device to include obscuring the camera lens or failing to provide a picture of the driver, and extend the lookback period.

Your Committee on Conference finds that operating a vehicle while under the influence of alcohol and drugs continues to be a serious problem on Hawaii's roads. An ignition interlock device is an effective tool to prevent a person under the influence of alcohol from driving. This measure helps strengthen the State's ignition interlock device laws.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3165, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3165, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Riviere, Rhoads and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Matayoshi and Ward.

Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 43-22 on S.B. No. 2091

The purpose of this measure is to establish a comprehensive application process for executive pardons.

Your Committee on Conference finds that county prosecutors and crime victims in the State do not receive advance notice of applications for executive pardons, creating a situation where neither prosecutors nor the victims are able to provide any input for the Governor's consideration, as they do for furlough and parole prior to an offender's conviction or sentencing. This measure will allow the Governor to make more informed decisions by establishing a consistent and reliable means for prosecutors and victims to be able to provide input on all applications for pardon.

Your Committee on Conference has amended this measure by:

- (1) Inserting language requiring the Hawaii Paroling Authority to transmit application information to the prosecuting attorney within forty-five days from receiving the application for pardon; and
- (2) Changing the effective date to January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2091, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2091, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole and Fevella.
Managers on the part of the Senate.
Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Ohno, Matayoshi, Ganaden and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 44-22 on S.B. No. 3041

The purpose of this measure is to appropriate funds for the payment of claims against the State, its officers, or its employees.

Your Committee on Conference finds that the timely passage of this measure will minimize the State's obligation to pay interest on those claim amounts.

Your Committee on Conference takes note of the six claims settled against the Department of Public Safety for a total of \$6,365,540.00. These claims resulted from egregious incidents that the State should ensure are not repeated. Your Committee expects the Department of the Attorney General to provide thorough corrective guidance and oversight to the Department of Public Safety to eliminate or mitigate the factors that contributed to the State's negligence.

Your Committee on Conference has amended this measure by:

- (1) Including various general fund appropriations to the Department of the Attorney General for the purpose of satisfying claims for legislative relief;
- (2) Increasing the total general fund appropriation from \$1,779,889.75 to \$335,577,607.93 to settle eleven additional claims totaling \$333,797,718.18, as follows:
 - (A) \$47,718.18 for six miscellaneous claims;
 - (B) \$225,000.00 to fund the settlement of Gallagher v. Lanihuli Community Development Corporation;
 - (C) \$4,000,000.00 to fund the settlement of Mueller v. Department of Public Safety;
 - (D) \$1,375,000.00 to satisfy the judgment in O'Malley v. State of Hawaii;
 - (E) \$150,000.00 to satisfy the judgment in Roe v. State of Hawaii; and
 - (F) \$328,000,000.00 to fund the settlement of Kalima v. State of Hawaii;
- (3) Appropriating \$138,000.00 from the state highway fund to settle one additional claim by Markel American Insurance Company (Maui Oil Company);
- (4) Clarifying that the claims against the Agribusiness Development Corporation, Department of Land and Natural Resources, Department of Public Safety, and Hawaii State Public Charter School Commission shall be paid from general funds;
- (5) Making the measure effective upon its approval; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3041, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3041, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Luke, Matayoshi and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 45-22 on S.B. No. 3298

The purpose of this measure is to:

- (1) Establish a working group to determine potential locations and requirements for a shooting facility on the island of Hawaii; and
- (2) Appropriate funds to establish a shooting facility in the County of Hawaii; provided that the County of Hawaii provides matching funds on a dollar-to-dollar basis.

Your Committee on Conference finds that the establishment of a multi-use public shooting range on the island of Hawaii is necessary to provide a safe and organized facility to allow law enforcement agencies and the public to train and maintain their firearms skills. This measure will lay the foundation to provide a safe training area for the residents of the County of Hawaii by establishing a working group to determine potential locations and requirements for a shooting facility on the island of Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have appropriated funds to establish the shooting facility in the County of Hawaii;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3298, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3298, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Inouye, Kanuha, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Branco and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 46-22 on S.B. No. 665

The purpose of this measure is to:

- (1) Make intentionally providing false information concerning the name or address of a person paying for a campaign advertisement a class C felony;
- (2) Authorize criminal prosecution for campaign finance law violations in addition to administrative fines;
- (3) Increase the period during which a person convicted for a criminal violation of campaign finance law is disqualified from holding elective office; and
- (4) Authorize the Attorney General or Prosecuting Attorney to commence prosecution of campaign finance law violations.

Your Committee on Conference finds that campaign advertisements that contain false information regarding who is paying for the advertisement impairs public transparency in the electoral process. This measure promotes greater accountability within the election system by increasing the penalties for, and removing barriers to criminal prosecution of campaign finance law violations.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 665, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 665, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Matayoshi, Wildberger and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 47-22 on S.B. No. 2017

The purpose of this measure is to repeal existing law that limits licensure as an Emergency Medical Technician 1 to individuals whose practice is performed in a county with a population of five hundred thousand or greater.

Your Committee on Conference finds that Act 119, Session Laws of Hawaii 2021, limited the new licensure category for emergency medical technicians who only have a National Registry Emergency Medical Technician certification to individuals practicing in counties with a population of five hundred thousand or greater, which excluded persons who meet the criteria for licensure in non-qualifying counties. This measure will eliminate the geographic restriction and expand licensure to all National Registry of Emergency Medical Technicians throughout the State.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2017, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2017, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keohokalole, Baker, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Kitagawa, Tam and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 48-22 on S.B. No. 3089

The purpose of this measure is to:

- (1) Clarify that powers granted for emergency purposes shall not be inconsistent with the Hawaii State Constitution;
- (2) Provide parameters for the duration of the suspension of laws and require justification for the suspension;
- (3) Authorize the Governor to require counties to obtain the approval of the Governor or Director of the Hawaii Emergency Management Agency before issuing any emergency order, rule, or proclamation;
- (4) Clarify the legal framework governing the extension and termination of emergency periods;
- (5) Authorize the Legislature and county councils to terminate, in part or in whole, a state of emergency or local state of emergency, as applicable, by an affirmative two-thirds vote;
- (6) Clarify that the Governor and mayors may re-declare a state of emergency or local state of emergency, as applicable, that has been terminated; and
- (7) Specify when certain prohibitions during an emergency or severe warning expire.

Your Committee on Conference finds that the coronavirus disease 2019 pandemic has highlighted the importance of clear legal frameworks for state emergency management to ensure that the State is ready for any type of emergency. This measure will protect the health, safety, and welfare of residents by clarifying state emergency management authority, ensuring effective and adaptable emergency responses, and furthering the goals of transparency and democratic accountability inherent within the Hawaii State Constitution.

Your Committee on Conference has amended this measure by:

- (1) Inserting language making public records generated during or containing information from the time of the suspension subject to disclosure requests made after the suspension has terminated;
- (2) Removing language that would have allowed the county councils to terminate a local state of emergency;
- (3) Removing language that would have allowed a mayor to redeclare a local state of emergency that has been terminated;
- (4) Clarifying that if certain prohibitions during a severe warning are continued then the types of commodities affected must be identified in the proclamation or any supplementary proclamation;
- (5) Changing the effective date to upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3089, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3089, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Matayoshi, Eli and Ward.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 49-22 on S.B. No. 2869

The purpose of this measure is to allow a spouse or former spouse to enforce an order for spousal support or maintenance under the State's attachment and execution, garnishment, or garnishment of government benefits laws, rather than through an assignment made to the clerk of the family court on income due or future income.

Your Committee on Conference finds that currently spousal support orders are enforced by the clerk of the court and the Child Support Enforcement Agency in cases where there is an order for both spousal and child support, resulting in a process that is often complicated and slow. This measure will make it faster and easier for an obligee to receive spousal support by allowing an obligee to elect to enforce an order for spousal support by garnishment through the obligor's employer, rather than through the clerk of the court.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2869, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2869, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kim).

Representatives Yamane, Ichiyama, Tam and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 50-22 on H.B. No. 1991

The purpose of this measure is to:

- (1) Prohibit, in counties with a population of five hundred thousand or more, the sale of a bicycle that is reported as stolen and listed on a publicly available online stolen bicycle database;
- (2) Require the police department or other designated agency in counties with a population of five hundred thousand or more to establish the publicly available online stolen bicycle database; and
- (3) Update the recordkeeping and retention requirements for businesses that buy previously owned articles.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1991, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1991, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker, Gabbard and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Nakashima, Kitagawa, Marten and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 51-22 on H.B. No. 2197

The purpose of this measure is to amend:

- (1) The requisite state of mind for promoting gambling in the first and second degree to recklessness and negligence, respectively;
- (2) The offenses of promoting gambling in the first and second degree to a class B felony and class C felony, respectively; and
- (3) The definition of "advance gambling activity" to repeal playing or participating in any form of gambling activity.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made the offense of promoting gambling in the second degree subject to repeat offender sentencing provisions;
- (2) Amending the offense of gambling to repeal advancing any gambling activity;
- (3) Excluding the offenses of promoting gambling in the first and second degree from qualifying for deferred acceptance of guilty plea or nolo contendere plea; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2197, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2197, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Fevella.
Managers on the part of the Senate.

Representatives Matayoshi, Kitagawa and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 52-22 on H.B. No. 1567

The purpose of this measure is to:

- (1) Eliminate the use of monetary bail and require defendants to be released on their own recognizance for traffic offenses, violations, nonviolent petty misdemeanor offenses, nonviolent misdemeanor offenses, or nonviolent class C felony offenses; and
- (2) Allow defendants the option to participate in a bail report interview via videoconference.

Your Committee on Conference has amended this measure by:

- (1) Excluding the class C felony offenses of promoting a dangerous drug in the third degree and habitual property crime from eligibility for mandatory release without bail;
- (2) Deleting language that required the Director of Public Safety to release certain defendants who are unable to post bail in the amount of \$99 or less;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1567, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1567, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Holt and Sayama.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 53-22 on H.B. No. 2075

The purpose of this measure is to:

- (1) Increase the time frame that a permit to acquire a pistol or revolver can be used from ten days to thirty days; and
- (2) Eliminate physical inspection of firearms generally, except for firearms brought into the State, firearms involved in private sales or transfers, and firearms and firearm receivers with engraved or embedded registration numbers.

Your Committee on Conference has amended this measure by:

- (1) Amending the preamble;
- (2) Deleting language that would have increased the time frame that a permit to acquire a pistol or revolver can be used from ten days to thirty days;
- (3) Inserting a severability clause;
- (4) Changing the effective date to upon approval;
- (5) Inserting a sunset date of June 30, 2025; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2075, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2075, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keohokalole, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, 1 (Fevella). Excused, 1 (Keohokalole).

Representatives Nakashima, Matayoshi and Matsumoto.
Managers on the part of the House.
Ayes, 3; Ayes with Reservations (Matsumoto). Noes, none. Excused, none.

Conf. Com. Rep. 54-22 on S.B. No. 3172

The purpose of this measure is to repeal the option for boards to provide recorded minutes accompanied by written summaries as an alternative to written minutes of board meetings.

Your Committee on Conference finds that public scrutiny and participation in the governmental process is important to protect the public's interests. Your Committee on Conference further finds that requiring electronic audio or video recordings of public meetings to be kept as a public record will encourage transparency and help ensure the public has access to and information regarding these meetings.

Your Committee on Conference has amended this measure by:

- (1) Requiring boards to maintain any electronic audio or video recording of a board meeting as a public record, regardless of whether the written minutes of the board meeting have been posted;
- (2) Amending the information that must be included as part of the written minutes of board meetings;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of October 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3172, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3172, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Nakashima, Wildberger and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 55-22 on S.B. No. 2065

The purpose of this measure is to prohibit the possession or use of unmanned aerial vehicles on, in, or near state marine waters for purposes of fishing, unless permitted by the Department of Land and Natural Resources.

Your Committee on Conference finds that unmanned aerial vehicles are increasingly used in the fishing industry for a variety of purposes, including the deployment of fishing hooks further offshore than traditional fishing methods. While such methods increase fishing efficiency, they also present new risks to marine ecosystems. This measure prohibits unpermitted use of unmanned aerial vehicles for fishing purposes to better preserve marine wildlife and prevent environmental damage.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2065, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2065, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye, Rhoads and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Nakashima, Branco and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 56-22 on S.B. No. 3219

The purpose of this measure is to provide that the mandatory disclosure of the names of persons who are physically with a board member attending a remote board meeting applies only to the disclosure of the names of adults, and not minors, who are physically with the board member at a nonpublic location, unless the minor has a private interest with any issue before the board.

Your Committee on Conference finds that the Sunshine Law's newly effective remote meetings provision requires a board member participating from a nonpublic location to state who, if anyone, is present at the same location. Your Committee on Conference further

finds that there are times when a board member may have their minor children with them during a remote board meeting. This measure will protect the privacy and identity of minors that are with a board member during a meeting.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the mandatory disclosure of the names of minors present with a board member in a nonpublic location during a meeting of the board who have a private interest with any issue before the board applies to minors with a personal business, property, or financial interest; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3219, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3219, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Nakashima, Wildberger and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 57-22 on S.B. No. 2398

The purpose of this measure is to:

- (1) Create the Pulehunui Community Development District to allow for planning, development, and maintenance of public lands in Pulehunui, Maui; and
- (2) Amend the Hawaii Community Development Authority membership to include the Director of Business, Economic Development, and Tourism; Chairperson of the Board of Land and Natural Resources; and director of the department of planning and permitting of each county, or their respective designees, in which a community development district is located.

Your Committee on Conference finds that establishing a dedicated development district will allow the governing board to access various forms of federal funding to develop lands within the district. Your Committee on Conference further finds that the public lands in Pulehunui, Maui, are relatively underdeveloped and afford strong potential for growth and development to meet community needs. Accordingly, this measure will facilitate community-oriented development by establishing the Pulehunui Community Development District and by amending the composition of the Hawaii Community Development Authority.

Your Committee on Conference has amended this measure by:

- (1) Deleting the rulemaking authorization from the new part added by this measure to chapter 206E, Hawaii Revised Statutes; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2398, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2398, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai, Inouye, Kanuha, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 6. Noes, none. Excused, none.

Representatives Tarnas, Yamashita, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 58-22 on S.B. No. 2383

The purpose of this measure is to:

- (1) Decrease the membership of the State Procurement Policy Board from seven members to five;
- (2) Clarify the appointment and experience requirements for members of the State Procurement Policy Board; and
- (3) Repeal the State Procurement Policy Board nominating committee.

Your Committee on Conference finds that the State Procurement Policy Board has not held a meeting for several years due to attrition, a lack of applicants for vacancies, and the inability to meet quorum. By the end of the 2022 Regular Session, the seven-member State Procurement Policy Board will have just one member, the Comptroller. Accordingly, this measure restructures the State Procurement Policy Board to address the issue of vacancies on the Board and enables the Board to fulfill its duties.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the experience requirements for members of the State Procurement Policy Board;

- (2) Amending section 1 for clarity and to reflect its amended purpose; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2383, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2383, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Matayoshi, Wildberger and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 59-22 on S.B. No. 2137

The purpose of this measure is to require the Department of Health and pertinent county agencies to work together to resolve problems and complaints regarding clean and sober homes.

Your Committee on Conference finds that clean and sober homes are a critical component of treatment for, and recovery from, substance use disorders. Your Committee on Conference further finds, however, that surrounding communities have voiced concerns regarding the operation of clean and sober homes within their community. Accordingly, this measure seeks to harmonize the needs of individuals who access clean and sober home services and the concerns of surrounding communities by establishing a framework to provide information and address community concerns.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2137, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2137, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keohokalole, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Yamane, Nakamura, Tam and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 60-22 on S.B. No. 3372

The purpose of this measure is to authorize the Office of Administrative Hearings, where it is determined that an award of a contract is in violation of law and the award is rescinded and the contract, if executed, is terminated or declared null and void, to award the government contract to the next lowest bidder or next responsible offeror, if certain conditions are met.

Your Committee on Conference finds that existing law lacks a statutory procedure to address to whom a contract may be awarded when it is determined that a solicitation or award of a contract violates the law. As a result, under these circumstances, the only remedy available to the Office of Administrative Hearings is to terminate the contract and begin the procurement process anew. Your Committee on Conference further finds that contract termination and re-solicitation delays the procurement process. Accordingly, this measure ensures fairness while minimizing delays in the procurement process by expanding the remedial powers of the Office of Administrative Hearings in situations where an award of a contract is determined to violate the law.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the alternate award recipient is the next lowest responsible and responsive bidder or offeror; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3372, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3372, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Johanson, Wildberger, Matayoshi and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 61-22 on S.B. No. 2986

The purpose of this measure is to:

- (1) Relax certain regulations of commercial hemp cultivation and exportation;
- (2) Allow licensed hemp producers to sell hemp biomass directly to consumers via online platforms;
- (3) Require the identity statement used for labeling or advertising any hemp product to identify the percentage of Hawaii grown or processed hemp products in all hemp products and, if those products are not from Hawaii, the origin of any hemp product; and
- (4) Extend the sunset date of Act 14, Session Laws of Hawaii 2020, which establishes the state hemp processors and commercial hemp production laws.

Your Committee on Conference finds that hemp remains a valuable crop that could bring significant revenues to the State. However, the hemp industry in Hawaii suffers from overregulation. Notably, in 2020, the Legislature passed Act 14, Session Laws of Hawaii 2020, (Act 14) to address key issues in the regulation of hemp. While there remains considerable disagreement on the required reforms, your Committee on Conference further finds that Act 14 will lapse on June 30, 2022. Accordingly, it is necessary to extend the date on which Act 14 will be repealed to July 1, 2025.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the legislative findings in the preamble;
- (2) Removing proposed amendments to existing hemp regulations; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2986, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2986, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Johanson, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 62-22 on S.B. No. 2798

The purpose of this measure is to:

- (1) Authorize the Hawaii Board of Veterinary Medicine to grant temporary courtesy and relief permits for out-of-state veterinarians;
- (2) Permit licensed veterinarians to practice veterinarian telemedicine;
- (3) Create a permit surcharge; and
- (4) Allow for international veterinary school graduates to qualify for the licensure examination.

Your Committee on Conference finds that Hawaii faces a shortage of experienced and licensed veterinarians. Allowing more veterinarians licensed in other jurisdictions to practice in the State on a temporary basis as needed would help alleviate the shortage. This measure authorizes the Hawaii Board of Veterinary Medicine to grant temporary and relief permits, permit licensed veterinarians to practice veterinarian telemedicine, and allow international veterinary school graduate to qualify for the licensure examination in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Repealing the requirement that examinations be given by the Board twice each year;
- (2) Establishing a temporary permit to be issued under certain conditions; and
- (3) Making it effective upon its approval; provided that the provisions creating courtesy and relief permits in section 1 of this measure shall be effective on July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2798, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2798, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Johanson, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 63-22 on S.B. No. 3084

The purpose of this measure is to amend the composition of the Elevator Mechanics Licensing Board to replace the ex-officio Department of Labor and Industrial Relations member with a licensed elevator mechanic member.

Your Committee on Conference finds that the Elevator Mechanic Licensing Board has experienced difficulty in achieving quorum to conduct its meetings. It has further been a challenge for the Department of Labor and Industrial Relations to make available an employee with expertise in elevator and escalator installation and maintenance, as required under existing law. This measure will relieve the Director of the Department of Labor and Industrial Relations of the need to dedicate personnel resources to Elevator Mechanic Licensing Board meetings and will grant more flexibility to the Board to address vacancies, make it easier to achieve quorum, and conduct its important business in a timely manner.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3084, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3084, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang, DeCoite and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Kitagawa, Mizuno and Matsumoto.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Mizuno).

Conf. Com. Rep. 64-22 on S.B. No. 2382

The purpose of this measure is to prohibit the issuance of cabaret liquor licenses to premises located within an apartment mixed use subprecinct within a special improvement or special district in which the economy is primarily based on tourism.

Your Committee on Conference finds that cabarets located in resort areas are permitted to transact business until 4:00 a.m. throughout the entire week, which has created public safety and noise issues for visitors and residents living in resort areas. These long hours of operation can often result in increased criminal activity in the area, including assaults, attacks, and robberies, and can greatly disrupt sleep and residents' peaceful enjoyment of their homes. This measure will restrict the issuance of cabaret licenses within apartment mixed use subprecincts in qualifying special districts to assist with reducing noise and crime and to promote increased public safety and wellness.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2382, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2382, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Johanson, Branco and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 65-22 on S.B. No. 2279

The purpose of this measure is to:

- (1) Regulate the purchase of catalytic converters by used motor vehicle parts dealers and the purchase of palladium, platinum, and rhodium by scrap dealers and recyclers;
- (2) Subject persons who violate related provisions to a class C felony;
- (3) Establish the felony offense of theft of catalytic converter; and
- (4) Require each county police department to maintain certain reported information and initiate education programs to prevent catalytic converter thefts.

Your Committee on Conference finds that catalytic converter thefts are on the rise across the State. Catalytic converters contain precious metals such as platinum, palladium, and rhodium, the prices of which have also recently increased, making catalytic converters highly sought after by thieves due to their high resale value. The relative ease and speed in which a person can remove a catalytic converter from a vehicle, coupled with the value of the scrap and precious metal, has contributed to the increase in catalytic converter thefts. While catalytic converters can typically be resold on the market for less than a few hundred dollars, replacing a stolen catalytic converter can cost a car owner more than \$1,000, or perhaps more depending on the extent of damages. This measure

increases regulations regarding the sale of catalytic converters, and the precious metals within catalytic converters, to reduce the incentive for catalytic converter theft in the State and subjects persons who violate these provisions to a class C felony.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have exempted certain sellers from the requirement to provide a written statement certifying certain information concerning the catalytic converters being offered for sale;
- (2) Inserting an effective date of January 1, 2023; provided that sections 3 and 4 of this measure shall take effect upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2279, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2279, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Nakashima, Kitagawa and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 66-22 on S.B. No. 2679

The purpose of this measure is to extend the renewal period from two years to four years for licensees who are seventy-two years of age or older but younger than eighty years of age.

Your Committee on Conference finds that drivers seventy-two years of age or older but younger than eighty years of age without conditions that could impair their driving ability are safe enough to have a license renewal period of four years rather than two.

Your Committee on Conference has amended this measure by changing the effective date to January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2679, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2679, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Moriwaki, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Moriwaki).

Representatives Aquino, Nakashima, Johanson, Clark, Ilagan and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 67-22 on S.B. No. 2032

The purpose of this measure is to establish the Hawaii Genetic Information Privacy Act, which:

- (1) Requires direct-to-consumer genetic testing companies to adhere to certain requirements pertaining to the collection, use, and disclosure of genetic data; and
- (2) Deems any violation as an unfair or deceptive trade practice subject to associated penalties.

Your Committee on Conference finds that direct-to-consumer genetic tests, which provide consumers with direct access to their genetic information without the involvement of health care providers and health plans, are marketed directly to consumers and purchased by consumers online or in stores. Consumers provide DNA samples to the direct-to-consumer genetic testing company, which then analyzes the DNA samples for genetic variations that fit the purpose of the test. Your Committee on Conference finds that while direct-to-consumer genetic testing promotes awareness of genetic diseases and can assist consumers in taking a proactive role in maintaining or improving their health and wellness, there is currently little oversight or regulation with respect to how the privacy and confidentiality of a consumer's genetic information are protected. This measure establishes the Hawaii Genetic Information Privacy Act to protect consumers' privacy and confidentiality of genetic data.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a violation of the Hawaii Genetic Information Privacy Act shall result in a civil penalty of not less than \$2,500;
- (2) Authorizing the Office of Consumer Protection, by and through the Attorney General, to bring civil actions for violations of the Hawaii Genetic Information Privacy Act; and
- (3) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2032, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2032, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker, Acasio, Moriwaki and Fevella.

Managers on the part of the Senate.

Conf. Com. Rep. 69-22 on H.B. No. 1837

The purpose of this measure is to establish a working group on affordable housing that meets annually to discuss opportunities to reduce zoning, regulatory, and statutory barriers to affordable housing development.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the working group established by this measure is a statewide working group on affordable housing;
- (2) Expanding the composition of the working group;
- (3) Adding an appropriation of \$100,000 to support the statewide working group, including one full-time equivalent position;
- (4) Changing its effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1837, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1837, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 70-22 on H.B. No. 2020

The purpose of this measure is to establish a lapse date for any unencumbered monies appropriated pursuant to Act 227, Session Laws of Hawaii 2021, which appropriated funds received by the State from the American Rescue Plan Act of 2021 to provide loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects.

Your Committee on Conference has amended this measure by:

- (1) Updating the preamble to reflect its amended purpose;

- (2) Changing the lapse date for unencumbered monies appropriated pursuant to Act 227, Session Laws of Hawaii 2021, from June 30, 2024, to June 30, 2022; and
- (3) Changing its effective date to June 29, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2020, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2020, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keith-Agaran, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 71-22 on H.B. No. 1752

The purpose of this measure is to:

- (1) Establish the Housing Choice Voucher Landlord Incentive Program to provide incentives for landlords participating in the Tenant—Based Assistance Housing Choice Voucher Program under Section 8 of the United States Housing Act of 1937 and appropriate funds for the cost of the incentives;
- (2) Require the Hawaii Public Housing Authority to adopt or amend rules that require inspections of leased dwelling units under the Section 8 Housing Choice Voucher Program within fifteen days after receipt of an owner's or landlord's inspection request; and
- (3) Establish and appropriate funds for positions within the Hawaii Public Housing Authority for inspections and other aspects of the Section 8 Housing Choice Voucher Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,450,000 for the cost of incentives for landlords who participate in the Tenant-Based Assistance Housing Choice Voucher Program;
- (2) Requiring the Hawaii Public Housing Authority to adopt or amend rules no later than July 1, 2023;
- (3) Appropriating \$50,000 for two full-time equivalent permanent housing quality standards inspector II positions within the Hawaii Public Housing Authority to facilitate, coordinate, and monitor inspections of dwelling units that are the subject of Section 8 Housing Choice Voucher Program applications;
- (4) Deleting the unspecified appropriation for three full-time equivalent permanent public housing specialist II positions;
- (5) Changing its effective date to July 1, 2022; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1752, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1752, H.D. 3, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Rhoads, Keith-Agaran, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakamura, Kitagawa, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 72-22 on S.B. No. 2295

The purpose of this measure is to:

- (1) Require the Department of Transportation to plan for sea level rise in all future or amended transportation projects; and
- (2) Require all Department of Transportation highway, harbor, and airport projects to conform to certain carbon concrete standards except in certain circumstances.

Your Committee on Conference finds that sea level rise is a problem that must be factored into future transportation projects. Your Committee on Conference further finds that these transportation projects must also conform with carbon concrete standards except in special circumstances.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2295, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2295, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Gabbard, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Lowen, Ilagan, Clark, LoPresti and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Lowen).

Conf. Com. Rep. 73-22 on S.B. No. 879

The purpose of this measure is to require the counties to assume responsibility to maintain infrastructure as part of any housing development for the Department of Hawaiian Home Lands within sixty days of the receipt of a maintenance request and under specified conditions.

Your Committee on Conference finds that the Department of Hawaiian Home Lands often has the responsibility to maintain infrastructure despite county requirements. Therefore, this measure requires counties to provide for the maintenance of Department of Hawaiian Home Lands infrastructure within sixty days of receipt of an application for maintenance request by the county.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 879, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 879, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakamura, Nakashima, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 74-22 on S.B. No. 2768

The purpose of this measure is to:

- (1) Authorize the Governor to designate the Department of Land and Natural Resources to administer or enter into an agreement for the administration of a green jobs youth corps to provide temporary work and training opportunities in the fields of natural resource management, agriculture, or other sustainability-related professions to young adults ages thirty-eight or younger;
- (2) Require the Department of Land and Natural Resources to partner with an organization that has received accreditation from the Corps Center of Excellence Accreditation Program or has at least ten years of experience providing similar programming statewide in the State, or both; and
- (3) Appropriate funds.

Your Committee on Conference finds that the Hawaii Youth Conservation Corps, a legacy of the Civilian Conservation Corps, has provided Hawaii's youth with opportunities in conservation. With the onset of the coronavirus disease 2019 pandemic, which devastated Hawaii's economy, partnerships with nonprofit organizations such as Kupu enabled individuals to work in their own communities while also giving back to Hawaii's economy and environment.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation shall be used for the Green Jobs Youth Corps to provide salaries for not more than one thousand participants;
- (2) Inserting an appropriation of \$5,000,000 for the administration of the Green Jobs Youth Corps as provided in this measure; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2768, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2768, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Gabbard and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Branco and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 75-22 on S.B. No. 3330

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to establish and conduct the Pupukea Marine Life Conservation District carrying capacity pilot program; and
- (2) Appropriate funds.

Your Committee on Conference finds that high traffic volumes to popular areas within the Pupukea Marine Life Conservation District, such as Shark's Cove and Kapoo Tidepools, may threaten the health and abundance of marine life and limit the use and enjoyment of the area by residents. To protect the Pupukea Marine Life Conservation District, which currently does not have restrictions on use, a carrying capacity pilot program may provide critical information to reduce the impacts of humans on the health and abundance of marine life in sensitive areas within the Pupukea Marine Life Conservation District.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$300,000 for the Department of Land and Natural Resources to establish and conduct the Pupukea Marine Life Conservation District carrying capacity pilot program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3330, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3330, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Shimabukuro, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Onishi, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 76-22 on S.B. No. 2056

The purpose of this measure is to:

- (1) Require the Office of Planning and Sustainable Development, in cooperation with the Department of Agriculture and Land Use Commission, to conduct a study of the suitability of soil classification systems for the regulation of agricultural lands;
- (2) Require a report to the Legislature; and
- (3) Appropriate funds.

Your Committee on Conference finds that the State has not completed a comprehensive soil study or completed sufficient agricultural soil mapping in over fifty years. To meet the State's critical food sustainability goals and enhance local agricultural productivity, there is a need to utilize effective standards for identifying productive agricultural lands and protect long-term agricultural use under state and county land use regulatory systems.

Your Committee on Conference has amended this measure by reverting its contents to the S.D. 1 version and further amending it by:

- (1) Inserting an appropriation of \$325,000 for the Office of Planning and Sustainable Development to conduct the study as required by this Act;
- (2) Changing the effective date to July 1, 2022; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2056, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2056, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Shimabukuro, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Representatives Tarnas, Hashem, Branco and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 77-22 on S.B. No. 2670

The purpose of this measure is to establish the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission to provide for a statewide program, on a permanent and continuing basis, on the status of lesbian, gay, bisexual, transgender, queer, plus individuals in Hawaii.

Your Committee on Conference finds that individuals of the lesbian, gay, bisexual, transgender, queer, plus (LGBTQ+) community are at elevated risks of bullying, suicide, and ostracism. Your Committee on Conference further finds that the creation of a commission, as provided by this measure, will advance equity and is an important step to meet the needs of Hawaii's LGBTQ+ community.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2670, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2670, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Moriwaki, Shimabukuro, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Representatives Yamane, Tam, Marten, Sayama and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Okimoto).

Conf. Com. Rep. 78-22 on S.B. No. 206

The purpose of this measure is to prohibit discrimination in rental transactions, including in advertisements for rental property, based on participation in a Section 8 Housing Choice Program or any permanent supportive housing program or requirements related to participation in these housing assistance programs.

Your Committee on Conference finds that housing assistance programs, like the federal Section 8 Housing Choice Voucher Program, are essential in helping to alleviate high rental costs for qualifying families. However, the Section 8 program relies on private landlords' willingness to rent to participating individuals. In an expensive and limited housing market such as Hawaii, low-income individuals, who are the most likely participants in housing assistance programs, experience extreme difficulty in finding affordable rentals and are often faced with discrimination based on their source of income.

Your Committee on Conference further finds that discrimination against recipients of housing assistance programs is prohibited in a number of states and the District of Columbia, as well as numerous cities and counties throughout the United States. Studies have shown that when there are laws to prevent discrimination against renters with housing vouchers, such renters are twelve percent more likely to find housing. Additionally, source of income laws do not alter or restrict standard industry practices to vet prospective renters. Your Committee on Conference further finds that the Hawaii Interagency Council on Homelessness prioritized addressing upfront barriers to accessing housing, such as source of income discrimination in rental housing, as a key priority for this legislative session. This measure is therefore necessary to prohibit discrimination based on source of income to allow supportive housing vouchers or other housing assistance programs to be implemented as intended and to further address the State's pressing housing crisis.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the provisions of this measure do not apply to landlords with ownership of less than four dwelling units in the State at the time of the alleged discriminatory rental transaction, unless the owner, whether individually or through a business entity, owns more than ten percent interest in more than four dwelling units in the State at the time of the alleged discriminatory rental transaction;
- (2) Inserting language to require the Hawaii Public Housing Authority and the Hawaii Civil Rights Commission to produce and make available informational materials for the purpose of providing notice of specific rights and obligations pursuant to the provisions of this measure and to widely publicize the prohibition against discrimination based on source of income;
- (3) Making it effective upon its approval, provided that the new statutory chapter established by this measure shall take effect on May 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 206, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 206, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 79-22 on S.B. No. 2125

The purpose of this measure is to increase the maximum allowable fine for violation of liquor control laws by a licensee from \$2,000 to \$5,000.

Your Committee on Conference finds that the liquor commission or liquor control adjudication boards of each county are responsible for regulating the sale of liquor through the issuance of liquor licenses and the enforcement of applicable laws and rules.

Existing law provides that the maximum allowable fine for violations of liquor control laws is \$2,000. Heftier fines can create a greater deterrent for licensees to violate liquor control laws. Accordingly, this measure increases the maximum fine to \$5,000, which will provide a broader range and grant greater flexibility to liquor commissions and liquor control adjudication boards in assessing fines and enforcing liquor laws and rules.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2125, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2125, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Chang and Fevella.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 80-22 on S.B. No. 1105

The purpose of this measure is to:

- (1) Allow a person aggrieved by the fraud, misrepresentation, or deceit of a mortgage loan originator company licensee to receive restitution payment upon a final judgment of the court;
- (2) Repeal fees paid by mortgage loan originator companies and their branch office locations to the mortgage loan recovery fund and instead establish a flat \$200 mortgage loan recovery fund fee; and
- (3) Provide the Commissioner of Financial Institutions with the authority to consider and approve applications to recover from the fund.

Your Committee on Conference finds that a person who holds a court order against a mortgage loan originator or a mortgage loan originator company licensee for fraud, deceit, or misrepresentation is eligible to receive restitution from the Mortgage Loan Recovery Fund. However, existing law requires that person to also obtain a separate order from the court to receive the restitution payment from the Mortgage Loan Recovery Fund, which can be an onerous administrative process. Typically, it can take eight to twelve months before a court orders the Division of Financial Institutions of the Department of Commerce and Consumer Affairs to issue the restitution payment. This measure will allow aggrieved persons to receive restitution payments more efficiently, as the Division of Financial Institutions will be able to issue those payments pursuant to final, rather than separate, court orders. Additionally, this measure repeals fees paid by mortgage loan originator companies and their branches to adjust the funding level of the Mortgage Loan Recovery Fund, as there are currently sufficient funds to make restitution payments to aggrieved persons by assessing individual mortgage loan originators, as required by federal law.

Your Committee on Conference has amended this measure by making it effective on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1105, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1105, S.D. 2, H.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 81-22 on S.B. No. 3179

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources' Division of Forestry and Wildlife to adopt rules and issue funds to licensed hunters at a per unit rate for feral axis deer herd management; and
- (2) Appropriate funds to and establish three full-time equivalent technician positions for the Department of Land and Natural Resources to manage axis deer populations in Maui County.

Your Committee on Conference finds that the overpopulation of axis deer poses a significant threat to the ecological security and the health of local communities on several islands, including Maui County. Axis deer overpopulation and drought conditions on Maui, Molokai, and Lanai have led to large numbers of widespread axis deer, which in turn has created a nuisance and threat to the local community.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation to the Department of Land and Natural Resources for axis deer management;

- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3179, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3179, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 82-22 on H.B. No. 1983

The purpose of this measure is to establish, and appropriate funds for, the State Film Liaison to plan, develop, and execute a statewide film industry development strategy for purposes of establishing a collaborative film industry development program.

Your Committee on Conference has amended this measure by:

- (1) Changing the name of the State Film Liaison to the State Media Industry Development Liaison and making associated conforming amendments;
- (2) Inserting the provision relating to retaining the civil service status of existing positions within the Film Industry Branch of the Creative Industries Division of the Department of Business, Economic Development, and Tourism in Session Law, rather than codifying it in the Hawaii Revised Statutes;
- (3) Changing the appropriation for the State Media Industry Development Liaison from \$65,000 to \$60,000;
- (4) Inserting an appropriation of \$33,600 to establish and fill one full-time equivalent Administrative Assistant position within the Creative Industries Division of the Department of Business, Economic Development, and Tourism;
- (5) Changing the effective date to July 1, 2022; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1983, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1983, H.D. 1, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 83-22 on H.B. No. 1586

The purpose of this measure is to:

- (1) Require federal disaster relief reimbursement monies, except federal disaster relief reimbursement monies for the Department of Education, to be deposited into a trust account of the Hawaii Emergency Management Agency and reimbursed to the originating fund of the expending agency, and require monies to be returned to the general fund upon lapse of the original appropriation;
- (2) Require the Administrator of the Hawaii Emergency Management Agency to submit an annual report to the Legislature on the status of federal reimbursement monies for disaster response and each agency's disaster response spending; and
- (3) Appropriate monies to the Department of Defense for disaster response efforts.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that state departments, in addition to state agencies, shall submit a report of all funds expended for disaster response efforts;
- (2) Deleting language that would have required the Administrator to include information about the counties in their annual report to the Legislature regarding reimbursement monies;
- (3) Deleting language that would have appropriated funds for the Department of Defense for disaster response efforts;
- (4) Changing the effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1586, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1586, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 85-22 on H.B. No. 2120

The purpose of this measure is to:

- (1) Clarify existing practices, policies, and procedures of the State Emergency Management Program and update it with prevailing best practices for emergency management;
- (2) Include environmental impacts within the scope of emergency matters; and
- (3) Require county emergency management agencies to identify and operate facilities that would be suitable for sheltering.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2120, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2120, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 86-22 on H.B. No. 2329

The purpose of this measure is to require the Department of Land and Natural Resources, in consultation with the Hawaii Tourism Authority and State Foundation on Culture and the Arts, to identify and place historical markers throughout the State to indicate sites that were significant in the life of President Barack Obama.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$20,000 for the placement of markers in the State to indicate sites that were significant in the life of President Barack Obama; and
- (2) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2329, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2329, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 88-22 on H.B. No. 2491

The purpose of this measure is to require, beginning on January 1, 2023, all letterhead of the State and counties that include Hawaiian names and words to use and spell the names and words consistently with certain references.

Your Committee on Conference has amended this measure by:

- (1) Requiring all letterhead of the State and counties containing Hawaiian words or names to use and spell those Hawaiian words or names consistently with certain references by July 1, 2023, rather than January 1, 2023;
- (2) Deleting exemptions for letterhead specifically designed for use by native speakers of Hawaiian and for documents submitted to state or county agencies or officials by members of the general public;
- (3) Requiring the Governor, Lieutenant Governor, state legislators, and heads of principal departments to prominently display a Hawaiian translation of the name of their respective office or department at least once on the main page of their official website and in the letterhead of their stationary;
- (4) Changing its effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee on Conference is providing the following list of Hawaiian translations of names of offices and departments to assist the appropriate state offices and departments in complying with this measure.

Olelo Hawaii Names

Executive Branch - Mahele Mana Hooke
Governor of Hawaii - Kiaaina o Hawaii
Lieutenant Governor of Hawaii - Hope Kiaaina o Hawaii

Principal Departments

Department of Accounting and General Services - Oihana Malama Moohelu Kala a Hana Laua

Senators Shimabukuro, Kim, Misalucha and Fevella.
 Managers on the part of the Senate.
 Ayes, 4. Noes, none. Excused, none.

Representatives Gates, Nakashima, Tam, Har, Kapela and Ward.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, 2 (Har, Ward).

Conf. Com. Rep. 89-22 on H.B. No. 871

The purpose of this measure is to establish an agricultural enterprise program within the Department of Agriculture to promote and support diversified agriculture and increase the State's agricultural self-sufficiency.

Specifically, this measure:

- (1) Authorizes the Department of Agriculture or its lessees to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure or improvements on any lands under the Department of Agriculture's jurisdiction where the activity is necessary to support and promote agriculture;
- (2) Requires the Department of Agriculture to administer an agricultural enterprise program to manage, under rules adopted by the Board of Agriculture, qualifying agricultural enterprise lands and agricultural enterprises transferred from the Department of Land and Natural Resources; and
- (3) Establishes the Agricultural Enterprise Special Fund for planning, designing, constructing, operating, maintaining, managing, repairing, demolishing, and removing infrastructure or improvements on agricultural enterprise lands and for agricultural enterprises.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions establishing the Agricultural Enterprise Special Fund;
- (2) Changing its effective date to July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 871, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 871, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kanuha and Fevella.
 Managers on the part of the Senate.
 Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Johanson, Perruso and Matsumoto.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 90-22 on H.B. No. 2062

The purpose of this measure is to:

- (1) Establish the Agricultural Emergency Loan Revolving Fund, to be administered by the Department of Agriculture, to fund class D emergency loans made pursuant to section 155-9(e), Hawaii Revised Statutes;
- (2) Allow for payments received on account of principal from loans made by the Agricultural Emergency Loan Revolving Fund to be credited to the Agricultural Emergency Loan Revolving Fund; and
- (3) Appropriate funds into and out of the Agricultural Emergency Loan Revolving Fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions establishing the Agricultural Emergency Loan Revolving Fund;
- (2) Appropriating \$1,500,000 to be deposited into and out of the existing Agricultural Loan Revolving Fund to fund class D emergency loans made pursuant to section 155-9(e), Hawaii Revised Statutes;

- (3) Authorizing the Department of Agriculture to approve emergency loans of up to \$1,500,000 in excess of the \$5,000,000 annual ceiling for the Agricultural Loan Revolving Fund during a state of emergency declared by the Governor pursuant to chapter 127A, Hawaii Revised Statutes, the Emergency Management Law;
- (4) Changing its effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2062, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2062, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Taniguchi, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Perruso, Marten and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 91-22 on H.B. No. 1692

The purpose of this measure is to:

- (1) Increase the fines imposed for mobile electronic device violations; and
- (2) Require the fines to be deposited into the Safe Routes to School Program Special Fund.

Your Committee on Conference has amended this measure by requiring the fines collected for mobile electronic device violations to be paid to the Director of Finance instead of deposited into the Safe Routes to School Program Special Fund.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1692, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1692, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Holt, Morikawa and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 92-22 on H.B. No. 2421

The purpose of this measure is to:

- (1) Establish a three-year Women's Court Pilot Program in the First Circuit of the Judiciary to implement trauma-informed and evidence-based practices, employ gender-responsive programming, collaborate with stakeholders, and provide services to women in the court system;
- (2) Appropriate funds for equipment; mental health, substance abuse treatment, and other services; and the establishment of seven temporary positions for the Women's Court Pilot Program; and
- (3) Require the Judiciary to submit annual reports on the Women's Court Pilot Program throughout its duration.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation amounts from unspecified amounts to \$695,236 for equipment; mental health, substance abuse treatment, and other services; and the establishment of seven temporary positions as follows:
 - (A) One full-time equivalent (1.0 FTE) social worker V position (\$62,136);
 - (B) Four full-time equivalent (4.0 FTE) social worker IV positions (\$52,200 each);
 - (C) One full-time equivalent (1.0 FTE) circuit court clerk II position (\$46,200); and
 - (D) One full-time equivalent (1.0 FTE) judicial clerk position (\$41,100); and
- (2) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2421, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2421, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Holt, Ichiyama, Matayoshi and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 93-22 on S.B. No. 2623

The purpose of this measure is to exclude from any waiting list maintained by the Department of Hawaiian Home Lands any lessee or successor who sells or transfers their lease on a tract of Hawaiian home lands for personal gain.

Your Committee on Conference finds that certain native Hawaiians have acquired a lease pursuant to the Hawaiian Homes Commission Act and sold or transferred their interest in the lease before placing their name back on the waiting list. This practice contributes to other eligible native Hawaiians not receiving land in a timely fashion. The purpose of this measure is to prohibit those who sell or transfer their interest in a Hawaiian home lands tract for personal gain from rejoining the wait list.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2623, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2623, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole, DeCoite and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Nishimoto, Matayoshi and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 94-22 on S.B. No. 3054

The purpose of this measure is to:

- (1) Expand funding sources and authorized uses of the Hawaii Film and Creative Industries Development Special Fund (Special Fund); and
- (2) Appropriate funds for the purposes of the Special Fund.

Your Committee on Conference finds that expanding funding sources and authorized uses of the Hawaii Film and Creative Industries Development Special Fund will further support the State's growing local intellectual property export industry.

Your Committee on Conference has amended this measure by:

- (1) Delaying the deposit of all revenues, fees, and charges from the processing of the motion picture, digital media, and film production income tax credit pursuant to section 235-17, Hawaii Revised Statutes, into the Special Fund until January 2, 2023;
- (2) Including existing revenues, fees, and income received by the Department of Business, Economic Development, and Tourism from its management of public facilities that support media and entertainment workforce and business development, with the exception of the Hawaii Film Studio, to be deposited into the Special Fund;
- (3) Requiring the program funded by the Special Fund to also provide seed capital for electronic sports;
- (4) Making it effective on July 1, 2022; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3054, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3054, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Shimabukuro, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Quinlan, Holt, B. Kobayashi and Okimoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (B. Kobayashi).

Conf. Com. Rep. 95-22 on S.B. No. 3087

The purpose of this measure is to adopt the Emergency Management Assistance Compact in a new chapter of the Hawaii Revised Statutes.

Your Committee on Conference finds that moving the Emergency Management Assistance Compact, currently codified under chapter 128F, Hawaii Revised Statutes, into the emergency management series of the Hawaii Revised Statutes will provide concise,

logical organization to the emergency management laws of the State. This measure will align the Hawaii Emergency Management Agency with the best emergency management practices across the country by repealing chapter 128F, Hawaii Revised Statutes, and reincorporating the Emergency Management Assistance Compact in a new, appropriately designated chapter in the 127A series of the Hawaii Revised Statutes chapters.

Your Committee on Conference has amended this measure by:

- (1) Deleting the preamble;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3087, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Eli, Ohno, Nakashima, Perruso, Ichiyama and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 96-22 on S.B. No. 2008

The purpose of this measure is to:

- (1) Clarify that the State and counties may only be held jointly and severally liable for acts or omissions relating to a condemned highway or trail that occurred after condemnation; and
- (2) Allow the State and counties to utilize flexibility in highway design regarding any condemned highway.

Your Committee on Conference finds that although the Legislature sought to address the problems caused by private roads by passing Act 194, Session Laws of Hawaii 2016, further legislation is now needed to reduce impediments to state and county condemnation of private lanes. This measure will facilitate the condemnation, maintenance, and improvement of private highways and trails that are in disrepair by providing the State and counties with flexibility in the design of condemned private highways and trails and relieving the State and counties of liability for condemned highways and trails.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2008, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2008, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Lee, Rhoads, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Aquino, Matayoshi, Ilagan, Clark and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 97-22 on S.B. No. 1107

The purpose of this measure is to establish the Hazard Mitigation Special Fund to give the Hawaii Emergency Management Agency the ability to monitor its own hazard mitigation projects.

Your Committee on Conference finds that hazard mitigation projects necessary to mitigate situations that are deemed hazardous and require immediate action will not be possible without proper funding. This measure will provide a funding source to ensure the continuation of hazardous mitigation projects and expand the program by establishing the Hazard Mitigation Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Requiring all contributions from public or private partners and all interest earned on or accrued to moneys deposited in the special fund be deposited in the Hazard Mitigation Special Fund;
- (2) Inserting an appropriation amount of \$500,000 for the Hazard Mitigation Special Fund;
- (3) Changing the effective date to July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1107, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1107, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Matayoshi, Eli, LoPresti and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 98-22 on S.B. No. 2588

The purpose of this measure is to appropriate funds to the Hawaii Public Housing Authority for the rehabilitation, remodeling, renovation, and repair of housing units.

Your Committee on Conference finds that many units administered by the Hawaii Public Housing Authority need significant repairs and maintenance. This measure supports the Hawaii Public Housing Authority's efforts to renovate its existing affordable housing inventory by appropriating funds to the Hawaii Public Housing Authority for this purpose.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$5,000,000; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2588, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2588, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Misalucha, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakamura, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 99-22 on S.B. No. 2479

The purpose of this measure is to require each public housing project, dwelling unit, and state low-income housing project that is built, renovated, or reconstructed after January 1, 2023, to include all broadband infrastructure necessary for tenants to have access to broadband service.

Your Committee on Conference finds that Internet access is necessary for residents of Hawaii public housing units to utilize certain essential services, such as health care and education. This measure requires that public housing built, renovated, or reconstructed after the beginning of 2023 to include broadband infrastructure.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the extent of broadband infrastructure requirement; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2479, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2479, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Moriwaki, Misalucha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Nakamura, Kitagawa, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 100-22 on S.B. No. 2251

The purpose of this measure is to:

- (1) Allow the Hawaii Public Housing Authority to develop mixed-income and mixed-financed housing projects; and
- (2) Prohibit the development or construction of housing projects on ceded land that is vacant on or after January 1, 2022.

Your Committee on Conference finds that mixed-income and mixed-financed housing can significantly improve the State's ability to provide affordable housing by allowing flexibility in the development of new housing projects. This measure allows the Hawaii Public Housing Authority to develop mixed-income and mixed-financed housing, provided it does not develop or construct housing projects on ceded land that is vacant on or after January 1, 2022.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2251, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2251, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Misalucha, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakamura, Nakashima, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 101-22 on S.B. No. 2898

The purpose of this measure is to:

- (1) Establish the Transit-Oriented Development Infrastructure Improvement District and Transit-Oriented Development Infrastructure District Board under the Hawaii Community Development Authority;
- (2) Require the Transit-Oriented Development Infrastructure Improvement District Board to develop a program to identify necessary infrastructure improvements within the district; and
- (3) Establish the Transit-Oriented Development Infrastructure Improvement District Special Fund.

Your Committee on Conference finds that transit-oriented development plays an important role in addressing the State's housing shortage and meeting its sustainability goals. However, transit-oriented development requires adequate infrastructure planning and development. Accordingly, this measure establishes the Transit-Oriented Development Infrastructure Improvement District and Transit-Oriented Development Infrastructure Improvement District Board to oversee the long-range planning and implementation of improved community development.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2898, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2898, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Inouye, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakamura, Aquino, Ilagan, Hashimoto and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

Conf. Com. Rep. 102-22 on S.B. No. 3048

The purpose of this measure is to:

- (1) Authorize the Director of Finance to transfer excess funds from the Rental Housing Revolving Fund to the Dwelling Unit Revolving Fund;
- (2) Provide that the Rental Housing Revolving Fund may be used for the Hawaii Housing Finance and Development Corporation's housing finance programs;
- (3) Establish two full-time equivalent (2.0 FTE) housing finance specialist positions; and
- (4) Appropriate funds to the Hawaii Housing Finance and Development Corporation for computer software and hardware; information technology improvements; videoconferencing improvements; and scanning and digitization equipment, services, and warranties.

Your Committee on Conference finds that the Hawaii Housing Finance and Development Corporation has funds composed of tax-exempt general obligation bond proceeds and accrued interest within the Rental Housing Revolving Fund that are restricted and cannot be used for the purposes of that fund. However, those funds can be used for public infrastructure development, which is one of the purposes for which funds within the Dwelling Unit Revolving Fund can be used. Accordingly, this measure transfers tax-exempt general obligation bond funds and accrued interest from the Rental Housing Revolving Fund to the Dwelling Unit Revolving Fund.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Director of Finance is authorized to transfer tax-exempt general obligation bond proceeds from the Rental Housing Revolving Fund to the Dwelling Unit Revolving Fund in an amount of \$45,000,000;
- (2) Inserting appropriations of \$300,000,000 into and out of the Rental Housing Revolving Fund; provided that \$150,000,000 is used for mixed-income housing projects;

- (3) Inserting an appropriation amount of \$554,000 for the Hawaii Housing Finance and Development Corporation to procure computer software and hardware; information technology improvements; videoconferencing improvements; and scanning and digitization equipment, services, and warranties;
- (4) Adding a severability clause; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3048, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3048, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Kanuha, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Nakamura, Yamashita, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 103-22 on S.B. No. 2390

The purpose of this measure is to:

- (1) Increase the number of associate judges on the Intermediate Court of Appeals from five to six; and
- (2) Appropriate funds.

Your Committee on Conference finds that the Intermediate Court of Appeals expects a significant increase in its caseloads as the trial courts dispose of their backlogs of civil, criminal, and family cases. Your Committee on Conference further finds that adding another Intermediate Court of Appeals associate judge would enable the Judiciary to expeditiously resolve a greater number of appeals and address the foreseeable backlog of cases from the trial courts.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$478,326, to be allocated as follows:
 - (A) \$214,788 for the establishment of one permanent full-time equivalent (1.0 FTE) intermediate appellate court associate judge position;
 - (B) \$86,688 for the establishment of one permanent full-time equivalent (1.0 FTE) judicial assistant position;
 - (C) \$134,400 for the establishment of two permanent full-time equivalent (2.0 FTE) law clerk positions; and
 - (D) \$42,450 for equipment, books, and furniture for the new associate judge's chambers;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2390, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2390, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Nishimoto, Matayoshi and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 104-22 on S.B. No. 2641

The purpose of this measure is to appropriate funds for residential programs that allow minor children to remain with their mothers while participating in a residential program, including community-based furlough programs, residential drug treatment programs, therapeutic community programs, and mental health programs, to reduce the risk of trauma and multigenerational incarceration.

Your Committee on Conference finds that the incarceration of mothers that results in separation from their children has devastating negative developmental and emotional impacts on children that increase the risk of multigenerational incarceration. This measure will reduce the risk of multigenerational incarceration by funding programs that allow minors to remain with their mothers during the mothers' program participation.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000 for residential programs that allow minor children to remain with their mothers while participating in a residential program; and

- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2641, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2641, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ohno, Ichiyama, B. Kobayashi, Ganaden, Morikawa and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 105-22 on S.B. No. 2663

The purpose of this measure is to change the filing fee schedule for paternity actions by establishing an initial filing fee of \$100 and eliminating fees to file motions.

Your Committee on Conference finds that the different filing fee schedules for divorce and paternity actions creates a burdensome and confusing situation for low-income litigants. This measure will establish clear filing fees for paternity actions which will reduce the burden, confusion, and uncertainty for litigants under the existing filing fee schedule.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2663, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2663, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Nishimoto, Matayoshi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 106-22 on S.B. No. 2475

The purpose of this measure is to clarify that amounts received or accrued for stevedoring and related services, wharfage, and demurrage fees are exempt under the general excise tax law.

Your Committee on Conference finds that the shipping industry is critical to the well-being of the people of Hawaii because nearly all goods are imported. This measure exempts certain shipping-related fees and services under the general excise tax law in order to help reduce the inflated cost of imported goods.

Your Committee on Conference has amended this measure by removing related services in reference to stevedoring services.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2475, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2475, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Kanuha, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Luke, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 107-22 on S.B. No. 2347

The purpose of this measure is to:

- (1) Require the language and meaning of any proposed constitutional amendment and ratification question to be simple, concise, and direct to the extent practicable; and
- (2) Allow the presiding officers of the Legislature to request a written opinion of the Supreme Court regarding the legality of a proposed constitutional amendment and ratification question.

Your Committee on Conference finds that constitutional ratification questions should be posed in simple, concise, and direct language. Your Committee on Conference further finds that it is an appropriate exercise of the powers of the Hawaii Supreme Court to issue written opinions on the legality of a proposed constitutional ratification question when requested by the presiding officers of the

Legislature. This measure provides a mechanism to ensure that the legality of constitutional ratification questions are addressed by the highest court in the State.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Hawaii Supreme Court to provide a written opinion in response to written request from the President of the Senate or Speaker of the House of Representatives within fifteen days instead of ten days;
- (2) Clarifying provisions requiring the Hawaii Supreme Court to include detailed and specific explanations in a written opinion provided in response to a written request to be consistent with statutory language providing for the content of the written opinion; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2347, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2347, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Gabbard and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Nishimoto, Matayoshi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 108-22 on S.B. No. 2162

The purpose of this measure is to establish ranked-choice voting for special federal elections and special elections of vacant county council seats.

Your Committee on Conference finds that the existing plurality voting method in special elections allows a candidate to win an election without a majority of votes when there are more than two candidates for the office. Your Committee on Conference further finds that ranked choice voting provides voters with the ability to rank candidates in order of preference and has been used effectively in other jurisdictions in the nation and the world.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2162, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2162, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Fevella). Excused, none.

Representatives Nakashima, Nishimoto and Matayoshi.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 109-22 on S.B. No. 2136

The purpose of this measure is to prohibit juror exclusion based on gender identity or expression.

Your Committee on Conference finds that gender identity and expression are not expressly protected from discrimination in jury service under existing law. This measure disallows arbitrary discrimination for service on a jury so that all individuals may participate in performing their civic duties.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2136, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2136, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Nishimoto, Matayoshi, Tam and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 110-22 on S.B. No. 2298

The purpose of this measure is to increase the penalty for employers who fail to pay their employees wages in accordance with state wage and hour laws and other compensation laws, by making violators guilty of a class C felony and subject to a fine of not less than \$500 per offense.

Your Committee on Conference finds that state labor laws should vigorously protect workers from employers who fail to provide employees with wages, benefits, or other forms of compensation that are rightfully owed to them. This measure will provide a greater deterrence to employers who violate wage and hour laws and other compensation laws.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2298, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2298, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Onishi, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 111-22 on S.B. No. 2707

The purpose of this measure is to:

- (1) Require the employer to initiate negotiations on repricing of classes within a bargaining unit within thirty days of the employer's receipt of the exclusive representative's written request to negotiate; and
- (2) Establish that the employer's failure to initiate the negotiation within this time frame, or the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate or by January 31 of a year in which the collective bargaining agreement is due to expire, whichever is earlier, constitutes an impasse to which the impasse procedures in section 89-11, Hawaii Revised Statutes, shall apply.

Your Committee on Conference finds that repricing means the reassignment of classes within a bargaining unit from one pay range to another in the same salary schedule based on appropriate factors that occurs when the pay range of a class is not in proper alignment with other classes in the same bargaining unit. Your Committee on Conference further finds that under the existing process, it is extremely difficult for employees to seek the repricing of their classes. By providing mandatory timeframes within which repricing negotiations must be initiated and an agreement reached, the failure of which would cause impasse procedures to apply, this measure will ensure that public employees are being paid competitive and fair wages, which will allow the employers to better recruit and retain qualified workers.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2707, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2707, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Onishi, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 112-22 on S.B. No. 3126

The purpose of this measure is to:

- (1) Require the Director of Labor and Industrial Relations to appoint a Chief Boiler and Pressure Vessel Inspector;
- (2) Allow the Director of Labor and Industrial Relations to authorize qualified boiler inspectors who are in the exclusive employment of an owner-user inspection organization to perform safety inspections of pressure retaining items; and
- (3) Extend the time by which the Director of Labor and Industrial Relations is required to reimburse the general fund for the initial appropriation made to the Boiler and Elevator Revolving Fund.

Your Committee on Conference finds that existing rules adopted by the Department of Labor and Industrial Relations allow owner-user inspection organizations to perform safety inspections, provided that the inspections are performed by qualified boiler inspectors. The current practice allows inspections of pressure retaining items in the State to be performed in a timely manner while ensuring the safe operation and use thereof. This measure codifies the current practice engaged in by the Department of Labor and Industrial Relations and owner-user inspection organizations in Hawaii.

Your Committee on Conference also finds that this measure provides the Director of Labor and Industrial Relations additional time to reimburse the general fund from the Boiler and Elevator Revolving Fund by three years, thereby allowing more flexibility to fund boiler and elevator safety operations while maintaining a feasible repayment schedule.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3126, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3126, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Onishi, Johanson, Sayama and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 113-22 on S.B. No. 3142

The purpose of this measure is to add reserve public safety law enforcement officers to the list of volunteer occupations covered by the workers' compensation law under certain conditions.

Your Committee on Conference finds that the Department of Public Safety is prepared to begin a volunteer enforcement program that will recruit the Department's recent retirees and members of the public as volunteer reserve public safety law enforcement officers to assist with its law enforcement responsibilities. Your Committee on Conference further finds that the volunteer reserve public safety law enforcement officers will be trained to the same standard as, and will be exposed to the same extent of risk, danger, and injuries as the Department's full-time law enforcement officers. This measure will allow injuries incurred by volunteer reserve public safety law enforcement officers under specified conditions to be compensated under the State's workers' compensation law.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3142, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3142, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, DeCoite, Shimabukuro, Keohokalole and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Fevella).

Representatives Onishi, Johanson, Sayama and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 114-22 on S.B. No. 3121

The purpose of this measure is to:

- (1) Establish an Accessible Parking Special Account within the Disability and Communication Access Board Special Fund;
- (2) Increase the state annual vehicle registration fee by \$1 and require that \$1 from each annual vehicle registration fee be deposited into the Accessible Parking Special Account; and
- (3) Beginning July 1, 2023, require all costs associated with the Statewide Parking for Persons with Disabilities program to be paid using funds appropriated from the Accessible Parking Special Account.

Your Committee on Conference finds that the Parking for Persons with Disability Program, which is currently funded entirely by general funds, was severely impacted by the significant decline in the State's general revenues due to the disruptions caused by the coronavirus disease 2019 pandemic. This measure will allow the Parking for Persons with Disability Program to become self-sufficient and ensure that it is unaffected by future economic conditions.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3121, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3121, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Lee, Inouye and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Ilagan, Clark, Takumi and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 115-22 on S.B. No. 3252

The purpose of this measure is to:

- (1) Impose a cap on the costs charged for the duplication of government records provided to requestors in electronic format;
- (2) Impose a cap on costs charged for searching for, reviewing, and segregating digital records;
- (3) Provide for a waiver of fees when the public interest is served by a digital records disclosure; and
- (4) Appropriate funds for positions.

Your Committee on Conference finds that public records laws provide a critical mechanism to maintain government accountability and transparency and support citizen involvement in government decision-making. Your Committee on Conference further finds that excessive fees for record requests are an obstacle to any general policy of open government and discourage the public from learning more about government operations.

Your Committee on Conference has amended this measure by:

- (1) Changing references of “digital records” to “records”;
- (2) Inserting an appropriation amount of \$185,000;
- (3) Inserting an effective date of July 1, 2023, for sections 2 and 3 of this measure, and July 1, 2022, for this measure generally; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3252, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3252, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Moriwaki, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Wildberger, Costales and Ward.
Managers on the part of the House.
Ayes, 4; Ayes with Reservations (Ward). Noes, none. Excused, none.

Conf. Com. Rep. 116-22 on H.B. No. 2512

The purpose of this measure is to:

- (1) Allow persons receiving accommodations or services from an Ohana Zone to request a ninety-day extension of the accommodations or services;
- (2) Extend the Ohana Zones Pilot Program sunset date to June 30, 2028; and
- (3) Establish an Ohana Zones Program within the Hawaii Public Housing Authority as part of its rental assistance programs upon expiration of the Ohana Zones Pilot Program.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1 version, which:
 - (A) Expands regulatory exemptions for the Ohana Zones Pilot Program contracts;
 - (B) Amends the sunset date to June 30, 2026; and
 - (C) Appropriates \$15,000,000 for the pilot program; and
- (2) Further amending this measure by:
 - (A) Inserting a preamble;
 - (B) Allowing persons receiving accommodations or services from an Ohana Zone site to request a ninety-day extension of the accommodations or services;
 - (C) Reducing the scope of the regulatory exemptions;
 - (D) Requiring all contracts entered into or structures constructed pursuant to the Ohana Zones Pilot Program to comply with county, state, and federal floodplain management development standards, or statutes, codes, ordinances, rules, or regulations with which compliance is required under the National Flood Insurance Program;
 - (E) Changing the effective date to July 1, 2022; and

(F) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2512, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2512, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Chang, Moriwaki, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Nakamura, Tam, Hashimoto and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 117-22 on H.B. No. 2338

The purpose of this measure is to:

- (1) Appropriate funds from the State Highway Fund to the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund for fiscal year 2022-2023; and
- (2) Authorize the Department of Health to expend those funds for the establishment of the State Drug and Alcohol Toxicology Testing Laboratory.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$400,000 out of the State Highway Fund and into the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund for fiscal year 2022-2023;
- (2) Changing the effective date to July 1, 2022; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2338, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2338, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Lee, Wakai, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

Representatives Yamane, Aquino, Tam, Takumi and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 118-22 on H.B. No. 2339

The purpose of this measure is to:

- (1) Make an emergency appropriation from the State Highway Fund to the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund for fiscal year 2021-2022; and
- (2) Authorize the Department of Health to expend those funds for the establishment of the State Drug and Alcohol Toxicology Testing Laboratory.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$2,000,000 out of the State Highway Fund and into the Department of Health's State Drug and Alcohol Toxicology Testing Laboratory Special Fund for fiscal year 2021-2022;
- (2) Changing the effective date to upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2339, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2339, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Lee, Wakai, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

Representatives Yamane, Aquino, Tam, Takumi and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 119-22 on H.B. No. 1798

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist The Queen's Health Systems with the construction of, improvement to, and equipping of its health care facilities.

Your Committee on Conference has amended this measure by:

- (1) Changing the authorized amount of the special purpose revenue bonds from an unspecified amount to \$750,000,000; and
- (2) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1798, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1798, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Tam, Har and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 120-22 on H.B. No. 1932

The purpose of this measure is to:

- (1) Require the Child Welfare Services Branch of the Department of Human Services to develop a modern case management software solution that is compatible with existing child welfare technology;
- (2) Submit progress reports to the Legislature; and
- (3) Appropriate funds for the development of the modern case management software solution.

Your Committee on Conference has amended this measure by:

- (1) Making the online resource portal created by this measure available to minors over the age of twelve;
- (2) Inserting an appropriation amount of \$80,000 for the development of a case management software solution by the Child Welfare Services Branch of the Department of Human Services;
- (3) Changing the effective date to July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1932, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1932, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Tam, Gates and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 121-22 on H.B. No. 1982

The purpose of this measure is to:

- (1) Establish a general excise tax withholding requirement for persons making payment to a loan-out company and claiming the motion picture, digital media, and film production tax credit (film production tax credit) to withhold and remit a portion of all payments made to the loan-out company;
- (2) Reduce the minimum amount of qualified production costs necessary to claim the film production tax credit;
- (3) Require a production to submit an application processing fee to the Department of Taxation in order to qualify for the film production tax credit;
- (4) Repeal the requirement for qualified productions to submit a verification review by a qualified Certified Public Accountant when applying for the film production tax credit;
- (5) Require the Department of Business, Economic Development, and Tourism (DBEDT) to issue a letter to a taxpayer claiming the film production tax credit specifying the qualified production costs and tax credit amount qualified for no later than ten months after the receipt of the taxpayer's statement;

- (6) Extend the period during which excess film production tax credits may be claimed from December 31, 2025, to December 31, 2032;
- (7) Require qualified productions that make payments to a loan-out company and claim the film production tax credit to withhold an amount equal to one-half of one percent of qualified production costs to the credit of the general excise tax account of the loan-out company;
- (8) Amend the allowable uses of the Tax Administration Special Fund; and
- (9) Authorize the Department of Taxation to establish four full-time equivalent Tax Auditor positions.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the amount to be withheld and remitted is equal to the highest rate of general excise tax, plus any applicable county surcharge for all payments made to a loan-out company for services performed in the State;
- (2) Clarifying when every person subject to a general excise tax withholding requirement established by this measure is required to make and file a return;
- (3) Increasing the claimable amounts of the film production tax credit;
- (4) Expanding the requirements to qualify for the film production tax credit;
- (5) Changing when DBEDT is required to issue a letter specifying the qualified production costs and tax credit amount qualified for from no later than ten months to no later than seven months after receipt of the taxpayer's statement;
- (6) Changing the application processing fee that would have been submitted to the Department of Taxation and deposited into the Tax Administration Special Fund to a fee equal to 0.2 percent of the film production tax credit claimed, to be submitted to DBEDT and deposited into the Hawaii Film and Creative Industries Development Special Fund;
- (7) Increasing the cap of the total film production tax credits claimable per qualified production;
- (8) Deleting redundant and conflicting language that would have required every person making payment to a loan-out company to withhold an amount equal to one-half of one percent of qualified production costs for services performed in the State, the amount of which would have been remitted to the credit of the general excise tax account of the loan-out company;
- (9) Amending the definition of "qualified production costs";
- (10) Deleting language that would have authorized the Tax Administration Special Fund to be used to process qualified production applications for the film production tax credit;
- (11) Changing the number of Tax Auditor positions the Department of Taxation is authorized to establish from four to two, and inserting an appropriation for these positions;
- (12) Requiring DBEDT to establish one full-time equivalent permanent Program Specialist position, and inserting an appropriation for the position;
- (13) Changing the effective date to July 1, 2022; provided that the provisions of this measure applicable to the film production tax credit shall take effect on January 1, 2023; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1982, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1982, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keith-Agaran, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Quinlan, Holt, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 122-22 on H.B. No. 2309

The purpose of this measure is to reduce recidivism rates in the State and increase productivity in affected communities by establishing and appropriating funds for an array of diversion, reentry, and rehabilitation services and programs within the State, including the following:

- (1) A pilot program to allow minor children to remain with their mothers while the mothers are participating in therapeutic, drug treatment, or other residential programs, to be administered by the Judiciary;
- (2) A comprehensive recidivism prevention pilot program within the Judiciary, including a housing voucher program, child care voucher program, and employer income tax credit program;
- (3) An offender reset program within the Department of Public Safety to provide offenders pre- and post-release assistance to support their reentry, rehabilitation, and employment;

- (4) Diversion, reentry, and rehabilitation services and programs within the State, as they relate to offenders who are in the Department of Public Safety's custody and control, or under the jurisdiction of the Judiciary or Hawaii Paroling Authority; and
- (5) Services and programs within the State for formerly incarcerated persons exiting jails and prisons, with a special focus on housing, human services, and health.

Your Committee on Conference has amended this measure by:

- (1) Removing the pilot programs, offender reset program, and appropriations for services and programs under the Judiciary and Department of Human Services;
- (2) Appropriating funds to support diversion, reentry, and rehabilitation services and programs within the State, as follows:
 - (A) For the purchase of identification card machines to assist offenders while they are in the Department of Public Safety's custody and control in obtaining identifying documentation that is essential to their reentry upon release, to be expended by the Department of Public Safety;
 - (B) For the development and maintenance of community housing for parolees to support their reentry into the community and their rehabilitation, to be expended by the Hawaii Paroling Authority; and
 - (C) For a forensic peer specialist program to assess and treat incarcerated individuals with behavioral, mental, and substance abuse issues, to be expended by the Department of Health;
- (3) Changing its effective date to July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2309, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2309, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Moriwaki and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, Matayoshi, B. Kobayashi, Ganaden, Morikawa and McDermott.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 123-22 on H.B. No. 1741

The purpose of this measure is to:

- (1) Require the Department of Human Services to work with the Department of Public Safety, Family Reunification Working Group, and other entities serving children and families affected by parental incarceration to establish a pilot visitation and family resource center at Waiawa Correctional Facility on Oahu whose staff includes trauma-informed professionals who serve as liaisons and hookele for families affected by incarceration;
- (2) Require the Department of Human Services to continue to lead a working group to address visitation and support needs of children and families of incarcerated individuals;
- (3) Require the working group to submit a report to the Legislature before the Regular Session of 2023; and
- (4) Appropriate funds to the Department of Human Services and Department of Public Safety for the establishment of the pilot visitation and family resource center at Waiawa Correctional Facility.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$305,000 for the Department of Human Services and \$115,000 for the Department of Public Safety to establish the pilot visitation and family resource center at Waiawa Correctional Facility; and
- (2) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1741, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1741, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, DeCoite, Taniguchi, Acasio and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, B. Kobayashi, Ganaden, Morikawa and McDermott.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 124-22 on H.B. No. 2171

The purpose of this measure is to:

- (1) Establish a Department of Law Enforcement to consolidate and administer criminal law enforcement and investigations functions of the State;
- (2) On January 1, 2023, transfer the law enforcement functions of the Department of Public Safety to the Department of Law Enforcement;
- (3) On January 1, 2023, reestablish the Department of Public Safety as an independent Department of Corrections and Rehabilitation to administer the corrections, rehabilitation, and reentry of the inmate population;
- (4) On July 1, 2023, transfer the law enforcement functions of the Department of Transportation, the non-statutorily mandated functions of the investigations division of the Department of the Attorney General, and the Office of Homeland Security to the Department of Law Enforcement;
- (5) Establish a Department of Law Enforcement training center and appropriate funds for a multi-purpose training and staff development and administrative support facility for the Department of Corrections and Rehabilitation and a new law enforcement complex at Mililani Technology Park for the Department of Law Enforcement; and
- (6) Appropriate funds for various positions in the Department of Law Enforcement and Department of Corrections and Rehabilitation and for pay increases for deputy sheriffs.

Your Committee on Conference has amended this measure by:

- (1) Changing the phasing of various parts of the measure, making the following parts effective on January 1, 2024:
 - (A) Part III, transferring law enforcement functions and personnel from the Department of Public Safety to the Department of Law Enforcement;
 - (B) Part IV, reestablishing the Department of Public Safety as the Department of Corrections and Rehabilitation, the Director of Public Safety as the Director of Corrections and Rehabilitation, establishing its deputy directors, and placing the authority and responsibilities of the Department of Corrections and Rehabilitation in Chapter 353, Hawaii Revised Statutes;
 - (C) Part V, transferring certain other law enforcement functions and personnel to the Department of Law Enforcement; and
 - (D) A new part VIII, relating to Department of Corrections and Rehabilitation positions;
- (2) Amending the contents of the report required upon the death of an inmate or correctional facility employee to include the name of the decedent; provided that this information is not protected from disclosure by state or federal law;
- (3) Removing the disclosure of the name of the decedent as a discretionary act of the Director of Corrections and Rehabilitation;
- (4) Establishing in statute the new law enforcement complex at Mililani Technology Park and removing the appropriation for the law enforcement complex;
- (5) Removing the appropriation for the support facility for the Department of Corrections and Rehabilitation;
- (6) Reducing appropriations to the Department of Law Enforcement for positions and eliminating the appropriation for other operation costs and salary increases for deputy sheriffs;
- (7) Eliminating appropriations to the Department of Corrections and Rehabilitation;
- (8) Changing the effective date for parts II and VI to upon approval; and
- (9) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2171, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2171, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran, Rhoads, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, Nakashima, B. Kobayashi, Ganaden and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 125-22 on H.B. No. 1974

The purpose of this measure is to:

- (1) Establish a five-year Small Business Assistance Initiative within the State Procurement Office, to consist of a Small Business Procurement Coordinator and Small Business Office; and
- (2) Appropriate funds to the State Procurement Office for the Small Business Assistance Initiative.

Your Committee on Conference has amended this measure by:

- (1) Establishing the Small Business Assistance Initiative in the Session Laws of Hawaii, rather than statutorily in the Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$366,000 for the Small Business Assistance Initiative, to be allocated as follows:
 - (A) \$115,000 to complete the State Small Business Database as provided by Act 42, Session Laws of Hawaii 2017, prior to its repeal;
 - (B) \$126,000 for the establishment of one permanent full-time equivalent (1.00 FTE) Small Business Procurement Coordinator position exempt from chapter 76, Hawaii Revised Statutes, in the State Procurement Office; and
 - (C) \$125,000 for the hiring of a local small business to operate and maintain the Small Business Office and for marketing of and outreach for the full five-year term of the Small Business Assistance Initiative;
- (3) Clarifying that the effective date of this measure is upon its approval; provided that the appropriation section shall take effect on July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1974, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1974, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Johanson, Wildberger, Costales and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 126-22 on H.B. No. 1568

The purpose of this measure is to:

- (1) Require the Department of Education, Department of Health, Department of Public Safety, Department of Defense, and University of Hawaii System to ensure that a certain percentage of food purchased for public schools, youth campuses, public hospitals, public prisons, and academic programs of the University of Hawaii consists of fresh local agricultural products or local value-added, processed, agricultural, or food products; and
- (2) Require each of these entities to annually report to the Legislature on its progress made toward meeting certain established benchmarks.

Your Committee on Conference finds that, while it concurs with the intent of the provision in the S.D. 2 version of this measure that requires the Department of Education, Department of Health, Department of Public Safety, Department of Defense, and University of Hawaii system to prioritize contracts with vendors that use locally sourced food products, the inclusion of this provision may be challenged as an unconstitutional violation of the Dormant Commerce Clause of the United States Constitution, which prohibits states from passing legislation that discriminates against or excessively burdens interstate commerce, should litigation be brought on this issue and as such believes that this provision should be removed from this measure.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have required the Department of Education, Department of Health, Department of Public Safety, Department of Defense, and University of Hawaii System to prioritize contracts with vendors that use locally sourced food products;
- (2) Changing the effective date to July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1568, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1568, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Moriwaki, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Wildberger, Costales and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 127-22 on H.B. No. 1432

The purpose of this measure is to facilitate the provision of concession services to the public by:

- (1) Amending the maximum length of certain concession contracts from fifteen years to an unspecified time period;
- (2) Exempting concessions for the operation of ground transportation services and parking lot operations at small boat harbors;
- (3) Exempting concessions for beach or ocean-related recreational services from the sealed bid requirements, with certain conditions;
- (4) Authorizing the county directors of parks and recreation to designate which county parks under their respective jurisdictions are environmentally, culturally, historically, or operationally unique for purposes of determining whether a concession at the park is exempt from the sealed bid requirements; and
- (5) Expanding the exemption for concessions at county zoos, botanic gardens, or county parks designated by the respective county director of parks and recreation, in the director's sole discretion, as environmentally, culturally, historically, or operationally unique; provided that the concessions are awarded to responsible offerors whose proposals are the most advantageous, rather than solely to certain nonprofit corporations.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the maximum length of certain concession contracts is twenty-five years;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1432, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1432, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki, Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Johanson, Todd, Kitagawa, B. Kobayashi and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Kitagawa).

Conf. Com. Rep. 128-22 on S.B. No. 2819

The purpose of this measure is to:

- (1) Repeal certain statutory provisions regarding teachers' salary schedules and ratings; and
- (2) Fund a memorandum of understanding to address compensation equity issues and make the necessary discretionary salary adjustments for experienced senior public school teachers and state public charter school teachers.

Your Committee on Conference finds that the State faces a chronic shortage of qualified educators. The recruitment and retention of qualified teachers is critical to the success of the State's public education system. Your Committee on Conference further finds that better pay is correlated with greater success in recruiting and retaining qualified educators. Your Committee on Conference additionally finds that the salaries of experienced senior teachers in the State are inequitably aligned with less senior teachers. Accordingly, this measure promotes both the recruitment and retention of qualified teachers by addressing certain existing salary inequities.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation provisions;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2819, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2819, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Misalucha, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Woodson, Onishi, Eli, Perruso and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 129-22 on S.B. No. 2821

The purpose of this measure is to:

- (1) Require the Department of Education and State Public Charter School Commission to provide menstrual products to all students, free of charge, on all public school and public charter school campuses; and
- (2) Appropriate funds to provide the menstrual products.

Your Committee on Conference finds that the lack of adequate access to menstrual products in schools is harmful in many ways. It limits full participation in school, contributes to higher rates of school absenteeism and missed activities, and perpetuates gender and class inequities. Your Committee on Conference further finds that having a sufficient supply of menstrual products available to students will prevent the extended use of products beyond the recommended time or use of alternatives, which can cause serious health problems. Accordingly, this measure will promote menstrual equity by providing menstrual products to all students, free of charge, on all public and charter school campuses.

Your Committee on Conference has amended this measure by:

- (1) Defining “public school campuses” to include all Department of Education schools and public charter schools;
- (2) Removing the addition of a new section to chapter 302D, Hawaii Revised Statutes, which is no longer necessary as the definition of “public school campuses” includes public charter schools;
- (3) Removing the appropriation sections, as the initiative is to be funded through the state budget measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2821, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2821, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Costales and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 130-22 on S.B. No. 2184

The purpose of this measure is to:

- (1) Establish a Digital Learning Center within the Department of Education; and
- (2) Appropriate funds for staffing and programmatic expenses for the Digital Learning Center.

Your Committee on Conference finds that digital learning is a critical component of education today. Your Committee on Conference further finds that digital learning can promote the equitable delivery of high-quality educational offerings to students. Accordingly, this measure will help improve the quality and delivery of digital learning services for students statewide by establishing and funding a digital learning center within the Department of Education.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$7,099,062.57;
- (2) Clarifying the allowable uses of the appropriated funds; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2184, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2184, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Misalucha and Fevella.
Managers on the part of the Senate.

Representatives Woodson, Eli, Costales and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 131-22 on S.B. No. 3090

The purpose of this measure is to provide greater fiscal transparency by broadening the purposes for which indirect costs from federal grants incurred by the Department of Education, State Public Charter School Commission, or a charter school authorizer may be reimbursed.

Your Committee on Conference finds that indirect cost funds are reimbursements from federal grants received by the Department of Education for costs incurred in support of administrative and general business operations. Accordingly, this measure promotes better, intentional, planned, and transparent use of the funds by broadening the purposes for which indirect costs from federal grants may be used.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3090, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3090, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Taniguchi and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Costales and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 132-22 on S.B. No. 3092

The purpose of this measure is to allow for greater implementation of commercial enterprises in schools by classifying student interns engaged in a commercial enterprise as employees of the State for purposes of the State Tort Liability Act and allowing the Department of Education to use revenue generated from school commercial enterprises.

Your Committee on Conference finds that there are liability concerns for businesses that employ student interns through the Department of Education's commercial enterprise program. Accordingly, this measure encourages participation of businesses in the commercial enterprise program and promotes workforce readiness by designating student interns of the commercial enterprise program as State employees.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3092, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3092, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Taniguchi, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Eli, Kapela and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 133-22 on S.B. No. 2893

The purpose of this measure is to establish and appropriate funds for a one-year pilot program to subsidize the purchase of school supplies at schools composed entirely of students eligible for participation in Title I, Part A, of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act.

Your Committee on Conference finds that the annual expense of purchasing student school supplies can reach thousands of dollars, which is beyond the financial means of many low-income families. Your Committee on Conference further finds that Title I, Part A, of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act (Title I), provides federal financial assistance to local educational agencies and schools with high percentages of children from low-income families. Accordingly, this measure will help to ensure that the students who attend those schools receive the school supplies necessary for their academic year by establishing a subsidy program for their school supplies.

Your Committee on Conference has amended this measure by:

- (1) Exempting certain Department of Education expenditures, including those made pursuant to this measure, from certain procurement requirements and instead subject them to small purchase procurement requirements;
- (2) Inserting an appropriation amount of \$806,800;
- (3) Inserting an effective date of July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2893, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2893, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Clark and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 134-22 on S.B. No. 2081

The purpose of this measure is to:

- (1) Establish the Department of Education Commercial Enterprises Revolving Fund to accept the deposit of revenues from commercial enterprise operation programs undertaken by the Department of Education;
- (2) Authorize the Department of Education to expend revenues from the Revolving Fund to support the operations of the commercial enterprises; and
- (3) Make an appropriation into the Revolving Fund.

Your Committee on Conference finds that commercial enterprises provide students with critical hands-on and real-world experiences that contribute to post-secondary and workforce success. Your Committee on Conference further finds that revenues generated by these commercial enterprises, if any, support various school programs. Your Committee on Conference notes, however, that this revenue generation currently presents certain fiscal challenges for schools. Accordingly, this measure promotes career readiness and encourages the growth of commercial enterprises in schools by removing certain barriers that hinder the effectiveness and progression of the commercial enterprises.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2081, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2081, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Kapela and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 135-22 on S.B. No. 2818

The purpose of this measure is to establish and appropriate funds for a Summer Learning Coordinator position within the Department of Education to coordinate all school-based summer programs for children.

Your Committee on Conference finds that the coronavirus disease 2019 pandemic has caused learning loss among students across the State and adversely impacted their well-being. Your Committee on Conference further finds that summer programs have the potential to close student achievement gaps, improve student mental health, promote physical activity, and ensure child safety. Accordingly, this measure promotes efforts to accelerate learning and the provision of additional student services during the summer months by establishing a Summer Learning Coordinator position to coordinate all school-based summer programs for children.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$125,000; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2818, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2818, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Eli and Okimoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 136-22 on S.B. No. 1112

The purpose of this measure is to amend the minimum appointment eligibility requirements for the position of Adjutant General to a person who:

- (1) Holds or has held a commission of the rank of Colonel in the military grade of O6 or above, or its equivalent;
- (2) Has served as a commissioned officer in one or more components in the Army or Air Force for at least ten years; and
- (3) Has no administrative actions preventing promotion to the rank of a General Officer in the military grade of O7 or O8.

Your Committee on Conference finds that the Adjutant General plays a critical role in the safety and security of the people of Hawaii and this role warrants the Adjutant General to have certain experience. This measure ensures the safety of residents of the State by providing qualifying criteria to assist with the selection of the Adjutant General.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1112, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1112, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, B. Kobayashi, Ganaden and McDermott.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 137-22 on S.B. No. 2637

The purpose of this measure is to:

- (1) Require the Department of Public Safety to develop and make available a community-based work furlough program for women offenders in the State; and
- (2) Appropriate funds to the Department of Public Safety to continue and expand community-based work furlough for women.

Your Committee on Conference finds that existing community-based work furlough programs enable women to return to the workforce, keeping eighty-four percent of participants out of prison and providing them with the opportunity to participate in and access transitional training. This measure will reduce recidivism and benefit both women inmates and the community by ensuring the continuation and expansion of the community-based work furlough program for incarcerated women in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for the continuation and expansion of community-based work furlough for women; and
- (2) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2637, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2637, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Ohno, Ichiyama, B. Kobayashi, Ganaden, Morikawa and Matsumoto.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 138-22 on S.B. No. 2510

The purpose of this measure is to:

- (1) Amend the Hawaii State Planning Act to give consideration to reducing reliance on energy imports, ensuring that all new utility scale electricity generation projects are renewable, balancing of grid resources including firm renewable energy resources, and reliable replacement of fossil fuel generation with balanced grid resources;
- (2) Prohibit fossil fuel generation after December 31, 2045, except in certain circumstances; and
- (3) Expand vocational training in renewable energy and related industries.

Your Committee on Conference finds that to meet the State's goal of one hundred percent renewable energy by 2045, the State must consider a variety of options to utilize renewable energy sources to address the needs of the State while also providing reliable, clean energy to Hawaii's people. Therefore, the creation of a clean energy framework to address Hawaii's energy needs is critical to ensure the availability of clean, renewable energy for Hawaii's residents, communities, and businesses that is consistent with the State's goals.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that electricity generation facilities, rather than projects shall be renewable capable;
- (2) Requiring greater diversification of renewable energy generation to include intermittent and firm renewable generation to improve reliability and achieve one hundred percent renewable energy objectives;
- (3) Requiring reliable replacement of fossil fuel generation with firm renewable generation;
- (4) Clarifying that firm renewable generation shall be a minimum of 33.33 percent of renewable energy generation for each island and may only be updated by the Legislature through the following:
 - (A) Adoption of a concurrent resolution based on data from a study by the Hawaii Natural Energy Institute, as described in this measure; and
 - (B) Submission of a concurrent resolution by the Office of Planning and Sustainable Development to the Legislature for review of the proposed firm renewable energy generation minimum percentage;
- (5) Limiting the percentage of any one type of renewable energy source to forty-five percent of all generation for each island, except for geothermal generated energy;
- (6) Prohibiting fossil fuel generation after December 31, 2045, except in cases of emergencies, natural disasters, and other extenuating circumstances beyond an electric utility company's reasonable control;
- (7) Clarifying the State's policy to include cost-saving decisions into pursuing energy objectives;
- (8) Clarifying the definition of "firm renewable energy" to include capability of continuous production of energy twenty-four hours per day, three hundred sixty-five days per year, on the demand of the energy system operator at its rated capacity, subject only to routine maintenance and repairs;
- (9) Inserting language to incentivize the development of firm renewable energy to replace fossil fuel generation;
- (10) Inserting language that requires the Office of Planning and Sustainable Development to update the energy state functional plan and submit an annual report to the Legislature regarding the status of the plan and related policies;
- (11) Inserting language that requires the Hawaii Natural Energy Institute to conduct a study to update the minimum percentage of firm renewable generation for each island and maximum proportion of any one renewable energy source on each island;
- (12) Inserting an appropriation of \$200,000 for the Hawaii Natural Energy Institute to conduct the study;
- (13) Inserting an appropriation of \$200,000 for the Office of Planning and Sustainable Development to update the energy state functional plan;
- (14) Inserting a purpose section reflecting its amended purpose;
- (15) Inserting an effective date of July 1, 2022; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2510, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2510, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Wakai, Kidani, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Representatives Lowen, Johanson, Marten, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 139-22 on S.B. No. 416

The purpose of this measure is to:

- (1) Clarify the applicable expert witness fees in state criminal cases; and
- (2) Increase per diem payments for other witnesses required to travel and stay overnight to attend a state court or grand jury in any criminal case.

Your Committee on Conference finds that statutory changes are needed to ensure the reimbursement of certain expert witness fees for county prosecutors, indigent defendants represented by the Office of the Public Defender, and private conflict counsel, and that these changes are necessary to support both a defendant's constitutional right to a defense and the State's ability to prosecute violations

of the law. This measure codifies the procedures and guidelines allowing for reimbursement of expert witness fees while also assisting witnesses and crime victims in covering the rising costs of travel.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 416, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 416, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Nishimoto, Matayoshi, Tokioka and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 140-22 on S.B. No. 2182

The purpose of this measure is to establish and fund a School Garden Coordinator position within the Department of Education's Office of Curriculum and Instructional Design to provide technical support and startup resources for schools interested in starting a school garden program.

Your Committee on Conference finds that learning gardens and farms on school campuses across Hawaii promote student health, advance academic achievement, and strengthen social and emotional well-being. Your Committee on Conference further finds that establishing a School Garden Coordinator position is necessary to successfully implement the Hawaii Farm to School Program. Accordingly, this measure benefits students statewide, helps develop a robust agricultural workforce, and accelerates garden and farm-based education opportunities by establishing a School Garden Coordinator position within the Department of Education.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2182, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2182, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Kapela and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 141-22 on S.B. No. 2862

The purpose of this measure is to appropriate funds to the Department of Education to install air conditioning units in public school classrooms that have not received air conditioning units or other heat abatement measures.

Your Committee on Conference finds that hot classroom temperatures in the State's public schools can adversely affect students and student achievement. Your Committee on Conference further finds that temperatures in Hawaii's classrooms are regularly recorded at over one hundred degrees during certain periods of the school year. Your Committee on Conference also finds that, while a prior appropriation successfully funded heat abatement upgrades for many public school classrooms, many more still require heat abatement improvements. Accordingly, this measure appropriates funds for classrooms that are still in need of heat abatement improvements.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$10,000,000; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2862, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2862, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Gates and Okimoto.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 142-22 on S.B. No. 2824

The purpose of this measure is to amend the minimum qualifications for members of the Board of Education to:

- (1) Diversify the experiences of the Board to include knowledge, experience, and proven expertise in education, workforce development, critical industries to the State, emerging fields, energy, advanced manufacturing, health care, business, technology, entrepreneurship, real estate finance, or organization management; and
- (2) Clarify that members of the Board must have an understanding of best practices in educational governance through organizations such as the National Association of State Boards of Education.

Your Committee on Conference finds that the Board of Education establishes critical educational policy for the State's education system. Your Committee on Conference further finds that schools are expanding their career readiness programs and partnerships with employers to meet the needs of the local and global workforce and community. As a result, the Board of Education must have a sophisticated understanding of policy related to a wide range of subjects. Accordingly, this measure benefits the State's education system by requiring Board of Education members to have diversified backgrounds, expertise, and perspectives, in addition to knowledge about best practices from expert organizations.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2824, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2824, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Kapela and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 143-22 on S.B. No. 3280

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Saint Joseph School in planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improving educational facilities.

Your Committee on Conference finds that Saint Joseph School is the only parochial school on the island of Hawaii and that enrollment at the school has increased. Your Committee on Conference further finds that several improvements to the campus are underway. However, additional funding is necessary to help construct a multi-purpose gymnasium to replace the school's existing, outdated facility. Accordingly, this measure promotes the public interest and will help Saint Joseph School build a stronger learning environment for students and the surrounding county by authorizing the issuance of special purpose revenue bonds.

Your Committee on Conference has amended this measure by:

- (1) Inserting a \$4,000,000 bond ceiling amount; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3280, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3280, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Inouye, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Eli and Okimoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 144-22 on S.B. No. 2826

The purpose of this measure is to establish and fund career development success programs to provide financial incentives for participating Department of Education and public charter schools to encourage ninth to twelfth grade students to complete qualified industry-credential programs.

Your Committee on Conference finds that nearly sixty-five percent of available positions today require post-secondary credentials. Your Committee on Conference further finds that industry-recognized credentials teach the specific knowledge and skills required for an occupation or industry and contribute to higher earnings for credentialed individuals. Accordingly, this measure will help high school students prepare to join Hawaii's workforce by establishing a career development success program that incentivizes high school students to enroll in and successfully complete qualified industry-credential programs.

Your Committee on Conference has amended this measure by:

- (1) Inserting per pupil incentive payment amounts of \$1,000; and
- (2) Inserting appropriation amounts of \$2,470,000 and \$130,000 for the Department of Education and State Public Charter School Commission, respectively.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2826, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2826, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Clark and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 145-22 on S.B. No. 3091

The purpose of this measure is to:

- (1) Include commercial enterprises in profit-making operations that students may engage in at schools;
- (2) Clarify that profits from agricultural, industrial, and commercial enterprise pursuits can be used to support the agricultural, industrial, and commercial enterprise pursuit programs directly; and
- (3) Allow students to receive school credit in addition to, or in lieu of, any net profits when engaging in profit-making operations.

Your Committee on Conference finds that there is an absence of clarity and consistency regarding the allowable parameters of commercial enterprise activities in public schools. This, in turn, limits students' opportunities to engage in real-world, hands-on experiences. Accordingly, this measure promotes workforce readiness by clarifying the law pertaining to commercial enterprise activities in public schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3091, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3091, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Taniguchi and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Costales and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 146-22 on S.B. No. 2142

The purpose of this measure is to:

- (1) Allow Department of Education students to fulfill high school diploma requirements by taking world language, fine arts, career and technical education, or computer science credits;
- (2) Establish a Computer Science in Teaching Scholarship Program at the University of Hawaii to encourage students earning an education degree to take a computer science course;
- (3) Require the University of Hawaii to establish computer science pathways for students earning an education degree;
- (4) By June 30, 2023, require programs leading to teacher licensing and certification to include certain computer science instruction; and
- (5) Appropriate funds for the University of Hawaii Computer Science in Teaching Scholarship Program.

Your Committee on Conference finds that computer science skills are critical to academic and career success. Accordingly, this measure promotes education and career success by encouraging high school students to learn computer science, providing incentives for future teachers to study computer science, and requiring that certified and licensed teachers receive instruction in computer science.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2142, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2142, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Woodson, Takayama, Eli, Gates and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 147-22 on S.B. No. 2115

The purpose of this measure is to:

- (1) Require certain children under Family Court jurisdiction to be taken without unnecessary delay to the court or place of shelter designated by the court; and
- (2) Establish conditions and time limits for placing a minor into room confinement at a juvenile detention facility or adult jail facility.

Your Committee on Conference finds that solitary confinement is harmful to youth health and development and increases the likelihood of self-harm and suicide. This measure will protect the health and safety of minors by codifying room confinement conditions and limitations.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2115, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2115, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Ichiyama, Tam, Har and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 148-22 on S.B. No. 2482

The purpose of this measure is to establish an Office of Wellness and Resilience within the Office of the Governor to support and implement the statewide framework developed by the Trauma-Informed Care Task Force established pursuant to Act 209, Session Laws of Hawaii 2021.

Your Committee on Conference finds that traumatic experiences, especially in childhood, can have a lifelong impact on health, learning, and even brain development. Positively influencing a child's developing brain is more effective and less costly than attempting to correct poor learning, health, and behaviors later in life. Your Committee on Conference further finds that currently, state agencies and departments have worked independently to train their family-serving workforce in trauma-informed care. The office established by this measure will lead the creation and adoption of a statewide framework for trauma-informed and responsive practices, which among other things, will help to coordinate the various agencies that have individually taken steps toward improving trauma-informed care.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$894,528 for the establishment and operations of the Office of Wellness and Resilience, which includes six full-time equivalent (6.0 FTE) positions and two contracted consultants; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2482, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2482, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Kitagawa, Tam, Har and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 149-22 on S.B. No. 3367

The purpose of this measure is to create an Early Lung Cancer Screening Task Force to research the steps and resources necessary to increase early lung cancer screening in the State.

Your Committee on Conference finds that lung cancer is the leading cause of cancer deaths for men and women in Hawaii, yet Hawaii ranks last in the nation for the early diagnosis of lung cancer. Your Committee on Conference also finds that the United States Preventive Services Task Force has recommended that smokers and former smokers who are at high risk of developing lung cancer undergo computerized tomography scans. An annual lung cancer screening with low-dose computed tomography is now recommended for adults ages fifty to eighty years who have a twenty pack-year smoking history and currently smoke or have quit within the past fifteen years. Thus, there is a need to research, plan, and implement early lung cancer screening in the State. This measure establishes the Early Lung Cancer Screening Task Force to accomplish these goals.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for the Early Lung Cancer Screening Task Force;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3367, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3367, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 150-22 on S.B. No. 2822

The purpose of this measure is to authorize the Department of Education to offer optional asthma education instruction to students and provide asthma training to teachers and other department employees who interact with students.

Your Committee on Conference finds that a substantial number of Hawaii residents are living with asthma and many are children. Your Committee on Conference further finds that research suggests that students who engage in school-based asthma education experienced significantly fewer days with activity limitations and significantly fewer nights of sleep disturbance after participation in the intervention. Accordingly, this measure authorizes the Department of Education to offer optional asthma education instruction to students and provide training to teachers and other department employees to ensure students with asthma are able to thrive in all environments.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2822, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2822, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Keohokalole, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Keohokalole).

Representatives Woodson, Yamane, Eli, Kapela and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Yamane).

Conf. Com. Rep. 151-22 on S.B. No. 2214

The purpose of this measure is to require and fund the Board of Education, through the State Librarian, to establish a digital literacy program to promote digital literacy through programmatic activities, including making digital technology accessible to individuals with disabilities.

Your Committee on Conference finds that digital literacy skills are crucial for career success today. However, while digitization offers advantages to digitally literate individuals, it also increases barriers for members of the public who lack digital skills. Accordingly, this measure promotes digital literacy and the improvement of workforce skills by establishing a digital literacy program within the public library system.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$75,000; and
- (2) Removing the establishment of one full-time equivalent (1.0 FTE) position within the Hawaii state public library system.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2214, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2214, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Costales and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 152-22 on S.B. No. 2857

The purpose of this measure is to:

- (1) Establish a five-year Child Wellness Incentive Pilot Program within the Department of Human Services to pay \$50 to a state Medicaid benefit recipient, each time the recipient parent's child completes a well-child examination; and
- (2) Appropriate funds to establish, implement, and operate the program.

Your Committee on Conference finds that well-child examinations allow for the comprehensive assessment of a child and opportunity for further evaluation if abnormalities are detected. Your Committee on Conference also finds that when children receive the recommended number of high-quality visits, they are more likely to be up-to-date on immunizations, have developmental concerns recognized early, and are less likely to visit the emergency department. This measure will incentivize Medicaid benefit recipients to complete their children's well-child examinations and thereby promote the health of children in State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$4,516,000;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2857, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2857, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Shimabukuro, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Tam, Har and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 153-22 on S.B. No. 3236

The purpose of this measure is to appropriate funds to provide a one-time enhanced payment equal to fifteen percent of the Medicaid patient payments of fiscal year 2022-2023 made to any eligible facility in the State that provides care to Medicaid patients in a Medicare-certified nursing facility, community care foster family home, and expanded adult residential care home.

Your Committee on Conference finds that the coronavirus disease 2019 (COVID-19) pandemic has created significant staffing and financial strains for Hawaii's long-term care facilities. The one-time enhanced payment provided by this measure will help these facilities stabilize and attract qualified workers and improve health outcomes for vulnerable facility residents.

Your Committee on Conference has amended this measure by:

- (1) Eliminating the fifteen percent cap for the one-time enhanced payments;
- (2) Clarifying that the one-time enhanced payment will be made to state-licensed skilled nursing facilities, community care foster family homes, and expanded adult residential care homes that are caring for Medicaid patients;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an appropriation amount of \$18,000,000;
- (5) Inserting an effective date of July 1, 2022; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3236, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3236, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kanuha, Ihara and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

Representatives Ichiyama, Yamane, Eli, Costales and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Costales).

Conf. Com. Rep. 154-22 on S.B. No. 2283

The purpose of this measure is to:

- (1) Require the Hawaii Natural Energy Institute to conduct a study to examine the potential for the production and use of renewable hydrogen in the State and the potential role of renewable hydrogen in achieving a local, affordable, reliable, and decarbonized energy system and economy; and
- (2) Require a report to the Legislature to be submitted prior to the Regular Session of 2024.

Your Committee on Conference finds that renewable hydrogen can contribute to Hawaii's energy needs and energy planning goals. Your Committee on Conference further finds that although hydrogen is known as a clean and reliable fuel source, it is still critical to fully evaluate its potential before integrating hydrogen into Hawaii's energy system.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2283, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2283, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Misalucha, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Marten, Todd and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 155-22 on S.B. No. 3229

The purpose of this measure is to:

- (1) Cap the amount of royalties from geothermal resources that are to be paid to the State and to the county in which the geothermal resources are located;
- (2) Deposit geothermal royalties that are distributed to the University of Hawaii into the University Innovation and Commercialization Initiative Special Fund, to be expended by the Hawaii Institute of Geophysics and Planetology, to further the discovery and development of geothermal resources; and
- (3) Require each county in which mining operations covered under a state geothermal resource mining lease are situated, and the Hawaii Institute of Geophysics and Planetology to submit an annual report to the Legislature on how the royalties distributed to them were used.

Your Committee on Conference finds that although geothermal energy is a firm source of cost-effective renewable energy, none of the royalties from geothermal resources have been used to advance the discovery and development of geothermal resources within the State. Your Committee on Conference finds that funding the assessment and exploration of local geothermal resources may decrease the State's reliance on fossil fuels, contribute to Hawaii's energy diversification, and help the State to achieve one hundred percent renewable energy generation statewide.

Your Committee on Conference has amended this measure by:

- (1) Replacing the Hawaii Institute of Geophysics and Planetology with the Hawaii Groundwater and Geothermal Resources Center as the entity to use the geothermal royalties in the University Innovation and Commercialization Initiative Special Fund and submit an annual report to the Legislature on how the royalties distributed to them were used;
- (2) Capping the geothermal royalties that the State pays to the county in which mining operations covered under a state geothermal resource mining lease are situated at \$600,000;
- (3) Capping the geothermal royalties distributed annually to the State at \$1,000,000; and
- (4) Making it effective on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3229, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3229, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Moriwaki, Misalucha and Fevella.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Moriwaki).

Representatives Lowen, Takayama, Marten, Perruso and Matsumoto.
Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 156-22 on S.B. No. 2570

The purpose of this measure is to:

- (1) Establish the Zero-Emission Vehicle Fueling System Rebate Program;
- (2) Establish the rebate amount for the installation or upgrade of a hydrogen fueling system;
- (3) Establish a hydrogen fueling system subaccount within the Public Utilities Commission Special Fund; and
- (4) Reduce the allocation that the Energy Systems Development Special Fund receives from the Environmental Response, Energy, and Food Security Tax from 8 cents to 5 cents and allocate the difference to the hydrogen fueling system subaccount.

Your Committee on Conference finds that incentivizing the installation and upgrade of hydrogen refueling stations is essential to meeting the demand for hydrogen fuel cell vehicles and promoting the use of zero-emission vehicles in the State. Your Committee on Conference further recognizes that an increased use in zero-emission vehicles will not only further the State's energy policy objectives but may also decrease the State's reliance on fossil fuels.

Your Committee on Conference has amended this measure by:

- (1) Making it effective on July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2570, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2570, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Kitagawa, Marten, Kong and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 157-22 on S.B. No. 2865

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist DIBSHawaii LLC in constructing a net-zero carbon capture storage utilization platform to recover vented carbon dioxide emissions and scrub and liquify the emissions into food grade liquid carbon dioxide.

Your Committee on Conference finds that the food grade liquid carbon dioxide produced by DIBSHawaii LLC's proposed net-zero carbon capture storage utilization platform will be used for agriculture, energy, and carbon storage to support the State's food security and resilience goals. Your Committee on Conference notes that the construction of a net-zero carbon capture storage utilization platform in the State would have additional benefits, including but not limited to import substitution, economic diversification, and long-term carbon sequestration.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$40,000,000; and
- (2) Making it effective on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2865, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2865, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Shimabukuro, Riviere and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Marten, Tokioka and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 158-22 on S.B. No. 3235

The purpose of this measure is to establish and appropriate funds for an inter-agency Safe Spaces for Youth Pilot Program within the Department of Human Services to provide safe spaces in each county for youth experiencing homelessness.

Your Committee on Conference finds that runaway and homeless youth are vulnerable to multiple risks, including lack of basic food and shelter, untreated mental health disorders, substance use, disruptions in their education, sexually transmitted diseases and human immunodeficiency virus infection, sexual exploitation, physical victimization, and suicide. Your Committee on Conference believes that the Safe Spaces for Youth Pilot Program established under this measure will provide an additional means of addressing the unmet needs of homeless youth through a coordinated inter-agency effort involving the state and county agencies responsible for the State's child welfare, education, health, human services, and juvenile justice systems.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$600,000 for the Safe Spaces for Youth Pilot Program;
- (2) Clarifying that the appropriation includes funding for one full-time equivalent (1.0 FTE) position and administrative costs for the pilot program; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3235, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3235, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 159-22 on H.B. No. 2336

The purpose of this measure is to:

- (1) Clarify certain provisions in chapter 291J, Hawaii Revised Statutes, to better reflect the legislative intent of the Photo Red Light Imaging Detector Systems Program;
- (2) Establish minimum display times for yellow lights on traffic-control signals; and
- (3) Amend Act 30, Session Laws of Hawaii 2020, as amended, to account for the current timetable of the Photo Red Light Imaging Detector Systems Program.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have established minimum display times for yellow lights on traffic-control signals;
- (2) Clarifying the definition of "photo red light imaging detector" or "photo red light imaging detector system";
- (3) Clarifying procedures regarding answering, court hearings, and court actions;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2336, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2336, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 160-22 on H.B. No. 1971

The purpose of this measure is to:

- (1) Authorize and regulate peer-to-peer car-sharing programs;
- (2) Impose the general excise tax and rental motor vehicle surcharge tax on peer-to-peer car-sharing programs; and
- (3) Require those persons engaging or continuing in a peer-to-peer car-sharing program to register with the Department of Taxation.

Your Committee on Conference notes that each of the counties may enact ordinances to regulate parking to address parking issues related to peer-to-peer car-sharing programs.

Your Committee on Conference has amended this measure by:

- (1) Clarifying certain definitions and recordkeeping provisions;
- (2) Clarifying the timeframe that a peer-to-peer car-sharing program must perform certain requirements related to motor vehicle safety recalls;
- (3) Changing the effective date to July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1971, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1971, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 161-22 on H.B. No. 1619

The purpose of this measure is to establish peer-to-peer car-sharing insurance requirements.

Your Committee on Conference has amended this measure by:

- (1) Removing references to admitted carriers;
- (2) Reducing the required primary insurance coverage amount for shared cars used through a peer-to-peer car-sharing program from \$1,000,000 to \$750,000;
- (3) Clarifying optional coverage provisions, including requirements in the event the only named insured under the motor vehicle insurance policy issued is the peer-to-peer car-sharing program;
- (4) Requiring the Insurance Commissioner to submit a progress report to the Legislature prior to the Regular Session of 2025;
- (5) Changing its effective date to January 1, 2023, and inserting a sunset date of June 30, 2025; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1619, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1619, H.D. 2, S.D. 2, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 162-22 on H.B. No. 1992

The purpose of this measure is to:

- (1) Allow composting and co-composting operations in agricultural districts, under certain conditions; and
- (2) Establish and appropriate funds for one full-time equivalent (1.0 FTE) permanent Environmental Health Specialist IV position in the Department of Health Solid and Hazardous Waste Branch.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$55,200 for the Environmental Health Specialist IV position; and
- (2) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1992, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1992, H.D. 3, S.D. 1, C.D. 1.

Conf. Com. Rep. 163-22 on H.B. No. 1179

The purpose of this measure is to establish and appropriate funds for a pilot program within the Aina Mauna Legacy Program of the Department of Hawaiian Home Lands to remove and harvest gorse from Mauna Kea and develop gorse as a marketable product to expand economic opportunities for native Hawaiians.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 to establish the pilot program;
- (2) Extending the annual reporting requirement to the Legislature to twenty days prior to the convening of the Regular Session of 2026;
- (3) Changing its effective date to July 1, 2022; and
- (4) Changing its repeal date to June 30, 2026.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1179, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1179, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Gabbard, Inouye and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Hashem, Nakashima, Todd, Perruso and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Perruso).

Conf. Com. Rep. 164-22 on H.B. No. 2195

The purpose of this measure is to establish and appropriate funds for a Cesspool Compliance Pilot Grant Project to assist low- and moderate-income property owners, including lessees on Hawaiian home lands, with the costs of upgrading, converting, or connecting a failing cesspool.

Your Committee on Conference has amended this measure by:

- (1) Updating the preamble;
- (2) Clarifying the grant award criteria, including a household income limit of no greater than one hundred forty percent of the area median income;
- (3) Requiring an owner or lessee to provide the Department of Health with certain documents;
- (4) Limiting the maximum amount of a grant award to \$20,000;
- (5) Making rulemaking by the Department of Health discretionary, rather than mandatory, and authorizing third parties to claim a grant award on behalf of an owner or lessee, subject to Department of Health rules;
- (6) Specifying that the Department of Health shall submit a report on the grant pilot project to the Legislature prior to the Regular Session of 2024;
- (7) Inserting an appropriation amount of \$5,000,000 for the implementation of the Cesspool Compliance Pilot Grant Project;
- (8) Removing language that would have allowed appropriated funds to be used for one temporary, part-time position in the Department of Health;
- (9) Specifying that any appropriated funds unencumbered as of June 30, 2024, shall lapse as of that date;
- (10) Changing the effective date to July 1, 2022, and inserting a sunset date of June 30, 2028; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2195, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2195, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Gabbard, Kanuha, San Buenaventura and Fevella.
Managers on the part of the Senate.

Representatives Lowen, Kitagawa, Marten, Todd and Matsumoto.

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 165-22 on H.B. No. 1644

The purpose of this measure is to ban the manufacture, sale, or distribution for sale or use of wraps and liners, plates, food boats, pizza boxes, and class B firefighting foams that contain intentionally introduced perfluoroalkyl and polyfluoroalkyl substances, in certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Providing an exception to the ban to allow the use of class B firefighting foam for the suppression of petroleum fires; and
- (2) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1644, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1644, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 166-22 on H.B. No. 1640

The purpose of this measure is to:

- (1) Establish electronic device reporting requirements for manufacturers and collectors; and
- (2) Establish the Electronic Device Recycling Working Group.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 2 version, which:
 - (A) Establishes electronic device manufacturer recycling goals and record keeping and reporting requirements for manufacturers and collectors;
 - (B) Requires collectors to register with the Department of Health;
 - (C) Changes the Electronic Waste and Television Recycling and Recovery Act to the Electronic Device Recycling and Recovery Act and expands the recycling and collection requirements of televisions to all electronic devices; and
 - (D) Requires the electronic device recycling and recovery program to include, among other things, a description of the methods for the convenient collection of electronic devices; and
- (2) Further amending this measure by:
 - (A) Deleting duplicative language that would have required manufacturers to report certain data;
 - (B) Deleting language that would have required the Department of Health to use certain market share data to determine each manufacturer's recycling responsibilities;
 - (C) Changing its effective date to July 1, 2022; and
 - (D) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1640, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1640, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Moriwaki, Wakai, Rhoads, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, 1 (Wakai). Excused, 1 (Fevella).

Representatives Lowen, Johanson, Marten, Tokioka and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 167-22 on S.B. No. 3201

The purpose of this measure is to clarify the application of the general excise tax law with regard to gross income derived from unrelated trade or business activities of nonprofit organizations.

Your Committee on Conference finds that, while the federal law is clear with an extensive body of statutory interpretation, nonconforming language used in the state general excise tax provision produces incongruities in how nonprofit activities are taxed. This measure will simplify and improve a nonprofit organization's accounting of income and exempt fundraising income from the general excise tax.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of January 1, 2023; and
- (2) Inserting a sunset date of December 31, 2027.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3201, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3201, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ihara, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Quinlan, Kitagawa, Holt and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 168-22 on S.B. No. 2144

The purpose of this measure is to require the Office of Enterprise Technology Services, in consultation with the Disability and Communication Access Board and a working group comprised of stakeholders, to develop and publish, and periodically review and update, electronic information technology accessibility standards to be implemented by all state entities.

Your Committee on Conference finds that electronic information technology has rapidly replaced conventional printed communications in various areas, including employment, education, and public services. This measure will help the State meet its digital equity goals by ensuring that all electronic information, programs, and services offered by the State are accessible to individuals with a disability at consistent levels across all state entities.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2144, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2144, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, Shimabukuro, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Takayama, Tam, Har and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 169-22 on S.B. No. 2076

The purpose of this measure is to:

- (1) Require the University of Hawaii and the Hawaii Broadband and Digital Equity Office to convene a working group to determine the appropriate governance structure to operate, maintain, and oversee broadband assets; and
- (2) Appropriate an unspecified amount of funds to the University of Hawaii for the administration of the working group.

Your Committee on Conference finds that the effective and efficient construction and maintenance of broadband infrastructure necessary to sustain interconnectivity within the State is vital to the well-being of Hawaii's residents and communities. Your Committee on Conference further finds that the broadened scope of duties of the Hawaii Broadband and Digital Equity Office necessitates an increase of resources for the Office to perform its duties.

Your Committee on Conference has amended this measure by:

- (1) Adding the Director of Health and the Superintendent of Education to the members of the working group;
- (2) Removing language that appropriates an unspecified amount of funds to the University of Hawaii for the administration of the working group;
- (3) Appropriating:
 - (A) \$360,000 for three full-time equivalent (3.0 FTE) administrative positions for the operation and administration of the Hawaii Broadband and Digital Equity Office; and

(B) \$200,000,000 in federal funds to the University of Hawaii for the planning and implementation of a statewide broadband initiative;

- (4) Making it effective on July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2076, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2076, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Johanson, Todd, Clark and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Johanson).

Conf. Com. Rep. 170-22 on H.B. No. 2255

The purpose of this measure is to require agencies to:

- (1) Use public benefits fee administrator rebates where available for buildings and facilities; and
- (2) Prioritize building and facility appliances that meet the standards required to qualify for public benefits fee administrator rebates.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2255, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2255, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Moriwaki, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Moriwaki).

Representatives Lowen, Marten, D. Kobayashi, Tokioka and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 171-22 on H.B. No. 1801

The purpose of this measure is to:

- (1) Require state facilities, with the exception of smaller facilities, to implement cost-effective energy efficiency measures;
- (2) Direct the Hawaii State Energy Office to collect all state-owned facilities' utility bill and energy usage data and make this data publicly available;
- (3) Provide that certain agencies that perform energy efficiency retrofitting may continue to receive a certain amount of budget appropriations for energy expenditures; and
- (4) Beginning July 1, 2023, require, where feasible and cost-effective, the design of all new state building construction to maximize energy and water efficiency and energy generation potential, and the use building materials that reduce the carbon footprint of the project.

Your Committee on Conference has amended this measure by:

- (1) Updating the preamble and purpose section;
- (2) Deleting language that would have provided that certain agencies that perform energy efficiency retrofitting may continue to receive a certain amount of budget appropriations for energy expenditures;
- (3) Changing its effective date to July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1801, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1801, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Moriwaki, Misalucha and Fevella.
Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Moriwaki).

Representatives Lowen, Marten, Todd and Matsumoto.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 172-22 on H.B. No. 1761

The purpose of this measure is to authorize the issuance of limited purpose identification cards for individuals who otherwise satisfy the requirements for a government-issued identification card except for the individual’s inability or refusal to provide satisfactory proof of authorized presence in the United States under federal law.

Your Committee on Conference has amended this measure by:

- (1) Requiring every application for limited purpose identification cards to be made upon the form, and in the manner, required for non-limited purpose identification cards; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1761, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1761, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, DeCoite and Fevella.
 Managers on the part of the Senate.
 Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Holt, Matayoshi and Ward.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 173-22 on H.B. No. 1539

The purpose of this measure is to:

- (1) Prohibit a person or an organization from posting the personal information of federal and state judges and other judicial staff on the Internet with the intent to intimidate or threaten injury, harm, or violence to the judge or staff or their immediate family members; and
- (2) Create a task force to identify further appropriate measures to enhance the security of judges and judiciary personnel while not diminishing civil liberties or unduly hindering governmental operations.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited a person or an organization from posting the personal information of federal and state judges and other judicial staff on the Internet with the intent to intimidate or threaten injury, harm, or violence to the judge or staff or their immediate family members;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1539, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1539, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Lee and Fevella.
 Managers on the part of the Senate.
 Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Holt, Takumi and Ward.
 Managers on the part of the House.
 Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 174-22 on H.B. No. 1536

The purpose of this measure is to appropriate supplemental funds for the Judiciary for the fiscal biennium beginning July 1, 2021, and ending on June 30, 2023.

Your Committee on Conference has amended this measure by inserting appropriate operating and capital amounts for fiscal biennium 2021-2023, as well as making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As amended this budget appropriates:

	FY 2021-2022	FY 2022-2023
General Funds	\$164,891,486	\$169,702,798
All Means of Financing	\$177,900,433	\$182,203,682

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1536, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1536, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Luke, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 175-22 on H.B. No. 1800

The purpose of this measure is to require and appropriate funds for the Hawaii Natural Energy Institute to conduct a study to determine Hawaii's pathway to decarbonization and identify challenges, opportunities, and actions that will be needed to achieve those goals.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 2 version, which:
 - (A) Establishes a goal for the statewide greenhouse gas emissions limit to be at least fifty percent below 2005 levels by 2030;
 - (B) Requires the Hawaii State Energy Office to conduct a study to determine Hawaii's pathway to decarbonization and identify challenges, opportunities, and actions that will be needed to achieve those goals; and
 - (C) Appropriates funds out of the Energy Security Special Fund for the study; and
- (2) Further amending this measure by:
 - (A) Inserting an appropriation amount of \$350,000 out of the Energy Security Special Fund for the Hawaii State Energy Office to analyze pathways and develop recommendations for achieving the State's economy-wide decarbonization goals; and
 - (B) Changing its effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1800, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1800, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Kitagawa, Marten, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 176-22 on S.B. No. 2923

The purpose of this measure is to increase the generally applicable fine and the fine for homeowner liability under the Fireworks Control Act from \$2,000 to \$5,000.

Your Committee on Conference finds that the illegal use of aerial fireworks continues to annoy residents, traumatize pets, and create dangerous conditions for the entire community. This measure will reduce the use of aerial fireworks, including during celebrations, by increasing the maximum fine that may be assessed per fireworks-related violation from \$2,000 to \$5,000; provided that the fireworks violation does not otherwise have a specific penalty enumerated in statute.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2022; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2923, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2923, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kidani, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Todd, Kitagawa and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 177-22 on S.B. No. 3075

The purpose of this measure is to:

- (1) Ensure that the Compliance Resolution Fund receives \$2,000,000 of the revenues collected under the franchise tax for use by the Division of Financial Institutions of the Department of Commerce and Consumer Affairs;
- (2) Specify that if the revenues collected are under \$2,000,000, the difference is to be received from revenues collected under income tax, in an amount not to exceed \$2,000,000; and
- (3) Require excess revenues collected under the franchise tax to be deposited into the general fund.

Your Committee on Conference finds that existing law requires that \$2,000,000 of franchise tax revenue collections be deposited with the Director of Finance to the credit of the Compliance Resolution Fund every fiscal year to be used by the Division of Financial Institutions to support its mission to effectively license, supervise, and regulate the constantly changing and complex financial institutions within its jurisdiction. However, there have been situations where the deposit of the franchise tax revenues was delayed from one fiscal year to the succeeding fiscal year, which risks interference with the Division of Financial Institution's mission and functions and can delay payments or the ability to enter into necessary contracts. This measure will resolve payment timing issues and specify the source of revenues to reach the necessary \$2,000,000 to fund the Division of Financial Institutions.

Your Committee on Conference has amended this measure by:

- (1) Specifying that, from the franchise tax revenues collected each fiscal year, the sum representing the first \$2,000,000 of such revenues shall be deposited with the Director of Finance to the credit of the Compliance Resolution Fund before tax credits are realized;
- (2) Deleting language that would have required that, in the event the revenues collected are less than \$2,000,000, the difference is to be received from revenues collected under income tax, in an amount not to exceed \$2,000,000; and
- (3) Making it effective upon its approval, provided that it apply to taxable years beginning after December 31, 2021.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3075, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3075, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Shimabukuro, Chang and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Todd, Kitagawa and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 178-22 on S.B. No. 2185

The purpose of this measure is to:

- (1) Require the auditor of fireworks and articles pyrotechnic records for each county fire department to submit to the Legislature an annual report detailing inventory, recordkeeping, and sales of fireworks to license or permit holders; and
- (2) Make grants-in-aid to the counties to cover costs associated with reporting the information to the Legislature.

Your Committee on Conference finds that the use of illegal fireworks in recent years has substantially increased in the State, resulting in excessive noise, property damage, serious injuries, and in some cases, fatalities. Existing law requires that each county fund an auditor to monitor strict inventory and recordkeeping requirements to ensure that sales of fireworks or articles pyrotechnic are made only to license or permit holders under the Fireworks Control Law. This measure requires additional reporting requirements to increase surveillance of fireworks and articles pyrotechnic, with the ultimate goal of reducing the use of illegal fireworks throughout communities in the State.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds as a grant-in-aid to the counties for the purpose of reporting the information required in this measure;
- (2) Inserting an effective date of January 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2185, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2185, S.D. 3, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Moriwaki, Kidani and Fevella.
Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Todd, Kitagawa and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 179-22 on S.B. No. 2644

The purpose of this measure is to:

- (1) Extend until June 30, 2028, Act 65, Session Laws of Hawaii 2013, as amended by Act 60, Session Laws of Hawaii 2018, which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility; provided that the public utility certifies to the Board of Electricians and Plumbers that, after a hiring call, no electrician sufficiently qualified and licensed in the State to perform high voltage electrical work applied to timely perform or complete the necessary job or task before the public utility recruited outside the State; and
- (2) Make permanent the requirement for the Board of Electricians and Plumbers to submit to the Legislature annual reports relating to high voltage electrical work.

Your Committee on Conference finds that the electrical infrastructure in the State is aging and the construction and maintenance of electrical infrastructure requires specialized high voltage workers. There is a limited number of qualified individuals in the State who are trained and licensed as electricians to perform high voltage electrical work, and even fewer who are qualified to perform overhead line work. As a result, qualified workers are recruited from outside the State when work is available, and requiring them to obtain a separate license to work in Hawaii can be burdensome and could result in significant delays to the progression of important and complex construction projects, including repairs and maintenance in emergency situations. This measure extends the exemption established by Act 65, Session Laws of Hawaii 2013, as amended by Act 60, Session Laws of Hawaii 2018, to allow electrical contractors licensed in Hawaii to utilize qualified out-of-state high voltage electrical workers to perform work for a utility without requiring these qualified electrical workers to obtain a Hawaii journey worker electrician license.

Your Committee on Conference notes that the public utility serving the majority of the State remains committed to working with the Hawaii-licensed contractors and electricians, unions, and industry stakeholders to address whether there is a shortage of electricians who perform high voltage electrical work. The public utility will further work to find ways to grow their in-house workforce.

Your Committee on Conference has amended this measure by:

- (1) Specifying that, before a duly licensed contractor hired by the public utility may recruit qualified electricians who are not licensed in Hawaii, the public utility shall:
 - (A) Solicit a request for proposals to licensed contractors specifying the high voltage work requested, which shall also be made available through its website in an electronic format to C-62 pole and line and C-63 high voltage electrical contractors; and
 - (B) Certify to the Board of Electricians and Plumbers that no electricians (including electricians employed by C-62 pole and line or C-63 high voltage electrical contractors) responded to the request for proposal who were sufficiently qualified and licensed in the State and available and able to perform or timely complete the high voltage electrical work or task;
- (2) Requiring the public utility to submit an annual report to the Board of Electricians and Plumbers covering the preceding calendar year that identifies, at a minimum:
 - (A) The number of qualified contractors the public utility employed to perform high voltage electrical work; and
 - (B) The number of requests for proposals solicited for high voltage work;
- (3) Clarifying the licensure exemption is limited to the use by a public utility for high voltage electrical workers who perform electric transmission and distribution line construction, maintenance, and connection to substation work;
- (4) Deleting language that would have permanently required the Board of the Electricians and Plumbers to submit annual reports to the Legislature containing certain information;
- (5) Extending the repeal date of Act 65, Session Laws of Hawaii 2013, as amended by Act 60, Session Laws of Hawaii 2018, to 2027 and further amending Act 60 to require the Board of Electricians and Plumbers to submit annual reports to the Legislature prior to the convening of the regular sessions of 2023 through 2027;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of July 1, 2022; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2644, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2644, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Taniguchi, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Onishi, Johanson, Sayama and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 180-22 on S.B. No. 2186

The purpose of this measure is to:

- (1) Direct the conveyance of certain lands used for public schools and owned by the counties of Kauai and Maui, the State, and the Department of Land and Natural Resources to the Department of Education;
- (2) Require legislative approval prior to the sale, gift, or alienation of the fee simple title to lands owned by the Department of Education; and
- (3) Appropriate funds to the Department of Education to effectuate the transfer of the lands and to manage the real property.

Your Committee on Conference finds that the Department of Education has invested significant funds on maintenance and capital improvement projects for new school facilities. Your Committee on Conference further finds that non-unified ownership of the land under existing Department of Education schools and offices complicates redevelopment and improvements. Accordingly, this measure provides the Department with the requisite flexibility to redevelop and improve its assets in a timely and efficient manner by consolidating all land underlying existing public schools under the ownership of the Department of Education.

Your Committee on Conference notes that the intent of this measure is to transfer ownership of lands underlying Department of Education schools to the Department, and, where applicable and in the discretion of the Department, this intent may be accomplished through the conveyance of a portion or portions of the parcels identified by this measure, following subdivision of the same.

Your Committee on Conference has amended this measure by:

- (1) Adding an alternate conveyance method of transfer by operation of law and clarifying the Department of Education's discretion in electing to obtain ownership of all or a portion of the identified parcels;
- (2) Clarifying the list of parcels to be transferred;
- (3) Inserting an appropriation amount of \$500,000; and
- (4) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2186, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2186, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Kidani, Inouye, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Tarnas, Eli, Clark and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 181-22 on S.B. No. 2478

The purpose of this measure is to establish a renewable fuels production tax credit.

Your Committee on Conference finds that the renewable fuels production tax credit established by Act 202, Session Laws of Hawaii 2016, was repealed on December 31, 2021. Your Committee on Conference further finds that reinstating a renewable fuels production tax credit will help the State achieve greater energy security.

Your Committee on Conference has amended this measure by reverting its contents to the S.D. 2 version and further amending it by:

- (1) Setting the annual dollar amount of the renewable fuels production tax credit during the ten-year credit period equal to 20 cents per seventy-six thousand British thermal units of renewable fuels using the lower heating value sold for distribution in Hawaii;
- (2) Capping the tax credit claimed by a taxpayer under this section at \$3,500,000 per taxable year;
- (3) Capping the total amount of renewable fuels production tax credits claimed by all eligible taxpayers at \$20,000,000 in any calendar year;
- (4) Requiring the tax credit only be claimed for fuels with lifecycle emissions below that of fossil fuels;
- (5) Requiring taxpayers claiming the tax credit to provide a statement of information including the lifecycle greenhouse gas emissions per British thermal units for each type of qualified fuel produced no later than thirty days following the close of the calendar year;
- (6) Requiring the Hawaii State Energy Office to provide taxpayers with a determination of whether the lifecycle greenhouse gas emissions for each type of qualified fuel produced is lower than that of fossil fuels within thirty calendar days after the due date of the taxpayer's statement;

- (7) Streamlining the purpose section;
- (8) Making it effective upon its approval; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2478, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2478, S.D. 2, H.D. 2, C.D. 1.

Representatives Takayama, Kitagawa, Yamashita, Clark and Okimoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 183-22 on H.B. No. 1517

The purpose of this measure is to:

- (1) Direct the Department of Agriculture to conduct a study to assess the economic impact on the local coffee industry from potential changes to coffee labeling requirements, complete the study no later than January 1, 2024, and submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024;
- (2) Require disclosure on the label of coffee blends of the respective geographic and regional origins and percent by weight of the blended coffees;
- (3) Make it a violation to use a geographic origin in labeling or advertising for roasted or instant coffee blends that contain less than fifty-one percent of coffee by weight from that geographic origin;
- (4) Prohibit use of the term "All Hawaiian" in labeling or advertising for roasted or instant coffee not produced entirely from green coffee beans grown in Hawaii; and
- (5) Appropriate funds for the Pesticide Subsidy Program.

Your Committee on Conference has amended this measure by:

- (1) Updating the preamble to reflect its intended purpose;
- (2) Specifying that the economic impact study shall be an independent study to assess the economic impact of Hawaii's coffee labeling laws on local coffee farmers and the local coffee industry, including the impacts of a change to a minimum coffee blend ratio of fifty-one percent and one hundred percent;
- (3) Deleting provisions that would have required disclosure on the label of coffee blends of the respective geographic and regional origins and percent by weight of the blended coffees;
- (4) Deleting provisions that would have made it a violation to use a geographic origin in labeling or advertising for roasted or instant coffee blends that contain less than fifty-one percent of coffee by weight from that particular geographic region;
- (5) Deleting provisions that would have prohibited use of the term "All Hawaiian" in labeling or advertising for roasted or instant coffee not produced entirely from green coffee beans grown in Hawaii;
- (6) Deleting the appropriation for the Pesticide Subsidy Program;
- (7) Inserting an appropriation of \$100,000 for the independent economic impact study;

- (8) Changing its effective date to July 1, 2022; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1517, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1517, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Baker, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Hashem, Lowen, Johanson, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 184-22 on H.B. No. 1775

The purpose of this measure is to:

- (1) Require annual reporting to the Legislature by each state educational program or activity on the number and types of discrimination cases received by the University of Hawaii, Department of Education, and State Public Charter School Commission and other relevant information;
- (2) Establish two full-time equivalent (2.0 FTE) senior advisor positions and one full-time equivalent (1.0 FTE) junior advisor position for the University of Hawaii System to carry out the purposes of this measure; and
- (3) Appropriate funds to the Department of Education and State Public Charter School Commission to carry out the purposes of this measure.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the University of Hawaii, Department of Education, and State Public Charter School Commission, rather than each state educational program or activity, are required to submit annual reports to the Legislature;
- (2) Requiring public charter schools to submit the number and types of discrimination cases and other relevant information to the State Public Charter School Commission, in a form prescribed by the Commission, by August 1 of each year;
- (3) Requiring covered educational programs and activities to be in compliance with chapter 368D, Hawaii Revised Statutes, during the school year when state funds are received or expended;
- (4) Deleting the definition of "state educational program or activity";
- (5) Deleting language that would have established two full-time equivalent (2.0 FTE) senior advisor positions and one full-time equivalent (1.0 FTE) junior advisor position for the University of Hawaii System to carry out the purposes of this measure;
- (6) Deleting the appropriations to the Department of Education and State Public Charter School Commission to carry out the purposes of this measure;
- (7) Inserting an appropriation of \$350,000 to the Department of Education for equity training;
- (8) Changing the effective date to July 1, 2022; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1775, H.D. 2, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1775, H.D. 2, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Representatives Woodson, Ichiyama, Eli, Kapela and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 185-22 on H.B. No. 1561

The purpose of this measure is to:

- (1) Establish an Adult Workforce Readiness Program (Program) to provide opportunities for students to earn associate degrees, workforce development diplomas, pre-apprenticeship certificates, and other industry-recognized certificates; and
- (2) Require the Department of Education to designate schools to participate in the Program.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1561, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1561, H.D. 1, S.D. 2, C.D. 1.

Representatives Woodson, Eli, Kapela, B. Kobayashi and Okimoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 186-22 on H.B. No. 2000

The purpose of this measure is to appropriate funds to the School Facilities Authority for the construction of preschool facilities.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$200,000,000 to the School Facilities Authority;
- (2) Clarifying that the appropriation is to expand access to pre-kindergarten to eligible children of the State;
- (3) Clarifying the purposes for which the School Facilities Authority may expend the funds;
- (4) Providing that the appropriation shall not lapse at the end of the fiscal biennium for which the appropriation is made and that all monies from the appropriation unencumbered as of June 30, 2024, shall lapse as of that date; and
- (5) Changing the effective date to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2000, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2000, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Keith-Agaran and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Eli, Kapela and Okimoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 187-22 on S.B. No. 2370

The purpose of this measure is to:

- (1) Establish the Office on Homelessness and Housing Solutions to be administratively attached to the Department of Human Services, and headed by the Governor's Coordinator on Homelessness; and
- (2) Appropriate funds for the administration of the Office on Homelessness and Housing Solutions, including funding for full-time equivalent positions.

Your Committee on Conference finds that homelessness is a long-term problem that requires a long-term commitment to resolve. Your Committee on Conference finds, however, that the positions of the Governor's Coordinator on Homelessness and his staff are currently funded as part of a special project under the Department of Human Services that lapse every two years unless renewed. This measure commits the State to resolving its growing homelessness problem by establishing a permanent Office on Homelessness and Housing Solutions to be headed by the Governor's Coordinator on Homelessness; and by converting the temporary status of the Coordinator and his staff's positions into permanent ones before they lapse.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting the provision requiring each state agency that administers public lands to provide the Governor's Coordinator on Homelessness with an inventory identifying any available vacant public lands under the jurisdiction of that agency;
- (2) Deleting from the content of the Governor's Coordinator on Homelessness's annual report, the inventory of available vacant public lands provided by each state agency that administers public lands;
- (3) Inserting an appropriation amount of \$50,000;
- (4) Establishing five full-time equivalent (5.0 FTE) positions to carry out the objectives of the Office on Homelessness and Housing Solutions;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon approval; provided that section 5 shall take effect on July 1, 2022; and

- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2370, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2370, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, Kanuha, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Nakamura, Yamane, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 188-22 on S.B. No. 1137

The purpose of this measure is to increase the amount of unencumbered and unexpended moneys that the Spouse and Child Abuse Special Fund can retain.

Your Committee on Conference finds that the Spouse and Child Abuse Special Fund is a fund administered and expended by the Department of Human Services to support or provide spouse or child abuse intervention and prevention. Your Committee on Conference also finds that the Family First Prevention Services Act of 2018, P.L. 15-123, added a mechanism for states to claim reimbursement through Title IV-E of the Social Security Act for a percentage of state funds spent on certain child abuse and neglect prevention services, and the Department of Human Services anticipates that it will soon be able to begin drawing down certain federal reimbursement moneys. Your Committee on Conference finds however, that existing law requires all unencumbered and unexpended moneys in the Spouse and Child Abuse Special Fund in excess of \$3,000,000 to lapse to the general fund. This measure will increase this cap amount to ensure that the federal reimbursements received will remain in the Spouse and Child Special Fund until they may be used to administer programs and services that prevent, reduce, and respond to the impacts or incidents of spouse abuse and child abuse and neglect.

Your Committee on Conference has amended this measure by:

- (1) Inserting an amount of \$5,000,000 as the amount of unencumbered and unexpended moneys the Spouse and Child Abuse Special Fund can retain;
- (2) Making it effective upon its approval and inserting a sunset date of June 30, 2027; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1137, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1137, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators San Buenaventura, Inouye, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Tam, Kapela and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 189-22 on S.B. No. 2378

The purpose of this measure is to make various amendments related to the Taxation Board of Review, including:

- (1) Reducing the membership from ten volunteer members to three full-time, salaried members, with at least two members required for quorum;
- (2) Authorizing members to validate the Board's actions with a concurrence of the majority;
- (3) Establishing a compensation schedule for board members with compensation based on a percentage of the Director of Taxation's salary;
- (4) Clarifying that Board meetings are contested case hearings and specifying notice requirements;
- (5) Clarifying the legal and evidentiary framework the Board must use in reaching its decisions; and
- (6) Appropriating funds for Board members and staff.

Your Committee on Conference finds that existing law does not require the Chairperson of the Taxation Board of Review to have litigation or public accounting experience. Your Committee on Conference further finds that these skills are necessary to ensure competent and fair tax appeals prosecution and resolution. Your Committee on Conference additionally finds that the Department of Taxation has a significant backlog of appeals. Accordingly, this measure promotes the fair and expeditious resolution of tax issues and appeals by requiring the Chairperson to be either a state-licensed attorney or Certified Public Accountant and compensating members of the Taxation Board of Review appropriately.

Your Committee on Conference has amended this measure by:

- (1) Setting the salaries of the Chairperson and members of the Board;
- (2) Inserting an appropriation amount of \$518,542;
- (3) Making it effective upon its approval; provided that section 1 shall take effect on July 1, 2023, and section 5 shall take effect on July 1, 2022; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2378, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2378, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Quinlan, Nakashima, Holt, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 190-22 on S.B. No. 2379

The purpose of this measure is to authorize the Special Enforcement Section of the Department of Taxation to:

- (1) Examine any sector of the State's economy;
- (2) Initiate civil investigations to ensure proper payment of all taxes due;
- (3) Use enforcement and education to deter and prevent non-compliance with state taxation laws; and
- (4) Refer and recommend cases or examinations of segments of the economy to Department of Taxation auditors.

Your Committee on Conference finds that the duties of the Special Enforcement Section need to be updated to reflect current policies and practices of the Department of Taxation. Accordingly, this measure promotes the Department of Taxation's efforts to ensure compliance with tax law by expanding the Special Enforcement Section's purview to authorize examination of all sectors of the economy and by codifying additional responsibilities of the division.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2379, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2379, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Quinlan, Holt, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 191-22 on S.B. No. 2384

The purpose of this measure is to:

- (1) Amend the procurement preference for Hawaii products to only apply to agricultural goods, value-added products, and commodities; and
- (2) Require the Department of Accounting and General Services to provide written notice to offerors listed on the Hawaii products list regarding any amendments to the list, including effective dates and dates of repeal.

Your Committee on Conference finds that the preference for Hawaii products was established to encourage the use of Hawaii products by bidders to support local industries. Your Committee on Conference further finds that this incentive no longer retains its utility and instead, increases costs and delays in the procurement process. Your Committee on Conference further finds, however, that the preference should remain in effect for agricultural goods, value-added products, and commodities. Accordingly, this measure streamlines the procurement process and furthers the State's food production and sustainability goals by narrowing the scope of the Hawaii products preference.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2384, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2384, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kim, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Wildberger, Costales and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 192-22 on S.B. No. 2387

The purpose of this measure is to require agencies to publicly post the justification for cancelling an invitation for bids or request for proposals, for a minimum of ten business days, on a purchasing agency's website, government electronic notification system, or by any other means the procurement officer deems effective for publicizing the cancellation notice.

Your Committee on Conference finds that offerors devote considerable time and resources to prepare bids and proposals for public contracts. Your Committee on Conference therefore finds that potential vendors have the right to know the reason or reasons that a purchasing agency has cancelled a contract solicitation. Accordingly, this measure ensures offerors are duly notified of the reason or reasons for cancellation by requiring agencies to publicly post the same.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2387, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2387, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Wildberger, Costales and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 193-22 on S.B. No. 3040

The purpose of this measure is to:

- (1) Create a State Procurement Automation System Special Fund;
- (2) Authorize the Administrator of the State Procurement Office to develop and administer procurement automation systems and charge and collect a transaction fee from all vendors using the procurement automation systems;
- (3) Delete language regarding qualified community rehabilitation programs made redundant by Act 55, Session Laws of Hawaii 2021; and
- (4) Establish five full-time equivalent positions in the State Procurement Office.

Your Committee on Conference finds that the State Procurement Office seeks to transition to an online procurement automation system to align with industry standards. Your Committee on Conference further finds that establishing procurement automation systems in Hawaii will maximize the administrative efficiency and resources of the State Procurement Office. Your Committee on Conference also finds that funding for additional positions will aid in the management of procurement automation systems. Accordingly, this measure will improve procurement in Hawaii by authorizing the establishment of procurement automation systems.

Your Committee on Conference has amended this measure by:

- (1) Removing the establishment of the State Procurement Automation System Special Fund;
- (2) Inserting language to allow the State Procurement Office to plan and develop methods to assess, charge, and collect a transaction fee;
- (3) Deleting language authorizing the assessment of transaction fees;
- (4) Inserting an appropriation amount of \$150,000;
- (5) Reducing the number of positions established from four to two and clarifying the responsibilities of those positions;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of July 1, 2022; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3040, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3040, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Johanson, Wildberger, Costales and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 194-22 on S.B. No. 3282

The purpose of this measure is to:

- (1) Authorize the Comptroller to mandate the transfer of post-statehood governmental records to the State Records Center and the time period at which the records should be transferred; and
- (2) Appropriate funds to the Office of Enterprise Technology Services for operating costs and equipment to administer the State Records Center and for positions within the State Archives to assist agencies in the identification and transfer of certain government records to the State Archives.

Your Committee on Conference finds that certain records are required by law to be maintained by state departments and agencies. Your Committee on Conference finds, however, that there is a lack of understanding amongst state employees regarding records retention requirements. Accordingly, this measure promotes sound and legally compliant records retention practices by providing clear and uniform instructions regarding when non-permanent records should be sent to the State Records Center for storage and eventual destruction, and when permanent records should be transferred to the State Archives for long-term preservation and public access.

Your Committee on Conference has amended this measure by:

- (1) Inserting in section 3 an appropriation amount of \$303,000 and clarifying the department to receive the funds and the allowable uses of the appropriated funds, which includes \$118,000 for the establishment of two full-time (2.0 FTE) positions to assist in the digitization of government records;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3282, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3282, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kidani, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Nakashima, Wildberger, Costales and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 195-22 on S.B. No. 3284

The purpose of this measure is to establish a Technology Services Consolidation Working Group to:

- (1) Develop a plan for the phased consolidation of all state Executive Branch information technology services and staff within five years, except those of the Department of Education, Hawaii Health Systems Corporation, University of Hawaii, and Office of Hawaiian Affairs, under the Office of Enterprise Technology Services; and
- (2) Recommend ways to attract high-quality information technology professionals to Hawaii.

Your Committee on Conference finds that all state departments use information technology services to fulfill their duties and responsibilities. Your Committee on Conference further finds that the consolidation of information technology services can promote economies of scale and provide for a more efficient and secure use of technology and information management. Accordingly, this measure promotes efficient and effective government operations by establishing a Technology Services Consolidation Working Group to develop a sound consolidation plan and recommend ways to attract high quality professionals in this field.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the required content of the phased consolidation plan;
- (2) Requiring a preliminary status report to the Legislature;
- (3) Amending the date for the submission of the working group's final report;
- (4) Amending the dissolution date of the working group;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3284, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3284, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 196-22 on S.B. No. 3324

The purpose of this measure is to:

- (1) Establish a working group to examine and address the problem of infrastructure repair and maintenance in planned housing subdivisions that do not have compulsory homeowner associations in counties with populations greater than one hundred seventy thousand but less than three hundred thousand; and
- (2) Appropriate funds for the working group, subject to the availability of matching county funds.

Your Committee on Conference finds that there is a lack of guidance for planned housing subdivisions without compulsory homeowners or community associations regarding obligations for subdivision infrastructure repair and maintenance. Your Committee on Conference further finds that homeowners in these subdivisions need a way to organize and collect fees required for repairs and maintenance. Accordingly, this measure establishes a working group to investigate and recommend solutions for this problem.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the member composition and selection procedure for the working group;
- (2) Clarifying the duties of the working group;
- (3) Authorizing the working group to convene remotely;
- (4) Inserting an appropriation amount of \$100,000;
- (5) Removing the matching funds limitation from the appropriation;
- (6) Making section 3 effective on July 1, 2022, and the remainder of the Act effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3324, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3324, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Lee, Keohokalole, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Nakamura, Matayoshi, Ilagan, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 197-22 on S.B. No. 3369

The purpose of this measure is to:

- (1) Establish a working group to develop a plan for the phased in consolidation of procurement services and staff within executive branch agencies over a five-year timespan, excluding the Department of Education, Hawaii Health Systems Corporation, University of Hawaii, and Office of Hawaiian Affairs;
- (2) Require the working group to make recommendations for attracting high-quality procurement professionals to the State; and
- (3) Appropriate funds to the State Procurement Office to support the activities of the working group.

Your Committee on Conference finds that procurement activities in the State may not be in strict compliance with applicable law. Your Committee on Conference further finds that few executive branch departments have dedicated procurement personnel. This can lead to mistakes that result in increased costs to the government. Accordingly, this measure promotes competency and expertise, efficiency, and transparency in the public procurement process by establishing a working group to study and develop a responsible plan for the phased consolidation of certain executive branch procurement services and staff.

Your Committee on Conference has amended this measure by:

- (1) Removing the exemption of the Department of Education from the consolidation plan;
- (2) Clarifying the composition and duties of the working group;

- (3) Inserting an appropriation amount of \$250,000 and clarifying the allowable uses of the appropriated funds;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3369, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3369, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Johanson, Wildberger, Costales and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 198-22 on S.B. No. 2511

The purpose of this measure is to:

- (1) Expand the renewable energy technologies income tax credit to include firm renewable energy systems, with the credit capped at the lesser of an unspecified percentage of the actual cost or \$750,000 per system; and
- (2) Make the renewable energy technologies income tax credit unavailable for renewable energy technology systems installed and placed in service after December 31, 2045.

Your Committee on Conference finds that expanding the renewable energy technologies income tax credit to include firm renewable energy systems and long-duration renewable energy storage systems would help the State not only achieve its clean energy and carbon reduction goals, but also improve the State's energy diversity, reliability, and stability. Your Committee on Conference further finds that the development of more firm renewable energy generation based on local resources would also promote economic development and increase employment within the State.

Your Committee on Conference has amended this measure by reverting its contents to the S.D. 2 version and further amending it by:

- (1) Clarifying the definition of "firm renewable energy systems" to include capability of continuous production twenty-four hours per day, three hundred sixty-five days per year, on the demand of the energy system operator at its rated capacity, subject only to routine maintenance and repairs;
- (2) Capping the renewable energy technologies income tax credit at the lesser of twenty percent of the actual cost or \$750,000 per firm renewable energy system;
- (3) Defining "long-duration renewable energy storage systems";
- (4) Expanding the renewable energy technologies income tax credit to include long-duration renewable energy storage systems, with the credit capped at the lesser of twenty percent of the actual cost or \$750,000 per system;
- (5) Capping the total amount of renewable energy technologies income tax credits claimed by an eligible taxpayer for a firm renewable energy system or a long-duration renewable energy system at \$3,500,000 in any calendar year;
- (6) Capping the total amount of renewable energy technologies income tax credits claimed by all eligible taxpayers for firm renewable energy systems and long-duration renewable energy systems at \$20,000,000 in any calendar year;
- (7) Requiring that if the cap on the total amount of renewable energy technologies income tax credits allowed for firm renewable energy systems and long-duration renewable energy systems is exceeded in any given calendar year, the \$20,000,000 cap shall be divided between all eligible taxpayers for that year in proportion to their rated capacities;
- (8) Making it effective upon its approval, and apply to taxable years beginning after December 31, 2021; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2511, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2511, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani, Misalucha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Johanson, Marten, Perruso and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 199-22 on S.B. No. 3195

The purpose of this measure is to appropriate funds to the Department of Hawaiian Home Lands for the investigation, exploration, and identification of geothermal resources on Hawaiian home lands.

Your Committee on Conference finds that geothermal resources on Hawaiian home lands can be used for the generation, transmission, and production of electricity. This measure provides initial funding for the investigation, exploration, and identification of these resources.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$500,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3195, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3195, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Wakai, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Nakashima, Marten, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Perruso).

Conf. Com. Rep. 200-22 on S.B. No. 3357

The purpose of this measure is to require certain departments and agencies to provide grants to tax-exempt nonprofit organizations that have experience and expertise in supporting and advancing Native Hawaiian communities.

Your Committee on Conference finds that food sustainability, economic development, mitigation of tourism impacts, cultural training, repatriation and reburial of Native Hawaiians, historic preservation, as well as other important cultural tasks need further funding. This measure provides grants to relevant organizations.

Your Committee on Conference has amended this measure by:

- (1) Broadening the requirements for qualifying for the grant;
- (2) Removing the Department of Agriculture and the Department of Labor and Industrial Relations from the appropriation; and
- (3) Inserting an appropriation of \$2,000,000, with \$1,500,000 allocated to the Department of Business, Economic Development, and Tourism, and a \$500,000 allocated to the Department of Land and Natural Resources.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3357, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3357, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Nishimoto, Eli, Holt and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Eli).

Conf. Com. Rep. 201-22 on S.B. No. 2720

The purpose of this measure is to:

- (1) Allow new electric vehicle charging stations and certain upgrades having a single port to qualify for a rebate;
- (2) Remove the \$500,000 cap on the electric vehicle charging station rebate program;
- (3) Specify that no rebates shall be approved after available funds are exhausted for the fiscal year;
- (4) Increase the percentage of funds that the Public Utilities Commission may use for administration of the rebate program;
- (5) Allow for marketing and outreach expenses to be included within allowable administration costs of the electric vehicle charging station rebate program; and
- (6) Appropriate funds out of the electric vehicle charging system subaccount for the electric vehicle charging system rebate program.

Your Committee on Conference finds that climate change caused by carbon emissions is a problem with serious environmental, economic, and health ramifications. Electric vehicles are an efficient method of transportation which both helps to mitigate the climate change problem and reduce the cost of transportation for the driver, especially through a decreased reliance on expensive fossil fuels. This measure's purpose is to encourage the installation of more electric vehicle charging stations.

Your Committee on Conference has amended this measure by:

- (1) Inserting \$2,000 and \$1,300 as the maximum rebate amounts for the installation and upgrade of an electric vehicle charging system, respectively;
- (2) Limiting the amount of rebate program moneys authorized to be used for administrative purposes to fifteen percent and clarifying that expenditures not related to marketing or outreach expenses shall not exceed ten percent;
- (3) Removing section 5 and its appropriations;
- (4) Amending Act 75, Session Laws of Hawaii 2021, to appropriate \$500,000 and to clarify that moneys appropriated in Act 75, section 5, Session Laws of Hawaii 2021, will not lapse at the end of the fiscal year and instead, all unexpended funds will lapse as of June 30, 2024;
- (5) Appropriating \$1,000,000 out of the electric vehicle charging system subaccount for the electric vehicle charging system rebate program;
- (6) Inserting an effective date of June 30, 2022; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2720, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2720, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Baker, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Kitagawa, Marten, Tam and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 202-22 on H.B. No. 2424

The purpose of this measure is to:

- (1) Expand the investigative powers of the Department of Human Services to include review and investigation of families receiving benefits from the State's adoption assistance program and against whom a post-adoption complaint has been made;
- (2) Require the Department of Human Services to report to the Legislature before the convening of the Regular Session of 2024 on the impact of expanding post-permanency services to families receiving benefits from the adoption assistance program; and
- (3) Appropriate funds for the procurement of contracted services to provide additional support, resources, and monitoring of families receiving benefits from the State's adoption assistance program.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1 version, which:
 - (A) Expands the investigative power of the Department of Human Services to include inspections of families who have adopted or received legal guardianship of a child for whom maintenance is provided pursuant to the Social Security Act or through the State's Adoption Assistance Program, including adoptive families where an adoption decree is pending or where an adoption decree has been issued but adoption has not yet taken place, or who are receiving financial assistance through the State's Permanency Assistance Program, and against whom a complaint has been lodged with the Department of Human Services at any time;
 - (B) Requires the Department of Human Services to analyze and report to the Legislature on the impact of expanding home visits to families receiving adoption assistance or legal guardianship assistance payments no later than twenty days prior to the Regular Session of 2027; and
 - (C) Appropriates funds for additional case worker and support staff positions and increased compensation for existing child welfare services case worker positions; and
- (2) Further amending this measure by:
 - (A) Clarifying that the Department of Human Services' review or investigation of families receiving benefits pursuant to the Social Security Act or through the State's Adoption Assistance Program, or are receiving financial assistance through the State's Permanency Assistance Program and against whom a complaint has been lodged shall be in accordance with chapters 350 and 587A, Hawaii Revised Statutes;
 - (B) Requiring the Department of Human Services to submit its report to the Legislature prior to the Regular Session of 2024, rather than 2027;
 - (C) Establishing the Malama Ohana Working Group to seek, design, and recommend transformative changes to the State's existing child welfare system and requiring the Working Group to report to the Legislature prior to the Regular Session of 2024;
 - (D) Authorizing the Department of Human Services to contract with an administrative facilitator to provide support to the Working Group, including preparation of the report; and

- (E) Inserting an appropriation amount of \$8,000,000 to increase the procurement of contracted services to provide additional support, resources, and monitoring of families receiving benefits from the State's Adoption Assistance Program and Permanency Assistance Program and earmarking \$3,350,000 of the appropriation for:
- (i) Developing and maintaining necessary information technology systems, including two full-time positions;
 - (ii) Increasing compensation for existing Child Welfare Services Branch positions to fill vacancies and retain employees;
 - (iii) Contracting with a third party for enhanced permanency support services;
 - (iv) Establishing one full-time equivalent planner or project specialist position to administer and monitor additional service contracts and assist with service coordination, data collection, and analysis of the new program; and
 - (v) Supporting the Malama Ohana Working Group in its activities;
- (F) Changing its effective date to upon approval; provided that the appropriation section shall take effect on July 1, 2022; and
- (G) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee on Conference notes that although \$3,350,000 of the appropriation made by this measure has been earmarked for specific purposes, the intent of the Legislature is to use the remainder of the monies from this appropriation to support all those involved in the child welfare services system, not just those involved in adoption or guardianship settings. Your Committee on Conference believes that these additional funds could be used for recruitment and scholarships for child welfare Services social workers, programs for parents, and training for investigators and reporters to ensure that any reported case of child abuse or neglect is properly investigated and pursued.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2424, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2424, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kanuha, Rhoads, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Misalucha, Fevella).

Representatives Yamane, Marten, Gates, Tam and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 203-22 on H.B. No. 2405

The purpose of this measure is to:

- (1) Prohibit the denial of a treatment or service on the basis that it is cosmetic or not medically necessary unless a health care provider with experience in prescribing or delivering gender affirming treatment reviews and confirms the adverse benefit determination;
- (2) Prohibit health insurers, mutual benefit societies, and health maintenance organizations from applying categorical cosmetic or blanket exclusions to gender affirming treatments or procedures when prescribed as medically necessary; and
- (3) Require health insurers, mutual benefit societies, and health maintenance organizations to provide applicants and insured persons with clear information about the coverage of gender transition services, including the process for appealing a claim denied on the basis of medical necessity.

Your Committee on Conference has amended this measure by:

- (1) Requiring that the medical necessity of any gender affirming treatment to be defined in accordance with applicable law;
- (2) Amending the process for determining an appeal for a claim denied on the basis of medical necessity;
- (3) Clarifying that the prohibition against health insurers, mutual benefit societies, and health maintenance organizations applying categorical or blanket exclusions applies to gender affirming treatments that are determined to be medically necessary pursuant to applicable law;
- (4) Removing smoking cessation therapies as a gender affirming treatment;
- (5) Changing its effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2405, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2405, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Taniguchi and Fevella.

Conf. Com. Rep. 204-22 on H.B. No. 1980

The purpose of this measure is to:

- (1) Require Medicaid, health insurers, mutual benefit societies, and health maintenance organizations to cover services provided through telehealth, including by way of an interactive telecommunications system; and
- (2) Define “interactive telecommunication system” to match the 2022 Medicare Physician Fee Schedule final rule.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1 version, which:
 - (A) Permits, but does not require or prohibit, Medicaid, health insurers, mutual benefit societies, and health maintenance organizations to cover telephonic health services under certain conditions; and
 - (B) Clarifies that telephonic services do not constitute telehealth; and
- (2) Further amending this measure by:
 - (A) Changing its effective date to July 1, 2022; and
 - (B) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1980, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1980, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 205-22 on H.B. No. 1893

The purpose of this measure is to transfer the Daniel K. Akaka State Veterans Home to the Oahu Regional Health Care System no later than June 30, 2023.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1893, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1893, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 206-22 on S.B. No. 3158

The purpose of this measure is to:

- (1) Establish the electric bicycle and electric moped rebate program and subaccount to encourage the purchase and use of electric bicycles and electric mopeds; and
- (2) Allocate a portion of the barrel tax to fund the rebate program.

Your Committee on Conference finds that electric bicycles and electric mopeds support the Department of Transportation’s zero emissions goals while also lowering the cost of transportation for drivers, and reduces the State’s reliance on fossil fuels. However, the initial cost of purchasing an electric vehicle can be prohibitive. This measure creates a subsidy to help encourage the purchase and use of electric bicycles and electric mopeds.

Your Committee on Conference has amended this measure by:

- (1) Setting the rebate at the lower of twenty percent of the retail cost or \$500, and clarifying that no individual shall receive more than \$500 rebate per fiscal year;
- (2) Setting the total amount of rebates authorized to be issued each year at \$700,000;
- (3) Authorizing the Department of Transportation to allow for applicants to apply for the rebate and receive future rebates if there are not sufficient funds to pay that rebate during the fiscal year in which the rebate was applied;
- (4) Adding additional requirements of what information the Department of Transportation must collect for rebate eligibility;
- (5) Clarifying that the rebates are only available for qualified new electric bicycles and new electric mopeds purchased at a retail store after July 1, 2022;
- (6) Clarifying eligibility requirements for the rebate program;
- (7) Removing the barrel tax allocation;
- (8) Inserting an appropriation of \$2,100,000 for the rebate program;
- (9) Amending section 1 to reflect its amended purpose;
- (10) Changing the effective date to July 1, 2022; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3158, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3158, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Lee, Inouye and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Ilagan, Clark, D. Kobayashi, Takumi and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 207-22 on S.B. No. 3111

The purpose of this measure is to:

- (1) Establish a five-year Family Resource Centers Pilot Program within the Department of Human Services;
- (2) Establish one full-time equivalent (1.0 FTE) Family Resource Centers Coordinator position within the Department of Human Services; and
- (3) Appropriate an unspecified amount of funds for the establishment of the Family Resource Centers Pilot Program, one full-time equivalent (1.0 FTE) Family Resource Centers Coordinator position, and expenses related to the development and implementation of a statewide network of family resource centers.

Your Committee on Conference finds that family resource centers play a critical role in preventing child abuse and neglect, strengthening children and families, connecting family-impacting agencies and programs, creating opportunities for community-level coordination, creating connections to resources and support systems, and increasing family engagement, which all lead to greater student success in school. Communities with family resource centers show lower rates of child abuse and neglect investigations, lower numbers of children entering foster care, and an increase in parents or custodians gaining employment within one year after participating in services provided through the centers. This measure establishes a five-year Family Resource Centers Pilot Program, that will allow the Departments of Human Services, Education, and Health to provide coordinated family-impacting services designed to meet the needs, cultures, and interests of communities served by family resource centers.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$300,000;
- (2) Amending section 1 to clarify its purpose;
- (3) Inserting an effective date of July 1, 2022, and a repeal date of June 30, 2027; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3111, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3111, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 208-22 on S.B. No. 3272

The purpose of this measure is to require the Director of Transportation to adopt rules to require tour aircraft operations to report details of each flight taken by the tour aircraft operation monthly.

Your Committee on Conference finds that the noise from low-flying aircrafts over residential areas can cause health issues and negatively impact quality of life. Due to increasing concerns, this measure requires tour aircraft operations to file reports so that the State can monitor their compliance with federal regulations.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to establish the Air Noise and Safety Task Force;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3272, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3272, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 209-22 on H.B. No. 1600

The purpose of this measure is to appropriate supplemental funds for the operating costs of the executive branch for the fiscal biennium beginning July 1, 2021, and ending June 30, 2023.

Your Committee on Conference has approved a Conference Draft of the executive budget that appropriates \$15,719,399,902 in all funds, inclusive of \$7,427,150,769 in general funds, for fiscal year 2021-2022 and \$16,979,432,863 in all funds, inclusive of \$8,729,630,979 in general funds, for fiscal year 2022-2023.

	Fiscal Year 2021-2022		Fiscal Year 2022-2023	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 88, SLH 2021	15,740,768,928	7,424,917,404	15,106,494,229	7,501,192,761
Net Change	-21,369,026	2,233,365	1,872,938,634	1,228,438,218
Total Appropriation	15,719,399,902	7,427,150,769	16,979,432,863	8,729,630,979

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1600, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1600, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 210-22 on H.B. No. 1540

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance. Your Committee on Conference further finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating the dates and measure numbers cited in the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1540, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1540, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Kanuha, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Luke, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 211-22 on S.B. No. 2695

The purpose of this measure is to establish a Blockchain and Cryptocurrency Task Force.

Your Committee on Conference finds that despite the emerging growth and popularity of blockchain technology and cryptocurrency, Hawaii has yet to determine whether or how to regulate the digital currency industry in the State. Your Committee on Conference further finds that the adoption of this rapidly evolving technology requires an educated and thorough approach so that its implementation does not impede further innovation and growth, whether in public sector or private industry operations. Your Committee on Conference notes that this measure is intended to support continued e-commerce activity in the State through appropriate consumer protection and oversight mechanisms.

Your Committee on Conference has amended this measure by:

- (1) Amending the list of required members of the task force by:
 - (A) Adding the Director of Commerce and Consumer Affairs or their designee;
 - (B) Removing the member representing a Hawaii-based company with a focus on non-traditional blockchains;
 - (C) Changing the appointing authority of the member that represents:
 - (i) A Hawaii-based bank or financial institution from the Governor to the Speaker of the House of Representatives;
 - (ii) A Hawaii-based cryptocurrency exchange from the Governor to the President of the Senate;
 - (iii) A representative of a company with a business model that uses blockchain for non-cryptocurrency transaction purposes from the Governor to the Speaker of the House of Representatives; and
 - (iv) A representative of a blockchain or cryptocurrency association from the Governor to the President of the Senate;
 - (D) Removing the requirement that representation from a blockchain payments solution company be from a Hawaii-based company; and
 - (E) Amending the specialization of the member who is a professor from the University of Hawaii from blockchain to digital currency;
- (2) Requiring the task force to:
 - (A) Recommend appropriate licensure requirements and a regulatory framework for this new evolving industry;
 - (B) Observe and monitor the past and current activities of the Hawaii Digital Currency Innovation Lab (DCIL), a “sandbox” program conducted by Department of Commerce and Consumer Affairs’ Division of Financial Institutions and Hawaii Technology Development Corporation;
 - (C) Analyze how the current framework of the Hawaii DCIL fits into the State’s financial environment; and
 - (D) Consider aspects of the Hawaii DCIL that may be effective and practical in the implementation of the recommended regulatory framework;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2695, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2695, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Misalucha, Baker, Keith-Agaran and Fevella.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Todd, Kitagawa and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 212-22 on S.B. No. 2700

The purpose of this measure is to:

- (1) Require the staff of licensed and registered early childhood programs to annually provide specific information to the Department of Human Services' Early Childhood Workforce Registry;
- (2) Require a report to the legislature; and
- (3) Appropriate funds.

Your Committee on Conference finds that the demand for quality early child care and education greatly exceeds the supply of qualified child care workers and educators in the State. However, to enact effective legislation or programs to increase the number of child care workers and educators available, more data is required to understand the needs of the workforce. This measure ensures policymakers have adequate and timely data on the State's early child care and education workforce by requiring the Department of Human Services to collect data from all early child care workers and educators in the State.

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than requiring, the Department of Human Services to require that all staff used to meet the staff-child ratio in licensed and registered child care programs annually update their information in the Early Childhood Registry;
- (2) Authorizing, rather than requiring, data collected from the Early Childhood Registry to include certain social determinants;
- (3) Exempting procurements made pursuant to the measure from the requirements of chapters 103D and 103F, Hawaii Revised Statutes;
- (4) Removing the appropriation section;
- (5) Inserting an effective date of July 1, 2022; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2700, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2700, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Misalucha, Shimabukuro, San Buenaventura and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Tam, Gates and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 213-22 on S.B. No. 3110

The purpose of this measure is to:

- (1) Rename the Preschool Grant Program Special Fund as the Child Care Grant Program Special Fund;
- (2) Authorize the Child Care Grant Program Special Fund to be used to give grants to child care facilities;
- (3) Change the legislative report due date for the Preschool Open Doors Special Fund and Child Care Grant Program Special Fund; and
- (4) Remove the authority to expend moneys without an appropriation for the Preschool Open Doors Special Fund and Child Care Grant Program Special Fund statutes to conform to state constitutional provisions.

Your Committee on Conference finds that well-supported, regulated child care facilities keep children safe and provide parents the ability to pursue or maintain employment and educational activities. This measure authorizes the Department of Human Services to provide grants to child care facilities beyond those eligible for the Preschool Open Doors Program, which will support parents and caregivers by ensuring the State's child care facilities can continue to provide access to safe and qualified child care.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3110, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3110, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Misalucha, Kidani, San Buenaventura and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Tam and Ward.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 214-22 on S.B. No. 3294

The purpose of this measure is to appropriate funding for reentry planning circles to provide transitional support for female offenders leaving prison.

Your Committee on Conference finds that incarcerated individuals who participate in reentry planning circles before leaving prison have significantly lower recidivism rates. This measure will allow a greater number of inmates to participate in reentry planning circles allowing the inmates, their families, and prison staff to discuss and develop written transition plans to obtain housing, employment, and other necessities after their release from incarceration.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000 for the purpose of funding reentry planning circles for incarcerated individuals, regardless of sex or gender;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3294, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3294, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President, Chairs, and Speaker of the House of Representatives on behalf of the Committee.

Senators San Buenaventura, Nishihara, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Ganaden, Ichiyama, B. Kobayashi, Kong and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 215-22 on S.B. No. 1297

The purpose of this measure is to extend the authorization to issue special purpose revenue bonds to assist MauiGrown Coffee, Inc., with the operation and expansion of its farm and mill.

Your Committee on Conference finds that Act 116, Session Laws of Hawaii 2017, (Act 116) authorized the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc. with the expansion of its coffee farm and mill in Puukoolii, Maui. Pursuant to Act 116, the authorization for the issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc. will lapse on June 30, 2022. This measure extends the authorization to issue special purpose revenue bonds to assist MauiGrown Coffee, Inc.

Your Committee on Conference has amended this measure by:

- (1) Inserting a special purpose revenue bonds authorization lapse date of June 30, 2025; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1297, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1297, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 216-22 on S.B. No. 2070

The purpose of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds to assist Hawaiian Legacy Reforestation Initiative, LLC, in its mission to proliferate a sustainable model of endemic reforestation, ecosystem revitalization, endangered species recovery, and carbon credit sequestering.

Your Committee on Conference finds that the issuance of special purpose revenue bonds to assist Hawaiian Legacy Reforestation Initiative, LLC, is in the public interest. With assistance, the Hawaii Legacy Reforestation Initiative, LLC, can contribute substantially to the State's sustainability goals. This measure authorizes the Department of Budget and Finance to issue special purpose revenue bonds to assist the Hawaiian Legacy Reforestation Initiative, LLC, to restore Hawaii's forests and natural resources.

Your Committee on Conference has amended this measure by authorizing the issuance of \$50,000,000 in special purpose revenue bonds.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2070, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2070, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Nakashima, Marten, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 217-22 on S.B. No. 2218

The purpose of this measure is to:

- (1) Require the Department of Agriculture to establish a five-year food hub pilot program to increase access to local food;
- (2) Provide for the award of grant funding to qualified applicants wishing to establish or expand a food hub or provide certain technical assistance;
- (3) Authorize the issuance of general obligation bonds for the Honalo Marshalling Yard;
- (4) Require reports to the Legislature; and
- (5) Appropriate funds.

Your Committee on Conference finds that food hubs can play an important role in the State's efforts to improve food security and self-sufficiency. Notably, food hubs facilitate the distribution of locally-sourced foods within the State. This measure requires the Department of Agriculture to establish a five-year food hub pilot program, authorizes the issuance of general obligation bonds for the Honalo Marshalling yard, and appropriates funds for the food hub pilot program.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$750,000;
- (2) Authorizing the issuance of \$750,000 in general obligation bonds; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2218, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2218, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 218-22 on S.B. No. 2284

The purpose of this measure is to:

- (1) Establish provisions relating to the Department of Agriculture's governing of the business of aquaculture;
- (2) Grant exclusive property rights to persons who lawfully obtain the cultured progeny of wild plants and animals by brood stock acquisition;
- (3) Authorize the Department of Agriculture to regulate the transportation, purchase, possession, and sale of specific aquaculture products as may be necessary to protect indigenous species;
- (4) Require the Department of Agriculture to prepare programmatic environmental impact reports and acquire land for aquacultural purposes; and
- (5) Make appropriations.

Your Committee on Conference finds that aquaculture constitutes an important economic opportunity for the State. However, the current provisions regarding the Department of Agriculture's role in supporting aquaculture are insufficient. This measure establishes new provisions to promote effective governance regarding aquaculture in the State.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation; and
- (2) Inserting an effective date of upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2284, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2284, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Kim, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Misalucha).

Representatives Hashem, Quinlan, Kitagawa, Perruso, Matayoshi and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 219-22 on S.B. No. 2621

The purpose of this measure is to appropriate funds to the Department of Agriculture to establish bovine tuberculosis control operations on Molokai, including staff, land, and equipment.

Your Committee on Conference finds that bovine tuberculosis poses a significant threat to the State's cattle industry, particularly on the island of Molokai. To better combat the spread of bovine tuberculosis, the Department of Agriculture requires additional resources. This measure appropriates funds to the Department of Agriculture to establish bovine tuberculosis control operations on Molokai.

Your Committee on Conference has amended this measure by inserting an appropriation amount of \$500,000.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2621, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2621, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 220-22 on S.B. No. 2989

The purpose of this measure is to:

- (1) Require the Department of Agriculture to establish a Healthy Soils Program;
- (2) Establish a Healthy Soils Program Special Fund; and
- (3) Appropriate funds.

Your Committee on Conference finds that soil health is critical to Hawaii's agricultural industry. Additionally, soil carbon stocks can serve as an important source for carbon sequestration. This measure requires the Department of Agriculture to establish a Healthy Soils Program to help the State meet its sustainability goals.

Your Committee on Conference has amended this measure by:

- (1) Removing the establishment of a Healthy Soils Program Special Fund;
- (2) Inserting an appropriation amount of \$500,000; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2989, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2989, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kanuha, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Acasio).

Representatives Hashem, Perruso and Matsumoto.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 221-22 on S.B. No. 3004

The purpose of this measure is to:

- (1) Establish and appropriate funds for a compost reimbursement program within the Department of Agriculture and for one full-time permanent compost reimbursement program manager position; and
- (2) Require an annual progress report to the Legislature prior to each regular session.

Your Committee on Conference finds that composting has significant environmental and social benefits, including for agricultural operations. Act 89, Session Laws of Hawaii 2018, established a three-year compost reimbursement pilot program that was then repealed on December 31, 2021. This measure establishes and appropriates funds for a compost reimbursement program to be administered by the Department of Agriculture.

Your Committee on Conference has amended this measure by:

- (1) Inserting a definition for “landscaping operation”;
- (2) Inserting appropriation amounts of \$945,000 for the Compost Reimbursement Program and \$55,000 for one full-time equivalent (1.0 FTE) program manager position; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3004, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3004, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keith-Agaran, Acasio and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Marten, Perruso and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 222-22 on S.B. No. 3197

The purpose of this measure is to:

- (1) Establish a farmer apprentice mentoring program; and
- (2) Make an appropriation to the Department of Agriculture to establish and implement the program.

Your Committee on Conference finds that farming is essential to the State’s agriculture goals, including greater food security and self-sufficiency. However, the State lacks the necessary programs to support beginning farmers. This measure establishes and appropriates funds for a farmer apprentice mentoring program to be administered by the Department of Agriculture.

Your Committee on Conference has amended this measure by:

- (1) Removing certain requirements for the Department of Agriculture regarding the farmer apprentice mentoring program;
- (2) Inserting an appropriation amount of \$300,000; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3197, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3197, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Shimabukuro and Fevella.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 223-22 on S.B. No. 3325

The purpose of this measure is to:

- (1) Establish the Hawaii Carbon Smart Land Management Assistance Pilot Program to incentivize carbon sequestration activities through incentive contracts that provide compensation for eligible practices by program participants;
- (2) Repeal the Carbon Offset Program; and

- (3) Appropriate funds for positions and assistance.

Your Committee on Conference finds that carbon sequestration is an important tool for reducing the State's contribution to global greenhouse gas emissions. Incentivizing carbon sequestration can have numerous benefits for the State's sustainability goals. This measure establishes the Hawaii Carbon Smart Land Management Assistance Pilot Program to incentivize carbon sequestration activities.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation;
- (2) Inserting an effective date of upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3325, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3325, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 224-22 on S.B. No. 3379

The purpose of this measure is to appropriate funds for a ports-of-entry biosecurity program.

Your Committee on Conference finds that strengthening biosecurity at the State's ports-of-entry will offer many ecological and economic benefits to Hawaii. In its original form, this measure appropriated funds from funds appropriated to the Department of Land and Natural Resources native resources and fire protection programs to a ports-of-entry biosecurity program. Your Committee on Conference further finds that the Department of Agriculture is better suited to implement a ports-of-entry biosecurity program.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting a general fund appropriation amount of \$525,000; and
- (2) Replacing the Department of Land and Natural Resources with the Department of Agriculture as the expending agency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3379, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3379, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Lee, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 225-22 on S.B. No. 2280

The purpose of this measure is to allow dental assistants to perform limited, essential duties under the general supervision of a dentist in public health settings.

Your Committee on Conference finds that the State lacks adequate and accessible dental public health infrastructure, especially on the neighbor islands. Your Committee on Conference further finds that dental assistants could play an important role in improving access to dental health care across the State. Although the Hawaii Dental Practice Act allows dental hygienists to practice under the general supervision of a dentist in public health settings, dental assistants are prohibited from providing auxiliary support, except under direct supervision. This measure allows dental assistants to provide limited, but essential, auxiliary support under general supervision while in public health settings, which would contribute to the development and sustainable implementation of community-based dental disease prevention programs.

Your Committee on Conference has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2280, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2280, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker and Fevella.

Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Kitagawa, Tam, Har and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 226-22 on S.B. No. 2274

The purpose of this measure is to:

- (1) Require all nurses to respond to the Center for Nursing Workforce Supply Survey in conjunction with license renewal, but does not penalize a nurse for failure to do so; and
- (2) Increase the additional Center for Nursing fee from \$40 to \$60 per licensing biennium.

Your Committee on Conference finds that the Hawaii State Center for Nursing was created to collect and analyze data related to current and future trends in nursing, and recruit and retain nurses. Since 2003, the Center has made significant progress in creating statewide initiatives and programs to address the nursing shortage and increase access to health care throughout the State. Your Committee on Conference further finds that the Center for Nursing fees, which help to fund the Center's activities, has not increased since 2003, and the State again faces a nursing shortage. This measure requires nurses to respond to the Center for Nursing Workforce Supply Survey in conjunction with license renewal, but does not penalize a nurse for failure to do so, and increases the Center for Nursing fee from \$40 to \$60 per licensing biennium.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that nurses respond to the Center for Nursing Workforce Supply Survey;
- (2) Inserting an effective date of July 1, 2022; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2274, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2274, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker, Shimabukuro, San Buenaventura and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

Representatives Yamane, Kitagawa, Tam, Har and Ward.

Conf. Com. Rep. 227-22 on S.B. No. 2624

The purpose of this measure is to appropriate funds to establish a telehealth pilot project and a rural health care pilot project.

Your Committee on Conference finds that many Hawaii residents are unable to obtain timely and appropriate health care and behavioral health care due to shortages of primary, specialty, and behavioral care providers. This is particularly true for elderly or rural residents who experience even greater barriers to provider access, such as fixed or limited financial resources, lack of physical mobility or other disabilities, cognitive impairment, or transportation challenges. Your Committee on Conference finds that multiple strategies are needed to address these problems. One method is greater telehealth adoption. Another avenue is to provide a financial incentive to health care providers to service rural areas. This measure establishes and appropriates funds for a telehealth pilot project and a rural health care pilot project, and requires the Department of Health to submit an evaluation of both pilot projects to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for the telehealth pilot project;
- (2) Inserting an appropriation amount of \$100,000 for the rural health care pilot project; and
- (3) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2624, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2624, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Baker, Kanuha, San Buenaventura and Fevella.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Kitagawa, Tam, Har and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 228-22 on S.B. No. 1138

The purpose of this measure is to establish the annual expenditure ceiling of the Office of Health Care Assurance Special Fund through the state budget process and to fund increasing operational expenses, including contracts to implement a new management information system and background checks system.

Your Committee on Conference finds that the Office of Health Care Assurance performs all state licensing activities on health care facilities, agencies, and organizations in Hawaii. Although the Office of Health Care Assurance is partially funded through the Office of Health Care Assurance Special Fund, the special fund has a spending ceiling, and any expenses the Office of Health Care Assurance accrues above the spending ceiling must come from general funds. This was problematic during the coronavirus disease 2019 (COVID-19) pandemic, due to the detrimental financial impacts of pandemic response. Your Committee on Conference finds that the Office of Health Care Assurance requires more fiscal flexibility, particularly in a post-COVID-19 world, in order to cover the costs of contracted health care facility inspectors, fund investigations, and modernize operations. Accordingly, this measure establishes the ceiling of the Office of Health Care Assurance Special Fund through the state budget process.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; provided that section 3 of this measure shall take effect on July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1138, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1138, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Tam, Har and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 229-22 on S.B. No. 2473

The purpose of this measure is to:

- (1) Transfer the administrative attachment of the Agribusiness Development Corporation from the Department of Agriculture to the Department of Business, Economic Development, and Tourism;
- (2) Allow the Director of Business, Economic Development, and Tourism to amend the duties, qualifications, and salaries of Agribusiness Development Corporation employees who are exempt from civil service and transferred pursuant to this measure;
- (3) Amend the focus, scope, responsibilities, and powers of the Agribusiness Development Corporation;
- (4) Amend the requirements and responsibilities of the Board of Directors of the Agribusiness Development Corporation;
- (5) Specify the required contents of the Hawaii Agribusiness Plan; and
- (6) Appropriate funds.

Your Committee on Conference finds that the goals and objectives of the Agribusiness Development Corporation (ADC) better align with the general mission of the Department of Business, Economic Development, and Tourism (DBEDT). Your Committee on Conference notes that this measure will not only promote economic diversification, but also acknowledges agriculture's key role in the economic recovery of the State in the post-coronavirus disease 2019 pandemic future.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the newly established position to provide accounting and other fiscal support services to the ADC shall be for one full-time equivalent permanent accountant V position;
- (2) Inserting appropriation amounts of:
 - (A) \$100,000 for a consultant to assist ADC in preparing and finalizing the Hawaii Agribusiness Plan;
 - (B) \$90,000 for one full-time equivalent permanent accountant V position; and
 - (C) \$500,000 for security guard services to address trespassing, abandonment of vehicles on ADC land, and other security issues on vacant ADC land;
- (3) Removing language that would have allowed the Director of Business, Economic Development, and Tourism to amend the duties, qualifications, and salaries of Agribusiness Development Corporation employees who are exempt from civil service and transferred pursuant to this measure; and
- (4) Making it effective on July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2473, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2473, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Hashem, Yamashita, Belatti, Todd and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 230-22 on S.B. No. 3334

The purpose of this measure is to:

- (1) Establish the Director of Business, Economic Development, and Tourism as an ex officio voting member of the Hawaii Tourism Authority Board of Directors, Stadium Authority, and School Facilities Authority Board;
- (2) Repeal the exemption for the Stadium Development Special Fund from the departmental administrative expenses assessment;
- (3) Transfer the Stadium Authority from the Department of Accounting and General Services to the Department of Business, Economic Development, and Tourism;
- (4) Amend the composition of the Stadium Authority;
- (5) Amend the development guidance policies of the Stadium Authority;
- (6) Reduce the amount of general obligation bonds that may be issued to the Stadium Authority for the Stadium Development District; and
- (7) Transfer the School Facilities Authority from the Department of Education to the Department of Business, Economic Development, and Tourism.

Your Committee on Conference finds that consolidating the State's land use expertise and resources will lead to more effective and efficient development and redevelopment of state lands for Hawaii's residents.

Your Committee on Conference has amended this measure by:

- (1) Reducing the amount of members of the Stadium Authority from thirteen to eleven;
- (2) Clarifying that eight of the members of the Stadium Authority are public members;
- (3) Removing language that repeals the exemption for the Stadium Development Special Fund from the departmental administrative expenses assessment;
- (4) Removing all provisions regarding the School Facilities Authority;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective on July 1, 2022; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3334, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3334, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Moriwaki, Kidani, Kanuha, Misalucha and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Misalucha).

Representatives Quinlan, Yamashita and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 231-22 on H.B. No. 2240

The purpose of this measure is to:

- (1) Authorize the issuance of general obligation bonds to pay or prepay the State's other post-employment benefits liability under certain conditions; and
- (2) Require the outstanding balance of general obligation bonds issued to pay or prepay the other post-employment benefits liability to be considered in the calculation of a public employer's annual required contribution to the other post-employment benefits trust fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting a \$300,000,000 ceiling on the amount of general obligation bonds the Director of Finance is authorized to issue for fiscal year 2022-2023 for the Other Post-employment Benefits Trust Fund;
- (2) Clarifying the method for calculating the annual required contribution as it relates to the general obligation bonds authorized by this Act, to pay or prepay the State's other post-employment benefits liability; and
- (3) Changing the effective date of section 1 to July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2240, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2240, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Yamashita, Belatti, Sayama and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Sayama).

Conf. Com. Rep. 232-22 on H.B. No. 2510

The purpose of this measure is to incrementally:

- (1) Increase the State's minimum wage to \$12.00 per hour beginning October 1, 2022; \$15.00 per hour beginning January 1, 2024; and \$18.00 per hour beginning January 1, 2026; and
- (2) Phase out the tip credit.

Your Committee on Conference finds that while the cost of living in the State continues to rise, the minimum wage has not been adjusted to a level that is necessary to offset the higher cost of living. Your Committee on Conference further finds that increasing the minimum wage will help to foster economic stability.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble;
- (2) Inserting provisions that make the State earned income tax credit refundable and permanent, and providing for the carryforward of nonrefundable tax credits previously claimed;
- (3) Changing the timespan and staggering of the minimum wage increases from \$12.00 on October 1, 2022; \$15.00 on January 1, 2024; and \$18.00 on January 1, 2026; to \$12.00 on October 1, 2022; \$14.00 on January 1, 2024; \$16.00 on January 1, 2026; and \$18.00 on January 1, 2028; and
- (4) Instead of phasing out the tip credit, increasing the tip credit incrementally to \$1.50 per hour over a six-year period.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2510, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2510, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Nishimoto, Ilagan and Okimoto.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

Conf. Com. Rep. 233-22 on H.B. No. 2288

The purpose of this measure is to facilitate the transfer of a parcel of land from a state agency to the Department of Hawaiian Home Lands.

Specifically, the measure:

- (1) Requires the state agency holding a fee simple interest in the parcel of land designated as TMK (1) 3-2-030-002-0000-000 to transfer the fee simple interest in the parcel to the Department of Hawaiian Home Lands; and
- (2) Appropriates moneys for condemnation proceedings to transfer relevant land from the University of Hawaii to the Department of Hawaiian Home Lands.

Your Committee on Conference notes that the Department of Hawaiian Home Lands maintains a waitlist of more than twenty-eight thousand beneficiaries who qualify for homestead leases. Your Committee on Conference finds that the land transfer authorized by this measure will help the Department of Hawaiian Home Lands to create additional housing inventory to reduce this waitlist and provide housing to more native Hawaiians.

Your Committee on Conference has amended this measure by:

- (1) Establishing that the Department of Hawaiian Home Lands is authorized, rather than mandated, to negotiate with the state agency holding title to the parcel of land designated as TMK (1) 3-2-030-002-0000-000 to transfer the fee simple interest in the parcel to the Department;
- (2) Deleting the appropriation; and
- (3) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2288, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2288, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Shimabukuro, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Takayama, Nakashima, Branco and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 234-22 on H.B. No. 2024

The purpose of this measure is to establish a system to jointly oversee and manage state lands on Mauna Kea by the University of Hawaii and a new Mauna Kea Stewardship and Oversight Authority.

Specifically, this measure:

- (1) Establishes the Mauna Kea Stewardship and Oversight Authority (Authority);
- (2) Establishes the composition and powers of the Authority;
- (3) Provides for the joint management and stewardship of Mauna Kea lands by the University of Hawaii and the Authority by:
 - (A) Providing for the University of Hawaii to retain jurisdiction over approximately five hundred fifty acres of Mauna Kea astronomy research lands, comprising the astronomy precinct, Halepohaku complex, and the Mauna Kea access road; and
 - (B) Transferring jurisdiction over approximately 9,450 acres of Mauna Kea conservation lands to the Authority;
- (4) Provides for a transition period of three years for the Authority to assume management of the Mauna Kea conservation lands;
- (5) Declares the support of astronomy to be a policy of the State and authorizes the University of Hawaii to develop a framework to allow astronomy development on Mauna Kea;
- (6) Requires the Authority to establish advisory groups to advise the Authority in its management of Mauna Kea conservation lands;
- (7) Requires the Authority and University of Hawaii to submit annual reports to the Legislature;
- (8) Authorizes the Authority and University of Hawaii to limit commercial use and activities in their respective jurisdictions;
- (9) Establishes the Mauna Kea management special fund;
- (10) Transfers certain rights, duties, and positions from the University of Hawaii to the Authority;
- (11) Exempts positions in the Authority from civil service requirements;
- (12) Appropriates moneys to the Authority for startup costs and to establish one full-time equivalent (1.0 FTE) executive assistant position;
- (13) Requires the Auditor to conduct a performance and financial audit of the Authority; and
- (14) Requires that the management of Mauna Kea shall revert to the University of Hawaii if the Auditor finds that joint oversight between the Authority and the University of Hawaii is unfit to continue.

Your Committee on Conference finds that the critical significance of Mauna Kea for both culture and science offers an urgent and unique opportunity to surmount the existing dichotomy and develop new ways to mutually steward Mauna Kea. Therefore, a reformation of the stewardship of Mauna Kea is an issue of the highest priority of the State.

Your Committee on Conference also finds that it is the policy of the State to support astronomy that is consistent with a mutual stewardship paradigm in which ecology, the environment, natural resources, cultural practices, education, and science are in balance and synergy. This policy is consistent with the approach supported by leaders in the astronomical community in Hawaii and the nation, as evidenced by public statements from the astronomy community pertaining to the management of Mauna Kea, which were released subsequent to the hearings on this measure.

Your Committee on Conference acknowledges that the Directors of W.M. Keck Observatory, Subaru Telescope, and Gemini Observatory released a consensus statement on the principles for the future management of astronomical facilities on Mauna Kea. These principles were subsequently endorsed by the Board of Directors of the Association of Universities for Research in Astronomy, a consortium of forty-seven United States institutions and three international affiliates that operate world-class astronomical

observatories for the National Science Foundation (NSF) and the National Aeronautics and Space Administration (NASA). In their statement of principles, the Directors stated:

We strongly believe there is a vibrant and sustainable future for astronomy on Maunakea – a future based on a community model of astronomy in which relationships and partnerships between the community and astronomy thrive, upheld by the values of respect, collaboration, and inclusion.

The observatories are permitted by the state to conduct activities on Maunakea lands – public lands that are important to multiple stakeholders and of great cultural importance to the Hawaiian community. We are grateful for our privilege of observing the universe on Maunakea.

Your Committee on Conference further finds that this statement of principles also refers to the following policy from the Astro2020 Decadal Survey, which guides the future of astronomy research in the United States:

NSF, NASA, [the Department of Education], facility managing organizations, project consortia, individual institutions, and other stakeholders can work to build partnerships with Indigenous and local communities that are more functional and sustained through a Community Astronomy approach, and by increasing the modes of engagement and funding for: (i) meaningful, mutually beneficial partnerships with Indigenous and local communities, (ii) culturally supported pathways for the inclusion of Indigenous members within the profession, and (iii) true sustainability, preservation, and restoration of sites.

Referring to Astro2020, Maunakea Observatories stated, “[i]t is through the lens of this framework that we remain deeply committed to ensuring the local and native Hawaiian community is included as we work together in forging a positive future for Maunakea” and “[w]e seek a community-based mutual stewardship model which will allow astronomy to thrive alongside other interests, sensitive to the needs of the local community.”

Your Committee on Conference notes that while the Conference Draft of the measure includes the operating principles of mauna aloha, opu kupuna, and holomua oi kelakela, it does not include the House Draft No. 1 language describing the Kumu Kanawai, which are a set of statements describing the Native Hawaiian cultural worldview and values relevant to the stewardship of Mauna Kea. Despite the omission of the Kumu Kanawai from the Conference Draft, your Committee on Conference asserts that the Authority should not feel constrained from incorporating the Kumu Kanawai principles into its rules and operational plans.

Upon further consideration and much deliberation, your Committee on Conference envisions a five-year transition period to occur as follows:

	2022-2023	2023-2028	2028-2033	2034+
Administrative attachment	Department of Land and Natural Resources	Department of Land and Natural Resources	Department of Land and Natural Resources	Department of Land and Natural Resources
Land Authority (“Lessor”)	Department of Land and Natural Resources, subject to a moratorium on leases	Department of Land and Natural Resources, subject to a moratorium on leases	Authority	Authority
Which lands	Currently under master lease	Currently under master lease	Proposed Reserve may redefine boundaries	Lands within Reserve (if established)
General Lease	University of Hawaii	University of Hawaii	Authority	To be determined
Day to Day management	University of Hawaii	University of Hawaii	Authority	Authority
Future planning	University of Hawaii	Authority	Authority	Authority
Viewing and Observing time	Fixed under lease	Fixed under lease	Fixed under lease	To be negotiated by the Authority, subject to a mandatory minimum
Potential leasing scenario	Moratorium	Moratorium, but the Authority determines process, criteria, and rules under informal talks	Rules go into effect and formal lease negotiations may occur	New lease or leases permitted

To effectuate the envisioned transition period illustrated in the preceding table, your Committee on Conference has amended this measure by:

- (1) Requiring the Authority to jointly oversee Mauna Kea lands with the University of Hawaii for a transition period of five years and to have exclusive oversight of Mauna Kea lands after the transition period;
- (2) Clarifying the members of the Authority that shall be subject to confirmation by the Senate;
- (3) Deleting the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs from the membership of the Authority;
- (4) Adding the Mayor of the County of Hawaii, or the Mayor’s designee, to the membership of the Authority;
- (5) Requiring that any designee appointed by the Chairperson of the Board of Land and Natural Resources, Mayor of the County of Hawaii, or Chairperson of the Board of Regents of the University of Hawaii serve the entire term of appointment;
- (6) Requiring that the Governor appoint, rather than the members elect, a chairperson of the Authority, and specifying the group of members from which the Governor may appoint the Chairperson;

- (7) Requiring the Authority to adopt a financial plan that strives for financial self-sustainability after the sixth year following the transition period;
- (8) Requiring the Authority to adopt a framework for astronomy-related development on Mauna Kea and allowing the framework to include:
 - (A) Limiting the number of observatories and astronomy-related facilities;
 - (B) Prioritizing, over the use of undeveloped lands, the reuse of footprints of observatories that are scheduled for decommissioning, or have been decommissioned, as sites for new facilities or improvements; and
 - (C) A set of principles for returning lands used for astronomy research to their natural state whenever observatories on those lands are decommissioned or no longer have research or educational value;
- (9) Prohibiting new leases and the renewal of leases during the transition period;
- (10) Clarifying the State's support of astronomy;
- (11) Requiring that after the transition period, leases for astronomical observatories specify at least seven percent of reserved viewing or observing time for the University of Hawaii, and further requiring the University of Hawaii to give priority for reserved viewing or observing time to certain Hawaii students and projects of the University of Hawaii at Hilo Imiloa Astronomy Center;
- (12) Providing the Authority with greater flexibility regarding the establishment of advisory groups;
- (13) Requiring that each annual report by the Authority include, in addition to a review of human uses and the impacts of these uses on the natural and cultural resources of Mauna Kea, a review of the commercial uses of the natural and cultural resources of Mauna Kea and the impacts of the commercial uses on these resources, along with a review of the University of Hawaii's use of its reserved viewing or observing time;
- (14) Authorizing the Authority, rather than the University of Hawaii, to limit commercial use and activities on Mauna Kea;
- (15) Authorizing the Authority to adopt rules before the end of the transition period, provided that the rules shall not take effect until the transition period is completed;
- (16) Requiring that contested cases arising under the newly established chapter shall be subject to Chapter 91, Hawaii Revised Statutes, unless otherwise dictated by the new chapter, and further requiring that appeals from a final decision and order or a preliminary ruling that is of the nature defined by section 91-14(a), Hawaii Revised Statutes, shall be made directly to the Hawaii Supreme Court;
- (17) Authorizing the Authority to retain its own attorneys;
- (18) Requiring the Authority to submit an interim and final report that assesses:
 - (A) Whether a reserve should be established on Mauna Kea lands and, if so, the location of those lands; and
 - (B) Whether the University of Hawaii School of Astronomy should be relocated in whole or in part to the University of Hawaii at Hilo;
- (19) Providing two additional years for the Auditor to complete a performance and financial audit of the Authority;
- (20) Providing that the transfer of the University of Hawaii's powers over Mauna Kea to the Authority shall be completed by July 1, 2028;
- (21) Clarifying that the General Leases between the Board of Land and Natural Resources and the University of Hawaii regarding Mauna Kea lands shall remain in effect until those General Leases expire;
- (22) Repealing Chapter 304A, part IV, subpart O, and section 304A-2170, Hawaii Revised Statutes, relating to the Mauna Kea lands management special fund, effective July 1, 2028;
- (23) Requiring the University of Hawaii to decommission the California Institute of Technology Submillimeter Telescope and the University of Hawaii at Hilo Hoku Kea Teaching Telescope;
- (24) Specifying that the \$14,000,000 appropriated for the startup costs of the Authority shall also be expended for transition planning and hiring the executive assistant of the Authority;
- (25) Appropriating \$350,000 for K-12 public education programs in astronomy-related fields of learning at the University of Hawaii at Hilo, Imiloa astronomy center;
- (26) Specifying that the transfer of the moneys from the Mauna Kea lands management special fund to the Mauna Kea management special fund shall occur on June 30, 2028;
- (27) Deleting the provisions requiring that the management of Mauna Kea shall revert to the University of Hawaii if the Auditor finds that joint oversight between the Authority and the University of Hawaii is unfit to continue;
- (28) Changing the effective date to July 1, 2022; and
- (29) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2024, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2024, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, Kanuha and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 235-22 on H.B. No. 2260

The purpose of this measure is to:

- (1) Amend the circumstances under which medical cannabis may be transported by and between dispensaries;
- (2) Increase the allowable number of plants for production centers;
- (3) Increase the number of production centers that may be allowed under a dispensary license;
- (4) Increase the number of retail dispensing locations that may be allowed under a dispensary license; and
- (5) Redefine the term “medical cannabis production center” to include any series of structures located within the same secured perimeter fence-line.

Your Committee on Conference finds that the State’s Medical Cannabis Dispensary Program was established to ensure that qualifying patients have safe and legal access to medical cannabis. Your Committee on Conference also finds that the Medical Cannabis Dispensary Program needs to be updated to increase access to medical cannabis in rural areas, provide the Department of Health with improved administrative control, and increase the supply of medical cannabis in the State.

Your Committee on Conference further finds that to ensure that the existing medical dispensary licensing framework sufficiently meets the needs of qualifying patients in a cost-effective manner, an assessment of the dispensary licensing framework is necessary. In order to maintain the status quo while the assessment is being conducted, an extension of the deadline by which primary caregivers can no longer cultivate cannabis for a qualifying patient is therefore necessary.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Extending the date after which a primary caregiver is no longer authorized to cultivate cannabis for a qualifying patient to December 31, 2024;
- (2) Deleting provisions that would have increased the number of retail dispensing locations allowed under a dispensary license;
- (3) Limiting licensees to no more than fifteen thousand cannabis plants in total across all of the licensee’s production centers;
- (4) Requiring the Department of Health to establish the fee structure for the submission of applications for additional production centers and for dispensary-to-dispensary sales;
- (5) Permitting a selling dispensary to transport no more than eight hundred ounces of cannabis or manufactured cannabis products to a purchasing dispensary within a thirty-day period;
- (6) Inserting an appropriation amount of \$50,000 for an assessment of the medical cannabis dispensary licensing framework by the Department of Health;
- (7) Changing its effective date to July 1, 2022; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2260, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2260, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 236-22 on S.B. No. 514

The purpose and intent of this measure is to dispose of excess tax revenues pursuant to article VII, section 6, of the Hawaii State Constitution.

Specifically, the measure:

- (1) Provides an income tax credit of an unspecified amount to every resident individual taxpayer;
- (2) Provides an income tax refund of an unspecified amount to every qualifying resident taxpayer;
- (3) Appropriates an unspecified sum of moneys for deposit into the other post-employment benefits trust fund; and
- (4) Appropriates an unspecified sum of moneys for deposit into the emergency and budget reserve fund.

Your Committee on Conference finds that article VII, section 6, of the Hawaii State Constitution requires the Legislature to dispose of excess general fund revenues whenever the state general fund balance at the close of each of two successive fiscal years exceeds five percent of general fund revenues for each of the two fiscal years. Your Committee on Conference finds that the general fund balance has met this threshold for two successive fiscal years, and further finds that this measure is an appropriate vehicle for fulfilling the applicable constitutional requirement.

Your Committee on Conference has amended this measure by:

- (1) Removing language referring to an income tax credit;
- (2) Clarifying that the income tax refund shall be provided as follows:
 - (A) \$300 for individuals earning less than \$100,000 and couples earning less than \$200,000; or
 - (B) \$100 for individuals earning \$100,000 or more and couples earning \$200,000 or more, multiplied by the number of the taxpayer's qualified exemptions;
- (3) Setting forth the dollar amount and the rate by which the general fund expenditure ceiling will be exceeded and the reasons for exceeding the expenditure ceiling;
- (4) Appropriating \$300,000,000 for deposit into the pension accumulation fund, rather than the other post-employment benefits trust fund; and
- (5) Appropriating \$500,000,000 for deposit into the emergency and budget reserve fund.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 514, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 514, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, Kidani and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Luke, Yamashita and McDermott.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 237-22 on S.B. No. 2657

The purpose of this measure is to:

- (1) Reestablish the Hawaii Medical Education Council Special Fund to enable the John A. Burns School of Medicine, in consultation with the Hawaii Education Council Special, to provide funding for medical education and training in Hawaii;
- (2) Appropriate funds to the John A. Burns School of Medicine to expand medical education and training in Hawaii, with an emphasis on supporting residency training on the neighbor islands and in medically underserved areas throughout the State; and
- (3) Appropriate funds to the John A. Burns School of Medicine to create further medical residency and training opportunities through a partnership between the John A. Burns School of Medicine and the United States Department of Veterans Affairs.

Your Committee on Conference finds that the State faces a severe shortage of health care providers. The ongoing shortage threatens individual health and may pose adverse effects to the State's health care costs. The neighbor islands have been disproportionately affected by shortages of physicians in all areas of practice. Your Committee on Conference finds that medical school graduates who complete their residency training in Hawaii are more likely to remain in Hawaii to practice. Similarly, medical residents who train on the neighbor islands are more likely to subsequently practice on the neighbor islands. Thus, providing funds for medical education is vital to address the physician shortage in Hawaii. Furthermore, there is strong collaboration between the John A. Burns School of Medicine and the United States Department of Veterans Affairs. The United States Department of Veterans Affairs health system currently invests in Hawaii-based residency positions using a separate federal pool of resources for support. This measure appropriates funds to the John A. Burns School of Medicine to expand medical education and training in Hawaii and to create further residency and training opportunities in partnership with the United States Department of Veterans Affairs.

Your Committee on Conference has amended this measure by:

- (1) Removing the provision that reestablishes the Hawaii Medical Education Council Special Fund;
- (2) Inserting an appropriation amount of \$2,700,000 for the creation of additional medical residencies and training opportunities for medical students in counties with populations of five hundred thousand or less;

- (3) Inserting an appropriation amount of \$4,000,000 for the expansion of medical residency and training opportunities in partnership with the United States Department of Veterans Affairs; and
- (4) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2657, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2657, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Kim, Kidani, San Buenaventura and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Takayama, Tam, Har and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 238-22 on S.B. No. 2597

The purpose of this measure is to appropriate funds for the Hawaii State Loan Repayment Program administered through the University of Hawaii John A. Burns School of Medicine, subject to a matching funds requirement.

Your Committee on Conference finds that there is a shortage of health care professionals in the State, particularly in rural communities. This shortage threatens not only individual health, but the entire State's health care system. Your Committee on Conference also finds that individuals who receive loan repayments from the Hawaii State Loan Repayment Program in exchange for work commitments in underserved practice areas in Hawaii are highly likely to remain at the site they performed their service. Health care professionals who have benefited from the Hawaii State Loan Repayment Program serve on all islands and in rural and underserved communities. This measure appropriates funds for the Hawaii State Loan Repayment Program to continue to provide a financial incentive to health care professionals working in health care shortage areas.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 for the Hawaii State Loan Repayment Program; and
- (2) Inserting an effective date of July 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2597, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2597, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Kim, Misalucha, San Buenaventura and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Yamane, Takayama, Tam, Har and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Har).

Conf. Com. Rep. 239-22 on S.B. No. 2600

The purpose of this measure is to:

- (1) Beginning July 1, 2022, prohibit the issuance of permits for future large capacity underground storage tank systems mauka of the underground injection control line; and
- (2) Beginning January 1, 2023, prohibit the operation of, and renewal of permits for, large capacity underground storage tank systems located mauka of the underground injection control line.

Your Committee on Conference finds that article XI, section 7, of the Hawaii State Constitution requires the State to "protect, control and regulate the use of Hawaii's water resources for the benefit of its people." Aging underground storage tanks threaten to leak hazardous substances into the ground and contaminate the State's precious supply of drinking water. In November 2021, the State experienced such an occurrence when the United States Navy confirmed that petroleum leaked from its Red Hill Underground Bulk Fuel Storage Facility, contaminating a portion of Honolulu's water supply. This measure reduces the risks of hazardous substances leaking from large capacity underground storage tank systems into the State's drinking water by prohibiting permits for and operations of these systems.

Your Committee on Conference has amended this measure by:

- (1) Changing the prohibition date for the operation of, and renewal of permits for, large capacity underground storage tank systems located mauka of the underground injection control line to July 1, 2022;
- (2) Allowing the operation of large capacity underground storage tanks systems after July 1, 2022, provided the operation is necessary to address maintenance required to safely support defueling, environmental requirements, any operations directly related to defueling, or requirements under section 342L-9, Hawaii Revised Statutes;
- (3) Adding a definition for "mauka" consistent with the Hawaii Administrative Rules;

- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2600, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2600, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 240-22 on S.B. No. 2784

The purpose of this measure is to appropriate funds for fiscal biennium 2021-2023 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (3) and for their excluded counterparts.

Your Committee on Conference finds that on April 22, 2022, the State received notification that an agreement was issued concerning the Hawaii Government Employees Association, collective bargaining unit (3). An agreement with the Hawaii Government Employees Association regarding Employer-Union Trust Fund contributions was previously reached and funded by Act 106, Session Laws of Hawaii 2021.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (3) and for their excluded counterparts for fiscal biennium 2021-2023, pursuant to the arbitration award;
- (2) Changing the effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2784, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2784, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 249-22 on S.B. No. 3289

The purpose of this measure is to establish a Hawaii Retirement Savings Program to be administered by the Hawaii Retirement Savings Board in consultation with the Department of Labor and Industrial Relations and Department of Budget and Finance, that provides a state-facilitated payroll-deduction individual retirement savings plan to private sector employees who do not have access to employer-sponsored retirement savings plans.

Your Committee on Conference finds that there is an imminent retirement security crisis in Hawaii, with many individuals not having access to an employer-sponsored retirement savings plan, and therefore, at significant risk of lacking sufficient retirement income to cover their basic expenses during retirement. Your Committee on Conference also finds that, due to Hawaii's high cost of living, many workers continue to work beyond normal retirement age, and many of those workers work more than one job. This measure will allow private sector employees in Hawaii to participate in a state-facilitated payroll-deduction retirement savings plan that will promote retirement savings needed for a secure retirement, improve the employee's financial security, and reduce wealth disparity in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Amending the powers and duties of the Hawaii Retirement Savings Board;
- (2) Allowing the Hawaii Retirement Savings Board to authorize matching contributions of up to \$500 per participant account from the Hawaii Retirement Savings Special Fund for the first 50,000 covered employees who participate for twelve consecutive months after initial enrollment; and
- (3) Amending the expenditure allowances for moneys in the Hawaii Retirement Savings Special Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3289, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3289, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 250-22 on S.B. No. 2021

The purpose of this measure is to:

- (1) Establish the Office of Hawaiian Affairs' pro rata share of the moneys derived from the public land trust;
- (2) Establish a working group to determine pro rata share of income and proceeds from the public land trust and back amounts due; and
- (3) Appropriate funds from the carry-forward trust holding account to the Office of Hawaiian Affairs.

Your Committee on Conference finds that it is incumbent upon the Legislature to uphold its trust responsibilities and duty of care to native Hawaiians pursuant to the Hawaii State Constitution, which requires that twenty percent of the income and proceeds from the Public Land Trust go to the Office of Hawaiian Affairs to benefit the Native Hawaiian community. This measure will ensure that the State fulfills its constitutional obligations by establishing and providing for the Office of Hawaiian Affairs' annual share of the income and proceeds of the public land trust.

Your Committee on Conference further finds that the past-due sum owed to the Office of Hawaiian Affairs for any and all underpayments of the pro-rata portion of the income and proceeds of the Public Land Trust for the period from July 1, 2012, to June 30, 2022, is \$64,000,000, and that this sum is intended to represent the cumulative impact of an inflation adjustment for that period.

Your Committee on Conference has amended this measure by:

- (1) Deleting language amending section 10-13.5, Hawaii Revised Statutes, to require a minimum amount of \$21,500,000 to be transferred annually from the Public Land Trust to the Office of Hawaiian Affairs and replacing it with language amending Act 178, Session Laws of Hawaii 2006, to the same substantive effect;
- (2) Removing the requirement that the working group determine the past-due sum owed to the Office of Hawaiian Affairs;
- (3) Requiring any department or agency that uses, manages, or receives income, proceeds, or any other fund derived from the Public Land Trust to cooperate with the working group in submitting a report to the Legislature;

- (4) Requiring the Office of Hawaiian Affairs, instead of the Department of Budget and Finance, to provide administrative support to the working group;
- (5) Making a general fund appropriation of \$64,000,000 to be deposited into the Native Hawaiian Trust Fund and expended by the Office of Hawaiian Affairs instead of appropriating \$31,000,000 from the Carry-Forward Trust Holding Account to the Office of Hawaiian Affairs;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2021, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2021, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole, Dela Cruz, Fevella and Kidani.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Luke, Eli, Holt and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 251-22 on S.B. No. 2474

The purpose of this measure is to require the Public Utilities Commission to establish reliability standards and interconnection requirements for renewable energy projects and community-based renewable energy projects.

Your Committee on Conference finds that facilitating the timely interconnection of utility-scale renewable energy projects will help set standards for grid-reliability, support the State's renewable energy goals, and reduce the risks of project delays and variables; thereby benefiting ratepayers and the State.

Your Committee on Conference has amended this measure by deleting its contents and replacing it with language that:

- (1) Requires the Public Utilities Commission to contract with a qualified consultant to conduct a study on the accessibility of Hawaii's electrical system and procedures for interconnection to Hawaii's electrical system;
- (2) Requires a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (3) Appropriates funds for the Public Utilities Commission to contract with a qualified consultant to conduct a study on the accessibility of and procedures for interconnection to Hawaii's electrical system;
- (4) Makes it effective on July 1, 2022; and
- (5) Makes technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2474, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2474, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Johanson, Marten, Perruso and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 252-22 on S.B. No. 2290

The purpose of this measure is to:

- (1) Beginning July 1, 2022, ban the manufacture of a personal care product, except a non-prescription drug, that contains plastic microbeads;
- (2) Beginning July 1, 2023, ban the sale or offer for sale of a personal care product, except a non-prescription drug, that contains plastic microbeads;
- (3) Beginning July 1, 2024, ban the sale or offer for sale of a non-prescription drug that contains plastic microbeads; and
- (4) Exempt rinse-off cosmetics or rinse-off cosmetics that are also non-prescription drugs regulated by the federal Microbead-Free Waters Act of 2015.

Your Committee on Conference finds that plastic microbeads, which are common in many personal care products, can accumulate in Hawaii's waters and damage marine ecosystems. Additionally, microbeads that are ingested by marine wildlife can eventually progress through the food chain to fish for human consumption. Consequently, plastic microbeads also present a risk to human health. This measure establishes prohibitions on products that contain plastic microbeads in three phases.

Your Committee on Conference has amended this measure by:

- (1) Amending the definitions of “personal care product” and “plastic microbead”; and
- (2) Inserting an effective date of upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2290, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2290, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Acasio and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Kitagawa, Marten, Tam and Matsumoto.

Managers on the part of the House.

Ayes, 5; Ayes with Reservations (Matsumoto). Noes, none. Excused, none.

Conf. Com. Rep. 253-22 on H.B. No. 1147

The purpose of this measure is to appropriate monies for capital improvement project costs of the State for the fiscal biennium 2021-2023.

Your Committee on Conference has amended this measure by:

- (1) Removing the capital improvement projects for fiscal biennium 2021-2023;
- (2) Appropriating funds to the Department of Business, Economic Development, and Tourism;
- (3) Appropriating funds out of the Convention Center Enterprise Special Fund;
- (4) Appropriating funds to the University of Hawaii;
- (5) Making it effective upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1147, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1147, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Luke, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

Conf. Com. Rep. 254-22 on H.B. No. 2466

The purpose of this measure is to provide a general excise tax exemption for the gross proceeds or income received from the sale of any product resulting from the cultivation and production of unprocessed taro in the State.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Repealing the measure on June 30, 2027.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2466, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2466, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Shimabukuro, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Perruso, Quinlan, Luke, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 255-22 on H.B. No. 2511

The purpose of this measure is to provide funds to the Department of Hawaiian Home Lands to pursue a multi-pronged approach to eliminating its waitlist. Specifically, this measure:

- (1) Requires the Department of Hawaiian Home Lands to submit annual reports to the Legislature regarding expenditures from the Native Hawaiian Rehabilitation Fund and the number of beneficiaries removed from the waitlist for Hawaiian home lands through the use of funds from the Native Hawaiian Rehabilitation Fund; and
- (2) Appropriates \$600,000,000 into and out of the Native Hawaiian Rehabilitation Fund for:
 - (A) Hawaiian home lands lots and related projects; and
 - (B) Down payment assistance and mortgage payment assistance to Department of Hawaiian Home Lands beneficiaries.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$600,000,000 to the Department of Hawaiian Home Lands for certain purposes, instead of into and out of the Native Hawaiian Rehabilitation Fund;
- (2) Authorizing the Department of Hawaiian Home Lands to prioritize and determine the amount of assistance according to the income or receipt of other funds by the applicant or qualified relative, including wages, litigation settlement proceeds, and other monies received by the applicant or qualified relative;
- (3) Requiring the Department of Hawaiian Home Lands to develop a strategic plan to address applicant preferences reflected in the 2020 Beneficiaries Study Applicant Report;
- (4) Amending the requirements for the annual report from the Department of Hawaiian Home Lands;
- (5) Inserting a severability clause;
- (6) Changing the effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2511, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2511, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Luke, Eli, Holt, Tam and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

STANDING COMMITTEE REPORTS

SCRep. 2001 Labor, Culture and the Arts on S.B. No. 2018

The purpose and intent of this measure is to incrementally increase the minimum wage for certain employees from the current \$10.10 per hour to:

- (1) \$12.00 per hour beginning October 1, 2022;
- (2) \$15.00 per hour beginning January 1, 2024; and
- (3) \$18.00 per hour beginning January 1, 2026.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; Department of Human Services; Office of the Prosecuting Attorney of the County of Kauai; one member of the County Council of the County of Maui; American Association of University Women; Americans for Democratic Action; Common Cause Hawaii; Community Alliance on Prisons; Democratic Party of Hawai'i; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i Stonewall Caucus; Democratic Party of Hawai'i Labor Caucus; Faith Action for Community Equity/Raise UP Hawaii Coalition; Free Access Coalition; Hawai'i Alliance for Community-Based Economic Development; Hawai'i Alliance for Progressive Action; Hawai'i Alliance of Nonprofit Organizations; Hawaii Appleseed Center for Law and Economic Justice; Hawai'i Children's Action Network Speaks!; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawai'i Health & Harm Reduction Center; Hawai'i Public Health Institute; Hawai'i State AFL-CIO; Hawaii State Teachers Association; Hawaii Youth Services Network; Imua Alliance; International Union of Bricklayers and Allied Craftworkers Local #1 of Hawaii; Living Wage Hawaii; Planned Parenthood Alliance Advocates; Pono Hawaii Initiative; Pride at Work – Hawai'i; St. Michael the Archangel Parish, Kailua-Kona; UNITE HERE Local 5; United Public Workers, AFSCME Local 646, AFL-CIO; and forty-four individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii; Aloha Hula Supply; Envisions Entertainment & Productions, Inc.; Hawaiian Chip Company; Hawaii Food Manufacturers Association; Hawai'i Restaurant Association; Hawaiian Candies & Nuts, Ltd.; Highway Inn; Kona-Kohala Chamber of Commerce; National Federation of Independent Business; Tanaka of Tokyo Restaurants; Society of Human Resource Management Hawaii; Honolulu County Republican Party; and thirty-four individuals. Your Committee received comments on this measure from the Associated Builders and Contractors-Hawaii Chapter; Hawaii Food Industry Association; Maui Chamber of Commerce; Retail Merchants of Hawaii, Inc.; Grassroot Institute of Hawaii, Inc.; and one individual.

Your Committee finds that a majority of credible studies conclude that higher minimum wages appreciably boost workers' earnings with little or no effect on employment. A 2018 study by the U.S. Census Bureau found that raising the minimum wage benefits a large majority of low-income workers by putting them on the path to higher earnings in the long-term and decreasing income inequality. Your Committee further finds that there is currently a significant difference between Hawaii's minimum wage and what is needed to afford basic needs in the State. According to a report titled "Self-Sufficiency Income Standard – Estimates for Hawaii 2020" issued by the Department of Business, Economic Development, and Tourism in December 2021, approximately 18.2 percent of two-adult couples with no children, and 34.7 percent of two-adult couples with two children had incomes below the self-sufficiency standard in 2020. For single-adult with no children, single-adult with one child, and single-adult with two children 43.1 percent, 50.0 percent, and 80.0 percent had incomes below the self-sufficiency level, respectively. Furthermore, despite the State's high cost of living, according to the Department of Labor and Industrial Relations, twenty-two states and the District of Columbia have minimum wages higher than Hawaii. Your Committee also finds that the annual inflation rate in the United States accelerated to seven percent in the last month of 2021, the highest since June of 1982, which will further increase in the cost of living in the State.

This measure will incrementally increase Hawaii's minimum wage to \$18.00 per hour by 2026, which will raise the quality of life for Hawaii residents, reduce poverty, increase economic activity in the State, and appropriately address inflation and the resulting increase of the cost of living in the State.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2018 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2002 Ways and Means on S.B. No. 2018

The purpose and intent of this measure is to increase the minimum wage from \$10.10 per hour to \$12.00 per hour beginning on October 1, 2022; to \$15.00 per hour beginning on January 1, 2024; and to \$18.00 per hour beginning January 1, 2026.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations; Executive Office on Early Learning; Council Chair of the Maui County Council; Americans for Democratic Action, Hawaii; Hawaii Government Employees Association; Stonewall Caucus of the Democratic Party of Hawaii; Pride @ Work - Hawaii; Hawaii Youth Services Network; Hawaii Health and Harm Reduction Center; United Public Workers, AFSCME Local 646; Hawaii Alliance of Nonprofit Organizations; Planned Parenthood Alliance Advocates; Hawaii State Teachers Association; Democratic Party of Hawaii Labor Caucus; Hawaii Workers Center; Leeward Community College Student Government; AAUW of Hawaii; Hawaii Alliance for Community-Based Economic Development; HOPE Services Hawaii; League of Women Voters Hawaii; Faith Action for Community Equity; Hawaii Workers Center, Raise Up Hawaii; Hawaii Children's Action Network Speaks!; Imua Alliance; Democratic Party of Hawaii Education Caucus; St. Michael the Archangel Parish; Pono Hawaii Initiative; Hawaii Alliance for Progressive Action; Living Wage Hawaii; Community Alliance on Prisons; Hawaii State AFL-CIO; Hawaii Building and Construction Trades Council; Leeward Community College Student Government; Hawaii Appleseed Center for Law and Economic Justice; International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts, Local 665; Save Medicaid Hawaii; Ai Pohaku; Hawaii Public Health Institute; and numerous individuals.

Your Committee received written comments in opposition to this measure from Island Pacific Bags, Inc.; Hawaii Food Manufacturers Association; Society of Human Resource Management; National Federation of Independent Business; Hawaii Restaurant Association; Associated Builders and Contractors Hawaii Chapter; Chamber of Commerce Hawaii; Envisions Entertainment and Productions, Inc.; Kona-Kohala Chamber of Commerce; Retail Merchants of Hawaii; Magics Beach Grill; Tiki's Grill & Bar; Shorefyre/Skybox; Beast Culinary Company, LLC, d/b/a: Da Sugar Mill Bistro; Hawaii Republican Party; Language Services Hawaii, LLC; Il Gelato Hawaii; and five individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Common Cause Hawaii, Grassroot Institute of Hawaii, Maui Chamber of Commerce, Hawaii Food Industry Association, and Hawaii Lodging and Tourism Association.

Your Committee finds that incrementally increasing the minimum wage so that it reaches \$18.00 per hour beginning on January 1, 2026, is an appropriate way to address inflation and the increased cost of living in the State.

Your Committee requests that, as the minimum wage increases over time, the Department of Budget and Finance ensure that all state employees be paid no less than the applicable minimum wage rate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2018 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Wakai). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2003 Judiciary on S.B. No. 988

The purpose and intent of this measure is to establish clear guidelines for unpaid internships under the state wage and hour law.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that upholding labor laws and the minimum wage requirements are among the State's highest priorities. Since 2018, the United States Department of Labor has put forth numerous guidelines to ensure individuals are not being taken advantage of by companies under the guise of offering unpaid internships. However, these guidelines have not yet been codified in the United States Code Annotated, nor have they been incorporated into the Hawaii Revised Statutes. This measure will incorporate those guidelines into state law to ensure that unpaid internships at for-profit companies or institutions are carefully regulated.

Your Committee notes that during the hearing there was a discussion regarding the status of true volunteers. Your Committee agrees with the Department of Labor and Industrial Relations that as long as volunteers understand that they are volunteers only and no wages were promised to them, then volunteers do not qualify as employees and are ineligible to receive wages. This measure exempts anyone working in a volunteer capacity.

Your Committee has amended this measure by amending section 1 to reference the federal Fair Labor Standards Act rather than the Fair Wages Act.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 988, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 988, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2004 Judiciary on S.B. No. 416

The purpose and intent of this measure is to:

- (1) Clarify the applicable reimbursement to the State or defendant for expert witness fees, as it pertains to testimony, preparation, and in-court attendance in State court criminal proceedings; and
- (2) Increase per diem payments for all witnesses required to travel and stay overnight to testify in a criminal case.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, and Department of the Prosecuting Attorney of the County of Maui.

Your Committee finds that the ability to utilize expert witnesses, especially in cases involving homicide or sexual assault where medical, scientific, or other expert testimony is often a requirement, is an important factor in whether justice can effectively be served. Despite this, the Department of Budget and Finance enacted a policy change on March 2, 2017, which would discontinue reimbursement of certain expert witness fees for county prosecutors, indigent defendants represented by the Office of the Public Defender, and private conflict counsel. In response, the Governor issued Governor's Administrative Directive No. 18-01, which re-established guidelines and procedures regarding expert witness reimbursements. However, Governor's Administrative Directive No. 18-01 officially expired as of June 30, 2018, and the Department of Budget and Finance has continued following these procedures simply as a courtesy. Your Committee believes that statutory changes are needed to make these guidelines and procedures permanent and that these changes are necessary to support both a defendant's constitutional right to a defense and the State's ability to prosecute violations of the law. This measure will codify the guidelines and procedures allowing for reimbursement of expert witness fees while also assisting crime victims and witnesses in covering the rising costs of travel.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 416, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2005 Judiciary on S.B. No. 212

The purpose and intent of this measure is to increase the amount of fines that may be assessed against a noncandidate committee for violations of organizational report requirements and the amount of fines that may be assessed for violations of advertisement disclaimer requirements.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, League of Women Voters of Hawaii, and four individuals.

Your Committee finds that campaign spending and disclosure requirements are important to the health of the electoral process. Your Committee further finds that fines and other penalties should ideally be flexible enough to be an effective deterrent to candidate and noncandidate committees of various levels of financial resources. Your Committee additionally finds that linking the maximum fine amount to the level of expenditure made by the violating committee is an effective way to accomplish that flexibility. Your Committee notes that the intent of this measure is to provide the ability to target large dollar campaign spenders rather than to go after groups spending small amounts.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the increase in the amount of fines for violations of advertisement disclosure requirements shall be assessed against only noncandidate committees; and
- (2) Inserting an effective date of July 30, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2006 Judiciary on S.B. No. 352

The purpose and intent of this measure is to prohibit the use of lead-based paint on outdoor structures.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Children's Action Network Speaks!, and two individuals.

Your Committee finds that lead poisoning has been shown to cause neurological damage, behavioral and learning disabilities in children, and various other medical conditions. There is no safe level of exposure to lead and no way to reverse the damage caused by lead exposure. Your Committee further finds that lead-based paints have historically been used and continue to be allowed on outdoor structures. The use, maintenance, and removal of paints containing lead on outdoor structures create lead exposure pathways that are hazardous to workers; contaminate the environment; and expose children and adults who live, work, and play in proximity to these structures. This measure will prohibit the use of lead-based paint on outdoor structures and reduce the amount of lead poisoning and contamination occurrences in the State.

Your Committee has amended this measure by clarifying that the use of lead-based paint on outdoor structures is prohibited after December 31, 2022.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 352, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2007 Judiciary on S.B. No. 206

The purpose and intent of this measure is to prohibit discrimination in real estate transactions and requirements, including in advertisements for available real property, based on participation in a housing assistance program or requirements related to participation in housing assistance programs.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority; Governor's Coordinator on Homelessness; Hawaii State Council on Developmental Disabilities; Hawai'i Civil Rights Commission; one member of the Honolulu City Council; Stonewall Caucus of the Democratic Party of Hawai'i; Catholic Charities Hawai'i; Partners In Care; Hope Services Hawai'i, Inc.; Hawai'i Health & Harm Reduction Center; Hawai'i Children's Action Network Speaks!; Hawaii Substance Abuse Coalition; The Radical Hale; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that low-income individuals, who are the most likely participants in housing assistance programs, experience extreme difficulty in finding affordable rentals in Hawai'i and are often faced with discrimination based on their source of income. Your Committee further finds that discrimination against recipients of housing assistance programs is prohibited in twelve states and the District of Columbia, as well as numerous cities and counties throughout the United States. Your Committee additionally finds that

a prohibition against discrimination based on participation in a housing assistance program or requirements related to participation in a housing assistance program does not alter or restrict the standard industry practices to vet prospective renters. However, since there is no general federal law that prohibits discriminating against a tenant based on "source of income", this discrimination continues to widely occur. This measure is critically necessary to break down this significant discriminatory barrier to accessing affordable housing and to improve geographic mobility for low-income families.

Your Committee notes that during the ongoing coronavirus disease 2019 (COVID-19) pandemic, reluctance to rent to clients in housing assistance programs has adversely impacted the utilization of new federal resources, such as the United States Department of Housing and Urban Development Emergency Housing Vouchers (EHVs) and the United States Department of Treasury Emergency Rental Assistance (ERA). For example, even though seven hundred and eight EHVs have been allocated statewide in Hawai'i since mid-2021, only thirty-six of those households have been able to find housing as of January 20, 2022. With limited search periods to lease with a voucher of normally sixty or ninety days, refusal to accept an EHV or other voucher can cause people to lose their rental assistance and extend situations of housing insecurity and homelessness. In addition, providers have shared stories of homeless individuals who were approved for prospective rent through ERA after eviction from a prior unit and are not able to find a landlord willing to accept this assistance in a new unit.

Your Committee has amended this measure by inserting additional findings to further clarify this measure's importance.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 206, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 206, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2008 Judiciary on S.B. No. 1347

The purpose and intent of this measure is to require the Department of Education to offer training for teachers, educational officers, and school-based behavioral health specialists on sex trafficking prevention and response.

Your Committee received testimony in support of this measure from the Department of Education, Department of Human Services, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii State Teachers Association, Hawaii Youth Services Network, Imua Alliance, Opportunity Youth Action Hui, Hawai'i Children's Action Network Speaks!, Rainbow Family 808, Democratic Party of Hawai'i Education Caucus, Parents and Children Together, Sex Abuse Treatment Center, and three individuals. Your Committee received testimony in opposition to this measure from Harm Reduction Hawaii.

Your Committee finds that sex trafficking is a form of modern-day slavery. Your Committee further finds that education can prevent sexual exploitation. By empowering students to protect themselves from harm and build healthy relationships, training school staff in how to respond to at-risk youth in a trauma-informed manner, and creating sexual health programs that include providing information about sex trafficking, schools can equip students with the knowledge and skills needed to prevent themselves from becoming victims of sexual exploitation, as minors and upon reaching adulthood. This measure will assist teachers, educational officers, and other school staff with resources to better protect Hawai'i's children and young people from sex trafficking throughout the State.

Your Committee has amended this measure by:

- (1) Clarifying that school-based personnel including security, custodial, and support staff shall also receive training on sex trafficking prevention and response;
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1347, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1347, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2009 Judiciary on S.B. No. 573

The purpose and intent of this measure is to require all habitat conservation plans to include an agreement for plan participants to enter into and maintain an annual service contract with a stand-by and response facility available to provide emergency medical and rehabilitation services to native wildlife affected by activities undertaken within the plan area.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Hawai'i Wildlife Center, Kauai Albatross Network, Center for Biological Diversity, Save Our Shearwaters, Conservation Council for Hawai'i, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Clean Power Alliance. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Hawaii's unique ecosystem is under constant threat by natural and manmade causes. Your Committee further finds that habitat conservation plans are one means of mitigating against this threat and protecting the health and longevity of the State's ecosystem. Presently, habitat conservation plans do not require a response plan that sets forth an agreement with a permitted response organization to ensure response resources are available for injured wildlife treatment and rehabilitation expertise when needed. This measure will help ensure that permitted, professionally staffed, wildlife response resources are available to help native wildlife adversely affected by human activities.

Your Committee has amended this measure by inserting an effective date of July 30, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 573, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 573, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2010 Judiciary on S.B. No. 1140

The purpose and intent of this measure is to:

- (1) Amend the newborn hearing screening statute to mandate reporting of diagnostic audiologic evaluation results to improve hearing follow-up of infants; and
- (2) Update definitions and terminology.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Early Learning, Hawaii State Council on Developmental Disabilities, Early Childhood Action Strategy, Kaiser Permanente Hawaii, and one individual.

Your Committee finds that the State's public health screening program helps deaf or hard of hearing children reach their developmental milestones and be language-ready for school. However, the Department of Health Newborn Hearing Screening Program does not receive diagnostic audiologic evaluation results for all newborns who fail to pass newborn hearing screening. This measure ensures consistent reporting of diagnostic audiologic evaluation results for all infants who fail to pass hearing screening and facilitates the appropriate follow-up and support through early intervention services.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Health shall adopt rules for the reporting of all infant hearing screening results, not just those results from infants identified as deaf or hard of hearing;
- (2) Clarifying that the Department of Health shall adopt rules for the reporting of diagnostic audiologic evaluation and results for infants who fail newborn hearing screening; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1140, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2011 (Majority) Judiciary on S.B. No. 152

The purpose and intent of this measure is to:

- (1) Amend requirements for the restraint of child passengers;
- (2) Require rear-facing child safety seats for children under two years of age;
- (3) Repeal exceptions for compliance; and
- (4) Increase certain fines for violations.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Hawai'i Police Department, Keiki Injury Prevention Coalition, and Kapi'olani Medical Center.

Your Committee finds that existing motor vehicle laws lack any requirement that children of any age be restrained in a rear facing child safety seat. Your Committee further finds that motor vehicle injuries continue to be a leading cause of death for Hawai'i's children and youth. According to the American Academy of Pediatrics guidelines, infants and toddlers need to be in a rear-facing car safety seat until they reach the highest weight or height allowed by the seat. Your Committee also finds that sixteen states have requirements that children under the age of two be rear-facing. This measure aligns Hawai'i law with other jurisdictions that protect children under the age of two by requiring that they be restrained in a rear-facing child safety seat.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Kim, Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 2012 Judiciary on S.B. No. 1016

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to establish policies, in collaboration with departments and agencies, to provide infrastructure and resources to permit authorized employees to securely access remote computing services.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of Enterprise Technology Services, and Department of Accounting and General Services. Your Committee received comments on this measure from Transform Hawai'i Government.

Your Committee finds that the coronavirus disease 2019 pandemic has required many state employees to work from home or other remote locations to maintain social distancing and minimize the spread of the SARS-CoV-2 virus. However, the relocation of state employees to non-traditional work environments has left an indelible impression on the possibilities of how state work can be accomplished. Your Committee further finds that working from home or other off-worksites locations has demonstrated cost-effectiveness and productivity in rendering public services. Employees working off-site enables the State to make better use of its limited resources, including but not limited to office space, furnishing, equipment, electrical and data requirements, storage space, and other traditional needs of employees who work at state facilities. This measure will require the Office of Enterprise Technology Services to define parameters that will strengthen the ability of state employees to continue to work remotely.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2013 Education on S.B. No. 2821

The purpose and intent of this measure is to require public schools to provide menstrual products free of charge to all students, on all school campuses, and to appropriate funds for the same.

Your Committee received testimony in support of this measure from the Department of Education; Department of Human Services; State Public Charter School Commission; State Council on Developmental Disabilities; Hawai'i State Commission on the Status of Women; Ma'i Movement Hawai'i; 'Ilima Intermediate Activist Club; Stonewall Caucus of the Democratic Party of Hawai'i; Hawaii State Teachers Association; Community Alliance on Prisons; Women's Caucus of the Democratic Party of Hawai'i; Zonta Club of Kauai; Pono Hawai'i Initiative; Hawaii Youth Services Network; American Association of University Women of Hawaii; Children's Network Speaks!; HawaiiKidsCAN; Hawaii Women's Coalition; Achieve Zero; Hawai'i Health & Harm Reduction Center; Education Caucus of the Democratic Party of Hawai'i; Waianae Coast Comprehensive Health Center; American College of Obstetricians and Gynecologists, Hawai'i, Guam, and Samoa Section; Breastfeeding Hawaii; and one hundred eighty-two individuals. Your Committee received no testimony in opposition to this measure. Your Committee received comments on this measure from one individual.

Your Committee finds that the lack of access to menstrual products in schools limits full participation in school, contributes to higher rates of school absenteeism and missed activities, and negatively impacts students' ability to learn. A 2021 study conducted by the Hawaii State Commission on the Status of Women and Ma'i Movement Hawai'i found that forty-two percent of student respondents missed class or left school because they did not have access to period products and nearly twenty-two percent missed school entirely. Illustrating the impact of this problem, of those who missed school entirely, nearly twelve percent missed three to five school days and six percent missed six to ten school days in an academic year. Because chronic absenteeism is one of the most powerful predictors of student success or failure, it should be a priority for Hawaii public schools to minimize or eliminate it.

In addition, your Committee also finds that the lack of adequate quantity and quality of period products directly and adversely impacts student health. Using period products for a length of time beyond that recommended by the manufacturer, or utilizing substandard alternatives, jeopardizes the safety and health of students and increases the risk of serious medical issues, including preventable infections that can result in death.

Your Committee further finds that there is convincing evidence that free period products have positive impacts on education. A pilot project and study of students and faculty in Hawaii conducted between August 2021 and January 2022 revealed that reducing the barriers to access resulted in fewer missed classes and absences. In recognition of these types of findings, more than ten states, including Arkansas, California, Colorado, Delaware, Georgia, Illinois, Nevada, New Hampshire, New York, Oregon, Rhode Island, and Washington State have laws or policies advancing menstrual equity in their public school and higher education systems. In addition, the United States Congress also introduced The Menstrual Equity Act for All this year, seeking to comprehensively address period poverty in schools and menstrual inequity in other spaces.

Your Committee has amended this measure by:

- (1) Adding a purpose section; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the appropriation required for this measure is \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2821, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2014 Energy, Economic Development, and Tourism on S.B. No. 2076

The purpose and intent of this measure is to clarify the duties of the Hawaii Broadband and Digital Equity Office (Office) by:

- (1) Defining broadband equity;
- (2) Amending the definition of digital equity;
- (3) Incorporating broadband equity into the duties of the Office; and
- (4) Removing the requirement for the Office to advise the Department of Business, Economic Development, and Tourism on best practices involving remote work promotion.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations' Office of Community Services; Common Cause Hawaii; Hawaii Primary Care Association; League of Women Voters of Hawaii; Chamber of Commerce Hawaii; Ocean Networks, Inc.; Broadband Hui; Maunakea Observatories; Maui Chamber of Commerce; and two individuals.

Your Committee finds that the development of broadband technology is vital to the well-being of the State's residents and communities. Accordingly, the Legislature enacted Act 225, Session Laws of Hawaii 2021, which, in part, established the Office to broaden access to this technology throughout the State. Your Committee further finds that it is important to integrate broadband equity into the duties of the Office to provide access to students and teachers engaged in remote learning; workers performing their duties remotely; health professionals and patients, including kupuna, who rely on telemedicine; and others in rural, unserved, and underserved communities. Your Committee also finds that the broadened scope of duties of the Office necessitates an increase of resources for the Office to perform its additional responsibilities.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that allows the Hawaii Broadband and Digital Equity Office to procure professional services to carry out its duties;
- (2) Inserting an appropriation of \$867,500 for five full-time equivalent (5.00 FTE) administrative positions; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2076, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2076, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2015 Energy, Economic Development, and Tourism on S.B. No. 2173

The purpose and intent of this measure is to allow an electric utility to own, operate, lease, plan, construct, install, maintain, and replace broadband facilities, including middle mile infrastructure, to help facilitate the development of and investment in broadband facilities in rural, unserved, underserved, and urban communities throughout the State.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaiian Electric Company, Kaaui Island Utility Cooperative, and League of Women Voters of Hawaii. Your Committee received testimony in opposition of this measure from Charter Communications. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy, Public Utilities Commission, Hawaiian Telcom, and Common Cause Hawaii.

Your Committee finds that to ensure the timely provision of broadband facilities and services throughout the State, leveraging the existing infrastructure of electric public utilities through a limited grant of authorization and minimal regulation is reasonable and necessary. Your Committee further finds that a streamlined application process will not only facilitate the development of and investment in broadband infrastructure, but also ensure that the costs of deployment are not solely borne by electric customers. Your Committee also finds that through this measure, deploying broadband infrastructure through a middle mile infrastructure network results in cost savings for broadband service providers.

Your Committee acknowledges testimony expressing concern on the lack of competition and abuse of monopoly power that may occur. However, your Committee believes that oversight from the Public Utilities Commission (PUC) is sufficient to maintain fair competition in broadband deployment throughout the State.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that:
 - (A) Provides for a streamlined application process for the sale, lease, assign, mortgage, disposal, or encumbrance of any utility property used for broadband deployment; and
 - (B) Requires that the application for an electric utility to sell, lease, assign, mortgage, dispose of, or encumber any utility property to be used for broadband deployment be filed with minimal information, as determined by the PUC;
- (2) Clarifying that, with respect to the merger and consolidation of public utilities pursuant to section 269-19, Hawaii Revised Statutes, an electric utility may sell, lease, assign, mortgage, dispose, or encumber any utility property used for the purposes of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee acknowledges that with the enactment of this measure, not only may the PUC need to amend established rules that regulate transactions between utility affiliates, but that it and the Consumer Advocate may require additional resources to maintain oversight of the broadband activities of electric utilities and ensure that electric customers are protected from cross-subsidization and unreasonable electricity rates.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2173, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2173, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2016 (Majority) Energy, Economic Development, and Tourism on S.B. No. 2212

The purpose and intent of this measure is to hold telecommunication service providers and third-party spoofing providers accountable by making certain robocalls and spoofing unlawful.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Hawaiian Telcom.

Your Committee finds that this measure is necessary to combat the increase in consumer fraud through robocalls and spoofing. Your Committee acknowledges testimony from the Department of the Attorney General, commenting that this measure may violate the dormant Commerce Clause. However, your Committee believes that the privacy and protection of our citizens, especially vulnerable kupuna, are paramount and notes that within the past two years, other states, such as Arkansas, Kentucky, Maine, Nebraska, Tennessee, and Virginia, have already passed legislation to address robocalls, caller ID spoofing, and other telemarketing issues.

Your Committee has amended this measure by:

- (1) Providing an exemption for voice service providers that comply with the federal Pallone-Thune TRACED Act (2019), which expanded the Federal Communications Commission's authority to combat robocall and spoofing violations; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2212, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2017 Energy, Economic Development, and Tourism on S.B. No. 2568

The purpose of this measure is to:

- (1) Prohibit a production from qualifying for the motion picture, digital media, digital media, and film production tax credit if the production hires or compensates an employee of the State or county whose official capacity is related to motion picture, digital media, or film production for certain services; and
- (2) Require a taxpayer claiming the motion picture, digital media, digital media, and film production tax credit to identify any such employee in the statement submitted to Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Screen Actors Guild – American Federation of Television and Radio Artists and one individual. Your Committee received testimony in opposition of this measure from Island Film Group and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; University of Hawai'i System; Academy for Creative Media at the University of Hawaii at Manoa; Tax Foundation of Hawaii; and International Alliance of Theatrical Stage Employees Local 665.

Your Committee finds that this measure seeks to eliminate any conflicts of interest or undue influence by persons employed by the State or counties whose official capacity is related to motion picture, digital media, or film production in the State. Your Committee heard the testimony of various stakeholders and acknowledges that clarifying language is needed to ensure that there are no unintended consequences that may inadvertently and negatively impact the local film, television, and digital media industries.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying "compensation for services" to mean monetary compensation; and
- (2) Specifying that this measure applies to:
 - (A) Employees of the State of Hawaii film office,
 - (B) Employees of a county film commission, and
 - (C) Companies of which an employee of the State of Hawaii film office or a county film commission is a stakeholder.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2568, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2568, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2018 Energy, Economic Development, and Tourism on S.B. No. 2079

The purpose of this measure is to:

- (1) Establish a tax withholding requirement for all payments to loan-out companies for services performed in Hawaii for persons claiming the motion picture, digital media, and film production income tax credit;
- (2) Prohibit the defense against an erroneous claim for refund or credit that the claim for refund was generated by a tax credit;
- (3) Set the penalty for an erroneous claim for refund or credit that was generated by a tax credit at ten percent;
- (4) Require taxpayers claiming the motion picture, digital media, and film production income tax credit to submit a sworn statement and verification review to the Department of Business, Economic Development, and Tourism only if qualified production costs exceed \$1,000,000;
- (5) Require reports by the Department of Business, Economic Development, and Tourism to the Legislature on the motion picture, digital media, and film production income tax credit to identify the dollar amount claimed, name of company, and name of program claiming the credit;
- (6) Extend the period during which excess motion picture, digital media, and film production income tax credits may be claimed to December 31, 2032;
- (7) Require qualified productions that claim the motion picture, digital media, and film production income tax credit to withhold a certain amount and remit that amount within thirty calendar days to the Department of Taxation to the credit of the general excise tax account of the loan-out company; and
- (8) Amend the uses of the Tax Administration Special Fund.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Motion Picture Association – America, Inc.; International Alliance of Theatrical Stage Employees Local 665; and one individual. Your Committee received testimony in opposition of this measure from the Island Film Group and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that the motion picture, digital media, and film production income tax credit (income tax credit) stimulates the economy and creates quality employment while promoting Hawaii as a premier destination for both the film industry and visitors. According to testimony from the Department of Business, Economic Development, and Tourism, 2021 was a record year for motion picture, digital media, and film production in the State with \$432,000,000 in direct expenditures and the creation of four thousand five hundred new jobs. Your Committee further finds that amending certain criteria for the income tax credit will enable the State to continue this production momentum and diversify its economy.

Accordingly, your Committee has amended this measure by:

- (1) Relocating the language of the tax withholding requirement from chapter 235, Hawaii Revised Statutes, relating to income tax to chapter 237, Hawaii Revised Statutes, relating to general excise tax;
- (2) Clarifying the language of the tax withholding requirement to:
 - (A) Apply to persons that make payments to a loan-out company;
 - (B) Establish the withholding amount at the rate of ten percent of all payments to loan-out companies; and
 - (C) Establish deadlines for remitting payment and penalties for non-compliance;
- (3) Amending the amount for qualified productions that claim the income tax credit to withhold at 4.5 percent of the qualified production costs;
- (4) Adding language allowing the Department of Taxation to:
 - (A) Impose application processing fees for the income tax credit; and
 - (B) Establish four full-time equivalent tax auditor positions funded by the Tax Administration Special Fund to examine claims for the income tax credit and other tax expenditures;
- (5) Removing language that prohibits a taxpayer from invoking the defense against an erroneous claim for a refund or credit if the claim or refund was generated by a tax credit; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2079, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2019 Energy, Economic Development, and Tourism on S.B. No. 2167

The purpose and intent of this measure is to:

- (1) Create a nonrefundable twenty percent film infrastructure tax credit for film infrastructure projects that spend at least \$3,000,000 on buildings, facilities, or installations; and
- (2) Cap the nonrefundable twenty percent film infrastructure tax credit at \$10,000,000 per year.

Your Committee received testimony in support of this measure from University of Hawai'i System, Screen Actors Guild – American Federation of Television and Radio Artists, Island Film Group, International Alliance of Theatrical Stage Employees Local 665, and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee finds that Hawaii is one of a few states that have yet to adopt a film infrastructure tax credit. Your Committee recognizes that the Hawaii has lost opportunities to increase state revenues and enhance job creation as motion picture, digital media, and film companies have left the State to complete production due to a lack of physical infrastructure for interior shooting, visual effects, and other post-production work. In addition to the creation of film studios, sound stages, interior sets, and other much-needed buildings, facilities, and installations; according to testimony received by your Committee, there is also a need to upgrade existing facilities, such as the Hawaii Film Studio at Diamond Head and the Kalaeloa Film Studio at the old naval air station at Barbers Point, to include and support new production and post-production technologies that current productions need. Your Committee further finds that incentivizing the physical capacity of the Hawaii's film industry is essential to strengthening and diversifying the State's economy.

Your Committee also finds that the adoption of a film infrastructure tax credit necessitates an increase of resources for the Creative Industries Division of the Department of Business, Economic Development, and Tourism to perform its responsibilities.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that appropriates an unspecified amount to the Creative Industries Division of the Department of Business, Economic Development, and Tourism to establish two full-time staff positions for the operation and management of the film infrastructure tax credit;
- (2) Clarifying the definition of eligible infrastructure costs;
- (3) Removing language that:
 - (A) Allowed the film infrastructure tax credit to be sold, assigned, or transferred to another taxpayer;
 - (B) Exempted the film infrastructure tax credit from any post-certification remedy; and
 - (C) Limited the remedy of a taxpayer's fraud or misrepresentation to the collection of the taxpayer's film infrastructure tax credits; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2167, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2020 Energy, Economic Development, and Tourism on S.B. No. 2805

The purpose and intent of this measure is to:

- (1) Create the Hawaii Start-Up Business Loan Program;
- (2) Establish the Hawaii Start-Up Business Loan Program Special Fund; and
- (3) Appropriate an unspecified amount to the Hawaii Start-Up Business Loan Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Technology Development Corporation; Hawaii Green Infrastructure Authority; Chamber of Commerce Hawaii; Hawaii Food Industry Association; and Hawaii Credit Union League. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the loan program established by this measure provides an alternative source of financial assistance to new businesses and enterprises to expand and become stronger financially. According to testimony received by your Committee, many entrepreneurs that started new businesses during the coronavirus disease 2019 pandemic are having difficulty accessing capital at reasonable rates and terms. Your Committee further finds that the loan program established by this measure will not only provide immediate working capital and equipment to these new businesses but also help them establish the business credit history necessary to receive financial support from conventional financial institutions in the future. Your Committee also finds that this measure will encourage the diversification of economic opportunities for Hawaii's residents and communities.

Your Committee has amended this measure by:

- (1) Increasing the cap on the amount of the loans made under the Hawaii Start-Up Business Loan Program from \$10,000 to \$20,000;
- (2) Reclassifying the Hawaii Start-Up Business Loan Program Special Fund to a revolving fund;
- (3) Inserting language that:
 - (A) Includes community development financial institutions in the definition of financial institutions under this chapter; and
 - (B) Requires any payments of the principal and/or interest from any loans issued under the Hawaii Start-Up Business Loan Program to be deposited into the Hawaii Start-Up Business Loan Program Revolving Fund;

- (4) Inserting an effective date of July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2805, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2805, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2021 Energy, Economic Development, and Tourism on S.B. No. 2075

The purpose and intent of this measure is to require the Hawaii Tourism Authority to offer performance-based incentives in its professional services contracts.

Your Committee received no testimony on this measure.

Your Committee finds that performance-based incentives in professional services contracts have been used to reduce costs and motivate contractors to implement best practices to perform the contracted work closely to the scope solicited. The Hawaii Tourism Authority's website currently reports that its active solicitations, not including those for the Hawaii Visitors and Convention Bureau, Hawaii Community Foundation, and Hawaii Convention Center, have a total award amount of nearly \$9,000,000. Your Committee believes that this measure will help increase the accountability and quality of professional services that are provided through the Hawaii Tourism Authority's procurement contracts.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2075 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2022 Energy, Economic Development, and Tourism on S.B. No. 2806

The purpose and intent of this measure is to appropriate \$1,500,000 to the Hawaii Technology Development Corporation for the Hawaii Small Business Innovation Research Program.

Your Committee received testimony in support of this measure from the Hawai'i Technology Development Corporation; University of Hawai'i System; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Maui Chamber of Commerce; Simonpetri Enterprises; Island Plastic Bags, Inc.; Shifted Energy; Studio Kinection, Inc., Premier Solutions HI LLC; Praxis Bioresearch, LLC; Skywriting by...nico; Hawaii Food Products; Makai Ocean Engineering, Inc.; TeleVoice 2000; Nalu Scientific, LLC; Bear Machinery Inc.; Purple Mai'a Foundation; Hawaii Aquaculture & Aquaponics Association; XLR8HI; Sultan Ventures; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Oceanit Laboratories, Inc.

Your Committee finds that the Hawaii Small Business Innovation Research Program provides matching grant funding to assist startups in their early efforts to research and develop new technologies and innovations. These funds are crucial as they allow local startups to develop new technology to promote commercial enterprise, thereby strengthening and diversifying the economy of our State. According to testimony received by your Committee, the State has been able to leverage every dollar invested in the Hawaii Small Business Innovation Research Program into twenty federal dollars. Your Committee notes that due to the budget shortfalls caused by the coronavirus disease 2019 pandemic, the Hawaii Small Business Innovation Research Program was not funded for the 2021 fiscal year.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2023 Energy, Economic Development, and Tourism on S.B. No. 2807

The purpose and intent of this measure is to appropriate \$1,500,000 to the Hawaii Technology Development Corporation for the Manufacturing Assistance Program.

Your Committee received testimony in support of this measure from the Hawai'i Technology Development Corporation; University of Hawai'i System; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Maui Chamber of Commerce; Simonpetri Enterprises; Diamond Bakery Co., Ltd.; Hawaii Business Group Incorporated; Hawaiian Chip Company; Island Plastic Bags, Inc.; Aloha Edibles Inc.; Shifted Energy; Advanced Silicon Carbide Materials; TEN TOMORROW; Praxis Bioresearch, LLC; Hawaii Food Products; Makai Ocean Engineering, Inc.; TeleVoice 2000; Bear Machinery Inc.; Purple Mai'a Foundation; Alakoko; Hawaii Aquaculture & Aquaponics Association; XLR8HI; Sultan Ventures; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Manufacturing Assistance Program provides a twenty percent reimbursement to qualified manufacturers for equipment upgrades, technical training, energy efficiency projects, and manufacturing feasibility studies. These funds are crucial as they allow local manufacturers to become more globally competitive, thereby strengthening and diversifying the economy of our State. According to testimony received by your Committee, this measure would not only assist local manufacturers to meet the increasing global demand for "Made in Hawaii" products, but also support local companies looking to maintain quality

control of their products by manufacturing them locally. Your Committee notes that due to the budget shortfalls caused by the coronavirus disease 2019 pandemic, the Manufacturing Assistance Program was not funded for the 2021 fiscal year.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2807 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2024 Energy, Economic Development, and Tourism on S.B. No. 2808

The purpose and intent of this measure is to appropriate \$1,500,000 to the Hawaii Technology Development Corporation for the State Small Business Credit Initiative Program.

Your Committee received testimony in support of this measure from the Hawai'i Technology Development Corporation, Hawaii Green Infrastructure Authority, Chamber of Commerce Hawaii, Hawaii Food Industry Association, and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State Small Business Credit Initiative Program is a program that will provide federal funds in three tranches over the next seven years for states to expand and develop certain programs to provide access to capital to small businesses. According to testimony received by your Committee, Hawai'i Technology Development Corporation (HTDC), in partnership with the Hawaii Green Infrastructure Authority (HGIA), will be launching:

- (1) A collateral support program to provide cash collaterals to lending institutions to cover the collateral of:
 - (A) Mid-market sized companies;
 - (B) Companies of hard-to-finance industries; and
 - (C) Companies of socially and economically disadvantaged individuals; and
- (2) A loan participation program to:
 - (A) Directly lend to projects with community impact; and
 - (B) Support community development financial institutions to provide loans to very small businesses and businesses in underserved markets.

Your Committee notes that neither HTDC nor HGIA currently have the necessary staff positions, such as compliance consultants or auditors, to implement these programs.

According to testimony from HTDC, if state funds are not available to cover necessary expenses that are ineligible under federal funds, the collateral support program and the loan participation program may be scaled back and delayed. Your Committee further notes that the reduction and delay of these programs may affect the State's ability to receive the second round of federal funding aimed at socially and economically disadvantaged businesses, as funding from the second tranche will not be available to the State until eighty percent of the first tranche is utilized.

Your Committee believes that this measure is essential for small businesses to not only recover from the economic effects of the coronavirus disease 2019 pandemic, but to grow and expand within the State.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2025 Education on S.B. No. 3095

The purpose and intent of this measure is to provide an emergency appropriation for the Department of Education to secure critically needed maintenance base yard facilities.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that, on July 1, 2005, the Department of Education and Department of Accounting and General Services entered into a memorandum of understanding to supplement the transfer of resources from the Department of Accounting and General Services to the Department of Education pursuant to Act 51, Session Laws of Hawaii 2004. This memorandum included a provision allowing the Department of Education to use facilities at Shafter Flats to house its maintenance base yard.

Your Committee further finds, however, that the economic downturn in 2020 and limited amount of available resources resulted in a request made by the Department of Accounting and General Services on June 4, 2021, to have the Department of Education relocate from the Shafter Flats facility by October of 2021. Your Committee additionally finds that since June of 2021, the Department of Education has actively sought new facilities to house its maintenance base yard.

Accordingly, your Committee finds that the emergency appropriation made by this measure is necessary and vital for the Department of Education to secure new facilities for warehouse and storage use so that the Department of Education may continue to service all of its facilities, including two hundred and fifty-seven public schools, thirty-seven charter schools, and nearly one hundred eighty thousand students statewide.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3095 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2026 Education on S.B. No. 3098

The purpose and intent of this measure is to provide an emergency appropriation to the Department of Education for vital lead abatement measures to repair or replace plumbing fixtures shown to have more than five parts per billion lead at Department of Education elementary schools.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, and Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, according to the United States Environmental Protection Agency, there is no known safe level of lead in a child's blood, and lead is harmful to health, especially for children. Results of the recently completed first phase of a United States Environmental Protection Agency's, Water Infrastructure Improvements for the Nation Act grant programs found Department of Education elementary schools with old plumbing fixtures that are resulting in trace amounts of lead being found in drinking water sources.

Accordingly, your Committee finds that the lead abatement measures to be funded by this measure are necessary and vital to the health and well-being of students across the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3098 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2027 Education on S.B. No. 2180

The purpose and intent of this measure is to amend the nomination, appointment, and confirmation procedure for Board of Education members and clarify the law with respect to holdover members on the board.

Your Committee received no testimony regarding this measure.

Your Committee finds that the existing nomination, appointment, and confirmation procedure for Board of Education members is inefficient and in need of improvement. Inefficiencies and undue delays in the nomination, appointment, and confirmation of Board of Education members negatively impact the operation of the board. In particular, this measure addresses the lack of consistency from the Governor in diligently adhering to the lawful appointment process, and seeks to curb recent manipulation of the holdover member provisions of existing law by withdrawing nominees prior to their confirmation or non-confirmation by the Senate.

Accordingly, your Committee finds that this measure will increase efficiency in the nomination, appointment, and confirmation of Board of Education members, close the holdover member loophole that has recently been exploited, and promote the sound operation of the Board of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2180 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2028 Education on S.B. No. 2817

The purpose and intent of this measure is to repeal certain reporting requirements for the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that certain reporting requirements for the Department of Education are no longer necessary. Your Committee further finds that the expenditure of time and resources on unnecessary reporting does not benefit the State. Accordingly, your Committee finds that this measure will promote efficiency and good governance within the Department of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2029 Education on S.B. No. 2189

The purpose and intent of this measure is to remove the governor's power to appoint the chairperson of the Board of Education and instead authorize a majority of the members of the Board of Education to elect a chairperson of the board from among their own members.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that existing law requires the Governor to select the chairperson of the Board of Education, subject to the advice and consent of the Senate. This method of selecting a chair is inconsistent with the practice of most boards in the State. Your Committee additionally finds that this selection process leads to delays and undue interruptions in the normal operation of the Board of Education.

Accordingly, your Committee finds that empowering the Board of Education to elect its chairperson from among its own members is consistent with the practice of most boards within the State, and will streamline the process for selecting a chairperson and promote the efficient functioning of the Board of Education.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2189 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2030 Education on S.B. No. 2181

The purpose and intent of this measure is to require certain unlicensed but accredited private schools to annually submit health and safety documentation to fall within the definition of "private schools" under compulsory attendance law, section 302A-1132, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Hawaii Catholic Schools and Hawaii Association of Independent Schools.

Your Committee finds that the health and safety of students in the State is of paramount importance. Your Committee further finds that this measure will increase transparency and accountability in the operation of private schools and help ensure that private schools follow best practices regarding student health and safety.

Your Committee has amended this measure by adding Hawaii Catholic Schools as the entity responsible for reviewing the annual health and safety documentation required by this measure from certain Catholic schools in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2181, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2031 Education on S.B. No. 3209

The purpose and intent of this measure is to appropriate funds for teacher professional development.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter Schools Commission, University of Hawai'i System, and Hawaii State Teachers Association. Your Committee received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that professional development for teachers is a vital way of ensuring that our teachers can use the best, research-based educational practices within their classrooms. In particular, job-embedded professional development can often prove to be more effective than stand-alone training sessions.

Your Committee notes that, according to the Office of Collective Bargaining, the professional development covered by this measure, prior to amendment, is subject to bargaining under chapter 86, Hawaii Revised Statutes.

Your Committee further finds that in the collectively-bargained agreement between the Board of Education and the Hawaii State Teachers Association that expired on June 30, 2021, there was a memorandum of understanding that allowed for twenty-one additional hours to be added to the teachers' workday without students. Those twenty-one hours were to be used for job-embedded professional development to provide benefits, including a formalized structure for organizing training and learning time, reducing the need for substitute teachers, and eliminating teacher absences from classes for training. However, as noted by testimony, the memorandum of understanding expired on June 30, 2021, and was not renewed because funding was not available.

In light of the testimony received, your Committee finds that amendments are necessary to fund professional development for teachers that was previously agreed upon but not implemented. Your Committee notes that S.B. No. 3097 (Regular Session of 2022) is a substantially similar measure that also addresses the same funding needs for implementing teacher professional development.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3097, a substantially similar measure, which appropriates funds for fiscal year 2022-2023 for twenty-one additional hours of professional development for teachers to replace the hours that were lost when the memorandum of understanding expired on June 30, 2021;
- (2) Making it effective on July 1, 2022; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3209, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3209, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2032 Education on S.B. No. 2819

The purpose and intent of this measure is to fund an experimental modernization project, pursuant to section 78-3.5, Hawaii Revised Statutes, to address compensation equity issues and to make the necessary discretionary salary adjustments for approximately eight thousand seven hundred experienced senior teachers by recognizing their professional service to the department of education through discretionary salary adjustments.

Your Committee received testimony in support of this measure from the Department of Education; State Public Charter School Commission; Executive Office on Early Learning; University of Hawai'i System; College of Hawaiian Language, University of Hawai'i at Hilo; Hawaii State Teachers Association; Hui for Excellence in Education; Hawaii Public Charter Schools Network; Education Caucus of the Democratic Party of Hawai'i; and two hundred and sixty individuals. Your Committee received no testimony in opposition to this measure. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii continues to face a chronic teacher shortage, which undermines student learning and achievement. Your Committee also finds that teacher salaries are unequal when experienced senior teachers are aligned with less senior teachers in their placement within the existing salary schedules. To address this problem, an increasing number of school districts around the country are utilizing compensation methods and strategies designed to improve the recruitment and retention of qualified teachers.

Accordingly, your Committee finds that this measure will help address the State's chronic teacher shortage by promoting equitable compensation practices. Your Committee further finds that to accomplish this intent, section 302A-624(c), Hawaii Revised Statutes, should be repealed as it inhibits the allocation of compensation proposed by this measure.

Your Committee has amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Repealing section 302A-624(c), Hawaii Revised Statutes, to accomplish the intent of this measure;
- (3) Clarifying that the parties to the negotiations required by section 4 of this measure are the governing boards of the State's public charter schools and a representative from collective bargaining unit (5); and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the estimated appropriation necessary for this measure is \$94,000,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2819, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2033 Education on S.B. No. 2820

The purpose and intent of this measure is to appropriate funds for teacher differentials to help address labor shortages in the areas of special education, hard-to-staff geographic locations, and Hawaiian language immersion programs.

Your Committee received testimony in support of this measure from the Department of Education; State Public Charter School Commission; Executive Office on Early Learning; College of Hawaiian Language, University of Hawai'i at Hilo; College of Education, University of Hawai'i at Manoa; Special Education Advisory Council; Hawaii State Teachers Association; Hui for Excellence in Education; Education Caucus of the Democratic Party of Hawai'i; Children's Action Network Speaks!; Labor Caucus of the Democratic Party of Hawai'i; Ho'okāko'o Corporation; and one hundred and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Fiscal Services and two individuals.

Your Committee finds that Hawaii continues to face a chronic teacher shortage, which undermines student learning and achievement. This is particularly true with respect to special education, hard-to-staff geographic locations, and Hawaiian language immersion programs. Your Committee therefore finds that funding teacher differentials identified in this measure will help address the State's teacher shortage in these areas.

Your Committee has amended this measure by:

- (1) Clarifying that the parties to the negotiations required by section 3 of the measure are the governing boards of the State's public charter schools and a representative from collective bargaining unit (5); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the estimated appropriation necessary for this measure is \$34,500,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2820, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2820, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2034 Human Services on S.B. No. 2169

The purpose and intent of this measure is to appropriate \$2,000,000 for fiscal year 2022-2023 to fund the operation of the food banks in each county of the State that locally administer The Emergency Food Assistance Program (TEFAP).

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations Office of Community Services; Hawaii Food Industry Association; Hawaii Foodbank, Inc.; Maui Food Bank, Inc.; The Food Basket Inc.; AlohaCare; Tiki's Grill & Bar; Waianae Coast Comprehensive Health Center; Hawaii Primary Care Association; Kaiser Permanente; Chef Point of View Consulting; Hawai'i Agricultural Foundation; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Uluono Initiative; Hawai'i Health & Harm Reduction Center; Hawai'i State AFL-CIO; Hawai'i Farm Bureau; and fifteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Labor and Industrial Relations' Office of Community Services is the state administrator of TEFAP, a federal program that helps supplement the diets of low-income households by providing them with emergency food assistance at no cost. The Office of Community Services contracts with a food bank for each of the State's four counties, to establish, maintain, and supervise a network of eligible recipient agencies that distribute food received through TEFAP in designated areas of each county.

Your Committee also finds that the coronavirus disease 2019 (COVID-19) pandemic heavily impacted food security levels in Hawaii, increasing the volume of food collectively distributed in Hawaii by the food banks in fiscal year 2020-2021 to 36,500,000 pounds, which is more than double the volume distributed before the pandemic. Your Committee further finds that more than eighty-two thousand children in the State are projected to struggle with hunger in 2022, placing Hawaii as a state with the second highest rate of child food insecurity in the country. Your Committee acknowledges that the federal funds and donations that enabled the food banks to meet demands of the State during the height of the pandemic have declined considerably, and without additional funds, the food banks will not be able to continue meeting the food security needs of Hawaii residents. This measure will appropriate the funds necessary for the food banks to continue meeting the food security needs of the people in Hawaii.

Your Committee has reviewed the written testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Your Committee has amended this measure by:

- (1) Clarifying that of the sum appropriated:
 - (A) Five percent shall be allocated to the Office of Community Services to administer the funds pursuant to this measure;
 - (B) Ten percent shall be allocated to the food banks in each county as administrative funds, based on the county's share of the State's poverty population set forth in the latest small area income poverty estimates issued by the U.S. Census Bureau (SAIPE formula); and
 - (C) The remainder shall be allocated to food banks in each county as food purchase funds using the SAIPE formula; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2169, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2035 Human Services on S.B. No. 2461

The purpose and intent of this measure is to appropriate funds for the Hawaii Healthy Aging Partnership (HHAP) program to further its role in improving the health and well-being of Hawai'i's kupuna.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging; County of Hawaii Office of Aging; AARP Hawai'i; Policy Advisory Board on Elderly Affairs; Hawaii Family Caregiver Coalition; and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the HHAP program is a statewide coalition of more than sixty partners, dedicated to embedding evidence-based health promotion programs in Hawai'i's aging services network. Led by the Department of Health's Executive Office on Aging and Chronic Disease Prevention and Health Promotion Division, the program was formed in 2003 to improve the health status of older adults by empowering residents to make healthy decisions and engage in healthier lifestyles. Your Committee finds that the prohibitions against in-person classes due to the coronavirus disease 2019 (COVID-19) pandemic forced the HHAP program to close all physical locations. However, the program overcame this challenge by developing and offering programs in alternative formats, including online virtual exercise classes, remote disease self-management programs, and served close to four hundred kupuna. As the State recovers from the effects of the pandemic, your Committee believes that the HHAP program is ready to scale its programs up in both remote and in-person formats to help more kupuna stay healthy. However, funding for the HHAP program is not included in the current administration's budget. Accordingly, this measure will appropriate \$500,000 for fiscal year 2022-2023, to fund the continued operation of the HHAP program to improve the health and well-being of Hawai'i's kupuna.

Your Committee has reviewed the written testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2461, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2036 Human Services on S.B. No. 1294

The purpose and intent of this measure is to appropriate funds to restore diagnostic, preventive, and restorative dental benefits to adult Medicaid enrollees, provided that the Department of Human Services obtains maximum federal matching funds available and pursues all funding sources, including private grants, prior to expending any general fund appropriations.

Your Committee received testimony in support of this measure from the Department of Human Services; State Council on Developmental Disabilities; AlohaCare; Hawaii Dental Association; AARP Hawai'i; Kaiser Permanente Hawai'i; The Queen's Health Systems; Ho'ōla Lāhui Hawai'i; Hawaii Disability Rights Center; Arc of Maui County; Hawai'i Health & Harm Reduction Center; 'Ohana Health Plan; Hawai'i Children's Action Network Speaks!; Bay Clinic, Inc.; American College of Obstetricians and Gynecologists, Hawai'i Section; Hawaii Association of Health Plans; Hawaii Medical Service Association; Hawai'i State Rural Health Association; Kōkua Kalihi Valley Comprehensive Family Services; Hawaii Primary Care Association; United Healthcare; Early Childhood Action Strategy; Hawaii Dental Hygienists' Association; Papa Ola Lōkahi; Waimānalo Health Center; Hawai'i Oral Health Coalition; Full Life; Easterseals Hawaii; Hawaii Family Caregiver Coalition; and thirty-nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that despite oral disease being a significant health problem that affects the overall health and well-being of many Hawaii residents, in 2009, the State terminated all preventive and restorative dental care services for adult Medicaid recipients and reduced coverage to emergency-only care that is limited to pain relief, injuries, trauma, and tooth removal and extraction. Your Committee further finds that recent research shows a disproportionate number of adult Medicaid enrollees ages twenty-one to forty-four years using the emergency room to receive emergency dental services. Your Committee is concerned that the lack of preventive and restorative dentistry services for adult Medicaid beneficiaries increases potential health care complications for Hawaii residents, especially those who have co-existing chronic diseases, such as diabetes and heart disease, which may lead to increased disability or death. Investing in preventive dental benefits for Medicaid-enrolled adults will, in the long term, lead to reductions in medical costs paid by Medicaid. Therefore, your Committee believes it is in the best interest of the State and its residents to reinstate coverage over diagnostic, preventive, and restorative dental benefits for adult Medicaid enrollees. This measure will appropriate funds to enable the State to do so.

Your Committee has reviewed the written testimony of the Department of Budget and Finance stating that the Executive Supplemental Budget for fiscal year 2022-2023 already includes \$3,466,328 in general funds and \$6,728,754 in federal funds for Department of Human Services (Human Services 401) to reinstate certain adult dental benefits. As such, your Committee finds that this measure will become unnecessary if the funding in the Executive Supplemental Budget is approved. Your Committee further notes that Senate Bill No. 2401, Regular Session of 2022, is a substantially similar measure with updated information included.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the purpose section with the updated language for Senate Bill No. 2401, Regular Session of 2022;
- (2) Clarifying that the funds appropriated by this measure are for the purpose of reinstating coverage of the basic package of diagnostic, preventive, and restorative dental benefits for adult Medicaid enrollees;
- (3) Inserting an appropriation amount of \$10,195,082;
- (4) Inserting an effective date of December 31, 2050, to allow further discussion on whether the funding in the Executive Supplemental Budget for fiscal year 2022-2023 for the Department of Human Services (Human Services 401) to reinstate certain adult dental benefits will be appropriated or authorized; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1294, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2037 Human Services on S.B. No. 2481

The purpose and intent of this measure is to establish within the Department of Human Services Office of Youth Services, a Youth Crisis Center Branch that will implement and oversee the operation of regional Youth Crisis Centers with the primary objective of addressing the immediate safety and service needs of at-risk youth.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Human Services Social Services Division Child Welfare Services Branch, Department of Human Services Office of Youth Services, Office of the Public Defender, Hawaii Youth Services Network, Opportunity Youth Action Hui, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that instances of crisis occurring among the State's most vulnerable youth are increasing, especially in communities that have a high incidence of poverty, homelessness, crime, school truancy, school suspensions, runaways, physical and mental abuse, illegal drug use, juvenile crime, and crimes against youth including sex trafficking. These communities lack sufficient resources and services to respond to the immediate needs of these at-risk youth, yet there is no collaboration among various state agencies to provide comprehensive, data-based services to adequately identify the needs and conditions of crises experienced by the State's youth. Your Committee also finds that there are a limited number of emergency shelter beds dedicated for youth who are not actively engaged with child welfare or criminal justice systems. Your Committee believes that this measure is essential in creating a framework of institutionalized Youth Crisis Centers that continue to operate even in the absence of grant funding to disrupt the school-to-prison pipeline, encourage the continuation of education, provide safer environments, and ensure continued services towards individual achievement of the State's at-risk youth.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2481, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2481, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2038 Human Services on S.B. No. 2415

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to expunge a report or reports in the Hawaii Child Abuse and Neglect Registry when the department finds that a miscarriage of justice would persist if the report or reports were not expunged;
- (2) Require the Department of Human Services to provide notice to all parties who are placed on the Hawaii Child Abuse and Neglect Registry; and
- (3) Provide an avenue for persons on the Hawaii child abuse and neglect registry to petition for removal from the registry.

Your Committee received written testimony in support of this measure from three individuals. Your Committee received written testimony in opposition to this measure from the Hawaii Family Advocacy Team and one individual. Your Committee received written comments on this measure from the Department of Human Services, Department of Human Services Social Services Division Child Welfare Services Branch, and one individual.

Your Committee finds that prior to 2015, the Department of Human Services did not consistently notify individuals who were confirmed as a perpetrator of child abuse or neglect that their records have been placed on Hawaii's central registry of reports of child abuse and neglect. As such, there have been incidences in which individuals were not made aware that their names were on the registry for years, until an event occurs requiring a background check, such as applying for the adoption of a child or employment in a position that involves children or vulnerable adults. Your Committee also finds that existing rules of the Department of Human Services make it extremely difficult, if not impossible, for an individual who had been erroneously placed in the registry to have their records expunged. This measure seeks to provide a statutory remedy for individuals who have been placed on Hawaii's Central Registry of Reports of Child Abuse and Neglect without being given proper notice or who have been denied due process in expunging their records.

Your Committee has reviewed the written testimony of the Department of Human Services expressing concern about the measure's lack of clarity regarding the circumstances that would permit confirmed reports of child abuse or neglect to be expunged from the registry and circumstances that falls under the definition of "miscarriage of justice". Your Committee finds that these issues raise concerns that merit further consideration and respectfully requests that your Committee on Judiciary further examine those issues and concerns raised by the written testimonies on this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2415, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2415, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Misalucha).

SCRep. 2039 Human Services on S.B. No. 2150

The purpose and intent of this measure is to authorize the Department of Human Services to provide housing assistance subsidies of up to \$500 per month to temporary assistance for needy families (TANF) and temporary assistance for other needy families (TAONF) program participants who are also participating in the First-to-Work program.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, County of Maui Department of Housing and Human Concerns, Catholic Charities Hawai'i, HOPE Services Hawai'i, Hawai'i Health and Harm Reduction Center, Hawai'i Children's Action Network Speaks!, Hawai'i Budget and Policy Center, and Partners in Care. Your Committee received comments on this measure from the State Procurement Office and Department of Budget and Finance.

Your Committee finds that as of December 2021, there was an average of 4,547 families participating in the TANF program, a federally-funded financial assistance program designed to help families in need achieve self-sufficiency; and 1,127 families participating in the TAONF program, a state-funded program that mirrors TANF and is designed to assist Hawaii families with minor children who are not eligible to receive TANF program benefits due to their citizenship. According to the Department of Human Services, eighty-two percent of TANF recipients and eighteen percent of TAONF recipients participated in the First-to-Work program, which, in addition to assisting the recipient families in obtaining employment, also provides housing allowances to participating families.

Your Committee finds that nearly one-third of households in Hawaii who rent their homes spend over half of their monthly income on rent and utilities. As housing prices continue to skyrocket, your Committee believes that low-income families participating in the First-to-Work program will likely require assistance to meet their housing costs; however, the program currently lacks the funds to accommodate this critical need. Your Committee therefore finds that this measure is necessary to address a key barrier to housing for many low-income families in Hawaii, including those experiencing homelessness or are at risk of homelessness.

Your Committee has reviewed the written testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$3,557,520 necessary for fiscal year 2022-2023 to fund the housing assistance subsidies for the TAONF program from the general revenues of the State;
- (2) Inserting an appropriation amount of \$16,206,480 necessary for fiscal year 2022-2023 to fund the housing assistance subsidies for TANF program participants from the federal funds received by the State;
- (3) Inserting an appropriation amount of \$200,000 necessary for the Department of Human Services to make enhancements to its case management and payment system to implement this measure;
- (4) Inserting an effective date of December 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2150, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2040 Human Services on S.B. No. 2343

The purpose and intent of this measure is to make decisions of the family court directly appealable to the Supreme Court rather than the Intermediate Court of Appeals.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that delays experienced by parents and children while awaiting the disposition of appeals from family court decisions undermine the mission of the family court to provide a fair, speedy, economical, and accessible forum for the resolution of matters involving families and children. Your Committee further finds that in recent years, some parties have had to wait up to eight years for their family court cases to be resolved. Your Committee is concerned that these delays can result in unacceptable incongruities if the matter to be decided becomes moot while the appeal is pending, such as when a child reaches the age of majority before the final child custody order makes its way through the appeals process. Your Committee therefore finds that this measure is necessary to expedite the disposition of appeals from family court decisions.

However, your Committee has heard the concerns of the Judiciary that this measure as drafted would significantly expand the caseload of the Supreme Court, which would detract from its ability to timely resolve other pressing matters, including its own direct appeals.

Accordingly, your Committee has amended this measure by:

- (1) Allowing cases within the jurisdiction of the Intermediate Court of Appeals involving a judgment, order, or decree of a family court that affect the custody of a child or minor, including involuntary termination of parental rights, to be transferred to the Supreme Court, instead of making all family court decisions directly appealable to the Supreme Court;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2343, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2041 Higher Education on S.B. No. 91

The purpose and intent of this measure is to amend the law relating to the University of Hawaii.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to remove the Special Funds of the University of Hawaii and the Hawaii Cancer Research Special Fund from the list of special funds that are exempt from the requirement to reimburse the Department of Budget and Finance for expenses incurred from administering the funds.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, as amended herein, and recommends that it be recommitted to your Committee on Higher Education, in the form attached hereto as S.B. No. 91, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2042 Judiciary on S.B. No. 1346

The purpose and intent of this measure is to increase compensation for a juror or a prospective juror from \$30 to \$50 for each day of attendance at court after serving five consecutive days.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the payment for jury service under chapter 612, Hawaii Revised Statutes, represents the Legislature's acknowledgement and appreciation of the sacrifice the citizenry makes to serve as jurors. Despite this intent, the last increase in juror fees was in 1986 when the rate was raised from \$20 per day to the current \$30 per day. Your Committee believes that the State should continue to recognize the sacrifice the citizenry makes to serve as jurors. This measure will exhibit the State's acknowledgement of this sacrifice by increasing juror fees for the first time since 1986.

Your Committee has amended this measure by:

- (1) Changing a juror's or prospective juror's per diem compensation from \$30 to \$50 for each day of actual attendance at court, rather than requiring a juror or prospective juror to serve for five consecutive days before receiving a pay increase from \$30 to \$50 per day; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1346, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2043 Health on S.B. No. 2022

The purpose and intent of this measure is to improve the early identification of children with hearing or vision loss by establishing consistent protocols for hearing and vision screening and follow-up, screener training, and data collection and reporting.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office of Early Learning, State Council on Developmental Disabilities, Kaiser Permanente Hawaii, Early Childhood Action Strategy, and Hawai'i Children's Action Network Speaks!

Your Committee finds that the early identification of hearing and vision loss, with appropriate follow-up services, is essential for the development of children's language and communication skills needed for learning in school. Currently, screening providers and community programs vary in their protocols and training for screenings and follow-up. This measure will require the Department of Health to set recommended standards based on national guidelines and best practices for screening, training, and data collection and reporting, which will ensure that hearing and vision screenings are based on evidence and best practices.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2022 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2044 Health on S.B. No. 2024

The purpose and intent of this measure is to require that the diagnostic audiologic evaluation results of newborns who did not pass newborn hearing screening, or infants whose hearing status changes, are provided to the Department of Health in a timely manner.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Early Learning, State Council on Developmental Disabilities, Kaiser Permanente Hawaii, Early Childhood Action Strategy, Hawaii Children's Action Network Speaks!, and one individual.

Your Committee finds that the Department of Health's Newborn Hearing Screening Program helps children who fail hearing screening to receive diagnostic testing and assists children who are deaf or hard of hearing to enroll in early intervention services to support their communication development. Your Committee further finds that when a newborn does not pass hearing screening, the results are not required to be reported to the Newborn Hearing Screening Program. In these cases, the program is unable to aid these newborns in a timely manner. Requiring data reporting will allow the program to increase the percentage of deaf or hard of hearing infants to receive early intervention services and develop communication skills.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2024, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2045 Hawaiian Affairs on S.B. No. 2122

The purpose and intent of this measure is to increase the Office of Hawaiian Affairs' pro rata share of the monies derived from the public land trust and to transfer monies to the Office of Hawaiian Affairs for income and proceeds due from the use of the public land trust lands between July 1, 2012, and June 30, 2022, that was misallocated, underreported, or underpaid to the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from Native Hawaiian and Pacific Islander COVID-19 Hawaii Response, Recovery, and Resilience Team; Kupuna for the Mo'opuna; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Center for Hawaiian Sovereignty Studies, and one individual. Your Committee received comments on this measure from the Department of Agriculture, Hawaii Health Systems Corporation, Department of the Attorney General, and Department of Budget and Finance.

Your Committee finds that there is a constitutional obligation for the State to provide a sufficient sum of income and proceeds as the pro rata share of the public land trust for the betterment of the conditions of native Hawaiians. Act 178, Session Laws of Hawaii 2006 (Act 178), put in place annual payments of \$15,100,000 from the pro rata portion of the public land trust to the Office of Hawaiian Affairs in acknowledgment of the State's constitutional obligation. However, Act 178 was passed with the intention that it would be an interim measure until the Legislature could further assess the complexities of the issue, including in part gathering information on revenue-generating public trust lands and amounts derived from those lands.

Your Committee finds that in a 2015-2016 financial review initiated by the Office of Hawaiian Affairs, the minimum amount of total gross receipts from sources that the Office of Hawaiian Affairs has historically claimed was approximately \$394,322,163 in the fiscal year 2015-2016. Twenty percent of this amount is approximately \$78,900,000. Therefore, this measure seeks to increase the amount of the Office of Hawaiian Affairs' annual share of the income and proceeds of the public land trust beginning in fiscal year 2022-2023. Furthermore, an undecided sum of monies shall be transferred to the Office of Hawaiian Affairs for income and proceeds due from the use of the public land trust lands between July 1, 2012, and June 30, 2022, that was misallocated, underreported, or underpaid to the Office of Hawaiian Affairs while requiring the continued annual accounting of all receipts from lands described in section 5(f) of the Admission Act.

Your Committee has amended this measure by:

- (1) Deleting \$78,900,000 and inserting an unspecified amount as the Office of Hawaiian Affairs' annual share of the income and proceeds of the public land trust beginning in fiscal year 2022-2023;
- (2) Deleting \$638,000,000 and inserting an unspecified amount as the sum to be transferred to the Office of Hawaiian Affairs for income and proceeds due from the use of the public land trust lands between July 1, 2012, and June 30, 2022, that was misallocated, underreported, or underpaid to the Office of Hawaiian Affairs; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2122, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2046 Hawaiian Affairs on S.B. No. 2021

The purpose and intent of this measure is to:

- (1) Require agencies that collect receipts for any disposition of the Public Land Trust to transfer to the Office of Hawaiian Affairs twenty percent of each receipt from the disposition on a quarterly basis;
- (2) Return to the Office of Hawaiian Affairs certain monies previously claimed as Public Land Trust overpayments to the office; and
- (3) Establish a Public Land Trust Revenues Negotiating Committee.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, University of Hawai'i System, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Budget and Finance, Office of Information Practices, and the League of Women Voters of Hawaii.

Your Committee finds that existing law requires that twenty percent of the income and proceeds from the Public Land Trust go to the Office of Hawaiian Affairs to benefit the Native Hawaiian community. However, the definition of "income and proceeds" as well as the question of which lands are a part of the Public Land Trust have made the amount that the Office of Hawaiian Affairs should receive unclear.

This measure is an interim measure that returns to the Office of Hawaiian Affairs certain monies the Office of Hawaiian Affairs returned to the State under claims of overpayment, and ensures that claimed overpayments for fiscal years 2021-2022 and 2022-2023 do not have to be repaid to the State. Furthermore, any shortfalls in quarterly amounts paid to the Office of Hawaiian Affairs shall be rectified in a timely manner.

This measure also establishes a Public Land Trust Revenues Negotiating Committee to make recommendations to the Legislature for resolving the matter of how much income and proceeds from the Public Land Trust should be received by the Office of Hawaiian Affairs annually.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2021 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2047 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 2067

The purpose and intent of this measure is to establish an inter-division program between the State Historic Preservation Division, county burial councils, Office of Conservation and Coastal Lands, and the Office of Hawaiian Affairs that addresses the location, movement, and restoration of Hawaiian burial sites, or 'iwi, exposed or likely to be exposed by coastal erosion.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that rising sea levels and coastal erosion are endangering Native Hawaiian burial sites. These sites are of vital importance to Hawaiian culture as ancestral links to the past. This measure will create an inter-division program between the State Historic Preservation Division, the Burial Councils from each county, the Office of Conservation and Coastal Lands, and the Office of Hawaiian Affairs to address the location of Hawaiian burial sites threatened to exposure due to coastal erosion as well as methods for safe movement and restoration of the remains.

Your Committees have amended this measure by adopting recommendations from the Department of Land and Natural Resources, including:

- (1) Adding the Land Division as one of the collaborators of the inter-division program;
- (2) Deleting language that would have required the inter-division program to identify iwi across the State that may be impacted by coastal erosion and examine the role of climate change on burial sites;
- (3) Clarifying that the inter-division program shall take steps to relocate 'iwi within the same moku;
- (4) Expanding the scope of the appropriation by including the development of policies and procedures for the movement of restoration of 'iwi; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2067, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2067, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Acasio, Ihara). Noes, none. Excused, none.
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2048 (Majority) Water and Land on S.B. No. 2752

The purpose and intent of this measure is to:

- (1) Establish an income tax credit for taxpayers who are required to fill and seal abandoned wells on their real property;
- (2) Require sellers of real property to disclose the existence of wells on the property;
- (3) Require an owner or prior owner of an abandoned well to repair or fill and seal the well at their own expense; and
- (4) Appropriate funds for three full-time equivalent ground surveyor positions in the Commission of Water Resource Management.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of Realtors. Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that wells in a state of disuse or disrepair can become conduits through which contaminants can be introduced to ground water. Abandoned wells can also become receptacles for disposal of waste, resulting in additional potential for contamination and associated risk to public health and environmental degradation.

Your Committee finds that this measure will allow for greater accountability to protect water resources. However, your Committee received testimony from the Department of Land and Natural Resources that this measure, as drafted, would not clarify key differences between sealed and abandoned wells, along with qualified compliance costs. Amendments to this measure are therefore necessary to address the Department of Land and Natural Resources' concerns raised in the department's testimony.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have listed exclusions in the definition of "qualified compliance costs";
- (2) Clarifying the procedures for sealing an abandoned well and applying for a well sealing permit;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2752, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2752, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2049 Water and Land on S.B. No. 3380

The purpose and intent of this measure is to provide matching grant-in-aid funds to the County of Hawaii to hire an engineering firm to study, plan, assist, and conduct preliminary design and concept work for a two-phase project to restore Kahaluu Beach Park.

Your Committee received testimony in support of this measure from the County of Hawaii Department of Parks and Recreation, Hawaii Reef and Ocean Coalition, The Kohala Center, Friends of Hanauma Bay, Kahalu'u Bay Education Center, Mālama Pūpūkea-Waimea, Kona-Kohala Chamber of Commerce, and forty-five individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Kahaluu Beach Park, the top visited beach park in the County of Hawaii, has split jurisdiction between the State, which extends from the Bay's shoreline to the high water mark, and the County of Hawaii, which owns and operates the Kahaluu Beach Park facility. Kahaluu Bay has historically been regarded as a sacred place to Native Hawaiians, adorned with heiau, fishponds, and barrier rock walls. Despite its historical significance and recent conservation efforts by the University of Hawaii, in partnership with the Kohala Center's Kahalu'u Bay Education Center, the ecosystem is not entirely shielded by the impacts of global warming.

During the 2021 Regular Session, the Senate adopted Senate Concurrent Resolution No. 52, S.D. 1, which requested the Department of Land and Natural Resources and the County of Hawaii to collaborate to identify sea level rise at Kahaluu Bay to avoid further deterioration and damage caused by rising sea levels. The Kahaluu Bay Restoration Working Group, comprised of state and county officials and community leaders, formed to address and plan for the restoration of Kahaluu Beach Park. However, greater resources are needed to effectuate the restoration plan. Kahaluu Bay is a public resource with intergovernmental jurisdiction and Bay can serve as a model for restoration of public resources and an example of state and county partnership.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts to allow the Committee on Ways and Means to determine appropriate amounts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3380, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2050 Judiciary on S.B. No. 449

The purpose and intent of this measure is to require sellers of buildings or structures that are wholly or partially occupied for residential purposes to be equipped with working smoke alarms.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, and Maui Fire Department.

Your Committee finds that smoke alarms that are properly installed and maintained play a vital role in reducing fire deaths and injuries. In the event of a fire, smoke spreads quickly and smoke alarms maximize occupants' chance of escape. Your Committee believes that requiring residential buildings be sold with installed, functioning smoke detectors benefits public safety. This measure will reduce casualties from residential fire by requiring sellers of residential real property to provide working smoke alarms in the building.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 449 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2051 Judiciary on S.B. No. 741

The purpose and intent of this measure is to:

- (1) Require an elector to vote for the candidates whose names appeared on the presidential general election ballot and who are of the political party or group they represent and invalidate an elector's vote for failure to vote accordingly; and
- (2) Require an alternate to vote in place of the original elector if the original elector fails to vote for the proper candidate.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, and one individual.

Your Committee finds that the formalities of presidential and vice-presidential selection under the United States Constitution have revolved around the electoral college. Despite this formal constancy, the realities of the selection process have changed dramatically over the years, to the point that the electoral college actually functions in a way that could hardly have been imagined by those who promulgated the constitutional provisions. The dissonance between formality and reality has opened room for what are called "faithless electors," members of the electoral college who vote for candidates for president or vice president other than those for whom the popular electoral majority assumed it was casting its votes for. Faithless electors hold the potential for serious damage to the democratic processes. This measure renders a vote by a faithless elector invalid thereby establishing a safeguard from electors who seek to subvert the will of the people.

Your Committee has amended this measure by:

- (1) Clarifying that if an alternate elector fails to vote for the candidates whose names appeared on the presidential general election ballot and who are of the political party or group which the alternate elector represents the alternate elector's vote shall be invalidated; and
- (2) Providing for a definition for "mentally disabled."

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 741, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2052 (Majority) Judiciary on S.B. No. 448

The purpose and intent of this measure is to repeal certain laws prohibiting counties from adopting residential fire sprinkler codes.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Maui Fire Department, and Hawai'i Fire Department. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii, Hawaii Council of Community Associations, and Complete Construction Services Corporation.

Your Committee finds that automatic fire sprinkler systems have proven to be effective in saving lives and property from fire. Death rates and property loss are substantially reduced when these systems are installed and properly maintained. However, section 46-19.8, Hawaii Revised Statutes, and Act 53, Session Laws of Hawaii 2017, prevent counties from adopting residential fire sprinkler codes. Your Committee believes that the State should not forbid counties from enacting fire safety requirements that could ultimately save lives. This measure will allow counties to regulate the installation of residential fire protection sprinkler systems.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 448, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 448, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Gabbard, Kim). Noes, 1 (Fevella). Excused, 1 (Lee).

SCRep. 2053 Judiciary on S.B. No. 665

The purpose and intent of this measure is to:

- (1) Establish that knowingly or intentionally providing false information concerning the name or address of a person paying for a campaign advertisement is a class C felony;
- (2) Repeal certain exemptions from criminal prosecution for campaign finance violations;
- (3) Repeal certain state of mind prerequisites with respect to the Campaign Spending Commission's referral of complaints for criminal prosecution;
- (4) Increase from four years to ten years the period from which a person convicted for a criminal violation of campaign finance law shall be disqualified from holding elective office; and
- (5) Establish that the exercise of enforcement authority by the Attorney General or Prosecuting Attorney may be the basis for prosecution of campaign finance law violations.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Common Cause Hawaii, and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that an advertisement with a false disclaimer was published in the 2020 elections. Election advertisements, with their abilities to influence the public's vote, need to disclose truthfully and honestly the person who is underwriting the advertisement for full transparency in the electoral process. This measure will make the false reporting of the name and address of the person paying for the advertisement a felony, to deter that conduct.

Your Committee has amended this measure by:

- (1) Specifying that for each advertisement that contains false information about the time, place, or means of voting, there will be a fine of \$25 or less, not to exceed an aggregate amount of \$5,000; and
- (2) Clarifying that the Campaign Spending Commission may refer a complaint to the Attorney General or County Prosecutor at any time it believes the respondent may have recklessly, knowingly, or intentionally committed a campaign finance law violation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2054 Judiciary on S.B. No. 204

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use in-lieu fee mitigation to restore, create, enhance, preserve, or any combination thereof aquatic habitats or resources as compensatory mitigation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that aquatic in-lieu fee mitigation is an effective mechanism to restore, create, enhance, and preserve aquatic habitats or resources to recover the ecological functions, services, and values of aquatic resources that are lost or anticipated to be lost due to adverse impacts to other similar aquatic habitats. Aquatic in-lieu fee mitigation is widely used across the United States to achieve ecologically valuable conservation. This measure will provide the Department of Land and Natural Resources with an innovative mechanism to improve state stewardship of aquatic public trust resources and habitats, increase accountability for aquatic resource damage, and provide higher quality remediation to make damaged resources whole again.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 204, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2055 Judiciary on S.B. No. 1141

The purpose and intent of this measure is to amend the hearing and vision program statute to increase the early identification of children with hearing or vision loss by establishing consistent protocols for hearing and vision screening and follow-up, screener training, and data collection for quality improvement.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Early Learning, State Council on Developmental Disabilities, Early Childhood Action Strategy, Kaiser Permanente Hawaii, Rainbow Family 808, and one individual.

Your Committee finds that the early identification of hearing and vision loss, with appropriate follow-up services, is critical for the development of children's language and communication skills needed for learning in school. The Department of Health operated a hearing and vision program for school children from 1978 to 1995, but the program ended due to budget reductions and with the assumption that primary care providers would provide the hearing and vision screening. Currently, primary care providers and community programs lack consistency regarding protocols for hearing and vision screening and follow-up; screeners vary in their training and skills for conducting screenings; and there is no uniform data collection for quality improvement. This measure improves hearing and vision screening for children in the State by establishing consistent protocols for screenings and comprehensive data collecting and reporting.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2056 Judiciary on S.B. No. 570

The purpose and intent of this measure is to amend the definition of “historic property” under the Historic Preservation laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai‘i Foundation, Building Industry Association of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Sierra Club of Hawai‘i, Society for Hawaiian Archaeology, Our Revolution Hawaii, and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the current definition for “historic property” merely considers the property’s age of construction, which is not equivalent to its historic importance. Your Committee further finds that this definition is overly inclusive and has created a backlog of reviews for properties. This measure will allow state and county agencies and the Department of Land and Natural Resources to focus efforts on properties of greater historic significance rather than attend to all properties that are merely old.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 570, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 570, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Lee).

SCRep. 2057 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2056

The purpose and intent of this measure is to:

- (1) Require the Office of Planning and Sustainable Development to conduct a study of the suitability of the Land Study Bureau soil overall (master) productivity rating system in the regulation of agricultural lands in the State and make recommendations for the use of soil classification systems for agricultural land use regulation; and
- (2) Appropriate funding for the study.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, Hawaii State Energy Office, and the University of Hawai‘i System. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the State has not completed a comprehensive soil study or completed a sufficient agricultural soil mapping in over fifty years. The first and only statewide soil mapping, classification, and characterization study was conducted by the Land Study Bureau of the University of Hawaii from 1965 to 1972. As the Land Study Bureau classification system reflects the agricultural activities of plantation sugar cane and pineapple production prevalent at the time of the study, the data does not accurately reflect the current conditions of soil in the State.

To meet key state food sustainability goals, an accurate, updated soil dataset must be collected to reflect soil characteristics, soil properties, and soil suitability for various purposes, including optimization for public and private investments in Hawaii’s agriculture. This measure will allow the Office of Planning and Sustainable Development to conduct a study of the suitability of the Land Study Bureau soil overall (master) productivity rating system and other soil classification systems that govern regulations of agricultural lands in the State and report findings and recommendations for the use of soil classification systems for agricultural land use.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2056 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2058 Water and Land on S.B. No. 2626

The purpose and intent of this measure is to appropriate funds for the Department of Land and Natural Resources Division of Forestry and Wildlife Maui Branch to purchase new vehicles.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Maui County Council, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Land and Natural Resources possesses an aging fleet of vehicles necessary for the navigation of difficult terrain, especially in areas across West Maui. The vehicle fleet is essential for the Department of Land and Natural Resources to perform its duties and responsibilities safely and efficiently in areas with difficult terrain. This measure will appropriate funds to the Department of Land and Natural Resources to purchase new vehicles to effectively carry out duties and responsibilities in Maui.

Your Committee has amended this measure by:

- (1) Appropriating funds for the Department of Land and Natural Resources Division of State Parks, Maui Parks Section, rather than the Department of Land and Natural Resources Division of Forestry and Wildlife, Maui Branch, to purchase new vehicles; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2626, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2059 Water and Land on S.B. No. 2659

The purpose and intent of this measure is to appropriate funds to the Division of Conservation and Resource Enforcement for purchasing equipment, funding training, and establishing twenty full-time equivalent positions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kua'āina Ulu 'Auamo, Mālama Pūpūkeka-Waimea, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources has a broad mandate that includes wildlife protection, resource conservation, boating and fishing enforcement, and maritime patrols. As Conservation and Resources Enforcement officers engage in maritime search and rescue efforts, conduct vessel inspections to detect and deter criminal activity, and investigate and police the harassment and harm of endangered and federally protected species, there is a need to ensure the Division is able to fulfill all aspects of its mandate in all counties.

This measure will appropriate funds to the Division of Conservation and Resources to purchase equipment, fund training, and establish twenty full-time equivalent (20.0 FTE) positions within the Division.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2060 Water and Land on S.B. No. 2760

The purpose and intent of this measure is to appropriate funds for the establishment of a permanent full-time equivalent land and access specialist position and a permanent full-time equivalent abstractor position to adequately address the Nā Ala Hele program's needs regarding statewide public trail access.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii Statewide Trail and Access Program, known as Nā Ala Hele, was established in 1988 in response to public concern about the loss of public access to certain trails and the threat to historic trails from development pressure. Many of Hawaii's most popular trails are listed in guidebooks and increasingly publicized on social media, which involve trespassing on private property. In areas lacking public access to trails, challenges arise from safety, landowner liability, and public access. Therefore, your Committee finds that greater resources are needed to balance the interests of public access to and protection of Hawaii's trails.

This measure establishes a land and access specialist position and abstractor position to address the Na Ala Hele program needs regarding the expansion, access, and protection of public trail access statewide.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount for the land and access specialist and abstractor positions;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2760, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2760, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2061 (Joint) Health and Agriculture and Environment on S.B. No. 2172

The purpose and intent of this measure is to:

- (1) Prohibit the department of health from issuing new permits for underground fuel storage tanks within one— half mile from the outer edge of an aquifer;

- (2) Prohibit the renewal of permits for underground fuel storage tanks within one-half mile from the outer edge of an aquifer, beginning January 1, 2050; and
- (3) Create a new definition for “underground fuel storage tanks” to include tanks with a capacity at or greater than one hundred gallons.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; City and County of Honolulu Board of Water Supply; one member of the Hawai‘i County Council; Sierra Club of Hawai‘i; Hawaii State Teachers Association; Hawai‘i Public Health Institute; Honolulu Youth Commission; Faith Action for Community Equity; Environmental Caucus of the Democratic Party of Hawai‘i; Americans for Democratic Action Hawai‘i; Hawai‘i Peace and Justice; Council for Native Hawaiian Advancement; Earthjustice; Hawai‘i Food+ Policy; 350 Hawai‘i; Hawai‘i Alliance for Progressive Action; Hawai‘i SEED; Hawai‘i Workers Center; Hawai‘i Youth Climate Coalition; Honolulu County Republican Party; Livable Honolulu; Native Hawaiian & Pacific Islander Hawai‘i COVID-19 Response, Recovery, and Resilience; Protect Kaho‘olawe ‘Ohana; Papa Ola Lōkahi; Puakalehua Early Learning Consortium; Surfrider Foundation Hawai‘i Region; Hawai‘i Alliance for Community-Based Economic Development; Ke One O Kākuhihewa; Ko‘olauloa Hawaiian Civic Club; Kanaeokana Network; Lahui Foundation; Moanalua Gardens Foundation; Windward Coalition; and two hundred eighty individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Health, City and County of Honolulu Department of Transportation Services, City and County of Honolulu Department of Facility Maintenance, Hawaii Petroleum Marketers Association, Hawaii Military Affairs Council, and three individuals.

Your Committees find that underground storage tanks containing fuel and their related plumbing have a significant risk of leaking and contaminating potable drinking water aquifers. In December 2021, the United States Navy confirmed that the Red Hill Bulk Fuel Storage Facility on Oahu leaked petroleum into the Navy’s water system. This measure mitigates that risk by prohibiting the installation or continuance of underground fuel storage tanks within one-half mile of the outer edge of aquifers.

Your Committees heard testimony from the Honolulu Board of Water Supply and Sierra Club, which noted that the measure as currently drafted could have unintended consequences by unnecessarily limiting viable sites for above-ground storage tanks and adversely impacting underground storage tank operators that pose little risk of contamination. Your Committees also heard concerns that the measure, as drafted, could be read as legislation targeting specific federal facilities, namely the Red Hill Bulk Fuel Storage Facility, which would subject it to federal preemption. Your Committees note that this measure does not target the Red Hill Bulk Fuel Storage Facility, but rather is intended to apply to any underground storage tank that threatens to leak fuel into the State’s aquifer system of freshwater supply.

Therefore, your Committees have amended this measure by:

- (1) Amending the preamble to reflect the following changes including deleting references to any particular underground fuel storage facility to accurately reflect the purpose of this measure;
- (2) Amending the prohibited area in which a person can operate an underground fuel storage tank from within one-half mile of the outer edge of an aquifer to mauka of the underground injection control line as recommended by the Department of Health;
- (3) Removing the Department of Health’s authority to issue a permit for replacing an underground fuel storage tank within the prohibited area after July 1, 2022, and instead authorize the Department of Health to issue permits to remove such underground fuel storage tanks;
- (4) Amending the date by which any person is prohibited from operating an underground fuel storage tank in the prohibited area from January 1, 2050 to January 1, 2023;
- (5) Amending the definition of “underground fuel storage tank”;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2172, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2172, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2062 Education on S.B. No. 2334

The purpose and intent of this measure is to:

- (1) Require the Board of Education to hold a minimum of six community forums annually, with at least one forum being held in each county;
- (2) Require the Board of Education to include an open forum on non-agenda items at the conclusion of the regular meeting agenda for any public meeting properly noticed by the board; provided that matters to be discussed during the open forum are within the board’s purview; and
- (3) Require the Board of Education to report to the Legislature on the implementation of open forums.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the development and implementation of policy in public schools benefits from public input. Your Committee further finds that parents are entitled to have the opportunity to comment on important matters concerning the education of their children. Your Committee notes the testimony of the Office of Information Practices, which commented that this measure creates a permitted interaction for holding a community forum that is an improvement over the existing statutory language. Accordingly, your Committee finds that this measure will increase engagement and transparency by providing more opportunities for public input in the policy-making process for public schools.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2334, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2063 Education on S.B. No. 2188

The purpose and intent of this measure is to establish a workforce readiness program within the Department of Education's Community School for Adults program.

Your Committee received testimony in support of this measure from the Department of Education, McKinley Community School for Adults, Waipahu Community School for Adults, Chamber of Commerce Hawaii, and fourteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that students in the State would benefit from increased opportunities to access workforce readiness training. Your Committee further finds that effective workforce readiness training requires collaboration among administrators, educators, and employers. Accordingly, your Committee finds that the workforce readiness preparation provided by this measure will help students across the State in transitioning from the classroom to the workforce by offering training, credentialing, and industry connections.

Your Committee has amended this measure by inserting a blank appropriation amount.

Your Committee notes that the estimated appropriation required for this measure is \$200,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2188, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2064 Education on S.B. No. 2824

The purpose and intent of this measure is to amend the minimum qualifications for members of the Board of Education to:

- (1) Require more industry and workforce relevant experience; and
- (2) Clarify that the Board of Education's best practices should align with those of organizations such as the National Association of State Boards of Education (NASBE), to the fullest extent practicable.

Your Committee received testimony in support of this measure from HawaiiKidsCAN, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the field of education is changing rapidly to meet the needs of the local and global workforce and communities. In order to bolster Hawaii's economy and stem the local brain drain of talent leaving the State, your Committee understands that it is important for Hawaii's students to attain quality work-based learning opportunities and connections to local employers prior to graduation.

Your Committee finds that the Board of Education serves an important policy-making function for the Hawaii education system. As schools expand their career readiness programs and partnerships with employers, the board will need to have a comprehensive understanding of policy related to these areas. Your Committee further finds that the NASBE recommends, among other things, that board members represent all students and families, maintain student achievement as a north star, view all decisions through an equity lens, make clear decisions, and remain future-oriented.

Accordingly, your Committee finds that Hawaii's education system will benefit from a greater diversity of backgrounds, expertise, and perspectives on the Board of Education, and that individuals serving on the board should conduct themselves in accordance with best practices from expert organizations, such as NASBE. Your Committee further finds that amending the qualifications as proposed by this measure will diversify the composition of the Board of Education and help bring an industry and workforce perspective to the development and implementation of education policy in public schools in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2824, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2824, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2065 Health on S.B. No. 2032

The purpose and intent of this measure is to establish the Hawaii Genetic Information Privacy Act (Privacy Act), which:

- (1) Requires direct—to—consumer genetic testing companies to adhere to certain requirements pertaining to its collection, use, and disclosure of genetic data;
- (2) Establishes fines for violations of the Privacy Act;
- (3) Allows the Executive Director of the Office of Consumer Protection, by and through the Attorney General, to bring civil action against violators on behalf of the State or consumers for injunctions, collection of civil penalties, and recovery damages; and
- (4) Allows the State to recover the costs of suit and reasonable attorneys' fees for violations of the Privacy Act.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the number of companies offering direct—to—consumer genetic tests, such as ancestry tests, at—home genetic tests, and genealogy tests, has been growing. These direct—to—consumer genetic tests provide consumers with direct access to their genetic information without the involvement of health care providers and health plans. The federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) established national standards to protect an individual's medical records and other personal health information, including genetic information. However, HIPAA applies only to health plans, health care clearinghouses, and certain health care providers; it does not apply to direct—to—consumer genetic testing companies. Currently, Hawaii law does not provide adequate guidelines for the use of genetic data collected by companies outside of the protective ambit of state and federal health privacy laws. This measure fills this gap by creating the Hawaii Genetic Information Privacy Act.

Your Committee acknowledges the testimony of the Department of Commerce and Consumer Affairs, which notes that the penalty and enforcement provisions of the Privacy Act can be better accomplished by incorporating the already existing penalty and enforcement provisions in statute.

Therefore, your Committee has amended this measure by:

- (1) Deleting sections five and six of the Privacy Act and replacing them with a new provision that deems any violation of the Privacy Act to be an unfair or deceptive act or practice in the conduct of any trade or commerce within the meaning of section 480-2, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2032, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2032, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2066 Health on S.B. No. 2132

The purpose and intent of this measure is to restore ninety—nine positions to the Department of Health's Adult Mental Health Division and appropriate funds to fill those positions.

Your Committee received testimony in support of this measure from the Department of Health, Judiciary, and Hawai'i Health & Harm Reduction Center. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, due to the economic effects of the coronavirus disease 2019 pandemic, the State was required to reduce staff statewide. The Department of Health's Adult Mental Health Division (Division) saw an eleven percent reduction of its staff. This loss of staff has limited the Division's ability to provide critical services for individuals living with serious mental illness. Your Committee finds that given the State's positive economic outlook, these critical positions should be restored so that essential mental health services can be provided.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2132, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2067 Health on S.B. No. 2276

The purpose and intent of this measure is to make comprehensive updates to chapter 436E, Hawaii Revised Statutes, regarding acupuncture practitioners to reflect modernized scopes of practice, titles, and licensing and renewal requirements, including thirty hours of continuing education per licensing biennium.

Your Committee received testimony in support of this measure from the Board of Acupuncture; Hawaii Acupuncture Association; Longevity Health Center Ltd.; AcuPlan Hawaii; Institute of Clinical Acupuncture and Oriental Medicine, Inc.; and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association, American Academy of Medical Acupuncture, and five individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that existing law regulating acupuncturists and the acupuncture profession have not been updated in over twenty years. Since that time, standards in national certifications and accredited education programs for acupuncture have evolved. This measure makes comprehensive updates to the State's acupuncture licensing law to reflect modernized scopes of practice, titles, and licensing and renewal requirements.

Your Committee acknowledges the testimony of the Board of Acupuncture (Board), which noted that the measure's current implementation date of January 1, 2023, does not provide the Board or the Department of Commerce and Consumer Affairs sufficient time to prepare for the new requirements. Your Committee also acknowledges the Board's concerns that the amendments to the Board's powers are unclear and that the added provisions are better left to administrative rulemaking.

Therefore, your Committee has amended this measure by:

- (1) Moving this measure's implementation date from January 1, 2023, to July 1, 2023;
- (2) Deleting section 9 of this measure, which amends the Board's powers and duties;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2276, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2068 Health on S.B. No. 3120

The purpose and intent of this measure is to remove the spending ceiling of the Office of Healthcare Assurance Special Fund to meet expanding program needs and diminish dependence on appropriations from the general fund.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments to this measure from the Tax Foundation of Hawaii.

Your Committee finds that section 321-1.4, Hawaii Revised Statutes, establishes the Office of Healthcare Assurance Special Fund. The money in the fund is to be used for, among other things, educational program expenses, public health outreach efforts, community development, and administering the durable medical equipment supplier license program. Currently, there is a \$327,000 spending cap on the special fund and any amount more than \$387,500 in the fund on June 30 of each year, must be deposited into the general fund. The Department of Health and Office of Healthcare Assurance has found the spending cap to be unrealistic, as the costs of the program often exceed the spending cap and must therefore be supplemented by appropriations from the general fund. This measure removes the spending ceiling of the special fund and the requirement that money from the special fund be deposited into the general fund.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3120, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2069 Health on S.B. No. 3123

The purpose and intent of this measure is to increase the marriage license fee to support the Hawaii Birth Defects Program, fund the modernization of the vital statistics system, and more fairly compensate marriage license agents.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that currently, the marriage license fee is \$60. Approximately sixty percent of marriage licenses were issued to non-residents. Of the \$60 collected, no portion is allocated to maintaining the statewide marriage license registration system. This system is over twenty years old and needs to be modernized. Your Committee further finds that the purpose of the Hawaii Birth Defects Program (Program) is to collect, analyze, and report data on birth defects and other adverse reproductive outcomes in the State. The Program's staff salaries and expenses have doubled from 2002 to 2021. Furthermore, marriage license fees also support two special funds benefiting victims of spousal and child abuse. Finally, a portion of the marriage license fees are allocated to marriage license agents, whose fees have remained the same since 1998. This measure, which increases the marriage license fee, will fund the modernization of the State's vital statistics system, fund the Hawaii Birth Defects Program and two spousal and child abuse funds, and more fairly compensate marriage license agents.

Your Committee has amended this measure by:

- (1) Inserting blank fee amounts; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3123, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3123, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki, San Buenaventura, Fevella). Noes, none. Excused, none.

SCRep. 2070 Health on S.B. No. 3114

The purpose and intent of this measure is to repeal fees related to obtaining a license to solemnize civil marriage ceremonies to assure equity among religious, judicial, and civil performers.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that prior to the enactment of Act 211, Session Laws of Hawaii 2021 (Act 211), which authorizes the issuance of civil licenses to solemnize marriages, only individuals with religious affiliations or judicial appointments could obtain a license to solemnize marriages. Act 211 authorizes non-religious and non-judicial performers to solemnize marriages; however, it imposes a fee for civil licenses where none for religious and judicial licenses exists. Such a discrepancy could expose the State to liability for claims that the State is discriminating on the basis of religion. This measure creates equity among religious, judicial, and civil performers of marriage solemnization by eliminating the fee for civil licenses.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3114, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3114, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2071 Health on S.B. No. 2241

The purpose and intent of this measure is to:

- (1) Permit minors to consent to medical care related to the diagnosis or treatment of Human Immunodeficiency Virus (HIV) or the prevention of HIV;
- (2) Provide that a minor, under certain circumstances, shall not be liable for payment for treatment or prevention of HIV; and
- (3) Authorize physician assistants, in addition to physicians and advanced practice registered nurses, to render medical care and services to minors.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Health & Harm Reduction Center, Stonewall Caucus for the Democratic Party of Hawai'i, Hawaii Youth Services Network, Kaiser Permanente Hawaii, and six individuals.

Your Committee finds that existing law allows a minor to receive services related to sexual health, but does not allow a minor to access medications to prevent HIV. Minors who are at risk for HIV are often unwilling or unable to talk to their parents about their risk behaviors. Further, minors may avoid seeking care for sexually transmitted disease if they must involve their parents or guardian. This measure allows minors age fourteen to seventeen to obtain treatment for sexually transmitted disease without parent or guardian involvement.

Your Committee notes the concerns of the Hawai'i Health & Harm Reduction Center, which testified that the measure should also ensure that if a minor accesses HIV prevention and treatment that is covered by a parent or guardian's health plan, the health plan should not disclose to the parent or guardian that the minor sought treatment.

Accordingly, your Committee has amended this measure by:

- (1) Prohibiting health plans of the parents or guardians of minors, which cover the minor's treatment or prevention of HIV, from notifying the parents or guardians that the minor sought HIV treatment or prevention;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2241, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2241, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2072 Ways and Means on S.B. No. 118

The purpose and intent of this measure is to amend the law relating to the state budget.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by replacing its contents with language that repeals provisions that exempt certain special funds from the requirement that each special fund pay a pro rata share of the administrative expenses incurred by the department responsible for operations supported by that special fund.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 118, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 118, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 2 (Misalucha, Shimabukuro).

SCRep. 2073 Water and Land on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Increase the percentage of the Land Conservation Fund that may be used for costs related to the operation, maintenance, and management of lands acquired by the fund;
- (2) Increase the maximum dollar amount of the conveyance tax distribution to the Land Conservation Fund; and
- (3) Appropriate funds from the Land Conservation Fund for the resource land acquisition.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Ke Ao Hali'i, Sierra Club Maui, Ma'alaea Village Association, Livable Hawaii Kai Hui, and two individuals. Your Committee received testimony in opposition to this measure from Hawai'i Association of REALTORS. Your Committee received comments on this measure from Hawai'i Land Trust, The Nature Conservancy, and The Trust for Public Land.

Your Committee finds that previous caps on the conveyance tax reduced Land Conservation Fund revenues. However, recent escalation in real estate market values has eroded the buying power of the Land Conservation Fund relative to its inception. Various heritage, recreational, biological, and cultural sites and lands across the State have been supported through contributions and key resources from the Land Conservation Fund. This measure will continue to support many cultural and recreational lands across the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2074 Water and Land on S.B. No. 3027

The purpose and intent of this measure is to include in the State's policies for the physical environment under the Hawaii State Planning Act, the development of a statewide beach assessment study and a restoration and conservation plan.

Your Committee received comments on this measure from the Department of Land and Natural Resources and University of Hawai'i System.

Your Committee finds that shoreline erosion is a growing issue due to climate change impacts. Current trends of significant shoreline erosion stem from historical erosion mapping projects regularly updated by the Department of Land and Natural Resources since 2011. Other programs such as the Climate Resiliency Initiative at the University of Hawaii at Manoa focuses on various projects related to climate change impacts, such as shoreline erosion. To address growing concerns of climate change impacts on shoreline erosion, this measure includes in the State's policies, under the Hawaii State Planning Act, the development of a statewide beach assessment study and a restoration and conservation plan to protect Hawaii's shorelines.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2075 Water and Land on S.B. No. 3330

The purpose and intent of this measure is to require the Department of Land and Natural Resources to establish and conduct the Pupukea Marine Life Conservation District carrying capacity pilot program and appropriate funds for the program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Mālama Pūpūkea-Waimea, Kua'āina Ulu 'Auamo, Hawaii Reef and Ocean Coalition, Hi'ipaka LLC, Center for Biological Diversity, Friends of

Hanauma Bay, and eighteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Pupukea Marine Life Conservation District, a one hundred-acre marine life reserve, is one of only three state-designated marine life conservation districts on the island of Oahu; the other two districts are Hanauma Bay and Waikiki. In contrast to Hanauma Bay, which has many protections ranging from limited foot and vehicle traffic to a reservation system and twice weekly closure requirements, the Pupukea Marine Life Conservation District and the associated Waimea and Pupukea Beach Parks, Kapoo Tidepools, and Shark's Cove areas are accessible from multiple locations along the shoreline and adjacent beach parks, every day of the week, all year long. The results of unlimited human access to sensitive areas of the Pupukea Marine Life Conservation District include but are not limited to: trampling of marine life, damage to the marine habitat, damage to coral, harassment and touching of marine life, disrespect to cultural norms, and increased pollution.

This measure will require the Department of Land and Natural Resources to establish and conduct the Pupukea Marine Life Conservation District carrying capacity pilot program to ensure proper management of this important resource.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3330, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3330, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2076 Human Services on S.B. No. 2919

The purpose and intent of this measure is to require the Department of Human Services to submit a report focused on the health disparities experienced by individuals with disabilities in Hawaii to the Legislature before the Regular Session of 2023.

Your Committee received testimony in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, Full Life, Special Olympics Hawaii, and two individuals.

Your Committee finds that the core mission of public health, which is to improve the health of all populations, is increasingly framed in terms of health disparities or health inequities. Health equity is achieved when all individuals are given the opportunity to optimize their health, and health inequities create disparities in the people's length of life; quality of life; rates of disease, disability, and death; severity of disease; and access to treatment. According to the Center for Disease Control and Prevention (CDC), individuals with a disability face many challenges in achieving optimal health and accessing high-quality health care. However, people with disabilities have largely been unrecognized as a population for public health attention. The CDC also reports that as of 2019, an estimated one in four adults in Hawaii report having a disability, including impairments in mobility, cognition, hearing, vision, ability to live independently, and ability to selfcare. This measure will help the State and lawmakers obtain the necessary information to assess the status of disabled individuals in Hawaii, determine if health inequity exists between the disabled and non-disabled populous, and if so, measures that can be taken to prevent or mitigate the inequity.

Your Committee notes the testimony from the Department of Human Services stating that it will defer this matter to the Department of Health, as it does not have access to population health level information for people with disabilities. Your Committee also acknowledges that the Department of Health, on the other hand, does not have access to information on individuals with disabilities who participate in the Department of Human Services' Division of Vocational Rehabilitation programs or Med-QUEST plans. Your Committee also notes the testimony from the State Council on Developmental Disabilities that it is willing to take on the responsibility of compiling the report required under this measure; provided it will need to contract with outside sources to obtain the necessary information.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the State Council on Developmental Disabilities to submit a report focused on the health disparities experienced by individuals with disabilities in Hawaii to the Legislature, rather than the Department of Human Services;
- (2) Appropriating an unspecified amount of funds to the State Council on Developmental Disabilities to compile and submit the report; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2919, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2919, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2077 Energy, Economic Development, and Tourism on S.B. No. 2283

The purpose and intent of this measure is to:

- (1) Require the Hawaii Natural Energy Institute to:

- (A) Conduct a study to examine the State's ability to advance hydrogen production from local renewable energy resources; and
- (B) Develop the Hawaii Hydrogen Strategic Plan utilizing the results of its study, which shall be reviewed and updated every four years;
- (2) Require a report to the Legislature; and
- (3) Appropriate an unspecified amount of funds for the completion of the study and the development of the Hawaii Hydrogen Strategic Plan.

Your Committee received testimony in support of this measure from the Hawaii Center for Advanced Transportation Technologies; Hawaiian Electric Company, Inc.; Hawaii Gas; Hawaii Clean Power Alliance; Servco Pacific Inc.; Alliance for Automotive Innovators; Ulupono Initiative; Environmental Caucus of the Democratic Party of Hawai'i; and one individual. Your Committee received testimony in opposition of this measure from six individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Hawai'i Natural Energy Institute, Hawaii State Energy Office, and three individuals.

Your Committee finds that hydrogen has the potential to be an integral component of Hawaii's energy system, whether as a carbon-free energy storage mechanism, potential means of providing grid support, or provider of pollution-free fuel for both electricity and transportation. Your Committee further finds that the long-term hydrogen plan developed by this measure should align with the State's existing energy planning goals.

According to testimony from the Hawai'i Natural Energy Institute (HNEI); although it has sufficient funds from its portion of the State Environmental Response, Energy, and Food Security Tax revenues to conduct the study, it needs additional time to complete a report and plan of this magnitude.

Accordingly, your Committee has amended this measure by:

- (1) Delaying the submission deadline for the Hawaii Hydrogen Strategic Plan for one year;
- (2) Inserting language that requires:
 - (A) HNEI to submit an interim progress report to the Legislature no later than twenty days prior to the convening of the regular session of 2023;
 - (B) HNEI to also consult with gas utilities in conducting the study and developing the Hawaii Hydrogen Strategic Plan; and
 - (C) The Hawaii Hydrogen Strategic Plan to align with the existing long-term energy plans of the State;
- (3) Relocating certain actionable considerations of the study to be required in the Hawaii Hydrogen Strategic Plan;
- (4) Removing the appropriation for the completion of the study and the development of the Hawaii Hydrogen Strategic Plan; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2283, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2283, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2078 Energy, Economic Development, and Tourism on S.B. No. 2570

The purpose and intent of this measure is to:

- (1) Rename Hawaii's Electric Vehicle Charging System Rebate Program to the Zero-Emission Vehicle Fueling System Rebate Program; and
- (2) Add the installation and upgrade of hydrogen refueling stations to the Zero-Emission Vehicle Fueling System Rebate Program.

Your Committee received testimony in support of this measure from the Hawaii Center for Advanced Transportation Technologies, Hawaii State Energy Office, Hawaii Gas, Alliance for Automotive Innovation, Ulupono Initiative, and one individual. Your Committee received testimony in opposition of this measure from Climate Protectors Hawai'i and five individuals. Your Committee received comments on this measure from the Public Utilities Commission, Hawai'i Energy, and one individual.

Your Committee finds that incentivizing the installation and upgrade of available electric vehicle charging stations and hydrogen refueling stations is essential to promoting the growth of electric and hydrogen fuel cell vehicle use in the State, which will then lessen the State's reliance on fossil fuels.

According to testimony submitted by Hawai'i Energy, which manages Hawaii's Electric Vehicle Charging System Rebate Program (rebate program), the standard rebate levels for a hydrogen refueling station with an estimated baseline cost of \$2,000,000 range between \$200,000 and \$600,000. Your Committee recognizes that an increase in the spending cap of the rebate program is necessary to continue the expansion of electric vehicle charging systems and support both electric and hydrogen fuel cell incentives.

Your Committee notes that the opposition to this measure was based on the inclusion in the rebate program of hydrogen refueling stations that may possibly store and dispense hydrogen fuel produced with fossil fuels. Your Committee further recognizes that hydrogen that is produced with fossil fuels is not therefore a zero-emissions fuel and its inclusion in the rebate program is contrary to the purpose and intent of this measure.

Accordingly, your Committee has amended this measure by:

- (1) Setting the rebate amount for the installation or upgrade of a hydrogen refueling system at \$200,000;
- (2) Increasing the spending cap of the rebate program from \$500,000 to \$700,000;
- (3) Limiting the rebate to hydrogen refueling systems that do not store and dispense hydrogen fuel that is produced using fossil fuels;
- (4) Renaming the rebate program to the Zero-Emission Vehicle Infrastructure Rebate Program; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee further notes that with the provision to limit the rebate to newly installed or upgraded hydrogen refueling stations that only store and dispense hydrogen fuel that is produced without fossil fuels, the Public Utilities Commission, who administers the rebate program in conjunction with the State Energy Office, may need to develop rules and/or procedures to enforce this provision.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2570, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2570, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2079 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2305

The purpose and intent of this measure is to clarify that the comprehensive offender reentry system provides programs and services that result in the timely release of inmates on parole when the minimum term, rather than the maximum term, has been served by the inmate.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawai'i Correctional System Oversight Commission, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Common Cause Hawaii, and seven individuals.

Your Committee finds that existing sentencing laws provide that the courts are responsible for setting maximum terms of imprisonment in accordance with applicable statutes. The Hawaii Paroling Authority establishes the minimum terms at which point the inmate becomes eligible for release into the community on parole. Additionally, the Department of Public Safety is required to develop and implement comprehensive reentry plans to help each inmate. Comprehensive reentry plans promote community safety by preparing inmates, upon parole eligibility, to make the difficult transition from the highly structured prison setting to life in the community. When offenders are held until their maximum terms expire, they have more difficulty adjusting to life in the community and are not subject to parole supervision. Your Committee believes that this measure will promote public safety by clarifying that programs and services that are part of the comprehensive offender reentry system result in the timely release of inmates on parole when the minimum term, rather than maximum term, has been served.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2080 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2373

The purpose and intent of this measure is to appropriate funds for a program named "Project Reset" which will help prisoners with reentry, rehabilitation, employment, and housing post-sentence.

Your Committee received testimony in support of this measure from the Department of Public Safety, Office of the Public Defender, Chamber of Commerce Hawaii, Hawaii Substance Abuse Coalition, and three individuals. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that inmates who were homeless prior to their arrest as well as those who lost their housing while incarcerated have the best chance of success when released directly into a treatment program. However, not all inmates have access to those resources because there are not enough beds available for every inmate that qualifies for early release to a program. Furthermore, coordinating inmate release to treatment programs has been extremely difficult during the pandemic due to quarantine and social distancing requirements at programs as well as numerous outbreaks at correctional facilities. Some inmates are released from custody with no money, no identification, no housing, no food, no bus pass, and no phone. Due to the lack of comprehensive programs that focus on transitioning inmates through the process of reentry, rehabilitation, employment, and housing, many inmates either immediately join the ranks of the homeless upon release, or shortly thereafter. Your Committee believes that reentry programs are the best weapon the State has to combat recidivism. This measure will assist the State in reducing recidivism rates by creating and funding "Project Reset", a program that will provide comprehensive programs to assist inmates through the process of reentry, rehabilitation, employment, and housing after release.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2373 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2081 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2433

The purpose and intent of this measure is to:

- (1) Encourage inmates to participate in correctional educational programs and vocational training by offering subsidized tuition, housing, and health care benefits to qualifying inmates;
- (2) Increase the quality and quantity of correctional mentorship, counseling, educational, and vocational training programs available to interested inmates; and
- (3) Appropriate funds to expand model programs to include more quality educational and vocational programs and to fund rewards for inmates who participate in correctional education programs while incarcerated.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition, Common Cause Hawaii, Community Alliance on Prisons, and eight individuals. Your Committee received comments on this measure from the Department of Public Safety and Department of Budget and Finance.

Your Committee finds that educational programs in prisons have significant benefits. Studies have shown that individuals who participate in any type of educational program while in prison are forty-three percent less likely to return to prison. Additionally, prisons with college programs have less violence among incarcerated individuals, which creates a safer environment for both incarcerated individuals and prison staff. The significant personal benefits of prison education include increased personal income, lower unemployment, greater political engagement and volunteerism, and improved health outcomes. Your Committee believes that promoting inmate participation in prison educational programs will benefit inmates and the community. This measure will incentivize inmates to participate in educational, vocational, and mentorship programs while incarcerated by appropriating funds for reward programs for inmates who participate in certain model programs and increasing the quality and quantity of programs available to inmates.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2433 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2082 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2532

The purpose and intent of this measure is to establish a working group to reduce recidivism by providing inmates with business and entrepreneurial skills and financial literacy education to establish a foundation for the inmates to succeed after their release from incarceration.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawai'i Correctional System Oversight Commission, Chamber of Commerce Hawaii, Hawaii Substance Abuse Coalition, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that providing education, training, and mentoring for employment once inmates are released from incarceration is proven to reduce recidivism and help inmates get back on their feet. Forty-nine percent of convicted felons return to prison within one year of release. However, inmates who seek and attain education while in prison are forty-three percent less likely to recidivate than those who do not. Your Committee believes that providing inmates the opportunity to receive an education centered around obtaining employment after being released is an effective way to reduce the recidivism rate. This measure will assist the State in providing the necessary support for released inmates by establishing a working group to provide inmates with business and entrepreneurial skills and financial literacy education.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2083 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2637

The purpose and intent of this measure is to

- (1) Mandate that there be a community-based work furlough program for all incarcerated women in the State; and
- (2) Appropriate funds to the Department of Public Safety to extend the contract for community-based work furlough for women and ensure that it is not only continued but expanded to all incarcerated women.

Your Committee received testimony in support of this measure from the Hawai'i Correctional System Oversight Commission, Hawaii Substance Abuse Coalition, Common Cause Hawaii, Community Alliance on Prisons, and seven individuals. Your Committee received comments on this measure from the Department of Public Safety and the Department of Budget and Finance.

Your Committee finds that community-based work furlough programs provide benefits for incarcerated women. Offenders who work for private companies while imprisoned obtain employment more quickly, maintain employment longer, and have lower recidivism rates than those who work in traditional correctional industries or are involved in other-than-work activities. Community-based work furlough programs also provide preparation for handling responsibility outside of the correctional facility, practical and

functional life skills training, and general technical skills knowledge. Your Committee believes that community-based work furlough programs benefit inmates and the community. This measure will allow the State to reduce recidivism by mandating a community-based work furlough program for all incarcerated women and appropriating funds for the Department of Public Safety to extend the contract for existing community-based work furlough programs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2637 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2084 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2639

The purpose and intent of this measure is to require the Offender Reentry Office of the Department of Public Safety to develop and implement a risk needs assessment tool that is specifically intended to assess the needs of female offenders.

Your Committee received testimony in support of this measure from the Hawai'i Correctional Systems Oversight Commission, Women's Prison Project, Hawaii Substance Abuse Coalition, and one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that criminal justice policies, practices, and programs have traditionally been designed for men and applied to women without regard to the unique needs of women. Gender responsive risk and need assessment tools better identify interventions which connect women to programs and treatment to address their needs and reduce recidivism. Additionally, women's pathways to crime differ significantly from those of men, too often beginning in childhood with physical and sexual abuse. Women are far more likely than men to commit crimes related to poverty, such as prostitution and credit card fraud, and drug-related offenses. As women are often the primary caretakers of children, parental issues present unique challenges for impoverished women. Your Committee believes that gender response programs and treatments best address the needs of women. This measure will assist the State in addressing the needs of incarcerated women by requiring the Offender Reentry Office of the Department of Public Safety to develop and implement a risk needs assessment tool that is specifically intended to assess the needs of female offenders.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2639 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2085 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2771

The purpose and intent of this measure is to require the Department of Public Safety to develop and conduct a pretrial female risk and needs assessment tool that considers factors important to women when considering their risk to reoffend and treatment needs.

Your Committee received testimony in support of this measure from the Hawai'i Correctional System Oversight Commission, Women's Prison Project, Hawaii Substance Abuse Coalition, and one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that women's pathways to incarcerations, their risk factors for recidivism, and their rehabilitation needs differ from those of men and are not adequately identified or addressed by assessment tools that were originally developed for males in the justice system. For example, factors that may predict stability for men, such as family relationships, are more complex for women dealing with domestic abuse or caregiving or parenting stress. Furthermore, women's pathways to incarceration overwhelmingly relate to social and economic marginalization. Parenting stress, lack of childcare, and the need as single mothers to support their family are among risk factors and needs not identified in non-gender responsive assessments. This measure will lead to more accurate identification of women's risk factors and needs which will result in more effective interventions and services for women in the state justice system by requiring the Department of Public Safety to develop and conduct a pretrial female risk and needs assessment tool that considers factors important to women when considering their risk to reoffend and treatment needs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2771 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2086 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2774

The purpose and intent of this measure is to provide funding for the Women's Community Correctional Center to further expand reentry planning circles, also known as huikahi circles, which are a part of a reentry planning process shown to decrease recidivism.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, Women's Prison Project, Hawaii Substance Abuse Coalition, and eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that reentry planning by incarcerated people is vital for their successful return to the community and their desisting from crime. Huikahi circles are for incarcerated people who take responsibility for their behavior and want to make amends with harmed loved ones and the community. Huikahi circles have been provided pro bono and with private grants to state prisons. Except for the State's 2021 Governor's Emergency Education Relief grant, the State has never funded the program for adults. Huikahi

circles are healing for children of incarcerated parents and other loved ones and have been shown to reduce recidivism. This measure will assist incarcerated women to transition back into the community and reduce Hawaii's prison population by appropriating funds for the Women's Community Correctional Center to further expand huikahi circles.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2774 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2087 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3137

The purpose and intent of this measure is to clarify that the Department of Public Safety's role is to work with the Department of Transportation and county examiners of drivers to assist inmates in procuring civil identification necessary to transition into the workforce, access social services, and secure housing, rather than to issue civil identification cards.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Human Services, Hawai'i Health & Harm Reduction Center, and six individuals. Your Committee received comments on this measure from the Hawai'i Correctional System Oversight Commission and Common Cause Hawaii.

Your Committee finds that individuals in the State's custody who will soon re-enter the community need valid government-issued identification to support their reentry. Government-issued identification is required to gain employment, obtain housing, and obtain certain necessary prescribed medications. This measure will allow individuals to more easily obtain government-issued identification from the proper government agencies by clarifying that the Department of Public Safety's role is to work with the Department of Transportation and county examiners of drivers to assist inmates in procuring civil identification rather than to issue civil identification cards.

Your Committee has heard the testimony of Common Cause Hawaii expressing concerns that it is unclear as to how this assistance will interface with automatic voter registration. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Judiciary further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3137 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2088 Human Services on S.B. No. 2437

The purpose and intent of this measure is to require the Department of Human Services to establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program that supplements existing statewide services by providing training and other services to neighbor island residents who are blind or visually impaired.

Your Committee received testimony in support of this measure from the National Federation of the Blind of Hawai'i, Hawaii State Committee of Blind Vendors, and seven individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, and one individual.

Your Committee finds that approximately two thousand neighbor island residents who are blind or visually impaired do not have access to or are ineligible for existing state and local support services, including training, adjustments to blindness services, and transportation. The Neighbor Islands Blind and Visually Impaired Service Pilot Program to be established pursuant to this measure will supplement existing statewide services and enable these individuals to receive the necessary training and other services that would enable them to have full and integrated lives in their existing communities.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Human Services shall work with neighbor island transportation service providers and other individuals and entities to develop a special needs transportation assistance service network to serve program participants;
- (2) Defining "neighbor island"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2437, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2089 Judiciary on S.B. No. 2088

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the Career Criminal Prosecution Unit.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that a disproportionate amount of serious crimes are committed by a relatively small number of multiple and repeat felony offenders, commonly known as "career criminals". To address this ongoing problem, the State created the Career Criminal Prosecution Unit, which it originally funded annually. However, the Department of the Prosecuting Attorney of the City and County of Honolulu's Career Criminal Prosecution Unit was periodically scaled back when there was insufficient funding to maintain full staffing. Your Committee believes that money spent on the Career Criminal Prosecution Unit is an efficient use of resources, as it provides citizens with swift and effective justice, reducing heavy caseloads and long court delays. This measure will assist the Department of the Prosecuting Attorney of the City and County of Honolulu in protecting the public from career criminals by appropriating funds for the Career Criminal Prosecution Unit.

Your Committee has amended this measure by inserting an appropriation amount of \$653,360.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2088, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2090 Judiciary on S.B. No. 2087

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu as a grant-in-aid for the Victim Witness Assistance Program.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Legislature has supported the Victim Witness Assistance Program since 1983, and in 1986 enacted section 28-111, Hawaii Revised Statutes, establishing the Victim Witness Assistance Program on a statewide basis. Although this statute established the program in the Department of the Attorney General, all direct services are provided by each county's prosecuting attorney in order to provide the most current information, assistance, funding, and support services to the crime victims and witnesses in their respective counties. Your Committee believes that adequate funding is necessary for the Department of the Prosecuting Attorney of the City and County of Honolulu to be able to continue these vital services. This measure will assist the Department of the Prosecuting Attorney of the City and County of Honolulu by appropriating funds for the Victim Witness Assistance Program.

Your Committee has amended this measure by inserting an appropriation amount of \$371,722.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2087, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2091 Judiciary on S.B. No. 1048

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Criminal Justice Data Center to establish reasonable and necessary fees for all services the Hawaii Criminal Justice Data Center provides through the administrative rulemaking process; and
- (2) Remove the fee waiver that exempts county agencies from paying fees related to employment background checks.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that currently, section 846-10.5(a), Hawaii Revised Statutes, provides set fees for certain services provided by the Criminal Justice Data Center. In 1998, the Legislature amended section 846-10.5(d), Hawaii Revised Statutes, to authorize the Hawaii Criminal Justice Data Center to adopt rules to establish reasonable fees for services provided by the Hawaii Criminal Justice Data Center. This measure would clarify that the Hawaii Criminal Justice Data Center has the authority to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to establish reasonable fees for all services it provides. In addition, your Committee finds that the removal of the county fee exemption for employment background checks will increase the annual revenue collected by the Hawaii Criminal Justice Data Center by approximately \$30,000.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1048, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2092 Water and Land on S.B. No. 2757

The purpose and intent of this measure is to appropriate funding to the Department of Land and Natural Resources State Historic Preservation Division to expedite development of a comprehensive, complete inventory of historic properties and burial sites located across the State and to conduct relevant archaeological surveys necessary to provide further information for the inventory.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Society for Hawaiian Archaeology. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that comprehensive statewide inventories of historic properties and burial sites are critical to managing and protecting historic properties and grave sites across Hawaii. The Department of Land and Natural Resources State Historic Preservation Division has the responsibility of creating and maintaining inventories. However, as the State Historic Preservation Division currently relies on documentation submitted in support of project reviews and expert individuals who contribute new information to existing databases and inventories, and some historic properties and burial sites are also located in restricted areas, maintaining current, accurate knowledge remains a difficult task.

The lack of key information can impact planning processes at points when significant resources have already been expended, or create conflict within communities, causing construction projects to be redesigned or delayed. To provide the public with complete and detailed knowledge of historic properties and burial sites across the State, this measure will appropriate funds to the State Historic Preservation Division to expedite and develop a complete, comprehensive statewide inventory of historic properties and burial sites.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2757, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2093 Water and Land on S.B. No. 3019

The purpose and intent of this measure is to require the Department of Land and Natural Resources to seek and obtain accreditation for the Conservation and Resources Enforcement Program from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Center for Biological Diversity; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Conservation and Resources Enforcement Program of the Department of Land and Natural Resources has many responsibilities that are integral to preserving the public peace and safety for Hawaii's lands and waters. Other law enforcement departments such as the Honolulu and Maui Police Departments are accredited by the Commission on Accreditation for Law Enforcement Agencies, Inc.

However, accreditation requirements were inadvertently repealed in section 8 of Act 183, Session Laws of Hawaii 2021. To provide enforcement officers of the Conservation and Resources Program with proper training and certification, this measure reimplements the requirement for certification of the Department of Land and Natural Resources Conservation and Resources Program and appropriates funds to pursue accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3019, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3019, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2094 Water and Land on S.B. No. 3179

The purpose and intent of this measure is to direct the Department of Land and Natural Resources to establish a feral herd management pilot program under the Division of Forestry and Wildlife to manage axis deer populations in Maui County and appropriates funds to conduct a pilot program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Maui County Council; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Maui County Farm Bureau; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the overpopulation of axis deer poses a significant threat to the ecological security and the health of local communities on several islands in Maui County. Integration of state management efforts and local hunting practices would allow for a

more effective response to axis deer overpopulation, which has become a nuisance and threat to the local communities. To address concerns from the overpopulation of axis deer across Hawaii, this measure will appropriate funds to the Department of Land and Natural Resources Division of Forestry and Wildlife to conduct a pilot program for feral herd management on Maui, Molokai, and Lanai.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3179, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2095 (Majority) Water and Land on S.B. No. 3375

The purpose and intent of this measure is to:

- (1) Repeal requirements for lessees to seek approval for lease extensions from the Board of Land and Natural Resources; and
- (2) Require the Department of Land and Natural Resources to utilize the current tax assessed value for lease extensions.

Your Committee received testimony in support of this measure from HPM Building Supply; Hawai'i Island Chamber of Commerce; Hilo Fish Company; Big Island Toyota, Inc. De Luz Chevrolet; and six individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, League of Women Voters of Hawaii, and six individuals.

Your Committee finds that under existing laws, many public land lessees in the Hilo Community Economic District face uncertain futures following the expiration of their leases. The lengthy application process stalls many lease extensions, as the Board of Land and Natural Resources must approve all modifications and improvements, including minor changes. Despite East Hawaii's role as a major tourism hub, the uncertainty over tenancy and the lack of improvements causes infrastructure to deteriorate and enter into a state of disrepair. This measure amends requirements for lease extension approval to allow the Hilo Community Economic District to develop, revitalize, and flourish.

Your Committee has amended this measure by:

- (1) Substituting the word "department" for "board", where appropriate;
- (2) Clarifying that the Department of Land and Natural Resources shall confirm, rather than consider lease extensions;
- (3) Requiring all applications for an extension of fixed rental periods or lease terms to be made to the Department of Land and Natural Resources within 180 days;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3375, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Keith-Agaran, Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 2096 Energy, Economic Development, and Tourism on S.B. No. 2478

The purpose and intent of this measure is to:

- (1) Create a renewable fuels production tax credit; and
- (2) Clarify the definition of renewable feedstocks as used in the measure to include other renewable organic material, including but not limited to logs, wood chips, wood pellets, and wood bark.

Your Committee received testimony in support of this measure from Hawaii Center for Advanced Transportation Technologies, Hawaii State Energy Office, Hawaii Gas, Hawaii Clean Power Alliance, Alliance for Automotive Innovation, Biotechnology Innovation Organization, Pacific Biodiesel Technologies, and one individual. Your Committee received testimony in opposition of this measure from Life of the Land, Climate Protectors Hawai'i, 350Hawaii.org, and fourteen individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that a renewable fuels production tax credit incentivizes the production of renewable fuels, which facilitates the development and integration of renewable energy systems, diversifies energy technology, enhances energy resiliency, and furthers the realization of Hawaii's renewable energy goals. According to testimony received by your Committee, the production of renewable fuels not only provides local jobs and other economic benefits in the energy and agricultural sectors, but also encourages the production of value-added products and other innovations that support the economic diversification of the State.

Your Committee notes that the addition of renewable fuels produced from renewable organic material, such as logs, wood chips, wood pellets, and wood bark in this measure has fueled most of the testimony in opposition submitted. Your Committee recognizes that several other measures introduced this session specifically seek to exclude trees, wood pellets, and other wood products made for burning from certain biomass sources considered to generate or produce renewable energy, and believes that the primary purpose of this measure to reinstate a renewable fuels production tax credit merits further consideration.

Your Committee further notes that an important feature of this tax credit would prevent taxpayers from utilizing more than one tax benefit on the same expenditure in producing renewable fuels.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that prevents a taxpayer from circumventing the five-year credit period by forming a new entity to qualify for additional credits;
- (2) Adding wastewater to the list of sources from which renewable fuels may be generated or produced;
- (3) Inserting blank amounts for the:
 - (A) Calculation of the annual dollar amount of the renewable fuels production tax credit for a taxpayer producing renewable fuels;
 - (B) Cap on the tax credits that a taxpayer may claim in a taxable year; and
 - (C) Cap on the total tax credits that the Department of Business, Economic Development, and Tourism may certify and the Department of Taxation can issue in a calendar year; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2478, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2097 Energy, Economic Development, and Tourism on S.B. No. 2511

The purpose and intent of this measure is to expand the renewable energy technologies income tax credit to include firm renewable energy systems.

Your Committee received testimony in support of this measure from Hawaiian Electric Company, Inc.; Hawaii Clean Power Alliance; and one individual. Your Committee received testimony in opposition of this measure from Life of the Land, Climate Protectors Hawai'i, 350Hawaii.org, and one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Hawaii State Energy Office, Tax Foundation of Hawaii, and one individual.

Your Committee finds that increased energy efficiency and use of renewable energy resources would increase Hawaii's energy self-sufficiency, energy security, and resistance to increases in oil prices, while achieving broad societal benefits, including environmental sustainability, economic development, and job creation. Your Committee recognizes that the Legislature has provided incentives for intermittent sources of renewable energy, such as solar and wind. According to testimony received by your Committee, firm generation is imperative to operate the electric system and ensure grid reliability and resilience.

Accordingly, your Committee has amended this measure by:

- (1) Specifying:
 - (A) That \$750,000 is the cap amount of the tax credit for each firm renewable energy system;
 - (B) That firm renewable energy systems run on alternating current, instead of direct current;
 - (C) That a firm renewable energy system is a type of renewable energy technology system; and
 - (D) The definition of a firm renewable energy system;
- (2) Preventing a taxpayer from claiming additional tax credits on the costs used to claim the tax credit established in this measure;
- (3) Amending the applicability of the measure to taxable years after December 31, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2511, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2098 Judiciary on S.B. No. 832

The purpose and intent of this measure is to expand the victim-counselor privilege to include confidential advocates employed by the University of Hawai'i.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i State Commission on the Status of Women, Hawai'i State Coalition Against Domestic Violence, Sex Abuse Treatment Center, and nine individuals.

Your Committee finds that pursuant to Act 208, Session Laws of Hawaii 2016, the Legislature requires the University of Hawai'i to designate confidential advocates at each campus to provide confidential advocacy support to victims of sexual harassment, sexual assault, domestic violence, dating violence, and stalking. However, the law does not provide a mechanism to guarantee confidentiality to students and employees seeking services of campus-based advocates. Your Committee believes that absent additional legal protections, victims may be less likely to share information in fear that information may be later subpoenaed for court proceedings against their wishes. This measure expands the victim-counselor privilege by establishing additional legal protections to information that victims share with the University of Hawai'i's confidential advocates to allow victims to share more information in confidence and thereby receive better support from the University of Hawai'i.

Your Committee has amended this measure by:

- (1) Clarifying that the victim has a semiabsolute privilege to refuse or prevent disclosure under the victim counselor privilege;
- (2) Inserting a severability clause;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 832 and recommends that it pass Second Reading in the form attached hereto as S.B. No. 832, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2099 (Majority) Judiciary on S.B. No. 622

The purpose and intent of this measure is to require a court to sentence a person convicted of violating an injunction or restraining order or order of protection during the term of a stay-at-home order imposed by the State or a county in which the violation occurred to a mandatory minimum jail sentence of not less than thirty days and fined not less than \$5,000.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the coronavirus disease 2019 pandemic caused police, courts, and jails to reprioritize their use of personnel and resources. This can be emotionally and physically devastating for individuals with injunctions or temporary restraining orders who are harassed while a "stay-at-home" order is in place. In some cases, these individuals can become a hostage to their harasser with no real-time recourse. This situation essentially equates to an aggravated circumstance that warrants heightened penalties for violations. This measure creates a mandatory penalty to deter harassers from violating stay-at-home orders and to protect their victims.

Your Committee has amended this measure by:

- (1) Specifying that a violation of a temporary restraining order during a stay-at-home order carries a mandatory fine of no less than \$500 and no more than \$3,000;
- (2) Clarifying that a violation of an order for protection, or injunction or restraining order during a stay-at-home order carries a mandatory fine of no less than \$500 and no more than \$3,000;
- (3) Inserting an effective date of July 30, 2025, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 622, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 622, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 2100 Judiciary on S.B. No. 777

The purpose and intent of this measure is to establish the offense of criminal destruction of a tree on state or county property, punishable as a misdemeanor.

Your Committee received testimony in support of this measure from the Department of Transportation, one member of the Honolulu City Council, and Trees for Honolulu's Future. Your Committee received comments on this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that trees are integral tools in tackling the climate crisis. In addition to carbon sequestration, trees reduce ambient temperatures and storm water runoff, calm traffic, and provide human health, psychological, and quality of life benefits. Establishing criminal penalties to apply to destruction of trees would strengthen enforcement capabilities and allow for greater protection, preservation, and enhancement of natural resources, while providing an opportunity for education about the benefits of trees, which may result in impacts beyond issuing penalties.

Your Committee has amended this measure by:

- (1) Applying the intentional or knowing state of mind requirement to the offense of criminal destruction of a tree;
- (2) Specifying that if an arborist is needed to determine the value of the tree, the arborist be certified;
- (3) Requiring that a certified arborist determine the value of the tree only if the value of the tree is being contested;
- (4) Allowing the court to impose any combination of the stipulated penalties, including paying the State or county an amount equal to the replacement value of the tree, paying the State or county an amount equal to the cost to replace to tree, or performing community service;
- (5) Clarifying that any criminal action against a person for the offense of criminal destruction of a tree shall not preclude the State from pursuing civil legal action to recover administrative fines, fees, and costs;
- (6) Excluding State and county employees acting in the scope of employment from liability;
- (7) Inserting an effective date of July 30, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 777, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Lee).

SCRep. 2101 Commerce and Consumer Protection on S.B. No. 2863

The purpose and intent of this measure is to exempt the sale of feminine hygiene products from the general excise tax.

Your Committee received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities, Hawaii Food Industry Association, Health Committee of the Democratic Party of Hawai'i, Stonewall Caucus of the Democratic Party of Hawai'i, Pono Hawai'i Initiative, Ma'i Movement Hawai'i, Alliance for Period Supplies, and eleven individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that feminine hygiene products are a necessary living expense for menstruating people. The general excise tax is typically applied to all goods and services, making it a highly regressive tax system that disproportionately impacts lower income Hawaii consumers. Research has shown that twenty-five percent of women and students have struggled to purchase enough menstrual products. This lack of a basic necessity can force women to stay home from work or school, thereby reducing wages and socio-economic productivity, and can force families to have to choose between purchasing the products they need or purchasing food, putting their health in jeopardy. There are several other products and services that are allowed a general excise tax exemption because of their healthful properties. Because people need menstrual products to stay healthy and avoid risk of infection, removing the burden of the general excise tax on these items will help prevent additional unnecessary medical costs. This measure will further align Hawaii with twenty-three other states that do not charge sales tax on period products.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2863, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2102 Commerce and Consumer Protection on S.B. No. 2423

The purpose and intent of this measure is to update chapter 329, Hawaii Revised Statutes, to clarify who may access information stored in the electronic prescription accountability system.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of Health.

Your Committee finds that, under existing law, certain providers' abilities to access information stored in the electronic prescription accountability system, or more commonly known as the prescription drug monitoring program (program), is authorized only in certain situations. This measure supports the goals of the Hawaii Opioid Initiative by allowing pharmacists to access the program to check for information before dispensing a controlled opioid. This measure will further provide additional checks and balances for Med-Quest and Department of Veterans Affairs staff to ensure appropriate billing for services, prescriptions, and treatment access, and to facilitate compliance with federal law and efforts by the Department of Public Safety to combat the nationwide opioid crisis.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2103 Commerce and Consumer Protection on S.B. No. 2438

The purpose and intent of this measure is to:

- (1) Require that a disclaimer be provided by sellers or providers of emotional support animals, or certificates, identifications, tags, vests, leashes, and harnesses for emotional support animals, that the animal is not a service animal; and
- (2) Establish penalties for violations.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Human Services and Hawaiian Humane Society.

Your Committee finds that service animals are entitled to certain protections under state law and that emotional support animals are not included in the definition of service animals. Frequent misrepresentations that a pet or emotional support animal is a service animal can lead to some businesses becoming skeptical that a service animal is, in fact, a legitimate service animal, which can lead to complications for persons with disabilities that rely on their service animals. This measure will help ensure people are more properly educated with regard to the status of emotional support animals and curb misrepresentations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2438, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2104 Commerce and Consumer Protection on S.B. No. 2011

The purpose and intent of this measure is to require sellers of residential buildings or structures to equip the buildings or structures with approved smoke alarms in accordance with current state or county building or residential codes.

Your Committee received testimony in support of this measure from the State Fire Council, Maui Department of Fire & Public Safety, and Honolulu Fire Department.

Your Committee finds that existing building codes require new or renovated homes to have smoke alarms in and outside of every bedroom and on every level. Smoke alarms are a simple, low cost, and proven solution that can help save lives in residential structures should a fire occur. Extending the requirement to require sellers of existing residential buildings and structures to install smoke alarms can play a vital role in reducing fire deaths and injuries.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2011 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2105 Commerce and Consumer Protection on S.B. No. 2125

The purpose and intent of this measure is to increase the maximum allowable fine for violation of liquor control laws by a licensee from \$2,000 to \$5,000.

Your Committee received testimony in support of this measure from the County of Hawai'i Department of Liquor Control, County of Kaua'i Department of Liquor Control, Free Access Coalition, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association and ABC Stores. Your Committee received comments on this measure from the City and County of Honolulu Liquor Commission.

Your Committee finds that existing fine amounts for violations of liquor control laws have been in effect since 1987. As the liquor industry has continued to evolve, certain licensees can reach the existing \$2,000 maximum fine rather quickly, leaving suspension or revocation of the license as the only remaining option. This measure provides a balanced approach by increasing the maximum penalties to provide additional fining power and allow a greater fine range to grant more leeway before a liquor adjudication board or liquor commission is required to impose the severe penalties of license suspension or revocation.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2125 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2106 Judiciary on S.B. No. 2392

The purpose and intent of this measure is to appropriate funds for the Judiciary to purchase civil legal services for low and moderate income persons.

Your Committee received testimony in support of this measure from the Judiciary, Department of Labor and Industrial Relations, Department of Human Services, Volunteer Legal Services Hawai'i, Legal Aid Society of Hawai'i, Hawaii Justice Foundation, Filipina Advocacy Network, The Legal Clinic, Hawai'i Access to Justice Commission, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that legal services are often prohibitively expensive for low and moderate income persons. Your Committee further finds that a number of non-profit and volunteer organizations exist to provide quality legal services to persons who require services but lack the resources to pay for them. Your Committee additionally finds that, although these organizations generally function on a volunteer basis, they still require funding for operating costs and other expenses. This measure will support these organizations by providing legal services to those in need.

Your Committee has amended this measure by:

- (1) Removing language that refers to specific nonprofit and volunteer organizations in section 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2392, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 2107 Judiciary on S.B. No. 2178

The purpose and intent of this measure is to propose a constitutional amendment to allow individuals who are seventeen years of age but will be eighteen years of age on or before the next state or local general election to vote at the state or local primary election immediately preceding the state or local general election by which the citizen will attain the age of eighteen, and at any co-occurring or intervening special election.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, Green Party of Hawai'i, and six individuals. Your Committee received comments on this measure from Vote16HI and one individual.

Your Committee finds that the age qualification to vote in any federal, state, or local election is eighteen years of age. However, for those individuals whose eighteenth birthday falls between a primary and general election, the current age restriction effectively prevents them from participating in state and local primary elections. Your Committee further finds that the earlier a person begins civic participation, such as voting, the more likely that person is to remain a lifelong active citizen and participant in democracy. This measure will allow young people to vote and continue to vote their entire lives, leading to a strong and vibrant democracy.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2178 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 2108 Judiciary on S.B. No. 2377

The purpose and intent of this measure is to establish a penalty for failure to respond to an inquiry or request during a state tax examination.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee finds that, currently, the Department of Taxation's only remedy against a person for failure to respond or reply to the Department of Taxation's correspondence or inquiry within a timely manner during an official inspection or examination of records is a criminal penalty that is, at times, inappropriately harsh. The Department of Taxation needs tools and resources to help promote taxpayer compliance and efficient tax administration. This measure will provide for a civil penalty rather than only a criminal penalty, which would provide the Department of Taxation with options in penalizing taxpayers for noncompliance.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2377 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Acasio).

SCRep. 2109 Judiciary on S.B. No. 2162

The purpose and intent of this measure is to establish ranked choice voting for special federal elections and special elections of vacant county council seats.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, Green Party of Hawai'i, Pono Hawai'i Initiative, Americans for Democratic Action Hawai'i, FairVote Action, and eleven individuals.

Your Committee finds that numerous candidates often run in special elections for federal or county council offices, which often results in the election of a candidate by a mere plurality of votes. Your Committee recognizes that conducting these elections by ranked choice voting would result in the election of candidates who receive a clear majority of votes, thus eliminating the need for costly and inefficient runoff elections.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2162 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Acasio).

SCRep. 2110 Judiciary on S.B. No. 2663

The purpose and intent of this measure is to change the filing fee schedule for paternity actions by establishing an initial filing fee of \$100 and eliminating fees to file motions.

Your Committee received testimony in support of this measure from the Health Committee of the Democratic Party of Hawai'i and Domestic Violence Action Center.

Your Committee finds that the different filing fee schedules for divorce and paternity actions creates a burdensome and confusing situation for low-income litigants. Although the waiver of initial filing fees for termination of parental right actions, including paternity actions, was intended to reduce the burden on unmarried litigants who may have less ability to pay the initial filing fee, the fees to file subsequent motions still create significant ongoing expense in paternity cases. Eliminating fees to file motions and increasing the initial filing fee in paternity cases to match that of divorce cases will create uniformity in filing fees between divorce and paternity actions, making the courtroom process financially predictable for the litigants, which is particularly important for low-income litigants.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2663 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 2111 Education on S.B. No. 2184

The purpose and intent of this measure is to:

- (1) Establish a digital learning center within the Department of Education; and
- (2) Appropriate funds for the staffing and administration of the center.

Your Committee received testimony in support of this measure from the Department of Education, National Federation of the Blind Hawaii, Hawaii Chamber of Commerce, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that digital learning will continue to be a critical component of education in the twenty-first century. Your Committee further finds that digital learning has the potential to promote the equitable delivery of high-quality educational offerings to students statewide. Your Committee additionally finds that the Department of Education needs a comprehensive and dedicated operation to manage the quality and delivery of digital learning services.

Accordingly, this measure is necessary to promote the equitable delivery of high-quality digital learning tools and services to students statewide.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2184 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2112 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2452

The purpose and intent of this measure is to require the Auditor to conduct a management audit of the Corrections Division of the Department of Public Safety.

Your Committee received comments on this measure from the Office of the Auditor and Department of Public Safety.

Your Committee finds that correctional facilities throughout the State face issues of overcrowding and understaffing, creating threats to the safety and well-being of the corrections officers working in these correctional facilities. Despite this, the most recent studies and reviews of the security staffing needs of each correctional facility were in 1992 and 1996, pursuant to Act 300, Session Laws of Hawaii 1992, and Act 287, Session Laws of Hawaii 1996, respectively. Further, while the Office of the Auditor collected data on correctional facility staffing in 2015 for the purposes of an audit, the office did not complete the audit due to a change in office leadership. This

measure will promote the safety and well-being of the corrections officers working in correctional facilities by requiring the Auditor to conduct a management audit of the Corrections Division of the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2452 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Baker).

SCRep. 2113 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3211

The purpose and intent of this measure is to appropriate funds to the County of Hawaii for the plans, design, and construction of a police substation to serve the Hawaii Ocean View Estates community.

Your Committee received testimony in support of this measure from Aloha Animal Advocates, Ocean View Community Association, and ten individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaiian Ocean View Estates, Hawaii, is one of the fastest-growing subdivisions in the United States. The steep growth in population has corresponded with a rise in crime, with many residents reporting concerns of illegal dumping, abandoned vehicles, property crime, and feral dog attacks. The Hawaii Police Department currently operates out of a police office in the Hawaiian Ocean View Estates subdivision. However, the Hawaii Police Department cannot process or book arrestees at the existing office, and the closest Hawaii Police Department substation capable of booking and processing is located over fourteen miles away in Naalehu. After an arrestee is detained and booked, they are then transported to the Hilo or Kona police stations for holding. The sheer distance between Hawaii Police Department facilities on Hawaii island has resulted in lengthy response times for Hawaii Police Department service in Hawaiian Ocean View Estates. Your Committee believes that the Hawaii Police Department's presence in Hawaiian Ocean View Estates must be expanded to appropriately respond to reports of crime in the area. This measure will assist the State in reducing crime and protecting the residents of Hawaiian Ocean View Estates by appropriating funds to the County of Hawaii for the plans, design, and construction of a police substation to serve the Hawaiian Ocean View Estates community.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3211 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2114 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2616

The purpose and intent of this measure is to require government entities to seek reimbursement for the expenses arising from the search rescue of persons who ignore posted warnings, intentionally leave a hiking trail, enter a prohibited area, or hike on a trail that is closed to the public.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Honolulu Police Department. Your Committee received comments on this measure from the Department of Land and Natural Resources, State Fire Council, Honolulu Fire Department, and Maui Fire Department.

Your Committee finds that the ongoing coronavirus 2019 pandemic has led to a surge of experienced and inexperienced hikers venturing into the outdoors. Occasionally, hikers ignore posted warning signs, intentionally leave a hiking trail, or enter property that is closed to the public. This behavior has vastly proliferated due to social media that now promotes activities and features that are subject to closure or warning signage. When one of these hikers needs to be rescued, it is the State that bears the burden of paying for the costs associated with the search or rescue. Your Committee believes that shifting the cost to hikers who ignore posted warning signs, intentionally leave a hiking trail, or enter property that is closed to the public may act as a deterrent and reduce violations, improve public safety, and mitigate the need for costly and dangerous rescue.

Your Committee has amended this measure by:

- (1) Clarifying that the reimbursable cost applies when a person:
 - (A) Ignores reasonably posted warnings and closures;
 - (B) Leaves a managed and authorized hiking trail and park boundary or enters a closed area or trail on state, county, or private property that is closed to the public and reasonable notice of the closure is posted; or
 - (C) Enters a hiking trail or park that is closed to the public and reasonable notice of the closure is posted; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2616, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2616, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Baker).

SCRep. 2115 (Majority) Hawaiian Affairs on S.B. No. 2607

The purpose and intent of this measure is to authorize the Department of Hawaiian Home Lands to retain independent counsel as needed, whose legal fees are to be paid for by the State.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that when the need arises, the Department of Hawaiian Home Lands should be able to employ or retain an attorney for the purposes of representing the State in litigation, rendering legal counsel to the department, or drafting legal documents. This measure will allow the Department of Hawaiian Home Lands to do so, and provides that all legal fees owed to independent counsel are to be paid by the State.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2607 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Ihara).

SCRep. 2116 (Joint) Hawaiian Affairs and Energy, Economic Development, and Tourism on S.B. No. 3195

The purpose and intent of this measure is to appropriate monies to the Department of Hawaiian Home Lands for the investigation, exploration, and identification of geothermal resources on Hawaiian home lands.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Department of Hawaiian Home Lands, and six individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that geothermal resources may be used for the generation, transmission, or production of electricity and renewable energy resources, including hydrogen. Therefore, this measure appropriates funds to begin investigation, exploration, and identification of geothermal resources.

Your Committees have amended this measure by changing the appropriation amount from \$500,000 to an unspecified amount.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3195, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3195, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3; Ayes with Reservations (Acasio). Noes, none. Excused, 2 (Ihara, Keohokalole).
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

SCRep. 2117 (Majority) Hawaiian Affairs on S.B. No. 2605

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to retain independent legal counsel as needed, whose legal fees are to be paid for by the State.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and three individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that when the need arises, the Department of Hawaiian Home Lands should be able to employ or retain an attorney for the purposes of representing the State in litigation, rendering legal counsel to the department, or drafting legal documents. This measure will allow the Department of Hawaiian Home Lands to do so, and provides that all legal fees owed to independent counsel are to be paid by the State.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Ihara).

SCRep. 2118 Hawaiian Affairs on S.B. No. 3101

The purpose and intent of this measure is to exempt any homestead development for the Department of Hawaiian Home Lands from general excise taxes.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Taxation; Dowling Company, Inc.; and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that lands used by the Department of Hawaiian Home Lands to provide homesteads for native Hawaiians need to be offered at affordable rates when compared to similar developments in Hawaii. Therefore, this measure exempts any homestead development for the Department of Hawaiian Home Lands from general excise taxes.

Your Committee has amended this measure by:

- (1) Clarifying that the exempt homestead developments for native Hawaiians must be on Hawaiian home lands;
- (2) Adding a commensurate use tax exemption in section 238-3, Hawaii Revised Statutes;
- (3) Requiring the Department of Hawaiian Home Lands and the Department of Taxation to adopt administrative rules to implement the tax exemption; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3101, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Ihara).

SCRep. 2119 Human Services on S.B. No. 2857

The purpose and intent of this measure is to establish within the Department of Human Services, a five-year Child Wellness Incentive Pilot Program that pays \$50 to a State Medicaid benefit recipient who is a parent to a child, each time the child completes a well-child examination.

Your Committee received testimony in support of this measure from the Department of Human Services; Hawaii Medical Service Association; Hawaii Association of Health Plans; and American Academy of Pediatrics, Hawaii Chapter. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Family Advocacy Team.

Your Committee finds that well-child examinations, also known as well-child visits, well-care visits, and well-care checkups, allow for comprehensive assessment of a child and the opportunity for further evaluation if abnormalities are detected. High-quality well-child visits can improve children's health, support caregivers' behaviors to promote their children's health, and prevent injury and harm. Your Committee also finds that when children receive the recommended number of high-quality visits, they are more likely to be up-to-date on immunizations, have developmental concerns recognized early, and are less likely to visit the emergency department. The five-year child wellness incentive pilot program established by this measure will incentivize Medicaid benefit recipients to complete their children's well-child examinations to ensure the health of children in Hawaii.

Your Committee notes the testimony of the Hawaii Medical Service Association, requesting that the rules adopted by the Department of Human Services to implement this measure provide that the Child Wellness Incentive Pilot Program covers children enrolled in the Children's Health Insurance Program and for a "well-child examination" to be deemed complete, the program must receive an Early and Periodic Screening, Diagnostic, and Treatment documentation completed by the examination provider.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$4,516,000;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2857, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2120 Water and Land on S.B. No. 1411

The purpose and intent of this measure is to:

- (1) Define "pre-contact historic property";
- (2) Clarify the Historic Preservation Program to include consultation to counties and public and private agencies involved in historic preservation and the development, publication, and distribution of materials about protections for burials, historic sites, and archaeological resources;
- (3) Amend the composition and duties of the Hawaii Historic Places Review Board to include two experts of traditional Hawaiian culture and tradition;
- (4) Increase civil and administrative fines for certain violations of historic and preservation requirements; and
- (5) Hold violators liable for costs associated with mitigation or restoration measures.

Your Committee received testimony in support of this measure from Hawaii State Aha Moku, Kūpuna Caucus of the Democratic Party of Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from the Society for Hawaiian Archaeology. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that issues ensuring the continued existence of Native Hawaiian traditional and cultural practices is a challenge amidst an influx of construction, development, and modernization. Pre-contact historic properties hold significant historical, cultural, and traditional value that cannot be replicated in a museum. Despite the value of historic properties, some pre-contact historic properties such as heiau, unu, ahu, koa fishing shrines, loko ia fishponds, and other properties are defaced, desecrated, vandalized, or stolen from by persons who act intentionally and willfully, and others who act inadvertently and unknowingly. To ensure the preservation and protection of Native Hawaiian culture and traditions, this measure clarifies responsibilities of the Historic Preservation Program, amends the composition and responsibilities of the Hawaii Historic Places Review Board, and increases civil and administrative fines that adversely impact historic preservation and restoration.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1411, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2121 Water and Land on S.B. No. 2106

The purpose and intent of this measure is to amend the requirements for advertising of concession contracts on public property.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Budget and Fiscal Services and City and County of Honolulu Department of Enterprise Services.

Your Committee finds that government entities often experience difficulties attracting interested and qualified bidders to provide concession services on public property. Concessions remain an important revenue generator for the counties. However, interest and the ability to attract competition has waned due to factors such as the economy and employment. A digital advertisement option may provide relief to the current difficulties attracting and securing concessionaires. To encourage greater interest and competition among bidders for concession services, this measure amends the requirements for the advertising of concession contracts on public property to include newspaper and online advertisements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2106, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2122 Water and Land on S.B. No. 2724

The purpose and intent of this measure is to:

- (1) Require the Office of Planning and Sustainable Development to establish a pilot program to convene a working group to develop a Waikiki adaption and resilience plan to address climate change and sea level impacts in the Waikiki Special District;
- (2) Require a report to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, Honolulu Board of Water Supply, Waikīkī Beach Special Improvement District Association, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Office of Planning and Sustainable Development.

Your Committee finds that Hawaii's vulnerable coastal communities must plan for adapting to and mitigating the impacts of sea level rise, ground-water inundation, coastal erosion, and other adverse impacts of climate change. With comprehensive, feasible, and appropriate actions, and resilience policies, plans, and actions, the State can effectively safeguard critical assets susceptible to sea level rise exposure. In 2020, the State established laws to regulate Hawaii's coastal areas, such as the Coastal Zone Management Act, and Act 16, Session Laws of Hawaii 2020, to address coastal zone management policies to include protection of state beaches and reduction of residential exposure to coastal hazards.

To combat rising sea levels, coastal erosion, and coastal zone management issues arising from climate change impacts, this measure requires the Office of Planning and Sustainable Development to conduct a pilot program to create the Waikiki Adaption and Resilience Plan that addresses impacts of projected climate change and sea level rise.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and

- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2724, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2724, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2123 Water and Land on S.B. No. 2766

The purpose and intent of this measure is to:

- (1) Require the Office of Planning and Sustainable Development to perform a study to refine rural district policies;
- (2) Make recommendations to facilitate the reclassification of lands from the agricultural district to the rural district;
- (3) Require a report to the Legislature; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture and Office of Planning and Sustainable Development. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that marginal agricultural lands in the agricultural land use district are being used for rural lifestyle farms and residences with no farm activity, which increases the cost of land in the agricultural district for bona fide farming operations. The Legislature enacted Act 278, Session Laws of Hawaii 2019, which authorized the Office of Planning and Sustainable Development to conduct a study in consultation with the Department of Planning and Permitting of the City and County of Honolulu, the Real Estate Commission, and the Land Use Commission to utilize rural districts across the State. Distinguishing key differences between rural communities and subsistence farms would allow for greater use of rural districts and better protection of productive agricultural lands.

To enable better protection of productive agricultural lands, this measure requires the Office of Planning and Sustainable Development to perform a study to refine rural district policies and make recommendations to facilitate the reclassification of lands from the agricultural district to the rural district.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2766, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2766, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2124 Water and Land on S.B. No. 2767

The purpose and intent of this measure is to provide funds to the Department of Land and Natural Resources to support the deployment, replacement, and maintenance of fish aggregation devices.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that fish aggregation devices, or FADs, maintained by the Hawaii Institute of Marine Biology provide enhanced fishing opportunities for island fishers, especially by Hawaii's pelagic small boat, non-longline fishers targeting tuna species. Maintenance of the FAD program is labor-intensive as the devices are prone to breaking off and frequently need to be replaced or recovered and re-deployed. The impact of missing FAD or series of FADs to individual fishers can create devastating impacts that lead to less fish for personal or community consumption and increased operational costs to utilize distant FADs.

On average, the cost to replace a missing FAD is \$12,000. To prevent losses to fishers who rely on FADs, this measure will provide the Department of Land and Natural Resources with one-time funding to bring the state FAD program to full capacity.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2767, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2125 Water and Land on S.B. No. 2108

The purpose and intent of this measure is to:

- (1) Increase the term of a concession from fifteen to twenty-five years;
- (2) Broaden requirements to permit all types of entities to be eligible to compete for certain concessions that are exempt from sealed bid requirements; and
- (3) Provide that a county director of parks and recreation shall designate which county parks are environmentally, culturally, historically, or operationally unique for the purpose of determining whether a concession at the park is exempt from sealed bid requirements.

Your Committee received testimony in opposition to this measure from the Palekaiko Beachboys Club.

Your Committee finds that concessions on public properties are granted by sealed top-dollar bids, with limited exceptions. In some instances, concessions may be exempt from bidding requirements because a person or entity offering the most money may not be the best suited or qualified to meet the government's goals to preserve public-owned assets such as parks, or may not be suited or qualified to serve the needs of the public. In addition, requiring concessionaires to bear construction costs pose challenges as concession contracts are valid for fifteen years, making some investors unwilling to make time or improvement efforts because of the short timeframe.

To serve the public's interest in activities located on public properties, this measure exempts certain concessionaires operating on public properties from sealed-bidding requirements and extends terms of leases from fifteen to twenty-five years.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2108, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2126 Health on S.B. No. 2029

The purpose and intent of this measure is to:

- (1) Establish the Parkinson's Disease Research Collection Database (Database) to be administered by the Department of Health;
- (2) Establish within the Department of Health a full-time Parkinson's disease coordinator to implement the Database; and
- (3) Appropriate funds to establish the Parkinson's disease coordinator and for other operating expenses.

Your Committee received testimony in support of this measure from the Executive Office of Aging; Hawai'i Parkinson Association, Inc.; and The Michael J. Fox Foundation for Parkinson's Research. Your Committee received comments on this measure from the Department of Health and Office of Information Practices.

Your Committee finds that little is known about how Parkinson's disease is distributed among different population groups in the State and whether the patterns of the disease are changing over time. However, the direct and indirect costs to care for the over five thousand people living with Parkinson's disease in Hawaii is approximately \$250 million per year. Finding new treatments, and ultimately a cure would save tens of millions of dollars each year. Establishing a centralized database for incidences of Parkinson's disease in the State would help identify high-risk groups, support patient contact studies, and serve as a valuable data resource to prevent and optimally manage Parkinson's disease; help researchers study patterns incidence and prevalence of Parkinson's over time; and improve the State's understanding of the link between Parkinson's disease and external factors such as pesticide use and military service. This measure establishes the Parkinson's Disease Research Collection Database.

Your Committee heard the testimony of the Office of Information Practices, which noted that the provision relating to information confidentiality in the measure as currently written is ambiguous and offered clarifying language. Your Committee also acknowledges the testimony of the Department of Health, which noted that it has no program or staff focused on Parkinson's disease and would require an appropriation and new positions to implement the systems, governance, and planning required to manage the Database.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the confidentiality requirement applies to individually identifiable information rather than to aggregated statistical information;
- (2) Establishing a full-time Parkinson's disease coordinator within the Department of Health to implement the Database;
- (3) Adding an appropriation of \$165,000 to establish one full-time equivalent (1.0 FTE) permanent civil service Parkinson's disease coordinator and for other operating expenses;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2029, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2127 Health on S.B. No. 2030

The purpose and intent of this measure is to:

- (1) Require a prescriber to offer a prescription of opioid antagonists or other medications under certain circumstances related to opioid overdose;
- (2) Require a prescriber to offer patient education under certain circumstances related to opioid overdose;
- (3) Require a pharmacist who dispenses a prescription order for an opioid to notify the individual of the potential dangers of a high dose of an opioid and to offer to dispense to the individual an opioid antagonist; provided that the individual is prescribed specific opioids at specified doses;
- (4) Exempt pharmacists dispensing to patients in hospice or palliative care and residents of veterans community living centers; and
- (5) Require a pharmacist to notify an individual receiving an opioid antagonist of the availability of generic and brand-name opiate antagonists.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, and one individual. Your Committee received comments on this measure from the Board of Pharmacy, Kaiser Permanente Hawaii, and Animal Policy Group.

Your Committee finds that there is an opioid abuse crisis nationally, including Hawaii. The United States Food and Drug Administration encourages broader dissemination of opioid antagonists to combat this crisis. This measure furthers that goal by requiring prescribers and pharmacists to educate patients about opioid overdose and opioid antagonists, and to offer prescription of opioid antagonists in circumstances relating to opioid overdose.

Your Committee acknowledges the testimony of Kaiser Permanente Hawaii, which notes that primary care has increasingly become a pathway to better care for fighting opioid overdose and requests an exemption for pharmacists from the requirements of the measure when dispensing medication to a patient in an inpatient or outpatient setting. Your Committee also acknowledges the testimony of the Animal Policy Group which raises concerns that while the measure targets opioid use in humans, the measure as written, also includes veterinarians and prescriptions for animals.

Therefore, your Committee has amended this measure by:

- (1) Exempting from the requirements of the measure, pharmacists who dispense a prescription drug to be administered to a patient while the patient is in either an inpatient or outpatient setting;
- (2) Exempting from the requirements of the measure, veterinarians or prescriptions for animals;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2030, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2128 Health on S.B. No. 2033

The purpose and intent of this measure is to require that the dispensing of a pharmacist-prescribed opioid antagonist be reported to the State's Electronic Prescription Accountability System (System).

Your Committee received testimony in support of this measure from the Department of Health and Department of Public Safety. Your Committee received comments on this measure from Kaiser Permanente Hawaii.

Your Committee finds that Act 255, Session Laws of Hawaii 2019, authorized pharmacists to issue prescriptions for opioid-antagonists, thereby increasing access to lifesaving drugs. Although pharmacists are required to report the dispensation of certain controlled substances to the System, they are not required to report opioid antagonist prescriptions. This measure requires pharmacists to report prescriptions for opioid antagonists to the System, providing the Department of Health with valuable data to help prevent opioid overdose.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2033, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2129 Health on S.B. No. 2442

The purpose and intent of this measure is to streamline the records review process for physician assistants by including review of physician assistants' prescriptions for controlled substances.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawaii, Hawai'i Academy of Physician Assistants, Hawaii Medical Board, and twelve individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the State faces a critical physician shortage, with Maui and Hawaii counties having the most severe shortages. The physician shortage has resulted in an increase in physician assistant practice throughout the State. However, Hawaii has some of the most restrictive physician assistant practice in the country. Under existing law, a supervising physician must review all medical records of a physician assistant that contain written orders or prescriptions for controlled substances. Your Committee finds that this is an overly burdensome administrative requirement that can be alleviated without compromising patient care. This measure streamlines the records review process for physician assistants by including review of physician assistants' prescriptions for controlled substances.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2442, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2130 Health on S.B. No. 2445

The purpose and intent of this measure is to expand the authorized scope of practice for physician assistants.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Medical Board, Kaiser Permanente Hawaii, The Queen's Health Systems, Hawai'i Academy of Physician Assistants, Occupational Therapy Association of Hawaii, and thirty individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that the State faces a critical physician shortage, which has resulted in an increase in physician assistant practice throughout the State. Despite the increase in the number of physician assistants, Hawaii has some of the most restrictive physician assistant practice laws in the country, and physician assistants are unable to perform services within their training and education due to these restrictive laws. This measure ensures greater access to health care for Hawaii residents, especially those who reside on the neighbor islands where the need is greatest, by expanding physician assistants' authorized scope of practice.

Your Committee acknowledges the testimony of the Hawai'i Academy of Physician Assistants, which noted that under existing law, physician assistants can sign orders and plans of care for both physical and speech therapies but not for occupational therapy. Authorizing physician assistants to sign occupational therapy orders ensures that patient access to occupational therapy is timely.

Therefore, your Committee has amended this measure by:

- (1) Adding a provision that authorizes physician assistants to sign occupational therapy orders and plans of care;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2445, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2445, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2131 Health on S.B. No. 3125

The purpose and intent of this measure is to make an emergency appropriation to support coronavirus disease 2019 (COVID-19) vaccination activities.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Primary Care Association, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that in support of COVID-19 vaccination efforts, the State has received funding from the United States Federal Emergency Management Agency. This funding will expire in April of 2022. While Hawaii is among the top ten states in vaccine doses administered per population, in certain rural and marginalized communities, the vaccination rate remains below sixty percent. Thus, these communities remain highly vulnerable to future COVID-19 infection surges. This measure provides emergency funding to the Department of Health to support vaccination efforts across the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3125, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2132 Commerce and Consumer Protection on S.B. No. 2376

The purpose and intent of this measure is to:

- (1) Repeal and eliminate the deferred payment purchase option for cigarette tax stamps; and
- (2) Require licensees to pay for stamps at the time of purchase using cash, certified check, or bank transfer.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, according to testimony from the Department of Taxation, the deferred payment purchase of cigarette stamps is no longer necessary. Having the taxpayer pay upon purchase is more efficient and this measure will eliminate unnecessary burdens to better streamline the administration of this program.

Your Committee has amended this measure by:

- (1) Deleting amendments to subsection (a) of section 245-26, Hawaii Revised Statutes, to reinstate existing statutory language that allows the Department of Taxation to modify by rule the stamp fee to reflect actual costs incurred by the State in providing the stamps; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2376, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2133 Commerce and Consumer Protection on S.B. No. 3075

The purpose and intent of this measure is to:

- (1) Clarify that the Compliance Resolution Fund is to receive \$2,000,000 of the revenues collected under chapter 241, Hawaii Revised Statutes, provided that, if the revenues collected are under \$2,000,000, the difference shall be funded from revenues collected under chapter 235, Hawaii Revised Statutes, not to exceed \$2,000,000; and
- (2) Require that the excess revenues collected under chapter 241 shall be deposited into the general fund.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Taxation, Hawaii Financial Services Association, and Hawaii Bankers Association. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that existing law requires the Department of Commerce and Consumer Affairs to receive \$2,000,000 annually from taxes collected under chapter 241, Hawaii Revised Statutes. The Department of Commerce and Consumer Affairs has dedicated those funds for the use of the Division of Financial Institutions to support its purpose of effectively licensing, supervising, and regulating the financial institutions within its jurisdiction. With the recent establishment of several tax credits, revenues collected can vary significantly, sometimes resulting in a negative balance and the Department of Commerce and Consumer Affairs was not initially provided with its share of the franchise tax as established by law. This measure will ensure the certainty and timeliness of funding so that the Division of Financial Institutions may continue to carry out its purpose and functions of licensure, supervision, and examination and provide necessary consumer protections.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3075, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3075, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2134 Commerce and Consumer Protection on S.B. No. 2644

The purpose and intent of this measure is to make permanent:

- (1) Act 65, Session Laws of Hawaii 2013, which provides a limited exemption to the licensing requirements for certain individuals in situations when an electric utility must retain qualified individuals to work with high voltage (six hundred volts or higher) who are not licensed in the State but are otherwise deemed qualified by the electric utility; and
- (2) The requirement for the Board of Electricians and Plumbers to submit annual reports to the Legislature relating to high voltage work.

Your Committee received testimony in support of this measure from Hawaiian Electric Company. Your Committee received testimony in opposition to this measure from the Contractors License Board; Board of Electricians and Plumbers; Electrical Contractor's Association of Hawai'i, NECA Hawai'i Chapter; and International Brotherhood of Electrical Workers Local Union 1186.

Your Committee finds that high voltage electrical work requires very specialized skills, tools, equipment, and training, and is different from more common low-voltage electrical work. There is a limited number of qualified individuals in the State who are trained and licensed as electricians to perform high voltage work, and even fewer who are qualified to perform overhead line work. Many qualified high voltage electrical workers do not live in Hawaii, but come only when work is available, and requiring them to obtain a separate license to work in Hawaii can be burdensome and delay the progression of important and complex construction projects, including repairs and maintenance in emergency situations. This measure would make this licensing exemption permanent.

Your Committee has heard the concerns raised in testimony that this measure, as currently drafted, is overly broad and requires a clarification as to the type of high voltage electrical work that is to be included in the licensing exemption. Accordingly, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Adding a requirement to section 448E-13, Hawaii Revised Statutes, to clarify that employees of a duly licensed electrical contractor are exempt from licensure requirements, provided that the public utility shall certify to the Director of Labor and Industrial Relations and to the Board of Electricians and Plumbers that, after a hiring call, no electrician sufficiently qualified and licensed in the State to perform the high voltage electrical work applied to timely perform or complete the necessary job or task before the public utility recruited outside the State;
- (2) Clarifying that "high voltage" means six hundred volts or higher;
- (3) Codifying the Board of Electricians and Plumbers' reporting requirements of Act 60, Session Laws of Hawaii 2018, into section 448E-13, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2030, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2644, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2644, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2135 (Joint) Hawaiian Affairs and Government Operations on S.B. No. 2567

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to digitize its applicant, beneficiary, and lessee records by creating an interactive digital database software program to be completed and available for use no later than July 1, 2023.

Your Committees received testimony in support of this measure from three individuals. Your Committees received comments on this measure from the Department of Hawaiian Home Lands and one individual.

Your Committees find that while basic Department of Hawaiian Home Lands applicant waiting lists are available to download, the details including whether the person has applied for multiple leases, been denied a prior lease, or been skipped over are not readily accessible. Because obtaining this information can take weeks, this lack of organization has led to some lessees abusing the program by selling or transferring their leases and reapplying for a subsequent lease. This measure will require the Department of Hawaiian Home Lands to compile all relevant lease information into a database to increase efficiency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2567 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Chang, Dela Cruz).

SCRep. 2136 Education on S.B. No. 2893

The purpose and intent of this measure is to establish a one-year school supply subsidy pilot program to explore methods for relieving the financial burdens of education on low-income families.

Your Committee received testimony in support of this measure from the Department of Education and Na'alehu Elementary School. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Title I, Part A, of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act (Title I), provides federal financial assistance to local educational agencies and schools with high percentages of children from low-income families to help ensure educational success.

Your Committee further finds that a pilot program to subsidize school supplies for schools composed entirely of students eligible for participation in Title I, such as Naalehu Elementary School, would be useful to identify methods for relieving the financial burden of education on low-income families.

Accordingly, this measure establishes a one-year pilot program in certain Department of Education schools to explore methods for relieving the financial burdens of education on low-income families.

Your Committee has amended this measure by:

- (1) Amending the pilot program to extend to all schools composed entirely of students eligible for participation in Title I, including Naalehu Elementary School;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2893, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2893, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2137 Education on S.B. No. 2826

The purpose and intent of this measure is to establish a career development success program to provide financial incentives for participating public high schools to encourage students enrolled in grades nine through twelve to enroll in and successfully complete qualified industry-credential programs.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter Schools Commission, HawaiiKidsCAN, Hawaii Chamber of Commerce, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that the majority of jobs today require some form of post-secondary credentials. Your Committee further finds that industry-recognized credentials are important because they teach the specific knowledge and skills that are required for an occupation or industry. Full-time employees with industry credentials earn more than their uncredentialed counterparts, and, in some cases, the salaries of credential holders who do not hold college degrees are similar to the salaries of college graduates. To this end, the Promising Credentials project, a collaborative effort aimed at using Hawaii labor market data and local employer insights to identify high-value industry credentials in the State, has identified one hundred thirty-seven credentials that are associated with two hundred seventy-four in-demand, living-wage occupations throughout the State.

Accordingly, this measure will promote and encourage the attainment of qualified industry-credential programs and help Hawaii's students transition into, and succeed within, the workforce.

Your Committee has amended this measure by defining certain terms.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2826, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2138 Education on S.B. No. 3094

The purpose and intent of this measure is to:

- (1) Provide an emergency appropriation for a Department of Education virtual school; and
- (2) Authorize the Director of Finance to issue general obligation bonds for the purposes of renovations and electrical upgrades for a virtual school for the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic disrupted all corners of the State, including education, where teachers and students had to rapidly shift to remote learning. The COVID-19 pandemic required teachers to pivot to be able to provide curriculum, content, and enrichment through a variety of means, including online videos, assignments, tutorials, and virtual meetings. The pandemic also required the Department of Education to develop remote learning capabilities with unprecedented swiftness.

Your Committee further finds the herculean effort of educators and the Department of Education allowed for education to continue through the end of the 2020 school year and beyond, without jeopardizing the health and safety of students and staff. Your Committee finds, however, that additional support is needed to maintain and improve on the gains made with respect to remote learning.

Accordingly, this measure provides vital funding to establish and operate a virtual school within the Department of Education to ensure the continued success and refinement of the provision of remote learning services, and authorizes the issuance of general obligation bonds for necessary and related renovations and electrical upgrades.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3094, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2139 Education on S.B. No. 2862

The purpose and intent of this measure is to appropriate funds for the installation of air conditioning in certain public school classrooms.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Education Caucus of the Democratic Party of Hawai'i, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that excessively warm classroom temperatures in Hawai'i's public schools adversely affect students and educational outcomes. Studies show that classroom temperatures over eighty degrees can negatively impact student achievement. Your Committee finds that temperatures in Hawai'i's classrooms regularly exceed that eighty degree threshold and are recorded at over one hundred degrees during certain periods of the school year.

Your Committee further finds that the Legislature previously appropriated \$100,000,000 for heat abatement upgrades to public schools. Your Committee further finds, however, that additional funds are required for the installation of air conditioning in approximately five thousand Hawaii public school classrooms that have not yet received air conditioning units or other heat abatement measures.

Accordingly, this measure will improve student well-being and educational outcomes by appropriating funds to the Department of Education for the installation of air conditioning in Hawaii public school classrooms that have not received air conditioning units or other heat abatement measures.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2862, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2862, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2140 Education on S.B. No. 2818

The purpose and intent of this measure is to establish and fund a Summer Learning Coordinator position within the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Afterschool Alliance, Hui for Excellence, Children's Action Network Speaks!, Hawai'i Association of School Psychologists, Science Camps of America, Puakalehua Early Learning Consortium, CARE Arts and Recreation Education Services, and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that summer learning programs have a proven record of providing the support that students need. These programs enrich the academic experience and provide opportunities for social-emotional support. Summer learning programs also provide healthy meals, active play, and hands-on vocational experiences. Importantly, your Committee finds that struggling students and children from low-income households often experience the greatest gains from summer learning programs.

Accordingly, this measure establishes and funds a Summer Learning Coordinator position within the Department of Education to coordinate all school-based summer programs for children, including but not limited to the public summer school, e-school summer program, Credit Recovery summer program, alternative learning summer programs, and other school-based summer programs. Additionally, the Summer Learning Coordinator is encouraged to work with the Department of Human Services to leverage federal funds for school-based summer programs for children.

Your Committee notes the testimony from the Department of Human Services, which stated that the department may not use federal Temporary Assistance for Needy Families program and state Maintenance of Effort funds for any educational activities that are components of the State's free public education system.

Your Committee has amended this measure by:

- (1) Removing the requirement that the Summer Learning Coordinator work with the Department of Human Services to leverage federal funds for school-based summer programs for children and to address the testimony of the Department of Human Services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2818, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2818, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2141 Education on S.B. No. 2214

The purpose and intent of this measure is to establish a digital literacy program to be overseen by the Board of Education and implemented by the State Librarian to promote digital literacy through programmatic activities that provide children and parents exposure to digital tools.

Your Committee received testimony in support of this measure from the State Librarian, Hawaii Chamber of Commerce, National Federation of the Blind of Hawaii, and one individual.

Your Committee finds that libraries are critical providers of digital literacy services to the public. Your Committee further finds that recent experiences with remote learning has highlighted the crucial role of digital literacy in classrooms and beyond. Accordingly, this measure promotes digital literacy through the establishment of a digital literacy program within the Hawaii State Public Library System.

Your Committee notes the testimony of the State Librarian requesting that this measure be amended to clarify that the program established by this measure be available to all community members. Your Committee further notes the testimony of the National Federation of the Blind of Hawaii requesting that this measure provide for the provision of services related to access technologies for individuals with disabilities. Your Committee recognizes, too, that funding is necessary for the effective administration of the program created by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the program created under this measure shall be available to all members of the public;
- (2) Expanding the program created under this measure to provide services aimed to improve the knowledge, skill, and use of access technology for individuals with disabilities;
- (3) Inserting a blank appropriation to fund the program created by this measure and one full-time equivalent (1.0 FTE) position to administer the program;
- (4) Changing the effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2214, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2142 (Joint) Water and Land and Agriculture and Environment and Hawaiian Affairs on S.B. No. 2759

The purpose and intent of this measure is to exempt the instream use of water for traditional and customary kalo cultivation practices from the existing process for disposition of water rights.

Your Committees received testimony in support of this measure from the Department of Hawaiian Homelands, one member of the Hawai'i County Council, County of Kaua'i Department of Planning, County of Kaua'i Office of the Mayor, Waimea Hawaiian Civic Club, Kua'āina Ulu 'Auamo, Wai'oli Valley Taro Hui, Hawai'i Alliance for Progressive Action, Hui o Nā Wai 'Ehā, Hawai'i SEED, Haiku Community Association, Waipā Foundation, Kupuna for the Mo'opuna, Earthjustice, Council for Native Hawaiian Advancement, Hawai'i Land Trust, Hanalei Hawaiian Civic Club, and twenty-six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that for nearly two thousand years, Native Hawaiians have been farming successfully on lands throughout the State without adversely impacting the land. As a significant cultural and traditional practice, Native Hawaiian farming practices serve as a key tradition that also benefits the quality of life for Hawaii's residents. While the State has a fiduciary duty to assure the preservation and enhancement of water for various public interests, some regulatory actions disrupt protected cultural rights and traditions of Native Hawaiians.

However, your Committees have heard the concerns of many testifiers, including Hui o Nā Wai 'Ehā, that this measure as drafted should confirm and uphold existing water rights. According to Hui o Nā Wai 'Ehā, protections of traditional, customary, and kuleana rights, including rights to access traditional water course or auwai, support kalo farmers across the State. Some kalo farmers have waited over twenty years to have priority rights recognized. However, the gap in recognition has led to delays or deprivation of water rights access. To preserve traditional Native Hawaiian cultural rights while also providing clean, safe, and protected water to the people of Hawaii, amendments to this measure are therefore necessary to provide further justice for kalo farmers to exercise traditional, customary, and kuleana water rights.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that appurtenant and traditional, customary, and kuleana water rights include the rights of use, access, delivery, and quality of water that shall be recognized and protected;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Agriculture and Environment, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2759, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2759, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2143 Judiciary on S.B. No. 2641

The purpose and intent of this measure is to appropriate monies for residential programs that allow minor children to remain with their mothers to reduce the risk of trauma and multigenerational incarceration, including community-based furlough programs, residential drug treatment programs, therapeutic community programs, and mental health programs.

Your Committee received testimony in support of this measure from the Judiciary, Women's Prison Project, Hawaii Substance Abuse Coalition, Hawai'i Health & Harm Reduction Center, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that as of 2018, seventy-five percent of incarcerated women in Hawai'i had children. Previous surveys have shown that many women who are on parole are also mothers of minor children. Incarceration of mothers that results in separation from their children has been well documented to have devastating negative developmental and emotional impacts on children. These impacts can increase the risk of multigenerational incarceration. The separation also has a destructive and traumatic impact on mothers. This measure appropriates funds to keep mothers and their children together, which will reduce trauma for children and mothers, lower the risks of recidivism, and help break the intergenerational cycle of incarceration.

Your Committee has amended this measure by:

- (1) Amending section 1 to include additional findings; and
- (2) Inserting a \$200,000 appropriation amount.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2641, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2641, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2144 Judiciary on S.B. No. 3046

The purpose and intent of this measure is to make an emergency appropriation to the Department of the Attorney General for retention of expert witnesses and specialized legal counsel in major litigation against the State.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of the Attorney General anticipates incurring litigation expenses before the end of the 2021-2022 fiscal year in ongoing lawsuits where the plaintiffs are seeking substantial amounts of damages. These litigation expenses include retaining expert counsel and expert witnesses for the State's defense. Your Committee further finds that the Department of the Attorney General believes that vigorous legal representation with the judicious use of necessary expert witnesses could avoid costly judgments or minimize exposure of the State in ongoing litigation. Your Committee notes that the emergency appropriation to the Department of the Attorney General should be used in the pursuit of justice not for the mere pursuit of aggressive litigation practices. This measure will appropriate adequate funds to cover major litigation costs involving the State for fiscal year 2021-2022.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3046 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Acasio).

SCRep. 2145 Judiciary on S.B. No. 2347

The purpose and intent of this measure is to:

- (1) Require the language and meaning of any proposed constitutional amendment and ratification question to be simple, concise, and direct to the extent practicable;

- (2) Allow the presiding officers of the Legislature to request a written opinion of the Supreme Court regarding the legality of a proposed amendment to the Hawaii State Constitution and the corresponding constitutional ratification question;
- (3) Require the Supreme Court to provide a written opinion within forty-eight hours of receipt of the request;
- (4) Require, for any written opinion by the Supreme Court that invalidates a constitutional ratification question, a detailed and specific explanation of the reasons for this opinion; and
- (5) Prohibit any appeal of a written opinion.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that constitutional ratification questions should be posed in simple, concise, and direct language. Your Committee further finds that it is an appropriate exercise of the powers of the Hawaii Supreme Court to issue written opinions on the legality of a proposed constitutional ratification question upon request of the Senate President or the Speaker of the House of Representatives. This measure provides a mechanism to ensure the legality of constitutional ratification questions are addressed by the highest court in the State.

Your Committee has amended this measure by:

- (1) Specifying that the Supreme Court is afforded one week rather than forty-eight hours to provide a written response to a request for an opinion as to whether a proposed amendment to the Hawaii State Constitution and the corresponding constitutional ratification question is simple, concise, and direct to the extent practicable; and
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2347, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keohokalole, Fevella). Noes, none. Excused, 1 (Acasio).

SCRep. 2146 Judiciary on S.B. No. 2390

The purpose and intent of this measure is to:

- (1) Increase the number of associate judges on the Intermediate Court of Appeals from five to six; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, Hawaii State Bar Association's Appellate Section, and one individual.

Your Committee finds that the Intermediate Court of Appeals expects a significant increase in its caseloads as the trial courts dispose of their backlogs of civil, criminal, and family cases. This backlog is significantly acute in civil cases requesting jury trials or involving out-of-state witnesses or extensive exhibits for evidentiary purposes; criminal cases with constitutional considerations; and certain family cases involving imminent danger. Many of these matters are high priority cases. Your Committee further finds that adding another Intermediate Court of Appeals associate judge would enable the Judiciary to resolve more appeals expeditiously and address the foreseeable backlog of cases from the trial courts.

Your Committee has amended this measure by:

- (1) Making an appropriation of \$86,688 for the establishment of one permanent full time equivalent judicial assistance position;
- (2) Making an appropriation of \$134,400 for the establishment of two permanent full time equivalent law clerk positions;
- (3) Making an appropriation of \$42,450 for equipment, books, and furniture for the new associate judge's chambers;
- (4) Inserting an effective date of July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2390, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2390, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 2147 Judiciary on S.B. No. 2740

The purpose and intent of this measure is to:

- (1) Allow the Judiciary to compensate guardians ad litem for involuntary hospitalization and assisted community treatment petitions at a rate higher than existing statutory guidelines; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that guardians ad litem have an important role in supporting persons who are being considered for involuntary hospitalization or assisted community treatment. Persons subject to involuntary hospitalization and assisted community treatment positions are often in a vulnerable state and a guardian ad litem is there to represent their best interests. A guardian ad litem, by attending with or on behalf of the person who is the subject of a mental health petition, will be able to decrease delays in the court's review of the petition and ensure that the person, who might be absent or otherwise unable to meaningfully participate in the proceedings, has a representative available who will act in their best interest. This measure will increase the number of people willing to serve as guardians ad litem by attracting them with adequate compensation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2740 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2148 Energy, Economic Development, and Tourism on S.B. No. 3337

The purpose and intent of this measure is to:

- (1) Establish a public policy framework that addresses state goals in the areas of economic disaster mitigation, economic diversification, import substitution, and community development;
- (2) Appropriate moneys to the Department of Business, Economic Development, and Tourism (DBEDT) to implement specific projects that address those goals;
- (3) Identify additional projects authorized in the executive budget to be implemented by DBEDT to further the State's economic disaster mitigation, economic diversification, import substitution, and community development goals, including the establishment of an Office of International Affairs and certain capital improvement projects; and
- (4) Require DBEDT to submit annual reports to the Legislature summarizing project outcomes, including an assessment of each project's effectiveness.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; Hawaii Green Infrastructure Authority; Hawai'i Technology Development Corporation; Hawaii Community Development Authority; Natural Energy Laboratory of Hawaii Authority; Hawaii State Energy Office; Hawai'i Tourism Authority; Blue Ocean Mariculture; Ocean Era, Inc.; Cyanotech Corporation; Ocean Networks, Inc.; Sea Salts of Hawaii; Makaha Cultural Learning Center; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Hawai'i Energy.

Your Committee finds that, as the State recovers from the ongoing coronavirus disease 2019 (COVID-19) pandemic, significant additional investment in specific DBEDT programs is necessary to meet the State's goals in economic disaster mitigation, economic diversification, import substitution, and community development.

In considering the various projects and funding proposed by this measure, your Committee notes that, in 2021, the Legislature already approved an appropriation of \$10,000,000 from the funds received by the State from the American Rescue Plan Act of 2021, Public Law 117-2, Section 9901, to DBEDT for the plans, design, construction, and equipment for the development of carrier-neutral landing stations to create a fiber ring connecting the islands of the State. These funds, which were made through Act 88, Session Laws of Hawaii 2021, have yet to be released by the Governor. Furthermore, your Committee determined that the Natural Energy Laboratory of Hawaii Authority has not adequately explored all opportunities to generate revenue from public-private partnerships to fund an ocean economy innovation village. In addition, your Committee believes that given the ongoing COVID-19 pandemic and current supply chain issues, the establishment of an Office of International Affairs at this time is premature. With respect to the proposed funding to subsidize the solarization of private homes in the Waianae region, your Committee recognizes that ninety thousand state residents have already paid for their own rooftop solar, and this proposed project may not be the most economically efficient approach to meet the State's renewable energy goal. With respect to the capital improvement projects proposed under this measure, specifically, improvement projects at Saratoga Avenue and Fisherman's Wharf, your Committee notes that funding is already included in this year's supplemental appropriations bill.

Your Committee further finds that Hawaii Center for Advanced Transportation Technologies (HCATT) was established, in part, to accelerate the adoption of hydrogen and fuel cell technologies. Federal funds currently used to support HCATT's operations may cease next year. HCATT has executed numerous federal and publicly funded projects, and your Committee believes that the significant expertise in hydrogen technology demonstration and validation that this agency possesses should be preserved.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that appropriates an unspecified amount to DBEDT to convert the two federally funded positions at HCATT into state-funded positions;
- (2) Removing language that appropriates:
 - (A) \$1,000,000 for carrier-neutral cable landing infrastructure to develop pre-construction specifications for the design and engineering of carrier-neutral cable landing infrastructure on the islands of Oahu, Hawaii, Maui, and Kauai;
 - (B) \$18,000,000 for an ocean economy innovation village;
 - (C) \$400,000 to establish an Office of International Affairs;
 - (D) \$2,500,000 for Solarize Waianae;

- (E) \$12,125,000 for Saratoga Avenue electrical and communications infrastructure improvements; and
 - (F) \$25,000,000 for the repair of the Fisherman's Wharf bulkhead; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3337, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2149 Energy, Economic Development, and Tourism on S.B. No. 2865

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist DIBSHawaii LLC in the construction of a net-zero carbon capture storage utilization platform that will recover vented carbon dioxide emissions and scrub them into food grade liquid carbon dioxide.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; DIBSHawaii LLC; AKVO LLC; Cement and Concrete Products Industry of Hawaii; Hawaii Federated Industries; and nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that although carbon dioxide has many commercial uses, there is only one carbon dioxide production facility in Hawaii. Your Committee further finds that the construction of a net-zero carbon capture storage utilization platform in the State would have numerous benefits, including but not limited to import substitution, economic diversification, and long-term carbon sequestration.

Accordingly, your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2865, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2865, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2150 (Majority) Energy, Economic Development, and Tourism on S.B. No. 2926

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to study the potential tax revenues to be generated for the State through the legalization of recreational marijuana if it were taxed at a rate equal to the existing general excise tax rate.

Your Committee received testimony in support of this measure from the Education Caucus of the Democratic Party of Hawaii, Imua Alliance, Hawaii Cannabis Industry Association, and one individual. Your Committee received comments on this measure from the Department of Taxation; Department of Transportation; Department of Business, Economic Development, and Tourism; and Akamai Cannabis Clinic.

Your Committee finds that the Marijuana Policy Project, the largest cannabis policy reform group in the United States, reported that, as of December 2021, states that regulate cannabis for adult use have generated a combined total of \$10,400,000,000 in sales tax revenue. Your Committee notes that because the State has an anticipated budget shortfall of \$1,400,000,000 per year for the next three years resulting from the coronavirus disease 2019 pandemic, it is necessary to create new sources of revenue to allow the State to meet its strategic goals, preserve essential services, and prevent program cuts and pay reductions for working families. According to testimony from the Department of Business, Economic Development, and Tourism (DBEDT), additional time may be needed after the release of funds to prepare the procurement solicitation, conduct ten thousand surveys, and perform the data analysis needed to submit a comprehensive report to the Legislature.

Accordingly, your Committee has amended this measure by delaying the submission deadline for the study for one year.

Your Committee further notes that although the Department of Taxation indicated in its testimony that it was willing and able to perform the study, your Committee believes that DBEDT may be better suited to report on both the potential economic and non-economic side effects on the legalization of recreational marijuana if it were taxed at a rate equal to the existing general excise tax rate.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2926, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Misalucha). Excused, none.

SCRep. 2151 Human Services on S.B. No. 2371

The purpose and intent of this measure is to establish a statewide homelessness shelter and housing data clearinghouse within the Department of Human Services to be administered by the Governor's Coordinator on Homelessness.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Judiciary, Department of Public Safety, Office of the Public Defender, City and County of Honolulu Department of the Prosecuting Attorney, Hawai'i Health and Harm Reduction Center, and three individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, and Partners in Care.

Your Committee finds that various agencies and Hawaii's Continuum of Care--consisting of Partners in Care for the island of Oahu and Bridging the Gap for the islands of Hawaii, Maui, and Kauai--collect and publish data relating to homelessness in the State. However, the information is not shared with all government agencies that need to conduct real-time assessments of available services, shelter, or low-cost housing that can be deployed to individuals experiencing homelessness or at-risk individuals efficiently and effectively. This measure creates a statewide homelessness shelter and housing data clearinghouse within the Department of Human Services to collect information on persons experiencing homelessness, and available services, shelters, and housing within the State.

Your Committee notes that multiple testimonies on this measure expressed concerns over the lack of clarity on the specifics of the data to be collected, data security, protection of personal information, and the funding required to establish and maintain the system. Your Committee believes that in addition these concerns, there are other issues that require further discussion before creating a statewide system that collects information on homelessness and allows real-time assessment of the data and available resources.

Accordingly, your Committee has amended this measure by:

- (1) Establishing a Statewide Homelessness Information System Working Group within the Department of Human Services to first assess the feasibility of creating a statewide homelessness information system that could be utilized by various government agencies to provide efficient and effective assistance to individuals experiencing homelessness or at-risk individuals, before establishing the system itself;
- (2) Requiring the working group to report its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (3) Requiring the working group's report to include:
 - (A) An assessment of the forms of statewide homelessness information systems that collect, track, and share data in compliance with federal and state laws and regulations pertaining to the protection of personal information, and the form of the system most suitable for implementation in Hawaii;
 - (B) A financial feasibility assessment, including a cost-benefit analysis, of establishing and maintaining the statewide homelessness information system; and
 - (C) An assessment of whether funding for the operation of the system should be included in the base budget of the Department of Human Services;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2371, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2152 Human Services on S.B. No. 3236

The purpose and intent of this measure is to help preserve the financial viability of nursing facilities in the State by providing a one-time enhanced payment of fifteen percent to each nursing facility caring for Medicaid patients.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Healthcare Association of Hawaii; Hawai'i Pacific Health; Ann Pearl Rehab & Nursing; Ohana Pacific Health; Legacy Hilo Rehab & Nursing; The Villas Post Acute Care Rehab; Garden Isle Rehab & Nursing; Pu'uwai 'O Makaha; Hale Makua Health Services; Hawaii Health Systems Corporation, East Hawaii Region; Hale Kupuna Heritage Home; Hawai'i Care Choices; Kaiser Permanente Hawai'i; Hale Ho'ola Hamakua; and five individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, Hawaii Health Systems Corporation, and one individual.

Your Committee finds that during the coronavirus disease 2019 pandemic, most states instituted an enhanced payment for nursing facilities to account for the significant increased costs of labor, personal protective equipment, supplies, and testing, among other things. Your Committee further finds that nursing facilities experienced decreased occupancy, which affected their revenues and further exacerbated their financial strain. Nursing facilities nationwide have lost fifteen percent of their entire workforce and those numbers have not recovered over the past two years. The delta and omicron surges placed additional pressure on nursing facilities, in terms of their costs and ability to recruit and retain critical professions to care for seniors and other vulnerable individuals in long-term care settings. Your Committee believes that this one-time enhanced payment will be crucial as nursing facilities rebuild and engage in workforce development programs to provide good-paying, stable careers for Hawaii residents.

Your Committee notes testimony stating that Community Care Foster Family Homes and Expanded Adult Residential Care Homes in the State are also providing nursing home level care for Medicaid patients in the community.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the one-time enhanced payment being made pursuant to this measure is an amount equal to fifteen percent of the Medicaid patient payments of fiscal year 2022-2023;

- (2) Adding community care foster family homes and expanded adult residential care homes as recipients of the one-time enhanced payment being made pursuant to this measure; and
- (3) Replacing the appropriation amount with an unspecified amount.

Your Committee notes the testimony of Hawaii Health Systems Corporation, requesting that the one-time enhanced payment pursuant to this measure also be awarded to facilities with beds licensed for skilled nursing and intermediate care, to ensure that Hawaii Health Systems Corporation facilities are able to benefit from this measure.

Your Committee also notes the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021.

Your Committee finds that the request and concerns raised by the Hawaii Health Systems Corporation and the Department of Budget and Finance, respectively, merit further consideration, and therefore, respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3236, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2153 Human Services on S.B. No. 3235

The purpose and intent of this measure is to establish a Safe Spaces for Youth Pilot Program, an inter-agency initiative to provide safe spaces for youth experiencing homelessness in each county.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Hawaii Youth Services Network; Opportunity Youth Action Hui; Democratic Party of Hawai'i, Stonewall Caucus; and one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of Budget and Finance.

Your Committee finds that nearly half of Hawaii's juvenile arrests are for status offenses, such as running away from home or truancy, caused by untreated mental health and substance abuse needs; abuse, violence or bullying; or other reasons that are not best resolved by a law enforcement approach.

Your Committee further finds that runaway and homeless youth are vulnerable to multiple risks, including lack of basic food and shelter, untreated mental health disorders, substance use, disruptions in their education, sexually transmitted diseases and human immunodeficiency virus infection, sexual exploitation, physical victimization, and suicide. Your Committee believes these young people need to be offered a safe place within their community where they can seek help, rather than be arrested and become subject to judicial proceedings. Your Committee finds that the Safe Spaces for Youth Pilot Program established under this measure will provide the needed space and help to the youth in each county.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3235 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2154 (Majority) Hawaiian Affairs on S.B. No. 3247

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to build apartments to address the housing needs of native Hawaiians on the homestead waitlist.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that in 2019, about 28,500 native Hawaiian adults were on the waitlist for residential, farming, or ranching homesteads. This number has not significantly decreased in the current day despite plans to rectify the situation, and to date, over two thousand native Hawaiian beneficiaries have died while on the waitlist. The coronavirus 2019 pandemic has only made life more difficult for those homeless or struggling to pay rent while on the waitlist. The purpose of this measure is to ameliorate this issue by constructing apartments on Hawaiian home lands to more quickly reduce the number of native Hawaiians on the waitlist.

Your Committee has amended this measure by expanding the housing plan to include rent-with-option-to-buy and other rental housing units, in addition to apartment housing.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3247, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2155 Hawaiian Affairs on S.B. No. 3359

The purpose and intent of this measure is to establish the Hawaiian Home Lands special fund for the Department of Hawaiian Home Lands to enable beneficiaries of the Hawaiian Home Land Trust to acquire a residence and to enable the Department to fulfill its fiduciary duties to beneficiaries.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, one member of the Hawai'i County Council, Community Alliance on Prisons, Catholic Charities Hawai'i, Council for Native Hawaiian Advancement, League of Women Voters of Hawaii, Hawai'i Alliance for Community-Based Economic Development, and eighty-four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that through the Hawaiian Homes Commission Act of 1920, the public land trust was created to set aside lands to be used for the benefit of native Hawaiians. The Department of Hawaiian Home Lands is currently in charge of the management of 203,500 acres of trust lands, yet over 28,700 native Hawaiians remain on the waitlist for residential, agricultural, or pastoral leases.

Your Committee further finds that there are multiple challenges faced by the Department of Hawaiian Home Lands that prevent them from reducing those on the waitlist. These problems include most beneficiaries seeking residential properties when these lands represent the smallest percentage of Hawaiian home lands; the cost of infrastructure including planning, roads, utilities, and construction; and the base cost of mortgages in Hawaii being too high for many native Hawaiian families. To rectify this situation, this measure seeks to use revenues collected by the State as of fiscal year 2021 to create a special fund for the Department of Hawaiian Home Lands. The revenue will also partly be used to appropriate funds into and out of the Hawaiian home lands special fund to enable beneficiaries of the Hawaiian home lands trust to acquire a residence.

Your Committee has heard the testimony of the Department of Budget and Finance and notes the concerns that the proposed special fund may not be self-sustaining which is one of the prerequisites of a special fund under section 37-52.3, Hawaii Revised Statutes.

For the purposes of this Committee Report, the appropriation amount for this measure is originally \$600,000,000.

Your Committee has amended this measure by:

- (1) Replacing the appropriation amount of \$600,000,000 into and out of the Hawaiian Home Lands special fund with an unspecified amount;
- (2) Replacing the appropriation ceiling of \$600,000,000 for the Hawaiian Home Lands special fund with an unspecified amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3359, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3359, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2156 Hawaiian Affairs on S.B. No. 3357

The purpose and intent of this measure is to appropriate monies for certain departments to provide grants to tax-exempt non-profit organizations that have experience and expertise in supporting and advancing native Hawaiian communities.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawai'i Tourism Authority, 'Apoākea Native Hawaiian Innovation Institute, The Friends of Iolani Palace, Council for Native Hawaiian Advancement, Kapolei Chamber of Commerce, and six individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; and Department of the Attorney General.

Your Committee finds that various assistance and education programs for improving Native Hawaiian communities are effective and necessary. These programs include Hawaiian historic preservation, development of a mill to process ulu and taro, business and entrepreneurship mentoring, farming, cultural training, and environmental management. Therefore, the purpose of this measure is to appropriate funds for departments to contribute to these non-profit organization efforts.

Your Committee has amended this measure by:

- (1) Reducing the twenty-year experience requirement for qualifying nonprofits to ten years;
- (2) Specifying that the grants shall be awarded in conformance with the award granting standards of section 42F-103, Hawaii Revised Statutes;
- (3) Replacing the following appropriation amounts with an unspecified amount:

- (A) To the Department of Agriculture: \$10,790,000;
 - (B) To the Department of Business, Economic Development, and Tourism: \$3,450,000;
 - (C) To the Department of Labor and Industrial Relations: \$920,000; and
 - (D) To the Department of Land and Natural Resources: \$540,000;
- (4) Designating the Hawaii Tourism Authority as the agency responsible for community-based tourism management;
 - (5) Designating the Office of Community Services as the agency responsible for the cultural training program;
 - (6) Designating the Council for Native Hawaiian Advancement as the recipient of repatriation and reburial funds from the Department of Land and Natural Resources; and
 - (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3357, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3357, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2157 (Joint) Hawaiian Affairs and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2770

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety to collaborate with the Office of Hawaiian Affairs for the creation of a Native Hawaiian rehabilitation program for prison inmates, which puts an emphasis on Native Hawaiian values and cultural practices.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Public Safety, Opportunity Youth Action Hui, Hawai'i Friends of Restorative Justice, Women's Prison Project, Community Alliance on Prisons, Keaukaha Community Association, Hawai'i Correctional System Oversight Commission, and two individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Budget and Finance and Office of Hawaiian Affairs.

Your Committees find that prison sentences alone do not adequately rehabilitate criminal offenders. However, positive rehabilitation program experiences have been shown to increase the success rate of the rehabilitation. Connecting with culture and ancestral roots may be an effective method of rehabilitation for Native Hawaiian prison inmates. Therefore, the purpose of this measure is to appropriate funds to establish a Native Hawaiian criminal rehabilitation program which puts an emphasis on Native Hawaiian values and cultural practices.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2770 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the President and Chair on behalf of the Committees.
Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2158 Water and Land on S.B. No. 3130

The purpose and intent of this measure is to allow a holder of a mooring permit within a state small boat harbor to transfer the mooring permit under certain terms and conditions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and five individuals.

Your Committee finds that no regular mooring permit issued by the Department of Land and Natural Resources for state small boat harbors and offshore mooring areas is transferrable unless the permittee also possesses a valid commercial use permit and transfers the mooring permit as part of the sale of a company. As a result of the difficult process, many applicants spend years on a waitlist for mooring permits, which leads to potential vessel buyers having no place to moor their vessels while they wait for an available permit. The long wait time leads to abandoned vessels, which are then impounded by the State for disposal. To prevent systemic issues related to long waitlist times and difficulties transferring mooring permits, this measure will allow a holder of a mooring permit within a state small boat harbor to transfer the mooring permit under certain terms and conditions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3130, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2159 Water and Land on S.B. No. 3134

The purpose and intent of this measure is to streamline the process for completing the Department of Land and Natural Resources' required annual payment of debt service on the reimbursable general obligation bonds for Turtle Bay.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that currently, the Legacy Land Conservation Program (LLCP) must complete a cumbersome and prolonged annual grant application and award process before the Department of Land and Natural Resources can make an annual debt service payment of \$1,500,000 on the Turtle Bay reimbursable general obligation bonds as required by Act 121, Session Laws of Hawaii 2005. The LLCP process includes multiple steps and parties, including the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, Legacy Land Conservation Commission, the nonprofit land conservation organization that fulfills statutory requirements, and the general public. To allow the Department of Land and Natural Resources to dedicate more time and resources to perform other essential responsibilities, this measure will streamline the process for completing the Department of Land and Natural Resources' required annual payment of debt service on the reimbursable general obligation bonds for Turtle Bay.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3134, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2160 Hawaiian Affairs on S.B. No. 3105

The purpose and intent of this measure is to allow an adopted individual to benefit both by relationship through a natural parent and through an adoptive parent in a disposition or other designation as provided for in accordance with the Hawaiian Homes Commission Act, 1920, as amended, or administrative rules.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that the effect of adoption as provided for under state law impacts the ability for an adopted individual or the individual's natural family to succeed to a homestead lease or application on the Department of Hawaiian Home Lands applicant waiting list. The purpose of this measure is to rectify the situation by allowing an adopted individual to benefit both by relationship through a natural parent and through an adoptive parent while also allowing the adopted individual and member of the individual's natural family to continue to have the same familial relationship.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3105 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Ihara).

SCRep. 2161 (Majority) Hawaiian Affairs on S.B. No. 3104

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands, after beneficiary consultation and upon approval by the Hawaiian Homes Commission, to issue interim rules that shall be exempt from the public notice, public hearing, and gubernatorial approval requirements of chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaii Sovereignty Studies and one individual.

Your Committee finds that this measure will provide flexibility within the Department of Hawaiian Home Lands by allowing the Department of Hawaiian Home Lands to create interim rules which shall be exempt from public notice, public hearings, and gubernatorial approval requirements in chapter 91, Hawaii Revised Statutes. Interim rules shall be subject to approval by the Hawaiian Homes Commission and shall be effective for no more than eighteen months from the date an interim rule takes effect.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3104 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, 1 (Ihara).

SCRep. 2162 Hawaiian Affairs on S.B. No. 879

The purpose and intent of this measure is to give counties jurisdiction over the infrastructure of the Department of Hawaiian Home Lands housing developments in their boundaries under specific conditions.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Environmental Caucus of the Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Honolulu Board of Water Supply.

Your Committee finds that for the sake of efficiency, counties should have jurisdiction over the Hawaiian home lands housing development infrastructure within their boundaries. One homestead leader in Kapolei states that “to date, the Department of Hawaiian Home Lands has spent over \$500,000 of trust funds on her homestead and that there are fifteen other similar homesteads on Oahu and nine that are older. Your Committee finds that residential projects should follow county standards for design, planning, permitting, and construction.

Your Committee further finds that as long as the infrastructure conforms to applicable county standards in effect at the time of construction, the completion of the infrastructure is granted approval by the county, and applicable meter and connection fees and utility costs relating to the infrastructure have been paid, that this measure requires counties to provide for the maintenance of infrastructure for any Hawaiian home lands housing development.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriate county agency shall be the recipient of the application for maintenance request;
- (2) Specifying that infrastructure includes culverts, signage, road striping, and traffic calming measures; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 879, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2163 Hawaiian Affairs on S.B. No. 2623

The purpose and intent of this measure is to exclude from any waiting list maintained by the Department of Hawaiian Home Lands, any lessee or successor who sells or transfers their lease on a tract of Hawaiian home lands.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that certain native Hawaiians who are eligible for a lease pursuant to the Hawaiian Homes Commission Act, 1920, have acquired a lease, sold, or transferred their interest in the lease, and then placed their name on the waitlist for a second lease. Because all beneficiaries should be able to enter the Hawaiian Homes Commission Act program with a reasonable expectation of eventually receiving a lease, this measure prohibits lessees who sell or transfer their interest in a Hawaiian home lands tract from being placed on the waiting list maintained by the Department of Hawaiian Home Lands for an additional lease.

Your Committee has amended this measure by:

- (1) Specifying that the lessee or successor is not eligible to return to the waitlist if they sell the lease for personal gain; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2623, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2623, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Ihara).

SCRep. 2164 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2001

The purpose and intent of this measure is to allow surviving immediate family members of deceased persons to receive a copy of the closing report prepared by the investigating police department after a specified period of time.

Your Committee received testimony in support of this measure from the Libertarian Party of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the death of a family member where the incident led to law enforcement initiating an investigation can raise many questions for the surviving family members even years later. Law enforcement’s investigation and the ensuing report may provide some answers and perhaps closure for the family. However, obtaining this information can be difficult. For one family whose son was murdered, it took seventeen years and repeated assistance from a state legislator’s office to receive the closing report. For another family whose son was killed during an incident involving law enforcement, the family still had not received a copy of the report more than five years after the incident despite a state legislator’s involvement. This measure will assist the State in providing answers and closure for families by allowing surviving immediate family members of deceased persons to receive a copy of the closing report prepared by the investigating police department after a specified period of time.

Your Committee has amended this measure by:

- (1) Requiring that information included in the closing reports not required to be disclosed pursuant to the Uniform Information Practices Act, section 92F-13, Hawaii Revised Statutes be redacted or withheld; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2001, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 2001, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Baker).

SCRep. 2165 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2115

The purpose and intent of this measure is to protect minors who are being confined at detention and shelter facilities by defining specific conditions and time limits under which they may be confined.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Office of the Public Defender, and Office of Youth Services. Your Committee received comments on this measure from the Hawaii Disability Rights Center.

Your Committee finds that over the past decade, Hawaii's juvenile justice system has undergone a major philosophical shift toward evidence-based and trauma responsive approaches for holding youth accountable for their conduct. In keeping with the significant advances in how to handle youth, facilities that rely on room confinement to control youth must also change their approach. Your Committee also finds that long periods of isolation have negative consequences for youth as they are especially vulnerable to the mental and emotional effects of room confinement. Room confinement poses a safety risk for youth, including the increased likelihood of self-harm, suicide, and retraumatizing those who were already victimized. Your Committee finds that codifying these confinement conditions and limitations will better protect minors.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2115 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2166 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2239

The purpose and intent of this measure is to prohibit police departments from acquiring certain types of military equipment and using certain types of equipment on protesters and demonstrators.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Libertarian Party of Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that every year, millions of dollars-worth of military equipment flows from the federal government to state and local police departments. For example, the Hawaii Department of Land and Natural Resources' Conservation and Resources Enforcement Division acquired a long-range acoustic device, often referred to as a "sound cannon". This weapon, which was developed for and is used by the military to force compliance by causing pain, has been brought by the State to peaceful demonstrations at Mauna Kea and at Sherwood Forest, though the State claimed that it would only be used as a loudspeaker and not to disperse crowds. Long-range acoustic devices can cause devastating, long-lasting effects, and even permanent hearing loss. Furthermore, militarized law enforcement tactics have been deployed disproportionately against communities of color. This measure will prevent further intimidation of communities by law enforcement's unwarranted use of weapons of war by prohibiting police departments from acquiring certain types of military equipment and using certain types of equipment on protesters and demonstrators.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere, Fevella). Noes, none. Excused, 1 (Baker).

SCRep. 2167 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2269

The purpose and intent of this measure is to:

- (1) Repeal the authorization of the Governor to negotiate with any person for the development or expansion of private in-state correctional facilities;
- (2) Prohibit the establishment of private correctional facilities in the State; and
- (3) Allow the Governor to enter into a contract with a private entity to construct a correctional facility on public or private land, only if the facility is operated by the Department of Public Safety.

Your Committee received testimony in support of this measure from Imua Alliance; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that private prisons incentivize the cycle of crime by providing a financial motivation for the further criminalization of nonviolent offenses and imposition of longer sentences because private prisons are run as businesses and without inmates, private prisons cannot turn a profit. Additionally, private prisons are not subject to the same freedom of information and open records laws as government agencies. Without access to information, it is impossible to know what injuries are being suffered by detainees. Former security guards who have worked at private prisons say that prisoner abuse is rampant because disclosure of allegations is extremely rare. Your Committee believes that if the State decides to construct a new jail capable of housing approximately one thousand three hundred inmates, then the jail should be operated by the State. This measure will prevent the

development of for-profit prisons in the State by repealing the authorization of the Governor to negotiate with any person for the development or expansion of private in-state correctional facilities, prohibiting the establishment of private correctional facilities in the State, and allowing the Governor to enter into a contract with a private entity to construct a correctional facility on public or private land, only upon the condition that the facility is operated by the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2269 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2168 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2393

The purpose and intent of this measure is to enact the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Canada is the second largest international market for Hawaii. Canadian visitors spend a great amount of time in Hawaii during the winter months and many Canadians own real estate throughout the islands. However, Canadians with active domestic violence protective orders currently lack sufficient protection while visiting Hawaii. Your Committee believes that Canadian visitors traveling to Hawaii should be protected by valid protection orders issued in Canada. This measure will assist the State in protecting victims of domestic violence by enacting the Uniform Recognition and Enforcement of Canadian Domestic-Violence Protection Orders Act.

Your Committee has amended this measure by:

- (1) Inserting language to provide a penalty for a person who violates a valid Canadian order for protection;
- (2) Inserting a cross reference to section 581-21, Hawaii Revised Statutes, relating to foreign protective orders, for the purposes of conformity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2393, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Baker).

SCRep. 2169 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2514

The purpose and intent of this measure is to:

- (1) Create a good time credit system, by which a defendant on probation may reduce the defendant's sentence through compliance with conditions of probation;
- (2) Provide that a condition of probation that prohibits unnecessary associations may only apply with respect to certain persons having a connection to the defendant's underlying crime or the prosecution of the crime;
- (3) Provide that a condition of probation that prohibits the possession or use of alcohol or unauthorized drugs may only be imposed if it is reasonably related to the crime for which the defendant was convicted;
- (4) Provide that substance abuse treatment shall not be required of a defendant on probation if a program is not in the county of the defendant's residence and if the defendant has not been accepted into the program; and
- (5) Prohibit incarceration for certain technical violations.

Your Committee received testimony in support of this measure from the Hawai'i Correctional System Oversight Commission, Office of the Public Defender, Pearl City Neighborhood Board, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Hawai'i Health & Harm Reduction Center, Waikiki Health's Pu'uhonua Prison Program, Faith Action for Community Equity, Share Your Mana, Hawai'i Friends of Restorative Justice, and sixteen individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Judiciary, and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that existing state laws relating to certain violations of community supervision are resulting in unnecessary, counterproductive, skyrocketing rates of incarceration and severe overcrowding in local jails and prisons. In 2018, more than twenty-eight thousand Hawaii residents were incarcerated or under some form of probation, parole, or other form of community supervision. Based on weekly population reports, typically one-fourth of all jail and prison admissions in Hawaii are the result of probation or parole technical violations, which are violations of the terms of legal supervision, other than the commission of certain crimes. This measure will improve the probation system in Hawaii and reduce incarceration rates by offering good time credits to individuals who successfully follow conditions and prohibiting the use of certain unreasonable conditions of probation, including restrictions on association with individuals who have a criminal record and penalties for drug or alcohol use when it is unrelated to the crime of conviction.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2514, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Baker).

SCRep. 2170 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2777

The purpose and intent of this measure is to:

- (1) Require pat downs and searches of female inmates be conducted by a female correctional facility employee unless the prisoner presents a risk of immediate harm to herself or others or risk of escape;
- (2) Prohibit male correctional facility employees from entering areas where female inmates may be in a state of undress including but not limited to restrooms, shower areas, or medical treatment areas, unless an inmate in the area presents a risk of immediate harm to herself or others or if there is a medical emergency in the area; and
- (3) Require any prohibited search, pat down, or entry by a male correctional facility employee be documented within three days of the incident, reviewed by the warden, and retained by the institution for reporting purposes.

Your Committee received testimony in support of this measure from the Women's Prison Project and one individual. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that as state agencies become more trauma-informed in both programs and practices, policy changes should prevent re-traumatizing individuals. For example, body searches, including pat-downs and surveillance in vulnerable situations, are uncomfortable circumstances for any individual. Body searches can be particularly traumatizing for incarcerated women, as most female inmates have experienced some form of interpersonal violence. Almost ninety percent of incarcerated women have suffered from sexual violence, and at least forty percent suffer from posttraumatic stress disorder symptoms. Your Committee believes that male staff touching female inmates' bodies and viewing them undressed is further damaging and harmful for them. This measure will help prevent further traumatization of incarcerated women by requiring pat downs and searches of female inmates be conducted by a female correctional facility employee unless the prisoner presents a risk of immediate harm to herself or others or risk of escape, prohibiting male correctional facility employees from entering areas where female inmates are in a state of undress unless an inmate in the area presents a risk of immediate harm to herself or others or if there is a medical emergency in the area, and by requiring any prohibited search, pat down, or entry by a male correctional facility employee be documented within three days of the incident, reviewed by the warden, and retained by the institution for reporting purposes.

Your Committee has amended this measure by:

- (1) Requiring the Department of Public Safety to increase its recruitment and training of female adult corrections officers to satisfy the requirements of female gender specific posts;
- (2) Requiring the Department of Public Safety to make every effort within the law to address the concerns of the advocates, requirements of the Prison Rape Elimination Act, and staffing shortages of female gender specific posts, as well as the hiring and training of female adult corrections officers;
- (3) Requiring the Department of Public Safety to submit a report of its efforts in recruiting, hiring, and training female adult corrections officers to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2777, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2171 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2780

The purpose and intent of this measure is to:

- (1) Update the list of federal agencies whose law enforcement officers may make arrests for certain offenses under state law by adding United States Immigration and Customs Enforcement-Homeland Security Investigations and deleting United States Citizenship and Immigration Services from the list; and
- (2) Update references to the titles of the heads of the district offices for the listed federal agencies and the names of these agencies, including United States Customs and Border Protection.

Your Committee received testimony in support of this measure from the U.S. Department of Homeland Security Immigrations and Customs Enforcement-Homeland Security Investigations, Department of the Attorney General, Department of Public Safety, Hawai'i Police Department, Honolulu Police Department, and Kauai Police Department.

Your Committee finds that federal law enforcement agencies work extensively with state and county law enforcement targeting transnational organized criminal activity. These investigations often involve violations of both federal and state criminal law. However, United States Immigrations and Customs Enforcement-Homeland Security Investigations special agents do not currently have limited arrest powers under state law, meaning that they are often able to observe suspicious activities but are not authorized to take action pursuant to state law. Your Committee believes that the grant of limited arrest powers, under state law, to agents of United States Immigration and Customs Enforcement-Homeland Security Investigations would promote enhanced collaboration with state law enforcement counterparts to protect national security, prevent crimes of exploitation, combat financial crimes, investigate cybercrime and other threats, and ensure public safety.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Baker).

SCRep. 2172 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3140

The purpose and intent of this measure is to:

- (1) Require the holder of a controlled substances registration to immediately verbally report the theft, embezzlement, fraud, or diversion of a controlled substance from the holder's inventory;
- (2) Require the submission of a written report to the administrator of the Narcotics Enforcement Division that provides all information related to the theft, embezzlement, fraud, or diversion of controlled substances in the holder's inventory; and
- (3) Establish a misdemeanor penalty for a person who prevents another from reporting, or who knowingly fails to report and provide information as required.

Your Committee received testimony in support of this measure from the Department of Public Safety. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that the Department of Public Safety has encountered many instances where incidents of theft, embezzlement, fraud, and diversion of controlled substances were not reported in a timely manner. Frequently, such incidents involve licensed health care workers such as physicians and nurses who work in large health care companies in Hawaii, and the Department of Public Safety has found that there is significant reluctance in healthcare to report such incidents. Consequently, if incidents are not reported in a timely manner due to reluctance to report, then the likelihood that the incidents can be resolved is significantly reduced. This measure will assist the Department of Public Safety in combating theft, embezzlement, fraud, and diversion of controlled substances by requiring the holder of a controlled substances registration to immediately issue a verbal report and a subsequent written report of any theft, embezzlement, fraud, or diversion of controlled substances and by establishing a misdemeanor penalty for a person who prevents another from reporting, or who knowingly fails to provide information as required.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3140, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2173 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3141

The purpose and intent of this measure is to update the Uniform Controlled Substances Act, chapter 329, Hawaii Revised Statutes, to make it consistent with amendments in federal controlled substances law as required by section 329-11, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that existing law requires that if a substance is added, deleted, or rescheduled under federal law, or by an emergency scheduling action taken by the Department of Public Safety, then the Department is required to recommend that the Legislature make corresponding changes to Hawaii law. Your Committee further finds that the substances listed in this measure correspond to several similar changes to the Drug Enforcement Administration's federally controlled substances schedules. Thus, this measure eliminates the differences between federal and state law.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3141, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2174 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2068

The purpose and intent of this measure is to:

- (1) Repeal requirements for transfers of certain public lands classified for agricultural use by the Department of Land and Natural Resources to receive approval from both the Board of Agriculture and the Board of Land and Natural Resources prior to transfers to the Department of Agriculture;
- (2) Require the Department of Agriculture to manage and accept the transfer of certain qualifying non-conservation, non-agricultural park lands; and
- (3) Require the Department of Agriculture to inquire with the Department of Land and Natural Resources, prior to offering a lease, to determine any easements required for the Department of Land and Natural Resources to access its landlocked forest reserves or other Department of Land and Natural Resources assets on the lands subject to the lease.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Kapāpala Ranch; Larry Jefts Farms, LLC; Hawai'i Farm Bureau; Local Food Coalition; Hawaii Coffee Association; and one individual. Your Committees received testimony in opposition to this measure from the Sierra Club of Hawai'i, Hawaii's Thousand Friends, Conservation Council for Hawai'i, Our Revolution Hawaii, Ahahui Malama I Ka Lokahi, and six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Agriculture, The Nature Conservancy, and Ulupono Initiative.

Your Committees find that Act 90, Session Laws of Hawaii 2003 (Act 90), was enacted to transfer certain non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture. In 2021, the Act 90 Working Group, established by Act 139, Session Laws of Hawaii 2021, determined that lands under the Department of Land and Natural Resources used for the primary purpose of agricultural production should be transferred to the Department of Agriculture following the conditions and procedures set out by Act 90, Session Laws of Hawaii 2003. Despite its intent to foster collaborative working relationships between the Department of Land and Natural Resources, Department of Agriculture, and lessees of multi-use agricultural lands, lengthy transfer processes have stalled the transfer of lands utilized for the primary purpose of agricultural production.

This measure will allow for the creation of a collaborative working relationship between the Department of Land and Natural Resources and the Department of Agriculture by repealing requirements for approval from the Board of Land and Natural Resources and the Board of Agriculture for certain public lands leased for agricultural use to the Department of Agriculture, with exceptions to easements required by the Department of Land and Natural Resources to access landlocked forest reserves or other assets under the Department of Land and Natural Resources' jurisdiction.

Your Committees have amended this measure by:

- (1) Clarifying that lands classified for agricultural use include all intensive agricultural use, special livestock use, and pasture use lands;
- (2) Requiring lands that are in pasture use by the Department of Land and Natural Resources to be transferred to and managed by the Department of Agriculture;
- (3) Clarifying the transfer of and management of encumbered non-agricultural park lands subject to the suitability of the land for agricultural activities and use as determined and approved by the Board of Agriculture;
- (4) Providing that designated conservation lands not in current agricultural use shall remain under the jurisdiction of the Department of Land and Natural Resources;
- (5) Retaining the Board of Agriculture's authority to determine the manner of transferring non-agricultural park lands;
- (6) Requiring the Department of Agriculture to inquire with the Department of Land and Natural Resources regarding any easements required by the Department of Land and Natural Resources to access landlocked forest reserves or other assets of the Department of Land and Natural Resources subject to the lease;
- (7) Deleting section 5 of this measure, thereby retaining the existing Board of Agriculture rulemaking requirements, including eligibility requirements for each disposition and applicant qualifications, to effectuate the purposes of chapter 166E, Hawaii Revised Statutes;
- (8) Deleting section 7 of this measure, thereby retaining existing statutory language on lease restrictions, generally;
- (9) Deleting section 8 of this measure, thereby retaining existing statutory language on disposition of public land leases by negotiation;
- (10) Requiring the Department of Land and Natural Resources to seek approval from the Board of Land and Natural Resources and the Board of Agriculture prior to the removal of any land designated for pasture leases for reforestation or other public purposes;
- (11) Requiring adequate notice of no less than one year to the then-current lessee or permittee, if withdrawal is approved by both boards;
- (12) Clarifying that the Department of Land and Natural Resources Division of Forestry and Wildlife's funded action plan for reforestation purposes shall be realistic; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2068, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2068, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair and President on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Misalucha).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2175 Government Operations on S.B. No. 2385

The purpose and intent of this measure is to amend section 103D-304, Hawaii Revised Statutes, to allow state purchasing agencies to seek alternative procurement approval in the procurement of professional services, limited to situations where fewer than three qualified persons submit bids or proposals.

Your Committee received testimony in support of this measure from the State Procurement Office, Department of Accounting and General Services, and the University of Hawai'i System. Your Committee received testimony in opposition to this measure from the American Council of Engineering Companies of Hawaii; American Institute of Architects, Hawaii State Council; Hart Crowser, a Division of Haley & Aldrich; Coffman Engineers, Inc.; Okahara and Associates, Inc.; CONSOR Engineers, LLC; and two individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that existing law requires a minimum of three bids or proposals from qualified persons to proceed with the procurement of professional services. Your Committee further finds that under certain circumstances, particularly in the procurement of specialized services, this requirement cannot be met. Continually reinitiating the solicitation with the same result increases delays and project costs for procuring agencies.

Your Committee finds that this measure will allow agencies to keep design projects on schedule, improve project schedule efficiency, and ensure priorities and needs are addressed timely. As such, this measure will facilitate the procurement of specialized professional services in situations where fewer than three qualified persons submit bids or proposals.

Your Committee has amended this measure by:

- (1) Clarifying that the alternate approval option proposed by this measure only applies in situations where fewer than three qualified persons submit bids or proposals in response to a procuring agency seeking professional services;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2385, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2176 Government Operations on S.B. No. 2378

The purpose and intent of this measure is to:

- (1) Adjust the membership of the State Taxation Board of Review from ten volunteers to three paid, full-time members, and set a two-member quorum;
- (2) Establish a compensation schedule for board members and authorize board members to validate board actions by a majority of the members who heard the appeal;
- (3) Clarify that board meetings are contested case hearings subject to notice requirements and further clarify the legal and evidentiary framework the board may use in reaching its decisions; and
- (4) Make an appropriation to fund positions for the three full-time board members and support staff.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that reducing the membership, quorum, and decision-making requirements of the State Taxation Board of Review will streamline administrative procedures for board actions. Your Committee further finds that establishing a paid professional board with robust institutional support, as proposed by this measure, will aid the Department of Taxation in its effort to reduce the backlog of tax appeals, while also ensuring that taxpayers' appeals are resolved fairly and expeditiously. Your Committee also finds that the clarifications proposed by this measure will increase fairness and accountability in the tax appeals process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2378 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2177 Government Operations on S.B. No. 2379

The purpose and intent of this measure is to allow the Department of Taxation's Special Enforcement Section to examine any sector of Hawaii's economy, initiate civil investigations, and refer and recommend cases or examinations of segments of the economy to the Office Audit and Field Audit branches of the Department of Taxation for auditing.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee finds that this measure clarifies and expands the investigation and enforcement powers of the Department of Taxation's Special Enforcement Section. Accordingly, your Committee finds that this measure will help ensure that all taxpayers in the State pay their fair and lawful share of taxes and help prevent tax noncompliance through education, enforcement, and deterrence.

Your Committee has amended this measure by removing the prioritization of cash-based business investigations to clarify that the Special Enforcement Section has the authority to investigate all matters pertaining to state tax law.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2379, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2178 Government Operations on S.B. No. 2681

The purpose and intent of this measure is to:

- (1) Allow bidders to clarify or correct immaterial or technical information required as part of a bid submission for up to twenty-four hours after the bid submission deadline; and
- (2) Require that bids for construction be opened no sooner than twenty-four hours after the deadline for the submission of bids.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii; Subcontractors Association of Hawaii; Ralph S. Inouye Co., Ltd.; and Electrical Contractor's Association of Hawaii. Your Committee received testimony in opposition to this measure from the State Procurement Office; Department of Accounting and General Services; City and County of Honolulu's Department of Budget and Fiscal Services; Plumbing & Mechanical Contractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that, according to the State Procurement Office, most protests allege technical issues, often stemming from the subcontractor listing requirement. Inadvertent errors can occur due to the complexity of procurement laws and short time constraints imposed by the law. Your Committee therefore finds that the provision of additional time to allow for the correction of immaterial and technical errors will reduce protests and decrease avoidable delays, while maintaining the integrity of the procurement process.

Your Committee further finds, however, that there may be unintended consequences or misuse of the provision created by this measure, as noted in testimony. Your Committee therefore finds that a two-year sunset on this measure is warranted and will allow for an assessment of the impacts of this measure and any necessary adjustments.

Your Committee has amended this measure by:

- (1) Clarifying that changes to the scope of work and subcontractor lists are prohibited;
- (2) Amending the definition of "immaterial or technical information" to more closely align with pertinent administrative rules;
- (3) Inserting a repeal date of July 1, 2024, to allow for the reassessment of this measure and its impacts; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2681, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2681, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2179 Government Operations on S.B. No. 2387

The purpose and intent of this measure is to amend section 103D, Hawaii Revised Statutes, by requiring procuring agencies to publicly post, for a minimum period of ten days, the bases for cancelling an invitation for bid or request for proposal.

Your Committee received testimony in support of this measure from the State Procurement Office and the Associated Builders and Contractors—Hawaii Chapter.

Your Committee finds that transparency is one of the primary goals of the Hawaii State Procurement Code. Existing law contains certain transparency measures in the solicitation and award process but does not provide transparency regarding the cancellation of solicitations. Your Committee further finds that one of the requirements of ethical public procurement pursuant to section 103D-101, Hawaii Revised Statutes, includes ensuring that all persons are afforded an equal opportunity to compete in a fair and open

environment. Your Committee finds that the transparency necessary for an open environment should apply in all stages of the procurement process, including when a solicitation is cancelled.

Your Committee additionally finds that the preparation and submission of bids and proposals can consume considerable resources and vendors should therefore have the right to know the bases for the cancellation of a solicitation. Your Committee also finds that the public has a right to know the specific reason why a solicitation was cancelled, which, currently, is noted in the project's contract file but is not publicly posted. And your Committee notes that, according to the State Procurement Office, posting the reason or reasons for a cancelled solicitation as proposed by this measure will promote consistency, transparency, and efficiency in government.

Accordingly, your Committee finds that this measure will increase transparency in the procurement process and promote equitable procurement practices.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2387 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2180 Government Operations on S.B. No. 2384

The purpose and intent of this measure is to amend the Hawaii Public Procurement Code by repealing the procurement preference for Hawaii products.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Public Safety, Department of Transportation, University of Hawai'i System, Department of Budget and Fiscal Services of the City and County of Honolulu, and the General Contractors Association of Hawaii. Your Committee received testimony in opposition to this measure from the Ulupono Initiative. Your Committee received comments on this measure from the State Procurement Office, Department of Agriculture, and one individual.

Your Committee finds that, according to the State Procurement Office, disadvantages of the preference for Hawaii products for purposes of public procurement include:

- (1) The preference violates the open competition principal of the free market, thereby increasing costs to taxpayers;
- (2) The preference discourages competition, thereby creating a smaller pool of qualified vendors; and
- (3) The administration and maintenance of the preference program increase costs to taxpayers.

Your Committee additionally finds, however, that the Hawaii products preference serves an important role with respect to agricultural goods and helps the State achieve its food production and sustainability goals.

Your Committee therefore finds that, except with respect to agricultural goods, the preference for Hawaii products is not necessary to incentivize the use and procurement of local products, it increases costs and inefficiencies, and should be repealed. Your Committee finds that the preference should remain in effect for agricultural goods to further the State's food production and sustainability goals.

Accordingly, your Committee has amended this measure by:

- (1) Retaining the Hawaii products procurement preference for locally produced agricultural goods, value-added products, and commodities;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2384, S.D. 1, and be referred to your Committee on Judiciary and your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2181 (Majority) Government Operations on S.B. No. 2386

The purpose and intent of this measure is to amend section 103D-102, Hawaii Revised Statutes, to exempt from competitive procurement, construction projects that are below the small purchase threshold in situations where competitive procurement is neither practical nor advantageous to the State.

Your Committee received testimony in support of this measure from the State Procurement Office, Department of Accounting and General Services, University of Hawai'i System, and Associated Builders and Contractors Hawaii Chapter. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii; Electrical Contractor's Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund. Your Committee received comments on this measure from the Plumbing & Mechanical Contractors Association of Hawaii.

Your Committee finds that it is not unusual for a procuring agency to encounter situations where the original scope of work must be expanded due to unexpected developments or unforeseen physical conditions that were not known or considered when drafting the

scope of work to be performed in the invitation for bids or requests for proposals. This is particularly true in the dynamic area of construction procurement. Your Committee further finds that, in these situations, existing law requires the procuring agency to separately procure the additional work, despite the fact that it is related to an existing project. This leads to increased and unnecessary delays and costs.

Accordingly, your Committee finds that, in limited circumstances, competitive procurement is neither practical nor advantageous to the State, even where multiple sources exist. Your Committee further finds that the exemption proposed by this measure clarifies that a separate solicitation is not required where competitive procurement is neither practical nor advantageous to the State, thereby increasing efficiency and reducing costs in the procurement process.

Your Committee additionally finds that safeguards to address concerns of anti-competitive procurement by agencies seeking the exemption are provided by the requirement that the agency must seek and obtain the approval of the Chief Procurement Officer, rather than the agency having sole discretion to determine whether the exemption is warranted. The Chief Procurement Officer must post public notice of the request and decision as provided by law and rule. Your Committee finds that these safeguards will also address concerns expressed in testimony regarding “parceling”, which is the improper practice of breaking larger projects into smaller parts for purposes of avoiding the competitive procurement process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2386 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Chang).

SCRep. 2182 Government Operations on S.B. No. 2335

The purpose and intent of this measure is to amend the Hawaii Public Procurement Code to allow purchasing agencies to use the second low bid method of competitive sealed bidding in order to increase efficiency in the procurement process.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the State Procurement Office, Department of Budget and Fiscal Services of the City and County of Honolulu, Associated Builders and Contractors Hawaii Chapter, and Electrical Contractor’s Association of Hawaii. Your Committee received comments on this measure from the Subcontractors Association of Hawaii; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; and Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund.

Your Committee finds that testimony submitted in opposition to this measure notes that the application and effect of the second low bid method is unclear and may not improve efficiency in the procurement process.

Your Committee further finds that several testifiers noted and supported an alternative to the second low bid method: the median bid method of procurement. The median bid method awards the project to the bid that is closest to the median of all bids submitted. Your Committee notes that the Electrical Contractor’s Association of Hawaii, in testimony, indicated its review of completed jobs found that the final project cost is closer to the median than either of the low bid or second low bid. Your Committee finds that the median bid method may result in awards that represent the best value from a responsible and responsive vendor.

Your Committee therefore finds that the median bid method will better accomplish the intent of this measure to increase efficiency in the procurement process by allowing purchasing agencies to use an additional method of competitive sealed bidding.

Your Committee has amended this measure by:

- (1) Changing the alternative award method from the second low bid method to the median bid method; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2335, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2335, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2183 Government Operations on S.B. No. 2383

The purpose and intent of this measure is to amend the Hawaii Public Procurement Code by:

- (1) Repealing the State Procurement Policy Board and its nominating committee;
- (2) Transferring the authority and responsibilities of the repealed board to the administrator of the State Procurement Office; and
- (3) Streamlining the appointment process for the administrator of the State Procurement Office.

Your Committee received testimony in support of this measure from the State Procurement Office. Your Committee received testimony in opposition to this measure from the Hawai’i Alliance of Nonprofit Organizations.

Your Committee finds that there are several vacancies on the State Procurement Policy Board and that the Board has not been active since May 2019, due to a lack of quorum. Coupled with the difficulty of attracting qualified candidates for the Board, your Committee finds that the continuous vacancies and inability to convene has hampered the Board’s ability to carry out its statutory duties.

Accordingly, your Committee finds that repealing the State Policy Procurement Board and transferring its duties to the administrator of the State Procurement Office will facilitate and increase efficiency in the rule-making process for procurement in the State. Your Committee further finds that this measure will clarify that the State Procurement Office has the sole responsibility to adopt, amend, and repeal any administrative rules associated with the Hawaii Public Procurement Code.

Your Committee has amended this measure by:

- (1) Making necessary statutory conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2383, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2184 Education on S.B. No. 2182

The purpose and intent of this measure is to establish and fund the position of School Garden Coordinator, within the Department of Education's Office of Curriculum and Instructional Design, to provide technical support and startup resources for schools interested in starting a school garden program.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i Farm to School Hui; Hawai'i Farm Bureau; Hawaii Food Industry Association; Local Food Coalition; Americans for Democratic Action, Center for Getting Things Started; Hawai'i Food+ Policy Internship; Ka Ohana O Na Pua; Hawaii Cattlemen's Council, Inc.; and ten individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that learning where food comes from is an important part of our children's education. School gardens and farms contribute to protecting student health, advancing academic achievement, and strengthening social and emotional well-being. The School Garden Coordinator position proposed by this measure is essential to successfully implement the purpose of the Hawaii farm to school program set forth in Act 175, Session Laws of Hawaii 2021, which aims to improve student health, accelerate garden and farm-based education for public school students, and develop an educated agricultural workforce.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation to encourage further discussion; and
- (2) Clarifying the purview of the School Garden Coordinator position created by this measure to include schools interested in developing a school garden, so as to include existing school garden programs.

Your Committee notes that the estimated appropriation required for this measure is \$200,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2182, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2185 Education on S.B. No. 2816

The purpose and intent of this measure is to:

- (1) Establish and administer the Strong Students Grant Pilot Program to provide grants to eligible students for eligible education expenses; and
- (2) Require progress reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter Schools Commission, HawaiiKidsCAN, and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that recent disruptions to student learning and increased reliance on remote learning have exacerbated the challenge for low-income families to purchase necessary school supplies and equipment for children. Your Committee thus finds that the grant program created by this measure will help families in need to afford critical supplies for the education of children in the State.

Your Committee notes the testimony of the Department of Education regarding equitable concerns related to income and family size qualifications for the pilot program created by this measure.

Accordingly, your Committee has amended this measure by:

- (1) Making amendments to require the Department of Education to adopt rules regarding the prioritization of grant awards to equitably account for family size; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2816, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2186 Labor, Culture and the Arts on S.B. No. 2782

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (1) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (1) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2187 Labor, Culture and the Arts on S.B. No. 2783

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (2) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2783 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2188 Labor, Culture and the Arts on S.B. No. 2784

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (3) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2784 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2189 Labor, Culture and the Arts on S.B. No. 2785

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (4) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2785 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2190 Labor, Culture and the Arts on S.B. No. 2786

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (5) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (5) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2786 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2191 Labor, Culture and the Arts on S.B. No. 2787

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (6) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2192 Labor, Culture and the Arts on S.B. No. 2788

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (7) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawai'i System, and University of Hawaii Professional Assembly.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (7) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2788 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2193 Labor, Culture and the Arts on S.B. No. 2789

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (8) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2789 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2194 Labor, Culture and the Arts on S.B. No. 2790

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (9) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has reviewed and heard testimonies of the Department of Budget and Finance and the Hawaii Government Employees Association stating that an agreement between the Hawaii Government Employees Association and the employer for collective bargaining unit (9) was reached; the registered professional nurses in bargaining unit (9) ratified the four-year contract on January 15, 2022, effective July 1, 2021, to June 30, 2025; and the State received notification of ratification on January 18, 2022.

Your Committee therefore respectfully requests that your Committee on Ways and Means amend this measure by inserting the amount of appropriations and authorization of moneys to effectuate the agreement.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2195 Labor, Culture and the Arts on S.B. No. 2791

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (10) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (10) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2791 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2196 Labor, Culture and the Arts on S.B. No. 2792

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (11) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Fire Fighters Association, International Association of Fire Fighters Local 1463, AFL-CIO.

Your Committee has reviewed the written testimony of the Department of Budget and Finance and Hawaii Fire Fighters Association stating that the interest arbitration proceedings for bargaining unit (11) concluded on January 14, 2022, and the three-member panel is expected to issue a final and binding decision in late March 2022. This measure provides a legislative vehicle that can be used if the arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2792 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2197 Labor, Culture and the Arts on S.B. No. 2793

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (12) and their excluded counterparts.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee notes the testimony from the Department of Budget Finance that a legislative measure may not be necessary for bargaining unit (12).

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2793 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2198 Labor, Culture and the Arts on S.B. No. 2794

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (13) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2794 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2199 Labor, Culture and the Arts on S.B. No. 2795

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (14) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2022 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2795 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2200 Labor, Culture and the Arts on S.B. No. 2796

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2021-2023 for collective bargaining cost items including salary and other cost adjustments for the members of collective bargaining unit (15) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee notes the comments from the Department of Budget Finance that a legislative measure may not be necessary for bargaining unit (15).

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2796 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2201 Judiciary on S.B. No. 312

The purpose and intent of this measure is to propose a constitutional amendment to provide that freedom of speech does not include the expenditure of money to influence elections.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained portions of the contents of this measure and also inserted provisions that:

- (1) Amend section 1 to reflect its amended purpose;

- (2) Clarify that the purpose of the measure is to propose a symbolic amendment to article I, section 4, of the Hawaii State Constitution to provide that the expenditure of money to influence elections is not a form of speech protected under the Hawaii State Constitution; and
- (3) Specify that the question to be printed on the ballot be reflective of the purpose of the measure.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that the United States Supreme Court's decision in *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), reversed long-standing campaign finance restrictions and designated corporate spending on elections as free speech protected under the First Amendment of the Constitution of the United States. The decision removed any limits on the amount of money that corporations, special interest groups, and political action committees could spend on an election. Your Committee further finds that the decision in *Citizens United* is a serious threat to our democracy. Corporations enjoy various advantages, including limited liability, perpetual life, and favorable treatment in the accumulation and distribution of assets, which allow them to amass and spend an extraordinary amount of money on political messages that often have far greater reach and influence than messages from individuals. During the twelve years since the *Citizens United* decision, there has been a massive increase in political spending by corporations, special interest groups, and political action committees, dramatically expanding their already outsized political influence on election outcomes and policy decisions. This measure will demonstrate to the United States Congress that the State disapproves of the *Citizens United* decision.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 312, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

SCRep. 2202 Judiciary on S.B. No. 2388

The purpose and intent of this measure is to require disclosure of electioneering communications to occur on the date of any subsequent expenditures for electioneering communications.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Common Cause Hawaii. Your Committee received comments on this measure from one individual.

Your Committee finds that Act 3, Special Session Laws of Hawaii 2021, repealed the requirement that disclosures of electioneering communications occur on the date of any expenditures subsequent to the initial \$1,000 threshold that triggers disclosure of electioneering communications. Your Committee further finds that as a result, when subsequent expenditures for electioneering communications are made, there is currently no disclosure requirement. This measure reinstates the requirement for disclosures for subsequent expenditures for electioneering communications, which will increase public transparency and accountability in campaign advertising.

Your Committee has amended this measure by:

- (1) Increasing the monetary threshold that triggers disclosure of electioneering communications from \$1,000 to \$2,000;
- (2) Repealing the exception to the definition of "electioneering communication" that excluded those communications that constitute actual expenditures by the expending organization; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2388, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2388, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2203 Energy, Economic Development, and Tourism on S.B. No. 2171

The purpose and intent of this measure is to:

- (1) Authorize independent generators of renewable energy to wheel the renewable electricity they produce to users of renewable energy; and
- (2) Require the Public Utilities Commission (PUC) to adopt administrative rules.

Your Committee received testimony in support of this measure from Hawaii Clean Power Alliance, Tawhiri Power LLC, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy; Hawaii State Energy Office; Public Utilities Commission; Hawaii Electric Company, Inc.; and one individual.

Your Committee finds that, to reach its goal to be one hundred per cent renewable energy by 2045, the State must continue to support established renewable energy sources that do not create significant greenhouse gas emissions and new sources that are emerging from new technological innovations. Retail wheeling occurs when electric power is transmitted from an independent generator of renewable energy to the facilities of renewable energy users over the existing transmission lines of a third-party electric public utility. According to testimony from the PUC, implementing retail wheeling in the State is an intense process that requires

resources that are currently devoted to other priority issues. Your Committee further finds that allowing the enforcement of the retail wheeling by order, as well as through administrative rules, will allow the PUC to effect the intent of this measure more efficiently.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that protects consumers from substandard services and other potential adverse impacts;
- (2) Allowing the PUC to implement the provisions of this measure by administrative rule or order;
- (3) Delaying the establishment of retail wheeling rules and the submission deadline for the legislative report for one year; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2171, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2204 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 3025

The purpose and intent of this measure is to:

- (1) Create a licensing scheme for digital currency companies to be regulated by the Department of Commerce and Consumer Affairs' Division of Financial Institutions;
- (2) Continue the study of use cases by the Hawaii Technology Development Corporation; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Hawai'i Technology Development Corporation and five individuals. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii and two individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Grassroot Institute of Hawaii.

Your Committees find that digital currency has grown in popularity, however, there is little regulation of the industry. According to research conducted by the Division of Financial Institutions and the Hawaii Technology Development Corporation in the Digital Currency Innovation Lab, it has been determined that the current regulatory scheme of the money transmitter law does not comport with the activities conducted by digital currency. This measure would create a new licensing scheme to provide greater consumer protections.

Your Committees note that S.B. No. 3076 (Regular Session of 2022), is a substantially similar measure with the similar purpose of regulating digital currency that includes preferred language that provides a phased approach to allow for the orderly transition from the Digital Current Innovation Law to the new licensing scheme.

Accordingly, your Committees have amended by this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3076, a substantially similar measure, which:
 - (A) Establishes a program for the licensure, regulation, and oversight of digital currency companies;
 - (B) Implements a phased application of the licensing program to the companies authorized to participate in the Digital Currency Innovation Lab; and
 - (C) Appropriates funds out of the Compliance Resolution Fund to implement the licensing program;
- (2) Clarifying the definition of "tangible net worth" to mean total assets excluding intangible assets, less total liabilities, in accordance with United States Generally Accepted Accounting Principles;
- (3) Exempting from the licensing program, non-custodial digital currency business activity by a person using a digital currency acknowledged as legal tender by the United States, or government recognized by the United States, or that has been determined to not be a security by a United States regulatory agency;
- (4) Clarifying that each licensee shall be prohibited from selling, transferring, assigning, lending, hypothecating, pledging, or otherwise using or encumbering assets, including digital currency, stored, held, or maintained by, or under the custody or control of, the licensee on behalf of another person except for the sale, transfer, or assignment of the assets at the direction of that other person, unless clearly presented and stated to the client that doing so is the intent of the product;
- (5) Clarifying that a licensee engaged in digital currency business activities shall maintain at all times a tangible net worth of not less than \$500,000, or in an amount determined by the Commissioner of Financial Institutions necessary to ensure safe and sound operation;
- (6) Inserting an effective date of July 31, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of

S.B. No. 3025, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3025, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2205 (Majority) Water and Land on S.B. No. 2755

The purpose and intent of this measure is to limit the discretion of the Department of Land and Natural Resources Land Division by requiring all decisions to revoke, limit, remove, or shorten Department of Land and Natural Resources leases and revocable permits, and issuance of condemnations, to be approved by the Board of Land and Natural Resources.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the effective management of public lands and oversight of land usage is necessary to ensure the benefit to Hawaii's people. Currently, the Department of Land and Natural Resources Land Division has broad discretion to revoke, limit, remove, or shorten leases; issue condemnations; and rescind revocable permits without prior approval from the Board of Land and Natural Resources. This measure will provide an enhanced review of public land leases and revocable permits to benefit Hawaii's residents and allow the State to repurpose land for optimal usage.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2755 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2206 Water and Land on S.B. No. 2764

The purpose and intent of this measure is to expand exclusions to the definition of "development" in Chapter 205A, Hawaii Revised Statutes, to reduce the need for special management area permits for certain activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that many parts of the State fall within both Special Management Areas and the State Land Use Conservation District. Activities therefore may require both special management area permits and district use permits. Since requirements for both special management area and district use permits differ, understanding and complying with both permit conditions may be complicated and difficult. This measure reduces the need for special management area permits for certain activities by expanding exclusions to the definition of "development" in Chapter 205A, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Reverting to existing statutory language regarding the demolition or removal of structures, except those structures located on any historic site as designated in national or state registers;
- (2) Clarifying exclusions for public pedestrian and bicycle facilities regarding installation, maintenance, repair, and replacement;
- (3) Clarifying trash removal exclusions to include invasive vegetation control, excluding the use of herbicides;
- (4) Clarifying exclusions for installation of fencing for invasive species control or preservation of native habitat on conservation land;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2764, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2207 Water and Land on S.B. No. 3377

The purpose and intent of this measure is to prohibit any person from presetting commercial beach equipment on any beach encumbered by easements in favor of the public.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, and two individuals.

Your Committee finds that despite enforcement by officers from the Department of Land and Natural Resources Division of Conservation and Resources Enforcement, the court dismissed citations issued to commercial vendors who preset beach umbrellas and chairs on Waikiki Beach. The Department of Land and Natural Resources has received numerous complaints regarding presetting of equipment on Waikiki Beach. Despite time spent on enforcement, the lack of a clear definition of "presetting" allows issues to persist. To address both residents' ability to freely utilize public beaches and the visitor industry's desire to provide amenities to guests, this measure clarifies the definition of "presetting" to require the presence of a guest and applies only to public beaches encumbered by public access easements.

Your Committee has amended this measure by:

- (1) Restricting prohibited commercial activities on beaches to public lands, not private lands, such as accreted lands;
- (2) Requiring a customer to be present on the beach before commercial vendors can preset beach equipment or watercraft for immediate use;
- (3) Clarifying the definition of "preset";
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3377, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3377, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2208 (Joint) Housing and Human Services on S.B. No. 2504

The purpose and intent of this measure is to:

- (1) Establish the Landlord Incentive Program Special Fund;
- (2) Provide incentives for landlords who participate in certain Hawaii Public Housing Authority voucher programs; and
- (3) Make an appropriation to the special fund.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, State Council on Developmental Disabilities, Partners in Care, Hawai'i Health & Harm Reduction Center, Hawai'i Association of REALTORS®, Catholic Charities Hawai'i, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that this measure provides vital incentives for landlords who participate in certain voucher programs. According to testimony received from Catholic Charities Hawai'i, the Hawaii Public Housing Authority needs greater flexibility to incentivize landlords to participate in the Section 8 housing first voucher program.

Accordingly, your Committees have amended this measure by:

- (1) Allowing funds from the landlord incentive special fund be used to provide rent reimbursement incentives; and
- (2) Including additional voucher programs through which land owners may be eligible for the landlord incentive program.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2504, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2504, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 5. Noes, none. Excused, none.
Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2209 (Joint) Housing and Human Services on S.B. No. 3018

The purpose and intent of this measure is to:

- (1) Establish a kauhale program under the Hawaii Public Housing Authority to provide housing services to chronically homeless individuals;
- (2) Provide continued exemptions for existing low-income rentals, tiny homes, and kauhale;
- (3) Establish an advisory committee to assist the Corporation; and
- (4) Make an appropriation.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, Hawai'i Health & Harm Reduction Center, Partners in Care, Opportunity Youth Action Hui, HomeAid Hawaii, Hui Aloha, Ka Po'e O Kaka'ako, The Radical Hale – Outreach with Aloha, Hawai'i Appleseed, and eight individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Hawaii Housing Finance and Development Corporation, State Procurement Office, The Michaels Organizations, League of Women Voters of Hawaii, EAH Housing, and one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness; Department of the Attorney General; Office of Information Practices; Department of Budget and Finance; and Stanford Carr Development, LLC.

Your Committees find that homelessness continues to be one of Hawaii's most persistent challenges and that kauhale can provide support for homeless individuals throughout the State. Your Committees further find that, while the exemptions for kauhale included in this measure allow for the rapid construction of low-cost tiny homes, certain regulatory exemptions do not allow for adequate review by state agencies.

Accordingly, your Committees have amended this measure by:

- (1) Placing the kauhale program under the administration of the Hawaii Public Housing Authority, with consultative roles for the Department of Health and Department of Human Services, and replacing references to the Hawaii Housing Finance and Development Corporation with references to the Hawaii Public Housing Authority;
- (2) Removing language that applies the provisions of this measure only to the chronically homeless;
- (3) Removing exemptions for the kauhale program applicable to appropriations, environmental, procurement, and sunshine laws;
- (4) Expanding the advisory committee to include one member from Partners in Care and one member from Bridging the Gap Hawaii;
- (5) Including exemptions for existing low-income rentals, tiny homes, and kauhale consistent with the Governor's 2015 and 2018 proclamations on homelessness;
- (6) Making this measure effective on July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3018, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3018, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Human Services: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2210 Housing on S.B. No. 2901

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to conduct a study of county ordinances on housing finance and development; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that county ordinances play a central role in the State's affordable housing development. In many instances, county ordinances can pose a significant barrier to the feasibility and affordability of housing units developed in the State. This measure directs the Hawaii Housing Finance and Development Corporation to conduct a study of each county's housing finance and development ordinances to determine their effect on affordable housing development under the Corporation.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000; and
- (2) Extending the due date for the submission of the report to the Legislature to 2024.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2901, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2211 Housing on S.B. No. 2315

The purpose and intent of this measure is to require the Hawaii Housing Finance and Development Corporation to gather certain data as part of its housing advocacy and information system.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that a critical challenge in the development of affordable housing is a lack of data. Even for affordable housing developed by the State, there is insufficient information on the number of units that have been completed and the number of projects under development. This measure requires that the Hawaii Housing Finance and Development Corporation gather certain data on housing and affordable housing development in the State.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$320,000 for the Corporation to contract with a consultant to develop an information system and to hire a research assistant to manage the system; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2315, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2315, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2212 Housing on S.B. No. 2870

The purpose and intent of this measure is to require the Hawaii Public Housing Authority to consider the severity of the basis when considering to terminate a lease and evict a tenant, and to make a determination that no alternative remedy is available before taking action to evict.

Your Committee received testimony in support of this measure from the Hawai'i Health & Harm Reduction Center, Akamai Cannabis Clinic, and two individuals. Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that eviction from public housing units can pose a significant challenge to many individuals and families. Given the significance of eviction for those individuals and families, it is essential that all other alternatives are considered. However, your Committee further finds that the Hawaii Public Housing Authority has already established procedures for the eviction of tenants that consider alternative options and that federal regulations require strict enforcement of certain policies.

Accordingly, your Committee has amended this measure by:

- (1) Limiting the application of the measure to public housing administered by the State and to marijuana use;
- (2) Establishing a formal process for evicting a tenant for marijuana use;
- (3) Requiring the Hawaii Public Housing Authority to file for exemptions to federal regulations concerning the use of controlled substances; and
- (4) Allowing exemptions to eviction for tenants who present sufficient medical documentation.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2870, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2870, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2213 Housing on S.B. No. 3281

The purpose and intent of this measure is to increase the minimum number of residential units in a condominium project that must be offered for sale to prospective owner-occupants in the thirty-day period following the initial date of sale of the condominium from fifty percent to ninety percent.

Your Committee received no testimony on this measure.

Your Committee finds that Hawaii faces a homeownership crisis. Many in the State are unable to afford the high cost of homeownership in Hawaii, which is driven by speculation in the real estate market. This measure will increase the availability of housing by requiring a higher percentage of residential units to be offered for sale to owner-occupants.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3281 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2214 Housing on S.B. No. 3048

The purpose and intent of this measure is to authorize the transfer of excess moneys from the Rental Housing Revolving Fund to the Dwelling Unit Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation has legacy funds within the Rental Housing Revolving Fund derived from tax-exempt general obligation bond proceeds. The tax-exempt funds have limited usefulness for affordable rental housing development because under United States Treasury regulations, tax-exempt funds cannot be used to finance projects that also use low-income housing tax credits. This measure transfers funds from the Rental Housing Revolving Fund to the Dwelling Unit Revolving Fund, where they can be used to support public infrastructure projects. However, your Committee notes that it has concerns about how the funds in the Rental Housing Revolving Fund and Dwelling Unit Revolving Fund are used by the Hawaii Housing Finance and Development Corporation and that there is a need for greater clarity.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3048, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki, Rhoads, Fevella). Noes, none. Excused, none.

SCRep. 2215 Human Services on S.B. No. 2878

The purpose and intent of this measure is to:

- (1) Expand the original jurisdiction of family court to include proceedings for declaration of emancipation of minors;
- (2) Expand the circumstances under which a minor shall be deemed to be emancipated;
- (3) Specify the rights of an emancipated minor;
- (4) Allow a minor who has reached the age of sixteen years to petition the family court for a declaration of emancipation;
- (5) Allow certain parties to petition the family court for voidance or rescission of a declaration of emancipation;
- (6) Set forth court procedures and standards in issuing, voiding, and rescinding a declaration of emancipation; and
- (7) Allow parties to appeal the court's decisions pertaining to emancipation to the Intermediate Court of Appeals.

Your Committee received testimony in support of this measure from Hawaii Youth Services Network, Opportunity Youth Action Hui, Stonewall Caucus of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Human Services and Judiciary.

Your Committee finds that not all minors in Hawaii have parents or families that can or are willing to provide them with the necessary food, shelter, clothing, opportunity for education, and health care. While various government agencies and non-profit organizations strive to provide these minors with these necessities, your Committee acknowledges that there are certain circumstances in which it may be in the best interest of the child to be emancipated--freed from the custody and control of the parents and be given the rights and responsibilities of an adult. However, under existing Hawaii law, the only way a minor can be emancipated is to get married. This measure allows minors to voluntarily petition the court for a declaration of emancipation based on other reasons and sets forth the procedures and standards for the court to issue, void, and rescind such declarations.

Your Committee notes the testimony of the Hawaii Youth Services Network recommending that the measure include provisions to ensure that the minor is not seeking emancipation under duress.

Your Committee further notes the testimony of the Department of Human Services, requesting the deletion of the provision in this measure that requires Child Welfare Services to investigate the allegations set forth in a petition for declaration of emancipation and report the results to the court, due to the fact that the Department does not have staff or resources to perform these tasks.

Your Committee also notes the testimony of the Judiciary, providing comments and concerns on various provisions in the measure.

Accordingly, your Committee has amended this measure by:

- (1) Deleting from the basis of emancipation, the minor being on active duty with the armed forces of the United States;
- (2) Clarifying that emancipation does not prevent the minor from continuing to receive educational, mental health, or other services the minor is receiving solely due to the minor's age;
- (3) Requiring the petition for declaration of emancipation to be filed on behalf of a minor seeking emancipation, by a youth service organization recognized by the Department of Human Services or the minor's attorney;
- (4) Deleting the requirements that the court, upon receiving a petition for declaration of emancipation:
 - (A) Appoint a legal counsel to represent the interest of the minor;
 - (B) Require Child Welfare Services to investigate the allegations set forth in a petition and report the results to the court; and
 - (C) Provide the minor with a pamphlet written in plain language and counseling that informs the minor of the rights and responsibilities of an emancipated minor and alternative options to emancipation available to the minor;
- (5) Clarifying that clear and convincing evidence that the minor is not seeking emancipation under duress, including by coercion of a parent or guardian is required for the court to issue a declaration of emancipation; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2878, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2216 Human Services on S.B. No. 3237

The purpose and intent of this measure is to:

- (1) Expand the investigative power of the Department of Human Services to include children who have been adopted or have been placed in legal guardianship, whose adoptive families or legal guardians are receiving federal or state financial assistance;
- (2) Expand the investigative power of the Department of Human Services to include children in the foster care system for whom there is a pending petition for adoption or an adoption decree has been issued but has not yet been placed in the custody of the adoption petitioner;
- (3) Establish a two-year Crisis Mobile Outreach Team Pilot Program within the Department of Health to expand and support existing crisis response services and programs for at-risk youth;
- (4) Appropriate funds for the Crisis Mobile Outreach Team Pilot Program, including funds to hire and train mental health professionals with trauma-informed training and experience working with youth;

- (5) Appropriate funds for the Department of Human Services to hire additional case workers and support staff that would conduct annual or semi-annual in-home visits for families receiving adoption assistance or legal guardianship assistance; and
- (6) Appropriate funds for the Department of Human Services to fill vacancies and retain employees in existing child welfare services case worker positions.

Your Committee received testimony in support of this measure from the Department of Health, Waimanālo Neighborhood Board No. 32, and eleven individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services and two individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and two individuals.

Your Committee finds that many children in foster care continue to require support from Child Welfare Services after being placed in permanent custody of a family through adoption or legal guardianship. To prevent cases like the recent abuse and death of Isabella Kalua, born Ariel Sellers, and other similar past tragedies befalling children who were or had previously been under the protection and legal jurisdiction of the State, the network of state systems that protect and ensure the safety and security for at-risk children must be enhanced. This measure expands the authority of the Department of Human Services to allow case workers to conduct home visits of children whose adoptive families and legal guardians receive federal and state funding, and children in foster care whose adoption has not been completed. This measure also establishes a two-year Crisis Mobile Outreach Team Pilot Program within the Department of Health to expand and support existing crisis response services and programs for at-risk youth beginning July 16, 2022.

Your Committee has reviewed the testimony of the Department of the Attorney General raising concerns that the investigation of families by the Department of Human Services pursuant to this measure may affect the constitutional rights of parents, including adoptive parents, to raise their children, which limits an investigator's ability to investigate families without reasonable cause. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the review or investigation of families that are prescribed and performed by the Department of Human Services or its authorized agents pursuant to this measure shall be in accordance with chapters 350 and 587A, Hawaii Revised Statutes;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committees on Ways and Means and Judiciary further examine those issues and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3237, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2217 Human Services on S.B. No. 3323

The purpose and intent of this measure is to:

- (1) Increase the amount of interest in real property that is exempt from attachment and execution to \$100,000 from the existing amount of \$30,000 for heads of households and individuals sixty-five years of age or older and \$20,000 for all other persons;
- (2) Amend the value of personal property that is exempt from attachment and execution, including:
 - (A) Amending the exemption amount from \$1,000 to fair market value for necessary household furnishings and appliances, books, clothes, jewelry, watches, and items of personal adornment used by the debtor or debtor's family; and
 - (B) Increasing the exemption amount from \$2,575 to \$15,000 for a motor vehicle; and
- (3) Exempt from attachment or execution, an amount equal to one month of child support and one month of spousal support in the possession of a debtor who is the recipient of the support payment.

Your Committee received testimony in support of this measure from Hawai'i Health & Harm Reduction Center; Neighborhood Place of Puna, Habitat for Humanity Hawaii Island, Inc.; Hawaii Debt Solutions; Hope Services Hawaii; and two individuals. Your Committee received testimony in opposition to this measure from Hawaii Financial Services Association; Mortgage Bankers Association of Hawaii, Hawaii Credit Union League, and the Collection Law Section of the Hawaii State Bar Association.

Your Committee finds that state laws exempting real and personal property from attachment and execution have not been updated since 1978 and 1999, respectively, despite the significant increase in housing prices and inflation. Your Committee also finds that existing law does not provide protection for amounts of child and spousal support received by the debtor. This measure increases the asset protection for real and personal property and creates an exemption for child and spousal support, which will allow workers and families who are facing short-term economic hardship to retain assets that are essential to their livelihood and regain financial stability.

Your Committee has amended this measure by:

- (1) Clarifying that the exemption for real property applies to the debtor's equity interest in the property; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3323, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2218 (Joint) Human Services and Housing on S.B. No. 2723

The purpose and intent of this measure is to appropriate funds to support the State Rent Supplement Program administered by the Hawaii Public Housing Authority.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Governor's Coordinator on Homelessness, Catholic Charities Hawai'i, Partners in Care, Hawai'i Health & Harm Reduction Center, The Radical Hale, and five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Hawaii has one of the highest homelessness rates per capita in the nation. The State Rent Supplement Program is a rent subsidy program administered by the Hawaii Public Housing Authority that assists households who are close to financial self-sufficiency but are not, due to Hawaii's high cost of living. Your Committees believe that the program, which keeps its participants housed and employed and helps them eventually achieve self-sufficiency, is a cost-effective approach to prevent homelessness in comparison to the high expense of assisting families who have already become homeless. Therefore, your Committees find that the continued operation of the program is critical to alleviate the homelessness crisis in Hawaii.

Your Committees note the Hawaii Public Housing Authority's testimony expressing that it is willing to open its statewide waiting list and assist two hundred additional families; provided that additional funding and one Public Housing Specialist II position is provided.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the State Rent Supplement Program to provide rent supplements to two hundred additional qualified tenants from its waitlist;
- (2) Including in the appropriation, funding for one full-time equivalent (1.0 FTE) Public Housing Specialist II position within the Hawaii Public Housing Authority; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriation is blank, the Hawaii Public Housing Authority's testimony provides that the program is facing a deficit of approximately \$500,000 for fiscal year 2022-2023 and that an additional \$1,000,000 and one Public Housing Specialist II position will be needed to assist an additional two hundred new families from its waitlist.

Your Committees have also reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2723, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2723, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 5. Noes, none. Excused, none.
Housing: Ayes, 5. Noes, none. Excused, none.

SCRep. 2219 (Joint) Human Services and Housing on S.B. No. 2677

The purpose and intent of this measure is to establish the Long-Term Rental Assistance Pilot Program for individuals who are over sixty-two years of age and are homeless or at imminent risk of becoming homeless to be administered by the Hawaii Public Housing Authority.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Governor's Coordinator on Homelessness, Catholic Charities Hawai'i, Partners in Care, AARP Hawai'i, Hawai'i Health & Harm Reduction Center, Change AGENTS Hawaii, Hawaii Family Caregiver Coalition, Free Access Coalition, and seven individuals. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Department of Budget and Finance and Executive Office on Aging.

Your Committees find that homelessness is one of the most pressing problems in Hawaii. Nearly one-third of Hawaii households who rent their residences are severely housing-cost burdened, meaning that over half of their monthly income goes to rent and utilities. As the housing prices in Hawaii continue to skyrocket, the housing cost burden is particularly heavy for seniors who are on a fixed income, such as those receiving Social Security or disability benefits, with limited family support. This measure creates a rent subsidy program to assist Hawaii's kupuna who are experiencing heavy housing cost burdens.

Your Committees note the testimony from the State Procurement Office raising concerns over the exemption from the Hawaii Public Procurement Code provided to the Hawaii Public Housing Authority in selecting a qualified non-profit organization to administer the

program. Your Committees also note testimony from Catholic Charities Hawai'i suggesting that the age criteria for the program be amended to match the age criteria for many senior affordable rental projects, which is sixty-two years of age and older.

Your Committees have also reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully request that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Accordingly, your Committees have amended this measure by:

- (1) Amending the age criteria for the Long-Term Rental Assistance Pilot Program from "over sixty-two years of age" to "sixty-two years of age or older";
- (2) Deleting the exemption from the Hawaii Public Procurement Code provided to the Hawaii Public Housing Authority in selecting a qualified non-profit organization to administer the pilot program;
- (3) Clarifying that the Hawaii Public Housing Authority is required to submit a report to the Legislature of its findings and recommendations, including any proposed legislation, regarding the pilot program no later than one month prior to the convening of the regular sessions of 2023, 2024, and 2025;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2677, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Housing: Ayes, 5. Noes, none. Excused, none.

SCRep. 2220 (Joint) Human Services and Housing on S.B. No. 3168

The purpose and intent of this measure is to:

- (1) Provide additional funding to the Ohana Zones Pilot Program;
- (2) Extend the Ohana Zones Pilot Program's expiration by five years, to June 30, 2028; and
- (3) Establish a permanent Ohana Zones Program, to be placed within the Department of Human Services for administrative and funding purposes, upon the expiration of the pilot program on June 30, 2028.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Land and Natural Resources, Department of Human Services, Catholic Charities Hawai'i, Partners in Care, Opportunity Youth Action Hui, Hawai'i Health & Harm Reduction Center, Hawai'i Appleseed Center for Law & Economic Justice, Planning for Community LLC, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the Ohana Zones Pilot Program was established in 2018 to develop Ohana Zones on each of the islands of Oahu, Hawaii, Kauai, and Maui, to provide temporary and permanent housing and other needed services to individuals and families experiencing homelessness. Your Committees find that since its establishment, the pilot program has supported twenty projects statewide and as of November 2021, aided 5,510 homeless individuals statewide, including 1,368 that transitioned into permanent housing. Your Committees believe that an extension of the Pilot Program will provide the State with additional resources to address the increase in the levels of homelessness and housing instability statewide.

Your Committees note that S.B. No. 3108 and its companion, H.B. No. 2140, introduced in the Regular Session of 2022, are measures by requested the administration to extend the sunset date of the Ohana Zones Pilot Program to June 30, 2026, and appropriate \$15,000,000 for the program.

Your Committees have also reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully request that your Committee on Ways and Means further examine those issues and concerns raised by the testimonies on this measure.

Accordingly, your Committees have amended this measure by:

- (1) Establishing an Ohana Zones Program within the Hawaii Public Housing Authority as part of its Rental Assistance Programs, rather than within the Department of Human Services, upon expiration of the Ohana Zones Pilot Program on June 30, 2028;
- (2) Inserting a \$15,000,000 appropriation amount for the extension of the Ohana Zones Pilot Program and expenses related to facility construction, renovation, and maintenance; provision of services and staffing; and administrative costs;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3168, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3168, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 5. Noes, none. Excused, none.
Housing: Ayes, 5. Noes, none. Excused, none.

SCRep. 2221 Judiciary on S.B. No. 3250

The purpose and intent of this measure is to:

- (1) Establish an income tax surcharge on high-income individuals, estates, and trusts; and
- (2) Establish a working group within the Department of Taxation to develop a proposal for a state wealth tax.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Grassroots Institute of Hawaii.

Your Committee finds that extremely wealthy individuals whose incomes are immensely higher than most are not taxed at much higher rates than individuals whose income is greatly less. Increasing taxes on wealthy individuals will generate more revenue for the benefit of the State's economy. This measure will ensure that individuals with extremely high income pay their equitable share of taxes.

Your Committee has amended this measure by:

- (1) Removing language establishing an income tax surcharge on high-income individuals and penalties;
- (2) Establishing two additional marginal tax rates for joint filers whose income exceeds \$10,000,000 and \$25,000,000, head of households whose income exceeds \$7,500,000 and \$18,750,000, individuals whose income exceeds \$5,000,000 and \$12,500,000, and estates and trusts that have income exceeding \$200,000 and \$500,000, respectively;
- (3) Removing the Chair of the Tax Review Commission from the working group;
- (4) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3250, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3250, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2222 Education on S.B. No. 3190

The purpose and intent of this measure is to require the Department of Education to establish a native fish hatchery pilot program at Waianae High School.

Your Committee received testimony in support of this measure from the Department of Education, Kua 'Āina Ulu 'Auamo, and the Health Committee of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that loko i'a, or traditional fishponds, offer a critical opportunity for realizing the promise of Hawaii's sustainable future, as they represent a unique nexus of environmental, cultural, social, and economic benefits.

Your Committee further finds that the marine science learning center at Waianae High School currently has a functioning aquaculture facility with a saltwater well that has been the central focus of the science curriculum delivered to students enrolled for more than twenty-five years. This center is uniquely positioned to facilitate the transmission of skills necessary to produce sizable amounts of mullet fingerlings to supply fishponds and take mullet through their life cycle to future generations.

Accordingly, this measure supports the State's agricultural production and sustainability goals by establishing and funding a native fish hatchery pilot program at Waianae High School.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the estimated appropriation required by this measure is \$855,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3190, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2223 Education on S.B. No. 2545

The purpose and intent of this measure is to establish a permanent school composting grant program within the Department of Education.

Your Committee received testimony in support of this measure from the Hawai'i Farm to School Hui, Hawai'i Farm Bureau, Center for Getting Things Started, and six individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that on-site school campus composting programs involving students have been successful in providing a beneficial method of waste diversion. These programs provide numerous benefits to students, taxpayers, and the environment. Accordingly, this measure will provide a broad range of benefits to schools and the larger community by establishing a permanent school composting grant program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the Department of Education submitted comments that this measure does not contain the necessary funding for the program.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2545, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2224 Education on S.B. No. 2891

The purpose and intent of this measure is to require the Department of Education to conduct a study for the inclusion of food hubs in the procurement strategy for the Aina Pono Hawaii State Farm to School Program.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Farm to School Hui, Hawai'i Farm Bureau, Ulupono Initiative, Hawaii Tropical Fruit Growers, Hawai'i 'Ulu Producers Cooperative, Hawaii Food Hub Hui, Center for Getting Things Started, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Ka Ohana O Na Pua, and Hawaii Farmers Union United.

Your Committee finds that the Department of Education serves over one hundred thousand nutritionally balanced, affordable meals each day to over eighty-five percent of the youth in Hawaii. Your Committee also finds that the Aina Pono Hawaii State Farm to School Program has immense potential to improve students' health and academic performance by providing fresh and nutritional foods each day.

Your Committee further finds, however, that additional support infrastructure is necessary for the Aina Pono Hawaii State Farm to School Program to realize its full potential. Your Committee also finds that food hubs provide facilities and infrastructure that aggregate, process, and distribute farm products to consumers. These hubs can serve as a critical link between farmer and consumer.

Accordingly, your Committee finds that this measure will encourage the continued success of the Aina Pono Hawaii State Farm to School Program by requiring a study of the inclusion of food hubs in the procurement strategy for the Aina Pono Hawaii State Farm to School Program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2891, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2891, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2225 Education on S.B. No. 3090

The purpose and intent of this measure is to provide greater fiscal transparency by broadening the purposes for which indirect costs incurred by the Department of Education, State Public Charter School Commission, or a charter authorizer from federal grants may be reimbursed under section 302A-1405, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that indirect cost funds are reimbursed from federal grants received by the Department of Education for costs incurred in support of administrative and general business operations based on a negotiated rate with the federal government that is

assessed against allowable federal grant expenditures. Your Committee also finds that the Department of Education is required by statute to retain all federal indirect cost funds that it realizes.

Accordingly, your Committee finds that this measure will increase financial transparency by making indirect costs from all federal grants, whether discretionary or non-discretionary, available for deposit into the Federal Grants Revolving Fund authorized under section 302A-1405, Hawaii Revised Statutes. The allowable use of these funds include the pursuit of additional discretionary grants, monitoring grant execution, compliance with grant requirements, and the auditing of grant expenditures. Your Committee additionally finds that depositing indirect cost funds into the existing revolving fund will support better intentional, planned, and transparent use of these funds.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3090, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3090, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2226 Education on S.B. No. 3091

The purpose and intent of this measure is to:

- (1) Broaden the scope of profit-making operations students may engage in at public schools to include commercial enterprises, while ensuring that engagement in commercial enterprises shall be related to the primary educational purposes of the school, career pathway, academy, or program; and
- (2) Allow students who engage in commercial enterprises at public schools to receive school credit, compensation, or both.

Your Committee received testimony in support of this measure from the Department of Education and one individual.

Your Committee finds that existing law is unclear and overly restrictive regarding the commercial activities that students may engage in at public schools. Your Committee finds that commercial undertakings, in certain circumstances, provide valuable workforce education and skills development. This is particularly true for the agricultural industry.

Your Committee also finds that allowing students to engage in certain commercial activities at school fosters the development of the confidence and entrepreneurial spirit necessary to tackle many of the State's most challenging issues in the future.

Accordingly, this measure clarifies that students may engage in profit-making commercial operations at public schools, under rules established by the Department of Education, and may receive school credit, monetary compensation, or both, as a result of their participation in such activities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3091, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2227 Judiciary on S.B. No. 2210

The purpose and intent of this measure is to:

- (1) Require the Chief Election Officer, with assistance from the county clerks for elections that involve county offices and countywide ballot issues, to publish and distribute a voters' pamphlet; and
- (2) Appropriate monies to allow the Chief Election Officer to publish and distribute a voters' pamphlet for each election.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, Green Party of Hawai'i, and seven individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, Office of Elections, and Office of the County Clerk of the County of Kaua'i.

Your Committee finds that all states make an effort to inform the electorate about upcoming elections, where and when the elections will be held, and how to cast a vote. Your Committee further finds that some states publish and distribute voters' pamphlets to registered voters that contain valuable information such as candidate information, judicial performance reviews, descriptions of elected offices, or background information on constitutional amendments or ballot measures. This measure will provide for voters' pamphlets, which will create a more informed and engaged voting public.

Your Committee notes that should this measure continue this legislative session, the effective date should be amended to July 1, 2023, and the publishing of the voter's pamphlets should be implemented starting with the 2024 primary. Since the implementation would not start until the 2024 primary, there would be no appropriation needed in the 2022-2023 fiscal year. Your Committee further notes that the Office of Elections has testified that it will need \$16,300,000 to publish and distribute the voters' pamphlet. The Office of Elections also testified that they would produce a five hundred page master ballot. There was discussion amongst your Committee's members regarding only distributing the relevant portions of the master ballot to each voter. Your Committee also notes that several committee members had serious questions about candidate statements and whether or not they should be removed from the voters'

pamphlets or whether the Office of Elections should write a general statement about the candidates rather than have the candidates write the statements themselves. Also, committee members discussed the possibility of including the website address or QR codes for a candidate on the voters' pamphlets and whether that would inequitably burden voters who are low income or lack access to internet technology. Your Committee notes that there were also discussions by committee members regarding whether to use a digital voters' pamphlet instead of a printed voters' pamphlet to reduce costs. Finally, your Committee notes that this measure is a work in progress.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Budget and Finance for each statewide ballot issue or by the respective county counterpart agency for each countywide ballot issue listed on the ballot shall prepare the fiscal impact statement;
- (2) Specifying that the voters' pamphlets shall be distributed no later than the day the ballot package is mailed, either included in the ballot package or mailed separately;
- (3) Specifying that the fiscal impact statement shall contain an estimate on the fiscal impact of a ballot issue failing to pass;
- (4) Specifying that a candidate shall not challenge an argument statement;
- (5) Clarifying that the candidate may petition the circuit court of competent jurisdiction for a judicial determination if the candidate believes a candidate statement, not an argument or rebuttal statement, contains false or defamatory information;
- (6) Exempting the counties, in addition to the State, from liability for damages resulting from the publication of the argument, rebuttal, or candidate statement unless the chief election officer or county clerks publish the statement in violation of an order;
- (7) Specifying that upon agreement to resolve a dispute, if an argument statement committee has not yet submitted its rebuttal statement, its deadline to submit a rebuttal statement is extended by five days;
- (8) Specifying that upon agreement to resolve a dispute, if an argument statement committee has submitted a rebuttal statement, the committee may revise the rebuttal statement to address the change within five days of the filing of the revised argument with the chief election officer;
- (9) Removing the appropriation;
- (10) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2210, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, 1 (Acasio).

SCRep. 2228 Judiciary on S.B. No. 3215

The purpose and intent of this measure is to authorize cost of living expenses, as determined by the self-sufficiency standard for the State, to be protected from certain garnishments.

Your Committee received testimony in support of this measure from Hawai'i Alliance for Progressive Action, Pono Hawai'i Initiative, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Financial Services Association; MEDCAH, Inc.; Guardian Capital Management Hawaii; and one individual. Your Committee received comments on this measure from the Hawaii Credit Union League and one individual.

Your Committee finds that wage garnishment occurs when a court orders an employer to withhold a specified percentage of an employee's paycheck for payment of a debt. Hawaii law exempts from wage garnishment a portion of the defendant's income remaining after the deduction of any amounts required by law to be withheld. Your Committee further finds that this exemption currently does not sufficiently protect consumers, as Hawaii's cost of living is among the highest in the nation. Many individuals subject to garnishment may have to file for bankruptcy, become homeless, experience other negative financial outcomes, or become a burden on the State's social services. This measure will reduce the financial harms imposed on individuals and families subject to existing garnishment law.

Your Committee has amended this measure by:

- (1) Removing language that would have established a cost of living exemption from certain garnishments;
- (2) Specifying that the withholding amount for purposes of wage garnishment is five percent of the first \$200 per month, ten percent of the next \$200 per month, and twenty percent of all sums in excess of \$400 per month; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3215, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3215, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Fevella).

SCRep. 2229 Commerce and Consumer Protection on S.B. No. 2277

The purpose and intent of this measure is to:

- (1) Prohibit a contractor from advertising or promising to pay or rebate a property or casualty insurance deductible, or any portion thereof, to induce an insured property owner to purchase goods or services;
- (2) Allow an insured to rescind a contract with a contractor within five business days after the date the contract is executed;
- (3) Require a contractor to furnish a property owner with a written five-business-day right of rescission form advising the property owner of the legal right to rescind the contract within the allotted time;
- (4) Require a contractor to return funds to an insured homeowner within five business days of receipt of an executed right of rescission notice; and
- (5) Prohibit a contractor from representing or negotiating, or offering or advertising to represent or negotiate, on behalf of an insured or claimant in connection with the repair or reconstruction work associated with any insurance claim.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council, Hawaii Public Adjusters, National Insurance Crime Bureau, American Property Casualty Insurance Association, National Association of Public Adjusters, United Policyholders, and one individual. Your Committee received testimony in opposition to this measure from the Roofing Contractors Association of Hawaii. Your Committee received comments on this measure from the Contractors License Board and State Farm Automobile Insurance Company.

Your Committee finds that contractor fraud, particularly involving roofing and roofing-related services, continues to be a widespread problem across the country, including in Hawaii. After a storm, some unscrupulous contractors use the catastrophe to prey upon already vulnerable consumers by making misrepresentations that the replacement of their roof will be covered by their insurance policy. If an insured is coerced into signing a contract with a contractor to make extensive repairs that an insurance adjuster later determines were unnecessary or not covered, the consumer remains contractually obligated to pay for repairs they do not need and cannot afford. This measure joins Hawaii with twenty-two other states that have adopted similar consumer protection laws aimed at limiting the scope in which contractors can engage with homeowners to prevent consumers from being scammed into entering into deceptive repair contracts.

Your Committee has amended this measure by:

- (1) Clarifying that a contractor shall not pay or rebate, or promise to pay or rebate, a policyholder's insurance deductible, or any portion thereof;
- (2) Clarifying that a contractor shall not represent or negotiate, or offer or advertise to represent or negotiate, on behalf of an insured or a claimant, any insurance claim in connection with the repair or reconstruction work associated with the insurance claim;
- (3) Inserting a definition for the term "pay or rebate";
- (4) Clarifying the definition of "promise to pay or rebate";
- (5) Requiring a notice of rescission to be made by means of certified mail, return receipt requested;
- (6) Inserting an effective date of July 1, 2022; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2277, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2230 Commerce and Consumer Protection on S.B. No. 2917

The purpose and intent of this measure is to:

- (1) Require oocyte cryopreservation to be covered by health insurance policies;
- (2) Remove the one-time benefit limitation for in vitro fertilization; and
- (3) Reduce the number of years of infertility before becoming eligible for in vitro fertilization from five years to two years.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, and Hawaii Association of Health Plans.

Your Committee finds that, while Hawaii has been a leader in advancing reproductive rights, gaps in coverage and care still exist, particularly with regard to certain family planning and infertility treatments, a number of which still discriminate against unmarried women. This measure helps to increase access to covered care and allow insureds to plan their families in a way that is appropriate for them. Your Committee notes this measure is subject to an Auditor's impact assessment report, which would be expected prior to the commencement of the Legislative Session of 2023, in the event a concurrent resolution is adopted.

Your Committee has amended this measure by:

- (1) Making conforming amendments to ensure that unmarried women have access to coverage; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2917, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2917, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2231 Commerce and Consumer Protection on S.B. No. 2669

The purpose and intent of this measure is to remove discriminatory requirements for mandatory insurance coverage of in vitro fertilization procedures to create parity of coverage for same-sex couples, unmarried women, and male-female couples for whom male infertility is the relevant factor.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, Hawaii Medical Service Association, and Hawaii Association of Health Plans.

Your Committee finds that existing mandates for insurance plans to provide a one-time benefit for costs associated with in vitro fertilization procedures excludes same-sex couples, unmarried women, and male-female couples for whom male infertility is the relevant factor, and constitutes discrimination on the basis of sex, sexual orientation, and marital status. This measure promotes equal access to in vitro fertilization for same-sex couples and for women regardless of their marital status. Your Committee further notes that this measure is subject to an impact assessment report by the Auditor, pursuant to section 23-51, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Removing references to oocyte donors and surrogates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2669, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2232 Commerce and Consumer Protection on S.B. No. 2494

The purpose and intent of this measure is to:

- (1) Prohibit landlords from recovering possession of a dwelling unit from tenants if habitability of the premises is significantly impaired;
- (2) Set a tenant's liability for rent if habitability of the premises is significantly impaired; and
- (3) Provide remedies for retaliatory evictions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and one individual.

Your Committee finds that the most common complaint received by the Office of Consumer Protection's Landlord-Tenant Information Center relates to landlords' failure to make repairs in a timely manner. Existing state law provides that tenants may only deduct up to \$500 from their following month's rent if a landlord does not respond to the tenant's written repair request within twelve days, but costs to repair conditions that materially affect health and safety can easily exceed \$500, leaving the tenant with limited recourse to address unsanitary or dangerous conditions. This measure sets a clear standard of damages for tenants who fall victim to retaliatory evictions and gives landlords an incentive to fix their properties quickly.

Your Committee has amended this measure by:

- (1) Clarifying that a tenant shall cooperate with the landlord to allow for the restoration of the dwelling unit to a habitable condition and continue to pay rent equal to the fair rental value of the unit or the agreed upon rent, whichever is less;
- (2) Replacing the term "premises" with the term "dwelling unit", where appropriate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2494, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2233 Education on S.B. No. 2928

The purpose and intent of this measure is to amend the law relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with a measure to establish a working group to study and prepare an implementation plan for agricultural career pathways.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2928, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 2928, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2234 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 872

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission, or their designee, as an ex-officio, voting member of the Commission on Water Resource Management to advance the interests of beneficiaries of the Hawaiian Homes Commission Act.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, League of Women Voters of Hawaii, Environmental Caucus of the Democratic Party of Hawai'i, and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that decisions made by the Commission on Water Resource Management relating to planning, regulation, management, and conservation of water resources in the State shall, to the extent applicable, incorporate and protect adequate reserves of water for current and foreseeable development and use of Hawaiian homelands as set forth by the Hawaiian Homes Commission Act. In 2014, the Hawaiian Homes Commission approved a Water Policy Plan which includes the goal to "aggressively, proactively, consistently, and comprehensively advocate for the kuleana of the beneficiaries, the Department of Hawaiian Home Lands, and the Hawaiian Homes Commission to water before all relevant agencies and entities." To allow for greater collaboration between the Department of Hawaiian Home Lands and the Commission on Water Resource Management, this measure expands the membership of the Commission on Water Resource Management to include the Chairperson of the Hawaiian Homes Commission or the Chairperson's designee.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 872, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 872, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keohokalole).

SCRep. 2235 Water and Land on S.B. No. 2814

The purpose and intent of this measure is to establish within the Office of Planning and Sustainable Development, a taskforce, advisory group, and consultant team to develop a coastal zone framework-development taskforce to develop a programmatic framework for a Hawaii next generation coastal zone management program and appropriates funds.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, and the Office of Planning and Sustainable Development.

Your Committee finds that current shoreline regulatory process has become a substantial time and cost burden and obstacle to the State, counties, and private landowners. The current shoreline permit process includes the environmental assessment planning process, which is required prior to applying for federal, state, and county permit applications. Developing a framework for a Hawaii next generation coastal zone managers program will provide a sustainable jobs program for the islands' next generation of place-based coastal zone managers, and a competent cadre of place-based experts with knowledge, skills, and abilities to adequately understand the State's growing coastal zone problems amidst sea level rise caused by climate change.

However, your Committee has heard the concerns of the Office of Planning and Sustainable Development that this measure as drafted may be restrictive and premature to prescribe the delivery of an electronic-permitting system. According to the Office of Planning and Sustainable Development, differing guidelines between federal, state, and county levels regarding permitting processes may complicate the implementation of the proposed electronic-permitting system. While the Office of Planning and Sustainable Development expressed interest in examining the potential for multi-agency collaboration, preliminary analyses must be conducted. Amendments to this measure are therefore necessary to address the Office of Planning and Sustainable Development's electronic-permitting system concerns.

Your Committee has amended this measure by:

- (1) Requiring an exploratory analysis of permitting systems, including an assessment of current permitting systems in Hawaii and an investigation of their applicability;
- (2) Inserting a blank appropriation amount;

- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2814, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2814, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2236 Water and Land on S.B. No. 2860

The purpose and intent of this measure is to create a refundable water catchment tax credit for homeowners who install a water catchment system meeting certain requirements on residential property in the State owned by the homeowners.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Taxation.

Your Committee finds that water catchment systems promote cost-effective, reliable, and safe fresh water sources that reduce consumer demand on existing fresh water. Water catchment systems promote water conservation, mitigate flooding, and conserve energy needed to pump, treat, and transport fresh water for consumer use. However, your Committee has heard the concerns of the Department of Taxation that this measure as drafted may create unintended losses in revenue based on the current drafted definition of "qualified taxpayer".

According to the Department of Taxation, this measure as drafted would allow any water catchment system ever installed by that taxpayer, as long as the minimum capacity and residential property ownership requirements were met, to qualify for and receive the refundable tax credit. Amendments to this measure are therefore necessary to address the Department of Taxation's concerns regarding the definition of "qualified taxpayer".

Your Committee has amended this measure by:

- (1) Amending the definition of "qualified taxpayer" to require water catchment systems to be installed and in service during the taxable year to qualify for the tax credit; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2860, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2860, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2237 Water and Land on S.B. No. 3320

The purpose and intent of this measure is to codify certain administrative rules of the Department of Land and Natural Resources regarding permits to destroy or control harmful feral pigs.

Your Committee received testimony in support of this measure from Ulupono Initiative. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that residents of Hawaii, especially those living in rural areas, should be allowed to protect their property from wildlife that can damage property and endanger persons. Destructive or dangerous wildlife, particularly feral pigs, pose a threat to crops, indigenous plants and wildlife, and are often hazardous to human health and safety. However, the process for acquiring the necessary permits to eradicate feral pigs on private property is often difficult and cumbersome.

Despite the lengthy process to destroy and control feral pigs, your Committee has heard the concerns of the Department of Land and Natural Resources that this measure as introduced would inhibit some of the Department of Land and Natural Resources' authority to manage wildlife that cause substantial damage to natural resources or pose a threat to human health and safety. According to the Department of Land and Natural Resources, the measure would remove the authority from the Department of Land and Natural Resources to issue nuisance wildlife and feral game control permits and restrict permits to be issued for the control of feral pigs only. Restricting permits to feral pigs may inhibit the destruction and control of other nuisance game mammals, game birds, introduced wildlife, and introduced birds that caused or can cause damage to private properties. Amendments to this measure are therefore necessary to address the Department of Land and Natural Resources' concerns.

Accordingly, your Committee has amended this measure by:

- (1) Retaining existing statutory language establishing the Department of Land and Natural Resources' authority to adopt rules regarding permits to take wild birds, game birds, and game mammals;
- (2) Authorizing the Department of Land and Natural Resources to issue permits for the destruction of game mammals, including feral pigs, that have caused or are likely to cause damage to privately owned land, agricultural or aquacultural crops, indigenous plants or wildlife, or that pose a threat to human health and safety;
- (3) Requiring an authorized agent of the Department of Land and Natural Resources to investigate complaints regarding game mammals, including feral pigs, that have caused or are likely to cause damage to privately owned land and issue a permit if satisfied with the damage that has occurred or likely to occur;

- (4) Requiring the authorized agent of the Department of Land and Natural Resources to issue a permit or notify the applicant why a permit was not issued after a complaint has been made within one hundred eighty days;
- (5) Authorizing the applicant of a permit to appeal decisions made by the authorized agent of the Department of Land and Natural Resources if a permit has not been issued within one hundred eighty days;
- (6) Retaining existing statutory language that requires applicants seeking authority to apply for and obtain a written permit from the Department of Land and Natural Resources with exceptions to destruction of game birds, wild birds, and game mammals which are generally destructive to crops, constitute a nuisance, or health hazard within the district;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3320, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2238 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2287

The purpose and intent of this measure is to include in the duties of the Natural Energy Laboratory of Hawaii Authority, the duty to support research, development, and commercialization of aquaculture.

Your Committees received testimony in support of this measure from the Department of Agriculture and Hawaii Farm Bureau. Your Committees received comments on this measure from the Natural Energy Laboratory of Hawaii Authority.

Your Committees find that Hawaii's favorable climate and geography allow for inherent advantages in aquaculture production. Hawaii's aquaculture production generates over \$70 million in revenues per year, making it the fifth-highest contributor to the economy in diversified agriculture with great potential for further expansion. According to testimony from the Natural Energy Laboratory of Hawaii Authority, it currently manages aquaculture tenants and supports the development of aquaculture.

Your Committees further find that a revitalized aquaculture industry could provide additional economic development opportunities for rural communities statewide. Your Committees also find that supporting Hawaii's aquaculture industry aligns with the statewide goal of increasing local food production, reduces reliance on imported seafood, and increases local food security.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2287 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Gabbard, Nishihara, Fevella). Noes, none. Excused, none.

SCRep. 2239 (Joint/Majority) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2473

The purpose and intent of this measure is to transfer the Agribusiness Development Corporation from the Department of Agriculture to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture, and one individual. Your Committees received testimony in opposition of this measure from the Hawai'i Food Policy+, Pono Hawai'i Initiative; Hawai'i Alliance for Progressive Action; Hawai'i Farm Bureau; Our Revolution Hawaii; We Are One, Inc.; and twenty-four individuals. Your Committees received comments on this measure from the Agribusiness Development Corporation.

Your Committees find that the primary mission of the Agribusiness Development Corporation (ADC) is to aggressively facilitate the development of agricultural enterprises to replace the economic loss caused by the Closure of Hawaii's sugar and pineapple plantations. Your Committees recognize the concerns raised in testimony regarding this measure, and notes that the Department of Business, Economic Development, and Tourism (DBEDT) and ADC have similar missions to facilitate economic development in the State. According to testimony from the Department of Agriculture, its priorities and functions are primarily regulating and managing the existing agricultural industry and community.

Accordingly, to further the purpose of this measure, your Committees have amended this measure by:

- (1) Repealing section I63D-8.5, Hawaii Revised Statutes, which requires the Board of Agriculture to approve all ADC projects, plans, and programs prior to implementation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees further note that should this measure be enacted, DBEDT may require additional positions to properly support the ADC.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B.

No. 2473, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2473, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Gabbard, Nishihara, Rhoads, Fevella). Noes, 1 (Acasio). Excused, none.

SCRep. 2240 (Joint) Energy, Economic Development, and Tourism and Hawaiian Affairs on S.B. No. 2035

The purpose and intent of this measure is to incorporate a regenerative framework into the State Planning Act by establishing objectives and policies for Hawaii's visitor industry, which includes:

- (1) Forming community partnerships to ensure native Hawaiian cultural integrity;
- (2) Increasing the amount of Hawaii residents in management and leadership positions in the visitor industry;
- (3) Incentivizing and facilitating a shift to a regenerative visitor industry with a smaller footprint;
- (4) Supporting and encouraging other economic sectors to reduce the State's dependence on tourism;
- (5) Minimizing negative economic, environmental, and social impacts on the State;
- (6) Generating greater economic benefits for Hawaii residents;
- (7) Enhancing the well-being of local communities;
- (8) Improving the working conditions and access to the visitor industry;
- (9) Involving Hawaii residents in decisions that affect their lives and life changes;
- (10) Making positive contributions to the conservation of natural and cultural heritage for the maintenance of Hawaii's diversity;
- (11) Providing more enjoyable experiences and a greater understanding of local culture, social, and environmental issues for tourists; and
- (12) Providing access for persons with disabilities and disadvantaged people.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawaii Tourism Authority, 'Āina Aloha Economic Futures, and four individuals. Your Committees received testimony in opposition of this measure from the Center for Hawaiian Sovereignty Studies and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that Hawaii's reliance on the tourism industry exacerbated the negative economic impacts to the State from the coronavirus disease 2019 pandemic. Your Committees further find that the objectives and policies established by this measure align with the State's 2050 Sustainability Plan and will help Hawaii transition to a more sustainable and regenerative form of tourism to provide greater benefits to residents, local communities, local businesses, and our natural environment.

Your Committees also find that the State's tourism functional plan has not been updated in over thirty years. Functional plans identify priority issues and contain objectives, policies, and actions to guide the allocation of resources and implementation of policies by state and county agencies. Your Committees recognize the importance of an updated tourism functional plan for the State's long-term economic recovery and resilience.

Your Committees received testimony from the Office of Planning and Sustainable Development which offered changes to align the measure more closely into the Hawai'i State Planning Act, and therefore amendments are necessary.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Hawaii Tourism Authority, in coordination with the Office of Planning and Sustainable Development, to prepare and periodically update the tourism functional plan;
- (2) Requiring the Governor to submit the State Tourism Functional Plan to the Legislature no later than twenty days prior to the convening of the regular session of 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2035, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2035, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Lee, Riviere).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

SCRep. 2241 Health on S.B. No. 2205

The purpose and intent of this measure is to establish a task force to develop and implement a plan to utilize the 9-8-8 calling code of the National Suicide and Mental Health Lifeline.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Primary Care Association, Hawaii Substance Abuse Coalition, Hawaii Disability Rights Center, and one individual. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of Budget and Finance, Hawaii Psychiatric Medical Association, and Prevent Suicide Hawai'i Taskforce.

Your Committee finds that on July 16, 2020, the Federal Communications Commission adopted rules to establish "9-8-8" as the new, nationwide three-digit phone number to connect to the National Suicide Prevention Lifeline and Veterans Crisis Line. Beginning July 16, 2022, dialing "9-8-8" will route calls to the National Suicide Prevention Hotline. Other states have passed legislation to prepare and implement the new national suicide prevention lifeline. This measure establishes a task force to develop an implementation plan to integrate and utilize the new 9-8-8 calling code.

Your Committee acknowledges the testimony of the Hawaii Primary Care Association, who requested to be represented on the task force.

Your Committee has amended this measure by:

- (1) Including a representative of the Hawaii Primary Care Association on the task force;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2205, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2242 Health on S.B. No. 2280

The purpose and intent of this measure is to allow dental assistants to perform limited duties under the general supervision of a dentist in public health settings.

Your Committee received testimony in support of this measure from the Hawai'i Oral Health Coalition; Hawai'i Children's Action Network Speaks!; Hawaii Dental Association; Hawaii Dental Hygienists' Association; Hawaii Dental Service; Hui No Ke Ola Pono, Inc.; and five individuals. Your Committee received comments on this measure from the Department of Health, Board of Dentistry, and one individual.

Your Committee finds that the State lacks adequate and accessible dental public health infrastructure, particularly on the neighbor islands. This lack of access to sufficient dental care has led to devastating health outcomes among children, especially those in native Hawaiian and Pacific Islander communities. Dental assistants could play an important role in improving access to dental health care across the State. However, dental assistants are prohibited from providing auxiliary support except under direct supervision. This prohibition affects the efficiency and production of dental assistants when practicing in a public health setting, leading to fewer dental services being provided to vulnerable communities. This measure allows dental assistants to perform limited duties under the general supervision of a dentist in public health settings.

Your Committee acknowledges the testimony of the Hawai'i Oral Health Coalition, which notes that the measure as written requires licensed dental hygienists to supervise dental assistants, when in fact both should be under the general supervision of a dentist. Your Committee also notes the testimony of the Department of Health, which raised concerns that the measure, as written, could be interpreted to foreclose dentists in private practice from implementing community-based oral health models to provide dental services to underserved Hawaii residents.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that licensed dental hygienists may direct the work of dental assistants but do not have supervisory responsibility over dental assistants;
- (2) Removing the requirement that a licensed dentist be employed in a public setting;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2280, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2280, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2243 Health on S.B. No. 2439

The purpose and intent of this measure is to require health insurance policies and contracts issued after December 31, 2022, to provide coverage for the cost of hearing aids at a minimum of \$1,500 per hearing aid for each hearing-impaired ear every thirty-six months in their base plans.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elderly Affairs, AARP Hawai'i, and twelve individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Service Association, Hawaii Association of Health Plans, and Kaiser Permanente Hawaii.

Your Committee finds that currently, most health insurance plans in Hawaii cover the purchase of hearing aids, but the amount of coverage may be low, leaving the patient with a large copayment. As a result, it is not unusual for people with hearing loss to choose to delay or forgo the purchase of hearing aids because they are unable to pay for them. The Legislature attempted to address this issue in Senate Bill No. 309, S.D. 1, Regular Session of 2014 (S.B. No. 309), which proposed a law mandating insurance coverage for hearing aids. The auditor's sunrise study on S.B. No. 309 expressed concerns that the measure had no limits on coverage, such as minimum or maximum costs covered by insurers or frequency of placement. This measure addresses those concerns by requiring a minimum coverage benefit of \$1,500 per hearing aid for each ear every thirty-six months.

Your Committee acknowledges the concerns of the Hawaii Medical Service Association, which noted that a decision on the type of hearing device an individual requires should be based on medical necessity rather than a fixed dollar amount.

Therefore, your Committee has amended this measure by:

- (1) Replacing the minimum required coverage of \$1,500 per hearing aid for each hearing-impaired ear with coverage of medically necessary hearing aid models, including analog, digital, and digitally programmable models, with standard features;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2439, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2244 Health on S.B. No. 2460

The purpose and intent of this measure is to allow temporary permits to be issued to registered nurses and licensed practical nurses from a territory or foreign country who are seeking a state license by endorsement.

Your Committee received testimony in support of this measure from Hawaii Medical Service Association; Hawai'i Friends of Civil Rights; Hawai'i - American Nurses Association; Hawai'i Coalition for Immigrant Rights; Hawai'i Pacific Health; Filipina Advocacy Network; Healthcare Association of Hawaii; The Legal Clinic; Hawaii Health Systems Corporation, East Hawaii Region; Planned Parenthood Alliance Advocates; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Nursing, Hawai'i State Center for Nursing, The Queen's Health Systems, and one individual.

Your Committee finds that the State faces a nurse shortage. Furthermore, the shortage has been exacerbated by the coronavirus disease 2019 pandemic, with nearly five thousand nurses leaving the field between 2019 and the middle of 2021. Currently, qualified nurses in other states may apply for Hawaii licensure by endorsement, making them temporarily eligible to practice in the State while their applications are verified. Expanding this practice to nurses from other territories and foreign jurisdictions will enable more qualified nurses to practice in the State. Accordingly, this measure expands application for licensure by endorsement to include registered nurses and licensed practical nurses from a territory or foreign jurisdiction.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2460, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2460, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2245 Health on S.B. No. 2609

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to finance the construction of and improvements to health care facilities of The Queen's Health Systems and its nonprofit affiliates.

Your Committee received testimony in support of this measure from The Queen's Health Systems. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that chapter 39A, Hawaii Revised Statutes, authorizes the Department of Budget and Finance to issue special purpose revenue bonds to finance public work projects, including projects for not-for-profit corporations that provide health care facilities to the general public. Your Committee further finds that The Queen's Health Systems qualifies as a not-for-profit corporation that provides health care facilities to the general public. Furthermore, The Queen's Health Systems is embarking on a multi-year redevelopment and expansion of its West Oahu and Punchbowl campuses, among other projects. This measure will aid The Queen's Health System in financing these projects to meet the changing and critical health care needs of the communities they serve.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2609 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

SCRep. 2246 Health on S.B. No. 2661

The purpose and intent of this measure is to create an exemption for traditional midwives from the current midwifery licensing law.

Your Committee received testimony in support of this measure from the Maui County Committee on the Status of Women; Hawai'i Home Birth Collective; Ho'opae Pono Peace Project; Pacific Birth Collective; Sacred Healing Arts Collective, LLC; Aoki Birthing Care LLC; Hawaii Midwifery Council; Hale Kealaula, LLC; and one hundred forty-nine individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Section of the American College of Obstetricians and Gynecologists, and forty-five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Midwives Alliance of Hawai'i, and two individuals.

Your Committee finds that from 1998 until the passage of Act 32, Session Laws of Hawaii 2019 (Act 32), the profession of midwifery was not regulated. Your Committee further finds that Act 32 attempted to address this issue by creating a regulatory scheme for the midwifery profession, while acknowledging cultural midwifery practices by exempting native Hawaiian healers from licensure requirements until 2023. Act 32 also established a Home Birth Task Force, which was directed to investigate issues relating to direct entry midwives and home births. This measure creates an exemption for traditional midwives from the current midwifery licensing law resulting from the Home Birth Task Force's investigation.

Your Committee heard significant testimony in both support of and opposition to this measure. Your Committee finds that there remain several issues that this measure, as drafted, does not address. For example, it is unknown how many midwives will apply for the licensing exemption, thus leaving the possibility that the exemption will become the rule. Your Committee also finds that the current licensing exemption does not expire until July 1, 2023, and therefore, there is sufficient time to better examine the outstanding issues relating to the practical implementation of the licensing exemption as proposed in this measure, as introduced.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language to reestablish the Home Birth Task Force to investigate issues relating to the midwifery regulatory scheme established by Act 32. The investigation shall include but not be limited to the following:

- (1) The accessibility of credentialing compliant with Act 32, to midwives in the State;
- (2) The number of applicants who would qualify or apply for the exemption proposed by the original version of this measure; and
- (3) How the exemption proposed by the original version of this measure would be enforced by the Department of Commerce and Consumer Affairs, Hawaii Home Birth Collective LLC, or other enforcing entity.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2661, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2247 Health on S.B. No. 2666

The purpose and intent of this measure is to appropriate funds to the Waianae Coast Comprehensive Health Center for the operation of its twenty-four-hour emergency department.

Your Committee received testimony in support of this measure from the Waianae Coast Comprehensive Health Center, Hawai'i Primary Care Association, and Health Committee of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, and Department of Budget and Finance.

Your Committee finds that the Waianae Coast Comprehensive Health Center (Center) is a community—owned, community—operated nonprofit medical facility serving the Waianae coast of Oahu. Sixty—five percent of the Center's patients are at one hundred percent of the federal poverty level or below; seven percent are uninsured; and fifty—eight percent are receiving coverage under QUEST, the State's Medicaid program. Unlike all other emergency departments located at State and private hospitals, the Center is unable to bill Medicaid or Medicare an "ER facility fee" and can only charge these funding sources as a primary care outpatient visit. As such, the Center is only able to cover the costs of emergency medical care during day and evening hours. Without a state subsidy, the Center could not provide emergency medical services during the late night and early morning hours. This measure appropriates funds as a grant to the Center so it can operate its emergency services from midnight to 8:00 a.m.

Your Committee acknowledges the concerns of the Department of the Attorney General, which notes that the measure, as drafted, could be interpreted to be in violation of article VII, section 4, of the Hawaii State Constitution because the appropriation does not specify that the appropriation made to the Center is intended to be a grant.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the appropriation made to fund the Center's midnight to 8:00 a.m. emergency department operations is a grant;
- (2) Inserting a blank appropriation amount;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion;

- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2666, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2248 Health on S.B. No. 2735

The purpose and intent of this measure is to appropriate funds to the Adult Mental Health Division of the Department of Health to support increased behavioral health crisis stabilization beds.

Your Committee received testimony in support of this measure from the Department of Health, Judiciary, Hawaii Disability Rights Center, Hawai'i Health & Harm Reduction Center, Hawai'i Primary Care Association, Hawai'i Psychological Association, Hawaii Substance Abuse Coalition, Partners in Care – Oahu Continuum of Care, Community Empowerment Resources, Prevent Suicide Hawai'i Taskforce, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is a lack of short-term behavioral health stabilization services throughout the State. As a result, individuals experiencing a behavioral health crisis seek treatment at hospital emergency rooms and utilize a great amount of health care resources only to gain short-term outcomes and creating unnecessary burdens on emergency departments, law enforcement, and individuals living with behavioral health issues. Studies have shown that the cost of crisis stabilization centers is significantly less than emergency rooms and psychiatric inpatient units. This measure appropriates funds to the Adult Mental Health Division of the Department of Health to support increased behavioral health crisis stabilization centers.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2735, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2249 Health on S.B. No. 2736

The purpose and intent of this measure is to appropriate funds to the Department of Health for a statewide crisis outreach program.

Your Committee received testimony in support of this measure from the Adult Mental Health Division of the Department of Health, Hawaii Substance Abuse Coalition, Hawaii Disability Rights Center, Hawai'i Health & Harm Reduction Center, Community Empowerment Resources, Prevent Suicide Hawai'i Taskforce, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that a crisis mobile outreach team is staffed by two professionals: a crisis intervention worker and a medic who is either a nurse or an emergency medical technician, and who are trained in de-escalation and crisis intervention methods. Sending a crisis intervention worker to attend to a person having a behavioral health crisis instead of law enforcement or emergency services saves millions of dollars in public safety spending and emergency medical costs, including ambulance transport and emergency room services. Your Committee also finds that crisis hotlines anticipate an increase in call volume following the activation of the National Suicide Prevention Hotline 9-8-8 code. This measure appropriates funds to the Department of Health for a statewide crisis outreach program.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2736, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2250 Health on S.B. No. 2804

The purpose and intent of this measure is to define “pool” to mean a watertight artificial structure containing a body of water that does not exchange water with any other body of water either naturally or mechanically used for swimming, diving, recreational bathing, or therapy by humans, for purposes of the Department of Health’s authority to adopt rules concerning public health and safety.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that the Department of Health is authorized to regulate pools such as public swimming pools. However, because there is no definition of “pool” in the statute’s authorizing language, the Department of Health’s authority could be read to extend to structures such as lagoons or the Waikiki War Memorial Natatorium. This measure clarifies that the Department of Health is authorized to regulate structures such as public swimming pools.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2804, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2804, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2251 Health on S.B. No. 2829

The purpose and intent of this measure is to:

- (1) Establish provisional or associate level licensure requirements for marriage and family therapists and psychologists, and authorize insurance reimbursements in certain circumstances; and
- (2) Allow psychologist license applicants to sit for the licensing examination before completing other requirements.

Your Committee received testimony in support of this measure from the Department of Health; Hawaiian Islands Association for Marriage and Family Therapy; Hawai’i Psychological Association; National Association of Social Workers - Hawai’i Chapter; Wellness Partners Hawaii, Inc.; Elemental Guidance, LLC; Ho’oulu Counseling LLC; Kauhale Healing LLC; and thirty-four individuals. Your Committee received testimony in opposition to this measure from eight individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Public Safety, Hawaii Board of Psychology, and thirty-seven individuals.

Your Committee finds that there is a shortage of mental health professionals throughout the State, especially in rural areas. A significant cause of this shortage is that new mental health professionals seeking to complete their hours of supervised practice can encounter tremendous financial difficulty due to Hawaii’s high cost of living and the fact that their services are not eligible for insurance reimbursement. This measure would reduce financial hardship for early career mental health providers and those seeking licensure in the field of mental health by allowing for reimbursement under a provisional license and while under the supervision of a licensed supervisor.

Your Committee heard the testimony of many mental health professionals and advocates noting that the measure as drafted does not include licensed mental health counselors, who provide critical mental health services akin to services provided by marriage and family therapists and psychologists. Your Committee finds that mental health counselors should also be included in the measure.

Therefore, your Committee has amended this measure by:

- (1) Establishing provisional or associate level licensure requirements for mental health counselors and authorizing insurance reimbursements in certain circumstances;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2829, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2829, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2252 Health on S.B. No. 3118

The purpose and intent of this measure is to ban the sale of flavored tobacco products and mislabeled e-liquid products.

Your Committee received testimony in support of this measure from the Department of Health; AlohaCare; American Cancer Society Cancer Action Network; American Heart Association; American Lung Association in Hawaii; Hawaii COPD Coalition; Hawaii State Teachers Association; American Academy of Pediatrics, Hawaii Chapter; Hawaii Children’s Action Network Speaks!; Hawaii Dental Association; Kapi’olani Medical Center for Women & Children; Hawai’i Primary Care Association; Hawai’i Public Health Association; Hawaii Substance Abuse Coalition; Hui O Mana Ka Pu’uwai; Kaiser Permanente Hawaii; Keiki Injury Prevention Coalition; Pediatric Therapies Hawai’i; The Man Cave; Teens For No Nicotine HI; Student Health Advisory Council; Hawaii Youth Services Network; Pioneering Healthier Communities Initiative; and forty-six individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii; Cigar Association of America, Inc.; Hawaii Smokers Alliance; and ten

individuals. Your Committee received comments on this measure from Hawaii Food Industry Association, Hawaii Petroleum Marketers Association, Taxpayers Protection Alliance, and one individual.

Your Committee finds that since 2014, e-cigarettes have been the most commonly used tobacco product among youth nationwide. Thirty-one percent of Hawaii's high school and eighteen percent of Hawaii's middle school students used e-cigarettes in the past thirty days (current use), with highest rates on the neighbor islands. Flavored tobacco products, including flavored vaping products are designed and marketed to entice youth. Additionally, scientific evidence not only supports the restriction of menthol cigarettes to protect public health and save thousands of lives, but also indicates that restrictions should be urgently implemented. Accordingly, this measure bans the sale of flavored tobacco products and mislabeled e-liquid products.

Your Committee acknowledges the concerns of multiple testifiers that the measure as currently written also bans the sale of flavored cigars, cigarettes, and chewing tobacco, which are not the intended focus of this measure.

Therefore, your Committee has amended this measure by:

- (1) Exempting chewing tobacco, cigarettes, and cigars from the definition of tobacco products for the purpose of this measure;
- (2) Clarifying the definition of "hazardous waste" as used in the measure;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3118, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2253 Health on S.B. No. 3210

The purpose and intent of this measure is to:

- (1) Require the Department of Health's Child and Adolescent Mental Health Division to establish a Family Guidance Center office in Ka'ū in the county of Hawaii, to serve the needs of the children and youth in the southern region of the county, in addition to the offices in Waimea, Kona, and Hilo; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Stonewall Caucus of the Democratic Party of Hawaii, and three individuals. Your Committee received comments on this measure from the Department of Health and Department of Budget and Finance.

Your Committee finds that youth who have serious emotional or behavioral challenges and reside in the southern region of Hawaii island are currently required to travel as far as one hundred miles to visit a family guidance center in Waimea or Hilo. A family guidance center in Ka'ū in southern Hawaii island will be able to address an array of health outreach and education services in that area. This measure requires the Department of Health to establish a family guidance center in Ka'ū, and appropriates funds for the same.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3210, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2254 Health on S.B. No. 3367

The purpose and intent of this measure is to establish an Early Lung Cancer Screening Task Force to research the steps and resources necessary to increase early lung cancer screening in Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Health, American Lung Association in Hawaii, Hawai'i Primary Care Association, Hawaii Medical Association, Papa Ola Lōkahi, and three individuals. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that Hawaii ranks last in the nation for the early diagnosis of lung cancer. The rate of new lung cancer cases in the State is one hundred twenty—six per one hundred thousand among native Hawaiians, dramatically higher than the rates among indigenous peoples nationally and among Caucasians in Hawaii. Although lung cancer is one of the deadliest cancers, it is approximately ninety percent preventable. Thus, there is a need to research, plan, and implement early lung cancer screening in Hawaii. This measure establishes the Early Lung Cancer Screening Task Force (Task Force) to accomplish these goals.

Your Committee acknowledges the testimony of the Hawaii Primary Care Association, which requested to be represented on the Task Force.

Therefore, your Committee has amended this measure by:

- (1) Requiring that a representative from the Hawaii Primary Care Association be selected to sit on the Task Force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3367, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2255 Judiciary on S.B. No. 629

The purpose and intent of this measure is to:

- (1) Allow primary caregivers, qualifying out-of-state patients, and caregivers of a qualifying out-of-state patient to access the restricted access area within a medical cannabis retail dispensary; and
- (2) Clarify violations related to medical cannabis dispensaries.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Cannabis Industry Association, and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the regulated statewide dispensary system for medical cannabis was established on July 14, 2015, as Act 241, Session Laws of Hawaii 2015, to ensure safe and legal access to medical cannabis by qualifying patients. Since that time, the experience of the program indicates that improvements to the law will help to fulfill its original intent by clarifying provisions and implementing reasonable modifications to support patient access. Your Committee further finds that patients rely heavily on their caregivers for support, given their unique medical situations. However, caregivers are currently not allowed access into a medical cannabis retail dispensary. This measure will improve the law to allow certain people access to areas in a medical cannabis retail dispensary so that they may help patients obtain medical cannabis for their medical needs.

Your Committee has amended this measure by:

- (1) Removing language related to "restricted access areas";
- (2) Inserting a definition for "waiting room";
- (3) Specifying the security requirements and restrictions regarding waiting rooms;
- (4) Specifying that a member of the general public may enter or remain within the waiting room of a retail dispensing location; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 629, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Lee).

SCRep. 2256 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3085

The purpose and intent of this measure is to update the Hawaii Code of Military Justice by repealing chapter 124A, Hawaii Revised Statutes, and adding a new chapter to promote order and discipline in the State Military Forces by fostering an independent military justice system and updating nonjudicial punishment and courts-martial procedures.

Your Committee received testimony in support of this measure from the Department of Defense and Veterans of Foreign Wars of the United States, Department of Hawaii. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the Hawaii Code of Military Justice was originally enacted in 1982. The update proposed in this measure was developed in coordination with the Judiciary and is needed to give commanders the tools they need to maintain good order and discipline within the State Military Forces while simultaneously protecting the due process rights of service members. Additionally, the changes proposed in this measure were based on a model provided by the National Guard Bureau and will bring non-judicial punishment and court-martial procedures further in line with the Uniform Code of Military Justice. Your Committee believes that this measure will further develop confidence in an independent military justice system by repealing chapter 124A, Hawaii Revised Statutes, and adding a new chapter to update nonjudicial punishment and courts-martial procedures and promote order and discipline in the State Military Forces.

Your Committee has amended this measure by:

- (1) Deleting language that would have restricted the appellate courts' inherent judicial powers to completely review matters that come properly before the courts; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3085, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2257 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3086

The purpose and intent of this measure is to:

- (1) Update and provide clarification to reflect the existence of the Hawaii State Cybersecurity Program, which is administered by the Hawaii Office of Homeland Security; and
- (2) Eliminate the state cybersecurity, economic, education, and infrastructure security coordinator position.

Your Committee received testimony in support of this measure from the Hawaii Office of Homeland Security and Office of the Adjutant General.

Your Committee finds that a comprehensive programmatic approach to strengthening state and county cybersecurity will help to address present and future threats to public and private critical infrastructure. A comprehensive programmatic approach to strengthening state and county cybersecurity will also improve the ability of the State to establish and grow programmatic mechanisms and develop state and county capabilities to identify threats and prevent, protect against, mitigate, respond to, or recover from cyber incidents, whether limited or of cascading impacts. Your Committee further finds that the delineation of responsibilities, previously situated in the singular coordinator position amongst planning and operations and the Hawaii State Fusion Center in the Office of Homeland Security, will allow for a more effective and holistic effort to meet the cybersecurity objectives of the State of Hawaii. This measure will benefit the public at large, the general business community, and critical infrastructure owners and operators in Hawaii by updating and providing clarification to reflect the existence of the Hawaii State Cybersecurity Program and eliminating the state cybersecurity, economic, education, and infrastructure security coordinator position.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3086 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2258 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3087

The purpose and intent of this measure is to:

- (1) Repeal chapter 128F, Hawaii Revised Statutes, the Emergency Management Assistance Compact; and
- (2) Create a new, appropriately designated chapter in the 127A series of the Hawaii Revised Statutes chapters to reincorporate the Emergency Management Assistance Compact.

Your Committee received testimony in support of this measure from the Department of Defense and Hawai'i Emergency Management Agency. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committee finds that, through the authority of the Governor, the Emergency Management Assistance Compact is implemented by the Hawaii Emergency Management Agency, which is governed by chapter 127A, Hawaii Revised Statutes. Your Committee believes that moving the Emergency Management Assistance Compact terms and provisions into the emergency management series of Hawaii Revised Statutes chapters will provide concise, logical organization to the emergency management laws of Hawaii. This measure will align the Hawaii Emergency Management Agency with the best emergency management practices across the country by repealing chapter 128F, Hawaii Revised Statutes, and creating a new, appropriately designated chapter in the 127A series of the Hawaii Revised Statutes chapters to reincorporate the Emergency Management Assistance Compact.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2259 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3089

The purpose and intent of this measure is to:

- (1) Clarify state and county emergency management authority;
- (2) Ensure effective and adaptable emergency responses; and
- (3) Further the goals of transparency and democratic accountability inherent within our constitution.

Your Committee received testimony in support of this measure from the Department of Defense, Hawai'i Emergency Management Agency, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee

received comments on this measure from Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; Common Cause Hawaii; For Our Rights; Grassroot Institute of Hawaii; and three individuals.

Your Committee finds that the emergence of coronavirus disease 2019 (COVID-19) and its variants created a great challenge to global health, the economy, and our way of life. The Governor and county mayors have had to exercise their emergency powers under chapter 127A, Hawaii Revised Statutes, to impose rules aimed to control the spread of COVID-19. The enforcement of those rules has been critical to efforts to limit the spread of COVID-19, protect the health and safety of the community, manage medical resources, and promote economic recovery. The COVID-19 pandemic has highlighted the importance of clear legal frameworks for state and county emergency management to ensure the State and counties are ready for all types of emergencies. Your Committee believes that chapter 127A, Hawaii Revised Statutes, should clearly specify and articulate the bases and parameters for emergency actions. This measure will benefit the public, the Department of Defense, and other state and county agencies by increasing transparency, adaptability, and clarity in emergency management functions, and affirmatively state that such functions must occur within the framework of both the U.S. and Hawaii State Constitutions.

Your Committee has amended this measure by:

- (1) Allowing the Legislature to, by an affirmative vote of two-thirds of the members to which each house is entitled, terminate a state of emergency, in part or in whole, declared by the Governor; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3089, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3089, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2260 Energy, Economic Development, and Tourism on S.B. No. 1065

The purpose and intent of this measure is to amend the law relating to the Department of Business, Economic Development, and Tourism.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with a measure that:

- (1) Includes best practice destination management and regenerative tourism be included under the scope and responsibilities of the Hawaii Tourism Authority (HTA);
- (2) Requires HTA to develop a tourism management plan that includes tourism marketing, best practice destination management, and regenerative tourism; and
- (3) Requires HTA to allocate most marketing moneys to the respective county economic development offices for visitor marketing contracts and nonprofits that benefit the county.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1065, as amended herein, and recommends that it be recommitted to your Committee on Energy, Economic Development, and Tourism, in the form attached hereto as S.B. No. 1065, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2261 Judiciary on S.B. No. 3041

The purpose and intent of this measure is to make appropriations and approve payments for claims against the State, its officers, and its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, based on the testimony submitted by the Department of the Attorney General, this measure requests a total of \$938,613.47 in appropriations from the general fund, to be paid from the fiscal year 2021-2022 budget for eight claims settled by the State. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee has amended this measure by:

- (1) Providing that items 1 through 4 as identified in Part I of this measure shall be paid from funds appropriated to and expended by the respective agency subject to the judgement or settlement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the allocation of budget line items is more appropriately left to your Committee on Ways and Means. Therefore, your Committee recommends that your Committee on Ways and Means substitute appropriate item and program ID numbers for the blanks used in this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3041, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Acasio).

SCRep. 2262 (Joint) Education and Agriculture and Environment on S.B. No. 3096

The purpose and intent of this measure is to make an emergency appropriation for fiscal year 2021-2022 to build an agricultural innovation center.

Your Committees received testimony in support of this measure from the Department of Education, Hawai'i Farm Bureau, and Hawaii Crop Improvement Association.

Your Committees find that increasing the consumption of local food and promoting healthy eating habits, particularly among children, is vital to having healthy families and healthy communities. Your Committees further find that to increase the amount of locally grown food served in public schools, it is vital to have the proper facilities to grow food locally and to teach students about agriculture.

Your Committees additionally find that there is a proposal to build a state-of-the-art agriculture innovation center on Kauai. The proposed facility has the potential to provide agricultural opportunities for students on Kauai, across the State, and beyond. In addition to growing food, the proposed facility will offer courses and educational experiences regarding the development of value-added products; finance; soil research; science, technology, engineering, and math (STEM) research; and aquaculture. Your Committees thus find that the agriculture innovation center has the potential to be a thriving hub for STEM curricula and career opportunities for all of Hawaii's youth.

Accordingly, this measure will promote the expansion and strengthening of agriculture in the State, while training students for future careers in a broad spectrum of high-need areas, by appropriating funds for an agricultural innovation center.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3096 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 5. Noes, none. Excused, none.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2263 Higher Education on S.B. No. 3184

The purpose and intent of this measure is to expand the criteria to qualify for resident tuition fees at the University of Hawaii to include high school seniors and recent high school graduates.

Your Committee received testimony in support of this measure from the Department of Education, the University of Hawaii System, and Hawaii P-20. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that postsecondary education and training for all interested high school graduates serve the State's interest by preparing graduates for jobs and career pathways that typically pay higher wages. Data on Hawaii's public school graduates reveal that there are hundreds of academically prepared graduates each year who do not enroll in college immediately after high school in the "first fall". As the determination of resident tuition is a complex matter, the streamlining of application processes for residents, especially recent high school graduates, may assist many young people in Hawaii, including students who are experiencing homelessness or those with complex family circumstances, and those who are from under-represented or low-income communities. To assist a greater number of students who may face barriers when applying to colleges and universities, this measure expands the criteria to qualify for resident tuition fees at the University of Hawaii by providing that recent high school graduates and high school seniors are eligible residents.

Your Committee has amended this measure by:

- (1) Amending section 1 to reflect that this measure addresses a matter of statewide concern; and
- (2) Clarifying the requirement of high school graduation or equivalent for an adult or minor student to be within twelve months of the first day of official instruction.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3184, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2264 (Joint) Housing and Government Operations on S.B. No. 2468

The purpose and intent of this measure is to allow counties to prohibit discrimination against renters based on their source of income.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, State Council on Developmental Disabilities, Hawai'i Civil Rights Commission, Hawai'i Health & Harm Reduction Center, and Hawai'i Children's Action Network Speaks!. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committees find that the cost of housing in Hawaii is among the highest in the country. Many in the State rely on housing assistance programs and vouchers to afford the basic necessity of housing. This measure allows counties to combat discriminatory practices that prevent those who rely on housing assistance programs from finding appropriate housing.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2468 and recommend that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2265 Higher Education on S.B. No. 3355

The purpose and intent of this measure is to provide enabling legislation for a constitutional amendment that proposes the establishment of a President of Community Colleges who shall be the head of the University of Hawaii community colleges.

Your Committee received testimony in opposition to this measure from the Association of Emeritus Regents and one individual. Your Committee received comments on this measure from the University of Hawaii Board of Regents.

Your Committee finds that, due to the rising costs of higher education, there is a shift to focus on the more cost-effective opportunities that community colleges can provide to Hawaii's future workforce in career development, general postsecondary education, and transition pathways to four-year institutions. Despite serving a key role in preparing Hawaii residents for future education and career pathway credentialing that can lead to higher wages at less cost, the community colleges lack representation at the highest level when key decisions are made impacting community colleges. Because of the crucial role community colleges play in workforce development through higher education across the State, this lack of representation is a matter of statewide concern.

Your Committee further finds these concerns warrant attention and notes that while a constitutional amendment contemplated under this measure may provide the community colleges with more autonomy, there is a greater issue of directly engaging the community colleges in administrative affairs within the University of Hawaii. The University of Hawaii community colleges serve to assist in stimulating and revitalizing Hawaii's economy through initial and future employment opportunities and continuing education. However, the lack of representation regarding the University of Hawaii management and administration frustrates the ability of community colleges in developing vital programs which would provide Hawaii residents with opportunities in education and career advancement.

Accordingly, your Committee has amended this measure by deleting its contents and inserting contents that addresses the concern over representation of the community colleges by:

- (1) Proposing new language that requires the Board of Regents of the University of Hawaii to establish a Standing Committee on Community Colleges;
- (2) Requiring the Vice President of Community Colleges to report directly to the Board of Regents Standing Committee on Community Colleges;
- (3) Updating section 1 to reflect its amended purpose;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3355, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3355, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2266 Energy, Economic Development, and Tourism on S.B. No. 3243

The purpose and intent of this measure is to amend chapter 206M, Hawaii Revised Statutes, by:

- (1) Establishing a definition of "economic zone";
- (2) Replacing all instances of "industrial park" with "economic zone"; and
- (3) Repealing the definition of "industrial park".

Your Committee received testimony in support of this measure from the Hawai'i Technology Development Corporation and Hawaii Clean Power Alliance. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii Technology Development Corporation (HTDC) was created, in part, to develop industrial parks for the location of certain high technology enterprises. Your Committee notes that the definition of industrial park has not changed since the establishment of HTDC in 1983 and believes that rebranding the term "industrial park" to "economic zone" would clarify the geographical regional density in specialized areas for HTDC to facilitate the growth and development of the commercial technology industry in Hawaii. According to testimony submitted by the Hawaii Clean Power Alliance, any growth of commercial technology will require significant operating expenditures on providing energy to those industries.

Accordingly, your Committee has amended this measure by:

- (1) Including energy development in the definition of economic zones; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3243, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2267 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 2513

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to have electric utilities separately issue requests for proposals for firm renewable energy generation and requests for proposals for intermittent renewable energy generation;
- (2) Prohibit the Public Utilities Commission from approving any new or renewed utility-owned generation project by a public utility or any new or renewed power purchase agreement for electricity generation with affiliated interests with a public utility; and
- (3) Appropriate moneys for the Hawaii State Energy Office to conduct a study of the available firm and intermittent renewable energy resources available on each island.

Your Committees received testimony in support of this measure from the Practical Policy Institute of Hawaii, Hawaii Clean Power Alliance, and 350 Hawaii. Your Committees received testimony in opposition to this measure from Hawaiian Electric, International Brotherhood of Electrical Workers Local 1260, and three individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, and Tawhiri Power LLC.

Your Committees find that Hawaii leads the nation with its commitment to one hundred percent clean energy by 2045. Accordingly, the State, clean energy developers, utilities, and ratepayers cannot afford long delays, stifled competition, perceptions of conflicts of interest, or other missteps that keep projects from being completed in a timely manner. This measure is therefore important to ensure the State can continue to reach its goals. Your Committees note the concerns raised in testimony that restricting the Public Utilities Commission's ability to conduct solicitations according to industry best practices could negatively affect achievement of the State's energy goals. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committees have amended this measure by:

- (1) Removing language that would require electric utilities to issue requests for proposals for firm renewable energy generation and requests for proposals for intermittent renewable energy generation separately;
- (2) Inserting language that requires each request for proposals for intermittent renewable energy generation to include the capability of the renewable energy system to be offline for a period of up to ninety-six hours due to weather but still be able to deliver, while offline, renewable energy in an amount equal to the average kilowatt hours that was delivered in the ninety-six hours before the system went offline, and specifying that responses to intermittent renewable energy requests for proposals that do not demonstrate that they meet or exceed this requirement shall not be considered by the Public Utilities Commission;
- (3) Clarifying that the Public Utilities Commission shall have the discretion to determine what type of request for proposals best meets the needs that give rise to future requests for proposals;
- (4) Clarifying that burning trees or other wood products shall not be considered an acceptable generation source for either "firm renewable energy" or "intermittent renewable energy";
- (5) Inserting an effective date of July 31, 2050, to promote further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2513, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2513, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (San Buenaventura, Fevella). Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2268 Commerce and Consumer Protection on S.B. No. 2685

The purpose and intent of this measure is to:

- (1) Establish requirements for cumulative voting and the removal of directors of planned community associations; and
- (2) Exempt planned community associations from certain requirements regarding cumulative voting for and the removal of directors under the Hawaii Nonprofit Corporations Act.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians, Community Associations Institute Legislative Action Committee, Hawaii Council of Community Associations, Associa, Palhuhua Townhouse

Association, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the cumulative voting provisions under the Hawaii Nonprofit Corporations Act may be manipulated by planned community association boards of directors to prevent minority groups from attaining representation by omitting cumulative voting from meeting notices. This measure contains consensus language from stakeholders to clarify the cumulative voting procedures for planned community associations.

Your Committee has amended this measure by:

- (1) Clarifying that members may remove one or more directors regardless of whether they were elected by cumulative voting;
- (2) Clarifying the conditions upon which the director may not be removed if cumulative voting is authorized at the meeting;
- (3) Clarifying the process by which a director elected by members may be removed by the members at any regular or special meeting;
- (4) Clarifying that a secretary of the association or managing agent shall include the proposed removal in the notice of the meeting if the board of directors recommends removal or if a timely petition is delivered to the secretary or managing agent; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2269 Commerce and Consumer Protection on S.B. No. 3044

The purpose and intent of this measure is to:

- (1) Provide a mechanism to assign non-participating tobacco manufacturers' qualified escrow account balances to the State; and
- (2) Provide a mechanism for the financial institution acting as the escrow agent of the qualified escrow account to petition the courts to authorize transfer of funds to the State when the qualified escrow account is abandoned.

Your Committee received testimony in support of this measure from the Department of the Attorney General. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii and forty-five other states have entered into a Master Settlement Agreement (MSA) with four of the largest tobacco manufacturers for smoking-related claims, which stipulates that participating tobacco companies provide annual payments to the State. Tobacco product manufacturers that were not among the original four parties to the MSA have the option of making certain payments into a qualified escrow account based on their cigarette sales in the State. However, existing law is silent as to how a tobacco product manufacturer that decides to no longer do business in the State should close the account, or what process is available for financial institutions when an escrow account is abandoned. This measure establishes a mechanism to allow the State to accept an assignment of the interest in the escrow account and allow for financial institutions maintaining a qualified account that has been abandoned to petition a circuit court for an order transferring the funds to the State to reduce unnecessary administrative monitoring.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3044, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2270 Commerce and Consumer Protection on S.B. No. 2877

The purpose and intent of this measure is to:

- (1) Allow a landlord or landlord's agent to charge an application screening fee at the time a rental application is processed for residential property;
- (2) Cap the amount of an application screening fee at \$25 and prohibit fees to be charged for each member of a household;
- (3) Require the landlord or landlord's agent to provide a receipt for payment of the application screening fee and copy of any report obtained, if requested by the applicant, and within ten days of the applicant's request; and
- (4) Require the landlord or landlord's agent to return any unauthorized fee amounts to the applicant.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Governor's Coordinator on Homelessness, Partners in Care Oahu, Catholic Charities Hawai'i, and Hawai'i Health & Harm Reduction Center. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that existing law does not specifically regulate the nature and amount of application fees that landlords may charge to prospective tenants. Often, the application fees do not correlate with the costs of background and credit checks. Many complaints received from prospective tenants have alleged that they are asked to pay \$100 for an application screening that actually costs \$10 to \$25, or are not refunded the amounts paid if no screening was actually conducted or their application was not processed or considered. In light of Hawaii's tight housing market, this measure is necessary to help reduce abusive practices and eliminate barriers to accessing rental housing.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2877 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2271 Commerce and Consumer Protection on S.B. No. 3081

The purpose and intent of this measure is to minimize regulatory burden and relieve money transmitter applicants from the redundancy of duplicative criminal background checks in the state and federal systems.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law requires each key individual of a money transmitter to submit to a state and federal criminal background review. Hawaii became a reporter to the national criminal background database approximately seven years ago and since then, in the State's review of parallel state and federal criminal background checks, no discrepancies on disqualifying crimes have been found. The Nationwide Multistate Licensing System and Registry provides information-sharing among state regulators to enhance consumer protection and is a cloud-based system that gives state agencies up-to-date criminal history records from the Federal Bureau of Investigations. Accordingly, this measure will allow an applicant to only submit to a federal criminal background check, which will eliminate unnecessary regulatory burden and streamline the review of applicants.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3081 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2272 Commerce and Consumer Protection on S.B. No. 2399

The purpose and intent of this measure is to prohibit discrimination in rental transactions based on participation in any government rental assistance program, including low-income housing assistance under the United States Housing Act of 1937 (Section 8).

Your Committee received testimony in support of this measure from the Hawai'i State Council on Developmental Disabilities, Hawaii Public Housing Authority, Governor's Coordinator on Homelessness, Hawai'i Civil Rights Commission, Hawai'i Health & Harm Reduction Center, Pono Hawai'i Initiative, Hawaii Children's Action Network Speaks!, Partners in Care Oahu, Catholic Charities Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and one individual.

Your Committee finds there is an overwhelming need to assist low-income families in our communities. The Section 8 Housing Choice Voucher Program is one of the federal government's major programs for assisting very low-income families, the elderly, and the disabled afford decent, safe, and sanitary housing in the private market. Unfortunately, however, many landlords are reluctant to rent to individuals who receive housing assistance due to negative stereotypes or stigmas. Honolulu remains one of the largest metropolitan areas in the United States that does not have state or local discrimination prohibitions in place to protect families utilizing rental assistance programs. Accordingly, this measure will help enable households receiving housing assistance to apply for rentals and be evaluated on the same tenancy qualifications as other applicants instead of being judged only on their participation in an assistance program.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2399 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2273 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2156

The purpose and intent of this measure is to appropriate funds to the Department of Defense to provide relief from flooding events.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that recent incidents such as the March and December 2021 severe storms show that the State of Hawaii is vulnerable to many natural disasters, particularly flooding events related to severe storms. This measure creates a legislative vehicle to appropriate funds to the Department of Defense should a severe storm or other incident occur during the legislative session. This vehicle pre-positions a fiscal tool to manage and deploy resources quickly and with a shortened set-up time in the event an emergency incident requires it. While there is no guarantee such an incident will occur, your Committee sees value in preparatory work to deliver assistance to the people of Hawaii as quickly and with as few obstacles as possible in the event a severe storm, flooding event, or other

emergency incident impacts the State. This measure will assist the State in responding to emergency incidents more efficiently by appropriating funds to the Department of Defense to provide relief from flooding events.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2274 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2591

The purpose and intent of this measure is to authorize the issuance of bonds and appropriate moneys for plans and design of a memorial and replicas honoring veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, Operation New Dawn, Global War on Terrorism, Homeland Defense, and Operation Noble Eagle and those who have protected our borders by land, sea, and air.

Your Committee received testimony in support of this measure from the Department of Defense; State Office of Veterans Services; Military Order of Foreign Wars, Hawaii Commandery; Veterans of Foreign Wars of the United States, Department of Hawaii; American Legion, Department of Hawaii; and four individuals.

Your Committee finds that the Gulf War, and subsequent military actions associated with the Global War on Terror, together represent the longest period of sustained military conflict carried out by generations of American service members. Public memorials are an essential form of recognition and remembrance to honor United States veterans and military service personnel who have served in and died as a result of war and conflict. It is appropriate for Hawaii to follow the example of other states in erecting its monuments to these veterans who gave their lives in service to the nation. This measure will allow the citizens of the State of Hawaii to recognize the sacrifices of military personnel from 1990 until today by funding plans and design of a memorial and replicas honoring veterans of the Persian Gulf War, Operation Desert Storm, Operation Iraqi Freedom, Operation Enduring Freedom, Operation New Dawn, Global War on Terrorism, Homeland Defense, and Operation Noble Eagle and those who have protected our borders by land, sea, and air.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2275 Government Operations on S.B. No. 3282

The purpose and intent of this measure is to:

- (1) Authorize the Comptroller to direct the disposition of records and adopt rules regarding the transfer, retention, and destruction of records; and
- (2) Appropriate funds for the staffing, operating costs, and equipment required to execute the transfer of records authorized by the Comptroller.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and Hawaii State Archives. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that state departments and agencies are required by law to maintain certain records for a certain period of time. On-site storage, however, is more expensive and inefficient than offsite, centralized bulk storage. Your Committee further finds that the lack of physical transportation capability is an existing limitation on transferring agency and department records to offsite storage.

Your Committee additionally finds that the Hawaii State Archives is tasked with, among other things, assisting departments and agencies in complying with legal retention requirements. This measure, as noted by testimony, authorizes the Comptroller to issue uniform rules, which will facilitate the transfer of records to centralized bulk storage and help departments and agencies comply with records retention requirements.

Accordingly, your Committee finds that this measure provides the authority and the funds required to physically transfer records out of department and agency offices across the State and into centralized bulk storage. This centralization will free up office space for more productive use and facilitate the eventual destruction of certain records pursuant to law. For additional cost-efficient disposition of records, your Committee also encourages the Comptroller to adopt rules to facilitate the digitization of records.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3282 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2276 Government Operations on S.B. No. 3369

The purpose and intent of this measure is to:

- (1) Establish a working group under the State Procurement Office to develop a plan for the phased consolidation of procurement services and staff within executive branch agencies within a five-year timespan, excluding the Department of Education, Hawaii Health Systems Corporation, and University of Hawaii; and

(2) Appropriate moneys to the State Procurement Office to support the activities of the working group.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received comments on this measure from the State Procurement Office and Department of Budget and Finance.

Your Committee finds that procurement activities throughout the State may not be consistently compliant with applicable statutory law and administrative rules. Your Committee also finds that procurement, particularly in the area of construction, requires highly specialized expertise. Many purchasers conduct procurement activities as part of their “other duties as assigned” and have minimal training and experience in public procurement. This can lead to mistakes resulting in increased costs to the government. Your Committee therefore finds that efforts to consolidate executive branch procurement has the potential to decrease costs to the government and taxpayers by providing dedicated staffing with the necessary procurement experience and training.

Your Committee further finds that the executive branch currently operates a decentralized procurement regime, in which each department is delegated procurement authority. Your Committee notes that, according to the Department of Accounting and General Services, certain departments have unique procurement requirements, particularly with respect to grants and federal funds, that may complicate consolidation efforts.

Your Committee additionally finds that testimony from the State Procurement Office indicates that it is currently experiencing a staffing shortage and would therefore benefit from extending the lifespan of the working group, so that it may adequately support the working group. This testimony also indicated that the Office of Hawaiian Affairs has its own Chief Procurement Officer and should therefore be added to the list of departments to be excluded from any consolidation.

Accordingly, this measure is necessary to study and develop a cogent and responsible plan for the phased consolidation of certain executive branch procurement services and staff, taking into account the unique aspects of procurement for each department, with the overarching goals of increasing competency and expertise, efficiency, and transparency in the public procurement process.

Your Committee has amended this measure by:

- (1) Excluding the Office of Hawaiian Affairs from the Procurement Services Consolidation Plan;
- (2) Requiring that the working group submit an interim report prior to the Regular Session of 2023 and a final report prior to the Regular Session 2024;
- (3) Extending the working group dissolution date by one year, to June 30, 2024;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3369, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3369, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2277 Government Operations on S.B. No. 3284

The purpose and intent of this measure is to establish a working group in the Office of Enterprise Technology Services to develop a plan for the phased consolidation of information technology services and staff within executive branch agencies over a five-year period, excluding the Department of Education, Hawaii Health Systems Corporation, and University of Hawaii.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and Transform Hawai'i Government. Your Committee received comments on this measure from the Department of Transportation and Department of Land and Natural Resources.

Your Committee finds that the State could benefit from consolidating information technology resources by gaining economies of scale and providing for a more efficient and secure use of technology and information management. Your Committee further finds that the Office of Hawaiian Affairs should be added as a department that is excluded from the consolidation that is the subject of this measure, due to its statutory construct and structure.

Accordingly, your Committee finds that the consolidation of technology resources under this measure will help to ensure that the State remains in compliance with growing regulatory requirements for accessibility, information storage, data sharing, and security, especially in light of recent high-profile attacks of government computer systems by hackers. It will also promote efficiency and facilitate good governance by leveraging economies of scale.

Your Committee has amended this measure by:

- (1) Excluding the Office of Hawaiian Affairs from the information technology services consolidation;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3284, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3284, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2278 Government Operations on S.B. No. 2726

The purpose and intent of this measure is to exempt parking concessions from the requirements of section 102-2, Hawaii Revised Statutes, which requires the sealed bid method of procurement to be used and imposes certain limitations on the duration of contracts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the City and County of Honolulu's Department of Budget and Fiscal Services.

Your Committee finds that section 102-2, Hawaii Revised Statutes, presently governs the process of procuring services for the operation of parking lots. Your Committee further finds that the requirements of this section can unnecessarily hinder the efficient and timely procurement of necessary and at times, urgently-needed, parking lot operation services. Your Committee additionally finds that the mandates of this section increase the cost of procuring services for the operation of parking lots and is antithetical to the overarching goal of minimizing taxpayer expense.

Your Committee notes the testimony submitted in opposition to this measure, which is premised in part on the assumption that this measure exempts parking concessions from chapter 102, Hawaii Revised Statutes, altogether. Your Committee finds, however, that such is not the case. The provisions of chapter 102, Hawaii Revised Statutes, other than the subject of this measure, remain applicable to public concessions, as noted by the testimony of the Department of Land and Natural Resources, thereby keeping fairness and transparency guardrails in-tact.

Accordingly, your Committee finds that this measure will provide procuring agencies the ability to respond more swiftly to critical and emergency parking needs. This measure will also provide to procuring agencies a reasonable degree of flexibility that will promote, ultimately, the efficient and effective delivery of parking services to the public and for government operations.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2726, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2279 Government Operations on S.B. No. 3002

The purpose and intent of this measure is to update the reporting requirements of state departments, including the Department of Education, that pertain to the farm to school program established under Act 175, Session Laws of Hawaii 2021 (Act 175), and the mandate to purchase certain amounts of locally grown produce imposed by Act 176, Session Laws of Hawaii 2021 (Act 176).

Your Committee received testimony in support of this measure from the Department of Education; Ulupono Initiative; Supersistence; Hawaii Cattlemen's Council, Inc.; and Hawai'i 'Ulu Producers Cooperative.

Your Committee finds that Act 175 and Act 176 seek to encourage the development of a robust agricultural industry in Hawaii by leveraging the purchasing power of the State. Your Committee further finds that the collection and assessment of key data pertaining to the program created under Act 175, and the mandate imposed by Act 176, will increase the effectiveness of each and drive further improvements to them. This, in turn, will promote the larger goal of strengthening, supporting, and expanding the State's agricultural industry. Accordingly, this measure will ensure that relevant and impactful data are collected by updating and clarifying departments' data collection obligations pertaining to Act 175 and Act 176.

Your Committee has amended this measure by:

- (1) Clarifying that the report shall include the total food cost incurred by the department during the preceding calendar year; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3002, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2280 Government Operations on S.B. No. 3350

The purpose and intent of this measure is to require that any procurement change order that increases contract cost by more than fifty percent, or substantially increases the scope of work, shall be considered a new contract for procurement purposes.

Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that procurement, particularly in the procurement of construction work, often suffers from runaway costs and expansion of project scope due to change orders. This is not to say that all change orders are unnecessary, since construction is a dynamic endeavor.

However, your Committee finds that, where a change order increases the contract cost by more than fifty percent or increases the scope of work in a substantial manner, it effectively results in a new and additional procurement that bypasses the procurement process. This is antithetical to promoting an open and competitive process that is the bedrock of procurement law.

Accordingly, your Committee finds that this measure will increase accountability in the procurement process by prohibiting change orders that result in a fundamentally new procurement. This will promote competition in procurement and ensure that taxpayer dollars are maximized.

Your Committee notes the testimony of the Department of Transportation, which urges your Committee to provide procuring agencies with discretion to approve certain change orders that exceed the limitations imposed by this measure when it is in the best interest of the State.

Your Committee has therefore amended this measure by:

- (1) Clarifying that the Chief Procurement Officer may approve a work order that increases contract cost by more than fifty percent, or substantially increases the scope of work, in a written justification if it is found to be in the best interest of the State;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and conformance.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3350, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2281 Government Operations on S.B. No. 3372

The purpose and intent of this measure is to allow, where it is determined that a solicitation or award of a contract is in violation of law, government contracts to be rescinded and awarded to the person or firm to whom the contract would have been awarded were it not for the violation.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and State Procurement Office. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Associated Builders and Contractors.

Your Committee finds that determinations that a solicitation or award of a contract is unlawful can unduly disrupt the procurement process and delay projects at taxpayer expense. Your Committee further finds that existing law lacks a statutory procedure to address to whom a contract may be awarded when it is determined that a solicitation or award of a contract violates the law. This measure creates that procedure.

Your Committee notes the testimonies of the State Procurement Office and Department of Accounting and General Services, requesting further clarification of determining the recipient of the contract in the situation where the initial awardee is found to be in violation of the law.

Accordingly, your Committee has amended this measure by clarifying that, where it is determined that a solicitation or award of a contract is in violation of law, a government contract may be rescinded and awarded to the next lowest responsive, responsible bidder to whom the contract would have been awarded were it not for the violation of law, as applicable or as directed by the Office of Administrative Hearings.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3372, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2282 Government Operations on S.B. No. 3040

The purpose and intent of this measure is to:

- (1) Amend the nomination process and the number of the members for the Procurement Policy Board;
- (2) Authorize the State Procurement Administrator to develop and administer procurement automation systems and assess, charge, and collect a transaction fee from all vendors using the procurement automation systems; and
- (3) Establish a procurement automation system special fund and amend section 103D-1010, Hawaii Revised Statutes, to conform with the amendments made to section 103D-1001, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the State Procurement Office and the State Council on Developmental Disabilities. Your Committee received comments on this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that government purchasing offices for several states operate using a self-funded model derived from a transaction fee ranging from one percent to two-and-a-half percent charged to all contracts in their respective procurement automation systems.

Your Committee further finds that establishing self-funded procurement automation systems, as proposed by this measure, will aid the State Procurement Office in the timely and competent execution of its statutory duties. To this end, your Committee also finds that

the State Procurement Office will benefit from funding for additional positions to aid in the management of procurement automation systems and the Office's statutory obligations.

Accordingly, this measure conserves taxpayer dollars and improves procurement efficiency by establishing a self-funded procurement automation system and funding necessary staff positions in the State Procurement Office.

Your Committee has amended this measure by:

- (1) Deleting all references to the procurement policy board;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective on July 1, 2022; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3040, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2283 Government Operations on S.B. No. 3373

The purpose and intent of this measure is to clarify the deadline for submitting written protests that are based on the content of a solicitation.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and State Procurement Office. Your Committee received comments on this measure from Associated Builders and Contractors.

Your Committee finds that existing law is unclear as to the deadline for submitting written protests that are based on the content of a solicitation. Your Committee finds that this measure clarifies the deadline requirements. Your Committee also notes the testimony of Associated Builders and Contractors, requesting further refinement to clarify the deadline for an award protest versus the deadline for a solicitation protest.

Accordingly, your Committee has amended this measure by deleting language to clarify that written protests of contract awards must be submitted within five working days of the posting of an award, whereas written protests based on the content of a solicitation must be submitted prior to the date set for the receipt of offers.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3373, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3373, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2284 Government Operations on S.B. No. 3270

The purpose and intent of this measure is to prohibit determinations of nonresponsibility, under the Hawaii Public Procurement Code, that are based solely on the failure to possess prior experience.

Your Committee received testimony in support of this measure from the State Procurement Office.

Your Committee finds that determinations of nonresponsibility based solely on a failure to possess prior experience can cause undue delay and expense in the procurement process. Accordingly, your Committee finds that this measure will clarify existing law by providing that the failure to possess prior experience shall not be the sole basis for a determination of nonresponsibility. This, in turn, will reduce delays and costs associated with the procurement process and will expand the pool of responsible bidders.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3270 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2285 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3335

The purpose and intent of this measure is to appropriate funds for operational expense of the Hawaii Wing of the Civil Air Patrol.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency; Maui County Composite Squadron, Civil Air Patrol; Veterans of Foreign Wars of the United States, Department of Hawaii; and ten individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Civil Air Patrol is a non-profit organization and an auxiliary of the United States Air Force and its missions include emergency services, aerospace education, and cadet programs. Civil Air Patrol members are volunteers who serve as pilots, scanners, and ground crew in fulfilling its mission. Additionally, Civil Air Patrol personnel regularly serve in the Hawaii Emergency Management Agency Emergency Operations Center during emergency and disaster incident responses, and they assist in the field by spreading warnings in remote areas before an incident, providing pre-assessment aerial reconnaissance, and assessing the damages and impacts afterward. Most recently, the Civil Air Patrol was employed on Maui following the December 2021 severe

storms and provided valuable aerial photography that assisted the State in its application for a federal disaster declaration. Although the Hawaii Wing of the Civil Air Patrol has conducted its activities through funding of operational expenses from the State for years, that funding ceased in 2019. Your Committee believes that the Civil Air Patrol is a key asset in state emergency management. This measure will allow the State to protect lives and property in Hawaii by appropriating funds for operational expenses of the Hawaii Wing of the Civil Air Patrol.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3335 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2286 (Joint) Public Safety, Intergovernmental, and Military Affairs and Health on S.B. No. 2017

The purpose and intent of this measure is to repeal section 453-34(d), Hawaii Revised Statutes, which limits licensure as an emergency medical technician 1 to individuals whose practice is performed in a county with a population of five hundred thousand or greater.

Your Committees received testimony in support of this measure from the State Fire Council, Hawai'i Fire Department, Honolulu Fire Department, and Maui Fire Department. Your Committees received comments on this measure from the Hawaii Medical Board.

Your Committees find that Act 119, Session Laws of Hawaii 2021 (Act 119), created an additional category for "emergency medical technician 1", which is an individual who is certified at a higher practice level than emergency medical technicians, but does not provide ambulance services. Act 119 required the Hawaii Medical Board to establish a pilot program to issue licenses to individuals qualified in emergency medical services upon application therefor; provided the applicant meets various levels of education and training based on national standards and qualifications. The purpose of Act 119 was to align the State with national trends and mitigate the unintended consequences associated with the deregulation of the State's emergency medical services system by including emergency medical technicians who do not work on an ambulance, but provide life-saving care. However, Act 119 was limited to those counties having a population of greater than five hundred thousand, thereby excluding emergency medical technicians, such as firefighters and lifeguards, for the counties of Maui and Kauai. Individuals certified by the National Registry of Emergency Medical Technicians across the State have clearly demonstrated their value by providing an additional level of care and services, particularly for Hawaii's neighbor island communities where resources in the pre-hospital environment are not as readily available as in Honolulu and those resources are geographically dispersed in remote areas. This measure will allow the State to further protect the health and safety of individuals in Hawaii's neighbor island communities by repealing section 453-34(d), Hawaii Revised Statutes, which limits licensure as an emergency medical technician 1 to individuals whose practice is performed in a county with a population of five hundred thousand or greater.

Your Committees have heard the testimony of the Department of Labor and Industrial Relations suggesting revisions to this measure to improve clarity and alignment with the National Registry of Emergency Medical Technicians. Your Committees find that this issue raises concerns that merit further consideration and requests that your Committee on Commerce and Consumer Protection further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2017 and recommend that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Health: Ayes, 5. Noes, none. Excused, none.

SCRep. 2287 Energy, Economic Development, and Tourism on S.B. No. 3057

The purpose and intent of this measure is to:

- (1) Amend the definition of renewable portfolio standard to be a percentage of electrical energy generation, rather than sales; and
- (2) Require electric utility companies to track and annually report data and trends on customer retention and attrition to further inform the calculation of renewable portfolio standards.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Commerce and Consumer Affairs' Division of Consumer Advocacy; Hawaii State Energy Office; Life of the Land; Climate Protectors Hawai'i; Hawaii Clean Power Alliance; 350Hawaii.org; Ulupono Initiative; and thirteen individuals. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that not only does the current calculation of renewable portfolio standards in the State inaccurately reflect the amount of renewable energy actually being utilized which ultimately allows for the continued use of fossil fuels. Your Committee further finds that amending the renewable portfolio standard calculation from the amount of renewable electrical energy sales divided by total amount of energy sales to the amount of renewable electrical energy generated divided by the total amount of electrical energy generated more accurately reflects the intent of the State's clean energy economy goals. According to testimony from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy, it may be more appropriate to place the language requiring electrical utility companies to report data and trends on customer retention and attrition under another section in the Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Creating a new section for the requirement of electric utility companies to track and annually report data and trends on customer retention and attrition in its own section; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3057, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2288 Energy, Economic Development, and Tourism on S.B. No. 3333

The purpose and intent of this measure is to authorize:

- (1) Any person to commence a civil action in district court on that person's own behalf against any owner of a dwelling unit if the owner:
 - (A) Advertises, solicits, offers, or provides the dwelling unit as a transient vacation unit; and
 - (B) Is not authorized by the applicable county to provide the unit as a transient vacation unit; and
- (2) All district courts to hear private civil suits relating to unauthorized transient vacation units.

Your Committee received testimony in support of this measure from City and County of Honolulu Department of Planning and Permitting, Keep it Kailua, and the Hawaii Hotel Alliance. Your Committee received testimony in opposition to this measure from Airbnb, Rental By Owners Awareness Association, and sixteen individuals. Your Committee received comments on this measure from the Hawai'i Tourism Authority.

Your Committee finds that illegal transient vacation units are increasingly located in residential areas, often in violation of zoning laws and creating conflict with residential neighbors. Although your Committee recognizes the concerns of the testimony in opposition, it believes that the lack of regulatory enforcement on illegal transient vacation units is an urgent issue that merits further consideration.

Accordingly, your Committee has amended this measure by:

- (1) Lowering the cap in damages from \$25,000 to \$10,000;
- (2) Inserting language that allows a prevailing defendant owner to be awarded reasonable attorneys' fees in cases where the court finds the plaintiff's claim to be fraudulent or frivolous; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3333, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2289 Housing on S.B. No. 3167

The purpose and intent of this measure is to:

- (1) Re-establish special action team on rental housing to issue reports regarding the State's progress towards meeting the affordable rental housing goals set forth in Act 127, Session Laws of Hawaii 2016; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Office of Planning and Sustainable Development. Your Committee received comments on this measure from the Department of Budget and Finance, Office of Information Practices, Common Cause Hawaii, and League of Women Voters of Hawaii.

Your Committee finds that the State lacks sufficient affordable rental housing. The lack of affordable rental housing disproportionately burdens Hawaii's low-income families and households. Act 127, Session Laws of Hawaii 2016, established a special action team to help the State meet its affordable rental housing goals. However, that special action team ceased to exist in 2019. This measure re-establishes a temporary Special Action Team on Affordable Rental Housing to further assist the State in its efforts to increase the amount of affordable rental housing in Hawaii. However, this measure contains a provision exempting meetings of the special action team from the requirements of chapter 92, Hawaii Revised Statutes, which testimony received by the Office of Information Practices recommended be deleted.

Accordingly, your Committee has amended this measure by:

- (1) Removing the exemption to chapter 92, Hawaii Revised Statutes;
- (2) Providing that the appropriation shall be in addition to the Office of Planning and Sustainable Development's base budget; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3167, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2290 Housing on S.B. No. 2228

The purpose and intent of this measure is to require the Hawaii Housing Finance and Development Corporation to:

- (1) Study the application of the Taxable Mortgage Subsidies Program to the ALOHA Homes Program; and
- (2) Issue taxable limited obligation mortgage revenue bonds to finance the ALOHA Homes Program and other housing programs.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Department of Budget and Finance.

Your Committee finds that the Taxable Mortgage Subsidies Program offers a promising mechanism through which the implementation and development of ALOHA homes in the State may be financed. This measure requires the Hawaii Housing Finance and Development Corporation to study the application of taxable mortgage subsidy bonds to the ALOHA Homes Program.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$200,000; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2228, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2291 Housing on S.B. No. 2226

The purpose and intent of this measure is to:

- (1) Require the Auditor to conduct an affordable housing cost study with the assistance of the Hawaii Housing Finance and Development Corporation; and
- (2) Require a report to the Legislature.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Office of the Auditor.

Your Committee finds that there are many barriers to the development of affordable housing in the State. However, there is also insufficient information on which factors are most influential in increasing the costs of affordable housing. This measure will ensure greater access to information on the development of affordable housing by directing the Auditor to conduct a study on affordable housing costs. However, your Committee further finds that, according to testimony submitted by the Office of the Auditor, the Hawaii Housing Finance and Development Corporation is better suited to conduct a study of affordable housing costs.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the Office of the Auditor with the Hawaii Housing Finance and Development Corporation as the agency conducting the study;
- (2) Inserting \$250,000 as the appropriation amount;
- (3) Inserting the Hawaii Housing Finance and Development Corporation as the expending agency of the appropriation;
- (4) Changing its effective date to July 1, 2022; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2226, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2292 (Majority) Housing on S.B. No. 2251

The purpose and intent of this measure is to allow the Hawaii Public Housing Authority to build non-subsidized housing.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation, the Sierra Club of Hawai'i, Kūpuna for the Mo'opuna, and fourteen individuals.

Your Committee finds that the lack of affordable housing in the State is driven, in part, by a limited supply of available units. Directing state resources toward the production of new housing units, regardless of the targeted income level, would benefit the State's housing market.

Testimony received by the Hawaii Public Housing Authority (HPHA) indicated that there has been a shift away from concentrating public housing for extremely low-income families in dense urban areas. Instead, the U.S. Department of Housing and Urban Development, which provides significant funding to HPHA to house disadvantaged families, is now shifting toward adopting a mixed-income and mixed-finance redevelopment model. This new model allows for families of more diverse income levels to live side by side, instead of isolating the poor. The market rate rents paid by higher income families will help to subsidize the cost of providing lower income units, reducing the gap in financing needed from the State to underwrite the projects. The model also allows for public-private partnerships in financing housing projects, better positioning HPHA to access private capital and financing.

This measure authorizes the Hawaii Housing Authority to construct housing units without income restrictions. However, your Committee further finds that this measure allows ceded lands claimed by native Hawaiians to be used for commercial and market-rate development.

Your Committee further finds that amendments are necessary to adopt suggestions made by HPHA and with respect to ceded lands.

Accordingly, your Committee has amended this measure by:

- (1) Adding a new part to chapter 356D, Hawaii Revised Statutes, prohibiting the Hawaii Public Housing Authority from constructing or developing housing on ceded lands vacant on or after January 1, 2022;
- (2) Removing provisions repealing the definition of "public housing project";
- (3) Repealing references to "non-subsidized housing";
- (4) Inserting a definition of "housing" or "housing project" in section 356D-11, 356D-12, and 356D-12.5, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2251, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2293 Agriculture and Environment on S.B. No. 2218

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a five-year food hub pilot program to increase access to local food;
- (2) Allow for the awarding of grant funds to qualified applicants wishing to establish or expand a food hub;
- (3) Authorize the issuance of general obligation funds for the Honalo Marshalling Yard;
- (4) Require a report to the legislature; and
- (5) Appropriate funds.

Your Committee received testimony in support of this measure from the North Shore Economic Vitality Partnership; Hawaii Meats, LLC; Hawai'i SEED; Hawai'i Primary Care Association; Hawai'i Alliance for Progressive Action; Uluono Initiative; Hawaii Cattlemen's Council, Inc.; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; and twenty individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that the State's food security will be strengthened by growing more foods locally. Your Committee further finds that centrally-located food hub facilities promote coordination activities along the value chain for food products and increase access to locally produced food.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2218 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2294 (Majority) Agriculture and Environment on S.B. No. 2509

The purpose and intent of this measure is to repeal an exemption to the general excise tax for genetically engineered agricultural products.

Your Committee received testimony in support of this measure from Hawai'i SEED, Hawai'i Alliance for Progressive Action, Rancho Aloha, and twenty-four individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Farm Bureau, Hawaii Crop Improvement Association, Biotechnology Innovation Organization, and Hawaii Farmers & Ranchers United. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure promotes a more competitive and fair business environment in the State by repealing the exemption to the general excise tax for genetically engineered agricultural products.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2509 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Nishihara). Excused, none.

SCRep. 2295 Agriculture and Environment on S.B. No. 2621

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to establish bovine tuberculosis control operations on Molokai.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; one member of the Maui County Council; and eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that after twenty-five years without detection, a recurrence of bovine tuberculosis has occurred among the livestock on the island of Molokai. This measure appropriates funds for essential personnel, land, and equipment for the Department of Agriculture to combat this spread of bovine tuberculosis on the island of Molokai.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2621 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2296 Agriculture and Environment on S.B. No. 2622

The purpose and intent of this measure is to establish and provide funds for a two-year pilot project to grow biodiesel crops on the island of Molokai and require a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, one member of the Maui County Council, and six individuals. Your Committee received comments on this measure from the Hawaii State Energy Office and the Department of Budget and Finance.

Your Committee finds that this measure will support the growth of crops for biodiesel, which will provide jobs, diversify the State's economy, reduce food and fuel imports, and help the State reach its renewable energy goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2622 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2297 Agriculture and Environment on S.B. No. 2675

The purpose and intent of this measure is to:

- (1) Establish a three-year cover crop reimbursement program to provide reimbursement to farming operations in the State for costs related to cover cropping;
- (2) Establish a cover crop reimbursement pilot program manager position within the Department of Agriculture to administer the program;
- (3) Require an annual report to the Legislature; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Larry Jefts Farms, LLC; Hawaii Cattlemen's Council, Inc.; 350Hawaii.org; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the use of cover crops increases agricultural productivity and aligns with the State's integrated sustainability goals. Specifically, cover crops add nutrients to the soil, act as windbreaks, assist with water retention, provide habitats for beneficial insects, offset greenhouse gas emissions, and prevent soil erosion. This measure incentivizes the use of beneficial cover crops by establishing a three-year cover crop pilot program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2675 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2298 Agriculture and Environment on S.B. No. 2907

The purpose and intent of this measure is to require the Hawaii Invasive Species Council to classify coffee leaf rust as an invasive species in its administrative rules and direct available funding to mitigation efforts, research, and prevention or control actions of coffee leaf rust.

Your Committee received testimony in support of this measure from the University of Hawai'i; Hawaii Coffee Association; Hawaii Coffee Growers Association; Rusty's Hawaiian, LLC; Isla Custom Coffees; Synergistic Hawaii Agriculture Council; and four individuals. Your Committee received comments on this measure from the Department of Agriculture and Hawai'i Invasive Species Council.

Your Committee finds that coffee leaf rust poses a substantial threat to Hawaii's coffee industry. This measure addresses an urgent need for the Hawaii Invasive Species Council to direct resources to combat coffee leaf rust in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2907 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2299 Agriculture and Environment on S.B. No. 2908

The purpose and intent of this measure is to appropriate funds to expand state-run quarantine facilities under the jurisdiction of the Department of Agriculture's plant quarantine branch.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawaii Coffee Association; Hawaii Coffee Growers Association; Kauai Coffee Company, LLC; Maui Coffee Association; Rusty's Hawaiian, LLC; Island Sun Coffee; Growing Together Edible Landscaping; Synergistic Hawaii Agriculture Council; and six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the rapid response to newly detected invasive species can prevent the species from becoming firmly established. However, state resources must also be deployed to combat invasive species already established in the State. The Department of Agriculture requires access to greater resources to fulfill its dual mandate to prevent and combat invasive species in the State. This measure assists the Department of Agriculture by appropriating funds to expand state-run quarantine facilities.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2908 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2300 (Majority) Agriculture and Environment on S.B. No. 2909

The purpose and intent of this measure is to provide a certification process for privately-owned and operated plant quarantine facilities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kauai Coffee Company, LLC; Synergistic Hawaii Agriculture Council; Hala Tree Coffee; Island Sun Coffee; Maui Coffee Association; Rusty's Hawaiian, LLC; Hawaii Coffee Growers Association; Hawaii Coffee Association; Hawai'i Farm Bureau; and six individuals. Your Committee received testimony in opposition to this measure from the Kona Coffee Farmers Association and Rancho Aloha.

Your Committee finds that existing state-owned quarantine facilities have insufficient capacity to mitigate the threat of invasive diseases and species. Allowing privately-owned and operated facilities to perform the functions of state-owned facilities would reduce stress on state-owned facilities. This measure increases the State's plant quarantine capacity by providing a permitting process for privately-owned and operated plant quarantine facilities. Your Committee notes the testimony submitted by the Department of Agriculture expressing the concern that the use of privately-owned and operated facilities may create an inherently higher risk of invasive species.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2909 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Acasio, Rhoads, Fevella). Noes, 1 (Nishihara). Excused, none.

SCRep. 2301 Agriculture and Environment on S.B. No. 2951

The purpose and intent of this measure is to:

- (1) Require all agricultural products sold to consumers directly or through wholesale to be displayed with a label or sign containing an identity statement declaring the products' geographical origin; and
- (2) Impose penalties on vendors who display products with incorrect or misleading labels regarding their products' geographical origin.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Coffee Growers Association, Hawai'i Farm Bureau, Hawaii Coffee Association, and one individual. Your Committee received testimony in opposition

to this measure from the Hawaii Food Industry Association. Your Committee received comments on this measure from Hawaii Farmers and Ranchers United.

Your Committee finds that local agricultural products play a crucial role in Hawaii's communities and the State's 2050 Sustainability plan includes a goal of increasing production and consumption of local foods and products. However, there have been instances in which vendors sell agricultural products with incorrect or misleading labeling. This measure increases consumer confidence in locally produced products by requiring geographical origin labeling and prohibiting the sale of products with incorrect or misleading labels.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2951 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2302 Agriculture and Environment on S.B. No. 2986

The purpose and intent of this measure is to:

- (1) Eliminate duplicative regulations of hemp production;
- (2) Establish and revise rules for processing hemp;
- (3) Require transparency in the labeling of hemp products; and
- (4) Allow licensed hemp producers to sell hemp directly to consumers that reside out-of-state.

Your Committee received testimony in support of this measure from South Maui Gardens, Hawaii Royal Hemp, Hawaii Islands Hemp Farmers Center, Hawai'i Farmers Union United, Hawaii Hemp Farmers Association, and eight individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Department of Agriculture, Department of Health, and one individual.

Your Committee finds that the existing regulation of hemp production and processing in the State places a heavy burden on hemp producers. That heavy burden has undermined the competitiveness of Hawaii's hemp industry and the livelihood of many farmers who rely on the additional revenues generated through hemp production.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2986 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2303 (Majority) Agriculture and Environment on S.B. No. 2987

The purpose and intent of this measure is to impose extended terms of imprisonment for certain offenses against property rights when committed on agricultural land and to appropriate funds for the Department of the Attorney General to establish a Statewide Agricultural Theft Task Force.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Department of Agriculture; Hawaii Coffee Association; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that offenses committed on agricultural lands pose a threat to the successful and continued operation of agricultural businesses. Offenses that damage the ability of agricultural businesses to produce agricultural products are particularly harmful to the State in its efforts to promote the agricultural industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2987 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 2304 Agriculture and Environment on S.B. No. 2989

The purpose and intent of this measure is to establish and fund a healthy soils grant program and special fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Adaptations, Inc.; Center for Getting Things Started; and twenty-four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the productivity of the State's agricultural industry depends on access to healthy soils. This measure supports the development of healthy soils through the establishment of a grant program and special fund.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2989 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2305 Agriculture and Environment on S.B. No. 3198

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds for capital improvements benefiting agriculture.

Your Committee received testimony in support of this measure from the Ulupono Initiative, Hawai'i Farm Bureau, Hawai'i 'Ulu Producers Cooperative, Hawai'i Farmers Union United, and six individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that this measure will provide support for the important work performed by the Ulu Cooperative as a food hub for producers of local starches on the islands of Hawai'i, Maui, and Oahu and increase local food production.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3198 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2306 Judiciary on S.B. No. 3182

The purpose and intent of this measure is to establish a wealth asset tax of one percent on all assets of a taxpayer, in excess of \$20,000,000 for taxpayers filing joint returns, or \$10,000,000 for every other taxpayer, except for interests in real property.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i. Your Committee received testimony in opposition to this measure from Hawaii Bankers Association and one individual. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Grassroot Institute of Hawaii.

Your Committee finds that extremely wealthy individuals whose state assets exceed \$20,000,000 possibly are not contributing their fair share of taxes. This category includes numerous wealthy non-residents who hold assets in Hawai'i, which increases real property values and places financial burdens on the residents of Hawai'i. Increasing taxes on individuals with many millions of dollars in assets will generate more revenue for the benefit of the State's economy. This measure will ensure that individuals with \$20,000,000 or more in assets pay their equitable share of taxes.

Your Committee has amended this measure by:

- (1) Specifying that a wealth asset tax of one percent of the state net worth of a taxpayer applies to each individual taxpayer who holds \$20,000,000 or more in assets in the State, rather than worldwide;
- (2) Clarifying that the state net worth of an individual taxpayer is based on the individual's assets, not joint assets, and each married individual is to file separately from the spouse;
- (3) Clarifying that assets include debts that are owed to the taxpayer;
- (4) Including real property as an asset;
- (5) Specifying that if the taxpayer pays a wealth asset tax on the same asset in a different state, the amount paid to the other state is subtracted from the state tax liability;
- (6) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3182, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio, Kim). Noes, none. Excused, 1 (Fevella).

SCRep. 2307 Government Operations on S.B. No. 2930

The purpose and intent of this measure is to amend the law relating to government.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with content to establish and fund two new units and related staff positions within the Department of the Attorney General.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2930, as amended herein, and recommends that it be recommitted to your Committee on Government Operations, in the form attached hereto as S.B. No. 2930, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 2308 Health on S.B. No. 2034

The purpose and intent of this measure is to require the assessment of certain patients subject to emergency hospitalization to determine if a surrogate or guardian should be appointed to make appropriate health care decisions for the patient.

Your Committee received testimony in support of this measure from the Institute for Human Services, Inc.; Hawaii Substance Abuse Coalition; and three individuals. Your Committee received comments on this measure from the Adult Mental Health Division of the Department of Health, Hawai'i Pacific Health, The Queen's Health Systems, and one individual.

Your Committee finds that when individuals are in crisis and suffering from an acute serious mental illness, it is necessary to achieve a balance between ensuring that they can be treated during a time where they lack decision making capacity and honoring their right to self-determination. Requiring an assessment to determine whether a surrogate or guardian is needed to make appropriate health care decisions when an individual lacks decisional capacity supports this balance. Accordingly, this measure requires such an assessment by a psychiatrist or advanced practice registered nurse with prescriptive authority and certain certification in psychiatric specialization.

Your Committee acknowledges the testimony of various health care providers who offered amendments clarifying this measure and authorizing other qualified staff members to conduct the assessment.

Therefore, your Committee has amended this measure by:

- (1) Authorizing emergency room physicians and psychologists to assess whether the patient is suffering from a mental illness or substance abuse disorder, and whether the patient lacks decisional capacity;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2034, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2309 Health on S.B. No. 2467

The purpose and intent of this measure is to require that one annual mental health screening be included in health insurance coverage for diagnosis and treatment of mental disorders.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Stonewall Caucus of the Democratic Party of Hawaii, Hawaii Medical Service Association, Hawai'i Public Health Institute, and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that mental health care is a critical tool in addressing chronic disease. Although mental health has conventionally been approached as separate and secondary to physical health, studies have shown that mental illness is integral to overall health and has been linked to chronic diseases such as diabetes, cardiovascular disease, and cancer. Covering annual mental health screenings will help to normalize routine mental health check-ups, reduce stigma around mental health and mental illness, increase access to care, and encourage earlier detection and treatment of mental illness, which could reduce the prevalence of chronic disease.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2467, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2310 Health on S.B. No. 2529

The purpose and intent of this measure is to appropriate funds to accommodate the anticipated increase in the volume of calls to the Hawaii CARES Crisis Helpline following the transition of the National Suicide Prevention Lifeline's dial code to "9-8-8" on July 16, 2022.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, Prevent Suicide Hawai'i Task Force, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Psychiatric Medical Association.

Your Committee finds that the Hawaii Coordinated Access Resource Entry System (CARES) is a service that works with a statewide network of service providers focused on crisis intervention, substance use disorder treatment, mental health, and other behavioral health services. Calls to the National Suicide Prevention Lifeline that originate from Hawaii are routed to the CARES line. Your Committee further finds that after July 16, 2022, when the National Suicide Prevention Lifeline will begin using the telephone code "9-8-8", there is expected to be an increased call volume to the CARES line. This measure appropriates funds to the Department of Health to prepare for the increase in call volume, and to support the need for increased crisis intervention services.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2529, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2311 Housing on S.B. No. 3177

The purpose and intent of this measure is to exempt from certain land use regulations for-sale housing projects that, in perpetuity, do not impose income restrictions and are built for qualified owner-occupants who own no other real property.

Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State faces an unprecedented housing crisis. While many regulations and restrictions on housing development are necessary, some increase the costs associated with the construction of new housing projects. This measure exempts certain for-sale housing projects from restrictions that unnecessarily inhibit the construction of new housing projects. Your Committee further finds that residential units at all price points are needed to solve the housing shortage for Hawaii residents and that utilizing the expedited process in chapter 201H, Hawaii Revised Statutes, is a viable solution.

Your Committee has amended this measure by replacing the contents in section 1 with new language that adds a new section to chapter 201H, Hawaii Revised Statutes, which:

- (1) Establishes a new exemption from statutes, ordinances, charter provisions, and rules;
- (2) Prohibits the implementation of income restrictions for housing projects developed pursuant to the new section;
- (3) Requires housing projects developed pursuant to the new section be exclusively sold or transferred:
 - (A) As leasehold or fee simple units;
 - (B) To owner-occupants;
 - (C) To prospective owners who own no other real property; and
 - (D) To residents of the State; and
- (4) Requires that the provisions of the new section apply in perpetuity.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3177, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3177, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2312 Commerce and Consumer Protection on S.B. No. 2835

The purpose and intent of this measure is to:

- (1) Prohibit health insurance companies from denying coverage on the basis of gender identity if the policy covers the treatment for purposes other than gender transition; and
- (2) Require insurance companies to provide applicants and insured persons with clear information about the coverage of gender transition services, including the process for appealing a claim denied on the basis of medical necessity.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i; Democratic Party of Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; Hawaii Health & Harm Reduction Center; National Center for Transgender Equality and Transgender Law Center; One Single Rainbow Connection, LLC; Kumukahi Health & Wellness; and thirty-nine individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Association of Health Plans, and Hawaii Medical Service Association.

Your Committee finds that there is a growing consensus among major medical organizations that gender transition-related health care services, including surgical treatments, are medically necessary to alleviate gender dysphoria and should be covered by a patient's insurance. Refusing to cover services and treatments on the sole basis that they relate to gender transition, when those same treatments would otherwise be covered under a policy if prescribed for non-transgender conditions or treatments, constitutes discrimination and can lead to serious mental health ramifications for transgender persons who are arbitrarily denied coverage. This measure is therefore necessary to prohibit insurance companies from further discriminating on the basis of gender identity. Your Committee notes that this measure is subject to an impact assessment report by the Auditor, pursuant to section 23-51, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Moving the requirements pertaining to health maintenance organizations from sections 431:10A-118.3 and 432:1-607.3, Hawaii Revised Statutes, to its respective section 432D-26.3, Hawaii Revised Statutes;

- (2) Specifying that no treatment or service shall be denied on the basis that it is not medically necessary unless a health care provider with experience in prescribing or delivering gender affirming treatment first reviews or confirms the appropriateness of the adverse benefit determination; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2835, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2313 (Majority) Judiciary on S.B. No. 2507

The purpose and intent of this measure is to amend the Hawaii State Constitution to require the State to provide enough housing to meet demand subject to standards and criteria as provided by law.

Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party.

Your Committee finds that non self-executing provisions of the Hawaii State Constitution set forth principles only and require further implementing legislation before they can be enforced. This means that the Legislature can enact legislation that provides the standards and criteria by which the intent of the constitutional amendment can be effectuated. Your Committee further finds that there is a significant shortage of housing statewide. This measure will promote legislation that may provide for an adequate supply of housing to the people of the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2507 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6; Ayes with Reservations (Acasio, Fevella). Noes, 1 (Kim). Excused, none.

SCRep. 2314 Judiciary on S.B. No. 2397

The purpose and intent of this measure is to:

- (1) Require certain individuals attempting to serve as child custody evaluators to complete a training course on domestic violence issues every three years; and
- (2) Require the Family Court to approve training courses and publish approved courses on the Judiciary website.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, AAUW of Hawaii, Hawaii State Democratic Women's Caucus, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy, Hawai'i State Coalition Against Domestic Violence, Parents and Children Together, Hawaii Family Advocacy Team, and three individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the Family Court may appoint a child custody evaluator from a list of qualified individuals to investigate a child custody dispute. Your Committee further finds that professionals who work before the Family Court and who have an impact on the safety and well-being of children and families need to understand the dynamics of domestic violence. When child custody evaluators do not have in-depth training and education on domestic violence, their recommendations to the courts on custody matters may be unduly affected and may not serve the best interests of children. Accordingly, knowledge about domestic violence issues, including lethality, subtlety, and prevalence of domestic violence, is essential for child custody evaluators. This measure will ensure that child custody evaluators receive proper training in domestic violence so that children are placed in a healthy and safe environments.

Your Committee has amended this measure by:

- (1) Clarifying that beginning July 1, 2023, a child custody evaluator must complete a training course on domestic violence every three years;
- (2) Specifying that the training course must be one approved for professional credit by the evaluator's or fact-finding investigator's professional accreditation body or as recommended by any state domestic violence services provider on their respective websites;
- (3) Specifying that the child custody evaluator must submit a letter or certificate of completion to the Family Court and shall provide a copy to parties or their attorneys upon request;
- (4) Specifying that all persons on the Family Court's registry as of July 1, 2023, must provide proof of completion of training on or before June 1, 2025;
- (5) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2315 Judiciary on S.B. No. 2130

The purpose and intent of this measure is to require judges to order the crime victim compensation fee in all eligible cases.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Department of Public Safety, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Kauai Victim/Witness Program, Hawai'i State Coalition Against Domestic Violence, and Mothers Against Drunk Driving. Your Committee received testimony in opposition to this measure from the Judiciary and Office of the Public Defender.

Your Committee finds that the Crime Victim Compensation Commission is struggling financially due to failure of judges to order the Crime Victim Compensation Fee in eligible cases and court closures resulting from the coronavirus disease 2019 (COVID-19) pandemic. The Crime Victim Compensation Fee was created by the Legislature in 1998 to act as the primary funding source of the Crime Victim Compensation Commission. Collection shortfalls of the Crime Victim Compensation Fee over many years have effectively deprived the Crime Victim Compensation Commission of the funding reserve it needed to survive the COVID-19 pandemic and pandemic-related court closures. Despite receiving emergency funding from the Legislature last year, revenue from the Crime Victim Compensation Fee continues to decline, falling during the first half of fiscal year 2022 and is eight percent lower than revenue from the same period from fiscal year 2021. This measure will help to address the Crime Victim Compensation Commission's funding shortfalls by encouraging judges to order payment of the Crime Victim Compensation Fee.

Your Committee has amended this measure by:

- (1) Allowing judges to waive the Crime Victim Compensation Fee if a defendant is unable or extremely unlikely to be able to pay the Crime Victim Compensation Fee in whole or in part within the next seven years instead of requiring that judges waive the fee if a defendant is unable to pay;
- (2) Requiring a court to issue a written decision or order with a written basis for the decision if the court waives the Crime Victim Compensation Fee;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2130, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2316 Judiciary on S.B. No. 2131

The purpose and intent of this measure is to address current funding shortfalls experienced by the Crime Victim Compensation Commission by exempting the Crime Victim Compensation Special Fund from certain assessments made by the Director of Finance to administer special funds.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Department of Public Safety, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Kauai Victim/Witness Program, and Mothers Against Drunk Driving.

Your Committee finds that the Crime Victim Compensation Commission is struggling financially due to failure of judges to order the Crime Victim Compensation Fee in eligible cases and court closures resulting from the coronavirus disease 2019 (COVID-19) pandemic. The Crime Victim Compensation Fee was created by the Legislature in 1998 to act as the primary funding source of the Crime Victim Compensation Commission. Collection shortfalls of the Crime Victim Compensation Fee over many years have effectively deprived the Crime Victim Compensation Commission of the funding reserve it needed to survive the COVID-19 pandemic and pandemic-related court closures. Despite receiving emergency funding from the Legislature last year, revenue from the Crime Victim Compensation Fee continues to decline, falling during the first half of fiscal year 2022 and is eight percent lower than revenue from the same period from fiscal year 2021. This measure will address current funding shortfalls experienced by the Crime Victim Compensation Commission by exempting the Crime Victim Compensation Special Fund from certain assessments made by the Director of Finance to administer special funds.

Your Committee has amended this measure by:

- (1) Exempting the Crime Victim Compensation Special Fund from certain assessments made by the Director of Finance to administer special funds for three fiscal years;
- (2) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2131, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2131, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2317 Judiciary on S.B. No. 2406

The purpose and intent of this measure is to define the term “public interest” with regard to the issuance of special purpose revenue bonds.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the issuance of special purpose revenue bonds provides investors in private capital improvement projects with tax exemptions when those projects are in the public interest. However, the term “public interest” is ill-defined, leading to situations where these valuable tax exemptions, which decrease the State’s tax base, are given to projects that are primarily or purely in the interest of private entities without clear public benefit. Your Committee further finds that the creation of jobs alone does not sufficiently satisfy the public interest requirement of special purpose revenue bonds, especially when those jobs may not provide a living wage in Hawai‘i. This measure makes it clear that in order for a special purpose revenue bond to be issued, the benefit provided to society as a whole must extend beyond the mere creation of jobs.

Your Committee has amended this measure by inserting an effective date of July 30, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2406, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2406, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2318 Judiciary on S.B. No. 2417

The purpose and intent of this measure is to repeal the cap on the amount of campaign funds candidates may donate to any community service, educational, youth, recreational, charitable, scientific, or literary organization, or public school or library.

Your Committee received testimony in opposition to this measure from Common Cause Hawaii, League of Women Voters of Hawaii, and five individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that candidates are currently permitted to donate campaign funds to any community service, educational, youth, recreational, charitable, scientific, or literary organization, or public school or library up to twice the maximum amount that one person may contribute to that candidate. Candidates should have the option to spend their campaign funds towards the betterment of the community. This measure allows candidates to donate more of their campaign monies to community organizations and schools.

Your Committee has amended this measure by:

- (1) Increasing the cap on the amount of campaign funds candidates may donate to any community service, educational, youth, recreational, charitable, scientific, or literary organization, or public school or library to \$6,000 for a candidate to a two-year office, \$12,000 for a candidate to a four-year nonstatewide office, and \$18,000 for a candidate to a four-year statewide office; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7; Ayes with Reservations (Acasio, Gabbard, Kim, Fevella). Noes, none. Excused, none.

SCRep. 2319 Judiciary on S.B. No. 2391

The purpose and intent of this measure is to:

- (1) Establish a Zero to Three Program Coordinator position;
- (2) Expand the Zero to Three Court Program to the Third Circuit; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Department of Human Services, Hawaii State Bar Association, West Hawai‘i Bar Association, Hawaii County Bar Association, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the period between one and three years of age is critical to the healthy development of a child. Your Committee further finds that instability and trauma in the life of a child during the early formative period can interrupt healthy patterns of growth and development, resulting in increased risk for numerous behavioral and developmental problems that can detrimentally impact the child’s future. Your Committee additionally finds that the Zero to Three Court has been established by the Judiciary to meet the needs of very young children and ensure that they can be placed in safe, permanent homes as quickly as possible. This measure provides funds to continue the Zero to Three Court Program in the Third Circuit so that the children in the County of Hawai‘i may live in healthy and safe environments.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2391 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2320 Judiciary on S.B. No. 3207

The purpose and intent of this measure is to establish a three-year women's court pilot program in the Circuit Court of the First Circuit, which is intended to acknowledge the distinct pathways that lead women into the criminal justice system and address their individual needs.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Hawaii State Bar Association, Women's Prison Project, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there has been a significant increase in the number of women in Hawai'i jails and prisons over the past forty years, resulting in a higher proportion of women who are incarcerated. Research reflects that for women, histories of abuse, trauma, poverty, mental illness, substance abuse disorders, and unhealthy relationships intersect with their entry into criminal behavior. Women offenders also face unique barriers to success after incarceration. They are more likely to be primary caregivers for young children, have lower educational attainment, lack stable work history, and experience economic or social marginalization, which prevents them from having more positive outcomes. Your Committee believes that the State should work to better address the particular needs of women in the criminal justice system. This measure will assist the State in addressing the distinct pathways that lead women into the criminal justice system by establishing a three-year women's court pilot program in the Circuit Court of the First Circuit.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3207 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Fevella).

SCRep. 2321 Water and Land on S.B. No. 2153

The purpose and intent of this measure is to appropriate funds out of the State Parks Special Fund to raise the expenditure ceiling of the special fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii State Aha Moku.

Your Committee finds that the Department of Land and Natural Resources Division of State Parks oversees and has jurisdiction over fifty park units encompassing thirty thousand acres throughout the State, which are composed of some of the State's most sought after and cherished natural, cultural, and historical resources. These park units enable residents and visitors to connect with nature and experience Hawaii's unique history through outdoor recreation and cultural heritage features including wildland areas with rustic camping opportunities and notable hiking trails.

With the onset of the coronavirus disease 2019 pandemic, the state parks system increased parking, entry, camping, and lodging fees for out-of-state visitors at nine state parks. With the robust return of visitor arrivals in 2021, combined with other park revenue sources, revenue from state parks is expected to exceed \$12,000,000 while the State Parks Special Fund expenditure ceiling is \$93,312. To improve the quality of maintenance, management, and public safety of the state park system from an influx of visitor and illicit use, this measure effectively increases the State Parks Special Fund ceiling by appropriating monies from the special fund to the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2153, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2322 (Majority) Water and Land on S.B. No. 3133

The purpose and intent of this measure is to include leases for commercial, industrial, and hotel or resort purposes as eligible for disposition by negotiation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Sierra Club of Hawai'i, Kūpuna for the Mo'opuna, Unite Here! Local 5 Hawaii, and one individual.

Your Committee finds that revenues generated from public land leases provide the Department of Land and Natural Resources with funds to support its programs, mission, and stewardship of Hawaii's conservation and watershed lands. Public lands across the State provide many economic development and growth and career opportunities. However, the public auction process to dispose of leases for commercial, industrial, and hotel or resort purposes has become cumbersome and uncertain, deterring some potential lessees from participating in the process. While some community voices have expressed concern regarding transparency and public engagement with the public auction process, this measure will allow certain leases to be eligible for disposition by negotiation to allow for expedited leasing processes for prospective lessees to engage in productive use of public lands.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3133, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2323 Water and Land on S.B. No. 3328

The purpose and intent of this measure is to:

- (1) Prohibit commercial ocean use activity at Kaneohe Bay or within one thousand feet of the bay without a permit from the Department of Land and Natural Resources; and
- (2) Expand commercial ocean use activities requiring a permit to include those involving kayaks, canoes, surfboards, sailboards, dive tours, and fishing tours.

Your Committee received testimony in support of this measure from the State Aha Moku, He'eia National Estuarine Research Reserve, Ko'olau Foundation, Ko'olaupoko Hawaiian Civic Club, and three individuals. Your Committee received testimony in opposition to this measure from Kama'aina Kids and five individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Kaneohe Bay Master Plan was developed pursuant to Act 208, Session Laws of Hawaii 1990, to establish a framework for the sustainable management of Kaneohe Bay's natural resources while accommodating a variety of uses. However, the limitations on commercial activity have been exceeded by other activities not previously envisioned, and by new technologies that support their proliferation such as pre-positioning of rental kayaks at Hee'ia State Park and Hee'ia Kea Pier, internet advertisements for kayaks, and the ability for customers to pay online. To perpetuate the vision of preservation and protection of Kaneohe Bay's natural resources for the continuing enjoyment of all, this measure updates permitted uses of Kaneohe Bay to reflect the intended purpose of the Kaneohe Bay Master Plan.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3328, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2324 Higher Education on S.B. No. 3186

The purpose and intent of this measure is to repeal the Candidate Advisory Council for the Board of Regents of the University of Hawaii and authorizes the Governor to appoint members to the Board of Regents of the University of Hawaii without being limited to selecting a candidate deemed qualified by the Council.

Your Committee received testimony in opposition to this measure from the Kapi'olani Community College Staff Council, Association of Emeritus Regents, and two individuals. Your Committee received comments on this measure from the Office of the Attorney General and the University of Hawai'i System.

Your Committee finds that the Board of Regents of the University of Hawaii serve in an important role to guide the policies and trajectory of the University of Hawaii. During its initial enactment in 2006, the Board of Regents Candidate Advisory Council became a vital tool to select regents in a similar method to judges and justices in the Hawaii State Judiciary.

While the Candidate Advisory Council has proven effective during periods in which a high number of individuals apply, in recent years, the Candidate Advisory Council has only recommended a small number of individuals from which the Governor may select new regents. For example, while an applicant may apply for a student regent opening, their name may also be submitted under the county opening, if applicable, making the pool of candidates only seemingly more competitive. To address concerns over thorough vetting of Board of Regents applicants, this measure eliminates the Board of Regents Candidate Advisory Council, allowing the Governor to directly appoint regents with the advise and consent of the Senate.

Your Committee has amended this measure by:

- (1) Retaining statutory language that allows the Legislature to apply the Hawaii Revised Statutes to the University of Hawaii for matters of statewide concern;

- (2) Clarifying the Board of Regents' jurisdiction of university structure, management, and operation;
- (3) Clarifying the constitutional question to address the current requirement that the Governor appoint members of the Board of Regents of the University of Hawaii from a pool of candidates presented by the Candidate Advisory Council; and
- (4) Amending section 1 to clarify its purpose.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3186, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3186, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2325 Higher Education on S.B. No. 3187

The purpose and intent of this measure is to eliminate the University of Hawaii Board of Regents Candidate Advisory Council and authorize the Governor to directly appoint members to the University of Hawaii Board of Regents, effective upon ratification of a constitutional amendment.

Your Committee received testimony in opposition to this measure from the Kapi'olani Community College Staff Council, Association of Emeritus Regents, and two individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that the Board of Regents of the University of Hawaii serve in an important role to guide the policies and trajectory of the University of Hawaii. During its initial enactment in 2006, the Board of Regents Candidate Advisory Council became a vital tool to select regents in a similar method to judges and justices in the Hawaii State Judiciary.

While the Candidate Advisory Council has proven effective during periods in which a high number of individuals apply, in recent years, the Candidate Advisory Council has only recommended a small number of individuals from which the Governor may select new regents. For example, while an applicant may apply for a student regent opening, their name may also be submitted under the county opening, if applicable, making the pool of candidates only seemingly more competitive. To address concerns over thorough vetting of Board of Regents applicants, this measure eliminates the Board of Regents Candidate Advisory Council, allowing the Governor to directly appoint regents with the advise and consent of the Senate.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3187, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2326 Higher Education on S.B. No. 3277

The purpose and intent of this measure is to prohibit the President of the University of Hawaii System from serving concurrently as a campus chancellor.

Your Committee received testimony in support of this measure from the Hawaii Regional Council of Carpenters and two individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that it is a matter of statewide concern that the President of the University of Hawaii System serves simultaneously as the chancellor of the University of Hawaii at Manoa. The combination of both chancellor and system president leads to inevitable conflicts of interest. While a 2015 report prepared by the Western Interstate Commission for Higher Education supported maintaining two distinct and separate positions, the president of the University of Hawaii served as interim chancellor of the University of Hawaii at Manoa until the position was abolished to transition into the newly-established provost position in 2019. To address concerns regarding simultaneous service as both chancellor of a University of Hawaii campus and as president of the University of Hawaii, this measure prohibits simultaneous service in both roles.

Your Committee also received testimony from the Hawaii Regional Council of Carpenters, which raised concerns about the president of the university also simultaneously serving as the chief procurement officer. Your Committee further finds that this is also problematic and warrants addressing as the chief procurement officer's role is to comply with the complexities of the procurement code, while the president has other obligations and duties that may not allow for the attention and focus required for such detailed compliance oversight.

Your Committee therefore has amended this measure by:

- (1) Inserting proposed language to prohibit the president of the University of Hawaii from simultaneously serving as the chief procurement officer for the university; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3277, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2327 (Joint) Higher Education and Labor, Culture and the Arts on S.B. No. 3267

The purpose and intent of this measure is to:

- (1) Allow the University of Hawaii to enter into contracts with the Research Corporation of the University of Hawaii for the purposes of supporting or facilitating sponsored research and training activities, or for advancing innovation and entrepreneurship in the State using funds appropriated by the Legislature; and
- (2) Require the University of Hawaii to consult with employee unions to review conformance positions with exceptions to collective bargaining for the purpose of employment of personnel.

Your Committees received testimony in opposition to this measure from the Research Corporation of the University of Hawaii, Maui Forest Bird Recovery Project, and fourteen individuals. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that the Research Corporation of the University of Hawaii, a public instrumentality of the State that is administratively attached to the University of Hawaii, was established in 1965 for the purposes of promoting, encouraging, initiating, developing, and conducting scientific research and investigation in all branches of learning, and disseminating to the public, the benefits of such research and investigation. However, recent issues regarding the blended use of the Research Corporation of the University of Hawaii beyond its stated purpose has created some ambiguity regarding employment of personnel and certain contracts for University of Hawaii projects. To support the continued pursuit of sponsored research and training activities, innovation, and entrepreneurship for the State, this measure authorizes the Research Corporation of the University of Hawaii to enter into contracts with the University of Hawaii for specific purposes and requires the University of Hawaii to consult with employee unions to review the conformance of positions with exceptions to collective bargaining.

Your Committees have amended this measure by:

- (1) Authorizing the Research Corporation of the University of Hawaii's to retain contracts related to invasive species control and eradication;
- (2) Clarifying that the University of Hawaii is required to consult with employee unions only in cases where a state project or program, or state employee is involved; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3267, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3267, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).
Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2328 Higher Education on S.B. No. 3374

The purpose and intent of this measure is to appropriate funds for the University of Hawaii Workforce Development Program for administration, training, positions, and student support.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that Hawaii's community colleges play a critical role in the economic recovery and revitalization of the State, including support for residents, by providing opportunities to improve their employment prospects. The development of a skilled workforce helps companies and nonprofit organizations meet the community's needs and survive and thrive as businesses. Hawaii's community college faculty and administrators work with employers, industry associations, economic development leaders, and community organizations to develop and offer workforce training programs and credit-bearing educational programs to offer residents different, enriching pathways to achieve educational or career goals with industry-recognized credentials and valuable experience. To support the community colleges and their role in workforce development and revitalization, this measure appropriates funds to the University of Hawaii Workforce Development Program for administration, training, positions, and student support.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3374 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

SCRep. 2329 Energy, Economic Development, and Tourism on S.B. No. 2697

The purpose and intent of this measure is to exclude the electronic transfer of virtual currency through virtual currency companies and cryptocurrency companies from the Money Transmitters Modernization Act.

Your Committee received testimony in support of this measure from seven individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Division of Financial Institutions, Hawaii Technology Development Corporation, and Grassroot Institute of Hawaii.

Your Committee finds that the Division of Financial Institutions of the Department of Commerce and Consumer Affairs and the Hawaii Technology Development Corporation have jointly created a two-year sandbox, called the Digital Currency Innovation Lab (DCIL), to allow for limited activity of digital currency companies, virtual currency companies, and cryptocurrency companies in the State to better understand the cryptocurrency industry and determine the best method of its regulation and oversight. Your Committee further finds that there are approximately sixty-one thousand digital currency consumers who have completed more than \$611,000,000 in transactions with the fifteen cryptocurrency-based companies that have been accepted into DCIL. Your Committee recognizes that digital currency transactions are not like money transmissions and do not fit into the licensing scheme under the State's Money Transmitters Modernization Act under chapter 489D, Hawaii Revised Statutes. Your Committee further recognizes with the end of DCIL in June 30, 2022, this measure would allow virtual currency activity to legally continue in the State.

Accordingly, your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that with the exclusion of virtual currency transactions from the State's Money Transmitters Modernization Act, there will be no consumer protection, regulation, or oversight for these transactions and respectfully requests that your subsequent Committees on Commerce and Consumer Protection and Ways and Means further examine these issues.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2697, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2330 Energy, Economic Development, and Tourism on S.B. No. 2695

The purpose and intent of this measure is to establish a Blockchain and Cryptocurrency Task Force.

Your Committee received testimony in support of this measure from Grassroot Institute of Hawaii and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Commerce and Consumer Affairs' Division of Financial Institutions, and one individual.

Your Committee finds that there is a vast potential for blockchain technology to drastically change and improve the State's public sector operations and private industry capabilities in areas such as cybersecurity, disaster recovery, clearance and settlement, supply chain transparency, title registries, communications, and document verification. Your Committee further finds that Hawaii has yet to determine whether or how to regulate and/or provide oversight to the cryptocurrency industry in the State.

Your Committee has amended this measure by:

- (1) Placing the Blockchain and Cryptocurrency Task Force (Task Force) administratively within the Department of Commerce and Consumer Affairs;
- (2) Expanding the scope of the Task Force's purpose to include the review of additional aspects of the blockchain and cryptocurrency industry, including but not limited to the development of a plan to expand blockchain adoption in both the private and public sectors;
- (3) Adding the following members to the Task Force:
 - (A) A representative from the Department of Commerce and Consumer Affairs' Division of Financial Institutions;
 - (B) A representative from a Hawaii-based bank or financial institution who shall be appointed by the Governor; and
 - (C) A representative of a Hawaii-based company with a focus on non-transactional blockchains who shall be appointed by the Governor;
- (4) Specifying that the following members be from Hawaii-based organizations:
 - (A) A president or chief financial officer of a cryptocurrency company who shall be appointed by the Governor;
 - (B) A representative of a cryptocurrency exchange who shall be appointed by the Governor; and
 - (C) A representative of a blockchain payments solution company who shall be appointed by the Governor;
- (5) Clarifying that:
 - (A) The President of the Senate and the Speaker of the House of Representatives shall designate one member each to serve as co-chairpersons of the Task Force; and
 - (B) Members of the Task Force are not considered employees of the State for purposes of chapter 84, Hawaii Revised Statutes, based solely upon their participation on the Task Force; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2695, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2331 Housing on S.B. No. 2237

The purpose and intent of this measure is to:

- (1) Increase the rate of conveyance tax for condominiums and single-family residences with a value of at least \$2,000,000 that are ineligible for a county homeowner's exemption;
- (2) Exempt from the conveyance tax documents and instruments that convey real property subject to a government assistance program approved and certified by the Hawaii Housing Finance and Development Corporation and used for the provision of affordable housing for qualified persons; and
- (3) Remove the maximum dollar amount of conveyance tax revenues that are to be paid into the Rental Housing Revolving Fund each fiscal year.

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawai'i, Hawai'i Children's Action Network Speaks!, EAH Housing, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the conveyance tax is an important source of income for the State and supports Hawaii's affordable housing initiatives. An increase in conveyance tax rates for high-value residences would further benefit the State. This measure increases the conveyance tax rate for high-value homes and exempts conveyances of real property subject to a government assistance program from the conveyance tax. However, your Committee further finds that, according to testimony submitted by the Tax Foundation of Hawaii, discontinuities at break points in the tax brackets may incentivize undesirable behavior among taxpayers.

Accordingly, your Committee has amended this measure by:

- (1) Adjusting the tax rate for each tax bracket to lessen the degree of discontinuities while still achieving an increased revenue collection to support the State's housing initiatives;
- (2) Replacing the effective date with January 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2237, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2332 Housing on S.B. No. 2588

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority for the rehabilitation of housing units.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawai'i Health & Harm Reduction Center. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that many families in the State rely on access to quality public housing units. However, due to the age of the Hawaii Public Housing Authority's inventory, many of these units require maintenance and other repairs to be suitable for the needs of those families, including modernizing and upgrading the units to meet health, safety, and federally mandated standards. This measure supports public housing programs in the State by appropriating funds for the rehabilitation of housing units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2588 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2333 Education on S.B. No. 2183

The purpose and intent of this measure is to exempt certain Department of Education employees from the state residency requirement under section 78-1, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from the Hawaii State Teachers Association and one individual.

Your Committee finds that given expanding telework options and infrastructure, the hiring of entirely remote professionals for certain positions within the Department of Education has the potential to satisfy critical hiring needs in a fiscally prudent manner. This is particularly applicable to positions in the areas of information technology and online learning, as well as other highly specialized positions.

Accordingly, this measure will help satisfy critical hiring needs for the Department of Education, in a fiscally prudent manner, by exempting certain employees from the state residency requirement. Your Committee notes that this measure includes certain criteria to ensure that the exemption is limited to situations in which the hiring of non-resident employees is in the best interests of the State.

Your Committee further notes, however, concerns expressed by the Hawaii State Teachers Association regarding a preference for employing qualified persons living within the State. Accordingly, your Committee has amended this measure by:

- (1) Restricting the state residency exemption to positions that are already being contracted outside of the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2183, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2334 Education on S.B. No. 3292

The purpose and intent of this measure is to:

- (1) Authorize, under certain circumstances, the School Facilities Authority Board to provide to the Governor a list of up to three candidates for the position of Executive Director of the School Facilities Authority; and
- (2) Require the Governor to select a nominee for Senate approval within sixty days of receiving the list of candidates from the School Facilities Board.

Your Committee received testimony in support of this measure from the School Facilities Authority.

Your Committee finds that the sound operation of the School Facilities Authority requires the timely appointment of its Executive Director. Your Committee further finds that the School Facilities Authority Board is, under certain circumstances, in the best position to screen and nominate candidates for the position of Executive Director of the School Facilities Authority.

Your Committee therefore finds that this measure promotes the sound operation of the School Facilities Authority by imposing a reasonable timeframe for the Governor to appoint the Executive Director of the School Facilities Board. This measure also facilitates the nomination process by authorizing the School Facilities Authority Board to provide to the Governor a list of up to three candidates for the position if a vacancy remains for more than ninety days.

Your Committee notes, however, concerns regarding the ways in which references to the Governor's interim appointment power has been interpreted in the past and extended vacancies with respect to the position of Executive Director of the School Facilities Authority.

Accordingly, your Committee has amended this measure by:

- (1) Removing the reference to the Governor's interim appointment power; and
- (2) Providing that the Assistant Superintendent for the Office of Facilities and Operations shall serve as the Interim Executive Director until such time as the vacancy is filled.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3292, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2335 Education on S.B. No. 3093

The purpose and intent of this measure is to provide increased protection for educational workers by establishing a misdemeanor offense for harassment of an educational worker.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from the Hawai'i Association of School Psychologists.

Your Committee finds that the coronavirus disease 2019 pandemic and increased political polarization have created a more difficult and fraught environment for educational workers to perform their jobs. Your Committee additionally finds that existing law does not adequately protect educational workers from harassment that jeopardizes their safety and interferes with school functions, such as aggressive or harassing behavior from parents and members of the public.

Accordingly, your Committee finds that this measure provides additional protection for educational workers by establishing a misdemeanor offense for certain actions that disrupt or interfere with the administration or functions of any school, school administration office, or school board. Your Committee further finds that this measure will deter the harassment of educational workers and facilitate the orderly administration of school operations.

Your Committee has amended this measure by:

- (1) Providing a definition for "person" to clarify that the misdemeanor offense established by this measure shall not apply to certain students within the age of minority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3093, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3093, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2336 Human Services on S.B. No. 2002

The purpose and intent of this measure is to:

- (1) Codify the administrative definition of “assistance animal”;
- (2) Clarify the type of verification that may be provided by the individual to establish the need for an assistance animal; and
- (3) Specify that possession of a vest or other distinguishing animal garment, tag, or registration document commonly purchased online and purporting to identify an animal as a service animal or assistance animal does not constitute valid verification of a disability-related need for an assistance animal.

Your Committee received testimony in support of this measure from the Hawai‘i Civil Rights Commission, Hawai‘i Association of REALTORS®, and Community Associations Institute Legislative Action Committee.

Your Committee finds that the term “service animal” applies in the general context of the federal Americans with Disabilities Act, while the broader term “assistance animal”, which is used under the federal and state fair housing laws, includes a wider spectrum of animals that provide support, including emotional support animals and service animals. This measure defines “assistance animals” and clarifies the type of verification that may be provided to establish the need for the assistance animal. Your Committee finds that this measure is necessary to improve processes for an individual with a disability to request a reasonable accommodation for an assistance animal and for landlords who receive these requests.

Your Committee notes the testimony from the Hawaii Civil Rights Commission raising concerns that the verification process in this measure substantively differs from the process set forth in the rules adopted by the commission, which reflect the provisions in the federal Fair Housing Act.

Accordingly, your Committee has amended this measure by:

- (1) Amending section 3 to reflect the verification process and requirements set forth in the rules adopted by the Hawaii Civil Rights Commission; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2002, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2337 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2158

The purpose and intent of this measure is to provide flexibility in the use of sirens by emergency response vehicles in certain circumstances.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the use of sirens by emergency vehicles can be necessary to alert other vehicles and pedestrians that the emergency vehicle is exercising its authority to disregard certain traffic laws, such as proceeding through a red light or exceeding the posted speed limit. Some emergency response sectors have determined that there should be flexibility to not engage the siren in situations where it is unnecessary, such as responding at night when the streets are empty of cars and pedestrians. Further, the City and County of Honolulu has expressed in its ordinances that the siren should be used “as may be reasonably necessary”. Your Committee notes that the unnecessary use of a siren contributes to noise pollution, especially in heavily-congested residential areas. This measure will allow the State to reduce noise pollution by allowing emergency response vehicles to not use sirens if the siren is not reasonably necessary under the circumstances.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2158 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Baker, Riviere).

SCRep. 2338 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3206

The purpose and intent of this measure is to require first responders to record in the incident report for each water rescue event the type of snorkel and mask, if any, worn by the person who was rescued or recovered.

Your Committee received testimony in support of this measure from Mālama Pūpūkea-Waimea and sixty-eight individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that every year an average of sixty-six Hawaii residents and visitors experience snorkel related drowning events, including twenty which are ultimately fatal. Currently, data is not systematically collected on the circumstances of the event or

type of snorkel. Your Committee believes that understanding snorkel use can lead to better public health messaging and improvements in snorkel design. This measure will allow the State to assess the risk of certain equipment and ultimately take action to inform and protect the thousands of people who snorkel in Hawaiian waters each day by requiring first responders to include in the incident report for each water rescue event the type of snorkel and mask, if any, worn by the person who was rescued or recovered.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3206 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Baker, Riviere).

SCRep. 2339 Education on S.B. No. 2892

The purpose and intent of this measure is to establish a working group to address the student enrollment, capacity, and expansion needs of Ke Kula 'o 'Ehunuikaimalino (KKOE) by studying and developing a plan to utilize funds previously appropriated by the Legislature.

Your Committee received testimony in support of this measure from the State Public Charter School Commission.

Your Committee finds that KKOE, a Department of Education Hawaiian immersion school, is in high demand. KKOE was established with federal assistance under the Native Hawaiian Education Act and is federally mandated to accept all students.

Your Committee further finds that KKOE's current student enrollment greatly exceeds the physical capacity of KKOE's campus, which is situated in Kealakekua, on the island of Hawaii. Act 6, Session Laws of Hawaii 2020 (Act 6), appropriated \$2,000,000 to the Department of Education for purposes of land acquisition to expand the KKOE campus. These funds have not yet been expended.

Accordingly, your Committee finds that this measure will help address the student enrollment, capacity, and expansion needs of KKOE and facilitate the utilization of funds appropriated under Act 6 by establishing a working group to study and develop a cogent plan to use the funds for their intended purpose.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation for costs associated with the working group established by this measure;
- (2) Amending section 1 to clarify that KKOE is a Department of Education Hawaiian immersion school; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2892, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2892, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2340 Education on S.B. No. 2081

The purpose and intent of this measure is to:

- (1) Ensure that the Department of Education has a revolving fund into which it may deposit funds generated from the monetization of facilities to help cover future repair and maintenance costs;
- (2) Establish the Department of Education Commercial Enterprises Revolving Fund to provide funds to be expended in the operation of commercial enterprises by the Department of Education; and
- (3) Make an appropriation into the Department of Education Commercial Enterprises Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Education and Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Education supports opportunities for students to participate in commercial enterprises in school and to monetize existing school facilities. This activity has the potential to provide students with the experiences necessary for post-secondary and workforce success, while providing, in many instances, funds for ongoing facility maintenance.

Your Committee further finds, however, that existing restrictions on the Department of Education's intake of revenue generated by commercial enterprises in public schools hampers the successful implementation and expansion of these enterprises.

Accordingly, your Committee finds that this measure will promote student success in education and the workforce and help bring a measure of self-sufficiency to school facility maintenance by removing certain fiscal barriers to the implementation and growth of commercial enterprises in public schools.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2341 (Joint) Education and Labor, Culture and the Arts on S.B. No. 3092

The purpose and intent of this measure is to allow for greater implementation of commercial enterprises in schools by:

- (1) Deeming student interns to be employees of the State; and
- (2) Allowing the Department of Education to use revenue from school commercial enterprises.

Your Committees received testimony in support of this measure from the Department of Education.

Your Committees find that commercial enterprises provide students with the hands-on and real-world experiences that are critical to post-secondary and workforce success. Your Committees further find that the restrictions on students as interns in schools present undue obstacles to the implementation of commercial enterprises activities in schools. Accordingly, this measure will promote educational and career outcomes by clarifying the status of students engaging in commercial enterprises at school.

As affirmed by the records of votes of the members of your Committees on Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3092 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 5. Noes, none. Excused, none.
Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2342 (Joint) Education and Water and Land on S.B. No. 2186

The purpose and intent of this measure is to:

- (1) Direct the conveyance to the Department of Education of certain lands used for public schools and owned by the counties of Kauai and Maui, the State, and the Department of Land and Natural Resources;
- (2) Require legislative approval prior to the sale, gift, or alienation of the fee simple title to lands owned by the Department of Education; and
- (3) Appropriate funds to the Department of Education to effectuate conveyances and manage real property.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that non-unified ownership of the land under existing Department of Education schools and offices complicates redevelopment, especially when private investment is involved. This has resulted in delays in the permitting and delivery of vital capital improvements throughout the public school system.

Your Committees further find that previous legislation transferred to the Department of Education title to certain public school lands. The intent of this measure is to transfer and consolidate the remainder.

Accordingly, your Committees finds that, to provide the Department of Education with the requisite flexibility to redevelop, reposition, and improve its assets in a timely and efficient manner, sole ownership of all land under existing public schools should be consolidated and held by the Department of Education. Your Committees further find that this will benefit students and improve educational outcomes by facilitating the development and improvement of public school assets in the State.

Your Committees have amended this measure by:

- (1) Amending the list of properties to be transferred under section 2, in accordance with the recommendations of the Department of Education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2186, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2186, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Kanuha).
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 2343 Education on S.B. No. 2823

The purpose and intent of this measure is to:

- (1) Establish a school psychologist national certification incentive program; and
- (2) Make an appropriation to fund the incentive program.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hui for Excellence in Education, Children's Action Network Speaks!, Hawai'i Association of School Psychologists, and eighteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that mental and behavioral health experts are needed in schools now more than ever. Your Committee further finds that public schools in the State continue to suffer from a chronic shortage of qualified education professionals. Accordingly, your Committee finds that this measure will promote student mental health and well-being and help address the shortage of qualified education professionals by establishing an incentive program to encourage the hiring and retention of credentialed school psychologists.

Your Committee has amended this measure by:

- (1) Clarifying the parameters of the incentive program;
- (2) Inserting a blank appropriation amount; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2823, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2344 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 3334

The purpose and intent of this measure is to:

- (1) Add the Director of Business, Economic Development, and Tourism (DBEDT) as an ex officio voting member to the Board of Directors of the:
 - (A) Hawaii Tourism Authority;
 - (B) Stadium Authority; and
 - (C) School Facilities Authority;
- (2) Transfer the Stadium Authority from the Department of Accounting and General Services (DAGS) to DBEDT, which includes:
 - (A) Designating the President of the University of Hawaii and the Superintendent of Education as voting members of the Stadium Authority;
 - (B) Allowing the designees of the President of the University of Hawaii and the Superintendent of Education to serve on the Board of Directors of the Stadium Authority;
 - (C) Repealing the Stadium Development Special Fund's exemption from the pro rata share of the departmental administrative assessment fee;
 - (D) Increasing the amount in general obligation bonds that may be issued for the Stadium Development District; and
 - (E) Designating DBEDT as the expending authority for capital improvement projects in the Stadium Development District; and
- (3) Transfer the School Facilities Authority from the Department of Education to DBEDT.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; and Land Use Research Foundation of Hawaii. Your Committees received testimony in opposition of this measure from one individual. Your Committees received comments on this measure from the Department of Education, Hawai'i Tourism Authority, and Stadium Authority.

Your Committees find that attached enterprise agencies with land development functions are currently scattered across the State executive branch. This measure would aggregate expertise regarding land development and other related resources under DBEDT. Your Committees recognize the concerns raised by the Stadium Authority in its testimony. First, making the President of the University of Hawaii and the Superintendent of Education voting members of the Stadium Authority would increase the perceived or real conflicts of interest as the Stadium Authority executes its responsibilities as there are no other regular tenants of the Stadium Development District who are also members of the Stadium Authority. Second, repealing the Stadium Development Special Fund's exemption from the pro rata share of the departmental administrative assessment fee would increase the need for the Stadium Authority to seek additional state funding as it works to deliver and operate the New Aloha Stadium Entertainment District. And lastly, designating DBEDT as the expending authority for capital improvement projects in the Stadium Development District may cause confusion with appropriated funds that were delegated to and encumbered by DAGS.

Accordingly, your Committees have amended this measure by:

- (1) Restoring:
 - (A) The President of the University of Hawaii and the Superintendent of Education as ex officio nonvoting members of the Stadium Authority;
 - (B) The Stadium Development Special Fund's exemption from the pro rata share of the departmental administrative assessment fee; and
 - (C) The Stadium Authority as the expending authority for capital improvement projects in the Stadium Development District;

- (2) Clarifying that the designees of the President of the University of Hawaii and the Superintendent of Education may serve as ex officio nonvoting members of the Stadium Authority; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3334, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3334, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2345 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2170

The purpose and intent of this measure is to:

- (1) Require the Legislative Reference Bureau (LRB) to conduct a study that identifies and analyzes alternative tourism governance systems;
- (2) Require the study to include a solicitation of input from certain stakeholder groups;
- (3) Require an interim report to be published no later than October 1, 2024, and a final report to be submitted to the Legislature prior to the convening of the Regular Session of 2025;
- (4) Allow LRB to contract the professional services of one or more consultants to perform part or all of the study;
- (5) Allow the procurement of the professional services to be exempt from chapter 103D, Hawaii Revised Statutes, relating to the State Procurement Code; and
- (6) Appropriate moneys for the study.

Your Committees received testimony in support of this measure from Hawai'i Tourism Authority and two individuals. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from the Legislative Reference Bureau and Department of Budget and Finance.

Your Committees find that this measure will help the State identify any alternative governance models that would better manage tourism in Hawaii. Based on the testimony received, your Committees believe that LRB can perform the study without additional resources. According to testimony received from the State Procurement Office, government procurement that is exempt from the State Procurement Code does not have the same level of oversight, accountability, transparency, and potential cost savings than procurements that are executed pursuant to the State Procurement Code.

Accordingly, your Committees have amended this measure by removing language that:

- (1) Allows LRB to contract the professional services of consultants to perform part or all of the study;
- (2) Allows the procurement of the professional services to be exempt from chapter 103D, Hawaii Revised Statutes, relating to the State Procurement Code; and
- (3) Appropriates moneys for the study.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2170, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2346 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2077

The purpose and intent of this measure is to:

- (1) Add the Director of Business, Economic Development, and Tourism; Director of Transportation; Chairperson of the Board of Land and Natural Resources; Director of Agriculture; and the Executive Director of the State Foundation on Culture and the Arts as ex officio nonvoting members of the Hawaii Tourism Authority's Board of Directors;
- (2) Clarify the authority and responsibility of the Hawaii Tourism Authority's Board of Directors;
- (3) Rename the Tourism Marketing Plan to the Tourism Branding Plan;
- (4) Require any state or county agency to render services upon request of the Hawaii Tourism Authority; and
- (5) Repeal the Hawaii Tourism Authority Advisory Board.

Your Committees received testimony in support of this measure from the University of Hawai'i System and Hawai'i Tourism Authority. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; and State Foundation on Culture and the Arts.

Your Committees find that this measure better aligns with the Hawaii Tourism Authority's updated mission to focus on visitor and designation management. Your Committees recognize that although the provision to mandate any state or county agency to render services upon the authority's request could enable it to more effectively partner with other governmental agencies to resolve issues and effect change, the language is overly broad and does not provide any context for the types of services to be provided nor the conditions under which they must be provided.

Accordingly, your Committees have amended this measure by:

- (1) Restoring language that allows, rather than require, any state or county agency to render services upon request of the Hawaii Tourism Authority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2077, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2077, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Government Operations: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Chang).

SCRep. 2347 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2419

The purpose and intent of this measure is to:

- (1) Create a pilot project that repeals on June 30, 2028, for counties with a population of less than 200,000 to regulate the operation of hosting platforms that provide booking services for transient accommodation operators; and
- (2) Require a report to the Legislature.

Your Committees received testimony in support of this measure from Hawai'i Tourism Authority and County of Maui Department of Planning. Your Committees received testimony in opposition to this measure from AirBnb.

Your Committees find that illegal transient vacation units are increasingly located in residential areas, often in violation of zoning laws and in conflict with residential neighbors. Your Committees note that this pilot project seeks to give both the counties and hosting platforms an opportunity to explore different types and levels of regulation to determine which option or options ensure transparency, enforcement, and accountability in the transient accommodations industry within the State, while preserving the quality of life for Hawaii's residents and visitors.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2419 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2348 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2483

The purpose and intent of this measure is to:

- (1) Include, as an objective in energy-related planning for the State's facility systems, that all new utility scale electricity generation projects be renewable;
- (2) Establish state policies that ensure short- and long-term provision of adequate, reasonably priced, and dependable renewable energy services, prioritizing the dispatch of renewable energy generation;
- (3) Update the State's policies to ensure that all new utility scale electricity generation projects are renewable, prioritize renewable energy generation, and include the use of non-fossil fuel sources in the development or expansion of energy systems; and
- (4) Appropriate moneys for the Hawaii Natural Energy Institute (HNEI) to study the costs of dispatching renewable energy resources.

Your Committees received testimony in support of this measure from Hawai'i Natural Energy Institute, Hawaii Clean Power Alliance, Tawhiri Power LLC, and one individual. Your Committees received testimony in opposition to this measure from the Hawaiian Electric Company and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Hawaii State Energy Office.

Your Committees find that this measure requires electric utilities to prioritize the dispatch of energy from renewable sources above those from fossil fuels. Although your Committees appreciate the discussion regarding renewable capable utility scale electricity generation projects, your Committees note that a renewable capable project could allow the energy produced or generated to come from diesel, a fossil fuel. According to testimony received by your Committees, HNEI can perform the study with the funds it receives from its portion of the environmental response, energy, and food security tax that is deposited into the energy systems development special fund established by section 304A-2169.1, Hawaii Revised Statutes.

Accordingly, your Committees have amended this measure by specifying that the amounts appropriated for the study are to be deducted from the moneys that HNEI receives from its portion of the environmental response, energy, and food security tax.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2483, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2483, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2349 Water and Land on S.B. No. 2135

The purpose and intent of this measure is to authorize the Ocean Stewardship Special Fund to be used for planning, development, designing, or implementation of beach restoration projects, including the awarding of grants to nonprofit organizations for beach and nearshore environmental cleanup.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Surfrider Foundation, Clean the Pacific, Malama Pūpūkea-Waimea, Friends of Hanauma Bay, Hawai'i Wildlife Fund, Sustainable Coastlines Hawai'i, Na Kama Kai, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii's ocean waters and marine resources are some of the State's most ecologically, economically, and culturally valuable environmental assets. To protect Hawaii's coastal waters, the Thirty-First Legislature passed Act 46, Session Laws of Hawaii 2021, to create the Ocean Stewardship Special Fund for the conservation, restoration, and enhancement of the State's marine resources. While many users enjoy Hawaii's marine resources, a disproportionate burden is placed on nonprofit organizations to organize events and volunteers to remove debris from marine resources. Many nonprofit organizations also utilize personal funds to purchase equipment to maintain clean shorelines and oceans at Hawaii's beaches.

Your Committee has also heard the concerns of Malama Pūpūkea-Waimea regarding the eligibility of native plant projects to be considered for coastal restoration funding to allow for projects such as restorative native plant landscaping. The Department of Land and Natural Resources concurred with Malama Pūpūkea-Waimea, agreeing that native plant projects should also qualify for coastal restoration projects. To maintain Hawaii's scenic beauty and recreational sites at state parks and marine resources, this measure authorizes the Ocean Stewardship Special Fund to expand its uses for beach and nearshore environmental cleanup.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2135, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2135, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2350 Water and Land on S.B. No. 2519

The purpose and intent of this measure is to:

- (1) Require an emergency shoreline hardening permit for the construction, maintenance, or improvement of a temporary erosion control structure;
- (2) Provide that each permit is valid for a maximum of one year; provided that the lifetime of the structure may be extended no more than an additional two and a half years upon an applicant demonstrating a concerted effort, as deemed acceptable by the Board of Land and Natural Resources, to develop and implement a long-term solution that will enable the removal of the temporary erosion control structure;
- (3) Establish penalties for persons who build, improve, or maintain a temporary erosion control structure without a valid permit; and
- (4) Require the Board of Land and Natural Resources to administer and enforce this Act.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Surfrider Foundation. Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that many beachfront homeowners in the State have built seawalls, sandbag walls, known locally as "burritos", or other shoreline hardening structures, including geotextile fabric, to stave off local sea level rise, strong wave action, and coastal flooding along the coast. However, these structures accelerate coastal erosion in areas they are meant to protect and further cause increased erosion in adjacent areas of the beach that do not have similar structures. While some of these structures are built without permission, others are built with emergency permits that are typically limited to three years, are often granted endless extensions, and are generally not removed after the expiration of the permit.

Your Committee also finds that the State has a "no tolerance" policy for new shoreline armoring. Although property owners may apply to build a seawall, this process is long and cumbersome, including a formal environmental review and public hearings, and requires approval from the Department of Land and Natural Resources. The emergency permit, in contrast, does not require the lengthy review process that is required for formal, authorized seawalls. This measure strengthens rules regarding the issuance of permits and its validity; long-term solutions to enable the removal of temporary erosion control structures; and penalties for persons who build, improve, or maintain a temporary erosion control structure without a valid permit.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2519, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2351 Water and Land on S.B. No. 3251

The purpose and intent of this measure is to:

- (1) Require that hunting guides obtain written permission from private landowners or other appropriate person before taking their clients to hunt on those private lands; and
- (2) Require hunting guides to provide copies of those written permission documents to the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and four individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that guided hunting tours assist in the management of game populations, provide a living wage for hunting guides, and support Hawaii's economy. As the popularity of guided hunting tours have increased, some irresponsible hunting guides have guided their clients to hunt on private lands without the permission of landowners, who have witnessed unknown individuals walking on their land with guns or other weapons. While current law requires hunters to obtain permission to hunt on private land, hunting guides often lie to clients, leading to disagreements, allegations of trespassing, and damage to the guided hunting tour industry. To address systemic issues regarding hunting on private properties, this measure requires hunting guides to obtain written permission prior to hunts on private land and provide copies of the written permission to the Department of Land and Natural Resources.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3251, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2352 Water and Land on S.B. No. 3351

The purpose and intent of this measure is to:

- (1) Specify parking violations for all patrons engaging in ocean recreation and coastal areas program property; and
- (2) Authorize the Department of Land and Natural Resources to collect fines for each violation of parking rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that proper enforcement of parking rules allows many residents to use and enjoy state properties for ocean recreational activities. However, traffic and parking congestion at state properties has created additional difficulties for patrons. Limited enforcement of parking rules causes many difficulties for boaters and individuals engaging in recreational activities, as inconsistent enforcement also contributes to traffic congestion problems at state properties. To address issues arising from traffic congestion and parking at state properties, this measure implements specific parking violations to be enforced by the Department of Land and Natural Resources Division of Boating and Ocean Recreation.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3351, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2353 Judiciary on S.B. No. 1211

The purpose and intent of this measure is to repeal the law relating to exemption for vehicles designated as vehicles used by farmers as set forth in section 286-208, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawai'i Farm Bureau.

Your Committee finds that existing state law as set forth in section 286-208, Hawaii Revised Statutes, is superseded by title 49 Code of Federal Regulations section 390.39. This measure will repeal this outdated statute. According to testimony received by your Committee, failure to enact this measure could disqualify the State from receiving \$1,200,000 in federal Motor Carrier Safety Assistance Program funds annually. The Motor Carrier Safety Assistance Program funds provide financial assistance to the State in carrying out its commercial motor vehicle safety program to promote safety on the State's roadways. This measure will ensure that the State continues to have the funds it needs to keep the roadways safe.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1211, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1211, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Acasio, Gabbard).

SCRep. 2354 (Joint) Education and Higher Education on S.B. No. 214

The purpose and intent of this measure is to establish freedom of press protections for student journalists producing school-sponsored media or university-sponsored media, subject to certain exceptions.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Student Press Law Center, Hawaii Publishers Association, All Hawaii News, Big Island Press Club, and eleven individuals. Your Committees received comments on this measure from the Department of Education, Department of the Attorney General, and Office of Information Practices.

Your Committees find that journalism is a critical component of a well-functioning democracy. Your Committees also find that promoting student journalism in public schools prepares the next generation of journalists for the challenge of seeking and sharing truth, and exposing falsehoods, in an era of misinformation.

Your Committees further find that states may enhance the protections guaranteed by the First Amendment of the United States Constitution through state laws and regulations. Your Committees believe that student journalists attending Hawaii public schools and colleges need additional protection against censorship, and that their advisors need additional protections against retaliation for refusing to illegally censor student journalists.

Accordingly, your Committees find that this measure will protect and promote the constitutional rights of student journalists and their advisor by codifying and clarifying the same.

Your Committees have amended this measure by:

- (1) Clarifying that the invasion of privacy that is excepted from the protections afforded by this measure is a clearly unwarranted invasion of personal privacy;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 214, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 214, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 5. Noes, none. Excused, none.
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 2355 (Joint) Education and Higher Education on S.B. No. 2142

The purpose and intent of this measure is to:

- (1) Allow Department of Education students to fulfill world language, fine arts, or career and technical education graduation requirements with computer science;
- (2) Establish a scholarship at the University of Hawaii to encourage students majoring in education to take a computer science course;
- (3) Require University of Hawaii to establish computer science pathways for students majoring in education;
- (4) Require teacher licensing and certification to include computer science; and
- (5) Appropriate funds for the computer science in teaching scholarship program.

Your Committees received testimony in support of this measure from the Department of Education; State Public Charter School Commission; University of Hawai'i System; Hawaii State Teachers Association; Code.org; HawaiiKidsCAN; TechNet; Purple Mai'a Foundation; Oceanit Laboratories, Inc.; and six individuals. Your Committees received testimony in opposition to this measure from five individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Education, and one individual.

Your Committees find that the time has come to welcome computer science into the ranks of world language, fine arts, and career and technical education as a graduation requirement for Hawaii's public school students. Today, computer science knowledge and skills are a critical component of education and career success. Your Committees therefore find that this measure will promote education and career success by allowing computer science to satisfy certain graduation requirements and establishing scholarships, programs, and licensure requirements that encourage the development of computer science course offerings in public schools.

Your Committees note the testimony of the State Public Charter School Commission requesting that this measure apply in certain respects to public charter schools, in addition to Department of Education schools.

Accordingly, your Committees have amended this measure by:

- (1) Amending this measure to also include students who want to teach at public charter schools to participate in the computer science in teaching scholarship program;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2142, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2142, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Higher Education: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 2356 Commerce and Consumer Protection on S.B. No. 2292

The purpose and intent of this measure is to amend the definition of “personal information” to include various personal identifiers and data elements that are found in more comprehensive laws.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Office of Enterprise Technology Services, and one individual. Your Committee received comments on this measure from the Hawaii Insurers Council; Hawaiian Electric Company, Inc.; Hawaii Financial Services Association; Hawaii Credit Union League; Hawaii Bankers Association; Hawaii Association of Health Plans; Hawai'i Pacific Health; State Privacy & Security Coalition; and one individual.

Your Committee finds that Hawaii was one of the first states to enact certain privacy laws nearly twenty years ago that specify the circumstances in which a business or government agency shall notify a consumer that his or her personal information has been breached. However, due to rapidly advancing technology and the vast amounts of data collected by businesses and government agencies, it is necessary to update and modernize existing law by amending the definition of what constitutes “personal information”. This will enhance consumer protections involving privacy and align Hawaii with other jurisdictions that have recently adopted similar legislation.

Your Committee has heard the concerns raised in testimony that this measure, as currently written, fails to take into account Act 112, Session Laws of Hawaii (2021), which adopted the Insurance Data Security Model Law to strengthen data privacy and consumer breach notification obligations of insurance licensees. Amendments are therefore necessary to address these concerns, as well as additional concerns raised in the testimony.

Your Committee has amended this measure by:

- (1) Clarifying that an individual’s social security number, either in its entirety or more than the last four digits, shall be considered a “specified data element”;
- (2) Clarifying that “specified data element” does not include medical information that is protected by the Health Insurance Portability and Accountability Act and its enacting regulations or other applicable federal or state law;
- (3) Providing that any insurance licensee subject to the Insurance Data Security Law codified in Article 3B, Chapter 431, Hawaii Revised Statutes shall be deemed to be in compliance with section 487N-2, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2292, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2357 Commerce and Consumer Protection on S.B. No. 2279

The purpose and intent of this measure is to:

- (1) Require scrap dealers who deal with catalytic converters to keep records of purchases and sales of catalytic converters; and
- (2) Establish the offense of theft of catalytic converter as a class C felony.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of the Prosecuting Attorney, Hawaii Insurers Council, American Property Casualty Insurance Association, Pearl City Neighborhood Board, Stolen Stuff Hawaii, Hawaii Transportation Association, and five individuals. Your Committee received comments on this measure from the Department of the Attorney General, Maui County Department of the Prosecuting Attorney, Schnitzer Steel Hawaii, and Geico.

Your Committee finds that catalytic converter thefts are on the rise, not just locally, but nationwide. Catalytic converters are required for vehicles as they remove toxic elements from the exhaust stream. Because they contain precious metals such as platinum, palladium, and rhodium, stolen or recycled catalytic converters can usually be resold on the market for roughly \$250, yet replacing a stolen catalytic converter can cost a car owner approximately \$1,000 or more. This measure establishes the offense of theft of a catalytic converter as a class C felony, thereby removing any burdensome requirement of proving a defendant had knowledge of the

value of the property, and further will require scrap dealers to obtain additional information and maintain records relating to their purchase of catalytic converters to disincentivize dealers to purchase stolen catalytic converters.

According to testimony received by your Committee, a similar measure also heard by your Committee concerning catalytic converters, specifically S.B. No. 2733, Regular Session 2022, contains favorable provisions that should be incorporated into this measure to require used motor vehicle parts and accessories licensees to collect additional information from sellers of catalytic converters. By requiring both used motor vehicle parts and accessories dealers and scrap dealers to obtain certain information from sellers and extending the class C felony penalty for violations of those requirements, a more effective and comprehensive approach to reducing the theft of catalytic converters can be achieved. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Inserting language that requires used motor vehicle parts and accessories licensees to obtain a written statement that the seller has the lawful right to sell and dispose of the catalytic converter;
- (2) Inserting language that requires certain sellers to provide copies of receipts or a notarized declaration that contains specific information regarding their purchase or acquisition of the catalytic converter;
- (3) Inserting language that requires a used motor vehicle parts and accessories licensee to refuse purchase of the catalytic converter if the seller does not provide a receipt or notarized declaration and to report the attempted sale to the police;
- (4) Requiring that used motor vehicle parts and accessories licensees take one or more separate photographs of each individual catalytic converter offered for sale;
- (5) Requiring that used motor vehicle parts and accessories licensees verify the seller's identity by obtaining a photocopy of the seller's photo identification card or driver's license and taking a photograph of the seller;
- (6) Requiring used motor vehicle parts and accessories licensees to maintain certain records at their place of business for a two-year period that may be examined at any time by the Director of Finance, Chief of Police, Attorney General, Prosecuting Attorney, or their designees;
- (7) Requiring every used motor vehicle parts and accessories licensee to attach a tag to each purchased catalytic converter that shall include certain information, report the purchase to the applicable county police department, and maintain possession of the purchased catalytic converter for a period of sixty days before selling, exchanging, recycling, or otherwise disposing of the catalytic converter;
- (8) Specifying that a person who violates these requirements, or violates section 289-2, Hawaii Revised Statutes, shall be guilty of a class C felony;
- (9) Requiring used motor vehicle parts and accessories licensees to pay for catalytic converters by check and specifying that any person who violates this requirement shall be guilty of a class C felony;
- (10) Clarifying that a person commits the offense of theft of catalytic converter if the person obtains, receives, retains, disposes of, or exerts unauthorized control of a catalytic converter through any means described in section 708-830, Hawaii Revised Statutes, or violates chapter 289 or chapter 445, Hawaii Revised Statutes, with regard to a catalytic converter;
- (11) Clarifying the definition of "catalytic converter" to mean a device that is incorporated in a motor vehicle's exhaust system and contains a catalyst for converting pollutant gas emissions into less harmful emissions, regardless of whether the device has been removed from a motor vehicle's exhaust system;
- (12) Deleting language that would have amended the definition of "used motor vehicle part or accessory" to exclude catalytic converters in chapter 289, Hawaii Revised Statutes;
- (13) Deleting language that would have added a definition for "catalytic converter" to section 445-231, Hawaii Revised Statutes;
- (14) Extending certain requirements for the purchase of palladium, platinum, and rhodium, rather than specifically referring to "catalytic converters", in chapter 445, Hawaii Revised Statutes, relating to scrap dealers;
- (15) Clarifying that scrap dealers shall obtain a photograph of the seller and a copy of the seller's identification card or license;
- (16) Requiring scrap dealers to pay for palladium, platinum, or rhodium by check payable to the seller;
- (17) Clarifying that a person who violates certain sections of chapter 445, Hawaii Revised Statutes, involving palladium, platinum, or rhodium, shall be guilty of a class C felony;
- (18) Requiring that each county police department shall:
 - (A) Establish a database for collecting and maintaining the information reported by used motor vehicle parts and accessories licensees regarding their purchases of catalytic converters; and
 - (B) Initiate an education program to encourage its residents to take personal measures to prevent catalytic converter thefts;
- (19) Amending section 1 to reflect its amended purpose; and
- (20) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2279, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2358 Transportation on S.B. No. 3162

The purpose and intent of this measure is to require the replacement of current audible reverse warning systems (back-up beepers) on construction, agricultural, and industrial vehicles with more effective broadband reversing alarms by January 1, 2025.

Your Committee received testimony in opposition to this measure from Young Brothers; Matson Navigation Company, Inc.; Building Industry Association Hawaii; and General Contractors Association of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General, Department of Transportation, and Hawaii Transportation Association.

Your Committee finds that reversing alarms of commercial and construction vehicles cause significant urban noise pollution while being significantly less effective than similar options. The current tonal alarms have been shown in a study to be inferior to broadband alarm sounds which are two thirds more effective. Furthermore, the tonal “beep-beep-beep” contributes more toward noise pollution than the broadband “pshh-pshh-pshh” noise. Therefore, the purpose of this measure is to protect Hawaii’s residents from disruptive noise pollution and utilize safer vehicular reversing practices by requiring the use of broadband reversing alarms instead of tonal alarms by January 1, 2025.

Your Committee has amended this measure by:

- (1) Narrowing the scope of the measure to apply only to state and county-owned vehicles purchased after January 1, 2025;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3162, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2359 Transportation on S.B. No. 2896

The purpose and intent of this measure is to appropriate funds to the Department of Transportation to widen Queen Kaahumanu Highway and Kuakini Highway between Henry Street and Kamehameha III Road on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of the Mayor of the County of Hawaii, and two members of the Hawaii County Council. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Bipartisan Infrastructure Law includes more than \$100,000,000,000 in new funds to invest in the nation’s roads, bridges, and major infrastructure projects. Queen Kaahumanu Highway and Kuakini Highway between Henry Street and Kamehameha III Road on the island of Hawaii are subject to chronic vehicular traffic that typically lasts several hours in the morning and evenings with a higher number of accidents resulting from the bottleneck, making widening the roads an important change and a possible project to receive federal funding. Therefore, the purpose of this measure is to appropriate funds to the Department of Transportation to widen Queen Kaahumanu Highway and Kuakini Highway between Henry Street and Kamehameha III Road on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2896 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2360 Transportation on S.B. No. 652

The purpose and intent of this measure is to authorize the issuance of special number license plates for members of the Hawaii Civil Air Patrol.

Your Committee received testimony in support of this measure from Hawaii Wing, Civil Air Patrol, and two individuals.

Your Committee finds that members of the Hawaii Civil Air Patrol should have license plates that indicate their profession. In times of emergency, vehicles bearing this license plate can be quickly identified by police and allowed through barriers efficiently to conduct their missions. Therefore, the purpose of this measure is to, in lieu of the number plates contracted on behalf of the counties by the Director of Finance of the City and County of Honolulu, provide, for a fee, one set of special number plates upon the receipt of an application together with specific proof that the applicant was or is a member of the Hawaii Civil Air Patrol.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2361 Transportation on S.B. No. 2105

The purpose and intent of this measure is to allow for the renewal of driver's licenses online or by electronic or digital means.

Your Committee received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu, Department of Information Technology of the City and County of Honolulu, and one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that especially during the coronavirus disease 2019 pandemic, driver's licenses should be renewable both by mail and digitally for those who are unable to appear in person. Therefore, the purpose of this measure is to allow driver's licenses to be renewed using electronic means or by mail.

Your Committee has amended this measure by:

- (1) Specifying that an applicator for renewal by mail must include documentation of a physical exam conducted not more than three months prior to expiration of the driver's license, rather than six months; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2105, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2105, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2362 Transportation on S.B. No. 3148

The purpose and intent of this measure is to repeal sections 266-2.3, Hawaii Revised Statutes, relating to the Kewalo Basin use permit, and 266-22 Hawaii Revised Statutes, relating to maintenance of a fire boat, which have become obsolete or unnecessary.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that sections 266-2.3, Hawaii Revised Statutes, and 266-22, Hawaii Revised Statutes, are obsolete or unnecessary. The purpose of this measure is to repeal these sections.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3148 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2363 Transportation on S.B. No. 2118

The purpose and intent of this measure is to require the driver of a moped to be in immediate possession of a valid driver's license or instruction permit at all times.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from Moped Doctors Inc.

Your Committee finds that the current wording of the law that requires moped drivers to have a license is vague and confusing to enforce. Currently, the law requires moped drivers to possess a valid driver's license but does not specifically require that license to be in immediate possession. This measure clarifies that moped drivers must always have a valid driver's license or instruction permit on their person while operating a moped.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2118 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2364 Transportation on S.B. No. 2268

The purpose and intent of this measure is to require public utilities to prioritize maintenance and upkeep to infrastructure in areas of heavy traffic to minimize disruption to transportation.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from Hawai'i Gas.

Your Committee finds that prolonged maintenance work by public utilities in areas of high traffic can create bottlenecks which lead to greater numbers of accidents and prolong already lengthy commutes. The purpose of this measure is to require public utilities to prioritize maintenance and upkeep to infrastructure in areas with heavy traffic in order to minimize disruptions to transportation.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2268, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2365 (Joint/Majority) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 3314

The purpose and intent of this measure is to transfer the Hawaii State Energy Office from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources.

Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; and Department of Land and Natural Resources.

Your Committees find that the Hawaii State Energy Office (HSEO) was established in 2019 to, in part, facilitate renewable energy, energy efficiency, energy resiliency, and clean transportation project deployment to assist private sector project completion when aligned with state energy goals. However, your Committees note that over the past few years, the focus of the agency has shifted towards climate change mitigation and sea level rise priorities. Although your Committees also find that the Department of Land and Natural Resources is an already large department with a broad mandate, its focus on natural and cultural resources may better align with HSEO's current priorities. Your Committees further note that the transfer of HSEO to the Department of Land and Natural Resources should not affect the Department's base budget as HSEO is primarily funded through a portion of the environmental response, energy, and food security tax.

Accordingly, your Committees have amended this measure by:

- (1) Emphasizing that HSEO is to be administratively attached to the Department of Land and Natural Resources; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3314, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3314, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 3. Noes, 2 (Riviere, Fevella). Excused, none.
Water and Land: Ayes, 3. Noes, 2 (Riviere, Fevella). Excused, none.

SCRep. 2366 (Majority) Judiciary on S.B. No. 3254

The purpose and intent of this measure is to propose a constitutional amendment to specify that reapportionment shall be based on the resident population, as counted in the most recent decennial United States Census.

Your Committee received testimony in support of this measure from Common Cause Hawaii and four individuals. Your Committee received testimony in opposition to this measure from nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and Office of Elections.

Your Committee finds that the Hawaii State Constitution is unique in its determination of resident population for reapportionment purposes. Reapportionment is the process of re-distributing seats for elected officials so that the seats are relatively evenly distributed based on the resident population. Since being ratified by voters in November 1992, sections 4 and 6, of the Hawaii State Constitution, have required that reapportionment for state senators and representatives be based on the average number of "permanent residents" in each district. Any resident not deemed permanent, even if included in the decennial United States census, counts as a "usual resident" of the State, is extracted, or deleted, from the total used by the State Reapportionment Commission, and therefore not factored into the allocation of state senate and house districts. This measure will ensure that all individuals that are extracted but live in a specific area are counted for representation purposes for that district.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3254 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Gabbard). Noes, 2 (Acasio, Kim). Excused, 1 (Fevella).

SCRep. 2367 Judiciary on S.B. No. 3252

The purpose and intent of this measure is to:

- (1) Impose a cap on the charged costs for the reproduction of certain government records;
- (2) Waive reproduction costs for the first one hundred pages if disclosure is in the public's interest;
- (3) Waive the cost of duplication of government records in an electronic format;
- (4) Impose a cap on charged costs for searching, reviewing, and segregating records; and
- (5) Provide for a waiver of fees when the public interest is served.

Your Committee received testimony in support of this measure from the Department of Transportation, Common Cause Hawaii, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, All Hawaii News, Big Island Press Club, and two

individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, Department of Land and Natural Resources, Employees' Retirement System, Office of Information Practices, and Grassroot Institute of Hawaii.

Your Committee finds that public records laws provide a critical mechanism to maintain government accountability and transparency and support citizen involvement in government decision-making. The real-world consequences of restricting access to that information can range from serious to routine but, in all cases, result in a less informed citizenry. Fee waivers offer a simple and flexible solution. By providing public-interest fee waivers uniformly, the public records request process can provide equity to access.

Your Committee notes that this measure is adopting the Freedom of Information Act standard which allows for waivers for media if the request is likely to contribute significantly to the public understanding of the operations or activities of the government and is not primarily in the commercial interest. Simply having a commercial interest is not a disqualifier for a fee waiver.

Your Committee has amended this measure by clarifying that reproduction costs will not be charged for producing documents provided to requesters in electronic format if the agency maintains those documents in an electronic format; however, requesters shall be charged for documents requested that are not maintained in electronic format and must be manually faxed or scanned into an electronic format.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3252, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3252, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2368 Judiciary on S.B. No. 3227

The purpose and intent of this measure is to:

- (1) Create an electronic citation program under the Judiciary;
- (2) Establish an electronic citation surcharge; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Department of Transportation, Honolulu Police Department, and Maui Police Department. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the use of paper citation sometimes gives rise to difficulties including supervisors, prosecutors, and judiciary personnel having to decipher handwritten notes that are difficult to read, as well as untimely delivery of citations from law enforcement agencies to the Judiciary. These difficulties have the potential to lead to delays in access to citations and to dismissal of traffic citations. Your Committee further finds that the use of an electronic citation system resolves handwriting legibility issues and eliminates the need to collect and scan paper citations. This measure provides numerous benefits to law enforcement, the Judiciary, and the general public, including the streamlining of processes and increased access to information.

Your Committee notes that committee members question why instituting a system that is expected to save the State money is going to cost violators more money. There was also discussion regarding the privacy of the data. Also, there was a request for information relating to the costs of establishing the electronic citation program, how much revenue would be generated, and what, if any, the necessary surcharge should be.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have established an electronic citation surcharge;
- (2) Clarifying that there is established within the Judiciary a statewide electronic citation program;
- (3) Making a general fund appropriation to the Judiciary for the purposes of establishing the statewide electronic citation program;
- (4) Making general fund appropriations as grants-in-aid to the counties for the purposes of establishing the statewide electronic citation program;
- (5) Making a general fund appropriation of \$51,024 to the Judiciary for the establishment of one permanent full-time equivalent accountant position; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3227, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 2369 Education on S.B. No. 2564

The purpose and intent of this measure is to appropriate funds for the Department of Education's resources for enrichment, athletics, culture, and health program to match federal dollars that the State receives for the 21st Century Community Learning Center.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawaii State Teachers Association, University of Hawai'i System, Hawai'i Afterschool Alliance, and one individual.

Your Committee finds that after-school programs provide important learning and enrichment opportunities for students while allowing parents to maintain employment. After-school programs keep students safe, offer additional learning support, and provide parents peace of mind that their children are constructively engaged.

Your Committee further finds that after-school programs are particularly needed for middle and intermediate school students. The intermediate years are important for reversing high school drop-out rates and ensuring students remain engaged in their education and community. The R.E.A.C.H. initiative, which stands for "resources for enrichment, athletics, culture, and health" was established in 2013 to meet the need for dedicated after-school programs for public middle and intermediate school students and uses a community-based approach. The R.E.A.C.H. initiative utilizes state funds and partners with schools, parents, and other community-based organizations.

Your Committee also finds that expanding funding for after-school programs represents an upfront investment in Hawaii's youth. With federal dollars already being invested in after-school programs, your Committee believes that now is the time to commit to expanding access to quality after-school programs for public middle and intermediate students.

Accordingly, this measure will promote learning and enrichment activities for middle and intermediate students across the State, while helping their parents maintain employment, by appropriating funds for the Department of Education's enrichment, athletics, culture, and health program to match certain federal moneys received by the State.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee notes that the estimated appropriation required for this measure is \$6,123,398.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2564, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2564, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2370 Education on S.B. No. 2333

The purpose and intent of this measure is to:

- (1) Authorize supplemental categorical funding for remote schools; and
- (2) Make and appropriation for supplemental categorical funding for remote schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and State Public Charter Schools Commission.

Your Committee finds that the Reinventing Education Act of 2004 (Act 51, Session Laws of Hawaii 2004) established a weighted student formula to allocate moneys to schools according to the different costs of educating students with varying needs. Despite the intended equitable distribution of funds, your Committee finds that the weighted student formula has placed small, remote schools at a disadvantage.

Your Committee further finds that despite the current economic situation, remote schools should be funded to retain the minimal personnel and resources necessary to allow students to graduate. One way to address this is to allow these schools to receive supplemental funding based on their remote status.

Accordingly, your Committee finds that this measure will provide greater financial assistance to certain remote schools in great need of the assistance by allowing these schools to receive supplemental funding and appropriating funds for the same.

Your Committee has amended this measure by:

- (1) Expanding the definition of "remote schools" to include certain schools identified by the Department of Education; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2333, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

SCRep. 2371 Education on S.B. No. 3280

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Saint Joseph School in planning, designing, constructing, reconstructing, renovating, acquiring, equipping, and improving educational facilities.

Your Committee received testimony in support of this measure from Saint Joseph High School and Cardinal Legacy Foundation. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Saint Joseph School was founded in 1869 and is the only parochial school on Hawaii island. Your Committee further finds that enrollment at the school has increased and a number of campus improvements are underway. However, additional funding is necessary to help build a stronger learning environment for students and the surrounding community.

Accordingly, your Committee finds that this measure is in the public interest and will help Saint Joseph School construct a multipurpose gymnasium for both school and community events through the issuance of special purpose revenue bonds.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3280 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2372 Education on S.B. No. 2612

The purpose and intent of this measure is to:

- (1) Establish a reusable utensil pilot project in Department of Education schools on Molokai;
- (2) Require the Department of Education to report to the Legislature on the feasibility of statewide implementation; and
- (3) Appropriate funds for the pilot project.

Your Committee received testimony in support of this measure from the Department of Education, Kualapuu Public Conversion Charter School, Ho'okāko'o Corporation, Kilohana Elementary School, and twelve individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that single-use plastics are a serious threat to the State's environmental and economic sustainability. Your Committee further finds that the Department of Education contributes to the State's annual plastic waste through its use of single-use plastic utensils in school cafeterias, which is contrary to the State's sustainability goals.

Accordingly, your Committee finds that this measure will help reduce plastic waste, pollution, and greenhouse gas emissions associated with the production, transportation, recycling, and disposal of single-use plastics by implementing a pilot program to explore and study the use of reusable utensils in Department of Education schools.

Your Committee has amended this measure by:

- (1) Removing the requirement that the Department of Education adopt rules for purposes of the pilot project; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2612, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 2373 (Joint) Education and Labor, Culture and the Arts on S.B. No. 2711

The purpose and intent of this measure is to update the list of exceptions under state child labor laws to include work-based learning programs with employers.

Your Committees received testimony in support of this measure from the Department of Education, Chamber of Commerce Hawaii, HawaiiKidsCAN, and one individual. Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations.

Your Committees find that the career readiness of Hawaii's students is of the utmost importance, both for the economic stability of these individuals and the State more broadly. Hawaii's schools have made great progress in recent years to expand opportunities for students to engage in work-based learning, in which students gain technical knowledge and skills that align with particular industries.

Your Committees further find that employer-school partnerships are a vital and powerful tool for creating authentic learning experiences for students. Students in the State benefit from a deep pool of work-based learning partnerships and employers to choose from in order to pursue their interests most effectively.

Your Committees therefore find that this measure will benefit students, schools, and employers by providing greater clarity as to the status of students working in an intern capacity. Your Committees note, however, the testimony of the Department of Labor and Industrial Relations expressing concern regarding the wholesale exemption of student interns from child labor laws.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 2, which added certain exceptions under 390-5, Hawaii Revised Statutes;
- (2) Defining youth vocational training programs and internships in section 390-1, Hawaii Revised Statutes;
- (3) Adding youth vocational training programs and internships and certain programs as allowable employment under section 390-2, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2711, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2711, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2374 (Joint) Housing and Government Operations on S.B. No. 2812

The purpose and intent of this measure is to:

- (1) Specify that allocation of the state bond ceiling to the State shall be used entirely for housing related projects;
- (2) Require that if a county elects to receive their allocation, it shall do so by resolution and specify the amount requested;
- (3) Remove the authorizations for counties or issuers to request additional allocations of the state bond ceiling;
- (4) Prioritize projects of counties that assign their allocation back to the State over projects of counties with their own private activity bond issuance program;
- (5) Require counties or issuers that retain their allocation to submit quarterly reports on the status or use of any allocation;
- (6) Require a project to first apply to the county in which the project is located, if the county has a private activity bond issuance program, before applying to the State; and
- (7) Change the dates for reverted or remaining allocations and requires certain reverted or remaining allocations to be sued for housing related projects.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Planning and Permitting of the City and County of Honolulu; EAH Housing; Mutual Housing Association of Hawai'i, Inc.; and Schatz Collaborative, LLC. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the State is in desperate need of affordable housing. Greater access to private activity bond financing provides a tool through which the State can increase the production of affordable housing. This measure supports the issuance of private activity bonds for affordable housing projects by amending the processes governing the issuance of private activity bonds to counties and prioritizing private activity bonds for state housing projects.

Your Committees have amended this measure by:

- (1) Removing a requirement that counties request to receive bond allocation through resolution;
- (2) Clarifying the process through which a county or other issuer shall submit reports to the Department of Budget and Finance;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2812, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2812, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2375 (Joint) Housing and Government Operations on S.B. No. 2922

The purpose and intent of this measure is to authorize the counties to adopt ordinances that allow up to one dwelling per quarter-acre in rural districts.

Your Committees received testimony in support of this measure from the Planning Department of the County of Hawai'i, Hawai'i Association of REALTORS, and one individual. Your Committees received comments on this measure from the Office of Planning and Sustainable Development and the Department of Agriculture.

Your Committees find that the State faces a severe shortage of housing. Allowing counties to increase density in rural districts offers a mechanism for providing more housing at lower costs. However, it is also important that the State avoid urban and suburban sprawl to the extent possible. This measure authorizes counties to increase density in rural areas but also highlights the need for greater understanding of the potential for urban and suburban sprawl. Your Committees received testimony from the Office of Planning and Sustainable Development, which noted that S.B. No. 2766, Regular Session of 2022, proposes that the Office of Planning and Sustainable Development perform a study that aligns with the purpose and intent of this measure.

Accordingly, your Committees have amended this measure by:

- (1) Incorporating the contents of S.B. No. 2766, which:
 - (A) Directs the Office of Planning and Sustainable Development to conduct a study of rural district land use laws;

- (B) Directs the Office Planning and Sustainable Development to coordinate with other departments and agencies, and community stakeholders to conduct the study;
 - (C) Requires the Office of Planning and Sustainable Development to report to the Legislature on its findings and recommendations; and
 - (D) Appropriates funds to the Department of Business, Economic Development, and Tourism; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2922, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2922, S.D. 1, and be referred to your Committees on Ways and Means and Water and Land.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2376 (Joint) Housing and Government Operations on S.B. No. 2238

The purpose and intent of this measure is to establish the procedures for a housing savings account system for all employees in the State.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Government Employees Association, and Tax Foundation of Hawaii.

Your Committees find that many residents of the State lack the needed funds to afford housing in Hawaii. A housing savings account system would support those residents by providing a stable and consistent source of funds to purchase housing. This measure establishes a housing savings account system that includes contributions for employers and employees. However, your Committees received testimony from the Department of Budget and Finance, which recommended that, instead of moving forward with enacting the housing savings account system, a thorough study should first be conducted by the Legislative Reference Bureau. Your Committees also note that concerns were raised about whether independent contractors should also be included in the housing savings account system, and the possibility that accumulated savings may disqualify some individuals from participating in government-subsidized public housing programs.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the contents of section 1 with language directing the Legislative Reference Bureau to conduct a study of a housing savings account system and requiring it to report its findings and recommendation to the Legislature; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2238, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2238, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2377 (Joint) Housing and Government Operations on S.B. No. 2479

The purpose and intent of this measure is to require each public housing project, dwelling unit, and state low-income housing project that is built, renovated, or constructed after January 1, 2023, to include all necessary infrastructure for tenants to access broadband services.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority; Department of Business, Economic Development, and Tourism; Hawaii State Council on Developmental Disabilities; Hawaiian Telcom; and Common Cause Hawaii.

Your Committees find that broadband access is essential for residents of the State. This fact was especially elucidated by the coronavirus disease 2019 pandemic. Without access to broadband services, many living in public and low-income housing find it difficult to connect with others in an increasingly-digital world. This measure supports residents in public and low-income housing by requiring that future units have the necessary infrastructure to support broadband services.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2479 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2378 (Joint/Majority) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 2535

The purpose and intent of this measure is to require offshore wind turbines to be sited no closer than twelve miles from the shoreline of a main Hawaiian island.

Your Committees received testimony in support of this measure from Progression Energy and one individual. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Hawaii State Energy Office; Public Utilities Commission; and Hawaiian Electric Company, Inc.

Your Committees find that wind energy facilities are a valuable source of renewable energy that brings the State closer to realizing its goal of one hundred percent renewable energy by 2045. Your Committees further find that wind energy facility siting or setback requirements vary across the nation.

Your Committees note the testimony from the Hawaii State Energy Office, which stated that it is in the process to better inform future actions regarding the establishment of minimum setback requirements for offshore wind projects to identify impacts and the effectiveness of potential mitigation measures. Therefore, your Committees respectfully request your Committee on Judiciary to further examine and continue discussions on the concerns raised by the testimony on this measure.

Accordingly, your Committees have amended this measure by:

- (1) Leaving blank the number of miles from the shore that an offshore wind turbine must be sited;
- (2) Amending section 1 to reflect the deletion of the twelve mile set back; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2535, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2535, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, 1 (Fevella). Excused, none.

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2379 Labor, Culture and the Arts on S.B. No. 2855

The purpose and intent of this measure is to create an exemption to existing law that prohibits workers from working on Saturdays, Sundays, and state holidays, on certain state public work job sites unless the worker receives overtime pay for all hours worked that day. This measure specifically exempts from this overtime pay requirement, Saturdays of a week during which a condition or circumstance beyond the control of the employer prevented workers from working for eight hours on one or more of the regularly scheduled Monday through Friday workdays and the total hours of work performed by the worker on the project during the workweek has not exceeded forty hours.

Your Committee received testimony in support of this measure from Nan, Inc. and one individual. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations.

Your Committee finds that existing law deters contractors from scheduling work for workers on Saturdays, even when they could not work the scheduled forty hours that week due to conditions and circumstances beyond the contractor's control. This measure will eliminate such deterrence and allow workers to work and receive a full week's pay while preventing the public works project from incurring unnecessary delay.

Your Committee notes that certain collective bargaining agreements allow employers to schedule work for workers on a Saturday as a "make up" day when a condition or circumstance beyond the control of the employer prevented the workers from working for eight hours on one or more of the regularly scheduled Monday through Friday workdays, and caused the total hours of work performed during the workweek to be less than forty hours.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the exemption to the overtime pay requirement created in this measure applies only when an applicable collective bargaining agreement permits;
- (2) Removing "equipment breakdown" as a condition or circumstance that is beyond the control of the employer;
- (3) Appropriating an unspecified amount of funds to the Department of Labor and Industrial Relations for purposes of this measure;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has also reviewed the testimony of the Department of Labor and Industrial Relations opposing this measure stating enforcement issues. The Department also noted that if this measure is enacted, the Department would need additional staffing and resources to carry out its provisions. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the Department's testimony on this measure.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2855, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2380 Labor, Culture and the Arts on S.B. No. 3126

The purpose and intent of this measure is to:

- (1) Allow the Director of Labor and Industrial Relations to authorize qualified boiler inspectors who are in the exclusive employment of an owner-user inspection organization, defined as “an owner or user of a pressure retaining item, whose organization and inspection procedures meet the requirements of the National Board of Boiler and Pressure Vessel Inspectors, and is approved by the Director of Labor and Industrial Relations to perform safety inspections of pressure retaining items; and
- (2) Extend the time by which the Director of Labor and Industrial Relations is required to reimburse the general fund for the initial appropriation made as a loan to the Boiler and Elevator Revolving Fund, from ten to thirteen years from the date the fund was established.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaiian Electric Company, Inc.

Your Committee finds that existing law requires safety inspections of pressure retaining items to be performed by Deputy Boiler Inspectors employed with the Department of Labor and Industrial Relations, and upon receiving authorization from the Director of Labor and Industrial Relations, by a Special Inspector, who is a qualified boiler inspector employed by insurance companies insuring pressure retaining items in Hawaii. Your Committee also finds that qualified boiler inspectors who are in exclusive employment with an owner-user inspection organization are certified by the National Board of Boiler and Pressure Vessel Inspectors to the same standards as the Special Inspectors, and are better equipped to readily perform necessary inspections of pressure retaining items owned by their employers.

Your Committee also finds that the National Board of Boiler and Pressure Vessel Inspectors allows owner-user inspection organizations to establish and maintain an inspection program, provided that the organization and its inspection procedures meet national accreditation requirements and are approved by the appropriate authority in the jurisdiction in which the owner-user is located. Furthermore, the existing rules adopted by the Department of Labor and Industrial Relations allow owner-user inspection organizations to perform safety inspections, provided that the inspections are performed by qualified boiler inspectors. This measure codifies the current practice engaged in by the Department of Labor and Industrial Relations and owner-user inspection organizations in Hawaii.

Your Committee further finds that the Legislature established the Boiler and Elevator Special Fund in 2012 to enable the Boiler and Elevator Inspection Branch of the Department of Labor and Industrial Relations’ Hawaii Occupational Safety and Health Division to become financially self-sufficient. The Legislature appropriated \$1,000,000 to the fund as a loan and required the Director of Labor and Industrial Relations to repay the amount in five years. In 2018, the fund was converted into the Boiler and Elevator Revolving Fund and the deadline to repay the loan was extended by five years, to 2022. Your Committee finds, however, that the viability of the Revolving Fund had been threatened during recent years, as the branch has been struggling to collect fees for inspections the branch had completed. Act 200, Session Laws of Hawaii 2021, addressed this issue by allowing the Director of Labor and Industrial Relations to prohibit the operation of pressure retaining items, amusement rides, and elevators and kindred equipment if inspection fees or fines were not timely paid. According to testimony by the Department of Labor and Industrial Relations, to date, the department has deposited \$750,000 to reimburse the general fund. Your Committee believes that an extension of the reimbursement deadline will enable the Department to continue to provide the necessary safety inspections and services while maintaining a feasible repayment schedule.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3126, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2381 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 3224

The purpose and intent of this measure is to:

- (1) Establish the Pulehunui community development district;
- (2) Establish community development district authority boards for each community development district; and
- (3) Amend the membership and reassign certain duties of the Hawaii Community Development Authority to the community development district authority boards.

Your Committees received testimony in support of this measure from the Hawaii Community Development Authority. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of Hawaiian Home Lands, and Department of Budget and Finance.

Your Committees find that the public lands in Pulehunui, Maui are relatively underdeveloped and have strong potential for increased growth and development that can provide for the community’s needs. However, your Committees recognize that under Article III, section 14, of the Hawaii State Constitution, the title of this measure, relating to the Pulehunui Community Development District, is too narrow to effectuate its provisions regarding the Hawaii Community Development Authority and other community development districts.

Accordingly, your Committees have amended this measure by:

- (1) Adopting the language suggested in the testimony from the Hawaii Community Development Authority, which limits the content of the measure to addressing issues that fit within the measure's title establishes the:
 - (A) Pulehunui community development district; and
 - (B) Pulehunui community development district board; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3224, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3224, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2382 Water and Land on S.B. No. 2799

The purpose and intent of this measure is to:

- (1) Transfer lands to the Department of Land and Natural Resources and establish that land and adjacent state-owned lands as the Kaiwi Coast State Park; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Friends of Hanauma Bay, Surfrider Foundation, Ko'olau Waiialua Alliance, Sierra Club of Hawai'i, Hawaii Reef and Ocean Coalition, and six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Budget and Finance.

Your Committee finds that the lands of the Kaiwi coast are an invaluable natural asset for the people of Hawaii. Numerous community members and organizations have fought long and hard over many decades to protect and preserve this unspoiled area for future generations, collaborating with government agencies to address myriad issues, such as managing human impacts, preventing invasive species, and restoring the Wawamalu dune system. As the Kaiwi Coast draws thousands of visitors every year, the area may become an inevitable target for commercial interests and future development. To preserve and protect the lands of the Kaiwi Coast, this measure establishes the Kaiwi Coast State Park and appropriates funds for the establishment of management for the new state park.

Your Committee has amended this measure by:

- (1) Authorizing, rather than requiring, the transfer of specific lands spanning Wawamalu to Makapuu to the Department of Land and Natural Resources;
- (2) Authorizing, rather than requiring, the designation of a state park under the name "Kaiwi Coast State Park";
- (3) Authorizing, rather than requiring, the Department of Land and Natural Resources to consider the lands within or added to the Kaiwi Coast State Park to be considered for designation as conservation lands;
- (4) Adding one full-time equivalent (1.0 FTE) general laborer to the positions established within the Department of Land and Natural Resources; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2799, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2383 Water and Land on S.B. No. 2833

The purpose and intent of this measure is to:

- (1) Establish the Waiakea Peninsula Redevelopment District and Planning Committee for the redevelopment of public lands on the Waiakea Peninsula;
- (2) Establish the Waiakea Peninsula Redevelopment District Revolving Fund;
- (3) Make an appropriation; and
- (4) Sunset on June 30, 2032.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawaii, County of Hawaii Planning Department, Hawaii Primary Care Association, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that the State has a fiduciary duty to manage state lands in the best interests of the public by enhancing state revenues and promoting social, environmental, and economic well-being of Hawaii's people. East Hawaii, including the notable

Banyan Drive area, remains as the center of tourism for the island of Hawaii, and many improvements have not been made to infrastructure and key resources that make the region an economic hub. While the East Hawaii area includes several hotels, condominiums, restaurants, and retail buildings that comprise the economic districts, recent financial problems and closures have led to a decline in economic activities and opportunities in the area.

Your Committee also finds that the deterioration of key areas for economic growth and tourism impacts the economic, social, and community opportunities of Hawaii's people. The rejuvenation of public lands located on the Waiakea Peninsula on Hawaii island that have become dilapidated, obsolete, or have deteriorated over time is of statewide importance and constitutes a valid public purpose.

However, your Committee has heard the concerns of the Department of the Attorney General regarding Article XI, Section 5, of the Hawaii State Constitution, that this measure may be construed as special legislation. Additionally, your Committee also heard the concerns of the Department of Land and Natural Resources regarding issues over leases and jurisdiction. As the economic, social, and career opportunities resulting from the redevelopment of the Waiakea Peninsula have great benefits to the State, amendments to this measure are therefore necessary to address the concerns of the Department of the Attorney General and the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Inserting findings on the Waiakea Peninsula area and how the area provides economic and social opportunities and well-being to Hawaii residents, and its role as a tourism and economic hub in East Hawaii;
- (2) Renaming the "Waiakea Planning Committee" the "Waiakea Redevelopment Planning Committee";
- (3) Limiting the powers and duties of the Planning Committee to planning and advising, and serving as an advisory committee to the Department of Land and Natural Resources;
- (4) Retaining all management of public lands, including leases, within the Waiakea Peninsula under the Department of Land and Natural Resources;
- (5) Deleting language that would have authorized the planning committee to do the following:
 - (A) Lease public lands in the Waiakea Peninsula Redevelopment District and renew or renegotiate leases in connection with any project contained in the redevelopment plan;
 - (B) Reduce or waive the lease rental on any lease of public land for any project in the Waiakea Peninsula Redevelopment District that requires substantial improvements not exceeding one year;
 - (C) Make and execute all contracts necessary for the exercise of the committee's powers and functions relating to the Waiakea Peninsula Redevelopment District;
 - (D) Enter into development agreements with a developer for any project contained in the redevelopment plan with certain provisions regarding the information on land to be developed, uses of the land, the construction timeline, and other terms and conditions; and
 - (E) Be exempt from laws regarding administrative supervision of boards and commissions;
- (6) Deleting language specifying the rental calculation for public takings under the redevelopment plan;
- (7) Requiring the redevelopment plan to be submitted and adopted by the Board of Land and Natural Resources;
- (8) Requiring the Board of Land and Natural Resources to render a decision on any proposals submitted following the adoption of the redevelopment plan within one year of the submission date or proposals shall be deemed approved;
- (9) Requiring the Board of Land and Natural Resources to submit the plan adopted and requests of appropriations and authorizations of bonds necessary to implement the redevelopment plan to the Legislature;
- (10) Deleting lease requirements for leases that would have been issued by the committee;
- (11) Removing the establishment of and appropriations into and out of the Waiakea Redevelopment District Revolving Fund;
- (12) Removing any unnecessary transfer language;
- (13) Inserting a blank appropriation from the general fund for fiscal year 2022-2023 to the Department of Land and Natural Resources for the Waiakea Redevelopment Planning Committee;
- (14) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2833, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2384 (Majority) Water and Land on S.B. No. 3188

The purpose and intent of this measure is to appropriate funds for flood mitigation measures at Makaha Valley and Lualualei, based on structural and nonstructural measures recommended in studies previously conducted.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of Budget and Finance and three individuals.

Your Committee finds that Act 283, Session Laws of Hawaii 2012, mandated the Makaha Valley Flood Mitigation Study to identify specific recommendations for the control of storm drainage throughout the study area to reduce recurring flooding to residences and businesses; provide an evaluation of recommendations; and address other issues as deemed necessary. The study found that many flood mitigation projects are located on private property, with projects ranging from \$83,000,000 to \$118,000,000 based on 2014 estimates. Ongoing maintenance of flood mitigation projects is costly, as some streams and drainage features are not properly maintained by private property owners. To address concerns raised by deteriorating flood mitigation systems and structures, this measure appropriates funding for flood mitigation measures at Makaha Valley and Lualualei.

Your Committee has amended this measure by:

- (1) Replacing all instances of "Department of Land and Natural Resources" as the expending agency with "City and County of Honolulu";
- (2) Deleting the appropriation for the plans, design, and construction for installation of a drain line on Noholio Road; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3188, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2385 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 2510

The purpose and intent of this measure is to:

- (1) Establish firm renewable energy generation policy in the Hawaii State Planning Act to ensure the reliable one hundred percent replacement of fossil fuel electricity generation to increase the sustainability and energy self-sufficiency of the State to improve the quality of life for residents and visitors; and
- (2) Include policy of incentives to facilitate and encourage fuel-producing crops and energy-producing crops and bioenergy and standards for achieving renewable portfolio standards.

Your Committees received testimony in support of this measure from Island Cold Storage; Kulana Foods, Ltd.; Pacific Biodiesel Technologies; Suisan; Eco4Life; Sustainable Energy Hawaii; Hilo Products, Inc.; Hawaii Clean Power Alliance; and forty individuals. Your Committees received testimony in opposition to this measure from 350Hawaii; Energy and Climate Action Committee, Environmental Caucus of the Democratic Party of Hawaii; Tawhiri Power LLC; and four individuals. Your Committees received comments on this measure from the Department of the Attorney General, University of Hawai'i System, Department of Budget and Finance, Office of Planning and Sustainable Development, Hawaii State Energy Office, Hawaiian Electric, Hawaii Bioeconomy Trade Organization, and one individual.

Your Committees find that to meet the goals set by Hawaii's commitment to one hundred percent renewable energy by 2045, there is an increasing need to promote clean, non-climate harming renewable energy, sustainability, and self-sufficiency. To achieve Hawaii's renewable energy goals, the State must consider a variety of renewable energy sources to address the needs of the State while providing clean energy to Hawaii's people.

Despite their clear commitment to renewable energy, your Committees have heard the concerns from several agencies and organizations, including the Department of the Attorney General, Hawai'i Natural Energy Institute, Hawaiian Electric, and Office of Planning and Sustainable Development, that this measure as drafted may create issues regarding binding legislation to future legislatures, no exceptions for emergency circumstances, and no appropriation to carry out current updates to the Energy State Functional Plan. Amendments are therefore needed to address the concerns of the various agencies and organizations while also considering the State's goals and commitment to renewable energy sources.

Your Committees have amended this measure by:

- (1) Authorizing the generation of fossil fuels after December 1, 2045, in cases of emergencies or natural disaster, a situation where unavailability of renewable fuels would require limited use of fossil fuels to maintain grid reliability, and in events or circumstances that are beyond reasonable control that could not be reasonably foreseen or ameliorated;
- (2) Authorizing rather than requiring updates to the energy state functional plan;
- (3) Deleting language that would have appropriated funds to the Office of Planning and Sustainable Development beyond the current Legislature;
- (4) Appropriating funds out of the energy systems development special fund pursuant to section 304A-2169.1, Hawaii Revised Statutes, instead of general revenues, for the Hawaii Natural Energy Institute to conduct the study as required by this measure;
- (5) Appropriating general funds for fiscal year 2022-2023 for the Office of Planning and Sustainable Development to update the energy state functional plan;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2510, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2510, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 2386 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 3192

The purpose and intent of this measure is to:

- (1) Establish within the Department of Land and Natural Resources a visitor green fee program to collect a fee to allow visitors to visit a state park, beach, state-owned forest, hiking trail, or other state-owned natural area;
- (2) Establish the Environmental Legacy Commission to allocate the revenues from the visitor green fee program to protect and manage Hawaii's natural resources; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, Kauhako 'Ohana Association, Surfrider Foundation, Malama Pūpūkea-Waimea, Kua'āina Ulu 'Auamo, Hawai'i Alliance for Community Based Economic Development, Climate Protectors Hawai'i, Hawai'i Alliance for Progressive Action, Ulupono Initiative, Conservation Council for Hawai'i, Resources Legacy Fund, The Nature Conservancy Hawaii, Hawai'i Conservation Alliance Foundation, Wild Kids, Sustainable Coastlines Hawaii, Hawaii Green Fee, and twenty-seven individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committees find that Hawaii's natural resources, including reefs, beaches, oceans, forests, streams, estuaries, and shorelines provide irreplaceable and invaluable benefits to visitors and the global community at large, which are critical to generating billions of dollars for Hawaii's economy and local community, as well as supporting thousands of jobs. Hawaii's natural environment also faces significant environmental pressure from the heavy use it receives from persons traveling from throughout the world to enjoy the State's natural beauty and resources. Continuing underinvestment in the protection and care of natural resources poses a significant liability to the visitor industry, the stability of our natural systems including our water quality, economic resilience, and health and safety of the citizens of the State.

To address emerging and ongoing environmental issues from climate change, a visitor green fee program would provide additional resources to restore, enhance, and protect in perpetuity, Hawaii's state-owned natural resources. A fee paid by visitors who enjoy Hawaii's public parks, beaches, and trails could generate necessary funding each year to enable Hawaii to leave future generations with a healthy and safe environment. Visitor green fees have also been successfully implemented at other visitor destinations around the world, including the Galapagos Islands, New Zealand, and Palau. In addition, a visitor green fee program would indirectly support economic diversification and potentially create thousands of public and private jobs. To protect Hawaii's natural resources and scenic beauty, this measure establishes a visitor green fee program, and accompanying special fund, to provide sustained funding for the protection, restoration, and care amidst an influx of increased visitor use.

Your Committees have amended this measure by:

- (1) Adding language to authorize the visitor green fee special fund moneys to be expended for certain purposes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3192, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3192, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 2387 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 2062

The purpose and intent of this measure is to exempt the proposed drilling, construction, or use of a well on lands leased from the Department of Agriculture from laws requiring environmental impact statements, provided that the land is being used to support agriculture and food production.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau and one individual. Your Committees received testimony in opposition to this measure from the Sierra Club of Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Alliance for Progressive Action, Americans for Democratic Action Hawai'i, and three individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Agriculture, and Office of Planning and Sustainable Development.

Your Committees find that existing requirements for environmental review can inhibit important agricultural projects and limit the feasibility of new agricultural operations. This measure will remove barriers to increase local agricultural production.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2062 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 2388 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2064

The purpose and intent of this measure is to:

- (1) Require the Board of Land and Natural Resources to identify all private and public lands suitable for the planting of koa trees; and
- (2) Authorize the Board of Land and Natural Resources to issue licenses to applicants desiring to plant, care for, and harvest koa trees in certain circumstances.

Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that this measure would allow individuals to plant and harvest koa trees on private and public lands. Your Committees further find, however, that the Department of Land and Natural Resources lacks the appropriate jurisdiction to regulate the planting and harvesting of koa trees on private lands.

Accordingly, your Committees have amended this measure by limiting its jurisdiction to public lands.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2064, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2064, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2389 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 2065

The purpose and intent of this measure is to prohibit the possession or use of unmanned aerial vehicles in state waters for the purposes of fishing.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii State Aha Moku; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Mālama Pūpūkea-Waimea; For the Fishes; and one individual. Your Committees received testimony in opposition to this measure from the Office of the Public Defender and six individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that the use of unmanned aerial vehicles for fishing can pose a risk to certain protected species. Your Committees further find, however, that the definition of "unmanned aerial vehicle" in this measure requires clarification and should exclude remote controlled airplanes, defined as small aircraft made from insubstantial material with fixed wings and two or fewer remote controlled electric rotors.

Your Committees have amended this measure by:

- (1) Clarifying the definition of "remote controlled airplane"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2065, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2065, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 2 (Acasio, Fevella). Excused, none.

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2390 (Majority) Agriculture and Environment on S.B. No. 2070

The purpose and intent of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds to Hawaiian Legacy Reforestation Initiative, LLC.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the issuance of special purpose revenue bonds to Hawaiian Legacy Reforestation Initiative, LLC for generating a sustainable model of endemic reforestation, ecosystem revitalization, endangered species recovery, and carbon credit sequestering is in the public interest and for the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, 2 (Acasio, Fevella). Excused, none.

SCRep. 2391 Agriculture and Environment on S.B. No. 2288

The purpose and intent of this measure is to:

- (1) Establish a compost reimbursement program within the Department of Agriculture to provide reimbursements to farmers, ranchers, and landscapers when purchasing compost; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Pueo Orchards; Hawai'i Farmers Union United; Hawaii Medicinal, LLC; Sunshine Farms, LLC; Hawai'i Alliance for Progressive Actions; Growing Together Edible Landscaping; and seven individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that food waste contributes significantly to landfills. Recycling food waste into compost can provide significant environmental benefits, such as improving soil health, increasing drought resistance, and reducing the need for supplemental water, fertilizers, and pesticides. This measure supports the use of compost by establishing a compost reimbursement program to assist farmers, ranchers, and landscapers. Your Committee further finds, however, that it is important for this measure to specify that only locally-produced compost will be eligible for reimbursement.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2392 Agriculture and Environment on S.B. No. 2297

The purpose and intent of this measure is to add the forfeiture of any vehicle as a penalty for the use of the vehicle in the commission of illegal disposal of solid waste.

Your Committee received testimony in support of this measure from the Department of Health and one individual. Your Committee received testimony in opposition to this measure from one member of the Kaua'i County Council.

Your Committee finds that the illegal dumping of solid waste causes damage to the environment and to human health. Additional penalties for the dumping of solid waste may deter the practice. This measure imposes forfeiture of a vehicle as an additional penalty for the illegal dumping of solid waste.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2297 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Nishihara).

SCRep. 2393 Agriculture and Environment on S.B. No. 2628

The purpose and intent of this measure is to:

- (1) Require any disposition of public lands under the jurisdiction of the Board or Department of Agriculture by public auction to be open to the public; and
- (2) Require the Board or Department of Agriculture, as applicable, to issue public advertisements for each public auction.

Your Committee received testimony in support of this measure from Hawaii Meats, LLC; Thompson Ranch; and twelve individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture and one individual. Your Committee received comments on this measure from the Hawaii Cattlemen's Council, Inc., and Hawai'i Farm Bureau.

Your Committee finds that public participation is crucial to the disposition of public lands. Additionally, public participation requires timely notice be given to members of the public. This measure promotes public participation in the disposition of public lands by requiring the Board and Department of Agriculture to open public auctions to the public and issue public advertisements for each public auction.

Your Committee has amended this measure by limiting the provisions to disposition for new leases and not renegotiation of existing leases.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2628, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2628, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Nishihara).

SCRep. 2394 Agriculture and Environment on S.B. No. 2955

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a three-year compost reimbursement pilot program to provide reimbursements to farmers and ranchers when purchasing compost;
- (2) Establish a temporary compost reimbursement pilot program manager position;
- (3) Require a report to the legislature; and
- (4) Appropriate funds for a compost reimbursement pilot program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Alliance for Progressive Action; Birds With Arms Farms; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Adaptations, Inc.; and twenty-four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that food waste constitutes a significant source of materials sent to landfills and that recycling food waste by converting it to compost has many environmental benefits. Notably, compost improves soil health, increases drought resistance, and reduces the need for supplemental water, fertilizers, and pesticides. Accordingly, this measure supports the State's efforts to improve agricultural productivity and environmental sustainability.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2955 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2395 Agriculture and Environment on S.B. No. 2960

The purpose and intent of this measure is to require the Department of Agriculture to partner with the State's agriculture community to establish and implement a food safety certification program and to appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Food Industry Association, North Shore Economic Vitality Partnership, Ulupono Initiative, Hawai'i Farm Bureau, and five individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii is the most geographically isolated state in the country. The State's geographical isolation places it at greater risk for food supply chain disruption and highlights the need for greater food self-sufficiency. Additionally, food self-sufficiency presents an important economic goal and opportunity for the State. This measure supports food-self sufficiency by helping local farmers meet Food and Drug Administration food safety standards.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2960 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2396 Agriculture and Environment on S.B. No. 2982

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a five-year food hub pilot program to increase access to local food;
- (2) Allow the awarding of grants to qualified applicants wishing to establish or expand a food hub;
- (3) Require a report to the legislature; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Primary Care Association; Adaptations, Inc.; A'a Li'i Farm; Pono Hawai'i Initiative; Sustainable Kohala; Hawai'i Alliance for Progressive Action; Ulupono Initiative; Hawai'i Farmers Union United; Grow Some Good; Birds With Arms Farms; Hawaii Foodbank; Ho'ola Farms; We Are One, Inc.; Our Revolution Hawaii; Hawai'i 'Ulu Producers Cooperative; Aloha Harvest; and sixty-five individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State's food security may be strengthened by growing more local food. Food hubs play a vital role in ensuring that food grown locally is accessible to consumers by providing greater access to institutional and retail markets throughout the State. This measure supports the establishment and expansion of food hubs to increase access to locally-produced food.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2982 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2397 Agriculture and Environment on S.B. No. 2990

The purpose and intent of this measure is to establish and appropriate funds for a cover crop reimbursement pilot program in the State for the costs of acquiring cover crop seeds, green manure, and compost.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i; Hawai'i Farmers Union United; Our Revolution Hawaii; Larry Jeffs Farms, LLC; Birds With Arms Farms; Hawai'i Farm Bureau; 350Hawaii.org; Adaptations, Inc; and thirty-six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure supports the use of cover crops, green manure, and compost by Hawaii's agricultural producers through a pilot program. The pilot program will increase agricultural productivity and align agricultural production with the State's sustainability goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2990 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2398 Transportation on S.B. No. 2126

The purpose and intent of this measure is to increase the minimum and potential maximum fine for violating certain provisions relating to the installation of a noisy muffler.

Your Committee received testimony in support of this measure from the Department of Transportation, Livable Honolulu, Free Access Coalition, and five individuals.

Your Committee finds that growing noise pollution and disturbances from loud mufflers on motor vehicles are a problem. This noise adversely affects sleep in the early and late hours, which has a negative impact on public health and safety as well as general enjoyment and quality of life.

Your Committee further finds that laws currently exist to prohibit vehicle owners from installing mufflers that increase the noise of their vehicles, but the punishment for violating these laws are too minimal to deter violators. Therefore, this measure shall increase the fines that may be issued for violation of the loud muffler laws.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2399 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 3023

The purpose and intent of this measure is to prohibit real estate brokers and agents licensed in the State from advertising, offering for rent, receiving any remuneration for, or in any way representing illegal transient vacation units and whole-home short-term rentals.

Your Committees received testimony in support of this measure from the Real Estate Commission, Hawaii Thousand Friends, Livable Hawaii Kai Hui, Ko'olau Waialua Alliance, Save North Shore Neighborhoods, UNITE HERE! Local 5 Hawaii, and nineteen individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that the growth of the short-term rental industry in recent years has resulted in many local neighborhoods being overrun by illegal rentals, which has increased noise, traffic and parking problems, and disrupted the stability and character of many rural communities. This measure will help curtail the referral and commissioning of illegal vacation rentals to enhance efforts to protect residential neighborhoods. Your Committees note the concern raised in testimony that the activity prohibited by this measure, as currently drafted, is established in session law and would instead be better placed into existing statute to provide the Real Estate Commission an appropriate enforcement mechanism.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language into section 467-14, Hawaii Revised Statutes, to grant the Real Estate Commission authority to discipline a licensee for, in any way, advertising, promoting, representing, receiving remuneration for, or offering for rent any transient vacation unit or whole-home short-term rental unless the unit or rental is permitted by the relevant county;
- (2) Deleting language that would have inserted the requirements of this measure into session law and deleting the requirement of the Real Estate Commission to amend its administrative rules by December 31, 2022;
- (3) Inserting definitions for the terms "transient vacation unit" and "whole-home short-term rental";
- (4) Inserting an effective date of December 31, 2050, to promote further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3023, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3023, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2400 (Joint) Labor, Culture and the Arts and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3142

The purpose and intent of this measure is to include reserve public safety law enforcement officers on the list of volunteer occupations covered under the State's workers' compensation law.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Public Safety, and one individual.

Your Committees find that the Department of Public Safety is prepared to start a volunteer enforcement program similar to the police reserve programs in county police departments. The program will recruit the Department's recent retirees and motivated members of the public as volunteer reserve public safety law enforcement officers to assist the Department with its law enforcement responsibilities. Your Committees further find that the volunteer reserve public safety law enforcement officers will be trained to the same standard as the Department's full-time law enforcement officers, since they will be exposed to the same extent of risk, danger, and injuries as full-time law enforcement officers. This measure will allow any such injuries to be compensated under the State's workers' compensation law, and therefore, enable the Department of Public Safety to enhance public safety by augmenting its cadre of volunteer reserve public safety law enforcement officers with qualified personnel.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3142 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Riviere).

SCRep. 2401 (Joint) Energy, Economic Development, and Tourism and Transportation on S.B. No. 2721

The purpose and intent of this measure is to subject aviation fuel to the Environmental Response, Energy, and Food Security Tax beginning January 1, 2023.

Your Committees received testimony in support of this measure from Hawai'i Natural Energy Institute and two individuals. Your Committees received testimony in opposition of this measure from the Department of Transportation and Airlines for America. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Hawai'i State Energy Office, Tax Foundation of Hawaii, and Simonpietri Enterprises.

Your Committees find that implementing a tax on each barrel or fractional part of a barrel of gasoline or other aviation fuel sold for use in or used for airplanes would result in over \$6,000,000 in tax revenues for the State. However, your Committees recognize that under federal law, specifically the 49 U.S.C. section 47133, the uses of taxes collected on aviation fuel are exclusively limited to the operating or capital costs related to airports, local airport systems, or local facilities and that are directly and substantially related to the air transportation of passengers or property.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying the language establishing a tax on each barrel or fractional part of a barrel of gasoline or other aviation fuel sold for use in or used for airplanes by placing it in a new section;
- (2) Creating a special fund for the flight assistance tax established above; provided that:
 - (A) Fifty percent of the moneys in the special fund shall be set aside for the maintenance, operation, and repair of the statewide system of airports;
 - (B) Thirty percent of the moneys in the special fund shall be set aside for airport innovation projects; and
 - (C) Twenty percent of the moneys in the special fund shall be set aside for aeronautical and aerospace development; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2721, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2721, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 5; Ayes with Reservations (Inouye). Noes, none. Excused, none.

SCRep. 2402 Higher Education on S.B. No. 3268

The purpose and intent of this measure is to:

- (1) Authorize the University of Hawaii Board of Regents to terminate the athletic director and head coaches at four-year campuses for cause; and
- (2) Require the Board of Regents to approve all coaching contracts at four-year campuses with salaries greater than \$200,000, including additional private funding and bonuses.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association AFSCME Local 152, AFL-CIO, and one individual. Your Committee received comments on this measure from the University of Hawaii Board of Regents.

Your Committee finds that the University of Hawaii Athletics, including the University of Hawaii Rainbow Warrior football team, is a significant cultural aspect to Hawaii's people. Beginning in 1909, the University of Hawaii football program has remained as one of the university's signature programs, captivating the State for decades. One component of success to athletic programs are head coaches, who serve as impactful, influential figures to student athletes across all athletic programs. To some student athletes, head coaches become parental figures who provide mentorship, provide player health and well-being, and even maintain relationships with players and families beyond graduation.

However, from December 2021 to January 2022, at least eighteen Warrior football players declared their intent to enter the transfer portal. Following the declarations, which were highly unusual, allegations surfaced against a former football head coach.

The transfer portal issues and other allegations made against the coach by current and former players became a matter of statewide concern, with the Senate Committees on Ways and Means and Higher Education holding an informational briefing to learn more about budget and costs related to coaching staff contracts and issues surrounding the transfer of players.

Your Committee also finds that the Board of Regents of the University of Hawaii should have the authority to terminate a coach for cause because significant costs to the State may result from the termination. According to Board of Regents Policy 9.202 (RP 9.202), upon recommendation from the Chancellor and the President, with approval from the Chairperson or Vice Chairperson of the Committee on Intercollegiate Athletics, the Board of Regents is required to approve original terms of head coaches lasting more than five years; amended terms of head coaches lasting more than five years; and appointments, extensions, and salary adjustments for head coaches, non-head coaches, and administrators exceeding the salary schedule by more than twenty-five percent, or exceeding \$500,000 annually.

Upon hire, the former football coach's salary was valued at \$800,000. While the Board of Regents is ultimately responsible for the cost of contract termination and should carry the responsibility of voting on termination, the Board of Regents Executive Administrator could not provide documentation regarding the Board of Regents' approval on the former football coach's contract, which was subject to its oversight pursuant to RP 9.202. If action had been taken to fire the former football coach without cause, the university could have lost as much as \$1 million to buy out his contract. The issues relating to the former football coach raise concerns that there should be checks and balances in place between the university, the Board of Regents, and potential athletic department hires.

To prevent a similar situation in the future, this measure authorizes the Board of Regents to terminate the athletic director and head coaches for cause and requires it to approve all coaching salaries greater than \$200,000, including additional private funds and bonuses.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3268 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Wakai). Noes, none. Excused, none.

SCRep. 2403 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2963

The purpose and intent of this measure is to:

- (1) Require and establish deadlines for state facilities, except smaller facilities and facilities within the stadium development district, to implement cost-effective energy efficiency measures;
- (2) Provide that certain agencies that perform energy efficiency retrofitting may continue to receive appropriations for energy expenditures;
- (3) Allow the Department of Accounting and General Services to opt out of the cost-effective energy efficiency measures if a facility will be demolished within five years;
- (4) Direct the Hawaii Natural Energy Institute to collect utility bill and energy usage data for state-owned buildings and to make the data publicly available;
- (5) Establish a goal for the State to achieve at least a twenty-five percent reduction in the electricity consumption of state facilities; and
- (6) Beginning July 1, 2023, require, where feasible and cost-effective, the design of all new state building construction to maximize energy and water efficiency, maximize energy generation potential, and use building materials that reduce the carbon footprint of the project.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Office of Planning and Sustainable Development; Hawai'i Natural Energy Institute; Hawaii State Energy Office; Ulupono Initiative; Johnson Controls, Inc.; Blue Planet Foundation; and eleven individuals. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that this measure supports green building management and the sustainable development and operations of state-owned buildings and facilities. According to testimony received from the Department of Accounting and General Services, additional time is needed for all agencies to establish and implement cost-effective energy efficiency measures.

Your Committees note that although the Hawaii State Energy Office currently collects and reports on the energy usage of state-owned buildings on an annual basis, it has no experience or expertise in water efficiency management.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Hawaii State Energy Office, instead of the Hawaii Natural Energy Institute, to collect utility bill and energy usage data for state-owned buildings and to make the data publicly available;
- (2) Transfer the water efficiency management portion of this measure to the Office of Planning and Sustainable Development by:
 - (A) Specifying that the Hawaii State Energy Office shall collect electric utility bill and energy usage data for state-owned buildings and make this data publicly available, while the Office of Planning and Sustainable Development shall collect water utility bill and water usage data for state-owned buildings and make that data publicly available; and
 - (B) Appropriating an unspecified amount of funds for an unspecified amount of full-time equivalent positions at the Office of Planning and Sustainable Development for the collection and publication of water utility bill and water usage data for state-owned buildings;
- (3) Extending the deadlines for certain state facilities to implement cost-effective energy efficiency measures; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that as your Committee on Ways and Means considers the amount of funds and positions for Office of Planning and Sustainable Development to carry out its water management duties under this measure, it may also consider expanding the Office's responsibilities to include facilitating the use of reclaimed water for uses other than drinking and for potable water needs in one hundred percent of state and county facilities by December 31, 2045, pursuant to the Hawaii Water Plan in section 174C-31(g)(6), Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2963, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2963, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2404 (Joint) Education and Higher Education on S.B. No. 2636

The purpose and intent of this measure is to:

- (1) Define the scope and application of chapter 368D, Hawaii Revised Statutes, and set forth requirements with which covered entities must comply; and
- (2) Require annual reporting to the Legislature on certain relevant information and the number and types of Title IX cases received by the Department of Education, public charter schools, and University of Hawaii.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, University of Hawai'i System, Hawai'i Civil Rights Commission, American Association of University Women, The Sex Abuse Treatment Center, Hawai'i Women Lawyers, Hawai'i Women's Coalition, and eight individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that this year marks the fiftieth anniversary of the Patsy T. Mink Equal Opportunity in Education Act, otherwise known as Title IX of the Education Amendments of 1972 (Title IX). Title IX has given millions of girls and women educational opportunities that were undreamed of before its enactment, in classrooms and beyond. Your Committees recognize, however, that Congresswoman Mink's celebrated legacy has not yet been fully realized.

Accordingly, your Committees find that this measure is necessary to further promote the protections afforded under Title IX by clarifying the law and requiring annual data reporting from the Department of Education, public charter schools, and University of Hawaii, to ensure that the needs of victims of unlawful sex-based discrimination are properly addressed.

Your Committees have amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Clarifying the scope and construction of the statutory sections added under section 2;
- (3) Deleting certain definitions under section 2;
- (4) Clarifying certain reporting requirements under section 2;
- (5) Clarifying the scope and applicability of section 368D-1, Hawaii Revised Statutes, which prohibits discrimination in educational programs and activities;
- (6) Inserting an appropriation of an unspecified amount for purposes of funding three new positions within the University of Hawaii;

- (7) Inserting appropriations of unspecified amounts for purposes of implementing this measure by the State Public Charter School Commission and the Department of Education;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2636, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2636, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 2405 (Joint) Education and Higher Education on S.B. No. 2928

The purpose and intent of this measure is to:

- (1) Establish a working group to study and prepare an implementation plan for agricultural career pathways and report to the Legislature; and
- (2) Appropriate funds for the working group.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, and Hawai'i Farm Bureau.

Your Committees find that the State's future depends on further development of the agricultural sector for its security, economic development, and sustainability. A qualified workforce to support agriculture, food innovation, natural resources, and related employment is necessary to advance the State's goals.

Your Committees further find that career pathways map out the education, training, and experiences necessary to prepare young people for employment and career success. Your Committees additionally find that there is a critical need for an implementation plan for career pathways for the agricultural sector that prepares more of the State's young people to be Hawaii's future agricultural workforce, which includes scientists, inspectors, food producers, field technicians, natural resource managers, entrepreneurs, and of course, farmers.

Accordingly, your Committees find that this measure will promote the State's agricultural goals by convening a working group to study and develop agricultural career pathways for students.

Your Committees have amended this measure by:

- (1) Placing the working group within the Department of Education for administrative and fiscal purposes;
- (2) Providing that the Department of Education shall select members for the working group in consultation with the University of Hawaii;
- (3) Amending the appropriation to be directed to the Department of Education; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2928, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2928, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

SCRep. 2406 (Joint) Commerce and Consumer Protection and Government Operations on S.B. No. 2185

The purpose and intent of this measure is to:

- (1) Impose a consumer fireworks tax at the wholesale and retail levels; and
- (2) Require the fireworks and articles pyrotechnic records auditor of each county fire department to submit an annual report to the Legislature detailing inventory, recordkeeping, and sales of fireworks to license or permit holders.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Maui Fire Department, and Honolulu Fire Department. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association; American Promotional Events, Inc.; and one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committees find that the use of fireworks in recent years has substantially increased in the State, resulting in property damage, serious injuries, and in some cases, fatalities, and can put a significant strain on emergency medical services and hospital emergency rooms. This measure would impose a consumer fireworks tax at the retail and wholesale level to discourage the use of fireworks by consumers.

Your Committees note the Illegal Fireworks Task Force established by Act 170, Session Laws of Hawaii 2010, recommended the Legislature consider increasing fireworks permit fees to deter the use of illegal fireworks. Accordingly, amendments to this measure

are necessary to incorporate this preferred recommendation. Your Committees also note the lack of enforcement by the Department of Taxation concerning the payment of taxes on illegal aerial fireworks and requests your Committee on Ways and Means further examine this issue and concern.

Your Committees have amended this measure by:

- (1) Inserting a findings and purpose section;
- (2) Inserting language that doubles the fees for permits required for the purchase and use of fireworks in section 132D-10, Hawaii Revised Statutes;
- (3) Deleting language that would levy a consumer fireworks tax at the wholesale and retail levels;
- (4) Inserting an effective date of January 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2185, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2185, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 7; Ayes with Reservations (DeCoite, Nishihara, Riviere, Fevella). Noes, none. Excused, none.

Government Operations: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2407 (Joint) Human Services and Government Operations on S.B. No. 2370

The purpose and intent of this measure is to:

- (1) Establish the Office of Homelessness and Housing Solutions within the Department of Budget and Finance, to be headed by the Governor's Coordinator on Homelessness;
- (2) Establish the Homelessness and Housing Solutions Special Fund within the State Treasury;
- (3) Appropriate \$2,000,000 out of general fund revenues to be deposited into the Homelessness and Housing Solutions Special Fund; and
- (4) Appropriate \$2,000,000 out of the Homelessness and Housing Solutions Special Fund to be expended by the Department of Budget and Finance for the administration of the Office of Homelessness and Housing Solutions.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Public Safety, Office of the Public Defender, Department of the Prosecuting Attorney of the City and County of Honolulu, Free Access Coalition, St. Michael the Archangel Church, Aloha Hawaii Onipaa Org, and nine individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Budget and Finance, and Department of Human Services.

Your Committees find that Hawaii has one of the highest homelessness per capita rates in the nation. Your Committees also find that the task of addressing homelessness in the State requires a long-term commitment with a great amount of collaboration and coordination among diverse government entities and private organizations. Your Committees acknowledge that in 2012, the Legislature established the Hawaii Interagency Council on Homelessness to serve as the statewide homelessness planning and policy development entity. That year, the council, chaired by the Governor's Coordinator on Homelessness, adopted a ten-year statewide plan to address homelessness in Hawaii. Your Committees find that, despite solutions to homelessness requiring a long-term commitment, the position of the Coordinator is currently funded as part of a special project under the Department of Human Services and the full-time staff of four are not permanent employees. Your Committees also recognize that year-to-year funding for programs, as opposed to stable funding in the base budget of an agency, creates uncertainty for staff to continue performance of their duties and responsibilities. This measure will create a central agency--the Office of Homelessness and Housing Solutions headed by the Governor's Coordinator on Homelessness--and a special fund for the Office to spearhead greater collaboration and coordination among various state and county agencies and private organizations to continue to develop and implement effective initiatives to address homelessness in Hawaii.

Your Committees note the testimony from multiple parties that coordination among state and county departments and the permanent staffing and authority of the Office of Homelessness and Housing Solutions are critical. The Department of Human Services testified, however, that the Governor's Coordinator on Homelessness, Coordinator's staff, and Hawaii Interagency Council on Homelessness are currently located within the Department, and given the considerable time and resources required to transfer their functions and staffing to the Department of Budget and Finance, recommended that the Office of Homelessness and Housing Solutions be established as an administratively attached agency to the Department of Human Services, rather than the Department of Budget and Finance, to ensure its independence and authority as provided in this measure.

Your Committees also note testimony from the Governor's Coordinator on Homelessness suggesting that disbursements from the Homelessness and Housing Solutions Special Fund to public and private agencies involved in homelessness and housing solutions should be in accordance with chapter 103F, Hawaii Revised Statutes, which governs purchases of health and human services, rather than chapter 42F, Hawaii Revised Statutes, which governs grants.

Accordingly, your Committees have amended this measure by:

- (1) Establishing the Office of Homelessness and Housing Solutions within the Department of Human Services rather than the Department of Budget and Finance;

- (2) Clarifying that disbursements from the Homelessness and Housing Solutions Special Fund to public and private agencies involved in homelessness and housing solutions be in accordance with chapter 103F, Hawaii Revised Statutes, rather than chapter 42F, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees have reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the Department's testimony on this matter.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2370, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2370, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 5. Noes, none. Excused, none.
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2408 (Joint) Human Services and Labor, Culture and the Arts on S.B. No. 2875

The purpose and intent of this measure is to:

- (1) Establish "Employment First"--defined as the competitive employment and full inclusion of persons with a disability in an integrated setting as a first and preferred option for employment services--as a policy of the State and counties;
- (2) Require state and county agencies to ensure that Employment First is effectively implemented in hiring and all programs and services administered or funded by the State and counties; and
- (3) Require the Department of Human Services to apply Employment First principles to Medicaid home and community-based services programs.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities and Hawaii Disability Rights Center. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that over the past few years, the State has been removing various barriers for individuals with disabilities to enter the workforce, including the enactment of Act 155, Session Laws of Hawaii 2019, which enabled individuals receiving Medicaid to earn up to a livable wage without losing their Medicaid services; and Act 55, Session Laws of Hawaii 2021, which ended the discriminatory practice of paying subminimum wages to individuals with disabilities. This measure will further expand employment opportunities for individuals with disabilities, thereby enabling them to further integrate into their communities.

Your Committees note the testimony of the Department of Human Services stating that it will require time, additional resources, and clarification from the Department of Human Resources Development to implement this measure.

Your Committees also note the testimony of the State Council on Developmental Disabilities requesting that the definition of Employment First be clarified in a manner consistent with the intent of nationally adopted Employment First practices.

Your Committees have amended this measure by:

- (1) Clarifying the definition of "Employment First" to ensure that it is consistent with the intent of nationally adopted Employment First practices;
- (2) Clarifying the definition of a "person with a disability" to conform to the definition used in the employment context;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2875, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2875, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 4. Noes, none. Excused, 1 (Misalucha).
 Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2409 (Joint) Human Services and Labor, Culture and the Arts on S.B. No. 2457

The purpose and intent of this measure is to appropriate moneys for the Department of Labor and Industrial Relations' Office of Community Services to reestablish its Immigrant Resource Centers to address the specific needs of the low-income immigrant population in the State.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Labor and Industrial Relations - Office of Community Services, Department of Human Services, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, Common Cause Hawaii, Democratic Party of Hawai'i - Health Committee, Americans for

Democratic Action Hawaii, The Legal Clinic and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that immigrants and their children have made, and continue to make, significant contributions to the State. Your Committees further find that despite being vital members of the community and the workforce in Hawaii, many immigrants face barriers to success, including discrimination, cultural misunderstanding, and language access to government information and services. Your Committees believe that it is essential for the well-being of the State that new immigrants are assimilated into our society as quickly and with as few barriers as reasonably possible. From fiscal years 2014 through 2017, the Office of Community Services maintained Immigrant Resource Centers in all four counties to provide low-income immigrants with the needed support services; however, the centers are no longer operating, due to lack of funding. This measure will restore funds for the Immigrant Resource Centers to provide the immigrant and refugee populations the necessary support to transition into life in Hawaii and become contributing members of our society.

Your Committees have reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimony.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2457 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Misalucha).

Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2410 Human Services on S.B. No. 2072

The purpose and intent of this measure is to require the family court to appoint counsel to indigent parents upon the filing of a petition for custody or family supervision and make every effort to do so at the first hearing attended by the parents.

Your Committee received testimony in support of this measure from the Health Committee of the Democratic Party of Hawai'i and National Coalition for a Civil Right to Counsel.

Your Committee finds that this measure is necessary to protect the constitutional rights of parents to counsel under the due process clause of article I, section 5, of the Hawaii Constitution.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2072, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2072, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2411 Human Services on S.B. No. 3110

The purpose and intent of this measure is to:

- (1) Rename the Preschool Grant Program Special Fund to the Child Care Grant Program Special Fund;
- (2) Authorize the Child Care Grant Program Special Fund to be used to give grants to child care facilities;
- (3) Add federal funds as one of the fund sources for the Child Care Grant Program Special Fund;
- (4) Change the legislative report due date for the Preschool Open Doors Special Fund and Child Care Grant Program Special Fund from August 31 to twenty days prior to the start of the next legislative session; and
- (5) Remove the authority to expend without an appropriation for the Preschool Open Doors Special Fund and Child Care Grant Program Special Fund statutes to conform to section 5 of article VII of the Hawaii State Constitution.

Your Committee received testimony in support of this measure from the Department of Human Services and Executive Office on Early Learning.

Your Committee finds that through Act 9, Session Laws of Hawaii 2020, the Legislature established a child care grant program within the Department of Human Services to support child care providers during the coronavirus disease 2019 pandemic. With each new variant of the SARS-CoV-2 virus, this administrative measure will allow the Department of Human Services to execute similar grant programs for child care facilities without additional legislation when alternative funding, such as federal moneys, become available. Your Committee recognizes that child care grant programs improve the ability of child care facilities to provide safe and qualified child care. Such care will also support parents and care givers' ability to continue employment and other important societal functions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3110, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2412 Human Services on S.B. No. 2858

The purpose and intent of this measure is to allow grandparents of a minor child to be awarded reasonable visitation rights when the child's parent is unable to exercise parental visitation.

Your Committee received testimony in support of this measure from the Grandparents Rights Hawaii Campaign and three individuals.

Your Committee finds that a close relationship between grandparents and grandchildren can be mutually beneficial for the health and well-being of both parties. Grandparents, whose parenting and intense work commitments have usually passed, can offer the time and undivided attention that can be challenging for busy parents. Through interaction with grandparents, children gain a sense of history and a vital connection to the past, while learning that they can love and depend upon someone other than their parents. Correspondingly, interaction with grandchildren encourages many grandparents to remain active, educate themselves on important issues to children, and protect their own health.

In those instances where a child's parent dies, is in a coma, is incarcerated, or is otherwise unable to visit with the child, the child should not be deprived of the affection, history, or affinity of that parent's family.

Thus in those limited instances, your Committee finds that it is in the best interest of the child to have grandparents visit.

Your Committee further finds that many grandparents in Hawaii desire to maintain their relationship with or assist in caring for their minor grandchildren when their child who is a parent of the minor, cannot otherwise provide the necessary care for various reasons, including death and incarceration. This measure will allow grandparents to petition for and be awarded reasonable grandparent visitation rights in such circumstances, while preserving the fundamental right of parents to make decisions concerning the care, custody, and control of their children, by setting a rebuttable presumption that a parent's decision regarding visitation is in the best interest of the child.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2858, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2413 (Joint) Human Services and Water and Land on S.B. No. 2372

The purpose and intent of this measure is to require state agencies to report annually to the Governor's Coordinator on Homelessness on any vacant state land that could be utilized for construction of affordable housing.

Your Committees received testimony in support of this measure from the Office of the Public Defender, Hawai'i Health & Harm Reduction Center, and Hawai'i Association of Realtors. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Department of Land and Natural Resources.

Your Committees find that state lands suitable for the development of affordable rental housing were identified in 2018 by a Special Action Team led by the Director of the Office of Planning and Sustainable Development. Specifically, Act 127, Session Laws of Hawaii 2016, established a goal of developing 22,500 affordable rental units statewide to be ready for occupancy by December 31, 2026, and created a Special Action Team on Affordable Rental Housing to recommend actions to achieve this goal. In July 2018, the Special Action Team published a report titled "Affordable Rental Housing Report and Ten-Year Plan", which evaluated and identified state, county, and private lands suitable for rental housing that are affordable for low- and moderate-income families and categorized them into three tiers of suitability and readiness for development. Therefore, your Committees find that it is now necessary to have the Governor's Coordinator on Homelessness review the lands identified in the Special Action Team's Ten-Year Plan and make recommendations on the actions required to develop the lands into affordable rental housing.

Accordingly, your Committees have amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;
- (2) Replacing the content of sections 2 and 3, with language that requires the Governor's Coordinator on Homelessness to:
 - (A) Review the Affordable Rental Housing Report and Ten-Year Plan issued by the Special Action Team on Affordable Rental Housing in July 2018;
 - (B) Determine whether any of the lands identified in the report are suitable for development of temporary housing for the Ohana Zone program or other forms of affordable housing;
 - (C) Determine the actions required to develop the lands into temporary housing for the Ohana Zone program or other forms of affordable housing; and

(D) Submit a report of the Coordinator's findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2372, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2372, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 5. Noes, none. Excused, none.
 Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2414 (Joint) Human Services and Water and Land on S.B. No. 3169

The purpose and intent of this measure is to:

- (1) Ensure the continued existence of the Low-Income Tiny Home projects developed pursuant to the Governor's 2015 or 2018 Emergency Proclamations related to homelessness or their supplemental proclamations, by exempting the projects from certain statutes for the duration of the underlying state land leases; and
- (2) Establish the Low-Income Tiny Home Village Pilot Program to provide shelter and certain services to low-income and homeless individuals.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network. Your Committees received testimony in opposition to this measure from the Department of Human Services, State Procurement Office, and Department of Land and Natural Resources. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Hawaii Housing Finance and Development Corporation, Department of the Attorney General, Office of Information Practices, and Department of Budget and Finance.

Your Committees find that under the Governor's 2015 and 2018 Emergency Proclamations related to homelessness and the supplemental proclamations, the State and counties, in partnership with developers and nonprofit organizations, created portable homes, commonly referred to as tiny homes or kauhale. Your Committees further find that the proclamations exempted the development of these tiny homes from numerous statutory provisions; however, the final supplemental proclamation issued on December 16, 2019, expired on February 14, 2020. Your Committees find that these tiny homes that serve as a pathway out of homelessness for working families who cannot afford market rentals, are critical in addressing the State's homelessness issue. This measure ensures that the existing tiny homes are protected and enables the development of new low-income rental tiny homes.

Your Committees note the testimonies of the following departments and agencies raising concerns over of the exemptions from the Hawaii Revised Statutes granted to existing tiny homes in this measure: Department of Land and Natural Resources--chapter 6E, Hawaii Revised Statutes; Department of the Attorney General and Department of Budget and Finance--sections 37-41, 37-74(d), 40-66, and 103-2, Hawaii Revised Statutes; Office of Information Practices--chapter 92, Hawaii Revised Statutes; and Department of Human Services--chapter 346, Hawaii Revised Statutes.

Your Committees also note the testimony of the Hawaii Housing Finance and Development Corporation, stating that it does not have the capacity or the expertise to develop tiny homes.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the final supplemental proclamation to the Governor's 2018 Emergency Proclamation related to homeless expired on February 14, 2020;
- (2) Deleting the following statutes from the list of exemptions in section 3 of the measure granted to existing low-income rentals, tiny home villages, or kauhale developed on state land pursuant to the Governor's 2015 or 2018 Emergency Proclamations on homelessness or the supplemental proclamations:
 - (A) Chapter 6E, Hawaii Revised Statutes, governing historic preservation;
 - (B) Section 37-41, Hawaii Revised Statutes, governing appropriations to revert to state treasury;
 - (C) Section 37-74(d), Hawaii Revised Statutes, governing the executive budget program execution;
 - (D) Section 40-66, Hawaii Revised Statutes, governing the lapsing of appropriations;
 - (E) Chapter 92, Hawaii Revised Statutes, governing public agency meetings and records;
 - (F) Chapter 171, Hawaii Revised Statutes, public lands; and
 - (G) Chapter 346, Hawaii Revised Statutes, governing social services;
- (3) Deleting the requirement that the Hawaii Housing Finance and Development Corporation develop and implement the Low-Income Tiny Home Village Pilot program;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees have requested the Department of the Attorney General to provide the Legislature with proposed amendments to the measure addressing the concerns raised in its written testimony with the consideration that the purpose of this measure is to ensure

the continuation of the existing tiny homes despite the expiration of the Emergency Proclamations that exempted them from numerous laws.

As affirmed by the records of votes of the members of your Committees on Human Services and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3169, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3169, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5; Ayes with Reservations (Acasio, Ihara, Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Riviere, Fevella). Noes, none. Excused, none.

SCRep. 2415 Higher Education on S.B. No. 3340

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Maui College to lease 14.5 acres of land from Kamehameha Schools in Kalamaula, Molokai to expand and relocate the Molokai Education Center.

Your Committee received testimony in support of this measure from the University of Hawai'i System, one individual from the Maui County Council, and Kamehameha Schools Bishop Estate. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that it is of paramount importance to ensure the necessary space and resources for Hawaii students of all ages to learn and thrive in academic environments. As sea-level rise impacts caused by climate change impact many low-lying communities across Hawaii, the State has a responsibility to ensure proper planning and resource management for the future of academic institutions and educational opportunities for the students of Hawaii.

The importance and prioritization of education has led to enrollment at near-capacity for the University of Hawaii Maui College, Molokai Education Center. As the campus faces some challenges accommodating a high volume of students, the Molokai Education Center is also located in a low-lying area susceptible to sea level rise. Relocating the Molokai Education Center would allow for the education of Hawaii's students to continue while also mitigating impacts from climate change-induced sea level rise. To address these concerns, this measure appropriates funds to the University of Hawaii Maui College to relocate the Molokai Education Center to land owned by Kamehameha Schools.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3340, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2416 (Joint) Water and Land and Government Operations on S.B. No. 2725

The purpose and intent of this measure is to:

- (1) Expand the purpose and rationale for which counties may create special improvement districts to include environmental research, restoration, and maintenance; natural resource management; and natural hazard mitigation to improve environmental conditions; and
- (2) Provide community benefits.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i Sea Grant College Program, Climate Resiliency Initiative; and Waikiki Beach Special Improvement District Association. Your Committees received comments from the Hawai'i Emergency Management Agency.

Your Committees find that Act 107, Session Laws of Hawaii 1999 (Act 107), authorized the counties to create special improvement districts for the purpose of restoring or promoting business activity. Since the enactment of Act 107, the needs and demands in these districts have broadened to include the management or mitigation of environmental and other conditions that impact natural resources. As Hawaii is exposed to a variety of threats that impact its environment and ecosystems, including coastal hazards and effects of climate change, such as the increase in the frequency and severity of storms and drought, sea-level rise, groundwater inundation, and coastal erosion, there is concern to the State due to its island topography and substantial coastal exposure.

Your Committees have also heard the concerns from the Department of Land and Natural Resources regarding climate change and hazard mitigation. As climate change and sea-level rise impacts may impact communities, enabling communities to utilize special improvement districts for improving resilience and environmental conditions may mitigate some potential effects. The Department of Land and Natural Resources continues to address impacts related to coastal erosion and beach loss in Hawaii through beach restoration and management projects, making the Department a key resource to the State's development of creative and community-engaged projects and policies to support restoration and adaption projects.

Therefore, your Committees have amended this measure by:

- (1) Including climate change and hazard mitigation among eligible purposes for the creation of special improvement districts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2725, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2725, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 2417 (Joint) Water and Land and Government Operations on S.B. No. 3135

The purpose and intent of this measure is to:

- (1) Transfer authority for certain reviews of projects in conjunction with section 6E-42, Hawaii Revised Statutes, from the Department of Land and Natural Resources to the counties; and
- (2) Provide financial assistance to the counties to hire qualified staff to conduct the reviews.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Maui County Council, NAIOP Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Society for Hawaiian Archaeology and two individuals. Your Committees received comments on this measure from the Maui County Department of Planning; City and County of Honolulu Department of Planning and Permitting; a letter signed by each county planning department director; Hawaii Government Employees Association AFSCME Local 152, AFL CIO; and Historic Hawai'i Foundation.

Your Committees find that laws governing the review of proposed projects play an essential role in the protection and management of the State's historic places, burial sites, and aviation artifacts by requiring agencies and offices of the State and its subdivisions to submit for review all projects that may affect historic properties to the State Historic Preservation Division of the Department of Land and Natural Resources before approval. The Department of Land and Natural Resources notes that in every other state in the union, many of these reviews would be subject to review at the county or municipal level--only Hawaii requires reviews and evaluations at the state level. To conform with practices in other states, the Department of Land and Natural Resources believes it is reasonable and appropriate to authorize the counties to assume responsibilities for such reviews.

However, your Committees have heard the concerns of the Department of Land and Natural Resources and the planning departments of all four counties regarding third-party reviewers. Currently, the Department of Land and Natural Resources State Historic Preservation Division is experiencing delays with reviews due to staffing shortages and budget issues. The use of third-party reviews addresses these issues to expedite the review process for pending permits. While the Department of Land and Natural Resources recognizes that third-party reviewers are not a long-term solution, reviewers serve an important purpose to continue the Division's mission to ensure the preservation of Hawaii's past for future generations.

To address the concerns regarding third-party reviewers by the Department of Land and Natural Resources and the counties, your Committees have amended this measure by:

- (1) Authorizing the Department of Land and Natural Resources to review projects affecting properties within or affecting a designated historic district;
- (2) Defining the role of third-party reviewers for the Department of Land and Natural Resources to include review of backlogged cases for departmental consistency;
- (3) Clarifying that third-party reviewers may be released once the volume of permits reaches a manageable level for the existing department staff to review;
- (4) Inserting a blank appropriation amount; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3135, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3135, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 2418 (Joint) Judiciary and Government Operations on S.B. No. 2694

The purpose and intent of this measure is to require all principal departments in the State to use gender-neutral terminology in all state contracts.

Your Committees received testimony in support of this measure from the Department of Health, Stonewall Caucus of the Democratic Party of Hawai'i, American Civil Liberties Union of Hawai'i, Hawai'i Health & Harm Reduction Center, Hawai'i Rainbow Chamber of Commerce, and thirteen individuals.

Your Committees find that language matters. Language has the power to offer the validation and acknowledgement of identities and the power to deny it. Your Committees further find that requiring gender neutral language in government contracts will reinforce the need to make a conscious effort to use language that is inclusive and validating for everyone.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2694 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2419 (Joint) Judiciary and Government Operations on S.B. No. 2670

The purpose and intent of this measure is to:

- (1) Establish the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission and the Hawaii State Lesbian, Gay, Bisexual, Transgender, Queer, Plus Commission Trust Fund; and
- (2) Require each county mayor to appoint a county committee on the status of lesbian, gay, bisexual, transgender, queer, plus affairs.

Your Committees received testimony in support of this measure from the Department of Health, Hawai'i Civil Rights Commission, Stonewall Caucus of the Democratic Party of Hawai'i, Common Cause Hawaii, North Shore Ko'olau Diversity Collective, Hawai'i Health & Harm Reduction Center, Americans for Democratic Action Hawai'i, Hawaii Rainbow Chamber of Commerce, and fifteen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Harm Reduction Hawaii.

Your Committees find that individuals of the lesbian, gay, bisexual, transgender, queer, plus community are at elevated risks of bullying, suicide, and ostracism. Addressing the needs of these individuals who experience multiple forms of marginalization will lead to a better understanding of the risks and challenges they face and support greater intervention and prevention efforts in the State. Establishing the Commission is an effective means of researching, planning, and advocating for the equity of the lesbian, gay, bisexual, transgender, queer plus community in Hawai'i.

Your Committees have amended this measure by:

- (1) Deleting language that would have established a Trust Fund;
- (2) Adding a general fund appropriation for the purposes of the Commission; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2670, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2670, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Judiciary: Ayes, 7. Noes, none. Excused, none.
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2420 Judiciary on S.B. No. 3189

The purpose and intent of this measure is to:

- (1) Impose a heightened penalty of a class C felony for persons who repeatedly commit the offenses of gambling or possession of gambling records in the second degree;
- (2) Raise the criminal penalty to a class C felony for the offense of possession of gambling devices; and
- (3) Direct all forfeited property or proceeds from sales thereof to units of state or local government that administer, manage, operate, or oversee programs addressing homelessness, substance abuse, or compulsive gambling.

Your Committee received testimony in support of this measure from the Honolulu Police Department and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that recently there has been a steady rise in complaints involving illegal gambling establishments. These game rooms operate twenty-four hours a day, seven days a week, causing peripheral crimes such as narcotics trafficking, assaults, robberies, thefts, vehicle break-ins, and even homicides. In addition to these peripheral crimes, illegal gambling establishments create a nuisance to the community that includes excessive noise, unnecessary foot traffic, and loitering at all hours. Furthermore, numerous studies have confirmed that gambling causes problems such as bankruptcy, theft, embezzlement, suicide, child abuse and neglect, divorce, incarceration, and homelessness. This measure will allow the State to address the problems caused by gambling establishments.

Your Committee has amended this measure by:

- (1) Making the penalty for the offense of possession of a gambling device a misdemeanor for the first offense and a class C felony for a second or subsequent offense that occurs within ten years of a prior conviction;
- (2) Deleting language that would have directed all forfeited property or proceeds from sales thereof to units of state or local government that administer, manage, operate, or oversee programs addressing homelessness, substance abuse, or compulsive gambling;
- (3) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3189, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Acasio, Gabbard).

SCRep. 2421 Judiciary on S.B. No. 2734

The purpose and intent of this measure is to appropriate funds for staff positions and various services to support the 'Ōlelo Hawai'i Initiatives.

Your Committee received testimony in support of this measure from the Judiciary and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that article XV, section 4, of the Hawaii State Constitution affirms that English and 'Ōlelo Hawai'i (Hawaiian language) shall be the official languages of the State. Your Committee further finds that the Judiciary has already taken initial steps to explore ways of providing 'Ōlelo Hawai'i resources, interpreter, and translation services to the public. To advance this work, in 2015, the Legislature adopted a concurrent resolution, H.C.R. No. 217, Session Laws of Hawaii 2015, that requested the Judiciary to convene a task force to examine and report on establishing 'Ōlelo Hawai'i resources for the Judiciary. The task force report made several findings including that 'Ōlelo Hawai'i "possesses appropriate specificity, sophistication, and technical breadth of terminology to accurately translate legal terminology from English into 'Ōlelo Hawai'i." Further, the task force found that as an independent branch of government, the Judiciary could effectively serve as a focused model to demonstrate the use of 'Ōlelo Hawai'i. The task force report made several recommendations and identified projects that can serve as a guide to the Judiciary. This measure will appropriate funds to support the implementation of the recommendations and ultimately the revitalization of the Hawaiian language.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2734 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 2422 Judiciary on S.B. No. 2744

The purpose and intent of this measure is to propose to amend article 1 of the Hawaii State Constitution by establishing the right of each person to own and have an exclusive property right in the data they generate on the internet.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from TechNet. Your Committee received comments on this measure from the Hawaii Credit Union League.

Your Committee finds that the collection and processing of consumer information has grown exponentially in recent years. Your Committee further finds that some jurisdictions have attempted to regulate the collection, transmission, processing, protection, and storing of personal data and information in an effort to protect privacy of internet users. Your Committee additionally finds that Hawaii law and culture has a high bar for privacy when compared to other states. This measure will ensure that a person's data is their exclusive property to ensure that their privacy is protected.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2744 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 2423 Judiciary on S.B. No. 3143

The purpose and intent of this measure is to conform Hawaii income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended as of December 31, 2021.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation to ensure state income tax and state estate and generation-skipping transfer tax laws conform to the federal Internal Revenue Code as it exists on the December 31 preceding each Regular Session. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3143 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 2424 Judiciary on S.B. No. 2801

The purpose and intent of this measure is to require greater accountability and transparency in the government's provision of law enforcement services by:

- (1) Providing that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using or is about to use unnecessary or excessive force on an arrestee;
- (2) Requiring the intervening law enforcement officer to report the incident to the other law enforcement officer's supervisor; and
- (3) Requiring relevant departments to submit an annual report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that law enforcement services are an essential government function. Law enforcement services are government services that relate to the law because these services aim to promote respect for, and compliance with, state and county laws. Your Committee believes that it is in the State's interest to mitigate any future actions of excessive force by law enforcement officers which may lead to unnecessary loss of life or harm. This measure will require greater accountability and transparency in government's provision of law enforcement services by providing that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using unnecessary or excessive force on an arrestee, requiring the intervening law enforcement officer to report the incident to the other law enforcement officer's supervisor, and requiring relevant departments to submit an annual report to the Legislature.

Your Committee has amended this measure by:

- (1) Removing language that would have required a law enforcement officer to intervene if the law enforcement officer reasonably believes that another law enforcement officer is about to use unnecessary or excessive force on an arrestee;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2801, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2801, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2425 (Joint) Energy, Economic Development, and Tourism and Transportation on S.B. No. 2196

The purpose and intent of this measure is to require cooperative housing corporations, homeowners associations, planned community associations, and condominium associations to:

- (1) Develop plans to integrate electric vehicle charging stations onto their properties by January 1, 2030; and
- (2) Make funds from their overall reserves available to integrate electric vehicle charging stations onto the properties that they manage.

Your Committees received testimony in support of this measure from the Hawai'i State Energy Office, Hawaiian Electric Company, Community Associations Institute, Hawaii Electric Vehicle Association, KauaiEV, Pearl City Neighborhood Board No. 21, and three individuals. Your Committees received testimony in opposition to this measure from the Practical Policy Institute of Hawaii, Kipuka at Hoakalei Association of Unit Owners, and one individual. Your Committees received comments on this measure from the Hawaii Council of Community Associations and Associa.

Your Committees find that with the growing popularity of electric and other alternative fuel vehicles, including hydrogen fuel cell vehicles, the installation of available zero-emissions fueling stations is essential to increasing the use of these vehicles and decreasing the State's reliance on fossil fuels. Your Committees recognize that most of the State's existing multi-dwelling units might have very difficult challenges to retrofit their common areas, parking garages, and parking stalls to comply with this measure, and notes that there are existing incentives to install publicly available electric vehicle charging stations.

Accordingly, your Committees have amended this measure by:

- (1) Limiting the requirement to plan the installation of electric charging stations to residential properties that are constructed after January 1, 2023; and
- (2) Amending the description of charging stations to accommodate new and developing technologies in alternative fuels and other zero-emissions vehicles.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2196, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2196, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.
Transportation: Ayes, 5. Noes, none. Excused, none.

SCRep. 2426 (Joint) Education and Health on S.B. No. 2187

The purpose and intent of this measure is to:

- (1) Include advanced practice registered nurses with prescriptive authority in the list of health care professionals authorized to administer medication to public school students; and

- (2) Require administration of the medication to be approved by the Department of Health or other on-campus, school-based, health care provider pursuant to a written agreement with the Department of Education.

Your Committees received testimony in support of this measure from the Department of Health; State Council on Developmental Disabilities; University of Hawai'i System; Hawai'i State Center for Nursing; Hilopa'a Family to Family, Inc.; Hawai'i Primary Care Association; and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Education.

Your Committees find that there are limitations on what medications can be administered by certain professionals at public schools. Your Committees additionally find that there are a growing number of agreements between school campuses and health providers to implement school-based health services during school hours. These providers, including advanced practice registered nurses with prescriptive authority, are already on school campuses and are well-positioned to direct the administration of medication during the school day.

Your Committees further find, however, that the existing list of health care professionals authorized to administer medication to students on public school campuses does not include advanced practice registered nurses with prescriptive authority.

Accordingly, this measure will streamline and facilitate the process for the administration of prescribed medications on school campuses by expanding the list of health care professionals authorized to administer such medication to include advanced practice registered nurses with prescriptive authority.

Your Committees have amended this measure by replacing the term "aides" with "assistants" to conform with current usage, as noted in testimony.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2187, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2187, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 4. Noes, none. Excused, 1 (Kim).
 Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2427 (Joint) Education and Health on S.B. No. 2071

The purpose and intent of this measure is to:

- (1) Require all principals, guidance counselors, and teachers to perform self-review of seizure safety materials annually;
- (2) Require the preparation of seizure action plan for each public and public charter school student diagnosed with a seizure disorder and distribution of the plan to employees charged with supervising the student;
- (3) Require public schools, private schools, and public charter schools to have an employee trained to administer seizure disorder rescue medication;
- (4) Exempt schools that do not have a student with a seizure disorder; and
- (5) Make an appropriation.

Your Committees received testimony in support of this measure from the State Public Charter School Commission, Hawaii Association for Justice, Epilepsy Foundation Hawaii, Hawai'i Primary Care Association, Special Education Advisory Council, and fifteen individuals. Your Committees received comments on this measure from the Department of Education and Department of Budget and Finance.

Your Committees find that safety and continuity of care in the event of a seizure is a critical priority for the seizure disorder community. Seizures can happen at any place and time and while they do not necessarily occur every day on school campuses, students living with seizure disorders face the risk of a life-threatening seizure every single day.

Accordingly, your Committees find that this measure promotes student safety and well-being by requiring schools to implement certain proactive measures to prepare for and appropriately respond to a student seizure event. Proper seizure first aid at school and consistency of care for students with seizure disorders are crucial to ensuring these students reach their full potential with as little disruption to their education as possible.

Your Committees note the testimony of the State Public Charter School Commission regarding the need for additional funding for health assistant and nurse services to accomplish the intent of this measure.

Your Committees have therefore amended this measure by:

- (1) Inserting an additional appropriation in an unspecified amount for the purpose of increasing health assistant and nurse services in state public charter schools;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2071, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2071, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 4. Noes, none. Excused, 1 (Kim).
 Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2428 (Joint) Education and Health on S.B. No. 2822

The purpose and intent of this measure is to require the Department of Education to offer optional asthma education courses to students and provide mandatory asthma training to teachers and other department employees who interact with students.

Your Committees received testimony in support of this measure from the American Lung Association, Hawai'i Children's Action Network Speaks!, Hawai'i Public Health Association, Hawai'i Primary Care Association, Hawaii Chapter of the American Academy of Pediatrics, AlohaCare, Hawaii Medical Association, Hawai'i Association of School Psychologists, and three individuals. Your Committees received comments on this measure from the Department of Education and Department of Health.

Your Committees find that, according to the Department of Health, more than one hundred ten thousand Hawaii residents are living with asthma and approximately one-third of those are children. Your Committees further find that asthma is one of the leading causes of chronic disease-related school absenteeism. Absenteeism due to poorly controlled asthma may negatively affect educational outcomes and limit students' ability to fully participate in school activities.

Your Committees further find that research has shown that students who engage in school-based asthma education experienced significantly fewer days with activity limitations and significantly fewer nights of sleep disturbance after participation in the intervention. School-based asthma instruction has been shown to reduce symptoms, activity limitations, and health care utilization.

Accordingly, your Committees find that this measure will provide health and educational benefits to students with asthma through school-based instruction and training.

Your Committees also note the testimony of the Department of Education, providing that certain asthma support services are currently provided in public schools. Your Committees have therefore amended this measure by:

- (1) Amending section 2 to better align with existing asthma support services in public schools;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2822, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2822, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Education: Ayes, 4. Noes, none. Excused, 1 (Kim).
 Health: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

SCRep. 2429 Health on S.B. No. 2882

The purpose and intent of this measure is to establish the Community Health Worker Certification Program within the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Hawai'i Primary Care Association and three individuals. Your Committee received testimony in opposition to this measure from Kula No Nā Po'e Hawai'i o Papakōlea. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Commerce and Consumer Affairs, Department of Health, University of Hawai'i System, Hawaii Home Birth Collective LLC, Hawai'i Public Health Institute, Hawaii Medical Service Association, Hawaii Substance Abuse Coalition, Ohana Pacific Health, and Pacific Birth Collective.

Your Committee finds that community health workers provide critical services by connecting rural and underprivileged communities throughout the State with health care resources. However, because the community health workers are not licensed by the Department of Commerce and Consumer Affairs, in accordance with existing law, their services are not reimbursable by private or public insurance. This has greatly diminished the services that they can provide, particularly in areas that are experiencing a critical lack of health care professionals to provide basic services. Establishing a certification program for community health workers will improve the quality of care and access to health care for residents throughout the State.

Your Committee acknowledges the testimony of the Department of Commerce and Consumer Affairs, which requested additions to the measure that would facilitate the implementation of the Community Health Worker Certification Program.

Therefore, your Committee has amended this measure by:

- (1) Authorizing the Department of Commerce and Consumer Affairs to assess fees for certificate applications and renewals, which shall be maintained in a separate account within the compliance resolution fund;
- (2) Adding separate provisions regarding the renewal of certificates and grounds for refusal to renew, reinstate, or restore a certificate and for denial, revocation, suspension, or condition of a certificate;
- (3) Adding an appropriation for funds to administer the Community Health Worker Certification Program;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2882, as amended herein, and recommends that it pass Second Reading in the form

attached hereto as S.B. No. 2882, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2430 (Majority) Health on S.B. No. 2680

The purpose and intent of this measure is to revise the medical-aid-in-dying law by:

- (1) Authorizing advanced practice registered nurses, in addition to physicians, to practice medical-aid-in-dying in accordance with their scope of practice and prescribing authority;
- (2) Authorizing psychiatric mental health nurse practitioners and clinical nurse specialists, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient;
- (3) Reducing the mandatory waiting period between oral requests from twenty days to fifteen days; and
- (4) Waiving the mandatory waiting period for those terminally ill individuals not expected to survive the mandatory waiting period.

Your Committee received testimony in support of this measure from AlohaCare, Compassion & Choices, Hawaiian Islands Association for Marriage and Family Therapy, Hawai'i – American Nurses Association, Hawai'i Psychological Association, Hawaii Society of Clinical Oncology, National Association of Social Workers - Hawai'i, Democratic Party of Hawai'i Health Committee, Hawai'i Association of Professional Nurses, Democratic Party of Hawai'i Kūpuna Caucus, and eleven individuals. Your Committee received opposition to this measure from Hawaii Family Forum and four individuals. Your Committee received comments on this measure from the Board of Nursing and Hawai'i State Center of Nursing.

Your Committee finds that in 2018, the State passed Act 2, Session Laws of Hawaii 2018, known as the Our Care, Our Choice Act, which allows mentally capable, terminally ill individuals with six months or less to live to voluntarily request and receive prescription medication that allows the person to die in a peaceful, humane, and dignified manner. However, due to the State's unique geography and shortage of physicians, finding a physician who can administer medical-aid-in-dying can be burdensome and many terminally ill patients die while waiting to complete the statutory requirements. Therefore, this measure aims to ease the regulatory requirements of the Our Care, Our Choice Act to assist those terminally ill patients with difficulty accessing end-of-life care options.

Your Committee acknowledges the testimony of the Department of Health, which offers amendments strengthening the measure's nondisclosure protections. Your Committee also heard from several mental health professional associations, which requested that marriage and family therapists be authorized to provide counseling to a qualified patient.

Therefore, your Committee has amended this measure by:

- (1) Strengthening the nondisclosure protections of the Our Care, Our Choice Act to prevent the Department of Health from releasing sensitive information;
- (2) Authorizing licensed marriage and family therapists to provide counseling to a qualified patient;
- (3) Requiring that all professionals who provide counseling to qualified patients be licensed;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2680, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2431 (Joint) Health and Higher Education on S.B. No. 2597

The purpose and intent of this measure is to appropriate funds for the Hawaii state loan repayment program administered through the John A. Burns School of Medicine, subject to a matching funds requirement.

Your Committees received testimony in support of this measure from the Department of Health, Department of Labor and Industrial Relations, University of Hawai'i System, East Hawaii Region of the Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Kaiser Permanente Hawaii, The Queen's Health Systems, Hawaii Medical Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, Hawaii Psychiatric Medical Association, Hawai'i State Rural Health Association, and three individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the State faces a shortage of health care professionals. The shortage is particularly acute in rural communities in the State. The high cost of education for health care professionals often lead them to train in highly specialized fields of care and practice in urban areas, rather than maintain a general practice on neighbor islands or in underserved areas. Your Committees also find that the Hawaii State Loan Repayment Program administered by the John A. Burns School of Medicine successfully provided loan repayments to sixty-two individuals, with eighty-three percent remaining in Hawaii and seventy percent remaining at the site they performed their service. This measure appropriates funds to the Department of Health to fund the Hawaii

State Loan Repayment Program to continue to provide a financial incentive to health care professionals working in health care shortage areas.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2597, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2597, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2432 (Joint) Public Safety, Intergovernmental, and Military Affairs and Human Services on S.B. No. 2375

The purpose and intent of this measure is to require and appropriate funds for the Department of Public Safety, in collaboration with the Department of Human Services, to develop and establish a program to train incarcerated nonviolent individuals in the area of social work.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons; Hawai'i Health & Harm Reduction Center; Hawaii Substance Abuse Coalition; National Association of Social Workers, Hawai'i Chapter; and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Human Services, and Department of Public Safety.

Your Committees find that the State is facing a shortage of social workers to help people in the State manage their mental health and cope with stressors in their everyday lives. This shortage is of concern as social workers already have full caseloads and may be unable to provide additional services, which may in turn intensify the need for help and increase burnout among social workers. The demand for social workers will likely continue to rise, especially during the coronavirus disease 2019 pandemic and its aftermath, as individuals experiencing depression, anxiety, life transitions, and other mental health challenges will need social workers' support to address difficult or stressful life situations. Your Committees believe that some nonviolent incarcerated individuals may have experienced the need for social services or may have firsthand experience receiving services from social workers that make them uniquely qualified to enter the field of social work as assistants after undergoing training. This measure will allow the State to help nonviolent incarcerated individuals reintegrate into society and address the high demand for social workers by requiring and appropriating funds for the Department of Public Safety, in collaboration with the Department of Human Services, to develop and establish a program to train incarcerated nonviolent individuals in the area of social work.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2375 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2433 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2646

The purpose and intent of this measure is to:

- (1) Prohibit, in counties with a population of five hundred thousand or more, the sale of a bicycle that is reported stolen and listed on a publicly available online stolen item database;
- (2) Require the police department in counties with a population of five hundred thousand or more to establish the publicly available online stolen item database; and
- (3) Update the recordkeeping and retention requirements for businesses that buy previously owned articles.

Your Committee received testimony in support of this measure from the Honolulu Police Department and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Hawaii Pawnbrokers Association, National Pawnbrokers Association, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that the theft of personal items may significantly impact a person financially as well as in other ways, such as the loss of work data, school notes on a laptop, or the loss of memories on a cellular phone. Additionally, bicycle thefts further impact the State's sustainability goals of reducing carbon emissions and utilizing low carbon transportation as residents are inhibited in investing in and using bicycles for transportation. Your Committee believes that reducing resale opportunities for these items is one way to decrease the motivation to steal them. Stolen items are often resold through pawnshops, business that purchase secondhand items, and online sales platforms. Although businesses with a physical presence and monetary transactions in the State must be licensed to operate and are required to submit records of transactions to county police departments, these transactions are currently being submitted in hard copy. This manual inputting of data by the county police departments creates an unnecessary lag and is an impediment to quickly comparing and identifying potentially stolen items against itemized lists from recent burglaries and thefts. Your Committee believes that allowing pawnbrokers and secondhand dealers to submit electronic records will enable county police departments to process these records in a more efficient manner and decrease the time frame for record retention. This measure will improve victim's chances of being reunited with their property by prohibiting, in counties with a population of five hundred thousand

or more, the sale of a bicycle that is reported stolen and listed on a publicly available online stolen item database, requiring the police department in counties with a population of five hundred thousand or more to establish the publicly available online stolen item database, and updating the recordkeeping and retention requirements for businesses that buy previously owned articles.

Your Committee has amended this measure by:

- (1) Requiring the working group established pursuant to House Resolution No. 154 (2014) to submit to the Legislature a report of its findings and recommendations, including any proposed legislation, no later than twenty days prior to the convening of the Regular Session of 2023;
- (2) Inserting an effective date of July 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes testimony that this measure, as applied to pawn brokers, may be inconsistent with federal law and requests that your Committee on Judiciary consider that issue upon further hearing of this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2646, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Baker).

SCRep. 2434 (Joint) Public Safety, Intergovernmental, and Military Affairs and Human Services on S.B. No. 3295

The purpose and intent of this measure is to:

- (1) Establish the Women's Correctional Implementation Commission within the Department of Public Safety to provide oversight of state correctional facilities that incarcerate women, receive and investigate complaints from incarcerated women, monitor the criminal justice system's progress in implementing reforms, and monitor programs and data that are important to ensuring successful outcomes for women in the correctional system; and
- (2) Appropriate moneys to fund the Commission's operations, including the hiring of necessary staff.

Your Committees received testimony in support of this measure from the Women's Prison Project and four individuals. Your Committees received comments on this measure from the Hawai'i Correctional System Oversight Commission, Department of Public Safety, and Department of Budget and Finance.

Your Committees find that many aspects of the State's criminal justice system are designed to meet the needs of men because they make up a larger proportion of the criminal justice system's population. Consequently, the needs of women, who made up about twelve percent of the State's combined jail and prison population in 2018, are often not being met. Your Committees further find that women often have very different pathways into the criminal justice system than men. Similarly, women in the correctional system have different needs and experience different barriers to success. Your Committees believe that the State has an important interest in ensuring that the unique needs of women in this system are being met. This measure will allow the State to ensure that women are not being left behind in a system that was designed primarily with men in mind by establishing and funding the Women's Correctional Implementation Commission within the Department of Public Safety to provide oversight of state correctional facilities that incarcerate women, receive and investigate complaints from incarcerated women, monitor the criminal justice system's progress in implementing reforms, and monitor programs and data that are important to ensuring successful outcomes for women in the correctional system.

Your Committees have heard the testimony of the Department of Public Safety noting the close similarity of the measure's requirements to the duties and responsibilities of the Hawaii Correctional Systems Oversight Commission. Your Committees also note the recommendation that the Women's Correctional Implementation Commission be placed within the Hawaii Correctional Systems Oversight Commission to receive funding. Your Committees find that these issues raise concerns that merit further consideration and request that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3295 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2435 (Joint) Health and Transportation on S.B. No. 2127

The purpose and intent of this measure is to:

- (1) Direct the Department of Health to adopt rules for the control, prevention, and abatement of noise pollution emitted by vehicles in the State; and
- (2) Prohibit the use, ownership, and sale of excessively loud vehicles.

Your Committees received testimony in support of this measure from the Waikiki Neighborhood Board No. 9, Free Access Coalition, Quieter O'ahu, Quieter & Healthier Maui, and twenty-two individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that noise pollution is a growing problem in the State. Motor vehicles that have after-market modifications are significant contributors to noise pollution. Despite attempts to regulate noise pollution, residents still grapple with excessive noises, particularly in residential neighborhoods. Therefore, this measure directs the Department of Health to adopt rules to control noise pollution from vehicles and prohibits the use, ownership, and sale of excessively loud vehicles.

Your Committees acknowledge the testimony of the Department of Health, which noted that many regulations prohibiting noise pollution already exist and that previous programs aimed at controlling vehicular noise achieved limited success and were discontinued. Your Committees have also heard from constituents that noise complaints often go unenforced.

Therefore, your Committees have amended this measure by:

- (1) Deleting the contents of the measure and establishing a noise pollution task force within the Department of Health to investigate noise pollution and provide recommendations on how to better regulate excessive noise pollution throughout the State, from both stationary and non-stationary sources;
- (2) Appropriating funds to support the noise pollution task force;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2127, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2127, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Inouye).

SCRep. 2436 (Joint) Health and Human Services on S.B. No. 2200

The purpose and intent of this measure is to require the Department of Health to amend its administrative rules regarding tuberculosis screening requirements for direct support workers in the Department's Developmental Disabilities Division.

Your Committees received testimony in support of this measure from Full Life Hawaii and one individual. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the State Council on Developmental Disabilities.

Your Committees find that direct support workers who work in assisted living facilities, nursing facilities, or other health care facilities are required to undergo a two-step tuberculosis screening, which involves an under-skin injection test, blood draw, or chest x-ray. Other direct support workers, such as childcare workers, foster care workers, and school personnel undergo a less invasive tuberculosis screening, which involves screening for symptoms only. Despite not working in a health care facility, direct support workers who provide Medicaid-sponsored in-home services to people with intellectual and developmental disabilities must undergo the more stringent two-step tuberculosis screening. This measure directs the Department of Health to classify those direct support workers in the Medicaid home and community-based waiver program as workers who only require a tuberculosis symptom screening.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2200, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2200, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2437 (Joint) Health and Human Services on S.B. No. 2647

The purpose and intent of this measure is to establish:

- (1) A Fetal Alcohol Spectrum Disorders Task Force within the Department of Health for administrative purposes and require a report to the Legislature; and
- (2) The Fetal Alcohol Spectrum Disorders Special Fund, to be administered by the Department of Human Services and which shall consist of federal funds and interest earned on those funds.

Your Committees received testimony in support of this measure from the Office of the Public Defender, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders (FASD) Action Group, Hawaii Substance Abuse Coalition, and eight individuals. Your Committees received comments on this measure from the Department of Health, Department of Human Services, and Department of Budget and Finance.

Your Committees find that individuals with fetal alcohol spectrum disorders (FASD) often exhibit behaviors that parallel those who suffer from mental health or developmental disabilities. However, they cannot receive services dedicated to those with mental health or developmental disabilities due to the strict eligibility criteria. Past efforts have focused on educating the public about the dangers of alcohol consumption while pregnant. This measure establishes a task force to examine and develop guidelines, recommendations, and teaching protocols to support individuals with FASD.

Your Committees acknowledge the testimony of the Department of Human Services, which recommended deleting the proposed special fund because it is contingent on receiving federal funds that may never be provided to the State. Your Committees also

acknowledge the testimony of the Department of Health, which raised concerns that it lacks the resources and funding to convene the task force proposed by this measure.

Therefore, your Committees have amended this measure by:

- (1) Deleting the proposed special fund and replacing it with an appropriation to the Department of Health to establish and support the Fetal Alcohol Spectrum Disorders Task Force;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2647, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2647, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2438 (Joint) Health and Higher Education on S.B. No. 2657

The purpose and intent of this measure is to appropriate funds to create more residencies and training opportunities on the neighbor islands for medical students at the University of Hawaii John A. Burns School of Medicine.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Kaiser Permanente Hawaii, Healthcare Association of Hawaii, The Queen's Health Systems, East Hawaii Region of Hawaii Health Systems Corporation, Hawaii Medical Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, Hawaii Psychiatric Medical Association, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the State faces a shortage of health care providers. In particular, the neighbor islands are disproportionately affected by physician shortages in all area of practice. Research from the John A. Burns School of Medicine (JABSOM) suggests that approximately eighty percent of physicians who complete their medical school education and residency training in Hawaii, remain in Hawaii to practice. Similarly, medical residents who train on the neighbor islands are more likely to practice on the neighbor islands. JABSOM plans to expand primary care residency training on the neighbor islands; however, funding is needed to hire teaching faculty and for student and resident support. This measure provides funding to create more residencies and training opportunities on the neighbor islands.

Your Committees find that Senate Bill No. 2655 (Regular Session of 2022) (S.B. No. 2655) and S.B. No. 2656 (Regular Session of 2022) (S.B. No. 2656), introduced in the current legislative session, also aim to increase the physician work force in the State. S.B. No. 2655 does so by reestablishing the Hawaii Medical Education Special Fund, which is used to provide funding for medical education and training in the State. S.B. No. 2656 appropriates funds to support medical residencies and training programs in a partnership between JABSOM and the Veterans Administration. Your Committees find that because these measures work towards the same goal -- increasing the physician work force in the State by creating more residencies and training programs -- they should be combined into one measure. Finally, your Committees note the testimony of the Department of Budget and Finance to S.B. No. 2655, which raises concerns that the special fund created by this measure may not demonstrate the capacity to be financially self-sustaining as required by section 37-52.3, Hawaii Revised Statutes.

Accordingly, your Committees have amended this measure by:

- (1) Incorporating the contents of S.B. No. 2655 and S.B. No. 2656 into this measure;
- (2) Inserting a blank appropriation amount;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2657, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2657, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

SCRep. 2439 (Joint) Health and Human Services on S.B. No. 2748

The purpose and intent of this measure is to require the Department of Health to submit a request, as authorized by federal regulation, to the United States Department of Education to allow parents of children with a disability to continue receiving early intervention services after the child turns three years of age and until the child enters kindergarten.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, Hawai'i Association for Behavior Analysis, and three individuals. Your Committees received comments on this measure from the Department of Health and Hawaii Children's Action Network Speaks!

Your Committees find that under the federal Individuals with Disability Education Act, P.L. 101-476 (IDEA), the State is required to provide services to support the development of infants and toddlers with disabilities from birth until three years old. IDEA provides states with the option to extend early intervention services to eligible children between the ages of three and five years old. This measure requires the Department of Health to exercise the option to extend early intervention services.

Your Committees acknowledge the testimony from the Department of Health and other stakeholders who raised concerns that the Department does not have sufficient resources or funding to implement the extension of early intervention services. Your Committees also find that the measure, as currently drafted, adds a provision to the Hawaii Revised Statutes; however, the measure is not intended to be a general and permanent law of the State and would be better styled as session law.

Therefore, your Committees have amended this measure by:

- (1) Making an appropriation to the Department of Health to plan, prepare and implement the extended Part C option, which may include hiring staff;
- (2) Planning the provisions in session law rather than amending the Hawaii Revised Statutes;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2748, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2748, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2440 (Joint) Health and Hawaiian Affairs on S.B. No. 2828

The purpose and intent of this measure is to include the use of traditional native Hawaiian burial practices in the treatment and disposal of human remains, including the use of water cremation or alkaline hydrolysis.

Your Committees received testimony in support of this measure from the Aloha Mortuary LLC; Fisher & Associates, LLC; and twelve individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Health; and Hawaii Funeral & Cemetery Association, Inc.

Your Committees find that there is a renewed interest in native Hawaiian water cremation, also called alkaline hydrolysis. Water cremation is not only a culturally appropriate method of burial but is also a more eco-friendly process. Compared to flame cremation, water cremation uses one-eighth of the energy and has one-fourth the carbon footprint. This measure includes the use of water cremation in the treatment and disposal of human remains.

Your Committees acknowledge the testimony of the Hawaii Funeral & Cemetery Association, Inc., which testified that this measure should provide oversight by state regulatory agencies over alkaline hydrolysis facilities and operators.

Accordingly, your Committees have amended this measure by:

- (1) Requiring alkaline hydrolysis facilities to be licensed by the Department of Health;
- (2) Requiring alkaline hydrolysis facility operators to hold a valid license or certificate issued by the Department of Health and to undergo training pursuant to standards set by the Department of Health;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2828, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2828, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair and President on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Baker, Moriwaki).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2441 Agriculture and Environment on S.B. No. 2537

The purpose and intent of this measure is to amend the definition of "capital investment costs" to include the planting of trees having an expected lifespan of at least fifteen years.

Your Committee received testimony in support of this measure from the Outdoor Circle, Smart Trees Pacific, Trees for Honolulu's Future, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that trees are an important source of carbon sequestration and constitute a significant investment for the future. However, even trees that have expected lifespans beyond fifteen years are not included in the current definition of "capital investment costs" in the Hawaii Revised Statutes. This measure amends the definition of "capital investment costs" in section 37-62, Hawaii Revised Statutes, to include trees with lifespans greater than fifteen years.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2537 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2442 Human Services on S.B. No. 3347

The purpose and intent of this measure is to establish within the Department of Human Services a one-year pilot program to provide a basic monthly income of \$2,000 for a period of up to one year to qualified adults who are verified victims of sex trafficking or who are female or a sexual and gender minority individual seeking to exit the sex trade.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Imua Alliance, Rainbow Family 808, Health Committee of the Democratic Party of Hawai'i, Healthy Mothers Healthy Babies Coalition of Hawaii, Hawai'i Women's Coalition, and eighteen individuals. Your Committee received testimony in opposition to this measure from COYOTE RI, Libertarian Party of Hawaii, and two individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, and two individuals.

Your Committee finds that Hawaii is one of the toughest places to exit from the sex trade, due to its high cost of living, lack of privacy among members of close-knit communities, and the geographic isolation that hinders access to national sex trafficking service resources. Your Committee also finds that exiting the sex trade often requires addiction treatment, mental health services, housing and employment services, child care, and legal assistance, all of which are difficult to secure without stable income. This measure provides verified victims of sex trafficking the financial stability and time to secure the assistance necessary to exit the sex trade.

Your Committee notes testimony from the Department of Human Services raising concerns over limiting program participants to a specific category of individuals--victims of sex trafficking or female or sexual and gender minority individuals--which differs from providing assistance based on an individual's financial status and may raise the issue of equal protection and discrimination based on sex, including gender identity.

Your Committee also notes the testimony of multiple parties raising concerns over the language in the purpose section of this measure implying that individuals who are not categorized as female or sexual and gender minority do not require assistance to exit the sex trade.

Accordingly, your Committee has amended this measure by:

- (1) Amending sections 1 and 2 to reflect its amended purpose;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3347, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2443 Human Services on S.B. No. 2207

The purpose and intent of this measure is to add a representative of a LGBTQ+ focused organization to be included as a member on the Hawaii Interagency Council on Homelessness.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Health, Hawai'i Health & Harm Reduction Center, Stonewall Caucus of the Democratic Party of Hawaii, Hawaii Rainbow Chamber of Commerce, North Shore Ko'olau Diversity Collective, and nine individuals.

Your Committee finds that a designated representative from a LGBTQ+ focused organization on the Hawaii Interagency Council on Homelessness would help develop programs that would better meet the unique needs of sexual and gender minorities experiencing homelessness.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2207, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2444 Human Services on S.B. No. 3113

The purpose and intent of this measure is to improve government efficiency by incorporating the Kupuna Caregivers Program into the Kupuna Care Program.

Your Committee received testimony in support of this measure from the Executive Office on Aging, County of Hawai'i Office of Aging, Maui County Office on Aging, Zonta Club of Hilo, AARP Hawai'i, Alzheimer's Association, American Association of University Women (AAUW) of Hawaii, and one individual.

Your Committee finds that the Kupuna Care Program and Kupuna Caregivers Program were established within the Executive Office on Aging in 2001 and 2017, respectively. The Kupuna Care Program provides long-term services and supports to kupuna as care recipients, and the Kupuna Caregivers Program provides support for working caregivers. Your Committee further finds that despite the two programs providing the same services for the care recipient and caregiver, having two separate programs created silos, which hindered the delivery of a seamless system of supports for kupuna and their caregivers. This measure will streamline the administrative and programmatic burdens of having two separate programs while continuing to provide an array of seamless services and supports to meet the holistic and comprehensive needs of both kupuna and their caregivers. This measure will also allow the Area Agencies on Aging in each county that implement both programs to use their federal, state, and county funds more efficiently and provide services in a timely manner.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that the Executive Office on Aging, in operating the combined program, take into consideration the issues that led to the creation of the Kupuna Caregiver Program in 2017, and continue to address such issues in its management of the combined program.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2445 Human Services on S.B. No. 3109

The purpose and intent of this measure is to remove outdated annual reporting requirements for the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that updating the annual reporting requirements of the Department of Human Services and its attached agencies, such as the Office of Youth Services, will reduce administrative burdens and increase governmental efficiencies.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2446 Human Services on S.B. No. 3111

The purpose and intent of this measure is to:

- (1) Establish a five-year Family Resource Centers Pilot Program within the Department of Human Services;
- (2) Establish one full-time equivalent (1.0 FTE) Family Resource Centers Coordinator position; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Education, Department of Health, Kailua-Kalaheo Complex Area, Kailua High School, Neighborhood Place of Kona, Blueprint for Change, Hawaii Children's Action Network Speaks!, The 'Ohana Support Network, Hawai'i Afterschool Alliance, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and the State Procurement Office.

Your Committee finds that family resource centers provide a number of critical services for families and are trusted sources of information and guidance. A number of studies have established that neighborhoods with family support centers have lower rates of child abuse, neglect investigations, and children entering the foster system compared to similar neighborhoods without family resource centers. As a result of the coronavirus disease 2019 pandemic, there is a greater need than ever to provide support, knowledge of parenting and child development, and social connections. This measure promotes quality family engagement to address challenges heightened by the pandemic and formalizes a pilot-project family resource center network to facilitate strategic planning, align services and performance measures, and develop a referral and data sharing process.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine the issues and concerns raised by the testimony.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3111, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2447 Human Services on S.B. No. 3112

The purpose and intent of this measure is to:

- (1) Authorize the Department of Human Services to conduct comprehensive background checks on current and prospective employees, volunteers, and contractors, and a contractor's employees, agents, or volunteers, in positions that require them to be in close proximity to minors, young adults, or vulnerable adults who are receiving child welfare services, social services, or other benefits and services from the Department of Human Services intended to prevent abuse or neglect or assist youth aging out of foster care with obtaining and maintaining independent living skills; and
- (2) Replace the term "foster boarding home" in section 846-2.7(b)(8), Hawaii Revised Statutes, with "resource family homes" to conform to Act 133, Session Laws of Hawaii 2016.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of Human Resources Development.

Your Committee finds that the current pre-employment background clearance process for the Department of Human Services includes a name-based state criminal history record check, which relies on prospective hires to voluntarily report any convictions that occurred outside of Hawaii. This measure will allow the Department of Human Services to obtain information directly from the Federal Bureau of Investigations and the Hawaii Criminal Justice Data Center, and conduct comprehensive national and state fingerprint-based criminal history record checks of prospective personnel and post-employment periodic rechecks of current personnel. This measure is necessary to provide proper background checks for persons placed or currently in positions that require them to be in close proximity to certain minors, young adults, and vulnerable adults.

Your Committee also finds that Act 133, Session Laws of Hawaii 2016, brought the State into compliance with the Preventing Sex Trafficking and Strengthening Families Act of 2014, P.L. 113-183, including replacing the term "foster boarding home" in sections 346-16 and 346-17, Hawaii Revised Statutes, with "resource family homes". This measure will also amend section 846-2.7(b)(8), Hawaii Revised Statutes, to conform to Act 133.

Your Committee notes the testimony of the Department of Human Services, stating that the additional background checks provided in this measure will impact the workload of the Department's staff and the Hawaii Criminal Justice Data Center, and may cause delays in the Department's hiring of new employees.

Your Committee further notes that the term "foster boarding home" in sections 321-11.2(d) and 571-32.1, Hawaii Revised Statutes, will also need to be changed to "resource family homes" to conform to Act 133.

Accordingly, your Committee has amended this measure by:

- (1) Replacing "foster boarding homes" in sections 321-11.2(d) and 571-32.1, Hawaii Revised Statutes, with "resource family homes", to conform to Act 133, Session Laws of Hawaii 2016;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3112, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2448 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2278

The purpose and intent of this measure is to:

- (1) Establish the offense of unlawful shipment of tobacco products;
- (2) Include electronic smoking devices within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law;
- (3) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products;
- (4) Increase the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products;
- (5) Repeal certain provisions of existing law relating to electronic smoking devices; and
- (6) Provide for the disposition of fines paid for the unlawful shipment of tobacco products into the Hawaii Tobacco Prevention and Control Trust Fund.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Department of Health; American Cancer Society Cancer Action Network; Hawaii COPD Coalition; Hawai'i Public Health Institute; American Academy of Pediatrics, Hawaii Chapter; American Heart Association; American Lung Association in Hawaii; Hale Opi'o Kauai, Inc.;

Hawaii Children's Action Network Speaks!; Hawai'i Primary Care Association; Hawaii State Teachers Association; Pediatric Therapies Hawai'i; The Man Cave; We Are One, Inc.; and fifty-nine individuals. Your Committees received testimony in opposition to this measure from Retail Merchants of Hawaii; Cigar Association of America, Inc.; Hawaii Smokers Alliance; JOCOR Enterprises, LLC; Tear Drip Holdings, Inc.; VOLCANO eCigs; and thirty-five individuals. Your Committees received comments on this measure from the Department of Taxation, Hawaii Food Industry Association, Tax Foundation of Hawaii, Taxpayers Protection Alliance, Hawaii Petroleum Marketers Association, and one individual.

Your Committees find that the use of e-cigarettes and vaping has seen a dramatic increase in popularity among Hawaii teenagers. In December 2020, the United States Congress passed a law prohibiting the shipment of e-cigarettes directly to consumers. However, intrastate shipments in Alaska and Hawaii are exempt from the law, allowing youth to purchase e-cigarettes online. This measure prohibits the shipment of tobacco products directly to consumers.

Your Committees acknowledge the testimony of the Department of the Attorney General and Department of Health, which offer amendments to the measure for clarity and consistency with existing law. Your Committees also acknowledge the testimony of the Department of Taxation, which recommended changing the effective date to January 1 so that the tax proposed by the measure does not go into effect mid-year.

Therefore, your Committees have amended this measure by:

- (1) Amending the proposed new section and definitions of "electronic smoking device" and "tobacco products", and adding a definition of "e-liquid" for clarity and consistency with existing tobacco regulation;
- (2) Inserting an effective date of January 1, 2023, to support the administration and enforcement of the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2278, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2278, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 2449 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2624

The purpose and intent of this measure is to require the Department of Health to:

- (1) Implement a telehealth pilot project, which is exempt from the Hawaii Public Procurement Code for twelve months, and publish an evaluation report on the telehealth pilot project outcomes; and
- (2) Implement and administer a rural health care pilot project to provide physicians serving selected rural areas with an availability fee and reimbursements for certain expenses.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i System, State Council on Developmental Disabilities, Disability and Communication Access Board, Hawai'i Pacific Health, Hawai'i Primary Care Association, Hawai'i Public Health Institute, The Queen's Health Systems, and eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Your Committees find that many residents in the State, particularly those living in rural areas and on the neighbor islands, are unable to obtain timely and appropriate health care due to a shortage of health care providers. While telehealth is a viable and available solution to this problem, the use of telehealth is still limited in the State. This measure establishes a telehealth pilot project to encourage the use of telehealth to patients and providers in the State. This measure also establishes the rural health care pilot project to pay an availability fee to health care providers serving rural areas.

Your Committees acknowledge the testimony of the Department of Health, which recommends expanding the rural health care pilot project to include nurse practitioners in addition to physicians practicing in a medical specialty that is difficult for rural residents to access.

Therefore, your Committees have amended this measure by:

- (1) Adding to the pilot project, nurse practitioners practicing in a medical specialty that is difficult for rural residents to access;
- (2) Requiring, rather than authorizing, the Department of Health to contract with eligible physicians and hospitals for the rural health care pilot project; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2624, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2624, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 2450 Government Operations on S.B. No. 3037

The purpose and intent of this measure is to establish procedures for the custody, inventory, and care of protocol gifts received by members of either house of the legislature or other state employees.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, State Archives, Hawai'i State Ethics Commission, and Common Cause Hawaii.

Your Committee finds that, from time to time, state officials and employees accept protocol gifts on behalf of the State, or a political body of the State, from foreign officials, federal officers, or state officials from other states. These gifts may symbolize goodwill and strengthen national and international relationships. Your Committee further finds that existing law does not provide adequate guidance or procedures regarding the custody, inventory, and care of protocol gifts. Accordingly, your Committee finds that the rules and guidance provided by this measure will promote government transparency and accountability, while preserving objects of historical significance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3037, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2451 Government Operations on S.B. No. 2885

The purpose and intent of this measure is to appropriate funds for one full-time equivalent (1.0 FTE) position at the Public Access Room to provide educational outreach and engagement with Hawaii public schools.

Your Committee received testimony in support of this measure from one member of the Hawaii County Council, Common Cause Hawaii, Commission to Promote and Advance Civic Education, Hawaii Youth Services Network, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Legislative Reference Bureau.

Your Committee finds that civic engagement provides an opportunity for residents to become involved with improving their local communities and neighborhoods. Your Committee further finds that the Public Access Room, an office under the Legislative Reference Bureau, provides the public with information, equipment, facilities, and services to assist in research activities, educational outreach, and public engagement related to work with the Legislature. The Public Access Room is well-positioned to further civic engagement with the Legislature in the State's schools.

Your Committee finds, however, that the Public Access Room currently lacks resources to provide outreach services in addition to its current responsibilities. Your Committee therefore finds that this measure will promote civic engagement by funding a position within the Legislative Reference Bureau to provide educational outreach and engagement services to students.

Your Committee notes the testimony of the Commission to Promote and Advance Civic Education, suggesting the position created by this measure serve all schools, and not only public schools.

Accordingly, your Committee has amended this measure by:

- (1) Expanding this measure to pertain to all schools in the State; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2885, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

SCRep. 2452 Government Operations on S.B. No. 2683

The purpose and intent of this measure is to shift the nominating authority for three members of the Hawaii Community Development Authority from the Honolulu City Council to the offices of the President of the Senate and Speaker of the House of Representatives.

Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that under existing law, the Honolulu City Council has nominating authority for three members of the Hawaii Community Development Authority, who represent the Kaakaako, Kalaehoa, and Heeia community development districts. Your Committee further finds that this nominating authority is more appropriately placed within the offices of the President of the Senate and Speaker of the House of Representatives as the Hawaii Community Development Authority is a state agency. Accordingly, this measure removes the Honolulu City Council's nomination authority for certain members of the Hawaii Community Development Authority and places it within more appropriate offices.

Your Committee has amended this measure by:

- (1) Adjusting the membership of the Hawaii Community Development Authority as follows:
 - (A) Adding the Director of Business, Economic Development, and Tourism;

- (B) Reducing the number of district representatives of the Heeiea, Kalaeloa, and Kakaako Community Development Districts by one, respectively; and
- (C) Removing the Chairperson of the Hawaiian Homes Commission;
- (2) Specifying that the President of the Senate and Speaker of the House of Representatives shall submit a list of three nominees for each district to the Governor to fill the two district representative positions of each community development district;
- (3) Clarifying the requirements of the nominees for each community development district;
- (4) Including the Director of Business, Economic Development, and Tourism and the Director of Planning and Permitting of the City and County of Honolulu as voting members considered in determining quorum for matters affecting the Heeiea, Kalaeloa, and Kakaako Community Development Districts, respectively; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2683, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2683, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2453 Government Operations on S.B. No. 3212

The purpose and intent of this measure is to require the Office of Enterprise Technology Services to establish a working group to identify state office buildings capable of providing equitable telecommunications access to allow residents of the counties of Hawaii, Kauai, and Maui, and rural areas of the City and County of Honolulu, including all residents with disabilities, to participate remotely in legislative hearings.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Office of Enterprise Technology Services, and Hawai'i Public Health Institute.

Your Committee finds that providing equitable access to the legislative process for nearly four hundred fifty thousand residents on the neighbor islands and all residents with disabilities is a priority to improving the legislative process at the Capitol.

Your Committee further finds that providing access for all residents to participate in the legislative process is a basic right of citizens and should continue to be a priority.

Accordingly, this measure will promote greater participation, accountability, and transparency in the making of laws in Hawaii by establishing a working group to identify suitable locations to provide expanded access options for the people of Hawaii to participate in the law-making process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3212, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Gabbard).

SCRep. 2454 (Joint) Government Operations and Housing on S.B. No. 3176

The purpose and intent of this measure is to allow counties to adopt rules for the construction of fourplex dwelling units on lots where single-family dwelling units are permitted in residential areas.

Your Committees received testimony in support of this measure from two individuals. Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that the State continues to suffer from an acute shortage of affordable housing. One solution being explored by states nationwide is to increase permissible housing density. Your Committees further find that the counties should each have the discretion to adopt their own rules to govern the fourplexes authorized by this measure, since counties face unique land conditions and concerns. Accordingly, your Committees find that this measure will provide an important tool and the requisite flexibility to help grow the critically low supply of affordable housing in the State.

As affirmed by the records of votes of the members of your Committees on Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3176 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2455 (Joint) Government Operations and Human Services on S.B. No. 3039

The purpose and intent of this measure is to amend the procurement laws relating to purchases of health and human services to promote procurement efficiency, program success, and government accountability by:

- (1) Requiring fair and reasonable costs or prices by requiring an agency purchasing health and human services to analyze a proposed cost or price and to document the agency's determination that such cost or price is fair and reasonable;
- (2) Increasing the small purchase threshold for health and human services and authorizing the Procurement Policy Board to adopt administrative rules to provide an expedited method for purchasing agencies to competitively procure health and human services small purchases;
- (3) Increasing efficiency of short-term treatment purchase of services; and
- (4) Abolishing the Community Council on Purchase of Health and Human Services.

Your Committees received testimony in support of this measure from the State Procurement Office and Department of Human Services. Your Committees received testimony in opposition to this measure from the Hawaii Substance Abuse Coalition. Your Committees received comments on this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committees find that existing law governing the public procurement of health and human services is inefficient and costly. The procurement of health and human services can take several months to complete, if not longer, and is subject to further delay in the event of protests. Your Committees further find that the public procurement of health and human services often involves urgent needs and specialized services.

Accordingly, your Committees find that this measure will streamline the procurement process for health and human services by reducing inefficiencies and expanding the small purchase exemption threshold. This will expedite the procurement of urgently needed health and human services and reduce the administrative costs of procuring these services, while ensuring that transparency and accountability measures remain in effect.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3039, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3039, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 5. Noes, none. Excused, none.
 Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2456 (Joint) Government Operations and Health on S.B. No. 2124

The purpose and intent of this measure is to:

- (1) Enhance the control of low-frequency noise emitted from establishments regulated by county liquor commissions by setting a maximum permissible noise level in dBC measurements;
- (2) Clarify that emission of noise that exceeds the maximum permissible noise level constitutes a noise violation;
- (3) Allow noise violations to be enforced by summons or citation issued by law enforcement officers;
- (4) Allow county liquor commissions to adopt rules to issue fines for noise violations; and
- (5) Allow county liquor commissions to revoke or suspend a liquor license; deny the application, renewal, or transfer of a license; or withhold issuance of a license when the licensee or applicant fails to take corrective action to address noise complaints or violations.

Your Committees received testimony in support of this measure from the Waikiki Neighborhood Board No. 9 and seven individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find excessive noise pollution is deleterious to public health and citizen's right to a peaceful environment. Your Committees further find that one source of excessive noise pollution is the establishments that are regulated by county liquor commissions, such as restaurants, bars, and night clubs. Accordingly, your Committees find that this measure will mitigate excessive noise pollution by establishing a comprehensive regulatory and enforcement scheme.

Your Committees note the testimony of the Department of the Attorney General recommending extensive amendments to further align this measure with its intent and to fit within existing noise pollution statutes more appropriately.

Your Committees have therefore amended this measure by:

- (1) Placing the new noise measurement and enforcement provisions within the purview of the Department of Health, instead of the Liquor Commission;
- (2) Adding a new section to chapter 281, Hawaii Revised Statutes, allowing the Liquor Commission to take certain remedial actions with respect to violations of noise laws; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2124, as amended herein, and recommend that it

pass Second Reading in the form attached hereto as S.B. No. 2124, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

Health: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Baker, San Buenaventura).

SCRep. 2457 Labor, Culture and the Arts on S.B. No. 2138

The purpose and intent of this measure is to subject interns who work for the State to the provisions of chapter 84, Hawaii Revised Statutes, otherwise known as the State Ethics Code, by defining and including the term “intern” in the definition of “employees” under the Code.

Your Committee received testimony in support of this measure from the Hawai‘i State Ethics Commission.

Your Committee finds that the State Ethics Commission has previously determined that interns, whether a student or an individual on loan from a private company, are employees within the definition of the State Ethics Code. This measure codifies the applicability of the Code to interns working for the State, thereby ensuring that future interns are aware of the applicable standard of conduct.

Your Committee notes the testimony of the Hawai‘i State Ethics Commission raising concerns that the measure in its current form may allow an individual who works for a fixed period longer than as decided by the Legislature to evade the statutory definition of “intern”, and suggesting that the measure place a limit of one hundred eighty days as the period of time for which an intern may work for the State.

Accordingly, your Committee has amended this measure by clarifying that the provisions of the State Ethics Code shall continue to apply to any individual who extends the individual’s internship with the State after one hundred eighty days.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2138, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2458 Labor, Culture and the Arts on S.B. No. 2298

The purpose and intent of this measure is to increase the penalty for violation of wages and hours laws to a class C felony.

Your Committee received testimony in support of this measure from Hawai‘i State AFL-CIO, Pride at Work - Hawai‘i, IATSE Local 665, and Hawaii Ports Maritime Council. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that wage theft occurs when employers deny the provision of wages, employee benefits, or other forms of compensation rightfully owed to an employee. Wage theft by an employer also constitutes tax fraud, as the employer is not properly withholding wages of its employees to pay federal income and employment taxes. This measure ensures accountability of employers who commit wage theft by increasing the penalty for violation of wages and hours laws to a class C felony.

Your Committee finds that the measure in its current form has the unintended effect of making not only wage theft, but all other violations of wage and hour law and payment of wages and other compensation law, including provisions governing record keeping, a class C felony.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the increase in penalty from a misdemeanor to class C felony only applies to an employer’s deliberate failure to pay the wages of an employee in accordance with the State’s wage and hour law and payment of wages and other compensation law;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee also notes the testimony of the Department of Labor and Industrial Relations stating that under existing law, the Department’s Wage Standards Division conducts investigations into violations of the wage and hour law and payment of wages and other compensation law, and issues notices of violation with civil penalties as an administrative remedy; however, this measure would require the Department of the Attorney General to criminally charge those that violate these laws. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committees on Judiciary and Ways and Means further examine those issues and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2298, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2459 Labor, Culture and the Arts on S.B. No. 2342

The purpose and intent of this measure is to include in the definition of “income”, tips or gratuities paid directly to an individual by a customer of the individual’s employer and reported or declared to the employer, for the purposes of calculating the amount of child support and from which assignments and withholdings for payments of child or spousal support are made.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that cash wages paid directly by the employer and the amount of any tip credit claimed by the employer under federal or state law are earnings for the purposes of the wage garnishment law. However, tips received in excess of the tip credit amount are not considered earnings subject to withholding for purposes of the Consumer Credit Protection Act, Title III. This measure will include all received tips and gratuities in the definition of income withheld by employers for payments of child or spousal support. This will allow employers to garnish the appropriate child or spousal support payments to help alleviate the financial stress and worry that many families experience.

Your Committee notes the testimony of the Department of the Attorney General raising concerns that the measure in its current form may conflict with the federal law. Amendments to this measure are therefore necessary to avoid potential conflict with federal law.

Accordingly, Your Committee has amended this measure by:

- (1) Clarifying that this measure is only applicable to the extent permitted under relevant federal law;
- (2) Deleting reference to section 576B-102, Hawaii Revised Statutes, the Uniform Reciprocal Enforcement of Support Act;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2342, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2342, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2460 Labor, Culture and the Arts on S.B. No. 2708

The purpose and intent of this measure is to amend the definition of “employee—beneficiary” with regard to the Hawaii Employer—Union Benefits Trust Fund to include the surviving unmarried adult child of a deceased retired member, provided that the unmarried adult child is incapable of self-support due to a mental or physical incapacity that existed prior to the child reaching the age of nineteen.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual. Your Committee received comments on this measure from the Hawaii Employer Union Health Benefits Trust Fund.

Your Committee finds that many individuals who are incapable of self-support due to a mental or physical incapacity are enrolled in health plans offered by the Hawaii Employer-Union Health Benefits Trust Fund as a dependent-child of a retired member. Your Committee also finds that these dependents have limited income, if any, and do not have other opportunities to receive similar benefits. Your Committee further finds that existing law governing the Hawaii Employer-Union Health Benefits Trust Fund does not provide survivor benefit coverage, and therefore, these adult children lose their health benefits when the retiree and the retiree’s spouse are no longer living or eligible for benefits from the health benefits trust fund. According to the Hawaii Employer-Union Health Benefits Trust Fund, over the past five years, there was on average, four such children per year who lost coverage due to the passing of their last eligible parent. Your Committee finds that this measure will provide continued health benefit coverage to surviving children with mental or physical incapacity when the retiree and the retiree’s spouse are no longer living or eligible.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2708 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2461 (Joint) Labor, Culture and the Arts and Hawaiian Affairs on S.B. No. 3218

The purpose and intent of this measure is to designate November 28 of each year as La Ku’oko’a, Hawaiian Recognition Day, to celebrate the historical recognition of the independence of the Kingdom of Hawaii.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Hawaii State Archives, Office of Hawaiian Affairs, and three individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the City and County of Honolulu Department of Human Resources.

Your Committees find that Hawaii’s special heritage and the various holidays currently celebrated distinguish Hawaii from other states. La Ku’oko’a commemorates the date of November 28, 1843, when, during the reign of Kamehameha III, Great Britain and France recognized the independence of the Hawaiian Kingdom, thereby making it known to the world that the Hawaiian Islands were one sovereign political unit under the complete and exclusive control of the Hawaiian kingdom. Your Committees further find that La Ku’oko’a was first recognized as a holiday in Hawaii in 1847, was recognized as an official holiday of the Republic of Hawaii in 1896, and continued to be celebrated as an official holiday by the Territory of Hawaii in 1902. Your Committees believe that the State’s

acknowledgment of La Ku'oko'a, or Hawaiian Recognition Day, is an appropriate and meaningful way to celebrate the recognition of Hawaii's independence and its rich and diverse culture and history.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3218 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.
 Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Chang).
 Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2462 Labor, Culture and the Arts on S.B. No. 3290

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts' Artist Fellowship Program for the awarding of one-time fellowships to promising artists in the amount of not less than \$25,000.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee finds that section 9-3(13), Hawaii Revised Statutes, requires the State Foundation on Culture and the Arts to establish an individual Artist Fellowship Program to encourage artists to remain and work in Hawaii and to reaffirm the importance of Hawaii's artists and their cultural and economic contributions to the State. The Artist Fellowship Program provides one-time fellowships to local individuals in the areas of visual and performing arts. Your Committee acknowledges the importance of recognizing and celebrating the contributions of the artistic endeavors of individuals to Hawaii's rich cultural landscape. Your Committee finds that the Artist Fellowship Program's fellowships create such recognition while providing the necessary financial support for the artists. This measure provides resources for the Artist Fellowship Program to grant fellowships, which in turn will contribute greatly to Hawaii's rich cultural landscape.

Your Committee is aware of this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue merits further consideration and respectfully requests that the matter be further examined by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3290 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2463 Labor, Culture and the Arts on S.B. No. 3316

The purpose and intent of this measure is to provide employees with paid family leave for up to:

- (1) Eight weeks during the first year after birth of the employee's child, adoption of a child by the employee, or placement of a child with the employee through foster care; and
- (2) Eight weeks to care for the employee's family member with a serious health condition,

paid through an employer-based private insurance program currently used to provide for temporary disability benefits.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Americans for Democratic Action Hawai'i; American Association of University Women of Hawaii; Hawaii State Teachers Association; Imua Alliance; Democratic Party of Hawai'i Education Caucus; Hawai'i Children's Action Network Speaks!; United Public Workers, AFSCME Local 646, AFL-CIO; Breastfeeding Hawaii; Hawai'i Women Lawyers; and six individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations, IL Gelato Hawaii, Magics Beach Grill, Hawai'i Restaurant Association, Retail Merchants of Hawaii, Chamber of Commerce of Hawaii, Society for Human Resource Management Hawaii, Hawaii Food Industry Association, Hawaii Petroleum Marketers Association, and Maui Chamber of Commerce. Your Committee received comments on this measure from Hawaii Credit Union League and Building Industry Association Hawaii.

Your Committee finds that while the federal Family and Medical Leave Act of 1993 and current state law provide certain employees of large employers with unpaid leave to care for a new child or attend to the needs of a family member with a serious health condition, the majority of Hawaii's workforce cannot afford to take unpaid leave. Your Committee further finds that women, who are often the primary caregivers of infants, children, and elderly parents, are affected disproportionately by the absence of paid family leave. This measure will allow employees in Hawaii to take paid family leave, regardless of the size of the employer, financed through an employer-based private insurance program currently used to provide for temporary disability benefits.

Your Committee notes the testimony of the Department of Labor and Industrial Relations, stating that the merging of Hawaii's family leave law and temporary disability insurance law requires analytical study, including an actuarial component, and requesting the effective date of this measure to be delayed for the department to prepare for its implementation.

Accordingly, your Committee has amended this measure by:

- (1) Repealing the authority of the Director of Labor and Industrial Relation to use the funds within the trust fund for family leave and disability benefits for the establishment and maintenance of a family leave data collection system under section 398-9.5, Hawaii Revised Statutes;

- (2) Inserting an unidentified number of positions to be hired by the Department of Labor and Industrial Relations for the purposes of this Act;
- (3) Inserting an effective date of July 1, 2022; however, delaying the effective date for sections 1 through 28 until July 1, 2024, to allow the Department of Labor and Industrial Relations the time to prepare the necessary system to implement those sections; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3316, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Keohokalole).

SCRep. 2464 Labor, Culture and the Arts on S.B. No. 3317

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and appropriate funds for capital improvement projects relating to Iolani Palace.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Friends of Iolani Palace, Oahu Economic Development Board, and ten individuals.

Your Committee finds that Iolani Palace, constructed in 1879, is a living restoration of a proud Hawaiian national identity, a registered National Historic Landmark, and the only palace of official royal residence in the United States. The 143-year-old palace is an important cultural and historical landmark that represents the dignity and unique history of the people of Hawaii.

Your Committee recognizes that the last time portions of the palace's roof were repaired was two decades ago in 2000, and due to increasing decay and leakage during rain, the roof and various other architectural elements of the palace are deteriorating. This measure will provide funding to address the critical need for roof repair and other improvements to the palace to protect the integrity of various antiquities and elements of this treasured historical site.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3317 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2465 (Joint) Human Services and Education on S.B. No. 2701

The purpose and intent of this measure is to:

- (1) Establish a one-year Early Child Care Worker Subsidy Pilot Program and appropriate funds for the program to be expended by the Department of Human Services; and
- (2) Appropriate funds to the Hawaii Early Childhood Educator Special Fund to be expended by the Executive Office on Early Learning for the purposes of the Hawaii Early Childhood Educator Stipend Program.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning, University of Hawai'i System, Hawai'i State Commission on the Status of Women, Early Learning Board, Hawai'i Children's Action Network Speaks!, Healthy Mothers Healthy Babies Coalition of Hawaii, American Association of University Women of Hawaii, Early Childhood Action Strategy, Special Education Advisory Council, and twenty-three individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Budget and Finance, and State Public Charter School Commission.

Your Committees find that although a strong early child care and education workforce is crucial to support the children, working families, and communities in Hawaii, the demand for quality early child care and education far exceeds the number of qualified early child care professionals currently available in the State. Your Committees further find that disruptions to the early child care and education system caused by the ongoing coronavirus disease 2019 pandemic have created more challenges to expand access to quality, affordable early child care and education programs. The one-year pilot program established pursuant to this measure will help increase compensation for qualified early child care professionals and thereby retain the existing early learning child care and education workforce in Hawaii while its economy and the early child care and education system recovers from the effect of the pandemic.

Your Committees note the testimony of the Executive Office on Early Learning, stating that the Early Learning Special Fund may be a more appropriate fund to receive moneys pursuant to this measure. Your Committees find that Act 210, Sessions Laws of Hawaii 2021, created the Hawaii Early Childhood Educator Stipend Program to be administered by the Executive Office on Early Learning, to address the shortage of early childhood educators who have coursework in early childhood education. Your Committees further find that the Hawaii Early Childhood Educator Special Fund was established to receive stipend funds repaid by a stipend recipient who failed to complete the required certificate, degree, or license program, as applicable.

Your Committees also note the testimony of the State Public Charter School Commission, clarifying that early childhood educators are hired by each public charter school with a pre-K classroom, and not by the State Public Charter School Commission.

Your Committees further note the testimony of the Department of Human Services, requesting clarification of the purpose of the pilot program; specifically, whether the purpose of the subsidy is to increase professional development of the child care workforce, retain the existing early child care workforce, or both.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the purpose of the one-year Early Child Care Worker Subsidy Pilot Program is to retain the existing early child care workforce;
- (2) Amending section 1 to reflect its clarified purpose;
- (3) Clarifying that the pilot program participants shall not be employed by the Department of Education, Executive Office on Early Learning, or public charter schools;
- (4) Making the recipient of the appropriations for the Early Childhood Educator Stipend Program the Early Learning Special Fund, established pursuant to section 302L-5, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2701, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2701, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 2466 Human Services on S.B. No. 3245

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to develop, and for certain businesses and establishments to post, a notice containing information about the National Human Trafficking Hotline;
- (2) Require the Department of the Attorney General to establish a Statewide Coordinator on Human Trafficking and a Program to support the needs of victims of human trafficking;
- (3) Require the Department of the Attorney General to submit reports to the Legislature on the State's efforts to address human trafficking and the commercial sexual exploitation of children;
- (4) Require the Children's Justice Program of the Judiciary to coordinate the investigation and case management of child trafficking cases, including cases involving the commercial sexual exploitation of children;
- (5) Specify that court-ordered restitution for a victim of labor trafficking may include the cost of necessary rehabilitation for the victim, including medical, psychiatric, and psychological care and treatment;
- (6) Require a person convicted of sex trafficking to forfeit assets from trafficking activity and require that the assets first be used to pay any restitution owed or damages awarded to the trafficking victim; and
- (7) Provide a process for victims of certain offenses involving human trafficking to petition to have their criminal record expunged.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Imua Alliance, Pacific Survivor Center, and two individuals. Your Committee received testimony in opposition to this measure from the Libertarian Party of Hawaii, COYOTE RI, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Harm Reduction Hawaii.

Your Committee finds that the adverse impacts of human trafficking, including sex trafficking and commercial sexual exploitation are far-reaching and cause harm not just to the individuals trafficked, but also their families, the community, and society. This measure addresses the issue holistically by directing the State's resources toward various means of abolishing human trafficking, including sex trafficking and commercial sexual exploitation, and addressing the effects thereof.

Your Committee notes the testimony of the Judiciary, raising concern that section 4 of this measure, which requires the Judiciary's Children's Justice Program to coordinate the investigation and case management of child trafficking cases, including cases involving the commercial sexual exploitation of children, would create unnecessary confusion given other measures being considered during this regular session that would ensure the same outcome.

Your Committee further notes the testimony of the Department of the Attorney General, raising concern over section 6 of this measure, stating that the proposed forfeiture provisions lack specificity, which would make enforcement difficult. The Department also raised concern over section 7 of this measure, which purports to provide a process for victims of certain offenses involving human trafficking to petition to have their criminal record expunged, stating that the proposed amendments to the existing statute are open to misinterpretation in the court process.

Your Committee also notes the testimony of the Department of Human Services, stating that the Department will require additional resources to implement this measure, including funds for the development, translation into multiple languages, and printing of the notice required under this measure.

Accordingly, your Committee has amended this measure by:

- (1) Deleting sections 4, 6, and 7;
- (2) Appropriating an unspecified amount of moneys from the general fund for the development, translation, and printing of notices required pursuant to this measure to be expended by the Department of Human Services;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3245, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2467 (Joint) Human Services and Health on S.B. No. 2424

The purpose and intent of this measure is to require the Department of Human Services' Child Protective Services Unit to investigate a marriage and report to the family court before the court approves a marriage, when one of the parties to the marriage is a minor and the other party is more than five years older than the minor.

Your Committees received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Stonewall Caucus of the Democratic Party of Hawaii, Zonta Club of Hilo, Zonta Club of Kauai, Hawaii Youth Services Network, and two individuals. Your Committees received testimony in opposition to this measure from Unchained at Last, Tahirih Justice Center, and one individual. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that state laws typically define "children" to mean as individuals who are under the age of eighteen years, and the term "minors" to mean individuals who are not given the rights or responsibilities of an adult. Yet existing law allows children as young as sixteen years of age to marry with the written consent of their parents, guardian, or a person who has custody of the child; and as young as fifteen years of age with the written approval of the family court. Your Committees further find that Hawaii laws that hold a person guilty of sexual assault for engaging in sexual acts with a fourteen- or fifteen-years old minor do not apply when the accused person is at least five years older than the child and legally married to the child. This measure will ensure that children are not being pressured or coerced into a marriage with an older adult by the prospective spouse or the child's parents, guardians, or any other persons who have custody of the child.

Your Committees note the testimony of the Department of Human Services requesting clarification on the subject of the investigation by its Child Protective Services Unit pursuant to this measure.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that when one of the parties to a marriage is a minor at the time of contracting the marriage and the other party is more than five years older than the minor, the Department of Human Services' Child Protective Services Unit is required to investigate all parties involved in the marriage, including the prospective spouse and any person giving written consent to minor's marriage, and report its findings to the family court before the court approves the marriage; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2424, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2424, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).
Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2468 (Joint) Human Services and Health on S.B. No. 2883

The purpose and intent of this measure is to create a task force focused on the hiring and training of culturally accepted interpreters to assist non-English speaking populations seeking care at Hawaii Health Systems Corporation facilities.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council, Hawaii Health Systems Corporation, Hawaii Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, Marshallese COVID-19 Task Force, Hawai'i Public Health Institute, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Language Access and one individual.

Your Committees find that Limited-English-Proficient (LEP) persons face significant hurdles in communicating with health care professionals. The language barrier between patient and health care provider leads to poorer health outcomes among LEP persons. This has been highlighted during the coronavirus disease 2019 (COVID-19) pandemic, as Pacific Islanders and Compact of Free Association (COFA) recipients have had disproportionately higher rates of infection than that of people in the State as a whole. Your Committees further find that on December 20, 2020, the United States Congress reinstated Medicaid and Children's Health Insurance benefits to COFA recipients. With COFA recipients no longer a large portion of the State's uninsured population, state hospitals should be prepared to service these and other LEP populations. Therefore, this measure creates a task force focused on hiring and training culturally accepted interpreters to assist LEP populations seeking care at Hawaii Health Systems Corporation facilities.

Your Committees acknowledge the testimony of several stakeholders, which suggested that the task force be composed of different members than originally proposed. Your Committees also acknowledge the testimony of the Hawaii Health Systems Corporation, which raised concerns that it does not have the funds or resources to maintain a staff of certified translators with knowledge of medical terminology.

Therefore, your Committees have amended this measure by:

- (1) Adding the Director of Human Services, one representative from The Queen's Health Systems, and four COFA community leaders to the task force;

- (2) Removing two members of the language interpreters and translator community and two community health workers from the task force;
- (3) Adding an appropriation to the Hawaii Health Systems Corporation to support the work of the task force;
- (4) Changing the focus of the task force from LEP populations seeking care at the Hawaii Health Systems Corporation to any health care facility;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Changing its effective date to accommodate the appropriation; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2883, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2883, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2469 (Joint) Human Services and Health on S.B. No. 2634

The purpose and intent of this measure is to appropriate funds to extend Medicaid postpartum coverage from sixty days to twelve months.

Your Committees received testimony in support of this measure from the Department of Human Services; Executive Office on Early Learning; Hawai'i State Commission on the Status of Women; AlohaCare; Hawai'i Public Health Institute Obesity Prevention Task Force; Save Medicaid Hawaii; American College of Obstetricians and Gynecologists Hawai'i Section; Healthcare Association of Hawaii; American Heart Association; Hawaii Association of Health Plans; Hawaii Primary Care Association; Hawaii Women's Coalition; Hawaii Medical Service Association; Kokua Kalihi Valley Comprehensive Family Services; American Academy of Pediatrics, Hawaii Chapter; Planned Parenthood Alliance Advocates--Hawai'i; Hawai'i Children's Action Network Speaks!; Hawai'i Women Lawyers; Early Childhood Action Strategy; Hawaii Medical Association; Hawai'i Association of School Psychologists; Hawaii Family Forum; Hawai'i Public Health Association; Hawai'i Pacific Health; Mental Health America of Hawai'i; Hawai'i Maternal & Infant Health Collaborative; Kaiser Permanente Hawai'i; Association for Infant Mental Health Hawai'i; 'Ahahui o Nā Kauka--Association of Native Hawaiian Physicians; Healthy Mothers Healthy Babies Coalition of Hawaii; Hawaii Health & Harm Reduction Center; and twenty-eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the "pregnant women" Medicaid eligibility category is currently limited to sixty days postpartum. Despite this limited window of coverage, there are many conditions that account for significant risks far beyond sixty days including cardiovascular disease, hypertension, depression, and other pregnancy-related morbidities that require care over a longer term. The American Rescue Plan Act of 2021 provides an option to extend Medicaid postpartum coverage an additional ten months via state plans, beginning April 1, 2022, and is in effect for five years. Extending postpartum coverage to twelve months will help address the stark health disparities many native Hawaiian and Pacific Islander mothers experience and will greatly improve health access and outcomes for women and children in the State by providing continuity of care with known and trusted providers during this high-risk period.

Your Committees have reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committees find that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine the issues and concerns raised by the testimony.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2634, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2634, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2470 (Joint) Human Services and Health on S.B. No. 2737

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to develop a long-term care facility at the Guensberg building on the Hawaii State Hospital campus.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, Hawaii Substance Abuse Coalition, Partners in Care, and Hawai'i Psychological Association.

Your Committees find that the renovation of the Guensberg building, the oldest building in operation at the Hawaii State Hospital campus, seeks to address the long-term needs of patients that do not require inpatient psychiatric hospital level of care but also have

behavioral needs that make it difficult for them to be admitted to another facility, as well as patients with co-occurring substance use disorders and serious mental illnesses. According to testimony from the Department of Health, the renovation will provide a total of ninety hospital beds, with forty beds dedicated to long-term behavioral care and fifty for secure residential co-occurring mental health and substance abuse treatment.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2737, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2737, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2471 (Joint) Human Services and Health on S.B. No. 2880

The purpose and intent of this measure is to prohibit any increase in the fees charged for providing home health care services during the pendency of an emergency proclamation or state of emergency concerning a public health pandemic on the sole basis that the patient receiving the services requires that the home health care service provider be vaccinated against the underlying disease causing the emergency.

Your Committees received comments on this measure from the Healthcare Association of Hawaii.

Your Committees find that home health caregivers should not increase their rates when they are requested to be vaccinated against SARS-CoV-2 to treat vulnerable patients. According to testimony from Healthcare Association of Hawaii, the contracts between its members and insurance companies set reimbursement rates that cannot be changed based on the vaccination status of an individual healthcare worker. Your Committees note that the federal Centers for Medicare and Medicaid Services require that the healthcare workers at Medicare- and Medicaid-certified health facilities in Hawaii be vaccinated by February 28, 2022. Your Committees further note that these Medicare and Medicaid regulations on home health agencies do not apply to independent physicians or clinicians.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2880 and recommend that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2472 Transportation on S.B. No. 2539

The purpose and intent of this measure is to make the registered owner of a vehicle that is in violation of stop, stand, or park requirements liable for any penalty.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that illegal parking on highways can lead to accessibility and safety problems. While existing statutes provide for a person committing a violation of stopping, standing, or parking requirement to be held responsible for illegal parking, enforcement of those statutes can be challenging. This measure places responsibility for violations on the registered owner of the vehicle, which makes enforcement less challenging and deters potential violators.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2539 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2473 Housing on S.B. No. 2667

The purpose and intent of this measure is to indefinitely extend the deadline for the Hawaii Housing Finance and Development Corporation to renegotiate an existing lease, or issue a new lease for the Front Street Apartments affordable housing project before the corporation's requirement to initiate condemnation proceedings is triggered.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one member of the Maui County Council.

Your Committee finds that Maui County has a significant shortage of affordable homes. To mitigate that shortage, the Hawaii Housing Finance and Development Corporation has relied on the Front Street Apartments. However, the corporation must either renegotiate its ground lease or initiate condemnation proceedings by December 31, 2022. This measure would extend the 2022 deadline indefinitely to ensure that the Hawaii Housing Finance and Development Corporation is able to continue providing affordable housing to residents of Maui County. However, there is little information on the status of Front Street Apartments. Your Committee finds that the Hawaii Housing Finance and Development Corporation should provide updates on the status of the Front Street Apartments.

Your Committee has amended this measure by replacing the indefinite extension of the Hawaii Housing Finance and Development Corporation deadline with a five-year extension.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2667, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2474 Housing on S.B. No. 3107

The purpose and intent of this measure is to:

- (1) Allow a landlord, when processing an application to rent residential property, to charge an application screening fee up to a maximum of \$25 for the cost of requesting a tenant report or credit report for a potential tenant; and
- (2) Require landlords to refund any unused amount of the application screening fee and, upon request, provide a receipt of the fee and a copy of any report obtained via the screening process to the applicant.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Partners In Care, Community Alliance Partners, Hawai'i Health and Harm Reduction Center, Catholic Charities Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and UNITE HERE! Local 5. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, EAH Housing, and one individual.

Your Committee finds that there are numerous barriers to accessing affordable housing for low-income households and individuals. One barrier is the imposition of screening fees by landlords. While the fee is intended to cover the cost of tenant screening, it often exceeds the actual cost to conduct the screening. This measure establishes a maximum fee that landlords may impose for tenant screening.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3107, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2475 Housing on S.B. No. 2255

The purpose and intent of this measure is to:

- (1) Make inoperative the mortgage interest deduction for second homes under Hawaii income tax law; and
- (2) Require the Department of Taxation to calculate the savings and transfer an equivalent amount of income tax revenues to the Director of Finance for deposit into the Rental Housing Revolving Fund.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the mortgage interest deduction as applied to second homes reduces the State's tax revenue and incentivizes the ownership of multiple homes. Not allowing the deduction would generate increased revenues for the State and disincentivize the accumulation of multiple homes, which undermines the State's efforts to expand access to affordable housing.

Your Committee has amended this measure by:

- (1) Requiring that amounts derived from the suspension of the mortgage interest deduction on second homes be deposited into the general fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2255, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2476 Housing on S.B. No. 2581

The purpose and intent of this measure is to seek to use lands within the State that are leased to the federal government or under federal government control that are returned to the State, including lands that have been used to house former military facilities, for affordable housing.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and Partners in Care.

Your Committee finds that Hawaii has a severe shortage of affordable housing. Among the many causes of the State's lack of affordable housing is the absence of available land. Using lands that are leased or have been leased to the federal government for

affordable housing would be beneficial to the State's affordable housing efforts. This measure would prioritize efforts to find suitable lands leased to the federal government and use those lands for affordable housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2581 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Water and Land.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2477 (Joint) Housing and Transportation on S.B. No. 2193

The purpose and intent of this measure is to:

- (1) Require inclusion of an unspecified minimum percentage of affordable housing units in state agencies' development and redevelopment plans along the rail transit corridor; and
- (2) Allow the Office of Planning and Sustainable Development to make exceptions to the affordable housing requirement.

Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Planning and Sustainable Development.

Your Committees find that the State has a critical need for the development and construction of affordable housing units for residents of the State. Transit-oriented development associated with the construction of a rail transit system in Honolulu has the potential to fulfill the State's need for affordable housing. This measure requires that state agencies include affordable housing in their development and redevelopment plans along the rail transit corridor.

Your Committees have amended this measure by:

- (1) Requiring state agencies to consult with the Office of Planning and Sustainable Development and the Hawaii Housing Finance and Development Corporation in the formulation of their development and redevelopment plans;
- (2) Inserting a minimum percentage of fifty percent for units that must be reserved for residents of the State who are occupants of their units and own no other real property; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2193, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2193, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 5. Noes, none. Excused, none.
Transportation: Ayes, 5. Noes, none. Excused, none.

SCRep. 2478 Labor, Culture and the Arts on S.B. No. 2202

The purpose and intent of this measure is to designate the month of April each year as the State's volunteer month to honor volunteers in the community and encourage participation in service projects throughout the month.

Your Committee received testimony in support of this measure from Aloha United Way, Girl Scouts of Hawaii, Ali'i Pauahi Hawaiian Civic Club, and five individuals.

Your Committee finds that volunteers play a critical and irreplaceable role in the non-profit sector and its ability to effectively provide essential support to the community in various areas, including tutoring and educational assistance, emergency response, environmental clean ups, homelessness and food distribution, sports leagues, and animal shelters. Your Committee further finds that the selfless dedication of services by volunteers, including administration of vaccines; testing and contact tracing; and distribution of food, water, and other necessities to individuals who were required to stay home, has been essential to the community while the nation confronted and continues to recover from the disturbances caused by the coronavirus disease 2019 pandemic.

Your Committee also finds that in 1974, the United States, through presidential proclamation, designated the third week of April as National Volunteer Week to support, extend, and enhance the vital and valuable services offered by volunteers. In 1991, the month of April became National Volunteer Month as part of President George H. W. Bush's A Thousand Points of Light campaign, as a month dedicated to honoring the volunteers in communities and encouraging volunteerism. On April 16, 2021, the current federal administration issued a proclamation designating April 18 through April 24, 2021, as National Volunteer Week, calling upon all Americans to observe the week by volunteering in service projects across the country and pledging to make service a part of their daily lives. Your Committee believes that designating the month of April each year as the State's volunteer month will honor volunteers in the community and encourage participation in service projects throughout the month.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2479 Human Services on S.B. No. 2587

The purpose and intent of this measure is to require the Youth Commission to appoint an Executive Director.

Your Committee received testimony in support of this measure from the Office of Youth Services, Hawaii Youth Services Network, and four individuals from the Hawaii State Youth Commission. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Act 108, Session Laws of Hawaii 2018, established the Youth Commission and appropriated funds for its administration and one Children and Youth program specialist staff position. The Youth Commission's mission is to provide a strong youth voice in advising the Governor and effecting legislative policies as they relate to youth issues in the State. Most boards and commissions across the State have an Executive Director such as the Disabilities and Communications Access Board and the State Council on Developmental Disabilities. To provide the Youth Commission with administrative support and leadership on key issues impacting youth, this measure requires the Youth Commission to appoint an Executive Director.

With the creation of an Executive Director position, your Committee requests the Department of Human Services to adopt or amend existing administrative rules to define the duties and responsibilities of an Executive Director. As the Office of Youth Services currently has one long-term vacant position, your Committee finds that it is not necessary to establish a new position within the Office of Youth Services for an Executive Director.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2587 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2480 Human Services on S.B. No. 3201

The purpose and intent of this measure is to clarify the general excise tax exemption for unrelated trade or business activities of nonprofit organizations.

Your Committee received testimony in support of this measure from The Queen's Health Systems, Hawai'i Alliance of Nonprofit Organizations, Hawaii Youth Services Network, Hawai'i Appleseed Center for Law & Economic Justice, Hawai'i Forest Industry Association, Hawaii Substance Abuse Coalition, K.E.L.L.I. Foundation, Hawai'i State Coalition Against Domestic Violence, H.T. Hayashi Foundation, Samaritan Counseling Center Hawaii, Aloha United Way, Big Brothers Big Sisters Hawaii, Parents and Children Together, Hawai'i Children's Action Network Speaks!, Hawai'i Public Health Institute, Molokai Arts Center, Outrigger Duke Kahanamoku Foundation, PHOCUSED, and Boys & Girls Club of Hawaii. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that because the State's general excise tax law referring to "the primary purpose of which is to produce income" does not align with the federal income tax code's "unrelated business income" provision, nonprofit organizations have additional burdens in accounting for income in disparate ways. While the federal law is clear with an extensive body of statutory interpretation, the nonconforming language used in the state general excise tax provision produces incongruities in how nonprofit activities are taxed. Your Committee further finds that imposing the general excise tax on a nonprofit organization's fundraising income deprives the nonprofit sector of needed financial support for the delivery of program services. This measure would simplify and improve a nonprofit organization's accounting of income and exempt fundraising income from the general excise tax.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3201 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2481 (Joint) Human Services and Government Operations on S.B. No. 2459

The purpose and intent of this measure is to:

- (1) Require the executive director of the Office of Language Access to submit an annual report to the Governor and Legislature on compliance, complaints, resolution of complaints, and recommendations to enhance and promote language access; and
- (2) Appropriate an unspecified amount of funds to establish limited English proficiency language coordinator positions in the Department of Commerce and Consumer Affairs, Department of Health, Department of Agriculture, and the Hawaii Emergency Management Agency.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations, Department of Transportation, Department of Agriculture, Office of Community Services, Hawai'i Coalition for Immigrant Rights, Hawaii Friends of Civil Rights, Micronesian Health Advisory Coalition, Ethnic Education Hawai'i, Marshallese Covid-19 Task Force, Common Cause Hawaii, Le Fetuao Samoan Language Center, The Legal Clinic, Hawai'i Workers Center, Hawai'i Public Health Institute, and fourteen individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Budget and Finance, Office of Language Access, Hawai'i Emergency Management Agency, and one individual.

Your Committees find that Hawaii has one of the highest per-capita rates of limited English proficient persons in the nation. Your Committees further find that the annual reporting requirement in this measure will not only assist the Office of Language Access to ensure compliance with state and federal language access laws across all state agencies, but the establishment of permanent limited English proficiency language coordinator positions also will facilitate the implementation and delivery of each state agency's language access plans.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2459 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 5. Noes, none. Excused, none.
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2482 Human Services on S.B. No. 2161

The purpose and intent of this measure is to require the exterior of the envelope containing the ballot package to include instructions on how to obtain language translation services in Hawaiian and certain languages other than English.

Your Committee received testimony in support of this measure from the Office of Elections, Office of Language Access, City and County of Honolulu Elections Division, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, Common Cause Hawaii, Hawai'i Public Health Institute, and four individuals.

Your Committee finds that non-English speaking voters should be adequately apprised of language translation services including when voting by mail. During the 2020 elections, voters on Oahu were provided notice on the outside of the back of the mailed ballot package that language translation services were available at the city clerk's office. This notice was provided in two languages, Ilocano and Chinese. Non-English speaking voters who spoke another language or who lived in one of the other counties were not provided with this information. This measure will provide notice of language translation services to other non-English speaking voters so that they may actively participate in voting.

Your Committee has amended this measure by:

- (1) Specifying that nothing in the measure exempts or supplants the requirements of section 203 of the federal Voting Rights Act;
- (2) Clarifying that the measure shall apply beginning with the 2024 primary election; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2161, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2483 Human Services on S.B. No. 2396

The purpose and intent of this measure is to specify that any minor who resides in the same household as the victim of domestic abuse may file a petition for an order of protection or temporary restraining order.

Your Committee received testimony in support of this measure from the American Association of University Women of Hawaii, Hawai'i State Coalition Against Domestic Violence, and three individuals. Your Committee received comments on this measure from the Domestic Violence Action Center and Parents And Children Together.

Your Committee finds that in households where abuse occurs between parents, children who witness the abuse are also victims despite not being physically harmed. Often, the abusive parent will use the child or children as a bargaining chip—agreeing to the victim's protective order in exchange for having their children removed from the order. While this exchange expedites the protective order, it also keeps the children in a potentially abusive, intimidating, and terrorizing situation. This measure specifies that a minor who resides in the same household as a victim of domestic abuse may file a petition for an order for protection or temporary restraining order.

Your Committee acknowledges the testimony of the Domestic Violence Action Center, which testified that it is more important that children who are not physically abused, yet live in a household with abuse between parents, remain on orders of protection when their parent files a petition, rather than being permitted to file their own petition.

Accordingly, your Committee has amended this measure by:

- (1) Removing language authorizing children to have standing to file a petition for an order of protection or temporary restraining order;
- (2) Clarifying that a child who resides in the same household as a victim of domestic abuse, need not demonstrate that they were physically abused in order to be included in the victim's petition for an order of protection or temporary restraining order;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2396, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2484 Human Services on S.B. No. 2700

The purpose and intent of this measure is to:

- (1) Require the staff of licensed and registered early childhood programs to annually provide specific information to the Department of Human Services' Early Childhood Workforce Registry (Registry);
- (2) Require the Department of Human Services to submit a report to the Legislature regarding updates to the Registry; and
- (3) Appropriate funds to improve the Registry.

Your Committee received testimony in support of this measure from the Early Learning Board, Samuel N. and Mary Castle Foundation, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, People Attentive to Children, American Association of University Women of Hawaii, AF3IRM Hawai'i, and six individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Budget and Finance, and Executive Office on Early Learning.

Your Committee finds that the demand for quality early childcare and education greatly exceeds the supply of qualified childcare workers and educators in the State. However, to enact effective legislation or programs to increase the number of childcare workers and educators available, more data is required to understand the needs of the workforce. While the Department of Human Services, through its partnership with People Attentive to Children, maintains the Registry, not all childcare and educator staff are required to register. This measure requires the staff of all licensed and registered early childhood programs to provide certain information to the Department of Human Services' Registry.

Your Committee acknowledges the testimony of the Department of Health, which requested an effective date of no earlier than December 31, 2022, in order to make administrative preparations. Your Committee also requests that the Department of Health collaborate with the Department of the Attorney General to develop a policy that will ensure the privacy of the submitted data.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the Department of Human Services shall not collect first or last names of staff as part of the data collected for the Registry;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2700, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2700, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2485 (Joint) Human Services and Government Operations on S.B. No. 2144

The purpose and intent of this measure is to require:

- (1) That all electronic information technology developed, purchased, used, or provided by a state entity be made accessible to persons with disabilities;
- (2) The Office of Enterprise Technology Services, in consultation with the Disability and Communication Access Board and a working group comprising stakeholders, to develop and publish electronic information technology accessibility standards to be implemented by all state entities; and
- (3) A review and revision of the standards every three years after the date of publication, or as needed, to reflect advances or changes in information technology.

Your Committees received testimony in support of this measure from Hawai'i Civil Rights Commission, Executive Office on Aging, State Council on Developmental Disabilities, National Federation of the Blind of Hawaii, Hawaii State Committee of Blind Vendors, Disability and Communication Access Board, and nine individuals. Your Committees received comments on this measure from the Office of Enterprise Technology Services and one individual.

Your Committees find that standards are necessary to ensure disability access to electronic information technology, which is key for independence and equality to people with disabilities in the State. According to testimony from the Disability and Communication Access Board, because the term "electronic information technology" is so broad, it would take longer than six months after the effective date of this measure to develop and publish electronic information technology accessibility standards to be implemented by all state entities.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the six-month time frame for the Office of Enterprise Technology Services to develop and publish accessibility standards;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2144, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 2144, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 5. Noes, none. Excused, none.
Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2486 (Joint) Human Services and Government Operations on S.B. No. 2381

The purpose and intent of this measure is to:

- (1) Require electronic information technology developed, purchased, or provided by the State to be accessible to and usable by individuals with disabilities; and
- (2) Require the Disability and Communication Access Board to, no later than December 31, 2022, develop and publish accessibility standards to be implemented by state entities.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services, Hawai'i State Council on Developmental Disabilities, National Federation of the Blind of Hawaii, and eight individuals. Your Committees received comments on this measure from the Disability and Communication Access Board and one individual.

Your Committees find that digital technology is rapidly replacing conventional printed communications, which can pose an accessibility challenge for individuals with certain disabilities. It is critical that the State provide all of its residents equal and convenient access to communications relating to its programs. This measure will reduce barriers to ensure that individuals with disabilities are considered when new technologies are deployed and to promote greater accessibility and engagement in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2381, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2381, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Human Services: Ayes, 5. Noes, none. Excused, none.
Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2487 (Majority) Health on S.B. No. 2282

The purpose and intent of this measure is to:

- (1) Clarify that access to abortion care is inclusive of all pregnant people in the State;
- (2) Repeal a criminal penalty for violations of certain abortion provisions; and
- (3) Clarify that advanced practice registered nurses may provide abortion care.

Your Committee received testimony in support of this measure from AlohaCare; Planned Parenthood Alliance Advocates--Hawai'i; American Association of University Women of Hawaii; American College of Obstetricians and Gynecologists, Hawai'i, Guam & American Samoa Section; Hawai'i Women Lawyers; Save Medicaid Hawaii; Hawai'i--American Nurses Association; Stonewall Caucus of the Democratic Party of Hawaii; and thirty-five individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Board of Nursing and Hawaii Medical Board.

Your Committee finds that the State's abortion laws need to be updated to reflect modern views and practice. All pregnant persons in the State have the right to abortion care, including transgender and gender nonbinary people. Existing law still contains archaic criminal punishment for some health providers who engage in safe and basic care. This measure will update existing abortion laws to use gender neutral language, remove certain criminal penalties and clarify that advanced practice registered nurses may provide abortion care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2282, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2488 Health on S.B. No. 2482

The purpose and intent of this measure is to:

- (1) Establish a temporary Office of Wellness and Resilience within the Office of the Governor;

- (2) Authorize the Office to address issues and implement solutions to improve wellness and resilience, including issues and solutions identified by the Trauma-Informed Care Task Force; and
- (3) Appropriate moneys for the establishment of the Office of Wellness and Resilience.

Your Committee received testimony in support of this measure from the Department of Health, Department of Human Services, Department of Public Safety, Department of Human Services, Hawaii Correctional System Oversight Commission, Early Learning Board, Hawaii Family Support Institute, Hawai'i Community Foundation, HawaiiKidsCAN, Hawaii Youth Services Network, Early Childhood Action Strategy, Family Hui Hawai'i, Association for Infant Mental Health Hawai'i, Hawaii Children's Action Network Speaks!, Kamehameha Schools, Mental Health America of Hawai'i, Parent and Children Together, People Attentive to Children, and seven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that complex and prolonged trauma can have detrimental effects on a person's physical, mental, and behavioral health throughout their life. Studies have shown that traumatic experiences in childhood and adolescence can diminish concentration, memory, and the organizational language abilities students need to succeed in school, thereby negatively impacting a student's academic performance, classroom behavior, and the ability to form relationships. This measure establishes a temporary Office of Wellness and Resilience as a semi-autonomous authority within the Office of the Governor to support and implement the statewide framework developed by the trauma-informed care task force established pursuant to Act 209, Session Laws of Hawaii 2021.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2489 Health on S.B. No. 2592

The purpose and intent of this measure is to:

- (1) Define "clinical laboratory director" to include certain physicians, licensed clinical laboratory scientists, and pharmacists-in-charge of pharmacies; and
- (2) Amend the definition of "practice of pharmacy" to include the ordering and performing of certain Clinical Laboratory Improvement Amendments-waived tests.

Your Committee received testimony in support of this measure from Hawai'i Pharmacists Association, Walgreens, Times Pharmacy, Hawai'i--American Nurses Association, and four individuals. Your Committee received comments on this measure from the Department of Health, Board of Pharmacy, and Hawai'i State Center for Nursing.

Your Committee finds that the Clinical Laboratory Improvement Amendments of 1988, P.L. 100-578 (CLIA), regulates all facilities that perform laboratory testing on human specimens for health assessment. The CLIA provides waivers for certain tests, such as simple tests that are non-technical and have a low risk for erroneous results. Some examples of CLIA-waived tests include blood glucose monitoring tests, cholesterol monitoring tests, and, recently, coronavirus disease 2019 tests. Under current Department of Health regulations, pharmacies that perform CLIA-waived tests are required to partner with a clinical laboratory director to sign off on the application to perform CLIA-waived tests. This measure defines "clinical laboratory director" to include pharmacists-in-charge of pharmacies and specifies that ordering and performing certain CLIA-waived tests is included in the "practice of pharmacy."

Your Committee heard from various stakeholders, which recommended that pharmacists, rather than pharmacists-in-charge of pharmacies, be included as clinical laboratory directors authorized to sign applications to perform CLIA-waived tests. Furthermore, the measure as currently drafted lists specific CLIA-waived tests that are included within the "practice of pharmacy." Your Committee finds that this enumeration is unnecessary, as tests may be included or removed from the list of CLIA-waived tests in the future.

Therefore, your Committee has amended this measure by:

- (1) Replacing pharmacists-in-charge with pharmacists in the definition of "clinical laboratory directors";
- (2) Removing the enumerated list of CLIA-waived tests included in the definition of "practice of pharmacy";
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2592, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2592, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2490 Health on S.B. No. 2595

The purpose and intent of this measure is to:

- (1) Extend the deadline by which the transfer of the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health must be completed;
- (2) Set the procedure for the Oahu Regional Health Care System to request operational funding during the transition period;

- (3) Exempt the working group from chapter 92, Hawaii Revised Statutes; and
- (4) Appropriate moneys to facilitate the transition.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawaii Health Systems Corporation Oahu Region; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Health, Office of Information Practices, and Hawaii Health Systems Corporation.

Your Committee finds that Act 212, Session Laws of Hawaii 2021 (Act 212), requires the transfer of the Oahu Regional Health Care System facilities of the Hawaii Health Systems Corporation, comprising Leahi hospital and Maluhia, to the Department of Health. Act 212 set a date of December 1, 2023, for the transfer to be completed; however, because of the complexity of the transfer and the Department of Health's focus on the ongoing coronavirus disease 2019 pandemic and water contamination crisis resulting from the Red Hill Underground Bulk Fuel Storage Facility petroleum leak, the transfer will not be completed by the date contemplated by the Act. Therefore, this measure extends the deadline by which the requirements of Act 212 must be completed.

Your Committee notes the testimony of the Hawaii Health Systems Corporation and Department of Health, which proposed a potentially faster and cost saving alternative option to the Act 212 transition. This proposal statutorily creates a new attached quasi-agency such that the Oahu Region would be separate from the Hawaii Health Systems Corporation, maintain its current rights and benefits, including its own board of directors, while being attached to the Department of Health for budgetary purposes only.

Your Committee has amended this measure by:

- (1) Deleting the deadline dates by which the transition of the Oahu Regional Health Care System facilities must be completed;
- (2) Amending section 1 to reflect the unspecified date for the transition to occur;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2595, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2491 Health on S.B. No. 2635

The purpose and intent of this measure is to require insurers and mutual benefit societies to cover mandated services for mammography at least as favorably as coverage for other radiological examinations, beginning January 1, 2023.

Your Committee received testimony in support of this measure from the Hawaii Medical Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Department of Health.

Your Committee finds that among the detrimental effects of the coronavirus disease 2019 pandemic are delays in receiving routine health screenings and checkups, and in particular, mammography screening for women in the State. According to the Center for Disease Control, breast cancer screening declined by eighty-seven percent during April 2020 as compared with previous years. This is particularly problematic for women in the State, as women of Asian ancestry represent a sizable percentage of the population, and the ethnic group is the most likely to develop breast cancer before age fifty. To increase access to important health benefits for all women in the State, this measure requires existing mammography benefits under certain health insurance plans to be at least as favorable as coverage for other radiological exams.

Your Committee acknowledges the testimony from the Department of Commerce and Consumer Affairs, which proposed amendments for consistency with existing law. Therefore, your Committee has amended this measure by:

- (1) Making conforming amendments; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2635, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2492 Health on S.B. No. 2645

The purpose and intent of this measure is to allow standard telephone contacts for the purpose of providing telehealth services related to behavior health.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawaiian Island Association for Marriage and Family Therapy; National Association of Social Workers, Hawai'i Chapter; Hawai'i Family Caregiver Coalition; Hawaii Medical Association; Hawai'i Primary Care Association; Hawaii Psychiatric Medical Association; Hawai'i Public Health Association; Kauai Integrative Therapies, LLC; Mental Health of America of Hawai'i; Waianae Coast Comprehensive Health Center; Hawai'i Association of Professional Nurses; Self Help Hawaii, LLC; and twelve individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Service Association. Your Committee received comments on this measure from

the Department of Commerce and Consumer Affairs, Department of Human Services, The Queen's Health Systems, Hawai'i Pacific Health, Healthcare Association of Hawaii, and Kaiser Permanente Hawaii.

Your Committee finds that during the coronavirus disease 2019 pandemic, the Governor's emergency order allowed the use of standard telephone contacts between health care providers and patients to minimize in-person meetings while ensuring continued access to care. Allowing insurance reimbursement for telehealth through standard telephone contacts greatly increased access to care for vulnerable populations, including the elderly, low-income, medically- and socially-complex patients, and those in rural areas who do not have the broadband capabilities, electronic equipment, financial means, transportation options, or technological proficiency to operate sophisticated digital video conferencing software. This measure aims to make provisions of the emergency order permanent as it applies to behavioral health services by including standard telephone contacts for behavioral health services in the definition of "telehealth".

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2645, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2493 Health on S.B. No. 2718

The purpose and intent of this measure is to exempt any person who has reached the age of sixty-five from the requirement of having a debilitating medical condition to be eligible for the use of medical cannabis.

Your Committee received testimony in support of this measure from the Hawaii Cannabis Industry Association. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that medical cannabis has been shown to have positive effects treating debilitating conditions in addition to chronic conditions, such as insomnia, anxiety, stress, and other issues. These issues have been exacerbated by the coronavirus disease 2019 pandemic, particularly in senior citizens, due to stress, anxiety, and forced isolation. The geriatric population can benefit from cannabis treatment for a variety of symptoms not already included in the list of qualified medical conditions, such as sleep difficulties, tremor, spasticity, agitation, nausea, vomiting, and reduced appetite. This measure increases access to medical cannabis for persons sixty-five and older.

Your Committee acknowledges the testimony of the Department of the Attorney General, which offered amendments to cure technical flaws in the measure and to clarify that qualified patients aged sixty-five or older are also limited to possessing an "adequate supply" of medical cannabis, as defined by statute. Additionally, your Committee acknowledges the Department of the Attorney General's recommendation to clarify the preamble to avoid unintended age discrimination issues.

Therefore, your Committee has amended this measure by:

- (1) Clarifying section 1 to reflect that the geriatric population can benefit from medical cannabis to treat maladies that come with advanced age;
- (2) Clarifying that qualifying patients aged sixty-five or older are limited to possessing an "adequate supply" of medical cannabis;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2718, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2494 Health on S.B. No. 2749

The purpose and intent of this measure is to prohibit commercial vehicles from making pickups from, or deliveries to, business establishments during certain times of the day and within a certain proximity of single-family residences in the performance of the vehicles' pickup or delivery.

Your Committee received testimony in support of this measure from Kailua Neighborhood Board No. 31. Your Committee received testimony in opposition to this measure from Hawaii Transportation Association and Retail Merchants of Hawaii. Your Committee received comments on this measure from the City and County of Honolulu Department of Design and Construction.

Your Committee finds that vehicular noise pollution caused by excessive noise from commercial vehicles is not only a nuisance, but can also adversely impact a community's quality of life. This measure prohibits commercial vehicles from operating during certain times of the day when in a certain proximity of single-family residences.

Your Committee acknowledges the testimony of the City and County of Honolulu Department of Design and Construction, which recommended an exemption for commercial vehicles operating in response to an emergency.

Therefore, your Committee has amended this measure by:

- (1) Exempting from this measure, commercial vehicles operating in response to an emergency; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2749, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2495 Health on S.B. No. 2913

The purpose and intent of this measure is to:

- (1) Require a retail establishment with an employee toilet facility to allow a customer suffering from an eligible medical condition to use that restroom during normal business hours, under certain conditions; and
- (2) Exempt a retail establishment and employees from civil liability in allowing an eligible customer to use an employee toilet facility.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Big Island Ostomy Group, and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that individuals with certain medical conditions, including Crohn's disease and inflammatory bowel disease, may experience urgent restroom needs. This is especially problematic while the individual is in a retail location where there are no public restrooms. A model law entitled Ally's law, requires retail establishments to allow patrons access to employees only bathrooms if the patron has a legitimate medical condition and urgent need. This measure adopts Ally's law in Hawaii.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2913, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2496 Health on S.B. No. 3136

The purpose and intent of this measure is to require a dispenser of a controlled substance to either:

- (1) Report the filling of a controlled substance prescription to the State's Electronic Prescription Accountability System in real time; or
- (2) Report "zero" not less than once every seven days if no controlled substances prescriptions are filled.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that the Electronic Prescription Accountability System (EPAS) is the State's database for controlled substance prescriptions dispensed to patients. Under existing law, dispensers of controlled substances, like pharmacists, are required to report the dispensing of a controlled substance to the EPAS once every seven days. However, the national trend is to require real-time reporting of dispensed controlled substances. Up-to-date information better supports the prescribing and dispensing decisions of physicians, advanced practice registered nurses with prescriptive authority, and pharmacists. Additionally, requiring a dispenser to report "zero" if no controlled substances prescriptions are filled will allow the State to determine who is and is not dispensing controlled substances, and who is not complying with the State's reporting requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3136, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2497 Health on S.B. No. 3160

The purpose and intent of this measure is to establish the therapeutic psilocybin working group to examine the medicinal and therapeutic effects of psilocybin and develop a long-term strategic plan to ensure the availability of therapeutic psilocybin or psilocybin-based products that are safe, accessible, and affordable for adults twenty-one years of age or older.

Your Committee received testimony in support of this measure from the Oahu Economic Development Board; Banan, LLC; Kauhale Healing LLC; and twenty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Medical Association, Hawaii Psychiatric Medical Association, and Hawaii Substance Abuse Coalition. Your Committee received comments on this measure from the Department of Health, Beyond Mental Health, and American Psychiatric Association.

Your Committee finds that mental health conditions are treated in various ways, depending on the condition, and can include medication, therapy, and psychosocial services. Psilocybin is a naturally occurring chemical compound found in certain species of mushrooms that can activate serotonin receptors in the brain. Recently, the Food and Drug Administration designated a treatment that uses psilocybin in a therapeutic manner for treatment—resistant depression as a “breakthrough therapy”. This measure establishes the therapeutic psilocybin working group to examine the medicinal and therapeutic effects of psilocybin and develop a long-term strategic plan to determine its availability in the State.

Your Committee has amended this measure by:

- (1) Clarifying that a member’s participation in the working group alone does not subject them to the requirements of chapter 84, Hawaii Revised Statutes; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3160, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2498 Health on S.B. No. 3356

The purpose and intent of this measure is to authorize the Department of Health to approve in-vehicle receipt of medical cannabis and medical cannabis products on or near the premises of dispensaries under certain conditions.

Your Committee received testimony in support of this measure from the Department of Health, Hawai’i Cannabis Industry Association, Marijuana Policy Project, Maui Grown Therapies, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing medical cannabis laws require that dispensing of medical cannabis occur inside the dispensary’s retail store. The coronavirus disease 2019 pandemic presented complications regarding this requirement, because medical cannabis patients can be immunocompromised or have diagnosed anxiety. This measure allows the Department of Health to approve in-vehicle receipt of medical cannabis on the dispensaries’ premises.

Your Committee acknowledges the testimony of the Department of Health, which requests that the authorization to approve in-vehicle receipt of medical cannabis to be accomplished by administrative rules rather than statute so that the Department may have administrative flexibility.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the statutory authorization and conditions authorizing in-vehicle receipt of medical cannabis and instead authorizing the Department of Health to promulgate rules governing in-vehicle receipt of medical cannabis; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3356, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3356, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2499 Health on S.B. No. 3382

The purpose and intent of this measure is to allow the utilization of post office boxes for prescriptions by amending the definition of “address” under chapter 329, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Kaiser Permanente Hawaii.

Your Committee finds that currently, if a controlled substance prescription has a post office box address, the pharmacist cannot dispense the medication until the pharmacist has verified the patient’s identification, noted the ID number on the prescription, and changed the address. Your Committee finds that allowing pharmacists to utilize post office boxes for controlled substance prescriptions can increase workflow efficiency while not compromising patient safety. Your Committee also notes that the term “post office box” for the purposes of this measure is also intended to include rural route numbers.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3382, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2500 Health on S.B. No. 2954

The purpose and intent of this measure is to provide an exemption from the General Excise Tax (GET) for the sale of feminine hygiene products in the State, beginning July 1, 2022.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; Hawaii Food Industry Association; Retail Merchants of Hawaii; Common Cause Hawaii; Hawai'i Public Health Institute; Ma'i Movement Hawai'i, Inc.; Save Medicaid Hawaii; and four individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that feminine hygiene products are a basic need, not a luxury, for persons who menstruate. The imposition of the general excise tax (GET) on these products, therefore, operates as a regressive tax burden on those in lower income households. This measure exempts from the GET, the sale of feminine hygiene products, beginning July 1, 2022.

Your Committee acknowledges the testimony of the Department of Tax, which recommended that the exemption to the GET should be made effective January 1, 2023, to allow the Department to make necessary form and computer system modifications. Therefore, your Committee has amended this measure by inserting an effective date of January 1, 2023, to facilitate the administration of this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2954, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2954, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2501 (Joint) Health and Human Services on S.B. No. 2432

The purpose and intent of this measure is to:

- (1) Clearly define the group of professionals who are prohibited from knowingly referring or transferring patients to an uncertified or unlicensed care facility;
- (2) Repeal the exclusion for landlords from licensing requirements under certain conditions; and
- (3) Require the Department of Health to prioritize complaint allegations based on severity for inspections of state-licensed or state-certified care facilities.

Your Committees received testimony in support of this measure from the Department of Health, Executive Office of Aging, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Substance Abuse Coalition. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that there are a number of complaints about unlicensed care homes and facilities in the State that pose significant health risks to their elderly and vulnerable residents. The Department of Health has seen a growing number of unlicensed care homes masquerading as rental homes with several unrelated tenants all requiring care services. These unlicensed care homes usually meet the definition of residential care home, but the owners cite the landlord exclusion clause allowed by statute. This measure closes that loophole by repealing the landlord exclusion and expands the group of professionals who are prohibited from knowingly referring or transferring patients to unlicensed care facilities.

Your Committees acknowledge the testimony of the Department of Health, which requested amendments to make this measure consistent with existing law. Your Committees also note that this measure as written could encompass those persons who are acting in their individual capacities.

Therefore, your Committees have amended this measure by:

- (1) Replacing the word "fine" with "administrative penalty" for consistency with existing law;
- (2) Clarifying that persons acting in their individual capacities are not subject to this measure;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2432, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2432, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chairs on behalf of the Committees.
Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).
Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2502 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2274

The purpose and intent of this measure is to:

- (1) Require all nursing license applicants to respond to the center for nursing workforce supply survey in conjunction with license renewal, provided that the license renewal shall not be contingent upon responding to the workforce supply survey and failure to respond to the workforce supply survey shall not result in encumbrance of the nurse's license; and

- (2) Increase the center for nursing fee from \$40 to \$60 per license biennium.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Hawai'i State Center for Nursing, Hawai'i--American Nurses Association, Kaiser Permanente Hawaii, The Queen's Health Systems, and three individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Board of Nursing.

Your Committees find that Act 198, Session Laws of Hawaii 2003 (Act 198), established the Hawaii State Center for Nursing (Center), whose goals include collecting and analyzing data related to current and future trends in nursing, and recruiting and retaining nursing. Since 2003, the Center has made significant progress in creating statewide initiatives and programs to address the nursing shortage and increasing access to health care throughout the State. Your Committees further find that the center for nursing fees, which help to fund the Center's activities, has not increased since 2003, and the State again faces a nursing shortage.

This measure requires all nursing license applicants to respond to the Center's survey when renewing their nursing licenses and increases the nursing fee by \$20.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2274, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2274, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 2503 (Joint) Health and Commerce and Consumer Protection on S.B. No. 2678

The purpose and intent of this measure is to appropriate funds for the expansion of the Hawaii State Health Insurance Assistance Program by contracting with third party service providers and staffing consultants and recruiting more volunteers.

Your Committees received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board on Elder Affairs, AARP Hawai'i, Catholic Charities Hawai'i, and thirteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the Hawaii State Health Insurance Assistance Program (SHIP) helps individuals who qualify for Medicare to make informed decisions about health insurance decisions. SHIP has only two full time employees and is staffed by eighty-four trained volunteers. However, SHIP needs to expand to meet the growing demand, particularly as more baby boomers become eligible for Medicare. Therefore, this measure appropriates funds to the Executive Office of Aging to expand SHIP.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2678, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2678, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 7. Noes, none. Excused, none.

SCRep. 2504 Human Services on S.B. No. 2887

The purpose and intent of this measure is to:

- (1) Appropriate funds for the operating budget of the Department of Human Services for fiscal year 2022-2023; and
- (2) Require the Department of Human Services to make any and all efforts available each year to fully fund all programs relating to homelessness.

Your Committee received testimony in support of this measure from County of Hawai'i Office of Housing and Community Development; St. Michael the Archangel Church; Hope Services Hawaii, Inc.; and Community Alliance Partners. Your Committee received comments on this measure from the Department of Human Services, Governor's Coordinator on Homelessness, and Department of Budget and Finance.

Your Committee finds that there is a need to sustain homeless programs and services with predictable and stable funding. Before the coronavirus disease 2019 (COVID-19) pandemic, there was a steady decrease in homelessness resulting in part from the implementation of a broad and diverse array of homeless programs and services. However, the demand for homeless services significantly increased and required changes due to the health and economic impacts of COVID-19. This measure will fund and preserve existing homeless services which were proven to be successful.

Your Committee has amended this measure by inserting blank appropriation amounts.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2887, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2505 Transportation on S.B. No. 2475

The purpose and intent of this measure is to clarify that amounts received or accrued for stevedoring services and related services, wharfage, and demurrage are exempt under the general excise tax law.

Your Committee received testimony in support of this measure from Matson Navigation Company, Inc. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and the Tax Foundation of Hawaii.

Your Committee finds that interisland cargo transportation is a lifeline for residents and businesses across the State. However, Hawaii consumers pay a higher cost for goods than consumers in the continental United States, as shipping costs are reflected in the costs of imported goods.

Your Committee further finds that tax exemptions relating to the transportation of cargo by ship are warranted because the imposition of tax on the amounts received or accrued for interstate shipping and related services would ultimately be borne by consumers and negatively impact Hawaii's economy. Therefore, the purpose of this measure is to clarify that amounts received or accrued for stevedoring services, wharfage, and demurrage are exempt under the general excise tax law.

Your Committee has amended this measure by:

- (1) Deleting the undefined term "related services" to narrow the exemption;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Department of Taxation expressing concerns that this measure should exempt specific income, not payments. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2475, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2506 Hawaiian Affairs on S.B. No. 899

The purpose and intent of this measure is to require that at least three members of the State Council on Mental Health have demonstrated knowledge of or work experience involving Native Hawaiian concepts of well-being, culturally-grounded mental health methodologies, or traditional healing or health practices.

Your Committee received testimony in support of this measure from the State Council on Mental Health, Department of Health, Health Committee of the Democratic Party of Hawai'i, 'Ahahui o na Kauka - Association of Native Hawaiian Physicians, Hawai'i Psychological Association, Hawaiian Islands Association for Marriage and Family Therapy, National Association of Social Workers-Hawai'i Chapter, and two individuals.

Your Committee finds that Native Hawaiians experience distinct overall health disparities compared to other demographics. Youth suicide attempts and death rates in Hawaii are highest among Native Hawaiians and Native Hawaiian youth and emerging adults are 2.3 times more likely to die by suicide compared to their Caucasian contemporaries in Hawaii.

Your Committee further finds that while these mental health disparities begin early in life and have profoundly negative impacts on the community, Native Hawaiians tend to underutilize existing mental health services or only do so once the condition becomes severe. Your Committee finds that eliminating health disparities and achieving health equity across demographics is a matter of high priority. To achieve this goal, this measure requires at least three members of the State Council on Mental Health to be individuals having demonstrated knowledge of or work experience involving Native Hawaiian concepts of well-being, culturally-grounded mental health methodologies, or traditional healing or health practices.

Your Committee has amended this measure by:

- (1) Deleting language that would have required at least three members of the State Council on Mental Health to have demonstrated knowledge of or work experience involving Native Hawaiian concepts of well-being, culturally-grounded mental health methodologies, or traditional healing or health practices;
- (2) Inserting language to require all members of the State Council on Mental Health to receive annual training that includes topics such as cultural awareness and loss of ethnic identity, as well as other topics that address Native Hawaiian healing and health practices; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 899, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 899, S.D. 1, and be referred to your Committee on Judiciary.

Signed by President on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2507 Hawaiian Affairs on S.B. No. 2566

The purpose and intent of this measure is to require that the Governor make nominations to fill vacancies on the Hawaiian Homes Commission in accordance with recommendations by representatives from the Hawaiian homestead and beneficiary associations within sixty days and that these candidates have a working knowledge of the Hawaiian Homes Commission Act of 1920.

Your Committee received testimony in support of this measure from the Pi'ihonua Hawaiian Homestead Community Association and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that the current process for selecting candidates to fill vacancies on the Hawaiian Homes Commission undermines the effectiveness of the Commission. Vacancies on the Commission can persist for months or years, and when they are filled, those Commissioners may lack sufficient knowledge of the Hawaiian Homes Commission Act of 1920. Therefore, the purpose of this measure is to expedite the nomination process to fill vacancies on the Hawaiian Homes Commission and expand beneficiary input in the selection process to ensure a higher standard of nominees.

Your Committee has amended this measure by:

- (1) Changing the district councils from the bodies that provide a list of candidates which the Governor may select a commissioner from, to advisory bodies providing recommendations to the Governor regarding the decision on filling vacancies on the Hawaiian Homes Commission;
- (2) Requiring names for possible candidates for the Hawaiian Homes Commission to be submitted to the Governor within thirty days and for the Governor to appoint an individual within ninety days; and
- (3) Removing restrictive language to allow the councils more decision-making flexibility.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2566, S.D. 1, and be referred to your Committee on Judiciary.

Signed by President on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2508 Hawaiian Affairs on S.B. No. 1281

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to release to beneficiaries of the Hawaiian Homes Commission Act, 1920, quarterly reports that contain certain information regarding leases and fiscal matters.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that transparency and accountability is of the utmost importance. Therefore, the purpose of this measure is to require the Department of Hawaiian Home Lands to provide quarterly accountability reports to beneficiaries within fifteen days following the end of each quarter.

Your Committee notes that the Department of Hawaiian Home Lands would like to send quarterly updates by mail to beneficiaries especially as a service to those beneficiaries without access to a computer, but each round of mailings costs upwards of \$10,000, which are funds more appropriately allocated to solving the wait list housing issues.

Your Committee has amended this measure by:

- (1) Adding the planned contents of these quarterly reports to the already existing monthly online reports; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1281, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by President on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Acasio).

SCRep. 2509 (Joint/Majority) Hawaiian Affairs and Water and Land on S.B. No. 3103

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to assume historic preservation review of any proposed project on lands under its jurisdiction except for projects affecting properties listed or nominated for inclusion in the Hawaii register of historic places or the national register of historic places.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, Hawaii State Aha Moku, and one individual. Your Committees received testimony in opposition to this measure from the Historic Hawai'i Foundation, Society for Hawaiian Archaeology, and one individual.

Your Committees find that protection of the State's historic sites is a high priority. This measure allows the Department of Hawaiian Home Lands to assume review of the effect of any proposed project on historic properties or burial sites for lands under its jurisdiction.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3103 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by President and the Chair on behalf of the Committees.
 Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Acasio). Noes, 1 (Fevella). Excused, none.
 Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2510 (Joint) Human Services and Judiciary on S.B. No. 2638

The purpose and intent of this measure is to:

- (1) Require the Department of the Attorney General to provide annual reports to the Legislature on specified data pertaining to the commercial sexual exploitation of children; and
- (2) Appropriate moneys.

Your Committees received testimony in support of this measure from Hawaii Youth Services Network, Hawai'i Pacific Health, Imua Alliance, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Human Services, and the Department of Budget and Finance.

Your Committees find that, during the coronavirus disease 2019 pandemic, demand for services for survivors of sex trafficking in the State increased exponentially. Obtaining quality data about children and youth who are survivors of commercial sexual exploitation is a critical tool for understanding their needs and increasing professional and community awareness. Reports to the Legislature containing pertinent data will be helpful in assessing and improving the State's response to the trafficking of minors.

Your Committees have heard the concerns raised in testimony that this measure, as presently drafted, requires the Department of the Attorney General to collect data for which there is no existing statewide database and that the data available to the Department is limited to what other entities are willing to provide. Certain existing rules may limit data sharing due to ongoing investigations, criminal prosecutions, and treatment services for victims, which could consequently limit the Department of the Attorney General's ability to satisfy the specific data requirements of this measure. Therefore, amendments to this measure are necessary to address these concerns.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of the Attorney General shall submit an annual report to the Legislature containing available data from entities that collect and are willing to provide data pertaining to the commercial sexual exploitation of children in the State to the Department, which will cover the immediately preceding fiscal year;
- (2) Requiring the Department of the Attorney General to post a copy of the annual report on its website;
- (3) Clarifying every public official and every state and county department or agency, as applicable, may share information with and provide assistance and cooperation to the Department of the Attorney General to carry out its reporting duties; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2638, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2638, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 5. Noes, none. Excused, none.
 Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2511 (Joint) Human Services and Judiciary on S.B. No. 2458

The purpose and intent of this measure is to appropriate funds to the Judiciary to contract with non-profit organizations to provide legal counsel and assistance to low-income immigrants.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations Office of Community Services, Office of the Public Defender, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigrant Rights, The Legal Clinic, InterAgency Council for Immigrants and Refugees, Americans for Democratic Action Hawai'i, Pacific Gateway Center, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that immigration law is complex and not easily navigable without legal expertise. Additionally, Hawaii is experiencing a critical shortage of low-income legal service providers, which compounds many immigrants' barriers to obtaining assistance with immigration matters and their civil legal needs. A number of recent working groups have recommended increasing funding for civil legal services for Hawaii's low-income residents. Despite the significant contributions made by immigrants to the State's gross domestic product, immigration legal services remain prohibitively expensive for low- to moderate-income immigrants, which can further impact their abilities to gain employment, permanent and safe housing, and a number of other services that may include immigration matters. Statistics further indicate having legal counsel in immigration proceedings often makes a difference between whether an individual is allowed to remain safely in the United States or be deported to harmful circumstances or permanently separated from their family. Accordingly, this measure will help fill a critical gap in services for the low-income immigrant members of communities in the State.

Your Committees have amended this measure by:

- (1) Inserting a \$250,000 appropriation amount;
- (2) Inserting a definition of "low income" to mean a person whose family income does not exceed the federal poverty level for a family of applicable size, for purposes of qualifying for assistance;

- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2458, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2458, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Human Services: Ayes, 5. Noes, none. Excused, none.
 Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2512 Higher Education on S.B. No. 91

The purpose and intent of this measure is to remove the Special Funds of the University of Hawaii and the Hawaii Cancer Research Special Fund from the list of special funds that are exempt from the requirement to reimburse the Department of Budget and Finance for expenses incurred from administering the funds.

Your Committee received testimony in opposition to this measure from the University of Hawai'i System, American Cancer Society Cancer Action Network, and one individual.

Your Committee finds that the Special Funds of the University of Hawaii and the Hawaii Cancer Research Special Fund provide crucial, valuable services to University of Hawaii students and broader communities across the State. For example, the University of Hawaii Cancer Center provides critical research and clinical trials to cancer patients who rely on programs administered by the Cancer Center to receive experimental life-saving treatments. As the only designated cancer research organization in the Hawaii-Pacific region, the work provided by the Cancer Center provides many benefits to cancer patients and their families.

However, your Committee had heard the concerns from the University of Hawaii System and community members regarding the elimination of exemptions from administrative expense reimbursement for the Special Funds of the University of Hawaii and the Hawaii Cancer Research Special Fund. Both special funds provide valuable services to students within the University of Hawaii System and community members. Eliminating exemptions for both special funds will increase costs associated with general operations and existing services. To address the potential impacts of eliminating the exemptions for the special funds, while also addressing accountability, your Committee has amended this measure by:

- (1) Retaining statutory exemptions from administrative expense reimbursements for the Special Funds of the University of Hawaii and the Hawaii Cancer Research Special Fund;
- (2) Requiring the Special Funds of the University of Hawaii and Hawaii Cancer Research Special Fund to submit annual detailed reports to the Legislature on the following:
 - (A) Salaries;
 - (B) Maintenance of buildings and grounds;
 - (C) Utilities;
 - (D) General office expenses;
 - (E) Implementation of information technology policies; and
 - (F) Transfers into and out of the special funds; and
- (3) Requiring the annual reports to be submitted to the Legislature no later than twenty days prior to the convening of each regular session.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 91, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 10. Noes, none. Excused, none.

SCRep. 2513 (Joint) Water and Land and Transportation on S.B. No. 2895

The purpose and intent of this measure is to:

- (1) Create a temporary intergovernmental task force to assist in the establishment and certification of a Metropolitan Planning Organization for the County of Hawaii;
- (2) Require the Department of Transportation to provide a list of certain highway projects to the task force; and
- (3) Require a report to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii County Council and one individual. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Federal-Aid Highway Act of 1962 required a Metropolitan Planning Organization (MPO) to be established for any urbanized area with a population of over 50,000 as a condition to eligibility for federal transportation financial assistance. Congress intended MPOs to serve as a forum for promoting collaboration among local communities and government

agencies and to direct federal funds toward projects that increase access to opportunity and prosperity through improved multimodal pedestrian, bicycle, and transit options.

Currently, there are two established MPOs operating in the State of Hawaii: one located in the County of Maui and the other in the City and County of Honolulu. According to the 2020 United States Census, which provides critical data that lawmakers, business owners, and many others use to provide daily services, products, and support for communities throughout the nation, the population of the County of Hawaii has grown to over two hundred thousand. The population growth has prompted local officials to reexamine the feasibility of a MPO to address the many transportation infrastructure and connectivity challenges exasperated by its growing population and topography. To address some of the challenges from the 2020 United States Census results, this measure creates a temporary intergovernmental task force to assist in the establishment and certification of a MPO.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2895, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2895, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2514 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 3013

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Kahoolawe Island Reserve Commission; and
- (2) Fund two full-time equivalent permanent positions for the Kahoolawe Island Reserve Commission.

Your Committees received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, Hawaii State Aha Moku, one member of the Maui County Council, Conservation Council for Hawai'i, Pacific American Foundation, Maui High Cloud Bridge Club, and twenty-three individuals. Your Committees received testimony in opposition to this measure from one member from the Waimanalo Neighborhood Board and the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Act 340, Session Laws of Hawaii 1993, identified the island of Kahoolawe's significant cultural and historic importance to the native people of Hawaii, establishing the Kahoolawe Island Reserve Commission (KIRC) to "meet the challenges of restoring and presenting the island" following "extensive erosion and other ecological problems, presence of unexploded ordnance, archaeological sites, and native and endangered flora and fauna". Following the United States Navy's unexploded ordnance cleanup efforts in 2004, the KIRC initiated numerous restoration projects that have made significant changes to desolate hardpan into vibrant living landscapes, with many projects initially financed from a federally funded trust fund, various grant opportunities, and more recently, with State funds.

To complete restoration projects, the KIRC relies on a volunteer workforce brought to Kahoolawe to assist with native out plantings, erosion control construction, and invasive weed eradication. Despite a strong volunteer workforce, the KIRC lacks key support services such as Kahoolawe base camp facilities, utilities generation, and maintenance of vital infrastructure, equipment, and vehicles. In recent years, unpredictable weather patterns have caused severe weather and ocean conditions, a likely impact from climate change and global warming. Expansion of efforts to create more native dryland forest habitats, beach restoration and shoreline protection, food sustainability, and on-island water generation are further impacted due to unsafe and unpredictable weather, creating a difficult situation to transport volunteers. While the KIRC focuses its efforts on restoration projects and revitalization of Kahoolawe, this measure appropriates funds to the Kahoolawe Island Reserve Commission to continue its important and necessary work on Kahoolawe.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3013, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3013, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2515 (Joint) Water and Land and Health on S.B. No. 3376

The purpose and intent of this measure is to appropriate funds for the establishment of one full-time equivalent planner position related to mosquito control in the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Center for Biological Diversity, The Nature Conservancy, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that non-native mosquitoes pose significant multi-sector threats to the State, including negative impacts on human health, conservation, tourism, and economics. Residents and visitors in the State face health threats resulting from the transmission of mosquito-borne diseases, which have also led to devastating impacts on Hawaii's native bird populations, including being the leading driver in the ongoing extinction risk of most of Hawaii's remaining endemic honeycreepers.

Your Committees also heard the concerns of the Department of Land and Natural Resources and Department of Health, which have jointly collaborated on landscape mosquito control relating to public health in the past. Landscape mosquito control has been ongoing and remains urgently needed across the State to counter threats to both native species and humans, necessitating action for a program to combat *Aedes* mosquitoes.

Your Committees have amended this measure by:

- (1) Replacing the full-time equivalent planner position with a program specialist position within the Department of Land and Natural Resources;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3376, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3376, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).

SCRep. 2516 (Joint) Human Services and Transportation on S.B. No. 3121

The purpose and intent of this measure is to:

- (1) Establish an Accessible Parking Special Account within the Disability and Communication Access Board Special Fund;
- (2) Increase the state annual vehicle registration fee by \$1 and require the \$1 to be deposited into the Accessible Parking Special Account; and
- (3) Require all costs associated with the statewide Parking for Persons with Disabilities Program to be appropriated from the Accessible Parking Special Account beginning July 1, 2022.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the Parking for Persons with Disability Program is a federally required program administered by the Disability and Communication Access Board that issues first-time, temporary, and replacement placards to persons with a disability. Your Committees further find that the Parking for Persons with Disability Program is currently funded entirely by general funds. Therefore, its funding was severely impacted by the significant decline in the State's general revenues due to the disruptions caused by the coronavirus disease 2019 pandemic. This measure will allow the Parking for Persons with Disability Program to become self-sufficient and ensure that it is unaffected by future economic conditions.

Your Committees note the testimony of the Disability and Communication Access Board requesting that the date on which all costs associated with the Parking for Persons with Disabilities Program shall begin to be appropriated from the Accessible Parking Special Account to be changed from July 1, 2022, to July 1, 2023.

Accordingly, your Committees have amended this measure by:

- (1) Changing the date on which all costs associated with the Parking for Persons with Disabilities Program shall begin to be appropriated from the Accessible Parking Special Account from July 1, 2022, to July 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees also note the testimony of the Tax Foundation of Hawaii, stating that repeal of special funds enhances transparency and accountability in the budgeting process, and raising concerns that creating a special account within a special fund adds to the complexity of accounting for state funds. Your Committees find that this issue raises concerns that merits further consideration and respectfully request that your Committee on Ways and Means further examine the matter.

As affirmed by the records of votes of the members of your Committees on Human Services and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3121, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2517 Transportation on S.B. No. 2627

The purpose and intent of this measure is to make an emergency appropriation to the Department of Transportation for construction of a new perimeter fence at Kahului Airport as a safety response to the overpopulation of axis deer in Maui county.

Your Committee received testimony in support of this measure from the Department of Transportation, Maui Chamber of Commerce, and one individual.

Your Committee finds that deer overpopulation in the County of Maui has led to a state of emergency. Around fifty thousand axis deer exist in Maui County and as many as five hundred living near and threatening the safety of Kahului Airport. Deer entering onto the airport runway is a major safety hazard. Therefore, the purpose of this measure is to make an emergency appropriation of funds to replace the perimeter fence around the airport.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

Your Committee notes that the construction of a new perimeter fence at Kahului Airport may be funded in multiple ways and requests that your Committee on Ways and Means examine various funding mechanisms.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2627, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2627, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2518 (Joint) Transportation and Government Operations on S.B. No. 2400

The purpose and intent of this measure is to:

- (1) Allow any county or state agency responsible for maintenance of a highway to recover from the owner or driver of a vehicle the actual cost of removal of materials dropped or spilled on the highway; and
- (2) Make an appropriation to the Department of Transportation for signage to inform the public about laws relating to littering.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii.

Your Committees find that those who litter, spill, or leak materials onto the road can cause high costs to the State in unanticipated maintenance expenses. The purpose of this measure is to allow the agency responsible for the maintenance of any highway to recover the actual cost of removal of the materials from the driver or owner of the vehicle that littered, spilled, or leaked the material. This measure also appropriates money for signage to inform the public about highway littering laws.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2400 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Government Operations: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Gabbard).

SCRep. 2519 (Joint) Transportation and Government Operations on S.B. No. 3183

The purpose and intent of this measure is to require the Director of Transportation to establish and implement a digital identification pilot program.

Your Committees received testimony in support of this measure from the Department of Transportation, Office of Enterprise Technology Services of the City and County of Honolulu, Department of Customer Services, and NEC Corporation of America. Your Committees received testimony in opposition to this measure from the Libertarian Party of Hawaii and one individual. Your Committees received comments on this measure from Common Cause Hawaii and one individual.

Your Committees find that implementation of digital identification could increase both the accuracy and efficiency of many processes and agencies in the future. This measure establishes a pilot program for digitize driver's licenses and government-issued identification cards.

Your Committees have amended this measure by:

- (1) Removing language relating to federal REAL ID;
- (2) Requiring digital license renewals to provide for automatic voter registration;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3183, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3183, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
 Transportation: Ayes, 5. Noes, none. Excused, none.
 Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2520 (Joint) Labor, Culture and the Arts and Government Operations on S.B. No. 2560

The purpose and intent of this measure is to require state departments and agencies to:

- (1) Establish hiring and promotion goals for position-qualified transgender and non-binary persons by January 1, 2023;
- (2) Develop transgender employment policies addressing specified areas by January 1, 2023, to promote inclusive, safe workplaces that respect gender identity; and
- (3) Submit annual reports to the Legislature.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawai'i State Commission on the Status of Women, Hawai'i Health & Harm Reduction Center, Hawaii Women's Coalition, and fifteen individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that state law governing employment practices prohibits discrimination based on sex, including gender identity, gender expression, and sexual orientation. Your Committees find, however, that there is an undeniable gap between the law and reality--the sexual and gender minority population has historically been and continues to be subject to unequal treatment in employment. Your Committees also acknowledge that the coronavirus disease 2019 pandemic has had a disparate impact on lesbian, gay, bisexual, transgender, and queer individuals. Your Committees find that this measure takes a proactive approach to correct the decade-long effects of unequal treatment by ensuring that sexual and gender minority individuals have access to equal employment opportunities.

Your Committees note the testimony of the Hawaii Civil Rights Commission raising concerns over arguments that remedial affirmative action policies are violative of the equal protection clause of the Fourteenth Amendment. Your Committees also note the testimony of the Department of Human Services stating that the Department and Department of Transportation have adopted affirmative action policies in consideration of such issues. To develop a Transgender Employment Policy that is uniformly applicable and narrowly tailored to effectuate the intent of this measure, your Committees believe that the task should be assigned to the Department of Human Resources Development rather than have each state department and agency individually develop their own policies.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Department of Human Resources Development to:
 - (A) Establish its hiring and promotion goals for position-qualified transgender and non-binary persons by January 1, 2024;
 - (B) Develop the State's Transgender Employment Policy addressing specified areas by January 1, 2024, to promote inclusive, safe workplaces that respect gender identity; and
 - (C) Submit annual reports to the Legislature on the progress towards meeting its hiring goal before the convening of the Regular Sessions of 2025 and 2026;
- (2) Inserting an unspecified appropriation amount;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that the Department of Human Resources Development review the affirmative action policies adopted by the Department of Human Services and Department of Transportation in developing transgender employment policies for the State.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2560, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2560, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.
 Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2521 Judiciary on S.B. No. 3226

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to prepare a digital voter registration guide to be posted on its website;
- (2) Require the Office of Election to mail a notice with each ballot notifying voters that a voter information guide may be found on its website; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from Common Cause Hawaii, National Federation of the Blind of Hawaii, League of Women Voters of Hawaii, Community Alliance on Prisons, and Americans for Democratic Action Hawai'i. Your Committee received comments on this measure from the Department of the Attorney General, Department of Budget and Finance, Office of Elections, and Disability and Communication Access Board.

Your Committee finds that all states make an effort to inform the electorate about upcoming elections, where and when the elections will be held, and how to cast a vote. Your Committee further finds that some states provide information to registered voters that contain valuable information such as candidate information or background information on constitutional amendments or ballot measures. This measure will provide for a digital voter information guide to registered voters of the State, which will create a more informed voting public and increase voter participation in elections.

Your Committee has amended this measure by:

- (1) Specifying that the digital voter information guide be posted in a screen reader accessible format for voters with special needs unable to read standard print due to disability;
- (2) Specifying that the Office of Elections is required to provide a translation of the digital voter information guide in 'Ōlelo Hawai'i on its website;
- (3) Clarifying that Office of Elections shall print and mail a physical copy of the digital voter information guide to voters upon request;
- (4) Clarifying that the candidate running for office shall prepare the candidate statement; provided that the Office of Elections may uniformly limit the number of words for the candidate statement based on the race the candidate is in;
- (5) Specifying that the County Corporate Counsel shall prepare a clear and concise explanation for each proposed county charter amendment, or proposed initiative or referendum issue;
- (6) Specifying that the notice of the digital voter information guide be sent by email to all voters with special needs who have registered to receive alternate format ballots;
- (7) Inserting an effective date of January 1, 2023, for section 1;
- (8) Inserting an effective date of July 30, 2075, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3226, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

SCRep. 2522 Judiciary on S.B. No. 2923

The purpose and intent of this measure is to increase the maximum fine that may be assessed per fireworks-related violation from \$2,000 to \$5,000; provided that the fireworks violation does not otherwise have a specific penalty enumerated in statute.

Your Committee received testimony in support of this measure from the Department of Public Safety and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the use of aerial fireworks, including during celebrations, continues to cause significant disruption and concern and that a stronger deterrent is needed to curtail the use of illegal fireworks. According to the Report of the Illegal Fireworks Task Force to the Legislature for the Regular Session of 2011, increasing fines associated with illegal fireworks may act as a stronger deterrent. Your Committee believes that this measure will reduce the use of aerial fireworks, including during celebrations, by increasing the maximum fine that may be assessed per fireworks-related violation from \$2,000 to \$5,000; provided that the fireworks violation does not otherwise have a specific penalty enumerated in statute.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2923 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Gabbard, Keohokalole).

SCRep. 2523 Judiciary on S.B. No. 2089

The purpose and intent of this measure is to propose an amendment to article I, section 25, of the Hawaii State Constitution to provide that the Legislature may define:

- (1) What behavior constitutes a continuing course of conduct in continuous sexual assault crimes against minors younger than sixteen years of age;
- (2) What behavior constitutes a continuing course of conduct in continuous abuse of a minor younger than sixteen years of age; and
- (3) What constitutes the jury unanimity that is required for a conviction under these two charges.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Rainbow Family 808, and one individual.

Your Committee finds that in 1997, to address the difficulty in prosecuting those who repeatedly sexually assault a child, the Legislature passed a law to prohibit continuous sexual assault of a minor under the age of fourteen years. This law was invalidated by the Hawaii Supreme Court, which held that a constitutional amendment was necessary to prohibit continuous sexual assault of children

in a manner intended by the Legislature. A constitutional amendment similar to the proposed amendment was proposed to voters in 2004 but was invalidated by the Hawaii Supreme Court. The present version of article I, section 25, of the Hawaii State Constitution was passed by voters in 2006. Your Committee believes that the health, safety, and wellbeing of Hawaii's keiki continue to be a priority for the State. This measure will allow the State to address the difficulty in prosecuting those persons who repeatedly abuse a child, given the difficulty that children have in remembering the individual dates on which they were abused, by allowing the Legislature to expand the offense of continuous sexual assault of a minor from the existing statutory age of fourteen years to sixteen years.

Your Committee has amended this measure by:

- (1) Deleting language that would have allowed the Legislature to define what behavior constitutes a continuing course of conduct in continuous abuse of a minor younger than sixteen years of age;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2089, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2089, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 2524 Judiciary on S.B. No. 2113

The purpose and intent of this measure is to appropriate supplemental funds for the Judiciary for the fiscal biennium beginning July 1, 2021, and ending June 30, 2023.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, Hawaii County Bar Association, Volunteer Legal Services Hawaii, Legal Aid Society of Hawaii, Hawaii State Bar Association Appellate Section, West Hawaii Bar Association, and Hawaii Access to Justice Commission.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has had a major financial impact on the Judiciary. To help address the severe budget shortfall that the State faced at the onset of the pandemic, the Judiciary's budget was reduced by \$9,000,000 in fiscal year 2019-2020 and \$14,700,000 in fiscal year 2020-2021, for a total reduction of \$23,700,000. During the same period, one hundred ninety-two vacant positions were defunded, including twelve permanent positions and eight per diem judge positions. Your Committee notes that the Judiciary adjusted to these budget reductions by cutting its expenditures for service contracts, regular pay, utilities, jury costs, guardian ad litem and attorney fees, travel expenses, repair and maintenance, and overtime pay.

Your Committee further finds that in addition to the capital improvement projects listed in this measure as received by your Committee, the Judiciary has identified seventeen smaller capital improvement projects, the costs of which total \$3,120,000, that are necessary to ensure that the court system continues to function effectively and efficiently:

- (1) For the first circuit:
 - (A) Kaahumanu Hale – \$150,000 to waterproof judges' elevator 8, create an apron to divert water from the base of the building, make associated interior repairs, and re-landscape;
 - (B) Kauikeaouli Hale – \$500,000 to add fencing and gates to secure entry courtyard against after-hours occupancy by unauthorized persons; and
 - (C) Abner Paki Hale – \$250,000 to excavate and waterproof foundation exterior;
- (2) For the second circuit: Hoapili Hale - \$250,000 to replace broken cast iron storm water piping with plastic piping where not already done;
- (3) For the third circuit: Hale Kaulike - \$50,000 to fund a power purchase agreement request for proposals to add solar power above parking;
- (4) For the fifth circuit:
 - (A) Puuhonua Kaulike - \$125,000 to perform crack repair, reseal and restripe, and reapply miscellaneous markings in parking areas to renew the parking lot;
 - (B) Puuhonua Kaulike - \$300,000 to upgrade security cameras and related cabling to improve courthouse and grounds security;
 - (C) Puuhonua Kaulike - \$500,000 to remove failing duct insulation and install new insulation in multiple open-air locations, including the judges' garage, sally port, and sheriff's holding area;
 - (D) Puuhonua Kaulike - \$500,000 to replace select air handling units;
 - (E) Puuhonua Kaulike - \$100,000 to retrofit lighting in building interior to LEDs; and
 - (F) Puuhonua Kaulike - \$70,000 to retrofit emergency lighting and ballasts to LEDs; and
- (5) For administration and courts of appeal:

- (A) Aliiolani Hale and Kapuwiwa - \$25,000 for sprinkler system reconfiguration, repair, and upgrade;
- (B) Aliiolani Hale - \$50,000 for temporary mitigation of the worst roof leaks and damages while a long-term solution is explored and implemented;
- (C) Aliiolani Hale - \$25,000 to regrade and mitigate ponding and disperse condensate disposed from roof level air conditioning equipment along Queen Street;
- (D) Aliiolani Hale - \$75,000 for skylight repairs;
- (E) Kapuwiwa - \$50,000 for temporary mitigation of the worst roof leaks and damages while a long-term solution is explored and implemented; and
- (F) Kapuwiwa - \$100,000 to repair a drain and add an enclosure at the electric service entry stairs.

Your Committee has amended this measure by:

- (1) Appropriating an additional \$200,000 in general funds to Administration (JUD601) for fiscal year 2022-2023 to be allocated as follows:
 - (A) \$100,000 for court-appointed guardians ad litem; and
 - (B) \$100,000 for court-appointed attorneys;
- (2) Making a corresponding reduction of \$203,406 in the amount of general funds appropriated for the First Circuit (JUD310). These funds are currently allocated to fund the following five vacant positions:
 - (A) Janitor II (position no. 500722) - \$22,146;
 - (B) Court bailiff I (position no. 15958) - \$39,540;
 - (C) Estate & guardianship specialist (position no. 4735) - \$50,016;
 - (D) Judicial clerk II (position no. 25250) - \$48,084; and
 - (E) Juvenile counselor I (position no. 500649) - \$43,620;
- (3) Authorizing the Judiciary to expend moneys appropriated by this Act to provide compensation to court-appointed guardians ad litem and attorneys at rates greater than those specified in section 571-87, Hawaii Revised Statutes; and
- (4) Authorizing an additional \$3,120,000 in general obligation bonds to fund the additional, smaller capital improvement projects identified by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Kim).

SCRep. 2525 Labor, Culture and the Arts on S.B. No. 2707

The purpose and intent of this measure is to:

- (1) Require the employer to initiate negotiations on repricing of classes within a bargaining unit within thirty days of the employer's receipt of a written request to negotiate from the exclusive representative; and
- (2) Establish that the employer's failure to initiate the negotiation for repricing within the thirty-day time frame and the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate or by January 31 of a year in which the collective bargaining agreement is due to expire, whichever is earlier, constitute an impasse to which the impasse procedures in section 89-11, Hawaii Revised Statutes, shall apply.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Department of Budget and Finance, City and County of Honolulu Department of Human Resources, and County of Hawai'i Department of Human Resources.

Your Committee finds that it is extremely difficult for employees to seek the repricing of their classifications under the existing process. Employers may deny the employees' repricing requests by merely announcing its determination that all current position pricing is appropriate without providing a basis, and there are no venues for the employees to appeal or adjudicate the employer's determination. This measure gives the parties a reasonable time frame to negotiate the repricing of classes within a bargaining unit and a process the parties may follow in the event the employer fails to negotiate or the parties fail to reach an agreement within a certain time frame. Your Committee finds that this measure will ensure that public employees are being paid competitive and fair wages, which will allow the employers to recruit and retain qualified workers.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2707 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 2526 Labor, Culture and the Arts on S.B. No. 2713

The purpose and intent of this measure is to allow the Director of Finance to issue general obligation bonds in the sum of \$1,000,000 to provide funding for the development of a Master Plan to address the current and future facilities needs of the State Archives.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and one individual.

Your Committee finds that the State Archives, an entity responsible for collecting, arranging, describing, and making accessible the public archives of the State, is an irreplaceable part of Hawaii's legacy, history, culture, and identity. According to the Department of Accounting and General Services, the State Archives facility, which was designed seventy years ago, is severely outdated in both form and function to address the digital age that the State now operates in. The facility is currently at ninety-eight percent of its approximately 14,000 cubic feet of storage-capacity and is projected to reach full capacity in the next biennium. The facility's space constraints are severely impinging upon the State Archive's ability to accommodate patrons conducting archival research; display the historical artifacts it holds in the public trust; conduct proper archival processing and conservation of the materials; collect the archives of the many diverse subgroups within the various communities of Hawaii that have added to our shared history and culture; and engage more volunteers to assist staff, thereby reducing the number of possible records that could be made available to the public.

Your Committee further finds that the coronavirus disease 2019 pandemic, which greatly disrupted the public's ability to travel and access the State Archive records in person, highlighted the need to post more of the records online to be accessible to people around the world, twenty-four hours a day, seven days a week. However, the State Archive's current facility is incapable of providing the digitization infrastructure necessary for such large-scale access.

This measure appropriates funds for the development of a State Archives Master Plan, including the expansion and creation of new collections processing and storage, administrative, public research, exhibition, and community engagement spaces, that will enable the people of Hawaii to further connect with their documentary heritage.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2713 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2527 (Joint) Labor, Culture and the Arts and Judiciary on S.B. No. 3072

The purpose and intent of this measure is to exempt the Hawaii Employer-Union Health Benefits Trust Fund ("Trust Fund") from disclosing certain documents relating to its alternative investments under the Uniform Information Practices Act (Modified), codified at chapter 92F, Hawaii Revised Statutes ("UIPA").

Your Committees received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund. Your Committee received comments on this measure from the Office of Information Practices.

Your Committees find that the Trust Fund engages in diversified investment, including high-yield private alternative investment funds, to address its unfunded liability for the State and counties, totaling \$10,500,000,000 and \$8,100,000,000, respectively, rather than increase the amount of member contributions. Your Committees further find that due diligence into such investments requires the Trust Fund to invest time and money in acquiring and analyzing detailed proprietary and confidential information regarding the projected performance of each alternative investment fund. Your Committees find it concerning that the potential risk of the Trust Fund being required to disclose the proprietary and confidential information pertaining to its portfolio under the UIPA may deter some high-performing funds from allowing the Trust Fund to invest with them. Your Committees acknowledge that information pertaining to the Trust Fund's portfolio may be protected from disclosure under the UIPA's frustration exception; however, your Committees believe that the statutory exemption provided by this measure will provide confidence to alternative investment funds that the Trust Fund will not be required to release their proprietary and confidential information to the public, thereby allowing the Trust Fund to continue investing in funds that generate high investment returns.

Your Committees note that the language in section 2 of this measure creating a new section in chapter 87A, Hawaii Revised Statutes, governing the Trust Fund's disclosure of alternative investments information, mirrors that of section 88-103.5(c) through (e), Hawaii Revised Statutes, that governs the disclosure of alternative investment information for the Employees' Retirement System.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the contents of section 2 with language amending section 87A-31, Hawaii Revised Statutes, to specify that the exemptions from disclosure of information pursuant to the UIPA set forth in sections 88-103.5(c) through (e), Hawaii Revised Statutes, shall apply to the disclosure of information relating to the Trust Fund's alternative investments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3072, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3072, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Ihara).
Judiciary: Ayes, 7. Noes, none. Excused, none.

SCRep. 2528 Labor, Culture and the Arts on S.B. No. 3127

The purpose and intent of this measure is to:

- (1) Rename the Workforce Development Council, which served as the State Workforce Development Board for purposes of the federal Workforce Innovation and Opportunity Act of 2014, as the Hawaii Workforce Development Board and transfer appropriations, positions, rights and obligations of former to the latter; and
- (2) Require the Hawaii Workforce Development Board and local workforce development boards to develop written conflict of interest policies consistent with the federal Workforce Innovation and Opportunity Act of 2014 and chapter 84, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii State Ethics Commission.

Your Committee finds that Act 88, Sessions Laws of Hawaii 2021, also known as the General Appropriations Act of 2021, eliminated the program identification number for the Workforce Development Council (LBR135) and transferred its appropriations and positions to the Department of Labor and Industrial Relations' Workforce Development Division. This measure amends chapter 202, Hawaii Revised Statutes, which governs the Workforce Development Council, in conformance to the new appropriation structure set forth in the General Appropriations Act of 2021.

Your Committee notes that this measure transfers the authority to appoint the Executive Director of the Board from the Board to the Governor without allowing input from Board. Your Committee also notes that the Workforce Innovation and Opportunity Act of 2014 (29 U.S.C. sections 3111(f) and 3122(h)), prohibits members of the state workforce development board and local workforce development boards from engaging in activities determined by the Governor to constitute a conflict of interest.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Governor to appoint an Executive Director of the Hawaii Workforce Development Board from a list of three nominees submitted by the Board;
- (2) Clarifying that members of the Hawaii Workforce Development Board and local workforce development boards are prohibited from engaging in any activity determined by the Governor to constitute a conflict of interest as provided in the federal Workforce Innovation and Opportunity Act of 2014 or chapter 84, Hawaii Revised Statutes, rather than requiring the boards to develop written conflict of interest policies; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3127, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2529 Labor, Culture and the Arts on S.B. No. 3223

The purpose and intent of this measure is to impose penalty on both the person and firm upon a finding of repeat violations of chapter 104, Hawaii Revised Statutes, which governs the wages and hours of employees on public works.

Your Committee received testimony in support of this measure from the Hawai'i State AFL-CIO, Hawaii Regional Council of Carpenters, Operating Engineers Local Union No. 3, Pride at Work - Hawai'i; IATSE Local 665, Hawai'i Nurses' Association - OPEIU Local 50, Hawaii Ports Maritime Council, and Western Conference of Operating Engineers. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the state law governing wages and hours of employees on public works has a "three strikes" policy, by which contractors are given two opportunities to alter their practices in violation of the law and become compliant. Upon citation of the third violation, the contractor is suspended from doing work on any public work for a three-year period. Your Committee finds that this suspension has been an effective deterrent for many years; however, in recent years, there have been contractors who have been suspended after being cited for their third violation that transfer their key personnel to a separate company and continue business under a new name. Your Committee finds that such practice defeats the purpose of the existing law. This measure closes the loophole by holding both the firm and key employees accountable.

Your Committee has amended this measure by:

- (1) Clarifying that "firm" includes a contractor, corporation, limited liability company, partnership, and limited partnership;
- (2) Clarifying that "person" includes the officers and directors of a corporation, managers and members of a limited liability company, partners, and limited partners; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3223, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2530 Labor, Culture and the Arts on S.B. No. 3338

The purpose and intent of this measure is to appropriate funds for the design, plans, and construction of the Kalaupapa Memorial, to be expended by the Department of Labor and Industrial Relations' Office of Community Services.

Your Committee received testimony in support of this measure from one member of the Maui County Council, Ka Ohana O Kalaupapa, 'Ahahui o nā Kauka, IDEA Center for the Voices of Humanity, and thirty-four individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Department of Labor and Industrial Relations' Office of Community Services.

Your Committee finds that the purpose of the Kalaupapa Memorial is to commemorate nearly eight thousand individuals who were isolated on the peninsula of Kalaupapa, Molokai, due to government policies on Hansen's disease starting in 1866. Your Committee further finds that many of these individuals are left out of the history of Kalaupapa because only about one thousand of their graves can now be identified. The Kalaupapa Memorial will return these names to the history of Kalaupapa that they helped to create, to their family histories, and to the history of Hawaii.

Your Committee notes the testimony of the Department of Labor and Industrial Relations' Office of Community Services stating that it does not have the institutional background in Hawaiian cultural issues, nor has it been a participant in the planning process, unlike the National Park Service and the Department of Land and Natural Resources.

Your Committee further notes that the property where the Memorial will be constructed is owned by the Department of Hawaiian Home Lands and leased to the National Park Service. According to the Office of Community Services, the Kalaupapa area is currently being administered, in one way or another, by the Department of Hawaiian Home Lands, Department of Health, and the National Park Service.

Accordingly, your Committee has amended this measure by changing the expending agency of the appropriated funds to the Department of Health.

Your Committee finds, however, that the issue of the department under which the construction and management of the Kalaupapa Memorial falls merits further consideration and requests that your Committee on Ways and Means examine the matter.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3338, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3338, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2531 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 3229

The purpose and intent of this measure is to:

- (1) Increase the percentage of royalties received by the State from geothermal resources that are to be paid to the county in which the geothermal resources are located;
- (2) Require the royalties paid to a county to be used for further geothermal resources discovery and development; and
- (3) Require the county to submit an annual report to the Legislature on how the royalties distributed to them were used.

Your Committees received testimony in support of this measure from three individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Hawaii State Energy Office.

Your Committees find that geothermal energy is a firm source of cost-effective, renewable energy in Hawaii that will reduce the State's reliance on fossil fuels, contribute to Hawaii's energy diversification, and help the State reach its renewable energy standard goals. According to testimony received by your Committees, none of the geothermal royalties distributed have been used for assessing and exploring geothermal resources in the State.

Your Committees recognize that geothermal royalties help support the annual operating budget of Department of Land and Natural Resources' Mineral Resources Program, which regulates well drilling operations and manages the mining and leasing of geothermal resources in the State. According to testimony from the Department, geothermal royalties also support the annual operating budget of their Land Division, Office of Conservation and Coastal Lands, and Dam Safety Program.

Accordingly, your Committees have amended this measure by:

- (1) Reverting the percentage of royalties from geothermal resources that are paid to a county to thirty percent and capping the amount at \$600,000;
- (2) Establishing the University of Hawaii Geothermal Exploration Special Fund for the Hawaii Groundwater and Geothermal Resources Center at the university to further the discovery and development of geothermal resources;
- (3) Requiring the Department of Land and Natural Resources and the University of Hawaii to submit annual reports to the Legislature on how they utilized the royalties distributed to them;
- (4) Establishing a cap of \$1,000,000 on the amount of royalties distributed by the Board of Land and Natural Resources to the State; and

- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3229, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3229, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

Government Operations: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Chang, Gabbard).

SCRep. 2532 Government Operations on S.B. No. 2940

The purpose and intent of this measure is to amend the law relating to government.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with content to require each state department, board, commission, and agency to develop policies under which eligible employees may be authorized to telework.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2940, as amended herein, and recommends that it be recommitted to your Committee on Government Operations, in the form attached hereto as S.B. No. 2940, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2533 Government Operations on S.B. No. 3038

The purpose and intent of this measure is to amend section 487N-5(a), Hawaii Revised Statutes, to allow for each member of the Information Privacy and Security Council to designate a designee to act on the member's behalf in order to ensure quorum.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that the Information Privacy and Security Council is tasked with developing guidelines and best practices related to cybersecurity and information privacy. Your Committee further finds that it is in the public interest to allow members of the Information Privacy and Security Council to appoint designees to act on their behalf. This will ensure quorum and the efficient operation of the Council in situations where a member is absent or otherwise unable to attend to the member's duties. Accordingly, your Committee finds that this measure will improve government functioning by providing a method in which the work of the Information Privacy and Security Council may proceed in the event a member is unable to attend to council duties.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3038 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2534 Government Operations on S.B. No. 2301

The purpose and intent of this measure is to:

- (1) Require the Governor to appoint an individual to fill a vacancy within all boards and commissions within one hundred eighty days of the vacancy;
- (2) Limit the term of holdover appointments to the end of the legislative session following the expiration of the member's term;
- (3) Require department heads to inform the Governor of any vacancy in any board or commission; and
- (4) Conform requirements regarding holdover members of the Hawaii Tourism Authority to the requirements regarding holdover members of state boards and commissions.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the sound operation of state boards and commissions requires the timely appointment of members. Your Committee further finds that there are concerns regarding extended board and commission vacancies, as well as inconsistent interpretations of statutory authority regarding the Governor's interim appointment power. Accordingly, your Committee finds that this measure promotes the sound operation of state boards and commissions by facilitating timely nominations and appointments of board and commission members and clarifying procedures regarding holdover members.

Your Committee has amended this measure by:

- (1) Inserting language providing an alternate method of appointment for certain board and commission members under certain circumstances;
- (2) Inserting language to expire the terms of certain holdover members of boards and commissions upon approval of this measure;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting a severability clause; and

- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2301, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2535 (Joint) Housing and Human Services on S.B. No. 3368

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds for the development and construction of permanent supportive housing; and
- (2) Require the Hawaii Housing Finance and Development Corporation to prioritize the construction of permanent supportive housing for any available federal low-income housing tax credits.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Land and Natural Resources, Hawaii Public housing Authority, Partners In Care, Catholic Charities Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from EAH Housing; Stanford Carr Development, LLC; Hawaii Laborers-Employers Cooperation and Education Trust; Sugar Creek Capital; and Schatz Collaborative LLC. Your Committees received comments on this measure from the State Procurement Office, Hawaii Housing Finance and Development Corporation, and Governor's Coordinator on Homelessness.

Your Committees find that homelessness is one of the most pressing problems in Hawaii. Despite efforts to reduce homelessness, it persists throughout the State. Additional action to reduce homelessness is necessary. This measure authorizes the issuance of general obligations bonds and appropriates bond proceeds to the Hawaii Public Housing Authority to develop more housing in Hawaii. Your Committees also note the substantial costs to support case management and supportive services for individuals with acute physical and behavioral health needs that may require separate action and funding by the Legislature. According to testimony submitted by the Governor's Coordinator on Homelessness, ongoing costs for supportive services may equal or exceed \$800 per household per month.

Your Committees have amended this measure by:

- (1) Expanding its scope to include certain individuals who do not meet the Department of Housing and Urban Development definition of homeless;
- (2) Requiring the Hawaii Housing Finance and Development Corporation to consider, rather than prioritize applications for low-income housing tax credits;
- (3) Removing the exemption to chapter 103D, Hawaii Revised Statutes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3368, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3368, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella).
Human Services: Ayes, 3. Noes, none. Excused, 2 (Misalucha, Fevella).

SCRep. 2536 (Joint) Housing and Water and Land on S.B. No. 2583

The purpose and intent of this measure is to exempt lands set aside by the Governor to the Hawaii Housing Finance and Development Corporation from classification as public lands subject to Department of Land and Natural Resources management, provided that the lands are not ceded lands.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the State's complex system of land management can impede efforts to efficiently develop affordable housing. Ensuring that agencies engaged in the development of affordable housing have ready access to lands and are able to build on those lands with minimal restriction from other agencies is essential to the State's efforts to end its housing crisis. However, it is also crucial that state agencies engaged in the development of affordable housing recognize the claims of native Hawaiians over lands in the State. This measure exempts certain lands from management by the Department of Land and Natural Resources to ensure the expedited development of affordable housing, provided that the lands are not ceded lands.

Your Committees have amended this measure by:

- (1) Providing that lands no longer needed for housing finance and development purposes shall be returned to the agency from which they were obtained; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2583, as amended herein, and recommend that it pass

Second Reading in the form attached hereto as S.B. No. 2583, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2537 (Joint) Housing and Government Operations on S.B. No. 3261

The purpose and intent of this measure is to:

- (1) Establish the ALOHA homes program to develop low-cost homes on state-owned and county-owned land in urban redevelopment sites to be sold in leasehold by the Hawaii Housing Finance and Development Corporation;
- (2) Exempt certain lands from the definition of public lands;
- (3) Provide for the disposition of lands acquired by the Hawaii Housing Finance and Development Corporation but no longer needed for the ALOHA homes program; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the Building Industry Association of Hawaii; Institute for Human Services, Inc.; Church of the Crossroads; and two individuals. Your Committees received testimony in opposition to this measure from the Schatz Collaborative. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Budget and Finance, Department of the Attorney General, Grassroot Institute of Hawaii, Hawai'i Appleseed Center for Law and Economic Justice, and Michaels Development--Hawai'i Region.

Your Committees find that Hawaii faces a persistent housing shortage. The lack of affordable homes is driven by a lack of high density housing, which could provide homes for many of the State's residents. Although this measure addresses critical housing needs for many living in the State, it is unlikely to solve Hawaii's housing crisis. Moreover, further clarification and study of the provisions of this measure is required.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying the purpose of the measure;
- (2) Removing a definition for "small and medium vendor";
- (3) Clarifying that the ALOHA homes program is sustainable, rather than revenue neutral, especially for the purposes of infrastructure development;
- (4) Requiring that development be conducted in consultation with private developers;
- (5) Allowing the ALOHA homes program to include income preferences and additional subsidies for low-income households;
- (6) Requiring that ALOHA homes waitlists be established in coordination with county affordable housing programs;
- (7) Allowing the Hawaii Housing Finance and Development Corporation to repurchase ALOHA homes using dwelling unit and affordable homeownership revolving funds;
- (8) Requiring the Hawaii Housing Finance and Development Corporation to establish price limits for the resale of ALOHA homes;
- (9) Removing exemptions for the ALOHA homes revolving fund;
- (10) Directing the Hawaii Housing Finance and Development Corporation to conduct a study on leasehold housing markets in the State and form a working group on the implementation of the ALOHA homes program;
- (11) Including additional positions for which funds are appropriated and appropriating funds for software and hardware needed for the ALOHA homes program; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3261, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3261, S.D. 1, and be referred to your Committees on Ways and Means and Water and Land.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2538 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3165

The purpose and intent of this measure is to:

- (1) Lengthen the driver's license revocation period for first time offenders convicted of operating a vehicle under the influence of an intoxicant who do not install an ignition interlock device; and
- (2) Allows early termination of driver's license revocation after nine months upon showing three consecutive months of ignition interlock use without any violations.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Hawai'i Police Department, Hawaii Bicycling League, Mothers Against Drunk Driving Hawaii, and one individual. Your Committees received testimony in opposition to this measure from the Office of the Public Defender. Your Committees received comments on this measure from Smart Start LLC.

Your Committees find that an ignition interlock device serves to both keep Hawaii's streets safer and evidence responsibility in those who have been convicted of the dangerous act of driving under the influence of an intoxicant. This measure increases the initial time of license revocation for first time offenders but also allows early termination of the revocation of licenses for those who show consistent use of an ignition interlock device.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

Your Committees have heard the testimony of the Office of the Public Defender expressing concerns that the early termination of the driver's license revocation as allowed by this measure may create inequities among defendants. Your Committees find that this issue raises concerns that merit further consideration and request that your Committee on Judiciary examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3165, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3165, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2539 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2534

The purpose and intent of this measure is to establish the Hawaii Harbor Ocean Safety Committee to enhance ocean safety within all harbors in the State.

Your Committees received testimony in support of this measure from the Hawaii Ocean Safety Team, Inc.; American Marine Corporation; The Maritime Group, LLC; Hawaii Pilots Association; Inland Boatmen's Union of the Pacific – Hawaii Region; Sause Bros; and two individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation. Your Committees received comments on this measure from the Ocean Tourism Coalition.

Your Committees find that because of its isolated island geography, Hawaii's seaports play a critical role in serving and supporting every facet of the local economy, including tourism, construction, national defense, agriculture, and all other industries. According to testimony from The Maritime Group, Hawaii is the only major seaport system in the nation that does not have a formally structured harbor safety committee.

Your Committees further find that the Hawaii Harbor Ocean Safety Committee established by this measure would be required to prepare a Harbor Safety Plan, annually update the Plan, and submit annual reports to the Legislature. According to testimony submitted to your Committees, harbor safety plans have been created in many other major port cities in the United States, including Long Beach, Los Angeles, Puget Sound, San Diego, and San Francisco.

However, your Committees recognize the concerns of the Department of Transportation regarding jurisdictional overreach and potential governmental inefficiencies that may result from the enactment of this measure.

Accordingly, your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2534, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2534, S.D. 1, and be referred to your Committees on Water and Land and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2540 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 355

The purpose and intent of this measure is to reduce the annual vehicle registration fee by fifty per cent for disabled veterans who have fifty per cent or more but less than one hundred percent service-connected disability rating.

Your Committees received testimony in support of this measure from the Hawaii Office of Veterans Services, Rainbow Family 808, and six individuals. Your Committees received comments on this measure from the Department of Transportation and Tax Foundation of Hawaii.

Your Committees find that existing law exempts certain qualified veterans from paying annual vehicle registration fees so long as that veteran is determined to be one hundred percent disabled. However, there is no reduced annual vehicle registration fee for any veteran who is determined to be less than one hundred percent disabled. Your Committees find that it is appropriate for the State to reduce the burden of the registration fee by fifty percent for certain qualifying veterans who have been determined to be at least fifty percent disabled.

Your Committees note that the Hawaii Office of Veterans Services is currently reaching out to the United States Department of Veteran Affairs to determine the number of veterans in the State with a service-related disability rating of fifty percent or more but less

than one hundred percent so that the Department of Transportation can determine the potential reduction in revenues that will result from this measure.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 355, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 355, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2541 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3294

The purpose and intent of this measure is to appropriate moneys to fund reentry planning circles for at least fifty incarcerated women.

Your Committees received testimony in support of this measure from the Hawaii Corrections System Oversight Commission, Women's Prison Project, Hawaii Substance Abuse Coalition, Community Alliance on Prisons, and three individuals. Your Committees received comments on this measure from the Department of Public Safety and Department of Budget and Finance.

Your Committees find that huikahi restorative circles are a part of a reentry planning process shown to decrease recidivism by creating a process for incarcerated people to take responsibility for their behavior and make amends to loved ones and the community.

Your Committees have amended this measure by:

- (1) Specifying that the moneys appropriated pursuant to this measure is to fund reentry planning circles for at least fifty incarcerated women; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3294, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3294, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 2542 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2561

The purpose and intent of this measure is to authorize the Department of Human Services to establish or contract with a victim service provider to operate an emergency shelter for minors who are victims of sex trafficking and sexual exploitation.

Your Committees received testimony in support of this measure from the Department of Human Services; State of Hawaii Organization of Police Officers; Office of the Public Defender; Department of the Prosecuting Attorney of the City and County of Honolulu; one member of the Hawai'i County Council; Hawaii Youth Services Network; Imua Alliance; Rainbow Family 808; American Academy of Pediatrics, Hawaii Chapter; Opportunity Youth Action Hui; Hale Kipa; and three individuals. Your Committees received comments on this measure from the Department of Taxation, Office of Youth Services, Department of Budget and Finance, and one individual.

Your Committees find that despite the creation and development of a shelter for young victims of sex trafficking at the Kawaiiloa Youth and Family Wellness Center and the residential treatment program for victims of sex trafficking opened by Ho'ōla Nā Pua, there is still a gap in service that can be met by an emergency shelter for minor victims of sex trafficking. This measure will improve the State's effectiveness in responding to sexual exploitation of minors in Hawaii by allowing government agencies and victim service providers to establish a coordinated continuum of care and protect victims in a centralized location.

Your Committees note the testimony of the Office of Youth Services requesting that this measure reference section 352D-4(3), Hawaii Revised Statutes, relating to the Office's authority to provide continuum of services for community-based shelter and residential facilities, to allow the Office to expand services within its current infrastructure and avoid duplication of services with the Department of Human Services.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the Department of Human Services is authorized to establish or contract with a victim service provider to operate an emergency shelter for sex trafficking victims, as a community-based shelter and residential facility offered by the Department's Office of Youth Services pursuant to section 352D-4(3), Hawaii Revised Statutes;
- (2) Inserting an unspecified appropriation amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2561, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2561, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 2543 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3293

The purpose and intent of this measure is to establish a four-year pilot program within the Department of Human Services to provide housing and child care vouchers for a period of up to two years to persons leaving incarceration, provided that certain eligibility requirements are met.

Your Committees received testimony in support of this measure from the Department of Public Safety, Hawaii Substance Abuse Coalition, and two individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Budget and Finance.

Your Committees find that the number of incarcerated women has skyrocketed and that the rate at which women are incarcerated now exceeds that of incarcerated men. Your Committees also find that the circumstances of entry into correctional facilities, offense patterns, and levels of risk for female inmates differ from those of male inmates. Therefore, your Committees believe that targeted approaches, including gender-responsible practices, are required to improve outcomes of female inmates by providing some form of support during the process of reentering society to ensure a successful transition and long-term success. The pilot program established by this measure provides support to female inmates as they prepare for reentry, while addressing their unique characteristics, needs, and barriers to success, by providing temporary assistance in the form of housing and child care vouchers; provided that the assistance will be provided to all applicants who meet the eligibility criteria regardless of their sex or gender identity.

Your Committees note that S.B. No. 2775 (Regular Session of 2022), which was deferred by your Committees, sought to establish a recidivism prevention pilot program that included an income tax credit for employers that hire qualifying individuals who completed their terms at correctional facilities. Your Committees find that this measure should also include the income tax credit.

Accordingly, your Committees have amended this measure by:

- (1) Including in the four-year pilot program, an income tax credit for taxpayers who employ qualified program participants; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that the Department of Public Safety and Department of Human Services collaborate to ensure that there is a "warm handoff" of individuals who complete their terms in correctional facilities from the Department of Public Safety to other agencies, including the Department of Human Services, that can help them integrate back into the community.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3293, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3293, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

SCRep. 2544 Education on S.B. No. 3296

The purpose and intent of this measure is to:

- (1) Designate school sports as a co-curricular activity; and
- (2) Require the Department of Education to submit a report on the cost of implementing sports as co-curricular activities.

Your Committee received testimony in support of this measure from eleven individuals. Your Committee received testimony in opposition to this measure from the Hawaii High School Athletic Association and eight individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that students who participate in interscholastic athletic activities experience a variety of benefits including increased academic success, improved physical health, improved leadership and teamwork abilities, a greater sense of accountability and responsibility, improved concentration, higher self-esteem and self-confidence, reduced likelihood of using drugs, lower likelihood of dropping out of school, and a reduced suicide rate. Student-athletes often spend more time with their coaches than their teachers, and coaches can instill important life skills on youth, especially youth that do not readily thrive in an academic setting. Your Committee therefore finds that this measure will provide a broad spectrum of benefits to students by elevating school sports to co-curricular status.

Your Committee has concerns, however, regarding the impact of this measure on course credit requirements for students and recommends further discussion on this matter.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2545 Transportation on S.B. No. 2275

The purpose and intent of this measure is to make permanent the motor vehicle insurance requirements for transportation network companies and transportation network company drivers in Act 236, Session Laws of Hawaii 2016.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Insurers Council, Uber Technologies, and Lyft.

Your Committee finds that the motor vehicle insurance requirements for transportation network companies and transportation network company drivers established in Act 236, Session Laws of Hawaii 2016, were set to be repealed on September 1, 2021. The purpose of this measure is to make those requirements permanent.

Your Committee notes that S.B. No. 2542 (Regular Session of 2022), which was heard by your Committee, is a substantially similar measure that additionally establishes statewide regulation of transportation network companies to provide operational consistency across the State and to establish a permitting process within the Department of Transportation. Your Committee concludes that this measure is the best vehicle to move forward and that the language in part I of S.B. No. 2542 should be incorporated into this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the contents of part I of S.B. No. 2542, to establish a statewide regulation of transportation network companies;
- (2) Clarifying the definition of "transportation network company" to have the same meaning as defined in section 431:10C-701, Hawaii Revised Statutes, for consistency;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2275, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2275, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2546 (Majority) Water and Land on S.B. No. 2502

The purpose and intent of this measure is to increase the terms for public auction, sales, or leases under the Hawaii Community Development Authority from sixty-five to ninety-nine years.

Your Committee received testimony in support of this measure from the Hawaii Community Development Authority. Your Committee received testimony in opposition to this measure from the Sierra Club of Hawai'i, Kūpuna for the Mo'opuna, Mauna Kea Moku Nui 'Aelike/Consensus Building 'Ohana, Council for Native Hawaiian Advancement, Native Hawaiian Legal Corporation, and five individuals.

Your Committee finds that the State is facing an acute housing shortage. According to the 2019 Hawaii Housing Planning Study, Hawaii will need to add over 50,000 new housing units to the market between 2020 and 2025, which includes pent-up demand due to multi-generational living, supply shortages, and continued outmigration of Hawaii residents. Authorization of ninety-nine-year leases allows many government agencies and community organizations to explore the feasibility and marketability of developing affordable condominium units to address the shortage of affordable housing.

However, your Committee has heard the concerns of many community organizations, including the Sierra Club of Hawaii, regarding this measure's reach into ceded lands. This measure, as drafted, would authorize the permanent disposal of lands held by the State, potentially denying future generations with the ability to determine and enjoy lands in perpetuity and in contravention of the public trust. This measure also raises some concerns with the Native Hawaiian community regarding land claims, which may foreclose important opportunities for the State and the people of Hawaii to seek justice and reconciliation with the Native Hawaiian community.

To address the concerns of the Sierra Club of Hawaii, your Committee respectfully requests that your Committees on Ways and Means and Judiciary consider further amendments needed for this measure.

Your Committee has amended this measure by:

- (1) Authorizing the Hawaii Community Development Authority to enter into leases for a term not exceeding ninety-nine years, except that leases for ceded lands shall have a term that does not exceed sixty-five years; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2502, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, none.

SCRep. 2547 Energy, Economic Development, and Tourism on S.B. No. 3054

The purpose and intent of this measure is to expand funding sources and authorized uses of the Hawaii Film and Creative Industries Development Special Fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and two individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 228, Session Laws of Hawaii 2019 (Act 228), renamed the Hawaii Television and Film Development Special Fund as the Hawaii Film and Creative Industries Development Special Fund to align it with the State's focus on knowledge-based industries development, workforce programs expansion, and support for marketing efforts for creative and film projects in their intellectual property distribution and export activities. In 2021, the Legislature approved a ceiling and ability for the Department of Business, Economic Development, and Tourism to expend up to \$750,000 per year to effectuate the purposes of Act 228. This addressed a need within the community to support seed funding for Hawaii's emerging filmmakers and creatives who require access to capital to advance their projects, establish entrepreneurial ventures in creative sectors, and accelerate intellectual property creation and licensing opportunities. This measure will allow the State to further support the State's growing local intellectual property export industry by expanding funding sources and authorized uses of the Hawaii Film and Creative Industries Development Special Fund.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3054 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2548 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 3302

The purpose and intent of this measure is to:

- (1) Require the Hawaii Green Infrastructure Authority to:
 - (A) Establish an at- or below-market interest loan program to provide financial assistance to certain parties for certain green infrastructure improvements; and
 - (B) Authorize property assessed financing through various mechanisms, including but not limited to non-ad valorem special tax assessments and property assessed financing assessment contracts;
- (2) Creates the Environmental and Economic Development Revolving Loan Fund; and
- (3) Appropriate funds to provide loans or other financial assistance to eligible property owners and for other allowable purposes of the Environmental and Economic Development Revolving Loan Fund, including implementation costs.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Health; Department of Hawaiian Home Lands; Hawaii Green Infrastructure Authority; CleanFund Commercial PACE Capital, Inc.; Hawaii Solar Energy Association; WAI: Wastewater Alternatives & Innovations; Hawai'i Reef and Ocean Coalition; Surfrider Foundation; and Petros PACE Finance. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, Department of Commerce and Consumer Affairs' Division of Consumer Advocacy, and the Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committees find that this measure seeks to attract private capital investments to help reduce the number of cesspools, increase the resiliency of residential homes and commercial property, and support the conversion to clean energy across the State.

Accordingly, your Committees have amended this measure by:

- (1) Inserting amendments recommended by HGIA, which include:
 - (A) Clarifying:
 - (i) The counties' right to establish a similar property assessed financing program and their role in collecting non-ad valorem special tax assessments;
 - (ii) Provisions on the recordation and notice of the property assessed financing assessment contracts and lien parity; and
 - (iii) Various definitions;
 - (B) Specifying:
 - (i) The determinations that property assessed financing lenders must make before entering into assessed financing assessment contracts for commercial properties; and
 - (ii) The duties of lienholders prior to entering into assessed financing assessment contracts;
 - (C) Elaborating on the provisions that apply to commercial and residential properties; and
 - (D) Defining "property assessed financing program";
- (2) Amending language to ensure that ratepayer funds are not used to fund or guarantee the Environmental and Economic Development Loan Program or Environmental and Economic Development Revolving Loan Fund;

- (3) Replacing all references to upgraded or converted cesspools with Director of Health-approved wastewater systems;
- (4) Inserting an effective date of July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3302, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2549 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 3163

The purpose and intent of this measure is to direct the Hawaii State Energy Office to develop and submit a plan to the Legislature no later than forty days prior to the convening of the Regular Session of 2023 for the construction of at least one atmospheric carbon capture plant in the State by 2030.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office and one individual.

Your Committees find that to combat climate change, the State must, in addition to increasing the use of renewable energy, employ other carbon offsetting strategies and technologies. According to the testimony from the Hawaii State Energy Office, developing a space for at least one atmospheric carbon capture plant in the State would require a long-range strategy and additional time. Your Committees note that the Hawaii Natural Energy Institute has the expertise and resources to spearhead the development of a strategy to construct at least one atmospheric carbon capture plant in the State by 2030.

Accordingly, your Committees have amended this measure by:

- (1) Changing all references to a plan for the construction of an atmospheric carbon capture plant to a strategy for the same;
- (2) Designating, instead, the Hawaii Natural Energy Institute, in conjunction with the Hawaii State Energy Office, to develop and submit the strategy for the construction of at least one atmospheric carbon capture plant in the State by 2030;
- (3) Extending the deadline for the Hawaii Natural Energy Institute to submit its strategy for the construction of at least one atmospheric carbon capture plant to the Legislature no later than forty days prior to the convening of the Regular Session of 2024;
- (4) Inserting language that requires an interim report to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3163, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3163, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Lee).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

SCRep. 2550 (Joint) Education and Agriculture and Environment on S.B. No. 2543

The purpose and intent of this measure is to require the Department of Education to establish zero-emission vehicle goals as part of the sustainable school's initiative and report to the Legislature regarding the same.

Your Committees received testimony in support of this measure from Hawaii State Energy Office, Hawaiian Electric Company, Ulupono Initiative, 350 Hawaii.org, Climate Protectors Hawaii, and two individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that traditional internal combustion school bus engines emit exhaust, which children breathe in while riding buses and sitting in traffic, and can potentially increase asthma and other health problems. Your Committees further find that electric school buses, in contrast, provide potential benefits to the quality of student health, the environment, utility infrastructure, and cost savings.

Your Committees note, however, that based on the testimony of the Department of Education, the transition to zero-emission transportation cannot be accomplished overnight. Any such transition must limit or avoid disruptions to critical transportation services provided by or through the Department of Education to students.

Accordingly, your Committees have amended this measure to remove the mandate to transition to zero-emission vehicles by a date certain and instead require the Department of Education to conduct a feasibility study regarding the transition to zero-emission transportation in Hawaii's public schools by 2030.

Your Committees have therefore amended this measure by:

- (1) Amending section 1 to reflect its amended purpose;

- (2) Amending section 2 to remove the transition mandate and instead require a feasibility study; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2543, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2543, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2551 Labor, Culture and the Arts on S.B. No. 2709

The purpose and intent of this measure is to clarify that a licensed specialty contractor may perform incidental and supplement work in crafts or trades other than in which the specialty contractor is licensed; provided that the incidental and supplemental work:

- (1) Involves other trades that are directly related to and necessary for the completion of the project undertaken by the licensed specialty contractor pursuant to the scope of the specialty contractor's license; and
- (2) Does not exceed five percent of the licensed specialty contractor's total work on the project.

Your Committee received testimony in support of this measure from the Ironworkers Stabilization Fund. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting, Subcontractors Association of Hawaii, and General Contractors Association of Hawaii. Your Committee received comments on this measure from the Contractors License Board.

Your Committee finds that under existing law, a specialty contractor may take or execute a contract involving the use of two or more crafts or trades, for work other than that in which the contractor is licensed, if the performance of the work in the crafts or trades is incidental and supplemental to the performance of work in the craft for which the specialty contractor is licensed. In practice, the Contractors License Board allows a specialty contractor to perform work for which the contractor is not licensed as long as the unlicensed portion of the work is less than fifty percent of the contracted total work on the project. Your Committee believes that for safety reasons, the amount of incidental and supplement work performed by a contractor who is not licensed to perform that work should be significantly less than fifty percent. This measure seeks to address those concerns.

Your Committee notes the testimonies raising concerns that the five percent limitation, when applied to small-scale projects such as home renovation or re-roofing contracts, may result in unwanted costs and possible delays at a time when budgets are tight and homeowners are trying to save where they can.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the amount of unlicensed work by a specialty contractor shall be:
 - (A) Measured by the cost and extent of work involved in executing the specialty contract's work; and
 - (B) Substantially less than and only incidental and supplemental to the performance of work in the craft for which the specialty contractor is licensed; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2709, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Chang, Keohokalole).

SCRep. 2552 (Joint) Labor, Culture and the Arts and Human Services on S.B. No. 3106

The purpose and intent of this measure is to permanently exempt from provisions of civil service the following positions in the Department of Human Services: Information Technology Implementation Manager; Assistant Information Technology Implementation Manager; Resource Manager; Community/Project Development Director; Policy Director; Special Assistant to the Director; Limited English Proficiency Project Manager/Coordinator; and Business Technology Analyst.

Your Committees received testimony in support of this measure from the Department of Human Services. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the Department of Human Services has one of the largest operating budgets of any state department and an equally large staff. Your Committees also find that the complexity and magnitude of benefits and services that the Department of Human Services is responsible for delivering to state residents requires the ability to attract and retain qualified, experienced, and innovative individuals with the requisite subject matter expertise to transform the Department into an efficient and performance based entity. The positions exempted by this measure are required to lead and manage the Department's programs effectively. The positions are instrumental to improving access to and the quality of services, improving working conditions at the Department to recruit and retain the workforce, improving and standardizing procurement and other administrative processes, responding to legislative changes, establishing and maintaining clear communication, and facilitating collaborative relationships with recipients, policymakers, other departments and branches of government, and community partners and members.

Your Committees note the concerns raised by the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO, that these positions should not be exempt from civil service as they do not meet the criteria of state law governing exemptions from civil service.

Your Committees also note that section 76-16, Hawaii Revised Statutes, which sets forth numerous positions that are exempt from civil service, is becoming extremely lengthy. Your Committees believe that there should be a different way to exempt positions from civil service without adding new positions to the statute year after year. Your Committees further note that a full review of positions exempted under existing law should be conducted in the near future.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3106, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3106, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Misalucha).

SCRep. 2553 Labor, Culture and the Arts on S.B. No. 3128

The purpose and intent of this measure is to amend the definition of "Adequate Reserve Fund" for calendar years 2023 through 2030 to exclude the Benefit Cost Rate from June 2020 through August 2021.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that an employer's unemployment insurance tax rate is computed once a year using two factors: the employer's claim history, meaning the unemployment insurance benefits paid out to the employer's former employees over the years; and the applicable unemployment insurance tax rate for the year, categorized from Schedule A to Schedule H, with A being the lowest and H being the highest rate.

The unemployment insurance tax rate schedule for the year is calculated by dividing the balance of the Unemployment Compensation Trust Fund by the Adequate Reserve Fund. Thus, a higher Adequate Reserve Fund will result in a higher tax rate schedule for employers. The Adequate Reserve Fund is determined by multiplying the highest Benefit Cost Rate during the ten-year period by the total amount of wages paid by all employers during the last four calendar quarters. Thus, a higher Benefit Cost Rate will result in a higher Adequate Reserve Fund, which in turn will result in a higher tax rate schedule. The Benefit Cost Rate is calculated by dividing the total amount of unemployment insurance benefits paid to unemployed individuals during a twelve consecutive month period by the total amount of wages paid by all employers. Therefore, if there is a period during which a significant amount of unemployment benefits was paid out, the Adequate Reserve Fund, and in turn, the tax rate schedule for employers will be inflated for the subsequent ten years.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic caused an unprecedented increase in Hawaii's unemployment rate, which resulted in the State paying out a significant amount of unemployment insurance benefits, leading to the depletion of the Unemployment Compensation Trust Fund in June 2020. As such, the tax rate for 2021 and 2022 were slated to increase to Schedule H, the highest tax rate; however, the Legislature prevented this spike by passing Act 1, Session Laws of Hawaii 2021, which set the tax rates for 2021 and 2022 at Schedule D. This measure excludes the Benefit Cost Rate from June 2020 through August 2021 from the calculation of the Adequate Reserve Funds for calendar years 2023 through 2030, which will stabilize the tax rate schedules for those years while Hawaii's economy recovers from the disruptions caused by the pandemic.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3128, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2554 Labor, Culture and the Arts on S.B. No. 3129

The purpose and intent of this measure is to appropriate an unspecified amount of funds for the Unemployment Compensation Trust Fund and allow the Department of Labor and Industrial Relations to expend the moneys to infuse cash into the fund.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii Food Industry Association. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic created an unprecedented period of unemployment in Hawaii, which resulted in the rapid depletion of funds from the Unemployment Compensation Trust Fund. Your Committee finds that this measure is necessary to support the integrity of the fund while Hawaii's economy recovers from the disruptions caused by the COVID-19 pandemic.

Your Committee notes that although the amount of the appropriation is left blank, the Department of Labor and Industrial Relations' testimony states that every \$100,000,000 added to the fund will likely drop the statutory schedule of the unemployment insurance tax rate for employers by one level. The Department of Labor and Industrial Relations also states that an appropriation of \$500,000,000 or more will be necessary for the funds to reduce the tax rate schedule beyond one year.

Your Committee also notes the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimony on this measure.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3129 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2555 Labor, Culture and the Arts on S.B. No. 3221

The purpose and intent of this measure is to appropriate funds to support international sister-state relations.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Japan-American Society of Hawaii.

Your Committee finds that Hawaii established its first sister-state relationship thirty years ago with Fukuoka Prefecture, Japan, and since then, has continued to expand its relations with various foreign provinces and prefectures. As of today, Hawaii has a total of nineteen sister-states around the globe, including prefectures and provinces in Japan, Portugal, China, The Philippines, Korea, Morocco, Indonesia, and India.

According to the Department of Business, Economic Development, and Tourism, sister-state relationships are partnerships between governments that serve as a catalyst for trade and investment opportunities in Hawaii. For Hawaii, sister-state relationships serve to raise the State's profile internationally and attract dynamic cooperative programs such as mutual exchanges in business, culture, tourism, and education that positively impact Hawaii's economic growth. Your Committee finds that this measure will provide needed support to leverage existing relationships and activities that will continue to increase Hawaii's international role.

Your Committee has amended this measure by inserting an appropriation amount of \$200,000.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3221, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2556 Labor, Culture and the Arts on S.B. No. 3222

The purpose and intent of this measure is to establish and appropriate funds for the Creative Arts Workforce Grant Program within the State Foundation on Culture and the Arts to award grants to individuals and organizations that promote employment opportunities for creative workers throughout the State.

Your Committee received testimony in support of this measure from the Donkey Mill Art Center. Your Committee received testimony in opposition to this measure from the State Foundation on Culture and the Arts; Department of Business, Economic Development, and Tourism and its Creative Industries Division; and Department of Budget and Finance.

Your Committee finds that section 9-3(7)(B), Hawaii Revised Statutes, requires the State Foundation on Culture and the Arts to disburse and allocate funds appropriated by the legislature for the promotion and furtherance of culture and the arts and history and the humanities through its grant programs such as the Biennium Grant Program, governed by part II of chapter 9, Hawaii Revised Statutes.

Your Committee notes the testimony of the State Foundation on Culture and the Arts, raising concerns over creation of a complex new grant structure in this measure and stating that an appropriation to its Biennium Grant Program for the purpose of awarding grants to individuals and organizations that promote employment opportunities for creative workers throughout the State would serve the same purpose.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that appropriates from state general funds \$200,000 for fiscal year 2022-2023 to fund the State Foundation on Culture and the Arts Biennium Grants Program for the awarding of grants to individuals and organizations that promote employment opportunities for creative workers throughout the State.

Your Committee has reviewed the testimony of the Department of Budget and Finance expressing concerns regarding this measure's possible effect on the State's obligation to adhere to the maintenance of effort requirements as a recipient of Elementary and Secondary Schools Emergency Relief funds under the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 and the American Recovery Plan Act of 2021. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine those issues and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3222, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2557 Labor, Culture and the Arts on S.B. No. 3289

The purpose and intent of this measure is to establish the Hawaii Retirement Savings Program, a state-facilitated payroll-deduction retirement savings plan for private sector employees in Hawaii who do not have access to employer-sponsored retirement plans.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Health Executive Office on Aging; Policy Advisory Board for Elder Affairs; AARP Hawai'i; National Conference on Public Employee Retirement Systems; Common Cause Hawaii; Hawai'i Primary Care Association; Retail Merchants of Hawaii; Hawai'i Public Health Institute; Aloha United Way; Loco Moco Drive Inn – Ewa Beach; Wiki Wiki Drive In; Gaylords I, II, III, and IV; Burgers on Bishop; Gochi Grill; and twenty-three individuals. Your Committee received testimony in opposition to this measure from the National Association of Insurance and Financial Advisors and American Council of Life Insurers. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that there is an imminent retirement security crisis in Hawaii, with many individuals not having access to an employer-sponsored retirement savings plan, and therefore, are at significant risk of not having sufficient retirement income to cover their basic expenses during retirement. Your Committee further finds that in 2017, Oregon was the first state in the nation to implement a state retirement savings program that covers private sector employees who lack access to an employer-sponsored retirement savings plan, and that other states, including California and Illinois, have adopted similar programs. Your Committee believes that individuals need a lifelong savings system that provides them with the opportunity to build their assets and attain future financial stability. This measure will allow private sector employees in Hawaii to participate in a state-facilitated payroll-deduction retirement savings plan that will promote retirement savings needed for a secure retirement, improve the employee's financial security, and reduce wealth disparity in Hawaii.

Your Committee notes the testimony of AARP Hawai'i, recommending that this measure include language that authorizes the Hawaii Retirement Savings Board to enter into interstate agreements to allow the Hawaii Retirement Savings Program to partner with the retirement savings programs of other states.

Your Committee also notes the testimony of the Department of Budget and Finance, requesting that this measure include language providing for hiring of additional staff, as the Department currently lacks sufficient staffing to implement this measure.

Your Committee has amended this measure by:

- (1) Allowing the Hawaii Retirement Savings Board to enter into interstate agreements to collaborate with other governmental entities, including other states, that maintain or are establishing retirement savings programs compatible with the Hawaii Retirement Savings Program, to the extent necessary or desirable for the effective and efficient design, administration, and implementation of Hawaii's program;
- (2) Clarifying that the funds appropriated out of the general revenues of the State of Hawaii pursuant to this measure for the implementation and operation of the Hawaii Retirement Savings Program include funds for the hiring of necessary staff; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has reviewed the testimony of the National Association of Insurance and Financial Advisors expressing concerns that the penalty for covered employers who fail to enroll a covered employee into the Hawaii Retirement Savings Program in accordance with this measure is severe compared to other states. Your Committee also acknowledges testimonies of others stating that penalties in Hawaii in general may be harsher than other states. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests that your Committee on Ways and Means further examine this issue and concerns raised by the testimony.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3289, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Keohokalole).

SCRep. 2558 (Joint) Health and Government Operations on S.B. No. 2159

The purpose and intent of this measure is to:

- (1) Clarify that the residential zone restriction on the use of leaf blowers during certain hours includes residential districts, apartment districts, and business mixed-use districts; and
- (2) Remove the exemption on leaf blower restrictions for government agencies.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from the Department of Transportation, Department of Facility Maintenance of the City and County of Honolulu, and Department of Parks and Recreation of the City and County of Honolulu.

Your Committees find that gasoline powered leaf blowers are not only a noise nuisance but also create environmental hazards. State and county governments across the United States have banned the use of gasoline-powered leaf blowers because of their adverse

effects on communities. This measure clarifies the residential zone boundaries in which leaf blowers may not be operated during certain hours and removes the exemption for government agencies.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2159, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2159, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Baker, San Buenaventura).

Government Operations: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Gabbard).

SCRep. 2559 (Joint) Health and Agriculture and Environment on S.B. No. 2407

The purpose and intent of this measure is to:

- (1) Require underground storage tank permit applicants to submit contingency plans for worst case scenarios;
- (2) Require a public hearing to be held prior to permit approval; and
- (3) Require an applicant to be in good standing before receiving a permit approval.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Hawai'i Alliance for Progressive Action, and two individuals. Your Committees received comments on this measure from the Department of Health and Department of Transportation.

Your Committees find that article XI, section 7, of the Hawaii State Constitution requires the State to "protect, control and regulate the use of Hawaii's water resources for the benefit of its people." Aging underground storage tanks threaten to leak hazardous substances into the ground and contaminate the State's precious supply of drinking water. In November 2021, the State experienced such an occurrence when the United States Navy confirmed that petroleum leaked from its Red Hill Underground Bulk Fuel Storage Facility, contaminating a portion of Oahu's water supply. This measure requires an applicant for an underground storage tank to submit contingency plans for worst case scenarios, attend a public hearing, and be in good standing prior to receiving permit.

Your Committees acknowledge the testimony of the Department of Health, which raised concerns that this measure as drafted would impose a significant burden on the Department of Health due to the number of underground storage tanks in the State. Your Committees agree that this measure should be applicable only to underground storage tanks with a capacity of over one hundred thousand gallons. Your Committees further acknowledge the testimony of the City and County of Honolulu Board of Water Supply, which recommended amendments for clarity.

Therefore, your Committees have amended this measure by:

- (1) Limiting this measure to underground storage tanks with a capacity of over one hundred thousand gallons;
- (2) Clarifying that in order to be in "good standing" for the purposes of this measure, an applicant must be in compliance with all financial obligations, including obligations pursuant to section 342L-36, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2407, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2407, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2560 (Joint) Health and Agriculture and Environment on S.B. No. 2598

The purpose and intent of this measure is to implement a schedule and standards for the inspection and repair of underground storage tanks.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Hawai'i Alliance for Progressive Action, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that article XI, section 7, of the Hawaii State Constitution requires the State to "protect, control and regulate the use of Hawaii's water resources for the benefit of its people." Aging underground storage tanks threaten to leak hazardous substances into the ground and contaminate the State's precious supply of drinking water. In November 2021, the State experienced such an occurrence when the United States Navy confirmed that petroleum leaked from its Red Hill Underground Bulk Fuel Storage Facility, contaminating a portion of Honolulu's water supply. This measure establishes a schedule and standards for the inspection and repair of underground storage tanks.

Your Committees acknowledge the testimony of the City and County of Honolulu Board of Water Supply, which raised concerns that the measure as drafted only requires inspection of release detection equipment and related process, which is a reactionary means to monitor substances that have already been released from a tank. Your Committees agree that this measure should be preventative and that the inspections should cover the entire underground storage tank system.

Therefore, your Committees have amended this measure by:

- (1) Making the application of the new requirements prospective, beginning July 1, 2022;
- (2) Requiring inspections of underground storage tanks and related systems to determine compliance with section 342L-32, Hawaii Revised Statutes, which requires that tanks and tank systems be designed, constructed, installed, upgraded, maintained, repaired, and operated to prevent releases of the stored regulated substances for the operational life of the tank or tank system;
- (3) Requires annual inspections;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2598, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2598, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, San Buenaventura).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2561 (Joint) Health and Agriculture and Environment on S.B. No. 2600

The purpose and intent of this measure is to:

- (1) Require that any permittee remain in compliance with all state and federal laws and has not been cited for any violation of the federal Water Pollution Control Act or chapter 342D, Hawaii Revised Statutes; and
- (2) Require the Director of Health to modify, suspend, or revoke any permit if the permittee does not meet certain conditions.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Hawaii's Thousand Friends, Hawai'i Nurses' Association, Livable Hawaii Kai Hui, Hawai'i Alliance for Progressive Action, and six individuals. Your Committees received comments on this measure from the Department of Health and Department of Transportation.

Your Committees find that article XI, section 7, of the Hawaii State Constitution requires the State to "protect, control and regulate the use of Hawaii's water resources for the benefit of its people." Aging underground storage tanks threaten to leak hazardous substances into the ground and contaminate the State's precious supply of drinking water. In November 2021, the State experienced such an occurrence when the United States Navy confirmed that petroleum leaked from its Red Hill Underground Bulk Fuel Storage Facility, contaminating a portion of Honolulu's water supply. This measure requires that any underground storage tank permit holder be in compliance with state and federal laws and requires the Director of Health to act on the holder's permit if the permit holder does not meet certain conditions.

Your Committees further find that this measure and Senate Bill No. 2172, Senate Draft 1, Regular Session of 2022 (S.B. No. 2712, S.D. 1), have the consistent goal of protecting Hawaii's drinking water from the danger of leaking underground storage tanks. However, S.B. No. 2172, S.D. 1, has a narrow bill title and requires a definition of "underground fuel storage tank" that is not applicable to the rest of chapter 342L, Hawaii Revised Statutes, which regulates all underground storage tanks, not just those containing fuel. Your Committees find that the goal of S.B. No. 2172, S.D. 1, would be better served if its contents were part of a bill with a broader title, such as this measure.

Therefore, your Committees have amended this measure by:

- (1) Replacing the contents of this measure with the contents of S.B. No. 2172, S.D. 1;
- (2) Deleting the definition of "underground fuel storage tank" and references to underground fuel storage tanks;
- (3) Correcting a citation to reference chapter 340E, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2600, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2600, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2562 (Joint) Health and Agriculture and Environment on S.B. No. 2601

The purpose and intent of this measure is to:

- (1) Require applications for underground storage tank permits to be accompanied by plans, specifications, and other necessary information;
- (2) Remove the provision allowing for the automatic grant of permits for underground storage tanks;

- (3) Require the Director of Health to modify, suspend, or revoke a permit if there is a violation of the permit, the permit was obtained by misrepresentation, or if there was a release of regulated substances.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Hawai'i Nurses' Association, Livable Hawaii Kai Hui, Hawai'i Alliance for Progressive Action, and eight individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that the Hawaii State Constitution requires the State to "protect, control and regulate the use of Hawaii's water resources for the benefit of its people." Article XI, section 7, Hawaii State Constitution. Aging underground storage tanks pose a significant threat of leaking hazardous substances into the ground, contaminating the State's drinking water. Such a leak and contamination occurred in November of 2021, when the Navy confirmed that petroleum leaked from its Red Hill Underground Bulk Fuel Storage Facility into Oahu's drinking water. This measure requires all applications for underground storage tank permits to be accompanied by specified information, removes automatic grants of permits, and requires the Director of Health to take certain action on any permit violation.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2601, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2601, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2563 (Joint) Health and Water and Land on S.B. No. 2653

The purpose and intent of this measure is to:

- (1) Establish a task force to investigate the environmental, infrastructure, public health, and economic consequences of the Red Hill Underground Bulk Fuel Storage Facility (Red Hill Facility) water crisis and include a recommendation plan that also considers water rationing; and
- (2) Appropriate funds to support the work of the task force.

Your Committees received testimony in support of this measure from the Department of Health, City and County of Honolulu Board of Water Supply, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that in November of 2021, petroleum was detected in the drinking water supply on Oahu resulting from a petroleum leak from the U.S. Navy's Red Hill Facility. Since the contaminated drinking water was discovered, the City and County of Honolulu Board of Water Supply (BWS) and the Department of Health have worked to address the consequences of the contamination, including water testing, remediation, and studying sites for future wells. This response has included closing the Halawa Shaft and both Halawa and Aiea wells, which has limited BWS' ability to provide sufficient fresh water to its customers. The closure of these wells could lead to a scarcity of water, which would require Oahu to ration water during the summer months. This measure establishes a task force to investigate the consequences of the Red Hill Facility fuel leak and create a recommendation plan that considers water rationing.

Your Committees acknowledge the testimony of the Department of Health, which requested to co-chair the task force, given its duty to regulate the State's water quality, and to require the task force to conduct a wastewater reuse study in anticipation of future water scarcity caused by the Red Hill Facility fuel leak and contamination.

Therefore, your Committees have amended this measure by:

- (1) Replacing the representative from the BWS as co-chair of the task force with a member from the Department of Health while retaining the representative of the BWS as a member;
- (2) Requiring the task force to conduct a study regarding wastewater reuse;
- (3) Clarifying that members invited to participate in the task force are not subject to chapter 84, Hawaii Revised Statutes, solely by virtue of their membership of the task force;
- (4) Inserting a task force dissolution date of June 30, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2653, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2653, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2564 (Joint) Health and Water and Land on S.B. No. 2889

The purpose and intent of this measure is to require the Department of Health to:

- (1) Regulate water catchment systems and provide testing to businesses who utilize water catchment systems; and
- (2) Provide technical assistance on water catchment systems and filtration to business owners who utilize captured water for business activities.

Your Committees received testimony in support of this measure from the City and County of Honolulu Board of Water Supply, Hawaii Tropical Fruit Growers, International Association of Plumbing and Mechanical Officials, Hawaii Master Food Preservers, and six individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Plumbers and Fitters United Association, Local 675.

Your Committees find that water catchment systems can supplement potable water systems, thus conserving natural water resources. In certain rural districts, water catchments is the primary or only source of water supply. Currently, water catchments are only allowed for residential use — manufacturers are not allowed to use water collected through catchments. This measure requires the Department of Health to regulate water catchment systems for businesses and to provide them with testing and technical assistance.

Your Committees acknowledge the testimony of the Plumbers and Fitters United Association, Local 675, which recommended that water catchment rules be compliant with the State's plumbing code as it applies to water catchments.

Therefore, your Committees have amended this measure by:

- (1) Requiring that rules promulgated by the Department of Health regarding water catchments used by business owners comply with the State's plumbing code and chapter 448E, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2889, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2889, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2565 (Joint) Health and Government Operations on S.B. No. 2914

The purpose and intent of this measure is to:

- (1) Establish the One Shared Health Vision plan with a pilot program to begin in Hawaii county; and
- (2) Require the Office of Primary Care and Rural Health to facilitate discussions with key community health and social service organizations within Hawaii County to address the health and wellness needs of the most vulnerable by aligning the goals and objectives of key organizations into a 2030 one shared health vision plan.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council; Hawai'i Primary Care Association; Bay Clinic, Inc.; and Hawai'i Public Health Institute. Your Committees received comments on this measure from the Department of Health and Hawai'i State Rural Health Association.

Your Committees find that improving public health is a complex issue that requires an examination of the social determinants that may impact whether a community has continuous access to health care resources. Coordinated efforts at all levels is needed to support this important examination. Establishing a strong health network based in Hawaii County would allow the county to serve as a model of collaboration for other areas. This measure establishes the One Shared Health Vision plan that will coordinate discussions with health and social service organizations and community service providers in the County of Hawaii.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2914, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2914, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 3. Noes, none. Excused, 2 (Baker, San Buenaventura).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2566 (Joint) Health and Agriculture and Environment on S.B. No. 3124

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for response activities and enforcement relating to the petroleum leaks at the Red Hill Bulk Fuel Storage Facility.

Your Committees received testimony in support of this measure from the Department of Health, City and County of Honolulu Board of Water Supply, Hawai'i Alliance for Progressive Action, and two individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that in November of 2021, petroleum was detected in the drinking water supply on Oahu resulting from a petroleum leak from the U.S. Navy's Red Hill Bulk Fuel Storage Facility. Since the contaminated drinking water was discovered, the Department of Health has expended a significant amount of funds in remediation efforts. These efforts are ongoing and the Department of Health requires more funds in order to pay for, among other things, additional staff, laboratory testing, and equipment. This measure makes an emergency appropriation to the Department of Health for response activities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Department of Health estimates the cost of its emergency response during the period of November 25, 2021, through June 1, 2022, to be approximately \$4.5 million.

As affirmed by the records of votes of the members of your Committees on Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3124, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3124, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2567 Human Services on S.B. No. 2395

The purpose and intent of this measure is to:

- (1) Amend section 586-1, Hawaii Revised Statutes, which governs domestic abuse protective orders by:
 - (A) Adding a definition of the term "litigation abuse"; and
 - (B) Amending the term "coercive control" to include litigation abuse as one of the behaviors that constitute the term; and
- (2) Add coercive control, as defined in section 586-1, Hawaii Revised Statutes, to the list of factors to be considered by the court in determining what constitutes the best interest of the child under section 571-46, Hawaii Revised Statutes, which governs the awarding of custody and visitation rights to individuals in actions for divorce, separation, annulment, separate maintenance, or any other proceeding where there is at issue, a dispute as to the custody of a minor child.

Your Committee received testimony in support of this measure from the Domestic Violence Action Center, Parents and Children Together, Women's Caucus of the Democratic Party of Hawai'i, American Association of University Women of Hawai'i, Hawai'i State Coalition Against Domestic Violence, and three individuals. Your Committee received comments on this measure from the Judiciary, Department of the Attorney General, and City and County of Honolulu Department of the Prosecuting Attorney.

Your Committee finds that individuals who abuse their intimate partners have been known to misuse court proceedings to control, harass, intimidate, coerce, or impoverish the abused partner. Your Committee believes that courts should be aware that coercive control and litigation abuse are tactics that have been used by perpetrators to continue abusive patterns, especially when custody of a child custody is at issue. Accordingly, this measure requires the court to consider histories of coercive control and litigation abuse when awarding custody and visitation rights to individuals in proceedings where the custody of a minor child is at dispute.

Your Committee notes the testimony of the City and County of Honolulu Department of the Prosecuting Attorney, raising concerns over including litigation abuse as one of the behaviors that constitute coercive control under section 586-1, Hawaii Revised Statutes, which constitutes a petty misdemeanor under section 709-906(6), Hawaii Revised Statutes. Section 709-906(6) was created by Act 19, Session Laws of Hawaii 2020, as part of a five-year pilot project aimed at strengthening state and county responses to domestic violence. Your Committee acknowledges the Department's concern that section 586-1, Hawaii Revised Statutes, should not be amended while data is being collected on the effect of this five-year pilot program.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2 that amends section 586-1, Hawaii Revised Statutes;
- (2) Amending section 3 by adding to section 571-46, Hawaii Revised Statutes:
 - (A) The history of litigation abuse as a stand-alone factor to be considered by the court in determining what constitutes the best interest of the child; and
 - (B) A definition of "litigation abuse"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2568 Human Services on S.B. No. 2422

The purpose and intent of this measure is to:

- (1) Require certain persons to immediately submit a written report to the court if the person has reasons to believe that a child in foster custody has suffered an injury that may arise to a tort claim; and
- (2) Establish procedures for Family Court to follow when appointing a master to investigate a potential tort claim and when authorizing the filing of a tort claim on behalf of an injured child, including the opportunity for an injured child to obtain outside legal representation.

Your Committee received testimony in support of this measure from Potts & Potts, Hawai'i Trial Attorneys; and four individuals. Your Committee received testimony in opposition to this measure from the Judiciary. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that when a child in foster custody suffers an injury caused by others, the medical costs are covered by the State; however, the child is unable to obtain legal representation to file a civil tort claim for personal injuries, including seeking damages for pain and suffering. This measure requires certain persons to report directly to Family Court injuries suffered by a child that may arise to a tort claim and provides disenfranchised children who suffer harm while in foster custody the opportunity to be compensated for their injuries.

Your Committee notes the testimony of the Department of the Attorney General raising concerns of a possible conflict of interest for the master, since this measure does not include a source of payment for the master to conduct a thorough, unbiased investigation other than filing a lawsuit against the alleged perpetrator to recover the master's costs.

Your Committee has amended this measure by:

- (1) Deleting the provisions that require the court-appointed master to investigate and determine the merits of the potential tort claim;
- (2) Deleting the provisions relating to the court's issuance of an order authorizing the filing of a tort claim on behalf of the injured child, including provisions relating to appointment of outside counsel to represent the injured child;
- (3) Appropriating an unspecified amount of funds for the Judiciary to compensate a court-appointed master pursuant to this measure; and
- (4) Changing the effective date to conform with the added appropriation provision.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2422, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2569 Human Services on S.B. No. 2676

The purpose and intent of this measure is to:

- (1) Establish and fund five permanent Long-Term Care Ombudsman Program Specialist positions within the Office of the Long-Term Care Ombudsman assigned to each county as follows: one for the City and County of Honolulu, one for the County of Maui, two for the County of Hawaii, and one for the County of Kauai; and
- (2) Require the Long-Term Care Ombudsman Program Specialist to work under the supervision of the State Long-Term Care Ombudsman to achieve the goals of the State's Long-Term Care Ombudsman Program, as mandated by the federal Older Americans Act.

Your Committee received testimony in support of this measure from the Hawaii Long-Term Care Ombudsman, County of Hawai'i Office of Aging, Maui County Office on Aging, AARP Hawai'i, Kokua Council, Policy Advisory Board for Elder Affairs, and twenty individuals. Your Committee received comments on this measure from the Executive Office on Aging and Department of Budget and Finance.

Your Committee finds that long-term care ombudsmen serve as advocates for residents of long-term care facilities to ensure that they receive the quality of care and quality of life they deserve and are entitled to by law. Your Committee further finds that according to a recommendation made by the National Academy of Medicine, Hawaii should have at least six full-time long-term care ombudsmen; however, during the reorganization of the Executive Office on Aging in June 2015, staffing for the Office of the Long-Term Care Ombudsman was reduced from six to one. This measure will replenish the staffing of Hawaii's Long-Term Care Ombudsman Program to meet national standards and enable the program to protect the health, safety, welfare, and rights of residents of long-term care facilities in accordance with state and federal law.

Your Committee notes the testimony of the Executive Office on Aging stating that the administration's budget includes two full-time equivalent (2.0 FTE) permanent ombudsmen positions for the State's Long-Term Care Ombudsman Program and if this measure were to pass, there will a total of seven full-time equivalent permanent ombudsmen positions.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Long-Term Care Ombudsman Program Specialists shall work under the supervision of the State Long-Term Care Ombudsman to assist in the performance of the Office of the Long-Term Care Ombudsman's duties and responsibilities,

including achieving the goals of the State's Long-Term Care Ombudsman Program established pursuant to the Older Americans Act, P.L. 89-73;

- (2) Clarifying that the five full-time equivalent (5.0 FTE) Long-Term Care Ombudsman Program Specialist positions established in and the appropriations made pursuant to this measure supplant what is in the Executive Office on Aging's base budget; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2676, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2570 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 2662

The purpose and intent of this measure is to establish clear and cost-effective guidelines to encourage and facilitate the recycling of construction and demolition debris.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Re-use Hawai'i, Hawaii Gas, Simonpietri Enterprises, and two individuals. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii, General Contractors Association of Hawaii, and two individuals. Your Committee received comments on this measure from United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that diversion and recycling of construction and demolition debris are best practices that can offer substantial benefits to the State. Through increased recycling and diversion of debris, the State can reduce or eliminate nearly two thousand tons of construction and demolition waste that are currently deposited in landfills each day. Landfills throughout the State that accept construction and demolition debris have less than one decade of life remaining. Moreover, as much as forty percent of this waste is wood, paper, and other biogenic material, which can be recycled into fuel to reduce imported fuel costs. However, there are few incentives for public and private sector entities to invest in recycling debris and equipment for construction and demolition debris. This measure will allow the State to become more sustainable, self-reliant, and resilient by establishing clear and cost-effective guidelines to encourage and facilitate the recycling of construction and demolition debris.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2662, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2571 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 3088

The purpose and intent of this measure is to:

- (1) Update certain sections of chapter 127A, Hawaii Revised Statutes, to be consistent with the current practices, policies, and procedures of the State Emergency Management Program and with the prevailing emergency management best practices; and
- (2) Clarify and highlight the intent of the State, Governor, and emergency management agencies to address environmental and climate impacts on emergency management.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency, Department of Defense, Sierra Club of Hawai'i, and Coordinating Group on Alien Pest Species. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that recent natural and human-caused incidents, including the coronavirus disease 2019 pandemic, have proven that certain elements in chapter 127A, Hawaii Revised Statutes, need to be revised to conform to current emergency management practices, policies, and procedures of the State Emergency Management Program and with the prevailing emergency management best practices across the nation. This measure will allow the State emergency management practices to remain current and protect the safety and security of Hawaii by adding language that highlights the State's, Governor's, and the Hawaii Emergency Management Agency's focus on climate and environmental impacts on Hawaii, as well as addressing the roles of the counties in coordinating sheltering in the event of a disaster.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3088, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3088, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2572 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3139

The purpose and intent of this measure is to:

- (1) Establish a new Department of Law Enforcement to consolidate and administer the criminal law enforcement and investigations functions of the Department of Transportation, certain investigations functions of the Department of the Attorney General, functions of the Office of Homeland Security, and current law enforcement and investigations functions of the Department of Public Safety; and
- (2) Rename the Department of Public Safety as the Department of Corrections and Rehabilitation, which will administer the corrections, rehabilitation, reentry, and related functions currently assigned to the Department of Public Safety.

Your Committee received testimony in support of this measure from the Bureau of Alcohol, Tobacco, Firearms and Explosives; Hawaii Paroling Authority; Department of the Attorney General; Department of Public Safety; Hawaii Office of Homeland Security; Department of Defense; Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; State of Hawaii Organization of Police Officers; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one hundred sixteen individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Office of Information Practices; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that currently, corrections and certain law enforcement functions and activities are placed within the Department of Public Safety. Additionally, the goals and functions of corrections and law enforcement are different and distinct and separating the functions of corrections and law enforcement from the Department of Public Safety into two departments would best accomplish the distinct goals and objectives of both functions. Your Committee further finds that state law enforcement personnel and functions are currently spread across various departments. The Department of Public Safety, Department of Transportation, and Department of the Attorney General all have independent law enforcement officers with different law enforcement duties. Training and operational standards differ between each department because each department administers its own law enforcement duties, goals, and functions. Your Committee believes that the reorganization of certain state law enforcement functions into a single entity would provide the highest level of law enforcement service for the public, state employees, and state properties. This measure will increase public safety, improve decision-making, promote accountability, streamline communication, decrease costs, reduce duplication of efforts, and promote uniform training and standards of law enforcement services by establishing a new Department of Law Enforcement to consolidate and administer certain functions of the Department of Transportation, Department of the Attorney General, Office of Homeland Security, and Department of Public Safety and renaming the Department of Public Safety as the Department of Corrections and Rehabilitation.

Your Committee has amended this measure by:

- (1) Clarifying that county police departments are able to maintain their current level of authority and jurisdiction;
- (2) Deleting language that would have required the Director of Corrections and Rehabilitation to include the name of the decedent in the Director of Corrections and Rehabilitation's report of community correctional center deaths to the Governor;
- (3) Adding language to allow the Director of Corrections and Rehabilitation to disclose the name of a decedent in the Director of Corrections and Rehabilitation's report of community correctional deaths to the Governor; provided that the Director of Corrections and Rehabilitations shall not disclose information protected from disclosure by law;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard testimony expressing concerns that this measure may affect the State Law Enforcement Coalition and the Investigations Division, which may affect the ability of state law enforcement to conduct complex white collar crime investigations, particularly government corruption and financial fraud. Additionally, your Committee notes that this measure does not require the Department of Law Enforcement to be certified by the Commission on Accreditation for Law Enforcement Agencies, Inc. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committees on Ways and Means and Judiciary further examine those issues and concerns.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3139, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2573 Transportation on S.B. No. 3170

The purpose and intent of this measure is to:

- (1) Allow federal pandemic relief funds received by the State to be used to supplement payment into the county highway funds; and
- (2) Permit the County of Hawaii to appropriate the county's share of fuel tax revenue for the maintenance of substandard private subdivision roads that are used by the public.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Department of Budget and Finance, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that to offset costs of the county fuel tax, this measure allows fair and reasonable allocation of funds from federal pandemic relief sources as determined by the Director of Finance.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2574 Transportation on S.B. No. 3311

The purpose and intent of this measure is to:

- (1) Establish the ground transportation and interisland transportation working groups; and
- (2) Require the Department of Transportation to prepare for and incentivize the increased adoption of electric vehicles in the State.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Climate Change Mitigation and Adaptation Commission, Ulupono Initiative, Hawaii Automobile Dealers' Association, and Simonpietri Enterprises. Your Committee received comments on this measure from the Department of Transportation; Alliance for Automotive Innovation; and Matson Navigation Company, Inc.

Your Committee finds that transportation accounts for the majority of Hawaii's greenhouse gas emissions. However, due to Hawaii's relatively small size, good year-round weather, and population density, it is a prime target for the full electrification of ground, sea, and air transportation. The purpose of this measure is to establish long-term goals for zero emissions transportation in Hawaii and to establish working groups of government agencies and expert stakeholders to develop plans and recommendations to achieve these goals.

Your Committee has amended this measure by:

- (1) Clarifying that the Chief Energy Officer of the Hawaii State Energy Office shall be a member of both working groups;
- (2) Removing the 2045 target date;
- (3) Specifying that the working groups shall coordinate with other groups, agencies, and programs; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3311, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3311, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2575 (Joint) Housing and Water and Land on S.B. No. 2232

The purpose and intent of this measure is to:

- (1) Establish that all state-owned lands located within one mile of any rail mass transit station shall be designated as important housing lands to promote the development of homes priced below market rates for Hawaii residents who are owner-occupants and own no other real property; and
- (2) Require state and county housing polices, land use plans, ordinances, and rules to promote the long-term viability of important housing lands consistent with certain policies.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Department of Hawaiian Home Lands and Office of Planning and Sustainable Development.

Your Committees find that a significant barrier to the development of additional housing in the State is a lack of available land. Designating certain lands as important housing lands would ensure that state, county, and private developers have sufficient access to land on which to construct additional housing. This measure establishes important housing lands within one mile of any rail mass transit station and requires that state and county housing policies, land use plans, ordinances, and rules align with the State's goals to increase access to housing for its residents.

Your Committees have amended this measure by:

- (1) Excluding lands under the jurisdiction of the Department of Hawaiian Home Lands from important housing lands;
- (2) Removing the requirement that policies discourage the fragmentation and conversion of important housing lands for non-housing uses;
- (3) Replacing "eligible buyer" with "eligible resident";

- (4) Clarifying the definition of "eligible resident" to include occupants of rental units; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2232, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2232, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Riviere, Fevella). Noes, none. Excused, none.

SCRep. 2576 (Joint) Housing and Water and Land on S.B. No. 2898

The purpose and intent of this measure is to:

- (1) Establish the transit-oriented development infrastructure improvement district under the Hawaii Community Development Authority;
- (2) Establish districts to comprise and include the parcels of land within county-designated transit-oriented development zones, or within a one-half mile radius of a proposed or existing transit station if the county has not designated transit-oriented development zones;
- (3) Require the transit-oriented development infrastructure improvement district board to develop a transit-oriented development infrastructure improvement program to identify necessary infrastructure improvements within the district; and
- (4) Establish the transit-oriented development infrastructure improvement special fund.

Your Committees received testimony in support of this measure from the Hawaii Community Development Authority, Office of Planning and Sustainable Development, and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Land and Natural Resources.

Your Committees find that mass transit hubs provide valuable opportunities to implement transit-oriented development in the State. Transit-oriented development, which includes the development of housing and mixed-use projects near transit hubs, promotes environmental sustainability through a reduction in car usage and greater quality of life for residents. This measure promotes transit-oriented development by requiring the implementation of transit-transit oriented development districts in the State. Your Committees further find, however, that only revenues generated by the program within each district should be deposited into the special fund. Additionally, the terminology for the transit-oriented development infrastructure improvement districts program, board, and special fund is inconsistent.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying the definitions of "fund" and "program";
- (2) Including all parcels of land of which any portion of said parcels are located within the county-designated transit-oriented development zones or within a one-half mile radius around a proposed or existing transit station;
- (3) Requiring the board of the transit-oriented development district to consider the strategic plan prepared for the Hawaii Interagency Council for Transit-Oriented Development;
- (4) Providing that only revenues generated by the transit-oriented development infrastructure improvement district in each district shall be deposited into the corresponding special fund; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2898, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2898, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2577 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 3344

The purpose and intent of this measure is to:

- (1) Prohibit indefinite solitary confinement;
- (2) Prohibit prolonged solitary confinement;
- (3) Prohibit placement of an inmate in a dark or constantly lit cell;
- (4) Restrict the use of solitary confinement in state-operated and state-contracted correctional facilities, with certain specified exceptions;
- (5) Prohibit inmates incarcerated or detained in state-operated or state-contracted correctional facilities from being placed in solitary confinement, unless there is reasonable cause to believe that an inmate or other persons would be at substantial risk of immediate serious harm as evidenced by recent threats or conduct, and that a less restrictive intervention would be insufficient to reduce this risk; and

- (6) Prohibit the use of solitary confinement for a member of a vulnerable population.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Hawai'i Health & Harm Reduction Center, Hawai'i Friends for Restorative Justice, and six individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety. Your Committee received comments on this measure from the Hawaii Disability Rights Center and one individual.

Your Committee finds that solitary confinement is a severe form of punishment that is closely associated with long-lasting psychological harm and poor post-release outcomes. Experts have long documented the detrimental effects of solitary confinement on individuals. Spending time in solitary confinement has been found to increase the risk of premature death, even after release from incarceration. Your Committee further finds that in 2019, twenty-eight states introduced legislation to ban or restrict the use of solitary confinement and twelve states have passed reform legislation. Additionally, the United Nations Standard Minimum Rules for the Treatment of Prisoners restrict the use of solitary confinement as a measure of last resort, to be used only in exceptional circumstances, and prohibit the use of solitary confinement for a time period exceeding fifteen consecutive days. This measure will allow the State to facilitate more humane and effective practices in prisons and jails by restricting the use of solitary confinement in state-operated and state-contracted correctional facilities, with certain specified exceptions, and requiring the Department of Public Safety to use appropriate alternatives to solitary confinement for inmates who are members of a vulnerable population.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3344 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2578 (Joint) Public Safety, Intergovernmental, and Military Affairs and Transportation on S.B. No. 2008

The purpose and intent of this measure is to:

- (1) Remove the three-year limit on the exemption of the State and counties from the requirement to maintain or improve any condemned roads; and
- (2) Abolish joint and several liability of the State and counties for any condemned roads.

Your Committees received testimony in support of this measure from the Department of Transportation and one member of the Maui County Council. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committees find that there are numerous roads throughout the State that are privately owned. Although these roads are not often used by the public, the public may not realize that the road is not owned by a governmental agency. This creates difficulties when individuals seek to have a private road repaired. The Legislature sought to address the situation by passing Act 194, Session Laws of Hawaii of 2016, which, among other things, expanded the State and counties' authority to condemn private roads and exempted the State and counties from requirements to maintain or improve condemned roads for a three-year period. Your Committees believe that further legislation is now needed to reduce legal impediments to state and county condemnation of private lanes so that the predicament of repairing and maintaining private lanes does not endure.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2008 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2579 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 3298

The purpose and intent of this measure is to:

- (1) Establish a working group consisting of the Chairperson of the Board of Land and Natural Resources, the Director of Public Safety, and hunters and recreational shooters to determine potential locations and requirements for a shooting facility in the County of Hawaii; and
- (2) Appropriate funds to establish a shooting facility in the County of Hawaii; provided that the County of Hawaii provides matching funds on a dollar-to-dollar basis.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Public Safety, Game Management Advisory Commission, Hawaii Firearms Coalition, Hawaii Sportsmen's Alliance, DC Project Hawaii, and twenty-seven individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the establishment of a multi-use public shooting range in the County of Hawaii is needed to provide a safe and organized facility to practice firearms safety and hunting and recreational shooting skills. Law enforcement agencies will also benefit from the establishment of a shooting range in the County of Hawaii as it will provide a space to train and maintain their firearms skills at the highest level. Presently, there are hundreds of law enforcement and correctional officers in the County of Hawaii who are required to qualify for firearms and less lethal weapons on a regular basis. This measure will allow the State to provide a safe training area for the residents of the County of Hawaii by establishing a working group consisting of the Chairperson of the Board of Land and Natural Resources, the Director of Public Safety, and hunters and recreational shooters to determine potential locations and

requirements for a shooting facility in the County of Hawaii and appropriating funds to establish a shooting facility in the County of Hawaii; provided that the County of Hawaii provides matching funds on a dollar-to-dollar basis.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3298 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Misalucha). Noes, none. Excused, none.

SCRep. 2580 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2996

The purpose and intent of this measure is to appropriate \$600,000 to the Department of Land and Natural Resources for research, extension, and control of the little fire ant and other harmful ants.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Coordinating Group on Alien Pest Species; Hawaii Pest Control Association; Hawai'i Farm Bureau; Hawai'i Association of REALTORS; Makaha Mangoes Hawaii Tropical Fruit Growers; Susan's Nuts, LLC; Stop LFA Kohala; Growing Together Edible Landscaping; Hawaii Ant Lab; Neudorff North America; Hawaii Island School Garden Network; Kuaiwi Farm; and fifteen individuals. Your Committees received testimony in opposition to this measure from Malamaki Farm School. Your Committees received comments on this measure from the Department of Budget and Finance and one member of the Waimanalo Neighborhood Board.

Your Committees find that invasive species, such as the little fire ant, pose a threat to human health, wildlife, agriculture, and tourism in the State. If left unaddressed, growing populations of little fire ants threaten Hawaii's residents and tourists. This measure appropriates funds to mitigate and control the threat posed by the little fire ant.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2996 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2581 Agriculture and Environment on S.B. No. 2998

The purpose and intent of this measure is to require the Department of Health to implement the auditor's recommendations for the deposit beverage container program, including developing a risk-based selection process to select reports submitted by distributors and redemption centers for audit.

Your Committee received testimony in support of this measure from the Department of Health and American Beverage Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Office of the Auditor conducts an audit of the Department of Health's deposit beverage container program each year. The audits repeatedly demonstrate the deposit beverage container program's failure to develop and execute procedures to verify the accuracy and completeness of data produced by the program. This measure requires the Department of Health to develop a risk-based process recommended by the Office of the Auditor to help mitigate flaws in the program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2998 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2582 Agriculture and Environment on S.B. No. 3001

The purpose and intent of this measure is to prohibit the sale, offer for sale, and distribution of sunscreen products containing specified active ingredients beginning January 1, 2023.

Your Committee received testimony in support of this measure from the 'Ahihi-Kina'u Natural Area Reserve, Mālama Pūpūkea-Waimea, Wild Kids, Surfrider Foundation, Friends of Hanauma Bay, Hawai'i Reef and Ocean Coalition, Kohala Center, one member of the Maui County Council, and thirty-two individuals. Your Committee received testimony in opposition to this measure from Sato Dermatology, Hawaii Dermatology & Plastic Surgery Centers, Personal Care Products Council, Consumer Healthcare Products Association, Hawaii Dermatological Society, American Academy of Dermatology Public Access to Sunscreens Coalition, Retail Merchants of Hawaii, Hawaii Skin Cancer Coalition, Hawaii Food Industry Association, and four individuals. Your Committee received comments on this measure from the Department of Health, Department of Land and Natural Resources, and one individual.

Your Committee finds that many sunscreen products contain active ingredients that may be harmful to human health and the environment. Recently, the Food and Drug Administration posted a proposed order to recategorize many active sunscreen ingredients as no longer Generally Recognized As Safe and Effective (GRASE). The proposed order limited the number of ingredients categorized as GRASE to just two. To account for the unknown and potentially damaging effects of ingredients not categorized as GRASE, this measure prohibits the sale, offer for sale, and distribution of sunscreen products not categorized as GRASE. Your Committee further finds, however, that the current form of this measure would have the unintended effect of removing an explicit ban on oxybenzone and octinoxate.

Accordingly, your Committee has amended this measure by:

- (1) Restoring existing statutory language that prohibits oxybenzone and octinoxate;
- (2) Specifying that the prohibition of active ingredients that are not generally recognized as safe and effective begins January 1, 2023;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3001, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2583 Agriculture and Environment on S.B. No. 3004

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a compost reimbursement program within the Department of Agriculture and for one full-time permanent compost reimbursement program manager position; and
- (2) Require an annual progress report to the Legislature prior to each Regular Session.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Hawai'i Farmers Union United, Life of the Land, Growing Together Edible Landscaping, Restore the Commons, Hawai'i Alliance for Progressive Action, 'Ai Pohaku, and twelve individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that food waste has far-reaching environmental, financial, and social impacts on society. One way to reduce the large amounts of food waste produced in the State is to recycle it into compost. Composting can reduce and eliminate the need for chemical fertilizers, reduce methane emissions from landfills, promote higher yields for crops, aid habitat revitalization, enhance water retention, and sequester carbon. Consequently, this measure supports the State's composting efforts by establishing and funding a compost reimbursement program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3004 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2584 (Joint) Agriculture and Environment and Water and Land on S.B. No. 3011

The purpose and intent of this measure is to update certain state leasing statutes to maximize the benefit of agricultural lands to the State and help the State achieve its economic and food production goals.

Your Committees received testimony in support of this measure from the University of Hawai'i System. Your Committees received testimony in opposition to this measure from the Department of Agriculture, Agricultural Resource Management Division of the Department of Agriculture, and Hawai'i Farm Bureau. Your Committees received comments on this measure from the Department of the Attorney General; one member of the Waimanalo Neighborhood Board; and Hawaii Cattlemen's Council, Inc.

Your Committees find that state agricultural lands are a key resource that can be used to meet the State's goals for economic diversification and food self-sufficiency. The State offers leases of these lands to farmers at below market rates to promote agricultural production. However, some agricultural lands are tied to long-term leases that are not productive. This measure updates state leasing statutes to ensure the continued productivity of farming operations on state agricultural lands.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3011, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3011, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2585 Agriculture and Environment on S.B. No. 3181

The purpose and intent of this measure is to:

- (1) Establish a local agriculture transportation cost reimbursement incentive program to be administered by the Department of Agriculture to reimburse eligible producers for a portion of the producer's costs to transport agricultural commodities; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farm Bureau, and Hawaii Floriculture & Nursery Association.

Your Committee finds that agricultural production is an essential economic activity on many of Hawaii's islands. However, the distribution of Hawaii's agricultural production across several islands creates high transportation costs for the State's agricultural producers. This measure establishes a local agriculture transportation cost reimbursement incentive program to provide financial support to agricultural producers in the State for the transportation of their products.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3181 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2586 Agriculture and Environment on S.B. No. 3197

The purpose and intent of this measure is to:

- (1) Establish a farmer apprentice mentoring program to teach and train farmers to utilize a whole farm system approach to agriculture; and
- (2) Make an appropriation for the Department of Agriculture to provide mentoring on a whole farm system approach to agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Adaptations, Inc.; Chamber of Commerce Hawaii; Hawai'i Farmers Union United; Hawai'i Farm Bureau; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii imports between eighty-five and ninety percent of its food. The State's reliance on food imports makes it particularly vulnerable to supply chain disruptions, which have occurred frequently during the coronavirus disease 2019 pandemic. A whole farm system approach to agriculture will allow the State to reduce the need for imported food.

Your Committee finds that this measure is intended to establish a farmer training program. Your Committee has heard the concerns raised in testimony regarding the Chairperson of the Board of Agriculture establishing the curriculum for the program, as proposed by this measure.

Your Committee understands these concerns and notes that S.B. No. 2709, S.D. 1 (Regular Session of 2020), which was previously passed by your Committee, also sought to establish a farmer training program. Your Committee finds that the language in S.B. No. 2709, S.D. 1, is preferable because it establishes a beginning farmer training program under the University of Hawaii West Oahu Sustainable Community Food Systems in conjunction with qualified farmer training providers. The language in S.B. No. 2709, S.D. 1, is also preferable because it articulates topic areas and allows program applicants to apply for funding.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 2709, S.D. 1, a measure that:
 - (A) Establishes a Beginning Farmer Training Program to be administered by the University of Hawaii West Oahu Sustainable Community Food Systems; and
 - (B) Appropriates \$2,000,000 in general funds to the University of Hawaii for the Beginning Farmer Training Program; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3197, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2587 Agriculture and Environment on S.B. No. 3220

The purpose and intent of this measure is to:

- (1) Increase civil penalties for violation of certain pollution provisions; and
- (2) Appropriate funds for one full-time state biologist or ecologist.

Your Committee received testimony in support of this measure from the Department of Health and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that pollution, particularly in the State's waterways, poses a significant threat to human health and to the health of Hawaii's ecosystems. Increasing penalties for violations of certain pollution provisions will deter potential violators and protect the State and its residents. This measure supports efforts to deter potential violators by increasing penalties for violation of certain pollution provisions.

Your Committee has amended this measure by:

- (1) Inserting the following civil fine dollar amounts:
 - (A) \$56,460 in subsection 342D-30(a), Hawaii Revised Statutes;
 - (B) \$25,000 in subsection 342D-30(b), Hawaii Revised Statutes;
 - (C) \$56,400 in subsection 342E-4(a), Hawaii Revised Statutes;
 - (D) \$25,000 in subsection 342E-4(b), Hawaii Revised Statutes;
 - (E) \$56,400 in subsection 342L-10(a), Hawaii Revised Statutes; and
 - (F) \$10,000 in subsection 342L-10(b), Hawaii Revised Statutes;
- (2) Replacing the appropriation for a state biologist or ecologist with an appropriation for an environmental health specialist in the Enforcement Section of the Clean Water Branch;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3220, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2588 Agriculture and Environment on S.B. No. 3273

The purpose and intent of this measure is to:

- (1) Establish a Department of Environmental Protection by July 1, 2026;
- (2) Create a Department of Environmental Protection working group to evaluate the logistics required for the State to establish a Department of Environmental Protection; and
- (3) Require the working group to submit a report of its findings to the Legislature prior to the 2025 Regular Session.

Your Committee received testimony in support of this measure from the Department of Health, Board of Water Supply of the City and County of Honolulu, and League of Women Voters of Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources, Hawai'i State Energy Office, and Office of Planning and Sustainable Development.

Your Committee finds that many states have executive level departments or agencies dedicated to environmental policies and protection. Hawaii, however, does not have a department for environmental protection. Given the increasing threat posed by climate change and growing awareness of the importance of environmental protection, the State needs an executive level department dedicated to the implementation of environmental policies. This measure requires the establishment of a Department of Environmental Protection by July 1, 2026, and creates a working group to ensure effective and efficient establishment of a Department of Environmental Protection.

Your Committee has amended this measure by:

- (1) Statutorily establishing a Board of Environmental Protection to oversee the Department of Environmental Protection; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3273, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3273, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2589 Agriculture and Environment on S.B. No. 3363

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to replace the water capturing system in the Hilo Water Treatment Plant, which captures recycled water, natural gases, and fertilizer for agricultural purposes.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; County of Hawai'i Office of the Mayor; Department of Environmental Management of the County of Hawai'i; one member of the Hawai'i County Council, United Public Workers, AFSCME Local 646, AFL-CIO; Recycle Hawaii; Big Island 'Reef Keepers' Association; Kupuna for the Mo'opuna; Wastewater Alternatives & Innovations; Hawai'i Reef and Ocean Coalition; Life of the Land; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and twelve individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hilo Waste Water Treatment plant is essential to the local community. However, the plant requires substantial upgrades and repairs to continue its productive and safe operations. This measure authorizes the issuance of general obligation bonds for replacements at the Hilo Wastewater Treatment Plant to allow for the capture of valuable natural resources.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3363 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2590 Agriculture and Environment on S.B. No. 3364

The purpose and intent of this measure is to:

- (1) Require the Legislative Reference Bureau to conduct a five-year study on the coastal lands in the State that will be affected by impending sea level rise; and
- (2) Appropriate funds for the Legislative Reference Bureau to conduct the study.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that impending sea level rise presents many challenges to Hawaii and its coastal lands. For the State to effectively respond to those challenges, it must first understand the extent to which sea level rise will affect Hawaii's coastal lands. This measure requires the Legislative Reference Bureau to conduct a study on the effects of sea level rise on the State's coastal lands to promote informed policies.

Your Committee has amended this measure by removing an exemption to the Hawaii Public Procurement Code.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3364, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2591 (Joint) Agriculture and Environment and Transportation on S.B. No. 3379

The purpose and intent of this measure is to appropriate funds for a ports-of-entry biosecurity program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Department of Agriculture, Department of Health, Big Island Invasive Species Committee, Hawai'i Farm Bureau, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that a recently-concluded five-year pilot program demonstrated the value in strengthening biosecurity in the State. Invasive species pose a significant challenge to Hawaii and its agriculture industry. Reducing the threat of invasive species would promote a more profitable agriculture industry and save the State considerable amounts of money and resources over the long term. This measure supports the State's biosecurity by appropriating funds for a port-of-entry biosecurity program.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3379 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.
Transportation: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2592 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2946

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for water source infrastructure and the maintenance and improvements to the Peekauai Ditch Irrigation System located on Kauai.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agriculture Resource Management Division of the Department of Agriculture; Office of Economic Development of the County of Kauai; Local Food Coalition; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; PonoHolo Ranch Limited; and five individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that reliable irrigation systems are the lifelines of Hawaii's agricultural industry. To ensure that Hawaii's agricultural crops receive a steady and dependable supply of water, sufficient funding is needed to maintain and improve the State's irrigation systems. This measure appropriates funds for water source infrastructure maintenance and improvements to the Peekauai Ditch Irrigation System.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2946 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Rhoads).
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2593 Agriculture and Environment on S.B. No. 2947

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under the jurisdiction of the Department to promote and support agriculture; and
- (2) Establish the Agricultural Enterprise Program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Local Food Coalition; Land Use Research Foundation of Hawaii; Larry Jeffs Farms, LLC; Hawaii Cattlemen's Council, Inc.; Hawaii Aquaculture & Aquaponics Association; East O'ahu County Farm Bureau; Hawaii Crop Improvement Association; and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that small farming operations, particularly those engaged in diversified agriculture, often do not have access to the resources to maintain or expand productive processing, packing, storage, and distribution enterprises. It is often necessary for the Department of Agriculture to support small farming operations, particularly those on department lands, that have limited resources. This measure establishes the Agricultural Enterprise Program to bolster Department of Agriculture efforts to support small farms on department lands.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2947 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.

SCRep. 2594 Agriculture and Environment on S.B. No. 2950

The purpose and intent of this measure is to impose an inspection fee on certain imported agricultural products to be deposited into a special fund and expended by the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, Department of Agriculture, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii is uniquely vulnerable to invasive pests. Invasive pests are devastating to the State's natural environments and agricultural industry. This measure, as introduced, imposes an additional fee on certain agricultural products; however, according to testimony submitted by the Department of the Attorney General, an increase in the State's existing inspection fee would be better able to protect Hawaii from invasive species.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established a new inspection fee on certain imported agricultural products to be deposited into a special fund and expended by the Department of Agriculture;
- (2) Increasing the inspection, quarantine, and eradication service fee under section 150A-5.3, Hawaii Revised Statutes, from seventy-five cents per one thousand pounds to five cents per pound; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2950, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2950, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2595 Agriculture and Environment on S.B. No. 2962

The purpose and intent of this measure is to propose a constitutional amendment that recognizes and protects, for present and future generations, the inherent and inalienable right of all people to clean water and air and healthy ecosystems, including climate, and to the preservation of the natural, cultural, scenic, and healthful qualities of the environment.

Your Committee received testimony in support of this measure from one member of the Maui County Council, Hawai'i Reef and Ocean Coalition, 350.org, Our Revolution Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Climate Protectors Coalition Hawaii, Surfrider Foundation, Center for Biological Diversity, Green Amendments For The Generations, Hawai'i Alliance for Progressive Action, Americans for Democratic Action Hawai'i, Friends of Hanauma Bay, Pono Hawai'i Initiative, Clean The Pacific, and thirty-five individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that clean water and air and healthy ecosystems are critical to quality of life in Hawaii. However, the State's constitution does not explicitly recognize a right to clean water and air and to healthy ecosystems. At a time when clean water and air and healthy ecosystems are increasingly threatened by environmental pollution and climate change, the absence of an explicit right in Hawaii's constitution is significant. This measure proposes a new amendment that recognizes and protects, for present and future generations, the inherent and inalienable right of all people to clean water and air and healthy ecosystems, including climate, and to the

preservation of the natural, cultural, scenic, and healthful qualities of the environment. However, your Committee further finds that the language of the proposed amendment requires greater clarity.

Accordingly, your Committee has amended this measure by explaining the relationship between tradition and the environment in Hawaii and clarifying that the amendment to article I of the Constitution of the State of Hawaii shall read: The fundamental right of the people, including future generations, to clean water and air, a healthful environment and climate, healthy native ecosystems, and beaches, shall be protected and shall not be infringed.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2962, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2962, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Nishihara, Fevella). Noes, none. Excused, none.

SCRep. 2596 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2964

The purpose and intent of this measure is to authorize recreational athletic venues and cultural activities on existing golf courses within agricultural districts.

Your Committees received testimony in support of this measure from one member of the Mililani Neighborhood Board, Prince Waikiki Hotel and Hawaii Prince Golf Club, and AA & C Asbestos Removal. Your Committees received testimony in opposition to this measure from one member of the Waimanalo Neighborhood Board. Your Committees received comments on this measure from the Office of Planning and Sustainable Development and the Hawai'i Farm Bureau.

Your Committees find that agriculture is essential to the State. To recognize the importance of agriculture to Hawaii and promote its growth, the State has established agricultural districts. However, some activities, such as recreational athletics and other cultural activities, have been unnecessarily prohibited in agricultural districts. This measure authorizes recreational venues and cultural activities on existing golf courses in agricultural districts to balance the State's need for agriculture with the quality of life of its residents.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2964, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2964, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 5; Ayes with Reservations (Acasio, Fevella). Noes, none. Excused, none.
Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2597 Agriculture and Environment on S.B. No. 2969

The purpose and intent of this measure is to establish an Agricultural Emergency Special Fund to provide loans to farmers and ranchers for disaster recovery.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Ulupono Initiative, Hawaii Floriculture & Nursery Association, and Food+ Policy Internship. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that unexpected disasters can be devastating to the State's agricultural industry. Responding to disasters can be challenging for farmers who lack the necessary resources to rebuild their operations. This measure establishes an Agricultural Emergency Special Fund to support farmers and ranchers in disaster recovery efforts.

Your Committee has amended this measure by:

- (1) Inserting an appropriation out of the Agricultural Emergency Special Fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2969, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2598 Agriculture and Environment on S.B. No. 2972

The purpose and intent of this measure is to deposit revenue from the State Veterinary Laboratory and Animal Control Branch into the Animal Industry Special Fund and to allow funds from the special fund to be expended to make laboratory improvements.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that the State Veterinary Laboratory and Animal Control Branch of the Department of Agriculture plays an important role in protecting Hawaii's agricultural industry from diseases and other threats. However, the State Veterinary Laboratory

often requires improvements to maintain its operations. This measure supports improvements to the laboratory by depositing certain revenues in the Animal Industry Special Fund and allowing expenditures from the special fund to be used for laboratory improvements.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2972 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2599 Agriculture and Environment on S.B. No. 2973

The purpose and intent of this measure is to extend regulatory authority of the Department of Agriculture over hemp production until June 30, 2024.

Your Committee received testimony in support of this measure from the Department of Health, Department of Agriculture, South Maui Gardens, Hawai'i Farm Bureau, and two individuals. Your Committee received testimony in opposition to this measure from Hawai'i Farmers Union United and three individuals.

Your Committee finds that Act 14, Session Laws of Hawaii 2020, will repeal in June 2022. A repeal of that Act will eliminate the Department of Agriculture and Department of Health regulatory authority to allow legalized cultivation and processing of hemp. This measure extends Act 14 to 2024, thereby ensuring continued regulatory authority for the State.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2973, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2600 Agriculture and Environment on S.B. No. 2974

The purpose and intent of this measure is to update the membership of the Advisory Committee on Pesticides to replace representatives of the sugar and pineapple industries with representatives of the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i, Hawaii Floriculture and Nursery Association, and Hawaii Coffee Association. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that sugar and pineapple plantations were once the foundation of Hawaii's agricultural economy. However, since the 1970s, the number of sugar and pineapple plantations in the State has plummeted. In place of sugar and pineapple plantations, Hawaii now relies on coffee and diversified agriculture. This measure updates the membership of the Advisory Committee on Pesticides to better represent the State's current agricultural industry. Additionally, there remains a need to include members on the Advisory Committee on Pesticides who possess greater knowledge and expertise on the health effects of pesticide use.

Your Committee has amended this measure by adding a representative of Hawaii Farmers Union United to the Advisory Committee on Pesticides.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2974, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2601 Agriculture and Environment on S.B. No. 2977

The purpose and intent of this measure is to establish standards for the confinement of egg-laying hens and to prohibit business owners or operators from selling eggs or egg products that were produced by egg-laying hens confined in a cruel manner.

Your Committee received testimony in support of this measure from The Humane Society of the United States; Humane Society International; Villa Rose; Animal Equality Hawaii; Compassion in World Farming USA; Mercy For Animals; American Society for the Prevention of Cruelty to Animals; The Humane League; Friends of the Earth; Animal Outlook; Americans for Family Farmers; Animal Legal Defense Fund; Center for Biological Diversity; Natural Resource Defense Council; World Animal Protection; Carpenter & Carpenter, Inc.; Farm Sanctuary; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Farm Bureau, Hawaii Food Industry Association, Hawaiian Egg Company DBA Mikilua Poultry Farm, and five individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that human health and the welfare of farm animals depend on adequate regulation of food production, including egg production. Moreover, insufficient regulation of egg production and sales can have detrimental fiscal effects on the State's agricultural industry. This measure implements stronger regulations for the confinement of egg-laying hens to promote human safety and animal welfare.

Your Committee has amended this measure by increasing the maximum number of hens required for an exemption from thirty thousand to seventy-five thousand.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2977, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Acasio). Noes, none. Excused, 1 (Fevella).

SCRep. 2602 Agriculture and Environment on S.B. No. 2988

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Agriculture for the control and mitigation of the two-lined spittlebug and for recovery efforts for lands damaged by the two-lined spittlebug; and
- (2) Require a report to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Local Food Coalition; Ulupono Initiative; Hawai'i Farm Bureau; Ponoholo Ranch Limited; Parker Ranch, Inc.; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; and nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Big Island Invasive Species Committee.

Your Committee finds that the two-lined spittlebug is an invasive species that attacks key forage grasses used by the livestock ranching industry. Infestations of the two-lined spittlebug reduce the quality of forage pastures by irreparably damaging important grasses. Grasses destroyed by the two-lined spittlebug also often must be replanted. This measure appropriates funds to combat infestations of the two-lined spittlebug and to support recovery efforts.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2988 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2603 Agriculture and Environment on S.B. No. 2992

The purpose and intent of this measure is to:

- (1) Establish an Agriculture Investment Special Fund to support agricultural producers; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawaii Floriculture & Nursery Association; Hawaii Cattlemen's Council, Inc.; and Food+ Policy Internship.

Your Committee finds that increasing the amount of food produced locally is key to reducing Hawaii's reliance on imported foods. However, agricultural producers in the State often face high costs that make local agriculture uncompetitive. This measure establishes an Agriculture Investment Special Fund to provide resources to alleviate economic strains on the agricultural industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2604 Agriculture and Environment on S.B. No. 368

The purpose and intent of this measure is to remove limitations on specific types of wastewater systems to which cesspools must be upgraded or converted and require a cesspool to be upgraded or converted to a wastewater system approved by the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health; Surfrider Foundation; Hawaii Cattlemen's Council, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing limits on cesspool upgrades make the process of upgrading a cesspool prohibitively expensive. However, cesspools have numerous detrimental effects on water quality and the environment. This measure allows for more options when upgrading cesspools to make upgrades more feasible.

Your Committee has amended this measure by:

- (1) Inserting additional requirements for cesspools within five hundred feet of certain bodies of water to be upgraded by January 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 368, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2605 Agriculture and Environment on S.B. No. 1025

The purpose and intent of this measure is to:

- (1) Authorize the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove infrastructure on any lands under its jurisdiction;
- (2) Establish the Agricultural Enterprise Program and Special Fund; and
- (3) Require the Board of Agriculture to annually report an accounting of non-agricultural park lessees to the Legislature.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Local Food Coalition; Land Use Research Foundation of Hawaii; Larry Jefts Farms, LLC; Hawaii Aquaculture & Aquaponics Association; East O'ahu County Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that many small farming operations do not have access to the resources required to maintain high productivity processing, packing, storage, and distribution enterprises. The Department of Agriculture plays an important role in supporting enterprises that lack the necessary resources to increase productivity. This measure establishes an agricultural enterprise program, which will allow the Department of Agriculture to provide continued support for agricultural enterprises.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1025 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Acasio). Noes, none. Excused, none.

SCRep. 2606 Agriculture and Environment on S.B. No. 1277

The purpose and intent of this measure is to establish the environmental justice task force and an advisory council to develop high quality data relating to environmental justice concerns, identify environmental justice communities, and devise a method to correct for racist and unjust practices leading to historical and current environmental injustices.

Your Committee received testimony in support of this measure from the Surfrider Foundation and two individuals.

Your Committee finds that environmental hazards cause disproportionate health outcomes for certain communities as a result of systemic injustices. Correcting those injustices requires detailed data on the extent of disproportionate outcomes and adverse effects. This measure develops a task force and advisory council to gather and disseminate data on disproportionate outcome and environmental injustices in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2607 Agriculture and Environment on S.B. No. 1315

The purpose and intent of this measure is to establish a food manufacturer tax credit and define qualified taxpayers as manufacturers that produce value-added products using local crops.

Your Committee received testimony in support of this measure from the Hawaii Food Manufacturers Association; Ulupono Initiative; Hawaiian Chip Company; Carpenter & Carpenter, Inc.; Hawaii Cattlemen's Council, Inc.; Hawaii Food Industry Association; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, Department of Agriculture, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the State has a goal to double local food production by 2030. One barrier to that goal is that there is little access to capital for food manufacturing and few incentives for investment in Hawaii's food manufacturing industry. This measure incentivizes investment in local food production by establishing a food manufacturer tax credit.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2608 Agriculture and Environment on S.B. No. 1316

The purpose and intent of this measure is to establish an agricultural production tax credit that includes agricultural producers who produce at least fifty percent of their food crops for local consumption.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Carpenter & Carpenter, Inc.; Hawaii Food Industry Association; and three individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the State has a goal to double local food production by 2030. One barrier to that goal is that there is little access to capital for agricultural production and few incentives for investment in Hawaii's agricultural industry. This measure incentivizes investment in local food production by establishing an agricultural production tax credit for producers who produce at least fifty percent of their food crops for local consumption.
