

## SPECIAL COMMITTEE REPORTS

**Spec. Com. Rep. No. 1**

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Thirty-second Legislature of the State of Hawaii, Regular Session of 2023, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senators whose respective terms of office will expire on November 5, 2024, are:

First Senatorial District

Lorraine R. Inouye

Third Senatorial District

Dru Mamo Kanuha

Fourth Senatorial District

Herbert M. "Tim" Richards, III

Sixth Senatorial District

Angus L.K. McKelvey

Seventh Senatorial District

Lynn DeCoite

Twelfth Senatorial District

Sharon Y. Moriwaki

Sixteenth Senatorial District

Brandon J.C. Elefante

Eighteenth Senatorial District

Michelle N. Kidani

Nineteenth Senatorial District

Henry J.C. Aquino

Twenty-second Senatorial District

Maile S.L. Shimabukuro

Twenty-third Senatorial District

Brenton Awa

Twenty-fourth Senatorial District

Jarrett Keohokalole

The newly elected Senators whose respective terms of office will expire on November 3, 2026, are:

Second Senatorial District

Joy A. San Buenaventura

Fifth Senatorial District

Gilbert S.C. Keith-Agaran

Eighth Senatorial District

Ronald D. Kouchi

Ninth Senatorial District

Stanley Chang

Tenth Senatorial District

Les Ihara, Jr.

Eleventh Senatorial District

Carol Fukunaga

Thirteenth Senatorial District

Karl Rhoads

Fourteenth Senatorial District

Donna Mercado Kim

Fifteenth Senatorial District

Glenn Wakai

Seventeenth Senatorial District

Donovan M. Dela Cruz

Twentieth Senatorial District

Kurt Fevella

Twenty-first Senatorial District

Mike Gabbard

Twenty-fifth Senatorial District

Chris Lee

Signed by Senators Kidani, Kanuha, and Wakai, members of the Committee on Credentials.

## CONFERENCE COMMITTEE REPORTS

**Conf. Com. Rep. 1 on S.B. No. 228**

The purpose of this measure is to:

- (1) Establish the offense of fraud as a class B felony;
- (2) Establish the offense of making a false, fictitious, or fraudulent claim against the State or a county as a class C felony; and
- (3) Establish the offense of the use of false statements or entries in matters within the jurisdiction of the executive, legislative, or judicial branches of the State as a class C felony.

Your Committee on Conference finds that it is of utmost importance to restore public trust in state government and increase the level of transparency in government operations and accountability of individuals. Your Committee on Conference also recognizes that to improve the standard of conduct within government, and to more effectively combat fraud, waste, and corruption, it is necessary to establish criminal offenses and penalties.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 228, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 228, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 2 on S.B. No. 1381**

The purpose of this measure is to repeal section 328-106, Hawaii Revised Statutes, which requires the Department of Health to regulate business practices between private entities engaged in the selling, billing, and reimbursement of pharmaceuticals.

Your Committee on Conference finds that section 328-106, Hawaii Revised Statutes, requires the Department of Health to police contractual relationships between pharmacy benefit managers and pharmacies. This regulatory burden is outside the scope of the Department of Health's purview, expertise, and mission to protect public health, and other existing state laws offer more appropriate regulatory frameworks for pharmacy benefit managers. Thus, repealing section 328-106, Hawaii Revised Statutes is appropriate.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1381, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1381, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, San Buenaventura, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Sayama, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 3 on S.B. No. 109**

The purpose of this measure is to replace gender-specific terminology used in certain parental and marital matters with gender-neutral terminology.

Your Committee on Conference finds that existing parental and marriage laws reflect outdated, cisheteronormative concepts of families, parenthood, parental rights, and relationships. Adopting gender neutral terminology is a necessary update to keep existing laws relevant to all marriages, divorces, and adoptions.

Your Committee on Conference has amended this measure by making it effective on January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 109, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 109, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and San Buenaventura.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (San Buenaventura).

Representatives Tarnas, Takayama, Tam, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 4 on S.B. No. 110**

The purpose of this measure is to require gender-specific terminology used in adoption and annulment, divorce, and separation matters to be construed in a gender-neutral manner.

Your Committee on Conference finds that existing laws maintain gender-specific terminology that is not only exclusionary, but also erases the experiences and identities of individuals who do not fit into the gender binary. This measure will ensure that all individuals are recognized and respected in the legal system regardless of their gender identity.

Your Committee on Conference has amended this measure by making it effective on January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 110, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 110, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and San Buenaventura.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, Tam, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 5 on S.B. No. 203**

The purpose of this measure is to:

- (1) Allow the Campaign Spending Commission to treat a respondent's failure to explain or otherwise respond to a complaint alleging a violation of campaign spending laws as a rebuttable presumption that a violation has occurred; and
- (2) Provide the respondent with thirty days from the mailing of the complaint to explain or otherwise respond before the rebuttable presumption takes effect.

Your Committee on Conference finds that the Campaign Spending Commission is required to make repeated attempts to communicate with a respondent regarding a complaint alleging a violation of campaign spending laws before putting the matter on a meeting agenda for action. This measure will save the Campaign Spending Commission time and resources by allowing the Campaign Spending Commission to process complaints in cases where the Campaign Spending Commission has given notice of a complaint to the respondent and the respondent fails to respond.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 203, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 203, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Gabbard.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 6 on S.B. No. 1189**

The purpose of this measure is to require candidates, or the treasurer of their candidate committee, to file a preliminary campaign finance report on February 28 of the year of a general election.

Your Committee on Conference finds that campaign finance reporting requirements are an essential safeguard to prevent undue influence and allow voters to be better equipped to make informed decisions about who they choose to elect to public office. This measure will increase transparency by requiring an additional reporting date for a preliminary report.

Your Committee on Conference has amended this measure by making it effective on January 1, 2026.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1189, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1189, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 7 on S.B. No. 1086**

The purpose of this measure is to amend the composition and duties of the State Highway Safety Council.

Your Committee on Conference finds that the State Highway Safety Council provides valuable insight and advises the State on matters relating to highway safety and transportation infrastructure. As the State incorporates long-term goals such as zero emissions vehicles and clean transportation infrastructure, the scope, responsibilities, and membership of the State Highway Safety Council must also reflect these objectives. This measure amends the name, composition, and duties of the State Highway Safety Council to ensure that the Council provides effective guidance to help achieve state transportation goals and outcomes.

Your Committee on Conference has amended this measure by:

- (1) Renaming the State Highway Safety Council to the State Highway Safety and Modernization Council;
- (2) Adding two additional members to the Council to be appointed by the President of the Senate and Speaker of the House of Representatives, respectively;
- (3) Removing the State Public Charter School Commission Chairperson from the Council;
- (4) Inserting an effective date of July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1086, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1086, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Elefante, and Keohokalole.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Tarnas, Evslin, Kila, and Matsumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 8 on H.B. No. 986**

The purpose of this measure is to establish the class C felony offense of official misconduct to prohibit a person, in the person's official capacity, from acting or refraining from performing an official duty with the intent to obtain a benefit other than the person's lawful compensation, or submitting or inviting reliance on any false statement, document, or record.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 986, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 986, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 9 on H.B. No. 494**

The purpose of this measure is to deem an organization that receives a motor vehicle as a charitable donation, upon receipt of the motor vehicle, to be a transferee of title or interest, subject to certain rights, responsibilities, and liabilities.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 494, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 494, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Lamosao, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 10 on H.B. No. 710**

The purpose of this measure is to:

- (1) Establish the class B felony offense of obstruction of justice to include intentionally influencing; obstructing; impeding; or endeavoring to influence, obstruct, or impede, the due administration of justice by means of force, threat of force, coercion, fraud, or deception; and
- (2) Prohibit a person charged with the class B felony offense of obstruction of justice from being eligible for a deferred acceptance of guilty plea or nolo contendere plea.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited a person charged with the class B felony offense of obstruction of justice from being eligible for a deferred acceptance of guilty plea or nolo contendere plea;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 710, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 710, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Rhoads, Wakai, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 11 on H.B. No. 884**

The purpose of this measure is to provide an exemption from state physician licensure requirements for out-of-state traveling team physicians who accompany a sports team to Hawaii, under certain conditions.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 884, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 884, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Elefante, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Amato, Sayama, and Pierick.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 12 on H.B. No. 192**

The purpose of this measure is to prohibit the sale of certain fluorescent lamps as a new manufactured product, with certain exemptions.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the prohibition on the sale of a screw or bayonet base type compact fluorescent lamp and a pin-base type compact fluorescent lamp or linear fluorescent lamp as a new manufactured product shall begin on January 1, 2025, and January 1, 2026, respectively; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 192, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 192, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Keohokalole, and Fukunaga.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Nakashima, Amato, Cochran, Hussey-Burdick, and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 13 on H.B. No. 777**

The purpose of this measure is to authorize the Department of Human Services to conduct background checks on current and prospective employees, volunteers, contractors and their employees and volunteers, and subcontractors and their employees and volunteers whose position places or would place them in close proximity to certain minors, young adults, or vulnerable adults.

Your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that any state law permitting a more extensive inquiry into an individual's criminal history by the State and any of its branches, political subdivisions, agencies, or semi-autonomous public bodies corporate and politic will prevail over conflicting conviction record inquiries under the State's employment practices law;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 777, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 777, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Moriwaki, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Tarnas, Amato, Ilagan, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 14 on H.B. No. 541**

The purpose of this measure is to require:

- (1) Vehicle safety inspections to include inspections for compliance with proper head lamp requirements and specifications; and
- (2) The Department of Transportation to amend its administrative rules to allow motor vehicle owners whose motor vehicle registration and safety inspection are both expired to obtain a motor vehicle safety inspection without evidence of the motor vehicle registration before registering the motor vehicle.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 541, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Nakashima, Evslin, Hussey-Burdick, Kila, and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 15 on H.B. No. 704**

The purpose of this measure is to:

- (1) Exempt flatbed trucks from the registration requirements for motor carrier vehicles when the flatbed trucks are used as marine terminal equipment temporarily moving in or between certain terminals; and
- (2) Adding new terminal locales and roadways covered under the exemption.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 704, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 704, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Nakashima, Aiu, Evslyn, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 16 on H.B. No. 973**

The purpose of this measure is to repeal the requirement for the Department of Agriculture to adopt rules to address nuisance issues, including smell, noise, and excessive lighting arising out of the activities of hemp growers.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 973, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 973, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Tarnas, Cochran, Kahaloa, and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 17 on H.B. No. 692**

The purpose of this measure is to establish minimum administrative penalties and increase maximum administrative and criminal penalties for violators of the Hawaii Pesticides Law.

Your Committee on Conference has amended this measure by:

- (1) Deleting the proposed minimum administrative penalties; and
- (2) Changing its effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 692, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 692, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Tarnas, Kahaloa, and Ward.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Ward). Noes, none. Excused, none.

**Conf. Com. Rep. 18 on H.B. No. 695**

The purpose of this measure is to allow for the use of battery-charged security fences for non-agricultural purposes, under certain circumstances.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 695, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 695, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Rhoads, and Richards.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Gates, Nakashima, Cochran, Sayama, and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 19 on S.B. No. 497**

The purpose of this measure is to prohibit certain oversized commercial vehicles from driving in the far left lane on roadways with three or more lanes for traffic moving in the same direction, subject to certain exceptions.

Your Committee on Conference finds that solutions to traffic congestion across the State will allow all roadway users to commute to and from their destinations in a safe manner. By improving traffic flow on state roadways, including the left lane on roadways, there is a reduced likelihood of motor vehicle collisions that cause serious injuries or death. This measure limits the usage of left lanes by large commercial vehicles to address traffic flow and safety concerns.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to allow a commercial vehicle to be driven in the far left lane if:
  - (A) The commercial vehicle is able to maintain speed with existing traffic flow; and
  - (B) The commercial vehicle is in the process of overtaking and passing another vehicle proceeding in the same direction;
- (2) Inserting an effective date of January 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 497, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 497, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 20 on S.B. No. 214**

The purpose of this measure is to:

- (1) Establish the offense of interference with the operation of a public transit vehicle; and
- (2) Make clarifying and conforming amendments to the offense of interference with the operator of a public transit vehicle.

Your Committee on Conference finds that public transit vehicles provide essential transportation services to thousands of residents and visitors across the State. While existing law establishes the offense of interference with an operator of a public transit vehicle, which includes injuries or threats to the operator, conduct that interferes with the public transit system is not similarly addressed. This measure establishes the offense of interference with the operation of a public transit vehicle to provide accountability and safer transportation for all users.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 214, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 214, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Kong, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 21 on S.B. No. 746**

The purpose of this measure is to:

- (1) Expand coffee labeling and advertising requirements to include ready-to-drink coffee beverages and the inner packages and inner wrapping labels of roasted coffee, instant coffee, and ready-to-drink coffee beverages;
- (2) Specify that the coffee labeling and advertising requirements apply if the applicable products are produced in whole or in part from Hawaii-grown and Hawaii-processed green coffee beans;
- (3) Require disclosure on the label of coffee blends of the respective geographic and regional origins and percent by weight of the blended coffees; and
- (4) Prohibit use of the term "All Hawaiian" in labeling or advertising for roasted coffee or instant coffee not produced entirely from green coffee beans grown and processed in Hawaii.

Your Committee on Conference finds that while existing law provides marketplace protections from fraudulent representations of the labeling or advertising of certain coffee products in the State, these protections require updates due to swiftly changing market conditions and emerging popularized new coffee products. Furthermore, Hawaii is the only coffee producing region where local laws allow for just ten percent of regional coffee content to qualify the product to be “locally produced”. These products often contain up to ninety percent foreign-grown coffee bean of lower quality and production cost to benefit distributors and producers at the expense of local and out-of-state consumers. Therefore, this measure expands and requires additional labeling requirements to better inform consumers of locally grown and processed coffee product options and prohibits the term “All Hawaiian” in products that do not completely contain coffee beans grown and processed entirely in Hawaii.

Your Committee on Conference also finds that the results of the coffee labeling economic impact study of Act 222, Session Laws of Hawaii 2022, should be produced and its results shared with the Legislature before this measure is implemented. Accordingly, your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 746, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 746, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Kahaloa, and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 22 on S.B. No. 516**

The purpose of this measure is to:

- (1) Require that the identity statement used for labeling or advertising hemp products identify the percentage of Hawaii-grown and Hawaii-processed hemp and hemp of other origins contained in hemp products; and
- (2) Allow the use of the term “All Hawaiian” for hemp products in which one hundred percent of the hemp is grown and processed in the State.

Your Committee on Conference finds that there is no existing law that requires hemp producers to disclose the origin of the hemp in their products. While hemp in Hawaii is recognized as a versatile agricultural commodity with the potential to diversify the State’s economy, hemp farming and production has proliferated across the nation and the State’s hemp farmers faces fierce competition from out-of-state growers and producers. Therefore, this measure requires that hemp products advertise the percentage of Hawaii-grown and Hawaii-processed hemp as well as hemp of other origins. Furthermore, this measure allows for the use of the term “All Hawaiian” for hemp products that contain one hundred percent of hemp grown and processed in the State. This measure will enhance the appeal of products that contain Hawaii hemp by increasing transparency for consumers that are interested in supporting local businesses.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 516, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 516, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Onishi, and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 23 on S.B. No. 1378**

The purpose of this measure is to:

- (1) Clarify that it shall be unlawful for any person, corporation, or entity to negligently refer or transfer patients to an uncertified or unlicensed care facility; and
- (2) Repeal the provision that a landlord, under specified conditions, shall not be deemed to be providing home care services or operating a care facility that requires a license.

Your Committee on Conference finds that that unlicensed care homes endanger the health and safety of Hawaii’s most vulnerable populations, including kupuna. Despite the dangers these care homes pose, licensed care operators and other persons continue to refer or transfer patients to care homes that, unbeknownst to the patient, are unlicensed. In addition, an existing statutory provision that waives the requirement for licensure for certain landlords that would otherwise qualify as providing home care services or operating a care facility prevents the Department of Health from regulating these unlicensed care providers. Further safeguards are therefore necessary to ensure quality care for, and to protect the welfare of, Hawaii’s vulnerable populations.

Your Committee on Conference has amended this measure by:

- (1) Specifying that it shall be unlawful for any person, corporation, or entity to knowingly, rather than negligently, refer or transfer patients to an uncertified or unlicensed care facility;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1378, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1378, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keohokalole, and Rhoads.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Kobayashi, Lamosao, and Pierick.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 24 on S.B. No. 798**

The purpose of this measure is to:

- (1) Require, as part of a developer's application for time share unit registration or annexation:
  - (A) A list of projects containing out-of-state time share units; and
  - (B) A statement that the developer has verified that those units are in compliance or not prohibited under the laws of the jurisdiction where the units are located; and
- (2) Clarify that a developer is not required to submit any other evidence of such compliance to register in the State.

Your Committee on Conference finds that the 1980 Hawaii Time Share Act's broad language has had the unintended consequence of causing the Department of Commerce and Consumer Affairs to require time share developers to provide evidence that its time share units located outside the State are compliant with the zoning and land use laws and regulations of the jurisdiction where the time share units are located. Therefore, this measure clarifies the intent of the existing law, preempts the Department's current practice, and instead requires only that a developer submit to the Department a list of projects containing out-of-state time share units and a statement that it has complied with the zoning and land use laws and regulations of the jurisdiction where its time share units are located.

Accordingly, your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 798, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 798, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keohokalole, and Rhoads.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Nakashima, Kong, Sayama, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Kong, Pierick).

**Conf. Com. Rep. 25 on S.B. No. 691**

The purpose of this measure is to:

- (1) Authorize the Chief Energy Officer of the Hawaii State Energy Office, instead of the Director of Business, Economic Development, and Tourism, to adopt rules to enforce minimum efficiency standards for certain products and adopt or amend minimum energy standards in certain situations; and
- (2) Regulate the minimum efficiency standards for portable electric spas, residential ventilating fans, toilets, urinals, and water coolers.

Your Committee on Conference finds that the State's consumers could save millions of dollars each year on utility bills by expanding the list of products requiring minimum efficiency standards. Efficiency standards require that products use less energy and water, while maintaining product quality, and are consistent with the State's clean energy and climate goals. This measure will benefit consumers in the State by reducing utility bill costs, closing any gaps left in federal standards, and preventing manufacturers from sending appliances that do not comply with other states' efficiency standards to Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to June 30, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 691, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 691, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Keohokalole, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kanuha).

Representatives Lowen, Nakashima, Cochran, Hussey-Burdick, and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 26 on S.B. No. 162**

The purpose of this measure is to:

- (1) Add community health centers, rural health clinics, and mobile dental outreach programs to the list of eligible organizations at which persons with community service licenses may practice dental hygiene;
- (2) Allow dental hygiene and dental college graduates from educational programs that have a reciprocal agreement with the American Dental Association Commission on Dental Accreditation to apply for temporary or community service licenses; and
- (3) Expand eligibility for a community service license to practice dentistry to those candidates who have passed the Integrated National Board Dental Examination within five years of the date of request.

Your Committee on Conference finds that there is a critical need to address the significant shortage of health care professionals in the State, including dentists and dental hygienists. Your Committee on Conference further finds that it is especially crucial to increase the number of public health dentists and dental hygienists who primarily treat the State's underserved and vulnerable populations, including Medicaid recipients. This measure will improve access to dental care for these populations and alleviate the State's oral health disparities.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 162, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 162, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 27 on S.B. No. 602**

The purpose of this measure is to:

- (1) Authorize pharmacists to order, perform, and report the results of certain Clinical Laboratory Improvement Amendments of 1988 (CLIA)-waived tests; and
- (2) Specify educational and permitting requirements for the ordering, performance, and reporting the results of certain CLIA-waived tests.

Your Committee on Conference finds that the coronavirus disease 2019 pandemic highlighted the critical need for improving access to health care testing. Your Committee on Conference further finds that while pharmacists possess the skills and knowledge necessary to perform CLIA-waived tests, which are simple tests that are non-technical and present a low risk for erroneous results, the scope of practice for pharmacists under existing state law does not explicitly authorize performance of these tests. This measure amends the definition of "practice of pharmacy" under state law to specify that pharmacists may order, perform, and report the results of certain CLIA-waived tests to improve access to health care across the State.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that, for any CLIA-waived tests performed, pharmacists shall follow all applicable state laws and rules regarding the reporting of all diseases, rather than just communicable diseases; and

- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 602, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 602, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Ayes, 2. Noes, none. Excused, 1 (Aquino).

Representatives Nakashima, Sayama, and Pierick.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 28 on S.B. No. 473**

The purpose of this measure is to exempt manufacturers, wholesale distributors, manufacturers engaged in direct distribution to qualified persons, and third-party logistics providers of home dialysate drugs or devices from the license, registration, and permit requirements for pharmacies, under certain conditions.

Your Committee on Conference finds that home dialysis is the best option for treating kidney failure whenever possible, due to its greater scheduling flexibility, fewer food restrictions, and better outcomes. Due to its isolated location, it is crucial for the State to have a supply chain with sufficient and immediate inventory within the State to ensure that home dialysis patients receive timely delivery of needed drugs, medical devices, and other supplies. This measure will promote greater access to home dialysate drugs and devices for patients in the State.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 473, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 473, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

**Conf. Com. Rep. 29 on S.B. No. 1344**

The purpose of this measure is to:

- (1) Replace the term “school health aides” with “school health assistants” to reflect recent changes to the job title; and
- (2) Authorize the administration of medication to public school students by health assistants with the approval of a health care professional within the Department of Education, Department of Health, or a health care service pursuant to a written agreement with the Department of Education.

Your Committee on Conference finds that the current procedure for administration of medication in public schools involves extensive oversight. While certain schools may have a medical professional such as a registered nurse, advanced practice registered nurse, or other specialized health care provider on campus, existing law prevents these health care professionals from performing the function of approving the administration of medication. This measure ensures the safety of students while also streamlining the process to administer medication.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1344, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1344, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Keohokalole, and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Sayama, La Chica, and Garcia.  
Managers on the part of the House.

**Conf. Com. Rep. 30 on S.B. No. 1468**

The purpose of this measure is to:

- (1) Authorize professional land surveyors, and any assistant under the direct supervision of a professional land surveyor, to enter onto private property to perform land surveying, subject to certain provisions regarding notice, objections, and identification; and
- (2) Shield professional land surveyors and their assistants from prosecution under criminal trespass laws when performing their duties.

Your Committee on Conference finds that professional land surveyors often require the right to access private property for the purposes of producing a thorough and complete land survey. However, without a right of entry, a professional land surveyor conducting a land survey is subject to trespass laws. In order to ensure the public's interest in maintaining a sound and uniform real property system, this measure seeks to mitigate certain risks while balancing property rights and protecting land surveying professionals.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1468, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1468, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Rhoads, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Sayama, Tarnas, Hussey-Burdick, Ichiyama, and Pierick.  
Managers on the part of the House.  
Ayes, 4; Ayes with Reservations (Hussey-Burdick). Noes, 1 (Pierick). Excused, none.

**Conf. Com. Rep. 31 on S.B. No. 478**

The purpose and intent of this measure is to repeal the telecommunications and cable industry information reporting requirements for broadband service providers and mobile radio service providers.

Your Committee on Conference finds that chapter 440J, Hawaii Revised Statutes (HRS), was enacted to meet a Federal Communications Commission (FCC) reporting requirement to determine the broadband service ability within each state. Specifically, chapter 440J, HRS, requires broadband service providers to annually report the percentage of each census block that does not have access to broadband service to the Department of Commerce and Consumer Affairs. Your Committee on Conference further finds that, not only does the FCC no longer require reporting of broadband service availability by census block, but now requires reporting broadband service availability by locations based on addresses and geographic coordinates. This housekeeping measure therefore repeals chapter 440J, HRS, as it is no longer necessary, and additionally reduces the administrative burdens of broadband service providers in the State.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Making conforming amendments to certain definitions rather than incorporating them by reference to section 206R-1, Hawaii Revised Statutes; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 478, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 478, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keohokalole, Rhoads, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Perruso, Sayama, Evslin, Kapela, and Pierick.  
Managers on the part of the House.

**Conf. Com. Rep. 32 on S.B. No. 1079**

The purpose of this measure is to require courts to, upon application to the court, expunge records of convictions for first-time offenses involving:

- (1) Operating a vehicle after consuming a measurable amount of alcohol while under the age of twenty-one years; and
- (2) Certain property offenses,

if the sentencing occurred before 1998.

Your Committee on Conference finds that any individual who has committed the offense of operating a vehicle after consuming a measurable amount of alcohol while under the age of twenty-one before 1998 or committed certain property offenses before 1998, is now in a different place in their life. While the offenses occurred over twenty-five years ago, these individuals are otherwise forced to continue to suffer the harsh consequences of being burdened with a criminal record when engaging in common activities, such as finding employment, having educational opportunities, or being provided housing options. This measure will assist many people by improving their overall quality of life.

Your Committee on Conference has amended the measure by making it effective on July 1, 2025.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1079, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1079, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and San Buenaventura.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

#### **Conf. Com. Rep. 33 on S.B. No. 51**

The purpose of this measure is to increase the amount of fines that may be assessed against noncandidate committees for violations of organizational report and advertisement disclosure requirements.

Your Committee on Conference finds that campaign spending and disclosure requirements are important to the electoral process. Increasing fines for violations of reporting laws will increase compliance with these laws. This measure will help restore public trust in the state government.

Your Committee on Conference has amended this measure by making it effective on July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 51, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 51, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Alcos.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 34 on S.B. No. 1493**

The purpose of this measure is to prohibit, during legislative sessions and shortly before and after, lobbyist contributions and expenditures, and promises of contributions or expenditures, to any elected official, candidate, candidate committee, or individual who is required to file an organizational report with the Campaign Spending Commission.

Your Committee on Conference finds that contributions made during legislative sessions, including extended sessions or special sessions, can create the perception that the contribution has the intent or effect of influencing decisions being taken on pending legislation. Restricting lobbyists from donating to an elected official during a legislative session will further the goal of reducing undue influence and its appearance.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1493, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1493, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 35 on S.B. No. 19**

The purpose of this measure is to guarantee the vote of eligible voters who cast their ballot and then subsequently die or otherwise become ineligible before election day.

Your Committee on Conference finds that the State's vote by mail process does not have procedures for validating mail-in ballots cast by eligible voters who thereafter became ineligible. This measure ensures that voters who are eligible to vote and cast their ballot, then subsequently become ineligible to vote due to valid reasons, have their vote counted.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 19, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 19, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and San Buenaventura.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Holt, Kong, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, 1 (Holt). Excused, none.

**Conf. Com. Rep. 36 on S.B. No. 141**

The purpose of this measure is to:

- (1) Update rules for certification of electors and their votes to be in full compliance with federal law;
- (2) Provide procedures for the replacement of electors;
- (3) Require presidential electors to take a pledge that they will vote for their party's nominee;
- (4) Invalidate the vote of any faithless elector; and
- (5) Remove any faithless elector from the position of elector.

Your Committee on Conference finds that electors who do not cast votes for the candidates they were elected to vote for, thereby acting faithlessly, are acting in violation of democratic values by subverting the will of the people. This measure will protect the choices for president and vice president made by the people of the State during a presidential general election.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 141, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 141, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Gabbard.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 37 on S.B. No. 390**

The purpose of this measure is to repeal the sunset date of section 2 of Act 119, Session Laws of Hawaii 2021 (Act 119), thereby making permanent:

- (1) The requirement that the Hawaii Medical Board issue licenses in four levels of emergency response practice in counties with a population of five hundred thousand or greater; and
- (2) The creation of an additional licensure category for Emergency Medical Technicians 1, who are certified at a higher practice level than Emergency Medical Technicians but do not provide ambulance services.

Your Committee on Conference finds that Emergency Medical Technicians certified by the National Registry of Emergency Medical Technicians provide on-the-scene, lifesaving care to critical care patients. However, until the enactment of Act 119, state law relating to the licensing or certification of emergency medical personnel contained no licensure category for Emergency Medical Technicians whose sole certification is that from the National Registry of Emergency Medical Technicians. Act 119, which temporarily established an additional licensure category for these Emergency Medical Technicians, is scheduled to sunset on July 1, 2027. This measure repeals this sunset date, thereby making permanent the authority given to the Hawaii Medical Board to license Emergency Medical Technicians, in recognition of their vital role in the comprehensive emergency medical system.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 390, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 390, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keohokalole, and Moriwaki.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Sayama, Hussey-Burdick, and Pierick.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Pierick).

**Conf. Com. Rep. 38 on S.B. No. 799**

The purpose of this measure is to:

- (1) For time share plans that use title holding trusts, require the developer to submit a title report evidencing that the title is vested in the trustee;
- (2) For time share plans that use a notice of time share plan, require the recordation of the notice and its submission; and
- (3) For time share plans that use alternative arrangements, require the recordation of any alternative arrangement documents.

Your Committee on Conference finds that under existing law, a developer's application for registration of a time share plan is required to include a title report or other evidence of title. The State's law governing time sharing plans requires that the rights of time share owners be protected from blanket liens, such as mortgages, that could deprive the time share owners of the use of the time share units in the event of a foreclosure. Accordingly, the time share industry has implemented various means to ensure that a time share owner's right to use the time share is protected, such as title-holding trusts, notice of time share plan, and other alternative arrangements. In these cases, developers are required to submit an update to the title report; however, once a title report has sufficiently evidenced blanket protections are in place, further evidence of conveyance is not needed. This measure removes unnecessary regulatory burdens if a method of protecting buyers is satisfied.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized the Director of Commerce and Consumer Affairs to require the submission of title reports for purposes other than to evidence protection against future blanket liens and replacing it with language that clarifies a time share developer shall not thereafter be required to submit additional title reports that meet certain requirements unless otherwise required by other sections of chapter 514E, Hawaii Revised Statutes; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 799, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 799, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (McKelvey).

Representatives Quinlan, Nakashima, Kong, Sayama, and Pierick.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 39 on S.B. No. 930**

The purpose of this measure is to:

- (1) Allow a landlord or landlord's agent to charge an application screening fee for certain applicants at the time a rental application is processed for a dwelling unit;
- (2) Require the landlord or landlord's agent to return any unauthorized fee amounts to the applicant; and
- (3) Beginning May 1, 2024, require the Office of Consumer Protection to produce and make available informational materials and publicize requirements regarding application fees and related rights and obligations.

Your Committee on Conference finds that existing law does not regulate the nature and amount of application fees that landlords may charge prospective tenants. The absence of such regulation has led to abuses by landlords who charge applicants more than the cost of an application screening fee. This measure will deter this deleterious conduct by directly addressing this inequity, while still enabling landlords and their agents to complete reference checks, tenant reports, and credit reports on applicants.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that requires the landlord or the landlord's agent, upon request by an applicant, to provide a receipt of payment and a breakdown of the costs associated with the application screening fee;
- (2) Inserting an effective date of July 1, 2023; provided that section 1 of this measure shall take effect on May 1, 2024; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 930, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 930, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Richards, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Sayama, Aiu, Marten, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 40 on H.B. No. 11**

The purpose of this measure is to:

- (1) Clarify when the disclosure of pertinent provisions of condominium project instruments must occur;
- (2) Specify that primary plan documents be listed in the public disclosure statement of a time share plan; and
- (3) Provide that a consultant's review of encumbrances shall be waived upon the certification from the developer that the time share interest is free and clear of blanket liens or that identifies all blanket liens.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 11, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 11, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Quinlan, Nakashima, Kong, Lamosao, Sayama, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Kong, Pierick).

**Conf. Com. Rep. 41 on H.B. No. 1091**

The purpose of this measure is to require disclosure of all permitted and unpermitted erosion control structures on the parcel, expiration dates of any permitted structures, any notices of alleged violation associated with the parcel, any fines for expired permits or unpermitted structures associated with the parcel, and the annual coastal erosion rate for the zoning lot in real estate transactions when residential real property lies adjacent to the shoreline.

Your Committee on Conference has amended this measure by:

- (1) Removing the disclosure requirement for the annual coastal erosion rate for the zoning lot; and
- (2) Changing its effective date to November 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1091, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1091, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keohokalole, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 42 on H.B. No. 1088**

The purpose of this measure is to amend the conditions, manner, and areas in which the Commission on Water Resource Management (Commission) of the Department of Land and Natural Resources can declare water shortages and emergencies.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Commission may declare an emergency if the Commission determines, in consultation with the appropriate county and the Department of Health, that there is an absence of sufficient quantity and quality of water in any area, whether within or outside of a water management area, that immediately threatens the public health, safety, and welfare;
- (2) Providing that an emergency order of the Commission expires no later than one year after it has been issued by the Commission, unless extended by a separate or supplementary order;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1088, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1088, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Elefante). Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Ilagan, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 43 on H.B. No. 717**

The purpose of this measure is to prohibit, under certain circumstances, state employees from taking or participating in certain actions related to the public employment of, or award of contracts to, relatives or household members.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that an employee cannot participate in an interview or discussion regarding the retention of a relative or household member;
- (2) Excluding employees or agencies of the legislative or judicial branch of the State from the prohibition; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 717, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 717, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 2; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Takayama, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 44 on H.B. No. 463**

The purpose of this measure is to lower the threshold for disclosure of campaign expenditures by noncandidate committees to \$100.

Your Committee on Conference has amended this measure by:

- (1) Amending the preamble;
- (2) Changing the disclosure threshold amount to \$500;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 463, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 463, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Kitagawa, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 45 on H.B. No. 1294**

The purpose of this measure is to require all candidates for public office in the State to use their legal name for election purposes.

Your Committee on Conference has amended this measure by:

- (1) Deleting its contents and inserting language that requires the Office of Elections and Campaign Spending Commission to include a candidate's legal name wherever the name requested to be printed on the ballot is used, except on the ballot;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1294, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1294, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and San Buenaventura.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 46 on H.B. No. 1502**

The purpose of this measure is to limit, with certain exceptions, the compelled disclosure of sources or unpublished information by journalists, newscasters, and persons participating in the collection or dissemination of news or information of substantial public interest.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1502, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1502, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, San Buenaventura, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 47 on H.B. No. 1027**

The purpose of this measure is to align the State's Money Transmitters Modernization Act with the provisions of the Model Money Transmission Modernization Act to enable the State to work within a network of states to license, supervise, and examine transglobal money transmission companies as a multi-state system of financial regulation.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1027, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1027, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, 1 (Awa). Excused, none.

Representatives Holt, Nakashima, Kong, Lamosao, Sayama, and Pierick.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 48 on H.B. No. 1509**

The purpose of this measure is to:

- (1) Establish a Planned Community Association Oversight Task Force to examine the rights afforded to owners in condominium property regimes and determine the feasibility of extending any of those rights to members of planned community associations; and
- (2) Establish a Condominium Property Regime Task Force to examine and evaluate issues regarding condominium property regimes and conduct an assessment of the existing alternative dispute resolution systems for condominiums.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1509, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1509, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Tam, Aiu, Onishi, Sayama, and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 49 on H.B. No. 217**

The purpose of this measure is to:

- (1) Update the cost valuations of work on certain residences to allow the work to qualify for an exemption from the requirement that plans and specifications for construction projects be prepared by a licensed engineer or architect; and
- (2) Clarify the types of work that are not exempt from the requirement that plans be prepared by a licensed engineer or architect.

Your Committee on Conference has amended this measure by:

- (1) Increasing the cost valuations to qualify for an exemption from the requirement that plans and specifications for construction projects be prepared by a licensed engineer or architect for privately owned or privately controlled one-storied residences and two-storied residences to \$180,000 and \$162,000, respectively;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 217, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 217, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keohokalole, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Hashimoto, Sayama, Aiu, Evslin, Hussey-Burdick, and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 50 on H.B. No. 781**

The purpose of this measure is to require that when an officer has custody of a child under eighteen years of age for an alleged violation of law, the child shall have contact with legal counsel and, to the extent practicable, a parent, guardian, or legal custodian before the child waives any constitutional rights and before any custodial interrogation.

Your Committee on Conference has amended this measure by:

- (1) Amending its preamble; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 781, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 781, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Rhoads, and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Tarnas, Amato, Ilagan, and Garcia.  
Managers on the part of the House.  
Ayes, 5; Ayes with Reservations (Garcia). Noes, none. Excused, none.

**Conf. Com. Rep. 51 on H.B. No. 1045**

The purpose of this measure is to:

- (1) Adjust the responsibility of producing a certificate of release when transferring schools from the minor student to the student's parent or legal guardian, unless the student is an emancipated minor; and
- (2) Exempt students eligible for assistance provided under the federal McKinney-Vento Homeless Assistance Act of 1987 from producing required student records when transferring schools.

Your Committee on Conference has amended this measure by changing the effective date to January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1045, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1045, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Elefante, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Tarnas, La Chica, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 52 on H.B. No. 218**

The purpose of this measure is to require:

- (1) Dispensing pharmacies to provide accessible prescription drug label information to individuals who have difficulty seeing or reading labels on prescription drug containers;
- (2) Dispensing pharmacies to make sustained, periodic, and reasonable efforts to inform the public that prescription drug label information is available in alternative accessible formats; and
- (3) The Board of Pharmacy to adopt rules by December 31, 2024, to carry out the purposes of this measure.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 218, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 218, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Keohokalole, and Aquino.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Amato, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Pierick).

**Conf. Com. Rep. 53 on H.B. No. 950**

The purpose of this measure is to:

- (1) Extend the time period that the Family Court may order continued assisted community treatment; and
- (2) Reduce the time period that the Family Court needs to determine whether assisted community treatment should continue from one hundred eighty days to one hundred days.

Your Committee on Conference has amended this measure by:

- (1) Authorizing psychiatrists or advanced practice registered nurses, after examination of a person for assisted community treatment indication, to request assistance from the Attorney General to file an assisted community treatment petition;
- (2) Requiring the Family Court to set any subsequent hearing dates for an assisted community treatment petition as soon as possible;
- (3) Authorizing the Family Court to use online hearings for assisted community treatment petitions;
- (4) Extending the time period that the Family Court may order continued assisted community treatment to two years;

- (5) Clarifying provision of notice requirements for assisted community treatment petitions;
- (6) Authorizing any interested party to request assistance from the Attorney General to file a petition for an extension of assisted community treatment;
- (7) Changing the effective date to July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 950, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 950, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads, and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Lamosao).

**Conf. Com. Rep. 54 on S.B. No. 105**

The purpose of this measure is to change the Department of Education's required quarterly report on autism spectrum disorder to an annual report.

Your Committee on Conference finds that Act 205, Session Laws of Hawaii 2018, mandates that the Department of Education create a quarterly report that includes information on students with autism spectrum disorder, staffing requirements, and Medicaid reimbursements. However, few changes are reflected between each period. This measure provides for a streamlined data reporting process to create a single comprehensive annual report.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 105, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 105, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Tarnas, La Chica, Marten, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 55 on S.B. No. 410**

The purpose of this measure is to:

- (1) Prohibit the Director of Transportation and Traffic and Emergency Period Violations Bureaus of the District Courts from furnishing information related to dismissed traffic citations; and
- (2) Require the court to automatically seal or remove from the Judiciary's publicly accessible databases any information relevant to the arrest or case of a person for whom an expungement order has been entered and transmitted to the court.

Your Committee on Conference finds that court records that have been expunged from a person's record may still be accessed by others. Such information should not appear on an individual's record as they can be regarded negatively and have a significant and long-lasting impact on a person's future. However, there is no process currently available to request traffic citations that have been expunged to be excluded from a person's record. This measure will streamline the process for people who need their records to be expunged.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have prohibited the Director of Transportation and Traffic and Emergency Period Violations Bureaus of the District Courts from furnishing information related to dismissed traffic citations;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 410, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 410, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, San Buenaventura, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Tarnas, Hussey-Burdick, Takayama, and Pierick.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 56 on S.B. No. 933**

The purpose of this measure is to:

- (1) Authorize the family courts to allow petitioners to attend temporary restraining order (TRO) hearings remotely upon request;
- (2) Require the courts to consider certain factors; and
- (3) Require the courts to allow petitioners who allege domestic abuse to attend TRO hearings remotely.

Your Committee on Conference finds that though TRO petitions are initially acted upon by a family court judge without a court hearing, a mandatory hearing is held within fifteen days of a TRO being granted in order to determine whether the TRO should remain in effect. The adversarial nature of the legal system requires petitioners who have received TROs to face their alleged abusers in court during these hearings. Your Committee on Conference also finds that, notwithstanding the safety protocols that the Judiciary takes to protect parties during in-person TRO hearings, the physical presence of the parties within the same room may allow for respondents to intimidate petitioners through words or body language. This measure allows petitioners who allege domestic abuse to attend TRO hearings remotely, which will promote greater safety, economic justice, and equitable access to the courts for victims of domestic abuse.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the court shall allow the petitioner to attend the hearing remotely if the petitioner's allegations include at least one allegation of domestic abuse as defined in section 586-1, Hawaii Revised Statutes; and in cases where the petitioner's allegations do not include at least one allegation of domestic abuse, the court may allow the petitioner to attend the hearing remotely, with consideration of factors such as the petitioner's lack of transportation, child care, and paid time off, as well as the petitioner's fear of the respondent's presence; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 933, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 933, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 57 on S.B. No. 944**

The purpose of this measure is to:

- (1) Require the Department of the Attorney General to convene a task force to recommend amendments to update existing parentage laws that reflect cisheteronormative concepts of families, parenthood, and parental rights; and
- (2) Require an interim and final report to the Legislature.

Your Committee on Conference finds that existing parentage laws reflect outdated concepts of families, parenthood, conception and gestation, and parental rights. This measure establishes a new task force that builds upon the work of the task force previously established by Act 201, Session Laws of Hawaii 2021, to recommend amendments that update existing paternity laws, which will provide a more certain path and inclusion under the law for same sex couples, single parents, and children born through assisted reproductive technology and surrogacy.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Department of the Attorney General shall convene a task force to recommend amendments to the Hawaii Revised Statutes to update existing parentage laws that reflect outdated concepts of families, parenthood, conception and gestation, and parental rights;
- (2) Adding to the task force an individual with personal knowledge of surrogacy; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 944, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 944, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and San Buenaventura.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Tarnas, and Matsumoto.  
Managers on the part of the House.  
Ayes, 3; Ayes with Reservations (Matsumoto). Noes, none. Excused, none.

**Conf. Com. Rep. 58 on S.B. No. 1340**

The purpose of this measure is to:

- (1) Beginning August 1, 2024:
  - (A) Reinstate and make permanent the exemption from the behavior analyst licensing requirements for certain teachers working in collaboration with a licensed behavior analyst or licensed psychologist;
  - (B) Expand the exemption for registered behavior technicians to implement applied behavior analysis services under the direction of a licensed psychologist; and
  - (C) Reinstate and make permanent the exemption from the behavior analyst licensing requirements for individuals who implement applied behavior analysis services to participants in the Medicaid Home and Community-Based Services Waiver Program; and
- (2) Require the Department of Education to report to the Legislature on the status of implementing Medicaid reimbursements for applied behavior analysis services.

Your Committee on Conference finds that the Department of Education is experiencing a shortage of licensed behavior analysts to provide adequate support to students in the public school system. This measure increases student access to applied behavior analysis services by expanding the types of individuals who may implement applied behavior analysis services in the State without obtaining a behavior analyst license under certain conditions.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made the amendments to existing law that governs exemptions from the behavior analyst licensing requirements effective August 1, 2024;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1340, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1340, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Woodson, Belatti, Sayama, La Chica, and Pierick.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (La Chica).

**Conf. Com. Rep. 59 on S.B. No. 1057**

The purpose of this measure is to:

- (1) Require certain job listings to disclose the hourly rate or salary range that reasonably reflects the actual expected compensation; and
- (2) Prohibit an employer from discriminating between employees because of any protected category established under state law by paying wages to employees in an establishment at a rate less than the rate at which the employer pays wages to other employees in the establishment for substantially similar work.

Your Committee on Conference finds that many employment listings are not transparent about the pay or salary to be offered to the prospective employee. Secrecy around compensation perpetuates the continued discrimination against all workers, and especially for women and people of color. Although requiring employers to disclose the hourly rate or salary range in a job listing would help reduce pay inequalities between employees in protected categories who perform substantially similar work as other employees, your Committee on Conference notes concerns that requiring pay rates in job listings may put smaller and local employers at a significant recruiting disadvantage.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that the requirement to disclose the hourly rate or salary range that reasonably reflects the actual expected compensation does not apply to job listings for positions with employers having fewer than fifty employees; and
- (2) Making it effective on January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1057, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1057, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keohokalole, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Holt, Matayoshi, Tarnas, Lamosao, and Alcos.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 60 on S.B. No. 966**

The purpose of this measure is to subject to forfeiture any vehicle used in the commission of felony disposal of solid waste or petty misdemeanor disposal of solid waste.

Your Committee on Conference finds that vehicles are typically involved and required in the illegal dumping and transport of solid waste. Illegal and improper dumping, especially of hazardous materials and construction and demolition waste, can pollute the environment, thereby harming human health and incurring economic consequences. This measure therefore authorizes the forfeiture of any vehicle owned and operated by a person in the commission of an illegal dumping offense to curb, deter, and prevent further illegal dumping operations in the State.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 966, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 966, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, and DeCoite.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (DeCoite).

Representatives Lowen, Tarnas, Cochran, Takayama, and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 61 on S.B. No. 655**

The purpose of this measure is to authorize the Department of Agriculture to align state hemp production administrative rules with federal exemptions for fiber, fuel, and seed grain hemp crops.

Your Committee on Conference finds that the hemp industry in Hawaii is overburdened by federal and state regulations that stifle growth and production, the extent to which consumers and retailers often resort to purchasing more readily available and affordable hemp overseas. Your Committee on Conference further recognizes that hemp is a viable and resourceful crop with a myriad of valuable uses and therefore, seeks to reduce the regulatory burdens that undermine the success of Hawaii's hemp industry. Therefore, this measure authorizes the Department of Agriculture to align state hemp production administrative rules with federal rules to reduce the regulation that burdens the industry in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Specifying that hemp shall not be grown within three hundred feet of a pre-existing playground, child care facility, or school;
- (2) Specifying that hemp shall not be grown within one hundred feet of a pre-existing house, dwelling unit, residential apartment, or other residential structure not owned by the grower; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 655, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 655, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Wakai, Rhoads, and Richards.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Gates, Tarnas, Chun, Kahaloa, and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 62 on S.B. No. 637**

The purpose of this measure is to require persons applying to register as hemp processors to include with their application documentation that the processing does not include heat or volatile compounds or gases under pressure, such as cold-water extraction and is exempt from certain building permit and building code requirements, or documentation that the planned hemp processing operation is in a food hub or agricultural park.

Your Committee on Conference finds that prior to 2021, hemp producers in the State processed small batches of hemp on their farms in structures that were exempt from certain building permit and building code requirements without adverse consequence. However, Act 14, Session Laws of Hawaii 2022, required hemp and hemp products to be processed within an enclosed indoor facility to prevent unauthorized entry, requiring hemp farmers to rely on off-site hemp processing, which has created additional processing and shipping costs while diminishing the overall quality of transported hemp crops. Therefore, the intent of this measure is to allow licensed hemp farmers to once again process hemp on their farms in agricultural structures and in food hubs and agricultural parks.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 637, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 637, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Kong, Sayama, and Ward.  
Managers on the part of the House.

Representatives Matayoshi, Tarnas, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 64 on H.B. No. 978**

The purpose of this measure is to amend the procurement laws relating to the purchase of health and human services by:

- (1) Clarifying the requirements for health and human services treatment services purchased by the State;
- (2) Transferring certain duties from the Administrator of the State Procurement Office to the heads of health and human services purchasing agencies; and
- (3) Changing the small purchase threshold for health and human services from less than \$25,000 to an amount less than the threshold established in section 103D-305(a), Hawaii Revised Statutes, for goods and services.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 978, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 978, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, San Buenaventura, Moriwaki, Aquino, and Awa.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

Representatives Matayoshi, Sayama, Garrett, Hussey-Burdick, and Alcos.

Ayes, 4. Noes, none. Excused, 1 (Hussey-Burdick).

**Conf. Com. Rep. 65 on H.B. No. 369**

The purpose of this measure is to exempt a public utility and water carrier from obtaining the required Public Utilities Commission authorization when the public utility or water carrier is:

- (1) Disposing of a fully depreciated asset or property with a zero net book value that is no longer used or useful, with certain conditions; or
- (2) Donating a fully depreciated asset or property with zero net book value to a charitable or nonprofit organization.

Your Committee on Conference has amended this measure by:

- (1) Deleting the condition that the fully depreciated asset or property be no longer used or useful when a public utility or water carrier disposes of the asset or property;
- (2) Changing the effective date to upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 369, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 369, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Hashem, Onishi, and Pierick.  
Managers on the part of the House.

**Conf. Com. Rep. 66 on S.B. No. 193**

The purpose of this measure is to add to the membership of the State Fire Council, and to the membership of advisory committees that the Council may appoint, representatives from the Hawaii State Aircraft Fire Fighting Unit and the Division of Forestry and Wildlife of the Department of Land and Natural Resources to reflect all non-federal fire fighting agencies in the State.

Your Committee on Conference finds that the Hawaii State Aircraft Firefighting Unit and the Department of Land and Natural Resources Division of Forestry and Wildlife cooperate and communicate with the county fire departments on a regular basis, providing specialty expertise and equipment in emergent and non-emergent environments. This measure will benefit the State Fire Council by allowing the Hawaii State Aircraft Firefighting Unit and the Department of Land and Natural Resources Division of Forestry and Wildlife to provide unique perspectives and greater insight into the protection of persons and property against fire in the State.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 193, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 193, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Inouye, Shimabukuro, and Elefante.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Matayoshi, Poepoe, Garrett, Tam, and Alcos.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 67 on S.B. No. 732**

The purpose of this measure is to designate the second Monday in October of each year as Indigenous Peoples' Day.

Your Committee on Conference finds that efforts to replace Columbus Day with Indigenous Peoples' Day or Native American Day began in 1990 and have since spread to seventeen states and the District of Columbia. Presently, Hawaii does not celebrate Columbus Day, but instead observes Discoverers' Day "in recognition of the Polynesian discoverers of the Hawaiian islands". Your Committee on Conference finds that by observing Indigenous Peoples' Day in Hawaii, the State can continue to recognize and celebrate the contributions made by the original inhabitants of Hawaii, honor the various cultures that form Hawaii today, and join in solidarity with the global community to honor indigenous peoples around the world.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 732, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 732, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kanuha, Ihara, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Ihara).

Representatives Tam, Kila, Kahaloa, Kapela, Poepoe, and Alcos.  
Managers on the part of the House.

**Conf. Com. Rep. 68 on S.B. No. 182**

The purpose of this measure is to:

- (1) Amend the filing deadline for disclosures of financial interests by certain candidates;
- (2) Amend the penalty for the unauthorized release of confidential financial disclosure information; and
- (3) Amend the fines imposed and procedures relating to disclosures of financial interests.

Your Committee on Conference finds that the failure of certain public officials, employees, and candidate to submit a financial disclosure results in administrative fines. However, collection of those fines is a lengthy process that can become cumbersome if there are multiple outstanding unfiled financial disclosures. This measure streamlines the enforcement process for financial disclosure penalties.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 182, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 182, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Souza.  
Managers on the part of the House.

**Conf. Com. Rep. 69 on H.B. No. 349**

The purpose of this measure is to:

- (1) Expand the original jurisdiction of the Family Court to include proceedings concerning the emancipation of minors;
- (2) Specify the rights of an emancipated minor; and
- (3) Establishing procedures for the emancipation of minors.

Your Committee on Conference has amended this measure by:

- (1) Requiring any state agency, rather than a youth service organization recognized by the Department of Human Services, to file a petition on behalf of a minor seeking emancipation;
- (2) Removing the requirement that the Family Court require a minor petitioning for emancipation to undergo a mental health evaluation;
- (3) Removing the requirement that the minor or the minor's parents or guardian pay for the court-ordered mental health evaluation;
- (4) Changing the effective date to January 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 349, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 349, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, San Buenaventura, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Tarnas, Takenouchi, Amato, and Garcia.  
Managers on the part of the House.

**Conf. Com. Rep. 70 on H.B. No. 1184**

The purpose of this measure is to provide a process by which agencies may procure professional services when fewer than three qualified persons respond to an additional solicitation.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the process when fewer than three qualified persons respond;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1184, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1184, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Moriwaki, and Fevella.  
Managers on the part of the Senate.

Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Kitagawa).

**Conf. Com. Rep. 71 on S.B. No. 1151**

The purpose of this measure is to exempt University of Hawaii community college students enrolled in certificate programs from the requirement to complete the Free Application for Federal Student Aid (FAFSA) each academic year to be considered eligible for the Hawaii Community College Promise Program.

Your Committee on Conference finds that the Hawaii Community College Promise Program increases access to the University of Hawaii for individuals otherwise unable to afford higher education. Currently, students must complete the FAFSA to qualify for the program. This requirement can present a challenge for students enrolled in certificate programs, including students with developmental disabilities. This measure therefore removes this barrier to accessing financial assistance to allow low-income students to pursue higher education.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1151, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1151, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kanuha, Kidani, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Kidani).

Representatives Perruso, Kobayashi, Evslin, Kapela, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 72 on S.B. No. 151**

The purpose of this measure is to:

- (1) Require any department or agency employing a law enforcement officer to maintain a publicly available policy that provides a minimum standard on the use of force;
- (2) Allow use of force policies and training to be considered in legal proceedings involving a law enforcement officer's use of force;
- (3) Require a law enforcement officer who observes the use of force by another law enforcement officer to report the use of force; and
- (4) Require that law enforcement officers receive training designed to minimize the use of force.

Your Committee on Conference finds that ensuring that the force used by officers in the performance of duties is proper, lawful, and necessary is critical to maintain the trust of the public and for public safety. This measure will promote public trust in law enforcement and improve public safety by increasing accountability and transparency in law enforcement services.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 151, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 151, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, and Souza.  
Managers on the part of the House.  
Ayes, 3; Ayes with Reservations (Souza). Noes, none. Excused, none.

**Conf. Com. Rep. 73 on H.B. No. 1033**

The purpose of this measure is to add to the State Building Code Council one member who represents the Hawaii Emergency Management Agency, to be appointed by the Director of Hawaii Emergency Management.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1033, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1033, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Inouye, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Sayama, Kitagawa, Hussey-Burdick, and Pierick.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 74 on H.B. No. 660**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaii Pacific Health and one or more of its nonprofit affiliates in financing the costs of the construction of, improvement to, and equipping of its health care facilities at Straub Medical Center.

Your Committee on Conference has amended this measure by:

- (1) Changing the special purpose revenue bond authorization from an unspecified amount to \$240,000,000; and
- (2) Changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 660, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 660, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keith-Agaran, and Moriwaki.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Kitagawa, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 75 on H.B. No. 339**

The purpose of this measure is to permanently exempt nine positions in the Department of Human Services from civil service.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 339, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 339, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Aquino, Shimabukuro, and Fevella.  
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Garrett, Kobayashi, Amato, and Garcia.  
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Garrett).

**Conf. Com. Rep. 76 on H.B. No. 961**

The purpose of this measure is to:

- (1) Appropriate funds into and out of the Preschool Open Doors Special Fund for the Preschool Open Doors Program and Executive Office on Early Learning to expand access to preschool and implement program changes required by law;
- (2) Expand the types of entities from which a Preschool Open Doors service provider may obtain accreditation;
- (3) Expand the Preschool Open Doors Program application process to eligible three-year-old children; and
- (4) Authorize the Preschool Open Doors Special Fund to accept federal funds.

Your Committee on Conference has amended this measure by:

- (1) Deleting language which would have:
  - (A) Appropriated funds for the Preschool Open Doors Program and Executive Office on Early Learning; and
  - (B) Authorized the Preschool Open Doors Special Fund to accept federal funds; and
- (2) Changing the effective date to upon approval; provided that the provisions expanding the Preschool Open Doors Program application process to eligible three-year-old children shall take effect on January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 961, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 961, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai, and Kanuha.  
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Woodson, Kitagawa, Amato, Marten, and Matsumoto.  
Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Marten).

**Conf. Com. Rep. 77 on H.B. No. 992**

The purpose of this measure is to clarify that certain funds appropriated pursuant to Act 88, Session Laws of Hawaii 2021, as amended by Act 248, Session Laws of Hawaii 2022, shall be deposited into the Affordable Homeownership Revolving Fund for the purposes for which the revolving fund was established.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 992, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 992, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keith-Agaran, and Awa.  
Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Hashimoto, Aiu, Onishi, and Matsumoto.  
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 78 on H.B. No. 674**

The purpose of this measure is to repeal the percentage requirements for the Hawaii Public Housing Authority related to the admission of applicants, with or without preferences, into federal and state low-income public housing units.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 674, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 674, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Wakai, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kanuha).

Representatives Hashimoto, Aiu, Marten, and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 79 on H.B. No. 675**

The purpose of this measure is to require, if sufficient funding is available, the Hawaii Housing Finance and Development Corporation to open at minimum two application periods each year for the receipt of applications for affordable housing financing from the Low-Income Housing Tax Credit Program, Hula Mae Multi-Family Revenue Bond Program, Rental Housing Revolving Fund Program, and Dwelling Unit Revolving Fund Program.

Your Conference on Committee has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 675, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 675, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Moriwaki, and Awa.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Hashimoto, Aiu, Onishi, and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 80 on H.B. No. 1000**

The purpose of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items, including salary and other cost adjustments, for the members of collective bargaining unit (1) and their excluded counterparts.

Your Committee on Conference has amended this measure by:

- (1) Adding cost items for the members of collective bargaining unit (10) and their excluded counterparts;
- (2) Inserting the appropriate figures for fiscal biennium 2023-2025 based upon the ratified collective bargaining agreement for collective bargaining units (1) and (10) as indicated in Governor's Message No. 11, 2023;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes; and
- (4) Changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1000, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1000, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 81 on H.B. No. 1001**

The purpose of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items, including salary and other cost adjustments, for the members of collective bargaining unit (2) and their excluded counterparts.

Your Committee on Conference has amended this measure by:

- (1) Adding cost items for the members of collective bargaining units (3), (4), (6), (8), (9), (13), and (14) and their excluded counterparts;
- (2) Inserting the appropriate figures for fiscal biennium 2023-2025 based upon the tentative agreement reached for collective bargaining units (2), (3), (4), (6), (8), (9), (13), and (14) as indicated in Governor's Message No. 10, 2023, and the subsequent notification of ratification received for these bargaining units in Governor's Message No. 13, 2023;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes; and
- (4) Changing the effective date to July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1001, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1001, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 82 on H.B. No. 1004**

The purpose of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items, including salary and other cost adjustments, for the members of collective bargaining unit (5) and their excluded counterparts.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate figures for fiscal biennium 2023-2025 based upon the tentative agreement reached for collective bargaining unit (5) as indicated in Governor's Message No. 9, 2023, and the subsequent notification of ratification received for the bargaining unit in Governor's Message No. 14, 2023;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1004, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1004, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, Kila, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 83 on H.B. No. 1006**

The purpose of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items, including salary and other cost adjustments, for the members of collective bargaining unit (7) and their excluded counterparts.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate figures for fiscal biennium 2023-2025 based upon the ratified collective bargaining agreement reached for collective bargaining unit (7) as indicated in Governor's Message No. 8, 2023;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1006, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1006, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 84 on H.B. No. 1010**

The purpose of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items, including salary and other cost adjustments, for the members of collective bargaining unit (11) and their excluded counterparts.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate figures for fiscal biennium 2023-2025 based upon the agreement reached for collective bargaining unit (11) as indicated in Governor's Message No. 7, 2023;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1010, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1010, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 85 on H.B. No. 1329**

The purpose of this measure is to:

- (1) Require the Department of Education to work with certain organizations to develop and implement an active shooter training program in all public and charter schools; and
- (2) Allow public and charter school students to decline to participate in the active shooter training program.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1329, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1329, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, DeCoite, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Tarnas, Nishimoto, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Tarnas, Garcia).

**Conf. Com. Rep. 86 on H.B. No. 503**

The purpose of this measure is to:

- (1) Require the Board of Education to work with the Department of Education to conduct an analysis on the need, impact, and feasibility of making computer science a graduation requirement;
- (2) Require the Board of Education to determine whether making computer science a graduation requirement would be in the best interests of public school students and the public and submit a report to the Legislature of its findings and recommendations; and
- (3) Appropriate funds for teacher professional development in computer science.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Board of Education is required to work with the Department of Education to conduct an analysis on the necessary timeline and appropriate process for implementation of making computer science a graduation requirement by no later than the 2030-2031 school year;
- (2) Requiring the Board of Education to make a determination on how students could be allowed to complete computer science courses as a substitute for core academic courses to satisfy graduation credit requirements, beginning with the 2024-2025 school year;
- (3) Deleting language which would have appropriated funds for teacher professional development in computer science;
- (4) Changing the effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 503, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 503, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Perruso, Morikawa, Kapela, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 87 on S.B. No. 1166**

The purpose of this measure is to authorize the renewal of driver's licenses online in addition to by mail.

Your Committee on Conference finds that driver's license renewals have become a tedious process for many Hawaii drivers. The current process for driver's license renewals requires individuals to be in-person at a driver's licensing center, a process that can take a considerable amount of time if there are many customers. This measure will make driver's license renewals more convenient and efficient while also reducing wait times and backlogs for certain drivers.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2025.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1166, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1166, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Kim, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 88 on S.B. No. 1437**

The purpose of this measure is to authorize certain pass-through entities to elect to pay Hawaii income tax at the entity level.

Your Committee on Conference finds that the federal Tax Cuts and Jobs Act of 2017 capped the state and local tax deduction for individuals at \$10,000 for the 2018-2025 taxable years, which deprived individual taxpayers of significant federal tax benefits. Your Committee on Conference also finds that, in response, several states have enacted laws to authorize certain pass-through entities to elect to pay state income tax at the entity level, thus bypassing the \$10,000 cap amount. Your Committee on Conference believes that this measure will help Hawaii's small businesses by allowing taxpayers to deduct Hawaii state income taxes paid on their federal income tax returns.

Your Committee on Conference has amended this measure by changing the effective date to January 1, 2024, and specifying that the measure shall apply to taxable years beginning after December 31, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1437, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1437, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kanuha, and Fevella.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Kanuha).

Representatives Holt, Yamashita, Lamosao, and Pierick.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 89 on S.B. No. 712**

The purpose of this measure is to appropriate funds to Windward Community College to support a level I trauma-informed certification program for adult corrections officers in the State.

Your Committee on Conference finds that a large number of the individuals in the corrections and rehabilitation system have experienced significant trauma during their lifetimes. Your Committee on Conference further finds that training in trauma-informed care for corrections professionals allows them to better connect with incarcerated individuals who have experienced trauma, which often results in improved rehabilitation outcomes and reduced recidivism rates. This measure will improve the rehabilitation of incarcerated individuals that have gone through traumatic experiences.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds to support a level I trauma-informed certification program at the University of Hawaii Windward Community College for adult corrections officers;
- (2) Establishing a trauma-informed certification program at the Windward Community College campus of the University of Hawaii for adult corrections officers;
- (3) Requiring the Department of Public Safety to collaborate and provide support to the University of Hawaii in establishing a trauma-informed certification program at Windward Community College;
- (4) Allowing the Department of Public Safety, as the designated expending agency for moneys appropriated for a level I trauma-informed certification program to be funded by operating funds authorized during the Regular Session of 2023, to delegate to the University of Hawaii Windward Community College projects related or similar to the level I trauma-informed certification program;
- (5) Clarifying the legislative findings to indicate that the need for the certification program is a matter of statewide concern;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 712, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 712, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kim, Moriwaki, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Hashem, Chun, Ichiyama, Morikawa, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 90 on S.B. No. 210**

The purpose of this measure is to establish a criminal justice data sharing working group to make recommendations for a statewide criminal justice data repository to:

- (1) Facilitate collaborative decision-making, coordinated planning, and cooperative implementation among criminal justice agencies and relevant partners;
- (2) Support the fair, efficient, and effective operation of the criminal justice system;
- (3) Promote interoperability through the use of common elements;
- (4) Allow agencies to securely and efficiently share appropriate information; and
- (5) Support criminal justice and other purposes, including improved public safety and homeland security, while respecting the privacy of citizens.

Your Committee on Conference finds that the State lacks a common repository for tracking data related to the criminal justice system. Your Committee on Conference further finds that all state and county criminal justice agencies plan, design, procure, implement, and operate their own separate information systems. As such, data sharing frequently consists of one-off solutions and often requires grants and outside contractors. The working group established by this measure will improve the timely sharing of information between police, prosecutors, attorneys, and the courts.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 210, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 210, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, Kidani, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 91 on S.B. No. 759**

The purpose of this measure is to:

- (1) Require the Office of Primary Care and Rural Health to oversee and support community efforts to collaboratively address the health and wellness needs of the State's most underserved rural residents and develop plans that align with appropriate providers' goals and objectives; and

- (2) Appropriate funds for the establishment of permanent full-time equivalent positions within the Department of Health's Family Health Services Division.

Your Committee on Conference finds that rural residents often face barriers to accessing health care. To address these barriers, comprehensive health care coordination across preventative and primary health care, specialty care, and urgent and emergency care is necessary in medically underserved areas. To facilitate this coordination and the development of a strong health network, this measure provides governmental support to existing community efforts to respond to the health care needs of rural residents.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have appropriated funds for an unspecified number of permanent full-time equivalent Program Specialist IV positions within the Department of Health's Family Health Services Division;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 759, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 759, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Inouye, and Aquino.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Aquino).

Representatives Belatti, Takenouchi, Amato, Morikawa, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Morikawa).

**Conf. Com. Rep. 92 on S.B. No. 1357**

The purpose of this measure is to:

- (1) Make permanent Act 141, Session Laws of Hawaii 2009, as amended (Act 141), which requires the counties to issue affordable housing credits to the Department of Hawaiian Home Lands upon request; and
- (2) Make permanent Act 98, Session Laws of Hawaii 2012, as amended (Act 98), which requires the counties to issue affordable housing credits for each residential unit developed by the Department of Hawaiian Home Lands.

Your Committee on Conference finds that the affordable housing credit programs pursuant to Act 141 and Act 98 have enabled the Department of Hawaiian Home Lands to attract more developer-financed projects. Through these projects, the Department has been able to award and deliver homesteads to beneficiaries more affordably and at an accelerated rate. Your Committee on Conference finds that despite the success of Act 141 and Act 98, they are both set to sunset in 2024. Therefore, this measure extends the affordable housing credit programs pursuant to Act 141 and Act 98 for the Department of Hawaiian Home Lands.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Extending the sunset dates for Act 141 and Act 98 to July 1, 2030, rather than making them permanent;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1357, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1357, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Rhoads, DeCoite, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Hashimoto, Yamashita, Aiu, Kila, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 93 on H.B. No. 278**

The purpose of this measure is to appropriate funds for the Executive Office on Aging to create an Alzheimer's disease and related dementias public health campaign.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for the Alzheimer's disease and related dementias public health campaign;

- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 278, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 278, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Kanuha, and Moriwaki.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Moriwaki).

Representatives Belatti, Kila, Chun, Kobayashi, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 94 on H.B. No. 1255**

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist West Maui Hospital Foundation, Inc., in the construction of West Maui Hospital and Medical Center, including any necessary infrastructure.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the County of Maui serve as a guarantor of any debt service on the special purpose revenue bonds;
- (2) Changing the effective date to July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1255, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1255, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Kanuha, and Moriwaki.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Moriwaki).

Representatives Belatti, Cochran, Amato, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 95 on H.B. No. 451**

The purpose of this measure is to:

- (1) Amend Act 125, Session Laws of Hawaii 2022, to extend the time to expend appropriations for the establishment of a pilot visitation and family resource center at Waiawa Correctional Facility on Oahu;
- (2) Make conforming amendments related to the establishment of the Department of Corrections and Rehabilitation; and
- (3) Appropriate additional funds to implement the pilot visitation and family resource center at Waiawa Correctional Facility.

Your Committee on Conference has amended this measure by:

- (1) Restoring the appropriation amounts of \$305,000 and \$115,000, respectively, in Act 125, Session Laws of Hawaii 2022;
- (2) Deleting language that would have appropriated funds to operate the pilot visitation and family resource center at Waiawa Correctional Facility;
- (3) Deleting language that would have appropriated funds for additional improvements required by the pilot visitation and family resource center at Waiawa Correctional Facility;
- (4) Changing the effective date to June 29, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 451, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 451, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Shimabukuro, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Chun, Ganaden, Ichiyama, Mizuno, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Ganaden, Mizuno).

**Conf. Com. Rep. 96 on H.B. No. 1037**

The purpose of this measure is to update the statutes regarding the Statewide Interoperable Communications Executive Committee to reflect the transfer of the Office of Homeland Security from the Department of Defense to the Department of Law Enforcement on January 1, 2024.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1037, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1037, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, McKelvey, Inouye, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Chun, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 97 on H.B. No. 153**

The purpose of this measure is to:

- (1) Amend the penalty amount per violation of the State Water Code, with the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation; and
- (2) Appropriate funds for two full-time equivalent general professional positions within the Commission on Water Resource Management.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation of funds for positions within the Commission on Water Resource Management;
- (2) Changing the effective date to July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 153, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 153, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, DeCoite, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, Chun, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 98 on H.B. No. 1183**

The purpose of this measure is to exempt parking lot operations at state parks and operation of concessions at certain state parks from the bidding requirements for concessions operating on public property.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1183, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1183, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Wakai, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Matayoshi, Poepoe, Garrett, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Matayoshi).

**Conf. Com. Rep. 99 on S.B. No. 1391**

The purpose of this measure is to authorize the Board of Land and Natural Resources to place a lien on a property for noncompliance with certain administrative enforcement actions related to land use violations and for certain unauthorized structures encroaching on public lands.

Your Committee on Conference finds that the Department of Land and Natural Resources has struggled to resolve problems related to encroaching erosion control structures that are typically unpermitted or have remained under an expired permit far beyond their allotted authorization. Therefore, this measure serves to aid the Department in addressing noncompliant and potentially hazardous structures by allowing the Board of Land and Natural Resources to attach a lien on an owner's property.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1391, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1391, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Moriwaki, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Ichiyama, Tarnas, Poepoe, Evslin, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Evslin).

**Conf. Com. Rep. 100 on S.B. No. 764**

The purpose and intent of this measure is to:

- (1) Allow a bank to invest, in aggregate, up to fifteen per cent of the bank's capital and surplus in limited partnerships, limited liability partnerships, limited liability companies, and corporations formed to invest in affordable housing residential properties without the prior approval of the Commissioner of Financial Institutions (Commissioner) or an after-the-fact notice; and
- (2) Authorize an eligible bank to either:
  - (A) Apply to the Commissioner to allow the aggregate amount invested to exceed fifteen percent, but not more than twenty percent, of the bank's capital and surplus; or
  - (B) Make an investment exceeding fifteen percent, but not exceeding twenty percent, of the bank's capital and surplus without prior notification to, or approval by, the Commissioner if the eligible bank submits an after-the-fact notice.

Your Committee on Conference finds that the State is presently facing a housing shortage and is in need of creative options to promote investment in the development of low-income affordable housing rental units. Existing law limits the amount that a bank may invest in entities formed to invest in residential properties that qualify for federal Low-Income Housing Tax Credits. This measure encourages the financing of affordable residential housing projects by increasing the low-income housing tax credit investment limit for local banks to a level already permitted by the federal government.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized an eligible bank to apply to the Commissioner to allow the aggregate amount invested to exceed fifteen percent, but not more than twenty percent, of the bank's capital and surplus;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 764, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 764, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keohokalole, and Aquino.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Nakashima, Yamashita, Aiu, and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Nakashima).

**Conf. Com. Rep. 101 on S.B. No. 1502**

The purpose of this measure is to:

- (1) Authorize the Department of Transportation to regulate the parking of shared cars at state airports;
- (2) Authorize the counties to regulate the parking of shared cars on highways under their jurisdiction; and
- (3) Amend the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period.

Your Committee on Conference finds that the growing popularity of shared cars provides additional transportation options for residents and visitors. However, with the proliferation of shared cars across the State, there is a growing need for additional protections for consumers and drivers. This measure establishes additional insurance protections for shared cars.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Department of Transportation may regulate parking utilized by peer-to-peer car sharing at state airports;
- (2) Clarifying that the counties are authorized to, by ordinance, regulate parking utilized by shared cars;
- (3) Repealing the sunset date of June 30, 2025, thereby making permanent Act 56, Session Laws of Hawaii 2022, relating to peer-to-peer car sharing insurance requirements;
- (4) Inserting an effective date of January 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1502, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1502, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Inouye.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Kitagawa, and Ward.  
Managers on the part of the House.  
Ayes, 2. Noes, none. Excused, 1 (Ward).

**Conf. Com. Rep. 102 on S.B. No. 1373**

The purpose of this measure is to clarify the allowable revenues to be deposited into the Executive Office on Aging Administrative Claiming Special Fund and the purposes for which the fund may be used.

Your Committee on Conference finds that Executive Office on Aging programs are authorized to use Medicaid administrative claiming funds. Despite this authorization, existing state law prevents the Executive Office on Aging from utilizing Medicaid administrative claiming funds other than for the operation of aging and disability resource centers. This measure removes this restriction to support the continued operation of the Executive Office on Aging's many beneficial programs.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1373, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1373, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Inouye, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Shimabukuro).

Representatives Kitagawa, Chun, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Garrett).

**Conf. Com. Rep. 103 on S.B. No. 696**

The purpose of this measure is to:

- (1) Authorize the wages of other employees in comparable employment to be considered when computing the average weekly wages of an injured public board member, reserve police officer, police chaplain, reserve public safety law enforcement officer, sheriffs' chaplain, volunteer firefighter, volunteer boating enforcement officer, or volunteer conservation and resources enforcement officer; and
- (2) Clarify the computation of average weekly wages of an injured volunteer firefighter for workers' compensation benefits purposes.

Your Committee on Conference finds that under existing law, the Department of Labor and Industrial Relations is prohibited from considering the wages of other employees in comparable employment when computing the average weekly wages of various volunteer positions, including reserve police officers, volunteer firefighters, and volunteer boating enforcement officers. Your Committee on Conference recognizes that the work performed by these volunteers is both vital and potentially dangerous and further finds that it is appropriate for any of these volunteers who sustain injuries in the line of duty to be afforded equitable workers' compensation benefits. This measure ensures those who volunteer in certain volunteer positions are fairly compensated with sufficient coverage under workers' compensation laws for the services they perform.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 696, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 696, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai, Lee, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Sayama, Garrett, Martinez, and Alcos.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 104 on S.B. No. 1383**

The purpose of this measure is to

- (1) Institute an unemployment insurance technology assessment to be imposed on employers at an unspecified rate of taxable wages;
- (2) Establish the Unemployment Insurance Technology Special Fund into which the assessment shall be deposited, and which shall be used to defray the costs of information technology infrastructure for the Unemployment Insurance Program; and
- (3) Clarify the order of priority to apply collections from delinquent employers to delinquent amounts under Hawaii's Employment Security Law.

Your Committee on Conference finds that federal funds are currently available for the infrastructure and equipment necessary to modernize the Unemployment Insurance Program, and the costs of operating and maintaining the information technology systems are not covered by federal funds. This measure would provide a permanent funding mechanism to support the necessary continued maintenance of the Unemployment Insurance Division's information technology infrastructure.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the unemployment insurance technology assessment be at a rate of .01 percent of taxable wages as specified in section 383-61, Hawaii Revised Statutes; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1383, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1383, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Shimabukuro, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, Martinez, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Alcos).

**Conf. Com. Rep. 105 on H.B. No. 478**

The purpose of this measure is to:

- (1) Establish qualifications for membership on the State Foundation on Culture and the Arts Commission; and
- (2) Appropriate funds to the State Foundation on Culture and the Arts to award one-time fellowships to promising artists.

Your Committee on Conference has amended this measure by:

- (1) Adding as ex officio, nonvoting members to the State Foundation on Culture and the Arts Commission the chair of the Senate and House of Representatives standing committees with primary jurisdiction over culture and the arts;
- (2) Removing the appropriation of funds to the State Foundation on Culture and the Arts to award one-time fellowships to promising artists;
- (3) Changing the effective date to July 1, 2023; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 478, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 478, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Kim, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tam, Kila, Garrett, Kapela, and Alcos.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Garrett).

**Conf. Com. Rep. 106 on H.B. No. 475**

The purpose of this measure is to establish and appropriate funds for the Art in Private Places and Performing Arts Committee, within the State Foundation on Culture and the Arts, to establish and administer the Art in Private Places and Performing Arts Pilot Programs.

Your Committee on Conference has amended this measure by:

- (1) Deleting the establishment of the Art in Private Places and Performing Arts Committee and Performing Arts Pilot Program;
- (2) Establishing the Art in Private Places Pilot Program, which allows the Executive Director of the State Foundation on Culture and the Arts to loan state-owned art to non-state individuals, businesses, or entities for reasonable financial consideration;
- (3) Renaming the Performing Arts Special Account to the Art in Private Places Special Account and amending the funds that may be deposited into the special account;
- (4) Removing the appropriation;
- (5) Changing the effective date to July 1, 2023, with a sunset date of June 30, 2026; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 475, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 475, H.D. 1, S.D. 2, C.D. 1.

**Conf. Com. Rep. 107 on H.B. No. 848**

The purpose of this measure is to appropriate funds to establish new permanent support staff positions which are critical to sustaining daily operations for the initiatives at the Hawaii Institute of Marine Biology.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriation amounts for each position;
- (2) Clarifying that the full-time equivalent positions to be established are administrative, professional, and technical positions;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (4) Changing the effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 848, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 848, H.D. 2, S.D. 1, C.D. 1.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 108 on H.B. No. 933**

The purpose of this measure is to appropriate funds to the Public Utilities Commission to provide free telecommunications access to certain information for individuals with a print disability.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 to provide free telecommunications access to certain information for persons with a print disability;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 933, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 933, H.D. 2, S.D. 1, C.D. 1.

Senators Keohokalole, Lee, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Perruso, Sayama, Kobayashi, Kapela, and Pierick.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Pierick).

**Conf. Com. Rep. 109 on H.B. No. 1200**

The purpose of this measure is to:

- (1) Require and appropriate funds for the Department of Land and Natural Resources to establish an Unmanned Aircraft Systems Program that is compliant with federal and state laws;
- (2) Authorize the use of unmanned aircraft systems to monitor, investigate, and obtain admissible evidence of natural and cultural resource violations; and
- (3) Beginning January 1, 2026, require an annual report to the Legislature on the Unmanned Aircraft Systems Program.

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than requiring, the Department of Land and Natural Resources to adopt rules related to the Unmanned Aircraft Systems Program;
- (2) Inserting an appropriation amount of \$125,000 for the Unmanned Aircraft Systems Program for fiscal year 2023-2024;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (4) Changing the effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1200, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1200, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Shimabukuro, and Gabbard.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Lowen, Tarnas, Cochran, and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Tarnas).

**Conf. Com. Rep. 110 on S.B. No. 1254**

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to petition the Board of Land and Natural Resources to designate certain lands as the "Kaiwi Coast State Park";
- (2) Establish certain conditions for the Kaiwi Coast State Park; and

- (3) Appropriate funds for the Kaiwi Coast State Park and Maunaloa-Makapuu Scenic Byway improvements.

Your Committee on Conference finds that the lands of the Kaiwi coast are an invaluable resource for the people of the State and its natural beauty should be preserved in perpetuity for the public benefit. Therefore, this measure helps kickstart the process of conserving those lands in their natural state by requiring the Department of Land of Natural Resources to petition for their designation as a state park.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Eliminating the appropriation for the establishment, planning, and design of the Kaiwi Coast State Park and Maunaloa-Makapuu Scenic Byway improvements;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1254, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1254, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Lee, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Nishimoto, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 111 on S.B. No. 1232**

The purpose of this measure is to:

- (1) Authorize the State Librarian, with approval from the Board of Education, to impose and collect rates, rents, fees, fines and charges for the use of state library facilities and revise rates, rents, fees, and charges as necessary without regard to chapter 91, Hawaii Revised Statutes; and
- (2) Sunset on June 30, 2028.

Your Committee on Conference finds that the State Public Library System provides thousands of residents in the State with free, convenient access to library materials. However, the current process to collect fees is cumbersome, requiring updates of fee schedules to follow the administrative rule process pursuant to chapter 91, Hawaii Revised Statutes. This measure provides the State Librarian with greater flexibility to collect fees that will provide additional funding to support and continue library services across the State.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1232, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1232, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Shimabukuro, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Morikawa, Evslin, La Chica, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 4. Noes, 1 (Garcia). Excused, 1 (Evslin).

**Conf. Com. Rep. 112 on S.B. No. 483**

The purpose of this measure is to update articles I through IV of the Uniform Probate Code to adjust for inflation, provide additional clarity, resolve issues that have arisen in probate practice, and address societal changes in familial relations.

Your Committee on Conference finds that it is necessary to update the Uniform Probate Code with appropriate amendments to reflect Hawai'i law and practice where relevant. The last update to the Uniform Probate Code was in 1996. This measure makes appropriate and necessary updates to the Uniform Probate Code.

Your Committee on Conference has amended this measure by making it effective upon its approval; provided that the section relating to the Uniform Estate Tax Apportionment Act shall take effect on July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 483, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 483, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and San Buenaventura.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 113 on S.B. No. 211**

The purpose of this measure is to ensure that employment, work, and pay eligibility for the purpose of calculating retirement benefits includes retroactive reinstatement, retroactive rescission of suspension, and retroactive payments that are restored to an employee as part of a judicial, administrative, or arbitral proceeding, or pursuant to a settlement of claims.

Your Committee on Conference finds that this measure seeks to codify the long-standing practice of the Employees' Retirement System of crediting a public employee's retroactive reinstatement, retroactive rescission of suspension, and retroactive payments for service credits and retirement benefits determination purposes. This measure will help to avoid potential uncertainties in the calculations of these amounts.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that made the definition of "final resolution of claims" apply to actions that became final on or after the effective date of this measure; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 211, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 211, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Keith-Agaran, Rhoads, and Ihara.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Matayoshi, Tarnas, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 114 on S.B. No. 1313**

The purpose of this measure is to enable the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees (Board) to establish appropriate salaries for the Administrator and Chief Investment Officer of the Trust Fund.

Your Committee on Conference finds that authorizing the Board to set an appropriate salary for its upper-management personnel, such as the Chief Investment Officer, will lead to an increase in the recruitment and retention of qualified individuals to administer the day-to-day activities of the Trust Fund.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1313, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1313, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kim, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 115 on H.B. No. 972**

The purpose of this measure is to:

- (1) Add revenue generated by the State Veterinary Laboratory and Animal Disease Control Branch as sources for the Animal Industry Special Fund; and
- (2) Clarify that the funds from the Animal Industry Special Fund may be expended to make laboratory improvements.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 972, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 972, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, Cochran, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 116 on H.B. No. 306**

The purpose of this measure is to appropriate funds to the University of Hawaii for statewide research into ornamental ginger pathogens, prevention of the spread of ornamental ginger pathogens, production and distribution of pathogen-free ornamental ginger plants, and outreach to ornamental ginger producers.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$125,000 for fiscal year 2023-2024 for statewide research regarding ornamental ginger pathogens and deleting the appropriation of the same sum for fiscal year 2024-2025;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 306, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 306, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, Aquino, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives Gates, Lamosao, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 117 on H.B. No. 307**

The purpose of this measure is to authorize the Department of Agriculture to extend the agricultural park lease of any lessee who holds a lease with a remaining term of fifteen years or less as long as the land covered by the lease is twenty-five acres or less and located in a county with a population of less than five hundred thousand.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 307, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 307, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Ichiyama, Nakashima, Kahaloa, Hussey-Burdick, and Ward.

Managers on the part of the House.

Ayes, 6; Ayes with Reservations (Hussey-Burdick). Noes, none. Excused, none.

**Conf. Com. Rep. 118 on H.B. No. 133**

The purpose of this measure is to appropriate funds for the operating costs of the Office of Hawaiian Affairs for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$3,000,000 for fiscal biennium 2023-2025 for the Office of Hawaiian Affairs;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;

- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 133, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 133, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kidani, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Yamashita, Kitagawa, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 119 on H.B. No. 1113**

The purpose of this measure is to:

- (1) Allow monies in the State Highway Fund to be expended for the cost of maintaining a Drug and Alcohol Toxicology Testing Laboratory;
- (2) Require monies in the Drug and Alcohol Toxicology Testing Laboratory Special Fund to be administered and expended by the Department of Transportation or appropriated as a grant-in-aid to the emergency services department of a county with a population of five hundred thousand or more to support a Drug and Alcohol Toxicology Testing Laboratory;
- (3) Change the name of the State Drug and Alcohol Toxicology Testing Laboratory, and its special fund, to repeal reference to the "State" to reflect its expanded scope;
- (4) Appropriate funds from the State Highway Fund to the Drug and Alcohol Toxicology Testing Laboratory Special Fund;
- (5) Appropriate funds out of the Drug and Alcohol Toxicology Testing Laboratory Special Fund for the establishment and maintenance of a Drug and Alcohol Toxicology Testing Laboratory; and
- (6) Require reports to the Legislature on expenditures made from the Drug and Alcohol Toxicology Testing Laboratory Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$2,000,000 for fiscal year 2023-2024 and \$400,000 for fiscal year 2024-2025 for the establishment and maintenance of a Drug and Alcohol Toxicology Testing Laboratory, including the costs of laboratory instrumentation, facility renovation and security upgrades, office furniture and supplies, laboratory equipment, and other purposes that support a Drug and Alcohol Toxicology Testing Laboratory;
- (2) Changing the effective date to July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1113, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1113, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 120 on H.B. No. 960**

The purpose of this measure is to:

- (1) Include the development and construction of prekindergarten facilities among the powers of the School Facilities Authority;
- (2) Transfer general funds previously appropriated to the School Facilities Authority of the Department of Education to the School Facilities Special Fund for fiscal year 2023-2024; and
- (3) Appropriate funds out of the School Facilities Special Fund for the School Facilities Authority to construct new school facilities and renovate, improve, and expand existing school facilities to increase prekindergarten student capacity.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$200,000,000 out of the School Facilities Special Fund for the School Facilities Authority to construct new school facilities and renovate, improve, and expand existing school facilities to increase prekindergarten student capacity;

- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 960, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 960, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, DeCoite, and Fevella.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Kitagawa, Kapela, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Garcia).

**Conf. Com. Rep. 121 on H.B. No. 1101**

The purpose of this measure is to:

- (1) Prohibit the counties from charging against or collecting user fees for stormwater management systems or infrastructure from the Department of Transportation in excess of \$1,500,000 in the aggregate per year; and
- (2) Specify that no services shall be denied to the Department of Transportation by reason of nonpayment of the user fees for stormwater management systems or infrastructure.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1101, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1101, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 123 on H.B. No. 1134**

The purpose of this measure is to:

- (1) Prohibit commercial ocean use activities within Kaneohe Bay waters without a permit and the advertising of those unpermitted activities; and
- (2) Establish enforcement mechanisms for the prohibitions.

Your Committee on Conference has amended this measure by:

- (1) Removing the proposed requirement for the Department of Land and Natural Resources to adopt rules to prescribe any other procedures determined by the Department in its experience and discretion to effectuate the intent of the Boating Law under chapter 200, Hawaii Revised Statutes, and the Kaneohe Bay Master Plan;
- (2) Clarifying that no person can advertise or otherwise offer any equipment for a commercial ocean use activity without a permit from the Department of Land and Natural Resources;
- (3) Removing from the definition of "commercial ocean use activity" the transportation of customers for hire from any location on Oahu, including but not limited to Heeia Kea, the Kaneohe Yacht Club, or any private residence, to Kaneohe Bay;
- (4) Changing its effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1134, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1134, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keohokalole, and Lee.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Kitagawa, Poepoe, and Souza.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 124 on H.B. No. 1079**

The purpose of this measure is to amend sections in chapter 342D, Hawaii Revised Statutes (HRS), relating to water pollution, to:

- (1) Conform to definitions and civil penalty amounts pursuant to federal regulations and laws, including the Clean Water Act;
- (2) Consolidate separate water quality certification statutes into one section of law for clarity;
- (3) Clarify the authority of the Department of Health to conduct water quality certifications; and
- (4) Revise civil penalty amounts to ensure consistency within the Department of Health.

Your Committee on Conference has amended this measure by:

- (1) Adding a definition of "territorial seas";
- (2) Raising the maximum fine for any person who violates chapter 342D, HRS, any rule, or any term or condition of a permit, water quality certification, or variance issued pursuant to chapter 342D, HRS, to \$60,000 for each separate offense;
- (3) Raising the maximum fine for any person who denies, obstructs, or hampers the entrance or inspection by any duly authorized officer or employee of the Department of Health of any building, place, or vehicle that the officer or employee is authorized to enter and inspect to \$25,000 for each day of denial, obstruction, or hampering;
- (4) Changing its effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1079, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1079, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Moriwaki, and Elefante.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Lowen, Kitagawa, Evslin, Poepoe, and Souza.  
Managers on the part of the House.  
Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 125 on S.B. No. 968**

The purpose of this measure is to:

- (1) Require the Department of Accounting and General Services to collaborate with the Department of Transportation to develop, implement, administer, and manage programs to enable parking stall sharing among public employees of the State;
- (2) Require the Department of Accounting and General Services to conduct a study to determine the demand for, and feasibility and costs of, installing electric vehicle charging stations at newly constructed state employee and public parking facilities and retrofitting existing state employee and public parking facilities to accommodate electric vehicle charging stations.

Your Committee on Conference finds that many public employees are opting for more environmentally friendly methods of commuting to work, such as carpooling. However, public employees who carpool to work together are prohibited from sharing the cost of a single stall by registering multiple vehicles to the same stall. Additionally, infrastructure for securely storing bicycles does not exist. This measure requires the Department of Accounting and General Services to develop solutions to accommodate and encourage carpooling and environmentally friendly commuting options.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Accounting and General Services to conduct a study regarding the installation of electric vehicle charging stations at state employee and public parking facilities;
- (2) Inserting language that requires the Department of Accounting and General Services to develop, implement, administer, and manage a pilot program to provide enclosed bicycle storage lockers at state employee and public parking facilities;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 968, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 968, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Lee, Inouye, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

Representatives Todd, Matayoshi, Kila, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 126 on S.B. No. 894**

The purpose of this measure is to:

- (1) Transfer the Office of Wellness and Resilience from the Office of the Governor to the Department of Human Services on July 1, 2025;
- (2) Extend the Trauma-Informed Care Task Force dissolution date to June 30, 2025, and establish the Task Force as an advocacy board to the Office of Wellness and Resilience until its dissolution; and
- (3) Reconstitute the membership of the Trauma-Informed Care Task Force into a permanent advocacy board to the Office of Wellness and Resilience to be called the Wellness and Resilience Advocacy Board.

Your Committee on Conference finds that Act 291, Session Laws of Hawaii 2022, established the Office of Wellness and Resilience, the first of its kind in the nation, to be temporarily placed within the Office of the Governor. The Office was created to support and implement the statewide framework developed by the Trauma-Informed Care Task Force. Together, the Office and Task Force seeks to implement trauma-informed wellness and resilience policies to assist individuals and communities impacted by trauma and thereby reduce crime, substance abuse, suicide, and homelessness. Your Committee on Conference recognizes the continued need for the State to support children, families, and survivors of trauma and this measure reaffirms the State's commitments by permanently establishing the Office of Wellness and Resilience within the Department of Human Services and ensuring that the Task Force will continue its important work in an advisory capacity as the Wellness and Resilience Advisory Board.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that the Trauma-Informed Care Task Force will serve as an "advisory board" to the current Office of Wellness and Resilience, as opposed to serving as an "advocacy board";
- (2) Replacing the Director of Public Safety with the Director of Corrections and Rehabilitation to serve on the Trauma-Informed Care Task Force, effective January 1, 2024;
- (3) Renaming the "Wellness and Resilience Advocacy Board", which will be established within the Department of Human Services on July 1, 2025, as the "Wellness and Resilience Advisory Board";
- (4) Replacing the Director of Public Safety with the Director of Corrections and Rehabilitation to serve on the Wellness and Resilience Advisory Board;
- (5) Inserting an effective date of January 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 894, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 894, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Shimabukuro, Kidani, Aquino, and Awa.  
Managers on the part of the Senate.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

Representatives Mizuno, Belatti, Kobayashi, Amato, and Garcia.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Belatti).

**Conf. Com. Rep. 127 on S.B. No. 811**

The purpose of this measure is to:

- (1) Require state agencies to disaggregate data consistent with federal standards and to publish the data; and
- (2) Establish a task force to assess demographic data collection, processing, retention, and sharing procedures, needs, and challenges.

Your Committee on Conference finds that Asian Americans, Native Hawaiians, and other Pacific Islanders are often misrepresented as a homogeneous group, despite having ethnicities from over thirty different countries. Your Committee on Conference further finds that because not all state agencies keep, or make accessible to the public, demographic data in a standard or uniform manner that comports with the prevailing federal standards, requiring state agencies to disaggregate race data for collection, analysis, evaluation, access, and dissemination can aid in shaping programs and policies to advance more equitable outcomes for all communities in the State. Therefore, this measure establishes a Task Force on Twenty-First Century Data Governance to assess how the State currently collects demographic data and requires the Task Force to submit a report of its findings and recommendations to the Legislature.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting the creation of a new section under chapter 27, Hawaii Revised Statutes, requiring state agencies, boards, or commissions to collect and disaggregate certain demographic data for Asian American, Native Hawaiian, and other Pacific Islander Groups consistent with federal standards and to publish the data;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 811, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 811, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Inouye, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 128 on S.B. No. 1230**

The purpose of this measure is to:

- (1) Prohibit the carrying or possessing of firearms in certain locations and premises;
- (2) Require possession and disclosure of a license to carry;
- (3) Prohibit leaving an unsecured firearm in a vehicle unattended;
- (4) Prohibit consuming or being under the influence of alcohol, an intoxicating liquor, or a controlled substance when carrying a firearm;
- (5) Prohibit carrying or possessing firearms on certain private property open to the public without express authorization;
- (6) Require annual reports from the Department of the Attorney General on licenses to carry;
- (7) Prohibit the failure to conceal a firearm by a concealed carry licensee where the failure to conceal results in alarm to another person;
- (8) Amend the requirements for, and revocation of, firearms permits and licenses;
- (9) Amend the criteria for disqualification of persons from owning, possessing, or controlling a firearm; and
- (10) Expand the qualified immunity for health care providers who provide information on firearms applicants to include physician assistants and advanced practice registered nurses.

Your Committee on Conference finds that although the United States Supreme court held in *New York State Rifle and Pistol Association V. Bruen*, 142 S. Ct. 2111 (2022), that licenses to carry a firearm shall be granted unless there is an objective statutory basis requiring denial, states still retain the authority to enact a variety of gun regulations, such as prohibiting the carrying of firearms in

sensitive locations and adopting laws to ensure that those who carry firearms are law-abiding, responsible citizens. This measure will update the State's existing firearms laws to ensure the safety and welfare of citizens as a result of *Bruen*.

Your Committee on Conference has amended this measure by:

- (1) Including tennis courts, golf courses, swimming pools, or other recreation areas or facilities under control, maintenance, and management of the State or a county as locations where carrying or possessing a firearm is prohibited;
- (2) Deleting language that would have included any space within one thousand feet from a public gathering, public assembly, or special event from being included as locations where carrying or possessing a firearm is prohibited;
- (3) Including the following as affirmative defenses to the crime of carrying or possessing a firearm in certain locations and premises:
  - (A) Walking through a public gathering, public assembly, or special event if necessary to access the person's residence, place of business, or vehicle; and
  - (B) Carrying a concealed firearm in accordance with title 18 United States Code section 926B or 926C in a location or premises within the State that is not a state or county property, installation, building, base, or park, and not a location or premises where a private person or entity has prohibited or restricted the possession of concealed firearms on their property;
- (4) Clarifying that any ordinance of any county establishing locations where the carrying of firearms is prohibited is inconsistent with state law, the ordinance shall be void to the extent of the inconsistency;
- (5) Requiring a person legally carrying a firearm to have government-issued photo identification in the person's immediate possession and present the identification to a law enforcement officer upon request;
- (6) Clarifying that the prohibition against unlawful conduct while carrying a firearm applies to any person carrying a firearm;
- (7) Amending the offense of carrying or possessing a firearm on private property open to the public without authorization to the offense of carrying or possessing a firearm on private property of another person without authorization;
- (8) Clarifying that express authorization to carry or possess a firearm on private property shall be signified by unambiguous written or verbal authorization or the posting of clear and conspicuous signage at the entrance of the building or on the premises by the owner, lessee, operator, or manager of the property, or agent thereof;
- (9) Inserting definitions for "private entity", "private property", and "private property of another person";
- (10) Clarifying that the Department of the Attorney General is required to publish certain data relating to firearms on its website only if the data is available to the Department;
- (11) Clarifying that the offense of failure to conceal a firearm by a concealed carry licensee applies to persons carrying a firearm pursuant to a license issued under section 134-9(a), Hawaii Revised Statutes;
- (12) Specifying that harassment as a "crime of violence" includes harassment under section 711-1106(1)(a), Hawaii Revised Statutes;
- (13) Specifying that certain amendments to the requirements for, and revocation of, firearms permits and licenses shall take effect on January 1, 2024;
- (14) Clarifying that a license to carry a firearm does not constitute a government-issued photo identification document under federal or state law;
- (15) Clarifying that a license issued by the chief of police of a county within the State to carry a pistol or revolver and ammunition concealed on the licensee's person is valid for use in each county within the State; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1230, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1230, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 129 on S.B. No. 7**

The purpose of this measure is to make necessary amendments to clarify certain references to the School Facilities Authority used in section 302A-1151.1, Hawaii Revised Statutes.

Your Committee on Conference finds that Act 217, Session Laws of Hawaii 2021 (Act 217), replaced the terms "Department", "Board", or "Board of Education" with "School Facilities Authority" in section 302A-1151.1, Hawaii Revised Statutes. However,

amendments made by Act 217 inadvertently contain redundant and confusing references that need clarification. This measure clarifies existing statutory language to effectuate Act 217's intended purpose.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 7, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 7, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Rhoads, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Kitagawa, La Chica, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 130 on H.B. No. 24**

The purpose of this measure is to clarify that a common water carrier may enter into vessel leases longer than five years or enter into leverage leases for vessels upon prior approval of the Public Utilities Commission.

Your Committee has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 24, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 24, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Nakashima, Kitagawa, Kila, and Matsumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 131 on H.B. No. 948**

The purpose of this measure is to:

- (1) Establish a two-year Child and Adolescent Crisis Mobile Outreach Team Pilot Program to provide additional support and expansion of services for existing crisis response services, with one team to be located on Oahu and the other to be located at a site on a neighbor island; and
- (2) Appropriate funds for the pilot program, including the hiring and training of mental health professionals.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$3,500,000 for fiscal years 2023-2024 and 2024-2025 for the Department of Health to establish the Crisis Mobile Outreach Team Pilot Program;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 948, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 948, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kidani, and Moriwaki.  
Managers on the part of the Senate.

**Conf. Com. Rep. 132 on H.B. No. 1363**

The purpose of this measure is to:

- (1) Extend the period within which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2019, to December 31, 2023;
- (2) Authorize, in certain instances, the use of county surcharge revenues for housing infrastructure in counties having a population of 500,000 or less; and
- (3) Temporarily authorize counties that have previously adopted a surcharge on state tax to amend the uses of the surcharge.

Your Committee on Conference has amended this measure by:

- (1) Restoring “pedestrian paths or sidewalks on a county road near or around a public school,” to the definition of “housing infrastructure” and removing the same language from section 46-16.8(g)(1)(E), Hawaii Revised Statutes, where it had previously been moved;
- (2) Adding water reuse to the definition of “housing infrastructure”;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1363, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1363, H.D. 3, S.D. 2, C.D. 1.

**Conf. Com. Rep. 133 on H.B. No. 968**

The purpose of this measure is to appropriate funds for the University of Hawaii Pamantasan Council.

Your Committee on Conference has amended this measure by:

- (1) Specifying an appropriation amount of \$310,000;
- (2) Specifying that the appropriation is for one full-time equivalent faculty position at Leeward Community College, one full-time equivalent faculty position at the University of Hawaii Maui College, and one full-time equivalent academic, professional, and technical position at the University of Hawaii at Manoa;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (4) Changing the effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 968, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 968, H.D. 1, S.D. 1, C.D. 1.

**Conf. Com. Rep. 134 on H.B. No. 68**

The purpose of this measure is to:

- (1) Require that ongoing staff support for the centralized statewide criminal pretrial justice data reporting and collection system be conducted by the Criminal Justice Research Institute’s staff and not be contracted to another entity;
- (2) Require the Criminal Justice Research Institute to protect any information and data that may be shared;
- (3) Require the Criminal Justice Research Institute to submit an annual report regarding the creation of the centralized statewide criminal pretrial justice data reporting and collection system to the Legislature for two years; and
- (4) Appropriate funds to establish a centralized statewide criminal pretrial justice data reporting and collection system pursuant to state law.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$1,372,864 for fiscal year 2023-2024 and \$1,030,868 for fiscal year 2024-2025 to establish a centralized statewide criminal pretrial justice data reporting and collection system;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 68, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 68, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Moriwaki, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Ganaden, Takayama, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Ganaden).

**Conf. Com. Rep. 135 on H.B. No. 954**

The purpose of this measure is to:

- (1) Increase the amounts for the income tax brackets and personal exemption and standard deduction amounts for tax year 2023;
- (2) Adjust annually for tax years beginning after December 31, 2023, the income tax brackets and personal exemption, and standard deduction amounts by a cost-of-living adjustment factor; and
- (3) Amend the taxable income brackets and income tax rates for each filing status for taxable years beginning after December 31, 2022.

Your Committee on Conference has amended this measure by:

- (1) Deleting language which would have:
  - (A) Defined cost-of-living adjustment factor;
  - (B) Increased the amounts for the income tax brackets and personal exemption and standard deduction amounts;
  - (C) Adjusted annually the income tax brackets and personal exemption, and standard deduction amounts by a cost-of-living adjustment factor; and
  - (D) Amended the taxable income brackets and income tax rates for each filing status;
- (2) Inserting language which:
  - (A) Increases the household and dependent care services tax credit;
  - (B) Increases the refundable earned income tax credit; and
  - (C) Increases the income thresholds and credit amounts of the refundable food/excise tax credit;
- (3) Inserting a sunset date of December 31, 2027; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 954, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 954, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Holt, Yamashita, Evslin, Ilagan, Kitagawa, Lamosao, Morikawa, Nakamura, Nishimoto, and Pierick.  
Managers on the part of the House.  
Ayes, 7. Noes, none. Excused, 3 (Kitagawa, Nishimoto, Pierick).

**Conf. Com. Rep. 136 on H.B. No. 999**

The purpose of this measure is to:

- (1) Establish state goals for economic growth fueled by innovation and technology;

- (2) Appropriate funds to the Hawaii Technology Development Corporation to implement specific projects that address the state goals;
- (3) Require the Hawaii Technology Development Corporation to submit annual reports to the Legislature on the progress, outcomes, and effectiveness of the projects;
- (4) Temporarily establish the Hawaii Office of Naval Research Grant Program to provide matching grants to Hawaii awardees of alternative energy research grants from the Department of Defense Office of Naval Research;
- (5) Establish the Alternative Energy Research and Development Revolving Fund and appropriate funds into and out of the Revolving Fund for the Hawaii Office of Naval Research Grant Program; and
- (6) Appropriate funds to establish one full-time equivalent asset manager position and one full-time equivalent aerospace development coordinator for the Hawaii Technology Development Corporation.

Your Committee on Conference has amended this measure by:

- (1) Amending the composition of the Hawaii Technology Development Corporation Board of Directors to include the Chairperson of the Board of Regents of the University of Hawaii, unless the Chairperson, with the approval of the Board of Regents and subject to quorum and majority requirements, designates another Regent to serve;
- (2) Inserting an appropriation amount of \$6,000,000 for fiscal years 2023-2024 and 2024-2025 for the purpose of economic diversification;
- (3) Clarifying that of the \$6,000,000 appropriated for the purpose of economic diversification, \$2,000,000 shall be used to support economic development opportunities with the defense sector, including aerospace, and to support companies conducting small business innovation research through matching grants;
- (4) Deleting language which would have appropriated funds:
  - (A) For the operations, administration, and award of grants by the Hawaii Small Business Innovation Research Program;
  - (B) For the operations, administration, and award of grants by the Manufacturing Assistance Program; and
  - (C) To reduce and mitigate climate change through renewable energy technology demonstration projects;
- (5) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (6) Deleting language which would have:
  - (A) Temporarily established the Hawaii Office of Naval Research Grant Program;
  - (B) Established the Alternative Energy Research and Development Revolving Fund and appropriated funds into and out of the Revolving Fund; and
  - (C) Appropriated funds to establish one full-time equivalent asset manager position and one full-time equivalent aerospace development coordinator;
- (7) Changing the effective date to July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 999, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 999, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Kidani, Fukunaga, and Wakai.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fukunaga).

Representatives Holt, Lamosao, Chun, Hussey-Burdick, Onishi, and Pierick.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Hussey-Burdick).

**Conf. Com. Rep. 137 on H.B. No. 1366**

The purpose of this measure is to:

- (1) Require the Department of Human Services to establish and coordinate a voluntary three-year Return-to-Home Pilot Program (Pilot Program) to assist eligible homeless individuals in reuniting with families and relatives in their home states;
- (2) Appropriate funds for the implementation of the pilot program and require the funds to be matched on a dollar-for-dollar basis by a nonprofit organization, for-profit organization, or private foundation; and
- (3) Appropriate funds to establish an unspecified number of planner positions within the Department of Human Services to oversee the Pilot Program.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Governor's Coordinator on Homelessness to assist with the implementation of the Pilot Program;
- (2) Inserting a sunset date of January 1, 2026, for the Pilot Program;
- (3) Inserting an appropriation amount of \$100,000 to implement the Pilot Program and deleting the dollar-for-dollar matching funds requirement;
- (4) Deleting the appropriation for planner positions;
- (5) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (6) Updating the purpose section;
- (7) Changing the effective date to July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1366, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1366, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Lee, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Belatti, Kobayashi, Amato, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 138 on H.B. No. 870**

The purpose of this measure is to:

- (1) Require the Department of Human Services to:
  - (A) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program (Pilot Program) to supplement existing statewide services;
  - (B) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program Working Group (Working Group) to develop a pilot program implementation plan; and
  - (C) Report to the Legislature on the implementation plan and Pilot Program; and
- (2) Appropriate funds for the establishment and operation of the Pilot Program and Working Group.

Your Committee on Conference has amended this measure by:

- (1) Exempting contracts entered into by the Department of Human Services to fulfill the purposes of the Pilot Program from the requirements of the Hawaii Public Procurement Code and State requirements for the purchase of health and human services;
- (2) Exempting the Working Group from public agency open meeting requirements;
- (3) Requiring the Pilot Program to begin no later than January 1, 2024;
- (4) Sunsetting the Pilot Program on July 30, 2029, rather than July 30, 2027, and requiring the Department of Human Services to submit a report to the Legislature prior to the convening of the Regular Session of 2029, rather than 2027;
- (5) Inserting an appropriation amount of \$93,000 and clarifying that the appropriation may be used to contract for services to coordinate the convening of the Working Group and implementation of the Pilot Program;
- (6) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (7) Changing the effective date to July 1, 2023, and the sunset date to June 30, 2029; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 870, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 870, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, DeCoite, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Kobayashi, Amato, and Garcia.  
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 139 on H.B. No. 1369**

The purpose of this measure is to preserve access to health care for Medicaid recipients and strengthen the Nursing Facility Sustainability Program by:

- (1) Repealing the sunset dates of Act 156, Session Laws of Hawaii 2012, and Act 124, Session Laws of Hawaii 2014, thereby making the Nursing Facility Sustainability Program permanent and permanently exempting the Nursing Sustainability Program Special Fund from the central service and administrative expenses assessments;
- (2) Making various amendments to the Nursing Facility Sustainability Program;
- (3) Repealing the Nursing Facility Tax; and
- (4) Appropriating funds out of the Nursing Facility Sustainability Program Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$27,000,000 out of the Nursing Facility Sustainability Program Special Fund for fiscal years 2023-2024 and 2024-2025 for the purposes of the Special Fund;
- (2) Changing the effective date to upon approval; provided that sections 14 and 15 shall take effect on July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1369, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1369, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Lee, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Belatti, Morikawa, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 140 on H.B. No. 953**

The purpose of this measure is to:

- (1) Require the Department of Land and Natural Resources to develop and publish a website that includes the application processes for a permit, license, or reservation needed to conduct recreational and commercial activity in the State regulated by or under the jurisdiction of the Department;
- (2) Require the Department of Land and Natural Resources to convert existing application processes into a digital format to be used on the website; and
- (3) Appropriate funds for the establishment of the website.

Your Committee on Conference has amended this measure by:

- (1) Removing the deadline for the Department of Land and Natural Resources to develop and publish a website including all online application processes;
- (2) Requiring the Department of Land and Natural Resources to develop and publish a mobile application accompanying the website and include a means of collecting any fee through the website and mobile application;
- (3) Expanding the list of online application processes to be available on the website and mobile application to include licenses to visit a state-owned park, beach, forest, hiking trail, or other natural area on state land, as designated by rule by the Board Of Land And Natural Resources;
- (4) Deleting language that would have required the Department of Land and Natural Resources to submit a report regarding its implementation of the website to the Legislature;
- (5) Requiring the website and mobile application to be accessible to people with disabilities and available in multiple languages;
- (6) Inserting an appropriation amount of \$1,000,000 for the establishment of a website and mobile application for fiscal year 2023-2024 and deleting the appropriation for fiscal year 2024-2025;
- (7) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (8) Changing the effective date to July 1, 2023; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 953, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 953, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Inouye, Keith-Agaran, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Quinlan, Morikawa, Chun, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Quinlan).

**Conf. Com. Rep. 141 on H.B. No. 923**

The purpose of this measure is to:

- (1) Require counties with a private activity bond issuance program to exhaust their allotment of private activity bonds before applying to the State for a state allocation;
- (2) Require the State, if it receives a county allocation of private activity bonds, to award the amount of the county allocation to projects in that county before awarding the allocation to projects in other counties;
- (3) Require a project seeking private activity bond financing to first apply to the county in which the project is located for a portion of the county's allocation, if that county has a private activity bond issuance program, before applying to the State; and
- (4) Require the Director of Finance of each county to report to the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation the amount of the county's unused or unassigned allocation of private activity bonds.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that private activity bond allocations may be awarded to projects located in other counties pursuant to a cooperative agreement with the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation;
- (2) Authorizing the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation to enter into a cooperative agreement, which shall be exempt from all state and county laws and rules relating to the award of private activity bonds and Low-Income Housing Tax Credits, with a county to coordinate the award of private activity bonds and Low-Income Housing Tax Credits for new rental housing projects;
- (3) Deleting language that would have required a project seeking private activity bond financing to first apply to the county in which the project is located for a portion of the county's allocation, if that county has a private activity bond issuance program, before applying to the State;
- (4) Specifying that no special purpose revenue bonds requiring an allocation of annual state ceiling shall be authorized after June 30, 2023, and before December 31, 2028;
- (5) Changing the effective date to July 1, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 923, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 923, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keith-Agaran, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Yamashita, Aiu, Evslin, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Evslin).

**Conf. Com. Rep. 142 on H.B. No. 677**

The purpose of this measure is to:

- (1) Change the computation of interest that a purchaser of certain real property is required to pay the Hawaii Housing Finance and Development Corporation upon the purchaser's sale or assignment of the real property after a specified period of time;
- (2) Require the Hawaii Housing Finance and Development Corporation to establish a five-year Dwelling Unit Revolving Fund Equity Pilot Program (Pilot Program) to address the high, unmet demand of for-sale units by certain residents;
- (3) Establish and appropriate funds for one full-time equivalent (1.00 FTE) Housing Development Specialist III position; and
- (4) Appropriate funds into and out of the Dwelling Unit Revolving Fund for the Pilot Program.

Your Committee on Conference has amended this measure by:

- (1) Authorizing, rather than requiring, the Hawaii Housing Finance and Development Corporation to:
  - (A) Establish the Pilot Program;
  - (B) Purchase equity in for-sale housing development projects;
  - (C) Establish rules for the Pilot Program; and
  - (D) Establish criteria for the prioritization of eligible buyers based on state goals and policies and submit a report on the criteria to the Legislature;
- (2) Clarifying that the Pilot Program shall be funded by the Dwelling Unit Revolving Fund;
- (3) Establishing new qualification requirements for residents to be eligible to participate in the Pilot Program;
- (4) Deleting appropriations for the Pilot Program and the establishment and hiring of the housing specialist;
- (5) Authorizing the Hawaii Housing Finance and Development Corporation to spend up to \$10,000,000 for fiscal year 2023-2024 from the Dwelling Unit Revolving Fund for the Pilot Program;
- (6) Changing the effective date to July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 677, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 677, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keith-Agaran, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Aiu, Evslin, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 143 on H.B. No. 676**

The purpose of this measure is to authorize the appropriate county land use decision-making authority to determine district boundary amendments involving land areas over fifteen acres but not over thirty acres, except for certain lands, without consideration by the Land Use Commission, if the county adopts an ordinance that meets certain requirements.

Your Committee on Conference has amended this measure by:

- (1) Specifying that an appropriate county land use decision-making authority may determine district boundary amendments as authorized by law;
- (2) Increasing the maximum acreage of certain lands for which a county land use decision-making authority may determine district boundary amendments from thirty acres to one hundred acres;
- (3) Authorizing an appropriate county land use decision-making authority to determine district boundary amendments wholly contained within a county-owned land area that is not greater than one hundred acres without approval by the Land Use Commission, under certain circumstances;
- (4) Requiring each county land-use decision making authority whose county has adopted a pertinent ordinance to submit a report on the effects of this measure to the Legislature prior to the convening of the Regular Session of 2028;
- (5) Changing the effective date to July 1, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 676, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 676, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, McKelvey, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, 1 (McKelvey). Excused, none.

Representatives Hashimoto, Ichiyama, Tarnas, Yamashita, Aiu, Evslin, and Matsumoto.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

**Conf. Com. Rep. 144 on H.B. No. 1397**

The purpose of this measure is to provide supportive housing to certain vulnerable populations impacted by the State's ongoing homelessness crisis and housing shortage.

More specifically, the measure:

- (1) Establishes within the Statewide Office on Homelessness and Housing Solutions a supportive housing pilot program to provide and maintain affordable, permanent housing and services for individuals and families having special needs;
- (2) Requires the Hawaii Housing Finance and Development Corporation to assist in the development of rental housing that is targeted to special needs individuals or families who require supportive services and have household incomes at or below thirty percent of the area median income;
- (3) Requires the Hawaii Public Housing Authority to implement project-based rent supplement payments to assist project owners in maintaining rents at levels affordable to eligible households having incomes at or below thirty per cent of the area median income;
- (4) Requires the Statewide Office on Homelessness and Housing Solutions to administer payments for supportive services that assist residents participating in the pilot program and to develop an information system for the standardized collection of program data;
- (5) Requires interim and final reports to the Legislature; and
- (6) Appropriates funds to the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, and Statewide Office on Homelessness and Housing Solutions for implementation of the pilot program.

Your Committee on Conference finds that a supportive housing pilot program will help the State determine the impacts of supportive housing for vulnerable populations and provide urgently needed housing during the State's ongoing homelessness crisis and housing shortage.

Your Committee on Conference also finds that the measure's granting to certain state agencies exemptions from Chapters 103D and 103F, Hawaii Revised Statutes (HRS), in selecting qualified nonprofit organizations having expertise in delivering specific services with a public purpose to administer components of the pilot program, is advantageous to the State and ensures an expeditious use of state funds to mitigate this critical problem.

Your Committee on Conference has amended the measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, HRS;
- (2) Authorizing, rather than requiring, the Hawaii Housing Finance and Development Corporation to assist in the development of rental housing, and deleting language that would have authorized the Corporation to establish rules and qualification criteria for the award of supportive housing projects without regard to the requirements of Chapter 91, HRS;
- (3) Authorizing, rather than requiring, the Hawaii Public Housing Authority to implement project-based rent supplement payments and clarifying that the payments are to assist owners of supportive housing projects;
- (4) Specifying that the first supportive housing project to be developed under the pilot program shall be located in a county having a population of more than five hundred thousand;
- (5) Deleting language that would have deposited general fund moneys into the rental housing revolving fund and appropriated moneys out of the rental housing revolving fund for expenditure by the Hawaii Housing Finance and Development Corporation;
- (6) Replacing the measure's previously unspecified appropriation amounts with specific appropriation amounts, and deleting certain nonlapsing provisions from the appropriation sections;
- (7) Changing the effective date from July 1, 2050, to July 1, 2023;
- (8) Specifying that the pilot program shall be repealed on June 30, 2025; and
- (9) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1397, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1397, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Moriwaki, and Wakai.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Belatti, Aiu, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 145 on H.B. No. 600**

The purpose of this measure is to:

- (1) Establish the Safe Routes to School Advisory Committee (Committee);
- (2) Require the Committee to develop a Safe Routes to School Plan;

- (3) Amend the responsibilities of the Safe Routes to School Program;
- (4) Deposit an unspecified amount of monies into the Safe Routes to School Special Fund; and
- (5) Appropriate an unspecified amount of monies out of the Safe Routes to School Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Further clarifying the duties of the Committee, including specifying that the Committee need only review project proposals and select priority projects within one mile of any school or place of learning;
- (2) Further clarifying the responsibilities of the Safe Routes to School Program;
- (3) Inserting an appropriation amount of \$10,000,000 out of the State Highway Fund to be deposited into the Safe Routes to School Special Fund;
- (4) Inserting an appropriation amount of \$10,000,000 to be appropriated out of the Safe Routes to School Special Fund;
- (5) Changing the effective date to July 1, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 600, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 600, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keith-Agaran, and Keohokalole.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Woodson, Kila, Evslin, Ganaden, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ganaden).

**Conf. Com. Rep. 146 on H.B. No. 964**

The purpose of this measure is to:

- (1) Establish a fee, to be assessed by the Lieutenant Governor, for the issuance of apostilles or non-apostille certifications;
- (2) Establish the Apostilles and Certifications Special Fund; and
- (3) Appropriate monies from the general fund into the Apostilles and Certifications Special Fund and authorize an appropriation out of the Apostilles and Certifications Special Fund for operational expenses.

Your Committee on Conference has amended this measure by:

- (1) Inserting a general fund appropriation of \$10,000 to the Apostilles and Certifications Special Fund for fiscal year 2023-2024;
- (2) Removing the appropriation for an unspecified amount out of the Apostilles and Certifications Special Fund;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (4) Changing the effective date to January 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 964, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 964, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Garrett, Martinez, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 147 on H.B. No. 579**

The purpose of this measure is to require the Department of the Attorney General to:

- (1) Establish a statewide Human Trafficking Prevention Program; and
- (2) Report to the Legislature on the State's efforts to address human trafficking and the commercial sexual exploitation of children.

Your Committee on Conference has amended this measure by:

- (1) Requiring the statewide strategies developed by the Department of the Attorney General to address offender accountability for child enticement, human trafficking, and commercial sexual exploitation;
- (2) Deleting the requirement that the statewide strategies address pimping;
- (3) Amending the types of data specific to the commercial exploitation of children that the Department of the Attorney General must analyze and report to the Legislature;
- (4) Amending its preamble;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 579, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 579, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads, and Kidani.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Tarnas, Kitagawa, Amato, Ichiyama, and Garcia.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 148 on H.B. No. 554**

The purpose of this measure is to:

- (1) Require that the University of Hawaii ensure that any individual who participates in implementing the University's disciplinary process has training or experience in handling sexual misconduct complaints and the University's disciplinary process;
- (2) Require that the University of Hawaii provide mandatory annual trauma-informed, gender-inclusive, LGBTQ+-inclusive sexual misconduct primary prevention and awareness programming for students and employees of the University;
- (3) Prohibit the University from taking certain disciplinary action against individuals reporting sexual misconduct unless certain exceptions apply; and
- (4) Establish positions and appropriate funds.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for fiscal year 2023-2024 and fiscal year 2024-2025 for the four full-time equivalent positions;
- (2) Clarifying that the positions being established are administrative, professional, and technical positions;
- (3) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (4) Changing the effective date to upon approval, with the appropriation to take effect on July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 554, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 554, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, San Buenaventura, Fukunaga, and Fevella.

Managers on the part of the Senate.

Representatives Perruso, Tarnas, Kobayashi, Kapela, La Chica, and Souza.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 149 on H.B. No. 353**

The purpose of this measure is to appropriate funds for the expansion of the Certified Nurse Aide to Practical Nurse Bridge Program at the University of Hawaii Maui College, including funding for instructional costs and student aid.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriation amounts for instructional costs for, and student aid to participants in, the Certified Nurse Aide to Practical Nurse Bridge Program at the University of Hawaii Maui College;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 353, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 353, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Aquino, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Aquino).

Representatives Perruso, Poepoe, La Chica, Martinez, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Martinez).

**Conf. Com. Rep. 150 on S.B. No. 1022**

The purpose of this measure is to:

- (1) Amend the composition and qualifications of the Early Learning Board;
- (2) Establish general qualifications for the members of the Early Learning Board appointed by the Governor; and
- (3) Require the Early Learning Board to establish an Early Learning Stakeholder Advisory Council.

Your Committee on Conference finds that the Early Learning Board is comprised of industry experts and professionals that advise the State on early childhood education matters, including programs, inter-agency collaboration, and direction of policy. Representatives of the Early Learning Board reflect a diversity of professions, experiences, and leadership skills from across the education, human services, and early childhood care sectors. This measure continues to address the dire need for early childhood education while also ensuring effective leadership on education policy.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the minimum and ideal qualifications of nominees for the Early Learning Board;
- (2) Deleting language that would have added a member who is a representative of Hawaiian medium early learning providers and a member who is a pediatrician with a child development focus;
- (3) Adding three members from the City and County of Honolulu, rather than one member;
- (4) Deleting language that would have created an Early Learning Stakeholder Advisory Council;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1022, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1022, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Kitagawa, Marten, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 151 on S.B. No. 588**

The purpose of this measure is to:

- (1) Require the Department of Transportation, in conjunction with counties having a population greater than 500,000, to develop and implement a pilot program until December 31, 2025, that uses noise detection traffic cameras to address excessive traffic noise in urban areas in each participating county;
- (2) Require the Department of Transportation to submit a report to the Legislature; and
- (3) Appropriate funds.

Your Committee on Conference finds that the rapid proliferation of noise pollution, especially in urban areas, can be detrimental to the overall health of Hawaii's people. As a prevalent issue in many neighborhoods, noise pollution can attribute to short- and long-term health impacts. This measure establishes a noise detection traffic camera pilot program to assist in reducing noise pollution across the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$2,500,000 for FY 2023-2024 and FY 2024-2025 from the State Highway Fund for the implementation of the noise detection camera pilot program; and
- (2) Inserting an effective date of July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 588, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 588, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Kim, and Moriwaki.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Chun, Aiu, and Matsumoto.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Aiu).

**Conf. Com. Rep. 152 on S.B. No. 814**

The purpose of this measure is to:

- (1) Require the Office of Enterprise Technology Services, in consultation with the Office of Language Access and a working group comprising stakeholders, to develop and publish, and periodically review and update, electronic information technology multilingual accessibility standards to be implemented by all state entities; and
- (2) Appropriate funds for an unspecified number of positions.

Your Committee on Conference finds that developing statewide electronic information technology accessibility standards to assist persons having limited English proficiency will help residents navigate government programs and improve residents' engagement with public services. This measure establishes electronic information technology and multilingual accessibility standards, provides a critical link to communication, and makes government services accessible for all individuals regardless of their language proficiency.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$100,000 for fiscal year 2023-2024 for one full-time equivalent (1.00 FTE) position;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 814, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 814, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Aquino, and Fevella.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Garrett, Martinez, and Alcos.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 153 on S.B. No. 855**

The purpose of this measure is to:

- (1) Authorize a condominium association to provide a summary of the required information in its budget;
- (2) Authorize a condominium association's reserve study to forecast a loan or special assessment to fund life safety equipment or installations for any building located in a county with a population greater than five hundred thousand;
- (3) Authorize a condominium association to use a third party to conduct a reserves study on behalf of the condominium; and
- (4) Clarify the information to be included in the description of how the estimated replacement reserves assessments are computed.

Your Committee on Conference finds that certain condominiums are required to make fire safety upgrades. These upgrades can cost a condominium association millions of dollars, resulting in the condominium association drastically increasing its maintenance fees.

This measure requires a condominium association to update its annual operating budget and reserve study to ensure that it provides complete and accurate information on required expenditures to allow association members to plan accordingly.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 855, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 855, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, and Awa.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Nakashima, Kitagawa, Hussey-Burdick, Tam, and Pierick.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, 1 (Tam).

**Conf. Com. Rep. 154 on S.B. No. 1518**

The purpose of this measure is to:

- (1) Provide procurement exemptions for the Department of Education for certain goods, services, and construction;
- (2) Require the Department of Education to transition to the electronic procurement system maintained by the State Procurement Office no later than June 30, 2025; and
- (3) Sunset on July 30, 2025.

Your Committee on Conference finds that the Department of Education procures numerous goods, services, and construction to maintain effective daily operations. However, the Department of Education is mandated to adhere to the Hawaii Public Procurement Code for its purchases triggered by certain threshold amounts. Additionally, the Department of Education is also mandated to utilize the electronic procurement system, creating further delays and limitations to school administrators who urgently need to address campus-specific issues. This measure exempts the Department of Education from certain procurement requirements to allow for the timely purchasing and streamlined operations of the Department of Education.

Your Committee on Conference has amended this measure by:

- (1) Inserting language from the S.D. 2 version of this measure that authorizes the Department of Education to procure goods and services and construction below certain dollar amounts without using an electronic procurement system under certain conditions;
- (2) Deleting language that would have limited the exemption from the requirement to use an electronic procurement system for the procurement of certain goods and services and construction in a county having a population of less than five hundred thousand;
- (3) Clarifying that contracts for Department of Education educational materials shall be exempt from the Hawaii Procurement Code;
- (4) Inserting a sunset date of June 30, 2026;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1518, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1518, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Keith-Agaran, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Matayoshi, Kitagawa, La Chica, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 155 on H.B. No. 1382**

The purpose of this measure is to:

- (1) Allow for the donation of wild game meat, under certain circumstances; and
- (2) Establish a Meat Processing Task Force to develop and implement a plan to expand the meat processing capacity in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000 for fiscal year 2023-2024 for the Meat Processing Task Force to develop and implement a master plan to expand the meat processing capacity in the State;
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1382, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1382, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Kitagawa, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 156 on H.B. No. 1359**

The purpose of this measure is to amend the existing regulatory framework for hemp production in the State by:

- (1) Repealing redundant regulations;
- (2) Amending the hemp law in a manner that recognizes the unique constraints of Hawaii farmers, while protecting human health;
- (3) Allowing licensed hemp producers to sell hemp biomass;
- (4) Requiring transparency in labeling of hemp products to identify the percentage of Hawaii-grown hemp or hemp from outside the State in all hemp products;
- (5) Requiring and appropriating funds for the Department of Health to hire or consult a toxicologist or consultant familiar with hemp industry standards for the purpose of setting defined action limits or exposure levels for different types of hemp products;
- (6) Requiring the Department of Agriculture and Department of Health to jointly convene a Hawaii Hemp Task Force to gather data and information to understand industry needs and inform strategies and actions that support agriculture and a robust hemp industry in the State;
- (7) Requiring and appropriating funds for the Department of Agriculture to hire a third-party consultant to identify the infrastructure needs of Hawaii hemp farmers and the hemp industry on each island; and
- (8) Extending the State's hemp processor law through July 1, 2027.

Your Committee on Conference has amended this measure by:

- (1) Prohibiting hemp from being grown within three hundred feet, rather than five hundred feet, of pre-existing real property comprising a playground, childcare facility, or school, except for an individual or entity licensed to grow hemp in those areas under the state industrial hemp pilot program before August 27, 2020;
- (2) Prohibiting hemp from being grown within one hundred feet, rather than five hundred feet, of any pre-existing house, dwelling unit, residential apartment, or other residential structure that is not owned or controlled by the license holder, except for an individual or entity licensed to grow hemp in those areas under the state industrial hemp pilot program before August 27, 2020;
- (3) Amending the types of documentation that a person who applies to operate as a hemp processor must provide;
- (4) Further clarifying the labeling requirements to identify the percentage of Hawaii-grown hemp or hemp from outside the State in all hemp products;
- (5) Requiring the Hawaii Hemp Task Force to work with the Narcotics Enforcement Division of the Department of Public Safety or Department of Law Enforcement, as applicable, to streamline and harmonize definitions and regulations relating to hemp;
- (6) Inserting an appropriation amount of \$50,000 each for the hiring of the toxicologist or consultant to set defined action limits or exposure levels for different types of hemp products and for the hiring of the third-party consultant to identify the infrastructure needs of Hawaii hemp farmers and the hemp industry on each island;
- (7) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (8) Changing the effective date to July 1, 2023; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1359, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1359, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, Aquino, and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Gates, Belatti, Nakashima, Morikawa, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Belatti).

**Conf. Com. Rep. 157 on H.B. No. 1082**

The purpose of this measure is to:

- (1) Authorize the Department of Health to allow written certifications for a qualifying patient with a chronic condition to be valid for three years;
- (2) Remove the requirement that a certifying physician or advanced practice registered nurse have a bona fide physician-patient or advanced practice registered nurse-patient relationship with a qualifying patient;
- (3) Define “waiting room” within a medical cannabis retail dispensing location and specifying who may have access to the waiting room;
- (4) Clarify the types of manufactured cannabis products that may be manufactured and distributed by medical cannabis dispensaries;
- (5) Clarify the Department of Health’s rulemaking authority;
- (6) Authorize selling dispensaries to transport more than eight hundred ounces of cannabis or manufactured cannabis products to a purchasing dispensary with prior approval from the Department of Health;
- (7) Clarify that each day a violation of the medical cannabis dispensary program law occurs constitutes a separate violation;
- (8) Require medical cannabis dispensaries, in conjunction with certifying physicians and advanced practice registered nurses, to conduct the continuing education and training program for medical cannabis dispensaries, rather than the Department of Health; and
- (9) Establish the Medical and Adult Use Cannabis Working Group.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have removed the existing statutory requirement for bona fide physician-patient or advanced practice registered nurse-patient relationships;
- (2) Amending the medical cannabis dispensary program licensing fee structure;
- (3) Adding or clarifying requirements for the dispensary program related to signage, packaging, and supervision of certain personnel while onsite at retail dispensing locations or medical cannabis production centers;
- (4) Requiring the Department of Health to work in conjunction with medical cannabis dispensaries and certifying physicians and advanced practice registered nurses to conduct the continuing education and training program;
- (5) Deleting the Medical and Adult Use Cannabis Working Group;
- (6) Inserting a savings clause;
- (7) Changing the effective date to July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1082, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1082, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, Rhoads, Lee, and Shimabukuro.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Kitagawa, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 158 on H.B. No. 388**

The purpose of this measure is to:

- (1) Adopt the National Instructional Materials Accessibility Standard; and
- (2) Require the Department of Education to follow certain procedures to ensure that eligible students obtain instructional materials in an appropriate and accessible format.

Your Committee on Conference has amended this measure by:

- (1) Requiring an individualized education program for an eligible student to specify the supplementary aids and services the program reasonably anticipates the student will need to receive for the duration of the program for reasonable access to classroom materials and media that were not previously identified by the program;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 388, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 388, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Lee, and Kanuha.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Morikawa, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 4; Ayes with Reservations (Garcia). Noes, none. Excused, none.

#### **Conf. Com. Rep. 159 on S.B. No. 1076**

The purpose of this measure is to:

- (1) Require the Office of Elections to prepare a digital voter information guide, post the guide on its website in compliance with certain accessibility standards, and mail each ballot with a notice that states a voter information guide may be found on its website;
- (2) Require the Attorney General and county corporation counsels to draft explanations of proposed constitutional or charter amendment ballot questions and translate them into certain languages for purposes of the digital voter information guide; and
- (3) Appropriate funds.

Your Committee on Conference finds that some states provide valuable information to registered voters such as candidate information or background information on constitutional amendments or ballot measures. This measure will provide for a digital voter information guide to registered voters of the State with similar information, which will create a more informed voting public and increase voter participation in elections.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$171,248 for fiscal year 2023-2024; and
- (3) Making the effective date July 1, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1076, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1076, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Lee, and Gabbard.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

#### **Conf. Com. Rep. 160 on S.B. No. 726**

The purpose of this measure is to:

- (1) Repeal the administrative assistant position within the Department of Human Resources Development; and
- (2) Reassign the responsibilities for the administrative assistant to the Director of Human Resources Development.

Your Committee on Conference finds that although an Administrative Assistant position within the Department of Human Resources Development (DHRD) was statutorily created through Act 57, Session Laws of Hawaii 2019, this position is currently

unbudgeted and unauthorized. Your Committee on Conference further finds that the Administrative Assistant VI position within DHRD was authorized through Act 248, Session Laws of Hawaii 2022, which has since been established and filled as of November 1, 2022. This measure would repeal the administrative assistant position referenced in section 26-5(f), Hawaii Revised Statutes, and reassign those critical responsibilities to the Director of Human Resources Development.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 726, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 726, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kidani, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 161 on S.B. No. 1163**

The purpose of this measure is to appropriate funds for civilian auxiliary aviation operations of the type performed by the Civil Air Patrol.

Your Committee on Conference finds that Civil Air Patrol personnel regularly serve in the Hawaii Emergency Management Agency Emergency Operations Center during emergency and disaster incident responses, and they assist in the field by spreading warnings in remote areas before an incident, providing pre-assessment aerial reconnaissance, and assessing the damages and impacts afterward. Your Committee on Conference believes that the Civil Air Patrol is critical to state emergency management. This measure ensures that critical auxiliary aviation services continue to be available to the State in the event of a disaster or emergency.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$150,000 for FY 2023-2024 for civilian auxiliary aviation services;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1163, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1163, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keith-Agaran, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Hashem, Chun, Ichiyama, and Souza.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 162 on S.B. No. 1527**

The purpose of this measure is to:

- (1) Change the governmental entity responsible for the administration of the Address Confidentiality Program from the Office of the Lieutenant Governor to the Department of Law Enforcement;
- (2) Authorize the Department of Law Enforcement to contract the services of a third party for the mail forwarding and acceptance of service of legal process aspects of the Address Confidentiality Program; and
- (3) Appropriate funds for the Address Confidentiality Program.

Your Committee on Conference finds that the Address Confidentiality Program is currently housed within the Office of the Lieutenant Governor; however, the open nature of the Office of the Lieutenant Governor and the State Capitol creates safety concerns. This measure will improve the security, safety, and relief for survivors of domestic abuse, sexual offenses, and stalking.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;

- (2) Inserting an appropriation amount of \$170,000 for FY 2023-2024 and FY 2024-2025 for two full-time equivalent (2.0 FTE) positions, operating costs, and equipment to support the Address Confidentiality Program pursuant to chapter 801G, Hawaii Revised Statutes;
- (3) Inserting an effective date of January 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1527, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1527, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, San Buenaventura, Inouye, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Ichiyama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 163 on S.B. No. 821**

The purpose of this measure is to establish an Illegal Fireworks Task Force to plan, coordinate, and engage in law enforcement operations to interdict illegal fireworks; develop a comprehensive strategic plan to stop the importation of illegal fireworks and explosives into the State; promote compliance with the state fireworks control laws; and ensure the safety and security of the airports, harbors, and other facilities and institutions in the State against the discharge of illegal fireworks and explosives.

Your Committee on Conference finds that the Fireworks Control Law and its associated penalties have proven to be an inadequate deterrent for the illegal use of fireworks in the State, with the use of illegal fireworks in the State increasing in recent years and fireworks going off in certain neighborhoods for months at a time. This measure will reduce the usage of illegal fireworks in the State and address the inadequacies of the Fireworks Control Law.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$1,250,000 for FY 2023-2024 for the Illegal Fireworks Task Force;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 821, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 821, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### **Conf. Com. Rep. 164 on S.B. No. 941**

The purpose of this measure is to:

- (1) Authorize the School Facilities Authority to partner with public and private agencies to develop housing, including workforce housing, for teachers, educators, and staff and develop classrooms;
- (2) Authorize the School Facilities Authority to transfer appropriated funds to partner state agencies for the development of housing and classrooms;
- (3) Appropriate funds to the School Facilities Authority for the construction of housing and classrooms; and
- (4) Specify Nanakuli High School, Waipahu High School, and Mililani High School as initial locations for the construction with location and tenant requirements.

Your Committee on Conference finds that Hawaii continues to suffer from a chronic shortage of licensed teachers. Providing financial incentives and affordable options for teacher housing are key strategies for teacher recruitment and retention. This measure aims to address the ongoing teacher shortage by constructing workforce housing for teachers, educators, and staff at certain Department of Education schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting language authorizing the School Facilities Authority to:
  - (A) Subdivide real, personal, or mixed property;
  - (B) Partner with public and private development agencies to develop housing on or off campus;
  - (C) Request any state or county agency to render services to the Authority; and
  - (D) Transfer property to another public agency or contract to manage the leasing and property management of housing projects;
- (2) Deleting language that would have appropriated general revenues of the State of Hawaii into the School Facilities Special Fund;
- (3) Specifying that the general fund appropriation for the School Facilities Authority for fiscal year 2023-2024 for teacher housing in H.B. No. 300, H.D. 1, S.D. 1, C.D. 1 (2023), shall be deposited into the School Facilities Special Fund;
- (4) Inserting an appropriation amount of \$170,000,000 out of the School Facilities Special Fund for:
  - (A) The construction of housing prioritized for teachers, educators, and staff; and
  - (B) Other related expenses as deemed appropriate;
- (5) Deleting language that would have allocated the appropriation out of the School Facilities Special Fund for housing and classrooms at certain sites;
- (6) Authorizing the School Facilities Authority to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, with respect to leasing housing developed by the School Facilities Authority;
- (7) Inserting an effective date of July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 941, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 941, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Wakai, and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Hashimoto, Woodson, Kitagawa, Aiu, Marten, and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

**Conf. Com. Rep. 165 on S.B. No. 1327**

The purpose of this measure is to authorize the Public Utilities Commission to use electronic filing processes, including electronic service of documents, under the statutory chapters regulating public utilities, motor carriers, and water carriers.

Your Committee on Conference finds that under existing law, public utilities, motor carriers, and water carriers must file or serve hard copies of documents with the Public Utilities Commission (PUC). These filings can often exceed ten thousand pages and fill ten to fifteen boxes. During the coronavirus disease 2019 pandemic, electronic filings to the PUC were temporarily allowed, dramatically streamlining the filing process. This measure makes those operational improvements permanent, thus enhancing the regulatory process for the PUC and its staff, as well as stakeholders, regulated utilities, and the public.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1327, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1327, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Richards, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Onishi, Kitagawa, Hussey-Burdick, Sayama, and Pierick.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 166 on S.B. No. 1586**

The purpose of this measure is to appropriate funds for the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources to establish full-time equivalent (FTE) positions.

Your Committee on Conference finds that Hawaii's agricultural ranchers and growers rely on the research, outreach, and education of the University of Hawaii College of Tropical Agriculture and Human Resources' Cooperative Extension. To serve the many and evolving needs of the State's local producers, the Extension requires additional staff. This measure expands the capacity of the Extension to address entomological, livestock, and farm and consumer food safety needs across the islands.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the funds shall be appropriated out of the University of Hawaii Tuition and Fees Special Fund;
- (2) Inserting an appropriation amount of \$500,000 for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for five administrative, professional, and technical full-time equivalent (5.0 APT FTE) positions;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1586, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1586, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Gabbard, Kanuha, Fukunaga, and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Perruso, Kobayashi, Kapela, La Chica, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 167 on S.B. No. 1024**

The purpose of this measure is to:

- (1) Establish long-term goals for zero-emissions transportation in Hawaii to reduce and eliminate transportation emissions;
- (2) Establish the Clean Ground Transportation Working Group and the Interisland Clean Transportation Working Group; and
- (3) Require reports to the Hawaii Climate Change Mitigation and Adaptation Commission and the Legislature.

Your Committee on Conference finds that transportation accounts for the majority of the State's greenhouse gas emissions. As the growing popularity of zero emissions vehicles gains traction, identifying and planning for transportation infrastructure utilizing electricity or zero emissions may provide increased support for the State's population. This measure brings expert stakeholders together and allows each department to adopt rules to achieve zero emissions transportation, and positions the State to be a leader in innovative zero emissions transportation infrastructure and technology.

Your Committee on Conference has amended this measure by:

- (1) Establishing a new section, rather than amending existing statutory language, that creates zero emissions transportation goals that include a reduction of greenhouse gas emissions and achievement of zero emissions across all transportation modes in the State, including ground transportation and sea and air interisland transportation;
- (2) Placing certain requirements of the Department of Transportation, Office of Planning and Sustainable Development, and Hawaii State Energy Office in the Hawaii Revised Statutes, rather than session law;
- (3) Clarifying that the Clean Ground Transportation Working Group shall also include the Zero Emissions Clean Economy Target in the Working Group's scope;
- (4) Requiring the Clean Ground Transportation Working Group to submit annual interim reports to the Climate Change Mitigation and Adaptation Commission from 2024 to 2034, rather than from 2024 to 2026;
- (5) Requiring the Clean Ground Transportation Working Group to submit a final report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2035;
- (6) Dissolving the Clean Ground Transportation Working Group on January 1, 2035;
- (7) Requiring the Interisland Clean Transportation Working Group to identify not less than fifteen possible transportation hubs throughout the State with at least two in each county to support innovative point-to-point or island-to-island transportation options;
- (8) Clarifying that the Interisland Clean Transportation Working Group shall also include the Zero Emissions Clean Economy Target in the Working Group's scope;
- (9) Requiring the Interisland Clean Transportation Working Group to submit annual interim reports to the Climate Change Mitigation and Adaptation Commission from 2024 to 2034, rather than from 2024 to 2026;
- (10) Requiring the Interisland Clean Transportation Working Group to submit a final report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2035;
- (11) Dissolving the Interisland Clean Transportation Working Group on January 1, 2035;

- (12) Inserting an effective date of July 1, 2023; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1024, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1024, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Gabbard, and Inouye.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Lowen, Kila, and Matsumoto.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 168 on S.B. No. 945**

The purpose of this measure is to:

- (1) Beginning January 1, 2024, establish a program for the licensure, regulation, and oversight of special purpose digital currency companies;
- (2) Extend operations of companies in the digital currency innovation lab under certain circumstances; and
- (3) Appropriate funds from the Compliance Resolution Fund for three full-time equivalent (3.0 FTE) permanent examiners.

Your Committee on Conference finds that digital currency is an asset that is primarily managed or stored electronically. Although digital currency has grown in popularity and acceptance worldwide, there is little regulation of the digital currency industry in the United States. The Division of Financial Institutions of the Department of Commerce and Consumer Affairs and the Hawaii Technology Development Corporation confirmed that a new regulatory framework for digital currency transactions is appropriate. This measure establishes a program for the licensure, regulation, and oversight of digital currency companies.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 for three full-time equivalent (3.0 FTE) permanent examiners;
- (2) Inserting an effective date of July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 945, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 945, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Wakai, and Fevella.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Sayama, Kitagawa, Chun, Hussey-Burdick, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 2 (Hussey-Burdick, Pierick).

**Conf. Com. Rep. 169 on S.B. No. 531**

The purpose of this measure is to authorize the School Facilities Authority Board to appoint an Executive Director of the School Facilities Authority.

Your Committee on Conference finds that the School Facilities Authority is tasked with a mission to develop, plan, and construct all public schools in the State. Presently, other administratively attached agencies of the Department of Education, such as the Executive Office on Early Learning, State Public Charter School System, and State Library System, require their respective boards to appoint their Executive Director. However, the School Facilities Authority Executive Director is appointed by the Governor with the advice and consent of the Senate. This measure promotes uniformity and consistency among the administratively attached agencies of the Department of Education.

Your Committee on Conference has amended this measure by:

- (1) Inserting the language that requires the School Facilities Authority Board to appoint an Executive Director of the School Facilities Authority into section 302A-1704, Hawaii Revised Statutes, rather than section 302A-1702, Hawaii Revised Statutes;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 531, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 531, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha, and Fevella.  
Managers on the part of the Senate.  
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Kitagawa, La Chica, Marten, and Garcia.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 170 on S.B. No. 599**

The purpose of this measure is to:

- (1) Allow certain physician assistants to sign orders for respiratory therapy and plans of care; and
- (2) Expand the class of health care providers under whom respiratory therapists may practice respiratory care to include physician assistants and advanced practice registered nurses.

Your Committee on Conference finds that patient access to high quality health care depends upon health care providers' scopes of practice reflecting the full extent of providers' training and capabilities. Although physician assistants and advanced practice registered nurses possess the necessary skills and training to issue orders for respiratory therapy and oversee the provision of respiratory care by respiratory therapists, and are allowed to do so under federal regulations, existing state law prohibits them from prescribing, ordering, or directing respiratory care services. This measure aligns state law with federal standards to provide greater access to respiratory health care services for the State's residents.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 599, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 599, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Nakashima, Takenouchi, and Pierick.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Nakashima).

**Conf. Com. Rep. 171 on S.B. No. 729**

The purpose of this measure is to:

- (1) Require the Auditor to conduct a sunrise analysis on the proposed regulatory controls for members of condominium association boards of directors (board members); and
- (2) Require the Real Estate Commission to develop a curriculum to be made available to board members.

Your Committee on Conference finds that existing law imposes a level of care and loyalty on board members to their associations to the level and extent required of an officer or director of a corporation. However, board members are volunteers who often do not have the proper training or education regarding their authority and duties. This measure takes important steps to ensuring that board members understand their authorities and duties to improve as leaders of their condominium associations.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Auditor to conduct a sunrise analysis on the proposed regulatory controls for board members;
- (2) Clarifying that the Real Estate Commission shall develop a curriculum for leadership training for condominium boards of directors, including pertinent provisions of chapter 514B, Hawaii Revised Statutes; association governing documents; and the fiduciary duties of board members;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 729, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 729, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, and McKelvey.  
Managers on the part of the Senate.

**Conf. Com. Rep. 172 on S.B. No. 295**

The purpose of this measure is to:

- (1) Establish within the Office of Wellness and Resilience the Malama Ohana Working Group to seek, design, and recommend transformative changes to the State's existing child welfare system;
- (2) Allow the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Malama Ohana Working Group;
- (3) Require the Malama Ohana Working Group to report to the Legislature before the Regular Session of 2025; and
- (4) Appropriate funds for the Malama Ohana Working Group.

Your Committee on Conference finds that the problems faced by children and families in the State's child welfare system are extremely complex and cannot be resolved by the Department of Human Services alone. To address and resolve these diverse and multi-faceted problems, it is essential that the State work with the community and various stakeholders to determine solutions. This measure establishes a working group comprised of community members and stakeholders to develop recommendations to establish a child welfare system that is trauma-informed and responsive to the needs of children and families in the system and community.

Your Committee on Conference has amended this measure by:

- (1) Amending the composition, membership, and co-chairs of the Malama Ohana Working Group;
- (2) Removing language that would have appropriated funds for the Malama Ohana Working Group;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 295, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 295, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, and Shimabukuro.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 173 on S.B. No. 1592**

The purpose of this measure is to appropriate funds for the establishment of additional program specialist positions within the Executive Office on Aging for the State's Senior Medicare Patrol Program.

Your Committee on Conference finds that the State's Senior Medicare Patrol Program, established in 1997, educates, assists, and protects Hawaii's most vulnerable population by providing one-on-one counseling, conducting community outreach, and working with other service providers to build a "help net" to assist kupuna statewide. While originally established to protect kupuna from Medicare fraud, the scope of the program's services has expanded to assist kupuna triage other health-related and non-health related fraud cases. Your Committee on Conference further finds that despite the significant expansion of its services and increase in the reported number of fraudulent activities targeting the State's kupuna, the program continues to operate with just two full-time staff positions, relying on volunteers to provide the needed services. This measure will allow the program to retain additional staff to effectively meet the rising demand for its services for the State's kupuna.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Appropriating \$186,288 for fiscal year 2023-2024 and \$192,408 for fiscal year 2024-2025 for the establishment of one full-time equivalent (1.0 FTE) Program Specialist III position, one full-time equivalent (1.0 FTE) Program Specialist IV position, and one full-time equivalent (1.0 FTE) Program Specialist V position within the Executive Office on Aging for the State's Senior Medicare Patrol Program;
- (3) Inserting an effective date of July 1, 2023; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1592, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1592, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Moriwaki, and Shimabukuro.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Kobayashi, Amato, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 174 on S.B. No. 67**

The purpose of this measure is to:

- (1) Prohibit commercial vendors from presetting commercial beach equipment on certain beaches under the jurisdiction of the Department of Land and Natural Resources, unless the customer is physically present;
- (2) Require commercial vendors to expeditiously remove commercial beach equipment after the customer has finished using it;
- (3) Allow the Department of Land and Natural Resources to grant exemptions through rules; and
- (4) Establish administrative fines for violations.

Your Committee on Conference finds that the presetting of commercial beach umbrellas, chairs, and other beach equipment on beaches has been a long-standing issue that has generated many complaints. While officers of the Division of Conservation and Resources Enforcement have issued many citations to offenders, courts have often dismissed them due to concessionaires stating that they were setting up equipment for customers with prior reservations. Therefore, this measure seeks to strike a balance between the public's ability to freely enjoy Hawaii's beaches and the visitor industry's desire to provide amenities to their guests.

Accordingly, your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 67, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 67, S.D. 1, H.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Inouye, Keohokalole, and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 175 on S.B. No. 1370**

The purpose of this measure is to:

- (1) Establish a standard license to solemnize marriages, valid for one year from the date of issuance;
- (2) Establish a short-term license to solemnize marriages, valid for sixty days from the date of issuance;
- (3) Establish a fee of \$100 per year for the issuance of a standard license;
- (4) Establish a fee of \$25 per sixty-day period for a short-term license; and
- (5) Specify in what amount and to which fund the collected license fees shall be deposited.

Your Committee on Conference finds that prior to Act 211, Session Laws of Hawaii 2021 (Act 211), only individuals with religious affiliations or judicial appointments could obtain a license to solemnize marriages. While Act 211 authorized the issuance of civil licenses to solemnize marriages, it also established a fee for civil licenses. In contrast, no fee was established to obtain a religious or judicial license. This measure addresses this difference in fees to ensure equity among all persons licensed to solemnize marriages in the State.

Your Committee on Conference has amended this measure by:

- (1) Amending section 1 to clarify the purpose of this measure;
- (2) Inserting an effective date of July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1370, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1370, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keohokalole, and Moriwaki.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Moriwaki).

Representatives Belatti, Takenouchi, Tam, and Garcia.

Managers on the part of the House.

Ayes, 2. Noes, 1 (Garcia). Excused, 1 (Tam).

**Conf. Com. Rep. 176 on S.B. No. 404**

The purpose of this measure is to:

- (1) Make various updates to the Hospital Sustainability Program, including:
  - (A) Amending the definition of “private hospital”;
  - (B) Clarifying the uses of the Hospital Sustainability Program Special Fund;
  - (C) Increasing various hospital sustainability fee caps;
  - (D) Requiring the Department of Human Services to consult and negotiate with the hospital trade association regarding fee participation and rates; and
  - (E) Clarifying when the hospital sustainability fee shall be discontinued and the method by which any remaining moneys in the Hospital Sustainability Program Special Fund shall be distributed;
- (2) Repeal the sunset dates of Act 217, Session Laws of Hawaii 2012, and Act 123, Session Laws of Hawaii 2014, to make the program permanent and permanently exempt the program from the central service and administrative expenses assessments; and
- (3) Appropriate funds out of the Hospital Sustainability Program Special Fund for the purposes of the Hospital Sustainability Program.

Your Committee on Conference finds that the Hospital Sustainability Program and Hospital Sustainability Program Special Fund, established in 2012, have played a major role in protecting hospital access for Medicaid beneficiaries by assessing hospital sustainability fees on the hospitals, using the fee revenues to obtain matching federal funds, and returning more moneys to the hospitals than were assessed in fees, which are then used to supplement the cost of providing services for Medicaid recipients. Your Committee on Conference further finds that the Hospital Sustainability Program is scheduled to be repealed on December 31, 2023, with funding provisions scheduled to be repealed on June 30, 2024. This measure will enhance and make the program permanent, thereby preserving and improving access to quality health care for Medicaid recipients in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$173,000,000 out of the Hospital Sustainability Program Special Fund for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for the Hospital Sustainability Program;
- (2) Making it effective upon approval; provided that the appropriation shall take effect on July 1, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 404, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 404, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators San Buenaventura, Inouye, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Belatti, Morikawa, Amato, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 177 on S.B. No. 1534**

The purpose of this measure is to:

- (1) Create a mileage-based road usage charge to replace state motor fuel taxes beginning on July 1, 2025, for electric vehicles;
- (2) Eliminate the \$50 annual state vehicle registration surcharge for electric vehicles;
- (3) Authorize electric vehicle owners to pay a registration surcharge or a per-mile road usage fee until June 30, 2028;
- (4) Require certificates of inspection to state the odometer reading of vehicles;
- (5) Require motor vehicle registration applications to specify whether the type of fuel for which the vehicle is adapted is battery electricity;

- (6) Require the Department of Transportation to plan for the deployment of a state mileage-based road user charge program by 2033 and submit a report to the Legislature; and
- (7) Appropriate funds.

Your Committee on Conference finds that state fuel tax revenues are declining, creating a smaller source of revenue for transportation infrastructure improvements and maintenance. However, the establishment of a state mileage-based road usage charge for certain fuel-efficient and zero emissions motor vehicles can be incorporated into existing motor vehicle safety inspections, creating a sustainable source of revenue to support roadway maintenance costs. This measure establishes a state mileage-based road usage charge to reduce overall vehicle miles traveled while incentivizing motor vehicles that are fuel-efficient and zero emissions.

Your Committee on Conference has amended this measure by:

- (1) Inserting a rate of 0.8 cents per mile traveled to be used in the calculation of the state mileage-based road usage charge;
- (2) Limiting the state mileage-based road usage charge to not more than \$50 per year;
- (3) Assessing the first registration renewal at \$50 for new motor vehicles that do not require a certificate of inspection;
- (4) Authorizing owners of electric vehicles to be offered a choice to pay a \$50 registration surcharge in lieu of the state mileage-based road usage charge until June 30, 2028;
- (5) Requiring the Department of Transportation to also include in the implementation plan recommendations for ensuring:
  - (A) Compatibility with the deployment of a mileage-based road usage charge by any county; and
  - (B) Broad implementation continues to account for and incentivize fuel-efficient vehicles;
- (6) Inserting an appropriation amount of \$1,300,000 for FY 2023-2024 from the State Highway Fund for the initial implementation of the state mileage-based road user charge;
- (7) Inserting an effective date of July 1, 2023;
- (8) Providing that sections 3, 4, and 5 shall not take effect until July 1, 2025; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1534, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1534, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, DeCoite, and Keohokalole.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 178 on S.B. No. 900**

The purpose of this measure is to:

- (1) Require the Executive Office on Aging to submit annual progress reports to the Legislature on the Hawaii State Health Insurance Assistance Program; and
- (2) Appropriate funds for the establishment of full-time equivalent Program Specialist positions within the Executive Office on Aging for the Hawaii State Health Insurance Assistance Program.

Your Committee on Conference finds that the Hawaii State Health Insurance Assistance Program helps individuals, especially kupuna, understand and access Medicare benefits. As the State's Medicare population continues to grow, so too does the need and demand for the program's services. This measure increases the capacity of the Hawaii State Health Insurance Program to ensure all individuals receive the support they need to access health insurance.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Appropriating \$186,288 for fiscal year 2023-2024 for the establishment of one full-time equivalent (1.0 FTE) Program Specialist III position, one full-time equivalent (1.0 FTE) Program Specialist IV position, and one full-time equivalent (1.0 FTE) Program Specialist V position within the Executive Office on Aging for the Hawaii State Health Insurance Assistance Program;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 900, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 900, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Takenouchi, Kobayashi, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 179 on S.B. No. 674**

The purpose of this measure is to:

- (1) Adopt the Interstate Medical Licensure Compact;
- (2) Allow the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Compact;
- (3) Allow the Department of Commerce and Consumer Affairs to conduct criminal history record checks on applicants for physician licensure under the Compact; and
- (4) Appropriate funds for the Hawaii Medical Board's implementation of the Compact.

Your Committee on Conference finds that the State faces a significant shortage in the number of health care professionals, especially in neighbor islands and rural areas. Your Committee on Conference further finds that the Interstate Medical Licensure Compact creates a comprehensive process that complements the existing licensing and regulatory authority of state medical boards and provides a streamlined process that allows physicians to become licensed in multiple states. This measure will increase access to health care for individuals in rural and medically underserved areas of the State and alleviate the State's health disparities by authorizing the Governor to enter into the Interstate Medical Licensure Compact on behalf of the State.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that is not in the model Compact language, which would have excluded from the immunity granted to the Interstate Commission's officers and employees, suit or liability for damage, loss, injury, or liability caused by negligence or gross negligence of such person;
- (2) Requiring, rather than allowing, the Department of Commerce and Consumer Affairs to adopt rules for the purpose of implementing and administering the Compact;
- (3) Deleting section 2 of the measure, which would have allowed the Department of Commerce and Consumer Affairs to conduct criminal history record checks on physician licensure applicants through the Interstate Medical Licensure Compact;
- (4) Deleting section 3 of the measure, which would have appropriated funds out of the Compliance Resolution Fund for the Hawaii Medical Board's implementation of the Interstate Medical Licensure Compact;
- (5) Making it effective upon its approval; provided that section 1 of the measure, which adds a new chapter to the Hawaii Revised Statutes governing the Interstate Medical Licensure Compact, shall take effect on January 1, 2025; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 674, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 674, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Keith-Agaran.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Sayama, Takenouchi, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 180 on S.B. No. 865**

The purpose of this measure is to establish and appropriate funds for the Ninety-Nine Year Leasehold Pilot Program to develop low-cost homes on state-owned and county-owned land in urban redevelopment sites to be sold in leasehold by the Hawaii Community Development Authority (HCDA) to qualified residents.

Your Committee on Conference finds that the State has a severe lack of affordable housing, resulting in residents leaving Hawaii in hopes of cheaper living conditions. Your Committee on Conference further finds that there are significant barriers to the development of affordable housing in Hawaii and that the State needs innovative solutions to address the housing crisis and keep families in Hawaii. This measure is intended to increase homeownership and the affordability of leasehold housing units by increasing the term of the lease of certain state lands for a term of ninety-nine years.

Your Committee on Conference has amended this measure by:

- (1) Making the Ninety-Nine Year Leasehold Pilot Program a Ninety-Nine Year Leasehold Program;
- (2) Deleting:
  - (A) The definitions for “commercial project”, “pilot program”, “public agency”, “public facilities”, “redevelopment project”, and “residential project”;
  - (B) Language that would have required HCDA to:
    - (i) Adopt certain administrative rules;
    - (ii) Consider certain general principles regarding actions on urban redevelopment sites;
    - (iii) Recoup expenses through the sales of the leasehold interest of homes within an urban redevelopment site and other revenue sources;
    - (iv) Establish a waitlist for eligible buyers; and
    - (v) Use the price at which the owner purchased the home as the cost basis to determine the buyback price; and
  - (C) Language that would have created a tax exemption for the sale of leasehold interest for homes within an urban redevelopment site;
- (3) Inserting:
  - (A) The requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes; and
  - (B) Language that:
    - (i) Requires that development be revenue-neutral to the greatest extent possible;
    - (ii) Requires urban redevelopment sites to maximize walkability; and
    - (iii) Allows HCDA to establish administrative rules that authorize the Executive Director to waive compliance with respect to the occupancy and residency requirements established in this measure;
- (4) Authorizing, rather than mandating, HCDA to require that at least fifty per cent of the residential condominium units be sold to an individual or household with an income of up to one hundred forty per cent of the area median income;
- (5) Amending:
  - (A) References to “home” or “homes” to “residential condominium unit” or “residential condominium units”; and
  - (B) A reference to “multipurpose project” to “mixed-use project”; and
  - (C) The definitions of “project” and “public transit station”;
- (6) Clarifying that HCDA:
  - (A) Has the right of first refusal to purchase residential condominium units for a certain period of time and for a buyback price to be determined by HCDA; and
  - (B) May lease all or any portion of the real or personal property constituting a commercial project without recourse to the Hawaii Public Procurement Code; and
- (7) Inserting the following appropriation amounts:
  - (A) \$1,500,000 for fiscal year 2023-2024 for HCDA to adopt rules, engage the community, and conduct site and predevelopment planning for the Ninety-Nine Year Leasehold Program; and
  - (B) \$190,000 for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for the establishment of two full-time equivalent (2.0 FTE) positions within HCDA;
- (8) Amending section 2 to reflect its amended purpose;
- (9) Inserting an effective date of July 1, 2023; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 865, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 865, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Inouye, McKelvey, Wakai, and Kanuha.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Hashimoto, Ichiyama, Aiu, Todd, and Matsumoto.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 181 on S.B. No. 1064**

The purpose of this measure is to establish the Dam and Appurtenance Improvement or Removal Grant Program to provide the owners of private dams and appurtenances with funds for plans, design, construction, and equipment to improve or remove deficient dams and appurtenances.

Your Committee on Conference finds that many privately owned dams and appurtenances — often constructed during the plantation era — have not been properly maintained and may be hazardous to public health and safety. Your Committee on Conference further finds that because the costs to improve or remove these deficient dams and appurtenances are often prohibitive, a grant program to provide funding for these costs could provide a viable solution for both owners and the public. Therefore, this measure establishes the Dam and Appurtenance Improvement or Removal Grant Program.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting the provision that would require grants awarded under the Dam and Appurtenance Improvement or Removal Grant Program to not exceed an unspecified amount;
- (3) Deleting the unspecified appropriation for fiscal year 2023-2024 and fiscal year 2024-2025 for the purposes of the Dam and Appurtenance Improvement or Removal Grant Program;
- (4) Inserting an appropriation in the amount of \$10,000,000 for fiscal year 2023-2024 as one-time seed funding for the Dam and Appurtenance Improvement or Removal Grant Program;
- (5) Inserting an appropriation in the amount of \$220,000 for fiscal year 2023-2024 and fiscal year 2024-2025 for operating expenses and the establishment of two full—time equivalent (2.0 FTE) permanent positions within the Department of Land and Natural Resources;
- (6) Inserting an effective date of July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1064, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1064, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran, and Elefante.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Lamosao, Chun, Morikawa, and Souza.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 182 on S.B. No. 813**

The purpose of this measure is to:

- (1) Beginning in 2026 and every three years thereafter, require the Judiciary to conduct a study on interpreter fees;
- (2) Require the Judiciary to increase the hourly fees, mileage reimbursement rate, and commuter-time compensation rate for court interpreters; and
- (3) Appropriate funds.

Your Committee on Conference finds that court interpreters are independent contractors of the Judiciary, who play an integral role in the administration of justice and provide critical language access in the State's courts. The compensation for court interpreters has remained unchanged for the most part since it was established in 2007. This measure will help determine whether to increase the fees and rates for court interpreters.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Removing language that would have required the Judiciary to increase the hourly fees, mileage reimbursement rate, and commuter-time compensation rate for court interpreters;
- (3) Inserting an appropriation amount of \$20,000 for fiscal year 2023-2024 to fund the study for annual adjustments of fees for court interpreters;
- (4) Amending section 2 to reflect its amended purpose;

- (5) Making it effective on July 1, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 813, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 813, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, and Awa.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Ganaden, and Souza.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, 1 (Ganaden).

**Conf. Com. Rep. 183 on S.B. No. 898**

The purpose of this measure is to:

- (1) Establish the State Rent Supplement Program for Kupuna, which temporarily expands the State Rent Supplement Program to provide state rent supplement assistance and other services to qualified persons who are sixty-two years of age or older and are homeless or at imminent risk of becoming homeless;
- (2) Require the Hawaii Public Housing Authority to submit annual reports to the Legislature regarding State Rent Supplement Program for Kupuna; and
- (3) Appropriate funds for the State Rent Supplement Program for Kupuna; provided that the appropriated funds shall be in addition to the Hawaii Public Housing Authority's base budget for the State Rent Supplement Program.

Your Committee on Conference finds that as housing costs and inflation rise, kupuna who rely on retirement income from Social Security or are on fixed incomes are struggling to pay for basic necessities, thereby being forced to cut back on essential expenses, such as food, transportation, and medication. This measure will provide vulnerable kupuna with state rent supplement assistance and other services, thereby preventing them from being displaced from their residence and becoming homeless.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting language that would have required a person who qualifies for the State Rent Supplement Program for Kupuna to participate in the continuum of care coordinated entry system for homeless services;
- (3) Clarifying that under the State Rent Supplement Program for Kupuna, the Hawaii Public Housing Authority shall:
  - (A) Provide housing counseling to assist qualified kupuna in obtaining or retaining permanent housing; and
  - (B) Coordinate with mental health services providers and other supportive services providers to assist qualified kupuna;
- (4) Deleting language that would have exempted the Hawaii Public Housing Authority from chapter 103D, Hawaii Revised Statutes, in selecting an organization to administer the program;
- (5) Inserting an appropriation amount of \$1,000,000 for fiscal year 2023-2024 for the State Rent Supplement Program for Kupuna;
- (6) Deleting language that would have allowed the appropriated funds to be used for an unspecified number of full-time equivalent (FTE) Public Housing Specialist positions within the Hawaii Public Housing Authority;
- (7) Inserting an effective date of July 1, 2023; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 898, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 898, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Chang, and Inouye.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 184 on S.B. No. 1141**

The purpose of this measure is to:

- (1) Transfer the rights, powers, functions, duties, and resources of the Department of Education relating to workers' compensation for the Hawaii State Public Library System and its employees to the Department of Human Resources Development (DHRD);
- (2) Establish an unspecified number of positions within the DHRD for the management and administration of workers' compensation for the Hawaii State Public Library System and its employees; and
- (3) Appropriate an unspecified amount of funds for the workers' compensation costs of the Hawaii State Public Library System and its employees.

Your Committee on Conference finds that the Legislature enacted Act 51, Session Laws of Hawaii 2004, which, in part, transferred certain functions of executive branch agencies that pertained to education personnel to the Department of Education (DOE). Your Committee on Conference further finds that the Legislature enacted Act 61, Session Laws of Hawaii 2012, to clarify that when it passed Act 51 (2004), it had not intended to include the personnel of the Hawaii State Public Library System (HSPLS). Your Committee on Conference recognizes that although DHRD has been managing and administering the workers' compensation claims of HSPLS employees since 2012 through memoranda of agreement and the use of a loaned position, DHRD has not received any additional staff or funding to address its increased administrative responsibilities to HSPLS and its employees. This measure transfers the appropriate resources necessary to officially designate DHRD as the administrator of workers' compensation claims for HSPLS. Your Committee on Conference notes that funds for the workers' compensation costs of the HSPLS and its employees have been appropriated to the DHRD through H.B. 300, H.D. 1, S.D. 1 (2023). Your Committee on Conference further notes that there are a number of permanent positions within HSPLS that are currently vacant.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting:
  - (A) The establishment of an unspecified number of positions within the DHRD for the management and administration of workers' compensation for the Hawaii State Public Library System and its employees; and
  - (B) An appropriation of an unspecified amount of funds for the workers' compensation costs of the Hawaii State Public Library System and its employees;
- (3) Transferring one permanent position and the individual budget of the Hawaii State Public Library System relating to workers' compensation for its employees to the DHRD;
- (4) Inserting an appropriation amount of \$80,000 for fiscal year 2023-2024 for the salary and benefits of one full-time equivalent human specialist position to the DHRD;
- (5) Amending section 2 to reflect its amended purpose;
- (6) Making it effective on July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1141, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1141, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Kidani, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Woodson, Garrett, Marten, and Alcos.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 185 on S.B. No. 830**

The purpose of this measure is to:

- (1) Require each Department of Education school and public charter school to establish a critical emergency response team; and
- (2) Appropriate funds.

Your Committee on Conference finds that timely, effective intervention in critical medical emergencies can save lives and reduce the severity of injuries. Presently, the Department of Education has basic emergency response guidance, but there is a gap between the guidance and training provided to ensure faculty and staff are prepared for critical medical emergencies. This measure supplements current Department of Education policy to ensure proper response protocols while also keeping students, faculty, and staff at Department of Education and charter schools safe.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9 of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;

- (2) Deleting language that would have required each department school to establish a critical emergency response team in chapter 302A, Hawaii Revised Statutes, and inserting language establishing a one-year Critical Emergency Response Pilot Program within the Department of Education to establish a critical emergency response team for each department school located in central Oahu selected by the Department to participate in the Pilot Program;
- (3) Deleting language that would have required each public charter school to establish a critical emergency response team in chapter 302D, Hawaii Revised Statutes, and inserting language establishing a one-year Critical Emergency Response Pilot Program within the State Public Charter School Commission to establish a critical emergency response team for each public charter school selected by the Commission to participate in the Pilot Program;
- (4) Inserting language that grants immunity from civil or criminal liability for any critical emergency response team member, except where the individual's conduct would constitute gross negligence, willful and wanton misconduct, or intentional misconduct;
- (5) Inserting language that requires each department school and public charter school participating in their respective pilot programs to develop a known, practiced, and maintained communication method to active the school's critical emergency response team members;
- (6) Inserting language that requires each department school and public charter school participating in their respective pilot programs to run not less than two critical emergency drills during the 2023-2024 school year with a drill response time goal of less than three minutes;
- (7) Requiring reports to the Legislature before the Regular Session of 2024;
- (8) Inserting an appropriation amount of \$350,000 for fiscal year 2023-2024 for the Department of Education to implement the Critical Emergency Response Pilot Program at selected schools;
- (9) Inserting an appropriation amount of \$150,000 for fiscal year 2023-2024 for the State public Charter School Commission to implement the Critical Emergency Response Pilot Program at selected schools;
- (10) Amending section 2 to reflect its amended purpose;
- (11) Inserting an effective date of July 1, 2023; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 830, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 830, S.D. 2, H.D. 1, C.D. 1.

**Conf. Com. Rep. 186 on S.B. No. 1417**

The purpose of this measure is to require the Hawaii Community Development Authority to consider the impacts of climate change, sea level rise, and climate-resilient development in the design and siting of buildings in the Kakaako and Kalaeloa community development districts.

Your Committee on Conference finds that climate change and sea level rise pose significant, dangerous, and imminent threats to the State. Furthermore, the Kakaako Community Development District and Kalaeloa Community Development District are particularly threatened by the effects of climate change, including sea level rise, king tides, heavy rainfall, and other climate change-related events. Therefore, this measure requires the Hawaii Community Development Authority to consider the impacts of climate change in the design and construction of buildings in the Kaka'ako and Kalaeloa Community Development Districts.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1417, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1417, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Gabbard, Inouye, Aquino, and DeCoite.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 187 on S.B. No. 1588**

The purpose of this measure is to appropriate funds to the University of Hawaii College of Tropical Agriculture and Human Resources to establish and implement a GroupGAP food safety training and certification program.

Your Committee on Conference finds that the GroupGAP program was created by the United States Department of Agriculture in 2015 to assist small farms with attaining the Good Agricultural Practices certification, which verifies that sound food safety practices have been utilized. Specifically, the GroupGAP program provides training and assistance in food safety to limit the spread of disease and other food-borne illnesses. The Legislature recently passed Act 136, Session Laws of Hawaii 2022, which required the Department of Agriculture to partner with the agricultural sector to establish a GroupGAP food safety certification program in the State. However, the funds appropriated were directed to the University of Hawaii College of Tropical Agriculture and Human Resources which does not have a GroupGAP food safety program. Therefore, a new appropriation is necessary.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Changing the agency responsible for the establishment of a GroupGAP food safety training and certification program from the University of Hawaii College of Tropical Agriculture and Human Resources to the Department of Agriculture;
- (3) Changing the expending agency of appropriated funds from the University of Hawaii College of Tropical Agriculture and Human Resources to the Department of Agriculture;
- (4) Inserting an appropriation amount of \$1,000,000 for fiscal year 2023-2024 to fund the establishment of the program;
- (5) Amending section 2 to reflect its amended purpose;
- (6) Making it effective on July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1588, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1588, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, Kapela, La Chica, and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Kapela, La Chica).

**Conf. Com. Rep. 188 on S.B. No. 1552**

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources to support the Hawaii Ant Lab in mitigating the effects of little fire ants in the State.

Your Committee on Conference finds that the little fire ant is an invasive pest that is difficult to manage and is spreading throughout the islands of Hawaii. The little fire ant is particularly concerning because of their bite, which can cause an irritating burning sensation and welts and marks on the skin. Furthermore, the bite of little fire ants has been correlated with blindness in cats and dogs, which is causing concern amongst pet owners and residents across the State. Therefore, this measure appropriates funds to support and enhance the efficacy of the Hawaii Ant Lab at the Department of Land and Natural Resources to mitigate and contain the effects of the little fire ant in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Inserting an appropriation amount of \$500,000 for fiscal year 2023-2024;
- (3) Making it effective on July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1552, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1552, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and DeCoite.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (DeCoite).

**Conf. Com. Rep. 189 on S.B. No. 743**

The purpose of this measure is to:

- (1) Extend the Coffee Berry Borer and Coffee Leaf Rust Pesticide Subsidy Program to June 30, 2025, and to reestablish it as the Pesticide and Fertilizer Subsidy Program to encompass fertilizers in addition to pesticides;
- (2) Extend the program manager position, including the position's civil service and collective bargaining laws exemption, to June 30, 2026;
- (3) Require the Department of Agriculture to report to the Legislature; and
- (4) Appropriate funds for the operation and implementation of the Pesticide and Fertilizer Subsidy Program.

Your Committee on Conference finds that the Coffee Berry Borer Pesticide Subsidy Program was established by Act 105, Session Laws of Hawaii 2014 (Act 105), and has since undergone several legislative updates, continuations, and improvements to combat the effects of coffee berry borer as well as coffee leaf rust that threaten the coffee plant in Hawaii. Therefore, this measure further extends and improves upon the ongoing statewide coffee disease control and mitigation effort by appropriating funds for protection of the threatened coffee plant in Hawaii and extending funding for the program positions related to this effort.

Your Committee on Conference have amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Reverting the Pesticide and Fertilizer Subsidy Program to the program's preexisting name, the Pesticide Subsidy Program;
- (3) Removing references to fertilizer from the measure;
- (4) Inserting an appropriation amount of \$150,000 for fiscal year 2023-2024 into and out of the Pesticide Use Revolving Fund for the Pesticide Subsidy Program;
- (5) Amending section 2 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 743, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 743, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Aquino, and Richards.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, Cochran, Morikawa, and Ward.  
Managers on the part of the House.  
Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 190 on H.B. No. 300**

**PART I. OVERVIEW**

This measure, as received, includes:

- (1) The base budget from Act 248, Session Laws of Hawaii (SLH) 2022;
- (2) The addition of previously appropriated collective bargaining amounts in prior acts;
- (3) The adjustment amounts necessary to fulfill the Employees' Retirement System, Employer-Union Health Benefits Trust Fund, debt service, and Medicaid requirements for the 2023-2025 fiscal biennium; and
- (4) The reduction of non-recurring amounts identified in the 2022 executive budget worksheets issued by the Legislature; and
- (5) Various reductions for critical government services.

Your Committee on Conference has amended this measure to include:

- (1) The approved executive requests for trade-offs, transfers, changes to means of financing, conversions of positions from temporary to permanent, ceiling increases or decreases, and reductions; and
- (2) Additional funding for critical government services.

	Fiscal Year 2023-2024		Fiscal Year 2024-2025	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 248, SLH 2022	\$16,753,577,848	\$8,670,830,979	\$16,753,577,848	\$8,670,830,979
Executive Budget Request	\$18,930,379,945	\$10,623,131,684	\$18,678,595,479	\$10,389,732,977
Net Change in Conference Draft	\$651,066,521	\$668,154,413	\$60,803,094	\$39,271,576
Total Appropriation	\$19,581,446,466	\$11,291,286,097	\$18,739,398,573	\$10,429,004,553

**PART II. GENERAL FUND REVENUES AND ECONOMY**

The Council on Revenues forecasted significant net decreases in its general fund tax revenue projection for fiscal year 2023 at its January 2023 and March 2023 meetings.

The Council reduced the estimated growth in revenues from 6.5% to 5.5% in January 2023 and from 5.5% to 2.0% in March 2023. The forecasts meant a reduction in revenues by \$334 million in fiscal year 2023. The estimated reduction in revenues is primarily due to a one-time Constitutional Refund of either \$100 or \$300 per qualifying exemption for Hawaii residents.

The Council noted that lower capital gains income due to poor performance in the stock market and a cooling real estate market are likely causes of lower estimated tax payments. The Council also noted that inflation had dropped nationally and in Hawaii.

General excise tax and transient accommodation tax collections remain robust due to the recovery of tourist arrivals, renewed consumer spending, and additional tax collections due to inflation. Risks that may inhibit the economic recovery include new variants of the COVID-19 virus, inflation and an aggressive monetary policy response from the Federal Reserve, high oil and commodity prices, severe labor shortages, supply chain disruptions, sustained travel hesitancy from Asian markets due to the Pandemic, and the reduction in Federal stimulus spending. Due to the recent strength of the U.S. dollar compared to foreign currencies.

Hawaii also faces strong competition from international travel destinations, such as Europe. Tourists from Japan might be especially less likely to travel to Hawaii due to extremely weak foreign currency exchange rates for the yen to the U.S. dollar compared to pre-pandemic levels.

The new forecasts for the state general fund tax revenues for fiscal year 2023 through fiscal year 2029 are shown in the table below.

Fiscal Year	General Fund Tax Revenues	
	Amount (in Thousands of Dollars)	Growth From Previous Year
2023	\$9,546,025	2.0%
2024	\$9,927,866	4.0%
2025	\$10,275,341	3.5%
2026	\$10,634,978	3.5%
2027	\$11,007,202	3.5%
2028	\$11,392,454	3.5%
2029	\$11,791,190	3.5%

**PART III. COMMITTEE'S PRIORITIES**

Your Committee on Conference has worked diligently to create a responsible financial plan that includes a budget that continues to fund critical services and programs. The Committee on Conference's approach to balancing the budget entails considering the Council on Revenues' General Fund Forecast and creating a fiscally responsible financial plan that will infuse unprecedented appropriations to implement priorities that include those named by Governor Green. These priorities will:

- Address homelessness and the housing crisis
- Contribute more to the Emergency and Budget Reserve Fund (EBRF), or "Rainy Day Fund"
- Increase access to Early Childhood Education
- Address the backlog of deferred maintenance for State facilities
- Mitigate and adapt to Climate Change
- Increase Health and Wellness across the State.

The Conference Draft of the executive budget includes the following major adjustments:

Department of Agriculture

- Adding \$2,500,000 in FY24 for Coconut Rhinoceros Beetle control.
- Adding 2.00 permanent positions and \$255,792 in FY24 and \$228,004 in FY25 to continue Bovine Tuberculosis operations on Molokai.
- Increasing the ceiling by \$6,000,000 for federal grants for agricultural development.
- Increasing the Revolving Fund ceiling by \$600,000 in FY24 and \$350,000 in FY25 for pesticide drift monitoring.
- Adding \$5 million for Mitigation and Population Control of Feral Animals.

Department of Accounting and General Services

- Adding 7.00 permanent positions and \$907,190 in FY24 and \$994,772 in FY25 for cloud-based financial systems.
- Adding \$590,000 in FY24 for the Hawaii Information Portal system.
- Adding 2.00 permanent positions and \$185,000 for the Office of Information Practices.
- Adding \$192,696 for Office of Information Practices salary differentials.

- Adding 2.00 permanent positions and \$259,280 in FY24 and \$319,592 in FY25 for the digitization of Government records (Act 178 2022).
- Transferring \$3,342,309 to the Department of Taxation for the Tax System Modernization Project.
- Adding \$746,623 in FY24 and \$1,555,006 in FY25 for Microsoft licenses.
- Adding 13.00 permanent positions and \$1,044,400 in FY24 and \$1,040,400 in FY25 for the cloud-based financial systems in the Office of Enterprise Technology Services.
- Adding \$5,000,000 in FY24 for planning for relocation of the Kalanimoku data center.
- Adding \$17,000,000 in FY24 for insurance policy premiums.
- Adding \$2,000,000 in FY24 for Capitol Building renovations.
- Adding \$5,000,000 for agricultural warehouses.
- Adding 2.00 permanent positions and \$170,200 in FY24 and \$160,244 in FY25 for procurement (Act 176 2022).
- Adding \$1,050,000 in FY24 for proof of concept and master planning.
- Adding \$500,000 in FY24 for the relocation of the Mapunapuna Baseyard.
- Adding 1.00 temporary position and \$259,000 in FY24 and \$251,250 in FY25 for the Small Business Assistance Initiative (Act 168 2022).
- Adding \$13,500 for the procurement Past Performance Database (Act 188 2021).
- Adding 1.00 permanent position and \$107,311 in FY24 and \$115,581 in FY25 for neighbor island school R&M.
- Adding \$3,718,308 in FY24 for voter system contracts.
- Increasing the ceiling by \$700,000 in trust funds for public funding.
- Increasing the ceiling by \$1,987,142 in special funds to update the Emergency Next Generation 911 Hardware and Software.

#### Department of the Attorney General

- Adding \$409,546 in FY24 and \$426,484 in FY25 for full-year funding for 11.00 positions.
- Adding \$470,000 to the Litigation Fund.
- Adding \$365,000 in FY24 and \$94,000 in FY25 for the Grants Management System.
- Adding 7.00 Special Agents and reducing 6.50 Investigators, while adding \$396,782 in FY24 and \$364,246 in FY25 for the Special Investigations and Prosecution Division.

#### Department of Business, Economic Development, and Tourism

- Adding \$2,500,000 in FY24 for programming of professional master classes for culinary.
- Adding \$50,000 in FY24 for the Kamaaina Connect Pilot Program.
- Adding \$5,000,000 in FY24 for the Pacific Arts and Cultural Festival.
- Adding \$500,000 in FY24 for international programs and art programming.
- Adding \$64,000,000 in FY24 for convention center's roof repairs.
- Increasing the ceiling by \$30,000 in special funds for energy software.
- Adding \$94,200 in general funds and increasing the ceiling by \$166,911 in federal funds for labor research.
- Adding \$2,994,167 in FY24 and \$3,382,618 in FY25 for tourism research.
- Adding 3.00 temporary positions and \$360,000 for broadband.
- Adding \$58,704 for the administrative services officer.
- Adding 1.00 permanent position and \$90,000 for the Aerospace Development Coordinator.
- Adding \$50,000,000 for infrastructure improvements for regional economic development.
- Adding \$500,000 for statewide coastal zone management.
- Adding \$25,060 for Land Use Commission travel.
- Adding \$800,000 in FY24 for Waikiki adaptation and resilience plan phase II.
- Adding \$400,000 in FY24 for standardized vulnerability assessment.
- Adding 1.00 temporary position and \$72,901 in FY24 and \$143,152 in FY25 for the Land Use Commission.
- Adding \$2,000,000 in FY24 for east Kapolei infrastructure implementation master plan.
- Adding \$18,500,000 in FY24 for Kakaako Street upgrades.
- Adding \$47,000,000 in FY24 for Kalaeloa electrical upgrades.
- Adding \$12,125,000 in FY24 for Saratoga Avenue electrical upgrades.
- Adding \$86,000,000 in FY24 for Iwilei-Kapalama infrastructure upgrades.
- Adding \$35,000,000 in FY24 for UH West Oahu infrastructure.
- Adding 3.00 temporary positions and \$90,200 in FY24 and \$186,877 in FY25 for the Hawaii Housing Finance and Development Corporation.
- Adding \$336,684 in FY24 and \$515,543 in FY25 for HHFDC salary differentials.

- Adding 8.00 training positions, \$435,001 in FY24, and \$733,435 in FY25.
- Adding \$45,000,000 in FY24 for the IT software project.
- Adding \$2,015,383 in FY24 for full-year funding of 50.00 positions.
- Adding 5.00 Investigators, \$304,722 in FY24, and \$500,678 in FY25 for the Office of Homeland Security.
- Adding 1.00 Cybersecurity, Economic, Education, and Infrastructure Security Coordinator, with \$78,993 in FY24, and \$157,986 in FY25 for the Office of Homeland Security.
- Adding \$5,000,000 in FY24 for a new training center.
- Adding \$5,603,750 in FY24 and \$4,802,857 in FY25 in inter-departmental transfers for the State and Local Cybersecurity Grant Program.

#### Office of the Lieutenant Governor

- Adding 3.00 permanent positions and \$520,000 for policy areas.
- Adding 2.00 permanent positions and \$187,608 to support the office's statutory responsibilities.
- Adding \$528,505 in FY24 and \$540,505 in FY25 for other current expenses.

#### Department of Public Safety

- Adding \$1,302,141 for full-year funding to support new housing at the Hawaii Community Correctional Center.
- Adding \$1,103,018 in FY25 for 6-month funding to support new housing at the Maui Community Correctional Center.
- Adding \$4,513,782 in FY25 for full-year funding to support new housing at the Women's Community Correctional Center.
- Trading off \$450,432 to restore 8.00 Substance Abuse Specialists.
- Adding \$450,000 in FY24 and \$500,000 in FY25 to purchase more local agricultural products for food (Act 144 2022).
- Adding \$970,176 for 24-hour health care at facilities on neighbor islands and Oahu.
- Adding 4.00 nurses, \$286,645 in FY24, and \$525,969 in FY25 for the new Infection Prevention and Control Unit.
- Adding 1.00 Dentist Manager and \$144,415 in FY24, and \$276,999 in FY25.
- Adding 8.00 permanent positions, \$381,826 in FY24, and \$669,012 in FY25 for Internal Affairs, and Training and Staff Development Offices.
- Adding \$2,000,000 to expand the community work furlough program from Oahu to statewide.
- Adding \$521,899 in FY24 for utility shortfalls at the Halawa Correctional Facility, Waiawa Correctional Facility, and Oahu Community Correctional Center.
- Adding \$3,000,000 in FY24 and \$2,000,000 in FY25 to relocate the Kauai Community Correctional Center due to climate change.

#### Department of Taxation

- Adding 2.00 permanent positions and \$160,368 in FY24 and \$166,128 in FY25 to fund newly established positions in the Oahu Field Audit Branch.
- Adding \$8,016,617 in FY24 and over \$3,855,721 million in FY25 to fund the Tax System Modernization Project.
- Adding 5.00 permanent positions and \$544,028 in FY24 and \$567,171 in FY25 to fund newly established positions for the Taxation Board of Review.

#### Department of Transportation

- Increasing ceiling by \$56,726,547 in FY24 and \$61,722,000 in FY25 in special funds for Airports Special Maintenance Statewide.
- Increasing ceiling by \$21,220,500 million in FY24 and \$22,281,525 in FY25 in special funds to increase CONRAC tram and shuttle service management and operational expenses.

- Increasing ceiling by \$22,800,000 in FY24 & FY25 in special funds for Engineering and Architectural Services
- Increasing ceiling by \$1,190,000 million in FY24 and \$1,638,000 million in FY25 in special funds to increase funding for routine maintenance and repairs.
- Increasing ceiling by \$30,625,000 million in FY24 and \$33,625,000 in FY25 for Harbors Administration.
- Increasing ceiling by \$2,737,000 in special funds for Highway’s traffic control on Oahu.
- Increasing ceiling by \$50,000,000 in FY24 and \$40,000,000 in FY25 in special funds for Highways Special Maintenance Program.
- Increasing ceiling by \$1,375,000 in special funds for the Highways Google Safety Analytics Program.

University of Hawaii

- Adding \$17,526,848 in FY24 to restore reductions from COVID.
- Adding \$3,200,000 in FY24 for UH Manoa women’s athletics.
- Adding \$85,000 for the Hawaii Institute of Marine Biology.
- Adding 7.00 permanent positions and \$228,500 in FY24 and \$457,000 in FY25 for the Thompson School of Social Work and Public Health.
- Adding 10.00 permanent positions and \$1,900,000 for Space Science and Engineering.
- Increasing the ceiling by \$205,000 in special funds for the Physician Workforce Assessment Special Fund (Act 151 2021).
- Adding \$400,000 in FY24 for UH Hilo athletics.
- Adding 3.00 permanent positions and \$98,500 in FY24 and \$200,250 in FY25 for Maui College’s health center.
- Adding \$3,700,000 in FY24 to continue the Promise Program for Community Colleges.
- Adding 31.00 permanent positions and \$693,780 in FY24 and \$1,456,938 in FY25 for Community College Security Officers.
- Adding \$578,240 for non-credit workforce development.
- Adding 2.00 permanent positions and \$84,167 in FY24 and \$174,750 in FY25 for the early college program.

**PART IV. CAPITAL IMPROVEMENTS PROGRAM BUDGET**

Your Committee on Conference finds an opportunity to invest in the State’s infrastructure while remaining fiscally prudent.

Your Committee on Conference has amended this budget to appropriate the following in capital improvement funds:

	Fiscal Year 2023-2024		Fiscal Year 2024-2025	
	All Funds	General Funds	All Funds	General Funds
Total Appropriation	\$2,933,046,000	\$384,265,000	\$1,354,190,000	\$254,877,000

The projects funded are for critical infrastructure throughout the State. The Conference Draft invests a substantial amount in projects improving public school and university facilities, highways and bridges, airports, harbors, state office facilities, critical agricultural infrastructure including irrigation systems, environmental protection, and public safety infrastructure throughout the State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 300, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 300, H.D. 1, S.D. 1, C.D. 1

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, Aquino, DeCoite, Inouye, Kanuha, Kidani, Kim, Lee, Moriwaki, Shimabukuro, Wakai, and Fevella.

Managers on the part of the Senate.

Ayes, 13. Noes, none. Excused, none.

Representatives Yamashita, Aiu, Chun, Cochran, Garrett, Kahaloa, Kila, Kitagawa, Kobayashi, Lamosao, Morikawa, Nishimoto, Poepoe, Takenouchi, Alcos, and Ward.

Managers on the part of the House.

Ayes, 16. Noes, none. Excused, none.

**Conf. Com. Rep. 191 on H.B. No. 33**

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance. Your Committee on Conference further finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating the dates and measure numbers cited in the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 33, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 33, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Nishimoto, and Alcos.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 192 on H.B. No. 28**

The purpose of this measure is to provide a vehicle for statutory provisions and appropriations that may be necessary to include in the General Appropriations Act of 2023.

Your Committee on Conference has amended this measure by:

- (1) Appropriating funds to the Department of Taxation to upgrade software and computer systems;
- (2) Requiring the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub;
- (3) Appropriating funds to the Department of Business, Economic Development, and Tourism for the Hawaii Pacific Hydrogen Hub;
- (4) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (5) Changing the effective date to July 1, 2023; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 28, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 28, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Kitagawa, and Ward.  
Managers on the part of the House.  
Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 193 on H.B. No. 1018**

The purpose of this measure is to:

- (1) Reduce the potential for federal maintenance of effort enforcement actions against the State by delaying the encumbrance and expenditure of various large general fund appropriations made in the 2022 legislative regular session until or beyond July 1, 2023, so they are no longer part of the fiscal year 2022-2023 maintenance of effort calculation; and
- (2) Appropriate funds to establish one temporary federal funds advisor position and two temporary senior special assistant positions.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation that established one temporary federal funds advisor position and two temporary senior special assistant positions;
- (2) Restoring the amounts for certain appropriations that were made in Acts 115, 236, 248, and 296, Session Laws of Hawaii 2022; and
- (3) Changing the effective date to June 29, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1018, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1018, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, and Fevella.  
Managers on the part of the Senate.  
Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Kitagawa, Nishimoto, and Ward.  
Managers on the part of the House.  
Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 194 on H.B. No. 1020**

The purpose of this measure is to increase the amount of funds that can be carried over on June 30 of each fiscal year in the Unclaimed Property Trust Fund.

Your Committee on Conference has amended this measure by:

- (1) Changing the amount of funds that can be carried over at June 30 of each fiscal year to \$3,000,000;
- (2) Making it take effect on June 29, 2023; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1020, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1020, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kanuha, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Chun, Kitagawa, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 195 on H.B. No. 1022**

The purpose of this measure is to appropriate funds to various programs to cover anticipated operating shortfalls due to the limited ability of a department to transfer funds between programs of that department.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1022, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1022, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Kitagawa, and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

**Conf. Com. Rep. 196 on S.B. No. 975**

The purpose of this measure is to:

- (1) Establish the offense of unlawful shipment of tobacco products;
- (2) Include electronic smoking devices and e-liquids under the definition of “tobacco products” for purposes of the Cigarette Tax and Tobacco Tax Law;
- (3) Amend the license and permit fees for wholesalers, dealers, and retailers;
- (4) Beginning January 1, 2024, impose an excise tax on each electronic smoking device or e-liquid sold, used, or possessed by a wholesaler or dealer;
- (5) Repeal the Electronic Smoking Device Retailer Registration Unit under the Department of the Attorney General; and
- (6) Repeal provisions in the Hawaii Revised Statutes governing delivery sales of electronic smoking devices.

Your Committee on Conference finds that tobacco use is the single most preventable cause of disease, disability, and death in the United States. Your Committee on Conference further finds that the use of electronic smoking devices and e-liquids has grown rapidly, particularly in Hawaii, which has led to a youth vaping epidemic. This measure will provide additional layers of protection against the rapid growth of the use of electronic smoking devices, including financial disincentives to purchase these products, for consumers in the State, especially for youth and young adults.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of “electronic smoking device”;
- (2) Inserting a tobacco license fee of \$250;
- (3) Inserting a retail tobacco permit fee of \$50;
- (4) Inserting an excise tax of seventy percent of the wholesale price of each electronic smoking device or e—liquid sold, used, or possessed by a wholesaler or dealer on and after January 1, 2024;

- (5) Clarifying that this measure does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date;
- (6) Inserting an effective date of July 1, 2023; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 975, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 975, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, Aquino, Rhoads, and Shimabukuro.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Belatti, Tarnas, Yamashita, La Chica, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

**Conf. Com. Rep. 197 on S.B. No. 239**

The purpose of this measure is to:

- (1) Require the Department of Human Services to establish a Child Care Accreditation Program to assist licensed and registered child care providers obtain accreditation;
- (2) Authorize the use of the Child Care Grant Program Special Fund for Child Care Accreditation Program grants;
- (3) Extend the deadlines by which existing Preschool Open Doors Program service providers are required to commence the accreditation process and obtain accreditation, and includes the Hawaii Association of Independent Schools to the list of accrediting organizations;
- (4) Appropriate funds for the Child Care Accreditation Program, including funds to establish an unspecified number of positions for the program; and
- (5) Appropriate funds into and out of the Child Care Grant Special Fund for Child Care Accreditation Program grants.

Your Committee on Conference finds that the Preschool Open Doors Program is the State's school readiness program that serves low- to moderate-income families whose children will be eligible for kindergarten in the following school year. To ensure that children participating in the program are receiving certain levels of care, existing law requires program service providers who have not obtained accreditation from a national early learning accrediting organization by July 1, 2022, to commence the accreditation process no later than July 1, 2024, and be accredited by July 1, 2029. However, the effects of the coronavirus disease 2019 pandemic have delayed this process for many child care providers. This measure will provide the additional time and funds needed for child care providers to obtain the necessary accreditation.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Requiring each child care provider who receives grant funds from the Department of Human Services to obtain accreditation and continue to provide child care for three years after receiving accreditation;
- (3) Extending the deadline by which existing unaccredited Preschool Open Doors Program must commence the accreditation process to July 1, 2029, and the deadline by which they must obtain accreditation to July 1, 2034;
- (4) Deleting language that would have included the Hawaii Association of Independent Schools to the list of national early learning accrediting organization from which accreditation can be obtained;
- (5) Appropriating \$2,102,100 for fiscal year 2023-2024 for the Child Care Accreditation Program, including the establishment of one full-time equivalent (1.0 FTE) permanent position;
- (6) Deleting language that would have appropriated funds into and out of the Child Care Grant Special Fund for Child Care Accreditation Program grants;
- (7) Amending section 2 to clarify its purpose;
- (8) Inserting an effective date of July 1, 2023; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 239, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 239, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kidani, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Nakashima, Kitagawa, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 198 on S.B. No. 833**

The purpose of this measure is to:

- (1) Require the Office of the Governor to negotiate the State's fee simple acquisition of the Wahiawa Irrigation System on the island of Oahu;
- (2) Authorize and appropriate funds for the Department of Agriculture, Agribusiness Development Corporation, and Department of Land and Natural Resources to purchase, repair, and maintain the Wahiawa Irrigation System and the associated spillway; and
- (3) Appropriate funds for positions in the Department of Land and Natural Resources.

Your Committee on Conference finds that the Wahiawa Irrigation System is a vital piece of agricultural infrastructure that supplies water to farmers in Wahiawa, Waialua, and Haleiwa. Your Committee on Conference further finds that the listing for sale of the Wahiawa Irrigation System by Dole Food Company, Inc., warrants the State to take steps to acquire this essential irrigation system in the interest of the public. Therefore, this measure provides the necessary funding for the State to acquire, repair, manage, and maintain the Wahiawa Irrigation System and the associated spillway.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Requiring that all users of water associated with the Wahiawa Irrigation System pay such rates sufficient to operate and maintain the irrigation system as prescribed by the Agribusiness Development Corporation;
- (3) Allowing the State to exercise eminent domain to acquire the Wahiawa dam and the spillway and ditch system associated with the Wahiawa Irrigation System, including all parcels in this measure, if negotiations for the acquisition of the property are unsuccessful;
- (4) Inserting an appropriation in the amount of \$5,000,000 for the Department of Agriculture to acquire a fee simple interest in the spillway associated with the Wahiawa Irrigation System; provided that if negotiations for the acquisition are unsuccessful, the appropriation shall be used for an eminent domain action to acquire the property and for associated costs;
- (5) Inserting an appropriation in the amount of \$21,000,000 for the Department of Agriculture to repair and expand the spillway associated with the Wahiawa Irrigation System and to bring the spillway into compliance with all relevant dam safety requirements, contingent upon the State's acquisition of the property;
- (6) Deleting the unspecified appropriation for the Agribusiness Development Corporation to manage and maintain its acquired portion of the Wahiawa Irrigation System and the spillway and dam acquired by the Department of Agriculture;
- (7) Deleting the unspecified appropriation for the Department of Land and Natural Resources to manage and maintain its acquired portion of the Wahiawa Irrigation System and for the establishment of an unspecified number of full-time equivalent (FTE) positions;
- (8) Inserting language that provides for the repeal of the Act effective July 1, 2026, as a condition subsequent to the State's failure to file or record the transfers of all the properties authorized to be acquired by this measure with the Bureau of Conveyances by June 30, 2026;
- (9) Inserting a lapse provision for moneys unexpended or encumbered on June 30, 2026; provided that the State successfully files and records the transfers of all the properties authorized to be acquired by this measure with the Bureau of Conveyances by June 30, 2026;
- (10) Inserting an effective date of July 1, 2023; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 833, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 833, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Keith-Agaran, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Yamashita, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 199 on S.B. No. 318**

The purpose of this measure is to:

- (1) Require the Department of Health to establish and administer a three-year pilot program to implement a co-management system of care for the diagnosis and treatment of individuals with fetal alcohol spectrum disorders; and
- (2) Appropriate funds for the pilot program and an annual public awareness campaign on preventing fetal alcohol spectrum disorder.

Your Committee on Conference finds that individuals who are prenatally exposed to alcohol may develop lifelong physical, developmental, behavioral, and intellectual conditions, which are diagnosed as fetal alcohol spectrum disorders (FASDs). While individuals with FASDs share many of the same behavioral characteristics and related mental health diagnoses as those with autism spectrum disorders, individuals with FASDs face unique challenges. This measure establishes a pilot program to determine the feasibility of implementing a co-management system of care to support individuals with FASDs.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Appropriating \$450,000 for fiscal year 2023-2024 for the establishment and administration of a three-year pilot program to implement a co-management system of care for the diagnosis and treatment of individuals with FASDs;
- (3) Appropriating \$35,000 for fiscal year 2023-2024 for the establishment of an annual public awareness campaign on preventing FASDs;
- (4) Inserting an effective date of July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 318, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 318, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, and Aquino.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Takenouchi, Mizuno, and Garcia.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Mizuno).

**Conf. Com. Rep. 200 on S.B. No. 435**

The purpose of this measure is to:

- (1) Order the person or firm found to be in violation of the state law governing wages and hours of employees on public works to be jointly and severally liable for the penalty, with the penalty increasing for repeat violations;
- (2) Require each notice of violation to contain the names of the person and firm;
- (3) Define a "person" for purposes of violations of the state law governing wages and hours of employees on public works, and related penalties and suspension; and
- (4) Require the Director of Labor and Industrial Relations to suspend the person and firm under specified conditions.

Your Committee on Conference finds that this measure is intended to prevent persons and firms that violate chapter 104, Hawaii Revised Statutes (HRS), relating to the prevailing wage and hours of employees for public work projects, from circumventing the three-year suspension from work provision of the chapter by transferring key personnel to a separate company and continuing business under a new name. Your Committee on Conference notes that this measure is not meant to cause unintended consequences to persons who are connected to the firm but are not responsible for the violations of chapter 104, HRS.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting a definition of "firm", which includes a corporation, limited liability company, partnership, and limited partnership;
- (2) Removing subordinate responsible managing employees from the definition of "person"; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 435, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 435, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Tarnas, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 201 on S.B. No. 1277**

The purpose of this measure is to make appropriations and approve payments for claims against the State, its officers, and its employees.

Your Committee on Conference finds that this measure serves as a vehicle by which payments of claims against the State are authorized and funded and that timely passage of this measure will minimize the State's obligation to pay interest that accrues on the claim amounts.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Adding the judgment or settlement of five additional miscellaneous claims against the State;
- (3) Adding two judgments against the Department of Public Safety;
- (4) Inserting program identification numbers for each of the affected departments;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1277, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1277, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Rhoads, Inouye, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

**Conf. Com. Rep. 202 on H.B. No. 382**

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Judiciary for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriate operating and capital improvement amounts for fiscal biennium 2023-2025; and
- (2) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes.

Specifically, this budget measure appropriates operating totals of:

	FY 2023-2024	FY 2024-2025
General Funds	\$185,148,711	\$189,015,776
All Means of Financing	\$197,865,224	\$201,861,529

Additionally, this budget measure appropriates capital improvement totals of:

	FY 2023-2024	FY 2024-2025
General Funds	\$3,000,000	0
All Means of Financing	\$20,995,000	0

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 382, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 382, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Dela Cruz, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Yamashita, Kitagawa, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## STANDING COMMITTEE REPORTS

**SCRep. 1            Judiciary on S.B. No. 36**

The purpose and intent of this measure is to:

- (1) Specify that a person may be tried and sentenced for certain alleged felony offenses through the complaint and preliminary hearing process, indictment by grand jury, or by written information; and
- (2) Specify that multiple attempts to initiate a felony prosecution for the same offense, either through the same initial charging method or an alternative method, or in different forums, shall not be permitted, except in certain circumstances.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Hawai'i, Office of the Prosecuting Attorney of the County of Kauai, and Department of the Prosecuting Attorney of the County of Maui. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of the Public Defender.

Your Committee finds that on September 8, 2022, the Hawaii Supreme Court issued its decision in the *State v. Obrero*, 151 Hawai'i 472, 517 P. 3d 755 (2022), construing section 801-1, Hawaii Revised Statutes, to invalidate the longstanding practice of initiating prosecution of felony cases by complaint upon a finding of probable cause after a preliminary hearing. For the last forty years, article I, section 10, of the Hawaii State Constitution has stated, in part, that "[n]o person shall be held to answer for a capital or otherwise infamous crime, unless on a presentment or indictment of a grand jury or upon a finding of probable cause after a preliminary hearing held as provided by law or upon information in writing signed by a legal prosecuting officer..." (emphasis added). As a result, the Hawaii State Constitution has been interpreted to allow prosecutors to initiate a prosecution by complaint upon a judge's finding of probable cause after a preliminary hearing, by obtaining a grand jury indictment, or, if eligible, by written information pursuant to chapter 806, Hawaii Revised Statutes.

Your Committee further finds that repeated attempts at initiating prosecution of the same felony offense by presenting the same evidence to both a grand jury and judge, or returning to the same forum, is not contemplated by the Hawaii State Constitution. Whether by presenting the allegations to a different grand jury after a prior grand jury did not find sufficient evidence for an indictment, or by using both the grand jury and preliminary hearing processes after the first forum rejected the evidence, the prosecution should not have multiple opportunities to present the same evidence in hopes of achieving a different outcome. This measure allows for the initiation of felony criminal charges via preliminary hearing and prohibits multiple attempts at charging the same felony case using different methods, with exceptions.

Your Committee notes that this measure represents a months-long discussion and working draft during the interim following the issuance of the *Obrero* opinion. Feedback was solicited from many parties, including the Department of the Attorney General, the Office of the Public Defender, and the four county prosecutors to bring about the measure's language. This measure is therefore a compromise that achieves the principal goal of clarifying that felony prosecutions can be initiated by use of the preliminary hearing process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 2            (Majority) Judiciary on S.B. No. 19**

The purpose and intent of this measure is to guarantee the vote of eligible voters who cast their ballot and then subsequently die or otherwise become ineligible before election day.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that a person voting by mail expects their ballot to be tabulated when they place it in the mail or deposit it at a place of deposit. However, the State's vote by mail process does not have procedures for validating mail-in ballots cast by eligible voters who thereafter became ineligible, including those who became ineligible by death. This measure ensures that voters eligible to vote who cast their ballot and subsequently become ineligible to vote due to death or other reasons have their vote counted.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 3            Judiciary on S.B. No. 9**

The purpose and intent of this measure is to:

- (1) Require members of each Board of Registration be a registered voter in the respective county of the board to which the member is appointed and remain a registered voter in that county for their term of office; and
- (2) Establish methods for determining and verifying a board member's political party membership.

Your Committee received testimony in support of this measure from the League of Women Voters.

Your Committee finds that the Board of Registration members play an important part in maintaining the integrity of elections by reviewing and deciding appeals that arise from a voter challenge or a clerk's decision regarding voter registration. If the member resides in the county that they represent, they are more likely to be familiar with the residents of the county, county clerk operations, and political parties active in the county. This measure will help to ensure that there is transparency within the Board of Registration.

Your Committee has amended this measure by:

- (1) Specifying that if a member changes their party membership during their term of office, then the member's new party membership shall be their membership;
- (2) Clarifying that upon request by the Governor or a Senator, a member shall provide verification of party membership; and
- (3) Specifying that a member shall also provide notice that they have changed their party membership to the Governor and Senate President if they change their party membership during their term of office.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 9, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 9, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 4 (Majority) Judiciary on S.B. No. 31**

The purpose and intent of this measure is to increase the real property exemption amount for attachment or execution.

Your Committee received comments on this measure from the Hawaii Credit Union League, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, and Hawaii Financial Services Association.

Your Committee finds that the Legislature has not increased the real property exemption amount from attachment or execution since 1978. Since that time inflation has risen by three hundred percent. This measure will increase the exemption amount up to current valuation standards.

Your Committee has amended this measure by:

- (1) Inserting January 1, 2024, into the blank dates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 31, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 31, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 5 Judiciary on S.B. No. 35**

The purpose and intent of this measure is to appropriate funds for the Judiciary to purchase civil legal services for low- and moderate-income persons.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Domestic Violence Action Center, Hawai'i Health & Harm Reduction Center, Hawai'i Access to Justice Commission, Legal Aid Society of Hawai'i, Volunteer Legal Services Hawai'i, and five individuals.

Your Committee finds that legal services are often prohibitively expensive for low- and moderate- income persons. Your Committee further finds that a number of nonprofit and volunteer organizations exist to provide quality legal services to persons who require services but lack the resources to pay for them. Your Committee additionally finds that, although these organizations generally function on a volunteer basis, they still require funding for operating costs and other expenses. This measure will support these organizations in providing legal services to those in need.

Your Committee has amended this measure by amending section 1 to delete superfluous language.

Your Committee notes that this measure is not meant to affect any other appropriation for the same purpose.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 35, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 6 Hawaiian Affairs on S.B. No. 16**

The purpose and intent of this measure is to require that the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and seven individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaiian language (olelo Hawaii) is the native language and speech of Hawaii. Beginning in 1846, the Kingdom of Hawaii's legislature declared that all laws enacted were to be published in both Hawaiian and English. However, by 1850, English had become the language of business, diplomacy, and the government, leading to disputes between the use of languages in Hawaii's laws. In multiple court cases, the Hawaii Supreme Court upheld the supremacy of Hawaiian language as the governing law. In *Hardy v. Ruggles*, 1 Haw. 245 (1856), the Hawaii Supreme Court held that "where there is a radical and irreconcilable difference between the English and Hawaiian language, the latter must govern, because it is the language of the country." The Kingdom of Hawaii and Territory of Hawaii published all their laws both in Hawaiian and English until 1943 when the practice of publishing laws in Hawaiian was abolished by statute.

Your Committee further finds that the Hawaii State Constitutional Convention of 1978 added Hawaiian as an official language to the Hawaii State Constitution to "give full recognition and honor to the rich cultural inheritance that Hawaiians have given to all ethnic groups of this State." Article XV, section 4, of the Hawaii State Constitution provides that "English and Hawaiian shall be the official languages of Hawaii except that Hawaiian shall be required for public acts and transactions as provided by law."

Although Hawaiian was established as an official language of the State of Hawaii through this constitutional amendment and codified in section 1—13, Hawaii Revised Statutes, the authority of the Hawaiian language in government remains limited.

Your Committee further finds that this measure could impact many laws in effect today. In 1859, the Legislature passed the Civil Code of 1859 that officially codified the existing laws (except the Penal Code of 1850), which were defective due to the many scattered and separate volumes of laws that were passed and amended since the Organic Acts of 1845-1846. The Civil Code of 1859, sought to "compare the Hawaiian and English versions of the New Code" and assimilate them as far as practicable. Notably, many of the Hawaii Revised Statutes today can be linked back to the Civil Code of 1859, including chapters 1, 4, 7, 36, 92, 107, 142, 456, 478, 502, 532-533, 551, 572, 580, 601, 605, 607, 634-635, 651, 656-657, 663, and 666-667. In addition, "ke kanawai mamalahoe," or the "law of the splintered paddle," enacted in 1782 by King Kamehameha the Great to protect the weak during wartime, remains a part of the Hawaii State Constitution to this day.

Your Committee has heard the testimony of many in support of this measure. The testifiers advocate that the measure preserves the culture and authority of the Hawaiian language, which was the first official language in the islands. This measure, therefore, reinstates the parity of the Hawaiian language with English by requiring that the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 7 Hawaiian Affairs on S.B. No. 32**

The purpose and intent of this measure is to amend the Hawaii State Constitution to require the Reapportionment Commission to establish a reapportionment plan to be used for the election of members of the Board of Trustees of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General and the Office of Hawaiian Affairs.

Your Committee finds that under existing law, members of the Board of Trustees of the Office of Hawaiian Affairs are elected during an at-large statewide election in which all registered voters are permitted to vote to elect all trustees. Your Committee further finds that due to the at-large nature of these elections, outer islands are often placed at a disadvantage to Oahu because of their smaller population bases. Your Committee further finds that at-large elections create cost burdens for outer island candidates who are forced to campaign statewide, and that the process itself can lead to voters being confused about why they are electing candidates who do not reside on their own island.

Your Committee finds that this measure, paired with a related measure S.B. No. 52, Regular Session of 2023, would address these problems by requiring the Reapportionment Commission to draw district lines for members of the Board of Trustees of the Office of Hawaiian Affairs based on the number of permanent residents in each of the four basic island units, transitioning the election for Board of Trustees from an at-large election to an election based on single-member districts, similar to the way congressional elections are held.

Your Committee notes the testimony of the Department of the Attorney General and its concern that the reapportionment of the nine-member Board of Trustees among the four basic island units may fall short of the one-person, one-vote standard established by the United States Supreme Court in *Reynolds v. Sims*, 377 U.S. 533 (1964), which held that states must make honest and good faith efforts to construct districts with equal numbers of persons as practicable. Due to the significant disparities in population among the basic island units, especially the island of Kauai, deviations from population equality may be required under this measure and may result in a violation of the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution. The Department of the Attorney General also expressed concern that the measure does not address how the current nine-member board will transition to a completely new nine-member board after reapportionment. The Office of Hawaiian Affairs opined in its testimony that a constitutional amendment is not required and that reapportionment could be accomplished by statutory amendment alone. The Office of Hawaiian Affairs also expressed concern that raising a constitutional amendment relating to the establishment of the Office of Hawaiian Affairs could lead to a slippery slope and compromise the organization's very existence.

Your Committee finds that these issues merit further consideration and requests that your Committees on Judiciary and Ways and Means further examine the concerns raised by the testifiers on this measure.

Therefore, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 32, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 8 Hawaiian Affairs on S.B. No. 52**

The purpose and intent of this measure is to:

- (1) Amend the process for electing members to the Office of Hawaiian Affairs Board of Trustees; and
- (2) Require the Reapportionment Commission to establish a reapportionment plan for the members of the Board of Trustees of the Office of Hawaiian Affairs so that they are elected according to their respective districts, rather than through an at-large statewide election for each seat.

Your Committee received testimony in support of this measure from six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General and the Office of Hawaiian Affairs.

Your Committee finds that under existing law, members of the Board of Trustees of the Office of Hawaiian Affairs are elected during an at-large statewide election in which all registered voters are permitted to vote to elect all trustees. Your Committee further finds that due to the at-large nature of these elections, outer islands are often placed at a disadvantage to Oahu because of their smaller population bases. Your Committee further finds that at-large elections create cost burdens for outer island candidates who are forced to campaign statewide, and that the process itself can lead to voters being confused about why they are electing candidates who do not reside on their own island.

Your Committee finds that this measure, paired with a related measure S.B. No. 32, Regular Session of 2023, would address these problems by requiring the Reapportionment Commission to draw district lines for members of the Board of Trustees of the Office of Hawaiian Affairs based on the number of permanent residents in each of the four basic island units, transitioning the election for Board of Trustees from an at-large election to an election based on single-member districts, similar to the way congressional elections are held.

Your Committee notes the Department of the Attorney General's testimony and its concern that the reapportionment of the nine-member Board of Trustees among the four basic island units may fall short of the one-person, one-vote standard established by the United States Supreme Court in *Reynolds v. Sims*, 377 U.S. 533 (1964), which held that states must make honest and good faith efforts to construct districts with equal numbers of persons as practicable. Due to the significant disparities in population among the basic island units, especially the island of Kauai, deviations from population equality may be required under this measure and may result in a violation of the Equal Protection Clause of the Fourteenth Amendment of the United States Constitution. The Office of Hawaiian Affairs also noted its concerns about the lack of representation for Molokai and Lanai and the cost of reapportionment.

Your Committee has amended this measure by:

- (1) Adding definitions for the terms "rural district" and "urban district";
- (2) Stipulating that five members of the Board of Trustees will be apportioned among the four basic island units and that, of the remaining four members, two shall reside in an urban district of the State and two shall reside in a rural district of the State;
- (3) Specifying that the election of the two urban and two rural district members of the Board of Trustees will be subject to an at-large vote;
- (4) Requiring that the two rural and two urban district members of the Board of Trustees be staggered, and that one urban district member and one rural member be elected every two years; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 52, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 52, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 9 Education on S.B. No. 106**

The purpose and intent of this measure is to authorize the Department of Health to require the Department of Education to report on coronavirus disease 2019 case counts and other related information in a manner most appropriate to public health and safety.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, and Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that during the height of the coronavirus disease 2019 (COVID-19) pandemic, providing timely updates to students, parents, teachers, and local communities on case counts, community spread, and public health measures served as a valuable

tool to protect the State against COVID-19. To ensure the safety of Hawaii's public school children, the Department of Education published weekly reports on COVID-19 case counts and other related information on its website to inform the community. However, as the State emerges from the COVID-19 pandemic, reporting practices regarding the spread of COVID-19 have become less necessary while remaining administratively burdensome. As such, the Department of Education's reporting requirements should be modified to reflect appropriate and current public health and safety practices. This measure will allow the Department of Health to ensure the accurate reporting of data necessary for the success of COVID-19 response and recovery efforts, while balancing costly administrative burdens.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 106, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 10 (Joint) Water and Land and Commerce and Consumer Protection on S.B. No. 67**

The purpose and intent of this measure is to:

- (1) Prohibit any commercial vendor from presetting commercial beach equipment on any public beach under the jurisdiction of the Department of Land and Natural Resources, unless the customer is physically present;
- (2) Require commercial vendors to expeditiously remove commercial beach equipment after the customer has finished using it;
- (3) Allow the Department of Land and Natural Resources to grant exemptions through rules; and
- (4) Establish administrative fines for violations, pertaining only to public beaches and excluding private lands such as accreted lands.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Hawai'i Tourism Authority, and two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that the Department of Land and Natural Resources has received numerous complaints about the presetting of beach umbrellas, chairs, and other beach equipment on public beach areas. While officers of the Division of Conservation and Resources Enforcement have issued many citations to offenders, courts have often dismissed them due to concessionaires stating that they were setting up equipment for customers with prior reservations. Therefore, this measure provides a clear definition for "presetting" commercial beach equipment, and will help to address the problem of vendors blocking access to public beaches. This measure strikes a much-needed balance between residents' ability to freely utilize Hawaii's beaches and the visitor industry's desire to provide amenities to their guests.

Your Committees have amended this measure by:

- (1) Increasing the administrative fine from not less than \$50 and not more than \$1,000 for each occurrence of a violation to \$5,000 for first offenses, \$10,000 for second offenses, and \$15,000 for third and subsequent offenses, to align with the Department of Land and Natural Resources' existing administrative fine amounts;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 67, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 67, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 11 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 75**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to inventory historic properties and burial sites in the State, collect data on burial site locations, and conduct an archaeological surface survey.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai'i Foundation, and two individuals.

Your Committees find that a comprehensive and statewide inventory of historic properties and burial sites is critical for their management and protection. Further, the lack of a comprehensive inventory creates uncertainty for developers and delays project planning due to the unavailability of this key information. Your Committees further find that the State Historic Preservation Division lacks funding to fulfill its mandate to create and maintain inventories of historical properties and burial sites. Therefore, this measure will address this problem by providing funding to the Department of Land and Natural Resources to inventory historic properties and burial sites in the State, collect data on burial site locations, and conduct an archaeological surface survey.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 75, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 75, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 12 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 100**

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Kaho'olawe Island Reserve Commission; and
- (2) Fund three full-time equivalent (3.00 FTE) permanent positions for the Kaho'olawe Island Reserve Commission.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Kaho'olawe Island Reserve Commission, and twenty-one individuals.

Your Committees find that over the past nineteen years, the Kaho'olawe Island Reserve Commission has developed innovative and effective restoration projects that serve as a foundation for the future restoration of the island. In 2016, the Commission submitted a detailed financial self-sufficiency and sustainability plan to establish the necessary baseline level of funding needed to continue work on Kaho'olawe. As a result, Act 49, Session Laws of Hawaii 2017, provided general funds and authorized fifteen positions for fiscal years 2017-2018 and 2018-2019. However, these funds were only enough to support staffing, Maui-based facilities, and Maui-based operations. Thus, Act 140, Session Laws of Hawaii 2018, provided additional general funds for Kaho'olawe island safety and operations, and Act 248, Session Laws of Hawaii 2022, provided a one-time infusion of \$400,000 in general funds for Kaho'olawe island-based operations and additional cultural resource staffing.

Your Committees find that although previous funding provided critical relief for field operations after two years of fiscal austerity, additional funding is needed to ensure that Kaho'olawe's on-island operations, safety, and infrastructure are maintained, and that the island remains open for critical restoration and cultural activities. Further, the increased severity of long-term weather conditions in and around the waters surrounding Kaho'olawe and Maui require additional positions to augment the Commission's boat operations and to expand coastal erosion and shoreline protection projects on Kaho'olawe. Therefore, this measure appropriates funds for the Commission and funds three full-time equivalent (3.00 FTE) permanent positions to support the Commission's management, protection, and restoration of the cultural and historical resources of Kaho'olawe.

Your Committees have heard the testimony of the Kaho'olawe Island Reserve Commission, which requested that language be included in the measure that would fund the Commission permanently. Your Committees find that this issue raises concerns that merit further consideration and request that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

Therefore, your Committees have amended this measure by:

- (1) Inserting blank appropriation amounts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 100, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 13 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 734**

The purpose and intent of this measure is to:

- (1) Establish an inter-division program between the State Historic Preservation Division, Land Division, Office of Conservation and Coastal Lands, Island Burial Councils, and the Office of Hawaiian Affairs that addresses the location, movement, and restoration of Hawaiian burial sites and 'iwi, exposed or likely to be exposed to coastal erosion; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that climate change in the form of coastal erosion due to sea level rise poses a significant threat to Hawaiian burial sites and 'iwi interred therein. Action must be taken to protect 'iwi that is exposed or likely to be exposed to coastal erosion before they are lost to the elements. Your Committees further find that these burial sites and 'iwi are of vital importance to Hawaiian culture, serving as ancestral links to the past. Therefore, this measure will create an inter-division program between the State Historic

Preservation Division, Land Division, Office of Conservation and Coastal Lands, Island Burial Councils, and the Office of Hawaiian Affairs to address the location, movement, and restoration of Hawaiian burial sites exposed or likely to be exposed to coastal erosion.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 734, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 734, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 14 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 766**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources' State Historic Preservation Division to contract its review of proposed state projects and projects affecting historic properties, to third party consultants if the projects involve the development of affordable housing and, if the Division, after an initial evaluation, determines it will not be able to complete its review within sixty days;
- (2) Establish requirements for qualified third parties providing review services; and
- (3) Authorize the Department of Land and Natural Resources to contract with or sponsor any county, housing authority, non-profit organization, or person, to meet the reasonable fee requirements of the third party consultant.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of the Mayor of the County of Hawai'i, Office of Housing and Community Development of the County of Hawai'i, NAIOP Hawaii CRE Industry Pac, Building Industry Association of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Historic Hawai'i Foundation.

Your Committees find that under existing law, prior to the issuance of any permit or land use approval for any project that affects a historic property, state and local jurisdictions must refer the matter to the State Historic Preservation Division for review and comment, and for public projects, written concurrence is required before proceeding. However, your Committees also find that due to the current demand for the construction of affordable housing and other critical infrastructure, the State Historic Preservation Division consistently receives more reports than they have time to review, resulting in significant backlogs. Therefore, this measure helps to expedite the review process by allowing the State Historic Preservation Division to engage with third party contractors for reviews. This measure will thus enable more timely reviews and allow the State Historic Preservation Division to focus on other core priorities.

Your Committees have heard the testimony of the Department of Land and Natural Resources and Historic Hawai'i Foundation expressing concerns that a review of proposed projects by a third party could bypass important safeguards that ensure historical properties and cultural resources are identified and appropriate treatment measures are in place during planning and design work. While third party contractors may be knowledgeable on matters such as building or zoning codes, most architects and engineers do not possess specialized training to determine effects on historic properties. The Department of Land and Natural Resources also testified that third party contracting may not necessarily lead to an expedited review process, but could unintentionally add several steps due to the contracting process.

Therefore, your Committees find that this issue raises concerns that merit further consideration and requests that your Committees on Judiciary and Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

Your Committees have amended this measure by:

- (1) Requiring the project proponent to pay for the reasonable fee requirements of the third party consultant;
- (2) Requiring the Department of Land and Natural Resources to publish a draft of its proposed rules on its website to allow the State Historic Preservation Division to contract with third party consultants within one year of this measure's effective date, and thereafter, require the Department to present within one year its proposed final rules to the Board of Land and Natural Resources;
- (3) Making the measure's amendments to the Hawaii Revised Statutes allowing the State Historic Preservation Division to contract with third party consultants effective on July 1, 2025; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 766, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 766, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 15 Hawaiian Affairs on S.B. No. 205**

The purpose and intent of this measure is to appropriate moneys to fund the operating expenses of the Office of Hawaiian Affairs for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency, established by Article XII, Section 4, Article XI, Section 5, of the Hawaii State Constitution; and Chapter 10, Hawaii Revised Statutes, that is responsible for improving the well-being of native Hawaiians and Hawaiians. This measure appropriates funds for the Office of Hawaiian Affairs' operating budget in support of plans for the upcoming biennium and is vital to fulfilling the mandates of the Office of Hawaiian Affairs.

Your Committee has amended this measure by:

- (1) Replacing the following dollar amounts with a blank amount:
  - (A) The program appropriation of \$3,000,000 in general funds and \$3,000,000 in trust funds for OHA175, beneficiary advocacy operating expenses;
  - (B) The allocation of \$500,000 in general funds and \$500,000 in trust funds for occupancy-ready housing needs of beneficiaries;
  - (C) The allocation of \$415,000 in general funds and \$415,000 in trust funds for social services;
  - (D) The allocation of \$615,000 in general funds and \$615,000 in trust funds for educational improvement programs for Native Hawaiian students;
  - (E) The allocation of \$600,000 in general funds and \$600,000 in trust funds for legal services and legal representation of beneficiaries;
  - (F) The allocation of \$500,000 in general funds and \$500,000 in trust funds for protections of aina; and
  - (G) The allocation of \$370,000 in general funds and \$370,000 in trust funds for ohana economic stability; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 205, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 205, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 16 Government Operations on S.B. No. 296**

The purpose and intent of this measure is to establish a submission deadline for reports to the Legislature that currently do not have one.

Your Committee did not receive any testimony on this measure.

Your Committee finds that departmental and agency reporting requirements inform decision-making. Certain reports on emerging or complex issues can help with legislative proposals, ensure compliance with legislative intent, monitor activity, and assess the effectiveness of existing policies and programs. Your Committee further finds that setting a deadline for the submission of a report may help ensure that relevant information is received in a timely and predictable manner. Knowing when to expect a report and assessing departmental or agency compliance with statutory requirements can serve as a critical component of legislative oversight.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 17 Ways and Means on S.B. No. 576**

The purpose and intent of this measure is to amend the law relating to government.

Prior to the hearing on this measure, your Committee prepared and made available for public review a proposed Senate Draft 1, which amends this measure by deleting its contents and replacing it with language that:

- (1) Requires, effective July 1, 2024, that reports of out-of-state and intra-state travel by state employees, officers, or other representatives be made available for public review on the Comptroller's website; and
- (2) Appropriates moneys to the Department of Accounting and General Services to implement and manage a digital and searchable system for the public to access those travel reports.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 576, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Keith-Agaran, Wakai).

**SCRep. 18 Energy, Economic Development, and Tourism on S.B. No. 703**

The purpose and intent of this measure is to appropriate funds to the Hawaii Technology Development Corporation for the Hawaii Small Business Innovation Research Program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Ai.Fish, LLC; Hawaii Fish Company, Inc.; Ocean Era, Inc.; Oceanit; Minnowtech, LLC; Hawai'i Farm Bureau; Early Charm Ventures, LLC; PacMar Technologies LLC; Hawaii Biotech, Inc.; Experiad, LLC; and one individual.

Your Committee finds that the federal Small Business Innovation Research and Small Business Technology Transfer programs award over \$4,000,000,000 each year to domestic small businesses that engage in federal research or research and development with the potential for commercialization. The Hawaii Small Business Innovation Research Program provides matching grants and support services to small businesses in the State that secure federal funds through the programs and conduct their activities within the State. Your Committee further finds that the companies that receive funding through the Hawaii Small Business Innovation Research Program provide high-wage engineering and science jobs in the State. This measure will increase the number of companies able to participate in the Hawaii Small Business Innovation Research Program, increase access to federal funds, and increase the number of high-wage jobs in the State by appropriating funds to the Hawaii Technology Development Corporation for the Hawaii Small Business Innovation Research Program.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 703 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 19 Energy, Economic Development, and Tourism on S.B. No. 72**

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to render decisions on certain renewable projects, power purchase agreements, and cost recovery applications within one hundred eighty days of the filing of the application;
- (2) Exempt certain power purchase agreement amendments from the Public Utilities Commission's review and approval process; and
- (3) For ratemaking proceedings, require the Public Utilities Commission to complete its deliberations and issue its decision before six months from the date a public utility has filed its application for approval.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Climate Protectors Hawaii, and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that continual progress and the timely approval, commencement of construction, and completion of renewable energy projects is of paramount importance to move the State closer to its one hundred percent renewable energy target as soon as possible. Despite the importance of constructing new renewable energy projects, developers currently must obtain Public Utilities Commission approval of the project and the power purchase agreement before obtaining financing or expending significant moneys to begin construction of their respective projects. Accordingly, delays in receiving approvals from the Public Utilities Commission typically results in delays to obtaining financing and the commencement of construction of the renewable energy project, which may take multiple years to develop. Your Committee believes that a procedural framework to streamline government processing and the review of proposed renewable energy projects is necessary to ensure timely progression of these important projects. This measure will more timely facilitate the approval of renewable energy projects by requiring the Public Utilities Commission to render decisions on certain renewable projects, power purchase agreements, and cost recovery applications within one hundred eighty days of the filing of the application, exempting certain power purchase agreements from the Public Utilities Commission review and approval process in certain circumstances, and for ratemaking proceedings, requiring the Public Utilities Commission to complete its deliberations and issue its decision before six months from the date a public utility has filed its application for approval.

Your Committee has amended this measure by:

- (1) Deleting language that would have automatically deemed an application approved if a decision was not made by the Public Utilities Commission within the one hundred eighty-day period; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 72, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 72, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 20 Energy, Economic Development, and Tourism on S.B. No. 706**

The purpose and intent of this measure is to:

- (1) Create and appropriate funds for the Hawaii Start-Up Business Loan Program to be administered by the Business Development and Support Division of the Department of Business, Economic Development, and Tourism, in coordination with the Hawaii Technology Development Corporation; and
- (2) Establish the Hawaii Start-Up Business Loan Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Research and Development for the County of Hawaii, Chamber of Commerce Hawaii, and Right to Start. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; and Hawaii Technology Development Corporation.

Your Committee finds that the coronavirus disease 2019 pandemic, supply chain issues, and inflation have hurt the State's economy and local businesses on every level, including the start-up industry. Despite this, many small businesses and entrepreneurs are ready to take the leap into starting up a business, but lack the resources to do so, as access to capital is one of the biggest barriers for start-ups. Your Committee further finds that new businesses and young companies under five years of age create the most net new jobs in the United States. Your Committee believes that providing support to local small businesses and entrepreneurs looking to begin a start-up will lead to the creation of more jobs in the State. This measure will benefit the local economy and create new jobs by establishing and appropriating funds for the Hawaii Start-Up Business Loan Program to encourage entrepreneurship and economic diversification and resilience.

Your Committee has amended this measure by:

- (1) Appropriating funds for the Hawaii Start-Up Business Loan Program Special Fund from the general revenues of the State of Hawaii instead of funds from the American Rescue Plan Act;
- (2) Inserting a blank appropriation amount for the Hawaii Start-Up Business Loan Program;
- (3) Adding a new section with a blank appropriation for one full-time equivalent (1.0 FTE) loan officer position within the Business Support Branch of the Department of Business, Economic Development, and Tourism;
- (4) Inserting an effective date of January 6, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains unspecified appropriation amounts, and respectfully requests that your Committee on Ways and Means consider inserting appropriation amounts of:

- (1) \$500,000 for the Hawaii Start-Up Business Loan Program; and
- (2) \$95,000 for one full-time equivalent (1.0 FTE) loan officer position within the Business Support Branch of the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 706, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 706, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 21 Public Safety and Intergovernmental and Military Affairs on S.B. No. 210**

The purpose and intent of this measure is to establish a criminal justice data sharing working group to make recommendations for a statewide criminal justice data repository to:

- (1) Facilitate collaborative decision-making, coordinated planning, and cooperative implementation among criminal justice agencies and relevant partners;
- (2) Support the fair, efficient, and effective operation of the criminal justice system;
- (3) Promote interoperability through the use of common elements;
- (4) Allow agencies to securely and efficiently share appropriate information; and
- (5) Support criminal justice and other purposes, including improved public safety and homeland security, while respecting the privacy of citizens.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Law Enforcement, Department of the Prosecuting Attorney of the City and County of Honolulu, and Women's Prison Project. Your Committee received comments on this measure from the Department of the Attorney General, Legislative Reference Bureau, and Civil Beat Law Center for the Public Interest.

Your Committee finds that the State lacks a common repository for tracking data related to the criminal justice system. All state and county criminal justice agencies plan, design, procure, implement, and operate their own separate information systems. As such, data sharing consists of one-off solutions, often requiring grants and outside contractors. Your Committee believes that a statewide criminal justice information system is needed to increase efficiency, support criminal justice, and improve public safety and homeland security.

This measure will promote the fair, efficient, and effective operation of the criminal justice system by establishing a criminal justice data sharing working group to make recommendations for a statewide criminal justice data repository.

Your Committee has amended this measure by:

- (1) Specifying that the Attorney General, or the Attorney General's designee, shall serve as chairperson of the working group;
- (2) Limiting the assistance the Legislative Reference Bureau provides to the working group to drafting assistance; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 210, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 22 Public Safety and Intergovernmental and Military Affairs on S.B. No. 372**

The purpose and intent of this measure is to require greater accountability and transparency in the government's provision of law enforcement services by:

- (1) Providing that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using or is about to use unnecessary or excessive force on an arrestee;
- (2) Requiring the intervening law enforcement officer to report the incident to the other law enforcement officer's supervisor; and
- (3) Requiring relevant departments to submit an annual report to the Legislature.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Kaua'i, Kauai Police Department, Honolulu Police Department, Hawai'i Police Department, and three individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that law enforcement services are an essential government function that aim to promote respect for, and compliance with, state and county laws. Despite this, some law enforcement officers have violated the public's trust in the criminal legal system, abused their authority, and shown a blatant disregard for the sanctity of life through the unjustified use of excessive force against members of the community. Your Committee believes that lack of accountability for police misconduct undermines the integrity of the entire criminal legal system and hinders the ability of law enforcement officers to solve and prevent crime. This measure will build confidence and increase public trust in law enforcement services by providing that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using unnecessary or excessive force on an arrestee, requiring the law enforcement officer to report the incident to the fellow law enforcement officer's supervisor, and requiring relevant departments to submit annual reports to the Legislature.

Your Committee has amended this measure by:

- (1) Removing language that would have required an officer to intervene if the officer reasonably believes that another is about to use unnecessary or excessive force on an arrestee;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 372, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 23 Public Safety and Intergovernmental and Military Affairs on S.B. No. 454**

The purpose and intent of this measure is to require the Hawaii Correctional System Oversight Commission to:

- (1) Review and recommend amendments to the Department of Public Safety's operating budget request and any capital improvement project appropriation requests prior to each legislative session;
- (2) Inform the Legislature if its recommendations were not accepted; and
- (3) Advise the Governor as to whether the Department of Public Safety's expenditure plan serves to fulfil the goal of the correctional system's transition to a rehabilitative and therapeutic model.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission, Community Alliance on Prisons, and ten individuals. Your Committee received testimony in opposition to this measure from the Department of Public Safety and Hawaii Paroling Authority. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii Correctional System Oversight Commission was created to oversee the Department of Public Safety and facilitate its transition to a therapeutic and rehabilitative model. Your Committee believes that appropriate priority must be given to the programs, services, and strategies needed to achieve the therapeutic and rehabilitative model. This measure will allow the Hawaii Correctional System Oversight Commission to more effectively carry out its established duties and facilitate the correctional system's transition to a therapeutic and rehabilitative model by requiring the Hawaii Correctional System Oversight Commission to review and recommend amendments to the Department of Public Safety's operating budget request and any capital improvement project appropriation requests prior to each legislative session, inform the Legislature if the Commission's recommendations were not accepted, and advise the Governor as to whether the Department of Public Safety's expenditure plan serves to fulfil the goal of the correctional system's transition to a rehabilitative and therapeutic model.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 454, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 454, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 24            Public Safety and Intergovernmental and Military Affairs on S.B. No. 786**

The purpose and intent of this measure is to require government entities to seek reimbursement for the expenses arising from the search and rescue of persons who ignore posted warning signs, leave a hiking trail to enter a prohibited area, or hike on a trail that is closed to the public.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and two individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that the coronavirus 2019 pandemic led to a surge of experienced and inexperienced hikers venturing into the outdoors. Occasionally, hikers ignore posted warning signs, intentionally leave a hiking trail, or enter property that is closed to the public. This behavior has vastly proliferated due to social media that now promotes activities and features areas that are subject to closure or warning signage. When one of these hikers needs to be rescued, it is the State that bears the burden of paying for the costs associated with the search or rescue. Your Committee believes that shifting the cost to hikers who ignore posted warning signs, intentionally leave a hiking trail, or enter property that is closed to the public may act as a deterrent and reduce violations, improve public safety, and mitigate the need for costly and dangerous rescue.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 786, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 786, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 25            (Majority) Transportation and Culture and the Arts on S.B. No. 588**

The purpose and intent of this measure is to appropriate funds for the Department of Transportation, in conjunction with the City and County of Honolulu, to develop a pilot program to use noise detection traffic cameras to address excessive traffic noise in urban areas on the island of Oahu.

Your Committee received testimony in support of this measure from the Department of Transportation and six individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that noise pollution is a prevalent and increasing problem in the State. Excessively loud and unabated noises can result in physiological, psychological, and economic damage. Residents of the State are entitled to a healthy and peaceful environment free from noise pollution that may be hazardous to their health or welfare. Therefore, addressing noise pollution in Hawaii's communities may alleviate some issues experienced by residents.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Transportation will work in conjunction with counties with a population greater than five hundred thousand persons to develop the pilot program; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 588, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 588, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 26      Transportation and Culture and the Arts on S.B. No. 365**

The purpose and intent of this measure is to:

- (1) Establish the offense of operating a vehicle while impaired; and
- (2) Establish fines.

Your Committee received testimony in support of this measure from the National Transportation Safety Board, Department of Transportation, Office of the Prosecuting Attorney of the County of Hawaii, Office of the Prosecuting Attorney of the County of Kauai, Hawaii Police Department, Honolulu Police Department, Hawai'i Alcohol Policy Alliance, Maui Coalition for Drug-Free Youth, East Hawai'i Drug-Free Coalition, and eighteen individuals. Your Committee received testimony in opposition to this measure from the Wine Institute and one individual. Your Committee received comments on this measure from Mothers Against Drunk Driving.

Your Committee finds that impaired driving is a significant problem in Hawaii's communities, as intoxicated driving is the leading cause of traffic fatalities and impacts the lives of innocent people. In recent years, traffic fatalities increased across the State, with intoxicants such as alcohol becoming major factors. As blood alcohol concentration levels also change the behavior of those driving after drinking, the magnitude of impairment increased with increased blood alcohol concentration. Lowering the threshold for impaired driving brings the State one step closer to making Hawaii's roads safer for all users.

Your Committee has amended this measure by:

- (1) Clarifying that impairment can be identified through alcohol concentration measured in breath;
- (2) Authorizing the Department of Transportation to implement administrative actions against any person found operating a motor vehicle while impaired;
- (3) Inserting an effective date of January 1, 2024; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 365, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 27      Transportation and Culture and the Arts on S.B. No. 346**

The purpose and intent of this measure is to make it discretionary for authorized emergency vehicles to use sirens when responding to an emergency or in other specified situations if the siren is not reasonably necessary under the circumstances.

Your Committee received testimony in support of this measure from Liliuokalani Gardens Association of Apartment Owners and three individuals.

Your Committee finds that the use of sirens by emergency vehicles can be necessary to alert other vehicles and pedestrians that an emergency vehicle is exercising its authority to disregard certain traffic laws, such as proceeding through a red light or exceeding the posted speed limit. However, there are certain emergency response sectors that have determined that there should be some flexibility to not engage the siren in certain situations such as responding at night when the streets are empty of cars and pedestrians. As unnecessary usage of sirens may contribute to noise pollution, especially in heavily-congested residential areas, providing flexibility in the use of sirens by emergency response vehicles in certain circumstances may alleviate disturbances in residential neighborhoods.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 346, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 28      (Majority) Transportation and Culture and the Arts on S.B. No. 341**

The purpose and intent of this measure is to increase the minimum required liability coverage for accidental harm and destruction of property for motor vehicle insurance policies in the State.

Your Committee received testimony in opposition to this measure from American Property Casualty Insurance Association, State Farm Mutual Automobile Insurance Company, and GEICO. Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, and Hawaii Association for Justice.

Your Committee finds that increased insurance coverage may provide some drivers with additional coverage for certain events such as accidents, bodily injury, uninsured motorists, and underinsured motorists. As driving is a privilege with the potential for causing serious injuries, raising insurance limits may adequately reflect the dangers associated with driving a car. By increasing the insurance limits for drivers across the State, all drivers in the State can be adequately protected while operating a motor vehicle.

Your Committee has amended this measure by:

- (1) Inserting a blank amount of minimum and maximum liability coverage for all damages arising out of accidental harm;

- (2) Inserting a blank amount of minimum liability coverage for all damages arising out of damage to or destruction of property; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 341, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Elefante). Noes, 2 (Inouye, Awa). Excused, none.

**SCRep. 29 (Majority) Transportation and Culture and the Arts on S.B. No. 56**

The purpose and intent of this measure is to require the use of broadband audible reverse warning systems on state and county-owned vehicles purchased on or after January 1, 2026.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that to reduce urban noise pollution caused by reversing alarms of commercial and construction vehicles, and to ensure safer reversing, it is necessary to transition to newer technology for audible reverse warning systems. Most audible reverse warning systems use a tonal sound of a single frequency; however, broadband alarms use a pulsed acoustic signal that comprises a range of frequencies, which have been found to be more effective than their tonal equivalents. Presently, the federal Occupational Safety and Health Administration requires the use of reversing alarms on construction vehicles to protect people from accidental injury and death, or alternatively the use of an observer to signal to the vehicle driver when it is safe to reverse. Transitioning to broadband reversing alarms will protect more residents from disruptive noise pollution while utilizing safer vehicular reversing practices.

Your Committee has amended this measure by:

- (1) Authorizing the Director of Transportation to provide an exemption in the event broadband sirens are unavailable;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 56, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 56, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 30 Judiciary on S.B. No. 467**

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to allow the Legislature to enact laws establishing limitations on moneys expended by any independent expenditure committee to influence the outcome of a state election.

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawai'i and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that large political action committees can spend large amounts of money to effect the outcome of a state election. Your Committee further finds that due to the structure and considerable financial resources of these organizations, their spending on state elections should be limited. This measure will curb the spending of noncandidate committees that do not have contribution and expenditure limits.

Your Committee has amended this measure by:

- (1) Specifying that this measure proposes an amendment to the Hawaii State Constitution to allow the State to limit moneys expended by any noncandidate committee making only independent expenditures to influence the outcome of a state election;
- (2) Specifying that the question on the ballot be "Shall the Hawaii State Constitution be amended to allow the Legislature to enact laws establishing limitations on moneys expended by any noncandidate committee making only independent expenditures to influence the outcome of a state election?"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 467, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 31 Judiciary on S.B. No. 486**

The purpose and intent of this measure is to prohibit, in certain circumstances, the publication of the personal information of state and federal judges and other judicial staff whose duties put them at risk for acts of violence or threats.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, State of Hawaii Organization of Police Officers, and one individual.

Your Committee finds that threats and inappropriate communications to judges and court personnel continue to escalate. At the state level, the number of threats and other inappropriate communications to Hawaii judges have increased tenfold in less than a decade, from two in 2012 to approximately twenty in both 2021 and 2022. Your Committee further finds that other judiciary staff have duties that put them at risk of threats or violence. These include social workers who monitor offenders placed on probation and judiciary staff who supervise probationers convicted of violent crimes. This measure will enhance the security of judges and judiciary personnel while not diminishing civil liberties or unduly hindering governmental operations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 486 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 32 Hawaiian Affairs on S.B. No. 261**

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to provide to beneficiaries of the Hawaiian Homes Commission Act of 1920, as amended, monthly accountability reports that contain certain information on leases and fiscal matters.

Your Committee received testimony in support of this measure from the Sovereign Council of Hawaiian Homestead Associations and three individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Hui Kako'o 'Āina Ho'opulapula.

Your Committee finds that transparency in government is of the utmost importance. Transparency promotes accountability and provides information to citizens about what their government is doing. Your Committee further finds that the Department of Hawaiian Home Lands is a government agency established and governed by the Hawaiian Homes Commission Act of 1920, as amended. The Department of Hawaiian Home Lands serves native Hawaiian beneficiaries and manages an extensive land trust for their benefit. Therefore, this measure promotes transparency by requiring the Department of Hawaiian Home Lands to provide quarterly accountability reports to beneficiaries within fifteen days following the end of each quarter.

Your Committee also notes the testimony of Hui Kako'o 'Āina Ho'opulapula, expressing concerns that the measure would require the disclosure of land lease transactions exchanged or sold between beneficiaries, which are personal and unrelated to the Department of Hawaiian Home Lands.

Therefore, your Committee has amended this measure by:

- (1) Inserting language that narrows the required disclosure of land lease transactions to those exchanged or sold between beneficiaries and the Department of Hawaiian Home Lands; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 261, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 261, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 33 Hawaiian Affairs on S.B. No. 278**

The purpose and intent of this measure is to require certain public buildings near mass transit projects that are on Hawaiian home lands to display portraits of Prince Jonah Kuhio Kalaniana'ole.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Prince Jonah Kuhio Kalaniana'ole served a nineteen-year tenure in the United States Congress. During this tenure, Prince Kuhio Kalaniana'ole led the effort to pass the Hawaiian Homes Commission Act of 1920, as amended, under which the Department of Hawaiian Home Lands was created. Your Committee further finds that displaying a portrait in recognition of Prince Kuhio Kalaniana'ole is an appropriate way to honor his legacy as author of the Hawaiian Homes Commission Act. Therefore, this measure requires certain public buildings near mass transit projects that are on Hawaii home lands to display portraits of Prince Kuhio Kalaniana'ole.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 278, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 34 (Majority) Hawaiian Affairs on S.B. No. 437**

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to issue interim rules, effective for not more than eighteen months, that are exempt from the public notice, public hearing, and gubernatorial approval requirements of chapter 91, Hawaii Revised Statutes, after beneficiary consultation is conducted by the Department of Hawaiian Home Lands and upon approval by the Hawaiian Homes Commission.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received testimony in opposition to this measure from the Sovereign Council of Hawaiian Homestead Associations, UNITE HERE Local 5, and five individuals. Your Committee received comments on this measure from Hui Kako'o 'Āina Ho'opulapula.

Your Committee finds that under existing law, the Department of Hawaiian Home Lands must conduct beneficiary consultations, or direct outreach to lessees, applicants, and native Hawaiians, before it can initiate any rulemaking procedures pursuant to chapter 91, Hawaii Revised Statutes. Your Committee further finds that beneficiary consultations alone are often comprehensive and sufficient to provide a foundation for the Department of Hawaiian Home Lands to address issues that arise. Your Committee finds that, while required, the lengthy nature of the rulemaking process on top of beneficiary consultation can forestall changes that require immediate response.

Therefore, this measure allows the Department of Hawaiian Home Lands to issue interim rules exempt from the public notice, public hearing, and gubernatorial approval requirements, after beneficiary consultation is conducted by the Department of Hawaiian Home Lands and upon approval by the Hawaiian Homes Commission, provided that the interim rules will be effective for not more than eighteen months.

Your Committee has heard the testimony of those in opposition to the measure, expressing concerns that exempting the Department of Hawaiian Home Lands from public notice requirements would deny native Hawaiian beneficiaries impacted by interim rules the transparency and accountability in government they deserve. Your Committee, while noting that the measure still requires beneficiary consultation before interim rules can be promulgated and that the interim rules are temporary in nature, finds that this concern has merit.

Therefore, your Committee has amended this measure by:

- (1) Reinstating the public notice requirement for interim rules pursuant to chapter 91, Hawaii Revised Statutes;
- (2) Establishing the measure's interim rule process within the Hawaiian Homes Commission Act, 1920, as amended, instead of within the Hawaii Revised Statutes;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 437, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Ihara).

**SCRep. 35 Water and Land on S.B. No. 730**

The purpose and intent of this measure is to appropriate funds to support the Department of Land and Natural Resources in restoring and restocking fishponds by providing fingerlings and limu and establishing one full-time equivalent (1.0 FTE) Aquaculture Coordinator Biologist VI position.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Kua'āina Ulu 'Auamo, Hawai'i Food+ Policy, Hawai'i Alliance for Progressive Action, Maunalua Fishpond Heritage Center, Hawai'i SEED, Kauai Sea Farms LLC, and twenty-nine individuals. Your Committee received testimony in opposition to this measure from the Ka'upulehu Marine Life Advisory Committee.

Your Committee finds that traditional Hawaiian fishponds, or loko ia, are unique aquaculture systems that feed and connect communities around the islands. Loko ia are important to traditional Hawaiian cultural practices and ecological watershed health, and help to promote food security in the State. Your Committee further finds that restocking loko ia with juvenile fish will support ongoing efforts to restore loko ia and make them more sustainable. Therefore, the purpose of this measure is to appropriate funds to the Department of Land and Natural Resources for the restoration and restocking of loko ia.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 730, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 36 Water and Land on S.B. No. 70**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to pursue and obtain accreditation for the Division of Conservation and Resources Enforcement from the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA).

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that proper training and organizational support are imperative to the success of law enforcement officers. As recently as 2020, the Department of Land and Natural Resources' Division of Conservation and Resources Enforcement was required to obtain accreditation in the use of electric guns from CALEA. However, Act 183, Session Laws of Hawaii 2021, inadvertently ended that requirement when it repealed the entirety of section 134-16, Hawaii Revised Statutes. Therefore, this measure will reinstate the requirement and provide funding for the Division of Conservation and Resources Enforcement to once again obtain accreditation from CALEA.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 70, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 70, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 37 Public Safety and Intergovernmental and Military Affairs on S.B. No. 455**

The purpose and intent of this measure is to:

- (1) Extend the term of the Oversight Coordinator for the Hawaii Correctional System Oversight Commission;
- (2) Specify that the Hawaii Correctional Oversight Commission shall take measures as necessary to maintain confidentiality in investigations; and
- (3) Broaden the Oversight Coordinator's power to make inquiries, obtain information, and inspect the premises of agencies and correctional facilities.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Paroling Authority, Hawaii Correctional System Oversight Commission, Malama Makua, Community Alliance on Prisons, and eleven individuals. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the Hawaii Correctional System Oversight Commission is critical to facilitating the correctional system's transition to a rehabilitative and therapeutic model. Despite being established in 2019 to meet this goal, funds were not released to the Commission until 2022, preventing the hiring of necessary staff and greatly impeding progress in achieving the Commission's mandate. Your Committee believes that broadening the Oversight Coordinator's powers and increasing the Oversight Coordinator's term will allow the Commission to function more productively and compensate for delays caused by a lack of funding. This measure will increase the Hawaii Correctional Oversight Commission's efficiency and allow the Commission to make substantial steps in achieving its goals by extending the term of the Oversight Coordinator for the Hawaii Correctional System Oversight Commission, specifying that the Commission shall take measures as necessary to maintain confidentiality in investigations, and broadening the Oversight Coordinator's power to make inquiries, obtain information, and inspect the premises of agencies and correctional facilities.

Your Committee has amended this measure by:

- (1) Requiring the Oversight Coordinator be subject to the advice and consent of the Senate;
- (2) Amending the Oversight Coordinator's term to four years, beginning with oversight coordinators that are appointed after January 1, 2050;
- (3) Authorizing the Hawaii Correctional System Oversight Commission to hold meetings closed to the public for purposes relevant to conducting an investigation not otherwise authorized by section 92-5, Hawaii Revised Statutes;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 455, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 455, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 38 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 708**

The purpose and intent of this measure is to:

- (1) Decriminalize the possession and use of fireworks;
- (2) Set fines for the possession and use of fireworks; and
- (3) Establish the Fireworks Possession Special Fund and allocate proceeds of the fund to county police departments and for climate change mitigation.

Your Committee received testimony in support of this measure from one member of the Makiki Neighborhood Board, Poi Dogs and Popoki, and ten individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Law Enforcement and one individual.

Your Committee finds that fireworks contain toxic chemicals and heavy metals that contribute to air, water, and soil pollution in the State and cause a wide variety of health concerns such as cancer, respiratory, and reproductive problems in humans and animals. Despite this, the use of illegal fireworks has only increased, with some neighborhoods experiencing fireworks on a weekly, year-round basis. Your Committee believes that additional fines for the possession and use of fireworks will reduce the use of illegal fireworks in the State. Therefore, this measure will improve the health and safety of people and animals and deter the use of illegal fireworks in the State by setting fines for the possession and use of fireworks, establishing the Fireworks Possession Special Fund, and allocating proceeds of the fund to county police departments and for climate change mitigation.

Your Committee has amended this measure by:

- (1) Removing language that would have decriminalized the possession, setting off, igniting, or discharge of aerial devices, display fireworks, or articles pyrotechnic;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 708, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 708, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Awa). Excused, none.

**SCRep. 39 Labor and Technology on S.B. No. 302**

The purpose and intent of this measure is to:

- (1) Temporarily reinstate the technology infrastructure renovation tax credit;
- (2) Define “data server”; and
- (3) Expand the definition of “technology-enabled infrastructure” to include data servers.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation and Servpac Incorporated. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the technology infrastructure renovation tax credit was enacted in 2001 to incentivize the development of high technology infrastructure and encourage the growth of high technology businesses and associated industries in the State. Your Committee recognizes that technology has advanced since the tax credit was first enacted. According to testimony from the Hawaii Technology Development Corporation, cloud software, which is powered by data servers, has become an essential part of every business and increasing the amount of technology infrastructure in the State will help to keep high-tech and innovation jobs in Hawaii.

Your Committee has amended this measure by:

- (1) Adopting language recommended by the Department of Taxation to make the technology infrastructure renovation tax credit applicable to taxable years ending on or after December 31, 2023, and beginning on or before December 31, 2025;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 40 Labor and Technology on S.B. No. 435**

The purpose and intent of this measure is to:

- (1) Impose a penalty on both the person and the firm upon the finding of violations of the state law governing wages and hours of employees on public works;
- (2) Clarify that the person liable includes a sole proprietor and the principle responsible managing employee that holds the construction license of the firm; and
- (3) Require each notice of violation to contain the names of the person and the firm.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee. Your Committee received comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that this measure is intended to prevent persons and firms that violate chapter 104, Hawaii Revised Statutes, relating to the prevailing wage and hours of employees for public work projects, from circumventing the three-year suspension from work provision of the chapter by conducting business under a new name. According to oral testimony at the hearing, a firm may have more than one employee that holds a construction license for the firm and that these employees may be subordinate responsible managing employees of the firm. Your Committee believes all parties responsible for the proper payment of wages to employees should also be liable for any repeated violations of chapter 104, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of “person” to include subordinate responsible managing employees for purposes of the three-year suspension from work provision of chapter 104, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 435, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 435, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 41 Labor and Technology on S.B. No. 597**

The purpose and intent of this measure is to exclude income received from deferred compensation retirement plans from state income tax for taxpayers who meet certain income requirements.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure seeks to address the fact that many seniors in Hawaii, especially those who solely rely on the income distributed from their retirement plans, are struggling to make ends meet.

Your Committee has amended this by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 597, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 42 Labor and Technology on S.B. No. 726**

The purpose and intent of this measure is to:

- (1) Repeal the Administrative Assistant position within the Department of Human Resources Development (DHRD); and
- (2) Reassign the responsibilities of the Administrative Assistant to the Director of Human Resources Development.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that this measure is a housekeeping measure. Although an Administrative Assistant position within DHRD was statutorily created through Act 57, Session Laws of Hawaii 2019, this position is currently not funded nor authorized. Your Committee recognizes that an Administrative Assistant VI position within DHRD was authorized through Act 248, Session Laws of Hawaii 2022. According to testimony received by your Committee, the Administrative Assistant VI position within DHRD has been filled as of November 1, 2022.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 726, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 43 (Joint/Majority) Water and Land and Agriculture and Environment on S.B. No. 77**

The purpose and intent of this measure is to facilitate the transfer of non—agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture.

Specifically, this measure:

- (1) Authorizes the Department of Agriculture to request information, prior to the transfer of non-agricultural park lands, from the Department of Land and Natural Resources related to the establishment of necessary and reasonable easements upon the lands;
- (2) Requires the Department of Agriculture to accept the transfer of and manage certain qualifying non-agricultural park lands;
- (3) Requires the Department of Agriculture, prior to offering a lease, to inquire with the Department of Land and Natural Resources regarding any easements required for access to landlocked forest reserves or other assets on the lands subject to the lease;
- (4) Continues to require the lessee to maintain a conservation plan; and
- (5) Requires approval from the Board of Land and Natural Resources and the Board of Agriculture before removing pasture lands for reforestation, or other public purposes.

Your Committees received testimony in support of this measure from the Maui County Farm Bureau; Kahuku Farms; Kapāpala Ranch; Waihunahuna Foundation; Hawaii Sustainable Beef Enterprises, LLC; Ponohele Ranch, Limited; Hawai'i Farm Bureau; Ulupono Initiative; McCandless Ranch; Hawaii Cattlemen's Council, Inc.; Larry Jeffs Farms, LLC; and eleven individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources; Hawai'i Climate Change Mitigation and Adaptation Commission; Kauai Climate Action Coalition; Maui Nui Marine Resource Council; Hawaii Environmental Change Agents Carbon Sequestration Task Force; Sierra Club of Hawai'i; Hawai'i Alliance for Progressive Action; and thirty-five individuals. Your Committees received comments on this measure from the Department of Agriculture; Office of Hawaiian Affairs; The Nature Conservancy; and Land Use Research Foundation of Hawaii.

Your Committees find that although Act 90, Session Laws of Hawaii 2003, was enacted to facilitate the transfer of certain non—agricultural park lands to the Department of Agriculture, lengthy transfer processes have stalled the transfer of many parcels of land that are primarily used for agricultural production.

Your Committees have amended this measure by:

- (1) Clarifying the purpose of this measure in its findings;
- (2) Specifying that a lease issued for transferred non-agricultural park lands shall be subject to any easement or right of entry to landlocked forest reserves;
- (3) Clarifying that the terms of the lease shall be determinative of whether activities of a lessee are unsatisfactory, rather than determined by the Department of Agriculture;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 77, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 77, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, none.

#### **SCRep. 44 Water and Land on S.B. No. 89**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to comply with the rulemaking process of chapter 91, Hawaii Revised Statutes (HRS), when designating marine management areas.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Kua'āina Ulu 'Auamo and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that marine management areas are specific geographic areas designated by statute or administrative rule for the purpose of managing a variety of marine, estuarine, or anchialine resources and their use. Your Committee further finds that there are three statutes that authorize the Department of Land and Natural Resources to designate marine management areas:

- (1) Section 190-3, HRS, authorizes the designation of marine life conservation districts;
- (2) Section 188-53, HRS, authorizes the designation of fishery management areas, which include fishing reserves, refuges, and public fishing areas; and
- (3) Section 188-22.6, HRS, authorizes the designation of community-based subsistence fishing areas.

Your Committee finds that while sections 190-3 and 188-22.6, HRS, expressly require the Department of Land and Natural Resources to comply with the rulemaking process under chapter 91, HRS, there is no express requirement under section 188-53, HRS. Although the Department of Land and Natural Resources has historically complied with the chapter 91, HRS, rulemaking process as to the designation of fishery management areas, there is no guarantee that compliance will continue in the future, absent a statutory requirement. Therefore, this measure serves to expressly require that the Department of Land and Natural Resources comply with chapter 91, HRS, when designating all marine management areas.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 89, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 89, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 45 Water and Land on S.B. No. 94**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to approve or deny special activity permit applications for aquatic research within ninety days from the date submitted.

Your Committee received testimony in support of this measure from For the Fishes. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that under section 187A-6, Hawaii Revised Statutes, the Department of Land and Natural Resources issues special activity permits that allow a person to engage in certain aquatic resource activities, otherwise prohibited by law, for scientific, educational, management, or propagation purposes. However, your Committee finds that due to the large volume of permit requests received and the various internal and external review processes required, a permit can take anywhere from one week to over twelve months to be approved, depending on the nature and scope of the proposed activity. Therefore, this measure requires the Department of Land and Natural Resources to either approve or deny special activity permit applications for aquatic research within ninety days from the date submitted.

Your Committee has heard the testimony of the Department of Land and Natural Resources stating that there is currently only one staff member dedicated to processing special activity permits, which includes, among other duties, reviewing applications, processing annual renewals, and drafting original permit and technical guidance language and submittals to the Board of Land and Natural Resources. The Department testified that unless additional staffing was provided, this measure's ninety-day requirement would likely be unfeasible.

Therefore, your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 to allow the Department of Land and Natural Resources to hire two full-time equivalent (2.0 FTE) positions within the Division of Aquatic Resources to support the special activity permit review process; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 94, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 94, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 46 Water and Land on S.B. No. 98**

The purpose and intent of this measure is to require the Auditor to audit the Department of Land and Natural Resources' Division of Aquatic Resources' expenditures of funds received from the federal Wildlife and Sport Fish Restoration Program.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of the Auditor; Department of Land and Natural Resources; and Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.

Your Committee finds that government auditing is a cornerstone of good public sector governance. In 2022, the State received over \$10 million in federal money from the Wildlife and Sport Fish Restoration Program, also known as the Pittman-Robertson Dingell-Johnson/Wallop-Breaux Program. The purpose of the funds is to support sustainable fishing, hunting, and wildlife conservation in Hawaii. Your Committee finds that oversight of these funds is necessary for good governance. Therefore, this measure requires the Auditor to conduct an audit of the Department of Land and Natural Resources' Division of Aquatic Resources to determine how funds received from the Wildlife and Sport Fish Restoration Program have been expended.

Your Committee notes the testimony of the Department and Land and Natural Resources stating that they can provide their own report summarizing how Wildlife and Sport Fish Restoration Program funds were expended and your Committee appreciates the budget breakdown submitted as part of the Department's written testimony.

Therefore, your Committee has amended this measure by:

- (1) Requiring the Division of Aquatic Resources to submit an annual report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025 and each regular session thereafter;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 98, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 47 Hawaiian Affairs on S.B. No. 738**

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to:

- (1) Authorize beneficiaries, who are sixty years or older or terminally ill, to receive an undivided interest award and to designate a successor; and
- (2) Authorize any eligible heirs of beneficiaries to file successorship claims within a certain timeframe, including posthumous undivided interest awards.

Your Committee received testimony in support of this measure from Hui Kako'o 'Āina Ho'opulapula; Sovereign Council of Hawaiian Homestead Associations; Maui-Lāna'i Mokupuni Council; Pa'upena Community Development, Inc.; Malama Ka 'Aina Hana Ka 'Aina, Inc.; Ho'omana Pono, LLC; and one individual. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that according to a survey conducted by the Department of Hawaiian Home Lands in 2022, more than twenty-eight thousand native Hawaiian beneficiaries are currently on the homestead lease waiting list. The Legislature further finds that when beneficiaries on the homestead lease waiting list pass away prior to receiving a lease award, the beneficiary also loses the ability to have their heirs succeed to a lease. Therefore, this measure authorizes beneficiaries, who are sixty years or older or terminally ill, to receive an undivided interest award and to designate a successor and authorize any eligible heirs of beneficiaries to file successorship claims within a certain timeframe.

Your Committee received comments from the Department of Hawaiian Home Lands expressing concerns regarding this measure. First, the Department testified that this measure would expand the undivided interest award program beyond its current use, which is to award undivided interest leases for particular areas under development. The Department also testified that allowing a person to advance on the waiting list ahead of other applicants due to that applicant's age or medical status would contravene section 10-3-7, Hawaii Administrative Rules, which provides that "[a]pplicants shall be considered for award in the order in which their completed applications were received by the [D]epartment." Finally, the Department testified that allowing any "eligible heir" to file a claim for an undivided interest was too broad, and that the Hawaiian Homes Commission Act, 1920, as amended, authorizes leases only for native Hawaiians defined as any descendant of not less than one-half part blood of the races inhabiting the Hawaiian islands prior to 1778.

Therefore, your Committee has amended this measure by:

- (1) Authorizing the Department of Hawaiian Home Lands to administer a Lease Award Program for beneficiaries on the waiting list, rather than an undivided interest award program; and
- (2) Clarifying that any qualified successor of a beneficiary may file a claim for a lease award in place of the deceased beneficiary.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 738, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Keohokalole, Richards). Noes, none. Excused, 1 (Ihara).

**SCRep. 48 Labor and Technology on S.B. No. 724**

The purpose and intent of this measure is to appropriate funds and authorize general obligation bonds for the enhancement of technology resources for the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Transform Hawai'i Government, and one individual.

Your Committee finds that Department of Human Resources Development's network infrastructure was last updated in 1994 and that the enhancement and modernization of its technology resources is necessary for the department to address staffing shortages and administer the state human resources program more effectively and efficiently.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 724, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 724, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 49 Labor and Technology on S.B. No. 725**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Resources Development (DHRD) to submit an annual report to the Legislature on the telework policies of the executive branch; and
- (2) Appropriate funds for DHRD to compile an annual report on the telework policies of the executive branch, including the establishment of one full-time equivalent (1.0 FTE) position within DHRD.

Your Committee received testimony in support of this measure from Department of Human Resources Development, Office of Planning and Sustainable Development, Transform Hawai'i Government, and two individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that as each department implements the updated telework program guidelines developed by DHRD, it is necessary to have measures and metrics in place to ensure the effective and efficient adoption of telework strategies in the executive branch. Your Committee further finds that annual data on telework adoption and usage in the executive branch will help guide future legislation, policy recommendations, and decision-making relating to teleworking in the State.

Your Committee notes the oral testimony of DHRD expressing the need for a one full-time equivalent (1.0 FTE) permanent telework coordinator position who will ensure the timely submission of the annual report to the Legislature required by this measure and who will be tasked with researching best practices and technological solutions to manage telework policy in the executive branch. Your Committee finds that this issue merits further consideration and examination by your Committee on Ways and Means, should it choose to hear this measure.

Your Committee has amended this measure by:

- (1) Adding language that requires DHRD to include in its annual report metrics on the productivity of telework employees by each department of the executive branch;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 725, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 725, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 50            Labor and Technology on S.B. No. 1317**

The purpose and intent of this measure is to appropriate general funds for federal broadband programs matching fund requirements.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; University of Hawai'i System; Hawaii Primary Care Association; and Hawaiian Telcom Services Company, Inc.

Your Committee finds that the Legislature enacted Act 231, Session Laws of Hawaii 2022, to ensure that it takes full advantage of available funds to build and maintain the broadband infrastructure necessary to sustain interconnectivity throughout the State. According to testimony received by your Committee, the State needs to demonstrate that matching funds are available to be awarded additional federal Broadband Equity, Access, and Deployment funding to improve broadband access in the State. Based on oral testimony received, your Committee further finds that the composition of the working group established pursuant to Act 231, Session Laws of Hawaii 2022, should be amended to facilitate its purpose in determining the appropriate governance structure to implement, operate, and maintain broadband infrastructure development in the State.

Accordingly, your Committee has amended this measure by:

- (1) Amending the language of Act 231, Session Laws of Hawaii 2022, to require the Office of the Lieutenant Governor to convene and chair the working group;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1317, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 51            Judiciary on S.B. No. 221**

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Victim Witness Assistance Program.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Hawai'i, and one individual.

Your Committee finds that the Victim Witness Assistance Program provides direct support services to the victims and witnesses of crimes committed in Hawaii. Your Committee further finds that the Honolulu Victim Witness Kokua Services Unit has helped over four thousand crime victims. Victims are usually the key witnesses in a case and without their testimony, criminals often could not be held responsible for their actions. Your Committee believes that increased funding is necessary to maximize the effectiveness of this important program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to a grant-in-aid; and
- (2) Inserting an effective date of January 1, 3000, to encourage further discussion.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$736,785.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 221, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 52            Judiciary on S.B. No. 222**

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu for the Career Criminal Prosecution Unit.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Hawai'i, Retail Merchants of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that a disproportionate number of serious crimes against the public are committed by a relatively small number of multiple and repeat-felony offenders, commonly known as "career criminals". Your Committee further finds that by their nature, career criminal prosecution cases are often labor intensive and require experienced and well-trained deputy prosecutors. This measure appropriates funds to staff the Career Criminal Prosecution Unit so that the prosecution of career criminals can be more effectively pursued.

Your Committee has amended this measure by:

- (1) Changing the appropriation to a grant-in-aid; and
- (2) Inserting an effective date of January 1, 3000, to encourage further discussion.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$708,806.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 222, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 53            Judiciary on S.B. No. 167**

The purpose and intent of this measure is to:

- (1) Establish an investigator position in the Campaign Spending Commission; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that the Campaign Spending Commission, the state agency for enforcement of the State's campaign finance laws, does not have a designated investigator position. The existing five staff members perform investigative duties, as needed. Recently, staff members have been subpoenaed to testify in contested case hearings and in a criminal proceeding regarding their roles in the investigation of those cases. This can be problematic, especially for the general counsel, who is responsible for presenting the case to the Campaign Spending Commission where the executive director is the complainant. This measure will increase the Campaign Spending Commission's staff by one investigator position, which will resolve any potential conflict.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 167 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 54          Judiciary on S.B. No. 485**

The purpose and intent of this measure is to establish one additional judgeship in the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii State Bar Association, and one individual.

Your Committee finds that at the outset of the coronavirus disease 2019 pandemic, the Judiciary quickly implemented remote hearings in order to continue providing vital services and ensuring litigants still had the opportunity to be heard. However, the District Court of the First Circuit found that remote and hybrid proceedings require additional resources and take longer than in-person proceedings. Over time, longer court sessions mean that fewer hearings can be scheduled per session. If left unaddressed, this could result in case backlogs.

Your Committee further finds that many of the cases that come before the District Court have become more complex, involving interdisciplinary issues that are reflected in the community. This measure will add an additional judge to the District Court of the First Circuit, which will provide the District Court with the ability to better manage court dockets, be more responsive to the needs of the community, increase capacity in the rural courts, and develop and expand specialized court calendars.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 55          Education on S.B. No. 826**

The purpose and intent of this measure is to transfer general funds previously appropriated to the School Facilities Authority of the Department of Education to the School Facilities Special Fund.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, School Facilities Authority, Executive Office on Early Learning, University of Hawai'i System, and Hui for Excellence in Education. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that funding early childhood education allows Hawaii's keiki to thrive and succeed in their future academic careers. However, the State is experiencing a chronic shortage of school facilities to meet the demand for pre-kindergarten programs for eligible children of the State. Therefore, your Committee further finds that, to ensure all eligible children in the State have the opportunity to attend pre-kindergarten programs, the School Facilities Authority should be adequately funded to provide more capacity in various early childhood education programs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

**SCRep. 56          Education on S.B. No. 7**

The purpose and intent of this measure is to make necessary amendments to clarify certain references to the School Facilities Authority used in section 302A-1151.1, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the School Facilities Authority.

Your Committee finds that, while occasional, certain statutes require clarifying amendments that are often technical but include substantive elements that should be thoroughly considered. Act 217, Session Laws of Hawaii 2021 (Act 217), replaced the terms "Department", "Board", or "Board of Education" with "School Facilities Authority" in section 302A-1151.1, Hawaii Revised Statutes. However, the amendments made by Act 217 now contain redundant and confusing references that need clarification. To ensure the substantive elements of Act 217 remain in force, this measure clarifies existing statutory language to effectuate Act 217's intended purpose.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 7 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

**SCRep. 57          Hawaiian Affairs on S.B. No. 490**

The purpose and intent of this measure is to establish a compliance and law enforcement program within the Department of Hawaiian Home Lands to investigate complaints, conduct investigations, and cooperate with law enforcement authorities to ensure compliance with all state laws and rules and county ordinances on Hawaiian home lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received testimony in opposition to this measure from the Department of Law Enforcement, Department of Public Safety, Sovereign Council of Hawaiian Homestead Associations, and six individuals. Your Committee received comments on this measure from Hui Kako'o 'Aina Ho'opulapula.

Your Committee finds that illegal activity on Hawaiian home lands threatens the health and safety of homestead communities. Your Committee has heard testimony from a homestead leader and the Department of Hawaiian Home Lands expressing concerns that better coordination is needed between law enforcement agencies who routinely decline responding to illegal activities on homestead lands citing their lack of jurisdiction. Your Committee finds that establishing a law enforcement agency within the Department of Hawaiian Home Lands would be beneficial to residents and promote peace, safety, and order. Therefore, this measure appropriates funds to establish a compliance and enforcement program within the Department of Hawaiian Home Lands to investigate complaints, conduct investigations, and cooperate with enforcement authorities to ensure compliance with all state laws and rules and county ordinances on Hawaiian home lands.

Your Committee has also heard the testimony of the Department of Law Enforcement expressing concerns that this measure is contrary to the Legislature's intent expressed through Act 278, Session Laws of Hawaii 2022 (Act 278), to consolidate state law enforcement activities by establishing the Department of Law Enforcement. The Department of Law Enforcement further testified that they are the entity tasked with administering criminal law enforcement and investigations on homestead lands, and could investigate various crimes, such as gambling, drug house activities, and human trafficking. The Department of Law Enforcement further testified that they plan to hire more law enforcement officers in January of 2024, per Act 278, and that additional funding would support them in carrying out their duties on Hawaiian home lands.

Therefore, your Committee has amended this measure by:

- (1) Deleting language that would have established the compliance and enforcement program on Hawaiian home lands;
- (2) Appropriating funds to the Department of Law Enforcement to hire law enforcement officers dedicated to serving Hawaiian home lands;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Amending the effective date to July 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount and an unspecified number of full-time equivalent law enforcement officers. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$500,000 and five full-time equivalent (5.0 FTE) law enforcement officers.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 490, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 58 (Majority) Transportation and Culture and the Arts on S.B. No. 809**

The purpose and intent of this measure is to:

- (1) Rename the Electric Bicycle and Electric Moped Rebate Program as the Electric Mobility Rebate Program;
- (2) Expand the scope of the program to include electric micro-mobility devices and an additional rebate type; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Department of Transportation, Ulupono Initiative, and PeopleForBikes Coalition.

Your Committee finds that the single greatest factor of the increasing cost of living in Hawaii is the rising cost of transportation. To address this factor, Act 306, Session Laws of Hawaii 2022, established the Electric Bicycle and Electric Moped Rebate Program, administered by the Department of Transportation, to offer eligible individuals a rebate of twenty percent or \$500 of the retail cost. However, as Hawaii's people find alternative electric-powered modes of transportation, greater accessibility to the rebate program is needed to ease cost-of-living expenses in the State.

Your Committee notes the testimony of the PeopleForBikes Coalition regarding the issuance of rebates under the Electric Mobility Rebate Program. While current provisions of the program offer a rebate to eligible individuals purchasing a micro-mobility device, according to the PeopleForBikes Coalition, low-income customers are less likely to have the funds available to purchase a micro-mobility device at full cost while waiting months for a rebate check. By providing an instant rebate to eligible individuals, there may be greater interest in the program, especially for individuals who could benefit from micro-mobility devices. Your Committee additionally notes that the Department of Transportation should consider the possibility of an instant rebate program as a component of the Electric Mobility Rebate Program.

Your Committee has amended this measure by:

- (1) Deleting language that would have defined an electric that a micro-mobility device to be designed to transport a single person;
- (2) Repealing the requirement that eligible individuals under the Electric Mobility Rebate Program cannot own a motor vehicle with four or more wheels;
- (3) Inserting language to allow for ten percent of the appropriation out of the Electric Mobility Subaccount to be used for the Department of Transportation's administration of the program; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 59 Water and Land on S.B. No. 92**

The purpose and intent of this measure is to establish a time limitation for community-based subsistence fishing area designations and allow the Department of Land and Natural Resources to consider extending a designation in the year prior to the designation's expiration unless the designation is made through statute before its expiration.

Your Committee received testimony in support of this measure from Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Hawai'i Alliance for Progressive Action; and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs; Hawai'i Wildlife Fund; Kuakini Hawaiian Civic Club of Kona; Hui 'Ohana o Honaunau; Protect Keopuka 'Ohana; Earthjustice; The Nature Conservancy; Sierra Club of Hawai'i; Kua'āina Ulu 'Auamo; Kalanihale; HULI PAC; Kauhakō Ohana Association; Destination Kona Coast; Aloha Animal Advocates, Inc.; Malama Pupukea-Waimea; Big Island Reef Keepers Hui; Hawaii Reef and Ocean Coalition; Kipahulu Ohana, Inc.; Moana Ohana LLC; Miloli'i Makai Watch; Hawaii Marine Education and Research Center; and thirty individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and University of Hawai'i System.

Your Committee finds that a community's needs and cultural practices can change over time. To remain relevant, community-based programs, such as community-based subsistence fishing areas, must adapt accordingly. However, your Committee finds that community-based fishing area designations are permanent. Therefore, this measure establishes a time limitation on community-based subsistence fishing area designations to ensure community-based subsistence fishing areas reflect the needs of Hawai'i communities.

Your Committee notes that the Ha'ena community-based subsistence fishing area is the only fishing area currently designated by statute. Your Committee further notes that because of the Ha'ena fishing area's statutory designation, it would not be impacted by a sunset limitation and would thus contravene the intent of this measure.

Therefore, your Committee has amended this measure by:

- (1) Establishing that designations made by statute shall remain valid for not more than an unspecified number of years, to encourage further discussion;
- (2) Requiring the Department of Land and Natural Resources to submit a status report to the Legislature, Board of Land and Natural Resources, and community-based subsistence fishing area stakeholders every five years;
- (3) Repealing the statute designating the Ha'ena community-based subsistence fishing area;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 92, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 60 (Majority) Water and Land on S.B. No. 81**

The purpose and intent of this measure is to clarify that the Board of Land and Natural Resources' authority shall supersede the Mauna Kea Stewardship and Oversight Authority for all lands designated under the state conservation district.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Mauna Kea Stewardship and Oversight Authority and three individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the protection of the State's natural resources is of paramount importance. With the enactment of Act 255, Session Laws of Hawaii 2022, the Legislature vested certain natural resource management powers to the newly established Mauna Kea Stewardship and Oversight Authority for lands identified and defined as "Mauna Kea lands". Following a five-year transition period, the Authority will acquire the powers and duties previously held by the Board of Land and Natural Resources as to these Mauna Kea lands.

Your Committee further finds that during this transition period, the law is ambiguous as to whether the Board of Land and Natural Resources or the Mauna Kea Stewardship and Oversight Authority is responsible for Mauna Kea lands that are also designated under the state conservation district. Therefore, this measure clarifies that the Board of Land and Natural Resources will be responsible for Mauna Kea lands designated under the state conservation district.

Your Committee received testimony from the Department of the Attorney General expressing concern that this measure is unclear as to whether the Board of Land and Natural Resources would retain power and jurisdiction over lands designated under the state conservation district pursuant only to chapter 183C, Hawaii Revised Statutes (HRS), or both chapters 171 and 183C, HRS.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the Board of Land and Natural Resources and the Department of Land and Natural Resources will have power and jurisdiction over lands designated under the state conservation district pursuant to both chapters 171 and 183C, HRS; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 81, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 81, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey). Noes, 1 (Fevella). Excused, none.

**SCRep. 61 Health and Human Services on S.B. No. 404**

The purpose and intent of this measure is to preserve access to health care for Medicaid recipients in the State by continuing and strengthening the Hospital Sustainability Program by:

- (1) Modifying the program to:
  - (A) Expand the definition of private hospitals subject to the program;
  - (B) Increase the fee cap on various hospital sustainability fees;
  - (C) Require the Department of Human Services to consult and negotiate with the hospital trade association located in Hawaii regarding fee participation and rates; and
  - (D) Require the hospital sustainability fee to discontinue under certain circumstances and provide guidelines for the distribution of remaining funds;
- (2) Making the program permanent;
- (3) Permanently exempting the Hospital Sustainability Program Special Fund from the central service expenses assessment and administrative expenses assessment; and
- (4) Appropriating funds out of the Hospital Sustainability Program Special Fund for the purposes of the program.

Your Committee received testimony in support of this measure from Department of Human Services, Hawai'i Pacific Health, The Queen's Health System, Healthcare Association of Hawaii, Kaiser Permanente Hawai'i, Hilo Medical Center Foundation, Hawai'i Primary Care Association, Democratic Party of Hawai'i Kūpuna Caucus' Health and Medical Services Sub-Committee, and One Kalakaua Senior Living Association.

Your Committee finds that the Hospital Sustainability Program and Hospital Sustainability Program Special Fund, established in 2012, play a major role in protecting hospital access for Medicaid beneficiaries, which is especially important as the State continues to work its way out of the coronavirus disease 2019 pandemic and resulting shortage in the State's health care workforce. The program functions by assessing provider fees, known as hospital sustainability fees, on inpatient and outpatient care services provided by private hospitals. The collected fees are then used as a basis to obtain federal Medicaid matching funds. The aggregate state and federal funds are distributed to hospitals as supplemental payments to reduce Medicaid uncompensated care losses. Your Committee also finds that due to the nature of the federal Medicaid matching formula, increasing the provider fees assessed on hospitals under the program can result in a substantial increase in the State's receipt of federal Medicaid payments without negatively impacting the State's budget. Your Committee also finds that the Hospital Sustainability Program, which has successfully helped acute care facilities treat the most vulnerable patients in the State, is scheduled to be repealed on December 31, 2023, with funding provisions scheduled to be repealed on June 30, 2024. This measure will enhance and make the program permanent, thereby preserving and improving access to quality health care for Medicaid recipients.

Your Committee has amended this measure by:

- (1) Adding certain technical, nonsubstantive amendments to sections 36-27 and 36-30, Hawaii Revised Statutes, pertaining to the Hospital Sustainability Program Special Fund exemption from the central service expenses assessment and administrative expenses assessment;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 404, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 62 Health and Human Services on S.B. No. 314**

The purpose and intent of this measure is to:

- (1) Preserve access to health care for Medicaid recipients by continuing and strengthening the Nursing Facility Sustainability Program by:

- (A) Making the program permanent;
  - (B) Making the Nursing Facility Sustainability Program Special Fund's exemption from the central service expenses assessment and the administrative expenses assessment permanent; and
  - (C) Appropriating funds out of the Nursing Facility Sustainability Special Fund for the program; and
- (2) Repeal State law governing tax imposed on nursing facility income.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Pacific Health, Healthcare Association of Hawaii, Palolo Chinese Home, Hilo Medical Center Foundation, Hawai'i Primary Care Association, Democratic Party of Hawai'i Kūpuna Caucus' Health and Medical Services Sub-Committee, The Queen's Health System, Kaiser Permanente Hawai'i, and Aloha Nursing Rehab Centre. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that, in recognition that reimbursements from Medicaid are less than the actual costs of care provided to Medicaid recipients, the Legislature established the Nursing Facility Sustainability Program and the Nursing Facility Sustainability Program Special Fund in 2012 to increase Medicaid payments to nursing facilities. The program functions by assessing provider fees on health care items or services provided by nursing facilities and using the collected fees as a basis to obtain federal Medicaid matching funds. The aggregate state and federal funds are then distributed to nursing facilities as supplemental payments to reduce Medicaid uncompensated care losses. Your Committee also finds that due to the nature of the federal Medicaid matching formula, increasing the provider fees assessed on nursing facilities under the program can result in a substantial increase in the State's receipt of federal Medicaid payments without negatively impacting the State's budget. Your Committee also finds that the Nursing Facility Sustainability Program has successfully helped Hawaii's nursing facilities offset losses, thereby allowing them to continue treating the most vulnerable patients in the State. The program, however, is scheduled to be repealed on December 31, 2023, with funding provisions scheduled to repeal on June 30, 2024. This measure will enhance and make the Nursing Facility Sustainability Program permanent, which will preserve and improve access to quality health care for Medicaid recipients in the State.

Your Committee has amended this measure by:

- (1) Deleting technical, nonsubstantive amendments made to sections 36-27 and 36-30, Hawaii Revised Statutes, that relate to the Hospital Sustainability Program Special Fund;
- (2) Clarifying that there is only one nursing facility trade association located in Hawaii;
- (3) Amending section 1 to reflect its updated purposes;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 314, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 63 Health and Human Services on S.B. No. 397**

The purpose and intent of this measure is to appropriate funds to increase Medicaid reimbursements to eligible health care professionals to match the current Medicare fee schedule.

Your Committee received testimony in support of this measure from the Department of Human Services; State Council on Developmental Disabilities; University of Hawai'i System; AlohaCare; AARP Hawai'i; Hawaii Association of Health Plans; Healthcare Association of Hawaii; Hawai'i State Center for Nursing; Hawai'i Association of Professional Nurses; Kaiser Permanente Hawai'i; Palolo Chinese Home; Hilo Medical Center Foundation; Aloha House, Inc.; Democratic Party of Hawai'i Kūpuna Caucus' Health and Medical Services Sub-Committee; Kauai Community Health Alliance; Hawai'i Pacific Health; Hawaii Substance Abuse Coalition; Hawai'i Health & Harm Reduction Center; One Kalakaua Senior Living Association; The Queen's Health System; Hawaii Provider Shortage Crisis Task Force; and eight individuals.

Your Committee finds that health care in Hawaii is financed primarily by Medicare, Medicaid, and private health care insurance. According to the Department of Human Services, Medicaid enrollment has increased in the State by over forty percent in the last three years. As a result, nearly one-third of Hawaii residents are covered by Medicaid. Due to the significant number of Hawaii residents enrolled in Medicaid, health care providers who care for Medicaid recipients are receiving less reimbursement than those who provide the same care for patients covered by Medicare or private health care insurance. Moreover, while some providers (including critical access hospitals, community health centers, and providers who perform certain services) are reimbursed at cost or at the same rates as Medicare, most individual health care professionals (including physicians, psychiatrists, psychologists, and advanced practice registered nurses) are not. Your Committee further finds that the lesser reimbursement rate contributes to the challenges these providers face in sustaining their practices, leading some to limit or refuse to accept Medicaid patients, and adding to Hawaii's health professional shortage.

Your Committee also finds that with the additional general fund appropriation of \$30,000,000 provided by this measure, the Department of Human Services with federal approval, will qualify to access federal matching funds of approximately \$43,000,000, which will be used to implement the Medicaid reimbursement rate increase to eligible health care professionals in the State who provide care for Medicaid recipients. The increase may encourage health care providers to accept Medicaid patients and improve access to health care for Medicaid patients in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 397, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 64 Health and Human Services on S.B. No. 295**

The purpose and intent of this measure is to improve the State's child welfare system by:

- (1) Establishing within the Office of Wellness and Resilience, the Malama Ohana Working Group to seek, design, and recommend transformative changes to the State's existing child welfare system;
- (2) Authorizing the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Malama Ohana Working Group in carrying out its duties;
- (3) Requiring the Malama Ohana Working Group to report to the Legislature prior to the Regular Session of 2025, and be dissolved upon adjournment sine die thereof; and
- (4) Appropriating \$250,000 for the Malama Ohana Working Group, including funding for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the working group in carrying out its duties.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of Wellness and Resilience; Hawaii Coalition for Child Protective Reform; Catholic Charities Hawai'i; Hawai'i Children's Action Network (HCAN) Speaks!; Family Programs Hawaii; Epic 'Ohana, Inc.; Hale Kipa; Hawaii Family Advocacy Group; Hawai'i State Coalition Against Domestic Violence; and nine individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that there is a strong desire in the community to address the long-standing shortcomings of Hawaii's child welfare system that have been accentuated by the disappearance of six-year-old Isabella Kalua, also known as Ariel Sellers, at her home in Waimanalo and further exacerbated by the effects of coronavirus disease 2019 pandemic. Your Committee further finds that the problems faced by children and families in the State's child welfare system are extremely complex and cannot be resolved by the Department of Human Services alone. To address and resolve these diverse and multi-faceted problems, the State must work with the community and various stakeholders to determine where the core child welfare infrastructure is failing. This measure establishes a working group comprised of various members of the community and stakeholders to develop recommendations to establish a child welfare system that is trauma informed, sustains a community-based partnership, and is responsive to the needs of children and families in the system and the community.

Your Committee requests that your Committee on Ways and Means consider an appropriation amount of \$250,000 for the Malama Ohana Working Group established pursuant to this measure, including funding for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the working group in carrying out its duties.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 295, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 65 (Majority) Health and Human Services on S.B. No. 398**

The purpose and intent of this measure is to:

- (1) Expand the investigative powers of the Department of Human Services to include review and investigation of families that receive benefits from the State's adoption assistance program and against whom a post-adoption complaint has been made;
- (2) Require the Department of Human Services to collect and analyze data to determine the impact of expanding post-permanency services to families receiving benefits from the adoption assistance program and report its findings and recommendation to the legislature before the convening of the Regular Session of 2025;
- (3) Establish within the Department of Human Services a Malama Ohana Working Group to seek, design, and recommend transformative changes to the State's existing child welfare system;
- (4) Require the Malama Ohana Working Group to report its findings and recommendations to the Legislature before the convening of the Regular Session of 2025 and dissolve on June 30, 2025; and

- (5) Appropriate an unspecified amount of funds for the procurement of contracted services to provide additional support, resources, and monitoring of families receiving benefits from the State's adoption assistance program, including funding for certain additional full time equivalent positions and for the Malama Ohana Working Group.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform and two individuals. Your Committee received comments on this measure from the Department of Human Services and EPIC 'Ohana, Inc.

Your Committee finds that many children in foster care continue to require support from the Department of Human Services' Child Welfare Services Branch after being placed in permanent custody of a family through adoption. Your Committee further finds that there is strong desire in the community to address the long-standing shortcomings of Hawaii's child welfare system to detect and prevent cases like the recent abuse and death of Isabella Kalua, also known as Ariel Sellers, and other similar past tragedies befalling children who were or had previously been under the protection and legal jurisdiction of the State. This measure would assist the Department of Human Services in their efforts to improve the child welfare system.

Your Committee notes the concerns raised in the testimony of the Department of Human Services that existing law already authorizes the Department to investigate upon receiving a report that a child is subject to imminent harm, has been harmed, or is subject to or threatened harm, and applies to all families residing in the State, including those receiving adoption assistance. Additionally, your Committee finds that S.B. No. 295 (Regular Session of 2023), which was also heard by your Committee, establishes a Malama Ohana Working Group in the Governor's Office of Wellness and Resilience, and is the preferred vehicle for advancing this important effort to recommend collaborative, transformative changes to the State's child welfare system. Amendments to this measure are therefore necessary to address these concerns.

Your Committee further notes the testimony of the Department of Human Services requesting an appropriation amount of \$8,000,000 for the itemized expenditures and positions described in this measure to improve the child welfare system. Your Committee requests that your Committee on Ways and Means consider the appropriation amount suggested by the Department of Human Services, taking into account that some of the amounts have been added by the Department into its budget request.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have expanded the investigative powers of the Department of Human Services to include review and investigation of families that receive benefits from the State's adoption assistance program and against whom a post-adoption complaint has been made;
- (2) Deleting language that would have established the Malama Ohana Working Group in the Department of Human Services;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 398, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 398, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 66 Health and Human Services on S.B. No. 1472**

The purpose and intent of this measure is to appropriate funds to:

- (1) Expand and enhance the suicide crisis hotline and crisis management services provided by contracted service providers through the Hawaii CARES Crisis Helpline;
- (2) Expand and enhance the crisis mobile outreach services provided by contracted service providers through the Hawaii CARES Crisis Helpline;
- (3) Expand licensed crisis residential shelter services provided by contracted service providers through the Hawaii CARES Crisis Helpline; and
- (4) Expand bed stabilization services provided by contracted service providers through the Hawaii CARES Crisis Helpline.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Disability Rights Center; Aloha House, Inc.; Democratic Party of Hawai'i Kūpuna Caucus' Health and Medical Services Sub-Committee; Hawai'i Health & Harm Reduction Center; and four individuals.

Your Committee finds that the Hawaii coordinated access resource entry system (CARES) crisis helpline is a statewide crisis call line open twenty-four hours a day, seven days a week, that connects Hawaii residents who are experiencing a mental health crisis with appropriate crisis response service providers to reduce unnecessary hospitalizations and arrests, and provides continual care by maintaining contact between the individual and service providers throughout the duration of treatment. Your Committee also finds that calls made from Hawaii to the National Suicide Prevention Lifeline, now known as the 988 Suicide and Crisis Lifeline, are routed to the Hawaii CARES crisis helpline. Your Committee further finds that the volume of calls to the Hawaii CARES crisis helpline has increased since July 2022, when the National Suicide Prevention Lifeline transitioned to the 988 Suicide and Crisis Lifeline, which is an easy-to-remember, three-digit dialing code of "9-8-8". The funds appropriated by this measure will accommodate the increase in the volume of calls received by the Hawaii CARES crisis helpline to help ensure that individuals who access the Hawaii CARES crisis

helpline directly or through the 988 Suicide and Crisis Lifeline are provided with appropriate crisis intervention services and crisis care coordination.

Your Committee notes the Department of Health's testimony regarding their funding needs and urges the Department to submit to your Committee on Ways and Means for its consideration the requested amount of appropriations for the expansion and enhancement of the crisis mobile outreach services provided by contracted service providers through the Hawaii CARES crisis helpline, pursuant to this measure, including the breakdowns.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii CARES is overseen by the Department of Health's Behavioral Health Administration and is managed by two separately contracted entities that specialize in behavioral health crisis response and substance use disorder treatment referrals, respectively;
- (2) Replacing "9-8-8" with its official name, the "988 Suicide and Crisis Lifeline" throughout the measure;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1472, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 67 Labor and Technology on S.B. No. 1302**

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2023-2025 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that negotiations for collective bargaining unit (5) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached prior to the end of the 2023 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 68 Labor and Technology on S.B. No. 1313**

The purpose and intent of this measure is to enable the Board of Trustees (Board) of the Hawaii Employer-Union Health Benefits Trust Fund (Trust Fund) to establish appropriate salaries for the Administrator and Chief Investment Officer of the Trust Fund.

Your Committee received testimony in support of this measure from the Hawaii-Employer Union Health Benefits Trust Fund.

Your Committee finds that this administration-sponsored measure will allow the Board of the Trust Fund to exercise the same salary-setting power for certain managerial positions as the Board of Trustees of the Employees' Retirement System. According to oral testimony from the Board, although it currently sets the salary of its Administrator, this duty is not outlined in statute. By clarifying statutory language to reflect the Board's ability to set a competitive salary for its quality managers, such as the Chief Investment Officer, your Committee anticipates an increase in the hiring and retention of qualified individuals to administer the day-to-day activities of the Trust Fund.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1313, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 69 (Majority) Labor and Technology on S.B. No. 1314**

The purpose and intent of this measure is to exclude the Medicare reimbursements by the State and counties for the spouses of retired employees hired after June 30, 2023.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Employer-Union Health Benefits Trust Fund. Your Committee received comments on this measure from the Hawaii Government Employees Association, Local 152, American Federation of State, County and Municipal Employees, AFL-CIO.

Your Committee finds that this administration-sponsored bill would reduce the State's annual required contributions to other post-employment benefits trust funds by approximately \$1,200,000,000 over the next thirty years. According to testimony from the Hawaii Employer-Union Health Benefits Trust Fund, this provision should have been incorporated and enacted when the State and counties were no longer required to reimburse Medicare Part B premiums for retired employees that were hired after June 30, 2001. Your Committee further finds that this housekeeping measure would not impact current retirees, vested former employees, or current employees.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1314, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Fevella). Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 70 Labor and Technology on S.B. No. 1383**

The purpose and intent of this measure is to:

- (1) Create the Unemployment Insurance Technology Special Fund (Special Fund) to fund the operating and maintenance costs of the information technology infrastructure for the Unemployment Insurance Program;
- (2) Impose an additional assessment of .01 percent to Unemployment Compensation Trust Fund contributions to be deposited into the Special Fund; and
- (3) Clarify the order of priority to apply collections from delinquent employers to delinquent amounts under Hawaii's Employment Security Law.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that although federal funds are currently available for the infrastructure and equipment necessary to modernize the Unemployment Insurance Program, the costs of operating and maintaining the information technology systems are not covered by federal funds. According to oral testimony, the assessment proposed in this measure would generate \$1,500,000 each year to defray existing and future operation and maintenance costs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1383, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1383, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 71 (Majority) Judiciary on S.B. No. 925**

The purpose and intent of this measure is to establish a wealth asset tax of one percent of the state net worth of each individual taxpayer who holds \$20,000,000 or more in assets in the State.

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawai'i and four individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, Grassroot Institute of Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that extremely wealthy individuals whose state assets exceed \$20,000,000 possibly are not contributing their fair share of taxes. This category includes numerous wealthy non-residents who hold assets in Hawaii, which increases real property values and places financial burdens on the residents of Hawaii. Increasing taxes on individuals with many millions of dollars in assets will generate more revenue for the benefit of the State's economy. This measure will ensure that individuals with \$20,000,000 or more in assets in the State pay their equitable share of taxes.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Taxation shall submit proposed legislation recommending certain provisions for the proper implementation and administration of a wealth asset tax to the Legislature no later than forty days prior to the convening of the regular session of 2024;

- (2) Incorporating the severability clause proposed by the Department of the Attorney General; and
- (3) Inserting an effective date of July 1, 2050; provided that the Act shall apply to taxable years beginning after December 31, 2025, to encourage further discussion.

Your Committee notes how extreme wealth inequity has become and the negative effects on economic growth it has in places where Gini coefficients or other indicators that measure inequality have been determined.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 925, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 72 (Majority) Judiciary on S.B. No. 927**

The purpose and intent of this measure is to propose a constitutional amendment to specify that reapportionment shall be based on the resident population, as counted in the most recent decennial United States census.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from seven individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Hawaii State Constitution is unique in its determination of resident population for reapportionment purposes. Reapportionment is the process of re-distributing seats for elected officials so that the seats are relatively evenly distributed based on the resident population. Since being ratified by voters in November 1992, Article IV, sections 4 and 6, of the Hawaii State Constitution, have required that reapportionment for state senators and representatives be based on the average number of "permanent residents" in each district. Any resident not deemed "permanent" is extracted or deleted from the total number of "permanent residents" used by the Reapportionment Commission. Thus, even if such resident is included in the decennial United States census count as a "usual resident", they are not factored into the allocation of state senate and house districts. This measure will ensure that all individuals who live in a specific area are not extracted and are counted for representation purposes for that district.

Your Committee has amended this measure by:

- (1) Specifying that the reapportionment be based on the resident population, as counted in the decennial United States census for the respective reapportionment year; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 927, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 927, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (San Buenaventura). Excused, none.

**SCRep. 73 Judiciary on S.B. No. 181**

The purpose and intent of this measure is to provide one-time grants-in-aid to the respective ethics boards of the counties of Kauai, Maui, and Hawaii, and to the Ethics Commission of the City and County of Honolulu.

Your Committee received testimony in support of this measure from Hawai'i State Ethics Commission, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, Holomua Collective, and one individual. Your Committee received comments on this measure from the Honolulu Ethics Commission.

Your Committee finds that many of the county ethics boards or commissions lack the necessary resources to adequately meet their constitutionally mandated obligations. Limited or no staffing prevents these entities from sufficiently investigating complaints, providing advice to current county employees, or offering training on how to follow the pertinent code of ethics. Your Committee further finds that providing a one-time grant-in-aid would allow the county entities to develop the infrastructure and capacity to better meet the constitutional mandate of holding public officers and employees to "the highest standards of ethical conduct". It would also allow the counties to appropriately establish greater and more reliable funding over time. This measure will incentivize and encourage the counties to provide greater capacity to county ethics boards or commissions.

Your Committee has amended this measure by:

- (1) Adding language to the findings stating that the grant-in-aid would allow the county ethics boards of Maui, Kauai, Hawaii, and Oahu to hire paid staff who will be responsible for securing, from the respective counties, future ethics board funding; and
- (2) Inserting an effective date of January 1, 3000, to encourage further discussion.

Your Committee notes that the Senate Draft 1 of this measure contains unspecified appropriation amounts and respectfully requests that your Committee on Ways and Means considers inserting an appropriation amount of \$200,000 for each ethics board of the counties of Kauai, Maui, and Hawaii, and to the Ethics Commission of the City and County of Honolulu.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 181, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 74 Energy, Economic Development, and Tourism on S.B. No. 795**

The purpose and intent of this measure is to:

- (1) Require productions to provide evidence of reasonable efforts to comply with all applicable requirements to qualify for the motion picture, digital media, and film production income tax credit; and
- (2) Require taxpayers be given notice and an opportunity to cure requirements for the motion picture, digital media, and film production income tax credit.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Motion Picture Association; Island Film Group; IATSE Local 665; and twenty-two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the motion picture, digital media, and film production income tax credit program is a critical tool for developing the State's film industry. Since its inception in 2006, the tax incentive has grown the State's film industry from \$100,000,000 per year to an over \$400,000,000 per year economic driver that creates more than four thousand direct and induced jobs annually. Your Committee believes that the motion picture, digital media, and film production income tax credit program has resulted in a thriving film and digital media industry that has broadened the State's tax base and helped to strengthen the State's economy. This measure will help continue to create high-paying jobs and allow the State to remain a successful production center in the Pacific by ensuring that productions will not be at risk of being found non-compliant with the tax credit requirements over minor technical issues and provides taxpayers an opportunity to cure compliance issues, should they arise.

Your Committee has amended this measure by inserting an effective date of January 6, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 795, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 75 Energy, Economic Development, and Tourism on S.B. No. 829**

The purpose and intent of this measure is to appropriate state general funds to qualify for matching federal funds for state broadband initiatives.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; University of Hawai'i System; Department of Research and Development of the County of Hawaii; Hawai'i Primary Care Association; and one individual.

Your Committee finds that equitable access to high-speed broadband internet is an essential need for the State and is not only important for remote-learning and remote-work, but telehealth services, business activities, and for Hawaii to stay connected to the world. Significant federal funding is available to support state broadband initiatives, however, some of these programs require matching funds from the State or other non-federal partners. Your Committee believes that maximizing access to federal funding is critical to addressing the problem of broadband accessibility. This measure will increase high-speed broadband access in the State by appropriating state general funds to qualify for matching federal funds for state broadband initiatives.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 829, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 829, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 76 Energy, Economic Development, and Tourism on S.B. No. 1237**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Film Commission;
- (2) Extend the sunset date of the motion picture, digital media, and film production income tax credit to January 1, 2038;
- (3) Transfer the rights, powers, functions, and duties of the Hawaii State Film Office to the Hawaii Film Commission; and
- (4) Appropriate funds for one full-time equivalent (1.0 FTE) Executive Director position within the Hawaii Film Commission.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Screen Actors Guild – American Federation of Television and Radio Artists, IATSE Local 665, Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i State AFL-CIO, Pride at Work - Hawai'i, Hawai'i Nurses' Association – OPEIU Local 50, and twenty-one individuals. Your

Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Tax Foundation of Hawaii; and Association of Film Commissioners International.

Your Committee finds that the Hawaii film industry is an important component of a diversified economy. Your Committee further finds that motion picture, digital media, and film production have been effective in stimulating the economy and creating quality jobs in the State. Your Committee believes that strategic focus and organization are paramount in developing and maintaining Hawaii as a premier filming location and the development of a local film workforce to provide both above the line and below the line expertise in pre-production, production, and post-production. This measure will strengthen and improve organization in the Hawaii film industry by establishing the Hawaii Film Commission; transferring the rights, powers, functions, and duties of the Hawaii State Film Office to the Hawaii Film Commission; and extending the sunset date of the motion picture, digital media, and film production income tax credit to January 1, 2038.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 77 Energy, Economic Development, and Tourism on S.B. No. 1495**

The purpose and intent of this measure is to:

- (1) Clarify requirements for film productions with production expenditures of \$1,000,000 or more claiming the motion picture, digital media, and film production income tax credit;
- (2) Increase the annual cap from \$50,000,000 to \$75,000,000 for the total amount of the motion picture, digital media, and film production tax credit; and
- (3) Expand the definition of qualified production for the motion picture, digital media, and film production income tax credit to include streaming platforms.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Hawaii Teamsters and Allied Workers Local 996; Screen Actors Guild – American Federation of Television and Radio Artists; Island Film Group; FilmCo Holdings; IATSE Local 665; Hawai'i State AFL-CIO; Hawai'i Nurses' Association – OPEIU Local 50; Stonewall Caucus of the Democratic Party of Hawai'i; Pride at Work - Hawai'i; Kapolei Chamber of Commerce; Gripsmith, LLC; and twenty-six individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the motion picture, digital media, and film production income tax credit was established by Act 107, Session Laws of Hawaii 1997, to promote the Hawaii film industry and make the State more attractive for motion picture, digital media, and film production decision makers. However, the tax credit's existing \$50,000,000 annual spending cap is not reflective of the current volume of business of the State's film industry and does not provide enough room for growth. Your Committee further finds that the Hawaii film industry creates approximately \$500,000,000 in revenue for the State's economy and an estimated five thousand jobs. Your Committee believes that the tax credit's cap should be increased to reflect the growth of the motion picture, digital media, and film industry in the State. This measure will further expand definitions to align with modern industry standards and refine and strengthen the motion picture, digital media, and film production income tax credit to create greater opportunities for growth and local working families.

Your Committee has heard the concerns raised in testimony that additional labor and vendor protections are necessary to ensure the film tax credit benefits the local workforce. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Inserting language that requires productions claiming the tax credit to:
  - (A) Have not less than seventy-five percent local hires;
  - (B) Utilize one hundred percent local vendors; provided that employment of vendors shall be seventy-five percent local under contract; and provided further that local vendors be provided the opportunity (with reasonable notice) to obtain equipment, materials, or supplies before the production outsources to an out-of-state company; and
  - (C) Submit a notarized statement that lists out-of-state hires and vendors used and the reasons why local hires and vendors were not used;
- (2) Inserting an effective date of January 6, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1495, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 78 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 73**

The purpose and intent of this measure is to allow the Department of Agriculture to extend the agricultural park lease of any lessee who holds a lease with a remaining term of fifteen years or less; provided that the land covered by the lease is twenty-five acres or less and located in a county with a population of less than five hundred thousand.

Your Committees received testimony in support of this measure from the Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; and Hawaii Cattleman's Council, Inc. Your Committees received comments on this measure from the Department of Agriculture and Office of Hawaiian Affairs.

Your Committees find that agricultural park lessees are likely to stop investing in their plot lands or making major improvements to the infrastructure of their agricultural operations when they anticipate their leases will expire without the possibility for renewal or extension. This measure will authorize the Department of Agriculture to extend leases of an agricultural park lessee who holds a lease with a remaining term of fifteen years or less in a county with a population of five hundred thousand or less.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 73 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante, McKelvey). Noes, 1 (Fevella). Excused, none.

**SCRep. 79 (Joint) Agriculture and Environment and Water and Land on S.B. No. 93**

The purpose and intent of this measure is to require nonpotable water users and developers within a certain distance of wastewater treatment plants to use R-1 water.

Your Committees received testimony in support of this measure from the Honolulu Board of Water Supply and Hawai'i Community Foundation. Your Committees received comments on this measure from the Department of Health, Department of the Attorney General, and Department of Land and Natural Resources.

Your Committees find that diverting recycled and reusable wastewater for freshwater applications and non-drinking purposes is a valuable technique for both reusing and preserving vital and finite water resources. This measure will establish reuse zones to increase water reuse usage across the State by requiring users or developers within a certain distance of a wastewater treatment plant to utilize recycled wastewater where they are using freshwater for non-drinking purposes.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 93 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 80 Agriculture and Environment on S.B. No. 99**

The purpose and intent of this measure is to require the Department of Agriculture to establish, implement, and administer a meat and poultry inspection program and appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Maui Chamber of Commerce; Animal Welfare Institute; Hawai'i Cattleman's Council, Inc.; Hawai'i Farm Bureau; The Food+ Policy Internship 2023; and one individual.

Your Committee finds that the Department of Agriculture's former meat inspection program was discontinued in the 1990s due to budget and staffing cuts and that the United States Department of Agriculture-Food Safety Inspection Service (USDA-FSIS) has since assumed full responsibility of inspections in the State. Your Committee further finds that reviving the State's meat inspection program would provide an alternative to USDA-FSIS inspections and could lead to increases in producer processing capacity; diversification of processing options; and reductions in processing bottlenecks, transportation time, and costs; and make inspections more accessible to remote or rural producers. The USDA-FSIS inspection regulations add complexity and costs to Axis deer meat inspections, and a state program could ease this process. This measure will reestablish Hawaii's meat inspection program and increase the availability and accessibility of inspections across the State to help drive the growth of Hawaii's local meat industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 99 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 81 (Joint) Agriculture and Environment and Water and Land on S.B. No. 115**

The purpose and intent of this measure is to establish within the Department of Agriculture, an Aquacultural Area Lease Program for the purpose of identifying state facilities, state lands, and state marine waters that are suitable for use and lease as commercial aquacultural areas.

Your Committees received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that Hawaii's aquaculture industry continues to be one of the fastest growing segments of agriculture in the State and has become an important source of seafood and other products for local sale and export. Your Committees additionally find that the State currently imports about sixty-three percent of its seafood due to high resident and tourist demand and limited local fishery landings. This measure supports local aquacultural development and production to help the State move toward greater food sustainability and economic prosperity.

Your Committees acknowledge concerns addressed in testimony by the Department of Land and Natural Resources, which notes that the Department would appreciate clarification that lease areas under the program will continue to be subject to the permitting and environmental review requirements contained in sections 183C-6, Hawaii Revised Statutes, or 190D-11, Hawaii Revised Statutes, when the leased area lies within the State Land Use Conservation District. The Department also finds that the measure is unclear as to the impact to the authority and oversight of the Board of Land and Natural Resources over leasing pursuant to chapter 190D, Hawaii Revised Statutes, or ocean dispositions pursuant to chapter 171, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 115 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 82      Agriculture and Environment on S.B. No. 316**

The purpose and intent of this measure is to establish additional penalties for dog owners whose dog destroys property while on land zoned for agricultural use.

Your Committee received testimony in support of this measure from the Hawaii Cattleman's Council, Inc.

Your Committee finds that farms and other agricultural operations often incur property damage from unleashed dogs that wander onto agricultural lands without supervision from their owners. This measure establishes a penalty to motivate dog owners to take more initiative in securing their dogs to prevent damage or harm to property on land zoned for agricultural use.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 316 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 83      (Joint) Agriculture and Environment and Water and Land on S.B. No. 376**

The purpose and intent of this measure is to prohibit the mining, extraction, and removal of minerals from the seabed in all state marine waters.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawai'i Reef Ocean Coalition, Parley for the Oceans, and five individuals.

Your Committees find that seabed mining poses an unacceptably high risk of damage and disruption to the State's marine environment and the globally significant ecosystems that host thousands of species, including protected and endangered species. Your Committees also recognize that seabed mining and related industries can threaten ocean-dependent industries, such as commercial and recreational fishing and tourism. Your Committees find seabed mining to be inconsistent with the public interest of the State, therefore this measure will prohibit any such related-activity from occurring in state marine waters.

Your Committees have amended this measure by:

- (1) Inserting recommended language from the Office of Hawaiian Affairs that protects privileges and practices of Native Hawaiians; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 376, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 376, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 84      (Joint) Agriculture and Environment and Water and Land on S.B. No. 419**

The purpose and intent of this measure is to appropriate funds for the Hawaii Carbon Smart Land Management Assistance Pilot Program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Farm Bureau; Kauai Climate Action Coalition; The Nature Conservancy; Hawaii Environmental Change Agents Carbon Sequestration Task Force; Hawaii Cattlemen's Council, Inc.; Hawai'i Farmers Union United; and three individuals.

Your Committees recognize that the State is committed to reducing its carbon footprint by reducing carbon emissions and increasing and expanding natural carbon sequestration methods wherever possible. Your Committees find that Act 185, Session Laws of Hawaii 2022, established the Hawaii Carbon Smart Land Management Assistance Pilot Program within the Department of Land and Natural Resources, which allows small farmers, ranchers, foresters, and land owners and lessees to receive compensation for taking measures to help Hawaii reach its climate readiness goals. This measure appropriates funds to the Department of Land and Natural Resources for this pilot program.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 419 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 85 (Joint) Agriculture and Environment and Water and Land on S.B. No. 86**

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the Office of Planning and Sustainable Development, to prepare and periodically update the State Agriculture Functional Plan to include other agricultural economic updates, including seafood sustainability, that expand the State's priority on food by including wild seafood as a viable food source.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau and one individual. Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that the State's Agricultural Functional Plan was last updated in 1991 and that since then, Hawaii's agricultural industry has transitioned from a predominantly plantation-based sector to a more diversified agricultural sector that offers a wide array of products ranging from macadamia nuts to goat cheese, tropical fruits and vegetables to roasted coffee, and grass-fed beef to wild seafood. Your Committees additionally find that Hawaii's aquaculture industry in particular, continues to be one of the fastest-growing segments of agriculture in the State as Hawaii's residents consume seafood at twice the national average. This measure will support food security in the State by building upon this demand for seafood to include wild seafood as a viable food source in the State Agricultural Functional Plan and authorizing food sustainability and economic data research on the wild seafood industry.

Your Committees acknowledge a concern raised in testimony of the Office of Planning and Sustainable Development that this measure outlines an extensive research program to collect data and research the economic impacts and actions needed to increase food security and food self-sufficiency by ensuring that the wild seafood system can reach its full potential and that to comply with sections 226-55 and 226-56, Hawaii Revised Statutes, the Department of Agriculture will need to convene an advisory committee and work in close cooperation with the officials and people of each county, for which the Office is willing to provide guidelines.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 86 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 86 Agriculture and Environment on S.B. No. 420**

The purpose and intent of this measure is to establish the sustainable food systems working group within the Department of Agriculture.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawaii Tourism Authority; Ka Ohana O Na Pua; Hawaii Farmers Union United; Ulupono Initiative; Hawai'i Alliance for Progressive Action; Hawai'i Farm Bureau; Hawai'i Food Bank; North Shore Economic Vitality Partnership; Hawaii Food Industry Association; Hawaii Cattlemen's Council, Inc.; Hawai'i Public Health Institute; Kaua'i Climate Action Coalition; the Hawaii Environmental Change Agents Carbon Sequestration Task Force; Food Plus Policy Internship 2023; Our Revolution Hawaii; and forty-one individuals. Your Committee received comments on this measure from the Department of the Attorney General and the Department of Agriculture.

Your Committee finds that food security is lacking in the State and is especially vulnerable to the increasing prevalence of natural and human disasters. Your Committee further finds that a sustainable food systems working group with members across agriculture and related industries, may prove vital in the ongoing effort to enhance food security in Hawaii by collaborating with the Department of Agriculture to establish plans and propose policy changes for the State.

Your Committee acknowledges the testimony of the Department of the Attorney General, which notes possible constitutional issues with the wording used in this measure when specifying representatives from the Native Hawaiian Community. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means consider this testimony and incorporate any changes that may be necessary.

Therefore, your Committee has amended this measure by:

- (1) Changing the two representatives of the University of Hawaii system selected by the Department of Agriculture to instead be selected by the Dean of the College of Tropical Agriculture and Human Resources;
- (2) Changing the Hawai'i Farm Bureau selector from "executive director" to "president";

- (3) Specifying that the representatives of the Hawaii Farmers Union United is to be selected by the President of the Hawaii Farmers Union United;
- (4) Adding another representative of the Hawaii Cattlemen's Council, Inc. to be selected by the President of the Hawaii Cattlemen's Council, Inc.; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 420, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 420, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 87          Agriculture and Environment on S.B. No. 422**

The purpose and intent of this measure is to make a housekeeping amendment to section 341-6, Hawaii Revised Statutes, to delete a reference to a repealed section.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and the State Environmental Advisory Council.

Your Committee finds that an inadvertent error was made with the enactment of Act 152, Session Laws of Hawaii, Regular Session of 2021. Act 152 administratively transferred the Environmental Advisory Council from the Department of Health to the Office of Planning and Sustainable Development, repealing certain sections of the Hawaii Revised Statutes. However, section 341-6, Hawaii Revised Statutes, still references section 341-4, Hawaii Revised Statutes, which was repealed by Act 152. This measure corrects this error.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 422, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 422, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 88          Agriculture and Environment on S.B. No. 428**

The purpose and intent of this measure is to require each county to develop a comprehensive integrated wastewater management plan and financial strategy.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawai'i REALTORS, Environmental Caucus of the Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that cesspools on the shoreline and in coastal areas will be an increasing source of pollution as ground water rises and coastal erosion accelerates. There are approximately eighty-three thousand cesspools divided into three priority levels across Hawaii and only twenty-seven years left to meet the State's mandate to convert all cesspools into a Department of Health-approved wastewater system by 2050. This measure requires that each county develop a comprehensive integrated wastewater management plan and financial strategy and propose their strategies to the Legislature in order to accelerate progress towards reaching the State's goal.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 89          Agriculture and Environment on S.B. No. 430**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Farm to Food Bank Program and Hawaii Food Assistance Program Special Fund to alleviate food shortages in the State; and
- (2) Appropriate moneys.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations Office of Community Services; Department of Agriculture; Hawai'i Primary Care Association; North Shore Economic Vitality Partnership; Hawaii Cattlemen's Council, Inc.; Hawai'i Alliance for Progressive Action; Hawai'i Food Bank; Hawai'i SEED; Hawai'i Farmers Union United; Ulupono Initiative; and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance and State Procurement Office.

Your Committee finds that food security is a critical issue for the State, where one in six residents lack consistent access to healthy and nutritious food. Your Committee further finds that the coronavirus disease 2019 pandemic greatly exacerbated this issue and has severely threatened the health and welfare of Hawaii residents, particularly the underprivileged and most desperate. This measure

establishes the Hawaii Farm to Food Bank Program to alleviate future food shortages, propel the statewide effort to bolster food security across the islands, and stimulate the economy by keeping money spent on food within the State.

Your Committee has amended this measure by:

- (1) Adopting language provided by the State Procurement Office to require procurements executed by the Hawaii Farm to Food Bank Program to be subject to the Hawaii Public Procurement Code, when used for goods, services, or construction that directly benefits the Office of Community Services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 430, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 430, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 90      Agriculture and Environment on S.B. No. 445**

The purpose and intent of this measure is to increase civil penalties for the violation of various pollution provisions.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the civil penalties addressed in this measure have not been updated for more than twenty years. In the intervening years, there have been many changes to the economy, most notably due to inflation, which has weakened the financial deterrence of these penalties. Your Committee further finds that financial deterrence is essential to preventing violations of environmental law in the State and enables the Department of Health to enforce the law with a tougher stance against any such violators. This measure provides updates to these penalties and establishes and appropriates funds for one full-time environmental health specialist position within the Clean Water Branch of the Department of Health to assist in implementing and enforcing these penalties, among other related responsibilities.

Your Committee has amended this measure by:

- (1) Increasing certain proposed penalty amounts from \$56,460 to \$59,973, per the Department of Health's recommendation, to align with the recent inflation adjusted penalty promulgated by the United States Environmental Protection Agency for similar violations;
- (2) Increasing the proposed fine for denial, obstruction, hinderance, or failure of certain acts relating to underground storage tanks from \$10,000 to \$25,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 445, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 445, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 91      Agriculture and Environment on S.B. No. 504**

The purpose and intent of this measure is to prohibit the manufacture, sale, offer for sale, distribution for sale, and distribution for use of any food packaging, food service ware, cosmetic, or personal care product that contains perfluoroalkyl and polyfluoroalkyl substances, beginning on December 31, 2026.

Your Committee received testimony in support of this measure from the Department of Health, Americans for Democratic Action Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii, American Chemistry Council, and one individual. Your Committee received comments on this measure from the Household and Commercial Products Association.

Your Committee finds that perfluoroalkyl and polyfluoroalkyl substances (PFAS), often termed "forever chemicals", are toxic and commonly used chemical compounds that do not breakdown in the environment and can accumulate in animal and human tissue when consumed, applied directly on the skin, or when eating foods packaged with material containing these substances. Your Committee further finds that studies have shown PFAS to create many adverse health effects in animal and human populations including cancer, reproductive and developmental harm, thyroid disruption, impaired immune function, increased cholesterol levels, and vital organ damage. This measure expands on Act 152, Session Laws of Hawaii 2022, by prohibiting additional types of food containers, food service ware, cosmetics and personal care products, and its implementation will likely decrease the overall burden of PFAS contamination in Hawaii's environment.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

**SCRep. 92 (Majority) Agriculture and Environment on S.B. No. 506**

The purpose and intent of this measure is to require self-service stations to put labels on gas dispensing equipment that advise consumers on the effects of fossil fuel consumption to human health and the environment.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Center for Climate Change Communication, Think Beyond the Pump, Climate Protectors of Hawai'i, and seven individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Hawaii Energy Marketers Association and Public Utilities Commission.

Your Committee finds that increasing public awareness of the harmful effects of the burning of fossil fuels on human health and the environment may support the State's clean energy goals. Thus, this measure aims to increase public awareness by requiring self-service gas stations to place labels on gas dispensing equipment that warn consumers of the effects of fossil fuel consumption to human health and the environment.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 93 (Joint) Agriculture and Environment and Water and Land on S.B. No. 507**

The purpose and intent of this measure is to:

- (1) Add definitions for "floodway", "natural stormwater infrastructure", and "wetlands" to section 343-2, Hawaii Revised Statutes;
- (2) Require a proposed housing project of the Hawaii Housing Finance and Development Corporation that is exempt from all statutes, ordinances, charter provisions, and rules of any government agency relating to planning, zoning, and construction standards to ensure that the proposed project does not impact wetlands or natural stormwater infrastructure; and
- (3) Require an environmental assessment for actions under the environmental impact statements law that propose any development that would impact wetlands or natural stormwater infrastructure.

Your Committees received testimony in support of this measure from The Nature Conservancy, Hawai'i Reef and Ocean Coalition, and one individual. Your Committees received testimony in opposition to this measure from the Housing Finance and Development Corporation. Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that wetlands provide numerous crucial benefits to the State, including minimizing flood damage, reducing sediments and nutrients flowing out into reefs, reducing erosion, sequestering carbon, helping to provide healthy food and clean water for local communities, and providing sustainable habitats for native species, including endangered birds like ae'o (Hawaiian stilt) and 'alae 'ula (Hawaiian moorhen). This measure will include wetlands, floodways, and natural stormwater infrastructure in the Hawaii Environmental Policy Act in order to ensure that projects affecting these indispensable natural systems are not overlooked or damaged by development.

Your Committees acknowledge the testimony of the Office of Planning and Sustainable Development, which recommends consultation with the state and county proposing and approving agencies to ascertain their ability to process the potential increase in the environmental review and assessment proposed by this measure.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 507 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Elefante, Fevella). Noes, none. Excused, none.

**SCRep. 94 (Joint/Majority) Water and Land and Agriculture and Environment on S.B. No. 71**

The purpose and intent of this measure is to exempt the proposed drilling, construction, or use of a well and well appurtenances on lands leased from the Department of Agriculture from environmental review requirements, provided that the land is being used to support agriculture and food production.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committees received testimony in opposition to this measure from the Sierra Club of Hawai'i and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, and Department of Agriculture.

Your Committees find that existing environmental review requirements can inhibit important agricultural and food production projects and limit the feasibility of new agricultural operations. Your Committees further find that removing regulatory burdens such as environmental review for certain activities and uses can help local agricultural production. Therefore, this measure exempts the proposed drilling, construction, or use of a well and well appurtenances on lands leased from the Department of Agriculture from environmental review requirements, provided that the land is being used to support agriculture and food production.

Your Committees have amended this measure by:

- (1) Deleting “from environmental impact statements” from the new section title to clarify that the intent of this measure is to exempt the activities so described from all environmental review requirements under chapter 343, Hawaii Revised Statutes, and not limited specifically to environmental impact statement review; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 71, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 71, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante, McKelvey). Noes, 1 (Fevella). Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (DeCoite, Rhoads). Noes, 1 (Awa). Excused, none.

**SCRep. 95 (Joint) Water and Land and Agriculture and Environment on S.B. No. 84**

The purpose and intent of this measure is to establish the Sustainable Food Systems Working Group within the Office of Planning and Sustainable Development to develop a plan for a more sustainable and resilient local food economy.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawai'i Climate Change Mitigation and Adaptation Commission; University of Hawai'i System; Hawai'i Tourism Authority; Office of Hawaiian Affairs; Hawaii Cattlemen's Council, Inc.; Hawaii Foodbank, Inc.; North Shore Economic Vitality Partnership; Hawaii Food Industry Association; Ulupono Initiative; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that a sustainable food system is one in which producers, retailers, members of the community, nongovernmental organizations, and government agencies partner to create a vibrant and resilient local food economy that enhances and sustains the environmental, economic, and social health of the community. Your Committees further find that developing an improved sustainable food system for Hawaii is an opportunity to create a new food economy that integrates the objectives of “green” job creation, sustainable economic development, land stewardship, food security, environmental protection, and climate change resiliency with community health and well-being. Therefore, this measure establishes within the Office of Planning and Sustainable Development the Sustainable Food Systems Working Group.

Your Committees have heard testimony from the Office of Planning and Sustainable Development expressing concerns that the large size of this measure's working group could present quorum challenges. The Office of Planning and Sustainable Development also requested that the total number of working group members be pared down to an odd number so that a majority vote can be achieved on action items.

Therefore, your Committees have amended this measure by:

- (1) Reducing the total number of working group members from twenty-three to nineteen by:
  - (A) Removing two proposed members from the University of Hawai'i System who have experience in food systems and adding one member from the University of Hawai'i College of Tropical Agriculture and Human Resources;
  - (B) Removing one proposed member from the Department of Native Hawaiian Health of the John A. Burns School of Medicine;
  - (C) Removing one proposed member from the agricultural sector that was to be selected by the Director of the Office of Planning and Sustainable Development; and
  - (D) Removing one proposed member from the commercial fishing sector of the State;
- (2) Allowing the Superintendent of Education, rather than the Director of the Office of Planning and Sustainable Development, to select one member from the Hawaii Farm-to-School community;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 84, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 84, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

**SCRep. 96 (Joint) Water and Land and Agriculture and Environment on S.B. No. 833**

The purpose and intent of this measure is to require the Office of the Governor to negotiate the State's fee simple acquisition of the Wahiawa irrigation system on the island of Oahu and authorize and appropriate funds for the Department of Agriculture, Agribusiness Development Corporation, and Department of Land and Natural Resources to purchase, repair, and maintain the Wahiawa irrigation system and the associated spillway.

Your Committees received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Hawai'i Farm Bureau; Dole Food Company, Inc.; ILWU Hawaii Local 142; Luluku Farmers' Association; North Shore Neighborhood Board No. 27; Land Use Research Foundation of Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Save O'ahu Agriculture, a form letter signed by 1,046 individuals; and three individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the Wahiawa irrigation system is a critical piece of infrastructure that provides water to farmers in Waialua and Haleiwa on the island of Oahu. Your Committees further find that Dole Food Company, Inc. has listed the irrigation system for sale. Your Committees believe that the acquisition and maintenance of the Wahiawa irrigation system and the associated spillway are in the public interest and will benefit the State by preserving the critical irrigation system for the agriculture industry. Therefore, this measure requires the Office of the Governor to negotiate the State's fee simple acquisition of the Wahiawa irrigation system and appropriates funds for its purchase, repair, and maintenance.

Your Committees have amended this measure by:

- (1) Removing TMKs 7-3-005:005 and 7-3-013:03 from the list of properties to be acquired by the Department of Land and Natural Resources;
- (2) Inserting an appropriation of an unspecified amount for the Department of Land and Natural Resources to manage and maintain its acquired portion of the Wahiawa irrigation system and to hire four full-time equivalent (4.0 FTE) positions;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 833, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 833, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 97 Education on S.B. No. 941**

The purpose and intent of this measure is to appropriate funds to the School Facilities Authority for the construction of teacher and educator housing.

Your Committee received testimony in support of this measure from the School Facilities Authority and Executive Office on Early Learning.

Your Committee finds that Hawaii continues to suffer from a shortage of licensed teachers as Hawaii's teacher salaries continue to trail the nation when adjusted for cost of living. Providing financial incentives and affordable options for teacher housing are key strategies for the recruitment and retention of teachers. Teacher housing is also a well-established solution to teacher recruitment and retention for educators serving in hard-to-fill and rural and remote areas. As housing represents a significant portion of each teacher's paycheck, construction of, at minimum, three sites should be developed to provide affordable housing options to teacher to address the ongoing teacher shortage.

Your Committee notes that the intent of this measure is to provide affordable housing for teacher and educators employed by the Department of Education. However, if there are surplus units left vacant, the School Facilities Authority should be empowered to offer those units to educators regardless of their employer.

Your Committee has amended this measure by:

- (1) Inserting language authorizing the School Facilities Authority to partner with public and private development agencies to more expeditiously develop housing at the initial teacher and educator workforce housing sites;
- (2) Authorizing the School Facilities Authority to transfer any appropriations made in this measure and delegate implementation of projects to state partners to effectuate the purposes of this measure;
- (3) Specifying that the initial teacher and educator workforce housing pilot locations shall be located at Nanakuli High and Intermediate School, Waipahu High School, and Mililani High School;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 941, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 941, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kim).

#### **SCRep. 98 Agriculture and Environment on S.B. No. 511**

The purpose and intent of this measure is to appropriate funds to establish a foreign agriculture small equipment pilot program to identify efficient agriculture equipment and retrofit engines to meet the United States Environmental Protection Agency's standards.

Your Committee received testimony in support of this measure from Maui County Farm Bureau; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; and five individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the need for mechanization is a major impediment of farming in Hawaii and that the average farmer is a small farmer with limited land. While the availability of labor decreases, farmers and ranchers continue to look for alternative means to operate their farms through technology, like small equipment tractors. Your Committee further finds that these technologies are not readily available domestically, but instead, are available abroad in countries like Thailand, Vietnam, Japan, and China. However, the engines attached to these technologies are not in compliance with the United States Environmental Protection Agency's (EPA) standard regulations. This measure will establish a pilot program and appropriate funds for the Department of Agriculture to retrofit EPA-complaint engines into foreign-made small equipment tractors. Your Committee notes that the Department of Agriculture lacks the infrastructure required to implement such a program and prefers H.B. No. 313, Regular Session of 2023, which requires the University of Hawaii to establish a similarly configured pilot program at a community college of their selection.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 99          Agriculture and Environment on S.B. No. 519**

The purpose and intent of this measure is to establish and appropriate funds for an Aquaculture Advisory Committee within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Aquaculture and Aquaponics Association, Hawai'i Farm Bureau, Kua'āina Uli 'Auamo, Waihole Nursery and Garden Center, Kulahaven Farms LLC, and six individuals.

Your Committee finds that Hawai'i's aquaculture industry earned a record high of \$79.7 million in sales in 2021 and expects this growth to continue. Your Committee further finds that the industry has not had any direct vehicle for policy collaboration with the State since the Governor's Aquaculture Advisory Council was disbanded more than twenty years ago. This measure will reestablish an Aquaculture Advisory Committee within the Department of Agriculture to increase communication between industry actors and relevant policy makers and support the continued growth of aquaculture in the State.

Your Committee has amended this measure, as recommended by the Hawaii Aquaculture and Aquaponics Association, by:

- (1) Specifying that the Advisory Committee be attached to the Office of the Chairperson of the Board of Agriculture;
- (2) Increasing the membership of the advisory committee from five to eleven to include a cross section of aquaculture producers, researchers, extension, investors, and seafood wholesalers, distributors, and restaurant sector representatives;
- (3) Specifying that membership recommendations be made to the Governor by the Chairperson of the Board of Agriculture;
- (4) Establishing a two-year term limit, unless extended on a case-by-case basis by a majority vote of the Advisory Committee;
- (5) Requiring that the Advisory Committee meet quarterly;
- (6) Requiring the Department of Agriculture to provide administrative support to the Advisory Committee; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 519, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 100          Agriculture and Environment on S.B. No. 520**

The purpose and intent of this measure is to establish the farmer succession pilot program within the Department of Agriculture.

Your Committee received testimony in support of this measure from Maui County Farm Bureau; Ulupono Initiative; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Hawai'i Foodbank; Food Plus Policy Internship; Adaptations, Inc.; Aloha Harvest; and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that there are many multigenerational commercial farming and ranching operations that are facing the prospect of closure due to a shortage of young farmer successors in the State. This measure will provide support for the up-and-coming generation of new farmers who are interested in developing and broadening their skills and knowledge of the trade.

Your Committee acknowledges the testimony from the Department of Agriculture and agrees with their recommendation that the farmer succession pilot program would be better placed within the University of Hawaii Community College System.

Therefore, your Committee has amended this measure by:

- (1) Establishing the farmer succession pilot program within the University of Hawaii Community College System, rather than within the Department of Agriculture; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 520, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 520, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 101 (Majority) Agriculture and Environment on S.B. No. 635**

The purpose and intent of this measure is to propose a constitutional amendment to ensure that the inherent and inalienable right of the people, including future generations, to clean water and air, a healthful environment and climate, healthy native ecosystems, and beaches, shall be protected and shall not be infringed.

Your Committee received testimony in support of this measure from the Chamber of Sustainable Commerce, Zero Waste Kauai, Our Revolution Hawaii, Kauai Women's Caucus, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Kauai Climate Action Coalition, Trinity United Methodist Church, Community Coalition Kauai, Green Amendments for the Generation, Hawai'i Alliance for Progressive Action, Hawaii Youth Climate Coalition, Independent Energy, 350Hawaii, Surfrider Foundation, Zero Waste Hawai'i Island, Imua Alliance, and twenty-nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Land and Natural Resources.

Your Committee finds that the earth and its environments are under siege from the consequences of modern human civilization. Though the Hawaiian islands are the most isolated island chain in the world, the State is not immune to the severe weather patterns, toxic contamination and degradation of natural spaces, and extreme changes to the climate that are ravaging the planet. Your Committee further finds that governments around the world are slow to adopt laws that could curtail these effects, which leaves Hawaii, its people, and its natural resources in a state of increasing vulnerability. The Hawaii State Constitution acknowledges the rights and duties of the State to protect the environment, but does not recognize the inalienable and self-executing right of all people to a clean and healthy environment. Thus, this measure proposes an amendment to Article I of the Hawaii State Constitution that will enhance the State's commitment to the health of the environment and the collective well-being of its people.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 635 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 102 (Majority) Agriculture and Environment on S.B. No. 647**

The purpose and intent of this measure is to authorize the Department of Agriculture to extend the lease of any lessee who holds a lease with a remaining term of fifteen years or less; provided that the land covered by the lease is twenty-five acres or less and located in a county with a population of less than five hundred thousand persons.

Your Committee received testimony in support of this measure from Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Floriculture and Nursery Association; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Local Food Coalition; Hawaii Crop Improvement Association; and four individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that agricultural park lessees are likely to stop investing in their plot lands or improve the infrastructure of their agricultural operations when they anticipate their leases will expire without the possibility for renewal or extension. This measure will authorize the Department of Agriculture to extend leases of an agricultural park lessee who holds a lease with a remaining term of fifteen years or less in a county with a population of less than five hundred thousand.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 647, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 647, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 103 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 657**

The purpose and intent of this measure is to appropriate funds for:

- (1) The development of a database and data portal from data sources detailed in the Hawaii Climate Change Mitigation and Adaptation Commission report, *Social Vulnerability to Climate Change in Hawai'i – Data, Indicators, and 'Gap' Assessment*; and
- (2) The maintenance and updating of the data portal.

Your Committees received testimony in support of this measure from Blue Planet Foundation and one individual. Your Committees received testimony in opposition of this measure from two individuals. Your Committees received comments on this measure from the Hawai'i Emergency Management Agency.

Your Committees recognize that the State is committed to the reduction of carbon in the atmosphere and is interested in proposed legislation that may aid the State in meeting its carbon reduction goals. Your Committees find that in 2021 and 2022, the Hawai'i Climate Change Mitigation and Adaptation Commission partnered with the University of Hawai'i and other stakeholders to produce a report titled, *Social Vulnerability to Climate Change in Hawai'i: Data, Indicator, and "Gap" Assessment*. This report produced the key recommendation that the State should fund and develop a comprehensive, user-friendly data portal on social vulnerability and climate change risks in Hawaii. This measure will help communities and county, state, and federal agencies better understand that social impacts of climate change in the State by allowing for the production of a Hawaii-specific social vulnerability index.

Your Committees acknowledge a comment from testimony by the Hawai'i Emergency Management Agency, that it encourages your Committee to consider adding language to this measure to clarify that the development of the database should be coordinated with all relevant parties, including those parties involved in the existing hazard mitigation framework.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 657 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 104      Agriculture and Environment on S.B. No. 660**

The purpose and intent of this measure is to require and appropriate funds for the Department of Agriculture to establish a Healthy Soils Program.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Hawai'i Farmers Union United, Beyond Pesticides Hawai'i Organic Land Management Program, Hawai'i Farm Bureau, Ho'ola Farms, Kauai Climate Action Coalition, Food+ Policy Internship 2023, 350Hawaii, 'Ai Pohaku, Puamana Gardens, Kanalani Ohana Farm, Our Revolution Hawaii, Adaptations Inc., Hawai'i Alliance for Progressive Action, Kona Coffee Farmers Association, Women Organizing for Change in Agriculture and Natural Resource Management, Sunshine Farms LLC, Pohoku Farm, Environmental Caucus of the Democratic Party of Hawai'i, Waihunahuna Foundation, Ho'olono Natural Remedies, and sixty-three individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of the Attorney General.

Your Committee recognizes that the State is committed to strengthening local food production and food security in Hawaii, but finds that the commitment to these policies should not come at the expense of public health or the environment. Your Committee additionally finds that the basis of sustainable and healthy farm systems depends on the condition and health of the soil. Thus, this measure establishes and funds a Healthy Soils Program within the Department of Agriculture to establish standards and practices for healthy soil development and conservation and provides Hawaii's farmers with education, assistance, and incentives to meet these standards.

Your Committee has amended this measure, as recommended by Beyond Pesticide's Hawai'i Organic Land Management Program, by:

- (1) Requiring the healthy soils programs to establish standards:
  - (A) For soil health that includes the importance of a holistic approach to land management that integrates cultural, biological, and mechanical practices, which cycle nutrients, promote ecological balance, and conserve biodiversity; and
  - (B) That phase out the use of petrochemical synthetic fertilizers over a period of five to ten years, during which the Department of Agriculture shall provide farmers with assistance in adopting a holistic approach to land management that integrates cultural, biological, and mechanical practices, which cycle nutrients, promote ecological balance, and conserve biodiversity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 660, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (DeCoite).

**SCRep. 105      Agriculture and Environment on S.B. No. 114**

The purpose and intent of this measure is to require the Animal Industry Division of the Department of Agriculture to administer an assessment and approval process to import and move aquatic livestock in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture and two individuals. Your Committee received testimony in opposition to this measure from the Pet Advocacy Network and Jamestown Point Whitney Ventures LLC. Your Committee received comments on this measure from the Hawaii Aquaculture and Aquaponics Association and Hawai'i Farm Bureau.

Your Committee recognizes the need to enhance food security in the State and that aquaculture is Hawaii's fastest growing local industry in the agriculture sector. Your Committee finds an additional need to enhance the public's safety from possible diseases that may be transmitted from the aquatic life trade, while also supporting the expansion and development of the aquaculture industry. This measure adds requirements that will instill new standards and frameworks to limit the spread of disease from the aquatic life trade.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 114 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 106 (Joint) Agriculture and Environment and Water and Land on S.B. No. 432**

The purpose and intent of this measure is to designate Hawaii coral reefs as critical natural infrastructure.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, The Nature Conservancy, and five individuals. Your Committees received comments on this measure from the Hawai'i Emergency Management Agency.

Your Committees find that in Hawaii, coral reefs serve as the first line of defense to shoreline erosion and tidal flooding related events. Coral reefs act as natural breakwaters, dissipating up to ninety-seven percent of wave energy impacting shorelines and trapping sediment, which is estimated to save the State around \$836,000,000 annually. Your Committees additionally find that Hawaii's coral reefs are threatened by the effects of climate change, including sea level rise, coral bleaching, and ocean acidification, among other substantial stressors. This measure will designate Hawaii's coral reefs as critical natural infrastructure, which will demonstrate the State's support for nature-based climate change solutions and increase the likelihood of receiving funding from the Federal Emergency Management Agency's Hazard Mitigation Assistance Program to support coral reef protection and restoration in Hawaii.

Your Committees acknowledge a concern addressed in testimony by the Hawai'i Emergency Management Agency, which requests that your Committees consider adding language to this measure that would also direct that this designation be considered by the State and counties in their hazard mitigation planning and that this would streamline and support the State's ability to pursue federal grants.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 432 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.  
Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 107 Hawaiian Affairs on S.B. No. 731**

The purpose and intent of this measure is to designate November 28 of each year as La Kuokoa, Hawaiian Independence Day, to celebrate the historical recognition of the independence of the Kingdom of Hawaii.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii's special heritage and the various holidays currently celebrated distinguish Hawaii from other states. La Kuokoa commemorates the date of November 28, 1843, when, during the reign of Kamehameha III, Great Britain and France recognized the independence of the Hawaiian Kingdom through the signing of the Anglo-French Declaration, thereby making it known to the world that the Hawaiian islands were one sovereign political unit under the complete and exclusive control of the Hawaiian Kingdom.

Your Committee further finds that La Kuokoa was first recognized as a holiday in Hawaii in 1847, was recognized as an official holiday of the Republic of Hawaii in 1896, and continued to be celebrated as an official holiday by the Territory of Hawaii in 1902. Your Committee believes that the State's acknowledgment of La Kuokoa, or Hawaiian Independence Day, is an appropriate and meaningful way to celebrate the recognition of Hawaii's independence and its rich and diverse culture and history.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 731 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 108 Hawaiian Affairs on S.B. No. 733**

The purpose and intent of this measure is to require the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State and to appropriate moneys for the planning and design of the first Hawaiian cultural center.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that culture is the essence of civilization, and includes all those things that distinguish a society and people, including language, stories, customs, music, art, food, protocols, religions, values, traditions, and celebrations. Your Committee further finds that Native Hawaiians and their rich and vibrant culture are what continues to make Hawaii unique and different from other places in the world. However, Your Committee finds that despite the importance of Hawaiian culture in the State, there are no public spaces solely dedicated to the practice and perpetuation of Hawaiian culture. Therefore, this measure requires the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State and appropriates moneys for the planning and design of the first Hawaiian cultural center.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Keohokalole). Noes, none. Excused, 1 (Fevella).

**SCRep. 109 Hawaiian Affairs on S.B. No. 732**

The purpose and intent of this measure is to designate the second Monday in October of each year as Indigenous Peoples' Day and establish Indigenous Peoples' Day as a state holiday.

Your Committee received testimony in support of this measure from The Volcano School of Arts & Sciences, a Community Public Charter School; and nineteen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Collective Bargaining, Department of Budget and Finance, and Department of Human Resources of the City and County of Honolulu.

Your Committee finds that indigenous peoples, including Native Hawaiians, have thrived and remained resilient for generations, contributing to the world their rich histories, knowledge, and cultural practices. Indigenous Peoples' Day was first proposed by indigenous groups at a 1977 United Nations conference to counteract discrimination and correct the narrative that Christopher Columbus discovered the Americas, which had been inhabited for millennia by over six hundred indigenous nations. The second Monday in October, formerly named after Christopher Columbus, was chosen to recognize the contributions of indigenous peoples and their inherent sovereignty.

Your Committee further finds that, similar to the indigenous peoples of the Americas, the arrival of Captain James Cook to the islands in 1778 forever changed the indigenous Native Hawaiian people. Western missionaries introduced new infectious diseases that decimated the Native Hawaiian population by eighty-four percent within just sixty years. Further, western missionaries prohibited many traditional Hawaiian cultural practices, including hula and olelo Hawaii.

Your Committee finds that presently, Hawaii is one of seventeen states that does not celebrate Columbus Day, and instead observes Discoverers' Day on the second Monday in October "in recognition of the Polynesian discoverers of the Hawaiian islands." While Discoverers' Day acknowledges the ancestors of Native Hawaiians and other indigenous Polynesians who discovered Hawaii, recognizing and designating Indigenous Peoples' Day as a state holiday will serve as a day to educate Hawaii's people about the State's obligation to the original inhabitants of Hawaii and to celebrate their cultural practices. Therefore, this measure will designate the second Monday in October of each year as Indigenous Peoples' Day and establish Indigenous Peoples' Day as a state holiday.

Your Committee has heard testimony from the Office of Collective Bargaining expressing concerns that while the establishment of a holiday remains in the purview of the Legislature, the holiday's impact on public employees is still a negotiable matter, subject to collective bargaining. Your Committee also heard testimony from the Department of Budget and Finance estimating that the addition of a new state holiday would cost approximately \$17,000,000 in lost productivity.

Therefore, your Committee has amended this measure by:

- (1) Repealing the designation of election days as state holidays in order to mitigate costs and to minimize the potential impacts on public employees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 732, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 110 Hawaiian Affairs on S.B. No. 740**

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to digitize its applicant, beneficiary, and lessee records and create an interactive digital database software program to be completed and available for use no later than July 1, 2024.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Keaukaha Pana'ewa Farmers Association, and three individuals. Your Committee received comments on this measure from Hui Kako'o 'Āina Ho'opulapula, Sovereign Council of Hawaiian Homestead Associations, and one individual.

Your Committee finds that while basic Department of Hawaiian Home Lands applicant waiting lists are available to download, the details, including whether the person has applied for multiple leases, been denied a prior lease, or been skipped over, are not readily accessible. Your Committee further finds that if a beneficiary seeks to determine the beneficiary's status, finding and gathering that information can require weeks of work. Therefore, this measure will require the Department of Hawaiian Home Lands to compile all relevant lease information into a database to improve efficiency.

Your Committee has heard testimony from the Department of Hawaiian Home Lands expressing concerns that the July 1, 2024, deadline to create the interactive digital database software program is unfeasible, and that additional time and funding for a phased implementation plan would provide a more practical solution. The Department of Hawaiian Home Lands also testified that their Phase I estimated cost for the integrated information system was \$3,000,000. Your Committee finds that, as the digital database is intended to be a part of a broader strategic plan for the Department of Hawaiian Home Lands, the Department's concerns have merit.

Your Committee also has heard testimony from Hui Kako'o 'Āina Ho'opulapula expressing concerns that the background information in the purpose section of this measure related to lessee abuses of the Hawaiian Home Lands program should not form the basis for this measure. Hui Kako'o 'Āina Ho'opulapula testified that the purpose of this measure should be solely for the provision of clear, transparent, current, and timely information for beneficiaries and the public.

Therefore, your Committee has amended this measure by:

- (1) Requiring the Department of Hawaiian Home Lands to complete an assessment and report on the feasibility of creating an interactive digital database software program and to submit their report to the Legislature by July 1, 2024; and
- (2) Amending section 1 to clarify that this measure's purpose is for transparency and not to address lessee abuse of the Hawaiian Home Lands program.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 740, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 740, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 111 Hawaiian Affairs on S.B. No. 741**

The purpose and intent of this measure is to exclude from any waiting list maintained by the Department of Hawaiian Home Lands any lessee or successor who sells or transfers their lease on a tract of Hawaiian home lands.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Hawaiian Home Lands, Hui Kako'o 'Āina Ho'opulapula, Sovereign Council of Hawaiian Homestead Associations, and one individual.

Your Committee finds that certain native Hawaiians who are eligible for a lease pursuant to the Hawaiian Homes Commission Act, 1920, have acquired a lease, sold, or transferred their interest in the lease, and then placed their name on the waitlist for a second lease. Because all beneficiaries should be able to enter the Hawaiian Homes Commission Act program with a reasonable expectation of eventually receiving a lease, this measure prohibits lessees who sell or transfer their interest in a Hawaiian home lands tract from being placed on the waiting list maintained by the Department of Hawaiian Home Lands for an additional lease.

Your Committee has heard the testimony from the Sovereign Council of Hawaiian Homestead Associations and an individual expressing concerns that the measure would unintentionally and permanently deny former lessees who sold or transferred their lease interest due to medical hardships or other extraneous circumstances the ability to ever reapply for a homestead lease.

Therefore, your Committee has amended this measure by:

- (1) Specifying that a lessee or successor is not eligible to return to the waitlist only if they sell their lease for personal gain;
- (2) Establishing a right of first refusal for the Hawaiian Homes Commission on sales or transfers of leases made for personal gain; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee also discussed how "personal gain" could best be defined to satisfy the full intent of this measure. Your Committee notes that the definition of "personal gain" should not be construed to the detriment of families, and your Committee discussed the concept of allowing a seller to submit a reason for their sale for personal gain to the Hawaiian Homes Commission in order to receive a waiver. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Judiciary, should it deliberate on this measure, further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 741, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Richards, Fevella). Noes, none. Excused, none.

**SCRep. 112 Hawaiian Affairs on S.B. No. 1014**

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to retain independent legal counsel and to retain the services of the Attorney General on an as-needed basis.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Sovereign Council of Hawaiian Homestead Associations, Keaukaha Pana'ewa Farmers Association, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from one individual.

Your Committee finds that the Department of Hawaiian Home Lands is unique in its genesis through the Hawaiian Homes Commission Act of 1920, as amended. Further, the Department of Hawaiian Home Lands has a fiduciary duty to its beneficiaries in the fulfillment of its trust obligation. Given this unique and significant history, the Department of Hawaiian Home Lands and other state agencies will, at times, have different strategic objectives and policies on issues that are culturally sensitive to the Native Hawaiian people. Therefore, this measure allows the Department of Hawaiian Home Lands to retain independent legal counsel and to retain the services of the Attorney General on an as-needed basis.

Your Committee has heard testimony from the Department of the Attorney General, which provided assurances that safeguards were already in place to ensure zealous representation and to avoid conflicts of interest. Your Committee has also heard testimony from the Department of Hawaiian Home Lands emphasizing that certain issues, such as those involving Mauna Kea, necessarily require counsel to view issues through a Native Hawaiian lens. In acknowledgment of these discussions, your Committee has amended this measure by:

- (1) Limiting the Department of Hawaiian Home Lands' ability to retain independent counsel to situations where the opposing party to the reasonably anticipated litigation is the State or another state agency; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1014, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 113 Hawaiian Affairs on S.B. No. 200**

The purpose and intent of this measure is to increase the amount of partial public financing available to all candidates.

Specifically, this measure:

- (1) Increases the maximum amount of public funds available for all offices by fifty percent;
- (2) Increases the maximum amount of public funds available for a candidate for the Office of Hawaiian Affairs from \$1,500 to ten percent of the expenditure limit for each election;
- (3) Increases the amounts of qualifying contributions for the Office of Hawaiian Affairs from more than \$1,500 to more than \$5,000 in the aggregate;
- (4) Provides a downward adjustment of the amounts of qualifying contributions for the Office of Prosecuting Attorney for the City and County of Honolulu, County of Hawaii, and County of Kauai and for the Office of County Council for the County of Maui;
- (5) Appropriates unspecified sums for the increase in the partial public financing program; and
- (6) Appropriates \$200,000 for the Campaign Spending Commission to hire two additional staff members.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Commission to Improve Standards of Conduct.

Your Committee finds that using public funds to finance election campaigns is in the public interest because it mitigates the outsized influence of large private donors. In Hawaii, a partial public financing program is operated by the Campaign Spending Commission and provides dollar for dollar matching funds up to a maximum amount on the qualifying contributions raised by a candidate who has first collected the minimum amount of these contributions for the prescribed office.

Your Committee further finds, however, that the amounts of funds available to candidates through the partial public financing program were last amended in 1995. Naturally, the real value of a dollar has decreased over time due to inflation. Therefore, this measure increases the matching fund payments available to candidates participating in the partial public financing program and appropriates funds to allow the Campaign Financing Commission to hire additional staff.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 200, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 114 Judiciary on S.B. No. 917**

The purpose and intent of this measure is to propose a constitutional amendment to provide that freedom of speech protected under the Hawaii State Constitution does not include the expenditure of money to influence elections.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i, Stonewall Caucus of the Democratic Party of Hawai'i, and four individuals.

Your Committee finds that the United States Supreme Court's decision in *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), reversed long-standing campaign finance restrictions and designated corporate spending on elections as free speech protected under the First Amendment of the Constitution of the United States. The decision removed any limits on the amount of money that corporations, special interest groups, and political action committees could spend on an election. Your Committee further finds that the decision in *Citizens United* is a serious threat to our democracy. Corporations enjoy various advantages, including limited liability, perpetual life, and favorable treatment in the accumulation and distribution of assets, which allow them to amass and spend an extraordinary amount of money on political messages that often have far greater reach and influence than messages from individuals. During the twelve years since the *Citizens United* decision, there has been a massive increase in political spending by

corporations, special interest groups, and political action committees, dramatically expanding their already outsized political influence on election outcomes and policy decisions. This measure will demonstrate to the United States Congress that the State disapproves of the *Citizens United* decision.

Your Committee has amended this measure by specifying that the ballot question will be, “[s]hall the Hawaii State Constitution be amended to state that freedom of speech protections under the Hawaii State Constitution do not include the expenditure of money to influence elections, which would take effect if the United States Supreme Court overturns, Congress overrides, or an amendment to the United States Constitution invalidates the United States Supreme Court’s decision in *Citizens United v. Federal Election Commission*, which allows unrestricted spending by corporations on elections?”.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 917, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 115 (Majority) Judiciary on S.B. No. 1167**

The purpose and intent of this measure is to propose a constitutional amendment to protect an individual’s reproductive freedom in their most intimate decisions, including the right to abortion and contraceptives.

Your Committee received testimony in support of this measure from the Department of Health, Hawai’i Civil Rights Commission, Americans for Democratic Action Hawai’i, Hawaii Section of the American College of Obstetricians and Gynecologists, Community Alliance on Prisons, Democratic Party of Hawai’i, Hawai’i Friends of Civil Rights, Pride at Work – Hawai’i, Save Medicaid Hawaii, Stonewall Caucus of the Democratic Party of Hawai’i, and forty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Family Forum; Americans United for Life; Roman Catholic Church in the State of Hawaii, Diocese of Honolulu; and thirteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawai’i has a long history of recognizing the importance of access to abortion care and protecting this access is widely supported. While Hawai’i has been a long-time leader in reproductive health care rights, the landscape in the rest of the country is rapidly changing. Since the *Dobbs v. Jackson Women’s Health*, 597 U.S. \_\_\_ (2022), decision by the United States Supreme Court in June 2022 that overturned almost fifty years of a national constitutional right to abortion, several states have passed laws banning or highly restricting access to abortion. Amending the Hawaii State Constitution is the strongest and most lasting way to ensure individual reproductive rights in Hawai’i. This measure will protect access to safe reproductive health care services for women in Hawai’i.

Your Committee has amended this measure by:

- (1) Specifying that no law shall be enacted, nor any state action taken, that denies or interferes with an individual’s reproductive freedom in their most intimate decisions, including the fundamental right to abortion and contraceptives; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1167, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Gabbard, Awa). Excused, none.

**SCRep. 116 (Majority) Judiciary on S.B. No. 992**

The purpose and intent of this measure is to propose a constitutional amendment to increase the mandatory retirement age for justices and judges from seventy to seventy-five years of age.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Community Alliance on Prisons, and two individuals. Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that the mandatory retirement age of seventy years ignores the fact that many people work well beyond the age of seventy as productive, contributing members of society. Forcing qualified, competent judges to retire simply based on an arbitrarily imposed age can adversely affect the quality of the Judiciary by removing from office competent judges who possess years of knowledge and experience. This measure will ensure that the State does not lose competent and experienced judges merely because of their age.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 117 Education on S.B. No. 105**

The purpose and intent of this measure is to change the Department of Education’s requirement to report on autism spectrum disorder from a quarterly to an annual report.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received in opposition of this measure from the Hawaii Disability Rights Center.

Your Committee finds that Act 205, Session Laws of Hawaii 2018, mandates that the Department of Education submit quarterly reports that include, among other things, the number of students with autism spectrum disorder, staffing requirements, and Medicaid reimbursement schedules and amounts. However, the quarterly report offers few changes reflected between each period. Changing the reporting requirement to an annual report would provide a more equitable balance between the benefit of the informational report and the associated administrative workload.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 118 Education on S.B. No. 830**

The purpose and intent of this measure is to:

- (1) Require each Department of Education school to establish a critical medical emergency response team; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Children's Action Network Speaks!, Hawaii Fetal Alcohol Spectrum Disorder Action Group, Caring for Hawai'i Neonates, and sixteen individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that in critical medical emergencies, every second counts. Long-term injury, brain damage, and even death can occur within a few minutes of an emergency situation. Presently, while the Department of Education has basic emergency response guidance, there is a gap between the guidance provided to "administer first aid" and the training and preparedness of personnel in the case of an unforeseen critical medical emergency. This measure would ensure all Department of Education students, faculty, and staff receive critical emergency assistance when responding to unforeseen emergencies, by requiring the appointment of critical emergency response team members and establishment of response procedures.

Your Committee has amended this measure by:

- (1) Clarifying that all department schools under the Department of Education shall establish a critical emergency response team;
- (2) Clarifying that the complex area superintendent shall provide support for corrective action plans;
- (3) Inserting language that exempts persons who act in accordance with the requirements of this measure from any civil or criminal liabilities, except under certain conditions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 830, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 119 Education on S.B. No. 290**

The purpose and intent of this measure is to:

- (1) Require that appropriations allocated to Department of Education programs that provide instructional services directly to students remain within the budget of the program to which they were originally allocated;
- (2) Specify that the retention of an appropriation shall not be used by the Department of Education as a basis for reducing a program's future budget requirements;
- (3) Authorize the Department of Education to create temporary positions under certain conditions; and
- (4) Amend the requirement that the Department of Education report the creation of temporary positions to the Department of Budget and Finance and the Legislature.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Department of Education establishes temporary positions for instructional services and critical support for students and teachers. Temporary positions help ensure that basic school operations are provided and that health and safety are adequately addressed. Temporary positions also provide support outside of the classroom at complex areas and state offices through persons such as behavioral health specialists, district resource teachers, and complex academic officers. The temporary workforce is critical to the functioning of the Department of Education, and provide necessary flexibility and support to the Department of Education to continue its mission of educating Hawaii's keiki. Additionally, your Committee finds that funds allocated to the schools and programs that provide instructional services directly to students should not be diverted to fund the Department's administration. This measure will require that appropriations allocated to programs that provide instructional services directly to students shall remain within the budget of the program for which they were originally allocated.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 290, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 120 Hawaiian Affairs on S.B. No. 1609**

The purpose and intent of this measure is to appropriate funds for certain departments and agencies to provide grants to tax-exempt nonprofit organizations that have experience and expertise in supporting and advancing Native Hawaiian communities.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Council for Native Hawaiian Advancement; Ko'olau Foundation; Kapolei Chamber of Commerce; Hui Iwi Kuamo'o; one member of the City Council of the County of Maui; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; and Department of Budget and Finance.

Your Committee finds that various assistance and education programs for improving Native Hawaiian communities are effective and necessary. These programs include Hawaiian historic preservation, development of a mill to process ulu and taro, business and entrepreneurship mentoring, farming, cultural training, and environmental management. Therefore, the purpose of this measure is to appropriate funds for departments to contribute to these nonprofit organization efforts.

Your Committee has heard the testimony of the Department of the Attorney General, expressing concerns that this measure does not contain sufficient standards for grants of public money pursuant to article VII, section 4, of the Hawaii State Constitution.

Therefore, your Committee has amended this measure by:

- (1) Adding additional grant conditions sufficient to comply with article VII, section 4, of the Hawaii State Constitution;
- (2) Amending Act 195, Session Laws of Hawaii 2022, to include this measure's additional grant requirements; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1609, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1609, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 121 Ways and Means on S.B. No. 580**

The purpose and intent of this measure is to amend the law relating to land use.

Prior to the hearing on this measure, your Committee prepared and made available for public review a proposed Senate Draft 1, which amends this measure by deleting its contents and replacing them with language that transfers the Office of Planning and Sustainable Development from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources.

Your Committee has amended this measure by adopting the proposed Senate Draft 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 580, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 580, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (DeCoite, Shimabukuro, Wakai).

**SCRep. 122 Housing on S.B. No. 551**

The purpose and intent of this measure is to amend the law relating to housing.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that clarifies that notwithstanding any other law to the contrary, the Hawaii Housing Finance and Development Corporation may develop certain housing projects that shall be exempt from all statutes, ordinances, charter provisions, and rules relating to planning, zoning, and other certain standards, provided that certain conditions are met.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, as amended herein, and recommends that it be recommitted to your Committee on Housing, in the form attached hereto as S.B. No. 551, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 123 Public Safety and Intergovernmental and Military Affairs on S.B. No. 875**

The purpose and intent of this measure is to authorize counties, after adoption of an ordinance, to sell private property after all notices, orders, and appeal proceedings are exhausted and to use those revenues to pay unpaid civil fines related to that property.

Your Committee received testimony in support of this measure from one member of the Honolulu City Council.

Your Committee finds that presently, the counties must complete a lengthy process to enforce violations of land use ordinances and building codes against repeat and egregious offenders. The current process requires multiple notices and a judicial foreclosure process that is a legal process mostly beyond the counties' control. Additionally, the counties often lack legal manpower and funding to pursue judicial foreclosures. Your Committee believes that a more efficient and effective method should be available to the counties to collect liens on properties for civil fines. This measure will allow counties to better enforce land use ordinances and building code requirements by authorizing counties, after adoption of an ordinance, to sell private property after all notices, orders, and appeal proceedings are exhausted and to use those revenues to pay unpaid civil fines related to that property.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 875 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 124 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 821**

The purpose and intent of this measure is to appropriate funds to the Department of Law Enforcement for the purchase of drones to monitor the use of illegal fireworks.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Poi Dogs and Popoki, and seventeen individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and two individuals. Your Committee received comments on this measure from the Department of Law Enforcement.

Your Committee finds that the use of illegal fireworks in the State has increased in recent years, with fireworks going off in certain neighborhoods for months at a time. Illegal fireworks create sustained stress on people and animals, which can do lasting damage to their emotional and physical health. Your Committee believes that local law enforcement should use modern technology and methods to enforce fireworks laws. This measure will reduce illegal fireworks usage in the State by appropriating funds to the Department of Law Enforcement for the purchase of drones to monitor the use of illegal fireworks.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 125 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 1332**

The purpose and intent of this measure is to:

- (1) Clarify the scope of the state comprehensive emergency management plan;
- (2) Delineate allowable uses of Major Disaster Fund moneys;
- (3) Increase the amount of the additional funds that may be made available for the purpose of matching federal disaster relief funds from \$5,000,000 to \$10,000,000;
- (4) Shorten the duration of price control periods from ninety-six to seventy-two hours; and
- (5) Clarify that entities other than the National Weather Service may issue warnings that may require the activation of the emergency management system.

Your Committee received testimony in support of this measure from the Department of Defense, Hawaii Emergency Management Agency, and Retail Merchants of Hawaii.

Your Committee finds that recent emergencies, including the coronavirus disease 2019 pandemic, have highlighted the importance of clear legal frameworks for state and county emergency management to ensure that the State and counties are ready for any types of emergencies and to align with state and federal processes. Your Committee further finds that emergency management agencies require access to more resources due to rising inflation and the increased scale and cost of emergencies in recent years. Your Committee believes that increasing funds available to address emergencies and improving and further clarifying the legal frameworks for state and county emergency management agencies will improve emergency response efforts.

This measure will allow the Department of Defense, Hawaii Emergency Management Agency, and other state and county emergency management agencies to fulfill their mission of protecting the people of the State by clarifying the scope of the comprehensive emergency management plan, delineating allowable uses of Major Disaster Fund moneys, increasing the amount of the additional funds that may be made available for the purpose of matching federal disaster relief funds from \$5,000,000 to \$10,000,000, shortening the duration of price control periods and the stay on residential tenancy terminations from ninety-six to seventy-two hours, and clarifying that entities other than the National Weather Service may issue warnings that may require the activation of the emergency management system.

Your Committee notes that amendments made by this measure to section 127A-30(c), Hawaii Revised Statutes, may be interpreted to repeal the governor and mayor's authority to specify, through a declaration, the duration of emergency periods to defer the termination of any tenancy for a residential dwelling unit in an area that is subject to an emergency proclamation. Your Committee believes this matter warrants more examination in future deliberations on this measure.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1332 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 126 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 922**

The purpose and intent of this measure is to:

- (1) Require a law enforcement officer who observes criminal misconduct by another law enforcement officer to report the criminal misconduct;
- (2) Require passage of a psychological screening test battery to qualify for appointment as a law enforcement officer;
- (3) Subject a law enforcement officer to denial, suspension, or revocation of a law enforcement officer's certification for failure to report observed criminal misconduct or committing an act of criminal misconduct; and
- (4) Prohibit the use of a chokehold by a law enforcement officer unless the use of deadly force is justifiable.

Your Committee received testimony in support of this measure from seven individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and State of Hawaii Organization of Police Officers.

Your Committee finds that law enforcement services are an essential government function. Your Committee believes that it is in the State's interest to mitigate any future actions of excessive force by law enforcement officers that may lead to unnecessary loss of life or harm. This measure will promote greater accountability and transparency in government's provision of law enforcement services by requiring a law enforcement officer who observes criminal misconduct by another law enforcement officer to report the criminal misconduct; requiring passage of a psychological screening test battery to qualify for appointment as a law enforcement officer; subjecting a law enforcement officer to denial, suspension, or revocation of a law enforcement officer's certification for failure to report observed criminal misconduct or committing an act of criminal misconduct; and prohibiting the use of a chokehold by a law enforcement officer unless the use of deadly force is justifiable.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 127 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1099**

The purpose and intent of this measure is to:

- (1) Extend the period in which a county may adopt a surcharge on state tax, under certain conditions;
- (2) Authorize the use of the surcharge revenues for affordable and workforce housing infrastructure; and
- (3) Allow the counties to use surcharge revenues for housing infrastructure, including roadways, water, and sewer.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui and two members of the Maui County Council. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Maui County is the only county in the State that has not adopted a surcharge on state tax. Additionally, the high cost of living in Maui County often prevents residents from purchasing a home. Your Committee believes that a surcharge on state tax would provide much-needed revenue for Maui County to address its affordable housing crisis. This measure will generate funding to increase Maui County's ability to support affordable and workplace housing infrastructure by extending the period in which a county may adopt a surcharge on state tax, under certain conditions; authorizing the use of the surcharge revenues for affordable and workforce housing infrastructure; and allowing the counties to use surcharge revenues for housing infrastructure, including roadways, water, and sewer.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 128 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1112**

The purpose and intent of this measure is to:

- (1) Prohibit bans on dwelling unit rentals having a term between one and five months for interisland relocations and temporary workers; and

- (2) Authorize county councils to adopt any ordinances necessary to implement the prohibition by June 30, 2024.

Your Committee received testimony in support of this measure from Keep it Kailua. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that several counties have passed ordinances restricting short term rentals in residential areas to address housing shortages for residents and to promote peace and quiet in residential areas. For example, the most recent ordinance, passed by the Honolulu City Council, requires short term rentals to be for a minimum of ninety days. However, these ordinances restrict residents and local temporary workers from finding affordable places to stay while working on or relocating to other islands. Your Committee believes that county ordinances restricting short term rentals should not negatively impact residents seeking to temporarily stay on other islands while relocating or for temporary employment. This measure will allow residents to continue to work temporarily on other islands and use short-term rentals in residential areas by prohibiting bans on dwelling unit rentals having a term between one and five months for interisland relocations and temporary workers and authorizing county councils to adopt any ordinances necessary to implement the prohibition by June 30, 2024.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1112 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 129 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1163**

The purpose and intent of this measure is to appropriate funds to support the operational expenses of the Hawaii Wing of the Civil Air Patrol.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency, Hawaii Wing of the Civil Air Patrol, The Maritime Group, and one individual.

Your Committee finds that the Civil Air Patrol is a nonprofit organization and an auxiliary of the United States Air Force and its activities include emergency services, aerospace education, and cadet programs. Civil Air Patrol members are volunteers who serve as pilots, scanners, and ground crew in fulfilling its mission to serve communities, save lives, and shape futures. Additionally, Civil Air Patrol personnel regularly serve in the Hawaii Emergency Management Agency Emergency Operations Center during emergency and disaster incident responses, and they assist in the field by spreading warnings in remote areas before an incident, providing pre-assessment aerial reconnaissance, and assessing the damages and impacts afterward. Most recently, the Civil Air Patrol was employed on the island of Hawaii to conduct aerial reconnaissance after the eruption of Mauna Loa in December 2022 and provided overflights that allowed for aerial photography to monitor the status of the lava flows and document damage to support a request for a federal disaster declaration. Although the Hawaii Wing of the Civil Air Patrol has conducted its activities through funding of operational expenses from the State for years, that funding ceased in 2019. Your Committee believes that the Civil Air Patrol is a key asset in state emergency management. This measure will allow the State to protect lives and property in Hawaii by appropriating funds for operational expenses of the Hawaii Wing of the Civil Air Patrol.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 130 Public Safety and Intergovernmental and Military Affairs on S.B. No. 862**

The purpose and intent of this measure is to require each county agency responsible for enforcing its respective building codes to be accredited by the International Accreditation Service.

Your Committee received comments on this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the International Accreditation Service provides objective evidence that an organization operates at the highest level of ethical, legal, and technical standards and accredits a wide range of companies and organizations, including governmental entities, commercial businesses, and professional associations. An International Accreditation Service accreditation can result in reduced cost, time savings, and improvement of products and services. Your Committee believes that an accreditation by the International Accreditation Service can enable county building agencies to ensure that its buildings meet the best and most currently accepted standards. This measure will allow county building agencies to improve their processes and incorporate recognized national and international best practices by requiring each county agency responsible for enforcing its respective building codes to be accredited by the International Accreditation Service.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 862 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 131 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1470**

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to install cameras at the Women's Community Correctional Center;
- (2) Require guards to wear functioning body cameras while on duty at the Women's Community Correctional Center; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Correctional System Oversight Commission, Community Alliance on Prisons, Opportunity Youth Action Hawai'i, and five individuals. Your Committee received comments on this measure from United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that a civil lawsuit in federal court alleged that a group of women at the Women's Community Correctional Center were sexually assaulted at least fifty-three times from 2013 to 2016. A majority of the sexual assault allegedly occurred in the correctional center's control rooms, which lack sufficient security camera coverage. Your Committee believes that additional cameras in control rooms would help deter sexual assaults. This measure will build a defense against future lawsuits and protect inmates from rogue guards by requiring the Department of Public Safety to install cameras at any correctional center that houses women.

Your Committee has amended this measure by:

- (1) Adding language that requires the Department of Public Safety to install digital cameras in all guard control rooms in any correctional center that houses women, not just the Women's Community Correctional Center;
- (2) Deleting language that would have required the Department of Public Safety to require guards to wear functioning body cameras while on duty at the Women's Community Correctional Center;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1470, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 132 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1161**

The purpose and intent of this measure is to ensure that military personnel, when called to active duty:

- (1) Are paid without delay at the same rate as their active duty counterparts;
- (2) Are entitled to basic allowance for housing; and
- (3) Receive service credit toward public pension and retirement.

Your Committee received testimony in opposition to this measure from the Employees' Retirement System and Department of Defense.

Your Committee finds that military personnel are ordered to active duty in the State during times of disaster, to provide assistance such as helping communities recover from tropical storms and flooding. Your Committee also finds that not all of these men and women who are called to active duty are paid in a timely manner or entitled to basic allowance for housing. Your Committee believes that military personnel, when ordered to active duty in the State, should have access to the same entitlements as their active duty counterparts. This measure will support military personnel serving in the State during times of disaster by ensuring that military personnel are paid without delay and entitled to basic allowance for housing at the same rate as their active duty counterparts.

Your Committee has amended this measure by:

- (1) Deleting language that would have provided service credit for time on active duty in the State and allowed state and county employees to count the time called to active duty in the State toward public pension and retirement;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 133 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 1018**

The purpose and intent of this measure is to:

- (1) Require the Governor to ensure continued operation of medical facilities upon declaration of a state of emergency and during times of health or pandemic emergencies; and
- (2) Allow hospitals to suspend elective surgeries during the period of emergency to address the facility's bed capacity.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Healthcare Association of Hawaii and The Queen's Health System.

Your Committee finds that Hawaii's geographic isolation imposes high demands on the local health care system when an emergency occurs. The coronavirus disease 2019 pandemic illustrated the importance of maintaining adequate capacity in Hawaii's health care system during an emergency, whether the emergency is a pandemic or some other incident with the potential to cause casualties who need medical care. Your Committee believes that additional regulations are necessary to ensure continuation of critical health care services during an emergency. This measure will streamline emergency management response and recovery capabilities by requiring the Governor to ensure continued operation of medical facilities upon declaration of a state of emergency and during times of health or pandemic emergencies and allowing hospitals to suspend elective surgeries during the period of emergency to address the facility's bed capacity.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1018, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 134 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1059**

The purpose and intent of this measure is to amend the definition of "emergency worker" in the Penal Code to include communications dispatchers.

Your Committee received testimony in support of this measure from the Department of Public Safety; Department of Law Enforcement; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and fifteen individuals.

Your Committee finds that communications dispatchers are presently not considered emergency workers in the Penal Code, specifically chapter 707, Hawaii Revised Statutes, which provides measures to deter the assault of emergency workers during a period of emergency. Despite this, communications dispatchers are required to report to work during hurricanes, pandemics, and other emergency events, much like firefighters and police officers. Additionally, communications dispatchers perform a crucial role during emergencies and must utilize multiple life-saving techniques, procedures, and technologies to obtain critical information from a caller that is experiencing an emergency. Your Committee believes that communications dispatchers perform an invaluable role during emergencies and deserve to be commended for their dedication and contributions. This measure will recognize the efforts of communications dispatchers by amending the definition of "emergency worker" in the Penal Code to include communications dispatchers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1059, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 135 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1091**

The purpose and intent of this measure is to allow certain counties to utilize tax revenues collected by the counties for the repair and maintenance of private roads that are open to and used by the public.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that private roads that are currently open to and used by the public are also used by first responders to respond to emergencies and by school buses for the transportation of students to and from school. Your Committee believes that residents and visitors of the State would benefit if county tax revenues were used to improve, repair, and maintain privately owned roads that are currently open to and used by the public. This measure will improve safety for residents and visitors of the State by allowing certain counties to utilize tax revenues collected by the counties for the repair and maintenance of private roads that are open to and used by the public.

Your Committee has amended this measure by clarifying that fuel taxes may be used for private roadways that are open to and used by the public.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 136 Transportation and Culture and the Arts on S.B. No. 808**

The purpose and intent of this measure is to require the Department of Transportation to amend its administrative rules to repeal any provisions requiring the furnishing of evidence of registration as a condition precedent to receiving a certificate of inspection.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that requiring vehicle owners to present a valid certificate of registration to receive a certificate of inspection creates an arduous three-step process if the owner's certificates of inspection and registration are both expired. The vehicle owner must engage in a back-and-forth process that creates additional traffic on the road, unnecessary complications for the vehicle owner, and extra work for safety inspection stations. Repealing provisions requiring the furnishing of evidence of a motor vehicle's registration will streamline the process for vehicle owners and safety inspection stations while also making Hawaii's roads safer.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 137 Transportation and Culture and the Arts on S.B. No. 1086**

The purpose and intent of this measure is to amend the composition and duties of the State Highway Safety Council.

Your Committee received testimony in support of this measure from Ulupono Initiative.

Your Committee finds that the Department of Transportation manages and spends more taxpayer dollars than nearly any other state agency. Most departments of transportation throughout the country have robust mechanisms to ensure funds are best spent, including oversight commissions and regular reporting. Additionally, robust transparency and accountability are necessary to ensure that the State makes meaningful progress on transportation policy and projects. Amending the composition and scope of responsibilities of the State Highway Safety Council will allow the State to establish mechanisms enabling better transparency, accountability, and progress to public policy goals to improve transportation outcomes for all state transportation projects.

Your Committee has amended this measure by:

- (1) Amending the composition of the State Highway Safety Council to include:
  - (A) The Chairperson and Executive Director of the Charter School Commission;
  - (B) The Chairperson of the University of Hawaii at Manoa Department of Urban and Regional Planning;
  - (C) The Co-Chairpersons of the Hawaii Climate Change Mitigation and Adaptation Commission;
  - (D) The Director of the Office of Planning and Sustainable Development;
  - (E) The Chief Energy Officer of the Hawaii State Energy Office;
  - (F) A representative of the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources with expertise in landscaping; and
  - (G) Not more than twelve additional individuals representing specified transportation needs of Hawaii's communities;
- (2) Expanding the State Highway Safety Council's scope of responsibilities to include:
  - (A) Ensuring transparency and oversight in programs, projects, decisions, and spending related to ground transportation;
  - (B) Establishing metrics and benchmarks for the Department of Transportation to ensure progress on certain state goals;
  - (C) Reviewing projects in development and making recommendations for improvements, if warranted, to meet state goals;
  - (D) Providing direction to the Department of Transportation and making recommendations to the Legislature as necessary to achieve certain state goals; and
  - (E) Submitting an annual report to the Department of Transportation on the Council's work, responsibilities, and recommendations;
- (3) Retaining existing Council members in membership slots that align with their respective expertise;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1086, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 138 (Majority) Transportation and Culture and the Arts on S.B. No. 497**

The purpose and intent of this measure is to:

- (1) Prohibit commercial vehicles weighing ten thousand pounds or more from driving in the left lane on all roadways with two lanes unless the commercial vehicle is able to maintain speed with existing traffic flow and is in the process of passing another vehicle; and
- (2) Prohibit commercial vehicles weighing ten thousand pounds or more from driving in the left lane on all roadways with three or more lanes.

Your Committee received testimony in support to this measure from the Department of Transportation and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association. Your Committee received comments on this measure from Department of Transportation Services of the City and County of Honolulu.

Your Committee finds that traffic mitigation is of utmost importance to protecting all road users across the State. The majority of roadways across the State were built prior to current complete street or modern design and access management criteria. Large commercial vehicles occupying the left lane or making last minute lane changes may disrupt the flow of traffic, leading to accidents or injuries of those involved. By reducing the frequency of commercial vehicles occupying the left lane or making last minute lane changes, Hawaii's roadways can become safer for all users.

Your Committee has amended this measure by:

- (1) Providing that the prohibition does not apply to commercial vehicles occupying the left lane to turn left or exit, or preparing to turn left or exit;
- (2) Exempting buses and van pools operated by the counties from the prohibition; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Inouye, Awa). Excused, none.

#### **SCRep. 139 Water and Land on S.B. No. 1389**

The purpose and intent of this measure is to require disclosures for real estate transactions involving oceanfront property of:

- (1) All permitted and unpermitted erosion control structures on the parcel or on state land adjacent to the parcel;
- (2) The annual coastal erosion rates for the zoning lot; and
- (3) The current actual setback of all structures from the shoreline.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Hawai'i Reef and Ocean Coalition; and Surfrider Foundation. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that climate change poses immediate and long-term threats to the State's economy, sustainability, and security. Through Act 179, Session Laws of Hawaii 2021, the Legislature recognized the existential threat of sea level rise to real property and required mandatory seller disclosures in real property transactions to indicate that a residential real property lies within the sea level rise exposure area. Your Committee finds that additional protections are needed to ensure that purchasers are prepared for the future challenges and implications of sea level rise and the ancillary effects of coastal erosion, future flooding, inundation, and storm surges. Therefore, this measure requires disclosures for real estate transactions involving oceanfront property of all permitted and unpermitted erosion control structures on the parcel or on state land adjacent to the parcel, the annual coastal erosion rates for the zoning lot, and the current actual setback of all structures from the shoreline.

Your Committee has heard the testimony of the Department of Land and Natural Resources, expressing three concerns with this measure. First, this measure's language requiring that shoreline areas be identified by official tax maps is ambiguous because shoreline areas pursuant to section 205A-41, Hawaii Revised Statutes (HRS), are not identified on official tax maps. Second, this measure's language regarding the disclosure of the annual coastal erosion rates as identified by the Hawaii Shoreline Study web maps should be amended because historical erosion rates are now available through official county databases. Third, the Department of Land and Natural Resources is concerned that requiring sellers to disclose where their shoreline is pursuant to section 205A-1, HRS, may involve hiring a professional surveyor and possibly involving other state agencies, which could be overly burdensome in time and cost for the purposes of real estate transactions.

Therefore, Your Committee has amended this measure by:

- (1) Clarifying that shoreline area disclosures are required for properties adjacent to the shoreline, as opposed to shoreline areas identified by official tax maps;
- (2) Requiring disclosures of the annual coastal erosion rate to be based on the official county databases, instead of the derivative Hawaii Shoreline Study web maps;
- (3) Deleting language that would have required the seller to disclose the distance from the shoreline of all structures on the parcel;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1389, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1389, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 140 Education on S.B. No. 531**

The purpose and intent of this measure is to amend the law relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to authorize the School Facilities Authority to appoint an Executive Director and evaluate their performance annually.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 531, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 531, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 141 Commerce and Consumer Protection on S.B. No. 18**

The purpose and intent of this measure is to require domestic and foreign corporations to provide their shareholders with reports of independent expenditures and political contributions.

Your Committee received comments on this measure from Matson Navigation Company, Inc.

Your Committee finds that corporate reporting requirements serve important interests, such as providing shareholders with information, deterring corruption and avoiding any appearance thereof, and gathering the data necessary to enforce more substantive electioneering restrictions. Existing federal and state law currently require corporations to make independent expenditures and political contributions publicly available. However, this information is not provided directly to shareholders but rather is made available on the State of Hawaii Campaign Spending Commission website and the United States Federal Election Commission website. Providing this information directly to shareholders would provide additional scrutiny of compliance with reporting and disclosure requirements. Accordingly, this measure requires domestic and foreign corporations to provide shareholders with reports of independent expenditures and political contributions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 18, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 18, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 142 Labor and Technology on S.B. No. 879**

The purpose and intent of this measure is to appropriate funds for the retention of employees of the Unemployment Insurance Division (Division) of the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and one individual.

Your Committee finds that not only is the Division one hundred percent federally funded, but that the federal funding it receives is counter-cyclical to the volume of services that it provides. Accordingly, as the unemployment rate for the State decreases, so does the federal funds that the Division receives. Your Committee further finds that although the Division has a number of positions, fifteen of these positions currently remain vacant because they are not federally funded. According to testimony from the Division, filling these fifteen positions would retain the specialized institutionalized knowledge necessary to ensure that service levels to the community remain stable as the Division moves forward with its modernization initiative. Your Committee recognizes the concerns that appropriating state funding to the Division may potentially affect the amount of federal funding that the Division receives; however, your Committee also believes that the supplemental funds proposed in this measure could help with the long-term sustainability of the Unemployment Insurance Program.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on their measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$1,500,000 for the retention of fifteen federally-unfunded vacant positions necessary to stabilize the program operations of the Unemployment Insurance Division.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 879, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 143 Water and Land on S.B. No. 1095**

The purpose and intent of this measure is to add to the list of exceptions from the special management area definition of “development” certain activities related to pedestrian and bicycle facilities, trash removal, invasive vegetation control, fencing for invasive species control and native habitat preservation, access devices and utilities, and lighting fixtures at existing public recreation facilities.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development, University of Hawai‘i System, and one individual.

Your Committee finds that targeted amendments to the definition of “development” as it relates to special management areas will promote, not undercut, the environmental controls and quality that special management area regulations are intended to protect. Currently, the broad definition of “development” can result in a special management area use permit review being required for improvements, facilities, and incidental structures that may not warrant such intense scrutiny nor the economic burdens of the rising costs of labor, building materials, and delays that go along with it. Therefore, this measure adds to the list of exceptions from the special management area definition of “development” certain activities related to pedestrian and bicycle facilities, trash removal, invasive vegetation control, fencing for invasive species control and native habitat preservation, access devices and utilities, and lighting fixtures at existing public recreation facilities.

Your Committee has amended this measure by:

- (1) Removing the addition of improvements; construction of pedestrian and bicycle facilities; the placement of barriers for the control of vehicle movement; and removal of fences, walls, or barriers and replacement with gates or other access devices and associated minor improvements for inspection and maintenance of utilities from the list of excepted activities in the definition of “development” within special management areas;
- (2) Specifying that the exception for the installation, maintenance, repair, and replacement of existing lighting, fixtures, and equipment to establish compliance with current standards applies to existing public facilities, not just recreation facilities;
- (3) Adding Hawaiian traditional and customary practices to the list of excepted activities;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1095, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1095, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 144 Hawaiian Affairs on S.B. No. 1582**

The purpose and intent of this measure is to ensure that the \$600,000,000 appropriated to the Department of Hawaiian Home Lands in Act 279, Session Laws of Hawaii 2022 (Act 279), is available for expenditure until June 30, 2025, as intended.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Hawaiian Home Lands, Department of Budget and Finance, Office of the Mayor of the County of Maui, Hui Kako‘o ‘Āina Ho‘opulapula, Hawai‘i Alliance for Community-Based Economic Development, and one member from the County Council of the County of Maui. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that Act 279 appropriated \$600,000,000 out of the general revenues of the State of Hawaii to provide a multi-pronged approach to reducing the over twenty-eight thousand applicants on the Department of Hawaiian Homelands waitlist. Your Committee further finds that, while Act 279 stipulated that moneys not encumbered shall lapse to the general fund on June 30, 2025, article VII, section 11, of the Hawaii State Constitution generally requires that no appropriations be made for a period exceeding three years. Thus, Act 279 may be subject to constitutional challenge. Therefore, this measure amends Act 279 in accordance with constitutional requirements to allow for the expenditure of funds until June 30, 2025, as originally provided by the Legislature.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1582 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 145 (Majority) Judiciary on S.B. No. 1078**

The purpose and intent of this measure is to:

- (1) Establish a statewide electronic citation program under the Judiciary; and

(2) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Department of Law Enforcement, Department of Transportation, Honolulu Police Department, Hawai'i Police Department, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the use of paper citations sometimes gives rise to difficulties, including supervisors, prosecutors, and judiciary personnel having to decipher handwritten notes that are difficult to read, as well as untimely delivery of citations from law enforcement agencies to the Judiciary. These difficulties have the potential to lead to delays in access to citations and to dismissal of traffic citations. Your Committee further finds that the use of an electronic citation system resolves handwriting legibility issues and eliminates the need to collect and scan paper citations. This measure provides numerous benefits to law enforcement, the Judiciary, and the general public, including the streamlining of processes and increased access to information.

Should your Committee on Ways and Means choose to deliberate on this measure, your committee respectfully requests that it considers inserting an appropriation amount of \$370,000 for the Judiciary's one-time start-up costs. Your Committee also notes that separate funding for the counties may also be needed.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 146      Judiciary on S.B. No. 1101**

The purpose and intent of this measure is to conform the state debt limit statements law to include tax increment bonds upon the ratification of a constitutional amendment authorizing the use of such bonds and excluding such bonds from determinations of the counties' funded debt.

Your Committee received testimony in support of this measure from the Department of Transportation and Office of Planning and Sustainable Development. Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that tax increment financing is a useful tool to help finance regional public infrastructure to facilitate transit-oriented development on state and private lands. It allows a portion of property taxes in excess of a base assessed value to be dedicated to finance costs of a project through issuance of bonds. This measure will amend the state debt limit statement law to authorize tax increment financing.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 147      Judiciary on S.B. No. 400**

The purpose and intent of this measure is to:

- (1) Restrict civil asset forfeiture to cases involving the commission of a felony offense where the property owner has been convicted of an underlying felony offense;
- (2) Direct forfeiture proceeds to the general fund;
- (3) Amend the allowable expenses for moneys in the Criminal Forfeiture Fund;
- (4) Require the Attorney General to adopt rules necessary to carry out the purpose of the Hawaii Omnibus Criminal Forfeiture Act;
- (5) Amend the deadline for the Attorney General to report to the Legislature on the use of the Hawaii Omnibus Criminal Forfeiture Act;
- (6) Limit the transfer of certain forfeiture property to federal agencies; and
- (7) Establish records requirements.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Americans for Democratic Action Hawai'i, Community Alliance on Prisons, Hawaii Health & Harm Reduction Center, Drug Policy Forum of Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, Hawai'i Police Department, Office of the Prosecuting Attorney of the County of Hawai'i, Office of the Prosecuting Attorney of the County of Kaua'i, and one individual. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that Hawaii's civil asset forfeiture process allows law enforcement agencies to seize and keep property based on suspicion that the property is connected to criminal activity. Property, such as vehicles, houses, cash, and jewelry, can be taken without the property owner having been convicted of a crime or even being formally accused of one, and the burden of proof is shifted from the State to the property owner. Your Committee further finds that there is a potential incentive to improperly seize property for forfeiture, as state and county law enforcement agencies are permitted to retain all proceeds from the sale of the seized property if it is

later forfeited. This measure will limit the ability of law enforcement to forfeit seized property and will direct any proceeds to the general fund.

Your Committee has amended this measure by:

- (1) Removing the first sentence from the findings section; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 400, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 400, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 148      Judiciary on S.B. No. 482**

The purpose and intent of this measure is to appropriate funds for the Judiciary for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025.

Your Committee received testimony in support of this measure from the Judiciary, Hawai'i Access to Justice Commission, Hawaii State Bar Association, Hawaii State Bar Association Appellate Section, Hawaii State Bar Association Litigation Section, Legal Aid Society of Hawai'i, Volunteer Legal Services Hawai'i, and two individuals.

Your Committee finds that the appropriations made by this measure are intended to assist the Judiciary in its efforts to fulfill its constitutional and statutory duties for the 2023-2025 fiscal biennium.

Your Committee has amended this measure by:

- (1) Increasing the appropriation amount to the Judiciary for fiscal year 2023-2024 by \$5,000,000 for the upgrade and modernization of the elevators at Kaahumanu Hale; and
- (2) Increasing the appropriation amount to the Third Circuit for fiscal year 2023-2024 by \$75,000 to fund the Zero to Three Court.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 482, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 482, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 149      (Majority) Judiciary on S.B. No. 1076**

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to prepare a digital voter information guide;
- (2) Require the Office of Elections to post the guide on its website in compliance with certain accessibility standards;
- (3) Require the Office of Elections to mail each ballot with a notice that states a voter information guide may be found on its website; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, League of Women Voters of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that all states make an effort to inform the electorate about upcoming elections, where and when the elections will be held, and how to cast a vote. Your Committee further finds that some states provide valuable information to registered voters such as candidate information or background information on constitutional amendments or ballot measures. This measure will provide for a digital voter information guide to registered voters of the State, which will create a more informed voting public and increase voter participation in elections.

Your Committee has amended this measure by:

- (1) Specifying that the Office of Elections shall provide printed copies of the digital voter information guide for distribution at all public libraries; and
- (2) Specifying that the digital voter information guide shall contain information about mailing deadlines, drop box locations, same day voter registration, accessible voting locations, and opening hours of voter service centers.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$143,280. According to the Office of Elections, \$98,280 would be required to fund the program for the primary and \$45,000 would be required to fund the program for the general election.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1076, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 150      Judiciary on S.B. No. 1295**

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to expressly provide that the Legislature may authorize political subdivisions, such as counties, to issue tax increment bonds and to exclude tax increment bonds in calculating the debt limit of the political subdivisions.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; and Office of Planning and Sustainable Development. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that bonds are one method that counties use to finance infrastructure and to support other county functions. Your Committee further finds that tax increment bonds are bonds, the principal of and interest on which are payable from and secured solely by all real property taxes levied by a political subdivision such as a county. This measure enables the counties to issue tax increment bonds to raise revenues.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1295, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 151      Higher Education on S.B. No. 835**

The purpose and intent of this measure is to repeal the requirement that the annual general fund budget appropriation for the University of Hawaii shall be three to five times the estimated regular tuition and related fee revenues for that year.

Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that under existing law, the Legislature is mandated to appropriate from the general fund three to five times the amount of regular tuition and related fee revenues estimated for that fiscal year for the University of Hawaii's budget. However, according to information previously submitted by the Department of the Attorney General to the Legislature, this law is unconstitutional, since one Legislature may not bind a successor Legislature with regard to the expenditure of funds. The existing statute merely provides guidance or an expression of intent from a previous Legislature to the current Legislature regarding the general fund appropriation to the University of Hawaii. To clarify the appropriation process and prevent confusion over the Legislature's obligations, this measure repeals the existing statutory provision governing the Legislature's appropriations to the University of Hawaii unenforceable which the Department of the Attorney General has advised to be for constitutional reasons.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Kidani).

**SCRep. 152      Higher Education on S.B. No. 631**

The purpose and intent of this measure is to:

- (1) Propose an amendment to the Hawaii State Constitution to modify the appointment process for the Board of Regents of the University of Hawaii; and
- (2) Repeal the requirement that the Governor shall only appoint from pools of candidates presented by the University of Hawaii Board of Regents Candidate Advisory Council.

Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Board of Regents of the University of Hawai'i System.

Your Committee finds that the Board of Regents of the University of Hawaii guides the policies and trajectory of the University of Hawaii. In 2006, the Board of Regents Candidate Advisory Council was established to select regents through a process similar to the state Judiciary's process for selecting judges and justices. While the Council proved effective at its inception and during periods when a high number of individuals applied, it has proven less effective in recent years when insufficient numbers of applicants have forced the Council to extend application deadlines.

For each vacancy on the Board of Regents, the Candidate Advisory Council is required to submit the names of at least three candidates to the Governor. A lack of applicants may leave the Council no choice but to submit the names of less qualified or unqualified applicants to meet its mandate. To maintain the quality of regents, this measure proposes an amendment to the Hawaii State Constitution to repeal the Board of Regents Candidate Advisory Council, allowing the Governor to directly appoint regents with the advice and consent of the Senate.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 631 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 153 Higher Education on S.B. No. 960**

The purpose and intent of this measure is to repeal the University of Hawaii Board of Regents Candidate Advisory Council and authorize the Governor to directly appoint members to the University of Hawaii Board of Regents.

Your Committee received testimony in opposition to this measure from the University of Hawaii Professional Assembly, Association of Emeritus Regents of the University of Hawaii, and three individuals. Your Committee received comments on this measure from the Board of Regents of the University of Hawai'i System.

Your Committee finds that the Board of Regents of the University of Hawaii guides the policies and trajectory of the University of Hawaii. In 2006, the Board of Regents Candidate Advisory Council was established to select regents through a process similar to the state Judiciary's process for selecting judges and justices. While the Candidate Advisory Council proved effective at its inception and during periods when a high number of individuals applied, it has proven less effective in recent years when insufficient numbers of applicants have forced the Council to extend application deadlines.

For each vacancy on the Board of Regents, the Candidate Advisory Council is required to submit the names of at least three candidates to the Governor. A lack of applicants may leave the Council no choice but to submit the names of less qualified or unqualified applicants to meet its mandate. To maintain the quality of regents, this measure repeals the Board of Regents Candidate Advisory Council, allowing the Governor to directly appoint regents with the advice and consent of the Senate.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 960 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 154 Higher Education on S.B. No. 249**

The purpose and intent of this measure is to prohibit a person from concurrently serving as:

- (1) President of the University of Hawaii and chancellor of any University of Hawaii campus; and
- (2) Chief Procurement Officer of the University of Hawaii and President of the University of Hawaii.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that it is a matter of statewide concern that the President of the University of Hawaii serves simultaneously as the Chancellor of the University of Hawaii at Manoa. Serving in both roles leads to inevitable conflicts of interest. Similarly, the President of the University of Hawaii simultaneously serving as the Chief Procurement Officer of the University also leads to conflicts of interest. This measure eliminates these inevitable conflicts of interest by prohibiting the President of the University of Hawaii from serving simultaneously as President and Chancellor, and President and Chief Procurement Officer, respectively.

Your Committee notes Senate Bill No. 1197, Regular Session of 2023, which was additionally heard by your Committee, also removes the President of the University of Hawaii as the Chief Procurement Officer for the University of Hawaii and finds that, for purposes of clarity, Senate Bill No. 1197 is preferable for its stated purpose. Amendments to this measure are therefore necessary to reflect the preferred legislative vehicle to prohibit the President serving as the University of Hawaii's Chief Procurement Officer.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have prohibited the President of the University of Hawaii from serving concurrently as Chief Procurement Officer for the University;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 249, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 249, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Kidani).

**SCRep. 155 Higher Education on S.B. No. 281**

The purpose and intent of this measure is to establish a state income tax deduction for Hawaii residents making eligible contributions into the HI529-Hawaii's College Savings Program.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the HI529-Hawaii's College Savings Program assists and encourages individuals and families to save and invest funds for future higher education expenses. Most other states offer a state tax deduction or credit for contributions to state

college savings programs to incentivize participation. As the cost of higher education continues to rise, this measure similarly will help incentivize Hawaii residents to save for higher education through contributions to an HI529 program account.

Your Committee recognizes that not all Hawaii residents make contributions into the HI529 program, but instead may contribute to other state college savings programs. To encourage these residents to continue making contributions, amendments to this measure are necessary to expand eligibility for the proposed state income tax deduction for eligible contributions to any college savings program under section 529 of the Internal Revenue Code. Your Committee further notes the concerns raised in the testimony submitted by the Department of the Attorney General raising constitutional concerns regarding equality of treatment for resident and nonresident taxpayers and therefore finds that amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the state income tax deduction shall be allowed for eligible contributions made to any college savings program established under section 529 of the Internal Revenue Code of 1986, as amended, rather than exclusively for contributions made to the HI529-Hawaii's College Savings Program;
- (2) Deleting language that would have defined "qualified taxpayer" as a resident of the State;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an unspecified taxable year for which the income tax deduction shall be allowed to commence; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 281, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kidani).

**SCRep. 156 Higher Education on S.B. No. 1197**

The purpose and intent of this measure is to designate the Vice President for Budget and Finance and Chief Financial Officer of the University of Hawaii as the Chief Procurement Officer for the University.

Your Committee received testimony in support of this measure from the Hawaii Regional Council of Carpenters and one individual. Your Committee received testimony in opposition to this measure from the University of Hawai'i System.

Your Committee finds that it is a matter of statewide concern that the President of the University of Hawaii serves simultaneously as the Chief Procurement Officer for the University. Across the United States, the vast majority of public higher education institutions differentiate between institutional leadership and purchasing when assigning authority over procurement. Whereas other institutions designate their Chief Financial Officer as Chief Procurement Officer, the University of Hawaii is the only institution of higher learning that concurrently names its President as Chief Procurement Officer.

Your Committee further finds that the President's foremost interests are those of the University, whereas the foremost concern of the Chief Procurement Officer must be ethical public procurement in accordance with the Hawaii Public Procurement Code. The interests of the University may at times come into conflict with ethical public procurement practices, as evinced by the University's renovation of the Clarence T.C. Ching Athletics Complex. Therefore, the President of the University of Hawaii serving simultaneously as the Chief Procurement Officer leads to inevitable conflicts of interest. This measure eliminates these conflicts of interest by designating the Vice President of Budget and Finance and Chief Financial Officer of the University of Hawaii as the Chief Procurement Officer for the University. To effectuate this transfer of duties, an amendment to this measure is necessary to add an appropriation of funds to the University of Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation of an unspecified amount to effectuate the transfer of duties of Chief Procurement Officer for the University of Hawaii;
- (2) Inserting an appropriation of an unspecified amount for repair and maintenance of University of Hawaii campus buildings and infrastructure;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1197, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Kidani).

**SCRep. 157 Higher Education on S.B. No. 547**

The purpose and intent of this measure is to amend the law relating to the Board of Regents.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that requires the University of Hawaii's Board of Regents to approve by majority vote any designee selected to serve or participate for the Board of Regents' Chairperson as a voting or nonvoting member of any legislatively established board, commission, working group, or task force.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 547, as amended herein, and recommends that it be recommitted to your Committee on Higher Education, in the form attached hereto as S.B. No. 547, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 158 Government Operations on S.B. No. 299**

The purpose and intent of this measure is to authorize the Legislature to specify the form for which the proposed budgets of the executive branch, judiciary branch, and Office of Hawaiian Affairs are submitted to the Legislature.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that legislative staff spends critical time transcribing the proposed budgets from various departments and agencies into a cohesive document for public review. Your Committee also finds that this time could be efficiently utilized to analyze and contextualize individual proposed budget requests if submitted in a standardized format.

Your Committee has amended this measure by:

- (1) Requiring the executive branch, judiciary branch, and Office of Hawaiian Affairs to conform to this measure no later than December 1, 2023;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that changes to these reports may require a substantial time to reprogram the State's mainframe and the Department of Budget and Finance's budget eSystems. Should your Committee on Ways and Means choose to hear this measure, your Committee on Government Operations requests that they deliberate further on an exact date of transfer to the new budgeting system that would allow the departments to comply with this measure.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 299, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 159 Government Operations on S.B. No. 306**

The purpose and intent of this measure is to require all Hawaii Administrative Rules to be made available on the Office of the Lieutenant Governor's internet website.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, State of Hawaii Organization of Police Officers, League of Women Voters of Hawaii, and one individual.

Your Committee finds that an attempt to locate Hawaii Administrative Rules can be cumbersome. Your Committee further finds that a centralized location with digitally accessible files will provide ease of access for stakeholders and make the files compatible with the assistive technology required to access the documents for individuals with impairments.

Your Committee has amended this measure by:

- (1) Inserting language requiring that the text of rules and written statements be in a digitally accessible and searchable format;
- (2) Requiring that proposed rules be made available in a digitally accessible and searchable format;
- (3) Inserting language requiring all state agencies to provide full text of rules;
- (4) Requiring that the Office of the Lieutenant Governor submit a report on implementation and long-range plans for expansion and cross-referencing of the centralization of the full text of the Hawaii Administrative Rules on its website;
- (5) Appropriating an unspecified amount for two full-time equivalent positions within the Office of the Lieutenant Governor;
- (6) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Office of the Lieutenant Governor expressing concerns that the new website components would require funding for positions to build and oversee the multitude of updates. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers should it choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 306, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 160      Agriculture and Environment on S.B. No. 652**

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture for the control and mitigation of two-lined spittlebug populations in Hawaii and recovery efforts for lands damaged.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; University of Hawai'i System; McCandless Ranch; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Larry Jefts Farms, LLC; Ulupono Initiative; Maui County Farm Bureau; Ponoholo Ranch Limited; Parker Ranch; Hawai'i Forest Industry Association; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that two-lined spittlebug infestations in Hawaii have been shown to dramatically reduce the forage quantity and quality of field pastures. High densities of the two-lined spittlebug can result in almost one hundred percent dieback of pasture grasses that are crucial resources for the grazing of livestock. Your Committee further finds that the prevalence of the two-lined spittlebug is spreading rapidly, threatening economic sustainability in Hawaii's livestock industry, and inhibiting the island's communities through decreased revenues and the hampering of food security in the State. This measure appropriates funds to the Department of Agriculture for the control and mitigation of the two-lined spittlebug and to fund recovery efforts of lands damaged by the two-lined spittlebug.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 161      (Majority) Agriculture and Environment on S.B. No. 682**

The purpose and intent of this measure is to prohibit the sale, offer for sale, display for sale, trade, or distribution of certain animal fur products in the State.

Your Committee received testimony in support of this measure from The Human Society of the United States, Hawaii Island Humane Society, Kaua'i Humane Society, Environmental Caucus of the Democratic Party of Hawai'i, Animal Rights Hawai'i, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Natural Fibers Alliance.

Your Committee finds that every year, more than 100,000,000 farm-raised animals, mostly foxes, mink and chinchillas, are killed for their fur. While many of these cruel and crowded factory farms exist outside of the United States, Americans and residents of other wealthy nations contribute vastly to the substantial global demand that incentivizes the industrialized mass slaughter of animals for their furs. Your Committee additionally finds that the awful conditions of these fur farms have been linked to the spread of disease and viruses, which may be transmitted to the human population. Thus, this measure prohibits the trade of certain animal fur products in the State to curtail global industry demand for these cruel and environmentally harmful products, promote community awareness of industry-animal welfare, and to enhance the reputation of the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 682 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (DeCoite).

**SCRep. 162      Agriculture and Environment on S.B. No. 743**

The purpose and intent of this measure is to:

- (1) Extend the sunset date for the Coffee Berry Borer Pesticide Subsidy Program to June 30, 2025, and the program manager position, including the position's civil service and collective bargaining laws exemption, to June 30, 2026;
- (2) Require the Department of Agriculture to report to the Legislature; and
- (3) Appropriate funds for the operation and implementation of the Pesticide Subsidy Program.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Hawai'i Farm Bureau, Hawaii Coffee Association, Maui County Farm Bureau, Kona Coffee Farmers Association, Kanalani Ohana Farm, and two individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that the coffee berry borer (*Hypothenemus hampei*) is a significant coffee plant pest in Hawaii that impedes the production of coffee farms and threatens the economic well-being of small farmers in the State. Your Committee recognizes that the extension of the Coffee Berry Borer Pesticide Subsidy Program and program manager position will allow the Department of Agriculture to continue to support coffee farmers by partially offsetting the costs of purchasing certain pesticides and fungicides in order to control coffee berry borer populations and limit the spread of coffee leaf rust. This measure extends this program to June 30,

2025; extends the pesticide subsidy manager position until June 30, 2026; and appropriates additional funds for the program and position.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 743 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 163 (Majority) Agriculture and Environment on S.B. No. 748**

The purpose and intent of this measure is to appropriate funds for the construction and operation of non-chemical sunscreen dispensers on all state beaches to alleviate the damaging effects of chemical-based sunscreen on reef ecosystems.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Activities and Attractions Association of Hawaii, Inc.; Environmental Caucus of the Democratic Party of Hawai'i; The Kohala Center; Friends of Hanauma Bay; Hawai'i Reef and Ocean Coalition; Big Island Reef Keepers Hui; and eight individuals. Your Committee received comments on this measure from Public Access to SunScreens Coalition.

Your Committee finds that the reduced use of sunscreens containing certain chemicals would benefit the health and resilience of Hawaii's coral reef ecosystems. Your Committee believes that following the relative success of a mineral sunscreen dispenser installed for beachgoers at the Waialae section of Hapuna State Recreation Area on the west side of Hawaii island, the State can benefit from installing similar dispensers on all state beaches to decrease the amount of chemicals entering marine waters that adversely impact Hawaii's reef ecosystem. This measure expands the installation of mineral-based sunscreen dispensers to all state beaches and authorizes the Department of Land and Natural Resources to contract with private parties to assist in the maintenance and management of the dispensers as they see fit.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 748 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, 1 (DeCoite).

**SCRep. 164 Agriculture and Environment on S.B. No. 967**

The purpose and intent of this measure is to establish an Organic Foods Production Tax Credit for farmers investing in the organic certification process.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Wakefield and Sons, Inc.; Kane Plantation Avocados; Environmental Caucus of the Democratic Party of Hawai'i; Rancho Aloha; Hawaii Environmental Change Agents Carbon Sequestration Task Force; Kauai Climate Action Coalition; CleanEarth4Kids.org; Hawai'i Farmers Union United; and forty-two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that providing support to Hawaii's organic agriculture industry can help reduce reliance on organic agricultural imports and provide assistance to small organic farmers in the State. Your Committee additionally finds that organic farming practices enhance the environmental health of Hawaii by improving soil fertility and structure, sequestering carbon from the atmosphere, promoting biodiversity, and reducing human, animal, and environmental exposure to toxic chemicals. Your Committee believes that reducing the burden on the increasing number of small organic farmers seeking costly and lengthy organic certifications and inspections will help to promote the production and availability of locally-grown organic food in the State. By easing the costly burdens of the certification process, organic producers in Hawaii can more advantageously compete with the organic imports that dominate local markets and enjoy the price premiums afforded to them by the "certified organic" food label. This measure reestablishes the 2016 Organic Food Production Tax Credit that expired in 2021 and supports farmers, ranchers, and producers seeking to obtain organic certification by reimbursing costs invested into the economically burdensome certification process.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (DeCoite).

**SCRep. 165 Agriculture and Environment on S.B. No. 998**

The purpose and intent of this measure is to:

- (1) Establish a Spay and Neuter Special Fund;
- (2) Allow funds from an income tax check-off to be deposited into the Spay and Neuter Special Fund; and
- (3) Establish an advisory committee to help establish eligibility criteria and procedures for disbursements from the special fund, prioritizing funding to organizations that specialize in Trap-Neuter-Release.

Your Committee received testimony in support of this measure from the Alley Cat Allies, Animal Rights Hawaii, Cat People of Oahu, Hawai'i Reef and Ocean Coalition, PETFIX Spay and Neuter, Hawaiian Humane Society, CAT-CARE, Pono Advocacy, Poi Dogs and Popoki, Cat Friends, Hawaii Cat Foundation, Animal Interfaith Alliance in Britain, Aloha Kitty TNR, Kaua'i Humane

Society, Environmental Caucus of the Democratic Party of Hawai'i, and one hundred forty-three individuals. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance, American Bird Conservancy, Kauai Albatross Network, Friends of Kaua'i Wildlife Refuges, and twenty-four individuals. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that free-roaming-cat overpopulation is a persistent issue in the State. The greatest cause for concern is that these cats hunt and kill native and endangered bird populations, and it is estimated that three out of four stray cats carry a disease called toxoplasmosis, which is caused by a parasite called *Toxoplasma gondii* that can spread to humans and other animals. Toxoplasmosis spores survive as they are excreted through cat feces and wash into the ocean with runoff, spreading the disease to endangered Hawaiian monk seals and other marine life. Your Committee additionally finds that spaying and neutering can help to manage and reduce the overpopulation of feral cats in the State, thereby reducing the consequences related to these cats. Thus, this measure establishes and appropriates funds for a Spay and Neuter Special Fund, and establishes an advisory committee to establish eligibility criteria and procedures to prioritize funding to organizations that specialize in Trap-Neuter-Release practices.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (DeCoite).

**SCRep. 166 (Majority) Agriculture and Environment on S.B. No. 1011**

The purpose and intent of this measure is to:

- (1) Require monthly rather than annual reporting of restricted use pesticides;
- (2) Amend the contents of reports to include specific geospatial data and information, site information, and increased detail on the amount of restricted use pesticides used; and
- (3) Require the Department of Agriculture to develop an online reporting tool for restricted use pesticides.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Pono Hawaii Initiative, Hawai'i Alliance for Progressive Action, HULI PAC, Hawai'i Reef Ocean Coalition, Pesticide Action Network, Hawai'i SEED, CleanEarth4Kids.org, Hanai Hives, and sixty-three individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture, Western Plant Health, CropLife America, and one individual. Your Committee received comments on this measure from the Hawaii Crop Improvement Association, Western Wood Preservers Institute, Hawai'i Farm Bureau, and one individual.

Your Committee finds that pesticide exposure can cause significant harm to public health and the environment and that pesticides deemed by the State as Restricted Use Pesticides have an especially high potential to cause harm. Your Committee additionally finds that reporting for restricted use pesticides use data in Hawaii has only recently become available and that the quality of this reporting is so low and infrequent that it takes considerable effort for interested parties to make sense and use of the resulting data. Thus, this measure makes important updates to the quality and frequency required of restricted use pesticides reporting by the Department of Agriculture to aid in the ongoing effort to better understand the effects of these chemicals on the environment and public health.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Richards). Excused, 1 (DeCoite).

**SCRep. 167 Agriculture and Environment on S.B. No. 1223**

The purpose and intent of this measure is to authorize a new issuance of special purpose revenue bonds in the amount of \$30,000,000, to assist MauiGrown Coffee, Inc. with the operation and expansion of its farm and mill.

Your Committee received testimony in support of this measure from the Department of Agriculture; MauiGrown Coffee Distributors, LLC; Maui County Farm Bureau; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that coffee plants grown by MauiGrown Coffee, Inc. on former Pioneer Mill sugarcane lands are now established, and unique local varietals such as their Maui Mokka coffee variety have become well-known for their quality. The MauiGrown Coffee, Inc. operation has proven to be a successful example of agriculture providing an economic engine that boosts and grows Hawaii's economy. Your Committee additionally finds that special purpose revenue bonds were previously authorized for MauiGrown Coffee, Inc. through Act 116, Session Laws of Hawaii 2017, which expired in 2022, and that the coronavirus disease 2019 pandemic seriously delayed the dispersal of these funds. This measure revises and updates the special purpose revenue bond authorization from 2017 to authorize a new issuance of bonds that will continue to support the development of new infrastructure at MauiGrown Coffee, Inc.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1223 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 168 Agriculture and Environment on S.B. No. 1456**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Honoka'a Land Company, LLC, with acquiring, developing, and renovating agricultural facilities.

Your Committee received testimony in support of this measure from the Department of Agriculture and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that establishing a flourishing and self-reliant agriculture sector in Hawaii is in the interest of the public and the State. Your Committee acknowledges that the Honoka'a Land Company, LLC, has several agricultural initiatives in need of funding that can benefit Hawaii's agricultural sector. Among these include the rebuilding of structures for a soil and earth products business based at Haina Mill that markets an array of agricultural soil amendment products. Fertilizer costs have doubled over the years, and these types of products are highly sought after locally, since shipments from the mainland and elsewhere can take a long time to arrive and farmers are bound by stringent planting schedules. Furthermore, Honoka'a Land Company, LLC, has a plan to develop and construct workforce housing for its laborers as well as in other agricultural regions in Hawaii, which is also desperately desired by local farmers. Other initiatives include the purchase of an agriculture consulting and research development firm and farm to serve as a research and development facility and the acquiring or building of organic dairies and green and renewable energy facilities. Thus, this measure authorizes the issuance of special purpose revenue bonds to assist Honoka'a Land Company, LLC, with acquiring, developing, and renovating various facilities that will ultimately benefit and support the State's agricultural sector.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1456 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 169 Agriculture and Environment on S.B. No. 1457**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kohala Mountain Fish Company, LLC, for the establishment of The Village project.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that establishing a flourishing and self-reliant localized agriculture sector in Hawaii is in the interest of the public and the State. Your Committee acknowledges that the Kohala Mountain Fish Company, LLC, has an agricultural initiative called The Village, which is envisioned as a diversified agricultural park and processing facility on Hawaii island that produces, packages, cooks, and freezes products year round for both local consumption and value added export. Furthermore, The Village project will provide local farmers with resources for hands-on education and training, processing and packaging, distribution, and workforce housing. This measure authorizes the issuance of special purpose revenue bonds to assist Kohala Mountain Fish Company, LLC, in realizing its project vision and establishing The Village, which will ultimately benefit and support Hawaii's burgeoning agriculture sector.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1457 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 170 Agriculture and Environment on S.B. No. 1499**

The purpose and intent of this measure is to:

- (1) Exempt income derived from the business of taro cultivation or production of taro products from the state income tax; and
- (2) Exempt from the general excise tax the gross proceeds or income received from the sale of any product resulting from the cultivation and production of unprocessed taro.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Alliance for Progressive Action, Kua'aina Ulu 'Auamo, Ko'olau Foundation, CleanEarth4Kids.org, Hawai'i Farm Bureau, and thirty-two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that taro farmers in the State face a myriad of challenges from the expensive and labor intensive processing of taro to poi, to the high cost of land and increasingly unpredictable weather conditions due to climate change. Your Committee acknowledges that the occurrence of taro farming has been on the decline for decades due to these mounting challenges and taro farmers only continue to struggle to survive and sustain their operations in the State. Your Committee further finds that the State has more recently pivoted its focus to the issue of food security and agricultural self-reliance in Hawaii and now finds tremendous potential in the taro plant beyond its cultural and traditional value. Thus, this measure supports the taro farmer in Hawaii by creating economic incentives to protect the Hawaiian traditions of taro and taro farming, to encourage new taro farming, improve the livelihoods of existing taro farmers, and reduce the cost of poi and other taro-based foods for local families by exempting income and gross proceeds related to taro production and direct sales from the income and general excise taxes, respectively.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1499 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 171 Water and Land on S.B. No. 79**

The purpose and intent of this measure is to:

- (1) Repeal the requirement for Board of Land and Natural Resources approval for lease extensions in the Hilo Community Economic District;
- (2) Require the Department of Land and Natural Resources to use the current tax assessed value when offering lease extensions to lessees; and
- (3) Require all applications to the Department of Land and Natural Resources for an extension of fixed rental periods or lease terms to be made within one hundred eighty days and confirm lease extensions.

Your Committee received testimony in support of this measure from McCully Works, Hilo Fish Company, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and League of Women Voters of Hawaii.

Your Committee finds that as the majority landowner in East Hawaii, the State has an enormous influence on the vision, economic development, and overall success of the East Hawaii community.

Your Committee further finds that under existing laws, many public land lessees face uncertain futures following the expiration of their leases. Lessees face difficulties in renegotiating leases with the Board of Land and Natural Resources and are further constrained by the lengthy process to achieve approval from the Board to conduct minor maintenance projects or renovations. As a result, the infrastructure and facilities on public lands in East Hawaii have been deteriorating in many locations.

Therefore, this measure repeals the requirement for Board of Land and Natural Resources approval for lease extensions in the Hilo Community Economic District; requires the Department of Land and Natural Resources to use the current tax assessed value when offering lease extensions to lessees; and requires all applications to the Department of Land and Natural Resources for an extension of fixed rental periods or lease terms to be made within one hundred eighty days and confirm lease extensions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 79, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 79, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 172 (Majority) Water and Land on S.B. No. 82**

The purpose and intent of this measure is to limit the discretion of the Department of Land and Natural Resources' Land Division by requiring the Board of Land and Natural Resources to approve all revoked, limited, condemned, removed, or modified public land leases or revocable permits.

Your Committee received testimony in support of this measure from the Maui County Farm Bureau. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that to effectively manage public lands, oversight of how the lands are used is necessary to ensure that Hawaii's people thrive. Your Committee further finds that the Department of Land and Natural Resources' Land Division has significant discretion to revoke, limit, remove, or modify leases granted by the Department, issue condemnations, and rescind revocable permits without prior approval from the Board of Land and Natural Resources. Your Committee believes that enhanced review of public land leases and revocable permits would allow the State to ensure that the use of public lands best benefits Hawaii's people. Therefore, this measure limits the discretion of the Department of Land and Natural Resources' Land Division by requiring the Board of Land and Natural Resources to approve all revoked, limited, condemned, removed, or modified public land leases or revocable permits.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 82, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 82, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Fevella). Excused, none.

**SCRep. 173 Water and Land on S.B. No. 97**

The purpose and intent of this measure is to clarify that:

- (1) The Board of Land and Natural Resources shall not unilaterally amend the terms and conditions of any lease of public lands being extended pursuant to Act 149, Session Laws of Hawaii 2018, except as otherwise provided in part X of chapter 171, Hawaii Revised Statutes; and
- (2) If the Board of Land and Natural Resources wishes to amend the terms and conditions of any lease of public lands being extended to reflect the Board's most current lease form and leasing practices and policies, such lease form and leasing practices and policies must be included in the rules of the Board.

Your Committee received testimony in support of this measure from McCully Works, Hilo Fish Company, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that Act 149, Session Laws of Hawaii 2018 (Act 149), established a ten-year pilot project to authorize the Board of Land and Natural Resources to extend leases of public lands in the Hilo Community Economic District for the purpose of facilitating improvement and economic opportunity in the area for lessees who commit to making substantial improvements or construct new substantial improvements.

Your Committee further finds that missing from Act 149 is language that expressly allows the Board of Land and Natural Resources to unilaterally amend any terms and conditions of the extended leases to conform to the most current lease form and leasing practices and policies of the Board. However, your Committee finds that despite the foregoing, the Board of Land and Natural Resources has been approving extensions of leases pursuant to Act 149 by amending the lease terms and conditions to conform to the Board's most current lease form and leasing practices and policies. Therefore, this measure clarifies that the Board of Land and Natural Resources shall not unilaterally amend the terms and conditions of any lease of public lands being extended pursuant to Act 149 and that if the Board wishes to amend the terms and conditions of any lease to reflect the Board's most current lease form and leasing practices and policies, such lease form and leasing practices and policies must be included in the rules of the Board.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources shall not use the Board's promulgation of rules based on the most current lease form, leasing practices, and policies, as a reason for delay and shall continue to process applications for development agreements and lease extensions while the Board promulgates and approves its rules;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion, and deleting the proposed repeal date of June 30, 2028; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Should your Committees on Judiciary and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting a repeal date of June 30, 2028, for consistency with the sunset date of Act 149.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 97, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 97, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 174 Water and Land on S.B. No. 417**

The purpose and intent of this measure is to establish a Hawaii Near Shore Waters Quality Program to monitor and test for the quality of waters near coral reefs to assess and ensure the health of reef ecosystems.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, Hawaii Reef and Ocean Coalition, and two individuals.

Your Committee finds that coral reefs provide habitat for nearshore fisheries, protect coasts from waves and storms, and support tourism and fishing industries. In a recent report by the United States Geological Survey, Hawaii's coral reefs were valued at \$863,000,000 per year. Your Committee further finds, however, that Hawaii's coral reefs have experienced bleaching events due to, among other causes, the temperature effects of climate change, population density, increased coastal development, land-based sources of pollution, increased sediments in the water, damage by tourists and divers, poor water quality from runoff, and sewage treatment. Your Committee finds that it is necessary to take action to protect and care for the ecological health of Hawaii's coral reefs. Therefore, this measure establishes a Hawaii Near Shore Waters Quality Program to monitor and test for the quality of waters near coral reefs to assess and ensure the health of reef ecosystems.

Your Committee has heard the testimony of the Department of Land and Natural Resources, expressing concerns that a program consistent with this measure would need to be built from the ground up and thus require a large investment of resources for staff, facilities, and training. The Department of Land and Natural Resources testified that while they are supportive of expanding water quality monitoring for coral reef health, the necessary first step is to commission a study and technical report to discover what is currently known, to identify the most useful measurement parameters, and recommend sampling frequency and locations.

Therefore, your Committee has amended this measure by:

- (1) Deleting the proposed requirement that the Department of Land and Natural Resources establish a Hawaii Near Shore Waters Quality Program, including language establishing the proposed program's requirements;
- (2) Requiring the Department of Land and Natural Resources, in consultation with the Department of Health, to prepare a study and submit a technical report to the Legislature prior to the Regular Session of 2025;
- (3) Inserting language establishing the scope and requirements of the report to be submitted to the Legislature;

- (4) Appropriating an unspecified amount for fiscal year 2023-2024 for preparation of the report; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 175 Water and Land on S.B. No. 1028**

The purpose and intent of this measure is to:

- (1) Require, beginning from January 1, 2024, rental kayaks to be registered and numbered with the Department of Land and Natural Resources and have the identification number affixed to the rental kayak; and
- (2) Require the Department of Land and Natural Resources to establish fees for registration and registration renewals of rental kayaks.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii State Aha Moku.

Your Committee finds that rental kayaks are a popular ocean recreational activity, especially with tourists. Your Committee further finds that an unmanaged proliferation of commercial rental kayaks and illegal commercial rentals can adversely impact marine life and cultural resources in Hawaii's near shore waters.

Your Committee also finds that as commercial rental kayaks have become increasingly popular with tourists, they have been the cause of much concern to residents and Native Hawaiian communities. Your Committee further finds that currently, a lack of a decal requirement for commercial kayaks makes it difficult for conservation enforcement officers to distinguish between personal use kayaks, commercial tour operators, and rental companies. Therefore, this measure requires that rental kayaks be registered and numbered with the Department of Land and Natural Resources and allows the Department to establish fees for registration processing.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committees on Commerce and Consumer Protection and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider further examining your Committee's recommendation that a visible decal sticker system be implemented.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1028, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1028, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 176 Water and Land on S.B. No. 1068**

The purpose and intent of this measure is to include in the State's policies for the physical environment under the Hawaii State Planning Act, the development of a statewide beach assessment study and a beach and shoreline restoration and conservation plan.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development, Department of Land and Natural Resources, University of Hawai'i System, Hawaii Climate Change Mitigation and Adaptation Commission, and Hawaii State Aha Moku.

Your Committee finds that Hawaii's internationally-recognized beaches and shoreline areas are invaluable public resources. Your Committee also finds, however, that these beaches and shoreline areas are at risk from sea level rise, coastal erosion, storm surges, and flooding associated with climate change. Therefore, in order to understand and protect these natural resources, this measure requires the Office of Planning and Sustainable Development to develop a statewide beach assessment study and a beach and shoreline restoration and conservation plan.

Your Committee has heard the testimony of the Office of Planning and Sustainable Development, requesting that the language requiring a study and plan be amended to align more closely with the existing framework of section 226-11, Hawaii Revised Statutes, which exists as a statutory statement of objectives and policies for the physical environment adopted by the Legislature. The Office of Planning and Sustainable Development did note in its testimony that it supports the intent of this measure and that its Coastal Zone Management Program recently received funding for an initiative that will contribute towards actualizing the intent of this measure.

Your Committee also heard the testimony of the Hawaii State Aha Moku, requesting that the State adopt, as part of its objectives and policies, the pursuit of compatible relationships among activities, facilities, Native Hawaiian traditional practices, and natural resources.

Therefore, your Committee has amended this measure by:

- (1) Amending the proposed language that would have required the Office of Planning and Sustainable Development to develop a study and beach and shoreline restoration plan, to instead adopt, as part of the State's objectives and policies, the promotion of a statewide beach assessment study and shoreline restoration and conservation;
- (2) Adding language that makes it a state planning objective and policy to pursue compatible relationships among activities, facilities, Native Hawaiian traditional practices, and natural resources; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1068, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1068, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 177 Water and Land on S.B. No. 1265**

The purpose and intent of this measure is to:

- (1) Prohibit commercial ocean use activity in Kaneohe Bay waters without a permit; and
- (2) Prohibit any person from advertising any commercial ocean use activity in Kaneohe Bay waters for which the person does not have a permit, lease, or license.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku, Ko'olaupoko Hawaiian Civic Club, Hawaiian Civic Club of Honolulu, Ko'olau Foundation, Hawaii Reef and Ocean Coalition, and three individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Kaneohe Bay, including Ahu o Laka, known as the sandbar, has a rich cultural history and is sacred to the Native Hawaiian people. However, your Committee finds that the over-commercialization of Kaneohe Bay has been unnaturally encouraged by social media and through unpermitted tour operators who advertise and operate without regard for rules, regulations, and cultural awareness. Consequently, online advertising and social media has increased the number of illegally parked private and rental vehicles at Heeia Boat Harbor and along both sides of Kamehameha Highway, creating traffic and unsafe crossing situations.

Your Committee further finds that the Kaneohe Bay master plan developed pursuant to Act 208, Session Laws of Hawaii 1990 (Act 208), established a framework for the sustainable management of Kaneohe Bay's natural resources while accommodating for a variety of uses. Your Committee finds that action is necessary to ensure that the vision of Act 208 is carried out and maintained for Kaneohe Bay's continued preservation and protection, and for its use and enjoyment of all. Therefore, this measure updates the law regarding restricted activities in Kaneohe Bay.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1265, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1265, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 178 Higher Education on S.B. No. 959**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Pamantasan Council to expand its capacity to support educational equity for Filipinos and other populations underrepresented in higher education.

Your Committee received testimony in support of this measure from the University of Hawaii Pamantasan Council Executive Committee; Hawaii Friends of Civil Rights; Sariling Gawa Youth Council; Samahang Filipino Club of Hawai'i Community College; National Alliance for Knowledge, Empowerment, and Meaning; and sixteen individuals.

Your Committee finds that while there have been significant increases in the representation and success of Filipino students, faculty, and staff within the University of Hawai'i System, Filipino Americans continue to be underrepresented as undergraduate students (14.1 per cent) in comparison to the proportion of Filipino American public school students (23.7 per cent) in Hawaii, among which Filipino Americans represent the largest ethnic group. The University of Hawaii Pamantasan Council helps to address this underrepresentation of Filipinos within higher education through curriculum development, programming, and support services.

Your Committee also finds that the University of Hawaii Pamantasan Council does not limit its activities to individuals of Filipino descent. The Council actively supports and engages in outreach to other populations also underrepresented in higher education, such as individuals of Micronesian descent. Despite the Council's wide reach, the Pamantasan Council depends upon volunteers, limiting its capacity to serve the entire University of Hawai'i System. To expand the Council's capacity to support educational equity for Filipinos and other underrepresented populations in higher education, this measure appropriates funds for three Academic and Support Services Specialists for the University of Hawaii Pamantasan Council to continue to support the University's goals of equity and inclusion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 959 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 179 Higher Education on S.B. No. 236**

The purpose and intent of this measure is to:

- (1) Expand the victim-counselor privilege under the Hawaii Rules of Evidence to include confidential advocates employed by the University of Hawaii; and
- (2) Increase the minimum number of hours of training a domestic violence victims' counselor must complete to be considered a victim counselor.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i Pacific Health Sex Abuse Treatment Center, Hawai'i State Coalition Against Domestic Violence, Every Voice Coalition Hawai'i, Democratic Party of Hawai'i Women's Caucus, American Association of University Women of Hawaii, Hawai'i Health & Harm Reduction Center, Democratic Party of Hawai'i Education Caucus, Imua Alliance, and eight individuals.

Your Committee finds that the University of Hawaii is mandated by law to designate confidential advocates at each campus to provide confidential advocacy support to victims of sexual harassment, sexual assault, domestic violence, dating violence, and stalking. Despite this mandate, the law fails to provide a mechanism to provide confidentiality to students and employees seeking these campus-based services. According to a 2021 report conducted by the University of Hawaii, over twenty percent of students who experienced sexual misconduct and did not seek help through the University chose not to seek help because they feared their experiences would not be kept confidential, which for many led to reduced academic performance. To protect victims and encourage them to seek support, this measure expands the victim-counselor privilege to include confidential advocates, ensuring victims' communications are afforded the same legal privilege of confidentiality status as those made to community advocates and service providers. Additionally, Hawaii has one of the lowest requirements in the nation with regard to the minimum number of training hours that domestic violence advocates must complete. This measure brings Hawaii into parity with the majority of other states that require an average of thirty-five hours to better prepare advocates to work with domestic violence survivors.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 236 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 180 (Majority) Housing on S.B. No. 764**

The purpose and intent of this measure is to:

- (1) Allow a bank to invest, in aggregate, up to two percent of the bank's total assets in certain entities that are formed to invest in affordable housing residential properties; and
- (2) Require banks to obtain approval from the Commissioner of Financial Institutions to invest, in aggregate, over two percent of the bank's total assets in certain entities that are formed to invest in affordable housing residential properties.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that there is a need to address the shortage of affordable residential housing in the State. This measure encourages the financing of affordable residential housing projects.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 181 Housing on S.B. No. 999**

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority for the modernization of two hundred and eight dwelling units at Hale Poai, a public elderly housing property located within the City and County of Honolulu.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that Hale Poai is a state elderly public housing property that has a date of initial occupancy of June 1, 1989, and is currently undergoing a five-year, major modernization project. The modernization project includes site work, community space, plumbing systems, complete unit work, and converting four studios to be compliant with the Americans with Disabilities Act. According to testimony received by your Committee, the appropriation will be used for construction management services to ensure that all construction work for this modernization project is performed expeditiously and within the five-year modernization timeline.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 999 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 182      Housing on S.B. No. 864**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority's programs to develop affordable rental and for sale housing in the State.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Hawai'i Association of REALTORS, Catholic Charities Hawai'i, Hawai'i YIMBY, Hawai'i Health & Harm Reduction Center, Partners in Care, and one individual.

Your Committee finds that the State does not have a sufficient supply of affordable housing and rental units to accommodate the residents of the State. The Hawaii Public Housing Authority manages federal and state public housing programs, while the Hawaii Housing Finance and Development Corporation oversees affordable housing finance and development in the State. Both agencies are crucial to increase the supply and development of affordable housing and rentals in Hawaii. The appropriations authorized by this measure will help the State significantly address its affordable housing needs.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of:
  - (A) \$500,000,000 to the Hawaii Housing Finance and Development Corporation; and
  - (B) \$1,000,000,000 to the Hawaii Public Housing Authority;
- (2) Clarifying that the purposes of the appropriations are to finance programs to develop housing that is exclusively for residents of the State who are owner- or renter-occupants and own no other real property; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 864, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 864, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 183      (Majority) Judiciary on S.B. No. 1398**

The purpose and intent of this measure is to conform Hawaii income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended as of December 31, 2022.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation to ensure state income tax and state estate and generation-skipping transfer tax laws conform to the federal Internal Revenue Code as it exists on the December 31 preceding each Regular Session. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1398 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 184      Housing on S.B. No. 362**

The purpose and intent of this measure is to, beginning January 1, 2024:

- (1) Increase the rate of conveyance tax for condominiums and single-family residences ineligible for a county homeowner's exemption with a value of at least \$2,000,000;
- (2) Exempt from the conveyance tax documents and instruments conveying real property subject to a government assistance program approved and certified by the Hawaii Housing Finance and Development Corporation and used for the provision of affordable housing for qualified persons in the State; and
- (3) Remove the maximum dollar amount of conveyance tax revenues that are to be paid into the Rental Housing Revolving Fund each fiscal year.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, EAH Housing, Catholic Charities Hawai'i, and Partners in Care. Your Committee received testimony in opposition to this measure from Hawai'i Association of REALTORS. Your Committee received comments on this measure from Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the conveyance tax is the only dedicated and annual source of revenue for the Rental Housing Revolving Fund (Fund), which provides gap financing for new affordable rental projects to be feasibly developed under the Low-Income Housing

Tax Credit Program. According to testimony received by your Committee, increasing the overall revenue of the conveyance tax and removing the cap on conveyance tax revenues dedicated to the Fund will increase the affordable housing inventory in the State. Although your Committee recognizes that there are concerns that the proposed exemption disregards the value attached to a property for affordable housing, it believes that the exemption would drive affordable housing developers to request less moneys from the Fund or use fewer low-income housing tax credits.

Your Committee notes that no information has been provided regarding the effect of increases in the conveyance tax on affordable housing developers. Your Committee further notes that the preservation of existing conveyance tax rates for owner-occupants is necessary to incentivize the conveyance of properties to purchasers who will actually occupy the properties.

Your Committee has amended this measure by:

- (1) Exempting from the conveyance tax any documents or instruments conveying real property developed for affordable housing that is exclusively for residents of the State who own no other real property and are renters or owner-occupants of the real property; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 362, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 185      Housing on S.B. No. 363**

The purpose and intent of this measure is to:

- (1) Establish a temporary Rent Reporting for Credit Pilot Program (Pilot Program) within the Hawaii Housing Finance and Development Corporation (HHFDC), that sunsets on June 30, 2027;
- (2) Require certain reports to the Governor and Legislature; and
- (3) Appropriate funds for the pilot program.

Your Committee received testimony in support of this measure from Hawai'i State Coalition Against Domestic Violence, Catholic Charities Hawai'i, Hawai'i Housing Affordability Coalition, Hawaii Habitat for Humanity Association, Hawai'i Children's Action Network Speaks!, and six individuals. Your Committee received testimony in opposition to this measure from Stanford Carr Development, LLC. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that rent is the largest recurring monthly expense for many households and nearly fifty percent of Hawaii residents are renters. Home ownership is currently the single largest source of wealth building, but, unlike mortgage payments, rent payments are not regularly reported to credit bureaus. This measure provides an alternative method for Hawaii renters to generate and build the credit they need to access better housing and homeownership opportunities. Your Committee notes that participation for landlords in the pilot program established pursuant to this measure is purely voluntary. Your Committee also urges HHFDC and other state agencies to notify the landlords they work with to publicize private sector credit-building programs for tenants.

Your Committee has amended this measure by:

- (1) Extending the deadline by eighteen months for:
  - (A) HHFDC to contract with a third party contractor to administer the pilot program and adopt administrative rules; and
  - (B) The third-party contractor to recruit no more than ten participant landlords and attempt to include a total of at least one hundred participant tenants without regard to the tenant's income in relation to the area median income;
- (2) Inserting an appropriation amount of \$150,000 for the establishment of one full-time equivalent (1.0 FTE) position within HHFDC to support the pilot program;
- (3) Requiring HHFDC to develop a series of state-sponsored public service announcements to increase tenant awareness of the existing opportunities within the credit report industry to report rent payments;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 363, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 363, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 186      Housing on S.B. No. 859**

The purpose and intent of this measure is to:

- (1) Establish priority for projects that are awarded funds from the Rental Housing Revolving Fund that are owned by the State or an organization obliged to reinvest financial surplus generated by a completed project into a newly constructed housing project; and
- (2) Require the Hawaii Housing Finance and Development Corporation (HHFDC) to amend Hawaii Administrative Rules to award application criteria points to projects that fulfill certain criteria and prioritize applications based on timing and loan amounts repaid early.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received comments on this measure from Hawaii Housing Finance and Development Corporation and NAIOP Commercial Real Estate Development Association, Hawaii Chapter.

Your Committee finds that any profits generated by a low-income housing development project that was constructed with federal or state housing incentives stay with the developer, who is not obligated to use the profits to construct more housing. In contrast, your Committee finds that Vienna's Limited-Profit Housing Act of 1979 should be considered as a model to sustainably finance the construction of housing in the State. The concept of limited-profit housing operates on a cost-recovery basis and any profits generated from a project are continually recycled to construct more housing. This measure would incentivize developers that are awarded a loan or grant from the Rental Housing Revolving Fund, or are allocated federal low-income housing tax credits, to use the profits from their project to build additional housing.

Your Committee has amended this measure by:

- (1) Increasing the priority for projects that are awarded funds from the Rental Housing Revolving Fund that are owned by the State or an organization obliged to reinvest the financial surplus generated by a completed project to construct new housing;
- (2) Requiring HHFDC to prioritize applicants who have demonstrated accelerated full repayment of past State housing loans;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 859, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 187 Higher Education on S.B. No. 391**

The purpose and intent of this measure is to appropriate funds for the University of Hawaii Community Colleges' workforce training development programs.

Your Committee received testimony in support of this measure from the Department of Education, State Council on Developmental Disabilities, University of Hawai'i System, University of Hawaii Professional Assembly, and Hawai'i P-20 Partnerships for Education.

Your Committee finds that the University of Hawaii Community Colleges' workforce development programs equip students with the skills to secure and succeed in high-demand, high-wage jobs and are critical to the ongoing development of Hawaii's workforce. In 2022, the Community Colleges' non-credit workforce training programs provided more than seventeen thousand training opportunities. Despite the success and demand for these non-credit programs, no permanent funding is available for high school students to participate. Expanding access to serve students through Early College programs will provide needed resources to ensure all seven community colleges can support high school students interested in gaining workforce skills. Accordingly, this measure appropriates funds for the administration, training, personnel, and student support to expand workforce training curriculum.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 391, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 188 Higher Education on S.B. No. 742**

The purpose and intent of this measure is to establish and appropriate funds for one full-time equivalent (1.0 FTE) permanent Educational Support Associate position within the University of Hawaii College of Tropical Agriculture and Human Resources' Kona Cooperative Extension.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawaii Coffee Association; Island Harvest Inc.; Kona Coffee Farmers Association; Hawai'i Farm Bureau; and one individual.

Your Committee finds that the research, outreach, and education provided by the University of Hawaii College of Tropical Agriculture and Human Resources' Kona Cooperative Extension play a crucial role in supporting Hawaii's agricultural growers, particularly those impacted by pests, disease, and production issues. In 2021-2022, coffee alone was valued at more than \$113,000,000, the third highest commodity in the State, yet repeated requests for additional Extension staff to help support this highly valued industry, and other agricultural industries throughout the State, have been denied. The Extension continues, like it has been for years, to operate with just one Educational Support Associate, whose purview includes all coffee and orchard crops. To increase the

capacity of the University of Hawaii College of Tropical Agriculture and Human Resources' Kona Cooperative Extension, this measure funds an additional Educational Support Associate to support coffee and orchard crop industries and growers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 742, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 742, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 189 Higher Education on S.B. No. 1413**

The purpose and intent of this measure is to require the University of Hawaii to grant resident tuition fees to an individual enrolling in an undergraduate degree program who graduated from a high school in the State, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawai'i P-20 Partnerships for Education, and one individual.

Your Committee finds that many high school seniors experience difficulty answering the University of Hawaii's residency questionnaire as part of the admission process for the University. The questionnaire presents an especial barrier to students with complex living situations, in particular those who are housing insecure or are part of nontraditional family arrangements. This measure would remove this barrier to enrollment at the University of Hawaii and increase access to higher education by requiring the University of Hawaii to grant resident status for the purposes of determining tuition fees to any individual who graduated from a high school in the State, under certain conditions.

Your Committee has amended this measure by:

- (1) Clarifying that an individual who graduated from high school in the State shall not qualify for resident tuition fees if within the past two years the individual claimed resident status of another state or applied to another state's institution of higher learning as a resident of that state; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1413, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1413, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 190 Housing on S.B. No. 55**

The purpose and intent of this measure is to:

- (1) Increase the amount of the tax credit for individuals and households and the adjusted gross income eligibility cap for the income tax credit for low-income household renters using tax brackets for individuals and different categories of households; and
- (2) For taxable years beginning after December 1, 2024, provide for increases of each tax credit per exemption amount every three years based on the Consumer Price Index.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawai'i YIMBY, Catholic Charities Hawai'i, Americans for Democratic Action Hawai'i, Hawai'i Alliance for Community-Based Economic Development, League of Women Voters of Hawaii, Hawai'i Children's Action Network Speaks!, Hawai'i Health & Harm Reduction Center, and six individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that renters in Hawaii spend over forty percent of their income on rent, which means Hawaii is the only state in the country where the average renter is cost-burdened according to the United State Department of Housing and Urban Development. The low-income renters' tax credit provides a small amount of relief so that low-income families are more able to budget and pay for essential items and necessities. Your Committee further finds it is appropriate to adjust the eligibility requirements and credit amounts of the income tax credit for low-income household renters, as the cost of housing in the State has increased by three hundred ninety percent since the income eligibility threshold for this tax credit was last adjusted in 1989.

Your Committee has amended this measure by:

- (1) Incorporating recommendations from the Department of the Attorney General and the Department of Taxation to clarify the intent of the measure to replace the current tax credit of \$50 with a bracket table that increases the tax credit per exemption amounts;
- (2) Incorporating the Department of Taxation's recommendations to:
  - (A) Amend the definition of adjusted gross income as it relates to the income tax credit for low-income household renters to reflect the intent of this measure to make the eligibility of the tax credit based on a taxpayer's federal adjusted gross income;

- (B) Implement an annual inflation adjustment rather than an adjustment every three years; and
- (C) Delete the definition of “Consumer Price Index”;
- (3) Incorporating the Office of Hawaiian Affairs’s recommendation to link the adjusted gross income bracket thresholds with the increases in each tax credit per exemption amount;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 55, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 191      Housing on S.B. No. 327**

The purpose and intent of this measure is to allow counties to prohibit discrimination against renters based on their source of income.

Your Committee received testimony in support of this measure from the Hawai‘i Civil Rights Commission, Hawaii State Council on Developmental Disabilities, Partners in Care, Hawai‘i Health & Harm Reduction Center, and four individuals. Your Committee received testimony in opposition to this measure from the Hawai‘i Association of REALTORS.

Your Committee finds that the federal Fair Housing Act does not prohibit source of income discrimination against renters. Your Committee notes that the Legislature passed Act 310, Session Laws of Hawaii 2022 (Act 310), which prohibits housing discrimination based on source of income, including participation in a housing assistance program, beginning May 1, 2023. Act 310 prohibits discriminatory practices in rental transactions, including participation in a Section 8 housing choice program or any permanent supportive housing program. According to testimony received by your Committee, Honolulu remains one of the largest metropolitan areas in the United States that does not have a local prohibition on source of income discrimination against renters, which may inadvertently be contributing to the State’s high levels of housing insecurity. This measure would allow counties to enact their own ordinances that not only prohibit rental discrimination based on source of income, but also include stronger protections than those provided in Act 310.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 327, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 192      (Majority) Housing on S.B. No. 336**

The purpose and intent of this measure is to restrict counties from disapproving or imposing certain conditions on a housing development project or an emergency shelter unless the county meets certain requirements.

Your Committee received testimony in support of this measure from Hawai‘i Health & Harm Reduction Center, Building Industry Association of Hawaii, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii is in a dire housing crisis as housing supply is at a critically low level. Many housing development projects stall at the county level due to overregulation and government backlog. When projects are not approved, clear and thorough reasons should be provided to the applicant and the public explaining the reasons for the denial. This measure holds counties accountable to ensure that each housing project and emergency shelter is well-vetted and accurately considered, while also ensuring necessary protections for public health and safety.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the county to make a written finding, based upon a preponderance of the evidence, that the county has met or exceeded any affordable housing obligation to develop vacant lots, single-family residences, multi-family residences, or any other type of residence for sale or rent to individuals with a specified income range, if a county disapproves a housing development project or emergency shelter;
- (2) Adopting the Department of the Attorney General’s recommendation to clarify the three distinct instances where a county may not make a finding to disapprove or conditionally approve a housing development project or emergency shelter that is inconsistent with applicable zoning ordinances, county general plan, and state land use classifications;
- (3) Amending the definition of “housing development project” to mean a project consisting of residential units that are exclusively for residents of the State who are owner- or renter-occupants and own no other real property, or transitional housing or supporting housing; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 336, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 193      Housing on S.B. No. 340**

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for the Hawaii Public Housing Authority (HPHA) to rehabilitate, remodel, renovate, and repair an unspecified amount of housing units.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and three individuals.

Your Committee finds that many public housing units in the State were constructed over fifty years ago. HPHA has a current capital improvement backlog upwards of \$800,000,000 and additional funding is needed to keep public housing units safe, decent, and sanitary for habitation. Your Committee recognizes that the amount of federal subsidies HPHA is eligible to receive depends on the occupancy of certain public housing units.

Your Committee notes that during the public hearing on this measure, testimony indicated that the average cost to rehabilitate and modernize a public housing unit is \$79,215, and as of January 31, 2023, HPHA is seeking to repair and upgrade two hundred fifty-five public housing units statewide, comprised of one hundred fifty-four units in the City and County of Honolulu, fifty-six units in Maui County, nineteen units for Hawaii County, and twenty-six units in Kauai County. Based on these figures, HPHA estimates that an appropriation of \$20,200,000 is necessary to ensure that its public housing units comply with the Americans with Disabilities Act and other federally mandated improvements.

Furthermore, according to testimony received by your Committee, because the appropriations in this measure lapse on June 30, 2025, HPHA requests that the rehabilitation and modernization of these two hundred fifty-five public housing units be performed without regard to chapter 76, Hawaii Revised Statutes, relating to civil service law, as this exemption would allow HPHA to facilitate the completion of the repairs and upgrades before the appropriations lapse.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$20,200,000 for fiscal years 2023-2024 and 2024-2025 for the rehabilitation, remodeling, renovation, and repair of two hundred fifty-five housing units;
- (2) Authorizing the Hawaii Public Housing Authority to contract out the repair and maintenance of these housing units without regard to chapter 76, Hawaii Revised Statutes; and
- (3) Specifying that the Hawaii Public Housing Authority, rather than the Department of Human Services, expend the funds appropriated by this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 340, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 194      (Majority) Housing on S.B. No. 763**

The purpose and intent of this measure is to temporarily exempt Hawaii Housing Finance and Development Corporation affordable housing projects from certain state and county fees and exactions when the units of the housing project are exclusively made available to certain qualified residents.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawai'i Health & Harm Reduction Center, and Partners in Care. Your Committee received testimony in opposition to this measure from the Honolulu Board of Water Supply; Hawaii's Thousand Friends; Kauahou Ohana Association; Momilani Farm; Pele Lani Farm, LLC; and sixteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii has been in a housing crisis for many decades and many of Hawaii's most vulnerable residents are priced out of housing. This measure would serve to reduce development costs and encourage the development of more affordable housing units. According to testimony received by your Committee, a Water Systems Facilities Charge is calculated for each new water user to connect and access the county's water system. Your Committee recognizes that this fee not only pays for increasing the capacity of the existing water system to accommodate new and expanding developments, but the moneys collected from this charge currently allows for the Honolulu Board of Water Supply to waive the water systems facilities charges and new meter cost for up to five hundred qualified on-site affordable and homeless dwelling units per year. Testimony from the Honolulu Board of Water Supply also indicates that the exemption of this charge would not only affect its operating and capital improvement budget, but also place a heavy financial burden for the people and businesses that it serves.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the affordable housing projects shall remain subject to rates, fees, and exactions of the various boards of water supply as authorized under chapter 54, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 763, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 195 Government Operations on S.B. No. 291**

The purpose and intent of this measure is to require the Governor to ensure that the Governor's program memoranda and variance reports:

- (1) Accurately reflect the current responsibilities of certain state programs;
- (2) Address the current and future needs of the State; and
- (3) Align with budget-related submittals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the authority to execute budget controls must be used with the utmost care, and prudent management of the State's finances is expected and necessary. Additionally, your Committee finds that program memoranda and variance reports should align with budget-related submittals to accurately reflect the needs of the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making a technical nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that the State's fiscal resources cannot extend to address all needs. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee requests that they examine the inclusion of language that would provide the Department of Budget and Finance with the flexibility to encompass instances where the fiscal realities do not permit the Executive Biennium and Supplemental Budgets to align fully with the needs of the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 291, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 291, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 196 Government Operations on S.B. No. 292**

The purpose and intent of this measure is to require the Governor to ensure that the Governor's variance reports:

- (1) Accurately reflect the current responsibilities of certain state programs;
- (2) Address the current and future needs of the State; and
- (3) Align with budget-related submittals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the authority to execute budget controls must be used with the utmost care, and prudent management of the State's finances is expected and necessary. Additionally, your Committee finds that variance reports should align with budget-related submittals to accurately reflect the needs of the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that the State's fiscal resources cannot extend to address all needs. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee requests that they examine the inclusion of language that would provide the Department of Budget and Finance with the flexibility to encompass instances where the fiscal realities do not permit the Executive Biennium and Supplemental Budgets to align fully with the needs of the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 292, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 197 Government Operations on S.B. No. 293**

The purpose and intent of this measure is to require the Governor to ensure that the Governor's program memoranda:

- (1) Accurately reflect the current responsibilities of certain state programs;
- (2) Address the current and future needs of the State; and

(3) Align with budget-related submittals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the authority to execute budget controls must be used with the utmost care, and prudent management of the State's finances is expected and necessary. Additionally, your Committee finds that program memoranda should align with budget-related submittals to accurately reflect the needs of the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that the State's fiscal resources cannot extend to address all needs. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee requests that they examine the inclusion of language that would provide the Department of Budget and Finance with the flexibility to encompass instances where the fiscal realities do not permit the Executive Biennium and Supplemental Budgets to align fully with the needs of the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 293, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 293, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 198 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 735**

The purpose and intent of this measure is to exempt the instream use of water for commercial kalo cultivation conducted in a manner consistent with traditional and customary practices of Native Hawaiians from the existing process for the disposition of water rights.

Your Committees received testimony in support of this measure from the University of Hawai'i, Hawai'i Alliance for Progressive Action, Hawaii Food+ Policy, and thirty-four individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Hawaiian Home Lands.

Your Committees find that for nearly two thousand years, Native Hawaiians have been farming successfully on lands throughout the State without adversely impacting the land. As a significant cultural and traditional practice, Native Hawaiian farming practices serve as a key tradition that benefits the quality of life for Hawaii's residents. While the State has a fiduciary duty to assure the preservation and enhancement of water for various public interests, some regulatory actions disrupt protected cultural rights and traditions of Native Hawaiians. Therefore, this measure exempts the instream use of water for commercial kalo cultivation conducted in a manner consistent with traditional and customary practices of Native Hawaiians from the existing process for the disposition of water rights.

Your Committees have heard the testimony of the Department of Land and Natural Resources expressing concerns that this measure, as drafted, would allow water used ultimately for commercial purposes to avoid any oversight from the Board of Land and Natural Resources, as well as not having to provide a reservation with the Department of Hawaiian Home Lands nor collaborate to develop and implement a watershed management plan, both of which are requirements of the water lease process. Your Committees have also heard the testimony of the Department of Hawaiian Home Lands expressing concerns that a complete exemption would directly impact their interests.

Therefore, your Committees have amended this measure by:

- (1) Inserting a new subsection specifying that only the public auction requirements for the disposition of water rights shall not apply to commercial kalo cultivation and deleting the language that would have exempted instream commercial kalo cultivation conducted in a manner consistent with traditional and customary practices of Native Hawaiians from the disposition of water rights requirements pursuant to section 171-58, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 735, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 735, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (Chang).

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 199 (Joint) Water and Land and Government Operations on S.B. No. 1291**

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development, in cooperation with each state agency having operational responsibilities over state facilities, to develop a standardized process to conduct vulnerability assessments for facilities at risk from sea level rise and guidance to agencies on how to conduct the vulnerability assessments for their facilities.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; University of Hawai'i Sea Grant College Program; Hawai'i Climate Change Mitigation and Adaptation Commission; and Imua Alliance.

Your Committees find that to successfully adapt to climate change and sea level rise, state agencies must plan, coordinate, and act to assure Hawaii's sustainable and resilient future and mitigate against societal or economic disruptions caused by climate impacts.

Therefore, this measure requires the Office of Planning and Sustainable Development, in cooperation with each state agency having operational responsibilities over state facilities, to develop a standardized process to conduct vulnerability assessments for facilities at risk from sea level rise and provide guidance to agencies.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1291, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1291, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Government Operations: Ayes, 5. Noes, none. Excused, none.

**SCRep. 200 (Joint) Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on S.B. No. 374**

The purpose and intent of this measure is to create license plates to honor veterans of the Iraq and Afghanistan conflicts.

Your Committees received testimony in support of this measure from the Office of Veterans' Services of the Department of Defense and one individual.

Your Committees find that veterans of the Iraq and Afghanistan conflicts have sacrificed their lives to defend the citizens of the United States. Your Committees recognize that creating a special license plate for Iraq and Afghanistan veterans is an expression of gratitude for their service in protecting, not only our state citizens, but the citizens of our nation. Existing law does not include special license plates for Iraq and Afghanistan veterans, therefore, this measure will create license plates to honor the veterans of the Iraq and Afghanistan conflicts.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 374 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

**SCRep. 201 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on S.B. No. 366**

The purpose and intent of this measure is to establish penalties for the failure to comply with a Director of Finance's request that a vehicle number plate or special number plate be returned.

Your Committees received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu.

Your Committees find that a county Director of Finance may refrain from issuing, or request the return of, a number plate or special number plate for various reasons, including the use of language that is publicly objectionable. Your Committees further find that individuals may refuse a county Director of Finance's request to return a vehicle number plate or special number plate, due to the lack of adequate penalties for individuals who fail to comply with the request. Creating penalties for the refusal of complying with the request will further promote compliance. Therefore, this measure will establish a fine of an unspecified amount, revocation of the person's driver's license, or both, for any person who fails to comply with a county Director of Finance's request to return a number plate or special number plate.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 366 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 202 (Majority) Government Operations on S.B. No. 699**

The purpose and intent of this measure is to require the Lieutenant Governor to administer and facilitate a Hawaii State Capitol Tours Program.

Your Committee received comments on this measure from the Office of the Lieutenant Governor.

Your Committee finds that a way of sharing aloha is to offer tours of the Hawaii State Capitol where individuals can learn about the building's history, unique features, and other nearby points of interest.

Additionally, your Committee has had an opportunity to discuss this measure with the Lieutenant Governor and interested stakeholders, and the consensus is that the Legislative Reference Bureau's Public Access Room is adept and has experience interacting with the public, visiting groups, and the Division of State Parks. To ensure the most efficient provision of public service, your Committee finds that the Public Access Room is the best option to conduct and host the State Capitol tours.

Your Committee has amended this measure by:

- (1) Appropriating an unspecified amount for one full-time equivalent position within the Legislative Reference Bureau's Public Access Room;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 699, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 699, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Wakai).

**SCRep. 203 Government Operations on S.B. No. 749**

The purpose and intent of this measure is to require the Public Access Room to establish and maintain an outreach and engagement program for primary, secondary, post-secondary, and community education.

Your Committee received testimony in support of this measure from the Commission to Promote and Advance Civic Education, Hawai'i Association of Independent Schools, Hawai'i Youth Services Network, Community Alliance on Prisons, and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that civic engagement provides an opportunity for residents to become involved with improving their local communities and neighborhoods. Your Committee further finds that the Public Access Room, an office under the Legislative Reference Bureau, provides the public with information, equipment, facilities, and services to assist in research activities, educational outreach, and public engagement related to work with the Legislature. Your Committee additionally finds that the Public Access Room is well-positioned to further civic engagement between the Legislature and students in the State through educational partnerships. However, the Public Access Room currently lacks resources to provide outreach services beyond its current efforts.

Your Committee has amended this measure by:

- (1) Inserting new statutory language that requires the Department of Education and University of Hawaii to assign appropriate staff to coordinate with the Public Access Room with respect to the new outreach and engagement program;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 749, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 204 (Joint) Government Operations and Water and Land on S.B. No. 1485**

The purpose and intent of this measure is to allow the Department of Land and Natural Resources to engage in capital improvement project work at state small boat harbors and state parks without prior approval from the Legislature and Governor.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, Trilogy Corporation, and three individuals. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance and Wailoa River and Reeds Bay Boating and Users Association. Your Committees received comments on this measure from Calypso Charters.

Your Committees find that state small boat harbors and state parks are important locations for the State, serving as hubs of ocean and land-based recreation for residents and visitors alike. Small boat harbors have endured impacts from numerous vessels, and both small boat harbors and state parks have been weathered by vehicles, visitors, and vandalism. Further, state small boat harbors and state parks have an extensive backlog for the construction, repair, and maintenance of critical infrastructure.

Your Committees further find that many efforts were made by the Division of Boating and Ocean Recreation and Division of State Parks to repair and redevelop small boat harbors and conduct repair and maintenance on state park features and infrastructure. Both divisions are working toward developing a new process to provide for the redevelopment of their facilities, and the Division of State Parks is developing an asset management program to standardize routine repair and maintenance efforts to reduce the need for capital improvement projects. However, repair work is needed immediately to ensure that small boat harbors and state parks provide attractive, high quality, and safe experiences for Hawaii's residents and visitors.

Your Committees further find that repair, maintenance, and construction needs often arise when the Legislature is not in session. However, due to the statutory requirement that capital improvement projects be approved by the Legislature and Governor, many capital needs are put on hold until the next legislative session. This leads to the further deterioration of facilities and increased costs to

the State. This Act would provide a streamlined and efficient response to address capital needs in a timely manner and with the best cost-efficiency for the State.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that authorization by the Legislature and the Governor for capital improvement projects is not required for existing facilities only;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

Your Committees note that there was a robust discussion between the Department of Budget and Finance, Department of Land and Natural Resources, and Division of State Parks. The Department of Land and Natural Resources and Division of State Parks indicated that improvements occur when the Legislature is not in session and repairs are desperately needed. The Department of Budget and Finance pointed out that article VII, section 5, of the Hawaii State Constitution states that expenditures for capital improvement projects need to be authorized by the Legislature. Your Committees find that the issues raise concerns that merit further consideration and request that, should your Committee on Ways and Means choose to deliberate on this measure, that it further examine those issues and concerns raised by the testifiers on this measure.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1485, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1485, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (Fevella).

**SCRep. 205 (Joint) Government Operations and Health and Human Services on S.B. No. 894**

The purpose and intent of this measure is to:

- (1) Transfer the Office of Wellness and Resilience from the Office of the Governor to the Department of Human Services on July 1, 2025;
- (2) Extend the Trauma-Informed Care Task Force dissolution date to June 30, 2025, and establish the task force as an advisory board to the Office of Wellness and Resilience until its dissolution; and
- (3) Reconstitute the membership of the Trauma-Informed Care Task Force into a permanent advisory board to the Office of Wellness and Resilience to be called the Wellness and Resilience Advisory Board.

Your Committees received testimony in support of this measure from the Office of Wellness and Resilience, Department of Public Safety, Executive Office on Early Learning, Hawai'i Children's Action Network Speaks!, HawaiiKidsCAN, Hawai'i Youth Services Network, Hawai'i Primary Care Association, Hawai'i Community Foundation, EPIC 'Ohana, and one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that the Trauma-Informed Care Task Force established in 2021 focuses on efforts to create and adopt a statewide framework for trauma-informed and responsive practices, identifying best practices, and identifying cultural practices to help build wellness and resilience. Your Committees further find that Act 291, Session Laws of Hawaii, established the Office of Wellness and Resilience, the first in the nation, to be temporarily placed in the office of the Governor. This agency is tasked with assisting those who have experienced childhood trauma and other mental health issues. Your Committees recognize the need and long-term commitment to help children and families avoid adverse childhood experiences and provide comprehensive, coordinated, culturally sensitive services to survivors of trauma. Therefore, this measure establishes the Office of Wellness and Resilience permanently within the Department of Human Services and ensures that the Trauma-Informed Care Task Force will continue its important work in an advisory capacity.

Your Committees have amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 894, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 894, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

**SCRep. 206 (Joint/Majority) Government Operations and Health and Human Services on S.B. No. 891**

The purpose and intent of this measure is to require the Department of Accounting and General Services to provide menstrual products at no cost in specified restrooms of public buildings maintained by that department.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Department of Human Services; one member of the Hawai'i County Council; one member of the Kaua'i County Council; Aloha Diaper Bank; Hawaii Diaper Bank; Rainbow Family 808; Stonewall Caucus of the Democratic Party of Hawai'i; Hawai'i Health & Harm Reduction Center; PERIOD, Inc.; Hawai'i Student Care Resources; Pilina Center for Wellbeing; Hawai'i Women's Coalition;

Ma'i Movement Hawai'i; and forty-six individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees recognize the financial burden associated with menstruation when the lack of economic relief or easily accessible aid threatens the livelihood of menstruating persons. Your Committees believe that the provision of free menstrual products in public buildings would reduce health risks, alleviate the burden of period poverty, and protect the dignity of all menstruating people. Further, your Committees believe that establishing wider access to free menstrual products would help to ensure more inclusive and equitable access to public facilities, reduce barriers faced by residents and visitors to state buildings in meeting basic needs, and promote greater menstrual equity in the State.

Your Committees have amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committees request that, should your Committee on Ways and Means choose to deliberate on this measure, that the Department of Accounting and General Services provide that Committee with a suggested appropriation amount.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 891, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, 1 (Awa). Excused, none.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Moriwaki).

**SCRep. 207      Judiciary on S.B. No. 203**

The purpose and intent of this measure is to allow the Campaign Spending Commission to treat a respondent's failure to explain or otherwise respond to a complaint alleging a violation of campaign spending laws as an admission that a violation has occurred.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that currently, the Campaign Spending Commission has to make repeated attempts to communicate with a respondent regarding a complaint alleging a violation of campaign spending laws before putting the matter on a meeting agenda for action. This wastes the Campaign Spending Commission's time and resources. This measure will allow the Campaign Spending Commission to timely process complaints in cases where the Campaign Spending Commission has given notice of a complaint to the respondent and the respondent fails to respond.

Your Committee has amended this measure by:

- (1) Specifying that a respondent's failure to explain or otherwise respond to a complaint may be treated as a presumption, rather than an admission, that the violation has occurred; and
- (2) Specifying that the respondent shall have thirty days from the mailing of the complaint to respond before the presumption takes effect.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 203, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

**SCRep. 208      Education on S.B. No. 154**

The purpose and intent of this measure is to:

- (1) Require the Department of Education to develop and implement a School Meal Subsidy Program to provide school lunch subsidies to children whose families do not otherwise qualify for free lunch under the federal Free and Reduced Lunch Program, subject to income eligibility; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Hawai'i State Council on Developmental Disabilities, Hawaii State Teachers Association, Hawai'i Children's Action Network Speaks!, Democratic Party of Hawai'i Education Caucus, Hawai'i Hunger Action Network, Hawai'i Public Health Institute, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the National School Lunch Program is a federally assisted meal program for schools. While the National School Lunch Program provides daily low-cost or free, balanced meals to children from households making a certain income, the Department of Education estimates that up to fifteen thousand children each year from gap groups do not qualify for the National School Lunch Program, but still struggle with food insecurity. Nutritious meals are integral to the development, growth, and learning of Hawai'i's keiki and in many cases, school meals may be the only way some children have access to food. Therefore, developing a state School Meal Subsidy Program is necessary to provide lunch subsidies for students who are not otherwise eligible for free lunch under the Department of Education Food Services Branch's Free and Reduced Price Lunch Program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 154, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 154, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 209 Education on S.B. No. 1518**

The purpose and intent of this measure is to provide procurement exemptions for the Department of Education for certain goods, services, and construction.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that the Department of Education is the largest department in the State with two hundred ninety-five schools and forty-two thousand salaried and part-time employees, which must procure numerous goods, services, and construction to run its operations. Presently, the Department of Education is mandated to comply with procurement laws for its purchases depending on certain threshold amounts. However, school administrators seeking to address repair and maintenance backlogs face delays and difficulties from the mandated use of the Department of Education's electronic procurement system. To ensure efficiency in Department of Education operations, abbreviating certain small purchase procurement requirements for the Department of Education will allow the Department to procure necessary goods and services and construction in a more timely manner.

Your Committee has amended this measure by:

- (1) Clarifying that Department of Education expenditures less than \$50,000 for goods and services and less than \$125,000 for construction shall be subject to administrative rules of the State Procurement Office; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1518, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Kim, Richards). Noes, none. Excused, none.

**SCRep. 210 Higher Education on S.B. No. 1151**

The purpose and intent of this measure is to exempt University of Hawaii community college students who are enrolled in certificate programs from the requirement to complete the Free Application for Federal Student Aid (FAFSA) each academic year to be considered eligible for the Hawaii Community College Program.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, University of Hawai'i System, University of Hawaii Professional Assembly, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that students attending the University of Hawaii community colleges have benefitted significantly from the Hawaii Community College Promise Program, which is more flexible and teaches political, applicable skills. Additionally, your Committee believes that certificate programs are valuable to the State and open opportunities for individuals with intellectual and developmental disabilities who have had difficulty in accessing promise scholarships in the past either because they were not enrolled full-time or had difficulty with FAFSA applications. Your Committee recognizes the importance of widening access to the Hawaii Community College Promise Program to help students in certificate programs pursue their educational goals. Therefore, this measure aims to increase opportunities to achieve higher education and reduce the cost of community college for those with intellectual and developmental disabilities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1151, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 211 Higher Education on S.B. No. 1598**

The purpose and intent of this measure is to appropriate funds to the Department of Science of the University of Hawaii Maui College to support water testing on the island of Maui, including supplies and the establishment of two full-time equivalent (2.0 FTE) positions.

Your Committee received testimony in support of this measure from the University of Hawai'i Systems.

Your Committee finds that the island of Maui has only one water quality testing laboratory. That facility is operated by the County of Maui and only serves the county's agencies. All other water quality testing must be sent to the island of Oahu, where it takes approximately twelve weeks to be returned. Additionally, your Committee recognizes that the recent water crises occurring in Hawaii

are detrimental to the health of the State's residents and environment. Therefore, this measure seeks to provide funding and staff for a water testing laboratory at the University of Hawaii Maui College, to enable faster water quality test results and encourage further water quality research on the island of Maui.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1598, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1598, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 212 (Joint) Higher Education and Energy, Economic Development, and Tourism on S.B. No. 1510**

The purpose and intent of this measure is to:

- (1) Establish a center for design, development, and fabrication of astronomical instruments within the University of Hawaii; and
- (2) Appropriate funds for the center's planning and design and ten full-time equivalent (10.0 FTE) faculty positions within the center.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Office of the Mayor for the County of Hawai'i, Hawai'i Island Chamber of Commerce, Hawaii Science and Technology Museum, Kona-Kohala Chamber of Commerce, Maunakea Observatories, Japanese Chamber of Commerce and Industry of Hawaii, Ke Kula 'O Nāwahīokalani'ōpu'u, The Success Factory, and six individuals. Your Committees received comments on this measure from one individual.

Your Committees find that Hawaii has a well-deserved reputation for astronomical excellence, as astronomy contributes over \$200,000,000 annually into Hawaii's economy. However, despite these facts, most of the current technology development and fabrication needed to support the astronomical facilities on the islands of Hawaii and Maui occur outside of the State. Additionally, within the State's astronomy engineering and technical workforce, only thirty percent are born and raised in Hawaii.

Your Committees further find that, due to the State's need for a stronger network of local engineers in Hawaii's astronomical settings, the establishment and funding of a center dedicated to expanding Hawaii's space and engineering field is essential for the sustainability of astronomy in the State. Your Committees also recognize that the University of Hawaii is the State's sole institution of public higher education and has the capacity to serve as the hub for Hawaii astronomy engineering and instrument development. Therefore, in order to encourage the youth of Hawaii to pursue careers in astronomy, this measure will appropriate funds toward a center focused on design, development, and fabrication of astronomical instruments within the University of Hawaii, including the funding for ten full-time equivalent faculty positions.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1510 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

**SCRep. 213 Energy, Economic Development, and Tourism on S.B. No. 817**

The purpose and intent of this measure is to amend the definition of "eligible business activity" to include the processing of value-added agricultural products grown within an enterprise zone and the development or production of renewable energy.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Hawai'i Gas; Hawai'i Farm Bureau; Hawaii Clean Power Alliance; and one individual. Your Committee received comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that the enterprise zone program was initially established within the Department of Business, Economic Development, and Tourism to stimulate certain types of business activity and increase employment in targeted areas of the State. The enterprise zone program is one of the few state programs that incentivize economic development in the most rural and distressed communities where agriculture is often the main business activity. Your Committee believes that clean energy and agriculture are two of Hawaii's top priorities and are essential to the State's sustainability. This measure will support the production of value added products, help farmers increase their income, and bring the advantages of the enterprise zone program to two of the State's top priorities and most challenging sectors by amending the definition of "eligible business activity" to include the processing of value-added agricultural products grown within an enterprise zone and the development or production of renewable energy.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 817 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 214 Energy, Economic Development, and Tourism on S.B. No. 837**

The purpose and intent of this measure is to authorize the Department of Business, Economic Development, and Tourism to:

- (1) Acquire real, personal, or mixed property;

- (2) Clear, improve, and rehabilitate property;
- (3) Sell, assign, exchange, transfer, convey, lease, dispose, or encumber property; and
- (4) Acquire property by condemnation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Department of Business, Economic Development, and Tourism seeks to encourage and diversify economic activity and workforce and business development in the State. Your Committee believes that empowering the Department of Business, Economic Development, and Tourism to acquire and manage property will enhance the Department's capacity to implement its objective of developing the economy of the State. This measure will allow the Department of Business, Economic Development, and Tourism to support projects that are beneficial to the development of multiple sectors of the economy, create and boost economic opportunities for public benefits, and address a wide array of the public's needs by authorizing the Department to acquire real, personal or mixed property; clear, improve, and rehabilitate property; sell, assign, exchange, transfer, convey, lease, dispose, or encumber property; and acquire property by condemnation.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 215 Energy, Economic Development, and Tourism on S.B. No. 690**

The purpose and intent of this measure is to prohibit the sale of certain fluorescent lamps in the State as a new manufactured product, with certain exemptions.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii State Energy Office, Hawai'i Climate Change Mitigation and Adaptation Commission, County of Hawai'i Department of Environmental Management, Hawai'i Energy, Blue Planet Foundation, Appliance Standards Awareness Project, Ulupono Initiative, and three individuals.

Your Committee finds that all fluorescent bulbs contain mercury, a toxic pollutant that bioaccumulates in the environment, can pollute air and water, and causes harm to wildlife and human health. Your Committee also finds that mercury-free alternatives exist for most of the thousands of products that contain mercury components, such as light-emitting diodes (LEDs) that are up to eighty percent more energy efficient than fluorescent bulbs and can last three to five times longer than fluorescent bulbs. Your Committee believes that LEDs offer a better choice because they do not contain any mercury, are more energy efficient, and are a cheaper life-cycle cost lighting option for consumers and businesses. This measure will prevent additional toxic pollutants from being brought into the State's ecosystem, reduce energy use, and save consumer dollars by prohibiting the sale of certain fluorescent lamps in the State as a new manufactured product, with certain exemptions.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 690, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 690, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 216 Energy, Economic Development, and Tourism on S.B. No. 1231**

The purpose and intent of this measure is to identify and address remaining obstacles to digital equity to all areas of the State by establishing the Digital Equity Grant Program. By awarding grants the State seeks to create a condition in which all individuals and communities in the State have the information technology capacity needed for full participation in society, democracy, and the economy.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Hawai'i Climate Change Mitigation and Adaptation Commission; Broadband Hui; Kapolei Chamber of Commerce; Hawaiian Telcom; Charter Communications; and four individuals. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the Office of Information Practices and Society of Professional Journalists.

Your Committee finds that the coronavirus disease 2019 pandemic spotlighted the need for digital equity for all of Hawai'i's residents. The federal Infrastructure Investment Jobs Act recognized the importance of digital equity and created several programs, including the Digital Equity Capacity Grant Program. The Digital Equity Capacity Grant Program provides a one-year period for the development of the statewide digital equity plan before the National Telecommunications and Information Administration will issue their notice of funding opportunity for the capacity grants. Your Committee believes that providing funding opportunities in advance of the anticipated National Telecommunications and Information Administration's State Digital Equity Capacity Grant program will accelerate the delivery of digital equity and literacy benefits to local communities. This measure will help to fund and build information technology to provide digital capacity in Hawai'i's communities by establishing the Digital Equity Grant Program to award grants and create a condition in which all individuals and communities in the State have the information technology capacity needed for full participation in society, democracy, and the economy.

Your Committee has amended this measure by:

- (1) Inserting language defining “broadband infrastructure”;
- (2) Removing language that would have exempted “commercially sensitive information” from disclosure, due to existing Uniform Information Practices Act protections; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1231, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 217 Energy, Economic Development, and Tourism on S.B. No. 1296**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Economic Development District Planning Organization and governing board to meet the requirements of the United States (U.S.) Economic Development Administration, as provided in title 13 Code of Federal Regulations section 304.2, by being broadly representative of the principal economic interests of the region, including private sector, public officials, community leaders, representatives of workforce development boards, institutions of higher learning, minority and labor groups, and private citizens; and
- (2) Designate the Office of Planning and Sustainable Development to organize the district organization assisted by professional staff with economic development planning qualifications.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and Department of Business, Economic Development, and Tourism. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that economic development districts are multi-county entities tasked to help lead and coordinate locally developed and regionally driven economic development. Economic development districts are crafted to develop long-term relationships with the U.S. Economic Development Administration, including annual federal funding to support the development and implementation of the region’s Comprehensive Economic Development Strategy. Your Committee also finds that U.S. Economic Development Administration investment of federal funds is more likely within designated economic development district areas on a per capita basis than within areas not covered by an economic development district. This measure will provide the State an opportunity to foster a stronger relationship with the U.S. Economic Development Administration and the federal government and create the opportunity for more regular access to federal funds by establishing the Hawaii Economic Development District Planning Organization and governing board to meet the requirements of the U.S. Economic Development Administration and designating the Office of Planning and Sustainable Development to organize the district organization.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 218 (Joint) Energy, Economic Development, and Tourism and Higher Education on S.B. No. 1520**

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and other related aspects of the State’s hydrogen energy industry; and
- (2) Appropriate funds for the Hawaii Pacific Hydrogen Hub.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, University of Hawai’i System, Sustainable Energy Hawai’i, and four individuals.

Your Committees find that the United States Department of Energy Regional Hydrogen Hubs Program is providing \$7,000,000,000 to establish up to ten regional clean energy hubs across America. As part of a larger \$8,000,000,000 hydrogen hub program funded through the Infrastructure Investment and Jobs Act, the Regional Hydrogen Hubs Program will be a central driver in helping communities across the country benefit from clean energy investments, good-paying jobs, and improved energy security. Your Committees further find that the United States Department of Energy selected Hawaii as one of thirty—three public—private consortiums to compete for the federal funding. Proposed as the Hawaii Pacific Hydrogen Hub, the Department of Business, Economic Development, and Tourism is leading the consortium to leverage \$500,000,000 in private investment for \$500,000,000 in matching funds from the United States Department of Energy that will drive production, processing, delivery, storage, and end—use of

clean hydrogen, including innovative uses in the industrial sector. Your Committees believe that if fully built and implemented, the Hawaii Pacific Hydrogen Hub will become a major industry and job center for the State.

This measure will allow the State to leverage critical federal funds and transition to sustainable, renewable energy by requiring the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and other related aspects of the State's hydrogen energy industry, and appropriates funds for the Hawaii Pacific Hydrogen Hub.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1520, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1520, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 5. Noes, none. Excused, none.

**SCRep. 219 (Joint) Hawaiian Affairs and Housing on S.B. No. 1353**

The purpose and intent of this measure is to exempt any development of homestead lots or housing for the Department of Hawaiian Home Lands from general excise and use taxes.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Hawaiian Home Lands, and one member of the Kaua'i County Council. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Taxation.

Your Committees find that the Department of Hawaiian Home Lands was established by the Hawaiian Homes Commission Act of 1920, as amended, to protect and improve the lives of native Hawaiians. The Department of Hawaiian Home Lands serves to develop and administer public lands for homesteads and offers them for lease to native Hawaiian beneficiaries at rates considerably below market value. As such, the Department of Hawaiian Home Lands currently pays general excise taxes when developing affordable housing projects despite having no ability to recover these costs due to their below market leases. Your Committees find that this discrepancy has hampered the rate of affordable housing development for beneficiaries. Therefore, this measure exempts any developments of homestead lots or housing for the Department of Hawaiian Home Lands from general excise and use taxes.

Your Committees have heard the testimony of the Department of Budget and Finance, noting that rulemaking authority for the joint promulgation of administrative rules by the Department of Hawaiian Home Lands and the Department of Taxation to implement the exemption should be added to this measure.

Therefore, your Committees have amended this measure by:

- (1) Providing that the Director of Taxation and the Department of Hawaiian Home Lands shall adopt rules pursuant to chapter 91, Hawaii Revised Statutes, relating to the general excise tax exemptions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1353, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1353, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Housing: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

**SCRep. 220 (Joint) Hawaiian Affairs and Housing on S.B. No. 448**

The purpose and intent of this measure is to exempt housing development from general excise taxes and school impact fee requirements and extend the county affordable housing credit program for the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands and Dowling Company, Inc. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Office of the Governor, Department of the Attorney General, Department of Taxation, Department of Budget and Finance, School Facilities Authority, one member of the County Council of the County of Hawai'i, and Tax Foundation of Hawaii.

Your Committees find that the Department of Hawaiian Home Lands was established by the Hawaiian Homes Commission Act of 1920, as amended, to protect and improve the lives of native Hawaiians. The Department of Hawaiian Home Lands serves to develop and administer public lands for homesteads and offers them for lease to native Hawaiian beneficiaries at rates considerably below market value. As such, the Department of Hawaiian Home Lands currently pays general excise taxes when developing affordable housing projects despite having no ability to recover these costs due to their below market leases. Your Committees find that this discrepancy has hampered the rate of affordable housing development for beneficiaries.

Your Committees further find that some Hawaiian home lands that could be used for affordable housing development are often, out of necessity, used for developing public schools, public charter schools, and early learning facilities in order to support the educational

needs of homestead communities. Notwithstanding, the Department of Hawaiian Home Lands would be required to pay school impact fees when developing new housing projects but for an exemption pursuant to Act 197, Session Laws of Hawaii 2021 (Act 197), which expires in 2024.

Your Committees further find that to help address the need for new affordable housing, through Act 141, Session Laws of Hawaii 2009 (Act 141), the Department of Hawaiian Home Lands is authorized to use affordable housing credits to attract more affordable homestead development opportunities through developer-financed projects. However, your Committees also find that this invaluable housing credit program is set to expire in 2024.

Therefore, this measure exempts any housing development for the Department of Hawaiian Home Lands from general excise taxes and school impact fee requirements and extends the county affordable housing credit program for the Department of Hawaiian Home Lands.

Your Committees have heard the testimony of the Department of the Attorney General, expressing concerns that this measure's amendment to the lapse date for the \$600,000,000 in general funds pursuant to Act 279, Session Laws of Hawaii 2022 (Act 279), may be subject to constitutional challenge because of its unspecified appropriation date. The Department of the Attorney General testified that article VII, section 11, of the Hawaii State Constitution generally restricts appropriations from exceeding a period of three years.

Further, in regards to the school impact fee exemption, the Department of the Attorney General testified that Act 197 is set to expire on July 1, 2024, and that an amendment to eliminate the sunset provision is necessary if this measure's intent is to make the school impact fee exemption permanent.

Your Committees have also heard the testimony of the Department of Hawaiian Home Lands, requesting that the general excise tax exemption language for housing development be broadened to include both developments of homestead lots and housing, to help facilitate developments on agricultural and pastoral lots, which are included under homestead lots.

Finally, your Committees have heard the testimony of the Department of Taxation, requesting that the effective date of this measure be amended to January 1, 2024, instead of upon approval, due to the tax form and system changes necessary to implement this measure.

Therefore, your Committees have amended this measure by:

- (1) Expanding the exemption from general excise taxes and school impact fee requirements to both developments for homestead lots and housing;
- (2) Deleting the proposed section that would have extend the general funds lapse date to an unspecified date for the \$600,000,000 appropriation to the Department of Hawaiian Home Lands pursuant to Act 279;
- (3) Making the exemptions from school impact fee requirements and the issuance of county affordable housing credits permanent by striking the sunset provisions;
- (4) Amending the purpose section of Part II, to reflect its amended purpose;
- (5) Amending the effective date to January 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 448, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 448, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

Housing: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

#### **SCRep. 221 Hawaiian Affairs on S.B. No. 1235**

The purpose and intent of this measure is to clarify certain ambiguities as to the purpose, scope, and duration of the working group established by Act 226, Session Laws of Hawaii 2022 (Act 226). Specifically, this measure:

- (1) Clarifies that the working group established by Act 226 is a temporary public land trust working group within the Office of the Governor for administrative purposes only;
- (2) Provides that the working group's sole purpose shall be to compile a definitive inventory of public land trust lands; and
- (3) Amends the composition of the working group and authorizes the working group to hire staff.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that, pursuant to Act 226, a working group was established to: (1) conduct an accounting of all ceded lands in the public lands trust inventory; (2) conduct an accounting of all income and proceeds derived from the public land trust; and (3) to transfer the twenty percent pro rata share of income and proceeds from the public land trust to the Office of Hawaiian Affairs for the betterment of the conditions of Native Hawaiians.

However, your Committee finds that Act 226 contains certain ambiguities as to the working group's purpose, scope, and duration. Therefore, this measure clarifies that the public land trust working group shall be temporary in nature and will be placed within the Office of the Governor, and provides that the working group's sole special purpose is to compile a definitive inventory of all lands that comprise the public land trust.

Your Committee has heard the testimony of the Department of Budget and Finance expressing concerns that this measure would eliminate two key roles established by Act 226, namely, the working group's role to account for all income and proceeds from the public land trust and its role to determine the amount of the twenty percent pro rata share of income from the public land trust due to the Office of Hawaiian Affairs.

Your Committee also heard the testimony of the Office of Hawaiian Affairs, expressing concerns, among other things, that this measure's removal of the word "ceded" from the working group's role to "inventory all ceded lands", is in error, because the public land trust inventory is only a subset of the ceded lands inventory.

Therefore, your Committee has amended this measure by:

- (1) Retaining the original language of Act 226 that requires the working group to compile and inventory all ceded lands;
- (2) Clarifying that the working group shall have the primary special purpose, as opposed to a sole purpose, to compile an inventory of all ceded lands in the public trust;
- (3) Retaining the working group's two ancillary roles, specifically, its role to conduct an accounting of all income and proceeds derived from the public land trust and its role to transfer the twenty percent pro rata share of income and proceeds from the public land trust;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1235, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 222 Hawaiian Affairs on S.B. No. 1356**

The purpose and intent of this measure is to allow an adopted individual to benefit both by relationship through a natural parent and through an adoptive parent in a disposition or other designation as provided for in accordance with the Hawaiian Homes Commission Act, 1920 (HHCA), as amended, or administrative rules, and allow the adopted individual and individual's natural family to continue having the same familial relationship.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committee received testimony in opposition to this measure from Ho'omana Pono, LLC and one individual.

Your Committee finds that the effect of adoption as provided for under state law impacts the ability for an adopted individual or the individual's natural family to succeed to a homestead lease or application on the Department of Hawaiian Home Lands applicant waiting list. This measure allows an adopted individual to benefit both by relationship through a natural parent and through an adoptive parent while also allowing the adopted individual and member of the individual's natural family to continue to have the same familial relationship. Importantly, this measure does not alter any requirements under the HHCA, such as the definition of native Hawaiian, beyond the recognition of a relationship between individuals.

Your Committee notes the testimony of Ho'omana Pono, LLC, and one individual who submitted testimony in opposition, expressing concerns that this measure would allow people who are not native Hawaiian to succeed to a homestead lease through adoption. However, your Committee notes the testimony of the Department of Hawaiian Home Lands, clarifying that this measure is intended to help native Hawaiian children whose biological parents are on the homestead waiting list succeed to a lease, who would otherwise lose that legal ability as an unintended consequence of the State's adoption of the Uniform Probate Code.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1356, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1356, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 223 Hawaiian Affairs on S.B. No. 1357**

The purpose and intent of this measure is to:

- (1) Make permanent Act 141, Session Laws of Hawaii 2009, which requires the counties to issue affordable housing credits to the Department of Hawaiian Home Lands upon request; and
- (2) Make permanent Act 98, Session Laws of Hawaii 2012, which requires the counties to issue affordable housing credits for each residential unit developed by the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Hawaiian Home Lands; and Dowling Company, Inc. Your Committee received comments on this measure from NAIOP Hawaii.

Your Committee finds that affordable housing credits have been utilized by the Department of Hawaiian Home Lands to provide affordable housing opportunities for its beneficiaries at no cost to the State. This program allows for the purchase of additional land in

a location that beneficiaries are interested in but where the Department has no available land in the area, and results in a reduction in the price of housing units offered by homebuilders on Hawaiian home lands. Therefore, this measure makes permanent the affordable housing credit program for the Department of Hawaiian Home Lands.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1357, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1357, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 224 (Majority) Transportation and Culture and the Arts on S.B. No. 1046**

The purpose and intent of this measure is to amend the vehicle weight tax exemption for noncommercial vehicles by removing the exemption for military reserves and other active duty military personnel and replacing it with an exemption for certain veterans.

Your Committee received testimony in support of this measure from the Department of Defense Office of Veterans' Services, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the United States Indo-Pacific Command, United States Army Pacific Headquarters, and Chamber of Commerce Military Affairs Committee. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that active duty military, reservists, and National Guard members who claim legal residency in Hawaii and are stationed in the State may exempt one privately owned vehicle from the state vehicle weight tax. Presently, the exemption mirrors the federal government, which authorizes one vehicle to be shipped as a result of permanent change of station orders, regardless of family size.

Your Committee has amended this measure by:

- (1) Retaining the vehicle weight tax exemption for military reserves and other active duty military personnel;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1046, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 225 (Majority) Transportation and Culture and the Arts on S.B. No. 965**

The purpose and intent of this measure is to:

- (1) Establish green infrastructure objectives and policies for transportation systems, infrastructure, and projects; and
- (2) Establish the Green Transportation Infrastructure Task Force to examine, evaluate, and develop policies for the design, implementation, and maintenance of green transportation infrastructure.

Your Committee received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission; Department of Land and Natural Resources; Department of Transportation; Trees for Honolulu's Future; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; International Union of Painters and Allied Trades, District Council 50; The Outdoor Circle; and nine individuals. Your Committee received testimony in opposition to this measure from seven individuals.

Your Committee finds that sustainable design concepts for public infrastructure incorporate green vegetation and trees to decrease urban temperatures, reduce carbon emissions, improve air quality, and capture water to replenish the water table. The effects of climate change have made the implementation of sustainable design concepts more critical. Studies have also determined that people who live in areas that have more trees and green space are less likely to develop chronic diseases such as acute respiratory symptoms and other heart and respiratory diseases. Additionally, mental health and quality of life improvements are two benefits from sustainable design concepts. To utilize the State's world-renowned green spaces, establishing objectives and policies for transportation, infrastructure, and projects that incorporate green transportation infrastructure may improve the quality of life for all residents.

Your Committee has amended this measure by:

- (1) Authorizing the Director of Transportation to grant exemptions to projects when safety is a concern or other considerations as necessary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 965, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 226      Transportation and Culture and the Arts on S.B. No. 1166**

The purpose and intent of this measure is to authorize the renewal of a driver's license by mail or online.

Your Committee received testimony in support of this measure from the Department of Customer Services of the City and County of Hawaii and three individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that driver's license renewals can be a cumbersome, tedious process for many Hawaii drivers. Traditionally, Hawaii drivers have to appear in-person at a driver's licensing center to renew their license, a process that can take a significant amount of time if centers are inundated with customers. To ensure that all Hawaii drivers have the ability to conveniently renew their driver's licenses before expiration, this measure authorizes renewal of driver's licenses by mail or online.

Your Committee has amended this measure by:

- (1) Retaining the requirement that an applicant renewing a driver's license by mail or online submit a notarized statement and a physician's statement six months before the expiration date of the applicant's license; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1166, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 227      Transportation and Culture and the Arts on S.B. No. 784**

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation to establish and implement a one-year Airline Subsidy Pilot Program at Molokai Airport to assist airlines in offsetting the costs of operation; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation and two individuals.

Your Committee finds that since January 2021, only one passenger airline has provided service to the general public out of Molokai Airport. While the airline has done its best to accommodate the needs of passengers, including additional routes, flight times, and ordering larger planes, the cost of plane tickets remains prohibitive to many Molokai residents who need to travel for essential reasons, including work, medical appointments, and family. To alleviate cost burdens for passengers reliant on air travel to and from Molokai, implementing a one-year Airline Subsidy Pilot Program may provide incentives for airlines to service Molokai.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 784, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Elefante).

**SCRep. 228      Transportation and Culture and the Arts on S.B. No. 1505**

The purpose and intent of this measure is to prohibit the issuance of permits for the mooring of vessels engaged in certain activities.

Your Committee received testimony in support of this measure from the Department of Transportation, Surfrider Foundation, Mālama Pūpūkea-Waimea, Parley for the Oceans, and Benioff Ocean Science Laboratory. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that illegal or harmful activity throughout the Pacific Ocean has increased. In many cases, foreign vessels entered new areas of the Pacific Ocean to traffic illegal commodities. Other foreign vessels have frequently entered other nations' protected areas to collect resources to the detriment of local communities and are beginning to scout waters near the State to conduct undersea mining, which poses a significant threat of irreparable harm to the State's undersea ecosystems. Prohibiting the issuance of permits for mooring in State harbors for vessels engaged in illegal activity may assist in the protection of the State's fragile aquatic resources.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Transportation to deny the issuance of a permit under certain circumstances;
- (2) Inserting statutory language establishing when the Department of Transportation may implement restrictions on the use of State commercial harbor facilities; and
- (3) Specifying that the unpermitted or unlicensed collection or extraction of undersea minerals triggers the Department of Transportation's ability to restrict use of State commercial harbor facilities.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1505, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1505, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 229 Transportation and Culture and the Arts on S.B. No. 1404**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Transportation Airports Division to be reimbursed from any airport contract, tenant, or user for the entire amount of fines and penalties levied for the violation of federal, state, or county laws related to environmental protection or the United States Department of Homeland Security; and
- (2) Authorize the Department of Transportation Airports Division to enter into a capital advancement contract with a private party for certain public improvement or construction projects at airports statewide.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that over the last three years, the Transportation Security Administration fined the Department of Transportation approximately \$150,000 for violations caused by tenants and contractors at state airports. Authorizing reimbursements for fines incurred from federal, state, or county agencies empowers the Department of Transportation to maximize the utilization of funds for airport improvements. Additionally, your Committee further finds that authorizing the Department of Transportation to enter into capital advancement contracts for airport improvements will allow for increased efficiency in improvement projects that will benefit all travelers at state airports. Therefore, empowering the Department of Transportation with regard to state airports allows the Department to complete projects in a timely manner while also achieving state infrastructure and policy goals.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1404, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Elefante).

**SCRep. 230 Transportation and Culture and the Arts on S.B. No. 1400**

The purpose and intent of this measure is to:

- (1) Increase the total contract value and total aggregate value of capital advancement contracts entered into by the Department of Transportation for harbor improvements; and
- (2) Require a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Harbor Users Group; Young Brothers, LLC; and Matson Navigation Company, Inc.

Your Committee finds that existing law authorizes the Department of Transportation Harbors Division to enter into capital advancement contracts with private parties for any public improvement to or construction of a state harbor facility when the Director of Transportation determines that a capital advancement contract promotes the best interest of the State. Capital advancement contracts serve as an effective tool to expedite project delivery, especially for projects that increase port resilience and operational efficiency. However, current limits to capital advancement contracts restrict the Department of Transportation and the types of projects that can be completed under capital advancement contracts. Increasing the current limits on capital advancement contracts will provide greater flexibility to achieve project and infrastructure goals and ensure that the Department of Transportation can accomplish more in improving harbors facilities throughout the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1400, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1400, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Elefante).

**SCRep. 231 Transportation and Culture and the Arts on S.B. No. 823**

The purpose and intent of this measure is to:

- (1) Provide an exemption for flatbed trucks from registration renewals and initial registrations of motor carrier vehicles when used as marine terminal equipment temporarily moving in or between certain terminals; and
- (2) Add new terminal locales and roadways to be covered under the exemption.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Stevedores, Inc.; and seventy-four individuals.

Your Committee finds that existing law limits the public roadways upon which the marine terminal equipment may be operated without a valid motor vehicle registration. Exemptions promote operational efficiencies in loading, offloading, and the movement of cargo. However, your Committee notes that while the exemptions assist with movement at state harbors, the inclusion of heavily used highways and arteries may create congestion and inefficiencies in other sectors of the State's transportation system. Therefore, to promote continued support of the State's commercial harbors, while also recognizing other transportation sectors utilized on a daily basis, clarification to exempted roadways is needed.

Your Committee has amended this measure by restricting the exemption for Nimitz Highway to be from 8:30 a.m. to 3:00 p.m., and from 6:30 p.m. to 5:30 a.m.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 823, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 232      Transportation and Culture and the Arts on S.B. No. 929**

The purpose and intent of this measure is to require the Department of Transportation Highways Division to implement recommendations made by the Office of the Auditor regarding compliance with federal funding laws and regulations and information technology authentication.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that the Office of the Auditor conducted a financial and compliance audit of the Department of Transportation Highways Division, and the audit report was issued on February 3, 2022. The audit examined the financial statements relating to government activities and each major fund of the Highways Division for the 2020-2021 fiscal year. As the Highways Division managed federal funding for projects within the State, the audit report focused on ensuring compliance with federal laws and regulations relating to such funding.

However, the audit report made several findings relating to one material weakness and one significant deficiency in internal control over financial reporting, and two significant deficiencies in internal control over compliance. While the Department of Transportation concurred with the findings and developed corrective action plans, further action is needed to ensure compliance with federal laws and regulations.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 929, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 929, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 233      Transportation and Culture and the Arts on S.B. No. 214**

The purpose and intent of this measure is to establish the offense of interference with the operation of a public transit vehicle.

Your Committee received testimony in support of this measure from the Department of Transportation Services of the City and County of Honolulu and Honolulu Police Department.

Your Committee finds that the counties operate multimodal transit services that support the health and well-being of residents and visitors, and provide essential business and activities statewide while also providing reliable transportation services. Existing law establishes the offense of interference with the operator of a public transit vehicle, which involves conduct that injures or threatens the operator of a public transit vehicle. However, conduct that impedes the public transit system is not similarly addressed. To ensure that the operation of public transit vehicles are also protected from intentional damage, this measure establishes the offense of interference with the operation of a public transit vehicle.

Your Committee has amended this measure by:

- (1) Clarifying that the damage of a public transit vehicle resulting in the vehicle's removal of service or unreasonable interruption of a public transit system or service shall be construed as the offense of interference with the operation of a public transit vehicle; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 214, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 234 (Majority) Transportation and Culture and the Arts on S.B. No. 1092**

The purpose and intent of this measure is to make driving without a license a civil violation, punishable by fines of not less than \$50 and not more than \$300.

Your Committee received testimony in support of this measure from the Office of the Public Defender and American Civil Liberties Union of Hawai'i. Your Committee received testimony in opposition of this measure from the Department of Transportation and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that Act 214, Session Laws of Hawaii 1993, aimed to "improve the system by which traffic offenses presently are being processed in order to dispose expeditiously of these cases". By decriminalizing certain traffic offenses that were not considered serious through the implementation of a program for drivers to settle their fines in less adversarial settings, the State's resources could be expended for more serious cases and allowed law enforcement to focus on their patrol duties. The stress of criminal prosecution, rather than civil litigation, for certain violations has severely strained the criminal justice process, requiring extensive resources while very few cases are resolved through a trial on the merits. To streamline the criminal justice process, while also ensuring fair penalties are administered commensurate to the violation, this measure re-examines penalties for certain traffic violations.

Your Committee has amended this measure by:

- (1) Inserting blank amounts for the proposed minimum and maximum fines for driving without a license;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1092, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, none.

**SCRep. 235 (Majority) Transportation and Culture and the Arts on S.B. No. 1410**

The purpose and intent of this measure is to prohibit operation of a pickup truck with any passengers seated in the bed or load-carrying area unless in an emergency or an officially authorized parade, caravan, or exhibition.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that riding in the bed or load-carrying area of a pickup truck is unsafe and dangerous. Presently, Hawaii law allows for several exemptions for a person to ride in the bed or load-carrying area of the pickup truck. However, in the event of sudden stops or a serious collision, riders in the bed or load-carrying area may be susceptible to serious injuries or death. Prohibiting riders in the bed or load-carrying area of pickup trucks may reduce unnecessary traffic-related injuries or deaths and protect all roadway users in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1410, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 236 Transportation and Culture and the Arts on S.B. No. 1411**

The purpose and intent of this measure is to:

- (1) Specify that funds in the State Highway Fund may be expended for the cost of establishing and maintaining a drug and alcohol toxicology testing laboratory;
- (2) Specify that the Department of Transportation is required to administer, with the Department of Health or the City and County of Honolulu expending funds in the State Drug and Alcohol Toxicology Testing Special Fund;
- (3) Amend references to the State Drug and Alcohol Toxicology Testing Laboratory Special Fund;
- (4) Authorize the Department of Health or City and County of Honolulu to expend funds from the Drug and Alcohol Toxicology Testing Special Fund for the establishment and maintenance of a drug and alcohol toxicology and testing laboratory; and
- (5) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i Police Department, and Mothers Against Drunk Driving. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Act 196, Session Laws of Hawaii 2021, established the State Drug and Alcohol Toxicology Testing Laboratory Special Fund to support a state drug and alcohol toxicology testing laboratory. While Act 119, Session Laws of Hawaii 2022, appropriated funds from the State Highway Fund to the State Drug and Alcohol Toxicology Testing Laboratory Special Fund,

there is an immediate and urgent need for blood alcohol testing that cannot be entirely fulfilled by the Department of Health. Although the City and County of Honolulu Emergency Services Department has the capability to conduct blood alcohol testing for all counties, further resources are needed to prevent a backlog of testing while keeping Hawaii's communities safe.

Your Committee has amended this measure by:

- (1) Replacing the Department of Health with the Department of Transportation as the expending agency of the Drug and Alcohol Toxicology Testing Laboratory Special Fund;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1411, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 237 (Majority) Transportation and Culture and the Arts on S.B. No. 990**

The purpose and intent of this measure is to:

- (1) Establish a traffic fines task force that will examine the Finnish tiered traffic fines system;
- (2) Determine whether a similar system could be implemented in Hawaii;
- (3) Provide recommendations as to how a system could be implemented; and
- (4) Appropriates funds.

Your Committee received comments on this measure from the Judiciary and Matson Navigation Company, Inc.

Your Committee finds that fines for speeding generally serve the purpose of deterring such activities. However, flat fines, which apply to any speeding driver, can be ineffective deterrents upon wealthy offenders since a person with access to monetary resources can play a flat fine with ease. In contrast, Finland utilizes a scaled system for its traffic fines, in which the amount that an offender must pay is based upon that offender's income, with higher yearly incomes resulting in higher fines. However, to implement a tiered traffic fine system similar to Finland in Hawaii, further research and data collection are needed to develop a mathematic equation or other process by which an offender's fine is calculated in relation to their income.

Your Committee has amended this measure by:

- (1) Adding a representative from the cargo industry to the task force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 990, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 990, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 238 (Majority) Transportation and Culture and the Arts on S.B. No. 385**

The purpose and intent of this measure is to:

- (1) Establish registration requirements and driver's licensing requirements for the operation of electric rickshaws; and
- (2) Define "electric rickshaw".

Your Committee received testimony in support of this measure from Las Vegas Tuk Tuk, LLC.

Your Committee finds that the e-Tuk vehicle, an electric rickshaw certified by the United States Department of Transportation, is an emerging zero-emission vehicle ubiquitous in Asia, and now operates in thirty-two states. As a zero-emission vehicle, the e-Tuk electric rickshaw can be designed to transport multiple people. As the State seeks to achieve its clean energy goals and policies, the introduction and implementation of electric rickshaws may provide residents and tourists with a cleaner alternative mode of transportation.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 385, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 239 (Majority) Transportation and Culture and the Arts on S.B. No. 587**

The purpose and intent of this measure is to:

- (1) Increase the minimum and maximum fines for violating provisions relating to the installation of noisy mufflers; and
- (2) Authorize police officers with probable cause to stop vehicles with noisy mufflers to inspect their mufflers.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from 808 Streets, Ohana Tinting LLC, Specialty Equipment Market Association, and eighty-four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that many residents throughout the State have complained of the growing noise pollution and disturbances from loud mufflers on motor vehicles, predominantly motorcycles. The complaints claim that the noise level adversely affects sleep, particularly in the early morning hours or late at night. While existing state law currently prohibits vehicle owners from installing mufflers that increase the noise of the vehicle, penalties are minimal and do little to deter individuals from violating current muffler laws. Your Committee recognizes that protecting public health and safety, while improving the quality of life for all Hawaii residents, is a priority of the Legislature. Therefore, this measure will enhance the State's current muffler laws by increasing minimum and maximum fines for violations, as well as the increase of enforcement efforts.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 587, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 587, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, none.

**SCRep. 240 (Majority) Transportation and Culture and the Arts on S.B. No. 586**

The purpose and intent of this measure is to:

- (1) Specify that a certificate of inspection shall be issued if a vehicle is not equipped with a noisy muffler or exhaust system;
- (2) Require rules regarding safety check inspections to ensure that a motorcycle, moped, or motor vehicle is not equipped with a noisy muffler or exhaust system;
- (3) Suspend, revoke, or refuse renewal of a permit for an official inspection station upon a third or subsequent wilful violation of any rule regarding inspection of noisy muffler or exhaust system;
- (4) Establish violations of noisy muffler laws as a petty misdemeanor; and
- (5) Include repairs or installation of a noisy muffler or exhaust system as a prohibited practice for motor vehicle repair regulations.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received testimony in opposition to this measure from Specialty Equipment Market Association.

Your Committee finds that many residents throughout the State have complained of the growing noise pollution and disturbances from loud mufflers on motor vehicles, which are often outfitted with aftermarket parts to exceed factory settings. The complaints claim that the noise level adversely affects sleep, particularly in the early morning hours or late at night. To protect public health and safety, while improving the quality of life for all residents, this measure enhances existing muffler laws by increasing minimum and maximum fines for violations and increases enforcement efforts.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 586, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 241 (Majority) Transportation and Culture and the Arts on S.B. No. 1056**

The purpose and intent of this measure is to clarify that the engineering study required before the setting of a maximum speed limit shall not apply to reductions of maximum speed limits.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawai'i Bicycling League.

Your Committee finds that the safety of Hawaii's road users are an utmost priority to the Legislature. Furthermore, due to the multitude of roadways that pass through residential areas with a heavy population of road users, your Committee recognizes the need for further safety precautions. In existing state law, engineering studies are required before establishing a maximum speed limit. In order to promote safety and allow flexibility for lowering speeds, this measure will eliminate the required engineering studies for the reduction of maximum speed limits.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1056 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 242 Transportation and Culture and the Arts on S.B. No. 989**

The purpose and intent of this measure is to:

- (1) Prohibit trespass with an unmanned aircraft system, with exceptions; and
- (2) Establish a penalty.

Your Committee received testimony in support of this measure from Honolulu Tower Association of Apartment owners and one individual.

Your Committee finds that the proliferation of unmanned aircraft systems, commonly called drones, has led to privacy and public safety concerns for individuals, especially when drones are flown over private property. Presently, the State does not adequately address these situations that involve trespassing on private property with a drone. To protect the individual privacy of all people, prohibiting drone operation over private property, under certain circumstances, may help to address health, safety, and privacy concerns.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 989 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Elefante).

**SCRep. 243 Transportation and Culture and the Arts on S.B. No. 1173**

The purpose and intent of this measure is to:

- (1) Prohibit a person from causing a diesel or gas-powered vehicle to discharge clearly visible smoke, soot, or other exhaust emissions onto another person or motor vehicle; and
- (2) Establish penalties.

Your Committee received testimony in opposition to this measure from Hawaii Transportation Association and one individual.

Your Committee finds that emissions from motor vehicles are one of the greatest sources of manmade pollution. The practice of intentional discharge of diesel exhaust, also known as “rolling coal”, occurs when modifications to a vehicle’s parts are adjusted to bypass pollution controls. The usage of “defeat devices”, including electronic programmers or “tuners” adjust fuel and timing settings while also turning off certain emission controls that are designed to inhibit the release of visible exhaust.

Your Committee further finds that pollution in exhaust can aggravate asthma, allergies, and cardiovascular and respiratory diseases. Additionally, the discharge of clearly visible exhaust emissions also emits harmful chemicals, toxins, and other pollutants into the environment. Prohibiting clearly visible discharge from exhaust emissions will protect Hawaii’s people from harmful emissions, while also protecting the environment from air contaminants.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 244 (Majority) Transportation and Culture and the Arts on S.B. No. 1406**

The purpose and intent of this measure is to replace the fine schedule of vehicle weight violations by increasing potential fines based on the magnitude of vehicle weight violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the State’s transportation infrastructure supports thousands of residents each day. However, large private and commercial vehicles that exceed weight limits may place undue burdens on the State’s transportation infrastructure. To preserve roadways, bridges, and other transportation infrastructure across the State, simplifying the definitions of legal vehicle weights for commercial vehicles will prevent confusion and provide uniform applicability. Therefore, this measure will revise the fine schedules to a scale that charges vehicles for each pound that exceeds the one hundred pound limit, while also removing the arbitrary fine limit of \$1,160.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1406 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 245 Transportation and Culture and the Arts on S.B. No. 1405**

The purpose and intent of this measure is to create consistency with federal weight limits for gross vehicle weight and axle loads traveling on all public roadways.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the State's transportation infrastructure supports thousands of travelers daily. However, large, overweight, private and commercial vehicles may place undue burdens on the State's transportation infrastructure, which may lead to additional, costly maintenance, or repair costs. Your Committee further finds that, in order to preserve roadways, bridges, and other State transportation infrastructure, consistency and statewide simplification for vehicle weight limits must be enforced. Therefore, this measure will provide clarity by simplifying the definitions of legal weights for commercial vehicles.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1405 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 246 Agriculture and Environment on S.B. No. 516**

The purpose and intent of this measure is to require that the identity statement used for labeling or advertising hemp products specify the percentage of Hawaii grown hemp and hemp of other origins contained in hemp products.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Hemp Farmers Association. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that with the relaxation of cannabis laws across the nation, the hemp plant is burgeoning as a lucrative crop and commodity. The Hawaii hemp cannabinoid market is estimated to be worth \$32,000,000 to \$52,000,000 annually, but most of that money flows to out-of-state hemp farmers and businesses due in part to Hawaii residents not being able to differentiate between products made with imported hemp and products made with Hawaii-grown hemp. Your Committee additionally finds that Hawaii hemp farmers face the highest costs of production among hemp farmers in the United States. In order to ensure that hemp farmers in Hawaii are not crowded out in the marketplace by out-of-state competitors, this measure will require that hemp products for sale in the State advertise the percentage of Hawaii grown hemp on the product label to inform consumers as to which products, and how much of which, is sourced from hemp grown in Hawaii.

Your Committee acknowledges the testimony received from the Department of Agriculture, which recommends an appropriation for one full-time (1.0 FTE) measurements standards inspector for the purpose of labeling, packaging enforcement, and inspection. The inspector is necessary to help rebuild the Department of Agriculture's labeling enforcement capability and address labeling enforcement challenges in various Hawaii products, including inspecting and verifying the percentage of Hawaii coffee and coffee of other origins contained in roasted coffee, instant coffee, and ready-to-drink coffee beverages. Should your Committee on Ways and Means choose to deliberate on this measure, we respectfully request that it considers the Department's recommendation.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 247 Agriculture and Environment on S.B. No. 746**

The purpose and intent of this measure is to:

- (1) Expand coffee labeling and advertising requirements to include ready-to-drink coffee beverages and inner packages and inner wrapping labels;
- (2) Require disclosure on the label of coffee blends of the respective geographic and regional origins and percent by weight of the blended coffees; and
- (3) Prohibit use of the term "All Hawaiian" in labeling or advertising for roasted coffee or instant coffee not produced entirely from green coffee beans grown and processed in Hawaii.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Kananani Ohana Farm; Life of the Land; Hawaiian Macadamia Nut Orchards; Adaptations, Inc.; Ka Ohana O Na Pua; Cassandra Farms; Hawaii Tea Society; Maui Farmers Union United; Hana Macadamia; Hawai'i Farmers Union United; Hawai'i Alliance for Progressive Action; Kona-Kohala Chamber of Commerce; Kona Coffee Farmers Association; Cyanotech Corporation; Pohaku Coffee, LLC; Hawai'i Farm Bureau; and thirty-eight individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawaii's coffee is renowned for its high quality and flavor, and many of the coffees produced in the State have won multiple global coffee competitions. Your Committee further finds that this success has led some market competitors to exploit this reputation for profit by selling coffee blends that contain up to ninety percent cheap and low quality coffee from foreign countries. This measure will protect the reputation of Hawaii's coffee and support Hawaii's coffee farmers by expanding labeling requirements, requiring disclosure on labels of coffee bean geographic and regional origins, and prohibiting the use of the term "All Hawaiian" on coffee products that are not one hundred percent made up of green coffee beans that were grown and processed in Hawaii.

Your Committee acknowledges the testimony received from the Department of Agriculture, which recommends an appropriation for one full-time (1.0 FTE) measurements standards inspector for the purpose of labeling, packaging enforcement, and inspection. The inspector is necessary to help rebuild the Department of Agriculture's labeling enforcement capability and address labeling enforcement challenges in various Hawaii products, including inspecting and verifying the percentage of Hawaii coffee and coffee of other origins contained in roasted coffee, instant coffee, and ready-to-drink coffee beverages. Should your Committee on Ways and Means choose to deliberate on this measure, we respectfully request that it considers the Department's recommendation.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 248      Agriculture and Environment on S.B. No. 789**

The purpose and intent of this measure is to:

- (1) Prohibit the construction of new farm dwellings on agricultural park lots beginning January 1, 2024; and
- (2) Prohibit residence within an unpermitted farm dwelling and authorize inspections for enforcement.

Your Committee received testimony in support of this measure from nine individuals. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the emergence of farm dwellings on agricultural park lots has contributed to community complaints concerning dust, noise pollution, and other nuisances arising from the residential use of farm dwellings, particularly on Maui. This measure therefore prohibits construction of any new farm dwellings on agricultural park lots beginning January 1, 2024; prohibits the residence within any unpermitted farm dwelling on agricultural park lots; and authorizes inspections for enforcement.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 249      Agriculture and Environment on S.B. No. 836**

The purpose and intent of this measure is to authorize the Agribusiness Development Corporation to acquire property through condemnation.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation and Hawai'i Farm Bureau. Your Committee received comments on this measure from Pacific Agricultural Land Management Systems.

Your Committee finds that the Agribusiness Development Corporation was established to help transition Hawaii's agricultural sector from its plantation-based roots to one characterized by smaller-diversified agricultural operations. Over the past decade, the Agribusiness Development Corporation has made significant progress in its mission but continues to face major logistical challenges such as funding and land and infrastructure development issues. Your Committee further finds that the Agribusiness Development Corporation heavily relies on land availability in the State to fulfil its mandate. Thus, this measure authorizes the Agribusiness Development Corporation to acquire property by condemnation to significantly increase the available agricultural lands under the State's control, which will allow the Agribusiness Development Corporation to provide more farmers with long-term leases thereby enhancing the economic viability of Hawaii's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 836 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 250      Agriculture and Environment on S.B. No. 966**

The purpose and intent of this measure is to allow as punishment for felony disposal of solid waste and petty misdemeanor disposal of solid waste, forfeiture of any vehicle used in the commission of the offense.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals.

Your Committee finds that illegal dumping involves the unauthorized disposal of numerous types of waste usually by personal or commercial vehicle. Typical materials dumped illegally include building materials from construction sites such as drywall, roofing shingles, lumber, brick, concrete, and siding, automobile parts, household appliances, household waste, furniture, yard scraps, and medical waste, the dumping of which often relies on a commercial or personal vehicle for transport. Your Committee further finds that the effects of illegal dumping include health, environmental, and economic consequences. Since illegal dumping occurs without the same precautionary safeguards that are required at legal waste disposal locations, such as landfills, it can lead to pollution of the surrounding environment through the spread of hazardous materials, which can infiltrate the air, soil, and drinking water sources. Thus, this measure will curtail future illegal dumping and protect the environment by adding to the fines of \$50,000 and \$25,000 for

felony and petty misdemeanor offense, respectively, the forfeiture of any vehicle owned and operated by the person in the commission of the offense.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 251 Agriculture and Environment on S.B. No. 650**

The purpose and intent of this measure is to require the Department of Agriculture to conduct a feasibility study to identify potential sites on the island of Oahu for an aquaculture park that promotes commercial aquaculture expansion.

Your Committee received testimony in support of this measure from the Department of Agriculture, Kohala Mountain Fish Company, Hawaii Aquaculture and Aquaponics Association, Hawai'i Farm Bureau, and one individual. Your Committee received comments on this measure from the Department of Research and Development of the County of Hawaii.

Your Committee finds that the enduring success of the Natural Energy Laboratory of Hawaii on Hawaii island clearly demonstrates the benefits of the master-permitted aquaculture park concept in the State, and believes that it would be beneficial for the State to identify other possible sites for another potential aquaculture park operation. This measure requires the Department of Agriculture to conduct a feasibility study to identify potential sites in the State for an aquaculture park to promote commercial aquaculture expansion.

Accordingly, your Committee has amended this measure by expanding the feasibility study to include potential sites throughout the State, instead of just on the island of Oahu.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 650, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 252 Agriculture and Environment on S.B. No. 662**

The purpose and intent of this measure is to appropriate funds for a capital improvement project for the Honalo Marshalling Yard.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Research and Development of the County of Hawai'i; Hawai'i 'Ulu Cooperative; Ulupono Initiative; Farm Link Hawaii; OK Farms, LLC; Island Harvest, Inc.; Hawai'i Farmers Union United; Food+ Policy Internship 2023; Ka Ohana O Na Pua; Watson-Kabei Coffee Estate; Hawai'i Farm Bureau; and fifteen individuals.

Your Committee finds that the state-owned Honalo Marshalling Yard is currently leased by the Kona Producers Cooperative and Hawai'i Ulu Cooperative through the Department of Agriculture. The facility processes ulu, also known as breadfruit, and secondary crops like sweet potato. Your Committee recognizes that the Honalo Marshalling Yard is in need of vital infrastructure improvements to support the operations of its current lessees. Thus, this measure will support upgrades of the infrastructure at Honalo Marshalling Yard, which will increase the aggregation, processing, and storage manufacturing capacity from 350,000 pounds to 2,000,000 pounds of ulu per year, thereby supporting Hawaii's agriculture sector and enhancing food security in the State.

Your Committee acknowledges the recommendation raised in testimony by the Department of Agriculture, to include a construction cost element in the capital improvement project financing language. They additionally note that the construction cost element is necessary to support the construction of the facility improvements and increase the production of the capacity of the facility.

Your Committee has amended this measure by:

- (1) Including the English name for ulu, breadfruit, in the preamble for readability purposes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 662, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 253 Agriculture and Environment on S.B. No. 1268**

The purpose and intent of this measure is to make technical changes to the statutory definitions of "agricultural enterprise lands" and "non-agricultural park lands" for the purposes of clarity and consistency.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committee finds that Act 221, Session Laws of Hawaii 2022, established the Agricultural Enterprise Program as chapter 141D, Hawaii Revised Statutes. This measure makes technical changes to this chapter and a relating chapter to the statutory definitions of "agricultural enterprise lands" and "non-agricultural park lands" respectively, for the purposes of clarity and consistency.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1268, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 254      Agriculture and Environment on S.B. No. 1552**

The purpose and intent of this measure is to appropriate funds to support the Hawaii Ant Lab in mitigating the effects of little fire ants in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Hawaii Pest Control Association, Hawai'i Farm Bureau, Environmental Caucus of the Democratic Party of Hawai'i, and six individuals.

Your Committee finds that the little fire ant is designated as one the world's top one hundred worst invasive species by the International Union for the Conservation of Nature, due to the difficulty of preventing their spread. They continue to spread throughout the islands and there has been an increase in little fire ant infestations across the State over the last year, especially on Maui, Oahu, and Kauai. The bite from little fire ants are painful and can cause a variety of ailments, from welts that burn or itch for days to blindness in cats. Your Committee additionally finds that the Hawaii Ant Lab is a program of the University of Hawai'i Pacific Cooperative Studies Unit and has a statewide mission to prevent, reduce, and manage the spread of little fire ants and other invasive ants in Hawaii. Your committee further finds that the Department of Land and Natural Resources administers the Hawai'i Invasive Species Council that provides policy level direction, coordination, and planning among state departments and private organizations for the prevention, control, and eradication of harmful invasive species throughout the State. Thus, this measure should appropriate funds through the Department of Land and Natural Resources to support the Hawai'i Ant Lab in mitigating and managing the spread of little fire ants in the State.

Accordingly, your Committee has amended this measure by changing the expending agency of the appropriation from the University of Hawai'i to the Department of Land and Natural Resources.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1552, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1552, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 255      (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 151**

The purpose and intent of this measure is to:

- (1) Require any department or agency employing a law enforcement officer to maintain a publicly available policy that provides a minimum standard on the use of force;
- (2) Allow use of force policies and training to be considered in legal proceedings involving a law enforcement officer's use of force;
- (3) Require a law enforcement officer who observes the use of force by another law enforcement officer to report the use of force; and
- (4) Require that law enforcement officers receive training designed to minimize the use of force.

Your Committee received testimony in support of this measure from the Honolulu Police Department and three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Police Department, State of Hawaii Organization of Police Officers, and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Kauai Police Department.

Your Committee finds that law enforcement services are an essential government function that aim to promote respect for, and compliance with, state and county laws. Your Committee believes that mitigating any future actions of excessive force by law enforcement officers, which may lead to unnecessary loss of life or harm is in the interests of the State. This measure will increase accountability and transparency in law enforcement services by requiring law enforcement agencies to maintain a publicly available policy that provides a minimum standard on the use of force, requiring law enforcement officers who observe the use of excessive force by an officer to report the use of force, and requiring that law enforcement officers receive training designed to minimize the use of force.

Your Committee has amended this measure by:

- (1) Deleting language that would have allowed use of force policies and training to be considered as a factor in the totality of circumstances in determining whether the officer acted reasonably but not be considered as imposing a legal duty on the officer to act in accordance with the policies and training;
- (2) Requiring a law enforcement officer to report the use of excessive force by another officer rather than report any use of force by another officer;
- (3) Replacing the term "department head" with "division head" as necessary; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 151, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 151, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 256 Public Safety and Intergovernmental and Military Affairs on S.B. No. 223**

The purpose and intent of this measure is to establish the Hawaii Opportunity Probation with Enforcement (HOPE) Program statewide.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Substance Abuse Coalition, and four individuals. Your Committee received testimony in opposition to this measure from the Judiciary, Office of the Public Defender, Office of the Prosecuting Attorney for the County of Kaua'i, and six individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that in 2004, Hawaii was the first state in the nation to develop a high-intensity, collaborative probation strategy to effect behavioral change in higher-risk, higher-need felony probationers. The State has had substantial success with the HOPE Program, with participating probationers being fifty-five percent less likely to be arrested for a new crime, seventy-two percent less likely to use drugs, sixty-one percent less likely to miss appointments with supervisory officers, and fifty-three percent less likely to have their probation revoked. The program is also cost-effective, since a single dedicated judge can supervise more than two thousand felony probationers. Your Committee believes that, given these successes, this program should be implemented in a format that has already proven effective. This measure will promote efficiency in the criminal justice system, reduce the number of crimes committed and the need for long-term incarceration, and increase productivity, self-esteem, and overall well-being for probationers by establishing the HOPE Program in each county with a population greater than five hundred thousand.

Your Committee has amended this measure by:

- (1) Limiting the implementation of the HOPE Program to counties with a population greater than five hundred thousand;
- (2) Clarifying that while courts shall retain the discretion to look at all the facts and circumstances in each case to fashion the appropriate sentence, the court shall typically follow the sentencing guidelines of the HOPE Program unless otherwise warranted;
- (3) Clarifying that if a court finds that enlargement of the conditions of probation or deferral is warranted, the court shall typically enlarge the participant's sentence pursuant to the sentencing guidelines of the HOPE Program;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 257 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 1230**

The purpose and intent of this measure is to:

- (1) Establish the criminal offense of carrying a firearm in a sensitive location;
- (2) Require the Attorney General to publish an annual report on licenses to carry firearms;
- (3) Prohibit issuing authorities from issuing permits to acquire the ownership of a firearm to any person where the issuance would not be in the interest of the public health, safety, or welfare because the person is found to be lacking the essential character or temperament necessary to be entrusted with a firearm;
- (4) Require issuing authorities to consider the risks associated with firearms in the home and consider the likelihood an applicant would bring the firearm outside of the home to engage in violence or carry unlawfully in public;
- (5) Set minimum requirements for an applicant for a license to carry a concealed firearm;
- (6) Increase requirements for applicants seeking a license to carry a concealed firearm; and
- (7) Require firearms to be kept in a locked container and out of plain view when in an unattended vehicle.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Transportation; Department of Transportation Services of the City and County of Honolulu; one member of the Hawai'i County Council; Brady Campaign to Prevent Gun Violence; Church of the Crossroads United Church of Christ; Students Demand Action; Hawai'i Children's Action Network Speaks!; Hawai'i State Coalition Against Domestic Violence; Moms Demand Action for Gun Sense in America, Hawaii Chapter; Everytown for Gun Safety; Hawaii Coalition to Prevent Gun Violence; Giffords Law Center to Prevent Gun Violence; Retail Merchants of Hawaii; Hawaii Credit Union League; Institute for Human Services, Inc.; Indivisibles of Hawaii; Healthcare Association of Hawaii; Hawaii Bankers Association; and over one hundred twenty-five individuals. Your

Committee received testimony in opposition to this measure from The National Rifle Association of America, Hawaii Firearms Coalition, Firearm Training Certification School, Pu'uloa Rifle and Pistol Club, and over one hundred thirty individuals. Your Committee received comments on this measure from the Department of Law Enforcement, Honolulu Police Department, Hawaii Primary Care Association, Ho'opono Na Mea Ola, and two individuals.

Your Committee finds that there are compelling interests in protecting public health, safety, and welfare from the serious hazards associated with firearms and gun violence. Despite this, there will be a significant increase in the presence of firearms in public, with more individuals carrying concealed weapons in Hawaii than ever before in the State's history due to *New York State Rifle and Pistol Association v. Bruen*, 142 S. Ct. 2111 (2022), where the United State Supreme Court held that licenses to carry a firearm shall be granted unless there is an objective statutory basis requiring denial. However, states still retain the authority to enact a variety of gun regulations, such as prohibiting the carrying of firearms in sensitive locations and adopting laws to ensure that those who carry firearms are law-abiding, responsible citizens. Your Committee believes that the State's firearms laws should be updated to address the serious hazards to public safety posed by firearms and gun violence. This measure will mitigate the serious hazards to public health, safety, and welfare associated with firearms and gun violence while respecting and protecting the lawful exercise of individual rights by clarifying, revising, and reframing Hawaii's firearms laws.

Your Committee has amended this measure by:

- (1) Adding legislative findings;
- (2) Establishing the offense of carrying a firearm on the private property of another person without authorization;
- (3) Prohibiting a person granted a license to carry a concealed firearm in accordance with title 18 United States Code section 926B or 926C from carrying a firearm in a sensitive location or on the private property of another person without authorization;
- (4) Clarifying that the private property of another person without express authorization to carry firearms on the property is not a sensitive location;
- (5) Clarifying that "guard" has the same meaning as in section 463-1, Hawaii Revised Statutes;
- (6) Clarifying that the exceptions to the prohibition against carrying a firearm in a sensitive location or on the private property of another person without authorization shall constitute defenses on which a defendant bears an initial burden of production;
- (7) Clarifying that a person guilty of carrying a firearm in a sensitive location or on the private property of another person without authorization shall be subject to revocation of their license to carry a firearm under section 134-13, Hawaii Revised Statutes, not just their license to carry a concealed firearm;
- (8) Defining "private property of another person without authorization";
- (9) Including the following under the definition of "sensitive location":
  - (A) Grounds and parking areas adjacent to certain sensitive locations;
  - (B) Buildings, classrooms, laboratories, artistic venues, or athletic fields or venues at public or private colleges or universities;
  - (C) Carnivals and aquariums;
  - (D) Any portion of a building or office owned, leased, or used by the State or a county for legislative business, contested case hearings, agency rulemaking, or other government activities;
  - (E) Public assemblies, demonstrations, marches, rallies, vigils, protests, and picketing events;
  - (F) Paratransit vans;
  - (G) Bus shelters;
  - (H) Any place at which a professional, collegiate, high school, amateur, or student sporting event is being held; and
  - (I) Health care clinics;
- (10) Excluding authorized target ranges and shooting complexes from the definition of "sensitive locations";
- (11) Deleting omnibuses from the definition of "sensitive locations";
- (12) Inserting language to require a person carrying a firearm in public to maintain insurance coverage;
- (13) Inserting language to require that when a person carrying a firearm is stopped by a law enforcement officer or is a driver or passenger in a vehicle stopped by a law enforcement officer, the person shall immediately disclose to the law enforcement officer that the person is carrying a firearm and, upon request, identify the specific location of the firearm and present to the law enforcement officer a license or credentials to carry a firearm;
- (14) Inserting definitions for "concealed" and "unconcealed" when used in relation to firearms;
- (15) Amending the definition of "crime of violence" to include endangering the welfare of a minor in the second degree, terroristic threatening in the second degree; reckless endangering in the second degree, criminal solicitation of a crime of violence, conspiracy to commit a crime of violence, and comparable offenses under federal law, the law of another state, a United States territory, or the District of Columbia;
- (16) Requiring the chief of police of the respective counties to issue permits to acquire or carry firearms to nationals or lawful permanent residents of the United States;

- (17) Requiring a permit to acquire a firearm be impounded and surrendered to the issuing authority if the permittee is arrested for committing a crime relating to the distribution of any drug;
- (18) Deleting language that would have required authorities issuing a permit to acquire the ownership of a firearm to consider whether the applicant has been subject to any recent arrests or criminal charges for disqualifying crimes and instead requiring issuing authorities to consider whether the applicant has been subject to any recent arrests or criminal charges generally;
- (19) Providing that the appeal process for the denial or revocation of an application for a permit to acquire the ownership of a firearm or to carry a concealed firearm shall be administered by the appropriate county police department;
- (20) Prohibiting a person who is a fugitive from justice or otherwise prohibited from possessing a firearm under title 18 United States Code section 922 or any other provision of federal law from owning, possessing, or controlling a firearm or ammunition;
- (21) Prohibiting a person who has one or more pending charges for a felony, crime of violence, or an illegal sale or distribution of any drug from owning, possessing, or controlling a firearm or ammunition;
- (22) Clarifying that a person acquitted of a crime on the grounds of mental disease, disorder, or defect under section 704-411, Hawaii Revised Statutes, or any similar provision under federal law, the law of another state, a United States territory, or the District of Columbia is prohibited from owning, possessing, or controlling a firearm or ammunition;
- (23) Inserting language prohibiting a person treated for a medical, behavioral, psychological, emotional, or mental condition or disorder that is likely to cause impairment in judgment, perception, or impulse control to an extent that presents an unreasonable risk to public health if the person were in possession or control of a firearm or ammunition from owning, possessing, or controlling a firearm or ammunition;
- (24) Inserting language prohibiting a person who is an incapacitated person, as defined by section 560:5-102, Hawaii Revised Statutes, or has been adjudged to meet the criteria for involuntary hospitalization under section 334-60.2, Hawaii Revised Statutes, from owning, possessing, or controlling a firearm or ammunition;
- (25) Prohibiting a person from owning, possessing, or controlling a firearm or ammunition if the person has committed a crime of violence or a crime for the distribution of any drug;
- (26) Inserting language allowing a person who was prohibited from owning, possessing, or controlling a firearm or ammunition for having been convicted of a felony, crime of violence, or illegal sale or distribution of any drug to own, possess, or control a firearm or ammunition if twenty years have elapsed from the date of the conviction;
- (27) Replacing the terms "weapon" or "handgun" with "pistol or revolver" or "firearm" as necessary;
- (28) Prohibiting an authority from issuing a license to carry a pistol or revolver if the applicant has one or more pending charges or a conviction in the previous ten years for an illegal sale or distribution of any drug;
- (29) Allowing authorities issuing licenses to carry a pistol or revolver to consider whether the applicant is a person likely to use a firearm to threaten others;
- (30) Requiring applications for a license to carry a concealed firearm to contain text of the duty under state law to maintain possession of a license while carrying a firearm and the duty to disclose the possession of a firearm to a law enforcement officer;
- (31) Requiring that a person who intentionally, knowingly, or recklessly fails to keep a pistol or revolver in a locked container and out of plain view while leaving the pistol or revolver in an unattended vehicle be subject to certain penalties;
- (32) Defining when a vehicle is unattended for the purposes of determining where persons are required to keep a pistol or revolver;
- (33) Inserting language that allows county police departments to conduct criminal history record checks for licenses to carry a pistol or revolver and ammunition pursuant to section 134-9, Hawaii Revised Statutes;
- (34) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (35) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1230, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 258 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1447**

The purpose and intent of this measure is to:

- (1) Clarify that county ordinances or regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices are null and void only if they are in direct conflict with or less stringent than the provisions in chapter 328J, Hawaii Revised Statutes; and
- (2) Clarify that counties retain the authority to adopt ordinances that regulate the sale of cigarettes, tobacco products, and electronic smoking devices, as long as the ordinances are more stringent than the provisions in chapter 328J, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i State Association of Counties, one member of the Hawai'i County Council, Hawai'i Primary Care Association, American Heart Association, Hawaii COPD Coalition, American Cancer Society Cancer Action Network, American Lung Association Hawaii, Papa Ola Lokahi, Campaign for Tobacco-Free Kids, Hawai'i Public Health Institute, and fourteen individuals. Your Committee received testimony in opposition to this measure from Consumer Choice Center; Hi Five Ohm Vape Co., LLC; Americans for Tax Reform; VOLCANO Vape Shops; Savage Vapes 808 INC.; Hawaii Smokers Alliance; Aloha Petroleum; Minit Stop; Par Hawaii; Hui K., LLC; Retail Merchants of Hawaii; and thirty-two individuals.

Your Committee finds that tobacco use remains the leading cause of preventable death in the United States, including Hawaii. Additionally, the rate of tobacco use among the youth has continued to increase to epidemic levels, with 48.3 percent of public high school students having tried using electronic smoking devices. Your Committee believes that a flexible regulation system is needed to address the multibillion-dollar marketing campaigns of tobacco companies focused on our youth. This measure will allow all levels of government, including counties, to quickly address youth tobacco use by clarifying that county ordinances or regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices are null and void only if they are in direct conflict with or less stringent than the relevant provisions in state law and clarifying that counties retain the authority to adopt ordinances that regulate the sale of cigarettes, tobacco products, and electronic smoking devices, as long as the ordinances are more stringent than the relevant provisions in state law.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1447 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 259      Judiciary on S.B. No. 1538**

The purpose and intent of this measure is to appropriate moneys to the Judiciary for capital improvement projects for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that, as received by your Committee, this measure would authorize the issuance of general obligation bonds and appropriate \$16,225,000 to the Judiciary for capital improvement projects throughout the State.

Your Committee has amended this measure by appropriating an additional \$5,000,000 in general obligation bond funds for the Kaahumanu Hale elevator systems upgrades and modernization project on Oahu.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1538, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 260      Judiciary on S.B. No. 1543**

The purpose and intent of this measure is to:

- (1) Establish a comprehensive system of public financing for all candidates seeking election to state and county public offices in the State of Hawaii, to begin with the 2024 general election year;
- (2) Require the Campaign Spending Commission to submit a report to the Legislature; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, Democratic Party of Hawaii District 8, Legislative Committee of the Democratic Party of Hawai'i, Pono Hawaii Initiative, Hawai'i Workers Center, Common Cause Hawaii, Global HOPE, HULI PAC, Our Hawai'i, Free Access Coalition, Chamber of Sustainable Commerce, HOPE Services Hawai'i, Washington for Equitable Representation, one senator from the Maine Senate, and one hundred twenty individuals. Your Committee received testimony in opposition to this measure from seven individuals.

Your Committee finds that providing a mechanism to fully fund the elections of candidates for state and county offices who voluntarily agree to abide by campaign fundraising and expenditure guidelines will have significant public benefit. The common belief is that the current campaign finance system used in Hawaii (and most other states) unfairly favors a small handful of wealthy donors who use their donations to buy access to candidates and elected officials. Comprehensive, publicly-funded campaign programs are intended to improve the process by allowing candidates to compete without reliance on private funds and correspondingly by allowing elected officials to make decisions without the influence, or appearance of influence, of private individuals, lobbyists, political parties, political action committees, unions, corporations, and other entities. This measure will increase public confidence in the State's candidates and elected officials.

Your Committee has amended this measure by:

- (1) Specifying that the minimum qualifying contributions for the Office of State Senator is two hundred fifty rather than two hundred;
- (2) Specifying that the minimum qualifying contributions for the Office of State Representative is one hundred twenty-five rather than one hundred;

- (3) Requiring the Campaign Spending Commission to submit a progress report to the Legislature no later than forty days prior to the Regular Session of 2024;
- (4) Requiring the Campaign Spending Commission to submit a final report to the Legislature no later than forty days prior to the Regular Session of 2026; and
- (5) Inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1543, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1543, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 261      Judiciary on S.B. No. 170**

The purpose and intent of this measure is to:

- (1) Establish a Zero to Three Court Program Coordinator position in the Third Circuit;
- (2) Expand the Zero to Three Court to the Third Circuit; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the Judiciary and Department of Human Services.

Your Committee finds that the period between birth and three years of age is critical to the healthy development of a child. Your Committee further finds that instability and trauma in the life of a child during the early formative period can interrupt healthy patterns of growth and development, resulting in increased risk for numerous behavioral and developmental problems that can detrimentally impact the child's future. Your Committee additionally finds that the Zero to Three Court has been established by the Judiciary to meet the needs of very young children whose parents are involved in Family Court. This measure provides funds to expand the Zero to Three Court Program into the Third Circuit so that the children in the County of Hawaii may live in healthy and safe environments.

Your Committee has amended this measure by replacing the appropriation amount of \$75,588 with a blank appropriation amount.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 262      Judiciary on S.B. No. 1240**

The purpose and intent of this measure is to:

- (1) Establish the offense of bribery of an elected official or department head as a class B felony with a maximum monetary penalty of up to \$250,000;
- (2) Require the Commission on Salaries to consider certain factors to retain qualified individuals and deter corruption and bribery; and
- (3) Amend the effective dates of recommended salary increases.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Campaign Spending Commission, Department of Human Resources Development, Honolulu Police Department, and ten individuals.

Your Committee finds that public servants are in positions of public trust. Therefore, deterrence of bribery and corruption of public servants should be a high priority. Your Committee further finds that existing law relating to bribery caps the fines for bribery at \$25,000, while the federal cap is \$250,000. This measure increases the cap on fines for bribery, which will deter corruption and ensure the public's trust in the state government.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the offense of bribery of an elected official;
- (2) Specifying that a public servant convicted of committing the offense of bribery shall be sentenced to pay a fine of up to \$250,000;
- (3) Incorporating the Department of the Attorney General's recommendation to clarify that the imposition of the fine is in addition to any sentence of imprisonment or probation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the definition of public servant is broad and includes any officer or employee of any branch of government, whether elected, appointed, or otherwise employed and any person participating as advisor, consultant, or otherwise, in performing a governmental function, but the term does not include jurors or witnesses.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1240, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 263 Water and Land on S.B. No. 74**

The purpose and intent of this measure is to establish additional exclusions from the definition of “development” as it applies to special management areas to reduce the need for special management area permits for certain activities.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development, Department of Land and Natural Resources, Hawai‘i State Association of Counties, Maui Chamber of Commerce, and one member of the Maui County Council.

Your Committee finds that targeted amendments to the definition of “development” as it relates to special management areas will promote, not undercut, the environmental controls and quality that special management area regulations are intended to protect. Currently, the broad definition of “development” can result in a special management area use permit review being required for improvements, facilities, and incidental structures that may not warrant such intense scrutiny nor the economic burdens of the rising costs of labor, building materials, and delays that go along with it. Therefore, this measure establishes additional exclusions from the definition of “development” as it applies to special management areas.

Your Committee has heard the testimony of the Hawai‘i State Association of Counties, stating that when the definition of “development” under the special management area was amended by Act 153, Session Laws of Hawaii 2011, single-family residences less than seven thousand five hundred square feet of floor area were arbitrarily excluded.

Therefore, your Committee has amended this measure by:

- (1) Deleting the square foot threshold for single-family residences excluded from the definition of “development” and authorizing each county to further define “single-family residence” by zoning ordinance;
- (2) Clarifying that Hawaiian traditional and customary practices are excluded from the definition of “development”;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 74, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 74, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 264 Water and Land on S.B. No. 85**

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to perform a study to refine rural district policies and make recommendations to facilitate the reclassification of lands from the agricultural district to the rural district.

Your Committee received testimony in support of this measure from the Office of the Governor, Office of Planning and Sustainable Development, and Hawai‘i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State and counties have not made effective use of the state rural land use district, one of four districts established by the state land use law in chapter 205, Hawaii Revised Statutes. Currently, there are 10,454 acres in the rural district, which amount to 0.3 percent of all lands in the State, and there are no rural district lands on Oahu. Your Committee further finds that there is potential for greater use of the rural district to differentiate rural communities and lifestyle farms from working or commercial agricultural lands and to enable better protection of productive agricultural lands and the open space character of Hawaii’s rural areas. Therefore, this measure requires the Office of Planning and Sustainable Development to perform a study to refine rural district policies and make recommendations to facilitate the reclassification of lands from the agricultural district to the rural district.

Your Committee has heard the testimony of the Department of Agriculture, noting that this measure closely resembles S.B. No. 1292, Regular Session of 2023, which is a measure submitted by the Governor. The Department testified that S.B. No. 1292 is a more comprehensive vehicle with language that is better suited to set forth the study and assessment required by this measure.

Therefore, your Committee has amended this measure by:

- (1) Replacing the language that sets forth the study and assessment with the language from S.B. No. 1292;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 85, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 85, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 265 Water and Land on S.B. No. 469**

The purpose and intent of this measure is to authorize the counties to reclassify lands fifteen to one hundred acres in certain rural, urban, and agricultural districts in which at least fifty percent of the housing units on the land sought to be reclassified are set aside for persons and families with incomes at or below one hundred forty percent of the area median income.

Your Committee received testimony in support of this measure from the Office of the Governor, Hawaii Housing Finance and Development Corporation, Office of Housing and Community Development of the County of Hawai'i, Hawai'i Association of REALTORS, Building Industry Association of Hawaii, and Maui Chamber of Commerce. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Sierra Club of Hawai'i, Hawai'i Farm Bureau, Kupuna for the Mo'opuna, Grassroot Institute of Hawaii, Livable Hawaii Kai Hui, and eleven individuals. Your Committee received comments on this measure from the Office of Planning and Sustainable Development, Department of Agriculture, and Land Use Commission.

Your Committee finds that Hawaii has been struggling with the issue of affordable housing for decades. According to the Department of Business, Economic Development, and Tourism report "Measuring Housing Demand in Hawaii, 2015-2025", the forecast demand for additional housing units in the counties totals 64,693 during the 2015 through 2025 period. Your Committee recognizes the immense housing supply problem in the State and that creative solutions are needed to build more housing at all price points.

Your Committee further finds that the Land Use Commission has the authority over district boundary amendment petitions involving the reclassification of lands in the conservation district, land areas greater than fifteen acres, and lands delineated as important agricultural land. Your Committee finds, however, that the Land Use Commission process can be expensive, burdensome, and lengthy and that enabling the counties to instead reclassify certain lands intended for affordable housing development will make larger scale projects economically feasible. Therefore, this measure authorizes the counties to reclassify lands fifteen to one hundred acres in certain rural, urban, and agricultural districts in which at least fifty percent of the housing units on the land sought to be reclassified are set aside for persons and families with incomes at or below one hundred forty percent of the area median income.

Your Committee has heard the testimony of the Land Use Commission expressing concerns that this measure's parameters for affordable housing units would not be helpful for its intended demographic, such as nurses and teachers. Further, the Land Use Commission testified that expanding the counties' jurisdiction to lands up to one hundred acres goes too far and could jeopardize the Land Use Commission's ability to effectuate the State's broader policy and planning goals.

Therefore, your Committee has amended this measure by:

- (1) Requiring that at least seventy-five percent of the housing units under this measure be set aside for persons at or below one hundred percent of the area median income level, in place of the requirement of fifty percent of housing units for persons at or below one hundred forty percent of the area median income level;
- (2) Replacing the acreage range that establishes the counties' district boundary amendment reclassification authority over certain rural, urban, and agricultural lands of fifteen to one hundred acres, with fifteen to fifty acres;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 469, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 469, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 266 (Joint) Water and Land and Housing on S.B. No. 140**

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to identify and analyze existing and projected housing needs and identify adequate sites for housing sufficient to meet housing demands for all income levels each year.

Your Committees received testimony in support of this measure from the Hawai'i Association of REALTORS, Maui Chamber of Commerce, one member of the Kaua'i County Council, and one individual. Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that the State has a housing crisis. According to a 2019 study commissioned by the Department of Business, Economic Development, and Tourism, the State will require an additional 50,156 homes by the year 2025, with the City and County of Honolulu requiring 22,168 new units, the County of Hawaii requiring 13,303 new units, the County of Maui requiring 10,404 new units, and the County of Kauai requiring 4,281 new units. Your Committees further find that having the Office of Planning and Sustainable Development study and create a strategic plan identifying adequate sites for housing will help the State address its housing challenges now and in the future. Therefore, this measure requires the Office of Planning and Sustainable Development to identify and analyze existing and projected housing needs and identify adequate sites for housing sufficient to meet housing demands for all income levels each year.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount for one full-time equivalent (1.0 FTE) position for the Office of Planning and Sustainable Development; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 140, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 140, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Water and Land: Ayes, 5. Noes, none. Excused, none.  
 Housing: Ayes, 5. Noes, none. Excused, none.

**SCRep. 267 (Joint) Water and Land and Agriculture and Environment on S.B. No. 1521**

The purpose and intent of this measure is to:

- (1) Require the Office of Planning and Sustainable Development to create an integrated land use plan for the State's agricultural districts;
- (2) Require the Hawaii State Energy Office, Department of Agriculture, Department of Land and Natural Resources, Department of Transportation, and Hawaii Tourism Authority to update various state functional plans; and
- (3) Require the counties to update their general plans.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Land Use Commission, Hawai'i Farmers Union United, Ulupono Initiative, Hawai'i Gas, and one individual. Your Committees received comments on this measure from the Office of Planning and Sustainable Development, Department of Agriculture, and Hawaii State Energy Office.

Your Committees find that Hawaii is challenged by the need to address the scarcity of land and the issue of competing uses and needs for development, production, and preservation within its agricultural districts. However, your Committees also find that as various goals and targets involving agricultural lands have been established over time--relating to land use, energy, climate, sustainability, affordable housing, food security, and water scarcity--a comprehensive and integrated review is needed to properly assess and track the State's progress in meeting its goals. Therefore, this measure requires the Office of Planning and Sustainable Development to create an integrated land use plan for the State's agricultural districts and requires certain agencies and the counties to update their respective functional plans to assist the Office in carrying out the purpose of this measure.

Your Committees have heard the testimony of the Department of Land and Natural Resources requesting that this measure's language requiring the Department to update the state functional plan on conservation be stricken, as the original conservation plan was merely a short-term planning document from 1991 that focused on budget needs. The Department testified that it currently provides reports pursuant to Act 100, Session Laws of Hawaii 1999, that would be valuable in assisting the Office of Planning and Sustainable Development to achieve the intent of this measure.

Your Committees have also heard the testimony of the Office of Planning and Sustainable Development proposing various substantive and technical amendments, including that counties should not be required to update their general plans, community plans, and other land use project proposals because they are already required for conformance with sections 226-52 and 226-58, Hawaii Revised Statutes.

Therefore, your Committees have amended this measure by:

- (1) Removing language that would have required the Department of Land and Natural Resources to update the state functional plan on conservation;
- (2) Revising the preamble language in section 1;
- (3) Codifying the integrated land use study requirements within part II of chapter 226, Hawaii Revised Statutes, rather than a new part;
- (4) Renaming the "integrated land use plan" as the "integrated land use study" for clarity, distinguishing between the integrating land use planning process and functional plan updates;
- (5) Requiring the integrated land use study to consider the 2022 state land use review of districts; Hawaii State Plan Update: Phase 1; and the soil classification study required pursuant to Act 189, Session Laws of Hawaii 2022;
- (6) Requiring the functional plan on tourism updated by the Hawaii Tourism Authority to align with the destination management action plans;
- (7) Clarifying that updates to functional plans shall align with the State's twenty-first century climate and sustainability targets;
- (8) Requiring that functional plan amendments align with the Hawaii State Plan Update: Phase 1;
- (9) Deleting language requiring the counties to update their general plans, community plans, and other land use project proposals and deleting the appropriations made to the counties for this purpose;
- (10) Adding a geographic information systems specialist (1.0 FTE) position to support the Office of Planning and Sustainable Development develop definitive data and changing the appropriation amount from \$530,000 to \$700,000 for fiscal year 2023-2024;
- (11) Inserting an effective date of July 1, 2050, to encourage further discussion; and

(12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1521, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1521, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

**SCRep. 268 Water and Land on S.B. No. 68**

The purpose and intent of this measure is to amend the definition of "historic property" to require that the property meets the criteria for inclusion in the Hawaii Register of Historic Places.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Land and Natural Resources, Hawaii Association of REALTORS, and Historic Hawai'i Foundation. Your Committee received testimony in opposition to this measure from the Society for Hawaiian Archaeology, Sierra Club of Hawai'i, and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that what makes a historical building special is not necessarily its age, but its context. Your Committee further finds that when age alone is used as the measure of a property's historical value, what is ignored is the property's relationship to events and people, its architectural distinction, and other valuable historic, scientific, and cultural information. Therefore, this measure amends the definition of "historic property" to require that the property be over fifty years old and also meet the criteria for inclusion in the Hawaii Register of Historic Places.

Your Committee has heard the testimony of the Department of Land and Natural Resources noting that there is strong feeling among some Native Hawaiians that the criteria for inclusion in the Hawaii Register of Historic Places does not apply to some of the places of most concern to them.

Therefore, your Committee has amended this measure by

- (1) Allowing property that does not meet the criteria for inclusion in the Hawaii Register of Historic Places to be considered "historical property" if it has important value to Native Hawaiians or other ethnic groups of the State due to associations with cultural practices once carried out, or still carried out, at the property or associations with traditional beliefs, events, or oral accounts that are important to history, traditional practices, and cultural identity;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 68, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 68, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 269 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 116**

The purpose and intent of this measure is to authorize the issuance of special number plates to commemorate Duke Kahanamoku.

Your Committees received testimony in support of this measure from the Hawaii Aquatics Foundation, Outrigger Duke Kahanamoku Foundation, a petition signed by thirty-two individuals, and one individual.

Your Committees find that Duke Kahanamoku was one of the first internationally recognized Native Hawaiians with a multitude of achievements that have contributed greatly to Hawaii's favorable international reputation. Furthermore, Duke Kahanamoku was an all-around waterman, lifeguard and lifesaver, swim record-setter, swim and surfer instructor, five-time Olympic medalist in swimming and water polo, sheriff of the City and County of Honolulu, and Hawaii's original Ambassador of Aloha. Therefore, this measure will authorize the issuance of special number plates to commemorate and honor Duke Kahanamoku.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 116 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 270 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 117**

The purpose and intent of this measure is to authorize the issuance of special number plates to commemorate Carissa Kainani Moore.

Your Committees received testimony in support of this measure from the Outrigger Duke Kahanamoku Foundation and one individual.

Your Committees find that, during the first Olympic surfing competition in the Tokyo 2020 Summer Olympics, Carissa Kainani Moore ably represented Hawaii with grace and power as she became the first Olympic gold medalist in Olympic surfing history. Furthermore, she was a multi-year women's surfing champion and an advocate for numerous charitable causes, including her support of local surf clubs, gender equity, and awareness of eating disorders. Your Committees further find that Carissa Kainani Moore is a role model for keiki and an Ambassador of Aloha for the State. Therefore, this measure will authorize the issuance of a special number plate to, not only recognize the achievements of Carissa Kainani Moore, but to also raise funds to support programs addressing gender equity across the State.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 117 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 271 (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1090**

The purpose and intent of this measure is to:

- (1) Establish requirements for number plates issued for zero-emission, hybrid, and gasoline-powered vehicles beginning January 1, 2025;
- (2) Require the continued use of the rainbow number plate design for hybrid and gasoline-powered vehicles;
- (3) Require the Department of Transportation to adopt or amend its administrative rules to authorize the use of high-occupancy vehicle lanes by zero-emission vehicles; and
- (4) Repeal any provision authorizing the use of high-occupancy vehicle lanes by zero-emission vehicles and electric vehicles on January 1, 2035.

Your Committees received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Customer Services of the City and County of Honolulu.

Your Committees find that Hawaii's rainbow license plate design is nearing the end of its current numbering pattern and will need to be changed. Additionally, the proliferation and adoption of electric vehicles is growing exponentially, with many major car manufacturers phasing out gasoline-powered cars completely by 2035. The rapid growth of electric vehicles in the State impacts the temporary electric vehicle license plate numbering scheme. Therefore, the renumbering, replacing, and redesigning of license plates for certain vehicles is necessary to ensure continuity and timely issuance of license plates.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1090 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 272 (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1082**

The purpose and intent of this measure is to:

- (1) Require all parking lots with public paid parking spaces in the State to accept payment of parking fees by credit card and debit card;
- (2) Require all parking meters that collect parking fees for any public paid parking space in the State to be maintained in working order to accept payment by cash, credit card, and debit card beginning January 1, 2025;
- (3) Require counties to adopt ordinances to enforce these requirements, including the establishment of penalties for failure to comply; and
- (4) Define "motor vehicle", "public parking space", and "parking meter".

Your Committees received testimony in support of this measure from the Department of Accounting and General Services and two individuals. Your Committees received comments on this measure from the Department of the Attorney General and Department of Transportation Services of the City and County of Honolulu.

Your Committees find that as the world transitions to digital forms of payment, more people utilize credit or debit cards to make daily purchases. However, certain parking meters across the State continue to collect cash or coins only, creating a cumbersome experience for residents and visitors who primarily utilize credit or debit cards and mobile applications. Implementing credit or debit card payment parking meters for all paid public parking spaces at parking lots may alleviate issues for residents and visitors and expand access at public parking meters across the State.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the counties to adopt ordinances to enforce parking meter payments by credit and debit card;
- (2) Requiring the Department of Accounting and General Services, City and County of Honolulu, County of Maui, County of Kauai, and County of Hawaii to submit annual reports to the Legislature on their progress to implement paid parking meters accepting credit and debit card payments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1082, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 273      Ways and Means on S.B. No. 734**

The purpose and intent of this measure is to establish and appropriate moneys for an inter-division program in the Department of Land and Natural Resources, in collaboration with the Office of Hawaiian Affairs, to locate, move, and restore Hawaiian burial sites and iwi that are exposed, or likely to be exposed, by coastal erosion.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, International Archaeological Research Institute, and one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Society for Hawaiian Archaeology, and one individual.

Your Committee finds that this measure will provide the resources and coordination to effectively and proactively protect Hawaiian burial sites and iwi that are threatened by coastal erosion and climate change.

Your Committee acknowledges testimony from the Office of Hawaiian Affairs recommending that the Department of Land and Natural Resources cover costs related to the movement and relocation of iwi impacted by coastal erosion until recommendations can be made by the inter-division program to appropriately allocate alternative funding sources, and until the State Historic Preservation Division alters its rules to enable the sharing of historic preservation program responsibilities.

Your Committee also acknowledges testimony from the Department of Land and Natural Resources estimating that an appropriation of at least \$250,000 will be needed to implement the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 734, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 274      Commerce and Consumer Protection on S.B. No. 113**

The purpose and intent of this measure is to:

- (1) Clarify that in calculating whether a product labeled "Made in Hawaii" has met the requirement that at least fifty-one percent of the wholesale value of the product is added by manufacture, processing, or production within the State, operating and overhead expenses incurred and spent within the State shall be included; and
- (2) Appropriate funds to promote and develop the "Made in Hawaii" brand.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received comments on this measure from Retail Merchants of Hawaii.

Your Committee finds that under existing law, craft items sold or offered for sale in the State that are labeled as "Made in Hawaii" must have at least fifty-one percent of its wholesale value added by manufacture, assembly, fabrication, or production within the State. However, it is unclear what expenses may be attributed to the "production" of a craft item for the purposes of meeting the fifty-one percent threshold. This measure clarifies that the operating and overhead expenses incurred in producing a craft item are included in calculating whether it qualifies for the "Made in Hawaii" label.

Your Committee acknowledges the testimony of the Department of Business, Economic Development, and Tourism (DBEDT), which notes that the clarification made by this measure applies only to the Department of Agriculture's "Made in Hawaii" labeling program and does not address DBEDT's similar "Hawaii Made" labeling program. The requirements for the "Hawaii Made" program are nearly identical to the "Made in Hawaii" program and therefore, any amendments made to one program should also be made to the other.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language amending section 201-3.5, Hawaii Revised Statutes, to apply the production requirements to DBEDT's "Hawaii Made" program for non-perishable goods; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 275 Commerce and Consumer Protection on S.B. No. 745**

The purpose and intent of this measure is to:

- (1) Expand the offense of false labeling of Hawaii-grown coffee to include roasted coffee;
- (2) Impose a \$10,000 fine for each separate offense of false labeling of Hawaii-grown roasted coffee; and
- (3) Appropriate funds for one full time equivalent (1.0 FTE) enforcement position within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Coffee Association; Kona Coffee Farmers Association; Hawai'i Farm Bureau; Hawaii Coffee Company, LLC; Pohaku Farm, LLC; and three individuals.

Your Committee finds that Hawaii's coffee industry is the State's second most lucrative agricultural crop. Hawaii-grown coffee is among the highest priced coffee sold anywhere in the world, due to its cost of production and reputation for outstanding quality. As such, counterfeiters falsely label less expensive coffees as originating from Hawaii in order to sell cheaper coffee at a premium. Existing law imposes penalties for the false labeling of Hawaii-grown coffee in cherry and parchment form; however, the false labeling of coffee occurs almost exclusively in roasted coffee. Roasted coffee falsely labeled as Hawaii-grown coffee is priced below the cost of genuine Hawaii-grown coffee, thus creating downward price pressure and value depreciation in the marketplace. This measure extends the offense of false labeling of Hawaii-grown coffee to include roasted coffee, adds a mandatory fine of \$10,000 for each offense of false labeling of Hawaii-grown coffee, and appropriates funds to establish one full-time equivalent position for labeling and packaging enforcement and inspection.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 745, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 276 Transportation and Culture and the Arts on S.B. No. 1506**

The purpose and intent of this measure is to:

- (1) Establish a Safe Routes for People Implementation Program and Safe Routes for People Implementation Committee to develop strategies and facilitate transportation-related projects that ensure the safety of keiki and kupuna using ground transportation facilities;
- (2) Establish a Safe Routes for People Special Fund;
- (3) Allow State Highway Fund funds to be expended to establish protected walkways;
- (4) Increase the minimum amount of State Highway Funds required to be expended by the Department of Transportation on ground transportation projects from two percent to five percent; and
- (5) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii State Council on Developmental Disabilities; Hawai'i Climate Change Mitigation and Adaptation Commission; Honolulu Police Department; one member of the Honolulu City Council; Ulupono Initiative; 'Ahahui o nā Kauka; Hui o Ho'ohonua; Kauai Path, Inc.; Get Fit Kaua'i; Hawaii Bicycling League; AARP Hawai'i; Hawai'i Children's Action Network Speaks!; Bikeshare Hawaii; Hawai'i Public Health Institute; and fourteen individuals. Your Committee received comments on this measure from the Department of Health and Department of Budget and Finance.

Your Committee finds that safety of all roadway users, including pedestrians, should be of paramount importance. Cities of similar population to the City and County of Honolulu have seen significant decreases in traffic-related fatalities, with some cities reporting near zero fatalities annually. Despite successful traffic safety measures elsewhere, traffic-related deaths and fatalities in Hawaii have significantly increased in the past decade. In 2022, there were one hundred seventeen traffic fatalities, which was an increase from ninety-four in 2021.

Your Committee further finds that ensuring safe routes to common places for keiki and kupuna will not only protect the State's most vulnerable road users, but planning and project design around safe routes will serve as a long-term investment in the future of transportation in the State. However, decades of automobile-centric planning and development created formidable barriers such as a lack of complete, safe, and comfortable bike and pedestrian networks; burdensome and complicated funding mechanisms for safe

routes projects; and a lack of coordination among state and county agencies with community-based organizations. To create safer communities across the State, the development and implementation of safe routes will better protect all pedestrians, bicyclists, and other users during their commute.

Your Committee has amended this measure by:

- (1) Authorizing the Safe Routes for People Implementation Program to develop projects authorized under the Safe Routes to School Program;
- (2) Authorizing the Safe Routes for People Implementation Committee to develop recommendations to facilitate efforts for communities to apply for projects, streamline project development and implementation, review project proposals, and prioritize projects under the Safe Routes to School Program;
- (3) Changing the composition of the Safe Routes for People Implementation Committee as follows:
  - (A) Removing the members representing each of the metropolitan planning organizations in the State;
  - (B) Adding one member representing the Hawaii State Council on Developmental Disabilities;
  - (C) Adding one member representing each county Department of Transportation; and
  - (D) Adding one member representing organizations that understand the ways families with young children navigate through the State;
- (4) Removing language that would have established a Safe Routes for People Special Fund in chapter 286, Hawaii Revised Statutes;
- (5) Repealing the county safe routes to school programs and replacing the counties' authority to provide safe routes to school funds with the Safe Routes for People Implementation Committee;
- (6) Clarifying that the Safe Routes to School Program shall not allocate less than ten percent nor more than thirty percent of Safe Routes for People funds intended for Safe Routes to School projects for non-infrastructure related activities;
- (7) Repealing the grant proposal process for the county safe routes to school programs;
- (8) Amending the Safe Routes to School Program Special Fund as follows:
  - (A) Renaming the special fund as the Safe Routes for People Special Fund;
  - (B) Clarifying the eligible funding sources for the special fund;
  - (C) Authorizing monies in the fund to be expended by the Department of Transportation to fund projects selected by the Safe Routes for People Implementation Committee under the Safe Routes for People Implementation Program and Safe Routes to School Program; and
  - (D) Requiring the Department of Transportation to submit annual reports to the Legislature regarding expenditures from the special fund;
- (9) Removing part II of the measure, relating to the use of the State Highway Fund for protected walkways;
- (10) Appropriating \$50,000,000 to the Department of Transportation to address bicycle and pedestrian facilities in state and county transportation systems;
- (11) Amending section 1 to reflect its amended purpose; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1506, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1506, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 277      Transportation and Culture and the Arts on S.B. No. 517**

The purpose and intent of this measure is to:

- (1) Authorize operators of motorcycles to utilize lane shoulders that are at least three-feet-wide with the concurrent use of emergency flashers; and
- (2) Require the Department of Transportation to create and implement traffic control devices to designate lane shoulders for motorcycle use during peak traffic hours.

Your Committee received testimony in support of this measure from Street Bikers United and one individual. Your Committee received testimony in opposition to this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, and Hawaii Bicycling League. Your Committee received comments on this measure from one individual.

Your Committee finds that the shoulder lane is utilized to accommodate a variety of roadway users, including stopped vehicles and emergencies; and on arterial roadways, bicyclists and pedestrians. In addition, other forms of multimodal transportation operating on time deadlines such as fixed route bus service, vanpools, and paratransit services for individuals with disabilities also utilize the

shoulder lanes. While authorizing motorcycles to travel in the shoulder lane may alleviate traffic for riders, safety of all roadway users is of paramount importance.

Your Committee has amended this measure by:

- (1) Clarifying that motorcycles are entitled to full use of the shoulder on interstate highways as authorized by the Department of Transportation;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 517, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 278 (Majority) Transportation and Culture and the Arts on S.B. No. 1502**

The purpose and intent of this measure is to require hourly peer-to-peer car sharing operators to insure the shared car at four times the personal injury protection benefit and basic liability coverage.

Your Committee received testimony in support of this measure from Getaround. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, Turo Inc., and Hawaii Association for Justice. Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that peer-to-peer car sharing services provide another mode of transportation for residents and tourists. Act 56, Session Laws of Hawaii 2022, established provisions to require peer-to-peer car sharing programs to ensure that during each car-sharing period, a shared car is insured under a policy that provides primary insurance coverage and property damage coverage. However, as the peer-to-peer car sharing industry is a newly regulated industry in the State, this measure ensures consumers and other road users have adequate insurance protections.

Your Committee has amended this measure by:

- (1) Inserting blank amounts for the minimum insurance rates required for hourly peer-to-peer car sharing operators;
- (2) Authorizing the Department of Transportation to regulate peer-to-peer car sharing parking at state airports;
- (3) Authorizing the counties to regulate peer-to-peer car share parking on county streets; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1502, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 279 (Joint/Majority) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 781**

The purpose and intent of this measure is to reduce administrative barriers to the deployment of energy generation and storage technology systems by requiring government entities in the State that issue building permits to implement SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real time by January 1, 2024.

Your Committees received testimony in support of this measure from the Hawaii Food Industry Association; Hawaii Solar Energy Association; Malama Solar; 350Hawaii; Tesla, Inc.; Ulupono Initiative; Sierra Club of Hawai'i; OceanHead Solar and Electric, LLC; Our Revolution Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Alternate Energy Hawaii; Fortress Power; Revolusun; Hawaii Environmental Change Agents; and thirty-eight individuals. Your Committees received testimony in opposition to this measure from the American Council of Engineering Companies of Hawaii and American Institute of Architects Hawaii. Your Committees received comments on this measure from the Hawaii State Energy Office; Board of Professional Engineers, Architects, Surveyors, and Landscape Architects; and Kaua'i Island Utility Cooperative.

Your Committees find that the current permitting process adds substantial time and cost to the adoption of residential solar and energy storage projects and that online permitting tools, such as the United States Department of Energy's SolarAPP+, have been successfully implemented by hundreds of government entities that issue building permits throughout the nation. Your Committees believe that to encourage the timely build-out of a diverse, resilient, and reliable portfolio of low-cost renewable energy generation and storage assets, Hawaii must lower the administrative barriers that constrain deployment of residential and commercial-scale distributed energy resources. This measure will reduce unnecessary delays for the installation of residential distributed energy resources by requiring government entities in the State that issue building permits to implement SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real time by January 1, 2024.

Your Committees have heard the concerns raised in testimony that section 4 of this measure may allow homeowners to avoid existing licensed professional requirements and build non-engineered or non-code compliant structures that may cause injury or loss of life. Your Committees also note concerns about potential safety risks resulting from a self-certification process for solar distributed energy resource systems. Your Committees find that these issues merit further consideration and request that your Committees on Commerce and Consumer Protection and Ways and Means further examine those issues and concerns, should they choose to deliberate on this measure.

Your Committees have amended this measure by:

- (1) Requiring a duly licensed electrician or duly licensed plumber who intends to install a solar distributed energy resource system to notify the applicable government entity that the system complies with all applicable codes and laws, including an executed interconnection agreement with the applicable electric utility;
- (2) Inserting an effective date of January 6, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 781, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 781, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

Government Operations: Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, 1 (Awa). Excused, none.

**SCRep. 280 Energy, Economic Development, and Tourism on S.B. No. 951**

The purpose and intent of this measure is to:

- (1) Add a cap for the amount of tax credits for research activities that an eligible taxpayer and the taxpayer's related entities may receive per taxable year;
- (2) Consolidate the survey and certification requirements for tax credits for research activities;
- (3) Amend the annual aggregate cap on tax credits for research activities that the Department of Business, Economic Development, and Tourism may certify; and
- (4) Require certification of the tax credits for research activities on a first-come, first-served basis to be based on the date that a complete application is received, subject to certain conditions.

Your Committee received testimony in support of this measure from the Hawai'i Technology Development Corporation; Oceanit; Makai Ocean Engineering, Inc.; Pacific International Center High Tech Research; Hawaii Aerospace Corporation; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the technology industry is a fiercely competitive global industry. Your Committee believes that the Hawaii tax credit for research activities is critical to allow the State to compete in the global market as research activities support the local technology industry, create good paying jobs, and keep local talent in the State. This measure will allow the tax credit for research activities to continue to diversify the economy and create good paying jobs in the State by adding a cap for the amount of tax credits for research activities that an eligible taxpayer may receive per taxable year, consolidating the survey and certification requirements, amending the annual aggregate cap on tax credits for research activities, and tightening qualifying criteria to focus on supporting local companies.

Your Committee has amended this measure by:

- (1) Reducing the cap for the amount of tax credits for research activities that an eligible taxpayer and the taxpayer's related entities may receive per taxable year from \$2,500,000 to \$1,500,000;
- (2) Requiring every qualified high technology business be registered to do business in the State and occupy a business location and address in the State where at least seventy-five per cent of the company's employees are located to be eligible to receive tax credits for research activities;
- (3) Extending the sunset date for tax credits for research activities from December 31, 2024 to December 31, 2029; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 951, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 281 Energy, Economic Development, and Tourism on S.B. No. 1198**

The purpose and intent of this measure is to prohibit holdover board members of the Hawaii Tourism Authority from holding office beyond the commencement of the next legislative session following the expiration of the member's term of office.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Tourism Authority; and one individual.

Your Committee finds that the Hawaii Tourism Authority is guided by a twelve-member, volunteer, Senate-confirmed Board of Directors. Hawaii Tourism Authority board members go above and beyond the call of duty for these volunteer positions and bring the depth of their professional experiences to the board table. However, recruitment for volunteer service on the Hawaii Tourism Authority's board is often challenging. Your Committee further finds that the Office of the Attorney General opined that the current laws allow a member of the Hawaii Tourism Authority to continue as a holdover after their term has expired until a successor is appointed by the Governor, without limitation. Your Committee finds that this interpretation is contrary to legislative intent and therefore this measure is necessary to clarify the existing law.

Your Committee has amended this measure by:

- (1) Reducing the number of board members on the Hawaii Tourism Authority Board of Directors from twelve to nine; reducing the number of members required to have knowledge, experience, and expertise in the area of accommodations, transportation, retail, entertainment, or attractions from six to four; and reducing the maximum number of members representing, employed by, or under contract to any sector of the industry represented on the board from three to two;
- (2) Reducing the number of board members necessary to constitute a quorum from seven to five; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1198, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1198, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 282 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 1261**

The purpose and intent of this measure is to:

- (1) Require each department of the State to prepare a report assessing the feasibility of installing distributed energy resource systems at each of its facilities;
- (2) Require departments to implement and install the distributed energy resource systems for each of its facilities, as detailed in the reports no later than five years from the issue date of the reports; and
- (3) Give priority for the required energy efficiency measures to first responder facilities.

Your Committees received testimony in support of this measure from the Hawaii Solar Energy Association, 350Hawaii, Our Revolution Hawaii, Ulupono Initiative, Environmental Caucus of the Democratic Party of Hawai'i, and fourteen individuals. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that the installation of on-site distributed energy resources, such as rooftop solar and battery storage, is not only one of the most cost-effective ways to reduce greenhouse gas emissions and other pollutants associated with electricity generation and consumption, but also provides affordable and resilient power for the State's energy system users. Your Committees also find that the growing climate crisis threatens the health and well-being of the State's residents through the impacts of extreme weather events. Your Committees believe that the State must ensure that preparations within the State will be adequate to deal with the emergencies caused by climate change, especially in situations involving disruptions to the electric grid, port activity, and essential services provided by state agencies--in particular, first responders who must have the ability to function fully to assist with response and recovery efforts. This measure will build the State's resilience to the effects of global warming by requiring each department to prepare a report assessing the feasibility of installing distributed energy resource systems at each of its facilities; requiring departments to implement and install the distributed energy resource systems for each of its facilities, as detailed in the reports no later than five years from the issue date of the reports; and giving priority for the required energy efficiency measures to first responder facilities.

Your Committees note that this measure does not contain an appropriation and that the Department of Accounting and General Services plans to submit the cost figures for consideration by your Committee on Ways and Means.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1261 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.  
Government Operations: Ayes, 5. Noes, none. Excused, none.

**SCRep. 283 Higher Education on S.B. No. 1414**

The purpose and intent of this measure is to:

- (1) Exempt the University of Hawaii and its Board of Regents from certain provisions of the Hawaii Public Procurement Code involving contracts and grants relating to research and training or research and training revolving funds;
- (2) Require the Board of Regents to develop internal policies and procedures exempt from the Hawaii Public Procurement Code for procurement relating to research and training contracts and grants and research and training revolving fund expenditures in support thereof;

- (3) Authorize the President of the University of Hawaii to delegate procurement authority for research and training contracts and grants to the University's Vice President for Research and Innovation; and
- (4) Require the Board of Regents to submit reports to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawai'i System. Your Committee received comments on this measure from the State Procurement Office and the Department of the Attorney General.

Your Committee finds that the University of Hawaii at Manoa has received international recognition for its research. At the state level, University of Hawaii research and training contracts and grants contribute over \$200,000,000 annually to Hawaii's economy and create workforce opportunities throughout the State. To support the excellence of research at the University of Hawaii, this measure exempts the University from certain provisions of the Hawaii Public Procurement Code relating to research and training contracts and grants, facilitating the effective and efficient accomplishment of research and training.

Your Committee has amended this measure by:

- (1) Inserting language specifying that this measure addresses an issue of statewide concern;
- (2) Specifying that the Hawaii Public Procurement Code shall not apply to contracts made by the University of Hawaii or the Board of Regents of the University of Hawaii; provided that the contracts involve research and training and are procured using grant moneys received for research and training or moneys expended from the Research and Training Revolving Fund (RTRF) pursuant to section 304A-2253, Hawaii Revised Statutes, in direct support of research and training;
- (3) Clarifying that references to "research and training revolving funds" refer to RTRF moneys;
- (4) Repealing language that requires the Board of Regents to develop internal policies and procedures exempt from the Hawaii Public Procurement Code for the procurement of construction;
- (5) Clarifying that the Board of Regents shall develop internal policies and procedures exempt from chapter 103D, Hawaii Revised Statutes, only for the procurement of goods and services for research and training and RTRF moneys expended in direct support of research and training; provided that the President of the University may delegate procurement authority for research and training to the Vice President for Research and Innovation;
- (6) Requiring that the University of Hawaii include a description of the University's internal policies and procurement process in its reports to the Legislature;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1414, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1414, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 284 Education on S.B. No. 107**

The purpose and intent of this measure is to:

- (1) Authorize a majority of the members of the Board of Education to elect a chairperson from among the members of the Board;
- (2) Authorize the members to annually elect a chairperson upon the start of the next confirmed term for members; and
- (3) Remove the requirement that the chairperson be an at-large member.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that providing high quality education to Hawaii's keiki is of paramount importance. The Board of Education's mission is to "promote excellence and equity in Hawaii's public schools and enable all students to meet their own unique and varied potentials". Through the formulation of policy, the Board of Education guides the Department of Education to ensure all Hawaii public school students can thrive and succeed during their academic careers. As policies implemented by the Board of Education ultimately impact students, ensuring effective leadership from the Board of Education is imperative to ensure all students in Department of Education schools receive a high quality education.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 107, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 285 Education on S.B. No. 156**

The purpose and intent of this measure is to:

- (1) Require the Board of Education to hold not less than six community forums annually, with at least one community forum in each county;
- (2) Require the Board of Education to include an open forum for public comments on non-agenda items; and
- (3) Require a report to the Legislature on implementing open forums.

Your Committee received testimony in support of this measure from the Office of Information Practices, Moms for Liberty Honolulu County, Hawai'i Association of School Psychologists, and seven individuals. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that providing high quality education to Hawaii's keiki is of paramount importance. The Board of Education's mission is to "promote excellence and equity in Hawaii's public schools and enable all students to meet their own unique and varied potentials". Through the formulation of policy, the Board of Education guides the Department of Education to ensure all Hawaii public school students can thrive and succeed through their academic careers. Therefore, the policies created and implemented by the Board of Education ultimately impact public school students throughout the State. This measure will create additional opportunities to facilitate community dialogue through open forums with the Board of Education members, allowing local communities to share experiences, feedback, and opinion on the direction of Hawaii's public school education.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 156, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 286 Education on S.B. No. 1343**

The purpose and intent of this measure is to:

- (1) Clarify that in addition to a parent or legal guardian, emancipated minors may also produce the required student records when transferring schools; and
- (2) Clarify that the transfer process is the same whether a transfer is within the same complex area or to another complex area.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that, when a student who is under the age of eighteen transfers schools, existing law requires the student to submit to the enrolling school a certificate of release obtained from the school last attended. As minors do not have legal capacity independent of their parents, your Committee notes that it is more appropriate for the parent or legal guardian of the minor student to produce and submit the certificate of release. In instances where a minor is emancipated, the emancipated minor should be empowered to produce and submit the certificate of release. This measure expands the authority to produce a certificate of release for the minor student to the student's parent, legal guardian, or an emancipated minor.

Your Committee has amended this measure by:

- (1) Clarifying that requirements shall not apply to McKinney-Vento eligible students, including unaccompanied minors who are not under the physical custody of a parent or legal guardian; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1343, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 287 Education on S.B. No. 1344**

The purpose and intent of this measure is to:

- (1) Allow the administration of medication to public school students by health assistants with the approval of a health care professional within the Department of Education, Department of Health, or a health care service per a written agreement with the Department of Education; and
- (2) Replace the term "school health aides" with "school health assistants" to reflect recent changes to the job title.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, University of Hawai'i System, Hawai'i State Center for Nursing, Hawaii Primary Care Association, Epilepsy Foundation of Hawaii, and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that all medication requests to be administered by school health assistants are currently reviewed and require approval by the Department of Health public health nurses. To ensure proper review of the medication request, including a determination on safety and whether the treatment is appropriate for a student, the medication management process requires clinical supervision by a health care professional to ensure the safety of students in the event unlicensed assistive personnel, such as school health assistants, are utilized to administer medication.

Your Committee notes that while some schools have a licensed health care professional on campus through written agreements with the Department of Education or through partnerships with partners such as the Nancy Atmospera-Walch School of Nursing at the University of Hawaii at Manoa, student care would be more efficient, accessible, and safe if the administration of medication could be performed with the approval of a health care professional within the Department of Education, Department of Health, or a partner in a written agreement with the Department of Education. To ensure the health and safety of Hawaii's keiki in Department of Education schools, this measure authorizes the administration of medications by school health assistants with the approval of a health care professional within the Department of Education, Department of Health, or health care service through a written agreement with the Department of Education.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1344, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 288 Education on S.B. No. 943**

The purpose and intent of this measure is to appropriate funds to the Department of Education to fund school health support staff to sustain the Hawaii Keiki: Healthy and Ready to Learn Program.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, University of Hawaii System, Hawaii State Teachers Association, Hawaii's Children's Action Network Speaks!, and Hawaii State Center for Nursing. Your Committee received comments on this measure from the Hawaii Government Employees Association AFSCME Local 152, AFL-CIO; and Hawaii's Primary Care Association.

Your Committee finds that the Hawaii Keiki: Healthy and Ready to Learn Program is designed to improve access to, and the quality of, school-based health services available to Hawaii's public school students by providing direct services and coordinating care with primary and tertiary care providers. In partnership with the Nancy Atmospera-Walch School of Nursing at the University of Hawaii at Manoa, the Hawaii Keiki: Healthy and Ready to Learn Program provided over one hundred seventy-one schools with direct support and indirect support to all Department of Education schools, complexes, and complex areas.

Your Committee further finds that while the Department of Education envisions a future with one nurse on site at every school, the achievement of this ambitious goal requires a substantial increase in fiscal and human resources. The school health support staff was created in response to the coronavirus disease 2019 pandemic to assist Department of Education schools by having nurses available on campuses. The volume of care provided by school health support staff, along with the exacerbated COVID-19 issues, has shown a significant, ongoing need to ensure that Hawaii's keiki are healthy and ready to learn. To ensure continued support at all Department of Education schools, while also supporting student success, additional fiscal resources are needed to continue the valuable work established by the Hawaii Keiki: Healthy and Ready to Learn Program.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 943 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 289 Education on S.B. No. 1232**

The purpose and intent of this measure is to authorize the State Librarian, with approval from the Board of Education, to impose and collect rates, rents, fees, fines, and charges for the use of state library facilities and revise rates, rents, fees, fines, and charges as necessary.

Your Committee received testimony in support of this measure from the Hawaii's State Public Library System.

Your Committee finds that the Hawaii State Public Library System operates fifty-one branches on six islands and is the only public library system in the State. Presently, the Hawaii State Public Library System is required to adopt administrative rules to update the current fee schedule, which can be a cumbersome, delayed process. As the Hawaii State Public Library System considers new pilot projects or temporary services to support local library communities across the State, authorizing the State Librarian to update current fee schedules will streamline administrative processes to support public library services.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1232 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 290 Agriculture and Environment on S.B. No. 640**

The purpose and intent of this measure is to establish and appropriate funds for the Hawaii Agricultural Investment Program to support local agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii's Farm Bureau; Hawaii Cattlemen's Council, Inc.; Local Food Coalition; Hawaii Aquaculture and Aquaponics Association; Ulupono Initiative; Environmental

Caucus of the Democratic Party of Hawai'i; Kanalani Ohana Farm; The Humane Society of the United States; and three individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State is committed to creating a self-reliant and prosperous agricultural sector in Hawaii that can readily supply residents and visitors alike with freshly-grown local produce and various other locally-sourced food options. Your Committee further finds that the State relies on imports for more than ninety percent of its food and therefore acknowledges that the agricultural sector in Hawaii requires substantial capital investment to actualize the State's vision. Thus, this measure establishes the Hawaii Agriculture Investment Program within the Department of Agriculture and appropriates funds to assist farmers and ranchers in increasing their capacities to grow and produce viable food alternatives to imports in the ongoing effort of enhancing food security and agricultural self-sufficiency in the State.

Your Committee has amended this measure, as suggested by the Ulupono Initiative, by:

- (1) Clarifying the purposes for which grants shall be awarded by deleting conversion of chicken shell egg farms or businesses from caged to cage-free and including promotion of workforce development and labor solutions for agricultural production and processing and food safety training and education to promote agricultural development and market development;
- (2) Inserting language establishing grant conditions and qualifications;
- (3) Inserting an appropriation amount of \$3,000,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 640, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 291      Agriculture and Environment on S.B. No. 744**

The purpose and intent of this measure is to require the Hawaii Invasive Species Council to classify coffee leaf rust as an invasive species in its administrative rules to direct available funding for mitigation efforts, research, and prevention or control actions for coffee leaf rust.

Your Committee received testimony in support of this measure from Kanalani Ohana Farm, Hawaii Coffee Growers Association, Kona Coffee Farmers Association, Hawai'i Farm Bureau, and three individuals. Your Committee received comments on this measure from the Department of Agriculture and Department of Land and Natural Resources.

Your Committee finds that coffee leaf rust represents a real and direct threat to the future of coffee production in Hawaii. Since its discovery on Maui in late 2020, coffee leaf rust has been responsible for the decimation of at least fifty percent of coffee crops on most farms on Hawaii island and has had a substantial economic impact on coffee farms across the State. Your Committee additionally finds that the Hawaii Invasive Species Council was established in 2003, is administered through the Department of Land and Natural Resources, and includes other state departments as members. This measure requires the Hawaii Invasive Species Council to classify coffee leaf rust as an invasive species in its administrative rules to make funding available for the mitigation, research, and prevention actions for coffee leaf rust.

Your Committee acknowledges a statement made in testimony by the Department of Agriculture, in which it declares that it has sufficient authority to act and respond to coffee leaf rust issues in the State. The Department, however, does not currently have the funds to support the mitigatory efforts, research, and prevention or control actions that the spread of coffee leaf rust requires and instead is limited to merely maintaining existing restrictions on the importation of coffee into the State and funding of the Pesticides Subsidy Program to combat coffee leaf rust and other coffee plant diseases. Alternatively, the Department of Agriculture proposes an appropriation of \$200,000 to maximize the utilization of departmental capabilities to sufficiently address, prevent, control, and research coffee leaf rust.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 292      Agriculture and Environment on S.B. No. 776**

The purpose and intent of this measure is to amend the composition of the Board of Agriculture by requiring representation from the islands of Molokai and Lanai.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farmers Union United; Kuwale Ridge Farms; Hawaii Cattlemen's Council, Inc.; Hawaii Farm Bureau; and five individuals.

Your Committee finds that the Board of Agriculture consists of ten members and is dedicated to the preservation and productive use of agricultural resources so as to assure a healthy and adequate food supply for Hawaii's people, providing employment, maintaining a favorable balance of trade, and preserving the aesthetic quality of the Hawaiian Islands. Three members must be a resident of the counties of Hawaii, Maui, and Kauai, and the remaining seven seats are filled by representatives from various state departments, the University of Hawaii, or appointed by the Governor. Your Committee finds that while Molokai and Lanai have historically been represented by the Maui representative, there are complex and unique challenges on these islands that would be better addressed with appropriate representation on the Board of Agriculture.

Your Committee believes that, by increasing the membership of the Board of Agriculture from ten to twelve seats to include resident representatives from the islands of Molokai and Lanai, the State can ensure comprehensive, equitable access to and information on critical resources like federal grants, research and development initiatives, and interisland growth and collaboration opportunities on all islands. This measure takes a step forward in ensuring that all people in Hawaii have access to the same benefits that the Board of Agriculture strives to secure and is inclusive of input from all farm communities in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 776 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 293      Agriculture and Environment on S.B. No. 777**

The purpose and intent of this measure is to provide a temporary income tax credit for the cost of upgrading or converting a qualified cesspool to a wastewater system or for connecting a qualified cesspool to a sewage system.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i System, Department of Environmental Management of the County of Hawai'i, Hawai'i REALTORS, Environmental Caucus of the Democratic Party of Hawai'i, Surfrider Foundation, and four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaiii.

Your Committee finds that cesspools are a significant problem in the State and a major source of pollution in Hawaii. There are an estimated 83,000 cesspools in the State that discharge millions of gallons of untreated sewage into the soil every day, which may flow into drinking water sources, streams, and the ocean, threatening public health and the environment. Your Committee additionally finds that the State has set a mandate to convert all cesspools to a Director of Health approved wastewater system by 2050 and must be proactive with effective and purposeful legislation to meet this goal. This measure will provide financial relief to those who seek to upgrade their cesspools through a temporary income tax credit, which will offset some of the financial difficulties of cesspool conversion and incentivize upgraders to act quickly to take advantage of this credit's availability.

Your Committee has amended this measure by specifying the Department of Health as the agency responsible for the certification of qualified expenses, as requested by the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 294      Agriculture and Environment on S.B. No. 782**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to provide grants to be disbursed directly to taro farmers in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Adaptations, Inc.; Ka Ohana O Na Pua; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Hawai'i Alliance for Progressive Action; and twenty-eight individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that taro farmers in the State face a myriad of challenges from the expensive and labor intensive processing of taro to poi, to the high cost of land and increasingly unpredictable weather conditions due to climate change. Your Committee acknowledges that the occurrence of taro farming has been on the decline for decades due to these mounting challenges, and taro farmers continue to struggle to survive and sustain their operations in the State. Your Committee further finds that the State has more recently pivoted its focus to the issue of food security and agricultural self-reliance in Hawaii and now finds tremendous potential in the taro plant beyond its cultural and traditional value. Thus, this measure supports the taro farmer in Hawaii by appropriating funds through grants for taro farmers and farms for improvements in their operations, thereby protecting the Hawaiian traditions of taro and taro farming, encouraging new taro farming, and improving the livelihoods of existing taro farmers.

Your Committee has amended this measure by:

- (1) Clarifying legislative findings;
- (2) Deleting language that would have prohibited grants to be given unless the applicant has spent money toward producing taro for consumption and for costs incurred more than five years prior to the time of application;
- (3) Inserting language to require qualified applicants to submit a plan for increasing taro production, including activities in which the applicant intends to engage in;
- (4) Including a definition for "qualified applicant" to mean taro farmers and certain taro-producing private organizations; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 782, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 782, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 295 Agriculture and Environment on S.B. No. 793**

The purpose and intent of this measure is to amend recycling goals, penalties, and definitions under the Electronic Device Recycling and Recovering Act so that goals are based upon the manufacturer's overall market share in the State.

Your Committee received testimony in support of this measure from Consumer Technology Association and Retail Merchants of Hawaii. Your Committee received testimony in opposition to this measure from Mr. K's Recycle and Redemption Center, Recycle Hawaii, Clean the Pacific, and eleven individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that Act 151, Session Laws of Hawaii 2022 (Act 151), amended the Electronic Device Recycling and Recovery Act to set certain requirements for electronic device manufacturers to assist in the overall effort of recycling electronic waste in the State. Your Committee additionally finds that manufacturers have struggled to comply with the requirements of Act 151, which have forced them to accept severe penalties and thus, cost increases, which may ultimately be passed to consumers. This measure reduces the severity of the Electronic Device Recycling and Recovery Act by amending the shortfall penalties and establishing a method based on a manufacturer's overall market share to calculate recycling responsibilities and adding definitions to accommodate for this new method.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 793 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 296 (Joint) Agriculture and Environment and Water and Land on S.B. No. 948**

The purpose and intent of this measure is to appropriate funds to allow the Division of Forestry and Wildlife to coordinate the removal of hazard *Albizia* trees that potentially threaten public and private land.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Emergency Management Agency, University of Hawai'i College of Tropical Agriculture and Human Resources, Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, and four individuals.

Your Committees find that invasive *Albizia* trees are a major hazard to natural areas, private property, and infrastructure in the State. *Albizia* can thrive in a broad range of habitats and threaten native ecosystems by its substantial dispersal of seeds that are carried by winds over long distances. Your Committees additionally find that *Albizia* trees in Hawaii are among the fastest growing trees on Earth. Their rapid growth rate produces massive trunks and limbs that are prone to sudden breakage and the collapse of enormous live branches. This measure appropriates funds to the Department of Land and Natural Resources to coordinate the removal of *Albizia* trees that pose a hazard to public and private lands.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 948 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 297 Agriculture and Environment on S.B. No. 1010**

The purpose and intent of this measure is to amend the definition of restricted use pesticides to include malathion.

Your Committee received testimony in support of this measure from Adaptations, Inc.; Ka Ohana O Na Pua; Hawai'i Alliance for Progressive Action; Kuwale Ridge Farms; Food+ Policy Internship 2023; Hawai'i Farmers Union United; Environmental Caucus of the Democratic Party of Hawai'i; Waihunahuna Foundation; and forty-two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Crop Improvement Association; Western Plant Health; CropLife America; Responsible Industry for a Sound Environment; and one individual. Your Committee received comments on this measure from the Department of Agriculture, Department of Agriculture Pesticides Branch, Department of the Attorney General, and one individual.

Your Committee finds that malathion is an insecticide in the chemical family known as organophosphates and is used outdoors as pest control for a wide variety of insects and has been principally used for mosquito control and fruit fly eradication programs in the United States. Malathion is a neurotoxic cholinesterase inhibitor that causes the rapid build up of acetylcholine in insects and exposed humans, leading to uncontrolled rapid twitching of some muscles, paralyzed breathing, convulsions, nausea, pain, and death, in extreme cases. Exposure has also been linked to developmental delays, impaired cognitive development, and a host of learning and behavioral problems in young children.

Your Committee further finds that in March 2022, there was a chemical spill at a beachside residence in Mokuleia that affected about twenty residences. When the fire department, police, and neighborhood members attempted to assist in the cleanup, two exposed people using personal protection equipment were sent to the emergency room. Days later, many neighbors continued to experience severe symptoms, and an exposed downwind neighbor went to the hospital. Your Committee considers malathion to be a poisonous nerve toxin that is dangerous to humans, beneficial insects, animals, and the environment and is lethal to vulnerable marine life ecosystems when contaminated runoff from heavy rains reach the ocean. However, your Committee also acknowledges that malathion has an important use in keeping the public safe from mosquito born viruses like Zika virus, West Nile virus, and dengue. Thus, this measure classifies malathion as a restricted use pesticide, which severely limits its availability to the public for the sake of public health and the environment.

Your Committee has amended this measure by:

- (1) Deleting the definition for malathion to clarify that only malathion, and not all organophosphate insecticides, is classified as a restricted use pesticides; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1010, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

**SCRep. 298      Agriculture and Environment on S.B. No. 1132**

The purpose and intent of this measure is to appropriate funds for the Department of Agriculture to identify a central area on Maui, then plan, design, and construct a hemp decorticator facility for the use of interested parties in the area.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Hemp Farmers Association, Hawai'i Farm Bureau, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that hemp is among the fastest growing plants on earth and can be refined into a variety of useful items such as paper, rope, textiles, clothing, biodegradable plastics, paint, building insulation, biofuel, and animal feed. Hemp-derived products are so wide-ranging that the creation of a decorticator processing facility and its consequent production and sales of hemp-derived materials have the potential to significantly strengthen and reinforce Hawaii's hemp industry, thus boosting economic growth and creating jobs in the State. This measure appropriates funds for the Department of Agriculture to identify a central area on Maui, then plan, design, and construct a hemp decorticator facility for the use of interested parties on the island.

Because the timing involved does not allow for the design phase, much less the construction phase, to begin, your Committee has amended this measure by inserting recommended language from the Department of Agriculture to reflect planning funding only.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1132, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 299      (Joint) Agriculture and Environment and Water and Land on S.B. No. 1350**

The purpose and intent of this measure is to:

- (1) Establish the Climate Impact Special Fund;
- (2) Allocate five cents a barrel from the Environmental Response, Energy, and Food Security Tax to the Climate Impact Special Fund;
- (3) Appropriate funds to the Hawaii Climate Change Mitigation and Adaptation Commission to address impacts of climate change and to mitigate further impacts on the State through carbon sequestration and resiliency planning; and
- (4) Allocate funds to the sea level rise voluntary relocation fund.

Your Committees received testimony in support of this measure from the Office of the Governor, Hawai'i Emergency Management Agency, Hawai'i Climate Change Mitigation and Adaptation Commission, Office of Planning and Sustainable Development, Hawaii Green Infrastructure Authority, Department of Land and Natural Resources, University of Hawai'i Sea Grant Program, Climate Resilience Collaboration, Office of the Mayor of the County of Maui, Hawaiian Electric, Climate Protectors Coalition, Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, The Nature Conservancy, and six individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Tax Foundation of Hawaii and one individual.

Your Committees find that Hawaii is experiencing a climate emergency and that climate change will lead to dire consequences for the State's economy, sustainability, environment, security, culture, and way of life. This measure establishes a Climate Impact Special Fund to allocate and appropriate funds to address impacts of climate change and mitigate further impacts to the State.

Your Committees have amended this measure by:

- (1) Deleting the allocation of five cents a barrel from the Environmental Response, Energy, and Food Security Tax to the Climate Impact Special Fund;
- (2) Deleting the establishment of the Climate Impact Special Fund;
- (3) Appropriating funds from general revenues, rather than the Climate Impact Special Fund, for the purposes of carrying out the operations of the Hawaii Climate Change Mitigation and Adaptation Commission;
- (4) Appropriating funds from general revenues, rather than the Climate Impact Special Fund, to transfer moneys to the sea level rise voluntary relocation fund to carry out the purposes of the Hawaii Climate Change Mitigation and Adaptation Commission;
- (5) Amending section 1 to reflect its amended purpose; and

- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that they were not able to confirm the establishment of a sea level rise voluntary relocation fund in existing law; therefore, in future deliberations of this measure, consideration should be given to confirming the fund into which the \$20,000,000 appropriation made in section 3 of this measure is intended to be placed.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1350, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1350, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Awa).

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 300 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1498**

The purpose and intent of this measure is to:

- (1) Prohibit the Board of Land and Natural Resources from disturbing or acquiring for development certain wetland taro-growing lands;
- (2) Establish a taro lands classification for public lands;
- (3) Permit structures for loi taro fields in the agricultural district;
- (4) Establish growth and perpetuation of traditional Hawaiian crops as a goal of the Hawaii State Planning Act; and
- (5) Authorize the Land Use Commission to create an inventory of taro lands and consult with former members of the Taro Security and Purity Task Force in the creation of the inventory.

Your Committees received testimony in support of this measure from Ku-A-Kanaka, LLC; Malama Makua; Hawai'i Farmers Union United; Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i; and eight individuals.

Your Committees find that taro, or kalo, is a traditional Hawaiian vegetable root crop and food that has sustained Hawaii's people and culture for centuries and that the preservation and protection of taro and taro farming is a significant piece of the State's cultural identity and food security initiative. This measure recognizes the importance of taro by helping to protect and preserve taro-growing lands and sets out a system for creating an inventory of taro lands and consulting with former members of the Taro Security and Purity Task Force in its creation. Additionally, this measure emphasizes the growth and perpetuation of traditional Hawaiian crops as a goal of the Hawaii State Planning Act, which further contributes to the preservation of taro and reaffirms its significance to Hawaiian culture.

Your Committees acknowledge the recommendations raised in testimony by a former member of the Taro Security and Purity Task Force, which include, in summary:

- (1) Amending the definition of "farming operation" under section 165-2, Hawaii Revised Statutes, to be inclusive of operations other than just commercial taro farm rehabilitation on state lands;
- (2) Removing the "high productivity" requirement from the definition of taro lands under section 171-1, Hawaii Revised Statutes, and the taro land classification under section 171-10(1)(D), Hawaii Revised Statutes, as proposed in this measure, to protect taro lands beyond those with only "high productivity" designations;
- (3) Amending section 205-4.5(8), Hawaii Revised Statutes, and section 206-7(a), Hawaii Revised Statutes, to remove the requirement that taro sites must currently be in cultivation to be protected so that those lands both in cultivation now and those with the potential for cultivation in the future will be protected; and
- (4) Requiring, rather than authorizing, the Land Use Commission to create an inventory of taro lands to ensure that the inventory is conducted.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1498 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 301 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 1417**

The purpose and intent of this measure is to require the Hawaii Community Development Authority to consider the impacts of climate change, sea level rise, and climate resilience development in the design and siting of buildings in the Kakaako and Kalaeloa community development districts.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawai'i Community Development Authority, University of Hawai'i System, Climate Protectors Coalition, and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Hawaii is experiencing a climate emergency. Climate change and sea level rise pose significant, dangerous, and imminent threats to public safety, nature and the environment, cultural resources, property, infrastructure, and government functions. Your Committees further find that the Hawaii Community Development Authority plans, coordinates, and implements new infrastructure and development projects in the Kakaako and Kalaeloa community development districts on Oahu. Your Committees recognize that the Kakaako Community Development District will be particularly threatened by the effects of climate change, including sea level rise, king tides, and heavy rainfall, and that the lack of drainage infrastructure in the Kalaeloa Community Development District makes it especially vulnerable to heavy rainfall and other effects of climate change. Thus, this measure requires the Hawaii Community Development Authority to consider the impacts of climate change, sea level rise, and climate resilient development in the design and siting of buildings in the Kakaako and Kalaeloa community development districts.

Your Committees have amended this measure by inserting recommended language from the University of Hawai'i Sea Grant College Program and Climate Resilience Collaboration that requires development in the Kakaako and Kalaeloa community development districts to implement certain design standards for new construction relating to the elevation of the lowest first floor.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1417, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

**SCRep. 302 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1486**

The purpose and intent of this measure is to require the Department of Agriculture, in collaboration with the Hawaii Interagency Council on Homelessness; Department of Land and Natural Resources, Division of Forestry and Wildlife; and Department of Health, Food Safety Branch, in consultation with the County of Maui Axis Deer Task Force, to develop and implement a plan to expand the meat processing capacity in the State to allow for meat from axis deer and other wild game to be processed for distribution by nonprofit food distribution services.

Your Committees received testimony in support of this measure from the Department of Agriculture; one member of the Maui County Council; Maui County Farm Bureau; Hawai'i Farm Bureau; McCandless Ranch; Ponoholo Ranch Limited; Albatross News Hilo; Hawaii Cattlemen's Council, Inc.; Aina Ho'okupu o Kilauea; Hawai'i Farmers Union United; Mulkern Landscaping and Nursery; and eight individuals.

Your Committees find that the rapid proliferation of axis deer populations on Maui and other islands has devastated crops and native vegetation, and threatens the health of delicate land ecosystems in the State. Your Committees further find that there is a public desire to utilize the axis deer to feed under-nourished and under-resourced communities in the State and that there is a need to expand Hawaii's meat processing capacity in order to accomplish this. Thus, this measure develops and appropriates funds for the expansion of the State's meat processing capacity, along with a donation program, to allow for meat sourced from axis deer or other wild game to be processed and donated for distribution by nonprofit food services to under-resourced communities.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1486, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1486, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 303 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1501**

The purpose and intent of this measure is to prohibit the Board of Land and Natural Resources from disturbing or acquiring for development certain wetland taro-growing lands.

Your Committees received testimony in support of this measure from Ku-A-Kanaka, LLC; Malama Makua; Hawaiian Caucus of the Democratic Party of Hawai'i; Hawai'i Farmers Union United; and seven individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that taro, or kalo, is a traditional Hawaiian vegetable root crop and food that has sustained Hawai'i's people and culture for centuries and that the preservation and protection of taro and taro farming is a significant piece of the State's cultural identity and food security initiative. This measure improves protections for wetland taro lands and ancient agricultural structures on state owned or acquired lands.

Your Committees have amended this measure by incorporating the recommendations raised in testimony by the Department of Land and Natural Resources to adopt language used in a similar measure, S.B. No. 1498, Regular Session of 2023, which specifies that the Board of Land and Natural Resources shall not disturb certain taro lands and systems on undeveloped lands used for wetland taro cultivation before statehood and currently in use for wetland taro cultivation.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1501, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 304 Health and Human Services on S.B. No. 64**

The purpose and intent of this measure is to:

- (1) Require issuers of Medigap insurance in the State to accept an eligible individual's application for coverage at any time throughout the year;
- (2) Prohibit issuers from denying the applicant a Medigap policy or certificate or making any premium rate distinctions for various reasons, including health status; and
- (3) Require the Insurance Commissioner to amend or adopt rules accordingly.

Your Committee received testimony in support of this measure from the Leukemia & Lymphoma Society, ALS Association, Chronic Disease Coalition, Dialysis Patient Citizens, AARP Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Insurance Division and one individual.

Your Committee finds that existing state law requires insurance companies that sell Medicare supplement insurance, also known as Medigap insurance, to issue Medigap insurance on a guaranteed-issue basis to eligible individuals without adjusting premiums based on medical underwriting, as long as their applications are submitted within the open enrollment period. Your Committee further finds that under existing law, it is extremely difficult for individuals whose health conditions or financial situations may have changed after their open enrollment period to switch to another Medigap benefit plan that is more suitable. This measure ensures that Medicare enrollees can switch between Medigap benefit plans at any time throughout the year without their premiums being adjusted for various reasons, including health status, even after their open enrollment period.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 64, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 305 (Majority) Health and Human Services on S.B. No. 161**

The purpose and intent of this measure is to appropriate grant-in-aid funding to the YMCA of Honolulu for its Youth Wellness Program for Mental Health to improve mental health and address the wellness needs of youths in the State.

Your Committee received testimony in support of this measure from the YMCA of Honolulu, thirty-three teen participants of the YMCA of Honolulu Youth Wellness Program for Mental Health, and three individuals.

Your Committee finds that the effects of the coronavirus disease 2019 pandemic have had a deleterious effect on the mental health of adolescents in the State and that significant investments are required to reverse and address the eroding mental well-being of these youth. Your Committee notes the testimony submitted by numerous teen participants of the YMCA of Honolulu Youth Wellness Program for Mental Health, attesting to the program's success in working with youth and offering evidenced-based practices to support mental wellness, prevention and intervention services, and supportive services to youth dealing with substance abuse. Your Committee further finds that to improve mental health and address the wellness needs of youths in the State, the YMCA of Honolulu Youth Wellness Program for Mental Health is proposing to engage four thousand five hundred youth in various therapeutic activities at various YMCA locations and venues. The funds appropriated by this measure will allow the YMCA of Honolulu to develop and implement its Youth Wellness Program for Mental Health statewide.

Your Committee requests that your Committee on Ways and Means consider an appropriation amount of \$2,700,000 as a grant-in-aid to the YMCA of Honolulu for the YMCA of Honolulu Youth Wellness Program for Mental Health to improve mental health and wellness needs of youths in the State.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 306 (Majority) Health and Human Services on S.B. No. 45**

The purpose and intent of this measure is to provide an additional means for minors to petition for a protective order in cases of domestic abuse by allowing a school counselor, domestic violence victim advocate, or other mental health professional licensed by the State to file the petition with the court on behalf of a minor when the minor's parent or guardian is unwilling or unable to do so.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education, Hawai'i State Coalition Against Domestic Violence, and Domestic Violence Action Center.

Your Committee finds that existing law gives a minor two ways of petitioning the court for an order for protection in cases of domestic abuse -- through the minor's family or household member or through a state agency. Your Committee finds, however, that some minors in abusive romantic relationships may be reluctant to ask their parents, families, or a state agency for assistance but may be willing to accept help from other trusted adults, such as school counselors, domestic violence victim advocates, and mental health professionals. This measure will allow these adults to file a petition for a protective order on the minor's behalf when the minor's parent or guardian is unwilling or unable to submit a petition.

Your Committee notes testimony raising concerns over the difficulty of establishing a parent or guardian's "unwillingness" to file a petition for a protective order on behalf of a minor. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that school counselors, domestic violence victim advocates, or other mental health professionals licensed by the State may petition for a protective order on a minor's behalf only when the minor's parent or legal guardian is unable to petition on the minor's behalf;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 45, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 307 Health and Human Services on S.B. No. 237**

The purpose and intent of this measure is to:

- (1) Require certain individuals attempting to serve as child custody evaluators to complete a training course on the dynamics of domestic violence every three years; and
- (2) Require the individuals to submit a letter or certificate of completion of the training course to the Family Court.

Your Committee received testimony in support of this measure from the Judiciary, Midwives Alliance of Hawaii, Domestic Violence Action Center, Hawai'i State Coalition Against Domestic Violence, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform and three individuals.

Your Committee finds that professionals who work before the family court and who have an impact on the safety and well-being of children and families need to understand the dynamics of domestic violence. Knowledge pertaining to domestic violence, including its lethality, subtlety, and prevalence, is especially important for child custody evaluators who provide written reports to the court and testify at court hearings and trials, so that their recommendations to the court truly serve the best interests of the child. This measure ensures that child custody evaluators receive continuing education on the issue of domestic violence.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 237, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 308 Health and Human Services on S.B. No. 1035**

The purpose and intent of this measure is to exempt amounts received for health care related goods or services that are reimbursed through Medicaid, Medicare, or TRICARE from the general excise tax.

Your Committee received testimony in support of this measure from the University of Hawai'i System, AARP Hawai'i, Hawai'i Association of Professional Nurses, Kūpuna Caucus' Health and Medical Services Sub-Committee of the Democratic Party of Hawai'i, East Hawaii Independent Physicians Association dba Big Island Docs, Hawaii Medical Association, Hawai'i Island Chamber of Commerce, Klein Natural Health and Wellness Center, Hawai'i Provider Shortage Crisis Task Force, and ten individuals. Your Committee received comments on this measure from the Department of Taxation, Grassroot Institute of Hawaii, Tax Foundation of Hawaii, and Hawai'i Society of Naturopathic Physicians.

Your Committee finds that medical services rendered by private individual or group practices or clinics are subject to the general excise tax. Hawaii is one of only two states that levies a tax on medical services. Further, Medicare, Medicaid, and TRICARE prohibit medical service providers from adjusting their fees to account for the tax. The tax disproportionately and significantly burdens private medical service providers, exacerbating the financial difficulty of operating a private practice and disincentivizing private medical service providers from servicing low-income, vulnerable, and active and retired military service individuals. This measure removes this disincentive by exempting Medicare, Medicaid, and TRICARE reimbursements for health care related goods or services from the general excise tax.

Your Committee notes the concerns raised in testimony that this measure, as currently written, excludes medical services provided by naturopathic physicians from the proposed general excise tax exemption. Naturopathic physicians function as primary care physicians in the State, and, similar to those providers defined as “medical practitioners” in this measure, naturopathic physicians aid in relieving the State’s ongoing health care provider shortage. Your Committee additionally notes the Department of Taxation’s request for an effective date of January 1, 2024. Your Committee finds that these issues merit further consideration and respectfully requests your Committee on Ways and Means and Commerce and Consumer Protection consider these concerns.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1035, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 309      Ways and Means on S.B. No. 573**

The purpose and intent of this measure is to amend the law relating to economic development.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed Senate Draft 1, which amends this measure by deleting its contents and replacing it with contents to change the governing body of the Hawaii Technology Development Corporation by replacing the member appointed from the University of Hawaii with an at-large member.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 573, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 573, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

**SCRep. 310      (Joint) Housing and Water and Land on S.B. No. 330**

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation (HHFDC) the right of first refusal for the development of property for all development on state lands, excluding Hawaii Public Housing Authority and Department of Hawaiian Home Land lands, that are within a one-half mile radius of a rail transit station, provided there is a transfer of any property interest, including a leasehold interest, in state lands that are within a one-half mile radius of a rail transit station.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Hawaiian Home Lands, and Department of the Attorney General.

Your Committees find that there is a severe shortage of affordable housing in the State. Providing HHFDC with the opportunity to obtain control of and develop affordable housing on state lands near rail transit stations will help to increase the State’s inventory of affordable housing.

Your Committees have amended this measure by:

- (1) Exempting lands within the Stadium Development District from this measure;
- (2) Incorporating language recommended by the Department of the Attorney General, which:
  - (A) Clarifies that the proposed development or transfer of any fee simple or leasehold property interest shall trigger HHFDC’s right of first refusal;
  - (B) Provides HHFDC with sixty days advance notice of any proposed development or transfer of property interest; and
  - (C) Establishes a sixty-day deadline for HHFDC to exercise its right of first refusal; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 330, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 330, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Housing: Ayes, 5. Noes, none. Excused, none.  
 Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 311 (Joint) Housing and Health and Human Services on S.B. No. 881**

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds to the Hawaii Public Housing Authority for the development and construction of permanent supportive housing for certain vulnerable individuals; and
- (2) Require the Hawaii Housing Finance and Development Corporation (HHFDC) to consider any available federal low-income housing tax credits (LIHTC) needed for construction of permanent supportive housing units.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; Hawai'i Health & Harm Reduction Center; Highridge Costa Development Company, LLC; Catholic Charities Hawai'i; Hope Services Hawaii, Inc; and two individuals. Your Committees received testimony in opposition to this measure from Kobayashi Group, LLC. Your Committees received comments on this measure from Department of Land and Natural Resources.

Your Committees find that this measure aligns with the Governor's priorities on homelessness, including an emphasis on creating or acquiring more permanent supportive housing for people experiencing homelessness, and who may need supportive services, once housed. According to testimony from Kobayashi Group, LLC, directing HHFDC to consider allocating LIHTC towards permanent supportive housing under this measure means handcuffing HHFDC's ability to consider and prioritize funding for other much-needed areas of the State, such as housing for households that make thirty to sixty percent of the area median income. Your Committees recognize their concern and note that, during your Committee on Housing's February 2, 2023 hearing on Senate Bill No. 936, Regular Session of 2023, which would have required HHFDC to prioritize the allocation of LIHTC to state-owned development projects, HHFDC testified against the allocation of LIHTC to fund-specific projects and has reiterated the same concerns for this measure. Nonetheless, your Committees believe that the State must continue to increase investments in housing to address the housing shortage as well as homelessness in the State.

Your Committees have amended this measure by:

- (1) Inserting language upon the recommendation of the Governor's Coordinator on Homelessness to use the existing process of homeless verification letters provided by recognized homeless services providers in determining eligibility for the permanent supportive housing units established pursuant to this measure, rather than restricting eligibility to only those who meet the definition of "chronically homeless";
- (2) Inserting a blank appropriation amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees further note that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$60,000,000.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 881, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 881, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Housing: Ayes, 5. Noes, none. Excused, none.  
 Health and Human Services: Ayes, 5. Noes, none. Excused, none.

**SCRep. 312 Housing on S.B. No. 858**

The purpose and intent of this measure is to require the Hawaii Housing Finance and Development Corporation (HHFDC) to:

- (1) Amend the Low-Income Housing Tax Credit (LIHTC) Qualified Allocation Plan (QAP) to allow up to twenty percent of the maximum one hundred twenty points on the application criteria point system to be allocated to projects offering to convey ownership of the completed project to the State or an organization obliged to use all financial surpluses generated by the project to construct more housing; and
- (2) Prioritize applicants based on the timeliness and loan amount repaid to the Rental Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from Hawaii Housing Finance and Development Corporation; Building Industry Association of Hawaii; and NAIOP Commercial Real Estate Development Association, Hawaii Chapter.

Your Committee finds that there is a nationwide trend for state housing finance agencies to prioritize the allocation of housing incentives to its public housing agency for state-owned development projects. By providing projects that are or will be State-owned with greater priority in the awarding of LIHTC, the Legislature can help to ensure that local housing development is less profit-motivated and more focused on providing Hawai'i's residents with a greater number of affordable housing options. According to testimony presented to your Committee during the public hearing on this measure, the QAP, a document that is responsible for the allocation of LIHTC in the State, is revised every two years. Your Committee urges HHFDC to consider the Committee's concerns

relating to the criteria for the award of points, allocation of tax credits, use of profits generated from federal and state funds, and the further generation of profits after the affordability period of a project in the next update of the QAP.

Your Committee has amended this measure by:

- (1) Inserting language that prioritizes the allocation of low-income housing tax credits to state-owned development projects;
- (2) Prohibiting HHFDC from awarding additional points for developer fees that are under twelve per cent;
- (3) Requiring HHFDC to prioritize applicants who have demonstrated accelerated full repayment into the Rental Housing Revolving Fund for past Rental Housing Revolving Fund loans;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 858, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 313 (Joint/Majority) Housing and Health and Human Services on S.B. No. 1551**

The purpose and intent of this measure is to:

- (1) Establish a Supportive Housing Pilot Program in the statewide Office on Homelessness and Housing Solutions; and
- (2) Appropriate funds and establish positions for the Supportive Housing Pilot Program.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Public Safety; State Council on Developmental Disabilities; State Procurement Office; Hawaii Public Housing Authority; Hawaii Housing Finance and Development Corporation; Hawai'i Health & Harm Reduction Center; Affordable Housing Connections, LLC dba AHC Hawaii; Catholic Charities Hawai'i; Hawaii Substance Abuse Coalition; Hawaii Autism Foundation; The Institute for Human Services, Inc.; AARP Hawai'i; Keiki Education Living Independent Institute; HOPE Services Hawaii, Inc; Pacific Housing Assistance Corporation; Fuller Lives; and ten individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that the concept of supportive housing has been shown to decrease homelessness, reduce burdens and costs on public systems, and decrease crime rates. Your Committees recognize that the State has a need for significant public financing of housing units since the free market is not generating the essential inventory and that there is also a critical need for rental subsidies and supportive services to help individuals and households with special needs maintain housing over time. According to testimony received by your Committees, the support systems proposed in this pilot program will increase long-term benefits for several populations with various housing challenges statewide. Your Committees note that during the February 2, 2023 Committee on Housing's hearing on Senate Bill No. 936, Regular Session of 2023, which would have required HHFDC to prioritize the allocation of low-income housing tax credits to state-owned development projects, HHFDC testified against the earmarking of funds for specific projects and has reiterated the same concerns for this measure.

Your Committees have amended this measure by:

- (1) Clarifying the Hawaii Public Housing Authority shall implement project-based rent supplement payments at levels sufficient to fill the gap between the flat rents needed to cover project costs and an amount that targeted residents can afford;
- (2) Deleting language that would have exempted the statewide Office on Homelessness and Housing Solutions and the Hawaii Housing Public Authority from the State Procurement Code for the supportive housing program;
- (3) Extending the deadlines of the interim and final reports to the Legislature by one year to account for the planning and inter-agency coordination needed to implement this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Senate Draft 1 of this measure does not make appropriations for fiscal year 2024-2025, but only for fiscal year 2023-2024. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it considers inserting appropriation language that would also allow for an appropriation in fiscal year 2024-2025.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1551, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1551, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 314 (Joint) Housing and Water and Land on S.B. No. 1573**

The purpose and intent of this measure is to:

- (1) Establish a working group within the Department of Land and Natural Resources to ascertain the State's available water resources as pertaining to affordable housing;
- (2) Require the working group to inventory all available water resources statewide and identify sources of aquifer replenishment in relation to affordable housing development; and
- (3) Require a report to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Natural Energy Laboratory of Hawaii Authority, one member of the Hawai'i County Council, two members of the Kaua'i County Council, Honolulu Board of Water Supply, Department of Water Supply for the County of Hawaii, and Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that the permitting for potable water systems and infrastructure is a critical issue that affects delaying the development of affordable housing projects statewide. This measure addresses this long-standing issue by establishing a working group to determine a balance between water resource management and fulfilling the need for more affordable housing.

Your Committees have amended this measure by:

- (1) Administratively attaching the working group to the Office of the Governor and requiring the Chief Housing Officer to lead and chair the working group;
- (2) Requiring the working group to also ascertain water system source capacity and streamline the well permit approval processes to ensure available water supply;
- (3) Requiring the working group to submit an interim progress report to the Legislature that includes a plan on how it intends to proceed in carrying out its duties under this measure and requiring a final report to the Legislature prior to the Regular Session of 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1573, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1573, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 315 Health and Human Services on S.B. No. 1592**

The purpose and intent of this measure is to appropriate funds for three full-time equivalent (3.0 FTE) Program Specialist positions within the Executive Office on Aging for the State's Senior Medicare Patrol Program.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging, Policy Advisory Board for Elder Affairs, Kūpuna Caucus of the Democratic Party of Hawai'i, AARP Hawai'i, and ten individuals.

Your Committee finds that the safety and welfare of the State's kupuna is a priority. The State's Senior Medicare Patrol (SMP) Program educates, assists, and protects Hawaii's most vulnerable population by providing one-to-one counseling, conducting community outreach, and working with other service providers to build a "help net" to assist kupuna statewide. While the State's SMP Program was established to protect kupuna from Medicare fraud, it has since expanded and established a network of partnerships across the finance, technology, legal, and retail industries to help kupuna triage non-health related fraud cases. The State's SMP Program also serves as a reliable source of accurate information and responsive assistance with Medicare, Medicaid, and other health-related scams. Despite significant increases in scam incidences, the program continues to employ just two temporary full-time staff positions and relies upon volunteers to provide services. To meet the increased demand for services, this measure expands the capacity of the State's SMP Program by appropriating funds for three Program Specialist positions.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting an appropriation amount of \$229,680.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1592, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1592, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 316 (Majority) Health and Human Services on S.B. No. 163**

The purpose and intent of this measure is to appropriate funds for an Alzheimer's Disease and Related Dementias Public Health Campaign, including funds to establish one full-time equivalent (1.0 FTE) Alzheimer's Disease and Related Dementias Services Coordinator position within the Department of Health's Executive Office on Aging.

Your Committee received testimony in support of this measure from AARP Hawai'i, Iron Workers Stabilization Fund, Hawai'i Primary Care Association, Alzheimer's Association, UNITE HERE Local 5, and eleven individuals. Your Committee received comments on this measure from the Department of Health Executive Office on Aging.

Your Committee finds that Alzheimer's disease is a public health crisis across the country and is currently the sixth leading cause of death in the United States. Alzheimer's disease also significantly impacts Hawaii. By 2025, it is estimated that over 35,000 Hawaii residents aged sixty-five or older will be living with Alzheimer's disease. A number of new therapies approved by the Food and Drug Administration may allow more people to participate in daily activities, remain independent, and decide on the future of their health. These therapies are beneficial at the early onset of the disease, and therefore, early detection and diagnosis are critical. This measure will allow the Executive Office on Aging to organize and carry out a campaign to educate the public on early signs of cognitive impairment, the value of early detection and diagnosis, and the benefits of discussing changes in memory and thinking with health care professionals.

Your Committee notes the testimony of the Executive Office on Aging and others, stating that the establishment of an Alzheimer's Disease and Related Dementias Services Coordinator position is unnecessary as the position is already statutorily established and filled within the Executive Office on Aging and funding therefore is included in the executive budget. Accordingly, amendments to this measure are necessary to remove language that requires a portion of the appropriated funds to establish the position.

Your Committee requests that your Committee on Ways and Means consider an appropriation amount of \$1,000,000 for the Alzheimer's Disease and Related Dementias Public Health Campaign; provided that the appropriation does not reduce or replace priorities within the Department of Health's budget request regarding the Executive Office on Aging.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Deleting language that would have required a portion of the appropriated funds to be used to establish one full-time equivalent (1.0 FTE) Alzheimer's Disease and Related Dementias Services Coordinator position within the Executive Office on Aging;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 163, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 317 Health and Human Services on S.B. No. 406**

The purpose and intent of this measure is to:

- (1) Allow grandparents of a minor child to petition the court for an order granting reasonable visitation rights when the child's parent is unable to exercise parental visitation rights due to death or incarceration;
- (2) Set forth procedures, considerations, and standards for the court to grant grandparent visitation rights; and
- (3) Specify that any person who violates the terms and conditions of a court order granting reasonable grandparent visitation rights may be held in contempt of court.

Your Committee received comments on this measure from the Department of the Attorney General and the Judiciary.

Your Committee finds that many grandparents in the State desire to maintain their relationship with or assist in caring for their minor grandchildren when their child, who is a parent of the minor, is otherwise unable to provide necessary care due to incarceration or death. This measure will allow the court to award reasonable grandparent visitation rights in certain circumstances while preserving the right of parents or custodians to make decisions concerning the care, custody, and control of their children.

Your Committee further finds that, per testimony submitted by the Department of the Attorney General and the Judiciary, amendments to this measure are necessary to address constitutional concerns and satisfy existing federal and state legal precedent.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the court, in its determination of awarding reasonable grandparent visitation rights, to find that denial of reasonable grandparent visitation rights would cause significant harm to the child;
- (2) Clarifying that the presumption that a parent or custodian's decision regarding visitation is in the best interest of the child may be rebutted by clear and convincing evidence, rather than a preponderance of the evidence, that denial of reasonable grandparent visitation rights would cause significant harm to the child;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 406, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 406, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 318 Health and Human Services on S.B. No. 614**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to:
  - (A) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program that supplements existing statewide services by providing training and other services to neighbor island residents who are blind or visually impaired;
  - (B) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program Working Group and submit a pilot program implementation plan to the Legislature before the Regular Session of 2024; and
  - (C) Submit a report on the Neighbor Islands Blind and Visually Impaired Service Pilot Program to the Legislature prior to the Regular Session of 2027; and
- (2) Appropriate \$25,000 to fund the establishment and operation of the Neighbor Islands Blind and Visually Impaired Service Pilot Program and Working Group.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Department of Human Services, Hawaii State Committee of Blind Vendors, National Federation of the Blind of Hawaii, National Organization of Parents of Blind Children, and six individuals.

Your Committee finds that approximately two thousand neighbor island residents who are blind or visually impaired do not have access to or are ineligible for existing state and local support services, including training, adjustments to blindness services, and transportation. The Neighbor Islands Blind and Visually Impaired Service Pilot Program to be established pursuant to this measure will supplement existing statewide services and enable these individuals to receive the necessary training and other services that would enable them to have full and integrated lives in their communities.

Your Committee has heard the testimony of the Department of Human Services raising concerns regarding its lack of staffing and fiscal resources to implement the proposed pilot program, and that the number of necessary personnel would need to be researched through consultation with the working group. Your Committee also acknowledges the Department's concern that due to the federal funding requirements of the Vocational Rehabilitation and Independent Living Services for Older Blind grants, funding for the new positions would need to be appropriated from the State's general funds in its entirety. Your Committee finds that these issues raise concerns that merit further consideration and requests further examination by your Committee on Ways and Means.

Your Committee has amended this measure by:

- (1) Inserting language that allows, instead of requires, the Department of Human Services to enter into a contract with a nonprofit organization to oversee the pilot program and manage its volunteer personnel;
- (2) Inserting a blank appropriation amount;
- (3) Amending section 1 to clarify its purposes;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 614, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 319 (Majority) Health and Human Services on S.B. No. 407**

The purpose and intent of this measure is to:

- (1) Establish a definition for "immediate harm" and amend the definition of "imminent harm" for the purpose of the Child Protective Act; and
- (2) Require a police officer who assumes protective custody of a child who is subject to immediate harm without a court order to provide a written report detailing the observations justifying the immediate removal to the Department of Human Services within twenty-four hours of assuming custody of the child.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Protective Child Reform and two individuals. Your Committee received comments on this measure from the Department of Human Services, Judiciary, and Department of the Attorney General.

Your Committee finds that research is clear that removal of children from their family's custody, including necessary removals, are harmful to children, and that the psychological and emotional harm to children must always be considered throughout their contact with a system meant to protect them. Your Committee further finds that in more than eighty percent of foster custody cases in Hawaii,

children are removed from the custody of their parents without a court order based on a police officer's determination that the child is subject to imminent harm. It is reported that Hawaii relies on removals without court orders far more than many other jurisdictions in the Western United States.

Your Committee further finds that one of the reasons for the State's high rate of child removals without a court order is the overly broad statutory definition of "imminent harm", which allows immediate removal if, "without intervention within the next ninety days, there is reasonable cause to believe that harm to the child will occur or reoccur". Your Committee finds that the ninety-day period is an excessive amount of time to allow the police or the Department of Human Service's Child Protective Services Branch to petition and obtain a court order for removal of the child from the family's custody. This measure seeks to better balance the safety of the child with the rights of the parents.

Your Committee notes the testimony submitted by the Judiciary recommending a number of amendments to this measure to remove ambiguities and make other conforming amendments.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "immediate harm" to mean an active, present danger to a child that is observable, and that, without immediate intervention, there is reasonable cause to believe that serious harm to the child will result in the time it would take to obtain a court order pursuant to section 587A-12, Hawaii Revised Statutes;
- (2) Requiring the Department of Human Services to file a petition for a protective order on behalf of the child that shall attach a copy of the initial police report within twenty-four hours of receiving an initial police report from a police officer who assumed protective custody of a child without a court order;
- (3) Making conforming amendments to provisions in the Child Protective Act that govern:
  - (A) Court orders based on a finding that the child is subject to immediate harm that require a police officer to immediately take a child into protective custody and the Department of Human Services to immediately assume temporary foster custody of the child; and
  - (B) Temporary foster custody hearings;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 407, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 407, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

#### **SCRep. 320 Health and Human Services on S.B. No. 440**

The purpose and intent of this measure is to authorize the Department of Health to approve in-vehicle receipt of medical cannabis and medical cannabis products on the premises of dispensaries, subject to Administrative Rules adopted by the Department of Health.

Your Committee received testimony in support of this measure from the Hawai'i Cannabis Industry Association; Marijuana Policy Project; Drug Policy Forum of Hawai'i, Inc.; and Noa Botanicals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic has severely impacted the ability of qualified patients to safely access medical cannabis dispensaries. Many qualified patients live with debilitating conditions that place them at acute risk of contracting COVID-19 and would benefit from the authorization of additional methods to receive medical cannabis and medical cannabis products that minimize physical contact and potential exposure to COVID-19. This measure addresses the health concerns of these vulnerable qualifying patients by authorizing the Department of Health to approve in-vehicle receipt of medical cannabis and medical cannabis products on the premises of dispensaries.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 440, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 321 Government Operations on S.B. No. 389**

The purpose and intent of this measure is to require all places of public accommodation and state building construction constructed after December 31, 2023, to provide universal changing accommodations that are equally accessible to men and women.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Epilepsy Foundation of Hawaii, Hawaii Disability Rights Center, and eight individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that families and caregivers of individuals with disabilities who require changing facilities have limited public options for safe and dignified accommodations. A fundamental goal of the Americans with Disabilities Act is to ensure people with disabilities have an equal opportunity to participate in basic civic activities and everyday affairs, such as going to a restaurant or movie theater. Universal changing stations are height adjustable and support up to three hundred pounds in weight. Your Committee further finds that incorporation of universal changing stations foster an environment of equity and inclusivity for the elderly and wheelchair-bound adults and adolescents.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 389 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 322 Government Operations on S.B. No. 1135**

The purpose and intent of this measure is to require cash or protest bonds to be returned to the initiating parties, minus administrative costs, except in cases where the appeal was frivolous or made in bad faith.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii; Subcontractors Association of Hawaii; S & M Sakamoto, Inc.; Ralph S. Inouye Co, Ltd; Alan Shintani Inc.; and Damon Key Leong Kupchak Hastert.

Your Committee finds that the primary intent of the Hawaii Public Procurement Code is to provide fair and equitable treatment, foster broad-based competition, fiscal responsibility, and efficiency in the procurement process, and increase confidence in the integrity of the system. Further, your Committee finds that a party initiating a protest in an administrative proceeding is required to post a procurement protest bond that is forfeited upon losing appeal of a bid protest decision. Your Committee also finds that in the entire nation, only seven states impose a bond requirement to submit a bid protest or seek an appeal of a bid protest decision. Under existing laws, Hawaii is an outlier as the only state that imposes immediate forfeiture of the bond if a protestor loses the appeal. This measure puts Hawaii in line with the other bond protest states.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 323 Government Operations on S.B. No. 1138**

The purpose and intent of this measure is to:

- (1) Prohibit a procurement officer from disclosing a competing offeror's proposal or evaluation score during a debriefing requested by a non-selected offeror; and
- (2) Authorize the disclosure of a competing offeror's proposal or evaluation score after a protest is resolved and the contract is executed.

Your Committee received testimony in support of this measure from the State Procurement Office and Department of Transportation.

Your Committee finds that the primary objective in public procurement is to provide an equal opportunity to compete for government contracts and inhibit favoritism, collusion, or fraud in consideration for the award of a contract. Your Committee also finds that this measure accomplishes that objective by providing clarification and a clear understanding of when the release of an offeror's proposal or evaluation score would be appropriate, in the event of a request for government records.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 324 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 193**

The purpose and intent of this measure is to add to the membership of the State Fire Council, and to the membership of advisory committees that the council may appoint, representatives from the Hawaii State Aircraft Rescue Fire Fighting Unit and the Division of Forestry and Wildlife of the Department of Land and Natural Resources to reflect all non-federal fire fighting agencies in the State.

Your Committees received testimony in support of this measure from the State Fire Council, Department of Land and Natural Resources, Honolulu Fire Department, and Maui Fire Department.

Your Committees find that in 1979, the Legislature abolished the State Fire Marshal's Office and created the State Fire Council with the goal of developing and maintaining a comprehensive fire service emergency management network for the protection of life, property, and the environment throughout the State. Your Committees also find that the Hawaii State Aircraft Rescue Fire Fighting Unit and the Division of Forestry and Wildlife of the Department of Land and Natural Resources communicate and collaborate with the county fire departments on a regular basis during emergency incidents and non-emergency administrative matters and provide specialty expertise and equipment in emergent and non-emergent environments that the county fire departments do not possess due to training, funding, or mission requirements. Your Committees believe that the Hawaii State Aircraft Rescue Fire Fighting Unit and the Division

of Forestry and Wildlife of the Department of Land and Natural Resources could provide unique perspectives to facilitate accomplishment of the State Fire Council's functions. This measure will provide the State Fire Council greater insight into Hawaii's fire risk and improvements relating to the protection of persons and property against fire by adding to the membership of the State Fire Council, and to the membership of advisory committees that the council may appoint, representatives from the Hawaii State Aircraft Rescue Fire Fighting Unit and the Division of Forestry and Wildlife of the Department of Land and Natural Resources to reflect all non-federal fire fighting agencies in the State.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 193 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 325 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 298**

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Emergency Management Agency to:
  - (A) Acquire any real, personal, or mixed property for its immediate or future use;
  - (B) Own, hold, improve, rehabilitate, sell, assign, exchange, transfer, convey, lease, or dispose of any real, personal, or mixed property acquired; and
  - (C) Acquire by condemnation real property for its immediate or future use; and
- (2) Amend the definition of "public lands" to exclude lands to which the Hawaii Emergency Management Agency holds title.

Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Hawaii Emergency Management Agency and Office of Hawaiian Affairs.

Your Committees find that the existing headquarters complex for the Hawaii Emergency Management Agency at Diamond Head dates back to World War I, which creates maintenance complications and upkeep challenges that impact the Hawaii Emergency Management Agency's ability to fulfill its mission. To address these issues, the Hawaii Emergency Management Agency continues to explore new locations for the State Emergency Operation Center to be situated out of the hurricane and tsunami inundation zone. Your Committees believe that the flexibility afforded by this measure could provide the Hawaii Emergency Management Agency useful tools to expedite the timeline for the development of a new facility. This measure will offer the Hawaii Emergency Management Agency more flexibility in the mechanisms it employs to protect the people and property of the State by authorizing the Hawaii Emergency Management Agency to own, hold, improve, and take a variety of other actions with respect to real, personal, and mixed property, for current or future use, and amending the definition of "public lands" to exclude lands to which the Hawaii Emergency Management Agency holds title.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 298 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 326 (Joint) Education and Housing on S.B. No. 1596**

The purpose and intent of this measure is to:

- (1) Establish a Maui Campus Housing Pilot Program, to be administered by the School Facilities Authority which shall make on-campus housing available to employees at Lahainaluna and Kulanihako'i High Schools on the Island of Maui;
- (2) Require the School Facilities Authority and Department of Education to submit joint reports to the Legislature; and
- (3) Appropriate funds to establish and administer the pilot program.

Your Committees received testimony in support of this measure from the Office of the Governor, School Facilities Authority, Hawaii State Teachers Association, one member of the Maui County Council, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that Hawaii continues to suffer from a shortage of licensed teachers, specialized staff, and administrators. Providing incentives such as affordable options for teacher housing is one mechanism to retain highly qualified school teachers and educators. Additionally, many school campuses, particularly those in rural areas and on the neighbor islands, offer the State an opportunity to provide on-campus housing for school employees. By utilizing existing state property and infrastructure, the State can expedite construction while also reducing costs. To address the State's chronic teacher shortage, this measure establishes a pilot program at Lahainaluna and Kulanihako'i High Schools for on-campus teacher housing.

As affirmed by the records of votes of the members of your Committees on Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1596 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Education: Ayes, 4. Noes, none. Excused, 1 (Richards).  
Housing: Ayes, 5. Noes, none. Excused, none.

**SCRep. 327 (Joint/Majority) Government Operations and Water and Land on S.B. No. 1319**

The purpose and intent of this measure is to reinstate the Governor's authority to transfer funds to cope with the effects of natural disasters, for operating purposes, or to supplement the Department of Land and Natural Resources' Fire Fighter's Contingency Fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Emergency Management Agency, Department of Budget and Finance, and one individual.

Your Committees find that Act 88, Session Laws of Hawaii 2021, as amended by Act 248, Sessions Laws of Hawaii 2022, did not contain boiler plate provisions that are generally included in the General Appropriations Act that provide the Governor with the authority to transfer funds for operating purposes, natural disaster, or the Fire Fighter's Contingency Fund. Your Committees also find that flexibility dictates a necessity to continue to provide services that allow for a rapid response typified by the unpredictable occurrence of natural disasters, specifically wildfires.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1319, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1319, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Government Operations: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 328 (Joint/Majority) Government Operations and Transportation and Culture and the Arts on S.B. No. 968**

The purpose and intent of this measure is to:

- (1) Require the Department of Accounting and General Services to enable parking stall sharing among public employees, accommodate more electric vehicle charging stations, and provide bicycle storage lockers at facilities where parking is made available to public employees; and
- (2) Require new public housing developments' parking stalls to accommodate electric vehicle charging stations and bicycle storage lockers.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawai'i Climate Change Mitigation and Adaptation Commission, Big Island Electric Vehicle Association, Hawaii Electric Vehicle Association, Hawaii Bicycling League, Climate Protectors Hawaii, Ulupono Initiative, and two individuals. Your Committees received comments on this measure from the Department of Accounting and General Services and Hawaii State Energy Office.

Your Committees find that numerous public employees commute to work by car and must pay for parking at their workplaces. However, public employees wishing to split the cost of sharing a single stall while carpooling in different cars on different days are currently prohibited by the Department of Accounting and General Services from doing so. Many people are also opting to drive electric vehicles, which are significantly less expensive to operate and maintain than gas vehicles, and many major manufacturers have already committed to cease the production and sale of gas-powered vehicles by 2030 and 2035, respectively. However, infrastructure for charging those vehicles in the public workplace does not exist.

Your Committees further find that public employees who bicycle to work have no secure bicycle storage. Employees have had bicycles stolen while locked in racks on the upper floors of the Kalanimoku building, State Capitol, and other public facilities. This limits the ability for employees to save, on average, nearly \$13,000 each year by commuting to work by bicycle rather than car.

Your Committees have amended this measure by:

- (1) Adding the Department of Transportation to collaborate with the Department of Accounting and General Services;
- (2) Inserting language to require the Department of Accounting and General Services and the Department of Transportation to develop, implement, administer, and manage the programs relative to this measure; and
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committees have heard the concerns of the Department of Accounting and General Services that it would be cost prohibitive to implement this measure insofar as electric charging stations, for each new parking stall built requires extensive power system upgrades. Your Committees, therefore, respectfully ask the Committee on Ways and Means to request the Department of Accounting and General Services, as promised in their testimony, to provide a definitive cost estimate. Furthermore, your Committees find that it is not feasible to undertake this conversion project immediately because of ongoing construction projects and as such, has made this measure prospective to ensure that the current projects could be completed with the money that has been allocated.

As affirmed by the records of votes of the members of your Committees on Government Operations and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 968, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 968, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

Transportation and Culture and the Arts: Ayes, 3; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 329 Government Operations on S.B. No. 1196**

The purpose and intent of this measure is to clarify that board and commission holdover members shall not hold office beyond the end of the second regular legislative session following the expiration of the member's term of office regardless of any conflicting statutes.

Your Committee did not receive any testimony on this measure.

Your Committee finds that existing law allows a member of a state board or commission to continue as a holdover member until a successor is nominated and appointed. It is imperative that members of boards and commissions are appropriately and timely nominated and appointed to enable boards and commissions to meet and conduct business. However, no holdover member should serve beyond the end of the second regular session following the member's term of office without the advice and consent of the Senate. Your Committee further finds that this measure would clarify the law regarding holdover members of boards and commissions.

Your Committee has amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 330 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 1006**

The purpose and intent of this measure is to appropriate funds to the Department of Transportation to engage climate change adaptation measures for the State's low-lying roads and highways.

Your Committees received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Department of Transportation, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Hawaii Emergency Management Agency.

Your Committees find that the Department of Transportation estimates the cost of at least \$15 billion to protect the State's low-lying roads and highways susceptible to climate change-induced coastal erosion and flooding. While the Department of Transportation began assessments of dangers to the nine hundred seventy-one linear miles of affected state roads and highways, there is significant work ahead to ensure all roads are adequately protected. This measure appropriates funds to the Department of Transportation to address the impacts of climate change for the State's coastal roads and highways and ensures the Department of Transportation has the resources necessary to engage climate change adaptation.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1006, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1006, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

**SCRep. 331 (Joint/Majority) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 421**

The purpose and intent of this measure is to establish procedures for the Department of Transportation to assist and enable a person to voluntarily purchase a verified carbon offset for carbon dioxide emissions resulting from the person's air travel to or from an airport in the State.

Your Committees received testimony in support of this measure from the Department of Transportation and the Hawai'i Climate Change Mitigation and Adaptation Commission. Your Committees received testimony in opposition to this measure from the Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, 350Hawaii.org, and four individuals. Your Committees received comments on this measure from Climate Protectors Hawaii.

Your Committees find that climate change is the most pressing issue of the current generation. Within the transportation sector, the air transportation component faces difficult technical challenges in reducing carbon dioxide emissions associated with air travel as air travel is essential to tourism and a key driver of the State's economy. While the Federal Aviation Administration implemented the carbon offsetting and reduction scheme for international aviation, this program does not apply to the State or continental United States. To achieve the State's clean energy goals, this measure authorizes the Department of Transportation to assist and enable individuals to purchase a verified carbon offset for carbon dioxide emissions resulting from air travel to or from the State.

Your Committees have amended this measure by clarifying that any revenue received by the State for carbon offsets shall be directed to the Department of Land and Natural Resources to be utilized for:

- (A) Tree planting; or
- (B) Other initiatives that proportionally increase carbon sequestration.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 421, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 421, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Gabbard, Richards). Noes, 2 (DeCoite, Awa). Excused, none.

**SCRep. 332 (Joint) Public Safety and Intergovernmental and Military Affairs and Labor and Technology on S.B. No. 1572**

The purpose and intent of this measure is to:

- (1) Create a separate bargaining unit (16) for City and County Honolulu Emergency Services Department employees; and
- (2) Recategorize City and County of Honolulu Emergency Services Department employees from bargaining unit (10) into bargaining unit (16).

Your Committees received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO and sixty-six individuals. Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining. Your Committees received comments on this measure from the Department of Budget and Finance and Department of Human Resources of the City and County of Honolulu.

Your Committees find that City and County of Honolulu Emergency Services Department employees are burdened with high call volume, staffing shortages related to recruitment and retention, and work-related trauma. Your Committees believe that a separate bargaining unit for the City and County of Honolulu Emergency Services Department employees is critical for addressing the unique challenges they are currently faced with. This measure will help to address the problems these employees experience by creating a separate bargaining unit (16) for City and County of Honolulu Emergency Services Department employees and recategorizing City and County of Honolulu Emergency Services Department employees from bargaining unit (10) into bargaining unit (16).

Your Committees have heard the testimony of the Department of Budget and Finance and Department of Human Resources of the City and County of Honolulu expressing concerns regarding the increasing costs and complexities related to establishing, negotiating, arbitrating, and managing another bargaining unit and contract, particularly without added staff and resources. Your Committees find that this issue raises concerns that merit further consideration and request that your Committee on Ways and Means further examine those issues and concerns raised by the testifiers on this measure.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1572, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1572, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

**SCRep. 333 Judiciary on S.B. No. 149**

The purpose and intent of this measure is to:

- (1) Establish a continuous Legislature;
- (2) Require the Legislature to convene at least once a month;
- (3) Remove language regarding special sessions, adjournment, and recesses;
- (4) Create a two-year deadline for a bill to be submitted for gubernatorial consideration;
- (5) Standardize the number of days that the Governor must approve or veto a bill submitted for consideration;
- (6) Require bills returned by the Governor to be heard by the Legislature within an unspecified number of days for the bill to be further amended; and
- (7) Require the passage of the legislative budget within an unspecified number of days before the end of each fiscal year.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawai'i State Ethics Commission and one individual.

Your Committee finds that given the fast pace of the legislative session, people who are not full-time employed in advocacy may have a difficult time learning the process. To have the process compressed and rushed into sixty session days may prohibit the public from participating and advocating at the Legislature. This measure may allow for more public participation and engagement.

Your Committee has amended this measure by:

- (1) Inserting legislative findings;
- (2) Specifying that the Legislature shall not be exempted from any statutory law that prescribes requirements relating to open meetings, notice of meetings, meeting agendas, meeting minutes, or discussions outside of meetings;
- (3) Specifying that the members of the Legislature shall not have any employment outside of the Legislature;
- (4) Specifying that the annual budget shall pass each house and be submitted for gubernatorial consideration forty-five days before the end of the preceding fiscal year;
- (5) Specifying that in case the Legislature fails to convene to act upon any bill returned with objections by the Governor within thirty days after the bill's return, the bill shall not become law;
- (6) Making conforming amendments;
- (7) Inserting an effective date of January 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Salary Commission is to take into consideration the setting of salaries. Your Committee also notes that the State is much bigger than the last time the Hawaii State Constitution was amended and the population has since doubled, therefore a full-time legislative session is warranted.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, San Buenaventura). Noes, none. Excused, none.

**SCRep. 334      Judiciary on S.B. No. 813**

The purpose and intent of this measure is to:

- (1) Require the Judiciary to increase the hourly fees, mileage reimbursement rate, and commuter-time compensation rate for court interpreters; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Judiciary, Office of Language Access, Office of the Prosecuting Attorney of the County of Hawai'i, Supreme Court Committee on Court Interpreters and Language Access Subcommittee on Interpreters Fees, Hawai'i Health & Harm Reduction Center, Hawai'i Friends of Civil Rights, Hawai'i Coalition for Immigration Rights, Hawai'i State Coalition Against Domestic Violence, The Legal Clinic, Hawai'i Workers Center, and eleven individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that court interpreters are independent contractors of the Judiciary, who play an integral role in the administration of justice in the State, which has one of the highest proportions of non-English speakers in the nation. Your Committee further finds that court interpreters are often required to drive to distant courthouses, sometimes for hours, to provide interpretation services that are critical for a defendant with limited-English proficiency in exercising their constitutional and statutory right to represent themselves in court or assist counsels in doing so. However, despite the substantial increase in the cost of living in Hawaii over the years, including the considerable increase in the price of automobiles and gasoline, the compensation for court interpreters has remained unchanged for the most part since it was established in 2007. An increase in the fees and rates for court interpreters is overdue. This measure will ensure that court interpreters are paid fairly for their work.

Your Committee notes that this measure contains an unspecified appropriation amount, and respectfully requests that your Committee on Ways and Means consider inserting an appropriation amount of \$250,000.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 335      (Majority) Judiciary on S.B. No. 1074**

The purpose and intent of this measure is to:

- (1) Propose amendments to the Constitution of the State of Hawaii relating to the appointment and retention of justices and judges;
- (2) Authorize the Senate to approve or reject subsequent terms of office for supreme court justices;
- (3) Change the required time frames from thirty to ninety days for the process to appoint and consent to a justice or judge; and

- (4) Harmonize the senate consent procedures for district court judgeship nominees to mirror the senate consent procedures relating to supreme court justices, intermediate court of appeals, and circuit court judges.

Your Committee received testimony in opposition to this measure from the Judiciary, Office of the Public Defender, Judicial Selection Commission, Hawaii State Trial Judges Association, Hawaii State Bar Association, Community Alliance on Prisons, League of Women Voters of Hawaii, Hawai'i Friends of Civil Rights, Hawai'i Women Lawyers, Hawaii State Bar Association Litigation Section, Native Hawaiian Legal Corporation, Japanese American Citizens League, Hawaii Filipino Lawyers Association, Earthjustice, Hawaii State Committee of the American College of Trial Lawyers, and forty individuals. Your Committee received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the senate consent provisions of the Hawaii State Constitution relating to the appointment of district court judges are incongruous to those relating to supreme court justices and intermediate court of appeals and circuit court judges. In the case of supreme court justices and intermediate court of appeals and circuit court judges, if the Senate fails to reject an initial appointment to these courts within thirty days of receiving the appointment notice, the appointee is automatically considered appointed to the judicial position. For district court judgeship appointees, the exact opposite occurs. The appointee is automatically considered rejected if not consented to by the Senate within thirty days of receipt of the district court judgeship appointment. This measure will conform the district court judgeship consent procedures with the other judge's and justice's procedures.

Your Committee has amended this measure by:

- (1) Changing the required time frame for certain processes to appoint and consent to a justice's or judge's appointment from ninety days to forty-five days;
- (2) Restoring language that specifies that the Chief Justice shall appoint per diem district court judges;
- (3) Restoring language that specifies that at least six months prior to the expiration of the justice's or judge's term of office, every justice and judge shall petition the Judicial Selection Commission to be retained in office or shall inform the Commission of an intention to retire;
- (4) Deleting language that would have authorized the Senate to approve or reject retention of a supreme court justice;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1074, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, 2 (Elefante, Awa). Excused, none.

**SCRep. 336      Judiciary on S.B. No. 1277**

The purpose and intent of this measure is to make appropriations to satisfy claims against the State, its officers, and its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Transportation.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure serves as a vehicle by which payments of claims against the State are authorized and funded by an appropriation of general funds or moneys from the state highway fund, and that timely passage of this measure will minimize the State's obligation to pay interest that accrues on the claim amounts.

Your Committee has amended this measure by:

- (1) Including, at the request of the Department of the Attorney General, one additional claim that has been resolved and two miscellaneous claims for the reissuance of outdated checks that were misplaced or lost and for which a claim has been filed with the Attorney General in compliance with section 37-77, Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1277, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 337      Labor and Technology on S.B. No. 1141**

The purpose and intent of this measure is to transfer workers' compensation for the Hawaii State Public Library System (State Public Library) and its employees from the Department of Education to the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that Act 61, Session Laws of Hawaii 2012, clarified that when the Legislature enacted Act 51, Session Laws of Hawaii 2004, which, in part, transferred certain functions of executive branch agencies that pertained to education personnel to the

Department of Education, the Legislature had not intended to include the personnel of the State Public Library. According to testimony received by your Committee, although Department of Human Resources Development has been managing and administering the workers' compensation claims of the State Public Library employees since 2012 through memoranda of agreement, the Department of Human Resources Development has not received any additional staff or funding from Department of Education to address its increased responsibilities to the State Public Library and its employees.

Accordingly, your Committee has amended this measure by:

- (1) Inserting appropriations of unspecified amounts for the:
  - (A) Establishment of one full-time equivalent (1.0 FTE) position within the Department of Human Resources Development for the State Public Library and its employees; and
  - (B) Workers' compensation costs of the State Public Library and its employees;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 338 (Majority) Labor and Technology on S.B. No. 1315**

The purpose and intent of this measure is to exclude state and county retired employees hired after June 30, 2023, and their spouses from receiving Medicare income related monthly adjustment amounts as part of their Medicare Part B reimbursement payments.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Department of Budget and Finance. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers. Your Committee received comments on this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that many retired state employees contributed decades of years of service to the State in various roles. Presently, the State requires retirees and their dependents to enroll in Medicare Part B, if eligible; enroll in EUTF retiree medical or prescription drug plans; or both. To reduce significant costs to the State, this measure eliminates reimbursements of the Medicare Part B income related monthly adjustment amounts.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1315, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Fevella). Excused, none.

**SCRep. 339 Labor and Technology on S.B. No. 1384**

The purpose and intent of this measure is to:

- (1) Amend chapter 202, Hawaii Revised Statutes, to be consistent with the General Appropriations Act of 2021, Act 88, Session Laws of Hawaii 2021;
- (2) Rename the "Hawaii Workforce Development Council" as the "Hawaii Workforce Development Board", and the "county workforce development board" as the "local workforce development board";
- (3) Require the Hawaii Workforce Development Board (Board) and local workforce development boards to develop written conflict of interest policies consistent with federal laws and regulations;
- (4) Require the Governor to select the chairperson of the Board from among the private sector members; and
- (5) Repeal the requirement for the Department of Labor and Industrial Relations (DLIR) to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that not only does this measure align current statutes with federal regulations and requirements, but it also repeals the requirement for DLIR to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative, as the Initiative has not received any funding since fiscal year 2016-2017. Your Committee notes that the General Appropriations Act of 2021 eliminated the program identification number (LBR-135) of the Hawaii Workforce Development Council and believes that the Hawaii Workforce Development Board should have its own program identification number or subprogram identification number.

Your Committee has amended this measure by:

- (1) Deleting duplicative language codifying certain federal regulations regarding conflicts of interest into state law;
- (2) Clarifying that the Board is administratively attached to DLIR;
- (3) Requiring the Board to assist the Governor in coordinating with local workforce development boards to maximize and continue to improve the quality of service to develop a comprehensive and high-quality workforce development system;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1384, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 340 Labor and Technology on S.B. No. 1478**

The purpose and intent of this measure is to:

- (1) Establish an offensive cybersecurity program within the Office of Enterprise Technology Services to analyze and evaluate cybersecurity threats and increase cybersecurity awareness and education;
- (2) Establish a goal for all state and county agencies to identify and address vulnerabilities having a benchmark score exceeding 3.9 on the Common Vulnerability Scoring System by January 1, 2025;
- (3) Authorize the Office of Enterprise Technology Services to enter into memoranda of understanding and mutual aid agreements with other governments; and
- (4) Appropriate funds and authorize the establishment of positions.

Your Committee received testimony in support of this measure from the Judiciary, Office of Enterprise Technology Services, and one individual. Your Committee received comments on this measure from Department of Human Services.

Your Committee finds that the State requires dedicated resources that specialize in cybersecurity to combat the growing state of cyber threats and the speed at which cyber criminals target government entities.

Your Committee has amended this measure by:

- (1) Adopting recommendations from the Office of Enterprise Technology Services that:
  - (A) Delete redundant language regarding the definitions of established industry terms, authority to enter memoranda of understanding and mutual aid agreements, and authority to adopt administrative rules;
  - (B) Establish the Offensive Cybersecurity Program and disclosure requirements for cybersecurity incidents in section 27-43.5, Hawaii Revised Statutes, relating to the duties of the chief information officer rather than in a new part; and
  - (C) Extend the timeline for the Office of Enterprise Technology to identify and address the vulnerabilities of the state and county information technology systems that have a benchmark score exceeding 3.9 on the Common Vulnerability Scoring System to January 1, 2026;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains unspecified appropriation amounts for software, services, and an unspecified number of positions to establish the Offensive Cybersecurity Program. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$500,000 dollars and the number of three positions.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1478, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 341 Labor and Technology on S.B. No. 1490**

The purpose and intent of this measure is to require the State to:

- (1) Defend professionally licensed or certified state employees from civil actions when the employee was acting within the scope of their employment and was not grossly negligent or wanton; and
- (2) File a motion to be heard with the court when the State refuses to defend a state or county employee from civil actions on certain grounds.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Association for Justice; and Hawaii Workers Center. Your Committee received comments on this measure from the Department of the Attorney General and Department of Human Services.

Your Committee finds that although Act 44, Session Laws of Hawaii 2022 (Act 44), clarified the personal liability requirements for professionally licensed or certified employees of the State, it did not clarify the circumstances under which the State has a duty to defend its professionally licensed or certified employees.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

Your Committee finds that it remains unclear as to what protections the State can offer its professionally licensed or certified employees who were acting in the scope of their employment. Should your Committees on Judiciary and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that they consider this issue.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1490, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 342 (Majority) Labor and Technology on S.B. No. 211**

The purpose and intent of this measure is to clarify that service and compensation awarded as part of an administrative, arbitral, or judicial proceeding are included in the calculation of retirement benefits and service time for the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Department of Human Resources of the City and County of Honolulu; State of Hawaii Organization of Police Officers; Hawaii Fire Fighters' Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; University of Hawaii Professional Assembly; United Public Workers; and one individual. Your Committee received comments on this measure from Employees' Retirement System.

Your Committee finds that this City and County of Honolulu Mayor's package measure was introduced in response to a December 17, 2021 memorandum, which indicated that judgment settlements and awards to public employees who have challenged a suspension or termination may not necessarily be eligible for Employees' Retirement System benefits in terms of including the employee's retroactive service as creditable service and back pay as compensation. Your Committee recognizes the complexity of the ERS and notes the concerns raised with this measure that it would have a negative impact on ERS' tax qualified status, potentially increase pension-spiking, create an administrative burden on the ERS, and increase ERS' unfunded liabilities.

Accordingly, your Committee has amended this measure by:

- (1) Updating legislative findings;
- (2) Amending language as provided by the Employees Retirement System to provide specific guidance for the clear and determinable award or awards of retroactive reinstatement, retroactive rescission of suspension, retroactive pay differential, and backpay that are restored to an employee as part of an administrative, arbitral, or judicial proceeding;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 211, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

**SCRep. 343 (Majority) Labor and Technology on S.B. No. 270**

The purpose and intent of this measure is to implement a phased elimination of the tip credit by January 1, 2029.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Stonewall Caucus of the Democratic Party of Hawai'i; Labor Caucus of the Democratic Party of Hawai'i; Education Caucus of the Democratic Party of Hawai'i; Hawaii Iron Workers Stabilization Fund; Hawaii State AFL-CIO; International Longshore & Warehouse Union Local 142; International Alliance of Theatrical Stage Employees Local 665; Hawaii Teamsters & Allied Workers Local 996; University of Hawaii Professional Assembly; Imua Alliance; Hawaii Stevedores, Inc.; Pride at Work - Hawai'i Chapter; Hawai'i Workers Center; Hawaii Appleseed Center for Law and Economic Justice; Unite Here Local 5; Save Medicaid Hawaii; Living Wage Hawaii; and one hundred five individuals. Your Committee received testimony in opposition to this measure from Island Business Management Hawaii, LLC; Hawai'i Restaurant Association; Chamber of Commerce Hawaii; Highway Inn, Inc.; Gyotaku Japanese Restaurants; Magics Beach Grill; and three individuals.

Your Committee finds that the tip credit authorized by section 387-2, Hawaii Revised Statutes, allows employers to pay certain employees at a rate below the state minimum wage by calculating tips as a portion of the employee's wages. In light of the discussion regarding the benefits, costs, and proper application of the tip credit, your Committee looks to balance the interests of both small businesses and employees working in the State. According to oral testimony from the Department of Labor and Industrial Relations, since the enactment of Act 114, Session Laws of Hawaii 2022, which, in part, incrementally increases the state minimum wage and the state tip credit beginning October 1, 2022, the Department has not received any complaints that report a violation of the tip credit law. However, your Committee recognizes that employees who are earning less than minimum wage are not likely to report the wage and

hour law violation for fear of employer retaliation. Your Committee further finds that more time is needed for the Department of Labor and Industrial Relations to assess the effects of Act 114, Session Laws of Hawaii 2022, on the labor market before amendments may be made to the existing tip credit law.

Your Committee has amended this measure by:

- (1) Deleting language that would have implemented a phased elimination of the tip credit by January 1, 2029, and inserting language that:
  - (A) Requires the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the enforcement of the wage and hour law in the State;
  - (B) Requires the Director of Labor and Industrial Relations to establish:
    - (i) Investigation standards that protect the identity of an employee who files a complaint with the Wage Standards Division to report any wage and hour violations by their employer; and
    - (ii) An education program for employees and employers on federal and state wage and hour law, including tip credit and prohibitions against employer retaliation;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 270, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 270, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Ihara). Noes, 1 (Fevella). Excused, 1 (Keith-Agaran).

**SCRep. 344 Labor and Technology on S.B. No. 478**

The purpose and intent of this measure is to:

- (1) Repeal chapter 440J, Hawaii Revised Statutes (HRS), relating to telecommunications and cable industry information reporting requirements for broadband service providers; and
- (2) Amend the definitions of “broadband infrastructure” and “broadband provider” under Chapter 206R, HRS, relating to the Broadband Infrastructure Grant Program.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, CTIA, Hawaiian Telcom, and Charter Communications. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that this housekeeping measure eliminates an outdated federal reporting requirement that is no longer useful in determining broadband service ability in the State. Your Committee recognizes that, not only does the Federal Communications Commission no longer require reporting of broadband service availability by census block, it now requires reporting broadband service availability by locations based on addresses and geographic coordinates and makes this data publicly available. According to testimony received by your Committee, state telecommunications policies that align with the existing federal wireless regulatory regime create efficiency and removes barriers to deployment.

Your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to make available for public inspection all broadband coverage reports that providers have previously filed pursuant to chapter 440J, HRS; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 478, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 478, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 345 Labor and Technology on S.B. No. 801**

The purpose and intent of this measure is to:

- (1) Establish a qualified internship income tax credit for employers of qualified interns for taxable years beginning after December 31, 2023;
- (2) Require a report to the Legislature; and
- (3) Appropriate an unspecified amount of funds.

Your Committee received testimony in support of this measure from the Department of Education; Department of Labor and Industrial Relations; Chamber of Commerce Hawaii; HawaiiKidsCAN; FCH Enterprises, Inc.; Kapolei Chamber of Commerce; Hawai'i Gas; and one individual. Your Committee received comments on this measure from the Department of Taxation, University of Hawai'i System; and Tax Foundation of Hawaii.

Your Committee finds that many employers, especially small to medium-sized companies, may encounter difficulties in hiring and retaining student interns without assistance from the State to offer work-based learning opportunities and increase capacity to host student interns. According to testimony received by your Committee, equitable access to work-based learning opportunities provides all students with the means to obtain the experience and develop the skills necessary to succeed in the workforce.

Your Committee has amended this measure by:

- (1) Replacing the term "privilege period" with "taxable year";
- (2) Requiring the taxpayer to submit an application for initial approval for the tax credit and a certificate of claim to the Department of Labor and Industrial Relations;
- (3) Amending language to require both the Department of Taxation and the Department of Labor and Industrial Relations to submit a report to the Legislature regarding the qualified internship tax credit;
- (4) Extending the deadline for the reports to January 1, 2025;
- (5) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee urges the Department of Labor and Industrial Relations to work with the Department of Education and University of Hawai'i System to examine how the State can effectively encourage small businesses to take advantage of a qualified internship income tax credit.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 801, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 801, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 346 Labor and Technology on S.B. No. 812**

The purpose and intent of this measure is to:

- (1) Establish an Immigrant Services and Access Unit (Unit) within the Office of Community Services; and
- (2) Appropriate an unspecified amount of funds for certain positions in the Unit.

Your Committee received testimony in support of this measure from the Office of Community Services; Hawaii Friends of Civil Rights; The Filipino Community Center, Inc.; Hawai'i Coalition for Immigrant Rights; Hawaii Workers Center; The Legal Clinic; and three individuals. Your Committee received comments on this measure from the Office of Language Access and Department of Human Services.

Your Committee finds that H.C.R. No. 169, Session of 2021, requested the Department of Labor and Industrial Relations to convene a working group to improve access to government services for immigrants and increase immigrant opportunities to make civic and economic contributions to the community. According to testimony received from your Committee, although nearly one in five residents of the State are born abroad, only Hawaii County and Maui County have Offices of Immigrant Services, both of which are under-resourced and understaffed. Your Committee recognizes that although the State has one of the highest ratios of foreign-born individuals per capita in the country, unlike other states with high immigrant populations, there is no statewide agency to provide immigrant and refugee services. Your Committee notes that the Office of Community Services is not a direct services agency, but instead provides oversight to the nonprofit organizations that it contracts with to provide services to program beneficiaries.

Your Committee has amended this measure by:

- (1) Incorporating the recommendations from Hawaii Friends of Civil Rights, by:
  - (A) Making the duties of the Unit discretionary;
  - (B) Broadening the services offered by the Unit;
  - (C) Adding an additional function for the Unit to oversee and monitor the Immigrant Resource Center Program; and
  - (D) Amending language to give the Unit authority and flexibility to identify and provide various appropriate and comprehensive services for program beneficiaries;
- (2) Changing the number of positions requested for the Unit to an unspecified number;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 812, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 812, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 347 Labor and Technology on S.B. No. 1057**

The purpose and intent of this measure is to require job listings to include an hourly rate or salary range.

Your Committee received testimony in support of this measure from Women's Caucus of the Democratic Party of Hawai'i; Hawaii Appleseed Center for Law & Economic Justice; Fujiwara & Rosenbaum, LLLC; American Association of University Women; and ten individuals. Your Committee received testimony in opposition to this measure from Society for Human Resource Management. Your Committee received comments on this measure from Hawai'i Civil Rights Commission.

Your Committee finds that, for many job seekers who find an employment listing tailored to their experience and credentials, there is a lack of transparency regarding compensation. In particular, women and people of color have faced bias, which emerges in discriminatory pay and hiring practices by individual employers and a market that devalues jobs predominantly held by women. Secrecy around compensation perpetuates the continued discrimination against all workers, creating depressed wages that widen the pay gap for women and people of color. To implement pay transparency for Hawaii's workforce, this measure requires job listings to include an hourly rate or salary range.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1057, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 348 Water and Land on S.B. No. 1377**

The purpose and intent of this measure is to revise chapter 342D, Hawaii Revised Statutes, to:

- (1) Add wetlands to the definition of "state waters";
- (2) Clarify the Director of Health's role as a certifying agency including enforcement of water quality certifications; and
- (3) Increase certain statutory civil penalties.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Reef and Ocean Coalition.

Your Committee finds that the Department of Health has been authorized by the United States Environmental Protection Agency to administer the National Pollution Discharge Elimination System Program and the section 401 Water Quality Certification Program of the federal Clean Water Act. Your Committee further finds that this authority has been incorporated into chapter 342D, Hawaii Revised Statutes (HRS). Your Committee finds that to effectively administer these programs, the definitions and penalties in chapter 342D, HRS, must be consistent with the regulations of the Clean Water Act. Therefore, this measure revises chapter 342D, HRS, to add wetlands to the definition of "state waters", clarifies the Director of Health's role as a certifying agency and enforcer of water quality certifications, and increases certain statutory civil penalties.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1377, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1377, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 349 Water and Land on S.B. No. 1264**

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to establish limited entry commercial fisheries where appropriate or necessary to ensure certain commercial fisheries throughout the State remain healthy and sustainable while balancing the important economic role of commercial fisheries in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; and eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that certain commercially harvested fishery resources have become depleted and can no longer sustain unlimited commercial harvest. Limited commercial entry is a management method in which an agency or governing body limits the number of participants or vessels participating in a certain fishery as a means of reducing commercial fishing pressure on a particular fish species or group of fish species while still allowing some commercial take. Therefore, this measure authorizes the Department of Land and Natural Resources to establish limited entry commercial fisheries where appropriate or necessary to ensure certain commercial fisheries throughout the State remain healthy and sustainable while balancing the important economic role of commercial fisheries in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1264, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1264, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 350 Water and Land on S.B. No. 1386**

The purpose and intent of this measure is to clarify the conditions, manner, and areas in which the Commission on Water Resource Management of the Department of Land and Natural Resources can declare water shortages and emergencies.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Honolulu Board of Water Supply.

Your Committee finds that existing state law does not contemplate the existence of a water shortage or emergency due to an immediate degradation of water quality. As the Red Hill crisis has revealed, such shortages and emergencies can happen in an instant. Your Committee finds that the Commission on Water Resource Management reviewed the law and supports the amendments in this measure to implement water shortage and emergency declarations to be able to react to crises in a swift and comprehensive manner. Therefore, this measure clarifies the conditions, manner, and areas in which the Commission on Water Resource Management of the Department of Land and Natural Resources can declare water shortages and emergencies.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1386, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1386, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 351 Ways and Means on S.B. No. 70**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to obtain accreditation for the Department's conservation and resources enforcement program from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that this measure will restore the accreditation requirement that was in effect prior to the enactment of Act 183, Session Laws of Hawaii 2021 (Act 183). More specifically, Act 183 inadvertently repealed the entirety of section 134-16, Hawaii Revised Statutes, including the requirement that the conservation and resources enforcement program meet the law enforcement accreditation or recognition standards of the Commission on Accreditation for Law Enforcement Agencies, Inc., in the use of electric guns. Your Committee also finds that the program-wide accreditation required by this measure will ensure that the program more broadly meets current law enforcement standards.

Your Committee notes the request of the Department of Land and Natural Resources to change the deadline for obtaining accreditation from June 30, 2025, to June 30, 2029. Your Committee respectfully requests that this amendment be considered as the measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 70, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Keith-Agaran, Moriwaki).

**SCRep. 352 Ways and Means on S.B. No. 221**

The purpose and intent of this measure is to appropriate moneys as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the victim witness assistance program, known as the Victim Witness Kokua Services Unit.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Office of the Prosecuting Attorney of the County of Hawaii, and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the Victim Witness Kokua Services Unit assists in guiding victims, witnesses, and surviving family members through the criminal justice system before, during, and after the prosecution of criminal cases. Your Committee believes that this measure will help provide funding that is necessary to ensure the continuance of these vital services.

Your Committee notes that the Department of the Prosecuting Attorney of the City and County of Honolulu has requested \$736,785 for fiscal year 2023-2024 for the Victim Witness Kokua Services Unit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 221, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Aquino, Kim, Wakai).

**SCRep. 353 Ways and Means on S.B. No. 222**

The purpose and intent of this measure is to appropriate moneys as a grant-in-aid to the Department of the Prosecuting Attorney of the City and County of Honolulu for the career criminal prosecution unit.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, and Office of the Prosecuting Attorney of the County of Hawaii.

Your Committee finds that a disproportionate number of serious crimes are committed by multiple- and repeat-felony offenders, known colloquially as career criminals. Your Committee believes that the provision of funding for the Department of the Prosecuting Attorney of the City and County of Honolulu's career criminal prosecution unit is necessary to ensure the efficient and effective prosecution of these career criminals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 354 Ways and Means on S.B. No. 1302**

The purpose and intent of this measure is to appropriate or authorize funds for fiscal biennium 2023-2025 for collective bargaining cost items for the members of collective bargaining unit (5) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii State Teachers Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (5) and the public employer are ongoing. Your Committee further finds that allowing this measure to continue to advance through the legislative process will provide a vehicle to appropriate or authorize funds if an agreement is reached before the end of the current legislative session.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1302, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 355 Ways and Means on S.B. No. 1313**

The purpose and intent of this measure is to authorize the board of trustees of the Hawaii Employer-union health benefits trust fund to establish the salaries of the trust fund's administrator and chief investment officer.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that authorizing the board of trustees of the Hawaii employer-union health benefits trust fund to establish appropriate salaries for upper-management personnel will allow the board to recruit and retain the most qualified individuals to administer the daily activities of the trust fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1313, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 356 Ways and Means on S.B. No. 75**

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources for the development of a comprehensive inventory of historic properties and burial sites located in the State.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Historic Hawaii Foundation, International Archaeological Research Institute, Koolau Foundation, Niu Valley Community Association, Society for Hawaiian Archaeology, and three individuals.

Your Committee finds that by providing for a comprehensive inventory of historic properties and burial sites, this measure will help the State Historic Preservation Division to more effectively manage and protect the State's cultural and heritage resources.

Your Committee notes that the Department of Land and Natural Resources suggested in its written comments in support of this measure that \$750,000 per year for each allocation category may be appropriate to initiate the first phase of the multi-year effort to complete the statewide survey required by this measure.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 75, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 75, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 357 Ways and Means on S.B. No. 397**

The purpose and intent of this measure is to appropriate moneys to increase Medicaid payments to eligible health care professionals by up to one hundred percent of the current Medicare rates.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Human Services, Kaiser Permanente, Hawaii Pacific Health, AARP Hawaii, Healthcare Association of Hawaii, Hawaii State Center for Nursing, Hawaii Dental Service, American Physical Therapy Association of Hawaii, Big Island Docs, Hawaii Association of Health Plans, Hawaii Care Choices, Hawaii Medical Service Association, AlohaCare, Dr. Smith Family Medicine, The Queen's Health System, Hawaii Medical Association, Hilo Medical Center, and seven individuals.

Your Committee finds that providing Medicaid payments at one hundred percent of the Medicare rate will help the State recruit and retain health care providers, improve patients' access to care, and offer valuable training opportunities for medical students and residents.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$30,000,000 to an unspecified sum; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 397, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 358 Ways and Means on S.B. No. 730**

The purpose and intent of this measure is to support the restocking and restoration of Hawaiian fishponds.

Specifically, this measure appropriates moneys to the Department of Land and Natural Resources to:

- (1) Provide fingerlings and limu for the restoration and restocking of fishponds; and
- (2) Establish one full-time equivalent (1.0 FTE) aquaculture coordinator biologist VI position.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Kua'aina Ulu 'Auamo, Ko'olau Foundation, Food+ Policy Internship, Hawai'i Alliance for Progressive Action, and four individuals.

Your Committee finds that loko ia, or Hawaiian fishponds, can increase local food production, improve food security, perpetuate local and traditional practices, capture sediment that would otherwise enter the ocean and harm reefs, and provide employment opportunities to Hawaii residents. Your Committee further finds that production of fingerlings can be an important tool to manage fisheries, while also alleviating pressure on nearshore fish stocks.

Your Committee has amended this measure by:

- (1) Clarifying the purpose of the appropriation; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 730, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 730, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 359 (Majority) Ways and Means on S.B. No. 1314**

The purpose and intent of this measure is to exclude spouses of Hawaii Employer-Union Health Benefits Trust Fund employee-beneficiaries who are hired after June 30, 2023, from receiving Medicare Part B reimbursement payments, unless the spouse qualifies as an employee-beneficiary.

Your Committee received written comments in support of this measure from the Department of Budget and Finance.

Your Committee received written comments in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that the change in benefits implemented by this measure will reduce the State's other post-employment benefits costs by an estimated \$1,200,000,000 over the next thirty years, providing additional flexibility in the State's budget to accelerate pre-funding of other post-employment benefits, allocate funds for other priorities, and prepare for any future economic downturn.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1314, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1314, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 1 (Fevella). Excused, 2 (Kim, Wakai).

**SCRep. 360      Ways and Means on S.B. No. 1472**

The purpose and intent of this measure is to provide support for contracted behavioral health services that are overseen by the Behavioral Health Administration of the Department of Health.

More specifically, the measure appropriates funds to expand and enhance a variety of services provided by contracted service providers through the Hawaii Coordinated Access Resource Entry System (CARES) crisis helpline, including:

- (1) Suicide crisis hotline and crisis management services;
- (2) Crisis mobile outreach services;
- (3) Licensed crisis residential shelter services; and
- (4) Bed stabilization services.

Your Committee received written comments in support of this measure from the Hawaii Medical Association and one individual.

Your Committee received written comments on this measure from the Department of Health.

Your Committee recognizes the need to support the critical services provided through the Hawaii CARES crisis helpline and provide resources to accommodate the increased volume of calls to the helpline. Your Committee finds that this measure will provide the financial resources needed to improve or establish critical technology and infrastructure, retain necessary personnel, and expand and enhance existing services provided by contracted service providers through the CARES crisis helpline.

Your Committee notes that the Department of Health has requested in its written comments on this measure that certain unspecified appropriation amounts be replaced with the following specified amounts:

- (1) \$3,202,000 in Section 2 of the measure for the suicide crisis hotline and crisis management services; and
- (2) \$8,205,200 in Section 5 of the measure for bed stabilization services.

Your Committee respectfully requests that the Department's request be considered as the measure moves forward in the legislative process.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1472, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1472, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 361      Water and Land on S.B. No. 1254**

The purpose and intent of this measure is to designate the Kaiwi Coast Scenic Shoreline and adjacent lands as the Kaiwi Coast State Park and establish positions within the Department of Land and Natural Resources to support proper land and parks management along the Kaiwi coast.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Livable Hawaii Kai Hui, Ka Iwi Coalition, Sierra Club of Hawai'i, Surfrider Foundation Hawaii Region, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, Hawaii Bicycling League, Sustainable Coastlines Hawaii, and five individuals.

Your Committee finds that the lands of the Kaiwi coast are an invaluable natural asset for the people of Hawaii. However, your Committee finds that a growing interest in this area has brought a rapid increase in visitors, which has led to increased traffic and accidents and also the gradual deterioration of the environment and surrounding areas. Your Committee finds that collaboration between community organizations and government agencies is necessary to ensure safety, manage human impacts, prevent invasive species, and restore the local ecosystem along the Kaiwi coast. Therefore, this measure designates the Kaiwi Coast Scenic Shoreline and adjacent lands as the Kaiwi Coast State Park and establishes positions within the Department of Land and Natural Resources to support proper land and parks management at the Kaiwi coast.

Your Committee has amended this measure by:

- (1) Revising “Kaiwi coast master plans” to “Kaiwi state scenic shoreline master plans” for clarity;
- (2) Requiring staff of the Department of Transportation to be included as part of the planning and design process of the Kaiwi Coast State Park and Maunaloa-Makapuu Scenic Byway improvement projects;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1254, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1254, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 362 Water and Land on S.B. No. 1258**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to develop and implement a management system for Kaena Point State Park and the Makua and Keawaula regions; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, Protectors of Paradise, Iron Workers Stabilization Fund, Makaha Hawaiian Civic Club, Hawaii Reef and Ocean Coalition, and six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that Kaena Point State Park and the Makua and Keawaula regions are significant for their beauty, cultural and historical significance, and exceptional value to the Hawaiian community. However, your Committee further finds that in 2016, due to years of overuse and abuse from illegal driving on the beach, unmanaged camping, harmful fishing and gathering practices, and other recreational uses that resulted in hazardous accumulations of rubbish and human waste, areas of Kaena Point State Park and the Makua and Keawaula regions were closed to overnight access. The intent was to reopen with a proper management system in place that encompasses Hawaiian management values, balancing public use with the preservation of the aina, wildlife, and cultural resources. However, your Committee finds that a proper management system has yet to be implemented.

Your Committee finds that a proper management system for these areas is long overdue and that the implementation of a system to improve public safety and environmental protection is necessary. Therefore, this measure requires the Department of Land and Natural Resources to develop and implement a management system for Kaena Point State Park and the Makua and Keawaula regions.

Your Committee has heard the testimony of the Department of Land and Natural Resources, stating that while the Department agrees that Makua and Keawaula need updated community-based management planning and implementation, the Department is concerned this measure singles out Makua and Keawaula as a “top priority”, and requests that the language in this measure describing Makua and Keawaula as such be deleted. The Department also testified that appropriations will not be necessary in carrying out the intent of this measure.

Your Committee has amended this measure by:

- (1) Deleting the language that singles out Makua and Keawaula as a “top priority”;
- (2) Deleting the appropriation section;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 363 Water and Land on S.B. No. 1475**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to create a strategic plan for maintenance dredging of important port and harbor locations and report the plan to the Legislature; and
- (2) Require the Department of Land and Natural Resources to complete a minimum of two projects identified in the strategic plan.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that maintenance dredging is critical to the maintenance of small boat harbors, channels, ramps, and other port infrastructure in the State. However, under the current system, the necessary funding and permitting for maintenance dredging are not secured until the need for dredging becomes critical. Your Committee finds that this disorganized process can exacerbate the poor conditions at small boat harbors, allowing marine sediment and foreign debris to accumulate to shallow depths that can damage the

hulls of ships or cause a shutdown of the affected sites, which are important for recreation and subsistence fishing and use by the general public.

Your Committee finds that creating a strategic plan for maintenance dredging of small boat harbors, channels, ramps, and other port infrastructure in the State will spread resources based on actual need and allow ample time for permitting and public input before port infrastructure reaches a critical need. Therefore, this measure requires the Department of Land and Natural Resources to create a strategic plan for maintenance dredging of important port and harbor locations, report the plan to the Legislature, and require the Department of Land and Natural Resources to complete a minimum of two projects identified in the strategic plan.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount for maintenance dredging; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1475, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 364 Water and Land on S.B. No. 1459**

The purpose and intent of this measure is to establish a task force to examine the consequences of drinking water contamination detected at the Waipahu Wells II Granular Activated Carbon Treatment Facility.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Board of Water Supply, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the Waipahu-Ewa-Waianae water system serves approximately 217,500 individuals and is located on the leeward side of Oahu. Your Committee further finds that perfluorohexanoic acid, part of the group of chemicals known as forever chemicals, was detected in water samples collected at the Waipahu Wells II Granular Activated Carbon Treatment Facility. While the levels found at these wells are significantly below the action level based on current information, your Committee finds that further investigation is necessary for public health and safety. Therefore, this measure establishes a task force to examine the consequences of drinking water contamination detected at the Waipahu Wells II Granular Activated Carbon Treatment Facility.

Your Committee has amended this measure by:

- (1) Replacing as chair of the task force the Chairperson of the Commission on Water Resource Management, or the Chairperson's designee, with the member from the Department of Health selected by the Director of Health;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1459, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 365 Government Operations on S.B. No. 297**

The purpose and intent of this measure is to require organizations to obtain legislative approval prior to the disposition of land that was acquired with state grants.

Your Committee received testimony in support of this measure from the Office of Community Services.

Your Committee finds that implementation and clarification of statutory requirements for the disposition of land that was acquired with state grant funding will ensure alignment with legislative priorities, accountability of grant recipients, and value of grant funds spent by the State.

Accordingly, Your Committee has heard the concerns of the Office of Community Services that this measure, as drafted, does not consider existing encumbrances on real property made pursuant to the current version of section 42F-103(d), Hawaii Revised Statutes. Amendments to this measure are therefore necessary to incorporate compliance to this measure.

Your Committee has amended this measure by:

- (1) Inserting statutory language making the amendments made by this measure effective July 1, 2024; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 297, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 297, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 366 Government Operations on S.B. No. 349**

The purpose and intent of this measure is to specify that the nominated members of certain boards and commission are not subject to the Senate's advice and consent process.

Your Committee did not receive any testimony on this measure.

Your Committee finds that governmental advisory boards provide up-to-date information, critical thinking, and analysis to the decision-makers who represent the government entity that the board is advising, and that the advisory board does not make decisions. Your Committee further finds that the Governor is charged with nominating qualified individuals to state advisory board and commission positions, and not all advisory board commission nominees need to be subject to the advice and consent process of the Senate.

Your Committee also finds that to simply nullify all advice and consent of the Senate would remove an important component of oversight for the boards and commissions named in this measure. However, your Committee finds that requiring the entire Senate to repeatedly convene to provide advice and consent of these named boards and commissions places a burden on the body, and as such by limiting the advice and consent function to the Senate Standing Committee on Government Operations, the Senate can retain advice and consent function over these boards while not unduly burdening this body.

Your Committee has amended this measure by:

- (1) Allocating the advice and consent function specifically to the Senate Standing Committee on Government Operations;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 349, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 367 Government Operations on S.B. No. 415**

The purpose and intent of this measure is to make general contractors entering into or under contracts in the State for work on buildings, structures, or other private works liable for debt incurred by subcontractors for wages due to claimants for performance of labor in the contract between the general contractor and owner.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Regional Council of Carpenters, Pacific Resource Partnership, and Hawaii Laborers-Employers Corporation and Education Trust. Your Committee received testimony in opposition to this measure from the Associated Builders and Contractors Hawaii Chapter and one individual. Your Committee received comments on this measure from the General Contractors Association of Hawaii and Subcontractors Association of Hawaii.

Your Committee finds that the general contractor is the primary responsible party in a construction project. Often unscrupulous contractors do not exercise due diligence and support or ignore the unfair labor practices of the subcontractors they hire to complete projects who fail to pay wages owed to their employees. Your Committee appreciates that keeping abreast of multiple projects and subcontractors can be cumbersome; however, your Committee believes this measure will provide adequate protections for vigilant general contractors and address complicated marketplace abuses that occur in the construction industry.

Your Committee has amended this measure by:

- (1) Clarifying that a general contractor's liability for unpaid wages does not extend to consequential damages;
- (2) Clarifying that a court may award reasonable attorney's fees and costs to a prevailing party in an action for unpaid wages;
- (3) Limiting the attorney's fees and costs that may be awarded against a general contractor to unpaid wages of its direct employees;
- (4) Changing the requirement for initiation of an action against a general contractor to be one year from the actual performance of the labor, rather than the completion of the work, but no later than forty-five days after the date of completion as defined in section 507-43, Hawaii Revised Statutes;
- (5) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee has memorialized the agreement reached between the stakeholders with the Senate Draft of this measure; however, your Committee requests that your Committee on Consumer Protection further examine the concerns that have been raised by the subcontractors should it choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 415, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 415, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 368 Government Operations on S.B. No. 720**

The purpose and intent of this measure is to:

- (1) Add an exception to mandatory disclosure of government records for deliberative and pre-decisional government inter-agency or intra-agency records concerning an agency decision about a government action;
- (2) Require agencies to report their use of the exception to the Officer of Information Practices from July 1, 2023, through June 30, 2027; and
- (3) Require the Office of Information Practices to convene a working group to examine agency use of the exception and report to the Legislature prior to the Regular Session of 2029.

Your Committee received testimony in support of this measure from the Office of Information Practices; Department of Budget and Finance; University of Hawai'i System; Honolulu Board of Water Supply; University of Hawaii Professional Assembly; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Employees' Retirement System, League of Women Voters of Hawaii, and Grassroot Institute of Hawaii.

Your Committee finds that although public participation is not required in all government decisions, timely disclosure of relevant deliberative government records relative to the decision is necessary for meaningful participation, unless an exception applies. Your Committee further finds that there is a delicate balance forged between and amongst experienced practitioners representing media, government, the Office of Information Practices, and the public interest necessary to effectuate sound and considered decisions. Finally, your Committee finds that S.C.R. No. 192, Regular Session of 2022, required a working group to develop recommendations for statutory exceptions to the Uniform Information Practice Act to address the need for deliberative and pre-decisional agency processes and records in decision-making.

Your Committee has amended this measure by:

- (1) Reducing the limit for presumption of an abandoned matter by from three years to two years;
- (2) Deleting section 5 which would have required the Office of Information Practices to convene a working group by January 1, 2028, and report to the Legislature before the Regular Session of 2029;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

Your Committee finds it interesting that a member of the working group signed the report and did not elect to submit testimony outlining concerns or opposition to this measure, but the member has issued media reports expressly disparaging the working group product and this measure. Your Committee hopes that should your Committee on Judiciary choose to hear this measure, the member of the working group will choose to submit testimony on the measure expressing their opposition or concerns.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 720, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 720, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 369 Government Operations on S.B. No. 811**

The purpose and intent of this measure is to require state agencies to disaggregate data consistent with federal standards and require publication of the data.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, Hawai'i Coalition for Immigrant Rights, Hawai'i Workers Center, Hawai'i Friends of Civil Rights, and five individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Education, and one individual.

Your Committee finds that Asian Americans, Native Hawaiians, and other Pacific Islanders represent 46.5 per cent of the State's population. While Asian Americans, Native Hawaiians, and other Pacific Islanders are often misrepresented as a homogeneous group, they are an extremely diverse group, with ethnicities from over thirty different countries. Asian American, Native Hawaiian, and other Pacific Islander communities in this State experience diverse social, educational, health, and economic differences that are unique to their respective communities.

Further, your Committee finds that Hawaii's state agencies do not all keep or make accessible to the public demographic data in a standard or uniform manner that comports with the prevailing federal standards. Disaggregating race data for collection, analysis, and evaluation, access and dissemination can aid in shaping programs and policies to advance more equitable outcomes for all communities in the State. Your Committee also finds that the State has unique trust responsibilities with respect to Native Hawaiians, which are administered by a variety of state agencies, including but not limited to the Office of Hawaiian Affairs. Therefore, Your Committee finds that the uniform collection and sharing of data specific to Native Hawaiians is critical to the proper administration of the State's trust responsibilities and improving the conditions of Native Hawaiians through other similar initiatives.

Your Committee has amended this measure to reflect the testimony of stakeholders by:

- (1) Updating language to reflect a more accurate and inclusive representation of major Asian groups and Pacific Islanders;
- (2) Identifying the agencies required to improve processes relative to the collection and dissemination of disaggregated data;
- (3) Establishing a task force on twenty-first Century Data Governance that is required to report to the Legislature prior to the Regular Session of 2024;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 811, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 811, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 370 Government Operations on S.B. No. 991**

The purpose and intent of this measure is to:

- (1) Impose a cap on costs charged to reproduce certain government records;
- (2) Waive reproduction costs charged for the first one hundred pages if disclosure serves the public interest;
- (3) Waive costs charged to duplicate certain government records in an electronic format;
- (4) Impose a cap on costs charged to search for, review, and segregate records; and
- (5) Provide for a waiver of fees when a record's disclosure serves the public interest.

Your Committee received testimony in support of this measure from the Employees' Retirement System, Civil Beat Law Center for the Public Interest, All Hawaii News, Hawaii Bulletin, League of Women Voters of Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Office of Information Practices, Department of Accounting and General Services, Department of Budget and Finance, Department of Human Services, Department of Commerce and Consumer Affairs, Honolulu Police Department, Grassroot Institute of Hawaii, and the Hawaii Chapter of The Society of Professional Journalists.

Your Committee finds that public records laws provide a critical mechanism to maintain government accountability and transparency and support citizen involvement in government decision-making. The real-world consequences of restricting access to that information can range from serious to routine but, in all cases, result in a less informed citizenry. Fee waivers offer a simple and flexible solution. By providing public interest fee waivers uniformly, the public records request process can provide equity to access.

Your Committee notes that this measure is adopting the Freedom of Information Act standard, which allows for waivers for media if the request is likely to contribute significantly to the public's understanding of the operations or activities of the government and is not primarily in the commercial interest. Simply having a commercial interest is not a disqualifier for a fee waiver.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$185,000 to establish two full-time equivalent permanent positions within the Office of Information Practices;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Office of Information Practices expressing concerns about the significant effect the changes proposed by this measure would potentially have on increasing the staff workload. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committees on Judiciary and Ways and Means further examine those issues and concerns raised. Your Committee also respectfully asks the Committees on Judiciary and Ways and Means to request that the Civil Beat Law Center for the Public Interest, as promised in their testimony, provide a report of charges for government records requested in 2022.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 991, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 991, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 371 Government Operations on S.B. No. 1416**

The purpose and intent of this measure is to:

- (1) Require any report of a study or an audit enacted with a legislative appropriation or adopted by concurrent resolution and conducted by an executive department or agency, to be submitted to the Senate President, Speaker of the House of Representatives, the chairs of the appropriate subject matter committee of each house, and the Legislative Reference Bureau library;

- (2) Require a public hearing or informational briefing within one year of receipt of the report, except under certain circumstances;
- (3) Exempt financial and other regularly occurring audits; and
- (4) Require state departments and agencies to submit a report to the Legislature on certain information regarding funded state programs enacted into law within a year of passage.

Your Committee received testimony in support of this measure from the Office of the Auditor. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, every year, laws are enacted that require new studies and audits of various state government departments or agencies. Conducting and completing many of these studies and audits requires an appropriation and also consumes valuable time and resources of the department, agency, office, or branch of government tasked with preparing the study or audit. Your Committee also finds that the resultant report is often not widely reviewed by the Legislature or public and can sometimes go completely unnoticed despite the fact that these reports can contain valuable information. Your Committee further finds that mandating a public hearing or informational briefing that would facilitate discussion and analysis of the report findings and recommendations would better serve the public interest.

Your Committee has heard the testimony of the Office of the Auditor stating that their role is categorically dissimilar to the departments and agencies listed in the measure. Specifically, the Office of the Auditor conducts audits and prepares performance audits. Your Committee recognizes that this measure should also allow for mandatory hearings by the pertinent subject-matter committees on performance audits prepared by the legislative advocate.

Accordingly, your Committee has amended this measure by:

- (1) Removing the Auditor from the list of agencies subject to procedures for consideration of reports;
- (2) Specifying procedures for consideration of performance audit reports issued by the Office of the Auditor, including language requiring a public hearing or information briefing within one year of the issuance of the performance audit report;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1416, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1416, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 372 (Majority) Government Operations on S.B. No. 1438**

The purpose and intent of this measure is to transfer the Office of Consumer Protection from the Department of Commerce and Consumer Protection to the Department of the Attorney General.

Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection of the Department of Commerce and Consumer Affairs, and one individual. Your Committee received comments on this measure from Office of the Attorney General and Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the Office of Consumer Protection is a division of the Department of Commerce and Consumer Affairs whose purpose is to promote fair and honest business practices by investigating alleged violations of consumer protection laws, taking legal action to stop unfair or deceptive practices in the marketplace, and educating the consumer public and businesses regarding their respective rights and obligations.

Your Committee has serious concerns about this measure as it could dilute the efficacy of the Office of Consumer Protection if it were placed in a subservient role within the Department of the Attorney General. Your Committee recognizes that the determination of whether the jurisdiction of the Office of Consumer Protection should be within the Department of Commerce and Consumer Affairs or the Department of the Attorney General should be made by the subject-matter Committee under which these departments fall. As such, your Committee respectfully requests your Committees on Commerce and Consumer Protection, Judiciary, and Ways and Means, should they choose to hear this measure, to thoroughly debate whether the placement of the Office of Consumer Protection within the Department of the Attorney General is in the best interest of the function of the agency.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1438, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 373 Government Operations on S.B. No. 613**

The purpose and intent of this measure is to:

- (1) Require each house of the Legislature to establish by its rules, procedures that enable the Legislature to use remote testimony at legislative committee hearings, enable the public to present oral testimony at legislative committee hearings through remote testimony, and accommodate persons with disabilities through remote testimony; and
- (2) Define “remote testimony”.

Your Committee received testimony in support of this measure from the Hawai‘i State Council on Developmental Disabilities, League of Women Voters of Hawaii, Hawai‘i Alliance of Nonprofit Organizations, and four individuals.

Your Committee finds that the emergence of the coronavirus disease 2019 and temporary rules enabled the public to participate in the legislative process via live, real-time remote testimony, thus circumventing geographic challenges specific to the State. Expanded public access through the use of technology also provides persons with disabilities another means of accessibility to participation in policy processes. Therefore, your Committee finds that remote testimony should be made permanent.

Your Committee also finds that allowing remote testimony has proven to be an immeasurable asset in allowing members of the public from the neighbor islands to participate through in-person testimony and to engage committee members in questions and answers without the burden of lost time and expense in having to travel to the Hawaii State Capitol to be able to testify in person.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 374 Judiciary on S.B. No. 1559**

The purpose and intent of this measure is to amend the State Constitution to allow electronic copies, as an alternative to printed copies, of a bill to be made available for members of a house in which the bill is being voted upon for third or final reading in fulfillment of the forty-eight-hour availability requirement.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that unnecessary resources such as time, labor, and paper are used to meet the requirement that printed copies of a bill be made available for members of a house of the Legislature when the bill is being voted upon on third or final reading. This measure will make it easier for a house to meet the forty-eight-hour availability requirement and conserve resources.

Your Committee has amended this measure by specifying that the ballot question is “[s]hall the Hawaii State Constitution be amended to allow an electronic copy of a bill, in addition to the existing option to provide a printed copy of a bill, to fulfill the procedures for a third or final vote of the Legislature?”.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1559, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1559, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 375 (Majority) Judiciary on S.B. No. 1561**

The purpose and intent of this measure is to propose a constitutional amendment to allow citizens who are seventeen years of age but will be eighteen years of age on or before the next general election to vote at the primary election immediately preceding the general election by which the citizen will attain the age of eighteen and any intervening or co-occurring special election.

Your Committee received testimony in support of this measure from 350Hawaii and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the age qualification to vote in any federal, state, or local election is eighteen years of age. However, for those individuals whose eighteenth birthday falls between a primary and general election, the current age restriction effectively prevents them from participating in state and local primary elections. Your Committee believes that providing these individuals with the ability to vote in the state and county primary elections and any intervening or co-occurring special election immediately preceding the state and county general election will give young individuals the opportunity to vote while still in high school, which will encourage greater civic engagement, voter turnout, and voter participation amongst the State’s youth.

Your Committee has amended this measure by:

- (1) Incorporating changes proposed by the Department of the Attorney General that limit this measure to county and state elections;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1561, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1561, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 376      Judiciary on S.B. No. 494**

The purpose and intent of this measure is to:

- (1) Require counties to establish expedited procedures to approve demolition permits for vacant and abandoned residential properties; and
- (2) Allow the Department of Taxation to satisfy certain tax liens through the nonjudicial foreclosure of vacant and abandoned residential properties at any time after establishing vacancy and abandonment.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu, two members of the Honolulu City Council, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that abandoned residential properties can impose significant costs on the community and become public safety hazards and magnets for criminal activity. Your Committee further finds that it is in the public's interest to encourage the use of residential properties and reduce the number of vacant and abandoned homes in the State. This measure will reduce the potential hazards associated with vacant and abandoned residential properties and ensure that they are promptly removed from Hawaii communities.

Your Committee has amended this measure by:

- (1) Specifying that expedited processing of a permit to demolish vacant residential structures shall take not more than twenty-one days from the date of the permit application;
- (2) Specifying that expedited processing for permits to demolish vacant residential structures shall commence no later than January 1, 2024;
- (3) Specifying that an application for a building permit for new construction, rehabilitation, or reconstruction on the parcel for which the expedited demolition permit was approved shall be denied if the permit application for new construction, rehabilitation, or reconstruction is submitted within three hundred sixty-five days of the approval of the expedited demolition permit;
- (4) Specifying that the Department of Taxation shall establish that a residential structure is vacant and abandoned by mailing to the residential structure's owner by certified mail with return receipt a sworn statement establishing that the Department of Taxation has conducted at least two separate inspections, each at least seven days apart and at different times of day, and at each inspection, no occupant was present and there was no evidence of occupancy;
- (5) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 494, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 377      (Joint) Judiciary and Hawaiian Affairs on S.B. No. 57**

The purpose and intent of this measure is to appropriate funds for staff positions and various services to support the 'Ōlelo Hawai'i initiatives of the Judiciary.

Your Committees received testimony in support of this measure from the Judiciary, Office of Hawaiian Affairs, and five individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that article XV, section 4, of the Hawaii State Constitution affirms that English and 'Ōlelo Hawai'i (Hawaiian language) shall be the official languages of the State. Your Committees further find that the Judiciary has already taken initial steps to explore ways of providing 'Ōlelo Hawai'i resources, interpreter, and translation services to the public. To advance this work, the Legislature adopted a concurrent resolution, H.C.R. No. 217, Session Laws of Hawaii 2015, that requested the Judiciary to convene a task force to examine and report on establishing 'Ōlelo Hawai'i resources for the Judiciary. The task force report made several findings, including that 'Ōlelo Hawai'i "possesses appropriate specificity, sophistication, and technical breadth of terminology to accurately translate legal terminology from English into 'Ōlelo Hawai'i." Further, the task force found that as an independent branch of government, the Judiciary could effectively serve as a focused model to demonstrate the use of 'Ōlelo Hawai'i. The task force report made several recommendations and identified projects that can serve as a guide to the Judiciary. This measure will appropriate funds to support the implementation of the Judiciary's 'Ōlelo Hawai'i initiatives and ultimately the revitalization of the Hawaiian language.

Your Committees have amended this measure by:

- (1) Appropriating \$300,000 to the Judiciary to support 'Ōlelo Hawai'i projects rather than appropriating funds for positions and services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 57, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 57, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).  
 Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).

**SCRep. 378 (Joint/Majority) Housing and Government Operations on S.B. No. 861**

The purpose and intent of this measure is to direct the Legislative Reference Bureau to conduct a study of a housing savings account system.

Your Committees received testimony in support of this measure from the Hawaii Credit Union League. Your Committees received comments on this measure from the Legislative Reference Bureau.

Your Committees find that affordable housing in the State has reached crisis levels. Creative solutions are needed to combat this crisis. This measure requires a study of the viability of establishing a housing savings account system for employees and employers. However, your Committees received testimony from the Legislative Reference Bureau expressing concerns that the agency lacks the subject matter expertise to conduct the study as requested.

Accordingly, your Committees have amended this measure by:

- (1) Authorizing the Legislative Reference Bureau to contract for services to conduct the study;
- (2) Extending the timeframe for completion of the study and the report to the Legislature to 2025; and
- (3) Inserting an appropriation in the amount of \$500,000 for the Legislative Reference Bureau to contract for services to complete the study.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 861, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 861, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.  
 Government Operations: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Wakai).

**SCRep. 379 Water and Land on S.B. No. 44**

The purpose and intent of this measure is to:

- (1) Add a minimum penalty of \$50 per violation of the State Water Code and make each day that a violation exists or continues a separate offense; and
- (2) Require the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that in 1987, the State Water Code was adopted to protect the precious water resources of the State. To better enable the Department of Land and Natural Resources and Commission on Water Resource Management to carry out that mission, your Committee further finds that the State Water Code's penalties and fines must be amended and increased to serve as an effective deterrence to violators. Therefore, this measure adds a minimum penalty of \$50 per violation of the State Water Code and makes each day that a violation exists or continues a separate offense and requires the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation.

Your Committee has amended this measure by:

- (1) Raising the maximum penalty per violation to \$25,000, from \$5,000;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 44, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
 Ayes, 5. Noes, none. Excused, none.

**SCRep. 380 Water and Land on S.B. No. 66**

The purpose and intent of this measure is to prohibit purposeful harassment with the intent to prevent the taking of fish by persons who are fishing in state waters.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and nine individuals. Your Committee received testimony in opposition to this measure from For the Fishes; Hawai'i Reef and Ocean Coalition; Big Island Reef Keepers Hui; Friends of Hanauma Bay; Kauhakō Ohana Association; Hawaii Marine Education and Research Center; Surfrider Foundation; and eight individuals. Your Committee received comments on this measure from Kua'āina Ulu 'Auamo and one individual.

Your Committee finds that existing state law protects fishers from harassment if they are taking fish pursuant to a freshwater game fishing license. However, your Committee finds that there is a need to extend these protections to all persons fishing in marine waters to promote the safety and enjoyment of individuals engaged in fishing activities. Therefore, this measure prohibits purposeful harassment with the intent to prevent the taking of fish by people who are fishing and extends protections against harassment to all persons fishing in marine waters.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 66, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 66, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, McKelvey, Fevella). Noes, none. Excused, none.

**SCRep. 381 Water and Land on S.B. No. 770**

The purpose and intent of this measure is to appropriate funds for a grant-in-aid to the County of Hawaii to hire an engineering firm to study, plan, assist, and conduct preliminary design and concept work for a two-phase project to restore the Kahaluu Beach Park in the County of Hawaii, conditioned upon the County of Hawaii's contribution of matching funds.

Your Committee received testimony in support of this measure from the State of Hawai'i Aha Moku, Department of Research and Development of the County of Hawai'i, one member of the Hawai'i County Council, Department of Parks and Recreation of the County of Hawai'i, Kahalu'u Bay Education Center, Kauhakō Ohana Association, Clean the Pacific, ReefTeach Program, Friends of Hanauma Bay, Hawai'i Reef and Ocean Coalition, Dear Ocean, and forty-four individuals.

Your Committee finds that, during the 2021 Regular Session, the Senate adopted Senate Concurrent Resolution No. 52, S.D. 1 (2021), which requested the collaboration of the Department of Land and Natural Resources and the County of Hawaii to identify and develop plans to avoid further deterioration from the rising sea levels at Kahaluu Bay. The resulting interagency working group has since been planning for the restoration of Kahaluu Beach Park. Your Committee believes that the group's findings warrant funding and prioritization. Therefore, this measure appropriates funds for a grant-in-aid to the County of Hawaii to hire an engineering firm to study, plan, assist, and conduct preliminary design and concept work for a two-phase project to restore the Kahaluu Beach Park in the County of Hawaii, conditioned upon the County of Hawaii's contribution of matching funds.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 770, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 770, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 382 Water and Land on S.B. No. 772**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to establish and conduct the Marine Life Conservation District Carrying Capacity Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, and one individual. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition, Calypso Charters, and one individual.

Your Committee finds that marine life conservation districts (MLCDs) are established by the Department of Land and Natural Resources to conserve and replenish the State's marine resources. Your Committee further finds that because MLCDs permit non—consumptive uses, such as swimming, snorkeling, and diving, these areas are highly frequented by locals, visitors, and ocean recreation businesses. Your Committee finds that appropriate carrying capacity restrictions, such as a twice—weekly closure requirement, reservation system, differential parking fees for residents and non-residents, \$25 entry fee for non—residents more than thirteen years of age, and mandatory education for visitors, can improve an area's marine ecosystem and ensure that ocean resources and user experiences do not deteriorate. Therefore, this measure requires the Department of Land and Natural Resources to establish and conduct the MLCD Carrying Capacity Program.

Your Committee has heard the testimony of the Department of Land and Natural Resources, expressing their concern that it may be difficult to monitor and document the effectiveness of mandatory kapu or fees or other restrictions at specific MLCDs without having the legal authority or practical means to implement those measures to test them. The Department further testified that the Department lacks the legal authority to implement mandatory closures of high-traffic areas in MLCDs for the purpose of conducting a study.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources will monitor, document, and assess the effectiveness of mandatory and voluntary kapu and closures of ecologically or culturally sensitive areas, rather than high-traffic areas, in state designated MLCDS;
- (2) Requiring the Department of Land and Natural Resources to monitor, document, and assess the effectiveness of mandatory or voluntary restrictions on certain activities in state-designated MLCDS;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 772, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 383 Water and Land on S.B. No. 1064**

The purpose and intent of this measure is to:

- (1) Establish the dam and appurtenance loan and grant programs for plans, design, construction, and equipment that is used to improve deficient dams and appurtenances as determined by the Department of Land and Natural Resources and approved by the Board of Land and Natural Resources;
- (2) Specify eligibility requirements for dam and appurtenance improvement grants; and
- (3) Establish the dam and appurtenance improvement tax credit for expenditures for dam and appurtenance improvements that bring dams and appurtenances up to code.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Taxation, and Department of Budget and Finance.

Your Committee finds that some plantation era reservoirs across the State, including locations in Maui County, are on lands sold by plantation landowners to developers. Your Committee further finds that following the sale, developers constructed subdivisions and often included the existing dams and appurtenances within the deeds to the homeowners. However, these dams and appurtenances are often not properly maintained and, during periods of extreme weather, the surrounding neighborhoods face significant risks from flooding. Your Committee also finds that despite the potential hazards posed by these dams and appurtenances, the Department of Land and Natural Resources consider them to be privately owned and therefore the responsibility of the homeowners to maintain. Your Committee further finds that due to the costly nature of repairing dams and appurtenances, many remain in an unsafe condition. Therefore, this measure establishes the dam and appurtenance loan and grant programs and the dam and appurtenance tax credit to help private homeowners improve deficient dams and appurtenances.

Your Committee has heard the testimony of the Department of Land and Natural Resources, expressing concern that a loan program would not be feasible because: (1) the typical dam owner affected by this measure will unlikely have a consistent revenue stream to qualify for a loan or service the debt on a loan; (2) the issuance of special purpose revenue bonds would eliminate the need to create a redundant loan program; and (3) a loan program would be costly to administer. As for the tax credit program, the Department testified that it has no expertise in issuing tax credits.

Therefore, your Committee has amended this measure by:

- (1) Eliminating the proposed dam and appurtenance improvement loan program and tax credit, and eliminating the associated business loan officer full-time equivalent (1.0 FTE) position;
- (2) Allowing grant applicants to use grant proceeds for either the remediation or the removal of a deficient dam or appurtenance, and amending the name of the grant program to reflect its amended purpose;
- (3) Providing a one-time appropriation for seed funding for the dam and appurtenance improvement or removal grant program;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1064, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 384 Water and Land on S.B. No. 1066**

The purpose and intent of this measure is to establish within the Department of Land and Natural Resources a water security working group to study and recommend priority capital improvement projects for legislative consideration that leverage public-private investment to increase Hawaii's water security.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Ulupono Initiative, and one individual.

Your Committee finds that over a century ago, Hawaii's plantation agricultural enterprises supported and created water infrastructure. Your Committee further finds that while those historic investments established the water infrastructure that is used today, the industry has since left the State along with the money necessary to maintain it. Your Committee also finds that new and innovative investment partnerships and community engagement are needed to mobilize large-scale investment in Hawaii's fresh water security. This will require partners from multiple sectors, including the county, state, and federal governments, as well as private philanthropic and corporate entities, to work together to leverage funds and provide matching opportunities. Therefore, this measure establishes within the Department of Land and Natural Resources a water security working group to study and recommend priority capital improvement projects for legislative consideration that leverage public-private investment to increase Hawaii's water security.

Your Committee has amended this measure by:

- (1) Requiring the Department of Land and Natural Resources to include in its study and report to the Legislature funding and financing strategies for each recommended project;
- (2) Adding to the working group the Administrator of the Division of Forestry and Wildlife of the Department of Land and Natural Resources, or Administrator's designee, and the Deputy Director of the Department of Health, or Deputy Director's designee;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1066, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 385 Water and Land on S.B. No. 1153**

The purpose and intent of this measure is to:

- (1) Establish a Honolua Bay Advisory Board to administer the Honolua Bay Special Fund and oversee the conservation of Honolua Bay;
- (2) Establish the Honolua Bay Special Fund for conservation purposes and the upkeep and maintenance of Lipoa Point;
- (3) Establish a fee system for tour boats entering Honolua Bay and marine life conservation district;
- (4) Require the Department of Land and Natural Resources to include and incorporate Honolua Bay into the Division of State Parks' online reservation system; and
- (5) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku, one member of the Maui County Council, and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, Trilogy, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the purchase of Lipoa Point, which is the home of the iconic Honolua Bay, was a milestone in the State's preservation of important natural areas. However, your Committee also finds that despite this monumental acquisition, the Department of Land and Natural Resources has squandered this historic investment by failing to allocate sufficient funds for much needed remediation of erosion and other types of necessary care for the area. Your Committee finds that numerous visitors frequent Honolua Bay and that visitor fees could provide a meaningful source of revenue to heal and protect Honolua Bay and preserve it for the future use of all. Therefore, this measure establishes the Honolua Bay Special Fund for conservation purposes and the upkeep and maintenance of Lipoa Point.

Your Committee has heard the testimony of the Ocean Tourism Coalition, requesting that the fee system for tour boats that enter the Honolua Bay marine life conservation district be removed. The Ocean Tourism Coalition testified that in 2021, they collaborated with the Division of Aquatic Resources to pass legislation that will charge boat operators a \$1 per passenger fee starting in 2024, known as the Ocean Stewardship Fee, and that fees to support the Honolua Bay should come from those who are not already paying.

Your Committee has also heard the testimony of the Hawaii State Aha Moku, requesting that members who are generational and lineal descendants from the Honolua and Honokohau ahupuaa be added to the advisory board to ensure that direct descendants are represented in the advisory board's decision-making process.

Therefore, your Committee has amended this measure by:

- (1) Eliminating the proposed fee system for tour boats that enter the Honolua Bay marine life conservation district;
- (2) Adding one member to the advisory board who is a generational and lineal descendant of the Honolua ahupuaa and one member to the advisory board who is a generational and lineal descendant of the Honokohau ahupuaa;
- (3) Amending section 1 to reflect its amended purpose;

- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1153, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 386 (Joint/Majority) Housing and Water and Land on S.B. No. 1286**

The purpose and intent of this measure is to:

- (1) Increase options to build affordable housing in Hawai'i Community Development Authority (HCDA) districts by increasing the permissible lease term to ninety-nine years; and
- (2) Prohibit HCDA from leasing lands that were classed as crown lands prior to August 15, 1895, for a term longer than sixty-five years.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawai'i Community Development Authority. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that given the acute lack of affordable housing in the State, a multi-pronged approach is necessary to meet the current and future housing demands. Leasehold housing units tend to be more affordable than fee simple housing units, if the land on which housing is developed is owned by the State and leased to a developer for housing development. Developing multi-family housing units on a lot lowers the cost of land for the development, which in turn will lower the sales price of the housing units. Because the cost of leasehold land is lower than fee simple land and paid over a longer period, it further reduces the land cost and makes the housing units even more affordable. Additionally, the State will continue to be the fee owner of the land. Thus, encouraging development of for-sale leasehold housing units is a viable strategy in meeting housing demand. Therefore, this measure authorizes HCDA to lease real property, except certain crown lands, for a term of ninety-nine years.

Your Committees note the testimony of the Office of Hawaiian Affairs maintaining that the Native Hawaiian people continue to assert their claim to crown and government lands; claims that have yet to be settled. Your Committees also note the Office of Hawaiian Affairs' request that the provision in the measure that prohibits HCDA from leasing real property classed as crown lands prior to August 15, 1895, also be applied to lands that were classed as government lands prior to August 15, 1895. Your Committees request the Committees on Ways and Means and Judiciary consider this issue should they hear this measure.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1286 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.  
Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

**SCRep. 387 (Joint) Agriculture and Environment and Government Operations on S.B. No. 175**

The purpose and intent of this measure is to:

- (1) Require state agencies to implement an on-site recycling program using rules issued by the Department of Health, in conjunction with the Office of Planning and Sustainable Development, at buildings and facilities managed, maintained, or serviced by the Department of Accounting and General Services; and
- (2) Require and appropriate funds for the Department of Health, in conjunction with the Office of Planning and Sustainable Development, to conduct a study on the benefits and costs in increasing reuse and reduce efforts throughout the State, recycling streams, and solid waste management in Hawaii.

Your Committees received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Environmental Caucus of the Democratic Party of Hawai'i, and five individuals. Your Committees received comments on this measure from the Department of Health and Office of Planning and Sustainable Development.

Your Committees find that zero waste living is an environmental ideal that the State aspires to one day realize. With zero waste living, waste is eliminated throughout the product lifecycle and zero waste products end up in a landfill or are destroyed by high temperature incineration. Your Committees further find that the State had previously set a recycling goal to reduce the solid waste stream prior to disposal by fifty percent through source reduction, recycling, and bioconversion by January 1, 2000. However, this statutory target has never been met, peaking at forty-three percent in 2015, and has since dropped precipitously to 24.8 percent in 2022. Your Committees acknowledge this decline and find importance in aligning the State with the Hawai'i 2050 Sustainability Plan, which recommends that the State should comply with laws requiring recycling in state-owned facilities and incorporate principles of waste minimization and pollution prevention, such as reducing, reusing, and recycling as a standard operating practice in programs. Thus, this measure requires state agencies to implement an on-site recycling program at buildings and facilities managed, maintained, or serviced by the Department of Accounting and General Services and requires the Department of Health, in conjunction with the Office of Planning and Sustainable Development, to conduct a study on the benefits and costs in increasing reuse and reduce efforts throughout the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 175 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 388 (Joint) Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs on S.B. No. 655**

The purpose and intent of this measure is to give authority to the Department of Agriculture to align state hemp production administrative rules with federal law when concerning exemptions for fiber, fuel, and seed grain hemp crops.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Hemp Farmers Association, Hawai'i Farm Bureau, Aina Ho'okupu o Kilauea, and eleven individuals. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that Hawaii's hemp industry is the most regulated in the nation and that overregulation hinders valuable growth in the industry, which otherwise could foster sustainable resources and food security in Hawaii, particularly with regard to the fiber, fuel, and seed grain sectors. Your Committees additionally find that there are numerous projects in the State examining the many uses of hemp, but most of these projects import hemp due to the regulatory barriers to growing hemp in Hawaii. This measure gives the Department of Agriculture authority to align state hemp regulations with federal law to minimize any unnecessary regulations that hamper the growth and production of Hawaii's hemp industry.

Your Committees have amended this measure by:

- (1) Inserting language as recommended by the Hawai'i Hemp Farmers Association, which gives the Department of Agriculture the authority to regulate commercial hemp production rules to align with federal laws;
- (2) Repealing unnecessary statutory language relating to nuisance, as recommended by the Department of Agriculture, since pre-existing regulations and authority under the Department of Health and county land use ordinances already address the areas of nuisance referenced, and to avoid confusion and any challenges brought on by a duplicative enforcement framework; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 655, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 655, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 389 (Joint) Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1466**

The purpose and intent of this measure is to establish and appropriate funds for a cesspool pilot program within the Environmental Management Division of the Department of Health to work with each county to identify a priority area to connect individual properties to a centralized sewage system to reduce or eliminate cesspools in each county.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i Sea Grant Program, University of Hawaii Water Resources Research Center, Kingdom Pathways, Rotary Club of Hanalei Bay, Friends of Hanauma Bay, Environmental Caucus of the Democratic Party of Hawai'i, Hawaii Marine Education and Research Center, Hawai'i Reef and Ocean Coalition, Hawai'i REALTORS, Ulupono Initiative, Hawai'i Farm Bureau, Surfrider Foundation, and four individuals.

Your Committees find that pursuant to Act 125, Session Laws of Hawaii 2017, every cesspool in the State, excluding cesspools granted exemptions by the Director of Health, must be upgraded or converted to a Director of Health-approved wastewater system or connected to a sewage system before 2050. This measure establishes a pilot program with upfront planning funds to counties to identify the most feasible areas to connect an existing or future wastewater treatment plant, engage communities in the discussion, conduct preliminary engineering, and estimate upfront and ongoing costs for implementation.

Accordingly, your Committees have amended this measure by:

- (1) Inserting recommended language from the Department of Health, authorizing the use of any contractor support services required by the Environmental Management Division of the Department of Health in establishing and implementing the pilot program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1466, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1466, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 390 Health and Human Services on S.B. No. 599**

The purpose and intent of this measure is to expand the class of health care providers who may prescribe respiratory care services to include physician assistants and advanced practice registered nurses.

Your Committee received testimony in support of this measure from the Hawai'i State Center for Nursing, Hawai'i Pacific Health, Kaiser Permanente Hawai'i, Hawai'i Association of Professional Nurses, Hawai'i Academy of Physician Assistants, Hawaii Society for Respiratory Care, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Nursing, and Hawaii Medical Board.

Your Committee finds that health care professionals are in high demand yet in low supply, particularly on the neighbor islands and in rural and underserved areas of the State. Your Committee further finds that although advanced practice registered nurses and physician assistants are credentialled to provide critical care to both adults and children, and are educated, trained, and privileged to write orders to manage ventilators, existing law prohibits them from prescribing, ordering, or directing respiratory care services. To provide patients with high quality care despite the State's chronic provider shortage, it is crucial that a health care provider's permitted scope of practice reflects the full extent of their training. This measure aligns state law with community standards of practice and the regulations adopted by the Centers for Medicare and Medicaid Services, under which qualified non-physician providers, including advanced practice registered nurses and physician assistants, are able to safely and competently order respiratory therapy for patients, to be implemented by respiratory therapists.

Your Committee acknowledges the concerns raised by the Board of Nursing over how this measure, as currently written, uses certain terms pertaining to advanced practice registered nurses. Your Committee also acknowledges similar concerns raised by the Hawaii Medical Board as it pertains to physician assistants. Therefore, this measure needs to be amended to address these concerns.

Your Committee has amended this measure by:

- (1) Making conforming amendments to existing law to clarify that certain physician assistants shall be authorized to sign orders for respiratory therapy and plans of care;
- (2) Amending the term "qualified medical direction" to read "qualified direction";
- (3) Clarifying that no person shall practice respiratory care except under the order and qualified direction of certain licensed providers;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 599, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 391 (Majority) Health and Human Services on S.B. No. 162**

The purpose and intent of this measure is to allow the Board of Dentistry to issue without examination:

- (1) A community service license to practice dental hygiene in the employment of a community health center and allow eligible candidates to submit as documentation and credentials, diplomas and certificates of graduation from a dental hygiene college or dental college that is recognized by the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board;
- (2) A community service license to practice dentistry in the employment of a community health center and allow eligible candidates to submit as documentation and credentials, diplomas and certificates of graduation from a dental hygiene college or dental college that is recognized by the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board, and certificates or other evidence satisfactory to the Board of having passed the Integrated National Board Dental Examination; and
- (3) A temporary license to practice dentistry exclusively under the auspices of a dental residency program, to graduates from a dental college accredited or recognized by the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Dental Hygienists' Association, AlohaCare, Hawai'i Oral Health Coalition, Hawaii Dental Service, Hawaii Island Community Health Center, Hawai'i Children's Action Network (HCAN) Speaks!, Ho'ōla Lāhui Hawai'i, and eight individuals. Your Committee received comments on this measure from the Board of Dentistry, University of Hawai'i System, Hawaii Dental Association, and Grassroot Institute of Hawaii.

Your Committee finds that oral health is a critical component of overall health and wellness, and increasing the number of available public health dentists and dental hygienists who primarily treat the State's underserved and vulnerable populations is crucial to address the noticeable shortage over the last few years. This measure will address the workforce shortage in the public health dental sector, improving access to quality dental care and help to reduce the State's oral health disparities.

Your Committee acknowledges testimony stating that currently, the American Dental Association Commission on Dental Accreditation only "recognizes" through a formal reciprocal agreement, dental educational programs that are accredited by the

Commission on Dental Accreditation of Canada as programs that are equivalent to ones accredited by the American Dental Association Commission on Dental Accreditation. Accordingly, there is a need to amend this measure to address this issue.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the issuance of community service licenses and temporary license without examination pursuant to this measure only applies to graduates of a dental college or dental hygiene college with a "reciprocal agreement" with the American Dental Association Commission on Dental Accreditation, rather than "recognized" by the American Dental Association Commission on Dental Accreditation; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 392 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 91**

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to conduct a study to assess the possible implementation of widescale agrivoltaic adaptation and use statewide and to submit a report to the Legislature.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau, Ulupono Initiative, and one individual. Your Committees received comments on this measure from the Office of Planning and Sustainable Development and Department of Agriculture.

Your Committees find that increasing agricultural and renewable energy productivity are state priorities. Your Committees further find that agrivoltaics, or the simultaneous use of areas of land for both solar photovoltaic power generation and agriculture, is a potential way to meet both the State's agriculture and renewable energy goals. Therefore, this measure requires the Office of Planning and Sustainable Development to conduct a study to assess the possible implementation of widescale agrivoltaic adaptation and use statewide and to submit a report to the Legislature.

Your Committees have amended this measure by:

- (1) Requiring the Office of Planning and Sustainable Development to submit its report to the Legislature prior to the Regular Session of 2025, instead of prior to the Regular Session of 2024;
- (2) Including an appropriation for one full-time equivalent position (1.0 FTE) within the Office of Planning and Sustainable Development;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 91, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 91, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).  
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 393 (Joint/Majority) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1477**

The purpose and intent of this measure is to:

- (1) Transfer from the Department of Land and Natural Resources certain wharfs, launching ramps, and small boat harbors on Maui to the County of Maui; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from one member of the Maui County Council. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that the small boat harbors on Maui are significant to the island's communities because the harbors are crucial for fishing, recreation, commerce, and transportation. However, your Committees find that Maui's small boat harbors have descended into disarray, because of the numerous amounts of uncompleted repairs and maintenance projects. Additionally, your Committees find that the revenue from the facilities are not retained, but spread out over the entire State. Furthermore, due to the governance of these facilities being primarily done through offices on Oahu, the users of these facilities must often send communications through several layers of personnel. Therefore, this measure transfers from the Department of Land and Natural Resources certain wharfs, launching ramps, and small boat harbors on Maui to the County of Maui, along with the corresponding revenue from those harbors.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1477, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1477, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 394 (Joint) Housing and Commerce and Consumer Protection on S.B. No. 863**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Residential Developers Loan Corporation (Corporation) and the Hawaii Residential Developers Loan Special Fund (Special Fund) for the purpose of guaranteeing and insuring loans made by private financial institutions to developers of residential housing for Hawaii residents who will be owner occupants and who own no other real property;
- (2) Allow funds from the Rental Housing Revolving Fund to guarantee and insure loans that private financial institution make to developers of residential housing that is required to be sold to Hawaii residents who will be owner-occupants and who own no other real property; and
- (3) Appropriate funds.

Your Committees received testimony in opposition to this measure from Stanford Carr Development, LLC. Your Committees received comments on this measure from the Department of Budget and Finance; Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; and Hawaii Housing Finance and Development Corporation.

Your Committees find that this measure is meant to increase affordable housing for Hawaii residents who will be owner occupants and who own no other real property by facilitating the guaranteeing and insuring of private loans for developers of certain affordable housing projects. According to testimony received by your Committees, the Rental Housing Revolving Fund (RHRF) was established to provide gap financing for the development of rental housing projects and any redirection of RHRF funds will result in the reduction of affordable rental housing that serves families and seniors in the vulnerable thirty percent and hundred percent area median income range.

Accordingly, your Committees have amended this measure by:

- (1) Adding a duty and power for the Corporation to enhance credit;
- (2) Clarifying that the Corporation shall not provide residential mortgage loans to consumers or guarantee or insure residential mortgage loans made to consumers;
- (3) Clarifying that five voting members of the Board of Directors of the Corporation constitute quorum;
- (4) Deleting language that would have:
  - (A) Allowed the Corporation to use funds from the RHRF to guarantee and insure loans made by private financial institutions to developers of residential housing; and
  - (B) Allowed funds from the RHRF to be deposited into the Special Fund; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 863, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 863, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 395 (Joint) Housing and Water and Land and Government Operations on S.B. No. 865**

The purpose and intent of this measure is to:

- (1) Establish the ALOHA Homes Program to develop low-cost homes on state-owned and county-owned land in urban redevelopment sites to be sold in leasehold by the Hawaii Public Housing Authority (HPHA) to qualified residents;
- (2) Exempt certain land from the definition of public lands;
- (3) Provide for the disposition of lands acquired by the HPHA but no longer needed for the ALOHA Homes Program; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority; Building Industry Association of Hawaii; The Institute for Human Services, Inc.; Church of the Crossroads; Hawai'i YIMBY; and two individuals. Your Committees received testimony in opposition to this measure from seven individuals. Your Committees received comments on this

measure from the Department of Budget and Finance, Department of Land and Natural Resources, Department of the Attorney General, and Grassroot Institute of Hawaii.

Your Committees find that the State must be proactive in establishing a unified vision and approach toward redevelopment of its properties to maximize the benefits of state land available for redevelopment. According to testimony from the Building Industry Association of Hawaii, this measure is required for the State to build its way out of the housing crisis by increasing the supply of housing at all price points. Your Committees note that due to the lack of income restrictions in the ALOHA Homes Program, a variety of incomes will inherently exist in these sites. Your Committees recognize that there are currently projects on the islands of Maui and Hawaii that are being proposed and developed under the ALOHA Homes Program's general concept of low-cost leasehold homes for sale to residents of the State on state-owned land.

Your Committees have amended this measure by:

- (1) Deleting the:
  - (A) Definition of "small and medium vendor", as it is not referenced elsewhere in the measure;
  - (B) Provision that would have required the HPHA to retain seventy-five percent of all profits from the owner's sale of the ALOHA home to an eligible buyer; and
  - (C) Language that would have exempted the expenditures of the ALOHA Homes Revolving Fund from appropriation and allotment of the Legislature;
- (2) Clarifying that the heir of a deceased owner of an ALOHA home shall sell the ALOHA home to an eligible buyer if the heir does not meet eligibility requirements to accept transfer of the ALOHA home;
- (3) Amending the number and type of positions requested by HPHA to evaluate all potential sites, negotiate public entities, and implement the ALOHA Homes Program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing, Water and Land, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 865, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 865, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 396 (Joint) Housing and Public Safety and Intergovernmental and Military Affairs on S.B. No. 866**

The purpose and intent of this measure is to:

- (1) Clarify that the eligibility for the general excise tax exemption for projects complying with certain prevailing wage requirements includes the nonreceipt of financing from the Hawaii Housing and Finance and Development Corporation (HHFDC);
- (2) Allow certain affordable rental housing projects to receive a waiver of various development fees from a county; and
- (3) Remove the limit on the type of costs eligible for exemption from the general excise tax for development of affordable rental housing certified by HHFDC.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Highridge Costa Development Company. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that current market conditions and increased costs of construction make it nearly impossible to build affordable rental housing in Honolulu and throughout other counties in the State. Your Committees believe that the "stacking" of exemptions allowed under certain circumstances by this measure will incentivize developers to generate more affordable rental housing in the current economy by including relief from certain county exactions.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 866 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 397 (Joint) Housing and Public Safety and Intergovernmental and Military Affairs on S.B. No. 867**

The purpose and intent of this measure is to:

- (1) Prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are residents of the State, are owner-occupants, and do not own any other real property; and
- (2) Require each county to submit a report on inclusionary zoning requirements to the Legislature every year until the Regular Session of 2028.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that it is critical for the counties to take initiative in increasing the production of affordable housing. Regulations impose a considerable burden in supplying housing and by eliminating certain inclusionary zoning rules for certain projects, this measure will help facilitate the growth of housing in the State. Your Committees note that this measure would allow each county to set housing policies that meet the unique set of needs of their communities, without consideration of the effect of inclusionary zoning requirements.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 867 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5; Ayes with Reservations (Elefante, Fukunaga, McKelvey). Noes, none. Excused, none.

**SCRep. 398 (Joint/Majority) Housing and Education on S.B. No. 874**

The purpose and intent of this measure is to exempt certain housing developments from the assessment of school impact fees.

Your Committees received testimony in support of this measure from the Office of the Governor; Hawaii Public Housing Authority; NAIOP Commercial Real Estate Development Association, Hawaii Chapter; Building Industry Association of Hawaii; Complete Construction Services Corp.; BKF & Associates, LLC; and one individual. Your Committees received testimony in opposition of this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Education; Department of Hawaiian Home Lands; School Facilities Authority; EAH Housing; and Tax Foundation of Hawaii.

Your Committees find that there are an overwhelming number of Hawaii residents on the public housing waiting list, but the demand far exceeds the current supply of affordable housing projects. Your Committees also find that, although important for the funding of new school facilities, school impact fees required by section 302A—1603, Hawaii Revised Statutes, present a substantial barrier to the development of affordable housing projects in Hawaii as a result of the increase costs for developers. Several developers of affordable housing projects rely on funds from the State's Rental Housing Revolving Fund or other state appropriations to offset the cost of the school impact fee to make affordable housing projects financially viable. Your Committees believe that an exemption from school impact fees for certain housing projects as proposed by this measure will both allow those housing projects to be more cost-effective and able to proceed more quickly to meet the desperate demand for housing in the State.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 874 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.

Education: Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 399 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 219**

The purpose and intent of this measure is to:

- (1) Clarify that section 46-4, Hawaii Revised Statutes, does not prohibit the counties from adopting zoning regulations that eliminate or amortize land uses or structures established after the effective date of the first comprehensive zoning ordinance adopted by a county; and
- (2) Clarify that county zoning regulations that restrict the time, place, manner, or duration of a land use activity do not create different types of land uses by limiting the time, place, manner, or duration of a use of land.

Your Committees received testimony in support of this measure from Keep it Kailua and four individuals. Your Committees received testimony in opposition to this measure from the Bali House and Cottage at Kehena Beach and forty-nine individuals. Your Committees received comments on this measure from the Department of the Attorney General, Airbnb, and one individual.

Your Committees find that when section 46-4, Hawaii Revised Statutes (HRS), was enacted in 1957, the Legislature intended to protect land uses and structures that were established prior to the implementation of comprehensive zoning ordinances by the counties. Interpretations of section 46-4, HRS, that prohibit the counties from adopting zoning regulations that eliminate or amortize land uses and structures established after the ordainment of comprehensive county zoning ordinances are inimical to the Legislature's intent and direction that county zoning is to be accomplished within the framework of a long-range, comprehensive general plan, and zoning districts are to guide the overall future development of each county. Your Committees further find that the rise of short-term rentals, time shares, and other short-duration uses of real property have raised questions about whether the rental types of real property for human occupancy can be treated as different types of land uses depending on the duration of a renter's length of stay or the duration of the underlying rental agreement. Your Committees believe that clarifications to section 46-4, HRS, are needed to address the regulation of short term-rentals, time shares, and other short-duration uses of real property by the counties under their local zoning ordinances.

Your Committees have amended this measure by:

- (1) Inserting language to clarify that section 46-4, HRS, does not prohibit the counties from adopting zoning regulations that eliminate or amortize land uses or structures established after the effective date of the first comprehensive zoning ordinance adopted by a county; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 219, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 219, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 400 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 521**

The purpose and intent of this measure is to build upon Act 93, Session Laws of Hawaii 2021, by creating a long-term task force to proactively plan for the remediation and restoration of lands currently under federal control that are anticipated to be returned to the State, consider potential alternative uses, and identify any lands that should continue under federal control for the next ten years.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals. Your Committees received comments on this measure from the Department of the Attorney General, Office of Hawaiian Affairs, Department of Land and Natural Resources, Office of Planning and Sustainable Development, and Hawaii Military Affairs Council.

Your Committees find that many properties in the State are under claim of federal ownership or control and are being, or have been, used as military facilities. This use has resulted in contamination to the water and soil on and adjacent to many of these properties, or has created hazards, such as the presence of unexploded ordnance. To address these issues, the Legislature passed Act 93, Session Laws of Hawaii 2021, which required the Office of Planning and Sustainable Development to submit an inventory report of all lands within the State that are leased to the federal government or under federal government control. Your Committees believe that upcoming expirations or renewals of land leases between the State and the United States government provide opportunities for the return of ceded lands. This measure will allow the State to be proactive in identifying and reacquiring any lands deemed appropriate by creating a long-term task force to proactively plan for the remediation and restoration of lands currently under federal control that are anticipated to be returned to the State, consider potential alternative uses, and identify any lands that should continue under federal control for the next ten years.

Your Committees have amended this measure by:

- (1) Clarifying that the Office of Planning and Sustainable Development shall provide all necessary administrative, professional, technical, and clerical support required by the task force;
- (2) Requiring the task force to submit one report prior to the convening of the Regular Session of 2025, instead of a preliminary report prior to 2024 and second report prior to 2025; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 521, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 521, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 401 Health and Human Services on S.B. No. 390**

The purpose and intent of this measure is to repeal the sunset date of section 2 of Act 119, Session Laws of Hawaii 2021 (Act 119), making permanent:

- (1) The requirement that the Hawaii Medical Board issue licenses in four levels of emergency response practice in counties with a population of five hundred thousand or greater; and
- (2) The creation of an additional licensure category for Emergency Medical Technicians 1, who are certified at a higher practice level than emergency medical technicians but do not provide ambulance services.

Your Committee received testimony in support of this measure from the Hawaii Medical Board.

Your Committee finds that emergency medical technicians are a vital part of a comprehensive emergency medical services system response and includes firefighters and ocean safety lifeguards who provide immediate life-saving interventions to patients but do not provide emergency ambulance services. Your Committee also finds that emergency medical technicians with National Registry Emergency Medical Technician certification provide at-the-scene, life-saving care with minimal equipment to critical care patients and have the knowledge and skills necessary to provide immediate interventions while awaiting the arrival of additional emergency medical services. However, until the enactment of Act 119, state law relating to the licensing or certification of emergency medical personnel addressed only emergency ambulance personnel and had no licensure category for emergency medical technicians with National Registry Emergency Medical Technician certification only. This measure repeals Act 119's July 1, 2027, sunset date and

makes permanent the authority given to the Hawaii Medical Board to certify emergency medical technicians with National Registry Emergency Medical Technician certification.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 402 Health and Human Services on S.B. No. 473**

The purpose and intent of this measure is to exempt drug manufacturers, wholesale prescription drug distributors, and third-party logistics providers of home dialysis drugs, supplies, and devices from the license, registration, and permit requirements for pharmacies; provided that certain conditions are met.

Your Committee received testimony in support of this measure from Liberty Dialysis-Hawaii, LLC; National Kidney Foundation of Hawai'i; and two individuals. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that many experts agree that home dialysis is the best option for treating kidney failure whenever possible, due to its greater scheduling flexibility, fewer food restrictions, and better outcomes. Your Committee also finds that various types of drugs and medical devices need to be regularly delivered to a patient's home for them to perform home dialysis. Your Committee believes that due to its isolated location, it is crucial for the State to have a supply chain with sufficient and immediate inventory within the State to ensure that home dialysis patients receive needed drugs, medical devices and other supplies. This measure will enable qualified, licensed logistics and distribution companies in the State to maintain an inventory of home dialysis drugs and devices, ensuring immediate and consistent access to home dialysis drugs and devices in Hawaii.

Your Committee acknowledges multiple concerns raised in testimony that despite there being two types of home dialysis, i.e., peritoneal dialysis and hemodialysis dialysis, this measure only covers dialysate drugs or devices necessary to perform peritoneal dialysis. Accordingly, an amendment to this measure is necessary to address this concern.

Your Committee has amended this measure by:

- (1) Making the measure applicable to dialysate drugs and devices necessary to perform all types of home dialysis by deleting the term "peritoneal";
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 473, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 403 (Majority) Health and Human Services on S.B. No. 1104**

The purpose and intent of this measure is to:

- (1) Amend the definition of "cannabis" to include cannabis propagules and cannabis cuttings, thereby authorizing dispensaries to dispense cannabis propagules and cannabis cuttings;
- (2) Allow qualifying patients and primary caregivers who are authorized to cultivate cannabis for medical use to purchase cannabis propagules and cuttings from a dispensary licensed in the State; and
- (3) Establish quantity limits and quality requirements for the dispensing of cannabis propagules and cuttings.

Your Committee received testimony in support of this measure from Maui Grown Therapies; Drug Policy Forum of Hawai'i, Inc.; Aloha Green Holdings Inc.; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing law allows qualifying patients and primary caregivers to cultivate cannabis for medical use but neglects to provide a legal means for these individuals to acquire the propagative material to do so, such as cannabis cuttings and propagules. Consequently, qualifying patients and primary caregivers are forced to obtain cannabis genetic material from the illicit market, where there is an absence of regulation and questionable and often mislabeled material. To curtail the illicit purchasing of cannabis genetic material, this measure establishes a legal channel for the distribution of cannabis genetic material by allowing certain qualifying patients and primary caregivers to purchase cannabis cuttings and propagules from licensed dispensaries.

Your Committee further finds that allowing qualifying patients to purchase cannabis seeds would help increase legal access to cannabis genetic material. Accordingly, amendments to this measure are necessary to address cannabis seeds.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that the definition of "cannabis" includes cannabis seeds;
- (2) Inserting language that allows qualifying patients and primary caregivers who are authorized to cultivate cannabis for medical use to purchase cannabis seeds from a dispensary licensed in the State;

- (3) Clarifying that the amount of cannabis, including cannabis propagules, cuttings, and seeds, possessed by a qualifying patient at any time shall not exceed an adequate supply as defined in section 329-122, Hawaii Revised Statutes;
- (4) Inserting language to require the Department of Health to adopt rules for the dispensing of cannabis propagules, cuttings, and seeds;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1104, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 404 Ways and Means on S.B. No. 1383**

The purpose and intent of this measure is to facilitate the modernization of information technology infrastructure for the Unemployment Insurance Division of the Department of Labor and Industrial Relations by:

- (1) Instituting an unemployment insurance technology assessment to be imposed on employers at a rate of .01 per cent of taxable wages; and
- (2) Establishing the Unemployment Insurance Technology Special Fund into which the assessment shall be deposited and which shall be used to defray the costs of information technology infrastructure for the unemployment insurance program.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that administration of the state unemployment insurance program is funded entirely by federal funds. Your Committee also finds that the United States Department of Labor's Employment and Training Administration has opined that the costs of unemployment insurance modernization, including the cost of maintaining information technology systems, is not affordable in the current federal budget environment. Therefore, your Committee further finds that this measure provides a permanent funding mechanism to support the necessary continued maintenance of the Unemployment Insurance Division's information technology infrastructure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1383, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Kim, Wakai).

**SCRep. 405 Health and Human Services on S.B. No. 610**

The purpose and intent of this measure is to recognize American Sign Language as a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communication Access Board, Hawaii Disability Rights Center, and eight individuals.

Your Committee finds that over forty states recognize American Sign Language (ASL) in varying degrees, with at least a dozen states enacting laws to acknowledge ASL as its own distinct language. Your Committee believes ASL is a prominent language that serves as the backbone of the United States' deaf and hard-of-hearing population, including residents of Hawaii. Your Committee further finds that recognizing ASL as a distinct language will allow more equitable access in numerous areas, including employment, public awareness, and civic participation. Therefore, this measure aims to advance public understanding and recognition that ASL is a discrete language with its own grammar, syntax, vocabulary, and cultural heritage.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 610 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 406 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 310**

The purpose and intent of this measure is to appropriate funds to the Department of Human Services and the Department of Public Safety for the pilot visitation and family resource center at the Wahiawa Correctional Facility on Oahu, including funding for the construction of a restroom in compliance with the Americans with Disabilities Act.

Your Committees received testimony in support of this measure from the Department of Public Safety, Department of Human Services, Hawaii Correctional System Oversight Commission, Community Alliance on Prisons, Blueprint For Change, Hawai'i Youth Services Network, Hawai'i Children's Action Network Speaks!, Papa Ola Lōkahi, and six individuals.

Your Committees find that families play a crucial role in the rehabilitation of inmates, particularly if the inmate has children. Additionally, your Committees recognize that a suitable environment for visitation that provides opportunity for face-to-face reconnection is necessary for the minimization of trauma for both the incarcerated individuals and their families, especially their young children. Establishing an appropriate setting for such visitation is significant because it allows families to strengthen their relationships and ultimately nourish the well-being of the incarcerated individual, their family members, and society as a whole. This measure provides funding to establish a pilot visitation and family resource center at Waiawa Correctional Facility to achieve these goals.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 310 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 407 Health and Human Services on S.B. No. 608**

The purpose and intent of this measure is to:

- (1) Require pharmacies to:
  - (A) Provide accessible prescription drug label information to individuals who have difficulty seeing or reading standard printed prescription drug container labels; and
  - (B) Inform the public that prescription drug label information is available in alternate accessible formats for individuals who have difficulty seeing or reading prescription drug container labels; and
- (2) Require the Board of Pharmacy to adopt certain rules by December 31, 2023.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, National Federation of the Blind of Hawaii, Democratic Party of Hawai'i Kupūna Caucus, National Organization of Parents of Blind Children, and nine individuals. Your Committee received comments on this measure from the Department of Human Services, Board of Pharmacy, and Walgreen Co.

Your Committee finds that existing state law requires dispensing pharmacies to label each prescription drug container with specific information, identifying the drug and providing information necessary for health and safety. However, individuals who have vision impairments and cannot see or read the labels may inadvertently take the wrong medication, the wrong amount, at the wrong time, and under the wrong instructions, thereby endangering their health and safety. This measure will reduce these concerns by requiring pharmacies to provide accessible prescription drug label information to individuals who need them.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 608, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 408 Health and Human Services on S.B. No. 606**

The purpose and intent of this measure is to exempt from the general excise tax, gross receipts received by a hospital, infirmary, medical clinic, health care facility, pharmacy, or a practitioner licensed to administer drugs to an individual, from the sale of hearing aids.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Democratic Party of Hawai'i Kupūna Caucus, and four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that hearing is one of the most important senses upon which an individual depends for communication. Your Committee further finds that hearing loss is known to be the largest modifiable risk factor for developing dementia. If left untreated, hearing loss can, over time, lead to an increase in cognitive decline and exacerbate social isolation, both of which can contribute to dementia risk. Your Committee finds however, depending on the technology used, hearing aids can cost about \$1,500 to \$4,900 each and are not typically covered by health insurance and are further subject to substantial amounts in general excise taxes. This measure will make hearing aids more affordable and aligns Hawaii with the majority of other state that exempt the sale of hearing aids from taxation.

Your Committee acknowledges testimony suggesting that "hearing aid" be defined to avoid ambiguity regarding the scope of the general excise tax exemption. Accordingly, amendments to this measure are necessary to address this issue.

Additionally, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers the Department of Taxation's request that the effective date of the measure be amended to no earlier than January 1, 2024, to allow the Department sufficient time to make the necessary form and system changes.

Your Committee has amended this measure by:

- (1) Inserting language that defines “hearing aid” to mean the same as defined in section 451A-1, Hawaii Revised Statutes;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 606, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 409 Health and Human Services on S.B. No. 853**

The purpose and intent of this measure is to appropriate funds to the Executive Office on Aging for the Hawaii Healthy Aging Partnership.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging, County of Kaua'i Agency on Elderly Affairs, AARP Hawai'i, Kūpuna Caucus of the Democratic Party of Hawai'i, Change AGEnts Hawaii, and ninety-three individuals.

Your Committee finds that the Hawaii Healthy Aging Partnership improves the health of older adults by empowering participants to make healthy decisions and engage in healthier lifestyles. Your Committee further finds that its two evidence-based intervention programs, Better Choices Better Health and EnhanceFitness, provide a myriad of benefits to participants, including reduced pain and emergency room visits and greater independence and quality of life. Despite the partnership's positive impact on participants' lives, the partnership has not received state funding since fiscal year 2019-2020. Without additional funding, the partnership will be forced to reduce its programming. To avoid a reduction in programming, this measure appropriates funds for the Hawaii Healthy Aging Partnership.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriation amount of \$550,000.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 853, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 853, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 410 Health and Human Services on S.B. No. 902**

The purpose and intent of this measure is to establish and appropriate funds for a caregiver workforce support and development center within the Executive Office on Aging.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging, Healthcare Association of Hawaii, AARP Hawai'i, Kūpuna Caucus of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that there is an urgent need to recruit and retain formal and informal caregivers within the State. The percentage of Hawaii's population seventy-five years old and above is expected to double by 2045, increasing the demand for long-term care in both institutional and home settings. The State is already facing a health care workforce shortage, with home health agencies sustaining the highest percentage of vacancies at thirty-nine percent. To ensure accessibility to care for Hawaii's kupuna, this measure establishes and funds a caregiver workforce support and development center to develop and expand the State's long-term and home- and community-based caregiver workforce.

Your Committee has amended this measure by:

- (1) Clarifying that the Executive Office on Aging shall establish and appropriate funds for a workforce development and support center rather than a caregiver workforce support and development center;
- (2) Specifying the activities the proposed workforce development and support center is authorized to perform consistent with the testimony submitted by the Executive Office on Aging;
- (3) Inserting a blank appropriation amount;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 902, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 411 Health and Human Services on S.B. No. 900**

The purpose and intent of this measure is to appropriate funds for three full-time equivalent (3.0 FTE) Program Specialist positions within the Executive Office on Aging for Hawaii's State Health Insurance Assistance Program.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging, AARP Hawai'i, Kūpuna Caucus of the Democratic Party of Hawai'i, Hawai'i Family Caregiver Coalition, and twenty-two individuals.

Your Committee finds that the rules and procedures for Medicare eligibility and enrollment are complex and difficult to navigate, especially for kupuna. Hawaii's State Health Insurance Assistance Program provides free, local, unbiased, and confidential one-to-one counseling and education to help newly eligible individuals and existing enrollees understand and access Medicare benefits. Despite the State's Medicare population more than doubling since the inception of Hawaii's State Health Insurance Assistance Program in 1992, the program has continued to employ just two staff members and relies upon more than eighty volunteers to provide services. To meet the increased demand for services, this measure expands the capacity of Hawaii's State Health Insurance Assistance Program by appropriating funds for three additional Program Specialist positions.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 900, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 412 (Joint) Agriculture and Environment and Higher Education on S.B. No. 285**

The purpose and intent of this measure is to

- (1) Establish a three-year New Waste Management Solution and Cesspool System Demonstration Pilot Program within the University of Hawaii Water Resources Research Center to examine and demonstrate new wastewater and cesspool technology systems; implement those technologies in demonstration projects in areas across the State that are identified as Priority Level 1 in the 2021 Hawaii Cesspool Hazard Assessment and Prioritization Tool Report; and establish a similar ranking system for prioritization levels for the islands of Molokai, Lanai, and Niihau; and
- (2) Appropriate funds for the pilot program and positions.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i Water Resources Research Center and Sea Grant College Program, Department of Hawaiian Homelands, Friends of Hanauma Bay, Environmental Caucus of The Democratic Party of Hawai'i, Surfrider Foundation, Hawai'i Reef and Ocean Coalition, Hawaii Marine Education and Research Center, Hawai'i REALTORS, Wastewater Alternatives and Innovations, and four individuals.

Your Committees find that Act 125, Session Laws of Hawaii 2017, set the goal to upgrade or convert the 83,000 cesspools in the State to a septic or aerobic treatment unit system or to connect them to a central sewerage system before 2050. Your Committees additionally find that the lack of affordable, effective technology options is a major impediment to Hawaii's water quality improvement goals, and has the potential to result in a huge investment that yields little actual benefit. This measure will leverage the University of Hawaii's extensive research expertise to create an innovative pilot program that would test the safety and efficiency of new and emerging on-site wastewater technologies, determine which are best suited for Hawaii's unique conditions, and ultimately support the Department of Health in approving new and more cost effective technologies for large-scale implementation.

Your Committees have amended this measure by deleting references to "waste management" and "cesspool systems" and replacing both with the term "wastewater systems" as recommended by the Department of Health, since a cesspool is considered a wastewater system and waste management typically refers to the management of solid waste.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 285, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 285, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).  
Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 413 (Joint) Agriculture and Environment and Higher Education on S.B. No. 518**

The purpose and intent of this measure is to require and appropriate funds for the University of Hawaii Sea Grant Program to contract with an independent consultant to establish a five-year plan to develop goals, objectives, and an operational plan with budgets and timelines to strengthen and grow the aquaculture industry in the State.

Your Committees received testimony in support of this measure from the Kohala Mountain Fish Company, Hawai'i Farm Bureau, Aquaculture Planning and Advocacy, HIplan, Hawaii Aquaculture and Aquaponics Association, and one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that supporting local aquaculture can help the State attain greater food security. Your Committees further find that aquaculture in Hawaii is the fastest growing industry in the agricultural sector with substantial future growth potential. This measure requires the University of Hawai'i Sea Grant College Program to develop a statewide strategic five-year plan for the aquaculture industry with an independent consultant and provides appropriations for this purpose.

Your Committees have amended this measure by:

- (1) Inserting legislative findings that the development of the aquaculture industry in Hawaii is of statewide concern, as recommended by the Department of the Attorney General, to clarify that the legislature is exercising its power to enact laws of statewide concern, rather than the University of Hawaii in particular; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 518, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 518, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 414 (Joint/Majority) Agriculture and Environment and Higher Education on S.B. No. 648**

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the University of Hawaii, in consultation with the Department of Agriculture, to establish and administer an aquaculture disease diagnostic laboratory; and
- (2) Establish and appropriate funds for an Aquaculture Veterinarian position within the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Local Food Coalition, Aquaculture Planning and Advocacy, HIplan, Hawaii Aquaculture and Aquaponics Association, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General and University of Hawai'i College of Tropical Agriculture and Human Resources.

Your Committees acknowledge the importance of Hawaii's aquaculture industry to ongoing food security and sustainability efforts in the State. Your Committees find that Hawaii residents consume seafood at twice the national average and yet, imports about sixty-three percent of its seafood. Due in part to the State's prior commitments, Hawaii's aquaculture industry continues to be one of the fastest-growing segments of Hawaii agriculture and has become an important source of seafood and other products for local sale and export. Your Committees further find that currently, aquaculture samples are sent to the University of Arizona for testing, which creates delays in decision-making and action. Thus, this measure appropriates funds to support the Aquaculture Disease Diagnostic Laboratory at the University of Hawaii College of Tropical Agriculture and Human Resources, in partnership with the Department of Agriculture, which will provide timely and accurate diagnostic services for all sectors of livestock development, including aquaculture. Additionally, this measure appropriates funds for one full-time (1.0 FTE) Aquaculture Veterinarian position within the Aquaculture and Livestock Support Services Branch at the Department of Agriculture's Division of Animal Industry.

Accordingly, your Committees have amended this measure by:

- (1) Establishing the proposed laboratory within the State Veterinary Laboratory of the Department of Agriculture's Division of Animal Industry rather than the University of Hawai'i College of Tropical Agriculture and Human Resources;
- (2) Replacing references to the University of Hawai'i College of Tropical Agriculture and Human Resources with the Department of Agriculture;
- (3) Adding two additional full-time equivalent (2.0 FTE) Microbiologists III (SR-20) positions to the Aquaculture and Livestock Support Services Branch of the Department of Agriculture's Division of Animal Industry; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 648, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 648, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 415 (Joint/Majority) Agriculture and Environment and Higher Education on S.B. No. 1488**

The purpose and intent of this measure is to require and appropriate funds for the University of Hawaii College of Tropical Agriculture and Human Resources, in consultation with livestock industry stakeholders, to conduct a study to assess the effects of heat stress on beef cattle during interisland ocean transportation.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System College of Tropical Agriculture and Human Resources; Maui County Farm Bureau; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Animal Welfare Institute; Hawaii Sustainable Beef Enterprises; and seven individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that maintaining an economically viable and animal-safe interisland ocean transportation system is beneficial for meeting food sustainable goals in Hawaii. Ocean transportation is of vital importance to the local cattle industry because beef cattle slaughter facilities are limited statewide and air transportation is not a viable option for livestock shipping. Your Committees further find that there are concerns circulating over the conditions inside the shipping containers that are used to ship beef cattle from one island to another over water. These concerns involve the effects of severe heat stress and the overall well-being of beef cattle during transport. A study on heat conditions in shipping containers has become necessary to ensure that animals being shipped between islands are not being subject to preventable suffering and death resulting from heat stress. This measure will require and appropriate funds for the University of Hawai'i College of Tropical Agriculture and Human Resources, in consultation with livestock industry stakeholders, to conduct a study to help livestock shippers understand the environmental conditions inside shipping devices during transport and carcass quality after transport. This study will also be useful in allowing for data-driven decision-making for potential future legislation relating to interisland cattle transportation.

Your Committees acknowledge that researchers can receive external grants for funding and may extend the study if needed.

Therefore, your Committees have amended this measure by:

- (1) Deleting the appropriations;
- (2) Inserting legislative findings as recommended by the Attorney General to clarify that this measure is a law of statewide concern; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1488, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1488, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 416 (Joint/Majority) Agriculture and Environment and Higher Education on S.B. No. 646**

The purpose and intent of this measure is to appropriate funds for statewide research into ornamental ginger pathogens for the purposes of prevention, production, and distribution of pathogen-free ornamental ginger plants and outreach to ornamental producers.

Your Committees received testimony in support of this measure from the University of Hawai'i College of Tropical Agriculture and Human Resources, Hawaii Floriculture and Nursery Association, East Oahu County Farm Bureau, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, and four individuals.

Your Committees find that *Alpinia purpurata*, or ornamental ginger, is a popular and culturally significant plant in the State that is commonly used in tropical landscaping. Your Committees further find that due to a proliferation in emergent pathogens, commercial production of ornamental ginger in the State declined by forty-six percent between 2014 and 2018. As concerns developed, researchers and extension agents at the University of Hawai'i College of Tropical Agriculture and Human Resources performed a statewide survey and causal agent identification study and found a combination of six viruses to be the cause of the ornamental ginger's decline, with other pathogens and ornamental ginger genetic variations as possible contributing factors. This measure appropriates funds to the University of Hawai'i College of Tropical Agriculture and Human Resources to support their ongoing efforts for statewide research, mitigation, and prevention of pathogens affecting the ornamental ginger plant in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 646 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 417 (Joint/Majority) Agriculture and Environment and Higher Education on S.B. No. 663**

The purpose and intent of this measure is to appropriate funds for the establishment of an Agriculture Education Coordinator position within the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources to support a coordinated framework for agriculture education in the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i College of Tropical Agriculture and Human Resources, Hawaii Floriculture and Nursery Association, Kanalani Ohana Farm, and one individual.

Your Committees find that the University of Hawai'i College of Tropical Agriculture and Human Resources convened the P-20 Agriculture Education Working Group, which resulted in the recommendation to the Legislature to create an Agriculture Education Coordinator position within the College. This position will work across the University of Hawai'i System, including the community colleges, Department of Education, and other members of the original working group, to improve the coordination of already existing agriculture education programs and to provide a diversity of educational options to meet Hawaii's need to train and develop more farmers in the State. This measure appropriates funds for this position to enhance the coordinated efforts of providing comprehensive educational options to aspiring farmers in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 663 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 418 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 818**

The purpose and intent of this measure is to transfer the aquaculture program from the Department of Agriculture to the Agribusiness Development Corporation and appropriate funds.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation and one individual. Your Committees received testimony in opposition to this measure from the Department of Agriculture, Aquaculture Planning and Advocacy, and one individual. Your Committees received comments on this measure from Hawaii Aquaculture and Aquaponics Association.

Your Committees find that transferring the aquaculture program from the Department of Agriculture to the Agribusiness Development Corporation could be beneficial for the State because it is administratively attached to the Department of Business, Economic Development, and Tourism, which works to enhance Hawaii's economic goals. Your Committees further find that the Department of Agriculture is limited in its ability to oversee and enhance Hawaii's aquaculture industry due to the Department's primary functions as a regulatory and law enforcement body, with economic development being less of a priority. Therefore, the Agribusiness Development Corporation may be better suited to enhance economic development of the aquaculture industry in the State. Thus, this measure transfers the aquaculture program from the Department of Agriculture to the Agribusiness Development Corporation.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 818 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

**SCRep. 419 (Joint/Majority) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 1583**

The purpose and intent of this measure is to appropriate funds, contingent upon matching fund availability, to support the Village, an agricultural community and learning center that works to improve food security and sustainability on the Island of Hawaii by offering training for interested parties, food growing, production, and RTE meals.

Your Committees received testimony in support of this measure from the Department of Agriculture; Kohala Mountain Fish Company; Hawaii Fish Company, Inc.; and two individuals.

Your Committees find that the State is committed to enhancing food security in Hawaii and is open to creative proposals for initiatives that may aid in reaching this goal. Your Committees additionally find that food hubs are collaborative work spaces where farmers, ranchers, and other producers can work alongside processors and food manufacturers to create innovative food products and services. The Village is one such proposal that incorporates farming techniques from the Netherlands, which is the second largest exporter of agricultural products in the world, and will act as a food hub for local agricultural workers to collaborate and work together to create products for the State and bring in revenues through exports. This measure appropriates funds as a grant-in-aid to Hawaii County to establish The Village Project.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1583 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

**SCRep. 420 Labor and Technology on S.B. No. 342**

The purpose and intent of this measure is to require employers to provide:

- (1) A minimum amount of paid sick leave to employees to be used to care for themselves or a family member who is ill or needs medical care; and
- (2) Supplemental paid sick leave to employees under certain public health emergency conditions.

Your Committee received testimony in support of this measure from Rainbow Family 808; UNITE HERE Local 5; Hawai'i State AFL-CIO; State of Hawaii Organization of Police Officers; Stonewall Caucus of the Democratic Party of Hawai'i; Labor Caucus of the Democratic Party of Hawai'i; Education Caucus of the Democratic Party of Hawai'i; Pride at Work - Hawai'i Chapter; Hawai'i Nurses' Association Office and Professional Employees International Union Local 50; Hawai'i Alliance for Progressive Action; Americans for Democratic Action Hawai'i; Hawaii State Coalition Against Domestic Violence; Hawai'i Children's Action Network Speaks!; International Alliance of Theatrical Stage Employees Local 665; Pono Hawaii Initiative; Hawaii Appleseed Center for Law and Economic Justice; Hawai'i Workers Center; Imua Alliance; Hawaii State Teachers Association; Hawai'i Public Health Institute; Hawaii Teamsters and Allied Workers, Local 996; and sixty-two individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations, Department of Public Safety, Retail Merchants of Hawaii, and Hawaii Food Manufacturers Association. Your Committee received comments on this measure from the Department of Human Services of the City and County of Honolulu, Hawai'i Restaurant Association, Hawaii Energy Marketers Association, and Hawaii Credit Union League.

Your Committee finds that although Hawaii's Family Leave Law provides four weeks of protected leave for employees of employers with one hundred or more employees for the birth or adoption of the employee's child or care of the employee's child, spouse, reciprocal beneficiary, sibling, grandchild, or parent with a serious health condition, this leave is generally unpaid. Your Committee also finds that although the United States is the only developed nation without a guaranteed paid sick leave policy, Hawaii has led in the area of worker's benefits by being the only state that requires employers to provide health care insurance for their employees. In light of the discussion regarding the effects of the increased benefits proposed by this measure on small businesses and low-income employees, your Committee believes that the creation of a state paid sick leave program is premature and requires more study.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required employers to provide a minimum amount of paid sick leave to employees to be used to care for themselves or a family member who is ill or needs medical care and supplemental paid sick leave to employees under certain public health emergency conditions;
- (2) Requiring the Department of Labor and Industrial Relations to:
  - (A) Conduct a study on paid sick leave;
  - (B) Consider various federal and state laws on health benefits, temporary disability, and workers compensation with the purpose of providing sick leave to all employees, including the coverage of employers and employees not covered by collective bargaining units;
  - (C) Invite certain and other local businesses and employers that would be affected by a paid sick leave law; and
  - (D) Submit a report of its findings and recommendations, including any proposed legislation, to the Legislature prior to the Regular Session of 2024;
- (3) Inserting an appropriation of an unspecified amount for the Department of Labor and Industrial Relations to conduct the study on paid sick leave; and
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 342, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 342, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 421 Labor and Technology on S.B. No. 722**

The purpose and intent of this measure is to:

- (1) Establish the Occupational Safety and Health Special Fund (Special Fund); and
- (2) Direct certain fees to be deposited into the Special Fund.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that investing in the staff development and training of Hawaii Occupational Safety and Health Division (HIOSH) employees is necessary to recruit, retain, and train employees to provide consultation and enforcement for workplace safety. According to testimony received by the Department of Labor and Industrial Relations, the penalties that HIOSH collects for health and safety violations range from \$1,400,000 to \$2,500,000 per year.

Accordingly, your Committee has amended this measure by:

- (1) Adopting the Department of Labor and Industrial Relation's suggestion to deposit the civil penalties that HIOSH collects for safety and health violations into the Special Fund, instead of the Labor Law Enforcement Fund;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 722, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 422 Labor and Technology on S.B. No. 752**

The purpose and intent of this measure is to:

- (1) Require the Office of Enterprise Technology Services to establish a temporary working group to conduct a study that identifies state office buildings that can allow certain residents, including residents with disabilities, to participate remotely in legislative hearings; and
- (2) Require a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Office of Enterprise Technology Services, Hawaii State Council on Developmental Disabilities, Hawaii State Public Library System, Full Life, and one individual. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that this measure promotes equal access to the legislative process to residents throughout the State, particularly residents in rural areas and residents with disabilities. According to testimony received by your Committee, when the Legislature began offering virtual testimony, the Hawaii State Library System, which has fifty-one locations across the State, began offering information and services for patrons to participate in the state legislative process at their local public library. This measure seeks to further encourage greater civic participation from residents of the State who have difficulty with physically accessing the State Capitol.

Your Committee recognizes the concerns of the Office of Information Practices regarding the working group's exemption from part I of chapter 92, Hawaii Revised Statutes, relating to the Sunshine Law. Your Committee notes that during the public hearing on this measure, the Department of Accounting and General Services indicated that the Comptroller is able and willing to identify state resources that can allow certain residents to participate remotely in legislative hearings and report the findings to the Legislature before the Regular Session of 2024.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Office Enterprise Technology Services to establish a temporary working group to conduct a study;
- (2) Requiring the Comptroller, instead of a working group, to identify state office buildings that can provide equitable telecommunication access to allow certain residents to participate remotely in legislative hearings and report to the Legislature before the Regular Session of 2024;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 752, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 423 (Joint) Labor and Technology and Energy, Economic Development, and Tourism on S.B. No. 1567**

The purpose and intent of this measure is to:

- (1) Authorize the State Board for Career and Technical Education (Board) to cooperate with the Legislature to advise on provisions of all nonfederal funds received that are earmarked for career and technical education;
- (2) Require the Board, in collaboration with the Department of Business, Economic Development, and Tourism and Department of Labor and Industrial Relations, to develop and implement workforce development pathways;
- (3) Require the Board to submit annual reports to the Legislature;
- (4) Amend the membership composition of the Career and Technical Education Coordinating Advisory Council; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Education Caucus of the Democratic Party of Hawai'i, Hawaii State Teachers Association, and Hawai'i Farm Bureau. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Education, Office of Collective Bargaining, and Hawai'i P-20 Partnerships for Education.

Your Committees find that over the past decade, secondary schools across the State have diverted funding from career and technical education to tested subjects. According to testimony received by your Committees, the career and technical education teaching field has one of the highest vacancy fields because the current pay to teach these desired skills is not competitive with industry pay. This

measure will expand the educational and career options for students by increasing state efforts to recruit and retain high quality career and technical education teachers.

Your Committees have heard the testimony of the Office of Collective Bargaining and notes its concerns regarding appropriations for collective bargaining cost items made prior to or during collective bargaining negotiations. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it considers replacing sections 7 and 8 of this measure with the following:

“In accordance with section 89-10, Hawaii Revised Statutes, an agreement may be reached between the employer, as defined in section 89-6, Hawaii Revised Statutes, and the exclusive representative of collective bargaining unit (5) and each public charter school for differential pay increases for career and technical education teachers; provided that the teachers meet the requirements for a standard limited license in career and technical education issued by the Hawaii teacher standards board.”

Your Committees have amended this measure by:

- (1) Incorporating the Department of Education’s recommendation to broaden the application of appropriated funds to all career and technical education teachers;
- (2) Replacing references to “superintendent of education” with the broader term “employer” in the appropriation sections of this measure;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees also urge the Department of Education to consider career and technical education training and recertification options for its teachers.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1567, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1567, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

**SCRep. 424 Labor and Technology on S.B. No. 1569**

The purpose and intent of this measure is to:

- (1) Establish a temporary Telework Working Group;
- (2) Require interim and final reports to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Human Resources Development; Office of Planning and Sustainable Development; and Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that telework is an innovative solution that ensures workplace flexibility and holds many benefits for employees, employers, and the public, including a better work-life balance, increased productivity, and possible cost-savings from reduced energy and office space use. Your Committee further finds that modernizing the State’s telework policies will help to improve human services delivery, support employees, and attract more residents to the State’s workforce. This measure will establish a temporary working group to evaluate and address workplace issues in relation to telework, help assess the effectiveness of the telework program guidelines, and identify where improvements are needed so that telework can continue to be used effectively in the State.

Your Committee has amended this measure by:

- (1) Adding to the task force, the Director of the Office of Planning and Sustainable Development and an exclusive representative of state employees participating in the State’s telework program; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1569, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1569, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 425 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1614**

The purpose and intent of this measure is to:

- (1) Retain institutional, health, and correctional workers except for adult corrections officers of the Department of Public Safety Corrections Division or its successor agency of the Department of Corrections and Rehabilitation under bargaining unit (10); and

- (2) Create a separate bargaining unit (16) for adult corrections officers of the Department of Public Safety Corrections Division or its successor agency.

Your Committees received testimony in support of this measure from United Public Workers, AFSCME Local 646, AFL-CIO and five individuals. Your Committees received testimony in opposition to this measure from the Department of Public Safety and Office of Collective Bargaining. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that adult corrections officers perform a valuable role in the field of public safety to protect the public and support the State's correctional facilities. While employees within the Department of Public Safety correctional facilities perform a variety of roles crucial to daily operations, adult corrections officers have a unique role. Adult corrections officers perform different responsibilities from their counterparts in institutional, health, or other roles suited to bargaining unit (10). Creating a separate bargaining unit (16) will allow the unique concerns and needs of adult corrections officers to be heard.

Your Committees note the testimony of the Office of Collective Bargaining expressing concerns that separating adult corrections officers from bargaining unit (10) may not be necessary as the current collective bargaining agreement addresses changes to wages, hours, and other conditions of work. Additionally, section 61 of the bargaining unit (10) agreement was specifically negotiated for adult and youth correction officers and juvenile detention employees to include work schedules that allow for selection of workdays, days off, and shift selection.

Your Committees additionally note that the Department of Budget and Finance raised concerns regarding the addition of new bargaining units and that such action will create increased administrative costs, administration, negotiation, arbitration, and management.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1614, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1614, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 426 (Joint) Labor and Technology and Health and Human Services on S.B. No. 360**

The purpose and intent of this measure is to:

- (1) Require the Department of Labor and Industrial Relations to establish and administer a family leave insurance program;
- (2) Provide family leave insurance benefits and extend the period of family leave to sixteen weeks for businesses that employ one or more employees who meet the hourly qualifications;
- (3) Eliminate the previous threshold of one hundred employees for employers to be subject to the family leave law; and
- (4) Appropriate an unspecified amount of funds.

Your Committees received testimony in support of this measure from Rainbow Family 808.com Inc; Americans for Democratic Action Hawai'i; Labor Caucus of the Democratic Party of Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; Women's Caucus of the Democratic Party of Hawai'i; Education Caucus of the Democratic Party of Hawai'i; International Alliance of Theatrical Stage Employees Local 665; Pride at Work – Hawai'i; UNITE HERE Local 5; Hawai'i State AFL-CIO; Hawaii Association for Infant Mental Health; Our Hawaii, Inc.; Hawai'i Nurses' Association, OPEIU Local 50; Obesity Prevention Task Force of the Hawaii Public Health Institute; Hawaii State Teachers Association; Hawai'i Family Caregiver Coalition; Hawai'i Foodbank, Inc.; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Alliance for Progressive Action; American Association of University Women of Hawaii; Hawai'i Workers Center, Hawai'i State Coalition Against Domestic Violence; Imua Alliance; Hawai'i Children's Action Network Speaks!; Save Medicaid Hawaii; Hawai'i Women Lawyers; and thirty-eight individuals. Your Committees received testimony in opposition to this measure from Hawaii Energy Marketers Association, Chamber of Commerce Hawaii, Society of Human Resource Management Hawaii, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Human Resources Development, Department of Labor and Industrial Relations, Department of the Attorney General, and Department of Human Services.

Your Committees find that although Hawaii's Family Leave Law provides four weeks of protected leave for employees of employers with one hundred or more employees for the birth or adoption of the employee's child or care of the employee's child, spouse, reciprocal beneficiary, sibling, grandchild, or parent with a serious health condition, this leave is generally unpaid. Given the concerns raised by the Department of Labor and Industrial Relations and Department of the Attorney General regarding the implementation of the program as proposed by this measure, your Committees believe that the development of a family leave insurance program in the State requires more study.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have:
  - (A) Required the Department of Labor and Industrial Relations to establish and administer a family leave insurance program;
  - (B) Provided family leave insurance benefits and extended the period of family leave to sixteen weeks for businesses that employ one or more employees who meet the hourly qualifications; and
  - (C) Eliminated the previous threshold of one hundred employees for employers to be subject to the family leave law;

- (2) Inserting language that:
- (A) Requires DLIR to study and submit a report to the Legislature that addresses the development of a family leave insurance program in the State that pays family leave insurance benefits prior to the Regular Session of 2024; and
  - (B) Appropriates an unspecified amount of funds and establishes an unspecified number of positions within DLIR to conduct the study;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees suggest that, in its study on the development of a family leave insurance program in the State that pays family leave insurance benefits, DLIR review the Hawaii State Paid Family Leave Analysis Grant Report (November 2017) and the Paid Family Leave Program Impact Study generated in accordance with Act 109, Session Laws of Hawaii 2018. Your Committees also urge DLIR to work with the Department of the Attorney General and the Department of Human Services to address the concerns raised.

Your Committees note that the Senate Draft 1 of this measure contains an unspecified appropriation amount and an unspecified number of positions within DLIR to conduct a study that addresses the development of a family leave insurance program in the State. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it considers inserting language for DLIR to contract out the study in lieu of establishing positions and requiring an actuarial component to the study as recommended by the Department of Budget and Finance.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 360, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 360, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 427 (Joint) Labor and Technology and Health and Human Services on S.B. No. 800**

The purpose and intent of this measure is to establish income tax credits for employers who provide their employees with child care.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii and Hawaii Food Industry Association. Your Committees received comments on this measure from the Department of Human Services, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that the cost of childcare is typically the second largest expense in a family budget after rent or mortgage. This measure, which incentivizes employers to offer employer-provided or employer-sponsored child care services, including establishing a licensed child care center, and subsidizing the cost of child care, would contribute to the State's overall need for more child care.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 800, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 800, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 428 (Joint) Public Safety and Intergovernmental and Military Affairs and Judiciary on S.B. No. 1527**

The purpose and intent of this measure is to:

- (1) Change the governmental entity responsible for the administration of the Address Confidentiality Program from the Office of the Lieutenant Governor to the Department of Law Enforcement, beginning January 1, 2024;
- (2) Authorize the Department of Law Enforcement to contract the services of a third party to administer the Address Confidentiality Program; and
- (3) Appropriate funds for full-time equivalent positions, operating costs, and equipment to support the Department of Law Enforcement's Criminal Justice Data Center in administering the Address Confidentiality Program.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Law Enforcement, Crime Victim Compensation Commission, Hawai'i State Coalition Against Domestic Violence, and two individuals.

Your Committees find that the Legislature passed Act 115, Session Laws of Hawaii 2018, and Act 274, Session Laws of Hawaii 2019, to create a program to protect the addresses of survivors of domestic abuse, sexual offenses, or stalking from public record. Your

Committees believe that the open nature of the Office of the Lieutenant Governor and the State Capitol creates safety concerns and it is more appropriate to house this program within the Department of Law Enforcement where abusers and stalkers would be deterred from visiting. This measure will keep the physical addresses of survivors of domestic abuse, sexual assault, and stalking confidential by changing the governmental entity responsible for the administration of the Address Confidentiality Program from the Office of the Lieutenant Governor to the Department of Law Enforcement and appropriating funds to support the Department of Law Enforcement in administering the Address Confidentiality Program.

Your Committees have amended this measure by:

- (1) Deleting language that would have authorized the Department of Law Enforcement to contract the services of a third party to administer the Address Confidentiality Program;
- (2) Establishing the Address Confidentiality Program Governance Committee to advise the Department of Law Enforcement on the implementation and operation of the program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1527, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1527, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

**SCRep. 429 (Majority) Transportation and Culture and the Arts on S.B. No. 224**

The purpose and intent of this measure is to:

- (1) Authorize noise control infractions to be processed under the traffic and emergency period infractions adjudication process; and
- (2) Grant the district court concurrent jurisdiction over noise control infractions committed by minors.

Your Committee received testimony in support of this measure from the Honolulu Police Department and the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that there has been a proliferation of legitimate noise complaints across the State. In particular, noise pollution has grown, especially in urban areas, with noise complaints most prevalent during the late evening or early morning hours. However, presently, there are no ordinances designated as noise control infractions. This measure establishes a means to enforce noise control infractions by expanding the existing adjudication process that is used for traffic and emergency period infractions to ensure peace within Hawaii's communities. Your Committee acknowledges the testimony of the Department of the Prosecuting Attorney of the City and County of Honolulu, which notes that the infractions established by this measure could be effectuated quickly and efficiently. Your Committee therefore requests that your Committee on Judiciary consider this testimony should it decide to hear this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 224, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 430 Transportation and Culture and the Arts on S.B. No. 822**

The purpose and intent of this measure is to:

- (1) Create a process for the establishment of a creative district;
- (2) Establish a five-year tax credit for creative districts, beginning in taxable years after December 31, 2023;
- (3) Permit counties to enact incentives for creative districts; and
- (4) Require the State Foundation on Culture and the Arts to submit an annual report to the Legislature on creative districts.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and one individual. Your Committee received comments on this measure from the Creative Industries Division of the Department of Business, Economic Development, and Tourism; Department of Taxation; Office of Information Practices; and Tax Foundation of Hawaii.

Your Committee finds that creative districts are areas designated to encourage economic growth through the development of creative activities within the community. In other states, businesses within designated cultural or creative districts have evolved to improve the quality of life for residents of the area and rejuvenated the community. To stimulate economic development, revitalize communities, and support the artistic and cultural potential of those who live, work, and play within the designated areas, this measure establishes a process to create creative districts and a creative district tax credit.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the advisory committee to give notice pursuant to chapter 91, Hawaii Revised Statutes, and conduct its meetings under chapter 92, Hawaii Revised Statutes;
- (2) Clarifying that taxpayers shall allocate and apportion their taxable income to designate business conducted inside and outside of the creative district; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 822, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 431 Transportation and Culture and the Arts on S.B. No. 315**

The purpose and intent of this measure is to:

- (1) Classify certain former military vehicles as special interest vehicles; and
- (2) Enable owners of former military vehicles to apply for registration.

Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that the counties had previously allowed former military vehicles to be registered with their respective departments of motor vehicles; however, residents are now prohibited from registering their former military vehicles. Your Committee further finds that residents use former military vehicles to safely transport large groups of people over rough terrain that requires a vehicle with four-wheel drive. Additionally, there are several states that currently permit the titling and registration of former military vehicles, as long as the vehicles satisfy the Federal Motor Vehicle Safety Standards. Therefore, this measure will classify certain former military vehicles as special interest vehicles and enable owners of former military vehicles to apply for registration.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 315, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 315, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 432 (Majority) Transportation and Culture and the Arts on S.B. No. 15**

The purpose and intent of this measure is to authorize the Director of Transportation to adopt rules that regulate and limit noise from vessels at harbors, ports, roadsteads, docks, wharves, piers, quays, bulkheads, and landings of the State.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from Matson Navigation Company, Inc. and Hawaii Harbor Users Group.

Your Committee finds that as working harbors, many of the State's harbors produce large amounts of noise. While the Department of Transportation has the authority to adopt rules regulating the manner in which vessels may enter and moor, anchor, or dock in commercial harbors, ports, and roadsteads, this authority does not allow the Department of Transportation to adopt rules to regulate excessive and harmful noises emanating from these vessels. To alleviate the concerns of individuals affected by the noise from state harbors, this measure authorizes the Department of Transportation to adopt rules to regulate and limit noise from vessels at state-owned harbors.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 15, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 433 Transportation and Culture and the Arts on S.B. No. 969**

The purpose and intent of this measure is to:

- (1) Establish that noise generated by helicopters in excess of a certain decibel level constitutes a public nuisance and a source of noise pollution in violation of the State's noise pollution law;
- (2) Establish fines and a private right of action for individuals to sue helicopter owners and operators for committing a public nuisance; and
- (3) Establish exceptions.

Your Committee received testimony in support of this measure from the Department of Transportation, one member of Hawaii's congressional delegation, and four individuals. Your Committee received testimony in opposition to this measure from Jack Harter Helicopters, Helicopter Association International, and AOPA. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, and one individual.

Your Committee finds that the volume and extent of tour helicopters and small aircraft operating in the State have rapidly increased in the past decade. This increase in helicopter and small aircraft tours have also increased disruptions through noise and vibrations, affecting residential, business, and industrial communities; state and national parks; cemeteries and areas of solemnity; and areas of critical infrastructure. This measure establishes that helicopter noise in excess of a certain decibel level is a public nuisance.

Your Committee notes the testimony of the Department of the Attorney General, which raises concerns that this measure could be federally preempted by the Federal Aviation Act. Your Committee requests that your Committee on Judiciary, should it choose to deliberate on this measure, further examine this issue and concerns raised by the Department of the Attorney General on this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 969, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 434      Transportation and Culture and the Arts on S.B. No. 844**

The purpose and intent of this measure is to authorize the issuance of special number plates to commemorate Malama Puuloa.

Your Committee received testimony in support of this measure from Hui o Ho'ohonua, Hawaii Bicycling League, and four individuals.

Your Committee finds that Keawalaupuuloa, also known as Puuloa or Pearl Harbor, is a place of cultural significance and now exemplifies the power of positive, community-led change. First settled around 400 A.D., Puuloa's ancient settlements near present-day Honouliuli, also known as West Loch, represent the first and oldest settlements on the island of Oahu. Puuloa was an abundant water resource that contained at least thirty loko ia, traditional Hawaiian fishponds, and loi kalo, patches of land for taro cultivation. Your Committee also finds that Puuloa's aquatic resources have been exposed and contaminated with harmful chemicals and materials such as mercury, PCBs, dioxins, pesticides, microplastics, and lead. Many toxins present in Puuloa persist in the environment for significant periods of time, bioaccumulating in the wildlife and plants in the surrounding areas.

Your Committee further finds that Hui o Ho'ohonua, a 501(c)3 nonprofit organization established in 2015, has a mission to restore Puuloa to abundance. Through a community-driven approach such as workdays, education, and partnerships with the community, Malama Puuloa focuses on rebuilding relationships between people and the land to heal impacted waters and land. To recognize Malama Puuloa's contributions to natural resource management, perpetuation of Native Hawaiian culture, and environmentalism, this measure authorizes the issuance of special number plates to recognize and honor Malama Puuloa.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 844, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 435      (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 498**

The purpose and intent of this measure is to:

- (1) Establish the Shipping Container Inspection Program and Shipping Container Inspection Program Special Fund;
- (2) Increase the maximum fine for each violation of the fireworks law; and
- (3) Require the Department of Public Safety to submit reports to the Legislature on implementation of the Shipping Container Inspection Program.

Your Committees received testimony in support of this measure from the Department of Law Enforcement, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaiian Humane Society, Poi Dogs & Popoki, and eleven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance; Department of the Attorney General; Department of Transportation; Hawaii Harbors; Young Brothers, LLC; and Matson Navigation Company, Inc.

Your Committees find that to address the problem of illegal fireworks, Act 170, Session Laws of Hawaii 2010, established the Illegal Fireworks Task Force to develop strategies and make recommendations to the Legislature to address the illegal importation and use of fireworks in the State. One recommendation called for increasing random inspections for illegal fireworks by expanding inspection authority and focusing cargo inspections to be more manageable. Pursuant to Act 184, Session Laws of Hawaii 2019, the Legislative Reference Bureau updated its 2011 "Report of the Illegal Fireworks Task Force to the Legislature for the Regular Session of 2011", concurring that the "issues and challenges presented by the Task Force in its 2011 report remain relevant today". To address

the ongoing prevalence of illegal fireworks in Hawaii's communities, establishing a Shipping Container Inspection Program may prevent the widespread proliferation of illegal fireworks in the State.

Your Committees have amended this measure by:

- (1) Deleting language that would have increased the fees for each shipping container arriving in the State beginning July 1, 2024;
- (2) Requiring offsite shipping containers to be conducted at the final container drop-off location or a non-active harbor area within twenty-four hours of initial arrival;
- (3) Requiring a law enforcement agency to investigate in the event that contraband is discovered during a shipping container inspection;
- (4) Establishing an unspecified fine amount for any person who tampers with secure container seals;
- (5) Inserting an appropriation of \$1,000,000 out of the general fund to establish and administer the Shipping Container Inspection Program, including the purchase, care, and handling of at least two explosive-sniffing dogs;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 498, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 498, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the President and Chair on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 436      Transportation and Culture and the Arts on S.B. No. 824**

The purpose and intent of this measure is to require commodities and manifested cargo requiring tug assistance to be manned by an existing, operational stevedoring company that is operating within the State.

Your Committee received testimony in support of this measure from Hawaii Stevedores Inc. and seventy-six individuals. Your Committee received testimony in opposition to this measure from Hawaiian Cement. Your Committee received comments on this measure from the Department of the Attorney General and Department of Transportation.

Your Committee finds that as the most remote island chain in the world, tugs are vital to Hawaii's shipping industry. To secure shipping vessels to wharves, mooring lines are thrown over the bollard, which are then secured by certified longshore linespersons to safely secure the bulkhead. However, presently, there is no requirement for any out-of-state company to utilize trained local longshore linespersons to secure operational vessels. Additionally, all stevedoring companies operating within the state harbor system are required to be certified and periodically recertified to follow all health and safety guidelines. Stevedoring companies are also well-versed in the uniqueness of each state harbor's challenges pertaining to the loading and landing of merchandise. Therefore, requiring all commodities and manifested cargo requiring tug assistance to be manned by a stevedoring company operating in the State will allow a vital function of the State to continue while also keeping crews safe.

Your Committee notes the testimony of the Department of Transportation regarding the regulation of activity. As the intent of this measure focuses on the regulation of labor rather than a regulation of facilities, the Department of Transportation recommends placing the proposed changes in an appropriate chapter of the Hawaii Revised Statutes that controls labor.

Your Committee has amended this measure by:

- (1) Inserting language that authorizes an unspecified department to regulate labor required to provide stevedoring services to load and unload commodities and manifested cargo from a vessel requiring tug assistance from any harbor facility owned and controlled by the Department of Transportation;
- (2) Amending the bill to clarify that the securing of mooring lines from vessels to the commercial docks, wharves, piers, quays, bulkheads and landings shall be performed by a stevedoring company, as defined in this measure;
- (3) Clarifying the definition of "stevedoring company" to more clearly reference the specific mooring activities performed by such companies; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 824, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 824, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Elefante).

**SCRep. 437      Transportation and Culture and the Arts on S.B. No. 479**

The purpose and intent of this measure is to remove the requirement that common water carriers receive permission from the Public Utilities Commission before executing a long-term lease of more than three years or a leverage lease.

Your Committee received testimony in support of this measure from Matson Navigation Company, Inc.; Hawaii Harbor Users Group; and Young Brothers, LLC. Your Committee received testimony in opposition to this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that as an island state, Hawaii is dependent upon the commercial harbor system to ensure continued and unimpeded flow of cargo in and out of the State. As ninety percent of Hawaii's imported goods pass through commercial harbors, including consumer goods, motor vehicles, construction materials, and fuel, it is crucial that the State support dependable and efficient cargo transportation, including water carriers, to service residents and businesses in a timely manner. However, current requirements unduly necessitate additional regulatory approval processes, which may impede a water carrier's ability to timely secure equipment or property needed to serve its customers. By ensuring that current approval processes are streamlined, water carriers can better serve Hawaii's communities.

Your Committee has amended this measure by:

- (1) Specifying that a common water carrier may, only upon approval by the Public Utilities Commission, enter into long-term leases of more than five years and leverage leases for waterborne vessels;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 479, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the President on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 438 (Majority) Transportation and Culture and the Arts on S.B. No. 1504**

The purpose and intent of this measure is to:

- (1) Establish a Museum of Modern Hawaii History;
- (2) Establish a task force to prepare the plans, specifications, and designs for the construction of the Museum of Modern Hawaii History; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services and State Foundation on Culture and the Arts. Your Committee received comments on this measure from the Department of Budget and Finance, Judiciary, and Bishop Museum.

Your Committee finds that the Bernice Pauahi Bishop Museum generally covers pre-contact and early Hawaiian history, while Iolani Palace covers the Hawaiian monarchy and overthrow period. However, the State has much to celebrate and share since the early twentieth century. As the State made significant national and international impacts that were not preserved and exhibited, including the history of World War II, statehood, and groundbreaking political moments, this measure establishes a Museum of Modern Hawaii History to share Hawaii's recent achievements with the rest of the world.

Your Committee has amended this measure by:

- (1) Amending legislative findings;
- (2) Clarifying the purpose of the Museum of Modern Hawaii History;
- (3) Deleting language that would have established a Modern Hawaii History Special Fund;
- (4) Amending the Museum of Modern Hawaii Task Force's scope and responsibilities;
- (5) Amending the composition of the Museum of Modern Hawaii Task Force to include:
  - (A) Any representative of the University of Hawaii, rather than a representative of the University of Hawaii Board of Regents;
  - (B) The Chief Justice, or their designee, to represent the King Kamehameha V Judiciary History Center; and
  - (C) Other stakeholders recommended by the chairperson;
- (6) Deleting the Museum of Modern Hawaii Task Force dissolution date;
- (7) Deleting an appropriation of \$250,000 into and out of the Modern Hawaii Special Fund;
- (8) Inserting an unspecified appropriation amount of general funds for the administration of the task force;
- (9) Amending section 1 to reflect its amended purpose; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1504, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 439      Transportation and Culture and the Arts on S.B. No. 1120**

The purpose and intent of this measure is to:

- (1) Require the State Art Museum to provide opportunities for the counties and private organizations located in Hawaii to display art through loan arrangements with the State Foundation on Culture and the Arts under the Arts in Public Places Program;
- (2) Provide that artists who reside in Hawaii receive selection preference for the Arts in Public Places Program; and
- (3) Require a report to the Legislature.

Your Committee received comments on this measure from the State Foundation on Culture and the Arts.

Your Committee finds that the percent-for-art law was created in 1967 based on the intrinsic relationship between art and architecture, where art is included as an essential part of the architectural plan by providing access and education to Hawaii's people. Presently, statewide program operations include acquisition and distribution of works of art, conservation of an exterior public art collection, interpretation of the collection, and recognition of student artwork. This measure requires the State Foundation on Culture and the Arts to provide opportunities for an art loan program, with preference to artists who reside in Hawaii, to continue the State Foundation on Culture and the Arts' important mission to promote art through education and access.

Your Committee has amended this measure by:

- (1) Clarifying that art loans to a non-museum or public institution may be subject to a fee to be determined by the State Foundation on Culture and the Arts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1120, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 440      Transportation and Culture and the Arts on S.B. No. 1532**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Leadership Award Program to honor individuals who have made considerable and outstanding contributions to Hawaii and serve as inspirations to others; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and one individual.

Your Committee finds that the Aloha Order of Merit was established to recognize national or international achievement in a field either by a single event or by the totality of work that has either been pioneering in that field or that has been outstanding in the long term. Innovators in various fields, from athletics to politics, art and music to science, have placed Hawaii in the international spotlight. To recognize and honor individuals who made considerable and outstanding contributions to the State, this measure establishes the Hawaii Leadership Award Program.

Your Committee has amended this measure by:

- (1) Renaming the Hawaii Leadership Award Program to the Hawaii Leadership Awards Program;
- (2) Clarifying the awards under the Hawaii Leadership Awards Program shall be presented annually;
- (3) Adding the Lieutenant Governor as a presenting member of the Hawaii Leadership Awards Program alongside the Governor and members of the Hawaii Leadership Awards Selection Committee;
- (4) Clarifying that no individual may receive more than one award each year nor more than one award in each category;
- (5) Inserting a blank appropriation amount;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount, and respectfully requests that your Committee on Ways and Means considers inserting an appropriation amount of \$200,000.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1532, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 441 Transportation and Culture and the Arts on S.B. No. 1037**

The purpose and intent of this measure is to designate Limu Kala (*Sargassum echinocarpum*) as the official Hawaii state limu.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Mālama Pūpūkea-Waimea; Kua'āina Ulu 'Auamo; Mālama Limu Club of Kamehameha Schools Kapalāma High School; Ocean Era, Inc.; Kauhakō Ohana Association; and fourteen individuals.

Your Committee finds that limu holds ecological and cultural significance to the State. Limu kala grows in the nearshore ecosystem and is abundant seasonally in many intertidal and subtidal habitats, including tidepools and reef flats in areas with moderate to high wave action. Limu kala is a critically important component of a healthy and productive reef ecosystem, and is a culturally significant food source in Native Hawaiian culture. Therefore, recognizing the significance of limu kala allows cultural knowledge to be shared across generations and around the world. To recognize the importance of limu kala in various scientific and cultural aspects, this measure designates limu kala as the official limu of the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1037, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the President on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 442 Transportation and Culture and the Arts on S.B. No. 493**

The purpose and intent of this measure is to:

- (1) Provide that no new vehicle needs a safety inspection until five years after the date the vehicle was first sold, unless the vehicle was modified;
- (2) Require a two-year motor vehicle safety check for vehicles ten years of age but older than five years, unless the vehicle was modified;
- (3) Require an annual motor vehicle safety check for vehicles older than ten years of age or any vehicle that has been modified; and
- (4) Double the inspection fee for the two-year motor vehicles inspections safety check.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that to optimize the effectiveness of highway safety programs, the National Highway Safety Traffic Safety Administration recommends that each state have a program for periodic safety inspections of all motor vehicles. Motor vehicle safety inspections are intended to reduce the number of vehicles with existing or potential conditions that may contribute to crashes or increase the severity of crashes that do occur. Creating oversight is imperative to ensure motor vehicles are kept in good working order to prevent danger to the driver, occupants of the vehicle, or any other individual on the roadway.

However, your Committee notes that decreased availability of safety inspectors, compounded by the increasingly limited number of hours offered to the public to receive safety check inspections, has caused annual motor vehicle hardship on residents, particularly those living in rural areas. By amending the requirements for motor vehicle safety inspections, the State can maintain high vehicle safety standards while addressing the needs of safety inspectors and drivers.

Your Committee has amended this measure by:

- (1) Deleting language that would have amended annual safety check requirements for certain vehicles;
- (2) Establishing a three-year pilot program to:
  - (A) Provide new vehicles with a three-year grace period and electric vehicles with a two-year grace period before requiring annual safety inspections; and
  - (B) Require electric vehicles participating in a road usage charge program shall pay the road usage charge fee based on a self-reported photo odometer reading;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 443      Transportation and Culture and the Arts on S.B. No. 382**

The purpose and intent of this measure is to prohibit motor vehicle manufacturers from charging subscription fees for services that employ equipment already installed in the motor vehicle at the time of sale as a new motor vehicle.

Your Committee received testimony in opposition to this measure from Alliance for Automotive Innovation. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Tesla.

Your Committee finds that motor vehicle manufacturers have begun charging subscription fees for consumers to use certain features in their vehicles, including remote locking, remote ignition, and automatic high-beam headlights. The implementation of subscription fees is one of various factors contributing to the increase in transportation costs for residents.

Your Committee further finds that certain automobile manufacturers, such as BMW, charge consumers \$18 per month for features initially included with the vehicle such as heated seats. To ensure consumers have full access to features included with their new vehicle purchases, this measure prohibits motor vehicle manufacturers from charging subscription fees for certain services that employ equipment already installed in the motor vehicle at the time of sale as a new motor vehicle.

Your Committee has amended this measure by:

- (1) Clarifying that the prohibition shall not apply to entertainment streaming subscriptions and vehicle navigation;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 382, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the President on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 444      (Majority) Transportation and Culture and the Arts on S.B. No. 1534**

The purpose and intent of this measure is to:

- (1) Replace the \$50 annual vehicle registration surcharge for electric vehicles with a capped mileage-based road user fee for electric vehicles;
- (2) Establish the Hawaii Highway Safety and Modernization Council and repeal the State Highway Safety Council, effective July 1, 2023; and
- (3) Provide that implementation of user fees take effect January 1, 2025.

Your Committee received testimony in support of this measure from the Ulupono Initiative. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Hawaii State Energy Office, Tax Foundation of Hawaii, and Tesla.

Your Committee finds that as fuel tax revenues decrease, the Department of Transportation recommends the adoption of a per-mile road usage charge system to provide sustainable funding for the State's road infrastructure. With the existing vehicle inspection program, the State can transition to a per-mile road usage charge system while also considering a replacement for the surcharge on electric vehicles. Additionally, increased support for fuel-efficient electric and alternative fuel vehicles may drive the shift to fees based on vehicle miles traveled to ensure fairness to all drivers in the State. To ensure an appropriate approach to transportation is utilized, the State should pursue a concerted strategy to enable commuters to reduce overall vehicle miles traveled while providing commuters who do not drive with more affordable options to improve outcomes and reduce the number of cars on the road, traffic, and costs.

Your Committee notes that, before the Department of Transportation implements a mileage-based user fee, the \$50 surcharge on electric vehicles will remain in effect. However, after the implementation of a mileage-based user fee, the \$50 surcharge on electric vehicles will be replaced with the mileage-based user fee. Your Committee emphasizes that Hawaii drivers operating an electric motor vehicle will not pay two fees upon implementation of the mileage-based user fee.

Your Committee has amended this measure by:

- (1) Deleting the contents of section 2 and inserting the contents of H.B. No. 1110, section 2, a substantially similar measure, which:
  - (A) Establishes a state mileage-based road usage charge;
  - (B) Requires annual payment of the mileage-based road usage charge following the vehicle's most recent inspection;
  - (C) Provides exemptions for certain vehicles;
  - (D) Offers owners of electric vehicles the choice to pay a \$70 registration surcharge in lieu of the state mileage-based road usage charge until June 30, 2028;

- (E) Requires the Department of Transportation to develop a long-term mileage-based road usage charge implementation plan by December 31, 2023; and
- (F) Authorizes the Department of Transportation to develop rules to implement the mileage-based road usage charge;
- (2) Requiring the Department of Transportation to adopt a phased implementation approach to offer greater flexibility to the Department to implement the mileage-based road user fee;
- (3) Amending the composition of the Hawaii Highway Safety and Modernization Council to include the Deputy Director of Transportation for Highways;
- (4) Narrowing the Hawaii Highway Safety and Modernization Council's scope to focus on the development of goals, metrics, benchmarks, and strategies to reduce the cost of transportation and vehicle miles traveled;
- (5) Requiring the Hawaii Highway Safety and Modernization Council to also advise the Governor on matters relating to the programs and activities of the State in the field of highway safety; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1534, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 445 (Majority) Transportation and Culture and the Arts on S.B. No. 973**

The purpose and intent of this measure is to require lessors of rental motor vehicles to incorporate zero-emission vehicles or plug-in hybrid electric vehicles, or both, into the lessor's rental motor vehicle fleets.

Your Committee received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission, Ulupono Initiative, Kauai Climate Action Coalition, Chamber of Sustainable Commerce, Blue Planet Foundation, 350Hawaii.org, and thirteen individuals. Your Committee received testimony in opposition to this measure from Avis Budget Group and Enterprise Holdings. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that many major vehicle manufacturers are planning to phase out the sale of new fossil fuel vehicles by 2035. However, rental fleets in Hawaii will be unable to adapt unless sufficient electric vehicle charging infrastructure is available at rental hubs and destinations. Transitioning rental motor vehicle fleets to zero-emission vehicles will reduce carbon emissions and increase the number of zero-emission vehicles entering the secondary market, making clean electric vehicles more affordable and lowering the cost of transportation for residents.

Your Committee has amended this measure by:

- (1) Deleting language that would have required lessors of rental motor vehicles to incorporate zero-emission vehicles or plug-in hybrid electric vehicles, or both, into the lessor's rental motor vehicle fleets;
- (2) Inserting language that requires rental car companies using state facilities to pay or reimburse the State to install new or utilize existing electric vehicle charging infrastructure at public facilities beginning January 1, 2028;
- (3) Establishing a task force to determine implementation of electric vehicle charging infrastructure to support one hundred per cent electric vehicle rental fleets in the State by 2035;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 973, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the President on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 446 (Joint/Majority) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 1497**

The purpose and intent of this measure is to:

- (1) Establish the Highways Clean Energy Technology Pilot Program within the Department of Transportation;
- (2) Require a report to the Legislature; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual.

Your Committees find that the State has an opportunity to generate renewable energy using lands in the state highways rights-of-way. Other jurisdictions across the county successfully and safely deployed solar power by installing solar panels in shoulders and medians to generate clean energy. This measure establishes a Highways Clean Energy Technology Pilot Program to contribute to the achievement of the State's clean energy goals, while also achieving energy security and resilience in rural communities.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1497, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1497, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President and Chair on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 447 (Joint/Majority) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 449**

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism for the Commission on the Thirteenth Festival of Pacific Arts and Culture to plan for the Festival of Pacific Arts and Culture to be held in Honolulu from June 6 to June 16, 2024.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Tourism Authority; State Foundation on Culture and the Arts; Commission on the Thirteenth Festival of Pacific Arts & Culture; Hawai'i Lodging & Tourism Association; and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Festival of Pacific Arts and Culture is an event that brings together a delegation of over two-thousand artists, performers, and cultural practitioners from twenty-seven different nations in Oceania, in order to preserve and perpetuate the arts and cultures of their indigenous peoples. Additionally, it is an event that has been held approximately every four years since its creation in 1972. In 2016, Hawaii won its bid to host the thirteenth Festival of Pacific Arts. However, the onset of the coronavirus disease 2019 (COVID-19) pandemic canceled the original festival scheduled for 2020. Hawaii is now scheduled to host the Thirteenth Festival of Pacific Arts and Culture from June 6th, 2024, to June 16th, 2024. Therefore, with the world emerging from the COVID-19 pandemic and Hawaii getting a second chance to host the Festival of Pacific Arts and Culture event, this measure will appropriate funds to the Department of Business, Economic Development, and Tourism for the Commission on the Thirteenth Festival of Pacific Arts and Culture to plan for the Festival of Pacific Arts and Culture.

Your Committees have amended this measure by:

- (1) Correcting the name of the Thirteenth Festival of Pacific Arts to the Thirteenth Festival of Pacific Arts and Culture;
- (2) Inserting a blank appropriation amount; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 449, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 449, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President and Chair on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 448 (Majority) Health and Human Services on S.B. No. 762**

The purpose and intent of this measure is to require the Department of Health to:

- (1) Adopt rules to regulate water catchment systems for business activities;
- (2) Allow business owners to participate in the Department's annual water testing program under certain conditions; and
- (3) Establish a nonregulatory program that provides technical assistance to business owners who wish to utilize filtered water from a water catchment system.

Your Committee received testimony in support of this measure from Hawaii Tropical Fruit Growers; Kuahiwi Ranch, LLC; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that the effects of the recent high-profile leaks of petroleum and other chemicals at the Red Hill Bulk Fuel Storage Facility and the raw wastewater spill at the Ewa Beach Wastewater Pump Station underscore the fragility of the State's water system, thereby emphasizing the need to pursue innovative solutions to decrease use of the State's limited aquifers. Your Committee also finds that water catchment systems capture rainwater that can be utilized to supplement potable water systems. Your Committee further finds that the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources has published guidelines that outline a safe process for utilizing water captured for personal use that can be appropriately applied to activities under certain

regulatory conditions. Existing law allows captured water to be used for personal purposes only, thereby requiring small businesses in underserved rural areas, including agricultural production and processing businesses, to pay hourly fees to use a commercial kitchen or buy county water and have it delivered by truck, which costs approximately \$250 for a half tank. This measure will provide business owners more flexibility in accessing water by allowing them to safely use filtered water from a water catchment system for business activities.

Your Committee acknowledges the concerns raised by the Department of Health, including the rigorous and costly barrier treatments that business owners may need to implement to utilize filtered water from a water catchment system for business activities; types of business activities that would be subject to this measure; possible conflicts between the authority of the State and counties in enforcing plumbing codes applicable to the water catchment systems; and the feasibility in providing water testing support that is intended to assist residents with lead and copper testing at residential dwellings to business activities. However, given the recent incidents at the Red Hill Bulk Fuel Storage Facility and Ewa Beach Wastewater Pump Station that endangered the health and safety of the people in the State, your Committee finds that the State should at least consider alternative options that give business owners access to water resources that do not rely on the State's limited aquifers.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that:
  - (A) Creates a Business Activity Water Catchment System Working Group within the Department of Health to assess the feasibility of allowing business owners in the State to utilize filtered water collected by water catchment systems for business activities;
  - (B) Requires the working group to report its findings and recommendations to the Legislature before the Regular Session of 2025; and
  - (C) Requires the working group to dissolve on June 30, 2025;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 762, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 449 Health and Human Services on S.B. No. 857**

The purpose and intent of this measure is to authorize manufacturers of investigational drugs or biological products to make available their drugs and products to eligible terminally ill patients under certain conditions.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that terminally ill patients do not have access to potentially lifesaving investigational drugs or biological products awaiting final approval by the United States Food and Drug Administration. For this reason, the federal government and forty-one states have enacted "right-to-try" legislation that makes available experimental drugs and products that have not received Food and Drug Administration approval to terminally ill patients with no other medication or treatment options. With this measure, Hawaii would join the vast majority of the nation in granting terminally ill patients access to potentially lifesaving investigational drugs and biological products.

Your Committee notes the testimony submitted by the Department of Health recommending data collection to determine the efficacy of a "right-to-try" system based on voluntary participation, in particular a system that involves for-profit entities incorporated outside of the State. Your Committee therefore requests that manufacturers of investigational drugs and biological products that make their drugs and products available pursuant to this measure share applicable data with the Department of Health to assess the "right-to-try" system's efficacy.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 857, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 857, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 450 (Majority) Health and Human Services on S.B. No. 627**

The purpose and intent of this measure is to authorize candidates seeking election to use campaign funds for child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from Vote Mama Foundation, Hawaii Children's Action Network Speaks!, and one individual.

Your Committee finds that the State has shown promise regarding the representation of mothers of young children holding elected office. Presently, 6.58 percent of legislative members in the State are mothers with minor children. As running for office takes considerable time and resources outside of the full-time work week, parents with young children face greater challenges when balancing campaign activities and childcare. This measure authorizes candidates seeking election to use campaign funds for childcare and vital household dependent care costs, under certain conditions, to provide greater access and participation in the political campaign process.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 627 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 451 Health and Human Services on S.B. No. 609**

The purpose and intent of this measure is to require health insurance policies and contracts issued on or after January 1, 2024, to provide coverage for the cost of hearing aids at a minimum of \$1,500 per hearing aid for each hearing-impaired ear every thirty-six months in their base plans.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Democratic Party of Hawai'i Kūpuna Caucus, and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, and Hawaii Medical Service Association.

Your Committee finds that hearing is one of the most important senses upon which an individual depends for communication. However, many health insurance companies have inconsistent coverage for hearing aids and federal Medicare coverage is very limited, resulting in large out-of-pocket costs. As a result, it is not unusual for people with hearing loss to choose to delay or forgo purchasing hearing aids and ultimately lose their ability to attend work or school, earn income, and engage with their communities. Your Committee additionally finds that the Auditor has already conducted an assessment of the impact of mandates for hearing aid insurance coverage, and reported the need to have limits on coverage, such as minimum or maximum costs covered by insurers or frequency of placement. This measure addresses those concerns by requiring a minimum coverage benefit of \$1,500 per hearing aid for each ear every thirty-six months.

Your Committee notes that the \$1,500 minimum coverage amount was originally requested by the Deaf and Blind Task Force as appropriate. However, your Committee also acknowledges the concern raised by the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) that the application of such coverage across all EUTF medical plans will add \$2,500,000 annually in claims to the EUTF plans and increase the unfunded liability by \$37,100,000. Your Committee also notes concerns raised by the Hawaii Medical Service Association that this measure may not cover its intended population, since Medicare plans are preempted by federal law from any state mandated coverage. Your Committee finds that these issues raise concerns that merit further consideration and requests that your Committees on Commerce and Consumer Protection and Ways and Means further examine them.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the minimum insurance benefit amount of \$1,500 per hearing aid with a blank amount;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 609, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 609, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 452 Health and Human Services on S.B. No. 442**

The purpose and intent of this measure is to amend the Our Care, Our Choice Act to:

- (1) Authorize advanced practice registered nurses to practice medical aid in dying in accordance with their scope of practice and prescribing authority;
- (2) Authorize psychiatric mental health nurse practitioners to provide counseling to a qualified patient;
- (3) Reduce the mandatory waiting period between oral requests from twenty days to five days; and
- (4) Waive the mandatory waiting period for terminally ill individuals not expected to survive the mandatory waiting period.

Your Committee received testimony in support of this measure from the Board of Nursing, Policy Advisory Board for Elder Affairs, Compassion & Choices, Hawai'i Association of Professional Nurses, Hawai'i Pacific Health, Hawai'i – American Nurses Association, Kūpuna Caucus of the Democratic Party of Hawai'i, Hawai'i Psychological Association, Hawaii Society of Clinical Oncology, Kokua Council, and fifteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Family Forum and twenty individuals. Your Committee received comments on this measure from the Hawai'i State Center for Nursing and Hawaii Medical Association.

Your Committee finds that the Our Care, Our Choice Act allows certain terminally ill individuals to receive prescription medication to allow them to die in a peaceful, humane, and dignified manner. However, many individuals in the State have trouble accessing this compassionate care. Particularly, Hawaii's physician shortage presents a barrier to individuals living in rural areas, and the State's mandatory waiting periods are the longest in the nation among states that have enacted medical-aid-in-dying laws. To address these barriers to accessing compassionate care, this measure amends the Our Care, Our Choice Act to authorize additional medical practitioners to facilitate medical aid in dying and reduce mandatory waiting periods.

Your Committee has amended this measure by:

- (1) Inserting language requiring the patient's attending provider to assess for the possibility of coercion or undue influence by another individual prior to any waiver of the five-day waiting period;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 442, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 453 Health and Human Services on S.B. No. 673**

The purpose and intent of this measure is to require health care facilities to allow terminally ill patients to use medical cannabis under certain conditions.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i; Cannabis Nurses Network; Marijuana Policy Project; Hawai'i Cannabis Industry Association; Aloha Green Holdings, Inc.; Noa Botanicals; and eight individuals. Your Committee received testimony in opposition to this measure from the Healthcare Association of Hawaii. Your Committee received comments on this measure from the Department of Public Safety and the Department of the Attorney General.

Your Committee finds that despite the State's legalization of cannabis for medical use, patients in health care facilities are prohibited from taking medical cannabis as part of their treatment plans. Medical cannabis has the potential to relieve pain, increase appetite, and reduce anxiety and can be used as an alternate or complementary treatment option for certain medications. Compared to other pain relief medications that may place patients in a semi-comatose state, medical cannabis allows patients to remain conscious, enabling terminally ill patients to spend more of their limited time awake and with family and friends. To facilitate compassionate care within health care facilities, this measure requires health care facilities to allow terminally ill patients to use medical cannabis.

Your Committee further finds that, according to testimony submitted by the Department of the Attorney General, amendments to this measure are necessary to address the federal prohibition on cannabis use. Additionally, testimony submitted by the Department of Public Safety noting the everyday challenge of medication diversion for incarcerated individuals warrants the exclusion of correctional facility health care programs from this measure's definition of "health care facility".

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that a health care facility may, but is not required to, allow terminally ill patients to use medical cannabis;
- (2) Clarifying that a health care facility that allows terminally ill patients to use medical cannabis may, but is not required to, adopt and disseminate a medical cannabis policy or written guidelines for the use of medical cannabis by patients;
- (3) Excluding health care programs within jails and prisons from the definition of "health care facility";
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 673, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

**SCRep. 454 Health and Human Services on S.B. No. 672**

The purpose and intent of this measure is to:

- (1) Repeal language that gives the Director of Finance discretion to use moneys in the Hawaii ABLE Savings Program Trust Fund if the Director elects to accept deposits from contributors instead of sending deposits directly to the ABLE Program Manager;
- (2) Authorize the Director of Finance to expend moneys in the Hawaii ABLE Savings Program Trust Fund to provide incentive payments to Hawaii public school ABLE account owners;
- (3) Appropriate an unspecified amount of funds to the Hawaii ABLE Savings Program Trust Fund;
- (4) Appropriate an unspecified amount of funds out of the Hawaii ABLE Savings Program Trust Fund to provide for incentive payments; and

- (5) Appropriate an unspecified amount of funds out of the Hawaii ABLE Savings Program Trust Fund to be expended by the Director of Finance to fund one full-time equivalent (1.00 FTE) permanent position to provide statewide outreach, advocacy, and relationship management for the Hawaii ABLE Savings Program.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Executive Office on Aging, Disability and Communication Access Board, Hawaii Disability Rights Center, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii ABLE Savings Program is a program that provides individuals with disabilities with the same types of flexible savings account that people without disabilities have, such as college savings accounts, where interest earned on savings are tax-exempt. Furthermore, an ABLE account would enable individuals with a disability to accrue funds to pay for a variety of expenses, such as medical and dental care, education, community-based supports, employment training, assistive technology, housing, and transportation. Your Committee further finds that there are approximately forty-three thousand individuals who are eligible for the ABLE Savings Program; however, many of them are reluctant to enroll due to misinformation about the program or hesitation to provide their personal information online, which is currently the only means by which one can apply for an ABLE account. This measure will enable the Hawaii ABLE Savings Program to engage in necessary outreach to educate these individuals and create incentives for them to enroll in the program, allowing them to save money for their futures.

Your Committee acknowledges the concerns raised by the Department of Budget and Finance over the trust fund's ability to continue being self-sustaining after the creation of the permanent program outreach position and implementation of the incentive payments proposed in this measure that would require recurring funding. Your Committee finds that this issue merits further consideration and requests that your Committee on Ways and Means further examine the matter.

Your Committee has amended this measure by:

- (1) Clarifying that the permanent Hawaii ABLE Savings Program statewide outreach position is to be established within the State Council on Developmental Disabilities;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion;
- (3) Amending section 1 to clarify this measure's purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 672, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 672, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 455 (Majority Health and Human Services on S.B. No. 842**

The purpose and intent of this measure is to appropriate funds for the Department of Human Services to purchase health care services for certain low-income, uninsured immigrants.

Your Committee received testimony in support of this measure from the Hawai'i State Youth Commission, Hawai'i Friends of Civil Rights, The Legal Clinic, Hawai'i Primary Care Association, Hawai'i Coalition for Immigrant Rights, American Cancer Society Cancer Action Network, and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that there are over forty thousand undocumented members in the immigrant community who contribute to the State's workforce, and many work in low-wage, precarious jobs without health care benefits. Additionally, immigration status prevents many low-income immigrants and their families from obtaining affordable health insurance. Without health insurance, these individuals face persistent inequities in the prevention, diagnosis, and treatment of health conditions. To increase access to health care, this measure appropriates funds to purchase health care services for low-income, uninsured immigrants ineligible for Medicaid, the Children's Health Care Program, and health insurance exchanges established in part II of the Patient Protection and Affordable Care Act.

Your Committee notes that this measure, as currently written, appropriates \$1,000,000 for the purchase of health care services for certain low-income, uninsured immigrants. However, according to testimony submitted by the Department of Human Services, the implementation of this measure, as currently written, would require an annual appropriation of at least \$30,000,000. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider further examining the appropriation amount necessary to implement this measure.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Clarifying that "low-income" means an individual whose household income is at or below one hundred fifty percent of the federal poverty level;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 842, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 842, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

**SCRep. 456 Health and Human Services on S.B. No. 671**

The purpose and intent of this measure is to exclude from the definition of “drug paraphernalia”, testing products utilized in determining whether a controlled substance contains chemicals, toxic substances, or hazardous compounds in quantities that can cause physical harm or death, including but not limited to fentanyl test strips.

Your Committee received testimony in support of this measure from the Department of Health; Office of the Prosecuting Attorney for the County of Kaua‘i; Drug Policy Forum of Hawai‘i, Inc.; Hawai‘i Health & Harm Reduction Center; Hawaii Island Fentanyl Task Force; and seven individuals.

Your Committee finds that fentanyl test strips and other drug checking products are critical in helping to prevent accidental and fatal overdoses. The federal Centers for Disease Control and Prevention and the Substance Abuse and Mental Health Services Administration encourage the use of federal funds to purchase fentanyl test strips to curb the dramatic spike in drug overdose deaths from the use of synthetic opioids that include illicitly manufactured fentanyl. Your Committee finds however, that under existing state law, fentanyl test strips are classified as drug paraphernalia, and therefore, anyone possessing a single strip could be subject to a fine of up to \$500 and any adult who provides a fentanyl test strip to a minor can be charged with a class B felony. This measure decriminalizes fentanyl test strips and other testing products, thereby allowing people to easily detect contaminated drugs and avoid accidental and fatal drug overdoses and will allow the State and nonprofit organizations to pursue federal funding to purchase fentanyl test strips.

Your Committee has amended this measure by:

- (1) Inserting language defining “fentanyl test strip” to mean a small strip of paper that can detect the presence of fentanyl in:
  - (A) Different kinds of drugs, including cocaine, methamphetamine, and heroin; and
  - (B) Different drug forms, such as pills, powder, and injectable drugs;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 671, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 457 Health and Human Services on S.B. No. 1476**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$20,000,000, to assist West Maui Hospital Foundation, Inc., a Hawaii nonprofit corporation, with financing the costs related to the design and construction of, and equipment for, West Maui Hospital and Medical Center, including necessary infrastructure improvements; provided that the County of Maui shall serve as guarantor for the debt service on the bonds.

Your Committee received testimony in support of this measure from one member of the County Council of the County of Maui; West Maui Hospital Foundation, Inc.; and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to finance projects for not-for-profit corporations that provide health care facilities to the general public, and that West Maui Hospital Foundation, Inc. is such an entity. Your Committee also finds that despite West Maui being home to several of Maui County’s largest residential communities and renowned as one of Hawaii’s premier visitor destinations, the region has no acute care hospital or related medical campus. Your Committee further finds that the unprecedented projected rates of growth in the number of residents and visitors in the region will substantially increase health care demands for an already underserved West Maui population. Your Committee finds that West Maui Hospital Foundation, Inc. is embarking on a project to build, own, and operate a West Maui Hospital and Medical Center with a twenty-four hour emergency room, operating rooms, radiology, laboratory, pharmacy, and inpatient and outpatient services on land leased from Newport Hospital Corporation, a foreign for profit corporation. Your Committee finds that this project will provide the West Maui region with its first acute care hospital and create significant job opportunities for local residents trained in health care. Therefore, authorizing the issuance of special purpose revenue bonds to assist in the financing of this project is in the best interest of public health.

Your Committee notes the testimony of the Department of Budget and Finance informing the Legislature and the prospective special purpose revenue bonds parties that should this measure be approved, approval of the issuance of the special purpose revenue bonds and conduit loan will require further review of the financing proposal to ensure compliance with all federal, state and credit underwriting requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1476, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 458 (Majority) Health and Human Services on S.B. No. 601**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$240,000,000, to assist Hawai'i Pacific Health, a Hawaii nonprofit corporation, and one or more of its nonprofit affiliates in financing the costs of the construction of, improvements to, and equipping of their health care facilities.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to finance projects for not-for-profit corporations that provide health care facilities to the general public. Your Committee further finds that Hawai'i Pacific Health is such an entity. Your Committee also finds that Hawai'i Pacific Health is embarking on a multiphase, multiyear modernization and redevelopment of its existing health care facilities at Straub Medical Center to create a future-forward medical facility to serve the people of Hawaii in the years ahead. Your Committee finds that in light of the evolution and changes in the way care is provided, the redevelopment of Straub Medical Center is crucial to providing high quality health care to the community, and authorizing the issuance of special purpose revenue bonds to assist Hawai'i Pacific Health in financing the project is in the best interest of public health.

Your Committee notes the testimony of the Department of Budget and Finance informing the Legislature and the prospective special purpose revenue bonds parties that should this measure be approved, approval of the issuance of the special purpose revenue bonds and conduit loan will require further review of the financing proposal to ensure compliance with all federal, state and credit underwriting requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 601, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 601, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 459 (Majority) Health and Human Services on S.B. No. 446**

The purpose and intent of this measure is to require the Department of Health to:

- (1) Conduct a study to determine the feasibility of implementing a pilot program to integrate prescription digital therapeutic products (PDTs) approved by the federal Food and Drug Administration (FDA) in outpatient treatment programs for persons with substance use disorder and persons with opioid use disorder in the State; and
- (2) Report its findings and recommendations from the study, including any proposed legislation, to the Legislature prior to the Regular Session of 2024.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition; Pear Therapeutics, Inc.; and Otsuka America Pharmaceutical, Inc. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that patients with substance use disorder experience mental health disease and comorbid medical problems at higher rates than the general population, and have higher baseline rates of suicidal ideation, suicide attempts, and suicide completion. Your Committee also finds that PDTs are a type of treatment that use mobile software applications, including ones that can be used on tablets and smartphones, to help prevent, manage, or treat medical and behavioral health conditions and allow patients to track their substance use, cravings, and triggers. PDTs are intended to provide cognitive behavioral therapy as an adjunct to a clinical management treatment and are currently available for patients who are eighteen years of age or older and are enrolled in outpatient treatment under the supervision of a clinician and can help patients manage a condition and improve mental health. Although the costs of PDTs are currently not covered by insurance carriers, your Committee finds that medicine and treatment incorporated with digital technologies of all kinds may improve patient health, reduce clinician workload, lower costs, reduce health disparities, and expand access to needed treatments. This measure serves as an integral step for the State in determining whether it would be feasible to incorporate PDTs into the outpatient treatment programs for patients in the State who need treatment for substance use disorder and opioid use disorder.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 446, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 446, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 460      Housing on S.B. No. 1145**

The purpose and intent of this measure is to require Hawaii Housing Finance and Development Corporation housing projects to include a restrictive covenant that the percentage of units of the housing project that are designated as affordable housing, as described in the submitted housing project application, be affordable housing units in perpetuity.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Hawaii Housing Finance and Development Corporation.

Your Committee finds that housing costs in the State continue to rise, keeping homeownership outside the reach of many Hawaii residents. This measure seeks to keep affordable units designated as affordable in perpetuity. Your Committee believes that this measure will help result in a larger inventory of affordable housing and ensure that low-income residents will be able to continue to afford housing in the State.

Your Committee has amended this measure by:

- (1) Inserting clarifying language to more accurately reflect that the units designated as affordable housing are to remain as affordable housing in perpetuity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1145, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 461      (Majority) Housing on S.B. No. 1442**

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Ohana Zones Pilot Program, including expenses relating to operations, upkeep of facilities, provision of services, and administrative costs; and
- (2) Authorize the issuance of general obligation bonds for the construction of facilities for the Ohana Zones Pilot Program.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Hawai'i Health & Harm Reduction, Partners in Care, AARP Hawai'i, Family Promise of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Ohana Zones program provides an essential source of funding for innovative approaches to serve and house people experiencing homelessness and to fill gaps in homeless housing and services that do not qualify for many conventional sources of funding. According to testimony received by your Committee, this measure is aligned with the Governor's priorities on homelessness, which includes an emphasis on non-traditional housing to quickly house people who are unsheltered or experiencing homelessness. Your Committee notes the concerns raised in the testimony submitted by the Governor's Coordinator on Homelessness and the Department of the Attorney General and finds amendments to this measure are necessary to address those concerns.

Accordingly, your Committee has amended this measure by:

- (1) Establishing a position within the Office of the Governor to deploy the capital improvement funds appropriated in this measure; and
- (2) Inserting expending language and related provisions for the issuance of general obligation bonds; and
- (3) Inserting language exempting the construction of facilities for the Ohana Zones Pilot Program from certain statutory requirements; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1442, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1442, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 462      (Joint/Majority) Housing and Public Safety and Intergovernmental and Military Affairs on S.B. No. 1568**

The purpose and intent of this measure is to:

- (1) Extend the period in which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2019, to December 31, 2023;
- (2) Authorize the use of county surcharge revenues for housing infrastructure; and
- (3) Temporarily authorize counties that have previously adopted a surcharge on state tax to amend the rates and uses of the surcharge.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of the Mayor for the County of Maui, and one member of the Maui County Council. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the cost of off-site infrastructure is a major barrier to the development of affordable housing statewide. Accordingly, this measure offers another source of funding for counties to pay for housing infrastructure. Additionally, according to testimony received by your Committees, this measure will also help offset some of the burden on the Dwelling Unit Revolving Fund, which is currently being depleted by the State's historical infrastructure obligations in Waiahole Valley and in the Villages of Kapolei. Your Committees further recognize the Department of Taxation's concerns regarding the time frame for implementation of this measure and find amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to clarify that any change to the county surcharge rate shall not be effective prior to January 1, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1568, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1568, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 463 (Joint) Housing and Health and Human Services on S.B. No. 1617**

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Public Housing Authority (HPHA), in consultation with the Department of Human Services and Department of Health, to establish and administer a Kauhale Program to provide individual or shared housing units and support services to homeless individuals and families who meet the definition of "chronically homeless";
- (2) Exempt existing low-income rental units, tiny home villages, and kauhale from certain provisions of the Hawaii Revised Statutes, consistent with the Governor's 2015 and 2018 proclamations on homelessness;
- (3) Authorize the Governor to transfer by executive order suitable land to HPHA for the construction of kauhale; and
- (4) Appropriate funds and establish positions for the Kauhale Program.

Your Committees received testimony in support of this measure from the Chief Housing Officer, Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, State Procurement Office, Hawai'i Health & Harm Reduction Center, Hawaii Substance Abuse Coalition, Malama Makua, Waianae Moku Kupuna Council, one member of the Maui County Council, and five individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of Health, Department of Human Services, Office of Information Practices, and one individual.

Your Committees find that homelessness continues to be one of the State's most persistent challenges and that the creation of kauhale can provide support for homeless individuals throughout the State. Your Committees note the concerns from the Department of Land and Natural Resources (DLNR) regarding how the transfer of public lands may impede the mission of the agency that has jurisdiction over the property. However, your Committees recognize that it is the policy of the State under section 226-19(b)(1), Hawaii Revised Statutes, to effectively accommodate the housing needs of Hawaii's people and that every agency has the responsibility to do so.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that HPHA may establish a Kauhale Program to provide individual or shared housing units and support services to homeless individuals and families who are verified by government agencies or homeless services providers as homeless or at imminent risk of homelessness;
- (2) Inserting language proposed by DLNR that requires any project constructed under the Kauhale Program to comply with county floodplain management regulations;
- (3) Addressing the recommendation submitted by the Chief Housing Officer by amending language to simplify reporting requirements and delay the submission of an annual report to the Legislature beginning with the Regular Session of 2025;
- (4) Amending the definition of "kauhale" to mean "decent, safe, and sanitary dwellings";
- (5) Requiring all low-income rental units, tiny home villages, and kauhale built pursuant to the Governor's 2015 and 2018 proclamations on homelessness to be subject to certain chapters of the Hawaii Revised Statutes, including:
  - (A) Chapter 6E, relating to historic preservation;
  - (B) Chapter 92, relating to public meetings and records;
  - (C) Chapter 103D, relating to the State Procurement Code;
  - (D) Chapter 171, relating to public lands; and
  - (E) Chapter 346, relating to the Department of Human Services;

- (6) Inserting language that establishes five various full-time equivalent (5.0 FTE) positions to help HPHA properly establish the Kauhale Program; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1617, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1617, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

**SCRep. 464 Water and Land on S.B. No. 87**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources and its partner, or partners, for the continuation of benefits of the Green Jobs Youth Corps.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Energy Office, Kupu, Holomua Collaborative, Hawai'i Gas, Kua'āina Ulu 'Auamo, HPM Building Supply, 350Hawaii.org, Hui o Hau'ula, Hawai'i Forest Industry Association, The Nature Conservancy, Re-use Hawai'i, Hawai'i Energy, Hawai'i Community Foundation, Mālama Loko Ea Foundation, and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that prolonged youth unemployment can have profound negative impacts on the lifetime earnings and well-being of individuals, and therefore, the State must take action to provide better work opportunities for Hawai'i's youth and young adults. Your Committee finds that during the Regular Session of 2020, the Legislature passed Act 9, Session Laws of Hawaii 2020, which used funds designated for the State by the federal Coronavirus Aid, Relief, and Economic Security Act to establish a workforce and training program that, among other accomplishments, funded a short-term green jobs program in partnership with the Hawaii-based nonprofit organization Kupu. Your Committee finds that under the Kupu Aina Corps, over three hundred fifty displaced workers and recent graduates were matched with work and training opportunities across the State.

Your Committee further finds that in 2021, the Legislature passed Act 181, Session Laws of Hawaii 2021, designating the Department of Land and Natural Resources to administer the State of Hawai'i's Green Jobs Youth Corps and provide funding for the administration of this program. In 2022, the Legislature amended the requirements for the program and provided additional funding through Act 33, Session Laws of Hawaii 2022. Your Committee finds that, in addition to addressing unemployment among youth and young adults, the Green Jobs Youth Corps is an important part of the State's strategy to diversify the economy and reach environmental and energy self-sufficiency goals. Therefore, this measure appropriates funds to ensure that the benefits to the Green Jobs Youth Corps may continue.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 87, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 87, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 465 Water and Land on S.B. No. 287**

The purpose and intent of this measure is to authorize, for condominium property regimes located in agricultural districts, counties to require county approval for subdivisions of land greater than ten acres prior to the effective date of the condominium property regime.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu. Your Committee received comments on this measure from the Department of the Attorney General, Office of Planning and Sustainable Development, and Department of Agriculture.

Your Committee finds that condominium property regimes are a legal mechanism for dividing a single property into two or more separate units of ownership, typically with attached appurtenances for exclusive use and limited common elements, such as yards. By establishing a condominium property regime, each unit has its own separate fee simple ownership, mortgage, encumbrance, and tax map key number.

Your Committee further finds that agricultural district lands are in plentiful supply with the decline of plantation agriculture. Your Committee also finds that high-value residential housing uses that are not tied to farming in the agricultural districts have proliferated, especially on the neighbor islands. Therefore, this measure authorizes, for condominium property regimes located in agricultural districts, counties to require county approval for subdivisions of land greater than ten acres prior to the effective date of the condominium property regime.

Your Committee has heard the testimony of the Department of Planning and Permitting of the City and County of Honolulu, suggesting that to ensure that a developer of an agricultural district condominium does not record a condominium map before a county has an opportunity to review and approve, an amendment to section 514B-33, Hawaii Revised Statutes (HRS), is required.

Your Committee also heard the testimony of the Department of Attorney General and the Office of Planning and Sustainable Development, noting that the intent of this measure as drafted is ambiguous, because it is unclear as to how the condominium property

regime of chapter 514B, HRS, is related to the subdivision exemption in section 205-4.5(f), HRS. The Department and Office both testified that to ensure county review and approval of condominium property regimes in agricultural districts, section 514B-52(b), HRS, is the more appropriate section to amend.

Therefore, your Committee has amended this measure by:

- (1) Requiring that a condominium map for lands within an agricultural district situated in any county be accompanied by a letter signed by an appropriate county official or agency certifying that the condominium property regime will conform to county zoning laws pursuant to section 514B-5, HRS;
- (2) Establishing in section 514B-52(b), HRS, the language requiring that for condominium project regimes greater than ten acres, a county may require its approval of the subdivision of land prior to the effective date of the condominium property regime, instead of in section 205-4.5(f), HRS;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 287, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 466 Water and Land on S.B. No. 1195**

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to offer five-year lease extensions to certain Waiahole Valley lessees at current terms; and
- (2) Require the Hawaii Housing Finance and Development Corporation to submit a report to the Legislature regarding whether a different entity should manage Waiahole Valley.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, seven individuals, and a form letter signed by ten individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and one individual.

Your Committee finds that in November 1977, the State of Hawaii acquired seven hundred ninety-five acres of land in Waiahole Valley from Elizabeth Low McCandless Marks. In 1998, the State, as lessor, entered into long-term agricultural and residential leases for lands within the valley. The Hawaii Housing Finance and Development Corporation (HHFDC) is the current lessor of ninety-two long-term ground leases for residential, agricultural, and commercial lots within the Waiahole subdivision.

Your Committee finds that the initial twenty-five-year term of the leases will end on June 29, 2023, and the lessees and HHFDC currently are in negotiations to establish increased rents for the next term of fifteen years. Your Committee further finds that the HHFDC's initial offer for the next term of the lease proposes to increase lease rents by approximately 6.6 times the current rates. While a rental rate of 6.6 times the current rate is estimated to be below the current market rate, the increase would mean that many farmers leasing more than ten acres would be forced to pay thousands of dollars in additional rent per year.

Your Committee also finds that there is no law or policy that requires the HHFDC to increase rent. Your Committee further finds that leasing land is not within the primary mission of the HHFDC, nor is supporting agriculture. Therefore, this measure requires the HHFDC to offer five-year lease extensions to certain Waiahole Valley lessees at current terms and requires the HHFDC to submit a report to the Legislature regarding whether a different entity should manage Waiahole Valley.

Your Committee has heard the testimony of the Department of the Attorney General, expressing concerns that section 2 of this measure is special legislation under article XI, section 5, of the Hawaii State Constitution, which provides, "The legislative power over the lands owned by or under the control of the State and its political subdivisions shall be exercised only by general laws, except in respect to transfers to or for the use of the State, or a political subdivision, or any department or agency thereof." The Department testified that because this measure targets lessees in a specific geographical region, creating an illusory class that is unlikely to consist of any members other than those presently targeted, it may be unconstitutional.

Therefore, your Committee has amended this measure by:

- (1) Deleting the requirement that the HHFDC provide a five-year lease extension at the current rate to lessees whose lease is set to expire before 2028, and instead requiring the HHFDC to submit a report to the Legislature on the progress and ultimate outcome of the ongoing lease rent renegotiations;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1195, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 467 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 304**

The purpose and intent of this measure is to:

- (1) Establish a visitor impact fee program within the Department of Land and Natural Resources, through which the Department will collect a fee for a license to visit a state park, forest, hiking trail, or other state natural area;
- (2) Establish the Environmental Legacy Commission to allocate revenues from the visitor impact fee to protect and manage natural resources; and
- (3) Establish the Visitor Impact Fee Special Fund.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawai'i Tourism Authority, The Nature Conservancy, Imua Alliance, Hawaii Reef and Ocean Coalition, Climate Protectors Hawaii, Surfrider Foundation, Kupu, Mālama Learning Center, Environmental Caucus of the Democratic Party of Hawai'i, Kingdom Pathways, Resources Legacy Fund, Hawai'i Lodging and Tourism Association, Sustainable Coastlines Hawai'i, and fifty individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Department of the Attorney General, Tax Foundation of Hawaii, Kohala Coast Resort Association, Maui Hotel and Lodging Association, and one individual.

Your Committees find that Hawaii's natural resources, including reefs, oceans, forests, streams, estuaries, shorelines, and beaches, provide irreplaceable and invaluable benefits to visitors, residents, and the global community. However, your Committees find that with escalating visitor impacts and an increasing global threat to our island ecosystem, there is an immediate need for additional resources to protect, restore, sustain, manage, and conserve our natural resources.

Your Committees find that a regenerative tourism fee has been suggested by the Hawaii Tourism Authority as a potential means to obtain these critical resources. Your Committees find that it is timely to ask visitors who enjoy and reap the benefits of Hawaii's natural resources to further contribute to their protection, care, and restoration. Therefore, this measure establishes the Visitor Impact Fee Program within the Department of Land and Natural Resources, through which the Department will collect a fee for a license to visit a state park, forest, hiking trail, or other state natural area; establishes the Environmental Legacy Commission to allocate revenues from the visitor impact fee to protect and manage natural resources; and establishes the Visitor Impact Fee Special Fund.

Your Committees have heard the testimony of the Department of the Attorney General, requesting that this measure incorporate certain key features of a similar measure introduced by the Governor, S.B. No. 1349, Regular Session 2023, which had been reviewed by the Department of the Attorney General and is more narrowly tailored. Specifically, S.B. No. 1349 provides that site-specific areas subject to the license requirement will be set by rule and emphasizes that the uses of the special fund will be closely related to the impacts of visitors on natural resources.

Therefore, your Committees have amended this measure by:

- (1) Eliminating the proposed Environmental Legacy Commission and granting the Department of Land and Natural Resources the authority over the Visitor Impact Fee Program;
- (2) Providing that the site-specific areas subject to the license requirement will be set by rule;
- (3) Limiting the use of revenues from the Visitor Impact Fee Program for state parks and other natural resource maintenance and improvement projects under the Department of Land and Natural Resources' jurisdiction that are impacted by visitors;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 304, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).  
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 468 (Joint/Majority) Water and Land and Transportation and Culture and the Arts on S.B. No. 1263**

The purpose and intent of this measure is to:

- (1) Require commercial ocean operators who take customers into state waters to engage in recreational activities to have at least one individual aboard the vessel who is rescue diver or lifeguard certified by a nationally recognized certification organization; and
- (2) Require vessels that transport customers for the purpose of engaging in an activity in state waters to have a backboard, emergency oxygen, and an automated external defibrillator included in its onboard safety equipment.

Your Committees received testimony in support of this measure from nine individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Calypso Charters, and Ocean Tourism Coalition. Your Committees received comments on this measure from one individual.

Your Committees find that businesses that conduct commercial operations that take customers on excursions in state waters for the purpose of engaging in recreation activities are required to obtain a permit from the Department of Land and Natural Resources Division of Boating and Ocean Recreation. However, your Committees find that the provisions for obtaining those permits do not include safety requirements, which leads to potential consumer safety issues. Your Committees also find that more stringent crew training requirements would both increase safety and ensure that businesses engaging in commercial tours meet some minimum requirements before charging customers.

Your Committees also find that House Concurrent Resolution No. 86, H.D. 1, S.D. 1, adopted in 2015, requested the Department of Land and Natural Resources to engage stakeholders and consider adopting permitting provisions requiring employees of businesses who take customers on watersport excursions to be trained in basic water safety measures. However, your Committees find that the Department has not taken action in response to the provisions of the concurrent resolution. Therefore, this measure requires commercial ocean operators who take customers into state waters to engage in recreational activities to have at least one individual aboard the vessel who is a rescue diver or lifeguard certified by a nationally recognized certification organization; and requires vessels that transport customers for the purpose of engaging in an activity in state waters to have a backboard, emergency oxygen, and an automated external defibrillator included in its onboard safety equipment.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair and President on behalf of the Committees.

Water and Land: Ayes, 3; Ayes with Reservations (McKelvey). Noes, none. Excused, 2 (Chang, Fevella).

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 469 (Joint/Majority) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 1024**

The purpose and intent of this measure is to:

- (1) Establish long-term goals for zero-emission transportation in Hawaii and abroad to reduce and eliminate transportation emissions;
- (2) Establish the Ground Transportation and Interisland and Transpacific Transportation Working Groups; and
- (3) Require annual reports to the Hawaii Climate Change Mitigation and Adaptation Commission and the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission, Office of Planning and Sustainable Development, Department of Research and Development of the County of Hawai'i, Climate Protectors Hawaii, Environmental Caucus of the Democratic Party of Hawai'i, Alliance for Automotive Innovation, Hawaiian Airlines, Big Island Electric Vehicle Association, Ulupono Initiative, Blue Planet Foundation, Kauai Climate Action Coalition, and ten individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from Hawaii Automobile Dealers' Association.

Your Committees find that while transportation accounts for the majority of the State's greenhouse gas emissions, the State is ideally suited to serve as a unique incubator for innovative new technologies and services that will assist countries around the world to achieve zero-emissions transportation. Additionally, the State is also an ideal location to serve as an incubator for short-range sea and air travel between the islands. This measure establishes working groups to develop plans and recommendations to achieve clean energy goals, establishes long-term goals for zero-emissions transportation in the State while also assisting other countries to create zero-emissions transportation.

Your Committees have amended this measure by:

- (1) Renaming the Hawaii Transportation Initiative to the Hawaii Clean Transportation Initiative;
- (2) Clarifying that each department, board, and commission shall incorporate ground transportation; interisland transportation; and international transpacific transportation goals into their plans and act to achieve clean transportation goals;
- (3) Renaming the Ground Transportation Working Group to the Clean Ground Transportation Working Group and amending its scope of responsibilities accordingly;
- (4) Designating the Director of Transportation and the Chief Energy Officer as co-chairpersons of the Clean Ground Transportation Working Group;
- (5) Adding the mayor of each county and the chairpersons of the Senate and House of Representatives standing committees whose purview is transportation, or their designees, to the Clean Ground Transportation Working Group;
- (6) Renaming the Interisland and Transpacific Transportation Working Group to the Interisland and Transpacific Clean Transportation Working Group and amending its scope of responsibilities accordingly;
- (7) Designating the Director of Transportation and the Chief Energy Officer as co-chairpersons of the Interisland and Transpacific Clean Transportation Working Group;
- (8) Adding the mayor of each county and the chairpersons of the Senate and House of Representatives standing committees whose purview is transportation, or their designees, to the Interisland and Transpacific Clean Transportation Working Group;

- (9) Requiring the Department of Transportation, Office of Planning and Sustainable Development, and the Hawaii State Energy Office to develop plans in coordination with the working groups to increase the State's electric charging capacity, including:
- (A) The rate by which electric vehicle sales are projected to replace internal combustion vehicle sales;
  - (B) The rate by which other electric transportation options are projected to require charging capacity; and
  - (C) The development and implementation of other options that accelerate the transition to zero emissions transportation; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1024, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1024, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Inouye).

Agriculture and Environment: Ayes, 4; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 470 (Joint) Transportation and Culture and the Arts and Government Operations on S.B. No. 119**

The purpose and intent of this measure is to:

- (1) Authorize the Works of Art Special Fund to be used for performing arts, under certain conditions;
- (2) Provide that forty percent of the Works of Art Special Fund be used for performing arts; and
- (3) Define "performing arts".

Your Committees received testimony in support of this measure from Ebb & Flow Arts and two individuals. Your Committees received testimony in opposition to this measure from the State Foundation on Culture and the Arts, Department of Budget and Finance, Danse Space Hawaii, Rachel Orr Art, Windward Artist GuildHonolulu Theatre for Youth, Xen Design Inc., Aupuni Space, Exhibition Grid, Na Mea Hawaii, Pau Hana Painters Collective, TRADES A.i.R., Prince Dance Company, and sixty-four individuals. Your Committees received comments on this measure from the Department of the Attorney General, Hawaii Arts Alliance, and two individuals.

Your Committees find that the mission of the State Foundation on Culture and the Arts is to promote, perpetuate, preserve, and encourage culture and the arts as central to the quality of life and people of the State. The State Foundation on Culture and the Arts administers the State Art Museum and the Art in Public Places and Relocatable Works of Art Programs. The State Art Museum and programs administered by the State Foundation on Culture and the Arts support, promote, and recognize the excellence of the State's diverse artists while also showcasing the diversity and excellence of various artists. To further the State Foundation on Culture and the Arts' endeavors, your Committees find that performing arts should be incorporated into the State Foundation on Culture and the Arts' programming.

Your Committees have amended this measure by:

- (1) Deleting language that would have defined "display", "works of art", and "performing arts" for purposes of the State Foundation on Culture and the Arts;
- (2) Deleting language that would have amended the purposes of the Works of Arts Special Fund, including the requirement that forty percent of the Works of Art Special Fund be used for performing arts;
- (3) Inserting language that establishes the Performing Arts Pilot Program Committee within the State Foundation on Culture and the Arts;
- (4) Requiring the Performing Arts Pilot Program Committee to establish a Performing Arts Pilot Program under which the Committee will solicit, review, and select grant proposals for performing arts grants;
- (5) Requiring the Performing Arts Pilot Program Committee to submit annual reports to the Legislature;
- (6) Including the Performing Arts Pilot Program and the coordination, planning, promotion, marketing, and execution of performing arts events within the purposes of the State Foundation on Culture and the Arts;
- (7) Defining "performing arts";
- (8) Appropriating \$1,000,000 in general funds for the Performing Arts Pilot Program;
- (9) Amending section 1 to reflect its amended purpose;
- (10) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 119, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 119, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by President and the Chair on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 471      Judiciary on S.B. No. 34**

The purpose and intent of this measure is to amend the taxes withheld on the amount realized by nonresidents from the disposition of Hawaii residential real property from 7.25 percent to 75 percent, applicable to real estate dispositions that occur on or after 9/15/2023.

Your Committee received testimony in support of this measure from HOPE Services Hawai'i, Our Hawai'i, and one hundred eighty-seven individuals. Your Committee received testimony in opposition to this measure from Hawai'i REALTORS, Rental by Owner Awareness Association, and seven individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Grassroot Institute of Hawaii, and six individuals.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 deletes the contents of the measure and inserts language to create a temporary income tax credit for taxpayers who sell real property to owner-occupants.

Your Committee received testimony in support of this measure from twenty-six individuals. Your Committee received testimony in opposition to this measure from NAIOP Hawaii and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the cost and lack of availability of housing is a significant concern to residents of the State. The State also has the highest cost of living, with the cost of housing being a major contributing factor. This measure will give a financial incentive for residents who sell property in the State and allow more housing to be owned by residents in the State.

Your Committee has amended this measure by adopting the proposed S.D. 1 and making a further amendment to insert an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 34, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 34, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 472      Judiciary on S.B. No. 903**

The purpose and intent of this measure is to:

- (1) Require the Judiciary or supporting agencies to establish and support a program for restorative justice in each county and inform various criminal justice representatives of the existence of the program; and
- (2) Appropriate funds for the establishment of one program and one position in each county.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii Correctional System Oversight Commission, Office of the Public Defender, Office of the Prosecuting Attorney of the County of Hawai'i, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, Department of the Prosecuting Attorney of the County of Maui, Community Alliance on Prisons, Hawaii Substance Abuse Coalition, and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that restorative justice programs benefit not only victims, but they also benefit the defendants, their families, and the community. These programs have proved to be a powerful force in many other jurisdictions across the United States in providing healthy dialogue, communication, and opportunities for perpetrators of crime to understand the true impact of their actions. Restorative justice programs provide opportunities for all parties to express and share emotions and to dialogue in a safe and healthy space. These conversations can be deeply emotional and enlightening to the parties who choose to participate. All participation in restorative justice is voluntary and facilitated by trained professionals who help guide all parties through the process. Adding restorative justice to the State's criminal justice system will promote healing and understanding between the parties who participate.

Your Committee has amended this measure by:

- (1) Specifying that the restorative justice programs be placed within the oversight of the Department of the Attorney General rather than the Judiciary;
- (2) Specifying that the Department of the Attorney General shall establish and support a restorative justice program, in collaboration with the prosecuting attorney of each county;
- (3) Deleting language that allowed the Judiciary or supporting agencies to contract with a credible and financially stable nonprofit organization to conduct restorative justice work in each county and ensure that victims are notified of restorative justice opportunities available to them;
- (4) Deleting language that provided that upon successful completion of any restorative justice process with an agreement, approval of the victim, and approval of the prosecuting attorney, charges may be declined during the screening process or the case may be dismissed if charges have been filed;
- (5) Appropriating funds for a restorative justice program within the Department of the Attorney General, rather than appropriating funds to the Judiciary for one restorative justice program and one full-time equivalent (1.0 FTE) position in each county, including any matching funds required to receive Victims of Crime Act grant funds;
- (6) Making conforming amendments;

- (7) Inserting an effective date of March 22, 2075, to encourage further discussion;
- (8) Amending section 1 to reflect its amended purpose; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$250,000.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 903, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 903, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 473      Judiciary on S.B. No. 977**

The purpose and intent of this measure is to allow for judicial review of orders fixing minimum terms of imprisonment.

Prior to decision-making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of the measure and inserted provisions that:

- (1) Specify that in any civil action brought by the petitioner seeking compensation of any kind or nature whatsoever as a result of, related to, or arising from a conviction and imprisonment for crimes for which the person was actually innocent, any recovery will offset, dollar for dollar, the total award made in the civil action against whom claims are asserted; and
- (2) Repeal section 661B-7, Hawaii Revised Statutes, relating to exclusive remedies.

Your Committee received testimony in support of this measure from Office of the Public Defender, Hawai'i Innocence Project, Hawai'i Association of Criminal Defense Lawyers, and three individuals. Your Committee received testimony in opposition to this measure from the Judiciary and Hawaii Paroling Authority.

Your Committee finds that the current procedure for judicial review of orders fixing minimum terms of imprisonment issued by the Hawaii Paroling Authority is unduly burdensome on inmates and creates a blind spot in indigent representation. Inmates seeking judicial review are required to initiate a new cause of action by filing a petition in the circuit court that sentenced them to prison, create their own record by attaching relevant documents, request transcription of the proceedings before the Hawaii Paroling Authority, and raise legal issues. The circuit court then determines if the petition has merit before setting a hearing and appointing counsel for indigent petitioners. Your Committee further finds that this procedure screens out meritorious issues and is daunting for indigent inmates who must file their petition without the assistance of an attorney. Judicial review of the Hawaii Paroling Authority's order fixing the minimum term of imprisonment through a motion filed in the original criminal case allows public defenders to continue their representation of clients on appeal and identifies errors that may have arisen at minimum term hearings. Judicial review will provide greater uniformity in due process and statutory compliance by the Hawaii Paroling Authority.

Your Committee has amended this measure by adopting the proposed S.D. 1 and making a further amendment to insert an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 977, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 474      (Majority) Health and Human Services on S.B. No. 677**

The purpose and intent of this measure is to authorize and establish procedures and criteria for prescriptive authority for certain clinical psychologists who meet specific education, training, and registration requirements.

Your Committee received testimony in support of this measure from the Board of Psychology; American Psychological Association Services, Inc.; Society for Prescribing Psychology; Hawai'i Psychological Association; Illinois Psychological Association; Iowa Psychological Association; Wegierek Psychology Center, Inc.; iNetMedRx<sup>2</sup>, Inc.; and seventy-two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of Professional Nurses; 'Ahaui o nā Kauka Association of Native Hawaiian Physicians; Ka Lama Kukui; Hawai'i Psychiatric Medical Association; Hawaii Medical Association; and forty-four individuals. Your Committee received comments on this measure from the Department of Health and two individuals.

Your Committee finds that there is a significant shortage of prescribing mental health care providers in the State, particularly in rural and medically underserved communities. Collaborative practice between licensed clinical psychologists and medical doctors has the potential to address this shortfall. To increase access to prescriptive mental health treatment, this measure authorizes qualified clinical psychologists with appropriate advanced training to prescribe from a limited formulary of psychotropic medication.

Your Committee notes the concerns raised by the Department of Health regarding the scope of this measure, in particular, the inclusion of minors, pregnant women, and persons who are Seriously and Persistently Mentally Ill (SPMI). To reduce the risk for numerous complications that require a full array of services, the Department of Health recommends excluding SPMI individuals and those served by the Department's Child and Adolescent Mental Health Division. The Department additionally recommends amending the reporting requirements, as currently written, to include specific medications and prescription frequency. Your Committee further notes the testimony submitted by Dr. Judi Steinman, which proposes granting prescriptive authority privilege to a psychologist who has

been licensed to prescribe for at least five years in another state that authorizes prescriptive authority for psychologists or the United States Armed Forces within the United States Department of Health and Human Services or Indian Health Service. Your Committee respectfully requests your Committees on Commerce and Consumer Protection and Ways and Means consider these concerns, should they choose to deliberate on this measure.

Your Committee additionally notes the Board of Psychology's concern that it would be unable to implement this measure, as currently written, until July 1, 2025, due to the substantial amendments to licensing schemes this measure entails. In addition to establishing administrative rules, application processes, and formularies, the Board will also require additional staff. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language requiring the Board of Psychology to adopt rules to implement prescriptive authority privilege for certain clinical psychologists; provided that the board shall establish a rule that, whenever possible, a prescribing psychologist shall collaborate with the patient's primary health care provider;
- (2) Clarifying that the Board of Psychology shall accept applications for prescriptive authority privilege beginning on July 1, 2025, rather than July 1, 2023;
- (3) Inserting an appropriation of an unspecified amount for the Board of Psychology to implement prescriptive authority privilege for certain clinical psychologists;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 677, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 677, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

**SCRep. 475 Health and Human Services on S.B. No. 693**

The purpose and intent of this measure is to mandate that private and public health plans reimburse participating registered pharmacists for services provided within their scope of practice.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Board of Pharmacy, Walgreen Co., Hawaii Pharmacists Association, AARP Hawai'i, National Community Pharmacists Association, American Pharmacists Association, Times Pharmacy, Hawai'i Pacific Health, The Queen's Health System, KTA Super Stores, and twenty-nine individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Department of Human Services.

Your Committee finds that there is a shortage of physicians statewide. Pharmacists can help mitigate this shortage by providing health education and medication utilization techniques. This measure will expand access to quality health care across the state, especially in rural areas.

Your Committee notes the testimony of the Department of Human Services (DHS), which testified that due to the federal public notice requirements and the time needed to draft and discuss the provisions of this measure with the Center for Medicare and Medicaid Services, DHS requests an effective date that will allow at least six months for DHS to submit necessary State Plan Amendments to implement this measure. Your Committee requests that your Committees on Commerce and Consumer Protection and Ways and Means, should it choose to hear this measure, further examine this issue raised by DHS.

Accordingly, your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 476 Health and Human Services on S.B. No. 791**

The purpose and intent of this measure is to appropriate funds to the Department of Health to purchase one advanced life support ambulance and related equipment, and pay costs for state-certified emergency medical services personnel, to be based on the island of Molokai.

Your Committee received testimony in support of this measure from The Queen's Health System, American Medical Response, Maui County Paramedics Association and ten individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Molokai's growing community needs expanded ambulance services. Due to its unique geographic area, an additional ambulance will increase response times to help provide necessary care. Your Committee notes the testimony of the Department of Health, which estimates that although this measure, as currently written, contains an appropriation for \$1,500,000, due to annual cost-of-living increases, an estimated \$1,600,000 would actually be needed to implement this measure. Your Committee requests that your Committee on Ways and Means, should it hear this measure, examine the issue raised by the Department of Health.

Your Committee has amended this measure by inserting a blank appropriation amount.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 477 Health and Human Services on S.B. No. 987**

The purpose and intent of this measure is to appropriate funds to the Department of Health to develop and implement statewide media, education, and training activities for policies related to emergency examination and hospitalization and assisted community treatment for those in need of mental health intervention.

Your Committee received testimony in support of this measure from the Department of Health, Judiciary, Hawaii Disability Rights Center, and four individuals.

Your Committee finds that the State has developed policies related to emergency examination and hospitalization and assisted community treatment. These policies have the potential to improve health outcomes for individuals experiencing severe mental health crises, but due to the complexity of these policies, they have yet to be fully implemented. To improve implementation, this measure appropriates funds to educate and train applicable stakeholders on emergency examination and hospitalization and assisted community treatment.

Your Committee has amended this measure by inserting a blank appropriation amount.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 987, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 478 Health and Human Services on S.B. No. 1372**

The purpose and intent of this measure is to clarify the definitions of "caregiver support services", "kupuna care services", and "respite care" in section 349-16, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health and Policy Advisory Board on Elder Affairs.

Your Committee finds that Act 160, Regular Session of 2022, combined the Kupuna Care and Kupuna Caregiver programs. Currently, the definitions for "caregiver support services" and "respite care" only apply to employed caregivers. It is believed that the greater majority of caregivers fall into the category of caregivers who provide twenty-four-hour care to a spouse, family member, or loved one at home without compensation. Many caregivers are themselves kupuna. This measure will therefore allow for all caregivers, both employed and not employed as caregivers, to receive caregiver support services and respite care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1372, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1372, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 479 Health and Human Services on S.B. No. 1378**

The purpose and intent of this measure is to expand protections for vulnerable senior citizens, the public at large, and residents of care homes by:

- (1) Clarifying that any person, corporation, or entity is prohibited from knowingly referring or transferring patients to an uncertified or unlicensed care facility; and
- (2) Repealing the landlord exclusion.

Your Committee received testimony in support of this measure from the Department of Health and Alliance of Professional Primary Care Administration.

Your Committee finds that investigations by the Department of Health have revealed numerous unlicensed care homes in the State, which pose a danger to the public and to frail, elderly, and vulnerable populations. However, licensed care home operators continue to refer or transfer patients to unlicensed care homes unbeknownst to patients. Additionally, at least twenty-one unlicensed care homes

have used the landlord exclusion to avoid the Department of Health's consumer protections through its regulatory oversight. This measure promotes the quality of care for the public by expanding the Department of Health's ability to investigate complaints and take appropriate enforcement actions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1378, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1378, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 480 Health and Human Services on S.B. No. 318**

The purpose and intent of this measure is to establish and appropriate funds for a Fetal Alcohol Spectrum Disorders Task Force within the Department of Health.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders Action Group, Hawaii Substance Abuse Coalition, and four individuals. Your Committee received comments on this measure from the Department of Human Services and Department of Health.

Your Committee finds that fetal alcohol spectrum disorders (FASDs) are lifelong physical, developmental, behavioral, and intellectual conditions caused by prenatal exposure to alcohol. FASDs may impact as many as seventy thousand eight hundred people living in the State. Despite the prevalence of FASDs, few children in the State are diagnosed even by using best practices, especially within foster care and adoptive families, and many students with FASDs receive no additional support in the classroom. This measure would establish a task force to develop guidelines, recommendations, teaching protocols, and a screening tool relating to FASDs to assist the Legislature in determining the most effective way to support individuals with FASDs.

Your Committee notes the concerns raised by the Department of Health that the State's model of care lacks the appropriate multidisciplinary organization to assess and diagnose FASD cases. Seeking recommendations for legislative support is premature until a more reliable prevalence rate can be established. In lieu of a task force, a pilot project to implement a co-management system for primary care providers, behavioral health providers, and FASDs specialists would be more appropriate at this time. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have:
  - (A) Established a Fetal Alcohol Spectrum Disorders Task Force within the Department of Health;
  - (B) Designated the membership composition of the Task Force;
  - (C) Required the Task Force to develop guidelines, recommendations, teaching protocols, and a screening tool relating to FASDs;
  - (D) Required the Task Force to submit a report to the Legislature; and
  - (E) Dissolved the Task Force on July 1, 2024;
- (2) Inserting language that:
  - (A) Requires the Department of Health to establish and administer a five-year pilot program to implement a co-management system of care for the diagnosis and treatment of FASDs; and
  - (B) Specifies the operational procedures of the co-management system of care, including the responsibilities of the primary care provider, FASDs specialist, and behavioral health provider;
- (3) Clarifying that the funds appropriated to the Department of Health shall be for the establishment and administration of the five-year pilot program to implement a co-management system of care for the diagnosis and treatment of individuals with FASDs;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 318, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 481 Health and Human Services on S.B. No. 759**

The purpose and intent of this measure is to establish and appropriate funds for a pilot program within the Office of Primary Care and Rural Health to:

- (1) Collaboratively address the health and wellness needs of Hawaii County's most underserved residents;
- (2) Facilitate discussions between key Hawaii County community health and social service organizations; and
- (3) Develop a 2030 One Shared Health Vision Plan, which shall be submitted to the Legislature prior to the Regular Session of 2024.

Your Committee received testimony in support of this measure from the Hawai'i State Youth Commission, Department of Research and Development for the County of Hawai'i, and Hawai'i Island Fentanyl Task Force. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that accessing health care is often complicated for residents in rural areas of the State. Coordinated efforts at all levels are necessary to improve access to public health services, including in Hawaii County. To establish a strong health network in the County, this measure establishes and appropriates funds for a pilot program to develop a comprehensive plan to increase access to health care, reduce service duplication, and foster collaboration between providers.

Your Committee notes that, per testimony submitted by the Department of Health, the Office of Primary Care and Rural Health has neither the staff nor the resources to implement this measure, as currently written. Further, rural counties across the State are already developing plans to address their respective county's most pressing needs. To ensure communities retain developmental control and a vested interest in their plans, the Office of Primary Care and Rural Health should support, rather than lead, these public health efforts. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have appropriated an unspecified amount of funds to the Office of Primary Care and Rural Health for the pilot program established in this measure;
- (2) Inserting language appropriating an unspecified amount of funds to the Department of Health for the establishment of one permanent full-time equivalent Program Specialist IV position within the Department of Health's Family Health Services Division to oversee development of the community plans and coordinate efforts to address health equity issues affecting underserved rural areas of the State;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 759, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 759, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 482 (Majority Health and Human Services on S.B. No. 63**

The purpose and intent of this measure is to:

- (1) Allow the Board of Nursing to issue temporary permits for six-month periods to registered nurses and practical nurses licensed in another jurisdiction under certain circumstances; and
- (2) Except from license requirements, nurses who are licensed in another state, territory, or country accompanying a patient from out-of-state for a period of less than two weeks and not employed or affiliated with a health care facility in the State.

Your Committee received testimony in support of this measure from the Board of Nursing, Hawai'i State Center for Nursing, Healthcare Association of Hawaii, Hawai'i – American Nurses Association, Hawaii Medical Service Association, Hawai'i Pacific Health, Hawaii Association of Health Plans, The Queen's Health System, and two individuals. Your Committee received comments on this measure from Department of Commerce and Consumer Affairs and Grassroot Institute of Hawaii.

Your Committee finds that to provide care for the record-setting number of patients resulting from the effects caused by the coronavirus disease 2019 pandemic, the former Governor issued an emergency proclamation allowing out-of-state clinicians to practice in the State without a license. Your Committee further finds that the pandemic has contributed to many nurses retiring or leaving the profession, resulting in a severe reduction in the State's nursing workforce. Since the expiration of the emergency proclamation, critical out-of-state clinicians have been authorized by permit to practice in the State pursuant to emergency rules. This measure helps address the severe nursing shortage in the State by codifying much of the temporary permit process that is currently in place, allowing an easier path for out-of-state registered nurses and licensed practical nurses to practice in the State.

Your Committee acknowledges the testimony of Hawai'i Pacific Health suggesting that the application processes for the temporary permit and license to practice be combined to create a more efficient pathway to licenses.

Additionally, your Committee has included a blank appropriation in this measure. Should your Committees on Commerce and Consumer Protection and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that they consider appropriating \$78,426 to implement the regulation of nurses as required by this measure.

Your Committee has amended this measure by:

- (1) Inserting language that allows an out-of-state registered nurse or licensed practical nurse to simultaneously apply for a license to practice and a temporary permit;

- (2) Inserting language that provides an exception to the six-month expiration date of temporary permits when applications for a license to practice and a temporary permit are filed simultaneously, by extending the validity of the temporary permit to when the board approves the application to practice;
- (3) Inserting language that requires the Board of Nursing to approve an application for a temporary permit within seven business days of receiving a complete application provided that the applicant meets the required criteria;
- (4) Inserting a blank appropriation amount;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 63, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 63, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 483 (Majority) Health and Human Services on S.B. No. 322**

The purpose and intent of this measure is to adopt the Interstate Licensed Professional Counselors Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Medical Service Association, and Hawaii Association of Health Plans. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and Hawai'i Counselors Association. Your Committee received comments on this measure from the Hawaii Association for Justice, Grassroot Institute of Hawaii, and one individual.

Your Committee finds that there is a shortage of mental health service providers in the State, particularly in rural and underserved communities. According to the Department of Health, approximately eleven thousand youth in the State had a major depressive episode in 2019, yet only half received mental health services. To increase access to these services, this measure adopts the Interstate Licensed Professional Counselors Compact.

Your Committee notes the concerns raised by the Department of Commerce and Consumer Affairs that the State's licensure requirements do not fulfill those of the Compact, and the Department is unable to share confidential information required by the Compact. Further, additional analysis is required to determine the Compact's financial and operational impact on the Department. Your Committee also notes, per the testimony submitted by the Hawaii Association for Justice, that this measure, as currently written, grants broad immunity to officers or employees who render aid pursuant to the Compact and leaves no legal recourse for individuals who may be harmed. Your Committee respectfully requests your Committees on Commerce and Consumer Protection and Ways and Means to consider these concerns, should they choose to deliberate on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Interstate Licensed Professional Counselors Compact;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 322, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 322, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 484 Health and Human Services on S.B. No. 668**

The purpose and intent of this measure is to adopt the Physical Therapy Licensure Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Chapter of the American Physical Therapy Association, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Physical Therapy, Grassroot Institute of Hawaii, and Hawaii Association for Justice.

Your Committee finds that there has been a chronic shortage of physical therapists in the State, particularly in rural and underserved communities. Despite this shortage, the Board of Physical Therapy only meets once every other month to review licensing applications, delaying qualified practitioners from providing care. To increase access to physical therapy services, this measure adopts the Physical Therapy Licensure Compact to facilitate interstate practice of physical therapy. In addition, your Committee notes concerns raised by the Hawaii Association for Justice that this measure, as currently written, grants broad immunity to officers or employees under the Physical Therapy Compact and leaves no legal recourse for individuals who may be harmed. Your Committee therefore respectfully requests your Committee on Commerce and Consumer Protection consider these concerns, should it choose to deliberate on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the definition of “practice of physical therapy”;
- (2) Removing language that would have provided that an assessment levied against the State is effective only to the extent that moneys necessary to pay the assessment have been deposited into the Compliance Resolution Fund;
- (3) Inserting language requiring the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Physical Therapy Licensure Compact;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 668, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 668, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 485 Health and Human Services on S.B. No. 317**

The purpose and intent of this measure is to adopt the Audiology and Speech-Language Pathology Interstate Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Medical Service Association, Hawai'i Speech-Language Hearing Association, Audiology & Speech-Language Pathology Interstate Compact Commission, The Council of State Governments National Center for Interstate Compacts, and Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Speech Pathology and Audiology, and Grassroot Institute of Hawaii.

Your Committee finds that there is a shortage of health care service providers in the State, particularly in rural and underserved communities. Despite this shortage, administrative burdens often delay licensing of practitioners, such as in the fields of audiology and speech-language pathology, preventing qualified practitioners from providing care. To increase access to audiology and speech-language pathology services, this measure adopts the Audiology and Speech-Language Pathology Interstate Compact to facilitate the interstate practice of audiology and speech-language pathology.

Your Committee notes the concerns raised by the Department of Commerce and Consumer Affairs that this measure, as currently written, lacks clarity with respect to the recoupment of licensing fees, privacy rights of practitioners and patients, nature and powers of the Audiology and Speech-Language Pathology Compact Commission, and indemnification of state regulatory entities. Your Committee also notes the testimony submitted by the Board of Speech Pathology and Audiology, which recommends further discussion on the following topics: establishment of the Audiology and Speech-Language Pathology Compact Commission, membership participation fees, authorization of unlicensed services, additional licensing requirements required by the Compact, telehealth feasibility, and economic repercussions. Your Committee respectfully requests your Committee on Commerce and Consumer Protection consider these concerns, should it choose to deliberate on this measure.

Your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Compact;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 317, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 486 (Majority) Health and Human Services on S.B. No. 323**

The purpose and intent of this measure is to adopt the Occupational Therapy Licensure Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Medical Service Association, and Hawaii Association of Health Plans. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Grassroot Institute of Hawaii, Hawaii Association for Justice, and one individual.

Your Committee finds that there is a shortage of behavioral health care providers in the State, particularly in rural and underserved communities. Despite this shortage, the State does not recognize out-of-state licenses, including those for the practice of occupational therapy, requiring out-of-state licensees to undergo an often redundant application process that delays qualified therapists and therapy assistants from providing care. To eliminate this redundancy and increase access to occupational therapy services, this measure adopts the Occupational Therapy Licensure Compact.

Your Committee notes the concerns raised by the Department of Commerce and Consumer Affairs that the State does not require continuing education for occupational therapists, a condition for licensure renewal under the Occupational Therapy Licensure Compact. Further, the complexity of the Compact's licensure process in comparison to the State's may delay, rather than expedite, licensing in the State. Your Committee also notes, per testimony submitted by the Hawaii Association for Justice, that this measure, as currently written, grants broad immunity to officers or employees rendering aid pursuant to the Occupational Therapy Compact and leaves no legal recourse for individuals who may be harmed. Accordingly, your Committee respectfully requests your Committees on Commerce and Consumer Protection and Ways and Means to consider these issues, should they choose to deliberate on this measure.

Your Committee has amended this measure by:

- (1) Inserting language requiring the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Occupational Therapy Licensure Compact;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 323, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 487 (Majority Health and Human Services on S.B. No. 674**

The purpose and intent of this measure is to adopt the Interstate Medical Licensure Compact.

Your Committee received testimony in support of this measure from the Department of Public Safety, Healthcare Association of Hawaii, The Queen's Health System, AlohaCare, Hawaii Medical Service Association, Hawai'i Primary Care Association, Hawaii Chapter of the American Physical Therapy Association, Federation of State Medical Boards, National Organization for Rare Disorders, Hawaii COPD Coalition, Hawaii Association of Health Plans, Hawai'i Psychiatric Medical Association, Hawaii Medical Association, EveryLife Foundation for Rare Diseases, and Hawai'i Pacific Health. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Medical Board, Hawaii Association for Justice, and Grassroot Institute of Hawaii.

Your Committee finds that there is a shortage of medical providers in the State, particularly in rural and underserved communities. The Interstate Medical Licensure Compact streamlines the licensing process for providers looking to practice across state lines, extending the reach of physicians, improving access to medical specialists, and leveraging the use of medical technologies, such as telehealth. To increase access to health care across the State, this measure authorizes the Governor to enter into the Interstate Medical Licensure Compact on behalf of the State.

Your Committee notes concerns raised by the Hawaii Association for Justice that this measure, as currently written, grants broad immunity to officers or employees rendering aid pursuant to the Interstate Medical Licensure Compact and leaves no legal recourse for individuals who may be harmed. Your Committee also notes the Hawaii Medical Board's request for funds to facilitate the implementation of the Interstate Medical Licensure Compact, including to update its internal database and to establish, recruit, and hire staff. Your Committee respectfully requests your Committees on Commerce and Consumer Affairs and Ways and Means to consider these concerns, should they choose to deliberate on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Interstate Medical Licensure Compact;
- (2) Inserting a blank appropriation to the Department of Commerce and Consumer Affairs;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 674, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 674, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 488 (Majority Health and Human Services on S.B. No. 320**

The purpose and intent of this measure is to adopt the Psychology Interjurisdictional Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Medical Service Association, AlohaCare, Hawaii Association of Health Plans, and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Psychology, Hawaii Association for Justice, Grassroot Institute of Hawaii, and Hawai'i Psychological Association.

Your Committee finds that there is a shortage of health care service providers in the State, including psychologists. Access to psychological services is particularly acute for the State's most vulnerable residents, Medicaid beneficiaries, and those living in rural communities. To increase access to services, this measure adopts the Psychology Interjurisdictional Compact to allow psychologists to practice across state lines via telecommunication technologies and in person under certain circumstances.

Your Committee notes the number of concerns raised in testimony submitted on this measure, including those regarding privacy rights of practitioners and patients, nature and powers of the Psychology Interjurisdictional Compact Commission, indemnification for state regulatory entities, authorization of unlicensed services, educational requirements for licensure, and unintended economic repercussions. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that:
  - (A) Establishes a working group to study the feasibility and effects of the State adopting the Psychology Interjurisdictional Compact;
  - (B) Designates the membership composition of the working group; and
  - (C) Requires the working group to submit a report to the Legislature;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 320, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 320, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 489 Health and Human Services on S.B. No. 1454**

The purpose and intent of this measure is to establish the Therapeutic Psilocybin Working Group within the Department of Health to examine the medicinal and therapeutic effects of psilocybin or psilocybin-based products vis-à-vis mental health and the effectiveness of those products that have been legalized in other certain states, develop a long-term strategic plan to allow access to medicinal psilocybin for certain adults, and report its findings and recommendations to the Legislature before the Regular Session of 2024.

Your Committee received testimony in support of this measure from the Office of the Wellness and Resilience; Happy Happy Happy LLC dba Beyond Mental Health; Honolulu Psychotherapy LLC; Drug Policy Forum of Hawai'i, Inc.; Malama Mushrooms LLC; Veterans of War; Heroic Hearts Project, Inc.; Dawn Patrol Assessments, LLC; The Resort Group; Rainbow Tribal Culture Church of the Mother Earth; and sixty-two individuals. Your Committee received comments on this measure from the Department of Health and Hawaii Substance Abuse Coalition.

Your Committee finds that research being conducted on use of psilocybin and psilocybin-based products in treating mental health disorders caused by traumatic experiences, specifically depression, have suggested substantial antidepressant effects. Your Committee further finds that the United States Food and Drug Administration has designated treatment that uses psilocybin in a therapeutic manner for treatment-resistant depression as a "breakthrough therapy", and that two states, namely Oregon and Colorado, have legalized medicinal psilocybin as a tool to deal with various mental health conditions. This measure will allow the Legislature to make an informed decision on whether the State should, and if so, how the State can enable certain adults to safely access affordable therapeutic psilocybin or psilocybin-based products in the State.

Your Committee has amended this measure by:

- (1) Replacing the Director of Health with the Executive Director of Office of Wellness and Resilience as the chairperson of the Therapeutic Psilocybin Working Group;
- (2) Inserting a blank appropriation to the Department of Health for the Therapeutic Psilocybin Working Group;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1454, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1454, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 490 (Majority) Health and Human Services on S.B. No. 319**

The purpose and intent of this measure is to adopt the Recognition of Emergency Medical Services Personnel Licensure Interstate Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Hawaii Medical Service Association, and Hawaii Association of Health Plans. Your Committee received testimony in opposition to this measure from

the Hawaii Medical Board. Your Committee received comments on this measure from the Grassroot Institute of Hawaii and Hawaii Association for Justice.

Your Committee finds that there is a shortage of health care service providers in the State, particularly in rural and underserved communities. Despite this shortage, the State does not recognize out-of-state licenses, including those of emergency medical services personnel, requiring out-of-state licensees to undergo an often redundant application process that delays qualified personnel from providing services. To eliminate this redundancy and increase access to emergency medical services, this measure adopts the Recognition of Emergency Medical Services Personnel Licensure Interstate Compact. However, your Committee notes concerns raised by the Hawaii Medical Board that this measure, as currently written, may conflict with state law, lacks clarity regarding scope of practice for emergency medical services personnel, and may not be financially feasible. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that:
  - (A) Establishes a working group to study the feasibility and effects of the State adopting the Recognition of Emergency Medical Services Personnel Licensure Interstate Compact;
  - (B) Designates the membership composition of the working group; and
  - (C) Requires the working group to submit a report to the Legislature;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 319, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 319, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

#### **SCRep. 491      Government Operations on S.B. No. 814**

The purpose and intent of this measure is to require the Office of Enterprise Technology Services, in consultation with the Office of Language Access and a working group composed of stakeholders, to develop and publish, and periodically review and update, electronic information technology multilingual accessibility standards to be implemented by all state entities.

Your Committee received testimony in support of this measure from the Office of Language Access, Office of Enterprise Technology Services, Hawaii Coalition for Immigrant Rights, The Legal Clinic, Hawai'i Workers Center, Hawai'i Friends of Civil Rights, Hawai'i children's Action Network Speaks!, and five individuals. Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that Hawaii has one of the highest per-capita rates of limited English proficient individuals in the nation. Uniform standards are needed to ensure compliance with state and federal language access laws across all state agencies so that state entities are proactively addressing multilingual accessibility in communications, information technology development, and the technology procurement processes. Digital delivery systems provide critical information and services to the public. Further, your Committee finds that providing persons who have limited English proficiency with government digital information could encourage their participation in government services, programs, and activities. This measure would establish electronic information technology, multilingual accessibility standards, provide a critical link to communication, and make government services accessible for all individuals regardless of their language proficiency.

Your Committee has heard the testimony of the Office of Enterprise Technology Services expressing concerns that the standards to be adopted by this measure may have a chilling effect on procurement modernization as the cost and rigors of compliance increase, and that some of the specified enumerations, such as copiers, printers, desktops, and portable computers, are devices themselves, and not language components. Your Committee notes that the testimony recommends amending the definition of "electronic information technology" to exclude systems that are coded in the English language.

Your Committee has amended this measure by:

- (1) Amending the definition of "electronic information technology";
- (2) Appropriating \$100,000 for the establishment of one full-time Program Manager position;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 814, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 492 Government Operations on S.B. No. 828**

The purpose and intent of this measure is to:

- (1) Increase the fee for the issuance of an apostille or certification to \$10;
- (2) Establish the Apostilles and Certifications Special Fund; and
- (3) Authorize the Office of the Lieutenant Governor to expend moneys in the fund for operational expenses.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Health, and Department of the Attorney General.

Your Committee finds that an apostille authenticates the seals and signatures of officials on public documents issued by a federal agency or certified by countries that are members of the 1961 Hague Convention. The Office of the Lieutenant Governor provides approximately 7,500 authentication services annually. Your Committee further finds that this measure will ensure sufficient funding for the Office of the Lieutenant Governor to execute its constitutional obligations.

Your Committee has heard the testimony of the Department of the Attorney General that any funds allocated out of the special fund must be done by legislative appropriation.

Your Committee has amended this measure by:

- (1) Deleting the apostille or non-apostille fee amount;
- (2) Inserting a blank appropriation into and out of the Apostilles and Certification Special Fund;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has inserted a blank appropriation and apostille fee amount. Your Committee requests that should your Committee on Ways and Means choose to consider this measure that they deliberate and calculate the appropriate amount required to fund the Apostilles and Certifications Special Fund for operational expenses and the apostille fee.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 828, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 828, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 493 (Majority) Government Operations on S.B. No. 1509**

The purpose and intent of this measure is to establish additional funding sources and authorize additional expenditure of moneys for the State Archives Preservation and Long-Term Access Special Fund.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, University of Hawai'i System, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that historic music, audio recordings, and artifacts are preserved at the Hawaii State Archives and available for free public access. Digitizing the recordings and images will make them more readily available and further serve to provide an invaluable resource locally and globally that further cements the cultural impact of the Hawaiian heritage. This measure furnishes the resources sorely needed to expand access to services of the State Archives.

Your Committee has heard the testimony of the University of Hawai'i System expressing concerns that this measure as drafted would expand the scope of the Hawaii State Archives collection beyond historic records of state government and impact the University's library and archival repositories. Additionally, your Committee has heard the concerns of the Department of Budget and Finance that federal funds should not come along with the State Archive's special fund. Your Committee finds merit to these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would expand the scope of the State Archives;
- (2) Deleting language that would have allowed federal and private grant monies to be deposited into the State Archives Preservation and Long-Term Access Special Fund, to ensure that federal grant funds are not maintained in the Trust account;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1509, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 494 Government Operations on S.B. No. 1557**

The purpose and intent of this measure is to establish procedures for the custody, inventory, and care of protocol gifts received by members of either house of the Legislature or state employees.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and Department of Accounting and General Services.

Your Committee finds that gifts received from visiting dignitaries have political, cultural, and historic value. A paper certificate has immense value as a representation of the relationship that has been forged between the gifting party and the State. As such, it needs to be tracked, protected, and preserved so that the next time a delegation from the same group visits, these former protocol gifts can be prominently displayed to illustrate the long and storied history between the visitors and the State. Further, your Committee finds that there are no existing statutory provisions for the treatment of protocol gifts. Therefore, when the original recipient of the protocol gift separates from state service, without a clearly defined and maintained list of gifts received, an irretrievable loss can occur thereby negatively affecting the State's ability to showcase the history of interaction between the State and the original gifting party.

Your Committee has heard the testimony of the Hawaii State Ethics Commission expressing concerns that the loan of protocol gifts to an individual after leaving office could foster ethical inconsistencies as it would essentially allow the personal use of state property for potentially long periods of time. Your Committee appreciates that an individual might have nurtured a relationship with the gifting party and that such actions were done in their official capacity on behalf of the State and not as an individual. Therefore, the protocol gifts should not be retained by the individual for private use upon termination of service with the State.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that converted custody of a protocol gift to a personal loan;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1557, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 495 (Majority) Government Operations on S.B. No. 1253**

The purpose and intent of this measure is to allow the Office of Information Practices to resolve open meeting and open record complaints through either a legal determination on whether a violation occurred or written guidance on the relevant legal requirements.

Your Committee received testimony in support of this measure from the Office of Information Practices and two individuals. Your Committee received testimony in opposition to this measure from the Society of Professional Journalists Hawaii Chapter, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, and two individuals. Your Committee received comments on this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that the existing law does not give the Office of Information Practices the flexibility to determine when informal written guidance would be suitable to resolve an appeal versus a formal written opinion.

Your Committee has heard the testimony of the League of Women Voters of Hawaii and Civil Beat Law Center for the Public Interest in opposition to this measure. Your Committee notes that H.B. No. 2037, S.D. 1, Regular Session of 2022, which was previously passed by the House, is a substantially similar measure that requires the Office of Information Practices to provide a ruling or guidance in writing on open records responses and open meetings complaints. Both parties have indicated that they support the language as drafted in H.B. No. 2037, S.D. 1. Your Committee concludes that the language in H.B. No. 2037, S.D. 1, is preferable because it contains clarifying amendments.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 2037, S.D. 1, a substantially similar measure, which:
  - (A) Defines "guidance", "opinion", and "ruling"; and
  - (B) Requires the Director of the Office of Information Practices to provide either a ruling or guidance in writing on open records responses and open meeting complaints; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1253, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 496 (Majority) Government Operations on S.B. No. 1129**

The purpose and intent of this measure is to raise the procurement threshold for small purchases from \$25,000 to \$50,000.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawai'i State Public Library System. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii and one individual. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that chapter 103D, Hawaii Revised Statutes, the Hawaii Public Procurement Code is the State's sole source of public procurement policy. The policy is intended to be applied equally and uniformly, provide fairness and open competition on a level playing field, and ensure transparent government disclosure in the procurement and contracting process. Your Committee further finds that the cost of supplies, equipment, materials, and services has increased. The current procurement process is intricate, which often creates a hindrance in expedient and efficient acquisition of routine operational requirements to maintain and improve the State's infrastructure system. The proposed increase of the small purchase procurement threshold is a sensible response to the current purchasing environment.

Your Committee has heard the testimony of the Subcontractors Association of Hawaii expressing concern that an increase of the procurement threshold for small purchases would affect the subcontractor listing clause in chapter 103D, Hawaii Revised Statutes, and severely impact contractors who depend on procurement awards that are less than \$50,000. It is the intention of your Committee to ensure that procurement officers adhere to the small contractor listing clause despite the exception so that small "mom-and-pop" subcontractors can be assured of fair competition for small purchase procurement bid awards.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that procurements greater than \$50,000 for construction shall require security by performance and payment bonds; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 497      Government Operations on S.B. No. 1513**

The purpose and intent of this measure is to require a public agency boards to report any discussion or final action taken during an executive meeting; provided that such disclosure is not inconsistent with the purpose of convening the executive meeting and giving the board discretion to maintain confidentiality.

Your Committee received testimony in support of this measure from the Office of Information Practices. Your Committee received comments on this measure from the University of Hawai'i Board of Regents and Civil Beat Law Center for the Public Interest.

Your Committee finds that the Sunshine Law provides limited exceptions for government boards to hold closed executive sessions, but the minutes of an executive session can only be withheld to the extent necessary to protect the purpose of the executive session. This measure requires information to be reported as a summary of a public agency's executive session while maintaining some level of confidentiality.

Your Committee also finds that this measure will not undermine a board's ability to use executive sessions as authorized in the Sunshine Law and serves to increase the public's access to discussions, deliberations, decisions, and actions of government. Further, your Committee finds that this measure, as interpreted, does not diminish any of the existing responsibilities of the board, but rather adds to the board's responsibilities.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1513 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 498      Government Operations on S.B. No. 1122**

The purpose and intent of this measure is to require nominees for the position of Deputy Director, First Deputy, or Deputy Chair, as the case may be, of principal departments to be subject to advice and consent of the Senate.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the deputy directors of executive agencies hold vast amounts of power and influence in the State government, and they are responsible for considerable swaths of departmental agencies. Accordingly, your Committee finds that a nominee for the position of Deputy Director, First Deputy, or Deputy Chair should be subject to the advice and consent of the Senate. Further, your Committee feels that advice and consent for deputy directors should be codified in law and not be subject to the whims of the opinion of an attorney general.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 499 Education on S.B. No. 971**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Education to provide public high school and charter school students with bus passes;
- (2) Require the Department of Education to collect certain data on city bus pass usage for public high school and charter school students; and
- (3) Require an annual report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawai'i Climate Change Mitigation and Adaptation Commission, Department of Transportation Services of the City and County of Honolulu, Education Caucus of the Democratic Party of Hawai'i, Ulupono Initiative, and five individuals.

Your Committee finds that while the Department of Education is authorized to provide transportation to students to and from school for students in grades kindergarten through twelve, a bus driver shortage has led to significant lapses in transportation services. In other jurisdictions, student free-fare transportation on public transportation led to higher attendance rates and increases in grade point averages. Additionally, student free-fare transportation also provides free access to public transit for students who commute to and from jobs, visit friends, and run errands.

Your Committee further finds that presently, the Department of Education distributes an average of six hundred city bus passes per month. However, students who qualify must meet strict demographic eligibility requirements, including an active departmental identification number. By simplifying the eligibility requirement, the State can provide increased transportation options to high school students across the State. This measure appropriates funds to the Department of Education to offer student transportation through a city bus pass for public high school and charter school students to offer free, reliable public transportation options.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 971, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

**SCRep. 500 (Majority) Education on S.B. No. 692**

The purpose and intent of this measure is to appropriate funds to the Department of Education to support wide-ranging initiatives for student success.

Your Committee received testimony in support of this measure from the Department of Education and two individuals.

Your Committee finds that education enables Hawaii's children to develop skills essential for life, learn social norms, develop judgment and reasoning, and discern right from wrong. As educating the future generations of Hawaii is of paramount importance, it is incumbent upon current generations to adequately fund the Department of Education to enable the Department to continue to fulfill its commitment to developing the achievement, character, and social-emotional wellbeing of Hawaii's students to their full potential. Accordingly, this measure appropriates funds to the Department of Education for wide-ranging initiatives to fulfill its mission to educate Hawaii's keiki.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts for various Department of Education programs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 692, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 692, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Kim). Excused, 1 (Kanuha).

**SCRep. 501 Education on S.B. No. 832**

The purpose and intent of this measure is to:

- (1) Authorize the counties to transfer land to the School Facilities Authority;
- (2) Exempt the School Facilities Authority from taxes;
- (3) Authorize state and county agencies to render services to the School Facilities Authority upon request; and
- (4) Establish a deadline for the transfer of properties to the Department of Education from the City and County of Honolulu required by Act 272, Session Laws of Hawaii 2019.

Your Committee received testimony in support of this measure from the School Facilities Authority. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the School Facilities Authority is statutorily empowered to redevelop Hawaii's schools into twenty-first century institutions. The redevelopment of Hawaii's schools into vertical schools, teacher and workforce housing, and spaces for community services addresses critical education policy issues and allows Hawaii's keiki to thrive in academic and extracurricular settings. By authorizing the School Facilities Authority to work with various state partners, while also addressing crucial land transfers, the School Facilities Authority can streamline the process to effectuate its work for the benefit of Hawaii's education system.

Your Committee has amended this measure by:

- (1) Authorizing the School Facilities Authority to engage in commercial enterprise activities for the purpose of revenue generation;
- (2) Authorizing the School Facilities Authority to contract to manage the leasing and property management of housing projects; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 832, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 832, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 502 Education on S.B. No. 1044**

The purpose and intent of this measure is to appropriate funds to hire school-based youth mental health specialists in Department of Education schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Youth Services Network, Democratic Party of Hawai'i Education Caucus, Opportunity Youth Action Hawai'i, and three individuals.

Your Committee finds that suicide rates and suicide attempts are disproportionately high among the State's youth. Suicide is the fourth leading cause of death for children between the ages of ten and fourteen and the leading cause of death for young people between the ages of fifteen and twenty-four. Additionally, Native Hawaiians, Pacific Islanders, and other people of color have disproportionately high rates of suicide. Hiring mental health specialists will help provide critical support to Hawaii's youth experiencing mental health issues.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation is for the hiring of complex-based behavioral health specialists, rather than school-based youth mental health specialists;
- (2) Clarifying that the complex-based behavioral health specialists are for the State's rural public schools;
- (3) Inserting an appropriation amount of \$861,000 to hire complex-based behavioral health specialists for the State's rural public schools; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1044, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 503 Education on S.B. No. 481**

The purpose and intent of this measure is to:

- (1) Require the Board of Education to develop a Hawaiian Language Medium Education Kindergarten Entry Assessment to be administered by the Department of Education, beginning with the 2026-2027 school year;
- (2) Require the State Public Charter School Commission to adopt the assessment; and
- (3) Require a kindergarten entry assessment be administered within ninety days of a child's admission to kindergarten; provided that the child has not received any other kindergarten assessment within the past one hundred eighty days.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, and four individuals. Your Committee received testimony in opposition to this measure from 'Aha Pūnana Leo; Governing Board of Ke Kula 'O Nāwahīokalani'ōpu'u Iki, Laboratory Public Charter School; Ke Kula 'o Samuel M. Kamakau, Laboratory Public Charter School; Kupuna for the Mo'opuna; and one hundred one individuals. Your Committee received comments on this measure from the Hawaii State Teachers Association and one individual.

Your Committee finds that article X, section 4, of the Hawaii State Constitution requires both English and Hawaiian language pathways within public schools. The Department of Education's Hawaiian language medium education program, Ka Papahana Kaiapuni, offers students an education in the medium of Hawaiian language, which incorporates Hawaiian language, history, culture, values, and teaching methodologies to prepare students for college, professional life, and community engagement within a multicultural society. While Act 210, Session Laws of Hawaii 2021, requires the Department of Education to implement a statewide kindergarten entry assessment, the current framework to appropriately evaluate Ka Papahana Kaiapuni students is limited and a

comparable tool in Olelo Hawaii does not exist. To ensure that students entering kindergarten are adequately prepared for their education, a linguistically and culturally appropriate kindergarten entry assessment for Ka Papahana Kaiapuni students is necessary.

Your Committee further finds that is essential for the Department of Education to provide relevant data to the Legislature regarding early learning programs. Therefore, amendments to this measure are necessary to address this issue.

Your Committee has amended this measure by:

- (1) Deleting language that would have established a Hawaiian language kindergarten entry assessment for Department of Education schools;
- (2) Requiring the Department of Education to submit annual reports to the Legislature on early learning programs attendance, including early learning program attendance by school, to determine the need across the State;
- (3) Repealing requirements for the Board of Education to adopt a kindergarten entry assessment administered by the Department of Education;
- (4) Deleting section 1;
- (5) Inserting an effective date of July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 481, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 481, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 504 (Joint/Majority) Housing and Government Operations on S.B. No. 338**

The purpose and intent of this measure is to:

- (1) Create the Department of Housing; and
- (2) Transfer the Hawaii Community Development Authority (HCDA), Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, and Hawaii Public Housing Authority (HPHA) under the Department of Housing for administrative purposes.

Your Committees received testimony in support of this measure from the Building Industry Association of Hawaii, Hawai'i YIMBY, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Community Development Authority, and Hawaii Public Housing Authority.

Your Committees find that increasing the supply of housing on state-owned lands is statewide priority. However, your Committees further find that expertise with housing matters is currently spread across various state departments and agencies, which causes inconsistencies and redundancies in the State's plan to effectively accommodate the housing needs of Hawaii's people. Your Committees believe that centralizing the State's housing agencies within a single department would decrease inconsistencies and redundancies and ensure that the State's various housing initiatives are better coordinated.

Your Committees note that because this measure would administratively attach HPHA to the new Department of Housing rather than the Department of Human Services, the HPHA Board of Directors would still be responsible for the policy and direction of HPHA; therefore, no further amendments are necessary to ensure HPHA's continued compliance with federal requirements regarding the Annual Contributions Contract.

Your Committees have amended this measure by:

- (1) Replacing the Director of Business, Economic Development, and Tourism as a member of HCDA with the Director of Housing;
- (2) Inserting language that would provide for the salary of the Director of Housing; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 338, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 338, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).  
Government Operations: Ayes, 4. Noes, 1 (San Buenaventura). Excused, none.

**SCRep. 505 (Joint) Housing and Government Operations on S.B. No. 871**

The purpose and intent of this measure is to:

- (1) Repeal the Board of Directors (Board) of the Hawaii Housing Finance and Development Corporation (HHFDC);
- (2) Require HHFDC to employ an Executive Director to be nominated by the Governor, subject to the advice and consent of the Senate; and

- (3) Transfer the duties and powers of the Board to the Executive Director.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual. Your Committees received comments on this measure from the League of Women Voters of Hawaii, and Civil Beat Law Center for the Public Interest.

Your Committees find that members of the Board of HHFDC reflect the diversity of the State, ensuring that the interests and concerns from each county are represented. According to testimony received by your Committees, the elimination of the Board will stifle neighbor island representation in policy decisions that can impact resource distribution and housing production on an equitable statewide basis. Amendments to this measure are therefore necessary to address this concern.

Your Committees additionally note the concerns raised in testimony as to whether this measure violates Article XI, section 2 of the Hawaii State Constitution, relating to the management and disposition of natural resources, and whether additional language is needed to require the Executive Director to file a public financial disclosure statement. Your Committees find that the Attorney General has held that lands held by HHFDC fall under the exception for lands set aside for public use and therefore does not violate the State Constitution. Your Committees further find that existing state law requires executive directors for all State agencies and departments disclose their financial interests and therefore additional language in this measure is not necessary to clarify these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have repealed the Board of HHFDC; and
- (2) Clarifying that the purpose of the Board is to serve in an advisory capacity to the Executive Director in carrying out the powers and duties under Chapter 201H, Hawaii Revised Statutes, relating to HHFDC.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 871, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 871, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4; Ayes with Reservations (Kanuha). Noes, none. Excused, 1 (Aquino).

Government Operations: Ayes, 5. Noes, none. Excused, none.

**SCRep. 506 Health and Human Services on S.B. No. 1215**

The purpose and intent of this measure is to expand the definition of preceptor to allow for improved accessibility for providers to receive income tax credits.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i System, Hawai'i State Center for Nursing, Hawai'i Association of Professional Nurses, Kaiser Permanente Hawai'i, Hawai'i Primary Care Association, Hawai'i Pacific Health, Hawai'i Academy of Physician Assistants, Hawai'i Pacific University, Hawai'i – American Nurses Association, The Queen's Health System, and three individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that there is a primary care provider shortage in Hawaii that will be exacerbated by the projected retirements of physicians and advanced practice registered nurses. Academic institutions across Hawaii face challenges in ensuring there will be an adequate number of future health care professionals and are constrained in part by the lack of clinical education sites in Hawaii and the limited supply of qualified primary care preceptors. Training by a preceptor is an integral part of the medical training program. Your Committee finds that one way to encourage participation of preceptors is to offer a tax credit for professionals who serve as preceptors.

Your Committee acknowledges the testimony of the Hawaii Association of Professional Nurses, which requests that behavioral health preceptors be included in this measure.

Accordingly, Your Committee has amended this measure by:

- (1) Inserting language to allow behavioral health care preceptors to be eligible for the tax credit proposed by this measure;
- (2) Amending the purpose section to reflect its amended purpose;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1215, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1215, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 507 Health and Human Services on S.B. No. 312**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish and administer a two-year Infant and Toddler Child Care Worker Subsidy Pilot Program;

- (2) Require the Department of Human Services to submit annual reports on the pilot program's development and administration to the Legislature; and
- (3) Appropriate an unspecified amount of funds for the Infant and Toddler Child Care Worker Subsidy Pilot Program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, Hawai'i Children's Action Network Speaks!, Holomua Collaborative, Early Childhood Action Strategy, Hawai'i State Coalition Against Domestic Violence, HPM Building Supply, Hawai'i Gas, AAUW of Hawaii, Domestic Violence Action Center, Hawai'i Association of School Psychologists, Title Guaranty of Hawaii, aio Foundation, Tori Richard, and twenty-three individuals. Your Committee received comments on this measure from the Department of Human Services and the Department of the Attorney General.

Your Committee finds that a strong child care and early education workforce is necessary to support the working families, children, and communities of the State; however, the demand for quality child care and early education far exceeds the number of qualified child care and early education professionals currently available in Hawaii, therefore hindering the efforts to maintain and expand quality, affordable child care and early education programs. This measure will enable the Legislature to make well informed decisions on effective ways to address child care issues by requiring the Department of Human services to establish and administer a two-year pilot program that seeks to retain the existing early child care workforce in licensed infant and toddler centers and report the result to the Legislature.

Your Committee has amended this measure by:

- (1) Clarifying that participation shall also be prohibited to child care workers employed by a private educational institution; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

Your Committee acknowledges the testimony of the Department of Human Services concerning the constitutionality of this measure, as amended by your Committee, and requests that the Department of the Attorney General review the amended measure to determine whether this measure as amended complies with constitutional requirements.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 312, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 508 Health and Human Services on S.B. No. 869**

The purpose and intent of this measure is to:

- (1) Clarify that a majority of the members appointed to the Youth Commission shall constitute a quorum to do business; and
- (2) Authorize the Youth Commission to appoint an Executive Director.

Your Committee received testimony in support of this measure from the Hawai'i Youth Services Network. Your Committee received comments on this measure from the Department of Human Services, Office of Youth Services, and one individual.

Your Committee finds that Act 106, Session Laws of Hawaii 2018, established the Youth Commission, whose mission is to advise the Governor and Legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets as they relate the youth of the State. Your Committee finds that over the past year, the Youth Commission has struggled with membership and has often not had the ability to establish quorum to conduct official business. This measure will allow the Youth Commission to establish quorum and conduct business.

Your Committee further finds that most boards and commissions across the State have an Executive Director, such as the Disabilities and Communications Access Board and the State Council on Developmental Disabilities. Your Committee also finds that many commissions are authorized to appoint their own Executive Director. Allowing the Youth Commission to appoint its own Executive Director will give it the opportunity to select an individual to best represent the commission, while providing the necessary administrative support and leadership.

Your Committee acknowledges testimony raising concerns over imposing the responsibility of making employment decisions, which carry inherent legal liability, onto members of the Youth Commission who are aged fourteen to twenty-four years old, who do not have the necessary education or relevant work experience to make such decisions. Your Committee also acknowledges the testimony of the Department of Human Services, stating that there is an existing administrator position for the Youth Commission that is currently open, and if the Legislature prefers an Executive Director instead of the current civil service position, the Department will require an additional appropriation to address the difference in salary and benefits and time to add the new position to the organization. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have allowed the Youth Commission to appoint its own Executive Director; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 869, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 509 (Joint) Health and Human Services and Housing on S.B. No. 898**

The purpose and intent of this measure is to:

- (1) Establish the State Rent Supplement Program for Kupuna that temporarily expands the State Rent Supplement Program to specifically target qualified individuals who are sixty-two years of age or older and are homeless or at imminent risk of becoming homeless;
- (2) Require the Hawaii Public Housing Authority to submit annual reports regarding the State Rent Supplement Program for Kupuna to the Legislature; and
- (3) Appropriate an unspecified amount of funds to be expended by the Hawaii Public Housing Authority for the State Rent Supplement Program for Kupuna, including funding to establish an unspecified number of public housing specialist positions within the Authority.

Your Committees received testimony in support of this measure from the Department of Health Executive Office on Aging; Hawaii Public Housing Authority; AARP Hawai'i; Catholic Charities Hawai'i; Institute for Human Services, Inc.; Democratic Party of Hawai'i Kūpuna Caucus; and four individuals. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that according to the latest United States Census Bureau data, the poverty rate amongst Americans aged sixty-five and older has increased from 8.9 percent in 2020 to 10.3 percent in 2021. As housing costs and inflation rise, kupuna who rely on retirement income from Social Security or are on fixed incomes are struggling to pay for basic necessities and are therefore forced to cut back on essential expenses, such as food, transportation, and medication just to stretch their finite funds. Your Committees further find that in 2023, close to one thousand kupuna aged fifty-five years and older are expected to be evicted and more than one thousand five hundred kupuna in the same age demographic are expected to experience homelessness in Hawaii. This measure will assist vulnerable kupuna from being displaced from their residence and prevent them from becoming homeless by providing state rent supplement and services to Hawai'i's Kupuna.

Your Committees acknowledge the concerns raised by the State Procurement Office over the exemption this measure affords the Hawaii Public Housing Authority from the Hawaii Public Procurement Code when selecting an organization to administer the State Rent Supplement Program for Kupuna without providing a compelling reason. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the provision that would have exempted the Hawaii Public Housing Authority from complying with the Hawaii Public Procurement Code when selecting an organization to administer the State Rent Supplement Program for Kupuna;
- (2) Clarifying that the Hawaii Public Housing Authority shall adopt rules and qualification standards for participants of the State Rent Supplement Program for Kupuna, rather than the long-term rental assistance pilot program;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 898, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 898, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Shimabukuro).

Housing: Ayes, 5. Noes, none. Excused, none.

**SCRep. 510 Health and Human Services on S.B. No. 313**

The purpose and intent of this measure is to:

- (1) Reduce the number of members on the State Rehabilitation Council from twenty-one to fifteen;
- (2) Exempt from term limits the member of the State Rehabilitation Council that represents the client assistance program; and
- (3) Authorize the State Rehabilitation Council to establish a quorum and conduct business without regard to vacancies.

Your Committee received testimony in support of this measure from the Hawaii State Rehabilitation Council, Department of Human Services, Department of Health, and Hawaii Disability Rights Center.

Your Committee finds that section 105 of the federal Rehabilitation Act of 1973, as amended, requires consumers, advocates, and other representatives of individuals with disabilities to participate in the administration and oversight of the State's Vocational Rehabilitation Program. Presently, the State Rehabilitation Council fulfills this mandate and is required for vocational rehabilitation programs to be eligible for and maintain federal vocational rehabilitation funding. Additionally, the State Rehabilitation Council continues to experience challenges with meeting quorum requirements for a variety of reasons, including numerous vacancies and member absences. This measure reduces the number of members on the State Rehabilitation Council from twenty-one to fifteen to comply with federal requirements while also adjusting quorum requirements to continue business to support Hawai'i's vocational rehabilitation needs.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 313 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 511 Education on S.B. No. 283**

The purpose and intent of this measure is to exclude from the charter school per-pupil funding calculation all amounts relating to programs that provide comparable benefits for all public school students regardless of whether the student is a Department of Education school student or a public charter school student.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and two individuals. Your Committee received testimony in opposition to this measure from Ka 'Umeke Kā'eo Public Charter School, Ke Kula 'o Samuel M. Kamakau Public Charter School, and one hundred ninety individuals. Your Committee received comments on this measure from the Public Charter School Commission and Ke Kula 'O Nāwahīokalani'ōpu'u Iki Lab Public Charter School.

Your Committee finds that adequate funding has been a long-standing issue for Hawaii's public charter schools. Presently, charter schools' per-pupil operating funds cover items such as salaries, collective bargaining costs, curricula, school supplies, equipment, and utilities. Funding amounts received by charter schools fail to keep pace with the cost of providing high quality education to charter school students, as many schools rely on private donations to fund extra costs including facilities and rent. Without proper funding, charter schools are sometimes forced to hold classes in unstable temporary structures, creating safety hazards for students and educators, and learning distractions for students. This measure excludes from the charter school per-pupil funding calculation all amounts relating to programs that provide comparable benefits for all public school students to ensure charter schools receive funding needed for student success.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 512 Education on S.B. No. 260**

The purpose and intent of this measure is to:

- (1) Require the Department of Education to employ individuals as vocational, technical, or career pathway teachers; and
- (2) Authorize Department of Education teachers to instruct vocation, technical, or career pathway classes without possessing an applicable bachelor's degree.

Your Committee received testimony in support of this measure from Food+ Policy Internship 2023 and two individuals. Your Committee received comments on this measure from the Department of Education and Hawai'i Teacher Standards Board.

Your Committee finds that the State has an obligation to prepare its students with the tools necessary for successful futures in the modern economy. As a traditional four-year bachelor's degree is becoming increasingly irrelevant for earning potential and job placement, the bachelor's degree is no longer the sole path to economic self-sufficiency. Additionally, many well-paying jobs do not require any level of higher education, with careers in technical and trade industries providing income above the national average, plus benefits. To help prepare Hawaii's keiki for a greater variety of post-high school academic or professional opportunities, this measure requires the Department of Education to hire qualified individuals to teach vocational, technical, or career pathway classes.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 260 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

**SCRep. 513 Education on S.B. No. 1022**

The purpose and intent of this measure is to:

- (1) Amend the composition and qualifications of the Early Learning Board to consist of individuals from each county, instead of from particular entities or types of providers; and
- (2) Establish general qualifications for the members of the Early Learning Board appointed by the Governor.

Your Committee received comments on this measure from the Early Learning Board.

Your Committee finds that the Early Learning Board provides crucial input, direction, and oversight necessary for the Executive Office on Early Learning to achieve its statutory responsibilities. Representatives on the Early Learning Board are reflective of the diversity of the early care and education field across the State, providing unique and important input on how to best serve Hawaii's families and young children. However, your Committee notes that the early childhood education needs of each county are different and perspectives from each county allow the Early Learning Board to shape policy to provide quality education and academic preparation to all eligible children. Therefore, amendments to the composition and qualifications of the Early Learning Board are necessary to ensure both statewide and county early childhood education needs are addressed.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 514 Education on S.B. No. 1023**

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Preschool Open Doors Program and Executive Office on Early Learning to expand access to preschool and to implement required program changes;
- (2) Expand the types of entities from which a Preschool Open Doors service provider may obtain accreditation;
- (3) Authorize the Preschool Open Doors Special Fund to accept federal funds; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Human Services, Executive Office on Early Learning, University of Hawai'i System, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, Hui for Excellence in Education, Commit to Keiki, Kamehameha Schools, and one individual. Your Committee received comments on this measure from the Early Learning Board.

Your Committee finds that access to preschool is a social justice issue for the State, as children who attend early learning or high quality preschool programs are better equipped for success. Presently, the Public Pre-Kindergarten Program administered by the Executive Office on Early Learning provides free public pre-kindergarten in thirty-seven classrooms across thirty-four Department of Education campuses. Additionally, childcare subsidies and tuition assistance programs, such as Preschool Open Doors, assists eligible Hawaii families to afford childcare and preschool tuition rates to prepare keiki for their academic careers and educational development. As the costs of childcare and pre-kindergarten programs serve as a formidable barrier to early childhood education, this measure will expand opportunities for Hawaii's young keiki, allowing future generations to grow and thrive.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 515 (Majority) Housing on S.B. No. 924**

The purpose and intent of this measure is to:

- (1) Eliminate the home mortgage interest deduction for second homes under Hawaii income tax law; and
- (2) Require the amount of state revenue gained by eliminating the deduction to be deposited into the Rental Housing Revolving Fund.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that more incentives should be directed toward helping residents purchase their first home, rather than toward encouraging ownership of a second home. Not allowing the deduction of mortgage interest for a second home would generate revenues for the State and expand access to affordable housing.

Your Committee has amended this measure by requiring the amount of state revenue gained by eliminating the mortgage interest deduction for a second home to be deposited into the Dwelling Unit Revolving Fund.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it, along with the Department of Taxation, explore ways to best assess the amount of state revenue that will be generated from eliminating the home mortgage interest deduction as provided in this measure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 516 (Majority) Housing on S.B. No. 1462**

The purpose and intent of this measure is to establish an organizational and regulatory framework for limited-profit housing associations.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Department of Taxation; and Office of the Auditor.

Your Committee finds that it would be in the best interest of the State to consider Vienna's Limited-Profit Housing Act of 1979 as a model to sustainably finance the development of affordable housing in the State. Profits generated by a limited-profit housing association are used to build more housing, which means that each new public housing project built enables the creation of more housing. This measure offers entrepreneurs and investors a sustainable option to develop long-term housing in the State.

Your Committee has amended this measure by:

- (1) Deleting language that would have:
  - (A) Required the State Auditor or their designee to serve as the chair of the Limited-Profit Housing Council;
  - (B) Required the Commissioner of Financial Institutions or their designee to serve on the Limited-Profit Housing Council;
  - (C) Required limited-profit housing associations to undergo an annual audit and publicly post an annual report;
  - (D) Defined and established limited-profit housing supervisory boards; and
  - (E) Established two working groups;
- (2) Inserting language that requires the Executive Directors of the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority to serve as co-chairs of the Limited-Profit Housing Council; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1462, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1462, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 517 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 1127**

The purpose and intent of this measure is to appropriate funds for three full-time equivalent positions under the Department of Law Enforcement to provide security at small boat harbors on Maui.

Your Committees received testimony in support of this measure from the Department of Law Enforcement and Quicksilver Charters, LLC.

Your Committees find that conditions at Lahaina Harbor are both unsafe and unsanitary due to a rise in theft, vandalism, and littering of dangerous refuse, such as used needles. Your Committees believe that funding is needed to reinforce state law enforcement presence in Lahaina Harbor and other similarly affected small boat harbors. This measure will improve public safety and complement the Department of Law Enforcement's vision of building strong partnerships with the community and first response agencies for addressing community-wide challenges that impact community welfare by appropriating funds to the Department of Law Enforcement for three full-time equivalent positions to provide security at small boat harbors on Maui.

Your Committees have amended this measure by:

- (1) Inserting language requiring the Division of Boating and Ocean Recreation, in collaboration with the County of Maui and any other private entities the Division of Boating and Ocean Recreation and County of Maui deem necessary, to submit a report to the Legislature regarding the transfer of the rights for certain small boat harbors on Maui;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1127, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 518 Water and Land on S.B. No. 300**

The purpose and intent of this measure is to prohibit the expenditure of public moneys for any land improvement if the land is not owned or leased by the State, unless the funds are appropriated by the Legislature or the Legislature approves the expenditure by concurrent resolution.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that it is generally good government practice to avoid appropriating state funds for the improvement of private property, although at times, doing so can in fact serve a public purpose. The funds of the State belong to the public fisc and are entrusted for the benefit of all the people of the State. Article VII, section 4, of the Hawaii State Constitution provides, "No tax shall be levied or appropriation of public money or property made, nor shall the public credit be used, directly or indirectly, except for a

public purpose". It is generally for the Legislature to decide what constitutes a "public purpose". Therefore, this measure prohibits the expenditure of public funds for any land improvement if the land is not owned or leased by the State, unless the funds are appropriated by the Legislature or the Legislature approves the expenditure by concurrent resolution.

Your Committee has heard the testimony of the Department of the Attorney General, expressing concern that a concurrent resolution cannot fulfill the appropriation requirement of article VII, section 5, of the Hawaii State Constitution, which provides, "No public money shall be expended except pursuant to appropriations made by law". The Department testified that a concurrent resolution merely expresses the sentiment of the Legislature, and does not have the force and effect of law.

Therefore, your Committee has amended this measure by:

- (1) Deleting language that would have allowed the Legislature to approve the expenditure of public moneys for certain land improvements via concurrent resolution;
- (2) Requiring that the Legislature also make a declaration of public purpose regarding any appropriation of the public moneys that are used to improve private lands;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 300, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 519 Water and Land on S.B. No. 353**

The purpose and intent of this measure is to clarify that when trespass involves public land, all state and county law enforcement officers are authorized to and shall enforce trespass laws, without regard to whether the land is owned by the State or by a county.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that trespassing, whether on State or county lands, threatens the health and safety of the community. However, your Committee finds that better coordination is needed between law enforcement agencies who routinely decline responding to trespassing by citing their lack of jurisdiction. This measure will make government more effective and expedite the enforcement of trespass laws.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 353, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 353, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 520 Water and Land on S.B. No. 463**

The purpose and intent of this measure is to:

- (1) Require each county to adopt, no later than June 30, 2024, ordinances applicable to subdivisions not approved by July 1, 2024, requiring as a condition of approval, the subdivider or developer to obtain a street address and install a mailbox for lots, parcels, structures, or units of a structure within the subdivision before the sale or lease thereof; and
- (2) Require condominium maps recorded in the Bureau of Conveyances or registered in the Land Court after June 30, 2024, to include a mailbox plan for the condominium property regime, showing the location of all mailboxes for all units in the regime.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu and one member of the Maui County Council.

Your Committee finds that the ability to receive and send mail is of the utmost importance to a homeowner or renter. Through the mail, a person can pay their utility bills, obtain important medicines, or send personal correspondence to friends and family. However, your Committee finds that not all units within a condominium property regime have a mailbox that can be serviced by the United States Postal Service. Therefore, this measure ensures that all lots, parcels, structures, and units of structures located within newly created subdivisions and all units located within newly created condominium property regimes in the State have a mailbox that can be utilized by the United States Postal Service to deliver mail, should the United States Postal Service decide to extend its delivery services to the location.

Your Committee has amended this measure by:

- (1) Requiring that, prior to the sale of residential real property, the property owner shall make a good faith declaration as to the existence, or lack thereof, of a United States Postal Service deliverable mailbox for the property being sold;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 463, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 463, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 521 Water and Land on S.B. No. 937**

The purpose and intent of this measure is to:

- (1) Specify that a simple majority of affirmative votes by members of the Land Use Commission is required for any boundary amendment; and
- (2) Reduce the number of days by which the Land Use Commission must act for certain actions related to amendments to district boundaries.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of the Attorney General, Land Use Commission, and Grassroot Institute of Hawaii.

Your Committee finds that delays in land use permitting and approvals substantially increase the time and cost required to build new housing. A study on the burden of housing regulation from the University of Hawaii Economic Research Organization indicates that the average length of approval delay in Hawaii is three times the national mean, leading to uncertainty and expense that disincentivizes development.

Your Committee finds that under existing law, six out of the nine members of the Land Use Commission must affirmatively vote to approve any boundary amendment. In addition, the Land Use Commission is required to hold a hearing within not less than sixty and not more than one hundred eighty days. Your Committee finds that adjusting the laws governing the Land Use Commission approval process will expedite the development process and help address the State's excessive permit and approval times. Therefore, this measure specifies that a simple majority of affirmative votes by members of the Land Use Commission is required for any boundary amendment and reduces the number of days by which the Land Use Commission must act for certain actions related to amendments to district boundaries.

Your Committee has heard the testimony of the Department of the Attorney General, expressing concern that the term "simple majority" is vague with respect to how the simple majority should be calculated and that additional clarity would be useful.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that a simple majority of affirmative votes of members present at a meeting and qualified to vote shall be necessary for any boundary amendment; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 937, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 522 Water and Land on S.B. No. 1391**

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to place a lien on property for noncompliance with administrative enforcement action.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Surfriider Foundation Hawai'i Region, and four individuals.

Your Committee finds that coastal erosion and rising seas are threatening Hawaii's iconic beaches and shoreline homes throughout the State. Your Committee further finds that private property owners whose property abuts public beaches are building erosion control structures on public beaches, and encroaching upon public trust land, to protect their private properties. While shoreline hardening protects private property, it can destroy the public beaches for which Hawaii is world renowned. Moreover, debris from illegal structures such as rocks, concrete, rebar, and textiles can create public hazards along the shoreline and in the water.

Your Committee finds that amending the law is necessary to aid the Department of Land and Natural Resources in resolving encroaching structures that are largely unpermitted or remain under expired permits far beyond their allotted authorization. Therefore, this measure authorizes the Board of Land and Natural Resources to place a lien on property for noncompliance with administrative enforcement action.

Your Committee has amended this measure by:

- (1) Allowing any state or county agency, board, or commission imposing an administrative enforcement action to record in the Bureau of Conveyances a notice of the pendency of the action pursuant to section 634-51, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1391, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 523 Water and Land on S.B. No. 1549**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for operating costs and personnel to manage certain trailheads as part of the Na Ala Hele Trail and Access Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club Hawaii Island Group, and fifteen individuals.

Your Committee finds that visitors are attracted to Hawaii because of the State's natural beauty, natural resources, cultural resources, and historical sites. However, many of these sites are overwhelmed by the sheer number of visitors and residents who flock to these sites during their stay in Hawaii. Your Committee finds that with the dramatic increase in trail use, intensified by residents who escaped to the outdoors during the COVID—19 pandemic and visitors exposed to the trails via social media influences, additional resources are needed. Your Committee finds that the lack of staffing to address these hotspots leads to residents complaining about blocked driveways, illegal parking on state and county roadways, lack of restroom facilities, constant noise, lack of on-street parking for residential use, use of residential water hoses to clean up, and use of residential yards to gather and unwind from the day's activities. Therefore, this measure appropriates funds to help remedy these issues.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1549, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1549, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 524 (Joint/Majority) Judiciary and Health and Human Services on S.B. No. 1540**

The purpose and intent of this measure is to:

- (1) Expand the Criminal Justice Diversion Program;
- (2) Amend the allowable period of court-ordered assisted community treatment and considerations for extensions;
- (3) Allow courts to require certain probation violators to undergo mental health evaluation and treatment as a condition of continued probation;
- (4) Require the Department of Health to contract with behavioral health crisis centers; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Judiciary, Department of Health, Honolulu Police Department, Hawaii Substance Abuse Coalition, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General and Office of the Public Defender.

Your Committees recognize the importance of the proper diagnosis, treatment, and rehabilitation of those defendants undergoing mental health or disease issues and the importance of reducing the recidivism rates of those individuals upon release. Your Committees find that the Criminal Justice Diversion Program, as it applies to those left unfit by a mental disease, disorder, or defect, is limited to certain petty misdemeanor offenses. Because of this limitation, there have not been many defendants able to participate in the Criminal Justice Diversion Program. This measure will improve the government response to individuals suffering from mental health challenges, particularly for those who may become, or already are, involved in the justice system.

Your Committees have amended this measure by:

- (1) Clarifying the facilities under which the Director of Public Safety and Chief Justice of the Hawaii Supreme Court are to establish procedures regarding telehealth resources;
- (2) Clarifying the instances in which the court is to appoint one qualified examiner to examine and report upon the defendant's fitness to proceed;
- (3) Adding an advanced practice registered nurse who has the prescriptive authority and who holds an accredited national certification in an advanced practice registered nurse psychiatric specialization to the list of those who can act as court appointed examiners;
- (4) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1540, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1540, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 525 Agriculture and Environment on S.B. No. 1588**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture to establish and implement a GroupGAP Food Safety Training and Certification Program.

Your Committee received testimony in support of this measure from the Department of Education; Department of Agriculture; University of Hawai'i College of Tropical Agriculture and Human Resources; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative; Hawai'i Farm Bureau; and four individuals. Your Committee received comments on this measure from the North Shore Economic Vitality Partnership.

Your Committee finds that achieving food safety certifications is an important aspect in sustaining local food production. A GroupGap program will reduce costs for producers and make Good Agricultural Practices certifications more accessible to small farmers and ranchers. This measure will establish and implement the GroupGAP Food Safety Training and Certification Program within the Department of Agriculture.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1588, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1588, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 526 (Majority) Agriculture and Environment on S.B. No. 426**

The purpose and intent of this measure is to implement the recommendation of the Cesspool Conversion Working Group to accelerate the dates for required upgrades, conversions, or connections of priority level 1 cesspools and priority level 2 cesspools by requiring priority level 1 cesspools to be upgraded, converted, or connected before January 1, 2030, and priority level 2 cesspools to be upgraded, converted, or connected before January 1, 2035, rather than before January 1, 2050.

Your Committee received testimony in support of this measure from the Department of Health, Wastewater Alternatives and Innovations, Hawai'i Reef and Ocean Coalition, and two individuals. Your Committee received comments on this measure from Hawai'i REALTORS.

Your Committee finds that the State has mandated the upgrade, conversion, or connection of all cesspools in Hawaii by 2050. However, it has become clear that these cesspools are an imminent danger and must be resolved immediately in order to avoid preventable damage to the soil, environment, and ground water sources. Thus, this measure accelerates the upgrade, conversion, and connection deadlines for priority one and priority two cesspools to 2030 and 2035, respectively, to protect the public and environment from preventable harm.

Your Committee has amended this measure by updating the references to the University of Hawai'i 2021 Hawaii Cesspool hazard assessment and prioritization tool by replacing it with the University of Hawai'i 2022 Hawaii cesspool hazard assessment and prioritization tool, as recommended by the Department of Health.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 426, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 527 Health and Human Services on S.B. No. 602**

The purpose and intent of this measure is to:

- (1) Establish permitting and education requirements for pharmacists performing certain diagnostic tests or tests waived pursuant to the Clinical Laboratory Improvement Amendments of 1988 (CLIA); and
- (2) Expand the definition of "practice of pharmacy" to include the performance of certain diagnostic or CLIA-waived tests.

Your Committee received testimony in support of this measure from the Board of Pharmacy, University of Hawai'i at Hilo, Walgreen Co., Hawai'i Pharmacists Association, Times Pharmacy, and two individuals. Your Committee received testimony in opposition to this measure from Clinical Labs of Hawaii.

Your Committee finds that the coronavirus disease 2019 pandemic highlighted the critical need to address health care testing accessibility and streamline unnecessary administrative regulations. While pharmacists possess the skills and knowledge necessary to perform diagnostic and CLIA-waived tests, which are non-technical and present a low risk for erroneous results, pharmacists' scope of practice under existing state law does not explicitly authorize performance of these tests. To clarify this ambiguity, this measure

amends pharmacists' scope of practice to explicitly include the ordering and performance of certain diagnostic-related and CLIA-waived tests.

Your Committee has amended this measure by:

- (1) Clarifying that, unless otherwise authorized by law, no pharmacist shall order, or perform the collection of specimens for, certain diagnostic-related and CLIA-waived tests without first obtaining a permit;
- (2) Clarifying that, before ordering, or performing the collection of specimens for, certain diagnostic-related and CLIA-waived tests, the pharmacist shall have completed certain training;
- (3) Clarifying the definition of "practice of pharmacy" to include ordering certain tests and performing the collection of specimens for certain tests authorized or approved by the United States Food and Drug Administration;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 602, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 528 (Majority) Health and Human Services on S.B. No. 321**

The purpose and intent of this measure is to adopt the Advanced Practice Registered Nurse Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, AlohaCare, Hawaii Medical Service Association, Hawaii Association of Health Plans, and two individuals. Your Committee received testimony in opposition to this measure from the Board of Nursing, Hawaii Association of Nurse Anesthesiology, Hawaii Society of Anesthesiologists, and three individuals. Your Committee received comments on this measure from the University of Hawai'i System, Hawai'i State Center for Nursing, Hawaii Association for Justice, Hawai'i Pacific Health, Hawai'i – American Nurses Association, Grassroot Institute of Hawaii, American Association of Nurse Practitioners, and Hawai'i Association of Professional Nurses.

Your Committee finds that there is a shortage of health care service providers in the State, particularly in rural and underserved communities. A 2021 report from the Hawai'i State Center for Nursing estimated that more than three hundred nurses are needed throughout the State to meet the demand for care. To address the shortage of nurses in the State, this measure would adopt the Advanced Practice Registered Nurse Compact to encourage recruitment of advanced practice registered nurses to the State. In addition, your Committee notes the number of concerns raised in testimony submitted to your Committee regarding scope of practice under the Compact and licensure and regulation standards, including a requirement for postgraduate practice hours. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that:
  - (A) Establishes a working group to study the feasibility and effects of the State adopting the Advanced Practice Registered Nurse Compact;
  - (B) Designates the membership composition of the working group; and
  - (C) Requires the working group to submit a report to the Legislature;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 321, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 529 Health and Human Services on S.B. No. 1340**

The purpose and intent of this measure is to:

- (1) Increase the number of competent personnel available to support public school students by expanding the exemption from the behavior analyst licensing requirements for teachers working in collaboration with a licensed behavior analyst or licensed psychologist; and
- (2) Remove the exemption from the behavior analyst licensing requirements for direct support workers and allow a registered behavior technician who is under the direction of a licensed psychologist to implement applied behavioral analysis services.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Education, State Council on Developmental Disabilities, Hawaii State Teachers Association, and Special Education Advisory Council. Your Committee received comments on this measure from the Hawai'i Association for Behavior Analysis, Hawaii Disability Rights Center, and Together For Our Keiki.

Your Committee finds that the Department of Education is finding it increasingly difficult to attract and retain qualified licensed behavior analysts for the public school system. A large portion of the applied behavioral analysis services provided must be contracted through a statewide contract at a high cost. A cost-effective option to meet this shortage of behavior analysts would be to utilize qualified and competent personnel who may be able to implement, but not design, applied behavioral analysis services in direct collaboration with a licensed behavior analyst or a licensed psychologist. This measure makes this solution possible, as appropriate interventions are part of a classroom teacher's duties and scope of practice.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1340, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 530 Health and Human Services on S.B. No. 451**

The purpose and intent of this measure is to:

- (1) Establish a cultivation facility license that allows cultivators to grow cannabis for sale only to licensed medical cannabis dispensaries;
- (2) Establish requirements for license applications and qualifications for applicants and licensees;
- (3) Limit the number of cannabis plants grown at each cultivation facility to one thousand;
- (4) Authorize the Department of Health to determine the number of cultivation licenses to be issued;
- (5) Allow one cultivation license to be issued per tax map key number;
- (6) Allow cultivation facilities to be established on lands zoned for certain uses;
- (7) Require the Office of Medical and Cannabis Control and Regulation to administer the licensure and regulation of cultivation facilities;
- (8) Establish requirements for cultivation facility operations, including plant tracking and testing;
- (9) Establish penalties for violations related to the unauthorized access of cultivation facilities and diversion of product;
- (10) Require the Department of Health to disclose certain information regarding cultivation facilities upon request of law enforcement; and
- (11) Subject cultivation facilities to certain inspections, audits, and reporting requirements.

Your Committee received testimony in support of this measure from Maui Wellness Group, LLC, dba Maui Grown Therapies, and Aloha Green Holdings Inc. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, State Procurement Office, and one individual.

Your Committee finds that currently, only medical cannabis dispensary license holders may legally cultivate and sell medical cannabis in retail locations. Your Committee further finds that allowing residents, farmers, and families to grow cannabis for retail would provide a positive social and economic impact across the State and creates better access to safe, regulated products for qualified patients. This measure creates a cultivation license that allows cultivators to grow cannabis for sale to licensed dispensaries.

Your Committee acknowledges the testimony of the Department of the Attorney General, which proposed amendments to clarify that cultivation facilities shall not manufacture, produce, purchase, or sell manufactured cannabis products. Your Committee further notes the request by the State Procurement Office to subject procurement of the computer software tracking system for dispensaries and cultivation facilities to the Hawaii Public Procurement Code. Your Committee has also heard the concerns raised by the Department of Health regarding the lack of rules governing the security and record keeping by for licensed cultivation facilities.

Accordingly, your Committee has amended this measure by:

- (1) Making amendments throughout the measure to clarify that licensed cultivation facilities shall not manufacture, produce, purchase, or sell manufactured cannabis products;
- (2) Repealing language that exempts the procurement of the computer software tracking system for dispensaries and cultivation facilities from the Hawaii Public Procurement Code under certain conditions;
- (3) Requiring the Department of Health to adopt rules governing licensed cultivation facilities, including rules that address security and record keeping requirements analogous the rules for dispensary facilities; provided that the rules for licensed cultivation facilities shall be tailored to purchasers of licensed cultivation facilities, which are limited to licensed dispensaries;

- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 451, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 531 (Joint) Health and Human Services and Transportation and Culture and the Arts on S.B. No. 465**

The purpose and intent of this measure is to authorize qualifying patients and qualifying out-of-state patients to transport cannabis between islands of the State for personal medical use.

Your Committees received testimony in support of this measure from the Drug Policy Forum of Hawai'i, Inc.; Aloha Green Holdings Inc.; Aloha Medical Consultants LLC dba Akamai Cannabis Consulting; CKL LLC dba Cannabis Society of Hawai'i; 808 Health LLC dba Hawaii Cannabis Industry Association; and ten individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Transportation, Department of Health, and Department of the Attorney General.

Your Committees find that restricting the interisland transportation of cannabis by patients for their personal medical use is contrary to the intent of existing laws that authorize qualifying patients to use cannabis for medical purposes. This measure protects the rights of qualifying patients and qualifying out-of-state patients to use medical cannabis by specifically authorizing the interisland transportation of cannabis, usable cannabis, or any manufactured cannabis product for the patient's personal medical use.

Your Committees acknowledge the concerns raised in testimony that interisland travel is subject to federal law enforcement policies of both the Transportation Security Administration and Federal Aviation Administration that prohibit transportation of cannabis and impose severe penalties on airlines and airline personnel who knowingly transport or allow the transportation of a certain amount of cannabis. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language providing that no individual or entity shall be required to violate federal law;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 465, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 465, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair and President on behalf of the Committees.  
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).  
Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 532 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 65**

The purpose and intent of this measure is to:

- (1) Incorporate a regenerative framework into the State Planning Act by expanding objectives and policies for the visitor industry; and
- (2) Require an update to the State Tourism Functional Plan to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawai'i Tourism Authority, Environmental Caucus of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Maui Hotel and Lodging Association.

Your Committees find that the ethic of malama, or care and stewardship, is the core of the Hawaii Tourism Authority's visitor education and destination management efforts. Your Committees believe that regenerative tourism builds upon the malama ethic. This measure will balance the economics of tourism with the wellbeing of the State's communities and natural resources by incorporating a regenerative framework into the State Planning Act and requiring the Governor to update the State Tourism Functional Plan to be submitted to the Legislature.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 65 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).  
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

**SCRep. 533 Energy, Economic Development, and Tourism on S.B. No. 1482**

The purpose and intent of this measure is to establish and appropriate funds to the Aerospace Development Office within the Hawaii Technology Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Bushtex, Inc.; HNu Photonics, LLC; and one individual. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that Hawaii's strategic near-equatorial location, substantial telemetry, space surveillance, Moon- and Mars-like terrain, resident expertise in a broad range of aerospace-related technologies, and long-standing ties with space-faring nations throughout the Asia-Pacific region are strategic assets and capabilities that can be leveraged to help realize humankind's full potential in space, and in doing so establish the State as a major contributor to and beneficiary of global space enterprise. Your Committee believes that establishing the Hawaii Office of Aerospace Development will provide a focal point within state government to facilitate dialogue and coordination among Hawaii's public, private, and academic sectors, and between state-based entities and public and private overseas organizations to promote the growth and diversification of Hawaii's aerospace industry. This measure will allow the State to more efficiently direct its resources in the field of aerospace by establishing the Aerospace Development Office within the Hawaii Technology Development Corporation and making an appropriation to further its purpose.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1482 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 534 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 580**

The purpose and intent of this measure is to transfer the Office of Planning and Sustainable Development from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from The Outdoor Circle. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Land Use Commission, and Department of Agriculture.

Your Committees find that the protection of natural and cultural resources is one of the priority objectives and goals of the Hawaii State Plan that the Office of Planning and Sustainable Development supports. Your Committees believe that the Office of Planning and Sustainable Development will be able to accomplish this objective more effectively if placed within the Department of Land and Natural Resources instead of the Department of Business, Economic Development, and Tourism. Accordingly, this measure will improve government efficiency by transferring the Office of Planning and Sustainable Development from the Department of Business, Economic Development, and Tourism to the Department of Land and Natural Resources.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 580, S.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).  
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

**SCRep. 535 Energy, Economic Development, and Tourism on S.B. No. 459**

The purpose and intent of this measure is to appropriate funds from the Hydrogen Fueling System Subaccount within the Public Utilities Commission Special Fund for the Zero-Emission Vehicle Fueling System Rebate Program.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Servco Pacific, Inc.

Your Committee finds that the demand for alternative forms of refueling vehicles will continue to grow to meet the State's renewable energy goals. However, a significant barrier to the adoption of zero-emission vehicles is access to fueling stations. The Zero Emission Vehicle Fueling System Rebate Program was established in 2022 and requires a direct appropriation for the Public Utilities Commission to expend the barrel tax funds deposited into the Hydrogen Fueling System Subaccount. This measure is accordingly necessary to implement the Rebate Program and further promote the delivery of clean hydrogen to help the State meet its renewable energy goals.

Your Committee has amended this measure by deleting the appropriation of \$1,000,000 and inserting a blank amount.

Should your Committees on Ways and Means and Commerce and Consumer Protection choose to deliberate on this measure, your Committee respectfully requests that they consider inserting an appropriation amount of \$1,000,000.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 459, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 536 Energy, Economic Development, and Tourism on S.B. No. 691**

The purpose and intent of this measure is to:

- (1) Authorize the Chief Energy Officer of the Hawaii State Energy Office, instead of the Director of Business, Economic Development, and Tourism, to adopt rules to enforce minimum efficiency standards for certain products and adopt or amend minimum efficiency standards in certain situations; and
- (2) Regulate the minimum efficiency standards for air purifiers, electric vehicle supply equipment, portable electric spas, residential ventilating fans, toilets, urinals, and water coolers.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply, Blue Planet Foundation, Hawai'i Energy, Appliance Standards Awareness Project, Climate Protectors Hawaii, and Ulupono Initiative. Your Committee received testimony in opposition to this measure from the Association of Home Appliance Manufacturers. Your Committee received comments on this measure from the Hawaii State Energy Office and Home Ventilating Institute.

Your Committee finds that numerous states have adopted robust state energy and water efficiency standards to conserve and protect water resources, lower electricity bills for residents and businesses by millions of dollars annually, and reduce air pollutants and greenhouse gas emissions. Your Committee believes that expanding the list of products requiring minimum efficiency standards can help Hawaii save millions of dollars on utility bills and offer even more benefits for Hawaii residents, businesses, the environment, and the economy as a whole.

This measure will establish minimum efficiency standards for any gaps left in federal standards to prevent manufacturers from sending appliances that do not comply with other states' standards to Hawaii to protect the State's resources and lower energy costs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 691, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 691, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 537 Energy, Economic Development, and Tourism on S.B. No. 839**

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to establish reliability standards and interconnection requirements for certain renewable energy projects; provided that any costs for changes in reliability standards or interconnection requirements shall not be the responsibility of the interconnection customer after the interconnection customer's power purchase agreement has been approved by the Public Utilities Commission;
- (2) Require the Public Utilities Commission to establish:
  - (A) The distinction between interconnection facilities and utility network upgrades;
  - (B) That the cost of interconnection facilities shall be the responsibility of the interconnection customer; and
  - (C) That the cost of utility network upgrades shall be the sole responsibility of the transmission provider;
- (3) Establish a timeline and requirements for interconnection procedures to be established by the Public Utilities Commission for certain utility-scale renewable energy projects;
- (4) Require implementation of the Hawaii Electricity Reliability Administrator Law; and
- (5) Require the Public Utilities Commission to submit a report and assessment of the Hawaii Electric Reliability Administrator to the Legislature.

Your Committee received testimony in support of this measure from Hawaii Clean Power Alliance and one individual. Your Committee received testimony in opposition to this measure from the Hawaiian Electric Company, Inc.; Kaua'i Island Utility Cooperative; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaii Solar Energy Association, and Ulupono Initiative.

Your Committee finds that intention and urgency is needed to meet the State's ambitious renewable energy goals, bring financial relief to ratepayers, and reduce carbon emissions. Your Committee believes that establishing grid reliability standards, regulating the timely and transparent interconnection of utility-scale renewable energy projects, and distinguishing the cost responsibilities between interconnection facilities and utility network upgrades will help to achieve the State's renewable portfolio standards and decrease electricity rates for consumers. This measure will support the State's progress toward one hundred percent renewable energy and streamline the process to more quickly bring renewable energy generation facilities online.

Noting the testimony of the Public Utilities Commission, your Committee has amended this measure by:

- (1) Establishing the Hawaii Electricity Reliability Surcharge Special Fund and affiliated subaccount;
- (2) Deleting language that would have provided that any costs for changes in reliability standards or interconnection requirements shall not be the responsibility of the interconnection customer after the interconnection customer's power purchase agreement has been approved by the Public Utilities Commission;

- (3) Inserting language authorizing the Public Utilities Commission to determine the responsible party to bear any costs associated with any reliability standards or interconnection requirements;
- (4) Requiring the Hawaii electricity reliability administrator surcharge be established before the Public Utilities Commission is required to contract for a Hawaii electricity reliability administrator;
- (5) Imposing a Hawaii electricity reliability administrator surcharge on Hawaiian Electric customer bills to cover the complete cost of the Hawaii Electricity Reliability Administrator to be deposited into the subaccount;
- (6) Inserting an appropriation of \$100,000 to be deposited into the Hawaii electricity reliability surcharge special fund;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 839, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 839, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 538 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 1247**

The purpose and intent of this measure is to require the Hawaii State Energy Office to enter into a public-private partnership to develop a waste-to-energy generating facility on land under the jurisdiction of the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the International Brotherhood of Electrical Workers Local Union 1186, Iron Workers Stabilization Fund, and two individuals. Your Committees received testimony in opposition to this measure from Zero Waste O'ahu, Zero Waste Hawai'i Island, Our Revolution Hawaii, SanHi Government Strategies, Environmental Caucus of the Democratic Party of Hawai'i, Climate Protectors Hawaii, Surfrider Foundation, 350Hawaii, Sustainable Coastlines Hawaii, and seven individuals. Your Committees received comments on this measure from the Department of Public Safety; Hawaii State Energy Office; Department of Land and Natural Resources; Department of Environmental Services for the City and County of Honolulu; and Hawaiian Electric Company, Inc.

Your Committees find that using waste-to-energy technology is a promising strategy for reducing the State's solid waste stream. Nationally, there are seventy-six waste-to-energy facilities that process up to ninety-four thousand tons of solid waste per day and produce enough energy each day to power the equivalent of 2,300,000 homes. Your Committees believe that a waste-to-energy facility would help the State meet its goal of reducing the solid waste stream. This measure will help relieve the need for landfill space while also providing much needed alternative sources of energy.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the Hawaii State Energy Office to develop the waste-to-energy generating facility on land under the jurisdiction of the Department of Land and Natural Resources;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1247, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1247, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Energy, Economic Development, and Tourism: Ayes, 3; Ayes with Reservations (Wakai). Noes, none. Excused, 2 (Fukunaga, Fevella).  
Water and Land: Ayes, 3; Ayes with Reservations (Elefante, McKelvey). Noes, none. Excused, 2 (Chang, Fevella).

**SCRep. 539 Energy, Economic Development, and Tourism on S.B. No. 1297**

The purpose and intent of this measure is to promote economic recovery and diversification by:

- (1) Establishing state goals for economic growth fueled by innovation and technology;
- (2) Appropriating funds to the Hawaii Technology Development Corporation to implement specific projects that address these goals; and
- (3) Requiring the Hawaii Technology Development Corporation to submit annual reports to the Legislature that summarize:
  - (A) The progress of projects assigned to the Hawaii Technology Development Corporation;
  - (B) The outcomes of the projects assigned to the Hawaii Technology Development Corporation including an assessment of each project's effectiveness in achieving state goals; and
  - (C) Any other findings and recommendations, including any proposed legislation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Technology Development Corporation.

Your Committee finds that, in light of the State's ongoing economic recovery from the coronavirus disease 2019 pandemic, the State must accelerate its economic diversification efforts through substantial, strategic, and coordinated investments. Your Committee believes that the Hawaii Technology Development Corporation should serve as a facilitative catalyst for innovation in the State. This measure will further align the State with the emerging knowledge-based, zero-emission, and digital global economy while putting Hawaii on the path toward economic prosperity.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the purpose of the appropriation made out of the strategic development programs revolving fund shall include administrative support of the state small business credit initiative;
- (2) Increasing the appropriation for projects that address economic diversification from \$10,000,000 to \$11,000,000 and clarifying that:
  - (A) \$2,000,000 shall be used to accelerate economic diversification by supporting and enhancing existing accelerator grant programs and encouraging new accelerator programs;
  - (B) \$2,000,000 shall be used to support economic development opportunities with the trade sector, especially for products manufactured in Hawaii, by working with strategic partners to build awareness of Hawaii-made products outside of the State;
  - (C) \$2,000,000 shall be for operations, administration, and awarding of grants by the Hawaii Small Business Innovation Research Program;
  - (D) \$2,000,000 shall be to support economic development opportunities with the defense sector including aerospace and supporting companies conducting small business innovation research to transition past grants into large contracts;
  - (E) \$1,500,000 shall be for operations, administration, and awarding of grants by the Manufacturing Assistance Program; and
  - (F) \$1,500,000 shall be to reduce and mitigate climate change through renewable energy technology demonstration projects such as hydrogen, geothermal, or clean ground, air, and sea transportation in support of Hawaii's Hydrogen Hub Proposal to the United States Department of Energy;
- (3) Inserting language establishing a two—year Hawaii Office of Naval Research Grant Program to provide grants to qualified businesses conducting research and development in alternative energy;
- (4) Inserting language establishing the Alternative Energy Research and Development Revolving Fund and inserting a blank appropriation amount for the fund;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1297, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 540 Labor and Technology on S.B. No. 1385**

The purpose and intent of this measure is to remove the exclusion of employees who are guaranteed a monthly compensation of \$2,000 or more from the definition of "employee" for purposes of the Wage and Hour Law.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Labor and Industrial Relations, Rainbow Family 808.com Inc., International Alliance of Theatrical Stage Employees Local 665, Labor Caucus of the Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, Hawai'i Appleseed Center for Law and Economic Justice, Hawai'i State AFL-CIO, Imua Alliance, and eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that this administration measure is meant to increase the amount of employees and employers covered under chapter 387, Hawaii Revised Statutes, relating to Hawaii's Wage and Hour Law, and thereby promote the health, efficiency, and well-being of Hawaii's workforce. Your Committee further finds that this measure will provide workers who are guaranteed compensation totaling \$2,000 or more a month with the protection afforded by the minimum wage rates, overtime rates, and employer recordkeeping requirements in chapter 387, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1385, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Lee).

**SCRep. 541 Labor and Technology on S.B. No. 1312**

The purpose and intent of this measure is to clarify the conditions under which service-connected disability and accidental death benefits are provided to members of the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Employees' Retirement System and one individual.

Your Committee finds that the purpose of the State's service-connected disability retirement and accidental death provisions is to provide a unique set of benefits to compensate members in hazardous occupations who have incurred certain permanent injuries while in the performance of their duties, accidental death in the performance of their duties, and for the cumulative impact of exposure to occupational hazards. However, recent court rulings have awarded service-connected disability retirement and accidental death provisions in a similar manner as service retirement, ordinary disability retirement, ordinary death benefits, workers' compensation, and social security disability benefits. Not only is this interpretation of the State's service-connected disability retirement and accidental death provisions beyond the Legislature's intent, but the awards under this interpretation are increasing the unfunded liabilities of the State. Your Committee further finds that this measure will not affect the current provision of service-connected disability retirement and accidental death benefits to existing members of the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1312, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Lee).

**SCRep. 542 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on S.B. No. 696**

The purpose and intent of this measure is to:

- (1) Authorize the wages of other employees in comparable employment to be considered when computing the average weekly wages of an injured public board member, reserve police officer, police chaplain, sheriffs' chaplain, volunteer firefighter, volunteer boating enforcement officer, or volunteer conservation and resources enforcement officer; and
- (2) Clarify the computation of average weekly wages of an injured volunteer firefighter to determine their workers' compensation benefits.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations and two individuals.

Your Committees find that currently, the wages of other employees are not considered when calculating workers compensation benefits for injured public board members, reserve police officers, police chaplains, sheriffs' chaplains, volunteer firefighters, volunteer boating enforcement officers, and volunteer conservation and resources enforcement officers. Your Committees also find that the work performed by these volunteers is both vital and potentially dangerous. This measure will afford those unpaid individuals with sufficient coverage under workers' compensation laws should they sustain injuries in the line of duty.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 696, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 696, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).  
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 543 Health and Human Services on S.B. No. 1474**

The purpose and intent of this measure is to appropriate funds for the achievement of full funding, including estimated payment increases, of Medicaid Home- and Community-Based Services.

Your Committee received testimony in support of this measure from the Executive Office on Aging. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Medicaid Home- and Community-Based Services support low income kupuna and individuals with disabilities who need assistance with activities of daily living such as getting dressed and bathing, preparing and eating meals, and tending to chores in the home. Recipients of Medicaid Home- and Community-Based Services are able to remain in their home and

community. However, Medicaid Home- and Community-Based Services direct care workers are often paid extremely low wages and have few opportunities for training and career advancement, leading to high turnover, worker shortages, and limited availability for service providers. This measure appropriates funds for the achievement of full funding, including estimated payment increases, of Medicaid Home- and Community-Based Services to ensure that kupuna and individuals with disabilities continue to receive services while also supporting direct care workers who provide valuable community services.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$30,210,000 for the achievement of full funding, including estimated payment increases, of Medicaid Home- and Community-Based Services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1474, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 544 Health and Human Services on S.B. No. 1351**

The purpose and intent of this measure is to:

- (1) Establish the Infant and Early Childhood Mental Health Program within the Department of Health to provide and coordinate mental health services for children from birth to age five;
- (2) Develop and implement flexible strategies for the delivery of services and workforce training; and
- (3) Promote better understanding of the needs of infants and young children, the importance of positive early relationships, and the benefits of trauma-informed care.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Health, Department of Human Services, Executive Office on Early Learning, Office of Wellness and Resilience, Early Learning Board, Hawai'i Community Foundation, Commit to Keiki, Early Childhood Action Strategy, Catholic Charities Hawai'i, Promising Minds, Domestic Violence Action Center, Hawai'i Children's Action Network Speaks!, Hawaii Catholic Conference, Parents and Children Together, Hawai'i Early Childhood Educator Excellence and Equity Project, and five individuals. Your Committee received comments on this measure from the Judiciary, Association for Infant Mental Health in Hawai'i, and one individual.

Your Committee finds that approximately 29,000 keiki from birth to age five in Hawaii have mental health needs due to biological or developmental special needs at birth, exposure to intimate partner violence, parental substance abuse, housing insecurity, and poverty. Because these needs are often untreated, these children are more likely to be expelled or suspended from preschool, be ill-prepared for kindergarten, and require special education services. Later in life, some of these children may be involved with the juvenile and adult justice systems and be at higher risk for self-harm and suicide due to depression and anxiety.

Further, your Committee finds that Hawaii does not have enough mental health professionals to address community needs, much less the specialized skills necessary for infant and early childhood mental health. As a result, establishing the Infant and Early Childhood Mental Health Program within the Department of Health will provide the leadership and coordination to improve accessibility, capacity, and quality of infant and early childhood mental health services and address the numerous unmet needs of keiki and families in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1351, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 545 Health and Human Services on S.B. No. 1594**

The purpose and intent of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Program within the Department of Health to divert those with mental health issues to appropriate health care services;
- (2) Define "crisis center" and "crisis intervention officer";
- (3) Authorize a person believed to be imminently dangerous to self or others by a law enforcement officer to be assisted by a crisis intervention officer and transported to a designated crisis center; and
- (4) Appropriate funds for the Crisis Intervention Team Program and for each county to certify law enforcement officers in mental health first aid, as disseminated by the National Council for Mental Wellbeing, and the crisis intervention team model, as developed by Crisis Intervention Team International.

Your Committee received testimony in support of this measure from the Department of Health; Honolulu Police Department; Hawaii Disability Rights Center; Institute for Human Services, Inc.; and Partners in Care.

Your Committee finds that thousands of people in Hawaii are cited or arrested for offenses such as drinking liquor in public, loitering in public parks after hours, and camping on sidewalks, beaches, and other restricted public places each year. Most of these people suffer from issues relating to drugs, alcohol, or mental illness. Many of those cited do not appear in court, leading to bench warrants being issued for their arrests. Time and resources are expended bringing people to court, and the court system, prosecutors, and police are caught in a never-ending revolving door situation. Mental health service providers have been working with law enforcement agencies and the criminal justice system to implement a crisis intervention program on Oahu. This measure establishes a Crisis Intervention and Diversion Program within the Department of Health to divert people in crisis from the criminal justice system to the health care system and appropriates funds to support crisis intervention efforts.

Your Committee notes that the Department of Health originally submitted testimony asking your Committee to defer this measure in favor of a different legislative vehicle. However, the Department of Health has revised its testimony to be in support of this measure, and submits requested amendments. Your Committee respectfully requests that your Committee on Ways and Means consider the Department of Health's proposed amendments, should it choose to deliberate on this measure.

Your Committee has amended this measure by:

- (1) Inserting the Department of Health as the agency responsible for certifying crisis intervention officers; and
- (2) Clarifying that the Department of Health, rather than the Department of Law Enforcement, shall be the expending agency for the appropriation made by this measure to fund the certification of law enforcement officers.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1594, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 546 Health and Human Services on S.B. No. 1473**

The purpose and intent of this measure is to:

- (1) Require the Department of Health and Department of Human Services to develop and adopt rules, policies, and plan amendments necessary to ensure that the state Medicaid program covers medically—needed services, including applied behavior analysis services, for individuals aged twenty—one and older with neurodevelopmental disorders, including autism spectrum disorder; and
- (2) Require the Department of Health and Department of Human Services to apply for any necessary approvals from the Centers for Medicare and Medicaid Services to amend the state Medicaid plan to provide reimbursements for medically—needed services, including applied behavior analysis services, for individuals aged twenty—one and older with neurodevelopmental disorders, including autism spectrum disorder.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Disability Rights Center, Hawai'i Association for Behavioral Analysis, and three individuals. Your Committee received comments on this measure from the Department of Health and Department of Human Services.

Your Committee finds that the State currently has a “gap group” of individuals with intellectual or developmental disabilities who do not qualify for services under the Developmental Disabilities Division and are above the age of twenty-one. If these individuals with intellectual or developmental disabilities only have Med-Quest coverage they are unable to receive needed behavioral analysis services. This measure will ensure that individuals over the age of twenty-one will be able to access medically necessary services.

Your Committee notes the concerns raised by the Department of Human Services that the broad nature of the expansion of services for those with “neurodevelopmental disorders” will likely require a large appropriation. In the event the Department of Human Services prepares a State Plan Amendment and the Centers for Medicare and Medicaid Services approves it, without a general fund appropriation, those services will have to be provided, and other existing services will have to be reduced or limited to pay for the added services. Should your Committees on Commerce and Consumer Protection and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it determine the fiscal impact of this measure and that any appropriation is allocated before implementing changes to rules or the Medicaid State Plan.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the term “medically-needed” to “medically necessary” throughout; and
- (2) Inserting language appropriating an unspecified amount of funds to the Department of Human Services to implement this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1473, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 547 Health and Human Services on S.B. No. 1016**

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2024, require the Chief Executive Officer of the Hawaii Health Systems Corporation or the Chief Executive Officer's designee to provide written comments to the Governor before the State enters into any new agreement with a private entity or modifies or terminates any existing agreement to transfer the right and responsibility to manage, operate, and otherwise provide health care services at one or more facilities of the Maui Regional System; and
- (2) Expand the definition of "private entity" to include business organizations that are authorized to transact business in the State, including nonprofit management entities that have a certificate of need or license to operate one or more community hospitals or hospitals serving a rural population licensed under the laws of any state.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawai'i Health Systems Corporation.

Your Committee finds that the Hawaii Health Systems Corporation has faced considerable financial challenges over the years, which pose a risk to the public health care services provided in the State. To strengthen the viability of the public hospital system operated by the Hawaii Health Systems Corporation on the island of Maui, the Legislature passed Act 103, Session Laws of Hawaii 2015 (Act 103), codified at part IV of chapter 323F, Hawaii Revised Statutes, to allow for the transfer of the operations and management of the Maui Regional System facilities from the Hawaii Health Systems Corporation to one or more private entities or their nonprofit management entities. Since Act 103 required these private entities to be hospitals licensed in the State, the options were extremely limited. Ultimately, on January 14, 2016, Maui Health System, A Kaiser Foundation Hospitals LLC, entered into a transfer agreement with the State of Hawaii and other entities. Your Committee finds, however, that certain representations made by Maui Health System to the Hawaii Health Systems Corporation and the Maui Regional System board were not conveyed to the Governor during the negotiation process and therefore not reflected in the transfer agreement. This measure expands the choice of private entities to which the Hawaii Health Systems Corporation may transfer its Maui Regional System facilities and ensures that any representations made by the chosen private entity to the Hawaii Health Systems Corporation is conveyed to the Governor during the negotiation process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 548 Health and Human Services on S.B. No. 753**

The purpose and intent of this measure is to:

- (1) Require a retail establishment with an employee toilet facility to allow a customer suffering from an eligible medical condition to use that restroom during normal business hours under certain conditions;
- (2) Exempt retail establishments and employees from civil liability in allowing an eligible customer to use an employee toilet facility in certain circumstances; and
- (3) Establish fines for retail establishments and employees of retail establishments who violate the requirement.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission and four individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Hawaii Association for Justice.

Your Committee finds that individuals with certain medical conditions, including Crohn's disease and inflammatory bowel disease, may experience urgent restroom needs. This is especially problematic while the individual is in a retail location where there are no public restrooms. A model law entitled Ally's law, requires retail establishments to allow patrons access to employees-only bathrooms if the patron has a legitimate medical condition and urgent need. This measure adopts Ally's law in Hawaii. Your Committee notes this measure represents a good starting point warranting additional consideration. Accordingly, your Committee acknowledges the importance of this measure and urges its supporters to consider requesting a resolution encouraging further development of this legislation.

Your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 753, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 549 Health and Human Services on S.B. No. 164**

The purpose and intent of this measure is to appropriate funds for the Hawaii State Loan Repayment Program for health care professionals, provided that the funds are matched on a dollar-for-dollar basis by funds from a private or another public source.

Your Committee received testimony in support of this measure from the Department of Health, Department of Labor and Industrial Relations, John A. Burns School of Medicine of the University of Hawai'i at Mānoa, Hawai'i State Center for Nursing, Kaiser Permanente Hawai'i, Hawai'i-American Nurses Association, Hawaii Substance Abuse Coalition, Hawai'i Primary Care Association, Hawaii Medical Association, Hawai'i Pacific Health, Healthcare Association of Hawaii, and one individual.

Your Committee finds that Hawaii faces a critical need for recruitment and retention of physicians to serve in rural and medically underserved areas of the State. Your Committee also finds that the increasingly high cost of education for health care professionals drive graduates to practice in highly specialized fields of care in urban areas, where they are given sufficient income to repay costly student loans. This has resulted in less health care professionals in rural areas of the State, where the need for their service is vital. Additionally, since 2012, the Hawaii State Loan Repayment Program administered by the John A. Burns School of Medicine has successfully provided loan repayments to seventy-six individuals, in exchange for work commitments in underserved geographic practice areas in Hawaii. Eighty percent of the seventy-six individuals remained in Hawaii, while sixty-one percent remained at the site where they performed their service. Therefore, this measure aims to appropriate funds to the Department of Health to fund the Hawaii State Loan Repayment Program for the continuation of financial incentives to health care professionals working in health care shortage areas of the State.

Your Committee has amended this measure by:

- (1) Inserting "branch" to the loan program name, to read "National Health Service Corps Branch Loan Repayment Program"; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 164, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 550 Health and Human Services on S.B. No. 1280**

The purpose and intent of this measure is to increase and stabilize the amount of funding for the Tobacco Enforcement Special Fund within the Department of the Attorney General by:

- (1) Increasing the amount of funds that the Tobacco Enforcement Special Fund can carry over at the end of the fiscal year;
- (2) Increasing the cigarette tax stamp fee and by concurrently increasing the percentage of the cigarette tax stamp fee deposited to the Tobacco Enforcement Special Fund; and
- (3) Amending the amount of funds to be deposited in the Tobacco Enforcement Special Fund from the Hawai'i Tobacco Settlement Special Fund.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Health, Department of the Attorney General, Hawai'i Public Health Institute, Hawaii Primary Care Association, and American Cancer Society Cancer Action Network. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and four individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that section 28-15, Hawaii Revised Statutes, established the Tobacco Enforcement Special Fund within the Department of the Attorney General and mandated its use by the Department of the Attorney General for administering, monitoring, and enforcing the Master Settlement Agreement and related laws, including chapters 486P and 675, Hawaii Revised Statutes. Your Committee also finds that the Tobacco Enforcement Unit is also specifically tasked with enforcing the cigarette tax stamp program pursuant to chapter 245, Hawaii Revised Statutes, and any other statutes or programs relating to that chapter.

Currently, the Tobacco Enforcement Unit receives \$350,000 from the annual Master Settlement Agreement payment, but most of the Tobacco Enforcement Unit's funding is derived from the cigarette tax. This measure would stabilize funding for the Unit in anticipation of future reductions in cigarette tax revenues, there by allowing the Unit to maintain the resources necessary for diligent enforcement and arbitration preparation.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1280 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 551 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 1589**

The purpose and intent of this measure is to establish a Hawaii Hemp Task Force to inform public policy and identify methods and actions to best support Hawaii agriculture and build a hemp industry to support rural economic development.

Your Committees received testimony in support of this measure from the Department of Health, Department of Agriculture, Hawai'i Hemp Farmers Association, and six individuals. Your Committees received comments on this measure from Office of Information Practices and one individual.

Your Committees find that the hemp industry in Hawaii has quickly evolved in the last four years and greater communication and sharing of data between the State and hemp farmers and industry members can significantly benefit the industry. Your Committees further find that a Hawaii Hemp Task Force can save agencies time and resources by identifying data that will facilitate the implementation of supportive agricultural policy that protects consumers and the environment; create more viable opportunities for Hawaii farmers through policy that recognizes the unique needs of farming in Hawaii; support greater food security by identifying the paths forward for substantial hemp seed production; and create rural economic development opportunities by identifying infrastructure and next steps forward to support a vibrant hemp industry across all sectors, fiber, fuel, CBD, and food. This measure establishes a Hawaii Hemp Task Force to facilitate collaboration between invested actors and benefit the hemp industry and thus, the State.

Your Committees acknowledge the testimony of Hawaii Sustainable Farms, which recommends amending the language in section 141-42(f), Hawaii Revised Statutes, as proposed in this measure, to include a representative from the microgreen sector on the Hawaii Hemp Task Force. Your Committees find that this issue merits further consideration and requests that your Committee on Ways and Means considers this testimony and incorporate any changes it deems necessary.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1589 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 552 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 1547**

The purpose and intent of this measure is to:

- (1) Establish a food and product innovation network within the Agribusiness Development Corporation; and
- (2) Appropriate funds for food and product innovation facilities on the islands of Molokai and Oahu.

Your Committees received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, University of Hawai'i Community Colleges, Ulupono Initiative, Hawai'i Farm Bureau, and one individual. Your Committees received testimony in opposition of this measure from one individual.

Your Committees find that the State is determined to enhance food security and establish a self-reliant agricultural sector in Hawaii. However, farmers, ranchers, and food product producers in the State require significant investment to serve as a catalyst that will set the industry on a path towards self-sufficiency. Thus, this measure establishes a food and production innovation network within the Agribusiness Development Corporation and appropriates funds for food and product innovation facilities on the islands of Molokai and Oahu.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1547 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

**SCRep. 553 Agriculture and Environment on S.B. No. 1272**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a program specialist position within the Department of Agriculture for grant writing, technical assistance, and related activities; and
- (2) Prioritize assistance for farmers and ranchers who produce local food that is at least partially consumed within the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Kanalani Ohana Farm; Ulupono Initiative; Food+ Policy Internship 2023; and one individual.

Your Committee finds that farmers and ranchers in the State are in need of financial resource and skill support to increase food production in Hawaii. Your Committee further finds that many federal programs are dedicated to state departments or agencies that can apply for funding to support local initiatives. Establishing a position at the Department of Agriculture that will prioritize grant opportunities is extremely timely, not only to meet the needs of local farmers and ranchers, but also to make the most of the funding opportunities made available by the federal government. This measure funds and establishes a position within the Department of Agriculture to assist ranchers and farmers in securing funding through available grants to ensure access to capital for operations to succeed.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 554 (Joint/Majority) Water and Land and Transportation and Culture and the Arts on S.B. No. 1191**

The purpose and intent of this measure is to appropriate funds for statewide planning and coordination for transit-oriented development projects identified in the state strategic plan for transit-oriented development.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawai'i State Energy Office, and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the promotion of mixed-use development and affordable housing within transit-oriented development areas in the State is one of the most viable means for stimulating economic development opportunities and addressing the need for affordable housing. The Hawaii Interagency Council for Transit-Oriented Development, co—chaired by the Director of the Office of Planning and Sustainable Development and Executive Director of the Hawaii Housing Finance and Development Corporation, has been instrumental in coordinating the preparation and subsequent implementation of the state strategic plan for transit—oriented development.

Your Committees further find that since 2016, following the establishment of the Hawaii Interagency Council for Transit-Oriented Development, the Legislature has appropriated capital improvement project funds for the Office of Planning and Sustainable Development to support planning of transit-oriented development projects on Oahu and the neighbor island counties. Your Committees find that each year, the request for funds for this purpose has exceeded the funds available. Therefore, this measure appropriates funds to maintain and enhance capacity to support planning of state and county transit-oriented development projects.

Your Committees have amended this measure by:

- (1) Inserting a blank amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1191, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1191, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 555 (Joint/Majority) Water and Land and Transportation and Culture and the Arts and Government Operations on S.B. No. 1535**

The purpose and intent of this measure is to allow the Director of Transportation to exempt certain ground transportation facility projects from historic preservation review, the environmental impact statement law, and the Hawaii Public Procurement Code under certain conditions.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, Bikeshare Hawaii, Hawai'i Bicycling League, and five individuals. Your Committees received testimony in opposition to this measure from the State Procurement Office, American Council of Engineering Companies of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Planning and Sustainable Development.

Your Committees find that reports have named Hawaii roads the most dangerous in the nation to pedestrians aged sixty—five and over. In 2022, there were one hundred seventeen traffic—related fatalities in the State, an increase from the ninety—five traffic—related fatalities that occurred within the State in 2014.

Your Committees further find that it currently takes the State five to seven years to make simple but urgent safety fixes to better protect people. Your Committees believe that the State should enable critical safety projects to be implemented faster, and at lower costs, to help save lives. Therefore, this measure increases traffic safety by allowing the Director of Transportation to exempt certain ground transportation facility projects from historic preservation review, the environmental impact statement law, and the Hawaii Public Procurement Code under certain conditions.

Your Committees have heard the testimony of the Department of Land and Natural Resources, requesting that additional conditions be met before any exemptions from chapter 6E, Hawaii Revised Statutes (HRS), are granted for certain ground transportation facilities projects.

Your Committees have also heard the testimony of the State Procurement Office, objecting to the proposed exemption from section 103D, HRS, for certain ground transportation facilities projects. The State Procurement Office testified that contracts to provide safe roads under this program should remain competitively procured.

Therefore, your Committees have amended this measure by:

- (1) Requiring that exemptions for certain ground transportation facilities projects from chapter 6E, HRS, only apply to projects within a previously disturbed area that does not require any excavation of the known soil disturbance greater than twenty-four inches below grade and that no exemption shall apply in historic districts and areas with a high probability for the presence of archaeological sites or burial sites;
- (2) Eliminating the exemption for certain ground transportation facilities projects from the Hawaii Public Procurement Code;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Transportation and Culture and the Arts, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1535, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1535, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs and President on behalf of the Committees.

Water and Land: Ayes, 3; Ayes with Reservations (Elefante). Noes, none. Excused, 2 (Chang, Fevella).

Transportation and Culture and the Arts: Ayes, 3; Ayes with Reservations (Elefante). Noes, 1 (Awa). Excused, 1 (Keohokalole).

Government Operations: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

**SCRep. 556 (Joint/Majority) Health and Human Services and Transportation and Culture and the Arts on S.B. No. 101**

The purpose and intent of this measure is to make an appropriation to the Department of Health to implement the recommendations of the statewide Mobility Management Task Force, established pursuant to Act 214, Session Laws of Hawaii 2013 (Act 214).

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, AARP Hawai'i, and one individual.

Your Committees find that Hawaii's residents, including kupuna and individuals with disabilities, should be able to live at home with the supports they need to participate in communities that value their contributions. To enable the State to make an informed decision on the best means by which this objective can be effectuated, the Legislature established the Mobility Management Task Force in 2013 to make recommendations on establishing a transportation framework to assist kupuna and individuals with disabilities with transportation needs in each county, including recommendations relating to funding through the state budget and program development. The task force's final report, submitted to the Legislature on January 30, 2015, recommended that the State continue to support the counties' efforts in developing their respective mobility management program by various means. This measure will allow those recommendations to be implemented and thereby promote the establishment of a comprehensive transportation system that offers efficient, safe, and affordable transportation options to the people of the State, allowing them to fully access the economic, health, and social aspects of their communities.

Your Committees acknowledge testimony of stakeholders that the Department of Transportation, rather than the Department of Health, is better suited to implement the recommendations made by the task force, and that implementation should be done in consultation with the Aging and Disability Resource Center of the Executive Office on Aging and other stakeholder groups. Therefore, amendments to this measure are necessary to reflect this advice.

Accordingly, your Committees have amended this measure by:

- (1) Amending the expending agency for the appropriated funds from the Department of Health to the Department of Transportation to implement the recommendations of the statewide Mobility Management Task Force in consultation with the Aging and Disability Resource Center of the Executive Office on Aging and other stakeholder groups;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Keohokalole).

**SCRep. 557 (Majority) Health and Human Services on S.B. No. 1371**

The purpose and intent of this measure is to:

- (1) Increase the marriage license fee from \$60 to \$100;
- (2) Increase the compensation for a marriage license agent from \$9 to \$15 per license;
- (3) Authorize deposits of marriage license fees into the Vital Statistics Improvement Special Fund; and
- (4) Redistribute the marriage license fee among various domestic violence prevention special funds.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the Domestic Violence Action Center.

Your Committee finds that the marriage license fee is collected from couples when the Department of Health or its agents issue a marriage license. Despite transacting a majority of marriage licenses, the Department of Health Office of Health Status Monitoring receives no portion of the fee. This measure authorizes the deposit of marriage license fees into the Vital Statistics Improvement Special Fund to allow for modernization, quality improvement, and customer satisfaction activities within the Office of Health Status Monitoring.

Your Committee notes that, per testimony submitted by the Department of Health, the marriage license fee required by this measure, as currently written, is relatively high in comparison to those of other states. However, the higher fee in this measure allows for

contributions into multiple domestic violence special funds that ultimately benefit the people of Hawaii. Should your Committees on Commerce and Consumer Protection and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that they further consider the amount of the marriage license fee.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1371, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

**SCRep. 558 (Joint) Health and Human Services and Transportation and Culture and the Arts on S.B. No. 384**

The purpose and intent of this measure is to:

- (1) Authorize each county to adopt ordinances to enforce the design, construction, and signage requirements of the federal Americans with Disabilities Act of 1990 (ADA), as amended; state law governing parking for persons with disabilities and any administrative rules adopted thereunder, including the establishment of penalties for failure to comply with the ordinance; and
- (2) Clarify that an official appointed by a county may enter private property to enforce violations of the ordinances adopted by the county.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, State Council on Developmental Disabilities, Hawaii Disability Rights Center, and two individuals.

Your Committees find that existing state law requires each public and private entity that provides a parking space reserved for persons with disabilities (disability parking spaces) to comply with laws governing parking for persons with disabilities and administrative rules adopted thereunder. Your Committees further find that administrative rules adopted by the Department of Transportation require disability parking spaces and access isles to have certain signage, be marked in a certain manner, and be in compliance with the ADA Guidelines with respect to the dimensions, location, and slope. Your Committees also find that although law enforcement officers and commissioned volunteer enforcement officers are statutorily permitted to access private property to enforce this law, it has not been enforced since taking effect on July 1, 2002. This measure will allow the counties to adopt ordinances to enforce these requirements through actions taken by county officials.

Your Committees acknowledge the concerns raised by the Disability and Communication Access Board that this measure, as written, may be construed to allow officials appointed by a county to enter parking spaces reserved for persons with disabilities at residential facilities and other buildings, facilities, and sites, that are not open to the general public, to enforce an ordinances adopted by a county pursuant to this measure. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that an official appointed by a county may enter property of places of public accommodation to enforce any applicable ordinances adopted pursuant to this section;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 384, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 384, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair and President on behalf of the Committees.  
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).  
Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 559 Higher Education on S.B. No. 155**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a Network Improvement Community Task Force to develop a kindergarten through grade twelve science, technology, engineering, and mathematics teacher education degree for the University of Hawaii and report to the Legislature;
- (2) Appropriate funds for one full-time equivalent (1.0 FTE) Science, Technology, Engineering, and Mathematics Entrepreneur-Resident position to assist the Task Force; and
- (3) Appropriate funds for the University of Hawaii Maui College's Office of International and Regional Partnerships for study abroad programs.

Your Committee received testimony in support of this measure from the University of Hawai'i System. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that there is a critical need for science, technology, engineering, and mathematics (STEM) teachers throughout the State. A STEM teacher education degree at the University of Hawaii would help the State recruit, prepare, and retain qualified kindergarten through grade twelve (K-12) STEM teachers, particularly in high-need areas. To address the State's STEM teacher shortage, this measure establishes a task force to build an infrastructure platform and administer a pilot program for the development of a K-12 STEM teacher education degree.

Your Committee further finds that studying abroad helps students develop foreign language skills and cross-cultural competence. However, studying abroad is financially inaccessible for some students, including for some enrolled at the University of Hawaii Maui College. To increase access to study abroad opportunities, this measure appropriates funds for the University of Hawaii Maui College's Office of International and Regional Partnerships to subsidize travel and tuition expenses for students to study abroad.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 155 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 560 (Joint) Higher Education and Agriculture and Environment on S.B. No. 1586**

The purpose and intent of this measure is to appropriate funds for the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources to establish five full-time equivalent (5.0 FTE) extension agent positions.

Your Committees received testimony in support of this measure from the University of Hawai'i System; Hawai'i Farm Bureau; Kualoa Ranch, Inc.; Hawaii Cattlemen's Council, Inc.; Hawaii Sustainable Beef Enterprises, LLC; Ulupono Initiative; University of Hawaii Professional Assembly; Hawaii Floriculture and Nursery Association; and eight individuals.

Your Committees find that the research, outreach, and education provided by the University of Hawaii College of Tropical Agriculture and Human Resources' Cooperative Extension is critical to the health and well-being of Hawaii's agricultural ranchers and growers. New diseases, pests, and changing environmental conditions brought on by climate change have increased the need for the Extension's services. Despite this increased demand, staffing shortages continue to limit the Extension's capacity. To increase the Extension's capacity to support local producers, this measure appropriates funds for five full-time equivalent (5.0 FTE) Extension Agent positions specializing in entomology, livestock, and farm and consumer food safety.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1586 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 561 (Joint) Higher Education and Labor and Technology on S.B. No. 1415**

The purpose and intent of this measure is to require the University of Hawaii to submit annual reports to the Legislature of all University employees who performed work from a location outside of the State during the applicable year.

Your Committees received testimony in support of this measure from Hawaii Stevedores, Inc. and sixty individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General and University of Hawai'i System.

Your Committees find that the University of Hawaii supports and allows the use of telework arrangements where appropriate for an employee and consistent with the University's strategic direction and vision, business operations, and resource limitations. While the University of Hawaii provides information relating to employees who work from outside of the State to the Legislature upon the Legislature's request, this information is not otherwise publicly accessible. To increase transparency and accountability concerning public and state employees, this measure requires the University of Hawaii to submit annual reports to the Legislature of all University employees who performed work from a location outside of the State for the applicable year.

Your Committees have amended this measure by:

- (1) Inserting language specifying that this measure addresses an issue of statewide concern; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1415, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1415, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 562 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 962**

The purpose and intent of this measure is to:

- (1) Amend the dispensary program licensing fee structure;

- (2) Add or clarify requirements for signage, manufactured cannabis products, packaging, escort, and background checks regarding the medical cannabis dispensary program;
- (3) Establish annual reporting requirements to increase public transparency regarding the medical cannabis registry program; and
- (4) Make various housekeeping amendments to chapter 329D, Hawaii Revised Statutes, regulating medical cannabis dispensaries.

Your Committees received testimony in support of this measure from Aloha Green Holdings Inc.; TCG Retro Market 1, LLC dba Cure Oahu; Aloha Medical Consultants, LLC dba Akamai Cannabis Consulting; and one individual. Your Committees received comments on this measure from the Department of Health and Department of the Attorney General.

Your Committees find that finds Act 241, Regular Session of 2015, established the State's medical cannabis dispensary law. Although the medical cannabis dispensary system has been successful, amendments to the State's medical use of cannabis law and medical cannabis dispensary program law are necessary to facilitate the administration of the laws, resolve issues that have arisen under existing law, and clarify legislative intent. This measure effectuates these necessary amendments.

Your Committees acknowledge the concerns raised by the Department of Health regarding whether the proposed dispensary program licensing fee structure will adequately maintain existing personnel and the operational cost of licensing, inspecting, and regulating the dispensary industry. Moreover, the existing fee structure that was implemented by the Legislature in 2022, and the correlating revisions to the administrative rules were completed just four months ago. Your Committees also acknowledge the testimony of the Department of the Attorney General raising concerns over the enforceability and vagueness of the packaging requirement and the standards pertaining to the Department of Health's rulemaking authority. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, amendments to this measure are necessary by:

- (1) Deleting sections 5, 7, and 12 of the measure, thereby retaining the existing dispensary program licensing fee structure, advertising and packaging requirements, and the Department of Health's rulemaking standards, respectively;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 962, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 962, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 563 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 896**

The purpose and intent of this measure is to:

- (1) Prohibit a covered entity, as defined in the federal Health Insurance Portability and Accountability Act of 1996, P.L. 104-191, as amended, from disclosing communication or information relating to reproductive health care services;
- (2) Prohibit the issuance of a subpoena in connection with an out-of-state proceeding relating to reproductive health care services legally performed in the State;
- (3) Prohibit agencies from providing information or expending resources in the furtherance of interstate investigations or proceedings relating to reproductive health care services;
- (4) Prohibit the State from penalizing, prosecuting, or otherwise taking adverse action based on pregnancy outcomes or aiding or assisting a pregnant individual with accessing reproductive health care services;
- (5) Require the Governor to deny any demand for surrender of a person charged with a crime involving reproductive health care services unless the conduct constitutes a crime in the State;
- (6) Enumerate laws contrary to public policy and prohibit their application as rules of decision in the courts;
- (7) Prohibit the issuance of a summons for persons in the State to testify in another state with regards to lawful reproductive health care services;
- (8) Clarify under various licensing statutes that the provision or assistance in receipt or provision of medical, surgical, pharmaceutical, counseling, or referral services related to the human reproductive system cannot form a basis for disciplinary action; and
- (9) Prohibit the enforcement of a judgment or order arising from a foreign penal civil action or other penal law with respect to reproductive health care services.

Your Committees received testimony in support of this measure from the Department of Human Services; Hawaii Medical Board; Board of Nursing; Board of Chiropractic; Board of Pharmacy; two members of the Kaua'i County Council; Office of the Prosecuting Attorney for the County of Kaua'i; Hawai'i Section of the American College of Obstetricians and Gynecologists; Hawai'i State Center for Nursing; Hawai'i State Coalition Against Domestic Violence; Planned Parenthood Alliance Advocates – Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; American Association of University Women of Hawai'i; Hawai'i Friends of Civil Rights;

Pride at Work Hawai'i; Hawaii Medical Association; Hawai'i Association of Professional Nurses; Rainbow Family 808.com Inc.; Hawai'i Women Lawyers; Midwives Alliance of Hawaii; Democratic Party of Hawai'i Women's Caucus; Save Medicaid Hawaii; Hawaii Association of Health Plans; Healthcare Association of Hawaii; and fifty-seven individuals. Your Committees received testimony in opposition to this measure from eleven individuals. Your Committees received comments on this measure from the Department of Health, Office of Information Practices, Board of Psychology, Board of Naturopathic Medicine, Hawaii Medical Service Association, and one individual.

Your Committees find that Hawaii has been and remains at the forefront of efforts to protect the right to privacy and personal autonomy independently of, and more broadly than, the United States Constitution. This is evidenced by the State being the first in the nation to decriminalize abortion through its enactment of Act 1, Session Laws of Hawaii 1970, codified at section 453-16, Hawaii Revised Statutes. Your Committees further find that the Hawaii State Constitution was amended in 1978 to include a separate and distinct section, Article I, section 6, that recognizes the people's right to privacy and requires the Legislature to take affirmative steps to implement this right. In discussing this amendment, the delegates to the 1978 Constitutional Convention found that "this privacy concept encompasses the notion that in certain highly personal and intimate matters, the individual should be afforded freedom of choice absent a compelling state interest" and that privacy is "a fundamental right subject to interference only when a compelling state interest is demonstrated." Comm. of the Whole Rep. No. 15 in 1 Proceedings of the Constitutional Convention of Hawaii of 1978 (1980), at 1024. Recognizing this fundamental right, existing state law prohibits the State from denying or interfering with a female's right to choose or obtain an abortion of a nonviable fetus or an abortion that is necessary to protect the life or health of the female.

While Hawaii has been a long-time leader in protecting reproductive health care rights, your Committees find that the landscape in the remainder of the country is rapidly changing. In *Dobbs v. Jackson Women's Health Org.*, 142 S.Ct. 2228 (2022), the Supreme Court of the United States overruled nearly fifty years of precedent regarding reproductive rights and bodily autonomy, including *Roe v. Wade*, 410 U.S. 113 (1973) and *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833 (1992), by holding that the United States Constitution does not provide a right to abortion and that the authority to regulate abortion must be returned to the people and their elected representatives. In response to *Dobbs*, an increasing number of states have enacted state laws that ban abortion or severely restrict access thereto, including laws allowing enforcement through private, civil lawsuits. In addition, lawmakers in conservative states have threatened to pass laws that would reach across state lines and seek to penalize healthcare providers in other states who provided abortion-related care to their residents. These laws aim to restrict the residents of those states from not only accessing basic healthcare in their own state, but also from traveling out-of-state for abortion care. This measure will bolster the State's policy to protect an individual's right to privacy and bodily autonomy within state boundaries.

Your Committees acknowledge the concerns raised by the Office of Information Practices that the section in this measure that specifically relates to disclosure of information by government agencies and employees is so broad as to create a conflict with the open record requirements of the Uniform Information Practices Act, codified at chapter 92F, Hawaii Revised Statutes. Your Committees find that this issue raises concerns that merit further consideration and requests that your Committee on Judiciary further examine this issue.

Your Committees have also heard the testimony of the Hawaii Medical Board requesting that the measure include language that would provide licensees and applicants under the purview of the Hawaii Medical Board the same protection given to licensees and applicants under the purview of the State Board of Nursing and Board of Pharmacy of the State.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "person" to include an individual, partnership, joint venture, corporation, association, business, trust, or any organized group of persons or legal entity, or any combination thereof;
- (2) Inserting language prohibiting the Hawaii Medical Board to impose disciplinary action on a licensee or deny a license to any applicant on grounds that a disciplinary action was taken against the individual by another state, if the disciplinary action of the other state was based on the provision of services relating to the human reproductive system that was in accordance with the laws of this State or would have been in accordance with the laws of this State if it occurred within this State;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 896, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 896, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

**SCRep. 564 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 975**

The purpose and intent of this measure is to:

- (1) Establish the criminal offense of unlawful shipment of tobacco products;
- (2) Amend the definition of "tobacco products" under the Cigarette Tax and Tobacco Tax Law to include electronic smoking devices and e-liquids;
- (3) Increase the license fee for persons engaged as wholesalers or dealers of cigarettes and tobacco products and the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products; and

- (4) Repeal state laws that establish and govern the Electronic Smoking Device Retailer Registration Unit within the Department of the Attorney General; provisions of the Cigarette Tax and Tobacco Tax Law that govern delivery sales; and state law governing smoking that preempts and voids local ordinances and regulations conflicting with state law.

Your Committees received testimony in support of this measure from the Department of Health, Department of the Attorney General, one member of the Hawai'i County Council, American Heart Association, Hawai'i Public Health Institute, Hawaii State Teachers Association, University of Hawaii Student Health Advisory Council, Hawaii COPD Coalition, Hawai'i Children's Action Network Speaks!, Hawai'i Nurses Association - OPEIU Local 50, Hawai'i Primary Care Association, Hawaii Dental Association, Opportunity Youth Action Hawai'i, Hawai'i Public Health Association, Hawaii Health & Harm Reduction Center, Coalition for a Tobacco-Free Hawai'i Youth Council, Hawai'i Community Foundation, Fern Elementary School, and thirty-nine individuals. Your Committees received testimony in opposition to this measure from the Cigar Association of America, Inc.; Americans for Tax Reform; Retail Merchants of Hawaii; Consumer Choice Center; Hawaii Smokers Alliance; Consumer Advocates for Smoke-free Alternatives Association; VOLCANO Vape Shops; National Taxpayers Union; and eight individuals. Your Committees received comments on this measure from the Department of Taxation, Taxpayers Protection Alliance, Tax Foundation of Hawaii, and Reason Foundation.

Your Committees find that tobacco use is the single most preventable cause of disease, disability, and death in the United States. The electronic smoking device industry, including the production of e-liquid in a variety of forms, has grown rapidly, particularly in Hawaii, which has led to a youth vaping epidemic. The rapid growth of the electronic smoking device industry, including retail businesses selling electronic smoking devices or e-liquid, necessitates further regulations to protect consumers, such as requiring retailers of e-liquid to obtain a retail tobacco permit. This measure will provide those additional layers of protection to consumers in Hawaii, especially the youth.

Your Committees acknowledge the testimony of the Department of the Attorney General regarding the lack of clarity as to the state of mind required for a person or entity to commit the offense of unlawful shipment of tobacco products. Amendments to this measure are necessary to address this concern.

Therefore, your Committees have amended this measure by:

- (1) Clarifying that a person or entity commits the offense of unlawful shipment of tobacco products if the person or entity is engaged in the business of selling tobacco products and knowingly ships or causes to be shipped any tobacco products to a person or entity in this State that is not a licensee under this chapter; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 975, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 975, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 565 Health and Human Services on S.B. No. 1531**

The purpose and intent of this measure is to establish the Beneficial Treatments Advisory Council to review mental health treatment information and advise the Department of Health.

Your Committee received testimony in support of this measure from the Clarity Project, Happy Happy Happy LLC dba Beyond Mental Health, Honolulu Psychotherapy LLC, Wellness Kuleana LLC, and forty-nine individuals.

Your Committee finds that major research and academic institutions around the world have shown psilocybin and methylenedioxymethamphetamine, commonly known as MDMA, to be promising and even groundbreaking clinical treatments for a wide range of mental and psychiatric diagnoses, including anxiety, addiction, depression, end-of-life anxiety, and post-traumatic stress disorder. Psilocybin is increasingly considered one of the most natural, effective, non-addictive, and safe treatment options for depression and anxiety, especially when administered in clinical settings. MDMA is also considered one of the most effective treatments for post-traumatic stress disorder, which affects five percent of the U.S. population. Your Committee also finds that the United States Food and Drug Administration has granted both psilocybin and MDMA its "Breakthrough Therapy" designation to expedite research and potential approval. Both psilocybin and MDMA are expected to be federally rescheduled and approved for medical use in the next few years. This measure will allow the State to make an informed decision on new and revised mental health treatment options, paving the way for the development of a long-term strategic plan to ensure the availability of therapeutic psilocybin, psilocybin-based products, and MDMA that are safe, accessible, and affordable.

Your Committee has amended this measure by:

- (1) Replacing the Director of Health with the Executive Director of Office of Wellness and Resilience as the chairperson of the Beneficial Treatments Advisory Council;
- (2) Clarifying that all members of the advisory council shall serve without compensation but shall be reimbursed for expenses, including travel expenses, necessary for the performance of their duties;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1531, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1531, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 566 Health and Human Services on S.B. No. 1373**

The purpose and intent of this measure is to clarify the allowable revenues to be deposited into the Executive Office on Aging Administrative Claiming Special Fund and the purposes for which the fund may be used.

Your Committee received testimony in support of this measure from the Department of Health Executive Office on Aging.

Your Committee finds that Executive Office on Aging programs are eligible to receive Medicaid administrative claiming moneys. However, existing state law restricts the use of certain Medicaid administrative claiming moneys to the operation of the Executive Office on Aging's aging and disability resource centers. This measure removes this unnecessary restriction to allow revenues from certain Medicaid administrative claiming moneys to be used for any Executive Office on Aging program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1373, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1373, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 567 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 636**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to establish a Visitor Green Fee Program to collect fees from visitors to the State for the provision of sustained and increased funding for the protection, restoration, and care of Hawaii's natural, cultural, and outdoor recreational resources and build the resilience of these resources against the impacts of climate change and local threats;
- (2) Establish the Hawaii Environmental Legacy Commission to guide the disbursement of funds collected from the Visitor Green Fee Program; and
- (3) Establish the Hawaii Environmental Legacy Special Fund.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Tourism Authority; Climate Protectors Hawaii; Imua Alliance; Resources Legacy Fund; Friends of Hanauma Bay; Hawaii Lodging and Tourism Association; Nature Conservancy; Kanalani Ohana Farm; hawaiiigreenfee.org, representing a coalition of forty-one entities; and eight individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Tax Foundation of Hawaii, Kohala Coast Resort Association, and Maui Hotel and Lodging Association.

Your Committees find that despite the incredible value of Hawaii's natural resources, the State currently invests less than one percent of its budget to protect, restore, and manage these assets. Your Committees believe that to leave a legacy of healthy natural resources for future generations of Hawaii's residents and visitors, the State must urgently address the estimated \$360,000,000 annual conservation funding gap and provide sustained, increased funding for Hawaii's natural resources and environment. This measure will provide additional resources to protect Hawaii's natural resources for the enjoyment of future generations while supporting the creation of thousands of jobs for Hawaii residents.

Your Committees have amended this measure by:

- (1) Replacing the term "natural resources" with "natural and cultural resources" as necessary;
- (2) Deleting language that would have made the Visitor Green Fee Program for the purpose of advancing the 2030 Aloha+ Challenge and deleting references to the 2030 Aloha+ Challenge throughout the measure;
- (3) Inserting language clarifying that the purpose of the Visitor Green Fee Program is to provide sustained and increased funding for the protection, restoration, and care of Hawaii's natural, cultural, and outdoor recreational resources and to build the resilience of these resources against the impacts of climate change and local threats;
- (4) Clarifying that the Hawaii Environmental Legacy Commission shall rank project applications and make recommendations to the Board of Land and Natural Resources regarding the allocation of the Visitor Green Fee Program funds from the Hawaii Environmental Legacy Special Fund;
- (5) Requiring the Board of Land and Natural Resources to prioritize projects that directly support the protection, restoration, and care of Hawaii's natural, cultural, and outdoor recreational resources;

- (6) Requiring the annual report published by the Department of Land and Natural Resources to include how the Hawaii Environmental Legacy Special Fund promotes the protection, restoration, and care of Hawaii's natural, cultural, and outdoor recreational resources;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 636, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 636, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Kim, Wakai, Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 568 Water and Land on S.B. No. 409**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Land and Natural Resources for the Community Fuels Reduction Project; and
- (2) Require the Department of Land and Natural Resources, beginning with fiscal year 2025-2026 and each fiscal year thereafter, to establish the Community Fuels Reduction Project as a separate line item within the Department's budget.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Labor and Industrial Relations, State Fire Council, Honolulu Fire Department, Department of Fire and Public Safety of the County of Maui, Hawai'i Fire Department, Big Island Invasive Species Committee, Hawaii Wildfire Management Organization, Hydroponics Alternatives LLC, Stone Creek Fire LLC, Livable Hawaii Kai Hui, Puu Lani Ranch Homeowners' Association, and eleven individuals.

Your Committee finds that the Department of Land and Natural Resources is statutorily mandated to take measures for the prevention of wildland fires within the Division of Forestry and Wildlife managed lands and to cooperate with county and federal fire agencies in developing plans and programs for the prevention of wildfires on lands not managed by the Division. Your Committee further finds that ongoing climate change will result in warmer, drier conditions and droughts, and can lead to longer and more active fire seasons. Your Committee finds that appropriations are necessary to continue the Community Fuels Reduction Project. Therefore, this measure appropriate funds to the Department of Land and Natural Resources for the Community Fuels Reduction Project and requires the Department of Land and Natural Resources, beginning with fiscal year 2025-2026 and each fiscal year thereafter, to establish the Community Fuels Reduction Project as a separate line item within the Department's budget.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 409, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 569 Water and Land on S.B. No. 798**

The purpose and intent of this measure is to clarify that a developer is responsible for ensuring that the use of out-of-state time share units for time sharing purposes complies with zoning and land use laws and rules of the jurisdiction where the time share units are located but is not required to submit evidence of such compliance to register in Hawaii.

Your Committee received testimony in support of this measure from American Resort Development Association Hawai'i, Marriott Vacations Worldwide, Hilton Grand Vacations, and Maui Hotel and Lodging Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that to enforce the zoning requirements established for time sharing and transient vacation rentals in the State, the Department of Commerce and Consumer Affairs requires that developers submit a written confirmation of county zoning form. This form must be signed by the county where the time share units are located and is intended to confirm that the time share plan meets the zoning limitations outlined in section 514E—5, Hawaii Revised Statutes (HRS). However, your Committee finds that because sections 514E—4 and 514E—5, HRS, were intended to address only the zoning of Hawaii property, section 514E—30, HRS, provides that those sections do not apply to non-Hawaii property. Your Committee further finds that the 1980 Hawaii Time Share Act does not attempt to impose or enforce the zoning requirements applicable to out-of-state time share units, nor does that Act require that developers submit evidence that out-of-state time share units comply with the zoning laws where the time share units are located.

Therefore, this measure clarifies that a developer is responsible for ensuring that the use of out-of-state time share units for time sharing purposes complies with zoning and land use laws and rules of the jurisdiction where the time share units are located but is not required to submit evidence of such compliance to register in Hawaii.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 570 Water and Land on S.B. No. 1136**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to conduct a study of the carrying capacity of Makena State Park in the County of Maui; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui, Kihei Community Association, and Maui Tomorrow Foundation. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that that Makena State Park is a unique community resource not only for south Maui but for all the people of the island. As with other state beach parks, the increase in tourism volume has resulted in an excess of visitor traffic to Makena State Park, necessitating further investment in this iconic area.

Your Committee further finds that when increased tourism volume created a strain at Haena and Waianapanapa state parks, a carrying capacity study was conducted and a tourism management plan was put into place. The plan allowed for the generation of additional revenue from the increased traffic and ensured that residents' public access to these important community assets would be preserved. Therefore, this measure requires the Department of Land and Natural Resources to conduct a study of the carrying capacity of Makena State Park in the County of Maui.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1136, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 571 Water and Land on S.B. No. 775**

The purpose and intent of this measure is to:

- (1) Require hunting guides who take their clients to hunt on private lands to first obtain written permission from the owner of the private land, or occupier or holder, where appropriate; and
- (2) Require hunting guides to provide copies of the written permissions obtained to hunt on private lands as part of their annual reports to the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Cattlemen's Council, Inc.; and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that with the rising popularity of guided hunting tours, some hunting guides are taking their clients to hunt on private lands without obtaining permission from the landowners, and landowners have alarmingly witnessed unknown persons walking on their land with guns or other weapons. Your Committee finds that while existing law prohibits hunters from hunting on private lands without first obtaining permission from the landowner, some hunting guides misrepresent to their clients that they have obtained verbal permission from the landowner, leading to disagreements and allegations of trespassing, which damages the reputation of the State's guided hunting tour industry. Therefore, this measure requires hunting guides who take their clients to hunt on private lands to first obtain written permission from the owner of the private land, or occupier or holder, where appropriate, and requires hunting guides to provide copies of the written permissions obtained to hunt on private lands as part of their annual reports to the Department of Land and Natural Resources.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 775, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 572 Health and Human Services on S.B. No. 1369**

The purpose and intent of this measure is to repeal the requirement to transfer the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the University of Hawai'i System and Oahu Regional Health Care System.

Your Committee finds that Act 212, Session Laws of Hawaii 2021, initiated the transfer of the Oahu Regional Health Care System to the Department of Health and required the two to establish a working group to facilitate the transition. The working group determined the transition would require at least 2.5 years to complete, approximately \$10,300,000 to effectuate the transition, and roughly \$5,000,000 per year to maintain operations. Recognizing that the protracted timeline and estimated costs to implement and maintain the transition may outweigh the transition's anticipated benefits, this measure would repeal the requirement to transfer the Oahu Regional Health Care System to the Department of Health.

Your Committee notes that, per testimony received by your Committee, the transfer of the Oahu Regional Health Care System to the Department of Health may warrant reevaluation. Therefore, amendments to this measure are necessary to allow for further review.

Your Committee has amended this measure by:

- (1) Deleting language that would have repealed the requirement to transfer the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health;
- (2) Inserting language that requires by December 31, 2027, the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1369, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1369, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 573 Health and Human Services on S.B. No. 1038**

The purpose and intent of this measure is to:

- (1) Clarify reimbursement for telehealth services via an "interactive telecommunications system";
- (2) Define "interactive telecommunications system"; and
- (3) Clarify that interactive telecommunications may include audio-only communication for services related to diagnosis, evaluation, or treatment of a mental health disorder, under certain circumstances.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Hawaiian Islands Association for Marriage and Family Therapy; Hawai'i Primary Care Association; National Association of Social Workers - Hawai'i; Hawai'i Psychological Association; AARP Hawai'i; Elemental Guidance, LLC; Hawaii Substance Abuse Coalition; Hawaii Medical Association; Hawai'i Parkinson Association; American Cancer Society Cancer Action Network; Hawaii Disability Rights Center; Hawai'i Pacific Health; Alzheimer's Association; Kapolei Chamber of Commerce; AlohaCare; and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Counseling and Education Center, Inc. Your Committee received comments on this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committee finds that many residents in underserved and low-income communities where cellular data plans and broadband are inaccessible are unable to utilize telehealth services that require internet connectivity. The Centers for Medicare and Medicaid Services authorizes coverage of audio-only services used in the treatment of mental health and substance abuse, under certain circumstances, allowing federally qualified health centers and rural health clinics to use telehealth to care for patients in patients' homes. This measure authorizes the use of standard telephone contacts for telehealth purposes; in certain circumstances to ensure coverage parity across managed care plans and commercial health care plans.

Your Committee notes the concerns raised by Hawaii Medical Service Association that care provided via audio-only interactive telecommunications has not been proven to be as effective as care provided in person or via telehealth. Therefore, reimbursement for audio-only visits should not equal that of face-to-face visits. Further, behavioral health providers obtain valuable insights through face-to-face interactions. Requirements similar to those of the Centers for Medicare and Medicaid Services, which specify periodic in-person visits, are necessary. Additionally, the Centers for Medicare and Medicaid Services' temporary telehealth provisions are scheduled to end on December 31, 2024. A corresponding sunset date to this measure would allow time to study the efficacy and value of audio-only visits for behavioral health. Therefore, should your Committee on Commerce and Consumer Protection choose to deliberate on this measure, your Committee respectfully requests that it considers examining these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the definition of "interactive telecommunications system" is consistent with that used by the Centers for Medicare and Medicaid Services, as the term is defined in title 42 Code of Federal Regulations section 410.78(a), as amended, relating to telehealth services; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1038, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1038, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 574 Health and Human Services on S.B. No. 1370**

The purpose and intent of this measure is to:

- (1) Establish a uniform fee for licenses to solemnize marriages; and
- (2) Specify in what amount and to which fund the fee shall be deposited.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that there is a fee for the procurement of a civil license to solemnize marriages. However, neither religious nor judicial licenses to solemnize marriages require fees. To rectify this inequitable practice, this measure establishes a uniform fee for licenses to solemnize marriages.

Your Committee has considered the testimony of the Department of Health and consistent therewith has amended this measure by:

- (1) Establishing a standard license, valid for one year from the date of issuance, and a short-term license, valid for sixty days from the date of issuance, to solemnize marriages;
- (2) Establishing a fee of \$100 per year for the issuance of a standard license and \$25 per sixty-day period for the issuance of a short-term license;
- (3) Specifying that for each standard license fee, \$75 shall be deposited to the Vital Statistics Improvement Special Fund and \$25 to the General Fund;
- (4) Specifying that for each short-term license fee, \$20 shall be deposited to the Vital Statistics Improvement Special Fund and \$5 to the General Fund;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1370, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 575 (Majority) Health and Human Services on S.B. No. 239**

The purpose and intent of this measure is to:

- (1) Establish within the Department of Human Services' Child Care Assistance Program, a Child Care Accreditation Program to support licensed or registered child care providers to obtain accreditation from a national early learning accrediting organization;
- (2) Extend the deadline by which unaccredited service providers of the Preschool Open Doors Program must commence the national early learning accrediting organization accreditation process and obtain accreditation;
- (3) Appropriate an unspecified amount of funds for the establishment, implementation, and administration of the Child Care Accreditation Program, including funding for one full time equivalent (1.0 FTE) position; and
- (4) Appropriate an unspecified amount of funds to be deposited into the Child Care Grant Program Special Fund to award grants to private child care providers participating in the Child Care Accreditation Program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy Project, AAUW of Hawaii, Hawai'i Association of School Psychologists, and ten individuals. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that the Preschool Open Doors Program is the State's school readiness program that serves low- to moderate-income families whose children will be eligible for kindergarten in the following school year. The program provides critical subsidies for income-eligible families sending their children to a licensed preschool during the year prior to kindergarten entry. To ensure that children participating in the program are receiving certain levels of care, existing law requires service providers who have not obtained accreditation from a national early learning accrediting organization by July 1, 2022, to start the accreditation process no later than July 1, 2024, and be accredited by July 1, 2029. However, the effects of the coronavirus disease 2019 pandemic have delayed this process for many child care providers. This measure will provide the additional time and funds needed for child care providers to obtain the necessary accreditation.

Your Committee acknowledges the concerns raised by the Department of Human Services regarding the eligibility requirements for the Child Care Accreditation Program. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Child Care Accreditation Program shall be established within the Department of Human Services' Child Care Subsidy Program Office;
- (2) Expanding the accrediting entity to organizations approved by the Director of Human Services;
- (3) Inserting a definition for "eligible child care provider" to mean a child care facility that is not part of or owned or operated by a private educational institution; provided that an organization or individual that owns or operates both a private educational institution and a child care facility may be deemed an "eligible child care provider" if the organization or individual can provide evidence that the operations and finances of the private educational institution are completely separate from the operations and finances of the child care facility so that it is clear that a child care grant would not support or benefit the private educational institution in violation of article X, section 1 of the Hawaii State Constitution;
- (4) Allowing the funds appropriated for the Child Care Accreditation Program to be used to fund the annual accreditation fees incurred by eligible child care providers participating in the Preschool Open Doors program;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 239, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 576 (Majority Health and Human Services on S.B. No. 129**

The purpose and intent of this measure is to:

- (1) Expand the provisions for a minor to consent to no-cost emergency shelter and related services under certain circumstances provided that the provider supplying the shelter is licensed and in compliance with zoning and safety regulations;
- (2) Require the Department of Human Services to make every effort to have a shelter for minors on each island;
- (3) Make permanent, the amendments to the definition of "provider" to include organizations that are not child placing organizations or child caring institutions that meet certain criteria; and
- (4) Require the Department of Human Services to amend its administrative rules to allow non-licensed child placing organizations with documented experience providing shelter and supportive services to be pre-qualified for a certificate of approval from the Department of Human Services.

Your Committee received testimony in support of this measure from Rainbow Family 808.com Inc., Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i Youth Services Network, Hawai'i Health & Harm Reduction Center, and three individuals. Your Committee received comments on this measure from the Department of Human Services, Office of Youth Services, Department of the Attorney General, Opportunity Youth Action Hawai'i, and Residential Youth Services & Empowerment.

Your Committee finds that addressing the needs of unaccompanied homeless minors is a multi-faceted, statewide challenge, and that the State must take action to better provide services for homeless unaccompanied minors throughout the islands. This measure supports youth experiencing homelessness by increasing opportunities for them to access shelters and related services and independently consent to these services.

Your Committee acknowledges testimony by the Department of the Attorney General recommending that the provision in this measure requiring shelter providers to be licensed and in compliance with zoning and safety regulations be removed, as a provider's obligation to contact a minor's parent when the minor seeks emergency shelter is unrelated to licensing and zoning and safety regulations.

Your Committee also notes certain testimony by the Department of Human Services stating that non-licensed child placing organizations do not exist in the State, thereby making moot the measure's requirement that the Department amend its administrative rules to pre-qualify non-licensed child placing organizations for a license.

Your Committee further acknowledges the concerns raised by the Office of Youth Services over the co-habitation of unrelated minors and adults within the same facility without fully separated service areas. Your Committee also notes testimony that the Safe Spaces for Youth Pilot Program, an inter-agency initiative to provide safe spaces in each county for youth experiencing homelessness that was established by Act 130, Session Laws of Hawaii 2022, already requires the Department of Human Services to procure contracts to operate homeless shelters in each county for youth aged fourteen to twenty-four years of age.

Therefore, amendments to this measure are necessary to address these matters.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required providers supplying shelter to be licensed and be in compliance with zoning and safety regulations with regard to a provider's obligation to contact the parents of the minor seeking emergency shelter;

- (2) Deleting language that would have required the Department of Human Services to make every effort to ensure every island has a shelter for unaccompanied minors;
- (3) Clarifying that providers shall maintain separation for unrelated adults and minor children;
- (4) Deleting section 3 of the measure, which would have required the Department of Human Services to amend its administrative rules to allow certain non-licensed child placing organization to be pre-qualified for a certificate of approval;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 129, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 577 Health and Human Services on S.B. No. 235**

The purpose and intent of this measure is to require the Department of the Attorney General to:

- (1) Develop and implement a Human Trafficking Prevention Program to prevent human trafficking and provide increased support and assistance to victims of human trafficking and victims of the commercial sexual exploitation of children;
- (2) Submit a report to the Legislature before the Regular Session of 2024 on the State's efforts to address the commercial sexual exploitation of children; and
- (3) Submit a report to the Legislature before the Regular Session of 2025 on the State's efforts to address human trafficking.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i State Commission on the status of women, Zonta Club of Hilo, Catholic Charities Hawai'i, Hawai'i Women Lawyers, Imua Alliance, and three individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that children, particularly those who are at-risk for mental illnesses and substance abuse issues, are vulnerable to sex trafficking and commercial sexual exploitation. Additionally, the Department of Human Services has been receiving an increasing number of hotline calls involving witnesses or victims of child sex trafficking; however, due to the covert nature of child sex trafficking and the reluctance of exploited youth to identify themselves as victims, it is difficult to accurately measure the scope of the problem. To adequately serve children who have been sexually exploited, your Committee believes that a statewide human trafficking program is needed to develop and utilize comprehensive interagency case management strategies, protocols, and a multi-disciplinary response that is both victim-centered and offender-focused.

Your Committee notes that the Department of the Attorney General currently has an established Human Trafficking Abatement Section and participates with law enforcement agencies, governmental departments, and community service providers to combat human trafficking. Accordingly, this measure will support the Department of the Attorney General's efforts and ensure the continuity of its critical work in these areas.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of the Attorney General shall implement strategies to address accountability for child enticement, commercial sexual exploitation, pimping, and human trafficking through law enforcement efforts, prosecutions, and crime prevention efforts;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 235, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 578 Higher Education on S.B. No. 1511**

The purpose and intent of this measure is to:

- (1) Clarify that the purpose of the Research Corporation of the University of Hawaii is to promote educational, scientific, and literary pursuits through research, training of research personnel, and dissemination of knowledge by publication of research findings; and
- (2) Limit the Corporation's undertakings to acts that are reasonably necessary to carry out its stated purpose.

Your Committee received testimony in support of this measure from the International Longshore & Warehouse Union Local 142 and twenty-nine individuals. Your Committee received testimony in opposition to this measure from the Research Corporation of the University of Hawai'i, Subcontractors Association of Hawaii, and twenty-eight individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and University of Hawai'i System.

Your Committee finds that the Research Corporation of the University of Hawaii was established for the purposes of promoting, encouraging, initiating, developing, and conducting scientific research and investigation in all branches of learning and disseminating this research and investigation to the public. When establishing the Corporation, to promote cooperative research projects, the Legislature granted the Corporation flexibility in the hiring of its personnel and handling and disbursement of moneys by exempting it from certain state laws. However, the Corporation has gradually expanded its undertakings into areas beyond its intended purpose, and the benefits of exemptions from statutory requirements have been extended to apply beyond the Legislature's original intent. Therefore, to facilitate greater accountability and transparency of the Corporation, this measure clarifies the purpose of the Research Corporation of the University of Hawaii and limits the Corporation's activities to those reasonably necessary to carry out its purpose.

Your Committee has amended this measure by:

- (1) Specifying that this measure addresses an issue of statewide concern;
- (2) Clarifying the University shall notify the appropriate bargaining unit for state projects or programs involving the Corporation or the Corporation and a state employee;
- (3) Removing language that would have required the Corporation to provide to the Legislature justification for the employment of civil service employees;
- (4) Requiring the Corporation to obtain the Governor's approval on all initial requests for service projects;
- (5) Removing language that would have authorized the Corporation to allow minor renovation projects in support of research and training not to exceed \$2,000,000;
- (6) Clarifying that the Corporation shall be authorized to set up a special account for depositing moneys received from either public or private contracts, or from public or private grants, awards, or gifts related to research and training;
- (7) Limiting Corporation internal service orders and revolving accounts that use University intramural funds to certain projects relating directly to research and training; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1511, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

**SCRep. 579      Agriculture and Environment on S.B. No. 756**

The purpose and intent of this measure is to establish the Access to Local Food Act to authorize cottage food operations to sell cottage food products, under certain conditions, upon receiving a permit from the Department of Health.

Your Committee received testimony in support of this measure from Food+ Policy Internship 2023, Hawai'i Farmers Union United, Big Island Box, Hawaii Master Food Preservers, Institute for Justice, Hawai'i Farm Bureau, and ten individuals. Your Committee received comments on this measure from the Department of Agriculture and Grassroot Institute of Hawaii.

Your Committee finds that local food production is integral to the State's economic development and food security. Homemade food that is sold directly to consumers, or "cottage food", is a small but growing industry, and cottage food is preferred among many consumers who are mindful of responsible sourcing and healthy eating options, and want to support local communities and individuals. However, the existing regulatory framework creates several challenges for entrepreneurs, especially individuals in rural areas who are unable to access commercial or certified kitchens. Additionally, the Department of Health does not provide certain exemptions for cottage foods. This measure establishes the Access to Local Food Act to authorize cottage food operations in the State, under certain conditions and upon receipt of a permit from the Department of Health, to support the State's economy and increase tax revenues.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

**SCRep. 580      Agriculture and Environment on S.B. No. 508**

The purpose and intent of this measure is to:

- (1) Require the Clean Water Branch of the Department of Health to perform water quality testing during brown water advisories, as practicable, and inform the public of health risks associated with water runoff during brown water advisories;
- (2) Require the Department of Health to consider environmental justice issues when making certain assessments and determinations; and
- (3) Appropriate funds for the establishment of positions within the Department of Health.

Your Committee received testimony in support of this measure from Surfrider Foundation; Hawaii Lifeguard Hui; Polaniu Hiu; Windward Coalition; Sierra Club of Hawai'i; Hui O He'e Nalu, Inc; EarthJustice; Friends of Maha'ulepa; Waiwai'ola Waterkeepers; Center for Biological Diversity; Kia'i Wai O Wai'ale'ale; Kaiola Canoe Club; West Maui Preservation Association; Hawaii Association for Marine Education and Research; Friends of Hanauma Bay; Maui Tomorrow; Young Progressives Demanding Action Hawai'i

Environmental Justice Action Committee; Hawaii Wildlife Fund; Wastewater Alternatives and Innovations; The Kali'i Group; Mālama Maunaloa; Kihei Community Association, HI Strikes Back; and seven individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the ocean is a vital part of community life in Hawaii, from recreation and meal gatherings to cultural and traditional practices, and that the way of life in Hawaii comes part and parcel with clean coastal beaches and waters. Your Committee additionally finds that statewide water quality monitoring at beaches in Hawaii currently lags behind other states, favors beaches predominately visited by tourists, and lacks data from wet weather and heavy rains that lead to runoff and brown water events. Thus, this measure will require the Department of Health to continue to test water quality during brown water advisories, issue health advisories to explain health risks associated with water runoff, consider environmental justice issues in assessments, and appropriate funds for the establishment of full-time employees to implement this initiative.

Your Committee has amended this measure by:

- (1) Clarifying that the Clean Water Branch shall adhere to their regularly scheduled beach sampling schedule;
- (2) Deleting the requirement that the Department of Health make proactive efforts to communicate brown water advisories with the public and replacing it with a requirement to post informational signs during brown water advisories at tier 1 beaches that explain the health risks associated with water runoff; and
- (3) Clarifying that the Department of Health shall prioritize environmental justice issues.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 508, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 508, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

**SCRep. 581 Commerce and Consumer Protection on S.B. No. 1131**

The purpose and intent of this measure is to amend the definitions of “time share interest” and “time share plan” to include any fractional ownership plan for a joint homeownership limited liability company, or any other entity.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that a time share plan, which allows an entity to purchase a small interest in a property and provides that entity the right to occupy the property for a period proportionate to the size of the entity’s investment, is regulated by chapter 514E, Hawaii Revised Statutes. However, a new form of joint homeownership designed to evade the State’s time share plan laws has emerged in the form of time share limited liability companies. Under this scheme, buyers purchase shares in a limited liability company that owns a property and the buyers use the property as a second home. Your Committee finds that this type of joint homeownership should fall within the scope of the State’s time share law. Accordingly, this measure amends the definitions of “time share interest” and “time share plan” to include any fractional ownership plan for a joint homeownership limited liability company, or any other entity.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1131, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 582 (Majority) Commerce and Consumer Protection on S.B. No. 1178**

The purpose and intent of this measure is to modernize the definition of “personal information” for the purposes of notifying affected persons of data and security breaches.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and three individuals. Your Committee received testimony in opposition to this measure from the State Privacy & Security Coalition and TechNet. Your Committee received comments on this measure from Hawaii Bankers Association, Hawaii Financial Services Association, and Hawaii Credit Union League.

Your Committee finds that the public use of the Internet and related technologies has significantly expanded in recent years. Nevertheless, a lack of meaningful government regulation has resulted in personal privacy being compromised. Chapter 487N, Hawaii Revised Statutes, requires certain businesses and government agencies that collect “personal information” to notify the public of data breaches. However, the definition of “personal information” as used in existing law is now outdated and is not comprehensive enough to cover additional personal identifiers. This measure modernizes the definition of “personal information” in chapter 487N, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1178, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 583 (Joint) Commerce and Consumer Protection and Housing on S.B. No. 1206**

The purpose and intent of this measure is to exempt a depository from the requirement to pay all deposits of public funds upon demand if the depository has provided loans with below-market interest rates and longer terms for housing projects where all dwelling units are exclusively reserved for owner-occupants who own no other real property and are residents of the State.

Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Department of Budget and Finance.

Your Committees find that chapter 38, Hawaii Revised Statutes, authorizes the Director of Finance to deposit the State's money into depositories, which includes state and national banks, credit unions, and other financial institutions. Depositories that hold public funds must pay the State's funds back to the State upon request by the Director of Finance and Comptroller. However, given the lack of affordable housing in the State, creative solutions are needed to incentivize the development of affordable housing. This measure exempts depositories from the requirement to pay all deposits of public funds upon demand if the depository has provided loans with below-market interest rates and longer terms for housing projects where all dwelling units are exclusively reserved for owner-occupants who own no other real property and are residents of the State.

Your Committees acknowledge the testimony of the Department of Commerce and Consumer Affairs and Department of Budget and Finance, who raised concerns that the State should always have access to its deposited cash on hand.

Therefore, your Committees have amended this measure by:

- (1) Amending the exemption granted to depositories to be at the discretion of the Director of Finance; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1206, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1206, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 584 (Majority) Commerce and Consumer Protection on S.B. No. 1324**

The purpose and intent of this measure is to amend various provisions of the State's insurance laws. Specifically, this measure:

- (1) Adds a Health Insurance Administrator Deputy Commissioner position;
- (2) Defines "dormant captive insurance company" and sets out a procedure to apply for the certificate of dormancy;
- (3) Adds the term "doing business as" to "trade name" statutory references;
- (4) Clarifies continuing education provider filing requirements;
- (5) Clarifies reinsurance intermediary-manager filing requirements;
- (6) Amends the surety bond threshold requirement for third party administrators and clarifies the audited financial statements requirements;
- (7) Adopts the revised National Association of Insurance Commissioners Model #880 Unfair Trade Practices Act regarding expansion of value-added products beyond health products;
- (8) Aligns section 431:13-103, Hawaii Revised Statutes, with changes made to article 9 of chapter 431, Hawaii Revised Statutes, by Act 110, Session Laws of Hawaii 2021; and
- (9) Amends the definition of "controlled unaffiliated business" and "participant" as applied to captive insurance companies.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, American Council of Life Insurers, NAIFA Hawaii, and Hawaii Captive Insurance Council.

Your Committee finds that updating the State's insurance laws is necessary for clarity, to provide greater protections to consumers, improve the administration and enforcement of regulated entities, and modernize insurance regulation to conform with current technologies and practices in the insurance industry. This measure will accomplish these goals.

Your Committee acknowledges the testimony of the Department of Commerce and Consumer Affairs, which requested that sections 1 and 3 of this measure, which establishes a Health Insurance Administrator position and exempts the position from the State's civil service law be deleted. Your Committee also acknowledges the testimony of the American Council of Life Insurers, which notes that while this measure adopts certain provisions from the National Association of Insurance Commissioners' Model #880 Unfair Trade

Practices Act (Model Act), this measure omits key provisions from the Model Act. Thus, amendments are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting sections 1 and 3 of this measure, which would have established a Health Insurance Administrator position and exempted the position from the State's civil service law;
- (2) Inserting provisions from the Model Act, which define the "value added products or services" an insurer or producer may lawfully provide to a customer or potential customer and authorize an insurer or producer to offer gifts, items, or services to, and conduct raffles or drawings for, a customer or potential customer, under certain conditions;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1324, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 585 Commerce and Consumer Protection on S.B. No. 1326**

The purpose and intent of this measure is to:

- (1) Provide amendments to external review procedures to improve consistency with the National Association of Insurance Commissioners Uniform Health Carrier External Review Model Act; and
- (2) Require health insurers, mutual benefit societies, and health maintenance organizations to cover mandated services for mammography at least as favorably as coverage for other radiological examinations.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Hawai'i Women Lawyers.

Your Committee finds that the State's external review process for health plans, codified in chapter 432E, Hawaii Revised Statutes, Part IV, is based largely on the National Association of Insurance Commissioners Uniform Health Carrier External Review Model Act (Model Act). However, state law and the Model Act differ significantly with respect to external review, or situations where an insured seeks an independent review of a health insurer's decision to refuse to pay for or authorize a treatment or service. Existing law compels the Insurance Commissioner to follow a procedure that requires rendering a determination as to whether an enrollee is eligible for external review, regardless of whether there is sufficient information or whether the determination is complicated by issues outside the Insurance Commissioner's jurisdiction. This measure will align state law with the Model Act, which provides the Insurance Commissioner with permissive authority to send a case to external review if the Commissioner determines that the case is eligible. This measure also clarifies that health plans must provide any documents they have received related to an external review request to the independent review organization assigned to conduct an external review.

Your Committee also finds that mammograms are effective in detecting breast cancer at an early stage, which is when treatment is most likely to be successful. However, there are many barriers that prevent women from seeking and obtaining routine screening. Without favorable coverage under insurance plans, women are often faced with having to choose between having to pay for what is generally seen as an "elective procedure" and other important expenses, like rent or buying food for their families. Accordingly, this measure requires that insurers, mutual benefit societies, and health maintenance organizations cover mandated services for mammography at least as favorably as coverage for other radiological examinations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1326, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1326, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 586 Commerce and Consumer Protection on S.B. No. 1380**

The purpose and intent of this measure is to:

- (1) Define "waiting room" within a medical cannabis retail dispensary and allow primary caregivers, qualifying out-of-state patients, and caregivers of a qualifying out-of-state patient to access the waiting room;
- (2) Clarify that each day of a violation of chapter 329D, Hawaii Revised Statutes, is a separate violation; and
- (3) Amend the rule-making authority for dispensary-to-dispensary sales.

Your Committee received testimony in support of this measure from the Department of Health, Cure Oahu, Maui Grown Therapies, and Pono Life. Your Committee received comments on this measure from Metrc.

Your Committee finds under the existing medical cannabis dispensary law, any person who is not a “qualifying patient” is not allowed to be on the premises of a medical cannabis retail location. Adding a definition of “waiting room” will better serve the needs of qualifying patients by allowing caregivers to assist patients into retail dispensary locations. Your Committee also finds that amendments to this measure are necessary to allow the Office of Medical Cannabis Control and Regulation to maintain interim rule-making authority and to clarify that each day of a violation of chapter 329D, is a separate violation. This measure makes these necessary amendments and addresses certain patient needs that have come to light since the inception of the medical cannabis dispensary program.

Your Committee acknowledges the testimony of Maui Grown Therapies, which proposed amendments to the medical cannabis and medical cannabis dispensary program that would enhance patient centered services and provide more effective cannabis continuing education.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a provision clarifying that written certifications for a patient with a chronic condition be valid for three years;
- (2) Repealing the existing requirement that a certifying physician and advanced practice registered nurse have a “bona fide” relationship with a qualifying patient;
- (3) Inserting a provision requiring medical cannabis dispensaries, in conjunction with physicians and advanced practice registered nurses who issue written certifications pursuant to section 329-123, Hawaii Revised Statutes, to conduct the continuing education and training program required by section 329D-26, Hawaii Revised Statutes, and repealing language that requires the Department of Health to employ staff to conduct the medical cannabis health education;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1380, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 587 Commerce and Consumer Protection on S.B. No. 1381**

The purpose and intent of this measure is to repeal section 328-106, Hawaii Revised Statutes, which provides the Department of Health the authority to regulate pharmacy benefit managers that reimburse a contracting pharmacy for a drug on a maximum allowable cost basis.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that pursuant to chapter 328, Hawaii Revised Statutes, the Department of Health regulates food, drugs, and cosmetics in a similar manner that the federal Food and Drug Administration (FDA) regulates food, drugs, and cosmetics under the Federal Food, Drug, and Cosmetics Act (Title 21 United States Code sections 301 et seq.). The FDA and the Department of Health promote and protect public health by ensuring the efficacy and safety of prescription drugs. Neither agency regulates the business practices of insurance companies or pharmacies. However, section 328-106, Hawaii Revised Statutes, requires pharmacy benefit managers that reimburse contracting pharmacies for a drug on a maximum allowable cost basis to make certain information available to those pharmacies and establishes an appeals process for those pharmacies. Ensuring that pharmacy benefit managers comply with section 328-106, Hawaii Revised Statutes, is outside the scope of the Department of Health’s purview and expertise. This measure therefore repeals section 328-106, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1381, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 588 (Majority) Commerce and Consumer Protection on S.B. No. 1468**

The purpose and intent of this measure is to:

- (1) Authorize professional land surveyors to enter any private property to perform land surveying, subject to certain provisions regarding notice, identification, and liability; and
- (2) Shield land surveyors from prosecution under criminal trespass laws when performing their duties.

Your Committee received testimony in support of this measure from the City and County of Honolulu; Board of Professional Engineers, Architects, Surveyors, and Landscape Architects; DLB & Associates, LLC; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Association of REALTORS.

Your Committee finds that professional land surveyors often require the right to access private property for the purposes of producing a thorough and complete land survey. The current practice for surveyors and assistants is to verbally ask for permission to enter a property for purposes of surveying. However, without a right of entry, a professional land surveyor conducting a land survey is subject to trespass laws, prohibiting them from conducting a land survey required to ensure the public's interest in maintaining a sound and uniform real property system. This measure seeks to mitigate certain risks while balancing property rights and protect land surveying professionals.

Your Committee acknowledges the testimony of the Department of the Attorney General, which raises concerns that enabling the right of access onto private property beyond the property of the person requesting a survey could be considered a regulatory taking of property, which could expose the government to financial liability. Your Committee notes, however, that twenty-six other states have enacted legislation that grants a right of entry to land surveyors in the performance of their duties, similar to this measure. Additionally, your Committee finds the amendments proposed by the Department of the Attorney General help to clarify this measure, and further believes that extending the notice requirement improve this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that a land surveyor's right of entry is granted to a land surveyor's assistant only if the assistant is under the direct supervision of the land surveyor;
- (2) Clarifying that the land surveyor is required to send a written notice to the owner of, or person with an interest in, the property to be surveyed;
- (3) Inserting a requirement that a land surveyor entering private property must carry a government issued identification in addition to the surveyor's certificate of licensure or authorized seal or stamp;
- (4) Extending the required written notice a land surveyor must provide before entering private property from five days to ten days' written notice; and
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1468, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1468, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 589 Commerce and Consumer Protection on S.B. No. 1577**

The purpose and intent of this measure is to:

- (1) Require the Department of Commerce and Consumer Affairs to make all business registration applications available online; and
- (2) Require all applications to contain certain contact information.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that making all business registration applications available online is a vital step in streamlining the process of registering new businesses in the State. By providing businesses with the ability to register online, the amount of paperwork and time spent in the process of registering a new business can be reduced. This measure will make the process of registering a business simpler and more accessible by requiring the Department of Commerce and Consumer Affairs to make all business registration applications available online and to contain certain contact information.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1577, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 590 Commerce and Consumer Protection on S.B. No. 1328**

The purpose and intent of this measure is to increase the balance that may be retained in the Public Utilities Commission Special Fund (PUC special fund) at the end of each fiscal year from \$1,000,000 to \$3,000,000.

Your Committee received testimony in support of this measure from Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaiian Electric Company, Inc.; and Ulupono Initiative, LLC.

Your Committee finds that each year, public utilities operating in the State pay a public utility fee, which is deposited into the PUC special fund in July and December. The PUC special fund is the primary source of funding for the Public Utilities Commission. Existing law requires that at the end of each fiscal year, which occurs on June 30, all moneys in excess of \$1,000,000 in the PUC special fund be transferred to the state general fund. Thus, each year, the Public Utilities Commission must meet its financial

obligations from June 30 until mid-August, when the public utility fees become available, by utilizing the \$1,000,000 carryover balance. While this carryover balance was sufficient in 1994 when the law was enacted, the responsibilities and operational costs of the Public Utilities Commission have grown significantly. With the Public Utilities Commission's role in developing renewable energy projects in order to meet the State's renewable energy goals, the \$1,000,000 carryover balance will soon be insufficient to meet the Public Utilities Commission's obligations between the end of the fiscal year and the availability of the mid-year deposit into the PUC special fund. This measure increases the carryover balance that may be retained in the PUC special fund from \$1,000,000 to \$3,000,000.

Your Committee has amended this measure by:

- (1) Inserting a blank amount that may be retained in the PUC special fund; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1328, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 591 (Joint/Majority) Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs and Higher Education on S.B. No. 458**

The purpose and intent of this measure is to:

- (1) Cap the amount of royalties from geothermal resources that are to be paid to the State and to the county in which the geothermal resources are located;
- (2) Deposit royalties from geothermal resources into the University Innovation and Commercialization Initiative Special Fund, to be expended by the Hawaii Groundwater and Geothermal Resources Center, to further the discovery and development of geothermal resources; and
- (3) Require the entities that receive geothermal royalties to submit an annual report to the Legislature.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Hawaii Center for Advanced Transportation Technologies, Sustainable Energy Hawai'i, Ulupono Initiative, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Hawaii State Energy Office, Office of Hawaiian Affairs, and Department of Research and Development for the County of Hawaii.

Your Committees find that firm renewable energy sources, such as geothermal, will be necessary to meet the State's one hundred percent renewable portfolio standard by 2045. Your Committees also find that the State faces many competing demands for available land, and geothermal projects use the least amount of land per megawatt of renewable power produced. Your Committees believe that the State will benefit by using royalties from geothermal resources to further explore the geothermal energy potential in the State. This measure will allow the State to reach its renewable energy goals and expand the geothermal energy industry in the State by allocating a portion of the royalties from geothermal energy resources to the University of Hawaii to further the discovery and development of geothermal resources.

Your Committees have amended this measure by:

- (1) Clarifying the royalties that shall be deposited into the University Innovation and Commercialization Initiative Special Fund and requiring the funds to be used to further the discovery and development of geothermal resources and to establish additional exploratory wells for geothermal energy;
- (2) Deleting language that would have capped the amount of royalties from geothermal resources a county could receive;
- (3) Specifying that, of all royalties received by the State from geothermal resources, ten percent shall be paid to the county where the mining operations are situated, twenty percent shall be deposited into the University Innovation and Commercialization Initiative Special Fund, fifty percent shall be paid to the Department of Land and Natural Resources, and twenty percent shall be paid to the Office of Hawaiian Affairs;
- (4) Deleting language that would have annually capped the amount of royalties from geothermal resources distributed to the State; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism, Public Safety and Intergovernmental and Military Affairs, and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 458, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 458, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4; Ayes with Reservations (Elefante, McKelvey). Noes, 1 (Awa). Excused, none.

Higher Education: Ayes, 4; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 592 (Joint/Majority) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 1002**

The purpose and intent of this measure is to direct the Hawaii State Energy Office, in conjunction with the Hawaii Natural Energy Institute, to develop and submit an interim strategy report and final strategy report no later than forty days prior to the convening of the Regular Sessions of 2024 and 2025, respectively, for the construction of at least one atmospheric carbon capture plant in the State by 2028.

Your Committees received testimony in support of this measure from three individuals. Your Committees received testimony in opposition to this measure from nine individuals. Your Committees received comments on this measure from the Department of the Attorney General, Hawaii State Energy Office, and one individual.

Your Committees find that the threat posed by climate change is of serious concern globally and to the State and proactive measures are needed to combat rising record high temperatures and more frequent incidences of extreme weather. Your Committees believe that, in addition to reducing carbon emissions through the use of renewable energy, the State must utilize carbon offsetting strategies and technologies, such as carbon capture technologies. This measure will allow the State to take additional climate action beyond the adoption of renewable energy and proactively help reduce atmospheric carbon dioxide.

Your Committees have amended this measure by:

- (1) Adding legislative findings clarifying that the threat to the State posed by climate change, and the utilization of carbon offsetting strategies and technologies to limit global warming, are matters of statewide concern that fall under the Legislature's purview pursuant to article X, section 6, of the Hawaii State Constitution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1002, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.  
Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 593 (Joint) Commerce and Consumer Protection and Housing on S.B. No. 22**

The purpose and intent of this measure is to:

- (1) Prohibit landlords, including those operating in public housing and educational dorm settings, from renting a dwelling unit that the landlord knows has a current bed bug infestation; and
- (2) Establish procedures that landlords shall take upon receiving notice of an actual or suspected bed bug infestation.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and one individual. Your Committees received comments on this measure from the Hawaii Pest Control Association.

Your Committees find that there is a resurgence in the population of bed bugs in the United States. While bed bugs have not been shown to transmit disease, they can cause negative physical health, mental health, and economic consequences, including allergic reactions to bites, anxiety and insomnia, and the expenditure of financial resources to contain infestations. More than twenty states have laws or regulations specific to bed bugs. Hawaii's landlord-tenant laws, however, do not explicitly address bed bugs. This measure prohibits landlords, including those operating in public housing and educational dorm settings, from renting a dwelling unit that the landlord knows has a current bed bug infestation and establishes procedures that landlords must take upon receiving notice of an actual or suspected bed bug infestation.

Your Committees acknowledge the testimony of the Hawaii Pest Control Association, which raised concerns that the times in which a landlord must investigate a suspected bed bug infestation (five days) and take certain remedial actions after confirming a bed bug infestation (seven days), as currently required in this measure, may not be possible given the busy schedules of pest control operators. Your Committees also note the testimony voicing concern about tenants who refuse to allow their landlord or other unknown persons to enter their home, thus obstructing the landlord's duty to inspect and remediate a bed bug infestation in a timely manner. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Amending the amount of time within which a landlord shall acknowledge receipt of notification of a suspected bed bug infestation and inspect or hire investigatory services for the dwelling unit from five days to fourteen days;
- (2) Amending the amount of time within which a landlord shall take certain remedial actions upon the determination that the tenant's unit has an infestation of bed bugs from seven days to fourteen days;
- (3) Inserting a provision conditioning the landlord's duty to inspect a suspected bed bug infestation or remediate a confirmed bed bug infestation on the tenant's provision of reasonable access to the dwelling unit or common areas upon forty-eight hours' notice;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 22, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 22, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

**SCRep. 594 (Majority) Commerce and Consumer Protection on S.B. No. 54**

The purpose and intent of this measure is to:

- (1) Prohibit the sale, offer for sale, or operation of gasoline-powered leaf blowers;
- (2) Increase the fines for offenses of leaf blower restrictions and provide for the forfeiture of gasoline-powered leaf blowers upon a third violation; and
- (3) Remove the exemption on leaf blower restrictions for government agencies.

Your Committee received testimony in support of this measure from the Department of Transportation and eight individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii, Inc. and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, Outdoor Power Equipment Institute, and one individual.

Your Committee finds that the exhaust and sound emissions from gasoline-powered leaf blowers are a public nuisance and a great concern for the State's public health and welfare. The use of a commercial gasoline-powered leaf blower for one hour emits as much smog-forming pollution as a 2016 Toyota Camry being driven one thousand one hundred miles, and more than three times as much pollution as a commercial gasoline-powered lawn mower. Noise-wise, gasoline-powered leaf blowers operate at ninety decibels, which can cause hearing damage after just two hours of exposure. Accordingly, this measure prohibits the sale, offer for sale, or operation of gasoline-powered leaf blowers; increases the fines for violations of this prohibition; and removes the exemption on leaf blower restrictions for government agencies.

Your Committee received comments from several testifiers who noted that regulating the sale of gasoline-powered leaf blowers could be deemed an emissions standard, which is federally preempted by the Clean Air Act. To abide by federal regulations, amendments to this measure are necessary to regulate the noise that gasoline-powered leaf blowers emit, rather than air-pollutants, by banning the use of gasoline-powered leaf blowers in the urban land use district.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have prohibited the sale and offer for sale of a gasoline-powered leaf blower;
- (2) Inserting language prohibiting the operation of a gasoline-powered leaf blower in any urban land use district, as designated pursuant section 205-2, Hawaii Revised Statutes, at any time;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 54, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 54, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey, Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 595 Commerce and Consumer Protection on S.B. No. 158**

The purpose and intent of this measure is to establish that charging shipping and delivery charges that exceed the actual cost charged to the seller to ship or deliver a commodity to a consumer in Hawaii constitutes an unfair and deceptive practice.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii.

Your Committee finds that Hawaii residents are often barred from claiming offers for free or reduced rate shipping, which are more commonly available to purchasers in other states. Many retailers also apply an arbitrary shipping cost to Hawaii residents, which does not correlate with the actual cost of shipping. Accordingly, this measure establishes that charging shipping and delivery charges that exceed the actual cost charged to the seller to ship or deliver a commodity to a consumer in the State shall constitute an unfair and deceptive practice.

Your Committee notes that the term "commodity" as used in this measure is not defined and should be clarified. Therefore, your Committee has amended this measure by:

- (1) Replacing the term "commodity" as used in this measure with the phrase "consumer commodity or consumer package";
- (2) Inserting definitions of the terms "consumer commodity" and "consumer package"; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 158, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 596 Commerce and Consumer Protection on S.B. No. 352**

The purpose and intent of this measure is to implement amendments to the Uniform Commercial Code set forth by the Uniform Law Commission.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation.

Your Committee finds that the Uniform Commercial Code provides a set of laws for broad categories of commercial transactions including the sale or lease of goods, negotiable instruments, bank deposits and collections, funds transfers, letters of credit, documents of title, investment property, and secured transactions in personal property. The Uniform Commercial Code has been adopted, in part, by all fifty states and the District of Columbia. In 2022, the Uniform Commercial Code was amended to reflect the economy's shift towards services, software, and information-based transactions. This measure adopts the Uniform Commercial Code's amendments, updating the State's law to reflect the current economy.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 352, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 597 (Majority) Commerce and Consumer Protection on S.B. No. 393**

The purpose and intent of this measure is to:

- (1) Until December 31, 2024, extend the period in which a tenant must pay past due rent from five business days to fifteen calendar days from the tenant's receipt of a notice of termination of the rental agreement;
- (2) Require a landlord to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule a mediation;
- (3) Require a landlord to include specific information in the fifteen-calendar day notice provided to tenants and certain mediation centers; and
- (4) Appropriate moneys for the administration of a pre-litigation mediation program and an emergency rent relief program.

Your Committee received testimony in support of this measure from the Hawaii State Coalition Against Domestic Violence. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Legislature enacted Act 57, Session Laws of Hawaii 2021 (Act 57), in response to the tens of thousands of Hawaii residents losing their jobs, leaving them unable to pay their rent during the coronavirus-2019 disease pandemic. Act 57 provided protections for tenants who could not pay rent, including extending the period for a notice of termination of the rental agreement from five days to fifteen calendar days; requiring landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule a mediation; requiring landlords to provide specific information in the fifteen-calendar day notice to tenants and certain mediation centers; and others. While the procedures created by Act 57 were successful, Act 57 automatically repealed in 2022. This measure makes permanent certain provisions of Act 57.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 393, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 598 Commerce and Consumer Protection on S.B. No. 612**

The purpose and intent of this measure is to:

- (1) Require that a disclaimer be provided by a seller or provider of an emotional support animal that the animal is not a service animal;
- (2) Require that a disclaimer be provided by a seller or provider of certificates, identifications, tags, vests, leashes, and harnesses for emotional support animals that the item does not entitle an emotional support animal to the rights and privileges accorded to a service animal; and

- (3) Establish penalties for violations of these requirements.

Your Committee received testimony in support of this measure from the Department of Human Services and one individual. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission, American Kennel Club, and two individuals.

Your Committee finds that purchasers of emotional support animals often mistakenly believe that they will be afforded the same rights and privileges as the users of service animals. A service animal is defined in existing law to mean any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. An emotional support animal does not have the same specialized training and thus emotional support animals and their owners are not required to be accommodated in public places like service animals and their human partners. Your Committee finds that to avoid this confusion, the purchase of emotional support animals and items identifying animals as emotional support animals, such as certificates, identifications, tags, and other items, should be accompanied by disclaimers that their emotional support animal is not a service animal. This measure requires sellers or providers of emotional support animals and sellers or providers of certificates, identifications, tags, vest, leashes, and harnesses identifying the animal as an emotional support animal, to provide the purchaser with a disclaimer that an emotional support animal is not a service animal under state law.

Your Committee acknowledges the testimony of the Hawaii Civil Rights Commission and American Kennel Club, who both raised concerns that this measure as currently written, inaccurately states that service animals have certain rights and privileges when it is in fact a person with disabilities who has the right to reasonable accommodation. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that clarifies that a user of a service animal, rather than the service animal itself, has certain rights and privileges;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 612, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 599 Commerce and Consumer Protection on S.B. No. 667**

The purpose and intent of this measure is to clarify the application of the general excise tax law with regard to gross income derived from unrelated trade or business activities of nonprofit organizations.

Your Committee received testimony in support of this measure from Hawai'i Youth Services Network; Hawai'i Alliance of Nonprofit Organizations; The Nature Conservancy; Hawaiian Humane Society; Outrigger Duke Kahanamoku Foundation; Nā Hale o Maui; Big Brothers Big Sisters Hawaii, Inc.; Boys and Girls Club of Hawaii; Catholic Charities Hawai'i; American Heart Association, Inc.; American Cancer Society Cancer Action Network; Hawai'i State Coalition Against Domestic Violence; Family Promise of Hawai'i; Kilinahe Foundation; Ho'ōla Nā Pua; Samaritan Counseling Center Hawaii; Shinshu Kyokai Mission of Hawaii; Ku'ikahi Meditation Center; H.T. Hayashi Foundation; Grow Some Good; After-School All-Stars Hawaii; Pōpoki Place O'ahu Cat Sanctuary; Revitalized Life Ally B LLC; Hawaii Bicycling League; 'A'ali'i Mentoring; Hawai'i Children's Action Network Speaks!; Child and Family Service; and seven individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that both state and federal law exempt nonprofit organizations from income tax. Furthermore, under both state and federal law, nonprofit organizations are taxed on income that is generated by an unrelated business activity not substantially related to the nonprofit organization's tax-exempt purpose. However, federal law and Hawaii law differ in their tax treatment of fundraising income. The federal income tax law does not tax fundraising income, while a nonprofit organization's fundraising income is subject to the State's general excise tax. Because Hawaii's nonprofit sector plays a critical role in the economic and social well-being of the State's residents, this measure is necessary to align the state general excise tax law with the federal income tax law as it relates to fundraising income of nonprofit organizations.

Your Committee notes the testimony of several testifiers who stated their preference for the amendments contained in Senate Bill No. 950 (2023), which is nearly identical to this measure but incorporates a technical amendment that addresses the concerns raised by the former Administration in vetoing Senate Bill No. 3201, S.D.1, H.D.1, C.D.1 (2022).

Therefore, your Committee has amended this measure by:

- (1) Clarifying that, in considering whether an activity is an "unrelated trade or business", the modifications to unrelated business taxable income, as provided in section 512(b)(3) of the Internal Revenue Code of 1986, as amended, shall not apply; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 600 (Majority) Commerce and Consumer Protection on S.B. No. 709**

The purpose and intent of this measure is to establish a nonrefundable individual income tax credit for expenses paid to retrofit a residence with wind resistive devices.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Taxation, Department of Defense, and Tax Foundation of Hawaii.

Your Committee finds that hurricanes pose one of the highest-risk hazards to the State. Many older homes lack protective structural elements that have been proven to reduce the severity of damage from hurricane winds. The best long-term solution for reducing potential damage is the statewide use of wind resistive devices. However, the costs associated with the installation of wind resistive devices can deter homeowners from implementing them. Therefore, this measure establishes an income tax credit to assist qualified homeowners with the installation of approved wind resistive devices for their homes.

Your Committee acknowledges the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs, which raised concerns that the Division's staff lacks the appropriate expertise to pre-certify wind resistive retrofit credit costs. Your Committee also acknowledges the testimony of the Department of Taxation, which requested amendments to the measure that would clarify the program's wind resistive retrofit credit eligibility requirements and the length and number of credits available under the program.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank dollar amount for the tax credit;
- (2) Inserting a blank cap for the number of tax credits that may be claimed each year;
- (3) Inserting a provision authorizing the Department of Commerce and Consumer Affairs to adopt rules to determine administration of the program and eligibility requirements;
- (4) Inserting a blank appropriation to the Insurance Division of the Department of Commerce and Consumer Affairs for the establishment, implementation, and administration of the wind resistance retrofit tax credit program;
- (5) Inserting a five-year sunset date;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 709, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 601 (Majority) Health and Human Services on S.B. No. 755**

The purpose and intent of this measure is to:

- (1) Require the State Council on Developmental Disabilities to submit a report focused on the health disparities experienced by individuals with developmental or intellectual disabilities in the State to the Legislature prior to the convening of the Regular Session of 2025; and
- (2) Appropriate \$500,000 for the State Council on Developmental Disabilities to compile and submit the report.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii Fetal Alcohol Spectrum Disorders FASD Action Group, Hawaii Disability Rights Center, and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the core mission of public health, which is to improve the health of all populations, is increasingly framed in terms of health disparities or health inequities. Health equity is achieved when all individuals are given the opportunity to optimize their health, and health inequities create disparities in length of life; quality of life; rates of disease, disability, and death; severity of disease; and access to treatment. According to the Centers for Disease Control and Prevention (CDC), individuals with a disability face many challenges in achieving optimal health and accessing high-quality health care. However, people with disabilities have largely been unrecognized as a population for public health attention. The CDC also reports that as of 2019, an estimated one in four adults in Hawaii report having a disability, including impairments in mobility, cognition, hearing, vision, ability to live independently, and ability to self-care. This measure will help the State and lawmakers obtain the necessary information to assess the status of disabled individuals in Hawaii, determine if health inequity exists between the disabled and non-disabled populous, and if so, recommend measures that can be taken to prevent or mitigate the inequity.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the report to include population-level differences in the State between individuals with and without developmental or intellectual disabilities on health indicators and social determinants of health, including:
  - (A) Access to necessary health care;

- (B) Access to preventive health care, including wellness programs and emotional support services;
  - (C) Health behaviors, including the percentage of individuals who engage in physical activities or smoke cigarettes;
  - (D) Health status and outcomes, including the percentage of individuals who are considered obese or diagnosed with chronic diseases, including diabetes, hypertension, and cardiovascular diseases;
  - (E) Emergency preparedness, including evacuation planning and ability; and
  - (F) Health insurance coverage;
- (2) Inserting language that requires the report to include population-level differences in the State between individuals with and without developmental or intellectual disabilities on health indicators and social determinants of health, including:
- (A) Prevalence of intellectual or developmental disabilities based on zip code;
  - (B) Ethnicity breakdown based on zip code; and
  - (C) Whether people with intellectual or developmental disabilities are having worse health outcomes than their typical non-disabled peers;
- (3) Deleting language that would have required the report to include factors contributing to the population-level differences, including economic and social disadvantages and discrimination and a determination of the population-level differences and contributing factors that are preventable or avoidable; and
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 755, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 602 Health and Human Services on S.B. No. 845**

The purpose and intent of this measure is to:

- (1) Make comprehensive updates to existing law governing acupuncture practitioners to reflect modernized scopes of practice and titles;
- (2) Beginning with the renewal for the licensing biennium commencing July 1, 2025, require licensees to obtain thirty hours of continuing education per licensing biennium; and
- (3) Allow the Board of Acupuncture to issue licenses by reciprocity.

Your Committee received testimony in support of this measure from the Board of Acupuncture; Institute of Clinical Acupuncture and Oriental Medicine; AcuPlan Hawaii; Hawaii Acupuncture Medicine Association; East 2 West Integrative Medicine, LLC; Kailua Acupuncture Clinic; Windward Wellness; American Acupuncture Council; Rubin Enterprises, LLC; OceanMed Clinic; Longevity Health Center; and twenty-three individuals. Your Committee received testimony in opposition to this measure from the American Academy of Medical Acupuncture; Lifestyle Medical Center; Institute of Clinical Acupuncture and Oriental Medicine; and ten individuals. Your Committee received comments on this measure from the Hawaii Medical Association and three individuals.
